Wheat Marketing Has Not Yet Reached Height

The Biggest Marketing Will Commence Next Week When Stationary Threshers Will Commence Work.

Wheat continues to come into Clovis at a lively rate but the heaviest marketing of the season will not begin until about next week when the threshers will commence running. So far, most of the grain that has been sold has come from the combine harvester-threshers. Up to the present time, local elevators have been able to get enough cars to keep the grain moving nicely and there has been no congestion like there was last year. On account of greater capacities and more elevators, as well as the fact that freight cars are more plentiful local grain men do not contemplate any trouble in taking care of the grain this season.

Rain Delays Harvest

Quite a bit of delay has been experienced in harvesting on account of the continued rains. There is still much grain standing in the fields that cannot be handled as fast as it could if the showers did not come.

Shipped to Galveston

Practically all the wheat being bought here now goes direct to Galveston for export. There is a good demand for export wheat as the old world countries have made a short crop this year.

GRADING FOR RAVING GOING AHEAD

The paving crew is again going ahead grading streets. The work is now being pushed from west Grand Avenue north four blocks on Gidding Street. The paving on this street will be narrower than that on Main Street.

A. J. Rodas, of the firm of Rodas-Bradley Co., left Tuesday morning for Baltimore where he will buy fall and winter goods for his firm. Mr. Rodas expects to be gone for two or three weeks.

WOULD FORCE CUT IN RATE

Two Million Farmers Marshall Forces to Bring About Immediate Reduction in Freight Rates

Washington, July 19.—Two million farmers affiliated with the National Board of Farm Organizations are marshalling their influence to force all railroads to follow the example of Henry Ford and reduce freight rates, Secretary Lyman of the Board announced today.

Lyman applauded Ford's action yesterday in asking the Ohio utilities commission to reduce freight rates 20 per cent on Ford's road, the Detroit Toledo and Ironton.

"Freight rate reductions would slash the cost of food to the city consumer," said Lyman.

Acting for the Iowa farmers' union Senator Konyon today planned to introduce in Congress a petition signed by more than 2,000,000 farmers demanding freight rate reductions. According to the petition approximately \$1,700,000,000 now could be cut from the operating costs of the roads.

The valuation is \$5,000,000,000 above the actual replacement cost, the farmers declare in their petition. If the valuation were reduced to the actual value of stocks and bonds outstanding at least \$300,000, a year might be saved, the farmers charge.

Other ways in which they say savings could be made in operation costs are these:

Elimination of waste due to useless competition, \$400,000,000. Abolition of interlocking directorates between railroads and supply companies \$600,000,000.

An annual saving of \$400,000,000 already has been effected in wages, the farmers pointed out, through the wage reductions ordered by the railway labor board at Chicago.

A GOOD YIELD.

Claud Dodson, who lives in the Claud neighborhood, threshed wheat this past week that made 26 bushels to the acre. The yield of wheat this year will not be quite as heavy as it was last year but there are going to be many fields that will turn out over twenty-five bushels to the acre.

NELSON IMPROVING

J. C. Nelson, who is now at Marlin taking baths for rheumatism, had his tonsils removed at an operation performed last week. Mr. Nelson's many friends will be glad to know that he is improving and will be able to return home soon.

CHIROPRACTORS ARE NOW LICENSED.

Dr. and Mrs. Warriner of this city returned the latter part of last week from Santa Fe where they both took the examination and were granted Chiropractic licenses. Dr. S. J. Wright of this city also took the examination and was granted license. A new law now recognizes this method of treatment and a state board has been named and all practitioners will be required to pass an examination before being licensed.

TAKING APPLICATIONS FOR FEDERAL LOANS

A. J. Rodas, president of the Curry county National Farm Loan Association says that blank applications have been received for Federal Farm Loans and the local organization is now preparing to take requests for them. Mr. Rodas says there is no intimation as to just how soon money will be obtained on loans that are asked for now.

MR. AND MRS. COPELAND LEAVE FOR OKLAHOMA

Mr. and Mrs. Fayett Copeland, Jr., left Friday of last week for Norman, Okla., where they plan to make their home. Mr. Copeland having accepted a position in the Extension Department of the University of Oklahoma. Mr. Copeland has been with the News as a reporter and ad man for the past year and while the News will miss his services, we are pleased that he goes to a good position. Mrs. Copeland was teacher of Domestic Science in the public schools here last year and is an efficient teacher. She will likely accept a similar position at their new home.

MEMBERS SHOULD PAY DUES PROMPTLY.

Many members of the Chamber of Commerce are in arrears with their dues and the lack of funds has embarrassed the organization to quite an extent. The secretary is now sending out statements of membership dues and pledges to the service fund and this should bring a ready response from the members.

E. W. BOWYER LOCATES AT COLUMBUS, OHIO.

E. W. Bowyer orders his News sent to 1079 E. Main Street, Columbus, Ohio. Mr. Bowyer says they had a remarkable trip east in that they were not delayed one minute on account of car trouble and only one stop because of rain.

WE THANK YOU

Clovis is paving her streets and making other improvements that are well calculated to enhance property values and to make that city a more pleasant place in which to live. Truly, Clovis is one of the live cities in this portion of the southwest, and has richly earned all of the good things that are coming her way.—Amarillo Daily News.

Wool Shipment Made This Week

O. M. Reese of the Clovis Cream & Produce shipped 60,000 pounds of wool from Melrose this week and will make another shipment from Clovis within the next few days. The wool goes direct to Baltimore.

Mr. Reese says while the price is not high, it is in much better condition than a few months ago when there were no cash buyers of wool in the market at all.

C. W. HARRISON INJURED AT SWIMMING POOL

C. W. Harrison was painfully injured Monday afternoon when he dived into the swimming pool from the second elevation, striking his head against the cement bottom of the pool.

The accident is accounted for by the fact that the water in the pool was somewhat lower than usual.

Mr. Harrison received a wound on the head besides painfully injuring his neck and shoulders, however, his many friends are pleased that the injury is not serious and that he will be able to be at the bank again in a few days.

HOME FROM CONVENTION

W. W. Honeycutt and G. A. Campbell returned this week from the Elks Convention at Los Angeles. Mr. Campbell says there was an enormous crowd there and that the Elks parade was seven miles long. Others from here who visited the convention will return the latter part of the week.

ANOTHER RAIN AT GRADY

C. L. Stanfield was in from Grady Tuesday and says that neighborhood got another rain Monday night which interfered with wheat harvesting to some extent. He says big acreages of wheat will go in again this fall in the Grady neighborhood. Stanfield Bros. are arranging to put in 1050 acres in grain. He says only about 600 acres of this, however, will be ready for fall planting.

PARTNERSHIP DISSOLVED

E. T. Jernigan and C. E. Worrell who have been partners in the jewelry and optical business, operating the Optical Shop and the E. T. Jernigan & Co. jewelry store have dissolved partnership. Mr. Jernigan assumes all the jewelry business and will conduct it at his old stand. Mr. Worrell will conduct an exclusive optical business at his location next to the postoffice in the Lyceum Theatre building, which will also be occupied by F. S. Burns who negotiated the deal.

There was also a section of land included in the deal which made a total consideration of about \$40,000.

Portales Defeats Clovis Once More

An excellent game of base ball was witnessed by those who went to Portales Tuesday to see the game between Clovis and that place. The game was closely contested throughout, Portales being the victor by a score of 3 to 1. Batteries for Portales; Koersan and Eiz; for Clovis, Althaus and Cavanaugh. Struck out by Koersan 5; Althaus 6.

Will Play Again Sunday

Fans are looking forward to a return game with Portales which will be played Sunday on the Clovis grounds. Both teams will be strong and it is expected to be one of best games yet played on the local grounds.

SUNDAY SCHOOL OUTING

Miss Amye Anderson, Gave her Sunday school class, the Week Day Workers, of the Brethren Church, an outing to the brakes about sixty miles northwest of town last Sunday. Mr. and Mrs. Cliff Cochran chaperoned the class.

The building next door to the Clovis National Bank is being decorated and fixed up for the Western Union Telegraph Co. whose offices will be moved there soon.

