VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY SEPTEMBER, 5, 1903.

NUMBER 102

Territorial Topics

SANTA FE.

from the New Mexican.

Edward M. Otero left via the Santa Fe Central for Antelope Springs to look after his sheep interests there.

J. E. Lacombe returned from a three weeks' sojourn at the sulphur springs, Jandoval county, greatly improved in health.

Col. E. C. Manning, a leading citizen of the new town of Mountainair, in the Santa Fe cut-off in Valencia county, is looking after business affairs in the capital.

Hon. Charles A. Spess, president of the New Mexico board of managers of the St. Louis exposition, arrived from Las Vegas and was present at the session of the territorial supreme court. Col. R. E. Whitehall, connected with the law department of the Santa Fe railway at Las Vegas, is also here on legal business.

Dr. J. M. Diaz will leave during the early part of the month for Chicago where he will take a post graduate course in surgery and diseases of children at the Polytechnic college and hospital.

Juan Miera died at his residence near the Guadalupe church after a prolonged illness from rheumatism. The dead man had been a sufferer for about four years, and was aged about 50 years. He was a brother-in-law of Prostate Judge Marcus Castillo, and is survived by a mother and a sister.

At the Sanatorium there has been a new local telephone system installed affording communication between the sanatorium and the hospital buildings. The plans for the new addition to the sanatorium have not yet been passed upon, but it is thought that they will be shortly, and that work on the actual construction of the proposed building will soon begin.

LAS VEGAS.

Miss Nellie Wimber on the eve of her departure for Leger, Oklahoma, was given a farewell reception by her friends Miss Booth. Next Wednesday evening Miss Wimber will become the bride of Dr. B. F. Newlon, a successful young physician of that place. Many Las Vegas friends congratulate the fortunate young doctor.

The court, instead of granting an injunction as asked for by Veeder & Veeder in the case involving the library location, issued an order this morning to show cause why an injunction should not issue as prayed for in the petition. This order is returnable on Saturday, September 19, at 10 o'clock before Judge Mills in chambers.

Mrs. S. E. York, who has been so seriously ill with double pneumonia, is now convalescent, and if no relapse occurs, recovery is assured. The age of the lady and the fact that she had the disease twice before were against her, but her splendid vitality and the most skillful treatment have proved winners in the fight against the grim destroyer.

Word was received in the city today that Adolph Letcher who was a contemporary in Las Vegas of Col. Marcus Brunewick and other real old timers, died Saturday at his home in Baltimore. He had passed the three score and ten mark. Mr. Letcher, after making considerable money left the city nearly thirty years ago. His last visit to the city was made three years ago.

When Marshal Curtright went to the county jail to secure shoes and clothing which had been stolen from Fox & Harris, the burglars stoutly insisted that there was no law to make them surrender the property. They were of the idea that as they must be punished for the theft they should be allowed to keep the swag. However, the marshal got an order from the district attorney and they were compelled to disgorge.

H. G. Hagerman, who was left as a member of the board of managers of the St. Louis exposition, was appointed by the board a delegate from the territory to the meeting of stockmen called for next month at Springfield, Ill., to take measures to induce if possible the St. Louis exposition authorities that only cattle in halter can be entered. Unless this provision be repealed no range cattle can be exhibited. If the requested change be made cattle will go to St. Louis from the western ranges in droves and carloads. The board of managers of the world's fair has named August 18 as New Mexico day. This date is especially pleasing and appropriate by virtue of the fact that it is the anniversary of the day on which the United States took formal possession of the territory of New Mexico.

Look Out for the Car.

O. N. Marron, president of the Twenty-third Territorial Fair to be

held at Albuquerque, October 12-17 inclusive, returned from New York and eastern points a few days ago. While he was east he and Mr. P. F. McCanna, secretary of the fair association, were together and arranged for new attractions for the coming fair. We are informed that the advertising car and crew will do some special work in and about Socorro in order to advertise the fair thoroughly in this vicinity as Socorro county does without doubt send the largest delegations to the fair of any county in the territory, and this year will be no exception to past years.—Socorro Chieftain.

LORDSBURG.

From the Liberal.

Mrs. H. A. Fuller and Mrs. Stiles Morrow of Redrock has been visiting in town this week.

Miss Anna Stevens, who has been visiting friends in Denver, Colo., for the past month, is expected home.

George Fraser of Clifton was in town yesterday, returning from Los Angeles where he had been to be with his wife while she was operated on for appendicitis. He reports that the operation was successful and that Mrs. Fraser is recovering nicely. It is expected that she will now enjoy better health than she has for many years.

The Rev. and Mrs. W. A. Dickey expect to attend the annual conference of the Methodist church, which will be held at Roswell in September, and will drive there overland. Mr. Dickey will not have charge of a church during the next year, but will go to Oklahoma, where he owns a farm, and will put in a year at farm work, which he thinks will improve his health greatly. From Roswell Mr. and Mrs. Dickey will drive to their Oklahoma farm. They expect to derive a good deal of pleasure from their overland trip. Both Mr. and Mrs. Dickey are very popular in Lordsburg, and the people will be sorry to have them leave, but it is the fate of a Methodist preacher never to stay very long in one community.

ROS WELL.

From the Register.

Judge A. A. Freeman is in town on his way home from Amarillo, where he has been attending court.

Mrs. Karl A. Snyder entertained a few of her friends at her home last Tuesday. A most pleasant time was spent by all.

Miss Lola McClane, who has been visiting her grandfather, Dr. C. T. McClane, during the past summer, leaves for her home in Fort Worth.

Prof. J. M. Fowell left for Clayton, where he has accepted the position of city school superintendent.

The Roswell car is receiving a few specimens of fruit and vegetables, but more are urgently needed. Samuel Brown has contributed some of his Hungarian prunes raised in his own yard. These prunes took first prize at the Buffalo fair.

Mrs. Hess L. McDonald has returned from Dexter, where she was visiting Mrs. Elliott. Mrs. Hess McDonald and Mrs. B. D. W. Payton will shortly leave for the east on an extended trip.

There was considerable excitement on the streets last Friday over an alarm of fire which was turned in from the residence of Mrs. McCain at the corner of Pennsylvania avenue and Third street. The fire department prepared to go to the scene, but it was unnecessary as the fire was put out at once. It was a fire that caused the trouble.

PUBLIC LIBRARY.

The Librarian Makes Report for Months of July and August.

The librarian of the public library in a report for July and August gives the following:

During July the visitors numbered 1,988, 1,294 adults and 694 children. Books issued, 1,877. In August the visitors numbered 1,985, 1,237 adults and 748 children. Books issued this month, 1,886.

Twelve new books were added during the latter month.

CENTRA LS WON OUT.

Sunday's Game Resulted in a Victory For the Centra ls.

A game of ball that was played between the Santa Fe Centra ls and the Santa Fe Mechanics on the grounds of St. Michael's college, Santa Fe, Sunday afternoon resulted in a victory for the former by a score of 8 to 7. The batteries were Catron and Parsons for the Centra ls and Samosa and Delgado for the Mechanics. There was some good ball played and the game was thoroughly enjoyable with the exception of the ninth in-

ning when a dispute arose over a decision of Umpire Miller and there was considerable trouble before the game was resumed and finished. The nine innings were played out however and victory went to the Centra ls.

There will be an effort made by the Centra ls to have a game with the Albuquerque Browns. The date has not yet been set, but it is possible that the contest will be had in the near future.

TRANSFER OF SISTERS.

Sisters Nolasco and Gonzales About to Leave St. Vincent's for Other Fields.

It will prove not only a surprise but a source of sincere regret to many Santa Feans to learn that Sisters Nolasco and Gonzales will leave this city within the next few days and will take up their work in other sections of the territory, says the New Mexican. Sister Nolasco, who has been the sister superior at St. Vincent's for the past year, will go to San Miguel and there become the head of the school of the Sacred Heart of that place. Sister Mary Charles will return from Cincinnati this evening and will succeed Sister Nolasco as sister superior at St. Vincent's.

Sister Gonzales will leave during the week for Albuquerque, where she will enter the St. Joseph's sanitarium. The community here will be joined by several sisters who will accompany Sister Mary Charles from the east.

TWO CHILDREN BURNED.

The Dwelling of Charles Juden Destroyed by Fire Tuesday Morning.

The residence of Charles Juden in old town was destroyed by fire on Tuesday morning, says the Flagstaff Star. At the time of the fire three children were playing upstairs; the mother was engaged in ironing, and the father, who is an employee of the Arizona Lumber and Timber company, on the night shift, was asleep.

The fire caught under the stairway and when it was discovered had made such headway as to cut off the little ones on the second floor.

There were Lena, aged 11 years; Eva, 9 years, and the baby 4 months old. The room was filled with smoke and flames and with rare presence of mind Lena caught the baby in her arms and tossed it from the window.

By this time the clothing of both girls was in flames, and Lena pushed her younger sister from the window and jumped after her. Neighbors who had come to the assistance of the family put out the fire of the children's clothing. Both were seriously burned, but little clothing remained on them. The baby beyond being stunned by the fall, was uninjured.

The contents of the lower story was nearly all saved. The loss to the family, which consists of father, mother and seven children, was a severe one, as they depended on the father's wage for support.

The citizens of Milton and Flagstaff have relieved the distressed family by voluntary contributions. The origin of the fire is not known and there was no insurance on the property.

SANTA FE COUNTY EXHIBIT.

For St. Louis Exposition to Be Prepared for Albuquerque Fair.

At 2 o'clock this afternoon a meeting of several representative citizens interested in preparing the Santa Fe county exhibit for the St. Louis exposition was held at the office of Governor Otero in the capitol for the purpose of taking steps to hurry the collection of such an exhibit and have same at the territorial fair at Albuquerque on October 12. Governor Otero presided, and among those present were: Arthur Seligman, A. R. Gibson, Arthur Boyle, J. D. Sena, Grant Riverburg, W. N. Townsend, S. G. Cartwright, J. P. Victory, I. Sparks and E. Muller.—New Mexican.

Notice of Suit.

Territory of New Mexico, County of Bernalillo.

In the District court.

Mary A. Johnson

vs.

William A. Johnson.

To William A. Johnson, defendant: You are hereby notified that the above entitled cause is now pending in the said court. The plaintiff, Mary A. Johnson seeks to obtain by said suit an absolute divorce from you, William A. Johnson, defendant, on the ground of cruelty and drunkenness; and unless you enter your appearance in said suit on or before the 20th day of October, A. D. 1903, a judgment by default will be entered against you, and the plaintiff will be entitled to the relief asked for in the bill of complaint.

W. E. DAME,

Clerk of said Court.

FRANK ACKERMAN,

Attorney for Plaintiff.

Address: Albuquerque, N. M.

First publication September 5, 1903; last publication September 26, 1903.

RAILROAD NOTES.

Alex. Stevens of the pattern shops, is laying off nursing an illness.

P. J. O'Connell of the local shops, has gone to Fort Worth, Tex., to reside.

Ernest Beardsley, car carpenter, who has been laying off ill the past few weeks, has returned to work.

Anastasio Sanchez, an employee of the Santa Fe at Laguna, suffered having his foot crushed there night before last. He was brought to this city and is a patient at the St. Joseph's hospital.

Felipe Ortiz, a native section hand, was killed one mile east of Kramer, the other day. He tried to remove a track-jack which he thought would be struck by passenger train No. 2 and in doing so was struck by the engine himself and instantly killed. His body was brought to Barstow and the coroner summoned.

The Santa Fe has begun construction of a new depot at Laguna. Twenty-eight men are now engaged in doing the work. A 'unch counter addition will be added to the depot for the accommodation of tourists who stop there to see the Laguna Indian village and also those who go to the village of Acoma, some miles distance overland by trail.

C. O. Haynes, a blacksmith helper in the Santa Fe shops at Needles, was struck by a piece of flying steel from the steam hammer, imbedding itself in his left leg at a depth of nearly four inches, cutting the femoral artery. Drs. Clark and Booth succeeded in tying the artery and the patient is resting comfortably, suffering only from the loss of blood.

The regular annual meeting of the stockholders of the Pecos Valley & Northeastern Railway company will be held at the office of the company at Roswell, N. M., at 10 o'clock a. m. on Wednesday, October 7, 1903, for the purpose of electing directors for the ensuing year and for the transaction of such other business as may come before the meeting.

A native named Juan Ramirez who had been employed on the section here was run down by an engine in the local yards about 150 yards west of the tool house last Monday evening about 8:25, says the Williams News. Both legs were cut off below the knees and the man died later from effects of the shock. It appears that he was watching a train and did not notice the engine in charge of Engineer Lamb and Fireman Kincaid coming from the other direction, though the bell was ringing and red lanterns out. Conductor Graves and Fireman Bensley, who were near by, shouted at him several times but he failed to notice the approaching engine and thereby lost his life. The coroner's inquest exonerated the engineers from all blame.

The Raton Reporter says: The first annual excursion and picnic of the Raton employees of the Atchison, Topeka & Santa Fe railroad, which took place Saturday, August 22, was an unqualified success. Arriving at Las Vegas the excursionists were met by the various committees of the citizens of that town, who exerted themselves to give all a good time. The only hitch in the program was the inability of the electric line to accommodate all who desired to go to the hot springs. All of the sports took place as per program and were enjoyed by an immense crowd. At 8 o'clock in the evening the excursion train left Las Vegas, arriving home a few minutes before midnight. The energetic work of the executive committee is due the credit of the magnificent success of the undertaking.

ON TO ROSWELL.

Engineer Farewell of the Santa Fe Central Left Torrance Yesterday With Surveying Corps.

A surveying corps of fourteen surveyors, chainmen, flagmen, teamsters and a cook, under the command of J. R. Farwell one of the engineers in the employ of the Santa Fe Central Railway company, left Torrance yesterday morning for the purpose of surveying a temporary and permanent line for the Santa Fe Central railway from that point to Roswell.

The distance is estimated as between ninety-five miles as a minimum and 110 miles as a maximum. Engineer Farwell has already made a reconnaissance of the route. A preliminary survey at the rate of about two miles per day will be run to Roswell and a permanent survey at the rate of about one and a half miles per day will be made on the return trip from Roswell to Torrance. The time consumed in this work will be between five and six months. There will be no interruption of work during the winter can go on right along. The difference in altitude between Torrance and Roswell is 2,900 feet and this will give a grade of about one-half of one per cent per mile. The country between

the two points contains no water along the route so far taken, but in several of the arroyos, it is believed water can be had by digging. There is no timber along the route, but the grass is excellent and the range is fine. There are some arroyos of considerable extent to be crossed at the lower end of the line towards Roswell, but upon the whole, the building of the road will be had at a very reasonable cost and quite easy.

READY FOR BUSINESS.

Santa Fe Central in Position to Care For Freight.

B. W. Robbins, general freight and passenger agent of the Santa Fe Central railway, has returned to Santa Fe from a trip to Chicago, Kansas City, Topeka and Denver where he was in conference with the officials of the Rock island, Atchison, Topeka & Santa Fe and the Denver & Rio Grande systems. There are now in effect new tariffs and the Santa Fe Central is prepared to handle through business from the Atlantic seaboard to Santa Fe and from El Paso and points beyond to Santa Fe. The tariff on all classes of freight from the Missouri river and points east went into effect on August 26 and the tariff on all classes of freight from El Paso and points beyond became effective August 28. This puts the Santa Fe Central in position to handle all freight consigned to Santa Fe no matter where originating.

