SAW REAL AND SHAM BATTLES

Colonel Abbott Returned Last Night From Maneuvers at San Diego

TWO WEEKS OF INSTRUCTION

Both Territories and Five States Sent Officials to California.

Governor Mills has appointed Charles M. Marshall of Chama, Rio Arriba county, a notary public. Held For Grand Jury.

Francisco Martinez was held for the action of the grand jury by Justice Garcia yesterday on the charge of stealing cattle. Martinez's arrest is said to be due to the activity of E. E. Van Horn of the Cattle Sanitary Board and Mr. Van Horn was here yesterday to testify against him.

For the Treasury.
Territorial Treasurer M. A. Otero has received the following sums for this treasury: Celso Lopez, treasurer of Santa Fe county, \$55.86; Jose y Torres, of Socorro county, \$1347.27; Jackson Agee of Grant county, \$570.01; Chris Rathel of Luna county, \$79.35; B. J. Keagan of Roosevelt county, \$394.57.

Land Entries.
The following were the land entries at the local land office yesterday: Guilford E. Dudley, Cuervo; Joseph T. Hamilton, Negra; John T. McKenzie, Santa Rosa; Frank Koenig, Farmington; Francisco Nepa, Galisteo; Abram Mirabal, Punta; Max Sisenos, Cuervo; Marcelino Ortiz, Villanueva; Esau B. Lopez, Tajique; Theodore S. Jordan, Karen, Tex.; Iva Freeman, City.

Commissioners Busy.
The boundary commissioners appointed by congress to survey the Texas-New Mexico boundary which was so well discussed in the recent congressional convention, have arrived at Texico, Curry county and will be busy engaged in their work. It is not thought likely that they will visit this part of the country after their work is over but will likely return at once to Washington to make their report.

TRAVELING IN BUGGY.

The Albuquerque Herald says: "Territorial Engineer C. D. Miller left this morning for El Paso via the Camino scenic route, for which he has been a continual booster since the inception of the scheme. Driving a light buggy, Mr. Miller has journeyed from Raton to this point, spreading enthusiasm for the project. His route will run through Belen, Los Lunas, Socorro, San Antonio and on to El Paso. Valencia county is interested in the road, he said, and Sandoval county is beginning to take interest in the project. I have no doubt that the southern counties will take it up, and then we may see the completion of something very fine in the way of a highway in a short time. The work being done by Bernallillo is among the most substantial along the route, and nothing better could be asked for the New Mexico highway."

BACK FROM CALIFORNIA.

Colonel E. C. Abbott has returned from California where he witnessed sham and real battle. The sham battles were the maneuvers of the United States troops and the real battle was that of Tia Juana between the federal and rebel troops of Mexico. Colonel Abbott said today: "There were 30 officers of the national guard of Colorado, Wyoming, Montana, Washington, Oregon, New Mexico and Arizona, and for two weeks we received military instruction. The maneuvers were of great interest and I think the trip was a very instructive one."

"We were stationed near San Diego and we could see no less than 20 war vessels, several of them first class. This was a very impressive sight."

WANTS REPORTS.

The following letter has been received from the Division of Military Affairs, War Department, and is published for the information and guidance of all concerned:
War Department, Division of Military Affairs, Washington, May 3, 1911.
The Adjutant General, Territory of New Mexico, Santa Fe.

Sir—In connection with the attendance of officers of the organized militia at the maneuver camps at San Antonio, Texas, and San Diego, California, it is believed that any reports submitted by them will contain much information in the way of comments, suggestions and criticisms that would be of value to the regular army and particularly to this office.

I am directed by the secretary of war to request, therefore, that, if agreeable, these reports or copies thereof be forwarded to the chief of division of militia affairs. All reports will be held confidential and original copies will be returned if desired.

Very respectfully,

R. K. EVANS,
Brigadier General, U. S. A., Assistant to the Chief of Staff, Chief of Division.

All officers who have attended, or who may hereafter attend joint maneuvers at San Antonio, Texas, or San Diego, California, will submit to this office immediately after their return.

to their station, a report giving any comments, suggestions or criticisms which they may desire to make regarding the maneuvers.

By command of the governor:
A. S. BROOKES,
Adjutant General.

Appointments.
First Lieutenant Charles E. Kunz is relieved from duty with Company G, 1st infantry and transferred to the unassigned list.

The following appointment, subject to examination, in the National Guard of New Mexico, is announced, to date from today: M. G. Browne of Albuquerque, to be 1st Lieutenant, vice Kunz transferred to unassigned list. Lieutenant Browne is assigned to duty with Company G, 1st infantry, and will report in person to Captain Brogan for duty.

QUIET DAY ON STOCKS AND PRODUCE MARKETS.

Wheat Showed Considerable Advance on Unfavorable Reports From Russia and India.

New York, N. Y., May 11.—Trading in stocks almost ceased this morning after the opening business has been disposed of. Price changes were meaningless. Bonds were steady. Trading showed a little more life for a time after mid-day. Reading, Union Pacific and United States steel all scored good fractional gains but prices afterwards went off a trifle. Extensive order purchases of U. S. steel carried it up 1-16 above yesterday's final prices. The upward trend of prices was maintained to the close which was strong.

WHEAT IS SOARING.

Chicago, Ill., May 11.—Unfavorable reports from Russia, India and Argentina, gave a lift today to the wheat market here. Insect damage was also mentioned as being serious. Opening prices were a shade to 7-8 cents higher. With offerings light and demand good, corn showed quite a bit of strength. Oats were firm but unusually slow. Better prices for hogs helped the provision market. Strength at foreign centers led to an additional advance in wheat in Chicago. The close was steady.

Corn was speculative buying and carried the corn market higher. The close was steady.

D. & R. G. TRAIN IS WRECKED

The Chair and Tourist Cars Plunge Into Eagle River Near Glenwood

WOMAN DEAD INJURED 27

Mrs. Catherine J. Martin of Albany, New York, Is Drowned.

(By Special Leased Wire to New Mexican)
Glenwood Springs, Colo., May 11.—Spreading rails caused a Rio Grande passenger train to leave the track at Rex last night, causing the death of Mrs. Catherine J. Martin of Albany, N. Y., who was drowned, and the injury of 27 others, three seriously. The chair car and the tourist sleeper broke from the train and the lower ends plunged into the Eagle river.

POLICEMAN MAKES MONKEY OF MILLIONAIRE'S SON.

Was No Respector of Person or Money and Pulled in Violator of Speed Ordinance.

New York, May 11.—Alan Ryan, son of Thomas Fortune Ryan, let it be known in the North Bergen police station, that he is not "Alan" to a plain policeman. Ryan, Anthony J. Drexel, Jr., and August Tschirky, an automobile manufacturer, were to be arraigned for exceeding the speed limit in their cars.

Ryan, with Tschirky, was arrested on the Hudson county boulevard Sunday night. When they came for argument before Recorder George Medino they were accompanied by friends who traveled in several automobiles. As Ryan entered the police station, Motorcycle Policeman Hugo Schroeder, who arrested Drexel Tuesday afternoon, laughed and said:

"Well, Alan, we have the goods on you this time."

ALAN FLAMES WITH ANGER.

"Do you know my other name?" said Ryan, his face flaming with anger. "Sure I know your other name Alan," laughed Schroeder.

"Well, call me by it," commanded Ryan.

"I can do that, too, Ryan," Schroeder continued to laugh.

This last was too much for Ryan. He made as though he were going to attack Schroeder, but the policeman only laughed the more.

"You know how to address a gentleman, and if you address me in that familiar way again, there'll be trouble right here," said Ryan.

Called Down By Officer.
This riled Schroeder and he bounded from his chair, remarking:

"Now I want to say a few things to you, young fellow, young Alan, young Ryan or whatever you prefer to be called. You called me Schroeder when you came into this station house. If you think because your daddy happens

WILL DEBATE THREE DAYS

New Mexico to Be Topic in House Greater Part of Next Week

VOTE PROBABLE ON FRIDAY

Senator Stone Is Less Belligerent Since Rebels Won Battle of Juarez.

(By Special Leased Wire to New Mexican)
Washington, D. C., May 11.—When the House resumes its sittings tomorrow there will be submitted the report of the committee on territories recommending statehood for Arizona and New Mexico, after the people of the territories have voted on the proposed constitutional amendments.

Adjournment until Monday then will be taken and statehood will be called up Tuesday to be debated three days. The minority membership of the committee will submit a report urging that New Mexico be admitted without the requirement of voting on an amendment. The vote is to be taken on Friday of next week.

The Senate convened this afternoon, direct election of senators being the unfinished business.

Special to The New Mexican.

Will Never Reach the President.

Washington, May 11.—Before the house committee on territories.

Chairman Flood to Delegate Andrews: "Will you consent to the house committee amendments to the New Mexico constitution?"

Andrews: "I am opposed to any amendment to the constitution adopted by 18,000 majority. Don't overlook the fact that New Mexico is in the union. The president has approved its constitution."

Chairman Flood: "Do you think the president will approve the house committee amendment to the New Mexico constitution?"

Andrews: "I most assuredly do not. You have the votes to pass it through this committee. Possibly you have the votes to pass it through the house, but it will never reach the president as adopted by this committee."

Gum Shoe Bill Simmers Down.

Special to The New Mexican.

Washington, D. C., May 11.—Senator Stone of Missouri, who on Tuesday in a speech in the Senate declared that the United States would intervene in Mexico, said today at the White House that the victory of the insurgents at Juarez and the movement of the federal troops toward the interior had relieved the embarrassment and removed the immediate necessity for intervention.

Mr. Stone said that so long as the factions kept away from the border they should be allowed to fight the war out.

The Majority Resolution.

Washington, D. C., May 11.—The majority statehood resolution, which will be reported to the House tomorrow, reads as follows:

"Resolved, by the Senate and the House of Representatives of the United States of America in congress assembled, that the territories of New Mexico and Arizona are hereby admitted into the Union upon an equal footing with original states in accordance with the terms of the enabling act upon the terms and conditions hereinafter set forth. The admission herein provided for shall take effect upon the proclamation of the president of the United States when the conditions explicitly set forth in this joint resolution shall have been complied with, which proclamation shall issue at the earliest practicable time after the results of the election herein provided for shall have been certified to the president, and also after evidence shall have been submitted to him of the compliance with the terms and conditions of this resolution."

"The president is authorized and directed to certify the adoption of this resolution to the governor of each territory as soon as practicable after the adoption hereof, and each of said governors shall issue his proclamation for the holding of the first general election as provided for in the constitutions respectively heretofore adopted by each territory and for the submission of a vote of the electors of said territories of the amendments of the constitutions of said states respectively herein set forth in accordance with the terms and conditions of this joint resolution. The results of said election shall be certified to the president by the governor of each of the territories if the terms and conditions of this joint resolution shall have been complied with, the proclamation shall immediately issue by the president announcing the result of said elections so ascertained, and upon the issuance of said proclamation, the proposed states shall be deemed admitted by congress into the Union on an equal footing with the other states."

"Before the proclamation of the president shall issue announcing the result of said election in New Mexico, and at the same time that the state election aforesaid is held, the electors of New Mexico shall vote upon the following proposed amendment to their state constitution as a condition precedent to the admission of said state, to-wit:

"Here follows the amendment proposed which is substituted for section XIX of the present constitution. This

GOVERNMENT GETS BUSY

Has Appealed to U. S. Supreme Court in Fight For Coal Lands

UNREASONABLE FREIGHT RATES

Interstate Commerce Will Investigate Charges as to Wool and Hides.

(By Special Leased Wire to New Mexican)
Washington, D. C., May 11.—The fight over probably the richest coal lands in the world, was transferred today to the supreme court of the United States when the government docketed an appeal from the order of the federal court of Washington quashing the so-called "Stracey Group" indictment.

For Lower Freight Rates.

Washington, D. C., May 11.—A comprehensive investigation of alleged unreasonable freight rates on wool, hides and pelts from western points of origin to eastern destinations was ordered today by the Interstate Commerce Commission. The inquiry will affect wool, hides and pelt rates throughout the country.

Excessive Rates.

Washington, D. C., May 11.—The investigation developed from complaints filed by the National Wool Growers Association and the Oregon railroad commission against western carriers, alleging that existing rates on wool, hides and pelts were excessive, exorbitant and discriminatory. The inquiry ordered is general in scope, the points of origin being in the states west of the Mississippi and in Illinois, and the destination being all wool and hide centers east of the Missouri river, to the Atlantic coast. It will include the investigation of the tariffs of the several hundred railroads, particularly of the transcontinental carriers. No date has been set for the beginning of the inquiry.

STRIKE PREVENTS LOSS OF LIFE

Only Few Men Were in Larksville Colliery When Fire Broke Out

FIVE OF THEM PERISHED

Had Full Force Been in Mine Casualties Would Have Been Frightful.

