The Carlsbad Current

THIRTIETH YEAR

THE CARLSBAD CURRENT, FRIDAY, JUNE 2, 1922.

NUMBER 25.

RED CROSS PAGEANT A SUCCESS

At Least Six Hundred Persons Present and Enjoying the Play.

The Red Cross Pageant surpassed anything of the kind ever attempted in Carlsbad, six hundred friends of the young participants attending and enjoying the hour and a half entertainment given by the pupils of the Grammar grades, on the court house lawn, last Friday night.

The drama was opened by Rex Vest, who in quaint language told the story of the pageant, what it stood for and what it was hoped to accomplish by its presentation. Although not familiar with open air speaking, the laddie so modulated his voice that even those on the outskirts of the crowd could hear.

The numbers were all pretty, the children being in costume, but the "dolls" were perhaps the favorites. These were six in number and each was dressed to represent a doll, and their piping cries of "Mamma" were realistic and their actions quite doll like. Draper Brantley, D. C. Richman, Timman Mahan, Kathryn Riley, Virginia McAdoo and Margaret Rodgers were dolls.

In addition to this pretty number there was a pillow time song by the primary pupils which was very sweet, little girls and boys in their nightgowns, with small pillows upon which they obligingly fell asleep at the close of the song.

Folk dances were given, and one in particular deserves especial mention, so lovely and graceful was it, and that was the "Egyptian Dance of Wisdom," given by a group of dark haired girls, with Lena Wake as solo dancer. This little girl went through her graceful movements in perfect time and with real little girl grace. A group of boys did some difficult callisthenic work that merited the hearty applause it received.

As showing what the Junior Red Cross boys and girls had done to alleviate the suffering and want in the old world during and since the war, was shown a soup kitchen and the hungry and ragged little ones in line waiting for the soup that was furnished them in such abundance by their friends on this side of the water.

In this number, Annie Prickett represented the mother of a family and so intent was she on finding the right sized hat for one of her children that it was hard to realize it was only acting. Among the ragged group which surrounded the Red Cross station, were some babies, who entered into the spirit of the occasion with great earnestness.

The decorations of the large stage, which had been erected in the courtyard, consisted of bunting and greenery and were very attractive. King Service in the person of Wilson Patterson, presided over the court, assisted by such courtiers as Love, Mercy, Preparedness, Education and many others, each of whom was represented by a girl or boy appropriately costumed, and asked for each of these a reckoning of the work they are doing for the good of humanity. Many lessons were thus taught that will linger long in the minds of the children as well as the grownups.

After the eight episodes had been presented, King Service gave his blessings to his faithful servants and led them out again into the busy world where there is work for all.

The entire pageant was replete with lessons of beauty and service, and reflected great credit on the painstaking teachers of the Grammar school whose work must have been very heavy to bring out such a fine display in the limited time at their disposal, and that it was appreciated, one has only to ask any of the six hundred parents who were present and enjoyed the affair from beginning to end.

Mr. and Mrs. Hume and daughter, Mary, left Tuesday on their trip to various places on the west coast. Their many friends will miss them greatly.

Mr. and Mrs. Marvin Livingston and daughter spent two days at the M. L. ranch, fifty miles east of town this week.

CARLSBAD TO HAVE NEW DRY GOODS STORE

Announcement is made this week that Carlsbad will soon have a new dry goods store established within her bounds. The new store is to be placed in the building formerly occupied by the State Bank after that building has been remodeled to suit the particular requirements of this store. This general dry goods store will be operated under the firm name of Gibson Brothers composed of R. R. Gibson of Carlsbad, New Mexico, and C. H. Gibson of Winfield, La. R. R. Gibson will reside in our city and manage the store, he already devoting his time to the details necessary to opening the store.

Mr. Gibson tells the Current that he has traveled all over New Mexico and Arizona looking for a location but likes Carlsbad better than any place yet found and he believes there is a future to Carlsbad far greater than any other city in the state. Mr. Gibson also says he has been in the dry goods business now for over thirty years and will not try to put in the biggest store in town but says it will be the best dry goods establishment to be found anywhere in the southwest and one of which Carlsbad will be justly proud. A five year lease has been signed up for the former bank building and it will require at least thirty days to get the front built, which will be modern and altogether it is expected the store will not be ready for business earlier than sixty days from the present time, but will share in the fall business this year, which every indication points to being good. The location of this store is a good one and if Carlsbad is going to grow no better time can be found to make a start than now. If the business which now goes to the mail order houses and nearby towns can be induced to stay in Carlsbad there would be ample room for still other new stores here. Carlsbad people are very glad to welcome Mr. Gibson and his new store to our city and we predict for him the same success enjoyed by other Carlsbad business concerns.

The bride entered with her father, Thomas W. Lane. She wore an exquisite gown of radium cloth, beaded in pearls, with court train caught at the shoulders with orange blossoms. Her veil of venetian lace, which covered her train, was held in place with a band of silver, and orange blossoms, and coronet of rose point lace. Her bouquet, which showered to the hem of her garment was of lilies, baby's breath and sweet peas. The maid of honor, Miss Lela Drake, of Winchester, Texas, wore a light shade of fuchsia taffeta with hat to match. The Junior bridesmaids were Misses Mary Frances Joyce and Katherine Harroun who were dressed in French organdie of pastel shades and carried nosegays of sweet peas, and baby's breath. Three little sisters of the bride, Helen, Dorothy, and Nina Lea Lane, June Joyce, and Pauline Ramsey were the other attendants. Little Thomas W. Lane Jr. carried the ring in a calla lily. Steve Conally of Boston attended the groom. The hostess, Mrs. Joyce was groomed in a beautiful peach colored chiffon, brocaded in silver, over a cloth of silver.

The wedding cake, the work of Mrs. E. R. Lange, a huge mound of white, was decorated to represent a garden plot with butterflies, spring blossoms and runners of green vines. Suspended from the chandeliers was a wreath of sweet peas, roses, and iridescent butterflies, from which hung a large wedding ring. The reception following the ceremony, refreshments of Bombe Cream, with kisses and individual cakes, decorated with sprays of violets and dipped strawberries were served. Punch with floating balls of mint ice was served in the drawing room. A hidden Mexican orchestra furnished music throughout the evening.

Mrs. Conally, who was originally from Lane City, Texas, was graduated from Kid Key College with honors, finishing her education at the New England Conservatory of music. Mr. Conally is a corporation lawyer of Boston, connected with the firm of Herrick, Smith, Donald, and Farley. He is an Exeter-Yale-Harvard law graduate.

After a wedding trip through the West Coast and Canadian Rockies, Mr. and Mrs. Conally will be at home in Cambridge, Mass.

Mr. and Mrs. R. L. Bates are expected in from Roswell the latter part of the week or the first of next for a short visit to old friends here where they lived for many years. They will then leave for Berkeley, California, where Mr. Bates expects to go into business, and Miss Zelpha the daughter, will enter college, she graduating with this year's class at Roswell.

A wire to W. H. Mullane from his son, Jim, at El Paso, tells of the death of W. H. Wimberly, at the Mullane home in that city, the deceased being father of Mrs. Jim Mullane, and making his home with them for several years past. He formerly resided on the Plains, near Knowles, and afterwards accompanied them to Van Horn and from there to El Paso. He had been an invalid for seven years. No particulars are available at this time.

The happy bridegroom, R. A. Toffelmire, is a graduate of Carlsbad schools and has held many positions of trust and responsibility in this city, both before entering the army and after his return from overseas. He is at present secretary of the Chamber of Commerce and City Clerk, and is prominent among our young men.

The Current voices the wishes of all who know Mr. and Mrs. Robert Toffelmire for a long and happy married life full of loving service to all around them.

MARRIED CONALLY-LANE

Lovely in every detail was the wedding of Miss Eloise Lane and Mr. Eugene Thomas Conally, of Boston, Mass., which was solemnized Thursday evening at the home of Mr. and Mrs. J. Frank Joyce. Rev. Father Francis of St. Edwards Catholic Church officiated. Rev. A. C. Douglas of the First Methodist Church giving the closing prayer and blessing.

The music room, drawing room, and dining-room were lavishly decorated in trailing vines, and lace fern, with wicker vases of lilies, larkspur, and pillar roses, silver and crystal baskets of huge pink peonies. The windows of the music room were banked with fern and clinging ivy, sprigs of larkspur, and lilies in front of which the improvised altar was formed. At the bottom lay the beautiful white satin pillow. The soft glow of many cathedral candles lighted the scene.

The nuptial music was unusually lovely. Mr. O. E. Moore of Dexter, sang "Because" and "Protestations", with violin obligato; Mrs. O. E. Moore played "The Old Refrain" and "Caresing Butterfly" as violin solos, both being accompanied by Mrs. Howard Moore, who played the Bridal Chorus from Lohengrin as a processional and "Annie Laurie" during the ceremony, with violin obligato.

The bride entered with her father, Thomas W. Lane. She wore an exquisite gown of radium cloth, beaded in pearls, with court train caught at the shoulders with orange blossoms. Her veil of venetian lace, which covered her train, was held in place with a band of silver, and orange blossoms, and coronet of rose point lace. Her bouquet, which showered to the hem of her garment was of lilies, baby's breath and sweet peas. The maid of honor, Miss Lela Drake, of Winchester, Texas, wore a light shade of fuchsia taffeta with hat to match. The Junior bridesmaids were Misses Mary Frances Joyce and Katherine Harroun who were dressed in French organdie of pastel shades and carried nosegays of sweet peas, and baby's breath. Three little sisters of the bride, Helen, Dorothy, and Nina Lea Lane, June Joyce, and Pauline Ramsey were the other attendants. Little Thomas W. Lane Jr. carried the ring in a calla lily. Steve Conally of Boston attended the groom. The hostess, Mrs. Joyce was groomed in a beautiful peach colored chiffon, brocaded in silver, over a cloth of silver.

The wedding cake, the work of Mrs. E. R. Lange, a huge mound of white, was decorated to represent a garden plot with butterflies, spring blossoms and runners of green vines. Suspended from the chandeliers was a wreath of sweet peas, roses, and iridescent butterflies, from which hung a large wedding ring. The reception following the ceremony, refreshments of Bombe Cream, with kisses and individual cakes, decorated with sprays of violets and dipped strawberries were served. Punch with floating balls of mint ice was served in the drawing room. A hidden Mexican orchestra furnished music throughout the evening.

Mrs. Conally, who was originally from Lane City, Texas, was graduated from Kid Key College with honors, finishing her education at the New England Conservatory of music. Mr. Conally is a corporation lawyer of Boston, connected with the firm of Herrick, Smith, Donald, and Farley. He is an Exeter-Yale-Harvard law graduate.

