VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, APRIL 4, 1903.

NUMBER 86

## Territorial Topics

### SILVER CITY.

From the Independent.

The final negotiations for the sale of the Silver City smelter have been completed and the present state of the case is that the Comanche Mining and Milling company have made a payment on it and will take possession immediately. The plant will be enlarged and improved and the mines near Silver City will again have opportunity for smelting their ore without shipments to El Paso. The smelter will probably be opened again on the first of May.

Ten tent cottages are being built on the Parker ranch by the Pines Cottage company.

Sam H. McAninch is helping out in the Silver City National bank during the absence of Assistant Cashier Love in the east.

Sheriff Blair, with his usual energy, is doing considerable work about the court house grounds, putting the same in improved shape.

Word has just reached this office that a number of the citizens of the town got together last night and decided to celebrate Fourth of July here.

On Saturday night some sly Mexican thieves, who had been hanging about the Legion store for several days previous, broke in the front window of the store and got away with several suits and hats.

The residents of precinct No. 22, Oak Grove, are making arrangements for the erection of a school house in that section during the coming summer, which is to be completed in readiness for school work in the fall.

Sealed bids for the construction of the storage reservoir and dyke at the United States military hospital at Fort Bayard were opened Saturday, and Matthews & Laird, of Silver City, were awarded the same, having made the lowest figure, \$8,752.

### SANTA FE.

From the New Mexican.

Mrs. R. C. Garrett has been confined to her home for a day or two by illness.

Mrs. C. R. Pierce, who has been suffering the past ten days from an attack of appendicitis, is much better.

The district court adjourned until the regular September term, which will convene on Monday, September 7.

Mrs. C. F. Easley and daughter, Miss Ethel, left this morning for a visit with Mrs. Easley's brother, W. H. McBroom, of Colorado Springs, Colo.

Mrs. J. Pierce, of Warrensburg, Mo., who recently underwent an operation at St. Vincent's hospital, is improving and will be able to return home in a few days.

The marriage of Miss Valdera E. Slaughter and W. E. Parsons will take place Wednesday, April 15, at the residence of the bride's father on the south side of the city.

County School Superintendent J. V. Conway states that the present school term has been a most successful one from an educational standpoint. Better teachers have been employed in the districts throughout the county and much more interest has been manifested by the parents.

The recruiting party for the United States navy received four applications of whom three were rejected and one was taken under consideration. Those rejected were Felix Sandoval, Frederick Cartwright and Tranquilino S. Arbo. The one taken under consideration is Severiano Jimenez.

Governor Otero, Colonel W. H. H. Swell and Mayor Sparks, who are members of the executive committee of the Roosevelt reception, expect to go to Las Vegas in connection with their duties as such. Mayor Sparks will extend a formal and official invitation to the mayor and city officials of Las Vegas as well as the citizens of the town to attend the reception to President Roosevelt here. Other matters of importance will also be arranged during the visit of the committee to the Nevada city.

The Capital City band has taken a months' leave on Gray's opera and is fixing it up and renovating it thoroughly. It has been cleaned and is being repaired.

Don Manuel R. Otero, receiver of the monies at the United States court, went to Albuquerque to prepare a residence for his family who will remove to that city next Saturday.

Superintendent H. O. Bursum of the territorial penitentiary, has taken a day of absence which he is spending at his sheep ranches in Socorro county about thirty miles east of San Antonio. He will be absent for the next four or three weeks.

### TUCUMCARI.

From Quay County Democrat.

Several carloads of material have been unloaded here the past few days for the contractors of the Choctaw grading camps. Camps will be established and dirt begin to fly in a few days.

The remains of Kenneth Woodward, one of the victims of Monday night's unfortunate affair, were shipped on Tuesday to Quanah, Texas, his former home. Hoffman and Carley were buried here.

The new bank building is beginning to show some of its architectural beauty. If the weather remains good Lamar & Amis, the contractors, will soon complete the work. When com-

pleted Main street will begin to put on city airs.

The Goldenberg building, under the management of Mr. Young, the wood contractor, is rapidly nearing completion, and when completed will be an imposing and attractive building. Mr. Lawson completed the stone work some days ago.

Tucumcari mountain is a stately land mark, as she stands three miles south of town, looking down in all her majesty upon Tucumcari and the surrounding country. It can be seen many miles from every direction, and is an object of much interest to all new comers, who, on the first opportunity climb its rugged heights, and gaze in wonder and admiration down upon Tucumcari and the valley spread out beneath them like a beautiful painting. The Rock Island and Dawson railroads and the line of survey of the Choctaw can be traced for many miles, with docks and herds in the distance makes an impression not soon forgotten.

### SAN MARCIAL.

From the Bee.

The present year promises to be a lively one for San Marcial in the building line.

W. H. Kraft and family desire to extend their sincere thanks to those who were so kind to them in their recent bereavement.

John A. Barton, who has satisfactorily filled the position of deputy postmaster for the past two months, has accepted a position in D. W. Hitchcock's office.

Miss Clyde Melton will probably retire as teacher of the private school before very long, owing to meagre attendance and lack of interest on the part of the parents and scholars.

Revs. R. T. Wiley and J. F. Russell, the Texas revivalists, have done their best to impress the people of San Marcial that many of us go through this life without one thought of God, and when we are called upon to give an account of our stewardship we are not ready. There is necessity, therefore, of reminding man, day after day, and year after year, of the purpose for which God puts us on earth.

### FARMINGTON.

From the Hustler.

Will Rafferty has gone to Aztec to complete several building contracts he has there.

The San Juan Stores' meat market has over eighty tons on ice in storage for the summer.

T. P. Arrington and Frank and Jay Fulcher will burn a kiln of 200,000 brick next month.

There are probably 200 Navajos employed on ditch work in the vicinity of Fruitland and Farmington.

Judge McElie has decided upon holding a spring term of the district court at Aztec, beginning on Monday, April 20.

John Wetherill, of Ojo Alamo, has just secured one of the finest German town blankets ever brought in by an Indian. The blanket is of the original Loomis pattern, weight nineteen and a quarter pounds and is valued at \$150.

Agent Shoemaker is putting large numbers of Navajos to work on the new government canal. It is only a question of a short time until the Indians will feel the relief. They are paid at the rate of \$1 per day, pay day on the first of each month.

Joe Wilkin, of Little Water, brought in some fine Navajo jewelry Monday, which he disposed of to parties departing for the east. He also has a deerskin fork said to have been used by a Navajo thirty-five years ago, when the Navajos were in captivity at Fort Sumner, N. M.

### LAS CRUCES.

From the Citizen.

Oscar Lohman sold 500 head of Angora goats last week to R. L. Faulkner. Consideration, \$4 per head.

S. W. Serfy, of Mesilla, purchased the Bull property in front of the depot and has moved his family here.

David Ames is having rock hauled and making preparation to build a residence in front of the depot.

B. V. Potts has two men at work on a gold prospect southeast of the Modoc mine, in Akenback canyon.

Meeting yesterday. Messrs. A. B. Fall, of this place, and W. A. Hawkins, of Alamogordo, were present and spoke on the subject of securing an appropriation out of the national irrigation fund. It was resolved to call a public meeting next Tuesday at the court house, where further necessary steps will be taken.

Mrs. Adela S. Colmenero, of Hatch, died in Las Cruces last Saturday of pneumonia. The funeral took place from the home of Don Florencio Luna. Alfred Sanchez, a graduate of the New Mexico College of Agriculture and Mechanical Arts, and now working for the government at Walla Walla, Wash., arrived here Wednesday, and will spend several days visiting relatives and friends.

### WHITE OAKS.

From the Eagle.

Col. G. W. Prichard is pushing work on the Rip Van Winkle.

J. J. Boone, of Alamogordo, has just shipped to his Otero county pasture a car of blooded bulls, most of them short horns. They are long yearlings and weigh 1,200 to 1,400 pounds.

Our stock interests are experiencing a good year. Some of all kinds on the ranges are in fairly good condition, and no losses from any cause worth considering will be sustained this year.

Paul A. Knappe, representing the American Amalgamating company, is here making a test run of 100 tons of ore for the Eagle Mining and Improvement company to test the practicality of what is known as the Knappe Amalgamating process.

Never since the days of Garrett, Poe and Breen has Lincoln county had a sheriff who was a terror to criminals until John W. Owen, the present sheriff, was sworn into office. The criminal class have been on the run and few of them have escaped him.

Jones Tallaferra and Charles Spence have returned from Gallinas mining district. These gentlemen are possessors of a group of very promising lead properties in the Gallinas mountains, and since the market for the product continues to grow stronger they will likely begin developing it.

George E. Aligh closed a deal with Messrs. Knight and Haviland, of the Jicarilla mining district, for eleven placer mining claims, for A. B. Taneyhill and others, of Waterloo, Iowa.

Messrs. Knight and Haviland have been working their ground steadily for the last five years and have cleaned up a nice little sum therefrom.

G. C. Gatter with a posse of officials passed through White Oaks Monday following a party of horse thieves chased out of Bernalillo county, where they had stolen three large mules and one horse, and a new Bain wagon, all the property of Gaither & Co., contractors on the Santa Fe Central. Warrants were sworn out before Justice Tompkins, of this precinct, and the hunt continued. The parties passed through White Oaks the last of last week and when last heard of were at Capitan. Sheriff Owen came down the Rock Island Tuesday morning from Corona and is now after them. He will probably overtake them some where in the White mountains.

### LAS VEGAS.

From the Optic.

Genevieve V. de Venavides died at an early hour Monday morning on the west side, of diphtheria, aged 17 years.

Frank Blanchard has resigned his position with the Mann drug store, his health demanding outdoor occupation.

A. R. Quinley is 42 years old and says he feels just like he was 16. He came to Las Vegas twelve years ago a 120 pound lugger, but now tips the beam at 170, with prospective long years of life ahead.

Fidel Coriza, a native of Old Mexico, was up before the justice of the peace of precinct 64, charged with beating his wife. He was put under peace bonds and assessed the costs of the trial.

School district No. 4 Friday last held school exercises and planted sixteen trees in front of the school building. More trees will be planted on Arbor day and the day otherwise celebrated. The grounds of the school have been graded up and present a very nice appearance and in the course of years as the trees grow the school will be good to look upon.

Mrs. H. B. Hetrick, a health seeker, who came here about three months ago, died on Sunday morning at 913 Tilden avenue, of consumption. Her husband arrived only a few hours before she died. Besides the husband the deceased leaves four children, the oldest 13 years of age. The remains will be shipped to the home of the family at Hastings, Neb.

It was moved at a meeting of the city council that the mayor appoint a committee of six citizens to act with a similar committee to be appointed by the county commissioners to further the work on the great scenic highway between Santa Fe and Las Vegas. The mayor accordingly appointed the following: H. W. Kelly, C. C. Gise, J. H. Stearns, E. G. Murphy, D. T. Hoskins and Julius Graef.

Charles Jones and family, who have been spending a year in the Sapello canyon, moved to the Rawlins ranch on the Tecolote, where they will engage in the healthful pursuit of farming.

Lester Jameson and wife arrived in the city from Diaz, Mex. Lester will be welcomed back to the city by many old friends of his boyhood days who hope he may again become a permanent resident.

Last night burglars entered the second hand store of Perry Onion, on the corner of Eleventh street and National, and purloined two good revolvers and two good watches. The mis-

creants overhauled the jewelry and revolver cases and only took the best, leaving the poorer watches and revolvers. They took a belt full of cartridges for one of the pistols and camped without making anything else in the store.

Jose Santos Esquivel filed his bond as assessor in the sum of \$2,000, with Severina Esquivel and E. H. Salazar as sureties. The office was turned over on mandamus by the court by Assessor Frank Chavez today.

From the Record.

Mrs. Robert Hayward is reported quite sick with a gripe.

L. H. Sana is in return from a trip up the canyon to Gallinas and reports there are signs up on all sides informing the public that no shooting, hunting, fishing or camping is allowed in that vicinity.

A regular army officer will be here on April 21 to inspect troop A.

Gabriel Montoya was in from Upper Las Vegas today with a wolf scalp which he left at the probate clerk's office and received the bounty.

Mrs. D. T. Lowry employed a man to clean up her back yard, but when going out to look for him later she found that he had vanquished and taken her lawn mower along with him for a souvenir.

Col. W. H. Seewald presented the Record office with a finely executed cabinet photograph of the late lamented Capt. Ed Friend, of this city, Albuquerque and San Diego, Cal., a brilliant and affable young man who was more sinned against than sinning.

The sad intelligence was received in this city of the death of Cecilia, the eldest daughter of E. G. Van Leeuwen, at Grand Rapids, Mich. Mr. Van Leeuwen it will be remembered was a mail carrier here for some time and was transferred to Grand Rapids only a short time ago. Cecilia was only about 6 years of age and was an exceptionally bright child, a favorite with all who knew her, and the family has many friends who sympathize with them in their sad affliction.

C. C. Kinkaid, live stock agent for the Santa Fe company in Chicago, died of consumption at the local railroad hospital last night. The body will be shipped to Milwaukee, Wis., for interment.

In attempting to stop the runaway team this morning and prevent it from running into the Murphy drug store, Marshal Curtwright was struck by the foaming steeds and had his shoulder blade dislocated.

In the presence of only a few of the most intimate friends of the family, W. C. Hurt and Miss Edna Rhodes were united in the holy bonds of matrimony, at the home of the bride's parents, Mr. and Mrs. W. H. Rhodes, 903 Main street, last evening, by Rev. A. C. Geyer. The wedding was of the most quiet kind, and came as a pleasant surprise to the many friends of the happy couple.

J. P. Dempsey, special organizer of the Fraternal Union, has arrived in the city and is at work developing new material for that order.

Charles Coe, of this city, will try his luck in Santa Fe, having purchased the Arcade saloon in the Claire hotel in that city.

Tomas Brito, of Chavez, has made a homestead entry of 160 acres, before Robert L. Moss, United States court commissioner.

Frederick I. Morris and Miss Marion E. Pogy were quietly married by Rev. Norman Skinner, at his residence and left for Los Angeles, Cal.

Mrs. M. A. Seltz and daughter, Miss Hattie, who have been here some time visiting their son and brother, left for Marion, Kan., called there by the serious illness of another daughter and sister.

Harry G. Wilson, representing the American book company, of Chicago, but presumably not the Harry Wilson who wrote a history of Las Vegas, once upon a time, is in town, fresh from a trip to the City of Mexico.

E. O. Thomas, who is at present carrying route No. 3, has been assigned to duty on the west side, while O. E. Burch, the substitute letter carrier, gets Mr. Thomas' route. The other carrier, who is to be assigned to the west side, has not as yet been appointed.

### DEMING.

From the Headlight.

M. D. Roberts, of Separ, sold his outfit to Lyons & Campbell, of Silver City, last Wednesday.

Al. Watkins, of the 76 ranch, has sold between 400 and 500 head of a and twos to George Chessman, at \$15 and \$18.

The rain that fell throughout this section last Wednesday will benefit the country in every branch of industry to an inestimable amount.

Otto Smith now has workmen busily engaged building a brick building upon his lot at the corner of Silver avenue and Spruce street. When completed Mr. Smith will occupy it as a barber shop.

The steel ceiling and lining for the

## honestly made Levi Strauss & Co's Copper-riveted Overalls

new block that J. A. Mahoney has had under construction for months past, on Spruce street, has finally arrived and now we may expect to see this new addition to our city's prosperity soon completed, as it only needed this material to complete them.

From the Graphic.

Miss Grace Clark of Santa Rita is visiting at the home of Mrs. C. H. Brown in this city.

Miss Taylor, teacher of the Lordsburg schools, was a visitor at the home of Samuel Burnside of this city a few days last week.

Mrs. Apodaca, wife of Bonifacio Apodaca, foreman of the mechanical department of the Deming Headlight, and three children left for an extended visit to Albuquerque and Santa Fe.

W. T. McCleight, business manager of the Albuquerque Citizen, who has been making a business trip through this part of the territory, spent Saturday in town. While here he gave this office a pleasant call.

Master Fred Powell entertained a little party of four-year-olds, the occasion being the fourth anniversary of his advent into this life. The little folks enjoyed a banquet all the same as grown folks, and spent the afternoon getting onto all the fun that little tots know how to enjoy.

T. N. Gilbert, wife and two children of Ninah, Wis., who spent some time at Payson Springs last fall and went from there to Los Angeles, Cal., returned and will spend the spring in Deming, as they say they have found no such climate as this in all their travels.

### SOCORRO.

From the Chieftain.

There was a heavy fall of snow on the Magdalena Wednesday.

Socorro's park already begins to show decided evidence that under the management of Dr. Kittrell it will soon be made once more an ornament to the city.

A large volume of water is already passing down the Rio Grande at Socorro. When warm weather comes on in earnest and the heavy snows in the mountains of the north melt rapidly, as they are sure to do, there will be a flood down here the like of which has not been seen for years.

District Attorney A. A. Sedillo came home the first of the week from Santa Fe, where he had acted as one of the official interpreters of the general assembly. He at once entered upon the duties of the office of district attorney for Socorro county, to which he was appointed by Governor Otero.

### RATON.

From the Range.

A violin club is the latest musical organization in Raton.

The Tuesday Whist club spent a pleasant afternoon this week with Mrs. Quick.

On Friday last Mr. and Mrs. W. C. Wrigley entertained Judge Mills and a few friends.

Miss Margaret Appar has accepted the position of stenographer in the First National bank.

Miss Jeannette Ritchie, last year a teacher in the Raton schools, is lying critically ill in Gallup, where she has been teaching.

District court, which has been in session in Raton for the past three weeks, will adjourn today, but will hold an adjourned term to dispose of several cases, commencing April 20.

Messrs. Morrow & Leih sold this week 160 acres of land on the mesa for \$1,500. John Morrow also sold a few days ago 360 acres near Potosi at the head of the Cimarron for \$3,500.

The Ladies' Auxiliary to the Brotherhood of Railway Trainmen will give a call on all at the opera house April 17. A fine of 10 cents will be charged all ladies attending who are not dressed in calico.

Will C. Barnes, of Dorsey, was in the city yesterday. The duties of the office of secretary and treasurer of the Cattle Growers' association of New Mexico are claiming much of his attention.

### LAS CRUCES.

From the Progress.

W. H. Skidmore is engaged in adding a few more touches to the already beautiful ranch home of W. W. Cox. The United States court convenes in this city on Monday next.

The high wind which prevailed in

this section Tuesday unroofed the house of W. Stewart at the Alameda dairy. Aside from this accident, no other damage is reported.

Mrs. A. M. Howland and daughter, Miss Justine Newberry, came in from their beautiful Shalam ranch last Tuesday and were the guests of Mr. and Mrs. Isaac Castaneda.

Mr. Campbell, who recently purchased 500 head of goats of Oscar Lohman, with which to establish a goat ranch in the San Andres, is visiting friends in Missouri.

The students of the Agricultural and Mechanical Arts college are preparing for a field day on May 9 that will eclipse all former efforts in this line. Preparations are now going forward, and if you miss the "big show" you may put it down you have foregone a rare treat.

Mrs. Minnie Ward Patterson, who has been sojourning in our midst for the past three months, left for Albuquerque last Tuesday. Mrs. Patterson is engaged in art and literary work, and is preparing some interesting articles on New Mexico for eastern publications.

### SILVER CITY.

From the Enterprise.

The new school furniture is still arriving and is being unpacked.

Pinos Altos is picking up considerably due to the operations of the Shamrock company on the Silver Cail mine.

Central is looking up and from present indications will soon be one of the prettiest and most prosperous towns in Grant county.

J. C. Cureton has leased the T. L. Stockton residence, near the Normal this week. The Stocktons will leave soon for California.

Mrs. Stefan Uhl and little son were passengers last evening for Pike's river, Canada, where they will remain until fall with Mrs. Uhl's mother.

The season for the grazing of sheep on the Gila reserve opened Wednesday. One hundred and fifty thousand head will be allowed on the reserve.

The Silver City Beer and Ice company are making extensive improvements in their bottling works department which will make it one of the cleanest, neatest and most up to date of any in the southwest.

J. B. Rudert, station agent for the Santa Fe at Florio, and Miss Lillian Glass, an accomplished young lady of the same place, were married at Central, Sunday night, by Justice Crowley. Both are popular in the big iron camp, where they have a large circle of friends who will wish them joy and happiness in their new life.

### SANTA FE.

From the New Mexican.

The Elks are practicing for their entertainment to be given on the 14th instant.

The golf grounds are in better condition than ever before and every nice morning there are a number of young people on the links.

During the month of March the highest temperature was 64 degrees, March 21, and the lowest was 4 degrees on March 1. The greatest daily range of temperature was 32 degrees on March 23 and the least 11 degrees on March 25.

Invitations have been issued for the marriage of Miss Veldera Elvira Slaughter and Wm. E. Parsons at the home of the bride's parents, Mr. and Mrs. W. J. Slaughter, on Wednesday evening, April 15, at 7 o'clock. A reception will be given from 7 to 9 o'clock.

Mrs. Elizabeth R. Muller, who has been sick at St. Vincent's sanitarium since Sunday, March 26, died at 4:55 o'clock yesterday afternoon at the age of 45 years. Mrs. Muller was suffering from nervous prostration complicated with pneumonia.

The loss from the recent fire at Jemez hot springs has been fully adjusted and the loss, which was \$1,000, has been paid in full. The adjustment was made through George E. Brewer, of Albuquerque, and H. N. Wilcox, of this city and was most complete and satisfactory to the owners. The companies in which the owners held policies were the Niagara Fire Insurance company of New York and the New York Underwriters agency of New York. The prompt and satisfactory manner in which Mr. Wilcox and Mr. Brewer settled the matter is the cause of the greatest satisfaction to the owners of the property.

### SALVATION ARMY.

We all like occasionally to think that we know something about the spirit of self denial, of renunciation, but the Salvation Army "goes us one better" in having brought that spirit to a world wide practical system. During its annual week of prayer and self denial, now approaching, this mighty organization for the uplifting of the fallen, the comfort of the cheerless and the salvation of all men gives it self up to a study, systematic abnegation and self sacrifice, that when one considers how largely these elements enter into the every day life of these enthusiastic workers for good rather than the rest of us to the blush.

The army is not selfish, however. That is an accusation that now in its most misunderstood days one does not remember to have brought against it. It gives its friends an opportunity to share in its labors and in the reward that always follows in the consciousness of a right deed done.

The dates set for this year's week of prayer and self denial are April 5 to 12 inclusive. During that time every Salvationist in the land will practice the most rigid self-abnegation, gladly yielding the proceeds for the extension of the army work. Friends of the army—all who are believers in the gospel of going about and doing good are invited to take part in this effort, and as there are few people, indeed, in this vicinity who are not friends of this splendid organization, this paper ventures the prophecy that there will be a general acceptance of this invitation.

### GRABBING THE LAND.

Half a century ago the United States had about 2,000,000 acres of public lands. Less than one-fourth of this vast estate is now in the possession of the government. According to the report of the senate committee "the entire public domain suitable for settlement will be exhausted and there will be no land left for our people who desire to make homes on it if our present system of land acts continues five years longer." It appears from the investigations of the committee that while the land laws served a beneficent purpose at first, they are now utilized to promote fraud. "We are making all possible haste under our present land acts," says the committee, "to turn over to wealthy men and corporations this rich heritage of the people. The population of the United States, today, will probably reach 130,000,000 in the next twenty-five years. Where will this rapidly increasing population find homes on the land if we permit the public domain to pass into the possession of men seeking to own and control vast landed estates?"

### BRITISH NAVY.

The efforts of the czar of Russia to induce the nations to curtail their expenditures for naval and military armament has not only been unheeded, but there has been a steady increase in the building up of the sea power of the great nations of the world, and there is no promise of abatement in this direction in the near future. Great Britain was never more progressive in this respect than at present. The navy estimates of that country for the ensuing year provide for an expenditure of over \$179,000,000 and in explaining this, the admiralty secretary said that while the estimates were unparalleled in time of peace or war, the great competition and rivalry in the matter of naval armaments continued to make this enormous and unproductive expenditure necessary. By the beginning of next month there will be under construction for the British navy the total of twenty-one vessels, including eleven battle ships and nineteen armored cruisers, besides other war vessels.

