VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, AUGUST 22, 1903.

NUMBER 101

NEW MEXICO TOWNS

SANTA FE.

From the New Mexican.

Mrs. Sylvester Davis, Mrs. A. Chavez, Miss Chavez and George Davis, all of Galisteo, are guests at the residence of Ambrosio Ortiz. Mr. Davis and Miss Chavez will be married at Galisteo Saturday next and the party is now in the city selecting furnishings for the new home.

The business of the Abe Gold "Old Curiosity Shop" which has for the past thirty years been located at the corner of San Francisco street and Hurro alley, will be conducted by his widow, Mrs. Mary Gold, with Jake Gold, who understands the business thoroughly, and who has had life-long experience therein, as manager.

Vidal Mora has been appointed as administrator in the estates of Alejandro Mora. The father and mother died within a short time of each other at the family home in Galisteo; the father dying June 1, and the mother July 25. There are three heirs, Vidal Mora and Dario Mora of Galisteo, and Victoria Mora de Chavez of Mesa de los Cabos. The will designated Vidal Mora as executor and Probate Judge Marcos Castillo has appointed him as administrator of the estate.

W. W. Ingersoll of this city, is developing three mining claims in Box Canyon about five miles north of here. They are the Comstock, the Illinois and the Lone Star. He has driven a tunnel on the Comstock and is in forty feet. He is doing the assessment work on the other claims. The ore runs in gold, silver and copper and in some places the veins run quite high. Mr. Ingersoll is sanguine that with development work he will have a good thing and is now organizing a company for the systematic and proper development of the properties.

W. H. Fritchman of New York, arrived here yesterday. He comes from the office of Street, Wykes & Co., of New York City, to whom the management of the Santa Fe Water & Light company is entrusted by the corporation. He is a civil engineer and has twenty-five years' experience in the management and operation of water and electric light plants. Mr. Fritchman will remain here for some time as he has relieved Mayor I. Parks of the management of the company for the time being. Mrs. Fritchman will join him in this city in a few weeks. She would have come with him now had it not been for the illness of her father who is 85 years of age.

SILVER CITY.

From the Independent.

About a twenty-foot piece of the one wall surrounding the court house grounds was torn out by the wash of the waters from the hills during Tuesday's storm. The one wall surrounding the convent grounds was similarly damaged.

A breakwater has been placed alongside the Silver City National bank and the Murray & Layne buildings on Broadway. It is not especially monumental, but it will only be kept in action until the rainy season is at end, when it will be taken down.

Miss Alice Green, who has been completing her musical education in Los Angeles, returned home on Sunday's train. Miss Green is the possessor of a wonderfully sweet voice and will resume her place in local musical circles, from which she has been very much missed.

Col. W. T. Cessa was in the city on Santa Rita. Colonel Cessa says that Santa Rita camp is moving with its accustomed property and that the reports of suspension of work are without foundation. A few able men were laid off, but the difference is not even noticeable, even close observers.

The management of the big territorial fair to be held at Albuquerque October 12-17 is steadily increasing the attractions for that event. The base ball, horse racing, cowboy tournament the visit of Congressman Hearst, the steeplechase committee, the top of cavalry from Fort Wingate, a great carnival company, and many other attractions will furnish entertainment of every kind and class to see who go to the fair.

LAS VEGAS.

Mrs. L. L. Wilson is reported quite seriously ill.

Pelipe Delgado was expected home from the Romero tie camp on the Santa Fe Central.

The 2-year-old son of Bonifacio Lucero, while playing with a lawn-mower, had two fingers badly cut.

Mrs. Charles Shirk and family left for a visit of several weeks at the McCormick ranch, about thirty-five miles southeast of Las Vegas.

Th. Teolote Mining & Mercantile company's reduction works are now running day and night. The cry over there is "hurry up with more mills and bigger ones."

Mrs. Jennie A. McGrath, daughter of Mrs. S. E. York, arrived to attend the bedside of her mother.

Mrs. J. S. Reynolds and son Jack, who have been traveling in Europe for the past nine months, landed in New York Monday morning.

Rev. F. C. Ward and wife, Miss Gertrude Ward, Mr. and Mrs. C. A. Schooley and Mrs. John Shank and children left on a camping excursion in Coyote canyon. They expect to remain about two weeks.

Chief Justice Mills and son returned from Connecticut where they spent several restful weeks. The judge had been working very hard before departing on his vacation and comes back feeling rested and looking fine. Quite an accumulation of business awaits him.

O. A. Larrazolo returned from a three weeks' overland trip through the northwestern section of the territory and as far as Costilla, Colo. Mr. Larrazolo reports unusually prosperous condition in the country through which he passed resulting from the generous rainfall of the past six months.

Deputy United States Marshal Fred Fornoff left for Tucuman, via the Santa Fe Rock Island route. While here he served three warrants upon violators of the Edmunds act. He has warrants for several fugitives from the Indian Territory, who are reported to be in the Rock Island country.

E. J. Niemi, the jeweler, who left the city about a year ago, deserting his wife and 4-months' old child and taking with him a boy who might have been some help to his mother, has been heard from in Colorado. The boy has been adopted by a prosperous farmer. Niemi wants his wife to join him there.

The building for the Standish-Matt mill has been completed and a considerable pile of copper ore has already been collected on the platform. The owners hope to make the first run next week. The people of the city and surrounding territory are awaiting with much interest the returns from the Standish process.

The San Miguel county teachers' institute was opened Monday, with Miss Maggie Bucher in charge. Thirty-one teachers enrolled themselves for the course. All began the regular work of the week with the greatest zest and intelligence. The character of the course is well calculated to be of profit to the teachers during their coming year's labor in the school rooms. There is little of theorizing and plenty of practical work.

Saturday night the hospitable members of the E. Romero Hose company kept open house. The special guests were the members of the east side fire company. The affair was delightful. The sort of refreshments, liquid and solid, served were admirably adapted to the delectation of the many partakers. There were songs, speeches and hearty good fellowship. A. M. Dettelbach of Santa Fe appealed for co-operation in making the territorial meeting of firemen at Santa Fe a success. The members of both companies expressed much interest and they will be there on September 2. The guests of the E. Romero men express the greatest appreciation of the courtesy and entertaining qualities of the hosts.

RATON.

From the Reporter.

Clarence Stockton, after a serious and protracted illness, is once more able to be about.

Marshall DeLong and wife came up from El Paso and are thinking of locating here permanently.

Mrs. J. H. Fisher and son, J. K., leave for Ellingham, Kas., on a visit to relatives.

Laura and Neille Hahn of Trinidad spent this week in Raton visiting with their brother, Harry Hahn, and his family.

L. A. Babcock, local agent of the Colorado Telephone company, returned early in the week from Monmouth

Ill., where he attended at the bedside of his dying mother until the end came, August 7. Mrs. Babcock was highly esteemed in the community where she spent over half a century of her life.

Robert Boyle returned from a two weeks' stay at Jemez springs, much benefited by the sulphur baths of that place.

William J. Barrows of Washington, D. C. was here the past week in the interest of the United States census bureau, gathering statistics of the financial standing of the city.

Herman Black, wife and two children of Milwaukee visited here this week, the guest of M. R. Mendelson and wife. Mrs. Black and Mrs. Mendelson are sisters.

Henry Benfer and wife of Newton, Kas., who had been visiting in Raton with their son, P. D. Benfer and his family, left for their home. They expressed themselves as delighted with our climate and will take an early opportunity to make another visit.

ALAMOGORDO.

From the News.

Architect Whittles of Albuquerque was in the city on business connected with the new bank building.

Joe Seeger was able to resume his labors at the mills after being laid up several days with a sprained ankle.

D. C. Homan left for Colorado City, Tex., after a thirty days' visit with the family of I. N. Jackson of this city.

Barber shops of the city will close hereafter on Saturday nights at 10:30 and all day Sundays. Heretofore the shops have kept open on Saturday nights till 12 and open until 12 on Sundays.

FIREMEN'S TOURNAMENT.

President Ruppe, of Association, Hopes for Good Attendance.

MEET IN SANTA FE SEPT. 2.

B. Ruppe, president of the New Mexico Association of Firemen, is in receipt of a letter from A. M. Dettelbach, secretary for the association, stating that at present the prospects of a good attendance at the approaching tournament, to occur at Santa Fe are most flattering.

From Las Vegas, Albuquerque and Socorro word comes that each town will be represented at the meeting with goodly delegations of uniformed men.

UNIVERSITY NOTES.

The work of the university will begin earlier than usual this year, Tuesday, September 1 being registration day for all departments, including the School of Music.

Prof. M. F. Angell of the University of Wisconsin is expected in Albuquerque this evening. Professor Angell comes to take charge of the department of physics and mathematics in the University of New Mexico.

The buildings of the university have been thoroughly cleaned and made ready for the opening of school work. To make more space for the library, two rooms have been put in readiness and will be at the disposal of Miss Brown, the new librarian.

Miss Kate Kelly has been secured by the regents as matron of the girls' dormitory and college dining hall. Miss Kelly is well known to the people of Albuquerque, having conducted a boarding house in the city for years.

The trees planted on the campus last spring have lived through the summer. In a few years, with the flowers and vines now growing, the university will have an environment to be proud of.

A larger percentage of last year's students than usual have signified their intention of returning this fall. Many new students are being heard from every day. Most acceptable of all is the prospect for a large number of students to do college work.

Professor Hodgins may be found at his residence near the university at all times to consult with students concerning courses.

Last year the sum of \$125 was given to the climatological laboratory by the trustees of the Elizabeth Thompson fund, and a like sum was promised for the ensuing year, conditioned on successful work in that department. Thanks to the energy and efforts of Professor Weinzierl, the conditions have been met and the second sum has been recently turned over to be expended for improvements.

Albert Pater, who was back east purchasing goods for his carpet establishment on West Railroad avenue has returned to the city.

GALLUP GLEANINGS.

A Batch of Good Local and Personal Paragraphs From Carbon Town.

A RAILROAD WAIF.

Special Correspondence.

Gallup, N. M., Aug. 19.—The public schools of Gallup will reopen on the 7th of next month.

The Bartolome Fernandez, Montoya and Cebolleta and grants together with three hundred and twenty acres of land belonging to Chet Pinto were sold on Monday for taxes, by Treasurer J. C. Spears, a recent order from Judge Baker, a number of uncollectable back assessments.

Matnick & Kohler are now running the saloon formerly owned by Hoefferle.

D. Verneti has purchased the shoe shop on Coal avenue owned by Charles Sterne. Sterne has gone to the Indian territory.

Frank Ussa, a local car repairer, has shipped out, leaving his creditors to mourn.

An examination of the teachers of this county, outside of the town of Gallup, will be held here on the 28th or the present month, by Superintendent Coddington, and two examiners to be appointed by Judge Baker.

The Rev. G. L. Patterson left today for an extended visit east.

William Radcliffe has been appointed to collect the annual dog tax.

Mrs. K. K. Scott and children returned home on Monday from a visit to the coast. Mrs. Frank Brown will return tomorrow.

Bids for the janitor work at the school house will be opened by the board of education on Thursday next.

The Globe Democrat of the 15th brought us the good news that the Rock Island road will use the Santa Fe tracks from Willard to the coast. This means an early resumption of work on the cut-off and a largely increased consumption of Gallup coal. Some good mines fully equipped have been idle for the past fifteen months on account of the small demand for coal.

Now with the business of the Rock Island going over this road, instead of over the Southern Pacific, a much larger amount of money will be left with Gallup than formerly.

L. Johns of Thoreau is developing some good copper property in the Zuni mountains.

There have been several cases of typhoid fever in town but they are all on the way to recovery. No new cases have been reported in the past ten days.

After the Methodist conference, which will be held on the 17th of next month, the presiding elder, Rev. Robert Hodgson, will take up his residence in Albuquerque without a charge.

PEDRO ALVARADO DEAD.

Six Years Ago He Was a Peon, But Died Worth \$85,000,000.

A dispatch from Chihuahua last night stated that Pedro Alvarado, the owner of the great Las Palmitas mines at Parral, and one of the richest men in the world, was dead at Parral. Efforts to verify the report today have been unsuccessful, says the El Paso Herald.

Six years ago Alvarado, then a poor miner working for a few cents a day, discovered the rich lead now known as the Palmitas mines. He soon became enormously wealthy from the product of his mines, and has been making rich stakes at frequent intervals ever since. The mines seem inexhaustible, and produce marvelous amounts in silver and some gold. No man knows how rich Pedro was, but his wealth has been estimated all the way from fifty to two hundred millions.

Alvarado lived simply, though he gave away enormous amounts to charity and the church. He recently offered to pay Mexico's national debt. He would not trust banks to hoard his wealth, but stored it in great vaults near his mines. Of late he has been buying ranches and mines.

SAN PEDRO CAMP.

Santa Fe Gold and Copper Company to Resume Operations.

John Cunningham of San Pedro, who owns some valuable mining property in that district and has been in the city for several days, leaves tonight for his home, says the New Mexican. He reports that there is every indication that the Santa Fe Gold and Copper company will resume operations in the near future. The company has for some months been shipping several lots of their new found ore for treatment to various custom mills and the values have been in every case satisfactory. A number of

mining companies will be greatly benefited if the smelter starts.

The Pennsylvania Development company and the Gibson Development company, as well as many other corporations and individuals, won good properties in the San Pedro camp which are now waiting for a market or reduction plant that will reduce their ore values to matte or concentrates.

ALGODONES ITEMS.

Special Correspondence.

Algodones, N. M., Aug. 17.—This morning a man was killed at the bridge just south of here. He was stealing a ride on a freight train and the brakeman found him on the train. People who live close by here said that he was stoned off the train by the train hands and fell off on the bridge and was killed by the train. The body was taken on board the caboose and the train proceeded north again.

Mr. Dee, in the employ of the Hyde Exploring company, was here last week with about 500 head of horses. He traded and sold several head to the people here.

Most of the ranchmen here have cut their alfalfa the third time, which insures a fourth crop this season.

Wheat is all cut and thrashed and was a very good crop. Other crops are good.

The population of this place has increased some the past few days, several births taking place.

Don Pedro Perea was a visitor here this morning.

We have had several nice showers lately.

OFFICIAL MATTERS.

Notary Public Appointed—New Mining Company Incorporation.

MILITARY INSTITUTE VACANCY.

The Cuervo Mining company filed incorporation papers, the incorporators being O. P. Annick, A. S. Long, Charles Rayburn, W. Chandler, C. S. Ross, J. P. Green, A. Steward, N. H. Matlock of Dalhart, Texas, and H. H. Rusty of Conant, N. M. The capitalization is \$1,000,000 divided into 1,000,000 shares. The headquarters are at Conant, Leonard Wood county, where the company will engage in mining. The directors are H. H. Rusty of Conant, C. C. Ross and J. R. Green.

Vacancy From Santa Fe at the Military Institute.

Hon. Amado Chavez, who represented Santa Fe county in the council in the thirty-fifth legislative assembly, announces that there is a vacancy for a cadet from Santa Fe county to the New Mexico Military institute located at Roswell, and requests that any boy or young man whose home is in that county and who desires to become a cadet at that educational institute to apply to him and submit recommendations for consideration and approval for the position. He urges speedy action as the school term at the institute for the coming year commences next month and as he would be greatly pleased to support a Santa Fe boy to the vacancy.

SAN MARCIAL FIGHTERS.

Two Prominent Gentlemen Engage Each Other in a Fistic Encounter.

There was an exhibition of strenuousity down at San Marcial yesterday morning, when two prominent citizens of that town came together in a fistic combat. One is a prominent merchant and the other is a magistrate of the law, but that is of little consequence. They went "at it" so it is understood and stayed "at it" until separated by friends. Both men are a trifle bit disfigured as to complexion about the eyes.

Teachers' Institute.

The Albuquerque city teachers' summer institute will be held in the Central School building this year, as usual. It will convene August 31 and continue until the following Friday, meeting each morning at 9 o'clock. All teachers are required to attend. A fee of \$1.50 will be charged any outside teacher or student caring to attend and receive the benefit of the lectures.

School will open Tuesday, September 1.

Mrs. Frank C. Nickerson reached the city last night from Boston, joining her two sisters, the Misses Adams at the Hotel Highlands. The ladies will probably remain in Albuquerque in the future.

ARIZONA TOWNS

ST. JOHNS.

From the Herald.

Misses Isabelle and Stella Jones of Salt Lake, N. M., were visiting friends in the city this week.

G. Becker returned from the Clenga Maria where he had been looking after his cattle interests.

Mr. Fryer, a cattle buyer from Flagstaff, was in town this week looking after cattle. He went to Springville from here.

A. H. McClure, who taught the Concho school last winter, has been elected superintendent of the Nogales, Arizona, schools.

Ernest Hall and wife of Holbrook passed through the city. They were on their way from Springville to Holbrook.

H. P. Trainer, one of the old timers of this part of Arizona, was in town attending to business matters. Mr. Trainer is now engaged in the butcher business at Springville and reports a good business.

KINGMAN.

From the Miner.

A. I. Richardson came in from Los Angeles, attracted hither by the big gold strike south of town.

Mrs. Lena Howe arrived in Kingman from Los Angeles, and will remain in town some time looking after her mother, Mrs. Brobant, who is very ill.

E. F. Tarr, who has been spending a couple of weeks in California, visiting with Kingman friends, The Misses Ella and Lizzie Tarr, who have been visiting in Kingman for a month past, departed with their brother for Jerome.

Captain Isaac Conkey, merchant and miner of Mineral Park, was in Kingman several days this week. He brought a party of prospectors over from the park and they are now out in the new gold fields looking for the elusive gold streak.

The promiscuous shooting off of firearms on the streets of Kingman must be stopped and in doing so the courts must fine the gun man heavily. Kingman has no use for gun men and the sooner they are checked up the better it will be for the community. The other evening while a large number of people were on the street an individual came out of a saloon and fired his gun twice and then disappeared within a building. He was later arrested. A heavy fine will break this class of men of the gun habit, and should they not have the money to pay, a month or so on the rock pile will make them think of the consequence when they have a desire of becoming bad.

FLAGSTAFF.

From the Sun.

Hugh Anderson returned from Ann Arbor, Mich., where he has been attending the medical department of the Michigan university.

Andy Kline sold his bands of sheep and his residence property to Zeke Newman. Mr. Newman sold the sheep to Joseph Rise.

C. O. Robinson, cashier of the Arizona Central bank, and E. A. Shiker, cashier of the Arizona Lumber company, left for Los Angeles where they will spend a well earned vacation.

A Mexican family consisting of man, wife and two children were taken from passenger train No. 1 Thursday on account of the little boy having smallpox. The entire family were taken to the pest house. They were from old Mexico, and on their way to some station west of here to work for the railroad company.

Dave Gibben, who lives in the Me-Tague house on Railroad avenue, attempted to commit suicide on Sunday afternoon by taking a number of corrosive sublimate tablets. He took enough to kill six men and the overdose probably saved his life. Dr. Brannen was called and he promptly applied antidotes, and Gibben says he will not try the corrosive sublimate route the next time. Temporary insanity induced by gendecy is said to have been the cause of his attempt to take his life.

WINSLOW.

From the Mail.

Allen Hunt of Williams was in town.

Father Connolly made a visit to Flagstaff during the week.

Manager J. G. Maxwell of the Holmes Supply company went to Albuquerque for a few days' visit.

Bob Fenton has started up the brick yard. He has made 100,000 bricks and they are now in the kiln ready for firing.

