VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, SEPTEMBER 27, 1902.

NUMBER 6 4

## Territorial Topics

### HILLSBORO.

From the Advocate.

The county jail is empty. Ex-Senator Warner Miller and son, Max, who had spent a week in this district looking over the mining resources left Tuesday.

Herbert Galles was thrown from a burro last Friday and had a wrist badly dislocated. Dr. F. I. Given patched him up and he is doing well.

Charles A. Anderson came down from Chloride Tuesday. He wears his arm in a sling. He sustained a badly sprained shoulder from being thrown from a horse.

Jim Ross has been appointed hide inspector for this district. Jim aspired to be sheriff, but, after due consideration, decided it would be more opportune to be the man to inspect the hides of the defunct political aspirants after the election in November.

The public schools opened last Monday, with Miss Cora Miller principal, and Miss Nora Murphy teacher in the primary room. Miss Miller is a normal graduate and taught two very successful terms of school in the Berenda district.

For a year past R. H. Hopper, of this place, has been engaged in consummating a mining deal that has brought together capitalists whose aggregated capital amounts to over \$20,000,000, and who, we are informed, have invested in mines in this camp.

United States Congressman Stephens, father of the notorious international dam scheme to knock out the Elephant Butte dam project, was in town Tuesday. He was on his way home. Mr. Stephens had been out to the placers for some ten days looking after his mining interests there. He has recently organized a company to develop both placers and lead mines on Slapjack hill.

George R. Brown, U. S. D. M. S., of Silver City, who has been surveying the Mamie Richmond and Mary C. mines for patent, completed his work last Monday and left on Tuesday for home. Mr. Brown, who is one of the most competent engineers in the country, is very favorably impressed with this country and expressed surprise that there is not more going on in this district, which, he says, is a remarkable camp with gold sufficient to make it one of the best in the United States. He believes this country has a great future.

### SOCORRO.

From the Chieftain.

F. Fischer has accepted a position with the Continental Oil company. He left for Albuquerque Thursday morning.

There is now about \$1,800 in the Socorro public school fund and it is expected that the school will be opened the first Monday in October.

Samuel Locke went up to Albuquerque Thursday on business connected with his duties as inspector for the cattle sanitary board.

Gentlemen of the republican party of Socorro county, adjust your differences at once or somebody will be held responsible for republican defeat.

Capt. A. B. Fitch was in the city Thursday on his way home from a business trip east in time to attend an important meeting of the board of trustees of the School of Mines, of which body Captain Fitch is an influential and valuable member.

Now that the postoffice department has doubled the rent allowance to the Socorro postoffice, there is excellent prospect that the present office furniture will speedily be relegated to the rubbish heap, where it ought to have gone long ago, and that the office will be equipped in an up-to-date fashion.

A democratic county convention is called to meet in the opera house in this city, at 10 o'clock a. m., Thursday, October 2, for the purpose of nominating a county ticket and electing delegates to the territorial democratic convention to be held in Albuquerque on October 13, for the purpose of nominating a delegate to congress. Primaries will be held in the various precincts Wednesday, September 24.

The change that has taken place in the material outlook for Socorro county in the last six weeks is little short of miraculous. During the first six months of the year 1902 the total rain fall in this vicinity was less than three inches. By the first of August the outlook was gloomy enough. Cattle and sheep were beginning to die for lack of water and feed. The condition was all the more discouraging because of the fact that it followed immediately upon two successive dry years. But the month of August brought over three inches of rain and the miracle was wrought. The ranges of the county are now blessed with the best crop of grass that they have produced for years and the grass is so far matured

that frost cannot injure it. This is a wonderful change of conditions, one which must be observed to be fully appreciated.

### PORTALES.

From the Herald.

The enrollment at school this week has reached 184, which is the largest in the history of the school.

From the number of homestead entries made in the last ten days, one would judge that this entire country will soon be densely populated.

Mrs. M. L. Winn was the guest of Mrs. C. O. Leach Saturday and Sunday. Her daughter, Altha, expects to come here soon to organize a music class.

Tom Trammel, the Sweetwater, Texas, cowman, has purchased the Carson ranch of 144 sections near here. It lies north of and in close proximity to his big H bar ranch.

Twenty-seven head of graded white faced young cattle were shipped from Carlsbad Tuesday to W. D. Johnson at Bovina, Texas.

J. S. Washam, who lives about two miles northeast of town, was in town last Saturday with a display of products of his ranch. He had corn, melons, cotton, blackberries, kafir corn and milo maize.

J. C. Flato, of Clayton, has purchased the C. W. Haynes ranch on the upper Pecos river in New Mexico. He secured 10,400 acres of land and a water appropriation larger than that of any individual on the river.

H. F. Mitchell, of Amarillo, was here the first of the week buying steers. He has a ranch near Amarillo which he expects to stock with between 800 and 1,000 steers. Wife here he bought 165 head of Mr. Hunter, 36 from J. B. Sledge, 18 from Mr. Smith, 13 from Mr. Green, and 32 from Anderson & Son.

### SANTA ROSA.

From the Democrat.

Hunting is the leading sport in this season.

The county commissioners have agreed to appropriate \$150 toward building a bridge across the Los Tanos creek south of town.

It is reported that seven car loads of pipe have been ordered for this place to be used in piping water into Santa Rosa.

General Adams came in from the oil well on the Salado Monday and reports the oil prospects very bright. He says they are down 240 feet and have reached the quicksand which they will be compelled to case out before they go any deeper. Mr. Adams came in to try to obtain casing from the El Paso & Northeastern so that they can continue work at once.

The kiln of brick for the People's Store building is burned and now cooling off. Over 80,000 of the best brick are expected.

There seems to be no doubt about the Santa Fe cut off from Portales to Torrance. Last week one of the freighters for the surveying crew came up from the camp for provisions and stakes for the surveyors. He says the road will cross the Pecos about eight miles north of Fort Sumner.

### ALAMOGORDO.

From the News.

Conductor Low Jones is laying off on account of a sprained ankle.

J. D. Clements, recently of Albuquerque, expects to open an insurance office in Alamogordo. He is also agent for the Montezuma Building & Loan association.

Prof. T. H. Claypool, president of the Baptist college, will open a night school in the office of County Superintendent Edington. All of the common school branches will be taught.

J. L. Parker, who has clerked in the railroad office here for the past year, left for Philadelphia Thursday and will complete a medical course.

The Pythian Hall association, of Alamogordo, has incorporated at Santa Fe, the capital being \$10,000, divided into 1,000 shares. The incorporators and directors are O. D. Warnock, Alfred Hunter, W. W. Stalcup, Ben T. Capehart, A. J. Buck, J. G. Wolfinger, and J. R. Gilbert.

### GALLUP.

From the Republican.

What's the matter with having Albuquerque and Winslow base ball clubs come to Gallup for a game some time soon.

The Christian Endeavor society gave a very pleasant social at the Congregational church last Tuesday evening. The telephone line from here to Fort Wingate was started this morning and about a mile of it will be put up today.

J. H. Smith, a former Gallup boy, who is well liked here, stopped off here last Saturday while on his way to the Needles after a pleasant visit

in the east.

"Gallup has more handsome women than any other town of its size in the southwest." That's what a gentleman said last Sunday afternoon after casting his eagle eye over the grand stand.

M. B. Johnson has returned from the Navajo reservation, where he purchased a bunch of beef cattle. He reports the grass poor.

Messrs. Murphy, Young and Shields, of Gallup, have secured a contract for painting a number of buildings at Fort Wingate. They left here on Tuesday to commence the work.

Miss Bessie Eldridge, of Zuni Siding, and a graduate of the Gallup High school, has secured the private school at Manuella and will teach the next term, beginning September 29.

### LAS CRUCES.

From the Citizen.

Lambert Reinhardt contemplates opening a meat market soon.

John R. DeMier and family are back from their trip to the "old country."

J. S. Garcia is here visiting his family and will leave next Tuesday for Albuquerque.

The talk is going on that a \$25,000 hotel is soon to be built in town.

Mrs. Bowyer had a twenty-horse power engine and a six-inch pump put up on her ranch this week.

The college is preparing an exhibit to send to the territorial fair that will be of credit to the whole southwest.

The members of the Chamber of Commerce here are composed of active men and they are getting things in good shape.

Mrs. J. L. May and family have removed to their old home, giving the Rio Grande hotel its usual life and cheerful appearance.

Foot ball practice has begun and some good games are promised for this season. The prospects for a good team are pretty good.

Al. Coleman, the live representative of the Southwestern Brewery & Ice company, of Albuquerque, was here this week in the interest of the firm.

The Citizen is gratified to be able to report that the effort to bring the attention of the outside world to the advantages of a new railroad for Las Cruces continues, and that fuller investigation furnishes additional proof of the statement that the road would pay.

### ROSWELL.

From the Register.

Stone Bros. sold and delivered this week 4,000 sheep to W. S. Prager.

A. T. Gunter bought the ranch and a bunch of sheep belonging to J. M. Melton.

The Block company shipped twelve cars of beef cattle from Ancho station on the Rock Island.

U. S. Bateman has purchased a lot near A. Pruitt, on highland, upon which he will build a \$2,500 residence.

Solomon Luna bought 2,500 head of sheep from the Lincoln Trade company at Lincoln, paying \$2.40 per head for them.

W. G. Chapman sold Ike Gronsky, the sheep man, one of his dwellings and ten acre tract on Military Heights on Monday at \$3,000.

F. Divers is rejoicing over a fine flow of artesian water struck for him by O. E. Beach on his lot north of Frank Pearce's residence. The well is 233 feet deep and the casing five and five-eighths inches in diameter.

J. A. Bruce, who owns a tract of land two miles east of the station at Miller, forty-six miles south of Roswell, has had Jos. Shirk at work for some time drilling an artesian well on his land, and last Saturday, at a depth of 866 feet, a heavy flow was struck, spouting thirty-eight inches above the five and five-eighths inch casing.

The Wichita Beacon says they had finer and larger pears raised there than were in the exhibit car from Roswell and states that some of them weighed seventeen ounces each. As there were a number of the pears from Roswell that weighed twenty-four ounces each it would seem that the Beacon man has "corked himself."

### FARMINGTON.

From the Times.

R. H. McJunkin has resigned as republican precinct committeeman for Farmington precinct and Dr. Minor McCracken has been appointed in his stead.

G. L. Hood, of Meserve, Socorro county, came up with his wife Saturday, making an overland trip. He says Socorro is a better stock country than this, but San Juan leads as a farming section.

Dr. Price, of Grand Junction, is one of the fair visitors and after looking over our exhibit he said that while he came from a great fruit country, he did not believe an exhibit equalling ours could be gotten together there.

Matt Hubbard came down from Pagosa Wednesday night and the next morning received a telegram informing him that his brother in law, Chas. Dannels, had been killed. Dannels was

formerly a resident of this county.

A complete report of the fair will be given next week. At the time of going to press no awards have been made save that of the baby show, in which the first prize for the handsomest baby was given to Mrs. Waggoner, the handsomest male baby Mrs. Harwood, the handsomest female baby Mrs. Chambers.

One of the most interesting exhibits of the fair is the honey display of Ed. A. Chandler, the bee and honey man of Farmington. One of his sections shows the comb, honey and bee cells just as they appear in the hives. His fine crop of honey makes a display that cannot be equalled outside the alfalfa districts.

### WHITE OAKS.

From the Eagle.

Lumber for the new derrick at the oil well is arriving.

Sheep are a good price and have a ready sale in this part of the country.

J. M. Rice and his party of seventeen eastern capitalists are just arriving as we go to press.

Mrs. W. C. McDonald and daughter, Frances, have gone to El Paso to spend the winter. Frances will go to school there.

W. A. Hyde, sheep man, Three Rivers, was in town Tuesday. He will begin shearing his flocks next week. He employs ten men with his herds.

The well just finished by Cray & Lane near Ancho station on the Rock Island is said to be a dandy. It will probably bring them in the neighborhood of \$10,000.

Fred W. Smith came in from his ranch Tuesday. He shipped two carloads of red white-faced yearlings this week to Missouri, where they will be fed for the market.

W. F. Blanchard came in from Jicarilla on Monday, where he has been employed by the American Placer company, surveying for patent the placer claims of the company in that district.

J. M. Rice, representing the Eagle Mining company, put a force of men to work Monday morning preparing the South Homestead mill for operation. The machinery is being overhauled, everything about it being put in good condition for service.

### SANTA FE.

From the New Mexican.

Mrs. W. H. Whiteman will entertain at cards at her home on Palace avenue on Saturday afternoon next.

Mrs. W. E. Martin and mother-in-law will return on Thursday noon from Coronado and Santa Catalina, Cal., where they spent the past two months.

P. R. Lopez, of Las Vegas, while scuffling with some friends at Ribera on Sunday evening, broke his leg. He was taken to his home.

News from Rio Arriba county in the vicinity of Abiquiu, says Saturday evening's storm was very severe, and much damage was done. Hail as large as medium sized peaches fell and the rainfall was terrific.

The little 1-year-old daughter of Mr. and Mrs. Calvin Bowles, of Buckman, died on Sunday at the home of her parents. The remains were brought to the city last evening by the bereaved parents and interred this afternoon in Fairview cemetery.

Reverend Father O'Neil, prior of Dominica church of Denver, arrived in the city. He comes to take Father Carrigan home, he having almost recovered from the injury sustained by the fall which he had during the dedication of the cathedral.

H. B. Cartwright & Bro. make formal announcement of the business change which will go into effect on October 1. On that date the retail store of H. B. Cartwright & Bro. will be consolidated with the F. S. Davis company store and the business of the combined stores will be conducted by the Cartwright-Davis company in the building now occupied by the F. S. Davis company. The building is being thoroughly overhauled and placed in the best of condition.

H. V. Hall and E. L. Wells, of Chicago, have arrived in the capital with the expectation of making this city their future home. Mr. Hall is an assayer and chemist, who has had several years' experience, and Mr. Wells has been engaged actively in real estate business in the Windy City. They will engage in the business of assaying, taking mining contracts and buying and selling mining properties. These gentlemen will commence their operations in the mining sections in the southern part of this county.

### ALBUQUERQUE.

Special Correspondence.

Algodones, N. M., Sept. 23.—C. H. Briggs, proprietor of the Highland hotel, has been here for two days looking after his business interests and is well pleased with the prospects.

The smelter company has closed contracts for a large amount of material for their smelter plant and we are

looking for carloads most any day.

The Postal Telegraph company will establish an office here this week and then we will fire the news at you by wire.

The mining business is looming up in good shape. Rich strikes are being made in the mountains near here.

The Baird mill and the Toronto, a few miles from here, will start up their thirty stamps in a few days, as they have now plenty of water to run day and night.

The owners of rich placer ground at Camp Frisco, four miles from here, are putting in new sluice boxes and will be ready to wash out gold in a few days.

The coal fields at Una la Gato are being developed by a gang of coal miners, and coal in large quantities is now uncovered. It is of a very fine quality.

A. J. Frank, manager of the smelter company, will go north tomorrow on business for his company and expects to return in a few days.

### GALLUP.

From the Democrat.

Mrs. Vanderwagon was in Gallup last week visiting Mrs. Palmer Ketter.

Dr. E. D. Harper has been confined to his bed with typhoid fever for the past week.

Miss Jennie Bayless has been quite ill for the past few days, but is reported some better.

Mrs. Murray Johnson is expected home next week after an extended visit to relatives in Farmington.

The curfew law went into effect last week, the school bell being rung for curfew on Friday night for the first time.

Sharp & Johnson have leased the machinery of the Union Coal company, and will open up their mines preparatory to a large fall and winter trade.

S. Griffith and family will leave on Tuesday morning for Louisville, Ky., their old home. Mrs. Griffith and children will remain in the east and Mr. Griffith will return to Gallup.

Ed Clark and family left for a three weeks' vacation and will visit Los Angeles, San Francisco and all points of interest on the coast.

J. H. Young, manager of the Postal Telegraph company, is building a telephone line to Fort Wingate, which will be completed by October 5. Phone service can then be had to all the mines, Fort Wingate and the local business houses.

H. C. Adams, of Williams, was a Gallup visitor last week.

The many friends of Mr. and Mrs. Stewart Brown will be glad to know that they are going to make Gallup their future home. Mrs. Brown and children having arrived last Sunday morning from Morgan Valley, Iowa.

The Democrat understands that secret wedding took place across the Pecos some weeks ago. The parties are well known in Gallup society and no doubt if their names were divulged it would be quite a surprise.

Miss Rebecca Brown is missed this year in the Gallup school. She secured a position in the city schools of San Francisco, she passing the highest examination of 229 applicants. School Director Roncovert in an interview with the Examiner says: "The thirty young women chosen were the best unquestionably." From all reports Miss Brown is giving splendid satisfaction, which is very pleasing to her friends here both among the pupils as well as the patrons of the school.

### LAMY.

From Cerrillos Register.

Mr. and Mrs. E. H. Herrmann went to Cerrillos to spend the day with friends.

H. C. Williams passed through town last week on the way from his ranch at Chilili to Las Vegas.

Mr. and Mrs. J. M. Rogers and little daughter, Vina, are visiting at the home of E. H. Herrmann this week.

Jack Loftis, car whacker, has resigned and expects to go to work for the Santa Fe Central.

John Pfeuger and Jacob Dundeifer returned from the Sulphur springs, after a two weeks trial of the celebrated water, feeling much improved.

Mrs. Petra Salas de Tudesque died last Sunday, aged 54 years. She had been an invalid for eight years. Sympathy is extended to the bereaved family.

## ARIZONA TOWNS

### HOLBROOK.

From the Argus.

Barnett Stiles shipped four cars of cattle for Habbitt Bros. to Los Angeles Wednesday.

Miss Sadie Woolford, of St. Johns, went up to Flagstaff this morning, where she will attend the Normal.

A. M. Boyer, who was an important witness in the Apache county warrant case at Prescott, returned Thursday.

Captain Hedekin returned yesterday from a leave of absence, and went out to Fort Apache, where he is commanding officer.

J. D. Smithson hauled a boiler out to Fort Apache Tuesday, that is, he started with it, the weight of which was over 6,000 pounds.

Sol. Barth, one of St. John's leading business men, was a visitor here this week. He brought down a load of children who were going away to school.

A. Z. Palmer and son, John, of Taylor, left Tuesday morning going east. Mr. Palmer went as far as Albuquerque, and John will go on to Provo, Utah, where he will attend school.

### FLAGSTAFF.

From the Sun.

The Normal school enrollment now numbers forty-four.

Recorder Hibben reports that the receipts of his office for the past month amount to over \$2,000.

Jim Kennedy, city marshal of Williams, came up Monday with a couple of evil doers he had captured.

Miss Alice Campbell, a graduate of the Northern Normal school of the class of 1902, is teaching school at Congress.

George Haxworth has resigned as school trustee of this district, and P. R. Weatherford has been appointed to fill the vacancy.

Miss Trowbridge, the artist, is renewing old acquaintances here this week. She has been out to the canyon securing sketches for her work.

George Sullivan was elected exalted ruler of the local lodge of Elks last Tuesday evening to fill the unexpired term of Exalted Ruler Spellmire.

Patrick Penton has been commissioned a United States forest ranger and left this morning for the Grand Canyon, together with Ranger A. T. Tart, who has been transferred from the San Francisco reserve.

M. W. Wray was the recipient of sorrowful news this week, and was wholly unprepared for it. His son, Orville Wray, a young man in vigorous health when last heard from in the far away Philippines, was stricken with Asiatic cholera and died before even word of his illness reached his parents.

### KINGMAN.

From the Miner.

Fred Stull is looking after mining interests at the Roosevelt mines, in the Boundary Cone country.

E. F. Thompson is having some work done on his mining claims in the Boundary Cone country. Samples from the ledge gave returns of an ounce and one-half gold.

That mining in this section of the territory is looking up is evidenced by the great amount of assaying done in the local offices. Hundreds of assays are coming in now where but a dozen or so were heretofore received.

In the selection of Robert E. Morrison as their candidate for delegate to congress the republicans of Arizona made no mistake. Bob Morrison is able, clean and conscientious, a hustler and a man of the people.

Major Barry, who has been visiting and resting up in Kingman for several weeks past, departed for the mines in the Chemehuevi mountains Thursday evening. He will work quite a force of men on the properties this fall and winter.

All the mines in the southern part of the county show a revival of interest and this winter promises to see more men at work in the copper belt than ever before. The Planet mines are now being worked by a force of men, which force will be augmented greatly this winter.

H. P. Ewing was over in the Gold Road country this week and reports that everything looks prosperous. He

is assured that the railroad to that camp is sure to be built and that when it is completed the mining companies operating in that section will build their reduction works on the other side of the river.

### WILLIAMS.

From the News.

The Albuquerque fair commences October 14. They are preparing for a big time.

W. W. Bass returned the first of the week from Albuquerque, where he went to purchase a car load of burros for use on his Mystic Spring trail in the Grand Canyon.

Yesterday's Republican is responsible for the statement that George U. Young will move to Phoenix so that he will be in touch with Chairman Nichols during the campaign. Mr. Young having been elected secretary of the republican territorial central committee.

Quite a few of our citizens went out to Supai siding last Sunday, where a number of Navajo and Mogul Indians were camped, being employed on the railroad. Several squaws were engaged in weaving blankets, while one buck was following the trade of silversmith, making bracelets, etc.

### ST. JOHNS.

From Snips.

K. Noblis, a gentleman with capital behind him is in the country looking for a herd of sheep for sale.

Diphtheria is still having a few rounds in Concho and San Antonio. This malady keeps Dr. Woolford pretty busy.

A. and B. Schuster, our bustling merchants, will ship about 100,000 pounds of wool this week. The shipment is consigned to a Boston house.

Messrs. Hill, Lesseuer and Rudd, witnesses in the case of J. Barth vs. Apache county, are home from Prescott. Dr. Rudd stated that it seemed to be the opinion of the bar that the county would win the case.

Dr. Chas. Jarvis, Editor Overton and Prof. E. S. Davis leave this week for Salt Lake City, Utah, for the purpose of entering upon missionary work for the church of Jesus Christ of Latter Day Saints, for the next two years.