### GROWING BETTER.

Some times, says an exchange, we hear men talk as if politics used to be clean and white as an angel's frock, but were now degenerate, foul and belated.

Some men who call themselves good citizens refer proudly to the fact that they "never mix up in politics," and imagine that that gives them a desirable distinction among their fellows. "Too dirty for me," say others, and the croakers lament the passing of the good old days when everybody was honest, everybody was a genuine statesman, and everybody looked upon popular government as an institution only a little short of the Sunday school idea of heaven.

As a matter of fact, conditions are always growing better. The fight against corruption in administrative matters is as old as the world. And every day has meant real improvement, real growth, a nearer approximation of the ideal, that every deep thinker and every honest man has stored away to be taken out and polished up and looked at and laughed at and sworn at and wailed, whenever a crisis comes.

### WONDERFUL BOOKS.

The British museum owns the largest book in the world and the smallest. The largest is an atlas of the fifteenth century. It is seven feet high. Between its generous leaves a tall man's head is hidden. Its stout binding and ponderous clasps make it seem as substantial as the walls of a room. The smallest is a tiny "Bijou Almanac"—less than an inch square, bound in

dainty red morocco, and easily to be concealed in the finger of a lady's glove. These two extremes of the printer's art might well stand at the beginning and end of the amazing thirty-seven miles of shelves filled with books, which make up a part of the printed treasures of the great English library.

### EDUCATIONAL STATISTICS.

The last report of the United States commissioner of education is an exceedingly interesting document, although its figures are one year old. They are brought down no farther than the calendar year of 1901. The most striking fact in the report is the enormous increase in the number of young men and women who are seeking a higher education, the total for 1901 being almost double that of ten years ago. The total number of men in colleges, universities and professional schools in 1901 was 79,472, as against 44,925 ten years previous, and the number of young women 27,879, as against 10,761, the total of both having increased from 55,677 to 107,351 in the decade. One will notice that there has been a much larger proportional increase among the women students than among men—almost three fold. In 1889-90 there were only 8,775 young women in co-educational institutions. In 1900-01 they had increased to 21,468, while in schools of technology they increased from 707 to 1,151 and in colleges for women only from 1,979 to 3,269. Of the total students 63,843 were pursuing a classical course, 14,150 various branches of engineering, 9,081 general science, 3,843 agricultural and 391 architecture. The only decrease noted is in the schools of theology, where the number of students has been gradually falling off for several years. The total in 1900-01 was 7,567, a decrease of 442 from the previous year and of 804 in five years. This is a marked contrast with the rapid growth of the numbers studying law, medicine and dentistry. The law students numbered 13,642 in 1901, an increase of more than 1,900 in one year and 8,339 in ten years. There was an even greater increase in the medical students, who numbered 29,757. There were 7,308 young men studying dentistry and 4,429 studying pharmacy.

### WAR ON TUBERCULOSIS.

The prevalence of tuberculosis and the apparent helplessness of medical men to cope with the disease is furnishing a wide field for research. The Baltimore American in discussing this dread disease insists upon the isolation of tuberculosis patients.

Advances made in the study of the disease within the past few years have greatly narrowed the lines of battle against tuberculosis. It is now recognized by physicians that the disease is infectious. Isolation of the infected persons from the rest of the population must be the first step for the stamping out of the disease. This will prevent its spread, for it has been pretty clearly established that tuberculosis is not hereditary, but is communicated from one member of a family to another by personal contact. With the well-to-do or the wealthy, isolation is not a very important problem. It may be accomplished readily by sending the patient to a locality where he or she has plenty of pure dry air, wholesome food and a reasonable amount of exercise. With the poor, the case is different. If they are to be taken from their tainted surroundings and are to cease to become a menace to the health of their families, and finally to the public in general, they must be furnished by the state a place of isolation.

### CASUALTIES OF A YEAR.

While the year 1902 was a year of peace among the nations, always excepting South America, it bids fair to go down in the annals of the race as one that witnessed a greater destruction of human life than has been wrought by some long wasting wars. To the subterranean and mysterious forces of Mother Earth most of these calamities have been due. It is estimated that we have to charge her unusual restlessness with 48,000 lives lost through volcanic eruptions and earthquakes. Her tornadoes hurled 465 human beings out of existence, and cyclones added 240 more to the list, while other storms in greater numbers, but of less dignity in name, placed 720 to the direct account of violent winds. Floods swept 345 persons from life, tidal waves drowned 110, and water-spouts destroyed 15. To all of this we must add 283 lives charged to the destructive force of avalanches and snowslides, and we have a total of 51,078—an astounding mortality from these agencies of destruction in a year.

### HUMAN RIGHTS.

There is no doubt whatever in the minds of those who have watched the turn of the tide in the last few years that the last quarter of a century will witness radical changes in the relations of capital and labor. The first intimations of these changes have been apparent for some time, says the Denver Times, to the manifest uneasiness of those who contend stubbornly for the privileges of capital, denying as stubbornly the inalienable rights of labor. A new doctrine is being preached, as yet with some uncertainty, even with error, and sometimes mistakenly, by leaders who are not all that they should be and whose dictum, it is being discovered, is neither unselfish or to be relied upon. But this is an inevitable phase of the reform. A great cause attracts not only the noble and disinterested, but the ignoble and self-seeking. There is no known exception to this invariable rule. But, as unan-

swerable truths are thrashed out of the mass of chaff by strong and resolute hands, the good seed survives, to grow and increase and multiply, while the chaff is born away in the winds of heaven to perish in nothingness. As the cause gains in strength and momentum it progresses almost of its own volition, and those that have made it a means of self aggrandizement are swept aside, and so are forgotten.

The chief characteristic of future labor conditions will be, without doubt, a more equitable division of profits. Up to this time the sole purpose of great commercial enterprises has been the enormous enrichment of those who have applied the capital for the initiatory installment and maintenance. Nineteenth of the wealth which has accrued has been divided among the men who "risked their capital," to use the familiar phrase. The remaining tenth has been doled out reluctantly, subject to further shrinkage by every imaginable scheme that can be devised in the way of fines, and the control of private expenditure.

### DISTRICT COURT.

McDonald Plead Guilty to Forgery—Robinson Being Tried.

The first case set for trial in the district court was that of James McDonald, charged with forging checks.

McDonald pleaded guilty to the charge when he was brought up for trial this morning. He was arrested last fall by Marshal McMullin for passing a number of checks for small amounts on several merchants.

The second case on the docket is that of Charles Robinson, and his trial took place this morning. He is being tried on the charge of forgery, his case being more serious than that of McDonald.

Robinson is charged with entering the store of S. Vann & Son and offering a forged check in payment for some medicine, which was accepted. Later when the forgery had been discovered and he was arrested and was being taken to jail he pulled a gun on Officer Rossi, who threw out his hand and most fortunately his thumb caught under the trigger as it was being pulled. This quick action of the officer prevented his lights being blown out.

The case was continued this afternoon and will probably be decided upon by the jury before night. Robinson is trying to prove that he is not the man who passed the forged check, but the evidence against him is very strong.

The case of James Atwell, charged with forgery will be tried tomorrow. The judge did not pass the sentence on McDonald who pleaded guilty to forgery, but he will probably get the full force of the law.

### Distinguished Visitors.

Judge P. S. Grosscup, of the northern Illinois circuit court, with chambers at Chicago, and wife; Mr. and Mrs. Joseph Patterson, Ashland, Ohio; Mrs. John M. Blankenship, of Baltimore, and Miss Irene Taylor, of Toledo, Ohio, were in the city this morning between trains and were eager visitors at the Alvarado curio rooms. They were en route east from a few weeks spent on the coast and at the Grand Canyon. They will spend the day at Santa Fe.

### UNIDENTIFIED DEAD.

Remains of an Unknown Man Found—Supposed to Have Been Murdered.

A short time ago Messrs. Henry Lemons and Walter McDonald, while hunting in Segried draw, in the foothills of the Guadalupe mountains, about twenty-five miles southwest from McMillan, came across the remains of an unknown man. Unfortunately, little was left upon which to base any identification. The skeleton was in a fair state of preservation, and appeared to be that of a man of middle age. Of clothes nothing remained but the underwear, indicating that other clothing had been removed, possibly at the time of his death.

A hole made by a pistol or rifle ball was found in a hat which lay near the remains, and another hole in the jaw bone, and what appeared to be a fracture of the skull, showed that the man had, in all probability, come to his end by foul means.

From the evidence given at the inquest, held by B. J. Field, the conclusion reached was, that the man came to his death some months ago, from gunshot wounds inflicted by some person or persons unknown to the jury, as was also the name, age and nationality of the deceased. No one known in that vicinity has mysteriously disappeared within the past year, and it is thought that the man may have been a prospector, or some one examining the country for a stock range, and was waylaid and murdered for whatever property he had with him.—Carlsbad Argus.

### NEW ICE PLANT.

Can Now Turn Out Ten Tons Per Day From Distilled Water.

The Carl ice factory resumed operations this week with a complete new plant that has a capacity of twenty tons per day, so far as the machinery is concerned, and tankage for ten tons, per day, to be increased as needed. The lime plant, including an eighty-horse power engine, is a very fine one. The automatic arrangements for building ice are very complete. There is a new cold storage room, and a place for loading the 200-pound tanks in cars and in wagons. The blocks weigh 200 pounds each and are of distilled water. Mr. Carl has a local market and in towns in the surrounding country, which cannot be taken from him by El Paso factories.—Alamogordo News.

### EDITORIAL NOTES.

There are 6,300 rural delivery mail routes in the United States.

Every one of us want the other fellow to pay more taxes.

Let's proceed with the territorial fair preparations. Marron may remain as president if he will cultivate a cheerful disposition.

No town in the southwest is making more rapid growth than Albuquerque. The indications are favorable that the city will gain about two thousand in population this year.

President Roosevelt's western tour will be strictly non-partisan. The president will side track politics. He wants to see the country and ascertain its wants, and there is nothing like personal investigation.

With two county assessors, a traveling auditor, county and territorial boards of equalization, and a good government league after him, it is reasonable to suppose that no one could evade taxation in this country.

Since the Klondike was discovered its placers have yielded \$50,000,000 in gold. Last year \$5,000,000 worth of mining machinery was shipped to Dawson, which shows that the district is ceasing to be a poor man's camp.

George F. Albright was appointed county assessor in conformity with the territorial law, and he is discharging the duty of the office in a legal way. Taxpayers will make no mistake in filing their assessment returns with Mr. Albright.

Every part of the reception to be given in this city to President Roosevelt on May 5 should be made public. There will be hundreds of visitors from all parts of the territory on that occasion, and they should not be excluded from any part of the ceremonies.

During the last five years 500 American locomotives have been exported to Japan. The total number of all kinds employed in the kingdom now is set down at 1,200. The earlier railroad equipments were of English installation, but American locomotive manufacturers are overcoming this handicap and taking possession of the field.

During the last half of the last century the size of the average family in the United States decreased a little more than one person. In 1850 the population of the country was 19,987,000, made up of 3,598,000 families, of 5.6 persons each. In 1900 the entire population was 76,303,000, made up of 16,239,797 families, of 4.7 persons each. The largest families are now in the southern states, where the average is five persons to a family. In New England the average is 4.6, and in New York 4.4.

El Paso claims a population of over 33,000.

Free garden seeds may be had by calling at Citizen office.

Kansas City is fifty years old. It was first called Westport Landing.

The American people drank more than \$70,000,000 worth of coffee last year, but slept fairly well in spite of it.

The democratic papers of the territory are devoting much of their space just now to the giving of political advice to the people of this city and county.

When Theodore Roosevelt and Grover Cleveland both hit the road at the same time there will be something doing along the telegraph lines of the country.

Cuba is rapidly becoming Americanized. Her leading statesmen are already getting their photographs and testimonials in our patent medicine advertisements.

Page B. Otero was appointed fish and game warden at the unanimous request of the territorial council, who signed a request asking the governor to appoint Page to the office.

Alaska evidently has the same brand of liquor that is sold in the Kansas drug stores. An army officer stationed there, in deploring the absence of the canteen, says the whisky in Alaska "runs sixteen fights to the pint."

China is said to have the longest bridge in the world. It is 23,000 feet long and has a roadway seventy feet wide and seventy feet high. This bridge has 300 arches and each of its pillars, which are seventy-five feet apart, bears a pedestal surmounted with the figure of a lion twenty-one feet long and made out of one block of marble.

The memory of the battle of Manila Bay is to be commemorated in Union Square, San Francisco, by a granite shaft surmounted by a colossal Victory in bronze. The design is by Robert Altken, sculptor, and Newton Thorp, architect. The cost is to be \$45,000, and the bronze figure has been cast. This is the first monument in honor of Dewey's famous victory.

The ratification of the Panama canal treaty involves the payment by the United States government of the largest sum of money it has ever sent abroad. The amount paid to Russia for Alaska was \$7,200,000; to Napoleon Bonaparte for the territory of Louisiana, \$15,000,000; to Mexico for California and other territory, \$15,000,000; to Spain for the Philippines and Guam, \$20,000,000. The Panama Canal company will receive, under the agreement made with it, \$40,000,000, and the Colombian government \$10,000,000 additional, or a total of \$50,000,000.

El Paso is in the midst of a red-hot city election.

The Citizen is the only eight page seven-column paper in the territory.

President Roosevelt is booked to make 144 speeches on his western tour.

Belen is making rapid growth and will soon be one of the best towns in New Mexico.

If the good government league will

clinch the tax dodgers, a good work will be well done.

Las Cruces is making an effort to incorporate. The college town needs municipal government.

Sandoval county begins its existence under favorable circumstances, with an excellent set of county officers.

One of the Missouri editors has a \$1,000 bill in his possession, and the whole state press look upon him with suspicion.

The Citizen has a large circulation in Silver City, Deming and in other towns of the extreme southern New Mexico, more than 100 subscribers alone in Silver City and Deming.

If you want to know how well the Citizen circulates in the towns outside of Albuquerque ask Postmaster Hopkins. To him we pay monthly postage. This is a positive pointer to advertisers.

The Citizen's city circulation and its advertising patronage is perfectly satisfactory from a business point of view. The few who quit, when laboring under hallucinations, are coming back into the fold.

William Allen White, the Kansas editor and literary man, has just returned from a trip east and observed plaintively that "a dollar begins to shrink after you leave home. The thing that looks like a \$5 bill in Emporia is only a postage stamp in Chicago and a fly speck in New York."

When the war revenue taxes were repealed experts of the treasury and in congress estimated that it would reduce the annual revenues by at least \$4,500,000. Now, eight months after the repeal, it is found the revenues have only fallen off \$25,000,000 as compared with the corresponding period of last year.

Tables presenting the imports and exports of the principal countries show that the United States was in 1902 the largest exporter of domestic merchandise, while in 1870 her exports were exceeded by three countries—France, Germany and the United Kingdom. In "favorable balance of trade," or excess of exports over imports, the United States also holds first rank among the nations, her excess of exports being not only greater than that of any other country, but actually more in 1901, than the total excess of exports over imports of all other countries whose exports exceeded imports.

The Citizen has reduced its subscription price to 60 cents per month to subscribers served by carriers, and to \$5 per year by mail. This makes this paper the cheapest in this territory.

There are seventy-nine life insurance companies in the United States, and they possess aggregate assets of 2,100 million dollars. Ninety per cent of this vast wealth is controlled by seventeen companies, and half of it by three companies. The jumbos among the life insurance companies are the Mutual of New York, with 382 millions of assets; the Equitable of New York, with 353 millions, and the New York Life, with 322 millions.

While the Chinese exclusion act works inconveniences to the Chinese at times, it is not an unmixed evil to all. For instance the Chinaman living down in Mexico who has made his little stake and wants to return to his native land, in order to save steamer fare just steps across the line, is gobbled up by an inspector, taken before the proper tribunal, is ordered deported, and is taken in charge by the United States marshal, taken to San Francisco, and a ticket purchased to China for him, all at the expense of the government. This is an opportunity which the exclusion affords which is appreciated by the Chinamen who are in a position to take advantage of it.

According to the reports of the government bureau of statistics the aggregate price of necessary articles of daily consumption has increased from 72,455 in July, 1897, to 100,356 on January 1, 1903. The figures are obtained by a fixed system of compilation based on the New York quotations of a great variety of articles of food, clothing and household supplies, and are considered a trustworthy index of the relative cost of living from time to time. According to this the cost of living has increased nearly 40 per cent since 1897, which was the lowest point reached since 1888. On the other hand, the present cost is but little more than it was in 1888, when the index figures were 99,902.

Tables furnished by the treasury bureau of statistics show that the total international commerce of the world now aggregates about 21 billions of dollars, of which about 19 billions is exports and 11 billions imports. The fact that all exports eventually become imports and that all imports must have been originally exports suggests that the value of the world's imports should not materially differ from the figures of exports, but the fact that the cost of transportation and other charges are in many cases added to the value of the export when it is measured as an import explains, in part at least, the fact that the aggregate figures of national imports exceed those of exports.

Word was received in the city late this afternoon to the effect that Chief Justice Mills who has had the matter of the contest cases of Esquivel vs. Chavez, for the assessors and Jaramillo vs. Sena, county clerk, under advisement, has rendered a decision that throws Chavez out of office and establishes Esquivel in the assessorship and against Jaramillo, which still leaves Sena in possession of the clerk's office.—Las Vegas Optic.

### WESTERN WELCOME FOR TEDDY.

We're waitin' to welcome you here in the west.

So come along, Teddy, old boy!

We'll pack with enjoyment your strenuous rest—

We're built that way, Teddy, old boy!

Leave dignity with your executive clothes,

Your title shake off with your worries and woes—

Plug hats and glazed shirts in the camp never goes,

You know, don't you, Teddy, old boy?

Sure 'tain't as our president you will be met

By westerners, Teddy, old boy!

No homage to power and place will you get

From bordermen, Teddy, old boy, but a clinch of the hand that is honest and free

An' a shake that 'd rattle ripe nuts off a tree

Will please you far more than a bend o' the knee,

Say, won't it, now, Teddy, old boy?

No tenderfoot are we expectin' in you—

We know you, eh, Teddy, old boy? You toughened your feet on the Little Mizzou

Long time ago, Teddy, old boy. We know you're no slouch in the saddle, old son,

We know you're an artist in handlin' a gun,

We know that in camp you're a fountain of fun—

We're onto you, Teddy, old boy!

We'll fill you with choicest o' mountain grub,

Real provender, Teddy, old boy. Baked beans that 'd rattle the gods o' the Hub

On jealousy, Teddy, old boy. On coals we will broil the red steak o' the bar,

Make coffee 'twill curl your executive hair,

An' slapjacks! O, well you know jest what they are—

You've chawed on 'em, Teddy, old boy.

Our bear come in colors, black, grizzly, and brown

And cinnamon, Teddy, old boy. And real spunky luster you'll add to your crown

Soon as you get busy, old boy. When old Mississipp, in the papers has read

Of all the red brunesque blood you have shed

She'll sneak away back and crawl under the bed—

So, come along, Teddy, old boy.

—James Barton Adams, in Denver Post.

### Limited Wrecked.

The Santa Fe Chicago limited No. 4, which passed through Albuquerque on Saturday crashed into the rear end of a freight train near Strong City, Kansas, yesterday, injuring three stock men and killed several cars of cattle. The freight was standing on the main line when the flyer rounded a curve. The caboose was wrecked and the engine on the flyer was badly damaged. Passengers on the limited received only a shaking up.

### TERMS OF DISTRICT COURTS.

New List of Dates for the Meetings of the Courts in This Territory.

The supreme court meets at Santa Fe the first Wednesday after the first Monday in January.

First District—At Santa Fe, United States court—First Mondays in March and September.

Santa Fe county—First Mondays in March and September, at Santa Fe.

Rio Arriba county—Fourth Mondays in April and October, at Tierra Amarilla.

San Juan county—Second Mondays in April and October, at Aztec.

Taos county—Third Mondays in May and November, at Taos.

Second District—At Albuquerque, United States court—Third Mondays in March and September.

Bernalillo county—Third Mondays in March and September, at Albuquerque.

McKinley county—First Monday in June and third Monday in November, at Gallup.

Sandoval county—To be designated by district judge, at Corrales.

Valencia county—First Mondays in March and September, at Los Lunas.

Third District—At Las Cruces, United States court—First Mondays in April and October.

Dona Ana county—First Mondays in April and October, at Las Cruces.

Grant county—First Mondays in March and September, at Silver City.

Luna county—Second Mondays in June and December, at Deming.

Otero county—First Mondays in May and November, at Alamogordo.

Sierra county—Fourth Mondays in May and November, at Hillsboro.

Fourth District—At Las Vegas, United States court—Second Mondays in May and November.

San Miguel county—Second Mondays in May and November, at Las Vegas.

Colfax county—Third Mondays in March and September, at Raton.

Mora county—Fourth Mondays in April and October, at Mora.

Quay county—To be designated by district judge, at Tucuman.

Union county—First Mondays in March and September, at Clayton.

Wood county—Second Mondays in April and October, at Santa Rosa.

Fifth District—At Socorro, United States court—Third Monday in May and fourth Monday in November.

Socorro county—Third Monday in

### ABOUT THAT COAT.

You wear a coat. Why? To keep the cold out? No; to keep the warmth in.

What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

May and Fourth Monday in November, at Socorro.

Chaves county—Second Monday in April and third Monday in October, at Roswell.

Eddy county—Fifth Monday in March and first Monday in October, in Carlsbad.

Lincoln county—First Mondays in March and September, at Lincoln.

Roosevelt county—Third Mondays in March and October, at Portales.

## RAILROAD NOTES.

J. C. Smith, depot master of the Rock Island depot at Topeka, has been railroaded for fifty years, ever since he was 12 years of age.

Santa Fe officials say they will retain the mail contracts between Chicago and Kansas City, despite the efforts of the Burlington to secure them.

H. C. Clements, general auditor of the Texas Southern railroad and of the Delaware & Western Construction company, died Wednesday at his home in Kansas City, aged 54 years.

George E. Roe, general freight and passenger agent for the Santa Fe, with office at El Paso, spent yesterday in the city interviewing wholesale and retail merchants. He left for the north last night.

The Mexican Central earnings for the third week in March, amounted to \$495,735; same period in previous year, \$377,357; increase (33.86 per cent.), \$118,378. Three weeks of March, \$1,491,096; same period in previous year, \$1,147,797; increase (29.92 per cent.), \$343,299.

The Santa Fe tracklayers on the Eastern Oklahoma extension from Newkirk, Okla., to Paul's Valley, I. T., were Wednesday removed to the Osage nation, where the work will be completed immediately. That will leave but a portion of the steel yet unaided between Newkirk and Shawnee.

## Passes Taken Up.

A dispatch dated from Chicago says: Owing to the declaration of the interstate commerce commission that all passes given to shippers should be discontinued, the western executive officials held a meeting today with a view to arriving at a common understanding. The opinion was expressed unanimously that all outstanding passes issued at the beginning of the year and before the new law was passed should be recalled. Owing to the fact, however, that much of this transportation had been issued by the presidents the officials would not agree to recall the transportation. The presidents would be advised, however, that the outstanding transportation should be taken up.

## Paul Morton in It.

During the progress of a meeting of western railway officials held in Chicago for the purpose of discussing the Elkins law it came to light that A. J. Cassatt, president of the Pennsylvania; Paul Morton, second vice president of the Santa Fe, and E. D. Kenna, first vice president and general counsel of the same road, are authors of the bill. This accounts for President Cassatt's declaration in favor of an amendment to the commerce law, the declaration having been made before the public knew that an amendment was in contemplation. It also accounts for Mr. Morton's efforts in behalf of securing an amendment among all western lines as to the interpretation of the Elkins act and its observance.

It is stated that the first draft of the bill was made by Mr. Kenna, and embodied the ideas of the three men named. This draft was submitted to the president, the attorney general and the chairman of the interstate commerce commission, and was subsequently amended. As finally introduced, however, the bill was essentially the bill prepared from the suggestions made by Messrs. Cassatt, Morton and Kenna, after repeated conferences at the executive mansion.