After an absence of some weeks, Supervisor Plickinger and wife, Mayo, Bauerbach and wife and Mrs. Bauerbach's sister are again at home. They arrived from a trip to the mountains.

Fred W. Nelson of the Navajo County bank has been in Phoenix attending the meeting of the territorial board of equalization. Mr. Nelson represents the Fourth judicial district.

Wednesday night another successful social dance was given at the opera house by Messrs. J. A. Kelly, George Downs and William Workman. As usual, the music was excellent and the dancers had a delightful time.

William H. Dagg of the Rand-Dagg Mercantile company returned Wednesday evening with his family after several weeks' outing in the mountains. He said the trip was very pleasant and much enjoyed by him and the folks. Speaking of how the country looked, Mr. Dagg said he had never seen it present a better appearance and that the supply of water is abundant.

HOLBROOK.

From the Argus.

J. R. Hulet left for the upper country.

H. J. Ramer came in from his ranch after supplies.

Mrs. Hyrum Smith came down from Snowflake.

John A. Hunt was in Holbrook, and reports everybody busy in the harvest field.

Miss Annie Greer of Concho made her brother, R. D. Greer, a visit during the week, while on her way home from Winslow.

Jailer Judd Lathrop informs us that the number of prisoners now confined in our county jail is five. Navajo county is not so sad.

Rev. G. L. Patterson of Gallup, N. M., made Holbrook a short visit. Mr. Patterson intends going to Marshal, Mich., and probably will resign his duties as pastor of the Congregational church at Gallup.

The \$2,000 which Albuquerque has hung up for the cow boy tournament during the territorial fair looks mighty good to the cow men of this section, and without doubt there will be several of our best ropers and riders who will go to Albuquerque to gather in some of the money.

Messrs. Paul Kempenich and Dr. Hansen arrived in Holbrook from Peralta, N. M., Thursday morning. The former is a brother of Henry Kempenich of this place and came down with Dr. Hansen to join Messrs. Kempenich and Klieber in an eight days' outing at the Moqui village. The party was prepared with improved "grub" box and other camping utensils, guns, etc., and anticipate having a first class outing.

WILLIAMS.

From the News.

Robert Perrin and Patrick Johnston joined the rush to the Kingman gold strike.

C. B. Moore, a member of the firm of A. E. Kopp & Co., dealers in hardware, vehicles and grain of Harveyville, Kas., died of heart failure on Bright Angel trail, at a depth of about 1,000 feet below the rim, near what is called Cape Horn in the Grand Canyon. Moore was a man about 30 years old, weighing possibly 170 pounds, and seemed to be in robust health. He had purchased a Grand Army of the Republic excursion ticket to San Francisco and stopped off to visit the canyon. His remains were embalmed by Undertaker Button and shipped east by express.

Daily Citizen, per copy, \$6.00
Six months, per year, \$2.00

Dr. John A. Trembley, the eccentric scientist, has just died at his home in Hamilton, O. This home is unique, the owner having designed the various rooms in geometrical figures, some octagonal, others circular, others elliptical, and specimens of every known wood were procured from all parts of the world and used in the structure.

England calculates that enteric fever in the Boer war cost her about \$20,000,000, and the bacteria were more deadly than Boers. In this there is nothing uncommon, since in war time there are always more deaths from disease, by far, than from bullets. It is largely a contest of sanitary experts.

Regardless of the New Mexican to the contrary, Hon. Frank W. Clancy is a candidate for the appointment of associate justice of the territorial supreme court, and judge of the Fifth judicial district, vice Judge Smith, declined Mr. Clancy has some strong endorsements for the appointment, and is running one of the closest races imaginable.

It was demonstrated at the city council meeting last night that the members are set in not giving any more franchises for "speculative" purposes, where the citizens will be asked to subscribe a bonus for this and that enterprise. Capitalists who mean business find it an easy matter to secure franchises that are fair and honorable to both city and promoters.

The New Mexico Association of Volunteer Firemen will meet in annual convention at Santa Fe on September 2 and continue for three days. The local firemen ought to get together and appoint delegates to attend the convention. Albuquerque asks Santa Fe every year to attend the territorial fair, now let this city send a delegation to the firemen's convention at Santa Fe.

At the city council meeting last night an electric street railway franchise was granted to W. H. Greer, the New Mexico manager of the Victoria Land and Cattle company, who is the representative of T. A. Jastro and other California capitalists. The ordinance is published in full in today's Citizen. It is good reading for the tax payers, and should be read over carefully by them. The Citizen believes the city is well protected, and the gentlemen who secured the franchise mean business. Albuquerque will by this time next year have an electric street railway.

The Tularosa Democrat is for sale. The owner makes the following confession: "Reason for selling, the owner has other business and is not a newspaper man." That's good reason. To be a newspaper man a person should have some knowledge of the mechanical workings of an office, besides being a writer of space articles. There are others in the territory, whose only qualifications consists in using big words from a manual of ready sentences which they keep constantly at command, that should by all means retire. The school room suits them better.

A recent issue of the Las Vegas Advertiser contains a most fair article regarding the trouble between the two towns of Las Vegas. The trouble in the first place started with the abandonment of the postoffice on the west side; then followed the insane asylum disclosures; then the investigations of the officials of the asylum, and, finally, the murderous assault upon Editor Lyon by Messrs. McNary and Allen. The article accuses McCurtright and other citizens of the east side as being in collusion with the assailants, especially the marshal, who first searched Lyon and then informed McNary and Allen that he (Lyon) was unarmed. It was then, while the marshal occupied a chair in the office of the flopping, that the murderous assault was made upon the editor of the Advertiser. The article in question is a good resume of the disgraceful scene which has been enacted in Las Vegas the past month or two, and The Citizen regrets lack of space and will permit its publication in full.

"SHOULD BE SMOKED OUT."
Somebody who is afraid to sign his right name, but writes under the name of "Panor Pail," came out in this morning's Democrat against statehood. If he would like to get up a discussion with any of the advocates of statehood, and will give his real name it is surmised he can be accommodated. He is one of the kind that Col. Twitchell wrote over a year ago ought to be "smoked out." His creed would seem to be about like this: "I am much better than my neighbors. The majority of the people of New Mexico think like I do, that we do not want statehood unless we can run things. Although we are in the majority in the territory, yet we are a lamb-like people, and we are afraid to come out and advocate our views even though we are in the majority for fear we would be called traitors, snakes in the grass and other like offensive names by a few. We are the class of people that firmly believe that the American system of government is a failure. We believe that

the declaration of independence and the constitution of the United States are failures. We believe that this government would be much better if it were a limited monarchy like England. We believe this country would be much better off if all the states were put back into a territorial form of government, all governed from Washington by a strong centralized government with ourselves, that is, myself and other nice pharisees like me (not publicans) as the governing class."

As forecasted in The El Paso Times a few days ago, W. S. Mead, who is now in San Francisco, has resigned his position as commercial agent of the Mexican Central in this city. Mr. Mead wired his resignation to the officials at the City of Mexico and stated that he had accepted a position with a commission house in San Francisco. A. Duloherty, who was checked into the local office of the Mexican Central before Mr. Mead left, becomes now the commercial agent and will no doubt be given the office permanently.

Get What You Ask For.
When you see an article well advertised in the newspapers, you may be sure it's a good article, for advertising only pays if the goods are honest and possess merit. The people who make a specialty of one advertised article, like Cascarets, Candy Cathartic for example, stake their whole business existence on it's doing what they say it will. They must "make good" as the saying is. Readers of this paper are urged to be sure that they get what they ask for, when they ask for an advertised article, for it's the good thing that is imitated and counterfeited. Don't accept substitutes! Insist on getting the genuine!

FUNERAL OF ABRAHAM GOLD
Well Known Santa Fe Merchant Laid at Rest Sunday Afternoon.

The funeral of Abraham Gold was held from his late residence in Santa Fe Sunday afternoon. The services at the house and at the grave were largely attended. The floral offerings were many and of beautiful and choicest blossoms.
The funeral service was conducted by Rabbi Jacob H. Kaplan of Temple Albert, Albuquerque. In his address he paid high tribute to the worth of Mr. Gold and spoke of the great esteem in which he had always been held. After the religious ceremonies the Benevolent and Protective Order of Elks took charge and held the services of that order. The interment was made in Fairview and the services at the grave were conducted by Dr. Kaplan. The Elks attended the funeral in a body and acted as an escort. The pall bearers were J. P. Gable, Fritz Muller, S. Spitz and J. Weinberger.

A Woman Killer.
J. A. J. Montgomery, Puelco, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c at J. H. O'Reilly & Co.

The Rock Island has just gotten out a new map which shows the Rock Island, Choctaw and Frisco as one system. When one looks at the map he can hardly realize the immense amount of territory that is covered by these consolidated lines. With the addition of the Seaboard Air Line the Rock Island covers the country from ocean to ocean.

Cured Paralysis.
W. S. Bailey, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm when I was persuaded to use Hall's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites and skin eruptions. It does the work." 25c, 50c and \$1.00 at J. H. O'Reilly & Co.

LAS VEGAS.
Mrs. S. E. York is still very ill. She passed a somewhat better night last night, however, and her physicians are hopeful that the threatened pneumonia may not set in.

Alderman McSchroeder has relinquished the privilege of totting the mail between the depot and postoffice.

Kodol
Dyspepsia Cure
Digests what you eat
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles
Prepared only by E. C. De Witt & Co., Chicago
25c a bottle contains 24 times the dose.
J. H. O'Reilly & Co. and B. H. Briggs & Co.

AS A LAXATIVE

Hostetter's Stomach Bitters is without an equal. It will not gripe or shock the system, and make you feel sick all over like most cathartics do, but has a firm and gentle effect on the constipated bowels, stimulating and assisting them in the proper performance of their functions. Then an occasional dose is all that is needed to keep the bowels regular and the stomach strong. A trial will convince you of its value.

HOSTETTER'S STOMACH BITTERS

but he is still in business. Roman Herrera has taken the contract at a figure that is far down the line.

The funeral of W. W. Rawlins, held from the Rawlins house yesterday afternoon was most impressive, and the attendance was very large. The beautiful ritual of the Episcopal church was observed by the rector, the Rev. Charles French of St. Paul's. Both at the house and the grave sweet sacred songs were sung, a choir composed of Messadams Gise and Rankin and Messrs. Hayden and Brown. It was a long cortege which took its slow way to the cemetery where the stately ceremonies of the Masons were observed before all that was mortal of William Rawlins was consigned to the silent dust. For the bereaved widow and other members of the family the sincerest sympathy is felt.

Save the Children.
Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults.

Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 70 Central St., Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by B. H. Briggs & Co. and S. Vann & Son.

Frank Dibert, assistant treasurer of the Santa Fe Central railway, and C. G. Saadt, photographer of the road, had quite an experience after leaving the Santa Fe Central train on Thursday afternoon, three miles out of Kennedy, says the New Mexican. They started to cut across country to reach Kennedy and lost their way. It was almost 10 o'clock when they decided to camp out for the night but just as they had spread their blankets, searchers, who had started from Kennedy looking for them, found them and took them to Kennedy station where they spent the night, leaving Friday morning for the coal fields at Hagan.

HCW'S THIS?
We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by him.

West & Truax, Wholesale Druggists, Toledo, O.
Waiding, Kinnam & Marvin, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.
Hall's Family Pills are the best.

BALL PLAYERS.

Santa Fe Base Ball Players Will Try to Arrange Game With Outside Clubs.

There is an effort being made by a number of the baseball players of this city to arrange games with Las Vegas and Albuquerque, says the New Mexican. It is possible that one of these towns will arrange to have a meeting either this Sunday or the one following. There is a great deal of interest manifested locally and a strong all-Santa Fe team can be secured. The boys are now practicing on the grounds of St. Michael's college and some excellent material is being developed. The team for the contest has not yet been selected definitely, but will be in a few days. Captain Manuel Otero is directing the work of the players. An effort is being made to have W. E. Martin manage the team.

End of Bitter Fight.
"Two physicians had a long and stubborn fight with an abscess on my right lung" writes J. F. Hughes of Du Pont, Ga. "and gave me up. Everybody thought I was dead. As at last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds and Lung troubles. Guaranteed by all druggists. Price 50c and \$1.00 Trial bottles free.

ON ITS TRAVELS.

Santa Fe Instruction Car Has Reached Chanute, Kas.

The Santa Fe instruction car arrived last evening from Ottawa, and was taken up in the yards this morning, says the Chanute Sun.
The car is stationed near the round-

house. It is under the management of D. M. Lewis, who gives lectures on the working of the machinery. Every piece of machinery in the car is of the latest design and is so arranged that the workings may be explained easily.

The car is equipped with injectors, air brakes, simple and compound engines, and all apparatus used in the working of a train. It has been at Ottawa for the past two days, and before that in Argentine where one hundred and twenty-four employees took instruction. This air brake equipment car is the first of the kind the Santa Fe has ever run. It is the only one on the system, although another has been planned and will be built at Topeka soon. The car has been built two years and runs over the whole system, one year being taken to complete it.

The car was caught in the Argentine flood and it has been undergoing repairs in the Topeka shops ever since.

The following motto is suspended in the car: "To improve the operation and condition of the air brake equipment." The number of the car is 59905. All Santa Fe employees are earnestly solicited to attend the classes.

For Over Sixty Years

An old and well tried remedy.
Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children, while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea, and is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

SANTA FE.

From the New Mexican.
Sheriff Kinneil and Deputy Huber left Saturday for Sulphur springs where they will spend some time.

Miss Ethel Easley will shortly leave for Boston where she will complete her musical education at the New England Conservatory of Music.

On Saturday morning Joseph Jarell and Miss Teresita Saca were married. The witnesses were Joseph Rolando and Jina Baca de Rolando.

Mr. and Mrs. S. H. Spooner of Indianapolis, are in town. Mr. Spooner is special agent of the department of justice in Indian deprecation claims and is well known throughout New Mexico, having of late years performed much official duty in this territory.

The Catholic priests of the archdiocese of Santa Fe will enter into retreat at St. Michael's college under the direction of Bishop J. B. Pitaval. They will remain in retreat until Friday morning. The preacher will be Rev. Father Mandalari of Albuquerque, S. J.

Commissioner of Land A. A. Keen enjoys the distinction of being the first person to make the trip to Albuquerque over the Santa Fe Central railway. Mr. Keen accompanied the party of prominent Santa Fe people who attended the exercises at Kennedy last Thursday and on his return left the Santa Feas at Galisteo switch. He there took the Atchafalaya, Topeka & Santa Fe train and went to Albuquerque.

Judge A. J. Abbott has returned from Laguna, where he spent part of the past week in securing evidence in a murder case which recently occurred near the pueblo. There are two Navajos in the jail at Los Lunas charged with the crime. The prisoners are Narciso and Santos and they will be brought to trial at the next term of court. There is quite a bit of bitter feeling displayed but there will be no attempt made to interfere with the course of the law.

Physicians and Druggists.
Ford and Sturgeon, a prominent drug firm at Rocky Hill Station, Ky., write: "We were requested by Dr. G. B. Snigley to send for Herbine for the benefit of our customers. We ordered three dozen in December, and we are glad to say Herbine has given such great satisfaction that we have duplicated this order three times, and today we gave your salesman another order. We beg to say Dr. G. B. Snigley takes great pleasure in recommending Herbine." 50c bottle at J. H. O'Reilly & Co.

If you go to Colombo hall, Monday, August 24, to hear the Joseph Newman company, you will never regret it. You will hear vocal and instrumental music of a very high order. You will hear the funniest and wittiest songs, jokes and monologues you've heard in many a day, and you will witness two bright little plays that will keep you in the best possible humor.

The company appears under the auspices of the Knights of Columbus, and that is a sufficient guarantee that the evening will be an enjoyable one, and that the hall will be crowded.

Get All You Want.
Persons troubled with indigestion or dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention digestion and assimilation of all of the wholesome food that may be eaten, and enables the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by B. H. Briggs & Co. and S. Vann & Son.

CENSUS OF ALAMOGORDO.

Not as Many as Some Had Supposed.
But Shows a Good Sized Town.
C. A. McElroy finished up a census of Alamogordo the first of the week which includes a count of the general

ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

SSS
THE SWIFT SPECIFIC CO., ATLANTA, GA.

population and a classified census of the scholastic population of the town, says the Advertiser.

He found the total population to be 3,131, and the children of school age in district No. 1 to be 776. Mr. McElroy was employed to take the school census, which necessitated his visiting practically every house in town, and he improved the opportunity without extra compensation to make a count of the general population. He avoided counting any but those located here and employed, not counting any transients or persons merely in town temporarily. It was honestly made, although a little disappointing to those who thought Alamogordo was more populous. He states that he could have padded up the number by several hundred and done it just as consistently as a census is often made.

Mr. McElroy found quite a number of Mexican families who were extremely loath to give any information whatever, evidently thinking it would involve them in trouble with the compulsory school law. He found one blind child and one deaf mute.

He found about twenty houses vacant, and in this connection noted an important fact—only the inferior classes of houses are vacant, or those located in the suburbs of the town. Good houses, and conveniently situated, are in good demand all the time, and none are vacant for any length of time.

Suicide Prevented.
The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by all druggists.

HILLSBORO MINES.

From the Advocate.
The 100 ton run of Empire ore was completed Wednesday. We understand the result was very satisfactory.

Drifting has been commenced on the 340 foot levels of the Prosper mine. A fine showing of ore is reported at that depth.

Rich ore has been struck in the Moser tunnel, being developed by South Percha G. M. & M. company. The Moser is a parallel lead to the Stuck lead, both of which are within the boundary lines of the Great Eastern mine.

The Ready Pay mill will probably be ready to start up by the 15th of this month. Operations have been delayed on account of the non-arrival of certain parts of the machinery. The new pumping plant works to perfection.

The Empire Gold Mining people are sinking the main shaft of the Empire mine. They propose to sink to a depth of at least 500 feet and to run levels at each 100 feet before putting up a mine. John Fricks is foreman of the mine.

The local officials of the South Percha Gold Mining and Milling company are much elated over the showing of ore in the breast of the drift at 253 feet in the Great Eastern mine. The old shaft of the Hillsboro mine has been cleaned out preparatory to putting up a whim. A large amount of fine ore is exposed in this property.

A Sure Cure for Diarrhoea.
Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used as one or two doses of it will cure any ordinary attack. It never fails, not even in the worst severe and dangerous cases. For sale by all druggists.

LEGGETT IS FOUND.

Rock Island Fireman Drowned With His Engine.

The body of Fireman Jacob Leggett of the Rock Island, who was drowned when his engine went in Hendricks creek near McFarland Thursday morning, has been recovered. It was found two miles down stream from the scene of the wreck. No marks indicating that he was hurt by the falling of the

One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

bridge were found on the body. The corpse was taken to Alma for the inquest and will be returned to Herington for burial. Workmen have constructed a pile bridge over the place where the railroad bridge was washed out by the cloudburst and trains have resumed running over the main line today.—Topeka State Journal.

No such thing as "summer complaint" where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for every looseness of the bowels.

OBTAINED THE CONTRACT.

Southern Pacific Will Haul Troops From New York to Fort Bayard.

Eastern dispatches announce that the Southern Pacific has secured the contract for the transportation of troops from New York and other eastern points to Fort Bayard, N. M. The contract was awarded to the Southern Pacific on the lowest bid, over the Rock Island, Santa Fe and Wabash between New York and St. Louis.

The winning bid was secured by reason of the Southern Pacific's tide water connections, which enabled them to underbid all other roads. The soldiers will come by steamer from New York to New Orleans, thence over the Atlantic system to Fort Bayard.

