RUSSIA'S SECOND DEFENSE LINE BREAKS DOWN BEFORE GRIM WAR MACHINE

Whole Force of German Attack Appears Centering on Effort to Cut Hole Through Center.

GRAND DUKE'S FORCES GENERALLY ON RUN

American Consul Asked to Take Charge of British Interests at Riga; London Expresses Grave Uneasiness.

(By Evening Herald Special Wire)
Washington, Aug. 14.—The American consul at Riga has taken over the British interests there. Ambassador Myrte so reported today from Petrograd, but gave no explanation.

Russia, Aug. 14, (via Petrograd, 12 noon, via London, 1:02 p. m.)—The equipment and supplies of factories and stores are being removed from this city. Many inhabitants are departing, although the civil government, state and private banks, the postal and telegraph services are still in operation.

The roads leading to this city from the west and northwest are lined with endless processions of refugees, with their wagons. Many peasants in the Lomza, Ostrow and Malan districts have departed hurriedly.

AMERICAN SHIP ADVISED OF ALLEGED ATTACK ON FLAG
London, Aug. 14, (12:10 p. m.)—Steady progress for the forces of Prince Leopold of Bavaria eastward from Warsaw is taken here to indicate that the Germans are now massing their main movements on a drive through the Russian center and the continuance of the enveloping of fort in the north along the Prima, both Petrograd and Berlin agree that the Germans have occupied the towns of Bobolow, Siedlce and Lukow, forming a German front about sixty miles east of Warsaw and fifty miles west of Warsaw.

This is more than half way to West-Litovsk, which Grand Duke Nicholas, the Russian commander-in-chief, hopes to make the new center of his defense. It is now regarded as probable that this point will be abandoned.

Petrograd claims that the Germans have been checked between Poniewiech and Dynakow. Berlin, however, does not concede this. For the moment the intensity of the fighting is giving way to a scramble of the retreating forces to avoid the enveloping net and the rapid advance of the Germans to gather the full fruits of the battle of Warsaw.

German correspondents accompanying the invading armies say the Russians are following the tactics of the Napoleonic campaign, laying waste the country which they abandon.

Operations in the western held have virtually been halted, except for occasional trench skirmishes.

War clouds continue to gather over the Balkans. A Central news dispatch from Amsterdam reports that Germany is preparing for eventualities by transporting 40,000 troops from Warsaw to the Serbian frontier.

CLAIM ATTACK PLANNED ON SUZ CANAL FRUSTRATED
Paris, Aug. 14, (11:15 a. m.)—A plan for an attack on the Suez canal is said to have been detected and thwarted. Announcement was made in the following statement:

"On August 12 after warning had been given to the governor of Jaffa and time given for the evacuation of the vicinity, a French cruiser bombarded and destroyed the principal building of the shops of the German factories which were making arms and ammunition and constructing boats destined for an attack on the Suez canal. The houses in the vicinity were not damaged."

REPORT SAYS FRESH TROOPS LAND SUCCESSFULLY IN TURKEY
Paris, Aug. 14, (1:30 p. m.)—An official communication on the situation at the Dardanelles given out by the French war office this afternoon reads:

"On the Gallipoli peninsula British forces since August 6 have been advancing successfully at a point near the Bay of Samsun on the west side of the peninsula. They have made progress at a point further to the south in the vicinity of Lake Teppe. Here, after some severe fighting, these forces were successful in gaining a footing on the slopes of the heights of Lake Teppe. They took more than 500 prisoners and captured nine machine guns. The operations at this point continue to progress."

"At the south end of the peninsula the efforts of the Turks to penetrate our lines all resulted in failure. On

Today's War Summary

German forces are continuing their rapid eastward march from Warsaw and exerting increasing pressure on both north and south wings of the Russian army. The situation is causing the question to be raised in capitals of the entente allies whether the grand duke's forces will be able to hold their second line of defense, with Brest-Litovsk as its center.

Today's German official report shows that Field Marshal von Mackensen's forces have swung northward to a line drawn from Radzyń to Vlodova, pressing closer to the Brest-Litovsk stronghold, which is about thirty-five miles north of Vlodova. Austrian-German forces already had occupied Radzyń.

The German crown prince continues pounding at the French lines in the Argonne. Paris reports an attack last night along the entire front in the Marie Therese sector, which was repulsed with perceptible losses to the Germans. A second but less violent attack early today was easily checked, the official statement says. Berlin declares progress was made by the Germans near Martinswerk in the Argonne region.

The British steamer Cairo and a fishing smack have been sunk by German submarines.

The French ministry of marine announced that a threatened raid on the Suez canal had been frustrated through the bombardment by French cruiser of German ships in Jaffa, where munitions were being made and boats constructed for the proposed operations.

such emergencies the report may quite possibly be true.

A dispatch from Amsterdam on July 29 said the U-36 had been sunk off the mouth of the Elbe and raised 36 hours later, one member of the crew losing his life.

AMERICAN SHIP ADVISED OF ALLEGED ATTACK ON FLAG
New York, Aug. 14.—The American steamship Zaccarello, arriving here today from Gothenburg, reported being stopped by a British cruiser on the way home and told of the torpedoing of an American steamer and several Norwegian vessels by a German submarine in latitude 67, longitude 12.

The date of the torpedoing and the name of the American ship were not given by the British cruiser. It is believed, however, that it was the steamship Leclaraw, which was torpedoed and sank off the Orkney islands on July 27.