Jurors Are Summoned for August Term District Court

Search Made For Walk Program

R. M. Bishop had charge of the program at the Kiwanis Club Wednesday of this week. Miss Ruby Suman gave a reading that was appreciated and heartily endorsed by all present. Walter W. Mayes, secretary of the First Mortgage Loan Co., gave an interesting talk explaining why farm loan money is not as available now as it was a few years ago. Mr. Mayes brought out the point that eastern investors were finding bonds and other tax free securities more attractive than land notes, hence the lack of market for farm paper.

Police Search Hatch

A good laugh was indulged in at the expense of Mr. Hatch when Chief of Police Moye announced that he held a search warrant issued from all court and proceeded to go thru the pockets of the members. He found Mr. Hatch sitting on a letter which he returned for explanation. The sheet had inscribed in large letters "The Kiwanis Club Side Walk Program." Mr. Hatch explained to all that it was not he that was "sitting on the sidewalk program," but the incident brought to the minds of all that nothing constructive has really been done toward putting over the club's major program.

The Attendance Record

Dr. A. L. Dillon produced a chart showing the number of times each member of the club had been absent, and urged a better attendance by all members in the future.

MINUTES OF DIRECTORS MEETING OF C. OF C.

The Board of Directors of the Chamber of Commerce had their regular meeting Tuesday morning at which the following directors were present:

W. I. Lukart, Bert Curless, J. E. Lindley, W. H. Bowman, J. M. Bickley, W. B. Cramer, A. Mandell, E. L. Manson, A. B. Austin and C. A. Hatch.

Various phases of municipal affairs were discussed at length. It was unanimously decided that a committee of fifteen representative citizens be appointed to investigate municipal affairs.

Secretary Jones was instructed to continue to look after the Grady road in an effort to keep same open for truck traffic until the wheat could be moved to the market.

J. E. Lindley, Chairman of the Fourth of July Committee of the Chamber of Commerce submitted his report. This report showed that the barbecue cost \$799.89. The barbecue was handled by two committees one headed by Don Weatherford as chairman, the other by Alex Shipley who had charge of barbecuing the meat.

Aviator Mayes and Mr. Otis Downing appeared before the Board of Directors stating that it was his purpose to hold an airplane frolic in Clovis about September 30th at which time there would be from fifteen to twenty-five airplanes present. This exhibit is to be held in connection with the American Legion and the Clovis Trade Unions. Mr. Mayes asked that the Chamber of Commerce furnish gasoline and oil for the planes during exhibit. He estimated the expense to be about \$350.00. The Board of Directors decided to refer the matter to the Legion and the Unions for their attention.

McCAULEY A CANDIDATE

On the back page of this issue E. L. McCauley has a statement in which he announces his candidacy for the office of sheriff of Curry County at the primaries next spring.

A Mandell will leave Sunday for the Eastern markets to buy new fall goods for Mandell Clothing and Dry Goods Co.

Court Room To Get New Furniture

Judge Bratton is making some decided improvements in the district court room this week that will add much to its appearance as well as convenience. A new covering is being put on the floor and new furniture installed.

Since the new district has been created there will likely be a good many more cases heard in the chambers here, as Judge Bratton will spend more of his time here and many non-jury cases from other counties in the district will be heard in Clovis.

PLAINVIEW TAKES FIRST GAME FROM CLOVIS

Plainview won Wednesday in the first of two games of ball to be played there by the local team. The score was 5 to 4 and it took ten innings to decide it.

Step pitched for Clovis and Cavanaugh caught. Clovis made eleven hits and eight errors.

R. F. ASPLUND HERE

R. F. Asplund, special representative of the State Tax Commission, spent two or three days in Clovis this week advising with the county commissioners relative to the budget for this year.

INSTALLING BIG FAN

Hardwick Bros. are installing a large ceiling fan in the Lyceum Theatre which will furnish perfect ventilation for the building.

BUDGET CUT FOR NEXT YEAR

Commissioners Fail to Provide For County Agent's for 1922. This Year's Work Not Affected.

In making out the budget for taxes at a meeting held this week the county commissioners voted for several restrictions. The appropriation for the county agent's work for next year was voted down by the commissioners, however, the appropriation for the Boys' and Girls' Club work was retained in the budget. This does not mean that the county agent's work will not go on this year but does mean provision is not made to furnish the county's part of the finances for the work for 1922. Other items cut out in the budget are Wild Animal Bounty, Indigent Fund, County Road Emergency, Court House and Jail Repair, County Health and County Institute. One tenth of one mill was cut from the General County and two-tenths of a mill from the County Road fund.

H. BELL RETURNS

H. Bell has returned to Clovis after several month stay at Little Rock, Arkansas. Mr. Bell will again engage in the real estate business and has formed a partnership with J. W. Stewart.

BASEBALL SCHEDULE

Clovis is playing Plainview this afternoon at Plainview. Friday and Saturday the home boys will play Floydada at that place. On Sunday afternoon on the Clovis grounds, a game will be played with Portales. This is expected to be one of the best games of the season.

21 DIVORCES ON DOCKET

There Are 135 Cases On Schedule, Only Four of Which Are Listed On the Criminal Docket

District court will convene on Monday, Aug. 1st with Judge Sam Bratton presiding. On the docket there are 135 cases filed, although some of these are perhaps cases that have been settled and will not come up for trial.

Twenty-One Divorce Cases

On the docket there are twenty-one applications for divorce, or one out of about six of every case to be tried. In these cases twelve women are listed as those bringing the action as compared to nine men.

Few Criminal Cases

Out of the 135 cases, there are only four criminal cases which indicates that Curry county has a most law abiding set of people. Of course this number of criminal cases may be increased when the grand jury meets during the term of court.

The following jurors have been summoned:

Grand Jury

C. R. Herrin, A. L. Cox, S. W. Brooks, W. S. Cole, K. C. Childers, R. E. Scarborough, J. H. Engram, Roy Marks, A. M. Singleterry, Sam Stapp, J. A. Nichols, Sam Mitchell, Charley Dunhof, J. D. Crawford, H. G. Cozby, Bert Curless, G. D. Bevel, J. B. Mulhair, A. V. Edmondson, J. B. Benton, A. Rogers, J. P. Brockert, W. B. McPoyner, Chester A. Marks, S. B. Lockman, C. W. Bradley, B. F. Cogdill.

Petit Jury

C. V. Kelly, J. L. Garrett, A. E. Hightower, W. D. Mack, E. T. Dickson, Ed Houk, J. B. Smyth, E. G. Blair, Tom Gallagher, T. W. Stricklin, R. M. Bishop, J. P. Hardin, G. P. Goodrum, Jno. T. Gain, I. N. Storm, W. M. Burdette, John D. Brown, Geo. W. Brownell, Virgil Coffin, G. W. Hyde, J. H. Criswell, F. M. Gibson, E. H. Ashcraft, J. T. Stalker, Albert Pettigrew, M. L. Patterson, M. F. Shaw, Harry Highfill, J. B. Gant, A. G. Black, S. Hoskins, F. E. Teague, J. W. Thompson, J. H. Black, M. L. McClosky, C. A. Scherich.

A FINE CORN COUNTRY

John J. Stevens, who lives a few miles from St. Vrain, was in Clovis Wednesday. Mr. Stevens says there is a fine prospect for row crops in his neighborhood as he has corn that with another good rain at the proper time will make 60 bushels per acre. Mr. Stevens thinks the section he lives in can hardly be beat for raising corn. He has repeatedly gathered from 35 to 40 bushels per acre and says he made one yield of 50 bushels to the acre.

Health Levy Was Turned Down

At a special meeting of the board of county commissioners Monday, the proposed tax levy for county health purposes was turned down. Dr. Waller, state health officer, was here and made a special plea for the levy.

REMODELING FRONT

Jackman Dry Goods Co. has commenced remodeling the front of their store. New show windows will be put in and it will be made modern in every particular.

Miss Lelia Kendall and Mr. A. S. Veasy left Tuesday morning for the eastern markets to buy new goods for the Kendall Dry Goods Company. They will visit St. Louis, Chicago and New York and plan to be gone about a month.

