Weekly Albuquerque Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, APRIL 27, 1903.

NUMBER 89

Territorial Topics

LAS CRUCES.

From the Republican.

The Liceo Cervantes will give the people of Las Cruces a rare treat by their concert on the 24th. The Liceo is an active Spanish society of the college.

News was received here by H. F. Stephenson of the death of his sister, at Tucson, Arizona. Mrs. James A. Zabriskie has visited in Las Cruces many times, and her many friends here are saddened at the news of her fatal illness.

GALLUP.

From the Republican.

Morillo Bros. are putting up a building on the east of their present place of business.

The Santa Fe company is putting up an air compressor at Chavez for raising water from the deep well.

The lambing season has now begun around here and most of the Mexican towns are deserted.

J. M. Jacobson went to Albuquerque Monday, where he and W. H. Wolf were given the chapter degree in Masonry.

At Thoreau there are over seventy-five men working at the grading of the road on which the timber of the American Lumber company will be hauled. Mr. Horabin is doing good business these days.

The Weaver mine, last month, produced 40,000 tons of coal. This is the record breaker of any mine in New Mexico. Some ten years ago all the mines of New Mexico put together would not have reached this figure.

L. L. Henry moved his family to Bluewater Tuesday, where they will make their future home. While we are loth to lose this estimable family from Gallup, we hope Mr. Henry will realize a fortune out of his new business venture at Bluewater.

The curing plants put in at Holbrook, Pinta and other places along the railroad line for the purpose of eliminating the alkali from the water used in locomotives, are not proving a great success. Engineers do not think much of the curing process.

DEMING.

From the Headlight.

Those of our citizens who are now at the celebrated Faywood hot springs are A. J. Clark and wife, J. H. Tracy, wife and daughter, Jack, P. R. Smith, Jr., Louis I. Marshall, Mr. and Mrs. A. J. Gleason. Quite a colony of good people from Deming, and they, no doubt, are having an enjoyable time. There is no better place in the west to get away to for a few days' or weeks' rest and enjoyment than this celebrated health resort.

A. D. Chenoworth, of St. Louis, who is a competent druggist, has accepted a position with J. P. Byron & Son, of this city. Mr. Chenoworth comes to our city highly recommended and we bespeak for him the attention due a stranger.

Mr. and Mrs. George R. Weed, nephew and niece of Richard and Thomas Hudson, are now journeying this way from their home in New York City and will arrive here in a few days. Mr. and Mrs. Weed will remain in our town for some time visiting their relatives.

SAN MARCIAL.

From the Bee.

Romaldo Joola, a respected resident of the Valverde settlement, is dead of pneumonia.

The saloon at Rosedale has closed its doors for the present, owing to the lack of industrial activity in the pretty little camp.

J. J. Padon, of Palestine, Texas, is in San Marcial on a visit to his sister, Mrs. J. A. McCallum. He may decide to remain in the town permanently.

Word has been received here that Charles Featherstone was married in Texas last Thursday, and after a few days in El Paso will take up his residence with his bride at Rosedale.

A petition was circulated at San Marcial asking for the appointment of Wm. C. Reid, assistant United States attorney, as judge of the Fifth judicial district, in case of a vacancy in that office.

A. B. Baca, who is always watchful for the interests of his friends, discovered about 150 head of H. O. Bursum's sheep going it alone last week over the river. He wired Mr. Bursum where his sheep were to be found, and it was not very long before the proper herders had them in charge.

SOCORRO.

From the Chieftain.

Mrs. Ada M. Morley, of Datil, was a visitor in the city.

J. A. Beal, the hustling and successful agent of the Albuquerque Citizen,

spent most of the week in the city in the interest of the paper he represents.

Dr. C. G. Duncan was called to Magdalena to visit Mrs. Fred Thomas, who is reported seriously ill.

Mrs. Joseph Price returned from a visit of several days with relatives and friends in Albuquerque.

Mr. and Mrs. C. B. Allaire, of San Antonio, will soon depart for a visit in eastern cities, including New York and Philadelphia. The visit will be an extended one.

Attorney James A. Fitch is suffering from another attack of illness. This attack is not so severe as the former, and it is hoped that Mr. Fitch will soon be able to attend to business again.

It is rumored that a beet sugar factory will at once be built between San Marcial and San Antonio and that 25,000 acres of land will be planted to beets in that section.

It is understood that the expert accountants that have been engaged for some time on the books of ex-Treasurer Abran Aboya will render their report to the county commissioners next week.

Capt. C. H. Kirkpatrick, of Mogollon, writes that Mrs. H. O. Bursum is visiting her sister, Mrs. Howard, of that place. The captain says, also, that F. X. Eberle, who owns valuable mining property in the Mogollon district, is there with a mining expert and that a big deal is talked of.

C. H. Elmendorf, one of the principal stockholders in the American Valley company, came up from San Antonio with the following persons as his guests: Mr. and Mrs. C. B. Allaire and son, Pierre, Mr. and Mrs. Hazard and J. L. Knapp. The American Valley company is now making extensive improvements on the Bosque del Apache grant with a view to bringing a large area of the tract under irrigation. Mr. Elmendorf will soon go east on a business trip.

SANTA FE.

From the New Mexican.

Mrs. Carl Metzger, accompanied by her mother, Mrs. Neff, left for Altoona, Pa., where they will remain during the summer.

The publication of the paper called The Santa Fe Capital has been suspended indefinitely by its publisher, W. M. Berger, who is ill and unable to attend to business.

Santa Fe valley horticulturists report the outlook for a large crop of fine fruit this year as very good. The unusually cold spring has retarded blossoms and buds, and hence there is very little danger of the fruit being injured by late frosts.

Charles V. Safford, traveling auditor of the territory of New Mexico, will leave for the month on an official trip. He will visit the counties of Taos, Rio Arriba and Colfax while away and may go to San Juan and other counties. He hopes to get back to Santa Fe in time for the visit of President Roosevelt to the city on May 5.

A number of children who were confirmed at the cathedral Sunday were entertained by Mrs. R. M. Foree and daughter, Miss Mary, in the afternoon in honor of the occasion. Miss Mary was a member of the confirmation class.

Thomas Erwin, who attempted suicide last Saturday by shooting himself in the back of the head, is doing as well as could be expected under the circumstances and unless unexpected complications develop he will recover.

Two very handsome new book cases have been placed in the office of Col. J. Frank Chaves, superintendent of public instruction of the territory, in the capitol building. The office library is now being properly arranged and placed in the cases.

Mrs. Stefano Brito de Nieto, aged 59 years, widow of the late Guadalupe Nieto, died at her home in this city Friday night and was buried Sunday morning. The funeral was held at the cathedral at 8 o'clock, interment following at Rosario cemetery.

S. Ortiz, of Pojoaque, was in the city recently and brought with him the skin of a mountain lion recently killed near the Santa Fe Lumber company's saw mill. It measured eight feet from tip to tip, and was shot by Ortiz while attacking cattle belonging to him. He sold it to J. S. Candelario.

Monday afternoon Sheriff Jose R. Lucero, of Dona Ana county, delivered at the territorial penitentiary the following prisoners who were convicted and sentenced at the term of district court which closed in that county on Saturday: Jose Gomez, 19 years old, to serve one year for larceny of a horse; Genaro Molina, 25 years old, to serve one year for larceny of a horse.

Harvey & Eastgate, the contractors, are pushing work on the addition of the hospital at the United States In-

dian industrial school. The first story is up and they expect to complete the second story during the coming week. The four Ellis cottages on Chapelle street, for which they have the contract, will be completed and ready for occupancy by the first of the month. Two of these cottages are already rented.

Nuptial mass was celebrated at the cathedral at 6 o'clock Monday morning at which three couples were married. The ceremony was performed by the vicar general, Very Rev. Antonio Fourchegu. The contracting parties were: Gaspar Brito and Miss Valentina Medrena, both of Santa Fe; Patricio Jimenez and Miss Maria Sals, both of Rio Tesque; Francisco Martinez, of Chimayo, and Miss Maria Rivera, of Arroyo Hondo. After the ceremony the happy couples departed for their respective homes rejoicing. A triple wedding is rather an unusual occurrence, but owing to the early hour of this wedding comparatively few people witnessed the ceremony.

LAS VEGAS.

From the Optic.

Preparations are under way for the cavalry dance at the hot springs on the 24th inst., that the boys say will surpass anything yet given.

Dr. Martin, who has been stopping in the city for some six months past, for the benefit of his health, left for Calgary, province of Alberta, Canada, where he will practice his profession.

Miss Eugene Lehman, of Pueblo, Colo., who is visiting in the city, is a sister of Eugene Lehman, who has the honor of winning the first Rhodes scholarship given in the United States and the third in the world.

Invitations are being received in the city by numerous friends of the young couple, to the marriage of Robert Jacob Gross, of this city, to Miss Adeline Anderson, of St. Louis. The date is set for the 29th inst.

The normal band has elected the following officers: President and business manager, Prof. J. G. McNary; vice president, Myron Benedict; secretary and treasurer, Edgar Larson; leader, Ed Lewis; assistant leader, James Hanson; librarian, Eldon Tuttle; assistant librarian, Karl Lehmann.

Many Las Vegas who listened to the eloquent words of Field Secretary Rev. George Eberman, of the Christian Endeavor society of the world, who addressed the Christian Endeavor convention here last winter, will regret very much to hear of the death of the gentleman. He succumbed to typhoid fever this week.

From the Record.

Gussie Rothgeb, while playing ball yesterday, had the misfortune to fall and dislocate his shoulder. The injury while painful, is not at all dangerous and the young man was resting easily today.

At a very enthusiastic meeting of the Elks last night a handsome past exalted ruler emblem was presented to W. B. Bunker. A. O. Larranza made the presentation speech and it was declared by all present to be one of the finest oratorical efforts ever heard within the lodge room.

At a meeting of the executive committee of the board of trade last night, the reduction plant proposition was modified so as to offer Standish and Matt \$1,000 in cash, instead of \$800, and a site for the Hixivating plant, and it is very probable that the proposition as now made will be accepted and the work of establishing a copper plant here pushed through to completion at an early date.

Josefita, the 4-year-old daughter of Tranquillino Pacheco, died at Salano of diphtheria.

Fred Higgins, sheriff of Chavez county, came up with a patient for the insane asylum and returned to his native hearth.

Mildred, the beloved 8-months-old daughter of J. V. Biard, died, and the grief stricken father left for their old home at Paris, Texas, where the interment will take place.

Webster Ballinger, a well known newspaper man and attorney of Washington, D. C., who has been in Las Vegas since last October, left for Denver, where he expects to locate and open offices. He will retain his offices in Washington.

Miss Harriet Lehman, of Pueblo, Colo.; Mrs. William Renshaw, of Idaho Springs, Colo.; Miss Holman and Rabbi Lefkowitz, of this city, were guests of Charles Hied, who entertained them at the summer home of Max Nordhaus at Trout Springs. On the way up an addition was made to the party at the Montezuma hotel. All experienced a delightful day.

G. A. Gosser, of the Enterprise Cigar store, has again shown his enterprise. This time it takes the form of a long Havana filler, 5-cent cigar, labeled "Clerk's Union Local 812," which is the number of the clerk's union of this city. He manufacturers the cigar here with the aid of union labor and puts it on the market as a first class smoke for all union men. It will no doubt soon become a popular brand.

TOWN OF MOUNTAINAIR.

Special Correspondence.

Mountainair, N. M., April 20.—Mountainair, the new town on the Santa Fe cut off, now has a postoffice which is already doing a good business. It is a great convenience to the grading contractors along the line, as well as the citizens of the new metropolis. Mrs. George V. Hanson is postmistress.

There are now twelve grading camps scattered along the line between Belen and Willard, and the work is progressing fast. It is the intention to throw up a grade at first just wide enough to support a temporary track and have the steam shovels widen the grade later. The steam shovels will not begin work before August or possibly later, and work on the big cut at the summit will not begin until that time.

Eggleston & Mathews, the first contractors east of Mountainair, received the balance of their outfit the other day and they will soon have the first four miles of their contract done. They will probably do the sidetrack grading at Mountainair. There will be three sidetracks, each 3,200 feet long.

The water problem has been a source of great inconvenience and expense to most of the contractors, but many of them have sunk wells of their own. C. H. Sharp, camped about three miles west of the summit, had to dig over 100 feet deep, but he got good water. The Abo Land company has secured a drill and will sink a well for Eggleston & Mathews.

Mulligan Brothers, who had a big grading contract on the Santa Fe Central, now have a camp on the cut off.

The Santa Fe is now surveying a line paralleling the Rock Island into Kansas intersecting the former's main line west at Syracuse. This looks as if there might be a little fun ahead. Chief Field Engineer Jones has the work in charge and he sent a force of engineers east of the line the other day to begin work at Llano, the junction of the two roads.

W. R. Green has moved his family from Eastview to Mountainair and will probably put up a blacksmith shop.

Among the new settlers lately located are three brothers named Bird from the Capitan country, who have leased the Chaves saw mill. They are not only good saw mill men but experienced orchardists as well, and will at once plant part of their claims to fruit trees. Experience has demonstrated that this is a good apple country and the Messrs. Bird will be gladly welcomed an account of their experience along this line. There are apple trees at Manzano which were bearing fruit when the Mexicans first settled here nearly 100 years ago and no one knows how old they are. They receive no care or attention, yet seem to be enjoying good health with every prospect of living to a ripe old age. On account of the significance of the name a great many citizens would have preferred the name of Manzano instead of Torrance for the new country.

Corbett & Hanlon now have their office in the postoffice building. Since the warm weather came they have been kept pretty busy locating settlers and surveying claims.

B. B. Spencer and Eugenio Romero will both begin delivering ties at Mountainair in a short time. They both have big contracts and between them will clean out the tie timber in the Manzano mountains.

Col. E. C. Manning expects his wife from Winfield, Kan., about May 1, and has already commenced a way of extermination against dust and cobwebs in anticipation of her coming.

Mr. and Mrs. John Whitson left Thursday for Denver to reside. Mr. Whitson was with the Baxter engineering corps and both he and his wife made many friends while residents of Mountainair.

F. J. Smith has established the first incubator in Mountainair and now counts his eggs before they make chickens. Mr. Smith is a newspaper man and a philosopher, whose theory of life agrees with the present social conditions existing in Mountainair. His long experience in newspaper work has afforded him opportunities to look at life from many different viewpoints, and he seeks here in a new world what the busy marts of civilization cannot give him, close contact with those restless, energetic people whose fortune it has ever been to pave and make easy the way for the advancing hordes of civilization. Mr. Smith has long coveted this opportunity and if the experience proves too hard he may write a book to get even. By the way, four of the pioneers of Mountainair are, or rather were, narrow chested pencil pushers. They keep a can of printer's ink constantly on hand, which affords the microbe a place of refuge in lieu of the office towel and the seductive influence of the old friend of former days may in time overcome the allurements of the

present free and easy life out here. If it does, something starting in the literary world will result. Keep your eye on Mountainair as the future literary hub of New Mexico.

The fact that the old Antonio Sandoval grant, now rejected, is unsurveyed, is retarding progress in this valley. There are perhaps 200 families living on this old grant, many of them having lived there for years, and all of them anxious to secure titles to their homes. Many of the new settlers would prefer localities on this land, but hesitate on account of the uncertainty as to the time the land will be subject to entry. Last December a mass meeting of those interested was held at Manzano and this meeting formulated a petition to the secretary of the interior, asking that the land be surveyed at once without the tedious formality of asking for the survey of one township, at a time. Col. J. Frank Chaves had the resolutions typewritten and sent a copy to Washington, but nothing has been heard from it. The immediate survey of all this unsurveyed land means much to the prosperity of the new country. There is just a faint suspicion in the minds of some that certain influences are at work secretly to prevent the settlers getting a survey, for selfish purposes. Investigations now under way will determine the correctness of this suspicion and there may be more anon.

SILVER CITY.

From the Independent.

Miss Fannie Fleming is ill with an attack of la grippe.

Mrs. Jennie Brown, Miss Fe Waters, Mrs. L. B. Morrill and C. B. Morrill spent a day in the Burros, taking a short vacation.

An officers' infirmary will be the first building erected at Fort Bayard. This is to cost no less than \$50,000 and will be complete in every way.

Mrs. Harry Dillon, who has been in El Paso for several weeks for her health, has returned. Mrs. Dillon has now thoroughly recovered from her illness.

T. F. Farnsworth returned from Hot Springs, Ark., where he has been for some time past undergoing treatment for rheumatic troubles. He is much improved as a result of the trip.

The severe winds of the past few days have been causing a good deal of damage. Telegraph wires have been down two or three days in succession, and trains have been delayed in consequence.

The Silver City base ball team expects soon to be thoroughly fitted out with new suits, bats and balls. The boys have begun to take an interest now and are showing themselves thoroughly in earnest.

A. W. Pollard, who made such a splendid legislative reputation and did so much good work for Luna county, was in the city Friday. Mr. Pollard was one of the most conservative legislators, and nothing but praise is heard in regard to his work last session.

A choir has been organized at the Asbury Methodist church. A new soprano has been secured in Mrs. Grimes of Flint, Mich. The choir has always boasted of an excellent contralto in Mrs. M. W. Porterfield, who has consented to keep her position. Good music can be expected at this church from now on.

HACHITA.

From the Silver City Independent.

Mr. Mallins of Silver City is here looking over "Copper Dick" and other mining properties.

A large brick engine room and pump house is under way and will be finished about the 25th inst.

Will Foster, Luna county's latest sheriff, was shaking hands with his friends, both old and new.

J. C. Maher, El Paso & Southwestern yardmaster at Deming, came in and will spend a week at the Daisy mine.

W. M. Hays, of restaurant fame, left for Silver City. A circular has been sent ahead—a word to the wise, etc.

Bayles Baker of Black Mountain drove in to see the sights Thursday. Mr. Baker says the outlook for grass on this range was never better.

Anderson and Weems still continue to ship ore at the rate of twenty-two cars per week. Teamsters say that the supply seems to be inexhaustible.

Cattle shipping has commenced with a rush. The Alamo Huevo outfit came in with a trainload of cattle, and the Hachetas are expected the latter part of next week.

J. B. Taylor and family left for his home in Cincinnati, O. Development work on his property will be continued this summer under the supervision of Harry Armstrong.

GALLUP.

From the Republican.

The Gallup ball team will go to Fort Wingate Sunday if the weather permits.

Those who wish to see the president can make the trip to Albuquerque on May 5 for one fare for the round trip.

the original Levi Strauss & Co's Copper-riveted Overalls

A. B. Commons, one of the teachers of Kean's Canyon, fell from a cottonwood tree and broke his arm one day last week.

On account of sickness L. L. Henry did not move his family to Bluewater, but they expect to leave about the first of May.

Paul Canazera, a coal miner at Weaver mine, had his leg broken this morning by a fall of roof rock. He was placed in the C. F. & I. hospital at Gibson.

There is some talk of organizing a base ball league in McKinley county, including the teams of Clarkville, Gibson, Fort Wingate and two or three teams in Gallup.

Wm. Flinn, of Jerome, Ariz., who landed here on the 10th with a mild case of smallpox, has recovered and was turned loose by the town board yesterday.

L. Bajetto, who had the misfortune to receive a broken leg last Friday at Clarkville by a fall of coal, was taken to the hospital at Albuquerque this morning, where he will be able to receive better care. The Italian society, of which he was a member, have interested themselves in his case, and A. Cajoni, president of the society, and A. Bajetto, his cousin, accompanied the injured man to Albuquerque. Mr. Bajetto is a married man, having a wife and three small children.

ALGODONES NEWS.

Special Correspondence.

Algodones, N. M., April 22.—Warm weather prevails here at present. All crops are looking well and plenty of water in the river.

The Jemez river is running bank full.

The smelter company here is doing a good deal of building, and are now burning a kiln of brick which contains one hundred thousand brick. They are expecting their machinery here in a few days, when business will commence in earnest and we will soon have quite a town here.

New houses are being built right along and everybody is busy who wants work.

Railroad lines have been surveyed from here to the coal mines and to Bland.

Work on the oil well is being pushed as fast as possible. Good news is reported from the mines in the Sandia mountains east of here and some good prospects are showing up.

Don Pedro Perea paid a short visit here yesterday and returned to Bernalillo.

O. P. Hovey, the new county clerk has bought the Sandoval property here and is making extensive repairs in the buildings.

The assessor is here today making assessments on the property of our citizens.

The farmers are all busy irrigating their crops.

SANTA FE.

From the New Mexican.

Thomas Erwin, the man who shot himself in the back of the head Monday afternoon, is doing nicely at St. Vincent's hospital.