After a wedding trip through the West Coast and Canadian Rockies, Mr. and Mrs. Conally will be at home in Cambridge, Mass.

Mr. and Mrs. R. L. Bates are expected in from Roswell the latter part of the week or the first of next for a short visit to old friends here where they lived for many years. They will then leave for Berkeley, California, where Mr. Bates expects to go into business, and Miss Zelpha the daughter, will enter college, she graduating with this year's class at Roswell.

A wire to W. H. Mullane from his son, Jim, at El Paso, tells of the death of W. H. Wimberly, at the Mullane home in that city, the deceased being father of Mrs. Jim Mullane, and making his home with them for several years past. He formerly resided on the Plains, near Knowles, and afterwards accompanied them to Van Horn and from there to El Paso. He had been an invalid for seven years. No particulars are available at this time.

CARLSBAD AND PECOS BREAK EVEN IN BASEBALL GAMES

Last Saturday an aggregation of Carlsbad base ball players who were strengthened by some from the Lovell team, journeyed to Pecos to play one game of base ball which was to be the first of a four game series between Carlsbad and Pecos. The players went down in cars and were shown every consideration by the people of Pecos. A large crowd attended the game, which was a close and interesting one, the score being 3 to 0 in favor of Pecos, all three scores being unearned and made on errors. Montgomery of Lovell pitched for Carlsbad and Murray for Pecos. Montgomery was there with plenty of speed and had good control, fanning sixteen heavy hitting Pecos batters and allowing no scores until the latter part of the game. One of the interesting features of the game was the fact that Manager Ned Godbey, who played first base, did not have an assist in putting a player out at first all during the game, which seldom happens in any of the big leagues. Carlsbad out batted the Pecos players, but were unfortunate in being unable to score. Coming home Saturday night these same teams played here Sunday afternoon before a good sized crowd, Carlsbad again losing to Pecos by a score of 6 to 7, after having the game won until the last two innings. Martin of Artesia pitched for the home team but was knocked out of the box, he receiving rather indifferent support in the field.

Monday's game was won by the home team in the ninth inning after the score had been tied by Pecos and Boyle was put in as a pinch hitter and made good with a three base hit and scored on a single later. Morris pitched for Carlsbad and was effective in the pinches. Tuesday's game was rather a one-sided affair as Pecos could put no one of her pitchers in the box who were able to hold down the heavy hitters on the home team and when the game was ended the score stood 13 to 0 in favor of Carlsbad. Boyle was in the box for the locals and pitched a heady game, striking out batters when runners were on base, preventing Pecos from securing a score. Boyle was rather wild and walked several batters but he has plenty of speed and uses his head at all times besides being a heavy batter. Carlsbad has been sorely in need of a first class pitcher and Boyle will fill the bill this year in every respect. The four games were under the management of Ned Godbey, who took care of all the expenses and handled the games to the entire satisfaction of the players and the public. He deserves great credit for undertaking to bring this team here when the proposition has been turned down by the regular manager of the home team and when it seemed some one was sure to lose financially. Mr. Godbey informs us Carlsbad fans may expect other games in the near future with even faster teams than those playing here this year and Carlsbad may expect to do better than break even with the new material being whipped into shape.

Loving, owing to the fact that they have defeated Carlsbad two games this season under other management thinks they can defeat the present Carlsbad team, so will play at Fireman's park Sunday afternoon at 3:30. Manager Godbey says if Carlsbad doesn't "beat them worse than the last Pecos game he will 'can' the whole bunch and start over with Billie Holt and others from the grammar school."

The box score for the four games follow:

FIRST GAME

CARLSBAD	Pos.	AB	R	H	PO	A	E
Bill Nymeyer	c.	4	0	1	16	1	2
Johnson	ss.	4	0	1	2	0	0

Boyle struck out 16; Hicks 7.

DECORATION DAY IN CARLSBAD

A small audience gathered in the Armory Tuesday afternoon to celebrate Memorial Day and by so doing to honor and hold in memory our soldier dead. The band was present and gave two numbers, one at the opening of the exercises and the other at the close, and the program was otherwise carried out as published in last week's Current.

After the exercises at the Armory were over, the flowers and wreaths were taken to the cemetery and placed on the soldiers graves, and seldom has the cemetery been so beautiful and lavishly decorated, a wreath and bouquet being provided for each grave.

A salute to the dead was fired by a squad under command of Captain Will Miller and taps were sounded at the close of the ceremonies. The services were in charge of the American Legion, members of that organization taking the lead in the work of locating and decorating the graves.

At the Bujac home in La Huerta, last Sunday a picnic supper was given honoring a house guest at the home of Mrs. Clay McGonagall. Those present besides the family were Mr. and Mrs. Holley Benson, Marvin Livingston and wife, Mr. and Mrs. Dow, Mr. and Mrs. Sikes, Mr. and Mrs. Hudgins, Dr. and Mrs. Glasier.

FIRST GAME

PECOS	Pos.	AB	R	H	PO	A	E
Moran	ss.	4	1	1	1	2	0
Browning	2nd.b.	4	0	0	2	1	0

LOCAL NEWS.

J. S. Perry left Tuesday night on a business trip to Roswell.

Frank Runyan returned the first part of the week from a trip to El Paso.

Madam Thorne returned from a three week visit to friends and relatives in Roswell, getting in Tuesday afternoon.

Miss Eunice Herring entertained her bunch of High School girls at her home in the northern part of town last Tuesday afternoon, prior to the breaking up of their association for the summer. A delightful time is reported by all present.

Miss Gertrude Runyan returned the first of the week to her home in this city from Emporia, Kansas, where she attended school the past year. She intends to return to the same school in the fall, having another year to study before taking her degree.

FARM POULTRY

PROPER MARKETING OF EGGS

Much of Animal Loss Can Be Prevented By Use of Purebred Stock and Better Care.

It is estimated that the annual production of poultry and eggs in the United States is in excess of \$600,000,000—the value of the hay or the wheat crop—and it is also estimated that there is a total loss of nearly 8 per cent of the eggs marketed.

This great loss is due largely to improper handling between the farm and the market. Many farmers look upon eggs as a by-product, and the returns as so much clear gain. The hens forage for a living, and the eggs are gathered when convenient and kept almost anywhere. Such carelessness and a combination of mongrel stock, dirty nests, stolen nests of broody

Eggs Properly Packed for Shipping to the City.

hens, unconfined males, late-maturing pullets, and other undesirable conditions explain why the product includes a high percentage of small, cracked, dirty, stale, heated, and even rotten eggs.

Occasionally the accumulations of all these kinds of eggs are taken to the country merchants and exchanged for merchandise. The merchant usually buys these eggs "case count," paying the same price for all kinds and sizes, provided they are eggs with an unbroken shell. Small production results in small or infrequent shipments.

Many of these losses, the United States Department of Agriculture says, can be prevented by selecting pure breeds that lay more or larger eggs, such as the Leghorns, Wyandottes, Plymouth Rocks, Rhode Island Reds, Orpingtons, etc.; giving better care, food, and shelter, with dry, clean, vermin-proof nests; confining males except in breeding season; collecting eggs frequently, especially in hot or muggy weather; storing eggs in a dry, clean, cool place; using small and dirty eggs at home; marketing frequently, with protection at all times from heat; selling for cash on a basis of size and quality, "loss off" instead of "case count"; using an attractive package; and combining shipments as a matter of economy.

WELL, I been deesa place, capital Washington, fva, seexa day now and I dunno somatiny yet. Every day I go geeva look at da senate and da congress and every time ees jusa same—too moecha talk and no do somatiny.

You know, weeth talk deesa bunch gotta more speed as da locomote on da railroad. But weeth work ees da sama shift as Halley's comet.

Other day my frien wot go een dat place weeth me say one map was gonna introduce da Bill. I aska "Bill who?" and he tella me I dunno somatiny.

Now I dunno wot for my frien talka da way weeth me. I feegure eef dat man een da congress was gonna introduce somebody he tella hees lassa name anyway. Eef Bill was no stranger een dat place woteh's da use introduce. You know, I am smarta guy, too.

I aska my frien one more time wot was Bill's lasta name and he say I am crazy een da head. "Jusa wait and geeva look," he say.

So I waita tree, four hour een dat place for see wot Bill looka like. But he no show up. Dat guy wot introduce hees starta make da speech. He talka too long and I getta deesgust.

I am preety mad so I leava dat place and go home. And I tink Bill feeta same way and go home, too. Dat guy talka so long Bill gotta time for getta acquaint heemself weethout in introduce.

Wot you tink?

To Avoid the Rush, Soldier, just back from his harvest furlough, to the sergeant—"My father wants to know if I'll get another furlough at Christmas. Here is the picture of the pig that is going to be killed."—Fleegende Blätter.

THE SOCIAL LIFE OF THE CHURCH

The following excellent paper was read before the Ministerial Alliance of this city, by Rev. H. Lowry, and by the Alliance was requested for publication.

Movement with the modern era is eminent departure from the individual to society. If people are to be taken into account at all, they are to be associated, grouped, not isolated. They constitute the masses and the treatment is wholesale as well as retail. Filling the bottles in a tub, we turn the hose on them and do not wait to grab each one by the neck and make sure that it is full.

Inevitably as a Christian a man forms fellowship with his kind and organizes a church. All together in the language of Scripture they are the body of Christ, the different parts contributing to the common function. Or they are the temple of God, compactly built and purposed for a unit of life and action.

The idea is properly expressed with the family. There is the household of the faith as of the flesh. Abraham in the Covenant was to serve as the progenitor of a believing multitude, and even in the natural line his children prevail yet and marvelously perpetuate the family tradition. And yet more the community of life and motive and mission should be manifest in the fellowship of Christian.

The smaller unit has the surer, clearer expression. Take the single congregation, constituted with some distinctive faith and form, marked with some separate type of character, predisposed with a definite mode of inheritance and training, attracting kindred souls and cultivating vital friendships—does not the close inter-relationship encourage sentiment in common?

And the feature recurs in the larger Christian community known as a denomination? The local unit is expanded. People that use the same teaching follow the same ritual, sing the same songs, read the same literature and conduct the same mission demonstrate an affinity and outwardly develop the same types of belief and service, and they are bound to cluster as particles of steel about a magnet.

A like unity may well hold with the aggregate Christian following. The common magnet is Christ, and with the love that was demonstrated on the cross and the life that was proven with the garden resurrection we are attracted to him as one and with the same movement drawn to one another. These days in our union of worship and service we are forgetting that we are denominational and remembering only that we are Christians. There is the trite figure, perennially pertinent, of the spokes of a wheel centering at the hub. Surely the nearer we approach

Christ the more are we joined as one.

