ALBUQUERQUE, NEW MEXICO, SATURDAY, AUGUST 9, 1902.

Territorial Topics

SOCORRO.

From the Chieftain.

Mayor and Mrs. M. Cooney left Sunday for a week's absence in the San Matias mountains.

It has rained in Socorro. The long drought was broken Thursday evening by a fine shower that lasted about half an hour and thoroughly drenched the parched earth.

El Negro Baca has shipped his household and office furniture to El Paso and he and his family will also take their departure for the Paso City at once, where Mr. Baca will enter upon the practice of his profession.

Mrs. Charlotte Cortez received \$2,000 Wednesday from the Endowment fund of the Knights of Pythias. That was the amount of the life insurance carried in the organization by her late husband, A. Cortez.

Dr. L. E. Kittrell, Socorro's newly appointed postmaster, assumed the duties of his office at the close of business Tuesday evening. Since that time he and his efficient deputy, Mrs. Effie Berry, have made rapid progress toward a mastery of the situation and the public may hereafter expect as good mail service as extreme care and courtesy can possibly afford.

SAN MARCIAL.

From the Bee.

Harley Foults, Superintendent McNally's stenographer, has resigned and gone to the Indian Territory.

Fireman Elmer Colbert of the Magdalena branch brought back from Raton the credentials of a full-fledged engineer.

San Antonio, notwithstanding the drought and the river being dry, is doing the biggest business it has transacted for years.

Henry Lohman returned from the Las Vegas hospital on Tuesday, where he received treatment for a foot injured by a piece of machinery.

L. M. Lasey and wife have gone to Louisville, Ky., and expect to visit quite a number of the large eastern cities before returning to San Marcial.

Messrs. Bailey and Knap have decorated the interior of the Armstrong block in a way that reflects credit on their workmanship and good taste.

Mrs. R. L. Watkins passed away in death quite unexpectedly Wednesday forenoon. About two weeks ago the deceased gave birth to a heavy child, and her condition for recovery was so favorable that her husband went to Deming Tuesday night to work on the railroad company. She arose in her bed Wednesday to attend to household duties and was then stricken by a fainting spell which proved fatal. She leaves a husband and three children to mourn the loss of a faithful wife and mother.

Prof. C. L. Herrick, brother and co-venturer, have arrived at San Antonio and will commence at once to survey the bottom lands of the Rio Grande. The grant, lay out irrigation ditches and plat the land in 10 to 20 acre lots for farming and fruit growing. The whole grant is to be fenced and the whole area is to be stocked with cattle. A new company has recently purchased this valuable property consisting of 60,000 acres of land with the river running about three miles center. There are nearly 30,000 acres of bottom land on both sides of the river belonging to this grant, and if they can save the water for irrigation purposes it will sustain a dense population.

DEMING.

From the Headlight.

D. W. Bolich, brother of N. A., was in town between trains last Wednesday. The brothers had not met in over twenty years. D. W. Bolich was on his way to Tampico, Mexico, where he will direct the work of sewerage that city. After getting the work well under way he may return to Deming for a longer visit.

Deming is fated sure. Ping pong struck her and struck her hard last Friday night.

Jim Tracy and family are still in California, where Jim is again indulging in the luxuries of a case of rheumatism.

Henry and Mrs. Meyer are still in Los Angeles, with Mrs. Meyer in the hospital, and it is expected an operation will have to be performed before she comes home.

Col. and Mrs. Hudson returned on Wednesday from a month's trip to California. At Lordsburg they were met by Mrs. Hugh Williams, who accompanied them to Deming, and will remain here for some time.

Miss Nina Clark, who went to El Paso to attend the grand state ball at Juarez, last week, writes her parents, Mr. and Mrs. A. J. Clark, that she is enjoying a royal good time and will return home in the event by and bye.

The stained glass for the windows of the Catholic church to be erected in this city is now at the depot. These windows were donated by a reverend

father of Boston, and will add greatly to the beauty of the church when completed.

John Brockman, the millionaire of Pearce, was in Deming last Wednesday and stated that he had closed the deal and received his money for the Hanover mines sold to Phelps, Dodge & Co., and that those gentlemen would erect a smelter at this point in the near future.

HILLSBORO.

From the Advocate.

The Hillsboro base ball club has evaporated.

M. McKinney was in town Tuesday with a load of fine watermelons and cantaloupes.

Mrs. A. Reingard and two boys left last Monday for Kennedy on the Santa Fe Central railway, where she will reside permanently.

At the Opportunity mine they had the misfortune to lose the 300-gallon water bucket. A smaller bucket has been installed.

T. N. Steele, T. D. Richardson and James Smith left the early part of the week for an outing in the mountains. They are all veteran hunters and will slaughter wolves.

The north drift on the 300-foot level of the Wicks mine is showing a fine body of free milling ore with an average width of eighteen inches. A recent average sample taken for a distance of 100 feet along the ore body gave returns of \$44.40 in gold.

LAS CRUCES.

From the Citizen.

The Ascare family have sold their Palatito ranch in Mexico to parties from the east.

We haven't any more fools in New Mexico than elsewhere; but the trouble is that in New Mexico we pay more attention to them.

The Misses Gillespie are up from El Paso visiting the Misses Garrett at the house of Mr. and Mrs. Oscar Lohman. G. A. Beasley, of Soledad, visited town this week on business. During the last two weeks he has killed four mountain lions.

The Daily Albuquerque Citizen is the best edited paper in New Mexico. Don't take our word for it, but subscribe for it and see for yourself.

William Newsom is busy getting the machinery ready at the Bennett-Stepenson mine so as to commence work as soon as J. H. Mackey arrives from the east.

The pump tests at the college this week are very encouraging and satisfactory and will be adopted by those of our farmers who can afford it, next season.

There will soon be a vacancy in the board of regents of the agricultural college. It is to be hoped that a man of the necessary qualifications for such a position will receive the appointment.

A meteor was seen Thursday night about 8:30 which illuminated, apparently, a space of 100 feet and lasted less than a second, after which was seen in the form of a huge snake which winding its way up in the skies.

In the Progress.

F. H. Bascom company have a contract for putting in a large pump.

Ryerson has put in a substantial cement walk at his residence on 1st house street.

The offices of Attorneys Holt and Orr have been repapered and painted in fine style.

Mr. Jags, our ice man, expects to have his plant in full operation within a few days. The capacity of the plant is one ton per day.

There has been more sickness than usual since the heavy rains; and certain it is not to be wondered at, when there is a hole full of stagnant water in every block.

It is expected that the Modoc mine will be in operation in about three weeks. The concentrator accomplished is expected of it, it will not be until the Modoc will be a prosperous camp.

Bryna Parrish, who hails from Hale county, Texas, and who claims that he is here on official business, being a deputy sheriff of that county, filled up

on mean whiskey last Monday night and had to be taken care of by Deputy Sheriff Stoldt. There being no place in which to confine him Stoldt chained him to a post in the wagon yard and there he remained all night.

Perry & McGee have been awarded the contract to build the calaboose and they will have it ready for occupancy within ten days.

W. E. Lunaford, manager of the telephone exchange, informs us that the wires will be in place and the system ready for service in a few days.

Crops of all kinds are looking well since the rain, and if it remains seasonable for a few weeks longer there will be an enormous crop of feed stuff harvested here this fall.

N. Wise left for his old home in Louisiana, where he will settle up his business and then return to this place.

Mr. Wise built the Commercial hotel here, and he says that Portales is the coming town of the eastern part of New Mexico.

CARLSBAD.

From the Argus.

John Lowenbruck, of the Union Market, recently bought from I. S. Osborne seventy-five head of fat alfalfa and corn fed steers.

George L. Newton has purchased the fine W. A. Hawkins property on Canyon street, now occupied by C. H. Klauer and family.

J. F. Matheson is receiving this week a 40,000 pound lot of wool bought for the scouring mill from Lincoln county parties.

E. J. Brady, who is interested in the cotton growing experiment to be tried here next year, has decided to locate and was joined by his wife on Sunday from Pecos.

J. D. Walker and George Pendleton bought the lively stable and outfit of F. M. Jump this week and the stables will probably be consolidated. It will give Messrs. Walker & Pendleton one of the largest livery establishments in the southwest.

Mrs. Maynard Sharp has shipped out about 650 boxes of peaches this week, 200 going out Wednesday evening, from her fruit orchard in La Huerta.

Hugh Freeman and Bob Love are also heavy shippers, though exact figures are not known. Altogether 1,500 boxes have gone to market from Carlsbad during the week.

GALLUP.

From the Republican.

The Weaver mine turned out 1,760 tons of coal yesterday.

G. W. Hudson is here to take charge of the Harvey house.

We understand a new lumber yard will soon open for business in Gallup. The Barney property on Coal avenue was sold last week to J. H. Brady for \$850.

W. W. Bowie has gone to Idaho Springs, Colo., to accept a position as stationary engineer.

Dr. Harper has sold his handsome grey driving horse to Hild Bros., of Albuquerque, for \$250.

The Miner lots on Railroad avenue were sold under execution on Monday last to L. L. Henry for \$100.

The prospects of Gallup and Fort Defiance being connected by telephone in the near future are very good.

Mrs. A. C. Whitson, since her arrival here has sent orders to the factory for four fine pianos to be delivered in Gallup September 1.

Work is being rushed on the new Gibson tippie. Two shifts of men are kept busy all the time. The company will be in shape to do a good business this winter.

A. L. Smithgall, who resided in Gallup for many years, was taken to the Trinidad hospital two days ago with his throat cut from ear to ear. The wounds were self inflicted.

ALAMOGORDO.

From the News.

Miss Mildred Fox, of Albuquerque, is visiting her friend, Miss Laurie.

Otero county should make a fine exhibit at the Albuquerque fair in October next.

New business and residence houses are continually going up in Alamogordo.

The number of land entries made in Otero county during the year ending on July 1, 1902, covers 7,044 acres.

The force at the railroad shops is being gradually increased. About sixty men are at work and more will be put on during the coming week.

The special school election resulted in a vote of two to one in favor of an \$8,000 bond issue to build an addition to the public school erected only last year.

Abbott & Carson were the successful bidders for school buildings at Cloudercroft, school district No. 11. There is to be three buildings, costing in the neighborhood of \$4,000.

The following faculty has been selected for the New Mexico Baptist college: President, Prof. T. H. Claypool, M. A., Yale; French, German and Latin of the dormitory, Mrs. T. H. Claypool, B. A., Baylor college; prepara-

tory department, Miss Estelle Edmonson, B. A., Baylor; departments of music and art, William T. McGee; assistant in music, Mrs. Annie Laurie McGee.

SANTA FE.

The Territorial Capital Dished Up in Small Items from the New Mexican.

W. B. Childers, of Albuquerque, United States attorney for New Mexico, is here on legal business.

J. T. McLaughlin, of Albuquerque, treasurer of the Santa Fe Central Railway company, is here on business.

Mrs. Edward Grunfeld and daughter returned to Albuquerque on Saturday evening, after spending several weeks in Santa Fe.

Superintendent of Forest Reserves I. B. Hanna, who has been on an inspection tour of several weeks of the Gila reserve, has returned to Santa Fe.

Mrs. W. E. Martin and mother-in-law, Mrs. Martin, left on Saturday afternoon for Coronado Beach, Cal., to spend the month of August.

Mrs. I. B. Hanna, Mrs. McClure and daughter, Mrs. Goebel, son and daughter have gone to the Santo Domingo Indian feast on a pleasure trip. They took enough to eat along to last two weeks.

James Valle, who has for the past two years resided on the upper Pecos river on the Finn ranch and whose health has greatly improved during his sojourn here, left this morning for New York city.

Mrs. R. F. Monahan, of Dayton, Ohio, is in the city on a visit to her sister, Mrs. Amado Chaves. Mrs. Monahan has just returned from visiting her mother, Mrs. George Nichols, and another sister, Mrs. Bacus, at Hermosa.

Hon. Charles F. Easley and wife left for San Francisco, where Mr. Easley will attend the meeting of the supreme lodge of Knights of Pythias as a representative from the grand lodge of New Mexico.

Rochester Ford, Esq., of Tucson, arrived in the city to attend to legal business before the United States court of private land claims. He is attorney for the claimants in the Rosita land grant, in Arizona, which will be considered by the court in present session.

R. E. Banner, of Alamogordo, arrived and is a guest at the residence of Judge and Mrs. J. R. McFie, where his wife, a niece of Mrs. McFie, has been for two weeks. Mr. Banner is an artist of fine reputation and official photographer of the El Paso Northeastern and El Paso-Rock Island railroads.

Manuel Vigil and Gregorio Herrera of Santa Cruz, are visiting in the city and will leave to-morrow for home. They report grass, sown by the millions in northern Santa Fe county, and that the pests are very destructive, doing great injury to growing crops of all kinds, including fruit.

Sousa's Band Coming.

Sousa, as is well known, will write only one march every year, and the armies of admirers of his music have learned to look for this novelty regularly at spring time. This year, the new Sousa offering is "Imperial Edward," the military march the American composer wrote expressly for and dedicated by special permission to King Edward VII., who received a special copy of the composition only the day before he was stricken with his recent serious illness. Naturally, this royal march will figure conspicuously on the program of the Sousa concert tour this fall, from New York to San Francisco, which the "March King" undertakes before sailing for England in December, for his third annual European season. In addition Sousa has many other musical novelties and two new soloists to present at his concert here on Thursday afternoon, October 30, at Colombo hall.

Wedded at Sunrise.

Coles Ferry, Va., Aug. 6.—The Oaks, the home of Mr. and Mrs. Henry Crenshaw Rice, was the scene of a novel event this morning in the shape of an open air wedding at sunrise. The bride was Miss Mary Blair Rice, daughter of Mr. and Mrs. Rice, and the bridegroom, Charles William Beebe, of New York.

The bride selected the unusual hour for her marriage because of the many attractions in the early morning in the old garden on her father's estate. The ceremony was performed by Rev. William Miller, of Bryn Mawr, Pa. The bride wore a gown of white crepe de chine, trimmed with pearls, and a lace veil, fastened with a wreath of white roses.

Police Court.