(By Special Leased Wire to New Mexican)
Wilkesbarre, Pa., May 11.—Five miners lost their lives by suffocation in the Boston mine at Larksville, near here today.

A strike began at the colliery Tuesday and only a few men were at work. Had the full force been engaged the loss of life would have been appalling. Fire broke out last night in the mine but it is said to have been gotten under control. After midnight the odor of smoke was detected and another alarm was sounded.

Eleven men at work made their way to the main gangway but were overcome by smoke. Rescue parties, at the risk of their lives, entered and brought out as quickly as possible. Several of the rescuers were overcome by the smoke and one of them was prostrated. He was rescued by another rescuing party.

provides that an amendment may be provided in either House of the legislature, and that a majority of each House voting separately shall cause the amendment to be entered on the respective journals with the yeas and nays thereon. The amendment shall be voted on at the next regular election after the adjournment of the legislature or at a special election to be held not less than six months after the adjournment of the legislature. A majority of the electors voting at such an election ratifies the amendment without regard to the vote in any different counties. Amendments affecting the elective franchise or sections 8 and 10 of article 12, on education, must be proposed by a three-fourths vote of the members elected to each House.

It is further provided that the fifth clause of section two of the enabling act be amended so as to read as follows: That said state shall never enact any law restricting or abridging the right of suffrage on account of race, color or previous condition of servitude. This cuts out the safeguards for the Spanish speaking people.

Reciprocity Hearing.

Washington, May 11.—The country and city were arrayed against each other today at the Canadian reciprocity hearing before the senate finance committee. The conflict was sharp. Farmers from Minnesota and North Dakota denounced the agreement as an iniquitous while members of boards of trades from cities along the international boundary indorse it unqualifiedly.

POLITICAL JOBS PRICE OF PEACE

Madero Wants 14 Governorships and 4 Cabinet Portfolios

JUAREZ IS THE REBEL CAPITAL

Colonel Rabago With Large Federal Army Is Marching From Chihuahua.

(By Special Leased Wire to New Mexican)
Agua Prieta, Mex., May 11.—Eighty insurgents commanded by Colonel Santiago Cameros, the advance guard of Girones force, arrived in Agua Prieta early today, took possession of the town and set up a temporary military government. Armed guards were stationed in the streets and at all the municipal buildings. The international line was closed by the rebels, who permit only persons with passes to cross. The same regulation is in force on the American side of the line. Colonel Cameros crossed to Douglas today and conferred with the rebel Junta. Before night, a full set of provisional officers will be appointed to take charge of the customs house, postoffice and other departments of government. Every effort will be directed toward restoring normal conditions under rebel control.

Next Big Battle at Naco.

Naco, Mex., May 11.—The federal army that evacuated Agua Prieta yesterday arrived here last night. It is thought Del Rio will be their next immediate objective point. At Del Rio, the railroad from Cananea, forks, one branch extending to Nogales and the other to Naco. It is possible that the federal force may proceed to Nogales to keep open that important port. If this is the purpose of the federal commander, the next serious battle probably will take place at Nogales, which is separated from the American town only by a street one hundred feet wide. There is also a probability that the federals are hastening to assist in the protection of Hermosillo, reported in grave danger of capture by the rebels. It is unlikely, however, that the federals will be permitted to reach Hermosillo without engaging the numerous bands of rebels scattered between Hermosillo and the border.

Rebels Mostly Americans.

Tia Juana, Lower California, May 11.—Conditions in Tia Juana are nearly normal this morning except for the presence of the unusual number of heavily armed men, nine-tenths of whom are Americans.

As far as known, there is no federal force near enough to Tia Juana to cause alarm.

Preparing for Trouble at Embassy.

Mexico City, May 11.—The members of the diplomatic corps, resident in Mexico City, today met in the United States embassy, upon invitation of Henry Wilson, the U. S. ambassador, to plan concerted action for the protection of aliens in the event that the situation in the capital reaches a stage necessitating the taking of measures to defend themselves.

Yaqui Uprising.

Douglas, Ariz., May 11.—The rising of the Yaqui Indians has furnished a new and disturbing element in the acute situation in Sonora. Prominent Americans who arrive from Guaymas brought meager details. The Indians captured Ortiz, looting the stores and pouring liquors into the streets.

Juarez the Rebel Capital.

Juarez, Mex., May 11.—Comfortably lodged in their new provisional capital, the taking of which, the rebels declare, will make prospects of recognition by foreign powers much brighter, rebel political leaders today were conferring with General Madero and revising the demands made before the battle. They are strengthening their position and will continue to insist on a real participation in governmental affairs and such privileges as the naming of men from their party for governors in fourteen states and four portfolios in the cabinet. The attitude of the rebels on the question of the resignation of President Diaz hardly has crystallized yet. Dr. Vasquez Gomez, one of the rebel peace commissioners, declared today it still was the paramount question. With reference to the contention of the government that the insubordination in the Madero ranks provoked the attack on Juarez and that General Madero is not in control of his soldiers, the rebels charge trickery on the part of the government to disseminate the opinion that a state of anarchy is prevalent in the republic and that therefore it would be fatal for Diaz to abdicate. The insurgents are determined not only to hold Juarez but to prevent a fight in this vicinity if possible. Plans were being laid today for a force of several hundred men to march south to meet Colonel Rabago, the federal leader reported on his way here from Chihuahua with a good sized army.

General Navarro Paroled.

The town was quiet early today. The inhabitants slept peacefully in their homes while insurrecto sentries guarded the town. General Navarro, who was paroled with his officers last night, spent the night in the same house with General Madero. Though the federal commander now has been given the liberty of the city, he does not deem it safe to be seen much about town because there are said to be several insurrectos who cherish a grudge against him for alleged bay-

onetting of the wounded in other battles of the revolution.

American Criminals Pour Into Juarez. General Madero told an Associated Press reporter today that many American criminals, pickpockets, and suspicious characters had gotten into Juarez giving the impression that they are insurrectos. He has therefore ordered, he said, that American secret service men be allowed to cross into Juarez and arrest any criminals whom they know. Every effort, he said, is being made to restore order.

Stores are being guarded closely. In front of each sits an insurrecto, his rifle by his side, but his black eyes peering from under his sombrero at all loiterers. Saloons are closed and most of the liquor has been destroyed. Saved Federals From Terrible Fate. The federal officers today are loud in their praises of the treatment they are receiving at the hands of the insurrectos.

Many people think General Navarro never should have surrendered, but one look at the emaciated, exhausted soldiers, their throats parched from hunger and thirst, was convincing proof to the federal commander that he was saving his men from a terrible fate. The insurrectos cut off the water supply early in the fight and took away all provisions as they made their way to the federal strongholds. The federals had made no preparations for a siege within their own town.

Orozco Was Sore.

General Pasquel Orozco, commander of the rebel forces, had blood in his eyes today as he stood for a time at the international bridge and refused to permit any one from El Paso to cross into Juarez, even though they had passes from Colonel Stever through the American lines. It appears that General Orozco and his staff last night were invited to a banquet by Mayor Kelly of El Paso and the American troops would not permit Orozco and his officers to cross.

Colonel Stever Upheld.

Washington, May 11.—The course of Colonel Stever in preventing General Orozco and other insurrectos from crossing to the United States side to attend a social function in El Paso is approved by the war department as representing its policy at the present time. Neither federals nor insurrectos it is pointed out, have so far been permitted to cross except to surrender.

Conservatives Advise Peace.

The rebels already have about 300 men at Casas Grandes and probably will open fire on Rabago when he arrives there.

Though the revolutionists are flush with victory, and some of them are eager to pursue the fight with increasing vigor throughout Mexico, till the capital of the republic shall have fallen, conservative rebel leaders are hoping that the bloody battle of Juarez will be the last chapter of the military side of the revolution. Having demonstrated their strength in the field, they now wish to turn their attention to the argument of words and public opinion. The insurrectos today are the conquerors in a town which is the most important capture of the revolution, not only because of the fact that it is a port of entry to the United States and the insurrectos believe that in the next 24 hours food and supplies will be crossing the line to them unmolested, but because they are now in possession of about 450,000 rounds of ammunition, several machine guns and field pieces, about 700 Mauser rifles and enough ammunition belts and other warlike sundries to wage furious war-fare for some time to come.

Latin American Comments Taft.

Washington, D. C., May 11.—President Taft's policy of non-intervention in Mexico is already bearing fruit. Director General John Barrett of the Pan-American Union, who is closely in touch with Latin-American affairs, told the president today he had received hundreds of letters from Americans, foreigners and Mexicans in Mexico, commending the Taft policy of hands off.

Help From United States.

Washington, D. C., May 11.—Food and medical supplies and other materials needed by the people of Juarez will be permitted to cross the international bridges at El Paso. Insurrectos are the Secretary of War to that effect probably will go forward to Colonel Stever during the day. United States Consul Edwards at Juarez reported to the state department today that he had been considerably treated by both federals and insurrectos during the siege. Thanking President Taft for his firm stand against intervention in Mexico, a telegram signed by Methodist missionary Butler, Presbyterian missionary Vanderbilt and Baptist missionary Brewer, in Mexico City, was received in White House today. "Foreigners and natives whom we meet throughout the country are equally grateful," concluded the message.

Funeral of Tamborel.

Juarez, Mex., May 11.—The insurrectos today did honor to the memory of Colonel Tamborel, federal leader, killed in the fighting, by escorting his body to a cemetery and sounding taps over his grave. At the head of the procession was a member of Tamborel's staff, who was given back his rifle for his last ride with his chief. Tamborel, whose taunts the insurrectos declare started the fight that resulted in the capture of Juarez, was wounded twice and captured and rescued before he met death. Fighting in the trenches the first day, he received a scalp wound and a wound in the leg. Captured by insurrectos in one of their mad rushes, he was re-captured a few minutes later by a desperate sortie. Then, in

SANTA FE IS ENTHUSIASTIC

Will Entertain More Tourists This Summer Than Ever Before

GOOD PLANS FOR FUTURE

Chamber Commerce Holds Well Attended and Enthusiastic Meeting.

The special meeting of the Chamber of Commerce last evening was well attended and enthusiastic. How enthusiastic, was manifest from the fact that \$100 were subscribed right then and there, toward putting the road to the Rito de los Frijoles in good shape, and \$255 toward the Fourth of July celebration, the scope of which was explained by W. Frank Owen, chairman of the finance committee who will shortly make the rounds with the subscription list.

President Samuel G. Cartwright was in the chair and Secretary C. G. Ritchie and Treasurer H. S. Kaune were present.

A resolution was adopted asking the railroad companies to give the city and the county as low or a lower rate on road making machinery from Racine, Wisconsin, than El Paso, 300 miles further away is given, the El Paso rate being \$1.04 per hundred, while the Santa Fe rate is \$1.21 per hundred.

Dr. Edgar L. Hewett presented the cause for which the meeting was called, that of putting up to the citizens of Santa Fe the great opportunities that this tourist season presents to Santa Fe. Dr. Hewett dwelt on the free advertising worth thousands of dollars that had been given Santa Fe lately through magazines, through scientific publications and otherwise, and the fact that it is the chief dwellings and the School of Archaeology that are the direct and indirect motives of this free publicity given by renowned writers in leading magazines where it reaches millions of readers. He predicted that Santa Fe would receive as many visitors as it could possibly accommodate this season, and that there is practically no limit to the number it might receive through well planned publicity and if the proper accommodations were provided here. He spoke of the summer school in the Rito de los Frijoles as the nucleus for a Chautauqua movement that would overshadow other Chautauqua, as it presented features that were absolutely unique and very attractive. From the scientific standpoint and that of the School of American Archaeology, there is no object in increasing the attendance of the summer school, for as many were here last year already as could be accommodated, but there can be no objection to the people of Santa Fe building on this foundation and making a big and popular thing of it. The services of the staff of the School of Archaeology would be given free of charge and that would cut expenses in half. Santa Fe already has received abundant publicity and the specific advertising needed would amount to only a few hundred dollars. A private corporation should be organized to build a tent city in the Rito and first of all a road should be constructed so that the trip to the Rito could be made easily in automobile for other vehicles. Mr. Hewett applauded the idea of a De Vargas pageant and amplified it with the suggestion of a spectacular week in the Rito with caves illuminated and the civilization of the cliff dwellers reproduced in vivid drama.

Mr. Hewett was applauded and his suggestions met with ready approval. The financial rock alone, loomed formidably in the way of development along the lines proposed.

It was shown that the official folder of the National Educational association of the Santa Fe railroad just issued and which will be placed in the hands of the thousands that will travel to the coast this summer, has an advertisement of the free side trip from Lamy to Santa Fe. It was also reported that Colonel R. E. Twitcheell and the Santa Fe had in preparation a fine, illustrated folder devoted entirely to the attractions of the city of Santa Fe. There were other reports which indicated that Santa Fe would have the biggest tourist season in its experience and L. A. Hughes declared that Santa Fe should even now prepare for the even greater rush westward in 1915 during the Panama exposition.