While in the several cities named Mr. Robbins was in conference with the officials of the various roads and he is much pleased with the outlook for the Santa Fe Central.

INSPECT SANTA FE.

Reed and Leeds of Rock Island, Will Visit California.

Two men of great prominence in the railroad world at present, D. G. Reed, chairman of the board, and W. B. Leeds, president of the Rock Island road, are on their way to California over the Santa Fe, says the San Francisco Examiner. It is said they want to inspect the terminals of the Santa Fe at San Francisco and Los Angeles, as well as the main line of road west from Albuquerque. Railroad men consider this trip of Reed and Leeds of great significance, and it is thought it may finally result in either the absorption of the Santa Fe by the Rock Island before the end of the year or in an agreement by which the Rock Island can run its trains west to this city and Los Angeles over the tracks of the Santa Fe from Albuquerque, mention of which was made in The Examiner of last Thursday.

If the Rock Island is to run its train here over the Santa Fe tracks, it is admitted by both the Santa Fe and Southern Pacific people that more sidetracks will have to be built on the Tehachapi mountains between Harkersfield and Mojave for the safe passage of an increased number of trains. The Santa Fe is using the Tehachapi portion of the Southern Pacific under a ninety-nine year joint track lease.

With the advent of Rock Island trains, the yard facilities of the Santa Fe at Point Richmond will have to be materially increased, and the freight and passenger ferry service between here and Point Richmond must be strengthened. It is believed the new freight terminal of the Santa Fe at Calina Basin, now rapidly approaching completion, will be adequate for the business of the two roads in case the Rock Island secures trackage rights from the Santa Fe west of Albuquerque.

Quarterly Conference.

The quarterly conference for the Gallup Methodist church was held last night, and the following report shows the church to be in very good condition:

Members, 51; fifteen having been added this year; members in senior and junior leagues, 42; Sunday year, 190; pastor's salary, \$515; missions and other benevolent assessments, \$85; incidental expenses, \$100. There is only lacking \$38 to make up the above amount, and there yet remains a month before the end of the conference year, which ends September 20.

Rev. Robert Hodgson will leave to hold quarterly conference through this district, and will be absent until after the annual conference which will be held at Roswell September 16. His brother, John Hodgson, will occupy the pulpit at the Methodist church during his absence.—Gallup Republican.

Kansas barbers have raised the price of shaving a corpse to \$5. Is that because they cannot talk to the subject?

The Egyptian pyramids cannot vie in size of stones with the ruins at Baalbek in Syria. The stones of the latter are sixty feet long and twenty feet square.

Mines and Minerals

The Bennett-Stephenson mine of the Organs, is increasing its force, and ore shipments will begin in a few days.

Mr. Gill has purchased a prospect in the San Andreas district that assays 600 ounces silver and about six ounces gold.

The largest refinery in the country is at Bayonne, N. J., to which the pulverized colemanite is shipped in sacks from California.

W. S. Godfrey again visited the Merrimac mine, Dona Ana county, where he has a force of men doing development work.

The Mormon mining company of the Organ district, will put a force of men to work on the Mormon mine the forepart of September.

An effort is being made to get into shape the 50-ton cyanide plant of the Melma Mining company near Baldy, Colfax county, New Mexico.

Work has been resumed on the Palomas Chief at Hermosa by the Palomas Chief syndicate. The property has been a great producer in the past and under its present management it promises to exceed its former record as a producer.

The borax deposits of California have been fully described by M. R. Campbell in bulletin No. 200 of the United States Geological Survey (1902) and by Gilbert E. Bailey in bulletin No. 24 of the California State Mining Bureau (1902).

It is reported that the Planet mining company of Malone county, Arizona, has broken into rich copper ore in the new shaft. Work is going along slowly with a small force of men. As soon as the weather moderates a larger force will be put on.

At the Guerrilla camp, New Mexico, which has produced considerable ore, the usual yield by straight amalgamation is from \$5 to \$12 per ton, while the concentrates and tailings usually assay from \$12 to \$35 per ton.

The Graphic mine, New Mexico, is making its regular shipments of zinc ore. The property has shipped 2,500 tons of the ore to eastern points during the past four months, making no visible show on the tonnage in sight in the mine.

It is reported that the Federal Smelter company of Organs has agreed to sell the Torpedo ore on hand to pay the debts due on the Torpedo, and that the old company will run the mine. They will begin in probably a week or so.

A force of miners are kept at work on the property of the May Mining company in the Big Bug district of Navajo county, Arizona. The new shaft, upon which a hoist and boiler have been put up, is to be sunk to a depth of 300 feet.

Dr. Luton expects to have his new hoist on the Michigan-New Mexico mines in operation soon, says the Lordsburg Liberal. The hoist was shipped with some machinery for the alone mill, and some of the hoist fittings were sent out to Malone, and had to be hauled back, which wasted considerable time.

William Fraser, superintendent of the Fraser Mountain Mining company in Taos county, is at Santa Fe attending to business. He is accompanied by John Larkin and A. C. Twining of New York, who are interested in the Fraser Mountain Mining company.

The Lordsburg Liberal says: Sam Hughes has commenced a suit in the El Paso courts against the Sperior company for \$1,458. He claims he went to work for the Superior on September 15, 1901, and worked until May 25, 1903, at \$100 per month. He has drawn some money, but the above amount is due him. The Roberts &

Leahy Mercantile company has also brought suit against the superior company. It claims to have supplied the Superior company with merchandise of the value of \$1,640.24, and has received a payment of \$30.47, and sues for the balance. This suit was commenced in the district court of Grant county. There are other creditors of the company. The Superior company is understood to have no assets except its mine, and the improvements on it. It will take considerable capital to put the mine on a producing basis. With a working capital it would be a valuable property. Without that capital it is practically worthless.

Since the Amparo Mining company took possession of the Santo Domingo, Mexico, it has opened up all the old works as well as new ones, and it is a wonder. The company is taking out on men's backs, about ninety tons of high grade ore per week, and as soon as the new hoist is installed it will take out 200 tons per week.

The shafts of the O'Dea-Dempsey mines near Kingman, Ariz., have reached a depth of thirty feet and are in splendid ore, much of it showing free gold. Twelve men are now at work on these shafts and it is expected that by the first of October they will be completed to the 100-foot level. If they maintain their values to that depth the Chicago people will take them over at the stipulated price of \$30,000.

At Ouray, Colo., the lower tunnel in the Governor mine is now in 670 feet, and is driving ahead with three shifts. The crosscut is now in close proximity to the gold vein, in which gold ore worth \$40 a pound was discovered in the upper workings. Should the volume of low grade ore prove as large as in the upper tunnel, a contract will be let at once to put up a mill, to be completed this fall. This tunnel, when the vein is cut, will give fully 400 feet of stoping ground.

MINING ACTIVITY.

There Seems to Be Something of Interest in Bisbee District.

There seems to be something afoot in mining circles just at the present moment in the Bisbee district of Bisbee, Ariz., says the El Paso News.

D. A. Carpenter of the Sullivan Rock Drill company has been spending several weeks in that district with his chief engineer, and it is rumored that a large mining deal will shortly be the result of his investigations.

George Pence, the real estate man, has also been in the same district, and he says he got all he went after. He says he rode over a district of 200 miles on horseback in the hot Arizona sun and thinks he is entitled to everything that he sought, and he got it.

Cinnabar Discovery.

The most important discovery of cinnabar on the Pacific coast was made last week on the headwaters of Cleolum river in Kittitas county, forty miles from Ellensburg, Wash., which is more than sixty feet in width, and is traced through three claims for a distance of 4,500 feet, outcropping frequently in great masses.

Numerous assays have been made across the ledge, giving returns of from five to twenty-five per cent. From a crude retort of ten pounds of ore a pound and a half of pure quicksilver was obtained. It is represented by the discoverers as a massive quarry that can be worked by open-cut at very little expense.

Those who have examined the property announce it the largest and most promising body of cinnabar ever discovered on the continent, and predict a great future for it.

C. T. Brown, the Socorro mining expert and engineer, who is interested with Capt. A. B. Fitch in the Graphic mines in the Kelly mining district, left Socorro for Kelly in company with eastern capitalists for an inspection of the Graphic properties.

SAFFORD'S FINE REPORT

He Found Everything All Right in Office of Collector and Treasurer.

Albuquerque, N. M., Aug. 22, 1903.
To the Honorable Board of County Commissioners of Bernalillo County, New Mexico:

Gentlemen: I have the honor to report to your Honorable Body that I have made a thorough and full examination of your Treasurer's Office, and as provided in Section 2, Chapter 54, Session Laws, 1903, submit the following for your consideration:

Statement of account of Frank A. Hubbell, Treasurer and Collector of Bernalillo County, taken at the close of business August 22d, 1903.

To cash as per verified ledger, balance to June 30, 1903.	\$38,405 46
To 1902 taxes collected from June 30, 1903, to date and undistributed.	3,295 43
To 1901 taxes, as above.	183 86
To 1900 taxes, as above.	133 86
To 1899 and prior taxes, as above.	304 76
To merchandise licenses.	211 00
To liquor and gaming licenses.	7,224 00
To miscellaneous collections.	610 00
By warrants, coupons, etc., paid June 30th to date:	
By commissions.	\$ 1 85
By court fund.	797 80
By general school fund.	3,378 65
By district school fund.	2,308 31
By bonds of 1895.	1,593 19
By bonds of 1897.	2,666 04
By bonds school district No. 5.	30 00
By county general fund.	7,411 06
By special school No. 1.	2 30
By special school No. 5.	2 61
By special school No. 13.	8 13
By road fund.	24 77
By survey fund.	24 77
By bounty fund.	3 97
By refunding bonds 1901.	199 28
By refunding bonds 1891.	24 76
By refunding bonds 1892.	1,506 82
Less error in check No. 61.	10 00
	\$20,275 61
Cash in office and cash items verified.	1,754 52
Cash in Bank of Commerce verified.	23,501 25
To error July 30, 1903, cash book.	\$ 130 95
To balance.	31 94
	\$45,531 36 \$45,531 36

I also have further to report that I have carefully examined the accounts of Sheriff Thomas S. Hubbell, and find that since January 1st, 1903, up to the date of this report (August 22, 1903) he has collected liquor and gaming licenses to the amount of \$17,225.00, and which sum, after deducting his 4 per cent commission (\$689.00) he has turned over to the County Treasurer \$16,536.00, and said sum has been properly accounted as above stated for by the last named official.

I hereby certify that the foregoing is a true and correct statement of the balances, credits, collections, etc., of the County of Bernalillo, to and including the close of business August 22nd, 1903.

Yours Very Respectfully,
CHAS. V. SAFFORD,
Traveling Auditor.

F. A. HUBBELL, COLLECTOR AND TREASURER BERNALILLO COUNTY, NW MEXICO, IN ACCOUNT WITH TERRITORIAL 1902 TAXES:
April 1, 1903.

To balance uncollected last statement.	\$34,137 81
Additional assessments.	27 91
Penalties collected.	62 17
By treasurer's receipt No. 3396.	\$16,643 02
By commissions.	693 47
By balance uncollected.	16,891 40
	\$34,227 89 \$34,227 89

Percentage of tax collected and accounted for at this date, 69.55 per cent. I hereby certify that the above is a true and correct statement of the account of Frank A. Hubbell, Treasurer and Collector of Bernalillo County, New Mexico, in account with Territorial 1902 tax.

CHAS. V. SAFFORD,
Traveling Auditor.

THE C. DE BACA POISONING.

Death of Mrs. Vicente M. De Baca, Formerly of Belen, at Denver.

ALL MEMBERS OF FAMILY ILL.

Yesterday The Citizen published a brief telegraphic report from Denver, giving the death of Mrs. Margarita C. de Baca there from poisoning. The deceased, with her husband and children, resided quite a number of years in this city. Her father, Hon. Felipe Chaves, is a well-known citizen of Belen, where the deceased was born.

The following account of the death is clipped from the Denver News, dated August 28:

A mother dead and an entire family convalescent from an illness which had all the symptoms of poisoning, is among the latest events which have aroused interest in Denver. At 4:30 o'clock Wednesday afternoon Mrs. Margarita Chaves de Baca, wife of Vicente M. de Baca, died at the family residence, 1456 Vine street, from uncontrollable vomiting, superinduced, it is believed, by some poison which she had imbibed in her food. Her husband and four of the children were also taken violently ill but are now pronounced out of danger. Mrs. Baca had recently given birth to a son, and was still weak from her confinement. Had she been in her usual condition it is thought she would have been able to throw off the effects of the poison as did the other members of the family.

Funeral Probably Saturday.

Mrs. Baca was 40 years old and was the mother of ten children, all living except one. She had lived in this city with her husband for four years. A sister, Manuella Chaves of Colorado Springs, and a brother, Jose Chaves of Belen, N. M., survive her.

No definite arrangements have been made for the funeral as these are being held up until word is received from the two absent sons, Edmundo Baca who is in Los Angeles, and Guillermo Baca who is in San Francisco. Both were telegraphed for immediately upon the mother's death and are expected to arrive some time today or tomorrow.

were taken in the physicians ordered all the water boiled and that our milk man be changed. I am sure the poisoning, whatever caused it, was purely accidental, and do not for a moment entertain any other doubt."

Cause is a Mystery.

Dr. Waxham, the family physician, is as much at a loss to account for the real nature of the poisoning as anyone, he said yesterday: "I was called in three days ago, when it was reported that Mrs. Baca was violently ill. I found her vomiting and was very much surprised as she had about recovered from her confinement and I had recommended that she sit up for a short time during the afternoon. The other members of the family had previously been sick, with symptoms of arsenical or other irritant poisoning. I had ordered that they cease eating the usual foods until an examination could be made and they grew better, so much so that the real cause of Mrs. Baca's death will, never be known, as nothing was preserved for the purpose of investigation."

As Mrs. Baca's condition soon grew alarming, Dr. W. B. Craig was called into consultation and everything possible was done for the suffering woman. The severe attacks of vomiting continued, however, and in her weak condition she at last succumbed.

Little One Uninjured.

A pathetic feature of the case is the fact that about a month ago Mrs. Baca gave birth to a son, and only the prompt action upon the part of the physicians in taking the baby away from his mother saved his life. The little one now lies cooing and smiling in the nursery upstairs, while below in the back parlor lies the silent form of its mother, surrounded by many burning tapers and the awful stillness of death. Through this baby's veins courses some of the most princely blood of Spain, for he is a direct descendant of Prince Cabeza de Vaca, who was given his title in the year 700 by the Spanish throne for brilliant military achievements. He is the first baby born to the family in Denver and since his coming has been accorded almost royal honors. He has not suffered in any way from the illness which has afflicted the rest of the family, and is a very sturdy specimen of babyhood.

GALBREATH'S INTERVIEW.

Has Aroused Wrath of Order of Railway Conductors.