ELEVEN BUSINESS MAXIMS

The president of the London Chamber of Commerce gives these eleven rules which he has tested through years of business experience:

1. Have a definite aim.
2. Go straight for it.
3. Master all details.
4. Always know more than you are expected to know.
5. Remember that difficulties are only made to be overcome.
6. Treat failures as stepping stones to further effort.
7. Never put your hand out

farther than you can draw it back.

8. At times be bold; always, be prudent.

9. Make good use of other men's brains.

10. Listen well; answer cautiously decide promptly.

11. Preserve, by all means in your power "a sound mind in a sound body."

Eastern New Mexico possibilities are not confined to any one county. Curry county will have the banner wheat crop of the state this year and it is doubtful if another county will ever lead her in the production of this staple crop. However, when it comes to raising sweet potatoes and such like, our neighboring county, on the south has all other localities in the state backed clear off the board. According to the Portales Valley News, the Sweet Potato Growers' Association of Roosevelt County, marketed through the association last year, 1,484,650 pounds of fine yams, to say nothing of what was sold direct by the farmers. The 1921 acreage is double what last year was, so the yield will be consequently much larger. Only about one-tenth of Curry county's wheat land is under cultivation and only a small part of Roosevelt county's shallow water district is raising sweet potatoes. When these lands are properly developed these two banner Eastern New Mexico counties will be agricultural empires within themselves.

A dairy cow, a few hogs and a yard full of any good laying strain of chickens will do their full share toward making the farmhouse a desirable home. A few acres well tilled, a wife well willed and a husband who is not afraid to work will bring better results than a 100 acres in woods and a man too lazy to work and a woman who fusses because he would rather sit on a goods box in the shade than work. In fact it takes the united efforts of all hands and the cook to make a big farm pay. And when a farm or any other business does not pay, folk get on the prod. The time is coming when the large tracts of land will be cut up into farms and better results will be obtained. This is clearly demonstrated at this time. The weeds are growing so fast that the man with the hoe can not get over the fields.—Higgins eyes.

Independence for the Filipinos will mean renewed strife, disintegration, and final annexation by some foreign power.

The Wonders of America

By T. T. MAXEY

THE OLDEST SCHOOL.

THE Boston Latin school is the oldest educational institution in the United States, having enjoyed a continuous existence since April, 1635. From the start, it was a school for higher education, especially Latin and Greek. It appears to have been the determination of the founders "To beat Satan in each and all of his lairs;" therefore, "For the common defense and for the general welfare should the classical languages be taught at the common charge."

One day during the early days of the revolution, the master (his teachers were called in those days), a loyalist, announced, as he dismissed school, "War's begun and school's done; deponite libros," but the school was soon re-opened, and when the British evacuated Boston in March, 1776, the master went with them as a prisoner. "He said that in his day, all that was required for admission was to read a few verses in the Bible. School began at seven o'clock in the morning in summer (eight o'clock in winter) and ended at five in the afternoon, with a recess from eleven to one.

The present building, completed in 1890, was, at that time, "the largest structure in America devoted to educational purposes, and the largest in the world used as a free public school." It contains 56 school rooms, each accommodating 35 students.

It is doubtful indeed, if any other school boasts of a more honorable career, can show as long a list of prominent men as graduates, or more persistently conformed to the aspirations of its originators.

WEST CHAPEL SAYINGS

What harvesting is in full way now. Wheat has been slow ripening the last few days.

There was singing here last Sunday night.

Lee Mitchell and sister, Lulu, and Tony Marshall from Ranchvale, were visiting in this community Sunday, and stayed until after singing.

The Misses Alborns, Mrs. Lewis and Mrs. Mullinax called on the Misses Gibbs Sunday evening.

R. D. Chapman was out rustling hands Sunday to help cut his wheat.

Howard Chapman, My. Harral and R. D. Chapman went to see Mr. Glen about threshing wheat Sunday.

Mr. G. M. Rievan has been on the sick list the last few days.

Don't forget the singing school to start at West Chapel beginning the 15th of August, which is to be conducted by R. H. Cornelius. He needs no introduction as most of us have heard him or have heard what a fine singer and teacher he is. He taught our school last year.

A MORAL SPORE AT LARGE AGAIN.

The United States will now be compelled to pay more or less attention to one of the blackest characters that ever dishonored the sporting arenas of the world. Jack Johnson, the nigger prize fighter, immoral and unscrupulous, black in heart as well as skin, a spore from the world of inhumanities, is again loose and seeking worlds to conquer among the sport arenas of the world. He has the nerve to assert that he wasn't guilty of the crime for which he paid penance.

The nigger claims he wasn't whip-

ped at Havana; that he laid down and gave the title away.

He may convince a part of the world that he wasn't licked but at least part of the world will believe that he knew he was licked and he laid down like a yellow dog instead of taking a chance on being knocked out later.

Those who have seen the prize fighters show a streak of yellow and curl up on the mat while the referee counted them out can understand how a nigger, realizing that he was whipped, could show a yellow streak and curl up and take the count rather better than be actually knocked out. The climax of Johnson's immoral life was at Tia Juana, Mexico, just across the border from California, where he coined money as the master of that sport which became as near a hell on earth as it is possible to arrange and where every form of vice

and disease existed, and Johnson was the high lord of it all.

He is a moral renegade, the incarnation of everything evil, a moral spore, and the perverse impersonation of decency. And now we have to again call such a thing an American citizen.

Thank heaven, there is one section of the universe where such a human buzzard can't circulate.—Canadian Record.

Every Little Bit Helps

We now write fire, lightning and tornado insurance on business houses, stocks of goods, dwellings, farm houses, automobiles, threshing machines and live stock.

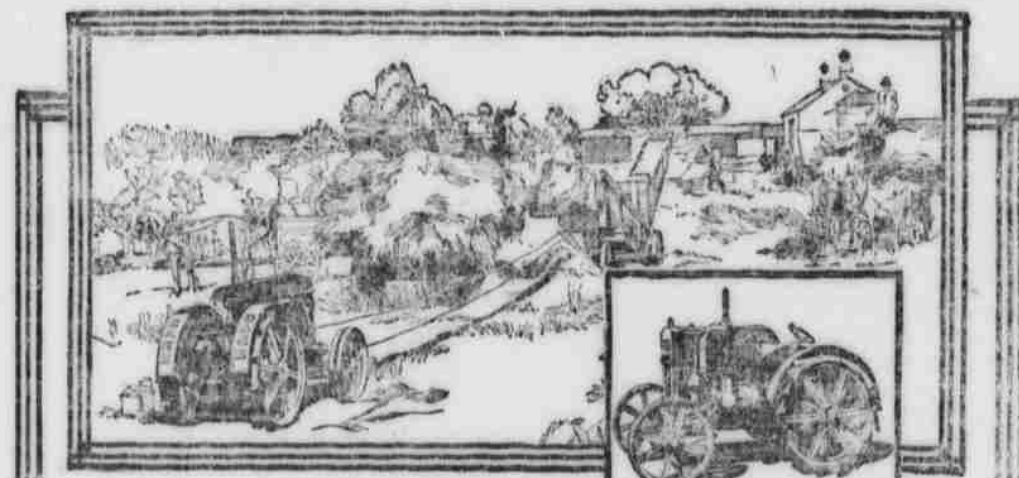

If everyone stopped to figure just how cheap they could carry insurance, no one would carry their own risk against fire. Do you know that less than one-half cent per day for each \$100.00 insurance pays the bill on either city residence or farm dwelling houses and less than one cent per day for \$100.00 pays the insurance on brick buildings or stocks of goods in same? Can you afford to do without insurance at this price?

We do not expect to write all the insurance in Clovis by any means. We do hope to get some of it and EVERY LITTLE BIT HELPS and our motto in writing insurance will be the same we use in our loan and real estate business—PROMPT SERVICE.

A Small Case Thresher and Tractor

This is the ideal outfit for the man who wants to be independent and do his own threshing, and other belt and drawbar work, exactly when he wants to, without waiting.

We picture a Case 10-18 Kerosene Tractor and a Case 20x28 Thresher. The tractor will handle all farm machinery requiring belt power up to its rated capacity.