BRITISH STEAMER CAIRO SUNK BY SUBMARINE
London, Aug. 14, (12:45 p. m.)—The British steamer Cairo, and the fishing smack Amethyst have been sunk by submarines. The crews were saved.

There are two British steamers Cairo, the larger of which is a vessel of 1,671 tons gross, owned by the Glasgow Navigation company. The other is a small fishing boat owned in Hull.

GERMAN NEWSPAPER RIDICULES SEPARATE PEACE TALK
London, Aug. 14, (12:45 a. m.)—The report that Germany has made overtures to Russia for a separate peace by offering to Russia a free use of the Dardanelles are ridiculed by the Hamburg Nachrichten, according to a Berlin dispatch from Amsterdam.

Germany does not own the Dardanelles, and therefore cannot offer them to anybody, declares the Nachrichten. "They are the property of the Turks, who for five months have proved that they know how to defend them. The German empire does not betray its allies."

MAY GUARANTEE MINIMUM PRICE TO WHEAT GROWERS
London, Aug. 14, (12:45 p. m.)—The cabinet is considering important recommendations concerning the supply of food, particularly wheat, made by the committee appointed in July by the Earl of Selborne, president of the board of agriculture, with Lord Milner as chairman. The nature of the report is guarded closely, but it is intimated that recommendations include a plan to increase the home grown supply of wheat by guaranteeing to producers a minimum price for their product.

AMERICAN BARK PASS MAY PROVE ANOTHER DACIA COMPLICATION
Bremen, Aug. 14, (via London, 1:45 p. m.)—The German authorities have not yet released the American bark Pass of Palma, which was brought into port a fortnight ago, having on board 2,000 bales of cotton from New York to Archangel. The situation is complicated with circumstances which may lead to considering the Pass of Palma a good prize, although her cargo of cotton is not contraband.

The case is similar to that of the American steamer Dacia in that the vessel was transferred to American registry after the outbreak of the war and so far as can be ascertained her cargo already had passed to the ownership of the Russian confederates.

The ultimate disposition of the Dacia may be awaited as a pre-emptive.

COMPARATIVE QUIET RESTORED IN HAITI

Washington, Aug. 14.—The Haitian flag flies again over National and both Port Au Prince and Cap Haitien have been quiet since President Dartagnan took on his duties.

Bear Admiral Caperton reported today that the new president's reception was enthusiastic. The president made public acknowledgment of the part of American troops in restoring government.

The American Red Cross called

15,000 to Port Au Prince today for relief work in response to a message from Bear Admiral Caperton, who reported that "the entire country is destitute through lack of crops and industries as a result of the revolution."

ANTI-WAR COUNCIL URGES PEOPLE OF WARRING NATIONS TO ASK PEACE

Learned Professors of Netherlands Issue Worldwide Appeal Couched in Language People can Understand.

FRENCH CABINET WILL REPLY TO CRITISMS

Charges in Chamber of Deputies as to Conduct of War Sufficiently Serious to Require Explanation.

(By Evening Herald Special Wire)

The Hague, Aug. 14, (via London, 2:50 p. m.)—The Netherlands anti-war council has presented an address to Dr. John London, the Netherlands minister of foreign affairs, asking of collaboration in the formation of a permanent conference of representatives of the neutral powers to work in the interests of peace.

The anti-war council also issued a manifesto printed in Dutch, English, French, German and Russian, exhorting all belligerent peoples to proclaim their desire for peace.

Although it is signed by a number of learned professors, the document is remarkable for its homely phraseology, stating at the outset that it desires that warring nations may ask would-be peacemakers "what the deuce enter neutral heads that they mix in others' affairs while refusing to assume a share of the common burden?"

Nevertheless, it is pointed out, the only victory that will ensure a lasting peace must be a moral victory of the people, who are urged not necessarily to love an enemy as one's self, or even have one's neighbor as one's self, but, as the manifesto insists, merely "respect thy neighbor like thyself."

It is remarkable for its honest phraseology, stating at the outset that it desires that warring nations may ask would-be peacemakers "what the deuce enter neutral heads that they mix in others' affairs while refusing to assume a share of the common burden?"

French cabinet will REPLY TO CRITISMS
Paris, Aug. 14, (2:15 p. m.)—The cabinet at a meeting today discussed requests that had been made by a group in the chamber of deputies, the leaders of which have been criticizing among themselves and occasionally in the chamber the cabinet's conduct of the war.

It was announced at the conclusion of the cabinet council that Minister of War Millerand had informed his colleagues that he would take occasion next Friday to discuss the questions raised, choosing the occasion when the appropriation for the "new under secretaries for war would come up for debate."

Repeats Charge Booze Used to Make Bravery

Jane Addams in Chautauqua New York Address Says Soldiers of All Armies are Stimulated to Brutishness.

(By Evening Herald Special Wire)
Chautauqua, N. Y., Aug. 14.—Miss Jane Addams of Chicago, speaking on "peace" before the Chautauqua assembly reaffirmed her statement that Europe's soldiers in some cases have been stimulated by alcoholics and drugs for bayonet charges.

"My informants in England, France and Germany were soldiers, officers and well informed civilians," said Miss Addams. "I don't question the soldiers' courage," she continued, "but when a prominent official in the Paris office tells me his men are given stimulants before a bayonet charge, I believe him. When a German lieutenant tells me his men were given a drug formula, containing sulphur ether among other things, to stimulate their bloody bayonet work, I believe him. And when a big Oxford university professor in England tells me his son and nephew were given rum to stimulate them in battle, I believe him."

