Austrians Drive Wedge Through Retreating Forces After Desperate Stand on Sunday at Miechow.

RUMORED GERMAN PEACE PROPOSAL IS DENIED

England Accepts Report That Emperor William's Offer of Territory Trade Was Rejected by Russia.

By Evening Herald Leased Wire
Copenhagen, (Via London, Aug. 9)—Persons in close touch with court circles here declare that they know nothing regarding the peace offer alleged to have been made by the German emperor to the emperor of Russia through the king of Denmark. The reported proposal was said to have involved the trade of a part of Poland for Galicia.

London, Aug. 9, (5:55 p. m.)—The British government has received no official report of Germany's rumored peace proposal to Russia.

Official circles neither affirm nor deny the report, holding that if true the proposal probably is in such a tentative form that it would not be imminent on Russia formally to communicate it to the allies.

Petrograd, Aug. 9, (Via London, 3:48 p. m.)—It has been learned that the magnificent library of the University of Warsaw could not be removed in time to prevent its falling into the hands of the Germans.

Berlin, Aug. 9, (Via London, 3:48 p. m.)—Praga, the suburb of Warsaw on the eastern bank of the Vistula at Warsaw could not be removed in time to prevent its falling into the hands of the Germans.

Berlin, Aug. 9, (Via London, 3:48 p. m.)—Praga, the suburb of Warsaw on the eastern bank of the Vistula at Warsaw could not be removed in time to prevent its falling into the hands of the Germans.

Headquarters of the Austrian Army in Poland, via London, Aug. 9, 11 a. m.—The defeat of the Russians in Silesia in the fighting on the line between Lubartow and Miechow resulted in driving the troops apart, leaving a large gap between Russian troops fighting north of Lubartow who fled northeast across the Vistula and the Germans continued to advance eastward from Praga.

The German statement claims the pushing of Field Marshal von Hindenburg's troops closer to the fortress of Kosno and the cutting off of Novogrodeisk in the east between the Narew and the Vistula.

The Russians also are being hard pushed by Field Marshal von Mackensen's armies to the south, the statement adds. Capture of numerous prisoners is reported from the various fronts.

German attacks along the western front on the allied positions are continuing with apparently increased intensity, but without success, according to the Paris statement. One of the assaults ordered started north of Souchez, another in the Neuville-St. Vaast sector, a third in the Arrasome near the road from Vannes-le-Chateau to Blavincourt, and a fourth in the Vannes, where a position on the Liane was assailed.

Berlin mentions the development of a battle near Hooze, east of Vannes, but does not record the outcome. French attempts to advance in the Artois were stopped, it is declared. The shooting down of French aeroplanes at various points along the front is reported.

The French ministry of colonies reports further successes by French troops in the German colony of the Cameroun, west Africa. The conquest of that part of the Congo ceded to Germany in 1911 has been captured, the statement says, and further inroads are being made on German-held territory.

Berlin, Aug. 9, (Via London, 3:48 p. m.)—Among the news items prepared by the overseas News agency for transmission abroad is the following:

Reports from the front in Poland say the Russian announcement that farm crops were devastated and that the Russians left a desert behind them is greatly exaggerated. The farmers discontinued orders to destroy their crops and a full harvest of rye, wheat and oats is being brought in with the assistance of German soldiers. Only the villages were burned.

London, Aug. 9, (12:22 p. m.)—Russia having rejected what in England is regarded as a reasonable proposal made by the German emperor for peace with a part of Polish territory to the east must continue and as there is no indication of an immediate general offensive in the west the struggle of the Russian forces to shake themselves free of the Austro-German grip remains the chief factor in the war news.

The Balkan field of operations will closely watch because of its possible bearing on the Balkan situation again simmering by reason of renewed quadruple entente pressure on Bulgaria and Greece.

It is increasingly manifest that Germany looks to the east for a settlement of the war. By overrunning Serbia she would occupy a very favorable strategic position to provoke Bulgaria's passive or active aid in reaching Constantinople along the main line. The expectations of such a move undoubtedly has brought about renewed negotiations between the entente allies and Bulgaria.

The Austro-Germans continue to

Today's War Summary

Miles are pushing the Russians back from the old fighting ground about Warsaw, meanwhile making determined efforts to entrap and crush the armies of the Grand Duke Nicholas before they have a chance to make good their retreat to their new defensive positions.

