Weekly Albuquerque Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, JULY 11, 1903.

NUMBER 96

Territorial Topics

SILVER CITY.

From the Independent.

Every succeeding year emphasizes

the more urgent need of a good sewerage system for Silver City.

The big celebration held in this city

Saturday, Sunday and Monday in commemoration of the glorious Fourth

was altogether successful.

Santa Rita confirmed her reputation

as an expert entertainer on the day we

celebrate. More than a thousand people

tested her hospitality on the glorious Fourth and came away well satisfied.

Mr. and Mrs. H. H. Betts have left

for New York and Boston, where they

will visit relatives. Mr. Betts will return

at the end of the month, while Mrs. Betts

will remain until September. This is Mr. Betts' first visit to

his old home in eighteen years.

While the destruction of the local

molting plant by fire last week was to

be deplored, the Independent cannot

see that it will deprive this section of

a home market for any length of time.

Where mineral exists in such quantities

and of such grades as it does here in

Grant county, there is certain to be

a plant erected for its treatment before

a great while.

LAS CRUCES.

From the Citizen.

Mrs. Nestor Armijo left for Albuquerque

on Wednesday on a visit to relatives.

The Mesilla valley is noted at least

for two things—its fine fruit, and its

politicians.

A. Schenck, accompanied by two of

his sons, James and August, left for

Douglas, Arizona, Tuesday.

Mrs. Dr. Lyon will leave on Tuesday

with her children for the City of Mexico,

to be absent several weeks.

Mrs. Wm. Seep, formerly Miss Mar-

nerite French, came up from El Paso

with her husband, to visit her mother

and friends.

Dr. J. L. Burnham, our popular phy-

sician, left Friday for his former home

at Manchester, New Hampshire, where

he expects to spend several weeks taking

a much needed rest.

George W. Page, of Organ, came

down last week on a visit to relatives

and friends. George is an old timer in

that district and says there is no doubt

as to the future prosperity of the

amp.

ALAMOGORDO.

From the News.

E. D. Powell was up before Justice

O'Reilly Monday on a charge of larceny

and was fined \$15 and costs and

given twenty days in jail. Having no

money he will have to lay it out in

all.

The Improvement company has a

large force of teams at work east of

own extending the big flood ditch.

Some of us got left by "butting" up

against closed doors on the evening of

July 1. All union stores close at 7 p.

m. and open at 7 a. m.

The News outfit is undergoing a re-

modeling, such as putting in power for

printing presses, re-arranging the

mechanical department, adding several

hundred dollars worth of new type,

ruling machine, etc.

President Eddy has informed the

committee that was appointed by the

citizens of Alamogordo to consult with

him about sinking for artesian water

ear this town that he does not at the

present time feel that the companies

are able to go into the enterprise to

the extent that they would like to, and

regrets that their requirements for the

next few months are such as to make

his decision necessary.

SANTA FE.

From the Bulletin.

H. S. Kaune, the popular grocer, left

for San Diego, for a vacation.

Miss Stella Sloan leaves for Denver

this morning to attend the Christian

advocate convention.

Salmon's mare won the mile race

Saturday in the event between that

and Charlie Clouson's Juanita.

Mrs. R. C. Garrett and children and

rs. F. H. McElroy are spending an

evening of a few days near Corrallos.

The Santa Fe and Rio Grande rail-

roads were granted right of way on

Adalup street to build double tracks

to the proposed new union depot.

Judges Morrison and McPhee made

that company several of the horses

were damaged, and it became neces-

sary to kill one. Mr. Kennett put in

a bill for damages to the amount of

\$200. The Pennsylvania refused to

pay. The other day a Pennsylvania

car showed up in the Central branch

yards at Concordia and Mr. Kennett

promptly seized it under garnishment

proceedings. Ballie Waggoner, acting

for the Pennsylvania, sought the dis-

charge of the car, but it will be held

until the Blade states, until the suit for

damages is settled.

People Who Don't Intermarry.

The Merdites, a Christian clan in

northern Albania, to this day relig-

iously refrain from intermarrying

with their own tribe, but as a general

rule they carry off wives from among

the Mohammedan neighbors. Con-

sequently a Merdite wedding is often

as not preceded by a series of

funerals. For, although the Mohammedan

maids may in some cases have no

unconquerable aversion to being

abducted, it frequently happens that

their kinsmen consider it a point of

honor to defend her in grim earnest

and lives are lost in consequence.

GOLDEN MINES.

Special Correspondence.

Golden, July 9.—Col. J. A. Wood of

Kansas City arrived at Golden today

and has full charge of the Gold Bullion

Mining company property. Several

loads of lumber has been coming dur-

ing the week from Skinner's saw mill

at San Antonio, and the erection of

several buildings for the Bullion com-

pany will be built right away.

Henry Colwell, an old resident of

the territory, died at his home in La

Madera, Monday, July 6, at 2 o'clock

a. m. Mr. Colwell was a native of

Hamburg, Germany, and was in his

78th year at the time of his death. Mr.

Colwell came to the United States

under age, spending several years in

Charleston, S. C., where he started to

learn the shoemaker's trade. From

Charleston he went to California in

1854, where he made several hundred

dollars that he brought to New Mex-

ico, where he has been a good resi-

dent of the territory. During his liv-

ing in New Mexico he was contractor

for the government, most of the time

hauling government supplies. Mr. Col-

well and Henry Carpenter, who died

over a year ago, were connected to-

gether in several large government

contracts, supplying the United States

post in Albuquerque with wood, grain

and hay. For the last twenty-eight

years Mr. Colwell has been living in

the little town of La Madera, where

he entered 160 acres of farming land

and where he devoted most of his

time to farming and stock raising. Mr.

Colwell will be missed by all his

friends with whom he was always kind-

ling his death the county of Bernalillo

lost a good citizen.

Mr. Colwell left a widow, four sons

and one daughter to mourn his death.

Prof. C. R. Keyes, president of the

School of Mines of the territory of

New Mexico, situated at Socorro, spent

several days around the new placer

mining districts, examining the dif-

ferent properties of the camp, which

may become the property of the Penn-

sylvania Development company. This

company has now several options on

large mining interests in the district,

and at the Perry Gulch quite exten-

sive development work has been done

by the company. In the South Moun-

tains south of San Pedro, where some

large deposits of iron ore crops out

of the surface, the company has several

mining claims located in the San Is-

idro mountains, where development

work has been carried on for some

time.

The miners of the district are well

pleased to see the company get in-

terested in the district which means

a great help to the camp.

The Las Vegas Patriotic.

Felipe Garcia, the young man who

attempted to cut his father's throat

some time since, was arraigned in

the justice court of precinct No. 5 and

bound over to await the action of the

grand jury in the sum of \$3,000. He

was unable to secure bondsmen, so re-

poses in the San Miguel county ba-

ttle, where he will likely remain until

called upon to answer for his inhuman

crime. His father is reported as im-

proving fast, and will recover.

POINTED PARAGRAPHS.

Worry is a bad fellow. Kick it

out.

Man is of few days and full of con-

ditioned credence.

Always view a scene with a mule in

it from the foreground.

When told to take a back seat the

average man will take affront.

A man's true friends keep quiet

when some one is enumerating his vir-

NUMBER YOUR HOUSE.

Important That City Properly Receive Proper Number.

EXTRACTS FROM ORDINANCE NO. 25.

Inasmuch as there has been a great

deal of building, business and resi-

dence houses, going on in the city the

past year or more, the matter of street

and lot numbering is of moment.

It is essential that all old buildings

be promptly numbered.

Attention is called to city ordinance

No. 25, entitled Numbering buildings.

Following are a few extracts:

"All buildings fronting on the

streets, avenues and alleys in the city

of Albuquerque, shall be numbered in

conformity with the following provisions:

Odd numbers shall be given to

all buildings on the north and west

sides of the streets and avenues and

even numbers to those on the south

and east sides of the same; and alleys

numbered likewise, excepting that if

be added to numbers of street front."

"On streets and avenues running

eastwardly and westwardly, number-

ing shall commence at 100 at First

street and increase in each direction

at the rate of one hundred numbers for

each block or space of ground between

two streets or avenues; and shall be

designated counting from First street

on East Railroad and West Railroad

avenue, etc.

"On streets and avenues running

north and south the numbering shall

commence at No. 100 Railroad avenue

and increase and diminish as in the

case of streets.

"The committee on streets and al-

leys, on application, shall furnish the

owners or agent of property with proper

numbers."

Section 4 of the ordinance fixes the

penalty for not complying with the

provision of the ordinance at a fine of

not less than \$5 or more than \$25.

It is also important that buildings

should be numbered properly for the

reason of fire insurance.

The King Snake's Provost.

The most relentless exterminator of

reptiles is a member of the family it-

ter—the beautiful, lithe, yellow and

black king snake, the friend of man

and the avowed enemy of anything

that creeps or crawls, regardless of

size or poison fang. A native of our

own south, the king snake is between

five and eight feet long and no thicker

around than a man's thumb. Built in

every muscle and bone for speed and

tremendous constricting power there

is not another snake on earth that can

withstand his assault.

REPORT OF SURVEYOR GENERAL

Trouble in Inducing Deputies to Sur-

voy Small Holding Claims

AT THE PRESENT RATES.

Morgan O. Llewellyn, United States

surveyor general for New Mexico, has

forwarded to Washington his report

of the transactions of his office for

the fiscal year ending June 30. During

the year the letters prepared, briefed

and recorded were as follows: To the

commissioner of the general land of-

EFFECT OF RAILWAY SUBSIDIES.

In the June issue of the World's Work, Guy Morrison Walker has given some instructive figures regarding railway subsidies and draws the conclusion that the United States owes its position today as the manufacturer "in view of the fact that it is the first crime of this kind which has ever occurred in Georgia, and because of the frank confession of the young men, sentence is imposed in order to convince the public that the purpose of the court is to warn and deter others from a like crime."

POSTAL DEFICIT.

Captain Castle, the auditor of the treasury for the postoffice department, has made the official estimate that the postal deficiency for the fiscal year ending July 1 was \$4,617,262. The deficit for the previous fiscal year was \$2,961,170. This big increase is attributed to the enormous increase in expenditures for the rural free delivery service during the past year. The receipts of the postal service for the year were \$134,628,699 and the expenditures \$138,885,812.

The deficiency in the free delivery service is not yet definitely known beyond the estimate made weeks ago by the postmaster general that it would be \$227,000 of the close of the fiscal year. The deficiency, however, may prove considerably larger than that figure.

It is shown, for example, that although the government's subsidy policy has been extremely liberal, the returns to the people and therefore to the government have been almost infinitesimal. In other words, the subsidy investment which the government made in western railroads has proven gilt edged.

PUNISHMENT FOR PEONAGE.

The courts of Alabama and Georgia are dealing vigorously with those found guilty of the crime of peonage. In the federal court at Montgomery, Ala., to which nearly a hundred indictments were presented by the grand jury, a prosperous planter who pleaded guilty of seven indictments for peonage was sentenced to five years' imprisonment in each case, to be served concurrently. In Georgia, three men who were tried in the United States court at Macon for holding a negro in involuntary servitude for debt were fined \$1,000 each. In imposing sentence the judge said: of the world large to the liberal policy the government has pursued in grants to railroads. The data adduced is somewhat destructive of the popular impression that the railroads are under lasting obligations to a fostering government—obligations which have not and never can be canceled. In the Sixth cavalry in 1861, and will not retire until 1906. So the first two chiefs of the general staff will be soldiers who have risen from the ranks. But six of the seventeen men who have been generals-in-chief of the United States army have been West Pointers. Those six ranged from Grant to Schofield.

All six reached the command in consequence of the civil war, and now once again the general-in-chief has swung back to soldiers who entered the army by other doors than the military academy.

REVOLT AGAINST QUACKS.

An active campaign has been begun in Germany against medical quacks. In no other European country are quacks so numerous, so generally employed, and so well paid. The German government has at last decided to subject all professional careers not recognized as medical practitioners to the severest surveillance. They will be given a month to secure other employment, and if at the end of that time they persist in practicing will be prosecuted. Statistics obtained by the government show that more than 100,000 men and women are illegally practicing medicine, and the art of healing in Germany is rapidly increasing.

PRESIDENT ACTED PROMPTLY.

There is one fact that stands out in the whole McMillan matter with satisfying plainness, says the Carlsbad Argus, and it is the prompt and energetic action of President Roosevelt in removing him from office when once the facts and proofs of the case were formally placed before him by the department of justice. The president is reported to have swept aside the voluminous affidavits of good character submitted as a defense and delved at once into the merits and truth of the particular and specific charges. It is said that a plan had been arranged in certain quarters to affect a change of positions between Judge Sulbacher of Porto Rico and Judge McMillan, but that when the knowledge of this came to the president he

would have none of it, removing McMillan and appointing Smith almost immediately, when it was thought he would give several days' consideration to the case at the least.

This prompt action by President Roosevelt is what has always been predicted by those who knew him best would happen when he was fully advised in the matter and the question was submitted to him for determination. The result amply justifies their faith and proves that the confidence of the people in his uprightness, honesty of purpose and pureness of life is well founded.

NATIONAL IRRIGATION LAW.

Many mistaken ideas prevail concerning the new national irrigation law. It is, in fact, one of the most carefully guarded acts ever passed by congress and it is entirely in the interest of home makers. Under its provisions no man can get water for more than 160 acres, and none can assign his water right to any other person or corporation. A settler must use the water as a condition of obtaining it, and no one else can use it in his stead. Government irrigation fixes the cost of putting the water on the arid lands. It may vary from \$5 to \$30 an acre. Eventually the settler pays back the cost. A state can get no national money for irrigation except from the sales of its own public lands. The new irrigation law is a stringent measure in its protection of the government. Its object is to redeem lands not now available for agriculture, and to help actual settlers who display energy and industry in helping themselves.

POPE LEO XIII.

Being in his 94th year, his advanced age, combined with a malady which has drained the little strength remaining, has rendered the efforts of his physicians to keep life in his frail body hopeless; and yet he has in so many instances revived from sinking spells that it has been felt that possibly this attack also would pass without fatal results.

His death has so long been looked upon as an event that could not be greatly delayed that probably the choice of his successor has practically been agreed upon. As soon as his death becomes known the cardinals in Rome and the vicinity will assemble and the election of a successor will proceed. This will occupy but a short time, if the man to succeed him has been agreed upon. Undoubtedly the new pope will be an Italian, for a majority of the cardinals are natives of Italy, and it is not thought advisable to select a successor from any other part of the world.

MOODY MERRILL TRIAL.

Defense Was Granted One Continuance and Asked for Another.

The trial of Moody Merrill in Boston was set for last Tuesday. The Boston papers which have just arrived show that on Monday his attorneys asked to have counts 11, 12 and 13 in the indictment dismissed. Merrill is known to many in New Mexico as Col. C. F. Grayson.

Assistant District Attorney Sughrue, who is conducting the prosecution, in compliance with the former order of the court, furnished additional information regarding the fifth and eighth counts in the indictment, but said he could furnish but little more about the eleventh count. The twelfth and thirteenth are duplicates of companion counts and involve the alleged embezzlement of \$500 from Mrs. Cohen. Judge Bishop, who is presiding, ordered additional information to be furnished regarding these counts.

The eleventh count sets forth that a mortgage on a lot on Shawmut avenue, Boston, was executed by William Dwyer to Merrill for \$500, secured by the mortgage. The note bears the same date as the mortgage and was turned over to Merrill in trust for Mrs. Cohen. The commonwealth alleges that Merrill converted this to his own use.

After this information was filed, it was agreed the trial should be postponed until Thursday, in order that the attorneys for the defense might have more time in which to prepare.

Merrill, who had been in New Hampshire, was on hand for the trial. Late Wednesday afternoon, at an informal conference between the attorneys for the commonwealth, for the defense and the court, a further postponement was asked by the attorneys for the defense. The assistant district attorney stated that the commonwealth was ready to proceed. The postponement was asked by the defense on the grounds of the absence of two important witnesses. Judge Bishop instructed the attorneys for the defense to enter a formal motion for postponement when court opened Thursday morning and he would take it under consideration.

William Maier of the office of C. W. Jones, division superintendent of the Rock Island, has resigned his position at Topeka and will leave for Amarillo, Tex., where he has secured a better one.

EDITORIAL NOTES.

Secretary J. W. Reynolds has prepared and published in neat pamphlet form a complete official register of New Mexico.

Louisiana spends on levees three times as much money as the national government appropriates for the purpose. The fact is a proof of the faith in levees of observers on the spot.

Some reformers are finding fault because the stupidest, most ignorant American man can vote, while the woman who wrote the battle hymn of the republic cannot. Surely republics are not grateful, at least for battle hymns.

Major H. H. Gibbs, the man who is credited with firing the first shot in the civil war, has just died at Columbia, S. C. The firing of that shot sounded the death knell of many a brave man.

Irrigation is in the air. It is the great issue before the people today. To the people of the west the tariff, free silver and the other old staple issues dwindle into insignificance beside this question of reclaiming arid lands.

The strike of the Lowell cotton mills cost the employees more than \$1,250,000 in wages, and they are now returning to work without having gained anything. Evidently it is the part of wisdom for men and women who think of going on strike to look before they leap.

The mineral production of Mexico for the fiscal year ending June 30, 1902, was \$113,000,000. For the first six months of the present fiscal year the production has been \$61,000,000. The increase in the six months in the production of gold was \$1,000,000, in copper \$3,092,178 and in lead \$400,000.

There were eighteen lynchings during June in the United States. New Mexico is not considered capable of self government, but crime is punished by law. An attempt to lynch a negro was made at Raton, and the leaders of the mob were arrested and will be tried for the crime.

During the recent flood excitement the board of county commissioners and the city council hired a large force of men and stopped the water from coming into this city. The action of the officials was then approved by everybody. Now a few are opposing the payment of the bills. It is always this way in cases of emergencies, and it is almost invariable that the more one does for a community the more he is kicked.

The Filipinos are maintaining that feverish desire to learn English which they manifested from the start, and a recent writer estimates that there are now at least 2,000 native teachers handing out a wild and woolly brand of the language to hordes of enthusiastic pupils at day and evening schools.

One of the modern novelists, referring to his hero, says: "His countenance fell; his voice broke; his heart sank; his hair rose; his eyes blazed; his words burned; his blood froze." After reading this one is puzzled to know whether the hero was a plumber, a bankrupt or a human thermometer.

Juarez, the city across the Rio Grande from El Paso, has a new mayor who is going to clean out the town from top to bottom. He will close all saloons at midnight, put an end to all kind of grafting, run out the bunco men, increase the police force, sprinkle the streets, erect a sanitary slaughter house and market and make a model town.

There is a French scientist who claims to have invented a process for securing illuminating product from water. He expresses fear that the Standard Oil magnates will try to kill him after they realize what his discovery means. The suspicion is absurd. They will probably appropriate his formula as soon as the experiment proves a success, but will let him continue to live.

Goats and See-Saw.

W. F. Ritter and Morris G. Cloudt, two successful breeders of Angora goats, were in from their ranches near Gold Hill Wednesday, says the Silver City Enterprise. Mr. Ritter, while here, displayed a number of clever snap shots taken of his goats while teetering on a see-saw he has improvised for their amusement. Mr. Rit-

Kodol Dyspepsia Cure

Digests what you eat. This preparation contains all of the digestants and digesta of all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles. Prepared only by K. O. DeWitt & Co., Chicago. See Dr. J. H. H. Hibban, is here today from Winslow.

ter says he has often noticed the fondness of goats for walking up an inclined board, so one day he built a sort of see-saw and the animals took to it rapidly. One picture shows the silky-fibered creatures standing on the two ends of the plank which is almost perfectly balanced, while in another view, they are all gathered at the bottom of the plank, which, tilted by their weight, sank with a dull sickening thud. However, the r does not disconnect them and they walk gravely around to the other end, jump upon it and thus attempt to establish an equilibrium.

NEW DRILLING RECORD.

Chamberlain and Make Beat Their Record by Three Inches at Douglas, Arizona.

Word from Douglas states that the three days' celebration was a big success and that a large crowd of visitors from different points in southern Arizona and New Mexico were on hand.

The most interesting feature was that of the drilling contest in which Chamberlain and Make made a new world's record that eclipsed the one made in El Paso last winter, by about three inches.

The records made in the double-handed contests showed that Chamberlain and Make had made 46 11-32 inches. Ross and Mailey came next with 43 1/2 inches. Archer and Johnson came third with 42 29-32. Tarr brothers only drilled twelve minutes, but made 31 1/2 inches.

There seems to be some question, however, as to whether the record made by Chamberlain and Make will be accepted as a world's record or not, as it was not performed in the regular Gunnison granite, which has been used heretofore. It was, however, performed in hard native granite which from the records made by all teams appears to be about the same as the Gunnison granite.

New National Bank.

A national bank for Deming is being organized and some of the local capitalists are interested. Deming now has a private bank and once had a national bank, but it did not last. It is believed that there is ample business now there, however, to support one.

YOUNG BOY KILLED.

Willie, Son of Mr. and Mrs. C. W. Merchant, Thrown From His Horse.

Death is trying enough under any circumstances, but when it comes to the young, who have not yet seen the life that really is, it is practically sad, says the Carlsbad Argus. The circumstances attending the passing of Willie, the 14-year-old son of Mr. and Mrs. C. W. Merchant, was passed away at the family home on Black river, on Tuesday evening, are such as to command the sympathy of everybody who has a heart.