Frank Smith, a tired, weary and woolly vagrant, plead for a chance to leave town before Justice Berchert this morning. Smith's plea was so plaintive that the kind-hearted judge granted the request. The way that Smith made tracks would make any one smile.

One drunk plead guilty to the charge and paid \$15 for the fun he had.

ARIZONA TO

WILLIAMS.

From the News.

Miss Mabel Adams arrived home from an extended visit in Iowa.

Agent N. J. Hudson and wife went over to Adamana to visit the petrified forest, returning next day.

With this issue the News enters upon the eleventh year of its career and the second of its present management.

A car load of lumber went out to the canyon to be used in the construction of the Havasupai hotel. A large amount of cement was also sent out to be used in the construction of cisterns near the hotel.

A force of men has been put to work on the Grand Canyon railroad repairing the bridges. The timbers used as stringers in the construction were too light to carry safely the heavy engines from the main line, and these will all be removed and replaced by new.

A piece of good news was received at this office to the effect that Howell Jones, land commissioner of the Santa Fe, is in Flagstaff to obtain abstracts of title on 149,000 acres of land, on which he was willing to pay taxes at the assessed valuation of \$2.50 per acre, and had wired headquarters for the amount necessary, which will put in the county treasury some \$16,000.

WINSLOW.

From the Mail.

The second cutting of alfalfa will soon begin among our farmers with a good crop in sight. Vegetables of all kinds are looking well.

One hundred and thirty-five Mexicans who have been employed on a construction gang by the Santa Fe west of here struck yesterday, we understand, but did not learn the cause.

The new Santa Fe freight depot is progressing rapidly and when completed will be one of the best along the line. The material used will be Winslow brick.

The ball game Sunday between Flagstaff and Winslow on the home grounds was well attended by our citizens, who so kindly turned out and helped defray the expenses of the visiting team, and everyone seemed well pleased with the results. The score of 15 to 4 in favor of Winslow goes to show that our boys are still very much the winners, not having lost a game this season.

ST. JOHNS.

From Snips.

Miss Clara Curtis is fast recovering from a long siege of typhoid fever.

During the absence of Treasurer Hill, J. T. Brown will attend to the business affairs of the office.

The local option election comes off in Springerville on the 6th. A hot fight is being made in favor of the measure.

Diphtheria scare is on again in the city. Two cases are reported at J. B. Patterson's and one at the Sherwood hotel.

Monico Garcia and wife returned from their wedding tour to various cities of the territory and also to Los Angeles, Cal.

KINGMAN.

From the Miner.

W. H. Taggart departed for Los Angeles and San Francisco, where he will look after a large amount of business. Mr. Taggart has been confined to business so closely for years that he has earned a needed rest and this is the first chance he has had to take a day off.

Bert Smith has purchased an interest in the old Mariposa mining claim, in Wallapai mountain, and will leave in a few days to do some work on it. Walter Brown owns the mine with Mr. Smith. The mountains is a most desirable place to work during the hot months, while at the same time the ores from the Mariposa have been the richest ever taken from a mine in this county.

Harold D. Lane, fiscal agent of the White Hills company, passed through Kingman on his way to Denver, where he will confer with the members of the company. Nothing is known of the intentions of the company for the future. It may be that the recent suits against the company were for the purpose of clearing up the titles and that as soon as this matter has been straightened out a working capital will be put up and the big exploration shaft, of which so much has been said, will be sunk and the mines thoroughly exploited to a depth of 1,000 feet.

O. D. Clark met with what might have been a serious injury while helping to draw a three and one-half inch water pipe from the well at the ice plant. The pipe was raised with a wrench part way out when it slipped through the

Sousa's Band.
Sousa is about to start on another of the remarkable transcontinental tours for which his band has become famous. Immediately after the conclusion of his annual engagement at the Pittsburgh Exposition the "March King" will take his way westward, working in twelve weeks every state and territory in the union excepting a small section of the south. This is reversing his usual procedure, for Sousa has never before made an extensive fall tour, and the present one is occasioned by the departure of the Sousa band for England on December 24, on its third European tour. The great band will be here the latter part of October.

MONUMENT TO MATHEMATICIAN
Norway Honors Memory of One of its Greatest Scientists.
Christiania, Aug. 5.—A monument in honor of Norway's famous mathematician, Niels Henrik Abel, was unveiled in Christiania today. The ceremonies were of an interesting character and were conducted under the auspices of the university authorities.

Niels Henrik Abel was born at Finsbo, near Stavanger, in the year 1802. In 1821 he became a student of the University of Christiania and four

years later he went abroad. He visited Berlin, where, in conjunction with Privy Counciler A. Crelle, he started the famous mathematical journal known as Crelle's Journal. He subsequently went to Paris, where he submitted to the French academy a treatise on the elliptic functions, known as the "Treatise of Paris." Having waited in vain for the academy's opinion of this work, which German scientists have pronounced to be the greatest mathematical discovery of the nineteenth century, he returned to Christiania, where, in 1828, he was temporarily attached to the university, but poverty and hard work had undermined his rather delicate constitution and he died in 1829, at the age of 26.

Abel was one of the most profound scholars of any age or clime and without comparison the greatest scientist Norway ever produced. The leading mathematicians of the age rank him with philosophers like Newton and Pascal, and the work produced by him in the few brief years of his youth has made him immortal.

BOARD OF EDUCATION.
Regular Meeting Held Last Night and Some Business Transacted.

The board of education got together last night, although the weather was hot, and transacted some business of general interest to the board.

M. E. Hickey, ex-superintendent of the city public schools, submitted a letter, expressing his thanks to the members for their support and consideration while he was superintendent and hoped his successor, Prof. A. B. Stroup, may be accorded the same hearty co-operation.

Trustee Alger, of the committee on savings bank proposition, made a short report, and was instructed to continue the work in that direction.

The building committee reported and the report was adopted. The committee recommended that Messrs. Johnson, Tierney, Tanberg and Clark be the janitors of the various school buildings.

The janitors were given positive instructions to begin work at once and get the school in good condition for opening day.

After considerable discussion regarding school work for the coming year, the board adjourned.

TO LEARN ENGLISH.
English to be Taught in All Schools in Germany.

Berlin, Aug. 5.—The question as to whether English shall be made obligatory in the curriculum of the German gymnasia is now being discussed by the school administrative authorities with much interest. In the new plan it is proposed to arrange for three hours' weekly obligatory lessons in English for the three upper classes of the gymnasium and to leave the two hours' (weekly instruction) in French to be attended at discretion. In the western and northern German industrial centers, with their extensive trade with the United States and England, it is considered especially necessary that the English language should be properly taught. The advocates of English also advocate the fact that all new mathematical physical literature, as well as that bearing on medicine and surgery, is of English origin.

THE HARRIS CASE.
The Colored Barber, His White Dove and Their Fight.

The case of Mrs. M. Wheeler, a white woman, who some times goes by the name of Mrs. Walker, and George Harris, a colored barber, who has a shop on Third street, both charged with disturbing the peace, came up in Justice Borchert's court this morning.

Mrs. Walker lives on West Tijeras avenue and says that she is a dressmaker. Harris was struck on the head with a hammer at Mrs. Wheeler's house yesterday afternoon, an account of which was given in last night's Citizen.

Harris testified that he has been living with Mrs. Walker for the past two months and that he had been paying the house rent and furnishing the table. He told how they had whiskey, toast and eggs, and then a little coffee, every morning for breakfast.

It came out in the evidence that he and Mrs. Walker had had a quarrel. He went to the Walker house yesterday and found a man named Johnson there. He had been working and wanted his coat. He says that Johnson was lying on the bed and that the woman was sitting on the bed beside him.

She tells a different story. She says that he came to her house and began to abuse her; that he knocked her down twice and swore that he would kill her. She laid him low with a hammer. She showed the court blue spots where he had struck her.

The court discharged Mrs. Walker and fined Harris \$10.

Johnson was arrested and fined \$5 for disturbing the peace.

OFFICIAL MATTERS.
Land Office Business.

Homestead Entry—Luis R. Sanchez, Galisteo, 160 acres, Santa Fe county.

U. S. Land Commission.

The United States land commission was in session yesterday afternoon at the office of Land Commissioner A. A. Keen, and transacted considerable business. An order for the selection of lands for the territorial and charitable institutions was under consideration.

The territorial land commission met

OF UNTOLD VALUE.

The information contained in this Gentleman's Statement is priceless.

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Albuquerque who has spent a mint of money and hours of excruciating torture caused by kidney complaint, will stand in his own light if he does not follow the valuable advice offered by—

Mr. J. R. Miller, of 414 West Colfax avenue, in the Colfax Real Estate Insurance & Finance company, Denver, Colo., who says: "My first acquaintance with Doan's Kidney Pills was made while reading the Pittsburgh Dispatch. I was living in Toledo, Ohio, at the time, and called the attention of my druggist to them. He procured them for me, and they were most effective in ridding me of slight kidney complaint which had annoyed me for some time. Since then, not only from experience, but from observation, I have always noticed Doan's Kidney Pills very highly recommended, and only recently I purchased a box at Scholtz's drug store, opposite the Tabor opera house. I have sent more than one friend and acquaintance to that drug store for a supply simply because I know Doan's Kidney Pills can be depended upon to act as represented."

And the Alvarado Pharmacy what their customers report about this preparation.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Yesterday afternoon at the office of the land commissioner, A. A. Keen, in the capitol. Among other transactions several leases were approved. The contract of W. H. Leonard, of Colorado Springs, with the territorial land board for the rental of 100,000 acres of land in Otero county, was cancelled and annulled on account of lessee's non-compliance with the requirements of the contract. The board then adjourned until the first Monday in September.

TROUT FISHING GOOD.
Jack Dixon Proves the Assertion by His Arrival Last Night.

Jack Dixon, who was at Winsor's ranch on the upper Pecos with Arthur A. Henry and wife, returned to the city last night, and rumor has it that Jack brought down with him several hundred fine trout, which he distributed among friends, but, in his anxiety to do justice to those in waiting for a mess, overlooked a few special requests from Mr. Henry. Jack says fishing is extra fine on the streams of the upper Pecos country and that hunting cannot be improved upon. He and Mr. Henry killed quite a number of grouse, and took several shots at buck deer. Mr. Dixon will return to the Pecos tonight.

May Come Here.
Dr. Jacob H. Kaplan, of Denver, conducted service in Temple Albert last night in response to an invitation from the congregation. Special music was given by the choir under the direction of A. L. Newton and a solo was sung by Walter N. Thomas, of Washington.

Dr. Kaplan preached an able sermon and it is probable he will receive a call to come here.

J. W. RAYNOLDS DEAD.
Funeral at St. John's Episcopal Church Tomorrow Afternoon.

J. W. Reynolds, a well known engineer on the Santa Fe Pacific, died of tuberculosis yesterday afternoon at 5 o'clock at his home on West Lead avenue.

He had lived here for many years and was a member of the Brotherhood of Locomotive Engineers. A widow and three children survive him.

The funeral services will be held at 2 o'clock tomorrow afternoon at St. John's Episcopal church, under the auspices of the order of which he was a member.

SWEEPING INJUNCTION.
Striking Miners Say They Can Swim, Fly and Sleep.

Wilkesbarre, Pa., Aug. 2.—In the absence of President Mitchell in Scranton, things were unusually quiet at strike headquarters today. A letter has been received from Grand Chief Morrissey, of the Brotherhood of Railway Trainmen, saying it is the intention of all brotherhoods to give the striking miners practical assistance at once. The following official statement has been issued from strike headquarters:

"Anthracite region strikers are firm and unyielding.

"West Virginia men are still firm. Judges Jackson and Keller have enjoined the strikers from doing anything save swimming, flying and sleeping.

"No signs of settlement in Michigan. West Pennsylvania strike still on with the strikers firm and confident."

A CHANCE IN A LIFE TIME
to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it

FIFTY THOUSAND DOLLARS
in development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at \$1.00 per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere else to be had, and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth more in six months. This is the best investment for the money ever made offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, etc., address,

Guard Return.
The members of the Albuquerque Guards, who attended the annual encampment of the Texas state militia, which was held at San Antonio this week, returned home this morning.

The boys went as guests of the 35th Border Rifles and say they received royal treatment. It rained most every day of the encampment.

Land Office Business.
During the month of July, at the federal land office in Santa Fe, 9,073 acres were filed upon under the homestead act, for which fees to the amount of \$575 and commissions to the amount of \$382.29 were collected.

Railroad Topics

Master Mechanic F. P. Baran is circulating among the railroad boys of Winslow.

William Dase, road foreman of engines on the Winslow division, was a visitor at the local shops yesterday.

H. S. Van Slyke, Santa Fe's live stock agent at El Paso, spent yesterday in Albuquerque and returned to the Pass City last night.

W. E. Hodges, general purchasing agent for the Santa Fe, who has been spending several days in the city, left last night for a tour of the Santa Fe coast lines.

Ray Pasley, a young man employed in the Santa Fe offices at Topeka, was drowned while bathing in the Kaw river Sunday evening. The body was recovered Tuesday morning at 8:45 by a diver.

F. H. Mudge, resident engineer for the Santa Fe at Las Vegas, is in the city, overseeing the laying of the side-tracks to the new freight depot. Tonight he will accompany Division Superintendent J. F. McNally, who will leave on a bridge inspecting tour over the Rio Grande division.

The Topeka State Journal says: Frank Russell, who seven or eight months ago gave up his place as hammerman in Topeka shops and went to Albuquerque, N. M., where he has been employed most of the time since, took charge of No. 3 machine in that department here Monday night. This is the first time that No. 3 has been running after 9 o'clock for some months.

A change was made in the local Santa Fe shops and offices yesterday, which affects materially the positions and work of several of the employees. R. C. Jackson, who has been doing mechanical work in the shops, is gone to a desk in the freight office. James Foley, formerly in the timekeeper's office, has been appointed to clerk of distribution. J. A. Hood succeeds Mr. Foley in the timekeeper's office.

Roadmaster Gibson, who was here yesterday on business, has returned to Gallup.

J. F. McNally, division superintendent, who was here yesterday, returned south to San Marcial last night.

Frank Russell, hammerman, who worked several months at the local shops, is now located at Topeka.

G. B. Dolan, the day ticket agent, is taking a lay off on account of slight illness, caused by the weather, no doubt.

J. Pierpont Morgan, having secured control of about ever, thing on the surface, is going into the underground railway business.