The movement will be periodical and the road expects to handle thousands of soldiers under the contract.

Not Over-Wise.
There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by a man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

CARS MAD DASH.

Boys Relieve Brakes on a Freight Car and It Runs Into Train.

What might have proved a serious wreck involving loss of life was fortunately averted in the Denver & Rio Grande yards at Santa Fe Friday night. From what can be learned two boys, aged 11 and 5 years, amused themselves for a time playing about the cars. Growing tired of the rather tame feature they began working with the brakes of a box car laden with hay which stood at the top of the heavy grade. In some manner the brakes became loosened and the car started down the incline, gathering momentum with every revolution of the wheels. The car dashed over the bridge and collided with a train that was standing on the siding a short distance further on. The result was that the cars were severely damaged, and one having practically the whole end stove in.

Fortunately the two boys escaped uninjured. The residents of the neighborhood say that the noise of the collision was something terrific and that for some time nothing could be seen nor the cause of the trouble learned because of the great clouds of dust.

De Witt is the Name.

When you go to buy Witch Hazel Salve look for the name De Witt on every box. The pure, unadulterated Witch Hazel is used in making De Witt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of De Witt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. De Witt & Co., Chicago. Sold by B. H. Briggs & Co. and S. Vann & Son.

KILLED BY LIGHTNING.

Dread Summons Comes Suddenly to Mrs. Roman Gallegos.

The sad news reached Las Vegas Saturday morning that the wife of Roman Gallegos, chairman of the board of county commissioners, was struck by lightning and instantly killed Friday afternoon, at her home in San Jose. The news comes as a great shock to the many friends of Mr. Gallegos in this community. At the moment when the fatal bolt fell Mrs. Gallegos was preparing to start with her family to Las Vegas, where the father and mother intended to

purchase the wedding outfit for their son. The house was not injured and no other member of the household was hurt. The funeral was held in the Catholic church at San Jose yesterday.

Puts an End to it All.
A grievous wall oftentimes comes as a result of unbearable pain from overtaxed organs, dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25 c. Guaranteed by all druggists.

MAY SCARE THE PUBLIC.

Rock Island Afraid to Admit Its Own Magnitude.

Plans are already under way for through passenger train service from New York to the City of Mexico by way of the Pennsylvania, Seaboard, Frisco, Rock Island and Mexican Central. The latter road is now in all but name part of the Rock Island system. In spite of the open statements by Rock Island-frisco interests that the Seaboard Air line has been purchased by the system, technical denials were issued that the control of the property had actually passed. The delicacy in admitting the fact is due to fear that the public may be alarmed at the vastness of the Rock Island system to the detriment of the stock market.

Watch for a Chill.
However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver, drives the malaria germs out of the system, purifies the blood, tones up the system and restores health. 50c at J. H. O'Reilly & Co.

OPENS NEW ROUTE.

The Denver & Rio Grande Can Now Reach Mexican Points.

B. W. Robbins, general freight and passenger agent of the Santa Fe Central railway, was seen by a New Mexican reporter as to the various opportunities to be afforded in the way of making New Mexico and Texas cities competitive points, now that the Santa Fe Central railway is about to be opened for traffic. Mr. Robbins, who is an old Denver & Rio Grande man, speaks of the inability of that road to reach New Mexico, Texas and Arizona points heretofore. He said the Santa Fe Central railway would give an outlet for the Denver & Rio Grande system, and that a through route would be afforded its allied lines into El Paso and points in Old Mexico as well as southern Arizona.

Mr. Robbins said that up to this time the Denver & Rio Grande had never participated in this traffic from Colorado points owing to the fact that this section was reached almost exclusively by the Atchafalaya, Topeka & Santa Fe, which owned their own tracks through from Colorado common points.

"With the completion of the Santa Fe Central railway," continued Mr. Robbins, "an entirely new territory will be opened to the Denver & Rio Grande in connection with this line, and the El Paso & Northeastern system and other lines operating from El Paso."

Administrators' Sale.

In the matter of the estate of Martin E. Callan, deceased.
Notice is hereby given that the undersigned, administrator of the estate of Martin E. Callan, has filed in the Probate Court of Bernalillo county, a final report of all his acts and doings as such administrator and the said Probate Court has fixed Monday, the 7th day of September, 1903, as the day upon which all objections to said report and final account may be heard, and the application of the undersigned to be discharged as such administrator may be disposed of. All parties in interest are required to take notice accordingly.

Delinquent Tax List

Notice is hereby given that the following list contains the names of the owners of all property upon which the taxes levied in the year 1902 in and for the territory of New Mexico, county of Bernalillo and city of Albuquerque, amounting to less than \$25.00, have become delinquent, together with a description of the property, and the amount of taxes, penalties and costs due opposite each name and description, together with a separate statement of the taxes due on personal property, where the several taxes are due from the same owner or owners.

Precinct No. 3.

CHAVEZ, Y. GARCIA, B.—Land 75 by 300 yards; bounded north by G. Gutierrez, south by G. Montoya, east by C. W. Lewis, west by P. Gutierrez. Taxes, \$7.30; penalty, 36 cents; costs, 35 cents; total, \$8.01.

CHAVEZ, M. Y. GARCIA—Land 75 by 300 yards; bounded north by G. Gutierrez, south by M. Montoya, east by M. Chavez, west by same. Value personal property, \$65.00. Taxes, \$7.85; penalty, 39 cents; costs, 35 cents; total, \$8.59.

CORDOVA, ANTONIO—Land 100 by 100 yards; bounded north by J. Maldonado, south by P. Samora, east by A. Cardoza, west by river. Taxes, \$6.00; penalty, 28 cents; costs, 70 cents; total, \$6.98.

EAGLE, MARY E.—Land, 57 acres; bounded north by Lucero et al., south by L. S. Peres, east by railroad, west by Arroyo. Personal property, \$35.50. Taxes, \$16.43; penalty, 82 cents; costs, 35 cents; total, \$17.60.

GARCIA, FRANC.—Land 32 by 800 yards; bounded north by R. Cordova, south by M. Martinez, east by hills, west by A. Cardoza. Land 10 by 100 yards; bounded north by P. Pais, south by R. Cordova, east by hills, west by A. Cardoza. Personal property, \$60.00. Taxes, \$1.10; penalty, 6 cents; costs, 70 cents; total, \$1.86.

GONZALES, PEDRO—Land 75 by 500 yards; bounded north by M. Martinez, south by F. Martinez, east by M. Gonzales, west by same. Personal property, \$90.00. Taxes, \$2.01; penalty, 11 cents; costs, 35 cents; total, \$2.47.

GARCIA, FRANCISCO—Land 90 by 250 yards; bounded north by M. Martinez, south by M. D. Gonzales, east by M. Martinez, west by P. Gonzales. Value personal property, \$40.00. Taxes, \$1.83; penalty, 10 cents; costs, 35 cents; total, \$2.28.

MARTINEZ, DONACIANO—Land 30 by 100 yards; bounded north by M. Garcia, south by J. M. Lucero, east by public road, west by J. M. Lucero. Land 20 by 150 yards; bounded north by P. Martinez, south by T. Garcia, east by A. Cardoza, west by A. Cardoza. Value personal property, \$70.00. Taxes, \$2.28; penalty, 12 cents; costs, 35 cents; total, \$2.73.

MONTANO, JOSE Y CANDE-
LARIA—Land 82 by 300 yards; bounded north by P. Garcia, south by J. E. Garcia, east by C. Lucero, west by A. Sandoval. Value personal property, \$40.00. Taxes, \$7.37; penalty, 37 cents; costs, 35 cents; total, \$8.10.

PEREA, MANUEL—Land 20 by 200 yards; bounded north by R. Montoya, south by M. Trujillo, east by J. Montano, west by R. Montano. Land 20 by 300 yards; bounded north by J. Eagle, south by J. Gutierrez, east by J. Antonio, west by J. Trujillo. Personal property, \$70.00. Taxes, \$5.03; penalty, 40 cents; costs, 70 cents; total, \$5.13.

PEREA, MAX A.—Land 46 by 300 yards; bounded north by J. Pais, south by J. D. Lucero, east by J. D. Pais, west by A. Cardoza. Land 23 by 400 yards; bounded north by J. D. Pais, south by J. D. Lucero, east by railroad, west by owner. Land 100 by 100 yards; bounded north by V. Sias, south by same, east by railroad, west by C. Cardoza. Value personal property, \$130.00. Taxes, \$3.79; penalty, 19 cents; costs, 35 cents; total, \$4.23.

TAFOYA, TIVARCO—Land 25 by 75 yards; bounded north by J. Pais, south by J. M. Lucero, east by hills, west by C. Cardoza. Taxes, \$1.83; penalty, 9 cents; costs, 35 cents; total, \$2.27.

Precinct No. 4.

ALLEN, W. H.—Land 7 acres, bounded north by Yrisari, east by Fourth street, west by Joe Provinger. Taxes, \$5.48; penalty, 27 cents; costs, 35 cents; total, \$6.10.

BARELA, BULJILLO—Land 100 by 100 yards; bounded north by S. Barela, south by S. Barela, east by V. Guadalupe, west by public road. Land 54 by 540 yards; bounded north by Guillo, south by P. Armijo, east by road, west by N. Armijo. One house. Value of personal property, \$115. Last half taxes, \$5.95; penalty, 29 cents; costs, \$1.05; total, \$7.29.

BARELA, PONCIANO—Land 172 yards; bounded north by entrance, south by A. Hellweg, east by grant, west by A. Chamias. Value personal property, \$190. Taxes, \$9.89; penalty, 50 cents; costs, 70 cents; total, \$10.09.

BUSTAMANTE, FRANCISCO—Land 23 by 300 yards; bounded north by C. Garcia, south by M. Gonzales, east by road, west by A. Cardoza. Land 40 by 500 yards; bounded north by J. D. Lucero, south by J. Trujillo, east by A. Cardoza, west by J. M. Lucero. Last half taxes, \$4.56; penalty, 23 cents; costs, 70 cents; total, \$4.99.

CANDELA, QURINA DE GARCIA—Land 13 by 500 yards; bounded north by A. Montano, south by J. Montano, east by hills, west by lake. Value personal property, \$20.00. Taxes, \$5.29; penalty, 28 cents; costs, 35 cents; total, \$5.90.

CHAVEZ, MELQUIADROS—Land 7 acres. Land 10 by 1500 yards; bounded north by Cuerta, south by Cuchilla, east by Arroyo, west by Cuchilla. Taxes, \$6.21; penalty, 31 cents; costs, 70 cents; total, \$6.92.

CHAVEZ, SALVADOR MANUEL—Land 50 by 100 yards; bounded north by R. Candalaria, south by T. Gutierrez, east by D. Gutierrez, west by A. Cardoza. Land 50 by 200 yards; bounded north by M. Yrisari, south by R. Samora, east by public road, west by owner. Value personal property, \$95.

Taxes, \$2.56; penalty, 13 cents; costs, 70 cents; total, \$2.39.

GRIBGO, RAFAEL—Land bounded north by road, south by S. Griego, east by M. Coston, west by S. Mortagage Co. Taxes, \$13.09; penalty, 69 cents; costs, 35 cents; total, \$14.73.

GUTIERREZ, L. J. D.—Personal property, \$475. Taxes, \$21.70; penalty, \$1.99; costs, 35 cents; total, \$23.14.

LAWRENCE, L. G. DE—Land 93 by 105 feet; bounded north by J. Gutierrez, south by road, east by Fourth street, west by Sisters of Charity. Value personal property, \$185. Taxes, \$6.75; penalty, 34 cents; costs, 35 cents; total, \$7.44.

LUNA, EMILIO DE—Land 50 by 700 yards; bounded north by M. Gonzales, south by I. Romero, east by railroad, west by A. Cardoza. Land 18 by 150 yards; bounded north by M. Sena, south by M. Montoya, east by railroad, west by railroad. Land 9 by 500 yards; bounded north by M. Sena, south by J. Barela, east by P. Montoya, west by same. Value of personal property, \$130. Taxes, last half, \$1.00; penalty, 5 cents; costs, \$1.05; total, \$2.10.

LUNA, JOSE D.—Land 50 by 150 yards; bounded north by S. Garcia, south by T. Garcia, east by A. Sanchez, west by R. Sandoval. Land 22 by 250 yards; bounded north by S. Sanchez, south by C. Candalaria, east by A. Cardoza, west by A. Garcia. Land 6 yards; bounded north by M. Martin, south by J. Sanchez, east by J. Apodaca, west by A. Garcia. 30 by 600 yards; bounded north by M. Sena, south by R. Garcia, east by road, west by R. Garcia. Value personal, \$140. Taxes, \$2.04; penalty, 11 cents; costs, \$1.40; total, \$3.55.

LUNA, ANTONIO JOSE DE—Land 55 by 500 yards; bounded north road, south S. Sanchez, east ditch, west hills. Land 40 by 400 yards; bounded north by T. Garcia, south G. Candalaria, east hills, west G. Candalaria. Value personal, \$50. Taxes, \$14.05; penalty, 70 cents; costs, 70 cents; total, \$15.45.

LUCERO, FELIPE—Land 40 by 1,000 yards; bounded north by D. Romero, south road, east railroad, west S. Garcia. Value personal, \$90. Last half taxes, \$1.65; penalty, 9 cents; costs, 35 cents; total, \$2.09.

MARTINEZ, TRANCITO—Land 22 by 400 yards; bounded north by D. Esbain, south entrance, east ditch, west A. Perea. Land 27 by 90 yards; bounded north by J. C. Martinez, south F. Martinez, east J. M. Martinez, west F. Martinez. Value personal, \$30. Taxes, \$6.57; penalty, 33 cents; costs, 70 cents; total, \$7.60.

MONTANO, FILMENO—Land 75 by 1,000 yards; bounded north by M. Sanchez, south G. Candalaria, east A. Samora, west C. Candalaria. Value personal, \$90. Taxes, \$6.02; penalty, 30 cents; costs, 35 cents; total, \$6.67.

SANCHEZ-ISIDRO—Land 28 by 350 yards; bounded north by A. Garcia, south N. Sanchez, east J. Sanchez, west R. Sanchez. Land 28 by 250 yards; bounded north by C. Garcia, south J. Bustamante, west by road, east by ditch. Land 10 by 250 yards; bounded north by F. Garcia, south by R. Sandoval, east by railroad, west by F. Garcia. Land 28 by 100 yards; bounded north by J. Rodarte, south by same, east by ditch, west by same. Land 30 by 115 yards; bounded north by F. Garcia, south by Q. Espaulin, east by road, west by river. Value personal, \$30. Taxes, \$10.40; penalty, 52 cents; costs, \$1.75; total, \$12.67.

SANCHEZ, ANIBERS—Land 25 by 500 yards; bounded north by V. Sanchez, south by public road, east by M. Sanchez, west by same. Land 152 by 1,800 yards; bounded north by V. Gonzales, south public road, east by entrance, west by M. Gonzales. Land 84 by 180 yards; bounded north by R. Sandoval, south by C. Salazar, east by R. Carabajal, west by B. Romero. Land 70 by 300 yards; bounded north by G. Garcia, south by V. Salazar, east by R. Carabajal, west by D. Romero. Value personal, \$195. Taxes, \$18.43; penalty, 92 cents; costs, \$1.40; total, \$20.75.

PEREA, MANUEL—Land 20 by 200 yards; bounded north by R. Montoya, south by M. Trujillo, east by J. Montano, west by R. Montano. Land 20 by 300 yards; bounded north by J. Eagle, south by J. Gutierrez, east by J. Antonio, west by J. Trujillo. Personal property, \$70.00. Taxes, \$5.03; penalty, 40 cents; costs, 70 cents; total, \$5.13.

PEREA, MAX A.—Land 46 by 300 yards; bounded north by J. Pais, south by J. D. Lucero, east by J. D. Pais, west by A. Cardoza. Land 23 by 400 yards; bounded north by J. D. Pais, south by J. D. Lucero, east by railroad, west by owner. Land 100 by 100 yards; bounded north by V. Sias, south by same, east by railroad, west by C. Cardoza. Value personal property, \$130.00. Taxes, \$3.79; penalty, 19 cents; costs, 35 cents; total, \$4.23.

TAFOYA, TIVARCO—Land 25 by 75 yards; bounded north by J. Pais, south by J. M. Lucero, east by hills, west by C. Cardoza. Taxes, \$1.83; penalty, 9 cents; costs, 35 cents; total, \$2.27.

ALLEN, W. H.—Land 7 acres, bounded north by Yrisari, east by Fourth street, west by Joe Provinger. Taxes, \$5.48; penalty, 27 cents; costs, 35 cents; total, \$6.10.

BARELA, BULJILLO—Land 100 by 100 yards; bounded north by S. Barela, south by S. Barela, east by V. Guadalupe, west by public road. Land 54 by 540 yards; bounded north by Guillo, south by P. Armijo, east by road, west by N. Armijo. One house. Value of personal property, \$115. Last half taxes, \$5.95; penalty, 29 cents; costs, \$1.05; total, \$7.29.

BARELA, PONCIANO—Land 172 yards; bounded north by entrance, south by A. Hellweg, east by grant, west by A. Chamias. Value personal property, \$190. Taxes, \$9.89; penalty, 50 cents; costs, 70 cents; total, \$10.09.

BUSTAMANTE, FRANCISCO—Land 23 by 300 yards; bounded north by C. Garcia, south by M. Gonzales, east by road, west by A. Cardoza. Land 40 by 500 yards; bounded north by J. D. Lucero, south by J. Trujillo, east by A. Cardoza, west by J. M. Lucero. Last half taxes, \$4.56; penalty, 23 cents; costs, 70 cents; total, \$4.99.

CANDELA, QURINA DE GARCIA—Land 13 by 500 yards; bounded north by A. Montano, south by J. Montano, east by hills, west by lake. Value personal property, \$20.00. Taxes, \$5.29; penalty, 28 cents; costs, 35 cents; total, \$5.90.

CHAVEZ, MELQUIADROS—Land 7 acres. Land 10 by 1500 yards; bounded north by Cuerta, south by Cuchilla, east by Arroyo, west by Cuchilla. Taxes, \$6.21; penalty, 31 cents; costs, 70 cents; total, \$6.92.

CHAVEZ, SALVADOR MANUEL—Land 50 by 100 yards; bounded north by R. Candalaria, south by T. Gutierrez, east by D. Gutierrez, west by A. Cardoza. Land 50 by 200 yards; bounded north by M. Yrisari, south by R. Samora, east by public road, west by owner. Value personal property, \$95.

Taxes, \$2.56; penalty, 13 cents; costs, 70 cents; total, \$2.39.

GRIBGO, RAFAEL—Land bounded north by road, south by S. Griego, east by M. Coston, west by S. Mortagage Co. Taxes, \$13.09; penalty, 69 cents; costs, 35 cents; total, \$14.73.

GUTIERREZ, L. J. D.—Personal property, \$475. Taxes, \$21.70; penalty, \$1.99; costs, 35 cents; total, \$23.14.

LAWRENCE, L. G. DE—Land 93 by 105 feet; bounded north by J. Gutierrez, south by road, east by Fourth street, west by Sisters of Charity. Value personal property, \$185. Taxes, \$6.75; penalty, 34 cents; costs, 35 cents; total, \$7.44.

LUNA, EMILIO DE—Land 50 by 700 yards; bounded north by M. Gonzales, south by I. Romero, east by railroad, west by A. Cardoza. Land 18 by 150 yards; bounded north by M. Sena, south by M. Montoya, east by railroad, west by railroad. Land 9 by 500 yards; bounded north by M. Sena, south by J. Barela, east by P. Montoya, west by same. Value of personal property, \$130. Taxes, last half, \$1.00; penalty, 5 cents; costs, \$1.05; total, \$2.10.

