**SHORT TALK ON ADVERTISING**

The local newspaper must always be the mainstay of any advertising campaign designed to catch the eye of the masses of the people. By no other means can so large a portion of the best trade be reached. The local idea:

"Oh, my dear fellow, I cannot lay off my clerk without losing him; I cannot change my location without losing it; I cannot suspend my insurance without losing my protection—but Advertising, that's different. Advertising is a faithful dog; I can kick him into the street whenever I feel like it and he wags his tail and comes back when I want to wipe my feet upon him."

That is not true. Advertising is not different. It is a great force in business and many foolish claims are made for it, but it is not greater nor more powerful than any other factor of business. If any good is to come from it it must be kept on the job.

The local merchant should set aside a definite sum to be spent in a year. His expenditure should be based upon a percentage of last year's business and he should spend it systematically. Don't let the question of "copy" frighten you to death; don't let him get the idea that "copy" is the whole thing in advertising. To be sure there's a great difference in the effectiveness of advertisements, but if he will forget all about fine writing or being smart or clever; if he will forget the big sounding pet phrases which have been used so often that they mean nothing, and sit down and talk to the people of his community about his store and his stock and his service, he will write a good ad without knowing it.

Is there any good reason in the world why the local people should buy the merchandise? Let him tell

them the reason; and tell them again and keep telling them. That's advertising—good advertising. Has he anything in stock that Mrs. Jones or Miss Smith or John Brown would be interested in? Let him tell them about it, and tell them about it next week, and tell them about nothing else, until they know beyond doubt that he has about the niftiest stock of goods ever brought together.

That's advertising—good advertising. And it will pay.—R. T. Porte.

**MAKE TOURISTS FEEL AT HOME IN CLOVIS.**

Dr. A. L. Dillon, president of the Kiwanis Club, said in a talk at the Club this week that Clovis citizens were making a mistake by not paying more attention to the auto tourists. Doctor Dillon says on a recent automobile trip he noticed that people in other towns paid little attention to tourists and he resolved when he got home he would profit by the lesson he had learned from the neglect of other towns. The president of the Kiwanis Club says that since then he has been trying the plan of getting acquainted with tourists, telling them some good things about the town and county and being of service to them were possible in giving directions about roads, etc. This is an excellent example for Clovis folks to follow.

Something like fifty tourists come through Clovis each day. Many of these people are looking for homes and would be glad to get some first-hand information about the town and country. Let's all turn into boosters and see if we can not make the tourists feel more at home when they pass through this section of the state. They will remember the courtesy and have a good word to say for Clovis.

Curry County will raise the largest crop of corn, maize and kaffir this year in the history of the county. With the wonderful amount of grain that will be in the hands of the farmer, the hog population of the county should be greatly increased. Hog raising on the plains is a profitable industry and fat hogs will be a good route to market this surplus grain crop.

Cooperation and team work are what builds towns. Real live towns and cities do not often "just happen." They grow and progress because the citizens work together in harmony.

Clovis has the opportunity to make one of the largest towns in New Mexico. It has the railroads, it has the water, it is surrounded by a large body of fine land and is properly distanced from other large towns. The spirit of pull-together and work-together will make us some day the largest city in the entire eastern part of the state, if not the whole state.

If Clovis inaugurates another paving program it will be unfortunate: indeed if West Hagerman street can not be paved and also East Hagerman and Mitchell. The former will make it possible to always get into the elevators with loaded grain trucks and the latter will furnish a good street to the depot. With the paving that has already been done much water will be drained onto these streets and without paving there will be times when they will be almost impassable.

The American Legion boys deserve a good patronage at the Round-Up that will be staged next week under the auspices of the post. The Fourth of July program was unfortunate in that the rain caused a considerable financial loss. The Legion members will attempt to make some profit out of the entertainment next week to wipe out some of their old obligations and deserve a liberal patronage. In addition to needing the patronage they promise a dandy program that will be worth the money.

Much interest will next week be centered on who the two parties will put out for senatorial candidates to go before the people in September. Mr. Bursam will be the nominee of the Republican party. He has no opponent for the nomination and if he did have would get the nomination hands down. In the Democratic ranks a score or more prominent men have been mentioned but there is now not much likelihood where the nomination will fall.

A meeting has been called to discuss plans for the Curry County Fair this fall. The fair was very successful last fall and should by no means be abandoned. Many citizens of Curry County do not really appreciate what can be accomplished right here at home until there is a general exhibit of products. The fair should really be held early enough so that a choice exhibit could be sent from

from here to the Tri-State Fair which will be held in Amarillo this fall.