It will pull easily a 2-bottom plow 7 to 8 inches deep, or an 8-foot

binder, a 22-shoe grain drill, a 5-section spike tooth harrow, an 8-foot double-action disc harrow or a large manure spreader.

For belt and field work, this small Case Tractor cannot be equalled. A Case Thresher is equally superior. Case Machinery has been famous for 76 years.

Let us tell you how you can decrease the hard work on your farm with Case machinery.

That's Different.
Hacon—You're looking fine, old man; what have you been doing?
Egbert—I've given up coffee—
"Good! I told you long ago you should give it up. There's a reason, you know."
"Well you see, every time I ate coffee—"
"Oh say now; nobody eats coffee."
"I say, whenever I ate coffee—cake it gave me indigestion, so I gave up eating it."

Knew What He Was Doing.
Photoplay Writer—But, look here! This character is supposed to be a very homely man, and you have cast for that part the handsomest man in your company.
Director—Oh, he'll be homely enough when the cameraman and the developer get through with him. You see, he's engaged to the star, and both those boys are in love with her.—Film Fun.

A FINANCIAL STRINGENCY
Visiting Statesman: You seem to be suffering a shortage of currency. How do you account for it?
Comrade Ivan Offulitch: Industrial unrest. The counterfeiters of soviet money have gone on strike and demand a daily wage in gold.

Useful Knocking.
We would have less wordy clamor and more deeds to shield our shames if the fellow with the hammer used it in constructing homes.

She is Amused.
"Now you know that you, a jazz baby, never intend to marry a college professor?"
"Maybe not."
"Then why let him make love to you?"
"Aw, it's such fun to hear a college professor converse in gurgles."

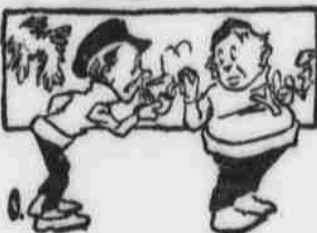

Not the Kind for Present Crisis.
"No," said old Mr. Subbubs. "I can't say that I approve of your match with that city young man."
"But, father, he has such a fine genealogical tree."
"What good is that? If it was pine or hickory we might burn it, seeing we can't get any coal."

Precoocious.
Flatbush—Do you know when a baby begins to think?
Bensonhurst—Why, sure.
Flatbush—Well, when?
Bensonhurst—Mine began to think that I ought to walk the floor with him the first week he arrived in the house.

Might Help.
"Was Shakespeare a poacher?"
"I don't care whether that story is true or not," said the erudite person, "but if it is true it's a pity some of our contemporary dramatists can't take a preliminary course in deer stealing."

Prospects Good.
"Here's a gent writes our mail-order house for a wife."
"Can we fill that order?"
"I think so. One of our young lady clerks has started a coy correspondence with him."—Louisville Courier-Journal.

Real Temptations.
"George Washington was a truthful man."
"As far as he got. But no interviewer ever asked him to make a public statement about his golf score or the number of fish he caught."

ACCOUNTED FOR
1st Student: I understand that there is a great deal of kicking on the professors in regard to the compensation they receive.
2nd Student: Aw! They're only mad 'cause they can't write home to their old man for more money.

Our Share.
We can't all smoke high-priced cigars or own a limousine.
But we can all collect the bands and smell the gasoline.

The Differentiation.
"What's the difference between a farmer and a landed proprietor?" asked Mrs. Cornstossel.
"A farmer," replied her husband, "is a man with a hoe and a landed proprietor is a man with a golf club."

VIEWPOINT

Here at the Clovis National Bank, we strive always to gain the client's point of view—to put ourselves on the outer side of the banking window and see things as our customer sees them.

This policy has enabled us to determine very accurately the needs of our depositors, and to build up a friendly, earnest banking service that meets these needs.

CLOVIS NATIONAL BANK

THE BANK THAT ACCOMODATES

The man who waits for building material demand to slacken, for prices to recede, will lose much in profits and possibly pay even more in the end.

There is profit in building. Otherwise people would not build. With all prices high the profit remains. Why wait?

It is our earnest advise that you build now—that you come to us for your estimates.

THE MARK ON QUALITY LUMBER.

GOOD LUMBER BUILDS BETTER BARN

Be particular about the lumber for a barn. Don't use any poor lumber.

For the frame buy the best grade of Southern Pine—(Government tests show Southern Long Leaf Pine is stronger than Oak).

Have the sills at least 4 x 6. The rafters and studs 2 x 6 and the joists 2 x 10 when the spans 10 feet or over. See that the barn is well wind-braced (diagonally braced); that's very important. The best girder is made of 4 pieces of 2 x 10 spiked together; 6 x 6 girder posts are plenty strong if of Long Leaf Pine.

Then the barn boards or drop siding—get the best. A practically clear No. 1 Southern Pine board will wear like iron.

Stop in and see us when next in town—talk over with us your building problem—our suggestions won't cost you anything. Our practical experience is at your command.

20% RATE CUT IS MADE BY FORD'S RAILROAD

Columbus, Ohio, July 18.—The Detroit, Toledo and Ironton railroad, controlled by Henry Ford, Detroit automobile manufacturer, today filed with the Ohio state public utilities commission a new schedule of freight rates providing for a 20 per cent reduction from the present rates.

This is the first Ohio railroad and believed to be one of the first in the country to announce a voluntary reduction in freight rates.

FARM NOTES

Culling Your Poultry Flock

Every poultry keeper should learn to know the good producing hens in the flock and be able to cull out non-producers. A careful study of a few points to be considered will enable a poultryman to cull his own flock. You can be sure of your accuracy in culling the flock by separating the culls from the producers and keep both flocks for a period of a week or ten days noting the production of each bunch.

Nine Points to Consider in Culling out Non-Producing Hens

During July and August a great many hens finish their producing period for the year. At this time effective culling of the flock may be done by observing these body characters which vary with egg production. The nine points of indication as numbered on illustrations give at this time of the year definite information as to the value of the hen as an egg producer.

The Vent loses its yellow color with two to three weeks of laying. A loose moist vent means that the hen is producing eggs. A tight dry vent means that the hen has discontinued laying at that time.

The Eye Ring, the inner edge of the eyelids, require from one to two weeks longer to bleach out than the vent.

Ear Lobes of the Mediterranean breeds require a few days longer to lose the yellow or fat coloring than the eye ring.

The Beak will lose its yellow color from the base toward the tip. A bleached beak indicates that the hen has been in production from four to six weeks. Frequently a light or bleached band will be noticed midway between the base and tip of the beak. This indicates that the hen had been in production for a short period and then had stopped, which permitted the yellow to begin coming back into the beak, beginning at the base and pushing the bleached portion in front of it.

The Lower Mandible may be used in place of the upper mandible for birds where the upper mandible is black or horn. However, the period of bleaching for the lower mandible is one or two weeks shorter than the period of the upper mandible.

The Shank bleaches out slower than any of the other points and a pale or bleached shank therefore indicates production for a period of fifteen to twenty weeks. The color of the shank leaves from the heels on the front of the shank towards the back of the shank, therefore a hen with the front of the shank bleached and the rear yellow would be considered as a hen having produced for a period not to exceed the ten weeks just passed.

Comb, Wattles and Ear Lobes indicate the activity of the ovary. Comb, wattles and ear lobes that are fully expanded, hard, plump, full and smooth indicate that the hen is in heavy production. A shriveled and dried comb with a pale or pink to white color indicates an inactive ovary and therefore a non-producing hen. A limp comb, but one that is not dried down, indicates that the hen is coming back into production after a period of rest.

The Abdomen is dilated soft. The pelvic arches being well spread and the keel forced down from the pelvic bones giving greater capacity. Heavy production is indicated by the quality of the skin and the condition of the pelvic arches. A soft velvety skin and pliable pelvic arches indicate heavy production. Stiff pelvic arches and a coarse rough skin underlain with much fat indicates non-production.

The Scales on the heel or rear hock joint indicate the natural color of the shanks. These scales do not bleach and by a comparison, using these as an index, it may be determined to what extent the shanks have bleached thru production.