Particularly successful operations looking to this end are reported by Vienna, where the claim is made that Archduke Joseph Ferdinand's army has forced the Russians in disorder across the Vistula near Lubartow and badly defeated them southwest of Miechow. Unofficial advices from Austrian headquarters indicate that a split in the Russian lines caused by these operations may spell danger to the forces thus divided. The probability that troops retreating from the vicinity of Lvov will protect the line of retreat, however, is suggested, along the main line. The expectations of such a move undoubtedly has brought about renewed negotiations between the entente allies and Bulgaria.

The Turks claim successes in the recent trench warfare on the Gallipoli peninsula.

The Turkish government has reported that the Turkish battleship Kheyreddin Barbarossa of 9,000 tons displacement, formerly the German warship Kurfurst Friedrich Wilhelm, has been sunk by a submarine of the entente powers.

Because of the possible effect upon the political situation in the Balkans increasing attention is being attracted by the fighting in the Dardanelles, where there has been recent pronounced activity.

Constantinople reports determine that French fighting and claims the latest clash resulted favorably to the Turks.

Berlin today recorded the forcing of the Vislita at Warsaw and the taking of Praga on the east bank, while Austrian reports declare the Russian armies falling back in the Vistula region have been divided by telling blows.

The Germans continued to advance eastward from Praga.

The German statement claims the pushing of Field Marshal von Hindenburg's troops closer to the fortress of Kosno and the cutting off of Novogrodeisk in the east between the Narew and the Vistula.

The Russians also are being hard pushed by Field Marshal von Mackensen's armies to the south, the statement adds. Capture of numerous prisoners is reported from the various fronts.

German attacks along the western front on the allied positions are continuing with apparently increased intensity, but without success, according to the Paris statement. One of the assaults ordered started north of Souchez, another in the Neuville-St. Vaast sector, a third in the Arrasome near the road from Vannes-le-Chateau to Blavincourt, and a fourth in the Vannes, where a position on the Liane was assailed.

Berlin mentions the development of a battle near Hooze, east of Vannes, but does not record the outcome. French attempts to advance in the Artois were stopped, it is declared. The shooting down of French aeroplanes at various points along the front is reported.

The French ministry of colonies reports further successes by French troops in the German colony of the Cameroun, west Africa. The conquest of that part of the Congo ceded to Germany in 1911 has been captured, the statement says, and further inroads are being made on German-held territory.

BERLIN NEWSPAPER PRINTS SERIES OF AMAZING DOCUMENTS

Alleged Secret Belgian Diplomatic Reports Declared to Have Fallen Into Hands of Germans.

SHOW ENGLAND LAID SCHEMES FOR WAR

Papers Purporting to Prove That World Struggle Was Precipitated by Ambitions of British Diplomats.

By Evening Herald Leased Wire

Berlin, Aug. 9, (Via London, 3:48 p. m.)—The Nordostische Allegemeine Zeitung continues, according to the Overseas news agency, to publish malcontents of a series of documents purporting to be secret Belgian diplomatic reports found in Brussels or theentente. The present instalment largely comprises a comment attributed to various Belgian diplomats regarding alleged political conditions in England, France and Italy during the years 1898 and 1900, so far as the international relations with those countries were affected.

The overseas news agency in its summary of the documents continues:

"Baron Leghai, Belgian ambassador at Paris, is quoted as having on January 26, 1898, asked whether French jingoes understand whether the new grouping of powers is the result of a vast program which was wonderfully schemed in London and in the execution of which Delcasse (the French foreign minister) is more than initiator."

The ambassador at Berlin once more refers to Germany's peaceful attitude, saying on February 2, 1898, "nobody even had in Berlin the absurd and impossible idea of aggression against England, but everybody fears England."

The same ambassador states on June 5, 1898 that France has returned to its normal policies but shrouded in a mantle of hypocrisy."

The ambassador of France in Berlin, whose return on German affairs has been published in a French weekly paper, was characterized on May 12, 1900, by his Belgian colleague thus: "He is distributing and multiplying small everywhere after thoughts and is badly informed as all diplomats who make use of spuds."

The same ambassador states on June 5, 1898 that France has returned to its normal policies but shrouded in a mantle of hypocrisy."

Golden Rule Dry Goods Co.

The Markets

New York, Aug. 9.—Extensive absorption of highly speculative issues in Wall street today again colored Wall Street continent. The course of the war shores gave direction to the whole market and the demand for representative stocks was well sustained. Profit taking was continuous and scattered buying and the similarity of the short interest was a powerful factor in holding prices.