The terms of fellowship ideally are simple faith in Jesus Christ and practical regard for his will. They are the terms of admission into the church triumphant, reduced to their least common denominator, and rightly they prove best terms of admission to the church militant. Accepting the standard, we view variation of doctrine and method as only preferential and hold surely to the vital Gospel.

You discover my drift, bearing upon the social condition of the church. It appeals for friendship, and the happy result is reached only with development of good Christians.

Mechanical devices to relieve personal indifference and warm sanctuary atmosphere are quick. They belong within the catalogue of patent medicines. With genuine souls pump-handle methods are futile. Perhaps they are hurtful. Heart must prompt hand, or there is the equivalent of a wet blanket. The social sense must be honest. A cordiality that is merely professional is abhorrent.

Temperament is to be taken into account. Some people like to have a fuss made over them. They call for the compliment of attention. Others wish to be let alone. They enter the house of God to worship and not to shake hands. With them cordiality is little allowed to displace reverence. The masses are not easily fooled. The usher at the door, or the member in the pew or the minister at the platform must breathe the atmosphere of Christ and Heaven, and as he does friendship is assured automatically. A man of God is needed and not merely a good mixer.

Really there is no patent prescription for assuring the social life of the church. Only the worthy, supernatural Gospel is sufficient. Given the right sort of people, as there seems difficulty, it will dissolve. The prime concern is spontaneous sentiment, and it grows upon love, love to God, beginning, and ending in love to man.

When a girl wants to marry she immediately begins to deny the fact.

Speak a good word for yourself occasionally. Some one may believe it.

Never give free advice. The other fellow values it according to its price.

Many a man possesses a natural talent for forgetting he is a man.

Why say good things behind people's back. They can't hear them.

It's chatter when it leaves the tongue and scandal when it reaches other people's ears.

SAY IT NOW

Some one we know is going to die some time. Their good deeds will appeal to us, and will be emphasized by the death that overtakes our friends. Before the grass begins to grow over them we will have many kind words to say of them. Their sterling qualities will be extolled, and their faults will be overlooked or forgotten. That is the way of the world. But it might be different. We might commend their good qualities while they are still here to reap the benefits of that commendation. A kind word means much to those who are striving to do right. It encourages them to remain steadfast in their laudable undertakings, to persevere in the path of honor, and to extend a helping hand to others who need aid or enlightenment. Say it to them in life. They can't hear you when dead.

There are no shadows on the sunny side of life except those we make ourselves.

It is no longer necessary to buy an expensive automobile in order to obtain the essentials and comforts of the costly car.

Studebaker has settled that. You can now buy a LIGHT-SIX for only \$1045, f. o. b. factory, and get a car that rivals the higher priced ones in every advantage that goes to make up permanent satisfaction.

You want a serviceable car. The LIGHT-SIX has a 40-horsepower motor which is powerful, flexible and is practically free from vibration because of Studebaker's method of machining the crankshaft and connecting rods.

You want good looks. You get good looks in the LIGHT-SIX.

You want a comfortable car. The LIGHT-SIX has a roomy, comfortable body, mounted on long, substantial, semi-elliptic springs; and deep, restful cushions upholstered in genuine leather.

You want service. The LIGHT-SIX is built complete in Studebaker plants. It is not an experiment. Thousands of owners have found it dependable in every kind of service.

And you want refinements. Standard equipment on the LIGHT-SIX includes cowl ventilator operated from the instrument board; cowl parking lights at base of the windshield; inside and outside door handles; large, rectangular plate glass window in rear curtain; ignition lock and a thief-proof transmission lock, reducing the rate of insurance to LIGHT-SIX owners 15 to 20 per cent; and cord tires.

You can pay more and not get the satisfaction the LIGHT-SIX will give. But you can't get, for the same price, a value that is even comparable to the LIGHT-SIX.

Studebaker has been building quality vehicles and selling them at fair prices for 70 years.

Touring, \$1045; 3-Passenger Roadster, \$1045; Coupe-Roadster, \$1375; Sedan, \$1750. All prices f. o. b. factory.

LOCAL NEWS

Miss Grace Forehand left the first of the week for the State Normal school at Silver City, where she will take the summer work and more fully prepare herself for her chosen profession.

Rev. J. C. Jones, of Roswell, was in Carlsbad over Sunday and held the third quarterly conference at the Methodist church in this city Sunday afternoon.

Rev. J. A. Phillips, after a three days stay in this city looking after his work among the Spanish-American people, left Monday morning for points in Texas where the church has interests.

Little Nadine Hughes, who has been attending school in this city and staying at the home of Mr. and Mrs. A. J. Crawford, left Monday morning for her home on the Plains. The little girl made many friends among young and old who are sorry to have her leave us.

Rev. H. W. Lowry was called to Pecos last Saturday morning and spent the Sunday there, returning Monday evening.

Miss Ida Heisig and Miss Clemmie Sue Chilcoat left Thursday evening for Las Vegas, where they go to attend the summer sessions of the State Normal School. Both of these young ladies are this year's graduates.

Reverend Jones made a trip to Loving Sunday, accompanied by Edwin Stephenson, in the latter's car, where Mr. Jones preached to the Methodist people.

Mrs. Butcher and three children left Tuesday night for different points in Oklahoma where they expect to spend the summer, returning in time for the fall opening of school.

Mr. and Mrs. Richard Westaway were in from their ranch west of town to spend the Sunday. They are among the unfortunate ranch people who have not yet received a bit of rain.

Everett Grantham came down from Clovis Sunday afternoon and remained in the city with his parents until Monday night when he returned to his work as court reporter for Judge Sam Bratton. The immediate cause of his visit at this time was to be present at the eighth grade commencement, his sister, Irma Linn, being one of the graduates.

R. F. Madera was in from his ranch southwest of town last Monday, and reports the drought in his section still unbroken. He has had to move his cattle to pasture several miles from his home and is also feeding a number of cattle at the home ranch.

LESSON FOR JUNE 4

JEHOIAKIM TRIES TO DESTROY GOD'S WORD

LESSON TEXT—Jeremiah 26.
GOLDEN TEXT—The Word of our God
shall stand forever.—Isa. 40:8.
REFERENCE MATERIAL—Isa. 55:1-2;
Matt. 5:17-19.
PRIMARY TOPIC—The Burning of a
Good Book.
JUNIOR TOPIC—Jehoiakim Burns the
Prophecy's Book.
INTERMEDIATE AND SENIOR TOPIC
—A King Who Scorned God's Word.
YOUNG PEOPLE AND ADULT TOPIC
—How to Meet the Forces Antagonistic
to God's Word.

I. The Book Being Written (vv. 1-4).

1. The Time of (v. 1). In the fourth year of Jehoiakim, Jeremiah had been exercising the prophetic ministry some thirty years.

2. Against Whom Spoken (v. 2). They were directed against Israel, Judah and all the nations.

3. The Purpose of (v. 3). The grand object of the Lord in sending this message by the prophet was Judah's repentance.

4. Method of (v. 4). Jeremiah dictated the words of the Lord to Baruch the Scribe, who wrote them upon a roll of a book.

II. The Book Being Read (vv. 5-21). Jeremiah was unable to speak the message of the Lord to the people, as he was "shut up" (v. 5). "Shut up" most likely means a royal ban against Jeremiah's proclamation of God's Word to the people or against his entering the temple.

1. To the People (vv. 6-10). The occasion which brought the people together was a day of fasting (v. 6), because of the threatening of the Babylonians. Jeremiah directed Baruch to read to the people the words of the Lord which he had dictated to him, with the hope that the people would present their supplication before the Lord and return every one from his evil way.

2. To the Princes (vv. 11-19). While the reading of the book unto the people seemingly created no great impression, yet Michajah was so deeply moved that he went to the scribe's chamber where the princes were assembled and declared unto them all the words which he had heard Baruch read. The princes sent for Baruch to come and bring the roll with them. Baruch came and read to them with the result that (1) they were aroused with fear (v. 16). (2) They inquired as to how he had written the words (vv. 17, 18). To this he replied that he had written in the book the words which Jeremiah had dictated to him. (3) Their concern for the safety of Jeremiah and Baruch (v. 19). They were instructed to hide themselves from man's sight.

3. To the King (vv. 20, 21). The princes regarded the words of the Lord to be of such importance that they should be read in the hearing of the king, for he was mainly involved in the judgments pronounced. Upon their report of the matter to the king, he had Jehudi bring the roll and read it to him in the presence of the princes.

III. The King Destroying the Roll (vv. 22-26).

Instead of becoming penitent and afraid he became enraged and cut the roll leaf by leaf and threw it into the fire until it was consumed. This he did against the intercession of some of the princes. When the roll was destroyed he ordered Jeremiah and Baruch arrested.

IV. The Roll Rewritten (vv. 27-32). The burnt roll was reproduced by the command of the Lord, and many like words were added unto them. We should learn from this incident—

1. The Indestructibility of God's Word. Men may cut it to pieces and burn it, but the Word of God shall stand forever. It comes to light again with woes added to be visited upon its would-be destroyers.

2. The reason men attempt to destroy God's Word. It is because of the authoritative rebuke of their sins. The Bible arraigns man for his pride and wickedness and asserts God's sovereign power over man and his demand for a personal surrender unto Him and worship of Him.

3. The Method of Attempted Destruction of God's Word. It was part by part. "When Jehudi had read three or four leaves he cut it with a penknife." The rationalist today cuts out the biblical conception of God as a being whose essential nature demands punishment of sin; therefore he cuts out the Bible doctrine of man as created of God in His likeness and image. Instead of that he makes man a product of evolution; therefore he explains away the fall of man.

The Route to Heaven.
Show me the man who would go to heaven alone, and I will show you one who will never be admitted there.—Fettham.

Be Satisfied.
Rest satisfied with doing well, and leave others to talk of you as they please.—Pythagoras.

Dampness of Error.
There is nothing so true that the dampness of error has not warped it.—Tupper.

36 months	36	30	36	29

Next week the table from 37 months to 72 months will appear and anyone wishing the extended list covering the ages of six to 18 may obtain same by calling for one at the Health Department, Court House, Carlsbad, any P. M., at June 1st.