## HANUTE'S LATEST SENSATION.

Mock suicide Gained the Answer the Lover Wanted.

At Chanute, Kas., recently the sound of a pistol shot rang out clearly in the afternoon air.

A father was walking down the street, heard it, and was filled with the latest alarm. A minute before he had left the house from which the report proceeded. In vain he had pleaded with the son who was in there engaged in violent love quarrel with the young lady of the house, to leave. The father fairly ran to the house, expecting to see his son lying on the floor bleeding from his life blood as he lay there slain in his own hand.

That is what he saw in his imagination. In reality, when he got there he found that the darling young man, who was in his heart's desire and given up all hope, had in the direst emergency taken the only means of escaping remorse to the young lady who had so rudely rejected his heart's desire.

With a final appeal to the young lady he told her that she would regret her action as long as she lived. Then calm desperation he had taken his pistol from his pocket and fired it—in the air.

With most commendable thoughtfulness he had loaded the pistol with blanks, so there would be no possibility of doing any serious damage to the future.—Topeka State Journal.

## TOMBSTONE RAILROAD.

Completed Yesterday—Arrangements Are Making for a Celebration.

F. Staunton, general manager of Tombstone consolidated mines, opened over in Phoenix yesterday on way from Tombstone to the Consolidated mine, says the Phoenix Republic.

He brought the interesting information that when he left Tombstone the road into that town was practically finished, and that it was undoubtedly completed yesterday. Thus the tombstone of the past from the Tombstone of the past from the Tombstone of the past has been reached at last. The laying of the line from Fairbank to historic mining camp was finished months ago, but the completion of the railroad has been delayed lack of steel. Arrangements are being made for a grand celebration at

Tombstone within the near future to commemorate the coming of the railroad. All southeastern Arizona will take part in the celebration, and it is expected that nearly everybody in Bisbee will attend.

## LEAVES THE TRACK.

Santa Fe Passenger in Accident at Lakin—No One Hurt.

As Santa Fe train No. 2, east bound, was pulling into the station at Lakin, Kas., at about 2:35 Thursday morning it struck a broken rail and left the track.

The report received at the general offices says that about five or six cars were derailed. Those off the track were a chair car, a coach, two baggage cars and a sleeper. The engine stayed on the track. No one was hurt.

The passengers of No. 2 were brought east in the cars that were not derailed which were consolidated with east bound train No. 4 as it came through Lakin.

Frank Easton, of Topeka, was a passenger on No. 2 when it was derailed at Lakin. His father, Willis Easton, received a telegram from him stating that he would be tied up there for twenty-four hours.—Topeka State Journal.

## Remarkable Railroad Growth.

In no industry perhaps does the United States enjoy a more remarkable ascendancy over the rest of the world than in the railway service. At the close of the last century North America had no less than 229,880 miles of track in operation, while the total for Europe, Asia, Africa, Australia and South America was only a trifle greater—about 279,000 miles. The United States then had a mile of road for every 383 inhabitants, Europe one for every 12,400. This country invented the parlor, sleeping and dining cars, the present steel freight car, many of the best features of the modern locomotive, the air brake, the automatic coupler and a host of related devices, and it runs the fastest long distance trains.

## SHOT HIS WIFE'S PARAMOUR.

S. H. Chipman Killed by F. J. Grundman at San Francisco.

A dispatch from San Francisco says: Sheridan H. Chipman, a clerk in the freight auditing department of the Southern Pacific, was shot and killed Tuesday night at the company's office at Fourth and Townsend streets, by Frank J. Grundman.

Grundman called at the freight office and asked for Chipman. The latter stepped into the hallway and immediately words were passed. A short while after pistol shots were heard by John Donohue, a porter in the building. Donohue ran into the hallway and saw the men struggling. Grundman had a pistol in his hand. Both men started down stairs holding each other.

Three shots were fired from Grundman's revolver, two of the shots taking effect, one in the heart and the other in the right wrist. Grundman is under arrest and claims that his act was justifiable. He says his wife confessed to him her relations with Chipman.

## The Alvarado.

City folks in goodly numbers turned out last night and enjoyed the concert at the Alvarado. The roomy lobby and spacious dining room were thronged with guests from early in the evening until late. The dinner was of usual excellence. The music was fine, a number of new pieces being rendered. The electric fountain in the front porch forth its silvery, spraying rays, fascinating and pleasing. Those who were out counted the evening well spent.

## SANTA FE IN CALIFORNIA.

Will Lay More Track into San Francisco.

A dispatch from San Francisco says it is evident that the Santa Fe Railroad company is rapidly perfecting its plans of establishing a rail line to connect its Humboldt county properties with this city. Capt. A. H. Payson, assistant to the president, and Assistant Traffic Manager W. A. Bissell, who exercises executive control of Santa Fe affairs in California, have gone to Eureka, Humboldt county, accompanied by a surveying party, in charge of F. M. Blaboe, of the engineering department of the Santa Fe, and the information is given out that the purpose of their trip is to inaugurate the work of extending the recently acquired Humboldt county lines southward toward Willits, the northern terminus of the California Northwestern road in Mendocino county. An announcement that the California Northwestern has passed under Santa Fe control is expected.

In connection with this anticipated railroad deal, the incorporation in this city of the Fort Bragg & Southeastern road is of interest. It is to run from Fort Bragg, in Mendocino county, to Healdsburg, in Sonoma county. This line may be part of a road of parallel the California Northwestern, to be constructed by J. J. Hill, in pursuance of his plan to enter San Francisco from the north. The incorporators of the Fort Bragg road include G. B. Shaw, a Chicago banker, and the members of the Albion lumber company, which owns extensive forests in northern California.

A petrified shark, fifteen feet long and weighing 500 pounds, unearthed near Yuma, Ariz., some time ago, was shipped through the city last week by the Wells-Fargo company en route to Omaha, Neb., where it will be placed on exhibition. It came from Yuma by way of the Southern Pacific and Rio Grande division of the Santa Fe. It required six men to make the transfer here from one express car to another.

## "BARR SPECIALS."

Double Heading System to Be Abolished by the Santa Fe.

A Chicago dispatch says that through the efforts of trainmen and engineers, the practice of double-heading is being abolished on American railroads. The labor element won a decided victory in this respect in its contest with the Union Pacific and Santa Fe railroads. After many months' contest over the question the management of each railroad has agreed to discontinue double-heading except in rare instances.

This victory is considered the final blow to double-heading, for more than any other railroads in the country do the Union Pacific and Santa Fe need double-heads. The labor committees, however, made double-heading an issue of the wage question and refused to budge from the position of hostility which they have assumed against the practice. The agreement which has been obtained from these roads is being used by the trainmen and engineers as a lever with which to force other railroads to discontinue the practice. The fight against double-heading, which is claimed to be extra hazardous to life and limb, is a fight without compromise.

The agreement with the Union Pacific and the Santa Fe railroads contains these clauses: "With trains of over thirty cars, exclusive of cabooses, the practice of double-heading will be discontinued as hereinafter provided. Helpers may be run on any district when necessary because of storms. In case of accident to any engine consolidation may be effected with another train and the consolidated trains brought into terminal as a double-header if practicable."

## RAILWAY EMPLOYEES.

Strong Division Formed at Alamogordo and Other Points.

A division of the United Brotherhood of Railway Engineers has been started at Alamogordo with ninety charter members and thirty applicants for admission.

J. E. Fitzgerald of Division No. 46 of El Paso has been in Alamogordo working in the interest of the order for the past week, and the work will be continued at other points. Mr. Fitzgerald expects to see an increase of 500 members within the next two months, as most of the class order men are going into the United Brotherhood of Railway Engineers.

Division No. 46 is in a very flourishing condition. There has also been a division started at Douglas, Ariz., with fifty charter members and twenty applicants. It is said that the railroad employees have become convinced that the men in all branches of the service when combined together can accomplish more than the one class order.—El Paso News.

A special, bearing 190 recruits for the Fourteenth cavalry at Fort Grant, Ariz., came in yesterday over the Rock Island Saturday, says the El Paso News, and went out over the Southern Pacific. The soldiers were from Columbus barracks, Columbus, O.

## WORK ON SANTA FE.

Big Bridge, One of the Largest in New Mexico, to Be Built.

The El Paso News says: J. P. O'Connor of the firm of Caples & O'Connor, railroad contractors, returned yesterday from the works on the extension of the Santa Fe near Albuquerque. The firm has most of the contract for the grading of the Santa Fe line from Belen, N. M., to a point on the Pecos Valley line of the Santa Fe near Roswell.

He says that the grading work is progressing rapidly near Belen and that the crew is now out fifty miles. Some of this work will not be completed for several months, however, as there are several large cuts to pass on the line.

He also says that the track laying has reached the Rio Grande river two miles from Belen and will stop there until the big bridge is completed over the river.

This will be one of the largest bridges in New Mexico, being 1,200 feet long and built of steel with large stone abutments. This will delay the track laying for a month or two when it will be rapidly pushed on to the grading camps.

No grading has been done on the eastern end of the line and possibly will not be if the projection from the western end is sufficiently fast.

H. L. Rollins, bridge engineer for Landry Sons, superintending the construction of the bridge across the Rio Grande at Belen, was here yesterday. He came here to meet Mrs. Rollins, who arrived from Los Angeles. They went to Belen last night.

## SOCORRO IS HOPEFUL.

That Town Hopes to Get the Rock Island Extension.

The Socorro Chieftain says that it has it on excellent authority that the Rock Island Railway company will immediately put a corps of engineers at work to survey an extension from some point on the company's road in eastern New Mexico through Socorro and on toward San Diego. This is simply a part of an enterprise which, if carried out, will give the Rock Island the shortest and otherwise most economical transcontinental line possible in the United States.

This very move on the part of the Rock Island has been dreamed of and talked of and has seemed inevitable to certain citizens of Socorro for many years. The result of the building of such a line will be to restore to Socorro her lost glory and make her

again one of the very best towns in New Mexico.

But this is not all. From the same authority comes the statement that the Santa Fe, in anticipation of the Rock Island's enterprise, will at once enter upon the work of extending its Magdalena branch westward. This extension will open a country that is rich in many resources.

## THE RAILROADS IN OKLAHOMA.

The Total Mileage of Main Lines Assessed is 1,411.29.

A dispatch dated from Guthrie, Okla., says the main lines of railroads in Oklahoma upon which the territorial board of equalization will place a valuation this year have a total mileage of 1,411.29. The side tracks amount to 186.34 miles. The mileage by railroad systems is: St. Louis & San Francisco main line 291.58, side track 31.97; Fort Smith & Western main line 10.11; Denver, Elid & Gulf main line 1.19, side track 1; Kansas City, Mexico & Orient main line 14.47; grade 43; Choctaw, Oklahoma & Gulf main line 237.79, side track 41.04; Chicago, Rock Island & Pacific main line 328.17, side track 35.95; Atchison, Topeka & Santa Fe main line 509.18, side track 75.16; Missouri, Kansas & Oklahoma main line 18.80, side track 1.55.

## Prizes Offered.

The colonization department of the Southwestern lines has sent out the following card:

Farmers, farmers' wives and daughters, school teachers, doctors, clergymen, merchants in the smaller towns, any citizen who has something to say, are invited to write letters and longer articles about the locality in which they live in the southwest.

The territory includes Arkansas, Arizona, Indian Territory, Louisiana, southern Missouri, New Mexico, Oklahoma and Texas.

Premiums that make it an object are offered, a set for each state and territory. Full particulars of the conditions of the contest, and a list of the prizes and awards will be sent upon application to J. W. Steele, commissioner colonization agency southwestern lines, Columbia Theater building, St. Louis, Mo.

## OUTPUT OF CAPTAIN MINES.

The Industry There Employs Now About Three Hundred Men.

Lincoln county ranks third among the coal producing counties of the territory. The coal measures of the county embrace an area something like 128,000 acres, extending from White Oaks on the north to Fort Stanton on the south and varying in width from five to ten miles.

The existence of coal in the county was discovered as early as 1880, but it was not until recent years that any attempts were made to mine it, owing to the fact that it was impossible to get it to market from lack of transportation facilities.

In 1896, however, the value of the coal deposits of this county came to the notice of the Eddy brothers, who, after investigating the extent of the coal measures, and the quality of the coal, conceived the idea of building a railroad to this section to tap these coal fields.

Accordingly the El Paso & North-eastern railway was built, and the work of developing the coal measures began. The coal mines have been worked continuously since their opening.

For the fiscal year ending June 30, 1902, 121,902 tons of coal were produced in this county, nearly all of which came from the Captain mines.—Captain Progress.

## Railway to Use Telephones.

Next month the Chicago Great Western will begin the construction of a private telephone system between its three terminals, Chicago, St. Paul and Kansas City. The first line will be from Chicago to St. Paul, where the general offices of the company are located. The Kansas City line will connect at Oelwein, Iowa, with the Chicago-St. Paul line. The cost of the telephone system will be about \$10,000.

"We do not propose to use the telephones to displace the telegraph, said an official of the Great Western. The telephone will not be used for train orders, except in case of emergency. A special heavy copper wire will be used exclusively for the telephones."

## A BAD ACCIDENT.

An Iron Horse Consumed by Fire in the Flagstaff Round House.

Wednesday an accident happened at the round house in Flagstaff which will cost the Santa Fe many thousands of dollars and put out of service for awhile their best passenger engine. Wednesday afternoon a new engine at the round house started a fire under the boiler of the locomotive, in which there was no water, and from time to time added fuel. Naturally, the engine became red hot and the adding of more coal had the same effect on it of feeding a foundry furnace. The flues were melted and the interior of the engine rendered useless. At 12 o'clock that night the locomotive was a great sight and it was viewed by many. It was red hot and its inside workings were glowing being consumed. Nothing could be done; to throw water on it would crack the iron, and it was just simply a case of waiting until it cooled off. The engine was a tandem-compound of the prairie type and a fine specimen of the work turned out by the Baldwin Locomotive works. It will be sent east for repairs. It was an unfortunate accident, and one that is liable to occur in even the best regulated shops, but rarely is the scene witnessed of a powerful locomotive standing in its stall slowly devoured by heat.

**Keeley's Cure**  
For Drunkenness, Opium, Morphine and other Drug Using and the Tobacco Habit and Neurasthenia.  
THE KEELEY INSTITUTE, DOWNTOWN, ILL.  
Correspondence Strictly Confidential.

## INDIAN SCHOOL NOTES.

The tailor boys are very busy darning and patching their own company clothes.

The Indian school band gave its concert on Sunday afternoon. The entire program was excellent and well rendered.

Mr. and Mrs. Martin, from the San Felipe day school, were the guests of the Indian school Sunday and Monday.

Quite a number of Indians from Laguna and San Felipe reservations were visitors with their children, and were well pleased to hear the school band.

Joseph R. Abner, the Indian school director, will now have charge of the drilling company, which is to meet every Friday evening so as to be in shape by May 30.

The base ball schedule: New Mexico university, Albuquerque High school, Santa Fe Indians, Las Cruces and Las Vegas. Practice has begun in earnest, and several of last year's men will be in the team this season. There are many new candidates who are doing good work. The first game of the season will be on April 4 with the New Mexico university. Dr. Wood has been elected manager.

## Police Jottings.

Marshal McMinn reports \$465 in fines for the month ending today. Not a bad month for the police doings.

The case against Monte Jack, charged with insulting Judge, the expressman, with words was continued until tomorrow morning on account of several witnesses being absent. Their trouble was but a continuation of the row on the "acre" Sunday. It is claimed that Monte Jack shot off his glib because Judge summoned an officer, who is always an unwelcome guest on the acre.

Fred Crawford, forfeited the bond put up for his appearance this morning. He was arrested for disturbing the peace.

All the business before the judge this morning was of a colored nature.

You Know What You Are Taking When you take Grove's Tasteless Chilli Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

## TOOK THE DARE.

Drunken Cowboy Shoots Hat Off of an El Paso Man.

Isidor F. Harris, the jolly heavy-weight representative of the Early Times Distillery company, who has been spending several days in the city resting up after a jaunt over the southern part of the territory, left this morning for Santa Fe. Mr. Harris was a guest of the Sheldon hotel at El Paso a few days ago and got from Mr. Fisher, the proprietor of that hostelry, the story of how Mr. Fisher had his hat shot off a few weeks ago by a drunken cowboy.

The cowboy was a Fort Worth man and was attending the cattle growers convention and using his influence to take the next meeting of the convention back to Fort Worth. He said to Mr. Fisher, "I would like to shoot somebody's hat off."

Fisher raised his hat as a banter and before he knew it, a pistol ball passed through it and into a \$90 mirror.

Mr. Fisher conceded to the cowboy that he was a good marksman and agreed to use his influence in sending the convention to Fort Worth next year.

## TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box; 25c.

The members of Harmony lodge, No. 17, I. O. O. F., are requested to meet tonight in regular session, promptly at 7:30 o'clock, so that the Rebekah lodge may have the use of the hall after our meeting. O. S. Pillsbury, secretary.

A joint meeting of all the committees for the reception of President Roosevelt is called for tonight in the Commercial club at 8 o'clock. All members are urged to be present as final plans for the reception will be perfected.

A meeting of the officers and lady managers of the St. Joseph's Sanitarium Bazaar association is called for tomorrow (Wednesday) afternoon at 2 o'clock in the Alvarado hotel.

**Kodol Dyspepsia Cure**  
Digests what you eat  
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

## Cures all stomach troubles.

Prepared only by E. O. DeWitt & Co., Chicago. The 61c. bottle contains 2 1/2 times the 30c. size. J. H. O'Reilly & Co. and B. H. Briggs & Co.

## NEW COUNTY ORGANIZED.

The new county of Sandoval was organized yesterday at the town of Sandoval (Los Corrales), ten miles up the river, and the event will long be remembered as a bright page in the history of that town and county.

On Sunday delegations from the precincts in the new county commenced pouring into Sandoval, and by the afternoon there were several hundred people present. In the evening two dances were held—one at the residence of J. Perea and the other at Anselmo Armijo's. At each place speeches were made by Judge Seferino Crollott of Albuquerque, Hon. E. A. Miera of Cuba and Idrado C. de Baca of Pena Blanca. The first regiment band of this city, which had been engaged to make lively music for the celebration, provided the music for the dancers.

Judge Crollott, in his speech, assured the people of Sandoval county that Bernalillo county wanted to be friendly, and would assist the new county in more ways than one in its efforts to come to the front and to keep along with the older county.

Yesterday morning, in a large room provided by Ignacio Gutierrez, one of the appointed commissioners, the board of county commissioners, consisting of himself, E. A. Miera and Esquipo Baca, met and organized by the election of Mr. Baca as chairman.

An adjournment was then had until 2 o'clock in the afternoon.

A party of friends, among whom were Judge Crollott, Messrs. Marcelino, Manuel and Esquipo Baca, Gabriel Armijo, Isidro Sandoval, O. P. Hovey and the Citizen representative, visited the pretty residence of the Hon. J. M. Sandoval and were his guests at dinner.

At 2 o'clock the commissioners reconvened, and, after a short consultation, the meeting was again called to order by the chairman.

Mr. Miera then read off the following appointments for the various county offices:

Probate Judge—Nicholas de la O. de Pena Blanca.

Probate Clerk—O. P. Hovey of Algodones.

Collector and Treasurer—Manuel Baca of Pena Blanca.

Sheriff—Alfredo M. Sandoval of Sandoval.

Assessor—V. S. Miera of Cuba.

School Superintendent—J. B. Archuleta of Jemez Hot Springs.

River Commissioners—Ignacio M. Perea, Juan Garcia, Higenio Cordova, Donaciano Nieto.

The appointments were unanimously accepted by the board.

After this Mr. Miera introduced the following resolution:

Resolved, That the board of county commissioners of Sandoval county hereby designate the Albuquerque Daily Citizen as the paper to furnish all material for the officers of said Sandoval county.

The resolution was unanimously accepted, after which the board adjourned until 2 o'clock today, when the newly appointed officers will take the oath of office and file their respective bonds in accordance with a territorial law on the subject.

## Who They Are.

Messrs. E. A. Miera, Ignacio Gutierrez and Esquipo Baca are the board of county commissioners and all good business men. Mr. Miera resides at Cuba in the Nacimiento country, and is one of the most extensive sheep raisers in New Mexico. He is also in the general merchandise business. It is understood, owing to his personal business affairs, he will resign as commissioner and ask the governor to appoint as his successor a gentleman from his district. Mr. Gutierrez is in business at Sandoval, and is prosperous. Mr. Baca, who is the chairman of the board, is a well-known merchant, stock raiser and farmer of Pena Blanca. These three gentlemen have held positions of trust in Bernalillo county.

Nicholas de la O. the probate judge, is a well-known ranchman and stockman of Pena Blanca. He is a man of family and is quite well to do.

O. P. Hovey, who will fill the position of probate clerk of the new county, is from Algodones. He is a school teacher with an excellent record, and was one of the translators of the house of the late territorial legislature.

Manuel Baca, the collector and treasurer, is a merchant of Pena Blanca. He will prove an excellent officer of the new county.

The sheriff of Sandoval county is Alfredo M. Sandoval, son of Hon. J. M. Sandoval. He is a young gentleman with friends innumerable, and they predict that he will make a good peace officer.

V. S. Miera is the assessor of the new county, and he is as well known on this side of the line as in his own county of Sandoval. He is a sheep raiser and buyer, and is familiar with everything and everybody in the county where he will reside as the assessor.

J. B. Archuleta of Pena (Jemez Hot Springs) is the county school superintendent. He is a property owner and has taught school at the Springs for a number of years.

There are fifteen precincts in the new county—Bernalillo, Las Placitas, Algodones, Bland, Jemez, San Isidro, La Jara, Copper City, Gonzalitos, La Tijera, Guadalupe, Casa Salazar and Sandoval.

The Citizen representative, who attended the meeting at Sandoval yesterday, is under obligations to Isidro Sandoval for the drive to that town and back to Albuquerque.

Adjutant General W. H. Whiteman,

of the territory of New Mexico, is here from Roswell, where he inspected the territorial military institute located there. He is here for the purpose of selecting a site for the Albuquerque armory, for which an appropriation of \$7,500 was made by the recent legislative assembly.

## DISTRICT COURT.

Forgers were greatly in evidence in the Bernalillo county district court yesterday. Three offenders were tried, all being convicted of the crimes with which they were charged. James McDaniel, who forged several checks for small amounts, has previously entered a plea of not guilty, but yesterday when the case was called he pleaded guilty. His sentence will be passed later.

Charles Robinson pleaded not guilty and he tried to prove that he was not the man

# Railroad Topics

W. H. Walker has resigned as machinist at the local shops.

Engine No. 713 is ready for duty after an overhauling in the back shops. It is said that the railroads in Texas were damaged a million dollars by recent heavy rains.

General Storekeeper N. M. Rice left last night for Topeka, Kan., to take up his duties of his new office.

The extension of the Choctaw route to connect with the El Paso-Rock Island at Tucuman is progressing rapidly.

J. C. Smith, depotmaster of the Rock Island depot at Topeka, has been railroaded for fifty years, ever since he was 12 years of age.

William Moody has resigned as machinist of the local shops and gone to San Francisco, where he will engage with the Union Iron Works.

It is said that during the next year, new bridges and trestles aggregating in cost upwards of \$400,000 will be erected on the Santa Fe coast lines.

The condition of P. C. Carpenter, ex-railroader of Las Vegas, who is suffering from an attack of heart trouble, is not much improved, says the Optic.

Commencing today a railway post office with regular clerks will be operated over the El Paso & Southwestern road. This is a great improvement over handling the mail as baggage, as is now done.

Depot express agent, F. G. Colburn, of the local station, has resigned his position with the Wells-Fargo company and will go to Fredonia, Kan. The resignation will take effect as soon as a man can be secured to relieve him.

Eastern railway lines have given notice that the embargo which has existed for months against traffic from the western lines has been raised and that the eastern lines now are in a normal condition. The situation was relieved somewhat by the loading of about 2,000,000 bushels of wheat on lake steamers at Chicago to await the opening of navigation.

A movement is on foot to protect the wool growers of the country and by western railroads over the action of the eastern lines in raising the rates of wool 15 per cent from Chicago to the seaboard. The staple has heretofore been carried on a commodity tariff, but is now placed in the classes. Washed wool is first class and unwashed wool is third class.