COMPANY G LEAVES FOR ENCAMPMENT AT SANTA FE

Close to Fifty Men Follow
Captain Himes to District
Summer Drill Ground This
Morning.

With close to fifty men in the ranks Company G, national guard, left for Santa Fe this noon to take part in the maneuvers of the second battalion. Captain Himes commanded the company. Major H. H. Kauffman commanded a detachment of the medical corps that accompanied the fighting organization.

The men made the trip on a chartered car attached to train No. 16.

The train was more than four hours late and the militiamen, loosing in the shade about their stacked arms, attended the controls on train No. 2 nothing to look at.

The men reported at the armory early and were prepared to depart at 8 a. m., the regular time of No. 18's coming. Before marching in the station they were put through a drill on a vacant lot on Fifth street.

The company will return Saturday night.

The fourth battalion of the state's regiment of national guards is under command of Major L. W. Himes, of Las Vegas, and is composed of Company G of that city, Companies E and F of Santa Fe, and Company S of this city. The Albuquerqueans and the Las Vegas will arrive in Santa Fe about noon and will begin a billet to the selected campground, north of Santa Fe as soon as they arrive.

Adjutant General Harry T. Herren and Lieut. Frederick C. Test, inspector for the New Mexico national guard, will accompany the men to camp, and in addition there will be four sergeants of the Twentieth infantry from Fort Davis, who will act as assistant instructors.

From present indications Company E of Santa Fe will have the largest number of guardsmen at the national guard encampment which opens here Monday. Capt. James Bach has estimated that he will have forty men, which is eight more than any company has mobilized for encampments this summer.

From present indications Company E of Santa Fe will have the largest number of guardsmen at the national guard encampment which opens here Monday. Capt. James Bach has estimated that he will have forty men, which is eight more than any company has mobilized for encampments this summer.

**ORDER OF HIDALGOS
DESCRIBED IN BOOKLET**

Theron H. Tracy is the author of a beautiful little booklet on the "Order of the Hidalgos," copies of which have been received here. The booklet is descriptive of the order, whose object is to strengthen the ties between the Americas.

Carlos Viera's picture of the war celebrities of Nicaragua are used as illustrations, as are also photographs of the trustees of Mrs. Smith.

RUSSIAN ARMY

(Continued from Page One.)

A representative of the Krupp gun works arrived at Bucharest and informed the Romanian government thirty-six batteries of artillery, with ammunition and 2,000,000 pounds of barbed wire to let ammunition destined for Turkey pass through. Following the intervention of the British minister at Bucharest, the newspaper says, however, the offer was refused.

CANADIAN LOSSES TO DATE TOTAL 10,680

Ottawa, Ont., Aug. 9.—Announcement was made today that the Canadian casualties up to date number 16,680, made up of 1,377 dead, 6,738 wounded and 2,865 missing.

AMERICANS ALSO SUBJECT TO REGISTRATION ACT

London, Aug. 9, 5:55 p. m.—The British Foreign office today notified the American embassy in London that Americans resident in the United Kingdom as well as all aliens will be subject to registration under the British national registration act. New arrivals henceforth will be allowed twenty-eight days in which to report themselves.

This does not mean that Americans can be pressed into the national service in any capacity, but bespeaks a government desire to check all persons in the United Kingdom. Forms are being distributed this week and they are to be returned next Sunday.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Albuquerque People Know How to Save It.

Many Albuquerque people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is an Albuquerque citizen's recommendation.

J. J. Ryan, 223 North Broadway, Albuquerque, says: "I noticed for some time that my kidneys were not acting as they should. The jar of riding on a wagon and heavy lifting weakened them. I had sharp twinges in the small of my back, my head ached and I had dizzy spells. One box of Doan's Kidney Pills was all I needed for a permanent cure."

Price 5¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Ryan, Foster-Milburn Co., Prop., Buffalo, N. Y.

ORGANIZE THE TAX LEAGUE.

LEADING business men in all parts of the state are understood to be moving vigorously for the organization of a State Taxpayers' association and a dispatch from Santa Fe today indicates that a call may be issued soon for a meeting in the state capital at which the organization will be perfected. It is likely that this time the organization movement will be successful, interest in it having been encouraged by the stern necessity for "doing something" which will open the way to relief from the present impossible situation in the state's system of taxation. It has been thoroughly demonstrated that the tax law enacted by the last legislature not only does not meet the needs of New Mexico, but that it has served to make more complicated and irritating a situation already troublesome and complex.