LUNA, JOSE D.—Land 50 by 150 yards; bounded north by S. Garcia, south by T. Garcia, east by A. Sanchez, west by R. Sandoval. Land 22 by 250 yards; bounded north by S. Sanchez, south by C. Candalaria, east by A. Cardoza, west by A. Garcia. Land 6 yards; bounded north by M. Martin, south by J. Sanchez, east by J. Apodaca, west by A. Garcia. 30 by 600 yards; bounded north by M. Sena, south by R. Garcia, east by road, west by R. Garcia. Value personal, \$140. Taxes, \$2.04; penalty, 11 cents; costs, \$1.40; total, \$3.55.

LUNA, ANTONIO JOSE DE—Land 55 by 500 yards; bounded north road, south S. Sanchez, east ditch, west hills. Land 40 by 400 yards; bounded north by T. Garcia, south G. Candalaria, east hills, west G. Candalaria. Value personal, \$50. Taxes, \$14.05; penalty, 70 cents; costs, 70 cents; total, \$15.45.

LUCERO, FELIPE—Land 40 by 1,000 yards; bounded north by D. Romero, south road, east railroad, west S. Garcia. Value personal, \$90. Last half taxes, \$1.65; penalty, 9 cents; costs, 35 cents; total, \$2.09.

MARTINEZ, TRANCITO—Land 22 by 400 yards; bounded north by D. Esbain, south entrance, east ditch, west A. Perea. Land 27 by 90 yards; bounded north by J. C. Martinez, south F. Martinez, east J. M. Martinez, west F. Martinez. Value personal, \$30. Taxes, \$6.57; penalty, 33 cents; costs, 70 cents; total, \$7.60.

MONTANO, FILMENO—Land 75 by 1,000 yards; bounded north by M. Sanchez, south G. Candalaria, east A. Samora, west C. Candalaria. Value personal, \$90. Taxes, \$6.02; penalty, 30 cents; costs, 35 cents; total, \$6.67.

bounded north by J. Chavez, south by B. Padilla, east by road, west by same. Value personal, \$40. Taxes, \$1.46; penalty, 4 cents; costs, \$1.05; total, \$2.55.

CHAVEZ, M. & V.—Land 68 by 67 yards; bounded north by public road, south by road, east by same, west public road. Land 140 by 250 yards; bounded north by J. A. Chavez, south by M. Chavez, east by river, west by road. Land 170 by 300 yards; bounded north by J. F. Chavez, south by J. Padilla, east by road, west by same. Land 135 by 495 yards; bounded north by J. F. Chavez, south by J. M. Chavez, east by road, west by F. A. Hubbell. Value personal, \$20. Taxes, \$4.38; penalty, 22 cents; costs, \$1.40; total, \$6.00.

CHAVEZ, MRS. MARIANO—Land 150 by 175 yards; bounded north by J. A. Chavez, south by M. Chavez, east by river, west by road. Value personal, \$50. Taxes, 91 cents; penalty, 4 cents; costs, 35 cents; total, \$1.30.

CHAVEZ, JOSE M.—Land 100 by 100 yards; bounded north by road, south by C. Padilla, east by road, west by F. Chavez. Land 150 by 350 yards; bounded north by A. Padilla, south by road, east by M. Padilla, west by M. Padilla. Land 30 by 300 yards; bounded north by J. A. Chavez, south by M. Padilla, east by road, west by public land. Value personal, \$40. Taxes, \$1.73; penalty, 9 cents; costs, \$1.05; total, \$2.87.

CHAVEZ, ANTONIO JOSE—Land 100 by 125 yards; bounded north by road, south by R. Sanchez, east by A. Cardoza, west by road. Land 125 by 150 yards; bounded north by A. Padilla, south by road, east by A. Cardoza, west by road. Land 200 by 600 yards; bounded north by public land, south by J. M. Chavez, east by river, west by J. Turietta. Value personal, \$80. Taxes, \$2.01; penalty, 10 cents; costs, \$1.05; total, \$3.16.

CHAVEZ, JOSE Y APODACA—Land 200 by 250 yards; bounded north by J. A. Turietta, south by M. Chavez, east by river, west by Padilla. Land 125 by 220 yards; bounded north by A. Chavez, south by J. M. Chavez, east by river, west by J. Turietta. Land 50 by 150 yards; bounded north by J. Padilla, south by M. Chavez, east by B. Montoya, west by M. Chavez. Land 100 by 100 yards; bounded north by M. Chavez, south by B. Montoya, east by A. Cardoza, west by road. Land 100 by 100 yards; bounded north by A. Cardoza, south by public land, east by A. Cardoza, west by B. Padilla. Land 150 by 150 yards; bounded north by road, south by M. Chavez, east by river, west by A. Barela. Value personal, \$70. Taxes, \$1.02; penalty, 20 cents; costs, \$2.10; total, \$3.32.

CHAVEZ, DE PADILLA—Land 60 by 60 yards; bounded north by C. Turietta, south by N. Chavez, east by ditch, west by J. N. Chavez. Land 120 by 260 yards; bounded north by R. Padilla, south by Indians, east by N. Padilla, west by Indians. Land 20 by 200 yards; bounded north by road, south by R. Morago, east by F. Chavez, west by A. J. Chavez. Land 30 by 200 yards; bounded north by M. Pena, south by J. Mariano, east by old river, west by hills. Personal property, \$25. Taxes, \$3.76; penalty, 19 cents; costs, \$1.40; total, \$5.35.

TURRIETA, JOSE C.—Land, 30 by 50 yards; bounded north by C. Mariano, south by river, east by A. J. Turietta, west by B. Montoya. Value personal property, \$70. Taxes, \$1.55; penalty, 67 cents; costs, 35 cents; total, \$1.97.

GARCIA, FELIPE—Land 90 by 300 yards; bounded north by public land, south by same, east by J. M. Sandoval, west by public land. Land 25 by 100 yards; bounded north by public land, south by owner, east by road, west by L. Jaramillo. Value personal property, \$80. Taxes, \$8.94; penalty, 45 cents; costs, 70 cents; total, \$10.09.

GUTIERREZ, JUAN MORILLA—Improvement on government land. Taxes, \$9.13; penalty, 45 cents; costs, 35 cents; total, 10.93.

GRIBGO, NICOLAS—Land 40 by 150 yards; bounded north by C. Candalaria, south by J. Padilla, east by A. Martinez, south by J. Padilla, east by A. Martinez. Land 50 by 50 yards; bounded north by C. Padilla, south by A. Garcia, east by F. Padilla, west by A. Garcia. Land 44 by 44 yards; bounded north by road, south by R. Garcia, east by C. Garcia, west by R. Garcia. Value personal, \$90. Taxes, \$10.59; penalty, 52 cents; costs, \$1.05; total, \$12.16.

JARAMILLO, MANUEL—Land 50 by 100 yards; bounded north by J. C. Samora, south by public land, east by A. Cardoza, west by J. C. Samora. Value personal property, \$75. Taxes, 91 cents; penalty, 04 cents; costs, 35 cents; total, \$1.30.

NUANES, ROMAN—Land 100 by 125 yards; bounded north by public entrance, south by Nuanes entrance, east by A. Candalaria, west by Nuanes entrance. Land 50 by 500 yards; bounded north by A. Cardoza, south by A. Cardoza, east by A. Cardoza, west by A. Cardoza. Value personal property, \$85. Taxes, \$1.64; penalty, 08 cents; costs, 70 cents; total, \$2.42.

PEREA, ANDRES—Land 3 acres, bounded north by J. Olguin, south by R. Nuanes, east by A. Cardoza, west by B. Estero. Land 2 acres, bounded north by A. Hall, south by I. Beld Brothers, east by A. Cardoza, west by B. Estero. Land 50 by 500 yards; bounded north by A. Cardoza, south by A. Cardoza, east by A. Cardoza, west by A. Cardoza. Value personal property, \$85. Taxes, \$1.64; penalty, 08 cents; costs, 70 cents; total, \$2.42.

MORAGO, JOSE C.—Land 18 by 300 yards; bounded north by C. Apodaca, south by B. Morago, east by M. Apodaca, west by B. Montoya. Land 90 by 200 yards; bounded north by road, south by F. Sanchez, east by C. Sanchez, west by public road. Value personal, \$260. Taxes, \$9.53; penalty, 50 cents; costs, \$1.05; total, \$11.48.

PADILLA, LUIS—Land 300 by 300 yards; bounded north by road, south by A. Cardoza, east by road, west by P. Mariano. Land 30 by 120 yards; bounded north by T. Labato, south by R. Morago, east by P. Mariano, west by road. Land 200 by 60 yards; bounded north by B. Montoya, south by B. Montoya, east by road, west by B. Montoya. Land 195 yards; penalty, 10 cents; costs, \$1.05; total, \$3.10. (Last half taxes).

PADILLA, MANUEL—Land 35 by 200 yards; bounded north by M. Mariano, south by road, east by J. Sanchez, west by road. Land 60 by 300 yards; bounded north by B. Padilla, east by B. Chavez, west by road. Value personal, \$160. Taxes, \$5.84; penalty, 29 cents; costs, 70 cents; total, \$6.83.

PADILLA, ANASTACIO—Land 60 by 150 yards; bounded north by J. A. Padilla, south by V. Chavez, east by Grant, west by J. M. Padilla. Land 60 by 70 yards; bounded north by A. Cardoza, south by Padilla, west by V. Chavez. Land 200 yards; bounded north by road, east by same, west by river. Land 100 by 200 yards; bounded north by V. Chavez, south by J. M. Chavez, east by V. Padina, west by hills. Taxes, \$1.83; penalty, 10 cents; costs, \$1.40; total, \$2.33.

PADILLA, MARIANO—Land 70 by 150 yards; bounded north by J. M. Chavez, south by A. Chavez, east by road, west by A. Apodaca. Value personal, \$80. Taxes, 73 cents; penalty, 4 cents; costs, 35 cents; total, \$1.12.

PADILLA, SILVESTRE—Land 26 by 38 yards; bounded north by road, south by M. Chavez, east by road.

Value personal, \$530. Last half taxes, \$8.44; penalty, 42 cents; costs, 70 cents; total, \$9.56.

PADILLA, ANTONIO JOSE—Land 140 by 180 yards; bounded north by S. Sanchez, south by road, east by Padilla estate, west by road. Value personal, \$20. Taxes, 72 cents; penalty, 4 cents; costs, 35 cents; total, \$1.12.

PADILLA, JUAN A.—Land 80 by 200 yards; bounded north by Aranal, south by same, east by J. Montoya, west by same, east by J. Montoya. Value personal property, \$340. Taxes, \$8.03; penalty, 40 cents; costs, 70 cents; total, \$9.13.

SANCHEZ, RAFAEL—Land 80 by 100 yards; bounded north by C. Turietta, south by J. Chavez, east by A. Cardoza, west by J. L. Chavez. Land 100 by 100 yards; bounded north by B. Sanchez, south by P. Turietta, east by river, west by arroyo. Value personal property, \$135. Taxes, \$3.72; penalty, 18 cents; costs, 70 cents; total, \$4.60.

SANCHEZ, SILVERIO—Land 30 by 35 yards; bounded north by C. Morago, south by L. Sanchez, east by T. Montoya, west by M. Castorio. Land 34 by 100 yards; bounded north by J. M. Montoya, south by road, east by A. Cardoza, west by road. Value personal property, \$55. Taxes, 55 cents; penalty, 63 cents; costs, 70 cents; total, \$1.28.

SANCHEZ, JUAN Y PENA—Land 50 by 200 yards; bounded north L. Padilla, south by J. Montoya, east by B. Montoya, west by J. Montoya. Land 50 by 100 yards; bounded north by J. Montoya, south by J. Mariano, east by hills, west by hills. Personal property, \$25. Taxes, \$3.76; penalty, 19 cents; costs, \$1.40; total, \$5.35.

TURRIETA, JOSE C.—Land, 30 by 50 yards; bounded north by C. Mariano, south by river, east by A. J. Turietta, west by B. Montoya. Value personal property, \$70. Taxes, \$1.55; penalty, 67 cents; costs, 35 cents; total, \$1.97.

GARCIA, FELIPE—Land 90 by 300 yards; bounded north by public land, south by same, east by J. M. Sandoval, west by public land. Land 25 by 100 yards; bounded north by public land, south by owner, east by road, west by L. Jaramillo. Value personal property, \$80. Taxes, \$8.94; penalty, 45 cents; costs, 70 cents; total, \$10.09.

GUTIERREZ, JUAN MORILLA—Improvement on government land. Taxes, \$9.13; penalty, 45 cents; costs, 35 cents; total, 10.93.

GRIBGO, NICOLAS—Land 40 by 150 yards; bounded north by C. Candalaria, south by J. Padilla, east by A. Martinez, south by J. Padilla, east by A. Martinez. Land 50 by 50 yards; bounded north by C. Padilla, south by A. Garcia, east by F. Padilla, west by A. Garcia. Land 44 by 44 yards; bounded north by road, south by R. Garcia, east by C. Garcia, west by R. Garcia. Value personal, \$90. Taxes, \$10.59; penalty, 52 cents; costs, \$1.05; total, \$12.16.

JARAMILLO, MANUEL—Land 50 by 100 yards; bounded north by J. C. Samora, south by public land, east by A. Cardoza, west by J. C. Samora. Value personal property, \$75. Taxes,

Railroad Topics

J. D. Connor, time keeper for Division Master Mechanic Drury at Winslow, has gone to San Francisco. He will rest up there before returning to his duties.

H. F. Kidder is acting agent at Winslow during the absence of Agent Gillelte on his vacation. Mr. Kidder makes a good agent and is very accommodating.

E. J. Null, stenographer for Superintendent John Denair, has commenced suit for divorce against his wife in the superior court at Needles, alleging desertion.

Industrial commissioner of the Santa Fe, Wesley Merritt, accompanied by his wife and brother, passed through this city last night for the Grand Canyon. They are en route to California, where they will enjoy a rest of a few weeks.

General Agent Cox of the Rock Island has just been notified that his road has been chosen as the official route for the southwest to the meeting of the National Mail Carriers' association, which convenes in Syracuse August 21 to September 5.

George L. Fetter, at one time section foreman at Danby and Fennar, is now wanted for obtaining money under false pretense at Los Angeles. He had the habit of issuing checks payable to himself in payment of the purchase of goods and keeping the change.

The Needles Eye says: F. C. Ripley, son of President E. P. Ripley, insurance inspector for the Santa Fe, was in the city Friday. The fire department was called out and made good runs, which Mr. Ripley complimented very highly, presenting them with a sufficiency of watermelons in the evening.

Superintendent G. F. Hawkes of the Galveston & Houston announced the appointment of J. C. Alberts as yard master of the Galveston & Houston yards, vice Fred C. T. Tegtmeyer, resigned. He has assumed his duties. James Rivers has been appointed night yard master to succeed Charles Bohler, resigned, says the El Paso News.

Chief Engineer A. G. Kennedy and Land Agent W. P. Clark of the Santa Fe Central railway left at 9:30 yesterday forenoon on a construction train for Torrance. Mr. Kennedy will look after construction and engineering work on the line while Mr. Clark will attend to the sale of lots at Estancia, there being several intending purchasers there awaiting his arrival. Mr. Kennedy and Mr. Clark will be absent until about the latter part of the week.

B. W. Robbins, general freight and passenger agent of the Santa Fe Central railway, left last evening for Chicago, to consult with the general freight agent of the Rock Island system and other railroad officials as to traffic arrangements for his road. Before returning he will visit Kansas City and Denver for similar purposes and hopes to arrange all necessary matters in that direction and for active freight and passenger traffic before returning home. He will be absent about two weeks.

The Winslow Mail says: Word was received here last Friday of a washout on the railroad between Grand Canyon and Flagstaff. A large number of excursionists were on their way to the canyon and were stopped about twelve miles from their destination by the road being out of condition from a cloudburst. The Santa Fe, with its usual promptness, dispatched a wrecking train to the scene; things were soon put in good shape and the excursionists proceeded on their journey. Much praise was given the company for the thoughtfulness displayed in sending out lunches to the passengers. Those from Winslow who went out to the canyon on that day were Mr. and Mrs. C. B. Watts, accompanied by Miss Beale Keiser and Miss Georgia McIntyre of Arkansas City, Kas.

SANTA FE STARTED IT.

Lowe Special May Be Responsible for General Speed Increase.

Speed increase from Chicago to the Pacific coast is to be the source of principal interest in railroad circles during the next few months. It is announced that the improvements on the Union Pacific and Southern Pacific have progressed far enough to make it certain that the Harriman road will make material reduction in the schedules of the fast passenger trains from Omaha west before the coming of winter.

Millions of dollars have been spent on reducing grades, straightening curves and double tracking the Union Pacific and the line west of Ogden. While the work that is contemplated has not been all done, it is declared to be so far advanced that some of the benefits are to be realized.

While there has been no announcement of the schedules which will be made for the fast passenger trains, it is certain that the condition of the road bed is such that several hours can be safely cut from the present running time.

It is said that the recent demonstration by the Santa Fe that a faster schedule could be easily maintained between Chicago and the coast has had considerable to do with the decision on the part of the Harriman lines to quicken their time. The track arrangements of the Harrimans with lines east have been extended until there are many interested in having

the benefit of the Pacific road's improvements.

The Santa Fe's run was possible because that line had been improved during late years just as other competing lines have been improved by a betterment of the tracks. Heavier rails, straighter tracks and reduced grades account for the great part of the difference in the time made by the Santa Fe special the other day and the speed possible ten years ago.

As the eastern lines have utilized their improved condition, in which the increased efficiency of the motive power has been a factor, so the lines west of the Missouri are now preparing to do the same thing.

It was said that a few months would see regular schedules in effect which would lessen the time between the oceans through the Chicago gate way by several hours.

GETTING IN SHAPE.

Work of Surfacing the Santa Fe Central Road Bed Progressing Rapidly.

Work of surfacing and improving the road bed of the Santa Fe Central railway preparatory to the commencement of daily train service on Thursday is being pushed energetically under the direction of Chief Engineer A. G. Kennedy. The track is getting into first class shape and on quite a number of miles of it forty miles per hour with a loaded train can be made and on the tangents of which there are two or three of considerable length on the road, a higher speed could be easily be obtained.

New town sites on the Santa Fe Central railway have been laid out at Moriarty, at Estancia and Torrance. These contain about two hundred acres each and have been surveyed and platted. Town lots are already offered for sale and are finding ready buyers.

Plans for a new union depot to be used jointly by the Santa Fe Central railway and the El Paso & Rock Island railroad at Torrance are completed and work on the depot will be commenced at once. It is to be a handsome two-story affair with commodious offices, waiting rooms, restaurant and other accommodations for passengers.

New Rules for Examination of Firemen.

Master Mechanic Strutters of the El Paso and Southwestern has just adopted a new departure in the method of examining firemen for the position of engineers that is meeting with favor among firemen. Heretofore it has been the practice among railway master mechanics to keep the questions that they ask the applicant for promotion to engineer, a secret until the time of the examination, but Mr. Strutters has changed this method by issuing to the firemen a bulletin containing about two hundred and fifty questions on the mechanism and operation of a locomotive which they will be required to answer to pass the examination. In addition to this long list of questions they will also be required to answer the regular questions on train rules, before the superintendent.