"When common talk in all countries among the women who have husbands and sons and sweethearts at the front tells me the same thing, I began to believe that the average soldier is not sufficiently British and勇敢 to fight with cold steel against his brother men, unless primed with drugs or strong drink."

Although it is signed by a number of learned professors, the document is remarkable for its homely phraseology, stating at the outset that it desires that warring nations may ask would-be peacemakers "what the deuce enter neutral heads that they mix in others' affairs while refusing to assume a share of the common burden?"

argument that always brings results. They say to the people, These lands are really ours and invite him to seize them."

The agitators after organizing secret societies for the "redemption" of lands to Mexicans generally disappear after collecting dues from the members.

**MEXICAN BAND APPEARS
IN SOUTHEAST TEXAS**
Laredo, Texas, Aug. 14.—A party of eighty Mexicans under a leader named Cabrera has appeared between Zapata and Rio Grande City, 20 miles below Laredo on the Texas side. A detachment of the Fourteenth cavalry is stationed at Zapata and with the aid of citizens, is prepared to resist the bandits if they reach that point.

News of this was dispatched here from Zapata today.

**SHERIFF AND POSSE ON
TRAIL OF BOLD RAIDERS**
Nogales, Ariz., Aug. 14.—With twenty armed men Sheriff W. A. McKnight left here today for Harrison's ranch, nine miles east where Mexican raiders were reported to have crossed the international boundary and driven 300 head of cattle into Mexico. Nogales citizens began arming themselves, saying they feared raids close by.

Bert Sorrells, manager of the Harrison ranch said the Mexicans who appeared to be soldiers, made the raid before dawn. Sorrells said he and a cowboy fired on the Mexicans who returned the fire. Fifty cowboys from other ranches were riding toward the Harrison place with the announced intention of going into Mexico if necessary to bring the cattle back.

Carranza forces appeared close to Nogales, Sonora, today and near the border. The village garrison under Governor Jose Maytorena prepared for an attack.

OPENING OF FALL TERM SEPT. 7 MARKS SEVENTH YEAR OF THE ALBUQUERQUE BUSINESS COLLEGE

A. B. C. Banks Foremost Among Business Training Institutions of the Whole Southwest. Will Make New Departure this Year with the Six-Day Session Weekly An interesting Announcement for Young Men and Young Women.

Not only New Mexico, but the whole southwest is marvelling at the continued growth, increased building and rapid forging ahead of Albuquerque ever during times when many sections of the country are suffering from financial depression. Albuquerque's prosperity is primarily due to her commercial importance, her superb educational institutions, her unique climate and the loyal, energetic and enthusiastic co-operative spirit of her business men.

Because of these conditions and the urgent need among business and educational institutions for a first-class business training school, the present management of the Albuquerque Business College seized the opportunity offered, and purchased and reorganized that institution, nearly seven years ago.

Many difficulties beset the school during the early years of its existence but these were gradually overcome, the standard of work was raised to the highest level by an expert corps of instructors brought from the fac-

ulty of the Albuquerque Business College.

Many Courses Offered.
As the growth of the school warranted and to meet the demands of the public, additional courses have been added so that now a student may pursue the following courses: Stenography, bookkeeping, touch typing, banking, court reporting, accounting and auditing, secretarial studies, commercial teaching, and civil service courses for stenographer, bookkeeper, telephone, field, Pan American or Philippine service, railway mail, express service; postoffice departmental, field and forest clerk (not all these have same requirements), and all or part of the subjects for many other examinations.

Graduates of the various courses named above are now following their chosen work not only at home but all over the country. Not a graduate of the school is unemployed, in fact so persistent have been the demands that the management cannot supply all the calls. Fully ninety per cent of the office help employed by Albu-

querque Business College.

It is expected that other cities will

start similar schools in the future.

Six-Day Sessions Weekly.

The opening of the fall term on September 7 will bring many new students, especially because the school, in order to meet the convenience of the public, have announced that six sessions a week (half days Saturday) will be held, thus enabling students to complete a course in much less time than was formerly required.

The school is in session both day and evening, throughout the year and many courses are offered by correspondence, both the class and the individual method of instruction is followed in the resident school.

The revised catalogue, giving full information about the courses and terms has just come from the press and will be mailed on request.

PROSPEROUS TIMES REPORTED FROM MESILLA

LAS CRUCES BOYS ARE ARRESTED IN PHOENIX, ARIZ.

Valley Fruits and Alfalfa Are Doing Fine Says Dr. Lukens Mining Activity In the Organ Mountains.

Highly prosperous conditions in the Mesilla valley are reported by Dr. E. Lukens, who has just returned from a trip to the southern part of the state.

There is a great deal of activity in the Organ mountain mining camp. Alfred Hoot, lessee of the Excelsior and other mining claims is shipping two car loads of high grade ore weekly. One car last week netted him \$1,200.

The fruit and alfalfa have never looked so well, says the doctor, especially on the west side of the river from San Marcial to the Texas line. The producers are beginning their fourth cutting of alfalfa. Through the efforts of the producers' association, the Anthony, Texas, people have received \$3.50 net for their alfalfa.

The development of the mesas west of the railroad tracks is especially promising this year. Dr. Lawson at Anthony, has forty acres in fig-peaches, pears and other fruits. W. H. Adams put forty acres in peach orchards and raised fine bunching and fine flavored melons without a drop of irrigation. Other fruit is doing as well under the same dry farming conditions. Dr. Lukens says peach trees so loaded that the fruit dropped on the ground.

For dyspepsia our national ailment, use Burdock Blood Tincture. Recommended for strengthening digestion, purifying the blood. At all drug stores, \$1.00 a bottle.