Elmer Collet, fireman on the Magdalena branch, took the examination for engineer at Raton recently, and was granted a certificate.

C. W. Werst, foreman of iron workers in the San Bernardino shops, has gone to St. Joseph, Mo., being called thither by the death of a relative.

W. S. Hopewell, general manager of the Albuquerque Eastern and Santa Fe Central railways, has returned to the capital city from a business trip to this city.

Fred. Kaumer, a well known engineer, is arranging to leave in a few days for southern California, where he will take a needed rest for a few weeks.

The Santa Fe Railroad company has bought the oil wells and land of A. B. Butler and others in Kern county, California, at a good round sum, verily reported all this way from \$1,600,000 to \$3,750,000.

The Pennsylvania railroad for the week ending August 2 carried only 329 tons of anthracite coal. This is the smallest tonnage of hard coal the company has moved in many years. For the same week in 1901, the tonnage of anthracite amounted to 98,429 tons.

Within the next two years the use of steam as a motive power for railroads within the corporate limits of New York City and within a distance of thirty miles of the corporate limits will be completely abolished and electric power substituted. The New York Central road, aided and abetted by the city administration of New York, will inaugurate this innovation.

The Southern Pacific railroad is taking a census of its employees with a view of pensioning all of its men over 65 years of age, thus following the example of the Pennsylvania railway. Thus some of the fondest hopes of socialists are being realized without revolution or bloodshed. Given but time, everything that is unjust, harsh and cruel in economic conditions as they are today, will gradually right itself.

Kim's Words for the Firemen.—A railway fireman of Colorado writes to the Denver News to call attention to an omission which, he says, is common in all articles relating to speed of trains. This omission, according to the fireman, is lack of mention of the man who shovels the coal into the white hot furnace. "Why is it," adds the letter, "that the name of the fireman is so seldom included in these glowing descriptions? All kinds of honor is given the engineer and the conductor, but what kind of time could be made without a fireman? The man who looks into the furnace and keeps up a steady pressure of steam should be remembered. The great railroad cannot run one day without the aid of the fireman. We do the hard work and get little thanks. Put in a law that the fireman shall be remembered."

THE SURE WAY

to prevent pneumonia and consumption is to cure your cold when it first appears. Adger's Kidney Pills will stop the cough in a night, and drive the cold out of your system. Starr also gave them passports which entitled them to ride the cushions in side of varnished cars as far as Denver.

About \$400 worth of property was destroyed before the flames were extinguished. Two cattle chutes, one sheep chute, three feeding pens and 175 feet of platform were totally destroyed and two feeding pens partially.

Foley's Kidney Cure will cure all diseases arising from disordered kidneys or bladder.

The Great Bandmaster.

Like the book, Sousa seems to "go on forever," and the announcement of his coming concert tour will be received with pleasure. This will be the sixth transcontinental trip that Sousa has made since the organization of his band ten years ago, and in ten weeks he will visit 125 of the principal cities of the country. In December he will take his band abroad again for his third annual European tour, opening in London on January 2. Sousa is a natural institution and as his concerts always preserve their natural attractiveness and the conductor is so liberal and gracious with his patrons, they are really an ideal musical entertainment. With new soloists, new program and new encores, Sousa will be welcome when he brings his band here on Thursday afternoon, October 30 at Colorado hall.

His Sight Threatened.

"While picnicking last month at some place or plant," says W. H. Dibble, of Sioux City, Iowa. "He rubbed the pollen off his hands into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended De Witt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin disease, cuts, burns, scalds, wounds, insect bites, De Witt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Mrs. E. V. Chavez Sustains Injuries in La Junta Accident.

Attorney E. V. Chavez and family were in the railroad wreck at La Junta night before last. They had just reached La Junta from Denver, and Mrs. Chavez was in the toilet room arranging her toilet for the stop-over at La Junta before taking the train for the south. The crash then came, and Mrs. Chavez was tossed around in the small room, sustaining serious injuries about the face, head and shoulders. Another lady was hurt in a similar manner. The accident occurred by the passenger train from Denver running into an engine, which had but cleared the main track.

SANTA FE.

From the New Mexican. J. B. Mayo, a prominent mine operator in South Santa Fe county and manager of the Old Reliable Mining

company at Golden, arrived in the capital. He had been selected as a jury commissioner, and performed duty as such while in the city.

The 11-months' old child of Mr. and Mrs. Camilo Padilla died of summer complaint.

Policeman Frank Rivera has been suspended by the city marshal on charges. It is understood that Marcial Urioste is an applicant for the position.

A. S. Rewark, who has been engaged as a sawyer for some time with the Cooper saw mill, is here figuring on getting a similar position with other parties.

Mrs. R. Tenorio, wife of one of the employees of the New Mexican, had the misfortune to dislocate her ankle. The limb was set, however, and she is resting easily.

Hon. W. P. Kennedy, chairman of the board of county commissioners, after attending to his official duties for two days, left for his Cerrillos home.

Hon. B. S. Rodey, New Mexico's efficient and hard working delegate to congress, arrived in the capital today. He received a very cordial welcome. He left this evening for his home in Albuquerque.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine.

WHITE VS. BLACK.

Mrs. Wheeler Again Assaults Her Dusky Lover.

George Harris, the Third street colored barber, and his lady love, Mrs. Wheeler, white, had another scrap last night.

About 10 o'clock they met on West Tleras avenue and the "lady" mentioned proceeded to finish a job she began last week, but with poor success. This time the weapon used was a meat cleaver instead of a hammer. The hammer was never found but the cleaver is preserved.

The damage done to Harris in last night's affair was a small scalp wound about two inches long.

Harris swore out a warrant charging Mrs. Wheeler with assault on his person with a deadly weapon with intent to kill.

Harris was arrested on a warrant sworn to by Mrs. Wheeler, charging him with assault on her body with a razor and with intent to kill.

They were tried in Justice Borchert's court this afternoon. Harris was given sixty days in the county jail and the Wheeler woman was given twenty-four hours in which to leave town. She expects to go to El Paso.

IMMENSE FRUIT CROP.

Despite the Grasshoppers Such Will be the Case in the Upper Rio Grande Valley.

Hon. L. B. Prince was here yesterday from his Espanola ranch and stated that apart from the grasshopper plague, everything looks well in the upper Rio Grande valley. The grasshoppers have destroyed the vegetables and alfalfa and part of the grain in many places in Taos and Rio Arriba counties, but our own and many localities are escaping entirely. The recent showers have supplied ample water, and the wheat crop now being cut will be better than was expected. The fruit product is simply immense, peaches and nectarines being in great quantities as well as apples, pears and plums. The pear trees are so loaded that he wished they could be photographed so as to show in the east; as to apples he mentioned as an illustration that he had from six to ten hands steadily employed for over a week in an attempt to thin them out, and all the orchards were in a similar condition. Whether from spraying or removal of the insects, the codlin moths are greatly reduced in number. The apples are consequently perfect and free from worms. Perhaps the grasshoppers have in this way done some good. The latter are as plentiful as ever, but by the use of various expedients the people are protecting the fruit, though the leaves of trees in many localities are almost entirely destroyed.

Third Day of Negro Congress.

Atlanta, Ga., Aug. 8.—Moral and social reform questions were discussed at the general session of this the third day of the national negro congress. Rev. R. E. Watts, D. D., of Petersburg, Va., called the gathering to order this morning, and Rev. H. H. Proctor, D. D., of Atlanta, led the devotional exercises. Among the addresses delivered were the following: "Home Improvement for the Race," R. L. Smith, Oakland, Texas; "How to Reach and Help the Poor of the Race," Rev. V. J. Howard, D. D., Washington, D. C.; "To What Extent is Crime Increasing in the Race and What is the Remedy?" Rev. R. E. Jones, Atlanta; "The Effects of Secret and Benevolent Societies Upon the Life of the Race," Rev. A. E. P. Albert, D. D., New Orleans; "The Social Status and Needs of the Colored Woman," President G. W. Hayes, Virginia Seminary, Lynchburg, Va.; "What Improvements are Necessary in the Present Home Life of the Negro?" Rev. G. N. Blackwell, D. D., Philadelphia.

Destructive Fire.

Port Au Prince, Aug. 8.—Fire at midnight last night destroyed sixty houses, causing damage estimated at \$300,000.

EARLY GRAPES.

Agricultural Experiment Station, New Mexico, Issues Bulletin.

THE FOREIGN VARIETIES.

Early grapes, while not so extensively planted and not as good in quality, or as good shippers as the medium or late varieties, possess enough good qualities to make them worthy of being more generally planted for home use and to a greater or less extent, depending on circumstances, for commercial purposes. In New Mexico there has been but little attention given to the growing of early varieties. The later kinds, like the Muscat of Alexandria, Mission, Flame Tokay, and Gros Colman have been the favorite varieties. The fact that some of the earliest grapes ripen about two weeks before our commercial varieties, which usually appear on the market about the last of the second week in August, should make them a valuable addition to the commercial vineyard.

Generally speaking, there have been but few varieties of foreign grapes grown in the territory. With the idea in view of testing the adaptability to our conditions of a large number of varieties, the experiment station started a new experimental vineyard in the spring of 1900 of over fifty varieties of foreign grapes. Many of these promise success, and this summer—the third year after planting—most of the vines have a good crop of fruit. The earliest varieties in the test ripen during the last week in July. Below is given a list of them with a description of each:

Chasselas de Florence—Vine strong but slender grower; bunches medium, compact, slightly tapering; berries quite insipid. Early and heavy bearer; ripening by July 24.

Chasselas de Fontainebleau—Vine strong but slender grower; berries, medium to large, round, greenish yellow, moderately firm, juicy, sweet, pleasing flavor. Good and early bearer; ripening by July 24.

Sweet Water—Seems to be identical with the Chasselas de Fontainebleau. White Corinth—Vine strong grower; bunches small, compact, cylindrical; berries small, round, greenish yellow, seedless, soft, very juicy, sweet. Ripens July 24.

Chasselas Rose—Vine, strong but slender grower; bunches medium, compact; berries medium to large, round, clear red, firm, moderately juicy and sweet, good; ripening July 26.

Chasselas Napoleon or "Bicane"—Vine strong but slender grower; bunches medium, somewhat loose; berries medium, round, greenish yellow with a reddish tinge, quite firm, sweet; ripening by July 26.

Chasselas Ciotat (Parsley-leaved Grape)—Vine moderately good grower; bunches small to medium, compact; berries medium, greenish-yellow, quite firm, juicy, pleasant; ripening by July 26. Leaves very much lacinated.

Muscat Precoce du Puy de Dome—Vine strong grower; bunches medium, long, quite compact; berries medium to large, round, reddish purple, firm, pleasant, has a decided Muscat flavor; the earliest of the Muscat to ripen; ripening by July 26.

Thompson Seedless—Vine exceedingly strong grower and a heavy bearer; bunches large, long, shouldered; berries small, oval, greenish yellow, very firm, seedless, crisp; ripens by July 28.

Muscat Precoce du Puy de Dome, Chasselas de Fontainebleau, and Chasselas Rose, seem to be the three best varieties in this list.

It is intended to publish notes on these grapes as fast as the different varieties in the test ripen.

SAN JUAN COUNTY.

Farmington.

From the Hustler.

Ten thousand dollars distributed among the Navajos along the lower San Juan is not to be sneezed at.

Winn Wetherill, trader at Two Gray Hills, is in town. Says we will see him at the Albuquerque fair.

The fruit evaporator has started up with a full force of hands. The capacity is about 7,500 pounds of green fruit daily.

The band boys are now treating our citizens to three concerts a week. The boys deserve much praise for their energy and should be assisted in keeping up the organization by our residents. Music and tutorship all cost money.

The Mormon day celebrations at Fruitland and Largo, last Thursday, were well attended and afforded much entertainment for those who attended. About thirty residents of Farmington drove down during the day, quite a number remaining over for the dance.

San Juan county should send delegates to the Tierra Amarilla convention for the nomination of a councilman. While we are disposed to concede Mr. Burns' nomination should be desired same, San Juan is important enough to be represented.

Miss Terry and Mrs. Thompson, the two ladies from Hartford, Conn., returned last week from a visit among the Aztec ruins at Pueblo Bonito. These ladies are just completing a tour of the world, and are candid to admit they have seen nothing abroad that would permit of more interest than the ancient ruins in this section.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by all druggists.

LECTURER CORRECTED.

Mrs. William Breeden Explains Territorial Form of Government.

A recent issue of the Chatauque Assembly Herald contains a correction respecting territorial government by Mrs. William Breeden. She is well known here, but particularly well known in Santa Fe. Her letter is as follows:

Editor the Herald:

Prof. John H. Finley, in his lecture, "Russia in Asia," said "the government of Russian colonies is analogous to that of our territories, the officials being appointed by the chief executive, without a local legislative body." If Professor Finley intended to convey the idea which his words express, he is very much in error. The organized territories of the United States have always had legislative bodies empowered to enact laws for the control and regulation of territorial affairs, their powers extending to all rightful subjects of legislation consistent with the constitution of the United States, and the act of congress organizing the territory, and defining the powers granted to its executive, legislative and judicial departments.

In the first, the Northwest territory, there was a governor, secretary and judges, and these constituted the legislative body. The country included within that territory now embraces several states; some of these states have laws that were enacted by the territorial legislative bodies and subsequently adopted and incorporated by state legislation.

In all the territories subsequently organized, legislative bodies composed of a council (corresponding to a state senate) and a house of representatives were authorized and provided; the members being elected by the people. Such legislatures have always existed, and now exist in the territories of Arizona, New Mexico and Oklahoma. In each of these territories the governor is possessed of the veto power, but the legislature is empowered to enact laws in defiance of the veto power by the concurrence of two-thirds of the members of both houses of the legislature. Laws enacted by a territorial legislature are as binding upon the people of the territory and within its limits as the laws of congress, but congress has power to annul and territorial legislation, a power however, rarely, and in but few instances exercised.

The statement of Prof. Finley interested me because I was for twenty-five years a resident of the territory of New Mexico, and thought your readers would like to know the correct situation of our territories.

SILVER CITY.

Popular Young People Surprise Their Parents by Marrying.