Mrs. McDonald, of Ohio, Ill., arrived in the city for a visit with her son, Leo McDonald, who is sojourning at St. Vincent's hospital for the benefit of his health. He is doing nicely in this climate.

His friends will be pleased to learn that C. W. Dudrow, who went to Ojo Caliente for his health a few weeks ago and became very sick the first of the week, was better yesterday. Mrs. Dudrow is at his bedside and as soon as he is able to make the trip will bring him home.

District court for the county of Rio Arriba will meet in Tierra Amarilla on Monday next. The court officials will leave for that place tomorrow. Alphus Hampe, indicted for the murder of Epitacio Gallegos, will be also taken there by the sheriff's officers of this county, as his trial is to take place in that court on a change of venue from Santa Fe county.

The remains of Francisco Griego, who died Wednesday afternoon at St. Vincent's hospital from injuries sustained the same day in the mines of the Santa Fe Coal company, were buried this morning, his brother, Louis Griego, of El Paso, being unable to come to this city for the obsequies account of illness. The funeral was held at Guadalupe church.

interment being made in Guadalupe cemetery.

A new base ball team was organized here last night. It will be managed by Matias Ortiz and captained by Y. J. Jumb. The Santa Fe Cyclones is the name of the new aggregation and following are the members of the team in addition to the captain: R. Romero, M. Castillo, D. Crespin, G. Trujillo, E. Tafoya, E. Ortiz, Pablo Blas, J. Howland and H. Borrego.

MORGAN MYSTERY.

The Morgan problem will be solved, it was the "Hearst Mystery," only in fewer words. J. Pierpont Morgan, the money king of Wall street, did not pass through Albuquerque yesterday, neither was it his family.

The Democrat reporter must have leaned up against the stove and hit the pipe, and the idea that J. Pierpont Morgan, the world's greatest financier, would be a prize to all the reporters at the towns along the route, whether or not if they were aware of his coming makes a "mystery solver" laugh and laugh. J. Pierpont Morgan has not been interviewed by a reporter for the last twelve years. Even the accomplished and brainy newspaper men of New York have been denied the privilege. If one of Albuquerque's bright newspaper men had advanced within twenty feet of the "hunch of money," one of his body guards would have caused a slump in the market for newspaper men. Then those intimately acquainted with the Morgan family affairs, would be shocked to learn that Morgan was traveling with his family, since he has not spoken to them for fifteen years. Then again, after you, the Topeka Journal is mistaken for the first time, in stating that Morgan will pass through there today.

The elegant Pullman private car "Olympia," on No. 2, was occupied by four elderly ladies, surely not all were wives or daughters of the celebrated financier. Here is the truth of the Morgan mystery. The four ladies are prominently connected with the Four Hundred and were en route from California to Chicago, where they will be joined by Mrs. Anna Hill, who owns the private car Olympia. The Morgan mysteries have caused loss of money and loss of valuable grey matter, and it is time that the Duke City place strong barriers against being victimized. True, no noticeable damage was done this time, yet such pipe dreams are injurious to a vivid imagination.

Morgan Was Mad.

New York, April 25.—"I would be willing to give \$500 to anyone who smashes any camera that holds a snapshot of me," exclaimed J. Pierpont Morgan after he had gone aboard the White Star liner Cedric yesterday by way of a second cabin gang plank in an effort to evade a score of photographers.

Default Against Packers.

Chicago, April 22.—A formal order of default was entered by Judge Grosscup today against the packers who have failed to answer the government's anti-trust bill. The final order of injunction was not entered against the defendants, owing to the absence of District Attorney Bethea from the city. It is expected that the packers will appeal when the final order is entered.

Death at Sanitarium.

Angel Garcia, aged 33 years, died at the sanitarium yesterday morning after a long illness of tuberculosis. Deceased was a member of the Cigar makers' union, and worked at the trade for a number of years. A mother and brother live in El Paso. Funeral services will be held from the undertaking parlors of O. W. Strong & Sons tomorrow morning at 10 o'clock. Interment at Santa Barbara cemetery.

Gophers will Dine in New.

New York, April 23.—The Smelting Society of New York has visited his for its annual banquet here until last night at the Waldorf. The society numbers is manager of the many men in copper mine. Mrs. Christine professor remain in Albuquerque several days.

Daily Citizen, per year.....\$6.00
Weekly Citizen, per year.....2.00

MAY BE MUZZLED.

The dispatches state that Secretary Root of the U. S. department has taken prompt action in the matter of the published interview of General Frank D. Baldwin, commander of the department of Colorado, in which that officer spoke of the negro and Filipinos as if they were no better than dogs. The objectionable language was published under a Denver date on the day it was supposed to have been uttered. The secretary has taken no action further than to address a note to General Baldwin asking for an explanation. It is needless to say that provided the quoted language is found to be true there will be a new man in command of the department of Colorado immediately. This is a republican administration and it is working for the best interests of the entire people regardless of race or color.

POSITION OF MANUFACTURERS.

The resolution adopted by the National Association of Manufacturers upon the relation of employers and employees form a distinct definition of the position which the leading manufacturers of the United States take in regard to this highly important matter.

They declare that employees have a right to organize unions, and that with due regard to contracts, they have a right to leave the service of their employers. They also declare, however, that corresponding rights belong to the employers of labor, that no discrimination should be made against a workman because he is not a member of a union, and that all men should be free to work whenever they have an opportunity, without reference from other men of the same trade.

Boycotts and black lists are both condemned, and employers and employees are advised to settle their differences by conference and agreement instead of by lockouts and strikes.

THE ICE WATER HABIT.

The American people have the unique and surprising habit of drinking ice water.

The time selected for this extraordinary custom is still more surprising. It is drunk at meals! Think of this thing. The American comes to his meal with his stomach, or what is left of it, to work on the food he eats for life and strength. The stomach can only work at a temperature of 98 degrees F. The body forces must be used to keep up this temperature. In the midst of this stomach work the American pours into it gills, pints, and even quarts of ice water at a temperature of approximately 32 degrees F. All stomach work is thereby arrested until this frost temperature is overcome, and the body temperature of 98 degrees re-established. Think of such stupid, unnecessary waste of force!

The American people are alone in this bad habit. No wonder they are the prize dunces of the world.

INSURING AGAINST BAD DEBTS.

Several recent failures in the business world have again called attention to the possibility of minimizing the effect of such failures by means of credit insurance. Almost every kind of catastrophe is now shorn of its full powers of destruction by means of insurance of one kind or another. Why not deal with the catastrophe of insolvency in the same way?

The first attempt to use credit insurance in this way was made in England and in France about 200 years ago. Perhaps because it lacked the information which is now furnished by mercantile agencies the credit insurance companies of centuries before last did not succeed. Of late years the credit insurance idea has been revived and has met with better luck. Its application to ordinary losses from ordinary insolvency and to the extraordinary conditions resulting from extraordinary failures cannot but be of interest both to the professor of political economy and to the practical business man.

HOLLAND ANTI-STRIKE LAW.

Holland has passed an interesting anti-strike law. During the recent strike on the state railroad, traffic was so seriously impeded that the legislators of the little kingdom felt obliged to protect the public against any repetition of the trouble.

The new law provides for a railroad brigade of the national militia, to patrol the roads during strikes and use force if necessary to prevent interference with traffic. A royal commission is formed to force arbitration upon railroad employees who threaten strikes. Heavy punishment is provided for instigators of strikes. Finally, employees are forbidden to quit work without permission.

The new law has awakened wide dissatisfaction, and a movement is on foot to test its constitutionality. In a country where the liberties of the people are as great as in Holland, such an attempt is not likely to stand very long.

In his account of the territorial springs, the author states that the springs of the Colorado are of great value.

The author states that the springs of the Colorado are of great value. The author states that the springs of the Colorado are of great value.

per gallon at the time of the last report was about 13.6 cents, compared with 12.5 cents in 1900. Including the estimated figures for the mineral springs making no report to the government, the value of the spring water production annually is figured at \$7,586,962. The production for 1901, for instance, exceeds that of 1900 by \$1,341,709. European waters to the value of \$744,392, representing 2,567,323 gallons, are annually imported to this country. In Colorado, New Mexico, Wyoming and Utah there are hundreds of mineral springs.

TEXAS HOLIDAY.

This is the anniversary of the battle of San Jacinto, when the Texans defeated General Santa Anna and secured the independence of the Texan republic.

The battle of San Jacinto, which the day commemorates, was fought on the banks of the San Jacinto river between the Texas troops under Sam Houston and the Mexican troops under Santa Anna, seven miles from the present city of Houston, on April 21, 1836. There were 1,600 Mexican troops and 783 Americans and the Mexicans were completely defeated and the dictator, Santa Anna, captured. He surrendered under an immense tree to Sam Houston, who was ill and received the sword of the Mexican dictator as he lay on a pallet.

Today is also the anniversary of the declaration of war against Spain by the United States in 1898.

FOUND DEAD IN CABOOSE.

The Sad Ending of Brakeman Myron J. German.

The dead body of Myron J. German, a Santa Fe Pacific brakeman, was found about 4:30 o'clock this morning in Conductor F. A. Murphy's caboose by Trainmen Callier George Powers.

German was traveling with Murphy's crew, which had been called to go west this morning. The trainmen called, Powers, had gone to German's home, but had been unable to find him at home or in any of the saloons. The caller then went to the caboose, which had been attached to the train made up to go west. He had no sooner opened the door than he knew something was wrong from the terrible odor that came from the car. Investigating farther, he discovered the body of the brakeman on one of the bunks. The face of the brakeman, which had already begun to turn was an unpleasant one to look upon. Officer Stewart was found and notified of the mysterious discovery. A hurry-up call was sent to O. W. Strong & Sons, who took the remains to their undertaking establishment. It is not known how long German had been dead, but it is thought, judging from the reports of when he was last seen, that he had been dead since Saturday night.

Brakeman German was called with the rest of the crew to go out Saturday morning, but the entire crew were released from the trip Saturday morning.

German, on his way home, dropped in at Graham Bros., where he played faro, shot craps and whiled away the hours indulging in the pleasures furnished by the saloons for those who frequent them. He was last seen on the streets about 10 o'clock Saturday morning with his lunch basket in his hand going toward the yards.

Saturday afternoon the other brakeman of the crew entered the car to clean up some of the paraphernalia of the car and saw German lying on the bunk sleeping. He didn't pay any attention to the man except that he was breathing rather hard, but only supposed he was sleeping off a jag. The brakeman thought no more of the matter until he left the car, which was about the middle of the afternoon.

German was seen by no one after this, and if he died Saturday night, about thirty-six hours intervened before he was discovered.

Many of his friends, especially those with whom he was intimately acquainted, called at the undertaking parlors, where it was thought a coroner's inquest would be held. But the inquest was postponed until tomorrow morning.

City Physician Elder examined the remains and stated that there were no marks of violence that would substantiate a suicide theory. It is the general opinion that the death was caused by alcoholic poisoning, as he was drinking heavily Saturday morning.

German's home was originally in Canton, Ohio, but he came to Albuquerque from Garret, Ind., where he was in the railroad service. He gave up his position on the road some time ago, and was running a game at the Cabinet saloon until about two months ago, when he went into the railroad service again.

Besides a mourning wife in this city he leaves a brother and sister in Canton, Ohio, who have been wired, and asked if it is their desire to have the remains shipped to his early eastern home.

German was divorced from his wife on November 1 of last year, but a reconciliation was effected and they were remarried on November 6.

His sudden death was a shock to his intimate friends, who have held him in highest respect.

It is not known for certain, but it is thought an inquest will be held tomorrow morning.

Deceased was a member of the Eagles lodge and the Brotherhood of Railway Trainmen.

Until his people are heard from no arrangements will be made regarding his burial.

Later—it is understood this afternoon that the undertakers have inquired of the coroner and will prepare the remains for shipment to Eldon, Iowa.

EDITORIAL NOTES.

It is the invested dollar that builds up cities.

The city of Santa Fe is promised free mail delivery about September 1. There are 3,536 persons in the United States who are one hundred years old.

Sand: To forgive a fault in another is more sublime than to be faultless one's self.

One pound of washed wool produces on an average a yard of cloth thirty-six inches wide.

There are 51,538 divorced people in the United States, of whom 32,205 are women, and 18,334 are men.

A new word has been coined by the Raton Gazette. It is "petroleumologist," a man who locates oil and never makes a mistake.

The mint at Philadelphia turned out more than 70,000,000 bright new cents last year, one piece for every man, woman and child in the United States.

The state experimental station of the University of Minnesota, has succeeded, after long and patient efforts, in growing potatoes and tomatoes on the same vine.

Infant mortality is something frightful. We can hardly realize that of all the children born in civilized countries, nearly one-fourth die before they reach one year.

The mining and fuel industries are now carrying every ounce of wage scale the industries can stand up under. The merchants and business interests know this to be true.

Starting in a small way fifteen years ago Chicago's municipal electric light plant, now the largest in the world, has according to its current report, paid for itself and has \$135,000 to its credit.

Delegate Wilson, of Arizona, says that he will oppose the uniting of Arizona and New Mexico into one state. This was to be expected. Mr. Wilson is a democrat, and naturally opposed to things.

The cattle raisers will all have money on and after the May delivery. The ranges are fine and the cattle in good shape, and buyers are paying \$15, \$18 and \$20 a head for one, two and three year olds.

The output of the Lake Superior copper district last month exceeded 17,000,000 pounds of refined copper, the largest amount produced in any single month since the metal was first mined in that section. The production of the lake district is increasing gradually.

The new Minnesota capital building, which is soon to be completed at a cost of \$4,500,000, will be one of the most stupendous public buildings in the world. Constructed entirely of Georgia marble, it is 433 feet long, 233 feet wide at its center, and 220 feet high from the basement to the top of the dome.

As a railroad tourist orator, Roosevelt cannot equal McKinley and falls far behind Harrison. It is probable that Harrison was the most effective of hand talkers who ever occupied the White House.

In 1880 the total number of insurance policies in force in the United States was 916,364, with a valuation of \$1,584,717,001. At the end of the year 1901 the number had increased to 16,030,724, representing a value of \$9,593,846,948.

The death of a woman at Monmouth, Ill., resulting from insanity induced by hypnotism, should serve as a warning to the foolish ones who, from mere curiosity, dabble with forces of which they have no conception. Leave the occult to the learned—at least do not experiment on your friends.

The postoffice department has decided that torn postage stamps cannot be used.

In 1850 the factory wage earners in the United States numbered 8,385. In 1902 the number had increased to 500,000.

El Paso bank deposits increased \$1,302,695.25 in two years, and the assets \$1,825,527.22, a gain of about 66 per cent.

The west side of the city of Las Vegas is making a great mistake objecting to the consolidation of the post-offices of the city.

The Goo-Goo party of this city was too good to live in this cold, cruel world and the cactus is already growing upon its early grave.

Peace makes more conquests than war. The one encourages the harmonious efforts of all, the other retards every participant beyond measure.

Nicaragua troops are being praised for traveling 300 miles in eight days, through the swamps, but the dispatch neglects to explain who was chasing them.

Chicago has her first socialist alderman. One of his principles is "Buy less beer and more books," and no one has been able to explain satisfactorily how he broke in.

Binger Hermann, ex-commissioner of the general land office, has been nominated for congress from Oregon to fill the vacancy caused by the death of one of Oregon's representatives.

Delaware river ship yards are reported as having contracts for \$40,000,000 worth of ships. Fifty-nine vessels are being built in these yards, seven of them warships, costing \$22,000,000.

The people of New Mexico are not enthusiastic about being annexed to Arizona. The debt of that territory is three times greater than the debt of New Mexico, and its resources and population is less than half that of this territory.

The Harrison monument committee of Indianapolis has given up the idea of erecting a monument in that city to the memory of the late president. The original plan was to raise \$100,000 for that purpose. In two years less than \$45,000 has been subscribed.

The Moros are the only natives of

To expel the poison that has accumulated in the system, during the winter you ought to take the best of the Hostetter's Stomach Bitters. It also cures Stomach, Liver, Bowel and Kidney Disorders. Try it and see for yourself.

the Philippines who have been asking for any war with the United States recently, and they are getting more of it than they want. The latest victory for the American troops under Captain Pershing will probably end the campaign in that quarter of the islands.

The sugar trust has raised the price of sugar again and all American citizens must increase their tribute to the great monopoly. The rise is not great this time—only 5 cents the hundred pounds—but 5 cents per 100 pounds is \$1.00 per ton, and applied to our sugar consumption for a year is about \$2,000,000, which is a neat little sum for the trust to take in by merely saying that it wants it.

The majority of the republicans in this city object to the reappointment of John H. Stingle to the office of city attorney.

For good and sufficient reasons the labor organizations of this city oppose the reappointment of John H. Stingle to the position of city attorney.

The central labor union of Washington has preferred charges against certain chiefs of the postoffice department and will become a party to the inquiry now in progress.

Scientists tell us that dust particles in the atmosphere, by furnishing a nucleus for the moisture to condense on, cause rain. They account for the unusually heavy rains in the states, during the past months, by the presence in the air of dust particles ejected from the volcanoes that have been active the past year.

The Goebel murder case will go down in history as either the greatest conspiracy or the greatest mystery of the age. The Kentucky democrats say that the republicans conspired to commit murder, while the republicans assert that the conspiracy is on the part of the democrats who are trying to convict innocent men.

Years ago Robert Bonner made enough money out of the New York Ledger and its gory novels to be able to keep the fastest horses in the country. After his death his sons made it a monthly and transferred it to a stock company and since then it has been unable to stand the competition of modern magazines with the result that it is bankrupt.

Spain is one country which can point to defeat in war as a national blessing. Spanish bonds are worth three times what they were in 1-8-8. In that year they were selling below 30—a Spanish bond "looked like 30 cents" literally. But having got rid of her expensive colonies, Spain finds her credit restored, and her bonds selling in the world's markets above 90.

The total debt of Arizona July 1, 1902, was \$2,729,839.02. This included a floating debt of \$119,839.02. Since then the bonded debt has been increased by bonds in the amount of \$318,000 to cover the indebtedness of Pima county for the narrow gauge railroad bonds, and in the amount of \$29,000 to cover the remainder of the railroad bond indebtedness of Yavapai county.

No town ever grew to proportions unless it kept something going on. Senator Stone, of Missouri, hates the newspapers because they have closely connected him with the alum legislation corruption of that state.

The director of the geological survey, Chas. D. Walcott, is investigating the Tonto Basin, Arizona, with a view to recommending a storage reservoir for irrigation purposes.

The success of the city administration is largely due to the faithful work of the several committees of the council, principally the chairmen of the street and police committees.

If the people of the city must pay for watering the trees and the sprinkling in front of their property, why should they help to pay that bonus of \$5,000 a year to the water company?

In the month of August, 1902, there were 1,142 gold producing mines in the Republic of Mexico, 3,426 gold and silver producing, 180 producing gold and copper and 1,076 gold and silver, lead and copper mixed.

The republican administration of this city deserves the commendation of the people. During the past year Mayor Myers and the city council carefully managed the city finances, paid all debts, and have a surplus of about \$5,000 in the treasury.

Mr. C. F. Blanke, the owner of the log cabin built near St. Louis by Gen. U. S. Grant in 1854, writes that he has decided "to allow the cabin to remain on its site in Forest park after the fair is over, for the benefit of any visitors of this great city, so justly famed for its numerous historic relics, which are identified with some of the greatest events in history and with some of the nation's greatest men."

The Roswell Record says that it was Shakespeare who said that it was easier to teach twenty what were good to be done than to be one of the twenty of your own teaching. So there are many who are always able to tell public officials just what should be done, but if these persons were in the places of these public officials the chances would be that the public service would not be benefitted by the change.

INDIAN SCHOOL NOTES.

Among the improvements noticed at the school during the past week are several new flower beds marked out and planted, also the place being prepared for a new blue grass lawn between the boys' and girls' home. We also notice a new coal house and some new sidewalk between the clerks' and carpenters' cottages. This greatly adds to the appearance of their back yards, as well as to the comfort of the occupants.

The school room teachers are also having their ground prepared, where they will take their pupils out and teach them the principles of gardening and irrigating.

Supervisor Wright has been attending court this week, as he is looking after the interest of the Pueblo of Isleta.

Ramon Johnson has been on the sick list for a few days, but is now on the mend.

The children will be given a party in the assembly hall this evening.

Miss Estelle Reel, national superintendent of Indian schools, passed through the city last evening. She had planned to stop over and visit the school, but she received a telegram requesting her to be in Chicago on Monday so she could not stop over.