The citizens of Guthrie, Okla., in mass meeting accepted the proposition of the St. Louis, El Reno & Western Railroad company to build through that city as chartered from St. Louis into Texas, passing through El Reno and Hobart. This is the fifth railroad secured by Guthrie within fifteen months. The grading of the new road is now in progress.

## TRACK LAYING THIS WEEK.

Work on the Santa Fe Central will commence on Friday at Torrance.

Spring has advanced sufficiently to permit the pushing to completion the construction work on the Santa Fe Central railway, says the New Mexican. On Friday, Chief Engineer A. G. Kennedy will commence laying rails towards the north from Torrance, as fast as the track laying engine can do the work. There are seventy cars of steel rails at Torrance at present. Seventy more car loads are on the way to Kennedy and will arrive there shortly when track laying will be commenced at that place. Ninety standard gauge cars of steel rails will get to Santa Fe over the Denver & Rio Grande in the course of a few days. The angle bars, fish plates and spikes to push the work from this end are already here and are being unloaded on the switch from the Santa Fe on the south side and the ties for this switch have been laid all ready for the rails to be spiked down. Yesterday, Manager W. S. Hopewell and C. F. Easley, Esq., were out buying up additional ground for the terminal facilities which will be very large.

It is understood that a good market has been found for every ton of coal that will be mined at the Santa Fe Central coal fields at Clark and Hagen. Experts pronounce these fields the finest in the southwest and sufficient in themselves to warrant the building of a railroad system to carry the product to market.

It is reported at Pittsburg that Senator W. H. Andrews is there to finance an important extension for the Santa Fe Central, which will ultimately give Santa Fe direct connection with Fort Worth and Galveston, Texas. The first link in this project is to be a line from Torrance to Roswell. General Francis J. Torrance, one of the principal financial backers of the Santa Fe Central, may be at Torrance in a week or two to look closer into this project. Frank Dillert, of the Santa Fe Central offices in this city, is reported to have gone to Estancia to place in readiness General Torrance's club house at that point for the general and his party.

General Manager W. S. Hopewell is pushing the completion of the road with his characteristic energy and persistence and it is believed, now that this will result in completing the line for traffic in the course of a few months.

There have been many causes of unexpected delays in the construction of the road. It has been impossible to secure rails as soon as was expected on account of the orders in the mills ahead of the orders given by the company. There has been a delay in shipping the rails and there are now many

cars on the road between Pittsburg, Youngstown, Ohio, and Joliet, Ill., the points from which the rails are shipped and Torrance, Kennedy and this city. It is believed that now they will arrive so that the work can proceed without further interruption.

## AGAIN IN THE AIR.

Santa Fe-Rock Island Merger—The "Frisco" in the Deal.

A meeting was held yesterday in New York of Rock Island, Frisco and Santa Fe officials, says a New York dispatch. It is claimed that it means the formation of a closer union of the roads which in time may bring about a merger. It would create no surprise if the three roads should appear under one management and thus form the great railway system of the world.

So close is the alliance now between the Rock Island and Santa Fe that they are arranging to alternate California limited trains during the summer, each handling three trains per week, and the Rock Island to use part of the Santa Fe track.

The pressure being brought to force the two systems comes mainly from parties interested in both. The Frisco and Rock Island merger will be completed very soon and earnest consideration resumed of the plan to merge the Rock Island and Santa Fe.

A consolidation of the Rock Island, Frisco and Santa Fe has been in the air for months past and even before it became known positively that the Rock Island was completing a deal for the St. Louis and San Francisco a definite announcement was made by Santa Fe officials that an alliance had been formed with the Rock Island. It was announced that the proposed cut off of the Santa Fe in New Mexico would not be built and instead a cut off would be constructed through Kansas which would enable the two systems to share in the use of the tracks to California. But this announcement seemed decidedly premature, as a few days later President Ripley announced that there was nothing in it. But this system has always been considered as a possible ally or purchase for the Rock Island and there is a probability that matters will come to a head at the coming meeting.

A consolidation of the three great roads would make the longest railroad system in the world. It would have a total mileage of 21,640 miles, exclusive of the many extensions and cut offs of the three lines are now building in the different parts of the country. The Rock Island has a line from St. Louis to Kansas City under construction besides its Oklahoma building. The Frisco has an extension down the west bank of the Mississippi river from Memphis to New Orleans, while a road is under construction from Oklahoma City toward Denver, which is said to be Frisco property. The Santa Fe is building in New Mexico and is after new lines in California to share in the big lumber trade of the coast state. The mileage of the three individual systems is:

Chicago, Rock Island & Pacific, 7,330 miles.  
St. Louis & San Francisco, 5,025 miles.  
Atchison, Topeka & Santa Fe, 8,685 miles.

The next move of the great combination, of which the Rock Island is the aggressor, will undoubtedly be to obtain an outlet to the Atlantic coast. In this connection the Georgia Central has already been coupled with the Rock Island-Frisco deal. It is said to be the contemplated outlet to the east. The connection could be made at Birmingham, Ala., which is reached by the Frisco. The road forms a network over the southern part of Alabama and Georgia with its port at Savannah. The system has a mileage of almost 2,000 miles.

Wall street has been satisfied that this merger of western lines was coming, but there has been some surprise that an official announcement has not yet been made of the purchase of the Frisco by the Rock Island. Weeks ago the details, even of the deal were known, but for some reason the announcement has been withheld. It may have been with the object of bringing in the Santa Fe to complete the plan.

## WILL COST \$150,000.

Great Western to Install Private Telephone System.

The Chicago Great Western railway will commence next month the construction of a private telephone system between its three terminal points, Chicago, St. Paul and Kansas City. The first line will be from Chicago to St. Paul, where the general offices of the company are located. The Kansas City line will connect at Oelwein, Iowa, with the Chicago-St. Paul line. The cost of the telephone system will be about \$150,000.

"We do not propose to use the telephone to displace the telegraph," said an official of the Great Western. "The telephone will not be used for train orders, except in cases of emergency. A special heavy copper wire will be used exclusively for the telephones."

## RICE IS NAMED.

Becomes General Storekeeper of the Santa Fe.

The rumor that N. M. Rice, storekeeper of the Santa Fe coast lines, had been appointed general storekeeper of the whole system, with headquarters in Topeka, was confirmed today by a circular received at the general offices, says the Topeka State Journal.

This appointment, which has much

mystery about it, has been puzzling local railroad men for the past two weeks. A short time ago W. E. Hodges, general purchasing agent of the Santa Fe, abolished the position of general storekeeper, which was at that time occupied by A. F. Hilton, of Topeka. He then divided the work of the store department between Mr. Hilton and Mr. Rice, putting the former in charge of the lines east of Albuquerque and the latter in charge of the coast lines, and giving each of them the title of storekeeper. This move was mysterious, but the climax came when it was rumored that the position of general storekeeper was to be recreated and given to Mr. Rice. Some people think that Mr. Hodges preferred Mr. Rice for the position, and took this means of getting rid of Mr. Hilton.

The circular which was received today does not announce Mr. Rice's appointment, but that of W. O. Youngquist as his successor. The circular is signed by N. M. Rice, "general storekeeper," and is approved by W. E. Hodges, general purchasing agent. This is sufficient evidence to convince the most skeptical that Mr. Rice's appointment is a fact, but the reason for the change is yet a mystery.

A Chattanooga Druggist's Statement. Rold J. Miller, proprietor of the Chattanooga drug store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Alvarado Pharmacy.

Distinguished Visitor. Hon. Solomon Luna, national committeeman for New Mexico, and a prominent factor in republican politics, was a visitor in Silver City between trains Thursday, having come here for the purpose of seeing Supervisor R. C. McClure on sheep raising matters. Mr. Luna, who is one of the largest sheep owners in New Mexico, is very hopeful concerning the present outlook for that industry and predicts that the present will be the best season for ten years. Mr. Luna will commence lambing on his ranges, followed by shearing about the 10th of April, and expects to realize about 90 per cent of lambs.—Silver City Independent.

Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. Alvarado Pharmacy.

## Rumor About Montezuma Hotel.

The rumored closing down of the Montezuma hotel on May 1 cannot be run down to any responsible source, though the report has been voiced at the resort. The shutting down of this handsome, four-story hotel of 120 rooms, a dining room capable of seating comfortably 200 guests, over 500 running feet of wide veranda, large bowling alleys and billiard rooms, and a casino 60x100 feet, with fine dancing floor, gymnasium apparatus and stage for entertainments and private theatricals, would be regarded almost in the light of a public calamity.—Las Vegas Record.

Foley's Kidney Cure if taken in time, affords security from all kidney and bladder diseases. Alvarado Pharmacy.

## Deal Confirmed.

Mr. J. A. Bell, who is connected with Prof. A. Jones, the well-known geologist and mining expert, was in Albuquerque yesterday. The big mining deal which was reported some time ago was confirmed by Mr. Bell, who stated that he and Mr. Jones had disposed of their mining property fifty miles east of San Antonio to the Colorado Fuel and Iron company. The company had paid down the sum of \$10,000 and in July next will pay over an additional sum of \$225,000.

## Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Joseph Coffman, of Montmorency, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Alvarado Pharmacy.

## Francisco Franco's Funeral.

Francisco Franco, aged 18 years and 2 months, died at his home at 413 North Arno street, March 31, of a gripe. He was the son of Francisco Franco E. Hijos. The funeral services were held this morning, and conducted by A. Borden. Interment was made at Santa Barbara cemetery.

Foley's Kidney Cure makes kidneys and bladder right. Don't delay taking. Alvarado Pharmacy.

## Albuquerque is First.

In the past the Santa Fe postoffice has stood second in New Mexico in the amount of business done, but it is now relegated to the third rank by virtue of the consolidation of the East Las Vegas and Las Vegas postoffices.—New Mexican.

The surest and safest remedy for kidney and bladder diseases is Foley's Kidney Cure. Alvarado Pharmacy.

## DIVORCE HAS A DEFENDER.

Marriage No. 2's Regulation More Than the Dissolution of the Tie.

There is a general demand throughout the United States for the enactment of more stringent divorce laws. A recent writer in an eastern magazine, however, presents some reasons for regarding divorce as the only practical way out of an unfortunate situation in many cases and points out

### Nasal CATARRH

In all its stages.

**Ely's Cream Balm**  
cleanses, soothes and heals the diseased membrane. In cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents.

**ELT BROTHERS**, 26 Warren Street, New York

what he considers to be the true solution of the matrimonial problem. He says:

"We are told that the institution of divorce separates husbands and wives and breaks up homes. Nothing could be further from the truth. Divorce never separates, just as the marriage ceremony never unites. Each is but the symbol, the sign, which sets its seal upon that which took place before. If the husband and wife find that they have made a mistake and that the lives of both are made wretched by the mutual companionship it is their duty to separate and obtain freedom by legal process.

"It is a mistake, a perversion of the truth to make the statement that the homes are being wrecked in this way. No home that is a home indeed has been broken by divorce, and none will be, for this legal act is but the closing scene of the last act in a domestic tragedy. It is a crime to rear children in a home life where father and mother are mutually abhorrent, where love dwells not, where the contact of parents serves to bring out all the innate evil of their natures instead of being an inspiration of virtue.

"The rational, reasonable way to minimize divorce is to place barriers against easy matrimony and make marriage a bulwark of sincere and holy purpose against which the waves of youthful impetuosity and unripe affection will dash in vain. The greatest social evil in our country is the marrying habit. There is practically no check on matrimony, and young people wed at will and at times in haste, with an angry parent in pursuit. Even those below lawful age find little difficulty in getting the protection of law and are pronounced married."—Chicago Chronicle.

Pneumonia is Robbed of its Terrors by Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time it will prevent an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

## WAS KILLED BY OFFICER.

John Cresson of El Paso Shot to Death at Naco.

A dispatch to the El Paso Times from Naco, Arizona, says that John Cresson, a cowboy, was killed there in a saloon last night by City Marshal Wilson. Cresson had been drunk and quarrelsome all day. At night his wife entered the saloon to try and induce him to go home. Cresson was very abusive to her and when Wilson interfered in the woman's behalf Cresson pulled a pistol and fired at him. Wilson quickly drew his own gun and fired three shots, all of which took effect.

A card showing that Cresson was a member of the Elk lodge at El Paso was found on his person, and the El Paso lodge was at once notified. Later a telegram was received from El Paso ordering the remains shipped there. It is understood that Cresson has three children. His wife's people live at Marfa, Texas, and his sister is the wife of William Caples, an inspector of customs at El Paso.

## Dreadful Attack of Whooping Cough.

Mrs. Ellen Harrison, of 300 Park avenue, Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

## SHEEP SANITARY BOARD.

Meet Today in This City and Organize by Electing Officers.

The Territorial Sheep Sanitary board met at the office of the secretary in the N. T. Armijo building this afternoon and organized by electing Hon. Solomon Luna of Valencia county president, W. S. Prager of Chaves county vice president, and Harry F. Lee of Albuquerque secretary. The board, under recent appointments by the governor, consists of Messrs. Luna and Prager, mentioned above, H. W. Kelly of San Miguel county, T. D. Burns, Jr., of Rio Arriba county, Charles Schlader of Union county. All are present except Messrs. Burns and Prager, who could not attend on account of being detained on personal business. Mr. Schlader is considered one of the largest sheep raisers in the entire southwest.

## Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures burns, sores, bruises, cuts, boils, ulcers, skin eruptions and piles. It's only 25c, and guaranteed to give satisfaction by all druggists.

## Great Letter Writer.

During the nine months just passed, or since July 1, 1902, over 15,000 letters have been sent out from the office

of Governor Brodie. Those letters have been official and semi-official communications to all parts of the world, most of them, however, in the territory. Fifteen thousand letters for 270 days or nine months, means an average of over fifty-five letters each day, which is probably more than any business house in the territory handles.—Phoenix Gazette.

## A Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at all druggists.

## Kentucky's Horse Exhibit.

Skeletons of famous horses mounted on frames will be included in the extensive exhibit of Kentucky at the world's fair. In the exhibit will be the bones of Hanover, the peerless sire of thoroughbreds, George Wilkes, the great trotting sire; Black Squirrel, once the saddle champion of all Kentucky, and Himyar, a champion of the old days.

## Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at all druggists.

## General Merritt and Party.

General Wesley Merritt, retired from the United States army more than a year ago, passed through the city this afternoon in private Pullman attached to delayed passenger No. 2. In the party which accompanied General Merritt were members of the families of Marshal Field, Robert Lincoln and A. J. Caton, wealthy people of Chicago. The party left the Windy City February 20; have been to the coast and are en route to their homes in Chicago.

## A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price, 50c and \$1. Guaranteed by all druggists. Trial bottles free.

## A Valuable Citizen.

Manuel R. Otero, receiver of public monies in the United States land office, returned yesterday afternoon from a trip to Albuquerque, where he went to arrange for the removal of his family to that city.—New Mexican.

For liver troubles and constipation. There's nothing better in creation. Than Little Early Risers, the famous little pills.

They always effect a cure and save doctor bills.

Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. B. H. Briggs & Co.; S. Vann & Son.

## Accidental Killing.

Word comes from Mora that the brother of County Clerk E. H. Biernbaum was shot and killed by Fred Webber, at Weber, twelve miles distant. The shooting was accidental. According to the report Biernbaum grabbed a gun when the other had in his hands. There was a playful struggle which ended tragically by the discharge of the weapon. Biernbaum fell shot through the heart, and died almost instantly. Webber went to Mora and gave himself up to the authorities. It is not believed any action can lie against him. He is reported to be terribly wrought up over the unfortunate affair.—Las Vegas Optic.

## Good for Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of cough, croup and laryngitis because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. B. H. Briggs & Co.; S. Vann & Son.

## DISTRICT COURT.

In the district court yesterday afternoon the case of Edward Walker, a colored man, who was implicated in the jail delivery on New Year's day, was called. Walker was not indicted for the charge of breaking into a seal car, for which he was imprisoned, but he was found guilty of jail breaking.

## Baby Costs Too Much

When the price paid is the mother's health and happiness. The father doesn't realize as he romps with the child what years of wily suffering must be set against the baby's laughter.

Chronic invalidism is a high price to pay for the painful joy of maternity, yet it is at such a cost that many a woman becomes a mother. Such a price is too much because it is more than nature asks.

By the use of Dr. Pierce's Favorite Prescription maternity is made practically painless, and a quick convalescence is assured in almost every case. "I am pleased to give my testimony and wish I could find words strong enough to tell what I was going to do. Tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription. Had only used four bottles, also some of Dr. Pierce's Antiseptic and Healing Suppositories, when I felt like another person. I recommend Dr. Pierce's medicines to all my friends. If anyone wishes to write me I will gladly answer."

Dr. Pierce's Favorite Prescription contains no alcohol and is entirely free from opium, cocaine and all other narcotics. The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss; therefore, accept no substitute.

Dr. Pierce's Pleasant Pellets regulate the bowels. Walker acknowledged he escaped by going through the hole in the wall, but denied having taken any part in the making of the hole. He was defended by Attorney Horton Moore, who hoped to get him free on an arrest of judgment.

At the intervals when business lags in the criminal court the cases of the jail breakers are tried. The case of the territory against John Cornetto was dismissed yesterday. The complainant merely stated that Cornetto had misused Mike Martinez, then a member of the local police force. As there was no grounds to work on, the case was dismissed.

This morning the case of the territory against John N. Hickey, a telegraph operator, charged with forging the name of Superintendent McNally to a telegraphic pass was up for trial. While the prosecuting attorney was presenting his evidence to the court Hickey pleaded guilty. His sentence will be passed upon at a later date.

The case of the territory vs. William Clifford, charged with murder in the third degree, resulting from the unfortunate case of the death of the son of H. L. Dunning in Ota Town at the time of the last territorial fair, was on trial this afternoon.

Due Notice is Served. Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, undiluted witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. B. H. Briggs & Co.; S. Vann & Son.

## Recommend Increase of Forest Force.

Supervisor McClure, of the Gila forest reserve, has recommended that the force of rangers be increased to twelve men. The maximum number allowed for the reserve was fixed at fifteen, for the fiscal year ending 1903, but it is thought by the supervisor, on account of the excessive precipitation of rain and snow during the last winter, ample protection will be afforded the reserve by the use of twelve men. Mr. McClure has recommended that the present force consisting of five rangers be increased to eight, April 15, and to twelve, May 15, when the fire season begins.—Silver City Enterprise.

## A Sweet Breath

is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet. B. H. Briggs & Co.; S. Vann & Son.

## Arrest of a Swindler.

Dr. Flower, who is well known by reputation all through the southwestern country, was arrested in New York last week for swindling a person out of \$500, by selling him some stock in one of his many wildcat mining schemes. The court committed him to jail in default of \$50,000 bonds. This looks like a pretty heavy bail, but the district attorney explained to the judge

that Flower had swindled people out of about \$700,000 in his mining deals, and he wanted the doctor kept until he could file a few more charges against him. He promised to find enough charges to make the bail look small. It will be remembered that Dr. Flower was the promoter of the company that floated the Spencerville fraud in Graham county. It is said that the doctor required but one thing in the mines owned by the companies he floated, and that was they should be absolutely worthless, and he generally succeeded in getting the kind of a mine he wanted.—Lordsburg Liberal.

## For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

## OUTLOOK IN WEST GOOD.

Vice President Morton, of Santa Fe, Tells of His Trip to Coast.

Vice President Paul Morton, of the Atchison, Topeka & Santa Fe, who has just returned from a trip extending from the Pacific coast to the Atlantic, today reviewed the result of his practical observations, says a dispatch from New York.

"The only reason," Mr. Morton said, "why roads in the further west are not showing large increases in net earnings even in the face of increased expenses is the lack of cars and motive power to handle the traffic offered. The west was never in a better condition and the promise for crops in 1903 is now as good as possible.

"In 1901 and 1902 there was the very best kind of immigration to the southwestern states. The second generation of the foreign farmer immigrants of the eighties has moved onward to the new section, where the soil is virgin and the climate the safest in the country for raising crops and cattle."

## TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box; 25c.

## Notice of Publication.

Territory of New Mexico, County of Bernalillo. In the District Court. George K. Neher, plaintiff, vs. E. J. Becker, defendant. No. 6219.

The said E. J. Becker is hereby notified that a suit by attachment has been commenced against him in the district court for the county of Bernalillo, Territory of New Mexico, by said plaintiff, George K. Neher, to recover the sum of \$679, being a balance due for money loaned defendant by plaintiff, and as evidenced by a certain draft, dated the 24th day of November, 1896, together with interest thereon, and costs of suit; that your property has been attached, and that unless you enter your appearance in said suit, within twenty days after the date of the last publication of this notice, to-wit, the 23rd day of May, 1903, judgment by default will be rendered against you, and your property sold to satisfy the same.

Witness the hand of the Clerk, and the seal of said District Court, this 31st day of March, 1903.

W. E. DAME, Clerk.  
W. B. CHILDERS, P. O. Address, Albuquerque, N. M., attorney for plaintiff.

First publication, April 4th, 1903; last publication May 2nd, 1903.

## ELKS' OPERA HOUSE.

Contract to Be Let and Work Commenced.

The contract for the superstructure of the Elks new opera house will be let on April 20, which is the date set for the opening of the bids.

D. J. Rankin, chairman of the building committee of the Elks' lodge, has stated that the foundation of the new building will be complete by that time, and there should be no reason for any delay in beginning work on the superstructure. The plan now is to have the opening night performance about the middle of September.

## You Know What You Are Taking

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

## Assignee's Notice.

Territory of New Mexico, County of Bernalillo, In the District Court. In re: Assignment of Splitz Bros. No. 4149.

Assignee's notice of application for discharge.

To whom it may concern: Notice is hereby given that the undersigned assignee in the above entitled cause will, on the 31st day of March, A. D.

## CHAMPION CORBETT.

McGovern Goes Down Again in Defeat Before Him.

EX-CHAMPION BADLY DEFEATED.

Mechanics' Pavilion, San Francisco, March 31.—William Rothwell, better known as "Young Corbett," of Denver, showed decisively tonight that his victory over Terry McGovern, of Brooklyn, at Hartford a year ago last Thanksgiving, was no fluke, by defeating McGovern in the eleventh round, after a fight in which there was not a second of idleness for either man. In nearly every round, Corbett, fighting like a machine, never overlooking an opportunity to send home his blows, had a shade the better of the argument, and when finally in the eleventh round he got the Brooklyn boy fairly going, he never let up on him until Terry sank to the floor a badly defeated man.

Corbett put McGovern down in the first round for a count of seven and repeated it in the second. There was some question as to whether or not McGovern was down at the count of ten, and for a few minutes it looked as if there would be a free for all fight. McGovern tried to get up, tried hard, and was on his feet an instant after the time keeper counted him out.

**The Fight by Rounds.**  
Round 1. They rush at the top of the bell. McGovern swings right and left to face. Corbett blocks and returns to body. Terry goes down and takes seven of the count. He gets to his feet. They clinch. They are hard to break away. Terry lands on Corbett's eye. The round is an even break.

Round 2. Corbett swings left to face. McGovern jumps in and in a clinch roughs it and pummels Corbett on ribs. They are hard to break away. Corbett hooked right to mouth. Corbett sends straight left to mouth, another clinch and Terry works both hands on wind.

Round 3. Corbett jabs left to face twice. They clinch. Terry blocks a left swing. Corbett gets in a right swing on shoulder. They clinch and in the mix Terry has the best of the argument. Corbett sends straight right to mouth. Both land right swings on head. Corbett puts right to ear. They exchange lefts to face. Corbett puts right to ribs. McGovern swung stiff left to jaw. The boys do not rest a minute. McGovern swung left to jaw. Corbett going to his knee as the bell rang.

Round 4. Corbett jabs left to mouth. McGovern connected with jaw twice with left swings. McGovern ducked left swing, sent left left to neck. They exchange lefts to body. McGovern blocked straight left to neck. Terry sent straight left to neck, clinch. Terry brings right up to the chin as they break away. Corbett ducks left swing, jabs left to mouth. They swing wildly with lefts, both miss and mix it. Not a second is wasted, and most of the time they are exchanging short arm blows at close quarters. McGovern put left to ear, blocked left. Terry hooks left to chin twice. Corbett sends left to face. Terry knocks Corbett down with left swing on jaw and falls on top of him. McGovern goes to his knees in a fierce mix up and stays nine seconds. They go to it again and exchange lefts to face. They exchange lefts to head. McGovern had a shade the best of the round.

Round 5. Corbett sends right over Terry's shoulder. Terry sends left to wind. They spar a moment. Corbett backs away, they clinch and at last Terry gets in some good work. Corbett jabbed left to face. McGovern rushed Corbett half way through the ropes into a clinch. They exchange lefts to neck. Terry covers his face and rushes into a clinch. Terry ducks a left swing and swings left to Corbett's mouth, sending the Denver boy to his knees. Terry puts left to face. Corbett sends left to wind. In the clinches Terry is the strongest. Corbett is inclined to hang on in the clinches and Terry's body punishment seems to be tiring him.

Round 6. They exchange lefts on face, clinch and the referee has to pull them apart. Corbett swings right to ear, then puts right to ribs. Corbett swings stiff right to neck, clinch and a hard right lands on Corbett's ribs. Corbett upercuts Terry on mouth with left. Corbett jabs left to mouth and hooks right to ear. McGovern swings left to mouth, which shakes Corbett up a bit. Terry is short with left swing. Terry put left to jaw twice. Again he swung left to mouth. Corbett backs away and ducks a left swing. He is against the ropes with Terry on top of him when the gong comes. Terry is stronger at this stage.

Round 7. Terry is short with left swing. Corbett sends stiff left to mouth. Corbett swings left to face twice. Both miss left swings; they clinch and Terry hangs on. Corbett swings right to jaw three times and Terry is in trouble. They spar a moment. Corbett misses left swing. Terry swings left, misses and falls to his knees; stays down nine seconds. They exchange left swings on body and clinch again. Corbett swings hard right on McGovern's neck. Corbett misses a left swing. They clinch and Terry sends two rights to ribs. At the bell Terry rushes, but stops and apologizes. Corbett's mouth is bleeding freely, but he had the best of the round.

Round 8. They rush to a clinch. Terry sends left to mouth. Terry hit Corbett low unintentionally, but no foul is allowed. Corbett jabbed left to face. Terry sent hard left and right to wind.

## THE FLORAL REALM.

The jessamine is a rampant grower, attaining a height of from five to seven feet in a season and therefore is best grown on a sunny porch. The stems are green and the leaves—also a bright, lively green—are from two to five inches long and from one to two inches wide. The plant is of shrubby rather than a treelike growth. The stems are light and graceful. The flowers are small, tube-shaped, the open end forming a five-pointed star, of good substance and borne in lavish profusion. Each flower remains perfect for a number of days, closing in the morning and opening at night.

Gordon's syringe is a very vigorous growing species, attaining a height of from six to ten feet and from all the strong, erect shoots, slender side shoots are produced which give the appearance of being a shrub of drooping habit. The blooms which are produced in dense clusters during the month of July are large, pure white and slightly fragrant. As the flowers are produced a month later than those of the other syringas, it certainly is a very desirable addition to our list of ornamental flowering shrubs. To enable it to develop properly it should be given a very deep, well enriched soil and liberal irrigations.

A yellow calla lily has been produced by crossing the elliotana with alomaculata. The foliage is vigorous and prettily spotted, while the spathe are of a beautiful shade of primrose yellow and produced in greater profusion than with either parent. Single bulbs planted but six weeks have as many as four expanded flowers already with more to follow. This calla promises to be one of the most valuable of summer outdoor decorative plants, especially as there is no need of it being grown under glass. The dormant bulbs are planted the latter part of May and they grow at once, flowering all season until fall, when the tops are cut off, the tubers thoroughly ripened and then stored in a cellar, like potatoes, until planting time again.

The recent wonderful revival in the demand for hardy flowering plants has doubtless been somewhat stimulated by the craze for old-fashioned things. Some of the perennials that are hardy in colder climates seem not to be hardy here, but the list of hardy ones will be found an ever increasing one as we become familiar with their individual requirements. The dormant plant is injured by the too warm sun, the extreme between midday and midnight and the drying winds, but a light mulch is a good protection against all these and if we see to it that the plants start into the water well fed and well watered we have quite a list that can be depended upon to come safely through the winter. Some plants, comparatively tender, will winter perfectly on the north side of a house without any protection except the shade from the house.

To make a good rose bed the soil should be trenched at least twenty-four to thirty inches deep. The best method for doing this is to remove the top soil to the depth of fifteen or sixteen inches, then break up the subsoil fifteen inches deeper, thoroughly incorporating at least one-third as much good strong manure as soil through the whole. When this is done return the topsoil, adding one-fourth as much manure as soil, thoroughly mixing it in the operation. When complete, this will leave the bed six or eight inches higher than it originally was, but in the course of a few weeks, if done in the very early spring or in the fall preferably, it will have settled down very considerably by the time the bushes are ready to plant. When practicable it is much better to prepare a bed during the fall and allow it to lie all winter. This settles it down quite solid by spring. Then all that will be necessary will be to stir the surface over to make it fine enough to cover the roots well at planting time. Another advantage gained by preparing the bed in the fall or very early spring is that the thawing snow will largely decompose the manure and impregnate the ammonia from it all through the soil, leaving it in the best possible condition for the roots to commence feeding on it as soon as planted.

## FIRST SHEEP COME IN.

Seventeen Car Loads of Fifty Thousand Head Arrive at El Paso Stock Yards.

The first of the shipment of the 50,000 head of fat sheep from Arizona, bound for the Kansas City markets, was received at the El Paso Union stock yards yesterday when seventeen cars arrived and were unloaded and weighed.

There will be about 100 cars of this shipment, and all will be unloaded, fed, watered and weighed in the El Paso yards. It will take several weeks to complete the shipment, as only about two trains will be handled each week. This, in addition to the numerous herds to be brought from Mexico, and the small shipments from Texas to Arizona, will make the stock yards a busy place for several months. The company has had to put on several extra men to handle the business, which is much larger than the management expected it to be this early in the season.

**Cattle Sanitary Board.**  
The New Mexico cattle sanitary board was in session Monday at the office of the secretary, J. A. Le Rue. Those members in attendance were: Col. E. G. Austin, Mora county; N. M. Chaffin, San Miguel county; W. C. Barnes, Colfax county; W. H. Greer, Grant county, and Secretary J. A. Le Rue.

## THE BIG FAIR.

Pursuant to notice, published in the city daily press, a majority of the executive committee of the Territorial Fair association met at the office of the secretary, last night, and the actual preliminaries for a big exhibition this fall were put in motion.

Those present were: O. N. Marron, president; P. F. McCanna, secretary; M. W. Flournoy, treasurer; C. C. Hall, chairman of executive committee; F. A. Jones, J. H. O'Reilly, W. T. McCright, M. E. Hickey, George P. Leonard, Maynard Gensul and G. F. Albright.

### October Chosen.

After considerable talk pro and con, as to whether the big show should be carried through an entire week or only for a few days, a motion prevailed that the entire second week in October be monopolized and that the exhibition be made one long to be remembered.

### Base Ball.

The base ball feature was the next on the program to be discussed, and as professional base ball proved an expensive luxury, not only in prizes but in a side subscription from merchants, a motion was made and seconded that the base ball tournament at the fair this fall be made a territorial tournament, open to organized clubs in New Mexico, Arizona and El Paso, and that the towns entering the tournament can strengthen their teams by the importation of professional players not to exceed three. For this sport an appropriation of \$500 was made, naming \$300 for first prize, and \$200 for second money.

### Cowboy Tournament.

The next subject under discussion was that regarding a cowboy tournament, to include steer roping, bronco busting and prizes for outlaw horses. The chairman of the executive committee and the secretary had previously outlined this feature, and in consequence, it was smooth sailing for this attraction. The committee appropriated \$2,000 for this tournament—\$550 to be divided into four prizes for the steer roping; \$550 for the bronco busting, and \$300 for best outlaw horses. This feature will be made the "big attraction" at the fall festival, and the committee thought the right man to handle the cowboys, the wild steers and the outlaw horses was C. C. Hall, hence by unanimous verdict he was chosen superintendent of the cowboy tournament.

### Horse Racing.

The committee, on motion, appropriated the same as last year for horse races, \$3,500, the races and purses to be arranged similar to the program of 1902. This feature of last year's fair was much enjoyed, and some of the very best harness horses and gallopers participated in the event. It is thought that the races of this year's fair will be equally as interesting, and good horses will again be seen on the Albuquerque race course.

### Carnival Company.

The secretary read several letters from carnival companies, without any exception, the "best and largest shows on earth," and after some discussion it was decided to have a genuine carnival company here at the next fair. The secretary was instructed to take personal charge of this feature.

### Mineral Exhibit.

Dr. F. A. Jones, who has charge of the mineral statistics of the territory for the government, was present, and stated that he was ready to do all in his power to get up a creditable mineral exhibit for the territorial fair, and at the same time, would like to make the selections of ore in conjunction with the mineral exhibit from this territory intended for the world's fair at St. Louis, provided he was a member of the commission from this territory. After exhibit here at the territorial fair, the display could be boxed up and then shipped to St. Louis.

It was then moved and seconded that a letter be prepared by the president of the fair association, signed by himself and other members of the executive committee, asking Governor Otero to appoint Dr. Jones one of the territorial members of the Louisiana Purchase Exposition commission.

A letter to that effect was submitted and was promptly signed by all the members of the executive committee present. The secretary was instructed to see the other members of the committee, get their signatures and mail the letter to Governor Otero tonight.

Dr. Jones is thoroughly familiar with the mineral resources of New Mexico, and with his valuable assistance this feature will prove one of great interest to miners and prospectors attending the next fair.

The meeting of the committee then adjourned.

### Herbina Cures.

Fever and ague. A dose will usually stop a chill, a continuance always cures. Mrs. Wm. M. Stroud, Midland, Texas, May 21, 1900, writes: "We have used Herbina in our family for eight years, and found it the best medicine we have ever used, for a gripple, bilious fever, and malaria." See at Cosmopolitan Pharmacy, B. Ruppe.

### DENIES SALE OF SANTA FE.

Officers of This Road, and the Rock Island Deny Reports of Merger.  
A New York dispatch dated March 31 says: In Wall street and in half a dozen western cities the report that the Santa Fe is vitally interested in the Rock Island-Frisco deal was revived almost simultaneously today. One report said that the Santa Fe had been purchased by the Rock Island. Another suggested a holding company similar to the Northern Securities company to take over the

## MOTHER'S FRIEND

makes childbirth easy by preparing the system for parturition and thus shortening labor. The painful ordeal is robbed of its terrors, and the danger lessened to both mother and child; the time of confinement is shortened, the mother rested, and child fully developed, strong and healthy. Morning sickness, or nausea arising from pregnancy, is prevented by its use. As pregnancy advances, the breasts enlarge, become swollen and hard. Long before the child is born, they are preparing for the secretion of milk. It is important that they receive early attention. Mother's Friend softens the skin and facilitates the secretion of Life Fluid. Undeveloped breasts, hard-caked shortly after delivery, are the result of neglect, and likely to culminate in Mammary Abscess, from which so many suffer excruciating pain and are left with these organs permanently impaired. Softness, pliability and expansion are given to the muscles and sinews, thus bringing comfort and causing an easy issue of the child. Try it. Of druggists \$1.00. Our book "Mother's Friend" THE BRADFIELD REGULATOR CO., ATLANTA, GA.

Rock Island, Santa Fe and Frisco systems. A third was a story of an interchange of directors, with a spring adornment to the effect that the Rock Island had forced terms upon the Santa Fe by the purchase of Santa Fe stock.

These reports were submitted to the foremost interests, both in Rock Island and Santa Fe, and received unqualified denials. A member of the inner circle of the Santa Fe said: "Every version of the story that the Santa Fe is connected with the Rock Island in any subversive or proprietary way, or jointly as the owner of Frisco system is without foundation. We are on perfectly friendly relations with the Rock Island, but we are independent and shall remain so."

An official of the Rock Island said: "You may deny these stories, each and every one, with perfect safety, in any way you choose, and as emphatically as you wish. I cannot discuss the Frisco deal at this time, but the Santa Fe is not interested in it, and we have not purchased the Santa Fe."

No war will be declared between the Rock Island and the Santa Fe as a result of the Frisco purchase, and it is now likely that an offensive and defensive alliance for mutual benefit in the southwest will be made.

W. B. Leeds, president of the Rock Island company, has returned to this city after a southern trip lasting some weeks. Mr. Leeds has told his friends that there is no basis for the report of a merger of his property and the Santa Fe.

### Save the Loved Ones!

Mrs. Mary A. Vliet, Newcastle, Colo., writes: "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no need for it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00, at Cosmopolitan Pharmacy, B. Ruppe.

### TO CONNECT WITH S. P.

Harriman to Extend into Mexico—Get Valuable Land Concession.

E. H. Harriman is to get a valuable land and cash concession from President Diaz of Mexico on condition that he build a railroad in lower California that shall extend its distance north and south and have a connection with the main line of the Southern Pacific in California, says the Examiner.

A company will be shortly incorporated in Mexico to build the proposed line. The portion of the new road in this state will be taken as the Gulf & Imperial company. The latter is already building a road from Old Beach, a station on the Southern Pacific main line in the Colorado desert south of the Colorado river, a distance of forty miles. Twenty-eight miles of this line are now completed. The remainder of the distance to the river is surveyed and a preliminary survey through most of lower California has been made.

### Waika Without Crutches.

I was much afflicted with sciatica, writes Ed. C. Nud, Iowa, Sedgewick county, Kansas. "Going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used, and I recommended it to a number of persons, all expressing themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Ruppe.

After a visit of a day with Mr. and Mrs. Harman H. Wynkoop and Mrs. M. A. Skinner, Mrs. E. W. Wynkoop left last night for San Francisco. Her visit was a pleasant one. Her last visit to Albuquerque was before there was a new town, her husband, Col. E. W. Wynkoop, then being on General Kit Carson's staff.

## LETTER LIST.

Following is the list of letters remaining uncalled for in the postoffice at Albuquerque, N. M., for the week ending April 4, 1903:

### Ladies' List.

Baer, Miss Dem-Lebren, Mrs. Nan-le  
Blackburn, Mrs. Lewis, Mrs. Julia  
Caldwell, Ida B. Moya Sra Crus  
Jesse Munon de  
Blackburn, Mrs. Pren, Mrs. Isabella  
Carrie Patterson, Mrs.  
Carson, Miss Ra Laura A  
mona Stuart, Miss Bertha  
Chavez, Sra Candela, Soto, Maria C de  
lavita Stockdale, Mrs.  
Davis, Madam E. Chas  
Dun, Mrs. James Thayer, Mrs. Maggie  
Gillette, Mrs. G B  
Goff, Mrs. Mary Wilson, Mrs. Geo  
Herman, Mrs. Ellen Welch, Mrs. Lizzie  
Kuhne, Mrs. G T

### Men's List.

Aragon, Cirilo Haynes, Sam  
Aragon, Francisco Johnston, B P  
Carillo de Keen, R A  
Abillair, Danian Kelbourne, E W  
Bennett, I Lawler, J W  
Brinkley, A B Leyba, Liandro  
Baca, Equipula Mallonee, John  
Bridgewater, Evered McMillin, Luther  
Beeson, T R Miller, Leonard  
Businger, H McDonald, W A  
Blevins, John L McCannan, Geo  
Bernah, Juan Neislar, W R  
Brown, Ralph L O'Toole, J J  
Borela, Victor O'Brien, Peruna  
Bennett, J H Oigun, Toribio  
Cleveland, Grover Reynolds, Jas  
Chavez, David G Ruoke, Edward  
Dyer, O C Squires, Charles P  
Duran, Tiblio Salazar, Simon  
Elmer, Frank Sanchez, Procopio  
Epperson, A E Underwood, E W  
Gonzales, Pedro Wilson, James W  
Garule, Antonio Walton, J W  
Bac y Williams, Harry  
Hopley, R H Wilson, J S  
Hall, Ohio Willy, Marron F  
Hill, G T Whitney, N S  
Hagan, C Young, Chas  
Henderson, Bertie

Persons calling for the above named letters will please say "Advertised," and give the date of publication.  
R. W. HOPKINS,  
Postmaster.

**Grip Remedies in Great Demand.**  
When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuft, Va., says that he was cured of a very deep and lasting attack of a gripple by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all druggists.

## SEVERE ATTACK OF GRIP

**Cured by One Bottle of Chamberlain's Cough Remedy.**  
"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, of Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that the grip would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less severity, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.

## BELEN.

**Special Correspondence.**  
Belen, April 3.—The temporary railway bridge over the Rio Grande, which has been under construction during the past two months, was completed the first of the week, and trains and construction material are passing over daily.

The work had been rushed with all possible speed in order that it might be finished before the rising of the river, and the finish came none too soon, for fording with loads is now almost impossible, and from now on all supplies will be shipped by rail to the other side, and from there on to the various camps by wagons. This necessarily caused a change of base of supplies, and Gross, Kelly & Co., who have the supply contract with B. Lantry Sons, will move their tents and warehouse to the other side of the river.

Dr. Wm. D. Radcliffe has been appointed local surgeon for the Santa Fe, and will also have the bridge men under his care. Dr. Kauffman, who has been in charge of the medical department along the entire line, is to be reinforced this coming week by Dr. Baltes, of Albuquerque.

Sunday afternoon a Mexican by the name of Leopoldo Baca y Garcia and an American who calls himself Robert Johnson, while drinking at a small Mexican resort on the other side of the river, began quarreling and during the mix up the Mexican was hit upon the head with a wine bottle, concussion of the brain resulting, and he died this morning at 10:30. Johnson was immediately arrested, and placed in jail without bail.

George Everett, of Albuquerque, who has opened up a jewelry store in the Becker block, next to the First National bank, reports business to be flourishing.

The large brick building, which is being built for the Belen Mercantile company, by A. Didier, is now well under way, and is to be ready for occupancy by May 1.

The Montgomery company, with Mr. Goldman as manager, opened their doors for business this morning. They are occupying a new building just south of the Didier block.

John Becker has been out of town during the past two days, looking after his business interests at Magdalena.

**Nasal Catarrh** quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

**Announcement.**  
To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrh from influenza, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

sure that you need more sleep, that you need country or outdoor exercise. If you get these, you will find that all the old enthusiasm will return. A few days of exercise in the country, rambling over the hills and meadows, will erase the dark pictures which haunt you, and will restore buoyancy to your animal spirits.

No man is in an absolutely normal condition until he enjoys bare living, and feels that exercise itself is a precious boon. No one is normal who does not feel thankful every day that he is alive, and that he can think and act with vigor and effectiveness.

Oh, to be strong; to feel the thrill of life in every nerve and fiber in middle life and old age in youth; to enjoy existence as do the young lambs and calves which chase one another over the fields and meadows and pastures; to exist in mere living, as boys do when they glide over the fields of ice in the crisp air of winter. —From Success.

**Danger of Colds and Grip.**  
The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases have yet to learn of a single case resulting in pneumonia, which shows conclusively that it is a certain preventative of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

**Curiosity Shop.**  
Gold's Old Curiosity Shop, at Santa Fe, owned by Abe Gold, is one of the most interesting places to visit in the Capital city. Mr. Gold's business has increased greatly in the last year and he is getting well established in the wholesale business, and shipments are being made to dealers all over the country. To the tourists and even to the citizens of Santa Fe, it is a most attractive place, as the Indian and Mexican curios are rare and antique. A fine stock of Indian blankets have been received and the entire stock increased. Tourists and travelers are always made welcome at the old curiosity shop.

**Beauty and Strength.**  
Are desirable. You are strong and vigorous, when your blood is pure. Many—any, most—women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion, depart. Remedy this unpleasant evil, by eating nourishing food, and taking a small dose of Heron after each meal, to digest what you have eaten; see at Cosmopolitan Pharmacy, B. Ruppe.

The Montgomery company, with Mr. Goldman as manager, opened their doors for business this morning. They are occupying a new building just south of the Didier block.

John Becker has been out of town during the past two days, looking after his business interests at Magdalena.

## Mines and Minerals

R. J. Holmes is reported to have sold his group of claims in San Francisco district, Arizona, to the Gold Road Mining & Exploration company for \$100,000.

The Cedar Valley Mining company has acquired the mining claims and machinery in Cedar district, Arizona, formerly owned by the Cedar Valley Gold & Silver Mining company.

The Southwest Miners' association, which has its headquarters in Los Angeles, has closed its doors and disbanded. Its valuable mineral exhibit was turned over to the Los Angeles chamber of commerce.

The Hoyt Mining company of Arizona is advertising its entire property for sale, for the purpose of winding up its business. Included in its holdings are five mining claims in Walker district which are offered for sale.

M. C. Dempsey and William O'Dea have made a strike of rich ore across the valley west of Chloride, Ariz. The lode is reported to be about 40 feet wide with a pay streak about twelve inches that is said to assay eight ounces of gold. The extensions have all been located by people from Chloride.

The Jarilla camp, the nearest running camp in operation to El Paso, situated forty-eight miles out on the El Paso & Northeastern railroad, known as the Silver Hill mining district, Otero county, New Mexico, has been and still is making progress slowly but surely in demonstrating its possibilities.—El Paso Herald.

The Polaris company has recently taken up the option on the Evans Point mill site in the Lordsburg district, this territory. This includes the 20-stamp mill, pumping plant and several buildings and covers 70 acres of land to which 40 were recently added. Some of the buildings at the Point are to be removed to the mines.

The foundation for the smelter at Benson, Ariz., says the El Paso Herald, is laid. It is being built on the site of the one that was destroyed by fire. Some of the machinery is on the ground. It will have a capacity of 100 tons daily. Benson people are interested in the enterprise and it is understood that it is to be kept out of the hands of the trust.

At the Emerson mine, near Chloride, Ariz., owned by Judge Henry Shaefer of Los Angeles and Steve Smith, a new discovery has been made on the hanging wall about seventy feet down the shaft which runs high in gold. On the foot wall there is also an eight-inch vein of quartz which assays about two and a half ounces in gold and a good per cent in copper.

The Old Terrible mine at Manzanita, Cochise county, Arizona, is still idle. Dr. R. C. Flower and A. D. Maloy are so busy fighting each other back in New York that the Old Terrible is suffering from neglect. The mine has never paid, and the best that is claimed for it is that there is ore in the hill. It has a \$150,000 plant consisting of a stamp mill and concentrating plant.

It developed today that the late Colonel Robert Ingersoll was heavily interested in the Arizona, Eastern and Montana and Lone Pine Mining companies, promotions of Dr. Richard C. Flower, who long made headquarters at Fort Thomas, Ariz., and is now held under \$2,000 bail, charged with swindling investors. Colonel Ingersoll left 10,000 shares of the Arizona, Eastern and Montana company to his widow. It cost him about \$40,000.—Arizona Democrat.

The famous "El Tigre" mine in Sonora changed hands the latter part of last week, the original owners selling to Kansas City, El Paso and Bisbee capitalists for \$650,000 in gold. The property consists of six potreros just sixty miles south of Douglas. It was discovered just eighteen months ago by Ed M. Sturges, who partly developed it and a few months ago took in other parties of Bisbee and El Paso, who raised funds with which to operate the property.—Arizona Democrat.

George Scammell, superintendent of the Hassayampa Dredging company, left for their placer claims on the famous Hassayampa, above Walnut Grove today. The company of which Mr. Scammell is superintendent, was organized to work a large piece of placer ground on the Hassayampa. The dredger will be built in Los Angeles and shipped out. The machine will cost several thousands of dollars. It will have a capacity of 1,000 yards daily. The company estimate that the dirt will yield 50 cents to the yard.—Prescott Herald.

William W. Frost, representing the census office at Washington, D. C., is in Mohave county, Arizona, says the Kingman Mineral Wealth, to gather and compile statistics relative to mines and mining. It is not necessary that a mine should be a producer in order to be enumerated in this list, as the idea is to include the prospective producers with respective development, ore in sight, and in fact all details in regard to mining which may be of interest. This work will be of

benefit to all sections of Arizona, as each district will then receive full credit for its output. As a book of reference it will be valuable to mining men.

Late reports from Troy, Ariz., are to the effect that the rich ore body on the 400 foot level of the Alice mine maintains its size and value, being seven feet wide and carrying, in addition to its high percentage of copper, \$25 in gold to the ton.

The Arizona-Coronado Copper Belt and Gold Mining and Milling company has been developing its property continuously since last May. The property covers an area of seventeen claims, or over 340 acres, three miles from Globe, Ariz. The development on the property consists of two tunnels, one 140 feet the other over 200 feet in length, a prospecting shaft 153 feet deep, and numerous other shafts ranging in depth from ten to twenty feet; also several open cuts. The company is sinking a double compartment shaft, which is now fifty feet deep, and the working force is being doubled at this new shaft. The property owned by this company is known as the DeCloss group and is said to be a very promising mining property.

**For Over Sixty Years.**  
An old and well tried remedy.  
Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

**B. F. McKeehan Transferred.**  
Chinese Inspector F. B. McKeehan spent a couple of days in the city and left Saturday night for El Paso, where April 1, he will begin the duties of Chinese inspector of that port of entrance. Several months ago Mr. McKeehan was transferred from chief deputy of United States marshal of New Mexico to Chinese inspector at Nogales, Ariz. Later he was transferred to Naco, Ariz., and now again to El Paso. Mr. McKeehan is a good officer, and this last transfer is evidence that the government appreciates his ability. Although the transfer is not exactly a promotion, it is a move in the right direction.

**So Sweet and Pleasing in Taste!**  
Mrs. C. Peterson, 625 Lake street, Topeka, Kan., speaking of Ballard's Horehound Syrup, says: "It has never failed to give entire satisfaction, and of all cough remedies, it is my favorite, and I must confess to my many friends that it will do, and has done, what is claimed for it—to speedily cure a cough or cold; and it is so sweet and so pleasing in taste." 25c, 50c and \$1.00 bottle at Cosmopolitan Pharmacy—B. Ruppe.

**Big Insurance Policy.**  
The Las Vegas Optic says that D. A. Day, the general agent for New Mexico of the Mutual Life Insurance company, wrote a policy for a northern New Mexican gentleman the other day, the premium on which will amount to \$10,500 annually.

**Cures Sciatic Rheumatism.**  
Mrs. A. E. Simpson, 509 Craig street, Knoxville, Tenn., writes, June 10, 1899: "I have been trying the baths of Hot Springs, Ark., for sciatic rheumatism, but I get more relief from Ballard's Snow Liniment than any medicine or anything I have ever tried. Enclosed find postoffice order for \$1.00. Send me a large bottle by Southern Express." Sold by Cosmopolitan Pharmacy—B. Ruppe.

**Active Postmasters.**  
The Las Vegas Optic says: The postmasters of New Mexico are mighty energetic men. At least one of them. At Socorro, the postmaster has been trusted with the care of the city park; at Carlsbad, the postmaster edits a newspaper; at Las Vegas, the postmaster runs a printing office; at East Las Vegas the postmaster is the manager of a daily publication; at San Marcial the postmaster helps in editing a weekly and a good one at that, and elsewhere postmasters are engaged in the cattle, sheep or some other business, showing that they are hard workers and energetic citizens.

**A Physician Writes.**  
"I am a doctor of knowing if the profession can obtain Herbine in bulk for prescribing purposes? It has been of great use to me in treating cases of dyspepsia brought on by excesses or overwork. I have never known it to fail in restoring the organs affected, to their healthful activity." 50c bottle at Cosmopolitan Pharmacy—B. Ruppe.

**LAST PAYMENT.**  
For Lands Given to The American Lumber Company to Be Made Next Week.

The last payment for the lands donated by the public spirited citizens to the American Lumber company will be made Tuesday. The first payment was made March 1. The payment to be made Tuesday will complete the payment for the land. The auditing committee will meet Tuesday and audit all the bills and claims for the payment. Many people are entertaining the opinion that these lands have been given away, which is not so.

## POSITIVE PROOF

of the efficacy of Hostetter's Stomach Bitters in cases of Loss of Appetite, Belching, Heartburn, Indigestion, Dyspepsia, Insomnia, La Grippe or Constipated Bowels can be found in its record of cures during the past fifty years and in the hundreds of voluntary testimonials received annually. What it has done for others it will do for you. Try a bottle and see for yourself. Avoid substitutes. Our private stamp is over the neck of the bottle.

## HOSTETTER'S STOMACH BITTERS

These lands belong to the subscribers until the lumber company have built the mills and begun operations. And everything indicates beyond any possible doubt that they will fulfill their promise.

According to the opinion of a large majority of real estate dealers and prominent business men the land was bought very reasonable. The tract contains 110 acres of fine land adjoining the city limits and the cost to the subscribers was less than \$185 per acre. The general opinion of the best portion of the people of the city is that it was reasonable at that figure.

Material for the construction of the plant is being received by the lumber company as fast as their orders can be filled, and it will be only a short time until the mill site will be a scene of activity.

**Children's Coughs and Colds.**  
Mrs. Joe McGrath, 327 East First street, Hutchinson, Kan., writes: "I have given Ballard's Horehound Syrup to my children for coughs and colds for the past four years, and find it the best medicine I ever used." Unlike many cough syrups, it contains no opium, but will soothe and heal any disease of the throat or lungs quicker than any other remedy. 25c, 50c and \$1.00 at Cosmopolitan Pharmacy—B. Ruppe.

**It Pays to Advertise.**  
C. A. Hudson, Albuquerque—Seeing your advertisement of aluminum house numbers in The Daily Citizen, I enclose 10 cents in postage stamps for a sample figure by mail. If the numbers are what I wish for I shall want the following: 16, 17, 18, 19, 20, 21, 23, 24, and 25. What will be the cost of the same sent by mail or express? Address Mrs. A. M. Hicks, P. O. box 36, Flagstaff, Ariz.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

Rev. L. Patterson came in from Gallup this morning to hear The Klitties. Rev. Patterson is quite a musician himself and can appreciate good music.

Eczema, scald head, hives, itchiness of the skin of any sort, instantly relieved, permanently cured. Doan's Ointment. At any drug store.

J. A. Weinmann, proprietor of the Golden Rule dry goods store, has returned from the east, where he went seven weeks ago to buy goods and visit.

Its little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Wood's Norway Pine Syrup.

The public is invited to attend a mass meeting in the Congregational church Sunday afternoon at 3 o'clock. Mrs. Owen, of the International Sunshine society will make the address. Come and bring the children.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heads, burns, cuts, bruises, and sprains. Instant relief.

L. F. Meyer died at St. Joseph's hospital yesterday morning. Mr. Meyer came from Michigan about five months ago. He leaves a brother and sister, George Walters and Mrs. F. Miendorf, both residents of this city. The funeral will take place tomorrow afternoon from Strong's undertaking parlors. Interment will be made at Fairview.

**What's in a Name?**  
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered, some years ago, how to make a salve on Witch Hazel that is a specific for skin diseases, itching, burning, itching, bleeding, eczema, cuts, burns, bruises and all skin diseases. DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's the genuine. B. H. Briggs & Co.; S. Vann & Son.

**OFFICIAL MATTERS.**  
**Notaries Appointed.**  
Governor Otero has appointed as notaries public Ignacio Gutierrez of Sandoval, Sandoval county, and Walter O. Oldham of Portales, Roosevelt county.

**Maps Filed.**  
The Chicago, Rock Island & Choctaw Railroad company has filed in the office of the territorial secretary maps of the road from Tucuman to the Texas line.

**Land Office Business.**  
The following entries have been made: Frederick W. Eloff of Eastview, 160 acres in Valencia county; Eugenio Gallegos of Sanchez, 160 acres in San Miguel county.

**Appointees Qualify.**  
W. H. H. Lewellyn of Dona Ana county and S. B. Davis of San Miguel county have filed their bonds and qual-

ified as district attorneys in accordance with the law.

**Treasury Receipts.**  
Territorial Treasurer J. R. Vaughn has received from A. J. Keen, land commissioner, \$1,000 to be credited to the capital custodian committee fund. Of this sum \$800 was paid by the United States government through Territorial Secretary Reynolds, for the rent of the hall of the house of representatives and the council chamber for the recent session of the legislature, and \$200 was collected by Solicitor General Bartlett. It was an old claim against the Denver & Rio Grande Railway company for an amount overpaid on freight when the present capital was under construction.

**Incorporations.**  
The Braxton Consolidated Mining & Milling company of New Mexico was incorporated by George T. Walker at John H. Walker of New York and James B. Taylor of Sierra county, New Mexico. The headquarters of the company is at Grafton, Sierra county, and the term of existence is fifty years. The company is authorized to buy, sell and lease mine lands, construct mills and buildings necessary for mining operations and conduct a general mining business. The capital stock is \$1,000,000 divided into 1,000,000 shares of the par value of \$1 each. The incorporators are the first directors.

The Fort Sumner Irrigation company was incorporated by Henry B. Jones, Luther M. Shely and Edward H. Settle of Santa Rosa, William R. McGill of Fort Sumner and Lizzie Jones of Marcellus, Mich. The company is authorized to construct reservoirs, pipe lines, ditches, etc. The main line to be constructed is to begin on the east side of the Pecos river in section 12 or 13, township 3 north of range 25 east; will run a little south of east to the same side of the river in sections 23 or 24 in township 1 north of range 26 east. It will be thirty miles long and will extend into Leonard Wood and Chavez counties. The capital stock is \$100,000 divided into 1,000 shares of the par value of \$100 each. The term of existence is fifty years and the principal place of business is Santa Rosa. The directors are Henry B. Jones, Luther M. Shely and William R. McGill.

## SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, of Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be less severe, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.

**C. P. Cronin** today received a letter from a friend at Mineral Hill wash, the scene of the new mining excitement in the northern part of Yuma county. The discovery, which is located a few miles from the old Planet mine, is one of the most important finds ever made in the territory. It is said that there are thousands of tons of high grade gold and copper ore on the surface, with strong ledges cropping out for a long distance. More than a hundred claims have already been located and people are flocking in from all parts of the country. Among the Yuma county miners who were fortunate enough to get in on the ground floor are Sam and Charley Butler, Jack Burns, Leopoldo Martinez, Frank Ramirez and Porfirio Noll. The town of Kingman, from which point the district is most easily reached, is said to be deserted on account of the excitement.—Yuma Sun.

**The Stomach is the Man.**  
A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. B. H. Briggs & Co.; S. Vann & Son.

Thomas Donohue, 11 years old, a son of Peter Donohue, of 3115 East Sixteenth street, was jumping trains on the Kansas City Belt line road Sunday when he fell and the cars passed over his right leg below the knee. The accident occurred at the Indian avenue crossing. Dr. Longan took the boy to the city hospital. He probably will die.—Kansas City Star.

Foley's Kidney Cure makes the kidneys and bladder right. Contains nothing injurious. Alvarado Pharmacy.

Miss Lizzie Campbell and Neville Whitfield were married last week at Raton. The bride is the daughter of John Campbell, of Raton, and the groom is a bootmaker in the Santa Fe shops at that place.

## NEW MEXICO MUMMY.

**Hunter's Chacra Discovery Suggests Starting Theories Concerning Problem of Vanished People.**

Written for the St. Louis Republic.  
In the ransacked ruins of the cliff dwellers very little remains to reward the patient digger for Indian treasures and throw additional light on the prehistoric people who lived in the rims of canyon walls.

From time to time discoveries of more or less importance are made by hunters crossing the canyons, but their finds proved of little value to either the scientist or the layman.

Not more than a month ago, however, a remarkable mummy was found by a New Mexican hunter named John Tex, and this mummy promises to change materially some of the hypotheses formed by archaeologists, while a careful investigation of its characteristics and the peculiarities of its century-old resting place suggest startling theories concerning the problem of this vanished race.

The mummy was discovered beneath three separate layers of cement flooring, which fact vouches for the extreme antiquity of the well-preserved body.

John Tex says that the mummy is tall, that its head is normal, that its skin is white and its hair thick and of a reddish brown color.

These points of difference and the peculiar place in which he found the mummy was found lead to strange suppositions. John Tex has lived among the descendants of the Pueblo tribes, that nation of cliff-dwelling builders, since before the eighties.

"One day in the last of January, as I was riding slowly along through the sagebrush which covers the plains of San Augustine, in Socorro county, New Mexico, my eye fell upon what looked like the opening of a cave in a wall of one of the lateral canyons of the Rio Grande del Norte," says Tex. "It seemed to be about 200 feet above the bed of the canyon and some fifty feet up in the perpendicular face of the sandstone cliff."

"Upon climbing up to the cave I found that it had been inhabited, and, while erosion had thrown down the outer walls of the dwelling and filled the interior with quantities of broken sandstone, I was able to push my way into the interior."

"Finding no relics of the past occupants of this curious abode lying about it occurred to me that I might discover something of value by digging through the heap of dust and refuse."

"Starting at a distance of about fifty feet from the cave opening, my shovel went quickly through several inches of sand fallen from the roof of the cave; then with more difficulty I dug through six or more feet of refuse, when my shovel came in contact with a hard substance, which I took to be the cave floor."

"After excavating I found this floor to be perfectly smooth, and made of the clay cement common in the communal houses in the valleys with which I am familiar."

"Knowing that it was the custom with this prehistoric race to bury their dead under their dwelling floors, I determined to try digging still deeper."

"After cracking the cement and pushing the broken fragments aside, I was surprised to come upon ashes, corn-cobs, pot shards, arrow points and a profusion of animal bones. This rubbish filled a stratum about eight inches thick, below which I suddenly struck a second floor."

"Under this stratum of cement I found almost the same quantity of rubbish as was brought to light above, but what was my consternation at discovering that there was still a third floor in this oddly constructed abode."

"With the greatest excitement I swung my shovel and dislodged the debris which separated me from that which I felt sure of finding now."

"There was soon a good-sized hole gaping in the third covering of cement, and as my implement finally penetrated the opening it plunged through into a soft substance and crashed into a large decorated pot, which fell apart, disclosing the head of a mummy over which it had been placed."

"On examining the mummy, which was that of a man," continues Mr. Tex, "I found that it was wrapped in three karoses, or blankets, each about four by five feet in size."

"The outer one was decayed with age, the next one somewhat better preserved, and the inner one quite perfect. The warp of these karoses was of vegetable fiber string and the wool was made of twisted strips of fur skin which had the fur left on, and had acquired, through the process of twisting, a likeness of soft wool."

"The head of the mummy showed that the man had probably died from a blow on the skull, for there was a large indentation directly over the base."

"The features were partly those of an Indian, for the cheek bones were high and rather prominent, but the skull was large, with a somewhat low brow and without the slightest trace of the usual artificial flattening practiced by cliff-dwellers."

"The man must have been of great height, for in his shrunken state he measured about six feet. He was extremely broad shouldered and the dried muscles of his whole body proved him to have been very active and powerful."

"The large chest circumference showed him to have had powerful lungs. His arms were of great length and his hands and feet were very small for so large a man."

"As far as the Zuni Indian of New Mexico and the Maya of Old Mexico, the mummy was racially distinct from

either of these tribes. To what race, then, did he belong?

"On the right wrist of the mummy was a bracelet made of two polished bones, each two inches long, which were sewn upon an armband of deer-skin. Around the left wrist was fastened a bracelet of tiny shells, run on a fiber string."

These relics are said by the authorities of the American Museum of Natural History to be very fine specimens.

As to the discovery of John Tex, they are most conservative, as there are so many explanations which might be advanced for the location in which the mummy was found, though they admit that it is probably a very old mummy, and simple theories account for the difference in skin and hair.

Discoveries that many consider unimportant are frequently made nowadays, and the archaeologists who have that territory in charge believe that everything found is of value and adds a link to the chain of facts relating to the prehistoric race of cliff-dwellers.

**JUDGE McMILLAN.**

## His Case Being Heard in Washington Today.

The charges against Judge McMillan is being heard by the attorney general today. The Washington Post has the following article on the subject:

"The citizens of the Fifth Judicial District of New Mexico are in arms over the failure of the president and the department of justice to take action on the charges against Daniel McMillan, judge of that district, which have been pending here for nearly a year. Judge McMillan has given notice that he will open court at Gallup on March 30, and a number of the leading business men of that city have sent a protest to the department, insisting that Judge McMillan should not be allowed to hold another term of court there until he has answered the charges pending against him. The Eddy people have asked the department of justice to set aside the order for the term of court called for next week."

"Charges reflecting upon the moral conduct of Judge McMillan were filed with the president and the department of justice last June. These were supplemented later by resolutions adopted by mass meetings in Lincoln, Eddy and Roswell. The department sent an inspector, who made a thorough investigation and reported to the department last October. Soon after that Judge McMillan was ordered to come to Washington and present his defense. He came here in January and remained for several weeks. It was finally decided that he should be given an oral hearing upon the return of Mr. Knox, the attorney general, from Florida, about April 1. Judge McMillan returned to New Mexico and called a session of the court for next week."

"The republicans of New Mexico have endorsed Judge A. A. Freeman of Carlsbad for appointment to succeed Judge McMillan. Mr. Freeman has declined to be a candidate for the position, but is demanding that the charges against McMillan be fully investigated before he is allowed to hold another session of the court."

## Dangers of Pneumonia.

A cold at this time is neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Alvarado Pharmacy.

## LEG BROKEN.

**P. H. Hines Falls With Telegraph Pole?**

—**Badly Bruised on Body.**  
P. H. Hines, an employee of the Albuquerque Electric Light & Gas company, was precipitated thirty feet this morning at the corner of Second street and Atlantic avenue by the breaking off at the bottom of a rotten telegraph pole. His leg was broken at the knee and he was bruised considerably about the body. An ambulance was called and Hines was taken to the St. Joseph's hospital, where the injury was dressed by Dr. W. G. Hope. Hines was engaged in changing some wires on the pole when the accident occurred. He is resting easy this afternoon.

## IT'S IMPOSSIBLE.

**To Disprove Facts—It is Decidedly Easy to Vary Albuquerque Opinion.**

Nothing by way of an introduction could be added to the experiences and opinions given below, which could increase their value. Albuquerque people can safely be left to draw their own conclusions based on such convincing proof as this citizen offers. What is there lacking in evidence like this to satisfy a dyed-in-the-wool doubting Thomas?

Mrs. M. J. Butler, (M. J. Butler, night watchman in the Santa Fe shops), residence, 717 East street, says: "When I went to the Alvarado Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

## GRAND JURY REPORT.

In the district court of the county of Bernalillo in the territory of New Mexico, at the March term, A. D. 1900.

To the Honorable Benjamin S. Baker, Associate Justice of the Supreme Court of said territory and Judge of said District Court.

We, the members of the grand jury, who have served during the present term of the district court, having concluded our labors, submit this as our final report:

On the first and last days of our labors we were in session a portion of the day only, so that we have held sessions for about ten days, during which time we have examined more than one hundred and twenty witnesses and have presented to the court forty-nine indictments, and eleven bills, which were ignored. We have had before us also some other cases, in which no presentments to the court have been made, because the accused persons were not under bond or in custody and the evidence did not justify indictments. In the discharge of our duties we have endeavored faithfully to follow the instructions of the court, and have returned indictments in all cases in which we believed the evidence justified in our doing so.

We have made an examination of the public buildings and offices of the county officials. We find that some repairs and improvements are necessary about the court house, but do not believe it necessary to go into details, as what is needed must be obvious to any one. We invite the attention of the county commissioners to this matter.

We find the county jail entirely inadequate to the needs of the county, as it has been for a number of years. We are not inclined to criticize the sheriff or his employees, as we believe they have done the best possible to care for the prisoners with the limited accommodations which the jail affords, but we are called upon to express in strongest language possible our sense of the barbarity and inhumanity of confining so many prisoners as are often in this jail in such a place. Not only from the point of view of humanity is the present jail to be condemned, but also on account of the difficulty of safely keeping so many prisoners in such crowded quarters. Evidence presented to us shows that on the thirty-first of December fourteen men were confined in one room, three of them being lunatics, and that during the night seven of the prisoners escaped by removing a large stone from the wall of the jail. Had there been proper and suitable places in which to keep these prisoners, it would have been impossible for them to make a hole through the wall without detection, and we do not believe that the jailor in charge should be seriously blamed or censured, under the circumstances, for what happened. We earnestly recommend to the county commissioners that steps be immediately taken for the enlargement of the jail and for the making of arrangements by which youthful and inexperienced offenders can be separately confined from old and hardened criminals.

We also have learned that in the jail there is confined a lunatic, who has been there for two years. This fact is not creditable to our county, as there is a territorial asylum provided for the indigent insane, and while it is true that that asylum is taxed to its utmost capacity, yet, certainly, there must have been some time within the last two years when Bernalillo county could have obtained admission for an additional inmate.

We have found the county offices in good condition, with their books and records properly kept, so far as we can judge from such examination as we have been able to make. We have no criticisms to make nor suggestions to offer on this subject, but we do feel that we ought to congratulate the county upon the manner in which the records of the county and probate court are kept, especially with regard to the records of deeds and conveyances of real estate, and the indexes to those records. It is doubtful if any county in the territory equals ours in this regard, and we are sure that there is not one which surpasses us.

Special mention should, however, be made of the business of the office of treasurer and collector. We find from the records of the county clerk, that the late treasurer, Charles K. Newhall, has made a complete settlement of his accounts, filing all vouchers and warrants, which have been carefully checked up and found correct. This is worthy of note, because as we are informed this is the first time in the history of the county when a treasurer and collector has made such a settlement at the close of his term of office. The methods and system adopted by Mr. Newhall are continued by his successor, who has entrusted the conduct of the details of his official work to the same competent deputy, who has heretofore been in charge.

We desire to express our high appreciation of the kindness and courtesy with which we have been treated by the court, and all of its officers during the time we have served and now ask to be discharged from further duties.

Very respectfully,  
N. E. STEVENS,  
Foreman.

Charles E. Craner, formerly engineer on the Santa Fe Pacific, is now at Douglas, Ariz., superintending the re-laying of fourteen new engines recently purchased by the El Paso & Southwestern railway from the Baldwin locomotive works. Mr. Craner is now traveling engineer for the Baldwin company.

## SILVER CITY ON THE SOUTH

People Rejoicing Over the Late  
News About Smelter.

### THE COMANCHE MINING COMPANY

Silver City Soldiers Will Attend Presi-  
dent's Reception.

### WORTHY INSTITUTIONS OF SILVER CITY

#### Special Correspondence.

Silver City, N. M., March 27.—People of this city, who have witnessed the big smelter and mill here lying idle the past year or so, are rejoiced over the news of the early prospect of the resumption of business again. The plant is known as the Silver City Reduction works and owned by the nearest estate. Nearly two years ago one of the "trust companies" secured an option on the plant and closed it down for reasons best known to the trust. A short time ago the Hearsts told the trust company that one thing or the other must be done—they must either purchase the plant or start it up again. They failed to do either, when the Hearsts figured elsewhere, and it is now understood that the Comanche Mining & Milling company have secured the plant and expect to have it in complete operation in a very short time. This company is composed of wealthy lumbermen of Michigan and are owners of extensive holdings in the Burro mountains. The local agent of the Comanche company is Col. Jack Fleming, and it is a safe guarantee that the Silver City smelter and mill will soon be in operation again.

Yesterday, M. W. Porterfield, one of the best and most active business men of Silver City, escorted a party of capitalists to the Pinos Altos mining camp. Those in the party, besides Mr. Porterfield, were Charles Gatzweiler, of St. Charles, Mo.; Dodge G. Wilson and Mr. Turley, of St. Louis. They, with Mr. Porterfield, are the principal officers and stockholders of the Shamrock Mining company, which was recently organized on the purchase of the Silver City mill for \$100,000. Mr. Porterfield is the president of the new mining company and it is understood that he and associates will soon infuse new life in the Pinos Altos district by thoroughly developing their property and by the erection of a large smelter and mill on the property to treat the ore. While Mr. Porterfield is gaining wealth by his interests in the mineral resources of Grant county, his brother, W. C. Porterfield, is personally superintending the drug store business in Silver City.