WHAT BECAME OF MILLER?

Boilermaker's Mysterious Disappearance at Needles Railroad Shops.

About three months ago there was in the employ of the railroad as boilermaker one C. F. Miller and his sudden and unaccounted for disappearance has been a subject of much comment and conjecture among his fellow workmen and acquaintances, says the Needles Eye.

Today your correspondent received a letter from Hudson's wife, inquiring as to his whereabouts or any information pertaining to him. On inquiry the last that was seen of Boilermaker Miller was some time the latter part of March, when he entered a boiler through the dome of the engine to fix or regulate something in that region of the engine. His clothes were found near the place where he was at work, but Miller was never seen again. Work on boilers is sometimes done under extreme heat. Did Miller perish in the boiler? is a question that has often been discussed by his fellow workmen—he might have been overcome by the intense heat unnoticed by his companions. Some one might have replaced the dome cap—fired up—and Miller's body in a short time would have been a part of the elements. But if not, what became of Miller? He did not draw his pay nor does any one know what became of him. Again we ask, can any one tell us of Miller or his whereabouts?

SUIT ON INSURANCE POLICY.

Mrs. Emma J. Dickinson Wants the Locomotive Firemen to Pay for Her Husband's Death.

Mrs. Emma J. Dickinson filed suit against the grand lodge of the Brotherhood of Locomotive Firemen for \$1,500. E. P. Dickinson is also made a party to the suit, says the El Paso Herald.

In her petition she alleges that she was legally married to F. C. Dickinson and was his wife on October 2, 1892, when he died, and that his life was insured by the defendant order, and that up to the time of his death he complied with all the laws and regulations of the order, and alleges that the amount of his policy is unpaid and she sues for the full amount, \$1,500 and interest from the date of

her husband's death on October 2, 1892.

In her petition she alleges that F. E. Dickinson has possession of said insurance contract and is making some claim of interest therein, and she alleges that he has no right to the possession of the contract and asks that he be compelled to file the same with this suit and set up claim to whatever benefit he may have under the contract.

BASEBALL GAME.

Fort Bayard Downs the Central Team at That Place on Wednesday.

The Fort Bayard baseball team added another to its many victories of the present season by taking a game from the Central boys at that place Wednesday afternoon, the score being 14 to 6. The Fort club won by superior playing. The members of the team appreciate the fact that to be successful in baseball, as in anything else, requires work and practice and they do accordingly. Central has good talent, but like Silver City, Pinos Altos and other clubs about the country, the boys are not so situated that they can devote the time to perfect themselves, and the result is that Fort Bayard has established its claim to the championship of the county.—Silver City Independent.

Give Up the Search.

A letter received from L. D. Boucher by J. Aubineau on Wednesday says that the writer had returned to Bright Angel from Long Creek, and that he had made as careful a search as possible of the banks of the Colorado river from the place where P. H. McGonigle and Charles McLean attempted to cross the river to Long Creek, a distance of twenty-five miles, and that he had not found any signs of either of the bodies of the unfortunate men nor of the boat. It is now positively certain that the men lost their lives in the swirling rapids of the turbulent river. There is still a possibility that the bodies may be found when the river is at a lower stage.—Flagstaff Sun.

EL PASO AND DENVER.

The Santa Fe Central Plans Outings for the Business Men of This City.

The Santa Fe Central is planning a complimentary excursion to El Paso which will be given the businessmen of Santa Fe, says the New Mexican. The event has been scheduled for the early part of next month and the excursion promises to be one of more than ordinary importance to the interests of this city and of El Paso. The details of the plan have not as yet been completed but will be shortly. The trip will be made from here to Torrance over the new road of the Santa Fe Central and from there the train will be run over the El Paso & Northeastern tracks into the Pass City. General Manager Hopewell is now considering everything necessary for the trip. It is also the intention of the company to run an excursion into Denver for the businessmen of Santa Fe and El Paso. The date of this has not as yet been definitely decided upon but the matter is now being taken up by the Santa Fe Central and the Rio Grande systems. It is the intention to have the businessmen of this city and El Paso get together and arrange plans for the visit to the Colorado capital. The local board of trade, it is expected, will take up the matter with the El Paso people and satisfactory arrangements will then be made by the parties concerned.

A first regularly scheduled train over the Santa Fe Central will be run between Torrance and this city tomorrow. The train will leave Torrance at 5 o'clock tomorrow morning and will reach this city at noon. The engineer of the train will be Edward S. Sower, and the conductor, L. M. Whiteman. The train will probably be a mixed train. The equipment which has been ordered by the Santa Fe Central is being delivered at Torrance and there remain seven tank cars and two combination cars to come.

The arrangements of the Santa Fe Central and the Rio Grande for the transfer of traffic in this city are rapidly being made more convenient. It is expected by the management to have completed the facilities for the running of the Rio Grande trains over to the depot which the two roads will use jointly by the early part of the coming week. The roads will use this terminal until the proposed union depot is built.

The Santa Fe Central is returning the flat cars of the Rio Grande, Sierra Madre & Pacific which have been used in the construction work on the new road. The company is now engaged in putting the track and the roadbed into the best of shape.

The El Paso order of Railway Clerks of America has grown to about one hundred members and is in good condition. The clerks now have up the advisability of running an excursion in the near future to Las Cruces or some other nearby resort. They believe that they can make some money out of such an excursion and besides show their friends a jolly good time.

BURLINGTON TO SPEND MONEY.

This Year's Surplus Will Be Used for Improvements to the Road.

It is now stated authoritatively that the Burlingtons surplus for the fiscal year ended June 30, will be between \$5,000,000 and \$7,000,000 after full payment of the interest on the 4 per cent bonds exchanged for the stock of the old company, which is equivalent

Just a little too far and the woman who reaches over the cliff for the coveted flower goes crashing down into the abyss below. Just a little too far and the woman, who, day by day, neglects to cure the womanly diseases which weaken her is prostrated upon a bed of sickness. No woman should trifle with the diseases peculiar to her sex. Neglect to-day means a worse condition to-morrow.

Dr. Pierce's Favorite Prescription is a safe and reliable remedy for the cure of diseases peculiarly womanly. It establishes regularity, dries encrusting drains, heals inflammation and ulceration and cures female weakness.

"My wife, Mrs. Mary Kates, has been taking your medicine and received great benefit from it," writes Mr. Geo. W. Hates, of Spring Grove, Va. "Was troubled with female weakness, heavy, bearing-down pains, severe pain in back and head, and a tired, worn-out feeling all the time. Tried all the remedies we could hear of but they did no good. Finally we wrote to you and my wife commenced taking 'Favorite Prescription.' Took ten bottles and is in better health than before in a long time. We shall always recommend Dr. Pierce's Favorite Prescription to all who are thus afflicted."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

The Common Sense Medical Adviser, 1008 16 page paper, in paper covers, is sent free on receipt of twenty-one one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

lent to 8 per cent on the old stock, says a dispatch from Chicago. This surplus, however, will not be divided among the holders of Northern Securities stock. The bulk of it has been or will be put back into the road in effecting permanent improvements and in the acquisition of new feeders. Grade reductions, double tracking, the elimination of curves and other improvements which will have the effect of bringing about a material and permanent reduction in the cost of operation have been going on at a rate truly characteristic of the Hill management. In the last two years very large additions to equipment have also been made, all of which go to increase the earning capacity of the road. All of the year's surplus and several millions additional have been spent in this way, so that the holders of Northern Securities will have to wait for the cash returns from their investment. They are sure to come in the end and when they do they will be all the larger for the patience exercised at the beginning in relation to them.

A general reduction in speed of all trains entering Chicago on tracks which are not yet elevated was the recommendation made by a coroner's jury Saturday. The jury also censured the Chicago, Burlington & Quincy Railroad company in connection with the death three weeks ago of Albert Skibbe, Mrs. Elvina Skibbe and Dorothy Skibbe, 9 years old. The cause resulted from evidence given to the effect that the train which killed Skibbe, his wife and daughter was moving at a high rate of speed, some of the witnesses declaring that it was running at a rate of thirty miles an hour.

SHORT NAMES FOR RAILROADS.

Railway Age Takes Exception to Lengthy Titles.

Another "Big Four" railway title is to tax the memory now that the Rock Island company has grouped about 2,100 miles of its newly acquired north and south lines into the "Chicago, St. Louis, Memphis & New Orleans railway," says the Railway Age. In respect to ponderosity this title compares favorably with Cleveland, Cincinnati, Chicago & St. Louis and Pittsburgh, Cincinnati, Chicago & St. Louis, while it slightly outdoes, in number of letters, Chicago, St. Paul, Minneapolis & Omaha. The tendency in late years in railway system building has been to substitute short names for long ones—the bigger the new system, the shorter the title—generally, as witness Burlington route, Southern Pacific, Santa Fe, Southern, Rock Island and so on. For the sake of writers, printers and wayfaring people in general, it was hoped that no more four-barreled railway names would be put forth, and yet here comes the C. St. L. M. & N. O. to join the C. St. P., M. & O., the C. C., C. & St. L. and the P., C. C. & St. L. in straining the memory and confusing the mind. It behooves the passenger department of this new polysyllabic company to make haste and invent a trade-name that will differentiate it from the others and so spare the public much needless mental effort.

The eleventh annual convention of the National Railroad Blacksmiths' association opened at Buffalo, N. Y., yesterday and will last four days. Every state in the union is represented in the convention, and the time will be devoted largely to discussing methods of improving the efficiency of work in the blacksmith's branch of railroad service.

If the Territorial Fair association, through their representatives, who are vast now, succeed in prevailing upon Congressman Hearst and his statehood committee to put in a week at Albuquerque during the fair, we believe that they will leave the terri-

tory fully convinced that there is intelligence, enterprise, character, business wealth and ability in the people who compose the population of the territory, sufficient to entitle them to statehood.—Gallup Republican.

SANTA FE CENTRAL.

First Train Arrived at Santa Fe Yesterday Morning.

The first through train on the Santa Fe Central railway arrived promptly on time at 9:30 o'clock this forenoon, says the New Mexican, August 26. It consisted of engine No. 6, W. E. Sowers, engineer, and Booker, fireman, caboose No. 50 and combination car No. 1. The train was in charge of J. M. Whiteman, conductor, and Mellicee and Robb, brakemen. There were twenty passengers on the train. Quite a lot of Wells-Fargo express matter was brought in by the train. The trip was made on schedule time in five and a half hours and the roadbed is reported as in very good condition.

There was quite a crowd at the station to welcome the first train over the new road and a hearty cheer was given when the train pulled into the station. The train will be run back to Torrance this evening as No. 2, leaving this city at 8 o'clock.

Short Notes.

Jay Turley, United States deputy surveyor, arrived from Torrance this morning on the first train of the Santa Fe Central railway.

S. O. Fletcher, tie inspector for the Santa Fe Central railway, was among those who arrived on the train from Torrance this morning.

Dr. John P. Norris, one of the surgeons of the Santa Fe Central railway, arrived this morning, coming in on the first Santa Fe Central train from Torrance.

Mrs. J. J. Keyes, wife of Assistant Superintendent Keyes of the Santa Fe Central, was a passenger on this morning's train from Torrance. Mr. and Mrs. Keyes will take up their residence in this city.

A. G. Kennedy, chief engineer of the Santa Fe Central railway, came in this morning and enjoyed the ride from Torrance to this city over the road greatly, as he was the engineer who located the line and now finds it to meet all expectations.

Frank Duert, assistant treasurer of the Santa Fe Central, and C. G. Kaadt, official photographer of the road, returned last evening from a visit along the line, during which they spent several days securing fine panoramic views of the scenery and landscapes in the vicinity of the road. They had a rather hard trip, but found it enjoyable and interesting nevertheless.

R. B. Meyers of Albuquerque is in the city. Mr. Meyers is the news agent of the Santa Fe Central and is looking after the business along the line of the new road. Mr. Meyers will make this city his headquarters for the present and will develop the territory along the new line.

SANTA FE OPENS FOR TRAFFIC.

New Connection Will Also Give El Paso Entrance into Rich Portion of New Mexico.

Today marks the opening of a new line of railway from El Paso to Denver and the northwest, the Santa Fe Central, says the El Paso Herald. The new route is via the El Paso & Northeastern to Torrance, thence by way of the Santa Fe Central to Santa Fe and over the Denver & Rio Grande to Denver. The opening of the Santa Fe Central means a great deal to rich central and eastern New Mexico. The value of this route can hardly be estimated at the present time, because so little traffic has yet been developed that no one can tell what it will amount to. But the closer connection with El Paso will of itself be an important gain, since it will mean competition with the Atchison, Topeka & Santa Fe for all business between El Paso and Denver and points in Colorado.

El Paso has never enjoyed as close traffic relations with the interior of New Mexico as it will now have. That part of the southwest has been looked upon more or less with indifference by persons who might have effected a change, but no chance for El Paso business men is now too good to pass by.

NO SANTA FE TRAFFIC PLAN.

President Ripley Denies a Rumor About the Rock Island.

Regarding an alleged traffic alliance between the Santa Fe and Rock Island system, President E. P. Ripley of the former road, said that he had been misquoted on that subject in the newspapers, says a dispatch from Chicago. He declared positively that there is no alliance between the two roads. When asked if there was likely to be one in the near future, he simply shrugged his shoulders suggestively and said nothing.

Here is President Ripley's statement verbatim: "There is no arrangement or traffic alliance between the Rock Island and Santa Fe more than exists between other large systems that meet at dozens of junction points and exchange business with each other. The Santa Fe is building a line east from the Rio Grande country to the Texas Panhandle country which will intersect the El Paso line of the Rock Island and there has been some discussion of a possible interchange of the business at the junction of these two roads, but nothing definite has been arrived at. It will be probably a year before the Santa Fe's new line reaches the Rock Island."

PRINTING

There are different kinds, to be sure. Moreover the quality of stock on which it is done must be considered if you would create a good impression of yourself amongst your customers. You might think it would not make any difference, but if public opinion on that point was weighed you would find that it is quite a factor in drawing trade. Don't be behind the times. If you want to keep pace with civilization, you must follow customs which is naturally the greed of every man, now-a-days, who has genuine pride. The art of printing is something that few people can acquire. They may print, but the art is not present. Again, the art may be there, but the stock on which the printing is done is of the poorest quality, which entirely obliterates the art that would otherwise be apparent. Then again, the quality of ink and nicety and distinctness of color used are something that counts in bringing out beauty of art into display. The CITIZEN printing department carries nothing but the best quality of stationery, such as letter heads, note heads, bill heads, etc., as well as the finest of ink, and turns out daily evidence of the finest workmanship in the city. If you want cheap, tacky-looking prints, go to the places where you can obtain it; but if you want first-class printing, send it to The CITIZEN printing department, or telephone to us and we will call and get your order.

RULING

requires an exactness that is much admired when accomplished. If your blank books are ruled properly they will always look neat, if in the hands of a first-class book-keeper. If they are not ruled with exactness they will never look neat, even though handled by an artist in book-keeping. To be exact requires skill and patience, which is acquired by long experience and perseverance. When a person possesses it his services are in demand in any first-class bindery. The CITIZEN has a first-class bindery and therefore employs the best skill.

Bill heads, letter heads, note heads, vouchers, invoices and blanks of every description are ruled with the same skill and neatness as the finest blank book that was ever turned out. If you want such work telephone to The CITIZEN.

BINDING

is everlasting when properly done. Every business man would like to preserve his books, but he cannot do it when they are in a dozen pieces after he uses them up. He does not want them to break, neither does he want them to be tight in the fold, if so, they cause him great inconvenience. There is much in the way a book is sewed. If it is not sewed properly the breaking of a single thread will occasion an entire section of twenty pages to come out, necessitating the rebinding of the book, causing loss of time and inconvenience. If you want a good blank book you should get one with a patent flat-opening back, thereby enabling you to utilize all the space in the fold, that you would otherwise not be able to do. Then the quality of paper used is just as essential in turning out a fine book as is the workmanship. The CITIZEN carries a full stock of the finest ledger paper manufactured. When you want any kind of a fine blank book telephone to The CITIZEN and our representative will call.

Advertising

The word itself is exhilarating to a man that has a high ambition, whether socially, financially or otherwise. It is the same with a business man. He has to obtain advertising in some way before he will be successful. There are different degrees of success. The more advertising you get the greater amount of business you transact, a fact that non-advertisers admit themselves. "All things do not come unto man." He has to go after them. If he wants advertising he pays for it just the same as any commodity. You may say some men obtain advertising for nothing, but the don't. They pay for it in an indirect, if not a direct way. Thus every man pays for his share. The world owes a man a living, but he has to earn it, and if a man wants advertising he must pay for it. It is better to pay in a direct way and obtain more results than to pay in an indirect way and obtain fewer results. The direct way for a business man to advertise is to talk to the people through an advertising medium that has a place by the fireside of every home within his field for business. The CITIZEN has that place and will always have it.

If the ability of its readers to buy articles of luxury as well as articles of necessity is questioned, then forever will The CITIZEN defend them. Regarding the comparative value of morning and evening papers, it is a fact that a morning paper is before its readers but for an hour or so, while an evening paper is before the public from 5 o'clock until bedtime, and is read by men who labor all day and who have not time to read the morning papers. Therefore the superior value of an evening paper over the morning paper as an advertising medium is quite evident.

The CITIZEN is a home paper. Why? Because the residence portion of the city being not more than ten minutes' walk from the business center, the business man has ample time to read the evening paper before going to lodge or to the club, and he does so. When he has finished reading his paper it is left at home and thoroughly read by the other members of his family.

The ladies of Albuquerque read The CITIZEN, and as it contains all the news, both foreign and local, why should it not command the circulation that it does? If you want results advertise in the

The Daily Citizen

SAFFORD AT WORK.

He Makes Official Examination of Montezuma Trust Company.

IT IS IN EXCELLENT CONDITION.

Traveling Auditor and Bank Examiner Charles V. Safford has just made an official examination in his capacity as bank examiner of the affairs of the Montezuma Trust company of this city, completing the examination late yesterday afternoon. The office of bank examiner was only recently created and the duties of this official are not fully understood by the public. With a view of obtaining information as to the duties of the bank examiner, the nature of the examination made and the condition of the institution examined, The Citizen representative sought an interview with Mr. Safford.

"Yes," Mr. Safford stated in his usual distinct manner, "I have now reached the point where I can devote some attention to the examination of the financial institutions of the territory coming under my jurisdiction, though my other work is only well started. I have just closed a full and complete examination of the affairs of the Montezuma Trust company of this city. This company is incorporated under the law commonly known as the Albright Trust company law, its legal title being 'An act relating to trust companies, passed by the last legislature. This law was probably the most thoroughly considered measure before the session, and its provisions show an intricate knowledge of financial institutions of the kind authorized and a commendable disposition on the part of its advocates to place around these institutions every safeguard, as well as to facilitate the examination and supervision of its affairs by the territorial officer to whom this duty is entrusted. The provision of the law prescribing my duties in making the examination just made of the affairs of the Montezuma Trust company is found in Section 12. This provision was taken from and is an exact copy of the national banking law, and my duties and powers in examining trust companies are the same as the duties and powers of national bank examiners in examining national banks."

