VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, MAY 16, 1903.

NUMBER 88

## Territorial Topics

### SANTA FE.

From the New Mexican.  
The marshal and city police force should impound all stray animals, especially burros, found wandering about the city. This is a nuisance that should be promptly abated.

Miss Mabel Keleher, daughter of Michael Keleher, died at Galisteo yesterday morning of an affection of the throat. She was 14 years of age. Her father is a contractor in the employ of the Santa Fe Central railway.

The main reservoir of the Santa Fe Water and Light company is running over. It has a capacity of 450,000,000 gallons and the fact that it is full is assurance that there will be plentiful supply of water this summer.

Frank Lopez died at his home in precinct 4 at an early hour this morning aged about 55 years. Deceased had been ill but a few hours when his death came. He is survived by a wife, four sons and two daughters.

Suit for divorce was filed in the first district court for Santa Fe county this morning by counsel for Virginia Breton de Martin vs. John Martin. The plaintiff alleges that she was married to John Martin in 1888, and that he deserted her five years ago, since which time she has had no knowledge of his whereabouts, and has had to support herself.

The unsightly and ugly portal in front of the Delgado building on the west side of the plaza should be taken down by the city authorities, if the proprietor of the property does not do so. It has served its purpose and is not necessary today. The appearance of the west side of the plaza would be greatly improved if it were removed.

Col. J. Francisco Chavez, territorial superintendent of public instruction, is in receipt of a communication from William Farr, dean of the Nashville College of Law, in which it is announced that Colonel Chavez has been elected to receive the degree of doctor of law by the college. Colonel Chavez has written Dean Farr thanking him and the college for the honor thus voluntarily conferred upon him, but at the same time declining the honor.

Miss Bessie Overhous of Bland, has accepted a position as stenographer in the office of the Gibson Development company.

B. S. Applegate of Corydon, Ind., who has spent the past winter in Albuquerque for the benefit of his health, left for Denver after spending the previous night here with his friend, M. C. Miller, deputy in the office of Territorial Auditor W. G. Sargent. From Denver Mr. Applegate will go to his home.

D. A. Walker, treasurer of the American Consolidated Copper company, having extensive mining properties in Grant county, is in San Antonio, Tex., where he has large interests in a telephone system of the town. He will remain in the Texas town until June 1, thence coming to this territory to look after the company's interests.

Michael Berardinelli is very happy today and is smiling broadly. His wife presented him with another son. The child was born last evening. The mother and baby are doing nicely. This latest accession to the Berardinelli family of the tenth child and the seventh son. M. Berardinelli says that President Roosevelt need not tell him about family matters. He can give the president actual pointers and facts as ten children speak stronger than words.

The Christian Endeavor Society of the Presbyterian church was treated to an address Sunday evening at the regular meeting by Miss M. Josephine Petrie of New York City, who is connected with the Home Mission work of the Presbyterian church in Gotham. Miss Petrie is en route for the Pacific coast and stopped in Santa Fe to view the points of interest here and especially to visit the Presbyterian Mission school. The party will attend the general conference of the Presbyterian church at Los Angeles.

### ALAMOGORDO.

From the News.  
The retail clerks of the town have taken preliminary steps to effect an organization.

J. H. Laurie and M. H. Fisher have secured a franchise from the commissioners of Quay county for the erection of an electric plant and water plant for Tucuman.

Mrs. Allie Pierce, in company with her sister, Mrs. Bertha Canfield, stopped over here while en route to visit relatives in South Dakota, the home of Mrs. Canfield.

There is a possibility that Gen. G. D. Joubert, the famous Transvaal and Free State leader in the late war with Great Britain, may give a lecture here

in the near future. He is at present in El Paso in company with Captain O'Donnell, late of General DeWet's army on their return from Mexico, where they have been arranging with the Mexican government for the colonization of a large number of Boers who desire to leave their South African homes now that the country is under the sovereignty of Great Britain.

### SOCORRO.

From the Chieftain.  
Two children in the family of Mr. and Mrs. W. Hurst are suffering a light attack of scarlet fever.

Capt. T. J. Matthews had one of his hands severely burned at the Windsor by the explosion of a lamp.

Attorney J. G. Fitch is out and attending to business again after a month's confinement with an affection of the eyes.

Charles Sperling and family will leave in a few days for Belen, where Mr. Sperling will resume his position with the John Becker Mercantile company.

F. G. Bartlett returned home from a month's almost continuance absence looking after his interests in the vicinity of Magdalena during the lambing and shearing season.

A. D. Coon, who owns one of the largest orchards in Socorro county, says that the prospect for fruit this season is fairly good, though it is still a little early to form an accurate estimate.

Mr. and Mrs. A. Mayer are the proud parents of a bright boy baby that arrived Sunday morning, May 3, to gladness their home. Needless to say, the little fellow will receive hospitable entertainment.

A fine nine pound girl arrived at the home of Mr. and Mrs. Charles F. Tabacchi at Cat Mountain on Wednesday morning in time for dinner. Mrs. A. F. Katzenstein, of this city, is a guest at the home of her daughter, Mrs. Tabacchi.

Mr. and Mrs. A. C. Abeytia returned to their home in this city from an absence of several weeks at the resorts of southern California. They had an exceedingly enjoyable time and both were much benefited by the trip.

### SAN MARCIAL.

From the Bee.  
Our new depot and the Nisbet block are going up rapidly, and the rock for the foundation of the opera house is being corded.

Last Tuesday night at Christ's church the Rev. Renison, of Albuquerque, baptized a class of nine children. He also preached in the afternoon and evening and large congregations listened to his brilliant discourses.

The south bound passenger train was a little late Wednesday morning and the passengers were served with breakfast at San Marcial. There was a goodly number of representative people on the train and as they promenaded the long platform many expressions of admiration were made and echoed as to the attractive and very pleasing appearance of the town. And they were all true, for San Marcial is certainly arrayed in the choicest garb of spring splendor at the present time.

### RATON.

From the Reporter.  
Mrs. H. Whigham returned from a visit in Trinidad.

A. A. Nellie Roberts is rapidly recovering from a severe case of illness.

Mrs. A. L. Hobbs visited the past week in Albuquerque with her parents.

Mrs. J. van Houten visited in Albuquerque and Las Vegas the past week. Harry Farrell left for Pueblo in response to a telegram announcing the dangerous illness of his sister, Mrs. Ed Groves.

Mrs. Letha Jennings and George F. Wilford, both of Pueblo, Colo., were married in Raton at 3 p. m. Wednesday, May 13, Rev. G. M. Petter performing the ceremony.

Mrs. J. van Houten will leave Wednesday evening for New York City, from where she will sail on the 20th for Europe where she will visit for about two months. She will be accompanied by Miss Minnie Holman of Las Vegas.

From the Range.  
The infant daughter of Mr. and Mrs. E. T. Porter died. The mother is said to be critically ill.

A fine baby boy made his appearance at the home of Mr. and Mrs. Thomas Shaw.

Mrs. Jordan, who has been visiting in Raton for several months with her mother, Mrs. F. M. Darling, left for Dawson, where her husband is now located.

The firm of Smith Brothers, compos-

ed of Hugh, John and William T., has been dissolved, Hugh, and John retaining the Raton interests, while William T. takes the farm, lands, cattle, horses, etc. The Smith Brothers have pulled together in partnership harness ever since they were boys and the breaking up of the old relations was a mutual arrangement, which for reasons known to themselves was deemed advisable.

### RATON.

From the Gazette.

Mrs. L. Dukeland left for Chicago on an extended visit to her daughters, Mrs. E. W. Davis and Miss Nellie Dukeland.

Mrs. J. G. Jordan and baby left for Dawson. Mrs. Jordan has been in the city several months visiting with her mother, Mrs. Darling.

The commencement exercises of the grammar schools will take place at the 20th of this month. Those who have completed the work of the eighth grade will be granted diplomas, which will admit them to the high school.

Paul Dunker, aged 29, died at the home of J. M. Vandyke of tuberculosis. His old partner, Mr. Melborn, arrived from South Bend, Indiana, and took the remains back to the old home for interment.

### FARMINGTON.

From the Times.

Billy Meadows was in town the latter part of the week for supplies for his trading post.

Mrs. F. H. Moore is up on the La Plata visiting with her mother, Mrs. Bond, and her brothers and sisters.

J. L. McNeil, the vice president of the First National Bank of Durango, came down the first of the week on a business trip.

R. H. Gillespie of Largo was in town Tuesday. He reports things looking prosperous in his section. The Hammond ditch has again been enlarged and with plenty of water certain to be in the river all this year, that industrious community will forgo to the front. They have shown a lot of pluck and energy and they deserve to succeed.

From the Hustler.  
The many friends of Mrs. Will H. Chamberlin will be pleased to learn that she is now convalescent and apparently entirely out of danger.

Richard Wetherill passed through town Sunday on his way to Pueblo Bonito, to which point he was driving a bunch of horses and beef cattle which he had been wintering in the valley.

Mrs. Mary L. Eldridge states the government work is a blessing for the Navajos, as many were subsisting entirely on wild berries when the work commenced. A handful of meal to some, is as much appreciated as a French dinner by the white man.

We are informed that W. L. Padack that the new bridge which for sometime has been in course of construction across the La Plata river near his store, is now completed and ready for travel. This will add much to the advantages of the La Plata road.

Mrs. Mary L. Eldridge, field matron on the reservation, brought Woolman Waggoner up from the government camp Friday in response to a message stating his father had died at Sacramento, Cal. As he did not arrive here until after the funeral had been held he returned Monday to his work. Mr. Waggoner has the sympathy of the community in his bereavement.

### SANTA ROSA.

From the Sun.

Contractor Cathoun has four buildings in the course of construction. The new county of Wood now has seventy-five miles of railroad. Within a year this mileage will be doubled.

Santa Rosa is in great need of more residence houses. Last week one business firm alone had ten applications for one house which was expected to be vacant in a short time.

J. C. Thomas has purchased the corner lot on Fourth and Corona, of H. B. Jones, and will at once begin the erection of a large building to use as a drug store and office block.

Santa Rosa, the county seat of Wood county, in its quiet and substantial way is forging ahead. There are now about twelve business houses and residences in the course of construction, and many more being contracted for.

Dr. G. W. Harrison, president of the New Mexico board of health, who happened to be in Santa Rosa last week, headed off the entertainment of a traveling Indian medicine show here. The demand by Dr. Harrison for the \$100 license per month was too much for the Indian vendors of cure-all medicine, and the "doctor" took the first train west.

Those Australian railway men offer a curious instance of government employees going on a strike. A similar situation recently existed in Belgium.

### LAS VEGAS.

From the Optic.  
Andrellita, the little six-months-old daughter of Bonifacio Lucero, the west side jeweler, died after an illness of several days of fever.

For the first time in two years Mrs. J. F. Kates was able to sit up to the table and take dinner with her family yesterday. This will be good news for the many friends of the family.

It is said that the different parties who have been visiting the caves near San Geronimo are utterly destroying the beauty of them by breaking down great sacks of crystals. This should be stopped.

Cecil Rosenwald, William O. Woods and Charles S. Rogers were appointed a committee by the E. Romero fire company at their last meeting to make arrangements for the observance of Decoration day, May 30, and are authorized to act in conjunction with other orders intending to observe the day. With proper effort a large parade can be gotten up and the day properly observed.

The United States court for this district opened at the court house Monday morning, with Chief Justice Mills on the bench. United States Attorney W. B. Childers and his assistant, W. C. Reid, are here to represent the government. The greater part of the day was spent in empanelling the grand jury. When court closed sixteen of the twenty-four had been secured. Two were excused and two were disqualified. Faustine Gallegos is court interpreter.

The wife of Julian Baca, one of the best known families in the Pecos river country, died during the last week of old age, being upward of a hundred years old.

Marie Romero, while ascending the steps leading to her sister's home on the west side slipped and fell, striking her face and receiving several severe bruises and cuts on the face; nothing serious, however.

Willie Bernard was sent to the San Miguel National bank Tuesday by his mother to draw out \$55, which he did, receiving it all in bills, but while on the way to his mother's home on the west side, in some unaccountable manner, he lost the entire amount.

In the case of the minor child, Alfredo Garcia, wherein the mother sought to regain possession of the child after having given it into the possession of another woman to take care of because she was unable to do so herself, the probate court decided that neither woman was competent to have the custody of the child under the law, so appointed A. A. Sena as the child's guardian.

Amelia Borrego de Duran has filed suit for divorce against her husband, Manuel Duran, in this county. The couple were married upon October 16, 1893, at the East Side Catholic church by Father O'Keefe, and lived together happily as man and wife until September, 1900, when without cause or provocation, she alleges, he did willfully and deliberately leave, desert and abandon her and her two children, and has continued to do so up to the present time, and has provided nothing toward their support, forcing her to support herself and children by her own labor. She asks for a complete divorce from the unappreciative Manuel and the custody of the two children, both girls, aged 8 and 6 respectively.

An inventory of the estate of the late Irad Cochran was filed in the probate court.

Five new members were initiated into the order of B'nai B'rith at their meeting recently. They were: A. M. Adler, Max Nordhaus, H. Granlath, Arthur Hild and Jack Benedix.

The claim of the San Miguel National bank for \$1,738.40 on a promissory note against the estate of the late S. A. Clements was recently decided in favor of the plaintiff in the probate court.

George Chavez, while on his way home from this city a few days ago, going down Las Cruces via a strap to the harness broke and the horses became frightened and ran away, throwing Mr. Chavez out. He was badly shaken up and had his arm dislocated at the shoulder. He remained unconscious for two hours. A boy who was with him was uninjured.

Mose Kilforce was sent to the county jail for forty-five days on the 16th of March for the crime of stealing a pistol from Ralph Hunter. He escaped from the jail, and is now at large. Some one is keeping him in hiding away from the officers' clutches. One night since he has been out of jail he made an assault on Mr. Harrison's house with villainous intent. A little head mixed up with his interior economy would be a wholesome diet, if such actions are persisted in.

From the Advertiser.  
The merchants of the west side are considering having band concerts in the near future in the Plaza park. The committee is hard at work and we

may hear of the perfected arrangements soon.

The county commissioners have ordered cement walks on the north side of Bridge street, and the property owners who have not already complied will shortly do so, which will greatly enhance the value of their property and give a good walk from the bridge to the plaza.

Some three weeks ago a smooth individual persuaded Fred Greenier to purchase a wheel which he claimed to have ridden in from Springer and which he was willing to dispose of very cheap. Yesterday Clyde Graham discovered that the wheel was the one which disappeared while he was otherwise engaged, and the wheel was therefore turned over to him. Greenier is still looking for the stranger.

Mrs. Dan Rhodes received the sad news of the death of her father by paralysis at Iowa, Kansas.

Mrs. J. K. Shiner, wife of the local manager of the Postal Telegraph company, returned after an eastern visit of three months.

Charles Hild received word by telegraph that his wife and Ike Bacharach had arrived from Germany and would start at once for the Meadow City.

Meolas T. Cordova was in charge of over 150 natives who left for Sugar City, Colo., to work in the beet sugar fields.

The James Robbins woolen mill will start operations on Tuesday, after a few months idleness. R. Studebaker will continue as foreman of the sorting department and M. G. Stewart will run the engine room.

The Red Men are making all preparations for a large meeting Tuesday evening in the Knights of Pythias hall. Over forty members are in and many applicants are on the waiting list for this growing lodge. Francis E. Chutes, who is the district organizer for New Mexico and Arizona, has just returned from Deming, where he installed a lodge of seventy.

Albuquerque has over 150 members, while Raton leads the list with nearly 200. The Las Vegas lodge is coming to the front and no doubt will have the strongest organization in the territory.

Patricio Sena is behind the counters again at the Romero Mercantile company, after a few days indisposition.

Jas. L. Matt, of the Standish-Matt copper reducing plant, is in Denver to purchase machinery for the new plant.

L. Clements, the well known traveling man, returned from the upper country, and reports business flourishing in that country.

Mrs. T. D. A. Cockerell, accompanied by a party of school children, spent a pleasant day in the canyon above the Montezuma.

Mrs. Willard Spate received the sad intelligence of the death of her father, who was a pioneer of Chicago. Mrs. Spate was unable to attend the funeral.

At the session of the county commissioners E. H. Salazar, proprietor of the Advertiser, was appointed county printer for San Miguel county. The contract of the defunct record having been annulled by its suspension the board, by unanimous consent, declared Mr. Salazar the county printer.

Considerable interest was aroused yesterday morning by the appearance on the streets of a large Winton automobile, which arrived from Santa Fe in the night. The occupants were Phil Delaney, Leslie Carleton, Fred Ballard, W. L. Price and C. L. Hemming, all from Colorado Springs. They started on a New Mexican trip last Monday and went to Santa Fe by way of Raton, Cimarron and Elizabethtown and over the range, coming back by way of the railroad, making the trip in nine hours. They stopped on their trip north. They also eat at the Castaneda and left after dinner pressed admiration of the scenery between Santa Fe and Las Vegas.

### SILVER CITY.

From the Enterprise.

George Witzel, of Denver, has arrived in the city and taken a position with his brother, Adolf F. Witzel, in the Cave saloon.

W. E. McLean, the taxidermist, has left for Morenci, Ariz., to be at the bedside of his aged mother, who is not expected to live.

Mr. and Mrs. George M. Cundiff pleasantly entertained a small party of friends the other evening; a trip through the menagerie and an enthusiastic game of tennis by moonlight being the features.

Mrs. Lily Matlocks has left for GHT Edge, Fergus county, Montana, where she will join her husband, James Matlocks, a prosperous miner of that place. A large number of friends were at the station to bid her farewell.

Col. P. R. Smith was up from Deming Tuesday. Mr. Smith says three of the directors of the National Colony and Sanitarium for Consumptives, will

the original  
**Levi Strauss & Co's**  
Copper-riveted  
**Overalls**

be in Deming the 15th of the present month, to look over the proposed site for the sanitarium and perfect other details.

Miss Lizzie Causland, formerly of this city, was married in Deming the other evening to Louis Moore, of that place. The ceremony was performed at the residence of Sam Brown. Mr. Moore is employed in the Headlight office.

Nothing has been heard from Whitaker, the colored man who became insane while on a camping trip to the Gila and escaped to the hills. Whitaker was a waiter in one of the hotels here and was about 25 years of age. His wife died in the east a short time ago, and brooding over her death, together with severe drinking finally undetermined his reason.

William Forbes returned from eastern Oregon, where he closed up his cattle and horse business. Mr. Forbes intends to engage in the cattle business in this county. The gentleman came from Oregon in August for his wife's health and he is so pleased with the climate that he decided to close up his business in the northwest and locate here.

Samuel Lindauer has purchased the interest of E. M. Harris in the dry-goods firm of Lindauer & Harris and hereafter will conduct the business under his own name. Mr. Lindauer is too well known to the people of this section of the country to need any introduction and that a large measure of success will be his in the business which he founded and has maintained for a large number of years goes without saying.

### LORDSBURG.

From the Liberal.

Mrs. D. W. Briel left on the west bound passenger train for a visit to friends in Los Angeles.

Rev. W. A. Dickey and wife left to attend district conference of the Methodist church held at Alamogordo. Miss Martha Wood accompanied them as a delegate of the Epworth league.

Dr. H. H. Stevenson and wife of El Paso, were passengers en route to the Pacific coast with a very sick child, that they hoped would be benefited by a change to a lower altitude. When near Separ the immortal spark of the little one took its flight to the presence of Him who said, "Suffer little children to come unto me." On arriving in Lordsburg the remains were taken in charge by the undertaker and the sorrowing parents, with the earthly remains of their little treasure, returned to El Paso.

### DEMING.

From the Headlight.

Mrs. C. W. Causland, of this city, is very ill with the rheumatism.

Mrs. Edna Bitrong, of this city, was on the sick list the fore part of the week.

Mrs. John Stenson left hurriedly for the Upper Mimbres last Saturday, being called to the bedside of her dying father.

Mrs. Carrie Marshall, who has been visiting relatives and friends in this city, left recently for her home in Silver City.

Mr. and Mrs. Chas. Howlett drove in from the ranch and spent several days of the latter part of the week in Deming.

Ellis Williams, who has been employed in the postoffice in this city for so long a time, has quit the job to take a more lucrative one at Clifton, Ariz. Miss Maud Clauson will now attend to the wants of all callers at the general delivery of the postoffice.

Dave Tullock, one of Grant county's most prominent stockmen, was in Deming this week making a delivery of cattle. While here Mr. Tullock bought a fine set of harness and other equipments from H. Nordhaus & Son.

Mrs. Frank Thurmond, who for the past three months has been visiting relatives and friends at Caddo and other points in the Indian Territory, returned home. As Mrs. Thurmond remained in the territory twice the length of time that she intended to at

her departure she evidently enjoyed her visit.

Mr. and Mrs. Burnside, old time residents of Deming, left over the Southern Pacific for California and will in the future make Los Angeles their home. Miss Laura Burnside is to remain a while with old friends and her sister, Mrs. Wyman.

Mrs. Geo. Rutherford, daughter Edna, and niece, Miss Nellie Legge, from Morristown, Mo., are stopping at Al Watkins. Mrs. Rutherford is a sister of Dr. Williams, who practiced here some years ago. She is here for her health.

On Tuesday evening of this week Mr. and Mrs. William Clifford, of this city, entertained a number of friends. The entertainment was given for their son, Oakley, and from all reports an enjoyable time was had by all. Games and music was the pastime of the evening.

### WHITE OAKS.

From the Eagle.

W. C. McDonald, who only a short time ago shipped 1,000 head of cattle east, is now gathering for a second shipment.

Jessie Vandervort went to the Jicarillas to accept a position on the Big Placer machine for the American Piceor company.

Mrs. H. B. Atkinson is seriously sick of pneumonia. Mr. Atkinson brought her to town from their homes at Corona, for medical aid. Dr. Paden is attending her.

The public school—a long and useful term—ends here next week. White Oaks has always had the best public school in the county and this year's term has been especially profitable.

Thos. E. Keith, Curtis, Texas, and Judge Davenport, Tularosa, formerly of Eastland, Texas, long time friends, and at the same time, several years ago, county commissioner and county judge, respectfully of Eastland county, met here in White Oaks. Mr. Keith is a Texas attorney and yet lives at Curtis; Mr. Davenport is interested in mines in Jicarilla and one of the owners of the Tularosa Democrat.

### TULAROSA.

From the Democrat.

Mrs. G. C. Swagart left to join her husband at Douglas, Ariz.

The Estey City people have just threshed their goats—about 4,000 head—from which they secured about 3,000 pounds, valued at 30 per pound.

Mrs. M. E. Royston and children, recently from Mississippi, visited L. E. Lumley and family last week. Mrs. Royston is Mr. Lumley's sister, and until recently they had not met for thirteen years.

### SANTA FE.

From the New Mexican.

Rev. Vincent Thomas administered first communion to a class of young Catholics at Agua Fria.

The patronage feast of St. Joseph was celebrated at Loretto chapel. The beautiful chapel was especially decorated for the occasion.

J. V. Conway, county school superintendent, has received a handsome new buggy with small bicycle wheels. When the owner appears driving his fast black trotting mare with a white harness it makes a striking turnout.

The scarcity of ducks at the reservoir may be accounted for by the fact that the following nimrods have been making frequent trips to the reservoir lately on hunting expeditions: Rev. C. Joseph Hintzen, Rev. Vincent Thomas, Rev. Albert, the latter of Denver, and Rev. Roibal.

Colorado will very likely be the favorite spot for the proposed national home for trainmen, to be erected by the Brotherhood of Railway Trainmen. Denver has offered a plot of forty acres for the home.

It is the opinion of western railroad men if stop-over privileges are granted they will have to be made applicable to all forms of tickets in order to escape the charge of discrimination under the Elkins law.

# SAFELY REPUBLICAN.

The St. Louis Globe-Democrat says of President Roosevelt's visit to New Mexico and Arizona:

"The enthusiastic welcome which is being given to President Roosevelt in New Mexico and Arizona is an effective commentary on the pretense of the democrats that the southwest was turning against the republicans. Neither of these two communities, of course, has a vote yet for president. Neither casts any ballot in congress. But each will get into the union some time in the near future, and it will not be changed in its politics by anything which took place during the discussion of the territorial admission bill in the recent congress.

"President Roosevelt, of course, is popular in the southwest, as well as in all the rest of the west. He is a man that the whole country out this way has always liked. But the presidents party is also popular in the region which the president is in at this time. Regardless altogether of the boasts of the democrats and the threats of some of the politicians of New Mexico and Arizona, it is safe to predict that the republican party will poll a large vote in each of them after it is admitted. Just at present the admission idea in those two territories is in the background. Neither is likely to come in during the lifetime of the present congress, but when they do come in the republicans will feel hopeful of making a good showing in each.

"In 1904 the great west will cast a virtually solid vote for the republican party. This will be true of all the states which belong in this classification, with the possible exception of Missouri, Colorado, Montana and Idaho will, without doubt, choose republican electors. The result in these states last November makes this point pretty clear. Nevada was still out, outside of the republican line, but it will probably be in next year. The republicans are counting on making a practically clean sweep of all the western states in 1904 which they have carried at any time in the past dozen years. So far as can now be discerned, there is nothing up which will injure republican prospects in any of the states west of the Mississippi which have at any recent date been carried by the republican party. Never has any party, a year before a national canvass, had a better prospect of an overwhelming success than now presents itself to the republican party."