OTHER INTERESTING ITEMS.

Special Correspondence.

Silver City, N. M., Aug. 8.—Harry Kelly and Miss Capitola Simon gave their many friends in this city a pleasant surprise by being married secretly at Pinos Altos last Sunday afternoon. The young couple had only gone out for a drive, so they told their people, but drove up to Pinos Altos and were married by the Methodist minister of that place. They did not return to Silver City until a few minutes before train time and then left for El Paso on a short wedding trip. The bride recently came to this city from the east and was visiting her aunt, Mrs. O. C. Hinman, but while having been in this city a few months has won numerous friends by her charming manners. The groom, better known as "Duke," is a very much esteemed clerk in the Silver City National bank in this city and a young man of exceptional fine business qualities. Their friends here will be ready for them when they return and treat them right for the slip they gave them.

The report of a shooting scrape on the upper Gila river has reached this city but nothing definite as to the particulars have yet been obtained.

Dr. Hess, who has been one of the physicians at the United States sanitarium at Fort Bayard, left the other evening for San Francisco for duty at that point.

John Leggett, of St. Louis, who has been spending several months in this section for the benefit of his health, returned to his home in that city on the evening train.

The Fort Bayard and Santa Rita base ball teams crossed bats at Fort Bayard last Sunday afternoon and the soldier boys were defeated by a score of 8 to 16. The Fort team is composed of the hospital corps mostly and they are fast getting in shape so that they can play very good ball. The Silver City team will play them a game at the post on next Sunday afternoon.

The Silver City delegation of Elks who will go to Salt Lake on the 7th to attend the grand reunion of Elks in that city, will be composed of six members, consisting of E. M. Young, C. W. Mariott, Frank Jones, W. S. Cox, C. C. Shoemaker and Ike Holzman. They will meet the El Paso and Albuquerque delegations at Albuquerque and will go from there as members of the "Queen Sabe" club.

Mrs. C. W. Wayne will this evening give a musical at her residence for the benefit of Rev. Mr. Poole, pastor of the Methodist church.

Silver City and this section has had some very good showers during the past few days.

The bids for the new building to be erected at the Fort Bayard sanitarium have been turned in by the several contractors and have been forwarded to the department at Washington. It is thought that the work will be commenced in the near future. The lowest bid for the work was from an El Paso firm.

Henry L. Shattuck, of Shellburg, Iowa, was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by all druggists.

Bryan is Not a Candidate.

Muscantine, Iowa, Aug. 8.—W. J. Bryan, in an interview here today, said positively that he would not be a candidate for president in 1904. He said he was satisfied to live as a private citizen.

Friends' C. E. Convention.

Richmond, Ind., Aug. 8.—The Friends' International Christian Endeavor convention, the first to be held since the young people's society of the Friends' church became a part of the international organization, began here today. A three days' program has been arranged, resembling in most of its features the programs of other Christian Endeavor gatherings.

Prominent among the participants are Rufus M. Jones, of Philadelphia; Prof. Elbert Russell, of Chicago; Rev. Albert J. Brown, of Indianapolis; Myrtle S. Lightner, of Sabina, Ohio; Prof. J. Edwin Jay, of Wichita, Kan.; Rev. J. Walter Malone, of Cleveland; Emma F. Coffin, of Spencer, Iowa, and Mary E. Miers, of Lynn, Mass.

Gen. Funston Ill.

Denver, Colo., Aug. 8.—Brigadier General Funston, commander of the department of Colorado, is confined to his home by illness, having undergone an operation for fistula. The condition is not alarming, and his friends expect that he will quickly recover.

Chicago Boys Strike.

Chicago, Ill., Aug. 8.—Several hundred boys employed on delivery wagons at the State street department stores struck today for increase of wages from \$4 and \$5 to \$6. The delivery of parcels is delayed badly. The boys made the affair one of jollification.

Postmaster General.

London, Aug. 8.—Official announcement was made today that Austen Chamberlain, son of the colonial secretary, had been appointed postmaster general, vice Marquis of Londonderry, resigned.

BASE BALL AT VEGAS.

The Meadow Team Won A Game—Death of Miss Ethel Schuster.

BOARD OF TRADE MEETING.

Special Correspondence.

The Las Vegas ball team redeemed their reputation yesterday afternoon by defeating one of the strongest teams that has played ball in the territory for some time, and decidedly stronger than the Albuquerque team which defeated Las Vegas last Sunday. The Lamar, Colo., team only got five runs, and only one of them earned. Las Vegas piled up 15 runs, and most of them were earned.

The feature of the game was a home run by Parsons when the bases were full in the fourth inning. Rhodes pitched a star game and allowed only six safe hits to the Lamar team. The boys had the ginger that was lacking last Sunday, and the game was exciting throughout despite the fact that they pounded the Lamar boys most terribly. The Lamar boys have played twenty-two games this season and only lost four besides the one they lost yesterday. The fact of our boys nearly closing such a team out shows what the boys can do when they play ball. There was a fair crowd out, and they were well paid. The battery for Lamar was Cummings and Wood, and Rhodes and Parsons for Vegas. The Lamar boys are captained by Mitchell, of Rocky Ford, and they are a gentlemanly set of men. They have lots of life in them, and keep the music going on the diamond. Today the battery for Lamar will be Prentiss and Wood. W. B. Twitchell umpired the game, and gave good satisfaction. He was particularly good in the way of not allowing wrangling and delaying the game. The score by innings was as follows:

Innings: 1 2 3 4 5 6 7 8 9
Lamar 0 0 0 2 0 0 1 1 1—15
Las Vegas 2 0 5 4 0 2 1 —15

The spirit of Miss Ethel Schuster has winged its flight. She died last night at 9 o'clock, succumbing to the dread disease, consumption. Miss Schuster, accompanied by her mother, Mrs. Kalor, came here about three months ago from Chicago, hoping to receive some benefit from New Mexico's climate, but her trouble had arrived here and little benefit was noted. She was 21 years of age, and lived with her mother on Eleventh street. The remains, accompanied by the grief stricken mother, were shipped today back to her home in Chicago.

The policy was an accident risk, and it was on the ground that the shooting was not accidental, that the company withheld payment.

The board of trade held a meeting yesterday to consider a proposition made by Marguerito Romero in behalf of the electric railway. Mr. Romero asked that the board of trade take, or attend to getting subscribers for the thirty bonds of \$500, each that the company desired to sell in this city. He offered the bonds at 95 per cent of their face value, the bonds being first mortgage bonds. The offer was accepted, the money to be raised by the board selling the bonds to the citizens in blocks. The \$15,000 will not be turned over to the company until the road is completed and in operation, and the money is only to be given on the consideration that the company expend at least \$100,000 in the construction of the road. The routing of the line was also discussed. From the Castaneda up Sixth street and over on National avenue, or up Sixth street and over on Douglas avenue. The first route seemed to be preferred by the board, on account of Douglas avenue being the way most used by freighters and carriages, and it was feared a track down that avenue would interfere with the traffic between the two towns. The routing, though, has not been definitely settled. The board's proposition was telegraphed to the head office in St. Louis, and a reply is expected soon.

The trains from the east today were

The Alamogordo & Sacramento Mountain Railway company are extending the track from Cox canyon to the head of Russian canyon, a distance of some six miles. Engineer Scott is in charge.

A. F. Holgate, who lived in Lordsburg for some time, but recently has been working on the El Paso & Southern, was injured by an accident and used the company for \$15,000 damages.

Charles Watkins left last night for Chicago where he will visit relatives and friends. He was a nurse at the local hospital, but recently resigned.

William H. Hodges, who has had charge of the El Paso & Southern yards at the El Paso shops, has accepted a position as engineer on the Santa Fe Central.

A position as engineer on the Santa Fe Central.

Engineer Jack Fenner is laying off suffering from a severe case of inflammatory rheumatism.

Robert Graham is numbered among the machinists let out at the shops on the first of the month.

Perry Wilkerson, an employee of the machine shops, has resigned his position with the Santa Fe.

The Dawson road has nine miles of track laid from Tusumcar and as far out as the Canadian river.

F. C. Fox, division superintendent of the Santa Fe railway at Las Vegas, was at Santa Fe yesterday.

C. M. Woods, traveling passenger agent for the Frisco, out of Denver, was an Albuquerque visitor yesterday.

Mrs. N. M. Rice, wife of General Storekeeper Rice, is enjoying a pleasant visit from Mrs. J. J. Booker, of Temple, Texas.

W. O. Bixler is the Santa Fe Pacific's new section foreman at Rialondo, Arizona. Mr. Bixler moved from Los Lunas the other day.

Machinist C. O. Kill has resigned his position with the Santa Fe, and in a few days will leave for the east accompanied by his family.

Charles Hurd, son of A. A. Hurd, solicitor for the Santa Fe in Kansas and Nebraska, has accepted a position as brakeman on the Santa Fe Pacific and will run between this city and Gallup.

Death of an Infant.—Mr. and Mrs. J. D. Barber, of Rio Puerco, are mourning the death of their infant daughter, Norma. The remains were brought to this city, and the funeral took place at Strong's undertaking parlors this morning, being largely attended by friends of the bereaved parents. Mr. Barber for years was connected with the old Atlantic & Pacific road as conductor, and he and wife have many friends in the city, who extend them sympathy.

Injured Conductor.—John H. Blake is laid up for repairs at his home, No. 409 North Fourth street. He is a freight conductor on the Santa Fe Pacific, and last Sunday afternoon, at Laguna, was badly burned by escaping steam from the valve of the engine. He was standing along side of the engine, giving orders to the engineer, when the hot steam struck him. His right leg, especially the knee, was pretty badly burned, and Mr. Blake will be kept in doors for some time.

Run a Special Train.—A special train, the exact counterpart of the California Limited, will be run by the Santa Fe to Monterey, Cal., for the twenty-eighth annual convention of wholesale druggists which will occur October 7 to 11 at the Hotel del Monte. The druggists have selected the Santa Fe as the official route for the delegates west from Chicago. Those who go out on the Santa Fe will be allowed to return on any direct route they may choose. The limit on the tickets has been extended to November 15. A neatly illustrated booklet advertising the excursion has been issued by the Santa Fe passenger department.

If all women starting on a journey realized that the porter was held responsible for each shortage in sheets, pillow cases and towels there would be so large a deficit in his monthly pay. "Last month was the first time in two years that I received my full pay," said a Pullman porter recently during a transcontinental trip. "I suppose women think they're beating the railroad company when they walk off with the towels, but every cent of it comes out of the porter's wages, and when he only gets \$20 a month that seems a good deal to lose."

Using Ingalls' Poem.—The Santa Fe has spent thousands of dollars during the past year advertising the industrial resources of the great southwest. The campaign will be vigorously pushed during the coming fall and winter. One feature is an insert page in one of the leading magazines for twelve months, the July issue conservatively booming the thriving cities of El Paso, Pueblo, Albuquerque, Las Vegas, Prescott, Phoenix, San Diego, Los Angeles and San Francisco. This particular advertisement includes a fac simile autograph reproduction of the ex-latin Senator John J. Ingalls' noted sonnet on "Opportunity," which is already a classic. The poem cleverly leads up to the many opportunities awaiting the hustler along the Santa Fe lines.

ANTICIPATED THE THREAT.

Santa Fe Raises Trainmen's Wages Before Trouble Comes.

A dispatch from New York states that official announcement is made that the petition of the trainmen of the Atchison, Topeka & Santa Fe railroad for increased pay has been granted. On August 1 the wages of nearly 6,000 men will be advanced from 5 to 15 per cent. This action of the Santa Fe officials anticipates a threat which is told in the following dispatch from Omaha, Neb.: "A new labor trouble threatens to tie up every trunk line in the country west of the St. Lawrence river. The trainmen on the western roads, including the Canadian lines, will present a general demand for an increase in wages August 15. 'The trainmen say they will go out and wait until every railway company has conceded what they ask. This action was begun by the trainmen of the Union Pacific.'"

The officials of several Illinois roads have also agreed to concessions for trainmen. The Elgin, Joliet & Eastern and Chicago, Lake Shore and Eastern railway systems have announced a

new schedule of hours for four important divisions—engineers, firemen, conductors and brakemen. These men, to the number of several hundred, recently asked for an increase in wages. Several conferences were held, and it was agreed to maintain the old rate with a reduction of hours from twelve to eleven.

GALLUP GLEANINGS.

Interesting Notes from an Interesting Correspondent.

Gallup, N. M., Aug. 4.—On dit: That D. C. Russell is still in California on business—well, business and pleasure combined.

That having business at the coast, W. W. Risdon will join the Knights of Pythias delegation and journey to San Francisco in their company.

That the public schools of Gallup will open on September 1. One of the extra teachers has been elected. Miss Brown's acceptance of a position in California will create another vacancy.

That Dr. Harper is in California, called there by the illness of his aged mother.

That the Hey Rubes beat the Soldiers 12 to 6. Good for our plucky youngsters.

That Rev. Patterson, of the Congregational church, is already very popular with the members, especially the young people. He is a fine musician and assists in the Montezuma band.

That Lawrence Smith has been visiting the home folks.

That Miss Grace Kitcher, sister of Palmer Kitcher, and a noted musician, has been visiting her brother's family the past few weeks. Miss Johnson, a cousin of Mrs. Kitcher, has also been visiting with the family. Miss Grace has been teaching music in Macon, Ga., and both ladies are pleasant, lovable girls.

That the Rebekahs had a jolly little "blow out" last Friday evening.

That Robert Wyper, leader of the Montezuma band, and teacher of that class of music, will leave Gallup for Alabama, the home of his parents, some time this month.

That Johnny Gordon's mother and sister are here for a short visit.

That Miss Audrey Cooke is visiting with the Watkins family.

That Frank Swartz, of the Gem grocery, has the neatest, coolest ice cream parlor in town, and the cake and cream are served by one of the best and prettiest of the many pretty girls of Gallup.

That Thursday evening, the 7th, is the last session of the B. T. L. Dancing class, as a school, as Mr. Wyper, the instructor, is leaving Gallup. The young people will probably retain their date and continue the Thursday evening dances for practice and amusement.

That Gallup has had more hot days this summer than is usual in this high altitude.

