VOLUME

ALBUQUERQUE, NEW MEXICO, SATURDAY JUNE 11, 1904.

NUMBER 143

## CHEERING NEWS

**Report to the Effect That Work Will Be Ordered on Albuquerque Eastern.**

**TIES HAVE BEEN PAID FOR**

When Senator W. H. Andrews, president of the Santa Fe Central and Albuquerque Eastern railways, with Col. W. S. Hope, who was here about a week or so ago, it was whispered around that the Albuquerque Eastern would undoubtedly be built, and that grading, followed by track laying, would surely be inaugurated by July 1.

When seen by The Citizen representative the senator, likewise the colonel, had no good cheering news to give the public through The Citizen, except to say that "everything looked bright."

Both gentlemen left the city, and the rumors of early work on the Albuquerque Eastern kept growing.

Colonel Hopewell came to town the other day, but when approached he was almost as dumb as an oyster—as much as to say "if you want some good news look elsewhere," and The Citizen representative commenced a little investigation.

Scrapie Romero, a member of the contracting firm of Romero & Romero, was in the city. He was seen, and at first denied that his firm had been paid for 150,000 ties cut for the Albuquerque Eastern, but when pressed he told that he knew a thing or two, admitted that they had received notes for the ties and these notes, endorsed by the Pennsylvania Development company, had been cashed by the banks. The ties had all been hauled out of the timbers and placed along the line of survey as indicated by the chief engineer. It was Mr. Romero's opinion that work would be ordered on the Albuquerque Eastern by July 1, and that construction, both grading and track laying, would be pushed rapidly to completion. As surveyed the road will come through Tijeras canyon and thence into this city as heretofore outlined.

On the route to this city, from Moriarty station on the Santa Fe Central, the new line will penetrate several valuable coal fields, and will open up an entirely new section of the territory to the trade of this city.

## WINFIELD SCOTT FLETCHER

**A VETERAN OF THE CIVIL WAR AND A PROMINENT MEMBER OF CARLETON POST, PASSED AWAY.**

Winfield Scott Fletcher, a familiar figure on the streets of Santa Fe, and well known throughout the territory, died Monday evening at St. Vincent's hospital in Santa Fe after days of unconsciousness. He was born in Col. Hero, Vermont, 61 years ago. After reaching manhood he taught school for several years in New York state, but at the breaking out of the Civil war, he was fired with the desire to fight for his country, and enlisted in Company C, Second Vermont Infantry, on April 7, 1861. He served throughout the first two years of the strife—being honorably discharged at Washington, D. C., on May 7, 1863, on account of disability caused by wounds. After he had in some measure recovered from these wounds he was employed as a clerk in the interior department. Being appointed timber inspector to New Mexico, he came to the territory more than 30 years ago.

Under Governor Prince's administration Mr. Fletcher served as adjutant general of the territory. He was prominent in Grand Army circles and was adjutant of Carleton Post No. 1, G. A. R., for many years, and at the time of his death. Two brothers survive him, one living in Chicago, and the other, H. L. Fletcher, living at King, New Hampshire.

The funeral took place this afternoon at 4 o'clock at Post hall, under the auspices of the Grand Army, Santa Fe. Rev. W. A. Cooper officiating. Interment was made in the National cemetery in this city.

## Georgia Cotton Congress.

Warm Springs, Ga., June 9.—The Georgia Industrial association met in fifth annual meeting here today and was called to order by President P. B. Gordon. The organization comprises a membership of 150 Georgia cotton manufacturers, whose efforts have done much to upbuild the industries and restore the commercial importance of the state. The principal

discussions at the present meeting will deal with the problems of labor and immigration, the effect of the Panama canal on Southern industries, and the condition of the far eastern markets as affected by the Russo-Japanese war.

**Cornell's Semi-Centennial.**  
Mount Vernon, Ia., June 9.—Elaborate arrangements have been completed for the semi-centennial jubilee of the Cornell college. The celebration will begin tomorrow and continue for one week. Secretary of the Treasury Shaw, Senators Dooliver and Allison, Bishops Andrew and McDowell and Governors Cummins of Iowa, Van Sant of Minnesota and Mickey of Nebraska are among the men of prominence who have promised to take part in the exercises.

## MERCHANTS BREAK EVEN.

**Slippery Couple at Las Vegas Leaves Under a Cloud.**

Smudgy city merchants who trusted one G. S. Ehle, who represented himself as an agent of the American Rose Nursery company, have fared better than they expected, when they heard Ehle and his wife had shipped without paying their accounts, says the Las Vegas Optic. The accounts were assigned for a consideration to W. H. Ungles, secretary of the Business Men's Protective association. There were eight in all, amounting to \$50. Mr. Ungles learned that Ehle had ordered \$149 worth of trees for the normal, and that he had paid to a nursery in Missouri cash in advance for these trees. The money to pay Ehle was in the hands of the treasurer of the board of regents and Mr. Ungles furnished it. This just about squared the accounts. Several citizens who wrote to the Northern Rose company learned there was no such organization. Mr. Ungles had occasion to write to Ehle's wife at Colorado, concerning the settlement of the Las Vegas accounts. The woman's reply was worth while. "Mr. Ehle was put in jail for a minor offense at Amarillo, Texas," she wrote. "With several others he broke jail and I know nothing of his whereabouts. You must proceed as you think best."

The Business Men's association and its secretary have scored a success in collecting the Ehle account and several have learned anew the lesson that it is bad policy to trust a smooth tongued stranger.

Last night James L. Shields, the public school teacher at the Jomez hot springs, left for San Rafael, Valencia county, where the young man will visit friends for a few days.

## JAIL DELIVERY

**AT NOON, AND TWO PRISONERS ARE NOW ENJOYING LIBERTY.**

Two prisoners escaped from the Mora county jail at Mora Wednesday night, and are now at large. They are named Seth Sorrell and Harry Schaefer and their names are in the Mora county jail book in connection with the theft of a horse.

Because of good behavior they were allowed the privilege of the jail corridor and were not locked in their cells at night. At 5 o'clock Wednesday evening the jailer, Celestino Mesa, left them for the night. Thursday morning they were gone. They had made a neat escape by placing two chairs on top of a table by which means they easily reached the roof of the cells, muffling the noise of their motions by blankets from their beds. With the canvas of their coats cut into strips they formed a rope with which they safely let themselves to the ground from the jail roof to which access was had through a skylight above the cells. Officers of the law are on the track of the jail breakers, and it is not likely they will long escape capture.

## MCKINLEY COUNTY COURT

**BUSINESS CONCLUDED—OFFICIALS RETURN TO CITY—PROCEEDINGS.**

The district court of McKinley county, held at the county seat of Gallup, concluded business of the June term yesterday, and Judge H. S. Baker, Clerk W. E. Dams, District Attorney F. W. Clancy and Court Stenographer H. P. Owen, returned to the city on the No. 8 passenger train last night.

The grand jury submitted its report yesterday morning, it being published in full elsewhere in today's Citizen. The citizen is under obligations to Court Stenographer Owen for the following court records:

James Clements was given thirty days on a charge of petit larceny. G. D. R. Davis on a charge of petit larceny, was sentenced to thirty days in the county jail.

Charles Supan, on a charge of assault with intent to murder, was sentenced to eighteen months in the penitentiary.

Thomas Martin, who pleaded guilty to "stepping a Benny" (stealing an overcoat) from a passenger car, was given three months in the county jail to think over the error of his way.

Frank Walker, selling liquor to the

Indians, was given thirty days in the county jail. He said he gave them a quantity of beer and meant no harm.

A civil action of M. Soton vs. Patrick Kennedy for \$188 for services said to have been rendered, was decided in favor of the plaintiff, and judgment for the full amount and the costs in the case were rendered in his favor.

The case of Mary Halsey, charged with shooting John Williams, was called for trial, but the prosecuting witness was out of the county and the district attorney was forced to dismiss the case.

The case of Bogutal Zaasynski vs. Dominick J. Orelli et al, was tried by a jury. It was an action in which the plaintiff sought to recover \$900 on account of stone taken by defendant from the plaintiff's stone quarry. The plaintiff failed to establish any material evidence and was forced to take a non-suit.

Chi-Chi-Begay, an Indian indicted on a charge of assault with intent to kill Walter Hostie, a trooper of the Fifth cavalry at Fort Wingate, sentenced to three years in the penitentiary. The assault occurred last March and Hostie hovered between life and death for several days. The Indian struck him on the right side of the head with a heavy piece of iron.

A number of cases on the docket were dismissed for want of prosecution, and both the civil and criminal docket were entirely cleaned up.

## ALBUQUERQUE EAGLES

**THEY ROYALLY CELEBRATED THEIR THIRD ANNIVERSARY LAST NIGHT.**

A birthday party was given last night in Knights of Pythias hall by Albuquerque Aerie, No. 165, Fraternal Order of Eagles. The body is three years old and one of the youngest in the city, but notwithstanding this it is one of the most prosperous and largest here.

There was a short business meeting before the social session, during which several candidates were taught the ways of the Eagle and received their wings.

The Berry-Divine orchestra, assisted by Prof. DiMauro rendered a number of choice selections and Mrs. Rosa Berry, in her usual pleasing way, sang several catchy songs.

Master Chester F. Belber, son of G. G. Belber, of the Belber Optical Co., sang several songs. The young man is 9 years of age and is only waiting for the time when he can put on the wings and join the rest of this jolly organization.

The First Regiment band was in attendance and their music was constantly appreciated.

Nathan Lewis, vice president of the Bismarck Aerie, was present and gave several vocal solos.

After the entertainment was brought to a close, Worthy President Nat Greene thanked those who had contributed to the evening's entertainment and announced that the Aerie would give another social session in the near future.

**Commencement at Haverford.**  
Haverford, Pa., June 10.—The annual commencement of Haverford university will begin this evening with a recital of the school of oratory. Scores of alumni and other visitors are arriving for the week's festivities. The programme this year is of more than usual note as it includes besides the regular commencement exercises the dedication of the new Century Memorial hall and the inauguration of Thomas Nicholson as president of the university.

To Honor Lincoln and McKinley.  
St. Louis, Mo., June 10.—A delegation representing the Lincoln-McKinley association of veteran voters left St. Louis this morning on a pilgrimage to Canton, O., where memorial services are to be held tomorrow at the tomb of President McKinley. Similar services will be held at the same time and under the same auspices at the tomb of Lincoln in Springfield.

**"Ada Hall and Husband."**  
Passengers in the city this afternoon on No. 2, bound for Kansas City were "Ada Hall and husband." All that is known of the husband is that he was a cook at the Alvarado in Albuquerque. Ada Hall was for some time a dining room girl at the Castaneda and went from here to Albuquerque. The marriage took place in Albuquerque last night.—Las Vegas Optic.

**Honored by Toronto University.**  
Toronto, Ont., June 10.—Among those to receive the honorary degree of LL. D. at the convocation of the University of Toronto today were President Harper of the University of Chicago, Professor Minot of Harvard university, and Provost Macdonell of Trinity college.

**Death of Miss Morton.**  
Paris, June 10.—Miss Lena Morton, daughter of Levi P. Morton, of New York, died this morning from the effects of blood poisoning, following an operation for appendicitis. Deceased was 27 years of age, and was the eldest of the two unmarried daughters of former Vice President Morton.

## CRIPPLE CREEK MINES RESUME

Cripple Creek, June 10.—The excitement and disorder throughout this district resulting from the terrible dynamite outrage at Independence last Monday, by which over twenty men were killed and crippled, are gradually subsiding, and an attempt is being made today to restore normal conditions. Work was resumed this morning at the mines employing non-union men, which had been closed since Monday. The Stratton Independence mine, owned by an English company, is the first to reopen. The Portland mine is closed by General Bell, and its 500 employees will be forced, General Bell has said, to abandon the union or leave the district. Employers in all branches of business, without exception, so far as canvassed, have signed an agreement prepared by the Citizens' Alliance not to employ union labor. The streets are quiet today, and no further trouble is anticipated.

General Sherman Bell, military commander, has ordered that 97 members of the Miners' union shall be taken outside of Teller county on a special train this afternoon in accordance with recommendations of the Citizens' Alliance committee, which examined the cases of 100 other union men who were confined in the Victory armory and submitted another report to General Bell today recommending further deportations. General Bell said today that within 48 hours the district will be rid of all agitators and other objectionable men. One deportation after another will be made until none of the men who have terrorized the district so long will be left here. Sheriff Bell has issued an order that all saloons in the district must remain closed until Monday, June 13.

**Coroner's Jury Making Investigation.**  
Victor, Colo., June 10.—A coroner's jury has begun investigation of the explosion at Independence last Monday morning. The crew of the train which pulled in at Independence at the time of the explosion, gave their testimony, but nothing of importance developed.

## WOMAN SCHEMES TO ENTRAP FAIR GIRL

**Beauty is Unlucky Gift to Maiden Who is Sought.**

**SHE IS FROM LAS VEGAS**

Mary Harper, a 17-year-old girl, left Denver to join her mother in Las Vegas last night, says the Denver Republican. With the girl was her elder sister, Mabel, who had come to Denver to take her home, after the latter had experienced an escapade that was highly diverting.

Mrs. J. E. Harper and her two daughters, Mabel, aged 27, and Mary, 17, had gone from their home in Illinois to Las Vegas, N. M., on account of Mabel's health. They were stopping at one of the best hotels of the place, and also stopping there was an attractive woman who said she was the wife of one of the leading dry goods merchants of Denver. The woman seemed to take a fancy to Mary, who is extremely attractive, both of face and figure, and the girl was considerably attracted to Mrs. Gray, as the woman called herself.

Last week Mrs. Gray announced that she was going home to Denver and invited Mary to accompany her and make a visit for a short time, or as long as she chose to stay. Mary was flattered at the attention paid her by the rich Mrs. Gray and begged her mother and sister to allow her to go, if only for a week. Mrs. Gray agreed to pay the expenses. But Mrs. Harper objected on the ground that she did not know Mrs. Gray. But Mary was not old enough to see the danger, and when she was urged by Mrs. Gray to board the train with the woman and headed for the north.

All the way to Pueblo, Mrs. Gray made herself agreeable, and when the train left there for Colorado Springs she suggested that instead of going to her home in Denver that they take a train for the World's fair. The girl protested mildly at first, saying that her mother would not like it, and even when she feared that her actions might be hard to explain. But the woman insisted, and just before the train got into Colorado Springs she informed Mary that she would have to go to St. Louis with her. By this time the girl's suspicions had been aroused and she became defiant and informed Mrs. Gray that she would not go to St. Louis or anywhere else with her, and that when the train arrived at Denver she intended to inform her mother by wire of her whereabouts and ask for

money enough to pay her way back to Las Vegas.

This action on the part of the girl was not well received by the woman, who threatened personal violence if she did not consent to go to St. Louis. But at Colorado Springs the woman left the car and when the train pulled out for Denver it went without her. The girl came here and went direct to the home of a school friend and notified her mother. Last night the sister arrived and the two returned to Las Vegas.

## NEW ERA IN MEDICAL TEACHING

Philadelphia, Pa., June 10.—Scores of the most eminent physicians of this country and Canada, who have been attending the convention of the American Medical association at Atlantic City this week, were present today at the formal dedication of the new medical laboratory of the University of Pennsylvania. Besides the medical men the participants in the dedication exercises included presidents and instructors of many leading medical schools. The students, faculty and guests marched in procession from Houston hall to the new building, where the exercises took place. The speakers included Professor H. P. Bowditch, professor of physiology at Harvard University; Dr. R. H. Chittenden, director of the Sheffield Scientific school at Yale University; Prof. Horatio C. Wood, of the University of Pennsylvania; and Prof. George Dock, professor of medicine at the University of Michigan.

The new medical laboratory provides for the teaching of students and the carrying on of research work in pathology, physiology and pharmacology. In completeness of equipment the laboratory is said to be without a rival in Europe or America. The construction of the building has occupied about four years, and has cost, exclusive of its ground or equipment, in the neighborhood of \$700,000. The first floor of the building is to be devoted to physiology and pharmacology, and the second floor will be devoted exclusively to pathology. There are two demonstration rooms and two large lecture rooms, each of the latter having a seating capacity of 400.

The museum and gross morbid anatomy demonstration rooms are in close proximity to the large class laboratory of pathological histology, with the important aim of closely relating the instruction carried on in each. The laboratory of pathological histology, the front of which consists almost entirely of glass, is located so as to face a spacious court, thus insuring an excellent and uniform light and admirably adapting it for microscopic work carried on by a large class. In drawing up the plans for the building the same care was taken to insure perfect lighting in all of the laboratories and demonstration rooms.

## TURKISH OUTRAGES MUST BE STOPPED

Paris, June 10.—Foreign Minister Del Casse has been informed from Constantinople that the French, British and Russian ambassadors there reached a joint agreement to present energetic representations to the grand vizier to put a stop to Armenian atrocities. It is expected that joint representation on the subject will be submitted today. This action follows an official investigation confirming that a number of bloody combats have occurred, and that villages have been destroyed and that people have been killed in Armenia.

## THE GARITA.

**The New Mexico Historical Society May Take Steps to Preserve the Ancient Ruin.**

An effort is being made by the members of the New Mexico Historical society at Santa Fe to bring matters to a focus concerning what disposition shall be made of the Garita, the old Spanish fort on the hill north of Santa Fe. This is claimed to be the old Spanish fortification in the United States and many of the stirring incidents in Santa Fe's history are woven around it. Two years ago the fortifications were in a fairly good state of preservation. It was then that the Historical society tried to get possession, but the owners, although they keep saying that they are going to turn the property over to the Historical society, have not done so as yet, and in the meantime, the old carved lintel of the doorway, the windows and about half of the adobe have been taken away by vandals. If even a vestige of the old Spanish fortification is to be preserved, those who have control of the property will have to take prompt action in the matter.

**Death of a Kansas Millionaire.**  
Topeka, Kan., June 10.—Word reached this city this morning of the death of C. P. Dewey, of Manhattan, in Wheeling, W. Va. Dewey was rated at two times a millionaire. He had extensive interests in West Virginia and Chicago, owned a 100,000 acre

ranch in Rawlins county, Kansas, and over 11,000 acres in Riley and Geary counties in this state.

## MENACE TO SOCIETY.

**Unmarried Men—A Hint to J. H. Vaughn, of Santa Fe.**  
J. H. Vaughn, of Santa Fe, was the recipient of a letter containing a clipping from a recent issue of the Denver Post, which bore the caption "Unmarried Men are a Menace to Society," and which gave an extract from a sermon preached in Pueblo by Rev. R. W. Gammon. Mr. Vaughn's friends opine that some maid or widow of Santa Fe is giving that gentleman a gentle hint that he should come to be a menace as soon as possible.

**Indiana Commercial Travelers.**  
Indianapolis, Ind., June 10.—Several hundred traveling men were present today at the opening of the annual meeting of the Indiana grand council of the United Commercial Travelers. Besides Indianapolis the cities represented included Ft. Wayne, Evansville, Terre Haute, Goshen and Anderson. At the annual election of officers tomorrow Benjamin F. Custer of Terre Haute will be chosen to succeed William Morris, of Anderson, as grand counselor.

## BIG WOOL SALE

**OVER A HUNDRED THOUSAND POUNDS SOLD BY F. A. HUBBELL.**

This morning, Hon. F. A. Hubbell negotiated the sale of over 100,000 pounds of wool, the spring clip from his flocks of sheep, to A. Vandervort, a Boston buyer. The wool, in sacks of nearly 300 pounds each, will be delivered to Mr. Vandervort at Magdalena, and there loaded on to cars for shipment to Boston. The wool is the best Mr. Hubbell has grown for several years, being very light in quality but full of weight, and he received handsomely for the clip, the consideration being private. Mr. Hubbell's flocks graze on many hillsides and through fertile valleys in western Colorado country, and for the past few years he has improved his flocks wonderfully, thus securing a better average from each sheep.

There are several big buyers now in the city, and negotiations are now in progress to land several big spring clips.

## ACCUSED OF FORGERY

**SCHOOL SUPERINTENDENT SAID TO HAVE BEEN DOING CROOKED WORK.**

A warrant was issued Wednesday night on complaint of W. E. Pichas, charging R. L. McDonald with forging the names of school trustees to orders on the county school superintendent for salary warrants amounting to over \$600, says a dispatch from Phoenix, Arizona.

McDonald is superintendent of the Phoenix grammar schools, and principal of the high school, and was recently elected to the former position for another year.

**Price Directors' Meeting.**—The directors of the St. Louis & San Francisco Railroad company voted to take from the treasury \$1,000,000 of 4 per cent refunding bonds, the proceeds of which will be used to reimburse the company for advances made on account of improvements to the property. The directors ratified the traffic agreement for the joint use of the St. Louis & Iron Mountain line, which gives the St. Louis & San Francisco system entrance into the Mississippi valley and into New Orleans.

## COMMERCIAL CLUB

**ANNUAL MEETING HELD LAST NIGHT AND NEW OFFICERS ELECTED.**

At the annual meeting of the Commercial club held last night the following directors were elected for the ensuing year:

Nat. H. B. Baker, W. S. Strickler, J. C. Balmridge and C. E. Newcomer.

The report of Secretary McCanna on the finances of the club, covering the operations of the past year, was read and approved, showing the organization to be in the usual flourishing condition.

After the above meeting, a meeting of the directors was held and the following elected:

President—B. H. Baker.

First vice president—C. E. Newcomer.

Second vice president—Nat. H. B. Baker.

Treasurer—M. W. Flournoy.

Secretary—F. P. McCanna.

W. J. Caldwell, manager in New Mexico for the Mutual Benefit Life Insurance Co., was elected to regular membership and C. H. Gatchell to associate membership.

## CAPITALISTS HERE

**Pennsylvania Millionaires Will Give El Paso Pure Water From Deming.**

## INTERVIEW ON THE SUBJECT

Messrs. Allen G. Kennedy and J. B. Delamater of the Minneco River Water company, whose articles of incorporation were filed with the secretary of the territory on June 8, and are published elsewhere in today's Citizen, are registered at the Alvarado.

Mr. Kennedy this morning made the following statement to a representative of The Citizen:

"The Minneco River Water company has been incorporated with a capital of \$2,000,000, for the purpose of furnishing to the city of El Paso a pure and abundant supply of water, procured from the Minneco river, near Deming, and from thence piped with a natural gravity fall to the city.

"The officers of the company are George W. Delamater, of Pittsburgh, president; Allen G. Kennedy, of Santa Fe, vice president and general manager, and James B. Delamater, secretary and treasurer.

"We propose to place in El Paso within one year from beginning of construction, five million gallons of Deming water per day, and should that supply prove inadequate in the future, we are in a position at any time to increase the same up to sufficient water for a city of two hundred thousand inhabitants.

"The syndicate underwriting the stock of the company are Pennsylvania capitalists and are represented in the management of the company by Senator Delamater. While this is their first venture into the New Mexican field of investment the undoubted satisfactory returns from the same will doubtless encourage them to make further investments in this vicinity."