**DOES IT PAY TO TREAT FOR SMUT?**

Orvil Pattison in the Claud community treated all his seed wheat for smut last fall but he hired a drill which had infected seed in it and did not clean it out thoroughly before starting and the first few rows of wheat that he sowed was smutted while the rest of his crop was perfectly free from smut.

John Byrne in the Pleasant Hill community treated his seed wheat for smut but left a portion untreated and he says he can tell to the very row where this wheat was treated and where it was not.

Do not expect to get good results if proper precautions are not taken.

Be sure you have a 40 per cent solution of formalin. Thoroughly wash all sacks or containers that are used for handling the grain after it has been treated. Wash the drill out with the formalin solution before sowing the grain.

Farmers who treated their grain last fall are more thoroughly convinced that it pays.

# Interests of Bank and Depositors

Officers and directors of this bank recognize that the interests of this bank and its depositors are the same. When the resources of the patrons and depositors of the bank increase the volume of business increases. It is therefore wise and prudent for the bank to assist the people of this vicinity to increase their money and property.

To this end the most cordial relations between the officers of this bank and its depositors are encouraged. Any service that we can render is always cheerfully given in all financial matters.

### HAS TABLE SET FOR DAVY

Little Old English Woman Refuses to Relinquish Hope for Husband Who Never Returns.

In a whitewashed cottage on the precipitous slope of one of the Clamorgan hills, a little, aged woman with white hair sat down to her simple Christmas dinner. It was homely fare enough, a stewed rabbit (brought in by a kindly neighbor farmer the previous day), one or two vegetables and a rice pudding.

She sat alone at the table, but opposite her was a place with knife and fork and spoons set ready for another. It has been so every Christmas for the past 40 years, says a writer in the Continental Edition of the London Daily Mail.

On a bright May morning, in 1880, Lucy Williams, the 22-year-old daughter of a Welsh crofter, was married at the village church to a sailor, the son of a laborer two fields away. Two months later Davy set out from the cottage on the hillside to "foot it" to Cardiff, where his ship was due to sail the following day.

Lucy cried a little, but he assured her that he would be home again by Christmas and charged her to omit nothing in the way of vicinds from their first Christmas dinner together. Then he passed out through the garden gate and waved a last kiss to the little lass who watched his departure.

That was the last she saw of him. A fortnight passed and she received a letter from him posted at Nantes, another a few weeks later from New Orleans and a third and a fourth, and then they ceased. Day after day she waited and month after month, but no news of Davy. Inquiries at the shipping office only evoked the information that the vessel was long overdue and that nothing was known of her. Then she was given up for lost.

But still she refused to give up hope. She had implicit faith that Davy would yet return. Christmas, her first Christmas married, came, but no Davy. Yet she omitted nothing in her preparations for the dinner. Had not Davy charged her? And he might yet come—who knows? And she placed his plate ready for him at the table so that he might see he was expected.

That was 40 years ago and every Christmas for 40 years she has remembered his words and never omits to put his plate on the table in case he comes home, and she will go on doing it to the end of the chapter.

**Spanking Made Easy.**  
Brainy Peter gazed fondly at his latest patent device.  
"The invention of a genius it was," a spanking machine in the shape of an iron band and arm, holding a rubber slipper. This marvelous machine spanked a child according to the magnitude of his offense.

Three volts punished the crying infant for crying, five volts for swimming on Sunday, eight for telling a lie, nine for stealing a cake from the larder. A sound thrashing at ten volts was the maximum for making a raft out of the extra leaves of the dining room table.  
"Ah, ah!" he sighed. "What more can fathers want?"—London Answers.

**Discovered!**  
"Poor, dear woman! She has probably been working hard all day. I must not disturb her," murmured Jones, as he crept upstairs, at 3 a. m., on all fours. He was just going into the bedroom when Mrs. Jones turned over. "George!" she whispered.  
George dived under the bed.  
"George!" repeated Mrs. Jones. No reply.  
"George!" continued Mrs. Jones, in sterner tones, "you may as well come out, for I know you are there."  
There was no help for it. George crept out, rubbing his eyes.  
"Bless my heart, Mark," he said, "I was dreaming I was out motoring!"

The extraordinary drought in Switzerland, which has continued since last September, has lowered the lake waters so much that archeologists are engaged in examining the interesting old lacustrine or pile dwellings dating back to the Stone age, for which Swiss lakes are noted.

## Chief's Agree to Drastic Slashes in Federal Taxes

Washington, Aug. 10.—Even more extensive changes in tax levies than were agreed upon at the White House conference between President Harding and the Republican leaders were voted tentatively today by the majority members of the ways and means committee. As summarized in a formal statement, the committee action included:

Repeal of the excess profits tax, effective January 1, 1921.

An increase of the income tax on corporations from ten per cent to fifteen per cent with the \$2,000 exemption retained effective January 1, 1921. Repeal of all taxes on the transportation of freight and passengers and on seats and berths, effective January 1, 1922.