O. G. Galbreath's interview, in which he stated that the Mexican railway conductors had a habit of "holding out on the companies, has created a decided stir among the Order of Railway Conductors, in Kansas City, as many men in the employ of Mexican roads are members of the order and they feel that a slight has been put upon the entire lodge, says the Kansas City Journal. In discussing the matter they decided to leave it to Mr. B. F. Dickson, general superintendent of the Kansas City Southern. Mr. Dickson was for several years assistant general manager of the Mexican National, now the National Railway of Mexico, and is familiar with the methods of trainmen in that country.

"There is no truth in this story of Mr. Galbreath's," said Mr. Dickson. "When I was in Mexico was brought into close touch with the conductors and trainmen and they are as honest as any set of men on earth. Mr. Galbreath also said that when a conductor had been with a road for three months he was considered an old man. We had men on the Mexican National who had been there as conductors since the road was started and, for all I know, they are there yet. I never had to discharge a single man for 'holding out' fares and I do not believe that the practice is prevalent. The majority of men who are conductors are Americans and they are good, clean American citizens. I don't know what any man's reason can be for making such a statement as that one made, for there is no 'Klondike' there, or any conductor, for they are all honest. The local members of the Order of Railway Conductors feel that the story is a slander on them and resent Mr. Galbreath's charges bitterly."

Yagu River Line to be Extended to Coast.

A report from Cananea, Mexico, states that Chief Engineer McFarland of the Cananea, Yagu River and Pacific line has just returned from making a preliminary survey for an extension of the line south from Cananea. This line is projected to be built south from Cananea to the Pacific coast either in Sonora or Sinaloa and so far Mr. McFarland has made the survey for about 100 miles from Cananea. Three engineering corps are now in the field and will continue the work until they run the line to the coast.

IN GOOD CONDITION.

Santa Fe Central Officials Return From Inspection Trip.

General Manager Hopewell and party arrived in Santa Fe yesterday morning after making an inspection of the Santa Fe Central between that city and Torrance. The party left Santa Fe on a special Thursday morning and the trip to Torrance was made Thursday, says the New Mexican. The train came as far as Antelope Springs last night and remained there resuming the journey to Santa Fe this morning. The road was found to be in very good condition and excellent time was made. There were some spurts of speed attempted and of these a record of a mile a minute was found possible. The train was not run rapidly for any distance or continued time however. The officials report that the road is in

Lincoln County Term.

To Be Held by Judge Parker September 7.

In the absence of the presiding judge of the Fifth judicial district, Associate Justice Frank W. Parker, presiding judge of the Third judicial district, has kindly consented, at the request of the attorney general, to hold the coming Lincoln county term of the district court, convening Monday, September 7. There is much criminal and civil business to be transacted at the coming session of the court and the people of Lincoln county are greatly pleased that they will have a term.

Judge Parker, upon receiving the request from the attorney general, wired to the members of the bar of Silver City informing them that it was necessary on account of the great amount of business in Lincoln county that district court should be held there and that he would like to postpone the coming term of the district court of Grant county in order to hold the Lincoln county term. The members of the Silver City bar readily acquiesced and hence the judge will preside at the Lincoln county term. A special term for Grant county will be held later this fall.

OFFICIAL MATTERS.

Land Office Business.

The following homestead entries have been made: John L. Zimmerman of Santa Fe, 147 acres located in Santa Fe county, being lots 1 and 2, section 20, and N. 1/2, NW. 1/4 and lots 1 and 2, section 21, T. 17 N., R. 10 E. Leonor S. Arellano of Springer, 160 acres located in Colfax county, being the SE. 1/4 section 15, T. 23 N., R. 22 E. Jacobo Arellano of Springer, 160 acres located in Mora county, being the E. 1/2 NE. 1/4, SW. 1/4, NE. 1/4, and NW. 1/4, SE. 1/4, section 22, T. 23 N., R. 22 E.

The following homestead entry was made: Doroteo Fernandez of Maxwell City, 160 acres located in Colfax county, being the SE. 1/4, section 25, T. 27 N., R. 24 E.

Forrest McKinley, special agent of the United States land office, is in the city from Las Cruces. Mr. McKinley is watching the timber depredations and occasionally bags a trespasser of the timber laws.

JOHN DOUGLAS WALKER.

The Professor of School of Music Leaves City Under a Cloud.

JUMPS HIS CONTRACT AND DEBTS.

A few days ago The Citizen in a local paragraph called attention to the fact that Professor John Douglas Walker, who flourished the past year, had skipped out, going to Los Angeles, but in his haste to get out of the city forgot to pay a number of bills which he had contracted at various stores of the city.

The item was read by the local members of the board of regents of the New Mexico University, and they held a meeting yesterday afternoon at the law office of President Clancy of the board of regents and the outcome of that meeting was the issuance of the following letter:

To the Public,
University of New Mexico,
Albuquerque, Aug. 28, 1903.
On behalf of the board of regents of the University of New Mexico, the public is notified that the school of music will be opened and will be continued through the coming school year, notwithstanding the recent, unexpected defection of the director with whom the board had made a definite contract in writing. The indulgence of the patrons of the school is asked for a few days only until the arrival of a new director, which will not be long delayed.

F. W. CLANCY,
President of the Board.

Letter to Walker.

University of New Mexico,
August 28, 1903.
Mr. John Douglas Walker, 116 Chestnut Street, Long Beach, Calif.:

Sir: Your letter of the 19th instant has been received. In view of the nature of the explicit and definite contract you made with the University of New Mexico, you have no reason to expect the acceptance of what you chose to call a resignation, as such an acceptance would imply an acquiescence on our part in your violation of your obligation. We consider what you write as a breach of that contract, and an unpardonable character, and the board therefore, and for other reasons, notifies you that the contract is at an end, and that you are dismissed from the employ of the university. Had we attempted, as you have, to repudiate the contract, you would have denounced us as dishonest, and would probably have resorted to the courts to enforce compensation for your loss. You are evidently of those who wish to bind others, but not to be bound themselves.

Respectfully, JAMES H. WROTH,
Secretary and Treasurer.

Will Get New Director.

Both the president and secretary of the board of regents are in correspondence with certain musical directors, and hope to announce in a few days the engagement of a capable gentleman to take the position of director of the school of music. Until then, Mrs. Mabel Stevens-Himoe of the faculty and very capable, will have charge of the school of music.

It is understood that Professor Walker has left other cities in the same manner he left Albuquerque, and merchants of Southern California, especially Los Angeles, where it is said he will be located, are warned in advance.

It is understood that Walker met Mrs. Himoe in Los Angeles the other day, and gave her a check of \$11, the amount due her from a loan. On reaching this city, Mrs. Himoe presented the check at the bank, and it was found to be bogus, Walker having no funds in the bank.

NEEDS CALLING DOWN.

The Presbyterian teachers' institute of New Mexico is in session at Santa Fe. This is the society that gave Mrs. James of New York, who is their superintendent, the information upon which she wrote a slanderous letter to every member of congress against statehood for New Mexico and Arizona in the first session of the fifty-seventh congress. It will be remembered that Delegates Rodey of New Mexico and Smith of Arizona wrote pretty sharp letters at the time for her impertinence.

It would be a good time now for the people of New Mexico, while this teachers' institute is in session, to go before them and demand at their hands that they substantiate the slanderous statements of Mrs. James, or take the statements back. That was one of the worst letters ever published against the rights of the people of New Mexico and Arizona. The people of New Mexico ought to call down this society right now. Governor Prince is to address them, and Judge Pope is to address them. These gentlemen ought to see to it that the institute pass proper resolutions retracting the slanders that were cast upon the people of the two territories.

This association teaches but 1,500 children in all of New Mexico, mostly Indian children on the reservations and does little or nothing with reference to the 70,000 school children of the common schools of the territory; yet it was impertinent enough to send out its slanderous circular from New York to every member of congress. It ought to be called down.

General Manager Ramsey of the Sierra Madre line, is having published

FIREMEN'S TOURNEY.

Official Program of the Meeting to Be Held in Santa Fe Next Week.

The plans for the third annual convention of the New Mexico association of firemen, which will be held in Santa Fe September 2, 3 and 4, are rapidly nearing completion and the event promises to be one of the most successful meets in the history of the organization, says the New Mexican.

The official program has been prepared and is published for the first time. The lists contain many events and much interest is being manifested in them among the fire-fighters of the different parts of the territory. The cities of Albuquerque, Las Vegas and Socorro have promised good delegations and the teams representing these departments will be the best that the organizations can furnish. The local team is holding nightly practice and there is some good material being developed.

PROGRAM.

September 2, 3 and 4.

Wednesday, September 2, 10 a. m.—Call of convention.

2:00 p. m.—Preliminary heats. Hose coupling. Ladder climbing. Exhibition of apparatus.

8:00 p. m.—Smoker.

Thursday, September 3.

10:00 a. m.—Convention.

2:00 p. m.—Final hose coupling.

2:30 p. m.—Champion wet test.

3:00 p. m.—100-yard foot race.

3:30 p. m.—Final ladder climb.

8:00 p. m.—Grand concert and ball by the Capital City band at the opera house.

Friday, September 4.

10:00 a. m.—Convention.

3:00 p. m.—Finals.

Prizes.

Wet test.....\$100

Team coupling.....\$25

Single coupling.....15

Ladder climb.....20

100-yard foot race.....25

Open only to members of the New Mexico Association of Firemen.

Program subject to change.

LETTER LIST.

Remaining in the post office at Albuquerque, N. M., August 29, 1903:

Persons calling for or sending for these letters please state where they had been receiving mail, also mention date of advertising.

Free delivery of letters at the residence of addressee may be secured by observing the following rules:

Direct letters plainly to street number.

Give writer's name, and request answer to be directed accordingly.

Advertised matter is previously held one week awaiting delivery.

Advertised matter is held two weeks before it goes to the dead letter office at Washington, D. C.

Ladies' List.

Agulay, Mrs. Dam-Kaiser, Mrs. W. H. Asia, Lubig, Mrs. M.

Armijo, Mrs. Rosita Moostan, Amy Baca, Dimitria Olson, Carrie

Cornell, Mrs. S. F. Rogers, Eva Carroll, Mrs. J. S. Sanchez, Mrs. C. Douglas, J. Freda Turitta

Dodge, Mrs. Paul R. Sanchez, Colla Greene, Mrs. R. A. Shields, Mrs. El-Hull, Mrs. Emma Smith, Mrs.

Kruger, Mrs. Arth-Warren, Mrs. Jesse

Men's List.

Adair, Hlat Key, J. V.

Anaya, Anastasio Moore, Geo. D.

Blum, Alfredo Flo-Montoya, Andreas

Boatwick, C. R. Barale, Alfredo

Cartwright, W. L. Carver, William

Condel, Fred McKee, T. H.

Evans, Jack Peterson, Richard

Fall, Geo. Quintana, Demetrio

Gall, George Romero, Victor

Grant, J. C. Stevens, John

PRESBYTERIAN TEACHERS

Of Mission Schools Holding Meetings at Santa Fe.

LIST OF TEACHERS AND SCHOOLS.

The Presbyterian teachers' institute for the territory of New Mexico held the opening sessions in Santa Fe yesterday afternoon at 2 o'clock. The sessions are being held in the Allison school and there are about for teachers in attendance. The institute will continue for one week and the program includes many features of more than usual interest. Besides the teachers themselves who will take part in the exercises are Rev. George F. McAfee, D. D., of New York, Rev. H. C. Thompson of Albuquerque, J. L. McTavish of Haverhill, Mass., ex-Gov. L. Bradford Prince, Judge W. H. Fox of Santa Fe, and Prof. Henri De-champs. There was a lecture last night at the Allison school on the "Conquest and Colonization of New Mexico," the speaker of the evening being ex-Gov. Prince.

The program for yesterday afternoon included an address of welcome by Miss M. Bertia Leaningham, principal of the Allison school, and a response by Miss Etta Moore of Raton, or H. C. Thompson delivered an address on the subject of which was "Samuel and Saul." Rev. W. Hayes Moore, pastor of the Presbyterian church of Santa Fe addressed the teachers of their work. The presiding officer during the institute will be Rev. K. M. Craig, synodical missionary and superintendent of the Presbyterian schools for New Mexico.

The work done by the Presbyterian schools is very extensive and the board of home missions of the Presbyterian church spends annually over \$86,000 in the educational work of the church in the territories of New Mexico and Arizona. There are at present in the territory of New Mexico twenty-five schools and in them are taught, according to the last reports, 1,611 children. There are two boarding schools one for girls in Santa Fe and one for boys at Albuquerque. The school at Albuquerque has now in course of erection a new \$10,000 building. In the two boarding schools there are about 250 pupils. The other schools are scattered over the territory and about forty teachers are engaged in the work. At Tucson there is an Indian school having fourteen teachers and an attendance of 135. A new work has also been instituted among the Pueblo Indians and a hospital, school and mission have been erected at Jewett, San Juan county. The work among the Papagos in southern Arizona is quite extensive and there are also schools at Ganada and Needles for the education of the Mohaves.

Schools, missions and teachers in the synod of New Mexico:

Tucson mission—F. S. Herndon, missionary.

Tucson training school—Haddington G. B. own, superintendent; Miss Mary McCarrie, Miss Minnie M. Shaver, Miss Laura W. Pierson, Miss Dorotay B. Venart, teachers; Miss Florence Dille, girls' matron; Miss Sophia Ostermier, industrial teacher; Miss Amanda Rundquest, industrial teacher; W. L. Palmer, farmer.

Laguna, N. M., mission—Rev. John Morley, missionary.

Jewett—Miss J. Ione Stannard, M. D., medical missionary.

Albuquerque training class—Rev. Henry M. Thompson, D. D., missionary.

Manual school—J. C. Ross, superintendent; Dennis W. Crawford, principal teacher; Misses Laura B. Soule, Sarah J. Sutherland, teachers; Mrs. J. C. Ross, matron; Miss Anna T. Hunt, assistant matron; Miss Sarah J. Ross, assistant matron; Miss Sibella E. Rutherford, assistant matron.

Agua Negra—Miss Anna D. McNair, teacher; Miss Susan E. Blackwell, teacher.

Arroyo Hondo—Mrs. Bessie Watson Wiss, teacher.

Arroyo Seco—Jacob Mondragon, teacher.

Canon Bonito—Robert W. Hall, teacher; Mrs. Robert W. Hall, teacher.

Chimayo—Miss Prudence Clark, teacher; Miss Jennie Clark, teacher.

El Rito—Miss S. Louisa Conklin, teacher.

Emudo—Miss Isa E. Dwire, teacher.

Las Cruces—Miss Elizabeth D. Porter, teacher; Miss Marion A. LeDue, teacher.

Las Truchas—Miss Rebecca S. Meeker, teacher.

Las Vegas—Miss Bertha L. Huntley, teacher.

Los Alamos—Miss Henrietta Caskey, teacher.

Pajarito—Miss Bertha A. Little, teacher.

Penasco—Miss Sue M. Zuber, teacher.

Raton—Miss Etta Moore, teacher.

Santa Fe—Miss M. B. Leaningham, principal; Miss Olinda A. Meeker, teacher; Miss Harriet Woodward, teacher; Miss Beale F. Reid, teacher; Miss Antoinette Brengle, matron; Miss Bryant, sewing teacher; Miss Emma Brown, industrial teacher; Miss Myrtle B. Morrow, industrial teacher.

Taco—Miss Edith M. Davis, teacher.

