THE NEW SCHOOL LAW

set intendent J. E. Clark Calls At-. on to S me of Its Provisions.

J. E. Clark, territorial superintendent of public instruction, has issued a circular letter addressed to county school superintendents and calling their attention to some of the provisions of the new school law enacted by the thirty-seventh legislative assembly. For the benefit of the teachers and school directors and all others who take an active interest in the schools, The Chieftain reproduces Superintendent Clark's letter, as follows: Dear Sirs:

It is quite unfortunate that our educational bill was made one of the very last orders of business in the recent legislative assembly. Some very unsatisactory conditions result from this fact.

A digest of school legislation if 1907 is mailed to you, and I wish to call your attention to certain points in as brief a way is possible.

You will note that Section III. dispenses with the County Board of School Examiners. The attention of District Judges and Boards of County Commissioners will be called to this point.

The County Superintendent will hold examinations at such times, places, and in such manner as may be prescribed by the Territorial Board of Education. All papers will be graded at the office of public instruction. Let me caution against being too liberal with permits. The law forbids issuing twice to the same person.

The new law requires every institute conductor and instructor to hold a certificate from the Territorial Board of Education. The County Superintendent cannot make a legal contract for stitute work with a person not holding such a certificate.

All institutes should be held late in the summer, in August. and also, that I have compared the preferably. Dates, places, and following copy of the same, with the original thereof now on file, and declare instructors must be approved by it to be a correct transcript there-from and of the who e thereof.

OFFICIAL PAPER OF SOCORRO COUNTY

SATURDAY, APRIL 13, 1907.

Now that the Thaw trial is ended, the man in the moon will find life tolerable without holding his nose.

it continues the more it likens publican corruption. What the itself to opera bouffe.

SOCORRO county's new board of county commissioners held their first regular quarteriv sesthem in a manner that promised well for the financial standing of the county during their administration.

COLONEL WILLIAM JENNINGS BRYAN seems destined to lead his party a third time to glorious defeat. Very well, one reason why republicans would rather defeat Mr. Bryan than anybody else is that he accepts a defeat so gracefully and then smilingly presents himself for another.

Somn idea of the extent of the cattle growing industry in New Mexico may be had from the statement contained in the report of the cattle sanitary board for 1906 that "there is in the territory in round numbers about one million head of cattle of all ages." No less than 165,000 head of cattie were shipped out of the territory last year.

REPORTS from up the road say that towns in the northern part of the territory are still afflicted with uncomfortably cold weather. This sounds a little strange in Socorro, where the roses are

pleted. Every day adds to their known volume and, consequentthat the Magdalena district will in the near future take its rank among the richest and greatest

in the west. Ir appears that the Magdalena youths who rode to fame and precinct in Socorro county is fortune by their own efforts, unnot the only precinct in the ter- | aided by the help of family and ritory in which the democratic friends. investigators in Mr. Larrazolo's contest proceedings have met cup of physical want, of hunger with an unpleasant surprise. It and cold, of helpless, spirit

investigators have to say upon this point doth not yet appear.

Grip Quickly Knocked Out.

"Some weeks ago during the sion last week and disposed of severe winter weather both my all business that came before wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable

symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Indians in United States.

In round figures, there are 284,000 Indians in the United States at the pressure time, 91,-000 of whom are in Indian territory and 15,000 in Oklahoma, or 106,000 in the coming state. Few sons of poor parents have had such advantages as were his lot, and few lads of poor parents did such a scanty amount of manuel labor. Compared to the rugged, self taught youth of Benjamin Franklin, Roger Sherman, Abraham Lincoln, Andrew Johnson, Sam Houston, Francis Marion and Nathanael Greene, the boyhood of Andrew Jackson almost assumes the appearance of having been cast upon "flowery beds of ease."

Women Who Wear Well.

It is astoniahing how great a change a few years of married life often make in the appearance and disposition of many. women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint scho of the charming malden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the supleasant pelvie drains and weak nesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the check of its freshness and the form of fits

Loose rungs on chairs are annoying besides giving the pieces of furniture the appearance of cheapness and general disability. They may be easily made tight by filling the grooves into which they are fitted with a good glue. As soon as this dries and the rounds are made secure the glue that has run down on the outside may be chipped off with a knife. A loose arm to a rocker or the runners on a rocker may be tightened in the same way.

HARRIMAN'S looting of the Chicago & Alton railroad will serve mightily to strengthen public sentiment in favor of stringent government control over the railroads, if not that in tavor of government ownership. In this regard President Roosevelt and and Harriman seem to be working to the same end, the one by wise statesmanship and the other by as high-handed robbery as ever sent a highwayman to the gallows.

"THE losses from the destruction of stock by wolves and covotes in the western United States amounts to millions of dollars annually and seem to be increasing rather than decreasing," says a circular just issued by the United States department of agriculture. In the light of that fact it would appear that a systematic and thoroughgoing campaign against wolves and covotes would be the most profitable undertaking that the stockmen of this region could enter upon.

Lizards' Tails.

Certain lizards are remarkable or the fragility of their tails, although this weakness is not always the drawback that may be imagined. The diamond tailed gecko, for instance, frequently owes its existence to the readiness with which its caudal appendage can be snapped off. This reptile, which will perch upon a rock head downward and tail in the air, is liable to be preved upon by hawks. One of these formidable birds will swoop down upon a lizard and seize what it takes to be the head, but is really the tail. The brittle tail snaps off, and the gecko wriggles away, not much the worse, to grow another.

sions at the home of Mr. and Mrs. Jaques the evening was delightfully spent. The guests were Mesdames Paul J. Terry, who was guest of honor, J. W. Terry, and R. P. Noble, Miss Fitch, and Messrs. J. W. Terry, R. P. Noble, O. R. Smith, L. E. Kittrell, and E. A. Drake.

The ladies' high five club was entertained Thursday afternoon by Mrs. H. O. Bursum at her pleasant home on Baca avenue. As usual the games played were warmly contested. Mesdames W. E. Martin and H. M. Doughtery won five of the six games and therefore cut for the prize. Mrs. Martin was the lucky one and was awarded a pretty silver nail file. All members of the club cut for the general prize, a box of candy. which was won by Mrs. R. P. Noble. Appetizing refreshments were served. Those present were afforded a most enjoyable afternoon in all respects.

T. J. Matthews is in receipt of a letter from the manager of the Postal Telegraph company saying that Miss Elizabeth Mordlander of Denver will soon be in Socorro to take charge of the Postal office here. Miss Mordlander is recommended as a skilled and experienced operator, she having recently held a night position in charge of a station on the A. T. & S. F. railroad. It is hoped that the placing of a skilled operator in charge of the Postal's Socorro office will result in that company's receiving a very liberal J. R.