An increase in the exemption to heads of families on account of dependents to \$400 for each dependent, instead of \$200 as at present, effective January 1, 1921.

Repeal of the so-called luxury taxes on clothing apparel effective January 1, 1922.

Exemption from income tax on the first \$500 of income from stock held in building and loan associations.

Revision of existing taxes included:

Repeal of the tax on fountain drinks and ice cream and the substitution of a flat tax of ten cents a gallon on all fountain syrups to be paid direct by the manufacturer or maker.

Repeal of the stamp taxes on perfumes, extracts, tooth paste and other toilet preparations and proprietary medicines and substitution of a manufacturers' tax of 5 per cent on the sale price.

### To Tax Manufacturers

Removal of the 15 per cent manufacturers' tax on cereal beverages and the levying of manufacturers' tax of 15 cents per gallon.

Substitution of a manufacturers' tax of 2 cents a gallon for the present 10 per cent on the sale price of unfermented juice beverages and carbonated waters or beverages or other soft drinks sold in containers.

The levying of a manufacturers' tax of 2 cents a gallon on certain classes of grape juice and 2 cents a gallon on other classes in lieu of the present tax of 10 per cent on the sale price.

It also was agreed to levy 5 cents a pound on carbonic acid gas sold to manufacturers of carbonated gases.

Members of the committee estimated roughly that these changes would result in a net reduction of \$555,000,000 in the total yearly tax bill. This is \$45,000,000 below the estimate reached at the White House conference but it was explained that the estimated revenue from corporations would be \$45,000,000 greater than heretofore reckoned by reason of the repeal of the excess profits exemption of \$3,000 plus an amount equal to the 8 per cent of the invested capital for the taxable year.

#### CHAMBER OF COMMERCE BOOSTING COUNTY FAIR

The meeting of the Board of Directors of the Chamber of Commerce Tuesday morning resolved itself into a Fair meeting. It was the unanimous opinion of the directors that there was never a better time than now for exhibiting and displaying the wonderful resources of Curry County to the world.

J. M. Bickley, president of the Curry County Fair Association, advised the Board of Directors that a meeting of the Fair Association will be held Monday night, August 15th at 7:30 o'clock, for the purpose of discussing the scope of the 1921 Fair and at which time the financial report of the 1920 meeting will be made.

The Board of Directors unanimously endorsed the Panhandle-Plains Tri-State Fair to be held in Amarillo, Texas, on October 12, 13, 14, and 15. This Fair embraces the plains country of Texas, New Mexico and Oklahoma. The Board of Directors of the Chamber of Commerce were unanimous in their belief that Curry and other plains counties in New Mexico should have large exhibits at Amarillo.

The following resolution relative to the increase of telephone rates by the Mountain States Telephone & Telegraph Company, was adopted:

#### RESOLUTION

Whereas, the attention of the Board of Directors of the Clovis Chamber of Commerce has been called to the proposed increase in telephone rates and charges to be effective September 1st, 1921; and,

Whereas, the cost of operation of telephone systems have materially increased within the last year, and such proposed increase of rates and charges is wholly unwarranted and without justification; and,

Whereas, the people of this city and of the entire state are already overburdened with excessive telephone charges and rates, and a movement should be set on foot to secure a material reduction of present rates and charges;

Now, Therefore, Be It Resolved, by the Clovis Chamber of Commerce through its Board of Directors, that this organization put forth every effort to defeat said proposed increase in telephone rates and charges and that the attention of the City Council of the City of Clovis and the State Corporation of the State of New

Department of the Interior, U. S. Land Office at Fort Sumner, N. M., August 9, 1921.

Notice is hereby given that Pryor R. McDaniel, of Clovis, N. M., Route A, who, on September 23, 1916, made Additional homestead entry No. 014691, for the NE 1/4, Section 12, Township 1 N., Range 33 E., N. M. P. Meridian, has filed notice of intention to make Final Three Year Proof to establish claim to the land above described, before A. L. Phillips, Probate Judge, Curry County, Clovis, N. M., on the 15th day of September, 1921.

Claimant names as witnesses: Nels Anderson, J. C. Foor, Mollie Stotts, and George Ledbetter, all of Clovis, N. M.

## Rockefeller Safe From Reporters

Tarrytown, N. Y.—John D. has outdone Georges Carpentier. The former had two rows of barbed wire to keep away reporters. Every since he became the world's richest man, John D. Rockefeller has been the goal of journalism. Thousands of would-be reporters have dashed their ambition against the close barred gates and high walls of the Rockefeller estates. One or two have made their way through in the past twenty years or so.