That "someone" across the flat plays the cornet of an evening. We wonder if they know how beautiful it sounds to those who are enjoying the cool air of the evening out on the porch in rockers or hammocks, after the heat of the day. Snick says, "It is Willie practicing the 'Commodore.'" Well, if it is, we wish he would practice the whole navy from the commodore down to the powder monkey.

That Stewart, Risdon, Scott and Wyper go out hunting of evenings and bring in lots of birds.

That Dr. Harper's magnificent grey carriage horse has been sold to an Albuquerque man—lifed.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box. 25c.

Killing at El Paso.

Two shots rang out on the still morning air about 5 o'clock yesterday morning. H. L. Jacard was found in a dying condition in a little alley running beside the house of Leonie Reed, on Utah street, and just in the rear of a "crib" occupied by a woman who gives her name as Ethel Denton. He had a bullet hole through his body and the life blood was ebbing away so rapidly that he lived but a few seconds after he was shot.

James Denton is in the county jail charged with his murder, and the woman, Ethel Denton, is also held.—El Paso Herald.

GOLDEN.

Special Correspondence.

Golden, Aug. 3.—W. S. Rishworth, manager of the Baird company, limited, reports of having struck the water level in the new company's well at a depth of 190 feet. He expects to go deeper, until all the water needed is acquired.

H. T. Brown, United States mineral surveyor, has been for several days surveying several mining claims for iron. T. B. Catron for a patent. All the claims are joining the Santa Fe Gold & Copper Mining company's copper properties, and all show to carry copper and gold ore.

Quite an excitement prevails in San Pedro and Golden over the finding by Nicolar Lucero, of Santa Fe, of a gold nugget in the Gold Standard claim, weighing twenty-three pennyweights and five grains. Mr. Lucero sold the nugget to the postmaster at San Pedro for \$25. The nugget is one and one-quarter inches long, one inch wide and over one quarter of an inch thick, and is well covered with quartz. The two Lucero boys were allowed to prospect in the Gold Standard ground about a month ago, and they have taken out over \$100 worth of gold, all having been in nuggets weighing from 10 cents up to 23 pennyweight. Several other men have also dry washed in the same vicinity and have made wages by washing.

W. E. Hodges, general purchasing agent for the Santa Fe, is in the city today.

A PICTURE

Of health, we say of a perfectly healthy woman, and it is a picture everyone loves to look upon. All the pictures of all the artists who have ever painted the glory and beauty of womanhood, are only copies and imitations of this picture.

are in general but evidences of womanly diseases. Cure the diseases and the physical health is restored.

Dr. Pierce's Favorite Prescription cures the ills of women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

Mrs. Mary E. Lewis, of Tanner, Gilmer Co., W. Va., writes: "I shall always recommend Dr. Pierce's Favorite Prescription. 'Golden Medical Discovery' and 'Pleasant Pellets' for they cured me when doctors and other medicines failed. For fifteen years I suffered untold misery. When I commenced taking Dr. Pierce's medicines, I had given up all hope of ever getting well. I could not lie down to sleep, and everything I ate would almost cramp me to death. Was very nervous and could hardly walk around the room. I only weighed ninety pounds when I commenced taking these pills. Now I weigh one hundred and forty pounds, and am having better health than ever before. I am the same person; after being sick so long I have changed to be robust and rosy cheeked."

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.

CATTLE PURCHASES.

California Buyers Secure the Grayson Herd in Sierra County.

The Grayson herd of fine Durham and Hereford cattle, from the Grayson ranch near Hillsboro, has been sold. W. A. Hobson and W. R. Patterson, of California, are the purchasers. The herd consists of about 25,000 head and among them are some of the best breed of cattle in the territory. The price paid has not been made public, but it rumored to be about \$16 per head, taking them as a whole.

Messrs. Hobson and Patterson made another purchase of 7,000 head near Globe, Arizona. The gentlemen have returned to California.

Mine Suit Settled.

The Helen Rae mine litigation is at last settled. Judge Daniel McMillan sustained a motion made by E. W. Dobson, attorney for the defendant, to dismiss the case, which has been in the courts for the past twelve years. The mine is owned by Hon. Rolla Wells, mayor of St. Louis. William Watson, one of the former owners, sued Mr. Wells and his associates to recover an interest. At one time a decree was made in favor of the plaintiff and on an appeal was set aside. The properties which came under the Helen Rae group were among the most valuable in the Nogal district, but have not been worked for the past ten years because operations were hindered by litigation.

Jumped From Train.

Among the patients at the St. Joseph sanitarium and hospital is a young discharged soldier, named Edward Kennedy. He arrived from the west last Saturday night, and is suffering from injuries received in a leap from a moving passenger train. The Needles Eye, in an article on the accident says:

A young soldier named Ed Kennedy, from Fall River, Mass., nearly killed himself last Tuesday afternoon by jumping through the window of a passenger car, which was flying over the Jesuit at the rate of forty miles an hour. Kennedy, recently returned from the Philippine Islands, stopped over in San Francisco before returning to his home in Massachusetts, and proceeded to have what rounders term "a good time."

He got drunk, of course, lost considerable money in gambling, continued to get drunk, and ended up with a mild attack of Jeems Jimmies. He started home with several other boon companions, all still "lapping up booze," and when train No. 8, on which he was passenger, got about three miles east of Bagdad, the half crazed fellow leaped through the car window and his head came in contact with a boulder, while his body was jammed into the gravelly ground. He was not missed until the train reached Amboy, where Conductor McDonald was forced to check up all the passengers to find out who was missing.

Train No. 34 followed No. 8 and picked up the injured man and brought him to Needles, where he was placed in the company hospital. Here it was found that he had a scalp wound about eight inches in length, and a fracture of the thigh. He was promptly cared for, and strange to say, rallied finely, and at this writing is doing nicely.

Raton Oil Well.

The well is now down 2,165 feet and drilling is temporarily suspended for repairs. The crank shaft broke late Tuesday night and a new one was ordered from Pueblo yesterday. It is expected here today and drilling will probably be resumed by tonight. The drill is now in what is believed to be the cap rock overlying the oil sands.—Reporter.

The railroad company is getting in material for the contemplated improvements in the yards at Kingman. The new sidetracks will give the company what they have long needed at that point.

COURT AT SANTA FE.

Final Report Filed Involving Distribution of Real Estate.

In the case of Piedad Lucero de Silva vs. Gregoria Delgado de Garcia et al., involving the estate of the late Piedad Lucero, Antonio Ortiz y Salazar and Chas. M. Conklin, of Santa Fe, filed their final report and Judge McFie, of Santa Fe, entered an order for the distribution of the estate, says the New Mexican. From the sale of the property on the south side of the plaza to George W. Hickox, \$8,000.55 was realized and the total on hand for distribution was \$8,587.96. One of the receivers, Antonio Ortiz y Salazar, was allowed \$197.30 for his services, and the other, Charles M. Conklin, \$137.50. After paying a mortgage on the property and other expenses there remained to be distributed \$2,059.28, of which one-third is to be paid to Piedad Lucero de Silva and the other two-thirds to George W. Knebel, representing the other heirs.

Sheriff Marcelino Garcia was to have sold on the court house steps the Gold Standard mine at Golden on an execution for a judgment of \$559.75 against the owner of the mine, Pablo Aranda. Aranda, however, paid the judgment, and hence no sale took place.

Stepdaughter Shot.

A flurry of excitement was caused in the city Tuesday afternoon by the report that a shooting affray had taken place at the home of Pedro Zamora a short distance north of town. It seems that Zamora's gun was discharged by some means and inflicted a slight flesh wound upon his stepdaughter just above the waist. Zamora stated that the discharge of the gun was an accident and the young woman corroborated the statement.—Socorro Chieftain.

Good Chicken Feed.

According to El Republicano, a new use for burros has been discovered in Socorro. Burros are sold at 50 cents a head and fed to the chickens and El Republicano says that this food proves to be cheaper and better for poultry than corn or wheat.

PRINTERS ORGANIZE.

The Boys Mixed Up Trade but Organized All the Same.

The printers of Chaves county have organized Roswell Typographical Union No. 519 and received their charter. The membership of ten includes: William Robinson, J. T. Lacy and J. L. Moxley, of the Record force; Charles S. Kessler and Walter Brandon, of the Register force; W. H. McClintock, superintendent of the Telephone line; E. E. McNatt, drug clerk at the Pecos Valley drug store; C. E. Holt, who is working as a lather for S. E. Patton, the contractor; Jack H. Mulloy, a dealer in the Grand Central hotel bar; and G. M. Bull, of the Herald office at Portales, ninety miles up the line of the Pecos Valley & Northeastern railway. The officers are: Walter Brandon, president; Charles S. Kessler, vice president; and J. T. Lacy, secretary and treasurer. The scale of wages adopted is \$12.50 for compositors, \$15 for jobmen and \$18 for foremen.—Roswell Register.

WILL DIE SOON.

Aaron Hall Will Sit in the Electric Chair.

New York, Aug. 4.—After counsel had unavailably exhausted every means known to the law to save him from the electric chair, Aaron Hall, the murderer of Mamie Brannigan will pay the penalty of his crime at Sing Sing this week. Though the customary secrecy is maintained regarding the precise time it is thought probable the execution will take place tonight.

Mamie Brannigan was employed in a department store on Third avenue and Hall, who was in love with her and jealous, walked into the store and shot her on May 10, 1900. On August 6, nearly two years ago, Hall was first sentenced to death. The case was appealed to the higher courts, which confirmed the judgment of the lower court. Another appeal was taken, this time to the United States supreme court, but that tribunal also reaffirmed the decision and an appeal to Governor Odell for clemency was likewise futile.

DELEGATE RODEY.

Clippings From a Few Territorial Changes.

Albuquerque turned out and greeted Delegate H. S. Rodey in grand style. It was one of the biggest receptions ever tendered a New Mexico delegate.—Las Cruces Progress.

Rodey Home.

Delegate Rodey was tendered a non-partisan reception at the Alvarado hotel in Albuquerque last night, upon his return home from the east. An immense gathering greeted the statehood champion.

D. K. B. Sellers was appointed a member of the committee to meet Mr. Rodey at Raton, but was unable to be there.—Farmington Hustler.

Mineral Survey Order.

Surveyor General Morgan O. Llewellyn ordered the survey of the Ancho group and the South Ancho placers in Ancho gulch, Jicarilla mining district, Lincoln county. The claimants are Colonel George W. Prichard and N. G. Padden, of White Oaks, Lincoln county. The survey will be made by Deputy United States Surveyor William F. Blanchard, of White Oaks.

Commissioner Appointed.

Governor Otero appointed J. E. McCarty a member of the board of county commissioners of San Juan county, to succeed Clay E. Brimhall, who resigned on account of removal from the territory.

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Ayer's Blood Purifier, which we sell under a positive guarantee. It will always cure acrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

BROWNS VICTORIOUS.

Las Vegas' New Ball Team Easy for Albuquerque.

In a very loosely played game of base ball the Albuquerque Browns were easy victors over the newly organized Las Vegas team, although there is some excuse for the Meadow city boys, as this was their first game and they were all togged out in their new, dark blue uniforms. The score was 26 to 18. The game started in very nicely, with Parsons and Rhodes in the points for Las Vegas, and Sonier and McDonald for Albuquerque. This same Rhodes is the young man who twice defeated the Browns and once the Antonio, Colo., team, but yesterday was only able to throw three innings. In the third inning thirteen runs were scored and this son catching, the lad and he gave way to Gross. Sonier pitched the first six innings for the Browns and the Vegas boys only managed to secure two hits off him. The fielding behind him was ragged and three tallies were scored. Hale was substituted to pitch in the seventh and eight tallies were made. McDonald occupied the center of the diamond in the eighth and ninth. Wilson catching, and allowed seven runs. The hitting of the Albuquerque team was terrific. Vorhes scored two home runs and Barrett one. Parsons, for the Vegas team, also made a home run. The boys came back well pleased with the treatment accorded them by the Las Vegas team and those connected with it.

The only thing to mar the pleasure of the trip was the way in which the man in charge of the El Dorado hotel treated them, but this was soon remedied, as the boys promptly changed their quarters. The management of the Las Vegas ball team took him to task for his conduct.

The citizens of Las Vegas certainly ought to appreciate the enterprise and ability of Colonel Twitcheell. The colonel is nothing if not versatile and is a huge success whether managing a ball team or representing the railroad company in the courts. He has the up to date get-ter-here spirit which is characteristic of our own prominent citizens and Las Vegas can congratulate herself that she has him in her midst. We wish we could take him and make an Albuquerquean out of him.

TWO OF A KIND.

They Were from Missouri, but Thought They Were in a Foreign Country.

A fine looking gentleman, with as fine looking wife, caused considerable amusement on account of their ignorance while a west bound passenger train waited at the local depot last night. They left the train, just like the other passengers, for a promenade of a few minutes along the platform. They suddenly saw they stopped and commenced conversation. The gentleman remarked the gentleman to his wife, in a party of traveling friends: "Well, we are now out of the United States and this is the first time I have ever visited a foreign country," whereupon the wife, with an intellectual smile on her face, answered: "When we finish our journey and get back to our Missouri home, we can tell the home folks that we were out of the United States, if for only a little while."

Evidently this Missouri couple need fixing, or, in other words, Delegate Rodey's constant pleadings for statehood for New Mexico have never been read by them.

BIDS ARE OPENED.

For the New Officers' Hospital and Infirmary at Fort Bayard.

The first move in the carrying out of the proposed magnificent improvements at the United States General Hospital for Consumptives at Fort Bayard was made Friday afternoon when, in the presence of the quartermaster, Captain Powell, bids for the addition to the "infirmary and officers' hospital were opened. The Silver City Enterprise says that the specifications called for a large cruciform brick building with twelve wards, dining room, sitting room, kitchen, library and other necessary rooms. The infirmary will contain two very large halls and other necessary apartments. The following is a list of the bidders and their bids: P. J. Callen, El Paso, Texas, officers' hospital, addition to infirmary, \$67,244.50.

Sidney J. Weir, El Paso, Texas, officers' hospital, \$23,699; addition to infirmary, \$19,740; total, \$43,439.

Henry & Sundt, East Las Vegas, N. M., officers' hospital, \$34,375; addition to infirmary, \$23,476; total, \$57,851.