WILL ASK FRENCH TO HEAD WELCOME TO THE ENGINEERS

City Engineer James N. Gladding, who is planning for some sort of reception to the members of the American Society of Engineers here on their way to the coast next month, is in hope of having State Engineer James French on hand to extend greetings in the name of the state. Mr. French is a member of the society. There are only two members in this city, and no more than a handful in the state. In order to be eligible to membership an engineer must have been in full charge of engineering works for a certain number of years. City Engineer Gladding and H. P. Robinson, superintendent of Indian irrigation, are the local members.

FREE TO Asthma Sufferers

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development; whether it is present as Hay Fever or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, dusting, oiling preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and then begin the method at once, send no money. Simply mail coupon below. Do It Today.

A. B. C. GRADUATES TAKE IMPORTANT POSITIONS

Albuquerque School Fills Three Important Positions in as Many States with its Students.

Three graduates of the Albuquerque Business college are on their way to important teaching positions in important schools in as many states adding an important chapter to the fine record of results constantly being written by students of the Albuquerque institution.

Ed Dorris, a graduate of the Business college and also of the University of New Mexico, has gone to Fort Scott, Kansas, where he will take charge of the commercial department of the high school.

Miss Lee Keenan, who has been teaching in the local Fourth ward school, has gone to Santa Fe where she takes charge of the commercial department of the Santa Fe high school.

R. E. Forney, graduate of the A. B. C., and one of the basket ball stars, has gone to the well known Yocum's Business college of Massillon, Ohio, where he has accepted a position on the faculty.

PERSONALS

Mrs. T. N. Wilkerson and small sons returned Sunday from a month's visit in Arizona.

W. W. Gammie, of London, Ont., and Dr. G. A. Boutledge, of Lincoln, Ont., registered at the Commercial club this morning. Dr. Boutledge proved to be a friend of Secretary Tom Egan's uncle, who lives at Lambeth.

Adelicia Leyla de Taghios has sued Joaquin Taghios for absolute divorce. She alleges abandonment.

Deputy Sheriff A. C. Burtless has gone to Magdalena to get Mr. and Mrs. Burdell Morrison, wanted here for alleged fraud in a hotel keeper, and Fred Streetter, wanted for the alleged theft of a gold watch belonging to Charles Martin, a printer.

An amendment has been proposed to the constitution to allow the use of necessary funds for the sanitarium. There is plenty of money on hand, and it is hoped that another year will see the sanitarium question settled.

Mr. Burtless has received word that the knights in Canada have withdrawn their objection to the erection of an institution in the United States. They are satisfied with the provision that Canadian knights be admitted to the sanitarium.

MAIL ORDER COMPETITION.

"**M**AILED order competition is hard to meet." One hears this statement more often than any other from the average local merchant in discussing his business competition.

Discussing the mail order house and the money it takes from this community that should stay at home, W. P. Southard, manager of the local electric light and gas utility, told a large company of Albuquerque business men this week that mail order competition is not hard to meet; that the chief trouble in meeting that competition is a mistaken idea of the way to meet it. This is precisely accurate.

There are two sides to the mail order evil. That it is an evil no one can question; that when we send our cash out of our home community for goods, while running a "charge account" with the local business houses we are doing a grave wrong to the local merchant and the community, is perfectly clear. On the other hand this practice has been followed more or less in every community in the United States since the mail order business was first established, and it always will be followed until the local merchant becomes just as efficient in his methods for getting business as is the mail order house. "Casing" the mail order business will not stop it. Price cutting will not stop it. As long as the great mail order house sweeps the country with its huge advertising campaign it will continue to get and take away home dollars that should stay at home; often delivering for that dollar a grade of goods inferior to what may be had at home for the same dollar; and, never be satisfactory if it be a garment, or as healthful or palatable if it be a food product. A considerable portion of the people may be fooled all the time, and are fooled all the time. It is no good to blame the housewife for sending to Chicago or New York for a dozen pairs of socks on a mail order bargain offer. It may be she can get the same socks for her husband, or the same underwear for her children, or the same house dress for herself for less money at home. But if she BELIEVES she is getting more for her money from the mail-order house her own conscience will justify her in sending the money out of town. Therefore, saying hard things about the mail order house on the one hand, or the local mail order customer on the other will not get us anywhere.

This narrows it down to just one proposition; that which Mr. Southard emphasized. To meet the mail order competition it is necessary to meet and beat its advertising propaganda. In the contest of advertising the local merchant has a tremendous advantage over the mail order house. He can get his space in a more satisfactory medium: the local newspaper; and he can afford to spend more money in the local newspapers than the mail order house can hope to do. In proportion to the volume of business done the great mail order houses spend considerably more of the gross income in advertising than the average local merchant. That such expenditure is justified is perfectly clear. The results show it.

If the average local merchant in this city and in other cities of New Mexico would spend a percentage of their gross income in advertising in approved local advertising media equal to the percentage spent by the mail order houses they would drive every mail order house out of New Mexico in a year; for the simple reason that no mail order house can afford to use local newspaper space in sufficient volume to get local results even if the local newspapers would sell the space to mail order houses—which the local newspapers generally will not do, and which our Albuquerque papers refuse to do. And the catalog as a producer, is a dead medium when compared to the local newspaper.

There is just one way to educate the public against mail order buying. That is to place constantly before them goods as satisfactory, at prices as satisfactory. The home merchant who does that will not be worried seriously by mail order competition.