Culling by this method must be done before the molt begins. When the molt begins the color of the skin, shanks, beak, etc., again becomes normal.

The Frenchman's Farm Bureau

Dean Thomas F. Hunt of the College of Agriculture of the University of California has just returned from Europe, where he spent almost a year as the official representative of the United States of America at the International Institute of Agriculture in Rome. He was surprised and gratified to find in France an organization of farmers strikingly similar to the Farm Bureau in America. Says Dean Hunt:

"France has an organization somewhat similar to the American Farm Bureau Federation. The chief point of difference is in the fact that the

350 adhering groups lack uniformity of name, all of which will doubtless be a source of weakness. The American Farm Bureau Federation is fortunate in having a simple, direct and uniform system of membership.

"The French Federation is known as La Confederation Nationale des Associations Agricoles and is usually referred to as C. N. A. A. That symbol stands for a great deal today. Backed by a group of aggressive but careful thinkers, this Federation has developed a spirit of solidarity among farmers heretofore unknown.

"France has had for many years, at least for more than a decade, a national agricultural extension system with trained men in each of its 89 departments, corresponding rather closely to our county agents or farm advisors. In France the county agent is known as the 'Professor of Agriculture.'

"Realizing the grave problems growing out of the Great War, the C. N. A. A. was organized on Oct. 22, 1919, with Jules Gantier, an unusually keen-minded man of the idealistic type as President and Henry Girard, a prosperous and well-known farmer operating about 1,500 acres within a short distance of Paris, as Secretary-General. To the wise and untiring effort of these two gentle-

men much of the success of this organization has been due. It has enlisted the support of the leaders of French agriculture. Its annual gathering is held under the patronage of the President of the Republic and the Minister of Agriculture. The C. N. A. A. has given attention to better methods of standardization; more freedom of action on the part of cooperative associations, especially in the buying of supplies; reforms in inheritance of farm property and in legal methods of consolidation of small and scattered pieces of property, especially in the devastated areas; and the introduction of motor culture to offset the lack of manpower. These are burning questions in France, much discussed by public men both in and out of legislative bodies."

Tax-Payers!

I want to thank the tax payers of Curry County for the splendid showing they have made in the payment of their taxes for 1920. July 1st 821-2 per cent of 1920 taxes had been paid. This is a fine showing when you consider the financial strain all our people have experienced during the last six months.

If you have not paid all of your taxes you should pay them by July 31st. On August 1st regular interest and also 5 per cent penalty will attach. New tax law requires tax collector to file copy of tax roll in District Court as a complaint for suit against all delinquents. A summons will issue out of District Court. Please pay balance of your taxes before suit is filed.

DAILY MEALS.

One of the important things of life is the planning and serving of three meals a day, which is the work of the housekeeper in every home. To serve these meals so that they appeal to the appetite and supply the proper balance of food is no small task. No woman can feed her family well unless she plans her meals beforehand. The haphazard serving of what happens to be at hand is neither wise nor economical.

The woman who does her marketing herself, as a rule, is the one who gets the best service and often choice foods which will add variety may be found which would otherwise be missed. The best cuts of meat will be seen and bought by the woman doing her own marketing and she'll save much about meat by the daily visits with an intelligent butcher.

Carrot Soup.—Scrape and slice six carrots. Peel and chop one onion. Melt three tablespoonfuls of bacon fat, add the prepared vegetables, cover and let cook very slowly for one hour or until soft; add three pints of broth made from chicken bones and chopped giblets, simmer for half an hour, thicken with a tablespoonful of potato flour or cornstarch mixed with a little cold water, added to the soup after straining. Season with salt, pepper and serve hot.

Boned Leg of Lamb.—Stuff the cavity from which the bone has been removed with any good bread dressing. Baste with salt pork fat and cook one and three-fourths to two hours. Serve on a platter, garnished with tomatoes stuffed with nuts.

Brussels Sprouts With Butter.—Cook one quart of Brussels sprouts in two quarts of boiling, salted water until tender. Drain on a cloth, then toss in a saucepan with one-fourth of a cupful of melted butter, until the butter is absorbed; sprinkle with chopped parsley and serve in a mound on a serving dish.

WHAT NEXT?

It's a sad, sad tale, matey. Baseball comes within the scope of the toothed anti-gambling law passed by the fifth legislature "if played for anything of value."

Attorney General Henry Z. Bowman says so in an opinion to Justice of the Peace R. M. Parsons, Roswell. His idea is that baseball contains sufficient "element of chance" to bring the sport within the meaning of the law.

Mr. Bowman also confirms the impression that bridge, whist and other card games played at private houses for prizes are taboo under the law. He says they are unlawful if only guest prizes are given, but the players before they can be dragged off to the "jugado" must have guilty knowledge that they are playing for prizes or something of value.—Clayton News.

Individualism.
"I understand you called on the citizens of Grimsen Gulch to discuss." "Yes," replied Gustus Joe, "The idea met with great applause."
"Has anybody deserted?"

ONCE TO EVERY WOMAN
ONCE in every woman's life comes a certain great moment. Once in her lifetime something comes to her on which her whole future depends. It has come—or will surely come—to you just as it came to Aurora Meredith. What do you think of it? You'll know when you see splendid Dorothy Phillips, the star of "The Heart of Humanity" and "The Right to Happiness" play this great part in a picture that every woman in the world will understand. A picture for which a whole opera was produced—in which the players sang just as they sing on the mighty stage of the Metropolitan—a dazzling production in which the social leaders of a great western city acted as the "extras"—a marvelous love story that you'll never forget. BELIEVES TANLAC KEPT HIM ON JOB

Tulsa Citizen Declares His Wife Was Also Greatly Benefitted By Taking It

"It was certainly well spent when I bought Tanlac, for I doubt if I would be able to be on the job today if it hadn't been for this medicine," said J. E. Chandler, of 32 Olympia St., Tulsa, Okla.

"For a long time before I got Tanlac I was troubled with what I believe was rheumatism. I had awful pains and soreness in my shoulders, and many times my arms were so stiff and ached so bad I could hardly raise my hands to my head. I don't believe I could have been in more misery had some one been sticking me with a knife, and it was just all I could do to stay on the job. I couldn't find anything to help me, and I was certainly in bad shape.

"I have taken six bottles of Tanlac, and it has relieved me of rheumatism so completely that I never have an ache or pain and I have regained my full strength and energy.

"My wife was not well and had no appetite to speak of. She took Tanlac at the same time I did, and it has given her such a splendid appetite that she said to me the other day it looked like she would eat us out of house and home. I believe Tanlac is all that kept me on the job, and there are so many others in ill health that I feel it is my duty to tell everybody I can about it."

FORD PLANT BUILDS 108,962 IN JUNE

During the month of June, the Ford Motor Company, thru its Detroit Factories and 22 Assembly Plants throughout the country, reached the production of 108,962 Ford cars and trucks, setting up a new high record for one month.

Production of Ford cars and trucks has been steadily increasing since early Spring, and shows substantial gains over the same period last year. The second quarter of 1921, viz., April, May and June, shows an output of 301,796 Ford cars and Trucks against 220,878 for the same three months of last year, or a net increase of 80,918.

Despite the fact, however, that the Ford Plants have been running at maximum capacity, the demand for Ford cars and trucks is not being met, and at the present time, many thousand unfiled orders have been piled up ahead so that Ford sales are still limited by manufacturing facilities rather than marketing possibilities. Particularly is this true with respect to enclosed cars, for which the demand has been unusually heavy.

One reason cited by Ford Officials for the unprecedented demand for Ford cars is the present tendency toward economy. Many of those whose names have been added to the long list of buyers might well have afforded larger and more costly cars than the Ford, but it is the belief that most prospective motor car buyers are investing all of the costs incident to motoring much more carefully than at any period during the past five years.

The estimated output of the Ford Factories for July calls for 109,000 cars and trucks, or a production of 4300 a day for 25 days. Since the assembling of cars is being handled during an eight hour work day only,

the hourly output will be 545 cars. In other words one Ford car or truck leaves the assembly line every 6 1/2 seconds.