Mathews & Laird, Silver City, N. M., officers' hospital, \$24,851; addition to infirmary, \$22,512; total, \$47,363.

Plumbing and Heating: W. S. Cox, Silver City, N. M., officers' hospital, \$4,100; addition to infirmary, \$3,551; total, \$7,651.

The matter will now go before the quartermaster general at Washington and the contract awarded.

SERIOUSLY HURT.

W. B. Shawver Falls from the Cedar Hill Bridge and Sustains a Fracture of the Skull.

What may result in a fatal accident occurred about 4 o'clock yesterday afternoon, when W. B. Shawver, one of our best known contractors, while engaged repairing the Cedar Hill bridge, fell from the top cross beams to the bridge floor, and sustained a compound fracture of the skull and all the ribs of his left side crushed and broken. A messenger was immediately dispatched to Astec for a doctor and word sent here by telephone to his wife, who departed at once for the scene of the accident.

Dick Greaves, who drove Mrs. Shawver to Cedar Hill, returned this morning and reports his recovery very doubtful. Three times during the night he regained consciousness for a moment and muttered something which was understood as "water." The fracture of the skull in the forehead permits exposure of the brain, but the most serious injury seems to be to the broken ribs. Dr. Rosenthal has been sent for, and a courier dispatched for his son, Harvey, who is camping on the Piedra.—Farmington Hustler.

SPORTS AT FAIR GROUNDS.

The Races Good But the Crowd Very Small.

A moderate but enthusiastic crowd of admirers of horse racing attended the matinee given at the fair grounds yesterday by the Gentlemen's Driving association. The patronage was not as good as the attractions offered deserved, but the horsemen are not discouraged and will give another meet in the near future.

The exceptionally warm weather kept a great many away who would have been present had the afternoon been cooler.

A small admission of 25 cents was charged and the proceeds will be expended on the improvement of the track, which it is hoped will be put in good shape before fall time.

The races were good. Joe Barnett's new acquisition, Primrose, made her first appearance yesterday and won both pacing events with ease. In the 2:30 race she went the half mile in 1:09 without being pushed. Mr. Barnett is well pleased with her actions.

Nimble Jim, well known to the people of Albuquerque, took the trotting event.

My Girl, T. Lucero's little mare, led the procession in the running.

In the final heat of the 2:35 event all the entries broke in the stretch and went under the wire on the jump.

A ball game played by two local teams ended in a score of 9 to 4.

TOWNS OF LAS VEGAS

BY SPECIAL CORRESPONDENT

Special Correspondence.

Las Vegas, N. M., Aug. 3.—Col. R. G. Head returned from his trip to Kansas Sunday and says it was fearful hot and dry there yesterday and he is mighty glad to get back to New Mexico where the weather is bearable.

Daniel Patterson, master mechanic of the Santa Fe at Raton, and son were in the Meadow city Sunday.

The Dawson railway commissioners held their meeting Saturday afternoon in Judge Mills' office and made up their report. It has been sent to Judge McFie at Santa Fe, and will not be made public until it is sent back here to be spread upon the court records.

The superintendent of schools, Miss Maggie Bucher, returned Sunday from her vacation trip to Denver.

T. B. Hubbell and G. V. Crosby came up from Albuquerque Sunday and are enjoying life at the hot springs.

Miss Regina Rosenwald, who has been visiting Mrs. Cecilio Rosenwald here, returned Saturday evening to her home in Albuquerque.

Mrs. W. M. Peterson, of El Paso, who has been visiting her mother, Mrs. T. B. Mills, here, returned Saturday evening to her home.

A. A. Jones returned Saturday evening from Raton, where he was on legal business.

Mrs. A. J. Wertz left Saturday evening for El Paso, where she will visit Mrs. C. W. Allen and Mrs. Brooks. She will be gone about a month.

Miss Estelle Lewinson, of Trinidad, well known here, passed through Saturday evening en route to Albuquerque for a visit.

Hon. Frank Springer returned home Saturday evening from his stay of several days at Raton.

W. M. Lewis has a photograph of the old ball team in Las Vegas that held the championship of the territory from 1883 to 1887. The smiling faces of Chris Sellman and Harry Kelly beam out in the background as managers of the star knockers. The only two men in the team now in the city are W. G. Benjamin and P. J. Murphy, while five of the players have made their last trip over the home plate, being dead.

J. Y. Lujan has taken his son to Denver to get an artificial limb fitted. The lad lost his limb about a year ago in a threshing.

Misses Artless and Mildred Browne returned Saturday evening from their visit with their aunt, Mrs. C. M. Blackwell, at Raton.

Mrs. Ross and daughter, Miss Bessie Ross, will leave next week for Boston and other points in the east for an extended visit.

Hon. Gregorio Varela returned Friday night from his trip to his ranch in San Gerónimo. He says that the country is very dry, but the alfalfa crop is good.

At the meeting of the E. Romero Hase company Friday evening a committee consisting of Ludwig Hild, Secundino Romero and A. T. Rogers was appointed to look after the matter of building an addition to the hose house on the west side. The company intends to add a regular team some time in the future and need stable room. A number of improvements were ordered on the hose cart. The Romero boys always have a social session at every regular monthly meeting, and last night was no exception.

Judgment has been awarded the Floerheim Mercantile company, of Springfield, for the sum of \$932.54 against F. J. Baca. The suit was brought on a promissory note of \$774.60 and trimmings, given for merchandise sold defendant.

Father H. Cirma, of Sapello, was in the city yesterday.

Mrs. A. B. Smith and family, accompanied by Mrs. Yeakle, went out to Trout springs today for a short stay. Mr. Smith will go out tonight.

Max Nordhaus returned Saturday from his stay at Santa Rosa.

C. C. Brooks, of the Golden Gate city, is here enjoying a change of climate.

Hon. Wallace Reynolds came over Saturday afternoon from the territorial capital.

Miss Bessie Cooley pleasantly entertained a number of friends at cards Friday night. The game of the evening was six handed euchre, in which Miss Mary Davis took the prize for the ladies. Mrs. Chas. A. Spiess the prize for the lone hands and Hallett Reynolds the honors in games for the gentlemen. There were about thirty guests present and delectable refreshments were served during the evening. Las Vegas has been having a regular round of pleasures this summer, the events coming thick and fast, and all have been noted for the delightful enjoyment provided the participants.

Miss Bacia, aged 37 years, died Friday at Rivera. The death was unexpected, as she had been sick only a short time.

Chief Clerk J. H. Jones is able to be back at his desk in Superintendent Fox's office today, after several days off on account of sickness.

Mrs. W. B. Bunker will leave on Monday for a trip to her old home in Merced, Cal., to see her parents, her father being now quite feeble.

C. L. Harris and G. V. Harris left Saturday evening for Willis, where they will enjoy a week's outing. C. L. Harris, who has just recovered from a tussle with typhoid fever, expects to regain strength rusticaling about the camp.

John Weber is here in the interest of a kidney pill getting testimonials. A testimonial man is about one of the

smoothest individuals on the road. He is getting his note book full here and laying up trouble for newspaper men.

Special Correspondence.

Las Vegas, Aug. 4.—William Stewart arrived here Saturday night from his trip to Scotland. Mr. Stewart came up by way of Tucumcari to see his brother and came overland here by stage.

A lot of insulators and small electrical trappings for the electric line have arrived. The copper trolley has been shipped from Pittsburgh and the rails left East Las Vegas on August 1, and will arrive here in about seven days. The contract for the power house will be let probably today or tomorrow and work will begin on the building at once.

The county commissioners held a session today and fixed up some county matters and ordered a batch of bills paid.

Josefa J. Gutierrez, of Albuquerque, has transferred to Juan Ortiz, of Galisteo, a parcel of land in the southwestern part of the county. Consideration, \$300.

Died, yesterday evening, Miss Casimera Madrid. The young lady, who was 21 years of age, had been a patient sufferer for the past year, and death came as a relief. The remains will be taken to Los Valles for interment.

Max Nordhaus, who returned from a long stay at Santa Rosa Saturday night, is browned and ruddy from his encounter with the hot and dry country there. He reports the country as extremely dry and suffering for want of a good soaking rain.

Rev. Geyer, of St. Paul's church, of Lafayette, Indiana, occupied the pulpit at the Methodist church yesterday. Both morning and evening. Rev. Geyer's sermons were very interesting and instructive, he being a forceful and eloquent talker.

Miss Sophie Gilchrist has resigned her position at Davis & Sydes, and will fit herself for professional teaching. Miss Eliza Curtis, daughter of Rev. Curtis, who died a short time ago, will take Miss Gilchrist's place in the store.

Ensenio Lucero brought in a menagerie with him this morning from Chaperito in the way of a full grown wild cat and a young feline. The old cat was caught in a trap, just getting a couple of toes pinched. Mr. Lucero has the young cat for sale as a pet. The old cat is a vicious animal and strongly resented the prying eyes of the interviewers.

A little freight wreck up the road beyond Raton, which was caused by a draw bar pulling out, delayed the trains from the east about three hours today.

The report of Hon. J. S. Duncan, E. Goodwin Austen and William C. Barnes, commissioners on the Dawson Railway company vs. the Red River Valley company, et al., case has been made and is as follows: They find that the plaintiff has taken from the defendants for right of way and other purposes 1,306.49 acres of land, the value of which is found to be \$2.50 per acre, making a total of \$3,266.25. It was further found that the building of said railroad across the lands of the defendants damaged the land in the sum of \$7,000, making the total value \$10,266.25.

The attorneys in the case were Hon. Chas. A. Spiess for the plaintiff and George P. Money for the defendant. The commissioners, with the attorneys and C. M. O'Donel, manager of the Red River Valley ranch, went over the land and viewed the damage done, and have filed a blue print map showing the location of the railroad through the damaged ranch land. The railway company, before the suit, offered to compromise for \$13,000.

Special Correspondence.

Las Vegas, N. M., Aug. 2.—The card party given by Mr. and Mrs. Harry W. Kelly last night was a very delightful affair, and a large number availed themselves of their hospitality. The game of the evening was six-handed euchre, and Mrs. Charles A. Spiess took the ladies' first prize and Mrs. T. G. Merina the second prize. For the gentlemen, J. M. Cunningham took the first honors and Charles Hild the second. There were seven tables in the game. Splendid refreshments were served and an evening of merry making was the program for all present.

Charles C. Catron, son of T. B. Catron, of Santa Fe, has brought suit in Mora county against H. K. Leonard and to restrain him from cutting timber and taking out timber on the Mora grant.

A number of friends dropped in at Mrs. B. Danziger's last night to meet Miss Jacobs, of Pueblo, who arrived here yesterday for a visit. Miss Jacobs is well known here by many of the young folks, she having visited here before.

Albino Lopez has transferred to Juan M. Romero a piece of land in precinct 55 at La Cuerva. Consideration, \$87.50.

Miss Mathilda Gallegos, the stenographer in the district clerk's office, is on the sick list today and unable to be at her duties.

Rosario Romero has transferred to Dario Atencio a tract of land at La Reunion and the improvements thereon. Consideration, \$108.

There were a couple of good scores made at the gun club shoot yesterday afternoon. S. R. Dearth now wears the club badge for a score of twenty-one birds out of a possible twenty-five in the singles. He also made a score of nine out of ten in the doubles. "Happy" Miller tied the score of Mr. Dearth, but is not a member of the club. The club members are figuring on going to the shooting tournament at Albuquerque, if it is given, and figures on getting some of the money, too.

Miss Bertie Norrington will leave in a few days for Chicago and points in Pennsylvania, where she will remain. Pedro Perez and wife are here from Bernalillo seeing the sights in the Meadow city.

The commissioners on the Dawson railway adjustment will meet tomorrow afternoon and bring in their report. It is likely to be a lively session as there is some difference of opinion, naturally, as to the value of the land in question. Mr. Barnes, the Colfax county member, will come down on No. 1 tomorrow and the session will probably last all afternoon.

A. A. Conceal and A. Green will leave Sunday for their mine down in the Bernal district. The gentlemen have a good coal claim there and have invested considerable money in the hole. They feel, though, the mine will eventually be a paying one.

J. Frank Chavez is here from his home in Santa Fe, seeing his friends and talking a little business on the side.

William White is on the indisposed list today.

Mrs. Jake Stern, who has been sick, is reported better today.

George Maloff has arrived here from South America and will make his future home in this city. He is a brother of the west side merchant by the same name.

The temperature record for the twenty-four hours ended at 6 o'clock yesterday evening was maximum, 90; minimum, 54; mean, 72. The mean humidity was 53.

There was not a very large crowd out to attend the meeting held at Captain W. C. Reid's office last night to talk the matter over of reorganizing the G. A. R. post here, though those who were in favor of the move and a meeting is called for tonight again to take steps toward perfecting the organization. J. W. Edwards, department commander, of Albuquerque, has consented to remain over today to be present tonight, when a large crowd is expected out. The feeling among the old veterans seems to be in favor of reorganizing, and it probably will be done.

Aniceto Abeytia and Mrs. Juanita Abeytia returned this afternoon to Santa Fe after a visit with friends in this city.

R. B. Roger, one of the telegraph operators, expects to leave this evening for California, where he will go to work on the Santa Fe Pacific.

R. Romero returned this afternoon to El Paso after a stay in the Meadow city of several weeks.

George Parsons, the colored catcher, who will hold down Charles Rhodes

pitching Sunday, arrived this evening and will practice with the boys. The game Sunday promises to be a hot one.

Superintendent Fox returned this afternoon from his trip up the road. Word was sent him that his chief clerk, Mr. Jones, was unable to attend to the office on account of sickness. Mr. Jones is confined to his bed, and is quite ill.

There will be quite a crowd of the members of the knights of Pythias attending the biennial meeting of the supreme lodge from over the territory. E. L. Browne, of this city, and W. F. Kuckenbecker, of Gallup, as supreme lodge representatives for the territory, will leave Monday next. Others that will accompany them are C. F. Easley, supreme grand prelate, and wife, of Santa Fe; W. W. Risdon, of Gallup, and Perry Earlickson, of this city.

Miss Bessie Cooley will entertain a number of friends at her home tonight.

Max Karlsruhe and J. M. Jacobs are down from Springer today seeing friends and combining business with pleasure.