The section referred to by Mr. Safford is as follows:

Sec. 12.—The auditor of the territory shall between the first day of January and the last day of June of each year and between the first day of July and the last day of December of each year, and at such other times as he may deem it necessary in order to a full and complete knowledge of its condition, make a thorough examination into all the affairs of every such corporation, and in doing so to examine any of the officers or agents thereof, under oath. The auditor may appoint a suitable person to make such examinations for him and such examiner shall have the same powers in making such examinations as is given by law to the auditor, and he shall make a full and detailed report of the condition of every such corporation examined to the auditor. Before entering into the discharge of his duties such examiner shall make, subscribe to and file in the office of the auditor, an oath to faithfully discharge the duties of his office as such examiner, and shall execute a bond to the territory in such sum as the auditor may require, with sufficient surety or sureties conditioned for the faithful discharge of the duties of his office. Such bond shall be approved by the auditor and filed in his office. If any such corporation shall refuse to submit to an examination required by this section it shall be subject to a penalty of one thousand dollars for such refusal and the auditor of the territory may take charge of such corporation, close its doors, make a thorough examination of its affairs and take such proceedings as the nature of the case may require. If any officer or director thereof shall refuse to be examined under oath touching the affairs of such corporation, such officer or director shall be subject to a penalty not to exceed five hundred dollars for such refusal and the auditor of the territory may in addition remove such officer or director. The penalties herein provided may be collected by suit before any court of record of the territory.

"As to the nature of the examinations, they will be full and complete in every particular. The examination just closed of the Trust company here was of this nature. Every item was traced with a view of ascertaining whether it was a proper entry and in every instance was found to be so, and the balances appearing were verified. Then I took from the general ledger a detailed statement showing the resources and liabilities of the company. Taking up the resources first, I carefully examined, footed and verified the total. Then I similarly examined, footed and verified the liabilities. I also examined the by-laws of the company, its general contracts and its method of conducting its business, with a view of ascertaining whether it is following the law and conducting its business in a safe and secure manner. I found the affairs of the company in excellent condition and its business conservatively and safely, as well as profitably, conducted. The securities held are of a uniform high class and evidence careful investigation and consideration on the part of the directors.

"Trust companies are also required

to make at least four reports during each year, as required by Section 11 of the act before referred to, exhibiting in detail and under appropriate heads, the resources and liabilities of the corporation at the close of business on any past day which may be specified. These reports must be properly verified and published and a copy filed in my office. The form adopted is practically the same as used by the comptroller for national banks. These reports will be regularly called for and required."

[The section is as follows: Sec. 11.—Every such corporation shall make to the auditor of the territory not less than four reports during each year, according to the form which may be prescribed by him, verified by the oath or affirmation of the president or secretary of such corporation, and attested by the signature of at least three directors. Each such report shall exhibit, in detail, and under appropriate heads, the resources and liabilities of the corporation at the close of business, on any past day as him specified, and shall be transmitted to the auditor within fifteen days after the receipt of a request or requisition therefor from him, and in the same form in which it is made to the auditor shall be published in a newspaper published in the place where such corporation is located, or where its principal place of business is located, or if there is no newspaper in the place, then in one published nearest thereto in the same county, and proof of publication shall be furnished as may be required by the auditor. The auditor shall also have power to call for special reports from any particular corporation, whenever in his judgment the same are necessary in order to a full and complete knowledge of its condition. Every such corporation which fails to make, transmit or publish any report required under this section, shall be subject to a penalty of fifty dollars for each day after the period herein mentioned, that it delays to make, transmit or publish such report, and if such failure shall continue for a period of thirty days the auditor of the territory may take charge of such corporation, close its doors, make a thorough examination of its affairs, and take such proceedings as the nature of the case may require.]

"Another wise provision of this law is found in Section 14. This section is taken word for word from the national banking law. In fact the whole plan of supervision and examination is taken from the national banking act, my office occupying the same position as to trust companies as to national banks, and clothed with the same powers as to examination and supervision."

[The section last referred to is as follows: Sec. 14.—Every president, director, secretary, clerk or agent of any such corporation, who embezzles, obstructs or willfully misapplies any of the moneys, funds or credits of the corporation, or who, without authority, issues or puts forth any certificate of deposit, draws any order or bill of exchange, mortgage, judgment, or decree, or who makes any false entry in any book, report, or statement of the corporation, with intent, in either case, to injure or defraud the corporation or any other company, body politic or corporate, or any individual person, or to deceive any officer of the corporation, or any agent appointed to examine the affairs of any such corporation; and every person who with like intent aids or abets any officer, clerk or agent in any violation of this section, shall be deemed guilty of a misdemeanor, and shall be imprisoned not less than five nor more than ten years.]

THICK AS FLIES.

Railroad Surveyors Are Very Numerous in the West.

The following from San Bernardino illustrates the enormous amount of railroad construction that is going on in the west:

"You can't throw a stone on the desert without hitting a railroad surveyor," says Henry Blakeman, who has just returned from Ivanpah. He states that there are numerous railroad men running lines across the desert, and some of them are now making permanent surveys for branch roads to the various mining camps which are situated off the main lines of the big transcontinental roads.

WILL ECONOMIZE.

Very Little Improvements to be Done On the Coast Lines.

How many proposed coast line improvements are laid on the table and for how long? says a dispatch from San Bernardino, Cal., dated August 19.

That is the question which is bothering the officials on this end of the Santa Fe system, for that something of the sort is in the wind there is no doubt. Third Vice President Kendrick is expected to arrive here in a few days accompanied by General Manager Wells, who has gone to Albuquerque to meet him. It is understood that economy has been sounded along the line and Mr. Kendrick is coming to California for the purpose of inspecting the company's coast lines in order to advise President Ripley where proposed improvements may be deferred. The new store house for this city, plans of which were completed some time ago, has already been placed on the shelf and when it will be built is a question hard to solve.

It is expected that Mr. Kendrick's visit will do away with many of the

For Drunkenness, Opium, Morphine and other Drug Using the Keeley Cure THE KEELEY INSTITUTE, Dwight, Ill.

proposed new bridges on the Southern California division. These are the times that make men swear, that is the men in charge of the company's affairs. "It's a case of doing the best you can on nothing," said an official the other day, and holding office under such conditions is not the most pleasant work in the world.

The extensive losses sustained by the Santa Fe in the Kansas floods are responsible for the intended cut in expenses.

PATRIOTIC ADDRESS.

In his farewell address to the army issued just prior to his retirement, among other excellent sentiments uttered, Lieutenant General Miles had this to say:

All honorable activity and life for the army must exist within the defined lines of patriotism, unselfish honor, sterling integrity, impartial justice, obedience to rightful authority and incessant warfare against armed enemies. Always to maintain truth, honor and justice requires the highest moral courage, and is equally as important as fortitude in battle. Drill, discipline and instruction are but preparatory for the perfection and efficiency of an army.

Events of recent years have placed upon the army a new obligation and an opportunity for a broader exemplification of its country's principles. The United States army now is brought into daily communication with millions of people of whom its individual members of every grade are the exponents of American civilization. A serious duty and a great honor now are presented to every officer and soldier, namely, to exemplify to those with whom he comes in contact our country's principles of equal and exact justice, immunity from violence, equality before the law and the peaceful use and possession of his own.

PUBLIC SCHOOL NOTES.

Superintendent Stroup and Teachers Getting Ready for Work.

FEW IMPORTANT PARAGRAPHS.

Many of the teachers, having completed their vacations, are back in town getting ready for work.

The regular city teachers' examination will be held August 28 and 29 at the Central School building.

Beginning September 1 and continuing four days examinations will be given each afternoon for the benefit of those who have conditions in their promotion. Below the high school these conditions must be removed before the next grade can be entered. In the high school department work is done and each class is in a manner independent. The buildings have been cleaned and put in first-class order for the beginning of school. Never in the history of the town was the school prospect brighter. The enrollment in every grade will be larger than ever before.

While the schools lost several excellent teachers by resignation at the close of the last school year, their places have all been filled with progressive up to date teachers. The teaching force of Albuquerque is not equalled in many western towns. Sixty-five per cent of this city's teachers are normal or college graduates.

The good standing of the Albuquerque high school is evidenced by the fact that her graduates are admitted without examination in all the territorial institutions, and into the freshman classes of Kansas and Colorado universities as well. In the near future we hope to make the same arrangements with Berkeley and Leland Stanford universities.

Compare our schools with those of other states and if we are deficient let the teachers know it and the weak places will be strengthened.

ARIZONA MUSEUM.

Here Today and On Way to World's Fair, St. Louis.

A light covered wagon drawn by a couple of burros drew up at the corner of Gold avenue and Second street this morning and was the center of attraction of a curious crowd of people.

On the side of the wagon was a banner announcing that inside was the great Arizona Museum, and it was free to look in. The people jumped at the invitation, because it reads "free." The collection on exhibition was composed of two Gila monsters, two rattlesnake skin and a few queer looking snakes. The museum is the property of Joe Bower of Phoenix, Ariz., and he is going to drive through to St. Louis and attend the World's Fair.

Mr. and Mrs. J. M. Price and daughter have moved to the city from San Marcial. Miss Price will attend the Albuquerque business college.

The "Yellow Kids" of Deming and the "Remnants" of El Paso will cross bats at Deming Sunday afternoon. On their old grounds, the "Yellow Kids" ought to administer a dose of defeat to the El Paso ballists.

WEEKLY CROP BULLETIN

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., Aug. 18, 1903.—The weather continues hot and generally dry. Some good showers have occurred during the week but they have been of a local character, and while some fields and some portions of the prairies are fairly well watered other portions are very dry and suffering severely from lack of moisture. All kinds of stock remain in very good condition as yet, and almost daily showers in the mountains furnish a fair supply of irrigation water for the streams, but good, general rains are needed to supply stock water on the prairies, and to bring out the grass on the ranges for fall and winter feed for stock. Unirrigated fields as a rule are needing rains badly, especially corn, but where irrigated the crop is very promising. Second alfalfa is generally secured in northern counties in very good condition. In southern parts the third growth is not turning out well on account of the drought. In some localities the rains have been torrential in character, causing much damage to fields and property. The flood at Silver City on the 11th and 12th is conservatively estimated to have caused damage to the extent of \$100,000, and that of the 16th in Socorro county washed out a portion of the Magdalena branch of the railway and flooded the town of Socorro. Apples, plums, pears and late peaches are coming into local northern markets; the quality of the fruit is very fair but the yield very irregular.

The following remarks are extracted from the reports of correspondents: Albert—H. W. Hanson. Getting extremely dry; grass is bleaching, and even trees and shrubs are wilting. Cloudy with thunder and lightning almost every afternoon but only a trace of rain. Drought is really becoming severe. Highest temperature, 98; lowest, 54; rain, 0.34. Andrews—A. S. Warren: Hot and dry; all vegetation is burning up. Springs and wells failing. Considering the drought stock looks well. Arabela—A. M. Richardson: A good rain on the 6th, but more needed. Highest temperature, 92; lowest, 55; rain, 0.53. Bell Ranch—C. M. O'Donnell: Daily thunder showers but very light, and covering but a limited area. Some portions of the range have had no rainfall, and a good general rain is much needed. Third cutting of alfalfa is giving an average yield. Rain, 1.04. Fruitland—Yrill James Collier: Fine weather for all crops. Second alfalfa is in the stack, and a good crop. Corn is well started in the ear and is growing fast. The range is still good. The river carries a good supply of water. Highest temperature, 100; lowest, 51; rain, trace. Gallinas Springs—Jas. E. Whitmore: Fine grass in the pasture and stock getting very fat. Unirrigated crops are looking well in places; heavy dews every night keep vegetation from drying up. Wild hay will be scarce in these parts. Fruits are not more than a fifth of a crop. Highest temperature, 96; lowest, 59; rain, 0.36. Las Vegas (Mora Road)—Leon J. Thornhill: Heavy rain and hail on the 9th, storm doing much damage to standing crops. Second crop of alfalfa is being secured; the third growth is coming on finely. The hail has given corn and other growing crops a setback. Mesilla Park—R. H. Hart: Days hot and partly cloudy. Third alfalfa will be a failure on account of the drought and the lack of irrigation water, but some water has now been turned into the canals. The rains have not been enough to be of much benefit. Peaches (late) and pears are on the market. Highest temperature, 94; lowest, 65; rain, 0.58. Mimbres—Charles Dennis: Drought badly broken; storm accompanied by hail which did little or no damage. Local showers have occurred almost every day recently; grass is now growing finely. Third crop of alfalfa is growing nicely. Early summer fruit is now on the market, and the quality is good. Ojo Caliente—Antonio Joseph: Recent rains in the mountains have replenished the streams, and irrigation water is ample. Wheat and the second crop of alfalfa just harvested are excellent. Livestock in good condition, but the ranges need rain badly. Fruits are better than was expected last spring. Santa Fe—U. S. Weather Bureau: Light showers almost daily in vicinity but very little at station. Irrigation water insufficient, and some young orchards may suffer greatly from lack of irrigation. Second alfalfa generally secured, and in good condition. Peaches very irregular in yield but of fair quality. Apples very scarce. Highest temperature, 87; lowest, 57; rain, 0.53.

R. M. HARDINGE, Section Director.

A HOBO KITTEN.

Rode the Rods on a Galveston Passenger Train.

The following story is vouched for by several members of the Cleburne, Texas, party who returned from Galveston recently: Commissioner Tom

THE CLEANING AND HEALING CURE FOR CATARRH Ely's Cream Balm

Easy and pleasant to use. Contains no injurious drugs. It is quickly absorbed, gives relief at once. It opens and cleanses the nasal passages. Always Inflammation. Heals and Protects the Membrane, Restores the Sense of Taste and Smell. Large Size, 50 cents; Small Size, 25 cents. Sold by mail. ELY'S BROTHERS, 66 Warren Street, New York

Watkins and his party went on a late train. On their way down their attention was called to a tiny kitten which one of the train hands dislodged from the trucks. As the bell rang and the train started the kitten sprang to its safe hiding place. This operation was repeated several times, and always at the tap of the bell the kitten rushed back for its free ride till Mrs. Watkins secured this remarkable kitten by paying a small boy 25 cents for securing it from its perilous position. The lady kept it during her stay in Galveston, to bring home with her.

The first through train on the Santa Fe Central railway left Torrance this morning at 5 o'clock, arriving at Santa Fe at 9:30 a. m., returning to Torrance this train will leave Santa Fe at 8 o'clock this evening. It is expected that there will be a change of time on the Denver & Rio Grande railroad so that the northbound train from Santa Fe to Denver will connect with the Santa Fe Central train from El Paso and Torrance, which will arrive at the Capital city at 9:30 every morning.

This morning at the McQuade home, 805 Carroll avenue, occurred the funeral services of Richard, the deceased son of Mr. and Mrs. J. W. McQuade. Rev. W. J. Marsh presided and said many words touching the dead, yet with sweet regard to the passing of a life so young and tender. A large number of sympathetic friends were at the McQuade home and followed the remains to Fairview cemetery.

ROYAL RECEPTION.

Tendered Gen. and Mrs. Baldwin This Afternoon.

DELIGHTFUL DRIVE THIS MORNING.

General Baldwin, officer in command of the department of Colorado, United States army, accompanied by Mrs. Baldwin and son, and Lieutenant and Drum, arrived this morning from the west in private car attached to passenger train No. 2, and is the guest of the city until tonight.

A delegation of Albuquerqueans, including Judge B. S. Baker, George L. Brooks and others, were at the station and escorted the general and party to the Alvarado, where breakfast was served. After a hurried meal the general was driven over the city, up the valley north of the city and on the mesa east of the city. The morning was ideal and the veteran general visited many places familiar in days long ago, when the general was a soldier in New Mexico. He said when here a few months ago that he would like to visit Albuquerque and the vineyards up the valley. He did that this morning and his face beamed with enthusiasm as he recounted incidents of early days.

This afternoon the general and family and Lieutenant Drum are at the Commercial club, where they are being greeted by a large number of city people, who congregated there for the purpose. The club house was hurriedly made ready this morning, and although the preparations are not as elaborate as they might have been had the club had more time in which to make ready for their distinguished guests, they have been pronounced fair and if anything is lacking, General Baldwin is the sort to take circumstances into consideration.

The hour was set for 4 o'clock, but as early as 3:30 o'clock, carriages began stopping at the club and fully two hundred people were made acquainted with General and Mrs. Baldwin, the three hours following. The First Regimental band played patriotic airs and the affair passed in a satisfactory manner.

General Baldwin and party will leave this evening for Denver, the general's department headquarters.

BEST IN THE WEST.

The Santa Fe New Mexican says: "The management of the New Mexico Territorial Fair association, which will have its exhibition this year from October 12 to 17, inclusive, at Albuquerque, appears to be leaving no stone unturned to have the grandest exhibition ever given in this section. The \$4,500 in purses offered for horse racing is bound to draw a large collection of first-class horses, while the \$2,000 purses for the cow boy tournament will get together an array of talent never before seen in New Mexico. Santa Fe should have her baseball team ready to go down and capture the first money in the baseball tournament."

Miss Susie Williams left this morning for the Rio Pecos country, where she will enjoy a two weeks' vacation.

handlers of money because of their appearance and ring. By weight they are easily detected. Where they came from nobody knows. Uncle Sam's secret service should get on the track of their makers.

SANTA FE.

From the New Mexican.

John B. Harper, United States irrigation engineer for the Pueblo Indians, left for Zuni on official business.

The report in the Albuquerque newspapers that I. Sparks has resigned as mayor of Santa Fe is without foundation.

John Mainetti and son are at the Bon Ton. John Mainetti was recently injured in the mines at Madrid and has come to this city for treatment. His eyesight is severely injured.

Work has commenced on the foundation for the turn table in the Santa Fe Central railway yards. The foundation for the track scales has been completed.

While enjoying camping out in the Santa Fe canyon John L. Zimmerman and E. P. Shields are doing some surveying work for the Capital Light and Power company. A compass and other surveying instruments were sent to them this morning.

H. R. Mitchner of Albuquerque arrived in the city and will work in the New Mexican bindery. A foreman for some weeks and until Hugh B. Phillips, who has been in that position for some months but is now quite ill, recovers and is again ready for work.

AZTEC.

From the Index.

Ranchers report the second cutting of alfalfa 3 per cent better than the first.

John Lair was called to Durango on account of the sickness of a nephew. Cupid, that meddlesome divinity, with his bow, arrows, quiver and wings, has been very busy in Aztec's flower gardens lately, and the watchman has either been asleep or winked the other eye, as some of the fairest flowers have been stolen while in their prettiest bloom. First came G. W. Lamberson who hypothesized himself to Mrs. Madie E. Diechsell. Hardly had we recovered from the shock when Byron Baker last Sunday, while he should have been swimming or at Sunday school, made captive Miss Delia Condon. Shortly after came Escalaplus, in the form of Dr. James H. Clift, and by his suave persistent efforts induced Miss Iris McRae to share his future. The list does not stop here. Even our young minister—be of the sanctimonious garb and sedate manner—has at last succumbed to Cupid's wiles. The Rev. W. F. P. Munsey will, after his lectures next week, become a benefactor and decamp for Pueblo, taking with him Miss Stella Stogsdill. Could even President Roosevelt ask more of a town the size of Aztec?

FARMINGTON.

From the Times.

L. L. Thomas contracted for forty acres of W. N. Knight for a consideration of \$3,000. This land has about fifteen acres of orchard and has a good fruit crop on it.

D. J. Craig, an employee of the Unity tunnel or the Silver Lake company's property, met with a very serious accident, crushing his foot between the pipes in such a manner as will cause amputation of the foot at the ankle joint.

The Farmington telephone circuit will soon be in operation. The company is now asking for bids for hauling the poles and supplies from Pine Ridge down the La Plata to this place. This will be the central point and the bulk of the freight comes here.