**Miss Jane Adams an L. L. D.**  
Madison, Wis., June 9.—In recognition of her valuable work at Hull House and other philanthropic centers Miss Jane Adams was honored with the honorary degree of L. L. D. at the annual commencement today of the University of Wisconsin. President Van Hise presided over the exercises and awarded the degrees. The speakers included Carl Schurz of New York, Principal William Peterson of McGill university and former President Thomas C. Chamberlain of the University of Chicago.

Colonel H. B. Farley, who is working half a dozen good ore producers in the Golden district, and Richard Montoya, also of Golden, are in the territorial metropolis today.

## KILLS SMALL SISTER

**ACCIDENTLY DISCHARGES A WEAPON CARELESSLY, LAID ASIDE BY HIS FATHER, WITH FATAL RESULT.**

The carelessness of parents leaving loaded firearms where young children can get them resulted in a little 10-year-old Mexican boy accidentally shooting his 12-year-old sister in Silver City Tuesday. The little girl died a few hours afterward.

The father had left a six-shooter in a roll of blankets where the children were by themselves and the little boy got hold of it and in trying to take out the shells it was discharged and the bullet struck the little girl in the stomach, passing through her body and killing her in a short time.

The little fellow was so frightened at what he had done that he ran away and hid and it was impossible to find him until hours after the shooting.

A coroner's jury returned a verdict of accidental shooting.

## Death from Consumption.

Miss Nora E. Larabee, aged 28 years, daughter of J. A. Larabee, died yesterday at 424 South Blith street of tuberculosis. Miss Larabee came here about a year ago from Stafford, Kansas. The remains, accompanied by the family, left on No. 2 this morning for their home, where interment will occur. Many friends of the sorrowing family were at the train this morning to see them off.

## Young Friends Entertained.

Last night, Miss Jean Hubbs, assisted by her mother, Mrs. Jay A. Hubbs, Mrs. H. W. Lyon and Mrs. Wm. McMullan, entertained about sixty of her young friends at the pretty Hubbs home on South Third street.

Dancing and a word making game were the features of the evening's entertainment. Very dainty hand painted place cards were used and during the evening cool and delightful refreshments were served.

J. W. Akers, of Santa Fe, is in the territorial metropolis today.

### GOOD ROADS AND BAD

The agricultural department is giving out valuable good roads statistics.

It is estimated that it costs the farmers \$50,000,000 a year to move their products to the railway stations. The distances to be traversed vary greatly in different sections. The minimum average is four miles, in New Jersey, in Utah 25 miles, and in Wyoming 40 miles. In the southern states, the general average is about 10 miles. It is supposed to cost about 25 cents per ton to transport farm products a mile and it is estimated that two-thirds of the present cost might be saved if good roads were universal. That means an annual saving of over \$60,000,000 a year. Besides, the agricultural department estimates that the value of the farms would be increased to the extent of five billion dollars.

### CROWDED CROSSING

The New York World in speaking of the immense crowd that crosses Brooklyn bridge daily, says:

"Careful and continued counting shows that approximately 400,000 persons cross the Brooklyn bridge and pass the Putnam building each day."

"If these people were to stand side by side the line would stretch from New York to Schenectady."

"Standing one on top of the other they would extend 427 miles into space."

"This as the atmosphere goes up for a matter of only 200 miles, they would have to lie on the ground, one's head touching another's feet, and then the string of humanity would reach from New York nearly to Pittsburgh."

### THE COMING "FOURTH"

Most of the larger cities of the country are getting ready to protest themselves against the dangerous and joy celebrations of the Fourth of July that has in recent years contributed to making the day one of disorder, confusion and danger rather than a pleasant, enjoyable holiday. The deaths reported last year as directly resulting from explosives amounted to several hundred, while the maimed and injured reached into the thousands. The question now being agitated is whether the nerve-racking noises from bursting crackers and torpedoes shall be prohibited entirely or limited to certain localities. In several cities the authorities have decided to prohibit the sale or use of the "cannon crackers," dynamite torpedoes and other dangerous and deafening devices allowing the use only of the smaller crackers, roman candles, "whisks," etc., from which there is the least danger and which are not likely to produce serious accidents. In Chicago preparations are being made for a new order of things; the fact that over 18,700,000 crackers, torpedoes, roman candles and other explosives had been used there on the fourth of 1903 indicating that some sort of reform had absolutely become necessary.

### OFFICE HOLDING

In his address to the Yale law students at New Haven recently Senator Champney M. Dewey gave the young men some advice regarding participation in politics based upon an abundant experience and wide observation. Unlike many politicians and office-holders who assume to advise young men, the senator did not tell the law students to keep out of politics or out of the public service. He did declare, however, that the greatest misfortune that can befall a young man who has only character and education and no capital is to accept office. In elaborating this statement he said:

"No money can be made legitimately in public employment, and, therefore, no competence can be laid up." While disclaiming all intention of discouraging a praiseworthy ambition to serve the community in a position of public trust, Senator Dewey's obvious purpose was to dissuade the young men of any notion they might have that there is money in politics, that money can be honestly made out of public office.

An excellent authority on the situation in Wisconsin says that the democrats will not gain anything by the difference in the republican party. The fact that the democrats first have a majority of 45,000 to overcome and secondly this being a presidential year there will be 100,000 more votes cast than last time, most of which will be republican votes, does not leave much margin for democratic gain even with two republican tickets in the field. The republican majority will in no wise affect the national ticket as both factions have selected the same electors.

### THE BIBLE

Associate Justice Brewer, of the United States supreme court, turning his attention to the law a moment, and directing it to the Bible, has done his country and his generation more or less of a service. For we must all know, be we free-thinkers, atheists, or of an orthodox mind, or what not, that religion has been a vital force in the progress of the world, and that, under one form or another it will continue to play its part, and that the finest manifestation of it is the Bible.

### ROBEY'S RETURN

Delegate R. S. Robey returned from Washington last night, where he spent the past winter as the representative of this territory in congress. His work was tireless for the best interests of New Mexico, and he is today receiving the congratulations of hundreds of friends for deeds well performed. Mr. Robey is the best congressional delegate this territory has ever had, and he should be re-elected by the unanimous vote of the whole people. The democrats would honor themselves by endorsing the nomination of Mr. Robey. The territory is under a lasting debt of gratitude to his faithful representative, who has proven a strong champion upon every occasion during the past four years.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHERRY & CO., Toledo, Ohio.

force in the progress of the world, and that, under one form or another it will continue to play its part, and that the finest manifestation of it is the Bible.

It is estimated that it costs the farmers \$50,000,000 a year to move their products to the railway stations. The distances to be traversed vary greatly in different sections. The minimum average is four miles, in New Jersey, in Utah 25 miles, and in Wyoming 40 miles. In the southern states, the general average is about 10 miles. It is supposed to cost about 25 cents per ton to transport farm products a mile and it is estimated that two-thirds of the present cost might be saved if good roads were universal. That means an annual saving of over \$60,000,000 a year. Besides, the agricultural department estimates that the value of the farms would be increased to the extent of five billion dollars.

It is estimated that it costs the farmers \$50,000,000 a year to move their products to the railway stations. The distances to be traversed vary greatly in different sections. ### EDITORIAL NOTES

During a dull season it is necessary that extra efforts should be put forth by a city to encourage public enterprises.

Tammany says that Parker cannot carry New York even if he is nominated, and Tammany might know.

New Mexico never whines about losses, but the drought of the past year has hit everybody hard, and every county has suffered.

Every business man in this city should subscribe liberally to the Territorial Fair fund. The money all comes back expositon week.

As a result of his coquetting with democracy, General Miles is losing his prohibition following and is likely to lose all presidential nominations.

According to a recent estimate the value of property within the corporate limits of Los Angeles increased \$20,000,000 in the last twelve months.

Mexico's total public debt is \$430,000,000 in Mexican silver currency, with a population of 13,000,000 in round numbers; say \$33.07 per capita.

The best wages paid men in Russia is said to be \$8.50 per week, which is about the same as the money on the firing line.

Hearst may not get the democratic nomination, but his followers will see to it that he does not get the empty honor of leading the democrats to defeat.

Kansas is keeping up its erratic reputation as a climatic curio in that border expanse of plains the weather is either too cold or too hot, too wet or too dry.

That Nanaham Hill fight destined down to a three-rate battle. The loss in killed and wounded did not reach five thousand. Grant lost more men than that at Cold Harbor in less than an hour.

The Elks, Red Men and Eagles should unite and help get up a rousing Fourth of July celebration. Col. Borradaile and the national guards will do their part, as will also both bands of the city.

The United States employed 10,555 men in distributing mail last year. The cost, distributed among 1,400 lines, was \$63,590,000. In 273 accidents to mail cars 18 clerks were killed and 78 seriously injured.

The people of New Mexico are well satisfied with Governor Otero and desire that he shall remain as the executive of this great territory. He would make a political mistake if he left the governor's office for any other position.

Successful farming in the lower Rio Grande region of this territory can only be carried on by pumping water from the underflow of the stream. The supply of water in the river for irrigation is becoming more uncertain each year.

It is announced authoritatively by Mr. Hearst's managers that he has not withdrawn from the presidential race. Willie has several millions to spend for the necessary votes at St. Louis, and will try to put it where it will do the most good.

The government of the United States is becoming more and more paternal. The post office department is going to own the newspapers for objectionable advertisements, and if any are found in a paper the sheet will be refused circulation in the mails.

The average age of the Japanese navy is lower than that of any other navy in the world. No one over twenty years old is accepted for enlistment. The average height is five feet four inches—less than the average height of any other navy in the world.

Campana, Sonora, is planning to celebrate the Fourth of July on a gigantic scale having already raised \$5,000 in gold for the purpose. It seems that Americans are more patriotic when away from home. Perhaps it is because they then appreciate the home government as never before.

The New York court of appeals has decided that the state law forbidding the use of the American flag for advertising purposes is unconstitutional, but there ought to be patriotism enough in the land to exempt the national emblem from desecration without the medium of any prohibitive law.

There will be no bull fights in St. Louis during the World's Fair. Yesterday the authorities stopped the brutal sport, and the crowd demanded return of the admission money, which, being refused, a mob burned the amphitheater. It is hoped that this will forever end attempts at establishing the brutal bull fighting sport in the United States.

A New York financial journal states that the Jewish bankers are ready to advance \$100,000,000 to the Japanese war loan if called upon as an evidence of their personal interest in a war against a country that has made persecution of the Jews a specialty. Japan appears to be fighting the battle of most everyone in its struggle to put the Russian under foot.

According to recent investigations it appears probable that hypnotism can stop the action of a person's heart, and thus cause death. A. J. Fournier, a Frenchman, reports that he has increased and diminished the number of pulse beats with safety. It is said to be also proved that circulation is seriously affected, even if it is not quite certain that the heart can be silenced.

From a bulletin just issued it appears that 150,333 of the present federal employees fall under the civil service regulations. This leaves 85,000 postmasters and employees of small postoffices, 15,000 employees of the war department, 10,000 navy yard employees, and a few thousand in other parts of the service who have not been included in the list of appointments by competitive examination.

This is a red letter day in the history of the Methodist church in this city. The corner stone of a large church was laid this morning, and this afternoon the corner stone of a new church was laid in Barajas, and the corner stone of a new library building at the Harvard Methodist school was laid. This church is making solid growth in this city and territory.

## Railroad Topics

High Allison and a party of Pecos men have gone to Bear Canyon for an outing.

W. P. Taltavero, in the land department of the Santa Fe, with headquarters at Topoka, is in the city on his way to Los Angeles.

Patrick Maloney, from Gallup, where he was a house foreman and has again taken up the shovel on the passenger run.

W. H. Preston, who has just resigned his position as conductor on the Santa Fe, left El Paso for El Paso, where he is going to take a run on the Mexican Central.

Shirley W. H. Fisher, who has been at his old home, San Antonio, Texas, for a couple of weeks, has notified Mrs. Fisher, of San Antonio, of the death of his mother a few days since.

Producers' Hook, representing a Bolivian company, owning mining properties in Michoacan, is in Mexico City trying to secure concessions from the proper departments for railroads in the state named. The plan of the company is to build short lines of railroads to connect the mines and then to the nearest railroad stations.

The St. Paso & Northeastern is making an effort to have the product of the mines quarries near Alamogordo placed on the eastern markets, in order to give that line a greater tonnage. This stone is very fine and one that will take on a very fine polish, and with the low rates that will be put on for transportation, it is thought it can readily be disposed of in Mexico.

Freight Wreck—A somewhat disastrous freight wreck occurred some miles north of Onava Thursday morning. As a long construction train carrying nearly a hundred people was coming south a draw bar dropped across the rails. Three cars and an oil tank filled with water, were capsized, two of the cars being reduced to kindling wood. One native family suffered considerably. The eldest boy received a deep laceration on the head, the other boy a smaller laceration. The men had his back hurt, while his wife escaped with only a shaking up. The family was brought to the railway hospital at Las Vegas, where their wounds were attended to. The damaged cars were piled up across the track, so that several hours were required to clear away the debris. No. 3 was delayed an hour by the accident.

Given Better Prison Quarters—Former Denver Men Removed to Warden's Quarters in Mexico Prison.

At the request of Consular Agent Edmund Gehren at Zacatecas, Mexico, Thomas J. Lee, formerly of Denver, who is in prison at that place, has been removed from the damp quarters where he was confined to the warden's apartments, and has been receiving good treatment. Lee was employed as engineer by the Mexican Central Railway company and was charged with causing a wreck. The company has taken no steps to get him out of jail on bonds. Relatives of a number of people who were killed in the wreck have threatened the life of Lee and for that reason he was placed under military guard in the prison. This news of his improved condition came from the United States embassy at the City of Mexico to Governor Peabody of Colorado.

Strike Situation at San Marcial—Up to Thursday the machinists' trouble here was easy to describe, says the San Marcial Bee. First two strike breakers put in an appearance. One of them is still working and is said to be a good mechanic. The other men vanished. This week two others showed up. One went to work, the other got drunk and told of his fall from grace in a man. Then his companion, after one day's rest got sympathetic and also put on white. The work at the shops, however, is carried on with very little interruption, with what is left of the old force of men.

This is Different—Last week the San Marcial Bee printed the statement that a box car tourist was smashed on the head by a brakeman with a rock and severely injured. Superintendent John McNally investigated the charge against the brakeman and the statements of the entire crew were along the line that the hobo had received his injuries while being chased from beneath the car, by his head coming in contact with the iron facing of the framework. There were four white men and a coon in the tourist party, and they had been repeatedly dislodged, to the great annoyance of the brakemen.

Brutal Trainmen—Report of a wolf occurrence which took place at Springer reached the city today, says the Las Vegas Optic. It is to the effect that members of a train crew elected a native with such brutal cruelty that he fell beneath the wheels of the moving train, losing an arm and a leg. The train was stopped and the whole train crew put under arrest. The prisoners gave bond and the train went on. Attorney Charles A. Spence and W. E. Gortner went up to take testimony in the case. There is only a slight chance of recovery for the injured man. Another report says that the man was entirely responsible for his own injury and that he was not touched by the train crew.

Praising Hopewell—General Manager W. S. Hopewell of the New Mexico Fuel and Iron company, returned yesterday from Denver, where he spent the last week in consultation with the railroad and coal company officials on business concerning the Santa Fe Central railway and the New Mexico Fuel and Iron company, says

the New Mexican. Prospects for active work in these directions are very good. Mr. Hopewell will go to Pittsburgh and New York within a few days again to push projects in contemplation by these corporations. He has no grass grow under his feet, and his great activity and energy have already borne good fruit for the territory and its development and will prove of still more substantial benefit in the future.

To Sink Another Well.

The Pintash Gas Plant Has Ruined the Well Now in Use and a New One is Necessary at El Paso.

Foreman Archer, of the Santa Fe water department, has just ordered the well boring outfit to El Paso to put down a new well, says the Herald. The site will be selected by Superintendent J. F. McNally, of San Marcial.

The water in the old well, which is located near the Pintash gas factory, like that in several other wells in that vicinity, has become unfit for general use, owing to the fact that the refuse oil from the gas factory has seeped into the ground and given the water a nasty taste and smell which renders it unfit for use in the water coolers of the coaches.

Some time ago this well was in El Paso and took a well near the east end of the round house, but failed to develop sufficient water to supply the company's needs and the oil bit was again taken north. This time a more favorable location has been picked out by Mr. McNally and it is hoped to be able to get what water is needed.

SKILLED LABOR

A MOVEMENT ON FOOT TO ORGANIZE ASSEMBLY OF ONLY SKILLED TRADES.

Not an employer of this city, or anywhere else, objects to paying good wages for competent labor performed—a man who can read, write and spell, and knows how to earn his wages in a competent manner—but they do object and always will object to paying high wages to incompetent employees, and the movement on foot to organize an assembly of only skilled trades is a movement in the right direction and no doubt will find little, if any, objection from the employers of labor in this city.

It would be more careful in the making of members—let a person serve the allotted time at his chosen trade and become competent before being made a full-fledged member demanding high skilled wages, which he is really an incompetent, more than half of the differences of opinion between employer and employee would be entirely wiped out of existence, and the other half, which would be of little consequence, could easily be remedied by employer and employee meeting and talking "it over." But what grinds, and grinds hard, is to pay high salaries to incompetents and to have these incompetents attempt to make trouble by appealing to their unions and these unions sustaining them without proper investigation.

The employers of this city have suffered greatly the past year by "mush-mouth" organizations, perpetuated and controlled by certain people who desire some little notoriety, and the local Typographical union intend, if possible, to take some substantial action toward righting the wrongs inflicted. The following notice is explanatory, and it is hoped the meeting, where only skilled trades are desired, will be well attended.

Call for Meeting.

Albuquerque, N. M., June 6, 1904. At a regular meeting of Typographical Union No. 364, held June 6, a motion was carried to assist in forming an assembly of this city to be composed of only the skilled trades, and a committee of three was appointed to this effect. In accordance therewith your union is earnestly requested to co-operate by appointing a committee of three to meet a like committee from all the skilled trades in the hall over Zeigler's Cafe on Sunday afternoon, June 13th, at 2:30, for the purpose of making preliminary arrangements. Trusting this important matter will meet with the approval of your union, and that you can see your way clear to assist in forming a genuine Trades Assembly.

COWBOY BILLIE'S DEATH

A PROFANE PUNCHER KILLED BY LIGHTNING, AND NOT BY A CRAZY HORSE.

The old time cowboys had great experiences and the tales they tell are always interesting. Talking with one the other day, he said:

"One season I was on the round-up with an outfit in Lincoln county, N. M. I believe it was the toughest bunch of fellows I ever saw together. In the use of profanity they were all graduates and professors and the irreverence that sometimes fell from their lips was almost blood-curdling. They seemed to have 'it' after disregard for any semblance of moral or religious ethics and in many other ways they were about the toughest proposition I ever came up against. The

owner of the cattle ranch had a brother in the outfit by the characteristic name of Bill, who was, I think, the worst of the bad lot. He never opened his mouth to speak without rolling out a string of oaths.

"Among the horses with the outfit was a vicious beast styled an outlaw. That is, it was both crazy and dangerous and there were few fellows in the bunch who would consent to ride him. One night the boss ordered his brother to catch up the outlaw and ride him on the rounds that night. A heavy storm was coming up and Bill objected in violent language to riding the horse, but the boss persisted. Finally with an outburst of profanity Bill declared that he would not ride the outlaw. He said when he died he wanted to be killed by lightning and not by a crazy horse. A few minutes later Bill saddled another horse and started out for the cattle, repeating that when he died it would be by lightning and not by a crazy horse. The storm came up by this time, and when Bill reached the edge of the herd, but a short distance from the wagon, the heavens seemed to open with a streak of fire and a terrific report shook the earth.

"In the flash we saw Bill and his horse fall, and when we recovered ourselves we went out to the edge of the herd. There under his horse was Bill, and near the two bodies lay eight head of cattle. In his forehead was a small dent, the only mark left by the stroke. We picked Bill's body up and carried it to the wagon. Hardly a word was spoken all night and the next day his remains were taken to the ranch and buried. For at least a week around that camp there was the most quiet and peaceful set of cowboys I ever saw in my life. Not a profane word was used for a long time and the camp resembled a Sunday school class."

NEW COMPANIES

FILE THEIR INCORPORATION PAPERS WITH TERRITORIAL SECRETARY.

The following articles of incorporation were filed in the office of the territorial secretary: The Socorro Hose company, No. 1, incorporated for the period of fifty years for the purpose of extinguishing fires and performing such services as are usually done by ordinary hose and fire companies. The incorporators are: Morris Lowenstein, August Winkler, Robert Collins, Abraham D. Conn, Joseph E. Smith, Anton Mayer, Joseph Greenwald, Edward L. Price, Peter N. Yunkor, Joseph J. Epine, John E. Griffith, Sylvester C. Aloya, Harry M. Dougherty, Michael Conney, Edgar M. Keeler, Amos E. Green, Nepomuceno Gallegos, William G. Hamill, Leo Grosse, Richard H. Hoppman and Julius Campardon. There is no capital stock. The place of business is Socorro.

The Johnson Mesa Telephone company. The incorporators and directors are: John Utter, Patrick H. Simmons, Thomas M. English, Samuel J. Murray, of Bell, Colfax county, and Edgar W. Polgum, Thomas B. Lyon and John Thomas Thatcher of Raton. The company is incorporated for the period of fifty years for the purpose of constructing and operating a telephone system from Raton to Polson in Union county. The capital stock is \$5,000, divided into 200 shares of the par value of \$25 each. The principal place of business is Bell, Colfax county.

OFFICIAL MATTERS

A POSTMASTER IS APPOINTED—TRANSFER OF CLERK—HOME-STEAD ENTRIES.

After a conference with Postmaster general Payne, President Roosevelt postmaster at Deming, Luna county, his appointed Edward Pennington to succeed Postmaster Clark.

Clerk Transferred.

W. C. Strong, clerk at the Indian agency at Dulce, on the Jicarilla Apache reservation, Rio Arriba county, has been transferred to a clerkship with the Indian bureau at Washington, D. C., at a salary of \$900 per annum.

Post Office Established.

A post office has been established at Knowles, Eddy county, to be served from Monument, seventeen miles south.

A post office has been established at Opal, Otero county, to be served from Cloudcroft, twenty-five miles east, and Alamogordo, seventy-five miles southwest.

Application for Survey.

C. Arroyo Stevens and A. A. Burdette of Silver City, have made application for the survey of the Morning Glory, Tall Pine, Newberry and Niagara lake mining claims, all located in the Hurro Mountain mining district, Grant county. J. C. McKeen has been designated as United States deputy mineral surveyor to execute these surveys.

Homestead Entries.

The following homestead entries were filed in the United States land office: No. 7927, Francis Francis of Chilli for the north half, southeast quarter, southwest quarter, southeast quarter, southwest quarter, section 31, township 9 north, range 6 east, 160 acres of land in Bernadillo county, No. 7928, Jose Abran Garcia of Santa Fe, east half, northeast quarter, west half, northwest quarter, section 21, township 10 north, range 9 east, 160 acres of land in Santa Fe county.