Mr. and Mrs. Wilfong, who have been in the city for some time, left today for Canon City, Colo., where they will remain.

The option on the Hamilton mine, which has been held by Messrs. C. C. Robbins, O. Earlickson, Donald Stewart, C. O. Roberts, P. J. and Mike Murphy, has been transferred to W. B. Twitchell as the representative of some New York capitalists, and there will be an expert out here to look over the mine some time within the next two weeks. The bond is given with the right to buy at \$50,000. The Hamilton mine is on the Pecos reserve and is said to be one of the richest in this vicinity.

The remains of William Edson were not shipped to Jonesboro, Ark., until today. They left on No. 2.

Col. R. E. Twitchell is sick with tonsillitis in Albuquerque. Mr. Twitchell had to go to bed soon after his arrival in Albuquerque, and has been confined ever since.

James E. Watson, of the Sixth congressional district of Indiana, and one of the most prominent men in the house and close to Speaker Henderson, yesterday, while here, said that New Mexico had absolutely no show for statehood. It would undoubtedly be considered, but would not pass. Evidently somebody must be mistaken.

Special Premiums.

The business men of Albuquerque should get together and offer a line of special premiums for the territorial fair. These should not be along the line of races, but for specialties that will interest their customers and the ladies of New Mexico. The Citizen will agree to advertise all these specialties free of charge and we believe every newspaper in the city will do the same. The business men could make this feature attractive and interesting to their patrons and beneficial to themselves. Think about this but do not think too long, but do something.

Bowlers Go West.

Chicago, Ill. Aug. 2.—Thompson, Brill and Worden, three of the best bowlers Chicago ever produced, leave today on a western trip to play a series of match games with some of the best teams to be found in the country. They will go direct to Los Angeles, where they have six engagements; thence to San Francisco, where the same number of dates are to be filled. Working to the east, they will stop at Salt Lake City, Denver, Omaha and several cities in Iowa, arriving home about Sept. 10.

OUTDOOR ART.

Sixth Annual Convention of a Most Useful Association.

Boston, Mass., Aug. 5.—The sixth annual convention of the American Park and Outdoor Art association began here today. Several hundred delegates, among them men and women of national reputation as artists, landscape architects, gardeners or florists, are present. One of the chief matters to receive attention during the three days' sessions is the best methods for checking the bill board and other public advertising abuses. Papers and addresses upon subjects relating to outdoor art will be presented by President Eliot, of Harvard university; Charles Mulford Robinson, of Rochester; Clinton Rogers Woodruff, of Philadelphia; Miss Mira Lloyd Dock, of Harrisburg, and Dr. Albert Shaw, editor of the Review of Reviews.

HIBERNIANS OF OHIO.

Great Gathering of the Irish Society in Springfield, Ohio.

Springfield, Ohio, Aug. 5.—The Ohio division of the Ancient Order of Hibernians began a convention here today, which in point of attendance is the largest gathering ever held by the order in this state. The busiest sessions were preceded by the celebration of mass at St. Raphael's church. At 10:30 the convention was called to order by the state president, Thomas S. Hogan, of Wellston. After an address of welcome by Mayor Milligan and the appointment of committees a recess was taken until tomorrow morning. This afternoon the annual convention parade was held, several hundred delegates representing all parts of the state being in line. The affairs of the order are in good shape and nothing of unusual importance is expected to come before the convention.

PENSIONS

For Survivors of Indian Wars.

The act July 27th, 1892, has been extended so as to give pensions to survivors (and their widows) who served in the Indian war as follows: Cayuse, from 1847 to 1848; Texas and New Mexico, from 1849 to 1856; California, 1851 to 1852; Utah, 1850 to 1853; Oregon and Washington, 1851 to 1856.

Write me for blanks and full instructions.

PLEASANT KING, Pension Attorney, Lin Creek, Mo.

IOWA CAPITAL.

Takes Hold and Will Make Extensive Operations in Lincoln County.

A correspondent writing to the Denver News from Captain, Lincoln county, N. M., under date of August 3, says:

S. S. Doak, general manager of the New Mexico & Iowa Mining company, was in town from his Parsons headquarters. The New Mexico & Iowa Mining company is one of the strongest companies financially speaking operating in the county. Mr. Doak and the men behind him are all practical mining men, who know what a mine is when they see one without having to have some one tell them. This company owns fourteen claims on Turkey creek, a few miles above Parsons, among which are some of the richest copper properties in this part of the territory. Besides this, the New Mexico and Iowa company own fifteen copper claims near Scheelerville, a mining camp of growing importance in the western part of the county.

When asked regarding the mining outlook in Lincoln county, Mr. Doak replied that this county is the greatest mineral region in the territory, and cited the great activity which the industry is enjoying to prove his assertion. While he declined to discuss the future policy of his company, he gave the News correspondent the following resume of what his company has accomplished thus far:

"The work which we have done, both on our Turkey creek and Scheelerville properties, thus far has been confined to developing the ore bodies and ascertaining the character and value thereof. In carrying on this development work we sunk several shafts and run a number of tunnels to cut the ore bodies. On our Turkey creek properties we have about 3,000 feet of shafts and tunnels, all exposing good ore. We have not taken out any ore, as we are not ready for that yet. We, however, expect to begin taking out ore by the first of August. The ore will be carefully sorted, and the best shipped to El Paso for treatment. The balance will be left on the dump to await the erection of our own reduction works, where it will be treated at the mines."

The American Gold Mining company has acquired control of the Helen Ray mine, at Nogal, and will operate it in conjunction with the American, which that company is already working. The Helen Ray is one of the best mines in that part of the county. It was formerly a steady producer, but like many of the other mines in that section was shut down several years ago as the result of mismanagement. The new owners now have a force of about forty men working in and around it, cleaning out the shaft and doing other work. The ore from this mine will be treated on the mill at the American mines.

BEER TRUST.

Active War on the Combine by Retail Dealers.

Washington, Aug. 5.—The retail butchers and meat dealers of the country do not regard the war on the alleged beef trust as by any means ended. Their national convention, which opened here today with an attendance of several hundred members, will complete plans for a continuation of the fight on the big butchers' and packers' combination. The retailers have confidence in Attorney General Knox, who, before the filing of the bill in equity in Chicago, received a delegation composed of the national officers and prominent members, and he was supplied by them with much evidence, of which he made use in proceedings in the United States courts. While the court proceedings are pending the retailers propose to go ahead collecting all available evidence and placing it at the disposal of the department of justice.

From Australia to Transvaal.

Porto, Western Australia, Aug. 5.—Sir Arthur Lawley started today for South Africa to assume the duties of lieutenant governor of the Transvaal colony. He will assist Lord Milner, the British high commissioner, whose work since the close of the Boer war has become too burdensome for one man to perform.

Virginia Lawyers.

Hot Springs, Va., Aug. 5.—Eminent representatives of the bench and bar of the state were present today at the opening of the annual meeting of the Virginia Bar association. The feature of the opening session was the address of the president, Hon. Thos. C. Elder, of Staunton. Other features of the meeting which does not come to a close until Thursday evening, will be a paper by Senator John W. Daniel, dealing with the recent Virginia constitutional convention, and an address by Judge James G. Gantt, of the Missouri supreme court.

Guardmen in Camp.

Madison, Wis., Aug. 2.—Bright and early today the soldiers of the First regiment and the First battery, Wisconsin national guard, arrived at the camp grounds, the Stars and Stripes were thrown to the breeze, the bugles sounded, tents were pitched and within an hour Camp Swanson had become a reality. The camp was named in honor of the soldier that was killed in action at Abonita Pass, Porto Rico, while serving as corporal in company L, Third regiment, Wisconsin Volunteer Infantry, in the war with Spain.

The regiment and battery will remain in camp until the end of next week when they will be succeeded by the Second regiment and Troop A, who in turn will give way to the Third regiment and the tenth separate battalion.

Drill work and rifle practice will keep the young soldiers pretty busy, and in addition there will be the regular inspections which this year are to be conducted by Capt. Edward Chynowith, of the Seventh infantry, United States army.

Seven Ministers.

Kewick, Ontario, Aug. 2.—The Rev. Charles H. Hainer, of this place, and his six sons, all ministers of the gospel, met in family reunion today at Lake Simcoe. The father is a member of the Baptist church, as are four of his sons, who have charges at Norristown, N. J., Newark, N. J., Providence, R. I., and Kewick, Ontario. The other sons are members of the Christian church and are located at Irvington, N. J., and Oshawa, Canada. There was another son, also a minister, who died some years ago. Dr. Hainer is proud of his family and believes it is without a parallel in America.

SAYING GOOD WORDS.

A Few Clippings of a Pleasant Nature from Raton Range.

The territorial fair at Albuquerque in October will be the greatest exposition of the resources of New Mexico ever made and will embrace more attractions in the way of sports, etc., than were ever presented at any previous affair of the kind. Low rates will be granted by the railroads to those who wish to attend the fair and there will be a very large attendance from all parts of the southwest. Raton and Colfax county will be well represented among the attendants and should be creditably represented by exhibits.

George F. Albright, manager of the Albuquerque Journal-Democrat, was one of the Raton reception committee who came from that city to Raton yesterday. It was the first visit he had made to this place in a long time and was surprised to see here a town of such size and attractiveness.

W. T. McCreight, city editor and one of the publishers of the Albuquerque Daily Citizen, was one of the committee of Albuquerqueans who came to Raton Wednesday to meet and welcome Delegate Rodey on his return home from Washington. "Mac's" nose for news does not diminish as the years pass, and during his short stay here he found much to make a note of. At the same time he mingled about among the people and talked up the territorial fair which he says will embrace more attractions than any previous event of the kind.

Jerry Leahy was at Albuquerque last Saturday and attended the meeting of the republican territorial committee. He says the majority of the committee favor Raton, as the meeting place of the republican territorial convention and that this place will undoubtedly be selected by the committee at its next meeting, August 22. Mr. Leahy says Albuquerque is unusually lively; that the new lines of railway building and contemplating building there have given the city an impetus approaching a boom.

Amazon Rubber.

The greater part of the world's supply of rubber comes from the jungles of the Amazon. The growing demand for the product has led the natives to explore regions which have hitherto never been trodden by man. These explorations have resulted in the discovery of new areas of rubber lands. Consequently the world's supply of rubber annually exported is increasing. The shipments from Iquitos during 1900 amounted to 920 tons; in 1901 the quantity sent abroad increased to 1,391 tons, and this year a still larger gain is expected.

The Best Prescription for Malaria.

Chills and fever is a bottle of Grove's Tasteless Chilli Tonic. It is simply iron and quinine in a tasteless form. No cure; no pay. Price, 50c.

Emancipation Proclamation.

The colored people of the United States will celebrate the emancipation proclamation and the colored people of the city will celebrate on August 4. Meats composed of mutton, beef and pig will be roasted to a beautiful brown and served at an all day dinner beginning at 2 o'clock. Also a grand concert with speech making in the evening, at 315 Railroad avenue, next door to the Grant hall.

Pleasant Social.

The social given by the Young People's union of the Baptist church last night was a great success and fully 300 were present. It was partly as a welcome to the pastor, Rev. H. J. Powell, who recently returned from Michigan, and partly to enable the young people to become better acquainted with the congregation.

The Mandolin club gave two selections. Mrs. Booth sang a solo, Rev. V. W. Alger read a humorous selection and Miss Ida Johnson delivered a recitation. Lemonade and cake were served.

The Cash Entry Sold.

The First Chance, formerly the Cash Entry mine near Cerrillos, has been sold by J. Ross Griffith for \$3,000 to G. Alden Smith, G. Alden Whitworth and associates of Boston, who have also bought nearby mining properties and will erect a concentrator on the Cash Entry, which not so many years ago was valued at \$50,000. The new concentrating plant is to treat the lead, zinc and silver ores of the district. A fine vein of high grade ore has been struck in the San Miguel mine near San Pedro, by J. L. Lopez, and is being worked right along.

Watch for a Chill.

However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver, drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c at Cosmopolitan Pharmacy—B. Ruppe.

It is easy for the democrats to talk of anti-trust laws now that they are out of office, but the public will not forget their failure to pass such legislation when they were in power.

EASTERN MONEY.

It is Once More Active in the Arts Copper District.

A correspondent, writing from Phoenix, Ariz., under date of August 3, says:

The Manhattan company, composed of New York capitalists, has begun work on the Kansas group of copper claims in the Magasine district, north of Phoenix. They were secured last spring by a bond of John Cheney, who has worked them for twenty years.

John W. Osborn, superintendent of the Ben Hur mine, in Cave creek district, has gone east to raise money for the exploration of the property, which is surely a promising one.

In the section tributary to Morris-town, about forty miles northwest of Phoenix, on the Santa Fe, Phoenix & Pacific railroad, there is unusual activity in the mining business. The Garcia men, which has been closed for two years, is now running at full blast, the workings all being in good ore, and the ten-stamp mill already on the ground is being renovated and will very soon be crushing the big piles of ore accumulating on the dumps.

The White Cloud and Exposition camps, under the management of H. William Stevens, are working to their utmost capacities, while at the Eddy camp, just three miles north, they are drifting on the 200-foot level in high grade sulphides. Mr. Hall, the superintendent, says that sinking will continue until the 500-foot level is reached by which time sufficient ground will have been opened up to insure steady work for the camp.

Charles Shellenberger, superintendent of the Riverside company, has received word from his people that work will begin at once on their property, located on the west bank of the Hama-yampa river, two miles above Morris-town.

The Wickburg Smelting & Refining company has purchased two mines of Mrs. Gertrude Ryland, widow of Captain Ryland. Each of the properties were copper producers and netted Mrs. Ryland about \$10,000 cash, although she might have sold them at considerably higher figures had she accepted either a bond or a long-payment proposition. This smelting company is investing in many

WEEKLY CROP BULLETIN.

United States Department of Agriculture, Weather Bureau.