\$100 for Road.

A subscription taken at that point realized \$100 to repair the road to the Rito de los Frijoles. To this, it is expected, that the board of county commissioners will add \$100, and the Good Roads Commission will double the sum making \$400 available, to place the road in condition for travel this summer. W. Frank Owen, chairman of the road committee, will make a trip over the road next week and will then ask Warden Cleaves to give him sufficient number of convicts to build a short cut in the Water Canyon and to drag all the high centers in the road.

The matter of providing accommodations to visitors in the Rito was left for the regular meeting of the Chamber of Commerce next Tuesday.

A license to marry was at Albuquerque granted to Winifred Olive Ledbetter and Earl Frederick Sleeper both of Albuquerque.

Judge Bolton is Dead.

Judge E. A. Bolton died at Roswell. He was aged 55 years and interment will take place at Conway, Arkansas, his former home.

Suit Cases Recovered.

Two heavy suit cases, with \$300 plunder taken from the Kahn store at Albuquerque have been recovered from the burglars arrested at Las Vegas.

Patient Escapes.

Jose Ullbarri, a patient at the New Mexico asylum for the insane at Las Vegas, escaped from the institution but was captured a few hours afterwards.

Land Suit in Federal Court.

Mack Highfill of Union county, is on trial in federal court at Las Vegas, the government seeking to cancel a desert entry on which Highfill secured a patent.

Home Burned to Ground.

The three room residence of Robert Crawford, near the R. P. Bean place, two and one half miles southeast of Roswell was completely destroyed by fire.

New Minister for Raton.

Rev. J. B. Torres has been transferred from the Raton Spanish Presbyterian church to Tucuman, and Rev. T. Josa of Tucuman, has been given the Raton charge.

Records Broken in Price of Land.

A ten acre orchard southeast of Roswell was sold this week for \$12, establishing a record price. It was bought by S. B. Clark of New York. The orchard was part of the old R. F. Barnett place.

Two Deaths at Las Vegas.

Vidal Tapia died in West Las Vegas and Mrs. Francisco Rebledo, aged 50 years, in the same part of the Meadow City. She succumbed to pneumonia, her husband being seriously ill with the same disease.

Fleming Resigns.

At the regular meeting of the board of directors of the Commercial club of Las Vegas George A. Fleming, who has been secretary of the organization since October, 1906, submitted his resignation.

Married at Roswell.

W. F. Reed, at one time a piano agent in Santa Fe, was married at Amarillo, Texas, to Miss Carrie Whitman of Roswell. Mr. Reed is at present in the insurance business. The couple will live at Dalhart, Texas.

Fined \$50 for Not Taking Out Permit.

Charged with building a house without first securing a permit, J. R. Quintana was arrested at Las Vegas by City Marshal Coley. When brought before Justice of the Peace Murray, Quintana was given a fine of \$50 and costs.

New Physician for Albuquerque.

Dr. Arnold Minnis, a graduate of the Western Reserve Medical college, who was licensed to practice medicine in the territory at the last meeting of

the medical board, yesterday filed his papers with Probate Clerk Walker and proposes to locate in Albuquerque.

Planted 10,000 Trees.

More than 10,000 trees have been set out this spring in the Zuni and Manzano forests. In the Zuni district 5,250 yellow pine were set out while in the Manzanos, Douglas fir was set out. In addition 35 acres in the Manzano forest have been seeded to Douglas fir and yellow pine.

Knights of Columbus Officers.

The New Mexico Council of Knights of Columbus has elected O. N. Maron, state deputy; F. E. Wood, state secretary; Dr. W. R. Tipton, state treasurer; E. R. Streicher, state advocate; T. A. Murphy, state warden; Rev. A. Rabeyrolle, state chaplain. Las Vegas was selected as the place for the next state convention.

Las Cruces Votes Bonds for Sewer System.

The progressive citizens of Las Cruces voted 13 to 1 on Tuesday in favor of the \$75,000 bond issue for an up-to-date water works and a sewage system. There were 130 votes cast for the water system, 129 votes cast for the sewage system and 9 votes cast against each. The bond issue calls for \$35,000 to be used for the sewage system and \$40,000 for the water works.

Woman Assaulted in Las Vegas Saloon.

Mrs. Anderson Taylor who was assaulted in the Cabinet saloon at Las Vegas, is reported to be in a serious condition. Her face is badly swollen and she is unable to use her right eye. The woman needs medical attendance, but it is asserted, she is unable to secure it for lack of funds. Though the man charged with assaulting her was released after a hearing in justice court her husband says he will make complaint before the district attorney and have the case brought before the attention of the grand jury.

MOUNTAIN HEALTH SEEKERS' COLONY AT GLORIETA.

Only Eighteen Miles From Santa Fe—It Will Be Eventually Tributary to This City.

A health seekers' colony of at least 20 cottages is the enterprise being worked out by George Williamson of Glorieta on the big Williamson ranch of 460 acres, at the foot of Glorieta mountain. Mr. Williamson reports two of the model cottages completed while work will progress steadily on the others as the demand grows.

Mr. Williamson's plan is a most attractive one; to furnish comfortable and cheap homes at a reasonable rental with all the conveniences of a city immediately available. Meat, ice, eggs and other commodities are to be shipped in and delivered to order at the doors of the cottages. Running water is to be piped to each cottage, and the purest mountain water at that. The location is ideal, the main entrance to the ranch property being right at Glorieta while the cottages will be within 20 minutes walk of the railroad station. The scenery is magnificent with the Pecos river and its splendid mountains, fishing and hunting right at the door. "These cottages are positively the last word in tent houses," said Mr. Williamson yesterday. "The lumber is finished and painted, the construction is the best possible, and the roof of each house is a canvas fly with air space and a cedar shingled roof overhead for protection in case of rain. They are to have every modern convenience for housekeeping. We have built two types of cottages, the large one of two rooms, with dimensions over all 12 by 24 feet, is the style that we shall follow. There are glass windows and doors and the cottages are built so as to combine tightness and permanency with every facility for fresh air and sanitation. Everything is finished

Woman's Happiness

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes.

Mother's Friend

is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

BRADFIELD REGULATOR CO., Atlanta, Ga.

in the attractive mission style and we believe we have selected as nearly a perfect a type of out door home as could be devised."

Mr. Williamson has already spent some \$1,500 on the enterprise and expects to spend a great deal more. It is believed that such a scheme as this will fill a long felt want, and that this will be the foundation of a mountain health seekers' colony which will grow to large proportions.

WOMAN TEACHER MUST HAVE \$1240 A YEAR TO LIVE.

Boston, May 11.—A single woman teacher cannot live properly on less than \$1,240 a year, but an unmarried man teacher can live comfortably on \$838, according to statistics furnished by Miss M. A. Fraser and Professor E. Charlton Black, both Boston teachers. This argument is made in support of the Boston woman teachers' contention that they should receive the same pay as men.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

**FIRST PRESS OF
NEW MEXICAN**

It Is Now at Hillsboro and
Prints Sierra County
Advocate

HAS HAD EVENTFUL CAREER

At One Time Was Thrown Into
the Waters of the Rio
Grande.

(By J. E. Curren).

After an absence of twenty-five
years from Hillsboro we had occasion
to once more visit the scenes of our
early journalistic experience in
Sierra County, N. M., and being asked
by the general editor of the old time
paper (the Sierra County Advocate) if
we recognized any familiar faces, re-
plied that we have none which looked
so familiar to us as the

Old Hand Press.
of the Sierra County Advocate—
whereupon he asked that we give for
the benefit of the old-time newspaper
men a brief description, and as near
as possible a short story of this grand
but ever faithful and always reliable
relic of antiquity—the "Old Hand
Press."

This press is of the pattern desig-
nated by printers as the "Washing-
ton Press," but while it looks like a
Washington and is built on the same
principle it is not in reality a Wash-
ington, but rather a Cincinnati Type
Foundry improved resemblance of the
Washington pattern—but, to say the
least, I like it better than the Wash-
ington, as it runs more easily, is bet-
ter balanced and prints better than
any hand press I have ever operated—
and to say the least, I have operated
a good many during my forty years
of active newspaper life.

This press is somewhat different
from all others and the only one of its
kind I have ever seen. Something pec-
uliarly characteristic about it. Evidently
its maker was a patriot and a war-
rior—or at least, he would make
such out of those printers who in fu-
ture ages happened to be the lucky
owners of this kind of press. American,
patriotic, loyal and reliable are the
impressions it inspires upon the man
or printer who runs it. Indeed, the
beautiful patriotic monogram which
adorns its frontpiece is enough to
arouse in one who loves his country
and the stars and stripes—a loyalty
for the flag and its colors—equal only
in its patriotic enthusiasm to that of
a Patrick Henry—whose memorable
saying of "give me liberty or give me
death"—will never be forgotten.

This monogram represents an
American shield resting upon a back-
ground of artillery—including cannon,
cannon-balls, bayonets, drums, musk-
ets and grand old tattered American
flags galore—the object being, evi-
dently, to remind the man who runs
the press of the fact that our consti-
tutional liberties of "free press and
free speech" were obtained through
these instruments at the sacrifice
of patriotic American blood.

The early history of this hand
press is unknown. However, Mr. Tuck-
er, a brother of the firm of Manderfield
& Tucker, who now lives in San Juan
county, which firm started and pub-
lished the first paper in Santa Fe,
N. M., says: "This press was first used
in publishing the Pueblo Chieftain, at
Pueblo, Colorado, by his brother and
Dr. Beshear. His brother, John Tuck-
er, moved this press from Pueblo,
Colorado, to Santa Fe, N. M., on or
about 1865, where Manderfield &
Tucker used this same press. Later,
the press was sold to the Catholic
Brothers and moved by them to Las
Cruces, where it finally became the
property of Mr. Newman, an aggressive
Democratic politician, who estab-
lished "Newman's 34," thirty-four
being the Democratic majority in
Donna Ana county that year over the
Republicans. This victory of the
Democrats so enraged the Republi-
cans that they seized the press bod-
ily and threw it into the Rio Grande
river at Las Cruces. The writer
learning of the watery grave to which
the old press was doomed had it fish-
ed out of the river and removed to
Lake Valley where with it was estab-
lished the Lake Valley Press in 1882.
Same year it established the Sierra
County Advocate at Hillsboro, where
this grand old press can now be seen
in tact, and as good in every particu-
lar as in days of yore.

To gaze upon this old press once
more brings back recollection of the
days when Geronimo and his murder-
ous band of hostile Indians raided this
country and left death and destruction
in their wake. With what interest,
fear, and sadness we announced in
startling headlines Geronimo's mur-
ders and depredations on this old
press. Indeed, to look upon this old
press recalls memories of sturdy old
pioneers and friends now dead and
gone—those loved one's linger, but to
weep beneath the sun-kissed skies of
the Sierra's—and this old hand press
faithfully chronicled it all—its editors
weeping with them in their sadness
and rejoicing with them in their luck-
y strikes. Joyous was the news pub-
lished on this press of the "big strike"
on the Lady Franklin, and the camp
of Kingston fairly booming. Happy
recollections of how its trembling and
much abused and persecuted editor
received the glad tidings that he had
won the "fight of his life," for free
homes in southwest New Mexico as
against the soulless railroad corpora-
tions—Carry the News to Mary, tell
her in accents wild with joy that this
country with the assistance of this
old hand press, and a good fighting
editor, has won the day for "the peo-
ple," and this land is now open for
free homestead entry—under the
Democratic administration of Grover
Cleveland.

Well do we remember in hours of

NEW MEXICO POLITICS AND POLITICIANS

Now the Range is Pessimistic.

Today the committee on terri-
tories reports to the House. We are
sufficiently informed concerning the
nature of the report and the conse-
quent debate it will entail in the Sen-
ate, if not in the lower house. The
door will have the catch upon it, and
congressmen ready with their little
hammers to drive more nails. Mr.
Owen, since he has realized that his
former contention will be recognized,
has discovered another flaw in our
constitution, that relative to the pro-
hibition of prohibition. As there is
a limit to the present special session
we may be able to announce definite-
ly some day just what chances New
Mexico stands for admission, but to
tell the truth, the "Welcome" on the
door mat has been so besmirched by
muddy feet that it is a faint hearted
one to say the least. Put it down in
your little memory jogger, that
while President Taft may want us in
the Union, while there is a plea in
our behalf from other states, and
while we want it ever so earnestly,
the present congress does not so ear-
nestly long to grant it, and what the
present congress may do, she will do
when she does it, maybe.—Raton
Range.

An Independent Judiciary.