While it may be proper to fix the blame upon those responsible for the existing situation in the state's tax system and at the right time hold them to an accounting, mere recrimination will not do much toward bringing a remedy. Careful thought and constructive work are necessary against the time when another legislature can make an effort at tax law construction; and the foundation of all successful work must be found in thorough education of the individual taxpayer.

It is understood that enlightenment of its members and the public upon taxation questions is to be one of the principal aims of the proposed state association; and that at the same time it hopes to encourage the practice of sensible economy and to promote efficiency in administration of the public business. If it will confine itself to this broad field, which certainly is large enough, keep away from the matter of individual assessments, and rigidly exclude anything that savors of partisan politics from its councils, the state taxpayers' association proposed can and will accomplish very important results for this state.

Since before the opening of the past legislative session the Herald has urged the formation of such an association. Had it been in existence for a year prior to that legislative session it is not unlikely that the state might now have a far more efficient taxation and revenue system. More recently this newspaper has been joined in advocacy of the taxpayers' association by practically every newspaper in the state. The movement certainly is one which should have the active support of every taxpayer who has his own interests at heart. It is to be hoped that the business men now promoting it may be able to bring the undertaking to a speedy and successful conclusion.

TINKERING WITH THE TRACTOR.

THE Roswell Evening News asserts the existence in New Mexico of a "democratic machine" with a perfectly sound road roller whose steam is always up and ready to flatten out anybody who dares oppose or not until the machine has gotten them, and not then until permission has first been given.

Testing the efficiency of this alleged political tractor in selecting our candidates for Congress next year the News demands a statewide primary, which it asserts the state committee has abundant power to call. Just where the News discovered this efficient democratic political machine is not made plain. Certainly there has been no evidence of its efficiency in the last two state elections. But if it does exist the News should keep in mind that it must have its existence within the membership and management of the state committee and that considerable tinkering with the tractor will be necessary to get it working in the right way. Maybe the News means that the tinkering is necessary, or even that it may be necessary to take the machine apart and rebuild it from the ground up. It seems reasonable enough. The year 1916 is going to be a great year for rebuilding political machines. It is even possible that some new models will be introduced into the state. In these progressive times a 1912 model will make a mighty poor showing in 1916, even in political machinery. A number of gentlemen who have been busily engaged in tinkering with their old

"Putting It Over"

We claim to have hearts that are large as a tub,
All brimming with helplessness
and love.

Omagh On Again

BY ANDREW GILLIAN

But we fight mighty shy of the puttering dub

Who has suffered from many a above.

We have eyes for the guys who have been Johnny wise
And sidestepped misfortune and loss.

For the world always did doff its lid to the kid

With the talent called put-it-across.

We would never admit that our hearts have a chill
Concerning the mutt who has failed.

Yet you've stopped up your ears
and you've padlocked your till

When he sat on your doorstep and wailed.

But youogle and blintz at the gink with the chink.

Slap his spine and pronounce him "Old Boss!"

For you want to stand in with the Djinn with the tin—

The geek who can put it across.

PLEASE pardon these apparently irrelevant reflections, but when you are the boss. This is a precaution recommended to political, as well as to the common or garden boss.

WE NOTE with pleasure that out of the sixty-one weekly newspapers published in New Mexico last week, seven did not briefly mention a list of probable candidates for New Mexico offices in 1916.

THESE seven were crowded with land office notices and other profit products matter.

"SENATOR TAX DODGER" is the 2-column, 78 point head the Carlsbad Current runs over a story about Senator Catron. It's queer how estimates of news value vary. On this side of the state we wouldn't even consider that item news.

A cool, deep pool: A whirling reel;
A mighty trout has struck,
Alas just then,
My friend Big Ben
Let go; golden the luck.

"CABRANZA yields to Washington pressure," says a headline. Considering the yielding he's done during the past two years the old boy's original inflation must have been stupendous.

SCIENTISTS could do us a favor by telling us how and why a mosquito always selects the human ear out of all the vast expanse of available anatomy.

WAGON SOUND PANTAGRAPH admonishes its readers to "push your towns along, but don't shove it off the map." In other words, look where you're pushing.

REPORTS from Las Vegas indicate that the chief problem before the Republican party is how to keep Mr. Romero from boasting it.

IT WILL TAKE a pretty good judge to pick the proper side track for the speaker of the late house of representatives.