El Prado—Miss Elizabeth W. Craig, Miss Lucy Craig, teachers.

Ranchos—Miss Alice Hyson, teacher.

Arantimata—Miss Alice A. Blank, teacher.

Mora—To be filled.

Socorro—To be filled.

MARTINEZ, PETRONILA U. DE—Land 200 by 700 varas; bounded north by Jose Romero, south by A. Garcia, east by J. A. Lee, west by Grant limits. Taxes, \$4.15; costs, 20 cents; total, \$4.70.
MARTINEZ, ANTONIO—Land 50 by 50 varas; bounded north by road, south by Gonzalez, east by road, west by P. Gonzalez. Taxes, \$6.23; costs, 32 cents; total, \$6.90.
MARTIN, VINCENTE—Land 50 by 50 varas; bounded north, south and east by street, west by Romero. Taxes, \$12.45; costs, 60 cents; total, \$13.40.
McKIMM, C. A.—Lot 13, block 7, Croason & Kennedy addition. Value personal, \$50. Taxes, \$6.23; costs, 32 cents; total, \$6.75.
PERERA, PEDRO—House and lot. Value personal property, \$150. Taxes, \$8.35; costs, 35 cents; total, \$9.25.
PERERA, DAVID—Land 25 by 43 feet; bounded north by I. Perea, south by C. Girard, east by Priests, west by road. Land 38 by 12 feet; bounded north by I. Perea, south by owner, east by Fathers, west by V. Santillanes. Value personal, \$30. Taxes, \$1.87; costs, 10 cents; total, \$2.07.
ROMERO, FELIX—Land in Precinct No. 35, 40 by 160 varas; bounded north by A. Candelaria, south and east by Manuel, west by acacia. Land in Precinct No. 35, 39 by 135 varas; bounded north by J. Lorenzo, south by road, east by arroyo, west by acacia. Land 33 by 67 varas; bounded north by J. Candelaria, south by road, east by J. Candelaria, west by J. Deberns. Value personal, \$30. Taxes, \$14.53; costs, 71 cents; total, \$15.25.

Grove's Tasteless Chill Tonic

has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c.

Enclosed with every bottle is a Ten Cent package of Grove's Black Root Liver Pills.

Railroad Topics

C. E. Butta, agent of the Denver & Rio Grande railroad at Tres Riedras, and wife, are visiting at Santa Fe.

The Santa Fe road has just awarded the contract to C. A. Fellows of Topeka, for the construction of a new passenger depot at Oklahoma City. It will cost about \$50,000.

The annual conference of master mechanics of the Santa Fe coast lines is now in session at Los Angeles. Those who have reported are: M. J. Drury of the Winslow division; S. L. Beam of Albuquerque; H. Schaeffer of Needles; A. C. Todd of San Bernardino; and E. H. Harlow of Point Richmond.

The Milwaukee & St. Paul road has completed the construction of its Kansas City cut-off, running from Muscatine to Hedrick, Ia., and will open it for traffic September 1. The construction of this cut-off will reduce the length of the line between Chicago and Kansas City from 530 to 485 miles.

The railway employees of the territory have recently organized a loan and savings association, the objects of which are to encourage the men in saving and investing their earnings at a good rate of interest; also to assist those who wish to buy homes by loaning them funds on more reasonable terms than have heretofore been offered. The officers selected are as follows: President, Frank J. Easley, superintendent Atchison; Topeka & Santa Fe, Las Vegas; vice president, John F. McNally, superintendent, San Marcial; secretary, W. J. Lucas; treasurer, D. A. Sullivan; manager, G. M. N. Parker; attorney, Ralph E. Twitchell. Similar companies have been running for many years, each of which has made a grand success.

The Santa Fe railway has made a rate of one fare for the round trip on all horses intended for exhibition purposes at the territorial fair to be held in Albuquerque, October 12-17. This includes outlay horses which are intended to enter the contest for purses offered by the fair association for the fiercest outlays in the southwest. The freight on all horses must be paid from the shipping station to Albuquerque and they will be returned free of charge. This applies to cow ponies, broncos and outlays. If only one horse is shipped the rate will be charged at 2,000 pounds; two horses at 3,500 pounds; three horses at 5,000, and each additional animal at 1,000 pounds. The agent at each station has the rate to Albuquerque and will furnish it on application. P. F. McCanna at Albuquerque will furnish any other information wanted.

Bucklin's Arnica Salve.

Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for cuts, corns, burns, boils, sores, felons, ulcers, tetter, salt rheum, fever sores, chapped hands, skin eruptions; infallible for piles. Cure guaranteed. Only 25c at all druggists.

AFTER THE SCALPERS.

They Used Fountain Pens in Their Manipulations.

The following statement is made by the executive board of the railway ticket protective bureau relative to ticket manipulations by scalpers:

From investigations made by this bureau it has developed that one of the most fruitful sources of revenue to ticket brokers interested in the manipulation of railroad tickets comes from their ability to increase the value of tickets by changing signatures, destinations, day's limits, etc. Specially prepared inks in fountain pens are placed in the hands of brokers' agents, including bona fide travelers who patronize ticket brokers' offices and who purchase tickets in regular railway ticket offices under the direction of brokers, to use in signing tickets. These fountain pens are kept in stock by brokers and contain volatile inks which evaporate and disappear from the surface of tickets. When it is desired to scalp a ticket the broker furnishes the passenger with a fountain pen with which to sign his name to contract ticket at the time the ticket is bought. The passenger is specially instructed to use this fountain pen and not under any circumstances use the ordinary pen and ink usually provided at ticket counters. Almost by the time the first point upon which the ticket is to be scalped is reached the original signature has evaporated, making erasures by chemicals or knife easily possible. The second signature is made in brokers' offices at first scalping point by the purchaser in his own name with the same kind of ink. This plan is followed out at the different points at which ticket is scalped until it is entirely used up. This makes it difficult, if not impossible, for conductors, agents and others to locate transferred tickets through the best available means, that of the signature of original purchasers.

Terrible plagues, those itching, peeling diseases of the skin, put an end to misery. Doan's Ointment cures. At any drug store.

Death Rate Decreasing.

General George M. O'Reilly, chief of the medical department of the United States army, with headquarters at Washington, who is making a trip of inspection of the general hospitals, was at Fort Bayard Sanitarium last week, and while there made a thorough investigation of the institution. General O'Reilly expressed himself as

highly pleased with the methods employed. It is understood that recent statistics show a falling off in the death rate at the sanitarium of ten per cent.—Silver City Enterprise.

Raised From the Dead.

C. W. Landis, "porter" for the Oriental hotel, Chanute, Kans., says: "I know what it was to suffer with neuralgia; deed I did, and I got a bottle of Ballard's Snow Liniment and I was raised from the dead. I tried to get some more, but before I had 'deposited' my bottle, I was cured entirely. I am telling the truth too." 25c, 50c and \$1 at J. H. O'Reilly Drug Co.

LIKE THE SANTA FE.

Northwestern's Big Expenses Ate Up the Year's Profits.

According to its forty-fourth annual report, the Chicago & Northwestern railway company during the year ending May 31, 1903, earned more money than in 1902, but its expenditures were so much larger that its net profits were decreased.

In the year covered by the report the passenger earnings exhibited an increase of \$1,130,137, the freight earnings an increase of \$1,734,172 and the express, mail and miscellaneous earnings an increase of \$314,349, a total increase of \$3,178,659. On the other hand, the operating expenses increased \$2,855,867 and the outlay for taxes and revenue stamps \$398,603, making a total increase in the expenditures of \$3,254,470. There was, therefore, a decrease in net earnings of \$55,811.

Distress After Eating Cured.

Judge W. T. Holland of Greensburg, La., who is well and favorably known, says: "Two years ago I suffered greatly from indigestion. After eating, great distress would invariably result, lasting for an hour or so and my nights were restless. I concluded to try Kodol Dyspepsia Cure and it cured me entirely. Now my sleep is refreshing and digestion perfect." Sold by B. W. Briggs & Co. and S. Vann & Sons.

ALL WERE REPRESENTED.

Santa Fe, Rock Island and Union Pacific Form a "Merger."

"I have had some queer experiences in railroad traveling," said a man who arrived in Kansas City from the west to the Kansas City Journal, "but the way I got to Kansas City today was a new one. Perhaps it is not so unusual as it seemed to me, but I have never struck such an arrangement before.

"I came from the west on the Rock Island. When that road reaches Topeka, it takes the Union Pacific tracks from there to Kansas City. Today, however, the Union Pacific was suffering from a washout, and its line was out of service. So the Rock Island had to plan another way of getting into Kansas City, and it came over the Santa Fe. This in itself would not be unusual, but as it changes engines in Topeka, dropping its own for one of the Union Pacific, expecting to use that road's line, as is the custom, we were actually hauled to Kansas City on a Rock Island train by a Union Pacific engine over the Santa Fe tracks, and we carried engineers on all three roads on the engine, at that."

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from indigestion, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at J. H. O'Reilly Drug Co.

The Last Farewell.

The following "prospective Part program" from an exchange is interesting though not official:

1. "Farewell Forever."
2. "I Say Au Revoir, but Not Good-bye."
3. "How Can I Bear to Leave Thee?"
4. "Back Among the Old Folks Once Again."
5. "She Said Good-bye."
6. "Only to See Your Face Again."
7. "Bid Me Good-bye and Go."
8. "It Don't Seem Like the Same Old Smile."
9. "I Don't Care if You Never Come Back."
10. "Tosti's Good-bye."
11. "Fare Thee Well, For I Must Leave Thee."
12. "I Will Return Again."

SPEED OF EUROPEAN TRAINS.

American People Receive More Consideration and Comfort.

Vice President Paul Morton, of the Atchison, Topeka and Santa Fe, who recently returned from Europe, is quoted in a newspaper interview as follows:

"As to speed of trains in Europe, it is about the same as ours here, although a friend of mine, H. H. Freedland, of New York, said he had traveled 700 miles on the 'Oriental Express' at the rate of eighty miles an hour—fifty miles straightaway, twenty miles up and down and ten miles sideways.

From close observation of the transportation question, I am satisfied that the American people receive more comfort and better facilities in every way for less money than those in any European country, and that both passenger and freight rates in the United States are 3 to 13 per cent cheaper

than those abroad, while the employees of American railroads receive in wages nearly twice as much as that paid to similar workmen in Europe."

Rock Island Contract.

Sixty experienced track layers were sent from Kansas City to Amarillo, Texas, last night by the Rock Island railway, says the Kansas City Times. These men will join a construction crew which is gathering at Amarillo to resume work on the Rock Island "cut-off" from Amarillo to Tucumcari. Work was suddenly ordered discontinued on this line a few weeks ago and it was rumored that the road would not be built. No reason was ever assigned for discontinuing the work. The "cut-off" is 112 miles long. It will be several months before it is ready for operation.

The Rock Island has let the contract for laying the rails on its new road from Versailles to Kansas City. It went to J. H. Roberts of Versailles. According to the contract, work will begin within sixty days. Much of the roadbed has been completed and the work of laying rails will be pushed rapidly this fall. The Rock Island is securing a large number of men here now for construction work.

They Work While You Sleep.

Every reader will recognize the title as the famous catch-line of Cascarets. Candy Cathartic, familiar to every household. "Work while you sleep" was the motto of Maj. H. L. Kramer, the man who made Cascarets famous, before he recorded his wonderful success with this wonderful medicine. They say that Maj. Kramer succeeded by incessant work—pluck, not luck—and that he not only worked while others slept, but worked while he slept himself. Now he lets newspaper advertising work while he sleeps.

A Train With a Pain Garden.

A million dollar company is to be incorporated to operate a train of five cars between New York and San Francisco, with so many improvements and conveniences that a patron will hardly know he is out of his hotel if he does not look out of the windows. Passengers will be booked only from one best hotel of each city through which it passes. It is planned that the train shall have every convenience, from a palm garden to a laundry. An endeavor will be made to complete the trip across the continent and return every ten days, and if successful the service will be increased.

Owes His Life to a Neighbor's Kindness.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, West Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea, was attended by two physicians who gave him little, if any relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists.

Glad There Are Others.

There is one woman poet in New York who will read poetry carefully until the edge of a recent error wears off. She spent two days on a touching poem, the pivotal line which read:

"My soul is a lighthouse keeper."

When the printer finished with it the line read:

"My soul is a light housekeeper."

The Proper Treatment for a Sprained Ankle.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by all druggists.

TOOK A TRIP IN THE TANK.

Novel Scheme to Beat a Railroad Discovered by Inspector Jorj.

Some very odd things occur in this world and not a few of them come under the observation of railroad men, says the Concordia, Tex., Blade. One of these developed in the yards of the Missouri Pacific railroad, the discoverer being J. B. Jorj, inspector at this point for the railroad weighing association.

The duties of Mr. Jorj, among other things, compel him to inspect and weigh freight transferred from one road to another and following this line of duty he yesterday inspected a car containing an engine and separator shipped from Abilene over the Santa Fe and transferred to the Central Branch at this point, its destination being Stockton.

The first thing Mr. Jorj noticed was that a couple of bicycles and a stove had been loaded on the car, hidden so they would escape observation on a merely casual inspection. This led him to look further, with the idea that he might find other goods on the car that should be shipped in another class, but he was barely prepared for what he found.

Going to the water tank of the outfit he found the lid, which is only a foot square, nailed down with a couple of small nails, so he applied the bar and opened it up. His surprise may be imagined when he found on the inside not goods, but a man, lying on his back and taking his ease, he having adopted this plan to beat his

WHEN BABY IS COMING USE Mother's Friend

Woman's greatest dream of beauty and glory is when nature has chosen her to become a mother. Every faculty is keenly alert as she foresees the joy, ambition, success and the life-long satisfaction coming nearer, day by day, in the dear and innocent being so soon to see light, and the uncertainty whether she shall see a sweet girl or a brave boy face beside her on the pillow adds zest to her expectancy.

Mother's Friend applied externally throughout pregnancy will relieve the pain of parturition, and no mother and child can fail to be healthy, hearty, strong, clear complexioned, pure blooded and cheerful in disposition, who are mutually influenced by the continued use of this great liniment, MOTHER'S FRIEND.

Buy of druggists, \$1.00 per bottle. Our treatise "Motherhood" mailed free. THE BRADFIELD REGULATOR CO., Atlanta, Ga.

way. The man had but a small crack in the lid through which to breathe, but appeared to have suffered no inconvenience. He was ordered out of his rest and at once decamped. The presumption is that he was one of the threshing crew and had been nailed in by some of his companions to beat the railroads out of his fare.

As the stove and bicycles were re-billed from here at the regular rates for uncrated wheels, by the time the charges are paid the owners will find they are not much to the good.

Group.

Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup (the child will cry for it), and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50c at J. H. O'Reilly Drug Co.

Civil Service Situations.

The United States civil service commission announces an examination on September 16 for the position of veterinarian in the Philippine service at \$1,600 per annum. On September 29 and 30, for the position of draftsman, qualified as typewriter, at the United States military academy, West Point, N. Y., at \$1,600 per annum. On October 16, for the positions of estimate clerk and computer, at a salary of \$1,600 per annum; jacket writer, salary \$1,600 per annum; proof-reader and reviser, salary \$1,600, all for the Philippine service.

Fearful Odds Against Him.