The boy, who was unusually bright and dependable for his age, left home to attend to some business in the absence of his father, and when he did not return at noon, his mother thought little of it, supposing that he had been detained longer than he expected. Later in the afternoon, two boy friends, who were coming across the country to visit him, found a sad-died horse which they recognized as belonging to the Merchant ranch, on the road about three miles from the house. They took the animal to the ranch, and Mrs. Merchant saw at once that it was the horse her son had ridden away in the morning. Feeling sure that something was wrong, she went in search of him, and found him lying unconscious near the road about where the horse was found. He had undoubtedly been thrown early in the morning for his face was blistered from the rays of the sun, and there were other indications of the fact. She was fortunate enough to find a traveler on the road with a wagon, and took the boy home. Dr. F. F. Doopp, of this city, was summoned, reaching the place by nightfall, and the physician exerted all his skill upon the lad, but without avail. He never recovered consciousness, and between 10 and 11 o'clock Tuesday night, crossed the border.

The funeral occurred Wednesday afternoon at the cemetery here, Rev. W. M. Fairley, pastor of the local Presbyterian church officiating, in the presence of a large number of friends who assembled to thus mutely show their sympathy for the bereaved parents.

Railway officials differ in the degrees of liberality in which they define the word "family" when used on a pass. An American copied the instructions of the Paris-Lyons-Mediterranean railway bearing upon the subject as a lesson in liberality. On that road a pass for one family is good for father, mother, children, grandfather, grandmother, mother-in-law, father-in-law, brother, sister, brother-in-law, sister-in-law, uncle, aunt, nephew, niece and servants attached to the family.

Rufus Goodrich, secretary to Superintendent J. L. Hibban, is here today from Winslow.

ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system.

Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it. I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly, MRS. J. A. BRITAIN.

44 W. Ninth St., Columbia, Tenn.

SSS

THE SWIFT SPECIFIC CO., ATLANTA, GA.

NEW MEXICO TOWNS

SOCORRO.

From the Chieftain.

Miss Pearl Barry is the guest of Misses Helen and Ivy Sperling at Belen.

John J. A. Dobbin is busily engaged installing a stamp mill at his mine in Water canyon.

The threshing of wheat has begun in the vicinity of Socorro. The yield is reported much better than that of last year.

J. A. Beal, the popular and efficient representative of the Albuquerque Citizen, was in Socorro calling upon subscribers.

J. J. Leeson tried to lift something and was taken with a severe "crick" in the back. He was confined to the house two or three days but is now recovering.

Reports of temperature in Socorro nowadays range all the way from 95 to 103 degrees above zero, with the preponderance of testimony in favor of the latter figure.

Dr. S. T. Vann, a well known optician of Albuquerque, will come to Socorro any time at the request of two parties. Dr. Vann has a well established reputation in his line of work and any who need glasses fitted would do well to call on him.

SAN MARCIAL.

From the Bee.

Charles Featherston was in town to escort to Rosedale a youthful sister of his wife, who arrived from Texas.

Mrs. M. R. McCrory, Mrs. N. N. Kennedy and Miss May Platt are in the mountains near Rosedale, where they intend to remain until the heated term has passed.

Mrs. C. M. Crossman returned from a visit to her mother in Missouri. Charley came in from the ranch the previous day, and they are to stay in town until after the Fourth.

Miss Virginia Easley, daughter of Superintendent F. J. Easley of the Santa Fe, of Las Vegas, and Miss Eva Duff of Newton, Kansas, who is a guest of Miss Easley, arrived here with the intention of taking an outing in Sawmill canyon.

Again the rumor is current that our railway shops in all their old time glory are to be with us in the near future. This is a cold business proposition with the railway company, and no question of prayers from any source.

SANTA FE.

From New Mexico.

Seligman Bros.' company has filed suit in the district court for Taos county against Newby Bros., sawyers, operating in Taos county, for a merchandise bill of \$296. A. B. Renahan is plaintiff's attorney.

D. J. Rankin of Albuquerque, United States gauger of the internal revenue district of New Mexico and Arizona, is in town on official business connected with his position.

Conductor Richard Barry, who runs the train on the Santa Fe branch between this city and Lamy, is laying off and Conductor H. B. Hubbard of Las Vegas is working in his place.

Land Commissioner A. A. Keen, who has been detained from his duties for some time by illness, arrived from Albuquerque yesterday and was at his office today for a few hours, departing this afternoon for the Duke city, where he will remain until he recuperates sufficiently to attend to his official duties.

Early this morning R. C. Garrett, superintendent of the brick plant at the territorial penitentiary, left with seven teams and a party of eight convicts for the Cash Entry mine, three miles from Cerrillos, to get an engine which has been purchased to replace the one which exploded. Assistant Superintendent Martin learned a few days ago that Captain W. B. Dame, owner of the mine, had there a large Corliss engine which is practically

new and unused, and he opened negotiations with him for its purchase, as nearly two months would be required to get a new engine from the manufacturer.

Flower day was observed yesterday at the penitentiary and a large number of people from the city went to the institution and left bouquets for the convicts. Exercises were held in the chapel in the afternoon at which Judge W. H. Pope delivered an eloquent address to the men. He took as his subject, "Do with your might what your hands find to do," as he was listened to with the closest attention.

HILLSBORO.

From the Advocate.

Miss Nona Murphy returned from Santa Fe.

Balis McKinney will move his family to Albuquerque next week.

Jack Bevis has sold his saloon business in Kingston to Charles Potter.

Messrs. Stutz and Brooks left for Cook's Peak. They will probably return in the course of two weeks.

Congressman Stephens of Texas came in recently. He went to the placers to look after his mining interests there.

Will Barbee was in town this week. He has not yet fully recovered from injuries received by a horse falling with him some time ago.

Deputy Sheriff Putnam and Bud Goins arrived here. Some months ago Bud got himself into trouble, and he was wanted on two charges, viz: Assault with intent to kill and drawing a deadly weapon. Bud furnished the required bond of \$1,500 for his appearance at the next term of the district court.

E. H. Wilson of New York City arrived here this week. Mr. Wilson is secretary and treasurer of the Hillsboro Gold Mining and Milling company, also attorney for Hon. Warner Miller. Mr. Wilson will leave for California on important legal business. He will return in about two weeks.

LAS CRUCES.

From the Progress.

Jesse Brazil of Gold Camp was in town, leaving for the Jarilla country. Luis D. Valdez left for Morenci, Arizona, where he has accepted a good position at the El Obrero printing office.

Jesus Soto, one of the best miners in this section of the country, came down from Lordsburg a few days ago, and is in town shaking hands with his many friends.

Henry D. Bowman and family left for the east. They will visit portions of West Virginia and then go on to Atlantic City and later visit friends in Connecticut. It will be an enjoyable outing of several weeks duration.

Bonham & Holt is the name of a new law firm of this city, created a few days ago by J. F. Bonham and H. B. Holt, two well known attorneys, combining for the practice of their profession in the courts of New Mexico. They are pleasantly located in the rooms formerly occupied by Mr. Holt as his office.

SILVER CITY.

From the Enterprise.

Mr. and Mrs. Charles Denn: were shopping in the city from their Mimbres home.

Con C. Whitehill and Robt. Golding, proprietors of the Club, made a visit to Pierra, where they are interested in mining property.

Mrs. Richard Powers and daughter and Miss Vina Daly of Santa Rosa took in commencement exercises of the academy of Our Lady of Lourdes in this city.

Mrs. R. M. Turner and two interesting sons and Miss Verda Turner left for Pendleton, Oregon, where they will visit relatives and friends the rest of the summer.

Mr. and Mrs. H. H. Betts were passengers for New York and Boston, where they will visit relatives. Mr. Betts will return at the end of the month, while Mrs. Betts will remain in the east until September. This is Mr. Betts' first visit to his old home in the Hub in eighteen years.

Mrs. J. M. Kiner and daughter, Katherine, returned from an outing spent at Sparks ranch on the upper Pecos. Dr. and Mrs. Lane, who accompanied them will remain at the ranch several weeks longer, when they will take a trip through Colorado and Wyoming, visiting the Yellowstone national park and other points of interest in those states.

Mrs. James A. Shipley and Mrs. Oliver Williams pleasantly entertained large number of young people at a musicale. Vocal selections were rendered by Miss Fe Waters, Mrs. Hugh Owen, Mrs. J. A. Shipley and Mrs. F. A. Bush; mandolin by Dr. Copp, selection by Mrs. J. W. Carter and recitation and monologue by Miss Edna Page and W. C. Hackett, respectively. Late in the evening dainty refreshments of fruit ices and cake were served after which a general shaking up of musical notes was taken part in by everybody present.

Geo. McSherry, a well known ranch man on the Mimbres, near Dwyer, was in the city recently. Mr. McSherry says that particular portion of the Mimbres valley is looking fine. There is plenty of water in the river and alfalfa is ready for the second cutting. He also says that while his ranch looked like a total wreck after the flood last August, he has succeeded, by good hard work, in getting it back to its former condition, and that the deposit of silt, left by the flood, has benefited the ground immensely.

Special Correspondence. Algodones, N. M., July 4.—This is the glorious Fourth and the American colony here are celebrating in good style. Early this morning almost the entire party of Americans here went to the mountains and took with them all kinds of good eatables and are having a good time in the cool mountain groves and clear springs east of here. Among those who went were Mr. Tucker's family and others. The Mexican people here are also celebrating, having a good supply of cannon fire crackers and other things suitable for the occasion. Tonight there will be quite a big time, as everybody are making preparations to celebrate in good style. The weather is quite warm, but yet not unpleasantly so. New Mexico weather is never unpleasant as the cool breezes that come up every day makes it always pleasant during the day time and the evenings are always nice and cool.

Abel Perea, deputy assessor of San doval county, was up here today on business connected with his office. There will be a wedding here on the 19th of this month, of which you will be informed in due time. Rev. Aiger of Albuquerque will officiate. The parties are Americans and their names are withheld by request at present. Crops are fine and the first crop of alfalfa very good. The river is now quite low and a further rise is expected this season.

Heavy Property Loss. Irwin, Pa., July 6.—The greatest property damage done by the flood in Brush Creek was in this vicinity, the loss falling most heavily on the Pennsylvania railroad. The estimated loss of property at this place will, it is said, reach \$250,000. Reports come in show that every bridge along Brush creek was washed away. All during the night bodies were floated in the mad swirl of the creek. The first discovery today was the body of an 18-months-old baby that was lodged in the wreckage of the town.

LORDSBURG.

From the Liberal.

Dr. and Mrs. Crocker returned from their eastern trip, and bragged about having a good time. To add to the horror of the water famine the first of the week there was a beer famine in town, and this caused actual suffering, although there were no fatalities connected with it. Colonel Bean and Geo. S. Good have commenced suit against the Lordsburg smelter in the El Paso district court to recover \$1,000 for ore shipped from Lordsburg to the smelter, for which the smelter made no returns. Bernalillo County Grant. Judge N. B. Laughlin of Santa Fe has filed an interpleader for himself in the case of Antonio Gallegos vs. the unknown heirs of Pauline Montoya and others to acquire title and partition of the Ojo de San Jose land grant which is pending in the Second district court for Bernalillo county. Judge Laughlin has an interest in the grant as a fee for service in the confirmation of the grant. The grant is situated in Bernalillo county. Judge Laughlin has also filed an interpleader in the case for Pedro Perea, one of the owners of the grant.

Railroad Topics

An infant child of J. H. Waddell died at his home in El Paso the other day. Mr. Waddell is a passenger conductor on the El Paso-Tucson run. C. E. Owings, of San Marcial, will try railroad for awhile. His application for a job of firing a locomotive has been filed.

K. H. Gillett, station agent for the Santa Fe Pacific at Winslow, and family enjoyed several days here. They returned west last night.

J. B. Farwell, the civil engineer and surveyor of the Albuquerque Eastern and Santa Fe Central, spent the Fourth in this city, returning north to his headquarters at Kennedy this morning.

James Tierney, who has been in the city the past couple of weeks, visiting his parents, Mr. and Mrs. Martin Tierney, left last night for Chicago. He was for three months a machinist in the Santa Fe Pacific shops at San Bernardino.

The stationery engineer of the construction plant of the cut-off at Belen, J. N. Ousinge, was here the past few days. He returned south last night.

Tom Cannon, the university student, has accepted a clerical position at the local shops.

Civil Engineer J. V. Keys and wife of Belen, were Albuquerque visitors over the Fourth.

F. F. Hines, with the Santa Fe here, has gone to the coast on a vacation trip.

Mrs. F. L. Myers, wife of the excellent local Santa Fe railroad agent, after a pleasant visit with Kansas and Colorado relatives and friends, has returned home.

Fred Marshall and wife were here from Las Vegas, visiting the former's mother, Mrs. J. C. Marshall. Fred is private secretary to Superintendent Masley. They returned north last night.

The Arizona & New Mexico carpenter outfit is at work on the round house in Lordsburg, refitting it so that its standard gauge engines can be housed there. The company wants to keep an engine here so that this end of the road will not be tied up in case of a washout.

The other morning the San Xavier hotel caught fire in the kitchen, and was entirely destroyed. The hotel was owned by the Southern Pacific road, and cost \$15,000. The firemen and railroad men had hard work to save the depot and company offices. Manager Lager estimates his loss at \$6,000 with an insurance of \$2,000.—Lordsburg Liberal.

Agent Clapp of the Southern Pacific asks the Lordsburg Liberal to notify numerous parents in that town that they need not be surprised if a son is brought home in pieces. The kids delight in riding cars and the switch engine. The yard men do their best to drive them away, but the kids are better at dodging the men than they seem to be in avoiding the cars. If the parents want to have their boys grow up and keep both arms and legs they should keep the children away from the trains. However, boys will be boys, just the same as they always have been, and the death and maiming of a few of them will not deter the others from catching a ride.

CRAWLED OUT OF WRECK.
Tramp Escaped All Right From a Freight Smash-Up.

The Hutchinson (Kas.) News gives the following report of the Sunday night wreck near Burtron:
"A broken car journal piled up a Santa Fe extra freight near Burtron last night and delayed traffic about twelve hours. No one was hurt in the wreck but a tramp, who was stealing a ride, and his injuries are said not to be serious. Nine cars in all were derailed, four of them damaged slightly and five smashed to smithereens. The wrecker has been busy ever since the derailment clearing the track.

"The accident happened about 9:30 o'clock last night. The train had just left Burtron when the journal snapped and the car went to the trucks. Instantly there was a pile up and the train stopped with a crash. Eight cars piled up on the first that went down and toppled over to either side of the track. As soon as the wreck settled a tramp crawled out from under the pile of freight, broken car beams and wheels, scratched and bruised, but able to navigate. Fortunately neither of the brakemen were near the car which caused the smash-up, and consequently no one but the tramp was injured."

Big Santa Fe Engine Placed in Service
The huge decapod locomotive of the Santa Fe was put into service this morning for the first time since it arrived several days ago. It is a freight locomotive and is the largest and heaviest in the west. The tonnage of the engine is 140,000 pounds, with a capacity of 2,000 tons pulling. The economy wrought by these huge engines is in the heavy loads that can be pulled up the hill from Colorado Springs to Palmer Lake. The decapod will take the place of three trains and thereby do away with two train crews. —Denver Republican.

Radcliffe-Haack Marriage.
On the evening of June 30 in Milwaukee, at the home of the bride's mother, occurred the marriage of Dr. W. D. Radcliffe, of Belen, and Miss Emma Haack.

The news will be a great surprise to a number of the doctor's friends, as before he left for the east a short time ago, he left only a few into the secret. Dr. Radcliffe is one of the most prominent physicians of the Rio Grande valley.

AN IMMIGRATION SCHEME.
Chicago Starts a movement to Aid Deserving Foreigners.

A plan of international scope for the aid of deserving emigrants from every clime was broached at a meeting of Chicago men interested in practical philanthropy held at Kingsley's, says a dispatch from Chicago. The congested and famine-stricken districts of Norway, Sweden, Bohemia and Poland and the people of the southern part of Russia, denied the privilege of earning their livings because of religious belief, are all to benefit by the proposed scheme which, if carried to completion, will result in a wholesale redistribution of the population of Europe and America.

Briefly outlined the plan embraces the consolidation of all the societies which now make it their object to aid emigrants into one central organization, by means of which the vast unsettled areas of the western part of the United States and of Central and South America and Africa will be peopled with hardy farmers drawn from the great centers of population and from the overpopulated districts of the old world.

For the large funds which the working out of the plan will necessitate appeals are to be made to philanthropically inclined millionaires of this country and Europe.

A. C. Covell, of Topeka, Kansas, a valuable attaché of the Kansas Publishing Company's office of that city, is here on a visit to his brother-in-law, John S. Caven. He is off on a vacation and will leave tomorrow night for San Francisco, Calif.

LUMBER MILLS.

Work Progressing on This Big Enterprise Near the City.

IMPORTANT CONTRACTS.

Ira B. Bennett, general manager of the American Lumber company, Saturday entered into a contract with W. A. Lamb, representing Fairbanks, Morse & Co., for the purchase of two mammoth pumps with a capacity of over a million gallons of water each per every twenty-four hours. They are of the most modern invention. The pumps are to be delivered with all possible haste and will be installed as soon as they arrive. Their chief purpose will be in affording the mills an excellent system of fire protection.

The work of sinking wells at the mills has begun. A. D. Johnson has the contract and will put down at least ten six-inch holes and more as occasion demands. Seventy cars loaded with casing are now on the ground. The pumping system to be installed will be adequate to emergencies.

The main building of the new mills is well toward completion. The roof rafters are in place.

HOLBROOK.

From the Argus.

Messrs. Gannon, Kieher and Kempenich spent Sunday at the Petrified Forest and say it is well worth seeing.

Mrs. John L. Fish and family have moved to Pinedale. Mr. Fish will remain in Holbrook in the interests of the A. C. M. I.

Mr. and Mrs. John W. Brown were in Holbrook on Wednesday on their way to El Paso, thence to El Capitan, where they will reside in the future.

C. W. Crosby, a young man 18 years old of Springfield, had the misfortune to accidentally shoot himself with a .44 caliber six shooter. The ball entered his leg, with a downward course and lodged under the knee cap. He was brought to Holbrook, accompanied by his mother and elder brother, taking the train for Los Angeles, where they will have the wound operated upon by the X-ray process.

On Wednesday afternoon J. Y. Lee came in from Woodruff, for surgical aid. It was learned that his little boy Vern, age three and a half years, had been pitifully cut by a mowing machine, making amputation necessary.

The little fellow had been playing about the ranch and had crawled into the thick, tall alfalfa and had evidently fallen asleep, for when Mr. Lee came around on the mower he did not see the boy until it was too late, and the knives had come in contact with his legs, cutting the right leg practically off, and the left leg was cut by the guards. Drs. Brown and Hathaway of Winslow, were immediately summoned and upon investigation found that amputation of the leg, between the knee and ankle, was necessary. The left leg was cut across the calf so that stitching was necessary.

SANTA FE CENTRAL.

What General Manager Hopewell Says.

On the Subject.

Hon. W. S. Hopewell, general manager of the Albuquerque Eastern and Santa Fe Central railroads, was in the city this forenoon a couple of hours while en route to Santa Fe from Hillsboro, where he enjoyed the Fourth with his family. Mr. Hopewell says that with the exception of about six miles, where track is yet to be laid, the entire line of the Santa Fe Central is completed and daily trains will be running over it before the first of August.

Trains are now running between Moriarty and Torrance on a regular schedule.

The steel yet to be laid is about twelve miles out from Kennedy. A track laying machine is working on one side of the gap and a large force of men on the other, so it is only a question of not many days before they will make a connection. By August 1 the people along the line of the Santa Fe Central, the eastern vrbgkj bkgk Fe Central, the Estancia plains and the Manzano mountain country will enjoy daily mails. The matter has been taken up with the postoffice department at Washington and a map submitted. The department has asked for additional information and a map of the entire country through which the new road passes is now being made.

The Santa Fe Central will give daily mails to several thousand people who have heretofore received only tri-weekly mail and Star route service.

The Railroad Y. M. C. A. coffee rooms at the Santa Fe shops at Topeka have proved a great success. The rooms are located on the second floor of the new machine shop building and in the most convenient place obtainable for the employees of the shops. In the month of June 1,835 cups of coffee were served.

LAYING TRACK.

Thirty Men and Fifteen Teams Working in the Santa Fe Central Yards.

A detachment of the grading forces of the Santa Fe Central railway at Kennedy arrived in Santa Fe yesterday morning and commenced work on the grade within the city limits and in the yards. There are about thirty men in the camp with fifteen teams. This force has been engaged at Kennedy for several months doing the work on the grading of the over-head crossing at Gallisteo switch, about one and one-half miles from Kennedy and where the tracks of the Atchison, Topeka & Santa Fe railway are crossed. It was a tremendous undertaking and it is said to be one of the finest pieces of railroad engineering in the southwest. The over-head bridge is nearing completion and will be ready for the crossing of the track laying machine as soon as the gap between Moriarty and Clark stations is completed, which, it is believed, will be about the middle of next week.

The track laying forces of the Santa Fe Central railway between Kennedy and Moriarty station was about fifteen miles apart yesterday morning. About ten miles of track have been constructed north of Moriarty and about nine miles from Kennedy south. There being plenty of steel rails on hand, it is expected that work during the present week will be pushed energetically and that by Monday of next week the gap between the two constructing gangs will be about two miles. As soon as a junction is effected, the track laying machine will be sent to Santa Fe and work from that end will commence in earnest.

You Know What You Are Taking

When you take Grove's Tasteless Chili Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

WILLIAMS-NEWMAN.

Engineer Hugh Williams and Mrs. T. Newman Wed at San Marcial.

Last Saturday evening at San Marcial Hugh Williams and Mrs. T. Newman were joined in matrimonial bonds. The groom is one of the most popular engineers on the Rio Grande division. The bride is quite well known in Albuquerque and San Marcial.

They will reside at San Marcial.

The power of the Rio Grande division has been increased by an addition of engines 359 and 380, transferred from the New Mexico division.

THE CELEBRATION.

It Was a Great Success and the Union Will Not a Good Sum.

BRIEF PARAGRAPHS.

The Central Labor union's great Fourth of July celebration is over and is a thing of the past. It was a very successful affair and was managed in first class manner. What more can be said? The union people are to be congratulated for giving such an entertainment for the people in this territory.