JUST A LITTLE FAVOR.—"So you're goin' back to New York to-morrow, eh?" said Uncle Ed Cobb to the city horse.

Yes; get to go. My playtime has come to an end. Got to go back and go to work."

"Yes, I reckon. Well, I wonder if you'd be willin' to do me a little favor when you git to New York."

Certainly, certainly. Glad to oblige you. What can I do for you?

"Well, I got a nephew there named Jones. His mother was my sister. His name is Ed Jones, an' he lives somewhere in New York, but I ain't got his address. Had it, but don't seem able to find it now. My wife an' me thought it would be nice to send Ed an' his wife a few things right from the farm, an' I was wonderin' if you would be willin' to take him a pair of chickens an' a dozen ears o' corn an' a few of our fall pumpkins an' a dozen or two o' eggs an' a green tomato pie like he used to be so fond of when he was a boy here in the country. We'd like to send him a bottle o' maple syrup an' another ripe gooseberry jam an' a little jar o' sweet pickle an' a bottle o' ketchup such as I bet he can't buy there in the city, if it's convenient to carry them. His full name is Edward Everett Jones. I reckon you'd find him in the city directory. I'll fetch the things over to the hotel this evenin' in a carpetbag that was Ed's great-grandfather's, an' maybe he would like to have it as well as what's in it. Much obliged to you for the favor o' takin' those things to Ed. I reckon he'll be some sprained when he gets em. Mother thinks sh'd like to send Ed a little kitten in a box if it wouldn't be too much trouble for you to take it."

individual machines are beginning to discover this fact.

As to the statewide primary and the alleged "perfectly sound road roller whose steam is always up" we shall watch with deep interest while the News pursues its investigations. Go to it, brother.

THE young lady across the way

has the doctor told her father he

was in danger of nicotine poisoning

but she isn't much alarmed about him, as he smokes nearly all the time and she's always heard that tobacco smoke kills germs.

What Does "Adequate Defense" Mean?

Two bogeys, "militarism" and "peacemonger," enter very firmly into the discussion.

As a matter of fact, the so-called militarists insist that they are the real peace men, and the alleged peacemongers men vigorously repudiate that epithet. The Lake Mohonk Conference on International Arbitration, for instance, is persistently misrepresented as a peace-at-any-price body, though every year it deprecates being called even a "peace-entente," and generals and admirals are usually conspicuous among its guests. On the other hand, the organization of effective means to maintain peace is the first professed purpose of the army and navy. The European war has furnished arguments that are used by both sides. Vast armaments, it is pointed out by the "peace advocates," have not insured safety. Neither, it is pointed out in reply, have treaties and Hague conventions availed to prevent war. The term "adequate defense" remains an elastic phrase, the meaning of which

depends upon the surmise of the one

using it as to the power against

which we should arm ourselves.

Admiral Dewey would have us ready

eventually to meet any first-class

power on equal terms. General Carter,

stationed in Hawaii, thinks a

continental army of 500,000 men

should be available to repel invasion.

General Leonard Wood is on record in favor of a standing army of 200,000 to 250,000 men.

These views are welcomed by the

Montgomery Advertiser.

It is time our naval and military

officers should speak up, it thinks, for the

politician has had the center of the

stage long enough. But the Jacksonville Times-Union puts in a

demur. Shall not the same policies

that have made us peaceful and re-

spected for a century, it asks, produce

the same effects hereafter? Let

these paper warriors," it adds, tell

us what nation under heaven could

afford to send an army or navy

against the United States?"—Car-

rent Opinion.

Today's Live New Mexico News BUSINESS MEN IN FALL MOVEMENT OF GALLUP RAILROAD MOVEMENT FOR CATTLE WILL BE COMMENCE SOON SAFETY OF TAX LEAGUE

Shipping Resumed In Southwest New Mexico Last Week With Big Trades To Be Closed Early In September.

Gallup, N. M., Aug. 9.—Gallup folk expect the improvements long contemplated by the Santa Fe here to commence about August 21. The Santa Fe right of way man, G. W. Mattie, has secured deals to all the land necessary for the first block of improvements.

The first work, it is thought, will be that of constructing the new 334 stall roundhouse. Possibly as soon as the first of the year work will begin.

The early start will assure the completion of the work to an advanced stage before cold weather sets in and trouble can be expected with concrete.