"Run out to Tarrytown," says the editor, "and interview John D. Rockefeller. Anything he says will be interesting. It probably would be. The only trouble is John D. won't say it. The aspiring reporter comes out to Tarrytown, gets off the train, looks around, and the taxi men all grin. They have seen them come out that way—and go—for years and years.

The reporter rides up to the "Sisters' Gate," a twenty-five cent trip that costs him a dollar and a half. A one-arm guardian, who has been holding down a camp chair just inside the grounds, saunters to the portal with a pleasant grin. The grin is encouraging. But the guardian is not.

"You may call up Mr. Davis (the Oj King's secretary) if you like," he suggests.

Through the high iron gates the reporter catches a glimpse of pleasant rolling lawns. John D. himself is no where in sight.

So the reporter rings up Mr. Davis. Mr. Davis' voice, like the gate guardian's grin, is encouraging. But, alas for ambition, his words are not! "Mr. Rockefeller never gives out interviews. It is a rule of twenty years standing," he says with an air of finality.

"How about getting in for a look at the grounds? Feature story" suggests the reporter.

But they have heard that before at Pocantico Hills.

"If you will go to New York and apply to the Rockefeller Foundation, and present the proper credentials, perhaps they will arrange for a guide to take you in," says Mr. Davis pleasantly. "Of course, I can't say, for it hasn't been done; but I wouldn't say it was impossible. Isn't it warm? Good day."

Following which conversation, if his ambition and expense account permit, the reporter makes a tour of the grounds. A bumpy road winds interminably through pleasant hilly country, with a view of the Hudson on the right and two high fences of barbed wire on the left. Presently the Hudson fades from view, but the barbed wire does not.

After a while one comes to the other gate, Pocantico Gate. The only difference here is that the guardian has two arms.

"I'm just a stray visitor over from England," says the reporter. "I'd like if I may, please, to look at the grounds. I will promise not to pick the flowers."

"Young man, says the porter, "you are the four hundred and seventh cub reporter that has told me that since March first. Kindly keep right on going and you will strike the main road back to the station."

The barbed wire goes on forever.

Fear of cranks and the necessity of having some time to himself in which to make a little money, keeps the world's richest man penned up inside his gilded cage. He has been secluded so long that many people have ceased to think of him as a personality, until polecats get onto his golf links or he has a birthday or some dietician invents a new menu.

#### CALL FOR BIDS FOR OPERATING SCHOOL TRUCKS

Notice is hereby given that the Board of Education of the City of Clovis, New Mexico, will receive sealed bids for the operation of the four school trucks of the Clovis schools for the coming school year, and said bids must be deposited with Prof. Jas. ## Cottage or Mansion---The Floors are of Oak

Oak floors are the Hall Mark of quality in every home—they testify to good taste and sound judgment.

Long-Bell Forked Leaf Oak is the aristocrat of flooring woods—for beauty and uniformity of texture it is unsurpassed. It is found in homes of most modest character, as well as in the stateliest mansions.

Long-Bell Forked Leaf Oak floors are least expensive, because they never wear out in ordinary service. They harmonize with any scheme of interior decoration, and their beauty is more than "skin deep."

New floors of oak may be laid over old floors—no tearing out of old floors, no delay.

#### Schedule for Next Week.

Monday, 15th—Canning demonstration at home of Mrs. Sherwood, Shiloh.

Tuesday, 16th—Moy, Hill McDaniel picnic at the home of Mr. and Mrs. A. B. Douglass.

Wednesday, 17th—Melrose club meeting, 2:00 p. m.

Thursday, 18th—Havener, Friday, 19th—Locust Grove. Saturday, 20th—West Chapel.

The Shiloh group held their regular monthly meeting at the home of their local leader, Mrs. W. F. Greer, on Tuesday, the 9th.

Miss Mina Wingo, girl's leader at Bellview, left for her home at Roswell Tuesday the 9th, after spending a week with her Bellview girls. She attended their regular July meeting.

The picnic at Fairfield was a very real event in club circles. There was an unusually large attendance and a most enjoyable day was spent. The clubs gave a splendid little playette on club work. Mr. S. J. Wright supervised the pressure cooker demonstration at which time eight roosters were cooked. In the afternoon there was a ball game between Fairfield and Mulehoe. The club girls, with the assistance of Mrs. R. E. Davidson, their local leader, sold cream and pop, clearing \$20.37 for their day's work.

The Frio club met Thursday the 28th. All members were present with records up to date. The afternoon was spent in planning decorations for their float in the fall pageant and making club banners. Several songs were practiced and games were played—Reported by local leader.

Mr. and Mrs. Sherwood and family of Shiloh were office callers during the week.

Mrs. DeLozier and daughters of

Pleasant Hill called at the office this week to plan for the work of the demonstration teams.