The best news we have to relate is about the arrival last evening of twenty-eight fine bright Navajo boys, fresh from the reservation. Dr. Wood has been out at Fort Defiance for the past few days and secured these boys for the Albuquerque school. He goes back this evening for another delegation.

SILVER CITY.

From the Enterprise.

A local lodge of Red Men will be organized in this city next week. The lodge starts out well with a charter membership of over thirty representative citizens.

George Cundiff and Robert Golding spent several days in El Paso this week. Mr. Cundiff was accompanied home by his interesting family, who will reside here in the future.

Joe O'Reilly, the agent for the Washington Life Insurance company for New Mexico and Arizona, arrived in the city on business for his company.

T. C. McDermott, of the Faywood Hotel Springs hotel, was in the city laying in supplies for his big hostelry. Mr. McDermott reports business good at the resort.

Miss Fannie Fleming, the pretty and accomplished daughter of Col. J. W. Fleming, was confined to her bed during the latter part of last week, but has so far recovered as to be up and around again, much to the delight of her many friends.

Pascal R. Smith, who is interested in promoting the big sanitarium project at Deming, was in town this week. He was accompanied by his daughter, Miss Lillian, who spent the day visiting her college friend, Miss Ebersole, at the Hotel San Vicente.

W. N. Hager, formerly station agent at Mesilla Park, is now owner of some mighty fine farm land in the Mesilla valley, was in the city Tuesday looking into the local alfalfa market. Mr. Hager is enthusiastic over ranching prospects in the Mesilla valley for the coming year. Crops are in splendid condition and the river is flowing full with the promise of plenty of water for the summer months.

A Correction.

Gallup, N. M., April 17.—Thomas Hughes, Editor Citizen, Albuquerque.—Dear Sir: The article in your issue of the 15th inst., referring to the soliciting of funds for sunshine work, has just this morning come to my notice. Please state in your valuable paper that there have been no funds what ever solicited for the International society in your city, or any other.

What money is raised is to defray a part of my expenses, as everyone who contributed understands—there being no salaries offices in the society. Having been told that you believe in justice in all matters, I ask you to let this appear in your next issue to offset the false position that the letter of Mary E. Disette has placed me in. Respectfully,

MRS. L. W. OWEN.

Organizer International Sunshine Society.

An Interesting Comparison.

It would naturally appear that owing to the price for which imported champagnes are sold, the combined revenue for the sale of all these wines would be in excess of the amount paid annually for any single brand of bottled beer.

But such is not the case, as the United States custom house statistics clearly and definitely prove.

Anheuser-Busch's Budweiser not only exceeds in sales all other bottled beers combined, but has proved itself the mightiest competitor of imported champagnes by exceeding their annual revenue more than three and one-half million dollars.

The sales of Budweiser during the year 1902 were \$5,790,390 bottles, averaging 25 cents per bottle, amounting to \$20,947,575.

The United States custom house records prove the importation of all "champagnes" for the year 1902 to be 360,768 cases. Figuring on a basis of 12 quart bottles per case—4,329,496 bottles, and if sold at the maximum, \$4 per bottle, to the consumers, amounted to \$17,318,591.

From these figures it will be seen that Budweiser's lead was \$3,633,591.

It is a noteworthy fact that this pure and wholesome beverage is fast supplanting imported champagnes upon the banquet table, just as it is supplanting the decanter upon the sideboard in American homes.

board in American homes.

This is as it should be, and marks a perceptible advancement in the direction of true temperance.

Budweiser is a brew that is known the world around, and is not only preferred by discriminating customers because of its rare flavor, fine effervescence and perfect maturity, but prescribed by physicians everywhere on account of its absolute purity, nourishing and upbuilding effects.

TELEGRAM RETURNED.

Relatives of Martha Walden, the Suicide, Cannot Be Found.

All telegrams which have been sent to various people in regard to Mrs. Martha Walden's suicide have been returned. It was learned by O. W. Strong & Sons yesterday that she had two brothers and three sisters in San Antonio, Texas. They were further informed that Mrs. Walden's maiden name was Sumsquaky, and that her people were prominent people in San Antonio. Telegrams were immediately dispatched, but all were returned. The name of the Polish was undoubtedly misspelled or it would have found its proper destination. A telegram was received from Nevada, saying that the husband had left there some three months ago.

It is impossible to find any of her relatives she will be buried here.

Nothing further regarding the cause of the rash act, other than was published by The Citizen Saturday, has been learned.

DENTAL EXAMINERS.

Dr. L. H. Chamberlin, of This City, Elected President.

Dr. L. H. Chamberlin returned Saturday night from Santa Fe, where he was in attendance at the reorganization meeting of the newly appointed territorial board of dental examiners. Dr. Chamberlin was elected president of the new board, succeeding himself as president of the retiring board of last year. This is not only a nice compliment to Dr. Chamberlin, but brings Albuquerque into prominence, having the leading dentists of the territory.

Dr. C. N. Lord, of Santa Fe, was elected to the position of secretary of the board.

Officers Elected.

Federal Labor Union No. 10,957, American Federation of Labor, met Saturday night in Carpenters' hall and elected the following officers:

President—Thos. Dye.
Vice President—Adam Fisher.
Financial Secretary—Ben Pleasner.
Recording Secretary—J. W. Hill.
Treasurer—Lyman Dye.
Guide—A. Pagan.
Guardian—L. H. Obermeyer.

William Rogan, W. E. Grimmer and Arthur Bancroft were given membership. The organization here is growing rapidly and boasts of close to a hundred members.

SANTA FE CUT OFF.

Henry Lantry, of the Construction Firm, is interviewed.

"Work is being pushed forward as rapidly as could be expected considering a few exasperating circumstances which are holding things back and are exceedingly provoking," said Henry Lantry, the elder of B. Lantry Sons, railroad contractors, now engaged in constructing the Santa Fe cut off east of Belen.

It was on the afternoon of Friday of last week, during a severe sand storm, that an inquisitive representative of The Citizen found Mr. Lantry sitting on a straight back, hard bottomed chair on the sheltered side of the firm's office building, just south of Belen, near where the cut off building is going on. Although the wind was raging, hurling clouds of sand through the air and that the Santa Fe was causing some grief in the building of the road by not furnishing material, mostly ties, fast enough to please the contractors and let the work progress as fast as it might, the reporter found the veteran railroad builder in a pleasant state of mind and a very agreeable personage generally.

"Rails are now laid about five miles east of the bridge, over the river," continued Mr. Lantry. "Of course you know that the tracks being laid now are only temporary and will be used to convey supplies to the camps in Abo canyon and out on the pass. The permanent road will not be laid until the rock work in the canyon is finished."

"Plenty of rails are on the ground but we have no ties to put them on. This inconvenience is causing no little delay and is very aggravating."

"The depot of supplies, contracted for Gross, Kelly & Co., formerly here, has been moved across the river and the freight teams are now hauling from there instead of having to cross the river as before."

"The work there is to do in Abo canyon, when finished, will be a feat in railroad building and will be exceeded in magnitude in America only by that of the Royal Gorge in Colorado and in a few other instances."

"The road crosses the canyon in five places. In each crossing bridges of steel will be placed on masonry abutments sixty-five feet from a solid stone base in the bottom of the canyon. In one place the track is to be laid in a cut in solid rock, the sides of which tower 150 feet above on each side."

"This rock work is very tedious and it will require many months to finish it."

When asked how many men were at that time employed on the cut off, in every capacity and by the firm of B. Lantry Sons and sub-contractors, Mr. Lantry called out his general man, a sprightly young clerk in the person of

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers

OIL FOR THE BODY

You can't lose an atom without feeling it. The body is like an engine, a watch, a machine; must be kept in good order to run right. That's the reason Scott's Emulsion is so successful in all wasting diseases. It feeds, nourishes and strengthens when ordinary food won't. Doctors say Scott's Emulsion is the best nourishment for those who are not as well as they should be—young or old.

We'll send you a sample free upon request.
SCOTT & BOWNE, 405 Pearl Street, New York.

NEW YORK LETTER

New York, April 18.—Much interest is manifested in William J. Bryan's approaching east, especially by Brooklynites before whom he will deliver a "lecture." It is said that on this occasion Mr. Bryan will be used as a mouthpiece for the opponents of the Hill-McLaughlin program. Public announcement of the event has not yet been made for the reason that certain formalities must first be observed. It is known, however, that there has already been private communication between Mr. Bryan and "anti" leaders in Brooklyn and Edward M. Shepard or Justice Gaynor will be presiding officer at the meeting.

The dinner of the Canton society next Friday evening will be a very grand affair. Associate Justice Day of the supreme court will be the guest of honor and Senator Hanna, Foraker and other Ohioans are expected to attend, besides other influential politicians. This is the second big reception given in New York within a week with more than usual political significance attached to it, the "Amen Corner" spread at the Fifth Avenue hotel last night having been the first.

The liquor men in New York and Brooklyn are planning and have put in execution already all sorts of retaliatory measures because of the excise tax law. A reduction of three ounces of beer has been made by many saloon keepers and whiskey too may be measured out so there will be no chance for four fingered drinks. Despite rumors to the contrary, however, the free lunch will hardly be abolished. The patrons of the saloons now regard the free lunch as inherent rights and if the institution should be abolished, it is said that their resentment might even cause a boycott of the places that refuse to serve lunch.

New York received with much gratification the promise of President W. H. Baldwin of the Long Island Railroad, that when the Pennsylvania tunnel is in operation, Philadelphia will be a suburb of New York. The annexation of Philadelphia may be a conceit tinged with much romance, but the suggestion is nevertheless received with great favor here, particularly by theatrical managers, who can already see in their mind's eye their houses filled in no inconsiderable part by patrons from the City of Brotherly Love.

A visitor to the navy yard in Brooklyn will be convinced of the success of Uncle Sam's plan to have the band play while the men are cooling a warship, is wonderful. While lively two-step and marches are filling the air the blue-jackets work like beavers to fill the bunkers and one of the officers in the navy yard suggested a day or two ago to a committee of business men that they could do worse than adopting the same idea to keep up their employees' enthusiasm, if the music were furnished by nothing more than one of the little German street bands.

A striking feature of the business situation in New York is the unanimity with which employers are lining up to resist demands for future wage increase. They are taking the stand everywhere that the wage scale is now as high as conditions can stand and that further advance will inevitably check consumption and construction and mark the beginning of a long period of depression in the industries and wealth of the country, gradations to be from bad to worse. If the workmen can bring themselves to see that this is the golden time to let well enough alone they will be doing themselves and their country a loyal service.

The coaching trips which have become an established feature of spring in the Smart Set are doing much for the smaller towns through which the parties pass and a quaint old-fashioned English tone is creeping over the various inns at which the stops are made. As a sport coaching is to be commended, for it certainly is picturesque and its "old-timeiness" is one of its chief charms.

The same people that operated the moving sidewalks at the Chicago and Paris Expositions are seeking the right to place moving platforms on the Brooklyn and East River bridges. They claim that these platforms have long since passed the experimental stage, having a record of 2,700,000 persons safely carried at the 1893 world's fair and 9,000,000 at the Paris Exposition,

without a single serious accident. The Rapid Transit Commission, however, is not enthusiastic over the idea and it is doubtful if the franchise will be granted.

It is surprising the variety and number of articles that are felt on the elevated and surface cars by travellers in New York. These things accumulate so rapidly that each year the various companies auction off the collection of articles that are never claimed. The Brooklyn Rapid Transit will in a few days hold its annual sale at which sealskins, saques, silk waists, brie-a-brac and other expensive items will be disposed of. Last year the company turned over to the Employees' Benefit Association \$1900 derived from the sale of lost articles.

Over 65,000 immigrants arrived at this port during the month of March, an increase of 7,700 over the same month last year. This month opened with the arrival of nearly 10,000 aliens, making it almost record breaking day. Holy Thursday came next with nearly 9,000 arrivals.

One of the most unique churches in the country is the Archangel Episcopal church which has just been opened for services. It is an apartment house, like everything else around it and when completed, its street front will rise to the height of the apartment houses on each side of it. In front will be the rectory reading rooms and a guild hall, which is provided with a stage. The church fills the rear yard and has a seating capacity of 1,000.

Lovers of turf sports are enthusiastic over the prospect of an unusually exciting season this year. Many new owners are scheduled to enter their horses to that the prospect of a big circulation of money by figures hitherto unfamiliar to metropolitan race-goers is almost assured.

OFFICIAL MATTERS.

Land Office Business.
The following final homestead entry was made Thursday, Juan Antonio Alarido, Perea postoffice, 80 acres in Sandoval county.

National Guard Appointments.
Governor Otero has appointed the following officers of company A, First regiment of Infantry, stationed at Las Cruces. John D. May, captain, vice Oscar Lohman, resigned; W. F. Jacoby, first lieutenant, vice W. Cheatham Strode, resigned; Thomas Rouault, second lieutenant, vice Henry Ryerson, resigned.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box; 25c.

WILL NOW PUNISH PRISONER.

Physician Charged with Aiding in Murder of 'Holder of Life Insurance Policy Will Be Turned Over to Mexico.

In issuing a warrant for the surrender to the Mexican government of Dr. Charles S. Harle, now held under arrest in El Paso, Texas, on a charge of being an accessory to a murder committed in Chihuahua, the state department took steps to secure the punishment of a peculiarly atrocious crime, which has engaged the attention of the two governments and one of the big New York life insurance companies for many months.

The papers filed at the state department allege that the Mexican agent of the company, T. C. Richardson, a man named Meredith and Dr. Harle conspired to murder a man in order to collect the insurance on his life, the policy for which had been issued by Richardson. The policy was made payable to Meredith.

The victim was slowly poisoned to death and the doctor who attended him certified that he died from natural causes. The doctor's defense is that he did not himself administer the drug.

Richardson and Meredith, also arrested in Texas, were discharged by the court on the ground of insufficient evidence, but the Mexican government was sworn out new charges and the men will be rearrested and held for extradition.

Santa Fe Cleaning Up.

There is an ordinance against throwing rubbish into the streets, violation of which is punishable with a fine of not less than \$5 nor more than \$50. Alderman J. D. Sena, who has been appointed to supervise the putting of the streets in order for the visit of President Roosevelt to this city May 5, states that the law relating to throwing rubbish in the streets will be enforced in the future.—New Mexican.

Street Commissioner Tierney says he intends to have Albuquerque's streets and alleys pretty thoroughly cleaned by the time President Roosevelt arrives in the city. He has the cart and a force of street cleaners out today, and hopes to keep up the good work every day for the next two weeks. Tin cans and other nuisances, which now ornament some of the alleys, will soon be removed to the dumping ground along the river bottoms.

The management of the Santa Fe has announced that the legal battle which is being made by a pioneer of Arizona to obtain the title to the Bright Angel Trail will not interfere with the construction of the new hotel which the company is planning to erect on the rim of the canyon. Thus far the pioneer seems to have the best of the struggle, but the Santa Fe will construct another track to the river bed, provided the courts decide them of Bright Angel Trail.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

STATEHOOD QUESTION.

Opinions of Two Influential Arizona Newspapers.

The Hon. B. S. Rodey, delegate to congress from New Mexico, has just returned to his home at Albuquerque, and expresses the opinion that Arizona and New Mexico will be made one state, by republican party action early in the next session of congress. Mr. Rodey says that no amount of opposition on the part of Arizona can prevent this, and he intimates that New Mexico will welcome the relation.

Assuming that Mr. Rodey, who is a republican, is speaking by the authority of his party leaders in congress, what are the people of Arizona going to do about it?

In time of peace, prepare for war, is an adage both ancient and wise. Unless the people of this territory are willing that Arizona should become a vassal province of New Mexico no time is to be lost in preparing to fight the proposal. It should not be lost sight of that in the next congress the people of Arizona will not have Mark Smith at the helm. Colonel Wilson may prove to be all that could be desired, but he has not had as much experience as Mr. Smith, is not so widely acquainted, and it is to be doubted if he can exert the same commanding influence on the democratic leaders in both houses of congress. Mr. Smith prevented the amalgamation of Arizona and New Mexico during the last session of congress. For this he is entitled to the eternal gratitude of the people of Arizona. In the next congress the question will again be alive and unless the people of Arizona present a solid, determined fighting front, Arizona will be obliterated from the map of the United States.

This is the most serious public problem now confronting the people of Arizona. We believe that not 3 per cent of the people of this territory are willing to join New Mexico in statehood. Government from Washington is not ideal, but government from Santa Fe would be intolerable. Both houses of the Arizona legislature by unanimous vote passed a memorial to congress protesting against joint statehood. This is the official vote of Arizona. The people should prepare to back it up—to give it force and effect.

A committee of public safety should now be organized. This should be made up of men of all parties. The duty of this committee should be to protect the commonwealth. Arizona is worth fighting for as it stands. As a province of New Mexico it would wither and decay. New Mexico would tax Arizona to death, destroy its industries, abolish its institutions, imperil its civilization. Arizona wishes New Mexico well as a neighbor and friend. But the highest effort of Arizona statesmanship should be exerted to prevent political amalgamation with New Mexico.—Tucson Citizen.

In some respects this article is an injustice to New Mexico, as her indebtedness is less than half that of Arizona, and her tax rate is much lower. Then New Mexico could not "tax Arizona to death" without taxing herself accordingly. New Mexico has made a most remarkable growth during the past five years. More miles of railroad have been built in New Mexico during the past two years than any other state or territory in the union save one—Texas. New towns, and good ones, too, are springing into existence all over New Mexico. Old conditions are fast passing away in New Mexico, and a new era of great and lasting prosperity has come. New Mexico is beyond Arizona as an agricultural, horticultural and stock raising country. Arizona, by a combination with southern New Mexico, would hold the balance of political power in the state, which would mean the removal of the capital to Albuquerque, a more central location.

But aside from these questions, the bill would provide that Arizona should become a state when its population

shall have reached 200,000, which at its present ratio of increase would in all probability be not longer than five or six years. While the Era would much prefer to see Arizona admitted singly, yet it believes that the only show for admission is in conjunction with New Mexico, and even under those circumstances it will welcome statehood.—Clifton Era.

GENERAL STOREKEEPER RICE. He Took Hold.

Since N. M. Rice, formerly of Albuquerque, the new general storekeeper, took charge here the storehouse has been the scene of many improvements, says the Topeka State Journal. Nearly every day a number of men can be seen at work with brooms, others with paint brushes, and still others are occupied with the sorting out of old material and arranging it in a more orderly and convenient manner. Mr. Rice is the kind of a man who likes to have a system about the way of doing things, of having a place for everything and everything in its place. With this end in view he has gone to work with a will and already a great improvement has been made at the storehouse.

All the old shelving has been torn out, and carpenters have been put to work making a new and different kind of shelving. The only thing that is hindering Mr. Rice's plans is the fact that the ceiling and windows of the storehouse are not high enough and consequently the kind of shelving that he really wishes to have can not be built. But being that the storehouse was not built for the shelving, the shelving will have to be built for the storehouse. The most important and noticeable improvement will come after the shelving has been put in and everything has received its new coat of paint.

The manner in which things are now arranged at the storehouse is such that although each article is marked, it is very hard to find among the great mass of other material and consequently it requires more time to fill orders than is really necessary. Mr. Rice plans to have all this changed. As soon as the shelves are ready the material which is now being sorted out will be neatly arranged on the shelves and a system of numbering will be used that will enable the men to find almost immediately any article that is needed. An index will be kept in the office and this will be used until the men get accustomed to the new system. It is said that the new system of handling material will later be worked down to so fine a point that in making regulations the article wanted will be indicated by the number of the shelf on which it is kept instead of writing out the full name, as is now done.

BASE BALL NOTES.

Billy Lauder, of the Giants, is pleasing the rooters by his timely batting. Rather early yet to "burrah."

Jimmy Callahan is still playing third base for the White Stockings and may be continued at that corner.

Wiley Platt, the Comiskey cast off is said to be burning grooves in the air this spring. Wiley can pitch when in form.

It is reported that Comiskey has bought out his partner's interest in the Chicago club, making him the sole owner.

Base ball critics seem to think the new giant, Babb, will prove a "find." It is about time the Giants found something.

Manager Griffith is instructing his men to place their hits. This is one of the principal features of the team's daily practice.

Fred Pfeffer, the old Chicago second baseman, will hold the indicator this season in the Interstate league around the Windy city.

Manager McAlister believes that Friel is the best utility player in the business and will retain him on the payroll of the Browns.

The Chicago Nationals have had offers for Evans from Los Angeles and Colorado Springs, but the management will not part with him.

Otto Kruger, of the Pirates, is demonstrating that he can play either second, third or short. That's the kind of a utility infielder to have.

When Cincinnati has completed the coming season that club will have traveled over 11,000 miles, according to Frank Bancroft's figuring.