The supreme court of the territory
is to be congratulated upon its course
with respect to the clerkship of that
court. A change in that office has
been predicted for some time but
the prediction was apparently made
without any authority of the court.
Its failure to come true would prob-
ably have occasioned no comment had
it not been for the campaign of slan-
der launched against the court by the
Arizona Democrat. The supreme
court of the territory has neither the
time nor the inclination to pull
chests out of the fire for Demo-
cratic newspapers. If the clerk of
the supreme court is an efficient officer
the court can be depended upon to
retain him regardless of what his
own or the political predictions of
members of his family may be. If he
fails in the performance of his duty
or if the court for any other reason
should desire to make a change in
that office it can be depended upon to
make the change without the aid of
pressure or advice from the Demo-
crats.

The Republican organization, unless
we are badly misinformed, is utterly
opposed to the recall of judges, be-
lieves in the independence of the
judiciary and, therefore, in its un-
questioned right to appoint its own
officers without regard to politics or
party expediency. One reason why
the party in this territory is so firmly
opposed to the application to the
courts of anything savoring of lynch
law is because our judiciary is one of
which the people of Arizona may well
be proud. By showing its absolute
freedom from even the suggestion of
political influence in the making of
its appointments the supreme court
has not only strengthened itself in
the confidence of the people, but it
has rendered a distinct service to the
party.

Several of the candidates for the of-
fice are deserving of recognition at
the hands of the party, but we are
confident that the Democrat does not
represent their sentiments in its
criticism of the members of that
court.—Tucson Citizen.

In the Good Time Coming.

To the people of central and north-
ern Arizona, the "capital removal"
proposition, which some of the papers
in the southern part of the territory
are discussing seriously, appears ut-
terly silly—and it is silly from every
standpoint of common sense.

But it is a proposition which, un-
der the initiative system of legisla-
tion, the people of the state will have
to dispose of at the polls within the
near future—and this regardless of the
requirement in the enabling act that
Phoenix shall remain the capital until
1925, and regardless of constitutional
provisions; for under the initiative
and referendum system no constitu-
tional provision can be regarded as
safely fixed. Unquestionably the re-
quired number of signatures to a pe-
tition calling for the removal of the
capital could be obtained.

However, this is only one of the
many questions with which the people,
because of the conflicting interests
of various sections, will be pestered
under the beautiful system of direct

great stress how our rising young
attorneys—McPike, Parker and Alex-
ander volunteered to "roll" on the old
hand press. With what joy this old
press announced the birth of Sierra
county, and christened Nicholas Gal-
les the proud political father of this
new community. How this old press
whooped it up for A. B. Fall and
George Curry for the territorial coun-
cil when this county was in their dis-
trict. With what joy this old press
declared Tom Murphy duly appointed
first sheriff of Sierra county, and
later on Col. Jas. P. Parker, assessor.
How delighted we were when Herrin,
Keller & Miller opened a branch store
in Hillsboro, and with what sorrow we
noted the depreciation or silver and
the closing of the mines at Lake Val-
ley and Kingston. These gentle re-
minders are brought about by gaz-
ing on the familiar face of the "old
hand press" of the Sierra County Ad-
vocate, which I trust may live long
and continue to prosper in this glo-
rious land of sunshine.

CHICHESTER'S PILLS
THE DIAMOND BRAND
This is the only medicine
which is sold in the United States
under a registered trademark.
It is the only medicine which is
sold in the United States under a
registered trademark.
It is the only medicine which is
sold in the United States under a
registered trademark.

legislation. For instance, another
proposition which will be "initiated"
soon after Arizona becomes a state
will seek to establish a declaration
that the waters of all running streams
belong to all the people and that no
industry shall have the exclusive use
of such streams. This apparently in-
nocent declaration will have for its
purpose the acquisition by mining
companies of a right to run tailings
from mills and concentrators into the
streams instead of impounding the
debris, as is now required. The
ranchers of Pinal and Graham coun-
ties have learned something already
of the injury which is done to soil
and crops by tailings carried into the
Gila river and thence through irrigat-
ing ditches.

And any judge elected from a min-
ing section who might construe the
law so as to protect the agricultural
districts would be promptly "re-
called" by the overwhelming vote of
the mining companies and their em-
ployes.

Nevertheless, it will have been
proved that Arizona is "progressive"
and this, presumably, is the most im-
portant thing of all—Arizona Repub-
lican.

The Comic Section.

The record of the hearing before
the house committee on territories we
suggested, should take its place as the
comic section of the congressional
record, the chief artists being those
eminent Democrats who after hold-
ing a secret meeting here at which
nothing "of interest to the public"
was due, went to Washington to spend
a month or so working day and night
in a tremendous, and in fact, super-
human effort not to delay statehood.

The Morning Journal has finished
perusing the third and last number of
the three-volume record of the hear-
ing, and as a piece of humor it is hard
to exceed. The whole hearing includes
210 pages of effort not to delay state-
hood, and even unto the last final
and concluding page there is the con-
vincing reiteration by the New Mexico
gentlemen that they view with un-
qualified horror any attempt to de-
lay statehood for New Mexico. In
the latter pages of the record Mr.
Fergusson appears in the role of one
who is "hurt and ashamed" because
of the cruel misrepresentation to
which he has been subjected at home.

Mr. Fergusson has reason to feel
ashamed—but not on account of what
the newspapers have said about him.
The conclusion of the Record sub-
stantiates the first statement of this
newspaper, that these gentlemen
went to Washington for the sole pur-
pose of making an attack on the con-
stitution. They attacked it before the
committee from every angle and in
every detail, they roasted it up one
side and down the other, they brought
forth again their old familiar griev-
ances, introducing as stated by the
committee members, themselves, all
kinds of personalities and ancient
history; they reiterated the falsehood
that the constitution is impossible of
amendment, they attacked the elec-
tive franchise provision, they attack-
ed the corporation commission arti-
cle, they reiterated the falsehood
that the election was corrupt, they de-
nied that the people in spite of the
18,000 majority approved of the con-
stitution and assailed the whole propo-
sition from start to finish, bitterly
and rancorously. They attacked the
constitution day after day on their
own initiative; not in the effort not
to delay statehood! They did not
meet objections of the committee and
offer a way out; they endeavored to
persuade the committee that the con-
stitution was rotten and was not
what the people of New Mexico want-
ed. And they now feel "hurt and
ashamed" because the people of New
Mexico have so cruelly misunderstood
them. The members of the commit-
tee—Democrats—kindly attempted to
assuage their grief by the comforting
assurance that they, the committee
had perfect confidence in the desire
of the New Mexicans not to delay
statehood. It was a kindness which
we fear the people of New Mexico
will not emulate. As to Uncle Hen-
ry Blair, the last part of the record
quotes him as referring to the "in-
sane frenzy" of New Mexico to be-
come a state. He deprecates New
Mexico's haste.

After all it does look like rash
heedlessness to try to bolt into the
Union in the brief space of 63 years.
—Albuquerque Journal.

**WOODROW WILSON MAKES
SPEECH AT ALBUQUERQUE**

Efforts to Have Him Spend Half a
Day in New Mexico Metropolis
Proved Unavailing.

Woodrow Wilson, former president
of Princeton University, governor of
the state of New Jersey and looming
large as a Democratic presidential
possibility for 1912 was to arrive in
Albuquerque this morning at 11:05 on
the California limited train, remaining
there until the train left for Los An-
geles at 11:25. Governor Wilson was
to make a short address at the Santa
Fe station. Efforts were made, as soon
as it was learned that he was to pass
through Albuquerque to arrange for
a stopover and have him enjoy the
hospitality of Albuquerque for half a
day and make an extended public ad-
dress but it was impossible to make
the necessary arrangements. Felix
Lester however, through negotiations
with the manager of Mr. Wilson's
tour succeeded in arranging for a
speech and the "college professor in
politics" who has made such an un-
expected success of the latter, was to
address a large crowd at the station.
Mr. Wilson is en route to make a
number of addresses.

**The Modern Wash-day**

Time was when The Wash was a weekly
nightmare, wash-day dinner a by-word.
The New Perfection Oil Cook-stove has
changed all that. Once the wash-boiler is
on the stove, it leaves you free to attend to
the dinner or any other work.

You can move a New Perfection where you please and
light it in a moment. It requires no attention after that.
A single gallon of oil lasts all three burners seven hours or
more. No coal or wood to carry; no fire to feed; no soot
nor ashes. It keeps a kitchen or laundry cool and clean.
It cooks to perfection, with the least trouble and expense.

New Perfection
WICK-BURNER
Oil Cook-stove

Made with 1, 2 and 3 burners, with
long, turquoise blue enameled chimneys.
Handsomely finished throughout. The
2- and 3-burner stoves can be had with or
without a cabinet top, which is fitted with
dry shelves, towel racks, etc.
Dealers everywhere, or write for de-
scriptive circular to the nearest agency
of the
Continental Oil Company
(Incorporated)

**FOUR SUITS FILED IN
COURT AT ALBUQUERQUE.**

Mrs. Lizzie Smith Asks for Divorce on
Ground of Cruel Treatment—
Mining Claims in Litigation.

Business picked up at the office of
Clerk Maddison of the district court
at Albuquerque yesterday with the
filing of four suits for trial at the
next term of the court. One of the
suits is transferred from Sierra coun-
ty from before Judge Mechem, while
the other three are of Albuquerque ori-
gin.

The suit transferred from Sierra
county involves the title to certain
mining claims said to belong to the
Brush Heap Mining company. Thomas
Murphy who is the plaintiff in the
case sued unknown claimants to three
mines known as the Brush Heap, the
Andy Johnson and the Black Eye
Susan, calling for them to answer if
they held adverse to the plaintiff.

The answer came from the Brush
Heap Mining Company who immedi-
ately laid claim to all the property.
Murphy to the contrary notwithstanding.
The original complaint was filed
in the district court for the seventh
judicial district in June 1910, while
the answer was forthcoming in the
following September. Since that time
both parties have been sparring for
court advantage until they have reach-
ed a point where they are of the opin-
ion that Judge Mechem is interested
in the case, they have therefore filed
a motion which was allowed by the
court, to obtain a change of venue,
and the venue is therefore placed in
Bernillo county before Judge Abbot.
The whole property is alleged to
be of the value of \$1,000.

Lizzie Smith filed suit against her
husband Samuel M. Smith, the public
school teacher of Alameda, alleging
all sorts of cruel and inhuman treat-
ment. The petition states that the
couple were married at Alma, Ill., in
January 1901, and that up to Decem-
ber 28, 1910, the couple lived together
continuously as man and wife. For
the last year, the petition states, the
parties have been residents of Bernil-
lo county, and during that time the
defendant has made sufficient mon-
ey to support himself and his family
in comfort, but lately he has neglect-
ed to do so. For some time past he
has been acting violently toward
plaintiff, and has accused her several
times of improper conduct with other
men. He did not seem to care when
he did this, as the fuses often oc-
curred in the presence of the minor

children of the plaintiff and defend-
ant. On December 28 last, another
outbreak occurred on the part of de-
fendant when in the presence of the
plaintiff's minor child, Clarence Smith,
aged nine years, the defendant again
made his accusations finally driving
defendant from the house. Since that
time she has been forced to provide
for herself and the child, while the
defendant could easily have supplied
her with funds out of his salary had
he been of a mind to do so. Therefore
a divorce with alimony is asked, to-
gether with such other relief as the
court may see fit to direct. An addi-
tional sum of \$50 is also asked to
compensate plaintiff for filing the suit.
The care of the minor child is also
prayed for.

Claude Hutto of Albuquerque, en-
tered suit against R. D. Cox of Belen,
Valencia county, for the recovery of
\$65 with interest and costs. The al-
legations are that the money was
borrowed by Cox on February 22,
1910, from one E. R. King, and came
into the possession of plaintiff in the
ordinary course of business. That
since that time although the note is
past due no attempt has been made to
pay the same in whole or in part.

Gross, Kelly & Co. filed suit against
Emilio Otero for the balance due them
on an account of \$5,253.99 which was
contracted on April 1, 1907. The bal-
ance amounts to \$1,479.75 and has
been due since April 1, 1911. That
although attempts have been made to
collect the same, no part of it has
been paid, and wherefore the money
is needed by the plaintiff in the con-
duct of the business in which they are
engaged, therefore judgment with
costs and attorney fees is asked.

Foley Kidney Pills furnish you the
right kind of help to neutralize and
remove the poisons that cause back-
ache, headache, nervousness, and
other kidney and bladder ailments.
For sale by all druggists.

**WOULD RATHER GIVE PENSION
THAN DIVORCE TO WIFE.**

Denver, May 11.—Frustrated in
three attempts to end his life, two of
them in the city jail, William H. Cross
a carpenter, says no combination
of persons can stop him from commit-
ting suicide. His desire to protect his
wife by leaving her a pension instead
of allowing her to get a divorce is
the reason given by Cross for his con-
templated self-destruction.