There is the element of public spirit in the matter. It is wrong to send money earned at home away from home for goods which can be had at home for the same money, grade and service considered. But just so long

as the housewife, the family spender, is allowed to be fooled into the belief that the mail order saves her money she is going to continue to try to save the family money by using it; and she will believe herself right. It is a matter of education, hard, practical every-day, day-in-and-day-out education. We need go no further than the July and August sales in the retail stores of this city for proof that Albuquerque women will buy at home to the exclusion of every other kind of buying, when they believe they are getting "bargains".

The Albuquerque retail stores are meeting mail order price competition every day in the year. It is because local buyers, some of them, are misled into the belief that they are not doing so that causes the outpouring of mail order money during so many months in the year.

There is just one way to meet the mail order competition: by meeting mail order publicity and doing it a few notches better on the advertising speed register. And this can be done by every local merchant, in his own home field, without a single exception, and without subjecting a single merchant to a charge of exceeding a reasonable advertising appropriation.

THE TRADE WEEK PLAN.

WHILE on the subject of business getting, the trade week plan which has been suggested to local business men commends itself as interesting and practical. The Herald has been somewhat persistent in bringing to the attention of Albuquerque merchants what we believe to be opportunities for practical, every day business which have been partially or wholly overlooked in the country surrounding us, and directly tributary to this city. These overlooked opportunities are found especially in the small communities nearby. A number of years ago Albuquerque undertook a systematic campaign to encourage closer business relations with these communities. Several trade excursions were run. The results were splendid. But we permitted our activities in that direction to cease after the one spasmodic effort. The result has been that business which should be coming to this city has drifted to other of the larger towns of the region, or is going out of New Mexico by way of the mail order route.

The trade week plan is a good one, and with proper effort will be made to prove of great value. But what is needed here is a persistent, all-year, day-to-day campaign for closer and more friendly relations with the communities of New Mexico, especially those near to us; a campaign which will make these people want to come to Albuquerque not only for the state fair, or for trade week, or for any other special occasion, but because it is to their interest to come here the whole year through; and because it is a pleasure to come.

A series of trade excursions during the next sixty days, prior to the state fair, and as a prelude to the trade week campaign would lay a foundation upon which this city could easily build a splendid addition to the year's business volume.

We have been drilling away on this trade excursion proposition and will continue to do so because it is sound. It has produced hard dollars in large volume for every community that has carried it out upon a systematic plan. It is bound to prove a producer for us. The money invested in these trade trips will prove the best business investment Albuquerque merchants ever made, because the result is direct and continuous and cumulative.

STILL THEY COME.

ANOTHEB county is in the state fair list today. By the action of the Lincoln county commissioners yesterday a fine display of the resources of that county is secured at the coming fair, one of the counties of New Mexico have joined in the movement for the greater, the true state fair until only a few are outside the fold. Those that will join in the movement before this will join in the movement before many days is practically sure. We are to have here in October a genuine exposition of the products and resources of New Mexico; the first ever held in the state. This is a state fair we can afford to advertise. It is an event we can well get behind with every bit of enthusiasm in us. Also this statewide institution, reaching its proper basis and its true development this year gives Albuquerque its opportunity. Let us all get behind the state fair and especially the local arrangements committee completed and announced in the Herald yesterday. It is through the work of these committees that Albuquerque's permanent benefit is to be obtained.

CARTOONS OF THE DAY**THE MEXICAN SILHOUETTE**

—Dasher in the Cleveland Plain Dealer

The PEOPLE'S LEGAL FRIEND
By T. R. BRANSON**What Time Did You Say?**

Q. When a man rents apartments in a hot building, isn't he entitled to have the hallways lighted? I am occupying rooms on the third floor and return home every night about nine o'clock. It often happens that there is no light on the second floor and frequently none on the third. Can't I compel the landlord to light the halls?

A. Questions of this character are determined by the terms of your contract, by the statutes of your state, and by usage and custom. It is the landlord's duty to make the premises habitable and accessible. If the terms of your written or verbal agreement with the landlord provide for lights in the hallways, or if the statute or general custom and usage impose such duty upon him, he will be bound to comply. In general, it may be said that if a light in the hall is necessary in order to make the premises reasonably safe, the landlord will be required to provide it.

Why Not Keep Out Of The Way?

Q. Jersey horses are operated in my town, but are not licensed. Is it necessary one should be injured by one of these horses, could he get damages?

A. The recovery of damages is not dependent upon the licensing of these cars. If the injury is caused by the negligence of the auto driver, and not by a want of ordinary care on the part of the person injured, it will be his liability.

A Physician's License.

Q. Does a state board of health have the right to revoke the license of a physician in an arbitrary manner or without any excuse?

A. The statutes of the various states on this subject usually provide that a medical practitioner's license may be revoked for unprofessional or dishonorable conduct, or upon conviction of a felony or if the license has been obtained by fraud or misrepresentation. The state health authorities cannot exercise their right in an arbitrary or unreasonable manner and it may be said, generally, that a physician's license may not be taken away unless good cause is shown, nor may it be revoked without notice.

Safety First!

Q. What care is a railroad company required to use in carrying passengers?

A. It is held that a railroad company or other common carrier must exercise the highest degree of care for the safety of its passengers reasonably to be expected from human foresight and vigilance.

Pepper Talks

BY GEORGE MATTHEW ADAMS

The Miff Tree

Not everyone has heard of this tree—but there are few that have not climbed it. The Miff Tree is common to every County and every Climate. Its name became general as soon as it was noticed that every time a person had a Grouch or manifested an accumulation of Pique, or became Pucker-mouthed, they immediately took to The Miff Tree.