At a meeting of the school committee the secretary was instructed to write to S. H. Brotherton of Dolores, Colo., and inform him that his application for the principal had been accepted, provided favorable reports from places where he had taught were received by the board after inquiries are made. The school board have also employed Miss Maude Agnew Dolores and Miss Lizzie Quilan of Walsburg as teachers in the lower grades. Miss Quilan will have the primary department.

Joe Wilkins is having an elegant silver belt made by a Navajo silversmith near his store for a lady at Silverton.

Jay and Frank Fulcher have moved their brick making machinery to the La Plata, where they will make a kiln of brick to be used in building the new school house for the upper district.

M. N. Cunningham and J. E. Knoll of Cozad, Neb., arrived by Farmington overland, and will spend some time looking over the country with a view of locating.

It is rumored a large Catholic mission and school will be built this fall on the San Juan river about eight miles west of here. Such an institution would be of much benefit to our people as well as to the Navajos.

T. C. Bryan was up from his place at Fruitland on business. Mr. Bryan has sold his store at that place to his brother, who will arrive in the next thirty days to take possession. Mr. Bryan will spend the winter in southern Arizona and California.

Everybody enjoys a good recitation. The many friends of Mrs. Mira M. Frost will be glad to know that they will have an opportunity to hear her at the Bruno Diekmann recital, Colombo hall, September 8.

MERRITT'S OPINION.

He Visited Tobacco Experimental Farm and Gives Views.

BLUENER ALSO HAS TOBACCO.

Yesterday afternoon Wesley Merritt, industrial commissioner for the Santa Fe, accompanied by W. S. Strickler, vice president and cashier of the Bank of Commerce, and D. A. Macpherson, manager for the A. A. Grant estate, visited the Rio Grande tobacco company's experimental tobacco farm, north of the city.

The public already knows the circumstances under which this experiment of tobacco growing in the Rio Grande valley is being made, and also that Mr. Merritt is really the father of the idea. It was suggested to him by two Boer generals, veteran tobacco growers, and S. E. Edmunds, the Cincinnati tobacco expert now managing the Rio Grande company's experimental farm.

The Rio Grande Tobacco company was organized last September, almost a year ago. The services of Edmunds was secured through the recommendation of Commissioner Merritt, who, beforehand, on making inquiries about Edmunds, had been told by tobacco growers of Kentucky and Ohio that he (Edmunds) was a very competent man. The company purchased forty acres of land, chosen by the expert. Tobacco seed was furnished by the government; some from Italy, others from Cuba and of various sorts and varieties. Some of the seed was slow in arriving, and consequently made late plantings. However, the seed was sown and grew nicely. About 147,000 plants were taken up and transplanted. When the flood came a large number of the plants were washed out, or else scalded by standing water. But, not being discouraged by the bad luck, Mr. Edmunds continued to tend the remaining plants and now there is promise of a good harvest.

Will Be a Success.

Although Mr. Merritt has been deeply interested in the experiment and in its success, that of yesterday was his first visit to the field.

"We had a hard drive," said Mr. Merritt last night, "but I feel well repaid for the hardships. There is little doubt in my mind but what the experiment will prove a success. The field is beautiful. The plants of early planting now stand four and five feet high and are going to seed. We found one plant with twenty-six leaves and many with twenty-two and twenty-three. The leaves are broad and in my opinion have an extra fine color. But the strange and most gratifying part of the whole proposition is that the finer varieties of tobacco are doing the best. The Turkish, from which Turkish cigarettes are made, and the Havana tobacco, grown from seed imported from Cuba, are the varieties which have made the best growth. These tobaccos bring from \$2 to \$3.60 a pound, and make a good yield.

"Harvest will begin about September 6, and last until frost. I have been told that frost comes late in the valley. If so, so much the better for the harvest and the chances of the Rio Grande valley becoming a tobacco growing locality. Of course the quality of tobacco depends to a certain extent on the curing, but Edmunds is a good man, and the crop will be taken care of in proper manner. But to make sure of the test being thorough I will endeavor to have a government expert here during the harvest and assist Mr. Edmunds with the work. I myself will try to be here again before harvest is over."

Mr. Strickler said this morning that he was very much surprised with what he saw at the tobacco farm yesterday. He expressed himself as satisfied that tobacco may be grown in the Rio Grande valley successfully and profitably, and that it is a new industry for the people of the valley.

Herman Blueher Experimenting.

Herman Blueher, the gardener, is experimenting with the growing of tobacco. He has a small plot at his garden north of Old Albuquerque. Mr. Blueher's tobacco stands six and seven feet high and is very fine. The variety is about the same as that grown by the Rio Grande company, but the exceptional growth the plants have made is probably due to the fact that they have been protected by canvas and possibly because being only a few in number, have received better care than the plants on the Rio Grande company's farm.

But, nevertheless, care or no care, there is every reason to believe that the Rio Grande valley will grow tobacco.

Mr. Merritt, accompanied by his wife and brother, E. L. Merritt, who is a West Point cadet off on a furlough, left this morning for Chicago.

Word comes from the Jemez hot springs that the resort has a large list of guests, and, if the present hot weather keeps up much longer, the list at the springs will be greatly augmented. A good chicken dinner at Block's famous mountain hotel would entice a person to make a long journey.

Mrs. W. S. Hopewell and children, family of W. S. Hopewell, general manager of the Albuquerque Eastern and Santa Fe Central railroads, passed through the city this morning en route from Hillsboro to Santa Fe, where Mr. Hopewell is reported to be seriously ill.

Delinquent Tax List

(Continued from page six.)

SAVEDRA, ANASTACIO—Land 100 by 400 varas, bounded north and south by J. Armijo, east by J. M. Jaramillo, west by J. Mora. Value personal property, \$80; taxes, \$5.63; penalty, 43 cents; costs, 35 cents; total, \$9.40.

SANCHEZ, JUAN J.—Land 72 by 712 varas, bounded north by Polito Armijo, south by P. Chavez, east by A. Romero, west by P. Chavez. Land 50 by 150 varas, bounded north by P. Sanchez, south by M. Sanchez, east and west by P. Garcia. Land bounded north and south by P. Sanchez, east by public road, west by P. Sanchez. Value personal property, \$85; taxes, \$2.01; penalty, 10 cents; costs, \$1.05; total, \$3.16.

SARRACINO, CLEMENTE—Land 100 by 1,000 varas, bounded north by M. Jaramillo, south by M. Baca, east by Arana, west by hills. Value personal property, \$20; taxes, \$8.03; penalty, 40 cents; costs, 35 cents; total, \$5.78.

SENA, MARIANO P.—Land 28 by 57 varas, bounded north and south by J. de la Cruz, east by J. de la Cruz, west by G. de la Cruz. Value personal property, \$20; taxes, \$2.59; penalty, 65 cents; costs, 35 cents; total, \$3.59.

PRECINCT NO. 34.

APODACA, SOTELA—Land 25 acres, bounded north by J. Apodaca, south by C. de Albuquerque, east by C. de Albuquerque, west by P. Gabeldon. Land 55 by 20 varas, bounded north by B. Mora, south by public road, east by B. Mora, west by Torres; also one house. Value personal property, \$35; taxes, 37 cents; penalty, 3 cents; costs, 35 cents; total, 75 cents.

BALDORNE, POLICARPO—Land 15 by 30 varas, bounded north by P. Sedillo, south by road, east by S. Garcia, west by S. Apodaca. Value personal property, \$135; taxes, \$128; penalty, 7 cents; costs, 35 cents; total, \$1.70.

CAYASO, ESTAVAN M.—Land 60 by 100 varas, bounded north by J. M. Montoya, south by M. Mora, east by hills, west by arroyo. Value personal property, \$120; taxes, 73 cents; penalty, 4 cents; costs, 35 cents; total, \$1.12.

GUTIERREZ, MANUEL—Land in Los Alamitos, 60 acres, land in Ojo de Morrolo 40 acres, land in Chilli 8 acres. Value personal property, \$125; taxes, \$4.47; penalty, 23 cents; costs, \$1.05; total, \$5.75.

GUTIERREZ, MARTIN—House and lots, Land 75 by 200 varas, bounded north by public lands, south by J. F. Garcia, east by A. Gutierrez, west by public land. Value personal property, \$5; taxes, \$2.56; penalty, 13 cents; costs, \$1.05; total, \$3.74.

JARAMILLO, BENIGNO—Improvement on government land. Value personal, \$400; taxes, \$14.43; penalty, 72 cents; costs, 35 cents; total, \$15.50.

LUCERO, REYMONDO—Patent land, 100 acres, Land 40 by 60 varas, bounded north by R. Mora, south by public road, east by S. Garcia, west by S. Apodaca. House, Value of personal, \$260; taxes, \$10.39; penalty, 51 cents; costs, 70 cents; total, \$11.60.

MARTINEZ, JOSE F.—Land 200 by 300 varas. Taxes, \$7.67; penalty, 39 cents; costs, 35 cents; total, \$8.43.

MORA, ANASTACIO MA.—Land 100 by 150 varas, bounded north by Chilli grant, south by P. Schubert, east and west by Chilli grant. Land 50 by 100 varas, bounded north by B. Mora, south by J. D. Mora, east by arroyo, west by public road. Value personal property, \$95; taxes, \$1.35; penalty, 7 cents; costs, 70 cents; total, \$2.12.

MORA, BARBARA—Land 500 by 800 varas, bounded north, south, east and west by Grant. House, Land 50 by 200 varas, bounded north and south by Grant, east by F. Mazome, west by Grant. Value personal property, \$470; taxes, \$18.21; penalty, 40 cents; costs, \$1.05; total, \$20.31.

SALAS, ADOLFO—Land 65 by 200 varas, bounded north by public road, south by public road, east by Cruz Mayo, west by F. Mora. House, Value personal property, \$405; taxes, \$20.81; penalty, \$1.14; costs, 70 cents; total, \$22.65.

SAMORA, NICOLAS—Land 25 by 25 varas, bounded north by public road, south by A. Sais, east by A. Garcia, west by Callejon. House, Value personal property, \$110; taxes, 37 cents; penalty, 3 cents; costs, 35 cents; total, 73 cents.

SHUBERT, PEDRO—Land 500 by 1,000 varas, bounded north, south, east and west by land grant. House, Value personal property, \$120; taxes, \$7.46; penalty, 27 cents; costs, 70 cents; total, \$8.63.

Notice is further given that the undersigned tax collector for Bernalillo county, will on the first Monday of October, 1902, offer for sale at public auction at the front door of the court house of said county, in the manner provided by law, the property set forth and described in the foregoing list, or so much thereof as may be necessary to realize the respective amounts due, and that said sale will be continued from day to day, not exceeding sixty days, until all of said property has been disposed of.

FRANK A. HUBBELL,
Treasurer and ex-officio Collector of Bernalillo county, New Mexico.
First publication August 15, 1903.

NOT LESS THAN \$25.00.

amount of taxes, penalties and costs due opposite each name and description, together with a separate statement of the taxes due on personal property, where the several taxes are due from the same owner or owners.

PRECINCT NO. 3.

LUCERO, FRANCISCO—Land 150 by 4,000 yards, bounded north by P. Sanchez, south by P. Lucero, east by P. Sanchez, west by P. Samora. Land 50 by 200 yards, bounded north by R. Lucero, south by A. Lucero, east by hills, west by river. Land 16 by 300 yards, bounded north by public lands, south by same, east and west by same. Value personal property, \$1,105; taxes, \$54.10; penalty, \$4.20; costs, \$1.40; total, \$59.70.

PRECINCT NO. 4.

GONZALES, MANUEL—Land in precinct No. 3, 28 by 2,000 yards, bounded north by hills, south by J. Baca, east by M. Yrisarri, west by J. Baca. Land in precinct No. 13, house and land, Land 110 by 300 yards, bounded north by M. Yrisarri, south by M. Hledazo, east by acquia, west by A. Gutierrez. Land 60 by 200 yards, bounded north by F. Montoya, south by T. Gutierrez, east by acquia, west by hills. Land 40 by 2,000 yards, Land 132 by 2,000 yards. Land 45 by 700 yards. Land 55 by 100 yards. Land 160 acres, Land 100 by 100 yards, bounded north by T. Gutierrez, south by M. Yrisarri, east by hills, west by Four-h street. Land in precinct No. 19, 300 by 450 yards, bounded north by Sanchez, south by J. Castillo, east by acquia, west by Quati Rael. Value personal property, \$225; taxes, \$14.54; penalty, \$2.5; total, \$37.47.

RODARTE, JUAN A.—Land 40 by 400 yards, bounded north by M. Gonzales, south by entrance, east by acquia, west by river. Land 150 by 600 yards, bounded north by I. Sanchez, south by J. Gonzales, east by J. Garcia, west by acquia. Land 30 by 500 yards, bounded north by V. Salazar, south by J. Garcia, east by acquia, west by J. F. Gallegos. Value personal property, \$200; taxes, \$77.56; penalty, \$3.86; costs, \$1.05; total, \$82.47.

PRECINCT NO. 9.

SANCHEZ, TOMAS—Land 200 by 300 yards, bounded north by J. Sanchez, south by road, east by road, west by road. Land 100 by 200 yards, bounded north by P. Armijo, south by road, east by road, west by hills. Land 300 by 500 yards, bounded north by A. Romero, south by M. Sanchez, east by P. Armijo, west by Lomas. Land 100 by 400 yards, bounded north by H. Garcia, south by J. Ballegos, east by J. Romero, Land 100 by 200 yards, bounded north by road, south by N. Sabedra, east by road, west by J. B. Sanchez. Value personal property, \$1,465; taxes, \$41.26; penalty, \$2.06; costs, \$2.10; total, \$45.36.

PRECINCT NO. 11.

HUBBELL, J. F.—Land 600 by 800 yards, bounded north by Hubbell, south by same, east by road, west by F. Chavez. Land 100 by 300 yards, bounded north by road, south by same, east by same, west by same. Land 200 by 200 yards, bounded north by J. M. Sanchez, south by ditch, east by river, west by road. Land 100 by 200 yards, bounded north by J. F. Hubbell, south by Metzgar. Value personal property, \$225; taxes, \$33.99; penalty, \$1.70; costs, \$1.40; total, \$37.99.

PRECINCT NO. 14.

HERRERA, JUAN B.—Land, bounded north by J. Baca, south by J. Sanchez, east by Arana, west by Ojo del Rio Puerco. Landed bounded north by J. Herrera, south by P. Armijo, east by Arana, west by road. One house. Value personal property, \$1120; taxes, \$45.24; penalty, \$2.25; costs, \$1.40; total, \$48.89.

PRECINCT NO. 22.

CARPENTER, J. R.—Land 160 acres, Land 50 by 50 yards, bounded north by Juan Olea, south by Jose Garcia, east by arroyo, west by public road. Land 200 by 200 yards, bounded north by Juana Carpenter, south by road, east by Canuto Sanchez, west by Nicolas. Land 300 by 100 yards, bounded north by public road, south by McClellan, east by Juana Carpenter, west by arroyo. Three resident houses. Value personal property, \$1,595; taxes, \$82.21; penalty, \$4.46; costs, \$1.75; total, \$89.45.

KLEHER, MRS. D.—Southwest quarter of the southwest quarter, section 15, township 10, range 5, 40 acres. Northwest quarter of the northwest quarter section 22, township 10, range 5, 40 acres. Value personal property, \$90; taxes, \$25.28; penalty, \$1.27; costs, 70 cents; total, \$27.25.

PRECINCT NO. 28.

JARAMILLO, MANUEL ANTONIO—Land 200 by 500 yards, bounded north by estate of J. A. E. TEACHERS' EXAMINATION.

The superintendent of public schools of Valencia county calls attention to the fact that a Teachers' Examination will be held in Las Lunas at 28th day of August, 1903, being the last Friday of said month. Every one interested is requested to attend, as only those who receive certificates in said examination will be entitled to teach in said county.

JESUS C. SANCHEZ,
Superintendent of Public Schools,
Valencia County, N. M.

Burglars at Las Vegas.

Mrs. Woods' stationery and book store at Las Vegas was burglarized and a quantity of cigars, card cases and other small articles were taken. The work had the stamp of depraved young America. A piece of the screen door at the back of the store was cut out and through the opening a hand was thrust to unlock the door. The job was easy. The loss is not serious financially, but it is sufficiently vexatious to insure the exertion of every possible effort to capture the burglars.

The Faywood hot springs, down in Grant county, is doing a good business these days, and all the rheumatic guests down there are reported getting along nicely. E. B. Booth, the tailor, writes back that he is receiving benefits bathing at Faywood. T. C. McDermott, the genial proprietor, knows how to treat his guests.

ARTICLES OF INCORPORATION.

Territory of New Mexico, Office of the Secretary.

I, J. W. Raynolds, Secretary of the Territory of New Mexico, do hereby certify there was filed for record in this office at 3 o'clock p. m., on the eighth day of May, A. D. 1903, Articles of Incorporation of

MONTEZUMA TRUST COMPANY.
(No. 3431).
and also, that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript thereof from and of the whole thereof. In witness whereof, I have hereunto set my hand and affixed my official seal this eighth day of May, A. D. 1903.

(Signed) J. W. RAYNOLDS,
Secretary of New Mexico.
(Seal.)

Articles of Incorporation of the Montezuma Trust Company.
Know all men by these presents, that we, the undersigned, all of whom are citizens of the United States and of this territory, and all of whom are directors of the Montezuma Savings, Loan and Building Association, and being a majority of such directors, have this day associated ourselves together for the purpose of re-incorporating said association under the provisions of an act of the Thirty-Fifth Legislative Assembly of the Territory of New Mexico, entitled "An act relating to trust companies," approved March 12th, 1903; and we hereby certify:

I. That the name of this corporation shall be the Montezuma Trust Company.

II. That the business of said corporation shall be carried on in the City of Albuquerque, in the County of Bernalillo, Territory of New Mexico.

III. That the said Montezuma Savings, Loan and Building Association is a corporation organized under the provisions of Chapter 72 of the acts of the 33d Legislative Assembly of the Territory of New Mexico, approved March 16, 1899, entitled "An act relating to building and loan associations and providing penalties for failure to comply therewith and repealing all acts in conflict therewith," and has assets of more than one hundred thousand dollars invested in first mortgages on improved real estate in the Territory of New Mexico, of which assets more than seventy-five thousand dollars have been accumulated from dues or assessments and profits on the shares of the capital stock of such association.

IV. The number of directors of said corporation shall be not less than five nor more than twenty, as may be determined by the by-laws of such corporation, and the names of those elected are A. B. McMillen, J. C. Baldrige, M. W. Flournoy, F. A. Hubbell and W. H. Gillenwater, being all the directors of said Montezuma Savings, Loan and Building Association.

V. Said corporation shall continue in existence for the period of fifty years.

VI. The re-incorporation herein provided for shall take effect forthwith.

VII. The capital stock of said corporation shall be two million dollars, divided into twenty thousand shares of the par value of one hundred dollars each.

VIII. The action herein taken is by virtue of the written request of every stockholder of said Montezuma Savings, Loan and Building Association duly signed and filed with said Association, and by virtue of a resolution of the board of directors of said Association in favor of such re-incorporation,

made in pursuance of such request.

IX. The objects and purposes of this corporation are as follows:

1. To receive money in trust and to accumulate the same at such rate of interest as may be obtained or agreed upon, or to allow such interest thereon as may be agreed, not exceeding the legal rate; to receive upon deposit for safe keeping money and personal property of every description; to guarantee special deposits, and to own a safety vault and rent boxes thereon.