Danderine

GROWS HAIR

and we can

PROVE IT!

A lady from Minnesota writes:
"As a result of using Danderine, my hair
is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have
been wrongly diagnosed and altogether mis-
understood. The hair itself is not the thing to
be treated, for the reason that it is simply a product
of the scalp and wholly dependent upon its action.
The scalp is the very soil in which the hair is pro-
duced, nurtured and grown, and it alone should
receive the attention if results are to be expected.
It would do no earthly good to treat the stem of a
plant with a view of making it grow and become
more beautiful—the soil in which the plant grows
must be attended to. Therefore, the scalp in which
the hair grows must receive the attention if you are
to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up,
or losing its supply of moisture or nutriment, when
balance occurs the scalp has simply lost all its
nourishment, leaving nothing for the hair to feed
upon in plant or even a tree would die under similar
conditions.

The natural thing to do in either case, is to feed
and replenish the soil or scalp as the case may be,
and your crop will grow and multiply as nature
intended it should.

Knowlton's Danderine has a most wonder-
ful effect upon the hair glands and tissues of the
scalp. It is the only remedy for the hair ever
discovered that is similar to the natural hair
foods or liquids of the scalp.
It penetrates the pores quickly and the hair
soon shows the effects of its wonderfully exhal-
ating and life-producing qualities.
One 25-cent bottle is enough to convince you of
its great worth as a hair growing and hair beau-
tifying remedy—try it and see for yourself.

NOW at all druggists in three sizes,
25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine
acts, we will send a large sam-
ple free by return mail to anyone who
sends this free coupon to the
KNOWLTON DANDERINE CO., CHICAGO, ILL.,
with their name and address and the
in silver or stamps to pay postage.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

FINISH THE SCENIC HIGHWAY.

Tomorrow Colorado will dedicate the Canyon City and Royal Gorge Scenic Highway. Governor Shafer will make the principal address and the ceremonies will be such as must emphasize to New Mexico the importance of completing its Scenic Highway begun years ago up the Santa Fe and Gallinas canyons, but never completed. The Canyon City-Royal Gorge highway is "scenic" pure and simple. It does not serve as a traffic highway for any communities, but makes a bid for tourist and automobile travel alone, but such as will pay the state of Colorado better than would a dozen roads through a dozen fertile valleys having cities and villages thronging with people. One of Colorado's assets is its scenery and part of its prosperity comes from tourists, and the state, therefore, has recognized its duty to build highways to reach the grandest and most impressive scenery, the most delightful fishing streams, or hunting grounds, rather than to build roads for cities and towns and valleys that would and should construct and maintain highways on their own account. Similarly, in New Mexico, the completion of the Scenic Highway to the Pecos, from both the Santa Fe and the Las Vegas ends, will mean more in dollars and cents than the construction of roads that counties, towns, villages and road districts would and should build themselves. The Canyon City-Royal Gorge road was built with convict labor, it was completed in remarkably short time and is a road that automobiles can use without trouble. It will help to make Colorado more famous and will advertise the Centennial State just as the completed Scenic Highway to the Pecos would advertise New Mexico. The New Mexican hopes that the Good Roads Commission will take a view similar to that which Colorado has taken, as to the duty of the commonwealth to build mainly such roads as counties and road districts cannot build themselves and such as will open to the world New Mexico's magnificent scenery, its trout streams, its hunting grounds and attract here the stream of tourists that is pouring wealth into Colorado and California, but passes New Mexico by because New Mexico's sublimest scenery cannot be reached with automobile or in wagon.

AGRICULTURE IN OKLAHOMA.

The census bulletin issued today giving the statistics for agriculture in Oklahoma is of more than casual interest to New Mexico, not only because New Mexico and Oklahoma border on each other, but the great growth that has come to Oklahoma's agricultural interests in late years, will sooner or later come to this commonwealth. The total value of farms and buildings in Oklahoma is \$736,000,000, or thirteen to fourteen times the total assessed valuation of New Mexico. More than 17,000,000 acres are under cultivation in Oklahoma, an increase of more than ten per cent the last ten years.

It is pointed out in the statement today that the principal rates of increase in Oklahoma in 1910, as against 1900, among the items for which percentages are given in the first section of the summary are: In the total value of all farm land alone, 333 per cent; in the total value of farm land and buildings 331 per cent; in the total value of farm buildings alone, 317 per cent; in the average value per acre of farm land alone, 247 per cent; in the average value per acre of farm land and buildings, 245 per cent; in the total expenditures for labor 166 per cent; in the total value of all farm implements and machinery, 157 per cent; in the total improved farm acreage, 104 per cent; in the whole number of farms, 75 per cent; and in the total farm acreage, 25 per cent.

The only decrease during the decade, among items for which percentages are given, occurred in the average acres per farm, 29 per cent.

The statement showed in detail that the number of farms reported in 1909 was 189,438, as compared with 108,000 in 1900, an increase of 81,438, or 75 per cent.

This is what the Democratic Denver Times says of its own party in Colorado, and do not its words apply just as much to the Democratic party in New Mexico?

Now that the eighteenth general assembly has concluded its session and we have pondered its sins of omission and commission for the space of forty-eight hours, we can find but little hope in the Democratic majority that controlled it and less hope for the immediate future of the Democratic party in Colorado. The fact is, of course, that the Democratic party in this state is not a coherent, political party within the meaning of the term. It is composed, as we observed before, of a few authentic Democrats, a few converted Republicans, a large number of nondescript political opportunists and a corporal's guard of adventurous gentlemen who are in the game for just what they can get out of it for themselves.

THEY ARE COMING.

Santa Fe can no longer complain of the treatment given it by the Santa Fe railway system. The company spends vast sums for advertising and there is scarcely any publication that does not contain direct reference to the free trip from Lamy to Santa Fe and that does not indirectly advertise Santa Fe by mentioning its name a hundred and more times. In the official folder for the National Educational Association, as well as in the booklets for the International Sunday School Convention and the Medical Association, which will draw thousands upon thousands of delegates and tourists from the east to the Pacific coast, the free side trip to Santa Fe is advertised. In addition, the Santa Fe is spending \$2,000 for a first edition of a beautifully illustrated and artistically printed folder which will be entirely devoted to Santa Fe and its attractions, and which will be distributed by the thousands in the east, one edition to follow another as rapidly as the publications are exhausted. The Santa Fe also announces a special tourist rate of one fare for the round trip from Denver, Pueblo and Colorado Springs, so as to catch the tourist trade from other railroads through those cities, giving the liberal time limit of thirty days which will enable visitors to view all points of interest in this section. It may be set down for certain that the tourists are coming to Santa Fe this year in droves and the problem will be how to take care of them in such manner that they will spread the fame of Santa Fe's attractions without any reserve about accommodations and lack of hospitality.

Under the state constitution, New Mexico will be enabled to levy a graduated tax on inheritances and this is one of the most just revenues that can be levied. Colorado has collected something like a quarter million dollars of inheritance taxes the past two years and Oklahoma is collecting even more. In fact, Oklahoma has a law that if a person residing in New York City were to inherit an estate of \$100,000 from some resident of Oklahoma he would speedily find himself actually in debt to the amount of over \$2,000,000. The Oklahoma law has it that no amount over \$95,000, or thereabouts, may be left to any individual outside the state. If the estate bequeathed to an outsider runs over that, the difference is confiscated by the authorities. Thus, the person in New York, who inherited \$10,000,000 from an estate in Oklahoma would be given about \$95,000, while the state of Oklahoma would keep the remaining \$9,905,000. An added complication arises from the fact that New York imposes an income tax on all inheritances, and that it would demand its percentage of the \$10,000,000 inheritance, this amounting to about \$2,250,000. It is thus seen at a glance that the person inheriting would find himself in debt to the extent of something over \$2,000,000. It is not supposed, therefore, that many persons living in New York will ever inherit estates worth \$10,000,000 in Oklahoma.

A SIGHTSEER'S MAP.

The commercial bodies of Colorado are about to issue a road map of the Centennial State which will show in detail the highways that can be used by automobiles. With the map is an excellent idea that should be adapted to local conditions at Santa Fe. With Santa Fe as the hub, there are a dozen great highways that reach places of special interest to tourists. A local map should show all points of historic or other interest within or near to the city limits, and should be posted in every hotel, boarding house and at the depots. It is still true, that the tourist who arrives in Santa Fe is at a loss which way to turn to find the sights of which he may have read or heard. If he turns to the average citizen for information, he finds to his astonishment that those who live in Santa Fe seem to know less about the city's attractions than those who come from the outside to view those attractions. A sightseer's map, therefore, and possibly a comprehensive guide, would solve this problem of calling the attention of the visitor to the things that are worth while in this old city so rich in traditions and romance.

The interstate commerce commission has decided to investigate the unreasonable freight charges that are made by the railroads for the transportation of wool, hides and pelts from the west to the east. The west suffers from discrimination that in some respects is just, because of sparse population and small local traffic, but which is retarding industrial development and therefore preventing the very conditions that would enable the railroads to reduce freight rates.

Manhattan is not only quite some town but it continues to grow at a marvelous rate. The building operations in the 50 largest cities of the United States last year amounted to three quarters of a billion dollars, but one third of this vast sum was spent in New York and Brooklyn alone, while Chicago spent less than one seventh of that total. Manhattan is still in a class all by itself.

According to the Associated Press dispatches there is ground for the complaint that the rebel army in Mexico is largely recruited by a lawless element from the United States. Suppose Uncle Sam were suppressing a rebellion in Texas and the rebellious Texans were largely recruited from Mexico, the feelings of Uncle Sam on the proposition would be hardly less colorful than those of the Mexican government in the present instance.

The old hand press on which the first issues of the New Mexican were printed is still on the job at Hillsboro. There it is turning out the Red-hot Democratic Sierra County Advocate, after a career that was as stirring as it has been romantic.

THE CONTINENTAL FIRE INSURANCE COMPANY

Net surplus is the supreme test of a fire company's strength. The Continental's net surplus protecting American policy holders is larger than the net surplus of any other company.

If whiskey had one reputation it was that it made men fighting mad, but even the Mexican rebels must enforce prohibition before and during battle, for they discovered at Agua Prieta that men with whiskey in them cannot even win a battle that the other side has already lost.

The price of peace, according to the rebels in Mexico, is fourteen governorships and four cabinet positions for Madero's followers. Oh, you political job!

LYNCH "DOPES OUT" SEASON

Head of National League Figures Six Clubs Have Even Chance to Win Championship.

President Thomas J. Lynch of the National league has figured out that the race for the pennant this year will be the closest and most keenly contested in many seasons. Here is his statement of the situation:

"Any one of six clubs has a good chance to win this year. Rarely have the teams presented a more even front. While St. Louis and Boston do not seem to be as strong as the other clubs, still, you never can tell what a crowd of young players will do, and Tenney may surprise the baseball world this season.

"As for the other six clubs, it is just about an even thing. New Yorks look good and are stronger than at this time last year. Those who think the days of the Chicago are over may have cause to change their opinion before the season closes. They are no weaker than last year, in my opinion. It was because the Athletics were so much faster than Chicago that the world's series resulted as it did.

"The team is well supplied with youngsters. Take the purchase of Shean; that was a good stroke of business. Evers may last a whole season and may not last a week. Mr. Murphy has a second baseman to step right in there. If that happens, you are likely to hear people begin to talk of Chicago luck and how fortunate it was that Shean was around. No luck about it; it was planned beforehand.

"A letter reached me the other day from the Pittsburgh camp saying that Leach, Clarke and Wagner, the big trio, were never in better condition, and that Adams and Camnitz were putting them over in great form. The men are playing together, and the old fighting spirit is there. I tell you that Chicago would not have had such an easy time winning a pennant last year had they not got the jump in the early months. It will be different this spring, unless all signs go wrong.

"Both Philadelphia and Cincinnati were strengthened by the trade made last fall. It does a player a lot of good to be shifted around. It puts more life in him, and many times a man who has played only average ball with a team gets in with a lot of hustling youngsters and becomes a star.

"The fans like to see new faces, too, and applause is as sweet to a player's

company entered the field much after the Lloyd fashion and took a chance. The insurance covers accidents, illness or death.

Every player who will be a member of the team has been insured. The policies call for \$5,000 in case of death by accident. In case the player is unable to play for a week owing to sickness President Comiskey will be paid \$25 a week.

Ministers Form Ball Club. A baseball team composed of clergymen is Grand Junction's (Colo.) latest acquisition. The nine is made up of pastors of various churches here and includes some former college stars. The ministers practice six days in the week—and have issued a challenge to any team in the state made up of members of one profession.

UNCONVENTIONALITIES.

"Is that a new hat, Mr. Slowgo? Please put it on and let me see how a rear view of it looks."

"Of course, I'll review your new book if you wish, Mr. Borus, but I can tell you without reading it that it's rotten."