The Miff Tree is always in plain view of everyone—so don't climb it.

Of course, to become Miffed is a common fault of us all, and always will be, so long as we stay human. But it is "bad form" as well as very foolish, to be always climbing The Miff Tree and exposing a Miffed condition to every one that passes or happens to be around when we climb The Miff Tree. If you must climb The Miff Tree, make your stay as brief as you possibly can.

The redeeming feature about The Miff Tree is that it is easy to get down from. A genuine Smile usually does the trick.

When The Miff Tree appears inviting to you, first think how foolish it will be to let its influence take possession of you, then consider how useless The Miff Tree will be to you, then tell it to wait for about five minutes—then, well, then, it will probably be gone! There are many people who are in the business of trying to give to others special brands of Miff Trees that they grow. But have nothing to do with Miff Tree dealers. YOU get acquainted with the Rosegrowers.

Then distribute the Roses that you grow—broadcast.

Any skin itching is a temper tester. The more you scratch the worse it itches. Don't's Ointment is for piles, eczema—any skin itching. See at all drug stores.

BUSINESS COLLEGE ITEMS

The announcement of the opening of the fall term on September 7, has brought a great many inquiries from all over the southwest, and a large attendance is already assured. A revised catalogue has just come from the press, and is being mailed to any inquiring for information.

The returns of the recent United States civil service examination held in Albuquerque have just been published. Four Business College graduates were successful in passing the examination with excellent standing, and their names have been placed on the eligible list for appointment. The four A. B. C. are Misses Jean Bubbs, Mertie Baier, Charlotte Pratt, and Marian Bradford.

Mr. Ed Doran, manager of the 14-15 basketball teams, and a graduate of the commercial teachers' training course, has accepted a position as the principal of the business department of the Fort Scott, Kansas, high school.

Mrs. Theresa Vota is the new bookkeeper with A. O. Bachelder & Co.

Mrs. Maud Webb is now employed by Attorneys Hancock & Cornell.

A large class has been organized to prepare for the civil service examination, August 28, and are working diligently for the test. They are taking special work every evening from 7 to 8:30, and the day students are taking additional work. It is expected that several more graduates will be added to the eligible list as the result of this examination.

Mrs. Lee Keenan, who has taught several successful terms in the Albuquerque city schools and who graduated from a commercial teachers' training course, has been elected principal of the newly organized commercial department of the Santa Fe high school. Mrs. Keenan completed a large part of her work in the evening school.

Mrs. Ollie Blund, stenographer in Capt. Summers' office at San Marco, visited the school Wednesday.

Jesse Barth, now associated with his father in business at St. John's, Arizona, was visiting Albuquerque several days this week and paid the school a pleasant call.

Mrs. Susan Cubis has accepted a position with R. W. Wiley, director of the New Mexico State Fair association.

Miss Marcella Riedel returned the last of the week from Taos, N. M., where she held a temporary United States civil service appointment. She is now employed by the Stockmen's Guaranty Co. of Albuquerque.

Miss Helen Oppenheimer has accepted a position as stenographer with the New Mexico state library board, succeeding Miss Anna Myers, who recently accepted an appointment in the United States civil service.

Mrs. Mary Victor has been put on the temporary roll in the United States library office.

The employment department has been kept very busy filling calls and several important changes are pending. Much difficulty is being experienced to find a sufficient number of graduates to fill all the places.

Friends of Miss Edith Olson, one of the stars of the A. B. C. basketball team of a year ago will be pleased to know that she has accepted a position with a wholesale house of El Paso, and that she likes the city and enjoys her work.

Miss Mabel Phillips is the new stenographer in the city hall, Mrs. Land Reed having accepted a position with the Electric Light company. Both took courses in the A. B. C.

Mr. Fred White, who took the electric course in evening school, has accepted a position as stenographer with the State National bank. Mr. George Myers another A. B. C. graduate, has received a substantial promotion in the same institution.

Mr. W. E. Weatherby has joined the A. B. C. colony at Mountain, N. M., and is employed by the Clark Mining Company.

MORTUARY**Tommy Griego.**

Tommy Griego, 36 years old, died yesterday at his home in Marfa town. The widow, three children and two brothers survive. He was a member of the S. N. M. D. M. P. No. 1 of Old Albuquerque and Camp No. 3, W. G. W. The body was taken to Fred Collett's undertakers room.

Let the Herald want ad on your work.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Fula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a bad, sleepless feeling all the time, and was regular. I could hardly drag around, and would have severe headaches continually.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Aid, 1000 Main, Chattanooga, Tenn., for Medical Information on our cure and of its benefits. "Treatment for Women," sent in plain wrapper, inc. 50c.

Correcting the Corrector or The Morning Journal's Strategic Retreat

Dear Mr. Corrector:

You have tried to avoid my criticism of your "hurried-made-to-order" by saying that what you did say did not mean what I thought it meant, though crystal-clear your language.

To explain the true meaning of your reference to Chickamauga you insert in parenthesis some words so that your statement reads:

"The successful retreat of Gen. Bragg across the Cumberland mountains after the battles of Perryville and Murfreesboro (presumably you mean Murfreesboro) and after the evacuation of Chattanooga, etc."

From this I would "jump at the conclusion" that, according to your ideas, Bragg's alleged "strategic retreat" began after Perryville.

Let us see: Perryville, Kentucky, was fought October 8, 1862; Murfreesboro, Tennessee, was fought December 31st, 1862 to January 2, 1863; Chattanooga was fought nearly a year after Perryville on September 18-20, 1863.