Ogden King, Farwell, is working with the Texico group. Ogden has purchased a good gilt and is going to make his first year his "best yet."

Lawrence Mills, Ranchvale, has extra well bred pigs for sale at \$12.50 each. They are ten weeks of age now. If you are looking for really good pigs, write Lawrence. Address Grier, N. M.

The Davis brothers corn in the Havener community is promising to take everything at the county fair, even the judges' decisions. You boys that have the Minnesota 13, be especially careful with your records, because you are growing that corn as a demonstration for the rest of your community. Talk it over with your county club agent before you select for exhibit so that you will be sure to select "true to type."

Dr. Johnson's visit to Curry County has meant much to the boys who met him. Locust Grove, Fairfield and Texico teams met with him at Texico on Monday. The boys visited the Short Horns and Jerseys on the Kiker farm and spent an hour at Judge Hamlin's hog farm.

The Havener, Moye, Hill McDaniel and Ranchvale groups met at Havener Tuesday, and Wednesday was spent at Grady.

The stock judging contest is open to all club boys and the county team that will enter the state contest will be the three high score boys at the close of the club encampment.

Dr. Johnson advises for supplementary study, the Craig Manual on stock judging.

Paul Hepper, one of our club boys, in the Moye group, has been quite ill but is reported to be improving.

The person who said that the bringing up of children demands more study than the raising of poultry, probably didn't like poultry any less but children more.

Economy does not necessarily mean spending a small amount, but in getting the largest return for the money spent.

Last year club members in the United States borrowed and repaid over \$900,000. They produced \$4,500,000 worth of goods at a cost of \$2,500,000.

A typewritten letter on a neat letterhead are indications of a progressive and business-like farmer.

There was a good attendance at the Havener meeting Tuesday and a number of the girls were out to meet Dr. Johnson.

Mrs. D. V. Winn, leader of the Havener girls, purchased material for her club girls under garments this week. They will be made alike and the girls are using simple little taff for trimming.

The lawn festival to be given by the Ranchvale clubs will be postponed on account of the meeting being held this week. A definite date will be announced later.

Pleasant Hill clubs will hold an ice cream social on the school house grounds Wednesday the 17th. Free movies will be given during the evening. Everybody welcome. Patronize the clubs and help them add to their fund.

HEARD AT THE FILING STATION

Here is the conversation that is heard at a filing station in Clovis when a traveler asks the distance to Fort Sumner.

After learning the distance, if it is a Cadillac, the driver says "Give me 20 gallons of gas and a gallon of oil and I'll take chances getting more on my way."

If it is a Buick, the chauffeur says "Gimme ten gallons of gas and a half gallon of oil," and drives on.

Along comes a Ford and the driver uncorks himself, gets out and stretches and asks the distance.

"Oh, is that all?" says he, "Gimme two quarts of water and a bottle of S in 1, and hold this son-of-a-gun till I get back in."

Most women are guided by instinct but a few refuse to be guided at all.

The truth should be told at all times, but it is often safer to let the other fellow do the telling.

All classes will please take note to their particular part on this program and be prepared for same without loss of time. Much is expected of this convention, and we anticipate one of the best conventions ever held in Curry County. Visitors from abroad will be with us and it is hoped that all singers will take special pains to see that our visiting leaders become acquainted with the singers of our county. We hope to have the new song books for the occasion, but be prepared with what books you now have so that in the event we do not receive new books all will be prepared. "I am for the Big Plateau Singing Convention," is the slogan of the day which we hope will be perfected by the fourth Sunday in June, 1922.

#### SUNBEAMS

We can go through this world casting shadows of darkness in our path or we can lead a life that will leave sunbeams to glisten for years to come.

We have been acquainted with some people in our life that were never known to have anything but a frown in their home, at their business and work or in the public. The consequence being that it is no pleasure to be with or do business with such a person and life is so miserable in the home that nothing short of the divorce courts can help the one or the other—and then, too, there are little children to suffer. The "grouch" makes life miserable for himself and all his associates.

There is also another class, or species, that follows the "grouch" type with their spasmodic sweetness when things do not go exactly to suit their way of thinking. This class really gets more notice than the above as they are continuously butting in other people's affairs and stirring up strife.

Last, but not least, comes that class of people who are always agreeable and it is a pleasure to know and associate with them. They are always willing to take the other fellow's view and give him the same consideration that they would expect themselves. When approached, they always have a pleasant word and a "make-yourself-at-home" way about them that

30x3 1/2 STANDARD NON-SKID

## The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 29,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—four plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

### Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3 1/2, \$24.50; 32x4, \$46.30; 34x4 1/2, \$54.90.