"Mr. Means, you know perfectly well that I am marrying you because you are rich and in feeble health."

"This little delay in cashing your counter check, sir, is to give the paying teller time to ascertain your bank balance and to find out whether or not the signature is genuine."

"You oughtn't to talk so much. Blobs; your voice is disagreeable and your conversation bores me."

"Yes, sir, I remember your face quite well; I was in hopes I never would see it again."

"You don't look a bit like your younger sister, Miss Tiggie; she's handsome."

Wifely Sympathy.

The coarse, burly ruffian was on trial for whipping his wife. The testimony against him was direct and conclusive.

"Prisoner," said the indignant police justice, "there is no use in imposing a fine, for your poor wife would work her fingers off to pay it for you. I shall send you to the workhouse for 60 days."

"Your honor," protested the weeping woman, "that ain't half enough! You ought to soak him for six months!"

The Uplift.

"Have you taken up the city beautiful idea out here?" asked the stranger.

"Yep," replied the native, "we're goin' to pave Main street this spring, and some of the folks are tryin' to have the waterin' trough in front of the courthouse decorated with a statue of Physic."

Short Measure.

"Do you use condensed milk at your house?"

"I guess so. We order a quart a day and the milkman squeezes it into a can that holds about a pint."

THEN THE FIGHT STARTED.

President Thomas Lynch.

ears as it is to an actor's. When a man steals second base and is heartily cheered, he wants to steal third right away. Both the Phillies and the Reds will be factors in the pennant race this year. Neither can Brooklyn be counted out. From all reports Mr. Ebberts has secured some youngsters who will give a good account of themselves this season.

"Every season in baseball seems to be greater than the one immediately preceding. I do not think that this season will prove an exception, and look for the biggest year and one of the closest races in the history of the game."

INSURE WHITE SOX PLAYERS

President Comiskey of Chicago Protects Himself Against Accidents and Illness.

President Comiskey of the White Sox is not taking any chances of injury to his star ball players.

Men like Ed Walsh, Harry Lord, Pat Dougherty, Jimmy Callahan, Matt McIntyre, Tex Jones, Bill Lange, Amby McConnell, Rolly Zelder, Billy Sullivan, Doc White and a few others who are main spokes in his baseball machine have been insured by the Old Roman against sickness or injury.

Ever since the injuries to Sullivan and Blackburn, Comiskey has been considering a plan to protect his baseball team.

Phil Joyce.

"What were de trouble over at de Jones' house last night?"

"Why, Sarah give a watahmelon party an' she wanted to save de rhines to preserve, an' dey done eat rhines an' all."

Point in His Favor.

"I've faulted you bet," said William Noddy, "but never yet have I tried to rodie."

"Caused by Labor Troubles. 'Is it genuine Chippendale?' 'Absolutely, sir.' 'But this looks like a crack right across.'"

"Done by Chippendale himself, sir, in a fit of rage when he heard the union had called out the men." Punch.

Profit.

"Well, I made \$250 today." "Fine. How did you do it?" "By declining to buy 1,000 shares of mining stock which a promoter insisted would be advanced from 25 cents to 40 cents a share at ten o'clock next Thursday."

R. J. PALEN, President, L. A. HUGHES, Vice-President, J. B. READ, Cashier, F. McKANE, Assistant Cashier.

THE FIRST NATIONAL BANK OF SANTA FE.

THE OLDEST BANKING INSTITUTION IN NEW MEXICO. ESTABLISHED IN 1870.

Capital Stock - - - \$150,000
Surplus and Undivided Profit - 80,000

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency public or private. Interest allowed on time deposits at the rate of four per cent per annum, on six months' or years' time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

PERSONAL MENTION

Miss Myrtle Martin has gone to Chicago to visit relatives.

Orme S. Wilson, an auto dealer of Denver, is at the Palace.

C. R. Wise, a dental supply salesman, is here from Denver.

L. A. Bland, a hardware salesman of Kansas City, is calling on the trade.

A. H. Case, the manager of the San Pedro Gold and Copper mine is in the city.

Mrs. J. C. Hallum and Miss Hallum of Minneapolis, are sightseers registered at the Montezuma hotel.

Mrs. S. G. Cartwright is able to be out again after being confined to her home the past few days with illness.

Harry P. Owen, secretary of the sheep sanitary board, and a well known attorney is here from Albuquerque.

F. B. White, representing a typewriter company, is in Santa Fe from El Paso. He is at the Montezuma hotel.

T. S. Jordan left for Santa Fe on last night's train to attend to business at the land office there.—Estancia News.

C. L. Pollard, former postmaster and merchant of Espanola is at the Montezuma. He is accompanied by Mrs. Pollard.

Fred R. Blackmar, an orchardist of Espanola, is at the Montezuma. W. L. Brown and S. H. Tedford of Espanola, are with him.

Hamilton de Lesseps, of New Orleans, who spent several months here has arrived in San Francisco, having visited the Grand canon.

Deputy Insurance Commissioner Peter M. A. Lienau is in Chicago and is expected back Tuesday. He has been on business in Delaware.

Mrs. John Hamble and her daughter Teresa May Hamble leave this afternoon for Fort Leavenworth, Kas., to spend several weeks with relatives.

Blas Duran and wife returned from Santa Fe yesterday, where they have been visiting their daughter, who is attending school there.—Estancia News.

Mrs. G. H. Van Stone and children arrived this noon in Santa Fe from California. They were met at Albuquerque by Mr. Van Stone who accompanied them here. They will go to their home in Estancia tomorrow morning.

Assistant Territorial Engineer Neal is confined in his apartments on south Edith street with a slight illness, but is expected to resume his duties soon.—Albuquerque Herald.

County School Superintendent and Mrs. John V. Conway and Mrs. Stewart visited the immense ranch of Benjamin F. Pankey near Lamy yesterday and were hospitably entertained by the first state senator from Santa Fe county.

G. H. Van Stone left for Albuquerque yesterday afternoon to meet Mrs. Van Stone and the children on their return from California, where they have been spending several months. They will return to Estancia Friday.—Estancia News.

Hon. N. V. Gallegos, receiver of the local land office, will leave with his family next week for a twenty day's vacation. They will visit Santa Fe, Las Vegas and Albuquerque and other New Mexico towns during this time.—Tucumanari News.

C. B. Barker, a mineral inspector for the government land office in Santa Fe, was in Las Vegas today to testify in the case of the United States against Mack Highfill, which is occupying the attention of the United States court.—Las Vegas Optic.

The Dallas Morning News announces the engagement of William Wakefield Corbet, a civil engineer of Santa Fe, to Miss Mary Tower, daughter of Mr. and Mrs. Edwin Whiteman Tower of Dallas, Texas. The wedding is to take place in June. Mr. Corbet has an office at present in New York.

CAPTAIN M. S. MURRAY RETURNS TO ROSWELL.

Tell Reporter That Santa Fe is Looking Especially Beautiful at This Time of the Year.

(Roswell Daily Record.)

Capt. M. S. Murray returned Sunday night from Santa Fe, where he was called two weeks before to report to Governor Mills as newly appointed instructor officer of the National Guard of New Mexico under the U. S. War Department. Captain Murray has been on the retired list for some years and by the recent order is returned to active service as instructor of the militia of New Mexico and particularly in the Pecos valley.

His original order provided for his removal to Santa Fe, but he prevailed upon the department to allow him to remain in Roswell, as this place is his home. His request was granted since most of his work is in the Pecos valley. A resident here, he can also continue as commandant of the Light Battery.

Captain Murray reports that he found Governor Mills and all the other officials at the capital well and that they send their regards to their many friends in Roswell. He reports also that Santa Fe is looking especially beautiful at this time and that all the

fruit of that country is in fine condition.

While away Captain Murray put in requisition for ten rifles that are to be used in practice by the members of Battery A. This practice will qualify a team to participate in the territorial shoot at Las Vegas, in which a team will be selected to represent New Mexico's National Guard in the national shoot, which will be held later in the summer either at Camp Perry, Ohio, or Seagirt, New Jersey. Captain Murray will start pistol practice for the battery immediately and will start rifle practice as soon as the ten rifles arrive.

Battery A will go into camp on their reservation in the Capitans, near Pine Lodge, in July and will remain there twelve or fifteen days. Governor Mills has promised to come and witness the practice shooting of the Battery and attend the encampment.

HE TOOK A DRINK AND LOST BIG ORDER.

There is a picture at the Elks Theater tonight that speaks louder than words. It shows the race between two salesmen of rival firms to get the order of John Williamson, who finds that the prices of the two clothing firms are about the same and who decided to give the order to the salesman who reaches his office first. There is a great race and all the store of invention and cleverness of the two knights of the grip are thrown into the contest. The cleverer man loses out however, because instead of going to the head of the firm and getting the order he goes out with a clerk for a drink.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases,
disorders and weaknesses peculiar to women. It is the
only preparation of its kind devised by a regularly gradu-
ated physician—an experienced and skilled specialist in the
diseases of women.

It is a safe medicine in any condition of the system.
THE ONE REMEDY which contains no alcohol
and no injurious habit-forming drugs and which
creates no craving for such stimulants.

THE ONE REMEDY so good that its makers
are not afraid to print its every ingredient on
each outside bottle wrapper and attest to the
truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can
get it. Don't take a substitute of unknown composition for this medicine or
knows counterfeits. No counterfeit is as good as the genuine and the druggist
who says something else is "just as good as Dr. Pierce's" is either mistaken
or is trying to deceive you for his own selfish benefit. Such a man is not to be
trusted. He is trifling with your most priceless possession—your health—
may be your life itself. See that you get what you ask for.

TUBERCULOSIS MOVEMENT INCREASED 700 PER CENT.

New Directory Shows 1,500 Agencies
Engaged in Consumption Fight—
600 Cities Are Interested.

From statistics published today in
the new Tuberculosis Directory of the
National Association for the Study
and Prevention of Tuberculosis, it is
ascertained that over 600 cities and
towns of the United States, besides
about 100 in Canada, are engaged in
the war against consumption, and
that on April 1st there were nearly
1,500 different agencies at work in the
crusade, an increase of nearly 700
per cent in the last seven years.

The new directory lists 421 tuber-
culosis sanatoria, hospitals, and day
camps; 511 associations and com-
mittees for the prevention of tuber-
culosis; 324 special dispensaries; 68
open air schools; 98 hospitals for
the insane and penal institutions mak-
ing special provision for their tuber-
culosis inmates; besides giving an
account of the anti-tuberculosis legisla-
tion in every state and in about 250
cities. The directory, which is the
third of its kind that has ever been
published in this country, gives the
most complete survey of the anti-tu-
berculosis movement that can be
secured, and shows the remarkable
growth of the campaign in the last
seven years. The first directory in
1904 showed only 183 organizations
and institutions in the entire United
States. The second directory in 1908
reported 649 different agencies, as
compared with 1,440 in the new book.
Taking these figures as a basis, the
anti-tuberculosis movement has in-
creased in force since 1904, nearly 700
per cent, and since 1908, over 105 per
cent.

In the Wake of the Measles.
The little son of Mrs. O. B. Palmer,
Little Rock, Ark., had the measles.
The result was a severe cough which
grew worse and he could not sleep.
She says: "One bottle of Foley Honey
and Tar Compound completely cured
him and he has never been bothered
since. Croup, whooping cough, mea-
sles cough, all yield to Foley's Honey
and Tar Compound. The genuine is
in the yellow packages always. Re-
fuse substitutes. For sale by all
druggists."

HOME REMEDY CAUSES

DEATH OF MAN.
Colorado Springs, May 11.—An au-
topsy on the body of E. M. Chamber-
lain revealed the cause of death as
acute inflammation of the stomach
and bowels, believed to have been
caused by medicine Chamberlain took
two hours before he died in Manito
last night. The result of the autopsy
will be reported to Coroner Jackson.
Chamberlain is survived by his wife
and mother. Chamberlain took the
medicine, it is stated, for a tapeworm.
The medicine, it is said, was a family
remedy sent to Chamberlain from his
former home at Joplin, Mo.

WEAK, COLD SPELLS.
Wilmington, N. C.—Mrs. Cora L.
Ritter, of this place, says: "I used
to have headaches, and blind dizzy
spells, and weak cold spells went all
over me. I had different doctors,
but they were unable to tell me what
was wrong, so I began to take Car-
dinal. I am now all right, in good
health, and better than I have been
for 10 years." Cardinal is a remedy for
women, which has been helping sick
women for nearly a lifetime. You
can absolutely rely upon it. Other
people have done the testing and you
should profit by their experience.
Cardinal has benefited a million wo-
men. Why not you? Begin taking
Cardinal today.

APRIL WAS NORMAL IN TEMPERATURE.

Slight Excess in Precipitation
Throughout New Mexico—Light
and Killing Frosts.