After Murfreesboro, Bragg's army rested near Tullahoma until June.

In other words, like the flowers that bloom in the spring, Perryville and Murfreesboro have nothing to do with the case.

Bragg's retreat from Tullahoma and later his evacuation of Chattanooga were not strategic retreats. Bragg

himself admits that he was simply trying to save his skin.

He was maneuvered out of Chattanooga and withdrew to the line from Gordon Mills to Lafayette, a distance of only eleven to twenty-two miles from Chattanooga. There he stopped, having been finally persuaded to attempt what he could have done before: try and overwhelm Rosecrans' detached columns one after the other. But the federal general recognized his mistake on September 10th, after he had crossed the passes from Bridgeport, and managed to get his forces together in time for the battle.

In other words the rout at Chickamauga was not the result of a strategic retreat on Bragg's part but of poor generalship on the part of Rosecrans, of which Bragg was unable to take full advantage.

No, Mr. Corrector, I shall not quote any more blithe to you. You will not seek when you are bidden. Pearls you can, can be wasted.

But jumping at conclusions is a pleasant diversion if you manage to land on the other fellow's solar plexus. And what, pray, may be the proper words to describe your own gymnastic perambulations?

"Crawling a strategic retreat?"

EDWARD D. TITTMANN,
Murfreesboro, August 11, 1915.

SOUTHERN PACIFIC COMPANY MAKES A CRACK VITAL RECORD

The Southern Pacific company has closed the fiscal year ending June 30, 1914, without a single passenger having been killed in a train accident on its lines. The import of such record may be gained from these facts:

During that period the company carried 57,000,000 passengers.

It operated 10,000 miles of track (Pacific system.)

It ran 52,000 passenger trains every month or \$4,000,000 during the year.

It carried 3,700 passengers per mile of track operated.

In 1913 the Southern Pacific in competition with all other roads was awarded the Harriman Memorial medal for being the safest American railroad. Since 1908 it has carried over eight billion passengers a distance of one mile, with but one fatality in a train accident. The latter occurred early in 1914 at Lone and was caused by defective equipment on a foreign line car. A chart prepared in the office of the chairman of the executive committee, Julius Krattschafft, shows the progress being made by the company in minimizing the number of train accidents. In the fiscal year just closed there were 76 per cent less train accidents than in 1913 and 76 per cent less injuries.

Mrs. John K. Burton, Jr., has issued cards for an at home on Wednesday, August the eighteenth, in honor of her house guest, Miss Margaret Burton, of New York City.

Auction Bridge.

Mrs. Arno Hunning and Mrs. D. A. Macpherson were joint hostesses at auction on Wednesday afternoon at Mrs. Macpherson's home on West Central avenue. The house was gaily decked with summer flowers, red and white dahlias and red and white sweet peas. Auction was played at five tables, with Mrs. Ackerman the winner of the first prize and Mrs. W. C. Keim the second.

Morning Bridge.

Yesterday morning Mrs. L. E. Petersen entertained with bridge at her pretty bungalow on West Silver avenue.

SENATOR CATRON'S ORTIZ GRANT IS SOLD FOR TAXES

Las Vegas, N. M., Aug. 14.—The Antonio Ortiz grant in eastern San Miguel county, consisting of 140,000 acres and the property of United States Senator T. B. Catron has been sold for taxes to H. W. Gehring of this city, for \$2,170.00, subject to the usual three years' redemption period. It was one of a number of large tax sales consummated by the county treasurer under back tax statutes.

The Ortiz grant came into prominence several years ago by the selling operations of Don W. Mounday and associates of Topeka, who undertook a get-rich quick selling scheme based on a more or less mythical irrigation project which did not materialize. Mounday was the star figure of a sensational trial in the federal court in Kansas City where he was convicted of misuse of the mails.

Mrs. Hugo Meyers of West Silver avenue, has had as her guest since Wednesday her mother, Mrs. R. H. Thorne of El Paso. Mrs. Thorne left last night for an extended trip through the north and west, visiting Denver, Seattle, and both expositions, with several stops in California. On her homeward trip she will again visit her daughter, Mrs. Meyers.

Mrs. Lester, the daughter of Judge Mann, is here from Deming, the guest of Judge and Mrs. Mann at their home on West Roma avenue.

Reading room in the N. T. Ardino building, room No. 18, open each week day from 2 to 5 p. m.

St. John's Church.

Rev. E. N. Bullock, rector. Eleventh Sunday after Trinity. Holy communion, 7 a. m.; Sunday school, 2:45 a. m.; morning prayer, litany and sermon, 11 o'clock.

Society Notes

The Churches

First Baptist Church.
Corner Broadway and Land avenue, C. T. Taylor, pastor, 286 South Walter street, phone 1865.

On Tuesday evening Miss Sadie Olson and Miss Vernice Bowers gave a miscellaneous shower in honor of Miss Laura McCollum, whose engagement was announced recently. A game of "peanuts" was played. Miss Louise Lowrie winning the first prize and Miss McCollum the "booby" prize. The house was appropriately decorated with pink and white hearts in the dining room the table was enchanting with its myriads of pink and white candles, while the guest of honor's seat was under a white parrot which when opened showered the pretty gifts upon her. Those present were: Miss Louise Stevens, Miss Louise Bell, Miss Louise Lowrie, Miss Jessie Moore, Miss Margaret Flourey, Miss Edith Olson, Miss Clark Watson, Miss Minnie Watson, Miss Edith Gerby, deaconess.

