## RED CROSS CHRISTMAS SEALS

### A New Deal That Will Be Popular

There is a new deal on Red Cross Christmas seals this year.

As our readers are all aware, doubtless, the proceeds from the sale of Christmas seals are devoted to the war against tuberculosis.

It has been the practice heretofore to send a supply of seals to pretty much everybody, and of course the old adage works, "What's everybody's business is nobody's business."

This year the sales are to be handled exclusively through committees appointed in the various counties and communities, and since it is the specific business of the committees to see that good sales are made, the sales will be pushed.

There is another change this year which will undoubtedly work to largely increase the sales. Each community is to retain 75 per cent of the money collected, for local use, and to be used as that community sees fit, just so it is devoted to anti-tuberculosis work. It may be used for relief of sufferers who need help, or for educational work, or in any other way that may be deemed best in each community in the fight against the white plague.

One-fourth of the money collected will be turned in to headquarters for the use of the National Tuberculosis Association, and to defray necessary expenses.

On this plan it is expected that the response will be very liberal.

Mrs. E. L. Garvin is the county chairman, and the following have been appointed for the various communities:

McIntosh, J. E. Homan.  
Moriarty, Ralph Kinsell.  
Willard, Mrs. Earl Hanlon.  
Duran, Mrs. R. R. Garner.  
Encino, E. L. Hinton.  
Progreso, Mrs. C. M. Pearce.  
Pedernal, Mrs. J. C. Shelton.  
Cedarvale, Mrs. Effie Foster.

Palma, E. C. Halderman.  
Mountainair, Mrs. Caldwell.  
Estancia, Mrs. Minnie Mason and Mrs. John W. Corbin.

## ESTANCIA SCHOOL NEWS

Most of the pupils are just recovering from the shock of exams which were given on last Wednesday, Thursday and Friday mornings. This finishes up the second term of school and every one is eager to make the next term much better than the one just completed.

We are very glad to have Miss Lowe back in charge of the commercial room. Some of the pupils were rather surprised when she "popped the question" of exams Monday morning.

Beatrice McGee and Paul Russell are absent on account of sickness.

It is rumored that the freshies are to give a social Friday night. Do you know anything about it?

Last Friday at eleven o'clock the boys and girls basket ball teams charged up to Moriarty with the intention of "wiping them off the earth," but there was some delay in starting Emmett's car and we believe this had something to do with the loss of one game. The Moriarty boys showed themselves stars at the game and carried off the victory with a score of 35 to 16 in their favor. We must mention the good goal throwing by Jackson. However, the girls seeing the danger charged in and played the game right. Josephine Weaver succeeded in making a first class skating rink out of the court but she was right there with the goods and with the help of Hazel Dean and the other players the score went up to 36. At the final windup the score stood 36 to 16 in favor of the Estancia team. We must say this: never in the history of our team have we played a team who had better sportsmanship than the Moriarty girls. We will be glad to play this team again for we know the kind of material that constitutes the team. The lineup for the girls' team was: Josephine Weaver, forward; Hazel Dean, forward; Lita Holliday, touch; Izella Dodds, side; Veva Goodner, guard; Olive Glenn, guard. Virginia Weaver, Rosa Davis, Audrey Holliday, Asylee Sewell went as subs. Virginia took running center in the last half.

The lineup for the boys' team: Jackson, L. F.; Shirley, R. F.; Farley, C.; Caster, L. G.; Bledsoe, R. G. Shockley, Crider, Block and Simpson went as subs. We have another game scheduled Friday with Chapman school.

### BAPTIST CHURCH

Sunday, December 18th. Do you remember when you were a child what Christmas and old Santa Claus meant to you? You wanted a doll, some toys and nuts, etc. If you still have that spirit come Sunday morning and let's make a free will offering for some little orphan children yonder in an orphan's home. Sunday morning theme: "When Faith Leads." B. Y. P. U. at 6 o'clock. If you have never had a chance to marry, or if you don't want to marry come Sunday evening and hear about "Those who do not marry."

Mrs. Jennings is leading our Ladies' Aid in a noble way. We are going to have our Christmas tree Friday night, December 23rd. Make plans to come.

Nothing more appropriate for Christmas gifts than aluminum ware—cheaper than you have ever bought it before at the Novelty.