The entire success of Curry County is dependent upon its agricultural resources. The U. S. D. A., State Agricultural College and Experiment Station within reach of the farmers of Curry County and these

organizations with their corps of experts on every branch of science pertaining to agriculture, are back of the County Agent to help in case of need. The system is so arranged that it costs very little to Curry County to maintain the County Extension office, and have these benefits at hand for the county. Cutting out the appropriation for the County Agent of Curry County is a direct blow to the producers of Curry County. It is a blow in the bread basket of the county. No well informed farmer or other business man is opposed to the tax required for the maintenance of this work, for the tax for this purpose is insignificant, the work being principally supported from without the county. There is no doubt but that Curry County will have a county agent a year or two later. Why lose the ground we have gained by discontinuing the work now? The tax payers of Curry County are becoming better informed in regard to the importance of this work to the county and its insignificant cost and if they will show their interest in the work the action of the county commissioners may be reversed and the county agent work be continued.

The success of every business in Clovis is directly dependent upon the success of the agriculture of the county and every business man in town as well as every farmer should be vitally concerned in the continuation of this work. Should there be any opposed, he is opposed to the best development of Curry County.

Community interest and community spirit, which is a community's greatest asset, has been developed in many places through co-operation with the County Agents.

In the five months the present County Agent has been at work in Curry County the following things have been done:

- Assistance with Farm Bureau re-organization.
- Assistance with marketing.
- Educational meetings.
- Office calls.
- Farm visits.
- Inquiries answered concerning in-

**RANCHVALE RUMORS**

(Received too late for last issue)  
Lamison and Walker bought a new Case tractor to pull their combine, which takes off the horses. Jack is home now working his new crop this week.

We had another big rain Sunday night which will now insure us a bumper row crop. The row crops look fine. Some weeds on account of too much wet weather and too much harvest.

F. M. Groves lost a calf by lightning this week.

Arza Groves accompanied Mr. Robinson and sons to their farm near Portales Sunday to look over the row crops there. They said it was good, so Will took teams and went down to work it out this week.

Mrs. Buchanan's sister from Arkansas is visiting at the Buchanan and Bush homes.

Mrs. Maud Cherry and sons, Delmer and Ross, Jr., and Walter, were calling at the Simpson home Sunday and got caught in the rain and spent Sunday night at Mr. Groves'.

Louree Groves is laid upon the shelf now with a bruised bone in the right arm, caused by a kick from a Ford car which he was trying to crank.

Professor Jackson and family moved into the teacherage last week so as to be ready to begin school work.

We never saw so much volunteer stuff in the wheat fields due to sowing wheat on the ground that had row crops last year.

I specialize in the examination and fitting of children's eyes—C. E. Worrell, Registered Optometrist at The Optical Shop in Lyceum Theatre Building 8-11-tfc.

**WEST CHAPEL SAYINGS**

Wheat threshing is the order of the day around here. There are several threshers in the country and people are getting their wheat threshed earlier than last year, and most everybody is marketing some as they get it threshed.

Quite a good rain fell southwest and southeast of here Saturday evening which will be fine on our row crops.

Hoyt Lewis and Louis Chapman called on Mr. Mullinax Sunday evening and saw Mr. Mullinax ride the wild mule "Shorty."

Mrs. Mullinax and Mr. and Mrs.

**Electric Range at Right Price**

Now that we have electricity again, somebody is going to buy an Electric Range at a price which is RIGHT. Have you noticed the price on the one in the window today? We can also use the current from the new plant to demonstrate that we have absolutely the best vacuum cleaner on the market--the Torrington leads them all.

Why not touch up the worn spots on your floors with Chinamel? It is easily applied, anyone can do it, and gives a permanent covering to the wood, in any color you may wish. Then a coat of Old English Wax will make your floors like new, and they will STAY that way.

We have another lot of that new kind of oil stove which has proven so successful, and will be very glad to have you give one a trial. If it is not the best, do not buy it.

## PROFITS BY WHAT HER MOTHER DID

LITTLE ROCK WOMAN INDUCED  
TO TAKE TANLAC THROUGH  
PARENT'S RESTORATION

"Tanlac restored my mother's health so perfectly that I began taking it, too, and just two bottles have helped me wonderfully," said Mrs. Goldia Bird, 310½ E. Markham St., Little Rock, Arkansas.

"A short time ago I seemed to have a general breakdown," she continued. "My stomach became so disordered that nothing tasted good and I just didn't want to eat a thing. I fell off in weight and became weak and run-down. My complexion was pale and sallow and my back ached so I could hardly lift my little baby. I took little or no interest in anything and was going from bad to worse.

But I think Tanlac is just wonderful to have helped me so in such a short time. I have only finished my second bottle but already I feel like a different person. I enjoy what I eat and am gaining in weight. The pains have about all gone from my back and I have been built up so I feel better and stronger in every way. I have nothing but the strongest praise for Tanlac." (Adv.)