Along with the round house construction the work of diverting the course of the Puerco will also be taken up at once. The old river will be instructed to run around the rear of the shops so that the buildings and tracks will be unimpeded by the waters that rush down the gorge occasionally.

The old Puerco will be filled in and over this watercourse will be laid the tracks for the storing of empty cars, for car repair, tracks which it is said will be entirely under cover, for the making up of trains and for general switching purposes. Gallup will feel somewhat lost for a time with the loss of the switch engine eliminated from the midst of every interesting conversation, de-lamination, or song or orchestra selection or practically everything that one thinks he certainly would like to hear. Usually when public entertainments are being given they are usually interrupted ten or twelve times by the deafening roar of a switch engine.

Miner Hart at Allison. J. O. McGinnis was fatally and A. Welch seriously injured by a fall of rock in the Diamond Coal company's mine at Allison Thursday. It is feared McGinnis has a broken back. Welch who is a member of the local baseball team has a broken hip. He will recover.

WORK REIGNS ON THE QUESTA-TAOS ROAD

Taos, N. M., Aug. 9.—Work has been commenced on the Questa-Taos road along the survey made recently by H. K. Morgan of the state engineer's office. The road is being built under the direction of Guy Newby.

The heaviest part of the grade will be completed first, this being from the Red river crossing near the residence of Luis Belmont and extending to the top of the mesa near the Bet Luce farm. It is the intention of the state highway commission to open the road as far as possible with the funds now on hand, made available by the five mill special levy imposed in 1914 for this purpose. However, it is estimated that at least \$10,000 will be required to build this road according to the state engineer's specifications.

THANKING YOU FOR YOUR COURTESY IN ACKNOWLEDGMENT, I AM,

Very truly yours,
W. L. HOLGETT.

The roulette wheel, the cold deck and the men who operated them were out of business here at least ten years ago, and since then Deming and the Mimbres valley boast a collection of citizens excelled by no other section of the country.

In these hustling times it takes men of brains to run a country like the Mimbres valley, and the gambler and the profiteer have no place here.

If the tourist friends of Mr. Holgett want to find bad men, gamblers and their kind they should stay in New York or some of the eastern cities, where human life is so cheap and where the Ten Commandments have been forgotten long ago.

LORDSBURG PLANS A GIANT CELEBRATION OF ROAD'S COMPLETION

Lordsburg, N. M., Aug. 9.—A giant celebration of the completion of the new spur to the \$2 mine will be held here Labor day, the festivities which usually attend the celebration of that day being combined with others in recognition of the benefit this road will be to this section.

The principal event will be the driving of the copper spike connecting the main line of the Arizona & New Mexico railway with the spur to the Virginia mining district, and also Labor day.

The officials of the A. & N. M. expect to have the road completed by that date, however, ore hauling from Shoshone's already has begun over the new spur. There is another month's work to put the finishing touches to the curves and right of way, but by September 6 everything is expected to be ready.

MAGDALENA SCHOOLS START NEW TERM IN EXCELLENT CONDITION

Deming, N. M., Aug. 9.—Because of the normal and goodness of the west still intact is evidenced by a store printed this week by the Deming Headlight, it is as follows:

Pastor W. E. Foutts has received the following letter from a pastor in Denver, Colorado, who wants to be able to inform his tourist friends from the east two precious things they are from the east: two precious things in still the home of the bad man, the gambler, the she wolf from Butter Creek and all those picturesque char-

acters who fill across the pages of the dime novel and the moving picture screen. The only gamblers in this section are the dry farmers who plant their crops and take a chance on the coming of the rains in time to allow them to grow something successfully.

Denver, Colo., Aug. 2, 1915.
U. S. Postmaster,
Deming, N. M.
Dear Sir:

To enable me to answer tourists who ask if any of the "bad West" still exists, will you kindly tell me if gambling is still running openly in Deming, such spectacles as instance, as fate and fortune.

THANKING YOU FOR YOUR COURTESY IN ACKNOWLEDGMENT, I AM,

QUAY COUNTY BUILDS BRIDGES BY WHOLESALE

Farmers, N. M., Aug. 9.—Quay county set the summer bridge building record for New Mexico last week when the county commissioners let contracts to build new bridges, all of which are to be finished by January 1, 1916. The bids on the several bridges at the Missouri Valley Bridge and Iron company were the lowest, and that company was awarded the contract as follows:

One hundred fifty-five foot bridge over Plaza Largo, \$1,815; two hundred forty-eight foot over Barrancas creek, \$2,330; three hundred ten foot over Trujillo creek, \$2,813; one hundred fifty-five foot over Ball creek, \$1,994; one hundred twenty-four foot over Mineral creek, \$1,620. Total, \$16,710. The bid of the Midland Bridge and Iron company totaled \$11,981, and that of Messrs Funk and Hall \$12,988. The work of construction is to begin soon and be completed by January 1, 1916. The Plaza Largo and Barrancas bridges will be built first.