For service car call Sherwood's Garage, phone 16.—O. S. Gilliland.

## TROOP A BOYS ARE HAPPY

### Horses Have Arrived and Five Men are on Duty Full Time at Camp

Troop A on last Thursday received their horses—thirty-two head, and now there is more interest in the training.

All but a few of the horses are trained, and will go through the cavalry evolutions without much guiding by the riders.

The stables are almost finished, also the store rooms and quarters. Two large army tents are used for quarters and the boys have them fixed up in regular army style for winter.

As soon as the buildings are finished work will be pushed on the corrals and other improvements to the grounds.

It is the intention to so improve the grounds that the place will be one of the beauty spots of the town. Five men are now on full time duty, as follows:

Will Thomas, stable sergeant.  
William Timmons, saddler.  
A. B. Weaver, supply sergeant.  
Dock L. Hinman, horse shoer.  
First Sergeant Jack Welch, helper.

### METHODIST CHURCH

Sunday, December 18, 1921. Bible school, 9:45 A. M. Morning Worship, 11 A. M. Epworth League, 6:30 P. M. Evening worship, 7:30 P. M. The pastor will be in charge of morning and evening worship.

All are very welcome. A Christmas program is being planned by our Bible school for Christmas Eve, December 24. Plan to come and have joyful Christmas Eve with the children.

A Boy Scout service is planned for New Year's Day, Sunday, which the Boy Scout organization of Estancia community is invited to attend in a body. Remember New Year resolutions.

## SANTA FE BANK HAS FAILED

The Santa Fe Bank, of which Robert W. Lynn was cashier, has been closed by the state bank examiner.

The usual statement that the bank will pay depositors in full has been made.

The capital stock was \$50,000 with surplus of \$15,000. The deposits were \$667,000, of which \$353,000 was state money.

There is a law restricting the state's deposits in any bank to seventy-five per cent of the bank's capital and surplus. Under this law this bank could have had but \$48,750 of state money. It had more than seven times that much.

The governor says the state will not lose anything. The officers of the bank say the depositors will not lose anything.

### MARRIED

Corte Douglas and Miss Geneva Stapp were married in Clifton, Arizona, last Saturday morning at six o'clock, and immediately departed for El Paso and other points on a wedding trip. They planned to return to Clifton Thursday of this week.

The groom is a fine young man, son of Mr. and Mrs. S. B. Douglas of this place, and is now a government employe in the forest service. Everybody here will extend their best wishes for his prosperity and happiness.

### MORIARTY SCHOOL NEWS

The "Accomplishers" one of our literary societies, with the aid of the grade rooms gave an interesting program Thursday afternoon. After the program a Parent-Teacher Association was organized. Mrs. Howard Spillers was elected president, and Mrs. Clay Kinsell secretary-treasurer.

We appreciate the good crowd that turned out for the program Thursday. It shows us that the patrons are back of us to help us make their school a success.

"Good English week" was observed by the making of a number of posters. Some of them are clever and realistic and they all staid slang and all forms of incorrect English.

The freshies gave the juniors a party last Saturday night. Everyone had a good evening and enjoyed the refreshments.

About 12:30 Friday Estancia basket ball teams began to arrive. By 2 P. M. both teams had arrived so the games began. The boys played first, Moriarty winning the game with a score of 35 to 16. The girls then played. This time Moriarty lost, the score being 34 to 16 in favor of the Estancia girls. Saturday basket ball teams from the Chapman school southwest of Estancia, came up and played us here on our courts. Moriarty boys won with a score of 24 to 4. This is the fourth game our boys have played and have won every time. The girls then played the Chapman girls and won the game 8 to 0.

Are we in it?  
Well I should smile!  
We've been in it for quite a while.

We will have a big assortment of eats for Christmas. Leave your order with us early.—J. M. Terry's Cash Store.

## WINTER TREATMENT OF ORCHARDS

There are not many orchards in Torrance county, but there are a few, and those who are growing fruit trees will be interested in the following:

Where orchards are not in alfalfa, it is an excellent practice to plow deeply after the trees have gone into the dormant period, says Prof. Garcia of the Agricultural College. If possible, the orchard should be plowed in November, but if conditions are not favorable at this time, it should be plowed as early as possible in the winter.