Reports say that Tommy Leach is going faster than ever this year. The little third baseman put in the winter playing indoor baseball, and, consequently, is in prime condition.

The six men signed by Manager Barrow are all six footers. If height counts for anything the Detroit club should have a look at the pennant.

Pitcher Ewing has made good in the twirling staff of the Cincinnati, and Manager Kelly says he will be one of the regular box artists this season.

The Chicago Nationals have already arranged for next spring's training quarters. Lucky Baldwin's ranch, near Los Angeles, Cal., has been leased.

The announcement that Harry Wolverton had been made captain of the Phillies seems to be premature. Roy Thomas will be the field general of the game.

Dr. Powers says Fraser is the hardest pitcher to catch that he has ever supported. "There is more shoot to his curve balls than any pitcher I have ever faced," said Powers.

Catcher Klutledge declares that Short Stop Aubrey, of the Bostonians, has made a fine impression among his fellows and that he promises to be as

The recent marriage of a couple of cripples, each having only half the proper complement of arms and legs, was noted by the press as a "curious" and "unusual" event. But who notes the marriages which occur daily in which both parties are cripples in health.

Crippled health means, as a rule, insufficient nutrition, and lack of nutrition points to disease of the stomach and digestive and nutritive tract. Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect nourishment of the body, and so builds it up in sound health and strength.

"I had been a great sufferer from indigestion for the last nine years," writes Mrs. Margaret Single, of Owings Mills, Baltimore Co., Md. "I was such a wreck it seemed death was near, but today can say I feel like another woman. I have received much and lasting good from Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription.' I have taken twenty-five bottles in all, and followed the advice of Dr. R. V. Pierce, and am happy to say that life is worth living now. A thousand thanks for your treatment."

Do not be cajoled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery."

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of twenty-one one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

great an infielder as little Tommy Leach.

Pitcher Frank Sparks says his arm is feeling better than it has felt for three years. In 1900 he caught cold in his shoulder and has never been able to get his arm right until this spring.

Kid Carsey, the former Washington pitcher, is picking up a little easy money as manager and pitcher for the Metropolitan base ball club, which plays Sunday games around New York and New Jersey.

Jesse Burkett is under weight, but in excellent condition. Burkett is looking for premier batsman laurels. What a race there will be with Delehanty, Lajoie, Keeler, Burkett and Hickman among the candidates for the top position.

It was announced at Bloomington, Ill., that \$800 had been offered to the management of the Three Eye league by Charles Comiskey for the purchase of Charles McCafferty, one of the pitchers, who made such a favorable impression when the Chicago White Stockings were at that city recently. McCafferty struck out Isbell and Daly in succession with two men on bases, and the ability of the local twirler greatly impressed Manager Callahan. McCafferty is a young player, this being his second season as a professional. It is believed that the offer will be accepted.

PLAIN WORDS.

National League Players Warned Against Rowdiness.

President Harry C. Pulliam, of the National league, has issued his instructions for the season to managers, captains, players and umpires. He pays particular attention to what is called "rowdiness" on the ball field. On this subject he says to the players in part:

"At the outset I wish to state that it is not my intention to rob the game of any of its enthusiasm or interest. Instead of that I wish to increase the enthusiasm of the players and the interest of the spectators at the expense of the so called 'rowdiness.'"

"On the ball field of the National league this will not prevail during the season of 1903. Nine-tenths of the ball players in our league are gentlemen earning their livelihood in a legitimate manner and anything that tends to better the sport I know will have their hearty approval."

"The umpire is the sole judge of the play. His decision cannot be questioned and any player that does so will do it at his own peril. For misconduct of any character the umpire is empowered to order the manager, captain or player from the playing field and in some instances he will have the power to inflict a fine."

"When a manager, captain or player is ordered from the game he must instantly leave the playing field and he cannot appear again on the ball field during the progress of the game from which he was expelled."

"The umpires are directed, in all cases where the offender in his estimation deserves further discipline than the mere expulsion from the game, to notify this office by telegraph and to give details of said misconduct by letter. When such report is made such action as is deemed proper in each particular case will be taken."

"When a manager, captain or player is under suspension by the president he will not be permitted to enjoy any of the privileges of the playing field during the progress of the game and he will not be allowed to sit on the bench, either in uniform or in citizen dress, or to occupy any position on the ball field. If he attends the game he must attend as a spectator."

"It is the desire of the president to accord the players every consideration and to co-operate with them in anything that will tend to better the condition of professional base ball and thus enhance the value of their services. I would like the co-operation of every one to bring about a satisfactory state of affairs, alike to the public, press,

owners and players, for we must have clean base ball, worthy the respect of everyone, if we hope to continue the game of base ball as the 'national sport.'"

"Managers, captains and players are especially warned against attacking the umpire in any manner after the completion of the game or by any action, overt or secret, trying to influence the spectators against the umpire and cause him bodily harm. Any action of this kind will be severely dealt with, because it is cowardly in the extreme."

The umpires are instructed at all times to maintain the dignity of their positions and treat managers and players with proper respect, but not to indulge in any familiarity or temporize in the least."

In the circular President Pulliam also lays down the following instructions on such playing rules as are deemed susceptible of more than one interpretation:

Rule 9 (Pitcher's Position).—"The pitcher in taking his position shall place no part of either foot back of the rubber, nor shall he take more than one step in delivering the ball to the batsman." This construction does away with all preliminary steps, either to the rear or to the side of the rubber.

Rule 23, Section 8. (Balking).—"Construct as meaning that both feet of the catcher must be inside of the catcher's lines."

Rule 40 (Batting).—"A foul tip must go sharp from the bat. If the ball rises from bat to the catcher, as in the case of the attempted bunting of a low or slow ball, it will be ruled as a foul fly."

Rule 40, Section 5 (Batsman is Out).—"The batsman will be declared out at once if he makes any motion or attempt at interference with the throwing of the catcher of the ball by the catcher."

Rule 47, Section 4 (Becomes a Base Runner).—"The batsman must make a palpable attempt to avoid being hit. In no case will he be allowed to become a runner as the result of being hit by a slowly delivered ball, the umpire to be judge of the speed of said ball."

Rule 51, Section 6 (Base Runners are Out).—"Attention of players is called to this rule requiring runners to keep within the three-foot lines in going to first unless to avoid a fielder attempting to field a batted ball."

Rule 53 (Coaching).—"This rule is construed literally and will be enforced literally, with the exception of the imposition of the \$5 fine, in which case the printed rules are in error."

Rule 57 (Field Rules).—"Will be enforced literally."

You Know What You Are Taking.
When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

Base Ball at Socorro.

The base ball fever is beginning to manifest itself again in Socorro. There was a close and exciting game in town the other day between a local team and a visiting team from San Antonio. The result was a score of 15 to 14 in favor of Socorro. The score does not indicate professional playing, by any means, but the teams are pretty evenly matched and with practice would play a game that would make the hearts of the bleachers leap for joy.—Socorro Chieftain.

DEMING VS. CLIFTON.

The Base Ball Teams of the Two Towns Get Together.

As was stated in last Saturday's Deming Headlight the Yellow Kids, of Deming, took themselves to the mountain town of Clifton, Arizona, there to play ball.

They left here at 9 a. m., and arriving at Hachita were invited to an elegant dinner that had been prepared by Mesdames Mastick and Lawhon, who are now living at that point. They arrived in Clifton about 7 p. m. and were at once taken in charge by the Clifton team, who, from the time our boys struck town till the hour of their departure the following Monday, showed them every attention and lent every effort to the end that the Deming boys should have a good time and be well cared for. Saturday night they were invited to attend a ball gotten up in their honor, and one and all says it was an event of a life time. Sunday, while they were not engaged in playing ball they were shown through the immense smelters at Clifton that have become world renowned. They were shown around the town and invited everywhere; in fact nothing was left undone that could possibly add to their comfort or entertainment while in Clifton, and, naturally, the boys are loud in their praises of Clifton and her people.

They played two games of ball on Sunday which resulted as follows: In the morning the Kids won by a score of 18 to 9, and in the afternoon the Clifton team walked off with the fruit by 18 to 16.

Successful Concerts.

Robert T. Blair, of the school of music concert company, touring the Santa Fe coast lines giving concerts at Y. M. C. A. railroad reading rooms, writes from Seligman, Arizona, that the company had given performances at both Williams and Seligman with flattering success. At both places they were greeted by large appreciative audiences. After Seligman they were billed for Needles and Barstow. Mr. Blair states in his letter that after finishing their tour of cities the company will fill an engagement at Coronado beach.

The New Mexican says: Miss Grace Kennedy, who has been suffering from an attack of la grippe the past two

Kodol Dyspepsia Cure

Digests what you eat
This preparation contains all of the digestants and digesta of all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspepsias have been cured after everything else failed. Is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles
Prepared only by E. O. DeWitt & Co., Chicago

weeks, was able to be out today. Miss Kennedy went to Albuquerque this afternoon where she will take the civil service examination on Wednesday, the 22d.

COMPETITION IN CEMENT. Two Plants on Railway Line Through Alamogordo.

The Milner cement and plaster manufactory was delayed in starting on account of water not being supplied earlier, says the Alamogordo News.

A quantity of pure granulated gypsum has been hauled from the "White Sands" at a cost of \$3 per ton.

The capacity of the Milner plant is twenty tons daily. The gypsum is treated in a simple manner. A fifteen-horse power engine operates three oscillating iron pans suspended over a furnace, roasting for forty minutes granulated gypsum that descends from a hopper, and when reduced to powder by the heat the cement drops into bags.

Cement houses are likely to come into general use here, one business block and one residence, made of the Ancho variety, having been ordered constructed.

The Ancho factory markets its product in El Paso, Alamogordo and as far east as Kansas, and at the end of its first year of operation is doubling the capacity of the plant. The cement is mixed with sand and gravel to make walls and walks. The Angeles hotel block in El Paso was made in this manner, with Portland cement, in blocks.

LOCAL PARAGRAPHS.

Fred Huning returned to his ranch near Los Lunas, Sunday night, after visiting here over Sunday with his mother, residing on North Second street.

Miss Clara Erwin, of Hell canyon, is in the city visiting and shopping. She will return here Wednesday.

Mrs. Toney Ortiz, of Hell canyon, and daughter, Miss Grace, have returned from a visit with friends in Kansas.

W. Ray Morley, the crack foot ball coach of Columbia university of New York, has been spending several days in Albuquerque.

J. C. Smith, manager for J. C. Baldrige at Socorro and insurance agent, was an Albuquerque visitor yesterday. Mr. Smith is closing out Mr. Baldrige's business at Socorro and his visit here was probably on matters concerning the closing. Mr. Smith will leave in a short time for a visit east, after which he will return to Socorro and continue his insurance business.

Judge F. W. Parker, associate justice of the territorial supreme court, and judge of the third judicial district of New Mexico, passed through the city this morning en route from his chambers at Las Cruces to Santa Fe. He will be present at a session of the territorial irrigation commission which convenes there today.

The McSpadden-Springer Transfer company has purchased all the horses, harness, wagons and other properties belonging to the J. W. Palmer company. The deal was closed yesterday and the McSpadden-Springer people will immediately take charge of their new acquisitions, which consists of eleven wagons and a large number of draft horses.

J. C. Baldrige, the lumber merchant, and A. E. Walker, the fire insurance agent, are now comfortably settled in Mr. Baldrige's new building, which replaced that recently destroyed by fire. Although it is not quite as large as the building burned, it is better and more handsomely arranged and Mr. Baldrige and Mr. Walker both express themselves well pleased with their surroundings.

Chief Deputy United States Marshal George Karaman left last night for San Francisco, Cal., taking with him Sam Lee, a celestial who arrived in Albuquerque about six weeks ago without the proper credentials issued to good Chinamen. Sam, when captured, claimed that he had left his "chock chee" in Los Angeles and the marshal's office gave him an opportunity to produce it by correspondence. He failed to make good and will get a free passage to his home beyond the Pacific.

R. B. Thomas and son, A. C. Thomas, arrived here Saturday morning from Magdalena, accompanied by Mrs. A. C. Thomas' mother, Mrs. Christian, of Columbus, Ohio. The elder Thomas went to Cerrillos yesterday morning, where he is general manager of the Consolidated Mining & Smelting company. A. C. Thomas visited his mother and sisters here until last night, when he returned to Magdalena, where he is manager of the Hardacre copper mine. Mrs. Christian will remain in Albuquerque several days.

Railroad Topics

F. H. Mudge, engineer of Santa Fe at Belen, was in Albuquerque yesterday.

Serpino Romero, who has a tie contract on the Albuquerque Eastern, is in the city.

Cheap rates are offered by the Santa Fe company for all who desire to see President Roosevelt at either Albuquerque or Santa Fe.

The body of H. C. Proffit, the young railroad man who died at the Santa Fe hospital, Las Vegas, was shipped for burial at the family home in Raymond, Kas.

The last issue of the Railway Age contained a long illustrated article on the work done by B. Lantry & Sons for the Santa Fe in China Basin at San Francisco.

The Santa Fe pay roll, at the local shops, was materially increased last month, and the major part of these wages, if not all, was left with the merchants of this city.

General Manager W. S. Hopewell, of the Santa Fe Central railway, entertained last evening at a "smoker" at the quarters of the Pennsylvania club on upper San Francisco street.

The Rock Island surveyors have completed the survey from Graham to Throckmorton, Texas, and are now running the line to Haskell. The citizens of these two latter points are confident the road is to be built at once.

Walter Bell, for some time night clerk at the Castaneda, Las Vegas, has gone to Topeka to accept the important position as cashier in the new Harvey house. Temporary Cashier J. F. Shea is adding the duties of the day clerk to his own, while Day Clerk R. M. Spivey is taking the night shift.

Plans have been prepared by the Wabash for doubling its terminal facilities at Detroit by the addition of twenty-eight tracks to the yards at Twelfth street. Through freight service is being arranged for between Toledo and Detroit by way of Milan and the Ann Arbor road.

The memorable exhibit of the Baltimore & Ohio railroad at the Chicago exposition in 1893 is to be repeated, and perhaps, improved upon, in the world's fair next year, under the charge, as before, of Maj. J. G. Pangborn. The company has secured 60,000 square feet of space.

A verdict of \$75,000 damages was awarded by a jury in the supreme court of New York in the suit brought against the New York Central railroad by the heirs of Alfred M. Perrin, of New Rochelle, former president of the United States Paper Bag company, who was killed in the Park avenue tunnel accident.

The Santa Fe is preparing for the big rush of stock transportations which are expected to begin about the middle of May. Division Master Mechanic Todd, of Topeka, posted notices that engine crews would be needed for the Oklahoma and Panhandle road, and requested all who wished to be transferred temporarily to notify the round house foreman.

Hon. Eugenio Romero has returned to Las Vegas from Manana and his Santa Fe Central tie camps. Mr. Romero reports track laying along the line as progressing at the rate of two miles a day from both ends, and says it will be complete by not later than July 1. Dirt is also being on the grade of the Albuquerque Eastern from Moriarty toward the Rio Grande.

The local shops of the Santa Fe are doing a great deal of work for the Lantry just now in the repair of machinery from the cut off works at Belen. There is a big pile driver in the yards to be fixed up and made ready for service again and the Lantry engine, No. 10, is in the back shops. When the cut off is completed there will be a boom in work in the Albuquerque shops.

President Frank Trumbull, of the Colorado & Southern, who has been in poor health for some time, has decided to go abroad at an early date to take a vacation and recuperate. He will leave about the first of May and will spend some time at the baths at Carlsbad, Germany. Mrs. Trumbull will accompany him. During his absence Harry Van Mater, assistant to the president, will attend to his affairs.

It is announced that reduced rates from all points have been made to St. Louis on account of the world's fair dedication on the basis of one fare for the round trip, except in western territory, where the rate will be one fare for the round trip plus \$2. From points within 100 miles of St. Louis the rate will be one and one-third fare, and soldiers, sailors and other uniformed bodies will be carried at one cent per mile.

The Topeka State Journal says: After regulating the working time of the men at the Santa Fe shops for many years the big whistle, which is familiar to nearly everyone in Topeka, is to be torn down and substituted by a larger whistle. The howls of the new whistle are to be sixteen inches in diameter, four inches larger than the old whistle. It is to be put up over the new power house and will be ready for use in about a week.

The United States supreme court refused to reverse the decision of the United States circuit court of appeals for the Fifth circuit in the case of the Texas Pacific Railway Company vs. Abe Bebelmer. Bebelmer was a brakeman and being knocked off the top of a car by a bump in coupling, caught his trousers on a nail and was pretty badly hurt. He was awarded damages amounting to \$10,000. Justice Holmes, in delivering the decision of the court, said that a certain amount of bumping was to be expected in coupling cars,

but that this court was not prepared to say that the trial court had not given due attention to the question of negligence.

CHEAP RATE TO THE WEST.

Santa Fe Offers Inducements for Summer Tourists.

The Santa Fe railroad has announced that during the meeting of the Christian Endeavor convention at Denver next July tickets, good for round trip to Pacific coast points will be sold at the rate of \$62.50 from Chicago to the coast and return. These tickets will be on sale from July 1 to July 10 and will be good on the west bound train for thirty days. Stopovers will be allowed at Denver and all other points so that the visitors to the Endeavor meeting can continue their trip to the coast on the cheap rate. The tickets are to be good for the return trip until August 31.

INCREASE ON RIO GRANDE.

Will Distribute \$10,000 a Month in Addition to Present Pay Roll.

A special dispatch from Denver says:

The committee from the Denver & Rio Grande and Rio Grande Western engineers and firemen, which has been laboring with the officials of the system since January 26, has ended its work by securing a large increase in pay and other concessions from the road. Most of the members of the committee have returned to their homes.

The men have secured a blanket wage increase of 5 per cent on simple engines and 7½ per cent on compound engines, with a special increase on certain classes running as high as 45 per cent and making the average increase in wages about 10 per cent for the 800 engineers and firemen of the system. This means an enlargement of the pay roll about \$10,000 a month.

The concessions besides the general increase are considered most valuable by the engineers and firemen. The passenger mileage has been reduced from 105 to 100 miles a day maximum and 75 to 70 miles a day minimum. This is considered equal to an increase of wages of 4.8 per cent.

The company agreed to take much of the work for caring for parts of the machinery off the hands of the engineers and to place other parts more convenient to use. It is agreed that engineer will be kept out of work longer than five days while his engine is being repaired.

The engineers asked that thirteen men be reinstated that had been discharged for various causes. The company conceded the reinstatement of eight.

LETTER LIST.

Following is the list of letters remaining uncalled for in the postoffice at Albuquerque, N. M., for the week ending April 25, 1903:

Ladies' List.

Analla, Mis Clofa Parker, Edora Burkett, Gertrude Powell, Miss N. Blanche Collins, Mrs M J Pettit, Miss John-Garule, Miss Lucinda Scott, Powell, Mrs Lou Harley, Heady, Mrs Heeslop, Mrs Ollie Scott, Mrs O N Johnson, Mrs B T Sandoval, Sara Jose Kass, Miss Mina Rita Romero de Keen, Mary Seymour, Mrs Miller, Miss Cora Frank C Ortiz, Miss Martin Seymour, Mrs C F Oleason, Miss Emma Thayer, Mrs Magma Gileas, Sra Pruden Vollhommer, Miss Analla

Men's List.

Anderson, John Martinez, Antonio Andr. as, Mr. H McEachren, Hugh Bannis, F P A Cloutieres, Benito Martinez, Jose Chemise, Louis Nelson, John R Carbajal, D Note, Geo R Dazzo, Joe Noyes, Thomas C Douglas, M D Otero, M J Dennisator, Lee Ortiga, Juan Garcia y Palma, Bob Douglas, W M Edgerly, H E Parker, George Everett, H I Parker, Wm L Foster, W W Glidner, Thomas Riewald, Geo W Gutierrez, Dominico Shell, Frank G Gori, Charles Stobbs, J T Gillies, George Schumann, Jno Ginter, G E Smith, P A Garcia, Jose B Smith, Ali H Goodwin, T A Truman, Willie E Goodwin, Thos Vancannon, James Hill, Harry A Ward, Harry E Hathaway, Rev I N Wilcox, J M Haefling, S L Wilford, Joe Hall, Warren E Wilson, Nat Jodor, Harry Warren, R E Jaramillo, Manuel Williamson, Robert Leina, Llandro Minier, John Baird Mining Co

Persons calling for the above named letters will please say "Advertised," and give the date of publication.

R. W. HOPKINS, Postmaster.

ALL OFF IN A BUNCH.

Santa Fe California Tourists Are on Their Way Home.