PEOPLE WHO DON'T THINK

A fellow walked along the main street the other day reading a newspaper. Suddenly he tossed the paper into the street and continued his journey. A housewife opened a can of tomatoes. The empty can found its way into the back alley. A young couple wandered aimlessly along, engrossed in themselves and the candy they were eating. The box was dropped onto the sidewalk. A farmer's horse cast a shoe in the street. A bystander picked it up and tossed it into a vacant lot. A convivial spirit edged into a corner and downed his last swig, and down went the bottle. And so it goes on from day to day and from year to year, and so it has been going since mankind learned to enjoy the luxuries of life. A little thing tossed into the discard here—another there—something somewhere else—but always something that adds to the rubbish that clutters up a town and renders the landscape less attractive. It is pure thoughtlessness, and nothing else. But continued thoughtlessness of this kind on the part of a majority of the population can soon make any town resemble a deserted junk heap. Our town and our people deserve something better. Will you do your part?

M. N. Cunningham and family left Wednesday morning in their car for a trip overland to Cazad, Nebraska, where Mr. Cunningham's father is living. They expect to be gone about three weeks and anticipate a pleasant trip and visit, which we sincerely hope they will have.

Blythe McCollum left with the last members of the Chautauqua, who left on last week Thursday night.

Mrs. Arthur Kellam was a passenger north as far as Clovis where she went to meet her son, Lloyd who came to Carlsbad from New York where he has been attending college, making a study of music. He will spend the most of the summer in Carlsbad.

TO THE MEN OF AMERICA By ROSE M. TRUMBULL

You talk of your breed of cattle,
And plan for a higher strain
You double the food of the pasture,
You heap up the measure of grain;
You draw on the wits of the nation
To better the barn and the pen;
But what are you doing, my brothers
To better the breed of men?

You boast of your Morgans and
Herefords,
Of the worth of a calf or a colt,
And scoff at the scrub and the mongrel,
As worthy a fool or a dolt;
You mention the points of your
roadster,
With many a "wherefore" and
"when";
But, ah, are you conning, my brothers,
The worth of the children of men?

You talk of your roan-colored filly,
Your heifer so shapely and sleek,
No place shall be filled in your
stanchions,
By stock that's unworthy or weak.
But what of the stock of your
household?
Have they wandered beyond your
ken?

O, what is revealed in the round-up
That brands the daughters of
men?
And what of your boy? Have you
measured
His needs for a growing year?
Does your mark as his sire, in his
features,
Mean less than your brand on a
steer?
Thoroughbred—that is your watch-
word!
For stable and pasture and pen;
But what is your word for the home-
stead?

Answer, you breeders of men!
Mrs. John Heisig and son, Freddy who have been in Roswell for some time in consultation with a specialist for the son's eye, came down from there to be in attendance at the commencement exercises of the high school, a daughter, Miss Ida, graduating. They left last night, accompanying Misses Heisig and Chilcoat as far as Roswell on their way to Las Vegas.

The family of Robert Leek, Fred Leek and Fred Nymeyer, all left for their respective homes on the plains Tuesday morning of this week. They have been in town since the beginning of school last year, in order that their little ones might have the benefit of our excellent schools and also take instructions in music. They expect to return in the fall again, and we wish for them a pleasant summer, on their different ranches.

George Spencer and family left Wednesday on their summer's visit to points in Kansas and Illinois, expecting to be gone the most of the summer, at least not setting any specific time for their return.

Mrs. Fred Aros is in town this week from the ranch coming to meet a sister who was expected to arrive here last Friday, but who was detained and will not be here until later.

Hot air finds quick lodgment in empty heads.

Be of good cheer and you may soon be cheering.

NOTICE

STATE ENGINEER'S OFFICE

Number of Application 1487.
Santa Fe, N. M., May 15, 1922.
Notice is hereby given that on the 15th day of May, 1922, in accordance with Section 26, Chapter 49, Irrigation Laws of 1907 Dean Smith of Carlsbad County of Eddy State of New Mexico, made formal application to the State Engineer of New Mexico for a permit to appropriate the Public Waters of the State of New Mexico.
Such appropriation is to be made from Blue River at a point which bears S. 40 degrees 42 minutes W. 5218 ft. distant from the SW cor. of Sec. 23, T. 24, S. of R. 26 E., N. M. P. M. by means of Blue River ditch diversion dam and 11 cu. ft. per sec. as a minimum, with an additional 4 cu. ft. per sec. when the same is not being used under an existing valid right above the point of return, is to be conveyed to power plant at a point which bears N. 74 degrees 50 minutes E. 3879.5 ft. distant from the SW cor. Sec. 23, T. 24 S. of R. 26 E., N. M. P. M. by means of open ditch, an extension of Blue River ditch and there used for power purposes and returned through Castle Draw to Black River at the junction of Castle Draw with Black River.

Any person, firm, association or corporation deeming that the granting of the above application would be truly detrimental to their rights in the water of said stream system shall file a complete statement of their objections substantiated by affidavits with the State Engineer and serve a copy on applicant on or before the 12th day of August, 1922, the date set for the Engineer to take this application up for final consideration unless protested. In case of protested applications all parties will be given a reasonable length of time in which to submit their evidence in detail or arrange a date convenient for a hearing or appoint a referee satisfactory to all to take testimony. Appearance is not necessary unless advised officially by letter from the State Engineer.
CHAS. A. MAY,
State Engineer.

BACCALAUREATE SERMON

The baccalaureate services at the Crawford Theatre last Sunday morning were largely attended, all the churches uniting as has been their custom for several years, in a celebration of the annual commencement exercises of our schools.

The stage had been decorated in the Senior Colors of yellow and white, feathery asparagus and yellow chrysanthemums being used to good advantage while cut flowers placed on the pianos and in other conspicuous places added to the beauty of the scene. The decorations were the work of the Junior class.

All the singers of the various churches united in the song service of the occasion, the processional being beautifully rendered, with Miss Howell at the piano. All the music was excellent, the solo by Miss Higgins being especially so. The anthem, "List the Cherubic Host" was sung by a sextet, and was a fitting prelude to the sermon preached by Rev. A. C. Douglas, of the local Methodist church to the graduates, twenty in number, who were seated in a body in the front of the edifice. The sermon was one of the best

ever given in this city on a similar occasion, and while not lengthy, abounded in good advice to those who were leaving High School to begin their lessons in the sterner school of life.

At the close of the sermon, the High School Anniversary Hymn was sung, the benediction pronounced by Reverend Sellards, and the large number of friends of the class quietly dispersed.

Kinney Reed and family were Roswell visitors last Tuesday.

George Thomas spent the day in Roswell last Tuesday.

JOHN HARVEY DEAD

Word was received about noon today by phone that John Harvey had been found dead at the Harvey well, where he was employed as watchman. He evidently had been dead several days according to information received here, and it is not known whether or not death was due to natural causes. He had not been seen since Saturday or Monday, so Miss Myrtle Harvey and an employee of the Harvey ranch drove to the well today, finding Mr. Harvey dead in the tank house.

Sheriff Patton, Dr. Ennes, Judge Richards and several others left about 2:00 P. M. today to hold an inquest and bring the body to Carlsbad. More complete particulars will be given next week.

STATE OF NEW MEXICO COUNTY OF EDDY NOTICE OF PENDENCY OF SUIT AND OF ATTACHMENT —THE STATE OF NEW MEXICO— TO

R. E. DICK.
You, R. E. Dick, are hereby notified: That a suit has been commenced in the District Court of the Fifth Judicial District of the State of New Mexico within and for Eddy County wherein The C. E. Potts Drug Company, a corporation, is plaintiff and you are made defendant, said suit being numbered 3537 on the civil docket of said court, the general objects of which are to obtain judgment against you for the sum of Nine Hundred Dollars, together with interest thereon at the rate of 8 per cent per annum from June 15, 1919, until paid and for a further amount as attorney's fee equal to ten per cent of the principal and interest, all due on and according to the terms of nine promissory notes numbered 4, 5, 6, 7, 8, 9, 10, 11 and 12, each for the principal sum of \$100.00 and dated June 15, 1919.

That all your right, title and interest in and to the following described land, real estate and premises situated in Eddy County, State of New Mexico, to wit: the NE 1/4 of Section 32, Township 22 South, Range 27 East, N. M. P. M., has been attached by The C. E. Potts Drug Company, a corporation, plaintiff in said cause, on the grounds that you are indebted to said plaintiff as hereinabove set out and that you are not a resident of, nor reside in this State.

That unless you enter your appearance in said cause on or before July 15, 1922, judgment will be rendered against you and all your right, title and interest in and to said land, real estate and premises will be sold to satisfy same.

That J. M. Dillard whose business and post office address is Carlsbad, New Mexico, is attorney for said plaintiff.

D. M. JACKSON,
June 2 June 23 County Clerk.

H. A. TOFFELMIRE, Secretary.

RECRUITING PARTY

VISITS CARLSBAD
Lieutenant V. D. Mudge, 7th Cavalry, with a detail of two non-commissioned officers, visited Carlsbad Monday and Tuesday in the interests of the Citizens' Military Training Camp to be held this year at Fort Bliss, during the month of August.

The Lieutenant stated that this Camp is open to all able-bodied young men, of good moral character, between the ages of 17 and 27. Ex-service men are eligible up to 35 years of age. The government pays transportation to and from the scene of the encampment, and furnishes food, uniforms, quarters, medical attention, and so forth free while in attendance. "In other words," as one of the party remarked, "from the time a man leaves Carlsbad, until his return one month later, he will not have spent a cent of his own money because of having attended the encampment, with the possible exception of his laundry bill."

The training will be highly beneficial, not only from the physical stand point, but also from the mental and moral points of view. Due to the fact that only a limited number of applicants can be accepted, men intending to go should file their application as soon as possible. Mr. Moore, the Adjutant of the local American Legion post, will be glad to furnish application blanks, and also any information and assistance that may be desired. Dr. Pate will make the physical examination, and perform the inoculation free of charge. The Lieutenant stated that applications should be in by the first of June, or as soon thereafter as possible.

R. H. Bynum, wife and three children, came in Tuesday night from Snyder, Texas, and are stopping with the family of Peter Hoover, close friends of the Bynum family for years.

WANTED—Salesman with car. Cord and Fabric tires at prices below competitors. \$100.00 and expenses.

LOCAL NEWS.

John Zimmerman came in yesterday from the Madera ranch where he has been teaching school and will probably remain in town this summer.

Miss McKeeley honored Miss Higgins by a little party at her home at the Palace Tuesday night. Two tables were present and enjoyed the evening at Bridge.

Miss Gouwans, the very efficient teacher of the eighth grade, will leave either Sunday or Monday for Ames, Iowa, where she will visit with a brother and sister, before going on to her home at Harvey, Ill.