It is quite likely Company D, of the First territorial regiment, Silver City, under Major Myhre, will take part in the reception to be given President Roosevelt at Albuquerque May 5. Major Myhre is in communication with Col. John Borradaile, of Albuquerque, and it is to be hoped that the crack local soldier boys, through the efforts of Major Myhre, may have the opportunity to assist Albuquerque to ward making the president's reception an event long to be remembered.

Hon. Solomon Luna, of Los Lunas, was at Silver City yesterday, to consult with R. C. McClure, supervisor of the Gila river forest reserve, in regard to sheep grazing. The conference was perfectly satisfactory, and Mr. Luna left in the evening for the north. In a conversation with The Citizen representative, Mr. Luna stated that stock raisers ought to feel happy this spring, for the reason that the conditions are better now for all kinds of stock than for ten years past. He stated that he expected to commence lambing, followed by shearing, about the 10th of April, and hoping to realize about 90 per cent of lambs.

Dr. A. B. Smith, of the medical corps at Fort Bayard military sanitarium, who was up north on business, arrived in Silver City yesterday noon, and in the afternoon drove out to the great sanitarium. He stated that about 250 patients, from the army and navy, are now receiving treatment at Fort Bayard, and some of these patients are receiving permanent benefits.

Yesterday, the private car of some of the head officials of the Santa Fe railway, notably General Manager H. U. Mudge, General Superintendent D. E. Cain and others, was sidetracked at Whitewater station. They had been on a day's inspection of the Santa Rita and Pinar mines. They continued north this morning and thence south to El Paso.

One of Silver City's worthy institutions is her national bank. C. F. Grayson is president, Col. J. W. Carter cashier, T. L. Lowe assistant cashier, H. H. Kelly teller, and Macon Kelly collector. The Kelly brothers are the sons of J. J. Kelly, and are Albuquerque products. They are among the popular young men of Silver City, and are an honor to their worthy parents. Mr. Kelly, the father, is in the harness and saddlery business, and in the early days of Albuquerque resided in the "Queen City of the Rio Grande Valley."

The "Hotel San Vicente" is another institution, that through recent establishment, that will prove beneficial to Silver City, and will be the means of attracting eastern tourists, owing to its excellent accommodations, to the "land of sunshine down in southern

New Mexico." It is the old Timmer house thoroughly remodeled from cellar to parter, with all the rooms renovated throughout, the walls newly papered and the woodwork receiving new coats of paint. It is, indeed, an up-to-date thoroughly equipped sanitarium, and the good people of Silver City are helping the proprietress, Mrs. O. S. Warren, to make of it a prosperous enterprise. Mrs. Pennell is the trained nurse at the hotel, while A. C. Miner is the obliging clerk.

Once in a while you notice old time railroads forsaking the business to indulge in something less dangerous but equally as prosperous. Ex-Conductor Harris, who for years had charge of the Silver City branch, is now in the mercantile business at Silver City. He is partner of Sam Lindauer, and they do a good business. F. F. Farnsworth, who is an experienced conductor on the Santa Fe, is at the Arkansas hot springs, taking the baths for the rheumatism. He is a member of the grocery firm of Farnsworth Bros. The ex-conductor is well known in Albuquerque.

Robert Shewson, one of the old time blacksmiths of Silver City, has just returned from California, where he had gone on business and pleasure.

Since leaving the sheriff's office, A. S. Goodell is one of the busiest men of Silver City. He is the popular proprietor of a large livery stable, and absolutely has controlled all the livery and team business of that city.

Harry Mattels, formerly of Albuquerque, is now a resident of Silver City, and has been down a job at the blacksmith shop of L. H. Rawles, a well known citizen of that city.

The American Kitchen and the Joe French restaurants are doing big business, and report themselves prosperous.

Al. Dano, a well known business man of Silver City, who was at Santa Fe during the last days of the territorial legislature, returned home a few days ago, and has been sick ever since. He was reported yesterday suffering with a slight attack of pneumonia, but his attending physician hopes to have him up and around in a few days.

The law firm of Walton & Turner can catch them "coming and going." The former is a democrat, and at the last general election defeated our old friend, J. A. Shipley, in the race for probate clerk of Grant county, and he is also editor of the Silver City Independent. Mr. Turner is a republican, and was one of the house members who so ably represented his constituents at the recent territorial legislature. He brought back with him to Silver City a commission from the governor as district attorney, and he will be found the right man in the right place in this judicial district. If one can't get so and so office or appointment, he turns in and helps his partner, and vice versa, thus keeping all "fat takes" within the limits of the firm.

Sam McLaughlin, formerly of Albuquerque, was here yesterday, leaving with his family for Mexico, where he is manager of a large mercantile company.

Capt. George M. Cundiff, also an ex-Albuquerquean, is now a resident of Silver City, a mixologist at the Club House. He expects his family from El Paso in a few days.

Forest McKinley, special agent of the general land office, left last night for Las Cruces. He has been employed down this way seeing that cattle companies remove their fences in accordance with a recent land office ruling.

Andy Laird has returned to Silver City from southern California, where he was in a hospital for some time. He will engage in the general contracting business.

The big Main street dam is progressing nicely under the personal supervision of J. A. Harlan, the contractor. When completed it will take a mighty stupendous flood to wash it away, and Mr. Harlan believes that no flood in the next fifty years will be able to even give the dam a fair test as to strength and durability when he turns it over to the city council of Silver City.

Frank Wynkoop, formerly of Denver, and Pearl Skinner, both well known in Albuquerque, are holding down positions on the Silver City Enterprise.

**More Riots.**  
Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the liver or kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels nervousness, rheumatism and neuralgia and expels malaria germs. Only 50c, and satisfaction guaranteed by all druggists.

Frank Dibert, of the Pennsylvania Development company, has gone to Watrous, Antelope Springs and Torrance on business for the Santa Fe Central Railway and will be absent from the Santa Fe office for ten days.

**After La Grippe—What?**  
Usually a hacking cough and a general feeling of weakness, often leading to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar is guaranteed to cure the "grippe cough" and make you strong and well. It never fails to stop a cough if taken in time. Take no substitutes. Alvarado Pharmacy.

The telephone company expects to have the line completed to Dalhart within thirty days.

### COMPULSORY EDUCATION LAW

House bill No. 102, an act relative to compulsory education and to amend section 1555 of the compiled laws of 1897.

Be it enacted by the legislative assembly of the territory of New Mexico:

Section 1. That section 1555, original school statute of 1897, as it appears in the compiled laws of 1897, is hereby amended to read as follows, viz: That the school directors or board of any school district, town or city in this territory, are hereby empowered and required to compel parents, guardians or other persons having the control, care or direction of children, when such children do not attend some private or denominational school, to send such children under their control to the public school for at least three months in each year, except that children referred to in this act shall be not less than 7 nor more than 14 years of age, or of such physical disability as to unfit them for school duties, which disability shall be certified to by some regular practicing physician.

Sec. 2. Any parent, guardian or other persons having the control of children and who shall fail or refuse to send such children to school as required by this act, after the clerk of the school district or the clerk of any town or city school board shall have given public notice containing the substance of this act, written or printed in both English and Spanish, by posting same in some conspicuous place at three separate points within the district or publishing the same in some newspaper within the district, shall be punished upon conviction thereof by a fine of not less than \$5 nor more than \$25 or by imprisonment for not more than ten days in any county jail; provided, that if such parent or guardian is not able, by reason of poverty, to buy books or any such child, it shall be the duty of the school board of any town, district or city, upon the facts being shown to the satisfaction of a majority thereof, to purchase, through the county superintendent or through the district, town or city superintendent, if there be one, the necessary books for the use of said child or children, which books shall be loaned to said indigent pupil during the school term, yet shall remain the property of the district under the care and custody of the district clerk, provided, further, that a sum not exceeding \$50 may be expended in any district in any one year for supplying indigent children with such necessary books, to be paid for out of the school fund for that district, by warrants drawn and in other cases; and provided, also, that there is no school taught within two miles of the place of residence of said child by the nearest established school.

Sec. 3. County superintendents are hereby vested with general supervisory powers in this matter and shall require directors to comply with the provisions of the preceding section; and it shall be the duty of the presiding judge of the district courts to give, at each session of the court, the substance of this law as a special charge to their respective grand juries, and it is made the duty of the district attorneys to give particular heed to the prosecution of causes growing out of violations of this act; and all fines so collected for the violation of this act shall be paid into the county treasury and placed to the credit of the school district in which the offense occurs.

Sec. 4. All laws and parts of laws in conflict herewith are hereby repealed; and this act shall take effect and be in force in thirty days after its passage and approval by the governor.

**Working Overtime.**  
Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel trouble. Easy, pleasant, safe, sure. Only 25c at all druggists.

**New Superintendent of Albuquerque Indian School.**  
Calvin Ashbury, in charge of the Western Shoshone Indian reservation, Nev., has been appointed superintendent of the United States Indian school at Albuquerque, to succeed Ralph P. Collins, who left Albuquerque last Wednesday. Inspector Indian Supervisor A. O. Wright is in charge of the school at present and will stay at Albuquerque until the new superintendent arrives, which will be in the beginning of May.

**Incorporations.**  
The American Lumber company has designated Albuquerque as its New Mexico office and Ira B. Bennett as agent for service.

The Colorado Copper company was incorporated with a capital stock of \$1,000,000. The incorporators are Charles C. Cotton, Frank Ackerman and Charles H. Nance. The company is authorized to purchase, acquire and lease mining lands and erect buildings necessary to carry on a mining business. The term of existence is fifty years. The directors are Charles H.

**A Remarkable Case.**  
One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I run down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." B. H. Briggs & Co.; S. Vann & Son.

**Traveling Auditor's Office.**  
The room adjoining the territorial treasurer's office and which is used by the territorial board of equalization for its meetings, has been selected by Charles V. Safford as his office traveling auditor.

**It Saved His Leg.**  
P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For ulcers, wounds, piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by all druggists.

**Bernalillo County Assessors.**  
There was a report through the capital at Santa Fe yesterday that the two assessors of Bernalillo county are waiting to see which one will be recognized by the territorial auditor in sending supplies. Auditor Sargent was not in Santa Fe, but it was the consensus of opinion among the other officers that it is not his place to recognize either assessor as an individual, and that when supplies are sent down, if the present situation still exists, the

## ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder threatening the health. One of the chief causes of that "always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My weight had been lost by E. S. S. told me "about it." I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly, MRS. JOSIE A. BRITAIN.  
44 W. Ninth St., Columbia, Tenn.

Supplies will be sent to "the assessor of Bernalillo county, care the court house."

**Notaries Appointed.**  
Governor Otero has appointed the following notaries public: Placido Baca y Baca, Santa Rosa, Leonard Wood county; Samuel P. Morrison, Cuervo, Leonard Wood county.

**Danger of Colds and Grip.**  
The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case resulting in pneumonia, which shows conclusively that it is a certain preventative of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

**Office Selected.**  
The room on the first floor of the capitol at the northeast corner of the building has been assigned to Page H. Otero for office use as game and fish commissioner. The room during the session of the legislative assembly was occupied by the journal clerks of the council.

**Grip Remedies in Great Demand.**  
When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all druggists.

**Complete Journals Filed.**  
The council and house were filed with Territorial Secretary Reynolds by Chief Clerk W. E. Martin, of the council, and Chief Clerk Chas. V. Safford, of the house. Both are very large and voluminous works and are larger than the journals of previous sessions. They are typewritten and the work is well and neatly done.

**Pneumonia Follows a Cold.**  
But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

**Big Beast.**  
The lion killed by Fen S. Hildreth in the Juniper mountains measured ten feet and two inches from tip to tip. He has given it to a taxidermist to mount.—Prescott Journal-Miner.

**Raw or Inflamed Lungs.**  
Yield quickly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. Alvarado Pharmacy.

**Back From Chicago.**  
General Manager Ira Bennett, of the American Lumber company, returned from Chicago last night, where he has been in the interest of the company for several weeks.

The Santa Fe engineer in charge of this division is in the city today and the contract for building the main line to the lumber mill site will probably be let today. Nine car loads of building and construction material have been received by the lumber company. Owing to the delay in building the "spur" the material is still in the Santa Fe yards. It will be only a week or so until the construction of the mills will be begun.

La grippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." Alvarado Pharmacy.

**Delegates Appointed.**  
Governor Otero has appointed the following delegates to represent New Mexico at the national and international good roads convention to be held at St. Louis on April 27, 28 and 29: Granville Pendleton, of Aztec; M. W. Browne, East Las Vegas; Grant Rivenburg, Santa Fe; Mark Howell, Roswell; R. L. Powell, Silver City.

**Roosevelt Reception.**  
Grand Ovation Being Arranged in His Honor.

President Roosevelt, when he alights from his special train here on May 5, will be greeted by a salute fired from a twelve pound gun, manned by a squad of Fort Wingate soldiers.

Col. T. C. Lebo, officer in command of this department of the United States army, who is here with his wife, visiting with her parents, Mr. and Mrs. F. H. Hawley, has courteously consented that such arrangements can be made. This excellent idea originated with some of the members in charge of arrangements and recreation. It was thought that a gun could be borrowed from Fort Wingate and that a squad of local gunners could be formed to man it. Col. Lebo, being in the city, was approached this morning by Major Ernest Meyers and readily consented to loan the gun and also volunteered to send a commissioned officer and a gun squad here to fire it.

This latter concession is thoughtfully made by Col. Lebo so as to avoid any accident that might occur by the gun being fired by green hands.

**Son of Wealthy Hotel Owner Here.**  
George O. Beal, representing Gerson, Seligman & Co., distillers, with wholesale houses at Cincinnati, Chicago and New York, is in the city on business, which possibly might culminate in the establishing of a new business house in Albuquerque. Mr. Beal arrived Saturday night and will remain until tomorrow, when he will continue south to El Paso. He expressed himself well pleased with the business aspect of the city and no doubt will recommend it to his house as the business center of New Mexico and Arizona. He is a sprightly appearing young man with seeming business ability. His headquarters are at Colorado Springs, where a couple of years ago he was happily married to the daughter of J. A. Himebaugh, the wealthy owner of the Alamo and Spalding hotels, popular summer houses of Colorado. He says there is a young man at home who calls himself George Himebaugh Beal, who will represent the next generation of that branch of the Beal family.

**ROY McDONALD.**  
Signed for Season With Kansas City Base Ball Team.

Roy McDonald, who learned nearly all he knows about base ball in this city, left this morning for Kansas City, where he is to join the American association team representing that city, which is under the management of Dale Gear. In the last two tournaments during the territorial fair game had charge of the team representing El Paso, and in these games saw McDonald's work and was impressed with his ability. After the last fair Gear offered him a contract, but it was not accepted until last Saturday, when Roy received word to report at once. He will make good, as there is no catcher in the business who is, better judgment and few who are his superiors in other respects.

**Children's Party.**  
Miss Violetta Erbes, of Missoula, Mont., was a guest of honor at a nicely arranged afternoon party yesterday, given by her cousin, Miss Clara Hopping, daughter of Mr. and Mrs. C. B. Hopping, who she is visiting. Games and refreshments furnished amusement for the little folks several hours. Those present were: Violetta Erbes, Hazel Garrison, Doris Klint, Chester Hopping, Persis Bryce, Rebecca Abraham, Myra Hopping, Margaret Farr, Beatrice Hill, Marion Hopping, Mildred Keogh, Clara Hopping.

**Cough Settled on Her Lungs.**  
"My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without relief, until we gave her Foley's Honey and Tar which cured her." Refuse substitutes.—Alvarado Pharmacy.

**SANTA FE "SPUR."**  
To the Lumber Company's Mill Will Be Built at Once.

Superintendent F. J. Easley, of the Santa Fe, has awarded to the firm of Anson & Holman, the contract for the construction of the "spur" of track from the Santa Fe main line to the American Lumber company's mill site north of the city. It was decided yesterday at Las Vegas that Anson & Holman would get the contract and the news was brought here last night by B. W. Newlee, civil engineer for the New Mexico division of the Santa Fe. Engineer Newlee is appointed to lay out the spur and will begin work tomorrow. This looks like business.

**Foley's Honey and Tar.**  
Cures coughs and colds.  
Cures bronchitis and asthma.  
Cures croup and whooping cough.  
Cures hoarseness and bronchial troubles.  
Cures pneumonia and la grippe. Alvarado Pharmacy.

**TIE CONTRACT.**  
Making Ready for the Albuquerque Eastern Railroad.

Serapio Romero, junior member of the tie contracting firm of Eugenio Romero & Co., came in yesterday with his wife from his tie camps near Chilli, returning at noon today.

Mr. Romero reports that his firm has nearly completed its contract for supplying the ties for the Santa Fe Central railway company, and that the last tie will be furnished and delivered within the next thirty or forty days; also that the firm has taken the contract from the Pennsylvania Development company for cutting and delivering all the ties for the Albuquerque Eastern railway and that he has had two camps at work cutting these ties for the past three weeks, one camp in Vrisarri canyon and the other at Tirotes, about twelve miles northwest of Chilli, and that these ties for the Albuquerque Eastern are now being hauled to and delivered to Moriarty, and that later on the ties will be delivered at other convenient points between Moriarty and Albuquerque.

Very few realize the magnitude of

**HAD ALL-GONE FEELINGS,  
IMPURE BLOOD, AND WAS DAILY  
LOSING FLESH.**

**Paine's Celery Compound**  
The Spring Fortifier and Cleanser  
Prolongs Life.

Paine's Celery Compound is today the most reliable and most successful spring medicine in the world. The present enormous demand is the best proof of its popularity. It has almost entirely displaced the common remedies in ill placed and used forms once so common, and in many respects so dangerous to health.

Paine's Celery Compound has been marvelously successful for the simple reason that in every instance it accomplishes more than is claimed for it.

It is the one spring remedy that physicians and the best people in the world. Men and women of wealth and high social position, able to command the services of the most eminent medical men, use Paine's Celery Compound in springtime, having full confidence in its virtues. The experience of tens of thousands has proved that it is wise to use Paine's Celery Compound in the early spring days for the banishment of rheumatism, neuralgia, dyspepsia, nervousness and insomnia. Paine's Celery Compound is, par excellence, the great blood purifier; it increases the constructive capacity of the vital fluid, nourishes the tissues and builds up the body. Mr. W. H. Ladd, of Allison, Tenn., says:

"For several weeks before I commenced using Paine's Celery Compound I had a tired and all gone feeling, my blood became impure, and I was daily losing flesh. One of my friends advised me to use Paine's Celery Compound, and I got relief from the first bottle. I am glad to recommend it to all suffering humanity. I believe it has prolonged my life. I am now seventy-two years old."

the business done by this enterprising firm.

Mr. Romero states that they are now working in and around Chilli 200 men, and that before the middle of June, that is, after planting and shearing is over with, they will be working 1,000 men, all engaged in cutting and delivering ties.

Mr. Romero expects to visit this city again in about two weeks and our merchants should take steps to secure their due share of the supplying of goods required by so large an outfit. Mr. Romero always receives a warm welcome in Albuquerque, and he has many friends, and The Citizen hopes that his visits will become more frequent.

Mrs. H. C. Perkins, Mrs. L. Connelly and Mrs. F. H. McElroy, pleasant people of Santa Fe, spent Sunday and Monday here and returned to the capital this morning.

The executive committee of the New Mexico Territorial Fair association will meet at the office of the secretary tomorrow, Wednesday night.

**BUSINESS ANNOUNCEMENT.**  
Look at These Prices for The Citizen Beginning With Tomorrow.

On and after tomorrow, Wednesday, April 1, 1903, the subscription price of The Citizen will be reduced as follows:

The Citizen, by carrier, to all parts of the city, 60 cents a month, instead of 75 cents; by the week, 15 cents a week, instead of 20 cents.

The Citizen, by mail, to any part of the United States, \$5.00 a year, instead of \$6.00.

These prices are the lowest for any of the daily newspapers published in either New Mexico, Arizona or El Paso, and places The Albuquerque Daily Citizen in line with prices charged by some of the big eastern dailies.

Therefore, The Citizen is by all odds the largest, best and cheapest daily newspaper published in New Mexico.

All members of Triple Link Rebekah lodge No. 10, I. O. O. F., their families and all Odd Fellows are requested to be present in honor of the anniversary of said lodge tonight at 8 p. m., at Odd Fellows hall. Mary Rogers, secretary.

### ROUGH RIDERS' RECEPTION.

Arizona Comrades of the President Will Give Him a Soldiers' Welcome.

The Williams News says that fifty Rough Riders of Bisbee and southern Arizona, finding that President Roosevelt will confine his itinerary to the northern part of the territory, have arranged an excursion to meet their former leader in battle at Williams on May 6, and accompany the presidential party to the Grand Canyon and return. Desiring to give the president some appropriate token of their esteem, they have secured a monster black bear, captured in Sonora, and will present it to him when they meet at Williams. They realize that it will be somewhat awkward for the president to carry a live bear around with him, but they have decided that he will get at least one bear on his western trip. The bear is in chains, but is perfectly docile and harmless under charge of Captain George Roberts, a veteran of the Spanish-American war, who, to save himself from annihilation, while camping out in the wilds of Mexico about a year ago, engaged in an encounter with bruin and succeeded in tying the brute down, receiving but a few scratches to commemorate the daring encounter. Captain Roberts is a soldier, an expert hunter, and an entertaining orator, who will make the presentation speech in Williams on May 6 next.

### Sunday School Convention.

Warren V. Long, chairman of the executive committee of the New Mexico Sunday School association, has appointed the following persons to compose the program committee: W. J. McPherson, chairman; John R. McFie and J. A. Wood. The association will hold its annual meeting in Santa Fe June 9 to 11, 1903. The program committee is now at work securing outside speakers of national reputation, and expect soon to be able to announce the names of some of them. All Sunday school workers over the territory should begin to make preparations for this event, as it is expected to be one of the best sessions ever held in the territory.

### OFFICIAL MATTERS.

**Commissioners Appointed.**  
Governor Otero appointed Urbano P. Arrey county commissioner from the first district of Sierra county, vice Marcelino Duran, deceased.

**National Guard Inspection.**  
In answer to a telegraphic inquiry from the war department as to whether the national guard of New Mexico would be ready for inspection in April in order to determine the number of magazine arms and equipments to be issued them under the provisions of the new militia law, Adjutant General W. H. Whiteman promptly notified the department that the militia of New Mexico will be ready for personal inspection in April.

**Quay County Officers.**  
Governor Otero appointed the following officers for Quay county: Sheriff, J. Alexander Street; treasurer and collector, Donald Stewart; assessor, Harry R. Neal; judge of the probate court, Theodore W. Heman; clerk of the probate court, Nasario V. Gallegos; superintendent of schools, Milnor Rudolph; county commissioners, J. C. Barnes, Jose P. Martinez and Alexander B. Goldenberg; surveyor, John Campbell.

**Clerk-Examiner Examination.**  
The civil service commission announces a special examination for the purpose of establishing a suitable register of eligibles for clerks and examiners. It is expected that a number of additional positions of this kind, provided by congress for the United States civil service commission, will be filled from this register on July 1, and the register will also be available for vacancies in the department of commerce and labor and other departments and offices. Probably one hundred or more vacancies will be thus filled if eligibles with suitable qualifications are secured. This examination will be given on April 21 and succeeding dates at all places marked "P" in the spring schedule of examinations.

Residents of the District of Columbia and states and territories that have received their full share of appointments under the apportionment are notified that they will not be certified for appointment from this examination so long as there are satisfactory eligibles in the same subjects who are residents of states and territories that are not in excess who will accept appointment.

The following states have at this time received their full share of appointments in the apportionment service: California, Colorado, Connecticut, Delaware, Idaho, Kansas, Maryland, Nevada, Maine, New Hampshire, Ohio, Vermont, Virginia, Wyoming and the District of Columbia.

On May 6 there will be an examination for clerk-carrier. Male applicants must be at least 5 feet 4 inches in height, exclusive of boots or shoes, and weigh not less than 125 pounds in ordinary clothing, without overcoat or hat.

Subscribe for the Daily Citizen.