If the soil is moist the plowing can be done much better than if it is dry. Sometimes it may be better to irrigate before plowing. If the soil is very dry, and if the orchard has not been irrigated for some time, an irrigation immediately after plowing would be of material benefit to the trees and soil. Winter plowing will have a beneficial effect not only on the mechanical and chemical conditions of the soil, but it will also destroy many of the troublesome orchard pests. During the winter the freezing and thawing will tend to pulverize the orchard soil very materially.

Where orchards are in alfalfa or, if for any other reason they cannot be plowed during the fall or winter, and if the soil is dry, they should be irrigated just the same. Winter irrigation of orchards on soils where the water table is of considerable depth and where there is no danger of seepage, is a good treatment for fruit trees under arid conditions. Where there is so much evaporation and transpiration from the twigs as in this arid climate, the matter of keeping the root zone well supplied with moisture is an important orchard operation. If the roots are kept in dry soil during the winter, they will not be able to supply the tree with the necessary amount of moisture, and the vitality of the leaf and fruit buds may be somewhat reduced.

Mount McKinley Sinking.

Mount McKinley the Oregon mountain, is sinking with the weight of ages. Within the last several years, when the peak struck the rocky shoulders to earthquakes, the loftiest mountain in North America has subsided at least 400 feet from its original altitude of 20,000 feet. Such was the assertion of Herschel C. Parker, geologist and mining engineer, who first sealed Mount McKinley in 1912.

### FROM MRS SHAW

Roseburg, Oregon,  
November 30, 1921.  
Dear Friends—

It may interest you to learn something of my wanderings since I left Torrance county on October 18.

I spent one week with my son and family. Found all well and busy sowing wheat, but in need of moisture. I visited a friend a short time in Dalhart, Texas. From there I went to Tyrone, Oklahoma, where I enjoyed the hospitality that was so freely extended by old friends, as I had previously lived there fourteen years.

From Tyrone I went to Meade, Kansas, to visit my daughter, Mrs. B. Keown. This gave me a good opportunity for a rest. Yet I must confess that made my departure the harder, but where duty calls one can not hesitate.

Well, I left Meade October 29 for Osborn county, Kansas, to visit my two brothers and one sister. I remained there until the 11th of November, and went to Phillipsburg, Kansas. It had been thirty-one years since I left there, but I was greeted by a number of old friends.

I would love to have remained three months, but one week was all I could spare as I had one more stop to make.

My last visit was in Denver on Capitol Hill—a dear friend of mine that I had not met for thirty-four years. I remained with her and family for three days—had a lovely time and then I thought I would try to get home for turkey dinner, but alas! The snow and rain had made trouble for the railroads in Oregon and Washington, so I arrived home November 24 at 10 P. M.

I found all well at home and I received a glad welcome. Also the weather was just like spring weather—no frost here up to this date.

I picked ripe tomatoes today and have lettuce, cabbage etc. in the garden.

Well I must close. Pollard's are all well. They had a good prune crop and made good.

I thank one and all for the courtesies and the attentions shown me while in Estancia.

From a friend to the Estancia News-Herald.  
MRS. D. D. SHAW.

### Anne Boleyn's Clock.

The weights of a clock at Windsor castle bear on them "The Most Happy" and the clock is further inscribed with the motto, "Dieu et mon droit," and the letters "H. A." entwined in true-lovers' knots. This exquisite clock—only four inches deep and ten inches high—was a gift from Henry VIII to Anne Boleyn on her wedding day. It was in the possession of Horace Walpole, and Queen Victoria paid \$551 for it when the contents of Strawberry Hill were sold in 1842.

### Human Temperature.

According to the hour of the day, man's temperature varies. It is lowest at about 3:30 o'clock in the morning, when it averages 37 degrees Fahrenheit; from then it gradually rises until it reaches a maximum of between 98 and 99 degrees Fahrenheit at 5:30 o'clock in the afternoon, after which it falls. This is the temperature of the armpit, which is always slightly lower than that inside the body.

### Closely Related.

Rob was born the same day as his cousin, Helen. Both children started to public school at the same time and the teacher was a family friend of Helen's, but did not know Rob. On asking Helen if Rob were her cousin, she replied: "Yes, ma'am; Rob and I are twins."