Mrs. Kellam has rented the Homer King house opposite the Baptist church, and has already taken possession, the King family having moved to the ranch several days ago.

If you are getting a loan from the Federal Land Bank, the Guaranty Abstract and Title Co. know their requirements and can save you time and money on your abstract. 23 June 2

Y. R. Allen and Judge S. D. Stennis left Wednesday morning for El Paso, Texas, on a business visit.

Mr. and Mrs. H. E. Cawley are visitors from their ranch home near this city, to Roswell friends this week.

Joseph Powell left Tuesday night for Kansas City, Missouri, the home of his father, where he expects to remain for some time.

In the absence of Rev. A. C. Douglas, pastor of the Methodist church, Rev. Dorsey Mewborn will preach in that church next Sunday morning.

Miss Bessie Shields left Thursday morning for Silver City, this state, to attend the Summer Normal. Miss Shields taught one of the grades in the Otis schools the past year.

Professor Trowbridge left yesterday morning for his home in Dallas, Texas, after spending six months in this city.

June Turk came in from the ranch last Friday and stayed a short time with home folk and friends, in Carlsbad. He tells us that the ranch is a mighty busy place at this time of year.

Commencement exercises of Carlsbad eighth grade pupils was held at the High School Study Hall Monday morning at 9:00 o'clock, and were very interesting and impressive. The study hall had been decorated in the class colors of pink and lavender, and sweet peas, the class flower, were seen in beautiful and fragrant bouquets. Judge J. W. Armstrong made the address and commended the motto adopted by the class, "Up the Ladder, Step by Step". The judge admonished the class not to follow the line of least resistance, but to go on to higher achievements. Each individual boy or girl will be made stronger with each obstacle surmounted. "You have gone up seven steps in the ladder and have reached the first landing. So many approach the High School trying to escape certain studies; they try to skip Latin or higher mathematics, saying that in their life they will have no need of those studies. You should listen to your parents and teachers and take their advice and while you might not use the studies you object to, still they are valuable in training the mind". The judge was listened to with flattering attention through his address and at its close was rewarded by a round of applause. The girls of the grade rendered some beautiful music during the exercises and Mrs. Snow presented the diplomas.

The class is composed of twenty-five pupils, of an average age of fourteen years, seventeen of the members of the class being girls and eight boys. Those who graduate into High School are the following: Emmett Barron, Wilbur Barrows, Robert Bell, Thelma Boatwright, Douglas Duncan, Blanche Burns, Dorothy Flowers, Irma Linn Grantham, Brantley Hambleton, Clifford Piller, Dorothy Hudgins, Thelma Jones, Thelma Kersey, Warlie Leck, Mildred Mayra, Lucille Morris, Aurelia Sellards, Edna Spratt, Homer Taylor, Vance Tebbetts, Agnes Thorne, Joe Toffelmire, Willie Mae Watson, Buena Ward, Wesley Wheeler.

A six weeks summer session will be held for those pupils who have completed the first half of the eighth grade work, and will be taught by Mrs. A. A. Kaiser.

Miss Dorothy Swigart is expected to return this afternoon from Kansas City where she has been attending the Horner Institute for several months past, specializing in expression and kindred studies.

Mrs. Eugene A. Roberts entertained the Little Bridge Club Saturday afternoon at the Eddy House in La Huerta. The last meeting for the summer of this club was a luncheon at which the eight ladies who have made low, entertained the similar number who have made high score.

R. L. McCuller, Arthur Mays, J. G. Usery and Holing Usery came into town yesterday with the Tom Gray steers, which he shipped out last night, loading at the stock pens in town. The cattle, 598 in number, were bought by Scott Hill and by him shipped to Denver. The weather has hit that part of the country pretty bad, they having had a rain about a month ago, but none since, and the springs in that section are drying up.

J. B. and Miss Wardle, children of Mr. and Mrs. Bert Leck, left Monday for the Plains country, where they will visit for awhile with their relatives, and may spend most of the summer there.

County Superintendent George M. Brington has accepted the position of superintendent of the Dexter school for the coming year. The Dexter people, and especially the patrons of the school there, are to be congratulated on securing such a fine man and educator to head their schools for the coming school year.

Mark Nail and wife will leave at once for Amarillo, where Mr. Nail has been transferred. Regret is general among their friends at their leaving, especially among the members of the Christian church, where both Mr. and Mrs. Nail have been good workers and also in the Sunday School of that denomination.

Bert Rawlins made a business trip to Roswell Tuesday morning.

Mrs. Boston Witt and her daughter, Mrs. Georgia Lusk and the latter's three children, came in from their home at Lovington, last Monday and remained in town until Wednesday noon. Mrs. Witt says the entire country in that locality is looking green and pretty owing to the copious rains which fell at the right time to do the most good. The party came in to attend the Decoration Day exercises and were accompanied on their return by Miss Martha Williams who will make an extended visit at Lovington.

Nat Hiler has brought two lots in the Stevens addition to Carlsbad and will at once begin the erection of a modern dwelling house of five rooms and bath, and when completed will move his family into it.

Mrs. John Roark left Saturday morning for Culver, California, where she will make an extended visit with her daughter and family. Her little grand son accompanied her.

Mrs. Claibe Kyle was brought in last Friday from her home near Lovington and taken to the Sisters Hospital where she underwent an operation Tuesday morning. She is doing nicely at this time, her mother, Mrs. Stokes, being with her. Mr. Kyle returning to the home Tuesday.

Where things are new

DEAN APPOINTED COMMISSIONER

W. W. Dean was this week appointed commissioner of the U. S. Federal Court, Western District of Texas, Pecos Division. This honor came to Mr. Dean on top of his recent appointment as deputy clerk of this court, to fill the vacancy left when Joe Carlin was moved to San Antonio.

This appointment will make it unnecessary to notify commissioners at other points to come to Pecos to hold preliminary trials for Federal offenses.—Pecos Gusher.

Guy Gibson, who was brought to the Eddy County Hospital the first of the week suffering from pneumonia, continues very ill at that institution.

Mr. and Mrs. W. C. Sellars came in last night from Ottumwa, Iowa, where they had been spending some time with their son, Dr. Harry Sellars, while Mr. Sellars, Senior, was convalescing from a lengthy sick spell.

J. A. Prewitt was taken very sick at his home in the Otis section Wednesday evening and was brought to Eddy County Hospital, where he remains under the care of a physician, still a very sick man.

The family of L. S. Myers is making preparations to spend three weeks in the Taos country, where they formerly resided, and expect to leave about the 7th of this month should the weather prove favorable, they going in their car.

Mr. and Mrs. Leslie Bates are happy over the arrival of their second child, a daughter, who was born at noon at the Frederick Hospital, May 30, and weighed ten pounds. She has been called Dorothy May and best wishes are extended for a happy and useful life.

The three children of Mrs. Anna Brown, Madeline, Clothilde and Stephen are expected home tonight to spend the summer with their mother, from Stanton, Texas, where they have been attending school.

"Bill" Hudgins left yesterday morning for Los Angeles, California, and will make a lengthy visit in that city.

There will be morning worship Sunday in the Presbyterian church, and the subject of the sermon will be "God's Poems". Church school will meet at ten o'clock, and the young people at seven-thirty.

Miss Lola Caviness departed with some friends who were visiting at the home of her parents, in the Otis section, for Plainview, Arkansas, where she will spend the summer.

Miss Frankie Howell was hostess to the members of the Bridge Club at the Sikas home Wednesday afternoon.

How Bottled Soda Water Is Made

A great many people have queer ideas about bottled Soda Water. Some people think it is made with soda and all sorts of things. Now the truth is that Bottled Soda Water is simply pure carbonated water with the flavoring sugar syrup. Each bottle contains 5 3-4 ounces of carbonated water and 1 1-4 ounces of flavoring and sugar syrup.

Carbonated or charged water is pure water into which carbonic gas is charged by a machine called a carbonator. The gas is made in large plants, usually from coke, which is practically pure carbon, and after purification it is condensed into a liquid form by the use of great pressure. We buy this liquefied gas in iron cylinders.

To carbonate water the cylinder of gas is connected to the carbonator. Inside the heavy iron body of the carbonator is a reservoir lined with pure black tin. Into this reservoir the gas is admitted through one valve and the water through another. A black tin paddle wheel revolves and churns the water and gas so thoroughly that every particle of water absorbs its share of gas. All this is done under fifty pounds pressure to the square inch.

After the water is carbonated it is carried to the bottling machine through black tin pipes. The bottling machine first deposits the flavoring and sugar syrup in the bottle and then admits the carbonated water and closes the top of the bottle with a bright tin cap or "Crown", inside of which is a clean cork cushion.

As a wholesome article of food, bottled Soda Water has great merit. Carbonic gas is itself a wholesome food. Carbon, indeed, is one of the chief elements of all foods. Sugar, as everyone knows, is a very important food and we use no other form of sweetening but sugar. The flavors are beneficial in that they are pleasing to the taste and stimulate salivation and digestion.

EVERY BOTTLE IS CLEAN

They are soaked in hot caustic soda solution, rinsed and brushed and rinsed again, making a bright clean bottle. ABSOLUTELY SANITARY.

We make the following flavors and guarantee them pure and wholesome:

Orange Julep, Cherry Blossoms, Coca Cola, Concord Grape, Strawberry, Cream Soda, Lemon and Lime, Root Beer, Ginger Ale.

BARN DANCE

Sixteen couples of Seniors and their friends were present at the Barn Dance given at the H. D. Hubbard home west of town last Saturday night. The trip was made by truck and the pleasurable anticipations always felt on an occasion of this kind were more than realized. An Edison furnished the music and the upper barn floor the place for the dancing. The young ladies present wore Hungarian aprons and the boys danced in overalls. Mrs. J. S. Oliver and Mrs. H. D. Hubbard chaperoned the happy bunch.

MEXICAN METHODIST CHURCH

DORSEY MEWBORN, Pastor

The following services are planned for the week end.

7:00 P. M. Saturday night of this week. Stereopticon lecture, "China Japan", by pastor. Special talk by Miss Loxeff.

2:30 Sunday. Bible School

7:00 P. M. Special Music. Sermon by pastor.

7:00 P. M. Wednesday, June 7th. Prayer Meeting.

All are invited to these services. "Knowledge is a good thing not to see, but to see by."—G. Stanley Hall.