### Civil Service Positions.

The United States Civil Service commission announces that on October 21 there will be an examination for the position of cloth inspector, department of supplies and accounts, New York navy yard, at a salary of \$1,252 per annum; on October 21, for the position of industrial teacher, qualified as a band leader (male) at the Phoenix Indian school, Arizona, at a salary of \$720 per annum; on November 4, for the position of preparator, (male), division of insects, United States National museum, Washington, D. C., at a salary of \$40 per annum; on November 17, for the position of inspector of headstones (male), quartermaster's department at large, at Boston, Mass., at a salary of \$1,000 per annum; on November 17, for two positions as forestry inspectors in the Philippine service at a salary of \$1,800 and \$

# CELIBACY AND CRIME.

It requires no statistics to support the theory that crime in any community increases with celibacy, asserts the Chicago Record-Herald. The most elemental knowledge of sociology and of human nature suffices to impress one with this fact. While the statement of Dr. E. Benjamin Andrews that the state of celibacy "promotes crime" may not be strictly accurate, it is nevertheless true, that freedom from marital obligations and family ties is favorable to the commission of crime, and it is also true that the majority of criminals are unmarried.

These facts are confirmed, so far as Chicago is concerned, by the figures found in the semi-annual volume of statistics compiled by the municipal librarian and statistician. According to these figures, of the persons arrested this year 18,157 males and 2,130 females were single, while 8,097 males and 1,948 females were married. During the six months of 1901 there were 32,139 persons arrested, of whom 22,634 were single and 9,505 were married. The mere assumption of marital obligation is in itself a deterrent against crime, for the man who is capable of an emotion that will lead him to matrimony is not apt to relapse from the finer instincts of his nature long enough to commit a crime. When the children arrive and a home is established the tenderest relations and obligations are developed and cherished. The family ties become stronger and deeper, the responsibilities of life assume a more serious aspect and the manliest impulses are nurtured and strengthened.

It is a mere sociological truism, therefore, to say that the establishment of the family relation is a deterrent against crime.

# GROWING COUNTRY.

The census shows an increase in the last decade of 57,176,436 acres of improved and 160,000,000 acres of unimproved land included in farms; an increase of \$150,000,000 in the value of farm property; an increase of \$225,000,000, or nearly 10 per cent, in the value of farm products in the census year as compared with the last preceding census year. In manufactures the census shows the value of the products was more than \$350,000,000 greater in 1900 than in 1890, and the increase in the total valuation of the country is estimated at close to \$30,000,000,000, or not very much less than 50 per cent, while the total valuation of the country has very much more than doubled in twenty years. In the last three years the total exports have been more \$150,000,000 greater than in the three years 1895-7, and the favorable balances on merchandise are greater than the favorable balance in the earlier three years by the vast sum of \$1,222,000,000. In five years the total resources of national banks have increased \$2,303,000,000, or nearly two-thirds; their individual deposits, \$1,245,000,000, or a little more than two-thirds; their stocks, bonds, etc., \$256,000,000, or a good deal more than double, and their specie, \$165,000,000, or more than two-thirds. The savings deposits have increased in five years \$860,000,000, or about 50 per cent.

# THE POSTOFFICE DEPARTMENT.

In no department of our government have the general public a greater interest than in the postoffice department. It has never been contemplated by the framers of the government that our postoffice affairs should become a source of revenue, but it is a satisfaction to know from the forthcoming report of the postmaster general that the deficiencies have lessened from year to year since 1897. In 1893, which included the last year of President Harrison's administration, the receipts of the postoffice department exceeded the expenses by over two million dollars. During the Cleveland administration there was a continual deficiency, which, in 1894 reached the sum of nine million dollars and in 1897, which included the last year of Cleveland's administration, the excess of expenses over receipts was eleven million dollars. Since that time there has been a gradual reduction in the deficiency. In 1898 it was nearly nine million dollars, in 1899 about six million and in 1900 about four million and in 1901 it was reduced to a little over three million. Had it not been for the establishment of the rural delivery system throughout the United States the receipts for 1901 would more than have met the expenses of the department, but three million, five hundred thousand was spent in establishing these rural free delivery routes and in operating those already started. It is the belief of the government that in a few years more, the rural delivery will become self-supporting and if a republican administration continues, which is equivalent to saying if prosperity continues, the receipts of the postoffice department will equal the expenses before President Roosevelt enters upon his next term as president.

# BIG STATE.

On returning from a recent visit to Texas, Lieutenant Governor Bates, of Massachusetts delivered a lecture on the biggest state in the union, whose area is thirty times that of the Bay state. Governor Bates said a passenger covering the 1,200 miles between Boston and Chicago has not gone as far as the distance separating different towns in Texas. Texas, in east Texas, is no farther from the great lakes than

# Your money back

If you are not satisfied

DO YOU SUPPOSE that a company with a capital of \$500,000.00, paid in full, and the proud reputation of 30 years of continuous success, would make such an offer and not carry it out to the letter?  
DO YOU SUPPOSE we would jeopardize our standing with the public and our chances of still greater success by failing to fulfill any promise we make?  
DO YOU SUPPOSE we would make such an offer if we did not have the utmost confidence in the satisfactory quality of our goods?  
WE KNOW we can please you and save you money, for HAYNER WHISKY goes direct from our distillery to you, with all its original richness and flavor, carrying a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY AND AGE, and saving you the big profits of the dealers. That's why it's best for medicinal purposes. That's why it's preferred for other uses. That's why we are regularly supplying over a quarter of a million satisfied customers. That's why YOU should try it.

Direct from our distillery to YOU  
Saves Dealers' Profits! Prevents Adulteration!

# HAYNER WHISKY

PURE SEVEN-YEAR-OLD RYE

4 FULL \$4.00 EXPRESS  
QUARTS \$4.00 PREPAID

We will send you FOUR FULL QUARTS of HAYNER'S SEVEN-YEAR-OLD RYE for \$4.00, and we will pay the express charges. When you receive the whisky, try it and if you don't find it all right and as good as you ever drank or can buy from any body else at any price, then send it back at our expense and your \$4.00 will be returned to you by next mail. How could an offer be fairer? We take all the risk and stand all the expense, if the goods do not please you. Won't you let us send you a trial order? We ship in a plain sealed case; no marks to show what's inside.

If you can send us 30 Quarts, or can get some of your friends to join you, we will send you 30 Quarts for \$10.00, by freight prepaid, thus saving \$4.00.

Write our nearest office and do it NOW.

THE HAYNER DISTILLING COMPANY  
ST. LOUIS, MO. DAYTON, OHIO ST. PAUL, MINN.  
DISTILLERY, TROY, O. ESTABLISHED 1868.

from El Paso, in west Texas. England, Scotland, Ireland, Italy and Switzerland combined are not half the size of Texas. Strange as it may seem there are 117 more Indians in Massachusetts than in Texas. The speaker was especially pleased with the public school system of Texas, with 15,000 teachers, an immense school fund and 38,000,000 acres of land, the total endowment amounting to \$60,000,000.

# PROFITS OF ADVERTISING.

There seems to be an implied agreement among persons engaged in certain lines of business to avoid the appearance of competition, and thus escape the expense of advertising. Being without experience, they do not know that the wresting of trade from rival establishments is not the only effect of the publication of business announcements. One of the results of advertising is to increase the total volume of trade. Most people have to be frequently reminded of their own needs and duties. The cost of judicious advertising is small compared with the profits.

# THE SEWING MACHINE.

No invention has done more to save household and shop labor and to provide cheaper wearing apparel than the sewing machine. None was more dreaded and opposed in the mistaken interests of labor. M. Thimmonier was really the first patentee of one, but a Parisian mob destroyed eighty of his machines in 1841, and seven years later another mob wrecked his improved machine and came near killing him. And it is a strange but true record that the first American constructor of a sewing machine, Walter Hunt, abandoned it, and left Howe, Wilson and Singer to make the millions, a large part whereof might have been his, simply because his wife pleaded with him not to take the bread out of the mouths of the poor tailor and sewing women!

# MINES NOT ASSESSED.

If the assessment returns for 1902 are taken as a criterion, mining in New Mexico is in a moribund condition, says the New Mexican. Only eleven counties report surface and other taxable improvements of mines as follows: Lincoln, \$105,000; Grant, \$86,000; McKinley, \$63,000; Socorro, \$32,000; Sierra, \$25,000; Dona Ana, \$15,000; Taos, \$3,300; Luna, \$2,290; Bernalillo, \$1,500; San Miguel, \$135; Guadalupe, \$18. As far as mine production is concerned the showing is still worse. Grant county leading with \$27,000; Sierra, \$25,000; Taos, \$7,000, and Socorro, \$5,450. The assessors of Santa Fe and Rio Arriba counties failed to show in the assessment books of these counties the total value of surface improvements and net output of mines, although in both counties such should have appeared. That the assessments in these lines are very faulty and in many cases absolutely incorrect and untrustworthy is a fact that is too well known to be disputed.

# AMERICAN INVENTIONS.

Our pre-eminence among nations for the inventions that have created new industries and revolutionized old ones is admittedly due to our present system, of which Thomas Jefferson was the father. The first patent act, enacted April 10, 1790, was the result of his inspiration, and for three years thereafter he gave his personal attention, as secretary of state, to every application made under it. The patent system is an expansion of Jefferson's based on the act of 1836, amended in several subordinate features by later enactments.

The first attempt ever made by our census-takers to record the work of the patent office has borne fruit in a most interesting monograph of eighty-six pages just published. From it we learn that in the 110 years that ended with 1899, 682,177 American patents were granted, of which total 44,906 or

6.60 per cent were granted to foreign inventors. Since 1860 the number issued to foreign inventors has greatly increased, indicating the high value placed by them upon the United States as a market for inventions. Four-fifths of all these grants to citizens of other countries were made to British, Canadian, German and French applicants.

# EDUCATIONAL EXHIBITS.

The Pueblo Chieftain says: "What would the schools of Pueblo and Rocky Ford have done with all those excellent exhibits if it had not been for the state fair? Would the beautiful work of the pupils, which has this week surprised and been admired by thousands of people of all classes, remained hidden away in teachers' desks, hardly seen even by the parents of the children? The great success of these exhibits of the schools, their extent, variety, unique originality and laborious execution, together with the delighted interest manifested by the throng of visitors, indicate that the schools should not be limited to any incidental aid in enabling them to participate in an educational exhibit, but should have one of their own."

Let the schools of Albuquerque be well represented by exhibits at the territorial fair, and the children should be permitted to take part in the big trade parade.

# ONLY PRESENT NEEDS SUPPLIED

A letter received by Mayor Fleming, of Silver City, from E. J. Swarts, of Swarts, N. M., regarding the Mimbres flood sufferers, says that it will be best for the Silver City people to hold the provisions for the present as in the near future there will be great need of them. The letter says: "For the present everybody has plenty to eat and work to do, but in a short time they will be badly in need of some help and will then be thankful for the assistance that you may wish to give. As you well know, if we distribute provisions now, in a week they will be just as bad off as at present and there is plenty of work now repairing the damages to ranches and fences and gathering up what is left." This, he says, is sufficient to keep them temporarily, but in a short time they will be badly in need of assistance.

# Albuquerque Fair.

The following residents of San Juan county have already signified their intention of going overland to the territorial fair: George H. Brovne and family, D. K. B. Sellers and family, A. E. Dustin and wife, W. N. Knight and wife, Dr. J. A. Duff and wife, Jack Wade and wife, George E. Allen and family, C. H. McHenry and wife, Dr. O. C. McEwen and wife, Mrs. H. A. E. Pickard, Oliver Jackson, J. S. Rodgers, F. B. Allen, Joe Wilkin and wife, J. A. Schroder, Dr. W. W. McEwen, M. McKinzie and wife, J. J. Ivie, George Brett, A. R. Springer and wife, Lee Brown, John Brown, Hugh Currie and wife—Farmington Hustler.

# Annual German Saengerfest.

Los Angeles, Cal., Sept. 20.—The German and American flags and festoons of red and black adorn the streets of Los Angeles today in honor of the German singers who have congregated here from all parts of California for their annual saengerfest. The concert program was inaugurated today in Hazard's pavilion. Tomorrow will be parade day and Monday will be given up to social amusements. Judging from the auspicious opening the gathering will far eclipse any previous saengerfest, both in the number of visitors and the quality of music.

# Russian Pianist Coming.

Antwerp, Sept. 22.—Ossip Gabrilowitch, the Russian pianist whom Daniel Frohman is to take on tour through America this winter, sailed for New York today. He begins his tour early in October at the Worcester musical festival.

# EDITORIAL NOTES.

Prophets of evil do not have much following in New Mexico.

President Roosevelt is coming west, but he will not visit New Mexico this trip.

There were more than the usual number of railroad accidents in the United States this week.

The trusts appear to be a necessary evil of mercantile activity. There are a dozen healthy trusts in Albuquerque.

The democrats of Massachusetts in convention assembled knocked Bryanism higher than Burker Hill monument.

"Occasionally wonder," says the Al-falfa Sage, "why the sinners never strike. The wages of sin have been the same since the beginning of time."

The Citizen admits that it doesn't know much about the political situation in Santa Fe county, and it is of the opinion that in this case ignorance is bliss.

Nine weekly papers have been started at Folsom, Union county. Eight of them are dead, and the ninth has lived three weeks, and may exist until after the election in November.

There is no longer any reasonable doubt that if Mr. Roosevelt lives, he will be his own successor. The declared intention of the republican leaders in New York state to endorse him settles it.

Twenty-one hundred miles of telegraphic cable is now aboard a vessel about to start from London to the Pacific, and in a few months messages will pass between Honolulu and San Francisco.

The republican convention of Mora county, for the election of delegates to the territorial convention, will be held at Mora on October 1, and the convention to nominate a legislative and county ticket on October 8.

It is claimed that a Michigan woman has the largest private collection of eact in the United States, but almost any tenderfoot who has weaved his way through Arizona clad in linen trousers will dispute the assertion.

Since July 15 there have been 20,000 cases of cholera in Egypt, of which three-fourths proved fatal. The medical fraternity in that country are not confirming the idea that the disease has yielded to the march of science.

The New York Times thinks that the modern grocery business is coming to a coin in the slot basis; nearly everything is now put up in original packages and the grocer has no call to exercise any intelligence. It forgets that one of his main functions in life is the collection of accounts, which requires a heap of mentality at times.

There are few idle men in Albuquerque.

There are five weekly newspapers in Las Cruces.

Put everything in shape for the big territorial fair.

The republican majority in Maine is 26,500, or 2,000 larger than in 1898, the last off year.

Pedro Sanchez is making a strenuous fight to retain political control of Taos county.

Only three weeks now until the beginning of the twenty-second annual territorial fair.

The Normal school at Las Vegas is not a church institution. It is maintained by the territory.

The republicans of Socorro county will nominate a good county ticket and elect it by a big majority.

The Socorro Chieftain says: "Rodey has a clear field for renomination. He has well earned the distinction."

W. S. Stratton left provisions for a monument in Colorado that will keep his memory sacred in the minds of the aged and helpless.

The ball ground at Las Vegas was erected by money contributed to the Rough Riders celebration. It should belong to the city, and should not be under the control of any church institution.

Having prohibited Sunday base ball Las Vegas will not have a league team at the territorial fair, or games from league teams in that city. The people there cheerfully sustain the open sabbath on Sunday, but are horrified at the selfishness of a Sunday base ball game.

A compulsory educational law has just been put into operation in Maryland. It applies, however, to Allegany county and the city of Baltimore only at present. It requires all children between the ages of 8 and 12 to attend the public schools unless receiving education in private establishments.

The demand for American goods is increasing throughout Canada.

The socialists of this city expect to nominate a county ticket this week.

The Sunday closing laws are being thoroughly discussed in Las Vegas.

The people of Santa Fe should wipe out the political bosses and build a few sidewalks.

Out of 316 recent cases of persons wounded with bullets in the brain 160 recovered.

The west is pleased with the retirement of Speaker Henderson. He was not friendly to the territories.

A doctor in Indiana claims that he can restore life to the dead. He should try his skill on the populist party.

Ex-United States Senator Dorsey has purchased a dwelling house in Los Angeles and will make his future home in that city.

Litigation will continue to be of the endless chain variety so long as lawyers are permitted to make the laws for that express purpose.

New York city has a new murder mystery which is almost thrilling enough to interest a few readers west of the Allegheny mountains.

Going on juries and going to jail must be looked upon as the same thing in Hawaii. The island courts have decided to feed jurors on prison fare.

## Soft Harness

You can make your harness as soft as a glove and as strong as wire by using EUREKA LINSEED OIL. You can lengthen its life—make it last twice as long as it ordinarily would.

## EUREKA LINSEED OIL

makes a poor looking harness the best. It is pure, heavy bodied oil, especially prepared to withstand the weather.

Sold everywhere in cans—all sizes.

Made by STANDARD OIL CO.

"The more money a man saves when he is young," remarks an exchange, "the more he will have to spend on patent medicines when he is old."

The democrats of McKinley county have started a campaign paper, which is liable to make political matters more interesting in that part of the country.

Many millions of American money are now invested in farming lands in Mexico. The American farmer has introduced modern methods and is the wonder of the natives.

A scientist connected with the Johns Hopkins university claims to have discovered the germ of the summer complaint which is credited with carrying off 60,000 children annually in this country.

John W. Mackay, the Irish-American multi-millionaire, who died recently in London, had a fine tribute paid to him once by a friend. "Mackay," said he, "is one of the few rich men I should like to know if he were poor."

The tax of one-half of 1 per cent on rentals would spread consternation among property owners in this country, and they would complain of "imperialism." That is what is about to be imposed in France to meet a government deficit.

A jury has actually been found in the town of Carlisle, Pa., which was sufficiently superstitious to recently convict an old woman of being "a witch and a renamer." Are they living in the Twentieth century or in the dark ages of that section?

The following figures taken from a German service paper, enables us to realize the enormous expansion that has taken place in the navy of that country during recent years. The total personnel in 1881 was 11,352, 17,083 in 1891, and 31,171 in 1901. When the program initiated in 1890 is completed it will amount to 60,000. The number of engineer officers had in the same period risen from 35 to 159, and the junior officers from 284 to 1,230.

The ratio of repudiations to affirmations of the free silver doctrine by democratic conventions is something higher than 16 to 1.

The codfish crop on the Atlantic coast is reported to be the greatest ever known, and tons and tons of good fish meat is being canned for the beefless populace.

There is consternation in Johannesburg. The output of the gold mines is to be taxed 10 per cent more by the British colonial officials than it was by the Dutch authorities before the war.

China's new internal troubles are admittedly due to the causes which gave birth to the Boxer rebellion of 1900, namely, extortionate taxation and popular hatred of the foreigner, who is held responsible for the official abuses and burdens imposed upon the people.

That this is a big country is shown by the fact that such an enormous sum of money is required to move its grain harvest to the elevators and to primary markets. The Chicago banks are shipping from \$1,500,000 to \$2,000,000 daily to the country banks of the north and northwest and south and southwest sections of the country to meet the demand of the farmers for actual currency to pay the expenses of harvesting and marketing the crop.

# FARMINGTON FAIR.

Splendid Exhibits, Good Crows and Excellent Weather.

From Hustler, Sept. 18.

The fair is a big success—everybody says so, hence it must be so. People from Colorado began arriving Tuesday, so that by Wednesday noon, the hour set for the opening of the fair, fully 300 strangers were promenading the streets. The exhibits of fruits, vegetables and produce is already worthy of a California fruit carnival, and reflects much credit upon our public spirited growers and ranchers.

Among the most prominent displays at this hour we would mention that of W. N. Knight, George E. Allen, S. R. Blake, W. B. Bonds, J. A. Brothers, J. A. Gilmour, William Locke, A. F. Miller, Richard Crouch, William McRae, Mrs. Thomas Fulcher, Mary V. Roberts, Mrs. Ellen Dooley, S. W. Wrightman, E. A. Chandler, Samuel Rugh, Evaporator and Hyde Exploring Expedition booth. The art, cookery and fancy work departments are being neatly arranged by the ladies in charge, of which we will say more in our next issue.

The horse race was run on Main street at 6 o'clock last evening, the boys getting water in remarkably short time. However, owing to a dispute in couplers, the race will be repeated tomorrow evening.

The vaudeville in the evening, under the management of Mr. and Mrs. L. V. Rockburn, was exceedingly entertaining, both doing some very clever turns. The dance also was well attended, the music especially being first class.

Vertly, we can honestly say the Farmington fair is a big success.

# CADET OFFICERS.

The Appointments at the New Mexico Military Institute.

Cadet officers have been appointed at the New Mexico Military Institute, Roswell, as follows:

To be captain and adjutant, E. R. Bowie, Gallup, N. M.  
To be captains, T. F. Crumpacker, La Porte, Ind., and E. A. Lohman, Las Cruces, N. M.  
To be lieutenant and quartermaster, T. H. Wren, LaCrosse, Ark.  
To be first lieutenants, F. Brueggemann, Raton, and D. E. Pruitt, Roswell.  
To be second lieutenants, W. Bell, Raton, and C. R. Dwire, Taos.  
To be sergeant major, B. M. Thomas, Santa Fe.

To be first sergeants, T. J. Barnfield, Carlsbad, and H. H. Howell, Roswell.  
To be sergeants, C. S. Littlebridge, San Francisco, Cal.; R. M. Smith, Roswell; J. A. Young, Gallup; C. E. King, Albuquerque; C. R. Laney, Santa Fe; A. B. Padon, White Oaks; R. H. Crews, Hillsboro; and W. Frank, Jr., Los Alamos.

To be corporals, E. S. Colford, Hillsboro; L. G. Gallegos, Clayton; W. P. Winter, La Pasa; S. R. Smith, Roswell; L. C. Morse, Raton; W. G. Neher, Alamogordo; J. E. Roberts, Tularosa; R. H. Scheragafer, Lincoln, Ill.; C. N. Seagrass, Marshall, Mo.; D. L. Wildy, Roswell; J. C. Moor, Canyon City, Texas; and R. Gronsky, Fort Worth, Texas.

To be lieutenant, A. Ririe, Clayton.  
To be color sergeant, J. W. Chaves, Santa Fe.

To be bugler sergeant, F. R. Crandall, Santa Fe.

The military department is getting into good form and will make a splendid showing at the Roswell fair.

# CLOSING SEASON.

Alamogordo to Get 1903 Session—A One-Fare Rate Granted by the Rock Island.