Brief paragraphs follow that tell the two days' story in a nutshell.

Who says the Central Labor union can't celebrate with success?

Judge Benjamin S. Baker of this city opened the afternoon exercises by a brief and patriotic speech. It was a good one and received merited applause.

The seventy-five yard foot race was won by Charles F. Rhodes, the base ball pitcher, with Grover Strong second and Lee Mitchell third. The time was nine seconds. Rhodes will now wear a fine silk shirt from M. Mandell's and Grover Strong will attach a nice gold watch charm to his chain, donated by T. Y. Maynard.

The ladder climbing prizes went to James Cosgrove and Charlie Quier. Time, 5.6 seconds and 6.8 seconds. "Spot" Moore did it in less than a minute. Mr. Washburn will now let Mr. Cosgrove have a soft or stiff hat to wear, and Charlie Quier can now have a punching bag from Brockmeier & Cox. This is just the prize that our friend Charlie wanted for it will keep him in trim for the base ball games.

The 220-yards hurdle race went to Connor of the University of New Mexico. Time 31 seconds. Strong was second and Hughes third. S. Van & Son donated a medal for the winner, and A. Everitt a gold fob for the second man.

The boys' burro race was interesting and amusing. The youngster who won will receive a Waterman fountain pen from Olburn; the second best will be rewarded by J. W. Mallette with a fine water pitcher which he can give to his parents.

City Marshal McMillin and his assistants did not have to arrest a person for drunkenness or disorderly conduct during the entire two days. Here is surely a record and a feather in the cap of the Central Labor union.

It was a success from beginning to end.

Did you ever see so big a crowd that behaved itself so well?

Persons who know say that it was the best advertised event that ever took place in the southwest. Chairman Henning and his assistants on the advertising committee are to be congratulated upon the result.

Judge Baker said the program book was the best one he'd ever seen gotten up for an occasion like this.

The Italian band was there both days with the music, and so was the First Regiment band. There was plenty of music and this helped to make the occasion enjoyable.

Billy Berry was in evidence both days. Billy is indispensable to affairs like this, and general Billy's work should be appreciated.

The Old Town Tigers are happy for they won the \$35 in money offered by the union. Saturday morning they dusted the Reds in a five inning game to the tune of 16 to 1. In the afternoon they found no trouble in beating the Browns by a score of 7 to 5. Sunday morning the Browns had revenge on the Reds and in a five inning game beat them 32 to 1. In the afternoon the Tigers beat the Browns again by 10 to 7. The Tigers are the stuff and are to be congratulated on the outcome.

Miss Blanche Dunbar, the cowgirl from Arizona, rode each day and it is certain she knows horsemanship from A to Z.

Hughes of the Agricultural and Mechanic Arts college won the pole vault. His mark was eight feet and six inches. Strong was second with seven feet four inches. The Golden Rule Dry Goods company will furnish Mr. Hughes with a nice sweater and Mr. Strong will have a handsome hat from Simon Stern.

The decorations were good, the best that have ever honored the fair ground buildings.

The fireworks, both day and night, were the best ever seen in this section.

There were delegations from Santa Fe, El Paso, Silver City, Las Vegas and many other places present, and all had words of praise for the celebration.

"Spot" Moore was there. He was a whole show in himself and furnished fun galore. "Spot" should be with the biggest show on earth.

The barbers' burro, knowing it had no chance to win, sneaked before the union race came off. This made some of our barber friends say words that wouldn't look good in print, but the burro did the right thing and saved them much humiliation.

The battle of San Juan Hill Saturday evening was all right. The affair was in charge of Col. John Barradale, N. M. N. G. Major J. E. Elder and Captain O'Donnell were his assistants. From the start of the firing of the muskets to the blowing up of the blockhouse the excitement was great and all of those who wanted noise got it.

Ben Gooch on a white horse Sunday afternoon beat Monahan on Tarr's black in a one-eighth mile dash.

E. R. Hotelling set off the day fireworks.

The free-for-all horse race for \$10 was won by James Monahan. Miss Dunbar came in third.

The ring tournament was very interesting. This is an old southern sport and is to decide who shall be crowned queen of the carnival, the winner bestowing the prize on the lady of his choice. Yesterday three rings were suspended on a course of a hundred yards. The contestant was armed with a sharp wooden lance and while he spurs his horse to top speed along the course he attempts to capture the rings. Those who took part in this exciting sport were King, Horton, Gooch, Holtz, McClellan, Wardell and Frank Quier. King won by getting seven rings in three turns and whole time of 18.45 seconds. He gets the medal offered by H. E. Fox, Holtz and Horton got six rings each in the same time. Quier and Wardell made the time in five and a half seconds.

The hundred yard horse dash between Holtz and King was won by Holtz.

George K. Neher's black carriage horse took fright yesterday afternoon and ran down the track. An Indian roped him in a clever manner and he not only received much applause from the grand stand, but had some of Uncle Sam's dinero put into his pocket.

Some of the events did not come off owing to the lack of time.

As predicted in The Citizen, Colonel H. Longfellow Dunning won the union burro race. The colonel and the alfalfa fed burro with royal blood in his veins was escorted to the grand stand by the Italian band. The colonel's make up was all right. Rabbi Myers was there, too, but his burro was too strong for him and bucked him off twice so he came in third. Frank Quier, the electrical expert, came in second. This race furnished more enjoyment and fun than the rest put together. The barbers' burro did not show up as related in another paragraph. The typographical union will get the prize. The colonel will have one dozen photographs offered by Butman.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature.

COWBOY TOURNAMENT.

It Promises to Be the Best Ever Held in the Southwest.

The cowboy tournament that will be held here in the fall at the territorial fair will be the best that has ever taken place in the southwest.

The prizes that will be given follow:

Bronco Busting.

First prize.....\$500

Second prize.....250

Third prize.....100

Fourth prize.....50

Roping Contest.

First prize.....\$500

Second prize.....250

Third prize.....100

Fourth prize.....50

Outlaw Horse.

First prize.....\$100

Second prize.....75

Third prize.....50

Fourth prize.....25

The program for the week of racing follows:

First Day.

Free for all pace.....\$400

The 2:20 trot.....300

Half mile dash.....100

Second Day.

The 2:17 pace.....\$1,000

(Bull Durham Stake Race, the prize arranged by Bull Durham Tobacco company.)

Five-eighths mile dash.....100

Seven-eighths mile dash.....150

Third Day.

Free for all trot.....\$400

One mile dash.....150

Five-eighths mile dash.....150

Fourth Day.

The 2:40 trot.....\$300

Three-quarters mile dash.....150

Five-eighths mile dash.....100

Fifth Day.

The 2:13 pace, Edgewood Stake Race.....\$1,000

(The purse arranged for by the Edgewood Distilling company of Cincinnati.)

One mile dash.....150

Five-eighths mile dash.....100

The Santa Fe Railroad company has acquired two more tracts of land to be used for freight yards and shops at its bay terminal at Emeryville. The transfer marks another step in the long fight made by the Santa Fe to obtain a terminal and freight yards on the bay shore and in Oakland.

ARIZONA TOWNS.

WILLIAMS.

From the News.

W. L. Harris, formerly of Williams, is now manager of the Albuquerque Browns.

Miss Leona Lindstrom came in Saturday evening from Los Angeles, where she has been attending school.

Freddie Baum, who has been attending school in Los Angeles, arrived home last Friday for his summer vacation.

J. P. De Rosier is again on duty as operator for the Postal at this point.

Glenn Hancock has returned to Riverside, Cal.

Mrs. Hill and daughter, Maude, of Albuquerque, arrived last Sunday for a visit with Mrs. Joseph Johnson and Mrs. James Kennedy.

Miss Alice McIntyre, who last week graduated from the Northern Arizona normal, has gone to Winslow to spend her vacation. She will return to Williams in time to take up her work in the school here.

Mr. Esau Lamb has taken a number of pontes to Ash Fork, at which point he will conduct a livery business, thus filling a long-felt want.

Brakeman James Riley was killed at the clinder pit last Thursday by falling under a moving train and was horribly mutilated. The body was shipped to Texas for burial.

KINGMAN.

From the Miner.

Cedar country must be looking good, as two saloon outfits have gone in there this week.

Thursday was the warmest day of the season, the thermometer ranging as high as 104 in the shade.

The Franconia Mining company is about to straighten out its complicated affairs and expects to do considerable work on the property in the Chemehuevi mountains just as soon as the weather moderates.

George M. Bowers has opened up a two foot vein of solid ore in the Pan Yan mine, Layne Springs, that gives an average value of \$40 to the ton in gold. The mine is situated contiguous to the Nighthawk and parallels that great vein.

The Pacific Reduction company is preparing to do a large amount of development work on its property in the Weaver mining district. The company is the owner of the Great West mine, one of the best free milling gold properties in that section.

A small mill has been installed on the property, but its capacity is not sufficient to handle the output of the mine.

Work on the Telegraph and other mines in the Burro group is progressing nicely and great ore bodies exposed. The mines are so situated that it is possible to obtain power by damming the Burro creek and installing turbines.

The Gold Road people are advertising for forty miners and twenty laborers. The mill capacity is so great that it is found necessary to put more men in the mine to keep a supply of ore broken down and the force is to be increased to ninety miners.

Thompson & Gilliam have forty men at work in and around the Cedar Valley mines, which they are operating under contract with the old Cedar Valley company. The new hoist is being put in place and will be at work in a few days. Repairs to the mill and machinery are about completed and within a week will be in full operation.

FLAGSTAFF.

From the Sun.

C. F. Philbrook and wife are here from Rochelle, Ill. Mr. Philbrook is a school teacher, and is here for his health.

John H. Hicks of Santa Rosa, N. M., is visiting his old friends here. Mr. Hicks is now one of the successful cattlemen of northern New Mexico.

Rev. Norman Skinner, pastor of the First Presbyterian church of Las Vegas, will spend Sunday in Flagstaff, the guest of Mr. and Mrs. J. C. Milligan.

F. E. Olmstead of the forestry bureau, Washington, D. C., was here Monday, and left for Prescott and will go to examine the proposed Verde forest reserve.

Electric lights of the business part of town is the next improvement in order. The council now favors such a move, and before the winter comes we will boast of the modern light.

Passenger car No. 2857 was on fire Monday morning, when No. 8 arrived in Flagstaff. The trainmen tore out the woodwork at the rear end of the car and extinguished the fire, delaying the train but a few minutes.

Travel is beginning to pick up, notwithstanding the washouts and cloud-bursts east of this place. The tourists are beginning to arrive, as the hotel registers show, and, consequently the hotel keepers are happy.

George Payne, a Santa Fe engineer, was instantly killed by being run over by his engine at Franconia last Saturday. He was under his engine oiling it, when the ponderous machine started, grinding him beneath the wheels. A leak in the throttle was the cause of the accident.

The town council Thursday adopted the report of its special committee favoring the deed of 75 acres of town land to Percival Lowell for use in connection with his observatory. The consideration was \$262.50. It is understood that Mr. Lowell intends to fence in the land for a private park.

WINSLOW.

From the Mail.

George Reed, son of Mr. and Mrs. C. C. Reed, has returned from Los Angeles, where he has been attending college.

Thursday night two or three cars unavoidably got tangled up with the switch engine and were twisted some. The cab of the engine was damaged. No one was injured.

Bob Fenton has completed the new sidewalk from Krentz & Wolf's corner down to Rabbitt Bros.' new store. It is a fine piece of work and an ornament to the town.

Miss Ethel, Chester and Arthur Foe were in from Albuquerque this week. They are the guests of Mrs. Donahue and are renewing acquaintanceship with their many friends.

A big force of Mexicans are engaged in laying the new and heavier rails that the Santa Fe is now putting in along its line. Part of the gang is now working between Williams and this place and are now at Sunshine. Engine 776, with Engineer Condon and Fireman Lancaster, is on the work train between here and Sunshine.

G. W. Dearing of Los Angeles has accepted the position of night operator at the Holbrook depot. He takes the place of G. N. Hathaway, the latter taking the day position formerly held by R. D. Wiley.

Mrs. Francisco Martinez, who was the victim of a murderous assault by her husband last week, in which she received a bullet through her back, is said to be recovering.

Hon. J. X. Woods and family, John Embury and wife, Mrs. J. Krentz, Mrs. W. H. Burbage, Miss Leila Buchanan and Miss Nellie Rand composed a merry party on recreation bent which left Tuesday for Hay Lake. They will remain away for a month enjoying the balmy mountain breezes.

WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., July 7.—The past week has been quite favorable for crop growth, although the unusually warm days and absence of showers are beginning to be felt. In some localities the grass is drying up badly, but as a rule the ranges are still in excellent condition. Cattle have made rapid improvement in the past three weeks and are in very good condition for the season. Sheep shearing is well under way in the more northern counties; reports indicate that the clip will be unusually good. The first cut of alfalfa is generally quite good. Wheat, corn and oats have made rapid progress. Wheat harvest is still going on in the most southern valleys. Apples early in season and some early varieties of apples are ripe in southern counties. The early peach season is about over in the Mesilla valley. There seems to be no lack of water for irrigation purposes.

The following remarks are extracted from the reports of correspondents: Andrews.—A. S. Warren: From 20 to 110 in the shade; windings and water holes getting low and grass drying up; rain badly needed.

Albert.—H. M. Hanson: Very warm weather. Grass growing finely but if it continues hot, as usual in July, frequent showers will be needed. Some planting was done as late as the last of June. A good second cutting of alfalfa will be ready in about a week. All stock is in first-class condition; shearing in full progress. Highest temperature, 100; lowest, 57; no rain.

Arabela.—A. M. Richardson: A good growing week and grass and crops made rapid progress, but more rain is now needed. Highest temperature, 92; lowest, 55; no rain.

Folsom.—Jackson Tabor: Dry and hot through the day but cool at nights. Minimum of the 4th down to 36, the lowest by 2 degrees in a record of 24 years. First alfalfa is much better than expected, although the crop is late. Range in fine condition. Highest temperature, 87; lowest, 36; no rain.

Fort Stanton.—Ernest W. Halstead: Ideal weather for making hay and farmers have taken advantage of it to the utmost. Crops looking well but water getting short. Range is good and cattle improving. Highest temperature, 92; lowest, 50; no rain.

Glencoe.—A. E. Coe and Wilbur E. Coe: Warm weather; fine for hay, which is mostly secured. Crops growing well.

Golden.—R. M. Carley: Very hot and the prairie grass is suffering some for rain. All crops growing nicely.

Hobart.—W. H. Hough: Wheat and corn growing well. First alfalfa secured; crop very good excepting along the river some lost their entire crop from the floods. Peaches and other fruits look well.

Laguna.—Gus Weiss: Scorching days with cool nights. Wheat and corn growing rapidly. Grass in abundance and stock in good condition.

Las Vegas.—Dr. W. C. Bally: Highest temperature, 95; lowest, 49; no rain.

Los Alamos.—Wm. Frank: Good growing weather. First cut of alfalfa was scant, but the second growth good. Shearing has begun in earnest; wool in good condition. Cattle improving some, but slowly. Quite a good supply of water in the river.

Lower Pecos.—H. W. Creswell, Jr.: Very warm with several local showers. Grass is fine throughout the range, and cattle are showing rapid improvement. Corn, cane and all garden truck are growing fast. Heavy hail at Elk on June 25, doing much damage.

Mesilla Park.—R. H. Hart: Another hot week. Second cut of alfalfa being secured; a good yield. Wheat harvest progressing. Some early apples are ripe; the early peach season is about over. Highest temperature, 103; lowest, 52; no rain.

Mimbres.—Chas. Dennis: Hot and dry, no rain since June 19. Crops looking well, but grass is drying up. Second alfalfa growing rapidly. Apples and some early peaches ripe; apples will be short of the average. Plenty of water in the Mimbres for irrigation. Highest temperature, 100; lowest, 56. Ojo Caliente.—A. Joseph: Hot and dry during the past week, but there is an abundance of water in the streams for irrigation. Grass on the ranges is excellent and stock in best condition. Crops look most promising.

Santa Fe.—United States Weather Bureau: Hot and dry but the prairies still look green, and crops are growing rapidly. Oats are headed out. A fine crop of first alfalfa is ready to cut. Abundance of irrigation water. Highest temperature, 88; lowest, 46; rain, trace.

Watrous.—M. C. Needham: First cutting of alfalfa in state; yield about 40 per cent. Range still in good condition, but rain is needed. Light frost night of the 3d. Highest temperature, 94; lowest, 33; no rain.

R. M. HARDINGE, Section Director.

CELEBRATION AT EASTVIEW.

An Interesting Program of Field Sports and Track Events Makes Up a Lively Day.

The bustling little town of Eastview has been all agog with Fourth of July enthusiasm for some time, and when the eventful day arrived this sentiment found expression and culminated in a celebration the magnitude of which surpassed anything of a like nature ever before attempted in this section.

People began pouring in from the neighboring towns and ranches at an early hour, and formed for a parade in front of B. B. Spencer's general store. At exactly 10 o'clock the pageant moved towards the grove; the music struck up and the day's enjoyment began.

Arriving at the grove a picnic dinner

of all the season's delicacies was spread, of which about 500 persons partook.

Then speeches, declamations and music were had, after which began the field and track events.

The huge floats were elaborately decorated and enough gay colors were in evidence to run the chromatic scale. The only disappointment that crept in to mar the day was the inability of Colonel Manning to deliver an oration. Colonel Manning is suffering from an attack of asthma at his home in Montanah.

Going East.

Miss Honora De Busk, who is a teacher in the Mexican schools in New Mexico under the direction of the Congressional board of education, is now at her home in Hohen, Colo. Miss De Busk will leave today for the New England states, where she will spend the summer and perhaps longer lecturing and in other ways in the interest of the Mexican work.

The Mine Promoters.

A mining exchange truthfully remarks that the promoter is frequently a much maligned man and many are so inconsiderate, or so superficial, as to condemn "a promoter because of the sins of some. Yet, the promoter is the John Baptist of industrial development. Every cause needs a voice crying in the wilderness and his is the voice that sounds the propaganda of material progress. He rallies the dormant or scattered forces of capital and puts them on the track of well defined creative endeavor, and when honest and decent—and he is as much these things, on the average, as men in other lines—he deserves the appreciation and encouragement of all.

SKELETON WAS FOUND.

Jacobo Luna Was Murdered Near Stein's Pass Last December.

The skeleton remains of Jacobo Luna were found Friday, a mile and a half northeast of Stein's Pass, and a half mile north of the Southern Pacific railroad. Near the skeleton lay an iron fish plate which had no doubt been used to crush in the back of the skull when the man was killed. He had been dead since last December, for at that time he left Lordsburg to go to California. His uncle, Sabino Rodriguez, who is in Sonora, and who lives in Lordsburg, wrote to him in California, but has never received any reply. Two letters were found in the victim's clothes, one from a man at Metcalf, Ariz., named Solais, and the other from his uncle, Rodriguez, addressed to Jacobo Luna, Central, N. M. The body had been covered slightly with bushes, but coyotes had dragged it 20 feet. The clothing was very torn but the coats were whole. The remains were buried at the grave yard just south of Stein's Pass. An inquest was held by Justice of the Peace Abbott, at which the jury found that he had been killed by unknown persons by being struck on the back of the head by a fish plate and that it was done six months ago.

Luna was a young man not over 30 years old. He sold his horse just before starting to California, and is not believed to have had more than \$20 with him. He was either driven or enticed half a mile from the railroad and there murdered and robbed.

Etiquette in Mexico.

Ladies do not attend funerals.

Children kiss the hands of their parents.

The hostess is served first at a Mexican table.

The bridegroom purchases the bride's trousseau.

Female friends kiss on both cheeks when greeting or taking leave.

Gentlemen speak first when passing lady acquaintances on the street.

The sofa is the seat of honor and the guest waits to be invited to occupy it.

Men and women in the same social circle call each other by their first names.

When a Mexican speaks to you of his home he refers to it as "your house."

When you move into a new locality it is your duty to make the first neighborhood calls.

When friends pass each other on the street without stopping they say adios (good by).

Cards are sent to friends upon the anniversary of their saint's day and upon New Year's day.

Even the younger children of the family are dressed in mourning upon the death of a relative.

Young ladies never receive calls from young men and are not escorted to entertainments by them.

Daily injury is made for a sick friend and cards are left or the name written in a book with the porter.

Dinner calls are not customary, but upon rising from the table the guest thanks the host for the entertainment.

Mexican gentlemen remove their hats as scrupulously upon entering a business office as in a private residence.

After a dance the gentleman returns his partner to her seat beside her parents or chaperon and at once leaves her side.

Best Ever Held.

The Territorial Fair association is entitled to much credit for the work it has done in the past in behalf of the territory and it now appears that this year's exhibition will outshine any previous one. Secretary P. F. McCanna is hard at work making arrangements and every person who has the

good of the territory at heart, should help.—Deming Graphic.

Highly Pleased with Sacramento Country.

Frank Buchanan, of Montana, Mrs. S. H. Buchanan, of this city, and Mrs. Heim, of San Francisco, returned Sunday morning from a short visit to Mr. Buchanan's summer home at Wooten station on the Alamogordo & Sacramento Mountain railway. In speaking of his trip to the Sacramento mountains, Mr. Buchanan said:

"I have often heard my late brother, S. H. Buchanan, talk of the Sacramento mountains and the Alamogordo & Sacramento Mountain railway, but I had no idea that they are as grand as they really are until I visited them and I can yet hardly realize that there is such a delightful place in this vicinity as the Sacramento. I only wish I could have stayed longer in that section."—El Paso Herald.

LAGUNA NOTES.

Items of Interest Concerning Indian Town in Valencia County.

The Bibo Mercantile company has done a good business in wool this spring. So far this firm has shipped over 500,000 pounds of spring wool and about 75,000 pounds yet await shipment.

Miss Grace Plicher and her mother have gone to Lawrence, Kas., for a two months' visit.