# MASONS DISCARD WINE.

Recently the grand commandery of the Knights Templar of California decided by a unanimous vote that hereafter no wine should be served at Templar banquets. This action is in line with a similar course being pursued by Masons in all parts of the country. The Masons are a powerful order and their example cannot but have an influence in society generally.

The habit of drinking wines at banquets has already been discarded in many quarters. Many guests do not care for it and simply drink it because others do. But there is no point at which the temperance movement could have more of an effect for good. Those who attend them are usually supposed to be more or less prominent in the community and example counts for much.

# SUCCESS.

Somebody has said that every human being desires to succeed. Each one of us is trying to make life a success, a full-orbed, well rounded out, beautiful affair, so that when the evening of our earthly day comes we can look back and feel that we have not lived in vain. The law that water shall seek its level is no more absolute than is the other law that we seek success.

Success in this world hinges upon moral earnestness. We fail because we do not mean to succeed; we fail to succeed, but many lack the grit, the courage and the nerve to succeed.

Faint heart never won fair anything. Fortune loves to place the laurel crown upon the brow of the brave, while from the cringing coward she turns away in supreme disdain. It is the brave that gets the best out of life; the coward must be content to feast upon what is left.

# DEMAND FOR COPPER.

A representative of one of the largest copper interests in the world says: "The activity of copper is absolutely legitimate, and is based entirely upon the conditions of supply and demand. During 1902 25 per cent more copper was used than ever before. The supply is exhausted. That it has advanced from 11 to 15 cents for lake copper within a little more than a year is not extraordinary. The marvelous development of electric work the world over, and particularly in the United States, is the cause. Last year 170,000,000 pounds of copper were used for wire in electrical appliances in this country."

# ELECTRIC CAR LINES.

The census preliminary report on street and electric railways for the year ended June 30, 1902, shows a total of 987 companies, with the net income of the operating companies aggregating \$30,955,233; dividends, \$15,943,216;

# PURE BLOOD.

Proper care of the stomach will result in the making of plenty of rich, red blood and the upbuilding of the entire system. If your stomach is disordered and the blood impure take a few doses of Hostetter's Stomach Bitters. It is the best stomach medicine and blood purifier in the world, and will also cure Dizziness, Belching, Indigestion, Dyspepsia and Malaria. Be sure to try it. For sale by druggists.

# HOSTETTER'S STOMACH BITTERS

surplus, \$1,047,917. The average number of salaried officials was 2,749; salaries, \$4,625,915; clerks, 4,391, salaries, \$2,573,936; all other employees, 121,133; wages, \$77,431,324. The length of line (first main line) was 16,480 miles; length of single tracks, 22,589 miles. These figures do not include track under construction and not operated.

The total number of cars were 67,999; steam engines, 2,337, with horsepower aggregating 1,298,133; dynamos for generating power, 4,327; horsepower, 1,409,128; fare passengers carried, 4,813,466,001; transfer passengers carried, 1,062,403,392; total car mileage, 1,097,806,884; persons killed, 1,216; injured, 47,428.

# KINGMAN.

From the Miner.

It is reported that a trainman on the Santa Fe railroad picked up a gold nugget near Hancock, the other day, that weighed eighty cents. A few years ago George Maxwell picked up nuggets in a wash near the same place that weighed \$2.50 each. Mr. Maxwell made a search of the wash afterwards but failed to get anything further. Miners have reported that some years ago nuggets with quartz attached were picked up in the big wash near Drake, but nothing was done there to ascertain if the dirt would pay to handle.

Cal. Wilson returned recently from a three week's trip into the Tonto Basin country, where he has been looking at mining property. Mr. Wilson has been superintending work at the Enterprise mines for the past three or four months and will probably return to his duties at that property at once.

The driver of the Mineral Park mail wagon was terribly burned at Chloride the other morning. In some manner the wagon caught fire and in an attempt to quench the flames the driver lost his head and was burned about the hands, back and arms in a terrible manner. Had not bystanders come to his rescue he would undoubtedly have been burned to death.

# OFFICIAL MATTERS.

Governor Otero appointed the following city judges: Arthur J. Mitchell, Albuquerque post-office, for Benito county.

Injunction Against Cutting Timber on the Pecos Forest Reserve.

I. B. Hanna, superintendent of forest reserve, and Norman L. King, chief draughtsman in the office of the surveyor general, are in Las Vegas where they will attend the hearing of the injunction suit against Margarito Romero, before Chief Justice Miller in the United States district court. The defendant was enjoined from cutting timber on the Pecos forest reserve by Judge Miller on application of Mr. Hanna and will at today's hearing be required to show cause why the injunction should not be made permanent.

# Incorporations.

Articles of incorporation have been filed by the Turquoise Cattle Company. The company is authorized to buy, sell, breed and deal in cattle, and to acquire and dispose of range and agricultural lands. It is capitalized at \$50,000, which is divided into 500 shares of the par value of \$100 each and non-assessable. The term of existence is fifty years, and the incorporators are: Robert B. Armstrong, George F. Pennebaker and William A. Hawkins. The affairs of the company will be in charge of a board of five directors, and the board for the first three months will be composed of the incorporators and James G. Heister and W. W. Cox. The principal office is at Alamogordo.

The Montezuma Mining Company has filed articles of incorporation with the territorial secretary. The incorporators are: Alexander R. Kaykendall, John B. Fitch, of Thurber, Texas; and George B. McIntosh, of Capitan, New Mexico. The board of directors for the first three months is to be composed of these three incorporators, and is never to have a membership of less than three nor more than eleven. The company is authorized to buy and sell mining land, search and prospect for minerals, to acquire property and machinery suitable for mining and the reduction of ores, to construct tramways and light railways, such as will be necessary to facilitate the handling of the company's business. The capitalization is \$50,000, which is divided into 500,000 shares of the par value of \$1.00 each and non-assessable. The term of existence is fifty years and the principal office is at Capitan.

To Advertise Sales of Territorial Lands. The territorial land board held a special meeting at the office of Land Commissioner A. A. Keen last Friday. The following very important resolution was unanimously adopted by the board:

Resolved, That hereafter applications for the purchase of land must be accompanied with at least 10 per cent of the proposed purchase price and

must lie over one regular meeting, and the commissioner is directed to publish at least once a week for two weeks in newspapers published in Santa Fe, Albuquerque and Las Vegas, also in a newspaper published in the county where the lands are located or of general circulation therein, in case there should be no such newspaper published in said county, a notice to the effect that lands in the locality applied for have been so applied for and that bids for the same will be received either by mail or personally; all bids in writing will be received by the commissioner and kept sealed until opened at the next regular meeting of the board in the presence of the board, bidders and other persons who may desire to be present; such bids to be marked on the outside "Bids for purchase of territorial lands," each bid to be accompanied by a certified check of at least 10 per cent of the total amount of the purchase price bid; giving the date of the same and that at such meeting such lands so applied for shall be sold to the highest and best bidder for cash, in no case for less than the minimum price provided for by law, the commissioner to furnish the board with a certificate that such publication has been made at such next regular meeting.

# Territorial Funds.

The following funds have been paid to Territorial Treasurer J. H. Vaughn: By Eugenio Romero, treasurer of San Miguel county, taxes for 1902, \$449.61.

# Application for Mineral Patent.

John Conley, Red River postoffice, has applied for a patent on the Anaconda group of mining claims, consisting of the Anaconda Nos 1 to 9, inclusive, situated in the Red River mining district in Taos county. The claims cover an area of 150 acres.

# Land Office Business.

The following homestead entries have been made: Eugene Schuster, Thoreau, 40 acres in McKinley county; Arculana Baca, Wagon Mound, 160 acres in Mora county; John Elcholtz, Espanola, 160 acres in Rio Arriba county; 160 acres in Valencia county; Edward J. Haley, Mountain.

The following desert land entry was made: Oden Horn, Wagon Mound, 160 acres in Mora county.

The following final homestead entry was made: V. Alire, El Rito, 160 acres in Rio Arriba county.

The following desert land entry was made: Charles L. Fraker, Ocate, 320 acres in Colfax county.

# Notary Appointed.

The following notary public was appointed by Governor Otero: J. D. Bell, Roswell, for Chaves county.

# Territorial Funds.

The following collection has been received by J. H. Vaughn, territorial treasurer: From George W. Knaebel, treasurer of Santa Fe county, taxes for 1902, \$259.36.

# Application for Mineral Patent.

R. L. Pooler and W. D. Kerchener of Raton have filed application for a patent on the Memphis Lode mining claim situated in the Keystone mining district in Colfax county.

# Deputy Forester Appointed.

Page B. Otero, territorial fish and game warden, has appointed the following deputy for San Miguel county: James W. Leonard of Trout Springs. Samuel Cienfuegos, deputy fish and game warden, was sent to Truchas by Mr. Otero to investigate reports that the laws with reference to hunting and fishing were being violated there. Nothing was found to indicate that the reports were well grounded. While there the deputy posted a number of copies of the laws regarding fishing and hunting.

# Pensions Granted.

New Mexico—Joseph McGovern, Fort Bayard, increase, \$24; William A. Brown, Fort Bayard, increase, \$30; David H. Baxter, Fort Bayard, increase, \$16; Timothy Durkin, Fort Bayard, increase, \$17; Noah W. Bulard, La Luz, increase, \$10; Jose Gutierrez y Garcia, Alameda, original, \$6; Noah F. Rash, Fort Bayard, original, \$30; Henry F. Lowe, Fort Bayard, original, \$17; Uriah Gould, Alamogordo, increase, \$12; John Gray, Weed, increase, \$12; Jesse Harris, Redrock, increase, \$12; and Alexander L. Morrison, Santa Fe, increase, \$12.

# Incorporations.

Articles of incorporation have been filed by the Esmeralda Fruit company. The incorporators are William Jenks, Margaret M. L. Jenks and Thomas Jenks, all of Albuquerque. The company's place of business will be at Albuquerque and it is capitalized at \$25,000, which is divided into 25,000 shares of a par value of \$1 each. The term of existence is fifty years and the affairs of the company are to be in the hands of a board of three directors for the first three months. The board is composed of the incorporators. The company is authorized to buy, own and sell real estate and personal property, to grow, buy, sell, evaporate and preserve all kinds of fruits, vegetables and all kinds of ranch produce.

# Contest Decisions.

Information has been received at the Santa Fe land office that the decision of the office has been sustained by the commissioner of the general land office in the following homestead entry contests: Entry No. 5465, Antonio M. Olona vs. Mariano Duran. The contest involves 160 acres in San Miguel county. The contest is dismissed it appearing that the defendant is improving the land and complying with the law.

Entry No. 5581, Manuel M. Cordova vs. Miguel A. Garcia. The contest involves 160 acres in Colfax county. The contest was decided in favor of the contestant and the entry of Cordova ordered cancelled. The parties losing in the contests are given sixty days in which to appeal.

# EDITORIAL NOTES.

Andrew Carnegie will get his wish to die poor if he attends the St. Louis exposition.

Saxony has one of the best regulated systems of forestry in the world, the net profits from the forests amounting annually to over \$2,000,000.

Good roads, civilization and enlightenment are links in the same chain of progress. Where you find the first the other two are present as a matter of course.

The Durango Democrat says that Santa Fe was once a larger city than St. Louis or New Orleans. Santa Fe is a humble bee town—largest when first hatched.

The bicentenary of John Wesley falls on the 28th of June, and preparations are being made by the multitude of his followers throughout the world to fully observe it.

The number of employees in the New York municipal service has reached 15,299, of whom 12,000 are teachers and 10,000 members of the police and fire departments.

Illinois ranks first among the states in the manufacture of agricultural implements, bicycles, cars, gluecase and distilled liquors and in slaughtering and meat packing.

Express messengers, of whom there are about 80,000, running on every railroad on the North American continent, are about to form an organization to better their condition.

The labor movement is not intended to pull anybody down. It seeks only to lift up the worker. It rests upon justice, has reason as its guide and a higher, broader life is its goal.

According to statistics, forest fires in the United States annually cause, on an average, a loss of sixty human lives, \$25,000,000 in real property and \$75,000,000 of young and mature timber.

A labor union is the most liberal of organizations. Its exactions are few and simple. To uphold living wages is the fundamental rule of a labor union; to live up to that rule removes many wrongs affecting the body politic.

The United States imported from China last year \$27,189,283 worth. The large items are: Silk, \$10,643,950; tea, \$7,447,822; matting, \$1,303,881. Some interesting items are: Firecrackers, \$193,328; dog skins, \$71,362; bristles, \$397,972.

According to the report of the state engineer of Colorado there are 4,067 irrigating ditches in that state, supplying water to 3,000,000 acres. Of this amount 2,000,000 acres are actually under cultivation. One canal is 113 miles long, 50 canals are over 50 miles in length and 51 are 20 miles long.

For ten months of the fiscal year customs receipts have been \$225,122,152, an increase over the same period last year of \$16,661,214.

A monograph entitled "The World's Coal Supply and Trade," issued by the bureau of statistics, shows that the United States not only leads the world in coal production, but has advanced from third place to the head of the list since 1880.

With every day the Cleveland movement is gaining strength, and it will be a matter of no surprise if the eastern and southern democrats appear in the next national convention of their party a solid phalanx for the nomination of the ex-president.

Australian legal and political importations have not been a success in this country, as is evidenced by the signal failure of the Australian ballot system wherever it has been tried, and the inability to make the Torrens system of land title registration work.

National aid to irrigation will mean a steady progress of the west. Industry and thrift will receive a mighty uplift and the desert will blossom as the rose when water from federal irrigation works flows over the now arid wastes of the western states and territories.

So far as they are available for agriculture, and to whatever extent they may be reclaimed under the national irrigation law, the remaining public lands should be held rigidly for the home builder, the settler who lives on his land, and for no one else.—President Roosevelt.

The best way to help the poor is to give them a chance to help themselves. With arid America reclaimed and the public lands reserved for homesteaders only, thousands of poor people will be given an opportunity to own their own homes and make a living on the soil by their own labor.

The principal industry of El Paso appears to be damage suits against railroads.

If all men were as good as they expect others to be, what a glorious world this would be to live in.

President Diaz is the one executive who will not permit either organization of capital or labor to kill industry in his country.

The report of the comptroller of the currency shows individual deposits aggregating \$3,168,275,260 in national banks of the United States.

The Methodists of this city have determined to erect a new church edifice. The old church building was erected in 1881, and was the second in the new city.

Colorado has set the pace in demanding guarantee from the St. Louis fair management that robbery will not prevail during the exposition months.

Eight times as many men and boys are killed and injured annually in the anthracite mines of Pennsylvania as were killed in the Spanish-American war.

California's output of gold has been outdone by her golden orange. The output of the former last year was

\$17,000,000, and of oranges \$18,000,000.

A new financial system is to be tried in China. The population has increased to such an extent that the money has to be cut into smaller denominations.

If President Roosevelt's popularity in the west continues to grow apace, it will not make much difference whether the trust magnates of the east oppose his re-election or favor it.

When William Randolph Hearst visits the New Mexico fair next October, his boom for the presidency will begin. If he is good he can get the solid democratic delegation from New Mexico.

The immense indirect cost of wars are illustrated by the fact that the Spanish-American war cost over a million a day for over a year, although the hostilities occupied but three months.

The Presbyterians have voted overwhelmingly for creed revision, and at the next general assembly it is certain that some changes will be made in harmony with the advance of modern thought.

The darkest day of the war of secession was that of March 8, 1862, when the rebel ironclad ram Merrimack sank the Cumberland, compelled the Congress to surrender and inspired terror among the blockaders in Hampton Roads.

That President Roosevelt is quick to recognize bravery is shown by his sending gold medals to eight men of Kincardine, Ontario, who risked their lives to rescue the crew of an American schooner which was wrecked in a gale off that coast some time ago.

A papyrus roll containing an ode written by Thimotheus, the Greek poet, and describing the battle of Salamis, was recently discovered at Abusir, Egypt. The manuscript dates back to the fourth century before Christ, and is claimed to be the oldest Greek manuscript known at the present time.

Two men start down the street in perfect step. All's well. Something blocks their way. They stop or start around on opposite sides. When they start off together again it is in broken step. Soon they bump shoulders and then and then and then. So, in the family, in church, in school, in business, in society, in the town, city, nation and among nations. Catch the step, neighbors, and keep it.

The Los Angeles Express has erected a fine office building and made many other improvements. The Express is well liked in New Mexico and Arizona, having upon every occasion proven a friend to these territories.

There is a little weekly newspaper in this city whose only distinction is that it has never told the truth in any instance and that it has never published a kind word about anybody during its whole worthless existence.

An official of the Postal Telegraph company says that on July 4, in connection with the opening of the new cable to the insular possessions of the United States, an effort, which now gives promise of success, will be made to circle the globe in forty seconds. The message will be sent from the main office of the company in New York, and it is to be hoped will be received on the opposite side of the room within forty seconds after the operator sends it on the other.

There are seven thousand notaries public in the state of Texas.

The trout fishing season opens in New Mexico opens on May 15.

Las Vegas is trying to expand by incorporating the old and new town as one city.

It is well to bear constantly in mind that labor strikes are injurious to all concerned.

Mr. Bryan is violently opposed to the candidacy of Mr. Cleveland for the presidency.

Patronizing foreign to the detriment of home institutions will not build up any community.

The strenuous life has its enticing features, but the gospel of restfulness will always have its apostles.

President Roosevelt will spend a couple of days in San Francisco, and will lead a strenuous life every hour of his stay.

A new steamboat was launched the other day on the Rio Grande at Laredo. It will ply between Hidalgo and Brownsville.

Being a prohibition state, it was a reasonable thing for the Kansas insane officials to use the "water cure" on unruly patients.

Denver appears to be the storm center of labor troubles. It is suggested that this may be the result of woman suffrage in that city.

Oklahoma will try to secure statehood next winter, and will not enter into any combination with New Mexico and Arizona.

Another mining shark of Arizona has come to grief in New York. His name is Qualey, and he is a professional wild cat mine promoter.

The Phoenix Republican insists that Arizona is opposed to uniting New Mexico and Arizona into one state. The Arizona people want statehood for Arizona without any alliance with New Mexico.

In 1902, according to recent statistics, the daily wage of the average American toiler was \$2.50, while in Great Britain the figure was \$1.45, in France \$1.34 and in Belgium, where socialism is rampant, only 65 cents.

Though New York enjoys the distinction of being a well lighted city, it pays the highest price in proportion to its population for its lights of any city in the union. A forceful argument for municipal ownership is supplied by the showing that six cities that operate their own plants, burning

A woman worn-out, who never has to fit a hand for herself, who does not know the meaning of the word "worry"! How can it be possible? That it is possible is proved by the experience of many a woman who, because of sleeplessness, nervousness, backache and other womanly ills, becomes an utter physical wreck.

Dr. Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I suffered for five years with inflammation which caused violent pain and often torture so bad at times that I could not be about to attend to my daily duties," writes Mrs. Julius C. Bell, of Bathurst, Kingston, Ont. "Life was simply misery to me and I did not know which way to turn for relief. Had tried doctors but found they did not help me. My druggist advised me to try Dr. Pierce's Favorite Prescription—saying it was in glowing terms. I decided to give it a trial and brought a bottle home. I am happy to say that after the use of the first bottle I felt so much improved I decided to take another and after that a third bottle. I have good reasons to be pleased with it. It has done for me what is easy and the world looks bright. I have perfect health, thanks to your medicine."

Sick women are invited to consult Dr. Pierce by letter, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

3,000 candle power lamps, pay an average price of \$66.45 per lamp per year, while New York has paid \$146 per lamp for the same service.

The trust builders appear to be working with greater speed and to better purpose than the "trust busters." The April incorporations represent an aggregate capitalization of \$243,000,000—the largest total for any month this year.

Not since the United States went to war with Spain have there been so many men on the pay roll at the Brooklyn navy yard as now. Nearly 5,000 are at work in the repair department and on the construction of the Connecticut.

The News says: El Paso is getting to be quite a Gretna Green. Almost every day the newspaper chronicles the fact that some American couple has come up from the interior of Mexico to be married in the United States, and to them, El Paso is the United States.

Russia is carrying out to the letter, in Manchuria, the policy which has marked her territorial expansion everywhere. Her policy has always been to make fair promises, to break them at an opportune time and then to ask other nations, practically, "What are you going to do about it?"

The people of this city like to be sociable and good natured and generous, but the rush of excursionists from the east is taxing their capacity in that line to the limit. The majority of eastern tourists think that we live out here for the sole purpose of showing courtesies to the passing throng.

Russia is the home of freak religious sects, and the latest while interesting is by no means the oddest. Its members have decided that thirty years are enough for any man to live through and after that age he is a mere burden on the rest of the community, so they all sign a pledge to allow themselves to be buried alive after their thirtieth birthday.

Negotiations are progressing with a number of European governments for parcels post agreements with this country, and the postmaster general is hopeful that a parcels post treaty with France will be in operation by July 1. The negotiations with other governments are under way. None of the treaties to be negotiated will allow a maximum weight of over four pounds.

There are now 125 vacancies in the grade of second lieutenant in the line of the army. Of these, twenty-five are in the cavalry, fourteen in the artillery and eighty-six in the infantry. Under a rule of the war department, these vacancies will be filled first by the graduates of the military academy, next by promotion of men from the ranks, and lastly, by appointment from civil life.

# HOLBROOK.

From the Argus.

Julius Wetzler left for Prescott.

Max Schuster returned from Albuquerque.

Mrs. J. L. Clark and children returned from Pinta.

Mrs. F. M. Zuck left for California where she will take a vacation.

Ernest Hall and wife left for a tour of Apache and Navajo counties.

Miss Julia Scorse has been ill the past week with diphtheria, but at present is improving.

Mrs. Zilpha Mooney and daughter, Hattie, went to Winslow. They will make their future home there.

F. J. Watron and Adolph Schuster boarded the west bound flyer. They go on a visit to their families in Los Angeles.

Any persons having bills against the Knights of Pythias lodge of this city should send the same to E. D. Fluke, K. of R. and S., who will pay the same monthly.

Congressman Hearst Writes a Letter to Delegate Rodey.</

## Early Times of Albuquerque

ARTICLE V

Contributed by an Old-Timer

### THE FIRST MARSHAL AND HIS PASSING.

In all frontier settlements before municipal organization is effected the enforcement of the rules of order is in the hands of the people until such time as they, by common consent, delegate that authority to some designated person who thereafter is recognized as a law officer.

In the summer of 1880 there came into new town a six foot four inch cadaverous looking fellow, who had drifted from Arkansas by the way of Texas, looking for some bad town which he and his reputation could hold in the peace and quiet column. He was chosen by the people to represent the law in this new community, and by common subscription was paid one hundred and fifty dollars per month. A commission as deputy sheriff was procured and thence as long as he lasted Milton Yarbbery was marshal of New Albuquerque.

Whatever reputation he had for manliness or bravery he must have left on the trail, for during his reign, when danger was high the marshal was not comatable, nor did he ever make an important arrest.

At that time there was in the employ of the Adams Express company, as route agent, Harry B. Brown, a young man of fine physique, of good descent, genteel and brave. His father was ex-Governor Neil S. Brown, and his uncle ex-Governor John C. Brown, of Tennessee.

We had also a woman of the half world known as Sadie Preston, who was Brown's steady company when he was off duty, and whose favors were courted by the marshal when Brown was on duty and the way was clear. We who were posted could foretell the storm, but for months there was only calm. These men met and spoke and drank together, and at every meeting we looked for the tragedy, but with opposite results to those which occurred when it was enacted.

On Sunday afternoon, March 27, 1881, Brown took Sadie with her 6 year old child for a drive with Nigger John Clark as coachman. About 4 o'clock their carriage pulled up at Zeller's and they ordered drinks. At the corner of Railroad avenue and First street stood the only force pump in the town. Yarbbery stood near the pump and turned the hose into the carriage, slightly wetting the driving party. Only pleasant words were spoken, the drinks were taken and the drive continued. At 5 o'clock, the party went to the Victoria restaurant, now 103 First street, for dinner and about one-half hour thereafter Yarbbery called Brown out onto the sidewalk, took him by the right arm, and they quietly and seemingly socially, walked north, down two steps off the end of the walk, turned west onto a vacant lot, now 105 First street, and immediately and rapidly four shots were fired. We who rushed to the scene saw Yarbbery moving away from the prostrate Brown, heard Brown's dying words, "Milt, you killed me cowardly," saw Sadie Preston rush to Brown's body, take his gun from the scabbard beneath him and secreting it in her clothing go away. So ended poor Brown.

At the second shot Yarbbery loosed his hold and Brown fell to receive two additional bullets. Truer words than his dying declaration were never spoken.

The body was taken to Adams' express office, now 113 Railroad avenue, and in this it was remarkable that from his manicured toe nails to the dressing of his hair, except for the four wounds in his breast, it was as delicate and neat as that of a newly washed child.