A dispatch dated from San Bernardino, says:

Exodus to the east has begun by the thousands of visitors who have made southern California a Mecca during the past winter. The railroads, especially the Santa Fe, are taxed for capacity in returning the tourists to

their homes. For as the railroad man, above all others, realizes, tourists come west by "apella," but when it comes to going back "they're all off in a bunch."

The local Santa Fe offices announce that travelers are booked weeks ahead and a drawing room in the California limited will not be obtainable until after June 5.

Railroad men say that the season closing is the most successful in the history of transcontinental traffic. There were 94 passengers aboard the California limited when it passed through the city last night and it goes east daily carrying between seventy and 100 passengers.

WILL IMPORT SWEDES.

Santa Fe Backing a Colorado Colonization Scheme.

A colonization scheme is being formulated in Denver by a company of local people at the head of which is C. G. Nikirk, city agent for the Santa Fe railroad. The company has made arrangements to bring 100 Swedish families to this country and will place them on farms, where it is expected a large amount of money will be made. While a definite location has not yet been decided upon, it is learned from inside information that a large tract of land has been secured in the southwestern part of Pueblo county, Colorado, and that a ditch will be run through that territory. The colonists have already been secured and will come direct from Sweden and they will arrive within a month. It is said that the immigrants are exceptionally intelligent and are scientific farmers. The company proposes to divide the tract into forty acre farms, and it is the intention to raise mostly garden truck, for which there is a ready sale in Denver and other cities in that vicinity. For the first year alfalfa will probably be the principal crop raised in order to give the ditch company time to construct its laterals for the next season.

Holbrook Jail Delivery.

Sheriff C. I. Houck, of Holbrook, was here Monday looking for a couple of escaped prisoners. Their names are Wm. O'Malley and J. T. Canill, and were held to the grand jury on the charge of stealing a case of jewelry from a passenger on No. 2 at Winslow. In making their escape they sawed off four bolts and cut a hole through the brick wall. The Holbrook jail is supposed to be the best and strongest cage in Arizona, and the prisoners must have been supplied with tools by some one. The sheriff left here last night, going east on a freight train, and overhauled his men at Gonzales. They were unarmed and surrendered without any trouble, but both are rated as bad men, and would no doubt have put up a good fight had they been prepared. The prisoners are being held in the city lock-up and will be taken to Holbrook on the first train going west.—Gallup Republican.

Police Court.

Charles Smith, a weary looking youth who claimed to be a cook, was before Judge Crawford this morning charged with being a vagrant. He pleaded guilty and the judge gave him five days to rest up in.

A. M. Martinez, a good looking young man from Cripple Creek, was also charged with being a vagrant, but this he denied. He said he was a miner and on his way to Bisbee, Ariz., where he was to work. The judge discharged him on his promise to leave town at once.

The case against William R. Baird, who, it is alleged, deserted his wife and infant son on December 1, 1901, will not be heard before the judge. Mr. Baird has made provision for their support at present. A suit for divorce has been filed.

SHORT STOPS.

The New Orleans club has a battery of brothers, the Brothers Harr. Former Umpire Tim Hurst is promoting an Irish fair at the Coliseum, at St. Louis.

It is said that Iron Man McGinnity is showing his old time form in the box for the Giants. He won his game yesterday against Brooklyn by a score of 7 to 2.

Jimmy Casey is now in Baltimore taking the examination for his graduation as a dentist.

The name of the Pacific Northwest league has been changed to the Pacific National league.

Billy Lander is playing better ball this year than ever before. That is some consolation to McGraw.

Barry is showing so well in left field for the Phillies that he is the talk of the Philadelphia routs.

Pitcher Chesbro ought to hold his job this summer. Last Thursday he struck out ten men in five innings.

Yesterday's game against Washington he lost for New York. Bill Orth was the opposing pitcher.

Jimmy Burke finally changed his mind and joined the Cardinals. Another obstinate player takes a tumble.

One of Thespian Billy Hallman's jokes: "I think I better be von goat old haspens dan a couple of never wasn'ts."

Jack O'Connor says that Clark Griffith was never quite so good in the pitcher's box as he has been this spring.

Connie Mack says the Athletics will be all right when they thaw out. What did they go to Florida for—to catch alligators?

The foul strike rule does not work well with big John Anderson. The Brown first baseman finds it a handicap to his hitting.

They are boosting young Lee Tannehill on Comiskey's team as a world-beater, but he won't last unless he hits, says Commy.

SUMMER RESORT.

A Tented City On the Mesa Where Only Enjoyment is to be Found.

WINTER HOUSES TO BE BUILT.

Every citizen of Albuquerque and every visitor to the country where Dr. Sunshine administers his inspiring tonic from sunrise until sunset, who have a common sense power of observation, have realized that the Duke City is experiencing a good healthy growth, yet there are developments within the city limits, and most notable improvements on the outskirts, that have not been brought to the attention of the active people of the metropolis. Every once in a while a remark will be made by a thoughtful individual commenting on the general welfare of the city, but lament the fact that there are no summer homes within reasonable driving distance, that would afford all the conveniences necessary for the complete enjoyment of evening parties and suppers.

About a mile beyond the university, looking to the northeast, stands the acorn mesa ranch. A look across the deceptive distance mesa at one time brought to the vision a couple of small houses standing out in strong relief against the background of the majestic mountains. But now a picturesque white tent city looms up before the eyes of the silent observer. The Robinson mesa ranch, owned by Ben Robertson and J. E. Haines, of The Citizen office, has been placed upon a basis of operations, which will in a short time render it a permanent summer home for visitors of the metropolis.

Quite a number of tents have been erected and the prospects for a tented city of several streets before the summer is over could not be brighter. Piles of adobe brick have been placed in position for the construction of adobe houses for winter use. These houses will be built on a novel plan, adopted especially for health seekers. Nothing could be more enjoyable than a fifteen-minute drive from the city, over the hill and across the mesa, breathing the light fresh breeze that is like unto an inspiring gentle gale from the ocean waters. The appetizing supper that is placed before the city visitor would satisfy the particular taste of any king, prince or other powerful personage. It is especially adapted to the taste that is acquired by living in the high altitude and the land of continual sunshine.

The large revolving windmill, the irrigation lake, and air free from all impurities, appeal to the artistic tastes of the visitor. Many people have already taken advantage of the opportunities afforded by this summer home on the mesa.

WARE ON WOODEN LEGS.

Commissioner of Pensions Promulgates New Ruling.

Commissioner of Pensions Ware has issued an order interpreting the act of March 2, 1903, concerning cases of those who have lost limbs in the service. The ruling says:

The said act contains the words "or where the same is in such a condition as to prevent the use of an artificial limb." The word "use" is not to be considered as equivalent to the word "wear." A person may be able to wear an artificial limb when it would be of no use. There must be some practical utility to the use. The words above quoted apply to instances where the amputation is below the middle, in length, of the bone, but above the joint. In such cases where the condition is such as to prevent the use of an artificial limb, the increased pensions shall be granted.

Where amputation is made at the middle or above, there can be no use of artificial limb. The middle joint of the bone shall be determined in accordance with the Curran decision of the office.

Here from Denver.

W. A. Lamb, representing the Morse Fairbanks company of Denver, will be in the city for a couple of weeks looking into the affairs of the company which he represents. The Morse Fairbanks company supplied the Santa Fe Central railroad with all their machinery, and undoubtedly the standard qualities of their machinery will be considered when the Albuquerque Eastern is being built.

While in Albuquerque Mr. Lamb will look into several irrigation plants contiguous to Albuquerque, for the purpose of supplying them with gasoline pumping plants. The company represented by Mr. Lamb installed the pumping plant at Las Cruces, which has a pumping capacity of 1,000 gallons a minute, and has proven a great success.

MISS HAZEL MALOY.

The Little Lady Entertained Her Little Friends This Afternoon. Park hall, on the street railway and nearly opposite the city park, is a pretty scene of innocence and happiness this afternoon, and it is all on account of Miss Hazel Eulalia Maloy, the charming little ladylike daughter of Mr. and Mrs. A. J. Maloy. Miss Hazel had sent out nearly a hundred or more pretty printed invitation programs to a like number of her little friends, masters and misses, and they were all present. At 3:30 o'clock the happy little people were gotten into a group and Miss Potter photographed them. After this, dancing was indulged in, to sweet strains of

music furnished by Miss Hanthorne, and then a delicious repast was served. The table was pink decorations, with an abundance of beautiful roses and carnations. Each little boy guest was presented with a filigree silver stick pin, and each little miss (girls are always nicer looking than boys) received a Japanese fan. Miss Hazel was assisted in receiving by the following little ladies: Misses Rebecca Pearce, Hilda Grunsfeld, Grace Borradaile, Josie Campfield, Katherine Strickler.

Card of Thanks.

I wish to publicly thank the Albuquerque Eagles' lodge, the Brotherhood of Railway Trainmen, O. W. Strong & Sons, and other friends, who so kindly assisted me in my late bereavement.

MRS. MYRON J. GERMAN.

We desire to express our sincere thanks to friends and neighbors who so kindly assisted and helped us in the sickness and death of our daughter, Gladys, and especially the Brotherhood of Locomotive Engineers and Ladies' Auxiliary.

MR. & MRS. S. S. SPARKS.

Police Court.

John Barnett was before Judge Crawford this morning for having an over-look of whisky and beer aboard yesterday. He will labor for the city for five days.

CROP BULLETIN

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., April 21.—The past week has been cold and windy, with very little precipitation. The high winds have dried out the ground rapidly, but not sufficient to interfere with the rapid progress of spring work.

Owing to the cold nights vegetation is coming forward slowly. Peaches, pears, plums and cherries are in full bloom in the southern counties, but in the north, excepting in the warmer valleys, the buds are not yet bursting. A killing frost on the morning of the 13th injured much of the earlier fruit of the central highlands, but further north vegetation was not sufficiently advanced to be damaged. Corn planting is progressing rapidly in central and southern sections; wheat and oats are about all sown in the northern section. A warm rain is badly needed both for planted grains and for range grass. At present stock is thin on some of the northeastern ranges, but a few warm days will bring forth the grass. Present prospects for the approaching lambing season are very encouraging. The Rio Grande is high, and about at a standstill. In general streams carry an abundance of water.

The following remarks are extracted from the reports of crop correspondents:

Albert—H. M. Hanson—Ground dried out considerably during the last two weeks. Grass is well started, but grows slowly for want of rain. Stock is thin but there is little loss in this vicinity; more feeding being done than usual, however. A good season for planting is quite generally expected, and considerable cane, etc., will be planted. Very little plowing as yet but will soon begin in earnest. A good rain is badly needed. Highest temperature, 79; lowest, 26; no rain.

El Rito—P. Lopez—Windy week. All crops are planted; alfalfa is coming up nicely, and a good season is expected. Twice as much acreage planted this year than formerly. Stock doing well.

Espanola—P. H. Leese—in general a favorable week: grass is beginning to start on the ranges; fruits budding out and plum trees in bloom. The Rio Grande is slightly higher than last week and holding its own.

Folsom—Jackson Tabor—A week of high winds. On the 12th a drifting snow storm accompanied by thunder. Frost on the 14th killed fruit that was in full bloom, but where the blossoms were not out there seems to be no injury. Grass is coming on slowly; alfalfa is looking well. Think all danger of loss of stock is past. Highest temperature, 68; lowest, 17; rain, 0.30.

Gallinas Springs—Jas. E. Whitmore—Cold and backward week. Planting of corn and some garden truck begun. All fruits are backward. Highest temperature, 70; lowest, 28; no rain.

Glencoe (Lincoln County)—W. F. Coe—Fine weather. Wheat sown, planting corn and sowing oats progressing. Range stock is a little thin. Plenty of irrigation water.

Golden—R. M. Carley—Frost on the morning of the 13th killed all fruit in this section. High winds have prevailed. Grass growing slowly on account of the cold weather.

Laguna—Gus Weiss—No rain, as yet but the ground is moist. Wheat is all sown and fruit trees in full bloom.

Los Alamos—Wm. Frank—Unfavorable conditions: high winds are drying out the ground, and the river is low since last week. Farmers are putting in oats and alfalfa.

Lyon's Ranch (Grant County)—Chas. H. Lyons—Late spring apples are in bloom. Cool nights and frequent frosts, but a promise of a fine fruit crop. Range in better condition than usual at this time of the year; cattle doing fairly well; plenty of water in the river (Gila).

Mesilla Park—R. H. Hart—Soil is

still moist and crops growing nicely. In some gardens peas are in bloom. Young peaches are forming from the blossoms. Plenty of irrigation water. Highest temperature, 79; lowest, 34; no rain.

Miera—F. Miera—Green grass about an inch high. Losses on sheep have ceased. Calves are seen on the range, and there are good prospects for lambing. Total loss in sheep for the season not over five per cent; none on cattle.

Ojo Caliente—A. Joseph—Alfalfa already six inches high and looks well. Wheat coming up nicely and bids fair to be a good crop. Grass on the ranges growing rapidly. No grasshoppers have appeared in this immediate vicinity.

Santa Fe—U. S. Weather Bureau—High winds and cold nights; the soil has dried out rapidly but is still in fair condition, and irrigation water is plentiful. Trees have started but little; alfalfa looks well started but there has been little spring planting done. The killing frost of the 13th did little or no damage as fruit trees were not sufficiently advanced. Highest temperature, 60; lowest, 31; rain, 0.04.

Teel—Hugh A. Teel—Warm days but nights cool. Peaches, plums, pears, and cherries in full bloom. Gardens are planted; alfalfa is six inches high. Oak brush is budding; range grass starting; cattle in fair condition.

Wagon Mound—J. R. Aguilar—High winds nearly every day have dried up the new grass. Sheep doing well but cattle are in poor condition. Alfalfa coming up nicely.

Watrous—M. C. Needham—Considerable planting has been done but owing to the high winds and cold nights vegetation is making little progress. April is giving stock a most severe trial, but the loss so far is less than last year. Highest temperature, 67; lowest, 18; no rain.

R. M. HARDINGE, Section Director.

Certificate of Incorporation.

Territory of New Mexico,) Office of the Secretary.)

I, J. W. Reynolds, secretary of the territory of New Mexico, do hereby certify there was filed for record in this office, at 9 o'clock a. m., on the thirtieth day of March, A. D. 1903, articles of incorporation of the Coronado Copper Company, (No. 3391); and also, that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript thereof and of the whole thereof.

In witness whereof, I have hereunto set my hand and affixed my official seal this thirtieth day of March, A. D. 1903.

(Seal) J. W. REYNOLDS, Secretary of New Mexico.

ARTICLES OF INCORPORATION OF "THE CORONADO COPPER COMPANY."

Know all men by these presents, That we, Charles C. Cotton, Frank Ackerman, Charles H. Nance, residents and citizens of the territory of New Mexico, have associated ourselves together for the purpose of forming a corporation under the laws of the territory of New Mexico; and do hereby make, execute and acknowledge the following certificate in writing, which, when duly filed, shall constitute the articles of incorporation of:

"THE CORONADO COPPER COMPANY."

First. The full names of the parties forming said corporation, are the names subscribed hereto.

Second. The corporate name of said corporation shall be, "THE CORONADO COPPER COMPANY."

Third. The object for which said company is formed and incorporated is for the purpose of acquiring by purchase, lease, discovery, location, grant or otherwise in any lawful manner, mines, mining property, tunnel sites, ditches, water rights or anything thereunto appertaining; to prospect, hold, own, lease or acquire, operate, mortgage, control, work or develop mines or mining property, claims and tunnel sites, shafts, or any kind or description of mining property whatsoever; and every kind or description of land or water rights, rights-of-way, ditches, mill sites, lakes, ponds, reservoirs, or any rights or claims thereto incident, appurtenant and appurtenant; to mine, work, hold, own, purchase, sell or dispose of, sluice, crush, wash, smelt, mill, concentrate, reduce, amalgamate or refine ores, minerals, quartz rock, gravel, clay, sand or any earth or mineral substance. To acquire by purchase, lease, erect, build, hold, manage, operate, control, sell, bargain or dispose of at will, houses, buildings, mills, smelters, concentrators, sluice ways, power works, hydraulic pipe lines, flumes, grants, mines, prospects, and all water rights, incidents appurtenant and appurtenant thereto, or in any manner belonging. To transact any and all business; to do any and all things, and purchase, acquire, own, hold, lease, let, bargain, sell, mortgage, grant, control and possess any mines, sluice ways, or any property, either real or personal, that may in anywise be incidental, necessary, advantageous or appertaining to the power, business or real affairs of this company. To pay cash for property, either real or

personal; to bargain, lease or trade for same; to issue full paid non-assessable stock in payment for mines, privileges, franchises, buildings, land and other property, either real or personal, incident to the general business of said company; provided, that nothing shall be done by said company that is inconsistent with the statutes of the territory of New Mexico or the law of the United States in such cases made and provided.

Fourth. The said corporation shall exist for a period of fifty years from the date hereof.

Fifth. The capital stock of said company is, and shall be one million dollars, (\$1,000,000), divided into shares of one dollar each and said stock to be full paid and non-assessable.

Sixth. The business affairs of this corporation shall be under the control and management of a board of five directors, elected, annually, and who shall hold office for one year, and until their successors are elected. In case of a vacancy in the board of directors, a majority of the actual members shall constitute a quorum for the purpose of filling a vacancy. The names of the persons composing the first board of directors, who shall hold for a period of three months, or until their successors are elected, are as follows: Charles H. Nance, Frank Ackerman, Charles C. Cotton, all of the territory of New Mexico, E. L. McAllen, of Prescott, Arizona, and Sherman T. Kimball, of Chicago, Illinois.

Seventh. The first meeting of the stockholders shall be held at the office of Frank Ackerman, in the Grant building, Albuquerque, New Mexico, on Saturday, the eleventh day of April, at the hour of seven p. m. of which all stockholders shall take notice, and no further or other notice shall be required or given.

Eighth. The operations and business of said company shall be carried on in the territory of New Mexico, and the principal place of business of said company shall be in the city of Albuquerque, in the county of Bernalillo, and territory of New Mexico.

Ninth. The board of directors shall have full powers to make any and all by-laws they may deem wise and proper for the management of the affairs of the company, for the purpose of carrying on every kind and manner of business of said company, both in acquiring any and all property, mines, prospects, rights, privileges and franchises, and in disposing of all property, mines prospects, rights, privileges and franchises, as shown to be within the object and power of said company.

In testimony whereof, we have hereunto set our hands and seals this twenty-third day of March, A. D. 1903. (Signed)

CHARLES C. COTTON. (Seal) FRANK ACKERMAN. (Seal) CHARLES H. NANCE. (Seal)

Territory of New Mexico, County of Bernalillo—ss.

On this twenty-third day of March, A. D. 1903, before me, a notary public in and for the said county and territory, personally appeared, Charles H. Nance, Frank Ackerman and Charles C. Cotton, to be known to be the persons described herein, and who executed the above instrument, and acknowledged the same as their free act and deed.

In testimony whereof, I have hereunto subscribed my name and affixed my seal the day and year above written. (Signed)

CLIFTON HILL, Notary Public.

My commission expires 1906.

ENDORSED.

No. 3391.

Cor. Rec'd. Vol. 5, page 235.

ARTICLES OF INCORPORATION

THE CORONADO COPPER COMPANY.

Filed in office of secretary of New Mexico, March 30, 1903, 9 a. m.

J. W. REYNOLDS, Secretary.

Moore-Maher Marriage.

At Deming on Wednesday occurred the marriage of E. W. Moore, of Albuquerque, and Miss Mollie Maher, of Deming. The wedding was a very quiet one and held at the home of a friend of the bride. The young folks boarded a train there shortly after the ceremonies were concluded and came to this city, where they will reside in the future. The groom is a trusted employe at the local Santa Fe shops and a member of the

OFF FOR PENITENTIARY.

Deputy Sheriff Newcomer, and Jose Lucero, an official of the county jail, left this morning for the territorial penitentiary with eleven prisoners who were given their deserts by Judge Baker yesterday. Bernalillo county will be well represented at New Mexico's home for the wicked, and the old county jail will be reduced to a normal capacity.

There was one woman in the line of shackled prisoners as they boarded the train. She is Placida Apodaca de Samora, who made an assault with a murderous intent on one of her gentlemen friends some months ago, for which she will do time for one year.

Leading the line of prisoners as they marched the line of the platform of the Santa Fe station this morning was John Hickey, the heavyweight telegraph operator, who by being caught for forging a telegraph pass will enlist in the government service for one year. He will make a good brick hand. It was by the alleged use of a pen that he was confined in the legal pen.