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies: "I'm on the road to complete recovery." Beat on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by all druggists.

W. E. Johnson filed suit in the district court against the El Paso-Northeastern Railway company for \$25,000. In his petition he claims that he was using a crowbar as a section hand on the road between French and Dawson when the crowbar slipped and he fell on his back, injuring his spine. Plaintiff alleges a defective condition of the crowbar as the cause of his fall and injuries, and wants damages as stated above.

BRAKEMAN KILLED BY TRAMPS.

Shot Because He Tried to Put Them Off the Train.

Trainsmen coming in from Tucson last evening bring the news of the killing of Brakeman Bussey. By some Mexican tramps, while on a train coming into Tucson from the west, says the El Paso Herald.

Brakeman Bussey attempted to drive the men off the train on which he was running, when one of them pulled a revolver and shot him in the neck, cutting an artery.

Mr. Bussey was on top of and toward the head of the train when the shooting occurred and he started to run back to the caboose to the conductor and rear brakeman, at the same time signalling to them that something was wrong. They started towards him, but before he could be reached he reeled and fell, from the loss of blood. In falling he fell between the cars and landed with his breast across the rail. As the train was moving at the time the wheels passed across his chest in such a manner as to entirely sever the head and right shoulder and arm from the body.

The remains were brought into Tucson for interment. The men who did the shooting jumped off the train and started to flee. The conductor and

brakeman exchanged shots with them, but were unable to even wing any of them. Officers started after the men as soon as they could, but up to the present they have not been captured.

As the accident happened at Red Rock, a small station a few miles west of Tucson and at 9 o'clock at night, the desperadoes had the advantage and it will be a hard matter to get them.

"Now good digestion waits on appetite, and health on both."

If it doesn't, try Burdock Blood Bitters.

INSTITUTE ANNIVERSARY.

Oldest Catholic Society Celebrating Its Thirtieth Birthday.

Washington, Sept. 3.—Carroll Institute, one of the best known Catholic institutions in America, celebrated its thirtieth anniversary today with a public meeting and banquet attended by diplomats, public officials and scores of other eminent members of the Roman Catholic church.

The institute, which was founded in 1873, and named in honor of Archbishop Carroll of Maryland, has for a quarter of a century been the center of Roman Catholic social and literary life in the national capital. Brilliant receptions to high dignitaries of the church, conventions of national interest to Catholics and mass meetings of more than local importance have been held within its walls on various occasions, all of which has caused the institute to become a familiar name among the Catholic people of the entire country. The institute occupies a handsome building of its own in Tenth street, formally opened in 1893 with a brilliant reception in honor of Cardinal Satolli.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists. G. G. Green, Woodbury, New Jersey. J. H. O'Reilly & Co.

Stomach trouble.

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook Farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25c. For sale by all druggists.

A. D. McEvoy, recently appointed special officer for the Albuquerque end of the Albuquerque-Winslow division, is in the city and has taken up his new duties. He was formerly a member of the police force of San Francisco.

PLAQUE OF THE NIGHT.

Keep Thousands of People in Albuquerque Awake.

Keeps you awake; can't sleep a wink.

Bad enough if you lose your rest. But it's harder still to bear at work. Breeds misery day by day, profanity at night.

Know what it is?

The bane of all classes of people—itching piles.

Itch, itch, itch. Nearly drives you crazy.

Hard to bear, hard to walk, hard to sit down.

Itching away, in any position, any time.

Don't stand it any longer.

There's a relief for everyone, prompt and permanent.

Doan's Ointment relieves at once. Doan's Ointment cures permanently. Piles, eczema and all skin diseases. Read what a local citizen says:

J. Johnston, machinist in the Santa Fe R. R. shops, residence 605 South First street, says: "When a man has itching hemorrhoids commonly called piles and he has to work every day the annoyance becomes positively a plague and he is more than anxious to get rid of it. When Doan's Ointment first came to my notice I wrote to the manufacturers of for a box and used it as directed. It stopped the attacks. I have not the slightest hesitation in advising all residents of Albuquerque if annoyed in any way with hemorrhoids or piles to go to the Alvarado Pharmacy, buy Doan's Ointment, take a course of the treatment and the annoyance will cease."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitutes.

PRINTING

There are different kinds, to be sure. Moreover the quality of stock on which it is done must be considered if you would create a good impression of yourself amongst your customers. You might think it would not make any difference, but if public opinion on that point was weighed you would find that it is quite a factor in drawing trade. Don't be behind the times. If you want to keep pace with civilization, you must follow customs which is naturally the greed of every man, now-a-days, who has genuine pride. The art of printing is something that few people can acquire. They may print, but the art is not present. Again, the art may be there, but the stock on which the printing is done is of the poorest quality, which entirely obliterates the art that would otherwise be apparent. Then again, the quality of ink and nicety and distinctness of color used are something that counts in bringing out beauty of art into display. The CITIZEN printing department carries nothing but the best quality of stationery, such as letter heads, note heads, bill heads, etc., as well as the finest of ink, and turns out daily evidence of the finest workmanship in the city. If you want cheap, tacky-looking printing, go to the places where you can obtain it; but if you want first-class printing, send it to The CITIZEN printing department, or telephone to us and we will call and get your order.

RULING

requires an exactness that is much admired when accomplished. If your blank books are ruled properly they will always look neat, if in the hands of a first-class book-keeper. If they are not ruled with exactness they will never look neat, even though handled by an artist in book-keeping. To be exact requires skill and patience, which is acquired by long experience and perseverance. When a person possesses it his services are in demand in any first-class bindery. The CITIZEN has a first-class bindery and therefore employs the best skill.

Bill heads, letter heads, note heads, vouchers, invoices and blanks of every description are ruled with the same skill and neatness as the finest blank book that was ever turned out. If you want such work telephone to The CITIZEN.

BINDING

is everlasting when properly done. Every business man would like to preserve his books, but he cannot do it when they are in a dozen pieces after he uses them up. He does not want them to break, neither does he want them to be tight in the fold, if so, they cause him great inconvenience. There is much in the way a book is sewed. If it is not sewed properly the breaking of a single thread will occasion an entire section of twenty pages to come out, necessitating the rebinding of the book, causing loss of time and inconvenience. If you want a good blank book you should get one with a patent flat-opening back, thereby enabling you to utilize all the space in the fold, that you would otherwise not be able to do. Then the quality of paper used is just as essential in turning out a fine book as is the workmanship. The CITIZEN carries a full stock of the finest ledger paper manufactured. When you want any kind of a fine blank book telephone to The CITIZEN and our representative will call.

Advertising

The word itself is exhilarating to a man that has a high ambition, whether socially, financially or otherwise. It is the same with a business man. He has to obtain advertising in some way before he will be successful. There are different degrees of success. The more advertising you get the greater amount of business you transact, a fact that non-advertisers admit themselves. "All things do come unto man." He has to go after them. If he wants advertising he pays for it just the same as any commodity. You may say some men obtain advertising for nothing, but the don't. They pay for it in an indirect, if not a direct way. Thus every man pays for his share. The world owes a man a living, but he has to earn it, and if a man wants advertising he must pay for it. It is better to pay in a direct way and obtain more results than to pay in an indirect way and obtain fewer results. The direct way for a business man to advertise is to talk to the people through an advertising medium that has a place by the fireside of every home within his field for business. The CITIZEN has that place and will always have it.

If the ability of its readers to buy articles of luxury as well as articles of necessity is questioned, then forever will The CITIZEN defend them. Regarding the comparative value of morning and evening papers, it is a fact that a morning paper is before its readers but for an hour or so, while an evening paper is before the public from 5 o'clock until bedtime, and is read by men who labor all day and who have not time to read the morning papers. Therefore the superior value of an evening paper over the morning paper as an advertising medium is quite evident.

The CITIZEN is a home paper. Why? Because the residence portion of the city being not more than ten minutes' walk from the business center, the business man has ample time to read the evening paper before going to lodge or to the club, and he does so. When he has finished reading his paper it is left at home and thoroughly read by the other members of his family.

The ladies of Albuquerque read The CITIZEN, and as it contains all the news, both foreign and local, why should it not command the circulation that it does? If you want results advertise in the

The Daily Citizen

LEEDS' EX-WIFE TO WED.

New Chapter in the Rock Island Head's Domestic Affairs.

WOMAN'S WAR WAGING.

Friends of Mrs. W. B. Leeds in New York have received word that the former wife of the millionaire tin plate manufacturer, to whom was paid \$1,000,000 by Leeds on condition that she obtain a divorce, is to marry again, says a dispatch from New York.

Mrs. Leeds No. 1 lives in Richmond, Ind. She was a Miss Gaar, and was a wealthy woman in her own right when the president of the Rock Island railway led her to the altar about eighteen years ago. Mr. Leeds was not then as wealthy as he is today and not so much in the public eye. A beautiful woman, Mrs. Leeds was a social leader in the west.

For years the family lived in Richmond, and there was, on all appearances, no more devoted couple than Mr. and Mrs. Leeds, in a community where millionaires are not as common as they are on Fourth avenue or in Wall street, they were much in the public eye in a social way.

She Charged Desertion.
Three years ago there was a shock to the people of Indiana and to the friends of Mr. and Mrs. Leeds due to the application for a divorce by Mrs. Leeds. She alleged desertion, which in the Hoosier state is a ground for divorce. When the case was called it was all over in thirty minutes. It was proved to the satisfaction of the court that Mr. Leeds had taken himself away and had not been home for a long time.

Mrs. Leeds married again, and the rivalry between his two wives has for some months been one of the leading topics among the smart set all over the country. Last winter both met at Palm Beach. A feminine duel of the bitterest kind was the result. It was fought with gorgeous frocks, brilliant gems and unique entertainments. Each did her best to outshine the other, but at the end of the winter neither had triumphed. Again at Saratoga in the last week the picturesque contest has been renewed and is still waging fiercely.

Cost Him a Million.

The gift of William B. Leeds of a \$65,000 string of pearls to his bride in Cleveland was not the most costly part of his second marriage three years ago, nor the interesting feature. The groom was divorced only three days prior to the wedding. The cap to the climax of events was furnished by the announcement that Jeanette Irene Leeds, his first wife, demanded and received \$1,000,000 from her husband before consenting to the granting of the divorce which enabled him to wed Nannie May Stewart Worthington, a Cleveland divorcee. The amount of the consideration is said to have been paid in stocks and bonds.

Leeds' wedding expenses, not including a magnificent new yacht, on which the couple enjoyed their honeymoon, was \$1,500,000. His gifts to the bride cost \$500,000.

The story goes that Mrs. Leeds No. 1 declined to accommodate her husband by going into court and praying for a divorce when he made the request of her. She knew of his engagement to the young Cleveland woman and to his entreaties for a divorce only smiled, finally, when he threatened to go into court himself for a divorce. Mrs. Leeds said "Go!" But he did not go. For five years he had not lived with his wife. Why they separated is a secret that both have kept. Friends guessed at it, but Mrs. Leeds said nothing. She was absorbed in the education of her boy, Rudolph, now 16 years old.

Leeds Was Once Poor.

It is seventeen years since, as a poor young man in an obscure Indiana town, he was married. Leeds lived with his wife twelve years. Fortune smiled on Leeds. He got on top in the tin plate industry and controlled a number of the steel plants that were absorbed by the tin plate combine and became chairman of the executive committee of the pool. He was all business until he met Nannie May Stewart, the divorced wife of George E. Worthington, Cleveland, a steel center and much of his time was spent there. It was three years ago he met Nannie May Stewart Worthington, a beauty, and married. There developed an affection between these two which forced two divorces and cost Leeds almost \$2,000,000.

The woman obtained her freedom in time, but the first Mrs. Leeds would not accept divorce until she saw her husband was irretrievably lost. Then she demanded terms which only a Croesus could comply with. Croesus-like Leeds, who had not lived with her for five years, showered the gold at her feet.

The first Mrs. Leeds was approached by her husband and asked to name a cash consideration to release him from the bonds of matrimony. She said, the story goes, \$1,000,000 was not too much for a man to pay who wanted to marry a woman half his age. Leeds seemed to think his second love was rated at a high figure. He tried to "bear" the price. Mrs. Leeds declined to bicker. The young divorcee of Cleveland was growing impatient and threatened to drop her woe if he did not make haste to wed her before the wedding season was over. The yacht was bought, a trip to Europe planned, the bride presents ordered, and yet the old marriage was

not dissolved. The daring speculator it is alleged sent \$1,000,000 to his former wife, who was living at the Virginia hotel waiting for the acceptance that she knew would come.

The Divorce Granted.

August 1, three years ago, the bill for divorce was filed. Fifteen minutes later Judge Bishop of the Chicago court listened to the testimony of a middle-aged woman, quietly dressed, she said her husband had deserted her five years before. She knew of no cause for his conduct. The judge looked upon the case as an ordinary one. The usual denial had been filed by Leeds' attorney, but no defense was made in court. Half an hour after the filing of the bill the decree was granted. That evening Mrs. Leeds, the first, left Chicago for the east. She went to Europe with her boy.

For two years Leeds lived in Chicago and was regarded as a bachelor. A few acquaintances know his history and wondered why his wife did not share his success and his fortune. She lived in seclusion in Indiana in the town where she met him when he was poor and obscure. She is a plain middle-aged woman. His second wife was not plain and shines in the front row of trust magnates' wives in New York. His first wife started him on his business career and her price for his freedom shows that she had not lost any of her commercial acumen. She will not speak of her domestic affairs.

You Know What You Are Taking.
When you take Groves' Tasteless Chili Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

RINGLING'S CIRCUS.

The Big Show Will Be Here on Friday, October 9.

Samuel McCracken, the assistant general contracting agent of Ringling Bros' circus, is in the city today, and is making certain contracts for the big circus to be here on Friday, October 9. The Ringlings have an immense circus, and they will be well patronized here.

POLICE COURT.

A Complainer Gets Himself in Trouble by Complaining.

Cahrires Power made a complaint against Ed Lane, Thomas Thompson and Frank Gearheart yesterday, but this morning he was a prisoner in the dock and those of whom he complained went free. He was found guilty of being meddlesome with other people's business and also of striking his wife. Power is a hard worker and a good citizen when sober, and for these commendable reasons the court let him off with fifteen days.

Mount Hamilton was in court this morning for resisting an officer. He is a hard working man and doesn't believe that a board bill and a bar bill can be brought up against him as an account. The court said that, procedure was entirely in keeping with the law.

The court found Mount guilty and he was fined \$5 and cost.

TO TAKE A COLD IN ONE DAY.

Dr. L. E. Grove's Bromo Quinine Tablets. All druggists return the money if it fails to cure. E. W. Grove's signature.

CHARGED WITH FORGERY.

S. H. Hart in Trouble About Two Checks Alleged to Be Forgeries.

S. H. Hart is now recuperating in the cool recesses of the county jail with strong indications that unless he dies of old age in the meantime, he will be the coming season of the grand jury will fix the way for a trip to the penitentiary on the charge of forgery, says the Carlssbad Argus.