The month of April, 1911, was prac-
tically normal in temperature, and
somewhat above normal in precipita-
tion. The temperature of the month
was quite uniform and no marked ex-
tremes occurred. Brief, moderately
cool periods were recorded on the
8th, the 13th to 16th, and the 24th
and 25th. Light to killing frosts were
general during the first two periods
of cool weather, and again in the
northern districts during the third
period, but little or no damage result-
ed, owing to the hardness of vegeta-
tion because of cool nights. The 16th
was probably the coolest day of the
month.

Rather high temperatures prevailed
at the beginning of the month and
continued over the 2nd. A second
warm period occurred from the 4th
to the 7th; a third from the 19th to
the 23rd, and a fourth from the 29th
to 30th, inclusive, the latter, how-
ever, was mostly confined to the south-
east district. The temperature during
the month was neither as high nor as
low as during April, 1910, nor were
marked excesses or deficiencies noted
in any part of the territory. The
greatest excess (about two degrees a
day) occurred in the northeast and
the northwest parts, while the great-
est deficiency (from one to two de-
grees a day) occurred in the lower
Rio Grande valley.

The precipitation of the month av-
eraged fully a third greater than dur-
ing April, 1910. There were two
well defined shower periods; the first
from the second to the eighth, and
the second from the 24th to the 27th.
During the latter period very good
local rains occurred in east and south-
east counties of the territory. Scat-
tered showers also occurred from the
17th to the 20th. As a rule April is a
very dry month in the lower Rio
Grande valley and the southwest,
but the month just closed gave good
rains, except at a few stations, which
reported no precipitation, or but a
trace. Two stations also in the north-
east part of the territory received but
a trace of rainfall, but generally over
the territory the amount and distri-
bution was good. The Pecos valley
was especially favored, while the
Chama, upper Rio Grande, Canadian
and tributaries, were less favored and
show a deficiency for the month,
most marked in eastern Colfax, Mora
and Union counties. Little or no
snowfall occurred, except at the
higher northern stations.

The sunshine of the month av-
eraged below normal; there was but 61
per cent of the total possible amount
at Santa Fe, while for the territory as
a whole there 15 clear days, 11 partly
cloudy and four cloudy ones. The
winds of the month were rather high,
especially in the extreme lower Rio
Grande valley, the southwest and
the western plains of the country. A
number of gales occurred, and the
days from the second to the seventh,
12th to 15th and 20th to 23rd were all
more or less windy, with sand storms
at various places in the lower valleys
and over the plains country. The pre-
vailing direction of the wind was
from the west, although nearly as
many stations reported a southwesterly
direction.

Temperature.
The mean temperature for the ter-
ritory, determined from the records
of 67 stations having a mean altitude
of about 5,000 feet was 52.5 degrees,
or .4 degrees above the normal, and
was .9 degrees less than April, 1910.
The highest local monthly mean was
65.0 degrees at Carlsbad, and the
highest recorded was 92 degrees at
the same station on the 23rd.
The lowest local monthly mean was
37.8 degrees at Elizabethtown, and
the lowest recorded 11 degrees at the
same station on the 2nd. The great-
est local monthly range in tempera-
ture was 63 degrees at Fruitland, and
the least 49 degrees at Carrizozo,
while the greatest local daily range
was 58 at Springer on the 19th. The
district averages were as follows:
No. 7 (Canadian and Northeast)
51.7; No. 8 (Pecos and Rio Grande)
52.9; No. 9 (Western) 52.9 degrees.

Precipitation.
The average precipitation for the
territory, determined from the re-
cords of 135 stations, was 0.90 inch,
or 0.08 inch above the normal and 0.29
inch greater than April, 1910. The
greatest amount was near Lykins,
western Roosevelt county, 4.01 inches,
and the least none at Hermanas and
Redrock, while but a trace occurred
at Cuervo, Rodeo and Valley. The
greatest amount in any 24 hours was
2.22 inches at Artesia on the 24th.
The average snowfall was .6
inch. There was an average of four
days with .001 inch or more of precipi-
tation. The district averages were as
follows: No. 7, 0.70; No. 8, 1.15; No.
9, 0.44 inch.

GOOD PROGRESS AT THE ELEPHANT BUTTES.

Road Work is Being Pushed.—New
Nine Passenger Gasoline Car
Has Been Received.

(Rincon Valley Recorder)

Engle Dam, May 11.—A new nine-
passenger motor car has been receiv-
ed, set up, and made its initial trip
Sunday to Reed Junction on the Santa
Fe main line. The run was very
successfully made, and the car proved
satisfactory in every respect. This
is a Buick two-cylinder friction-drive
car.

The temporary bridge across the
river near the dam-site was rebuilt
this week, and one of the donkey en-
gines to be used on flume work was
carried across.

Road work is still being pushed,
new forces being added to help this
along. The river is running pretty
high now, and this is retarding some
work, especially that of the Midland
Bridge Co.—contractors on their
steel wagon bridge work. Four piles
have already been driven on this
work, and temporary bridging for
other pile work has been done. It is
possible that the bridge company will
build a temporary bridge across the
river, in order to handle the piling
and better keep out of high water.

The mechanics' quarters building,
the big thirty-six room house at the
town site, will be completed this
week. This building has been in
course of construction for some time,
probably longer than was absolutely
necessary, on account of delays of ma-
terial; yet the progress has been rap-
id, and in its finished state it stands
out quite a building, both in size and
efficiency.

All the cottages on Seeley Hill have
been taken and many more have been
asked for. This location, from the
number of cottages requested is prov-
ing a popular place.

The large force of plasterers have
transferred from the mechanics'
quarters to the engineers' cottages on
Office Hill, where several cottages
have been awaiting them. When they
complete plastering in these cottages
it will only be a question of a very
short time before several more of
these buildings will be completed and
occupied.

Headquarters mess is fast assum-
ing proportions now, and this build-
ing probably will have been completed
within the month.

New furniture for the office has
been ordered and is expected shortly.
The office force has now been occu-
pying the new building for two weeks,
and using the old fixtures, etc., from
the old temporary tent office. With
the new building and the new fix-
tures now en route, the home of the
office men will soon become a finish-
ed and permanent establishment.

The main store and supply house
has been finished and the first of this
week saw the old, red store house in
the main camp below robbed of its
supplies and abandoned for the new
and larger house above. All lumber
and material from the yards below
are being moved out to the new yards
at the railroad terminus as fast as
can be handled. Lumber yards are
becoming congested, owing to the ar-
rival of many new cars; and quite a
lot of rush work is being done in the
way of building new sheds and skids
as a means of taking care of this
material.

Regular train service has now been
installed by the Santa Fe, and, as a
result, we have trains three times a
week, Tuesdays, Thursdays and
Saturdays.

These women are only a few of thousands of living witnesses of
the power of Lydia E. Pinkham's Vegetable Compound to cure female
diseases. Not one of these women ever received compensation in any
form for the use of their names in this advertisement—but are will-
ing that we should refer to them because of the good they may
do other suffering women to prove that Lydia E. Pinkham's
Vegetable Compound is a reliable and honest medicine, and that the
statements made in our advertisements regarding its merit are the
truth and nothing but the truth.

20 YEARS AGO TODAY

(From the New Mexican of this date
1891.)

Splendid rains during the past few
days.
The trees set out at San Marcial
College on Arbor Day are growing
nicely.
Messrs. Weber and Wood returned
from the upper Pecos yesterday. They
caught no trout on the trip the Rio
Pecos being very high and the waters
quite too riled for fishing.
Louis Baer, the Albuquerque wool
buyer, came in this morning.
G. W. North, in from Cerrillos, says
the Cash Entry camp is just whoop-
ing things these days. The mine and
concentrator are running day and
night and new men are being employ-
ed to increase the force every few
days.
Roswell is organizing a local dra-
matic company.
Scarcely a family in White Oaks
has escaped the grip.
A huge church bell has reached
Chama and will be put up in the Park
View Church.
Foley's Kidney Remedy Aged Quickly.
M. N. George, Roswell, Ala. was
bothered with kidney trouble for
many years. "I was persuaded to
try Foley's Kidney Remedy, and be-
fore taking it three days I could feel
its beneficial effects. The pain left
my back, my kidney action cleared
up and I am so much better I do not
hesitate to recommend Foley's Kid-
ney Remedy." For sale by all druggists.

THE FORUM

A World-Old Problem.

Santa Fe, N. M., May 10, 1911.
To the New Mexican:

A famous actress in New York recently said that there were not enough marriageable men in the East to supply the demand, as there were thousands of pretty girls who would marry were they but asked. It is the rich girl, the girl with the "dough," who captures the young man and it is an every-day occurrence for a wealthy girl to marry a poor, struggling, \$60 a month clerk.

We beg to disagree with the actress in one respect, and that is about the supply of young men. We believe it is more a case of "cold feet" as with the present high cost of living a man has to make a pretty fair income if he intends to support a family, and the young man of today with a small salary can barely support himself much less a wife. As was said before, there are thousands of pretty girls who have to support themselves in the cities and would willingly marry and at least get a part of the burden off their shoulders, but no, the young man of today is not looking for someone to support, he is looking for someone to support him! This is the only reason why the demand runs short, and it is only the rich girl who captures them now, letting her less fortunate sister take care of herself.

A young girl's romantic thoughts are usually the cause of many an unhappy spinster, and probably many beautiful girls who have been proposed to by some nice young man have refused him because "he failed to toe the mark," of what her high, romantic ideals of a husband were, and would wait until the right one came. Probably she is still waiting. "Repenteth at leisure," is probably suitable in this case. One of the serious troubles with young men of today is that they are too confident that they can marry whom they please, as can be said of the girls that they are too sure they will be proposed to by the man of their choice.

A very true version of this case appeared recently in "Life," in which it said that when a girl is 18, her idea of an ideal husband is that he must be handsome, rich, prominent, popular, kind, honorable, and he must be a man. When she is 25, the man must be rich, kind, honorable, handsome and he must be a man. At 30, he must be rich and handsome; and when she is 35, all her ideals have been laid aside and her husband must be a man.

Of course, we do not say that a girl should marry the first fool that comes along, but should a nice, honorable young man propose for whom she cares, she should drop all foolish "ideals" and use good sound judgment whether she should marry or not as, no matter how beautiful she is, she may never get another chance. Of course, if she doesn't want to marry at all that is another question and she should refuse every man who comes along, but the girl who waits for an ideal husband may have to wait until she gets to heaven before she finds him.

It is man's duty to propose to the girl he goes with as many a young girl, believing that her lover intended matrimony, has discouraged other young men from showing attention to her, only to find that he was going with her merely for the sake of entertainment. Probably this girl would have had a chance to marry another, but they kept away believing that she was betrothed to him. If things keep on as they have been within the last year with men wearing corsets and women wanting to vote and wear trousers, the time will come when it shall be the girl's duty to propose. I will be a good thing when the girl is in love with some bashful, tongue-tied young chap, but we hardly believe that the more intelligent class of men would stand for it, as only a "masculine girl," whom the majority of the men do not care for, would have the "cheek" to propose. Men are sensitive, too.

J. W. R.

TOHATCHI INDIAN SCHOOL AND REFORMED MISSION.

Work That is Being Done For and Among Navajos Twenty-Five Miles North of Gallup.

(McKinley County Republican.)

To a great many the name Tohatchi is but a name on the map, a bare spot in the unknown somewhere. I think I could prove to you that it is not an uninteresting place, after all. It lies 25 miles due north of Gallup just at the foot of the Chuska Range. Oldest of its institutions is its trading post owned by A. Arnold, one of the busiest points on the reservation. The present owner took possession about two years ago, has wonderfully improved the appearance of the property, built a handsome cottage for himself and family, and his business surely shows signs of prosperity; his freight teams are sent to Gallup at least twice a week and very frequently oftener.

Next in age is the U. S. Indian school; it grew from a very little plant in charge of Mrs. E. D. Devine, and developed until the present well-equipped institution has been attained. It lays claim to being one of the most homelike institutions in the U. S. Indian service. About 190 Navajo pupils are provided for and under the efficient efforts of the principal, G. W. Conrad, his pupils are making very creditable strides toward obtaining a white man's education. The Navajos are gradually beginning to see the value of educating their children and every fall more children are brought than can be accommodated and some have to be turned away. It is estimated that there are still about 5,000 Navajo children of school age not in school and no provision made for them. The government and its various missions, however, are making strong efforts in that line and another decade will see a remarkable change.

Another institution to be mentioned is the Chuska Reformed Mission, established in 1833, and since 1900 in charge of the present missionary, Rev. L. P. Brink. This mission claims to have the most beautiful church edifice in the country, built last summer at a cost of \$7,000. It has a native membership of 70 Navajos; all members in full communion except four who are under age, children of native Christian parents.