### A WOMAN'S BACK

The Advice of This Clovis Woman is of Certain Value.

Many a woman's back has many aches and pains.

Of times it is the kidney's fault. That's why Doan's Kidney Pills are so effective. Ask your neighbor. Many Clovis women know this.

Read what one has to say about it: Mrs. John W. Fisher, 608 W. Otero Ave., Clovis, says "I suffered with an awful weakness in my back and felt miserable. My kidneys were weak and caused me much annoyance, and many times I was troubled with swelling of my hands and feet. Dizzy spells were common and flashes and specks came before my eyes, blurring my sight. I was all run down when I began taking Doan's Kidney Pills. They quickly relieved me and before long removed the trouble." 60c. at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## THAT SUDDEN Sharp Pain

which you experience at times can be removed. No woman has the right to suffer when she can obtain relief safely, certainly and promptly. Suppose you do have headaches, back-aches, extreme nervousness, low-spirits and general good-for-nothing feelings at times? Your case is not hopeless. These symptoms are evidence that the delicate organism of the feminine body has become out of order and needs the help Nature's remedies can bestow. Try Dr. Pierce's Favorite Prescription which the druggists of this country have been selling in liquid form for the past 50 years. It can now be had in tablets also. Ingredients on label. Send ten cents to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of tablets.

### Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube re-opened to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. The F. J. CHENEY & CO., Toledo, O.

**NAZARENE TENT THROGGED**  
The revival meeting under the big Nazarene tent continues with increased interest. Almost every service witnesses an old fashioned altar scene where people seek and find Jesus as their personal Savior. Many have already made bright professions of salvation, while others are seeking. The workers are encouraged and are expecting many more to find peace of heart. God is greatly honoring the preaching of His Word. Truly the services remind one of the old fashioned revivals, as the shouts of praise go up from God's people. The attendance is good. Sunday night the tent was crowded, with many outside.  
Services continue at 3:00 and 7:45 p. m. Friday afternoon the service will be along the line of divine healing. There will be three great services again Sunday. Sunday afternoon the subject will be "What the Holiness People Believe."  
All are welcome to these services. Reporter.

again called to the fact that Brother F. B. Shepard of Amarillo is to be with us Sunday, August 14th, to begin our annual protracted meeting. The preaching will be strictly biblical, the prayers fervent, and the songs spiritual. Every effort will be made to give each attendant a broader vision of Christian service, and a deeper appreciation of Divine Truth. A direct appeal will be made to your better nature. Everything possible will be done for your comfort and well being. Come regularly to each service. Join heartily with us in this righteous effort.  
"You will be a stranger with us but once."

**CHURCHES AT THE ADVENTIST CAMP**  
The interest at the camp of the Adventists continues to increase. Representatives continue to arrive from the various churches in the Conference, and an unusual number of tents are being pitched on the camp site. Able speakers will arrive today from abroad, and the opening service will be held tonight.  
"Many are the conflicting and contradictory ideas held as to what hell is and where it is located," said Evangelist Matthew Larson at the Adventist camp last night. The speaker claimed that the place of punishment for the ungodly will be a place of literal fire, but that is yet future, and that it is of limited duration, not an eternally burning hell.  
Answering the question, "Where is Hell?" the speaker said: The only hell known to the Bible is this earth in its present sinful, fallen condition. And when the cup of its iniquity shall have been filled, this earth will be turned into a molten mass of liquid fire, as stated by Peter in 2 Peter 3:7-12. The Lord through the prophet Isaiah declares that He will finally turn the streams of this earth into pitch, and the dust thereof into brimstone, and the land thereof will become burning pitch. See Isa. 34:8-9. This earth will then be transformed into and become the hell spoken of in God's Word—the lake of fire of Revelation 20.  
The program for the remainder of the week will be as follows: Tonight (Thursday) "Millions Now Living will see Christ Come in Glory." Friday night—"Should Not Christians Keep the Lord's Day?" Saturday at 10:30, Pastor Morris Lukens of Oklahoma City, president of the Southwestern Union Conference, will speak at the Adventist camp. At 7:30 at night, the subject will be "The World's Conversion; or, Will the Sinner Have a Second Probation?" On Sunday night the theme