Laguna has had plenty of rain so far and wheat and corn is growing nicely.

We are glad to note Miss Belle Marmon's arrival home for the summer. She is studying to be a nurse in a hospital at Pueblo, Colo.

Judge Abbott of Santa Fe has been here consulting the governor in regard to the murder of the rich Indian some time ago by the Navajos. Steps will soon be taken to arrest the guilty natives.

Mr. and Mrs. Charles Neustadt, son in law and daughter of Mr. Simon Bibo, left last week for California, where they will attend the wedding of Miss Meta Black of San Francisco to Seligfried Seligman of Bernallillo, N. M.

Mr. Solomon Bibo, an old time former resident of Cuba, N. M., but now living in San Francisco, is out here on a three weeks' visit.

Will Cover Ruins.

The old Casa Grande ruins, fifteen miles north of Casa Grande, Arizona, which are the oldest known ruins in the United States, are to be covered and protected by the government, which has contracted with W. J. Corbett to build a shed over the remaining walls. These ruins are supposed to be at least 700 years old. A watchman is kept on the grounds all the time.

JOHNSON-O'BRIEN.

Married at the Delaney Home Last Night—A Pretty Affair.

Last evening at the residence of Mr. and Mrs. L. T. Delaney, 591 North Kellogg avenue, surrounded by a small gathering of friends, Miss Nellie Loretta O'Brien gave her hand to Charles McKay Johnson of Dallas, Tex., in wedding bond. It was a very quiet affair, but because of its quiet nature, was pretty and home like.

Father Durante of the San Felipe church in Old Albuquerque, who is officiating at the Immaculate Conception church during Father Mandalar's absence in Colorado, performed the ceremony. It was the usual ring service and the words were said as the bride and groom stood up, supported by C. E. Berg and Miss Anna Dirkin, amid a shower of sweet peas. After the ceremony, those present partook of a wedding dinner of many delicacies.

The groom is traveling representative for the Southern Cotton Oil company, with office at Dallas, Tex. The bride, although a resident of Albuquerque less than a year, has a large circle of friends here, and is a young lady of sterling quality.

Mr. and Mrs. Johnson left this morning for Colorado, from which place they will go to Dallas, where they will be at home after July 15.

This is the pretty sequence of a school day love affair lasting over a period of thirteen years. Both were formerly from Sedalia, Mo.

Worthy of Consideration.

A minority report is sometimes worthy of consideration. For instance, the report of E. V. Chaves in the insane asylum case, Mr. Chaves appears to have examined conditions carefully and to have considered the character of witnesses, as to their amount of credit to be given the testimony, and then to have given a report in accordance with what he believed to be the facts in the case, without fear or favor.—Deming Graphic.

BERNARD GUNSEL INJURED.

Fell From Light Company's Pole and Broke His Wrist.

Lineman Gunsell, an employee of the Light and Power company, while cutting out wires on a pole at the corner of Fruit avenue and Fifth street, yesterday afternoon, fell about ten feet. In falling he threw out his right hand and his wrist was broken at the joint by the fall. Mr. Gunsell will be "off duty" for some little time. He is a brother of Manager Gunsell of the company.

SANTA FE CENTRAL.

The Yards in Santa Fe Are Being Got Into Shape—Big Force at Work.

A force of twenty men with fourteen teams is busy on the site of the yards of the Santa Fe Central railway in the Ancient city, and the site of the proposed union depot of that road and the Denver & Rio Grande. Excavations for the turn table and railroad scales are being made and a water crane has been placed in position. The grading work on the site of the depot was done some time ago, but on the occasion of the visit of the Denver & Rio Grande officials a few weeks ago, some changes were suggested by them which are now being made. The Santa Fe Central's yards will be quite extensive.

Citizen "want ads" bring results.

RAILROAD NOTES.

A. L. Albers has been appointed assistant civil engineer of bridges and building on the Santa Fe system with headquarters in Chicago.

The Rock Island route is gradually getting its track through eastern Kansas in good shape and is able to make very good time between Chicago and El Paso.

A man in Maryland sued a railroad company for killing his cow and the justice of the peace awarded him damages on the ground that "the railroad had no sign up at the crossing."

An unaccountable delay in the shipment of material is what is preventing the construction of a new Southern Pacific bridge over the Rio Grande west of El Paso. Plans had been made to begin construction July 1.

B. Lantry's Sons have signed a contract to ballast the Atchison, Topeka & Santa Fe road bed between Topeka, Kas., and Marceline, Mo. The Lantry brothers have purchased a tract of land near Independence, Mo., where they will open a quarry and establish a rock crusher.

C. P. Smith, formerly in the employ of the Santa Fe as brakeman out of Albuquerque, has been released from the hospital and has returned to Winslow. He has not recovered the use of his right arm, but is fast improving much to his own as well as to the satisfaction of his many friends.—Winslow Mail.

THEY WERE DISTANCED.

Gave a Job to a Man Who Has Landed High Up.

G. P. Byers, now division freight agent of the Rock Island, while in a reminiscent mood recently remarked that years ago when he was Union Pacific agent at Abilene, W. S. Barr, now Union Pacific agent at Salina, was then his clerk. One day Mr. Barr told me he had a friend in Canada whom he would like to get a position with the company, and Barr wrote to his friend, John A. Stewart, the recently appointed general agent of the Rock Island, to come on to Abilene and to work. Stewart came to Kansas, worked for the Union Pacific at Abilene, and when Mr. Barr was appointed agent at Salina, he came here as Mr. Barr's clerk. He later became connected with the Rock Island and was appointed a ticket seller on Union avenue, Kansas City, from which he arose to his present position. Mr. Byers says that Stewart only had Barr and himself bested in appearance.—Topeka State Journal.

Work Abandoned.

The Santa Fe has abandoned for the present the improvement in the road bed on the Winslow division. A new bridge at the west end of the switch at Flagstaff will be put in. The new bridge will be 72 feet long, with stone abutments and steel girders and will allow the occasional high waters of River de Flag more room to escape. A new bridge will also be built across Switzer canyon. The work has been deferred on account of heavy expenditures required in the flooded districts in Kansas and Missouri.—Prescott Herald.

KAW RIVER FLOOD GOODS.

Being Cleaned and Assorted—Chicago Salvage Firm Will Take Everything Offered.

The railroad section of Florence, Kas., looks like a bunch of junk shops. The Santa Fe road is handling all of its freight caught in the Kaw river flood at this place. Something over 440 cars of merchandise of different kinds in transit over the Santa Fe were caught in the high water and most of the stuff was absolutely ruined. A small portion of it was not hurt much. The company is now trying to save what it can. The 440 cars were hauled to Florence and side tracked. For the past three weeks a big force of men have been at work cleaning the stuff, checking it up and rebuilding what is worth shipping. It is a big task. A freight caboose has been transformed into an accounting office where a corps of freight and auditing clerks are at work. Several flat cars are used as a platform.

The work is being done systematically. All of the cars were first opened up and the contents taken out and stacked in piles in the fields along the right of way. Several gangs were then put to work cleaning the stuff. Another gang cleaned the cars. The flood left a lot of mud in each car and the freight was in most the same shape that the furniture in some of the houses in the flooded district was in.

To add to the trouble the waybills of perhaps one-fourth of the freight were destroyed at Kansas City. The shipping tags on a lot of the stuff were either washed away or blurred by the muddy water so they cannot be read. It is like trying the work a Chinese puzzle to figure out where the goods were originally consigned.

A Chicago salvage firm has contracted to take everything the company cannot reship. As fast as the goods are cleaned they are reshipped, if it can be found where they should go. If this cannot be ascertained then they are turned over to the salvage company and shipped to Chicago. The salvage company is getting most of the stuff.

All stuff that is worth more than the freight charges is reshipped. If the consignee refuses to accept it the consignee will sell it as unclaimed freight to pay the freight charges. Then it will settle with the consignee or consignee, as the case may be, later on.

The railroads have agreed to make good the loss on all freight damaged or lost in the flood where the loss or damage is due to their own negligence in handling. But they will resist all claims for damages where they were using due diligence in carrying the freight. This will keep the claim department busy for several months and many suits will no doubt grow out of the matter.

All kinds of merchandise were caught en route by the floods. The 440 cars of Santa Fe stuff alone would supply a good sized town with about everything needed. Everything found in the catalogue of the different kinds of factories and wholesale houses has

been taken from the cars. One car contained a shipment of imported hats for women. The whole bunch isn't worth 10 cents now. Another contained several cases of fine silk goods. These are badly damaged. Cacao after case of prints, calico and the common class of dry goods have been taken out. Rusty hardware by the ton has been removed and cleaned and repolished. Farm machinery by the car load has been cleaned up and sent on. Canned goods by the hundreds of cases with the paper wrappers washed off have been turned over to the salvage concern. About the only thing that wasn't damaged to some extent was a shipment of celluloid collars. The railroad company has established a laundry on the ground and much of the stuff is being washed and ironed. The fields along the track are used for sorting and drying rooms. The company is doing everything possible to save and check out the stuff. It will take at least two weeks more to complete the work.

New Institutions for Deming.

While the population of Deming has been steadily increasing for the past year and new buildings have been erected by the dozen, yet aside from rooming houses and hotels, there have been a few business establishments opened up, but now there is evidence that this will change in the near future. It is stated by those who know that there is little doubt as to the establishment of another bank here, parties having been here investigating during the past two or three weeks and expressed themselves as being well pleased with the outlook.

We have also learned from good authority that negotiations are being made with an experienced laundry manager to build a large steam laundry here. This is something which is much needed, and would be a good paying business as soon as the quality of the work was proved. Several other projects are talked of, among them a small foundry and machine shop, in this connection a prominent mining man said to the writer, "I believe a small foundry and machine shop would be a good investment here, as the surrounding mines would furnish a large amount of repair work, and the delay in waiting to send to Albuquerque or El Paso for small repairs is often many times the cost of the work."

There are also openings in other lines which will doubtless be taken up during the coming fall, and we may confidently expect a large increase of business institutions in the town before another spring.—Deming Graphic.

AGAIN POSTPONED.

Associate Counsel for Moody Was Unable to be in Court.

The Moody Merrill trial in Boston, which was set for last Thursday, was again postponed a day on account of sickness of the associate counsel for the defense. The Boston Journal of Friday says:

"Owing to the illness of B. L. M. Tower, associate counsel with Lawyer Pillsbury for the defendant, the trial of Moody Merrill was yesterday postponed by Judge Bishop, in the superior Criminal Court until this morning."

"Immediately after court convened at 9:30, Attorney Pillsbury arose and stated to the judge that he had received a telephone message from Mr. Tower's brother, who is his attending physician, conveying the information that the attorney was sick in bed at his home suffering from the same stomach trouble which a few weeks ago necessitated his retirement from a case he was trying in the United States court. Mr. Pillsbury, while making no formal motion, said that he wished to have the trial continued until some later date. He thought it would be several days before Mr. Tower would be able to take part."

"Assistant District Attorney Sughrue said there was nothing much for him to say except that the government was fully prepared to go on with the case and wished to do so."

"Do you think, Mr. Pillsbury?" asked Judge Bishop "that Mr. Tower will be able to be here tomorrow morning if I continue the case until then?"

"I do not know about that," replied Attorney Pillsbury. "But I believe there is no doubt that he can be in court next week." Judge Bishop reminded the defendant's lawyer at this point that this was the last week of the term.

"After a few moments the judge retired, saying that he would see if some satisfactory arrangement could not be made. He returned in fifteen minutes and at the conclusion of a short conference at the bench with both attorneys, he announced that the trial was adjourned until today; 'but,' he concluded, 'with the distinct understanding that the case will go on at that time, whether Mr. Tower is here or not.'"

WINSLOW.

From the Mail.

Mrs. N. S. Sloan and sister, Miss Lewis, Mrs. R. C. Creswell, Mrs. Hill and others whose names we were unable to learn, were a party of pleasure seekers that went out to the trading post of Mr. and Mrs. G. W. McAdams. They had a time immense, and speak highly of the hospitable manner in which Mr. and Mrs. McAdams treated them.

Loren Cooley, father of W. H. Cooley, surprised him by a visit this week.

It has been a number of years since Mr. Cooley met his father, whose home is in St. Paul, Minn. He remains here a short time with his son and family.

Robert Werrell and B. H. Enright took a trip out to the ranch of the Steffen goat company. Mr. Werrell has accepted a position at the Hotel Navajo.

John Donahue, the blacksmith, wants it understood that he is still in business at the old stand and can do anything in his line.

The weather has been unusually warm the past few days.

Sold for \$8,000.

Faulkner & Allison sold Wm. M. Reed's place, two and a half miles northeast of town, Monday, to William Winston, of Big Springs, Texas.

The place contains twenty acres and sold for \$8,000. How's this for real estate \$400 per acre. Hard to tell what Faulkner & Allison are doing. They keep quiet but they are hustlers.

Mr. Winston is a relative of W. M. Winston who bought the Big Fitzgerald place a short time ago for \$38,000. The Winstons are the kind of people we are looking for.—Roswell Register.

SANTA FE.

From the New Mexican.

G. B. Berleth, who had one of his limbs amputated four months ago by Dr. J. M. Diaz, today ordered an artificial limb from Denver.

The iron gates that are to be placed at the head of the stairways leading to the basement of the Catron block arrived yesterday, and will be placed in position today.

Reports from the Espanola valley are to the effect that grasshoppers have again appeared in that section and are devastating crops. Between early spring frosts, high water and grasshoppers the people of the Espanola valley have all they can do this year.

Mr. and Mrs. W. R. Price Wednesday celebrated the thirty-fourth anniversary of their marriage.

Port Bucksett of Raton, nephew of J. P. Bucksett, probate clerk of Colfax county, is in the city.

Suit in ejectment was filed in the First district court for Santa Fe county Wednesday by Abbott & Abbott, attorneys for Ramon Ontiveros vs. Cosme Herrera. The property involved is situated in precinct No. 9 near San Ildefonso.

Mrs. Robert Gilchrist of New Jersey a sister of Mrs. L. H. Prince, arrived Thursday. Mrs. Gilchrist spent several months in Santa Fe during the fall of 1884 as the guest of Mrs. Prince.

At Wednesday's session the board of county commissioners filed the assessment of all land grants within the county at 50 cents per acre, or at the same figure as last year, with the exception of some timber lands on grants.

There were many slender appeals made to induce the county board to reduce some of the land grant assessments to 20 and 30 cents per acre, but these were finally of no avail. The board was in session all day Thursday, hearing and deciding appeals.

A. M. Dettlebach, who has the contract for numbering houses within the city limits, reports good progress and that houses in the following streets and avenues have been numbered: Palace, Grant, Washington, Manhattan, Montezuma and Don Gaspar avenues, San Francisco, Sandoval, Johnson, Chapelle, Water, North Galisteo, North and South College, Donahue, Guadalupe, East De Vargas, North and South Ortiz and South Galisteo streets and Cerrillos road. The numbering of the houses on the remaining streets of the city will be finished within a week from today.

Arizona Mining Directory.

The directory of mines and mining districts of the entire territory a new book of preparation. All counties in Arizona will be listed, giving besides the names of the mines or groups, and the district in which located, the number of claims in the group, whether patented or not, character of veins and ores, with range in value, distance from nearest shipping point on railroad, nearest postoffice to mine, amount and quality of available water and timber, number of feet of work done, shafts, tunnels, etc., method of treatment, cost of labor, material, and fuel, name and capitalization of company owning or operating the mine or group, together with the names and addresses of the officers.—Prescott Journal Miner.

DAYTON, N. M.

Is the Name of the Future Town of the Territory.

New Mexico is to have a new town on the Pecos Valley railroad forty-eight miles from Roswell on the Pecos. The new town is being organized by the Dayton Townsite company and will be known as Dayton, New Mexico.

The company has a strong backing and will no doubt be a great success. Charles H. Flint is the president of the company; J. M. Day, vice president; Frank Robb, secretary and treasurer.—Roswell Register.

Arizona World's Fair Building.

A meeting of the board of managers for Arizona of the Louisiana Purchase was held in Phoenix recently.

Plans for the Arizona building were presented by W. R. North, who had been appointed the architect for the board. The plans were adopted and will be forwarded to the St. Louis contractors in a few days.

It is estimated that the building will cost in the neighborhood of \$30,000. It will be an ornate structure of Spanish and Moorish style. It will have three or four rooms, and a private apartment or ladies.

Forests of South Africa.

The forests of South Africa are composed principally of stunted and gnarled native trees, fit only for wagon making and fence building.

OFFICIAL MATTERS.

Land Office Business—Report of Captain Walker.

The following notices public were appointed by Governor Otero: Pablo Ortiz of Las Vegas postoffice, for San Miguel county; Crescencio Galleon of Santa Rosa postoffice, for Leon County; Wood county.

Agent Designated.

The Indiana Mining and Development company filed a certificate at the office of the territorial secretary, designating Richard B. Wood of Chicago as the agent of the company in this territory, and Chloride as the principal place of business. The main office of the company is at Mishawaka, Ind.

Territorial Funds.

The following territorial funds have been received at the office of J. H. Vaughn, territorial treasurer: From Jermila G. Baca, collector and ex-officio treasurer of Socorro county, \$24,041.39.

THE FIGURES.

The Central Labor Union Came Out Ahead on Celebration.

WHERE THE MONEY WENT.

The Citizen prints below the receipts and expenditures of money in connection with the great Central Labor Union celebration on the Fourth and first of July.

The figures will be of interest to the labor men. The receipts follow:

Receipts.	
Tickets sold in advance.....	\$ 46.25
Gate, 4th afternoon.....	357.00
Gate, 4th evening.....	186.50
Gate, 5th.....	104.00

Rev. Skinner was exonerated from his abuse of the Mexican people, and allowed to take his place as sky pilot for the misery alley aggregation. Papa's boy and his guardian adorn the choir. Uncle Jeff passes the plate and the Albuquerque specimen will be hung on the wall as a disinfectant.—Las Vegas Advertiser.

Indian Railroad Workers. Forty Apache Mohave Indians are now at work on the grade of the Crowned King branch railroad and twenty more will arrive soon. They are under the direction of the well known Chief Novack and are said to be very good workers. There are some squaws with them and the squaws have commenced the erection of teepees. The grade of the road has been completed to a point three miles beyond Middletons, the end of the track. It is stated that a grading camp will be established at Crown King next week.—Prescott Courier.

CONSUMPTION CURES. Science Trying to Stop Spread of the White Plague. Scientific men are at work all the time trying to devise cures for consumption. Especially during the past ten years, activity among the doctors has been great in this direction, and scores of discoveries have been heralded for a while as of notable value, only to be abandoned and forgotten in favor of a newer formula. There have been injections, inhalations, capsules, lymph, serums, local applications, direct antiseptic treatment, out of door cure, diet cure, fasting cure, overload the stomach cure, creosote cure, crude oil, and a hundred other cures, yet somehow the disease goes on spreading and the deaths increasing with the population. The latest discovery is announced from Germany. A German merchant traveling in Australia found the natives using the extract of a root and leaves of the eucalyptus for the treatment of tuberculosis. He reported his observation to Berlin physicians, and they have devised a combination of sulphur, charcoal and dried eucalyptus leaves, finely powdered, which when heated produce fumes that are claimed to kill the tuberculosis bacilli, and may be inhaled without in any way injuring the patient. Experiments have been going on for some time in the Berlin hospitals to determine the efficacy of this cure. In one hospital out of 120 patients treated, it is said that fifty were discharged as cured. The patients were in all sta-

ges of the disease when the treatment began, some of them having been considered hopeless. The results are certainly gratifying. Any prevention starts in cleanly habits. It must discourage those seeking ardently after something to relieve those already afflicted, to note how careless the untainted are to enforce the simplest rules of precaution against their diseased associates; and how careless are the sick, heedless of the rights and welfare of the well.

LAS CRUCES.

From the Progress. W. E. Baker returned to Roswell today, where legal business requires his attention.

The Casteneda block has been brightened up by a fresh application of white wash and paint.

Miss Bishop left Wednesday for Los Angeles, where she will spend her summer vacation. She was joined at Albuquerque by her sister, whose home is in Ohio.

Messrs. Jack Lyons and Mr. Shallenberg, Santa Fe engineers, and Mr. A. McClintock of Rincon, went out to Van Patten's springs on Monday for a few days' visit.

Dan Rende was in town the first of the week from his new field of labor at El Paso. Mr. Rende is meeting with growing and merited success in the Pass city, and all who know him will be glad to hear it.

The incorporation promoters and those opposed are submitting their arguments to the commissioners as we go to press. E. C. Wade and N. C. Frenger are for the incorporators and J. F. Bonham appears for the anti-incorporators.

Las Cruces celebrated the 175th anniversary of Independence Day in a truly patriotic fashion. There was a most interesting and varied program prepared for the occasion and it was carried out to the letter—and strictly at the time appointed for each event, such event was pulled off.

Rev. Herman J. Powell, of the Baptist church, will leave in a few days to spend his vacation in Michigan.

How to Check Coughing—Pour a half teaspoonful of good, pure cologne into a handkerchief and hold this before the open mouth. Inhale a deep breath or two of the perfume, inhaled air and the coughing attack will be allayed.

New Headache Cure.—To those who suffer with violent headaches, and especially so during extremely hot days in the summer, relief may be found in the following prescription: Take a small quantity of black pepper and put it in a piece of fine linen, then fold over so the grains will not fall out, and wet the whole bandage with camphor. Place it across the head and tie down on the back. The pain will cease in a very short time and the patient will fall asleep. When the camphor dries out of the linen, if not relieved, saturate it again.

Pulmonary Complaints.—Ichthyol is frequently been employed in the treatment of pulmonary tuberculosis with gratifying results. Administer it diluted with an equal quantity of water in doses of five to twenty drops three daily in wine or black coffee as a vehicle after meals. Ichthyol is perfectly non-toxic and is not injurious to the digestive organs. The appetite will likely improve under the use of this remedy. Annoying night sweats, the cough, the coughed and fever reduced. Ichthyol may be recommended as an efficient substitute for creosote and its derivatives in the treatment of pulmonary tuberculosis.