Base Ball at Santa Fe.—Manager J. S. Candelario of the Mechanics' base ball nine, Santa Fe, reports that he has arranged for a series of games to be played every Sunday from next Sunday on, with out-of-town teams. On the 12th of this month the Madrid team will play here with the Mechanics. Other games have been arranged to take place here on June 19 and 26, and July 3 and 4. The name of the outside team which is to play the following Sunday, will be made public the Monday preceding.

# DR. PIERCE

## OFFERS

### \$500 REWARD

#### FOR WOMEN

##### WHO CANNOT BE CURED OF FEMALE WEAKNESS.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, BUFFALO, N. Y.

## NEWS OF THE CHURCHES

Italians in America—Archbishop Farley of New York, returns from Rome filled with the fact that Italians in America must be saved to the Roman Catholic church. Not all Italians are Roman Catholics. There is in Italy an old and fairly strong Waldenian church. Its members are among the poor, so it is the poor Italians who come to America, chiefly as laborers, it follows that an undue proportion of those who come are not Roman Catholic and never have been. Besides, it is admitted by the Roman Catholic church prelates themselves that not much has been done by them for the Italian immigrant who was and is a Catholic. Italians are scattered from San Francisco to Boston. All principal cities have their colonies of them. Among these colonies Methodists, Baptists, Congregationalists and Episcopalians have many missions and even self-sustaining churches. Not a few members of these Italian Methodist and other churches were never Roman Catholics while at home.

Presbyterian Bishops—The Rev. Dr. Wilton Merie Smith, one of the best known of Presbyterian pastors and leaders, seriously makes the suggestion that there must be Presbyterian bishops before there can be Presbyterian progress in the large cities. He points out that government by presbytery is government by a committee, and that it is wholly incapable of meeting modern city conditions. One man power is, he declares, the only power that is adequate to cope with conditions obtaining in New York, Chicago and Philadelphia, and that such single power will soon be essential to cities like St. Louis, Louisville and even Minneapolis. The Rev. Dr. Smith says he is quite unconcerned whether bishops are a part of ancient Presbyterian polity. Times have changed, and politics have got to change with them. There may be prejudice against the title, and if there is, it may be necessary to have these officials under other names. But have them we must, to the chief cities especially, or as a denomination we shall lose our standing, and go to the wall, so their leadership.

Vatican's Exhibit at World's Fair—It is said to be probable that Cardinal Satoli will come to America in a private capacity, but he will not come to represent the pope at the St. Louis exposition. The reason is the strong objections urged by the American hierarchy and clergy. This objection is declared, on good authority, to be personal, and not to the pope sending any cardinal. There is, however, another reason for the pope's decision not to send him. It is the fact that no cardinal can represent the pope outside of Rome, unless he is made "legatus latere," in which case he is sent, according to canon law, to Catholic countries only. The exhibits made by the Vatican at St. Louis arrived in April under charge of Father Ehrle, the prefect of the Vatican library, and they comprise authentic portraits of famous popes and cardinals, enlarged photographs of Vatican mural paintings, a collection of papal medals, and many personal effects of Pope Leo XIII. The exhibit as a whole is the most extensive the Vatican has ever made at a similar exposition, and especially outside of Italy.

Both Sides Organize—For some years there has been grumbling about the international Sunday school lessons. Finally when hardly anybody looked for it, division came on personal grounds. Friends of higher culture rallied, and the result was a phenomenal growth of an organization that chose the name of the Religious Education association. The leaders in the latter were prompt to affirm their loyalty to the scriptures, and indignant at all who dared to question the same. The association has surpassed in growth anything of the sort ever organized in America, and it has held two very successful meetings of national scope. Accepting fully the statements of its officers that it is orthodox in all things, its opponents say these critics may be mistaken in the act of thing they are, and hence they are declaring, the presence of a crisis, and the absolute necessity to come to the rescue of the scriptures. The new organization, called the American Bible league, is coming into the field as the opponent of all higher critics, and the special champion of the inspirational theory of the entire Bible as it stands.

Baptists Headquarters—Eastern Baptists are taking up with vigor the project of denominational headquarters in New York City. A building on large lease is projected, possessing some of the features of Tremont temple, Boston, but more of those of the splendid headquarters of Baptists in Philadelphia. While Baptists of the north locate headquarters of their foreign mission work in

## NEWS OF THE CHURCHES

Italy, their home in New York, and their publication work in Philadelphia. All save New York long ago erected headquarters. The home mission work is not the only interest represented in New York, there being six others, including the agencies of the Boston and Philadelphia interests. Among members of committees already named are the Rev. Dr. George C. Lorimer, the Rev. Dr. W. V. Butler, the Rev. Dr. W. V. Butler, the Rev. Dr. C. L. Rhoads. Discussion of a plan that should include an auditorium for the Rev. Dr. Lorimer, that shall eclipse Tremont temple, has been had. Concerning finances, it is said that while the raising of money is to be left until outlines of the project are complete, there will be no difficulty about securing ample funds. The aim will be to make a structure that will, both outside and inside, be a landmark of Baptist activity.

Boston Cathedral—Congregationalists are asking themselves what significance lies in the fact that the donor of \$1,000,000 to found a Protestant Episcopal cathedral in Boston is the daughter of a Puritan minister. The sum is not regarded as sufficient but it will be accepted, it is said, and more raised to go with it. A million dollars will not erect a cathedral adequate for Boston in these days. The Cathedral of St. John the Divine, now building on Cathedral Heights, New York City, is to cost \$10,000,000. The Cathedral of the Incarnation, Garden City, built with A. T. Stewart money and in the crypt of which the remains of the great merchant do or do not lie, according as one believes reports, cost \$2,500,000, although that sum includes spacious grounds. The Episcopal church has a cathedral projected in Washington that will cost, with schools and site, \$5,000,000. Albany has a cathedral nearly completed, the erection of which has been a chief life work of Bishop Doane. Chicago, Cleveland and Memphis have cathedrals on paper, and Denver is to erect a great cathedral to take the place of a small one that was burned a year ago. Philadelphia has given some discussion to cathedral building, but has never made a positive move. The exact location of the Boston cathedral has not yet been considered.

WORKING UP THE TERRITORIAL FAIR.

Maynard Gumsul, secretary of the New Mexico Territorial fair, which will be held October 10 to 15 in Albuquerque, arrived here this morning from that city, and says that a strong contingent of his fellow citizens will come in tonight to see the races, in which a number of Albuquerque horses are entered. Besides having all the racing sport to be had, they will also get close to as many horsemen as possible, and induce them to bring down their strings to the fair next fall. Mr. Gumsul says that more money has been raised for the fair this year than ever before, and it promises to be the best in the history of Albuquerque—Trinidad Chronicle News.

Jeann Haver, a member of the Brotherhood of Railway Trainmen, and employed on the Colorado Midland, passed through the city this morning en route home from a trip to Mexico.

Peter Powers, a switchman in the employ of the Santa Fe at Needles was caught between a car and a shed and severely bruised the other afternoon. The injured man was treated at the Needles hospital and sent to the Los Angeles hospital the same evening where he is now rapidly recovering. Mrs. Powers accompanied her husband to the hospital.

Jeff N. Miller, at one time manager of the Pecos Valley & Northwestern railway, and one of the best known early residents of Carlsbad, was, at a meeting of the directors held recently elected vice president and general manager of the St. Louis, Brownsville & Mexico Railway company, with headquarters at Brownsville, Texas. W. I. Church, auditor at Roswell in Mr. Miller's administration, was made auditor by him, effective June 1.

A stillborn wrangle of large caliber made trouble at the Santa Fe stops at Needles the other day. As arrest and a trial resulted in the defendant paying a fine of ten dollars, while the complaining witness still retains a black eye and two or three slight scratches. The evidence gave an idea that one party was about as guilty as the other.

## The Home

Creamed Meats for Luncheon.—A dainty way to serve creamed meats for luncheon is in a potato border. Place a buttered egg cup on a small saucer, built around it a wall of hot mashed potatoes and garnish with points forced through a pastry bag and tube. Remove the cup, fill the center with creamed fish or chicken and garnish with parsley.

How to Serve Custard.—A dainty way to serve custard is to bake in thin, shallow glasses, place them in a deep dish with cold water nearly to the top of the glasses and put in the oven to bake. As the custard bakes the water heats gradually and the glasses will not break if heated by degrees. This is an easy and pleasing way to serve baked custard.

Bread Cakes.—Boak a pint of dried bread crumbs in three cups of sweet milk for several hours or until thoroughly soft. If the cakes are for breakfast, cook over night. When ready to bake add a teaspoonful of baking powder through a sifter and mix with flour and add to the milk and bread crumbs, together with two tablespoonfuls of melted butter and two well-beaten eggs. Mix in rather vigorous way and bake.

Cheese Straws.—To make cheese straws, grate four tablespoonfuls of rich cheese, add the yolks of two eggs or a whole one well beaten, one teaspoonful of melted butter, two tablespoonfuls of this cream, a saltspoonful of salt, cayenne pepper to taste, half a teaspoonful of baking powder and flour to make a medium paste. Roll thin and cut in narrow strips. Bake slowly to a light brown. Straws and triangles may be cut from the paste and baked and bundles of the straws put through them.

Fruit Short Cakes.—Instead of eternally making pie, why not try fruit short cakes for a change? Nearly every one regards a strawberry short-cake as one of the luxuries of the season, but this fruit is not the only pebble on the beach. Stewed pie plant makes a delicious short cake and pie plant and tapioca makes as good a combination as do peaches and tapioca. Canned peaches sliced thinly, dried apricots or nectarines and prunes, stewed slowly after long soaking, pine apple and oranges, all these make delicious short cakes and the work is no greater than the making of the everlasting pie.

Duchess Pudding.—For a duchess pudding allow one-third of a cupful of fine, soft bread crumbs for each person. Turn them into small molds which have been well buttered and the bottom sprinkled with chopped citron and nuts. For six puddings beat four eggs, add four tablespoonfuls of sugar, one cupful and three-quarters of a milk, and one teaspoonful of vanilla. Stir occasionally until the sugar is dissolved, then taste over the crumbs. Stand the molds in a pan of hot water and bake in a moderate oven until so in the center. Turn out carefully on saucers and serve with one-half of a cupful of sugar boiled with one cupful and a half of water and thickened with one heaping tablespoonful of corn starch dissolved in a little cold water. Cook until clear and just before taking from the fire add the juice of a lemon and a tablespoonful of butter.

How to Make Sandwiches.—Good sandwiches can be made of almost anything—fowl, meat, vegetables, fish, cheese, fruit of nuts. Girls should early learn that the way to a man's heart lies through his mouth and direct their skill accordingly. The foundation of a sandwich is, of course, bread, but not any kind of bread. Porous bread filters the mayonnaise dressing through the openings and makes an oily, soggy production. The bread should be light, yet compact and what is known as sandwich bread can be made in long, box-shaped tins especially adapted for the purpose. Straws should be cut of wafer-like thinness spread with creamed butter and after the meat or vegetable compound has been introduced through the slices these should be cut in triangles, hearts half moons or any pretty device with cutters sold for such use. Brown bread makes especially nice sandwiches and since the bread is flexible these sandwiches are generally rolled instead of flat.

Jeff N. Miller, at one time manager of the Pecos Valley & Northwestern railway, and one of the best known early residents of Carlsbad, was, at a meeting of the directors held recently elected vice president and general manager of the St. Louis, Brownsville & Mexico Railway company, with headquarters at Brownsville, Texas. Lee was employed as engineer by the Mexican Central Railway company and was charged with causing a wreck. The company has taken no steps to get him out of jail on bonds. Relatives of a number of people who were killed in the wreck have threatened the life of Lee and for that reason he was placed under military guard in the prison. This news of his improved condition came from the United States embassy at the City of Mexico to Governor Peabody of Colorado.

At the request of Consular Agent Edmund Gehren at Zacatecas, Mexico, Thomas J. Lee, formerly of Denver, who is in prison at that place, has been removed from the damp quarters where he was confined to the warden's apartments, and has been receiving good treatment. ## Territorial Topics

**Knee Injured.**—Joe Lowery, while at work at his place near El Estero, suffered a severe injury to one of his legs by a cable. The knee-cap was displaced, but it is believed it will not permanently injure his knee.

**Died of Pneumonia.**—Clarence Harvey, who has been in the employ of the Oro Dredging company at El Estero, died at that place of pneumonia. The deceased was a son of H. A. Harvey of Las Vegas, and was a most excellent young man. He leaves a young wife and an infant child.

**Leaky for Clerk.**—It is understood that Dave Leaky of Hatan, will be appointed clerk of the district to be presided over by K. A. Mann, the newly appointed associate justice of the supreme court of New Mexico. Judge Mann has been assigned to the sixth district, with headquarters at Alamogordo.

**Bad Horse.**—Manus Gallagher and family and Mrs. O. P. Matkin, of El Estero, were out driving Tuesday, when the horses became unmanageable and upset the vehicle. Mrs. Matkin sustained a cut and bruises about the head. Mrs. Gallagher sustained a badly bruised leg and one of the children sustained cuts and bruises about the face.

**Married at Douglas.**—Hatan folks will learn with interest of the marriage at Douglas, Arizona, last Sunday, of Miss Helen Gray to Mr. Edmund H. Thornton of that place. The bride, a sister of Mrs. Samuel Ruffner, formerly resided at Hatan with her parents and is too well known and liked by the people to need the encomiums that are her due.

**Collecting Exhibits.**—Mrs. J. Van Houten, member of the Territorial World's Fair committee for Colfax county, has been active in securing exhibits from the county for the ladies' department, among other things being a magnificent collection of Colfax county views. This interesting exhibit is conceded to be the finest of the kind shown by any county in the territory.

**Transferred to Las Vegas.**—Rev. Father Vincent Thomas, who has been assistant priest at the Cathedral in Santa Fe for the last three years, left for Las Vegas, where he has been appointed assistant priest to Rev. Father Paul Gilbertson, at the Catholic church at West Las Vegas. The appointment was made by Most Rev. Archbishop Bourgade.

**Fraternal Union Officers.**—The semi-annual election of officers of the Santa Fe lodge No. 255, Fraternal Union of America, was held at Santa Fe Monday night. The following officers were elected: President, J. S. Candelario; Justice, Rev. G. B. Rendon; protector, Maurice Duran; truth, Mrs. O. B. Kalright; mercy, Mrs. Margarita Montoya; guide, R. E. Warrick; guard, Frank O. Hall; secretary, Eusebio Escobedo; stewards, Eusebio Alarid, P. E. Martin and David Gonzalez.

**Peiphey's Mill Enlarged.**—Monday of this week the new twenty horse power boiler and twelve horse power engine were started up at Peiphey's mill, says the Alamogordo News. The old eight horse power engine and the new one were coupled so as to make a twenty horse power engine, and now every piece of machinery in the mill can be run at one time. An automatic saw filer is being placed, and soon work will begin to enlarge the mill house and more machinery will be added. All pulleys, belts and shafting are run under the floor, thus doing away with oil waste and a great deal of noise.

**Mr. Ashcroft, who was employed by the Navajo to superintend the building of the ditch, which will water some farming land belonging to the Indians, was blasting a ditch bed around the edge of a cliff just opposite and across the river from McCarty's ranch. The supposition is that he believed himself far enough away to be out of danger, but when the explosion occurred more rock was torn away than was anticipated and he was swept down the side of the cliff and the falling of rock and other debris, death being instantaneous.**

**Mr. Ashcroft was a very prominent man in that section, being bishop of the Mormon church in that vicinity and also manager of the Co-operative store at Fruitland.**

**Hurt on Corpus Christi Day.**—Antonio Ortiz, the eight-year-old daughter of Mr. and Mrs. Gavino Ortiz, sustained a severe injury to her right limb on Corpus Christi day, at Santa Fe, while marching in the procession. She was one of the little girls who scattered roses in front of the altar and while crossing a defective bridge between the Delgado altar and Palace avenue she stepped into a hole in the boards. Her limb was cut clear to the bone but she assured those who rushed to her assistance that she was uninjured and continued to march with the procession. Upon reaching the Cathedral the child fell in a faint. When she revived she was taken at once to her home on San Francisco street. A physician was called and dressed the wound. The girl is reported doing nicely although she is unable to walk.

**Sad Accidents at El Estero.**—While Manus Gallagher and family and Mrs. O. P. Matkin, of El Estero, were going on a picnic trip a few days ago, the horses attached to their wagon became frightened and ran away,

says the Karon Range. The entire party were thrown violently to the ground and all were more or less seriously injured. One of Mrs. Gallagher's legs was badly bruised and almost broken, one of the children received a very painful cut on the face and Mrs. Matkin was seriously injured about the head and body.

**Joe Lowery, the El Estero by-drawiller placer miner, got caught in a ground saw while engaged at work a few days ago, and sustained serious injuries to one of his legs.**

**Las Vegas High School Teachers Elected.**—At a meeting of the city board of education of Las Vegas, Prof. R. H. Larkin, of Gallup, was elected principal of the Las Vegas high school. While no agreement regarding the matter was made with him, Mr. Larkin was informed that the position of superintendent would be vacant next year and the fact understanding seems to be that if Mr. Larkin gives satisfaction as principal he will be promoted to the superintendency. Miss Lena Butts was re-elected as a teacher in the high school at an advanced salary. The board seems to have been uncommonly fortunate in its selection of high school teachers. Mr. Larkin is a college graduate who has had several years' successful experience in actual school work in the schools of New Mexico and South Dakota. He was for three years a member of the Agricultural and Mining college faculty at Mesilla Park, and he is recommended by every member of the faculty. For several years he has been superintendent of the schools at Gallup. He is a vocalist of considerable ability and a courteous and cultured gentleman. Miss Butts last year proved her right to be called one of the most successful teachers Las Vegas ever had. The board last night made the tax levy of 74 mills for general purposes, and 14 mills for interest. A number of matters of interest were talked over and the bills for the month were paid.

**Corner Stone Laying at Clayton.**—On the 25th of June, St. John's day the corner stone of the First Baptist church of Clayton will be laid, says the Enterprise. The Masonic order will lay the stone, photographs of the members of the church with short biographies will be laid in the basket, placed within the stone, as also a history of the church, copy of a Bible, copies of the Clayton newspaper, biographies of prominent citizens of the county and other interesting data.

The different church and secret orders will be invited to contribute histories of their organizations.

During the week special religious services, led by the local ministers and possibly some of the ministers from the adjoining towns, will be held. Those invited to join us at this time and to participate in the services are Rev. B. P. Lawler, pastor of the First Baptist church of Trinidad; Rev. George W. Brewer, Baptist missionary for the district of New Mexico and Arizona; Rev. Locke, pastor of the First Baptist church of Kenton and Rev. B. F. Hatcher, former pastor of the First Baptist church of Dahlart, Texas.

**Sentenced to Penitentiary.**—Monday afternoon and Tuesday morning the time of the district court at Las Vegas was given to hearing arguments of counsel for Edward M. Hale, as to why sentence should not be passed. Defendant had filed, through his attorney, motion for arrest of judgment. This motion was overruled and thereupon the defendant was brought before the bar and asked if he had anything to say as to why sentence should not be pronounced. He replied that he had nothing to say. The judge sentenced Hale to two years and six months in the territorial penitentiary at Santa Fe. His attorneys entered an appeal to the supreme court which was granted and bond was fixed at \$2,500. The granting of the appeal acts as a suspension of sentence until such time as the supreme court can act thereon.

**New Pythian Officers.**—Santa Fe lodge No. 2, Knights of Pythias, held its regular semi-annual election at Santa Fe Tuesday night. The following officers were elected: Chancellor, Commander, E. C. Talaya; vice chancellor, Frederick Steiner; prolate, J. S. Candelario; master of work, J. L. Zimmerman; master at arms, Louis Ulbricht; master of finance, R. H. Bowler; master of exchequer, Evaristo Lucero; inner guard, J. M. Valencia; trustees for 18 months, Evaristo Lucero.

**Death in Torrance.**—Mrs. Robert Wolverton of Torrance, wife of Eugene Watcher Robert Wolverton, of that place, died at her home in that town Tuesday. The maids were taken to Estancia, on the 2:30 o'clock train and the funeral services were held there at the home of her brother. In Torrance was in the Estancia cemetery. Mrs. Wolverton's parents reside at Capitan, Lincoln county. The deceased was about 21 years of age. Her husband is prostrated with grief over her sudden death.

**A Sad Accident.**—We received a telephone message from Fruitland that J. B. Ashcroft of that place was accidentally killed while blasting some rock which were obstructing the progress of a ditch now under construction near Fruitland, says the Aztec Index. Reports are very meager, owing to the fact that there was no one present at the time of the accident, excepting some Navajo Indians. The cause of the accident as near as could be gleaned from the Indians, is as follows:

**Married at St. Louis.**—Cards have

been received in Santa Fe announcing the marriage of Miss Bertha Guillemette to John Berry Miller, which took place at St. Louis Tuesday. The bride is a daughter of Mrs. Kate Frances Hall, a resident of Santa Fe. She spent the past winter there with her mother. Both left last Saturday for St. Louis.

**Gone to Alamogordo.**—Frank Grycia, special agent of the general land office, left Alamogordo over the Santa Fe Central. In a hearing before a United States commissioner he will testify as to the nature of certain lands selected in Otero county by the United States land commission of this territory as saline lands. The government maintaining that they are not saline lands.

### ROSOWELL.

**From the Register.**

J. P. Hinde, mayor of Roswell, left for Kansas City, where he will buy some fine bulls.

Herbert J. Hagerman left for Kansas City on business. From there he will go to Chicago to attend the national republican convention. Mr. Hagerman is an attorney to the convention from New Mexico.

The well being drilled for John H. Hodges at Artesia is now down 375 feet and is being rapidly pushed. It is being drilled by the Cordova Wall Drilling Co., at \$2.00 per foot. It is expected that it will be necessary to go down about 1,000 feet before striking the big flow.

On Monday the Mesquero Mining and Milling Co. closed a deal with A. A. Hilde and John Hilde of Roswell for a group of nineteen mining claims in Lincoln county. Their claims are well developed, and are some of the best in New Mexico. They are rich in gold, silver and lead.

The work on the new mess hall at the military institute is progressing in good shape. The contract is held by Shearman and Tomlinson and they are pushing the work. The building will be a two-story brick, the contract price being \$10,000. Besides a main dining hall, the building will have kitchen, a bake shop, pantries, store room, etc.

### ALAMOGORDO.

**From the News.**

Mr. and Mrs. W. H. Slaughter went to Clinton, where they will spend the summer.

Miss Ruby Harry and mother have returned from Oklahoma. Mr. Harry will come back soon. There is no place like Alamogordo.

Mrs. H. H. Rapier and daughter, Miss Ella, have gone to Clarendon, where Mrs. Rapier will spend several weeks, and Miss Ella will teach a subscription school during the summer months.

T. J. McComas is in St. Louis for ten days. On his return he will come via Kansas, and accompanying Mrs. McComas home. Mrs. McComas has been in Kansas several weeks visiting home folks.

Mr. and Mrs. E. M. Harrier returned from their visit through Old Mexico. They visited all the principal points and places of interest in the republic, spending some time in the tropical regions among the coffee plantations.

**From the Advertiser.**

H. M. Jackson received the sad intelligence from Rockwell, Texas, that his father had died there at the age of 73 years. He had been an invalid for years.

There was quite a hay famine in town the latter part of last week, which was not broken until several loads of the new crop came in from Tularosa and La Sog Sunday and Monday. To make the matter worse there was shortage on other kinds of feed at the same time.

H. J. Tragnitz, a machinist formerly of this place, but who had been working for the company recently at Tucuman, came in Wednesday morning. After attending to some business matters here he will take a trip through the east with his family pending a termination of the present strike.

Rev. Williams, who was pastor of the Methodist church, South, here last year, stopped in Alamogordo on his way home from conference at Pease City, last Monday evening to visit friends and to return home with Mrs. Williams, who was visiting in town last week. Rev. Williams has been stationed at Lordsburg for the past eight months, but expects to leave there for Oklahoma at the end of his pastoral year. He states that his brother, who was formerly a resident of Alamogordo, is now in Oklahoma and is prospering financially.

**From the Journal.**

Thomas McComas has gone to St. Louis on a business visit and to visit the World's fair. En route he will stop in Kansas and visit his wife, who has been visiting relatives in that state for some time. They expect to return to Alamogordo in about six weeks.

Will Hickman will leave in a few days for a trip into Colorado. From Colorado he is going into Illinois and will visit his uncle in Chicago for several weeks. He will return home via St. Louis and take in the World's fair.

The following mining locations have been recorded in the office of the probate clerk: E. P. Hiley, et al, Grace O'Brien; Gunny mine; Franklin mine, Ridel O'Kiley; Tennessee; Ontario, Sidney K. and El Paso mine; Nicholas Preble, the Jean de Arc; J. S. Morgan and the Dutchman, all in the Jarilla district of this county.

Jack Stover, a former stockman of this county, now ranching in Dona Ana over near Las Cruces, was in Alamogordo Tuesday and Wednesday. Mr. Stover says his cattle have stood the long drought very well up to this month, but now that he is losing some of his old cows. He says if no rain falls before July his losses must necessarily be considerable.

## OFFICIAL MATTERS

### Meetings of Dental Examiners and the Board of Health.

#### CAPITAL CUSTODIANS

The post office at Torreon, Valencia county, has been discontinued. Mail addressed to Torreon will in the future be sent to Tajuque.

**Board of Capital Custodians.**  
The board of capital custodians was in regular monthly session yesterday forenoon at the office of Judge N. B. Laughlin, Santa Fe. Monthly accounts were audited and ordered paid. Routine business was transacted. The board does not yet see its way clear to putting down a new brick pavement in front of the Old Palace, as its revenues are small and as the expense in fitting up the post office has been considerable.

**Territorial Land Board.**  
At the regular monthly session of the territorial land board Monday, no business of importance was transacted. A number of leases were approved and ordered forwarded to the department of the interior for action by the secretary of the interior. Changes in several leases were also made.

**Board of Dental Examiners.**  
The eleventh annual meeting of the territorial board of Dental Examiners met Friday and Saturday, the 24 and 25th of this month at Las Vegas. The executive board of officers, consisting of Drs. L. H. Chamberlain, E. L. Hammond, F. E. Olney and U. N. Lord was called to order Friday morning by Chairman F. E. Olney and the business of the day began. Dr. A. E. Bearup, another member of the executive board, was absent, owing to the fact that he missed the north bound train at El Paso. There were two applications for examination besides eleven permanent graduates from recognized dental colleges who applied for certificates from the dental board. Of these, twelve were granted permanent certificates, allowing them to practice dentistry in this territory. One was given a temporary certificate. The board adjourned Saturday afternoon, subject to the call of the president for next year's meeting. Two applicants for certificates were examined, H. C. Connel of Roswell, and D. E. Wilson of Albuquerque. The rest were given certificates upon presenting the diplomas of reputable dental colleges. The following presented diplomas: C. P. Callaway, J. W. Burnett, Jr., C. H. Tigner, O. M. Hiant, Edward Cureton, J. O. Hamilton, H. W. Hack, William W. Hoagland, Lee McIntosh and F. R. Lord. The latter is a brother of Dr. C. N. Lord of this city. Almost all of the applicants live out of the territory.

**New Mexico Board of Health.**  
The board of health of the Territory of New Mexico, during its session Monday, granted licenses to the following physicians to practice their professions in the Territory: Charles C. Wagner, Albuquerque; W. W. Robinson, Albuquerque; Albert H. Schurmann, Silver City; C. W. Hotchkiss, Alamogordo; Hugh J. Goodwin, Albuquerque; H. Walker Hutchins, Dawson; W. R. Lindley, Roswell; L. B. Willock, Arroyo; A. E. Rosette, Albuquerque; R. B. Seawell of Cliff; A. E. Lauson, Anthony; J. W. Frank, Fort Stanton; W. J. Rhynes, Albuquerque; J. G. Russell, Tucuman; William MacLach, Silver City; August Herman Ringen, Polson; T. B. Evans, Roy; R. E. McElride, Las Cruces; D. H. Galloway, Roswell; M. B. Hook, Mora; Franklin E. Sylvester, Las Vegas; R. W. Hallett, Albuquerque. The following doctors were examined by the board: Reuben L. Hunt, of Roswell; T. P. Bugler, of Roswell; Eugene M. Fisher, of Roswell; Clarence R. Bass, El Estero; M. D. Gibbs, Van Houten; P. L. Hallgren, Albuquerque; Edgar Allen Jones, Hatan.

#### A NARROW ESCAPE.

Modie Rainbolt Walks Out of Third Story Window.

Modie Rainbolt had a narrow escape from being seriously injured or perhaps being killed on Wednesday night, says the Roswell Register. He sleeps in the third story of the court house, his room having a window opening out above the jail enclosure. During the night, while asleep he got out of bed and walked through the open window. Rainbolt fell in the neighborhood of twenty feet, falling on the fence. Luckily for him that he rolled over on the outside, or he might have been torn up by the dogs kept in the enclosure. Beyond being badly bruised by his fall the young man was not injured but got to his feet and walked up Main street still asleep. He was stopped in front of the Shelby by a young man. By this time J. H. Hogan, who was sleeping in the room with Rainbolt arrived on the scene and Rainbolt was then taken to the home of Fred Higgins, his brother-in-law. A physician was called and his injuries were dressed.

One of the remarkable features of the case is the fact that Rainbolt was not awakened by his fall and walked to the Shelby and then had to be awakened.

**AZTEC.**

Ed Buck arrived from Nevada, Mo., Wednesday and will visit with his brother, who lives below Aztec. Ed says he likes the country a great deal better than he does Missouri.

Miss J. L. Stannard, a teacher in the elementary school on the San Juan, was a north bound passenger on the stage en route to her Michigan home, when she will spend her summer's vacation.

J. S. King and family, J. A. James

and family, Floyd Williams and family, and Wiley Darin composed a party which arrived in Aztec last Monday. They are from Plain View, Texas, and made the trip overland, it requiring thirty days to make the drive. They are camping on the banks of the Animas for the present, until they find a location suitable. In conversation with one of the party we were informed that they are well pleased with our country and that they expect to make this their future home.

#### CITY MARSHALSHIP INVOLVED.

**Raton Has Two Men Who Claim That Office—Write of Injunction Applied for by J. W. Bell.**

The difficulties of J. W. Bell and Robert Kruger, both of whom claim to be city marshal of Raton, were brought to a head when Bell applied to the district court for a peremptory writ of mandamus against Kruger to compel him to give up the star badge and all appurtenances of the office. The hearing will be on June 11, before Chief Justice W. J. Mills at Las Vegas. Bell was appointed by the mayor to succeed Kruger and the latter claims that the mayor has no power of appointment without confirmation by the city council.

#### Favors Woman Suffrage.

The following resolution was unanimously passed by the last convention of the I. T. U.:

"Whereas, The International Typographical union was the first union to demand that equal wages shall be paid for the same work to both sexes in all union offices; therefore be it

"Resolved, That recognizing that industrial evolution has driven women in ever increasing numbers into the trades and professions until they constitute a large percentage of wage earners of the country, we believe they should have the same right to vote as men, for the better defense of their industrial position."

#### MARKET LETTER.

**Special Correspondence.**

Kansas City, Mo., June 8.—Not many range bred cattle came in during last week, and such as did, were made up mostly of stockers, feeders and stock calves. Killing kinds of cattle advanced 10 to 25 cents during the week. Western fed steers sold at the best prices of the year, \$2.25 to \$2.50. Colorado heifers brought \$2.30. Feeders sold higher on account of good fat cattle market, but stockers and stock calves were slow and somewhat lower. A string of Wyoming feeders weighing 1,000 pounds sold the first of the week at \$4.15; fair to good 500 pound to 600 pound western stockers bring \$2.75 to \$4.25, with choice ones up to \$4.50. Western stock calves range from \$4.00 to \$4.25. Supply of cattle to feed is very light at all points, and market is a repetition of last Monday's good market, when an advance of 10 to 15 cents was made. The feature of today's offerings was a big string of Colorado bred and strictly lay fed horned steers, weighing 1,257, which sold at \$2.45. Prices on everything except stockers are now at the highest point this year, and killing cattle are selling better than at any time in the last eighteen months. Of course, grass cattle have not begun to move as yet, except from southern Texas, and when they do, market may be expected to drop off 25 to 50 cents, regulated, of course by the amount of the supply.

Most of the sheep now coming are Texas wintons, which kind lost 10 to 15 cents last week. Natives and westerns were strong, and sold a little higher than previously. Woolled Colorado lambs bring \$7.25 for choice ones; spring lambs \$6.50 to \$7.00; clipped lambs up to \$6.00; wethers and yearlings at \$5.50 to \$5.75, and some extra choice ones brought \$5.50 during the week. A few Texas feeding sheep were sold last week at \$2.65. Only 1,000 head arrived today; mostly Texas. Market is strong, and somewhat higher. Outlook for supplies in the immediate future has not changed, and prices cannot suffer much in the next several weeks.

**WANTED FOR MURDER.**

**Henry White Arrested in Alamogordo and Sent to Louisiana, Where He Will Answer to Charge.**

The cook on a boarding car of the El Paso & Northeastern railway at Alamogordo, was recently arrested by Deputy Sheriff E. W. Cideley of Winfield, Louisiana, charged with brutally murdering City Marshal R. B. Wright of Winfield.

The negro, who was known in Alamogordo as Henry White, appeared in that city about two weeks ago and obtained a position as cook at once. Shortly afterward E. Z. Gessler, an employee of the Northeastern railway, received a circular from a friend in Louisiana, describing one Alfred W. Shepherd, alias Shep. Davis, who was wanted for the murder of the assistant city marshal of Winfield, and for the apprehension of whom the city offered a reward of \$500. Gessler at once recognized White as the man described in the circular, and wrote to the authorities in Louisiana, and Sheriff Cideley came on yesterday with a warrant for the prisoner. When he arrived in Alamogordo and went to the car he recognized the negro at once and the negro recognized him. White gave him a lively chase before he was captured.

White escaped into the country, but swift horses were procured and a posse of men set out after him. He was captured about two and a half miles from town. Yesterday afternoon, he was placed on the train, en route for Louisiana. White, alias Shepherd, ran a disorderly house in Winfield. One day Assistant Marshal Wright dropped in to see what was going on and Shepherd, who was playing a piano at the time, reached under it, took out a revolver and shot Wright dead. He fled the country at once. The murder occurred on February 21, of this year.

J. S. King and family, J. A. James

## Railroad Topics

The Santa Fe Central railway now makes close connection with the Rock Island system for El Paso, for St. Louis and Chicago, via Torrance.

J. R. Farwell, chief engineer of the Santa Fe Central, who was doing some surveying in southern New Mexico, passed up the road for Santa Fe yesterday.

More eastern machinists, boiler-makers and blacksmiths with a sprinkling of helpers, pass through the city every evening for the Santa Fe western shops.

John Lane and family are enjoying a brief visit from Mrs. Thomas Lane, of Salt Lake City, Utah, who is en route to Mexico City, Mexico, where her husband has a run as engineer on the Mexican Central road.

George A. Saint, assistant engineer of the Santa Fe Central railway, returned to Santa Fe from a tour during which a preliminary survey of the proposed new line of the Santa Fe Central from Willard to El Paso was made.

W. D. Lee, general manager of the Santa Fe Central railway, left the Capital City, for Estancia to attend to a shipment of cattle from there over the line of that road. The officials of the road state that its stock shipments are growing heavier all the time.

The quarantine slaughter house, at the local railway stock yards, were destroyed by fire yesterday. The building was owned jointly by the Blanchard Meat and Supply company, and by the Parr Meat Market, and the loss will foot up to several hundred dollars. The fire is of unknown origin, but supposed to have been from sparks from passing engines.

#### NIXON STILL CLIMBING.

**Elected Second Vice President of the Gulf, Colorado & Santa Fe.**

At a meeting of the directors of the Gulf, Colorado & Santa Fe railway company, General Manager W. C. Nixon was elected second vice president and a director named to succeed J. L. Polk, resigned, says the Topeka State Journal. The offices of second vice president and general manager were merged.

Col. Polk resigned the office of vice president a fortnight ago to enter into private business ventures said to concern the new southern Texas oil country. The Santa Fe has recently obtained control of the Cane Belt road, leading into the heart of this promising district, and it is supposed that through his connection with the Santa Fe, Mr. Polk has obtained a standing in the "ground floor" of the oil business.

It has also been rumored that Col. Polk has a railroad project of his own in mind, which will involve the construction of about 300 miles of new road in Texas.

#### Col. Polk's Successor.

W. C. Nixon was born February, 1858, in Illinois. He entered railway service in 1878, since which he has been consecutively nine months with the Burlington and Missouri road in Nebraska; watchman, clerk, cashier, agent, chief clerk, superintendent's office, trainmaster, material agent, division superintendent, and to July, 1896, superintendent terminals at Chicago; July, 1896, to January, 1897, general agent freight department, same place; January, 1897, to January, 1900, superintendent Chicago division, same road; January, 1900, to 1902, general superintendent Gulf, Colorado and Santa Fe railway; January, 1902, to date, general manager of same road.

#### GUARD TO BE REMOVED.

**Alamogordo Business Men Declare That New Shop Men Can Go Out Into the Town With Perfect Safety.**

The Alamogordo board of trade had a meeting Wednesday evening and elected fourteen new members. A committee was elected to draw up resolutions of thanks to the business men and lawyers who worked so successfully in their endeavor to have Alamogordo made the headquarters of one of the judicial districts.

E. J. Dedman, in behalf of the railroad company, asked if it would be safe to remove the guards from the shops and turn the shop hands out in the city to seek board and quarters. He said that the company felt that the time had come when this could be done with safety. The company will accept orders for board, merchandise, and groceries he said, to protect the boarding house keepers and merchants of the city. He said the company had in its employment 90 men at four dollars a day and that if they were allowed to come out in the city this would mean the addition of \$360 a day to the channels of trade.

A motion was made and carried that it was the sentiment of the business men assembled, that it is unnecessary to keep the men under guard, as there has never been any indication of violence, and as it was the sense of those assembled that the citizens of Alamogordo are law abiding people, the board of trade pledged its support to see that the new shop hands, so long as they remain law abiding, shall be treated as law abiding persons.

On further motion a committee was named to visit the boarding houses at El Estero the sentiment towards the new shop hands, to learn if they can get board outside the boarding cars.

#### REMOVE THE GUARDS.

**No Need of Guarding Shop Workers in This City.**

There appears now to be no cause for longer keeping a guard at the Santa Fe shops in this city. There is

no possible chance of trouble coming to the shop workers if they are allowed to find lodgings in the city outside of the stockade. The strikers are law-abiding and will make no attempt to disobey Judge Baker's injunction. In fact, a majority of the strikers have left the city, and those now here are conducting themselves orderly. It would be beneficial to all concerned if the guard system was removed from the shops and the men were allowed to come and go as in the past. This city will guarantee that the civil authorities can take care of any law breakers within the municipal limits. Among the imported strike breakers there were, of course, a number of vicious men, incompetent and known "chose fighters." These men are being discharged daily by the company, and in a very short time only the best and most desirable of the imported men will be kept—men who want to work and do not desire trouble, hence the guards could be removed now. The Citizens believe, without any fear of trouble coming to the imported men.

#### MERCHANTS TAKE A HAND.

**Want San Bernardino Strikers to Leave Shopmen Alone.**

Without taking any action whatever upon any of the troublesome questions growing out of the strike of Santa Fe employes, the Merchants' association met and adjourned last night, says the San Bernardino Sun.

The meeting had been called to consider whether it were wise or necessary for this representative organization to take any action on the subjects which have been much discussed during the last week, dealing with the unquestioned right of the merchant to sell to anybody who has the money, on the one hand, and the equally unquestioned right of non-union men to be on the streets and go and come as they please without interruption or insult, on the other; both questions largely growing out of the breaches committed last Saturday evening.

The whole purpose and point in view is to make it possible and more than that, to make it desirable, for the men now employed at the shops to get out of the stockade, live in boarding houses in the city, and spend their money as residents of the town.

Even before the meeting was called to order last night, therefore, there was a well developed and settled sentiment in favor of keeping in the middle of the road, and it was voiced soon after the meeting was called to order, in a motion to adjourn for a week, which was approved.

But at that meeting it was also voted that the machinists, boiler-makers and blacksmiths should be represented as well as the company, and the secretary was instructed to officially invite the officers of the organizations and P. T. Perris, representing the company, to be present next Thursday evening. Mr. Perris was present last night, and was invited to remain during the brief session of the association.

Both in the meeting and out of it the one sentiment expressed was a desire to arrive at a plan by which the "bars may be let down," the commissary at the shops abolished and the men employed there made to understand that there is no reason why they shall not come and go freely.

#### COLORADO DYNAMITERS.

**T. B. Catron Thinks They Would Be Lynched if Captured.**

Hon. T. B. Catron, the Santa Fe attorney, was at Las Vegas several hours on his way home from Denver, says the Optic. Mr. Catron passed through the disaffected mining country yesterday. He says the excitement there is intense beyond description. Denver is seething with it and as one approaches the disturbed camps every face expresses a tumult of passion. Mr. Catron heard talk of burning the dynamiters should they be caught. He believes the sober sense of the majority would prevent this, but says that lynching would undoubtedly follow capture. The life of a Western Federation man is hardly safe in the camps.

#### POLICE COURT.

An Sing, one of the proprietors of the Coney Island Restaurant, which was closed by Constable Smith yesterday was up before Judge Crawford this morning for breaking into the restaurant after it was in the hands of the officer.

On account of the apparent ignorance of the Chinaman and his real intention being to do no harm and merely to get what belonged to him personally, the judge decided to let him go with a severe censure.

One lone vag put in an appearance left for Wamego, Kan., was road and quick as he could.

#### Civic Betterment Merger.

St. Louis, Mo., June 8.—As a result of action to be taken at a joint convention begun here today a union will be effected between the American Park and Outdoor Art association and the American League and Improvement society. The society will greatly broaden its field of activities and will give special attention to factory betterment, parks and public reservations, public recreation, school ground improvement, social settlements, civic art, railroad improvement, libraries, arts and crafts and the abatement of public nuisances.

Mrs. Otto Berger and children, the pleasant family of the Copper avenue wholesale flour dealer, were passengers last night for Chicago and St. Louis, where they will spend the summer months visiting relatives, friends and the World's fair.

## OFFICIAL MATTERS

### Territorial Funds—Bids Received for the Zuni Work—Homestead Entries.

#### NEW COMPANY ORGANIZED

Territorial Treasurer J. H. Vaughn received the following funds from Hansen Sanchez, treasurer and ex-officio collector of Taos county, taxes for 1903, \$1,911.62. From Hermoso G. Ibaez, treasurer and ex-officio collector of Socorro county, taxes for 1902, \$15.12; taxes for 1903, \$8,891.77.

From John C. Sparks, treasurer and ex-officio collector of McKinley county, tax for 1903, \$5,720.30.

From H. B. Cartwright, treasurer and ex-officio collector of Santa Fe county, tax for 1903, \$5,940.75.

**Bids Received and Contract Awarded**  
The bids received by the surveyor general in response to his notice No. 7 for the survey of the western boundary of the Zuni Indian reservation were opened yesterday morning at 10 o'clock. The bids submitted were as follows:

H. R. DuVal, Santa Fe, \$20.50 per day for twenty days, total \$410; C. L. Herriek, Socorro, \$21 per day for twenty-five days, total \$525; Alex. Howie, Gallup, \$50 per day for twelve days, total \$600; W. V. Jones, San Marcial, \$25 for twenty days, total \$500; Levi S. Preston, Batoon, \$20 per day for thirty days, total \$600; Duane Wheeler, Antonito, \$25 per day for twenty-three days, total \$575; George Lynch, Hatch, \$27 per day for twenty days, total \$540; W. V. Hall, Santa Fe, \$30 per day for twenty days, total \$600. The contract was awarded to W. V. Jones.

#### Articles of Incorporation.

Articles of incorporation were filed in the office of the secretary of the territory by the Mine and Ranch Supply company. The incorporators are given as Miss Freeman, William Freeman and Jefferson D. Isaacs, all of Las Cruces, Dona Ana county. The company was incorporated for the purpose of buying and selling general merchandise, groceries, farming implements, mining implements, etc. The capital stock is given as \$10,000, divided into 10,000 shares of a par value of \$1 each. The corporation shall exist for fifty years. It has three directors, the incorporators above named and its place of business is Las Cruces, Dona Ana county.

#### Final Homestead Entries.

The following final homestead entries were filed in the United States land office: No. 7390, Haymond de Valdes of Wagon Mound, for the S 1/2, SW 1/4, N 1/2, NW 1/4, of sections 8 and 17, T 19 N, R 23 E, 160 acres of land in Mora county.

No. 7365, Veronice Gringo de Ortiz of Corazon, SW 1/4, section 10, T 14 N, R 22 E, 160 acres of land in San Miguel county.

#### Homestead Entries.

The following homestead entries have been entered in the United States land office: No. 7390, Haymond de Valdes of Wagon Mound, for the S 1/2, SW 1/4, N 1/2, NW 1/4, of sections 8 and 17, T 19 N, R 23 E, 160 acres of land in Mora county.

No. 7393, Leandro Martinez of Ocate, S 1/2, NW 1/4, N 1/2, SW 1/4, section 8, T 23 N, R 18 E, 160 acres of land in Mora county.

No. 7391, Fred Egbert of Sanchez, for SW 1/4, SW 1/4, SW 1/4, SW 1/4, section 12, and NW 1/4, NE 1/4, NE 1/4, NW 1/4, section 13, T 16 N, R 23 E, 160 acres of land in San Miguel county.

No. 7392, Rafael Duran of Wagon Mound, for the SE 1/4, section 5, T 19 N, R 22 E, 160 acres of land in Mora county.

No. 7394, Benito Otero of Cuervo for the SE 1/4, NE 1/4, E 1/2, SW 1/4, section 2, T 10 N, R 8 E, 160 acres of land in Valencia county.

No. 7395, Miguel Aragon of Puerto de Luna, for the E 1/2, SW 1/4, W 1/2, SW 1/4, section 14, T 8 N, R 23 E, 160 acres of land in Leonard Wood county.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure: Doan's Ointment. Absolutely safe; can't fail.

#### Millionaire Litter Dead.

Bar Harbor, Maine, June 9.—Levi R. Lettier, of Chicago, died of heart failure today at the Vanderbilt cottage here, which the Lettiers had taken for the season. He had not been feeling well for some time, but up to yesterday was able to take his usual drive. He was 70 years old. He was the father of Lady Curzon, wife of the governor of India, of Miss Daisy Lettier and Joseph W. Lettier.

#### PENDER-IRWIN

**WILLIAM PENDER AND MISS CAROLINE IRWIN MARRIED.**

Last night the beautiful home of Mrs. L. A. Irwin 123 South High street, was brilliant with twinkling lights and merry hearts in honor of the marriage of her niece, Miss Caroline E. Irwin, to Mr. Wm. Pender, of Magdalena, N. M. The home was profusely decorated with palms, ferns and roses, the color scheme being pink and white.

Precisely at 8:30 o'clock Mendelssohn's wedding march commenced, with Miss Adeline Niles at the piano, and into the parlor came the bride and groom with Miss Clara Irwin and Mr. Oscar Redman attendants. Rev. Thos. G. Cooke, of the First Methodist Episcopal church performed a very beautiful wedding ceremony, and after the guests had bestowed their heartiest congratulations, an hour was spent in having a pleasant social time.

after which light refreshments were served.

The bride wore a beautiful gown of white chiffon muffs, and the bridesmaids were attired in pink silk muslin.

The bride, who was principal of the Magdalena schools for the term just closed, has made Albuquerque her home for more than a year, and by her charming manner and lovable nature, has endeared herself to a large circle of friends.

Mr. Pender is buyer for the Becker Blackwell company of Magdalena and is junior member of that popular firm. His strict integrity and gentlemanly bearing have won for him the respect of all who know him.

The happy young couple left on the midnight train for Magdalena, where they will make their future home.

Dyspepsia—bane of human existence. Burdock Blood Bitters cure it promptly, permanently. Regulate and tone the stomach.

#### IMMENSE RESOURCES OF CANADA

**THEY MAKE A CONSPICUOUS EXHIBIT AT THE WORLD'S FAIR.**

St. Louis, June 9.—It is now conceded that the part Canada takes at the universal exposition surpasses everything which has been heretofore undertaken by the Dominion. There is not the slightest doubt that she will be to the front in the matter of natural resources: agriculture, horticulture, mines, forestry, fisheries and pulp industries, when the matter of awards and prizes is discussed by the jury at awards.

Canada for years has been plodding along quietly developing its strength and seemed rather small in the eyes of her neighbors to the south. Within the past three or four years, however, there is a change of aspect in the eyes of the public men and a change of tone in the American press. Canada's resources and possibilities are now being realized even to the extent of being a factor in competition with those of the United States. For years the United States have prided themselves on their great sources of wheat and meat supplies, and of the advantages of their settlers' lands. The growth of Canada's northwest and the immense wheat crops of that country in the last five or six years, with the millions of acres carrying rich and fertile soil, still unbroken, have shown the possibility of a grain producing country that would soon outrival the great producing area of the United States.

And while Americans have been almost dazed at this development, the great grain fields of millions of acres in the northwest territories have been opened and the influx of settlers, not only from the United States, but also from Great Britain and the continent, has come in earnestly only to raise to a greater estimation the Dominion resources and possibilities.

There is more; the great advantage of cattle raising in the western part of the territories has led a great number of Americans to cast their lot and future welfare in these parts for the purpose of producing meat, which is now admitted, can be done as well as in any country in the world, if not cheaper.

The Canadian exhibits in agriculture, forestry, fish and game, horticulture and mines and metallurgy are among the most conspicuous at St. Louis and can give a fair idea of what possibilities are in store for the neighbors to the north.

#### TWO NORTHERN TOWNS

**SANTA FE AND LAS VEGAS DISHED IN SMALL QUANTITIES.**

#### SANTA FE.

From the New Mexican.  
Mrs. John R. McPe and daughter left for St. Louis, where they will join Ralph McPe, who has charge of the Viceroy village at the fair. They expect to remain away several weeks. Historic Santa Fe and its people was the subject of a well written article in the Four Track News of this month. The article was illustrated with numerous views of spots of interest about Santa Fe.

The following warranty deed was today filed for record in the office of Probate Clerk Celso Lopez: Anastacio Ortega and Consecution Rivero, his wife, to William Metz, one parcel of land in precinct No. 3, of this city. Consideration, \$25.

Judge J. H. Reader, formerly clerk of the court of private land claims, and now judge of the Twenty-third judicial district of Kansas, will arrive in the city Monday evening to attend the last session of the court of private land claims.

Mrs. Marcelino Garcia and daughter, are in Pennsylvania, visiting at Mrs. Garcia's old home. Mr. Garcia expects to join them and spend several weeks with them in the east. During that time the family will visit the St. Louis exposition.

There was a rumor going the rounds yesterday that ten men from Santa Fe had been killed at Watrous in the stone quarries in which they are employed. Miguel Otero, local agent for the Lantry Brothers, telegraphed to Watrous and found that there were no grounds for the rumor and that no disaster whatever is reported to have occurred.

#### LAS VEGAS.

From the Optic.

Born, to the wife of Thomas McRory, a boy of ten pounds weight. Contractor W. W. Wallace has received a contract of vitrified brick from Santa Fe, to be used for sidewalk purposes.

Colonel F. A. Blake, who is down from his ranch on the Sapello, says

there is tungsten in paying quantities in the mountains around Las Vegas.

Miss Lillie Gerhardt, whose illness has delayed the departure of herself and sister for their home, is able to sit up. She was threatened with typhoid fever.

J. B. Sanchez, who arrived in the city from Tremontina brings the glad tidings of a heavy rain these Sunday, and the consequent elation of farmers and stockmen in that section.

W. S. Lackey, formerly a wealthy cattle owner of this section now retired, is here from San Rafael, Calif., to spend the summer. Mr. Lackey divides his time quite impartially between California and Las Vegas.

An epidemic of scarlet fever broke out at Chappelle. Dr. Mills was called to attend to the daughter of the station agent and went down again yesterday afternoon. There have been several deaths and many children are down.

Mr. and Mrs. Zabr, Las Vegas old timers who have been the guests of Mr. and Mrs. W. L. Crockett for some days, left for Los Angeles, California, which they call home, notwithstanding the past three years and a half spent in Germany.

H. C. Hurd, engineer-in-charge, on the United States irrigation survey at this place is off on a fifteen days' leave of absence which he will spend in St. Louis. Mr. Hurd does not expect to return to Las Vegas as his work here is practically finished.

Three spectres that threaten baby's life, Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

#### Indian School Notes.

The good work of improving the premises is progressing. The latest addition is a new blacksmith shop.

Our industrial teacher, M. Calkins, has demonstrated that he is a workman worthy of the name in building said shop and it is the most substantial and best finished adobe building in the country. When completed inside it will have eight forges besides room for material, etc.

The machinery and material for an ice plant is on the grounds and the plan will be completed and put in running order in the near future. A Chicago firm has the contract for the same.

A number of Navajo Indians from near Cabezon are visiting their children at the school. They report that the water is very scarce in their section and that a great many of their sheep are dying for want of feed and water.

School closes next week and a number of our large boys will find work during the vacation months. They do not go to the Colorado beet fields this season.

Miss Josephine Ford, pottery maker from Laguna, called at the school yesterday. She is on her way east to spend her vacation.

She is planning to find a market for the Indian pottery in the east and proposes to teach the Indians to make a better grade of pottery and be able to glaze it and make it of greater utility as well as more artistic.

#### RAIN AT TRES PIEDRAS.

It Set in About Dark Tuesday and Lasted Until Midnight—Several Inches of Snow at Hopewell.

There is general rejoicing in northern New Mexico over the breaking of the drought Tuesday evening by a rain that set in about dark and lasted until after midnight. There has been less than one-half inch of moisture in eleven months, and even grass roots in many cases were dead. The rain Tuesday night will be worth thousands of dollars to live stock interests on the range and to the agricultural sections of the Taos valley. At Hopewell several inches of snow fell.

#### A NOVEL AND INTERESTING POINT

**NO RECOVERY FOR DAMAGES RESULTING FROM A BADGER FIGHT AS CONTRIBUTORY NEGLIGENCE WAS SHOWN.**

Recently, at Roswell, before Judge W. H. Pope, was heard a case, while it involved only a claim of \$15 for damages, was of more than ordinary interest and furnished several laughable incidents. John B. Gill was the plaintiff and A. Richardson, Charles Brown and W. R. Plant, the defendants. The plaintiff's horse became frightened by the commotion caused by a badger fight, which was in progress on the main street of Roswell, and ran away, some damage being caused to the carriage. Gill thereupon brought suit for \$15 damages against the city marshal for having permitted the fight, Charles Brown, the owner of the badges and who had released him from the cage, and against A. Richardson, who owned the dog that participated in the fight. Judge Pope ordered a special venire and upon this were placed the most prominent residents of the Artesian City. Ex-Congressman Jerry Simpson was the foreman of the jury, and was an active examiner of the witnesses with questions such as: "What is a regulation badger?" etc. After long deliberation, the jury brought in a verdict against the plaintiff on the ground of contributory negligence for not having had his horse tied.

Roswell Postmaster.

The republican central committee of Chaves county has unanimously endorsed Robert Kellahan of Roswell for appointment as postmaster there to succeed J. B. Matthews, recently deceased. Kellahan is a prominent and respected citizen of the town, competent in every respect, of excellent reputation, and a hard working, energetic and straight republican.

Mrs. M. Holt, from Las Cruces was in the city this morning.

## FASHION LETTER

New York, June 8.—With the long-delayed arrival of summer the thoughts of rich and poor, workers or idlers, turn to the pleasant subject of summer vacation. Men, who have been hard at work behind the counter, the desk, or in the shop, begin to look over their fly books and other fishing paraphernalia, while women are beginning to wrestle with the everlasting problem of what to wear. A man may be satisfied with a hook, a line and any primitive pole, and start on his vacation with nothing but this primitive fishing outfit, an old suit of clothes and perhaps an extra flannel shirt, confident of having a good time. But a woman would rather give up her vacation did she not have an appropriate outfit and plenty of nice things to wear. In the case of wealthy women the solution of the vacation outfit problem is simple enough. They simply get what they want or think they will want and that ends it. With women who are less endowed with worldly riches the problem is not so simple.

Fortunately this year fashion has come to the rescue of the working or business woman, and with a little taste and ingenuity they can fit themselves out neatly and becomingly without cutting too deep into their bank accounts. Shirt waist suits of linen, canvas or mercerized cotton are their saving. They cost comparatively little, look always neat and trim, and wear incredibly long without losing their freshness. There are two ways of accomplishing the same end. One is by making up a shirt waist suit, skirt and shirt waist of the same material, or by making skirt and jacket of the same material and wear separate waists of different material with them. These linen suits are a great blessing to women who wish to look neat and cannot afford to spend much money for clothes. There are, of course, many other summer materials, which can be used for more elaborate summer costumes, but they are invariably rather expensive and not durable enough to withstand the wear and tear of vacation trips. The thinner grades of linen and cotton are more suitable for the purpose and give better effects if made up into shirt waist suits.

Two of those suits, with two or three extra shirt waists, are about all that a working woman requires for her vacation outfit. It would scarcely be sufficient for a summer season at Newport or some other fashionable resort, but for real outings they are just the thing. The basis for the suits lends itself to any amount of elaboration, according to the taste and the means of the owner. If hand embroidery is used to a considerable extent in trimming and ornamenting the suits, their cost may be brought up to quite a high figure. But the wise woman will not be too extravagant in trimming her skirts and waists for vacation wear. Lace looks very pretty on such suits, but they are not practical, as they are rather delicate and cannot stand hard service. The best plan is to make the suits as simple as possible, without making them too shabby plain. Use no delicate laces or other trimmings, but something more substantial, that does not catch at every blade of grass and does not tear too easily. As to the choice of color, it may be suggested that dark colors should be avoided, as being too hot, while white and too light colors are not practicable, because they soil too quickly. The various grays and browns, which are shown in a wonderful variety this year, are the colors best adapted to vacation suits.

Summer rains are very refreshing, and women who greatly suffer from excessive summer heat invariably welcome summer showers, unless they happen to be out at the time without an umbrella or rain coat and no shelter to go out in case they are compelled to go out in spite of the rain. Umbrellas are a mighty poor protection in a good summer shower, and rain coats that may be perfectly waterproof and serviceable in cold weather are simply impossible in summer time. The introduction of some new waterproof materials on the cravenette order has filled a long felt want and practically solves the rain coat problem. The new waterproof taffetas are almost as delicate as ordinary dress silks and as light as gauze. The material can be made into regular rain coats or fashioned into outer garments of almost any description. They are light and yet give full protection in case of rain. The rain coats proper are made full length and cover the wearer from neck to hem, but some of the coats, designed for driving or automobile use, are only three-quarter length.

The array of new summer silks offered this year includes Bengali and Tokio cloths and Mousseline. Dotted and flowered foulards are also quite popular, particularly the former. Many of the foulards have small and stiff conventional designs. They come in various colors, principally in blues, browns, heliotropes and greens, spotted with white. On the other hand the designs on the modern organzas, mousselines, grenadines and other thin fabrics, show mostly large and blurred flower designs. The color combinations are unusually pleasing this year.

Wide girdles are the proper thing just now, and although they are not becoming to every woman, they are extremely popular among slender women. These girdles are not only very becoming to slender and average sized women, but they are also more comfortable than any girdle that has been in vogue for many years. Colored belts are much worn and are offered in a great variety of shades in the shops. Pale green and burnt orange look well on black frocks, while white frocks permit almost any color of girdle.

BERTELLE CLAIREMONT.

#### ARTICLES OF INCORPORATION.

**TERRITORY OF NEW MEXICO, OFFICE OF THE SECRETARY.**

I, J. W. Raynolds, secretary of the Territory of New Mexico, do hereby certify that there was filed for record in this office at two o'clock p. m. on the seventh day of June, A. D. 1904, articles of incorporation of the Miners River Water Company (No. 3723) and also, that I have compared the following copy of the same, with the original thereof as on file, and declare it to be a correct transcript therefrom and of the whole thereof.

In witness whereof, I have hereunto set my hand and affixed my official seal this seventh day of June, A. D. 1904.

(Seal) J. W. RAYNOLDS,

Secretary of New Mexico.

By GEO. A. FLEMING,

Assistant Secretary.

**Articles of Incorporation of the Miners River Water Company.**  
United States of America, Territory of New Mexico.

Know all men by these presents, that we, the undersigned, citizens of the United States, and whose full names and places of residence are—

George W. Delameter, Pittsburg,

Pennsylvania;

James S. Delameter, Pittsburg, Pennsylvania;

Allan G. Kennedy, Santa Fe, New Mexico;

William B. Childers, Albuquerque, New Mexico; and

Edward L. Medler, Albuquerque, New Mexico;

Have, under and by virtue of the provisions of an Act of the Legislative Assembly of the Territory of New Mexico, being chapter 12 of the laws of 1887, entitled, "An Act to authorize the formation of companies for the purpose of constructing irrigation and other canals, and the colonization and improvement of lands," approved February 24, 1887, and also under and by virtue of an Act of the Legislative Assembly of the Territory of New Mexico, entitled "An Act to create a general incorporation act, permitting persons to associate themselves together as bodies corporate for mining, manufacturing and other industrial pursuits," approved December 27, 1887, and under the several acts of the said Legislative Assembly amendatory thereof, associated ourselves on this the sixteenth day of May, A. D. 1904, under the corporate name of the Miners River Water Company.

The objects and purposes for which this corporation is formed are:

**SECTION I.**

Article 1. To carry on the business of a water company, a reservoir company, a canal company, a water power company, and water supply company, for the purpose of furnishing water for irrigation, public, private, municipal, mining, domestic and other purposes and uses in the Territory of New Mexico, or outside of the Territory of New Mexico.

Article 2. To build, erect, construct, excavate and maintain reservoirs, canals, ditches, tanks, hydrants, plugs, aqueducts, pipelines, aqueducts, sewers, or any other hydraulic appliances or appurtenances.

Article 3. To lay pipes or other water conduits or appliances for the storing, supplying, delivery and distribution of water.

Article 4. To control, obstruct, divert, conduct, lead, turn, regulate and appropriate the flow, supply, service and use of water.

Article 5. To buy, sell, lease, rent, own, acquire, appropriate, enjoy and use water, water rights, and rights to the use of water, for supplying the same for power, mining, manufacturing or agricultural purposes, the reclamation of lands, and for domestic, municipal, private, public and all lawful uses.

Article 6. To acquire from territorial, municipal local authorities or corporate bodies, or from corporations or persons, any rights, privileges, concessions or franchises which may be deemed necessary and conducive to the objects and purposes of the company, and to carry out and comply with the terms and conditions of such rights, conditions, privileges and franchises so obtained.

Article 7. To acquire by purchase, construction, condemnation or donation, and in own, hold, lease, rent, sell, appropriate and enjoy any and all lands, houses, tenements, hereditaments, easements, sites, locations, reservoirs, rights of way necessary or convenient for the carrying on of the business of the company, or which may be taken in exchange for debts due, property conveyed, and services or benefits rendered or conferred.

Article 8. To buy, sell, own, acquire, possess and enjoy, and dispose of any stock, bonds or other securities of any other corporation or person.

Article 9. To build, construct, operate and maintain, railways, tramways, or street cars, either propelled by steam, electricity or other power.

Article 10. To build, construct, operate and maintain electric plants and electric power plants, for the purpose of supplying electric light and power for domestic, public or private use, and for the purpose of supplying the same for the operation of machinery or power in manufacturing, mining or

other pursuits; and for the purpose of operating, building and maintaining electric street cars, tramways or railroads.

Article 11. And generally to undertake and carry on any business and undertaking transaction or operation commonly carried on or undertaken by irrigation canal companies, water supply companies, or water power companies, and any other business which seem to the company proper to be carried on in connection with the objects heretofore expressed, or calculated either directly or indirectly to enhance the value of or render profitable any of the company's property, franchises or rights.

Article 12. To do all such things as are conducive to and necessary to the attainment of the different objects herein stated.

#### SECTION II.

The beginning point of the proposed canal and ditch is a point at or about the north end (N. 43) of section one (100) in Township twenty-four (24) south (T. 24 S.), range eight west (R. 8 W.), New Mexico principal meridian, and running thence in a southeasterly direction towards El Paso, in the state of Texas, a distance of seventy-five miles more or less, and with a terminus at or near El Paso, in the state of Texas.

#### SECTION III.

The amount of the capital stock of said company shall be the sum of two million dollars (\$2,000,000), divided into twenty thousand (20,000) shares, of the par value of one hundred dollars (\$100) each.

#### SECTION IV.

Said company shall exist as a body corporate for the full period of fifty years.

#### SECTION V.

The principal place of business of said company shall be located in the city of Albuquerque in the county of Bernalillo, and territory of New Mexico.

#### SECTION VI.

The number of directors of said company shall be five, and the names of the directors who shall manage the affairs and business of said company for the first year, and until their successors are duly elected, are:

George W. Delameter, Pittsburg,

Pennsylvania;

James S. Delameter, Pittsburg, Pennsylvania;

Allan G. Kennedy, Santa Fe, New Mexico;

William B. Childers, Albuquerque, New Mexico; and

Edward L. Medler, Albuquerque, New Mexico.

In witness whereof, we have hereunto set our hands and seals, on this the sixteenth day of May, A. D. 1904.

(Signed) GEORGE W. DELAMETER (Seal)

JAMES S. DELAMETER (Seal)

ALLAN G. KENNEDY (Seal)

WILLIAM B. CHILDERS (Seal)

EDWARD L. MEDLER (Seal)

Territory of New Mexico, County of Bernalillo, ss.

On this the sixteenth day of May, A. D. 1904, before me personally appeared James S. Delameter, Allan G. Kennedy, William B. Childers and Edward L. Medler, to me known to be the same persons described in and who executed the foregoing instrument of writing, and they acknowledged to me that they executed the same as their free act and deed.

In witness whereof, I have hereunto set my hand and official seal the day and year last above written.

(Signed) J. L. STAAB,

Notary Public.

State of Pennsylvania, County of Allegheny, ss.

On this the twentieth day of May, A. D. 1904, before me personally appeared George W. Delameter, to me known to be one of the persons described in and who executed the foregoing instrument of writing, and he acknowledged to me that he executed the same as his free act and deed.

In witness whereof, I have hereunto set my hand and affixed my official seal the day and year last above written.

(Signed) BERTHA TROTH,

Notary Public.

My commission expires February 2, 1907.

State of Pennsylvania, Allegheny County, ss.

I, Francis X. Barr, clerk of the Court of Quarter Sessions in and for the county of Allegheny, in the commonwealth of Pennsylvania, the same being a court of law and record, do by these presents certify that Bertha Troth, before whom the foregoing acknowledgment was taken, and who has hereunto, in her own proper handwriting, subscribed her name, was at that time and is a notary public in and for said county of Allegheny, duly commissioned and sworn, and authorized by law of the commonwealth of Pennsylvania to take affidavits and acknowledgments of deeds for lands and real estate in said commonwealth of Pennsylvania, and to all whose acts as such due faith and credit are, and of right ought to be, given throughout the United States and elsewhere.

And further, that I am acquainted with her handwriting, and verily believe the signature thereto to be her genuine signature.

I further certify that the foregoing acknowledgment was taken in accordance with the laws of the state of Pennsylvania.

In testimony whereof, I have hereunto set my hand and affixed the seal of the said court at Pittsburg this twentieth day of May, A. D. 1904.

(Signed) FRANCIS X. BARR,

Clerk.

Since the return to the city of G. Paladino, his many friends are at tempting to secure his consent to go up in a balloon on the Fourth of July, but the old gentleman says he has come out of the balloon business on account of age.

## PRINTING OFFICE WRECKED

**Victor, Colo., Record Upheld Strikers and When Paper Advocated Peace the Office was Wrecked.**

#### COSTLY MACHINERY DEMOLISHED

After seeing all through the strike as the mouthpiece of the Western Federation of Miners, and taking the most liberal stand in support of the strike, the Victor, Colo., Record came out Wednesday morning with an editorial holding that Federation responsible for the conditions in the district, and calling upon it to call off the strike, says

## NEW MEXICO TOWNS

### LAS VEGAS.

From the Optic.

Mrs. H. C. Rankin, being back from her California trip, will resume her position with the choir of Temple Montebello.

Attorney Harry P. Owen of Albuquerque is taking testimony in an important case relating to the partition of the Jones grant.

Donofeo Tazaya, who, with his young son, is the only survivor of the ill-fated family, was able to be about on the street for the first time today.

There is considerable comment on the west side over the overloading of teams which pass through Bridge street every day. Nothing short of indignation is felt over the cruelty of a driver whose team which had played out under a load of nearly 10,000 pounds, was unmercifully beaten. The merciful man is merciful to his beast.

Mrs. William Mearns and Mrs. Horatio H. Hays, Vermont, sisters of J. O. Wood, are visiting their brother and family this week. This is the first meeting in old-town years, and of course full of pleasure to all. The ladies are now homeward bound from a long journey which included the transcontinental trip by the northern route to Oregon, where another brother was visited, and the California tour en route to Las Vegas.

### SAN MARCIA.

From the Bee.

Mrs. W. H. Wilson and children are here from Linton to remain permanently.

Mrs. J. W. Brown is enjoying a visit from her sister, Mrs. Fisher, who is a resident of the City of Mexico.

Unofficially we are informed that Rev. T. M. Dye and Miss Florence Hints are to be married publicly at the Methodist church June 8.

It is expected that the telephone line now at San Antonio and being run to Carlsbad, will soon be extended to San Marcial and Rosendale and then on to the Gila hot springs.

W. J. Hurley died with pneumonia at his home here. After covering his connection with the Victoria Land and Cattle company, he secured employment with J. B. Hayes' bridge gang, and at this work he contracted the malady.

Dr. J. R. Nisbet visited San Antonio to assist Mrs. Bacon and Swisher in amputating the left leg of the 5-year-old daughter of Section Foreman Bishop. The work was successfully performed. Dr. Burr was also present while the tuberculous infected limb was being removed.

A letter from Mrs. Alex. Cruikshank to Mrs. B. H. Howard tells of the birth of a daughter to Mr. and Mrs. Fred Weckerle at El Paso, and the death of Mrs. Weckerle's father in Pittsburgh of cancer of the stomach. Dr. Alex. is located at Hanoverton, Ohio, about one hundred miles from Pittsburgh, and Mrs. Cruikshank writes encouragingly of their prospects, the charm of the agricultural region now their home, of their happiness and seemingly permanent condition of contentment.

### SILVER CITY.

From the Enterprise.

George D. Reid, the mining engineer who has been employed by the Alessandro Copper company, in the Hurro mountains for the last three years, left for Idaho where he has accepted a splendid position with a large smelting company.

G. B. Upchurch, for fifteen years a highly respected citizen of Silver City, died at his residence in the eastern part of town the other night after a brief illness of typhoid pneumonia. Funeral services were conducted from the residence, and were largely attended. The services were in charge of the Workmen, of which order deceased was a member. Mr. Upchurch was born in Fulton, Alabama, in 1854, coming to Silver City about 1899. He was for years engineer at the Silver City Reduction works and held that position when the plant closed down.

Sidney Putnam Derbyshire, son of the late Walter M. and Ollie Derbyshire, died at Las Cruces, Mexico, from an attack of pneumonia. Funeral services were conducted from the home of Mr. and Mrs. Charles Fox with interment in the Cananea cemetery. The news of the young man's death came as a distinct shock to the relatives and friends in Silver City and Pinos Altos. Only Tuesday the sorrowing mother received a letter saying that "Buddy" as he was affectionately known among his friends, was recovering from an attack of pneumonia and had convalesced so far that he was able to be up and eat at the table. Close upon this cheering news came the sad announcement of his death. The supposition is that he caught cold while convalescing and was thus thrown into a relapse which is always so fatal in pneumonia cases.

### SANTA FE.

From the New Mexican.

Miss Mary Morrison will leave during the week for Prescott, Arizona, to visit her brothers, Robert E. Morrison and Joseph E. Morrison, attorneys at Prescott. She expects to be away from the city about six weeks.

Governor Otero and Territorial Secretary J. W. Reynolds left for a few days' visit to the ranches of the Pinalosa Sheep company in which they are interested. They are expected to return about the middle of the week. The ranches are situated eighteen miles west of Pecos on the El Paso & Northwestern railway.

Invitations have been received in this city for the marriage of Miss Theo. Tucker to U. G. Hill at Argentine, Kansas, Wednesday, June 8, next. Mr. Hill is well known in this city. He served as a Rough Rider in the Span-

ish-American war. After the wedding the newly married couple will make their home at Sterling, Oklahoma, where Mr. Hill is engaged in business.

Mr. and Mrs. Charles M. Stauffer left for their home in South Bethlehem, Pennsylvania, where they will remain, Mr. Stauffer having accepted a lucrative and responsible position as the secretary of a wholesale grocery firm of that town. They will make the trip via Galveston, Texas, and thence by steamer to New York, leaving Galveston Wednesday next. Mr. Stauffer has been for two years connected with the New Mexican Printing company, serving for the last year and a half as business manager and as secretary and treasurer, which position he has filled to the highest satisfaction of the company and with great success.

### DEMING.

From the Graphic.

Mrs. Mary Marston and children left for their new home in El Paso.

Attorney James S. Fielder left for his old home in Georgia and will remain for a month or two.

Miss Daisy Allen, a teacher in the public schools, took the train for her home in Chickasaw, Indian Territory, where she will spend the summer vacation.

Miss Grace Smith left for El Paso where she will remain in the future with her mother. Her many young friends here in Deming were sorry to part with Miss Grace.

The rumor of the death of Rev. Myron F. Fidler, at Atene, N. M., which has been given great credence in the town within the past week, seems to have no foundation in fact. A lady in this city received a card from Mrs. Fidler recently and no mention whatever is made of the death of Mr. Fidler.

Miss Minnie McGillichey, court stenographer for this district, returned from Hillsboro, where she had been attending court for some weeks. She reports a long, tiresome wait at Rincon on her return trip, and says she thinks if one were in a hurry to get from Lake Valley to Deming they would save time by walking rather than come by rail.

The new engine and other machinery for the Deming electric light plant has arrived and will soon be in place. It is the intention of the company to announce some time ago in these columns to put in a complete alternating current system which will enable them to furnish the town with as good lights as can be had in the southwest, as well as to furnish street lights for the town. This company is constantly spending money in improvements and doing as much for the benefit of the place as is in their power, and our citizens should give them a liberal support in this new system which is being installed.

### SOCORRO.

From the Chieftain.

Mrs. L. J. Otero of Magdalena came to Socorro for medical treatment.

Mr. and Mrs. Antonio Abeytia of Santa Fe are guests in the home of their son, Mayor A. C. Abeytia of this city.

P. N. Yunker is spending a part of his time on the Magdalena branch, where he has taken a contract to do some ditching.

It is rumored that Charles S. Bahney and family will soon return to Socorro from Carlsbad, Mo., where Mr. Bahney is now in business.

"P. J." young son of Mr. and Mrs. P. J. Savage, was quite seriously hurt by falling across a hydrant while playing in the yard.

An anniversary mass will be celebrated Wednesday in the church of San Miguel in honor of the memory of Justino, son of Mayor and Mrs. Antonio C. Abeytia.

Theodore Rixton of the United States geological survey is making a topographical map of the Manzanos mountains in connection with the establishment of a forest reserve there.

J. A. Beal, the bustling representative of the Albuquerque Citizen, was in town, Mr. Beal always does business for his paper when he comes to Socorro.

Miss Clyde Melton, instructor in the preparatory department of the School of Mines during the past year, left for Denver, where she will enter upon the study of stenography.

Miss Regina Carrera of Las Cruces is a guest in the home of her uncle, A. F. Katzenstein of this city, and will remain about a month. Miss Carrera has just closed a nine month term of school at Teel, near Silver City.

Mrs. A. Klebus and daughter, Miss Myrtle arrived in Socorro, the former from a visit of two months at Hot Springs, Arkansas, for her health, the latter from attendance at the Agricultural college at Las Cruces.

P. G. Bartlett came in from his sheep ranch near Magdalena. Mr. Bartlett said that he would have had an excellent crop of lambs, but that the cold nights on his range ten days or two weeks ago reduced the percentage very much.

Professor E. P. Smith, who occupied the chair of mine engineering at the School of Mines during the year just

closed, left for the City of Mexico. Professor Smith will now devote his attention to the practice of mine engineering in Mexico. His friends in Socorro will wish him a full measure of the success he is so well qualified to command.

### Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Ala. "For three years," she writes, "I endured insupportable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by all druggists.

### THE END IN SIGHT.

Of the Alamogordo Strike and Strikers are Leaving.

In its comment on the Alamogordo strike, the El Paso Times says:

The end of the strike has been reached and it is very likely that the non-union men brought here to take the place of the strikers in the railroad shops will be turned loose on the city Saturday. The strikers have given up the fight and all of them except about a dozen have left town, so there is no use in keeping the strikers under guard any longer. They have the sympathy of the business community and the few strikers left here know that they will be sent to the penitentiary if they make any effort to drive the new men from their work.

### An Alarm Clock for 25c.

If you want to get up early and feel good all day take a little Early Riser or two at bed time. These little pills relax the nerves, give quiet rest and refreshing sleep, with a gentle movement of the bowels about breakfast time. W. H. Howell, Houston, Tex., says "Early Risers are the best pills made for constipation, biliousness, etc." Sold by B. H. Briggs & Co. and R. Vann & Son.

### SILVER CITY NOTES.

Operating the Mines—Visitors Returning Home.

George H. Utter returned home from an eastern trip of several weeks' duration on mining business.

C. P. Langhorne, who is in charge of the operations of the Comanche Mining and Smelting company, left for Denver to purchase machinery for the smelting plant which the company is erecting at this point. He will be absent about ten days.

Dr. E. S. Bullock left for Atlantic City, where he will read a paper before the American Medical society, giving the results of his experience as director of St. Joseph's sanitarium, in this city, in the treatment of tuberculosis in New Mexico.

Mrs. A. B. Laird has returned to Silver City after a protracted stay in Los Angeles. Mr. Laird has rented the White residence formerly occupied by Conductor H. F. Griffith and family, where he and Mrs. Laird will at once go to housekeeping.

Samuel Allen was in Silver City from Santa Rita attending to business matters. Mr. Allen is the owner of the well known Blue Dick group in the Santa Rita district, consisting of seven full claims and a fraction. The showing at the present time is especially good, and shipments are being made, a carload lot having been sent to the El Paso smelter a few days ago. The ore carries copper, lead, gold and silver. The property is an old one, ore having been shipped from it seventeen years.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure; Doan's Ointment. Absolutely safe; can't fail.

### ALFALFA CROP IS A FAILURE.

Mezquita Valley People Cut But Little—Fruit and Cattle Prospects.

The first cutting of alfalfa in the Mezquita valley resulted in about one half of an average crop, and so far there are no signs of a second cutting, except on two small patches that are being irrigated by means of pumps. The price of alfalfa is \$15 per ton, with every appearance of a further rise.

Wheat, and indeed every crop not irrigated by pumps, is a total failure. Grapes, peaches, apples, plums and pears were considerably damaged by frost and are suffering somewhat from want of water. Around Las Cruces, however, there will be about half a crop, which ought to command good prices.

Tomatoes are just coming into flower, and as they are all under pump irrigation, there will be enough to fill all orders.

The earliest cantaloupes are already as large as marbles, and are doing well with pump water. They will begin to ripen early in July, and there will not be much difficulty in selling them this year, although one farmer, F. C. Barker, reckons that he has enough to supply all that El Paso will need.

### No Competition.

The uniform success of Chamberlain's Cough, Cholera and Diarrhoea Remedy in the relief and cure of bowel complaints both in children and adults has brought it into almost universal use, so that it is practically without a rival, and as everyone who has used it knows, is without an equal. For sale by all druggists.

### International Billiards.

Paris, June 4.—The long talked of billiard match between Schaefer and Ciro begins tonight at the Nouveau Cirque. The contest is to continue six nights, 500 points to be played each night. Ciro, who has been playing in good form all winter, is a favorite over the American player.

## OFFICIAL MATTERS

### Deficiency Bonds—Land Office Business—Supreme Court Meeting.

#### NEW COMPANIES ORGANIZE

Territorial Treasurer J. H. Vaughn, is checking \$55,000 of five per cent deficiency bonds which have been presented for refunding with four per cent bonds. The total issue of the latter is \$101,500, and the remainder of the outstanding five per cent bonds will be called in during July for the purpose of refunding.

#### Land Office Business.

The following is a synopsis of the transactions in the United States land office in Santa Fe during the month of May: Sale of public lands, 169.53 acres, \$200.74; original desert land entries, 516.40 acres, \$129.10; fees on 25 homestead entries, \$230; commissions on 3,597.30 acres homestead entries, \$149.95; nine final homestead entries, 1,439.75 acres, commissions, \$54. Amount on testimony and plats, \$33.36.

No Meeting of Commissioners of Irrigation.

The meeting of the irrigation commissioners of New Mexico, which was to have been held yesterday, according to call, failed to materialize. None of the members of the commission were in Santa Fe yesterday forenoon. The train from the south was several hours late and no information concerning the members of the irrigation commission en route to the capital for the meeting could be had.

#### Supreme Court Session.

The supreme court of the territory had been called to meet in special session at 10 o'clock today at its chambers in the capitol building, Santa Fe, for the purpose of dividing the territory into six judicial districts. All the judges are present and Edward A. Mann of Las Cruces, the newly appointed judge is there. As his commission has not yet arrived, it is not believed that he can take part officially in the deliberations of the court, but very naturally his opinion and desires will be asked and very likely will be fully considered by the five judges now composing the court.

Articles of incorporation. The following articles of incorporation have been filed in the office of the territorial secretary: The El Paso Brick company, incorporated for 10 years for the purpose of manufacturing and selling brick and other clay and shale products. The principal place of business is El Paso and the incorporators and directors are Edward Rogers, Alton, Illinois; W. F. Robinson, El Paso, Texas, and James H. White, El Paso, Texas; B. Lieberman, El Paso, Texas. The company is capitalized at \$75,000, divided into 750 shares at the par value of \$100 each. James E. Kline of Brickline, Dona Ana county was named as agent and Brickland as the principal place of business in the territory.

The A. MacArthur company incorporated for a period of 50 years for the purpose of selling, exchanging, bartering and dealing in wool, hides, pelts, sheep, cattle, horses and other live stock and the produce thereof. The capital stock of the company is \$10,000, divided into 20,000 shares of the par value of \$1 each. The directors and incorporators are: George W. Brad, Archibald MacArthur and Manuel Patenge. The principal place of business is Wagon Mound, Mora county.

#### ITEMS ABOUT GALLUP.

Galled from the Columns of the Republican and are interesting.

August Richter has gone to the coast for his health.

Win Brown has returned home after a two months' trip through the east.

Miss Kitty Touseff of Clarkville is the guest of her little friends at the McKiever household.

On the 27th ult. Collector Spears turned over the month's collection of taxes, amounting to \$10,626.18.

A Slav miner, whose name could not be learned, was badly bruised about the head at the Weaver mine by a premature fall of coal.

E. F. Kenney with his two helpers, Ed Capps and Elmer Wilson, returned from Moore's trading store completing a \$500 job of roofing.

H. A. Pease, proprietor of the Republican, returned from a trip to the San Jacinto hot springs, California, much improved in health.

The infant child of Joseph Corranio of Clarkville, died of intermittent fever and was buried in the Catholic cemetery. Father Demarest officiated.

Walter O'Brien, hide inspector for the territory, was a visitor to Gallup on official business. While here Mr. O'Brien appointed Sam Brown the local inspector, and he made a good choice.

Mrs. Ellen Quinn left on No. 8 for New York, where she goes to see her sister. It has been nearly forty years since the ladies have seen one another and it is needless to state that the reunion will be a happy one.

Several of the Gallup young folks who have been attending school in other places have returned for the summer vacation. Among them are Ray Aldrich, Miss Kate Cunningham, from Albuquerque, Robert Weldemeyer, from Kansas City, Morris Bowles, of Baltimore, and John Young, Rosewell.

Taking Deposition at Santa Fe.

E. P. Valentine of El Paso, special agent of the treasury department, left Santa Fe for Pueblo, Colorado Springs and Denver. While at Santa Fe he took the deposition of Registry Clerk John K. Stauffer, before United States Commissioner John P. Victory in reference to the extradition of John

Pulkerson, under arrest at Casa Grande, Mexico, on the charge of embezzling custom duties collected at the Santa Fe and other postoffices. The case will come up for trial in the United States court in El Paso next November, in case Pulkerson is extradited.

Chamberlain's Stomach and Liver Tablets Better Than a Doctor's Prescription.

Mr. J. W. Turner, of Truhart, Va., says that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from the doctor. If any physician in this country was able to compound a medicine that would produce such gratifying results in cases of stomach troubles, biliousness or constipation, his whole time would be used in preparing this one medicine. For sale by all druggists.

#### Martial Law Declared.

Trinidad, Colo., June 6.—Martial law was declared here on March 25, was declared off at nine this morning. A small detachment of troops will be kept here for the present, however, to act with the civil authorities.

#### Starting Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c and \$1.00.

#### Maine Falls in Line.

Augusta, Me., June 6.—At a convention here today steps were taken toward the organization of a state federation of labor. Heretofore Maine has been the only state east of the Mississippi river where such a federation did not exist. The formation of a Maine federation leaves but three states in the entire union without such an organization.

B. H. Briggs & Co. and S. Vann & Son ask the readers of this paper to test the value of Kodol Dyspepsia Cure. Those persons who have used it and who have been cured by it, do not hesitate to recommend it to their friends. Kodol digests what you eat, cures indigestion, dyspepsia and all stomach troubles. Increases strength by enabling the stomach and digestive organs to contribute to the blood all of the nutriment contained in the food. Kodol Dyspepsia Cure is pleasant and palatable.

#### Hot Time in Douglas Tenderloin.

Jose Asuna, shot through the right lung, will die; Camillo Silva, beat over the head and shoulder with an iron bar, may lose his right eye; another native shot through the hand, and two other Mexicans jailed, in the result of a free for all fight in Ragtown, Douglas, Arizona, Friday afternoon over a watch and a revolver. Several played a prominent part.

#### Thrown From a Wagon.

Mr. George K. Babcock was thrown from his wagon and severely bruised. He applied Chamberlain's Pain Balm freely and says it is the best liniment he ever used. Mr. Babcock is a well known citizen of North Platte, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. For sale by all druggists.

#### Killed While Boarding Train.

Phillip Jordan died at Douglas, Arizona, yesterday morning as the result of an attempt to board a moving freight at Puyas, N. M., Thursday. The train was moving twenty miles per hour when he caught hold of the ladder of a car and was thrown head first on a box car, crushing his skull. Jordan is a cook, and in company with one Fanchon was on his way to Paradise and Douglas. Both were heading their way.

#### That Throbbing Headache.

Would quickly have you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by all druggists.

#### Will Visit New Mexico.

Commissioner W. A. Richards of the general land office at Washington, left the national capital Thursday on a trip to New Mexico, Colorado and Wyoming where he will visit various land office and surveyor general offices. Later he will supervise the registration, drawing and entering of the Hotchard Reservation lands in South Dakota, and the opening and disposal of the Devil's Lake Indian Reservation lands in North Dakota. The commissioner will have a force of twenty-three clerks with him when disposing of the lands named.

#### LANDS SET ASIDE.

For Various Purposes by the Government.

A Washington dispatch, to the Globe-Democrat says: Acting commissioner of the land office has made the following temporary

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

#### Announcement.

To accommodate those who are partial to the use of stimulants in applying liquids to the nasal passages for Catarrh of the nose, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the applying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

ary withdrawals in the Clayton and Roosevelt districts, New Mexico, for forestry purposes:

Clayton district—Withdrawals from all disposal excepting under mineral laws, sections 13 to 17, southwest quarter, east half, and east half of northwest quarter section 18; Section 19 to 36, township 2 north, range 22 east.

Roosevelt district—Withdrawals parts of township 1 north, ranges 22 to 27 east; one south, 43 to 44 east; 2 south, 26 and 27 east.

Secretary Hitchcock approved selections of public lands in Clayton land district in the territory of New Mexico for the following purposes: For public buildings at the capital, 120 acres; for School of Mines, 280 acres; for Insane Asylum, 120 acres; for Reformatory school, 75 acres; for Penitentiary, 1,500 acres; for Normal school, 2,400 acres.

#### Sued by His Neighbor.

"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says R. White, of Coahuila, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used, as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus; it never fails. Sold by all druggists.

#### NATIONAL GUARD ENCAMPMENT

WILL LIKELY TAKE PLACE IN AUGUST—PLACE NOT YET SELECTED.

Adjutant General W. H. Whiteman has returned to Santa Fe from a visit of a few days in this city. When asked about the annual encampment of New Mexico National Guard he said that neither the time nor the place for the encampment had yet been determined upon. It will occur some time during the summer, probably during the first part of August, and company commanders all over the territory have been called upon to report the number of men who will attend the encampment and their views as to a favorable location. It is desirable that a central point be selected, but on account of the drought it is hard to find a camping ground where there is sufficient water. Of course the time of the encampment depends largely upon the place selected as some season of the year are pleasant in one locality than in another.

In regard to the new uniforms and the chances of securing them for the Territorial National Guard, General Whiteman said that none could be had at the present time, as they are not being issued even to the regular army, except to the regiments returning from the Philippines. Reason for this is that there are about 1,000,000 of the old blue uniforms on hand and it will be at least two years before the supply will be exhausted, when the new men will be issued. To show that it is impossible to obtain these uniforms, General Whiteman cited the following: The adjutant general of New York state applied to the secretary of war for the new uniforms for the 14,000 men forming the militia of that state, and an order was drawn on the quartermasters department for the uniforms. When the quartermaster general asked the facts of the case, however, the order was revoked.

#### For a Hundred Years.

For a hundred years or more Will Haze has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co. of Chicago to discover how to combine the virtues of Will Haze with other antiseptics, in the form of a salve. DeWitt's White Haze Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt's" on the package, and accept no other. Sold by B. H. Briggs & Co. and S. Vann & Son.

#### LAS CRUCES LAONICS.

Democrats of Dona Ana County Organize—Other Items.

Major W. H. H. Llewellyn has drawn up a plan for the purpose of irrigating the principal portion of Las Cruces. It will cost less than five hundred dollars.

Sam Rogers, George Johnstone and Colonel Nelson, mining men from Denver, Colorado, left for the San Andres district, where they are interested in some copper properties.

The resignation of Dr. J. Frank McCann as president of the Catholic Truth society, of Las Cruces, New Mexico, was tendered and accepted at its last meeting, on account of his giving up his residence in New Mexico.

An enthusiastic mass meeting of the democrats, met at the law office of Horton Moore. The meeting was largely attended and demonstrative of the determination of Dona Ana democracy to fight to the finish this fall. A local organization was perfected with Vincent B. May as chairman, and N. B. Williams secretary. From the nucleus thus organized the organization of the entire county will speedily be effected. The democrats mean business and will make an energetic, active campaign this fall—Las Cruces Citizen.

#### Republicans Interested.

Washington, June 6.—Republicans here are awaiting with no little interest the result of today's state election in Oregon. Those best informed as to the situation do not expect the republican majority to come up to that of 1902, although confident of the party's success. They look for a reduced majority on account of the strong socialist tendency now operative in the northwest, especially in Oregon, which tend to draw away from republican support.

## IN EVERY HOME

There should always be found a bottle of the famous Hostetter's Stomach Bitters. It is good for every member of the family and if taken at the start may counteract a long sick spell. No other is just as good nor so safe and reliable. It puts the stomach in a normal condition and cures Biliousness, Constipated Bowels, Dyspepsia, Indigestion, Inflammation, Liver troubles and Malaria. Doctors and Druggists recommend it. Try one bottle.

### THE OLD PLAYERS

"UNCLE TOM" TELLS SOME GOOD POINTERS ABOUT OLD LOCAL BASE BALL TOSSERS.

Editors Citizen:

Now that base ball seems to have taken a step forward and there are promises of good games the coming summer, I would suggest that Manager Houston, just to get some of the old guards out, figure on a game between

# New York News Letter

New York, June 4.—To say that the leaders of the republican party are not quite satisfied with the manner in which Governor Odell has acted, would be mildly expressing the actual feeling among them. Disgusted with the high handed and thoroughly selfish methods of the governor, it is a bold game that Governor Odell is playing. He is determined to keep the control of his party in New York in his own hands and to brook no interference from any side, be it some disgruntled faction in his own state, or be it the national government. Disregarding every ethical principle, and even the most liberal limitations of political propriety, he has made himself chairman of the state committee and is holding onto that office like grim death, although he must be well aware of the fact that the decent elements of the party are decidedly opposed to his action, which is more than likely to bring the party in discredit. Governor Odell knew quite well for some time that the nomination of ex-Secretary Root for the governorship was considered a matter of the greatest political importance by both the republicans of New York and the republican national committee. But that plan did not suit the governor, who feared that a man of Mr. Root's influence and energy would wrest the control of the party from his hands. For that reason Governor Odell did not endorse Mr. Root's candidacy. Although he knows how much depends on the nomination of the strongest possible candidate for the governorship, he refuses to be dictated by the national committee. Knowing how valuable every moment is at this time, he sailed for Europe, leaving everything unsettled and in suspense. It is stated that Governor Odell favors the nomination of either General Horace Porter or Joseph H. Choate. Both are men with clean records and of brilliant attainments, but they are not politicians, and for that reason no dangerous rivals for political control in the state. It is generally believed that Governor Odell's trip to Europe has been undertaken with the specific object of laying the matter before General Porter and Mr. Choate.

In view of the general disapproval of his action in retaining the chairmanship of the republican state committee, Governor Odell saw fit to inspire a statement before his departure, that he did not intend to personally conduct the republican campaign in New York. It is stated that he would appoint some one to do the actual work, but that he would retain his position as the ruling spirit. If the governor believes for a moment that this concession is considered an adequate solution of the problem and is accepted as a dignified compromise, he is greatly mistaken. There is but one opinion concerning his action: that it is a subterfuge which really does not remove a single one of the objectionable features of this dual position of his. Evidently Governor Odell does not care what the republicans of New York think of him or whether they are satisfied, so long as he has his own way.

Business conditions in New York are far from being satisfactory and the depression seems to be of a general nature. A great part of the trouble is, undoubtedly, attributable to the fact that this is what is called a "preludential" year. But there are other causes which are responsible for the present decline in business. The country has enjoyed an unusually long period of prosperity, unparalleled in its history. Everything went booming, the values gradually reached high water mark, and, as usual in this country, speculation was wildly rampant, regardless of the immutable laws determining and governing actual values. Fortunes were made by the turn of the hand, and others lost with the same ease, money was spent liberally and the factories worked overtime to satisfy the increasing demands of such conditions. With the excessive which invariably accompany them, cannot last indefinitely, however. A reaction must set in sooner or later, and it has set in. The inflated values in the stock market have collapsed, the activity in the centers of speculation has practically ceased. Stock brokers are enjoying involuntary holidays, and find it necessary to retrench. During the last two weeks more than twenty-five hundred clerks have been dismissed by Wall street brokers and the clerks who are still on the various pay rolls have little or nothing to do. But that is not all. The demand in nearly every branch of business has decreased to a serious extent. Many factories, which had been working day and night, and had been paying record wages, to be able to keep up with the demand, are working half time at reduced wages, or closing down altogether. Business transactions in every branch have shrunk so much that the railroads are greatly affected. The receipts have fallen off to such an alarming extent that the managers of the various railroad systems have considered it necessary to reduce their working forces. Several hundred thousand workmen, laborers, railroad employees, clerks, etc., have already been thrown out of employment, and it is safe to say that the worst stage has not yet been reached.

Those who are in a position to feel the pulse of the commercial and industrial condition of this country, do not hesitate to predict that the coming winter will not be prosperous, but they are confident that the depression

will not last as long nor be as serious as that which preceded the election of President McKinley. They base their opinion upon the fact that economical conditions in this country have become more substantial and solid during the long period of prosperity than they ever were before, and the reserve force is great enough to carry the country over this period of depression.

There is every reason to believe that Senator McCarren, who was considered notoriously by his rebellious opposition to Tammany just before the last state convention, will live to regret his hasty step. One of the three assembly districts, which form Senator McCarren's senatorial district, has withdrawn its allegiance and is in open rebellion, and owing to factional fights another one of the districts will probably be lost to McCarren. Experienced politicians are confident that McCarren will not be nominated for the senate, and will, eventually, lose every bit of political prestige he still possesses.

Central Park was the scene of a rather unusual occurrence recently, a fierce battle between three men and six full grown specimens of Python. The big reptiles, who form an interesting feature in the Central Park menagerie, were suffering from intestinal parasites, probably by feeding on infected rats and other animals. It became necessary to give them medicine, and three of their keepers were detailed as nurses. As it was probably the first time these huge reptiles were subjected to such treatment, they rebelled against having medicine injected into their stomachs. A lively scrimmage was the result, and for a while the outcome was rather doubtful. Finally, however, superior intellect overcame superior brute force, and the snakes were subdued and properly dosed.

As was to be expected by the board of aldermen, adopted without a dissenting voice the whitewashing report of the committee on the bribery charges in connection with the Port Chester Railway's application for a charter granting to it the right of making certain extensions. Theoretically the bribery charges were not substantiated, but the report of the investigating committee is not convincing enough to remove every doubt from the mind of the public.

Hugh McLaughlin, formerly a prominent politician, has donated his entire stamp collection, including over one million stamps to a fair which will soon be held for the benefit of St. Mary's hospital. This is probably the first time that donation of such a character was made to any hospital.

**Triumphs of Modern Surgery.** Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are splined; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic, and, when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by all druggists.

**Corrupt Official Indicted.** St. Louis, June 4.—The grand jury today indicted James M. Seibert, state executive commissioner, on the charge of conspiracy to hinder the administration of law. The indictment grows out of an investigation into the alleged violation of the excise laws in St. Louis.

**Have You a Cough.** A dose of Ballard's Horehound Syrup will relieve it. Have you a cold? A dose of eucalypti at bed time and frequent small doses of Horehound Syrup during the day will remove it. Try it for whooping cough, for asthma, for consumption, for bronchitis. Mrs. Joe McGrath, 237 E. 1st street, Hutchinson, Kan., writes: "I have used Ballard's Horehound Syrup in my family for 5 years, and find it the best and most palatable medicine I ever used." 25c, 50c, \$1.00. For sale by J. M. O'Reilly & Co.

**Pike Day at St. Louis.** St. Louis, Mo., June 4.—The largest crowd that has attended the exposition since the opening passed through the gates today, according to the estimate of the management. The chief magnet of attraction in was the celebration of Pike Day, and the bizarre parade was the feature of the program. The procession comprised people from the four corners of the earth, some riding in Irish jaunting cars, others mounted on Arabian steeds, while still others were to be seen in jirrichashas, Persian kavajaks, Alaskan dog sledges, and the golden cars of the Indian rajah.

Three spectres that threaten baby's life, Cholera infantum, dysentery, diarrhoea, Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

**Zionists at Cleveland.** Cleveland, Ohio, June 4.—The seventh annual conference of the Federation of American Zionists opened today, to be continued until Tuesday. The federation had for its original object the colonizing of Palestine with Hebrews and assisting and encouraging the Hebrew colony already in Palestine. The present conference, however, will consider and act upon England's offer of land in East Africa. The tract offered to the Zionists free is about 500 square miles in extent. A last international convention the Jews outside of Russia generally

## Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this unique remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

**Kodol Digests What You Eat.** Bottles only. \$1.00. Six bottles 5.00. Times the trial size, which sells for 50c each. Prepared by E. C. Dewitt & Co., CHICAGO. Sold by R. H. Briggs & Co., and S. Vann & Son.

were in favor of accepting the site in place of Palestine, but the Russian Jews insisted on returning to Palestine. It is believed the present American conference will act in favor of accepting the site.

**That Tired Feeling.** If you are languid, depressed and incapacitated for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes, March 22, 1902: "I have used Herbine for the past two years. It has done me more good than all the doctors. When I feel bad and have that tired feeling, I take a dose of Herbine. It is the best medicine ever made for chills and fever." Sells a bottle. Sold by J. H. O'Reilly & Co.

**Shortens Time West.** Chicago, Ill., June 4.—California is brought eight hours nearer to Chicago by the new time card that will go into effect on the Rock Island system tomorrow. The faster schedule made possible by better connection out of Kansas City and faster time on nearly every division of the Rock Island and on the Southern Pacific.

**Acute Rheumatism.** Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Illinois, writes, Feb. 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co.

**Northampton's Gala Week.** Northampton, Mass., June 4.—Northampton is decked out in her best bib and tucker in preparation for the celebration during the next three days of her 250th birthday. The opening exercises tomorrow will consist of services in the morning at all the churches, appropriate to the occasion, and in the evening a grand sacred concert will be given. Tuesday and Wednesday will be devoted to parades, band concerts, salutes, illuminations, athletic contests and various other forms of festivity. The anniversary address will be delivered by ex-Governor John D. Long, former secretary of the United States navy.

**Driven to Desperation.** Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c, at all druggists.

**NOT TOD CARVER**  
**THE ALLEGED TRAIN ROBBER,**  
**WHO SUICIDED, IS CLAUDE W. SWANNER.**

Last week we gave an account of the attempted hold-up of No. 4 passenger on the El Paso & Northeastern near Temporal on Sunday night of May 22, says the Alamogordo News. In that write-up the statement was made that the man who committed

The older the prospective mother be the more difficult the ordeal through which she must pass before she experiences the glory of the maternal state. This was true before

**Mother's Friend**

was introduced, but now tangible evidence in the shape of countless mothers of advanced years who have used it with entire success forces us to gladly refuse the integrity of this statement. Old or young, the result is the same. It is simply indispensable during the perilsous state, and absolutely invaluable at the crucial time. For external massage, easy and simple to apply, wonderful in its effect, it surely is a living monument to the truth of that old adage, "What's in a name?" We reply, "Simply Mother's Friend." 50c, at all druggists. Send for book, "Motherhood." It is free. **Bradford Regulator Co., ATLANTA, GA.**

suicide at Tularosa was the principal would-be train robber, and that one Alamogordo citizen said the man's name was Tod Carver, a noted Arizona outlaw. Since that time Sheriff Hunter has been making inquiries about the dead man and has succeeded in fixing the identity and clearing up all doubt as to his name. The man's name was Claude W. Swanner, and a brother, Will Swanner, lives at Elida, N. M., from whom Sheriff Hunter received a letter giving a description of the dead man. This letter to Mr. Hunter describes the man to a "T."

But few people in town would believe that Tod Carver would end his life in such a manner, and that his operations here were not those of an experienced outlaw. The Mexican who was caught and jailed as being a party to the hold-up scheme has not made any statement one way or another, but that it was all a plan to rob the passenger on that night by the man who committed suicide and told Mexican is the case beyond any doubt.

**A Strong Heart** is assured by perfect digestion. Indigestion swells the stomach and puffs it up against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its function naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to the blood and tissues all of the food nutriment. Tones the stomach and digestive organs. Sold by R. H. Briggs & Co. and S. Vann & Son.

**THE CARLSBAD SPRINGS.** Health Giving Waters to be Marked by a Sanitarium.

It takes a long time for a big thing to work out, and there is no better illustration of it than in the matter of the celebrated Carlsbad springs, whose medicinal value have been known for years, but have never been utilized, at least in such form as would best appeal to the general public, and it is truly a matter of congratulation that they are now to be put in proper shape to attract tourists and health-seekers, says the Carlsbad Argus.

A company has been organized, utilizing both home and foreign capital, in ample quantity according to the promoters, who will begin work July 1 on a series of improvements that will make the place one of the most attractive in the southwest.

The plans of the company are ambitious, so much so that it will be impossible to get them all in operation this summer, but when completed they will be of sufficient magnitude to interest people from all parts of the country.

First, the springs will be confined properly and conducted to a substantial and well appointed bath house, where patrons can have hot or cold, shower or plunge baths, accompanied by skilled masseurs and other attendants, from the greatest watering places in America. The waters will also be bottled on an extensive scale and introduced to the market.

A series of cottages will be built and not unlike a tent city on the plan of the one at Santa Fe, which has attracted so much attention, and been of so much benefit to those coming to the higher altitude for their health.

Following this will come a well appointed sanitarium, it being the intention to use it as a center of treatment for the cottagers and tenters, but at the same time to have the equipment so complete as to be equal to any case that may require skilled medical attention under hospital conditions.

A hotel or commissary will be supplied with the best table that money can produce and the people will be served with an small a margin of profit as possible, it being entirely optional whether they patronize the table or board themselves.

A thirty-foot gasoline launch will run on the river, making trips from the power dam opposite the city up to the sanitarium, and a free omnibus line will carry the people to the grounds, upon which a large sum of money will be expended.

The company is now getting ready to push work from the start, and if they do it will be a great thing for Carlsbad and the health seeking tourists who visit the valley.

**NATIONAL GUARD**  
**ADJUTANT GENERAL WHITEMAN**  
**RECEIVED IMPORTANT NOTICE.**

Adjutant General W. H. Whiteman has received a notice from Major John P. Guilfoyle, assistant adjutant general at the headquarters of the army, with reference to the secrecy which must be maintained concerning permanent works of defense of the government. This communication was called forth by the fact which was recently brought to the notice of the war department, that during certain military maneuvers in one of the states, a member of the National Guard of the state published an article on these maneuvers, illustrated by diagrams and containing minute descriptions of certain apparatus and coast defenses. The attention of the National Guard of the various states is called to a portion of the army regulations which prohibits the taking of photographs or pictures of any kind of the works of defense of the government. The secretary of war requests that the necessary steps be taken to inform the members of the National Guard of New Mexico of this regulation, and to enforce strict compliance with it, and Adjutant General Whiteman has issued orders to the different company commanders in the territory to this effect.

## SAN FELIPE DAY

The program as announced in this paper for days previous was carried out in the Old T. and the old pueblo as our morning contemporary calls it) on yesterday.

The streets and business places fronting on the public square, where the park is, were gay with hunting and flags, and from the far staff in the center waved in the breeze the stars and stripes.

The front of the cathedral was beautifully decorated.

At 5 o'clock the First Regimental band took its stand in the pagoda in the park and for a couple of hours played a number of selected pieces.

At 10 o'clock the place was crowded, but shortly afterwards the people commenced to wend their way into the sacred edifice where the high mass was to be celebrated by the Franciscan Priests of Pena Blanca, who were specially invited for the occasion. The mass was imposing. Added to this was the beautiful singing by the choir, led by Mrs. Martin.

The panegyric of the saint was made by one of the Jesuit Fathers, who gave a graphic account of the life and deeds of the great and holy man, St. Philip, who flourished in the city of Rome about the middle of the fifteenth century.

In the afternoon at 2 o'clock the band gave another delightful concert, while the crowds from the city and adjoining towns along the river pathway.

At 2:30 o'clock the entertaining events under the management of Jesus Romero were pulled off. First came the climbing of the greased pole, the usual crowd of boys taking part in the contest, the prize being won by a colored lad named Alex. S. P. Harrison.

Then came the barrel races, boys competing by rolling beer kegs under foot. The race was exciting and complete with ludicrous falls. The prize was won by Juanito Romero.

The foot race, free-for-all, was won by Tomas Gallegos, and then the interesting race between Alto, the imported Aragonese Jack, and five sturdy boys, the race being relayed around the park. The burro, who is a mighty good lover, won with ease.

These sports consumed the time until 4 p. m.

At this hour the chiming bells of the cathedral announced to the multitude that the religious procession was about to emerge from the sacred edifice. The First Regimental band took the lead, followed by hundreds of little girls dressed in white following their banner. Then came the other religious societies preceded by their distinctive banners and regalia, finally followed the image of St. Philip carried on stately shoulders and followed by the chanting priests with gold vestments. The procession was of large, well ordered, beautiful and imposing, and well worth coming a long distance to see.

In the evening at 7 o'clock the band

gave another concert, and the choir of the cathedral sang several religious hymns in the open air, followed by the preparations for the display of fire works, which, through accident, took fire, causing an explosion and illumination not in the program, but which happily caused no damage whatever. This ended the evening festivities, and everybody that so desired adjourned to the two great dances at the Orchestration and Society hall, which were then in progress, and continued through the night.

The best of order and enjoyment prevailed throughout the day, and the committee in charge of the celebration, Messrs. Jesus Romero, Nestor Montoya and Manuel Springer, desire to thank all and every one for their kind cooperation in helping by their presence and otherwise in making the feast a success.

Released.

**FACULTY CHOSEN**

**THOSE RESPONSIBLE FOR THE CONDUCT OF AFFAIRS AT THE SCHOOL OF MINES DO BUSINESS.**

The board of trustees of the New Mexico School of Mines met in an important session in Socorro last Tuesday. There were present Hon. Juan Jose Baca, president, C. T. Brown, secretary, F. G. Bartlett, and A. H. Hilton. A. E. Roullet was absent on account of press of business.

The usual routine business connected with the conduct of the affairs of the school was transacted. A portion of the faculty was chosen for the coming year as follows: Charles Rollin Keyes, Ph. D., president and professor of mine geology; William C. Emmerly, Ph. D., professor of chemistry; O. R. Smith, C. E., professor of civil engineering; C. Edward Magnusson, Ph. D., professor of physics and electrical engineering; E. A. Drake, M. A., professor of languages; J. F. Atkinson, B. L., acting professor of mechanics; R. H. Berry, registrar; Dull P. Riddell, B. S., instructor in chemistry; M. P. Hunter, mechanician.

**Tornado in Oklahoma.**

Lewton, Okla., June 4.—A tornado demolished a part of the little town of Walters, near here. One man was killed and twelve injured. The southwestern part of the country was visited by a hail storm that damaged the crops to the extent of thousands of dollars. Continued heavy rains in this part of the Klamath and Comanche nation has turned all the streams into torrents and the valleys are inundated.

British War Ship Wanted.

Washington, June 6.—Rear Admiral Chadwick in a cablegram to the navy department today said that the British minister to Morocco had requested the English government to send a battleship to Tangier.

## MESILLA VALLEY

Prof. F. E. Lester, registrar of the college at Mesilla Park, was in the city this morning between trains, called suddenly to Pasadena, California, on account of the serious illness of his mother. Speaking of the college he said:

"The Agricultural college at Mesilla Park has just closed the most successful year of its existence. The enrollment of students, totaling 222, was greater than in any former year. The new addition to the girls' dormitory has just been completed, and that building is now the largest and most substantial on the college grounds, accommodating from sixty to seventy women students.

"The college has done a great deal of work during the past year in continuing its investigation of pumping for irrigation, which seems to be the ultimate salvation of the Mesilla valley. During a recent continued test it pumped from a six inch well a discharge of 1,500 gallons a minute for seven days and nights running, or a total of considerably over ten million gallons, and the college lands of some 125 acres are now entirely dependent for water on the pumping plant. The agricultural department at Washington has arranged to actively co-operate with the college in this investigation and the work will be prosecuted on a still larger scale during the coming year. Following the lead of the college, many farmers in the Mesilla valley are now installing pumping plants.

"Most of the college teachers are leaving for their summer vacations. Prof. and Mrs. Hiram Hadley go to California, part of the time to attend the summer school at the university at Berkeley. President Foster and wife will take a trip through the Black mountains of Sierra county. Prof. E. O. Wootton visits the northwestern part of the territory in co-operative work with the agricultural department to investigate range conditions. Prof. Hare and wife, Misses Summer and Combs and Mr. and Mrs. Sage will visit the St. Louis fair. Prof. and Mrs. Richards will probably visit California, while Miss Harline, matron of the dormitory goes to her home in Oregon for the summer.

"The stenography department of the college has this year sent out more students to positions than ever before. Many of them go out at large salaries as English-Spanish stenographers, in which line of work the college has achieved so wide a reputation that its graduates are in constant demand. In the past two months, the college has placed stenographers in Havana, Cuba, Mexico City, Zacatecas, Tehuantepec, Chihuahua, Nogales, Arizona, Santa Fe, Las Cruces and El Paso, Texas."

British War Ship Wanted. Washington, June 6.—Rear Admiral Chadwick in a cablegram to the navy department today said that the British minister to Morocco had requested the English government to send a battleship to Tangier.

**TRUSTEE'S SALE.**

Whereas, John H. Stingle and Evelyn Stingle, his wife, on the 22nd day of January, 1902, executed and delivered to the undersigned, Bernard A. Sleyter, as trustee, their certain deed of trust of that date, which said deed of trust is recorded in the office of the Probate Clerk and Ex-officio Recorder of Bernalillo county, in Volume Ten of trust deeds, page 202, reference to which is hereby made, and did then and there convey to the said Bernard A. Sleyter, as trustee, the following real estate, situated in the county of Bernalillo, Territory of New Mexico, to-wit:

Lot One in Block Thirty-seven of the Eastern addition to the town, now city, of Albuquerque, New Mexico, as the same is known on the map of said addition made by M. J. Mack, C. E., and filed in the office of the Probate Clerk and Ex-officio Recorder of said county on the 21st day of May, 1902.

And, Whereas, the said deed of trust was made to secure the payment of a certain promissory note of said John H. Stingle and Evelyn Stingle for the sum of Five Hundred Dollars, dated January 22nd, 1902, and payable on or before one year after said last mentioned date to the order of W. G. Shadrack, with interest at the rate of eight per cent per annum from date, payable quarterly.

And, Whereas, the said deed of trust contained a condition therein that if the makers of said note should fail to pay the same at maturity, the said trustee, at the request of the legal holder of said note, should sell the above-described property at public auction, to the highest bidder, at the front door of the Post Office in the city of Albuquerque, County of Bernalillo, aforesaid; first giving four weeks notice of the time, terms and place of sale and of the property to be sold, by advertisement in some newspaper printed and published in the city of Albuquerque, and upon said sale to execute and deliver a deed in fee simple of the property so sold to the purchaser thereof, and to receive the proceeds of said sale, and out of such proceeds to pay, first, the costs and expenses of executing this trust, including reasonable attorney's fees and compensation to the trustee for his services, and, next, apply the proceeds remaining over to the payment of said debt and interest, and the remainder, if any, to the makers of said note, or their legal representatives.

And, Whereas, there is due, owing and unpaid from the makers of said note to the said W. G. Shadrack the sum of Five Hundred Dollars with interest as aforesaid from the 22nd day of April, 1902, and the said W. G. Shadrack, the legal holder of said note, has requested the undersigned trustee to sell said property for the purposes and in accordance with the terms of said deed of trust.

Now, therefore, I, Bernard A. Sleyter, the undersigned trustee, in consideration of the foregoing and by virtue of the powers vested in me by said deed of trust, will, on Monday, the 20th day of June, 1904, at ten o'clock in the forenoon of said day, at the front door of the Post Office in the city of Albuquerque, County of Bernalillo, aforesaid, offer for sale and sell the above described real estate at public auction to the highest and best bidder, for cash, to pay said promissory note, amounting, with interest to date of sale, to the sum of \$546.25, and for the payment of costs of advertisement and reasonable attorney's fees to said trustee and his counsel.

BERNARD A. SLEYTER,  
Trustee.

**BURIAL OF OLD SOLDIER.**

Funeral and Burial of Late Col. W. B. Fletcher.

The last solemn rites for the late Colonel W. B. Fletcher, a comrade of the Grand Army of the Republic, and late Adjutant of Carlton post, Santa Fe, were held Wednesday afternoon at 4 o'clock. The Post hall was crowded with friends and comrades of the deceased. Rev. W. A. Cusper preached the funeral sermon and Jacob Weimer, post commander, officiated. The remains were laid to rest in the United States National cemetery, side by side with hundreds of comrades who had gone before. The pall bearers were J. W. Blanchard, J. Cortez, J. P. Victory, William Bolander, J. Martinez and G. S. Blunt.

**SANTA FE TEACHERS.**

Board of Education Held Meeting and Made Selections.

The city board of education of Santa Fe held a special session for the purpose of electing teachers for the ensuing year for the Santa Fe public schools. The teachers were chosen: Ward 1, Miss Grace M. Bates; ward 2, Miss Louisa Schnepf and Miss Amelia Gutterman; ward 3, H. R. Cornish, Sault St. Marie, Michigan; principal of the high school, Mrs. R. G. Broder of Rock Springs, Wyoming; assistant principal, Miss Grace Hall; fifth and sixth grades, Miss Gertrude Dubson of Espanola, third and fourth grades, Miss Bertha Schaeffer of La Veta, Colo., first and second grades, The election of the kindergarten and Spanish teachers was postponed until a later date, as was the selection of another teacher for ward 1.

**Commencement at Purdue.**

Lafayette, Ind., June 9.—Nearly two hundred students were graduated from Purdue university at the annual commencement exercises today. The address to the graduating class was delivered by Charles Emory Smith of Philadelphia, former post master general.

**VULTURE MINE JUMPED IN SENSATIONAL MANNER**

News has reached Phoenix that the famous old Vulture mine, presumed to have been patented years ago, has been jumped in the past few days in a bold sensational manner.

Chas. L. Kingsley was the jumper, and so far as known at Phoenix is coolly and deliberately holding down the old mine, the fame of which, for its richness, has been part of the history of Arizona. Few, if any, ever dreamed that it was not patented. It appears that Kingsley went onto the property with twelve men, coolly pitched a tent, fired a shot, hunted up the watchman, Dan McNeil, and went to putting up monuments on the mine-ten or more claims. McNeil made no resistance, but went to Wickenburg and wired the owners in New York.

It appears that Geo. W. Sanders had charge of the property for some time before his death and made and filed affidavits of having done the proper amount of assessment work for 1903. On the truth of these affidavits the matter of ownership will hinge.

The famous old producer has been shut down for a number of years and has been owned by many different people. The original discoverer was the old pioneer, Henry Wickenburg, it is found in 1863 and sold to a New York concern represented by James Cusumery. Wickenburg was to have received \$20,000 for the mine, but died in poverty while the purchasers were reaping in big dividends after swindling the discoverer. The first one was mined from the Vulture in July, 1864, in an astro. In a short time forty-eight assays were going and in 1865 an eight stamp mill was put up and an area of great production commenced.

**WEEKLY CROP BULLETIN.**

Santa Fe, N. M., June 7.—The temperature has averaged somewhat below normal, the nights especially being cool causing slow growth even where situation otherwise was favorable. Good local showers occurred the latter part of the week, over the northern half of the territory, greatly improving farming and range conditions, elsewhere light showers or entire absence of rain are reported, and the outlook continues serious. Hail accompanied the showers in some parts, damaging crops in small areas. In the northeastern counties, range is greatly improved, streams are flowing and stock water is more abundant with some water available for irrigation; in the southern districts, however, no material improvement is reported, barring small irrigated areas, and farming and stock conditions remain grave. Wheat is turning yellow from drought and heading very low; stock losses from starvation are great, plowing and planting have been impossible and timber losses continue heavy.

Alfalfa harvest is beginning in northern counties, but the crop is light even on irrigated lands. The week closes with more favorable shower conditions and encouraging outlook for the northern half of the territory.

The following extracts are taken from the reports of correspondents: Albert—H. M. Hanson—One or two light showers but moisture still insufficient, and grass extremely scant. Stock generally in poor condition; lambing over and increase has been slight, probably offset by loss in old sheep; better conditions reported from the extreme north end of the county. Rainfall, 0.38.

Arabela—A. M. Richardson—Still dry, no rain since the small showers of last week; no vegetation starting.

Deming—C. B. Bowick—Weather continues to be very dry, and little prospect for showers; cattle reported suffering.

Fort Wingate—John Woodgate—A dry windy week; light local showers west and southwest of here have freshened up the grass a little, but water is scarce and the country very dry.

Gallinas Springs—Frank H. Clark—Not enough rain to do much good; some planting done this week, corn and beans.

Glencoe—Anna Coe—Dry, Windy weather prevails.

Robert—W. H. Hough—Very dry with high winds; corn looks fairly good; wheat heading very short; fruit falling badly; vegetation looks good, where sufficient water is obtained.

Laguna—Gus Weiss—Still dry, no rain since last report; wheat about six inches high but turning yellow from lack of moisture. Very strong westerly winds blew during the week, drying out the soil rapidly. The wool clip is light; losses of cattle, horses and sheep by starvation will be very heavy; water for stock getting short.

Las Vegas—Wm. Curtis Bailey—Cloudy the latter part of the week with high winds and dust storms; showers Sunday; cooler the night of the 4th.

Lincoln—Geo. A. Peter—Drought continues, stock dying; no grass; no plowing yet done on the dry ranches; springs in the Capitan mountains are falling fast; more timber dying each day; high winds prevailed during middle of the week.

Los Alamos—Wm. Frank—Conditions continue unfavorable; good clouds come up, but are dissipated; some high, cold winds. On the 5th a very heavy rain fell during the afternoon, filling the water holes.

Maxwell City—Wm. French—Water for irrigation still scarce; grass starting nicely, but growth slow, owing to cold nights; stock now doing well.

Miera—Franco Miera—The showers of the latter part of May did some good, grass has made a start but is very slow, sheep begin to pick it; cattle very weak and some dying. Rain has been very light in this vicinity and much more is needed; lamb-

ing is over, with very poor result; good increase in calves. Mountain—John W. Corbett—Rain and hail during afternoon of the 5th, amount, 1.12 inch; vegetables damaged by the hail; storm heaviest north and east of the station; apparently no rain on the mountains. Ojo Caliente—A. Joseph—Very light showers have fallen, not sufficient to do much good; water in streams disappearing rapidly; crops on irrigated land look promising. The alfalfa crop is being harvested; yield somewhat below average, owing to long continued drought.

San Rafael—Chas. M. Grover—Most pleasant week of the spring, nights more mild and windy days less frequent; crops thriving, alfalfa beginning to bloom, and some volunteer wheat observed with well filled heads; bulb onions forming sets; wild grass growing fairly well; gardens in splendid condition; corn making a good stand; some indications for rain.

Santa Fe—U. S. Weather Bureau—Light showers in the valley and vicinity, but insufficient to materially benefit fruit crop of range; water supply continues exceedingly low, scarcely enough for domestic purposes and none for irrigation. Temperature during the week was slightly below normal; precipitation 0.92 of an inch.

Vernon—H. W. Adams—Local showers, with snow in the higher districts on the 2nd and 3rd; nights continue cold and vegetation making slow growth.

Wagon Mound—J. L. Gunn—No rainfall worthy of note; cooler weather during the latter part of week, with slight frost; alfalfa and gardens doing moderately well; stock still shrinking.

CHARLEY E. LANNY,  
Section Director.

**LOCAL PARAGRAPHS.**

From Wednesday's Daily Citizen.

The attorney of the secret service department of the Santa Fe is in the city or company business.

Hon. T. B. Catron, the political warrior of Santa Fe, who was at Denver on legal matters, has returned to the territorial capital.

A. S. Barner, general agent of the Denver & Rio Grande railroad, Santa Fe, went south via the Santa Fe Central on railroad freight business.

The Santa Fe Central railway has placed on sale round trip tickets to Chislercroft and return to Santa Fe, good until September 1, at \$15.30.

Horace J. J. Custers of the Santa Fe coast lines, with office in Albuquerque, has gone to Topeka to make preparations to move his family home.

Eugene J. A. Langston has taken the place of Eugene Schlutz on the branch running from Lamy Junction to Santa Fe. Eugene Schlutz is taking a month's vacation.

The family of D. Sullivan, general superintendent of transportation for the El Paso & Northern arrived at Alamogordo from Tucuman and will make that city their home.

J. C. Burnett, commercial agent of the freight department of the Atchison, Topeka & Santa Fe at Pueblo, Colorado, has been appointed division freight agent at Newton, Kansas.

General Manager W. D. Lee of the Santa Fe Central, Mrs. Lee and sons, left the Capital City for the Antelope Springs ranch on the Santa Fe Central for an outing. Charles F. Malone Mrs. Lee's brother, accompanied them.

At the annual meeting of the board of directors of the Des Moines & Fort Dodge railroad it was definitely announced it would pass out of the control of the Rock Island on January 1, and be merged with some other system, the name of which was not given, but presumed to be the Minneapolis & St. Louis.

Mr. and Mrs. Geo. Craig, Mr. and Mrs. Harry Hestey, H. Kin-kaid and Miss Jessie Walde, who have been camping on the Rio Pecos the past couple of weeks, arrived home last night. They report having had a good time, but say that fishing was very poor. Water in the river is very low.

The bolliermakers' dance, which will occur at Colombo hall on Monday night, promises to be one of the delightful social affairs of the season. Colombo hall has recently been enlarged and remodeled so that a very large crowd can be accommodated. The floor has been put in elegant shape for dancing. The music will be furnished by the Berry-Divine orchestra.

A few days ago, W. H. Smith, station agent of the Santa Fe railway at French, Colfax county, was arrested on the charge of stealing merchandise from freight cars. It is reported that he sold several cases of eggs, several mules of sugar and a quantity of brass, all of which, it is alleged, was obtained from the railroad company.

The Rock Island has let out some of its Goodland, Kansas, employees because of slack business. Those affected in the train department are nine engineers, sixteen firemen, nine brakemen, and 7 firemen promoted to engineers about a year ago are reduced to firemen. In the mechanical department two bolliermakers, four helpers, two car repairers and five round-house laborers on the night shift were let out.

The suit instituted by Agent Weller resulted in a compromise, the company agreeing to pay taxes to the extent of \$312,000. Weller prayed the recovery of only \$1,000,000, while Mr. Bled asks for \$3,000,000. This difference arises out of the difference of conception of the defendant's liability. Mr. Bled contends that the Southern Pacific is a holding company, and that as its holdings are in Kentucky it must pay taxes here on its holdings everywhere, including steamboat, steamship and railway lines over the world at large.

**MEETING OF CITY COUNCIL**

**Sidewalk Amendment--City Treasurer and Clerk Reports--Over Six Hundred Dollars Collected by Police for May.**

**Traction Company Must Even Up Crossings--Police Committee After Bicycle Riders--Burial Grounds for the Pauper Dead.**

**FIRE CHIEF DISCUSSED--FINANCE COMMITTEE REPORT**

The city council held a very important meeting yesterday afternoon, it being an adjourned meeting of Monday night.

All members were present and Mayor McKee, with the exception of Aldermen Wilkerson, Hanley and Brockmeyer who were off taking their summer vacation.

The sidewalk ordinance relative to the west side of South Second street, was amended to read "making walk eight feet instead of six feet."

The city treasurer made his report, showing a balance in the treasury and in the credit of the city of \$6,611.64 up to June 1.

The city clerk made his report, showing licenses collected for the month of May amounted to \$993.75.

Archie City Marshal Cooper made his report, showing \$650 collected from fines for the month of May, thus proving that times have been exceedingly good in police circles.

The Albuquerque Traction company, builders of the electric street railway, was requested to immediately fix up the crossings and fill in the streets in accordance with franchise and ordinance on the subject.

The bonus of J. L. Bell & Co., an licensed plumbers and drain layers, were submitted and approved.

The police committee was instructed to see to it that the police strictly enforce the ordinance relative to bicycle riding on the sidewalks, and that all violators be promptly taken before the police magistrate and fined.

The police committee reported that they had secured a piece of land from the Board of Education to be used for the burial of the pauper dead, and asked for further time in which to make final report of their action to the council. The request was granted.

An ordinance regulating the requirements and specifications as to the building of cement sidewalks was read for the first time and laid over for action at the next regular meeting of the council.

The appointment of a fire chief was fully discussed, and the matter left with the fire committee with the request that the committee make a report and with the recommendation of some one's appointment at the next regular meeting of the council. It is understood that an outside man, thoroughly familiar with fighting fires under the most trying circumstances and who will make it his exclusive duty to fight fires, will be appointed.

The recommendations and endorsements of several men from big eastern fire departments were submitted and read to the council yesterday afternoon.

Then came the reading of the following report of the finance committee:

May 19th, 1904.  
To the Honorable Mayor and Members of the City Council.

Gentlemen:

In accordance with your direction that the finance committee make a report to the council as to the condition of the finances of the city we beg leave to submit the following:

In compliance with the order of the council on the various city officials to submit reports as to the probable expenditures of their departments reports have been received by members of this committee and we understand that each member of the council, which call for expenditures of these departments as follows:

Police department ..... \$ 712.00  
Fire department ..... 7,800.00  
Street department ..... 12,810.00  
Sewer department ..... 2,114.00  
Sewer department ..... 2,114.00  
Interest on bonded indebtedness, salary treasurer, park and library funds .. 10,200.00  
Salary clerk and office expenses ..... 1,225.00  
Building sinking fund ..... 2,000.00  
Sundry expenses as shown in report of clerk ..... 14,942.00

Total ..... \$58,942.00  
We find that the total income of the city during the past fiscal year was \$46,000 and that it probably cannot exceed from forty-six to forty-eight thousand dollars this year. On the above basis of expenditure there would be a deficit at the end of the year of from ten to twelve thousand dollars.

We find upon examination that the amount of the police department cannot be cut any without discontinuing the employment of a policeman; this we would not recommend at the present time.

We find that the interest on bonded indebtedness, salary of treasurer cannot be changed and we do not recommend any change in the levies for park and library, and that the amount above given would therefore stand.

We find the salary of the clerk fixed and the office expenses put at only \$25.00 and there can be no cut there for in that department.

We are unable to find where we can make any cut in the sundry expenses amounting to \$14,942.00, as shown in the report of the clerk; these amounts are practically fixed for the coming year.

We find that the expenses of the fire department for the last fiscal year, not including salaries, was \$2,417, and we find that the salaries of the fire department as at present constituted is \$3,660 per year; we also find that the council has ordered an expenditure in this department of about \$400 for a team of horses which seem to be absolutely necessary; we would recommend that the expenses of this department be limited for the year, including salaries and this \$400 for the horses, at \$4,060.00.

As to sewer department, we would recommend that the city do not purchase any more sewer pipe. We find that we have on hand a bill for our sewer pipe, which we have to pay, and we recommend that this department be limited to an expenditure for the present year of \$1,400.

As to the street department we find that during the fiscal year ending April 15th, 1903, that only \$1,500 was spent in that department which does not include salary of street commissioner, that in the fiscal year ending however in April, 1904, the expenses of this department had been increased one-half or fifty per cent, leaving out in both years the salary of this department for the past year the salary of the street commissioner, in other words that the expenses of this department for the past year was \$6,807, not including salary of the street commissioner, an increase as we say of fifty per cent over the previous year. This we think is entirely too great an increase and we recommend that this department be limited in its expenditures for the present fiscal year to \$7,000 which amount is to include the salary of the street commissioner.

We would recommend that when levies are made for the year that the levy for a sinking fund for city building be made as heretofore and that that fund be left intact, which would be about \$2,500 for this year.

Figuring the expenditures upon this basis the total amounts to \$48,687.00. We can hardly hope to receive that amount in the way of income and it may be that we will later have to further reduce our expenditures.

We would recommend that the balances as shown in the different interest funds which balances amounted at the end of the fiscal year to \$2,966.76 be transferred to the general fund. After this amount is transferred to that fund we find that after deducting outstanding warrants, which amounted at that time to \$7,378.45, would leave a balance in that fund at the beginning of the present fiscal year of \$1,132.24.

We would therefore recommend the passage of the following resolution which is attached to and made a part of this report.

Respectfully submitted,  
LOUIS H. FIELD,  
Chairman Finance Committee.

On the conclusion of the reading of the above report the following resolution was submitted and adopted:

Resolved, that the treasurer of the City of Albuquerque be instructed to transfer on his books the balances in the various interest funds as shown by his books and report of April 15th, 1904, to the general fund.

Resolved, that the expenditures of the City of Albuquerque, be, until further order of this council, limited as follows, and that the various departments affected be instructed to incur their quarterly expenditures as nearly as possible upon that basis:

Police department ..... \$ 7,200.00  
Fire department ..... 4,800.00  
Sewer department ..... 1,400.00  
Sundry expenses as shown in report of city clerk ..... 15,000.00  
Sewer department ..... 7,000.00

The meeting was one of the best yet held by the new council, and as outlined above, the members did a big lot of business of interest to the city.

Virginia Favors Parker.  
Richmond, Va., June 9.—Pursuant to call the democratic state convention of Virginia assembled in Richmond today to select delegates to the St. Louis national convention. The general impression is that the delegation will be sent to St. Louis un-

denied, though there appears a marked sentiment among the party leaders in favor of the candidacy of Judge Parker. Indications point to the selection of Senators Daniel and Martin, Governor Montague and A. C. Braxton as the four delegates at large.

At the meeting of the board of regents of the Silver City Normal school, held the other afternoon, the business of the quarter was settled, as likewise many questions arising in regard to the dormitory for which the excavation is now being made.

The teachers for the ensuing year as elected by the board are as follows: Prof. C. M. Light, Prof. H. A. Owen, Prof. R. P. Agate, Prof. E. F. Dunlap, Misses Sarah Ellis, Mary Eckles, Alice Bailey, Keturah Swartz and Anna B. Ashbolder. Two new teachers have been secured. The first, Prof. E. L. Eadie, has been elected as principal of the Training school. He comes to Silver City from Trinidad, Colo., highly recommended. His record is principal of village school, principal of normal school, superintendent of city schools, and principal of county high school. The second new teacher is Miss M. E. George, who is to take charge of the kindergarten work in the Training school. Miss George is a graduate of the School of Methods, of Oswego, N. Y., and of the Buffalo normal school. She was superintendent of district schools in Seneca, N. Y., for two years, was principal at the high school at Fayette, N. Y., for two years, and was superintendent in the primary and kindergarten work in Portville, N. Y., for three years. She comes to Silver City highly recommended.

It is thought probable that Prof. E. F. Dunlap will take a year's leave of absence this coming spring.

We have found indictments in eight cases, and in three cases no true bills were found.

We have examined the books and offices of the various county officials and found the same well kept and the officials attending to their duties faithfully and conscientiously.

We have inspected the county jail, questioned the prisoners, who had no complaints to make as to the manner of treatment received from the sheriff or his deputies. We desire to recommend, that the county commissioners make an appropriation to employ a guard whose duty it shall be to reside at the jail at all times. We do this, so the prisoners may receive proper protection in the case of fire. As it is at present, should a fire occur at the jail, there are no means by which the prisoners could be saved from suffocation or being burned to death. We also respectfully recommend, that as far as practicable, prisoners who are not considered dangerous criminals, should be employed to clean the streets and alleys of the town of Gallup and repair the approaching roads to the county seat.

We deem this necessary from a humane and sanitary point of view, in order to give prisoners some exercise. The grand jury is informed that at the present time the prisoners are given no outdoor exercise whatsoever. We further respectfully recommend that a larger water pipe line be laid to the county jail in place of the one now being used, so as to carry a sufficient amount of water to be used in case of fire.

It has also come to the knowledge of the grand jury, that liquor is being sold to half breed Indians; the vendors being under the erroneous impression, that they can do so without violating the law. We recommend that the sheriff be instructed to give due warning to all parties engaged in the sale of liquor, that they will hereafter be prosecuted to the full extent of the law, is they continue to sell liquors to such persons.

We desire to express our thanks to the court, the district attorney, sheriff and other county officials, for courtesies extended and kind treatment received.

All of which is respectfully submitted:  
CLARK M. CARLIS,  
Foreman.  
W. F. KICHENHECKER, Clerk.

**SALOON FIGHT IN ROSWELL.**  
Started Over a Drink of Whisky and May Result in the Death of One of the Combatants.

A fierce fight occurred in a saloon in Roswell on Tuesday morning between two sheep shearers. The disturbance started over a drink of whisky and as a result one of the combatants is at the point of death in a hospital. The other party to the fight has escaped. Knives were used freely in the row.

**Claim Against Chinese Government.**  
Denver, June 9.—Mrs. Mary Etzel, mother of Louis Etzel, the correspondent who was killed in Chinese waters, today filed a claim against the Chinese government for \$20,000. The case was put in the hands of an attorney who will seek to aid the Washington government in forcing their claim for damages.

**DECISION OF REGENTS**

FOR THE CARRYING ON OF WORK IN THE SILVER CITY NORMAL SCHOOL.

At the meeting of the board of regents of the Silver City Normal school, held the other afternoon, the business of the quarter was settled, as likewise many questions arising in regard to the dormitory for which the excavation is now being made.

The teachers for the ensuing year as elected by the board are as follows: Prof. C. M. Light, Prof. H. A. Owen, Prof. R. P. Agate, Prof. E. F. Dunlap, Misses Sarah Ellis, Mary Eckles, Alice Bailey, Keturah Swartz and Anna B. Ashbolder. Two new teachers have been secured. The first, Prof. E. L. Eadie, has been elected as principal of the Training school. He comes to Silver City from Trinidad, Colo., highly recommended. His record is principal of village school, principal of normal school, superintendent of city schools, and principal of county high school. The second new teacher is Miss M. E. George, who is to take charge of the kindergarten work in the Training school. Miss George is a graduate of the School of Methods, of Oswego, N. Y., and of the Buffalo normal school. She was superintendent of district schools in Seneca, N. Y., for two years, was principal at the high school at Fayette, N. Y., for two years, and was superintendent in the primary and kindergarten work in Portville, N. Y., for three years. She comes to Silver City highly recommended.

It is thought probable that Prof. E. F. Dunlap will take a year's leave of absence this coming spring.

We have found indictments in eight cases, and in three cases no true bills were found.