Yarbbery was arrested, but a suit of clothing and a farm wagon induced "Negro" Martin, the old town alcalde, to hold him justified. Upon trial in the district court \$240 paid to the proper men on the jury brought a verdict of not guilty.

The sporting element and the bunco gang stood to their friend.

Yarbbery was continued in office until Saturday night, June 18, 1881, when occurred a second tragedy and his second murder.

About 10 o'clock that night a shot was fired in front of R. H. Greenleaf's restaurant, now 105 First street. Yarbbery was in Madden's saloon, now Sturges', and rushed out with his man Friday—Frank Boyd—at his heels. Across First street, going toward the depot, was the first man Yarbbery saw and after him went Boyd. On the north, took shelter behind a pile of street railroad ties, and with Milt in the rear, they poured it into him. Walking back to the saloon he remarked, "Well, I killed the ———."

That he had, for two bullets had entered the back and one the left side of a poor devil of a carpenter from A. P. shops. Charley Campbell, who was wandering around alone and unarmed, but not friendless, as it proved.

Campbell's funeral took place June 19, from the platform of Putney's store and was attended by all law abiding citizens, including the A. & P. employees from general superintendent to the call boy. Banners were carried, "In God we trust." "Forbearance has ceased to be a virtue." Following the funeral a public meeting was held in Grant's livery stable and for a time the sentiment was to hang Yarbbery. After discussion a vote was taken, and by a very small majority it was resolved

to give the law a test: That Yarbbery must be taken from the Armijo house, where he was being guarded and confined as other criminals; that he must not appear in the streets, and that he must resign the office of constable, to which he had been elected the preceding February. He was taken to old town and guarded by his friends. One night walking the outskirts, on others upon the river bank and upon others on the roofs of adobe houses. His preliminary examination was before the same "Negro" Martin on July 5, and when the first witness was called the alcalde arose and taking a paper from his pocket and reading, announced that he wanted to hear no witnesses; that he knew enough about the case, and that Mr. Yarbbery must give ten thousand dollars bail or be confined in the jail at Santa Fe until the grand jury acted in the case.

That night the best saddle horse in the county, owned by Max Loebner, was saddled, armed and provisioned for Yarbbery to make his escape. He could have gone, but still having confidence in his friends he refused to go. He was taken to Santa Fe, was returned, tried and convicted and sentenced to be hung, by Judge Bell. Again he was taken to Santa Fe for safe keeping, pending his appeal to the supreme court. During this appeal he escaped and after several days was captured trailing along the road afoot in the rear of a freighting outfit.

The judgment of death was affirmed. He was resentence and reconfined in Santa Fe. He was brought from Santa Fe by special train under guard of the Santa Fe militia company, was met at the depot by the Albuquerque militia and by both companies escorted to the old town jail and there guarded until his execution on February 9, 1883. In this execution there was a change from the usual method of having a man climb ten feet to the scaffold flooring. Yarbbery stood upon the ground, the rope running through a pulley in an overhead frame, thence to a second pulley at a corner and down to a three hundred pound weight, which being cut loose resulted in a neck breaking jerk, lifting the body fully six feet, the head nearly touching a top cross brace, then a fall, a slight, clicking sound as though the neck had snapped, a slight swaying of the body and in nine minutes it was all over.

Yarbbery could have easily escaped from Albuquerque before his trial, as he would. Afterwards when he would escape he could not. His friends were floaters, and many of them had left the country. Some of them had remained, but there was a great difference between Milt, the officer, and Milt, the condemned and confined criminal. He could no longer give them aid and protection so "let him go to hell." It has been often remarked that Milt was sentenced for killing Campbell, but was hung for the murder of Harry Brown. That comes very near the truth. Had he not allowed that demon to possess him—that demon which seizes the ordinary man when he becomes enamored of a bit of common, public feminine humanity; had he not planned and premeditated the assassination of Brown and in cold blood carried out that plan; had his so called friends not bought his freedom through a committing court and a trial jury, he would not in the seeming security of his dense ignorance—he could neither read nor write—he felt that he must make another killing to establish a reputation as a killer. He had no other motive in the killing of Campbell. It might have been any prominent citizen crossing the street that evening, the result would have been the same. He was too rapid. His second crime was premature, was committed in the wrong town and its victim, unfortunately for him, but fortunate for the town, was one who proved his undoing rather than his making.

### JONES AT FAYWOOD.

An Interesting Story of the Boiling of an Apache Indian.

Prof. F. A. Jones of the United States geological survey, who is taking a mining census of New Mexico, passed a quiet Sabbath at the Faywood Hot Springs. Professor Jones made a careful examination of the spring, and while rummaging around among the debris taken out of the spring came across a piece of human jaw bone containing several molars in a good state of preservation. When the spring was cleaned out by A. R. Graham in 1893, several skeletons were found, one of an Indian squaw. The skeletons were those of Indians, evidenced by the high cheek bones. At least one of them is accounted for by C. C. Conrad, the man in charge of the bath house. He says while in Silver City several years ago he met a discharged soldier, one of the old timers, who showed Conrad a diary which he had kept during his service in the army, back in 1850. On one of the pages he told of being in a cavalry squad from Fort Seiden to warn an old Dutch settler and his wife, then living on the west side of the hot spring, of a band of Apaches which was headed that way. The squad camped at the spring that night and early next morning before daybreak were joined by a party from Pinos Altos. Shortly after daybreak the band of Apaches, not knowing of the presence of the soldiers, swooped down from the surrounding hills and were met with a

warm reception. They immediately turned and fled, leaving one lone Indian, badly wounded. One of the soldiers, spying him, ran and picked him up, carried him to the spring, and, before any one could interfere, chucked him into the boiling caldron. He was court martialed for the offense, but was acquitted. The Indian's skull, or at least a skull which was taken from the spring, may now be seen in the Whitehill collection at the hotel.

### GRASS WOMAN FROM DEATH.

C. D. McElhany of Trinidad Saves a Life and Gets a Sprained Wrist.

A special from Trinidad, Colo., says: Had it not been for the brave action of C. D. McElhany, a runaway on Main street about 6 o'clock this evening, would have resulted seriously. A spirited horse attached to a buggy belonging to Alfred Brown, dashed down Main street, which was crowded with vehicles. Mrs. Frank Wells and another lady were driving up the street when they saw the horse coming. Mrs. Wells' companion jumped out of the buggy and she attempted to do likewise, but her skirts became entangled in the wheel. The frightened animal was almost upon her when McElhany dashed into the street, grabbed Mrs. Wells around the waist and dragged her to a place of safety just as the two vehicles collided.

McElhany sustained a sprained wrist but was otherwise unhurt.

### This Means Silver at Sixty-Four Cents an Ounce.

From persons closely in touch with the official circle of Mexico, it is learned that it is the purpose of that government to permanently establish the value of its silver dollar at 50 cents on the dollar gold. That is the proposition with which the monetary commission will have to deal within the next few months, it is stated, the Mexican dollar will be worth 50 cents gold in any part of the world.

The monetary census, completed a short time ago, shows that there are 60,000,000 silver dollars in circulation in Mexico, and when the value of each is advanced to 50 cents it will cause a phenomenal change in the business situation. This means that the price of silver will go to 64 cents an ounce.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Alvarado Pharmacy.

### FOREST RESERVE MATTERS.

Rangers Don Their New Uniforms May 1 in Accordance With Land Office Regulation.

R. C. McClure, supervisor of the Gila forest reserve, returned to Silver City from an extended tour of the range. Mr. McClure says the reserve is in good condition and the grass fine, with plenty of water. He says he found large patches of snow in the Mogollon mountains, knee deep to a horse and that the prospects for plenty of water this season are good. Commencing last Friday, May 1, the rangers of the reserve, including the supervisor, who ranks as captain, donned their new uniforms in accordance with a new ruling of Land Commissioner Richards. Mr. McClure leaves May 11 for Las Vegas to attend United States court in the case of the United States vs. Margarito Romero for trespass on the Pecos reserve. George F. Williams and John Mundy, both of Alma, have been appointed rangers on the preserve and assumed their new duties May 1. Bert Snyder of Dry Creek has been recommended for appointment as ranger June 1.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Alvarado Pharmacy.

### A Daring Burglary.

Mrs. Lillie, who lives about ten miles north of Raton, drove into town Tuesday, accompanied by a man giving his name as Higgins, a stranger whom she had employed about her premises for two or three days. After arriving here Higgins very unaccountably got in a great hurry to return to the ranch, which he did some time in advance of Mrs. Lillie's leaving for home. After her arrival there he helped himself to a gold watch and chain, necklace and snuff box, the latter valued as an heirloom, as it had been in the family over two hundred years and was presented to Mrs. Lillie by her grandfather. Higgins then went to meet Mrs. Lillie and gave the alarm; but something in his manner aroused the lady's suspicions and she accused him of being the thief, and after pleading with him induced him to return the stolen property. Higgins then made good his escape and at this writing has not been apprehended.—Raton Gazette.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all druggists.

### SANTA FE.

From the New Mexican.

The St. Michael's college baseball team was defeated Sunday afternoon at the college campus by the score of 8 to 5 by a picked nine. Up to the seventh inning the college boys held the lead, the score being 3 to 1. In the seventh inning the picked team forged ahead and won out. The two teams will play again next Sunday.

Hearings in the cases of the Sebastian Martin and Mesa Prieta grant, which were set for yesterday, have been adjourned by the referee, E. A. Johnston, for two weeks to enable Hon. T. B. Catron and Governor L. Bradford Prince to procure further witnesses and proof in said cases. The land grants are situated in Rio Arriba

## SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alternative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

county and the Sebastian grant contains about 52,000 acres of land.

Mrs. Fannie Britton of New York City, who has been in Santa Fe for six weeks on a visit to her nieces, Mrs. Arthur Seligman and Mrs. W. H. Wherry, left for the east. Mrs. Wherry and baby accompanying her. Mrs. Britton enjoyed her visit in the capital of New Mexico greatly. Mrs. Wherry will spend the summer in Cleveland, O., with her parents.

Harvey & Eastgate, the contractors, today commenced work on the brick cottage of Charles J. Parsons on Cerrillos road. The cottage will contain four rooms and a bath room. They have also signed a contract with John V. Conway, superintendent of schools, for the erection of a brick cottage also on Cerrillos road to contain six rooms and a bath room.

Santa Fe claims the champion girl bowler of the territory in Miss Burna Dilts, who is 15 years old. At the all-territory contest yesterday she established a record of 201 points, her average for the three games being 188.23 pins. This record exceeds that of Colorado or Kansas. A challenge has been received from Raton for a match.

Further steps were taken last night at the meeting of the Central Labor union toward completing arrangements for the grand picnic to be given by the Central Labor union on the Fourth and fifth of July.

People who like to angle for the fine speckled trout and large-mouth bass that abound in the brooks and streams of this sunshine territory will have to do it lawfully or they will get yanked and fined.

To be conversant with the new game and fish law you had better get council bill No. 66 and read up. Ignorance is not excused by law.

You Know What You Are Taking.

When you take Grove's Tasteless Chili Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

CONVENTION OF CONDUCTORS.

Annual Meeting of the National Order in Pittsburg.

Pittsburg, Pa., May 12.—The twenty-ninth biennial convention of the order of Railway Conductors, which was formally opened here today with Grand Master E. E. Clark presiding, is the largest gathering in point of attendance in the history of the organization. The delegates number more than 2,000 and represent among them all the principal railroads of the United States, Canada and Mexico.

The opening session was devoted to addresses of welcome, appointment of committees and other work of a preliminary nature. At the succeeding sessions a great deal of business of importance to members of the order will be transacted. Boston, Buffalo, Salt Lake and several other cities are bidding for the next convention, and the contest promises to be a spirited one before the final selection is made. Many of the delegates are accompanied by their wives and families.

INDIANA VETERANS.

Annual Meeting of the State Grand Army of the Republic.

Anderson, Ind., May 12.—Anderson was given over to the Grand Army today. Fully 10,000 visitors are in the city and the annual encampment, Department of Indiana, Grand Army of the Republic, it is already assured, will be one of the most largely attended and successful events of the kind ever held in the state. Though the big parade does not take place until tomorrow there was enough in the way of meetings and public entertainment to keep the veterans busy today. Encampment politics is at the boiling point. Three leading candidates for department commander—G. W. Grubbs of Martinsville, R. P. Finney of New Albany and I. B. McDonald of Columbus City—are conducting spirited campaigns and in addition there is a contest for the office of adjutant general. South Bend and Fort Wayne are engaged in a strong fight for the encampment of 1904.

Will Be Here Friday.

Members of the Kansas City Commercial club left Kansas City at 5 o'clock this afternoon on a special train for a trip through the southwest. They will arrive here on Friday morning, where they will meet the prominent farmers of the Rio Grande valley and the merchants of the city. There will be something doing when they get here, and a lively time around the depot is assured. Every one will get a souvenir who meets these enterprising gentlemen from Kansas City.

Roosevelt at San Jose.

San Jose, Cal., May 12.—President Roosevelt passed the night at Campbell, in order to avoid the noise at the depot in this city. He arose refreshed and ate a hearty breakfast. The train arrived here at 8:30 this morning. There was a large crowd of people at the depot and as the train pulled out for Palo Alto the president stood on the platform and waved his hands.

Russia Getting Good.

Pekin, May 12.—The Russian charge, M. Platon, has given assurances regarding Manchuria. He has issued an official notice that all Manchuria is open to foreign travel and adds that passports are no longer necessary.

## LODGE ENTERTAINMENT.

Enjoyable Meeting of Ancient Order of United Workmen.

ORGANIZER BURTON PRESENT.

The A. O. U. W. hall on South Second street last evening was the Mecca of all members of that influential and beneficial order that does so much for humanity, the Ancient Order of United Workmen.

Supreme Organizer J. A. Burton was there, too, and that made the meeting all the more enjoyable.

Ten new members were taken into the order last evening, and this with the members that have recently joined makes the local organization the strongest in New Mexico and Arizona. This order is very strong in the east and in New England, and numbers among its members the most influential men in the state and nation.

Supreme Organizer Burton, who is doing efficient work for the order, was treated to a pleasant surprise at the close of the exercises by being presented a fine gold headed cane.

Brother C. B. Hawley made the following presentation speech:

Master Workmen and Brethren: You have delegated me to a duty to perform which has both pleasant and unpleasant features. The pleasant ones are to show our friend and brother, J. E. Burton, that we appreciate the efforts he has put forth to build up and make Benefit lodge the champion lodge in the New Mexico part of this jurisdiction. He came among us about six weeks ago, a total stranger, unheralded and unsung. During that time he has worked among us with all the energy which he has possessed to help build up Benefit lodge No. 2. We don't like to flatter Brother Burton, thinking perhaps it might make him vain, but we must make all due allowances for him and take into consideration the fact that if it is only a short time he left the wilds of Kansas and came to this blessed land of sunshine. If I should attempt to enumerate all the good things he has done since he came among us, it would be an endless task and make us wish before we had finished that we had not attempted it.

The unpleasant features are that you are soon to take your departure from this field of labor and leave us to work out our own salvation in fear and trembling. You will soon take up the work in some other part of the jurisdiction and help on the cause you love so well.

What a glorious privilege it is to be able to help the widows and fatherless children, who might but for the amount of the beneficiary, be thrown upon the cold charities of the world.

Brother Barton, I now have the pleasure of presenting to you in the name of Benefit lodge No. 2, A. O. U. W., this beautiful cane. Take it, use it, and when in future years you look back to this night of the 11th day of May, 1903, may it spur you on to a renewed effort in the glorious cause in which you are engaged.

Brother Burton replied feelingly and said he appreciated the kindness of the brethren.

Brother Shuffelbarger, a shining light in New Mexico A. O. U. W., presented a silver match box in behalf of the Degree of Honor to Brother Burton.

A social time followed, and story telling helped to make the night of May 11 one which will be remembered by the local lodge of Ancient Order of United Workmen.

TO CURE A COLD IN ONE DAY.

Take Laxative Broom Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature.

### FOREST FIRES.

Mountain Region of Pennsylvania Swept by Flames.

Johnstown, Pa., May 12.—Without stopping work for forty hours, exhausted and choked with smoke, the lumbermen and mountaineers of Cambria, Somerset and West Moreland counties are praying for rain to quench the forest fires that have been raging for a week. By almost superhuman efforts of the inhabitants and with the aid of fire companies from Altoona and Johnstown, the villages and mills at Dunlo, Vintondale and Twin Rocks have been saved. Guards surround the Conemaugh power plant at Seward to prevent the flames reaching that establishment.

Iowa Federation of Labor.

Davenport, Iowa, May 12.—Accredited delegates from every part of the state filled the hall when the eleventh annual convention of the Iowa State Federation of Labor was called to order by President Arthur H. Holder, of Des Moines. In his annual address the president congratulated the convention upon the marvelous strides organized labor has made in Iowa of late years and exhorted his hearers to continue the work of organization. The growth of the state body was further shown in the figures contained in the annual report of Secretary J. H. Strief, of Sioux City. The secretary's report showed that during the last twelve months many new charters have been issued. The present membership exceeds 45,000, divided among 720 different unions.

D. T. Reynolds and wife of Cripple Creek, Colo., are in the city today, coming in last night from southern California. While here they are guests of Mr. and Mrs. Maynard Gunsaul.

## A COUGH CONUNDRUM

When is a cough more than a cough?

When it's a settled cold. When it hangs on in spite of all you can do. Cough mixtures won't cure it because they are merely for a cough and this is something more.

Scott's Emulsion cures the cough because it cures the something more. It heals and repairs the inflamed tissues where the cold has taken root and prevents its coming back.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

## GUARD INSPECTION.

Capt. Walker Will Begin at Santa Fe and Close at Las Cruces.

REPORTS MUST BE MADE IN TRIPLICATE.

The official orders regarding the inspection of the New Mexico National Guard by officers of the army, in accordance with the law recently enacted by congress, have been issued. The orders are as follows:

Territory of New Mexico, Office of Adjutant General, Santa Fe, N. M., May 9, 1903.

General orders, No. 11.

1. The commanding general of the Department of the Colorado having designated Captain Kirby H. Walker, 14th United States cavalry, to inspect the organized militia of the territory of New Mexico on such dates as might be arranged with the adjutant general of the territory, pursuant to instructions from the secretary of war, under the provisions of general orders No. 29, current series, headquarters of the army, adjutant general's office, the inspection so ordered will be held at the following times and places, viz.:

Company F, and the First cavalry band at Company F armory, Monday, May 18, 1903, at 7 o'clock p. m. sharp.

Troop A, First Squadron of cavalry and Company K, First regiment of infantry, at Troop A armory, East Las Vegas, 10 o'clock a. m., May 19. The field and staff First Squadron of cavalry will be inspected at the same time and place.

The field and staff and regimental band and Company G, First regiment of infantry, at Company G armory, in Albuquerque, May 19, at 8 o'clock p. m.

Company H at Socorro May 20, at 8 o'clock p. m.

Company D at its armory in Silver City, May 21, at 4 o'clock p. m.

Company A at its armory in Las Cruces May 22, at 8 o'clock p. m.

2. Company and troop of commanders will see to the prompt assembly of their commands at the times and places above mentioned, and will require uniforms and shoes to be brushed, and arms and accoutrements to be clean and in perfect order.

3. Company commanders who have not made out and forwarded to this office copies of their muster rolls as directed by general orders No. 7 are expected to do so without delay.

4. Printed inspection blanks supplied by the war department are herewith transmitted to the commanding officers of First regiment of infantry, and First squadron of cavalry, and each troop and company organization which are required to be carefully made out in triplicate, and delivered to the inspecting officer at or before the time of beginning the inspection. Care should be taken in filling the blanks, and all questions answered as fully as possible in order that the war department may be furnished with all the information desired concerning the condition of our military organizations.

By order of Miguel A. Otero, governor and commander in chief.

W. H. WHITEMAN,

Brig Gen., Adj. Gen.

Strike in Omaha.

Omaha, May 12.—There was a material increase in number of wagons running today. Deputy sheriffs accompanied the wagons, but no attempt was made to molest the drivers. At a meeting today of the laundry proprietors it was decided to open the laundries on Thursday. For the strikers it was given out that the fight would be carried to the extreme and that the other union men, perhaps the barbers and street car employees, may be asked to strike in sympathy.

BEING INVESTIGATED.

Important Witness Before the St. Louis Grand Jury.

St. Louis, May 12.—Former Senator F. W. Lyons of Kansas City, author of the anti-alum law, was a witness before the St. Louis grand jury for more than an hour today, and after being excused as a witness was taken to a private room, where he was held for the grand jury. It is believed that Lyons is standing on his "constitutional rights" in refusing to give testimony that might incriminate himself, and the grand jury wishes him to tell some facts that he has failed to tell.

## THE CRESPIN HANGING.

### What Was Discovered in the Case After Investigation.

#### VERDICT OF CORONER'S JURY.

The coroner's jury, investigating into the cause which brought about the death of Acacio Crespin, found hanging by the neck and dead at Sandoval, Sandoval county, yesterday morning, returned the following verdict late in the afternoon:

Territory of New Mexico, County of Sandoval, May 12, 1902.

We, the undersigned members of the coroner's jury are of the opinion that the body of Acacio Crespin, who was found hanging from a rope around the neck, according to the information of those who took him down, is that of the said Acacio Crespin was already dead before he was hung in the cellar, and that is our opinion, together with that of the justice of the peace, Juan Mondragon, of precinct No. 1, of the county of Sandoval, who was called to examine said body in the absence of the justice of the peace of Corrales.

Signed—Juan Mondragon, justice of the peace; Jose de Jesus Lopez, Pablo Griego, Salome Garcia, Jose G. Gutierrez, Abelino Perea, Ramon Gutierrez, coroners' jury.

Yesterday afternoon, when the news of the finding of the dead man, hanging in the wine cellar at the fruit ranch of Hon. E. A. Miera at Sandoval (Corrales), was telephoned to this city, a citizen representative, with Sheriff T. S. Hubbell, Hon. Alejandro Sandoval and V. S. Miera, left the city for the scene of the tragedy.

On arriving at the Ignacio Gutierrez store, Fred J. Otero, who had the day before been appointed sheriff of the new county, and his deputy, Tomas Werner, were present, having driven up from their homes in Albuquerque a few hours previous, but unaware of the hanging until so informed by Mr. Gutierrez. Mr. Otero, not having qualified as sheriff telephoned meagre facts to District Attorney Clancy, in this city, and, on securing certain information from that gentleman, placed a guard of three men at the wine cellar and then sent a messenger to Bernalillo for Justice of the Peace Mondragon, the magistrate at Sandoval, Jose Leon Gutierrez, being absent no the Rio Puerco.

In the meantime Sheriff Hubbell and party passed on to the Miera place, better known as the old Louis Imbert ranch, and then entered the cellar, the sheriff first picking up from the ground, nearby, the padlock of the door of the cellar.

The telephone message to this city, a few hours previously, was then verified by facts, for hanging from the center beam of the cellar, between a barrel and a huge post, a little to the right of the foot of the steps, was the lifeless body of a man, and he was recognized by V. S. Miera, brother of E. A. Miera, as Acacio Crespin, manager and overseer of the latter's fruit ranch.

No one in the party touched the body or anything surrounding it, but each examined the premises, especially the cellar, minutely.

It was discovered that a one-quarter inch rope, which had seen usage, was used in hanging; that one end of the rope had been carried through an opening between the ceiling and center rafter, and then knotted in a skillful manner, the knot being known as the "sailor's twist"; the noose around the neck was very loose, but still the head was found to be drawn backward and almost down on the shoulders.

The man's arms were partially stretched out in front, and he was hanging, as stated above, between a barrel and the first center post in the cellar.

It was evident that the barrel had been moved conveniently about a foot, and there was still dust on the top of the barrel, with no foot marks thereon. On the right side of the barrel hung a handkerchief and directly in front of the barrel, on the floor, was a white sombrero, both being identified as belonging to the dead man. The shoes of the dead man and his putalons, up to the knees, were wet and muddy, indicating that he had been doing some irrigating a few hours before the discovery of the dead body.

Investigating further, it was found that some one had taken particular pains, in a most careful manner, to obliterate any evidence of footprints in the cellar, especially at the foot of the steps, and around the barrel. An old broom had been used (it was lying near by), and it did its work well, for if Crespin was the victim of foul play and several were implicated they had covered up their tracks in a scientific manner; or, on the other hand, if Crespin took his own life he went at it in a most deliberate manner and also left no footprints behind to indicate that he was the only one to participate in his sudden destruction.

After these investigations the party repaired to the house, in the same enclosure and about fifty yards away, where Mrs. Cornelia Armiño Crespin, said to be the wife of the dead man, was interviewed. She stated that he got up about 4 o'clock yesterday morning to do some irrigating in the orchard back of the house. After he got up, she went to sleep again and did

not awake until near 7 o'clock, when she arose and prepared breakfast. Crespin did not appear for breakfast, and she, with another hired hand, Ignacio Selva, who had just reported for work, went to search for him. The dead man had spoken of going to Albuquerque on some business, and thinking that he had gone down the road, she and Silva started down the road for a nearby store. Not finding Crespin they returned to the house and on noticing the door to the wine cellar unlocked (both claim they saw the padlock on the ground) they peered inside and found Crespin hanging as described above. The alarm was then given, and an effort made to find the justice of the peace of the precinct, but he had gone to the Rio Puerco country. The woman stated that she and Crespin heard noise as if several were talking, around the house the night previous, but on getting up to investigate could find no one. She also stated that Crespin had some difficulty on Sunday with certain neighbors, but she did not, in her conversation, say anything that would connect them with Crespin's death. The woman, on being questioned as to whether they had quarreled, stated that they lived happily together and it was his usual custom to get up quite early and go to work, especially when irrigation had to be done.