Old Foggy Notions.—It will be recalled by many readers that in the days of their youth the admonitions of their elders—invariably preceded by that augmentative clinger, "they say"—ran something like this: They say a horse chestnut will keep away that nation. They say a raw potato will do, if there are no horse chestnuts to be had. They say an onion, carried in the vest pocket will prevent fits. They say a piece of camphor gum will keep away smallpox. They say a black silk thread worn around the neck will ward off croup. They say a red string about the throat, or an eel skin about the wrist will prevent rheumatism. They say a bag of sulphur, worn as a pendant, will prevent scarlet fever.

Buttermilk.—As a remedial agent buttermilk can not be praised too highly. Phthalic acid, the sour of the buttermilk attack and dissolves every sort of earthly deposits in the blood vessels. Thus it keeps the veins and arteries supple and free without clogging up, hence no deposit will occur of irritating calcareous matter around the joints, nor of poisonous waste in the muscles. It is the stiffening and hardening of the blood vessels which bring on senile decay. Buttermilk is likely to postpone it ten or twenty years, if freely drunk. A quart a day should be the minimum, the maximum according to taste and opportunity. Inasmuch as gouty difficulties usually arise from sluggish excretion, buttermilk is a blessing to all gouty subjects. It gently stimulates all the excretories—liver, skin and kidneys.

Cholera Infantum.—A physician who investigated 663 deaths among children under 2 years old due to cholera infantum, diarrhoea and other similar diseases ascertained that fully 80 per cent of these children had been fed on condensed milk, 10 per cent were

nursing infants and the remainder were nourished by prepared baby foods. Most of the condensed milk used was the canned variety, depending on the large amount of sugar in it to preserve it. The mothers were accustomed to dilute this in ten parts of water. In this form it was fed to the children. Owing to the sweetness of the mixture, the children asked it, of course, and seemed to thrive as the sugar fattened them. But there is a preponderance of casein in condensed milk which is not digestible. There is also an absence of fat. Hence, the children who had been fed with this food presented broken down systems to the summer heat and could not stand the strain.

Appreciate Weekly Papers. The editor of the Albuquerque Citizen reads the weekly newspapers of the territory and does not hesitate to speak the truth as to their merits or demerits when occasion demands.—Deming Graphic.

BIG SHIP. The new seven story German transatlantic liner, Kaiser Wilhelm II, is a boat to make the coast trade smile. Her average daily consumption is something like 600 tons. She has bunker capacity for 5700 tons, or more than four times as much as any of our battleships; her boilers have about two acres of heating surface; her engine of 40,000 nominal horse power or the actual daily effort of about 100,000 good big dray horses; she has a crew of 23; measures 29,000 tons gross, and is fitted up regardless of cost, either to owners or passengers. Two suites of rooms are charged for at the modest price of \$2,000 per voyage. Germany has more reason to feel proud of her commercial navy than of her fighting force—quite to the contrary. However, such giants as the Kaiser are not run purely on their merits as a commercial proposition, even with \$2,000 suites, since there is a deal of money from the German taxpayers necessary in the form of subsidies.

Abolishing Rural Routes. Bristow's order abolishing all rural free delivery routes who do not serve 100 families or deliver 2,000 pieces of mail matter each month, practically wiped out the system west of the Mississippi except in the neighborhood of the larger cities.

Curio Room Fire. Building Had Clos Call—Indiscreet Dumping of Hot Ashes Responsible. Considerable smoke and the cry of fire was the cause of a flurry of excitement at the Alvarado curio rooms last night. Indiscreetly some employee of the hotel had dumped hot ashes from the engine room against the concrete side of the curio building. Fortunately it occurred about 8 o'clock, and there were still a number of employees of the curio department still on duty. Had it occurred an hour later, after the store had been closed, the chances are that the handsome curio building and the elegant stock of rich and costly blankets and baskets would have been a tangled mass of wreckage.

Smoke was first noticed circling near the ceiling among the quaint rafters. A search revealed it issuing from between crevasses in boards on the west side of the building. An alarm was sounded and the city department called out. It was then discovered by walking around the building that the fire was between the walls. Firemen cut a hole in the interior wall and a dash of water brought forth a sizzling noise. More water was applied and all danger was removed. The wood frame was badly scorched and charred and judging from appearances, the fire would have been blazing in a few minutes had it not been discovered. As it was a broken clay jar and a jagged hole in the wall was the only damage done.

Alamogordo Telephone Line. The line between Alamogordo and El Paso is now within twenty-eight miles of El Paso and it will only be a few days longer until El Pasoans can say "hello" to their friends in Alamogordo.

THE POPULAR BANK. The Montezuma Trust Company Will Give You One to Take Home. You have noticed the half page "ad" of the Montezuma Trust company in The Citizen. Now go to the bank and get you a little bank to take home.

Then save all you can. Put in a cent or a dime or a half dollar. When you put your month's savings in it take to the bank and have the amount placed on your bank book. Then begin filling your little bank all over again. Keep this up and you'll soon be able to build you a home or any thing else you may want.

The department of savings of the Montezuma Trust company will surely prove a blessing to our working people.

Our Mark in Luck. Mark Smith, Arizona's delegate to congress, has just won a big mining suit in Mexico, which decided his ownership of a mine in the Hermosillo district. The parties who were contesting Mark's title to the property refused an offer of \$300,000 for it.

Architect Whittlesey, who has been at Alamogordo the past few days, is expected home tomorrow morning. Mr. Whittlesey has made drawings for plans on the new sanitarium to be built there in the near future. Mr. Whittlesey is also making plans for a new bank building to be put up at Alamogordo.

Knows How He Stands. Chauncey M. Depew's fall is clippings. Several bureaus furnish him with all that the newspapers say about him, and he always knows exactly how he appears in the public eye.

FOR TERRITORIAL FAIR

Dr. F. A. Jones Sends Out Today an Interesting Circular Letter.

WORLD'S FAIR EXHIBIT.

Dr. F. A. Jones, of this city, who is gathering material for New Mexico's exhibit of mineral at the Louisiana Purchase exposition, sent out today to the mining men of the territory the following letter:

IMPORTANT! WORLD'S FAIR MINERAL EXHIBIT To the mine owners and operators of New Mexico:

New Mexico is preparing a great exhibit of its vast resources from its various mines and quarries to be displayed at the city of St. Louis, next year. This exhibit will attract the attention of investors from all over the civilized world; and every mine, quarry and prospect should appear on the printed list, which will give a detailed description of each property in New Mexico.

The plan is that each sample, whether ore, precious rock, building stone, or other mineral products, shall each be properly labeled and numbered when placed on exhibition; this number will refer to and correspond with the number in the publication, where a description of the property, with name and address of owner, extent of development, character of deposits, etc., will be given. Any good photographs furnished that you may have of your mine, mill or workings will be included and reference given to the mine to which it belongs.

We do not care particularly to have a display of small and pretty pieces of minerals, simply because they glitter; but, we wish what may be considered average samples of the ore or deposit. Samples should be as large as conditions will admit in the mining and handling of the same, smaller pieces varying in size should be sent also. In order that a small sample may be given to any one who might feel an interest in any particular property. Samples weighing a ton or more will be greatly appreciated. All samples should be substantially wrapped before they are sacked, boxed or crated, in order to avoid injury during transit; full and complete labels, giving name of mine owner, locality, approximate assay values or chemical analysis should accompany each lot. Specimens of the wall rock are desired; accompanied, also, by pieces of the characteristic country rock.

Any printed literature and reports, made by mining engineers and geologists of the district, or on any particular mining properties, are much desired and needed in making the publication complete as possible.

The territorial board of world's fair managers designated Albuquerque the collecting point of the mineral exhibit, at which point the same will be displayed at the annual territorial fair next fall, previous to its shipment to St. Louis. This arrangement will doubly display the exhibit and thus provides a way for those to see the collection who could not be able to visit St. Louis. It is therefore necessary that all shipments be consigned to the undersigned, at Albuquerque, during the last week in August; and only in extraordinary cases should shipments reach Albuquerque later than September 10 in order that sufficient time be had in which to place this exhibit in proper place, ready for the opening of the fair on October 12. Valuable specimens and private collections will be looked after under a special surveillance and guarantee of the safe return of the property is as good condition as when received.

We wish to include in the exhibit everything in mineralogical, geological and metallurgical importance in the economy of the territory.

All railway freight will be paid and adjusted by the world's fair commission. A hearty response is expected from every mining district in New Mexico. Some of the mining camps have already met and selected committees to see that they are fully represented with a creditable display of their mineral resources at the greatest exposition the world has ever known.

Yours very sincerely,
F. A. JONES,
Director of Mineral Exhibit,
Albuquerque, N. M., July 11, 1903.

Dr. Jones says there is already great interest being taken in this matter and he looks for New Mexico to do herself proud. For some little time now he has been at work in the northern part of the territory. The people here will see the exhibit for it will be displayed at our territorial fair in October.

Probate Court News. The probate court met yesterday and after a short session, adjourned until August 3.

In the matter of the citation in the case of Antiocha Montoya de Torres, by its administrator, Vincente Torres, against Jose Vidal Mora, the court having considered the answer to said citation and having heard the evidence ordered that the said answer be sustained and the said Jose Vidal Mora be discharged with his costs.

GALLUP. Miss Maggie Stokes is the new lady clerk, and the Goodwin counter. The 6 months' old child of Joseph Guggers of Gibson died last Monday.

Mr. and Mrs. Lee Selvy and family of Point Richmond, Cal., are visiting relatives here this week.

Father Juillard and Father Dumar returned last Tuesday from their parochial visit to Zunis and Astarque. The teachers of the schools of Fort Defiance and Zunis are one after the other leaving their schools for a well deserved vacation.

Lawrence Smith left for Los Angeles, where he will spend a few days, then he will go to San Francisco, where he will work this summer.

The Odd Fellows lodge elected the following officers Tuesday evening, June 30: N. G. W. A. Patching; V. G. Robert Wyper; recording secretary, W. A. Smith; treasurer, Alex. Bowie.

John White, the colored porter at Kitchen's saloon, dropped dead Monday afternoon while telling a story to Walter Grey. The funeral took place Tuesday at 3 p. m.

K. K. Scott and family left this morning for San Diego, Cal., where they will spend a few weeks. C. N. Sabin will attend to the duties of the town clerk during Mr. Scott's absence.

Jako Morgan, an Indian who has been spending his vacation on the reservation, returned to Kansas Sunday night, where he will join an Indian band of sixty pieces, who have an engagement of six weeks in Denver, commencing the first of next week. Mr. Morgan plays solo cornet.

Body of Drowned Girl Found. The body of Teofela Melendez, one of the girls who were drowned at the smelter a few days ago, was recovered yesterday afternoon below the city near Ysleta and an inquest was held at that point, after which the remains were brought to this city for interment.

The remains were found in a pile of driftwood and were in a badly decomposed state. They were identified by a brother of the deceased.—El Paso Herald.

HEAP TROUBLE. There was a lively time Wednesday morning at the town of Pojoaque, near Santa Fe, where a pitched battle occurred. A constable and several deputies and the friends of a prisoner were in the melee.

A number of shots were fired but no damage was done. Camilo Martinez was arrested at that place on the previous day and when his trial occurred was fined and sentenced to fifteen days in jail. After the trial, Martinez asked for a change of venue, which was refused. The constable started to Santa Fe with his prisoner and two deputies, but an attempt was made by friends of the prisoner to interfere and liberate him. It was then that the firing took place and the constable after a few minutes resumed his triumphant march to the city with his prisoner and the crowd hastened to Santa Fe and procured warrants for the constable, Donaciano Ortiz and his two deputies. Ramon Trujillo and Donaciano Garcia, and when they arrived at the jail they were locked up along with their prisoners by Deputy Sheriff C. R. Huber.

Ortiz retaliated by applying for warrants for the other parties to the battle at La Fama. Deputy Huber then went to Pojoaque and arrested the following parties: Antonio Ullallo, Romero, Antonio Jose Romero, Benito Luis and Luciano Trujillo. He landed during the night and on Thursday morning left for Tesuque in quest of Ramon Jimenez, who is charged with being an agitator in the affair and with having fired a few shots. It seems this man is or claims to be a lawyer and was present to look after Martinez' interests in the trial. He is said to have been responsible for the starting of the trouble which led to the fight.

They will be tried Saturday in Justice J. M. Garcia's court. The charges will be carrying and flourishing deadly weapons and discharging them.

New Reservoir. It is reported that the Southern Pacific will build a reservoir at Fort Grant, which will supply the entire garrison with agua pura. The opinion of many is that Fort Grant will not be abandoned, and that it will be maintained and enlarged.

THE NEW ENGINE. Big Piece of Machinery Reached the Territorial Penitentiary Wednesday. All O. K.

The fine new engine which was purchased by the authorities of the territorial penitentiary from Capt. W. E. Dame and which has been at the Cash Pentry mine near Cerrillos, arrived at the institution about 11 o'clock Wednesday night. Early Monday morning R. C. Garrett, superintendent of the brick plant, left for Cerrillos with seven teams and eight convicts to take it down and bring it to the institution. No guard was taken along and the convicts were put on their honor with the result that they worked like Trojans, gave no trouble whatever, and did not seem to even think of trying to escape.

The big engine was taken down, loaded on the wagons and brought to the institution without the loss of even a bolt. The big piece of machinery is being put in place at the institution, and it will not be many days until it will be put in service and the brick plant started again. The rapid manner in which this work was done, the behavior of the convicts, the short time in which the old engine has been replaced, all is most creditable to all connected with the affair.

A New Office. George W. Webb, Chinese inspector for Arizona, has just been placed in charge of the department of commerce and labor for Arizona, under Secretary George B. Cortelyou. The appointment was made in a letter dated July 2.

OFFICERS ELECTED. Daihart Stockholders Take Direct Charge of Road's Organization at Daihart, Tex.

The stockholders of the Dawson City, Daihart & Oklahoma City Railroad company met at Daihart, Tex., and after some preliminary work elected the following officers for the ensuing year:

Executive department—Guy M. Lawrence, president; C. A. Crawl, assistant to president; A. Clendenen, first vice president; Robert T. Pugh, secretary.

Legal department—D. A. Koble, general attorney; G. R. Haley, assistant general attorney.

Treasurer and accounting department—H. W. Wyman, treasurer; H. W. Wallace, paymaster; E. B. Peterson, clerk auditor; J. E. Steel, freight auditor.

Operating department—H. E. McMullen, general manager; C. H. Young, general superintendent; J. E. Lynn, assistant superintendent; R. W. Williams, purchasing agent; John Brewer, superintendent of telegraph; J. O. Elliott, car service agent; Shep Simmons, stationery agent.

Traffic department—James G. Griffith, general freight agent; W. T. Kellett, general pass agent; Mike Powers, general baggage agent; C. B. Smith, claim agent; D. C. Diltz, excursion agent.

Mechanical department—Thos. Sutherland, superintendent motive power; Jack Griffin, assistant superintendent motive power; F. J. Welch, general foreman.

Engineering and roadway department—R. B. Wood, chief engineer; J. C. Bloodworth, road master; J. D. Conthen, assistant road master western division; Wm. Bell, assistant road master eastern division.

Construction is rapidly progressing and active operation will be in force as speedily as equipment can be secured.

Street Railways Profitable. A personal report on street railways recently issued by the census bureau will throw light upon the eagerness with which franchises are sought by promoters of this modern method of travel. The report shows that the average of street and electric railways in operation in 1902 was more than twice as large as the average in 1890. The aggregate surplus for the 463 companies reporting a surplus amounted to \$51,041,150, and the aggregate deficit for the 275 companies reporting a deficit amounted to \$11,285,047, leaving a net surplus for all companies in the United States of \$40,066,112.

Girl Was Drowned. A report reached here from Chambrino that a Mexican girl was drowned there in the river yesterday while bathing. Chambrino is ten miles above the city on the Mexican side. The girl is said to have been caught by the treacherous undertow.—El Paso News.

He Is Tall and Thin. Joseph L. Bristow, fourth assistant postmaster general—the man who has come to be called the sleuth of the department—is six feet two inches tall, but so thin that when standing erect, he seems to be fully seven feet. There is a legend around the department that a visitor who had just been introduced to Mr. Bristow watched him straighten out for a few moments and then gasped: "Good Lord, is he never going to stop getting up?"

Subscribe for The Daily Citizen. THE HOME.

Lamp chimneys should be steam-cured in preference to washing them. Most chimneys are likely to break if washed while none will do so if the only moisture applied is the form of steam. The smoke and grime should be first wiped off with a soft paper and the drying done with a cloth without lint.

A crust of dry bread placed in a kettle of boiling onions will neutralize the odor. The same practice in cooking spinach, beet tops, dandelions, etc., will not only take away the smell while cooking but by absorbing the rank flavor will give an added delicacy to the vegetable when served.

A new strawberry set consists of bowl and berry dishes in fancy shapes and also dainty cake plates—all thickly overspread as it were, with the rich green foliage, the white blossoms peeping through the leaves, in the midst of which are also rarely fine and delicious looking strawberries.

Cornmeal puffs are delicious for breakfast. Into one quart of boiling milk stir eight tablespoons of Indian meal, four tablespoons of sugar and half a grated nutmeg, let it boil five minutes, stirring all the time. Remove from the fire, let cool and then stir in six eggs well beaten, mix well and pour into buttered tea-cups, nearly filling them. Bake in a moderate oven half an hour.

To wash very grimy things, such as overalls and working shirts, mix together equal parts of kerosene, lime water and turpentine. Shake the mixture in a bottle until creamy, then add a cupful to a boiler of clothes. It can also be used with hot suds, rubbing directly upon dirty grease spots, allowing to stand five minutes before washing out and then rinsing in hot water. In dampening clothes for ironing hot water is much better than cold. The moisture is more even and the clothes are sooner ready for the iron. Knit underwear, stockings and other rough pieces should be merely run through the wringer when dry or folded and laid in a smooth pile with a heavy board and weight on top to do away with the labor of ironing.

Canning strawberries is largely taking the place of preserving these days and the process by which the fruit is preserved whole and almost in a natural state is now adopted by all progressive house wives. It is well to bear in mind when canning that none but perfectly sound and fresh fruit should be used. The jars should be thoroughly heated before filling. While being filled they should stand on a folded damp towel to prevent breaking. After being filled and the tops screwed on, the jars should stand in a warm part of the kitchen overnight where the air will not strike them. When filling the jars run a silver spoon handle around the inside of the jar to break the air bubbles and then screw on the tops at once. To can strawberries, allow a half-pound of sugar to every pound of berries.

Base of the mill will be constructed an immense timber dock, 80x100 feet. Over this dock timber of large proportions will be handled and loaded into cars for shipment.

The engine and power house is to be of brick, 50x95 feet, with walls twenty-one feet high, supporting a steel truss or roof of galvanized iron. The power includes four 72x18 feet boilers, each of a capacity of 225 horse power, and a 600 horse power Corliss engine, with twenty-four ft. wheels. This wheel carries a double leather belt forty-six inches in width and 150 feet in length.

The mills will be equipped with a re-use burner thirty-two feet in diameter, 100 feet high. It will be lined with fire brick of the best quality procurable, or which, it will require some 155,000. The log train skidway, where the logs will be unloaded, will be 320 feet long, thus allowing the unloading of eight cars at one time.

Buildings for planer and box factory, and dry sheds and kilns, will be built on the mill grounds just as soon as the mill begins sawing its own lumber.

The capacity of the mills, when finished, will be in the neighborhood of 150,000 feet per ten hours.

On account of the uncertain arrival of machinery, Mr. Badstueber declines to say when the new mill will be ready and running.

water will keep it from turning yellow when cleaned. Grease spots can be removed with fuller's earth made into a thin paste with cold water. Spread the paste over the spot, let it remain two or three days, then brush it off carefully. Matting that is not much soiled may be freshened by wiping the surface with warm water containing a little ammonia. Another method and a very good one is to rub the matting with moistened corn meal, allowing it to dry. Then it can be swept off and the dirt will be removed at the same time. Before applying any cleaning preparation the matting should be swept thoroughly and then gone over with a dry cloth to remove as much of the dust as possible. Several years may be added to the use of the matting by changing the breadths from the middle to the sides when wearing is apparent.

Such a thing as death from heat is unknown in New Mexico.

LUMBER MILLS.

Those of the American Lumber Company Here Building Fast.

CAPACITY 150,000 FEET PER

B. FRANK HUNTER

His Death at City of Denver From Paralytic Stroke.

FATHER OF MRS. GEO. K. NEHER.

B. Frank Hunter, one of the early western pioneers and an old settler, died yesterday morning at 9 o'clock at his home, No. 2754 South street, as the result of a stroke of paralysis, says the Denver Republican, July 1.

Mr. Hunter suffered a slight stroke of paralysis about a year ago. He was raking leaves in the front yard of his home when his right arm became paralyzed, and since then he had suffered two other more severe shocks. He was taken to the county hospital on December 15 and remained there till last Tuesday, when he asked to be brought to his home again before he died. Mrs. Hunter was told by the physicians at the hospital that he could not live long, and the change might be a good thing. He was accordingly taken home, but died the following day.

Adams-Hill Litigation Cost Hunter His Fortune.

Mr. Hunter was involved in the well-known Adams-Hill litigation, and it cost him such large amounts as to cripple him financially.

B. Frank Hunter was born in Andover, Mass., on May 2, 1844. He went to school for a few years and then learned the trade of a carriage builder, at which he worked until the civil war broke out. At the first call for troops he enlisted in an infantry regiment from his native state, and served through the war with distinction. During the closing year he attained the rank of captain. Mr. Hunter was a member of Lincoln Post No. 4, Grand Army of the Republic.