MORTGAGE DEBTS OF FARMERS MORE THAN DOUBLED

Washington, July 17.—Mortgage debts of American farmers more than doubled in the decade between 1910 and 1920, it was reported today by the census bureau. The increase in mortgage charges against farms owned by their operators was 32.5 per cent, or from \$1,720,172,851 in 1910 to \$4,012,711,213 in 1920.

The mortgages amounted in 1920 to 29.1 per cent of the value of the farms, against debt of 27.3 per cent of the values in 1910. The values of the farms in 1920, the report said, was \$13,772,729,610.

The average amount of mortgage debt per farm for the United States in 1920 was \$3,361 against \$1,715 in 1910.

For the ten year period the value of the farms increased 117.6 per cent and the number of farms operated by their owners and carrying mortgage debts increased 18.6 per cent.

The greatest relative increase in farm mortgage debts took place in the mountain states.

No man gets very far, or expresses great power, until he catches a glimpse of his higher self—until he feels that the divinity that is stirring within him, and which impels him on the way of his ambition, is an indication, a prophecy of his ability to reach the ideal which haunts him.—The New Success.

NOTICE OF SUIT.

In the District Court of Curry County, State of New Mexico.

J. N. Brown, Plaintiff, vs. Charles V. Woods, ("sometimes known and called C. V. Woods") and M. C. Woods, his wife, F. M. Parrish and Emma Parrish, his wife, J. B. Herrin and Willis Corn Herrin, his wife, H. B. Markham, and May Markham, his wife, and J. N. Gasaway, Defendants. No. 1795.

The State of New Mexico, to the above named defendants Charles V. Woods, ("sometimes known as C. V. Woods") and M. C. Woods, his wife, F. M. Parrish and Emma Parrish, his wife, J. B. Herrin and Willis Corn Herrin, his wife, H. B. Markham and May Markham, his wife, and J. N. Gasaway, Defendants, Greeting:

You and each of you will hereby take notice that a suit has been filed and is now pending in the District Court of Curry County, State of New Mexico, in which J. N. Brown is plaintiff, and you the said Charles V. Woods, ("sometimes known and called C. V. Woods"), and M. C. Woods, his wife, F. M. Parrish and Emma Parrish, his wife, J. B. Herrin and Willis Corn Herrin, his wife, H. B. Markham and May Markham, his wife, and J. N. Gasaway, are defendants, said suit being numbered 1795 on the Civil Docket of said Court, and that Rowells & Reese, whose business and post office address is Clovis, New Mexico, are attorneys for the plaintiff in said suit.

You and each of you will further take notice that the general objects of said action are as follows, to-wit: That the plaintiff prays for an order of Court cancelling, satisfying and releasing of record a certain real estate mortgage which is recorded in Book 2, Page 270, of the Records of Mortgages of Curry County, New Mexico, and made by J. B. Herrin as Grantor, to J. N. Gasaway, to secure a note for the sum of \$155.73, dated 5-12-1909, and covering the Northwest Quarter of Section Seven, Township Seven North, Range Thirty-Six East of the New Mexico Principal Meridian, Curry County, New Mexico, and that plaintiff's claim and title to said lands be quieted and set at rest, and that said defendants and each of them have no right, valid claim or title therein, and that plaintiff's title to said lands is valid and perfect, and that said defendants and each of them be perpetually barred and enjoined from setting up or asserting any title or interest in said land and premises adverse to the plaintiff. And that the Court decree that Charles V. Woods and C. V. Woods is one and the same person.

You will further take notice that unless you and each of you appear, answer or otherwise plead in said cause on or before the 22nd day of August, 1921, that the allegations set forth in the plaintiff's complaint will be taken as true and confessed and the plaintiff will apply to the Court for and will take judgment by default against you and each of you, and will apply to the Court for the relief as prayed for in the complaint filed herein.

Witness my hand and the seal of said Court this 18th day of June, A. D. 1921.

THE UNIVERSAL CAR

A TRUCK FOR CITY, FARM AND INTERURBAN DELIVERIES

In the few years it has been on the market, the Ford One-Ton Truck has mounted rapidly to popularity. During the past year, more than one-third of the total number of trucks sold in the United States, were Ford One-Ton Trucks. It is a record of achievement made entirely on demonstrated merit.

Whenever the Ford Truck has been used—on the farm, in the city, its sure, economical service and simplicity have made it a success. So that today it is a necessity for the wholesaler, the retailer, the farmer. It offers efficient and economical hauling for every business. Demountable Rims and Pneumatic tires.

The Ford One-Truck costs less to buy than any other truck; it costs less to operate and less to maintain. Added to this is the Ford service organization; spare parts, and Ford mechanics are always convenient and ready to keep the Ford Truck on the job. The Ford Truck cuts delivery costs. Because of increasing demand, orders should be placed without delay. We will give you prompt attention. If you have any doubts on the subject drop in to any of the undersigned Authorized Ford Dealers and get further facts.

RANCHVALE RUMORS

A fine rain again Monday night which is fine for row crops but hard on ripe wheat.

Wheat harvest is almost done here now and a large percentage is threshed or will be in another week.

Mitchell's thresher is now in this vicinity, as well as Bohannon's and Buchanan's. There are also two more machines owned by the farmers. They will make short work of the wheat crop when all get strung out.

Jack Lamson and J. E. Walker have finished with their combine and have gone to Mr. Walker's this week.

Mrs. White and children have returned to the ranch for harvesting wheat.

Ed Robinson's header is at Bill Robinson's now. He expects to be back the last of the week and finish up late cutting.

Why should the men wear bonnets now or else let the women who do wear bonnets work the crops? Because the corn is shunting ears.

Mr. and Mrs. Whitaker returned from a three-months visit in Texas last Thursday. They made the trip in his Ford.

Rev. Hatfield expects to start a series of meetings here about the first of August. Be sure to attend them. Singing school each Sunday afternoon. Song services at 1:30, then

Sunday school at 2:00.

Mrs. Durand met with the sewing class here Monday. They made a dress form for Mrs. Matthews.

We would be glad to see you at our Sunday school as we need a few more to bring our attendance up to the 100 mark. We average about 90 now. Come and help reach 100, won't you?

CAMERON NEWS

All harvesting machines are still very busy in the wheat fields, and will be far at least two more weeks, as there are yet thousands of acres of unharvested grain here.

Dairying and Deposits

How dairying furnishes helps the finances of a community is brought out in a recent News Letter of the Western Office, Dairy Division U. S. A., quoting figures on representative districts in the states of Washington, Idaho, and Minnesota. General opinion is to the effect that farmers who have regular incomes from a herd of dairy cows are in a decidedly better financial condition than those engaged in other branches of agriculture. Bank deposit statistics show this to be true. The total deposits in the typical dairy communities in the above named states, in July, 1920 were \$17,325,140, while in January 1, 1921, they were \$17,387,670, an increase of over \$50,000 in a period when decreases were almost universal. Six other communities where dairying is not the chief source of farm income, selected for comparison from the same group of states, show a net decrease in deposits for the same period of over \$17,000.

The comment of the News Letter on these figures is pertinent: "We do not pretend to say that the dairy cow should be the only source of the farmer's income, but the increase in the dairy sections, and the decrease in the other sections of it. Perhaps his presence and association have made a better all round farmer of her owner. Who knows?"—Western Farm Life.

Paper Lined Sack Keeps Flour Clean

Leads in Cleanliness As in Quality

The supremacy in quality which IMPERIAL FLOUR has won, would more than satisfy most millers.

But to us, supreme quality brings a duty of supreme cleanliness.

At last we have a sack worthy of our flour—a paper-lined sack that is dust proof, air proof, waste proof and worry proof.

It brings IMPERIAL FLOUR to you as clean as it leaves the mill. The paper removes easily from the empty sack.

Order from your grocer today. Insist upon IMPERIAL FLOUR in the Saxolin Bag.