John Willis and Arthur Drake, who touched Mike Mandell and Simon Stern for a bunch of clothes, will wear the stripes for one year.

Charles Robinson was in the parade. He received eighteen months for working a bogus check on S. Vann & Son.

Three other one year men were: James Daniels, forgery; Charles Mason, larceny from dwelling, and John Dougherty, larceny and breaking jail. James P. Deming won the premium roll. He will do time for two years and six months for forgery.

Justo Mares, the Santa Fe store house employee, whose wholesale stealings caused a sensation, will now sing that beautiful ballad, "Stars and Stripes," minus the stars, for eighteen months.

The eleventh man was James Nolan, another forger. He will be present at the institution for one year.

A batch of prisoners, no matter how good or evil looking, always attract attention. This morning as the county residents marched from the depot to their car, the curious public made many inquiries as to who a certain person was and what was the offense. Many questions were asked regarding the old woman with a sad and emotionless face who trudged along in the rear.

When an over inquisitive person was told that she was sent up for attempting to kill, a look of horror would creep over the face and not another word would be said.

To come in contact with a prisoner, who has violated the laws of his or her country, no matter how small an offense may be, always fills an interested spectator with a temporary fear or horror of the man or woman, and under the punishing hand of the law by the steel bracelets and chains.

While none of Bernalillo's delegates are serving time for any extremely serious offenses, they, beyond all doubt, are receiving their just dues and are far better off under the just hand of the government.

LAMOGORDO BAPTIST COLLEGE.

Faculty Elected for Coming Year to Aid in Building Up the Institution.

Wednesday, the board of directors of the New Mexico Baptist college met and transacted some very important business. On recommendation of President T. H. Claypool, six instructors and one registrar were elected for the year 1903-1904. The elected are: T. H. Claypool, principal of the preparatory department; Prof. M. H. Duncan, principal of the college department; Rev. C. R. Taylor, bible department; Prof. Willie T. McGee, singing instruments and art; Miss Estelle Edmondson, piano; Prof. J. W. Berry, commercial department; W. H. Claypool, registrar.

Professor Avery is a graduate of Kentucky university, and is a man who is well qualified for the position which he is to hold. He comes from Alabama. He will offer courses in bookkeeping, typewriting and shorthand.

Professor Duncan comes from Texas. He is a teacher by nature, a scholar by profession. He holds two diplomas, one from Baylor university and one from Yale university. He worked his way from the farm through these great institutions of learning, and now, with his brawn and brain to assist in building up a grand and noble institution in this great southwest.

As to the other teachers of the college, this community and this country have ample opportunity to know them from the work they have done. This year the names of 114 students have been enrolled in the literary department of the college. Prospects for next year are, indeed, encouraging.

The people of this section of the country, as well as other sections, have been and are still struggling to make the New Mexico Baptist college a great institution of learning. And appreciation has been shown, not only good wishes, but by actions which speak louder than words. The cooperation of every person in this county, town and community is sincerely desired. The school stands upon its merits. The more one investigates the institution the greater interest he will have in it. As a business proposition, all are invited to visit the college and will receive a hearty welcome.

Funds Arriving at Fort Bayard.

On last Wednesday there was received in Fort Bayard by the quartermaster, the sum of \$23,000 for repairs on barracks and quarters. Work of repainting and repainting will be commenced immediately. New sidewalks

will probably be put in all around the quarters. Money has also been received for an electric plant, which will be set up immediately upon the arrival of the machinery.

PUSHING PRELIMINARIES.

Joint Committee of East End of Santa Fe Route Organize Saturday.

The committees appointed by the county commissioners and city council to look after the work of the Santa Fe road to Santa Fe met Saturday. They got down to business immediately and organized as a body by electing D. T. Hoskins president and C. C. Gise secretary.

J. D. W. Veeder was appointed a committee of one to procure a copy of the law authorizing the building of the road, in order that the committee might work within its limits and to write the mayor of Santa Fe to inquire what had been done over there. He was also authorized to notify Santa Fe that this committee had asked the Santa Fe railroad to furnish the engineer to reconnoiter and make the survey.

H. W. Kelly was appointed a committee of one to take up the matter with the railroad company looking to an immediate survey, after which the meeting adjourned subject to the call of the president.—Las Vegas Optic.

Alamogordo Murder.

Sheriff Hunter, of Alamogordo, is in the city looking for a Mexican who called another Mexican to his door Saturday morning, near Alamogordo, and brutally murdered him.—El Paso Herald.

THE ETHNOLOGIST.

H. R. Voth on a Visit to Arizona Indians.

H. R. Voth, the ethnologist, and who has studied the American Indian for the past twenty years, left last evening for the Moki Indian country in Arizona. He is in this part of the country in the interest of the Field Columbian museum of Chicago. During his two days' stay in this city he spent the greater part of his time at the Harvey museum and at the Indian school, where he was entertained by Supervisor Wright. Mr. Voth probably knows more about the American Indian than any other man, which was acquired by personal contact. The Field museum will soon publish the grammar and vocabulary of the Moki Indian and for this purpose has sent Mr. Voth to do the work. He photographed the Moki gods of the Harvey collection, which is said to be the finest collection anywhere outside of the Field museum. During his stay at the Moki reservation he will look out for the Harvey museum, and a consignment will soon be shipped to this city.

IMPORTANT MOVE.

For Mining Men—Census of Mines is Being Taken Throughout Territory.

Prof. F. A. Jones, well known as connected with the United States geological survey, who formerly was president of the New Mexico School of Mines, has been in the city for the purpose of taking a mining census of all the surrounding districts. Mr. Jones was given the work because of his vast experience as a mining expert, and for the reason that he is well acquainted throughout the territory. He has under him Stuart Ellis, of New York, and several other assistants, who are helping him carry on the work. He left yesterday for Santa Rita and from there will go to Fierro, Hanover and Pinos Altos. He will then return to Silver City and proceed to the Mogollon district.

This work is very important to the mining interests of the districts, and, as it is being conducted very carefully, will doubtless give most accurate information to all desiring to know of mines in any state or territory. The results and statistics obtained will be put in book form and will be available upon application to the head offices of the survey. This will be universally beneficial in that it will render information more available and will advertise with accuracy, and without exaggeration, the mines all over the United States. Since New Mexico has never boasted of any wealth which she does not possess, this mining census will prove of much benefit to her. It will record all the true facts in regard to her mines, and that is all that is needed to bring capital into the country.—Silver City Independent.

FELL OVER 100 FEET.

Francisco Griego Dropped to the Bottom of the Santa Fe Coal Company's Shaft.

Francisco Griego fell to the bottom of the shaft which the Santa Fe Coal company is sinking three miles northeast of Santa Fe, yesterday afternoon, about 2 o'clock. He was being lowered to the bottom and had descended about half of the distance when the rope broke, precipitating him to the rock covered bottom, a distance of over 100 feet. The shaft is over 200 feet deep. Those at the top called to Griego after the accident and he answered. One of the convicts engaged in helping with the work then mounted a horse and hastened to the city for surgical aid and not waiting to see how seriously Griego was injured. The work of sinking the shaft is being done by prisoners from the territorial penitentiary and Griego was superintending the work. Since the accident Griego has died.

Col. A. W. Harris, the Kingston miner, who was here yesterday, left last night for Denver, and from there he will go to St. Louis, taking in the world's fair decorative exercises on Thursday, April 30.

SUIT FOR DAMAGES.

In the United States court here today a suit was filed by Postoffice Inspector C. L. Doran against the Pullman Palace Car company for \$5,000 damages. The case bids fair to be an interesting one, inasmuch as it will be watched all over the country. Mr. Doran's attorney is United States Attorney W. B. Childers, of this city.

On October 31, last, Doran boarded a train at Albuquerque for Trinidad, Colo., and took a sleeping car. The Pullman conductor came along and demanded his transportation. Doran gave him his official commission. The next morning he hunted up the Pullman conductor and asked for the return of his credentials. The Pullman conductor told him he had turned all tickets over to the porter. Doran hunted up the porter, who told him he had given the commission to another man, who left the train at Raton, N. M. It was a month before Inspector Doran recovered the commission and in the meantime his pecuniary loss was great, and his liability, under his official bond, still greater.

The case has assumed an interesting phase and every one connected with the postoffice department in the United States, as well as every traveler who is compelled to yield to the almost peremptory demands of Pullman conductors and porters, will be interested in its outcome. Attorney Childers has taken hold of the case with a view of fighting it to a finish.

TRIAL OF BOODLERS.

Grand Jury Reassembles While St. Louis Boodler is Tried.

St. Louis, April 22.—The investigation by the grand jury of legislative scandals has been adjourned for a time to enable Circuit Attorney Folk to take up the trial of alleged local boodler cases. In the criminal division court before Judge Ryan the case of Louis Decker, former member of the house of delegates, under indictment charging perjury in connection with the evidence he gave before the grand jury in regard to money used to pass the suburban street railroad franchise bill, came to trial today.

New York Stock Exchange.

New York, April 22.—The members of the New York stock exchange abandoned business today to devote themselves to ceremonies incident to the dedication of their handsome new building. It is just two years since the work of tearing down the old building to make room for the new one was commenced, and during that time the members have been accommodated at the New York produce exchange. The new building, which presents a striking appearance, has been arranged solely for the comfort of the members.

MINE WORKERS.

President Mitchell Trying to Adjust Labor Grievances.

Wilkesbarre, Pa., April 22.—President Mitchell, the district presidents and board members of the United Mine Workers met in executive session today to complete arrangements for the adjustment of the mine workers' grievances. They expect to complete the work today and President Mitchell will return west tonight unless he decides to go to Toronto. He sent notices to the presidents of the local roads today that President Nichols, Fahey and Deety had been appointed as the miners' representatives on the board of conciliation and asked that they make their appointments as soon as possible, so that a meeting can be held.

The Correct Version.

Albuquerque, April 22.

In regard to that part of an editorial appearing in this morning's Journal-Democrat, under the heading "A Boomerang," which reads as follows, "Another attempt of the same character to misrepresent the labor organization was made by the same paper about ten days ago, when it announced without a shadow of authority that a certain important meeting had been declared off, and would not be held."

I wish to say that it was I who wrote the notice and not any member of The Citizen editorial staff. On Wednesday evening the Carpenters' union held a meeting, at which there was present a member of the city council, who advised that the union ordinance be allowed to remain over a couple of weeks, on account of so much work before the city council, and assured that body that the ordinance would go through without any opposition. Organizer A. L. Weems was present at the meeting, and it being the sense of the Carpenters' union that the request should be complied with, he talked to various delegates of the Central Labor Union in regard to the matter. The opinion seemed to be general that the meeting of the Central Labor Union should be postponed. I was requested to print the notice, which I did. I had no authority other than that of Mr. Weems. The Citizen was in no way responsible for the article.

HARMAN H. WYNKOOP.

THE SUNFLOWER MINE.

The Manager Says Machinery Will Be Put in as Soon as Water is Reached.

David Sanders, secretary and general manager of the Sunflower Mining company at Estey City, N. M., was in El Paso on his way from his home in Kansas to the property. When seen by a Herald man Mr. Sanders said he was on his way to the property to contract for the assessment work. Last year he says the company did

quite a little work on the property in the hope that the leaching plant at Estey City would start up, but so far that plant has not started, and there is very little hope of its starting up again soon.

"After we get the assessment work done on the property then we will take up the matter of securing water," said he, "which is at the present time one of the greatest drawbacks of that camp. At present we have to haul water about five miles, and I figure that it costs us about two and a half dollars per day to get water for camp purposes. We will probably have to go six hundred feet to secure water, but indications are that we can secure a good supply of water at that depth."

"After we get the water supply then we will take up the proposition of putting up the proper kind of a plant to treat our ores."

"Our ores, which are copper, lie in a blanket formation, and we have gone in to a depth of about one hundred and ten feet on the formation where we have a vein thirty-five feet in thickness. As we get in on the property the ores get richer, and I think will average about 10 per cent copper."

Back from Colorado.

Sister Nolasco, superior of St. Vincent's sanitarium and hospital in this city, returned last night from Colorado Springs, Colo., where she was present at the dedication of the new sanitarium there, built for the Sisters of Charity. The new building at the Springs was erected at a cost of \$25,000, and Sister Rose, the superior at that place, is entitled to much credit, for since going there twelve years ago she has paid a \$12,000 debt on the old building, besides raising enough money to be able to pay \$5,000 on the new building. The Sisters of Charity are going to build a new sanitarium here and that was one reason Sister Nolasco wanted to see the Colorado Springs sanitarium. The building there has thirty-three new rooms, the former building being still retained in use.—New Mexican.

POLICE COURT.

In Judge Crawford's court this morning the case against William E. Baird, who, it is alleged, deserted his wife and child on December 1, 1901, was called. Attorney Medler asked that the case be continued until Monday at 2 p. m. on account of United States Attorney Childers, who is Baird's lawyer, being out of town. The case was postponed and an additional bond filed for Baird's appearance.

Nat Logston got full of fire water yesterday and pleaded guilty this morning. Five days for reflection and labor.

BACK TO CHICAGO.

Dr. R. F. Connor, a prominent osteopath of Chicago, after a month's sojourn at Faywood hot springs in Grant county, came in from the south this morning and between trains was a pleasant caller at The Citizen office.

The doctor goes home thoroughly rejuvenated in health and ready to encounter again his big practice. He informed The Citizen that Manager McDermott intends to beautify the hotel plaza by the planting of trees, shrubbery and the sowing of grass, and will also erect a telephone line to connect the resort with a nearby station on the Santa Fe railway.

"Another move in contemplation by Manager McDermott," said the doctor, "is that guests stopping at the hotel can, in a very short time, purchase railroad tickets at the hotel and have their baggage checked there for all points, thus saving guests the annoyance of rechecking and securing tickets at regular railway stations." Dr. Connor says that J. H. Tracy, who was at Faywood for rheumatism and an disordered liver, has returned to his home at Faywood had quite a nice list of guests during the past month.

Judge McMillan in Washington. A special dispatch from Washington dated April 22, says: Judge D. H. McMillan, of Roswell, N. M., has arrived here in response to a peremptory order of the department of justice to attend the further hearing in his case. It is believed final action will be taken by the department in a short time. While it is not certain that Judge McMillan will leave the service, there are many applications for his place, the number including half a dozen from New Mexico and several from other states.

Notice of Suit.

Territory of New Mexico, County of Bernalillo, in the District Court. Minnie Moore Bachelier, plaintiff, vs. Roscoe M. Bachelier, defendant.—No. 6327.

Notice of Suit by Publication. Notice is hereby given to the defendant, Roscoe M. Bachelier, that the above entitled action is pending in the above mentioned court.

That said action is commenced by Minnie Moore Bachelier, plaintiff, against Roscoe M. Bachelier, defendant, praying for an absolute divorce from said defendant on the ground of cruel and inhuman treatment. Said defendant, Roscoe M. Bachelier, is hereby notified that unless he enters his appearance in said cause on or before the 20th day of June, A. D. 1903, a decree pro confesso will be entered against him by default.

Witness my hand and seal this 16th day of April, 1903.

W. E. DAME, Clerk.

Attorney for plaintiff, postoffice address Albuquerque, N. M. First publication April 25, 1903; last publication May 30, 1903.

CAUSE UNKNOWN.

The coroner's jury impaneled to hold an inquest regarding the sudden death of Myron J. German, the Santa Fe Pacific brakeman, who was found dead in the caboose of his train crew, Monday morning, returned a verdict at 12:30 this noon that death resulted from cause and causes unknown to the jury.

Conductor Frank A. Murphy, who was in charge of the crew with which German was connected was the first witness to testify. He stated that the crew came in at 9:40 Friday night and that German was perfectly sober when they arrived here and had always been sober and industrious on all previous trips; that the story circulated intimating that German had been drunk for two weeks and was a habitual drunkard was absolutely false and without any foundation whatever, as on no occasion while German was on duty had he ever seen him in an inebriated condition.

He further stated that when the crew reported for duty at 10 o'clock Saturday morning, he talked with German in the office. German was asking for a lay off, saying he was not feeling well, and when informed by Mr. Murphy that the entire crew had been released until Monday morning he departed for his home.

Conductor Murphy had an affidavit drawn up to the effect that German had been a sober and industrious man while in discharge of his duties, which was up to within forty hours of his mysterious death.

Ed. Lovitt, the rear brakeman of the crew, testified that he had entered the caboose between 10 and 11 o'clock Sunday morning, to clean up the caboose, but seeing German laying on a bunk at the other end of the car, and supposing he was asleep, he left the caboose without disturbing German, not even going to the part of the car where German was lying.

When the reports, which were circulated, that German had been drinking at various saloons, were investigated, they were found to be without any truth whatever. It was stated by Dr. Elder, who examined the body, that the little over a half pint of whisky, which he is supposed to have consumed, would not have affected him in any way. The only thing found near the bunk on which he was found dead, was two half-pint bottles, one entirely empty and the other over half full. The stories regarding the amount of money he had in his possession when last seen and the amount when found, have caused a mystery to center around the affair. One party, whose name could not be learned, passed the mark among a few people that he had seen German Friday night with over \$200 in his possession; another story, which was spread by gossip, was that he had \$25 Saturday morning. When these statements, if they be true, are placed under consideration with the two bits found on his dead body, it looks mysterious.

His friends are anxious that a post mortem examination be held, as they fear that his unexpected death might have resulted from foul play. But such an examination, at the county's expense, is considered by some as impossible, since statements have been made which, if they are true, would not gain the support of a county in a post mortem examination. The remains are still at the undertaking parlors of O. W. Strong & Sons, and will undoubtedly be sent to Mrs. German's home in Eldon, Iowa, some time this week.

The verdict rendered by the jury has for the present cleared up the matter as nearly as can be accomplished, and unless more evidence can be brought to light the verdict rendered today will remain as final.

LOSES TO BAYARD.

Silver City Base Ball Team Went to Defeat—Score 14 to 22.

The base ball game at Fort Bayard Sunday showed poor playing on the part of both Silver City and Fort Bayard, as the score of 14 to 22 signifies. The fault on the part of the Silver City nine was lack of practice, and with Fort Bayard the loss of three good players was the cause. The first inning was a sample of what the whole game proved to be. Balls passed through Fort Bayard men's hands and Silver City scored seven times and went out to allow the soldier nine to do the same five times. Flies were missed by men on both teams, no one being able to get under the ball. Bunting was the only feature which could be praised at all, and this failed to continue with Silver City men after Hidalgo was put in the box.

If the Silver City nine now organized would do some hard practicing and go into the game with all the vim and eagerness which they are known to possess, there is no doubt that their success would be most marked. They should have the backing of the Silver City people, and with their own effort they could soon boast of one of the best teams in the territory. The material necessary for a good base ball team is here, that was evident in the game Sunday, for on several occasions good plays were made which with practice would mean excellent and exceptional work. All the boys need is the support of the town, and with practice they will develop a first class team which plays real ball. This result should be reached before the Fourth of July, for on this date the contest for the championship will begin and Silver City should come out in the lead.

The game Sunday was meant to be one of practice, and the agreement between the teams was that it should be.

Silver City had an inexperienced team and the Bayard team had one which had practiced. Naturally their efforts to run up a big score and make a poor game proved successful. Silver City, to play real ball needs Fort Bayard's support, but seems to gain only discouragement by playing there.—Silver City Independent.

BASE BALL.

The Reds of Old Town Have Organized for the Season.

Manager M. C. Ortiz will again take charge of the Reds this year, and he hopes to turn out a winning team. The club has been organized with the following well known players: E. C. Quier, Antonio Ortiz, William Brown, H. W. S. Otero, Alonzo Garcia, Cristoval Moya, Zeledon Oguin, E. S. Shepard, and J. Cosgrove. T. R. Duran will act as official scorer for the season. Last year the Reds won eleven games and were not defeated. On Sunday afternoon at 2:30 o'clock, at the fair grounds, they will cross bats with the Tigers and a good game may be expected. H. W. S. Otero will do the twirling for the Reds, and if he is in his old line form of three years ago, when he pitched the ball team of the New Mexico Military institute to victory, the Tigers batters will find his curves hard to hit.

The First Regiment band will be in attendance and the Coma Estomas quartet will also be present. A royal good time is assured.

The Base Ball Situation.