Hart came to the city some time ago, and apparently running out of money, presented a check to Harfield & Cantrell, signed by Wilkinson & McCord, the well known cattle firm. The Harfield interests had cashed a few unprofitable checks before and turned Mr. Hart down. Then he went to Welch & Rives, with the same result, except that Mr. Rives advanced him \$5, keeping the check as security. The next day Hart obtained the check under a pretext and still has it. Then he drew a sight draft on Wilkinson & McCord, which was returned dishonored with the advice to look out for Hart. In the meantime Hart had worked off another check on Conductor Warren Gossett, and all of the indications pointing to the commitment of forgery, Hart was arrested on a charge of obtaining money under false pretenses in order to hold him until the necessary evidence could be obtained. Wilkinson & McCord are in Canada, and their evidence may not be obtainable, but the officers think that they have more than enough proof both in that and the Gossett case, to insure his conviction on the serious charge named. Hart takes the matter coolly, and thinks he will be able to make good when the showdown comes.

First District Court.

Final decree in divorce has been entered in the case of Sarah L. Garcia vs. Antonio S. Garcia, and the custody of a minor child awarded to the plaintiff. The parties are from Taos.

There have been filed in the office of the clerk of the first district court for San Juan county the following suits for divorce: Mary J. Chaves vs. Vernon R. N. Chaves, and Winslow Wetherill vs. Pauline M. Wetherill. In both cases desertion is charged.

There has been filed in the office of the clerk of the district court for Santa Fe county a suit by E. J. McLean & Co. vs. Marcelino Baca of Pena Blanca, Sandoval county. The plain-

We seldom fear a danger that we cannot see. The danger of being run-down by a horse is a very real one to everybody, the danger of being murdered by a microbe does not trouble us. And yet the minute microbe is more dangerous than the wildest horse.

The only people who can afford not to fear the microbes of disease are those who keep their blood pure and rich. These are practically immune from the attacks of most microbes.

Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, and gives the body a vigorous vitality. It cures scrofula, eczema, boils, pimples and other eruptive diseases which are caused by impure blood.

It had been troubled for about four years with eczema, or a skin disease, which at times was almost unbearable as it would itch so, writes Mr. John Larson, of 105 Postoffice St., Dallas, Texas. "I concluded to try Dr. Pierce's Golden Medical Discovery, and after using five bottles found that I was entirely cured. Please accept many thanks."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood. Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

diff asks that an attachment be issued for the recovery of certain monies alleged to be due.—New Mexican.

ONE KILLED—ONE HURT.

Serious Smash-Up on the C. & G. P. Saturday Near Logan.

There was a serious wreck on the Rock Island between Logan and Tucuman Saturday night and one man is thought to be buried under the wreckage. Another was seriously injured and was taken to El Paso for treatment. Both men were tramps and were stealing a ride on the freight when the train left the track.

The freight was running at a high rate of speed and suddenly left the rails, but from what cause it has not yet been learned. There were seventeen cars piled in a mass alongside of the embankment and the track was blocked for a number of hours. All traffic was greatly delayed and the Chicago-El Paso trains were held for more than eleven hours.

The names of the injured man and his companion could not be learned.

Will Locate New Navajo School House.

The secretary of the interior has approved the bond of W. T. Sheldon, recently appointed school superintendent for the northern half of the Navajo reservation. Sheldon was instructed to work in conjunction with Supervisor Charles, who a few days ago was ordered from Grand Junction to the Navajo reservation, in locating a spot on which to place the contemplated school buildings.

ELIZABETHTOWN FIRE.

Grease Soaked Papers Responsible for Destruction of Several Houses.

A special dispatch to the Denver News from Springfield, dated September 2, says:

Yesterday afternoon at 2 o'clock, after a clerk at the Remberg Mercantile company had unpacked a consignment of hams and bacon at Elizabethtown, he threw the grease soaked papers in a stove and set fire to them. The fire was evidently defective, and the roof of the building caught fire. The flames spread to the Mutz hotel, Mutz butcher shop, Remberg's warehouse, Brainerd's saloon and warehouse and the Moreno hotel, entirely consuming them, as well as all buildings in the rear of the block.

It could not be learned, but it is also thought that the store of Gottlieb & Uhlfelder was burned, as well as a couple of residences.

The losses are estimated at about \$25,000 in all, divided as follows: Remberg Mercantile company, store and warehouse, \$12,000; H. Mutz, hotel and butcher shop, buildings and stock, \$7,000; Harry Brainerd, saloon warehouse, stock, \$4,500; Moreno hotel, \$1,000; business building of Pritchard estate, \$1,500.

IN THE TOILS.

A Vermont Chinaman Appears Before Commissioner.

Charles L. Fong, a Chinese servant, who claims to have been in the family of an Episcopal minister at Bennington, Vt., who was arrested in El Paso two weeks ago on a charge of being illegally in this country, was arraigned before United States Commissioner W. D. Howe Tuesday morning.

The immigration office has been trying to ascertain whether or not the story of his residence in Bennington is true. One thing is certain and that is that Charles Fong left the country without taking the proper steps to return as required by law. He is a laborer and the law says that he should have secured the registration of his certificate with the collector of customs at the port from which he sailed for Mexico.

Charles speaks good English and is extraordinarily cute. He says that he went to Mexico to see the country and was assured that when he went that he could return without trouble.

WEEKLY CROP BULLETIN

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., Sept. 1.—Continued warm weather during the past week, but the nights are getting quite cool in the northern valleys. The light rains that have fallen have been local in character and entirely insufficient for the needs of late vegetation. However, there have been heavy showers as a rule on the mountains which have kept a fair supply of water in the streams, but in some localities there is complaint of a shortage of irrigation water. All kinds of live stock are reported to be in very good condition at present, but grass on the ranges is curing rapidly under the influence of the dry, hot days, and stock water is getting very scarce in places.

The season has not been a good one for securing wild hay, and as the grass on the ranges is of very irregular growth the outlook for good fall and winter feed for stock is not promising. Wheat and oats harvests are about over in northern counties, showing in general a very good yield. Corn and beans where well irrigated, are very favorable, but on unirrigated lands corn is badly wilted and dwarfed. Late fruits, as plums, pears, apples, and late peaches, are maturing rapidly; apples, peaches and, in general, pears will yield very irregularly. Latest reports show that the calf crop was unusually light on north-eastern ranges.

The following remarks are extracted from the reports of correspondents:

Albert—H. M. Hanson: Still very dry; the rain of last week, although heavy, was so dry and dashing that the benefit was slight. Some hay is being cut but the yield is slight. Scarcity of water on the ranges is reported from various sections. Calf crop is reported to be very light. Highest temperature, 100; lowest, 58; rain, 0.09.

Andrews—A. S. Warren: Hot days and cold nights. Wells and springs are failing. All vegetation is withering. Stock looks very well, however, considering the drought. Good rains badly needed.

Chit—T. J. Clark, Sr.: Range and stock in prime condition. First crop of alfalfa was secured in excellent condition, but the second crop was damaged by rain. Corn will not make half a crop on account of the June rains bringing weeds in such profusion. Fruits will not be half a crop. Plenty of water for irrigation in all the streams.

Dorsey—Will C. Barnes: Another dry and disappointing week. Grass has cured rapidly on the ranges, and is now growing for the season. In this district feed is very spotted; in some places fine, others good, and in many very poor.

El Rito—P. Lopez: Very warm during the day time; daily rains in the mountains keep the streams replenished, but no rains on the plains. Second cut of alfalfa has been well secured.

Exter (Union County).—W. F. McAsh: Hot and dry; no rain for three weeks and grass is dried up and stock water getting scarce. There is a fair crop of hay. Cattle are in good condition; calf crop was light.

Folsom—Jackson Tabor: Drying winds during the day and cool nights characterized the past week. Grass on the range is cured. There have been light local showers but the stock water is getting scarce. All kinds of stock are fat, and getting fatter, but the summer hay crop was light, and winter feed will be short. Highest temperature, 84; lowest, 49; rain, 0.10.

Fruitland—Cyril J. Collier: Continued favorable weather. Grains show a good yield in threshing. Corn is well cared; third growth of alfalfa coming nicely. Excepting pears summer fruits are a light crop. Irrigation water abundant.

Gallinas Springs—Jas. E. Whitmore: Crops and grass have improved during the week. Excepting where damaged by hail, corn and beans look better. Stock is in fine condition. Highest temperature, 94; lowest, 57; rain, 0.06.

Laguna—Gus Weiss: Nights getting cooler; not so hot as over. Wheat harvest is finished; about half a crop. Corn is looking very well. Several light rains but more is needed. Cattle and sheep in good condition. Fall shearing will begin in about three weeks.

Las Vegas—Dr. W. C. Bailey: Generally fair, with no high winds nor hail. Highest temperature, 90; lowest, 45; rain, 0.28.

Las Vegas (Mora Road).—Leon J. Thornhill: Weather continues warm, with some showers but not enough to do much good. Where irrigated crops are looking well, but unirrigated crops are withering. Third growth of alfalfa will soon be ready to cut.

Ojo Caliente—A. Joseph: The long continued drought was broken on the 29th by a copious rain. Standing crops are looking well, and fruits are maturing nicely. Range stock is in excellent condition.

Santa Fe—U. S. Weather Bureau: Continued warm weather with almost daily showers in the mountains but very little on the plains. Irrigation water is not sufficient, and some gardens and orchards have been damaged greatly. Pears, plums and late peaches are ripening; yield very irregular especially peaches, but quality generally very good. In some orchards,

however, there is hardly a sound pear on the trees. A very good yield of wheat is being threshed. The continued warm weather has made up for the cold spring, and the accumulated temperature for the season is now about normal. Highest temperature, 84; lowest, 53; rain, 0.01.

R. M. HARDINGE, Section Director.

Custom House Scandal Ends in Resignation.

As a result of the custom house trouble, which has been brewing at El Paso for several months, I. A. Barnes, a special treasury agent resigned by request of the department. Barnes was formerly the private secretary of General Wood, and was sent to El Paso to investigate the alleged faculty classification or imported cattle. Charges were filed against Collector Pat Garrett, and finally against Barnes. Then came the alleged smelter frauds and several special agents investigated the entire custom house office. As a consequence Barnes was asked to resign.

BROWNS GO TO EL PASO.

Will Leave for the Pass City This Evening.

The Browns will leave this evening for El Paso, where they are scheduled to play the Pass City Remnants three games—Saturday, Sunday and Monday. The line up will be: McDonald, catcher; A. Cavanaugh, first base; Bert Vorhes, second base; Wilson, third base; Helwig, shortstop; Quier, Hale, Merritt, fielders and Rhodes and Sonier, pitchers.

The lineup of the El Paso Remnants is as follows: Seibert, catcher; Lockhead, pitcher; Andreas, first base; Stone, second base; Redford, third base; Hackett, shortstop; Spritz, right field; Young, center field; Walsh, left field. Lockhead will pitch for El Paso at the Saturday and Monday games.

The Coming Ball Contest.

The Remnants are getting in fine shape in anticipation of a tough tussle with the Albuquerque team on Saturday, Sunday and Monday. They have not as yet heard from the Albuquerque team regarding its lineup, but it is stated that the Duke city sluggers will ring in several professionals as Albuquerque residents.

"Dutch" Andreas will catch for the Remnants in the Albuquerque series. He has been practicing with Lockhead and has now learned how to hold his swift balls so that he will make a good record when it comes to the test. Dutch is one of the best amateur catchers in this section.—El Paso Herald.

EXTENDING SANTA FE CENTRAL.

Surveying Party is Now in the Field and the Construction of the Road Assured.

The report comes from Torrance that the engineering corps which was organized for the purpose of surveying the proposed extension of the Santa Fe Central from Torrance to Roswell with a projected further extension to Big Springs, Texas, on the Texas & Pacific, has already left Torrance and is now making good headway towards Roswell, says the El Paso Herald.

There is hardly any question but that this line will be extended as far as Big Springs at a very early date, as it is conceded that one of the best moves the line could make would be to form a connection between the Denver & Rio Grande at Santa Fe and the Texas & Pacific at Big Springs.

As both lines belong to the Gould interests the Santa Fe Central would form an admirable connection between the two systems and would at the same time open up a new and direct route between the gulch ports and the northwest.

There seems to be another condition that will bring this extension about at an earlier date than might be expected and that is the fact that certain of the roads east of the Santa Fe Central are fighting that line to keep from recognizing it as a route into this section from the north and east, which would mean that unless the Santa Fe Central was able to get in on through rates it would be cut out of all through business to this section, except from Colorado and other points in the northwest where the lines are friendly towards it.

THE WORK COMPLETE.

Two Railroad Corporations Organized in Denver, Have Been Dissolved.

Two large corporations organized in Denver for the purpose of building a railroad to develop a rich mining country in Mexico, were dissolved Wednesday, their purpose having been fully accomplished. The line, which is 187 miles in length, is now owned and operated by the Mexican Central railway as a part of that system.

The name under which the road was incorporated was the Mexico, Cuernavaca and Pacific Railway company, and the corporation which was created to build it was the Mexico and Anapulo Construction company.

Walla the Mexican Central people paid several millions to acquire control of the road, the former owners refuse to say just what the purchase price was. It is asserted, however, that the amount did not greatly exceed that which it cost to build the line.

"Colonel Joseph H. Hampson of Mexico City and Kansas City was the main stockholder," said William Hodges. "He caused the road to be built for the purpose of opening up a territory rich in minerals. When this was accomplished he was ready to sell to the Mexican Central, which

wanted to buy and add the line to its system. The original concession for the construction of the road was granted by the Mexican government to General Sturman, the late A. Zang and George Trinch. Soon after acquiring the franchise they transferred it to Colonel Hampson, who organized the corporations that built and operated the line. George L. Hodges became general counsel, and L. Edgar Wilson secretary and assistant manager."

G. A. R. NEWS.

Adjutant General Whiteman and Captain O'Donnell Remembered.

Headquarters G. K. Warren Post, No. 5, Grand Army of the Republic, Department of New Mexico, Albuquerque, September 1, 1903.

At the regular meeting of G. K. Warren Post, No. 5, Grand Army of the Republic, Department of New Mexico, September 1, 1903, the following resolution was adopted:

Resolved, That the officers and members of G. K. Warren Post, No. 5, Grand Army of the Republic, highly appreciate the kind favor done for our post by Comrade W. H. Whiteman, adjutant general of New Mexico, in securing for use of our post ten Springfield rifles, with bayonets, cartridge boxes and belts complete, for which we shall ever feel grateful, and unanimous vote of thanks is hereby tendered Comrade Whiteman for the same by the post, in session.

(Official.)

J. W. EDWARDS, Post Commander.

W. W. McDONALD, Post Adjutant.

Headquarters G. K. Warren Post, No. 5, Grand Army of the Republic, Department of New Mexico, Albuquerque, N. M., September 1, 1903.

At the regular meeting of G. K. Warren Post, No. 5, Grand Army of the Republic, September 1, a resolution was offered extending a vote of thanks to Captain Michael McDonnell for kindness shown our post in turning over to us ten of the best guns in his possession with all accoutrements and for many other acts of kindness by himself and other officers of Company G, First Infantry, national guard, for which we will ever feel grateful.

J. W. EDWARDS, Post Commander.

(Official.)

W. W. McDONALD, Post Adjutant.

CARLSBAD.

From the Argus.

Carl Gordon, foreman of the Ezell horse interests, was kicked on the leg and crippled up by a cayuse at the stock pens.