It was her opinion that Crespin had been followed, foully dealt with, and his body carried to the wine cellar and placed in the position as found, to give out the idea that it was suicide.

Ignacio Selva, who was with the woman in her search for Crespin, was next seen, and he confirmed the theory advanced by the woman that the man was the victim of foul play. Selva stated that the rope used in the hanging did not belong to the premises, as all the rope belonging to Mr. Miera was in the barn as left the night before.

After these interviews, Sheriff Hubbell telephoned to District Attorney Clancy, telling him that no justice of the peace had shown up and asking his advice in the matter. Mr. Otero also again telephoned to Mr. Clancy, and word was received to cut down the body, in the presence of witnesses, and examine remains.

At 5:15 p. m., the body was cut down, the witnesses being Maximo Chaves, Ignacio Gutierrez, Francisco Gonzales and Carlos Martinez, and carried from the cellar into the house. Here the clothing was stripped from the body, but no marks of violence were found. There were a few skin abrasions on both legs, just below the knees, showing that these limbs had come in contact with the barrel, but no other marks, of any consequence, were discovered. However, it was the generally accepted opinion by those who examined the body that the man had been sandbagged, in fact killed, and then his body carried to the wine cellar, the padlock being hammered off with one stroke, and then hung.

After this examination, Justice of the Peace Mondragon, from the Bernalillo precinct, appeared, and held an inquest, the verdict of which is found at the beginning of this article.

Messrs. Hubbell, Sandoval and The Citizen representative then returned to the city, leaving V. S. Miera at Sandoval to look after the interests of his brother, Hon. E. A. Miera, who has not been at Sandoval for several weeks, and to personally superintend the burial of the latter's fruit ranch manager, which occurred there today.

V. S. Miera informed The Citizen that the dead man was about 37 years old, and had been in charge at Sandoval for about two months. He was a hard working man and to his knowledge had no known enemies.

The Imbert ranch seems to be fated. A few years ago, the youngest son, Louis Imbert, Jr., shot and killed, by accident, with a small caliber rifle, a woman by the name of Dolores Gallarda. This killing took place in the kitchen of the residence and within a few yards of the mother of the boy. A few years later Louis Imbert, while crazed from brandy and wine drinking, shot and killed his wife in a fit of jealousy. Sheriff Hubbell was sent for, and, with a posse, surrounded the Imbert house. Louis had his gun, and defied, on pain of instant death, his arrest. Growing further desperate, he poked his head out to view the surroundings, when the crack of a rifle was heard and the bad man—the murderer of his wife—was no more. The rifle ball did its work, and Louis Imbert, with the wife he murdered, were buried on the same day and in the same cemetery.

#### Retail Clerks' Union.

Knights of Pythias hall last evening was occupied by the Retail Clerks International Protective association. The goat was brought out and ten new members rode. This union has nearly 150 members and is one of the strongest in the city.

The entertainment committee of the union is making arrangements for a big dance to be held on the eve of Decoration Day. The affair will be one of the principal social events of the season and will probably be held in Colombo hall.

#### ASSAULTED BY UNKNOWN MAN.

A Cowboy the Victim of Malicious Assaults.

Samuel Slaughter was badly clubbed and beaten by two men unknown to him at the Seventy-Six ranch in this county on last Thursday, says the Deming Graphic.

Mr. Slaughter, it appears, was at the Seventy-Six ranch on his way to the round up, and in the employ of

Robert Herrington, when the two men rode up to the ranch and made Mr. Slaughter's horse break loose. Mr. Slaughter then asked them something about the round up. The men then asked Slaughter who he was working for, and when told that he was working for Herrington, the men cursed Slaughter and Herrington, and wanted to know of Slaughter if he had not been warned not to work for Herrington. Slaughter said that he had not; that he had a large family; had lately come to the country, and had to work wherever he could get a job, and moreover he would work for whoever he pleased to work for. At this the men became infuriated, and one of them drew his six shooter while the other man beat and bruised Mr. Slaughter very severely with a club.

Mr. Slaughter came to town and had a warrant issued for the men. He does not know the names of the men, but gave a description of them so that they may be apprehended by the sheriff.

This kind of business is much to be regretted by all good citizens who are interested in the welfare of the county, and the stock business.

After the above was set up, Sheriff Foster returned, stating that as the names of the men could not be learned and no accurate description given by which to identify them he was unable to make any arrest.

#### DEMING SANITARIUM.

Names of Those Who Will Take Active Part in Pushing Enterprise.

Some time past Judge Soaman Field, chairman of the Deming Auxiliary Board of the National Colony and Sanitarium, that is now an assured fact, and that will grace the now barren plains south of this city with large, commodious and handsome buildings, was called upon to appoint committees from the resident members who would lend their assistance and aid in any manner possible to the furtherance and advancement of this gigantic scheme, says the Headlight.

As a consequence the following were named as members of the different committees.

#### Ladies' Committee.

Mesdames Seaman Field, John Corbett, Kate Byron, Lou H. Brown, A. W. Pollard, Gilbert J. B. Hodgdon, Dosier, R. Hudson, A. J. Clark, E. H. Matthews, B. Y. McKee, Moore, W. C. Wallis, U. F. Duff, P. R. Smith, F. Thurmond, H. Meyer, J. E. Irvine, W. H. Greer, W. Guiney, G. Anderson, J. A. Fleider, R. G. Clarke, D. Kendrick and the Misses Purdy, Mohr, Guiney, Hamm, Kirtz, Rathel, Deemer, Clark, Allen, L. K. Smith, L. G. Smith, E. L. Cassels.

#### Business Men's Committee.

Seamon Field, P. R. Smith, A. J. Clark, J. A. Mahoney, J. B. Hodgdon, H. Nordhouse, John Stenson, S. Lindauer, F. Thurmond, W. H. Greer, B. A. Knowles, John Corbett, Lou H. Brown, N. A. Bolich, S. D. Swope, T. A. Carr, W. C. Wallis, J. Hannigan, A. W. Pollard, C. Moore, J. H. Tracy, J. M. Cain, Geo. Shepard, W. P. Tossel, R. Hudson, W. J. Wamel, W. R. Merrill, Calvin Baker, H. Meyer, J. N. Upton, Tom Marshall, Manson Fairfield, C. Baca, Edw. Pennington, B. Y. McKee, U. F. Duff, J. P. McGrorty, George L. Shakespeare, E. R. Cassels, Smith.

#### Young Men's Committee.

Albert Field, P. R. Smith, Jr., Rogers, James Irvine, J. A. Kinnear, Arthur Rathel, Walter Guiney, R. G. Clarke, Geo. Meyer, Cooper, M. Frank, Ralph Byron, W. D. Rexford, C. J. Kelley, Frank Nordhaus, Will Foster, F. Delany, Congdon Brown, Leland, McClellan, White.

#### Base Ball Sunday.

There will be a hot game on Sunday afternoon at the fair grounds. The Old Town Tigers and the Browns are to battle for \$50 a side, and there promises to be all kinds of fun. The First Regiment band will be present and furnish the music, which adds greatly to the enjoyment of the occasion.

The Browns line up as follows: Stevens, catcher; Rhodes and Ford, pitchers; Cavanaugh, first base; Bert Vorhes, second base; Merritt, third base; Charles Vorhes, short stop; Cosgrove, left field; Quier, center field; Ortiz, right field; Helwig, substitute.

The Old Town Tigers will play under the management of Jesus Romero. The Tigers are Rams, Wilson, Pettis, Coulter, Los, Miraval, Gallegos, Brown and Diflasira.

The game will start promptly at 2:45.

#### UPS AND DOWNS.

Postmasters Get Increases, While Some Decreases.

A dispatch from Washington, dated May 12, says:

The postoffice department today authorized increased postmasters' salaries in New Mexico as follows: Albuquerque, \$2,600 to \$2,700; Raton, \$1,800 to \$2,000; Carlsbad, \$1,500 to \$1,600; Las Vegas, \$2,100 to \$2,200; Roswell, \$2,000 to \$2,200.

The following decreases were ordered: Silverton, \$1,800 to \$1,700; Gallup, \$1,500 to \$1,400; Santa Fe, \$2,300 to \$2,200.

## GRAYSON CASE.

### Color & Company Say a Good Word For Grayson.

#### BELIEVE MISTAKE HAS BEEN MADE.

New York, May 14.—Moody Merrill, who was arrested here yesterday on a charge of grand larceny, had, according to the police, entertained in Boston Charles F. Grayson, the mining engineer who was promoting New Mexican mining properties. Grayson died while Merrill's guest and when the latter decided to go to New Mexico and take up mining he assumed Grayson's name. In New York Merrill was also known as Grayson. He made his headquarters at the banking house of W. N. Coler & Company. W. N. Coler, Jr., said today:

"It seems to me we have been dealing with Colonel Grayson at least fifteen years. Now, is the story in the newspapers about his disappearance from Boston ten years ago correct, it would seem to bear out the statement that he assumed not only the name, but the business of a dead friend."

"We found Colonel Grayson a man to trust, and I will always trust him. He has handled hundreds of thousands of dollars for us, which he could have stolen if he were inclined. Grayson is one of the leading financiers of the southwest."

Mr. Coler added that he would help the man if he could, for he believed a mistake had been made.

#### THE GRAYSON ARREST.

Silver City Banker Arrested in New York City.

A New York dispatch says that Moody Merrill, a former Boston lawyer, was arrested here today on a charge of grand larceny and was held for examination on Friday. The arrest was made at the request of the Boston police, the charge being the larceny of \$19,000, said to have been held by him in trust, for which offense he was indicted in Boston on January 23, 1903. Merrill has been an exile from Boston for nearly ten years. He once had a high reputation in business, politics and society.

After Merrill left Boston it became known that he was being known as Charles F. Grayson. He went to Silver City, N. M., and established himself in business there, became president of a national bank, interested himself in territorial politics, was appointed one of the regents of the territorial normal school, established himself as the territorial agent of Senator Calvin S. Brice and of the firm of W. H. Coler and company of New York, made money and a reputation for himself, went to Washington to oppose the reappointment of Governor Otero, and was one of those interested in urging the admission of New Mexico to statehood, and has been a figure of prominence not only in Washington but in New York. It is said that he has never set foot in Boston since his departure, but he appears to have cherished the hope of some time doing so. Much mystery seems to attach to his arrest at this time.

It is learned that Mr. Grayson has disposed of his banking interests in Silver City.

Whatever he may have been in Boston, Charles F. Grayson was a good citizen of New Mexico, and he has a host of friends in this territory who hope that he may disprove the charges brought in Boston.

#### WILL PROVE FATAL.

Henry Donaldson Injured by a Train at French, N. M.

Henry Donaldson, one of the bridge building employees of the Rock Island railway, was conveyed to Trinidad yesterday morning, with his legs crushed and body badly bruised, a result of being run down by a train on a bridge at French, N. M. The unfortunate man was taken to the hospital, but was so weak from loss of blood and the pain of his injuries that Dr. John R. Espey, the C. & S. surgeon, did not attempt amputation of the injured limbs, knowing that it would mean immediate death.

At a late hour last night Donaldson was not expected to live until morning. —Trinidad Advertiser.

#### Death of Mrs. Melvir M. Israel.

Mrs. Israel, wife of Melvin M. Israel, died this (Thursday) morning about 3 o'clock, after a short illness of scarlet fever. The deceased was thirty-one years old. She came to this city about six months ago from New York. She was born and educated at Charlestown, S. C. The husband has the sympathy of all in his sad bereavement. The funeral will be held at the undertaking rooms of A. Borders tomorrow afternoon at 2 o'clock, and services will be held at B'nai B'rith plat in Fairview cemetery at 2:30.

#### Tucumcari Fight.

Monday morning at an early hour a fight was started in the Turf saloon at

Tucumcari. The proprietor, John Brophy, tried to quiet the trouble when one of the fighters became abusive. Brophy struck the man, who drew his revolver and fired point blank at Brophy but missed. Brophy drew his revolver and fired six shots in rapid succession, three of which took effect. Brophy was formerly marshal at Clayton.

#### CONSUMPTIVES SENT TOO LATE.

Denver Physician Sharply Comments on Mistakes of Eastern Colleagues.

Dr. J. N. Hall, of Denver, in a paper read by him before the American Therapeutic society at Washington on the subject of "Altitude Treatment," scored certain physicians heavily for recommending the Rocky mountains to their patients without a thorough examination of their symptoms. He said many patients with advanced lung trouble have been sent to high altitudes with positive knowledge on the part of physicians that they could not live a month.

Upon the stage of the disease, he said, depended the beneficial results of mountain air. It was a fact that a large percentage of physicians with tuberculosis were cured in the Rocky mountains. This was explained from the fact that physicians early fell into expert hands and were sent west promptly. If patient with a cough were sent to the mountains, there would be more well men and fewer diagnoses of consumptives.

#### Las Vegas School Board.

At a meeting of the school board held Monday evening, the old board finished up its business and the new board was duly installed. Sig. Nahm was installed from the first ward, in place of John York, resigned, and Dr. H. M. Smith in place of Dr. C. C. Gordon, resigned, from the second ward.

Officers for the ensuing year were elected as follows: President, D. C. Winters; vice president, W. A. Hayden; secretary, Charles Tamme; superintendent, Miss Maggie Bucher. The present corps of teachers were re-elected for the coming school year, with the exception of Miss Marie Ferichs, who will go to Aspen, Colo. The reports of the secretary and treasurer were read, showing the schools in splendid condition. Miss Minnie Holtzman was granted a leave of absence of eight days and Miss Eunice Tamme was selected as a substitute—Advertiser.

#### HEARING OF BRUCE JONES.

At Alamogordo Concluded, and Defendant Held in \$10,000 Bond.

The hearing of Bruce Jones for the slaying of Ernest Sowell last Friday morning, which has occupied two days before Justice of the Peace O'Reilly, at Alamogordo, was finished yesterday morning and the defendant was granted bond in the sum of \$10,000 to appear before the next grand jury. He furnished bond with a half hour, his two brothers and R. H. Purce qualifying as his bondsmen. In the trial of Jones very little evidence was adduced which had not been made public before. Major Llewellyn represented the territory and Attorney Franklin the defense.

Ennis Hilburn, and two women of the Hilburn resort were taken into custody Monday night and will have their hearing as accomplices. The third woman has disappeared since the tragedy.

Considerable public interest has been evinced in this case and the court room was crowded during the entire hearing.

#### INSANE BOY.

Found Running Wild in the Mountains About Ojo Caballo.

Two men came from Ojo Caballo bringing with them an American boy 16 years of age, who was found running wild in the hills. The boy was turned over to Sheriff Cleofas Romero and placed in the county jail for safe keeping.

The men from the spring relate that the boy's wild cries had been heard in the mountains and were mistaken for those of a coyote. When captured he seemed to be without a glimmer of rationality, but later he talked sensibly enough, saying that he had worked for Barnes at Romeroville. During his mind wanderings he talked of a band of horses he had been driving.

An effort will be made to establish the boy's identity. He uses language that speaks of considerable education and polite breeding. He is very dark, but not bad-looking. Of his wanderings and history during his infrequent quiet moments he can tell little or nothing.—Optic.

#### Conductor Becomes Capitalist.

Dick Brown, a passenger conductor on the El Paso & Southwestern, has caught onto the tide of fortune which of late has wafted so many enterprising citizens around Bisbee to wealth. Some time ago he staked out a small claim in the wonderful Biebec copper district. The claim, with a little development, revealed a promising ore body and the lucky conductor sold an interest in it for \$35,000 cash. He did not stop with that, however, but went on to Boston a few days ago, where he stocked a company and sold \$50,000 worth of stock. He is now being congratulated by his many friends upon his rapid rise from conductor to capitalist.

## Weekly Crop Bulletin

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., May 11, 1902.—The continued cold nights retard vegetation, although light showers and warmer days have made conditions more favorable. Later advices in regard to the frost of the night of April 30, indicate a heavy loss in early fruits, as apricots, cherries and peaches. Many orchards of the northern counties suffered the loss of almost the entire fruit crop. The warmer weather is bringing out the grass on southern ranges, and stock is beginning to show rapid improvement, but on northern ranges grass comes so slowly that but slight improvement is noted. The weather has been quite favorable for spring work and much planting has been done in northern counties. In a few localities it is almost too dry for working the ground, but in general the soil is still in very good condition. Corn planting is finished in central counties and in some places it is already above the ground. Alfalfa and spring wheat are making a good, strong growth. Alfalfa is in bloom and wheat is beginning to head out in the lower Rio Grande valley. Lambing is now well under way in the most northern counties. All reports indicate that both the lambing and calf season has been a very successful one. Excepting in a few northern localities irrigation water seems to be plentiful.

The following remarks are extracted from the reports of correspondents:

Albert: H. M. Hanson: Unusually cold and chilly weather for this time of year and grass, although green, makes little progress. Rain and warmer weather is needed. Some planting is being done but the ground is most too dry for satisfactory work. Lambing has started and sheepmen consider the prospects fair. The calf crop also promises to be quite satisfactory. Highest temperature, 81; lowest, 37; rain, 0.05.

Andrews, Sierra county: A. S. Warren: Warm weather with light showers; vegetation improving.

Dorsey: Will C. Barnes: No change in the drought conditions and rivers and ditches remain dry. Pastures and ranges show no green grass. High winds and abnormally cold nights. Showers during the past week have been entirely local and too light to do any good. Cattle are still poor, and the young calves coming makes it hard on the old cows.

Folsom: Jackson Tabor: Cloudy and cold. Heavy hail in the vicinity on the 5th. Grass is coming slowly but stock shows some improvement. Crops of all kinds are almost at a standstill. Fruits blooming after the 30th do not seem to be injured by the freeze. Highest temperature, 70; lowest, 31; rain, 0.60.

Gallinas Springs: Jas. E. Whitmore: Good weather this week. Grass is coming up nicely and cattle and horses are showing rapid improvement. Corn is starting through the ground. There will be very little fruit this year. Highest temperature, 79; lowest, 34; rain, 0.09.

Glencoe, Lincoln county: Annie E. Coe: The heavy frost of the first killed most of the apples and pears. Occasional showers during the past week.

Golden: R. M. Carley: About 0.02 of an inch of rain last Monday greatly refreshed the grass, but it still grows slowly. Lambing of goats and sheep reported very favorable in this vicinity.

Hobart: W. H. Hough: More favorable week for crops; corn and wheat doing well. Fruit prospects are very good. A light shower on the 8th and grass coming fast since. River very high.

Laguna: Gus Weiss: No change from last report. Cloudy every day but no rain. Getting warmer weather now, but rain is needed.

Las Vegas: Wm. Curtis Bailey: Not enough rain to make any decided change in the progress of vegetation. J. W. Hanson: Days warmer but nights still cool. Vegetation starting very slowly. A favorable week for farm work. Highest temperature, 76; lowest, 34; rain, 0.17.

Los Alamos: Wm. Frank: Conditions more favorable; cloudy with a good shower on the 10th. Alfalfa and other growing crops look well. Reports from lambing are fair.

Mesilla Park: R. H. Hart: Warm weather and threatening rain almost every day. Alfalfa in bloom, cutting will begin in a week. A good crop assured. Some wheat is beginning to head. Spring peas are on the market; irrigation water plentiful. Highest temperature, 87; lowest, 41; rain, 0.03.

Miera, Union county: Franco Miera: Rain on the 6th and 7th with heavy hail on the 8th; no damage. Good grass on the range. Lambing season in operation with good prospects. Fruits all killed by the frost of the 30th.

Santa Fe: United States Weather Bureau: Warmer and more favorable but vegetation still quite backward. Plenty of water and rapid progress has been made in spring work. Planting is about finished. Alfalfa looks particularly well. The frost of the 30th killed many of the apricots, cherries and peaches, but some orchards almost entirely escaped. Highest temperature, 69; lowest, 40; rain, 0.05.

Watrous: M. C. Needham: Several cold showers during the week and

grass in low and sheltered places has made some progress. Shrub oak has made a good start. Alfalfa doing well but other crops come along slowly. Irrigation water is plentiful. Highest temperature, 77; lowest, 26; rain 0.20.

R. M. HARDINGE,  
Section Director.

#### Another Road for Arizona.

President F. M. Murphy of the Santa Fe, Prescott & Phoenix and the Phoenix & Eastern railroads, stated that the extension of the former line west from Congress to the Colorado river is one of the things practically decided on, says a dispatch from Phoenix. Numerous surveys have been made, he said, and it is probable that construction work will begin this fall. Track laying is now in progress on the Phoenix & Eastern in the vicinity of Mesa City.

The mileage of the Rock Island system is 7,228, with 1,924 miles under construction. The mileage of the Frisco system is about 3,200 miles, making a total of about 10,500 miles in the new combination.

#### LETTER LIST.

Remaining in the post office at Albuquerque, N. M., May 15, 1903:

Persons calling for or sending for these letters please state where they had been receiving mail, also mention date of advertising.

Free delivery of letters at the residence of addressee may be secured by observing the following rules:

Direct letters plainly to street number.

Give writers name, and request answer to be directed accordingly.

Advertised matter is previously held one week awaiting delivery.

Advertised matter is held two weeks before it goes to the dead letter office at Washington D. C.

Ladies' List.

Notice of Suit.

Territory of New Mexico, County of Bernalillo, in the District Court.

Richie Terrell Harper, plaintiff, vs. John L. Harper, defendant.

The said defendant, John L. Harper, is hereby notified that a suit for divorce has been commenced against him in the district court of Bernalillo county, New Mexico, by Richie Terrell Harper, the said plaintiff, praying for a decree of absolute divorce from the said defendant, alleging as grounds therefor failure to support.

That unless you enter your appearance in said cause on or before the 6th day of July, 1903, judgment will be rendered in said cause against you by default.

W. E. DAME,  
Clerk.

THOS. N. WILKERSON,  
Attorney for Plaintiff,

# Railroad Topics

It is said that the baggagemen will again be put in service on the Southern Pacific. Some time ago they were taken off and the duties formerly performed by them were put upon the express messengers. The experiment, it is said, has proven a failure, as the express messengers already have all they can do.

The W. R. Stubbs Contracting company of Chicago, with a capital of \$100,000, was granted a permit to do business in Texas. This company is to do construction work on the extension of the Choctaw, Oklahoma & Texas railroad west from Amarillo to Tucuman, N. M. Its Texas office is at Amarillo. W. R. Stubbs' home is in Lawrence, Kan., and he was a prominent member of the recent Kansas legislature.

The San Bernardino Sun says that F. G. Sampson of Albuquerque, where he is in the employ of the Santa Fe, arrived in the city yesterday and will spend a fortnight here visiting with relatives.

Spurious and forged pay checks of the Choctaw, Oklahoma & Gulf are in circulation. The number of the check letter is inserted with a rubber stamp. The letter "S" is omitted from the word "island" at the head of the check.

W. E. Condon, who for over a year resided in Alamogordo and was assistant to Chief Engineer Sumner, has joined the engineering department of the Western Pacific railroad. He is a well known engineer and will have charge of the party that is to operate in and around the town of Plumas, Cal.

## WHERE ROCK ISLAND STANDS.

Largest System in United States Except the Harriman Group.

By the acquisition of the Frisco system the Rock Island becomes the proprietor of the largest railroad system in the United States with the single exception of the Harriman, Kuhn, Loeb group, which controls the Union Pacific, the Southern Pacific and the Oregon Short Line railroad. The total mileage under the control of the Rock Island company will be 14,348 miles, including the recent arrangement with the Southern Pacific by which the Rock Island acquires a half interest in 1,346 miles of Texas railroad. The capitalization of the Frisco consists of \$64,000,000 of common stock, \$31,000,000 of second preferred stock and \$5,000,000 of first preferred stock. The capital of the Rock Island amounts to \$150,000,000.

The Leeds, Reid, Moore syndicate, through the Rock Island company, will now have a railroad system extending from St. Paul and Minneapolis to Galveston and New Orleans, and from Chicago to Colorado Springs. It will reach into Alabama and Tennessee and may, in the near future, reach the Atlantic coast by acquisition of the Central railway of Georgia.

Three men joined forces to pass the control of the Frisco. They were B. F. Youkum, its president; James Campbell of St. Louis, the largest individual stockholder, and B. F. Cheney of Boston, who was chairman of the reorganization committee of the Atchison railroad. Reports that there had been a difference of opinion between the members of the pool which at one time had threatened to cause its disruption were officially denied today.

## Billion Miles of Tickets.

During the four years that the interchangeable mileage bureau of the Central Passenger association lines has been in operation 1,000,000,000 miles have been sold for \$30,000,000. Of this amount \$10,000,000 has been returned to the purchasers in drawbacks, leaving the net revenue to the roads \$20,000,000.