HEROES GALORE AT SWIMMING HOLE

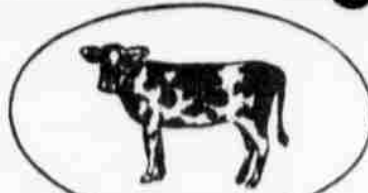

The swimming hole at the pier is so shaped that even though one is not an expert swimmer, he can use the diving boards to advantage, as a few strokes will carry him to shallow water. Gordon Stine attempted the feat Wednesday afternoon, but was caught in the current, lost his presence of mind, and were it not for Miss Evelyn Slack and Mrs. W. W. Dean, he would have had a running start for a watery grave. Mrs. Dean leaped to the rescue without the ceremony of removing a single garment, but Evelyn had practically accomplished the rescue. We are certainly glad to be able to congratulate all concerned that things did not turn out otherwise.—Pecos Gusher.

HAY TRADE CONDITIONS OF THE WEEK

Receipts of hay have been smaller this week in most markets and values have strengthened, although not much change is noted in quoted prices over a week ago. While trading has not been very active, the offerings have been quite readily absorbed and at the close a steady to firm market is indicated.—Hay Trade Journal.

A Safe Preventive against

Blackleg

Blackleg-Aggressin (Natural) is germ-free—therefore can not produce blackleg in vaccinated animals.

One dose usually protects for life by immunizing the animal through its entire susceptible age. These important advantages explain why this product has been so extensively used since its discovery in THE MULFORD LABORATORIES in 1909.

We handle the MULFORD (original) PRODUCT.

RADIO

THINGS BEGINNERS MUST LEARN FIRST

Explanation of Terms Used in Radio and of Its Basic Principles.

Due to the great interest taken in radio since broadcasting stations have been started, many radio terms are seen and heard that may be unfamiliar to the novice. Some of the most commonly used terms are explained and defined below.

Like light, heat and sound, radio energy is propagated in the form of a wave motion. Every one is familiar with the wave motion set up on the surface of a still body of water by the dropping of a stone into it.

Every time a point on the surface of the waves goes through a complete set of motions and starts to repeat those motions the wave is said to have gone through a cycle.

The number of complete cycles gone through per second is the frequency.

The human ear is responsive to sound frequencies up to a few thousand cycles per second but is not capable of responding to the higher frequencies encountered in radio. Arbitrarily a frequency of less than 10,000 cycles has been called an audible frequency—one which can be heard—and frequencies above 10,000 cycles, radio or inaudible frequencies—because they cannot be heard by the human ear.

The particular type of wave which propagates radio energy is an electro-magnetic wave. All of us have seen bits of iron and steel attracted by the little toy magnets made up in the form of horseshoes. This attraction of the magnet for the bits of iron and steel showed the existence of a magnetic

The high-frequency current is known as the carrier-wave and its function is to radiate into space in the form of electro-magnetic waves and by its variation in amplitude carry with it the variation in the tone at the transmitting station.

It is the frequency of the carrier-wave that determines the wave-length on which a radiophone station is transmitted. By experiment it has been found that electro-magnetic waves travel at the same velocity that light waves travel, that is, 186,000 miles per second. Wave-length is the distance between any two similar points on two successive waves; for example, the distance from crest to crest of any two successive waves in the same direction, measured in meters, a unit of length equal approximately to one and one-tenth yards. Converting 186,000 miles to meters, the equivalent is 300,000,000 meters. The length of an electro-magnetic wave is equal then to 300,000,000 divided by the frequency. Suppose a station was transmitting on a wave-length of 300 meters. The frequency of the carrier-wave would be approximately 835,000 cycles.

Just as a violinist tunes his instrument, that is, makes a certain string emit a note of higher or lower pitch, or, technically speaking, a sound wave of higher or lower frequency, by adjusting the tension on the string, so may the electrical constants of the antenna circuit of a radiophone transmitter be changed in order to have the station emit a carrier-wave of a different frequency.

If a tuning fork having a natural period corresponding to middle C be placed near a violinist who is playing, the fork will vibrate when the musician plays middle C, but all other times it will remain quiescent. This phenomenon of the tuning fork vibrating whenever the musician plays the corresponding note on the violin is known as mechanical resonance. If a radio receiver be adjusted so that electrically its natural period of vibration will be 835,000 cycles (300 meters wave-length) every time a station transmits on a wave-length of 300 meters, current will be set up in the receiver by

A GREAT HELP

"I SUPPOSE you do your own washing, ma'am?" inquired the seedy stranger.

"Yes, I do, although I don't see that it's any of your business," replied Mrs. Curfew, with some warmth.

"I suppose you'll be telling me that you're collecting statistics for a government bureau, or maybe for the state board of health. It seems that the authorities are greatly interested in family matters that don't concern them nowadays, and every day or two somebody comes along asking impertinent questions as to how many children I have, and my maiden name before I was married, and whether there's insanity in the family."

"I'm sick and tired of answering such questions. If my old friends want to dig into my family history, I'll give them all the information they want, although I may consider their conundrums in bad taste, but when a perfect stranger comes along and asks me if I do my own washing, I feel that the line must be drawn somewhere. Every Jack in office asks questions. It used to be that the assessor would come to the door politely, and inquire how many dogs we kept, and take our estimate of the value of our property without looking as though he knew we ought to be prosecuted for perjury. But now he must know the color of your grandfather's side whiskers, and if you tell him that you keep no dogs he goes out and looks under the house, and in the barn, and when he comes back he warns you that the penalties for giving false information are severe."

"Mr. Curfew says that the next time the assessor comes, he is going to throw him over the back fence and kick him down the alley for a distance of seven blocks, and I hope he'll keep his word."

"I didn't mean to offend you," said the stranger. "I'm introducing a washing powder that saves half the labor, and dispenses with soap altogether. With this marvelous powder a woman can do the week's washing and have her clothes hung on the line, inside of two hours."

"Well, mister, you take a package of your marvelous powder down to the creek, and give yourself a good scrubbing, for you look as though you had been fishing out of somebody's tubbin. Your whiskers are full of sawdust, and your face is covered with grime. If you were introducing bituminous coal, there might be some excuse for your appearance, but a man who is selling washing powder ought to be like the driven snow, or nobody will have confidence in him."

"And I wouldn't have anything to do with your washing powder if you offered to bring me a wagonload for twenty cents. I make my own soap of lye and grease, and although it isn't indorsed by the crowned heads of Europe, or by prelates or vice presidents, it's the best soap ever made, and I know the ingredients are wholesome, even if they don't comprise barks and buds and healing herbs."

"When I use my own soap, I know the things I wash won't be any the worse for it, but the washing powders sold by agents are made of dynamite and lunar caustic, and a garment once washed with them will never be fit to use again."

"Last spring I was feeling too poorly to make the usual batch of soap, so I bought a package of washing powder from an agent who had his pockets full of testimonials showing that he was a man of high moral character. It happened that week that all of Mr. Curfew's white shirts were in the wash. Mr. Curfew is very particular about his shirts. They must be as white as arctic snow, or the way he raves around the house is a disgrace. Well, I wish you could have seen those shirts after they were washed. They had an old gold color, and have been getting yellower ever since, and Mr. Curfew never sits down but he speaks about it and makes things uncomfortable."

"So you had better toddle along and sell your washing powder to some woman who doesn't know how to make good soap."

World's Supply of Nitrates.

The world's visible supply of nitrates is estimated at 2,102,000 tons.

The Type.

"I heard Mabel said when she married that she had selected the very flower of her admirers. To what particular bloom did she liken him?"

"At first she thought he was the pink of perfection, but when the baby came to claim her attention, he was just a mere poppy."

Neptune's Laundry.

"I would like to see the wash of the sea."

"The best time to do that ought to be when you are crossing the line."

Neptune's Laundry.

"I would like to see the wash of the sea."

"The best time to do that ought to be when you are crossing the line."

Notice to Taxpayers

THE SECOND HALF OF THE 1921 TAXES WILL BE DELINQUENT AFTER JUNE 1st, 1922, AND THEREAFTER ADDITIONAL COST WILL BE ADDED.

DON'T FAIL TO PAY YOUR 1922 ROAD TAX IF YOU ARE NOT EXEMPT FROM THE SAME.

A. E. Lusk,
TREASURER AND COLLECTOR

Visitors in Carlsbad from Arkansas last week and the first of this, were Bob Caviness, of Gravelly, and W. B. Clements, of Plainview. The gentlemen were visitors at the Caviness home in the Otis section, and are men of standing and influence in their home communities. Just such men as Carlsbad and the Pecos Valley like to have for citizens. We were in hopes they would decide to locate among us, but they decided otherwise, altho much pleased with Carlsbad and the valley. They left on their return Wednesday.

Mrs. Pennikett, a former resident of Carlsbad now living at Amarillo, came down from there the latter part of last week and remained in town over Sunday.

NOTICE

You and each of you are hereby notified that we have completed the paving work in the City of Carlsbad according to our Contract with said City. This is to notify all persons who may have any claim or claims of any kind whatsoever against us or our sub-contractors for materials or labor furnished in the construction of the paving work for the City of Carlsbad, to file their claims immediately with the City Clerk of the City of Carlsbad. In the event such claims are not filed on or before the first day of June, A. D. 1922, said claims will be disallowed. Lee Moor Contracting Company. 204 Two Republics Life Building. El Paso, Texas.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Roswell, New Mexico, May 3, 1922.

NOTICE is hereby given that Muriel M. Nornhauser, of Carlsbad, New Mexico, who, on March 10th, 1917, made Homestead application Art. 21909, No. 034662, for N $\frac{1}{2}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ E $\frac{1}{2}$ SE $\frac{1}{4}$, Section 17, E $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$, Section 20, Township 25 S, Range 26 E, N. M. P. Meridian, has filed notice of intention to make three year Proof, to establish claim to the land above described, before Dover Phillips, U. S. Commissioner, at Carlsbad, New Mexico, on the 15th day of June, 1922.

Claimant names as witnesses: John Prickett, Lewis Cargill, Ira Stockwell, Louis Reznier, all of Carlsbad, New Mexico.

EMMETT PATTON, Register.

NOTICE TO CONTRACTORS

Sealed bids will be received up to and until 7:30 o'clock, P. M. Mountain Time, at the Office of the City Clerk of the City of Carlsbad, New Mexico, on the 15th day of June, A. D. 1922, for the construction of a two-story brick and concrete Municipal Building and Fire Station, which shall include the plumbing, hot water heating system and electrical wiring complete.

Plans and specifications made by C. R. Carr, architect, Roswell, New Mexico, will be ready for general contractors after May 15th, 1922, which plans and specifications will be on file at the office of C. R. Carr, Architect, Roswell, New Mexico, and at the office of the City Clerk of the City of Carlsbad, New Mexico, for inspection. A copy of the Plans and Specifications may be had by general contractors upon application therefor and a deposit of \$15.00. Said deposit will be refunded at the time the plans and specifications are returned.

Payment of the proposed work will be made in cash upon the estimate of C. R. Carr, Architect, 15 per cent of said estimate being retained until final completion.

All bids must be accompanied by a certified check drawn to the order of the City Treasurer of the City of Carlsbad, New Mexico, in an amount equal to 5 per cent of the bid which check will be subject to forfeiture in case of failure on the part of the successful bidder to enter into a written contract and furnish bond with approved sureties in an amount equal to the bid submitted within ten (10) days after receiving official notice that the contract has been

TOMORROW

The man who thinks of tomorrow—of his future comfort—of the protection of his family—INSURES HIS PROPERTY TODAY. If it burns it will not break him. The insurance company pays the damage.

TODAY

The one who thinks only of today—who considers only the slight expense of the moment—who forgets the future security of his family—DOES NOT INSURE. When the property burns it cripples him or wipes him out completely.

FIRE AND AUTOMOBILE INSURANCE — SURETY BONDS

field about the tips of the magnet and this same kind of a field propagates the electro-magnetic force, except that unlike the toy magnet, its power comes off in the form of wavy motions. This electro-magnetic force propagates radio energy in all directions.

The medium that transmits the electro-magnetic waves is the same medium that transmits light—the ether. This medium is supposed to fill all space, even that occupied by fluids and solids. Little is known about its properties.

In radio it is more common to speak of wave length than frequency. The wave length of any wave motion is the distance between any two successive crests in the same direction. The wave length depends upon the frequency. If the frequency is high the wave length is short. On the other hand if the frequency is low the wave length is long. Numerically the wave length is equal to the distance traveled by the wave in one second divided by the frequency. Suppose, for example, that it were desired to know the wave length of an electro-magnetic wave having a frequency of 835,000 cycles. Electro-magnetic waves travel at the same speed as do light waves, that is, 186,000 miles per second. Dividing the 186,000 by 835,000 the wave length would be .223 miles or 390 yards. In radio work it is measured in meters. A meter is equal to approximately 1.1 yards. Converting 390 yards into meters the wave length would be 390 divided by 1.1 or 360 meters. This is the wave length on which KDKA operates. It also means that the electro-magnetic waves sent out from this station have a frequency of 835,000 cycles.

FUNDAMENTAL PRINCIPLES

In a radiophone transmitter there are two requirements that must be fulfilled. First, there must be a source of high-frequency current, say, between 15,000 and 1,500,000 cycles so connected to an antenna and ground system that energy in the form of electro-magnetic waves will be radiated. Second, there must be some method of controlling this high-frequency current or modulating it so that the variations in the amplitude of the high-frequency current will be directly proportional to the voice or music to be transmitted.

electrical resonance. Stations transmitting on any wave-length other than 300 meters will not cause a current to be set up in the receiver.

The portion of a radio receiver that changes the wave-length at which it is electrically resonant is called a tuner. Suppose that "A" station transmits on a wave-length of 200 meters and "B" on a wave-length of 300 meters. By adjusting the tuner until the constants of the receiver make it electrically resonant to a 200-meter wave or a 300-meter wave, either of the two stations cannot be picked up simultaneously. This is the reason that more than one transmitter can be operating at one time and yet only one can be heard on a receiver without interference from the others.

The other necessary part of a radio receiver is the detector. The function of this portion of the receiver is to utilize the small currents in the tuner that are set up by a transmitting station and make them audible through the medium of a telephone receiver. If the telephone receiver were connected directly to the tuner the high-frequency current would not operate the diaphragm of the receiver and even if the diaphragm were set in motion it would be too fast a motion to be picked up by the human ear.

In a simple receiver the detector usually consists of two pieces of mineral in contact or a piece of mineral in contact with a metallic spring. Either combination is known as a crystal detector. A detector of this type is nothing more than a rectifier; that is, when an alternating current is applied at the terminals the current is allowed to flow only in one direction.

How One Editor Uses Radio.

The editor of a paper in an isolated town in the northwest is using the radio in a most ingenious and effective way. An amateur radio friend in a big city 50 miles away buys the latest editions of the city papers as soon as they are off the press, reads the best news into his transmitter, and a typist in the country office copies the news as it comes in over the office receiver. The editor, through this ingenious plan, is always "First With the Latest" in his home town.

LOCAL NEWS.

Mr. and Mrs. Sam Patton visited friends in Roswell the latter part of last week.

Mrs. Westfall left the last of the week for Los Angeles, California, where she plans to spend the summer.

Mr. and Mrs. George O. Roberts of Clovis spent the latter part of the week in this city visiting with their parents and other relatives.

Frank Kindel left the latter part of last week for his annual vacation. He went first to Denver, where Mrs. Kindel has been visiting with her people for a month past, and at the close of his vacation, she will accompany him to their Carlsbad home.

The familiar figure of Judge D. G. Grantham is seen on the streets again, he coming in for a brief visit from El Paso, Texas, where he is now practicing law, and expecting to remain here until matters are so arranged that Mrs. Grantham and Irma can accompany him on the return.

Myrl Nornhauser and wife and Miss Aline Dalmont left Wednesday for Mesilla Park, where Mr. Nornhauser goes to spend a fortnight looking after some wool crops which he will buy in that vicinity. After a short time spent in that city, Miss Dalmont will go on to Ranger, Texas, where she has a sister, whom she will visit. Miss Nornhauser did not accompany her parents, but remained here in charge of her devoted auntie.

As school closed the annual exodus of teachers in Carlsbad schools began. Miss Taylor, the beloved teacher of one of the Grantham grades, left for her home in Durham, Oklahoma, Sunday night; Miss Agnes Standiford, left for Denver, Colorado, the home of her sister, going Saturday night; and Miss Helen Bule, left for Hereford, Texas, where her parents, Judge and Mrs. Bule, are now living, Saturday night. At the same time, Mrs. Mitchell, another teacher, departed for Texas, her home state. Carlsbad folk are fond of these girls and hope to see them again, and whether they return here another year or not, wish them all sorts of success wherever they go.

Persons who have not visited the Carlsbad Springs for a short time will be surprised to know of the improvements made in that part of the country. E. T. Carter has many acres of fine cotton planted where formerly was nothing but mesquite brush and weeds. The cotton is making a fine growth on this virgin soil and the improvement is very noticeable indeed. The road leading to the Springs has been changed and is much better than the old one and the distance is not materially lengthened.

HELEN LYNCH

Popular Helen Lynch, who has been seen in some of the excellent pictures, and who is a prime "movie" star, was born in Montana eighteen years ago. She is blonde and blue eyed, and professes to like "thrilly" stories. Her ambition is to do dramatic parts, but her appearance is that of a delightful ingenue.

Beauty Chats

By EDNA KENT FORBES

SALADS AND BEAUTY

ACCORDING to the way they are made, salads are either fattening or thinning. They play a great part in all menus for reduction, but in this case they are eaten plain or with a special dressing. If you wish to grow thin, eat fruit salads of all kinds but grape, banana or nuts, with the following dressing: Two tablespoonfuls of vinegar, a pinch of salt and paprika, a quarter teaspoonful of dry mustard, a teaspoonful of chopped chives or parsley, and a teaspoonful of tomato catsup or Worcestershire sauce. The bowl is rubbed inside with an onion, and the ingredients are mixed together. Sometimes a hard-boiled egg is chopped in.

But if you wish to increase your weight, eat salads with plenty of olive oil mayonnaise. For this you take the yolk of an egg, beat it, add a pinch of salt, add olive oil drop by drop, always beating, with a few drops of lemon juice or vinegar to thin it as it grows too thick. After a time the oil may be added in tablespoonful quantities. The success of this most delicate of all dressings is that the mixing bowl must

To Have a Clear and Pretty Complexion, Eat Salads, Which Also Nourish the Body.

be quite cold, even being set in a dish of cracked ice, and at first the oil and vinegar must be added a few drops at a time. It must be beaten incessantly, an egg beater being easier than a fork for use.

Salads are so good for the digestion that they should be included in the menu once a day at least. Potato salad is fattening, apple salad is good, though it neither adds nor subtracts flesh.

Counts Your Words.

For the benefit of story writers who must arrive at the length of the stories they are writing by estimating the number of words, a "wordometer" has been invented which is hitched up to the space bar of the typewriter and tells the exact number of words which has been written.

JUNIOR-SENIOR BANQUET

The Annual banquet given by the Junior class of the High School to the Seniors of the same body was held last Thursday night at the Palace Hotel at 8:30 o'clock. About seventy-five members of both classes, the faculty and members of the Board of Education, with their husbands and wives, were present and enjoyed the delightful menu and the feast of reason and flow of soul which abounded at that time.

The room had been tastefully and beautifully decorated with the class colors, of blue and white, with cut flowers and foliage in abundance. The young ladies of both classes were dressed in lovely evening gowns, and with the light from shaded electric, made a beautiful picture. Miss Mary Net Reed acted as toastmistress and introduced the following speakers of the evening:

Toast to Members of the School Board, Georgina Galtor. Response by Dr. L. H. Pale.

Toast to Faculty, Allen Hardy. Response by Miss Rebecca Graham.

Toast to Seniors, Carl Loveless. Response by Virgil McCollum.

Eleanor Flowers and Mary Frances Joyce gave a fine instrumental duet, and a piano solo by Dorothy Dick was much enjoyed.

Songs were sung, all joining in, and surely sang well.

After the banquet a social hour was spent and so ended the Junior-Senior banquet of 1922.

The fellow who is up-to-date today makes the dates for tomorrow.

When the unexpected happens everybody expected it to do so.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Roswell, New Mexico, May 24, 1922.

NOTICE is hereby given that Blenda E. Ayres, of Carrizozo, New Mexico, who, on September 27, 1917, made homestead entry No. 641797, for the W¹/₂, and on January 15, 1921, made stockraising additional homestead entry, No. 648578, for the E¹/₂, Section 34, Township 8-S, Range 9-E, N. M. P. Meridian, has filed notice of intention to make three-year Proof, to establish claim to the land above described, before Grace M. Jones, U. S. Commissioner at Carrizozo, New Mexico on the 7th day of July, 1922.

Claimant names as witnesses: Scott O. Sproles, of Carrizozo, New Mexico, Claude Brannum, of Carrizozo, New Mexico, Lena E. Ayres, of Carrizozo, New Mexico, Gertrude Ayres, of Carrizozo, New Mexico.

NOTICE

The United Charities Association
will hold its annual meeting of all
members Monday night at 8:00 o'-
clock, at the Armory.
MRS. ROY WALLER,
Secretary.