## TOBACCO CULTURE.

A large number of prominent business men of the city held an open meeting last evening at the Commercial club to consider the feasibility of tobacco culture in the Rio Grande valley and the best method of promoting interest in and the development of the industry. The following report of the committee was adopted by a unanimous vote:

Albuquerque, N. M., March 30.  
To the Executive Committee of the Commercial Club:

We, the undersigned, your committee appointed to confer with Mr. Edmunds regarding the culture of tobacco in this valley, beg leave to report as follows:

From all the information that we have been able to gather in our talks with Mr. Edmunds, we are convinced that the raising of tobacco can be made a success in this valley; that it would pay handsomely on the investment.

We would therefore recommend that a company be formed to raise, re-handle, buy and sell, export and manufacture tobacco, with a capital stock of twenty-five thousand (\$25,000) dollars, divided into two thousand, five hundred (2,500) shares of ten (\$10.00) each. And that the company be organized at once, getting as many of our citizens as possible to take stock, so that the interest might grow throughout the whole community.

Mr. Edmunds will be with us and will go more into details about the investment, etc.

E. S. STOVER.

THOMAS J. CURRAN.

S. E. Edmunds, of Cincinnati, in his talk before the meeting, gave an outline of the best method for the culture of tobacco. It was his opinion that the culture of tobacco could be made one of the leading industries of the territory when the intelligent co-operation of concentrated efforts of the people are put into the project. He was in favor of forming a stock company in Albuquerque to attempt the culture of tobacco on a scale large enough to demonstrate that it can be made a commercial success. It was his opinion that a plan should be formulated whereby every farmer and land owner in the valley will know how to go about the culture of tobacco in an intelligent manner. According to the investigations made by Mr. Edmunds the conditions in the Rio Grande valley are favorable, and that in introducing tobacco into New Mexico is merely planting it in a soil to which it is native.

A plan of the proposed company was outlined by T. J. Curran, by which Mr. Edmunds would be employed for six months and that in that time he could, with the assistance of the industrial department of the Santa Fe, give practical instructions to every farmer along the valley between Bernalillo and Belen. There is no doubt in the minds of the promoters that the investment will make satisfactory returns. Mr. Curran stated that the present plan was to plant forty acres in tobacco in ten acre lots at different points along the river, and thus test the soil in all parts of the valley between Bernalillo and Belen. The estimate of the cost of the first planting, and harvest was \$4,000, this to include a salary of \$900 to Mr. Edmunds for the first six months for his services in superintending the planting and culture and giving instructions to the farmers of the Rio Grande valley. Herman Blueher presented photographs of tobacco grown on his farm in Old Albuquerque and passed around cigars made of that tobacco. He heartily endorsed the plans of the promoters and it was his candid opinion that tobacco raising can be made a profitable industry in the Rio Grande valley. The seed from which the plants will be grown has already been ordered by the promoters, and the plants will be ready for planting by the time the company is prepared for active work.

### The Kimbells Expected.

Colonel Perfecto Armijo, father of Mrs. A. W. Kimball, has received a letter to the effect that her husband, Captain A. W. Kimball, and family would soon arrive from San Francisco and remain here a few days to say good bye to him and other relatives before leaving for Manila, P. I. Mrs. Pratt, formerly of Santa Fe, but now of New York, who is a sister of Colonel Armijo, will come on from the east to meet the Kimbells. "Billy" Kimball, as he is familiarly known to his Albuquerque friends, is the United States army quartermaster at the Presidio, and has recently been ordered to report for duty in the Philippines.

### POLICE JOINTINGS.

Judge Crawford was greeted or regrettably by four prisoners this morning, all of whom were out of any joking atmosphere.

Tom Sheehan and George Mosher were picked up last night with a new style of fake jewelry in their possession, which they were trying to dispose of below cost. The judge evidently did not like their appearance and the fake jewelry business not being a strictly honorable occupation he prescribed ten days each of city labor.

Paul Bolt was taken into custody by the marshal yesterday evening while strolling through the alleys looking for some imaginary clothes which he had dreamed of after he was caught. He had a faculty for telling the same story in different ways, each statement contradicting the other. The judge let him off easy with five days under the vagrant law.

Then came John Wilson, the sneak

thief, who was bound over to the grand jury for fooling with a purse that contained money.

**Mr. Bridgeman Surprised.**  
Monday evening at the home of Mr. and Mrs. Bridgeman, South Broadway, occurred a very pleasant social affair. It was in the nature of a surprise on the gentleman, it being his birthday. The guests were Mr. and Mrs. Money, Mr. and Mrs. Foutz, Mrs. Rutherford, Misses Alice Rutherford and Lucy Wardell, and Messrs. Ralph Springer, Alexander and Wardell.

### BURGLARS.

**They Enter Newcomer's Store and Steal Some Goods.**

Newcomer's book store was broken into Monday night and a quantity of fountain pens were stolen, but the loss will not reach large figures. The burglars, who were evidently hoboish or novices in the business, gained entrance through the rear window by breaking the window glass and removing the screen.

As a gentleman in the city was passing up Silver avenue he noticed a couple of men in the rear of Newcomer's standing at the door. He stopped and they took to their heels. He passed on thinking it was only some kids.

Considering the fact that all the valuable goods were left unmolested it is evident that they were green at the business and were only experimenting. A half dozen boxes of cigars were taken out of the cases and left in the front part of the store.

The only trace of their steal was the empty fountain pen case, which is very small, being used to show up the pens.

### Prisoner Pardoned.

Governor Otero has pardoned E. T. Vick, several years ago sentenced to seventeen years in the penitentiary for the murder of Dr. Ferris at Roswell. Ferris has brought Vick from Anna, Ill., to Roswell, and Vick found employment as a printer. One night Vick went into Ferris' drug store and quarreled with Ferris, finally shooting the latter through the body. Ferris dying soon afterwards. Vick was only 20 years old when the shooting occurred.

### IT IS ONLY A RUMOR.

**Santa Fe Officials Deny Intention to Move Raton Shops to Trinidad.**

Some very significant moves on the part of the Santa Fe railroad recently have led the people of Raton to believe that the division headquarters at that place are to be removed permanently to Trinidad, says the Denver News. Raton is about eighteen miles across the New Mexican border. Last year the company had almost completed plans for a big eating house to be built in that place. Then, without any explanation, the orders were countermanded, and it has been learned that the place is to be built at Trinidad. That was the first rumor of the change. This was followed by the making of Trinidad the actual working division headquarters several months ago.

For a long time Raton has been considered headquarters of the road and it seemed that the company was making extensive plans for building up their plant there. Increases were made in the large machine shops which employ about 600 men. Recently activity ceased and there is an insistent rumor that the machine shops are to be taken from Raton and established in Trinidad. Within the last two months the principal officials of the road have visited both places and the matter has been given a good deal of attention. On the part of the road there has been a constant denial of these changes.

Yesterday General Superintendent D. E. Cain, of La Junta, was in the city for several hours. In his party was F. T. Dolan, the superintendent who is to succeed R. J. Parker, at Pueblo. They have been making a trip over the line to introduce Mr. Dolan. The last of the week Mr. Parker, who succeeds Mr. Dolan on the Chicago division, goes east. While in Denver the party visited the headquarters of the Colorado Fuel & Iron company and the Colorado & Southern road.

"There is nothing in the rumor that we intend to make Trinidad a division point in place of Raton," said Mr. Cain. "The necessities that came up from a congested freight traffic caused us to make Trinidad a temporary headquarters but as we will soon have relief the necessity will no longer exist. The mountain down there governs our transcontinental freight traffic, and a necessity such as this comes up every once in a while."

### Rev. Gay in a Wreck.

The Rev. J. L. Gay and his son-in-law, S. O. Fletcher, of this city, were in a wreck on the Wahash near St. Charles, Mo., on Wednesday, March 25. They were bound for St. Louis, where Father Gay went to enter St. Luke's hospital for treatment. The train on which they were traveling was a half hour late and was moving at a terrific rate of speed, fifty miles an hour, when it left the track, turned a complete somersault and rolled down a five foot embankment. Father Gay's arm and hand were cut by pieces of flying glass. He was not seriously injured. Mr. Fletcher, who has returned to Santa Fe, was not hurt, though pretty badly shaken up. Only two other passengers besides Father Gay were hurt and neither of them were seriously injured. The engine was the only part of the train that remained on the track. That there were no fatalities is almost a miracle.—New Mexican.

It is reported that the office of F. C. Maegly, assistant freight agent of the Santa Fe, is to be transferred to Chicago. C. W. Cook, Mr. Maegly's chief clerk, will have charge of the office that is left at Topeka.

## GUILTY OF LARCENCY.

In the district court yesterday afternoon Arthur Drake entered a plea of guilty and John Willis was found guilty of stealing clothes from the stores of Mike Mandell and Simon Stern. Wilson was defended by H. Clayton and E. A. Perea. The defense tried to prove that Willis had nothing to do with stealing the clothes, but was only a friend of Drake's, who could have given him the clothes. But the evidence of the prosecution went to prove that while Willis did not enter the stores he was found with some of the goods in his possession and he was a traveling companion of Drake's. Evidence also proved that Willis had been seen in front of the store of Simon Stern while Drake and the third party who was never captured were on the inside. The case was strong against Willis and the jury returned a verdict of guilty on both counts of the indictments. Both were remanded to await sentence.

The court this morning was occupied with the case of the territory against Placido Padilla de Samora, charged with assault and intent to murder her husband on December 16, 1902, by cutting his throat with a table knife. The testimony for the prosecution showed that the husband and wife had started for a neighbor's on the night in question and that while on the way she asked to be carried on his shoulders, as the ground was wet, and while being so carried, without any warning, made this attempt to end her husband's career. The testimony of all the witnesses was that both the husband and wife were regarded as half witted and neither the husband nor any of the witnesses could throw any light on the motives which could have prompted the deed. The defendant refused to present any evidence, and admitting the facts as recited by the prosecuting witness, entering a plea of guilty, and the case was withdrawn from the jury and the defendant remanded to await sentence. The general opinion is that the defendant is responsible for her action.

### Was at Silver City.

W. T. McCreight, the hustling side-partner of Tom Hughes in the conduct of the Albuquerque Daily Citizen, was in Silver City Thursday afternoon looking after the interests of his bright publication. Mr. McCreight came up from Paywood, where he had been taking a well earned rest at the springs, and was feeling very much benefited as a result of his vacation. He published a complimentary and interesting letter about people in Silver City in Saturday's issue.—Independent.

### WASHINGTON'S NEW DEPOT.

**Entire Cost of Improvements Will Amount to \$14,000,000.**

Official announcement has been made that the construction of the new union railroad terminal in Washington, D. C. will begin within a few weeks. The new passenger station is to be on Massachusetts avenue, about two blocks north of the present station of the Baltimore & Ohio railroad, and it is to be used by all the railroads entering Washington. Connection with the railroads to the south will be made by a tunnel nearly a mile long to be constructed under Capitol hill, and which will reach the tracks on Maryland avenue. At least three years will be required to complete this great improvement, and when it is finished the present stations of the Pennsylvania and the Baltimore & Ohio railroad will be removed, and the ground occupied by the former will be included in the park known as the Mall.

The cost of the entire improvement will be about \$14,000,000, according to the estimates, and it is announced that the District of Columbia will pay \$3,000,000 of this amount, the remainder being divided about equally between the Pennsylvania and the Baltimore & Ohio railroads. The new station is to cost about \$4,000,000. It will contain twenty-eight tracks, and the headhouse, in which will be the offices, waiting rooms, etc., will be very handsome and in keeping with the general style of public buildings in Washington.

### Avilla in the Pen.

Deputy United States Marshal R. E. Leatherman at noon today placed Alonzo A. Avilla in the territorial penitentiary. Avilla was found guilty at the present term of the district court at Albuquerque of the crime of adultery and was sentenced accordingly.—New Mexican.

### INDIAN SCHOOL NOTES.

C. J. Crandal, superintendent of the Santa Fe Indian school, made us a short call this week.

A new industrial teacher has been appointed and is expected to report for duty soon.

Miss Elizabeth Cracraft, from Fort Yuma Indian school, called at the school yesterday on her way to Paohate, where she will take charge of the day school located near that village.

Miss Sarah Dake, field matron at Acoma, made a short call yesterday. She is on her leave of absence and will visit with friends in Independence, Mo.

### To Reorganize.

Adjutant General W. H. Whiteman arrived in the city from Santa Fe. He is here with the view of reorganizing company K, First infantry, and it is hoped that the organization will again be effected. It is rumored that Captain De Costa will again be asked to take the captaincy of the company, and should he be prevailed upon to again

take up military duty the success of the company will be assured.—Las Vegas Optic.

### CIRCULATING PETITIONS.

**People Want Old Guadalupe County Officers Retained in Office.**

A large number of petitions are being circulated through Leonard Wood county asking Governor Otero to appoint as the officers of the new county those who were elected in Guadalupe county last fall.

It is stated that the petitions are being generally signed without regard to political distinctions and the petition being circulated in Santa Rosa is headed by the three republicans who were the prime movers in the creation of the new county. It is understood in Santa Rosa that Governor Otero has intimated that he will appoint the old officers.

### Card from Mr. Bachechi.

Editors Citizen.

I noticed a few days ago that I was on the committee of the good government league. As I have not signed any list it seems to be a mistake, and I refuse to act on the same as I have never been consulted in the matter whatever.

O. BACHECHI.

### FROM HILLSBORO.

**The Mining Situation in a Good Town of Sierra County.**

### Specie' Correspondence.

Hillsboro, N. M., March 30.—Word is received here today that R. H. Hopper, general manager of the Sierra Consolidated Mining company, who is at present in New York City, will be here by June 1, ready to commence active operations upon the company's mining properties. This means that within three months Hillsboro will be in the midst of the most prosperous times in her history. The company is composed of some of the wealthiest and most conservative business men of New York state, with ex-Senator Warner Miller president. The company has a capital of \$3,000,000.

Dr. A. G. Brower, of Utica, N. Y., and John Kasser, of this place, recently purchased from Messrs. Hall and Blitcke the famous Freiberg mine, the consideration being \$10,000. Mr. Kasser informs us that a 100 ton mill has been purchased and will be ready in sixty days to drop stamps on Freiberg ore. This property has in sight thousands of tons of perfectly free-milling gold ore running from \$1.50 to \$15 to the ton, and the ore bodies are large and continuous.

The machinery for the Prosper Gold Mining and Milling company's mill has arrived and Manager Hirsch is straining every nerve to have it in operation in thirty days. The Cincinnati mine at a depth of 240 feet shows an ore vein of ten and a half feet in width, the ore averaging \$57 gold per ton. The Prosper Gold Mining and Milling company is a Cincinnati, Ohio, corporation, with a capital of \$1,500,000, with J. N. Mittendorf, of Covington, Ky., president. This gentleman visited the properties of his companies last week, and returned home much pleased with the very favorable report which he can make to his company, regarding its property.

### Buried Here.

The body of David Jones, the young Englishman who died here of tuberculosis on February 26, which was embalmed by O. W. Strong & Sons and placed in the receiving vault about a month and four days ago, will be given a temporary burial in Fairview cemetery. After the young man's death his people at Surrey, England, were written to, and yesterday O. W. Strong & Sons received a letter requesting that services be held and the body be buried until it could be removed to his native land. The funeral services were held at the undertaking parlors of O. W. Strong & Sons this afternoon.

### LONG-LOST TREASURE.

**Found by Laborers at Work Excavating in Kearney's Gap.**

This afternoon, word reaches the city that the long-lost and much-sought-after Spanish treasure had been discovered, immediately the other side of Kearney's Gap, where lie the ruins of the old Spanish fort, which General Kearney demolished during his famous journey through this country in the Mexican war.

The facts in the case as nearly as can be learned hastily at this late hour are that while workmen were excavating for the purpose of taking out red sandstone for sidewalks, which commodity abounds in that vicinity, they broke into an old well, which had been dug out of solid rock, and upon investigation they discovered lying at the bottom of the old well, among a lot of other rubbish, all of which bore traces of antiquity, two iron-bound chests, covered with the moss of ages and partly rotted away, with their contents lying in a conglomerate mass, old and rusty looking, but which upon further research proved to be old Spanish coins of several different denominations, from the doubloon down.

The men dug all the coins out and started for this city with their find, which is probably of no great intrinsic value at the present day, but which at one time must have represented several thousand dollars.—Las Vegas Record.

## WALL BLOWN IN.

The cyclone sand storm today blew in the west wall of the Roosevelt rooming house on Railroad avenue about noon today. All morning crowds stood on Railroad avenue watching the wall sway to the touch of the strong winds.

The wall which fell was a single brick wall, separated from the wall of the house proper by a space of about four feet running the length of the building, which is used to admit the light from the skylight into the rooms. When the heavy brick wall fell in it damaged the other wall, breaking the windows out and bursting the walls in, and wrecking the furniture. The top story was the only place damaged by the weight of the brick, and is liable to cave the floor in and cause destruction to the entire side of the building.

The rooming house is conducted by J. S. Gustin, who will lose considerable furniture, and the rentage of five rooms which were rendered uninhabitable by the falling wall. The damage will reach several hundred dollars and it will take some time to repair the building.

The frame store building of Tom Keleher on Railroad avenue had to be propped up this morning to stand against the strong winds which carried with them loads of sand.

The telephone companies are having their troubles today. On Railroad avenue, between Fourth and Fifth streets, one large pole carrying a network of wires was blown to a slanting position. A few wires were down in the city, but not enough to make any great inconvenience. The Mutual Automatic and Colorado company report trouble with the wires, but nothing of a serious nature.

The telegraph companies are unable to give the usual good service on account of the strong winds.

### Pension Appeals.

A Washington dispatch says that during March the interior department, through its board of pension experts, disposed of 1,600 appeals in pension cases, which is 300 in excess of the record for any previous month in the history of the department. Assistant Secretary Miller expresses the opinion that at the present rate the time is not far distant when pension appeals can be disposed of within sixty days after their filing, as against the present average of eighteen months. There are now about 14,000 cases on appeals in the office, and about 600 new ones are received each month.

"Love, Courtship and Marriage," will be the basis of Mrs. Owen's address to be given in the Lead Avenue Methodist Episcopal church tonight. She will sing some of her plantation melodies also. Come everybody.

### IS NOT POPULAR.

**Order Closing East Las Vegas Post-office Causes Indignation.**

A special dispatch to the Denver News from East Las Vegas, dated March 31, says:

There is much excitement and not a little indignation in the old town of Las Vegas at the sudden action of the postoffice authorities in abolishing the office on the west side and incorporating it with East Las Vegas, under the name of Las Vegas.

The old city is not equipped for carrier service. The houses are not numbered, and some of the streets are unnamed. Then the town loses its identity and its name. It is not incorporated, but is the original Las Vegas, and objects bitterly to being forced to give its name to the new city. Postmaster Salazar knew nothing of the intentions of the department until he received the telegram telling him to close his office tonight. He will endeavor to have a station established. The cause of the uniting of the offices undoubtedly is the confusion resulting from mails going to the wrong office.

Washington, March 31.—A controversy that has been before the postoffice department for six years was ended today by the appointment of Fred O. Blood to be postmaster at Las Vegas, N. M. An order was simultaneously made discontinuing the old Las Vegas office, changing the name of the present East Las Vegas office to that of Las Vegas and extending the free delivery service over the territory now supplied by the old town, which was formerly supplied by the Las Vegas office. The changes will take effect tomorrow.

### Cattle Sanitary Board Officers.

The cattle sanitary board were in session at the office of Secretary La Rue at Las Vegas, for the first time as at present constituted. Col. E. G. Austin was elected president of the board, which for the coming two years will be composed as follows: E. G. Austin, president; J. A. LaRue, secretary; M. N. Chaffin, C. L. Ballard; W. H. Greer and W. C. Barnes.

### Medicos to Meet at Las Vegas.

The Territorial Medical society will hold its annual meetings in Las Vegas April 7 and 8. A program of moment and interest to the medical profession is being prepared. The medicos will be afforded an opportunity of mixing pleasure in goodly proportions with the serious business of the sessions. Tuesday evening, early, the local members of the profession will be hosts at

a riding party to the Hot Springs, when a special car will be placed at their disposal. Later, the Montezuma club will tender a swell reception. Dr. J. Frank McConnell, secretary of the association, writes from Las Cruces that the attendance promises to be large. In connection with the sessions of the society, the territorial board of health will meet for re-organization and election of officers.

### GRANT PARTITION SUIT.

**Testimony Before the Referee—Manuel Sanchez et al Claimed Part of Property.**

Additional testimony was taken yesterday in a suit for partition of Manuel Sanchez et al versus George N. Fletcher et al, involving part of the title of the Ramon Vigil land grant in Bernalillo and Santa Fe counties. Sanchez et al claimed to be heirs and part owners of the grant and assert that Fletcher et al did not purchase the entire interest in the property. It will be remembered that this is the grant upon which J. S. Ruckman cut timber and manufactured lumber during the four years ending last December and making a fortune out of the business. E. P. Shields is the referee. The testimony of one witness was taken yesterday.

Gov. L. B. Prince represents Manuel Sanchez et al in the case. The grant was confirmed by congress and is patented. It is said that it still contains much valuable timber for lumber purposes. Testimony will be continued on Friday of this week.—New Mexican.

### A Wedding at Peralta.

Rev. Thomas Harwood rode down to Peralta yesterday to perform a marriage ceremony and returned the same day. The parties united in marriage were Gregorio Moya, of this city, and Miss Carolina Librada Chavez, of Peralta. The special witnesses were Frank Salazar and his wife, Felicianna Salazar, of Peralta. There was a good congregation in the Spanish Methodist Episcopal church and a short sermon preceded the marriage services.

### CONSTANTLY IMPROVING.

**Such is the Verdict at the Korber Carriage Repository.**

J. Korber & Co., the well established firm of carriage and harness dealers, have greatly increased their facilities for manufacturing their products.

A complete plant of new and modern machinery has been installed in the wood working and iron working departments, and consequently home-made buggies and spring wagons will be turned out complete in every detail and as good as can be secured in the country. Power for the planers, band saws, the big blowers, which fans the fire in four large blacksmith forges, and other machinery used in the manufacturing establishment, is supplied by an electric motor of a modern make.

The firm of Korber & Co. will be one of the largest of its kind, the new machinery and other additions saves time and money, and enables them to put a more completely finished article on the market. With a notable increase in manufacturing industries such as this, Albuquerque need have no fear of the future.

### Retail Clerks' Union.

The City Retail Clerks' union held its first regular session last night at the city building. A good attendance was had and officers were elected as follows:

President, Henry Myers; vice president, E. R. Steen; secretary, Miss Belle Yancy; guardian, Miss Lea Querer; treasurer, Hugh Trotter; financial secretary, L. L. Lyon.

The organization is likely to become a strong one.

### OFFICIAL MATTERS.

A rural delivery route has been established starting from Maxwell City, Colfax county, covering twenty-four miles and serving a population of 285.

### Notaries Appointed.

Governor Otero appointed the following notaries public: James F. Bell, Endee, Quay county; F. S. Van Valkenburgh, Bernalillo, Sandoval county; J. S. Williams, Capitan, Lincoln county; John R. Mulligan, Frisco, Socorro county; Walter P. Wilkinson, Deming, Luna county.

### Incorporations.

The Fairview Cattle company was incorporated by Frank H. Winston, Ella W. Winston and Charles G. Yapple, all of New Mexico. The company is authorized to raise, breed, buy and sell cattle and all other kinds of live stock, deal in lands, acquire water rights and transact in all branches business of merchandising, mining, cattle raising, etc. The capital stock is \$50,000, divided into 500 shares of the par value of \$100 each. The incorporators are the directors and the term of existence is twenty years. The principal place of business is Fairview, Sierra county.

The Baidy Power and Gold Mining company of Elizabethtown, New Mexico, has designated Buffalo, New York, as the place of the principal office of the company. The New Mexico office is at Elizabethtown and Cassel C. Forrester is the agent.

Deming boasts that it has ten different passenger trains daily.

**Grove's Tasteless Chill Tonic**  
has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c.  
Enclosed with every bottle is a Tea Cnt. package of Grove's Black Root Liver Pill.