## NEW RAILROAD SWITCHES.

E. P. & N. E. Road Building 30,000 Feet of Side Trackage.

The new switches which the El Paso & Northeastern is building between Alamogordo and Santa Rosa will total about 30,000 feet of track and will be located at convenient points along the line where they will be close to a telegraph station.

These switches are being built for the purpose of affording storage room for the coal and coke which is coming onto the El Paso & Northeastern from off the Dawson line, and which is arriving at the rate of twenty cars of coke and thirty-three cars of coal per day.

This is rather a heavy movement, and taken in connection with the heavy through business which the El Paso & Northeastern is now doing, it taxes the motive power to its utmost to keep the line from being blocked. With the new sidings cars can be switched off and held until business slackens up. The siding midway between Oscura and Carrizozo has already been completed, accommodating about seventy-five cars and is designated as Polly siding.—Alamogordo News.

## The Reason Why.

A number of people have enquired of late as to why the Santa Fe engines drawing the special of President Roosevelt and party were not decorated. Such a step is contrary to all

rules and regulations of the Santa Fe system. It is argued that such use of flags and bunting is often mistaken for signals, while the decorations obstruct the view of the engines more or less, thus courting accident. The company did all in its power to offer the best and finest looking engines in the stalls, but drew the line on frills and ruffs.

## VALUABLE APPRECIATION.

Alamogordo Admirers Present A. S. Greig with Draft for \$1,000.

Wednesday evening friends of Col. A. S. Greig, composed of citizens of Alamogordo, together with railroad employees, met him at the News office and, as an evidence of appreciation for his untiring efforts in behalf of Alamogordo, as well as the high regard in which he is held by all, presented him with a New York draft for \$1,000.

Colonel Greig's name is inseparably connected with the growth and prosperity of this section, and particularly Alamogordo. Mr. Greig is now engaged in a project that means substantial development of this section for all time to come, that of the great sanitarium. Because of his energetic work all along he was thus remembered.—Alamogordo News.

## Master Car Builders Gone.

The master car builders of the great Santa Fe system left last evening for their various homes. All were well pleased with the two days' session that was held in this city. The matters up for discussion were treated in an informal way and all took part in the talk. These gatherings are of much benefit to the men and help all concerned.

Messrs. Peck, Mason and Staple of Topeka; S. D. Woods, Newton, Kan.; W. H. Taylor, Raton; C. M. Young, Temple, Tex.; Fred B. Reinhard, Chicago; J. W. Matity, Fort Madison, Ia.; J. W. Hathaway, Pueblo, Colo.; and H. N. Calderwood, Argentine, Kan.

The superintendent of the car department, Mr. Ramsdell, went down to El Paso last night with Mr. Powers, car foreman at the Pass City. Messrs. Whitefleet, George, Miller, Swanson and Whiteside left on No. 7 for their headquarters at Needles, Richmond and other California points.

## ARGENTINE STRIKE ENDED.

Santa Fe Boilermakers Secure Satisfaction Settlement of Grievances.

The strike at the Santa Fe shops in Argentine has been settled and the 137 men who have been out returned to work. A conference was held between the officials of the road at Argentine and a committee of the strikers. The amount of work each man was to do was agreed upon and the men decided to return to work. The strike was caused by the men being asked to do work which they felt was more than they should do or was a part of another man's work. Only a small force of boilermakers is employed at Argentine, as only repair work, which is absolutely necessary is done at the shops at that place.

## ROBINSON RE-ELECTED.

A. A. Robinson Again Made President of the Mexican Central.

The board of directors of the Mexican Central Railway company, limited, elected at the annual meeting of the stockholders, has organized as follows: Executive committee—H. Clay Pierce, chairman; Breckenridge Jones, Gabriel Morton, F. H. Prince, Eben Richards, E. N. Foss, A. A. Robinson, W. L. Stow, C. D. Simpson, J. C. Van Blarcom. Officers—H. Clay Pierce, chairman of the board; A. A. Robinson, president; Eben Richards, vice president and general counsel; H. R. Nickerson, vice president and general manager; Gabriel Morton, vice president and comptroller; F. H. Prince, vice president; C. A. Browne, treasurer and transfer agent; James Piper, clerk; W. A. Frost, general auditor; J. A. Hendry, assistant treasurer; Wallace B. Donham, assistant clerk.

## Given a Life Pass.

Jim Owens is the last Santa Fe employee to receive a system pass for thirty years of service. Mr. Owens is well known in Newton, as almost the whole of his thirty years service has been at this point. This means that he can board any train that runs on the Santa Fe and ride as far as he wishes between Chicago and San Francisco and Newton and the Gulf without asking anybody's permission. It is a nice custom to reward the old employees with these passes.—Newton (Kan.) Republican.

The Denver & Rio Grande train came in last evening as a double header, bringing another eleven cars of steel rails for the Santa Fe Central railway, says the New Mexican. Two cars of steel were left at Buckman's as the load was too heavy to bring up the hill. About fifty more cars of steel for the Santa Fe Central are scattered between Antonito and Santa Fe. The narrow gauge equipment of the Denver

& Rio Grande is wearing out so quickly that at one siding alone seven cars of steel are stalled because the cars on which the steel is loaded have broken down. The Denver & Rio Grande management contemplates changing its narrow gauge lines to standard gauge in the not distant future, and, therefore, is not disposed to replace its worn out narrow gauge equipment with new equipment until the lines have been standard gauged.

## OF BENEFIT TO EMIGRANTS.

Santa Fe Announces One-Third Reduction on Household Goods Rate.

A radical reduction in freight on household goods between Denver and California common points was announced at the Santa Fe offices, says the Topeka State Journal. It is understood that all of the roads will adopt the same schedule. The rate has been reduced from \$3 per 100 pounds to \$2 per 100. The change goes into effect at once. A great many years ago a rate of \$2.80 per 100 was in effect on all of the western roads, but by agreement this was raised to \$3, where it has remained ever since. The reduction to \$2 is understood to be due to the large quantities of household goods the railroads have been called upon to handle during the past few years. The increased immigration into California from the east during the past few years has more than trebled, and this has enabled the roads to handle large quantities of this class of freight at lower cost.

## Broke His Arm.

C. B. Smith, employed by the Santa Fe at Gallup, came in on the flyer last night and was taken to the St. Joseph hospital. He was suffering with a broken arm. It seems that Smith was on top of a freight car and the train broke in two and he plunged headlong to the ground. He was severely shaken up.

## TALKS ABOUT STRIKE.

J. J. Hill Discussed the Situation on Great Northern.

In an interview on the possibility of a strike on the Great Northern Railway system, President J. J. Hill said: "If the men have voted to authorize a strike I can see no common ground on which the matter can be further arbitrated. They will be obliged to accept the consequences of any action they may decide upon. Our information is, however, that the men are holding meetings for the express purpose of opposing the demands of the committee. I am quite sure they would not want to strike if left to act as they would of their own accord. The question is one which does not affect the Great Northern directly; ours is not a double-header road less than 3 per cent of our freight mileage is hauled by double-headers, and this includes the payers, to which no opposition has been raised. About 1 per cent of the men who would be called upon to strike should the grand officers and men decide to declare one, would be directly interested in the proposition they would go out to vindicate. We have good trainmen, and have agreed to give them the increase in pay they ask, but if, without anything that affects them directly, they vote to go out, we don't want them to work for the road a minute longer. I don't think more than 1,500 would go out in any event."

## BUILD A 300-MILE BRANCH.

Santa Fe Has a Big Project on Hand in California.

The San Francisco & Northwestern road filed articles of incorporation in the office of the county clerk in San Francisco. By the articles filed it is evident that the railway is a branch of the Santa Fe system, the active men in the incorporation being prominently identified with the Santa Fe company. The corporation starts with a capital stock of \$15,000,000. The directors are Capt. A. H. Payson, assistant to the president of the Santa Fe company; H. D. Pillsbury, A. Moreton, W. A. Alberton, H. K. Gregory, all of San Francisco.

The amount of capital stock actually subscribed is \$300,000 of which sum Captain Payson has subscribed \$298,000. The principal place of business is San Francisco and the term of existence is fifty years.

The route of the railway is from Alton, Humboldt county, thence in a generally southern direction to Point Richmond, the terminus of the Santa Fe. The estimated length of the railway is 200 miles.

The Rt. Rev. J. B. Pitaval, auxiliary bishop of the Santa Fe archdiocese of the Roman Catholic church, will return Sunday to Santa Fe from a confirmation tour which has lasted about four weeks. He has visited this city, Bernadillo and other points, and while here greeted President Roosevelt, welcoming him to the territory on behalf of the Roman Catholics of the territory.

## COMMERCIAL CLUB DELEGATION

Hustling Kansas City Merchants in Albuquerque This Morning.

## WERE WELL PLEASED WITH CITY.

On being introduced to the Citizens representative, Keene Jackson, secretary of the Kansas City Roofing and Corrugating company, said: "Albuquerque is the best town, up-to-date in all appearances, that I have seen en route through the great southwest, and everything, on all sides, in the city shows activity and business enterprise."

They have come and gone—those enterprising Kansas City gentlemen. While they were here they were busy entertaining the farmers of the Rio Grande valley that came in to meet them. Telling them this and telling them that; showing them this and showing them that, so that by the time the Kansas City gentlemen's special left the farmers were chuck full of the wonders of Kansas City, her great enterprises and her up-to-date get-there business men.

The Commercial club's special train, which left Kansas City Tuesday afternoon at 5 o'clock on the 1903 trade extension trip, which will be the biggest one in its history, reached Albuquerque this morning on schedule time, 9:30. The train consists of seven cars—four Pullmans, a dining car, a refreshment car and a baggage car. On the side of the cars were Commercial club banners proclaiming the identity of the organization, which is to advertise Kansas City and bring additional trade there. The excursionists were met at the train after it had been in several minutes by a committee from the local Commercial club. The various heads of the big Kansas City houses then saw the farmers, saw the leading merchants and took in Albuquerque. They distributed small booklets, on the front cover of which is a picture of the convention hall. Within is a list of the excursionists, classified by business, the itinerary, pictures of the Commercial club of cars and views of the club's rooms in the Exchange building. Another souvenir, issued with the compliments of the Kansas City Southern railway, contains the list of travelers and the itinerary. Other souvenirs were distributed galore.

The club is due back in Kansas City on May 23. Eighty-two towns in Colorado, New Mexico, Texas, Arkansas, Oklahoma, Indian Territory, Missouri and Kansas are to be visited and 2,793 miles will be traveled over five lines of railroad—the Atchison, Topeka & Santa Fe, the Southern Kansas, the Texas & Pacific, the Choctaw, Oklahoma & Gulf and the Kansas City Southern.

The club stopped last night in Santa Fe. Other all-night stops will be at Silver City, El Paso, Tex., Carlsbad, N. M., Amarillo, Tex., Oklahoma City, Hartshorn, I. T., and Silver Springs, Ark. Zimmer's orchestra furnished delightful music under the porch in front of the Harvey curio rooms, and the vocalists were heartily cheered by the large crowd that gathered around.

The refreshment car contained everything that the inner man wanted, and the farmers and merchants did not leave that feature escape without a visit. The excursionists left at 12:30 well pleased with the result of their stop in the Duke City. All had words of praise for the hustling and growing city of the great southwest.

They will make a stop at South Springs, and from this point will drive in carriages five miles to Roswell. Jerry Simpson, ex-congressman from Kansas, says that this country is the finest in the United States.

The merchants that are on this trip are: R. B. Mullett, C. B. Norton, H. F. Schmetzer, L. M. Miller, W. B. Hill, John M. Steele, D. R. Spalding, H. T. Ashbaugh, W. H. Weeks, S. G. Puterbaugh, C. J. Carter, E. S. Moser, W. H. Cline, A. F. Stoecker, A. L. Confer, G. W. Evans, W. P. Trickett, Charles Rechner, T. M. James, Jr., John R. Townsend, A. H. Munger, George A. Barton, George B. Peck, L. W. Shouse, C. E. Gould, H. D. Faxon, H. McWilliams, A. J. Liebster, Burton Pierce, E. M. Clendenning, John W. Speas, J. H. McQuaid, J. E. Morton, J. P. Raymond, T. L. Hill, W. S. Cowherd, J. F. Zimmer, M. C. Reefer, T. C. Miller, H. D. Cutler, George W. Fuller, J. E. O'Neill, J. F. Richards, C. D. Parker, T. C. Ellet, J. D. Havens, Keene Jackson, E. J. Penfield, J. W. Hawkinson, D. Thornton, O. W. Philbrook, M. W. Barber, J. W. Jenkins, W. R. Hogsett.

## Abbreviated Notes.

The Kansas City delegation, almost to a man, visited the local Commercial club building, and expressed surprise at the fine building, as one said: "Away out here in Mexico." "No," answered back a friend, "in New Mexico, United States of America."

E. J. Penfield, president of the Kansas City paper house, visited the local printing offices, and left sample books of stock carried by his firm.

George S. Arnot, the popular man Ager and one of the members of the grocery establishment of Gross, Kelley & Co., seemed to be at home with the Kansas City visitors. He had half a dozen or more in tow this morning, and saw to it that they were not overlooked in any of the details—that is, western hospitality.

Joseph E. Saint and C. C. Hall had

around with them several prominent members of the Kansas City party, especially James E. Martin, representing the Hidenour-Baker Grocery company. Mr. Saint, years ago, represented this firm throughout the southwest, and, of course, he made the short stay of Mr. Martin very pleasant. Mr. Saint accompanied the party south on the special train.

Frank L. Hall, vice president of the Abernathy Furniture company, Kansas City, visited the local furniture dealers, and of course left his business cards.

H. F. Schmetzer, vice president and secretary of the Schmetzer Arms company, is a very pleasant gentleman, and he did good service while here, leaving his business cards around promiscuously.

Keene Jackson, from whom The Citizen made a quotation at the beginning of this article, is the secretary of the Kansas City Roofing and Corrugating company. He is a hustler and while here bustled himself seeing the local dealers in his goods. He is a particular friend of Mr. Williams, bookkeeper at the San Jose market.

The Pullman conductor on the train is R. L. Trimble. He is a cousin of Col. A. A. Trimble, and the visitor was introduced around by his Albuquerque relative.

Quite a number of the excursionists took in the old town, and were delighted in the transcontinental horse car ride between the old and new towns. They expressed surprise that Albuquerque had no electric street car line.

J. F. Richards, president; C. D. Parker, vice president; E. M. Clendenning, secretary; W. P. Trickett, commissioner of transportation bureau, and Hon. W. S. Cowherd, member of congress, Kansas City district, were introduced at the local Commercial club by Secretary McCanna, and later introduced to The Citizen by George Arnot.

Souvenirs galore were distributed to callers at the coaches. Among the delegation Robert E. Putney of the extensive grocery establishment of L. D. Putney, found quite a number of business friends, and while here they were pleased guests of Mr. Putney.

The big dailies of Kansas City were represented as follows: William Hamilton Cline, for the Journal; John M. Steele, for the Star; and Homer T. Ashbaugh, for the World. They are three well known young journalists.

The Swift Co., packers, were represented by J. A. Hawkinson, and he visited all the local dealers in fresh and cured meats, and provisions.

Half a dozen big wholesale establishments had representatives here from Kansas City.

## HERE TO SEE MUDGE.

Colored Porters on Santa Fe Asking for Increase in Wages.

The colored train porters are the next body of Santa Fe employees to ask for an increase of wages, says the Topeka State Journal. A grievance committee composed of six men are in the city with the purpose of securing a conference with General Manager H. U. Mudge and laying their case before him.

The members of the committee are: C. A. Fox, western division; Grant Ray, Chicago division; W. C. Mallory, middle division; William Wilson, Oklahoma division; B. M. Davis, Colorado division; and Burrell Pope. C. A. Fox, of the western division, is the chairman of the committee.

The Santa Fe train porters are organized, but it is not thought that they are strong enough to gain recognition from the officials. From a legal standpoint the train porters have no organization, for they have not yet applied for a charter. In spite of this fact, however, members of the grievance committee hope that the officials will do their part towards arranging a wage schedule that will be satisfactory to all.

They ask that seniority shall be recognized and that the wages of the men shall be arranged according to length of service. They also think that merit should enter into the decision of the officials as to the wages that should be paid to a porter. The porters say that \$45 is all that they receive now, and they think that that is not sufficient. One of the men said today that another request that they would make would be that an investigation should be held in case any porter got into trouble. He says that heretofore they have not been allowed an investigation but were discharged immediately.

## TERRITORIAL CHAIRMAN.

The Las Vegas Advertiser, the leading daily newspaper of that city, has the following timely article on the subject of chairman of the territorial republican committee:

"We have recently stated that the factional fight now on in Bernadillo county is getting vehement and the proof of it is in the pretension advocated by the Democrat, a so-called republican sheet, published in the city of Albuquerque. Said paper is agitating quite warmly that the Hon. F. A. Hubbell, present chairman of the territorial republican central committee, be removed from the position which he has filled for over two years. The reasons alleged are so flimsy and foolish that it can be seen at first sight that the said sheet is only inspired by prejudice and political animosity."

"As chairman of the territorial republican central committee Mr. Hubbell has rendered excellent service to the party, carrying the same twice to

overwhelming victory and conducting each campaign in a satisfactory and irreproachable manner. The republican party has no complaint against Mr. Hubbell; on the contrary, it is very grateful to the said gentleman for the zeal, efficiency and disinterestedness with which he has served during the period he has occupied the position of chairman. Such record is worthy of praise instead of reproach, for the faithful servant is worthy of the credit and reward to which he is justly entitled. Besides, even if the contrary should be true, the proper time to talk about such matters is when a meeting of the members of the territorial republican central committee is held for the purpose. At the present writing, no political campaign is at hand nor any public matter is in the balance for said committee to act upon and the discussion of the chairmanship at this time amounts to nothing as far as it effects the general political welfare. Mr. Hubbell is filling acceptably and satisfactorily the position of chairman and there is no good reason or motive that can be advanced for his removal, and much less on account of a newspaper that is jealous and prejudiced against him and which does not represent anything except its own sentiments of hostility and antipathy. We are in favor that when the proper time comes Mr. Hubbell be selected again for the position which he has so worthily filled, and we believe that he will be, if he has any aspirations in that direction.

"In any event the time is not ripe for the discussion of such matter. The proper time and place will be at the meeting of the next republican territorial convention and at the organization and meeting of the territorial committee."

## Poking Fun at Pancoast.

Not so long ago a clever young writer was employed as traveling correspondent of the Democrat. To his first articles no name was appended. Then growing bolder, the young man signed the initials C. L. P. Finding that his work was receiving appreciation, the name C. L. Pancoast appeared. Various New Mexicans said nice things and the result was Chalmers L. Pancoast. The last article is signed Chalmers Lowell Pancoast. Further developments are awaited with interest.—Optic.

His last article was dated from Denning and was signed Chalmers L. Pancoast, the cruel lino-type operator instead of signing the name in caps, put it in small type—lower case. It is thought here, by Pancoast's friends, that the bump will be considerably enlarged and he will sign his next article C. Lowell Pancoast—putting his name square in the middle.

Connecticut and New York Capitalists.

A private car containing well known Connecticut and New York City men passed through this city last evening en route for the Grand Canyon and Prescott, Ariz., where they will visit several mines that they are interested in.

They will visit Los Angeles and San Diego, from which city they will go by steamer to Ensenada, lower California. Then an overland trip will be taken to the Alamo Mining district, where they will visit the well known Aurora and Vignola gold mines. The Golden Gate city will be visited and Salt Lake and Denver, and the party expects to reach Connecticut on June 6.

Ex-Mayor Alexander Harrison of Hartford, Conn., heads the party. Others along are R. L. Spencer, C. S. Allen, R. Hawley, Harry Lindsey, J. G. Reed, A. G. Lord, M. H. Hughes, A. E. Sidwell, Horace B. Ely, F. E. Beckley, H. M. Armstrong, E. Baldwin Hammette, A. B. Batterson, M. J. Brewer, E. G. Hutchinson, J. P. Branigan, H. M. Gardner, G. E. Cruittenden and George H. Hall.

## POLICE COURT OFFENDERS.

The City Magistrate Had a Full House Today.

H. G. Rhea, a New York barber, who tried to deceive Pete Dinelli's eye Wednesday evening with a bogus \$10 bill, as related in The Citizen of yesterday, was before Judge Crawford's at 5 o'clock yesterday afternoon. He was found guilty of attempting to defraud and was given sixty days in the county jail.

Al Crippen, vagrant, was given ten days in jail. He was before the court a month ago.

Plutarco Nuñez, for thirteen years in the employ of the local Santa Fe storehouse, was arrested last yesterday afternoon and taken before the court. He was charged with grand larceny by the railroad authorities. He waived examination and was held for the grand jury under \$500 bond. This morning Attorney W. C. Hancock appeared for him, stating that Mr. Nuñez did not understand when he waived the examination. However, it was thought best to let the matter stand. The bond was furnished by Eladio Vigil and Jose S. Chavez. A quantity of small articles have been taken from time to time in the past three months. The special officers of the road have been at work and several arrests have been made. Nuñez has been under suspicion for some time, and some of the goods stolen have been found hidden at his home. It is thought that several other men will be arrested before the matter is settled.

Captain A. B. Fitch, of Magdalena, and C. T. Brown, of Socorro, are in the city today. Captain Fitch is the lessee and manager of the Graphic mine and mill at Magdalena. Both are well known gentlemen and are interested in mining in Socorro and Sierra counties.

Miss Mahle Green, who was here on a visit to friends, has returned to Mountainair, Valencia county.

## FORT BAYARD HOSPITAL.

Money Being Expended in Some Necessary Improvements.

## MORE ROOM FOR PATIENTS.

The Rocky Mountain News of recent date publishes a half page article on Fort Bayard, Grant county, and the marvelous cures of consumption in New Mexico by climate alone. The article is well illustrated and a good advertisement of New Mexico's climate. Among other things, the article which is under Fort Bayard date, says:

The United States general hospital for consumptives at Fort Bayard, is coming in for a measure of Uncle Sam's special attention just at present. The big sanitarium has had such phenomenal success in the treatment of tubercular cases that the government has decided to greatly enlarge its capacity, improve its equipment and, in short, make it the greatest tuberculosis hospital in the country. The plan is to expend the sum of \$100,000 in enlarging and improving the sanitarium, and the appropriation for that purpose has already been made by congress.

Another important change has been made. Heretofore only enlisted men of the regular army have been admitted to Fort Bayard. Under the new arrangement the institution is to be thrown open to soldiers and sailors alike, and made a regular army and navy hospital. Already about twenty-five men of the navy and the marine corps have entered the hospital, special authority, however, being given in each of these cases.

Fort Bayard lies in a beautiful little valley in the foothills of the mountains of southwestern New Mexico, at an altitude of nearly 7,000 feet. It is nine miles from the flourishing town of Silver City, one of New Mexico's best little cities. Here there is perpetual golden sunshine, unclouded azure sky, fine scenery and pure, dry, bracing air all the year round. These splendid natural conditions, in conjunction with the most skillful, scientific and thoroughly systematized treatment, have produced cures which are little short of remarkable.

There are now at the sanitarium nearly 250 patients, and the number is increasing daily. Larger facilities are already a necessity. When all the projected improvements materialize it is probable that the sanitarium will be able to accommodate between 400 and 500 men.

A recent substantial increase in equipment is the new solarium, or sun parlor, which has been in use since February. It is a large structure, built entirely of steel and glass, and gives delicate consumptives a chance to enjoy comfortably the germ-killing sunshine regardless of the outside temperature.

The hospital owes much of its success and efficiency to the masterly management of Major D. M. Appell, who for several years was in command of the post and who brought the work of the sanitarium prominently before the public eye. Major Appell has been transferred to the Philippines, for which point he sailed in January. His successor is Lieutenant Colonel Comerys, deputy surgeon general of the United States army, who is an officer of great ability and energy, and who will undoubtedly keep the work of the institution up to the highest standard.

An important arrival has been made lately, which does away with much of the red tape heretofore connected with admission to the hospital. The consumptive is now admitted by direct negotiation between the commandant and the officer in charge of the post from which the patient comes. Formerly it was necessary to make a trip to Washington and to go through other tedious preliminaries before one could be admitted. Under the new arrangement the applicant gets into the hospital a month sooner than formerly—sometimes a month of precious time to the man who is suffering from the ravages of the dread disease.

Fort Bayard is a very picturesque and interesting place to visit, with its great quadrangle, around which stands the big hospital, the neat officers' cottages, the long rows of hospital ward buildings and the rambling edifice in which the general offices and the post-office are located. The long adobe fort, with its arched gateway, the storehouse, dairy barns, etc., make up a complement of buildings that amounts to a fair sized village.

The Fort Bayard hospital is a great boon to the soldiers and sailor boys who fall a prey to pulmonary consumption, and it is doubtful if there is another place in the country where they would stand such a splendid chance of soon regaining vigorous health. The changes to be made soon will add greatly to the usefulness of this magnificent institution and make it one of which the government may well be proud.