The contemplated lecture on the
subject: "Equality of Opportu-
nity" to be delivered by Fred E. Wil-
son and illustrated by two films of
moving pictures will be given Fri-
day, June 9th, in Masonic Hall when
it is expected the machine for show-
ing the films will be available. This
lecture was given in Kansas City
recently before an audience of 9000
Masons, and is said to be of intense
interest. This is a rare opportu-
nity for local Masons to see these
pictures and it is expected a large
audience will take advantage of it.

Since the trees have been remov-
ed from the streets, awnings have
come to be almost a necessity, in
order to have any shade on the east
side of the street, especially. The
last to be equipped with this neces-
sary improvement is the Shepherd
building on the east side of Canyon
street, and with its completion, the
entire block will be shaded.

Mrs. H. I. Braden was hostess
to the Conally-Lane wedding party
last Friday evening to a lawn party
that was one of the very delightful
affairs of the week. In addition
to the wedding party, were the fami-
lies of C. C. Sikes, W. S. Moore,
Rom Holt, and Mr. and Mrs. R. L.
Halley. The lawn in front of the
J. F. Joyce home was the spot se-
lected for the function, and the plea-
sant evening added to the joyous af-
fair.

THE HOMELIKE CHURCH

Services at the Christian church

Sunday, June 4th.

Bible School at 9:45.

Communion and sermon at 11:00

A. M. Senior Christian Endeavor at 7:30

P. M. Preaching service at 8:00 P. M.

Come with us and help us to make

these services what the Master

would have them be. The Lord's

Day well spent makes a good be-

ginning for the rest of the week.

D. F. SELLARDS,
Pastor.

Prof. G. M. Brinton is laid up

this week with the prevailing di-

sease of the eyes, which is causing

so much suffering and inconvenience

at this time.

Mrs. Myron Clark, and little son,

Houston, are in Carlsbad and will

make a lengthy visit here with re-

latives and friends.

Miss Corinne Higgins left for her

home in Texarkana, Texas, this

morning. Miss Higgins was super-

visor of music in Carlsbad schools

the past school year, and endeared

herself to Carlsbad people by her

unselfishness and kindness, always

being ready to assist in anything

that was for the good of the public.

Mrs. J. S. Oliver and children ex-

pect to leave next Tuesday for a

summer stay with relatives in Wax-

ahatchie, Texas.

The Merchant Livestock Com-

pany shipped sixteen cars of cattle

Sunday to Montana and South Dako-

ta.

BAND CONCERT FRIDAY NIGHT JUNE 2ND

The regular weekly band concert

will be given tonight at 8:00 o'clock

at the Band Stand. The program

for tonight:

March, "The American" Soladay.

March, "Army Reserve" Byer.

Overture, "Garden of Eden,"

Brown.

March, "American Union" Byer.

Selection, "The Wren" Ryder.

Schottische, "Bessie" Byer.

March, "The Aviator" Crile.

Star Spangled Banner.

RAY SOLADAY, Director.

BAPTIST CHURCH SERVICES

Sunday School at 9:45 A. M.

B. Y. P. U. at 7:00 P. M.

Preaching at 11:00 A. M. and

8:00 P. M.

A cordial invitation is extended

to the general public.

T. C. MAHAN, Pastor.

Miss Frances Beinert, of

Hopkins, Missouri, a friend

of Mrs. George O'Connor, will

arrive this evening from her home

and will make a lengthy visit with

her friends in this city.

Mrs. O. C. Taylor expects to

leave next Tuesday for her home in

Macon, Georgia, where she will re-

main at least for the summer. Miss

Elizabeth will go to Eddy County

Hospital for care and rest.

NOTICE TO TAXPAYERS

An order has been signed by the
judge of the District Court extend-
ing the time for the payment of the
last half of the taxes from June 1st
to July 1st.
AUD LUSK, Treasurer.

SCOUT NEWS

Camp work will start in a few
days. The ground will be laid off
and this means that some Carlsbad
Scouts will have to get busy and
have things in readiness. Many
visitors will be here and while we
will not have as many as first ex-
pected, there will be several hun-
dred and when you put that many
Scouts together it will take arrang-
ing to make a success of the camp.

Dr. Pate has kindly offered his
services as camp physician. A regu-
lar hospital tent will be establish-
ed, a phone installed and a man in
charge who will have connection at
any time with the doctor and each
morning a medical examination or
review will be held.

We want some men to act as life
guards during the camp or during
the particular times the boys are in
swimming. No risks will be taken,
every precaution to prevent accident
will be made.

What do you know about it, our
old Scout Master and the best friend
boys ever had, Rev. Pratt, will be
with us in camp and will assist in
the regular work. We could not
have a better bit of news for Carls-
bad Scouts.

Troop two spent two very enjoy-
able days on a camp last week. All
report a great time and we know
that Scout Master White thoroughly
enjoyed it. Old Fort Rocky was
the point invaded.

Quite a number of the boys left
this week for the farm and ranch
and the troop attendance will be
very much cut down but the boys
at home will keep the camp fires
burning.

Scout Gerald Carder left Monday
for Louisiana to work during the
summer months. Good luck and
safe return to the old Scout.

Word is received that Scout Lew-
is Gordon is keeping up his splen-
did record in Roswell that he had
in Carlsbad and is a wheel horse in
the Roswell organization. Lewis
cannot be beat, he is true blue and
you can count on him every time.

Scout Russel Crawford made a
business trip to El Paso the past
week and reports a splendid time.

We wish the citizens of Carlsbad
and the farmers hereabout would
show that they appreciate Scouts by
giving them such work as they have
to do. A call to any of the Scout
Masters and you can be supplied on
short notice to do any line of work
you wish. We have boys ranging
in ages from twelve to eighteen.

Ben Barnett won the position of
selling cushions at the Airdome, he
making a bid that was accepted.
Every time you buy a cushion you
are helping a good cause.

The Scouts who acted as police-
men at the Chautauqua have receiv-
ed many compliments. When you
want things done right get the
Scouts to do them. They have the
ability and know what to do.

Looking for some of the old
Pioneers home this week such peo-
ple as Frank Smith, Stuart Arm-
strong, Merchant Boys and several
others. We will be glad to see
them.

The P. E. O. held their last regu-
lar meeting for the summer at the
home of Mrs. Richard Thorne, last
Wednesday afternoon. At this
meeting it was decided that while no
regular meetings of the organization
would be held through the heated
term, the members will meet every
two weeks and have an hour of read-
ing.

J. W. Gamel came down from
Roswell Sunday afternoon and spent
a few hours in the city.

Mr. and Mrs. Tass Love came in
the first of the week from their
ranch home and took their daugh-
ters, Kate and Anna Lee, home with
them. The girls had been attend-
ing school here during the school
year.

Saturday, Photographer Ray Davis
made pictures of the little dolls who
appeared in the Red Cross pageant
Friday night. These pictures will
no doubt be treasured by the little
folk for many years to come, they
being so proud of their costumes that
they wish to wear them all the
time.

Street Commissioner M. R. Smith
is the right man in the right place
and is entitled to the thanks of a
grateful citizenship for his enter-
prise in having the stones taken up
and taken out of the main thorough-
fares in the city. Aside from the
looks of things, autoists find it much
more comfortable.

Mrs. C. H. Dishman left yester-
day morning for Alta Loma, Cali-
fornia, where the family expects to
make its home in the future. Mr.
Dishman and two of the sons belong
already there. She has leased the
home in the western part of the city
for a year, and will be absent from
the city at least that long. The
Dishmans are among our best and
we given them up regretfully at the
same time extending best wishes for
a happy home in the Golden State.

Mrs. Annie Lea Barber telephones
in from the Barber-Pen ranch that
heavy rains have fallen on the ranch
which makes the outlook much
brighter for the stock interests. A
very heavy hail fell Wednesday at
the Cap Rock and there have been
downpours sufficient to fill up all
the water holes on most of the range
in that section of the country.

W. F. McIlvain, M. R. Smith, and
others made a trip to Van Horn,
Texas, leaving Tuesday morning and
returned Wednesday night. They
report lots of water and mud on the
road.

\$580

Most for Your Money

And remember—the lowest
first cost, the lowest upkeep
and the highest resale value
of any motor car ever built.

F. O. B.
Detroit

No other car of this type is
priced so low — no other will
give you more real motor car
value—more convenience, more
comfort, more dependability
than a Ford Coupe. Equipped
with electric starting and light-
ing system, demountable rims,
extra rim and non-skid tires all
around, it makes the ideal en-
closed car for business or for
pleasure. Reasonably prompt
delivery. Terms if desired.

Carlsbad Auto Co.

Honoring Miss Ida Heisig, a num-
ber of her friends who belong to
the Methodist Sunday School and
Epworth League, gave her a picnic
at the flume Tuesday afternoon. A
delightful time was experienced, the
only regrettable thing being that the
relations existing between this group
of friends must now be broken. Miss
Heisig leaving yesterday for Los
Vegas to enter school. She has
been an earnest worker in church
and Sunday school and League and
her friends predict a life full of
usefulness for her wherever she may
go.

The "Ever Ready" class of the
Methodist Sunday School gave a
handkerchief shower to Miss Barber
Nell Thomas, one of their number
and a graduate of this year's class
in Carlsbad High school. Miss
Thomas will soon leave for the
ranch where she will spend the sum-
mer, expecting to enter some college
in the fall, and the girls took ad-
vantage of the fact of all being to-
gether at the close of school to give
her the little shower. Light re-
freshments were served and a gen-
eral good time was experienced.

A. J. Crawford returned Tues-
day night from a six weeks stay in
the east on a business trip.

The Berean Sunday School class
of the Christian church is growing
in numbers and interest with each
meeting. Twenty-five persons were
present last Sunday at the session
which was held in the courthouse,
and at least ten more will be on
hand next Sunday. The teacher of
the class, Mrs. D. F. Sellards, will
leave with her daughter, Aurelia,
for California, next week, and an-
other couple, Mr. and Mrs. Marsh
Nail, members of the same
class will also make a new home in
another city, so a class party was
given for them last night at the
home of Mr. and Mrs. Grogan at
which about seventy-five persons
were present. A delightful social
time was spent, although thoughts
of the coming separation would in-
trude and caused feelings of sorrow,
but all look forward to meeting
again.

Paul Area came in last night for
a load of hay, from his ranch in the
mountains, and reports a good rain
night before last, that put out water
in their tanks which were about
dry. Mr. Area said that they had
had several good grass rains, and
that pasture looks fairly well, but
this is the first rain that has put
water in the tanks, and they are
correspondingly grateful.