The speaker claimed that the place of punishment for the ungodly will be a place of literal fire, but that is yet future, and that it is of limited duration, not an eternally burning hell.  
Answering the question, "Where is Hell?" the speaker said: The only hell known to the Bible is this earth in its present sinful, fallen condition. And when the cup of its iniquity shall have been filled, this earth will be turned into a molten mass of liquid fire, as stated by Peter in 2 Peter 3:7-12. The Lord through the prophet Isaiah declares that He will finally turn the streams of this earth into pitch, and the dust thereof into brimstone, and the land thereof will become burning pitch. See Isa. 34:8-9. This earth will then be transformed into and become the hell spoken of in God's Word—the lake of fire of Revelation 20.  
The program for the remainder of the week will be as follows: Tonight (Thursday) "Millions Now Living will see Christ Come in Glory." Friday night—"Should Not Christians Keep the Lord's Day?" Saturday at 10:30, Pastor Morris Lukens of Oklahoma City, president of the Southwestern Union Conference, will speak at the Adventist camp. At 7:30 at night, the subject will be "The World's Conversion; or, Will the Sinner Have a Second Probation?" On Sunday night the theme

## Many Children's Eyes Need Help

Now is the time when the child with the weak eyes or defective vision should be brought here for a careful eye examination.

School starts next month and for hours every day and often under artificial light during the evenings, they will have to pour over their studies. The child with defective vision is under a severe handicap in school work. The constant strain is particularly telling and makes the child nervous, cross and irritable.

Even a slight weakness of the eyes develops rapidly under strain into something more serious. Such children need glasses. You may not like the idea, but think of the child's future. Properly fitted glasses will take care of the overload. If cared for now the weakness may be overcome by the time the child is full grown. If not, the time will soon come when glasses will be absolutely necessary and doubtless have to be worn for life.

It is only fair to children to make an effort to save them from this, if possible.

If your child was backward at school last year or now complains of frequent headaches or smarting and stinging sensations in the eyes, the time to have an eye examination made is now—before school opens. Don't delay—it's of too much importance.

### POULTRY RAISING

With broilers and fliers still bringing good prices, you should cull out and sell every one of your surplus cockerels, weighing 1½ to 2 pounds. Prices for them are likely to drop any day and by selling the young cockerels as early as possible, you not only save feed but you insure yourself the highest market price.

Old hens and cocks bring good prices but this may not be true all summer, and prices will certainly break early in the fall in all kinds of poultry meat. So, cull out your hens at once that are through laying and do not keep over. Thus, you insure getting a better price, save feed, house room, etc. Take your instructions cull rigidly according to them.

Don't keep useless males. A common thing among poultry raisers is feeding too many cockrels and old males that will not be worth breeding from another year. Cull out and sell every old male that you do not know is a first class male.

Money in fall and winter eggs. Many poultry raisers wonder at the low egg prices at this season. Eggs are always comparatively cheap in the spring and summer. But remember that the wise poultryman has always made his profits by getting eggs when the other fellow cannot. It is the fall and winter eggs that always bring good profit making prices. Do not be discouraged because eggs have been cheap this spring and summer, but plan and strive to get your pullets into early fall laying. The pullet that lays in the early fall nearly always lay through the winter and is sure to make you a profit. A pullet that does not go to laying by December is usually not worth wintering, considered from the standpoint of egg production only.

Caponize early. The sooner you can caponize the young cockrels, the better. Don't let size decide the matter but caponize just as soon as you can tell the sex. This promises to be an exceptionally profitable season for caponizing.

Preserve your own eggs. With eggs at low prices now and the prospects that they will be higher this fall and winter, it is important that every egg producer use some simple home means to preserve eggs for winter use. You will find the eggs you preserve will be just as good for your own use as the strictly fresh egg. Of course, if you sell them, you have to sell them for what they are. There are several simple ways to preserve eggs right at home. You can put them down in June, July and August and keep them until Christmas, if you wish, and they will be fresh and good. —American Poultry News.

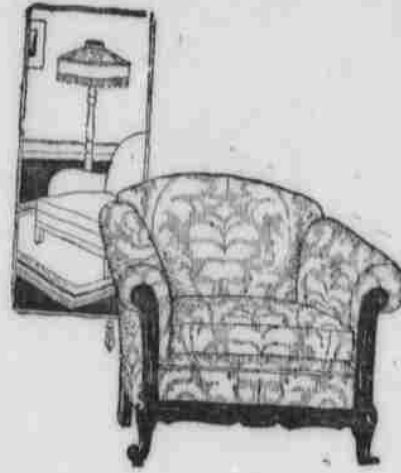

### FORMER CLOVIS MAN NOW IN GRAIN BUSINESS

D. I. Barnett, former Curry County citizen, but who now lives at Miami, Texas, was here last week. Mr. Barnett is in the grain business at Miami and says his firm has already shipped 100,000 bushels of wheat. He says that in his section of the plains grain has not been damaged by wet weather for the harvesting season is earlier than here and most of the grain was cut before wet weather commenced.

A man could have a small foot, too, if he had sense enough to move the heel of his shoe over into the middle of the shoe.

## Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.