Santa Fe, N. M., Aug. 5.—There has been little change in the condition of crops and stock in the territory during the past week, excepting that in a great many localities the drought is becoming more and more alarming. There have been some good rains in mountainous sections, which in some instances has been sufficient to fill the ditches and afford at least a temporary relief, but over the prairies in general, excepting the lower Pecos country, while scattered showers have been rather frequent they have been insufficient to keep the grass growing, or to replenish to any extent the very short outside water supply. In a few central localities some losses have already occurred, but as a rule all kinds of stock are in very fair condition considering the unfavorable season; but unless good, general rains occur soon there will be undoubtedly some heavy losses fall upon the stockmen of Rio Arriba, Socorro, Valencia and Bernalillo counties and vicinity. In some localities plans are being laid for moving stock in the event of the continuance of the drought.

Third alfalfa is about ready to cut in southern sections. The yield generally is very poor, as is the second crop in more northern counties. In many places it is hardly worth cutting, but the harvest is made in order to give a chance for the next growth. Wheat harvest is under way in northern counties, rather earlier than usual. The yield is quite short generally, and in some instances the kernels are shriveled. Corn has been growing rapidly lately, where irrigated, but on many of the temporal lands the crop will be only fit for fodder. As a rule also is heading out small. The continued drought is causing fruits to drop badly, and in some orchards of the central counties the fruit trees seem to be drying up. The watermelon crop of the Mesilla valley has been a failure. In the vicinity of Espanola, in the Rio Grande valley, grasshoppers have done a great deal of damage in alfalfa fields, and have injured other crops. In some instances fruit trees have suffered also.

The following remarks have been extracted from the reports of correspondents:

Albert—H. M. Hanson: Continued dry and warm. Grass getting scarce. Several local showers but not sufficient to give general relief in this section. Stock not doing very well, and some anxiety is felt in regard to prospects for winter feed. Highest temperature, 90; lowest, 61; rain, 0.35.

Arabella—H. M. Richardson: Corn doing well since the rains, but not sufficient fall to make surface water for stock. Highest temperature, 79; lowest, 58; rain, 0.82.

East Las Vegas—John Thornhill: Weather continues very hot and dry. Crops are suffering greatly from the drought. Wheat is being cut, and is very short; in many places an entire failure. In most places corn will only make fodder. Oats also are very short. Pastures are poor, and the river and ditches are dry.

Hastview—John W. Corbett: Good showers on all sides except the east on the 31st, but still dry here. Fruit is falling from trees not irrigated, and the trees are dying. Grass short and dry, and stock not doing well.

Folsom—Jackson Tabor: The several light showers have done but little good, and conditions remain hot and dry. Second alfalfa is being cut, and is turning out well. Plums ripening; all fruits doing well. Grass on the mesa is dried up, and water is getting short, but cattle and horses are looking well. Highest temperature, 87; lowest, 47; rain, 0.16.

Gallinas Springs—James E. Whitmore: Pastures are green and fresh and garden truck growing well. Apples are falling considerably. Gallinas river higher on the 19th than for past twenty years. Highest temperature, 97; lowest, 59; rain, 0.08.

Hobart—W. H. Hough: Corn fairly good where sufficient water, but water getting scarce. Wheat being harvested. Fruits doing well. Grasshoppers damaged alfalfa, but there will be something more than half a crop.

Laguna—Gus Weiss: Continued dry. Sheepmen report that spring lambs are dying off. Large flocks are being cut up into small bunches preparatory to shipping to other parts. All kinds of stock in very poor condition, and reports state that cattle also are dying. Mesilla Park—R. H. Hart: Dry and hot again. Third alfalfa may be a failure up account of the drought. Waterditches are a failure. String beans on the market. Highest temperature, 103; lowest, 69; no rain.

Los Alamos—William Frank: No favorable change since last week. Second alfalfa being cut to give the last crop a chance. A very light crop of wheat is being cut, such an early harvest is unknown before in this section. Sheep and cattle are doing only tolerably well.

Mimbres—Charles Dennis: No rain since the 10th of July, and grass that had a start is burnt up. Leaves falling from the trees like in autumn. Cattle and crops are suffering for water, and the outlook is very poor.

Ojo Caliente—Antonio Joseph: The drought is still with us, but rains have fallen in the mountains and the streams carry sufficient water for irrigation. The second alfalfa has been cut, and will fall below 50 per cent. of the average. Highest temperature, 100; lowest, 70; no rain.

San Juan County—C. H. High: No rain in the valleys and

heavy rains on the mountains, and water is again flowing in the streams. Grass has started on the ranges; crops of all kinds have made a fairly good growth. Corn in silk, wheat is ripening, and early potatoes large enough to eat.

Santa Fe—United States Weather Bureau: Temperature considerably above the normal, but rain very light, and roads and prairies dry and dusty. Showers in the vicinity have been very light, even on the mountains, but irrigated crops growing very well. Earliest corn in silk; second alfalfa was quite a good crop. Peaches and apricots are scarce, and apples are falling badly. Pears and plums will be abundant. Highest temperature, 90; lowest, 62; rain, 0.02.

Wagon Mound—R. T. Maes: High winds and no rain; grass is dried up and water is getting scarce. Unless rain comes soon sheep and cattle will suffer.

Watrous—M. C. Needham: Warm and dry and rain badly needed. Second alfalfa is not a quarter of a crop, and the fields are being mowed in the hopes that rains will give a third growth. Highest temperature, 93; lowest, 53; rain, 0.08.

Weber—E. H. Biernbaum: Vegetation was started by the rains of last week, but the succeeding drought prevented growth. All kinds of crops are very small and a light harvest is expected. Second alfalfa will be very light. Gardens and orchards are exceptionally good. Threatens rain every day, but it does not come. River is very low and ditches carry very little water. All kinds of stock are in fair condition.

Woodbury—A. J. Woodbury: Highest temperature, 101; lowest, 55; rain, 0.04.

SOME FANCIFUL FACTS.

A Missouri Editor, With Backbone, Tells Startling Truths.

Not long since a Missouri editor announced that just for one issue he would tell the truth, naked and unvarnished. Here are a few items from the issue:

John Bonin, the laziest merchant in town, made a trip to Reliance yesterday.

Married—Miss Sylvia Rhodes to Jas. Carnahan, last Saturday evening at the Baptist parsonage. The bride is a very ordinary girl who doesn't know any more than a rabbit about cooking and never helps her poor mother three days of her life. She is not a beauty by any means and has a gait like a fat duck. The groom is well known here, an up to date loafer, has been living off the old folks all his life and don't amount to much no how. They will have a hard life while they live together and the Times hastens to extend absolutely no congratulations, for we don't believe any good can come from such a union.

John Doyle, our groceryman, is doing a poor business. His store is dirty and noisily odoriferous. He doesn't advertise nor treat people courteously. How can he expect to do much?

Rev. Styr preached Sunday night on "charity." The sermon was punk. If the reverend gentleman would live up a little closer to what he preached he'd have a bigger congregation. The editor of the Times attended just because it is the proper thing. He would rather stay at home and read a good book.

Dave Sonkey died last Saturday morning at his home in this place. The doctor gave it out that it was heart failure. The fact is he was drunk and whiskey was what killed him and his home was a reeked shack in Bowdy street.

On press day of this particular issue the editor of the Times left the city for a day's visit to let the old town cool off, and for a whole week longer went home through the back alley.

Indiana Swine Breeders. Shelbyville, Ind., Aug. 7.—The Indiana Association of Expert Breeders of Swine began a two days' meeting and institute of instruction today on the Shelby county fair grounds. The president of the association is N. C. Kershner, of Ansonia, Ohio, and the secretary, W. O. Smiley, of Judson, Ind. This evening the members assembled in the parlors of the Hotel Ray to listen to an address of welcome by Mayor Morris and a response by Col. J. B. Leyster, of Franklin.

Ginners of Georgia Organize. Macon, Ga., Aug. 7.—Of vast importance to the allied interests of those who prepare the cotton for the market is the state convention of ginners which opened in the council chamber here today for the purpose of perfecting a permanent organization. There are about 5,000 ginners in Georgia and it is hoped to enroll the majority of them in the movement. The objects of the new association are to bring into closer touch all who are engaged in the ginning business; the interchange of ideas and opinions as to the best methods of ginning and baling cotton, and to urge upon planters and farmers the great importance of properly taking care of their cotton from the time it is picked until finally sold.

Look Pleasant, Please. Photographer C. C. Harlan, of Eaton, Ohio, can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivalled for the cure of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

NEGRO CONGRESS.

Large Attendance at Second Day's Session of the Congress.

Atlanta, Ga., Aug. 7.—The arrival of many belated delegates resulted in an increased attendance at the second day's sessions of the big negro congress which opened yesterday. The visitors were up with the lark this morning and at the early hour of 6 o'clock they filled the auditoriums of several churches, schools and colleges where prayer services were held. Before 9 o'clock the auditorium at Piedmont Park was filled and everything was in readiness for the general sessions.

The general theme chosen for the day was the religious life of the negro race.

Some of the prominent speakers and their subjects were as follows: "The Bible and the People," Rev. W. I. Haven, D. D., corresponding secretary of the American Bible society; "The Work of the American Baptist Publication Society," Rev. S. N. Vass, D. D., Raleigh, N. C.; "The Need of a Properly Trained Ministry," President J. N. Sanders, of Biddle university; "The Present Religious Status of the American Negro," Rev. Ernest Lyon, D. D., Baltimore.

This afternoon the congress separated into conferences for the discussion of different branches of educational and religious work. These conferences were held in various churches and meeting houses and at each one an interesting program of papers and addresses was carried out.

Insane Model Seeks to Escape.

Buffalo, N. Y., Aug. 7.—Miss Helen Vanderbilt Wackerman, who is said by many artists to be the most beautiful woman in the world, is suffering from severe injuries she received while smashing the windows of her room to escape from an imagined danger.

Miss Wackerman accompanied by her mother returned from Europe some months ago and has spent most of her time in seclusion at her mother's home in this city. A fire in a building across the street from the Wackerman residence caused unusual excitement which rendered the young woman frantic and she attempted to escape from her room by breaking six large panes of glass with her hands. When she reached Miss Wackerman she was found to be badly cut and covered with blood. Though still suffering from the shock she has in a measure recovered from her physical injuries, though she shows no mental improvement.

United Confederate Veterans.

New Orleans, La., Aug. 6.—The "boys who wore the gray" have rallied here from all parts of the state to "count noses," renew acquaintances and exchange reminiscences of the experiences of war days. The occasion is the annual state convention and reunion of the Louisiana division of the United Confederate Veterans. As many of the veterans are accompanied by their families the total attendance is considerable, though there is sad evidence of the fact that the ranks of the soldiers are gradually but surely growing thinner. The formal opening takes place this evening, when the gathering will be called to order by Major General Leon Jastremski. Much interest centers in the big tournament and festival to be held at the fair grounds tomorrow and it is expected a good sum will be realized toward aiding the Beauregard monument fund.

Blinding Twine High. Minneapolis, Minn., Aug. 7.—There is considerable complaint among the farmers of the northwest over the high price of binding twine, of which hundreds of car loads are now being used in harvesting. The price is much higher than usual this year and the supply is hardly equal to the demand. The twine dealers explain that the manipulation by purchasers of the sisal is the cause of the high price.

The lithographic pictorial advertising posters and banners for the fair have arrived. They remind one of a circus. All red and yellow and big as a balloon. The advertising car will go out next week, with Scott Knight in charge. Mr. Knight will have a number of assistants. The car, which is to be a caboose, will be decorated to suit the most fastidious of tastes. No one will have reason to complain. The first trip will be made toward Santa Fe and Trinidad. From Trinidad they will return and go south to El Paso and Silver City and west as far as Ash Fork, Ariz. The fair is to be thoroughly advertised.

At Panama Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lad, sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for him proved ineffectual and he was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by all druggists.

Ever since George Eaton has been in Chlorid, under treatment for the beating heart caused by Cy Childers,

he has acted strangely and his friends believed he was suffering from dementia and was a menace to society if allowed to be at large. He was quarrelsome, carried a gun and made threats. On Monday the justice had him taken to Kingman and tried before Probate Judge Logan for insanity. After hearing evidence and a medical examination by Dr. A. E. Ealy, the judge decided that a little trip to Phoenix would be of great benefit to his health, so the sheriff took him in charge and they departed for Phoenix yesterday. —Chloride Arrow.

NEGRO CONGRESS.

Great Christian Meeting for Benefit of a Race.

Atlanta, Ga., Aug. 6.—The Negro Young People's Christian and Educational congress, for which preparations have been making for nearly a year, opened in Atlanta today with an attendance exceeding the expectations of the most sanguine. The great auditorium in Piedmont park never held a larger audience than that which filled it this afternoon at the formal opening of the congress. Representative negro men and women, including bishops of the church, presidents of colleges and industrial institutes, bankers, lawyers and merchants, filled the large hall. Occupying seats on the platform were such eminent leaders as Bishop W. J. Gaines, Rev. E. W. D. Isaacs, Prof. I. Garland Penn, Bishop B. W. Arnett, Prof. John R. Hawkins A. M.; Prof. Booker T. Washington, Rev. Dr. J. W. E. Bowen and others of equal note. Prof. W. B. Matthews called the gathering to order and President C. H. Parrish, D. D., of Eckstein Norton university, led the devotional exercises. The first speaker on the program was Bishop Gaines, who explained at considerable length the object of the congress. In brief the bishop said the congress will not attempt to bring from the unknown anything new for the larger development of the negro youth. Its promoters recognize, he said, that they have the agencies and the means to secure the desired end, and that it is not new machinery needed, but the execution of that now in hand.

The congress, it was further explained, hopes to impress the nation with the firm reliance of the negro upon God, and to call attention to the superiority of the spiritual and moral as a basis for the best and most helpful use of the intellectual, the social

and material. The congress is to give the young negro a larger vision and a quickening such as only large bodies of this kind can do. It brings the awakened together with the unawakened at home, and thus everywhere it is hoped to make the great gathering of Christian negroes felt.

Following the opening address of Bishop Gaines the congress listened to cordial addresses of greeting presented on behalf of the state of Georgia, the city of Atlanta, the local churches, the universities and the young people's societies. Prof. I. Garland Penn, Rev. H. W. Arnett, Jr., of Springfield, Ohio, and Rev. W. H. Weaver, D. D., of Pittsburgh, responded for the visitors and the opening session was brought to a close with the impressive rendition of the national Afro-American hymn, written by Mrs. Ida German Carter, of New