On June 15, 1867 Mr. Hunter married Mary Hollman in Massachusetts, and for several years after their marriage they lived in the east and he worked at the carriage building business. Late in the 70's they moved to Cheyenne, Wyo., where Mr. Hunter engaged in the carriage building business for three years. He saved money and started a livery stable in Cheyenne, but sold the business in 1881 and came to Denver.

Extensively Interested in Cattle Business in the West.

After coming here Mr. Hunter again engaged in the livery stable business for some years. He sold the stable, however, and went in the cattle business as president of the Continental Cattle company, which ran its cattle on the Wyoming range. Aside from the cattle interests Mr. Hunter bought up some real estate and transacted some business in that line.

In 1895 he was elected to the city council as alderman for the Fifth ward and remained in the council for two years. After this he still held to some extent his interests in real estate, but the Adams-Hill litigation was a severe drain on his finances and he died leaving property of only nominal value.

[Note—The deceased was the father of Mrs. George K. Neher, and visited Albuquerque on several occasions, where he met a few old-time friends and they enjoyed his visits immensely. Mr. and Mrs. Neher are at present in Denver. To the bereaved daughter The Citizen extends condolence.]

Valuable Time Saved.

Slight injuries often disable a man and cause several days' loss of time and when blood poisons develop, some times result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poison. For sale by all druggists.

RAILROADS COST MONEY.

Statistics Showing Increase in Cost of Building and Sustaining Material.

Few people appreciate the extent of the advance in the cost of railroad material. A little light may be thrown on this subject by some carefully prepared statistics dealing with the articles entering into a railroad's supplies. These articles of fifteen in number, ranging from air brakes to white lead. Taking the year 1897 as a starting point and the aggregate of money paid to that year for the supplies consumed as 100 it appears that in 1902 the same quantity of the same articles would have cost 133.42 and in 1903 they would have cost 140.90. Between 1897 and 1902 the increase in cost averaged 33.42 per cent, and between 1902 and 1903 it averaged 5.61 per cent. The net result was an increase of 40 per cent in cost as between 1897 and 1903.

It should be remembered that this does not include fuel on locomotives, which in the same period has risen probably 50 per cent. Nor are wages included. As bearing upon the latter item, there is also to be considered the decreased efficiency of labor arising from the fact that increased business has involved the employment of new

and inexperienced men, besides the fact that in the prosperous times the efficiency of the individual is relatively less than in other times.

NEW LINE NECESSARY.

Santa Fe Suffers Damage Near Needles, Cal., From Colorado River. Needles, Cal., July 6.—The Colorado river is not falling and is still nibbling away at that portion of the river bank where it interfered with the railroad bed a few days ago. Superintendent of Construction J. Wood, who has charge of the work down there, reports everything O. K. so far as further damage to the railroad is concerned.

Superintendent Wood has received many compliments from his superiors for the able manner he has managed the undermining waters. A new railroad two and one-half miles will be built as soon as possible, which will take the roadbed entirely away from any future high water.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Cal., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists.

VICENTE SENA PARDONED.

Received Fourth of July Present from Governor Otero.

The Fourth was observed at the penitentiary as a holiday. At noon the men were served with an elaborate dinner of chicken and gravy, roast pork and apple sauce, green peas, mashed potatoes, stewed tomatoes, lemonade and pie. In the afternoon the men were taken to the chapel, where a photograph entertainment was given them by Jose Segura. Great interest attached to the announcement of the Fourth of July pardon and when the statement was made that Vicente Sena was the fortunate man to receive it, great and long continued applause from the men greeted it. Sena was serving a life sentence on the charge of murder from Rio Arriba county and was sentenced December 18, 1890. He has been an exemplary prisoner and has never violated a rule of the penitentiary. His pardon was recommended by the district attorney who prosecuted him, by the superintendent of the penitentiary, by many members of the legislature and prominent citizens. The judge who presided at the trial was E. P. Seeds, but as he left the territory his recommendation could not be considered. Circumstances which were not produced at the trial were laid before the governor as well as explanations of certain matters which could not be made at the trial, all of which combined to make this case one of especial merit for executive clemency.—New Mexican.

The Foundation of Health.

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, dyspepsia and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by H. B. Briggs & Co., S. Vann Son.

Monument for Graftstrom.

A movement is on foot at the Santa Fe shops and offices in Topeka for the purpose of erecting a monument in honor of Edward Graftstrom, mechanical engineer with the company, whose tragic death in the Kansas flood has been previously noted. Before he was drowned he had rescued at least seventy people from the waters, among them members of the shop men's families. Naturally all feel that they should show their gratitude and will do so by erecting a monument over his grave.

Cures Sciatica.

Rev. W. L. Riley, L. D., Cuba, N. Y., writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment, the first application giving me first relief, and the second, entire relief. I can give it unqualified recommendation. 25c, 50c and \$1 at J. H. O'Reilly & Co."

Probate Court Items.

The probate court has granted to Otto Dieckman right to adopt Bruno and Elisea Kuelpman, two orphans. The court reversed its decision in the case of Prudencio Garcia, administrator of the estate of Avelina Vigil, who files a petition asking to be allowed to sell a portion of the estate. Clerto Garcia has been appointed administrator of the estate left by Jesus Baca de Gallegos, and has filed a bond of \$300.

Juana de Chavez has been appointed administrator of the estate of Nicolasa Padilla, and has filed a bond of \$600.

Attorneys Veeder and Veeder of Las Vegas, counsel for Nazario Montoya and Gabriel Montoya, heirs of the late Jose Ignacio Montoya, and also Justo Montoya, another heir, objected to

THE FIRST LESSON

That the young girl has of womanhood is not seldom a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time, may in almost every instance be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, it tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease.

"I received your letter some time ago, with advice about your wonderful medicine," writes Miss Stella Johnson of a busy street, Dayton, Ohio. "I was troubled with severe pains every month when I wrote to you for advice. After receiving your letter and following its directions, I am now happy to say that after five years of untold suffering I have not had any more of the same. I was induced through a friend to write to you and follow your kind advice. I thank God and Dr. R. V. Pierce for the health I now enjoy. I shall urge other women who suffer as I did to use your medicine."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women. Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

The admitting of a claim of \$340 against the estate. The court denied the motion and sustained the claim. Counsel making exception to the court's decision. Upon representations made by the attorneys the claim of Marcelino Baca against the estate was reduced from \$95 to \$80. Twenty days was given for the filing of a bond by the executor of the estate.

A Surgical Operation

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them. I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since.—H. A. Tisdale, Summerton, S. C. For blind, bleeding, itching and protruding piles no remedy equals DeWitt's Witch Hazel Salve. Sold by H. B. Briggs & Co., S. Vann Son.

INJURED AT ABAJO STATION.

Edmondo Bernio Run Over by Cars South of Albuquerque.

Edmondo Bernio, of French descent, aged about 40 years, fell under a moving freight train at Abajo, two miles south of the stock yards at 12:30 o'clock today. The wheels passed over the ankle of the left leg, severing the foot.

He was picked up a short time after the accident by Section Foreman T. P. Staff and brought to the city on a hand car. The wound was bleeding quite profusely and the injured man was hurried to the St. Joseph's hospital, where he received surgical attendance. He could speak but little English, and nothing could be learned of his past. He was poorly clad and evidently a tramp.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gullidge, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25c at all druggists."

Police Court.

Three were before Judge Crawford this morning. One received five days and the other two were let off.

Catarrh of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves and causes the glands to secrete mucus. Instead of the natural juices of digestion. This is called catarrh of the stomach. For years I suffered with catarrh of the stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. Rhea, Coppell, Tex. Sold by H. B. Briggs & Co., S. Vann Son.

GROSS, KELLY & CO. BRANCH OUT

Will Establish a Store on the Santa Fe Cut-Off.

George A. Root, local manager for Gross, Kelly & Co., will go to Belen tonight. Tomorrow Mr. Arnot and John MacKay, manager of the Belen Gross, Kelly & Co. branch store, will leave that place on a trip over the line of the Santa Fe cut-off to the plains east of the Manzano mountains. The mission of the trip is to look over the ground with a view to locating a permanent store on the new road.

Mr. Arnot said this noon that he had no idea where the new store would be located, but that there are several places along the line quite acceptable. Three places are very probable—Mountainair, Willard or the mouth of Abo canyon.

EVERYTHING BOOMING.

Mesilla Valley Prosperous and Good Fruit Crops Assured.

LAS CRUCES CELEBRATED.

Although the floods have done a great deal of damage in washing out crops and carrying away alfalfa that had just been cut, Mesilla valley is going to experience an exceptionally good year. The yield of alfalfa is quite large, but the demand is greater than the supply and prices are going to hold. A number of farmers have sold some hay for \$9 and \$10 per ton by car load, but the majority are holding for winter markets.

Fruit is abundant; early peaches are nearly used up, and all have been of excellent flavor and better than for some years. The same has been true of apricots and plums. Early pears will soon be on the market. Last week the first apples were picked, which were good as eating and cooking apples.

The fruit yield for the season is expected to be an extremely large one, and of excellent quality.

Nearly all the wheat has been harvested and threshed.

The work of the experiment station has for the past five weeks been devoted to the compiling of data resulting from various experiments in treatment of cereals, and the moisture holding power of the soils under varied conditions. A new twelve-inch well has been sunk near the six-inch well, which was used in the irrigation from wells investigation. It is proposed to test this well along the lines of the late list as nearly as possible—both by steam and gasoline. The new Fairbanks-Morse crude oil engine will be put into use and given an exhaustive trial.

J. D. Tinsley, soil physicist of the station, is doing some important work in the line of soils in the Pecos valley region. Fabian Garcia, horticulturist, was called to the same region last week to look into the condition of some of the orchards, and to advise fruit growers as to the best methods in preserving them.

A number of new cottages are being erected at Mesilla Park, all of which have been spoken for, and there is a demand for more.

Affairs at the college is somewhat quiet just now, it being vacation. The administration department, however, has been quite busy closing up the year's accounts, June 30 being the close of the fiscal year.

Prospects for an excellent showing next year are very encouraging, and it is more than likely that all departments will be taxed more than ever before. Never before at this time of the year has there been so many inquiries. Out side of the college itself there have been over 150 letters of inquiry regarding the English-Spanish stenography and a great many have written that they would be on hand at the beginning of the fall term. The rooms at the girls' dormitory have all been engaged with the exception of a room or two. It has become a necessity that the dormitory be enlarged and steps are being taken towards doubling the capacity.

Las Cruces had a glorious Fourth and a successful one. The stars and stripes were raised in the morning and a salute of twenty-one guns was fired by the militia, and a parade and exhibition drill by company A. Orations of the day were delivered by E. E. Day and Judge Parker. In the afternoon there were cow pony races, 14-year-old boy races, 100 yard dashes, and a pie eating contest for the little chaps. On the base ball grounds the married men contended for honors with the single men of the town. At the close of the seventh inning the game was in the hands of the beneficiaries by a score of 6 to 5, but a momentary weakening of the battery in the eighth lost them the game. The final score was 11 to 6.

The day closed with a dance, which was an exceptionally pleasant affair. The W. I. A. ladies served refreshments during the day and evening. A number of eastern capitalists have been visiting the valley of late, with the idea of making investments. All have gone away pleased with the condition and a bright future is predicted for the valley.

SMELTER STRIKE.

Strikers Enjoined From Interfering With Denver Plants.

Denver, July 7.—The striking smelter men were enjoined this afternoon from interfering with the operation of the Grant and Globe smelters. The injunction was issued by Judge Dixon of Pueblo, Colo., sitting here, on complaint of the American Smelting and Refining company.

The complaint alleges that the defendants, including the officers of the Western Federation, conspired to compel the plaintiff to employ those whom it did not wish to employ and at wages

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size, Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

and hours which it did not wish to grant. In pursuance of this conspiracy on the night of July 3, 200 or 300 men proceeded with force and arms to the Globe and Grant smelters and cut the electric light wires, extinguished the furnace fires, assaulted, beat and wounded the employees of plaintiff and compelled them to quit work.

It is further alleged that the defendants continued by force of threats, intimidation and assaults to prevent the men from working at the smelters and pickets have been posted in the vicinity to address abusive, offensive and profane language to those who desire to enter plaintiff's employment and otherwise attempt to intimidate such persons. The complaint was sworn to by Franklin Guiterman, general manager of the company. The situation at the smelters is unchanged.

Should Be Paid.

Mayor Myers and the city council met a grave emergency during the recent flood, and deserve credit for prompt work in preventing the overflow of the city. The bills for erecting the dyke north of the city were contracted to avert a disaster, and no one should object to their prompt payment.

The Lead Avenue Methodist church calendar says: "It is only justice to the gentlemen who planned a Sunday celebration of the Fourth to say that they regret it now and did so not realizing how our citizens felt and without weighing all that it meant. The chief fault lies with ourselves that we have not been more outspoken for God and His day."

THE BALL ROLLING.

The First of the Advertising Matter for the Coming Fair Has Arrived. Going? Well, I should smile! With a picture of a funny fellow undergoing a convulsion of laughter, is the greeting on the face of a crimson poster, heralding the coming territorial fair, just received at the office of the fair association. It is great! It's the real thing! but not in it with what the fair promises to be.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by all druggists.

LOCAL PARAGRAPHS.

Herbert F. Reynolds, junior member of the law firm of McMillen & Reynolds, returned from Las Vegas last night.

Jim Berry and John Hunter of Socorro left for Belen where they accepted desirable positions with the Santa Fe cut-off.

Hon. M. R. Otero and son, Edward, were here to spend the Fourth with relatives and friends. They have returned to Santa Fe.

James Vorhes, of the job printing firm of Steward & Vorhes, left last Friday night for Los Angeles, to visit his printer friend, Tom Fennessy.

Mr. and Mrs. M. E. Porter are here from Magdalena, and will remain a few days. Mr. Porter is in the employ of the Hardscrabble Mining company.

Mrs. R. H. Bowler, wife of Foreman Bowler, of the New Mexican, Santa Fe, who has been in the city since Friday the guest of Mr. and Mrs. Thos. Moore, returned home this morning.

Charles Paxton, the well known mine operator of the Cochiti district, is in the city, being called here by a message that his wife was quite ill. Mrs. Paxton is better today, and Mr. Paxton will probably return to Bland tomorrow morning.

Hon. J. M. Sandoval, County Commissioner Ignacio Gutierrez and County School Superintendent J. B. Archuleta, of Sandoval, were here Saturday and Sunday. They have returned to Sandoval.

Socorro, Santa Fe, Las Vegas and other adjacent towns were well represented in Albuquerque on the Fourth. People usually like to spend the Fourth of July in the metropolis of either a state or territory, hence they all flock to Albuquerque on occasions like the Fourth.

W. W. Bladon, the clerk at the local office of the Washington Life Insurance company, who enjoyed the Fourth and Sunday at Gallup with his wife and old time friends, returned to his duties here this morning. He found the weather out at Gallup a little cooler than in Albuquerque.

Frank E. Sturges, proprietor of

Sturges' European hotel, and son, Lloyd, returned last night from Denver. Mr. Sturges took in the Colorado racing circuit, and while his horse, Shemac, failed to capture any of the big purses, he nevertheless made the winners pace pretty fast to get under the wire first.

Lieutenant M. H. Davis, brother of Mrs. Jay A. Hubbs and H. E. Sherman, came in from Fort Wingate yesterday, and will remain a few days. The lieutenant was introduced at The Citizen office this morning. He belongs to the Fourteenth cavalry, and the boys at Fort Wingate are arranging to leave on July 20 for San Francisco and thence to the Philippines.

Superintendent I. L. Hibbard, of the Albuquerque-Winslow division; C. M. Cotton, the veteran merchant and Indian trader, and wife and daughter, of Gallup, and Miss Edna Payton, of Los Angeles, Cal., are in the city stopping at the Alvarado. They arrived last night in Mr. Hibbard's private car and will return west this evening. Miss Payton is a guest of the Cottons.

Mayor Myers introduced at The Citizen office the other afternoon his old St. Louis friend, H. C. Pollman. The visitor is here with his wife and Dr. Ray Scholz and sister. He expects to go up to the fishing streams of San Miguel county tomorrow morning, where he will remain a short time and thence back to the city. He will then return to St. Louis, leaving Mrs. Pollman and others of the party here to spend the remainder of the summer months.

H. P. Lee, quartermaster sergeant of the Fourteenth cavalry, stationed at Fort Wingate, came in from the west last Friday night to spend the glorious Fourth and Sunday in this city. The sergeant brought with him a pair of deer horns, which he presented to City Marshal McMillin. The troops at Fort Wingate are packing up, preparatory to leaving for San Francisco and thence to the Philippines. Several troops of the Fifth cavalry will soon be stationed at Fort Wingate. Sergeant Lee returned to Fort Wingate last night.

SHERIFF'S SALE.

Notice is hereby given, that I, the undersigned, sheriff of the county of Bernalillo, New Mexico, will, on Wednesday, the 1st day of July, A. D. 1903, at the hour of ten o'clock a. m. of said day, at the front door of the Bernalillo County Court House, in the County of Bernalillo, New Mexico, expose for sale at public auction and sell to the highest bidder for cash, all the right, title and interest of Z. H. Bliss, in and to the following described real estate, situate, lying and being in the County of Bernalillo and Territory of New Mexico, to-wit:

The east half of the southwest quarter and lots three and four in section nineteen, township ten north, range four east, containing 159 46-100 acres.

The above described real estate having been levied upon by me under and by virtue of and to satisfy an execution issued out of and under the seal of the District Court for Bernalillo County, New Mexico, directed to the undersigned, as sheriff of said county, and bearing date the 15th day of May, A. D. 1903, for the sum of \$811.45 damages, and costs of suit amounting to \$10.20, in favor of John A. Lee, as plaintiff, and against the firm of Bliss & Weir, and Z. H. Bliss and Joseph Weir, individually, together with interest thereon at the rate of six per cent per annum from the 19th day of November, 1902, being the date of the rendition of the judgment in said cause, with costs incurred in the making of this sale and the enforcing of said judgment.

T. S. HUBBELL,

Sheriff, Bernalillo County, N. M. May 30th, 1903.

NOTICE OF SALE.

In the District Court, County of Bernalillo, Territory of New Mexico. Thomas N. Wilkerson, Trustee, et al., plaintiffs, vs. Wiley M. Weaver and M. Valeda Weaver, Defendants.

Notice is hereby given that under and by virtue of the decree of said court in the above entitled cause, dated May 18th, 1903, the undersigned appointed special master in said decree for the purpose of executing the same, will, on the 22d day of July, A. D. 1903, at 10 o'clock a. m., on said day at the front door of the court house of Bernalillo County, New Mexico, in Old Albuquerque, N. M., offer for sale and sell to the highest bidder for cash the property hereinafter described, to satisfy the indebtedness decreed to be due to the said Thomas N. Wilkerson, trustee, from said defendants, to-wit: \$6,682.14, principal and \$200 attorney's fees with interest on said principal sum from the date of said decree until paid, together with costs of said suit, and which said indebtedness was by said decree adjudged to be a first lien upon the property in said decree described, and which said indebtedness will on the day of sale aforesaid, together with interest amounting to the sum of \$6,984.12, together with costs of suit and costs of sale; and said defendants having made default in the payment of said indebtedness according to the terms of said decree, and said indebtedness still remains due and unpaid. The property to be sold is described as follows:

An undivided one-half interest in

DON'T FEEL WELL

Have no appetite—Can't Sleep—Bowel Constipated—Liver inactive. The stomach has become weak and needs a medicine to strengthen it. Don't waste time experimenting with this or that remedy but get a bottle of Hostetter's Stomach Bitters at once. For 50 years it has been recognized as the leading stomach remedy of the world and has cured thousands. Try it. Our Private stamp is over the neck of the bottle.

HOSTETTER'S STOMACH BITTERS

and to lots numbers twenty-two, twenty-three and twenty-four, in block number eleven, in the New Mexico Town company's town site addition in the City of Albuquerque, as same are known and designated upon the map of said addition, made by M. J. Mack, C. E., and filed in the recorder's office of Bernalillo county, New Mexico, on the 29th day of December, 1882.

Also lots thirteen, fourteen and fifteen, in block "A," in the Duran and Alexander addition to the City of Albuquerque, as designated upon the map of said addition made by C. A. Marriner, and filed in the recorder's office of Bernalillo county, New Mexico, September 18th, 1884.

Said sale will be subject to approval and confirmation by said district court. W. E. DAME, Special Master.

NOTICE OF SALE.

In the District Court of the County of Bernalillo, Territory of New Mexico. The Bank of Commerce, et al., plaintiffs, vs. John A. Johnson and Julia Johnson, defendants. No. 5771.

Notice is hereby given that under and by virtue of the decrees of said court in the above entitled cause, dated December 15, 1900, the undersigned appointed Master in said decree for the purpose of executing the same, will on Monday, the 6th day of July, 1903 at 10 o'clock a. m., of said day, at the front door of the Court House of Bernalillo County, New Mexico, in Old Albuquerque, N. M., offer for sale and sell to the highest bidder for cash the property herein-after described, to satisfy the indebtedness decreed to be due to said Bank of Commerce from said defendants, to-wit: \$1,340.90 principal, and \$130.00 taxes paid, together with interest thereon at the rate of 1 per cent per month from the date of said decree, (Dec. 15, 1900) until paid, together with costs of said suit, including an attorney's fee of \$150, and which indebtedness was by said decree adjudged to be a first lien upon said property, and which indebtedness will on said day of sale aforesaid, with interest, amount to the sum of \$2,067.07, together with said costs of suit and costs of sale; and said defendants having made default in the payment of said indebtedness on or before ninety days after the date of the rendition of said decree, and which said indebtedness still remains due and unpaid. The property to be sold is described as follows:

Lot No. 8, in Block No. 19, in the New Mexico Town Company's Addition, as said Lot and Block are known and designated upon the Map of said Addition made by M. J. Mack, C. E., and filed in the office of the Probate Clerk and ex-officio Recorder of the County of Bernalillo on the 29th day of December, 1882, and being situate in the City of Albuquerque, in said County of Bernalillo, New Mexico. Said sale will be subject to approval and confirmation by said District Court.