2. To accept and execute all such trusts and perform such duties of every description as may be committed or transferred to such corporation by order, judgment or decree of any of the courts of record of this territory, or of any other territory, or of any state, or of the United States, or of any foreign state or government.

3. To take, accept and hold by order, judgment or decree of any court of this territory, or of any other territory, or of any state of the United States, or of any foreign state or government, or by gift, grant, assignment, transfer, devise, or bequest of any person or corporation, any real or personal property in trust, and to execute and perform all such legal and lawful trusts in regard to the same, upon the terms, conditions, limitations and restrictions which may be declared, imposed, established or agreed upon by and by such order, judgment, decree, gift, grant, assignment, transfer, devise or bequest, and to execute as principal or surety and to guarantee against loss any principal or surety upon any bond or bonds required by law to be given in any proceedings in law or in equity in any of the courts in this territory or other territory or state or of the United States.

4. To act as agent or attorney in fact for any person or corporation in the management or control of real or personal property and the sale or conveyance of the same, and for the investment of money, and to act for and represent corporations for the purpose of issuing, registering, transferring and countersigning the certificates of stocks, bonds or other evidences of debt of any corporation, association, municipality, state or public authority, on such terms as may be agreed upon.

5. To accept from and execute trusts for married women in respect to their separate property, whether real or personal, subject to the general laws of the territory regulating the disposition or control thereof and act as agent for them in the management of such property.

6. To act as executor under the last will, or as administrator of the estate of any deceased person, or as guardian of the estate or curator of any infant, insane person, idiot or habitual drunkard or convict.

7. To guarantee the fidelity and diligent performance of their duty of persons or corporations holding places of public or private trust; to guarantee or become surety on any bond given by any person or corporation and to re-insure or guarantee any person or corporation against loss or damage by reason of any risk assumed by insuring the fidelity or diligent performance of duty of any such person or corporation, or by guaranteeing or becoming surety on any bond; to guarantee the principal or interest or both, of any securities of any kind, and to certify and guarantee titles to real estate.

8. To loan money upon real estate and collateral security, and to purchase, invest in and sell all kinds of government, state, municipal and other bonds, and all kinds of negotiable and non-negotiable paper and other investment securities.

In witness whereof we have hereunto set our hands and seals this 7th day of May, 1903.

(Signed).
(Seal) A. B. McMILLEN,
(Seal) J. C. BALDRIDGE,
(Seal) M. W. FLOURNOY,
(Seal) W. H. GILLENWATER,
Territory of New Mexico, County of Bernalillo, ss.

On this 7th day of May, 1903, before the undersigned, a notary public within and for said county, appeared A. B. McMillen, J. C. Baldrige, M. W. Flournoy and W. H. Gillenwater, to me known to be the persons described in and who executed the foregoing instrument, and acknowledged to me that they had executed the same as their free act and deed. Witness my hand and notarial seal the day and year above last written.

(Signed).
HERBERT F. RAYNOLDS,
(Seal) Notary Public,
Territory of New Mexico, Office of the Secretary.

Certificate.
I, J. W. Raynolds, Secretary of the Territory of New Mexico, do hereby certify that there was filed for record in this office at three o'clock p. m., on the eighth day of May, A. D. 1903, Articles of Incorporation of

MONTEZUMA TRUST COMPANY,
(No. 3431).
Wherefore: The incorporators named in the said articles and who have signed the same, and their successors and assigns, are hereby declared to be from this date until the eighth day of May, Nineteen Hundred and Fifty-Three, a Corporation by the name and for the purposes set forth in said articles.

Given under my hand and the great Seal of the Territory of New Mexico, at the City of Santa Fe, the Capital, on this eighth day of May, A. D. 1903.

(Signed).
J. W. RAYNOLDS,
(Seal) Secretary of New Mexico.

CHEATED THE GALLOWS.

Juan Chavez, Accused of Murder, Committed Suicide in Trinidad Jail.

WAS SECOND ATTEMPT.

Juan Chavez, who was in the county jail on the charge of murder, ended his life yesterday afternoon and is beyond the earthly power of man to convict him of the crime, says the Trinidad Advertiser. Chavez has been confined in the county jail since July 1, being charged with the murder of Adelaido Valdez. Shortly after 3 o'clock yesterday afternoon he was walking around his cell and appeared to be feeling quite well. He has been complaining of sickness for the past two days and has been attended by Dr. Blair. About 4 o'clock one of the attendants saw Chavez lying on his bunk and was so still that the attendant called to him. Receiving no answer he entered the cell and found Chavez just barely breathing. A physician was hurriedly summoned but before his arrival, Chavez was dead.

The body was taken to the undertaking parlors of R. G. Tipton & Sons and an autopsy was held last night by a doctor. The stomach was removed when the cause of Chavez's sickness and death was discovered. Everything pointed to arsenic poisoning, the stomach plainly showing that he had taken quite a quantity of the slow, but deadly poison.

There is no doubt but what Chavez committed suicide as this was his second attempt. Some three or four weeks ago he took a dose of poison which suicidal intent, but was discovered in time to save his life. Arsenic is a slow poison and he probably took the dose a couple of days ago. How he secured the poison in the county jail is a mystery as he has been closely watched since his former attempt at suicide.

On the night of June 30 last a woman named Adelaido Valdez was found in an old adobe in the west part of the city with her throat cut from ear to ear. She was dead some time when found and the officers the next morning arrested Chavez and another Mexican for the murder. At the inquest the Mexican who was arrested with Chavez told the whole story of how Chavez murdered the woman. The details of the murder were horrible as portrayed by the witness and created considerable of a sensation at the time.

Chavez ever since he has been confined in the jail has been despondent and would not talk of the murder. He was undoubtedly guilty and preferred death to a court trial.

Railroad Unions are Spreading to Mexico.

Mexico is to have two new railway unions. One of these is the Switchmen's Mutual Association of America and the other the Master Mechanics' Association. The movement to organize the master mechanics in a union, which will not only include the railway master mechanics, but also the master mechanics of the different smelters and mining companies, is being headed by Master Mechanic Edwards of the National at Monterey. The Switchmen's union is also being fostered in Monterey. The two orders will work on the lines of the Brotherhood of Locomotive Engineers and the Order of Railroad Conductors which are organized strongly in Mexico.

THE MCINTOSH WOOL.

Bought by a Boston Buyer and Will Be Scoured Here.

The William McIntosh spring clip of merino wool, amounting to nearly 200,000 pounds, were purchased the other day by George Harrington of Boston, the negotiations being made through Gross, Kelly & Co. The wool, instead of being shipped over the Santa Fe Central and thence over the Rock Island to the east, will be brought to this city in wagons, and first scoured at the Albuquerque wool scouring mills, after which the wool will be shipped over the Santa Fe to Chicago and thence to Boston. The McIntosh wool is considered the best clip in central New Mexico, and Mr. Harrington paid a fancy price to secure it.

Death of Mrs. Hewitt.

Mrs. Marie C. Hewitt, wife of Dr. H. H. Hewitt of Connersville, Ind., died at the St. Joseph's sanitarium last night. She had been a resident of Albuquerque about five weeks, and came here from Indiana. The Hewitts are very pleasant people and have made many friends during their short stay in this city.

Mrs. Hewitt was a graduate nurse of St. Vincent's hospital of Indianapolis, and at one time one of the most popular nurses in that city. Besides a husband and brother, she leaves a host of friends in Indianapolis and Connersville to mourn her loss. No definite funeral arrangements have been made.

Narrow Escape.

Mr. and Mrs. Ben Wilton had a narrow escape from being killed by lightning Thursday afternoon, says the Silver City Independent. They were coming into Silver City from Plerro, where they reside, and were a short distance this side of Central, when there was a blinding flash and both the horses which Mr. Wilton was driving fell to the ground. A portion of the buggy top was also torn away. An examination disclosed the fact that

one of the animals had been killed outright and the other stunned. Strange as it may seem, neither Mr. nor Mrs. Wilton were in the least injured. The horses and buggy, being wet, had received the force of the electricity and saved the occupants.

TRIED TO SHUFFLE OFF.

Mrs. York Tried to Commit Suicide With Morphine.

Mrs. O. H. York got a peep into the great beyond Friday afternoon and but for the prompt arrival of Dr. Beahar she would have broken through the golden gates or some other kind of gates. Mrs. York tried to flee from this cruel, wicked and cold world of ours via the morphine route and had a good start when the doctor headed her off.

Mrs. York is the wife of a plumber and a few days ago during a quarrel with her husband she jugged his memory with an iron tea pot which left a few sore bumps of reminders on his cranium that he will not soon forget. The woman has been despondent since, and Friday morning she purchased enough morphine to make angels of a whole neighborhood and swallowed it all.

She will recover and will probably be satisfied for the present with her peep into the other world.—Trinidad Advertiser.

Festive Mrs. York.

A special dispatch to the Denver News from Trinidad says:

Addie York, the woman who recently beat her husband up with a crockery teapot and who took seventeen morphine tablets Saturday, finished her picturesque career by eloping with a lunch counter cook, Will Stover. Mrs. York is a handsome husky woman who swears fluently and fast when angered. She was prevented from whipping the ground with her neighbor's wife by police interference.

A Narrow Escape.

J. E. McKown on Friday suffered the fracture of his left leg in two places by being dragged by a horse which he had just roped. It seems that the rope in some manner became entangled around his feet and the horse, charged around the corral. By bare presence of mind Mr. McKown drew his knife and cut the rope, which no doubt saved him from being dragged to death.—Raton Reporter.

Giving Credit.

The Santa Fe New Mexican has made a distinct advancement in the last few weeks. If it will now give the various territorial weekly papers credit for articles copied from them, its advancement will be still greater and will be appreciated by newspaper writers in less conspicuous fields. Both the Albuquerque papers credit reprint with religious regularity and the New Mexican might do likewise, without injuring its prestige in the least.—Silver City Enterprise.

SANTA FE.

Mrs. Whiteman Goes to Denver—Working Mines Near City.

The infant child of Mr. and Mrs. Frank Dettelbach is very ill at the residence of its parents.

Miss Eva Dougherty entertained at the Haynes residence on Johnson street at a card party.

Pedro A. Lujan of San Ildefonso is visiting the city. He reports crops short in his section as the grasshoppers did a great deal of injury and as water was rather scarce during the season.

Pears and plums grown in the Española valley are now in the Santa Fe market and are commanding good prices. The fruit in that section matures two or three weeks earlier than it does in the Santa Fe valley.

Warren Reynolds and Cyrus Smith who are working a group of mining claims owned by them and by Antonio Winsor of this city, and which claims are located in Dalton canyon twelve miles from here, are in town buying provisions and miners' supplies. They have been steadily at work on the properties and express themselves as greatly pleased with the results. They brought in some very fine looking ore running in gold and copper, which they will have assayed.

Mrs. R. Green of Cerrillos and son, Richard, returned to Santa Fe, as it was found necessary to amputate the boy's finger. The operation was quite a painful one and he suffered greatly. They will return to Cerrillos in a few days.

Mrs. W. H. Whiteman, who has been seriously indisposed for the past few days, left for Denver, where she will remain for a short time the guest of her married daughter in that city. Mrs. Whiteman will extend her trip to Chicago before returning home.

W. J. A. Kennedy of Pittsburgh is in the city looking after some legal business. Mr. Kennedy is the secretary and treasurer of the Pennsylvania Mining & Milling company and is engaged in operations in the Bromide district, Rio Arriba county.

Messrs. Hall & Leannard returned last night from a successful trip to northern towns. Among their sales was a piano to the Women's Circle of Willow Grove lodge, No. 5, of Las Vegas. They also report having experienced refreshingly cool weather with abundant rain on their trip for which our northern neighbors, especially the ranchers, are grateful.

Billy Berry is assisting Hon. Jesus Romero in getting up a fine program for "Mexican Day" events in the fair grounds on September 29.

GIGANTIC RESERVOIR.

To be Constructed by Government on Salt River in Arizona.

HIGHEST DAM IN THE WORLD.

The Salt river dam in Arizona, the highest reservoir dam in the world, will be built, says the Denver News.

The United States government has just decided upon its construction. The Salt river dam will be 240 feet high. It will store 1,300,000 acre feet of water—an amount sufficient to cover 1,300,000 acres one foot in depth.

The entire cost of the project, including power, development and pumping machinery, will be \$3,000,000. This is the greatest irrigation project ever developed in the territory of Arizona. It means an abundant water supply for an immense district that has been retrograding for want of water. It means millions on millions to Arizona. When the late President McKinley was in Phoenix he said the territory would not be ready for statehood until it had solved the problem of irrigation. Now the government has stepped in and solved the problem of irrigating the most important section of the territory. The value to Arizona is incalculable.

Bids Are Asked For.

A. L. Fellows of Denver, district engineer of the federal reclamation service, said, in speaking of the government's intentions regarding the Salt river dam:

"The work preliminary to the project is being seriously considered to the extent of advertising for bids. Mr. A. P. Davis, who is in charge of the Salt river dam, left here for that point Sunday night. The work of drawing the plans and specifications for the cement mill and the roads are being taken up in this office at the present time."

The government's intention of building the dam is plainly indicated in the following notices issued by Mr. Fellows yesterday:

"Sealed proposals will be received until noon, September 21, 1903, at the office of the United States reclamation service, Denver, Colo., for the construction and equipment of a first-class metallic circuit telephone line from Phoenix, Ariz., to a point on Salt river, near Livingston, Ariz., via Mesa, Goldfield and Fish creek, a distance of about eighty-six miles. Specifications and particulars may be obtained on and after September 1, 1903, by application to H. A. Storrs, chamber of commerce, Denver, Colo., or to Arthur P. Davis, Phoenix, Ariz."

To Build Cement Mill.

"Sealed proposals for furnishing and erecting steel and timber mill building for Portland cement plant requiring about eighty tons of structural steel and iron, on the Salt river, opposite the mouth of Tonto creek, Arizona, will be received until noon, September 21, 1903."

Mr. Storrs is the electrical engineer of the Colorado department and Mr. Duryee is the expert on cement making. The cement for building the dam will be manufactured at the site, and it is calculated that this will save the government at least \$1,000,000.

About 300,000 acres of land have already been pledged to the return of the cost price to the government. The drainage basin to be intercepted is 6,000 square miles.

The gorge in which it is proposed to build the dam is 210 feet wide at the river level, and 600 feet wide at the surface of the proposed reservoir.

Will Be Biggest in World.

In a recent interview Mr. Davis said of this dam:

"Fifteen years ago the highest dam in the world was in France. Its height was 170 feet. Since then three dams far larger have been commenced in the United States and are now nearing completion. These are the Croton dam, for the water supply of New York city; the Clinton dam for the supply of Boston, and the Cheesman dam for the water supply of Denver. When completed each of these dams will hold a record in some particular. The Croton dam will contain the largest amount of masonry, the Cheesman dam will be the highest and the Clinton dam will store the largest quantity of water. When completed the proposed Salt river dam will be the largest dam in the world and will store three times as much water as all three of these reservoirs put together."

The El Paso Times says: There has been considerable talk recently and a rumor that the Wells-Fargo Express company was negotiating with the El Paso & Southwestern Railroad company in an effort to put their service on the line and supplant the present company. Ten days ago it was reported that such a deal had been practically agreed upon, but inquiries at the express office here brings no information. If there has been negotiations the local agents along the line know nothing of it.

AGAINST STATEHOOD.

"Fair Play" Is Known as An Ex-Newspaperman From a Town Up North, Editors Citizen.

A writer in the Democrat comes out against statehood, but is afraid to give his name and signs himself "Fair Play." He says that the people of New Mexico do not want statehood, because they have not done much to help it along, but let the press and a few men and women do the agitating

OFFICIAL MATTERS.

Notary Appointed—Commissioner of Deeds—Territorial Funds.

CORRECTING TAX LEVIES.

Governor Otero appointed Catarino Casaus of Guadalupe a notary public for Leonard Wood county.

Commissioner of Deeds.
Governor Otero appointed Abraham H. Fischer of Baltimore, Md., commissioner of deeds for New Mexico in Maryland.

Territorial Funds.
Territorial Treasurer J. H. Vaughn received from E. W. Hulbert, treasurer and ex-officio collector of Lincoln county, \$779.91 of 1903 taxes, and from Walter H. Garney, treasurer of Luna county, \$74.47 of taxes of 1903.

Correcting Tax Levies.

Assessor Ortiz of the county of Santa Fe is now engaged in the work of making the additional levies that have been required by the territory. These levies are .45 of a mill for the maintenance of the Normal University at Las Vegas and .25 of a mill for the maintenance of the Orphan Children's home at Belen. The omission of these levies at the July meeting of the board was no fault of the commissioners, but was not made because the board had not been ordered to do so by the auditor of the territory. The work will require about a week.

THE McKIM SHOOTING.

A Piece of Hat Rim Removed From the Wound.

This morning Dr. Pearce, who is attending Harry McKim, the young man shot the other day, took from the wound a piece of hat rim, showing that his hat, which was pulled down over his forehead, saved his life. The first report of the shooting, as published in the city press, was incorrect. The two boys, Roy Bush and Harry McKim, were not playing with a 22-calibre pistol near the water-works, and again the bullet that struck McKim did not make a glancing wound, but struck the forehead square above the right eye. Harry McKim rode up on his bicycle and got off. It was then that Roy Bush pointed the pistol and fired, whether accidentally or purposely it is not known. In any event, the bullet struck McKim in the forehead just above the right eye. The superintendent at the works put the wounded boy on a bicycle and took him home, where the bullet was extracted and today a piece of hat rim was removed. The Bush boy has not been arrested, owing to his mother being a widow lady and earns her own living. Mr. McKim has so far refused to prosecute.

PAINTED DESERT.

One of the Attractions at Coconino County—Rich Copper Deposits, Perhaps Diamonds May Be Found.

Hon. A. J. Doran, who recently returned from a trip to the Navajo Indian reservation in Northern Coconino county, during which time he traveled for seventy-five miles over what is known as the Painted Desert, which he says is a most interesting section, containing large deposits of copper, which are at present out of the market, owing to their isolated location, says the Flagstaff Sun.

In this region he passed through a petrified forest. Some of the trees were one hundred feet in length and intact.

They are not agatized as are those in the much advertised Arizona petrified forest. Here and there are piles of petrified splinters that are slightly agatized.

The country gets its name of Painted Desert from many mounds of various colored mud scattered over its surface. The country is covered with this mud shale and sand stone. There is very little lime. Beyond Coconino Point the sand stone strata seems to have been pushed back to make way for an open valley, on the other side of which the sand stone formation towers to the height of a thousand feet or more. In this open valley is located the petrified forest, and many of the petrified trees carry a high percentage of copper.

The altitude is 7,000 feet above sea level and immense deposits of copper ore lie on top of the sand. The ore averages 10 per cent copper.

Mr. Doran went there in the interests of the White Mesa Copper Mining company and the Pittsburgh company. The former company has a force of men at work trying to develop sufficient water for a leaching plant. Mr. Doran says the formation is similar to that of the South African diamond fields, and that recently two valuable diamonds have been found there by teamsters. Mr. Doran brought back with him some pieces of petrified wood and some pieces of Jasper. One of the pieces of petrified wood shows plainly that the wood was half rotten before the process of turning to stone commenced.

Mr. Doran says the country must have been a garden of tropical growth before the visitation of sand and mud and change of climate turned it into the fantastic wonderland which it is.

The El Paso Herald says: J. E. Saint, who is operating the commissary department of the Santa Fe Central, is a guest at the Sheldon and reports his line now in operation and everything very favorable for a good business from the start.