The Joy of Living

Comes to YOU if you have Fresh, Red Blood

The stomach is the center of the body from which radiates our vitality, strength, our fighting strength. A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. Dr. Pierce's Golden Medical Discovery refreshes and tones up the stomach walls, removes the poisonous gases from the system, makes the blood richer.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the liver, bowels and kidneys. Get Dr. Pierce's Golden Medical Discovery today from any medicine dealer; or send 10 cents to Dr. Pierce's Laboratory in Buffalo, N. Y., for a trial package of the tablets. It is a powerful blood purifier and tonic. Tho' over 50 years old, over one million bottles were sold only last year.

The Wonders of America

By T. T. MAXEY

HELL GATE BRIDGE.

THE completion of the New York Connecting railroad gave us our first all-rail through route from New England, via New York, to the rest of America and a continuous rail line up and down the Atlantic coast from Key West to Halifax. It also calls to mind the fact that the insurmountable obstacle which had heretofore blocked the way had been overcome and the supposedly impossible accomplished.

Before this route could be opened, it was necessary to get trains across that terror to navigators, the rocky-bottomed tidal channel, known as "Hell Gate" between Long Island Shore and Ward's Island in the East river, opposite Manhattan Island on which New York city proper stands.

It was not possible to stake piers into the channel, and the stretch was considered too great to be covered by one arched span. An engineer with vision came to the rescue and trains now cross on a wonderful four-tracked steel bridge. A peerless steel arch, 1,017 feet long, said to be the longest as well as the heaviest ever flung across any waterway of equal width, now bridges the gap. The entire weight is carried by gigantic 250-foot high towers on either shore. The bridge is 93 feet wide, designed to carry 70,000 pounds per linear foot. The extreme height of the arch is more than 300 feet above the water.

About 10,000 tons of steel were used. The towers are bedded in solid rock, and it is estimated that they contain 1,000,000 cubic feet of masonry. The bridge cost \$12,000,000.

They call it a monopoly, but it is King George the Fifth, and Lloyd George the First—Evans, Republicanism.

NOTICE OF SUIT

To the defendants, W. F. Faulk and Vera Faulk:

You will hereby take notice that a suit has been filed and is now pending in the District Court of Curry County, New Mexico, in which H. G. Springfield and T. F. Wells are plaintiffs, and in which you the said W. F. Faulk and Vera Faulk, his wife, together with R. L. Thomas, L. M. Wood and J. F. Sollars, are defendants, said case being instituted 1787 on the Civil Docket of said Court.

You will further take notice that the objects of said suit are as follows: To recover judgment against said defendants in the sum of \$1,007.50 and the further sum of \$100.75 as attorney fee and costs of suit on account of a certain promissory note executed by C. J. Harford and Cora Harford on the 11th day of September, 1920, for the sum of \$1500.00 payable to the order of said plaintiffs, due on or before the 11th day of March, 1921, bearing interest at the rate of ten per cent per annum from date until paid, the payment of which said note was assumed by said defendants.

To foreclose a certain mortgage executed by the said C. J. Harford and Cora Harford, his wife, conveying the following described real estate situate in Curry County, New Mexico, to secure said note, to-wit: The SE 1/4 of Section 17, in Twp. 3, N., Range 36, E.

To recover from said defendants the sum of \$50.00 paid by plaintiffs to cover an installment of principal and interest due on a certain mortgage given by L. B. Maxey and Bessie Maxey, his wife, to the Federal Land Bank of Wichita, Kansas, conveying said real estate, the payment of which said amount was assumed by said defendants.

That Patton & Hatch, whose post office and business address is Clovis, New Mexico, are attorneys for plaintiffs.

You will further take notice that unless you enter your appearance in said suit, or plead or answer therein, on or before the 12th day of August, 1921, judgment by default will be rendered against you in the sum heretofore named, and said mortgage and lien will be foreclosed, and plaintiffs will apply to the court for the relief prayed for in said complaint.

In witness whereof, I have hereunto set my hand and affixed the seal of said court, this 1st day of June, 1921.

(SEAL) DANIEL BOONE,
County Clerk.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube returned to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Catarrh cured free. All Druggists. P. J. CHENEY & CO., 70-72, O.

AMERICAN LEGION WILL STAGE ANOTHER CELEBRATION

Members of the Dean Lucas Post No. 25, American Legion, are again at work on a real celebration for Clovis, and are determined to give J. Pluvius another opening for a rain. The dates finally set for the celebration are August 18th, 19th, and 20th, next, which will fall on Thursday, Friday and Saturday. Members of the Post have discussed the matter with a number of business men and others and it is mutually agreed that the only thing lacking about the celebration of July 4th and 5th was 'sunshine', as everything else was complete, and all hands agree that the weather charts shows the dates chosen in August to be the least likely to have rainfall.

There was quite a deficit shown on the last celebration owing to the weather conditions, and it is the intention of the Legion to wipe out this deficit in August.

The plans for the August celebration are almost complete and the

outline shows that it will be the same sort of programme planned for July 4th and 5th, only there will be more roping, riding, more bulldozing, and several more of the good riders to take part in the August program. The same lineup of "bad horses" has been obtained only there will be a greater number, as everyone expects to see a bigger entry list in each event, and it is now known that the steer roping entry list of July 4th was the biggest ever seen in the State. In addition to the other events which were scheduled before, the Legion has added a calf roping contest which is very popular with the cowmen over the country. The cowmen have enthusiastically endorsed the efforts of the Legion and are assisting them in making the arrangements for the August event, and have promised their co-operation in putting on the program successfully. The Legion announces that owing to the inclemency of the weather the

Fireworks scheduled for the Fourth of July were not used, but were held until a date could be set, now it is their intention to have the Fireworks Display on the Evening of August 20th, which will be Saturday, and the day when the prizes for the best average for the three days in the several events. Dr. J. Foster Scott, Jr., is the engineer of the Fireworks Display and assures every body that this feature will be the largest and best of its kind ever staged in New Mexico, so we are all looking forward to that particular feature.

As the plans are completed, full details will appear in the following issues of the Clovis News.

PLAINVIEW ROOSTERS AND PIGS GET DRUNK

Plainview, Texas, July 18.—Highly intoxicated pigs and chickens, doing all kinds of unusual stunts, drew the attention of Hale County officers Saturday night and resulted in the arrest of several parties in West Plainview on charges of operating a large still. The capacity of the still was about sixty gallons of high power liquor per day and it is believed that the outfit had been run at capacity for some time. Officers now believe that they have solved Plainview's biggest prohibition problem.

It seems that the poultry and swine on the suburban farm, where the still was located, had discovered some of the sour mash and had partaken of a generous portion of it. Officers saw pigs acting more like playful kittens and heard drunken roosters crowing in deep bass. Not being accustomed to such sights, they started an investigation with the aforesaid results.

FARM NOTES

Many farmers are taking advantage of the rainy weather for discing or plowing their stubble. Besides the economy in time this is destroying volunteer grain and weeds in the field which will prevent development of green bug troubles next year and is conserving moisture for the coming wheat crop.

All wheat farmers should take every precaution to have clean volunteer grain and prevent green bug infestations next year.

Much Seed is Developing in Some Wheat Fields in Curry County

Farmers planning to sow wheat this fall should save their seed from wheat that has not been invaded with must if possible and all grain should be treated for must before sowing.

If you do not have directions for treating your grain call on the county agent.

Every precaution possible should be taken to make maximum yields of crops. With prices low the man who is making the average crop is barely making expenses, or possibly losing money. If profit is possible in crop production it is the highest yielding crops that make the most profit.

County Agents gave a moving picture show at Texico Friday evening, July 15th, at the First Baptist Church in connection with a club meeting. There was a good attendance.

There was also a good attendance at the Grady meeting Saturday, July 16th, where the moving pictures were given at the club meeting.

Due to the very heavy rain storm on Monday, July 18th no meeting was given at St. Vrain.

On Wednesday evening county agents gave a picture show in connection with boys and girls club meeting at Melrose.

Singing Convention Notes

The Moyo Union Class met with Moyo-Chapel Sunday night, July 17, with a large attendance, as usual.

As Mr. Welch, the leader, is spending a while in Oklahoma, and Arkansas, teaching school. Mr. J. B. Langford of Texico has been selected to take charge of the class until "Jeff" comes back. Moyo-Union is looking very hard toward the Singing Conventions and are all "head-over-heels" into getting the great Platau Singing Convention organized.