Albuquerque has always been noted for its base ball teams, which are recognized all over the southwest as the superiors of those of any other city. Whenever a game is arranged between an outside team and the Albuquerque team players are imported to help them to victory. But not so in this city. There is plenty of material to select from here, and there are few players without professional engagements who are any better than those we have right here at home. Why nothing has been done to organize the famous Browns this season is not known. The public is base ball hungry and a visiting team against our boys would be a great drawing card. Among the players to select from are such men as Wilson, Vorhes, Quier, Cosgrove, Cavanaugh, Taylor, Patterson, Hellweg, Barrett, Manuel Otero, Merritt, Ortiz, Brown, Coulter, Hale, Rhodes, and several others. There are teams at Roswell, Socorro, Gallup, El Paso, Las Cruces, Silver City, Deming, Bayard, Santa Fe, Las Vegas and Raton who want games either here or in the cities mentioned. On the Fourth of July there will be a valuable purse hung up which will be worth while going after, but if reorganization is left till too late the team will not be in the finest condition. Ball players, get together and do something!

FIGHTING ARENA.

A special dispatch from El Paso, Texas, under date of April 20, says:

There is a proposition on hand among the local sportsmen to pull off a series of prize fights in Juarez. President Diaz has just issued a new order, which provides that fights may be brought off in any state in the republic so long as the consent of the governor of that state is secured. The consent of the governor of Chihuahua can be secured.

The promoters are already going ahead and forming plans to build a big clubhouse in that city and arrange to pull off many sporting events of note that are now pulled off in the eastern cities; in fact, they are working on much the same lines as did Dan Stuart, who pulled off the Fitzsimmons-Maher bout in this vicinity several years ago and who tried to get a concession from the Mexican government to pull off prize fights in Juarez. The first fight will occur May 9.

DEATH OF MILTON MCKEEHAN.

Father of Frederick McKeehan, Formerly of this City, Died at Hillsboro, Ohio.

A short time ago, Fred B. McKeehan, formerly of the United States marshal's office, this city, now stationed at El Paso, was called to Hillsboro, Ohio, in response to a message announcing the illness of his father, whose death occurred after his arrival at the old home.

The Citizen reproduces the following article from the Hillsboro, Ohio, Gazette:

Milton McKeehan, president of the McKeehan-Hiestand Grocery company, of this place, died at his home on Walnut street on Wednesday morning at 3 o'clock, after an illness of about three weeks. His death was not unexpected, as his condition had been precarious for some time, but the end came suddenly and painlessly, and was due directly to a weakened heart.

He was born in Sinking Spring, this county, about 66 years ago, and developed a fondness for mercantile pursuits and in early life was engaged in the grocery business in Cynthia, Piqua county, and later at Locust Grove, Adams county. In 1867 he removed to Hillsboro and was engaged in the retail grocery business for about fifteen years, and then became a member of the jobbing firm of Amen, Gregg & Co. Later the McKeehan-Hiestand Grocery company was organized and he was made the president of this large establishment and continued to act in the capacity until the time of his death.

Mr. McKeehan leaves a wife, who is a sister of Senator Foraker, and five children, as follows: Mrs. S. T. Logan, of Westwood; Miss Fannie, now engaged in teaching school at Redlands, Cal.; Frank, who resides here; Fred, of El Paso, Texas; and Homer, of Cleveland.

COMMISSIONERS MEET.

The territorial irrigation commission is in session in Santa Fe at the office of Col. George W. Knaebel. The meeting was called to order by former president G. A. Richardson. But very little business was transacted, owing to the absence of the Dona Ana county member, C. E. Miller, who arrived in the city later, and the board was organized at a meeting that was convened at Colonel Knaebel's office at 1:30 o'clock p. m.

The members of the commission are all present. Following is a list of those who constitute the board: G. A. Richardson, of Chaves county; Carl A. Dales, of Valencia county; Charles E. Miller, of Dona Ana county; Frank Springer, of San Miguel county; Col. George W. Knaebel, of Santa Fe county.

Board of Dental Examiners.

The territorial board of dental examiners held a meeting at the office of Dr. Charles N. Lord in Santa Fe Saturday for the purpose of organizing.

The members of the former board present first met and after transacting some unfinished business, adjourned. The new board then convened and proceeded to organize by the election of Dr. L. H. Chamberlin, of Albuquerque, chairman, and Dr. Charles N. Lord, of Santa Fe, secretary and treasurer. These two were the officers of the former board. The other member of the outgoing board present was Dr. F. E. Olney, of Las Vegas. Dr. E. L. Hammond, of Las Vegas, was the other member of the new board present. Dr. A. A. Bearup, of Carlsbad, was absent.

The following dentists were granted permanent certificates to practice: Dr. E. A. Swanson, Albuquerque; Dr. W. E. Schott, Deming; Dr. Clifford H. Nelson, Roswell.

Appropriate resolutions were adopted anent the death of Dr. D. W. Manley, of Santa Fe, who, prior to his decease was secretary and treasurer of the board for about ten years. The meeting adjourned Saturday evening, subject to the call of the chairman. The next meeting will probably be held at Albuquerque next fall.

Capital Building Commission.

The capitol custodian committee has adopted extensive plans for the improvement of the capitol grounds. Over \$100 worth of ornamental shrubs and trees have been purchased and will be set out this spring. An additional number of hydrants and a lot of water pipe have been ordered and will be used on the grounds in order to increase the water facilities for irrigation and sprinkling purposes as these have been insufficient. The committee has also decided to sink a deep well, from which the water will be pumped by an engine in order that a plentiful supply of the life giving fluid may be ready for all purposes at all times. Many repairs in the interior of the building have also been decided upon and the second floor is to be strengthened by the putting in of strong steel girders. All of the painting necessary on the exterior and in the interior of the building to make everything look handsome and in first class shape, will be done during the earlier part of the summer. An appropriation was made by the last assembly for this purpose and to pay for these needed improvements. Work thereon will commence immediately after the President's visit next month.

LANDS WITHDRAWN.

Orders Issued by Secretary Hitchcock to Further Purposes of Irrigation.

Secretary Hitchcock has ordered withdrawal from temporary settlement or entry, or other form of disposal except by homestead laws, of lands in Colorado and New Mexico recommended by the geological survey for the purposes of irrigation. The lands withdrawn in New Mexico include one township for the Grand River survey in the Santa Fe district, one township for the use of the Urton lake project in the Roswell district and three townships for the same project and three townships for the Pecos reservoir system in the Clayton district.

About Fruit.

Cosme Herrera, fruit grower of Espanola, returned home this morning after transacting business in this city a few days. He states that the prospects for a good crop of fruit this season are bright. A peculiar condition exists at Espanola and San Ildefonso. Mr. Herrera owns a large orchard, near each of these towns. His two orchards are about seven miles apart. At Espanola his peaches and apricots have all been killed by cold, but at San Ildefonso they were not damaged at all and are in full bloom. He says that the fruit that has been killed was not destroyed by the recent frosts as the general impression seems to be but by a heavy snow that fell in January and clung to the trees.—New Mexican.

Oklahoma's Rapid Growth.

Oklahoma City, April 22.—Today Oklahoma entered upon its fifteenth year it being on this date that the first installment of Indian lands was opened to white settlers. Added to the first small tract thrown open to settlement were adjacent Indian lands opened from time to time until today the territory has an area about equal to that of the state of Ohio. Today the territory has a population of 400,000 and the assessed valuation of property exceeds \$50,000,000. When Oklahoma was born only one railroad traversed the territory; now there are nearly a dozen with many branches and extensions in progress of construction.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on Rheumatism.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., April 14.—The season thus far has been slightly cooler than usual, but very favorable, owing to the steady weather and the moist condition of the soil. Spring work has progressed rapidly in all but the colder sections of the north, and as far as farm work is concerned the season is more forward than usual, although the steady cold of the nights has kept vegetation back. In the valleys, from Espanola and Santa Fe south, spring wheat is about all in, and much of it up and looking very well. Some corn has been planted in the lower valleys, and plowing for corn is well advanced in the northern valleys. Alfalfa is starting nicely, and an early and good cutting is expected. The season has had an unusual amount of precipitation in all sections except the north-eastern, and at present the streams are running full, with deep snows in mountains to assure a steady supply for many weeks. The steady cold kept back the fruit trees of southern sections past the time when frost could be expected. At present apples, plums, peaches and apricots are in full bloom in the extreme south, but in the colder sections of the north buds are hardly started. Reports show that peach trees were badly winter-killed in the Espanola valley section, and in other scattered sections of the north, but other fruits appear very promising. As a rule all kinds of stock seem to be in very good condition, excepting in some parts of the northeast adjacent to the mountains, and green grass is coming on rapidly. Altogether the season is opening up very auspiciously.

The following remarks are extracted from the reports of some correspondents:

Dorsey—Will C. Barnes—No crops yet but plowing well under way and all in excellent condition for working. Rain just now would be beneficial. Very little wind so far this spring. No ice.

Espanola—P. H. Leese—Very favorable weather during the past week. Heat is up and growing nicely. Peach buds are badly winter-killed, but other fruit buds, although late, appear to be in good condition. Ditches are full, and the Rio Grande is rising steadily.

Poehom—Jackson Taber—Favorable spring the past week excepting for the high winds. Grass is starting on the range and with a rain or snow would be fine. Alfalfa is started and promises an early cutting; peaches and crabapples will soon be in bloom. Losses among cattle have been very light in its neighborhood, and we think the danger line is past. Highest temperature 70, lowest 28, no rain.

Golden—R. M. Carley—Tree are beginning to bloom, and the mesas look green and grass growing fast.

Hobart—W. H. Hough—Wheat is growing well; the soil is moist and there is plenty of water for irrigation. Peach trees mostly winter-killed. Apples, plums and cherries look promising. Vegetation more forward than usual.

Los Alamos—Wm. Frank—General conditions good. Planting is under way along the Sapello, but a scarcity of seed will prevent many of the poorer soils from planting. Alfalfa is up and looks fine. All trees are still dormant, and the ditches are full, there is plenty of water in the river, and a good supply of snow can be seen from here in the mountains.

Meilla Park—R. H. Hart—The early spring was somewhat backward, being cold. Peaches, plums, apples and apricots in full bloom and looking out. Alfalfa well under way in growth. Heat is up and growing nicely. Plenty of water for irrigation. Highest temperature, 84; lowest, 34; rain, .08.

Rowell—W. M. Reed—Planting corn and gardening progressing rapidly. Alfalfa coming up nicely. Peaches were badly injured by earlier cold, but apples and other fruits look very promising. Highest temperature, 89; lowest, 28, rain, trace.

Ojo Caliente—A. Joseph—The recent April showers have started grass and alfalfa nicely, and present prospects are most promising. The streams are now full and running over with snow still in the mountains.

Weber—E. H. Biernbaum—Unsettled, changeable weather. Wheat and alfalfa have been planted. Soil is in good condition. River is full of water, but ches have not yet been cleaned. Ice is coming on fast. All kinds of stock are very poor.

Santa Fe—U. S. Weather Bureau—The past two weeks have been considerably warmer than usual for this season, but the spring altogether has been slightly cooler than normal. Some wheat has been sown, and plowing for corn is well begun. Vegetation is rather backward for the season, and little work has been done, but the soil is in fine condition, and gardening and farm work will be pushed vigorously the coming week if the weather remains so favorable. Vegetation not sufficiently advanced to be injured by the low temperature of the 13th. Highest temperature, 65; lowest, 22; rain, .08.

R. M. HARDINGE,
Section Director.

Due Notice is Served.
Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. B. H. Briggs & Co.; S. Vann & Son.

CIVIL DOCKET.

Cases Called Yesterday and Set for Trial by Judge Baker.

In the district court yesterday the civil docket was called and the following cases were set for trial during the March term:

April 21.
William H. Prior vs. Rio Grande Irrigation and Colonization Company.
Simon Stern vs. Martha Barr et al.
Marcella H. Grunsfeld vs. O. Bachechi & Co.

April 22.
Territory of New Mexico vs. Sophie Alexander et al.
T. N. Wilkerson, trustee, vs. M. G. Chase et al.
John A. Lee vs. J. G. Albright et al.

April 23.
J. M. Wheelock vs. W. P. Metcalf.
Hilford Bros. vs. Ramona L. de Baca.
Territory of New Mexico vs. Pearson Real Estate, etc., 1901.

April 24.
In re. Revocation of will of S. D. Wilson.

April 25.
A. W. Rice vs. John W. Schofield et al.

April 26.
Frank P. McClure vs. Bachechi & Glom.
Raymond R. Ripley et al. vs. Cochiti Gold Mining Company.
W. Moore Clayton, assignee, vs. Augustus Lopez.
And all appeal cases.

NO HUMBUG HERE.
Albuquerque Endorsement is What Counts with the Albuquerque Public. You can't fool the public all the time. They will find you out at last. Every time a man is fooled. Another skeptic is made. Many the remedy that makes the skeptic. Because it fails to keep its promises. Doan's Kidney Pills bring renewed reward. They cure the skeptic. Plenty of proof of this at home; Albuquerque proof for Albuquerque people. Here's a case of it: C. G. Lott, for ten years stationmaster in Albuquerque, now retired from active care of life, residence 315 North Arno street, says: "I had attacks of backache stretching over a period of three years. One of them occurred shortly before Doan's Kidney Pills came to my notice and I went to the Alvarado Pharmacy for a box. I knew the cause of my trouble arose from imperfect action of the kidneys because the behavior of the kidney secretions and their condition fully proved it but what to do to check the trouble was a mystery. Doan's Kidney Pills effectively stopped the difficulty. If everyone in Albuquerque recovers as undoubtedly benefit as I from that remedy, kidney complaint, backache and trouble with the kidney secretions will cease to exist in this vicinity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

April 28.
Grunsfeld Bros. vs. D. R. Brownell et al.
J. A. Henry vs. Jacob Gross et al.
B. S. Rodey vs. Fernando Armijo.
Aurelia Hellweg vs. A. H. de Bled-soe.
In the matter of the estate of Aurelia Barela, etc.
M. W. Flournoy vs. J. G. Osgood.
William Chaplin vs. George K. Neher.

April 29.
Territory of New Mexico vs. Abraham Staab.
Mrs. L. E. McKenzie vs. Henry Simpson.
Ellen L. Lockhart vs. Jacob Schick et al.
Andrew W. Cleland, Jr., vs. Louis Hostetter et al.
Victoriana Padilla vs. Juan Padilla et al.
Joseph Badaracco vs. George K. Neher.

April 30.
P. S. Simpson vs. Rio Grande Irrigation and Colonization Company.
Switzer, Pembroke & Co. vs. Leaser & Lewinson.
Territory of New Mexico vs. Cristoval Romero et al.
Territory of New Mexico vs. Giovino Garcia.

May 1.
Territory of New Mexico vs. J. A. Johnson.
A. A. Keen, trustee, et al., vs. J. A. Henry.
Rosello Armio et al. vs. Sofre A. Alexander et al.

May 2.
C. J. Newhall vs. N. B. Field.
May 7.
De Priest & Sayers vs. Carl Hoffman et al.

June 9.
Rena Potter, etc., vs. Water Supply Company of Albuquerque.
William Farr vs. W. H. Jack et al.

June 10.
The Cattle Sanitary Board of the Territory of New Mexico vs. C. L. Fowler.

Good for Children.
The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of cough, croup and laryngitis because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. B. H. Briggs & Co.; S. Vann & Son.

Clerk of Land Commission.
Mrs. Anna Leeson, of Santa Fe, a very competent and reliable stenographer and typist, has been appointed clerk in the office of A. A. Keen, territorial land commissioner.

For liver troubles and constipation.
There's nothing better in creation than Little Early Risers, the famous little pills.

They always effect a cure and save doctor bills.

Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. B. H. Briggs & Co.; S. Vann & Son.

Bad Man Arrested.
Marshal Curtright made what may prove to be an important arrest this afternoon when he placed behind the bars a young man by the name of Lon Williams, lately employed at the Montezuma hotel, on the charge of assaulting Louis R. Thyrion, chief of that hotel, with a revolver and also drawing a knife on some of the men employed at the hotel. It is believed that he is wanted in Texas for cattle thieving and possibly murder, as he has been heard to make the remark that he killed a man in Texas and had to go out. He gave his age, when arrested, as 19, but he looks to be at least 25. He is about five feet ten inches in height, weighs about 150 pounds, slim build, dark eyes, hair and complexion.—Las Vegas Record.

A Sweet Breath.
Is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet. B. H. Briggs & Co.; S. Vann & Son.

A. F. & A. M. in Mexico.
The Masons of Juarez have been informed that two new lodges of the Grand Lodge of Mexico have been formed and chartered during the past month. They are Washington Hidalgo lodge No. 2, of Chihuahua, and Hiram lodge No. 1, of Parral. Both lodges have a large membership and will do good work for the cause of Masonry.

Pneumonia is Robbed of its Terrors.
by Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time it will prevent an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

The Durango Herald says: San Juan county is the best fruit section of this territory, and it is making rapid growth. All that county now needs is the early building of the Albuquerque & Durango railroad.

LETTER FROM WASHINGTON.

Special Correspondence.

Washington, D. C., April 15.—The situation here, it would seem, is not understood in New Mexico, and many people there have a misapprehension of the real nature of the fight. Strong effort has been made by the McMillan forces in New Mexico to belittle the contest by an effort to make it appear that it is merely a conflict between McMillan and Judge Freeman. It seems that Judge Freeman is not a candidate for the place, and although it has been made manifest by the bar of New Mexico that he is their choice for Judge of the Fifth judicial district he has persistently declined to allow his name to be used in connection with the place. It is not known whether he would accept the office, if it were offered him, though he has never said he would not.

His position is simply this: That Judge McMillan is not a proper man for the place, and he ought to be removed and the president left free to appoint any one whom he may select. Your correspondent notices in a dispatch recently sent out that he was made to say that petitions and affidavits in behalf of Judge Freeman were offered. He was not connected with the inquiry anyway. It should have read that large numbers of petitions and affidavits in behalf of Judge McMillan were filed; that Judge Freeman was not present at the hearing.

The true situation here may be summed up as follows: Some time in January Judge McMillan was peremptorily called upon to make his defense to charges which had been pending here for a long time. He came here in the latter part of February or in March and filed an elaborate written answer, accompanied by voluminous letters, the purport of which are unknown to the public. It seems that his defense was not altogether satisfactory, whereupon he asked to be heard orally before the attorney general, which was granted. About this time the attorney general was preparing to take a vacation in the way of a trip to Florida. He told Judge McMillan that he would hear him orally immediately upon his return from Florida, about the first of April. It is to be observed that about that time also the president was preparing for an extended tour of the west. Judge McMillan took advantage of the situation to hasten back to New Mexico and prepare to enter upon the spring term of court, having directed the calling of juries for the Carlsbad term, which was to commence on the 30th day of March. Thereupon a large number of the best people of Eddy county filed in the department of justice a vigorous protest against allowing Judge McMillan to hold any other courts until he had answered the charges against him. In the meantime, the attorney general having returned from Florida, summoned McMillan to appear here in accordance with his own former request to be heard, and thereby prevented holding further courts. He thereupon returned to this city and had his hearing before the attorney general, being accompanied by his lawyer, Mr. Milburn, of Buffalo, and by his friend, Secretary Root.

What took place at the hearing the public does not know. No outside persons were allowed to be present. What the public does know, however, is this, to-wit: That the evidence disclosed was so extremely unsatisfactory to Judge McMillan that he asked still further time in which to get additional testimony. Notwithstanding that the charges against him had been pending for more than a year, and that repeated demands had been made upon him to answer them, his request for additional time was granted, and for the second time he was allowed to go back to New Mexico to get more affidavits or petitions.

Your correspondent does not mean to say that the department of justice desired to assist him to make his defense, but under pressure of powerful political influence, superinduced no doubt by a desire to afford him every possible opportunity to vindicate himself, it has extended and is still extending it to him extraordinary indulgence. It is understood here that Judge McMillan is taking advantage of the extension of his time to procure endorsements that have no relevancy to his case. The department is advised that he has some attorneys in New Mexico who are endeavoring to make it appear that he has the sympathy and respect of the people there. It just as well may be said that not a particle of doubt is entertained by the department of the truth of the charges against him. They have been clearly and satisfactorily proven and sooner or later Judge McMillan will be compelled to resign.

The effort upon the part of Judge McMillan's partisans to make it appear that it is a fight between him and Judge Freeman has been a failure. For nearly two months Judge Freeman has been here making a fight for the people of New Mexico. He does not permit his friends—of which he has a great number in this city—to urge his own appointment. It is a matter of indifference to him, and in fact, it is understood here, that he is pressing the appointment of Captain Reid, of Roswell, for the place.

I. M. BOND.
The surest and safest remedy for kidney and bladder diseases is Foley's Kidney Cure. Alvarado Pharmacy.

Candidate for Street Commissioner.
Friends are urging the appointment of Edward Lavelle, an old citizen of Albuquerque, to be street commissioner of Albuquerque, and Mayor Myers will be asked to name him for

the vacancy in the list of city officers, no appointment having been made last night for this office. Mr. Lavelle served five years, before coming to this city, in the street commissioners' department of the city of Chicago, and considers himself thoroughly conversant with such duties.