THOMAS S. HUBBELL, Master. Dated this May 27th, 1903. 5t

E. P. E. BURLINGAME & CO., ASSAY OFFICE AND CHEMICAL LABORATORY. Established in Colorado, 1866. Samples by mail or express will receive prompt and careful attention. Gold & Silver Bullion Bought, Sold and Assayed on PURCHASED. Concentration Tests—100 lbs. or over charged free. Write for terms. 1736-1738 Lawrence St., Denver, Colo.

PATENTS. CAVEATS, TRADE MARKS, COPYRIGHTS AND DESIGNS. Send your invention promptly to Washington, where time, trouble and money are saved. My office close to U. S. Patent Office. FREE preliminary examination made. Also the best method of securing PATENT. PERSONAL ATTENTION GIVEN—15 YEARS' EXPERIENCE. Book "How to Obtain Patents" sent, with full, complete particulars, through E. G. Siggers, without charge, in the INVENTIVE AGE. (Illustrated monthly)—"What you can do with your invention." 915 F. St., N. W., E. G. SIGGERS, WASHINGTON, D. C.

50 YEARS' EXPERIENCE. PATENTS. TRADE MARKS, DESIGNS, COPYRIGHTS &c. Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is patentable. We advise, without charge, if no patent is possible. Our office is opposite the U. S. Patent Office, and we are connected with it by a special route, through which all communications are forwarded to the U. S. Patent Office, and all papers returned to us. Send your sketch and description to E. G. Siggers, Washington, D. C. A handsomely illustrated weekly, Largest circulation of any scientific journal, is published for you. Send for it. Settling Around Estancia.

A. H. Garnett and I. S. Cherry of Estancia, Valencia county, were in the capital city. They are new settlers in that section and have located on tracts of public land, which they will take up as homesteads as soon as surveyed. Within the past six months about thirty immigrants have settled within a few miles of Estancia upon the public domain and intend to make homesteads. They are mostly from Texas and Oklahoma and by the end of the year, Mr. Garnett and Mr. Cherry estimate that there will be 100 families located upon public land within a few miles of Estancia. Application has been made to establish a postoffice there. The settlers are erecting dwelling houses on their claims, getting the lumber from the Manzano mountains.

Repulsive Features.

Blackheads, pimples, greasy faces and muddy complexions, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c. at J. H. O'Reilly & Co.

FOUNTAIN SHOT HIS SON.

Tragedy of the Night Due to Fear of a Burglar.

Probate Judge A. J. Fountain of Mesilla Park, near Las Cruces, accidentally shot his 18-year-old son early yesterday morning, mistaking him for a burglar, says the El Paso News.

The boy was wounded in the side but it is reported today that he will recover.

The accident was one of those distressing affairs which will sometimes

occur. Young Fountain was seen climbing down from the roof of his father's dwelling sometime after midnight. His father was positive that the descending form was that of a burglar. He called on him to halt and receiving no answer, fired point blank.

The boy fell to the ground and as soon as a light could be brought the horrified father saw that he had shot his own son.

An examination showed that the bullet had made an ugly wound in the boy's side. He was given every attention possible and the best medical aid was summoned.

When the young man regained consciousness he stated that he had climbed upon the roof to look for some object which he had left there the previous evening. He failed to hear his father's summons to him as he was descending and the first intimation he had of danger was when the flash and report came and he felt the bullet strike.

A message received from Mesilla Park this morning states that the wounded boy is now considered out of danger and his recovery is only a question of a few days.

For Over Sixty Years

An old and well tried remedy.

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Bowling Contests.

R. A. Fullenwider, who owns the new bowling alleys on Railroad avenue, which have been looked for some time by the many enthusiastic bowlers of the city, opened Friday night and had as guests the Albuquerque Bowling League.

The Diamond C's, Owls and Stars were present and a lively three-cornered contest ensued. The Diamond C's won out by a neat score. C. W. Hanks carried off the honors of making the largest individual score—191 pins.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 110 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of the food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at J. H. O'Reilly & Co.

Biggest Park on Earth.

Los Angeles has its biggest park in the world. It was presented by a newspaper man of the name of Griffith and is called Griffith park. The giver asked that no railroad leading to the park should be permitted to charge more than 5 cents fare. Central park, New York, cost over \$15,000,000 and consists of 840 acres. Griffith park, Los Angeles, is a tract of 3,600 acres. It includes two and one-half miles of frostless foothills bordering on Cahuenga valley, five miles of Los Angeles river bottom and a beautiful little valley which originally was known as the Press colony site. The park has over 2,000 acres of tillable land and some of the most romantic scenery on earth.

The Perfect Liver Medicine.

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it. 'Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at J. H. O'Reilly & Co."

THE ALAMOGORDO SANITARIUM.

Funds Not All Raised for the Big Proposition.

The News in reporting the remarks of Mr. Charles B. Eddy concerning the big Alamogordo sanitarium which Col. A. S. Greig is promoting, erred in quoting. While Mr. Eddy spoke of the outlook for success, he did not say that all of the necessary funds had been raised. The amount required is large, and while Mr. Greig is working the subscriptions have not yet reached the amount needed to insure the construction of a sanitarium of such vast magnitude as is proposed.

Diphtheria relieved in twenty minutes. Dr. Thomas' Electric Oil. At any drug store.

El Paso Bank Loses Big Court Suit.

Fitzgerald Moore, the well-known New Mexico cattle man, won a suit at El Paso the other day involving city property valued at \$100,000. The case attracted widespread attention owing to the nature of the details. The defendant was the First National Bank of El Paso, of which Joshua Reynolds

SECRETS

At the Price of Suffering.

Woman on her way to semi-invalidism caused by pregnancy suffers much pain. Ignorance prompts her to suffer alone in silence and remain in the dark as to the true cause—motherhood.

Mother's Friend takes the doctor's place and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application to the breast and abdomen throughout pregnancy will enable her to undergo the period of gestation in a cheerful mood and rest undisturbed.

Mother's Friend

Is a liniment for external use only. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need send only to a drug store and for \$1.00 secure the prize childbearing remedy. Healthy babies are the result of using Mother's Friend. Our book "Motherhood" mailed free. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

of New Mexico is president. Moore claimed that he had conveyed half a block of choice city property to a trustee to secure his note held by the bank, and by private agreement the bank was to bid in the property and hold it until he redeemed it. Meantime the note falling due, the bank bought the property and resold it. On the stand Moore said he had made the deal with the bank to place the property beyond reach. Two years ago his wife and son were awarded three-fourths of his estate by the El Paso and New Mexico courts.

Night Has Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three \$1 bottles of Dr. King's New Discovery wholly cured me and I gained 55 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1. Trial bottles free at all druggists.

POLICE COURT.

Seven Hard Looking Specimens of Humanity Sentenced This Morning by Judge Crawford.

When Judge Crawford opened court this morning the bench was filled with seven very hard looking men. Not a one had any money and so all will work for this city.

Francisco Torres, who is a tailor, pleaded guilty of being drunk on the Lord's day. Five days was the verdict.

J. C. Craig, a soap peddler, for doing business without a license, got fifteen days.

Joe English got fifteen days for stealing ice from the Santa Fe.

Frank Sullivan, a plain drunk, will labor five days.

Pat Burke, who has a face on him that would be worth a fortune to him in a dime museum, got ten days for being loaded with rum.

A. J. Martin, who has been on a two weeks' drunk, got five days. Martin has asked for a doctor, as he is beginning to see strange things. He works on the Belen cut-off.

Tom Mack, who said he worked here twenty years ago, got five days for being out of order on account of too much beer.

Liberato Montoya, a 12-year-old native boy, was bound over to the grand jury under \$200 bonds. He is charged with assault with intent to rape on the person of Augustine Logsdon, a 3-year-old little girl. This is another occasion where a reform school is needed.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by all druggists.

Death of Mrs. Schecher.

Mrs. Anna Schecher, wife of J. L. Schecher, died at their home Friday night at 10:10 o'clock, aged 34 years. Mr. and Mrs. Schecher and daughter, a child two years old, came to Albuquerque a little over a year ago from Everest, Kansas. They were well to do people and Mr. Schecher engaged in the second hand goods business on Gold avenue, where he now has a store. Mrs. Schecher was born in Hungary, Australia, but moved to America and Everest, Kansas, at an early age.

The body will be shipped to the old home in Kansas, accompanied by the bereaved husband. The funeral serv-

ices will occur there as well as the interment. Mr. Schecher will leave this evening on his sad journey. An escort of members of the Knights of Columbus lodge will accompany the body to the depot. Undertaker Borders is in charge.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

American Gold Hunters Killed.

Gold hunters have been repulsed by the Indians in Mexico and three Americans have been killed in a fight according to advices brought to Arizona by Major Samuel Davis, just returned from the heart of the Indian country. A few weeks ago the prospectors brought in some remarkable nuggets and specimens of rich gold rock found by them in the Krakone valley, Mexico, and a stampede to the new diggings followed.

Major Davis pushed forward with his party and reached the diggings two weeks ago. The first party engaged the Indians in a pitched battle and three of the Americans were killed outright. The valley is practically a box canyon, with only one free place of egress.

Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Tex. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physician's prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by all druggists.

SUITS FILED.

Two Entered in District Clerk's Office of This District.

District Clerk Dame has recorded the following suits:

The Meyers Abel company, through their attorney, E. L. Medler, have brought suit against Aranda and company, Monico Aranda and W. W. Atchison, for a debt of \$203.75, which it is alleged the defendants owe the Meyers Abel company and which it is claimed they have persistently refused to pay. The debt is a balance due on merchandise sold by the plaintiffs.

Jose Pablo Molina and Altargracia Miera Molina, through Attorney Childers, to recover property and also damages to the extent of \$1,500.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

SCOTTISH DEGREE.

Well Known Sierra County Men the Lucky Ones.

C. T. Brown, the mining expert and engineer of Socorro, has been to Hillsboro, N. M., to communicate the degree of the Ancient and Accepted Scottish Rite of Free Masonry under the direction of Colonel Frost, the inspector general of the rite in New Mexico, upon six candidates, all well known citizens of Sierra county. They are Henry Abram Ringer, Thomas Jefferson Ross, Frederick Shaw, Panquhar Campbell, Oliver Andrew Gould and William Henry Bucher.

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Davo's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

A. O. U. W.

New Officers of the Order Installed Last Evening.

The newly elected officers of the A. O. U. W. were installed last evening, and after this work the inner man was finely treated.

The new officers are: Past Master Workman—F. F. Kings. Master Workman—W. F. Prisenner. Foreman—L. B. Miller. Overseer—A. P. Lane. Guide—Ralph Goodwin. Inside Watch—C. Jones. Outside Watch—A. R. Werning.

No man or woman in the state will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by all druggists.

SCHOOL BOARD.

Met Last Evening and Transacted Routine Business.

President Hopkins and Messrs. Isherwood, Pratt, Newman and Dickman of the school board of education met last evening in the Central school building.

The contract for school supplies was awarded to O. A. Matson & Co. No-

For Drunkenness, Opium, Morphine and other Drug Using the Tobacco Habit and Neurasthenia.

Keeley Cure

THE KEELEY INSTITUTE, DULUTH, MINN.

action was taken in the matter of appointing teachers to fill the several vacancies now existing in the force of city teachers.

DEATH OF MRS. HUBBELL.

Wife of Sheriff Hubbell Died This Afternoon.

A few days ago Mrs. Thos. S. Hubbell was stricken with spinal meningitis, and her physician could do nothing to relieve her and death came as a relief this afternoon at 2 o'clock.

Mrs. Hubbell was 35 years old, and leaves a father, husband and son to mourn her untimely death. She was the only daughter of Hon. T. C. Gutierrez, and was loved by a large circle of friends.

The bereaved husband is in the east and cannot reach here before tomorrow night.

O. W. Strong's Sons will have charge of the funeral, which will not occur till Mr. Hubbell returns.

At the moment of her death, her father, Frank A. Hubbell and wife, Felipe Hubbell and wife and Mrs. H. F. Lee were at the bedside.

Everything that medical skill could do was done to save Mrs. Hubbell's life, but from the first she was fatally stricken.

Just About Bedtime.

take a Little Early Riser—it will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are different from other pills. They do not gripe and break down the mucous membranes of the stomach, liver and bowels, but cure by gently arousing the secretions and giving strength to these organs. Sold by B. H. Briggs & Co., S. Vana & Son.

SANDOVAL COUNTY.

The County Commissioners Met Yesterday at Corrales and Talked Assessments.

The Sandoval county commissioners met yesterday afternoon at Corrales and received complaints in the adjustment of assessment returns. They are in session today.

Attorneys Summers Burkhardt, W. C. Heacock and Frank Ackerman of this city were there in the interest of clients, and T. B. Catron of Santa Fe.

All Druggists Will Buy It Back.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. All druggists will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

AT WORK.

Executive Committee of the Territorial Fair Association Busy Now-A-Days.

—They Visit Fair Grounds Today.

Dr. F. A. Jones, superintendent of mineral exhibits and World's Fair commissioner, Secretary McCanna, C. C. Hall, superintendent of the bronco busting contest, and J. H. O'Reilly, all members of the executive committee of the Territorial Fair association, visited floral hall and the fair grounds this forenoon with a view of looking over things prior to making needed improvements.

It is three months off before fair time, but none too soon to begin work. The grounds will be put in the best possible condition and to make sure of doing a thorough job the committee will begin work early. Dr. Jones is going to have a mammoth display of New Mexico's minerals—the best yet—and preparations for the care and storage of the minerals are being made.

For a lazy liver try Chamberlain's Stomach and Liver Tablets. They invigorate the liver, aid the digestion, regulate the bowels and prevent bilious attacks. For sale by all druggists.

Some man, not a very close observer, made a mistake yesterday and took from in front of the First National bank W. Y. Walton's bicycle instead of his own. Mr. Walton doesn't think it's fair trade and would be exceedingly grateful to have his wheel returned to him at his drug store on Railroad avenue.

Sheep Men.

The Bernalillo county commissioners have met again. Some sheep men have had their assessments raised and some have been allowed to stand without the increase added by Assessor Albright.

The sheep men who were raised were:

E. G. Garcia, increase \$2,000; Juan Garcia, increase \$500; Ilfeld Bros. \$2,000; Isidro Sandoval, \$1,000; Maximiliano Gutierrez, \$1,000; Policarpo Armijo, \$1,250; Antonio Jose Herrera, \$600; Nicholas Herrera, \$500; Vidal Chavez had not made any return on his sheep and was assessed at \$1,000.

The following sheep men's assessments were allowed to stand as put in by them and the increase added by the assessor were removed:

Hilario Sandoval, Alejandro Sandoval, Jacobo Yrisarri, Severo Sanchez,

CITY COUNCIL.

Regular Meeting Last Evening Spirited Time Over Labor Bill.

MAYOR MYERS SUSTAINED.

The city council met last evening in the city hall and had a somewhat spirited meeting as well as a lengthy one. Mayor Myers president and Aldermen Harrison, Hobbs, Harsch, Grunsfeld, Rogers and Beavens answered the clerk's roll call.

Mayor Myers appointed Officer Harry Cooper assistant city marshal, and the council approved by a unanimous vote.

The quarterly pay roll of \$2,749.50 for the city officers was ordered paid. All the city officials presented their monthly reports. The city has a balance of \$5,719.59 in the treasury. Partial reports from the street committee were heard, and action on these will be taken at the next meeting. The mayor appointed a committee composed of Messrs. Hubbs, McKee and Harsch to confer with the county commissioners in the matter of strengthening and repairing the Alameda dyke.

Various bills were presented against the city and were referred to the proper committees, after which Mayor Myers presented his bills that had been incurred by him in protecting the people of this city and their interests against the flood. It will be remembered that on June 17 the council held a special meeting, when it was voted to give the mayor full power to act in the matter.

Mayor Myers went ahead; did the best he could, and the result was that the waters were stopped from reaching this city.

Last evening he presented his bills, which had been signed O. K. by the county commissioners, and there was a howl from Alderman Grunsfeld that he, as chairman of the finance committee, should have two weeks to look them over in. The bills were made out correctly and part of the labor bill had been paid out of Mr. Myers' own pocket and he thought that as the council had authorized him to go ahead, he should be paid and not wait Mr. Grunsfeld's pleasure.

President Harrison said he was in favor of paying the mayor the amount of the labor bill; that it had been audited by the county commissioners and the mayor, and that the council should stand back of their vote on June 17. The mayor had certainly done his duty.

Alderman Heaven didn't want to see the bill rushed through, and Alderman Hubbs wanted time to look it over, but he voted for it to pass later. The mayor said he had settled the bill in cash and had done so on account of the vote of the council, which authorized him to go ahead.

The labor bill is a little over \$2,000, and the city stands half and the county the other half. The other bills were for supplies, food, etc., for fighting the flood last month. Some of them were: Blanchard Meat & Supply Co. \$31.95

F. E. Sturges..... 57.15
A. J. Maloy..... 3.15
Jo hn A. Lee..... 118.00
E. J. Post & Co..... 239.95
Trimble & Co..... 341.00
Gross, Kelly & Co..... 1,022.73
J. F. Palmer..... 5.00
J. A. Hubbs..... \$2.25 and 6.50
Charles Maudard..... 135.00

Alderman Grunsfeld said as chairman of the finance committee he'd got the right to hold them over two weeks, that a subscription paper should be started and the business men should pay these bills instead of the city.

Some of the citizens present were asked to express their opinion in the matter and Berthold Spitz said the mayor did his duty and should be backed up by the city; that Alderman Grunsfeld couldn't get a baker's dozen to sign a subscription paper in its ward and that he was mistaken in this affair. Jacob Korber was with the mayor, and so were the Messrs. Ilfeld and Luthy.

A vote was taken, Alderman Grunsfeld and Heaven voting no. There was more talk and Alderman McKee, who was known to be in favor of sustaining the mayor, was sent for and another vote was taken, which resulted in the bill for labor on the dyke at Alameda and on the Fourth street dyke was ordered paid by the city. One-half of the amount is \$1,024. A large majority of our leading citizens are with the mayor in this matter.

Harry Badstuber, millwright for the American Lumber company, says that the new mills now building will soon be a thing in reality. They are building rapidly. A foundation is now being laid for the power engines.

City Engineer Pitt Ross left this morning for the Chilli country, where he will do some surveying for Wm. McIntosh, the sheep man. He will be absent from the city only a few days, and, after returning here in a week, will go by wagon to Mountainair, the new town on the Santa Fe cut off.

DOWN INTO A WASHOUT.

Fatal Accident to Occupants of Wagon in Sierra County.

It is with deep regret that we have to record the death of Mrs. C. P. Sullivan, at the ranch, after a period of about four days of almost constant suffering. On the Monday previous, she was returning home with her father, Joe Hinesley, and her two children, from Monticello. They had about reached the ranch, when, owing to the growing darkness, the traveled road was lost sight of, and the horses plunged into a washout some five or six feet deep. Mrs. Sullivan was caught beneath the wagon, which passed over her chest and also injured her hip bones. Mr. Hinesley had three ribs broken, and the little boy received a cut on the neck. The little girl, in her mother's arms, miraculously escaped all harm. Mr. Sullivan, who, it seems, had just ridden ahead on horseback, now returned to render assistance to his stricken wife, whose labored breathing told only too plainly the story of some internal injury, and from whose lips the toll tale blood was issuing. She was tenderly borne to the house from whose portals she was destined never more to come forth alive.

Dr. Wegmann was summoned but, beyond administering some morphine, could do nothing. It was, perhaps, a case in which no human skill could have called back to life the fleeting breath, and when the end came who shall say that it came not as a merciful termination of her suffering.

Mrs. Sullivan was a bright young woman, a devoted wife and mother, and her early death, under circumstances so distressing, was a shock to her many friends here. Her married life was an ideally happy one and the heartfelt sympathy of the entire community goes out to the husband thus deprived of her companionship, and to the two children thus early bereft of a mother's love and care. The interment took place at Monticello.—Sierra County Advocate.

Judge Clement Smith's Arrival.
District Clerk John E. Griffith received a communication yesterday from Hon. Clement Smith, the newly appointed judge of this district, stating that it would not be possible for him to come to Socorro for some time. Judge Smith will come as an entire stranger to the people of the district, but judging from all reports concerning him he is well worthy of the cordial welcome he is sure to receive.—Socorro Chieftain.

ZINC AT MAGDALENA.

Development Up There Surprises the Old Miners.

G. E. Roe, division freight and passenger agent for the Santa Fe system, returned from a trip to Magdalena, N. M., and other points in the northern division. He says that the miners of Magdalena have furnished a sensation recently by developing rich deposits of zinc. The old Graphic mine, which was not thought to have zinc enough for shipping, has developed ore which is rich enough to be shipped to Mineral Point, Wisconsin, and to Joplin, Missouri.

The ore is being shipped steadily, and thus far about 2,000 tons have been smelted there at a profit. The smelters at Magdalena have closed down, but Captain Fitch, the owner of the Graphic, is making a good thing of the shipments.

The discovery will be a great thing for the Magdalena country, as it develops a zinc industry which will amount to some importance. It is stated that the zinc ore bodies are very large all through the Magdalena district and the recent discovery will open a rich field for prospecting.—El Paso News.

Reward for a Murderer.

The traders on the southern side of the Navajo reservation in New Mexico have subscribed \$435 to be offered as a reward for evidence that will lead to the arrest and conviction of the person or persons who murdered Emmett Pipkin, at the Box S ranch, on the 12th or 13th of June. The commissioners of McKinley county also have offered a reward of \$200, making a total reward now offered of \$635. It is hoped that the party or parties will be speedily brought to the bar of justice.

SCALPERS KNOCKED OUT.

Expected to Reap a Harvest at St. Louis—Scheme Nipped in Bud.
Ticket scalpers will find it difficult to ply their vocation in St. Louis during the Louisiana Purchase exposition next year. The relief prayed for in the circuit court in St. Louis by several western roads in a series of more than forty suits has just been granted in the form of a temporary injunction re-

straining a number of the ticket brokers from dealing in non-transferable railway tickets.

The injunction was issued by Judge Hough after a conference with the other circuit judges in St. Louis, who sat in general session at the hearing of the petition brought by the roads for an injunction. The injunction is directed against the ticket brokerage firms of E. J. Gildersleeve, George L. Hirt, Max Schubach, Wesserman & Co. and Chas. J. Billings, the Missouri Pacific and St. Louis & San Francisco being plaintiffs in these particular cases, but the order is the result of an agreement on the part of all the judges, and the same order will issue in all the cases before the court.

The order of the court enjoins the scalpers from "buying, selling, dealing in, or soliciting the purchase or sale of any mileage, excursion, commutation, or any other kind of limited, non-transferable passenger ticket."

The exposition management is the real plaintiff in these cases. The western roads have been asked to make unusually low rates to the exposition. This they refuse to do unless they are assured that the tickets cannot be manipulated.

Hail Storm.

People from Alamogordo and Cloudcroft report that the heaviest hail storm known for months visited the top of Sacramento mountains Sunday afternoon and night. The storm started with rain, in the midst of which was heavy hail. The ground was covered to a thickness of several inches.

ALAMOGORDO-DEMING RAILROAD.

The Short Line a Certainty in Near Future.

From a reliable source the Alamogordo News learns that the Alamogordo-Deming railroad will be built.

The absence of any good reason for this project has heretofore made us skeptical about its seriousness, but now that we have had an insight into the resources that prompt it all doubts are removed.

The enterprise is backed by the American Fertilizer & Chemical company of Virginia. On the line of the road they have unlimited deposits of pure soda, pure gypsum, borax and a very large body of bat guano in caves in the mountains just north of San Augustine pass, through which the road crosses the range. The close proximity of the valuable chemicals will enable the promoters to make a great variety of merchantable chemicals at very much lower prices here than elsewhere. The great chemical works of Detroit are supplied with their soda from deep wells, the percentage of soda being low and the extraction expensive when compared with finding it pure as they can here. With another road here, Alamogordo will be an ideal place for establishing the chemical works.

It is also a part of the plans of the promoters of the road to locate a smelter at Alamogordo. Large deposits of ore exist adjacent to the proposed route, and fluxes and fuel can be obtained at less cost than at El Paso.

The foregoing is not idle gossip, but information derived from thoroughly responsible sources.

Brotherhood at Alamogordo.

The lodge of the Fraternal Brotherhood in Alamogordo is perhaps the most flourishing in New Mexico. Although organized but a few months, it has a membership of 123 and an average attendance of about eighty at its meetings. During the past three weeks an increase of forty-nine members has been made in the lodge, and a team of fifteen does the initiation.

SAN BERNARDINO HAS LOST.

Santa Fe Will Let Contract for Hospital at Los Angeles.

The following from the Los Angeles Express will not be relished by some thousands of railroad men in this city, says the San Bernardino Times-Index, while the board of trade committee will have something to think about when it remembers how it loved and lost:

"Contracts that will make the proposed new Santa Fe hospital a certainty will be let in a few days. The structure will occupy a block in Boyle Heights, purchased when property in that section was much cheaper than it is at present. The site was secured about three years ago, and could be sold now for three times the price paid for it."

It is located on Sixth streets, between St. Louis and Chicago streets, and overlooks Hollenbeck grounds and Hollenbeck home. The building will accommodate several hundred patients and will house all of the company's cases between Los Angeles and San Francisco and Albuquerque. It will be ready for occupancy early next year.

"At present Santa Fe railway patients are accommodated in the Sisters' hospital."

Commission of Irrigation.

The territorial commission of irrigation will meet at the office of the secretary, Col. George W. Knaebel, in Santa Fe, on July 15 at 2 p. m. Much important business will be brought before the commission for action.

OFFICIAL MATTERS.

Several of the Territorial Boards Hold Meetings.

GREETING TO THE PHILIPPINES.

Governor Otero has appointed the following notary public: Addie E. Potter of Georgetown postoffice, for Grant county.

Capital Custodian Committee.

The capital custodian committee met at the capital. President N. B. Laughlin, Solicitor General E. L. Bartlett and Land Commissioner A. A. Keen, secretary, were present. It was decided to order new furniture for the office of the superintendent of public instruction and to get new flags for the building. Several other repairs were decided upon, among them being the painting of the dome of the building. Paint was ordered for the work. It was determined that a well should be bored on the grounds, the water to be used for irrigation purposes when the city water supply is short.

Territorial Land Board.

The territorial land board was in session at its office in the capital. There were present Governor Otero, president, Solicitor General E. L. Bartlett and A. A. Keen, land commissioner, secretary. Several applications for land leases were submitted, approved and ordered forwarded to the interior department for further approval. The application of Clark M. Carr of Guam, McKinley county, to exchange certain lands owned by him in the vicinity of land owned by the territory for a similar number of acres of the territory's lands, was declined, there being no statute under which such exchange or transfer could be considered or made by the board. After transacting routine business the board adjourned until its next regular monthly meeting.

Repairs on Federal Building.

W. Haverstick, general superintendent and inspector of supplies for the treasury department, thoroughly inspected the federal building. He found everything in excellent condition, and states that he will report to headquarters. Upon the request of Judge A. L. Morrison, custodian of the building, \$598.65 will be expended in improving and repairing the building and its surroundings. The contract for repairing the gutters around the building, constructing a new walk in the circuit in front of the building and a bridge across a small ditch in the rear was awarded to F. P. Critchton. The contract for repairing the stairs in the building was awarded to Whitlock and Carlson. A new brick floor is to be placed in the basement and boiler room, and the contract for this work was awarded to Antonio Windsor. The work is to be commenced as soon as possible.

Greetings to the Philippines.

On Saturday, July 4, Governor Otero sent the following message to Governor Taft of the Philippine islands, via the Postal Telegraph company to San Francisco and via the new Pacific cable to Manila:

Santa Fe, N. M., July 4, 1903.

His Excellency, William H. Taft, Governor of the Philippine Islands, Manila, P. I.

The oldest United States territory sends greeting to youngest, on the anniversary of our independence; and congratulations on the advancement made by it under your wise and beneficent administration, which will be further increased by the completion of the great cable which gives direct communication with the entire nation.

MIGUEL A. OTERO,

Governor of New Mexico.

Incorporations.

Articles of incorporation were filed at the office of the territorial secretary by the Bigelow Gold and Copper Mining company. The company is authorized to do a general gold, silver and copper mining business, to prospect for these minerals and for oil, to manufacture gold, silver, copper, coke, lumber, wares and other articles and materials, to construct buildings, hotels, bridges, stores, shops, machinery, engines, factories, railroads, cold storage ware houses and electric works; to deal in and raise cattle and live stock, to construct water mains and to have and to lease water rights. The capitalization is \$3,500,000, which is divided into 350,000 shares of the par value of \$10 each. The first board of directors is composed of J. M. Webster, John C. Plemmons, Hillsboro, N. M.; William Buchanan, J. H. Bigelow, Morris Phillips, J. F. Harby of the borough of Manhattan in the city of New York. The principal place of business is to be at Hillsboro, N. M., and the term of existence is fifty years.

Territorial Funds.

The following territorial funds were received at the office of J. H. Vaughn, territorial treasurer: From A. M. Berger, clerk of the First judicial district, \$327.15, clerk's fees; Secundino Romero, clerk of the Fourth judicial district, \$633.15, clerk's fees; W.

E. Dame, clerk of the Second judicial district, \$483.50, clerk's fees.

Survey Ordered.

Orders have been issued at the office of the surveyor general for the survey of the Eureka lode mining claim situated in the Jicarilla mining district in Lincoln county. This is survey No. 1169 and the claimant is W. S. Peters of White Oaks, N. M. The survey is to be made by Clarence Goddard of Ancho, United States deputy mineral surveyor.

Wreck Near Bisbee.

Reports received from Bisbee indicate that a disastrous wreck took place Saturday morning on the hill near town. A freight train, in charge of Engineer Joe Rice and Fireman Carter became unmanageable on the down grade and crashed into a lot of freight cars and a passenger coach. The damage is estimated at about \$7,000, as the freight cars and engine were almost wrecked. Two trainmen jumped and escaped injury.—El Paso News.

CAPTURED "WATER DOG."

One of Our "Fish" Reaches El Paso, Texas.

The El Paso News says that a Mexican captured a "water dog," a species of the salamander, in the Rio Grande this morning and was offering it for sale on the streets for a dollar, and, although the thing attracted considerable attention, he had found no buyer the last time a Herald reporter saw him.

The thing is about six inches long and did not appear to be suffering from the heat of this section, although such creatures are said to be foreign to these waters, and it is a mystery how it got here, as much so as how the beaver that was found at Albuquerque a few years ago, got so far south.

The water dog is an inhabitant of the brooks and creeks in the north, and persons who have lived in that section of the country are familiar with them, but to natives of this section they are curiosities. For a long time after the Mexican captured the thing this morning nobody was able to tell what the "half fish and half lizard," as they termed it, could be, but finally a man passed the exhibition point at the Lowden bank corner and identified it. He said that he had caught many of the things in the streams of Kentucky, and that they gave fishermen more trouble than the turtles in this section of the country, not being fit to eat, but being mean after bait on the hooks.

In shape the thing is like a cat fish, with a head very nearly the same, but it has two forefeet and two back feet just back of the center of the body that look like the feet of a lizard. It also has a peculiar growth about the gills that is not seen on a fish. It has a tail just like a cat fish.

ARRESTED FOR LARCENY.

Charged With Stealing Jewelry at Las Vegas.

Nelson Mason and Morgan May, colored, supposed bold men, were arrested on the acre last night by City Marshal Thomas McMillin and Assistant Harry Cooper. Mason and May are suspected of having committed larceny at Las Vegas. A quantity of jewelry was found on them and the evidence is almost conclusive.

Marshal McMillin notified the proper authorities at the Meadow city, and Marshal L. E. Curtright of Las Vegas telegraphed back that he would come down tonight and get the prisoners.

Mason and May claim that they bought the jewelry at Las Animas, Colorado, where they have been working.

J. A. Cullum of La Junta is the new day roundhouse foreman at Raton who takes the place of Charles Langton, resigned. Mr. Langton has gone to Omaha.

THE TUESDAY CLUB.

Program Outlined for the Coming Season of 1903-4—English History to Be Studied.

The Citizens' office has just issued a neat book for the Tuesday Literary club of the Duke city.

In it is the program and other interesting data for the members. The officers of the Tuesday club are:

President—Mrs. Birtwell.
Vice President—Mrs. Marsh.
Secretary—Mrs. Crisley.
Treasurer—Mrs. Walker.

The committee which has formulated the program for this year's work is composed of Mesdames Stroup, Crisley, and Moore. The full membership of the club follows:

Mesdames Olivia Morton Birtwell, Clara Josephine Baldrige, Clara Louise Cornish, Estelle Gillespie Crisley, Daisy Cones Hickey, Kitty Bower Hope, Ethel Lester, Kitty Hicks Marsh, Florence Odie McMillen, Nerva Duff Moore, Euphemia Nelson Apple, Mary Lines Newcomer, Sybil Duncan Ray, Evelyn Stingle, Jessie McMillan Stroup, Ella E. Walker.

The first meeting of the club will be held October 6 at the home of Mrs. Birtwell. Green's short history of the English people will be studied. The club works from the first Tuesday in October until the last Tuesday in May. The Tuesday Literary club is a credit to Albuquerque.

A PRAYER CURE.

Otto Nater Healed of Tuberculosis in This City.

THE PENTECOSTAL BAND.

Are the days of miracles past? Do we live in the dawn of a new dispensation?

These are the questions suggested by the following remarkable prayer cure that has taken place in this city. Otto Nater was one of the brightest and most promising youths in Streator, Ill., and for three years was employed in the Streator National bank. Two years ago he was stricken down with peritonitis. He never fully recovered. On rising from his sick bed he found the disease had left its indelible imprint on him, and he could not rally from it. The doctors diagnosed his case as tuberculosis of the peritoneum, and advised—as usual in cases beyond the reach of medicine—a change of climate.

Young Nater came to the Duke city, the sunshine city of the southwest, where for the past eighteen months he wrestled with his disease, but without avail. The climate did not seem to benefit him much on account of his coming so late, and he grew weaker day by day, until he felt there was no hope for him, and about a month ago he made up his mind to go home to Streator—probably to die. Miss Leonora Nater, his sister, was here with him during his illness, and she is a firm believer in the faith of the Pentecostal band, a faith which affirms the potency of Divine healing.

She induced two divine healers to come to this city from Michigan. They were father and son and their name is Baker. Otto attended a service about a month ago, and was visibly improved but did not at the moment feel the force of conviction. A day or so after he went out for a walk. Previously the chicken coop at the back of the lot had been his limit, but this morning he felt different, and he did not stop at the boundary of the lot. He walked on and on, the farther he walked the better he felt. There was new vigor in his muscles, a keener zest in his nerves, and the joy of new courage in his heart.

His enthusiasm carried him without effort for miles, until at last he came to the side of a foothill; but never stopping he pressed still onward up the steep and rugged slopes, without weariness and without pain, until he stood triumphantly on its summit. It was there the realization came to him. Like an illumination came the thought, "I am healed," and, throwing his hat high in the air he shouted with joy, "Glory to God!"

Such is the story of Otto Nater's cure. This case is unique, too, in that there is plenty of testimony, which cannot be questioned.

A prominent citizen of Streator was here the Sunday the divine healers held their service here. He went on to Texas and returned in ten days and he saw his friend again. A most wonderful change had taken place, a change that was unmistakable, and on ordinary grounds, unexplainable. Ten days before Otto, the two years' invalid, seemed ready to die; now he is ready to live, full of courage, hope, interest and gratitude to God, whom he believed had cured him.

When seen this morning by The Citizen representative Mr. Nater was at work in the Woman's Exchange store on Railroad avenue. He said that tomorrow morning he was going to his Illinois home. Since his cure he has been at work from 6 o'clock in the morning to 6 o'clock at night. His father is a prominent physician in Streator. The cure seems to be one of the most remarkable on record. There is no getting out of it for the facts are indisputable. Nater was sick unto death and now he's well.

ODD FELLOWS.

Officers of Harmony Lodge, No. 17, Installed Last Evening—Odd Fellows Will Soon Erect a Temple.
Harmony Lodge, No. 17, I. O. O. F., had an installation last evening. District Deputy Henry Rogers installed the following officers:

Noble Grand—F. H. Strong.
Vice Grand—William Dean.
Secretary—O. S. Pillsbury.
Treasurer—Henry Brockmeyer.
Outside Guard—O. A. Matson.
Inside Guard—H. O. Strong.
Warden—Gus Gustafsen.
Conductor—S. Vann, Jr.
R. S. to N. G.—Henry Rogers.
L. S. to N. G.—William Love.
R. S. to V. G.—M. H. Sablin.
L. S. to V. G.—F. G. Pratt.
Chaplain—N. E. Stevens.

After the work ice cream and cake were enjoyed and a smoke.

Harmony Lodge is in good working order and the membership is constantly on the increase.

To Build Soon.

Albuquerque No. 1 and Harmony No. 17, which now own the lot at the corner of Lead avenue and Second

streets, situate the Odd Fellows' hall, have purchased the property known as the College building and grounds.

This gives the Odd Fellows title to the entire quarter block at northeast corner of Lead avenue and Second street.

Preparation and plans are now going on with a view of building an Odd Fellows' temple that will be a credit to the Odd Fellows and to the city of Albuquerque.

Some Facts.

Here's the experience of a western farmer. Ten years ago he put an X mark on a silver dollar and went to town and spent it with a merchant. Before the year was out he got the marked dollar back for poultry and spent it again with a local merchant. Four times in six years that dollar came back to him for produce and at other times he heard of it in the hands of his neighbors. The last time he got it in change nearly four years ago he sent it to a Chicago mail order house that had amassed a hundred million dollars by selling third rate goods for high prices. He has not seen the marked dollar since and never will till the crack of doom. That dollar will never pay any more school or road tax for him, never help build up the town or country, never bless or brighten the homes of his neighbors. He sent it entirely out of the circle of its usefulness to him.

PROBATE COURT.

Will Admitted to Probate and Other Matters Ground Out.

The probate court was in session all day yesterday, and is again in session today. The following business was transacted:

Lillian M. Robins was appointed guardian of Gordon M. and Russell Robins.

The report of Alvina Halbekann, guardian of Minnie and Albert Merrett, minors, was presented to the court and approved.

The final report of the administratrix of Charles McDonald, was approved and administratrix was discharged.

The final report of John A. Lee, administrator of the estate of William E. Talbot, was approved and administrator was discharged.

The final report Flora Armijo de Baca, administratrix of the estate of Christobal Armijo, was approved and the administratrix discharged.

The petition of Nestoras Garcia de Gomez asking to be appointed administrator of the estate of Jose Anizeto Gomez, was granted, administratrix to serve without bond.

An order was issued in the matter of the estate of Carrie C. Wright, also in the matter of the guardianship of Laura A. Krawinkel.

Lorenzo Lucero de Baldonado presented a petition asking to be appointed guardian of certain minor children, which petition was granted, guardian to furnish bond in the sum of \$2,400, which was duly filed.

The will of the late Rufus C. Vose was presented and read in open court and the same temporarily approved and admitted to probate. Hannah B. Draper was appointed executrix to serve without bond, and the court thereupon fixed Monday, August 4, as the date for the final hearing.

An account of the First National Bank of Albuquerque against the estate of Anna M. Kemmerer for the sum of \$50 was approved by the administrator and allowed by the court. The report of D. H. Boakright, administrator of said estate, was also filed and approved.

A petition was presented by Encarnacion Archibque and Juan Esquivela Archibque, heirs at law of Juan Domingue Archibque, deceased, praying that a citation issue to Pablo Archibque and Juan Dominguez, administrators of said estate, requiring them to make a report under oath as to what disposition they have made of the sum of \$940, claimed by said petitioners to have been paid to them, and also to show cause why they should not pay to the said heirs their share as heirs and distributees of said estate; and also to pay to said Encarnacion Archibque the share coming to her from her mother, whereupon the court orders a citation issued returnable on or before the first Monday in August, 1903.

Police Court.

Jack Smith, a camp cook, was charged with being a vagrant this morning. He was discharged as he'll get out of town today or go to work.

W. M. Pollard, a miner, was charged with being drunk. He said he had too much of "Kentucky joy" in. He paid \$5.

Pablo Jaramillo got drunk and used abusive language to his wife. He'll pay the city \$15 or work that number of days.

T. M. Sandoval, for being drunk and disorderly, was fined \$5.

Marie Chaves, who looked as if she'd been hit with a sledge hammer, got five days for being loaded with fire water last evening.

George Leonard, of the firm of Hall & Leonard, music dealers, has recovered from a slight indisposition.

ELKS' OPERA HOUSE.

Work Delayed by Tardy Arrival of the Material.

FINE ATTRACTIONS BLLED.

The pressed brick ordered from the east to be used in finishing the Elks' new opera house has not arrived yet, although the bill is here and they have been on the road two weeks.

Notwithstanding this unlooked for and aggravating delay the building committee is not discouraged in believing that the new play house will be ready by the first of September.

O. A. Matson, who has managed Columbo hall with such flattering success, has been tendered the management of the Elks' opera house, and accepted.

The coming winter the new opera house will be the scene of many first-class entertainments and Albuquerque theater goers will not want for pastime and amusement. Manager Matson has a caller up and booked the following attractions:

September 6—His Absent Boy, by the Harry Carson Clark company.

November 8—For Mother's Sake, by Marie Heath, the little sunbeam.

January 1—A Millionaire Tramp.

January 6—At the Old Crossroads.

January 13—Murry and Mack. They are the original Charles A. Murry and Ollie Mack, two of the funniest mortals ever created.

January 15—Ellery's Royal Italian Band.

January 22—Richard and Pringle.

February 5—Ward and Wade minstrels.

February 11—Joshua Spruceby.

February 16—The Little Red School House.

UP AT CERRILLOS.

The Fourth of July Celebrated in Great Style

The glorious Fourth was celebrated in royal style up in lively Cerrillos.

The great feature of the afternoon was an exciting base ball game between the Red Sunbonnet nine and the smelt-ers boys. The Sunbonnet aggregation was composed of Miss Kittie Hull, catcher; Mrs. Gertie Dague, pitcher; Mrs. Della Silvers, first base; Miss Caroline Grant, second base; Miss Lillie Coleman, third base; Miss Philomena Michael, short stop; Miss Emma Partridge, right field; Miss Eula Hartley, left field, and Miss Jennie Garcia, center field.

The Sunbonnet fairly wiped up the earth with their opponents of the sterner sex, and the Smelter boys were "all in" when the gong sounded.

The Sunbonnets fairly wiped up the wired at once by Billy Berry and a game arranged for this city.

Altogether the Fourth of July at the smelter town among the turquoise hills was a day long to be remembered.

Actual work on the Santa Fe cut-off between Canby and Havana, Kan., is in progress. The seven mile line will be completed in sixty days.

LETTER LIST.

Remaining in the post office at Albuquerque, N. M., July 11, 1903.

Persons calling for or sending for these letters please state where they had been receiving mail, also mention date of advertising.

Free delivery of letters at the residence of addressee may be secured by observing the following rules:

Direct letters plainly to street number.

Give writer's name, and request answer to be directed accordingly.

Advertised matter is previously held one week awaiting delivery.

Advertised matter is held two weeks before it goes to the dead letter office at Washington D. C.