Business men in movement for tax league

Feared held for safety of trader

Trading post at sunrise

Springs burned and trader wife and four children missing; Is 100 miles from railroad.

Land all secured and McKinley County Metropolis expects work to start about August 21.

Shipping resumed in southwest New Mexico last week with big trades to be closed early in September.

Well informed stockmen who have been in southwest New Mexico during the past week say that the movement of cattle from that section during the early fall will be unusually heavy this year, chiefly because of light spring sailing, most of the big stock men having held their cattle for fall delivery. The late summer and early fall movement started late last week with the shipment from Easley station on the Silver City branch of three cars of calves sold by John Holland of Alpine, Texas to Frank Fleming of Silver City and El Paso.

Mr. Holland is soon to join the ranks of New Mexico cattlemen. He has purchased the old El Prado ranch near Easley, between Raton and Deming and will transfer his entire cattle business and holdings from southwest Texas to the New Mexico ranch this fall.

Nunn and Latham of Nutt station have contracted to deliver some 2,000 head of yearlings and two year olds on September 1st to T. D. Love and Wiley Franklin of El Paso, at prices understood to be very satisfactory. The stuff will be shipped from Ocate station.

One of the biggest deals made this year is now being closed up in southern Grant county where J. W. Phillips of Deming and C. H. Hart of Portales, both of whom were in the season to buy up all the cattle in the district have divided the territory. Mr. Phillips is taking all the cattle north of the Southern Pacific tracks and Mr. Hart all the stuff south of the tracks. All of the contracts were made through the First National bank of Lordsburg and the prices quoted are \$32 for yearlings, and \$40 for two year olds. Shipments of these cattle will begin about October 1 and continue for thirty days.

Fine Rain Last Week.

The southwest section of the state, Luna and Grant counties, and parts of Santa Fe were drenched by fine rains on Thursday and Friday according to stockmen who reached Albuquerque Sunday morning from that section. For forty-eight hours an almost uninterrupted downpour fell over the whole section and the range, already in fair condition, has been put in the best condition in recent years. Every waterhole in the district is level full.

Reports from all parts of the state indicate that the range conditions are excellent. There have been more or less heavy rains everywhere over the eastern and southern sections during the past ten days, leaving range conditions that are practically ideal.

THANKING YOU FOR YOUR COURTESY IN ACKNOWLEDGMENT, I AM,

V. L. HOLGETT.

CAR ACROSS COUNTRY**

Promptly the first woman ever to attempt the driving of a six passenger car reached this city in a second passenger train yesterday. She was Miss Fanny Brady, and she has driven the car every inch of the way since leaving Birmingham, Ala., her home, to this city. She is accompanied by her parents and by Mr. and Mrs. W. E. Kyle, of Birmingham.

Miss Brady declared that good highways had been found most of the way and that driving was little trouble—except on the longer stretches when 12 to 12 hours a day of it became rather tiresome.

Negro Woman Helps Man Companion Hold Up Resident of Iron Avenue on the Coal Avenue Viaduct.

Confronted with the first case of feminism in the hold-up field, the local police are wondering today whether, after all, a policewoman, armed with a baton, wouldn't be a useful addition to the force.

The feminine hold-up appeared on the Coal avenue viaduct at 9 o'clock last night. She was colored. She helped a male companion, also colored, stick up J. D. Stroud, of 320 West Iron avenue.

According to the police report on the occurrence, Stroud was stopped by the pair and the man thrust a revolver in his face. Stroud put up his hands and the girl searched him. He didn't have any money, and they allowed him to go on.

The night police hunted without avail for the female highwayman and her companion. The day police took up the job this morning.

**STRANDED PIANO
PLAYERS HALED
TO COURT**

Clad In Silk But Without a Copper; One of Them Refused \$500 from Railroad Claim Agent.

Two stranded musicians were among the vagrants detained in the city court this morning. They were John F. Flinerty, the son of a well-to-do government official in Illinois, and M. M. Perry.