Chronic Bronchitis Cured.
"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Alvarado Pharmacy.

LIKE MILEAGE BOOKS.
The annual report of the mileage bureau of the Central Passenger association just issued shows that during the four years of its operation the bureau sold a total of 1,000,000 mileage books of the interchangeable type. This is an average of 250,000 a year, and if the books were all used they represent 1,000,000,000 miles of travel. These figures show the immense popularity of the interchangeable mileage book system. The books sold represent an original outlay of \$30,000,000, but the figures show that the bureau paid in rebates on unused portions of the books a total of \$10,000,000. Accordingly the revenue to the railroads from the use of the mileage books for four years was \$20,000,000. In this connection attention is called to the fact that travel on mileage books is but a very small fraction of the total travel, and the phenomenal success of the mileage book has led many general passenger agents to believe that they will ultimately result in a 2-cent a mile fare in all the territory and for the general public.

Dreadful Attack of Whooping Cough.
Mrs. Ellen Harrison, of 309 Park avenue, Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

Brakeman McMahon Killed.
G. W. McMahon, a brakeman in the employ of the Santa Fe, was knocked down Thursday morning at 10 o'clock at Tehachapi by the caboose striking him and both legs run over, says the Needles Eye. The injured man was immediately taken to the emergency hospital at Kern City, where a double amputation was found to be necessary. While the surgeons feared he would be unable to stand the operation, they took the chance to save his life, but the shock and loss of blood was too great and he died at 5:27 in the afternoon. He was about 42 years old and has been in the employ of the Santa Fe for about six months and was supposed to have a brother in San Francisco, but at the present writing he has not been located. Nothing further is known of relatives of the deceased, if he should have any.

A Chattanooga Druggist's Statement.
Robt. J. Miller, proprietor of the Read house drug store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Alvarado Pharmacy.

The railroad eating house at Carrizozo burned to the ground the other day. The fire was started by children playing with matches in the basement, some of them setting fire to the paper on the walls of the room. It is fortunate that the new hotel is just about ready for business, otherwise the traveler would have to bring his coffee pot and lunch with him while passing through that section of New Mexico.

Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. Alvarado Pharmacy.

O. D. Warnock left Alamogordo for Carrizozo to arrange for the construction of an engine house with six pits and a machine shop with an oil house, all to cost about \$5,000. The walls will be of corrugated iron and the roof of tin. An eating house must also be built to replace the one burned.

Foley's Kidney Cure makes kidneys and bladder right. Don't delay taking. Alvarado Pharmacy.

No "booster" can hold a position on any railway train on the El Paso & Northeastern when his habit is known. Such a fellow gets found out, but some times too late to save the lives of fellow employees, who ought to have seen to it that officials knew of the risks he took.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Alvarado Pharmacy.

Henry Lantry, of B. Lantry Sons, railroad contractors, doing work on the Santa Fe cut off, passed through the city this morning en route to his home at Strong City, Kan., from Belen, where he has been the past ten days.

NEW MEXICO TOWNS

FARMINGTON.

From the Hustler.
C. W. Bowman sold twelve head of work horses to A. T. Sullenberger, of Pagosa Junction; consideration, \$2,000.

J. E. Wheel, of Jewett, has sold his trading post to Harvey Towner, who will at once proceed to stock it up with a fine line of Indian stores.

S. J. and L. A. Walling, the former from Indian Territory and the latter conducting a trading store in the upper San Juan, arrived here for the purpose of securing a desirable site for the building of a residence.

Olof Nyhus, aged 23 years, who came here two months ago from Thief River Falls, Minn., for the benefit of his health, but evidently came too late, died recently and was buried from the Presbyterian church; services conducted by Rev. Lord. W. T. Mullarkey, of Flora Vista, an old family friend, attended the funeral and looked after the details for the bereaved father and mother, who reside in far off Minnesota.

From the Times.
W. S. Cook has purchased the Pierce ranch and will farm it this season.

The Odd Fellows and the Rebekahs will celebrate the eighty-fourth anniversary on Saturday evening of this week.

One of the rarest treats that has ever been enjoyed in Farmington was the musical and elocutionary entertainment given by Miss Minnie Hand, assisted by Mrs. Van Brocken Saturday night. Miss Hand showed rare dramatic art in her renditions and her selections covered the ground from the grave and somber to the light and humorous. A large number of her pieces were new to the audience and provoked continued laughter. Mrs. Van Brocken's vocal and instrumental selections were also much enjoyed.

R. P. and W. Guyton, of Waco, Texas, came in on the stage the other day. They are brothers and are going up on the La Plata, where they will have charge of what was formerly the Grandpa Fulcher apairy. They say there are a great many Texans who are interested in this country.

SANTA FE.
From the New Mexican.
Governor and Mrs. M. A. Otero and son returned from a four days' visit in Las Vegas.

A. M. Bergere, Esq., clerk of the district court, returned from Los Lunas, where he was for the purpose of sending men to his flocks of sheep at Antelope Springs, eastern Valencia county, to help during the lambing and shearing seasons.

Seventy-five young Catholics received holy communion for the first time at the cathedral Sunday morning at first mass and the service was very impressive. The little girls were dressed in white, with veils, and wreath and carried lighted candles in their right hands while the boys wore black suits, carrying bouquets and candles. In the afternoon in presence of the Very Rev. Antonio Fourchegu the same children renewed their baptismal vows and later were confirmed by the Rt. Rev. J. B. Vitaval. A number of others were confirmed.

An alarm of fire was turned in about 6 o'clock last evening. The blaze was in the residence on Grant avenue occupied by W. H. Goebel and started from a defective flue. The fire company responded promptly to the alarm and the fire was soon extinguished. The building, which is owned by J. H. Crist, of Monero, was damaged to the amount of about \$25 and damage to Mr. Goebel's household effects from smoke and water amounted to about the same.

The house and furniture were insured. J. V. Conway was slightly injured while aiding the fire company. He was ascending a ladder to reach the roof of the house when he was hit in the face with the nozzle of the hose. He was but a few feet from the ground and fell landing on his feet, but striking the ladder with his shoulder, bruising himself painfully.

WHITE OAKS.
From the Eagle.
John A. Brown will attend the Grand Army of the Republic encampment at Albuquerque.

Work is going right ahead on the North Homestake and Rip Van Winkle mines. Col. Prichard has good ore on the "Rip."

The Knappe amalgamating process is being installed by the Eagle Mining and Improvement company at the Old Abe and South Homestake mines. Four of the machines will be operated at the Old Abe mill.

Mrs. L. C. Bates, son and daughter, George and Miss Edna Pankey, mother brother and sister of Arthur Pankey, of this city, came in from Colorado, Texas. They intend to spend the summer here.

The Lynn Mining and Industrial company is making a mill run at the Old Abe mill this week. The ore is said to be a good average for the camp. Considerable development work is being done on this property and the results are, it is generally understood, satisfactory to the new company.

Rev. G. G. Hamilton, pastor of the Methodist church, informs us that his resignation has been in the hands of the presiding elder, T. L. Lallance, for several days. The presiding elder is expected here about the 28th, when Mr. Hamilton hopes to be released. Mrs. Hamilton and children will spend the summer at her father's home near

Minerals, Texas. Mr. Hamilton will travel for McGraw-Marden Co., New York, as publishers of Success, as traveling solicitor. His territory will embrace eastern New Mexico and the Texas Panhandle.

ALAMOGORDO.
From the News.
Henry Pfaff was looking after his interest in Alamogordo and Carrizozo this week.

H. H. McWilliams, who has been confined to his house for several days by sickness, is able to be out again.

Darby Day, general agent of the New York Mutual Life Insurance company, was here recently from Albuquerque.

Forrest McKinley, of the interior department, went into the mountains this week on official business. He says that "drift fences" are coming down.

E. M. Clark, auditor of the Southwestern Mercantile company, has returned from Mexico accompanied by his mother, sister and Miss Sheldermine, who reside in Philadelphia.

E. B. Bently, a young man who was sent to Alamogordo by a Masonic lodge at Auburn, N. Y., died here of consumption. The body was embalmed by A. J. Buck and shipped to Auburn.

The directors of the First National bank of Alamogordo this week decided to erect a building to cost \$20,000, a structure with frontage of fifty feet instead of twenty-five feet as was originally planned. The bank building will face west from the corner east of the Avis block.

JICARILLA.
From White Oaks Eagle.
Rob Raynard is working on the Hawkeye prospect.

Messrs. Hilton and White are talking of sinking their well in Juano gulch deeper, so it will give them plenty of water for their placer jig.

By the way, the Hawkeye showing up some rich ore at the bottom of the winze, with a good prospect of there being quite a body of it. The shaft is being rapidly sunk.

Messrs. Ross and Cline are having a successful year with their goats and sheep. Mr. Ross has had his shearing done, and got a very fine clip of mohair, about ten inches long and very fine.

M. A. Price has sold his group of placer claims to Mr. Hopkins with claims of Charles Daniels and E. J. Murphy, between Ancho and Rico gulches. The company intends to go to work at once.

T. J. Hoss, Colorado mining man, has been in Jicarilla all this week, looking for what he considers desirable property. He is well pleased with the property and has now gone to Roswell to meet some of the company. He will return right away and intends to obtain property here. Keep your eye on the gun, and don't forget it, there will be one of the largest camps here before the end of the summer that exists in the territory of New Mexico.

HILLSBORO.
W. W. Williams has disposed of his goat herd to J. C. Clemmons.

A. J. Hager and family have moved back to their mountain home at the saw mill.

Mrs. W. W. Williams left for Helena, Mont., where she will spend the summer with her mother.

Mrs. R. J. Jobson and her mother, Mrs. Clara Himrod, drove over from Lake Valley on Wednesday. The ladies have many warm friends in Hillsboro who welcome them. They will return home this afternoon.

The town is filling up with mining men again.

Mr. Davis, president of the Richmond Gold Mining and Milling company, visited the Mamie Richmond mine this week.

A new strike of eight ounce gold ore is reported from the Log Cabin mine at Tierra Blanca. The strike was made in the south level at a depth of 100 feet.

E. H. Wilson, secretary and treasurer of the Hillsboro Gold Mining and Milling company, paid Hillsboro an official visit this week. Mr. Wilson came in from California, where he had been looking after the consolidation of large quick silver interests in that state. From here Mr. Wilson went to New York City.

The South Percha Mining and Milling company is going right ahead with the tunnel on the Great Eastern property, with good results. This property is traversed by two strong, well defined leads running parallel to each other and about sixty feet apart. The tunnel now being pushed forward is on the lead known as the Stuck lead and is in under cover 90 feet and has an excellent showing of both high grade and milling ore which is being piled on the dump. A short distance from the mouth of the tunnel a cross cut has been started to tap the other lead known as the Mosey lead, which is considered by far the richer lead of the two. The cross cut is now within a few feet of the lead, which Superintendent Hirsch hopes the next ten feet of work will tap. Something unusually good is expected when the Mosey vein has been tapped and some development work done.

Some day the El Paso & Northeastern will be under the necessity of erecting a fine hospital building at Alamogordo, says the News.

THE CITY COUNCIL

The officers who will have charge of the city affairs for the coming year with one exception are the same as last year. The city officials reappointed by the mayor and approved by the council are as follows:

Chief of Police—Thomas McMillin.
City Attorney—John H. Stingle.
City Physician—Dr. J. W. Elder.
Plumbing Inspector—E. B. Cristy.
Electrical Inspector—D. J. Rankin.
Fire Chief—M. Nash.
President of Council—G. W. Harrison.

The meeting of the city council last night, at which every alderman was in his chair, was attended by a large delegation of public spirited citizens, and a delegation from the Central Labor union.

A letter from Symons & Co., of New York, concerning the electric street railway, was read by the clerk. A motion was made that the clerk be instructed to inform Mr. Symons by wire of the present status of the franchise negotiations. Motion carried.

A resolution of the Central Labor union, urging favorable action on the union labor ordinance, was passed and referred to the special committee having the matter in hand.

A resolution was introduced by Alderman McKee, providing that in future all contracts for city printing be let to the lowest bidder. On motion of Hubbs the resolution was adopted.

A resolution founded upon the recommendation of the board of health, was introduced declaring the swamps on the Hunsing-Cleland addition a nuisance, and ordering them to be drained and filled up.

City Officers' Reports.
Marshal McMillin presented the first report of the city officers. His report shows that the revenue from his office for the past year amounted to \$5,602, and that 1,182 arrests were made. The annual reports of the treasurer, clerk, street commissioner, sewer inspector and city physician were also submitted and read, and are published later in this article.

Sewer committee recommended that petition for Walter street sewer be laid on the table, as the city was lacking in funds. Report was filed.

Street commissioner reported that Kent avenue could not be closed by council without condemnation. Petition filed.

Special union labor committee, through Alderman Harsch, reported favorable on union labor ordinance, recommending its passage.

Special street railway franchise committee reported that the franchise of the New York men was more favorable to the city than any franchise yet presented, but that they were not ready to make a definite report.

Committee on street name changes ordinance reported favorably on that bill.

Ordinances.
Ordinance No. 223, making certain changes in the fees for the inspection of electrical connections and wiring was reported favorably by the fire committee and passed under suspension of the rules.

Union Labor Ordinance.
The union labor bill, providing that all the work for the city be done by union labor at union wages, and that all city supplies and printing bear the union label, was passed by a vote of 7 to 1. The bill does not cover the employment of prison labor on the streets.

The street name changes, providing for the change of the names of the streets running east and west, making the names conform on both sides of the Santa Fe tracks, was taken up and passed.

A notice ordinance, ordering the building of sidewalks on West Railroad avenue, between Eleventh and Twelfth streets, was passed.

Nominations.
Dr. G. W. Harrison was nominated as president of the council. On motion nominations were closed and Dr. Harrison was unanimously elected.

The nominations for city officers were presented to the council, which were confirmed by individual ballot, as follows:

City Marshal Thomas McMillin, reappointed.

Members of police force: Harry Cooper, Frank Rossi, Jose y Salazar, Alce Knapp, being a complete reappointment of the old force.

City Physician, Dr. J. W. Elder, reappointed.

City Attorney, John H. Stingle, reappointed.

Plumbing Inspector, Edward B. Cristy, reappointed.

Electrical Inspector, D. J. Rankin, who succeeds E. R. Hotelling. This nomination was confirmed by a vote of 6 to 2.

City Engineer, Pitt Ross, reappointed.

Chief of Fire Department, M. Nash, reappointed.

Members of Park Board: West Side, Noa Hild.

Mrs. T. C. Baffle resigned as a member of the library committee.

Library Board.

Mrs. A. B. Stroup, First ward, to serve until 1905.

Mr. A. B. McMillin, to serve until 1904.

Second ward, John H. Stingle, 1905.

Third ward, J. E. Elder, 1905.
Fourth ward, Mrs. William C. Butman.

Council Committees.
The mayor then named the following council committees for the ensuing year, giving every member of the council a chairmanship.

Finance—Grunsfeld, Hubbs, McKee.
Streets—Harsch, Harrison, Rogers.
Police—Rogers, McMillin, Grunsfeld.

Fire—Hubbs, Rogers, McMillin.
Water—McKee, Harrison, Harsch.
Grievance—Beaven, Grunsfeld, McKee.

Sewer—McMillin, Harsch, Rogers.
Building, Light and Fuel—Harrison, Hubbs, Harsch.

The mayor then closed his appointments with the name of A. J. Crawford to be police judge; reappointed.

Board of Health—Doctors J. F. Pearce, W. G. Hope, Aldermen McMillin and Harsch. The mayor and city physician are ex officio members of the board.

The city clerk was authorized to advertise for bids for city street work, teams, etc.; printing, and feeding prisoners.

The attention of the council was called to the act of the recent legislature, providing that owners of abating property must pay the cost of the street work and street sprinkling, and it was recommended that the number of street wagons and sprinklers be increased.

Mayor Myers, just previous to adjournment, thanked the council for their co-operation and assistance in official duties during the past year, which has placed the city in favorable condition, and has given the city a substantial basis for a healthy growth, and expressed his hopes that the existing conditions would continue.

FINANCIAL REPORTS.

Annual Statement of City Finances From City Officials.

At the city council meeting the financial reports of the several city officials, for the past fiscal year, were submitted and read.

The report of the city clerk, Harry F. Lee, shows the city in good financial condition, and is as follows:

To the Honorable, the Mayor, and Members of the Council of the City of Albuquerque:

Gentlemen—At the request of Mayor Myers, I have prepared a statement showing receipts and disbursements of the city for the past year and actual balances at the beginning and end of the year, after deducting outstanding warrants.

The period of time covered by the statement of receipts is from April 15, 1902, being date of former report of treasurer, up to April 15, 1903.

The statement as to expenditures includes everything contracted after April 1, 1902, up to April 1, 1903, just a year, with additional items to the amount of \$959.48, which were incurred or contracted for by the city prior to April 1, 1902. These items include the bill of A. T. & S. F. Ry. Co. for one-half expense of building sidewalk and viaduct, the amount paid by the city being \$600.08. This explanation is made for the reason that this statement is for your information in incurring expenditures for the coming year, and there is not any back indebtedness—that is, prior to April 1, 1903—to be paid.

The fixed pay roll for the coming year, as at present constituted, will be a little larger than during the past year on account of the creation of the office of city chemist, employment of a fire chief and slight increase in pay of the chief of police and police judge. The appropriation of \$25 per month to the Benevolent association is carried on the books for convenience and purposes of approval as part of the pay roll, although not properly a part thereof; while the labor on streets and sewers is carried under their respective heads. Your attention is also called to the fact that the lighting expense for the coming year, under contract made by the city for twenty-three additional lights, will occasion an expenditure of \$1,385.45 greater than the cost for the past year, while the cost of water will be about \$150 larger.

At the date of the treasurer's report, a year ago, there were warrants outstanding to the amount of \$11,288.50, while the balance in the general fund, including amount not used, received from the sale of viaduct bonds amounted to only \$9,975.49; there was, however, a balance in the interest funds of the various bonds issued, of \$1,447.78, and in the park fund of \$14.68, while the library fund has been overdrawn to the amount of \$62.32, and viaduct interest funds to the amount of \$83.74, leaving an actual balance in these various funds of \$1,315.40, which added to the balance in the general fund, made a total balance of \$11,290.85. The balances, however, in these funds, were never transferred to the general fund, although the treasurer paid outstanding warrants of \$11,288.50 in full, using the balances in all the funds. If these balances had been transferred to the general fund, there would have been a balance in the hands of the treasurer of \$2.39 with \$14.68 owing to the park fund.

Receipts.

Total brought forward.....\$43,985 43

Disbursements.

Total brought forward.....\$38,595 16

Balance in hands of treasurer.....\$ 4,490 27

This balance of \$4,490.27 is, of course, not confined to the general fund, none of the balances from the other funds having been transferred to the general fund. A year ago deducting outstanding warrants there was a deficiency in the general fund of \$1,313.91, this deficiency has been made up and there is now a balance in that fund after deducting outstanding warrants amounting to \$3,790.98, of \$1,224.39. This total balance in the hands of the treasurer, after deducting outstanding warrants is made up of all the balances in the various funds as follows:

General fund.....\$ 1,224 39

Construction city hall fund.....1,044 60

Interest bonds—1899 48.....364 89

Interest bonds—1899 58.....551 12

Interest bonds—1901 48.....1,052 32

Library fund.....127 60

Park fund.....111 65

Total.....\$ 4,576 57

Deduct overdraw in interest on viaduct bonds fund.....86 30

Total.....\$ 4,490 27

Treasurer's report will show a balance on hand of.....\$ 8,281 35

From this, however, should be deducted outstanding warrants Nos. 1664, 1788, 1820, 1860, 1868, 1869, 1871, to and including 1897, 1899, to and including 1907, 1911, 1912, 1914 to and including 1921, 1922 and 1924, amounting to.....3,790 98

Leaving a balance in the hands of the treasurer of \$4,490.27, as above set out.

Respectfully submitted,
HARRY F. LEE, Clerk.

The following brief report of City Clerk Harry F. Lee, of the collections of his office is also of interest. It shows that the city clerk has collected for the year, just \$1,665.50 more in licenses than has ever been collected by any former city clerk, going not only to show careful work on the part of the present city clerk, but a great increase in the business of the city. The report is as follows:

City Clerk, Harry F. Lee, makes the following annual report of licenses, inspection fees on dairy cows, and dog licenses collected during the year from April 15, 1902, up to and including April 14, 1903:
