Albuquerque Weekly Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, AUGUST 8, 1903.

NUMBER 99

NEW MEXICO TOWNS

SANTA FE.

From the New Mexican.
During the absence of Miss Grace Kennedy on the Pecos forest reserve, E. A. Johnston will do the stenographic work in the offices of the Gibson Development Company and the American Consolidated Copper Company.

Adolph Fieldner and H. N. Fieldner of Cleveland, Ohio, who have been sojourning at the Sunny Side ranch adjoining Summit, for the past three months, have gone to the Nueces ranch in the Tesuque valley where they will remain during the next six weeks or two months.

The Board of Trade has appointed Mayor I. Sparks, a delegate to the Trans-Mississippi Commercial Congress to be held at Seattle, Wash., August 17 to 21. Also the following delegates to the Mining Congress at Deadwood, S. D.: Hon. L. B. Prince, A. R. Gibson, and Colonel George W. Knaebel.

Nicholas Galles, register of the United States land office at Las Cruces, is in town the guest of Mr. and Mrs. A. G. Kennedy on Palace avenue. Mr. Galles is on a leave, which he will spend partly here, and some of it in Lincoln county, fishing on the floodwaters of the Rio Ruidoso and Rio Bonito.

Associate Justice J. R. McFie desires to inform the members of the bar that he will hear no more cases in chambers during the remainder of the week, as he has several opinions in cases pending in the Territorial Supreme court, in hand, which he expects to finish by Sunday. This will take up his time till then.

Mrs. R. C. Huber, wife of the deputy sheriff, has the distinction of having served a warrant, Saturday while Sheriff Kinsell and Deputy Sheriff Hoyer were both out of town looking for a horse thief. Mrs. Huber learned that one, Canuto Provo, was in town, and knowing that her husband had a warrant for him which had not yet been served, she took the warrant, served it, and the man gave bond for his appearance to answer the charge of disturbing the peace.

Mrs. R. Green, who owns the Palace hotel at Cerrillos, arrived in this city. She was accompanied by her 15-year-old son, Richard, whom she brought here for surgical attention. Some four days ago Richard had the misfortune to fall from a swing, and the middle finger of the right hand was dislocated and the bone protruded from the skin. He was treated, but the arm was swollen badly and is yet in a very serious state. Mrs. Green and her son will remain in Santa Fe for several days.

What came near being a very serious affair took place on San Francisco street where it enters the plaza. E. F. Hobart was driving toward the plaza in a light spring wagon when his horse took fright and in a frantic effort to turn, came near upsetting the wagon, besides running into other vehicles and passing the wheels of the wagon upon the walk. Luckily the shafts gave way and freed the horse from the wagon, and bystanders rushed in and caught the animal, preventing further excitement.

LAS VEGAS.

Ollie Erickson and Clarence Iden left for their sheep ranch below Santa Rosa. They will be gone about ten days.

Adolph Voigt, a practical printer and formerly editor of the Alice Reporter, published at Alice, Texas, is here. He is in a streak of hard luck financially as well as physically, and is in the west for climatic benefit.

At a regular meeting of Typographical Union No. 312, the following officers were elected for the next term of six months: F. M. Jones, president; J. P. Joquel, vice president; L. T. Whitson, E. J. Scott, Charles E. Brown, executive committee; Joseph Wadlingham, secretary-treasurer; E. J. Scott, sergeant-at-arms.

Dr. F. E. Olney left for Leavenworth, Kas., called by the sad news of the death of his brother, a dentist of that city. The deceased had been ailing for a year, but there was no thought of any sudden termination to the disease. The gentleman had written last week of his intention to come to Las Vegas for his health.

Friday evening, a gathering, none the less pleasing because it was unexpected, was entertained at the home of Mrs. B. C. Marshall, president of the local W. C. T. U. society. A gay party of friends had learned that the day was the anniversary of the lady's birth and got up a genuine surprise. Mrs. Marshall was equal to the emergency. Music and games made the evening pass delightfully. A dainty lunch was served. The Normal band was present and discoursed several enjoyable selections. The wishes for

many happy returns of the auspicious day were numerous and hearty.

AZTEC.

From the Index.
A. B. McClure, who was thrown from his buggy a few days ago, has been suffering from his injuries. Dr. McKee removed an abscess from his skull.

The young men of Aztec are discussing the question of organizing a militia company, with Colonel Welsh as captain. Splendid idea. Military drill is good exercise, teaches the young discipline and is a drawing card for the town.

Rev. S. D. Longstreet of Spencer, Ind., is in Aztec looking for a suitable small ranch, and intends making this his future home. Mr. Longstreet is a son of a famous Confederate general of that name and served with the Union forces in the civil war. He expresses himself pleased with the climate of this section and the open-hearted greeting he is receiving from all the people.

HILLSBORO.

From the Advocate.
Miss Maude Anderson left for Silver City, where she is visiting friends.

The South Percha G. M. & M. people are making an excellent showing on the Great Eastern. They are now in 225 feet under cover. They estimate that they have, on the various dumps, 2,000 tons of \$48.00 ore. The new mill and machinery, recently purchased, is expected by September 1.

William A. Farish, Jr., and wife arrived here last Saturday from San Francisco. They were royally welcomed by the people of Hillsboro. Sometime during Saturday night a large number of jolly people turned out and serenaded the happy couple. The serenaders were invited in and entertained, and for a time mirth and merriment reigned supreme. Mr. and Mrs. Farish have the best wishes of the people of Hillsboro.

FARMINGTON.

From the Times.
The county normal institute for teachers will begin on Monday, August 17, and will continue two weeks. James E. Elmer and family left for the Colorado mountains where they will spend a few weeks enjoying the mountain breezes and fishing.

F. M. Hamblet sold all his cattle and other property both personal and real to J. B. Tanner the first of the week. Mr. Tanner pays \$22.50 per head for the cattle and is to take all that Hamblet can round up, some 300 head being the estimated number. Mr. Tanner comes from Arizona and wants to purchase a good hay ranch in the valley also.

SOCORRO.

From the Chieftain.
J. S. Mactavish and family of Magdalena, are in the city. Miss Emma Lilles is visiting Miss Helen Sperling at Belen.

Miss Mamie Carter of San Antonio was a guest at the Windsor. Mrs. C. T. Brown accompanied by her two bright boys, Cony T. and Thomas B., and Miss Nellie Zimmer left for Los Angeles, Calif. Mr. Brown went up the road as far as Albuquerque with them.

Miss Alice Wattleit has been suffering from a severe attack of tonsillitis the past week.

Misses Pearl Kealer and Edna Hammet visited Misses Elsie and Nellie Zimmer at their home in San Acacia last week.

Mrs. L. B. Stern returned to her home after a visit of several weeks with her parents, Mr. and Mrs. Joseph Price.

Meliton and Jesus Torres left overland for Kelly where they will be joined by their families. They go for a visit to the families of Adolfo and Neupomuceno Torres.

J. D. Field, a mining man who was operating mines in the vicinity of Lemitar, died of bowel trouble. The remains were shipped to Blue Rapids, Kas., for burial.

D. Wells and wife, nee Miss Ollie Freeborn, came down from Magdalena. Mr. Wells continued on to Fairview, where he expects to be employed in a stamp mill, while Mrs. Wells remained in the city visiting the family of F. A. Katzenstein.

SANTA ROSA.

From the Sun.
The public school house building has been partitioned and two different school departments can now be held in one same building.

Two sisters of Dr. R. J. Thomson have arrived in Santa Rosa and will remain as guests of the doctor and his wife for some time. That their stay in

our midst may be made pleasant by all they come in contact with, is our desire.

Ignacio Armijo, oldest son of Jose Y. Armijo, left Santa Rosa on his way to Las Vegas, where he goes for the purpose of bringing home his mother and sisters who have been stopping at that place for some time past.

W. C. Burnett and Constable Fulghum left for Cuervo where they went in quest of some horses that have been astray from this town for some weeks past. They returned home pretty well tired out and sunburnt, but without the horses.

Crescenciano Gallegos accompanied by his estimable wife, left Puerto de Luna whither they went to act as sponsors in the wedding of Miss Antonia and Emilio Nieto which took place in that town Monday last.

SILVER CITY.

From the Independent.
The Silver City public schools will open for the fall and winter term on Monday, August 31.

Mrs. C. C. Whitehill and family returned from Deming, where they have been visiting Mrs. Whitehill's sister, Mrs. Joe Stratton.

Mr. and Mrs. Jackson Agee and children left for Los Angeles and other places of interest in California. They will be gone about a month.

Spencer Hill, owner of the famous hot springs on the upper Gila, has recently returned from a business trip to his old home in Missouri. Mr. Hill left last week to look after some matters there.

W. C. McLaughlin, formerly of Grant county, but now holding a responsible position with the Montezuma Copper company, with headquarters at Nogales, Mexico, came in on a visit to his family.

The hearing of the case of Samuel L. Bean vs. The American Consolidated Copper company and B. W. Randall was resumed before Referee White last Tuesday, and after taking testimony for three days was again continued until August 18.

Mr. and Mrs. Harry Whitehill, both former residents of Silver City, but now living in Chicago, were made happy by the arrival of a ten pound baby boy at their home. Mrs. Whitehill was formerly Miss Irma Muse.

Mrs. John Moorman and Miss Belle Eckles, who have been the guests of Captain E. B. Eno and family on the upper Gila, returned after a most enjoyable outing. Miss Mary Eckles left during the week for the Eno ranch, where she will spend the month of August.

Mrs. E. Starr Smith and Mrs. Frank Harrington of Clayton, this territory, mother and sister of Mrs. A. E. Atkins, are the guests of Mr. and Mrs. Atkins in this city. Mrs. Harrington is accompanied by her two children. Mrs. Smith was a former resident of Silver City and has many friends here.

Charles Weber and Mrs. Anna Rens were united in marriage recently by Justice of the Peace Crowley at Central. Mr. Weber formerly lived in Grant county, but has been working at Douglas. Mrs. Rens is a respected resident of Silver City. Mr. and Mrs. Weber will make their home here.

H. H. Betts returned from a month's vacation spent principally with relatives in the New England states, this having been his first trip back to his old home since coming west, eighteen years ago. Mrs. Betts will remain in the east for another month, returning to Silver City about September 1. It is needless to say that Mr. and Mrs. Betts had a thoroughly enjoyable time.

DEMING.

From the Graphic.
J. J. Johnson has been on the sick list for the past week but is again able to be out.

Miss Mary Anderson has been quite sick the past week from the effect of a serious poisoning of her face with poison oak while out in the country with her parents.

Miss Lillie M. Billingslea who has been a faithful employee of this office for the past three months, left for the Mimbres valley where she will spend a month or more assisting her mother and sisters in taking care of their big fruit crop.

Early last Sunday a party composed of Mr. L. Chase and wife, Miss Gase, the Misses Anna, Nina and Katherine Clark, Messrs. W. D. Vail, Ed. Carradon and Bright Sutton, drove out to Florida park where they spent the day resting and viewing nature, wondrous works, returning late in the evening. All reported a fine time.

Early last Friday morning the residence of Captain Rabb about two miles from town, burned, destroying nearly everything in the house. The exact cause of the fire is not known as Mr. and Mrs. Rabb were both working in the garden and when they first noticed the fire the house was enveloped in flames. Notwithstanding the fact that they had an insurance the loss is a severe one.

UNCLE SAM'S DOMAIN.

"The Homemaker or the Speculator?" Is the Question.

PRESIDENT SEES DANGER AHEAD.

Shall the nation's great domain of western arid lands and the nation's money be used to enrich a comparatively few greedy individuals, or shall they be used to furnish security and happiness for millions of men, women and children?

Uncle Sam is still rich enough to give us all a farm. And an irrigated farm, at that. It is not a dream but a fact that the present population of the United States can be duplicated on the arid public domain in the west.

This can be done without making new competitors for those already engaged in agricultural pursuits in the east and in the south. On the other hand, this wonderful act of planting a new nation in what is now all but an unbroken wilderness will confer enormous benefits on those sections which are already covered with farms, factories and towns.

The subjugation and settlement of the great empire of public lands means that every factory wheel in the United States must whirl faster, that every banking house must handle more money, and that every railroad must transport more passengers and freight. This, in turn, means a larger and busier population in every eastern and southern town, and that, of course, will quicken and enlarge the demand for all the products of the soil in the older sections of the country.

In the meantime, that which is grown from the soil to be conquered by irrigation in the west will go almost exclusively to the feeding of new home-markets to be created within the arid region itself and to the satisfaction of unlimited demands in the Orient and in the frozen north.

Congress has decreed that the great policy of national irrigation shall be entered upon without delay. Already the engineers and surveyors are doing their work and five great projects have been reported favorably to the interior department. Only about \$7,000,000 are required to carry all five to completion and the money is in the treasury awaiting the call. But upon the threshold of the greatest constructive policy to which this nation ever set its hand, a new and appalling obstacle is encountered.

Almost every acre of these lands which the nation is about to prepare for the swarming of a home-building population may, under existing laws, be stolen and used as the basis of a profitable speculation. And those who desire to secure these lands for speculative purposes are strong enough to tie the hands of congress until the deed shall have been done. This, too, in spite of the fact that the president of the United States has urged the repeal of these iniquitous land laws as something which is vital to the success of the national irrigation policy.

Shall the nation's land then, and the nation's money be used to enrich a comparatively few greedy individuals, or shall they be used to furnish security and happiness for millions of men, women and children?

This is the question which must be answered when congress meets again. The answer depends absolutely upon the will of the people as it shall be made known to their representatives at Washington. No power on earth, except the power of an aroused and indignant public opinion can save the arid region from falling prey to the speculators who are alive to their opportunity while the people are asleep.

In his last message, the president recommended the repeal of the desert land law, of the commutation clause of the homestead law, and of the timber and stone act. These are the provisions of existing statutes under which absolutely the most valuable property now owned by the American people is being systematically absorbed into private ownership by those who cannot use it, but who propose to sell it at enormous profit to real home-seekers when the nation shall have multiplied its value an hundred-fold by means of irrigation.

The nation has land for every man who will make his home upon it in good faith—who will break the sod, plant crops, build a house, and settle down to support his family from the soil. But the nation has no land—at least, it ought to have none—for the man who merely seeks to forestall the actual settler and sell out to him at a profit, or become a landlord collecting income from his tenants.

Under present land laws, millions of acres are being taken by those who have no thought of breaking the soil, planting crops, or building homes. They are mere adventurers and speculators.

The desert land law gives them a

chance to obtain for a song, without residence and without cultivation, 320 acres of the richest soil on earth—enough for sixteen families. The commutation clause of the homestead law gives them a chance to take up 160 acres with but the barest pretence of residence, and that for only fourteen months. The timber and stone act enables them to acquire forests and quarries for a bagatelle and to hold them for speculative advances.

Frank Stockton left the hero of his famous tale hesitating before two doors. If he opened one, it meant life and happiness; if the other, death. And the question was never answered—"the Lady or the Tiger?"

Uncle Sam stands at the door of the arid region. His foot is on the threshold, his hand is at the latch.

Shall it be the homemaker or the speculator? Shall it be life and happiness for millions, or a riot and a carnival of speculation at the expense of the people?

There is but one way to answer the question in the interest of the nation's welfare. That is to repeal the vicious provisions of the existing land laws, in accordance with the president's recommendation.

WILLIAM E. SMYTHE.

ANOTHER SHOOTING.

Reported Among the Troughs on the Santa Fe Cupt-off.

A grading camp on the Santa Fe cut-off in Abo canyon was the scene of another shooting scrape Sunday afternoon. Sam Davis, formerly of this city, is the victim this time. He was wounded by a charge of goose shot fired from a shotgun. The shot scattered considerably and must have been fired from some little distance. The leaden pellets perforated his abdomen, thighs and the flesh as low as the knees. The wounds, although painful, are not thought serious.

He was brought to this city last night by Drs. Kauffman and Radcliffe and placed in the Lantry ward at the St. Joseph's hospital.

The man who did the shooting is said to have been a water wagon driver at Sharp's camp and at the time of the shooting was under the influence of bad booze. He escaped to the mountains.

LAS VEGAS.

Mrs. L. A. Wenz arrived from Salda, Colo., to be the guest of Mrs. Chas. F. O'Malley for several weeks.

Invitations are out for a party to be given by Mrs. Charles Iffeld Friday afternoon in honor of the lady's guests, Mrs. Noa Iffeld of Albuquerque, and Miss Lieke of Kansas City.

The Las Vegas baseball team should get its best men together and practice so as to go to Albuquerque during the territorial fair, October 12, to 17, inclusive, and carry away that first prize of \$500. We have the talent here if some one will push the matter.

The trial of L. R. Allen and J. G. McNary for assault and battery was opened this morning in the justice of the peace court before justice Donaciano Otero. The swearing in of witnesses and hearing the testimony of Earl Lyon, occupied the time of the court till noon. Lyon testified under oath that McNary hit him on the head twice with a club or billy which dazed him during the remainder of the assault.

Territorial Auditor Charles V. Safford left last night for Raton. He spent a day here finishing up his business. He said last night that he was not ready yet to make a report on San Miguel county, as some of the work on assessments had not been completed, but that all would be finished within a few days. Mr. Safford said that William J. Barrow, who is in the county in the interest of the federal government, was doing almost exactly the same work for the United States that he was doing for the territory.

Las Vegas will be extremely sorry to hear of the serious illness of Miss Sue Watkins, the beautiful and accomplished sister of Mrs. F. H. Pierce, who has made several visits to this city. While Mr. Pierce was absent in Santa Fe yesterday, his wife received a message conveying the alarming news. She immediately sent a dispatch to her husband, who returned on the first train. Mrs. Pierce left this afternoon for her sister's home in Louisville. Her husband accompanied her as far as La Junta. Many Las Vegas friends will hope that the illness may not result fatally.

WHITE OAKS.

From the Eagle.
Mrs. Leslie Ellis and children returned to Lincoln after a week's visit here with her father.

Captain J. P. C. Langston and wife returned from Tucumcari. They had been visiting their son and daughter, Mr. and Mrs. Ernest Langston.

R. D. Armstrong left Friday afternoon for Lincoln to assume the duties of sheriff. After receiving the decision from Judge McMillan, which gave him the office, Mr. Armstrong executed a bond and sent it to the judge for his approval, but about that time Judge McMillan was removed, the bond was never returned, and another had to be made and forwarded to a judge outside the district. Judge Smith, the new appointee, not having arrived.

Subscribe for The Citizen.

Railroad Topics

Al G. Hood, a former resident of Silver City, is again in the employ of the Santa Fe and is agent at a station in the northern part of the territory near Raton.

Every wheel on the Norfolk & Western road system was stopped for ten minutes Thursday during the funeral at Philadelphia of J. F. Kimball, late president of the Norfolk & Western.

Engineer W. H. Cornell, who for the past seven years has been running an engine on the Mexican Central at various points along the line, has given up railroading in Mexico and gone to Coronado, Cal., to spend a vacation.

Representatives of a South African railway syndicate have been in Victoria, B. C., inquiring regarding the possibilities of securing 3,000,000 hemlock railway ties for South African railroads of which 900 miles are to be built at once.

C. M. Atwood, who a year ago last July resigned his position as auditor of passenger receipts for the Santa Fe, is now the proprietor of a farm in Oklahoma. Mr. Atwood's place is located near Croft postoffice, Day county, Kansas.

A. Dinan has been appointed master mechanic of the middle and the Oklahoma divisions of the Santa Fe. He succeeds W. S. Grandy who has resigned to take a place in the Rock Island mechanical department at Chicago. The headquarters for this division are at Newton.

That the Central Arizona railroad will be built from Flagstaff to Jerome within the next twelve months is almost an assured fact. This road will pass through the fertile valley of the Verde, and Flagstaff will receive the products of one hundred thousand acres of the richest soil in Arizona.

E. O. Faulkner, assistant to General Manager Mudge, is now in Europe on a vacation which is to last until about September 1. He sailed from Quebec July 4 on the Allan Royal line steamship Parisian. He reported that the trip across the Atlantic was extraordinary by virtue of the fact that the sea was so smooth.

The railroad commission of Texas has issued a schedule lowering the express tariffs in Texas. The new minimum is 35 cents per hundred pounds for a distance of ten miles or less. The tariff increases proportionately until the maximum is reached at \$3.50 for 900 miles. The former minimum was 40 cents and the maximum \$4 for a like distance.

The El Paso News says: The decomposed and mutilated remains of a man, supposed to be S. H. Campbell, formerly yardmaster of the Mexican Central at Victoria station on the Chihuahuan division, were found Sunday afternoon, under a railroad bridge at Screwsbeam, a station five miles north of Guadalupe, N. M., on the Pecos Valley & Northeastern railroad by the train crew.

Jake Quigley, a freight brakeman in the employ of the El Paso & North Eastern, on the Santa Rosa division, met death at Pintado Thursday night. While coupling cars with automatic couplers, he was caught between them and mangled. The unfortunate man was still alive, though suffering agonies, when the cars were separated, but died a few minutes afterward. His body was taken to Santa Rosa for interment. The company made a diligent search to discover the whereabouts of his relatives, but no trace of them could be secured.

PROPOSED RAILROAD.

Which Will Penetrate the Mogolian Mining District Seems Assured.

The long talked of railroad tapping the Mogolian mining district gives every evidence of at last assuming definite shape. Says the Silver City Independent, There has recently been incorporated the Arizona, New Mexico & Colorado Railroad company and the Arizona and New Mexico Iron and Fuel company.

They are two separate companies although they are incorporated by the same people. The railroad will be built from some convenient point on

the Southern Pacific via Clifton to the City of Durango. The proposed length of the line is 350 miles, and will pass through the counties of Cochise and Graham in Arizona, the counties of Grant, Socorro, Valencia, Bernalillo, San Juan and Rio Arriba in New Mexico and the counties of La Plata and Conejos in Colorado. It is capitalized at \$5,000,000, which is considered the necessary amount to complete the road and equipments. It will open up a vast amount of mining, farming and coal lands in the counties mentioned. The iron and fuel company is also capitalized at \$5,000,000 and it is likely that the railroad will handle their output. The principal place of business is in Silver City, Ariz. These companies are backed by well known enterprising business men of Colorado and Arizona, consequently there is no question of the completion of the railroad in a reasonably short time.

Must Talk Spanish.

Under a new regulation recently put into effect by the Mexican government all conductors, ticket agents and other employees of railroads who come in contact with the public must be able to speak the Spanish language. The regulation also includes employees of street car lines.

The employees will have their efficiency in this respect tested by an examination. They are not required to be or become masters of the Spanish language, but they must know enough about it to answer ordinary queries. Several Mexican Central railroad men were yesterday seen buying Spanish grammars. Most of the passenger men on this road, however, can now speak Spanish.

BOUND FOR "FRISCO."

Wives and Daughters of Santa Fe Pass Through Albuquerque En Route to the Coast.

Attached to passenger train No. 7 of Sunday night was an elegant private car en route to San Francisco. Aboard the car was a party of ladies, wives and daughters of prominent officials of the Santa Fe system. They were Mrs. G. T. Nicholson, wife of the general traffic manager of the Santa Fe, and her daughter; Mrs. W. J. Black, wife of the general passenger agent and her sister; Mrs. Gorman and daughter; Mrs. Cutts and Miss Sybil Harvey, daughter of the late Fred Harvey.

They are two separate companies and had intended on reaching Albuquerque stopping over a few hours, awaiting the arrival of No. 7, but the latter overtook the slower train on the New Mexico division and the transfer was then made.

El Paso Union Depot.

El Paso is to have an up to date union depot, one that the citizens and railroad companies will alike feel proud of. This fact was settled upon yesterday by the representatives of the various roads doing business here, says the El Paso Herald, who met to perfect plans for the building of the depot. While it has been assured for several months that El Paso would finally get a union depot, the plans had not assumed a fixed state until yesterday's deliberations, when it was unanimously agreed among the railroad officials that El Paso is to have not only a union depot, but the finest one in the state of Texas or of entire southwest. It is to cost a quarter of a million of dollars, and will be a handsome structure, whose foundation will be built of limestone, with finishings of granite, while the walls will be mainly of compressed brick.

Jose G. Chavez and Carlos Baca, the latter the sheriff of Valencia county, are in the city today on business. Mr. Chavez says the grasshoppers are very bad in the Rio Grande valley in San Antonio, N. M., passed through the city this morning en route from Los Angeles to New York City, where she is called by the serious illness of a brother-in-law. Mrs. Hazard anticipates returning to Albuquerque this fall to spend the winter.

THE OPINION ON ASSESSOR

Territory of New Mexico, District Court, Bernalillo County.
Territory of New Mexico on the relation of Jesus Ma. Sandoval vs. Geo. F. Albright.

This cause of action is based upon an information by the solicitor general of the territory against George F. Albright, requiring the said Albright to show by what authority of law he holds the office of assessor of Bernalillo county. For answer to the information the respondent, Albright, says he holds said office by virtue of an appointment by the board of county commissioners of said county, acting under and by virtue of section 3 of an act of the legislature creating Sandoval county, approved March 10, 1903, and the amendment thereof, approved March 12, 1903. Respondent further answering, says said Jesus Ma. Sandoval was at the time of the creation of said Sandoval county, a resident of the territory comprising said Sandoval county, consequently, not a resident of Bernalillo, and therefore not eligible to hold the office of assessor of said Bernalillo county. To the answer of respondent the solicitor general files a demurrer.

The demurrer raises the legality of said section 3 of chapter 27, session laws of New Mexico of 1903, and said chapter as amended by chapter 49 of said session laws. Said section 3 of said chapter 27 reads as follows:

"On or before the first day of April, 1903, the county commissioners of the present county of Bernalillo shall give notice of an election to be held on the fourteenth day of April, 1903, within the county of Bernalillo as the same will be constituted after the passage of this act, for the election of two county commissioners, one probate judge and one assessor, to serve until their successors are elected and qualified at the next general election. Said officers so named in this section to be at the time of said election actual bona fide residents of the said county of Bernalillo as the same shall be constituted after the passage of this act. The returns of said election to be made as the returns of general elections are made."

Said amendment contained in said chapter 49 reads as follows:

"Section 1. That section 3 of the act to create the county of Sandoval, approved on March 10, 1903, be and the same is hereby amended to read as follows:

"Sec. 3. That T. C. Gutierrez, to fill the unexpired term of the second district, and Severo Sanchez, be and they hereby are appointed and constituted county commissioners for the county of Bernalillo as the same is constituted, after the creation of Sandoval county, and the said T. C. Gutierrez and Severo Sanchez shall qualify as said county commissioners on or before the fifth day of April, A. D. 1903, and shall together with the county commissioners now in office for the said county of Bernalillo, hold a meeting not later than the tenth day of April, 1903, and the said three persons, as a board of county commissioners for Bernalillo county, shall appoint one assessor and one probate judge for the said county of Bernalillo to serve until their successors are elected and qualified at the next general election."

Said section 3 of chapter 27 in effect declares vacant the office of assessor of said Bernalillo county by providing an election of an assessor of said county. To say that it was not the intent and purpose of the legislature in said section 3 to not declare said office vacant, it would have been more than useless for the legislature to have provided for the election to fill said office when there was no vacancy to fill, said office being filled by said Sandoval. Certainly it will not be contended but what the legislature intended to declare the said office of assessor vacant. Whether they had the power so to do is another question. The legislature, constraining and acting under said section 3 of chapter 27, amended said section 3, as seen by section 1 of chapter 49, of session laws of 1903. Therefore, it must be conceded that the legislature when it passed said section 3 intended to declare said office of assessor vacant and that when it enacted said chapter 49, it so construed the said section 3. To say the legislature did not intend in said section 3 to declare said office vacant is to make the language of said section referring to the election of an assessor meaningless, as well as the provision for the appointment of an assessor by the county commissioners in said section 1.

The demurrer raises three questions: 1st: Had the legislature power to summarily remove Mr. Sandoval from the office of assessor of Bernalillo county. 2nd: Had the legislature power to authorize the county commissioners of Bernalillo county to fill said vacancy. 3rd: Does the non-residence of Bernalillo county make said Sandoval ineligible to hold said office, or in other words, is he eligible to be re-instated.

Section 1857 Revised Statutes of United States, 1878, provides, "All county officers shall be appointed or elected in such manner as may be provided by the governor and legislative assembly of each territory." Section 7 of the Organic Act of the Territory of New Mexico provides "That the legislative power of the territory shall extend to all rightful subjects of legislation, consistent with the Constitution of the United States and the provisions of this act." As well the legislative acts cannot conflict

with any act of congress thereafter passed. The provision by the legislature for the removal of county officers is certainly a rightful subject of legislation and is legal, unless prohibited by the Constitution of the United States or some act of congress.

It is contended that the act removing Mr. Sandoval as assessor is in conflict with the 14th Amendment of the Constitution of the United States, which is as follows:

"No state shall deprive any person of life, liberty or property without due process of law; nor deny to any person within its jurisdiction the equal protection of the law."

It is contended by the learned counsel for the solicitor general that Mr. Sandoval had been deprived of his property without due process of law, in other words, Mr. Sandoval's title to the office and its emoluments for the full term of two years was a vested right which is protected by the said 14th Amendment, unless the said Sandoval was removed by a court of competent jurisdiction after having had a fair and impartial trial and a full opportunity to make his defense, and in support of this proposition of law, the learned counsel cites,

Kennard vs. Louisiana, 92 U. S., 480;
Foster vs. Kansas, 112 U. S., 201.

Did the supreme court of the United States in Kennard vs. Louisiana or Foster vs. Kansas, supra, thus declare the law? In the celebrated Goebel case, entitled Taylor and Marshall vs. Beckham, 173 U. S., 548, quoting from page 571:

"So in Kennard vs. Louisiana, 92 U. S., 480, concerning the right of Kennard to the office of associate justice of the supreme court of Louisiana, jurisdiction was taken on the ground that the constitutionality of the statute under which the disputed title to office was tried was drawn in question. The court, speaking by Mr. Chief Justice Waite, said: 'The question before us is, not whether the courts below, having jurisdiction of the case and the parties, have followed the law, but whether the law, if followed, would have furnished Kennard the protection guaranteed by the constitution. Irregularities and more errors in the proceedings can only be corrected in the state courts. Our authority does not extend beyond an examination of the power of the courts below to proceed at all.'"

The writ of Foster vs. Kansas, 112 U. S., 201, rested on the same ground. In each of the foregoing cases, the determination of the right to the offices in dispute was reposed in the judicial courts, and no question was expressly considered by this court as to whether the right to a public office of a state was or was not protected by the fourteenth amendment.

In North Carolina, the legislature created the office of state railroad commissioner. The statute also provided that such "office might be suspended by the governor and his successor appointed by the governor." In Wilson vs. North Carolina, 169 U. S., 593, the governor removed by suspending, without a hearing, Mr. Wilson as state railroad commissioner and appointed one Caldwell to fill the vacancy. Mr. Wilson, contended this was in conflict with the fourteenth amendment of the constitution of the United States. In this case the court said:

"What kind and how much of a hearing the officer should have before suspension by the governor was a matter for the state legislature to determine, having regard to the constitution of the state. The procedure provided by a valid state law for the purpose of changing the incumbent of a state office will not in general involve any question for review by this court." The court further said:

"No such fundamental rights were involved in the proceedings before the governor. In its internal administration the state (so far as concerns the federal government) has entire freedom of choice as to the terms upon which it shall be held by the person filling the office."

The court further said: "Although an office has been held in North Carolina to be generally and in a certain restricted sense the property of the incumbent, yet in this case the supreme court held that the incumbent, in taking the office, holds it subject to the act creating it, which binds him by all its provisions, all of which were held to be valid."

In Taylor and Marshall vs. Beckham, supra, discussing the relation of an officer to the appointing or electing power, the supreme court of the United States says:

"In Crenshaw vs. United States, 134 U. S., 99, 104, Mr. Justice Lamar stated the primary question in the case to be: 'Whether an officer appointed for a definite time or during good behavior had any vested interest or contract right in his office of which congress could not deprive him.' And he said, speaking of the court, 'The question is not novel. There seems to be but little difficulty in deciding that there was no such interest or right.' Butler vs. Pennsylvania, supra; Newton vs. Commissioners, 100 U. S., 548; Blake vs. United States, 130 U. S., 227; and many other cases.

The decisions are numerous to the effect that public offices are mere agencies or trusts, and not property as such. Nor are the salary and emoluments property, secured by contract, but compensation for services actually rendered. Nor does the fact that the constitution may forbid the legislature from abolishing a public office or diminishing the salary thereof during the term of the incumbent change its character or make it property. True, the restrictions limit the power of the legislature to deal with the office, but even such restrictions may be removed by constitutional amendment. In short, generally speaking, the nature of the relation of a public officer to the public is inconsistent with either a property or a contract right.

In Long vs. The Mayor, 81 N. Y., 426, the court says:

"It is claimed that the act in question shortens the duration of plaintiff's term of office, so that the term declared by statute, in force when he was elected, to be for 'two years,' is made by the act of 1870, a term of five months. We see the legal objection thereto. The office was not created by or regulated in any manner by the constitution. The legislature had entire control over the matter. The office was created, its term was fixed by that body, and it could be changed by it. The law could be amended or repealed, and this was the effect of the provision of the act of 1870. A term ending at a time stated was substituted for a term limited to two years. The original term was thus shortened. The legislation was aimed at the office, not the incumbent. But, however viewed, the act complained of was within the lawful exercise of power by the legislature, and within the principle frequently reiterated by the courts of this state, that a public office is not a grant, and that the right to it does not depend upon, or partake of the nature of a contract. Connor vs. Mayor, 2 Sandf. 355, 369; affirmed, 5 N. Y., 285; Smith vs. Mayor, 37 Id. 518."

In 44 Missouri, 129, the court says: "In England, offices are considered incorporeal hereditaments, granted by the crown, and a subject of vested or private interests; not so in the American states. They are not held by grant or contract, nor has any person a private property or vested interest in them," citing a long list of cases.

The proposition that a public office created by legislative enactment is not a vested right is well settled.

Taylor vs. Beckham, supra.
Wilson vs. North Carolina, supra.
Butler vs. Pennsylvania, 10 How., 402.
State vs. Davis, supra.
Note in Hoke vs. Henderson, 25 Am. Dec., 701.

People vs. Squire, 14 Calif., 12.
This last citation is strikingly in point. It in effect removes one officer and puts another person in his place, to continue in that office and to receive its emoluments, without a hearing and without being permitted to offer and defense.

State vs. Douglas, 7 Am. Dec., 87 and note.
Denver vs. Hobart, 10 Nev., 20.
People vs. Haskel, 5 Calif., 387.
People vs. Hurlbut, 24 Mich., 44.
Am. Dec. 103.
Connor vs. The Mayor, 5 N. Y., Ap., 285.

In the last case the court said: "Where an office is created by a legislature, it is wholly within the control of the legislature. The term, the mode of appointment and the compensation may be altered at pleasure, and the latter may even be taken away without abolishing the office. Such extreme legislation is not to be deemed probable in any case. But we are now discussing the legislative power, not its expediency or propriety. Having the power the legislature will exercise it for the public good and it is the sole judge of the expediency which demands its interference."

In Territory vs. Van Gaskin, 6 Pacific Rep., 30, the legislature of the territory of Montana enacted the following law:

"That the office of county commissioner of the county of Custer be, and the said offices are, hereby declared to be vacant, and no official duty shall be performed by the persons constituting the present board of county commissioners, except to make reports."

And that William Van Gaskin, George M. Miles and Thomas J. Ryan are hereby appointed commissioners of Custer county."

The court in this case said: "By the enactment of the law appointing the respondents to the office thereby declared vacant, until the commissioners thereafter to be elected assumed the duties of their office, the governor and the legislative assembly acted within the limits of the act of congress which required that the county officers should be appointed or elected in such a manner as they might provide. The governor and legislative assembly have the power to provide the manner of the appointment; therefore they had the power to appoint directly."

The foregoing citations and quotations settle the proposition that a public office is neither property, nor in the nature of property, nor a private, vested right that is protected by the fourteenth amendment of the constitution of the United States. There are a number of authorities that hold differently. The states of Florida, Georgia and North Carolina very pointedly and conclusively are in conflict with the line of authorities herein cited. The courts of the territories are bound by the decisions of the supreme court of the United States. Even if it were a fact, which I do not admit by any means, that the reasoning as well as the justice would be on the side of the holdings of the states of Georgia, Florida, North Carolina and some others, still I would be bound to follow the decisions of the supreme court of the United States, and in the language of Sandford J., in Connor vs. The Mayor, supra,

"We are now discussing the legislative power, not its expediency or propriety. Having the power, the legislature will exercise it for the public good, and it is the sole judge of the expediency which demands its interference."

I am of the opinion that the legislature has the power to terminate the tenure of any officer holding an office created by the legislature; therefore the legislature had the power to remove or legislate Mr. Sandoval out of the office of assessor of Bernalillo county, and in so doing they did not act derogatorily to, nor was their legislation in conflict with the fourteenth amendment of the constitution of the United States, as contended for by the learned counsel for the solicitor general.

This brings us to the second proposition: Had the legislature power to fill the vacancy caused by the removal of Mr. Sandoval.

This question was decided by me in the case of the Territory ex rel Curran et al vs. Gutierrez et al. It was contended in that case by the learned counsel representing the solicitor general, as it is also in this case, that it required a general law to fill vacancies, otherwise such act of the legislature would be in conflict and therefore prohibited by the last paragraph of the act of congress, commonly called the Springer act, which reads as follows:

"In all other cases where a general law can be made applicable, no special law shall be enacted in any of the territories of the United States by the territorial legislature thereof."

This case is one that belongs to the "in all other cases."

It is also contended that the legislature, section 1, chapter 2, laws of New Mexico, 1901, by general law, fixed the manner of filling vacancies in county offices, and therefore, that this law is in conflict with said section 1, as well as in conflict with said paragraph of the Springer act. It certainly could not successfully be contended that if the legislature had passed a law that the legislature should fill all vacancies occurring in county offices, that it would have been in conflict with said paragraph of the Springer act, for the reason that it would be a general law. Did not the supreme court of Montana in Territory vs. Gaskin, supra, speak wisely when it said "The governor and legislative assembly have the power to provide the manner of appointment; therefore they had the power to appoint directly?"

Section 1857 of the compiled laws of the United States, supra, provides, "That county officers shall be appointed or elected in such a manner as may be provided by the governor and the legislative assembly." Did they not in this case provide the manner the office of assessor of Bernalillo county should be filled? Would it not seem a little absurd for the legislature, in which all power is conferred by congress, to say in what manner county officers shall be appointed or elected, to spread upon its statute books an act saying the legislature may fill county offices or vacancies when the power already rests with it? Would it not be like a man getting permission or authority from himself to do or not to do a specific thing, which was his duty to do or not to do?

In Territory ex rel Smith vs. Scot et al, 20 N. W. Rep., 401, the question of the legislature delegating its appointive power to others was squarely raised. The court said:

"The act of the territorial legislature passed March 8, 1883, removed the seat of government of the territory from Yankton and authorized certain persons therein named as commissioners to select some other city as the capital and locate the seat of government at the place so selected, is not in conflict with the organic act of the territory, in that it delegates to such commissioners a duty that could only be lawfully performed by the governor and the legislative assembly; nor in that it appoints and designates such commissioners instead of leaving their appointment to the governor, by and with the advice and consent of the legislative council, upon his nomination, and such commissioners are lawfully entitled to exercise the duties and powers conferred upon them by such act."

In the case of Waterman vs. Freeman, 80 Calif., 233-22 Pacific Rep., 173-the constitution of California is construed, which reads as follows: "All officers or commissioners whose election or appointment is not provided for by this constitution and all officers or commissioners whose offices or duties may hereafter be created by law shall be elected by the people or appointed as the legislature may direct."

This language is so strikingly like the provisions in section 1857 of the compiled laws, supra, that a construction of the California constitution would certainly be of great assistance and throw considerable light upon the construction of said section 1857. The office under consideration in this case was one created by statute and it was filled by the legislature acting directly, without having passed any general law or any other provision other than simply the assembly appointing the officer. A comparison of the two provisions are so strikingly similar that if the legislative assembly of California could fill such office as contemplated by the said section 1857. In other words, they maintain, as well as many other authorities, and certainly it is the opinion of the court in this case that the power to create an office implies the power to fill such office. It would be folly to grant the power to create with no means provided for the filling of such offices. It is true there is no expressed power granted by congress to the territory to fill vacancies in office. But certainly we have a right to assume that no one will contend but what there is power somewhere to fill a vacancy in an office that has been created by the legislative power of the territory and the office once legally filled. It must be conceded that all the power we have in the territory to create county offices and

"I lost courage and thought I would never regain my health." "Three years of delicate health, trying doctors, prescriptions, and patent medicines" without benefit might well sap the courage of any woman. And yet Mrs. Bryant proved that the question of the cure of womanly disease is only a question of using the right remedy. A few doses of "Favorite Prescription" restored her courage and revived her hope, because she could see "a decided change from the first." Three

months' use of the medicine restored her to perfect health. Dr. Pierce's Favorite Prescription cures irregularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. Mrs. Sarah Bryant, President of Memphis Social Science Club, residing at 277 Atkinson Ave., Memphis, Tenn., writes: "I suffered with delicate health for three years, trying doctors, prescriptions and patent medicines until I lost courage and thought I would never regain my health. But a few doses of your 'Favorite Prescription' made me change my mind. Could see a decided change from the first. I kept on taking it for three months faithfully and am now in perfect health."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

to provide the manner in which such offices shall be filled, either by appointment or by election, is embodied in the one section of the act of Congress, Section 1857, supra. Therefore, the legislative power must first provide the office and then the officer, through an election or appointment in the manner provided by the legislature. All the authority the territory has conferred upon it to fill vacancies in office is implied in the general power given the legislative power as contained in said Section 1857. Therefore the legislative power is authorized to fill vacancies. The manner of filling them is left to the legislature to provide. And if it can provide a manner, such manner may be by direct appointment, it may be conferred upon the people to elect, it may be conferred upon the governor to appoint, or it may be conferred upon county commissioners to appoint, as in this case.

It is contended by the learned counsel representing the solicitor general, that Chapter 2 of the Laws of New Mexico of 1901, precludes the legislature from filling vacancies, either by direct appointment or by appointing a commission to fill vacancies in county offices. It will be observed that said provision provides that the governor shall appoint when a vacancy shall occur "by reason of death, resignation or otherwise." The vacancy in the office of assessor of Bernalillo county was not caused by death, nor resignation. How about the term "otherwise?" Does that include a vacancy caused by legislative removal, or is it to be taken in its broad sense, so as to include any and all vacancies not caused by death or resignation? We might inquire why the legislative power delegated to the governor the authority to fill vacancies at all. Certainly the legislature would not have delegated such power had there been a vacancy occurring while the legislature was in session. The session of the legislature being limited by law to sixty days, that leaves the balance of two years in which no vacancy could be filled unless such power to fill had been delegated to some person or persons. If no provision had been made by the legislative power to fill vacancies, could they have been filled? Yes, by the legislative power and by it only. If the legislature intended that any vacancy that might occur shall be filled by appointment by the governor, why should it specifically point out vacancies caused by death or resignation? It would be a serious charge against the legislative intelligence that it meant any vacancy that might occur shall be filled by appointment by the governor after employing the language they did. If the word "otherwise" is to be construed to mean any vacancy, then the words "by reason of death or resignation" were surplusage and must stand for naught, because they are included in the words "any vacancy." We believe it to be a universal rule of construction that when general words follow particular and specific words, the general words are confined in meaning to the things of like kind and nature designated by the specific words.

Sutherland on Stat. Con., Sec. 268.
Jensen vs. State, 19 N. W. Rep., 378 (Wis.).
State vs. Dennison, 82 N. W. Rep., 385 (Neb.).
Roberts vs. Jackson, 4 Yerg. (Tenn.) 372.
State vs. Wood county, 72 Wis., 637.

In each of these cases, the word "otherwise" followed specific terms and was construed to mean other things of like kind and nature. In the case of State vs. Wood, supra, the Wisconsin statute provided, referring to county road tax, "which shall be expended under their (county board) direction, in making culverts, grading, graveling, ditching or otherwise improving such highways."

The Court said: "By a familiar rule of construction, the words 'or otherwise improving such highways' must be held to mean the improvements of such highways by making of culverts, grading, graveling, ditching or other improvements of a similar character, and not the building of a bridge."

In Jensen vs. State, supra, the statute provided, "If any tavern keeper, or other person, shall sell, give away or barter any intoxicating liquors," etc. The court construed the words "or other person" to mean not anybody and everybody, but following the words "tavern keeper" indicate very clearly the class of persons against whom the act was aimed and the general words "other persons" must under the familiar rule construe a socius be taken to mean a similar class of persons and not to be extended so as to include all persons." And the Court cites a long list of authorities in support of their construction.

In the Nebraska case the law provided "If any person shall open or establish, as owner or otherwise, any lottery or game of chance in this state," etc. In construing the term "otherwise" as used in this connection, following the word "owner," it was restricted to the meaning of "owner" or someone in similar or use capacity.

We do not hesitate to say that wherever the word otherwise is used, following specific terms, that no authority can be found that will give it its broad significance when used by itself, but that they restrict it to the meaning of the specific words and terms preceding it. Apply that rule of construction to the said Chapter 2 and what is the meaning of the word "otherwise" following the words "whenever any vacancy shall occur by reason of death, resignation or otherwise?" And you will have the word otherwise's meaning, a vacancy caused by death, resignation or vacancies caused in a similar manner; possibly instead of death, dementia; for example, instead of resignation, a man picks up and dies to other countries; he has not resigned; he has not been removed, but he has quit and it is of similar kind and character as resignation. And again, by implication at least, the legislature has interpreted said Chapter 2 by enacting Section 1 of Chapter 49. A legislative interpretation of a statute is not binding upon a court but should have great weight.

Jackson vs. Board of Supervisors, 34 Neb., 680.
Coutant vs. People, 6 Wendell, 611.

I am, therefore, of the opinion that the act of the legislature, viz., Section 3 of Chapter 27, and Section 1 of Chapter 49, is legal and that the legislature acted within its scope and power.

The other question raised by the demurrer, to-wit, whether or not Sandoval's non-residence of the present territory of the County of Bernalillo makes him ineligible to be re-instated as assessor of Bernalillo county, is not necessary for me to pass upon in this action, for the reasons heretofore given as to the legality of the statutes passed by the last legislature.

For the reasons hereinbefore given, the demurrer is overruled, and should the solicitor general stand upon his demurrer, the information will be dismissed.

By the Court,
GEN. S. BAKER,
Judge.

All druggists refund the money if it fails to cure. E. W. Grove's signature

ALGODONES ITEMS.
Special Correspondence.

Algodones, New Mexico, July 31.—Very hot weather prevails here at present. No rain has fallen in this section for some time. Farmers are almost through cutting and threshing wheat which all say has been a very good crop this year. The second cutting of alfalfa is all done and something unusual, was better than the first cutting. There is now no reason why farmers should not have four cuttings of alfalfa this year. Grasshoppers have made their appearance here the last few days but as yet are not in sufficient numbers to do any damage. Corn looks fine and also vegetables of all kinds.

There were two weddings here last week. First the wedding of Jose E. Baros to Helena Romero and next the wedding of Robert L. McNell to Estrella Englemann, who was cook for A. J. Frank. Mr. T. G. Utley was best man and to say that he was not the right man to make things lively would be an injustice, as he is the prince of good fellows and always knows how to do the right thing at the proper time. Balcumb and his family were in the party and everybody knows that he can make things pleasant for any crowd. The old man is feeling good over the future prospects which he has a perfect right to do as things are coming his way at last and we now look to have something doing soon.

We have no time to think of politics now as all attention is called to taking care of the growing crops. There has been considerable trouble with the ditch here on account of the low line canal which crossed the ditch and caused much work for the people here. It has damaged them several thousand dollars, and there now seems no remedy only to make a new ditch on the east side of the canal which will cost a good deal of money. If the canal had been kept up and worked all the time the trouble would not occur. Take all together though, we have no cause to complain and we will try and attend the coming fair in a body.

TREASURERS AND COLLECTORS

Synopsis of the Laws Governing the Official Duties of the Officers.

CIRCULAR OF GENERAL INTEREST.

Traveling Auditor C. V. Safford has prepared and sent to the treasurer and ex-officio collector of each county as well as to other county officials interested a synopsis of the laws affecting the duties of collectors and treasurers and accounting for public funds which may come into their possession. The circular is of general interest and is published herewith.

Sec. 1125. If any person having in his possession money belonging to this territory, or any county, precinct or city, or in which this territory, or any collector or treasurer of any precinct or county, or the treasurer or presiding officer of this territory, or any other person holding an office under the laws of this territory, to whom is entrusted by virtue of his office, or shall hereafter be entrusted with the collection, safe keeping, receipt, disbursement or the transfer of any tax, revenue, fine or other money, shall convert to his own use, in any way or manner whatever, or any part of said money, or shall loan, with, or without interest, any part of the money entrusted to his care as aforesaid, or willfully neglect or refuse to pay over said money, or any part thereof, according to the provisions of law, so that he shall not be able to meet the demands of any person lawfully demanding the same, whether such demand be made before or after the expiration of his office, he shall be deemed and adjudged to be guilty of a misdemeanor.

Sec. 1537 of the compiled laws of 1897: That the territorial auditor shall annually on or before the first day of May of each year, levy a tax of two mills on the dollar upon the taxable property of the territory, and certify the same to the tax collectors of the several counties, who shall collect the same as other taxes are collected, and pay the same to the treasurer. The money thus received shall not be expended for any other purpose or purposes than for paying the expenses of collecting, which shall not exceed two and one-half per centum of the sum collected for paying expenses of printing necessary forms and blank reports of school laws, the salary of the county superintendent of public instruction and the expenses of his office, and paying school teachers. Said school money, when collected, shall be apportioned to the several counties as provided in this act.

Compiled laws of 1897, section 746, as amended by section 47, page 304: Shall make receipts and keep accounts subject to inspection of county commissioners at all times.

Sections 474 and 675, compiled laws of 1897: County commissioners to examine accounts at January meeting or oftener if necessary.

Sec. 684. Treasurers to render accounts and settle with board at January meeting or at any regular term when required, and pay into treasury.

Sec. 687. Duty of board to examine into insufficiency of bond of collector at each regular term and require new bond if any sureties have died or removed or are of doubtful solvency.

Secs. 863 and 864. To make report to county commissioners at each meeting of all fees, commissions or emoluments of office under oath, and it is the duty of county board to audit such accounts.

Sec. 12, page 305. To make quarterly reports under oath showing all money collected or disbursed by them, to be filed on or before first of January, April, July and October of each year.

Secs. 1537 and 1538. Duty to pay over school money.

Sec. 1540. To be removed if he fails to pay after thirty days after 10th of each month, and keep accounts of school districts in separate books.

Secs. 2567 and 2568. Also in any respect to do their duty.

Secs. 2561, 2562 and 2563. To settle with auditor within twenty days after time fixed by law to certify to the district attorney.

Laws of 1901, page 69. On or before the 10th day of each month the collector or shall apportion to the several funds of the county all moneys collected by him and file a written report with probate clerk showing amount collected from all sources, also to make report and pay to territorial treasurer.

Sec. 4069. County clerk to keep account with collector of the separate funds.

Laws of 1903, chapter 119, section 19. To notify county superintendents quarterly of amount of money on hand.

Laws 1903, chapter 54, sec. 2 and 3. To submit all books and accounts to traveling auditor and assist him.

The above reference to laws governing the duties of treasurers and collectors has been prepared by the solicitor general, and is issued for the information and guidance of those officers and for their convenience in referring to the laws themselves which are found in so many portions of the compiled laws and in the session laws since, as to cause difficulty in readily finding the same.

W. W. POLK DEAD.
The Old Railroad Auditor Died in Cleveland, Ohio.
C. W. Medler received a dispatch today giving him the sad news of the death of W. W. Polk, at Cleveland, Ohio, on last Thursday. Mr. Polk is well-known here and also throughout the entire south-west. While a resident of this city, he was the auditor of the Atlantic & Pacific railroad company. For the past few years he was the secretary and treasurer of the Northern Ohio Construction company, with headquarters and home at Cleveland.

OFFICIAL MATTERS.

Certificate of Change of Name—New Incorporations File Papers.

LAND OFFICE TRANSACTIONS.

The Interstate Saving and Investment Company of Denver, Colo., has filed in the office of Territorial Secretary J. W. Raynolds a certificate of change of name from the name given above to the Interstate Saving and Trust Company. The certificate also shows that the number of directors were changed to nine, and word Trust is substituted for Investment, for the purpose of distinguishing this company from the get-rich-quick concerns which nearly all go under the title of Investment Company.

Incorporations.

There have been filed in the office of Territorial Secretary J. W. Raynolds, the following articles of incorporation. The Sociedad de Union y Progreso de Arisco. There is no capital stock, and the society is incorporated for benevolent, charitable and literary purposes, with J. A. Herrera, Ambrosio Guzman, Eduardo Apodaca, et al. as incorporators. It is located at Arisco, Bernalillo county, and is given a term of existence of fifty years.

The Benham Indian Trading Company of Albuquerque, is incorporated by A. B. McGaffey, J. L. Clarke, M. F. McGaffey, F. H. Lester, and J. W. Benham. The capital stock is \$50,000 divided into 50,000 shares of a par value of \$1 each and non-assessable. The principal place of business is at Albuquerque. The purposes for which the corporation is created are: To engage in a general merchandise business, especially in purchasing goods and wares and novelties of Mexican and Indian make; to deal in livestock; to acquire, build and maintain means of transportation; to convey and accept conveyance of real and personal property, to borrow and loan money; to sell and deal in stocks and securities. The first officers are: President, A. B. McGaffey, Albuquerque; vice-president, J. W. Benham, New York; secretary and treasurer, J. L. Clarke, Albuquerque.

Land Office Business.

The following homestead entries have been made in the United States land office: Fred Garcia, of Wagon Mound, 160 a. res in Mora county, being the NE 1/4 of Sec. 22, T. 20 N., R. 21 E., Lucas F. Churchill, assignee of William W. Street, Puerto de Luna, 48.58 acres in Leonard Wood county, being lot 1 and the SE 1/4 of the SE 1/4 of Sec. 5, T. 20 N., R. 24 E. On this land which is homesteaded entry No. 7297, Lucas F. Churchill paid for 9.58 acres at the rate of \$1.25 per acre, or a total of \$11.98. This entry was made under the "additional soldier's homestead act," and final proofs were entered against same. Antonio Isidro Duran of Sanchez, 160 acres in San Miguel county, being the NW 1/4 of Sec. 22, T. 15 N., R. 24 E. Francisco C. Herrera of Wagon Mound, 160 acres in Mora county, being the SE 1/4 of the NE 1/4 of Sec. 20, T. 20 N., R. 21 E. Amado Rivera of Wagon Mound, 160 acres in Mora county, being the SE 1/4 of the NE 1/4 of Sec. 20, T. 20 N., R. 21 E. Margarito S. de Gonzales of Wagon Mound, 160 acres in Mora county, being the NW 1/4 of the SE 1/4 of Sec. 20, T. 20 N., R. 21 E. The following coal declaratory statement has been filed in the United States land office: Percy F. Knight of Santa Fe, 60 a. res in Sandoval county, being the SE 1/4 of Sec. 2, T. 13 N., R. 6 E. Statement is No. 1238.

BIG IRRIGATION SCHEME.

Colonel W. H. H. Llewellyn With the Big Movement for Irrigation of a Large Tract of Land.

Colonel W. H. H. Llewellyn of Las Cruces, who has been promoting a large irrigation scheme above Tularosa, to dam the Rinconada canyon, has at last perfected the organization of a company bonded for \$300,000 for that purpose, says the Alamogordo News.

Colonel Llewellyn, in speaking of the operations of the company, says it is the intention of the company to dam Rinconada canyon, at a point ten miles above Tularosa, where there is now a railroad siding. He will place a dam 100 feet high and 500 feet long across the mouth of the canyon, causing the water to back into a natural reservoir, which is formed by a sort of a box canyon.

The territory which is tributary to the reservoir is 15,000 acres in extent, and the land is as pretty as any that could be found in New Mexico. The dam will afford an ample supply for the irrigation of the whole valley around the station and make a garden spot out of what is now simply ranch land. The land is the range of the Maxwell ranch now, and when the reservoir is constructed the wind mills and the house of Maxwell will be ninety feet under water.

SANTA FE.

From the New Mexican. A. Dan R. McCord and party left for their summer's fishing trip on the streams in the forest reserve.

The contract for placing the lead gutters on the federal building has been let to W. A. McKenzie & Co. of this city.

Miss Hattie Eames of this city has accepted a position as seamstress at the United States Indian Industrial school in this city.

The country between Santa Fe and Lamy is literally alive with rabbits and if a war of extermination is waged upon them they will become a great nuisance.

Bishop J. B. Pihaval, Rev. A. Rabeyrolle, Rev. Joseph Hintzen and Rev.

Casades returned from an outing on the Pecos. Rev. Joseph Hintzen kept on to Bernalillo while the others came to Santa Fe.

A tourist party consisting of the Misses Ethel and Annie Hencox and Rebel Withers from Lexington, Ky., are in the city, having arrived last night. They viewed Santa Fe's attractions with here and were very much pleased with their visit.

Superintendent Bureau of the Territorial Penitentiary visited the convict camp in the Santa Fe canyon and examined the construction work on the scenic route road. Upon the request of several citizens he is investigating the surveyed route more thoroughly and the work thus far accomplished.

Judge W. H. Pope will reopen a law office in this city in a few days and re-enter the practice of law. He has fully regained his health and will be ready shortly for all the legal work his clients will supply. Before going to the Philippines Judge Pope enjoyed a lucrative and good law practice here which will no doubt come back to him in an increased measure in due course of time.

Among the politicians it is said that R. L. Baca, clerk in the office of Col. J. Frank Chavez, territorial superintendent of public instruction, and member of the thirty-fifth legislative assembly, has been informed of the position of clerk of the Fifth judicial district court at Socorro by Hon. Solomon Luna, Col. J. Frank Chavez and other prominent citizens. There are several other candidates for the position.

TOO LARGE FOR ONE.

The Navajo Indian Reservation Will Be Divided.

For the purpose of administering the affairs of the Navajo Indian reservation more satisfactorily the commissioner of Indian affairs has decided to divide the reservation. This reservation is about the size of the state of Massachusetts and contains some 25,000 Indians. The reservation lies part in the territories of New Mexico and Arizona, and Commissioner Jones has decided to divide the reservation and place a bonded school superintendent in charge of each half. Until today the affairs of the Indians residing there have been conducted by one man. The division is determined upon follow lines east and west from the eastern border of the reservation as now constituted, from the eastern border of the Mogul reservation to the eastern border of the Navajo reservation. The south half of the reservation will be placed in charge of Jacob C. Leinwood, superintendent of the school at the agency; the northern half is placed in charge of W. T. Eldon, formerly of Santa Fe, superintendent of the Indian training school at San Carlos, Ariz.

"THE ANGELUS HOTEL."

Will Be Furnished by a Furniture Company of St. Joseph, Mo.

Yesterday afternoon, Bachechi & Co., the well-known wholesale liquor merchants on First street, let the contract for furnishing their new building—to be known as "The Angelus Hotel"—to the Max, Smith Furniture Company of St. Joseph, Mo., through their local agents, Borradaile & Co., the latter being the lowest bidder. There are between 65 and 70 rooms on the second and third floors, and these rooms will soon receive elegant furniture. The building is three stories high, and is located on the corner of First street and Silver avenue, directly opposite the depot. Every room is so arranged as to receive plenty of good sunshine and air, and as a hotel, the lucky person who secures the house, will find himself on Easy street in a very short time after taking possession. The building is one of the substantial structures of the city, and the contractors are about ready to turn it over to the owners.

WATCHMAKER FOUND DEAD.

He Died by His Own Hand, Committing Deed at Alamogordo. E. E. Mensch, a watchmaker at the store of F. A. Thomburg, was found dead in his room back of the store, says a dispatch from Alamogordo.

He was a fine workman, well known in the city, and was employed by A. H. Richards of El Paso. This is the fourth time Mr. Mensch has attempted to take his own life and it is supposed that this attempt was consummated by the use of morphine, that having been the means adopted previously, and it being known that some weeks ago he procured a supply of the drug.

These attempts have occurred at intervals since about 1899. The evening before his death he left on the desk in the store a letter, in which he referred to his misfortunes as the cause of his death and requested that no religious or other ceremonies be had.

When only a child he was left motherless, and was taken to the home of relatives, where he stayed for some time, but finally left. Since then he has followed his trade in many places, leading a lonely life. This seems to have led to a more or less morbid condition of the mind, accentuated by serious injuries, following a bicycle accident sustained some years ago.

Will Exhume Body.

Undertaker J. W. Edwards left the city last night for Leon, from which place he will drive to the Mexican village of Casa Colorado, about four miles distance on the opposite side of the Rio Grande. At Casa Colorado he will disinter the remains of C. C. Cotton, whose tragic death occurred here on the night of July 18. The remains are too badly decayed they will be brought here and shipped to Alabama for burial. It is in such condition as to hinder shipment that distance they will be interred at Los Lunas.

Mrs. Cotton and children remain in this city, where they are with friends.

W. S. Durbin, president of the Albuquerque Electric Light, Power and Gas Company, and C. K. Durbin, vice-president and secretary of same company, are in the city from Denver, Colo., to remain a few days.

COLONEL C. C. HALL.

He Tells the El Paso People About Military Feature for the Fair

AND OF COURSE TALKED BASE BALL

Col. C. C. Hall, who has been in El Paso boosting the Albuquerque fair, left last night for Alamogordo, Santa Rosa, Tularosa and other points in that section of the country and before leaving he learned that in addition to the displays which he mentioned the other day, there will be a military feature to the fair, says the El Paso Herald. He said that he had just been advised by Secretary P. F. McCanna that General Frank D. Baldwin, commander of the military department of Colorado, had decided to send a troop of cavalry from Fort Wingate and had so informed the association.

This is good news to every one interested in the attractive features of the fair event, and especially those who admire military maneuvers are always glad when they know that there will be something to see in the military line.

The military maneuvers in connection with the carnival and other attractions will make the fair the biggest event that has ever taken place in New Mexico, says Colonel Hall and he is more enthusiastic than ever over the fair.

Colonel Hall, while here consulted with the local baseball players and says that El Paso will certainly have a ball team at the fair to contest for the thousand dollars in prizes. Albuquerque will have a team in the contest, which is quite strong, but as it will be in El Paso in a couple of weeks to play the Remnants of this city, the El Paso boys will have a chance to size it up and go prepared to win. The El Paso boys will also have a chance to play the Deming team here in a short while, and can size up that aggregation also and thus know just how to go to the fair to play a winning game, as it will know the strength of the leading New Mexico teams.

Colonel Hall says that he expects to get some good displays from Alamogordo, Tularosa, Dawson, Captain Santa Rosa, Roswell, Carlsbad and that vicinity, as all these places are lively little cities, up to date and ready to be represented at a fair that promises to do them as much good as the coming Albuquerque event. Wool, fruit, coal, timber, minerals and other products will be shown from every section into which he is now going and he is confident that he will secure a good display from them all.

ASKS FOR RECEIVER.

Grant G. Kinnan Brings Suit for One-Half Interest in the Trimble Transfer Company, El Paso.

In the district court at El Paso a suit was filed by Grant G. Kinnan against the Trimble Transfer company and J. S. Trimble, says the Times. The action is brought for the appointment of a receiver and to recover a half interest in partnership assets alleged to be due the plaintiff. In his petition Kinnan alleges that on the 22d of April, 1902, he formed a partnership with J. S. Trimble to do business under the firm name of the Trimble Transfer company. He claims that he paid \$1,800 and gave a horse and buggy valued at \$200 for the said one-half interest. He further alleges that Trimble subsequently promised to buy him out, but has not lived up to his part of the agreement.

The property, the petitioner states, was valued at \$3,965 when the partnership deal was made, and subsequently \$810 worth of property was purchased. The firm he says is indebted to the First National bank in the sum of \$18,640 and there are other debts amounting to about \$100. Kinnan states that there is about \$1,800 due the company. He prays that a receiver may at once be appointed for fear that the assets may be wasted.

Want More Pay.

A committee of Sedalia, Mo., M. K. & T. shop employees is at Parsons, Kansas, conferring with like committees from Parsons, Denison and Smithville, Tex., with a view to securing an increase in wages averaging 10 per cent in the various departments of the several shops on the system. The matter is being considered by William O'Hern of Parsons, superintendent of motive power and equipment, and John L. Wigton of Sedalia, master car builder. The conference may last several days.

MANY CIGARS STOLEN.

Railroad Detectives Hunting for Thieves Who Raided Box Car. Railroad detectives and officials of the customs department are making a vigilant search through the city in the hope of tracing some car thefts which have been perpetrated recently in the local yards.

Within the past weeks cars have been robbed in a number of places. The most serious offense happened Monday night, when a car of fine cigars was broken into on the Santa Fe line track near the river. The exact losses have not been estimated, as the contents of the car has not yet been ascertained. It is claimed that there were 3,500 boxes in the package which was rifled and out of these about 2,500 are missing.

There is little clue to the identity of the thieves but the company detectives are busy tracing them up. The cigars were imported stock bonded from Mexico in the local port of customs.

TERRITORIES WIN.

Workmen Contest for Membership Results in Defeat for Colorado. The membership contest which has been on for some time before the A. O. U. W. lodges of Arizona and New Mexico against Colorado has ended, and victory perches on the banner of Arizona and New Mexico Workmen.

Under the conditions of the contest the division getting the greatest percentage of increase was to be awarded

a banner valued at \$50. The percentage was based on the number of lodge members already in each division.

The Colorado Workmen have been defeated by about 50 per cent. This is based on the returns now in. When all are heard from and the official count made it is expected that Arizona and New Mexico will have won by 50 per cent.

CHANGE OF SANTA FE PLANS.

Chief Engineer Says Work Was to Begin on Road paralleling Rock Island.

A dispatch from Las Vegas says: Chief Engineer F. M. Jones, who had charge of the work for the Santa Fe in securing a feasible route for a line paralleling the Rock Island from Dodge City, has returned here. He says that an excellent route had been found and that everything was ready to begin construction when the order came to close the office and stoop all work. The engineer thinks there is no immediate likelihood of work in Kansas or New Mexico being resumed. From Beloit comes the rumor that work on the Santa Fe cut-off may be suspended soon.

A BOOZELESS COUNTRY.

A Good Place to Stay Away From If You're Thirsty.

Naceozari, in Sonora, is the mecca of many speculators seeking mining investments. But there are drawbacks which, if known, would keep from going there many a man who can make money so far in satisfying his thirst.

A correspondent writes: "Unlike most mining camps, there are no saloons, with the exception of one little Mexican cantina, which deals only in a commodity, the 'revolutionary' brandy. If one desires a drink of anything else, it must be purchased at the company store and there it is only sold by the bottle or in bulk. To get an old fashioned tot here one must either have the backing of the Rothschilds or the owner of some rich treasure vault in the surrounding hills. Prices are away up in all lines of wet goods, and could easily get rid of a good sized monthly salary by simply keeping his hide comfortably primed with cooling beverages. The least expensive luxury of this class is beer. It is of good quality and costs one penny. Mexican beer bottle. Whisky, thing else is high priced. Whisky costs from \$1 to \$2 per quart and brandies, gins and other alcoholic liquors average about the same.

NEW COLONY SCHEME.

Large Number of American Families to Be Settled in Mexico.

In the interest of a project to establish an American colony on a 14,000 acre tract near Mexico, Coahuila, says the Monterey News, T. C. Jordan, emigrant agent of the recently incorporated agricultural and industrial company has gone to Washington.

It is the intention of the company to locate 300 or 400 American families on the recently purchased land, and to establish an extensive system of irrigation.

The company is capitalized at \$300,000. The first of the families to be sent are expected to arrive in September. The immigrants will pay for the land on the installment plan.

EDUCATED APACHE INDIAN.

He Visits His Native Heath After Years of Absence.

Dr. Carlos Montezuma arrived in Phoenix the other morning, says the Phoenix Republican, accompanied by Mr. E. E. Witter of Des Moines. Dr. Montezuma is a native well known throughout Arizona, of which he is a native—an Apache. His is perhaps the most varied career of any man ever born in the territory. Captured by a Pima Indian in the Superstition mountains, he was taken about the country and was finally sold to a traveling Italian artist and was taken east.

He was put in school in Chicago and in 1884 he was graduated from the University of Illinois at Champaign. He subsequently took a course in the Chicago Medical College, graduating in 1889. After that he was employed by the interior department as medical instructor in various institutions. He was for some time resident physician at the Indian school at Carlisle.

He is now in the faculty of the Chicago medical college, lecturing on diseases of the stomach and intestines. Dr. Montezuma, whose Indian name was Wass Jah, has frequently visited Arizona, the last time accompanying the famous Carlisle football team in its successful tour of the country four years ago.

In Honor of the Dead. The following resolutions were read and adopted at regular meeting of G. K. Warren Post No. 5, G. A. R., August 4, 1902:

Whereas, our respected comrade and cherished friend, David Denham, has met with the irreparable loss of his partner in life, his wife, the dearest friend on earth, who departed this life June 17, 1902, therefore be it

Resolved, That our comrade and his family have our deepest sympathy in the great bereavement they have sustained and we would comfort them and them with the assurance that we devoutly believe that she is now receiving the rewards of a noble, virtuous, self-sacrificing life while here, and that her spirit, freed from the entanglements of the flesh, is enjoying inexpressible joys in the presence of the source of all good, our Great Commander.

Resolved, That these resolutions be made a part of our records and that a copy be furnished to our comrade Denham and his family.

W. W. McDONALD, THOS. HARWOOD, E. S. STOVER.

FIREMEN'S TOURNEY.

Will Be Held in Santa Fe September 2 to 5 Inclusive.

EXPERT TEAMS FROM CITIES.

A team of fifteen firemen has been organized and is practicing daily to get in shape to take care of the laurels of the Santa Fe fire department at the territorial tournament, which will be held in this city September 2-5, inclusive, says the New Mexican. It is expected to have contest teams from all the principal places in the territory at the tournament and the team that takes the first place will have to be up and doing from now till the tournament is held. The Santa Fe firemen are going to be in shape to show the visitors what is called "quick and efficient work."

Efforts are being made to have the El Paso excursion run into Santa Fe on the second day of the tournament, making the firemen's tournament part of the attractions to induce Pass city people to visit the Capital city at that time.

The finance committee appointed by the firemen will visit the business men of the city in a short time for the purpose of taking up a subscription for funds to carry the projects of the tournament to successful conclusions, and pay the expenses incidental thereto. It is thought that among other attractions there will be exhibits from some of the principal supply houses for firemen's goods from Denver and eastern cities, and especially it is desired that one of the latest pattern gasoline fire engines be exhibited. While it is not yet certain that the will be done, there is every reason to think it will, and this will be one of the strong attractions to the firemen and fire fighting organizations all over the territory.

Next week the posters and handbills advertising the tournament will be gotten out and distributed all over the territory, giving details of the territorial tournament and advertising the excursion rates to Santa Fe. It is also very probable that A. M. Dettlebach, secretary of the territorial association, will go on the road for a couple of weeks to create enthusiasm among the firemen of New Mexico. A present Mr. Dettlebach is carrying on an extensive correspondence with those who are interested in making the occasion a success, and is very highly pleased with the results so far.

ANOTHER SHOOTING.

Antonio Garcia Shot at Belen Last Night.

Antonio Garcia, a native of Mexico, was shot at Belen last night by Sheriff Baca of Valencia county, while making an attempt to escape capture. News of the affair received here is as follows:

Garcia and another Mexican engaged in a quarrel in a saloon over a dispute arising from a game of cards. Garcia drew a knife and was going after his adversary in a ferocious manner. Sheriff Baca was in the room and attempted to put Garcia under arrest. Garcia darted out of the saloon and was making dust for tall timber, when a shot from the sheriff's pistol brought him down. The bullet took effect in the fleshy part of the back and is not of a serious nature.

W. C. D. Miller, brakeman on the passenger between Albuquerque and El Paso, is in the city to do assessment work on some mineral prospects he has near Hot Springs. Mr. Miller is well known for his success in locating wells and underground streams of water.

DEFENDS THE DECAPODS.

President Ripley Says They Are Doing Good Work.

Some time ago it was reported that the Santa Fe decapods were not doing all the work which was expected of them. General Manager Mudge confirmed this report to some extent, by saying that on sharp curves it has been found that the engines cut the rails. Mr. Mudge denied, however, that the engines were to be discarded. He stated that they were doing very good work on the western mountain roads.

In connection with reports printed in eastern papers that the decapods were worthless and were to be sold or "scrapped," President Ripley said in an interview in a western paper recently:

"No better proof of the success of this type of engine can be had than the work our three decapods are now performing on the western divisions. No. 988 at San Bernardino is surpassing our best expectations. I have been considerably bothered by reports emanating from the west concerning the business of the company. Irresponsible persons appear to take delight in publishing stories concocted from their own imaginations. Generally the readers of the public press receive these emanations, but railroad men—even the employees—immediately recognize their absurdity."

BROKE FARO BANK.

Man Who Devised a New Anti-Tiger Combination. Governor Brodie of Arizona has granted a parole to George Wohlschlagel, convicted of robbery in Cochise county in 1900, and sent to the penitentiary for five years. The parole was granted on the request of a numerous signed petition from residents of Cochise county and endorsed by the board of control and the superintendent of the territorial penitentiary that Wohlschlagel had been a model convict.

It was also known that he had been a hard working man with a penchant

for faro. Every man who plays faro figures out for himself a combination for the beating of the game. Wohlschlagel had done so, but it always appeared as if it does with all combinations formed for that purpose that there was a weak place in it. Then Wohlschlagel thought of another combination that he was sure would work and it did. It was the simple process of holding a revolver to the head of the croupier and compelling him to empty the bank roll into a bag in the hands of a confederate. The confederate was a man by the name of Raymond Owens, and between them they broke a bank in Bisbee one night. They were subsequently captured.

A brother of Wohlschlagel's was in town a few days ago with a petition for his parole—Phoenix Republican.

THIRD BANK FOR DEMING.

Deming Bank Loan and Trust Company Now an Assured Fact.

Colonel P. R. Smith, who is ever in the lead of any enterprise which will be a benefit to the town of Deming and Luna county, has been at El Paso for the past two weeks completing the organization of a large banking and trust company, returned Sunday evening and spent Sunday and Monday at home, says the Deming Graphic.

On Monday a number of details were attended to and the signatures of a number of the best business men in Deming were placed on the list as stockholders, and Colonel Smith left on the evening train for El Paso to complete the final work of organization would be done.

The company will be incorporated under the laws of New Mexico with a capital stock of \$250,000, and will do a general banking and loan business, handle foreign exchange, etc.

Among the stockholders of the association are Hon. A. B. Fall of Las Cruces, Hon. A. W. Pollard, W. C. Wallis, S. Lindauer, Frank Taumond, J. W. Hannigan and James Tracy of this place, and J. G. Hulseberg, Mark Miller, J. B. Burton and Britton Davis of El Paso. The above names are all the recommendation the institution needs and nothing could do more for the building of our town at the present time than the organization of such a company.

The secretary of war has approved the opinion of the judge advocate general of the army holding that the government is entitled to reduced rates over the tracks of land grant railroads when operated by other railway companies. The Astoria & Columbia River railroad operates its line over thirty-nine miles of the Northern Pacific road in Oregon under a track arrangement and the land grant rate to the war department. The attorney general has been requested to bring suit to secure the extra charge which the government has paid.

ANOTHER SHOOTING.

Antonio Garcia Shot at Belen Last Night.

Antonio Garcia, a native of Mexico, was shot at Belen last night by Sheriff Baca of Valencia county, while making an attempt to escape capture. News of the affair received here is as follows:

Garcia and another Mexican engaged in a quarrel in a saloon over a dispute arising from a game of cards. Garcia drew a knife and was going after his adversary in a ferocious manner. Sheriff Baca was in the room and attempted to put Garcia under arrest. Garcia darted out of the saloon and was making dust for tall timber, when a shot from the sheriff's pistol brought him down. The bullet took effect in the fleshy part of the back and is not of a serious nature.

W. C. D. Miller, brakeman on the passenger between Albuquerque and El Paso, is in the city to do assessment work on some mineral prospects he has near Hot Springs. Mr. Miller is well known for his success in locating wells and underground streams of water.

ADMINISTRATORS' SALE.

In the matter of the estate of Martin E. Callan, deceased. Notice is hereby given that the undersigned, administrator of the estate of Martin E. Callan, has filed in the Probate Court of Bernalillo county, a final report of all his acts and doings as such administrator and the said Probate Court has fixed Monday, the 7th day of September, 1902, as the day upon which all objections to said report and final account may be heard, and the application of the undersigned to be discharged as such administrator may be disposed of. All parties in interest are required to take notice accordingly.

OSCAR O. ANDERSEN.

Administrator.

ICED THE FURNITURE.

Unusual Care Taken of Two Cars Marked "Frt." Ross Cline, traveling passenger agent for the Wabash, tells the following story which he claimed took place but a few days ago which he swears is the truth, the whole truth, and nothing but the truth. Here it is:

Two fruit cars were shipped from Grand Rapids, Mich., loaded with furniture and tagged the cars "car load of Frt." At Texarkana the yard master interpreted the abbreviation to mean fruit. The cars being fruit cars, there was no question in his mind but that his interpretation was correct, so he ordered them run onto the ice track where the refrigerators were stocked. At El Paso the lead master saw that the cars had been iced and he promptly replenished the stock. When the Los Angeles house received its bill there was an extra charge of \$75 for ice. The firm's consternation and subsequent indignation may be easily imagined.

COMMANDER STEWART.

He Will Be Tendered a Reception Here Next Tuesday Night.

COMING WITH PHILADELPHIA VETERANS

Last evening Department Commander J. W. Edwards received a telegram from Commander-in-Chief Stewart of the Grand Army of the Republic stating that a reception here next Tuesday night, while he and a party of Philadelphia, Pa., G. A. R. veterans are in the city, would be entirely satisfactory to him and his party. The reception will undoubtedly be a grand affair. The Philadelphia party will consist of about 200 persons, and to entertain them in the proper manner the services of every member of G. K. Warren Post No. 5, and the local order of the Women's Relief Corps will be called into requisition. The committee on arrangements appointed Tuesday night at a special meeting are J. W. Edwards, Gov. E. S. Stover, J. M. Moore and David Denham. They are old timers of the campaign, coffee kettle and baked beans, and no doubt the Philadelphians will be well cared for while in Albuquerque. The train is scheduled to arrive here about 7 o'clock p. m., and will remain until next morning. Commander Stewart in his telegram last night stated that it would likely be late.

NO MORE CAT NAPS.

Santa Fe Issues an Anti-Sleeping Order at Night.

If reports from Needles are to be believed, a handful of men there have been catching the strike fever from La Junta. Five of them were out for a few hours last week because they couldn't sleep. It wasn't the warm weather which came as a preventative to their slumbering, but a rather unexpected order from Division Master Mechanic Schaefer. It seems that the round house men on the night shift have been in the habit of taking a few short snoozes during the times when there was a slack of work. They claim that these snatches of sleep never interfered with their work and in consequence, when the notice was posted tabulating the usual dream period there was a kick. There was some talk of "striking," and in fact they claimed they were out of the service for several hours during the day, but when night came they were ready for work as usual, while the night restaurant is selling an extra amount of black coffee to keep the force awake.

Canoa Association's Annual Meet. Clayton, N. Y., Aug. 6.—Once again this locality is the Mecca for the American Canoe association, whose annual meet began today on Sugar Island. Devotees of the sport came in attendance from various parts of the Dominion, from New England, New York and several states further west.

An entire week is to be devoted to the sport. Besides other interesting features the days will be devoted to tub races, war races and numerous other contests. The site of the camp has been admirably selected and everything points to a highly successful meet.

The Santa Fe has replaced its sixty-pound rails on the western main lines with eighty-five pound rails, and the old rails are in the Newton, Kas., shops being shortened a foot or two, and will be shipped to the panhandle line near Wellington. They will be used to replace the present rails. When they are in larger engines are expected on this division and longer trains will be run.

TUCUMCARI.

From the Democrat. J. Lawson and children, accompanied by his sister, Miss Lawson, returned from Pott county, Oklahoma, where he went on business. He reports crops looking well in that section.

Miss Vivian Chipman, who has been visiting her sister, Mrs. E. T. Hittson, for several months, returned to her home in Childress, Texas. While here, Miss Chipman made many friends who regretted her departure.

A good many people are under the impression that

Notes from Correspondents

SAN MARCIAL NOTES.

Batch of interesting short paragraphs about a good Southern town.

San Marcial, N. M., Aug. 5.—C. L. Hatley has purchased the Hall house at the foothills and has moved his family to his new residence. He is repairing his late residence and will soon have it in shape to rent.

Charles Nattress received his new saddle the other day and left for his ranch in the Black Range to spend a few weeks looking things over. Charles has been attending the Agricultural college at Mesilla Park for the last two years, but will not attend this year.

John Gallagher, Jr., is calling days at the depot, adding the vacancy which Allen Hadley performed.

G. A. Perlewitz, who has been acting as day operator for the Santa Fe, has been promoted from day operator to second track dispatcher. Everybody hopes Mr. Perlewitz will have good luck in his new office.

J. J. Chandler is preparing to move his City Meat Market to the corner brick, north of LeBreton's store.

J. K. Nichols has purchased two new chairs for his barber table which are up to date in every respect.

The San Marcial flour mill is running steady and grinding wheat at the same old rate. The personnel of the mill is S. A. Roser, miller; and Jerry Roser, acting as engineer.

The postoffice has been polished and gives it a very neat appearance.

H. Bonen will occupy the old meat market shop which was vacated by J. D. Chandler.

Three gasoline lights now hang on Front street, one being in front of H. Bonen's, one at F. H. Richard's and one in front of S. G. Hanna.

These lights are a benefit to the town and lighten the pathway of the passer-by.

The stores of San Marcial will, commencing August 10, close at 7 p. m. All the clerks are very glad to get the benefit of one hour.

Harry Boas, who has been visiting with his relations in Arkansas, returned a few days ago, and is now making his regular run as conductor out of here.

Dr. Coughlin, formerly second track dispatcher here a few years ago, has been promoted from chief dispatcher of Dodge City to trainmaster here, filling L. U. Morris' place.

Mrs. Sid Hockett is in Newton, Kan., on a visit with Mrs. F. J. Easley.

The new opera house is getting its roof on now and will soon be ready to hold dances, etc.

Mrs. W. H. Hockett and daughter open Saturday and Sunday in the nightclubs.

The new Santa Fe depot will soon be ready to move into. The painters are using their dusters rapidly.

Jack Harlan and Eddie Nichols will attend the Military Institute at Roswell this year. We all wish them success.

L. J. R. Nelson is on the sick list fighting a severe case of rheumatism.

TOWN OF GOLDEN.

Mining Notes from a Fine Mining District.

Golden, N. M., Aug. 6.—James McNair, an old experienced miner and prospector from Colorado, is spending several days in camp.

The Industrial Placer Mining Company has Mr. Cobbs of Albuquerque, taken views of the company's ground.

The Interstate Mining Company, who owns several hundred acres of cement ground west of Golden, intend building a cyanide plant to treat the cement.

Frank P. White, owner of the Gold King mine, is still taken out some rich ore and having the same treated at the Cerrillos smelter, where he gets favorable reports.

G. J. Smith, owner of several promising claims in the district, is doing some heavy development work in some of his copper properties. Some of the ore will be shipped to Cerrillos for treatment.

The McKade Mining Company has taken out some gold ore from beneath the Ortiz grant. The ore is being hauled to their mill at Golden, where the ore will be treated.

The Gold Bullion Mining Company, operating the richest placer ground in the district under the management of Col. J. A. Wood, has fourteen men at work doing some heavy development work in the company's wells. Besides doing some other necessary work around the plant, the company is washing the yellow metal, some very essential changes will be made in the washer to enable the company to work the placers in some more satisfactory way.

The C. and C. Mining Company, operating in San Pedro, under the management of Mr. Stewart, has been working the mine, employing several men in sinking down the shaft. The C. and C. mine, located west of the old Lincoln Lucky and Lee mines, has some lead and silver ore that by depth of large body of mineral may be found, and make the mine a heavy producer of silver and lead. Some very nice lead and silver ore is found in the porphyry of the shaft is sunk, giving much encouragement to the owner in keeping sinking down to the ore body.

The McKinley mine, joining on the south the Gold Standard, under the management of F. L. Hall, the mining engineer of the McKinley company, development work is kept up and some very rich free gold ore has been taken out. Several tons of this ore have been sacked and the same will be treated in Golden's mill this fall. The McKinley company has one of the very best developed mines in the district and the owners are proud to have their property in such fine shape. The shaft is now down 120 feet and the mine looks very promising.

ROSWELL.

From the Record.

A careless delivery boy left a bag of corn exposed in the stable at Dr. Journeay's residence. His cow and

brightest young traffic men in this country and has a personality that makes him popular wherever known. —Railway Journal.

Employees Cannot Solicit for Hotels.

Superintendent Sroufe of the Southern Pacific at Tucson, has just issued a bulletin in which he states that it has been reported to him that several passengers have been in the habit of passing through the train and handing cards to the passengers advertising certain hotels along the line.

Mr. Sroufe says that all trainmen will be expected to furnish the traveling public all possible information calculated to be of benefit to them, but direct soliciting for hotels is prohibited, and those caught in the act will be severely dealt with.

Charles Roe, district agent for the Singer Sewing Machine company, left this morning for Colorado.

A MANANA MISTAKE.

Mesilla Valley Farmers Are in Need of Having Water Turned On.

Agriculturists are complaining bitterly about the condition of the ditch which supplies the Mesilla valley for irrigation purposes. It has been practically dry since the flood of the Rio Grande, and crops are suffering. The ditch was banked up with sand and rock during the high water to keep it from being washed away. Since the fall of the river an immense deposit of gravel and sand has been at the entrance, which effectively blocks the water from coming into the canal.

The farmers claim that the authorities are remiss about taking steps to remedy the situation, being loathe to spend the money to remove the debris. The valley has been entirely cut off from water, and the ditch today is dry as a bone.

The effect is very noticeable on the crops. The fruit is small and lacks flavor, the alfalfa is slow of growth and the corn is very poor. It is stated that unless some action is taken soon, the loss entailed by the farmers will be heavier than they can bear.

There is an abundance of water in the Rio Grande. It was stated today that force of Mexicans had been placed at work removing the debris but it is feared that the action has been too long delayed.

At the ranches where pumping is practiced, fruit is in fine condition, and three cuttings of alfalfa are reported to have been secured. Those scientific farmers will reap an excellent harvest for their industry.

IN COLORED CIRCLES.

Women Fight and Were Called Before Police Magistrate This Morning.

When Justice Borchert opened police court this morning the benches were filled with colored people, mostly inhabitants of the North Third street district. There was trouble over last night and lively times too.

It seems that a colored woman, employed thereabouts, had a little party, a few invited guests being present. A few party freely became a rough house and the visiting woman was the victim of bodily abuse administered by the hostess.

"We had beer and a real pleasant time," said the guest, "but we got to talking about a valentine that some one sent me and there was the trouble."

They told the court all their trouble for six months back, and were on the verge of letting out family secrets, when the court interfered.

The guest was found guilty of causing all the trouble and was fined \$10.

Strike at the Beet Sugar Factory.

Carlsbad is getting to be a metropolitan city in more ways than one, and in attestation of the fact the brick cleaners at the old beet sugar factory went out this week for an increase of wages. It seems that the men had been paid \$1.50 a thousand for cleaning the brick, and becoming of the opinion that they could not make satisfactory wages at that figure, asked for an increase to \$1.75. Inasmuch as this was all the contractor received for the work, the demand was denied, and the men went out. So far there has been no effort to resume operations, although there are yet several thousand brick waiting to be cleaned and put in shape for sale in the local market. There was no violence or disorder of any sort, notwithstanding several stories afloat. It was merely a question of wages, and the men did not seem to care enough about it to rise any fuss, beyond demanding the increase. —Argus.

DEATH AT CITY BUILDING.

A Cook From Off the Cut-Off Railroad Dead.

J. W. Edwards, until two weeks ago a cook on the Santa Fe cut-off, died at the city building at 1:20 o'clock this afternoon, after only a few hours' illness. The body was removed to the parlors of Undertaker A. Borders, where it awaits the claiming of relatives.

The deceased has been in the city a couple of weeks and has been a frequenter of saloons and police court. He first gained newspaper notoriety by being robbed of \$25. He became a nuisance and was given over to Street Commissioner Martin Tierney. He was working on the Highlands this morning with a group of other vagrants. He felt ill and sat down. Commissioner Tierney asked him if he was sick and he replied that he was. Mr. Tierney told him to go sit in the shade. Edwards started but before going far fell to the ground in a fit. He was taken to the city building, where he received medical attendance. At the time stated he expired, apparently from heart disease.

Jesus C. Sanchez, the popular school superintendent of Valencia county, is in the city today on business. Mr. Sanchez says a teachers' examination will take place at Los Lunas on Friday, August 28, at 10 o'clock.

Matt Ridley is enjoying a visit from his daughter, Mrs. J. B. Burlington, with her baby, arrived from Los Angeles.

WEEKLY CROP

BULLETIN

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., August 4, 1903.—The weather of the past week continued hot and dry, with high drying winds unusual at this season. Irrigation water is beginning to fall in some localities, but as a rule it is still sufficient for all needs. Unirrigated crops are suffering greatly, corn especially being badly dwarfed and wilted; but under irrigation, corn is growing rapidly and will soon be generally in silk in northern counties. All kinds of stock are reported in very good condition, and improving, but the pastures are beginning to look brown, good rains being needed to insure fall and winter feed. Threshing is in progress in the upper Rio Grande valley; the yield and quality of the wheat is very good. The second crop of alfalfa is generally secured in northern counties with a fair yield. Peaches, plums, pears and early apples are ripe in northern orchards; the yield is very irregular, but as a rule the quality is good. Grasshoppers are doing considerable damage in the valleys of northern counties, damaging corn and alfalfa. A severe hail storm in the vicinity of Las Vegas on the night of August 1, considerably damaged vegetation. On some northeastern farms the alfalfa crop of the season was far below the average.

The following remarks are extracted from reports of correspondents: Albert—H. M. Hanson: Hot and dry, vegetation considerably wilted. One light rain during the week but the relief afforded was of brief duration. Third alfalfa has made a good growth and with a little rain would make a good crop. Highest temperature, 101; lowest, 59; rain, 0.41.

Arabela—H. M. Richardson: Dry and hot and everything is drying up. Surface water or the stock has nearly all dried up. Highest temperature, 94; lowest, 60; rain, 0.10.

Bell Ranch—C. M. O'Donnell: A hot and dry week; rain is needed on the range as the grass is drying up. July has been a dry month, and the summer so far has been unusually dry. Old alfalfa has yielded two crops but new sown has had no chance, excepting where well irrigated. Rainfall for the month, 0.43; for the week, trace.

Lorsey—W. C. Barnes: A hot and dry week; grass on the prairies is drying up fearfully, and the ranges are getting very yellow. Stock of all kinds is fat at present, but we must have rain soon and in plenty. Calf crop here has not averaged over 30 per cent.

Polson—Jackson Tabor: The past week has been hot and dry and grass on the range is almost as dry as in fall. Water is drying up; all but the best springs are failing. All kinds of stock are looking well, and getting fatter every day. Unless we get rain the second cutting of alfalfa will be short. Highest temperature, 90; lowest, 50; no rain.

Port Stanton—Ernest W. Halstead: Dry and hot; no rain excepting a light shower on the 28th. Irrigation water again very short. Second alfalfa being cut. Highest temperature, 93; lowest, 49; rain, 0.06.

Gallinas Springs—Jas. E. Whitmore: We are having very wet weather and the grass is getting very dry. Grass is breaking off but cattle are looking very well. Highest temperature, 101; lowest, 59; rain, trace.

Golden—R. M. Carley: Dry and hot and grass and crops suffering. The prairies are drying rapidly and all the grass will dry up unless rain comes soon.

Hobart—W. E. Hough: High, drying winds during the week. Corn and alfalfa being damaged by grasshoppers. Wheat threshing in progress.

Las Vegas—Lou J. Thornhill: Hot and dry, with considerable wind the last few days, and a few light showers. A good crop of second alfalfa is all secured in good condition. Unirrigated corn looks poorly. Twenty-five minutes of hail on the night of 1st damaged corn and vegetation considerably.

Redrock—Louis Champer: Corn and cane made good growth during the week, and the second crop of alfalfa secured in good condition. Mountain rains renewed irrigation water, which continues to answer all demands.

Santa Fe—U. S. Weather Bureau: Weather continues hot and dry but irrigation water is abundant. Unirrigated corn looks very much wilted, and early rains are needed to make any sort of a crop of it. Early peaches are scarce but of very good quality. Irrigation water, especially alfalfa are being cut rapidly. Highest temperature, 87; lowest, 56; rain, 0.01.

Watrous—M. C. Needham: Drought is still unbroken and range and crop conditions are not promising. High, warm winds have prevailed throughout the week. Highest temperature, 95; lowest, 44; no rain.

R. M. HARDINGE, Section Director.

NOZZLE EXHIBIT.

Test Late Yesterday Afternoon at the Barnett Building.

The city fire department is in need of a couple of new hose nozzles, but as to whether the council will purchase the new nozzle manufactured by Samuel Eastman & Co. of Concord, N. H., and tried yesterday, is very uncertain.

The test yesterday was quite satisfactory, although water was thrown only about 125 feet instead of 200 feet, as is claimed by the manufacturers. And this extraordinary good showing is partially in response to a very high temperature. The pressure yesterday was certainly extraordinarily high. After the new nozzle was tested both with the "two-way deluxe set" and with the single hose, an old nozzle, one that has been in the department for years, was tried and threw water with force and to a distance all most equal to the new one. The first test made of the new nozzle, a short

time ago, was a decided failure. The question now arising is, was not the water pressure responsible for the success of the test made yesterday?

In the test yesterday water was thrown far above the roof of the new Barnett building and almost from the street to the alley, a distance of 140 feet. In the first test made water from the new nozzle would not reach the roof of the club building, at the corner of Gold avenue and Fourth street, and again at the corner of Railroad avenue and First street, water could not be thrown to the roof of the Sturges European hotel building. The water pressure must have been very poor.

The city council at its next regular meeting will probably decide whether or not they want the new nozzle. If purchased it will cost \$162.

NEW MEXICO FAIR.

An Arizona Newspaper Has Some thing to Say About the Fair.

Secretary P. F. McCanna is now sending out attractive printed matter incident to the promotion of the twenty-third annual New Mexico territorial fair to be held at Albuquerque October 12 to 17, inclusive. Pamphlets have been received by several persons here. The fairs have been very successful, especially so in recent years. The executive committee includes C. C. Hall, chairman, and three members of the press, the support of the craft in the past being a guaranty for the occasion of this year. Mr. Hall has been the president of former associations and his aid is therefore necessary to the success of the coming fair. He visits Tucson at least twice a year on business as a commercial broker.

The attractions, aside from the exhibits, will include a base ball tournament, first prize \$500; second, \$200; third, \$100. Cow boy tournament \$2,000 purse hung up. Horse racing, purses aggregating \$4,500. The Southern California Carnival company, which company showed here in November last, will be there and the territorial exhibit to be sent to St. Louis is to be shown.

Rates of transportation from Arizona points will be established and it is expected that at least the champion cow boys of the territory will go, besides the champion base ball club, known as the Tucson Grays—Tucson Citizen.

Ben Williams, special officer of the Santa Fe, was at Las Vegas on Wednesday.

DESERVING OF CREDIT.

L. W. Gailles Receiving Praise From Citizens Today.

L. W. Gailles, the district manager of the State Life Insurance company of Indianapolis, Ind., is receiving lots of credit today from all classes of citizens for his enterprise and liberality in making the substantial subscription toward securing the Albuquerque Southern railway, his offer being published in the Citizen yesterday afternoon.

Mr. Gailles came to this city only a few months ago from Hillsboro, Tenn. county, but as this is his home in the future, he intends to do his share toward building up this city. Basis on what business he has done the past few months, Mr. Gailles figures that he can turn over to the Albuquerque Eastern fund about \$2,500 between now and January 1, 1904.

Berry's Birthday.

S. C. Berry, better known as "Bully" Berry, celebrated his birthday yesterday in a royal good manner. He invited a number of friends to accompany him on a hunt up the river, and after vehicles had been secured the party all piled in and took a ride. Of course lunch and other "refreshments" were taken along, and the huntmen of the party killed 161 birds. Those who accepted Mr. Berry's hospitality, besides his immediate family, were Mrs. H. E. Rogers and niece, Miss Ethel Bower, Charles Quier and wife, Capt. Seidmridge and family, Roy McDonald, Ed. Hysel and Watson King. The party returned to the city about 6 o'clock and broke ranks at the Highland natorium, where a riot swim was enjoyed and then a return to the city. Mr. Berry says he is 36 years old.

Mrs. J. J. Sheridan, wife of the efficient deputy county treasurer and collector, is still enjoying herself in San Francisco. She writes that she had a touch of the earthquake shock there the other day, and after it had passed over she had a tremble all by herself.

DESTRUCTIVE STORM.

Section of Colorado Visited by Terrible Hail Storm.

Denver, Colo., Aug. 7.—Crops in Boulder and adjoining county were damaged by Wednesday night's hail storm, the extent of several hundred thousand dollars. In eastern Boulder county alone damages are estimated at over half a million dollars. Near Eaton, 300 sheep were killed and several people injured by immense hailstones. Number of hogs killed near Lafayette and some of them found dead standing in two feet of hail. Yesterday afternoon Perry Park was swept by a cyclone followed by hail and rainstorm. The stage coach was overturned and several people injured. The Nanahant hotel was injured by wind and one cottage was crushed. A number of large trees were uprooted and other damage done.

Iowa Editors Meet.

Mason City, Ia., Aug. 6.—Mason City is just now the rendezvous for the men who work with pen and brain all the year round to keep the people of the Hawkeye state well informed of the happenings on the day. They are the members of the Upper Des Moines and Northwestern Iowa Press associations, which began a joint meeting here today. The gathering was formally opened this afternoon with a session devoted to shop talk. The principal topic was legislation that should be passed by the next legislature. Tonight the editors will have a banquet with the usual speech-making and tomorrow the day will be enjoyed at Clear Lake.

Citizen "want ads" bring results.

Territorial Topics

SANTA FE.

From the New Mexican.

Professor G. L. Marsh, who was principal of the Santa Fe high school two years ago, and since that time has been principal of the public schools at Clayton, N. M., has embarked in the lumber business in that thriving little city.

Dr. J. M. Diaz, assisted by Dr. J. A. Massee, performed a surgical operation, removing the eyeball of the right eye of Rita Garcia, an aged woman. The patient is reported as resting well after the operation.

A suit has been filed in the district court for Rio Arriba county styled Miguel Chaves vs. Vicente Montano, wherein the plaintiff asks judgment for \$478.08 for goods alleged to have been sold the defendant.

A priar dog has made his home on the roof of the building occupied by Mrs. Mugler's millinery store on the southeast corner of the plaza. Every day the little fellow comes out to the edge of the roof and takes a view of the city and its busy streets, and then retreats to his lair.

Mrs. N. B. Field of Albuquerque, and Miss Nina Otero will arrive from the Pecos forest reserve where they have been sojourning at the Field cottage for some weeks. Mrs. Field will be the guest of Mr. and Mrs. A. M. Bergere while in town.

Elías Clares, the owner of the Rio Grande bridge at Buckman's, north of this city, is here for the purpose of trying to sell the bridge to the county. It is more than likely that the commissioners' court will be called together within the next few days, and at that time the matter will be fully discussed.

Professor A. R. Grant, late principal of the Santa Fe high school and who married Miss Fulsom on July 10, was recently elected superintendent of the public schools at Half Moon Bay, Cal., at a salary of \$1,000 a year. He was also elected to the chair of mathematics in the normal school at Drain, Ore. He accepted the latter position as being the more desirable one.

Preparations were made for a surgical operation to be performed this afternoon upon the hand of Richard Martin, who is at the Bon-Ton hotel with his mother, Mrs. R. Green of Cerrillos. Richard has been suffering for some days with a badly sprained and broken hand, and it has been decided by the surgeons in attendance to San Francisco, where he goes to take a position with a surveying party which is working just north of that city.

It is awful to relate, but there has been a beer famine in the city for a day or two, the very hottest part of the summer, tamen. It is related that one man who hadn't tasted water for fifteen years, was forced to imbibe a little of the Agua Pura fluid.

Miss Helen Pape, one of the popular teachers of the city, was last heard from at Louisville, Ky. Since leaving here for the summer, the young lady has visited Boston, New York, Washington and Atlantic seaside resorts, and before returning she will yet spend some time in Chicago by the lake.

The Colorado Telephone company people give out the information that the long distance line from this city is almost completed. It will only be a few days until the last connections have been made. Raton, Springer, Alamosa, Maxwell and other towns of New Mexico will be brought into direct communication with Las Vegas and with cities and towns of Colorado as far as Denver.

OVERLAND TRIP.

George Annot Returns From a Drive Through the Manzanos.

George Annot, manager for the local house of Gross, Kelly & Co., returned yesterday from a trip by wagon from Lamy along the east side of the Manzanos range of mountains, through Abajo canyon and to Belen. He says that the country across the mountains is looking fine. The situation on the cut-off is practically unchanged, with the exception that possibly the forces of workmen in the different camps are being cut down.

LAS VEGAS.

Miss Marion C. Kennedy of Topeka, is expected to arrive at a protracted visit with her sister, Mrs. Byron T. Mas.

Mrs. Thomas Thoma, niece of Mrs. H. Risch, arrived from Belleville, Ill., last Saturday. The lady is here for health reasons and will remain several months.

Sheriff Cleofes Romero and wife are the proud parents of a big twelve-pound boy, and the sheriff is stepping correspondingly high.

Word has been received in the city by friends of Miss Katherine McConnell, who was graduated from the Normal last year, stating that she has been elected to a position in the public schools of Florence, Colo.

Charles Jones, formerly of Las Vegas, stopped over here Tuesday. He was on his way from Dodge City, Kan., that an operation is necessary to save the hand. The middle finger of the right hand will be amputated.

Over a Trifle Matter.

Romula Salas vs. Peter Corn was the style of a case in the justice court Tuesday. The Mexican contractor wanted to shear Mr. Corn's sheep, but because of a trifle difference arising at the shearing corral over penning the sheep the Mexican called off his men and quit work after shearing one day. The suit Tuesday was to recover the price for the one day's work. Mr. Corn set up a counter claim of damages resulting from the breach of the contract, and the jury very promptly decided against the plaintiff.—Carisbad Argus.

Col. Cleary retires Today as Brigadier.

Col. Peter J. A. Cleary, chief surgeon of the Department of Texas, retired yesterday on account of age and the president will retire him as a brigadier general. Colonel Cleary has seen service in the army medical department since the beginning of the Civil war and put in a good deal of time in Texas, Arizona and New Mexico in the early days after the war, and his retirement as a brigadier is a "well-earned reward for good services."

A Ride for His Life.

John A. Wilcoxson, the well known Clay Creek stockman, had a thirty mile race with death Tuesday morning and won out. Mr. Wilcoxson has been pasturing his cattle near Sheridan lake during the summer. On Tuesday morning, while driving some cows up to his camp, he was bitten on the right leg by a large rattlesnake. The injured man tied his shoe string tightly around the leg over the bite and then mounted his horse and started for Lamar to obtain medical attention. He covered the distance of more than thirty miles in two hours, and was almost collapsed when he reached here. His leg was badly swollen and very painful and his whole side was numb from the effects of the deadly poison. Dr. Friend at once administered heroic treatment and by night the patient was practically out of danger. It was a close call, and Mr. Wilcoxson would not go through the experience again for anything in the world.—Lamar, Colo., Sparks.

CONVICT HILL.

The Escape of Henry P. Hill, the Diamond Thief, Frustrated.

The penitentiary authorities have just completed the investigation of the circumstances attending the attempted escape from that institution last week of Henry P. Hill. They have found that the plan was quite a clever one and was frustrated only by the still greater cleverness and the vigilance of Assistant Superintendent W. E. Martin.

The principal, or rather confederates, in the attempt to escape from the penitentiary were Henry P. Hill and Alphus Hampe, both desperate and tricky convicts. Hill, despite his tender age of 22 years, has already achieved notoriety as a diamond thief and jail breaker. He was sentenced two months ago at Las Vegas by Chief Justice W. J. Mills to serve a sentence of two and a half years for a diamond theft. He stole a diamond ring not long before that at Uconel Grove, was arrested and jailed but escaped before trial. He then went to Las Vegas and committed a similar theft. Hill has a Napoleonic cast of features, and is only 5 feet 4 inches in height. His weight is 122 pounds. He has light brown hair and eyes. His face is smooth; he has good, sound teeth and his complexion is like—He is accustomed to wearing a small cowlick above the hair line on the right forehead. By occupation he is a printer, though he is said right here, printers furnish fewer recruits to penitentiaries than any other occupation with the exception of editors.

Alphus Hampe is serving a life sentence for complicity in the murder of Epitacio Galligos, jailer at the Santa Fe jail. The particulars of this gruesome deed are still fresh in the minds of readers. Jose Telles, who took part in the murder, was hanged at the Santa Fe county jail, and Alphus Hampe had a narrow escape from the noose and in almost any other community would have been lynched. He too, as Santa Fe people remember, has had experience in jail breaking.

Hill and Hampe conspired despite the vigilance of the penitentiary authorities who forbid communication between convicts. While working around one of the lime kilns, a number of bricks were removed casually and an opening large enough for a small person to crawl into was made. On Monday afternoon of last week Hill crawled into the hole and Hampe replaced the outside brick leaving only small interstices to admit the air. The disappearance of Hill was discovered almost immediately by the penitentiary authorities and a thorough search was instituted. It was Hill's plan to get into a car of brick leaving the penitentiary and by hiding among the brick to make his escape. But the vigilance of the guards was such that Hill could not carry out this plan. He depended upon Hampe to furnish him with food and water, but Assistant Superintendent W. E. Martin at once locked up those convicts whom he thought might have had something to do with helping Hill to escape. Among these was Hampe, Hill after exhausting the small supply of bread and water he had, waited vainly for Hampe to replenish his larder.

The full guard of the penitentiary was on duty and night keeping a sharp lookout and Hill began to feel uncomfortable in his close cell. He watched his opportunity and Wednesday night he left the brick kiln and made for the hog pens. Here he crept into a hole underneath the manure. He intimidated the boy convict who had charge of the hog pens and compelled him to supply him with bread and water but told him to Hill's undoing and he was recovered and hauled out of his hiding place at 1 o'clock last Friday afternoon, after having eluded the vigilance of the officers for four nights and four days.

Hill has lost his good time allowance for his escapade and will be more closely watched in the future. Hampe will or the time being walk around with a ball and chain which may have a sedating influence upon his scheming nature. All is serene at the penitentiary and the convicts have learned the lesson that it does not pay under the present administration to violate any of the rules and that attempts at escape, no matter how clever, will be checked and will bring nothing but punishment and more severe treatment to those participating in them.

One of McSpadden, Springer's big floats was in use on Wednesday night, Miss Susie Dobson, daughter of Col. and Mrs. E. W. Dobson, gave a hay ride to a party of her little friends. A piano was on the float which had been provided by Hall & Leonard. After the ride, refreshments were served at the Dobson home on West Tijera avenue.

NEW MEXICO TOWNS

SILVER CITY.

From the Enterprise.

Harry Woods, for a time a mixologist at the Palace, leaves for Globe, Arizona.

W. S. Cox has returned from a thoroughly enjoyable visit to the sad sea waves on the Pacific coast.

Arthur Sieth returned from an enjoyable visit with his folks in Chicago. Arthur said Silver City never looked so good to him as on his return.

W. C. Pile, formerly manager of the Silver City Cigar company, was married recently to a wealthy young lady of Pittsburgh and has decided to remain in the east where he will engage in business.

Professor and Mrs. Hugh A. Owen, who have been camping at Avalon, Catalina Island, are now in Bakersfield, California, where they will remain until the middle of the present month.

Perry Crawford, the bright son of Mr. and Mrs. P. P. Crawford, left the city part of the week for Berkeley, California, where he will enter the University of California to prepare himself for a mining engineer.

Stockton Bros., the well known Grant county cattlemen, have purchased from Frank Dysart's Hereford herd in Arizona, twenty head of young cattle. The Stockton brothers are prominent cattlemen, the owners of one of the largest herds in the county, and prize the importance of keeping their cattle up to the highest standard, and such being their purpose they could not have done better than they did.

Mrs. Sprague Leppelman, who has been at the bedside of her brother, Dr. S. M. Strong of Santa Fe, for the last two months, was joined by her husband and son, who arrived from Jefferson City, Mo. Messrs. Leppelman and Strong will go on a camping trip to the Upper Gila during the latter's period of convalescence. The Leppelmans may decide to locate here and will be valuable additions to Grant county. Mr. Leppelman was a member of the first state senate of South Dakota, and in other ways, prominently identified with the early life of that commonwealth.

Mrs. Mollie Allen, of South Fork, Ky., says she has prevented attacks of cholera morbus by taking Chamberlain's Stomach and Liver Tablets when she felt an attack coming on. Such attacks are usually caused by indigestion, and these Tablets are just what is needed to cleanse the stomach and ward off the approaching attack. Attacks of bilious colic may be prevented in the same way. For sale by all druggists.

LAS CRUCES.

From the Progress.

James P. Jitell transacted business in Garfield the first of the week. Mrs. Louis Goodman of Victoria visited friends in this city last week.

Mrs. Petra Oliver of Astoria, mother of Frank L. Oliver, is seriously ill. Joan R. De Aler is visiting his daughter, Mrs. A. E. Banner, and family at Alamogordo.

Henry D. Bowman has returned from a combined business and pleasure trip through the eastern states.

Mrs. A. J. Newcomb and her daughter, Bessie and Alice, are here on a visit, previous to leaving for Canada, where the young ladies will enter school this fall.

Walter M. Danburg will leave for the Navajo reservation, where he expects to remain several weeks in the interest of the Mexican View & Curio company.

Miss Alexine Fall, daughter of Judge and Mrs. A. B. Fall, now of El Paso, who has been attending school in Tennessee during the past year, was in town last week on a few days' visit with her Crucero friends.

Jacob Appelzoller was in town from La Mesa. He reports a bright outlook for an unusually large apple crop from his orchard, while all fruit in his locality promises a heavy yield.

Mrs. Louis Hostetter and daughter, Hazel, left for points in California, where they will visit friends and revel in the delightful climate of that state of green foliage and blooming flowers.

The Perfect Liver Medicine. Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it. 'Malaria' cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever-producing poisons. Herbine is a most efficient liver regulator. 50c at J. H. O'Reilly & Co.

SANTA FE.

From the New Mexican.

Mr. and Mrs. C. E. Jackson spent the day and last night in the Capital city. Mr. Jackson is connected with the Cerrillos smelter as machinist.

The fire alarm last night called the department out to extinguish a small blaze which started in the building just across Palace avenue from the New Mexican office. The fire was in the rear of the apartments occupied by the family of Forest Ranger Fletcher. The department extinguished the blaze with but a few dollars' loss. As to how the fire originated is a mystery, though Fire Chief Dettelbach is of the opinion that it was of incendiary origin.

Chairman A. L. Kendall of the board of county commissioners, and J. D. Sena, city councilman, spent considerable time yesterday afternoon in examining the bridges in the city limits. All of the bridges need much repairing, but as the county has only \$76 in its bridge repairing fund, very little can be expected from that source. The city will have to do the main portion of the work and the sooner this is done the better for the convenience of the citizens and of the business of the town.

A committee of business men this

forenoon called upon General Torrance to pay their respects and discuss the situation. Some twenty minutes were consumed in friendly talk, and discussion of the prospects of the future and the present. The committee was headed by Mayor Sparks and there were present Arthur Seligman, W. N. Townsend, S. Spitz, Judge Laughlin and Major Frederick Muller. The main object of the call was social. The committee assured General Torrance of Santa Fe's appreciation of the good to result to the city from the building of the Santa Fe Central railway, and of the city's friendly feeling toward the road and its promoters.

Not Over-Wise. There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by a man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

SAN MARCIAL.

From the Bee.

Mr. and Mrs. Henry Lohman have returned from Kansas.

L. J. K. Nilson is struggling with an attack of rheumatism.

W. B. Lamkin, the expert plasterer, has arrived from Albuquerque.

Contractor W. G. Lane has begun the work of placing the roof on the opera house.

Mr. John Cadogan received a handsome piano last Tuesday. It is a present for his daughter, who is soon to return from Chicago.

Dr. F. A. Jones is said to be meeting with great success in gathering a representative mineral exhibit for the great St. Louis fair.

Miss Bessie Hitchcock has been very sick this week. As soon as her health will permit she will go to Las Vegas for a much needed vacation.

Fred Richards, who is conducting his cigar store along the proper lines, is making some money, now burns a gasoline lamp in front of his premises. There is both satisfaction and enterprise in the venture.

A Woman Killer. J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c at J. H. O'Reilly & Co.

LORDSBURG.

From the Liberal.

Miss Clarice Longstreet, of Los Angeles, is visiting Mrs. E. D. Weymouth.

Mrs. W. C. Marshall has gone to Oakland, California, to visit with relatives.

The twenty months' old daughter of J. H. Woods died from the whooping cough.

Mrs. J. M. Adams and Master Budie, who have been at Clifton for some time, returned to Lordsburg the first of the week.

Mrs. E. B. Howley and children left for Douglas, where Mr. Howley has been for some time and where he expects to go into business.

Major B. W. Randall left for Silver City to give testimony in the case of Bean against the American Consolidated Copper company, for the possession of the Atwood mine.

Miss Hattie Gaddie, of Gold Hill, went down to the Animas to teach S. R. Dunagan's children. Mr. Dunagan lives so far from a school house that he has to bring a school teacher to his home.

A Sure Cure for Diarrhoea. Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by all druggists.

DEMING.

From the Headlight.

Doctor S. Swope's new hospital or sanitarium at the intersection of Railroad and Gold avenues, has now reached that stage of completion to show that it will, when completed, be a very roomy and neat institution. It is certainly a great addition to that part of the town and one that has long been greatly needed here.

On the application of W. R. Merrill of the firm of Merrill & Martin, brick-makers and contractors of Deming, the affairs of the firm have gone into the hands of the district court for settlement. Ed. Pennington has been appointed receiver by the court and has taken charge of the business. This firm are the contractors for the brick

and plastering work on the new city hall, but the change in the affairs of the firm will work no delay in the completion of that building.

Al Watkins returned from a six weeks' visit to his former home in Gainesville, Texas. Mr. Watkins had been to Gainesville to attend to the harvesting of the crops which he left growing there when he moved his family to this place last spring, and reports the gathering of one of the heaviest crops of oats that he has ever known in that section.

Miss Hattie Harter, a young lady from Gainesville, returned with Mr. Watkins and will make a visit of some length to the Watkins family.

A Woman's Complexion. It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists. G. G. Green, Woodbury, New Jersey. J. H. O'Reilly & Co.

GALLUP.

From the Republican.

Ed Tamony is quite sick with typhoid fever.

Miss Mae Pinney has returned from Los Angeles.

Miss Jennie Baylis is down from Williams visiting her home.

Mrs. Frank Brown is in California having her eyes treated. She is stopping with Mrs. K. K. Scott at Ocean Park.

Mrs. Edward Hart and children left for Los Angeles for a few weeks' visit. When returning from the fire last Friday evening, Emil Wilmunder was run down by the team driven by Arthur Smith, sustaining slight injuries.

Wm. Kelley has resigned his position as manager of the Colorado Supply store and will leave for Prescott, Ariz., as soon as he is relieved. Mr. Kelley has made many friends while in Gallup who will regret to see him leave.

There is talk of a bank being established in Gallup—not mere street gossip, but the parties who are back of the enterprise say that it is very likely that a bank will be started here in the near future.

K. K. Scott returned from California last week to look after business matters for a few days. His family are comfortably located at Ocean Park, where they are enjoying the pleasures of that popular seaside resort. Mr. Scott expects to return about the 8th of August.

Physicians and Druggists. Ford and Sturgeon, a prominent drug firm at Rocky Hill Station, Ky., writes: "We were requested by Dr. G. B. Snigley to send for Herbine for the benefit of our customers. We ordered three dozen in December, and we are glad to say, Herbine has given such great satisfaction that we have duplicated this order three times, and today we gave your salesman another order. We beg to say Dr. G. B. Snigley takes great pleasure in recommending Herbine." 50c bottle at J. H. O'Reilly & Co.

Police Court. Two natives, arrested for being drunk and disorderly, were in the police court this morning, but there was little need of an interpreter or of an English speaking people attending court to hear the doings. Justice Brochert was on the bench in the absence of Police Judge Crawford and the proceedings were conducted in the Spanish language. It was a little like olden times. Both culprits pleaded guilty to the charge and it was registered next to their names on the dock that they were fined \$5 or five days.

Eat All You Want. Persons troubled with indigestion or dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention, digestion and assimilation of all of the wholesome food that may be eaten, and enables the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by B. H. Briggs & Co. and S. Vann & Son.

Visited Hillsboro. Wealthy New Yorkers at Mining Town in Southern New Mexico. Ex-Senator Warren Miller of Herkimer, N. Y., accompanied by Col. William A. Farish, an expert mining man of Denver, passed through the city this morning en route east from a trip to Hillsboro, where the senator is interested in some promising valuable mining claims. The senator has been in Hillsboro district, and is very enthusiastic over the showing they make under development work.

The properties are known as the Snake and Opportunity group. Nearly all produce free milling gold ore.

A stamp mill of a capacity of 250 tons a day will be installed on the property.

Yesterday at the home, 234 North Walter street, Mrs. W. L. Barrett, passed to the unknown beyond. Funeral services will be held from the residence tomorrow morning at 7:15 o'clock.

COMMITTEES APPOINTED.

Final Proceedings of the Territorial World's Fair Commission.

PROVIDES FOR LADIES' AUXILIARY.

The New Mexico board of managers of the Louisiana Purchase exposition adjourned Thursday evening until August 27, at which time they will meet in Las Vegas.

All work before the board was disposed of, but by the time the board meets again there will, of course, be many matters needing attention.

It was decided to create a ladies' auxiliary, consisting of one member from each of the twenty-four counties of the territory. These appointments will be made at once. The members will receive no pay. This auxiliary will assist in securing a suitable exhibit for the woman's building, one that every woman who goes from New Mexico to the world's fair will find proof of.

A committee of three, on which were placed the names of President Charles A. Spies, Professor Fayette A. Jones and Arthur Seligman, was appointed to immediately secure plans and specifications from Las Vegas, Albuquerque and Chicago architects for a suitable building to be erected at St. Louis as a New Mexico building. This committee was given power to accept these plans and send same to the exposition managers at St. Louis, who will call for bids and see after the erection of the building. The cost of the building is not to exceed \$5,000, including all furniture and furnishings. It will be on the Spanish mission plan, with broad verandas around the building; will contain three or four rooms, having reception room, toilets and one or two private rooms. It will contain all necessary conveniences, affording a place for New Mexicans to meet and be comfortable. The walls will be decorated with pictures of interesting places in New Mexico, and otherwise fitted up so as to be typical of New Mexico.

The following committees were appointed: Educational—Chacon and Dalles. Archaeological—Seligman and Chacon. Mining and Minerals—Spies, Jones and Walton. Agricultural, Irrigation and Timber—Hagerman and Dalles. Livestock—Hagerman and Dalles.

These committees will have charge of the particular industries for which they are named and will secure the exhibit for that industry and see that it is a creditable one. They will be assisted, of course, by the sub-committees in the different counties, mention of the appointment of which was made yesterday.

The matter of selecting a date for "New Mexico Day" was discussed, but no definite date was decided upon. There was a leaning toward August 19, the date upon which General Kearney took possession of Santa Fe, and virtually wrested this vast Mexican cession from Mexico, but there is some doubt as to the advisability of selecting this date owing to the great heat prevailing in St. Louis at the time. It is probable that some date in September will finally be named as "New Mexico Day." The committees will arrange for addresses to be made on the range for addresses to be made on the day selected, and everything will be done to make the day a success.

A. W. Porterfield of Silver City, who held a similar position under the old board, was selected as a manager to have general supervision of the New Mexico building and exhibits at the fair. Mr. Porterfield has had extensive experience in this line of work and ought to be the right man in the right place.

The board went at the propositions before them in a strictly business like manner from the first. Considerable time was devoted to finances. The money available for this purpose was divided and appropriated for the different exhibits in a conservative manner and each industry was taken care of by just as large an appropriation as the board could spare. When this was done it was found that each industry would have enough. It was used carefully and economically. Everything is very promising now and there is no doubt that New Mexico will meet the expectations of her friends at the great exposition to be commemorated on the anniversary of the Louisiana purchase.

Cured Paralysis. W. S. Bailey, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites and skin eruptions. It does the work." 25c, 50c and \$1.00 at J. H. O'Reilly & Co.

ESCAPE FRUSTRATED. Convict Hill Tried to Take French Leave From the Territorial Prison. Henry P. Hill, sentenced June 5, 1903, from San Miguel county for two and a half years for stealing diamonds, disappeared Monday evening about 3 o'clock at the territorial prison, says the New Mexican. The penitentiary authorities made a thorough search for him, knowing that he could not have escaped and gotten outside of the walls. Hill had endeavored to throw the authorities off his track by having it appear that he had managed to slip away with a car having brick and then got on a train of cars containing shipments of penitentiary brick.

The first step taken by Assistant Superintendent Martin was to lock up all suspected convicts and then to make a thorough search. The full guard, both day and night, was put on to watch and kept on the lookout. Hill had secured some pieces of bread and meat and a bottle of water. He slipped into a brick kiln and found a hiding place in the wall of the kiln. In this he was assisted by Alpheus Hampe, who is serving a life sentence for the murder of Epitacio Gallegos. Hampe and Hill made a hole in which Hill was put and Hampe fixed it up as much as possible to prevent detection. Several loose bricks were

put in so as to give Hill air while he was in the hole. He remained there two nights and then slipped out, went to the hog pens within the enclosure and got into a hole which was partially covered and over which the pigs roamed. Today another thorough search was made for him and he was discovered in the hole in the pig pen about 1 o'clock this afternoon.

Under the prison rules the prisoner will be given any allowance for good behavior and will receive other punishment. Hampe, the murderer, who aided him in his attempted escape, will also be punished and will hereafter wear a ball and chain.

Hill, although but 17 years of age, already has quite a criminal record and is known to the police authorities of the country as a professional diamond thief. He stole some diamonds in Council Grove, Iowa, was caught and put in jail, but escaped before trial. His conviction in Las Vegas was for the crime of stealing diamonds in that town.

Fred Alarid, captain of the day guard, was the official who discovered Hill's hiding place.

Assistant Superintendent Martin is one of the most careful and energetic prison officials in the country. He is persistent and will not rest in cases of breaches of discipline or attempts at escape at the prison until all about such matters is found out and until convicts who attempt to escape or succeed in doing so are recaptured.

Watch for a Chill. However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver, drives the malaria germs out of the system, purifies the blood, tones up the system and restores health. 50c at J. H. O'Reilly & Co.

SUGGESTIONS FROM RODEY. Wants Statehood Resolution Introduced at Trans-Mississippi Congress. New Mexico and her cry for statehood will be heard at the approaching meeting of the Trans-Mississippi Commercial congress, which will occur at Seattle, Wash., August 18.

This congress represents the commercial interests of the western half of the United States. The east looks to the west for success in a business way and naturally the doings of the congress are looked to as important.

Hon. B. S. Roday, delegate to congress from New Mexico, suggests that the matter of statehood for the territories be brought up before the commercial congress. It is a matter of vast importance from a business point of view.

Mr. Roday in a letter to Messrs. C. E. Newcomer, W. S. Strickler and D. A. Macpherson, who have been appointed to represent at the commercial congress the interests of Albuquerque and New Mexico, says:

"I notice that you have been appointed a committee to represent the Commercial club at the fourteenth session of the Trans-Mississippi Commercial congress, which is to be held in Seattle, Wash., beginning on August 18 and lasting four days.

"I hope that one or all of you will attend. I would like to attend myself, but I feel that it is impossible. If any of you do attend, I sincerely hope that you will introduce a statehood resolution in that great convention. The resolution adopted by the last national republican convention would be sufficient. It reads as follows:

"We favor home rule for the immediate admission to the union as states of the territories of New Mexico, Oklahoma and Arizona."

"Kindly put this letter, of which I send a copy to each of you, in your files; and if any of you do attend, try and get it adopted. I will also write the secretary of the convention. There may be many of our people from New Mexico, go, and if they do, you all ought to have a meeting there and try and get the resolution through."

No such thing as "summer complaint" where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for every looseness of the bowels.

ENGINEER SCALDED. Norman Cramer Meets With Bad Accident at Gallup. Norman Cramer, who for some time past has been running an engine between Gallup and Clarkville, Gibson and Weaver stations, coal camps, met with rather an unfortunate accident at the latter place yesterday morning about 9 o'clock. The upper part of his face is badly scalded, but it is thought that nothing serious will result from the scalds.

On a locomotive is a hose used to wet down coal and keep things in general clean about the engine and tender. This hose, which is attached to the steam pipe, blew off, the steam and hot water spouting into Cramer's face. Although his eyes were quite badly scalded the doctor in attendance has hopes of saving the sight of both. Cramer is a single man and hails from Indiana.

When you want a physic that is mild and gentle, easy to take and certain to act, always use Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Labor Day. It has been rumored that the Labor Day committee had abandoned the idea of having floats for the Labor Day parade; such is not a fact, however, for every local union is earnestly requested to make as good a turnout as possible, and that each duly elected marshal report to the committee not later than August 20, thus giving the committee ample time to complete the program, which will consist of over

tures by the Italian band, speaking by local men and a fine address given by A. B. Renahan from Santa Fe.

It will be the object of the committee to see that every article of the program will be carried out to the letter.

Every business house in the city will be closed on that day, giving every clerk, book keeper, laborer, mechanic, contractor as well as proprietors one day in which to celebrate the laboring man's day.

Dan Coughlin, recently promoted from chief dispatcher at Dodge City, Kansas, to trainmaster of the Rio Grande division of the Santa Fe, with office at San Marcial, was in the city yesterday. Mr. Coughlin's family, who are now visiting in the east will reside in Albuquerque.

ABOUT THE FAIR. Col. Lum Hall, manager of the twenty-third annual New Mexico territorial fair, is in El Paso today promoting some of the features of that annual entertainment, says the El Paso News.

The fair will be held in Albuquerque from October 12 to 17 inclusive, and will be for the benefit of not only New Mexico herself, but will embrace Arizona, and extend a hearty invitation to El Paso and the surrounding country to join hands in making a success of it. Some very tempting prizes are offered, especially for the horse racing and base ball. A professional starter will be on hand to look after the races. Purses and premiums to the amount of \$4,500 are hung up for the successful entries.

Base ball will be a great feature. A professional umpire has been engaged and there is more than \$1,000 hung up for prizes. Teams will be asked to enter from every town in New Mexico and Arizona, and El Paso is urged by the fair management to send a team to compete for a prize.

Each team entering will be allowed the privilege of engaging three outside players, and all are urged to make themselves as strong as possible to make matters lively and interesting.

The cowboy tournament, of which Mr. Hall has charge, will be a winning feature. The purse for this department of amusement will amount to \$2,000. In broncho busting the prizes range from \$500 down to \$50; in the roping contest from \$500 down to \$50, and for riding outlaws horses from \$100 down to \$25. All who have good bucking bronchos are urged to enter them for one of the prizes.

The most important individual attraction during the fair will be Congressman William A. Hearst of New York, owner of a newspaper combine, accompanied by probably fifty or more congressmen and representative citizens of the east. These gentlemen will come by a special train as the guests of Mr. Hearst, and will spend much time in New Mexico and Arizona studying conditions and investigating the resources of the country.

It is the intention of Mr. Hearst to make a strong fight for statehood for the two territories in the next congress, and for this reason his visit will be a most important one.

The mineral resources of the territory, will receive prominent attention. Elaborate preparations are being made to show up very clearly what has been done in mining in New Mexico and Arizona, and this alone should draw people from all over the country.

The opening of this fair in Albuquerque promises to be a most auspicious one, and all interested should unite to make it a success.

ORDINANCE NO. 235. An ordinance regulating the obstruction of streets.

Be it ordained by the City Council of the City of Albuquerque, N. M.: Section 1. The streets, side walks and cross walks of the city, and the entrance to public halls or public buildings within the city, being intended for the accommodation and convenience of the public, shall be kept and reserved free from all obstructions, and all groups and assemblages of persons thereon or therein at any time, are prohibited, except as hereinafter provided.

Sec. 2. No person shall stand or sit on any street or on any side walk or cross walk or occupy the same so as to in any manner obstruct the free passage of persons, or to hinder, molest or annoy persons in passing along the same, or obstruct or stand around the entrance of public halls or buildings, except as hereafter provided.

Sec. 3. It shall be unlawful for any number of persons to collect, assemble or gather together on any street or side walk or cross walk, or to hinder, molest or annoy persons in passing along the same, except as hereafter provided.

Sec. 4. All political, religious or other meetings or assemblages are hereby declared to be unlawful unless a permit be first obtained from the City Marshal, which permit shall designate the time and location when and where such meeting or assembly shall be permitted.

Sec. 5. Whenever the free passage of any street or side walk or cross walk shall be obstructed by a crowd or group of persons, except as herein permitted, the persons composing such crowd or any other person obstructing any side walk, street or cross walk, shall disperse or move on when directed as to do by any police officer, provided, further, that no permit granted herein shall be deemed to permit any person or persons to unnecessarily obstruct any street or side walk or cross walk of the city.

Sec. 6. Any person or persons who

shall violate any of the provisions of this ordinance, shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be fined in a sum not exceeding fifty (\$50) dollars or imprisoned in the City Jail for a term not exceeding ninety (90) days, or shall suffer both such fine and imprisonment.

Sec. 7. All ordinances and parts of ordinances in conflict herewith are hereby repealed and this ordinance shall be in full force and effect from and after its passage.

Duly passed this 20th day of July A. D. 1903. C. F. MYERS, Mayor. Attest: HARRY F. LEE, Clerk.

Administrator's Notice. In the matter of the estate of Carrie C. Wright, deceased.

Notice is hereby given that the undersigned, Arthur E. Walker, administrator of the estate of Carrie C. Wright, deceased, has filed in the Probate Court of Bernalillo County, a final report of all his acts and doings as such administrator, and said Probate Court has fixed Monday the 3rd day of August 1903, as the day upon which all objections to said report and final account may be heard and the application of undersigned to be discharged as such administrator may be disposed of. All parties in interest are required to take notice accordingly.

ARTHUR E. WALKER, Administrator. E. W. DOBSON, Attorney for Administrator. First publication July 11th, 1903.

LEGAL NOTICE. In the District Court of Sandoval County, Territory of New Mexico.

Maria Casados de McDonald and Antonio A. Vigil, Plaintiffs, vs. Francisco Montoya, William H. Pope, J. P. Victory, the unknown heirs of Miguel Montoya, deceased, the unknown heirs of Santiago Montoya, deceased, and all unknown owners of the lands hereinafter described, Defendants—No. 7.

You, the above named defendants, and each of you, are hereby notified that the above named plaintiffs have commenced their action against you in the above named court, being cause number 7 on the docket of said court, that the general object of said said action is to secure the partition of the real estate hereinafter described, according to the rights of the several owners thereof and to require you and each of you to come in and set up or prove your respective interests in and to said premises or be forever barred; and in case partition of said premises cannot be had without material injury to the interests of the respective owners, then for a sale of said premises and a division of the proceeds thereof between the parties according to their respective rights and for all proper equitable relief.

Said real estate is situated in the County of Sandoval and Territory of New Mexico, and described as follows to-wit:

A tract of land known as the "Miguel y Santiago Montoya Land Grant," also known as the "Bosque Grande Land Grant," and consisting of land from east to west thirty-four hundred (3400) varas, and from north to south sixty-six hundred (6600) varas, and bounded on the east by the Rio Puerco, on the west by a small hill called Angostura, on the north by a point of the mesa called Bosque Grande, and on the south by the land of Militia Lieutenant Jose Garcia, and containing, according to the official survey thereof, 2967.574 acres of land, according to the official survey by the United States Surveyor General of New Mexico, reference to which is hereby made for more particular description, and being known in the office of said Surveyor General as reported No. 100.

And you and each of you are further notified that plaintiff's attorneys are McMillen and Reynolds, whose post-office address is Albuquerque, New Mexico, and unless you and each of you, or your appearance in said cause on or before the seventh day of September, 1903, judgment will be rendered against you and each of you by default.

(District Court) W. E. DAME, (Seal.) Clerk of Said Court.

E. F. BURLINGAME & CO., ASSAY OFFICE AND CHEMICAL LABORATORY. Established in Colorado, 1866. Samples by mail or express will receive prompt and careful attention. Gold & Silver

FAMOUS HAND SHAKE.

It Prevented Statehood Under the Elkins Act in 1876.

INCIDENT RECALLED.

"It is not generally known by the younger element of politicians and other people who take an interest in such matters that New Mexico would have been admitted to the galaxy of states twenty-seven years ago but for a most unfortunate mistake of the chief promoter," said Dr. G. W. Harrison of Albuquerque at the Adams last night, says the Denver Republican. He is in the banking business in that city, and regrets that efforts ever since that fatal error was made have proven futile and New Mexico remains a territory.

"We are tired of carpet bag government," he frequently and emphatically declared during the course of an analytical discourse on the conditions of the commonwealth of his adoption politically and industrially.

"Statehood would send us along the road to progress more rapidly than any state in the west," he continued, "but statehood depends on the actions of people outside the territory."

"As I said before, it was a most regrettable incident in congressional life that prevented statehood long ago. Possibly no more remarkable and extraordinary occurrence has ever been chronicled in the history of legislation at Washington that, being so slight in its-elf, had so far reaching an effect on any people of a given section."

"In 1876, when James G. Blaine was speaker of the lower house, Stephen P. Elkins, now United States senator from West Virginia, was delegate to congress from New Mexico. He was an ardent and indefatigable worker for statehood. His efforts were about to be crowned with success, too, when the fates decreed his defeat most unexpectedly."

"Elkins at that time even was a good speaker, but he never attempted a forensic effort without careful preparation. On the day that he blundered so seriously he was in one of the cloak rooms of the house priming himself on a speech to be delivered on statehood."

"Suddenly one of his congressional acquaintances came in the room and said: 'Elkins, Burroughs is through; go and congratulate him.' Burroughs was serving in congress then from Michigan—the same man who is now senator from that state. Elkins, without knowing what Burroughs had been talking about on the floor of the house, complied with the request of his acquaintance, and leaving the cloak room found Burroughs and in the presence of many congressmen shook hands with him and warmly expressed approbation of what he had said."

"Elkins' statehood bill had been passed by the house, amended by the senate, and was back in the house for concurrence in the senate amendment. Speaker Blaine had agreed to allow Elkins to call it up and speak for its passage immediately following Burroughs' address."

"Burroughs had delivered, however, a fiery attack against the south and its methods of conducting political affairs, which the southern congressmen resented bitterly."

"When they recognized an apparent endorsement by Elkins of Burroughs' opinions he, too, was classed with one of the south's enemies. The southern members had previously promised to support Elkins' bill, but in revenge for his sympathy with Burroughs they voted against it and it failed of passage by three votes."

"His one handshake with Burroughs was the cause of it, and that handshake went down in history as one of the most costly on record in American politics."

"Elkins drifted out of New Mexico and eastward because his business as a railroad man took him there, but he has always been a consistent advocate of New Mexico statehood. The prime obstacle in the way of it today is the upper house of congress. If the senate was satisfied that New Mexico would send two republican senators in the persons of Delegate B. S. Rodey and W. H. Andrews, and that the new state would remain republican for many years to come, statehood would be possible in the immediate future."

"But there are doubts in the senate that the republican party would prevail. It is certain that there was a popular vote in the senate and Andrews would be elected senators."

"The territory is prosperous as she can be, hampered by carpet-bag government. Albuquerque is growing rapidly; she has 10,000 population now. The territory has far more requisites for statehood now than fourteen states had when they were admitted."

It is a Handsome Boy.

At twenty minutes to 5 o'clock this morning, Mrs. Montague Stevens, who was stopping at No. 315 West Lead avenue, presented her husband with a fine baby boy, which tips the scales at eight pounds. Mr. Stevens, who is a well known stockman of Socorro county, has been in the city the past couple of weeks or more awaiting the event, and this morning a short time after the arrival of the young man, and friends in England and Ireland, abated the glad tidings to relative local friends have congratulated Mr. Stevens today, while telephone messages galore have been received asking, "How is Mrs. Stevens and son?"

Latest reports from the attending physician are to the effect that mother and child are doing nicely, and the father will be able to return to the ranch without fear of relapse in a very short time.

Adjutant General W. H. Whiteman of the national guard of New Mexico passed through the city this morning en route to Santa Fe from Socorro, where he went to look over Water Canyon as a prospective site for the territorial encampment. "Water canyon is a very nice place," said General Whiteman, "but there is not suffi-

cient water there to accommodate the number of soldiers we expect to have present at an encampment. I was in hopes that we could have the encampment down in Socorro county or some centrally located place on account of the experience of moving troops, but I have almost given up. Water canyon is all right as to location and otherwise, excepting the water. An army camp needs to be located near plenty of good water. I know the territory pretty well, but after canvassing the situation thoroughly I know of no place for the encampment like Santa Fe, and Santa Fe will likely get it. It will be decided later."

UNITED IN WEDLOCK.

Mr. Anthony Morelli and Miss Sarah Digneo.

In the presence of about thirty invited guests Miss Sarah Digneo was united in the holy bonds of wedlock to Mr. Anthony Morelli. The ceremony was performed at the home of the bride's parents, Mr. and Mrs. Michael Digneo, Judge Wm. Borchert officiating. Miss Rose Grande and L. Grace supported the happy young couple. Miss Hawthorne played the wedding march and furnished music throughout the afternoon. Elegant refreshments were served. The presents given the newly married couple were many and very useful and handsome.

Both parties are very well known and are receiving the congratulations of their friends, in which The Citizen heartily joins.

They are at home at 322 North Broadway.

Line of Least Resistance.

Everybody naturally takes the line of least resistance—that is, the direction in which he meets with the least opposition. We all want to "take things easy," and the articles that make things easy for us are the ones that meet the demand. The newspapers contribute to the world's ease by making known the easy things in every line. Take, for example, the latest "easy novelty"—the "easy medicine"—Cascarets, Candy Cathartic, easy to buy, easy to eat, easy to give children, easy to carry and easy in their action. Medicine-giving and taking used to be a hardship, but the ease-loving world progresses.

POINTING TO COAL FIELDS.

Rock Island and Santa Fe Both Seeking Close Connection With Coal Fields.

President E. P. Ripley of the Santa Fe left his private car at Raton yesterday and rode across country into the Stonewall valley, says a dispatch from Trinidad, dated July 30.

This morning his car was brought to this city, hitched onto the Colorado & Wyoming passenger train and hauled to Terico, where the Santa Fe's president will meet it and come to Trinidad tomorrow. There is no little speculation as to what Mr. Ripley's trip may mean. It is known that the Rock Island made overtures to the Colorado & Wyoming for the use of its tracks from the upper part of the Stonewall valley into Trinidad. The Rock Island, now building to Dawson, N. M., and from that point to make a connection with the Colorado & Wyoming, while the deal did not go through, there is no indication that it will not, and it is stated that Mr. Ripley's trip is for the purpose of finding out for himself if it would not pay the Santa Fe to build to Terico to connect with the Colorado & Wyoming and make a trackage contract for the Santa Fe trains into Trinidad, thereby avoiding many of the heavy grades, particularly that over the Raton mountain. That there is something in this is evident from the fact that the people who are to build the Trinidad Electric railway into the coal camps are the builders of all the "Frisco" extensions.

It is the intention of the Trinidad Electric railroad people to put electric locomotives into service between this city and Starkville and Joplin, for the purpose of hauling out large cars of coal. And it is their further purpose to build the line north from Trinidad to coal lands twenty-five miles away, where the Rock Island owns several thousand acres. As a matter of fact, a prominent railroad man who is in a position to know something of the plans of the Santa Fe in this matter, stated this afternoon that Mr. Ripley's trip is really for the purpose of seeing for himself if the connection with the Colorado & Wyoming can be made so that the Rock Island will be cut out of the use of the Stonewall valley.

Puts an End to It All.

A grievous wall oflimes comes as a result of unbearable pain from over taxed organs, dizziness and backache. Liver complaint and Constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25 c. Guaranteed by all druggists.

General Torrance's Purchase.

When at the Rio Grande woolen mills Saturday General Torrance of the Albuquerque Eastern railway ordered a suit for himself made by Angorine and also ordered men, by express a supply of the same beautiful fabric to his wife at Pittsburg, Pa.

The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best Salve on earth and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten. Only 25c. at all drug stores.

Santa Rita All Right.

Herbert Dawson, a prominent mining man from Santa Rita was in the city Monday. Mr. Dawson says the recent slump in copper will not affect Santa Rita nearly so bad as rumored. The output was curtailed until the market recovers itself and for this reason a number of unmarried employees will be laid off. The com-

MOTHER'S FRIEND

makes childbirth easy by preparing the system for parturition and thus shortening labor. The painful ordeal is robbed of its terrors, and the danger lessened to both mother and child; the time of confinement is shortened, the mother rested, and child fully developed, strong and healthy.

Morning sickness, or nausea arising from pregnancy, is prevented by its use. As pregnancy advances, the breasts enlarge, become swollen and hard. Long before the child is born, they are preparing for the secretion of milk. It is important that they receive early attention. Mother's Friend softens the skin and facilitates the secretion of Life Fluid.

Underdeveloped breasts, hardening shortly after delivery, are the result of non-treatment, and likely to culminate in Mammary Abscess, from which so many suffer excruciating pain and are left with these organs permanently impaired. Softness, pliability and expansion are given to the muscles and sinews, thus bringing comfort and causing an easy issue of the child. Try it. Of druggists \$1.00. Our book "Motherhood" free. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

pany will continue developing the mines and operations in all the shafts and in the 300-foot levels work will be carried on as heretofore. While the concentrator will close down the new patented Wilfley tables will be kept running on the tailings, for by the new process the percentage of earnings is increased very materially. —Silver City Enterprise.

Potent Pill Pleasure.

The pills that are potent in their action and pleasant in effect are Dr. Witt's Little Early Risers. W. S. Philpot of Albany, Ga., says "During a bilious attack I took one. Small as it was it did me more good than calomel blue-mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by B. H. Briggs & Co. and S. Vann & Son.

He Believes in Good Citizens.

The Albuquerque Citizen says that since Judge Baker has become president of the Commercial club that a large number of applications for citizenship have been made. We think the Citizen misspoke, for Judge Baker is about the hardest man to get your citizens' papers from that is known on the southwestern bench, and he is right, too. He will undoubtedly, by his integrity and fair-mindedness, draw many a man to the membership of the club, but not to citizenship, unless they have the right qualifications. —Needles Eye.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

Birth of New Industry.

Brad Jones was in town today from his mesa ranch. Mr. Jones, in co-operation with his father, C. C. Jones, is engaged in developing a clay bank which they discovered on their property. The Messrs. Jones claim to be able to make as good brick from this clay as can be had anywhere in the east. To substantiate their claim, they have burned 100,000 bricks—capacity of one kiln—and are now burning another kiln of 175,000 bricks. A well will be built of these bricks somewhere in town, so that all may see and be convinced that another industry is born to Albuquerque. The Messrs. Jones are now negotiating with manufacturers in the east for the purchase of machinery to make pressed brick. Water is to be piped to the Jones ranch from a canyon three miles distant, and in a short time a brick plant of considerable capacity will be in working order. Messrs. Jones have also discovered an ochre and red mineral bank on their property and will soon engage in the production of paint pigments.

Boy Cured of Colic After Physician's Treatment Had Failed.

My boy when four years old was taken with colic and cramps in his stomach. I sent for the doctor and he injected morphine, but the child kept getting worse. I then gave him half a teaspoonful of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in half an hour he was sleeping and soon recovered. —F. L. Wilkins, Shell Lake, Wis. Mr. Wilkins is bookkeeper for the Shell Lake Lumber Co. For sale by all druggists.

MANDAMUS CASE.

Judge McFie Decides Important Case Substantially Against the Agricultural College.

Associate Justice J. R. McFie handed down a decision Saturday in the mandamus case of the regents of the College of Agriculture and Mechanic

Arts at Mesilla Park vs. J. H. Vaughn, territorial treasurer, substantially in favor of the defendant. The New Mexican thus sums up the case: "At the last session of the legislature, cash appropriations were made to several of the territorial institutions in addition to the tax levy they receive, and for various deficiencies, amounting in all to \$145,000. There being no money in the treasury available to pay these appropriations, the legislature attempted to provide a fund by using all of the money in the two sinking funds and the World's fair fund by way of a loan, the treasury to be reimbursed later from the sale of lands belonging to the public institutions. But in the law directing the territorial treasurer to transfer the 'Provisional indebtedness fund,' a mistake was made in describing the two sinking funds sought to be transferred, in failing to use the names which the statute created, and in which the treasurer was required to carry the sinking funds on his books. The treasurer refused to transfer the sinking funds because of this error in the law and a mandamus was brought by the College of Agriculture and Mechanic Arts to compel the treasurer to transfer those funds amounting to about \$134,000.

The treasurer in his return denied that there was any money in his custody to the credit of the fund named in the late law, and therefore he could not transfer any funds to the temporary provisional indebtedness fund. In his decision, Judge McFie sustains the position taken by the treasurer as to the sinking funds, upon the ground that the legislatures which created those sinking funds specifically designated the names by which they should be carried upon the books of the treasurer, and the legislature failing to use the names in which the treasurer was by law required to keep the funds, but using different names, it did not become the ministerial duty of the officer to transfer the funds, and the court declines to compel him to do so."

The World's fair fund was correctly described as the "Louisiana purchase exposition fund," and the return showing the transfer of such fund and there being a balance of \$2,876.97 in the temporary provisional indebtedness fund at the time proceeding was brought, the court holds that the college is entitled to the balance under the pleadings.

German Syrup.

We want to impress upon our readers that Boche's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectation in the morning with coughs, colds and consumption. Small bottles, 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists. G. O. Green, Woodbury, New Jersey. J. H. O'Reilly & Co.

A Handsome Gift.

W. G. Tarbell, second vice president of the Equitable Life Assurance society, now on an extended tour of the United States, will give a banquet in Denver September 1, which will be attended by ten representatives of the Equitable society. From Denver Mr. Tarbell will go to San Francisco where he will be presented with a solid gold table service, especially designed by Tiffany & Co. of New York. The gift, the estimated cost of which is \$5,000, will be tendered Mr. Tarbell by employees, and presented by a member of a committee which will consist of the state and territorial managers of the company. Ed Grunfeld of this city will attend both functions.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung" writes J. F. Hughes of Du Pont, Ga. "and gave me up. Everybody thought my time had come. As at last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds and Lung troubles. Guaranteed by all druggists. Price 50c and \$1.00 Trial bottles free.

The Christian Family Church.

Meetings for gospel work are being held nightly at 8 o'clock on the plaza of the Alvarado. Much good has been accomplished. Crowds of eager men and women have been helped, receiving cleaner and purer views of the life of Christ in the home. The value of having a large family, with God's love in the home, have been exalted. In Christ your children are holy and the church of God has come to your house. Every father and mother in Christ are priests and leaders of the family church. Home is the holiest place on earth, says the Rev. Samuel A. Templeton. Come and hear him. Only three nights more.

SUMMER SCHOOL.

Closed at Taos—Letter From Dr. Thomas Harwood. Editor Citizen.

Taos, N. M., Aug. 2.—We have just closed a very interesting summer school and district conference of the Santa Fe district, New Mexico Span-

For Drunkenness, Opium, Morphine and other Drug Using THE KEELLEY INSTITUTE, DOWNTOWN, ILL.

ish mission here in Taos. The preachers of the district were nearly all present, each with his essay on the subject given him. Sunday the congregation was large, as the Presbyterian mission met with us, including their pastor, Rev. M. Sul, and assisted in the services. Rev. J. A. Vigil died during the past year and was missed very much in the services.

Rev. J. B. Sanchez, presiding elder of the district, is very much out of health, but came down from his home at Costilla. Your readers will remember him as having spent several years in Albuquerque in school and pastor of the Spanish M. E. church. He has lost thirty-five pounds in the last few months, and we fear the final outcome. We had a fine rain here Sunday which breaks the July drought. It is almost too cool for comfort.

I have been today to cross the mountains for Wagon Mound, where the short sermon school and district conference will commence on the 6th, and will last about one week. This will be for the Las Vegas district. A nice program of literary and religious services will be carried out. THOMAS HARWOOD.

De Witt is the Name.

When you go to buy Witch Hazel Salve look for the name De Witt on every box. The pure, unadulterated Witch Hazel is used in making De Witt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of De Witt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. De Witt & Co., Chicago. Sold by B. H. Briggs & Co. and S. Vann & Son.

POLICE COURT.

Willie Rose, who works for W. H. Hahn, appeared before the court this morning by request of Mrs. Braut, in whose house he and his family had resided. Mrs. Braut said that he had moved out of her house, failing to settle for the rent, and accused him of using violence toward her. Rose denied all the charges excepting that he owed her \$5.50 rent. Rose has lived in Albuquerque three years. He always has been industrious and this is his first appearance in the police court. The court assessed him \$5 and costs.

Teofila Griego and another native woman live in an adobe house on Tijeras avenue. The yard in front of the house is just like the road—no fence or dividing line. They have trouble in playing in their own yard. One sweeps a little dirt across the dead line and the trouble begins. One says that her neighbor says bad words to her, words that are not nice. The other told the court some mean things about her neighbor. They play ping pong, using slang phrases and ugly words for balls. They never came to blows, but each threatened to do up the other. The court decided that if either of them ever appeared in court again there would be trouble awaiting them. They were discharged.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precedes suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve line strengthener in the system. It is also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by all druggists.

CAMP WHITCOMB.

Notes from This Popular Mountain Resort Near This City.

Camp Whitcomb, is as popular a resort as ever this summer, every room and tent being occupied. Mrs. Keleher the proprietress is ably assisted by her two daughters, Misses Jane and Margaret Keleher and son, Thos. F. Keleher.

Mrs. W. W. Strong and niece Miss Mabel Strong are members of the camp and are enjoying themselves. W. W. Strong and Geo. Kaseman spent Sunday at the camp and with a crowd took in the cliffs.

Miss Stingle, sister of Attorney Stingle, is at the camp and expects to remain a week or ten days.

Misses Estelle Lewinson and Irma Shutz, Messrs. Dane Rosenwald, Seymour Lewinson, Sidney Rosenwald, Ben Jaffa, J. A. Katter and M. Holzman made a pleasant party who enjoyed Sunday at the camp.

Dr. and Mrs. H. S. Hall and family, of Sherman, Texas, who have been visiting Albuquerque some time, guests of C. C. Hall, returned today from Camp Whitcomb where they spent the past few days. They were much delighted with their trips in every way.

H. C. Howe, of Yonkers, New York, who has been at the camp some time, reports himself improving and is very much in love with camp life. Mr. Howe is very popular and makes friends with everyone he meets.

Mrs. O. M. Birtwell and Miss Margaret Keleher drove in to town Saturday evening where they will remain a week or so.

Dr. and Mrs. Neal Mitchell, of Jacksonville, Fla., are two popular members of the camp.

Harry Menzie, of St. Louis, is spending the summer at the camp, for his

health and reports himself improving. Miss Julia Bacon drove into camp with her brother, W. W. Bacon, who will spend some time there for his health. They hail from Albany, Georgia and are very pleasant people.

Dr. C. B. Strother of Macon, Georgia, and Robert Hauschild, of Albuquerque, help to swell the number of boarders at the camp dining room.

Camp Whitcomb and the mountains and valleys adjoining were visited by a refreshing rain Sunday afternoon.

Saturday night an informal concert and dance was held in the dining room, to which all the guests were invited and every one had a very pleasant time.

Mrs. McCannahan and son, Donald, and Mrs. Wilson, have rooms in the stone house and are enjoying the delightful cool breezes of the mountains. J. C. Bennett, of the navy department at Washington, D. C., who has been at the camp all summer, and is improving in health. He expects to remain all winter.

There are quite a number of campers below the camp but the reporter failed to get the names of any.

Monday morning a party of fifteen walked to the old San Lorenzo springs where they took snap shots and also went above the old falls where there were fine springs of water.

"SANTA FE"

Save the Children.

Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 70 Central St., Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by B. H. Briggs & Co. and S. Vann & Son.

OFFICIAL MATTERS.

A postoffice has been established at Bryantine, Union county, to be served from Logan which is eighteen miles southeast.

Notaries Appointed.

Governor Otero appointed the following notaries public: Charles W. Poor, of Ft. Sumner, for Leonard Wood county; Joseph W. Blackwell, of Three Rivers, for Otero county; William H. Morris, of Gallup, for McKinley county.

Meeting of the Board of Penitentiary Commissioners.

The board of penitentiary commissioners met yesterday at the territorial penitentiary in regular quarterly session. There were present F. H. Pierce, Las Vegas, president; Juan Navarro, Mora, secretary; Commissioners Louis Gifford, Albuquerque; Malaquias Martinez, Taos; and W. H. Newcomb, Silver City. Bids for the penitentiary supplies were opened, examined and awarded. The regular quarterly routine business was also attended to.

Articles of Incorporations.

Saturday morning the following articles of incorporations were filed in the office of Territorial Secretary J. W. Reynolds: The J. L. Bell company of Albuquerque. The incorporators are J. L. Bell, I. H. Cox and Mary L. White all of Albuquerque, and the capital stock of \$10,000 divided into 100 shares of a par value of \$100 each. The principal place of business is at Albuquerque. The purposes for which the corporation is created are: to carry on a plumbing, steam and hot water heating, hardware and general merchandising business at Albuquerque. The term of existence is to be fifty years. The first directors are J. L. Bell, I. H. Cox and Mary L. White.

The following articles of incorporation were filed in the office of Territorial Secretary J. W. Reynolds yesterday: The Dalton Canon Mining Company, the incorporators being Charles M. Taggart, William G. Steadman and James A. Naab, all of New Mexico. The corporation is to have a capital stock of \$500,000 divided into 500,000 shares of par value of \$1 each, and the term of existence is for fifty years. The objects for which the corporation is created are: mining, milling, manufacturing in all its branches, owning and acquiring, buying selling and improving real estate and lands, the making of wagon roads and railroads, the developing of water power and the trafficking in all kinds of merchandise.

The Cerrillos Lodge No. 19, Ancient, Free and Accepted Masons of New Mexico, has incorporated for the exercising of the usual ordinary functions of Masonic lodges. The incorporators are James W. Sullivan, A. L. Kendall and W. S. Kennedy, all of Cerrillos.

Burdock Blood Bitters gives a man a clear head, an active brain, a strong vigorous body—makes him fit for the battle of life.

Hon. Nestor Montoya is in receipt of a letter from Hon. F. A. Hubbell, who, with his family and party are sojourning on the Pacific coast, stating that on Sunday he and his family, Miss Mable Hunt and Miss Hickey, sailed from San Francisco for Los Angeles, where they will be stopping at the Hollenbeck hotel.

C. C. Hall, who is in El Paso, writes to P. F. McCanna, secretary of the Territorial Fair association, that he has consulted with officials of the El Paso & Northeastern road, and have cheap rates over that road for all fair visitors; also made arrangements for the advertising car to make a trip over the road as far north as Santa Rosa.

THE SANTA FE ROAD.

Abo Pass Canyon Cut Off Will Not Be Hastened.

IMPROVEMENTS TO BE CURTAILED

What policy the Atchison railroad is pursuing in regard to improvement, and requirements of money for carrying on its projects received considerable attention in Wall street last Thursday. Inquiry made by the New York Herald received the candid reply that the Atchison is curtailing all improvements not essential for the care of the system, and that the management has no intention of borrowing a dollar at the present time or in the near future.

There was a meeting of the executive committee of the Atchison Thursday afternoon. After the meeting Thomas P. Fowler, president of the New York, Ontario and Western railroad, and a member of the Atchison's executive committee, was told that Atchison stock had been driven down on the report that the railroad was attempting to negotiate a loan for \$5,000,000 or thereabouts. Mr. Fowler said:

"The Atchison railroad has no floating debt. It has \$12,000,000 in the banks on deposit, is not negotiating the loan of a single dollar, and has no intention of borrowing money."

The curtailment of improvements on the Atchison necessitates the abandonment of no important projects which have advanced further than the first step toward completion. The work in Oklahoma of providing local lines for the development of the country and feeders for the main system will be continued as the needs of the country require.

The project of building a cut-off through the Abo pass, in New Mexico, joining the Pecos valley line with the Atchison main western trunk line, will not be hastened, although the surveying parties now in the field will complete their work, and the project although curtailed temporarily, will be eventually carried to completion.

In outlining the railroad's policy of improvements one of the directors of the company said:

"Good seamen take in sail when a storm approaches. That exemplifies the present policy of the Atchison in regard to improvements."

The physical condition of the road is now reported by operating officials to be excellent, and they state that there is no necessity for immediate lavish expenditure in maintenance.

Conservatism will be the keynote of the management of the road in the immediate future. In curtailing expenditures the Atchison management is following the policy adopted several months ago by the most conservative operative officials in the country.

Eczema, scald head, bites, itchiness of the skin of any sort, instantly relieved, permanently cured. Doan's Ointment. At any drug store.

The following Albuquerque people are taking in the dance at San Domingo today: Mr. and Mrs. B. Frank Fillmore, Mrs. Ed. Harsch, Mrs. C. A. Hudson, Miss Henrietta Fillmore, Mr. and Mrs. D. A. Macpherson, Mr. and Mrs. Maynard Gonsul and others.

SANTA FE

From the New Mexican.

H. B. Pain, of Kansas City, Mo., who has been here for a week on a visit to Connel and Mrs. Frost, left for his home.

Misses Nellie Griffin and Edith Hamble have returned from Albuquerque where they visited a week with their friend Mrs. Jean Reynolds.

T. Lee Clark, treasurer of the Pennsylvania Development Company, has gone east with his family from Estancia, having been summoned suddenly by telegram on urgent business.

Stephen Elkins, Jr., who was written up by some of the big dailies last week as being madly in love with an actress was at one time a resident of Santa Fe. He is a son of Senator Stephen B. Elkins.

Dr. R. C. Hutchinson and wife and daughter, Miss Ida, accompanied by Mrs. Easley, have left for their home in Philadelphia. They spent some three months in Santa Fe and were greatly pleased with the salubrious climate here.

Many chinch bugs of the genuine old Kansas type were noticed

OUTPUT OF ORGANS.

Zinc Ore Is Being Mined by El Paso Man as Well as Gold and Copper.

Mining is very active in the camps of the Organ mountains, southern New Mexico, this summer. There is a great deal of prospecting in progress and some good finds have been made. The Modoc mines are shut down for an indefinite period, on account of the failure of the machinery to do its work. It is given out by the mining men at Organ that the dry concentrator which was placed in operation at the Modoc shafts at a large expense has proved a total failure. It will not do the concentrating that the wet process accomplishes, and large amounts of ore were lost by it. The company couldn't stand the racket and decided to quit temporarily.

The Famous Torpedo is working along steadily, taking out good ore and fighting the water with its pumps. Its management has pretty effectively checked the flow of the water and reduced its level, so that 60 men are employed daily and several cars of ore are being shipped to the Federal smelter.

A rich milling property in the Organ has recently been developed about twenty miles from Las Cruces by the Dodd brothers. The gold values thus far average \$23 a ton and a three stamp mill has been ordered.

On the same lead as the Torpedo and near the Merrimac group of prospects, an El Paso mining man, Charles Godfrey, has been taking out some good zinc ore. He has several men at work, sorting it and sacking it for future shipment. It is thought that copper bodies underlie the zinc and the ore is becoming richer as the workings deepen.

Struck by Lightning.

On Sunday last, as Charles Grayner, section foreman at Engle, was riding along the track a few miles west of Engle, he and the horse were both struck by lightning and instantly killed. Charles Lewis, of the L. T. X. ranch, who was approaching from an opposite direction was about to address the lag when he felt the shock and heard the report, dazed and half blinded saw the horse and rider fall. Dismounting, he at once knew by the burned face and clothing of the boy that he was dead. He brought the remains to Engle and from there the body was shipped to the old family home at El Dorado, Kas.—Rio Grande Republican.

RIVAL TOWN PLANNED.

Line From Alamogordo to Deming May Change Yings.

Persons at Deming who are interested in the success of the California cut, say that the road from Alamogordo to Deming will not pass through Las Cruces. All surveys had been made with the intention of making Las Cruces a stopping point, but new surveys were ordered this week which will take the road six miles south of Las Cruces. It is claimed that some politicians of Dona Ana county tried to block the game temporarily, in the hope of emoluments, but were foiled in their game. A new town may be started up at the crossing of the Santa Fe. It will be some thirteen miles nearer the organ mines than Las Cruces and may damage the latter's business interests.

SUMMER STORM.

Caused Flooding of Santa Fe Railway Up the Road.

News reached Rincon Tuesday morning of a storm which amounted to a cloudburst on the flats of the Mimbres, reaching from Nutt to Deming, and so far north as Aleman station, on the Santa Fe. Rain began falling in sheets at about 11 p. m. Sunday, and was preceded by a heavy sand-storm. It is estimated about five inches of precipitation occurred during the three hours that the storm lasted. It is thought that a small number of stock was drowned. The water surged around the Santa Fe track, causing a small washout this side of Aleman. The northbound Santa Fe train was held up at a point several miles above Rincon for several hours, during which the water submerged the track. By morning the water was standing in jagged rows on either side of the track, but the Santa Fe train was able to come over, by using care. The damage will be repaired before night.

The Family Church of Christ.

Tonight at 8 p. m. on the plaza of the Alvarado will be the farewell sermon by Rev. S. A. Tompkins of the Christian Family church. His lecture tonight will be illustrated by an 800 candle power lamp and the use of certain active chemicals. Subject, Home Breakers—Drink, Debt and Divorce vs. Mome Makers—Love, Godliness, Goodness. All free. Mr. Tompkins will receive all who wish to speak with him after the lecture. No collection.

FELIX MARTINEZ RETURNS.

Is Now at His Office in El Paso After an Outing at New Mexico Ranch. Felix Martinez has returned from a visit to his ranch near Trinidad, Colo. On his homeward journey he stopped for a few days at Las Vegas, where he is erecting a new building for his quarters. He says New Mexico is especially attractive at this season of the year, as there is much verdure and plenty of good grass. On the subject of New Mexico politics he declined to talk. The recent disturbances at Las Vegas, which were due to clashes between

adherents of rival clans, have about subsided, he says.—El Paso News.

Daniel Coughlin, formerly train dispatcher at Dodge City, Kas., for the Santa Fe railway, has been promoted to be trainmaster of the Rio Grande division of the same road, with office at San Marcel.

ORDINANCE NO. 236.

An ordinance making levy and appropriation for the fiscal year, ending April 13, 1904.

Be it ordained by the City Council of the City of Albuquerque, N. M.

Section 1. That there be and hereby is levied and appropriated for the fiscal year ending April 13, 1904, upon each and every dollar of the assessed valuation of all property, real, personal and mixed, subject to taxation for territorial and county purposes under the laws of the Territory of New Mexico, situated within the corporate limits of the said City of Albuquerque, for the following purposes, to-wit:

Mills.
For general city purposes, \$ 75
For maintenance, improvement and care of public parks within the city limits, .50
For maintenance and conduct of the free public library owned and conducted by the city of Albuquerque, .70
For construction of City Hall, 1.
For interest on \$50,000 Sewer Bonds refunded 48, .1.
For interest on refunding bonds, .70
For interest on refunding bonds, .58
For interest on viaduct bonds, 58 .50
15.00

Duly passed by the City Council, City of Albuquerque, Aug. 3, A. D. 1903.

C. F. MYERS, Mayor.

HARRY F. LEE, Clerk.

ORDINANCE NO. 237.

Notice ordinance to build of cement sidewalk on the east and west side of South Fifth street, between Railroad avenue and Coal avenue, and abutting blocks 18, 25, 32, 19, 26, 33, 39 and 40 of the Original Town Site of the City of Albuquerque.

Be it ordained by the City Council of the City of Albuquerque, N. M.:

Whereas, in the opinion of the City Council of Albuquerque, N. M., the building of cement of the sidewalk on the east side and on the west side of South Fifth street, between Railroad avenue and Coal avenue, and abutting blocks 12 and 24 in block 18, lots 12 to 24, in block 25, lots 12 and 24 in block 32, lots 12 and 24 in block 39, lots 1 and 13 in block 19, lot 13 in block 26, lots 1 and 13 in block 33 and lots 1 and 13 in block 40, in said Original Town Site, belonging to and owned by the following persons, respectively:

Lot 12 in block 18, Jennie Putney.

Lot 24 in block 18, Nathan and Albert Elsemann.

Lot 12 in block 25, Charles E. Cray.

Lot 24 in block 25, Maria J. Sayres.

Lot 12 in block 32, the trustees of the property of the Presbyterian Church of Albuquerque, N. M.

Lot 24 in block 32, estate of Cristobal Armijo.

Lot 12 in block 39, Valentine Herbert.

Lot 24 in block 39, Mary Kreifels.

Lot 1 in block 19, Lizzie McMin.

Lot 13 in block 19, F. E. Sturges.

Lot 13 in block 26, George F. Albert.

Lot 1 in block 33, Jacobo Yrisarri.

Lot 13 in block 33, N. 1/2 Robert Fitzpatrick; S. 1/2 Ethel Montagner.

Lot 1 in block 40, Kate M. Garden.

Lot 13 in block 40, W. E. Grimmer, respectfully, is necessary.

Section 1. That the above described sidewalks be and hereby are ordered to be built of cement of six feet in width abutting said blocks thirty-three (33), thirty-two (32), thirty-nine (39), and forty (40); and eight feet in width abutting said blocks eighteen (18), nineteen (19), twenty-five (25), and twenty-six (26), and in accordance with the grade to be furnished by the City Engineer, to be begun and completed within sixty days after legal publication hereof and service of a copy hereof on the respective owners of said lots.

Section 2. That the City Marshal be and hereby is ordered to notify the respective owners of the said abutting lots, or if they be non-residents of the City of Albuquerque, then the agent or person in charge of said lots, by delivering a copy of this ordinance to them, or such agent or person in charge, or if there be no such agent or person in charge, then by posting a copy hereof in a conspicuous place on said lots within ten days from the passage hereof and make due return thereof to the City Clerk, with the manner of service thereof, indorsed on a copy hereof. And that the said respective owners thereof shall be thereby notified and ordered to build said sidewalk the full length of their respective and abutting lots of the materials and dimensions, and within the time above specified, and if the respective owners should fail thereof, the City will by authority in it vested by Legislative Act of the Territory of New Mexico, entitled "An act to authorize the building and repair of sidewalks in Cities, Towns and Villages," proceed to build said sidewalk and tax the cost of the construction thereof against the respective lots adjoining thereto, and the owners of same.

Duly passed by the City Council, City of Albuquerque, Aug. 3, A. D. 1903.

C. F. MYERS, Mayor.

HARRY F. LEE, City Clerk.

OUR NEW MAP.

It Will Be Issued and Ready for Distribution in a Few Months.

DELEGATE RODEY INTERESTED.

Albuquerque Aug. 4, 1903. Owing to the fact that the court of private claims was settling land grants in New Mexico, confirming some and wiping others off the map, for the last ten years, it was impracticable for the department to prepare a new map of the territory.

Immediately on his election, Delegate Rodey started to try and get a new map, the map of 1896, considering the vast changes and improvements in New Mexico, being of little use. He found the map as finally prepared for the lithographer about a year and a half ago, wrong in many particulars, and stopped its publication until the clerk of the land court and others could correct it. In the meantime the last legislature met and created five new counties, which resulted in holding up the map until their out-look could be traced upon it. The map will soon be issued, as shown by the following letter from the commissioner of the general land office, and it is very much needed by the people:

Washington, D. C., July 31.
H. S. Rodey, Albuquerque, N. M.:
Dear Sir—In reply to request in your letter of July 27, 1903, that some effort be made by this office to expedite the publication of the new map of New Mexico, I am pleased to state that advertisement soliciting proposals to photograph this map will be made tomorrow, August 1, and that bids will be opened and contract awarded on August 15. The length of time required by the prospective contractors cannot, of course, be stated, but two and one-half to three months is the period usually stated in contracts of a similar character. The work of this office in compilation and preparing original tracing for the lithographer is already completed.

Very truly yours,
J. H. FIMPLE,
Acting Commissioner.

NEED MORE MEN.

San Bernardino Denies Statement of the California Labor Circular.

At present the largest shop force ever on the company's pay roll is a work in the shops, says a San Bernardino, Cal., exchange. The number amounts to a few over 800 and the number would be much higher were the men obtainable. These figures do not include men in the train service, offices or yards, which would add at least 500 to the total, which counts up about 1,300 men.

The class of employees termed laborers are general roustabouts and are put at such work as scrubbing cars, sweeping, loading and unloading material and general work about the yards. They receive \$1.50 per day. Recently a circular clipped from a Tulepea paper to the effect that it was needless for men to come west in search of work as the "market" was already overcrowded, was published in this column. The paper from which it was taken stated that copies of the circular were posted about the Santa Fe shops in Tulepea and that similar "letters" were being sent out from California to all parts of the east and middle west. They were sent forth by the California trade unions. Upon what the warning was based is certainly a mystery, if one is to take the local situation as a criterion. Speaking for at least one city in California, San Bernardino may read the circular and reply: "You're not talking to me."

His Name Is Mud. Marshal Cartwright returned this afternoon from Albuquerque, where he arrested Robert Mundy, the smooth graffer who skipped the day before, after holding up as many people in the city as possible, says a Las Vegas paper. The marshal learned that Mundy had checked a grip to Albuquerque. The grip left on the same train with the marshal. Soon after the train arrived in the Duke City Mundy made his appearance at the baggage property. To secure possession of his property, the marshal stepped up and Mr. Mundy's name was able to dispense with the "a" and "y." The chap bilked everybody who proved so hearted. He was employed in the store room at the Castaneda. He borrowed money right and left from the employees, got various amounts from various people of the city and

VERY ANNOYING.

This Hardly Expresses What Albuquerque People Say of It.

Any itchiness of the skin is annoying.

Little danger in itching skin diseases.

But they make you miserable.

Doan's Ointment is a never failing cure.

For piles, eczema, all itching troubles.

Albuquerque citizens endorse it.

Mrs. R. E. Walte, rooming house, 202 North Second street, says:

"There came to my notice some time ago a case of eczema or of some disease of the skin, which had resisted all the efforts of the party to stop. Doan's Ointment was procured at the Alvarado Pharmacy and a course of the treatment commenced. It gave positive relief after an application or two and upon a continuation of it for some time the annoyance ceased. This information should be of untold value to residents of Albuquerque who are in quest of an article upon which they can depend to cure any itchiness of the skin or eruption thereof."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

also bought clothing on credit. He was fined \$15 and costs on one charge today, and will answer to another tomorrow. He had very little money left when overhauled, so those who suffered will be loser and if he pays fines it won't help them much.

The commission appointed to appraise certain lots in the south side of Santa Fe in the suit wherein condemnation proceedings were instituted by the Santa Fe Central Railway company, went in a body yesterday and viewed the lots in question. At the office of Charles F. Easley the commission will meet to take testimony in the case. The commission is composed of Arthur Seligman, Frederick Muller and Charles Hasplemath.

FARMINGTON.

From the Hustler. Henry Noel left for Silverton with 400 head of sheep for Dick Simpson's railroad camp. He will remain to help Dick with his commissary.

W. Z. Hunter, with Wolfe at Calazone, is spending several days looking over his ranch, and other interests here. He looks much improved in health, and says that the country is agreeing with his family equally as well.

Now that a postoffice has been established at Two Gray Hills, it should not be long before an office is established at Little Water (Joe Wilkins' place), and at Mrs. Eldridge's place. When that is done it is only a short step to getting a through mail line from Gallup to Farmington.

Mr. and Mrs. Hugh Currie and little daughter and Mrs. Agnes Currie and Clayton Wetherill, left for the head of the Rio Grande river in a Colorado, where they will enjoy the cool mountain breezes and the excellent trout fishing afforded by that region, for the next five weeks. They were joined in Durango by Mr. and Mrs. C. C. Perkins, who will accompany them.

The board of trade met Friday evening at the call of the president, W. A. Hunter. About twenty-five of our townsmen responded to the call. It was decided to reorganize the board of trade, which was done by re-electing the old officers, W. A. Hunter, president; D. K. B. Sellers, secretary; F. M. Pierce, treasurer. R. C. Brewitt acted as temporary secretary. A resolution was adopted to offer a bonus of \$1,000 and a site to anyone who would sink a well anywhere within the corporate limits of the town to a depth of 1,500 feet, or until water was encountered. The first Monday in each month was fixed as the regular time of meeting.

Working Up.

A number of local business men are urging the Santa Fe Central Railway company to run an excursion from El Paso and Alamogordo to Santa Fe up on the occasion of the opening of the road from Santa Fe to Torrance. The Santa Fe business men's excursion which is spoken of might run to Torrance early in the morning to meet the visitors and escort them to the capital, where a grand barbecue might be held either at Summit or on the Fort Marcy reservation. It is suggested that an ox be roasted and other edibles supplied to feed the great crowd which would be certain to come from El Paso and Alamogordo to enjoy the cool breezes of Santa Fe.—New Mexican.

GENERAL KEARNEY'S PICTURE.

To be Presented to the Historical Society of New Mexico by Mrs. Bascome.

Mr. and Mrs. Western Bascome of St. Louis, will arrive in Santa Fe during the latter part of this month, saying the new Mexican. On August 19, Mrs. Bascome will present to the Historical Society, a life-sized painting of her father, the late General Stephen W. Kearney, the first American governor of New Mexico, and the man who marched into Santa Fe and took possession of the town without the shedding of a drop of blood, and who really wrested the vast Mexican cession from Mexico. The exercises on this occasion will be most interesting and appropriate. Many of the heroes who were with General Kearney on this expedition will be present from different points in the territory, and the United States. Speeches, appropriate to the occasion, will be delivered and nothing will be left undone toward making the event a memorable one.

Colonel J. Frank Chaves, who for so many years has been president of the exercises, will now be the superintendent of public instruction, has interested himself in the movement and has lent much aid toward bringing about conditions that will help to make the occasion of the presenting of the portrait of General Kearney all that it should be. Colonel Chaves himself will have many interesting and patriotic experiences to relate.

The presentation will be under the auspices of the Historical Society.

George F. Walker Dead.

A letter was received by Captain A. B. Fitch of Kelly from Major T. J. Cochran, treasurer of the Pacific branch of the National Home of Disabled Volunteer Soldiers at Los Angeles, informing him of the death of George F. Walker, a former resident of Socorro at the home on July 24.

Mr. Walker came to Socorro some twenty years ago with his family, consisting of two small daughters and their grand mother, and remained here until the eldest daughter, Mamie, was married, and who now, with the younger daughter resides in Colorado. Mr. Walker was an expert book keeper, having held a position of that character for many years in the Browne-Manzanara Bank of Socorro, and up to within a year of his death was employed by Captain Fitch in the same capacity, when his health failed him so completely he was compelled to give up his position, to seek another climate.

George Walker was a man of exceptional character, possessing a pleasant personality, and verified his good blood and breeding by the quiet temperate life he led.—Socorro Chief.

JAMES PERALTA REAVIS.

He Has Another Grant Scheme, Being Hatched in Denver.

THERE'S MILLIONS IN IT.

James "Peralta" Reavis, well-known throughout New Mexico and famous in connection with the lost Spanish land grant of 5,000,000 acres in Arizona and New Mexico, is in Denver with a new plan for making a fortune.

An idea which is to make Reavis a millionaire in his old age is the control and distribution of the underflow water on the Gila and Salt rivers in Arizona. It is a relic of the old land grant. When Reavis was investigating the grant in 1889, he stood at the Gila buttes and with prophetic eye saw a quarter of a century ahead, what that whole country should be populous and productive by means of the distribution of the water for irrigation purposes. So he agitated things with reference to the land grant, but he also took the precaution to file on the water rights for the two rivers. He let the grant go, because it was too much trouble to establish his claim, but he held to the water right and believed all the time that the day would come when the water right would be the more valuable of the two. Now the time is at hand.

Reavis has secured his rights to most of the surface water to the government to encourage the building of reservoirs, but he has held the underflow rights. Under every river there is an underflow through the sand that is remarkable. Reavis will build dams across and under the river and make this underflow rise and will sell it to the farmers of Arizona for irrigation purposes. At two points it is 1,000 cubic feet per second and will irrigate 750,000 acres of land. The original water right will be sold at \$10 an acre, which will make an annual income of \$750,000. There are two of these places, so that there will be a total annual income of \$1,500,000. This is not reckoning on the \$15,000,000 for the original water rights, for that will be used up in building the two dams. Reavis is sixty years old. His hair is as white as snow. His eyes flash with the hope of his new plan, which shall make him worth \$5,000,000, and then he will retire to devote himself to rearing his twin boys.

TRAFFIC ARRANGEMENT.

Completed on Santa Fe Central—There Will Be Pullman Service.

General Torrance had a great deal to say while he was in Santa Fe concerning the Santa Fe Central and other interesting subjects. To a New Mexican reporter he said among other things:

"We expect to be ready for both passenger and freight business not later than August 15. If we are not ready by that time it will be through some unforeseen contingency, like the non-arrival of equipment which is due now. I am satisfied that we will be in shape to take care of all business by that date. We have already received five of the finest types of new locomotives, equipped with all the latest patents and improvements, including electric headlights. They are each ten-wheel machines, of eighty-four tons weight and are the finest engines in service in this territory today. Our people are building shops, round houses, repair shops, train sheds, etc., at Estancia.

"Complete traffic arrangements have been made with the Denver & Rio Grande road whereby a very satisfactory service will be furnished the people of Santa Fe. Our traffic arrangements are satisfactory to both roads and perfect harmony exists between the two, but as to what the plans or the policy of the Denver & Rio Grande are as to making the line a standard gauge out of here, I cannot say. If they do decide to do so, it may mean a great deal more to this city than merely another standard gauge road, for then it would be feasible for that line and the Santa Fe Central to have shops and other works here together, did they see fit to do so.

"When we are ready for business we will give Santa Fe and other points touched a through Pullman service from here to El Paso, to Chicago and all points east, via Torrance and the Rock Island.

"The grading of sixteen miles of the Albuquerque Eastern road has been finished and is ready for the ties and steel, which will be put down just as soon as we can get to the work; then follows the building of the branch into Hagan. We have the choice of three routes, but are not yet ready to announce which one will be used; however, I can say that the survey is completed and ready for the workmen. It will be taken up at once and Hagan will have a standard gauge road, the equipment and material for which have already been purchased, and the work on which will begin in a short time. The line into Roswell has been surveyed and profile maps of the same completed, and workmen will begin on the grading of this as soon as we can get to it, and then will

follow the line into Durango. We are not waiting for funds, or anything of the kind; the work will be taken up in the order named just as rapidly as we can get through with the previous job and reach it."

STRIKE AVERTED.

Switchmen and Brakemen Secure Settlement of Grievances.

All danger of a strike by trainmen of the eastern and western divisions of the Southern Pacific system is at an end, according to dispatches received from Eastern offices. There has been some danger of a serious rupture between the company and its switchmen and brakemen on account of an alleged breach by the company of an agreement made in March last between the company officials and the grievance committees of the railroad orders.

It was claimed that trainmen should have double time for services on double headers for two weeks in March. It is stated that matters came to a crisis early in the week and that all trainmen from New Orleans to San Francisco had been ordered out. The matter was subsequently settled and the strike order cancelled.

A conference is now on in Houston between the "order" men and the officials on the subject of "high ball" and "pilot" men, at division terminals. Thus the difference will be settled without recourse to a strike.

Resolutions.

The following resolutions upon the death of Comrade Rufus C. Vose were read and adopted at a regular meeting of G. K. Warren Post, No. 5, Grand Army of the Republic, August 4, 1903:

Whereas, The Grand Commander on June 29, 1903, ordered another of our comrades to report for duty in the celestial realms above, in the person of Rufus C. Vose, late a captain of Company B, First Regiment Colorado Cavalry, in which regiment he served during the war of the rebellion three years and seven months, and

Whereas, He had long been an honored member of G. K. Warren Post No. 5, Department of New Mexico Grand Army of the Republic, and held in high esteem by all who knew him; therefore, be it

Resolved, While we are deeply and sadly bereaved by his departure, we bow in humble submission to the final decree and will ever cherish the memory of his noble qualities and heroic services in defense of our country's flag.

Resolved, That we extend to his relatives and friends our sincere condolence and assurance that his departure is but a promotion to higher duties and greater enjoyment.

Resolved, That these resolutions be spread upon the records of our post and a copy be furnished to his relatives.

THOMAS HARWOOD,
W. W. McDONALD,
E. S. STOVER,
Committee.

SAN JUAN COUNTY FAIR.

Affairs Are Shaping Up for Successful Initial Meeting.

A meeting of the stockholders of the San Juan County Fair association was held in Green's hall Wednesday night, but owing to a misunderstanding there were few present. The subscription papers are being circulated, and it is probable that by Saturday night \$600 or more will have been secured.

The work of putting the ground in shape, laying out the track, leveling the baseball field, building the grandstand and other necessary work will soon be commenced, and the bright promises of this week will be fulfilled next. There is plenty of other work to be done; and the burden of it will necessarily fall upon our citizens. Business men should not be derelict in lending their material aid and enthusiastic endorsement. The program and premium list are yet to be made out, printed and posted, so as to show the attractions Aztec offers to horse and cattle men, agriculturists and horticulturists.

As the fair will precede the Durango and Farmington shows, it is confidently expected a number of speedy horses will be here and fast races run. With a program as outlined by some of the promoters, no room is left for doubt that the fair will far surpass any effort yet undertaken in San Juan county.—Aztec Index.

Sheriff Baca Arrested Murderer Jose Telles.

Deputy Sheriff A. B. Baca of San Marcel, who is here after an alleged horse thief, wanted in Socorro, has not as yet received his requisition papers for his man, but expects them at any time. Mr. Baca is the officer who arrested Jose Telles, the murderer, who killed his jailer in escaping from jail at Santa Fe and was later captured and returned there, where he was hanged a short while ago.—El Paso Herald.

President W. H. Andrews and General Manager W. S. Hopewell of the Santa Fe Central railway, and President Charles R. Keyes of the New Mexico School of Mines, left Willard yesterday for a trip into the gallinas and Manzano mountains to look at a number of iron prospects which promise to become big producers in time.

OFFICIAL MATTERS.

Land Commission—Capitol Custodian Committee.

PENITENTIARY SUPPLIES AWARDS.

The United States land commission held its regular monthly session at the capital yesterday. There were present: Governor Otero, chairman; Solicitor General E. L. Bartlett and Surveyor General M. O. Llewellyn, secretary. The commission ordered the selection of a large amount of land which had been recommended by the irrigation commission, as sites for reservoirs and the improvement of the Rio Grande.

The Capitol Custodian Committee.

The Capitol custodian committee was in session yesterday at the capital. There were present: Judge N. B. Laughlin, chairman; Solicitor General E. L. Bartlett and Land Commissioner A. A. Keen, secretary. Accounts incurred during the month of July were audited and approved. The repairs being made on the capitol building were ordered finished out of the appropriation of \$4,000 made by the last legislative assembly. The repairs are very extensive, amounting to a complete overhauling of the building from top to bottom, inside and out. A new brick floor is being laid in the cellar, and all the iron and wood work is being painted. The work is under the direct supervision of Superintendent David L. Miller.

The Territorial Land Board.

The Territorial land board held its regular monthly session yesterday at the capital. There were present: Governor Otero, chairman; Solicitor General E. L. Bartlett and Land Commissioner A. A. Keen, secretary. The usual routine business was taken up and disposed of. It was ordered that arrangements be made for advertising in weekly newspapers published near the location of certain lands, that these lands are for sale and lease. This together with the routine business transacted was all that came before the board, at this meeting.

Awards for Penitentiary Supplies.

At the session of the board of penitentiary commissioners yesterday awards for penitentiary supplies were made, of which the following are the more important items: Gross, Kelly & Co., Las Vegas, 500 pounds hominy, \$2.50 per hundred pounds; 200 pounds sal soda, \$2.35 per hundred pounds; 500 pounds rolled oats, \$3.50 per hundred pounds; Leo Herach, Santa Fe, 200 pounds crown raisins, \$7.50 per hundred pounds; 500 pounds evaporated peaches, standard, \$6.50 per hundred pounds; H. B. Cartwright & Bro., Santa Fe, 20,000 pounds Blanca flour, \$2.00 per hundred pounds; 500 pounds rice, \$5.50 per hundred pounds; 10 cases of Arbuckle's coffee, \$10.50 per case; 10 cases Diamond "C" soap, \$3.35 per case; 20 sacks granulated sugar, \$6.00 per hundred pounds; 500 pounds prunes, \$5.50 per hundred pounds; 1 case salmon, "Olympia," \$6.00; 500 pounds California evaporated apples, \$8.50 per hundred pounds; Blanchard Meat and Supply Company, Albuquerque, 50,000 pounds fresh beef, fine quality, necks and shanks excluded, \$5.50 per hundred pounds.

WRECK ON BRANCH.

Silver City-Rincon Passenger Train Ran into a Horse.

Passenger train No. 22, which runs from Rincon on the Rio Grande division, up to Deming and Silver City, was ditched across the river from