Attention Baptists!

Owing to repairs in progress there will be no Sunday school or preaching service Sunday. But Dr. J. M. Dawson is expected next week to conduct special revival services, which probably begin Tuesday night.

STUDEBAKER STANDS UP UNDER SEVEREST HILL CLIMBING TEST

(Boston American.) One of the severest hill-climbing tests imaginable was recently given a 1915 Studebaker six by Joseph F. Donovan of the Donovan Motor company of this city. The model just received from the factory was taken without any adjustments to Corey hill and there submitted to a test the success of which speaks volumes for the power and ability of this new model.

The car carried its full capacity of five passengers and was driven out over Commonwealth avenue and up Commonwealth avenue hill. In the middle of the hill the car was brought to a stop and started again. The car started from a rolling start on high and finished at the top in the same gear. This in itself was admitted to be a really exceptional feat, but still other excellent performances were witnessed for the passengers. Climbing up the back side of Corey hill on high the car came back to Beacon street and then with four passengers aboard started to climb the grade.

The men were tested in high and the car started up the hill at a fast-and-good clip. All went up the steep incline about 3 miles an hour, at three-quarters of the distance it showed twenty-five, and at the top of the hill it was registering twenty miles an hour, this being the power point to which the needle pointed on the entire trip.

Just to show that it was not a one-time feat Mr. Donovan had the car brought back to the starting point and the trip was repeated with equal success. In speaking of the performance Mr. Donovan said that in all his experiences this was the first car he had climbed Corey hill on the high gear.

G. L. Wilman, advertising manager of the Studebaker corporation, who witnessed the stunt, said that the performer was, however, only in keeping with what the Studebaker six has been performing throughout the country.

H. H. Cheney and family have returned from Pecos where they spent the past several months.

Major and Mrs. E. Ruppe returned last night from Santa Fe where Mr. Ruppe was called on business matters.

Mr. and Mrs. Harry Patchin of Carlsbad are in the city for a visit to Mr. Patchin's parents, Dr. and Mrs. J. F. Patchin.

Judge J. T. Harper of El Paso was a visitor in Albuquerque yesterday. He is on the way to his annual outing on the upper Pecos.

Dr. C. A. Eller killed a rattlesnake on the Bear canyon road last night. He ran his car over it but had eight rattles and a button.

Former Governor H. J. Hagerman passed through the city last night on his way to his home in Roswell, from Colorado Springs, where he has been visiting for several weeks.

Albuquerque Lodge No. 39, Fraternal Aid Union, will meet at 7:30 o'clock tonight at A. O. U. W. hall. Candidates will be initiated. Lunch will be served.

J. P. Hayes, traveling freight agent for the Watash railroad, is in the city on a business visit.

Jack Lapsin of Bland is here to remain over Sunday.

Word comes to local Indian traders and others interested that the Moqui smoke dance has been set for August 25th. The usual number of tourists is expected to attend the famous dance.

James Shinner, son of Alderman J. A. Skinner, who has been in business in El Paso for some time past, has returned to Albuquerque to take a position in his father's West Street grocery store.

Mr. and Mrs. W. A. Schaefer of North Eighth street have returned home from a two week's stay at Isleta, where Mr. Schaefer has been engaged in work for the government Indian service.

A. W. Wilhoite, for some time past connected with the Albuquerque Business college, leaves tonight for a visit in Bowling Green, Kentucky, after which he will go to a new position in the commercial department of Galston high school, Pittsburgh, Penn.

Prof. John D. Clark of the University faculty returned home yesterday from San Diego where he has been serving as a member of the jury of awards on food products at the exposition. Prof. Clark is city chemist of Albuquerque.

A "special" special train will be here next week. It will carry delegates to the convention of the American Association of Railway Superintendents. The Santa Fe furnishes the train for the travelers from Chicago to the east.

Frank Staplin, publisher of the State Record at Santa Fe, is in the city today for a conference with John F. Young, manager of the Staplin Mercantile company store at Cimarron. Young arrived from the mountain country last night.

Y. M. C. A. PLAN TO BE RE-SUBMITTED TO SANTA FE

Progress Made Toward Understanding Regarding Specifications at Conference with Officials Today.

As a result of a conference here this morning between General Manager F. C. Fox and Chief Engineer F. M. Bishay of the Santa Fe and the building committee of the Y. M. C. A. plans for the new Y. building are to be re-submitted to the general officers of the railway company at Amarillo at once for approval or rejection, as to pending details of the foundation construction, a misunderstanding over which has resulted in stopping building operations. Chairman C. O. Cushman and the members of the building committee met Mr. Fox and Mr. Bishay at the building this morning, the railway officers having come here from Amarillo especially for the conference. The situation was gone over in detail and the railway officials stated their objections to details of the foundation construction which had been altered from the original specifications submitted. The situation is now understood fully by both the railway men and the building committee and it is anticipated that construction will be resumed within a very short time.

WOMAN WHO TOOK ACID FOR GINGER STILL VERY ILL

Mrs. Ruby Bump, who swallowed caustic acid by mistake several nights ago, is still in a dangerous condition at St. Joseph's hospital. It was said today that the doctors were hopeful of her recovery, but that it could not be said that she was yet out of danger.

As told, Mrs. Bump was visiting her sister, Mrs. J. J. Allen. She got up feeling ill in the night and poured out what she thought was a glass of ginger ale. A short time afterward it was discovered that she had swallowed acid. A doctor was summoned and she was hurried to the hospital in a semi-conscious condition.