Roque Duran, who was shot in the arm at the old hotel on Green street recently, was arraigned before Judge Emerson and bound over in the sum of \$250. His assailant has not yet been arrested.

Messrs. Goodrich and Stewart were more than usually popular gentlemen Wednesday morning, when they lined up all the pretty school ma'ams and school masters who are not so handsome, and treated them to ice cream.

Mrs. W. G. Brown, who has been ill for many weeks, is recovering rapidly, much to the satisfaction of her many friends. Mr. Brown, who is being brought out from a long siege with a diseased jaw bone, is also recovering rapidly.

Judge Freeman has been in Amarillo this week representing B. C. Stegman in resisting an effort being made by his wife in the Texas courts to prevent the disposal of Stegman's Texas property pending the termination of the divorce proceedings now before the court in Chaves county.

Rev. Sam Jones will lecture in this city on October 20, providence permitting. This is one of the two unfilled engagements of the Southern Lyceum bureau, which achieved such a success in breaking its dates last winter. It is needless to say that there will be no course this winter as the people have enough to last them for a while.

ALAMOGORDO.

From the News.

Mrs. E. J. Dedman has been spending the week at Cloudcroft.

Miss Angie Baker returned from Las Cruces where she went to visit a sick brother.

O. D. Warnock is down from Fort Stanton. Work there is moving along nicely, so he reports.

Mrs. J. W. Guthrie, who has been at Ancho for the past six months, is expected home next Tuesday.

W. H. Jackson is nursing a sick hand, having two fingers mashed very badly by a door shutting to.

Miss Bettie Houston of San Antonio, Col. Edington, county surveyor, in a few days will commence surveying the lands and reservoir sites for the white Mountain Land & Irrigation company above Tularosa.

Prof. Carl J. Finger of San Angelo, Texas, and Miss Nellie B. Ferguson of this city were married by Rev. Van Valkenburgh at the First Methodist Episcopal church. Only immediate friends were present.

A. P. Jackson returned from a trip along the line of the Santa Fe Central. He is much pleased with the prospects in that section and will locate another of his many lumber yards at lastancia.

Prof. H. M. Duncan recently of Waco, Texas, has arrived and will be a member of the faculty of the Baptist college the coming year. He is a graduate of Yale university and comes here highly recommended.

THAT NEW RAILROAD.

Southern Pacific Much Interested in Coal Fields of This Territory.

NEW MEXICO AND ARIZONA.

The Denver Times follows up its story of the building of a new line of railroad from Durango, Colo., to connect with the Southern Pacific in Arizona, which was reproduced in The Citizen the other afternoon, with the following observations:

Announcement that the plans for building a new railroad from Durango to connect with the Southern Pacific in Arizona had been completed means that a problem which has confronted the railroads for a long time has been solved. Numerous attempts and several lines had been surveyed by the big systems, but without satisfactory results. The last attempt in that direction is understood to have been made by the Phelps-Dodge syndicate.

When this syndicate began its big operations in northwestern Mexico and southern Arizona, the Southern Pacific refused to build a necessary railroad. The syndicate decided to build its own roads and the El Paso & Southwestern was the result. The result has proven a big success and has all of the business it can possibly handle. The coal problem confronted the syndicate the same as it did all of the mining interests in that section.

A corps of surveyors was put into the field to locate a line connecting the El Paso & Southwestern with the Denver & Rio Grande. The object of the road was to haul the coal from the southern Colorado fields. It was found almost a physical impossibility to secure an entrance into Clifton, Ariz., the objective point, and the plans were abandoned.

It is understood that the Santa Fe then secured possession of some coal beds near the route of the Arizona, New Mexico & Colorado railroad and was preparing to build to that section. Opposition and a compromise led to the abandonment of the plans.

When President Frank Kinne and his associates secured possession of the immense seas of coal in Valencia and Socorro counties last spring the question for a railroad was at once brought to the surface again. E. H. Harriman wanted to secure control of the coal lands and Mr. Kinne was called to New York to confer with Mr. Harriman and Vice President Kruttschnitt of the Southern Pacific. The conference was arranged when Mr. Harriman was in Denver and the parties met in New York the day that Mr. Harriman was taken sick and had to undergo an operation. The matter was then turned over to Vice President Kruttschnitt, who is now understood to be interesting the Southern Pacific in the deal.

Railroad men who have watched the various attempts to open a new route from Colorado to that section of the country say that from a commercial standpoint it means more for Denver than any road that could be constructed. The reasons they make this claim is that the road will bring a mining district as big as the state of Colorado, and which is being developed on as large a scale, at least 800 miles closer than at present. That means that Denver will be made the principal source of supply for that entire district. The big coal fields between Denver and this district in turn assures the development of the intervening section, which will redound to the benefit of Denver.

Again the Arizona, New Mexico & Colorado will open a route to Guaymas, which is the objective point for both the Harriman and Gould-Rockefeller interests. Through that port Denver becomes a good distributing point for the Pacific coast of central and South America. Finally the road opens a new route in connection with the proposed Gorman-Goodard-McCaffrey syndicate to the city of Mexico via Chihuahua which cannot help but further extend the scope of Denver's territory.

For a billious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

HILLSBORO.

From the Advocate.

(Continued on page six.)

There are different kinds, to be sure. Moreover the quality of stock on which it is done must be considered if you would create a good impression of yourself amongst your customers. You might think it would not make any difference, but if public opinion on that point weighed you would find that it is quite a factor in drawing trade. Don't be behind the times. If you want to keep pace with civilization, you must follow customs which is naturally the greed of every man, now-a-days, who has genuine pride. The art of printing is something that few people can acquire. They may print, but the art is not present. Again, the art may be there, but the stock on which the printing is done is of the poorest quality, which entirely obliterates the art that would otherwise be apparent. Then again, the quality of ink and nicety and distinctness of color used are something that counts in bringing out beauty of art into display. The CITIZEN printing department carries nothing but the best quality of stationery, such as letter heads, note heads, bill heads, etc., as well as the finest of ink, and turns out daily evidence of the finest workmanship in the city. If you want cheap, tacky-looking prints, go to the places where you can obtain it; but if you want first-class printing, send it to The CITIZEN printing department, or telephone to us and we will call and get your order.

requires an exactness that is much admired when accomplished. If your blank books are ruled properly they will always look neat, if in the hands of a first-class book-keeper. If they are not ruled with exactness they will never look neat, even though handled by an artist in book-keeping. To be exact requires skill and patience, which is acquired by long experience and perseverance. When a person possesses it his services are in demand in any first-class bindery. The CITIZEN has a first-class bindery and therefore employs the best skill.

Bill heads, letter heads, note heads, vouchers, invoices and blanks of every description are ruled with the same skill and neatness as the finest blank book that was ever turned out. If you want such work telephone to The CITIZEN.

is everlasting when properly done. Every business man would like to preserve his books, but he cannot do it when they are in a dozen pieces after he uses them up. He does not want them to break, neither does he want them to be tight in the fold, if so, they cause him great inconvenience. There is much in the way a book is sewed. If it is not sewed properly the breaking of a single thread will occasion an entire section of twenty pages to come out, necessitating the rebinding of the book, causing loss of time and inconvenience. If you want a good blank book you should get one with a patent flat-opening back, thereby enabling you to utilize all the space in the fold, that you would otherwise not be able to do. Then the quality of paper used is just as essential in turning out a fine book as is the workmanship. The CITIZEN carries a full stock of the finest ledger paper manufactured. When you want any kind of a fine blank book telephone to The CITIZEN and our representative will call.

The word itself is exhilarating to a man that has a high ambition, whether socially, financially or otherwise. It is the same with a business man. He has to obtain advertising in some way before he will be successful. There are different degrees of success. The more advertising you get the greater amount of business you transact, a fact that non-advertisers admit themselves. "All things do not come unto man." He has to go after them. If he wants advertising he pays for it just the same as any commodity. You may say some men obtain advertising for nothing, but the don't. They pay for it in an indirect, if not a direct way. Thus every man pays for his share. The world owes a man a living, but he has to earn it, and if a man wants advertising he must pay for it. It is better to pay in a direct way and obtain

more results than to pay in an indirect way and obtain fewer results. The direct way for a business man to advertise is to talk to the people through an advertising medium that has a place by the fireside of every home within his field for business. The CITIZEN has that place and will always have it.

If the ability of its readers to buy articles of luxury as well as articles of necessity is questioned, then forever will The CITIZEN defend them. Regarding the comparative value of morning and evening papers, it is a fact that a morning paper is before its readers but for an hour or so, while an evening paper is before the public from 5 o'clock until bedtime, and is read by men who labor all day and who have not time to read the morning papers. Therefore the superior value of an evening paper over the morning paper as an advertising medium is quite evident.

The CITIZEN is a home paper. Why? Because the residence portion of the city being not more than ten minutes' walk from the business center, the business man has ample time to read the evening paper before going to lodge or to the club, and he does so. When he has finished reading his paper it is left at home and thoroughly read by the other members of his family.

The ladies of Albuquerque read **The CITIZEN**, and as it contains all the news, both foreign and local, why should it not command the circulation that it does? If you want results advertise in the

FEMININITIES

Secretary Cortelyou is going to try female emigrant inspectors again but he has been wise enough to leave the selection of the candidates to the civil service commission.

Kansas is not to be pitied for lack of harvest hands when the state authorities announce that they will take steps to prevent marriage among their 7,000 young lady teachers.

A St. Louis washer-woman has just died at the age of 49, leaving a fortune of \$35,000. Here are all kinds of opportunities. "How I Saved for a Fortune," by "Washer-Women I Have Known," would make a good series in any of the semi-dramatized periodicals of the age. Mr. Bok might treat the subject—with illustrations.

Miss Eleanor La Salle of San Francisco is the only woman in the world who ever killed three lions in 24 hours. She came to Colorado recently and stopped at her brother's ranch on Pleasant creek in Rio Blanco county where she, alone in a dense forest, killed three great mountain lions within an hour. Old Sam, her faithful hound, saved her life in her first encounter. This dog, famous the country over as the lion hound, is the one with which President Roosevelt hunted two years ago.

Mrs. Eliza J. Denver, widow of the late Captain Denver of Washington, who was a brother of General Denver, after whom Colorado's chief city was named, and her daughter have become hopelessly insane at Coronado Beach, California, and it has been necessary to send them to a private hospital. Until about a year ago they made Los Angeles their home. It is thought that property losses and financial troubles have caused their sad condition, although they still own a valuable lemon orchard in San Diego county. The mother is about 60 and the daughter 40 years of age.

The club women who are making such a stir for public gratitude and political worship should remember that they have not always had such smooth sailing. In the fifth century fifty-seven bishops and a lot of their followers met and discussed, not heaven or hell, but whether woman had a soul and finally decided by the slim chance of four votes that she had. Think of it, dear sisters. General Butler once decided that a woman was not a person and until this decision was finally reversed women were suspended from the civil code, not knowing what they were. Barnum's what is it was not in it in comparison.

The Princess Chiniqua, daughter of the late Lone Star, chief of the Cheyennes, attended a reception not long ago attired in the native costume of her rank. The princess is a Carlisle graduate and an unusually bright and interesting young woman quick to think and to speak. Her costume was rather conspicuous and presently it became the subject of conversation among a little party about her. "Do you wear it on the streets, Princess?" inquired a man. "Not now," she replied. "I did when I first went east, but the people laughed at me so I changed it to their native style. I laughed too at the hats women wore and I thought how delighted our wild chiefs would have been if they could have had head-dresses like those."

The coming federal elections in Australia will have unusual significance because for the first time the entire female citizenship of a continent will exercise the unrestricted right of suffrage. Over 850,000 women voters are registered and needless to say such a great increase of the franchise has introduced uncertainties into the election sufficient to cause even the most experienced politicians to lose their prophetic bearings entirely. It is believed that women are entitled under the federal constitution to occupy seats in parliament as well as to vote, inasmuch as the word he, which is used in defining the qualification of a legislator, is regularly interpreted in Australian law to include women as well as men.

Labor Day Proclamation.
Whereas, The Governor of the Territory of New Mexico has proclaimed and declared Labor Day Monday, the 7th day of September, A. D. 1903, a legal holiday.

Now, therefore I, Siegfried Grunfeld, president pro tem. of the City Council and Acting Mayor of the City of Albuquerque, New Mexico, do recommend that all excepting imperative business be suspended and that all citizens fittingly observe said day.

S. GRUNFELD,
President Pro Tem. and Acting Mayor

TO PLAY ALBUQUERQUE.

Remnants of El Paso Have a Match For Three Days.

The management of the Remnants ball team has clinched the games with Albuquerque for Saturday, Sunday and Monday afternoons. This was done by a telegram which was received today stating that the Duke City players would be on hand Saturday morning.

A goodly bunch of rooters will accompany them and some excitement may be expected. The Albuquerque

boys are said to have strengthened their team by the addition of "Lefty" Jones, a crack pitcher from Colorado Springs.

These games will be of unusual interest since it is upon their outcome that the Remnants base their hopes of success at the Albuquerque fair grounds.

The Remnants were out for practice last night and will continue to practice every evening this week for practice. A new player named Redford from east Texas was at the practice last night. He is an outfielder and may be signed as short stop.—El Paso News.

The Pleasure of Eating.

Persons suffering from indigestion, dyspepsia or other stomach trouble, will find that Kodol Dyspepsia Cure digests what you eat and makes the stomach sweet. This remedy is a never failing cure for indigestion and dyspepsia and all complaints affecting the glands or membranes of the stomach or digestive tract. When you take Kodol Dyspepsia Cure everything you eat tastes good, and every bit of the nutriment that your food contains is assimilated and appropriated by the blood and tissues. Sold by B. W. Briggs & Co. and S. Vann & Sons.

All Honor to the Santa Fe.

In answer to a request from a committee of business men that he should arrange for Sunday excursions, Mr. W. J. Black, the general passenger agent, said: "Well, gentlemen, if you have come to get the Santa Fe to run Sunday excursions you have come to see the wrong man. The Santa Fe does enough business on week days without running extra trains on Sunday. If I had my way about it not an engine on the entire system would have fire in it. But the great commercial world and government mail contracts compel us to run regular trains on the Sabbath."

Such a statement from one of the most accomplished railroad men in the land as to the condition and attitude of the great Santa Fe is significant, especially in these days of cheap Sunday excursions. All honor to the Santa Fe and W. J. Black.

How to Plant Hyacinths.

First in importance among hardy bulbs I should place the hyacinths. Much has been written about putting them in position in the bed and then covering them with soil, putting sand under them, etc., but in actual practice these slow and laborious methods are not essential to success. If, however, the planter prefers to follow the more laborious—and possibly surer—method, then remove five or six inches of the top soil and cover the surface of the soil where the bulbs are to be set with an inch of sand. One advantage of this method is that it enables the planter to accurately place the bulbs in position as to the depth and distance apart, so that the effect at flowering time is more regular as a whole than if planted with a dibber. The layer of sand has its advantage, inasmuch as it provides drainage at the base of the bulbs and minimizes the chances of decay from water lodging immediately beneath them. The writer has seen good beds of bulbs obtained by both methods, but the last one described is possibly the surer one.—Country Life in America.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

DENAIR MAY GET IT.

Talked of as a Successor to Division Superintendent Beamer.

The name of Superintendent Denair of the Arizona Division of the Santa Fe is being mentioned as a possible successor of Division Superintendent Beamer, whose resignation takes effect October 1, says a dispatch from San Bernardino. Mr. Denair occupies the next place in rank and if the regular succession is followed he will get the appointment. There are reasons to suppose that this will be the outcome, though several prominent

has returned from his vacation—

Temple Albert to Open Friday.

Temple Albert opens again Friday evening, September 4. A very special musical program has been prepared, conducted by Edward Grunfeld. Rabbi Jacob H. Kaplan will lecture on "What is Blessedness?" Everybody is welcome. The following is the musical program:
Prelude—Organ.....Wagner
Edvard Grunfeld.
"Come Ye Faithful".....Novello
Choir.
Gloria.....Mozart
Choir.
Anthem Hymn.....H. Rowe Shelley
Choir.
Postlude—"Prest March" Mendelssohn
Edvard Grunfeld.
Soprano—Miss Grace Welch, Miss Margaret Jenks.
Alto—Miss Grace Houghton, Miss Anita Armijo.
Tenors—Mr. Thomas Hall, Mr. M. C. Nettleton.
Bassos—Mr. H. G. Bullard, Mr. C. W. Nash.
Edvard Grunfeld, organist.

21 Years a Dyspeptic.

R. H. Foster, 218 S. 2d St., Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me; I am now tapering off on the second. I have recommended it to my friends; it is curing them, too." 50c at J. H. O'Reilly Drug Co.

Dr. C. D. Muller, the celebrated oculist at H. C. Fox's jewelry store, announces that he will remain until Sep-

tember 7.

B. G. Wilson, manager of the Continental Oil company in New Mexico, has just returned from Tucumcari,

SICK HEADACHE.

Indigestion, Dyspepsia, Constipation, Biliousness, Heartburn, or Nausea can be quickly cured if you will only take Hostetter's Stomach Bitters at the first symptom. There can be no disappointment because it contains only those ingredients as will strengthen the stomach and cure these ailments. We urge you to try it the next time your stomach gets out of order. The genuine must have our Private Stamp on neck of bottle.

HOSTETTER'S STOMACH BITTERS

railroad men, holding positions of responsibility on other systems are said to be after the position. There are many employees who would like to see Superintendent Denair come to this division. He is well liked by all, and is very much of a San Bernardino man, holding considerable property interests here.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

ROUGHLY HANDLED.

Attorney Who Looked for Information of "Squatter" Leases Was Flogged.

County Attorney L. N. Halbert of Alpine, who went to Marfa to obtain a list of land leases to expire under the new law, that he might bring in "squatters" to settle thereon, was dealt with severely by the cattlemen and told to leave, says a dispatch from El Paso. As Halbert stepped out from the hotel to cross the street he was seized by a dozen or more ranchmen and dragged out to the brush. There it is said he was roughly handled, and told to take his departure at once if he valued his life. He acted upon the advice, and the land holder will not be molested when their leases expire. Reports from Marfa concerning the trouble are conflicting. It is stated that Halbert was flogged. Another report says he was merely threatened by the crowd and handled with roughness. At any rate, he departed for home.

The disturbance resulted from the new land law enacted by the last legislature. Most of the ranchmen lease immense tracts of land for grazing purposes. Under the new law, when these leases lapse the land is open for pre-emption for sixty days. No citizen can own more than 640 acres. It was the purpose of the parties represented by the attorney to bring in immigrants to settle in the pastures, and the cattlemen bitterly resented this. Sixty days after their leases expire, if the land has not been pre-empted, they are at liberty to lease again for another period of years.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, etc.

Hall's Family Pills are the best.

RABBI KAPLAN.

Has Returned From His Vacation—

Temple Albert to Open Friday.

Temple Albert opens again Friday evening, September 4. A very special musical program has been prepared, conducted by Edward Grunfeld. Rabbi Jacob H. Kaplan will lecture on "What is Blessedness?" Everybody is welcome. The following is the musical program:

B. G. Wilson, manager of the Continental Oil company in New Mexico, has just returned from Tucumcari,

where the company will put in store-

houses and erect tanks for the con-

duct of its business. A tank to hold

12,000 gallons of refined coal oil and a

smaller one to hold 5,000 gallons of

gasoline will be erected. The sur-

rounding country and business will be

supplied from Tucumcari. Mr. Wilson

secured the necessary ground for the

storehouses and these will be con-

structed at once. He has traveled ex-

tensively through eastern New Mexi-

co of late and finds a decided improve-

THE HOME

To remove white spots from furniture, take two tablespoonfuls of vinegar and half a teaspoonful of turpentine. Shake these well together, wet a soft piece of flannel in this mixture and rub the spots with it.

Roasted Tomatoes.—Dip the tomatoes into hot water and remove the skins, scoop out a little of the pulp and place a small piece of butter into this cavity. Dust with salt and a little cayenne pepper, replace the top and sprinkle with crumbs, pepper and salt. Place a little piece of butter on each with a slice of bread cut out with a large biscuit cutter. Place in a baking pan and bake in a moderate oven from fifteen to twenty minutes.

Bread Omelet.—Soak one cup of stale bread in two cups of milk for fifteen minutes. Beat the yolks of four eggs until thick, add one-fourth teaspoonful of salt and a dash of pepper. Stir in the softened crumbs, then the whites of the eggs, beaten stiff. Heat one tablespoonful of butter in a smooth frying or omelet pan, turn in the mixture and when slightly browned on the under side stand the pan in the oven for a few minutes. Fold in half, turn out on a hot platter, spread with butter and serve hot.

Sweet Pickled Peaches.—Prepare a syrup of four pounds of brown sugar, one quart of the best cider vinegar and two ounces of stick cinnamon broken in pieces. Boil all together twenty minutes. Have the peaches ready, having previously dipped them quickly into boiling water and rubbed off the fur with a crash towel. Stick two or three cloves into each peach—no more for the clove darkens the peach. Put half of peaches into the syrup at a time and cook until clear and tender. Drain out, put into jars and pour boiling syrup over them, filling the jars full and seal.

Cottage Blackberry Pudding.—Beat to a cream two heaping tablespoonfuls of butter and a cup of sugar. Add a well-beaten egg, half a cup of milk, two cups of flour, two tablespoonfuls of baking powder and a pinch of salt. Beat to a smooth batter and turn over a thick layer of sugared blackberries in a well-buttered agate baking dish. Bake for half an hour in a quick oven, remove, turn out on a hot dish and serve in squares with hard sauce flavored with the berries. Do not cut the pudding but pull apart with two silver forks and it will be much lighter and more delicate.

The Labor Saver.—It is the little helps in the kitchen that will make the work go more smoothly and many useful articles which cost but a trifle are really labor savers. The spatterer of grease on the stove from the frying of foods can be prevented by using perforated lids and asbestos mats that cost but a few cents apiece. These will save food from being scorched or burned if placed under the pans while cooking. A small brush is excellent for washing glassware with uneven surfaces and others are good for cleaning vegetables and may also be used with effectiveness for scouring tiles. Brushes of all kinds when not in use should be suspended in the air.

Spiced Plums.—Prepare a syrup, allowing one pound of sugar to one of plums and to each three pounds of sugar one pint of pure cider vinegar. Simmer twenty minutes. Allow four tablespoonfuls each of whole spices, cinnamon broken in pieces, cloves, allspice and mace. Prick the plums. Add the spices to the syrup and pour over fruit boiling hot. Let stand in stone jars three days, then drain the plums from syrup. Put into quart fruit lined kettle, boil down until quite thick and pour over fruit until the jars are full. Place the covers on the jars and seal. Let stand until cold, then try the tops to see if airtight. Put away in a cool, dry place.

A Boy's Wild Ride for Life.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for consumption, coughs and colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip give this matchless merit for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

MEET AT ALAMOGORDO.

Grand Lodge of Knights of Pythias to Convene September 17.

The grand lodge of the grand domain of New Mexico will convene at Alamogordo September 17 and there will be a large attendance in the sessions. Several will attend from this city.

The Knights of Pythias are in a very flourishing condition throughout the territory of New Mexico and there are about twenty-four lodges with a membership of considerably more than a thousand. There will be about forty-five knights who will be entitled to sit in the legislative body of the order for the grand domain of New Mexico.

TANKS AND STORE HOUSES.

To Be Erected at Tucumcari by Continental Oil Company.

B. G. Wilson, manager of the Continental Oil company in New Mexico, has just returned from Tucumcari,

where the company will put in store-

houses and erect tanks for the con-

duct of its business. A tank to hold

12,000 gallons of refined coal oil and a

smaller one to hold 5,000 gallons of

gasoline will be erected. The sur-

rounding country and business will be supplied from Tucumcari. Mr. Wilson secured the necessary ground for the storehouses and these will be constructed at once. He has traveled extensively through eastern New Mexico of late and finds a decided improvement and increased immigration. While there is no boom and the growth is slow, still it is substantial and very noticeable.

What Is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly readjusts this. It's gentle, yet thorough. Only 25c at all druggists.

BITTEN BY A SKUNK.

James Fagan Has an Unusual Experience With Mad Animal.

James Fagan, a miner well known in this section of the country, met with a serious mishap Wednesday night at Campas, being bitten on the right thumb by a skunk, says the Douglas American.

Mr. Fagan was lying on his blankets on the ground, asleep, when he was awakened by something seizing his thumb. He saw the skunk fastened to his thumb. Giving his hand a vigorous shake, he broke the animal's hold, but some of the flesh of the thumb was torn off. He started for Nacozari as soon as possible and from there to Coa, hoping to catch the train for Douglas. Just as he got in sight of the station the train moved off. He shouted and attracted the attention of the trainmen. He pushed here at an early hour this morning, when he procured medical attention. His arm is swollen as far as his elbow. The physician says he cannot yet determine whether it will be necessary for Mr. Fagan to go to a Pasteur institute or not.

During his long and wearisome ride Fagan drank all the mescal and whiskey he could get in attempt to counteract the effect of the bite, but it did not seem to have any effect. Although he realizes the seriousness of the wound, Mr. Fagan is in a cheerful frame of mind.

German Syrup.

We want to impress upon our readers that Boschee's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists. G. G. Green, Woodbury, New Jersey. J. H. O'Reilly & Co.

Horse Thief and Jail Breaker.

Tom Bush, a youthful horse thief and jail breaker of renown, was brought down from Magdalena yesterday by Jailor Bob Lewis and lodged in the county bastille, where he will remain thirty days as a guest of Socorro county, says the Chieftain. A few days ago Bush was caught out near Magdalena on a mule that was his merely by right of appropriation. Judge Blinn thought that the title would not hold but that the jail would. Bush broke jail at Silver City not long ago, mounted a horse hunched near by and made his escape. Several similar cases are to be brought against him and there is an excellent prospect of spending some time in retirement. Bush is said to belong to a good family.

VALUE OF THE BIRDS.

Practical Benefits They Give by Destroying Damaging Insects.

The women of the humane society of Kansas City, who are working for the protection of the birds, have asked the Star to give these facts in regard to the usefulness of the birds, as function they perform in holding in check the various forms of insect life:

The stomach of a quail was found to contain 160 potato bugs; that of another quail 500 chinchbugs. One cuckoo had eaten 43 caterpillars; another cuckoo 217 webworms. The cuckoo eats continuously; one robin showed that he had eaten 175 caterpillars; the robin is a worm eating bird, unexcelled for usefulness.

The stomach of four chickadees contained 1,028 eggs of the canker worm. In one week a barn swallow will destroy 10,000 flies and insects. In one day a pair of martins will feed 2,000 insects to their young.

The crop of a dove contained 7,500 weed seeds.

Many birds will eat, in one day, a quantity of worms and insects equal to the birds' own weight.

Little Jennie Wren, the pet bird lover, loves to eat. She sings joyously, but she feeds her young thirty-six times an hour.

The sparrows' friends, the naturalists, say that each sparrow saves one

husel of corn in a year, because, for

nine months of the year he lives on insects and as long as the young remain in the nest they are fed with worms and insects; one pair will feed their young 4,000 grubs in a week.

It is said that 354,375,000 caterpillars are put down to the credit side of the sparrows as a showing for one year's work. Pretty good result for the "despised sparrow."

And so the work of the feathered songsters of the air goes on; winter as well as summer, for many of the insectivorous birds do not migrate. They hunt for grubs and caterpillars in the chrysalis state, digging them out of the cracks and crannies and sheltered nooks; the fences and on twigs, stumps, and fallen trees. They save the agriculturist 100 million dollars a year.

From these facts it is easy to see what an important relation exists between the birds, and the products of the orchard, farm and garden, and how necessary it is to "save the birds." They preserve the balance of nature; destroy them and the balance is disturbed and great losses result.

His Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors call bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For sale by all druggists.

A Purgative Pleasure.

If you ever took DeWitt's Little Earl Risers for biliousness or constipation you know what a purgative pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. They do not gripe, sicken or weaken, but give tone and strength to the tissues and organs involved. W. H. Howell, of Houston, Texas, says: "No better pill can be used than Little Earl Risers for constipation, sick headache, etc." Sold by B. V. Briggs & Co. and S. Vann & Sons.

The old stock of liquors formerly belonging to Charles Zeiger and which has been aging for years in the warehouse of the Metropolitan Building was purchased today by John Cornet and removed to his place of business—the Vendome hotel—on South First street.

Diphtheria, sore throat, croup. Instant relief, permanent cure. Dr. Thomas' Electric Oil. At any drug store.

At a gathering of the Women's Relief Corps here at Mrs. Butler's residence, C. B. Hawley suffered a fainting spell and for some minutes was in a precarious condition. He was able to be around this morning.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

LAS VEGAS.

Simon Garcia y Salaz of Tremonta made final proof of his 160 acre homestead before the United States court commissioner.

I. P. Havens, who has been in from his ranch in the lower country, returned accompanied by his mother, Mrs. M. E. Mills.

Judge Dionicio Martinez has started thirty teams to hauling ore from his Tecolote and San Pablo mines to the Standish-Matt reduction mill. This looks like business.

Marshal Curtright was notified to keep a look out for one Paul Bothner, who had skipped from Albuquerque taking with him all the money he could collect in a day from his employer's customers. Bothner worked for C. E. Gleckler, an Albuquerque dairyman.

Word has reached this city of the death of Mrs. M. T. Gardner of Roswell in California. Mr. Gardner, husband of the deceased, who is the superintendent of the Roswell city schools, will be remembered by many Las Vegas as a healthseeker who spent last winter here.

M. P. Sund, who left Las Vegas six weeks ago on an extensive trip through the southern and western portions of the territory, has returned home, greatly benefited by his travels. Among the points visited were Deming, Silver City, Hanover, Pecos, Central, Pinos Altos and Fort Bayard. Mr. Sund spent some time in the Mimbres river valley, in Luna county, La-

mous for its extensive orchards and the great variety and excellence of its fruit.

Mrs. McCabe, mother of Mrs. J. H. Ward, celebrated her 88th birthday Tuesday. Grandma McCabe received many thoughtful remembrances in honor of the day and many warm felicitations. In celebration of the occasion, Mrs. Ward entertained a number of friends. A feature of the party was the dainty refreshments served.

Karl Wertz has left for his new field of enterprise