As announced previously, the sessions of the grand lodge of the Knights of Pythias closed at Santa Fe with Friday afternoon's meeting, says the New Mexican. The body adjourned at 5 o'clock to meet a year hence at Alamogordo.

The Rock Island railway has already promised a one-fare rate, and the Knights are confident that the other roads will do likewise. The delegates from Santa Fe and those north of the city will doubtless go over the Santa Fe Central railway to connect with the Rock Island.

At the closing session of the lodge some legislation of interest to the order was enacted, including the adoption of a prescribed form of by laws for use in subordinate lodges.

The Knights in attendance were all pleased with the session and their visit to Santa Fe. The session was undoubtedly one of the best and most enthusiastic in the history of the grand lodge. The greater portion of the visitors returned to their homes on the evening trains.

# Elated Over Capture of Chacon.

Wiley Jones, former prosecuting attorney for Graham county, Ariz., was in Silver City the other day and helped prosecute the Sanborn case. Mr. Jones while in the Silver City Enterprise office, read of the capture of Chacon, the famous Arizona bandit, by Capt. Burt Mossman and rangers and expressed eminent satisfaction over the news. "I had Chacon sentenced to hang in 1897," said Mr. Jones. "However, he had powerful friends who carried the case to the supreme court. From there, it was remanded to the lower court and in each case we went to the supreme court. Final sentence was pronounced for June 13, 1897, the scaffold erected and everything was in readiness. But when the jailer awoke the morning of June 10, he found that the bird had flown by sawing through the bars of the cage and escaping by the aid of confederates on the outside. From that day to this, Chacon has been the terror of southern Arizona and northern Mexico, and many sighs of relief will be sent up from these districts over his capture."

# Prospects Good.

C. H. Elmendorf, of the American Valley company, was in Socorro the other afternoon on his way to Santa Fe. Mr. Elmendorf is very well pleased with the prospect for the next year, saying that he has never seen the grass better during his residence in New Mexico.

# TAOS REPUBLICANS.

Two Conventions Called—All Differences May be Adjusted.

Juan Santistevan, L. D. Brooks and T. P. Martin, a few days ago, after consultation with many republicans of Taos county, Juan Santistevan being a member of the republican territorial central committee, called a republican county convention for the nomination of delegates to meet in Taos county, October 6, for the purpose of nominating a legislative and county ticket and electing delegates to the republican territorial convention at Raton. This call was published and sent out all over Taos county.

Another call for a republican county convention for the same purpose was issued by Pedro Sanchez, who is also a member of the republican territorial central committee from Taos county and who signed the same as the secretary of the republican county central committee.

The outcome cannot be determined at present, but it is hoped and believed that wise counsel will prevail and that there will be but one republican county convention held at Taos.

# GOING TO MINING.

Operator Bradley Will Seek His Fortune in the Earth's Bowels.

W. L. Bradley, a well known and popular telegraph operator, who was an efficient employee of the local Western Union office up to a short time ago, is about to close the deal for an ore-producing mine located near Deming, and if successful Bradley will be out at the mine at work within the next sixty days.

Continuing in his letter, he says: "Everyone seems to have the fair in mind and I believe you'll have a large crowd from western Texas. I heard an old Texan, this morning, express his preference for the New Mexico fair at Albuquerque over the Dallas state fair."

Bradley is at present in El Paso. His many friends were with him much in his mining ventures.

# SANTA FE COURT.

Crenshaw's Murder Case Called—Mining Company Case.

In the case of the Territory vs. N. E. Crenshaw, charged with the murder of Edward Hull, the jury was empaneled and the case called for trial at Santa Fe yesterday forenoon. A number of witnesses for the prosecution were heard.

In the case of N. B. Laughlin vs. George Hill Howard, a suit in assumption for \$212, a verdict being rendered for the plaintiff on Saturday last, a motion was made for a new trial and was refused; a motion was then made for an appeal and same was granted.

In the case of W. E. Dame vs. The Cerrillos Mining company, limited, in which a judgment was rendered in favor of the plaintiff a year ago, the same being required to stand over a year, the sale of the company's property to satisfy the judgment to said Dame for the sum of \$2,655

## TOWNS OF LAS VEGAS

BY SPECIAL CORRESPONDENT

Las Vegas, N. M., Sept. 19.—Again there seems prospects coming in the mining situation here. The latest seems positive, and it is in the nature of a 300 ton mill for Teolote. There have been parties here for the past ten days figuring on the situation here, and they are at last convinced that a mill at Teolote would pay, and the incorporation papers are all written out for the formation of a company to do a commercial milling business at Teolote. The people behind the mill are from Colorado, and are at present operating mills in Arizona and Colorado. Their process is a new one. It is a sort of electrical leaching process; iron not being used for precipitating. There will be a couple of local people put in as directors, and one of the Colorado men will move here with his family. This is done to make it possible for a meeting of the directors without waiting for Colorado interests to come down to make a quorum. The company is asking no investments from local people, but there may be a little stock let loose in town if parties want it, but otherwise it is not for sale. It is merely the locating here of another mill by the Colorado Investment company. Those having ore at Teolote, will merely contract to furnish the ore to the company.

The "republican" meeting last night at St. Joseph's hall for the purpose of hearing Margarito Romero air his grievances against everybody in general was fairly well attended by the curious, despite the heavy rain. The chairman of the meeting was Ignacio Esquivel; vice presidents, Benigno Romero and George Chavez, of El Curo; secretary, George Lahade. Margarito was the first up and killed about an hour giving his personal opinion about everybody from the governor down to the assessor. His stomach was evidently in bad order, for his opinions were sour. He also turned loose his mud batteries on Hon. Chas. A. Spies; as fact nothing seemed to suit him, and the only remedy he can see, is to place himself in office; though he modestly avows, in a shy manner, he does not want any office. Rafael Gallegos, George Chavez, Romulo Ulibarri, Blas Ortega and Antonio Lucero also made speeches, taking their cue from the first speaker. No opposition speeches were allowed. It was Mr. Romero's funeral, and none but his pall bearers were allowed to take part.

Hon. Jefferson Reynolds returned last night from his trip over the north-west and Pacific coast. Mr. Reynolds was delighted with Yellowstone park, the trip through there having been made with Mr. Crockett, of this city. He was gone three weeks.

Col. R. E. Twitchell told your correspondent this morning that the season next year would open May 15 with a first class base ball team and a race track, the grounds the property of the citizens of Las Vegas. You can't keep a good man down.

The precipitation of rain yesterday evening up to 6 o'clock was .68 of an inch, and up to 6 this morning .19 more, or a total of .87 of an inch in the last fifteen hours. Everything was afloat last night, water standing everywhere. The ground received a good soaking, and the benefit was incalculable to the country. It is not over yet, either.

Joe Hincell, a printer on the Pittsburgh Post, arrived here last evening to visit his brother in law, Robert Gray, of the shops.

Eight naval recruiting officers passed through here last night on route to Albuquerque. They came from La Junta last, and are making a trip over the southwest getting recruits. They will return to Las Vegas December 8 and remain a couple of days, according to their present schedule.

R. T. Hill, of the government geological department, who has been in Colorado and other parts of the west for the past few months, and who has been at hot springs, left today for Santa Fe.

H. D. Nealy, of Topeka, arrived last night to visit his cousin, Mrs. G. W. Sterling.

Mrs. H. H. Funk, of Beverly, Ohio, arrived last night to make a visit with Mrs. James Robbins.

No. 1, carrying twelve cars, last evening did not get in until nearly 8 o'clock. There was a big freight wreck on the Chicago division, and the Santa

Fe had to use about fifty miles of Burlington track to get by. No. 8 got in at 8:15.

Trainmaster C. H. Bristol, of Raton, came down last night to ride the Masonic goat.

It was a splendid rain which began yesterday evening a bit after 4 o'clock and kept it up for several hours. There was only a sprinkle at Watrous, and the heavy rain began about fifteen miles north.

Mrs. Mary Vasse and daughter, Miss Emma, arrived last night on belated No. 1 from Moberly, Mo.

L. C. Curtright, the city marshal, and wife, returned last night from their trip east. Mrs. Curtright visited in La Junta, but Mr. Curtright was as far east as Paris, Mo.

Lloyd U. Dick, who has been visiting his brother, James A. Dick, will return tonight to his home at West Newton, Pa.

Miss Edith Wheeler, daughter of A. O. Wheeler, sustained quite a serious injury to her right eye last night. The globe of an electric light, as it was being lowered, struck on the wire weight, breaking it, and a piece falling struck Miss Edith in the eye, as she was looking up. The sharp edge cut the iris, necessitating an operation. It is not known just yet whether she will lose the sight of her eye or not.

Mrs. Eliza Bourguignon, of Socorro, who has been a patient at the asylum here, is rapidly failing, and death seems near. Her husband has been telegraphed for and is expected at once.

Mr. and Mrs. Hickok, who recently visited here, passed through on No. 1 today en route to Santa Fe from Chicago.

Miss Hazel Bell, daughter of Archie Bell, who was operated on a short time ago for appendicitis, is convalescing nicely.

Master Mechanic Daniel Patterson, at Raton, has sent in his resignation to take effect the first of October. It is probable that he will accept a position on the Denver & Rio Grande. It is not yet known who will succeed Mr. Patterson.

There were 355 paid tickets on No. 1 last evening, and in the six tourist cars there was not even an upper berth. There are excursion rates on from the east.

Miss Van Ardsley, who came over from Santa Fe to attend the Cordon-Crites wedding, will return tomorrow to her home.

The Las Vegas band is figuring on giving a concert and ball in the near future. They will have a number of outside musicians present, and are figuring on a thirty-one piece orchestra. The dance probably will be given at the Casino at the hot springs.

Dave Rosenwald left this afternoon for a whirl among the resorts of Colorado on a two weeks' vacation.

Albert Stern went down to Albuquerque this afternoon to see the sights of the Duke city.

Mrs. L. E. Trainer and children and Mrs. Walter Pratt returned yesterday afternoon from their trip to Los Angeles.

Mrs. E. O'Brien and daughter and Miss Lennie Powers left this afternoon for Topeka and points east.

Benjamin M. Read came over this afternoon from the Capital city and will go out to Mora tomorrow. Joe Dignoe, also of Santa Fe, came up with him, but went on to Trinidad.

B. P. Dodago went over to Santa Fe this afternoon to unload a little pork on the meat eaters of that city.

Las Vegas, N. M., Sept. 20.—Mrs. C. W. Allen came up from El Paso Saturday night for a visit with her friends in the Meadow City. She came by way of Santa Rosa, and says she got fearfully homesick while away.

Mr. and Mrs. Theodore Hockemeyer arrived here yesterday from El Paso. Mrs. Hockemeyer will visit with her parents, Mr. and Mrs. C. A. Rothgeb, while her husband is on the road.

Herman Hilde returned Saturday night from Santa Rosa. He has been visiting his fiancée back in Kansas City, also, for several weeks.

Sidney Rosenwald arrived here this afternoon from Albuquerque for a couple of weeks' visit with relatives.

Capt. W. C. Ried went down to Albuquerque this afternoon on legal business.

Mr. and Mrs. A. Menet left this afternoon for the northern part of the terri-

tory, where they will take in the festivities at Taos the last of this month.

W. M. Lewis returned Saturday evening from his trip to Colorado Springs to attend the meeting of the Western Federal Directors' association. He reports a pleasant time.

W. D. White, wife and boy, of Topeka, Kan., arrived here Saturday night to visit with the family of Joe Miguel. Mrs. White is a sister of Mr. Miguel, and was so unfortunate as to lose a purse on No. 1 containing \$30.

Sol Luna was here a short time Saturday seeing the boys and talking over majorities. He says Los Lunas republicans will do their part.

W. L. Crockett returned Saturday evening from his visit to Spokane, Wash., and other points in the north-west, including the Yellowstone Park.

Harry Lee was here Saturday from Albuquerque seeing the sights of the Meadow City.

F. O. Blood received a telegram Saturday morning announcing the death at Los Lunas of Miss Francis LaMaster, formerly of this city, but now a resident of Los Lunas. Mrs. LaMaster left Las Vegas just a week ago to visit her daughter, to visit her husband, and the daughter was then well. The death was sudden, and the cause is not known. The interment will take place tomorrow at San Marcial.

H. E. Blake has a couple of sacks of ore he brought from the Pecos country. He prospected a couple of weeks and has some of the best specimens of ore that has been seen in the city for some time. There seems to be not only gold and copper in that country, but iron as well, he having some specimens that run as high as 80 per cent iron. Mr. Blake will spend the winter in that country mining. He has located four claims and will locate more later. The claims are about forty miles from this city.

The party given Friday night by Mr. and Mrs. E. L. Browne was a very delightful gathering. There were forty guests present, the amusement of the evening being six-handed euchre, and a merry evening it was. The party was given to celebrate Mr. and Mrs. Browne's sixteenth marriage anniversary. It was given last night because the date this year fell on Sunday. The winners of the prizes were Mrs. Kate Reynolds Dean, first in games for the ladies, and Charles A. Spies first for the gentlemen. Miss Jeanette Richley took the prize for the best decorated table, and delicious refreshments were served.

The government surveyors who had been defining the line between the Mora and Las Vegas grants and the Pecos forest reserve for the past two months, have reported that they found the northwest corner of the Las Vegas grant, which has long been in doubt, and for which some of the owners of land on the grants have offered a reward. The line, if correct, will take a strip off the reserve about two and one-half miles wide and thirty miles long, giving most of that amount to the Mora grant. The surveyors have also been cross-sectioning parts of the reserve for the government.

The initial address of Dr. Lefkowitz at the Hebrew temple Friday night was a splendid one, and the Montefiore congregation is very much pleased with their new rabbi. Dr. Lefkowitz took for his topic, "The Ideal Minister," and spoke for over an hour, giving his conception of the ideal. He is a very forceful talker, eloquent, uses elegant diction and the members are very enthusiastic over their new pastor in general. Next Friday night the doctor will discuss "The Ideal Congregation." There was a large attendance to hear the initial address, and the music furnished by the quartet, composed of Mrs. S. C. Brown, Miss Rothgeb, Charles Kohn and L. R. Allen, was a real treat. Mrs. Charles Kohn presided at the organ with her well known ability.

E. L. Hewett and L. C. Butcher left Friday evening for the Pajarito cliff dwellings, to finish some surveys for Congressman Lacey, of Iowa, who is chairman of the committee on national parks. Guy Gatchel will leave Monday for Topeka, where he will be married on September 24 to Miss Bertha Wiser. He will return here after the wedding and go to housekeeping. He will also return to his duties with the Wells-Fargo company on October 1.

John Florence was in Saturday from Buena Vista, with a load of fruit. Mr. Florence says the Weber estate near him has over 1,000 well loaded apple trees and they expect to get a crop of 150,000 pounds of apples this year. The fruit crop in the entire vicinity is very large.

City Clerk Tamme has just completed the school census of the city. There are 947 children on the east side of school age, or under 21 years. Of the number, are 448 males and 499 females. This is a decrease of twenty-four since last year, less than was expected. There seems to have been a reduction in the school census figures all over the territory in the last couple of years. Mr. Tamme was out twenty days at the work, and had many peculiar experiences. He nearly frightened one fellow to death, who thought he was trying to collect taxes. He did the work in a conscientious manner, he says, and he has every child in the town, from school age up to 21 years. He had considerable trouble to get some people to give the names of their children and it was only by persistent questioning that he accomplished the work so thoroughly.

Judge William J. Mills, Secundino Romero, Hon. Charles A. Spies, L. C. Fort and A. A. Jones returned Friday evening from Raton, to spend a couple of days at home. They will return Sunday night. There was little of importance done in court during the past week, but the Waldo Wade murder

## The Farmer's Success Depends Upon Freedom From Disease and Suffering.

### PAINE'S CELERY COMPOUND

IS THE MEDICINE THAT HAS MADE THOUSANDS OF COUNTRY TOILERS WELL AND STRONG.

There are thousands of farmers in our land who are rich in broad acres and gold, yet lack that true wealth known as good health.

It is a melancholy fact that men and women in the country districts, breathing the purest air and drinking from God's bubbling fountains and limpid springs, are liable to the same diseases and ailments that come thick and fast to city people. We find rheumatism, neuralgia, debility, dyspepsia, kidney and liver troubles, and blood disease almost as common in the farmer's family as they are in city homes.

Paine's Celery Compound, Heaven's best blessing to the farming community, has done more for the banishment of dread disease and the building up of health than all other combined medicines. Mr. John Zuspan, a prominent and well known farmer of Middleport, Ohio, writes specially for the benefit of sufferers in the rural districts; he says:

"Last November I was so badly crippled up with rheumatism, which came on in June, that I could hardly walk without the aid of crutches or a heavy stick. About the tenth of November I commenced taking Paine's Celery Compound, and after using four bottles I was completely cured, and was able to attend to my usual work as well as when I was 40. I am now 66, and can walk and run as well as a man of 30."

trial is set for Monday, and it promises to be interesting.

Las Vegas, N. M., Sept. 23.—The unionist meeting last night at the Atlatlas Gonzales hall on the west side to hear Emperor Felix orate was attended by nearly 200 natives. Mr. Martinez did not have much to say, only remarks in general, urging the union party to stand pat. He was introduced by E. C. de Baca and spoke for thirty-five minutes, haranguing the crowd, telling them how independent they were and not to be led by any tricks (at least none but his). He referred to the "glorious" Lorenzo Lopez, Eugenio Romero and Juan Jose Herrera as independent men; they being instrumental in the beginning of the unionist party movement some years ago. He also advised all parties to favor statehood and told how bitter a pill he had to swallow when he had to attend the national convention which nominated Cleveland, the autocrat. He said the national democrats always promised statehood before election, but betrayed them after the election was over and they were in power. Emperor Felix may not have had at that time, though how much good advice he was giving those present by telling them to beware of the democrats and their trickery. Mr. Martinez also gave O. A. Larrasola a rub by telling about his antagonism to the union party. Patricio Gonzales, the editor of El Sol de Mayo, got in a snarl about his change of heart, Dictator Felix telling how it grieved his heart to see men who were formerly in the fold now opposing the unionist cause. There was some enthusiasm during Mr. Martinez's speech, but it came mostly from those who had leaned on the bar before the meeting, and they were decidedly numerous. After the first speech music was struck up. Tomas Tafuya, of Placido Largo, Guadalupe county, next talked a few minutes. He was followed by Placido Sandoval, who let off a lot of personal spleen against Governor Otero; it being remembered in connection that Mr. Sandoval was fired out of the cozy berth of public instruction by said governor. Mr. Sandoval has held numerous offices, and evidently wants another from his verbal pyrotechnics last night, evidently wants a nomination again. He got very tiresome before he finished. Apolonia Sena, of Chaperito, and E. C. de Baca followed in short speeches. Mr. de Baca made reference to the sorehead republicans who were starting to buck against the stone wall. He naturally praised them; what else could he do. George Money had in the meantime taken his place by W. G. Haydon on the platform, who looked very lonesome, and tried once to escape, but was caught. Mr. Money was next called on and Mr. Lucero acted as interpreter, while Mr. Money "squared" himself with the crowd for showing lack of enthusiasm. He said he had gone to bed, but his "conscience" would not permit him gliding off into the arms of Morpheus, but he must come and see the crowd. Since then the reporter has been trying to figure out which conscience was advising right; the one that prompted him to go to bed like a law abiding citizen on Sunday night, or attend a political powwow. Rafael Lucero, Eugenio Romero's mail carrier between Las Vegas and Gallinas Springs, talked a few words. It was then about 10 o'clock and the crowd had dwindled.

There were people out to the Presbyterian church last night who were never there before. The church was packed, chairs having to be brought in to accommodate those present to hear Rev. Skinner preach about "the other

18 per cent." In answer to an article contributed to the Record that \$5 per cent of the people of Las Vegas were in favor of Sunday base ball, Rev. Skinner's discourse dealt in figures somewhat, he endeavoring to prove from the attendance at the game, which he took for granted was the event of the season and everyone who favored Sunday games was there, and the number of the population of the city. His figures were that only 11 1/2 per cent of the people favored the games, by taking the two towns together, and the east side alone, figuring the population at 3,000, 23 1/3 only favored Sunday games. Rev. Skinner was very conservative in his remarks, and presented the religious side of the case very earnestly and eloquently. No names were mentioned in connection with the sermon and he spoke in general.

There was a most harmonious and successful meeting of the republican club Saturday night at the hall back of Buffalo hall. There were about 200 enthusiastic present, and the meeting held until after 11 o'clock. Patricio Gonzales acted as chairman and Cleofes Romero and Filidelfo Baca Garcia as vice presidents, and Teofilo Madrid as secretary. Twenty names were added to the large membership list, and some splendid speeches were made. Hon. Charles A. Spies made the first speech, Secundino Romero acting as interpreter. Mr. Spies' speech was a very able one, and he made the point that a few office holders should not be let to dictate to the party, but that the party should work harmoniously and let the majority rule. Harmony was the spirit of the meeting, and the keynote of all speeches was that what the convention did, all should abide by as patrons and put their shoulder to the wheel and work for the success of the party as a whole, and not with any disgruntled wing of it which might materialize.

Hon. Secundino Romero followed with a red hot speech, in which he did not mince his words, but called in-surrection by its right name and laid the lay off to the disgruntled who are endeavoring to aid the enemy by bolting their regular party, if not actually in league with them in working for the republican party's defeat; and making it worse by doing so under the name of republicanism. Mr. Romero's speech was loudly applauded, and he was in sympathy with his hearers. Zacarias Valdez and Damacio Tafuya also made speeches, as did a few more present, and the meeting was a distinct success.

Frank Manzanarez, Jr., left today for Kansas City with a couple of carloads of sheep for market.

Mrs. Fred Schultz returned today from her trip to Chattanooga, where she went as delegate from the local Ladies' Auxiliary to the Brotherhood of Locomotive Firemen's convention, which convened there the 8th inst.

Dr. Lewis Mettsker, government sanitary inspector for sheep, was here a couple of days and left yesterday for Deming.

Born, yesterday morning, to Mr. and Mrs. W. H. Parnell, a fine nine pound boy.

P. R. Lopez, the shoemaker for C. V. Hedgecock, had the misfortune to break his right leg at Ribera last evening. He was scuffling with some friends, and one of the men fell against the leg, wrenching and breaking the member. He was brought here yesterday on No. 2.