The DeBaca County Singing Convention met last Sunday at Dunlap. N. M. Followers are the officers of that Association: J. B. Carnes, President, Dunlap; J. E. Owens, vice-president, Fort Sumner; Mrs. J. C. Dooling, secretary, Fort Sumner. The next regular meeting of the DeBaca Association will be at Fort Sumner on the first Sunday in September.

Boys' and Girls' Club Corner

By Mrs. Edna Hume Durand
County Club Leader

Dress Form Meeting

At the home of Mrs. A. B. Douglas, Mill-McDonald community, Mrs. A. J. Wright and the club agent gave a dress form demonstration. A lightful dinner was served at the noon hour and the afternoon was given over to the club meeting, at which time Mr. Hollinger showed the federal blues that have been in the county this week.

With Dress Forms Striking Health Lessons Taught

"At a clothing meeting six dress forms were made and the possibilities of the work discussed. From a number of these dress forms striking lessons in health and hygiene were drawn. One woman decided to get material and make one for her daughter in order to let the girl see very definitely for herself how round-shouldered she really is. It seems to me that such results as that are much worth while even though they are not estimated in dollars and cents."—M. Rosalind Tilden, Home Demonstration Agent, White River Junction, Vt. (American Farming)

The Banner Meeting for July

The Frio Club met the fourteenth. There was only one member absent. Every member had their records up to date and were on time. Miss Ethel Singleberry is the leader of this group and they are surely a bunch of enthusiastic clubbers.

The Texico club held their meeting Friday evening in connection with the picture show. The girls will hold a meeting Thursday evening at 8:00 o'clock at the Baptist church.

It was a representative neighborhood crowd that attended the picture show at Havenor on the evening of the nineteenth.

Millinery Suggestions

"In purchasing a new hat insist upon standing before a full length mir-

ror. A hat may be becoming to a person when only the face is seen, but may make one look too short or too tall when the entire figure is seen.

"A hat should be large enough to cover the head.

"The silhouette of the crown should be a continuation of the line of the face.

"The base of the crown should in almost every instance be horizontal. Few hats are becoming when tipped forward or backward.

"Beware of head sizes that are too small or that are round in shape rather than oval.

"A person who wears spectacles must have a hat that extends beyond the spectacles."—Alice V. Bosserman Home Demonstration Agent, Buffalo, N. Y. (American Farming)

WHEN TO QUIT

Not long ago a questionnaire was sent to successful merchants and manufacturers in various lines of industry asking them to state their ideas as to the best time to stop advertisements. Numerous replies were received, some of which were as follows:

"When population ceases to multiply and the generations that crowd on after you and never heard of you, stop coming on."

"When you have convinced everybody whose life will touch yours, that you have better goods and lower prices than they can get anywhere else."

"When you perceive it to be the rule that men who never advertise are outstripping their neighbors on the same line of business."

"When men stop making fortunes right in your sight solely through the use of legitimate advertising."

"When you can forget the words of the shrewdest and most successful business men concerning the main cause of their prosperity."

"When every man has become so thoroughly a creature of habit that he will certainly buy this year where he bought last year."

"When younger, fresher houses in your line cease starting up and using newspapers to tell to the people how they can give them better goods or better service than you can."

"When nobody else thinks it pays to advertise."

The Wonders of America By T. T. MAKEY

THE MISSOURI BOTANICAL GARDEN.

IN 1849 Henry Shaw, a citizen of St. Louis, a lover of nature and of flowers in particular, built a large country residence near the city limits. He surrounded it with flowers and plants of every known variety. When he died in 1896, his will provided for a board of trustees to manage the garden and left sufficient funds to support it. This wonderful floral park, said to be the largest in the world, was thus preserved for the education, admiration and enjoyment of all.

It contains a collection embracing 150 species of palms; a varied collection of tropical and sub-tropical plants; a collection of the 35 known species of cypresses; a wonderful assortment of plants which grow best under desert conditions; numerous species of ferns and allied plants; a great array of plants of great economic value and displays of plants that feed on insects; species of the pineapple and its relatives; numerous showy, flowering plants, while in the private orchard a representative of each of the species of this beautiful flower can be found.

The outdoor collection includes a water garden, several hundred varieties of roses, numerous species of herblike plants, a rare pansy display, a variety of economic plants and trees and shrubs, native to North America and grouped in families. All told, about eleven thousand species of plants are growing in this garden. The body of Mr. Shaw reposes in a handsome mausoleum within the grounds.

Otherwise Triplets

Novelist Harry Leon Wilson was drawing at a Los Angeles luncheon, upon his inexhaustible store of anecdotes about children.

"Another little boy I know," he said, "prayed and prayed to have a baby brother, but finally he stopped praying in despair.

"I guess God ain't got no more babies," he said, "so I ain't goin' to bother him no more."

"Some weeks later, this lad's father led him on tiptoe into his mother's bed-room and there lay two baby brothers, twins!

"The little fellow looked at the twins dubiously. Then he said: "Gee gosh, it's a good thing I stopped praying when I did."

FARMERS WARNED TO CHECK FLY SCOURGE

Stillwater, Okla.—Because of continuous rains and the resultant rank vegetation, flies and mosquitoes will be worse this year than ever before in Oklahoma's history, unless an aggressive campaign is conducted to kill off breeding places, according to C. E. Sanborn, entomologist at the A. and M. college here.

Sanborn is sending out bulletins to farmers this week urging them to remove collections of filth around barns and barn lots, to eliminate the breeding places of stable flies, and to treat pasture watering tanks with copper or blue vitrol to kill off algae and thereby prevent the collection of scum on the water which cattle and horses must drink. If water pools are not needed, they should be drained or treated with crude oil, Sanborn advises.

WHEN SCOT MET SCOT

A Scotchman was strolling through the market place one day with his faithful colts at his heels. Attracted by a fine display of shell and other fish, the Scot stopped to admire, perhaps to purchase. The dog stood by, gently wagging its tail, while its master engaged the fish-monger in conversation.

Unfortunately for the dog, its tail dropped for a moment over a big basketful of fine lobsters. Instantly one of the largest lobsters snapped its claws on the tail, and the surprised colts rushed off through the market, whirring with pain, while the lobster hung on grimly, though dashed violently from side to side. The fish-monger for a moment was speechless with indignation. Then, turning to his prospective customer, he bawled:

"Men! men! whistle to yer dog! Whistle to yer dog!"

"Hoat, mon!" returned the other, complacently, "whistle to yer lobster!"

SOUNDED DUBIOUS

"Was her father encouraging when you went to ask him for his daughter's hand?" the friend asked.

"We-e-ll, that depends," replied the suitor gloomily.

"How's that?"

"He told me to put my proposition in writing so that I couldn't back out on all the others had done."—American Legion Weekly.

SOUR STOMACH INDIGESTION

Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouchered for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E 8

Real Service!

We are now feeding more people than at any time we have been in the restaurant business in Clovis. There is a reason for this. We are giving our patrons the very best possible service and plenty of good things to eat.

OPEN ALL NIGHT

We have adopted a new policy of keeping our restaurant open all night. This will give the wheat haulers a chance to get something to eat no matter how late they are in getting in at night or how early they want to get out in the morning.

TO THE PEOPLE OF CURRY COUNTY.

Just a little early! Yes, on this we agree. The accumulating interest in state politics because of the approaching election of a United States Senator for New Mexico is causing the people to think seriously of things in their general political aspect, so naturally the discussion turns to the next county campaign, which under ordinary circumstances would not become the topic of conversation prior to the early part of the coming year.

My friends now say that it is reasonable that I should advise the people of Curry County that it is my intention to make the race for the nomination for sheriff of the county, subject to the will of the Democratic Party. While I have consented to make the announcement at this time, it is not my intention to begin active campaigning quite so many months before the time for the election of the nominee. It is true, however, that I do expect to enter the campaign and that I shall make a thorough and active campaign of the county. I invite the investigation that every thoughtful voter should make before determining for whom he or she should cast his or her ballot.

Yours truly,
E. L. McCauley.