A few Sundays ago, the good people of Mountainair, Valencia county, got together and organized a Sunday school John W. Corbett was elected superintendent; Mrs. George W. Hanlon, assistant superintendent, and Mrs. M. L. Corbett, secretary and treasurer. Sunday school meetings are held every Sunday afternoon at the home of Mr. and Mrs. W. R. Green.

Miss Mahle Green, who was here on a visit to friends, has returned to Mountainair, Valencia county.

## Grove's Tasteless Chill Tonic

has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c. Enclosed with every bottle is a Ten Cent package of Grove's Back Root Liver Pills.

# RAILROAD NOTES.

A meeting of the Santa Fe car foremen will be held in this city next week.

The California limited this morning bound for the coast was light in regard to passengers.

Mrs. John Rueb, wife of Engineer John Rueb, who has been very sick, is getting along nicely.

C. A. Barhyt, chief clerk to Master Mechanic Barnes, is resting from his labors on the advice of a physician.

A. C. Rankin, traveling train inspector for the Santa Fe, was in the city this morning and left on passenger No. 2 for Topeka.

A special train passed through the city en route to Prescott, Ariz. The train carried a hundred stockholders in the Merchants' Mining company.

Thieves broke into a car standing in the local yards Thursday night and stole five pairs of shoes. The theft was discovered Friday morning and the officers of the law notified, but as yet no clue as to who the thieves are has been discovered. The seal on the car was broken, making the offense a serious one. The shoes taken were of large size.

George E. Roe, freight and passenger agent for the Santa Fe at El Paso, was in the city between trains this morning while en route to Topeka. Mr. Roe goes to the Kansas capital to attend the spring time card meeting of the passenger traffic department of the Santa Fe. This is an important meeting and will be attended. Some changes are likely to be made, which will effect this end of the system materially.

Station Agent F. L. Myers, who looks after local matters for the Santa Fe, left this morning for Topeka, Kan., to attend a meeting of Atchison, Topeka & Santa Fe passenger traffic officials, which will occur there next Tuesday. It is one of the regular semi-annual meetings of this department of the Santa Fe and the regular spring time card will be adjusted. Mr. Myers will visit his parents at Wichita before returning and will be absent from the city about a week.

The Santa Fe, Prescott & Phoenix railroad is having three locomotives built at the Brooks works of the American Locomotive company.

A. A. Mosher, cashier at the Raton depot, left for San Jose, where he will act as joint agent for the Santa Fe and Colorado & Wyoming railroads.

Thomas Darlow of the Santa Fe shops at San Bernardino, Cal., is visiting with friends in Topeka. Darlow was formerly employed in the Topeka shops.

Warren Cowles, division passenger agent of the Rock Island at St. Joseph, Mo., has been appointed division passenger agent of the same road at Peoria, Ill.

The average railroad rate across the American continent is \$15 per ton in car lots; the rate on similar goods from London around the world to Seattle is \$10 per ton.

P. B. Blackshear left Raton to attend the conductors' convention, which meets in Pittsburgh, Pa., on the 12th inst. He will visit a number of eastern cities and return via Galveston, Tex.

Robert Benz, operator at the Silver City station, broke his left arm the other morning at the stock yards. While standing on the top of the high fence surrounding the pens, he lost his balance and fell to the ground with the above result.

In a Santa Fe private car attached to No. 7 the other evening, President F. M. Murphy of the Prescott, Phoenix & Santa Fe and his brother, ex-Governor E. O. Murphy, passed through the city, returning to Arizona from a trip to New York.

Contractor Carter is now at Raton to commence work at once on the new depot, says the Gazette. It will be built at the foot of Cook avenue, and is to be a handsome and commodious building of stucco finish, one hundred and seventy feet in length, and will be an ornament to the town.

Next Tuesday will be the twentieth anniversary of the completion of the Silver City, Deming & Pacific railroad into Silver City. The silver spike was driven by Robert Black on May 12, 1883, and the occasion was made a gala one, visitors being present from all parts of the county.

Engineers Allen, Collins and Athens were passengers on last night's overland for Winslow, Ariz., where they will assist in the big cattle run which the Santa Fe is handling through and about that point. The company has been advertising for men during the past several days. The men will return home after the close of the rush.

The Santa Fe will put on its new Colorado flyer from Denver to Kansas City and St. Louis on June 4, instead of June 15, as at first intended. The change is to accommodate early tourist travel and visitors to the Pacific coast gatherings late in May who expect to stop in Colorado on their return to the east. The new train is to be known as the Colorado flyer west-bound, and the Missouri river flyer east-bound.

The New Mexican of yesterday says: "Tracklaying on the Santa Fe Central railway progressed very favorably yesterday. One and three-fourth miles of steel rails were put down. At noon today the track was 7,999 feet south of Progresso, the home of Colonel J. Frank Chaves. This station will be reached by noon tomorrow. Thereafter work will be comparatively easy and rapid, as there will be an abundant

supply of good water for men, animals and engines.

The Golden State limited, the Rock Island's limited train to California, has been discontinued for the summer, as was stated several days ago. Some thought that this train would be run through the summer as a semi-weekly train, but even the semi-weekly train has been taken off and there will be no Golden State limited until next September. Rumors have also been current to the effect that the train has been an unsuccessful one and would be discontinued altogether, but this is denied by the officials.

Santa Fe asked its little namesake, the railroad company, to put up something for the decoration of the ancient city. The company called the attention of the citizens to the fact that it was spending many thousands of dollars in bringing the president's train through the west and making concessions to everybody and everything touching the great event. It broadly intimated that if the people of the capital hadn't public spirit enough to decorate properly when the president was brought to their doors, the city must go undecorated. The answer was just and the citizens did themselves proud in the artistic line.

A. A. Herren, of Finch, Ark., writes, "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Alvarado Pharmacy.

**Santa Fe Song.**  
While the big crowd was waiting for the president's train at the Santa Fe depot Friday afternoon, songs were sung by a number of musical organizations here attending the convention, but the song which made one of the biggest hits was the one sung by the Cleburne, Texas, Santa Fe Glee club of twenty members, says the Topeka State Journal. The song was written by Vernon Harrington of Des Moines and Samuel Warr of Cleburne. The tune is "My Maryland," and the words of the song are as follows:

You ask what road I love the best,  
The Santa Fe, the Santa Fe,  
The fastest trains in all the west,  
The Santa Fe, the Santa Fe.  
The equipments here are always new;  
The engines here are good and true;  
The big conductor, we love, too,  
On the Santa Fe, the Santa Fe.

The Great Northern it can't go  
With the Santa Fe, the Santa Fe,  
The Burlington it is too slow,  
With the Santa Fe, the Santa Fe.  
The Rock Island will never do,  
The 'Frisco line's gone up the flue;  
If you want a train that'll take you through  
Try the Santa Fe, the Santa Fe.

From Chicago to the Pacific coast,  
The Santa Fe, the Santa Fe,  
To the Gulf of Mexico its best boast,  
The Santa Fe, the Santa Fe.  
Through Colorado's mountain range  
To California without change,  
If you want the best trip to arrange,  
Take the Santa Fe, the Santa Fe.

**RAILROAD RUMOR.**  
Deming People Have Vision of Another Line to Silver City.  
There is a well authenticated rumor in Deming to the effect that Phelps, Dodge & Co. have made the Santa Fe company a flat offer for the road and its branches from that place to Silver City. It is also said on good authority that should the Santa Fe not deem it advisable to sell that portion of their road to the above mentioned parties, Phelps, Dodge & Co. will at once begin the construction of a road from Deming to Santa Rita, where they have large copper and iron mines.

From the fact, well known to all, that on the completion of the large smelting plant now being constructed at Douglas, Ariz., by these people, it is their intention to discontinue the smelters now at Bisbee and removing their machinery now at that point to Deming, erect a smelting plant there in order to be nearer their deposits of mineral as well as to save the long haul of their coal and coke, we say in the face of these facts, it really looks as if there might be a good deal more than mere rumor in the statement that Phelps, Dodge & Co. have decided it to be to their interests to own a road to the Santa Rita country.—Silver City Enterprise.

**What is Foley's Kidney Cure?**  
Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Alvarado Pharmacy.

**THE ARGENTINE STRIKE.**  
The Santa Fe Boilermakers Go Out on a Strike.  
A special dispatch from Argentine, dated May 7, says:

Twenty-five men employed in the boiler shop of the Santa Fe shops at Argentine walked out about 11 o'clock yesterday morning because the foreman, W. A. Reddy, they claim, discharged two union men and employed in their places two non-union workmen. As a result of the strike no work was done in the boiler shop yesterday afternoon and the foreman was compelled to go out and hunt men to fill the strikers' places.

The men who went out yesterday were members of Boilermakers and Iron Shipbuilders' union, local No. 32, Kansas City, Mo. The trouble, which culminated in the strike yesterday, has been brewing for some time. For several weeks the union men have been complaining that the foreman

was placing too much work on the boilermakers' helpers employed in the shops. Yesterday morning "Laf" Studebaker, a helper, complained of this, and was discharged by Mr. Reddy. A few minutes later George Perry, the grievance man of the union, went to Mr. Reddy and protested, and according to the statements of the strikers he was also discharged.

"We might have put up with this," said one of the strikers yesterday, "but the foreman immediately hired two non-union men in the places of the men he discharged. This is against the rules of our union, and, consequently, we went out. We do not desire to cause trouble, and we will appeal the matter to the Santa Fe officials at Topeka. We have faith in their fairness and think that we can settle the matter satisfactorily with them. It is not a question of wages or hours with us, but merely a question of fair treatment at the hands of our foreman."

J. E. Van Ness, president of the union, is out of the city, but will probably return in time to attend a meeting of the union Friday evening.

Scratch, scratch, scratch: unable to attend to business during the day or sleep during the night. Itching piles, horrible plague. Doan's Ointment cures. Never fails. An any drug store, 50 cents.

# Kodol Dyspepsia Cure

**Digests what you eat**  
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. Is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

**Cures all stomach troubles**  
Prepared only by E. C. DeWitt & Co., Chicago  
The 31. bottle contains 2 1/2 times the 50c. size.  
J. H. O'Rielly & Co. and B. H. Briggs & Co.

was placing too much work on the boilermakers' helpers employed in the shops. Yesterday morning "Laf" Studebaker, a helper, complained of this, and was discharged by Mr. Reddy. A few minutes later George Perry, the grievance man of the union, went to Mr. Reddy and protested, and according to the statements of the strikers he was also discharged.

"We might have put up with this," said one of the strikers yesterday, "but the foreman immediately hired two non-union men in the places of the men he discharged. This is against the rules of our union, and, consequently, we went out. We do not desire to cause trouble, and we will appeal the matter to the Santa Fe officials at Topeka. We have faith in their fairness and think that we can settle the matter satisfactorily with them. It is not a question of wages or hours with us, but merely a question of fair treatment at the hands of our foreman."

**MADE WONDERFUL TIME.**  
Pecos Valley Engine Ran 11 Miles in 9 Minutes.  
Engineer John Snyder and his fireman, Tom Kennedy, made a fast run yesterday on Pecos Valley engine No. 7 between Dodge City and Newton. They left Dodge City twenty minutes late and came into Newton on time, which, of course, was the best they could do, but was not the remarkable part of the trip. Between Garfield and Larned, a distance of eleven miles, they made it in nine minutes, which is attaining a speed of nearly seventy-five miles an hour. There are only short pieces of track on the division where this sort of speed would be safe, and Engineer Snyder knows through his long years of experience where to take advantage of these conditions.—Newton Republican.

Two million Americans suffer the torturing pangs of dyspepsia. No need to. Burdock Blood Bitters cures. At any drug store.

**BLOCKED ROAD'S PROGRESS.**  
Railroad President Tells Why He Gave Up \$10,000 Job.  
Mr. Baxter explains that he retires from the presidency of the Tennessee Central, to which was attached a salary of \$10,000 yearly, because he believed he stood in the way of necessary traffic arrangements with connecting roads. He says:

"The work which I had laid out for myself ten years ago was practically accomplished. I had built from a connection with the Southern & Cincinnati Southern systems, at Harrison, through the coal fields of the Cumberland plateau to middle Tennessee not only access to these coal fields of inexhaustible supply, but an independent eastern and southeastern outlet for its products. An extension northward by way of Clarksville to a connection with the Illinois Central railroad at Hopkinsville, Ky., was also within a very few months of completion, with all necessary contracts for labor, material, bridges, rails, rolling stock, etc. All financial arrangements had been made, thus securing about 399 miles of new and independent road, costing \$8,000,000. All the aid along the line which was obtainable I had obtained. Satisfactory traffic arrangements with connecting lines at Harrison had been established, and the road from Nashville to that point was being operated as successfully as any road had any right or reason to expect. But at Nashville, our central and incomparably more important point, the old roads were attempting to bottle us up, one of their principal excuses being that I was personally obnoxious to them."

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

A proposition has been presented to the members of the Western Passenger association by the Federation of Commercial Travelers' associations of America for the issue of a 3,000-mile interchangeable ticket good on trains. The advantage to be derived from this form in preference to the one now in use is that much time will be saved in making the exchange of certificates at the stations.

# LOVE STORY IN CHAPTERS.

Characters Assumed by Husband in Two Years.  
WIFE CAME TO ALBUQUERQUE.

**Chapter I.**  
Stealing away under cover of darkness, Charles R. Burge and Nellie Marshall, of Des Moines, Iowa, fled to a nearby town and were married. This was two years ago.

Objections of the parents of both of the young people proved of no avail. "We love each other and will go through life happy, contented," was the message the young people sent to their respective homes.

**Chapter II.**  
Fresh from the Iowa state college, young Burge brought his bride to Denver. They were happy until the money gave out and then it was the old story of Master Cupid feeling by the window when poverty came stalking in the door.

The bride of a few months wrote letters to her parents in Iowa and said she was unhappy. Positions were not hanging around on trees for the young husband to pluck, and he grew discouraged.

**Chapter III.**  
One evening in the summer of 1902 he returned to his little room to find that his wife had gone to Albuquerque, N. M., with her mother.

Love still had a place in the young husband's heart, and when he found his wife had fled he wrote her a letter asking her to return. He waited long for an answer and it failed to come; then he wrote again.

**Chapter IV.**  
Early in October last year he received an answer—not the answer he had long dreamed for, but one that was cold, filled with reproaches, taunting statements.

Then love died in his heart and he wrote a letter—a letter filled with sentences that aroused the young wife's mother to action. The letter was turned over to the United States postal officials and they decided it was objectionable.

**Chapter V.**  
An officer from the secret service office in Denver sought out young Burge and arrested him. He was taken away to jail to await the action of the federal grand jury. He was given a hearing and held to Judge Hallett's court.

**Chapter VI.**  
When the young wife heard that her husband had been arrested, love awoke, and, while she had secured a divorce on the ground of desertion, she wrote a letter to the United States district attorney asking for mercy for her former husband, and explaining that she may have been the cause of the letter which caused her husband's arrest.

**Chapter VII.**  
Today young Burge faced Judge Hallett. Assistant District Attorney Ernest Knaebel read the charges against the young man, and he entered a plea of guilty.

"Your Honor," said Attorney Knaebel, "in our office we feel sorry for this young man. He has letters from congressmen, senators and the president of the Iowa state college, telling of his good character. It is a case of a runaway marriage that has proven unhappy. The young man confesses to the charge of writing the letter, and if the court please, I ask that you show him mercy."

Judge Hallett pondered long over the case, looked at the letters and at last said: "I feel that you have suffered. The law must be upheld, and as a result I will give you a light fine—\$10 and costs."

**Conclusion.**  
And now, if Attorney Knaebel has his way, Mr. and Mrs. Charles Burge will take up their broken thread of life, face the world anew and let bygones be bygones.—Denver Post.

**From a Cat Scratch.**  
On the arm, to the worst sort of a burn, sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve, be particular to get DeWitt's—this is the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles. Sold by B. H. Briggs & Co., S. Vann & Son.

**Santa Fe Hit Hard.**  
The supreme court of Texas refused a rehearing in the case of the Gulf, Colorado & Santa Fe railway company against J. W. Sheldon, on appeal from Dallas county. Under this decision there is permitted to stand the largest personal injury judgment ever given by a court in Texas. Sheldon will receive \$35,000 for having both legs cut off by a train.

**The Best Liniment.**  
"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

On Monday, June 1, the last west-bound daily California limited will leave Chicago. The last east-bound train will leave Los Angeles and San Francisco on Friday, June 5. This will

# Best Spring Remedy Ever Formulated

# PAINE'S CELERY COMPOUND

Miss E. M. Swan Completely Cured of Terrible Blood Troubles That Doctors Could Not Relieve.

In the month of May it is an absolute necessity that the body should be furnished with a richer and purer supply of blood for the establishment of a health that can successfully cope with the enervating effects of hot summer weather. Poor blood in May produces listless, ambitionless, sleepless, and sallow faced men and women, who quickly become victims of some organic disease that ends life.

Intelligent people recognize the necessity of cleansing and fortifying the system in May by using Paine's Celery Compound, which speedily removes all poisons from the system, and gives to the thin, watery blood a larger proportion of red corpuscles, and arouses all the organs of the body to healthy action. Paine's Celery Compound does a work for victims of impure blood that commands the attention of the most imminent medical

men in the world. Miss E. M. Swan, Stamford, Conn., says:

"Before I began taking Paine's Celery Compound my blood was in a very bad state, and I had three large abscesses under my right arm, which completely disabled me from work, or even dressing myself. At last I was compelled to have the abscesses opened, when my eczema became worse than ever before. I tried everything that I could hear of, and also had several of the best doctors, but they did not cure me. I then commenced the use of Paine's Celery Compound, and before I had finished the second bottle my abscesses had all healed, and the eczema was almost gone. I am not on my fourth bottle, and am more than happy to say that I have not a pimple or any sign of eczema on my body. I am thankful for the great work that Paine's Celery Compound has done for me."

close a very successful season for this train. The semi-weekly limited, which is to be up on immediately after the daily trains are taken off, will leave Chicago for the west on Tuesdays and Saturdays. The east-bound train will leave Los Angeles and San Francisco on Mondays and Thursdays. The first semi-weekly west-bound train will leave Chicago on Tuesday, June 2, and the first east-bound train will leave Los Angeles and San Francisco on Monday, June 8.

**Quick Arrest.**  
J. A. Gullidge of Verben, Ala., was twice in the hospital from a severe case of piles causing twenty-four tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at all druggists.

**RAILROAD NOTES.**  
Mrs. D. D. Carter, wife of Brakeman Carter, and son left Winslow for Los Angeles.  
Railway earnings in April were 13.4 per cent larger than in last year and 28.7 per cent above those of 1901.  
There remains but twelve miles of the Cairo extension of the Illinois Central to be built, and trains will be running about July 1.  
The Randsburg railroad was taken over by the Santa Fe last Thursday at midnight and is now part of the coast lines division.

N. O'Connor, a Winslow machinist, was injured at the shops. He was putting up a wedge and a piece flew off, striking him over the eye.  
The first annual convention of the International Railway Master Boiler-makers' association will be held at Columbus, O., on May 19, 20 and 21.  
C. C. Browner of Lamy has received word that his nephew, John Sheegoe, engineer running out of Paducah, Ky., on the Illinois Central, had been killed in an accident.

For a long while California main line track of the Santa Fe and a portion of that road's trackage in Arizona have been practically useless, much to the delight of transcontinental travelers. This desirable state of affairs was brought about by using crude oil from the inexhaustible abundance of California's wells. It is now stated that a dust-laying crusade will be inaugurated this summer by the Santa Fe on its Colorado line between Pueblo and Denver. Boulder oil, hauled in special tank cars, will be used.

The track laying machine on the Santa Fe Central railway resumed work yesterday morning one mile this side of Progresso and pushing toward Willard at the rate of two miles a day. Progresso station was passed at 11:45 a. m. on Saturday, and 2,000 feet of siding were put down in the afternoon. From Progresso the grade is down hill over the Estancia Plains. Last week, at Cameleon, an abundant flow of water was struck at a depth of 300 feet. This is quite important, for a prior attempt to strike water at the foot of the Trinchera Mesa at Cameleon was a failure. The water is of especially fine quality for engine use. As Cameleon is only seven miles from Torrance, it will for the present supply Torrance with engine water, and it is possible that the El Paso Rock Island railroad will also take part of its supply from the Cameleon well, instead of running water tanks down from Tucuman, over a hundred miles away.

A very important work was started this week which will be of great benefit to Winslow. W. H. Cooley, ex-foreman of the water service, and the gentleman who had a contract with the Santa Fe for developing a water supply at Manuquito, N. M., and who successfully carried out his task, put thirty-five men to work on the construction of the new water system in the town of Winslow. His contract is with the Atchison, Topeka & Santa Fe company for the Santa Fe Land Improvement company.

The Topeka State Journal says: The Railroad Y. M. C. A. authorities report 966 members for the month of May. This is an increase of 33 over last month. About 50 renewals are reported and also 58 new members.

J. Stewart Christal has recovered The office of general attorney of the Choctaw will be abolished when J. W. McLeod retires, but the attorneys in the different jurisdictions will all be

# Notice of Suit.

In the District Court of the Second Judicial District, County of Bernalillo, Territory of New Mexico.  
William E. Dame, plaintiff, vs. The Cochiti Reduction and Improvement Company, Defendant—No. 6258.

**Sheriff's Sale.**  
Notice is hereby given that I, the undersigned sheriff of the county of Bernalillo, in the territory of New Mexico, will, on Monday, the 8th day of June, A. D. 1903, at the hour of eleven o'clock a. m. on said day, at the front door of the Bernalillo county court house, expose at public sale for cash all the right, title and interest of The Cochiti Reduction and Improvement company, a corporation, in and to the following personal property and chattels, to-wit: One 10-stamp mill, fixtures and fittings, two ore feeders with fixtures and fittings, one 9x15 rock breaker, with fixtures and fittings, one dynamo, with fixtures and fittings, one upright boiler, pump and about two miles of water pipe attached.

The above described personal property and chattels having been levied upon by me by virtue of and to satisfy an execution issued out of and under the seal of the District Court of the Second Judicial District of the County of Bernalillo and Territory of New Mexico, and by an order of the court directed to me, the undersigned sheriff of the county of Bernalillo, bearing date the 17th day of April, A. D. 1903, in pursuance and by virtue of a certain judgment in a cause entitled William E. Dame, plaintiff, vs. The Cochiti Reduction and Improvement company, defendant, being No. 6258 upon the civil docket of the Bernalillo County District Court, the same being a suit up on a written contract and upon which judgment was duly rendered in favor of the said William E. Dame and against the said The Cochiti Reduction and Improvement company upon the 3d day of April, 1903, for the sum of \$560.00 damages and \$78.85 costs, amounting with interest at 6 per cent to the sum of \$645.66, upon the 8th day of June, 1903, together with all cost accruing and to accrue.

T. S. HUBBELL,  
Sheriff of Bernalillo County, New Mexico.

**NOTICE OF PUBLICATION.**  
Territory of New Mexico, County of Bernalillo. In the District Court.  
George K. Neher, plaintiff, vs. E. J. Becker, defendant. No. 6319.

The said E. J. Becker is hereby notified that a suit by attachment has been commenced against him in the district court for the county of Bernalillo, Territory of New Mexico, by said plaintiff, George K. Neher, to recover the sum of \$679, being a balance due for money loaned defendant by plaintiff, and as evidenced by a certain draft, dated the 24th day of November, 1896, together with interest thereon, and costs of suit; that your property has been attached, and that unless you enter your appearance in said suit, within twenty days after the date of this publication of this notice, to-wit, the 23rd day of May, 1903, judgment by default will be rendered against you, and your property sold to satisfy the same.

Witness the hand of the Clerk, and the seal of said District Court, this 31st day of March, 1903.  
W. E. DAME, Clerk.  
W. B. CHILDERS, P. O. Address, Albuquerque, N. M., attorney for plaintiff.  
First publication, April 4th, 1903; last publication, May 2nd, 1903.

Several lines are disputing as to which railroad first generally equipped its passenger cars with electric lights. The honor really belongs to a western road—the Santa Fe. The Santa Fe began experimenting with electric lights for its cars more than five years ago in its Topeka shops. It now has upwards of 200 cars lighted by electricity, comprising day coaches, chair cars, diners and Pullmans. As fast as possible its other cars on through runs are being similarly lighted.

**A SIMPLE QUESTION.**  
Albuquerque People are Requested to Honestly Answer This.  
Is not the word of a representative citizen of Albuquerque more convincing than the doubtful utterances of people living everywhere else in the union? Read this:

Mrs. W. C. Wood, (W. C. Wood, employed in the Santa Fe railroad shops) residence, 720 South Broadway, says: "When on a visit to Paul River, Mass., I learned that Doan's Kidney Pills had been a household necessity in that city for years. Naturally when a person has backache themselves and friends, acquaintances and relatives continually insist that a particular remedy shall be tried, you at least consent to take a course of the treatment. I used Doan's Kidney Pills and they stopped an aggravated attack of backache, only one of many which had occurred in the past. When I came west I brought with me a dozen boxes of Doan's Kidney Pills long before they were so extensively known in California, as at present. I have not the slightest hesitation in publicly stating that I know from experience as well as observation that this remedy can be absolutely depended upon in all cases of kidney complaint causing backache, lumbago or other symptoms which follow in the wake of that far too prevalent annoyance."

Just such emphatic endorsement is plentiful in Albuquerque. Call at the Alvarado Pharmacy and ask what their customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

**Notice of Suit.**  
Territory of New Mexico, County of Bernalillo, in the District Court.  
Minnie Moore Bachelier, plaintiff, vs. Roscoe M. Bachelier, defendant.—No. 6327.

Notice is hereby given to the defendant, Roscoe M. Bachelier, that the above entitled action is pending in the above mentioned court.

That said action is commenced by Minnie Moore Bachelier, plaintiff, against Roscoe M. Bachelier, defendant, praying for an absolute divorce from said defendant on the ground of cruel and inhuman treatment. Said defendant, Roscoe M. Bachelier, is hereby notified that unless he enters his appearance in said cause on or before the 20th day of June, A. D. 1903, a decree pro confesso will be entered against him by default.

Witness my hand and seal this 16th day of April, 1903.  
W. E. DAME, Clerk.  
W. B. CHILDERS,  
Attorney for plaintiff, postoffice address Albuquerque, N. M.  
First publication April 25, 1903; last publication May 30, 1903.

## WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

The past week has been generally unfavorable. General showers over northern counties on the 29th were of not much benefit on account of the cold weather following. The cold of the 29th and 30th caused frosts almost to the southern border of the territory, killing peaches, apricots and cherries to a large extent in the more northern orchards, and proving somewhat injurious to these fruits as far south as the Cimarron valley. In the extreme north east the freeze was sufficiently severe to cut down the alfalfa. Reports indicate that the frost killed all the fruit in the famous Mills' orchard on the Canadian river. Grass is not coming fast, although in general it is well started.

Lambing progressing rapidly, with generally fine prospects. Cattle show slow improvement. Water is generally abundant excepting in a few localities, notably in southern Lincoln county, where the severe and protracted drought still exists.

The following remarks are extracted from the reports of crop correspondents:

Albert: J. W. Hanson: Cold nights and high winds and insufficient moisture still keep back vegetation. Sleet and snow, especially on the mesa on the 29th, followed by heavy frost, killed what garden truck was up and probably also killed the fruit. Grass coming slowly and stock not picking up much in consequence. Lambing will now start quite generally and prospects are fair. Rather a cloudy week. Highest temperature, 80; lowest, 26; rain, 0.42.

Arabela: A. M. Richardson: It is still very dry and no chance for farmers to finish planting. Threatening for several days and a light shower, but not enough to do any good. Grass on the range is drying up. Highest temperature, 82; lowest, 37; rain, trace.

Andrews: A. S. Warren: Dry and windy. Alfalfa in fine condition and all vegetables doing well. Stock is suffering somewhat for want of grass.

Bell Ranch: C. M. O'Donel: Country lying below the mesa generally green. Several good showers during the week and range conditions are good, though the Red River is very dry. Prospects lambing very good where water is not scarce. Prospects for fruit, none; peach trees did not bloom. Total rainfall, 0.74.

Capitan: Clement Hightower: Week generally unfavorable to crops. A thunder storm, rain and sleet on the 26th, and heavy frost and extreme cold on 30th. Water plentiful in Rio Bonito and tributaries. Stock doing fairly well. Lambing well under way and no losses of consequence.

Carlsbad: H. F. Christian: Week started with light rain over the county, which in a few places did a great deal of good. Thursday morning (30th) the thermometer reached 33 degrees but no fruit was damaged in this county. Irrigation water not yet turned into the new canal but soon will be. Highest temperature, 80; lowest, 33.

Dorsey: W. C. Barnes: Another very unsatisfactory week. The rain of the 26th was a very fair one, but not general in extent. Water for irrigation still very scarce and farmers are anxious. It seems the heavy snows of last winter have not made so much water after all. No green grass to speak of and range prospects bad. The extremely cold nights of the last ten days are almost unprecedented, and on the morning of the 20th temperature fell to 18 degrees and cut down all early garden stuff and frosted the alfalfa. Too soon to say what effect it had on fruit, but it is believed it was not far from being to hurt much.

Folsom: Jackson Tabor: The past week has been dry and very windy, and on the 28th we had the severest dust storm, except one, that I have ever seen in this country. It was followed during the night by a cold, dry snow and falling temperature all next day (29th), and reached 15 degrees above on the morning of the 30th, killing all the fruit, and on the upper Cimarron river it froze the alfalfa to the ground. Highest temperature, 72; lowest, 15; rainfall, 0.15.

Fort Stanton: E. W. Halstead: The melting of the heavy snow in the mountains furnishes plenty of water for irrigation, and farm work is well along; seeding is well advanced and alfalfa is ten to fourteen inches high. The late frosts injured the peach crop, but the prospect for other fruit is good; the freeze of the 30th injured early garden stuff somewhat. Highest temperature, 72; lowest, 23; rainfall, 0.20.

Fruitland: Cyril James Collier: Not favorable week for crops; partly cloudy during the earlier part, followed later by wind and cold nights. Many fruit blossoms were killed on the night of the 30th, but how much damage was done cannot yet be told. Early gardens were nipped and alfalfa turned. Pasture coming on well and range good, but wind is drying things up badly. Water plentiful. Highest temperature, 87; lowest, 24; no rain.

Gallinas Springs: Jas. E. Whitmore: Grass starting fine and cattle improving. Sheep are lambing fine and there will be a large lamb crop unless something unforeseen happens. The cold weather is retarding growing crops. Everybody is putting in all crops possible on temporal lands. The hail of the 26th, although small, injured fruit crop; will know better to what extent next week. Highest temperature, 81; lowest, 30; rainfall, 0.94.

Glencoe (Lincoln County): Miss Annie E. Coe: Cloudy, and light showers

all through the week. Planting getting along nicely and farmers planting a great deal of alfalfa and millet. Wilbur E. Coe: The grass has started up very fast and the range stock show improvement. Hay and grain are coming up.

Hobart: W. H. Hough: Cold and backward this week. The frost during the night of 29th and 30th did no injury to fruit or vegetables here.

Laguna: Gus Weiss: We had several hard winds during the week which had a tendency to dry up the ground and several cold mornings with ice. Early peaches are about all frozen and destroyed, and also apricots, which were as large as a walnut. Late fruits will be all right if we have no more freezing weather. Lambing is very heavy and the only shortage so far this spring is that of grass.

Los Alamos: Wm. Frank: Lambing has begun; conditions generally poor; no water in holes and consequently sheep will suffer for water, but not for grass as it is coming nicely. Corn is being planted, also oats and alfalfa, and all we now need is some good soaking rains.

Golden: R. M. Carley: High winds without any rain during the week. Wednesday and Thursday nights we had heavy frosts. In this vicinity all crops have been planted and the grass is green and growing nicely.

Mesilla Park: R. M. Hart: Peach trees are heavily laden with young fruit and the prospects are for a large yield. The first crop of alfalfa promises to be good, also the wheat crop. Lambing is about over. Highest temperature, 86; lowest, 36; no rain.

Mountainair: J. W. Corbett: The ground had dried out on the surface and the showers during the week gave the grass greater impetus; however, the strong west winds have since dried the surface very rapidly. Corn and garden vegetables are coming up and range stock is beginning to show improvement in general. Highest temperature, 84; lowest, 36; rainfall, 0.42.

Las Vegas: J. W. Hanson: Weather still continues cool and unfavorable for growth of vegetation, due in part to high dry winds. Farm work well along and alfalfa looking well, but somewhat backward. Freezing temperature during the night of 29-30th, but apparently little damage done. Dr. Wm. C. Bailey: Cold nights and vegetation is progressing slowly. During the shower of 26th some hail fell, but no damage. Highest temperature, 71; lowest, 28; rainfall, 0.22.

Redrock: Louis Champie: A strong west wind on 28th. We had frost during the night of the 29-30th, which did some damage to garden truck and potatoes. Farmers preparing to plant. No rain.

Roy: Alexander S. Bush: A nice rain fell on Monday (27th), which was the first, and it has done the new grass much good. On Wednesday afternoon it snowed for about an hour and was followed by cold winds, and on Thursday morning a severe breeze killed all the fruit crop in the famous orchards of the Canadian River canyon owned by M. W. Mills. This is the third time in thirty years that the fruit crop was totally killed. The grass that started nicely is now set back a little by the unusually late frosts and cool mornings.

Santa Fe: U. S. Weather Bureau: Nearly all vegetation retarded by continued cold weather. A very heavy frost on the morning of 30th killed most of the apricots and early cherries but it seems that peaches and other fruits were not extensively injured. Early garden truck, except where it was protected, was cut down by the frost. Highest temperature, 66; lowest, 25; rain, trace.

Teel (Grant Co.): Hugh A. Teel: Heavy frost on the 29th killed some fruit and early vegetables. All fruit trees are in bloom, but the bloom is very light and the crop will be short. Corn, beans and potatoes are being planted. Water is plentiful and the snow in the mountains has not yet melted.

Watrous (Ft. Union): M. C. Needham: The past week was rather cloudy and cold, with shower amounting to 0.32 on the 26th. The loss in young calves has been heavier than usual. Highest temperature, 66; lowest, 20; rain, 0.32.

R. M. Hardinge, Section Director.

Tucumcari Light and Power Plant.

The people of Tucumcari are rejoicing over the good news which was given out Monday morning that the electric light and water company will be reorganized and that the new company will begin operations at once. The directors of the company are James H. Laurie, M. H. Fisher and W. H. Hawkins. These gentlemen are all prominent business men of Alamogordo. Several others are interested in the company. In connection with the electric light and water system the company will also put in a large ice plant and steam laundry. They will be able to furnish light, water and ice, and do laundry work for the people of Tucumcari at a very low rate.—Times.

Saline Lands for University. Prof. Charles Lincoln of the New Mexico School of Mines at Socorro, is engaged in an investigation of the waters of the alkali and saline lakes of the territory and has discovered the presence of borate, a mineral that was supposed not to exist in New Mexico. It is a hydrous sulphate of magnesium and sodium. It is very valuable as a source of commercial soda. Professor Lincoln has discovered a thick bed covering an area of over three square miles. The mineral is of beautiful crystalline variety. Single crystals like out glass occur three inches long and an

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

## Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother in Butler, Pa., says: "I used to dread Mother's Friend again, I would obtain 2 bottles if I had to pay \$5 per bottle for it."

Get Mother's Friend at the drug store. \$1 per bottle.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

inch in diameter. All saline lands in the territory belong to the University of New Mexico.

## Cures When Doctors Fail.

Mrs. Frank Chasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of 'Herbine,' found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, sold at J. H. O'Reilly & Co.

## Police Court.

W. H. Watson, a middle aged man of good appearance, was before Judge Crawford this morning. Watson was charged with selling several cases of tobacco to some merchants in this city without a license. He claimed that he took the goods from a man named Edwards in El Paso for debt, and that he wanted the money and so he sold; he didn't know he was breaking the city ordinance. It is the opinion of the officers that the goods were stolen. He pleaded guilty and was sentenced to jail for ninety days.

## World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influences on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to health, vigor and elasticity of spirits natural to childhood. 25c at J. H. O'Reilly & Co.

## City Officials Named.

At the regular monthly meeting of the Silver City council Saturday night William Killburn was appointed city marshal, Mayor Fleming casting the deciding vote; R. M. Turner, city attorney; Hyman Abraham, treasurer; H. H. Betts, city clerk and assessor and George R. Brown city engineer. W. B. Walton was given the contract for the city printing for \$30 a month.

## Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needed toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at J. H. O'Reilly & Co.

## SANTA FE PRESBYTERY.

Closed an interesting Meeting held at the Capital City.

The Santa Fe Presbytery closed its session at Santa Fe Thursday night.

In the afternoon Dr. Charles L. Thompson, secretary of the board of home missions, delivered an address on "Home Missions," explaining how the board tried to keep in touch with the workers in the field. The appropriations of salaries for workers among the Indians in this Presbytery, which includes all of northern New Mexico, approximates \$12,000.

The records of the various sessions were examined and approved and a committee was named to revise the standing rules of the Presbytery which will report at the next meeting.

The date of the regular assembly was changed from the second to the third Tuesday in April.

The meeting this spring was a month late in order that Dr. Thompson might be present and personally consult with the workers.

Resolutions were adopted on the death of the late Rev. S. Warren Cur-

tis, of Las Vegas, and his widow was recommended to the board of ministerial relief for an annual pension of \$300.

In the evening a conference was held on "Giving for the Support of the Gospel."

The following were licensed as local evangelists: A. Agler, Manuel Barcelon, Juan B. Torres, E. C. Cordova, Lucas Martinez, J. G. Quintana, V. F. Romero and Manuel Sandoval.

The First Presbyterian church of Las Vegas was selected as the next place of meeting.

A vote of thanks was extended to Dr. Thompson for attending the Presbytery and to the New Mexican for the complete reports and the space given to the proceedings.

At 11:30 the Presbytery adjourned.

## For Those Who Live On Farms.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50c and \$1.00 at J. H. O'Reilly & Co.

## Shot by a Bartender.

Eugene Sowell, aged 21, was shot by Bruce Jones, a bartender at Hilburn's saloon, at 4 o'clock this morning, says a dispatch from Alamogordo dated May 8. He was trying to force his way into the saloon. The shot struck him in the back, piercing his heart. A coroner's jury returned a verdict that his death was caused by shot fired by Bruce Jones. Jones will have a preliminary examination today, when the facts relating to the killing will be made public.

## A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in four months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at all druggists.

## Ticked Teddy.

Joe Goodlander, the popular representative of the Myers Drug company of St. Louis, who is in the city on official business, says the tableau presented on the grounds of the Alvarado illustrating the statehood situation of President Roosevelt, was admirably carried out. Joe says the president after taking his seat on the elevated platform, first observed the forty-five little girls representing the states of the union. Always attracted by children, he manifested appreciation of the scene by a broad smile. A moment later he caught sight of a radiantly dressed little maiden on the outside of the charmed circle, with her hands held pleadingly in his direction. He looked more closely, donned his glasses and then standing up gazed steadily at the fair suppliant. As the meaning of the tableau flashed upon him he lay back in his chair and roared with laughter.—Optic.

## The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How can I cure my indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by B. H. Briggs & Co., S. Vann & Son.

## Police Court.

Joe Trujillo, a saloon keeper, was before Judge Crawford this afternoon. He was charged with assault on Frank Barnett, a 19 year old boy, yesterday afternoon. He pleaded not guilty and was represented by Attorney Mitchell. Young Barnett said he rode up to the saloon porch on his bicycle, and Trujillo tried to make him take a small book that he said belonged to him, and which young Barnett said didn't. Trujillo then knocked him down and used his head and body for a football. A good bit of scurrilous language was used, too. Trujillo said the boy called him a liar first and then he hit him. Judge Crawford fined him \$25 and costs. He took an appeal and furnished a \$75 bond.

## Traveling Is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan, locomotive engineer, Lima, Ohio, writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Alvarado Pharmacy.

## Presbyterians Coming.

As has been announced, a large number of delegates to the General Assembly of the Presbyterian church, to be held in Los Angeles, will be in this city next Sunday. Including the

For Drunkenness, Opium Morphine and other Drug Using the Tobacco Habit and Neurasthenia. THE KEELEY INSTITUTE, Dwight, Ill.

ladies of the party there will be probably over 200 persons. They are traveling in a special train composed of Pullmans and dining car. They want to spend the afternoon in visiting the Indian school and the manual mission school. It is important at this time for the delegates to get a favorable impression of that school, as the church is this summer to build a new dormitory to cost \$75,000.

The citizens are requested to bring their conveyances to the Alvarado at 1:30 next Sunday afternoon to carry the delegates to the school. All those who are willing to help in this work will confer a favor by giving their names to R. W. D. Bryan as soon as possible. If 150 persons will bring their conveyances at that time all can be accommodated.

Mr. Joseph Pominville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets on trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box at all druggists.

## MRS. McLAUGHLIN ENTERTAINED.

Party of Lady Friends Gathered at Her Residence.

Last Saturday afternoon at the residence on West Railroad avenue, Mrs. J. T. McLaughlin entertained a number of her lady friends at cards, and the affair is reported to have been a most enjoyable one to all present.

Mrs. W. J. Johnson captured first prize, a Diana vase, and Mrs. J. E. Smith the second, a pretty hand-painted cake plate.

Following cards a drawing of ribbons by the ladies discovered hidden therein tiny bouquets of sweet peas, and in one, the consolation prize, a handsome bouquet of American beauty roses, and this fell to Mrs. Harry F. Lee.

Before departure refreshments were served.

The guests were Mesdames Pearce, Kent, Saint, W. D. Dee, Harry F. Lee, J. H. Wroth, Curran, Kearn, Lester, Luna, Bennett, Dame, Edgar, Williams, Gansul, Hunt, Johnson, Benjamin, Stroup, Misses Wiley, Stevens, Lee, Julia Lee, Hunt, Saint, Louise Saint.

Weeping willow branches and yellow roses, making a pretty contrast, formed the room decorations.

## GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burhage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burhage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by all druggists.

## Spelling Matches.

The final spelling match between the various grade in the city grammar schools took place yesterday afternoon. The contests have been very interesting and the pupils are sorry that they are over. Later on it is expected that another match will take place. The first ward spellers visited the Second ward pupils and won in the first contest, while the Second ward made it an even break by winning the second. The fifth and sixth grades of the First ward lost to the Second ward spellers of the same grades. The score stood for the First ward when Gillette Cornish, of the First ward, was declared winner, after tying with Alma Anderson on the somewhat puzzling word, "Saleratus." Then the third grade of the Second ward won from the third and fourth grades of the First ward Elizabeth Adams, aged 9 years, as the winner over all. Little Misses Jemina Long and Margaret Schmidt, both 8 years old, were the winners for the third grade of the Second ward. Keep up these spelling matches next year, Mr. Superintendent.

## Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my teens again" writes H. H. Turner of Dempscytown, Pa. They're the best in the world for liver, stomach and bowels. Purely vegetable. Never gripe. Only 25c at all druggists.

The Winslow Mail says: General Foreman Muchmore has resigned his position at the shops and been succeeded by Mr. Martin, of Topeka. Mr. Muchmore was a very popular official among the boys, and his familiar face will be greatly missed. He has hosts of friends here who will wish him the greatest success in any enterprise he may engage. It is to be hoped that Mr. Muchmore will continue to make his residence here, as he and his estimable wife are prime favorites, and their son Clifford is much sought after in amateur theatricals. Mr. Martin, the successor to Mr. Muchmore, is a

gentleman with a good record in his line, and those who have had the pleasure of meeting him seem to be much impressed.

Foley's money and tar contains no opiates and can safely be given to children. Alvarado Pharmacy.

## Navy Appointment.

Last year Delegate Rodey, on the recommendation of nearly every prominent person in the territory, without reference to politics, appointed young Glassford to the Annapolis academy. The newspapers abused the delegate for so doing, and contended he ought to have a competitive examination to determine who was entitled to it.

This year he did do that, and in all the Rio Grande valley, from Las Cruces to the Colorado line, there was but one boy who took the examination. Unless the Pecos valley comes in with others it will be a case like the boy who got to the head of his class in school because all the other students stayed out for a day.

However, if the boy who did take the examination passed a good one, it may be all right. In any event, he will have to stand an examination on June 16 at Annapolis.

## The Waste of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease set up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the whole some food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by B. H. Briggs & Co., S. Vann & Son.

## MURDER IN THE SECOND DEGREE

Alpheus Hampe Offers to Plead Guilty to the Charge.

Tierra Amarilla, May 12.—Hampe's plea of guilty to murder in the second degree was accepted this morning and he was sentenced to life imprisonment.

Arrangements have been completed whereby Alpheus Hampe will plead guilty to the charge of murder in the second degree when his case is called for trial at Tierra Amarilla. The case was docketed for to-day and the plea has probably been entered by this time. Hampe was indicted at the March term of the district court for Santa Fe county for the murder of Epitacio Gallegos, jailer of the Santa Fe county jail, January 19, 1903, and was granted a change of venue to Rio Arriba county. Jose Torres, Hampe's partner in crime, was executed in this city on April 3, he having entered a plea of guilty to a charge of murder in the first degree at the March term of court. Sheriff H. C. Kinsell and Deputy C. C. Closson and C. R. Huber left for Tierra Amarilla Friday morning with Hampe in custody. Just prior to his departure Hampe announced his willingness to plead guilty to a charge of murder in the second degree. Judge John R. McPhe, the presiding judge of this, the first judicial district, signified his willingness Friday to accept the second degree plea, and as this was satisfactory to counsel for Hampe, witnesses here were wired not to go to Tierra Amarilla. Sheriff Kinsell and deputies were not expected to arrive in Tierra Amarilla until some time Sunday, but there is no doubt that the arrangement made by Hampe's attorneys will be perfectly satisfactory to him. He will be sentenced to life imprisonment.

When interviewed last Thursday evening by a representative of the New Mexican, Hampe stated several times that if he was convicted he wanted his interviewer to call again as he wanted to make a statement. Whether or not he will make that statement under the existing circumstances remains to be seen, but if he had a confession to make it is hardly probable that he will do so now, as that would jeopardize his chances of ever obtaining a pardon in after years.—Santa Fe New Mexican.

## A Lesson In Health.

He lthy kidneys filter the impurities from the blood, and unless they do good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

Last evening at the Baptist church, President W. G. Tight of the University of New Mexico gave an interesting and instructive lecture on "Mexico" that was enjoyed by all present. He spoke upon the social conditions, and resources of that country, which he believes are almost equal to those of this country. A male quartet sang and W. H. Wroth rendered several pleasing solos.

## A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Alvarado Pharmacy.

M. M. Barnett, who was a newspaper reporter in this city thirteen years ago on the Times, was an east bound passenger for Chicago last night. Mr. Barnett was completely lost when he

Nasal CATARRH. Ely's Cream Balm. In all its stages. Ely's Cream Balm cures catarrh of the nose, throat, and lungs. It is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

Postal souvenir cards of Albuquerque are now being sold by the stationers. The latest carry pictures of the Commercial club and Alvarado hotel, reached the city. The arrival was announced by a presidential salute fired by the naval reserve. The party was met by the citizens' executive committee, whose president, M. H. De Young, greeted President Roosevelt in a speech, to which the president made a brief response, expressing his gratification at having reached the metropolis of the Pacific. The president and party were then escorted to carriages and took part in a parade. The sky was cloudless and probably 200,000 people were on the streets through which the presidential party passed. On Van Ness avenue the president's carriage halted while the parade passed in review, while the people cheered and innumerable flags were waved.

## A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

## For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

## Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by

### PATRIOTISM IN JAIL.

The Roswell Prisoners Organized a Court and Gave Von Stoffen a Lashing.

A German stating that his name was Carl Von Stoffen was arrested in Roswell last week and placed in jail because he had imbibed too freely of lager and had consequently grown disorderly. "He was amusing himself by cursing 'Uncle Sam' and every American institution he could think of when an officer escorted him to a justice court where he was fined \$5 and costs, in default of which he was placed in jail. This did not put a damper on the ardor with which he assailed American institutions. There was quite a number of prisoners in the jail and it was decided to organize a "jail court." Von Stoffen was ordered before the bar and the presiding officer informed the German that he was charged with slandering the American people and American institutions. Von Stoffen said he was not guilty, but the jury, which had been picked from among the lawless citizens within the jail, decided otherwise. Sentence was passed on the prisoner by the judge whose name is Samuel Bruce. In the following language: "You are a disgrace to Emperor William and the Fatherland and I sentence you to receive fifty lashes." The jury seized hold of the prisoner while one of the court officials administered the lashes with a leather belt belonging to one of the prisoners. There was no joke about the "jail court" and the strap was laid on the German with a vim.

When the work had been completed, the court was declared adjourned and the offender was quiet thereafter except for an occasional lament at the soreness caused by the lashing.

### Oscar Bennett Shot.

Oscar Bennett, son of J. D. Bennett, was accidentally shot through the left arm Monday about 1 p. m. It is learned that he, in company with Jim Chesner, were in the mountains hunting and while they were resting and young Bennett was cleaning his gun, Chesner was handling a pistol when in some way it fired, the ball taking effect in Bennett's arm at a point about half way between the wrist and elbow. Dr. Bryan located the ball by X-ray and Dr. Gilbert, assisted by Drs. Bryan and Wilkins, cut it out Thursday afternoon. No bones were broken and it is hoped the wound will not be of anything serious.—Alamogordo News.

### ANOTHER NEW HOTEL.

To Be Erected at the Head of Grand Canyon Mine Trail.

A new hotel is to be built this season at the head of Grand View trail, Grand Canyon of Arizona. This is near the terminus of the old stage line from Flagstaff, and is what is known as the trail leading to the Last Chance mine, now owned by the Grand Canyon mining company and is by far the best point on the rim for a hotel and the trail is the best leading into the canyon. The intention is to put up a good building and run it in first class style. The trail down to the Colorado river at this point has been greatly improved, and with better hotel facilities it is thought that this end of the granite gorge district will be more popular. It is easy one of the beauty spots of the Grand Canyon. The river makes a mighty bend here to the north and the eye is delighted with faraway views across the painted desert. The canyon forms are also more varied and of softer colors than elsewhere.

Bright Angel, being the railway terminus, will always be the most frequented by tourists. It has come into annual prominence of late by reason of the efforts being made by a certain Arizona pioneer to gain possession of Bright Angel trail on the plea of prior occupancy. However, the matter may finally be decided, the Santa Fe will go ahead with the building of its magnificent hotel there, to be managed by Mr. H. A. Vey. The need of such a hotel is great, as travel to the canyon has increased eight hundred per cent in two years.

### Charles Zeiger Arrested for Fighting.

Charles Zeiger was arrested last night, charged with assaulting Theodore Erlberg in the Zeiger bar room. His case was called this morning in the recorder's court, but was postponed until 5 o'clock.—El Paso Herald.

### THE NEW SHERIFF.

Appointment of Fred Otero in Sandoval County.

The New Mexican, in its comments on the Sandoval county sheriff appointment matter, says:

Information was received today at the executive office that the board of county commissioners of Sandoval county, in special session, on yesterday, at the town of Sandoval, the county seat, appointed Frederick J. Otero sheriff of the county to fill the original vacancy in the office. It will be remembered that upon the organization of the county of Sandoval, the county commissioners appointed Alfredo Sandoval sheriff of the new county. A writ of quo warranto proceedings was instituted against Alfredo Sandoval and it was decided by the court of the Second judicial district that the appointee was ineligible to the office and that a vacancy existed. The question then arose

who had the power to fill the vacancy, the governor or the board of county commissioners? Solicitor General Bartlett held that the governor had the power and right to appoint in cases of vacancy brought about by "death, resignation or otherwise," but that in this case, under the ruling of the court, and it being an original vacancy, the county commissioners should appoint under and by virtue of the act of the Thirty-fifth legislative assembly establishing the county. Accordingly, the county commissioners of Sandoval county made the appointment. The new sheriff is a son of Hon. M. S. Otero, of Albuquerque, former delegate to congress, and is a young man of good education and well and favorably known in central and northern New Mexico. The New Mexican understands that Emiliano Sandoval, a cousin of Alfredo Sandoval, who was dispossessed of the office, was an applicant for the appointment.

### Mrs. Cromwell's Tea.

The Washington correspondent to the New York Herald says:

Mrs. Oliver Cromwell, of New York, who has just returned to her Washington home from her trip south, gave a tea this afternoon complimentary to her guest, Mrs. Moses Taylor Campbell, of New York, the niece of Mr. Cromwell. Her house in K street was bright with spring blossoms.

Assisting Mrs. Cromwell were Mrs. Henry G. Corbin and Mrs. Thomas Gaff, who presided over the table with its decorations of buttercups. Lady Herbert, wife of the British ambassador, was among the guests, as were M. de Margerie, the councillor of the French embassy, and Mme. de Margerie; Mrs. General Wood, wife of Gen. Leonard C. Wood; Captain and Mrs. Sargent, Mrs. Lothrop Bradley, Mrs. Ellis, Signor Montagna and Signor Borghetti of the Italian embassy.

### \$300,000 IN SIGHT.

Chihuahua Mining Developments Reported by the Superintendent.

Sam Dedrick, superintendent of the Cerro Boludo and Cinco de Abril mines for the Stillwell mining companies came in Monday night and reported that since September 20 last 1,900 feet of development work had been done, putting in sight, at a conservative estimate, \$300,000 in gold values; or 30,000 tons running \$10 per ton.

The general average of the ores is about \$11 to the ton in gold values. The No. 1 shaft is the deepest, being 240 feet deep when Mr. Dedrick left, and in good ore with a strong vein through all the workings.

Mr. Dedrick was met here by one of his mining partners, Judge A. B. Fall, of El Paso, and they left for the mines on Thursday afternoon.—Chihuahua Enterprise.

Sam Dedrick is well known in this city, and for years resided at Socorro and San Marcial. When in this territory he was engaged in the cattle raising business.

### FLEW HIGH FOR A WHILE.

Negotiated for a Ranch at \$150,000 But Could Not Raise \$20.

A few days ago W. A. Louks, of Pittsburg, Pa., registered at the Shelby hotel in Roswell. Shortly thereafter the rumor was current on the streets of the town that Louks had purchased the L. F. D. ranch near that place. The ranch contains about 1,125 acres of land and the purchase price was stated to be \$150,000. Louks said that his associates in the east and he would put considerable money in the enterprise and would raise nothing but high grade cattle.

The people of Roswell regarded Louks with a feeling akin to reverence for it was felt that his presence and purchase of the property in question meant much to the town. The landlord of the Shelby hotel did not have as much faith in the capitalist as some of the citizens and when Louks left for Capitan without paying his board bill, which had reached the sum total of \$20, mine host had a warrant issued for Louks although the latter had stated that he was going to the town to look after his mining interests there and would return shortly. Louks was overhauled about twelve miles out of Roswell and taken back to town by a constable. His bond was fixed at \$200 but some of the business men signed his bond and paid his board bill. They did not want the capitalist to be discouraged. Louks was grateful for their kindness and stated that he would receive \$100,000 from home the following day and that they would be reimbursed. That night Louks decamped and has not been seen or heard from since.

While he had practically accepted the terms of the management of the L. F. D. ranch for its purchase he had not paid anything on it. Some of the people with whom he came in contact think Louks is partly insane and laboring under the hallucination that he was wealthy while others believe that he is merely a fakir.

### POLICE COURT.

J. M. Devellin, who is employed at the Santa Fe Pacific shops, was arrested last evening by Officer Cooper. He was down by the Eight Spot saloon threatening to smash all the windows and demolish the place. This morning before Judge Crawford he pleaded guilty of drunkenness and paid a \$5 fine.

J. D. Burns filled his tank up last night and threatened to shoot if things didn't go his way. He was lodged in the cooler, and will now work five days for the city.

## OFFICIAL MATTERS.

### Notary Appointed—Land Office Business—Survey Approved.

### IMPROVING CAPITOL GROUNDS.

Governor Otero appointed the following notary public: Mariano Gonzales, Sandoval postoffice, for Sandoval county.

### Land Office Business.

The following desert land entry was made: Elizabeth M. Cooper, Farmington postoffice, 160 acres in San Juan county.

### Survey Approved.

Surveyor General Morgan Q. Llewellyn has approved the following mineral surveys: No. 1053, the Dacotah Pearl group, comprising the Dacotah Pearl, The Belle and Last Chance lodes, situated in the Virginia mining district in Grant county. The Michigan-New Mexico Copper company is claimant, and the survey was made by R. L. Powell, of Silver City, deputy United States mineral surveyor.

No. 1155, The Old Virginia lode mining claim, situated in the Burro mountain mining district, Grant county. B. F. Copp and Lucian P. Deming, of Silver City, are the claimants and the survey was made by George R. Brown, of Silver City, deputy United States mineral surveyor.

No. 1156, The Black Tail group of mining claims, comprising the Black Tail, Big Four, May Flower, and Kansas lodes, situated in the Dripping Springs mining district, Socorro county. The San Andres Mining company is the claimant and the survey was made by W. J. Jones, of San Marcial, deputy United States mineral surveyor.

### Capitol Grounds Improvements.

Improvements are being made at and adjacent to the capitol grounds that will in the near future greatly add to the appearance of the premises. A row of American maple and linden trees has lately been set along the walk on Don Gaspar avenue to the east of the building and Judge N. B. Laughlin has placed a row of the trees on the east side of the same street adjacent to his residence. The American maple is one of the finest shade trees there is, and this street will, in the course of a few years, be the prettiest driveway in the city. These trees spread and have a very bushy top. As Don Gaspar avenue is not very wide at the point mentioned, the trees will in the course of a decade form an arch over the street. A pressed brick walk is soon to be erected on Don Gaspar avenue to Galisteo street. A row of the American maples will set along Manderfield and Galisteo streets later, but this may not be done during the present season. The trees on Don Gaspar avenue are protected by frame guards recently erected. That part of the grounds containing no grass has been plowed up and will be leveled off and sowed in grass at once.

### Guano Cave in Eddy County.

A large guano cave has been discovered by A. Long, who, in conjunction with Ramsey Brady, has organized a company and is making arrangements to operate it. The cave is in the foothills of the Guadalupe in Eddy county, and the guano beds are about 175 feet from the entrance, which inclines at an average of about thirty-five degrees. The quantity is practically unlimited. Lava, Sierra county, is the only other place in New Mexico where guano is mined on a large scale in caves.

### OVER 1,000 FAMILIES.

There Will Be a Great Exodus From Oklahoma and Southern Kansas to New Mexico During the Present Season.

Charles Chapman of Hobart, Okla., is in Santa Fe for the purpose of making a homestead entry on a tract about one mile south of Moriarty station of the Santa Fe Central railway, says the New Mexican. Mr. Chapman has just completed a trip of 530 miles in length from Hobart to Santa Fe overland and in a wagon. It took him thirty-one days to do so. He found Estancia plains the best section of country he passed through and has concluded to settle there. He informed the New Mexican that this fall at least 1,000 families from Oklahoma and Southern Kansas will come to New Mexico as the promised land to make homestead desert land entries, and that many of them will come to the Estancia plains. The literature distributed by the bureau of immigration in those sections has attracted the attention of farmers to New Mexico, and they are coming to see for themselves and to stay. He expects this movement to begin as soon as this season's crops are gathered, and many of the farmers there have already sold their farms preparatory to coming to New Mexico. He came via Portales, Roswell and Torrance and along the Santa Fe Central railway. The country for ten miles around Portales has been taken up by homesteaders and more are coming in. He thinks he will be able to raise abundant crops on the homestead he will take up near Moriarty, and will dig several wells as soon as he returns there from here. There is an abundance of water which can be had all the way from twenty-five to seventy-five feet by the digging of wells on the Estancia plains. On his way from Torrance north he noticed quite a number

of new frame houses going up on the claims squatted on by homesteaders.

### Care Collide.

New York, May 13.—By a collision between a north-bound and south-bound car on Second avenue, due to the displacement of a switch, ten or twelve passengers were more or less badly injured. The police say that mischievous boys were responsible for the collision.

### Pastor Maxfield Dead.

Rev. A. A. Maxfield, pastor of the African Methodist Episcopal church on West Coal avenue passed over the great divide this morning for his reward in the great beyond. He died about 6 o'clock, after a long illness extending over many months, from Bright's disease.

Pastor Maxfield had presided over the church in this city for two years, and was an able leader. He was popular with all and his death brings to a close a life which had been spent for the upbuilding and enlightenment of his race. He was forty-six years old, and is survived by a wife, who has the sympathy of all in this sad hour. No time has yet been set for the funeral, which will be held at the undertaking rooms of J. W. Edwards. The body will be shipped Friday to St. Joseph, Mo., for burial.

### JUDGE FREEMAN.

One of His Several Washington Interviews.

"Did you ever realize what a rasping sound a foreign language can have upon the human ear in a strange city, where one has no friends?" asked Judge A. A. Freeman, of New Mexico, in the lobby of the Elbitt. A veteran figure, Judge Freeman has had many offices of honor and emolument, having served for eight years as assistant attorney general in charge of the legal work of the postoffice department.

"President Grant appointed me consul to Prague, the ancient capital of Bohemia," continued the judge, who sat on the bench in New Mexico. "It is a beautiful old city, with many things to delight the visitor, but I was exceedingly lonesome there. The people were all strangers to me, and I did not understand the language. There were hundreds of remarkable places and buildings, places rich with historical interest, for Prague was founded in the year 900. But even the historical places enhanced my gloom, and I began to realize how it is that soldiers can actually die of homesickness."

"One day I visited an ancient synagogue in one of the quaint sections of the city. The guide took me to the aged tombstones, where the inscriptions had been worn off by the elements. He was piloting me, a man weary of delving into the past, among the graves of the long ago and reciting what those graves were."

"My dear man," I exclaimed in despair, "can't you show me a grave that was made yesterday? It would be positively companionable."

"It wasn't long afterward," concluded the judge, "that I resigned my consularship in the beautiful old city of Prague. It was too lonesome there for me."

### Real Estate Sales.

Otto Diekmann reports the following sales made by him during the month of April, 1903:

Mary Carroll and husband to J. I. Johnston and Cora Elchar, the north half of lots 11, 12, 13 and 14, block H, Atlantic & Pacific addition.

N. Van Slyck and wife to Emilia Yrisarri, lots 22, 23 and 24, block I, Atlantic & Pacific addition.

N. Van Slyck and wife lots 9 and 10, block J, and Jacob Baisch and wife, lot 11, block J, Atlantic & Pacific addition, to John Langila.

N. Van Slyck and wife to Joseph Beck, lots 13 and 14, block Q, Atlantic & Pacific addition.

Henry Huning and wife to John W. Palmer, lots 12, 13 and 14, block I, Northern addition.

Juanita Ortega and husband to Antonio Lucero y Peres, a piece of land in precinct No. 4, Ranchos de Albuquerque, N. M.

### DROPPED DEAD AT CHAMITA.

Horace Had Been Drinking Since Tuesday of Last Week.

F. B. Horace died very suddenly at Chamita Sunday evening about 7:30 o'clock as the result of a protracted spree. He had been drinking heavily since Tuesday of last week and on Sunday night entered the home of an Indian at Chamita with whom he was acquainted. While under the influence of liquor, he did not seem to be in physical distress but suddenly fell dead on the floor. Deceased had been a resident of the place for years, but had no family. He was well educated and made some money, it is said, by corresponding for eastern papers and often received remittances from relatives in the east. His two sisters in New York who are the only relatives known to survive him, have been notified of his decease, but the remains have been interred at Chamita pending the receipt of word from them. Deceased was about 73 years of age.

### Telephone Franchise.

John L. Burnside has secured a telephone franchise from the Deming town board and has applied for one from the Silver City board. It is his intention to construct a long-distance telephone line between the two towns and it is said that the Postal Telegraph company will also invade Silver City.

## RAILROADS PROGRESSING.

### Santa Fe Central, Cut-off and Albuquerque Eastern People Hustling.

### SANTA FE CENTRAL INSPECTION.

Railroad work is being pushed all over the territory and in the next ten years New Mexico will have thousands of miles of track for the iron horse to run over.

Down at Belen, the Citizen representative is informed, things are rushing out along the new line. Five miles of permanent track is laid east from the river, and the grading to the mountains is almost completed, although some work with the steam shovel is still being done near the river. Out in the canyon there are 450 men at work and the dirt and rock is flying at a great rate. The big cut, 130 feet deep, is getting well along toward completion. Out at the Abo canyon there are within a distance of three miles seven big steel bridges of varying lengths. The number of bridges necessary and the immensity of the excavations makes it evident that the building of the cut off is going to cost a great deal of money.

Already fifty miles of track has been laid on the Santa Fe Central, and the track is past progress. In a few days General Manager Hopewell and capitalists from the east will arrive and inspect the new road. The work is being pushed as rapidly as possible and some work is being done from the Kennedy end of the line. On the Albuquerque Eastern eight miles of grading has been completed out of Moriarty, and the camps are to be moved further out from that town in a few days. The two grading camps that have been maintained at Kennedy for some time on bridges and surface work will be moved shortly over to the eastern grade. The town of Moriarty is getting there in a way that augurs well for the future. It will be one of the towns on the new road.

### The Buzzi Concert.

St. Mary's hall last evening contained an audience that was pleased with the great operatic concert given by the distinguished Italian tenor, Chev. Pietro Buzzi, who was assisted by Mrs. Cuneo, Mrs. Hamm, Miss Adele Damiani and Professor Di Mauro.

The Italian band was present and rendered several selections which added to the pleasure of the evening. Chev. Buzzi, of course, was the chief attraction and he certainly took the "bun." He delighted all with his work. He sang li-labys in German and French, sacred music in English, things from Verdi and even Nevin and a solo from Florida. He closed the program with a version of the fourth act of Lucia de Lamermoor. Chev. Pietro Buzzi is certainly a great lyric tenor, and what the press of this country and Europe say about him is correct.

### Store Destroyed by Fire.

A correspondent of the White Oaks Eagle writes from Lincoln, says:

Wharton's store was burned to the ground the other night. Walter Hyde and John Wharton arrested Francisco Analla for setting the store on fire; also arrested Timoteo Analla for resisting an officer. They were taken to Capitan to have preliminary hearing. John Wharton tracked Francisco Analla from the store building to his home, got the horse he rode and also Analla's boots, which correspond exactly with the track made near the house; horse was tied at the creek, and then Analla took the horse home, riding him part of the way and walking part of the way; found the horse at Analla's house, and saddle blankets were wet; horse tracks correspond exactly with the tracks near the creek, where the horse was tied. Wharton lost everything, store building and all the goods; dwelling not burned. Fire started about 3 o'clock Wednesday morning.

### Bogus Money.

H. Rhea, who says he is a barber, blew into town yesterday with some bad money in his pockets. Last evening he called on Pete Dinelli, the proprietor of the Star saloon at 109 North First street. Here he tried to pass a \$10 bill made out on the State bank of New Brunswick, N. J. Peter's eyes were too good to be taken in on any such game as this, and he called the officers who placed Rhea under arrest. Rhea this morning said he didn't know but what the money was all right; a drummer had given it to him. Rhea claims New York as his home. He will be given a hearing before Judge Crawford this afternoon between 4 and 5 o'clock.

### MICHIGAN MONEY IN ARIZONA.

It is Developing Large Mines in the Warren District.

A correspondent of the Denver News writing from Phoenix, Ariz., says: The tide of capital from Lake Superior regions seeking investment in

the Warren district of Cochise county is increasing in volume, and a region which two or three years ago was regarded as replete with wildcat ventures is rapidly assuming, under Michigan influence, an importance which promises in time to outweigh the lake region itself.

Bisbee constantly entertains probably a score of Michigan capitalists and corporation agents who are on the market for copper prospects, and mining sales of considerable consequence have ceased to attract attention because of their frequency. The Copper Queen, controlled by Phelps, Dodge & Co. of New York, has long been known for its heavy production of the red metal and its distinction of being one of the few great copper producers of this territory, but the exploratory and development wave which has literally overcome Bisbee and surrounding camps during the past two years has resulted in the opening of so many vast copper deposits that the Copper Queen shortly can be regarded as only one of a number of big copper producers whose combined production will place the Warren district in the front rank of the world's copper sources.

The latest enterprise of importance has been fostered by a syndicate of Michigan men who will form the Quincy and Arizona Development company. These men have purchased at a cost of \$140,000 the Ivanhoe group, located between the Calumet and Arizona and the Portage Lake properties.

### SUPPRESSED THE LAW.

A Sporting Editor, With a Good Gun, Lays Down Some Law.

A telegram from Dalhart, the boom town on the Rock Island, says:

This morning George F. Korneyag, editor and proprietor of the Dalhart Sun, shot and killed W. T. Keith, an attorney of this place. Just before the shooting occurred Korneyag and Keith were seen in a heated argument in front of James Kain's saloon, on Denrook avenue, next door to the deceased's office, and Keith was seen to go into his office hastily and at this juncture Korneyag stepped to the door of Keith's office and fired two shots, one of which struck the attorney in the side and passed through his body, the other grazed his neck and cut through his collar and neckwear, clipping the top of his collar button. The shot in the side proved fatal, Keith dying a few minutes after the shot was fired, but before he fell he pursued Korneyag, who took flight after the second shot and fired one shot, but missed.

The affair was caused by the following item, which appeared in the Dalhart Sun May 9:

"Attorney Keith was arrested Thursday and placed under bond to appear before the justice court on Monday, the 11th. He is charged with carrying a pistol and disturbing the peace."

### OFFICIAL MATTERS.

Page B. Otero, territorial fish and game warden, has officially announced the appointment of the following deputies: Thomas McMillin, J. E. Haines, R. H. Greenleaf, all of Albuquerque, of Bernalillo county.

### Territorial Funds.

The following collections have been received by Territorial Treasurer J. H. Vaughn: Taxes for 1902 for Mora county, \$67.16; Rumbold Roybal, treasurer; taxes for 1902 for McKinley county, \$456.52; John C. Spears, treasurer; taxes for 1902 for Colfax county, \$268.44; George G. Page, treasurer.

### Officers Appointed.

Governor Otero appointed the following graduates of the New Mexico Military Institute at Roswell as members of the National Guard of New Mexico with the rank of second lieutenant to begin service at such time as there is a vacancy of their rank in the company stationed in the county of which they are residents: Bradley Morris Thomas, Santa Fe county; Bruno Totczek, Chaves county.

### COMMENCEMENT WEEK.

Program Arranged for the Normal School at Silver City.

Commencement week of the New Mexico Normal school at Silver City will begin Saturday, May 30, and there will be four graduates. The following is the program of the week:

Saturday.....Literary Society Contest  
Sunday.....Baccalaureate Address.....  
.....Rev. J. G. Harshaw, M. E. Church  
Monday.....Field Day Sports  
Tuesday evening.....Class Day Exercises  
Wednesday evening.....Public Reception  
Thursday.....Graduating Exercises  
Thursday evening.....  
.....Alumni Business Meeting

The Santa Fe railway is buying land at Argentine, Kan. Tuesday five acres were purchased of August Boeke, the price paid being \$850 an acre. A deed for twelve additional acres will probably be closed. This land lies north of the company's yard in Argentine and is to be used for switch tracks.

Promoters of a road run from Durango, Colo., south to connect with the Southern Pacific and the Santa Fe say they are now sure of getting the necessary capital, and construction is likely to begin this year. It will afford access for traffic to copper camps in Arizona that are consuming 250,000 tons of coal at \$16 a ton.

## MEMORIAL DAY.

### G. K. Warren Post No. 2, Appoints Committee of Arrangements.

### PATRIOTIC PEOPLE WILL ASSIST.

Memorial day in Albuquerque is to be observed in a fitting manner, one that will do justice to the progressive city and to the memory of the fallen heroes.

Last evening G. K. Warren post No. 2, G. A. R., met and appointed the following committee of arrangements: Post commander J. W. Edwards, Comrades E. S. Stover, A. Harsch, Joseph N. Warner, L. Clark and David Denham. Attorney R. W. D. Bryan has been chosen speaker of the day. The committee and the Woman's Relief Corps will meet soon and complete the program. The citizens must do some work attendant upon such an event, as the old veterans are fast passing away. The labor should not only be done from a sense of duty, but out of loving remembrance and appreciation of what the noble dead have done to unite the people, protect the homes and insure the prosperity that we have so abundantly enjoyed. Should we regard the same or pains it requires when we think of a father or brother who gave his life? Instead it should impress us with how little we can do toward commemorating the lives and deeds of the departed comrades, who gave their richest gift to the cause they loved. Then again, how feeble is our patriotism compared with the grizzled veterans who faced shot and shell, sickness and imprisonment to preserve this grand and glorious nation. Let everyone put their shoulder to the wheel and aid in perpetuating this occasion. The Citizen will print from time to time the arrangements that the committees are making, so that its readers will know every detail that is to be carried out on that day. Every patriotic man, woman and child should be up and doing as the time is short.

### A Fine Lecturer.

Prof. D. M. Richards, in charge of the preparatory department of the New Mexico College of Agriculture and the Mechanic Arts, lectured at the Presbyterian church on the subject, "Some Educational Ideals." Professor Richards is an old resident of New Mexico, having been identified with education in the territory since 1891. His lecture, which dealt with the needs of the country through the public school system, was replete with wise and conservative advice and suggestions as to the conduct of the same. Professor Richards is a clear and able thinker; his style is direct and luminous, and his manner of delivery exceedingly pleasing. His lecture was one of the best ever delivered in Deming, and it is earnestly hoped that he may find it convenient to visit us again in the near future.—Headlight.

### THE SILVER CAVE MINE.

Work on It Will Be Commenced at Once—Englishman to Start Work.

Last Thursday J. E. Carroll came in over the Santa Fe and announced his intention of at once starting work on the Silver Cave mine in the Floridas, sixteen miles from this city, says the Deming Headlight.

Mr. Carroll, in connection with a brother, has been the owner of this valuable property for more than twenty years, they having a patent for it, but closed it down many years ago, owing to the low price of silver.

For more than fifteen years past the Carrolls have lived in London, but now, with the increased railroad facilities and a better outlook for the marketing of the mine's product, J. E. Carroll has returned to reopen the mine, as stated.

The Silver Cave mine has always been known as a great producer of a very high grade metal, and is well developed. Its owners have always refused to lease it, although many tempting offers have been made. In years past there is no doubt but that many tons of fine metal have been taken from the Silver Cave without the knowledge or consent of those who were its custodians. But now, with Mr. Carroll on the ground, all will go well and another enterprise started to benefit Deming.

### A Water Story.

If you want to know why, for years past El Paso has been having the pure water that comes from Deming only hauled to that city in car load lots for use in all saloons and restaurants, as well as in many private families, go to the county clerk's office in this town and take a look at a section of a core that was taken from a water pipe in the Pass City. This core was evidently formed by the gradual accumulation of all the impurities of which the waters of the Pass City is filled with, and of which the water hereabouts is entirely free. No wonder they get their water from Deming.—Headlight.

## To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. *E. H. Johnson*  
Seven Million boxes sold in past 12 months. On every box, 25c.