H. Jassoy and wife left today for St. Paul and the northwest on a vacation trip. They will take a hunt while away. Mr. Jassoy is one of the Santa Fe firemen.

Col. R. E. Twitchell left this afternoon on No. 2 for Raton, where he has to fight a railway damage suit. Modesto Tafuya had both his legs cut off and sued the Santa Fe for \$25,000 damages, and the case is called for tomorrow.

Bishop Bourgade, of Santa Fe, passed through on No. 2 today en route to Watrous from the confirmation services yesterday at Ribera, where there were eighty confirmed.

N. P. Sund went down to Albuquerque yesterday on a business trip.

Alex Read has returned to Santa Fe after a short visit to Mora.

Jacob Stern returned yesterday evening from his extended trip to New York City, where he bought goods.

Mrs. Vogel and daughter, Miss Fleming, left today for their home in Omaha, after spending several months in the city for their health.

Word was received here today that the Kohn Brothers, at Moctaya, had been badly beaten up with a six shooter by some tramp a couple of days ago. It is said the boys were so roughly handled that they are not recognizable.

#### SANTA FE COURT.

In the case of the Territory vs. N. E. Crenshaw, charged with the murder of Edward Hull, called in the district court for Santa Fe county on Friday, the defense closed at noon yesterday and yesterday afternoon arguments were had and it was thought by the counsel that the case would certainly go to the jury yesterday evening. Yesterday forenoon the prosecution examined the following witnesses: George Kinsell, Mrs. J. F. Hull, Mrs. Daguerre and Aleo Reed. And the following witnesses for the defense were heard: Mrs. Giltner, George Porter, Kirby Crenshaw, Mrs. Bailey, George Bailey and Richard Green, Jr.

In the suit of the Territory ex rel. Frank Staplin vs. the Board of County Commissioners, in the district court for Taos county, a writ of mandamus was issued compelling the board to make a levy for \$500 to cover judgment.

## Railroad Topics

W. G. Francis, formerly of Albuquerque, and later division storekeeper at Winslow, Ariz., is very seriously ill in the Southern California Railroad hospital at Los Angeles.

The Brotherhood of Locomotive Engineers will, on January 1 next, make a formal demand for an increase of wages. The Brotherhood of Locomotive Engineers is not affiliated in its fight with the Western Federation of Railroad Conductors and Brakemen.

J. B. Hasty, gang foreman for the company at Raton, N. M., was around Topeka shops Friday getting "pointers" on the methods of doing business there. Mr. Hasty used to hold the foremanship of the mechanical plant at Strong City and at Dodge City, besides being employed at Newton.

The scarcity of motive power on the Santa Fe coast line, which is so plainly evident in San Bernardino, has also been observed at Needles. The shopmen are kept busy in their efforts to turn out engines fast enough. A number of old engines at Albuquerque, which have been in idleness for some time, are being refitted for service on the road.

The El Paso & Southwestern have completed laying their rails to within about twenty miles of El Paso, where they were forced to stop on account of being unable to secure material from the eastern mills. However, sufficient material is now on the way to enable them to again start up and continue the work as far as the grading has been completed.

The rumor that the general offices of the El Paso-Rock Island road are to be removed from Alamogordo to El Paso has been pronounced absurd by the officers of the road. The company has just finished a brick office building in Alamogordo for the auditing department and there is no building of the company in El Paso large enough to accommodate the force.

Mechanical Superintendent Schaeffer, of the Santa Fe shops, at Needles, is visiting the Albuquerque shops. It is said that he fell in love with one of two new wrinkles connected with the Santa Fe shops at Albuquerque and will follow their fashion when he returns to the banks of the Colorado. Mr. Schaeffer believes that all strike troubles at the Needles shops have been settled, and that a prosperous winter is before the company and the men.

The San Bernardino Sun says: "There has been a rumor in railroad circles of this city for several days to the effect that Superintendent of Motive Power Henderson, of the Santa Fe, had been asked to resign. Yesterday a railroad man came over from Los Angeles, bringing with him the same story, which he said was current in the company's headquarters in that place. The report cannot be confirmed." Superintendent Henderson was seen today in regard to the statements made in the above paragraph and said: "There is nothing in it. That is the first I have heard about my resignation."

An official confirmation has been received of the transfer of the Seary & Des Arc railroad to the Rock Island, says a Little Rock dispatch. The actual sale was made at the time the Choctaw passed into the hands of the Rock Island. The day before the sale of the Choctaw that road had purchased the Seary & Des Arc and consequently the Rock Island bought a line which had not entered into the negotiations. A circular has been issued naming J. E. Holden as traffic manager and W. W. Wentz, Jr., general manager, both being local Rock Island officials in charge of the Choctaw lines. The road runs from Seary to Des Arc, a distance of twenty-eight miles.

#### Another Extension.

A prominent official of the Rock Island reached Ardmore, I. T., the other day on a tour of inspection of the recently completed extension of the line from Hartshorne to Ardmore, known as the Choctaw, Oklahoma & Gulf branch, which recently passed into the control of the Rock Island. In the party are: J. W. McLeod, general solicitor; J. W. Molitor, chief engineer; Townsite Agents Melish, Milburn and Col. W. H. Bigsby, Chief Clerk J. Fenton Wisdom of the Dawes commission also of the party. Regular passenger service on this extension will be opened October 1. The officials confirmed the report that the road would build from Asher to Dallas, and that a corporation will shortly be formed in Oklahoma for this purpose.

President Leeds, of the Rock Island, will be at the head of the Asher, Tex., line, which will be a short route to the Lone Star state. Two surveys have been made, but it is said that the line will tap Milburn instead of Wapankata and that it will cross the "Friaco at Ada."

The Albuquerque-Durango Survey. The Farmington Times says that the surveyors on the proposed road between here and Albuquerque have not got lost, as some had begun to think, but are working away with a good force and take time and pains to locate the most feasible and practicable route between the two points.

They were seen last week by M. McKenzie and other freighters returning from Albuquerque at a point about twenty-five miles from the top of the divide, and the indications were that they would come down Canyon Gallegos onto the river.

They had a good force of men and were evidently making a very careful survey which certainly indicates that

grading will follow the survey. This is a bit of news that will be appreciated here, for many had begun to believe that the newspaper talk of a few weeks ago was mostly a not all wind.

#### FAIR NOTES.

Callahan, one of the fast Chicago American League twirlers, who will play with the Albuquerque fair team, turned the Detroit team down at Chicago the other day without a hit.

Miss Estella Lewinson has joined in the race for fair queen. Manager Matson is not quite ready to open the box, but says that Miss Belle Yancy is leading in the contest by some votes.

The Las Cruces Republican says: "Col. Scott Knight, superintendent of the advertising department of the territorial fair, pulled into town with his special car Wednesday and went to work with his able corps of assistants, to bill the place for the coming exhibition."

Territorial fair advertising car No. 3, which arrived from the south Sunday, left last night for the western towns with Scott Knight and assistants in charge. No. 3 will go direct to Ash Fork and do the posting while returning. The towns scheduled are Ash Fork, Williams, Flagstaff, Winslow, Holbrook, Winkate, Gallup and Grants. The trip will require about ten days.

#### MISS GRACE HAHN.

Letters were received in the city today giving briefly, with no particulars, the marriage of Miss Grace Hahn, daughter of Mr. and Mrs. W. H. Hahn, of this city, to Charles Knudig, a well known young gentleman of Long Branch, New Jersey. The ceremony occurred last Wednesday. Mrs. Hahn, with Miss Grace and the baby, have spent the summer back in the east. They were joined later by Mr. Hahn, and he, after witnessing the ceremony, left for home. He is at present in Kansas, and is expected to arrive in a few days.

#### Death of Miss Bromberger.

A few minutes after 2 o'clock yesterday afternoon at the St. Joseph's sanitarium occurred the death of Miss Jeannette Bromberger, of Pine Bluff, Ark. The young lady came to Albuquerque a few days ago suffering from a prolonged case of consumption, to which she finally succumbed. The body was removed to O. W. Strong & Sons' undertaking parlors, where it is being prepared for shipment to the home in Arkansas. The deceased's parents are old friends of Mr. and Mrs. J. W. Adams of this city.

#### Trailing Sheep.

A big band of sheep is now being organized in Union county to be trailed eastward to the corn fields around Wichita, Kansas. The movement comprises between 10,000 and 12,000 head. Years ago it was easy to trail sheep any where, but now it is a narrow lane indeed that leads to the feed lots.

#### Pensions Granted.

The following pensions for New Mexicans have just been granted: Pablo Martinez, Martinez, \$10; Hugh A. Moyer, Fort Bayard, \$10; James L. Smith, Chico Springs, \$12; Frederick B. Schmidt, Lincoln, \$10; Mrs. Corie B. Lyon, Las Cruces, \$8; Gregorio Mondragon, Pintada, \$6; Teodoro Herrera, Sanchez, \$6; Robert Taylor, Las Cruces, \$12; Samuel Porter, Silver City, \$6; Buenaventura Martinez, Cimarron, \$10; Mercedito Martin, Escobosa, \$8.

#### Boston Wool Market.

Boston, Mass., Sept. 23.—There has been a "lightly better" inquiry in the wool market here this week with satisfactory prices ruling. The extraordinary strong position of fine wool is a feature of the present market. Fine washed fleeces continue especially firm. Fine territories are very firm with prominent holders asking stronger prices, especially where good staple is included. Fine staple territories are quoted at 55¢@60¢; fine and fine medium, 50¢@53¢; medium, 45¢@47¢.

#### Lincoln County Exhibit.

S. T. Gray, of Captain, N. M., called at the international miners' association office this morning and asked the permission of President Juan Hart to move a portion of the exhibit of minerals which was sent from Lincoln county, to the fair at Albuquerque, October 14. The permission was granted on the condition that the consent of the owners of the specimens could be obtained. Mr. Gray is the vice president of the fair committee from Lincoln county.—News.

#### District Court.

In the case of United States vs. Andrew Casna, charged with selling liquor to Navajo Indians, which went to the jury late yesterday, the defendant was found not guilty.

A new United States petit jury was impaneled this morning. The case of the United States vs. Barney Gross, of Gallup, charged with selling liquor to Indians, went to the jury at 11 o'clock.

The case of the United States vs. Mrs. Peter Alonzo, charged with same offense, is the next case on the docket.

District Attorney F. W. Clancy says that the territorial grand jury has been very busy, having tried some twenty cases and heard about eighty witnesses. It will finish the present session either tomorrow or Thursday.

## A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it:

FIFTY THOUSAND DOLLARS

In development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25¢ per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth far inside of six months. This is the best investment for the money that has ever been offered to the investing public.

## Local Happenings

Mr. J. H. Harker, of Idaho, is in the city today.

An informal dance will be given at the Commercial club tonight. All members are invited.

John E. Doyle, traveling watch inspector on the Santa Fe, is in the city, checking up the local inspectors.

Six new San Pedro, Los Angeles & Salt Lake road cars passed through the city this morning from St. Louis factories.

Mrs. F. F. Laub, of Torreon, who has been spending a few days in the city visiting with friends, left this morning for Hatch.

W. J. Bretherton, superintendent of the W. A. Clark mines at Clarkville, McKinley county, is in the city today on business.

George A. Blake, who was sick the past three weeks, is up and around. He lost about twenty pounds of flesh in that time.

Mrs. J. W. McCoach, of San Marcial, passed through the city this morning bound for Kansas City for an extended visit with friends.

Mrs. James Herrick, of Fairbanks, Ariz., passed through the city this morning bound for Augusta, Kan., to visit with her parents.

A. B. McGaffey, who has been touring the north and east in the interest of the Hyde Exploring Expedition, is expected home tonight.

The Eagles intend to have one of the prettiest floats in the big parade during the territorial fair. J. Cuno has the matter in charge.

The Woman's circle of the Baptist church will meet tomorrow afternoon at 2:30 o'clock at the residence of Mr. Newton, on South Arno street, on the highlands.

Beware of grafters. They are in the land, and they represent almost every known kind of business. Housewives should not be taken in by the smooth talk of these swindlers.

Miss Etta Van Hoesen, a young lady who came to Albuquerque about six months ago for her health, left this morning for her home at Lawrence, Kan., in a much improved condition.

Col. J. Francisco Chaves, territorial school superintendent, and wife, passed through the city this morning en route to Santa Fe from the colonel's ranch at Progresso, Valencia county.

F. E. Bird, agent for the Erie railroad at Callicoon, N. Y., arrived last night and will remain in the city some time. Mr. Bird is run down in health and has come to New Mexico to recuperate.

J. W. McQuade and family, who have been at San Diego, Cal., the past few weeks, are now at Los Angeles, and the health of the children has been restored. They will return to Albuquerque shortly.

S. Sals, a native laborer, who has been doing rock work for the Santa Fe in Arizona, was brought to this city this morning on passenger No. 2, with a broken leg, and taken to the local hospital for treatment.

J. F. McNally, superintendent of the Rio Grande division, came up from San Marcial this morning and today, accompanied by Station Agent E. L. Myers, is making an inspection of the new freight depot. It is almost ready for occupancy.

A. A. Winter, an optician of twelve years' standing, has arrived in the city, and has established an office at the drug store of H. Ruppe on West Railroad avenue. He will give special attention to fitting oculists' prescriptions and frame fitting.

William Watson, a mining man from Helena, Mont., who has been spending several days in the city talking with local mining men, left last night for Jerome, Ariz., where he will make a report on the United Verde mine fire, for Senator Clark.

Mr. and Mrs. Miles McCarthy, of Wood River, Neb., who have been spending the summer sojourning on the Pacific coast, arrived this morning and are visiting with their cousins, Mr. and Mrs. W. W. Strong. They expect to remain in the city several days.

A. H. Hilton, the big general merchant and coal operator of San Antonio and Carthage, transacted business in the city yesterday. Mr. Hilton reports the Rio Grande valley near San Antonio looking fine, a nice quantity of rain having fallen there during the last few months.

The ladies of St. John's Guild will resume their monthly teas, the first one to be given on the lawn at Mrs. G. L. Brooks, 903 Copper avenue, on Thursday from 2 to 6. Ping pong will be the attraction. A special invitation is extended to all strangers and to all friends of the church.

There is a new bicycle thief in town, and he don't steal wheels but the rubber tires. Last night Roger Gatlin, while at the city building practicing with the boys' brass band, had his bicycle taken from in front of the building. This morning the wheel was found near the railroad shops, and the rubber tires gone. No clue to the thief.

Passenger traffic on No. 2 was unusually light this morning.

Mrs. H. J. Moore left this morning for a three weeks' visit with friends in Chicago.

A. Quasdorf, a well known citizen of Tucson, N. M., is in the city today on business.

Isidro Harris, who claims Paducah,

Ky., as his home, is in the city for a short time.

J. H. Kuhns was at the depot last night, and took the south bound train for Mexico.

D. S. Shafer left this morning for a two weeks' visit at his old home at Kokomo, Ind.

H. Neumann, the general merchant and trader at Guani, out on the Santa Fe Pacific, is here today on business.

C. L. Panconist, of Cleveland, Ohio, arrived last night and will remain here. He will accept a position on The Citizen.

The Citizen building is being painted and papered and the office generally cleaned up. Come in to see us during the territorial fair.

The Woman's circle of the Baptist church is holding a meeting this afternoon at Mrs. Newton's residence on South Arno street.

John Lee Clarke, who holds a position at the Hyde Exploring Expedition store, has returned to the city from his visit to New York.

Arthur Everett returned last night from a week's trip to the northern cities of the territory. Mr. Everett reports having had a pleasant trip.

Mrs. Charles Jacobs and family, from Detroit, Mich., are in the city today, and pleased with the climate. They may remain during the winter.

Mrs. J. H. McCutchen, who has been spending a couple of weeks visiting with her mother at Socorro, is expected to return home tomorrow morning.

From general indications, fair visitors will be treated to hordes of caterpillars if the nests of the pesky little worms are not destroyed beforehand.

David Weinmann, manager and one of the proprietors of "The Economist" dry goods store, is on the sick list, but nevertheless attending to duties at the store.

Superintendent Fox, of the New Mexico division, came down from Las Vegas last evening and is spending the day in the city. He expects to return north this evening.

Col. John M. Moore and wife will attend the national encampment of the Grand Army of the Republic at Washington, D. C., and will leave for the east in a few days.

Maynard Gunsul, manager of the local Electric Light & Power company, had as guest yesterday H. N. Siegfried, manager of the Electric Light, Gas & Ice company of Tucson, Ariz.

A large pump was shipped to Santa Fe yesterday by F. H. Mitchell, to be used at the reservoir now in course of construction at the "tent city" of Messrs. Gibson and Mitchell.

F. H. Mitchell went to Santa Fe this morning. Mr. Mitchell says that the "tent city" is growing rapidly. The pipe line has been laid and a dam is now being built for water storage.

Captain Murphy, of the cattle buying firm of Murphy & Johnson, of Bakersfield, Cal., is here today in consultation with William Farr and other butchers. He wants to buy some cattle.

Mrs. Leatherman, wife of Deputy United States Marshal R. E. Leatherman, who has been spending a couple of months visiting with friends at different places in the east, is expected home next Tuesday.

There will be a regular conclave of Pilgrim commandery, No. 3, Knights Templar, this evening at 8 o'clock, for work. Visiting Sir Knights cordially invited. By order of the E. C. L. H. Chamberlin, recorder.

Mrs. Ella Le Bar, a public school teacher of this city, met at the depot last night a cousin, Mrs. Panshaw by name. The lady was returning to Pasadena, Cal., from a visit to Indiana relatives and friends.

Mr. and Mrs. H. H. Black, of Ottawa, Kan., arrived yesterday morning from San Francisco and spent the day in Albuquerque. They left this morning on their return home. Mrs. Black was formerly Miss Lora Frye of this city.

At Temple Albert, corner Sixth and West Gold avenue, regular services will be held Friday evening at 7:45. The subject of the lecture by Rabbi J. H. Kaplan will be: "If God Commands, How Does He Command?" The public is welcome.

The New Mexican says: Miss Jennette Walton, of Albuquerque, leads in the voting contest for the place of queen of the carnival at Albuquerque. King Montezuma and the queen, Tecoloco, will lead the trades' display and the spectacular feature.

D. D. Graham, who has had charge of the farming department of the government at Zuni, has been appointed as resident Indian agent for the Zunis. This is a new agency established by the department of the interior. Mr. Graham is well known in this city.

The members of both the married ladies' and the young ladies' sodality societies and also the members of the athletic society of the Church of the Immaculate Conception, are requested to meet at the church tomorrow morning at 8:30 o'clock for the purpose of attending the funeral services of Mrs. Russell.

The members of St. John's Episcopal church are requested to attend the meeting of the congregation which will be held in the church tomorrow evening (Friday) at 8 o'clock. Very important measures are to be discussed and a full representative attendance is necessary. The ladies of

the congregation, as well as the gentlemen, are expected to be present.

Henry Huning, of Show Low, Ariz., is in the city looking after his business interests.

"Dad" Greenleaf is exhibiting a very handsome rug, made from the hide of the large black bear which he slaughtered upon the Pecos, to his friends in the city.

Miss Nellie Taylor, who has been in the London conservatory of music for the past year, has returned to the city. Miss Taylor is a talented pianist and vocalist.

Mr. and Mrs. Martin S. Kellogg have returned to their home at Pueblo, Colo., after a pleasant visit with their daughters, Mrs. J. E. Elder and Mrs. Watson Downs.

Elias S. Garcia returned from Santa Fe last night. Mr. Garcia went to the capital to complete arrangements for the shipment of 10,000 sheep to Nebraska, where they will be wintered and marketed in the spring.

Two cars of non-commissioned officers, recently discharged from service in the Philippines, passed through the city on passenger train No. 8, last evening, en route to their homes in the east. They were mostly hospital men, whose service is being dispensed with. Many more will follow in a few days.

John H. Bearup has severed his connection with the Albuquerque Wool Scouring company. The business will be continued by James Wilkerson and V. P. Eadie. Mr. Bearup wishes to thank the public for the liberal patronage heretofore received by the company and solicits for the new firm a continuance of the same.

A. M. Detelbach, secretary of the New Mexico Fire association, writes President B. Ruppe, that it will be convenient to hold the annual convention of the association in Albuquerque, October 15. Mr. Ruppe is mailing invitations to all firemen of the territory, asking them to come and attend the convention and visit Albuquerque during her gala week.

Hon. Silas Alexander, of Socorro, is in the city.

Bert Adams, of Williams, Ariz., is in the city today.

H. Emfeldt, the advance agent of "A Chicago Tramp" company, is in the city.

Mr. and Mrs. Edward Grunfeld are spending the day visiting friends at Bernalillo.

Milton Dow, a merchant of Talique, was in the city buying his fall and winter goods.

Mack Kullerman, who visited Trinidad, Colo., and Clayton, N. M., has returned to the city.

Mr. and Mrs. Ralph Hill will entertain a few friends at their home, 602 South Edith street, tonight.

Phil Hartman, the North First street barber, who has been sick for a couple of weeks, is able to be at his shop again.

T. Y. Maynard and family, who have been visiting in southern California for the past month, are expected home tomorrow.

Harris, the First street shoe polisher, is quite a successful kodak fiend. He has on display at his place a fine batch of local views and scenes.

The Albuquerque guards will entertain at Orchestra hall tonight with dancing. The guards are good entertainers and a fine time is anticipated.

Mrs. H. Pisch, of Las Vegas, who has been spending a few days in the city visiting with Mrs. A. Singer, 418 East Railroad avenue, returned home this morning.

Mrs. Ralph Holloran, who has been spending the summer in California, returned to the city last evening. Mr. Holloran remained in Los Angeles for a few days.

A. Graves, a mining expert and manager of the Alma mines in Sonora county, Mexico, passed through the city this morning bound for Denver to buy mining machinery.

E. L. Patterson, a brother of D. S. Patterson, is here from Ash Fork, Ariz., where he is interested in the cattle raising business. He is on a purchasing mission, and will leave tonight for Deming.

Valentine Becker, the armless and legless man, is again in the city, coming here a few days ago from Los Angeles. He says he will remain in town until winter the first, and pay up some bills he has unpaid when he went to California a few months ago.

Hon. O. O. Bureau, superintendent of the territorial penitentiary at Santa Fe, accompanied by his wife and child, passed through the city yesterday morning bound for San Francisco. Mrs. Bureau and child have been spending the summer on the Pacific coast and Mr. Bureau went out last week to accompany them home.

A. E. Laine, who has been substituting as day clerk at the Alvarado during the absence of R. B. Mudge, who has been enjoying a month's vacation visiting at different eastern points, will leave this evening for Chicago, where he will enter the University of Chicago. Mr. Mudge is expected to return from the east this evening.

The funeral of the late Mrs. Margaret Crowley Russell was held this morning at the Church of the Immaculate Conception. Mrs. Russell was a very fine old lady and her friends were numerous. The funeral was largely attended. Her daughter, Mrs. McGowan, arrived from her home in Brookfield, Mo., last night. Mrs. Dougherty came up from El Paso before her mother died.

L. M. Johnson and wife, of Chicago, who have been spending a few days in the city, left this morning on their return home. Mr. Johnson is proprietor of a large photo specialty manufacturing institution located at 58-60 Wabash avenue, Chicago, and has been spending some time in the southwest securing pictures and views for his studio department.

## Will Do the Same for Every Woman.

### PAINE'S Celery Compound

Cures a Lady Who Was Told That Her Life Depended Upon a Surgical Operation.

The greatest misfortune of the present generation is that wives and mothers are so frequently unfitted for the duties of life and domestic enjoyment, by reason of broken down health and overtaxed systems. The duties of women of all ages are really more worrying and wearing than the troubles met with by men. Social, household, and often business cares press upon women very heavily. In this way the delicate nerves and sensitive organs become deranged, suffering ensues, and life becomes a burden that many carry to the grave.

For the special weaknesses to which women so often fall victims, medical science has provided Paine's Celery Compound. This famous medicine has specific powers for correcting the disorders of the female organism; it maintains health, gives strength, vivacity, and good looks, and imparts to the body the elasticity of girlhood. No other medicine can so quickly banish and permanently cure painful and obdurate feminine ills. M. S. L. S. Long, of Flint, Mich., says:

"For twenty-five years I have been a great sufferer from insomnia, never obtaining more than four nights' sleep in a week. For sixteen years life has been a burden to me because of prolapsus uteri, whose tortures no words can describe, and from which no physician gave me any hopes of relief except by an operation. I have also for years been troubled with rheumatism to such an extent in my right shoulder as to nearly disable me.

"Last February I was induced to try Paine's Celery Compound in hopes that relief from insomnia and rheumatism might be obtained. After using three bottles of the Compound, the rheumatism was better, I could sleep like a child, and, strangest of all, my uterine trouble was cured."

#### INVITED TO OHIO.

### An Earnest Request to Governor Otero to Take the Stump This Fall.

Governor Otero has received a most cordial invitation to make a number of speeches in Ohio during the present campaign. The letter of invitation was sent by General Charles Dick, who has for ten years been chairman of the republican executive committee of Ohio. General Dick is also a member of congress from that state and is secretary of the national republican executive committee. The letter was an urgent one and earnestly desired the governor's acceptance, but on account of his official duties in New Mexico and his interest in the success of the party in the territory, Governor Otero has decided that it will be best for him to decline and has sent a letter to that effect. The democracy of Ohio is making a hard fight this fall on account of the effect of the campaign on the presidential ambitions of Tom Johnson, who is the leading spirit. The republicans will make a short and sharp campaign.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for consumption, cough and colds, W. H. Brown, of Louisville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at all drug stores.

#### Neil vs. Jackson.

San Francisco, Cal., Sept. 26.—At Neil, the local welterweight, and "Young Peter Jackson," the Baltimore colored fighter, have completed their work of preparation and appear to be in fine fettle for their twenty-round go which is scheduled to be pulled off here tonight. Neil is in splendid form and expresses confidence in his ability to defeat the colored man. The two will weigh in at the ringside at 150 pounds.

#### A Parson's Noble Act.

"I want all the world to know," writes Rev. C. J. Budlong, of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in liver, kidney and stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction is guaranteed by all druggists.

#### Virginia's Foot Ball Outlook.

Charlottesville, Va., Sept. 26.—The University of Virginia foot ball team lined up here this afternoon for its first game of the season, the opposing eleven being that of Washington and Lee university. The Virginia squad consists of good material and a bright outlook exists for a successful season. Games are scheduled with Lehigh, North Carolina and the Carlisle Indians, and it is probable that Princeton

and Pennsylvania also will be met if satisfactory dates can be arranged.

#### A Sad Disappointment.

Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. B. H. Briggs & Co. and J. H. O'Reilly & Co.

### DISTRICT COURT.

On yesterday the court tried the case of W. F. Maier & Co. against Alphonse Simpler, a suit in which plaintiffs claimed \$180 and interest on account of the sale of certain lot of jewelry. The defendant alleged fraud, in that the goods were not as represented and introduced several expert jewelers, who testified that under the tests given the articles contained no gold whatever and were shoddy of the worst class. The contract, however, provided that if the goods were not satisfactory they should be returned and would be made satisfactory. This provision was not heeded by the defendant, he merely holding the goods and refusing to pay for them, and the court held that since the defendant had not exhausted the warranty in the contract, the plea of fraud could not stand, and rendered judgment for \$180 and interest.

This morning the court called the Bernalillo county criminal docket.

James Elder, indicted for obtaining watches by false pretense, pleaded not guilty and Mr. Stingle was appointed to defend. Set for October 6.

Robert Burg, Joseph Koons and William Kirsch, indicted for larceny of three Eastman kodaks from a Santa Fe passenger train, were arranged and pleaded not guilty. Defendants represented by Mr. Heacock, and case set for October 4.

Joseph K. Platero, charged with defacing a brand, defendant pleaded not guilty, and set for trial on September 29.

Frank Davis, charged under four indictments with larceny from warehouse of William Kempenich; larceny from warehouse of H. E. L. Washburn & Co.; larceny from shop of Mandell & Grunfeld. Pleading not guilty on all charges. Messrs. Reynolds and Heacock appointed to defend.

The case of the Territory vs. Juan Armijo Estamado Sals and Francisco Gonzalez y Molina, charged with murder of Placido Salazar at Bareales, was called, and on request of defendant's counsel, arraignment of defendants was postponed.

W. A. Anderson, charged with attempt to commit the crime of rape upon one Lucia Garcia, pleaded not guilty and cause was set for trial on September 29. The defendant is represented by Mr. Heacock.

Benjamin Frokes, charged with assault with a deadly weapon, pleaded not guilty and cause was set for trial on October 3. Mr. Heacock appears for defendant.

Adolf Gutierrez, indicted on the charge of assault with intent to kill, pleaded not guilty and case set for trial on Wednesday of next week.

Territory vs. Federico Garcia, charged with murder, on change of venue from Santa Fe county. Plea of not guilty. Defendant represented by Mr. Heacock.

Territory vs. J. Hildebrand, indicted for practicing medicine without license. Pleading not guilty and case set for trial.

Territory vs. James A. Brown, charged with assault to commit murder. Defendant pleads not guilty and cause set for trial on October 7. Defendant represented by William B. Childers.

The territorial grand jury, discharged yesterday afternoon, brought in a batch of indictments. Mrs. William G. Smith was indicted for arson; S. Jaramillo for horse stealing, and Jose Vidal Miera for changing brand.

### THE ALBUQUERQUE EAGLES.

The Eagles, those birds that, on account of their superior qualities are the pride of everyone, yes, even themselves, dropped down from their lofty height and made the Knights of Eitha hall a place of activity last evening.

At first they caused some excitement, but when it was learned that it was "The Eagles" everyone was satisfied that as long as they remained on the outside all would be well with them.

All the excitement was caused by ten Eagles getting trimmed and placed in readiness for high soaring, and the old weathered birds were doing all the trimming.

With Eagles like Dr. Wolvin administering large sized doses of all kinds of bitter medicine, weighted down by Al Coleman and the rest of them on top, Judge Loughery and Attorney Ackerman dishing out law and order, supported by Frank Kirster, Ben Bothe, Frank Valo, Ed Meyers and Charley Melini, with J. B. McManus as "the leading man," of course the show was a grand success.

The new members after acting and being acted upon were none the worse after a banquet, which all did justice to.

Among the important business brought up for consideration was a float for the fair. There is no doubt that the Eagles will have something worth seeing. They have promised to do some very high flying in the parade.

## "BREAKING HOME TIES"

BY REV. WILLIAMS

The drummer preacher was greeted by another large congregation last night to hear him on "Breaking Home Ties." This subject was suggested to Mr. Williams by a picture by the same name that was at the World's fair at Chicago. It was one of the three pictures that took the premium. The picture represented a country boy leaving home for the first time. The evangelist was at his best and no talk has been given that took hold of the congregation like this one. Thirty-two asked for prayer.

"I pity the boy or girl who goes out into this world without the recollection of a home where the Bible was opened at least once a day and the children gathered around the old fireside to pray. The boy or girl may grow wild and even be disciplined, but like the chicken, will come home to roost and take such a mother's God for their God. To Adam Paradise was home. God wants every man a paradise. Whether it be the brown stone front the Kansas dug out or the Mexican adobe.

"Family and home were among the first things created by God. Earlier than the church or state. Home makes the church. The church makes the state. Home wrong, church wrong, the state is sure to be wrong. The great questions which touch our very life as a nation can only and must be settled in our home life if settled at all. Nothing will take the place of home training.

#### Woman's Missionary Power.

"The progress of the missionary was slow until our women went to the heathen world with the sewing machine, cook book, medicine case, and open Bible, and got at the home life of the people. In the reform life of today we must get at the home life of our people. On our home training rests the responsibility of church and state. The English home is pure, but the real American home is one robbed of its sober aspects and drinking is customary around the table and fireside."

He told of his own home life. From his mother he received his first drink of beer. She did not see her mistake until it was too late. "She unconsciously placed me under the penalty of the word of God: 'The sins of the fathers and mothers shall be visited upon the children to the third and fourth generation.'"

"Parents, if you have the decanter on the sideboard, or intoxicants for luncheon, you are laying the foundation for a drunkard's life for every drink you give your children. You will pay for it in midnight watching and bitter scalding tears. Spurn this habit of social fireside drinking as you would a deadly viper, for at last it biteth like a serpent.

"There are no friends like the friends of the fireside. The mother may be ignorant. The father not able to work out a problem in algebra, but if you will listen to them you will never go very far wrong." He spoke of being turned out of school when a boy; said he never knew what it meant to father and mother until his own boy came home with his books under his arm, turned out of school. Boys, if you only knew the anxiety of the old folks at home you would never do wrong.

"The farther you get away from the old home the more you will miss it. You may have one richer in its furnishings, but you will never have one like this one you have now. In the years to come you will look to it with a longing, burning desire. Very many of the men who blaze on the pages of history come from humble Christian homes. Lincoln from the rail pile, Grant from a tannery, Garfield from a tow path. Behind the rail pile, the tannery and tow path were mothers with open Bibles with their boys at their knees.

"When God wanted to give the world a Savior He went by the pump and glitter and went to the humble carpenter's home for the King of kings.

#### Keep the Boys at Home.

"Mothers, you have in the open Bible and boy at your knees the material that God wishes to bless and honor. Don't have a room too nice for the boy to play in. When you drive him from your home you drive him into the street and the next you hear he is sucking a cigarette and the butt end of a billiard cue. Do you want every business man your friend and every home in the city to give you a glad welcome? Get the name of being polite and kind to the old folks. God puts a premium of long life on the boy or girl that will do this. Parents, enter into the amusements of home with your children. It makes a difference in the attraction of the game when father and mother play. A boy will dig fish worms for a week when father is going with him fishing.

"That young man in society whose dress is faultless, manners perfect, who thinks him a gentleman. He is not; he is a brute in disguise, for he is cross as a bear at home. That girl—the boys think she is an angel. She is not. She has no wings, not even a fine feather. I wish you could see her at home in one of her spells, when poor exhausted mother asks her to wash the dishes. I wish you could see her with one of her fits, for she has them.

#### Mother's Love is Best.

"Boys and girls, don't get too big to kiss mother. If you do not love her you let the devil get between you and mother. The devil cannot use material that keeps right on kissing mother. If I had a chance tonight I would give

my mother a smack you could hear all over this hall."

He closed with a beautiful picture of the old home with the family altar and open Bible, and said that was the price God had laid on the salvation of your homes. You must pay it or lose your children, church and state.

Tonight will be Rev. Williams' last night. Subject "The Last Romp With the Tiger." This is a chapter from his experience and is the one lecture that has given the evangelist what national reputation he has.

He, with his good wife, will go from here to Santa Fe. Next Sabbath he begins a nine days' gospel temperance meeting in Las Vegas with a pledge, under the auspices of the W. C. T. U. The meeting in Las Vegas will be in the Baptist church. From Las Vegas they go to Kansas.

#### Dance at Commercial Club.

The social and entertaining members of the Commercial club could not wait until fair week to begin the winter's festivities, and as a consequence of their restlessness gave a very enjoyable informal dance at their quarters last night. An unusually delightful feature of the evening was the presence of the new ping pong tables, which the club recently purchased. Ping pong is a most pleasant indoor pastime and the wily balls of the Commercial club set will help while away the long evenings of the coming winter. Those present last night were:

Messrs. and Mesdames O. A. Matson, John Douglas Walker, M. Mandell; Mesdames Mabel Stevens-Himor, E. L. Medler, Robert Schaefer, K. Mandell, Saint, Misses Edith Stevens, Elizabeth Willey, Norah Sterry, Mabel Fitch, Florence Field, Nell Flournoy, Frank, Irene Saint, Brunella Mandell; Messrs. Sam Picard, Fred Newman, Maynard Gunsul, H. F. Reynolds, E. J. Alger, L. Brooks, R. A. Frost, Harry Weiller, T. N. Wilkerson.

#### SO SOOTHING.

Its Influence Has Been Felt by So Many Albuquerque Readers.

The soothing influence of relief After suffering from itching piles From eczema or any itchininess of the skin

Makes one feel grateful to the remedy Doan's Ointment has soothed hundreds

Here's what one Albuquerque citizen says:

A. M. Whitcomb, nursery, corner of Eighth and Tijeras streets, says: "In my estimation there is no ointment for the purposes it is used that can equal Doan's. There was a spot just below my knee which annoyed me for ten years. Unlike eczema it did not spread but at times it itched so exasperatingly particularly after I went to bed or sat by the stove, that I scratched it until it smarted before relief came. I tried every salve and ointment I came across, when one did not help I bought another and slapped it on. Reading about Doan's Ointment induced me to go to the Albuquerque Pharmacy and pay four bits for a box. In a few days the itching ceased and the life of the part affected was killed for up to date, and it is now over six months since I stopped the use of the salve there has not been a symptom of its reappearance."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

#### Good Words for Rodey.

There is no question so vital to New Mexico at the present time as statehood. The man that can do more to advance that cause, in the position of delegate, is one named R. Rodey. Rodey should be continued in his present place. Prejudices and jealousies within the territory should not be allowed to affect the question. They can be attended to later.—Las Cruces Progress.

Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. Sold by Alvarado Pharmacy.

#### Here to Stay.

Organized labor has come to stay. It has as much right to organize as capital has, and has as much right to take measures to protect itself. This does not necessarily mean a conflict, but an adjustment of matters, so that the laborer who is worthy of his hire will get it.

W. A. Bissell, general superintendent of passenger traffic of the coast lines, with headquarters at San Francisco, passed through the city this morning accompanied by a party of friends en route to Chicago. They traveled in private car No. 29 attached to passenger No. 2.

## THE SURE WAY

to prevent pneumonia and consumption is to cure your cold when it first appears. Acker's English Remedy will stop the cough in a night, and drive the cold out of your system. Always a quick and sure cure for asthma, bronchitis and all throat and lung troubles. If it does not satisfy you the druggist will refund your money. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co. and B. H. Briggs & Co.

## SERIOUSLY INJURED.

Conductor David Null Sustains a Fractured Skull.

Another sad accident has been recorded in the railway history of Winslow as a result of freight train breaking in two, says the Mail.

About 5:30 o'clock last Sunday afternoon as the freight train in charge of Conductor David Null was slowly ascending a heavy grade near Clinker Pit the conductor climbed over the caboose and started to get down into the flat car ahead. Just at that moment the break in the train occurred and the rear section came to a sudden stop, throwing him head first into the car. Mr. Null struck heavily, sustaining a serious fracture of the skull. He was brought to Winslow on No. 2 in an unconscious condition and tenderly carried to his home. Up to this morning he had not fully recovered consciousness and his condition is considered very serious. He is receiving the best of care, a trained nurse and devoted wife being in constant attendance. If his condition warrants it, Mr. Null will be taken to the Los Angeles hospital tomorrow. Great sympathy is expressed around town for the family in distress.

## BETTER FILE ON YOUR LAND.

Movement on Foot to Include All of Gila River Country Not So Included, in the Gila Forest Reserve.

There is a movement on foot to set aside townships 16 to 20, range 17 west to 21 west in the western part of Grant county, as a part of the Gila forest reserve, says the Enterprise. It would be a relief for all those who reside in this section or who are intending to make homestead filings, to do so at once. The portion included in this movement takes in all of the lower and middle Gila country clear out to the middle of the Lordsburg or Gila plains, in fact all of the Gila country not already included in the reserve. It would be well also for those who have lived on their homesteads five years and have not made final entry, to do so at once, in view of the foregoing circumstances.

## Left Town Gaily Decorated.

The advertising car of the Territorial Fair association, under the command of Scott Knight, has paid us a visit and left the town gaily decorated with handsome posters telling of the many attractions to be presented to the public at the fair which opens at Albuquerque on the 14th of October. There is a promise of the finest trotting and ball playing ever seen in the southwest, and from the amount of effort and money that the association is expending in arranging these features we have no doubt the promise will be made good. The street attractions, which are to be free to everyone, will constitute a good show in themselves during the whole week. Great preparations are being made for an elaborate pageant representing the coming of Montezuma, a big military force, headed by General Funston and his staff will parade, there will be war dances by 200 Navajo Indians, brilliant fireworks and a hundred other attractions to interest the people. Taken as a whole the fair will be well worth going to see.—Raton Reporter.

## Snide Company Stranded.

The Beth Haskins combination made a Clifton trip, and then gently, but easily, died. The cause of death being exhaustion from lack of nourishment, or in other words, there were not found enough suckers who would buy tickets. Manager Craig had paid in advance for transporting the scenery car to Phoenix, and in consideration of this payment the railroad hauled the car back to El Paso for him. He left his actors pretty well busted, owing them several weeks wages. Some of them managed to flit on passing freight trains, and there was a great anxiety among others to find out how long it would take to walk to Broomfield, Mo.—Lordsburg Liberal.

## Urged to Attend Firemen's Convention

At the smoker given last evening at Firemen's hall, tendered by the local company to the visiting firemen who were in the city attending the grand lodge of Knights of Pythias, there were from twelve to fifteen visitors present. B. Ruppe, ex-chief of the Albuquerque fire company, and president of the New Mexico Firemen's association, delivered a nice impromptu address, as did also W. W. Klason, of Gallup. Both urged a full attendance of all firemen upon the convention of New Mexico Firemen's association which meets at Albuquerque, October 15.—New Mexican.

Someone (presumably a boy or boys) broke into Shaw & Co.'s store last night and after rummaging around finally got away with some tobacco, cigars, 200 pennies and probably some bread tickets and other small items. They evidently entered and left through a broken glass in the side door.—Range.

## Race With Death.

Mrs. Roudert, wife of the station agent at Whitewater was taken back to her old Kentucky home near Louisville, Tuesday evening, in charge of Dr. S. Meredith Strong, of Silver City. The young woman is a bride of but a month and the husband brought her west as soon as the marriage ceremony was performed in the hope that the fair young life might be prolonged for several years. But the insidious disease had secured too strong a hold upon her system and as soon as it became known that her case was hopeless, it was the desire of the husband that she be taken to her old home, where she could pass the few remaining days amid the scenes of her childhood, surrounded by loving friends.

## SCHOOL GIRLS.

'Tis a pretty age—that time in a girl's life when she has all the beauties of womanhood without the later lines of care and worry.

But here and there even among school girls appear pale and drawn faces.

Pale blood is at the bottom of the trouble and Scott's Emulsion can cure it.

Scott's Emulsion brings back the beauty to pale girls because it is blood food.

SCOTT & BOWNE, Chemists, 408 Pearl St., N. Y.

## EVANGELIST WILLIAMS.

He Held Forth at Lead Avenue Methodist Church Last Night.

Evangelist Williams held an interesting meeting at Lead Avenue Methodist Episcopal church last night. He speaks three times there tomorrow: 11 a. m., "No Room for Jesus"; 3 p. m., kindergarten sermon to children, "The First Start"; 7:30 p. m., "The Young Man and His Company."

If the interest in the meetings warrant it Mr. Williams will stay with this church until next Wednesday night.

We give below some of the evangelist's sayings:

"There are two things a man can not stand who drinks rum—prosperity and adversity. If he has prosperity he celebrates; if adversity he drowns his sorrows."

"I would just as leave try for a position with my nose as red as a turkey gobbler's from rum blossoms as to apply with my fingers yellow from the cigarette. I took the Calvary cure on top of the Keeley cure."

"I did not have time to attend to business; I was too busy going from one saloon to another."

"The only thing that ever came between me and success was drink. Without it I succeed, with it I go all to pieces."

"I think the man behind the bar should wave a red card instead of white dyed red in the blood of the victims of the whiskey business. The diamonds on the shirt front of the man behind the bar look to me to be as large as a headlight on an engine. When we stop to think what has gone into it it is a wonder it don't strike blindness to us on the outside of the bar."

"Girls, before I would marry a man to reform him I would get a cat and raise kittens all my life. You will have a better job than raising babies for drunkards."

"Good line of promotion go close by mother's knee and our open Bible. Close his book in your home and take your boy out of line of God's promotion."

"When I had money, everybody had money. It was Williams have something. When I was busted everybody else was busted."

"This old world is cold to a man that is down and colder than Greenland to a woman that's down. If this old world had any response in it Christ would have loved it to death long ago."

"We give a man two or three chances, but only give a woman one. God gives us the last chance. Church member, you may need it on the line of drink, but if you see the inside of heaven you will use up several chances. Don't be so selfish and use up so many chances and give so few to the fallen man and woman."

"I pray for God to save every man who sells rum and all who drink it, but to hasten the day when he will wipe the saloon from off the face of the earth."

The Pennsylvania Railroad company announces a new system of tracing the detention of passenger trains and for keeping a record of the same. The system is to be of great value to engineers. Passenger detention sheets as furnished by the average operating office are extremely meager as to detail. They also lack in originality and have not served as permanent passenger records. By means of the new detention records it will be easy to determine the cause of trouble at any place.

## PENNSYLVANIA'S RECORD.

Places an Order for Three Hundred Locomotives.

Records for equipment orders were broken by the Pennsylvania company when its management placed orders for the manufacture and delivery of 300 engines during the next twelve months. So many large single orders for equipment and power have been given by both western and eastern railroads during the last three years that they no longer attract general attention. The Pennsylvania's order, however, is phenomenally large and all the more remarkable from the fact that other large orders for power have been given by the company during the last eighteen months. It is also a remarkable fact that 260 of the engines will be built in the Altoona shops of the Pennsylvania company and only one-third of the order has been placed with outside companies.

## New in Rubber Business.

C. W. Rickard, who used to pilot a pusher up the Raton mountain but is now running a rubber plantation in the southern part of Old Mexico, is at Raton on a visit to old friends.

## RAILROAD NOTES.

Pennsylvania produced a million and a half tons of steel rails last year.

Trainmaster E. J. Gibson came in from Winslow Saturday night and spent Sunday in the city.

A union depot is to be built in El Paso. The Rock Island, it is said, is the principal road interested.

Nebraska roads say that the movement of grain and corn has begun and that it will be the heaviest in years.

The Postal Telegraph company has been granted by the courts a right-of-way in Montana along the Oregon Short Line.

Harry Chapman, the brakeman who made two trips on the local freight, has returned to the passenger service in that capacity.

The Chicago Great Western has opened its line from Fort Dodge to Summer, the first in the extension from Fort Dodge to Omaha.

Every private car line is to be taxed for operating cars in Kentucky. Can Kentucky hope to rival Texas in putting the screws on railroads?

The Chicago roads announced a \$50 round trip rate from Chicago to Los Angeles for the Presbyterian general assembly, May 21 to June 1 next.

Notice is given that a meeting of mechanical men of the Santa Fe will be held in this city tomorrow. Superintendent Henderson will preside.

A man who has defrauded railroads by false claims was convicted in the federal court in Quincy, Ill., recently. And by the Omaha & Quincy road, too.

In the Mexican Central's line from Tuxpan to Colima, forty-five miles, there will be thirteen tunnels and seventeen bridges. The cost of building the road will be \$2,500,000.

The Burlington bought the coal rights under 41,000 acres of lands in Illinois. The Burlington has no line within fifty miles of the land, but it is expected it will build to it.

S. T. Park, who recently resigned as master mechanic of the Santa Fe shops at San Bernardino, passed through the city Saturday evening en route east. He was accompanied by his family.

The Nebraska supreme court has before it reports of the referees in the suit to compel the Union Pacific to pay the state \$650,000 for alleged violations of the state maximum freight law.

R. L. McCance, the energetic and pushing treasurer of the Pennsylvania Development company, spent a few days during the past week in Denver, returning to Santa Fe on last Saturday.

Russell Barber, assistant clerk in the office of Superintendent of Motive Power Henderson, passed through the city yesterday en route to Los Angeles, where his wife has been spending the summer.

It is announced that Master Mechanic Patterson will leave the first of October for Oregon, where he has a better position. No one has been mentioned as yet to take his place.—Raton Range.

M. McKenzie, who was here on business, has just arrived at Farmington, and reports to the Hustler that he passed a railroad surveying crew at work near the Torione, headed toward Farmington.

Senator W. H. Andrews, president of the Albuquerque Eastern and Santa Fe Central railways, is in Sierra county, where he will remain a day or two on business in connection with his extensive mining interests near that camp.

Mrs. J. L. Sheets and children left Saturday night for San Bernardino, where they will join Mr. Sheets, who is working as millwright in the Santa Fe Pacific shops at that place. Mr. Sheets was at one time employed in the local shops.

Passenger rate clerks will meet in St. Louis, October 8, to line up the Colorado rate sheet from Memphis, the action being made necessary by the opening of the Colorado-Memphis route by the Choctaw and Colorado & Southern.

The Optic says: Mrs. Cora Archibald, wife of the careful and polite locomotive engineer, who doesn't know what it is to ditch a train of cars, will take a foreign trip, starting next week, and visiting Scotland and Ireland in her peregrinations.

J. M. Campbell, for eleven years head of the advertising department of Burlington lines west of the Missouri river, has been made head of the advertising department of the Rock Island. The immigration bureau has been added to this department.

George W. Vallery, of Denver, general agent of the Burlington, who returned recently from a hunting trip to Montana, says that there is sufficient cattle in that country to keep the roads busy hauling freight cars for years to come. "One man has more than 75,000."

One of the largest, if not the largest, single railroad contract ever let in Mexico has just been let to Contractors Hampson & Smith by the Mexican Central. The line will extend from Tuxpan to Colima, seventy-three kilometers distance, and is a part of the Central's new branch to the Pacific coast. The contractors took the job for \$2,500,000.

Mrs. George E. Roe and children are now comfortably quartered at their home in El Paso. Mr. Roe meeting them on their homeward journey at Las Vegas. The family had been spending the summer in New York state. Mr. Roe has the largest division in the Santa Fe system, his territory extending from El Paso to the Colorado line on the north, to the Pecos on the east, to the City of Mexico on the south, and to the California state line on the west. In the southern part of this immense field; W. R. Brown, traveling freight and

## Narrow Chests

The old theory that consumption was inherited is utterly discredited by modern medical science. The germs of consumption must be received from without. These germs are everywhere. They are constantly being received and cast out by the healthy system.

It is the narrow chested, whose inheritance is weakness, who fall a prey to consumption because they are too weak of lung to resist and throw off disease. Doctor Pierce's Golden Medical Discovery makes weak lungs strong. It cures obstinate deep-seated coughs, bleeding lungs, weakness, emaciation, and other conditions which if neglected or unsifted find a fatal termination in consumption.

"In the spring of 1901 I was taken with hemorrhage of the lungs, and became very weak and short of breath, lost flesh and had no appetite," writes Mr. E. L. Robinson, of Peoria, Ill. "I was persuaded to try Dr. Pierce's Golden Medical Discovery. The first few bottles seemed to do me but little good. I thought I was a victim of that dreaded disease, consumption, of which several of my family died. Had almost given up in despair when friends persuaded me to give your 'Golden Medical Discovery' a fair trial. I commenced its use again and in a short time was feeling better. I continued its use until I had taken sixteen bottles. I weigh 160 pounds now, and when I commenced I only weighed 110. If any one doubts this statement I will be pleased to answer any inquiry."

Accept no substitute for "Golden Medical Discovery." Nothing "just as good."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

passenger agent, is Mr. Roe's assistant.

H. J. Franklin, claim agent of the Santa Fe coast lines, was in Winslow on business connected with his department.

Brakeman Searecy, who was recently employed on the clinder train, has accepted a position on the platform at Ash Fork.

W. S. Hopewell, vice president of the Albuquerque Eastern and Santa Fe Central railways, is in the southern section of the territory.

Santa Fe engines are being equipped with electric headlights. Nos. 484 and 421 are now in the Winslow shops being fitted up in this manner.

The Santa Fe has done a grand work in furnishing rock to strengthen the river bank at Holbrook. Eight cars more are to be delivered, which will make fifty cars in all.

Brakeman Fred Hughes, who sustained a severe injury to his right hand while working at Dennis last week, was brought to the Albuquerque hospital for further treatment.

E. R. Vaughn, the operator at the Grand Canyon, was brought to his home at Winslow last Tuesday night, suffering from an attack of typhoid fever. It is hoped that he will soon recover.

The Citizen has received the booklet of the Santa Fe railway on "The Alvarado" hotel and surroundings. It has just been issued by the advertising department of the company and it is a gem in every particular.

Thos. Caughlan and wife, from Topeka, and the former's brother, James Caughlan, of El Paso, have gone to southern California. They are railway employees—the former a machinist, and the latter a traveling auditor.

Jerry Quinn, passenger conductor, informs The Citizen that his wife is getting along so satisfactorily at a Kansas City hospital that she now expects to be able to return to her home in Las Vegas in a week or ten days.

The Needles Eye says: J. Fred Fleisher, for the past several months an employee in the office of Superintendent John Donahy, left hurriedly on Wednesday evening, supposedly for Chicago. Mr. Fleisher had considerable trouble in getting away, but finally "squared" himself without the use of thumb screws.

One of the grading camps of the Santa Fe Central railway is located about a mile southwest of the government Indian school at Santa Fe and another camp will be moved from Arroyo Honda towards that town during this week. Work on the grade is progressing very satisfactorily in every respect.

T. B. S. Brasted, who has been an energetic general agent for the Rock Island in El Paso, Texas, since that city established an office in that city, has tendered his resignation, to take effect the first of October. He is to be southwestern representative of the Mexican Gulf, Coal & Transportation company. This company has extensive coal properties at Howe, Indian Territory, and headquarters in St. Louis.

The Las Vegas Optic says: It is hoped by those most immediately concerned that the ruling of Trainmaster J. D. Notgrass, of Las Vegas, that when trainmen on this division of the Santa Fe take a lay off or is given one on any account the oldest extra man in point of service shall take his place during the period of absence, will be sustained by those higher in power than the trainmaster. If an appeal is taken from his decision in this matter of moment to many local railroaders, ambitious and deserving.

## Venerable Father Gay.

In the absence of Rev. W. R. Dye, Father Gay will have charge of the services at the Church of the Holy Faith on Sunday morning next, and as that day will be Mr. Gay's 89th birthday, a memorial and somewhat reminiscent discourse may be expected.—New Mexican.

## RAILROAD NOTES.

Western lines are considering a series of fall shopping excursions.

The Santa Fe has finished the foundation for its new freight house in Pueblo.

Gould is said to be back of the Coos Bay road, extending from Salt Lake to Portland.

George Gould said yesterday that the Missouri Pacific had bought the St. Louis Valley, extended from St. Louis 125 miles down the Mississippi valley.

Eastern financial papers speak highly of the annual report of the Colorado & Southern and contrast it with the reports of the same road a few years ago.

The Rock Island, by building from Amarillo to a point on the El Paso line, is said to contemplate a trunk line between Memphis, St. Louis and Kansas City to the Pacific coast.

Charles Mudge, son of the Santa Fe's general manager, who had been for a week or so camping and fishing on the Pecos, has left for Topeka with his party, on Santa Fe private car 212.

R. S. Wickershaw, engineer of tests on the Santa Fe coast lines, passed through the city yesterday en route home to Los Angeles from Chicago, where he has been enjoying a month's vacation.

Fred W. Lewis and Walter L. Harper, two brakemen on the Kansas City Southern road, have invented and patented an apparatus for signaling trains from the rear, and for their franchise will receive a quarter of a million dollars.

Frank Jensen, for the last thirteen years a Santa Fe tinner, and inventor of the Benson switch lamp which is being handled by all the leading lines of the country, has left Topeka for Kent, Ohio, with his family, where he will live in the future.

H. M. Foster, of New York, is a new man at Flagstaff, Ariz., where he will act as lumber inspector for the Santa Fe, under General Storekeeper N. M. Rice. Flagstaff is a great lumber point, and the Santa Fe gets a great deal of its material there.

Engineer William Schultz, wife and child, were passengers for Curtis, Wis. Mr. Schultz formerly ran out of Las Vegas and was elected a member of the legislature from San Miguel county, but he is now running on the Santa Fe branch. He has thirty days' leave of absence.

It is understood that Fred Gilyeat, who used to have a clerkship under division Superintendent McLellan, but who returned to Topeka only a few days ago from Las Vegas, N. M., where he has been timekeeper, is to become timekeeper on the Rock Island in the office of Superintendent Jones, of Topeka.

Grant Bros. have been awarded the contract for grading the San Pedro, Los Angeles and Salt Lake railroad from Ontario to Riverside, about twenty miles. Grading is expected to be completed into Riverside before January 1, when the Clark road will have in operation approximately about seventy-five miles of its main line. The estimated cost of the new work will be between \$75,000 and \$100,000. As soon as the line is completed to Riverside contracts for construction across the mountains will be let.

The Best Prescription for Malaria. Chills and fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure; no pay. Price, 50c.

## PHILO RUMSEY.

The Old Hotelkeeper of Santa Fe Dead in Omaha.

Word was received at Santa Fe yesterday from Omaha that Philo Rumsey, for fifteen years a resident of the capital, died in that town a few days ago of natural infirmities and old age. He is survived by a widow, a daughter and a son, who are all well known in New Mexico. He was the first manager of the Palace hotel, Santa Fe, and managed that well known hostelry during his residence there. Before going to Santa Fe he owned hotels in several eastern cities and Omaha, Neb. He was one of the best known and most successful hotel managers in the country. He was a man of sterling honesty, strong individuality and was respected by all those who knew him. He was gathered in by the grim reaper after having completed four score years. The remains were interred in the family vault in Omaha, his home city.

## Uncle Sam on Watch.

Uncle Sam, in the person of ten of his government officials, has charge of every Department of the Hayner distillery. During the entire process of distillation, after the whisky is stored in their warehouses, during the seven years it remains there, from the very grain they buy to the whisky you get, Uncle Sam is constantly on the watch to see that everything is all right. They dare not take a gallon of their own whisky from their own warehouse unless he says it's all right. And when he does say so, that whisky goes direct to you, with all its original richness and flavor, carrying a United States registered distiller's guarantee of purity and age, and saving you the dealers' big profits. If you use whisky, either medicinally or otherwise, you should read the offer of The Hayner Distilling company elsewhere in this paper.

## A Las Vegas Lady.

The young lady who caused two hearts to almost break and an attempt at suicide in this city, some time ago, subsequently marrying here, to a young man from Illinois, is said to have ruthlessly deserted him somewhere in Kansas, presumably going off with a hand-some and richer fellow.—Optic.

## A Wife Says:

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of Mother's Friend before our last child came, which is a strong, fat and healthy boy, doing my housework up to within two hours of birth, and suffered but a few hard pains. This liniment is the greatest remedy ever made."

## Mother's Friend

will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. Mother's Friend equips the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in perfect condition for the final hour, so that the actual labor is short and practically painless. Danger of rising or hard breaths is altogether avoided, and recovery is merely a matter of a few days.

Druggists sell Mother's Friend for 25c a bottle. The Bradford Regulator Co., Atlanta, Ga. Send for our free illustrated book.

## WANT EXPERIENCED MEN.

Transferring Engineers and Firemen From California to Texas.

A request was received at the Santa Fe shop office in San Bernardino recently from Superintendent of Motive Power Henderson, asking for six engineers and twelve firemen to take places on oil burning engines on the company's Gulf line in Texas.

Bulletins were at once posted by the division master mechanic soliciting men to fill the request, and the following offering their services: Engineers F. J. Harall, A. Herton and George Dornance, and Firemen T. R. Bolan and Fred Worthington. Several others offered to go, providing they would be allowed to return to San Bernardino if the new position proved distasteful to them. For the benefit of these a telegram was sent to Mr. Henderson, asking that men be allowed to go to the Gulf line on a ninety-day leave of absence, which would of course give them the alternative of remaining or returning home. By men who have been located in Texas the offer is looked upon as a good one. The pay is better on the Gulf division than San Bernardino and living is considerably less expensive.

The Santa Fe has but lately introduced oil-burning engines on that portion of its system, and must have experienced men to handle them, who will in turn have students under them whom they will instruct in the art of "stoking" an atomizer. It is said that California, more correctly southern California, is the only place where the necessary men for teachers can be secured.

## Stops the Cough and Works Off the Cold.

Laxative Bromo Quinine Tablets cure a cold in one day. No cure; no pay. Price, 25c.

The Santa Fe has published a pretty booklet advertising the Alvarado, portraying both the interior and exterior of that handsome hostelry. Attractive cuts of the different departments from the bedrooms to the kiosk or curio bazaar, accompany the portrayals. The whole volume is gotten up with such good style and taste that it is sure to make an impression wherever it circulates.

## A TERRIFIC EXPLOSION.

One Man Killed and Several Others Hurt on the Bisbee Road.

A terrible accident occurred at the tunnel now being constructed for the El Paso & Southeastern railway, by Orman & Crook, just beyond the Rio Grande, in New Mexico, by which Jesus Hernandez, aged 24, and a native of Mexico, lost his life, says the El Paso Herald. The injured man was brought in to Hotel Dieu and everything done for his relief, but he was so badly injured that he soon died.

Three other laborers were hurt in the accident, but they are doing nicely in Hotel Dieu and hopes are had for their speedy recovery.

The accident was caused by the premature explosion of a blast being put in the rock. Ninety-eight sticks of dynamite were exploded.

The foreman who had charge of the work says he can give no reason why the explosion occurred. There were three or four other persons blown up by the terrific explosion, but other than being badly scared they were not hurt.

The late Engineer George R. Rose, who met death on the Whitewater branch of the Santa Fe in Grant county, N. M., was insured in the Brotherhood of Locomotive Engineers and the New York Life for \$5,000. His widow has gone to Topeka, Kan., to effect a settlement with the railroad company.

*E. W. Grove*  
This signature is on every box of the genuine Laxative Bromo Quinine Tablets. The remedy that cures a cold in one day.

## TO THE PACIFIC.

Work will Begin at Once on the Link in Rock Island Extension.

Within twenty days grading gangs will be at work on the line of the Phoenix & Eastern railroad to run from Phoenix to Benson. President Murphy is now at Phoenix and was waited upon by a representative body of business men, who pledged themselves that if he would proceed with construction they would guarantee the right of way to be forthcoming in due time. The arrangement was satisfactory and President Murphy announced his willingness to proceed. Chief Engineer W. A. Wrake stated that it would take possibly twenty days to let contracts and inaugurate the work of grading. With the building of this line to Benson connection will be made with El Paso and the southwest, a part of the Rock Island system, and it is generally believed that in a short time the line will be extended from Phoenix to the coast.

## Mechanics to Meet in Albuquerque.

All the leading mechanical men on the Santa Fe system will meet at Albuquerque next Tuesday for a discussion of topics relating to the operation of locomotives, lubrication and kindred subjects. Superintendent of Motive Power Henderson will probably preside, and the gathering is a special one outside of the usual meetings of master mechanics which will be held. The mechanical superintendents and all the leading division master mechanics will be in attendance.

## May Colonize the Boers.

Wesley Merritt, industrial commissioner for the Santa Fe, has been touring the southwestern country through which the Santa Fe runs with a possible view of locating a number of Boers from South Africa here. He is showing General Pierson, who is a representative of the Boers of the Transvaal, South Africa, the different sections of country through which the Santa Fe road passes, with a view of future colonization with farmers from the Boer country. General Pierson will report the result of his observation to his people in South Africa, and it is a foregone conclusion that the Pecos valley will receive his commendation, as all who live in this beautiful and prosperous valley are confident that nowhere are the conditions for settlement by intelligent, industrious people better.

You Know What You Are Taking When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

## Local Happenings

Hon. Solomon Luna and wife, of Los Angeles, are in the city today.

W. C. Slack, superintendent of the National Telegraph Cable company, with headquarters at Denver, is in the city today.

Miss Katherine Helmbeck entertained a number of her pupils at her studio at the Commercial club building last night with dancing.

A. L. Newton, who is in charge of the music for Temple Albert, has been secured as choir leader and soloist by the Baptist church also.

"The World's Greatest Teacher" is the theme of Pastor Powell's address at the Baptist church tomorrow evening. Set by Mr. Newton.

Hon. H. B. Ferguson, who was at Silver City on legal matters before the district court of Grant county, returning to the city this morning.

T. W. Courtney, a brother of J. A. Courtney, day ticket agent at the local station, arrived yesterday and will spend the winter in the city.

Mrs. C. E. Hyde, a cousin of Miss Cleora B. Hyde, passed through the city this morning en route from her home at Pomona, Cal., to visit friends in the east.

F. H. Hunt, the young man who was shot in the arm the fore part of the week by the accidental discharge of a revolver, left this morning for his home at Leon, Kansas.

Hon. J. S. Raynolds, who was on duty at the First National bank during the illness of Vice President M. W. Flournoy, left last night for El Paso, where he also has banking interests.

Rev. R. M. Craig, superintendent of Presbyterian mission schools for New Mexico and Arizona, returned last evening from Embudo and Las Truchas, where he went in the interest of his work.

Aaron Peiley left this morning for an extended visit at old familiar places in the east. Mr. Peiley will attend the national encampment of the Grand Army at Washington before returning to New Mexico.

Charles C. Hawley, registering from Seneca Falls, N. Y., who has been spending several months in New Mexico and Arizona, came in from the west this morning on his first visit to Albuquerque.

A. L. Oliphant and family came up from Socorro this morning. Mrs. Oliphant and children continued east to Kansas City for a month's visit with relatives and Mr. Oliphant will return to Socorro tonight.

M. W. Flournoy, vice president of the First National bank, was up and down town this morning. He is not fully well yet, as the limp in his walk would indicate, but hopes to be all right in a few days.

Miss Mary McDaniel, who for the past few years has been studying and teaching music at Chicago, has written friends in the city that she would try and spend a month in Albuquerque this fall. She expects to arrive some time the latter part of October.

Al E. Pemberton, a member of the city fire department of Denver for the last several years, also a locomotive fireman, is in the city today en route to the Pacific coast, where he will visit his father, who he has not seen for ten years. He met several old friends in this city.

Captain W. E. Dame, the district court clerk, was a passenger for Indianapolis, Ind., last night, where he will attend a reunion of the Spanish-American war veterans. The captain goes as a delegate from Booth camp, No. 255, of this city, and will be absent several weeks.

Mrs. Emma McCowan, of the Chillico Indian schools in Oklahoma, who has been spending several days in New Mexico collecting pupils for the Chillico schools, passed through the city this morning homeward bound. Mrs. McCowan reports having secured some forty pupils.

Mr. and Mrs. Howard Peil and son, daughter and maid, of New York City, who have been enjoying an extended pleasure trip through the west, came in this morning from the Grand Canyon of Arizona and have taken a suite of rooms at the Alvarado. They expect to remain here several days.

Territorial Secretary J. W. Raynolds passed through the city this morning en route from a few days' sojourn at Silver City to Santa Fe. Secretary Raynolds says that the tennis players of Santa Fe are practicing daily and that the capital will send a strong team to the Albuquerque tournament.

Mrs. E. H. Spencer and Mrs. M. C. Collier and daughter, Miss Julia, of St. Louis, who have been spending a month at Whitcomb Springs, returned to the city yesterday. After spending a few days in the city as the guests of Mrs. George A. Campbell the visiting ladies will return to their home at St. Louis. They express themselves well pleased with their sojourn at Whitcomb Springs.

James Grunfeld, senior member of the new St. Louis laundry, St. Louis, Mo., is in the city today, spending the day with his relatives and friends. Mr. Grunfeld came up this morning from El Paso, where his wife and son are now visiting, and will return to that city tonight. On Monday night he will proceed to St. Louis. Mr. Grunfeld is doing well in the laundry business in St. Louis, and says he has found more profits in washing than in selling clothing.

Hon. T. C. Graden, a prominent business man of means of Durango, Colo., is spending a few days in the city, studying conditions. Mr. Graden intends

grand stand at the fair grounds, and no written report was ever made of the proceedings. Mr. Beckwith is surprised at the growth of Albuquerque.

Mrs. Forest McKinley, wife of the special agent of the land office, accompanied by her children, came in from Santa Fe Saturday night and left for Las Cruces, where she will make her future home. Mr. McKinley passed down the road for Silver City Friday night.

J. M. Kane and family, who have been living on a little ranch north of the city the past two years, left Saturday night for Bradwell, Ky., to reside. The altitude here proved to be too high for Mrs. Kane and they were compelled to return to their old home in Kentucky.

The Citizen has received a neat four page folder with the compliments of the Farmington Hustler. It is named the "Three Great Fall Events," and proceeds to give the programs of the late Colorado-New Mexico fair at Durango, Colo., and the New Mexico Territorial fair at Albuquerque.

A very important meeting of the congregation of St. John's Episcopal church will be held in the body of the church on Friday evening next, the 25th. All members and friends are requested to attend as very important matters in reference to the future welfare of the church will be discussed.

L. R. Thompson has received word from Pasadena, Cal., where his wife is sojourning, that he is the father of a fine baby boy, which arrived Saturday last. The new arrival has been named Stanley McKee Thompson. Mrs. Thompson and child are expected to return to Albuquerque in several weeks.

The officers of the Salvation Army are arranging to celebrate their annual harvest festival September 27 to 30 inclusive. This year, owing to the condition of the local work, the proceeds, excepting a small portion, will be devoted to the Albuquerque corps. Donations of money, fruit, vegetables, etc., will be solicited and there will be an auction sale of the goods on Monday evening, September 30.

The officers of the Salvation Army are arranging to celebrate their annual harvest festival September 27 to 30 inclusive. This year, owing to the condition of the local work, the proceeds, excepting a small portion, will be devoted to the Albuquerque corps. Donations of money, fruit, vegetables, etc., will be solicited and there will be an auction sale of the goods on Monday evening, September 30.

Prof. Di Mauro and Mrs. Mabel Stevens-Hime will furnish the music at the L. H. B. and Aid society ball at Old Fellows' hall Tuesday evening.

Mrs. F. S. Prime and children, and Mrs. E. G. Johnson have arrived from Cummings, Iowa, and will occupy the Judge N. C. Collier house in the Fourth ward.

Col. R. E. Twitchell, who was here yesterday, has returned north to Las Vegas. He says that his town will not be represented at the fair by a base ball team.

E. Farris, writing to The Citizen, states that he will remove from Hobart, Oklahoma, to this city in about three months, and will reside here in the future.

J. R. Abner, the electrical engineer, has returned to the city from the Chillico, Oklahoma, Indian school, and accepts a position at the local government Indian school.

Abraham Aheytha, the big political war horse of Socorro, was here yesterday in consultation with Hon. F. A. Hubbell, the territorial republican central committee chairman.

The Woman's Relief Corps will meet in regular session at Knights of Pythias hall on Tuesday, September 23, at 2:30 p. m. Initiation. Emma C. Whitson, president; T. A. Whitcomb, secretary.

Mrs. W. L. Brackett, wife of the Copper avenue blacksmith, left this morning for Maxwell City, where she was called by the serious illness of her mother. She was accompanied by her children.

W. H. Bell, formerly of the Hamilton-Brown shoe factory of St. Louis, has returned to Albuquerque from a short business trip to Las Vegas. Mr. Bell is the promoter of the Albuquerque shoe factory proposition.

Mrs. N. C. Collier and daughter, Miss Julia, who have been enjoying a month's vacation at Camp Whitcomb, left this morning for their home at St. Louis. Friends were at the depot to wish them a safe journey home.

Robert H. Hopper, president of the Sanke and Opportunity Mining company, which has property near Hillsboro, passed through the city this morning bound for Chicago. The company's properties are about to be sold to Chicago parties.

Last night, Aaron Gray and James H. Drury, Jr., were passengers for Gallup. From there they will go out to the Navajo Indian reservation, working for the government in the erection of several school buildings. They will be absent several months.

Joseph Buchanan and wife, of Egypt, Ill., were here yesterday as the guests of their niece, Mrs. Aaron Gray. They have been touring the state of California, and stopped over for a day to pay their respects to their niece, continuing on to Egypt, Ill., this morning.

R. E. Morris, the Gallup capitalist, is in the city. A few years ago Mr. Morris was in only fair financial circumstances. He struck it rich in the Klondike, and now has enough to loan out on interest, and live upon, without tilling, for the remainder of his allotted life.

Last Saturday night Herman Blueher, the old town gardener, left for Kansas City, where he will meet W. H. Hahn, and together they will purchase a carload of draught horses for use here. Mr. Hahn is returning from a visit to relatives and friends in New York.

D. A. Beckwith, of New York City, where he is engaged in the steel and iron trade, is in the city. In the early days of Socorro he published the Miner at that place, and helped the newspaper boys of the territory dedicate the first territorial fair in 1881. That year the press association met under the

study with the addition of elementary music work, so that the pupil loses no time from school. Miss Zearing is a most capable and earnest instructor and has met with great success in her work. Class in primary at library building from 9 to 12 on school day.

The infant son of Mr. and Mrs. R. J. Graham died at the home on South Broadway last night of infantile trouble. The funeral services will be held at the residence this evening at 6:45 o'clock. The body will be shipped to Raton for burial.

### OFFICIAL MATTERS.

**Notaries Public Appointed.**  
Governor Otero appointed the following notaries public: Granville Pendleton, Aztec, for San Juan county; Charles M. Taylor, Tres Piedras, for Taos county.

**Territorial Funds.**  
Territorial Treasurer J. A. Vaughn received of Fred Muller, collector of Santa Fe county, \$21.42, taxes for 1899; \$36.09, taxes for 1900; and \$98.26, taxes for 1901.

**Order Issued for Survey.**  
Surveyor General Morgan O. Llewellyn issued an order for the survey of the Copper Queen mining claim, situated in the Las Animas mining district, Sierra county. The order is No. 1143, and is issued to James B. Parker, United States deputy mineral surveyor.

**Railroad Assessment for 1902.**  
The following is the railroad assessment of the fifteen counties reporting such assessment: Dona Ana, \$308,000; Luna, \$774,000; Grant, \$703,000; Socorro, \$653,000; San Miguel, \$550,000; Union, \$519,000; Colfax, \$509,000; Bernalillo, \$492,000; Valencia, \$445,000; Sierra, \$392,000; Mora, \$270,000; Eddy, \$232,000; McKinley, \$230,000; Taos, \$147,000; Chaves, \$106,000.

**Land Office Business.**  
Homestead Entries—Felix Villarreal, Wagon Mound, 160 acres, Mora county; Henry H. Dexter, Senorito, 160 acres, Bernalillo county; Rafael Armijo, Old Albuquerque, 160 acres, Bernalillo county.

**Final Entries—Remigio Torres, Pinos Wells, 160 acres, Valencia county; Juana Maria Sanchez de Barola, Taos, 160 acres, Taos county.**

**They Were Entertained.**  
A pretty 6 o'clock dinner party was given at the handsome home of Mr. and Mrs. M. W. Flournoy on Friday evening. Miss Nora Sterry and Miss Florence Field, of Los Angeles, who are visiting Miss Nell Flournoy, were the guests of honor. Plates were laid for Misses Flournoy, Sterry, Field, Jeannette Walton; Messrs. E. J. Alger, Louis Brooks, Sam Picard, Al Frost.

**Miss Collins Assaulted.**  
Last Saturday afternoon Sheriff T. S. Hubbell received a telegram from Laguna conveying the startling news that Miss Collins, a matron at the Laguna Pueblo, had been criminally assaulted by a Navajo Indian. The dastardly deed was committed late Friday afternoon while Miss Collins was in a field not far from the village. The telegram also said that the Indian had escaped and that possums were scouring the country in search of him.

As the deed was committed in Valencia county, Sheriff Hubbell telegraphed Sheriff Baca at Los Lunas and notified the local authorities to keep a lookout for the wretch should he come this way.

Miss Collins, the victim, is a sister of Ralph Collins, the superintendent of the local government Indian school and is quite well known in Albuquerque. Miss Collins suffered no serious injury.

Mr. Collins has gone to Laguna to assist the searching parties.

**VISITS DEMING.**  
The Advertising Car of the Fair Was in Luna County.

With that sharpened lead pencil, which he used so extensively on the newspapers of northern New Mexico, H. Scott Knight walked into the office of the Deming Headlight the other day, and the following was produced in the Headlight's next issue:

The advertising car of the territorial fair pulled into the Deming depot on Thursday, and Col. Scott Knight, the advertising agent of the association, was soon busy with his corps of assistants, billing the town.

The list of attractions to be presented at the coming fair is simply immense, and will be enough to give you the time of your life. The base ball tournament alone, will be worth going from Deming to see, for it is going to be the biggest thing in its line ever presented in this territory. Three of the teams that have entered are composed almost wholly of stars from the east that are being brought on by the clubs at heavy expense for the express purpose of carrying off the big premium that is to go to the winner.

Then the races, which will rank in their line along with the ball games will give the people of this territory a chance to see a number of the noted steppers of the country. Several of the horses entered have records below 2:10, and will be able to do trotting that would be considered first class anywhere.

Add to these the score and more of other first class attractions, such as the military display, the Indian dances, the famous Ferris wheel, the fireworks showing the eruption of Mount Pelee, the "coming of Montezuma," which has never been shown anywhere before, and last, but not by any means the least interesting, the steer roping contests to be participated in by cowboys from all sections of the range country from Montana to Texas, and you have a show that nobody can afford to miss. The display of our animal, vegetable

and mineral products will also be first class, and will give the people from abroad a chance to see what New Mexico can do. The entertainment begins Tuesday, October 14, and will continue all the week.

**District Court.**  
The United States petit jury was empaneled this morning and is being occupied today with the case of United States vs. Andrew Casna, charged with selling intoxicating liquors to Indians.

**Geologists.**  
Dr. Robert T. Hill, with the United States geological survey, J. H. Gerty and J. L. Caruthers, scientists of Washington, D. C., form a party of prominent geologists, who are spending a few days in Albuquerque. The gentlemen expect to leave tomorrow morning for a trip overland to Chilli and the ruins of Gran Quivira.

Dr. Hill has visited Mt. Pelee since its eruption and tells some interesting stories about that great fiery monster.

**Police Court.**  
An unusual incident occurred this morning when no hobo appeared in Judge Crawford's Monday morning court.

Roman Lucero, charged with stealing \$5 from Juan Sandoval, was bound over to the grand jury.

**"Nosey" Held for Trial.**  
The preliminary examination of Marie Little, alias "Nosey," was concluded last Saturday, and she was held to appear before the grand jury on the charge of killing Josie Tappee. The evidence, while circumstantial, is very strong against her, and it is believed a conviction can be secured. Her case will come up for trial during the term of court beginning October 13. Before her arrest last week the woman left Winslow and went to the Esperanza ranch, about eighteen miles southeast, and here she was found by the sheriff. After the trial Sheriff Seisler took the prisoner to the county jail in Holbrook.—Winslow Mail.

**Funeral of Capt. Swan.**  
Many sympathetic friends assembled at A. Borders undertaking parlors Sunday afternoon to attend the funeral services conducted by Rev. W. J. Marsh over the remains of the late Capt. A. M. Swan. Impressive music was furnished by a male quartet. The pall bearers were A. A. Trimble, Frank Trotter, C. A. McKim, Aaron Gray, W. H. Burke and H. R. Elwell, all either friends or business associates of the early days of Albuquerque. Interment was made at Fairview cemetery.

**Still in Colorado.**  
P. F. McCanna, secretary of the fair association, and W. L. Trimble, who went to Denver last week on business connected with the Albuquerque fair, did not return yesterday as expected, but wrote letters giving reasons for remaining in Colorado. At Denver the gentlemen found the horsemen in good spirits and engaged a carload of good horses to come to the fair. At Pueblo they met with flattering success and a carload of good horses will come to the fair from that place. They report the horsemen of Durango and Colorado Springs enthusiastic about the possibilities of good racing for the fair and a carload each will come from those places. Mr. McCanna and Mr. Trimble expect to return the latter part of this week.

**Cooley Killed.**  
Members of the local Typographical union have received information that Frank W. Cooley, a former job printer of The Citizen office, met a horrible death while riding the brake beams of a train near Helena, Montana, on the 25th day of August. He fell off and the result was run over and killed, in almost the same manner in which four or five other printers who worked in Albuquerque have met their deaths in the past few years. The deceased leaves a wife and a daughter. They left here several months ago in response to a letter that the sister of Mrs. Cooley was dangerously ill at a little town in Wyoming. A few weeks later, one Saturday night, Cooley "hit the pike" also for Wyoming, and now the sad news of his tragic death reaches his type friends of this city.

**Contest for Fair Queen.**  
The contest for Queen of the Carnival is progressing nicely. The voting began last Monday morning and the names of Mrs. Mabel Stevens-Hime, Miss Belle Yancey and Miss Jeannette Walton are already entered in the race. The honors offered to the queen of the coming fair are so great that a number of dimes are likely to go into the treasury of the contest before the crown is gained. As O. A. Matson, who is managing the contest, does not care to open the ballot box yet it is not known how the vote stands.

**ALL-AMERICAN SCHEDULE.**  
Joe Cantillon's Star Aggregations Will Play in Albuquerque on November 1.

Umpire Joe Cantillon, of the National league is in Chicago making final preparations for the trip to the Pacific coast of the All-Nationals and All-American stars. The itinerary of the All-Nationals and All-Americans has been completed and was given out by Manager Cantillon, as follows:

The teams will meet in Chicago, October 12, where they will play that afternoon. Then in a special Pullman sleeper they will travel to the Pacific coast, playing on the following dates: October 13, at Cedar Rapids, Iowa; October 14, Des Moines; October 15, Sheldon, Ill.; October 16, Lamar, Iowa; October 17, Sioux City; October 18 and 19, Omaha, Neb.; October 20, St. Joseph, Mo.; October 21 and 22, Kan-

**Keeley Cure**  
For Drunkenness, Opium, Morphine and other Drug Using, the Tobacco Habit and Neurasthenia.  
THE KEELEY INSTITUTE, Dwight, Ill.

City, Mo.; October 23, Topeka, Kan.; October 24, Sabine, Kan.; October 25 and 26, Denver; October 27, Colorado Springs; October 28, Pueblo, Colo.; October 29, Trinidad, Colo.; October 30, Las Vegas, N. M.; October 31, Santa Fe, N. M.; November 1, Albuquerque, N. M.; November 2, El Paso, Texas; November 3, Benson, Arizona; November 4, Tucson, Arizona; November 5, Phoenix, Arizona; November 6, San Bernardino, Cal.; November 9, Los Angeles, Cal.

Two weeks will be spent touring the southern part of California, and November 30 the teams open in San Francisco. After playing two or three weeks there arrangements will be perfected, if considered for the best, for a trip to Honolulu.

**UNDER TUCUMCARI.**  
A Good Water Basin Underneath the Town.

A correspondent of the Denver News, writing from Tucumcari, says: The water question, the only problem against the growth of the town, has been solved by the discovery of good water in artesian wells at a depth of 150 to 400 feet.

The first person to sink a few dollars in a "water speculation" was A. B. Simpson, and the people are indebted to him for so doing. At a depth of 135 feet he struck a large flow of water, clear, soft and pure, which has continued flowing ever since.

Encouraged by his success, the Blankenship Bros., contractors, sunk a well, and at a depth of 200 feet struck a flow of good soft water. The water in both of these wells is raised to the surface by wind power.

The Electric Light & Water company of Tucumcari sunk a 300-foot well, at which depth the water raised 175 feet in the well in ten minutes. The water from this well will be raised with a 10-horse power gasoline engine, which is at present being put in position.

The Chicago & Rock Island Railroad company struck an extraordinary large flow of fine, soft water at a depth of 349 feet. A steam pump was connected with the well this week, which hoists water into a tank at the rate of sixty-five gallons a minute. This being the only point on the road where the Rock Island people succeeded in getting good and sufficient water, they naturally feel pleased, especially as various attempts to get water in Santa Rosa, where they have shops, were dismal failures. The shops and round house at Santa Rosa may be moved to Tucumcari.

**St. Thomas Kennel Show.**  
St. Thomas, Ont., Sept. 23.—Prize-winning dogs from many of the celebrated kennels of the United States and Canada are among the exhibits at the annual bench show of the St. Thomas Kennel Club. The exhibition opened today and will continue until the end of the week. The prize list is the largest ever offered by a show of the kind in this part of the Dominion and includes special trophies offered by the Canadian Sporting Club, the Ladies' Kennel Association of Mass., the Bull Dog Club of Canada and other organizations.

**Britt vs. Clifford.**  
Oakland, Cal., Sept. 23.—"Jimmy" Britt and "Jack" Clifford are to furnish the wind-up at tonight's boxing show of the Acme Athletic club. Both have been training faithfully since the match was made and appear to be in condition to put up an interesting bout.

**Albuquerque the Gateway.**  
A special dispatch from New York to the El Paso Herald says:

"Within the present year the trains of the Rock Island will enter San Francisco over the Southern Pacific tracks. The rolling stock for these trains is now in preparation, and it is said that they will be in every way up to the standard of trunk line efficiency in the eastern field."

"It is surmised by people who know Rock Island affairs better than others, that this agreement is purely temporary in nature, and will end when the line between the El Paso division of the Rock Island and Albuquerque is completed. Albuquerque will thenceforth be the gateway through which Rock Island traffic will find its way to the coast. The Southern Pacific route is very roundabout as compared with the Atchison, and the admittedly friendly relationship between the Atchison and Rock Island will also conduce to a thoroughly satisfactory working agreement for a Pacific route via the Atchison for Rock Island trains."

**School Matters.**  
Miss Nichol, who was transferred from the Third ward school to the Spencer building on account of the crowded condition, began work in that building this morning with a full attendance of primary and third grade pupils.

Miss Hunt succeeded Miss Nichol at the Third ward and has about fifty pupils enrolled.

Miss Hartman, the new teacher employed by the board, began work at the Highland building yesterday morning and is getting along nicely with a good attendance.

If new pupils come in as they have the last few days it is thought that another room will be necessary to accommodate the overflow.

**Keeley Cure**  
Dyspepsia Cure  
Digests what you eat

This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspepsias have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

**Cure all stomach troubles**  
Prepared only by E. C. Dwyer & Co., Chicago  
The 51 bottle contains 5 times the No. 1.

**FERRY'S SEEDS**  
Kuchen and solen  
Inches good crops  
are grown.

Sold everywhere.  
1902 Annual FREE.  
D. M. FERRY & CO.  
Detroit, Mich.

**60 YEARS' EXPERIENCE**  
**PATENTS**  
TRADE MARKS  
DESIGNS  
COPYRIGHTS & C.

Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. Handbook on Patents sent free. Oldest agency for securing patents. Patents taken through Munn & Co. receive special notice, without charge, in the Scientific American.

A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$5 a year, \$4 for months. Sold by all newspapers.

**MUNN & CO. 361 Broadway, New York**  
Branch Office, 25 F St., Washington, D. C.

**E. E. BURLINGAME & CO.,**  
ASSAY OFFICE AND  
CHEMICAL  
LABORATORY

Established in Colorado, 1866. Samples by mail or express will receive prompt and careful attention. Gold & Silver Bullion Bought and Sold at Market Prices. Concentration Tests—100 lbs. or car load lots. Write for terms.

1736-1738 Lawrence St., Denver, Colo.

**PATENTS**  
COPYRIGHTS AND DESIGNS.  
Send your sketches, designs, etc., to the undersigned, who will advise you as to the best way to protect your invention, and will secure for you a patent, trade mark, or design, if you are entitled to the same.

My office is at U. S. Patent Office, 1000 F St., N. W., Washington, D. C. I have been in the business for over 20 years, and have secured for my clients over 10,000 patents, trade marks, and designs. I am a member of the American Patent Association, and am a resident of the District of Columbia.

**FOUND THE CORNER.**  
Line Run by Government Surveyors  
Takes Land from the Las Vegas Grant.

The government surveyors who have been defining the line between the Mora and Las Vegas grants and the Pecos forest reserve for the past two months, have reported that they found the northwest corner of the Las Vegas grant, which has long been in doubt, and for which some of the owners of land on the grants have offered a reward.

The line, if correct, will take a strip off the reserve about two and one-half miles wide and thirty miles long, giving most of that amount to the Mora grant.

The surveyors have also been cross-sectioning parts of the reserve for the government.

**Santa Fe Court.**  
In the case of the Territory vs. N. E. Crenshaw, charged with the murder of Edward Hull, now on trial in the district court for Santa Fe county, the following witnesses for the prosecution have been heard: Alfred Stewart, H. J. Dague, Tom Hull and John Koury.

The case of the Territory vs. Cesario Martinez, for assault and battery, in which a change of venue was granted from Rio Arriba county, is set for Thursday.

The case of the Territory vs. Luis Romero for the murder of Alejandro Sola is also set for Thursday.

**Should be Represented.**  
Deming will have an opportunity to advertise herself and surrounding country at the coming territorial fair if she wants to. Several of our citizens have spoken of this matter and all seem to think that the matter should be done. All that is necessary is for some one to take the lead. Our mining and other interests can be shown at that time, in a manner that will be worth thousands of dollars to this town. Who will take the lead?—Deming Headlight.

**New Arizona Railroad.**  
The early construction of the Phoenix & Eastern railroad has at last been rendered certain by the concessions of the local public committee which guarantees right of way. Bids will be invited within twelve days and actual work will begin within twenty days. The road will connect with the Santa Fe at Phoenix and with the El Paso & Southwestern at Benson, opening a great mineral region.

Weekly Citizen, per year, 2.00

# RODEY'S RACE.

Collector Garrett Very Hopeful of Delegate Rodey's Election.

Collector P. E. Garrett, who says that when Delegate Rodey made his last race for congress that he predicted Rodey a majority almost to the dot, says the El Paso News made a prediction today as to Rodey's prospective majority which is interesting from the fact that some parties do not think the delegate will be elected at all. Collector Garrett said:

"I think that Mr. Rodey will be elected again and I think that he will get a bigger majority this time than he did the last race he made. I think his majority will be between 5,000 and 7,000 votes, near the latter than the former. I do not think there will be any opposition to Delegate Rodey's re-nomination. There should not be and I think that when the roll of the convention is called there will hardly be three delegates called upon before some one will rise and move to make the nomination unanimous."

# PATHETIC DEATH.

Body of a Mexican Woman Taken to Alamogordo on a Small Push Car.

There was a pathetic death at Dog Canyon last week on the El Paso-Rock Island line. A young Mexican woman named Petra de Romero, who is but 18 years old, and her husband had tramped it down Rodilla, Durango, Mexico, in search of work. When they reached Dog Canyon she was taken violently ill and died in a few moments. Her husband borrowed a small push car of the section foreman and on it took the body to an undertaker in Alamogordo. It was buried at the county expense and the husband dug the grave as directed. He then notified the undertaker that the grave was ready and left without any further concern regarding the interment.

Collects for Clothing Never Delivered.

A very smooth swindler has been operating in Panhandle and northern New Mexico towns.

He works under the name of W. W. Mathis and purports to be the accredited western traveling agent and salesman of E. V. Price & Co., merchant tailors and general clothiers of Chicago. First displaying bogus credentials, Mathis takes orders for suits of clothes and overcoats on a cash payment of \$5, the garments to be delivered within two weeks (C. O. D.), the suits ranging from \$20 to \$40, and the overcoats reaching as high as \$45 in price.

In Dalhart, Mathis secured about thirty orders for suits—his business in that town bringing him at least \$150 in cash. In addition to Dalhart, Mathis is known to have worked Tucuman, Amarillo and Clayton. His exposure coming through a telegram received by a Clayton resident from Price & Co., disclaiming any knowledge whatever of Mathis.

The grafter was last seen at Amarillo a few days ago. He is about 35 years old; 160 pounds in weight; smooth-shaved; light brown hair, well flecked with gray; wears a cork leg, halting very perceptibly in his walk, and is a smooth talker and a free money spender. Mathis, in the last two weeks, has cleared up over \$500 and is doubtless still seeking suits to customers in the towns north of Albuquerque.

Mrs. Amelia Otero de Enriquez Dead.

Juan C. Armijo, of this city, yesterday received a telegram announcing the death at Los Angeles, of Mrs. Amelia Otero de Enriquez, of Las Vegas. Mrs. Enriquez' death occurred at 6 o'clock yesterday morning of heart failure. She was the widow of Dr. E. C. Enriquez, who died in January, 1893, and she leaves four children, two girls and two boys. Mrs. Enriquez was well known and was a member of the most prominent families of the territory. Her personal qualities endeared her to a large circle of friends, who will sincerely mourn her loss. She was a first cousin to Governor Otero, niece of Mrs. N. T. Armijo of this city, and a sister-in-law of Mrs. A. M. Bergere, of Santa Fe. She remains left Los Angeles last evening in charge of her son, Benito, and the interment will take place in Las Vegas.

# BAD MAN CAPTURED.

Silver City's Night Policeman Skips Away But Is Now in Jail.

Special Correspondence.  
Silver City, N. M., Sept. 23.—Some little excitement was caused in this city this morning when James K. Blair brought in Perfecto Rodriguez on the train from near Rincon, where he had captured him the day before. Perfecto was the Mexican who was found guilty at the recent term of the district court for drawing and firing a deadly weapon at City Marshal Brent. He was at that time the night police of the city and interfered with the marshal when he endeavored to arrest one of Perfecto's Mexican friends. Perfecto was out on bond and when he got wind that the jury had found him guilty he skipped out and it was supposed that his friends had helped him over the border into Old Mexico. A reward was offered for his capture and Mr. Blair, who is a candidate for the nomination of sheriff on the democratic ticket in the fall election, started out to get him. He got on his trail after some riding, as Perfecto was on foot and eventually located him in Rin-

con in a Mexican hut, and getting the drop on him brought him back to Silver City in tow. As court has adjourned for this term he will probably have to wait until the next term of court to receive his sentence. He will be given good quarters in the Grant county jail.

The base ball game between the Deming and Fort Bayard teams at Fort Bayard last Sunday resulted in a victory for the Deming boys by a score of 17 to 14. A game is being arranged between the Deming and Silver City clubs to be played at Deming on next Sunday.

The sportsmen in this section are figuring on having great sport this season hunting quail, as they are very plentiful in every direction. Last year the quail were scarce in the southern part of the territory.

The republicans of Grant county will hold their county convention in this city on next Saturday afternoon. It is hardly probable that the county ticket will be nominated at that time, but the convention will be adjourned until a later date so as to shorten the campaign.

Eugene Warren entertained a number of his friends with a dance at his home last Saturday evening.

Sheriff A. S. Goodell and deputies left last Sunday evening for Santa Fe with seven prisoners who were sentenced to the penitentiary at the last term of court. James Shipley was one of the deputies.

# District Court.

The United States petit jury has been adjourned.

In the case of United States vs. Mrs. Peter Delavonte, charged with selling intoxicating liquors to Indians, the jury came in at 4 o'clock yesterday afternoon with a verdict of guilty.

In the case of United States vs. Barney Grosso, of Gallup, charged with selling liquors to Navajo Indians, the jury, after being out twenty-six hours, found a verdict of not guilty, by instructions from the court.

The territorial grand jury will finish business tomorrow.

In the case of Territory vs. Ira Ritter and Andrew Dillard, charged with assaulting with intent to rob the person of A. E. Greenwood, the defendants were dismissed, the jury failing to find a bill against them.

# Wilkinson-Spencer.

Last night about 9 o'clock, at the home of the bride's brother, 228 North Walter street, occurred a quiet but very pretty wedding, in which Harry L. Wilkinson and Miss Hattie Spencer were the parties most interested.

F. W. Spencer's home was tastefully decorated and perfumed with live flowers and plants. A pretty ring service was performed by Rev. H. J. Powell, pastor of the Baptist church. Only the most intimate friends of the family were invited. After partaking of bountiful refreshments the young couple were driven to the depot, where they boarded the 11 o'clock west bound train.

The bride is from Chicago and not very well known in the city. The groom was formerly employed in the mechanical department of the local shops.

# Eddy County Republicans.

The Eddy county republicans will meet in county convention at Carlsbad on September 29, for the purpose of electing delegates to the Raton republican convention and to endorse a candidate for nomination as delegate to the Fifty-eighth congress. Nothing in the call suggests the nomination of a county or legislative ticket from that section.

# Coffax County Republicans.

The republicans of Coffax county will hold a convention for the purpose of selecting eight delegates to the territorial republican convention at Raton and to nominate a county ticket for that county at Raton, October 6. A candidate for member of the council from that district composed of Mora, Coffax and Union counties will also be recommended.

# Capitol Struck by Lightning.

Santa Fe Sunday night experienced the worst hail and rain storm in years. The capitol was struck by lightning and only prompt action prevented the fire from spreading. The streets were filled with water that swept everything before it, and drowning much live stock. The Santa Fe river was a torrent and the hail stripped trees of leaves and fruit.

# Cold Weather at Capital.

Cold weather struck Santa Fe this season about two weeks sooner than usual and consequently found many unprepared. The faithful burro, however, is hurrying in with loads of wood, for which the owners are not failing to get good prices, as is always the case when fuel is especially needed. The federal building was heated up this forenoon; as a rule fires are not started here until the first of October. —New Mexican.

# Santa Fe's Bad Streets.

There is scarcely a day that a lady does not tear her dress in the nails sticking up out of the rocky old wood pavement in front of the Old Palace, says the New Mexican. Much complaint is being heard on that account, but the postoffice authorities are not to blame, as the necessity of a new pavement has been brought to the attention of the custodian of the building quite often and he promised last fall that such a pavement would be laid.

# Death from Bright's Disease.

David Callen, who has lived in Farmington for the past year, died the last of the week of Bright's disease. He was 64 years old, and leaves two children, one in Iowa and one in Oklahoma, who inherit several mining claims he owned near Silverton and three lots and a house in Farmington.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, crying much to the surprise and joy of the mother. 50 cents at Cosmopolitan Pharmacy—B. Ruppe.

# Devoured by Worms.

A Splendid Gift.  
City Physician John Eder is in receipt of a letter from General F. J. Torrance, enclosing a check for \$50. The gentleman requests that the check be given the St. Joseph's sanitarium and that the money be used in purchasing and setting out shade trees around that worthy institution. General Torrance is one of the large stockholders in the Santa Fe Central and Albuquerque Eastern railroads, and while in Albuquerque a short time ago paid a visit to the sanitarium. It was probably at that time that he noted the need of shade trees in the yard of the sanitarium, and hence this generous gift. It is needless to say that the money was gratefully received.

Foley's Kidney Cure makes the diseased kidneys sound so they will eliminate the poisons from the blood. Sold by Alvarado Pharmacy.

Stabbed by Dying Man.

Frank Blackerton, alias Sil Perkins, a poor lunger and a dope fiend, died yesterday afternoon and a few moments before he died Dave Pigg, who was nursing him, states that he rose and stabbed him with a pocket knife. A few moments later the dying man had passed away, and Pigg was having his wound dressed.

Pigg says the dying man said: "Because I want to take you into eternity with me is the reason I stabbed you."

Pigg farther states that he was bending over the dying man trying to arrange him more comfortably, when he received the stab from his friend just beneath the left shoulder blade.

Blackerton has been around here for some time and seemed to be prosperous enough in a financial way. About two weeks ago he showed a friend quite a roll of money and three certificates of deposit aggregating \$700, one for \$400 in the Silver City bank, one for \$100 and another for \$200 on the State National bank of this city.—El Paso Herald.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. Sold by Alvarado Pharmacy.

# JOSIE CARSON SQUIRES.

Daughter of the Celebrated Scout, Kit Carson, Dying in the Hospital for the Insane.

Josie Carson Squires, daughter of the celebrated scout, Kit Carson, is dying in the hospital for the insane at Las Vegas. She was sent to the institution from Raton four years ago, and was then suffering from acute mania. This speedily changed to chronic dementia and for a long time there has been no hope for her recovery. For the last five or six months she has been gradually wasting away and now she is dying of mal-nutrition. Life is a matter of but a few hours. There is no record at the hospital of any relatives, near or remote to whom information can be conveyed. Some years ago she was married to Spires, but they separated and no children were born of the union. Since the separation she has generally gone by the name of Josie Carson. She is apparently about 35 years of age.

Dr. J. C. Bishop, of Agnew, Mich., says, "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Refuse substitutes. Sold by Alvarado Pharmacy.

# NARROW ESCAPE.

Iron Handle of a Windlass Struck R. P. Ervein, of Clayton, on the Head.

R. P. Ervein, assessor of Union county, and Ralph Mann, his foreman, had a narrow escape from death at the Clayton electric light and water works. They were pulling a pump which was out of order and the foot plate and casing had been raised about two feet and were propped on jacks. These suddenly slipped and the weight of the foot plate and casing caused the windlass to revolve with great force, the iron handle striking Mr. Ervein on the head knocking him unconscious and cutting a deep gash three inches long. Mr. Mann had a narrow escape, the foot plate pinning him across the legs, he only being saved by the handle of the windlass being caught against the wall.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Sold by Alvarado Pharmacy.

Vance-Hume Wedding.

Chapel Hill, N. C., Sept. 24.—A number of guests from out of town are here for the wedding of Miss Annie Hume, daughter of Mr. and Mrs. Thomas Hume, and Professor William Reynolds Vance, which takes place this evening at the home of the bride's parents. Professor Vance is an instructor at Washington and Lee University and one of the most prominent of Southern educators.

this evening at the home of the bride's parents. Professor Vance is an instructor at Washington and Lee University and one of the most prominent of Southern educators.

"I had kidney trouble for years," writes Mrs. Ray Bond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am cured. I cannot say too much for Foley's Kidney Cure." Sold by Alvarado Pharmacy.

Returning of the Bread.

Judge A. L. Morrison, of Santa Fe, received a letter which bears out the great truth that bread cast upon the waters will sooner or later return. Howard W. Kemper, general manager of the Kingman Exploration and Mining company of Kingman, Ariz., writes the judge that in 1878, when at the age of 8 years, he heard him make a political speech at Cincinnati, Ohio, which greatly impressed him. He is now hard at work for the election of Judge Morrison's son, Robert E. Morrison, who was recently nominated by the republicans for congress from Arizona.

Raised from the Dead.

C. W. Landis, "porter" for the Oriental Hotel, Chanute, Kan., says: "I know what it was to suffer with neuralgia deed I did, and I got a bottle of Ballard's Snow Liniment and I was raised from the dead. I tried to get some more, but before I had 'deposited' my bottle, I was cured entirely. I am telling the truth too." 25c, 50c, and \$1.00 at Cosmopolitan Pharmacy—B. Ruppe.

Valley Ranch Sold.

The Valley ranch, one of the most delightful of the upper Pecos ranch properties has been purchased by President E. L. Hewett, of the Normal University at East Las Vegas. The former owner was Mrs. Strong, of Chicago. It is understood that President Hewett will stock the ranch with fine sheep and will improve the property. George Y. Reynolds and W. H. Keller, who have been in charge of the ranch, will move into Santa Fe to make their future home.

21 Years a Dyspeptic.

R. H. Foster, 318 S. 2nd, Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me, I am now tapering off on the second. I have recommended it to my friends; it is curing them too." 50 cents at Cosmopolitan Pharmacy—B. Ruppe.

Spencer's Body Still Unclaimed.

The body of Archie Spencer, who was killed while trying to break jail at Roswell, still lies at the undertaking parlors in Roswell. No one has appeared to claim it and all efforts by the officers to locate any relatives have been unsuccessful.

Group.

Usually begins with the symptoms of a common cold; there is chilliness, sneezing, raw throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50 cents at Cosmopolitan Pharmacy—B. Ruppe.

General Booth Coming.

New York, Sept. 24.—At the American headquarters of the Salvation Army in Fourteenth street, great preparations are being made in anticipation of the coming of General Booth, who is expected to arrive here within a day or two. This is the first visit General Booth has paid America in a number of years and in view of his age it probably will be his last. The general will be accompanied by General Lawley and Commissioner Nichol, editor-in-chief of the London, England, War Cry. After visiting the various posts of the army in New England and eastern Canada the party will go as far west as St. Paul, Minneapolis and Winnipeg.

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Aker's Blood Purifier, which we sell under a positive guarantee. It will always cure scrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Carnival in Omaha.

Omaha, Neb., Sept. 24.—This is the week of the Ak-Sar-Ben festivities in Omaha. The streets for many blocks in either direction down town are gorgeously decorated, while at street intersections arches of elaborate design are formed. Tonight the dome, cornice and windows of the court house will be penciled by lines of incandescent lamps. The program provides for several street pageants which promise to be of unusual magnificence.

Came Near Being a Cripple.

Josh Westhafer, of Loogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by all druggists.

Death of a Physician.

Dr. Clark H. Wright, a prominent physician and former health officer of Carlsbad, N. M., died at El Paso of consumption after a lingering illness.

caif the second, 6-3; but Summers by superior endurance won the third set and match, 6-0.

The second event was very much one-sided, Bell being outclassed by Ward. Ward (owe 15) defeated Bell (receive 15) in straight sets, 6-1 and 6-0. Bell showed lack of practice.

The third event was the most interesting played yesterday but was called on account of darkness. Newman (owe 15) against Wilkinson (scratch). Newman won first set 6-4 and Wilkinson won second set 6-2. The match will be finished this evening.

A New Jersey Editor's Testimonial.

M. T. Lynch, Editor of the Phillipsburg N. J. Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it. Sold by Alvarado Pharmacy."

# UP FROM HILLSBORO.

W. S. Hopewell Says Things Look All Right Down South.

W. S. Hopewell, general manager of the Santa Fe Central and Albuquerque Eastern railways was in the city this morning while en route from a few days visit with his family at Hillsboro to Galisteo.

Mr. Hopewell says that things at Hillsboro are picking up. There is a revival in mining interests on account of the sale of the Snake and Opportunity mining property to Senator Warner Miller, of New York, and as plenty of rain has fallen pastures are looking fine. Cattle are looking better this fall than they have before in years.

Nothing Like Oil.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all druggists.

Freight Wreck Near Rincon.

There was a freight wreck on the Santa Fe a short distance this side of Rincon this morning, but the facts concerning it are hard to obtain. Local Santa Fe men claim to know but little about it. They say that no one was hurt.

It is without doubt a large wreck, as the passenger train, which should have arrived this morning at 7:55, is being delayed by the wreck so that it has not yet arrived. It is expected to get in about 5 o'clock this afternoon.—El Paso News.

Lingering Summer Colds.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Basket Ball.

Basket ball has been set-a-movin' at the Agricultural college and the girls hope to arrange a game in Albuquerque so that they may go up with the football men when they go to play a game against the Indians on the 14th of next month, the first day of the fair. Las Cruces Progress.

Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothes and heals. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Strange Use of a Gun.

The life savers of the Atlantic coast guard, when a vessel is hurled by a gale upon the cruel beaches and is being beaten to pieces by waves in which no boat could live, use a gun to fire a missile, carrying a line, to the wreck. By that light line a stronger one is hauled aboard and presently a "breach-buoy" is in action, carrying men and women from the wreck to safety on shore. The modus operandi of that service is effectively shown by the government crew of life savers with Buffalo Bill's Wild West, at each performance, and which is here on October 3.

Deaths of Miss Merrilies.

The Deceased Formerly Resided Here—Her Demise at Silver City.  
Mrs. Gertrude Merrilies, who resided here when her husband was the chief clerk at the local Santa Fe freight depot before his promotion to the agency at Silver City, died in the latter city a few days ago after a lingering illness of two years. While the sad event was not unexpected, it was not thought that the end was so close at hand.  
The Silver City Independent in its article regarding the death, says: Gertrude Rankin was born in Illon, N. Y., twenty-six years ago. Afterward her family removed to Chicago where she met and married Mr. Merrilies in 1896. About two years ago they were residing in St. Louis and one afternoon while attending a matinee Mrs. Merrilies contracted a severe cold which rapidly developed into consumption. Soon afterwards Mr. Merrilies secured a position with the Santa Fe in Albuquerque in order that she might receive the climatic benefit, being promoted to the Silver City station and coming here about the first of the present year. Since their residence in Silver City Mrs. Merrilies has been an inmate of the sanitarium, but even with the limited opportunities afforded for acquaintance and the disadvantages under which she labored by reason of her illness, she endeavored herself to all

with whom she came in contact, being a lady of superior education and social attainments and possessing a disposition that won the hearts of those about her.

Besides her husband, her father, four sisters and two brothers survive. Deceased was a consistent member of the Presbyterian church during her lifetime, her father being a minister of that denomination. Mr. Merrilies left for Rose Hill, near Chicago, taking along with him the remains for interment.

"I had kidney trouble so bad," says J. J. Cox of Valley View, Ky., "that I could not work. My feet were swollen to immense size and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure which made a well man of me. Sold by Alvarado Pharmacy."

A FINE DANCE.

The L. H. B. and Aid Society Ball at Odd Fellows' Hall.

That the ladies of the Hebrew Aid society are charming entertainers as well as willing workers for benevolence was demonstrated by the ball given at Odd Fellows' hall last night. A large crowd was in attendance and dancing was enjoyed until a late hour. The music, which was equal to the occasion, was furnished by Prof. Di Mauro and Miss Hanthorne.

The following officers and committees of the society deserve much credit for the success of the affair: Mrs. B. Spitz, president; Mrs. M. D. Fisher, vice president; Mrs. L. B. Stern, secretary, and Mrs. Alfred Grunfeld, treasurer.

These ladies worked with untiring energy, and they were ably assisted by the following committees: Refreshments—Messdames E. Rosenwald, S. Lewinson, L. Kempenich, Hall—Mrs. Noa Hifeld, Mrs. M. Schuster.

Lemonade—Mrs. L. Strauss, Miss Mamie Barth.

Mrs. A. Grunfeld had charge of the advertising and tickets.

Water Cure for Chronic Constipation.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of out-door exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Not Doomed for Life.

"I was treated for three years by good doctors," writes W. A. Greer, McConnellsville, O., "for piles, and fistula, but, when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures burns, bruises, cuts, corns, sores, eruptions, salt rheum, piles or no pay; 25c at all drug stores.

The Farmington correspondent of the Aztec Index says: "The railroad civil engineers are within sixty miles of Farmington, running a survey from Albuquerque to Durango. The chief engineer asserts that this road will surely be built in the near future."

For a bad taste in the mouth take Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

It is said that the Frisco will open the Oklahoma City & Western railroad to Lawton by October 1, and will inaugurate full freight and passenger service.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At any drug store, 10c.

Mrs. Carl Probst is filling the position of operator for the Santa Fe Central railway at the capital temporarily. Mr. Wallace, the regular operator, was sent to Kennedy to relieve Mr. Barbee, who was called home by the illness of his sister.

When the doctors fail, try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

J. W. Blanchard, an engineer in the employ of the Santa Fe Central railway, returned from Santa Fe to camp after a visit to his family. Mr. Blanchard says that the new road passes through some of the prettiest country in New Mexico.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy.

POWER FROM THE FALLS.

Santa Fe Company Plans to Develop Electricity Approved.

A special telegram from Santa Fe to the Denver Republican, says: Edgar L. Street, of New York, advising engineer of the Santa Fe Water & Light company, today informed Manager I. Sparks of the company in this city that after consultation with the stockholders of the company in London, it had been