## MULES! MULES! MULES! Real Mules!

I have 12 spans of real Missouri mules, weighing 2300 to 2800 lbs. These mules are all broke and ready to work. They were bought right and are priced right. So if you want a real team it will pay you to look this bunch over. They can be seen at the Swartz ranch 1 1/2 miles southwest of town.

**Amazons in Uganda.**  
The women of Uganda are Amazonian in their methods and do not hesitate to secure an acknowledgment of their rights by force, if necessary. A visitor to that land declares that frequently women working by the roadside will capture a passerby and, on pain of a severe chastisement will make him take a turn with the hoe while they have a smoke.

# Ford THE UNIVERSAL CAR RUNABOUT

If your salesmen spend unproductive time going from prospect to prospect, because of slow transportation, it is money lost. Slow transportation robs them of part of their time—time that might just as well be turned into sales.

A Ford Runabout furnishes quick transportation at the lowest possible cost. By equipping your salesman with Ford cars, you will enable them to devote more energy to selling goods.

Negligence has done more  
to spread disease and shorten  
human life than all the wars  
of history! Considering all the  
unnecessary chances the aver-  
age person takes, the wonder  
is that man lives at all. Science  
is daily discovering new  
methods of combatting disease  
and alleviating human ills, but  
they will do one no good unless  
he takes advantage of them.  
There are people in this vicinity  
who know that tuberculosis  
can be communicated from an  
infected cow to the human sys-  
tem. They know too large a  
percentage of infected cows  
are milked each day. They are  
among people who have fled  
to this climate for their lives  
and would give their all for  
healthy lungs, yet these people  
buy country butter from un-  
tested herds. Whether you  
are uninformed enough to  
doubt the danger to your  
health or careless enough to  
ignore it the danger exists, and  
its greatest tragedy is that too  
many become careful after it  
is everlastingly too late. Jer-  
sey Cream Butter is carefully  
pasteurized by one who has  
seen his friends caught in the  
grip of the Great White Plague  
and knows how much depends  
upon doing it properly. For  
your health's sake buy Jersey  
Cream Butter at your grocers  
or the creamery, 45c per  
pound.

poisonous matter you never thought

# The Wolf

There are thousands of wolves in the United  
States whose main business is to sell widows  
and orphans all sorts of worthless securities.  
They watch the probate records for the names  
of their prospects. They pick on the widows  
and orphans of well-to-do men because these  
people are often without business experience.  
They are clever and experienced salesmen.  
This is evidenced by their toll of millions a

Horse That Keeps His Head.  
When a horse suddenly finds a sled  
with four children on it in collision  
with him, rears up, comes down with  
one foot well out in front of the chil-

what a horse did recently in a Massa-

### WILLARD

From the Record.

Born May 21, 1918, died December 4, 1921.

On Sunday, December 4, 1921, at 2:30 P. M., Bernicia Beatrice, who had brightened our home for three years and six months and thirteen days, was called home. She had been sick of pneumonia several times in the past two years, and was indeed a "child of sorrow and of woe" during her brief stay in earth.

On Thanksgiving day she became sick of whooping cough, which developed into pneumonia. At times she was able to sit up in bed and play, but would never take nourishment—still her parents hoped.

On Sunday morning she became worse and gradually went to sleep.

On Sunday night Rev. Ludwick conducted a service at the family home, before the body of the little angel, in the presence of a large number of friends.

Funeral services were held at the Catholic church on

Monday evening at 2:00 o'clock by Rev. Fr. Molinier and burial in the Catholic cemetery of Willard.

While we miss her smiling face we know that God loves more than we do, and He has done what was best—we bow to the Father's will.

Mr. and Mrs. Roy St. Vrain from Taos, N. M., arrived in Willard the first of the week to make their home here. They are occupying the house recently vacated by the J. J. Brazil family. Mr. St. Vrain is with the Hanlon Mercantile Co., and is already a regular fellow with the employees of the store, and the patrons will find in him an agreeable and jovial salesman.

The ladies of the Willard Catholic church are planning for a bazaar and dance to be given at the Salas Hall on December 31st.

Ben Bailey had a tussle with a cranky engine the other day, in which he got the worst of the deal—his right hand broken at the wrist.

Rev. K. Twyeffort, who has been in Roswell the past several months, passed through Willard Tuesday enroute to Cedarvale, where he will spend the winter with his family.

The chicken dinner and bazaar given at the Salas Hall last Saturday by the Woman's Club was well patronized. They realized \$53. The dinner was fine.

Owing to the fact that a number of families have recently moved from the Mountainair district to the Willard school district, the school trustees of the local schools have decided to put on another truck for the accommodation of the rapidly increasing number of children from the south side. The new truck will probably be in operation next week.

Mr. Nelson arrived last Sunday from Yeso to take charge of the section crew for the Santa Fe railway. He relieves E. S. Gallegos who was in charge during the last half of November.

A little daughter of Mr. and Mrs. A. P. Hanna, who lives five miles south of Willard, was dangerously ill from whooping cough last week, and a neighbor went to Socorro to call Mr. Hanna who had gone there with a trapping outfit to spend the winter. The child is reported as being out of danger.

J. W. Wood has moved to the Luis Trujillo place which he recently purchased, and has started improvements on same. He also bought the J. S. Wisdom place close by, which makes him the owner of 842 acres of deeded land south of Willard. He has two sections of school land under lease in that vicinity.

Mrs. J. E. Lee and daughter Miss Opal returned Tuesday evening from Empire City, Oklahoma, where they were summoned two months ago by the death of Mrs. Lee's son. They were accompanied back to Willard by Mr. and Mrs. Clifford Scott, who intend to make their home here. Mrs. Scott is a daughter of Mrs. Lee.

It seems that some have misunderstood our statement in last week's issue. The editor has been approached with such as these remarks: "Sorry to hear you're leaving us." "When ARE you going to leave?" We hate to disappoint some people, but we intend to hang around here for quite a while.

### For Sale or Trade.

Four gasoline engines, 2 1/2 to 5 horse power. These run less than thirty days, all too small for our use. Will exchange for larger engine and pay difference or sell cheap.—Jenson Bean Co.

"Shin Plaster" Currency.

The name "shin plaster" was applied to all forms of currency issued by the United States government during the Civil war but more especially to the notes for less than \$1. They were and are red-inked by the government on presentation. Several million dollars of them are still outstanding and are carried on the national treasury books as part of the debt bearing no interest.

### WHAT CAUSES GAS ON THE STOMACH?

It is caused by fermenting, sour waste matter in the intestines. This old, foul matter should be thoroughly cleaned out with simple buckthorn bark, glycerine, etc., as mixed in Adler-ika. This acts on BOTH upper and lower bowel, removing old accumulated matter you never thought was in your system. Adler-ika relieves ANY CASE gas on the stomach. EXCELLENT for sour stomach and chronic constipation. Guards against appendicitis.—Estancia Drug Company.

### THOUSANDS OF MINDS WITH BUT ONE THOUGHT

These Unfortunates Virtually Gropping in the Dark With Their Goal at Fingers' Ends

This concentration and search by so many present day people is not carried on to satisfy a hobby. It is really forced on them by the requirements of modern methods of business and society. They want to "keep in the swim," but can't survive the nerve racking pace of modern times because they have disregarded the laws of God and humanity until they have become victims of nervousness, easy exhaustion, lack of energy and strength. Then when they realize the condition they are in, one by one they join the vast multitude which with almost one mind is searching revived energy, strength, health and appearance.

But the weakened state of their mind and body causes them often to lack faith in their own convictions. This is characteristic of them, and can be truthfully said to prolong the reward awaiting their search. Thousands of these folks are learning every day that the one reliable way to revive their lost health and run down systems is to take a combination of Nature's herbs, roots and barks, known to druggists as Garren's Tonic. It puts those vitamins into their blood which nourishes withered tissue, starving nerves and flabby muscles. Consequently they begin almost immediately to feel stronger, have greater endurance, look brighter and show the change which is taking place in their body by their cheerfulness.

Garren's Tonic is sold in Estancia by Estancia Drug Co., in Pedernal by John S. Harris, in Encino by G. W. Bond & Bro. Mercantile Co., and the leading druggists in every city.

### Tactful Youngster.

Mother bought a box of candy, but it was nearly dinner time so would not give any to Sonny. While waiting for the dinner bell to ring Sonny said: "Maama, let's stay store." Mother was willing so the child went on with his game of make-believe. Said he: "This room will be the candy store. You be the clerk and I'll be buying, but oh, mother, let's have real candy!"