They are piano players. Both wore silk shirts when arrested, but neither had so much as a copper in his pocket. They told Judge Craig this morning that they would break off their tour for a vacation of three or four weeks.

Capt. Fred Fermor is in Albuquerque for a few days from his home in Florida.

Dr. J. F. Kester of Topeka, chief surgeon of the Santa Fe railroad, was a visitor in Albuquerque yesterday.

Ed M. Otero of Los Lunas spent last night in the city returning from California.

A regular meeting of St. Elmer Knights of Pythias at 8 o'clock tonight.

E. C. Benson of the Studebaker has returned from a month's stay in the upper Pecos country.

John Morris, son of Mr. and Mrs. P. M. Morris, arrived in Albuquerque last night from Texarkana, Arkansas.

H. H. Horning and D. E. E. Morris left last night for northern New Mexico to complete a tour of the northern counties in the interest of the state fair.

Since Morris, one of the girls who had followed a road on the Santa Fe, has been turned over to the police court, and he expects the same if he goes to the fair.

The W. C. T. U. will hold its annual meeting tomorrow afternoon at 8 o'clock at the home of Miss W. E. Walling, 607 East Silver Street. All members and their friends are invited to attend.

William F. Garner, a Los Angeles newspaper man, who has set out to travel across the country along the transcontinental auto highways, is expected to arrive here soon. He writes articles for a Los Angeles newspaper on his travels.

Walls is being pushed on the Melton building on Central Avenue between Fourth and Fifth streets. The structure is expected to be finished in September, and the J. C. Penny company will establish a store in the lower floor at once.

Mrs. H. M. Farnsworth and children, Harry and Pauline, will leave Tuesday for California, where they will be the guests of Mr. and Mrs. Frank Frankenstein, of Los Angeles. After a visit to the coastlands they will return home about November 1st.

C. E. Johnson, engineer of the United States Indian Training School, returned Saturday from the Panhandle, Okla., where he has been working on the construction of a dam there.

Mr. Gladding was graduated two years ago from the University of New Mexico, and last year a graduate course at the Massachusetts Institute of Technology. He was graduated from the institute last June. His appointment to the army is a recognition of his thorough training as an engineer.

Farmington and Aztec contingents will make trip down on fast schedule and will lodge in parked cars.

Word has been received by the state fair authorities from P. R. Morris, general passenger agent for the Denver & Rio Grande, that he has been authorized to run a special train from Farmington to Raton Fe on October 11. The train will be made in Rio and the train will leave Farmington at 5 p.m.

At Santa Fe, the terminus of the D. & R. G. near this city, the train will be met by a special train of tourist sleeping cars which will bring the tourists down to Albuquerque. These cars will be parked here and will serve as lodgings for the San Juan diggers.

Aztec and Farmington each have attracted 100 people to make the trip to ensure the train, and Mr. Morris declares he expects a minimum of 100 visitors to avail themselves of this opportunity.

This will bring the largest contingent to the fair that has ever come from the San Juan country, or an organized party from any section.

Plans regarding the cemetery will be expenditure of between \$4,000 to \$5,000. A water main is to be run to the cemetery and a caretaker will be needed to care for the grounds. The contract for buying the tract and the erection of a caretaker's cottage will be let this week.

At the same time the State National bank of this city advertised, in behalf of the Albuquerque lawyers, a reward of \$500 to any person who will produce the typewriter with which the three alleged forgeries were written.

At the same time the State National bank of this city advertised, in behalf of the Albuquerque lawyers, a reward of \$500 to any person who will produce the typewriter with which the three alleged forgeries were written.

In a supplemental decree filed in the United States court in Santa Fe Saturday evening Judge William H. Pope of the New Mexico district, exonerates the firm of Marron and Wood of this city from all suspicion of wrongdoing in connection with the famous case of Garcia vs. Garcia, and the three letters introduced in evidence in that case and alleged to have been forged.

At the same time the State National bank of this city advertised, in behalf of the Albuquerque lawyers, a reward of \$500 to any person who will produce the typewriter with which the three alleged forgeries were written.

The original opinion handed down by Judge Pope contained language which was considered to reflect upon the conduct of O. N. Marron and Francis E. Wood, who appeared as attorneys of record for the plaintiff in the Garcia case. In the supplemental decree filed Saturday the court states that no such implication was intended and that he had felt that Marron and Wood were guilty of wrong doing in the matter he would have named them specifically and instituted disbarment proceedings against them. The text of the supplemental decree follows:
