According to a recent issue of trade magazine Siderurgia: Acero y Desarrollo, privatization of state-owned steelworks is expected to generate about \$3 billion for the federal government. As of March 15, Altos Hornos de Mexico (AHMSA) and Siderurgica Lazaro Cardenas-Las Truchas (SICARTSA) are in private hands. Details on price and timing for the sale of Grupo Sidermex's remaining 21 iron and steel processing plants have not been publicized. (Sources: El Financiero, La Jornada, 03/15/91)