Connected with this mission is one native missionary who devotes his time to evangelizing his people by visiting them from Hogan to Hogan and testifying to the power of the gospel in his own heart. He was the missionaries' right hand man a number of years and under the missionary's constant instruction has attained his present equipment for wider service. On account of his work among his people he is known everywhere as "Pine Anichode," the Navajo preacher. The mission also maintains a training school for native Christian workers. Three young men are being instructed at present and it is expected that more will be added to their number next fall. Besides the regular common school branches and Biblical instructions, they are taught to read the scriptures

in their own language (Genesis and the Gospel of Mark, translated by Rev. Brink, being published by the American Bible Society, and other translations are in process of making). Mechanical drawing, practical carpentry, painting, and type setting are taught. The mission has its own printing plant, which though small, is capable of development. Instructing these young men, the mission is ably assisted by one of the best educated Navajos, J. C. Morgan, a graduate of Grand Junction and Hampton Institute.

Regular services are conducted as follows: Sunday, 9 a. m., Sabbath school. Seven classes, four white and three Navajo teachers. 10 a. m., preaching services in English. 2:30 p. m., Navajo service. 7 p. m., preaching service in English. On Wednesday and Saturday evenings classes are held for religious instruction. Irregular services are held at any time, anywhere, whenever the missionary or his assistant see the opportunity.

The government is planning to enlarge its present plant, and the missionary is planning the erection of a hospital on a small scale at Tohatchi. Hospitals are at present one of the greatest needs of the Navajo Indians. Something that may surprise some is that very recently a collection for the China famine sufferers was taken up in the Tohatchi Navajo church amounting to \$14.44. The Christian Indian will learn to show his gratitude to his Christian training as well as other Christians, if by the grace of God his life becomes a changed one.

Warning to Railroad Men.
E. S. Bacon, 11 East St., Bath Me., sends out this warning to railroads: "A conductor on the railroad my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills." For sale by all druggists.

LETTER LIST.

List of letters remaining uncalled for in the postoffice at Santa Fe, N. M., for week ending May 6, 1911. If not called for within two weeks they will be sent to the dead letter office at Washington.

A STRANGE STORY.
Argyle, Mich.—Mrs. Wm. H. Carson, in a letter from Argyle, says: "I was almost wild from pain in my head, and other severe pains, due to womanly troubles. Cardui gave me great relief at once. Further use of Cardui raised me from my bed of agony. Cardui saved my life, and I can't be thankful enough for what it did for me." Whether seriously sick, or simply ailing, take Cardui, the woman's tonic. As a general tonic for women, to improve the appetite and build up the constitution, Cardui is in a class by itself. Those who have used it say it does the work; it relieves, it cures. Try it. Your druggist has it.

TOPOGRAPHIC MAP OF A REMARKABLE DISTRICT.

Mount Lyell Quadrangle, California, Includes Part of High Sierras and Famous Mono Lake.

The United States Geological Survey's topographic map of the Mount Lyell quadrangle, California, which was recently brought up to date by field surveys has just been reprinted. It shows a fine piece of mapping of a remarkable part of the high Sierra. The area mapped affords one of the best illustrations of the old lowland plain which, uplifted in early geologic time, now forms the crest of the Sierra in California to the west and south of Mount Dana and the West and Koip peaks. The quadrangle contains a portion of the famous Mono Lake, which is about 15 miles in diameter. This lake has no outlet and lies in a beautiful mountain valley where there are perhaps 20,000 acres of volcanic land that under irrigation will yield large crops of alfalfa, grass and other products. To the west and southwest extends the great backbone of the Sierra with a multitude of peaks which tower to a height of 10,000, 11,000, 12,000, 13,000 feet and even higher. South of the lake are the Mono craters, once active volcanoes, and one or more similar craters are probably covered by the lake itself.

Water Power Streams.
Tuolumne, Merced, and San Joaquin rivers head in this high mountain region. The Tuolumne flows through the beautiful Hetch Hetchy valley and the Merced through the more famous Yosemite valley in the Yosemite National Park. On all these streams there are splendid water powers; indeed, the Tuolumne and the San Joaquin, whose waters merge in the region to the northwest of the Mount Lyell quadrangle, have probably as great if not greater possibilities for the development of water power than any other two streams in California. Portions of the Mono and Sierra national forests are included in this area.

The fine forest area on the west slope of the mountain is one of the most striking examples of beautiful rugged mountain country west of the Sierra divide, where there is abundant verdure and ample water power. Immediately to the east, in Pumice valley and around Mono Lake is the border of the great Nevada desert. Looking down upon this desert country and upon Mono Lake is Mount Dana, 13,050 feet in height, the descent from its peak to Mono Lake, a distance of 8 miles, being 7,638 feet.

Glaciers and Trout Streams.
Many examples of fine glacial sculpturing are found in the Mount Lyell quadrangle and the region abounds in large and small glacial lakes and streams which are alive with trout of many varieties. A number of picturesque glaciers contribute to the water supply.

Lyell canyon, heading on Mount Lyell at an altitude of 13,090 feet, is a splendid U-shaped glaciated canyon, the original V-shaped gorge having been scoured and ground into its present form by the irresistible forces of the ice flow. In the southern portion of the quadrangle is the Devil's Post Pile, a great mass of basaltic columns rightfully regarded as one of the natural wonders of the Sierra. In the vicinity of Iron mountain, and the Minarets is a highly mineralized section in which gold, silver, copper and iron show good prospects.

The quadrangle is traversed by many trails and some good roads, which are frequented each year by mountain-loving tourists. In 1909, the state built a road from Leeving Creek to the Tioga road leading to Tioga Lake, making a through route across the mountains. This road opens easy communication from the entire Nevada desert country, including the Mono Lake, Tonopah, Goldfield, Death Valley and Owens River regions through to the coast. The only other available wagon roads are those over Senora Pass, 50 miles to the north, and Walker Pass, 200 miles to the south.

The Mount Lyell map is sold by the Geological Survey at Washington at the nominal price of 5 cents. A portion of the quadrangle is included in the area shown on the Yosemite National Park administrative map, the pocket edition of which, bound in covers, is sold at 35 cents singly, or 21 cents each if at least fifteen are purchased.

SEVEN MILLION DOLLARS FOR MINERAL WATERS.

The sale of mineral water in the United States during 1909, according to the United States Geological Survey, represented a value of \$6,894,134, a slight increase over the figures for 1908. The quantity sold was 64,674,486 gallons and the average retail price was 11 cents a gallon. In addition to this quantity over 6,000,000 gallons were estimated to have been used in the manufacture of soft drinks. The tables given in the report show a steady increase in the production of mineral waters for the last 25 years, the figures for 1885 being 1,312,545 gallons. The value of the imports of mineral water in

1909 was \$1,085,177, with an average of 31 cents a gallon. The report shows the production by states with names of springs and other details. It can be obtained on application to the Director of the Survey at Washington.

EDITORIAL FLASHES

A Filthy Habit.

The crusade against spitting in public places is on in the Duke City. The time is at hand for the enforcement of such an ordinance throughout the territory.—Raton Range.

Boy Scouts.

From all over the country, not forgetting that New Mexico is still a part of the "country" come reports of the movement of the Boy Scouts. Every town of any size in our territory has an active and growing organization, Raton excepted. Sure thing, if we don't get busy along this line pretty soon, others will have the right to call us slow, and Raton is not that "yet, nor soon."—Raton Range.

And Santa Fe Too!

The city park commission deserves congratulations upon the beautiful appearance of Robinson park this summer. Steady and expert work on this triangle has made it one of the most beautiful little spots to be found in any city in the southwest and Albuquerque should be proud of it. Careful gardening, trimming of the edges, proper care of the trees, industry and a little artistic sense combined with generous sprinkling and a moist spring have resulted in an oasis which is refreshing to the eye and to the spirit while the dignity and cool shade of the big cottonwood trees add the touch of stateliness which invariably evokes involuntary expressions of admiration from the visitor. There is nothing even in the Pecos valley more beautiful than Robinson park especially at this season when the park in addition to being a bower of green is a riot of color with the immense masses of roses now in bloom.

Robinson park is a little triumph of landscape gardening and civic pride and the park commission deserves a vote of thanks. They are hidden all speed in their slowly maturing improvements on the east side of the city, the Highland park, which when completed will fill an even more deeply felt want, in a section where there are fewer trees and more need of a place for public rest and relaxation. The building of the artistic driveway at the site of the Highland park and the grading of the ground for the park itself have been completed and promise another beauty spot which will rival Robinson park.

Both will be invaluable civic assets. Albuquerque has derived enough benefit from Robinson park to pay for its cost many times over and it must be remembered that we are now building for the future. If we keep up our lick and work early and late for better highways Albuquerque and environs should become one of the garden spots of the southwest, a magnificent city of homes as well as a commercial metropolis.—Albuquerque Journal.

NOTICE.

Proposals will be received by the Board of County Commissioners of Santa Fe County, New Mexico, for plans and specifications of three bridges to be constructed, one over the Santa Fe river on Canon road within the limits of the city of Santa Fe.

One at the town of Gallisteo, across the Gallisteo river at a point which will be designated by the chairman of the board of county commissioners, and one other member of the board.

One across the Gallisteo river at the town of Los Cerrillos, at a point to be designated by the chairman of the board and one other member of the board of county commissioners.

Said plans and specifications for said bridges or either of them to be submitted to the said board of county commissioners on or before the first day of June, A. D. 1911; at the office of the probate clerk of the county of Santa Fe, N. M., at the court-house in the city of Santa Fe, N. M., at which time the different plans and specifications for each of said bridges, after which bids will be called for, on or before the first Monday in July for the construction of said bridges or either of them, as the board may elect, and only the plan and specifications which may be adopted, for each of said bridges will be paid for; but the proposal shall contain the amount of charge, which will be made for the plan and specification if accepted.

The parties proposing plans and specifications will be required to inform themselves as to the particular locations at which each of the said bridges, is to be constructed, also the particular conditions existing at each of the said locations, which will enter into the matter of the construction of said bridge or bridges.

The board reserves the right of rejecting any and all proposals.
I. SPARKS,
Chairman of the Board
GEO. W. ARMijo,
Clerk of the Board.

Foley Kidney Pills also take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight, and all the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. For sale by all druggists.

TO AND FROM ROSWELL.

Connections made with Automobile line at Vaughn for Roswell, daily. Automobile leaves Vaughn for Roswell at 8:30 a. m. and arrives at Roswell at 3:30 p. m. Automobile leaves Roswell for Vaughn at 6 p. m. The fare between Santa Fe and Roswell is \$5.00 and between Torrance and Roswell \$10. Reserve seats on automobile by wire. J. W. Flockard.

ADVERTISING NUGGETS BY WM. C. FREEMAN

The church that will advertise that its minister is a human being, that he loves humanity, that its choir sings the old hymns and sings them well, that will welcome strangers, that will open up its pews cordially just as a man opens the door of his home to a friend—such a church will not have any trouble in keeping its pews well filled.

George Washington has had attached to his name an advertisement that has lived about 170 years, because he was a slip of a boy when his father accused him of cutting down a cherry tree, and he acknowledged that he had done so by saying:

"Yes, I did it, father; I cannot tell a lie."

There has never been recorded, so far as I know, any statement contradicting that George Washington said this, so the advertisement may be accepted as a truthful advertisement.

Many a merchant thinks he cannot afford to advertise when he looks at the big space used by big advertisers. He forgets that those same big advertisers had to start in a small way—had to creep before they walked.

No man should be discouraged about starting advertising in a small way. It is the only way he should start, and it will pay for example:

Two advertisers started using two-inch advertisements in two newspapers in a big city some twelve years ago.

The advertisements ran three times a week, and they paid for position. Their announcements always appeared on the same page and they were there regularly, fall and winter, spring and summer.

Today both advertisers are doing a very large business and each is worth more than a million dollars.

HONESTY FIRST REQUISITE

Underlying Principle of Successful Advertising H. N. McKinney Tells Harvard Students.

The students of the graduate school of business administration at Harvard university were told some facts about advertising recently by H. N. McKinney of Philadelphia. He took for his topic, "Advertising a Power in the Molding of Thought." Mr. McKinney is connected with N. W. Ayer & Son, an advertising agency of Philadelphia.

"Advertising is the art of creating a desire, or increasing an already existing desire, and fixing it upon some certain article until that article is purchased. Advertising is the silent salesman, repeating the selling argument until it fastens itself in the mind of the reader. Advertising is not a get-rich-quick scheme. It is not an easy road to success. It is a hard, painstaking study of human nature in all its phases, and its success is an evidence of a correct understanding of the human mind.

"The underlying principle of all advertising is always the same—the application of the principle is rarely twice alike. The principle is the creation of thought, and the molding of that thought in a given direction. It matters not whether the article advertised is a railroad bond, a diamond bracelet or a package of food; the object of the advertiser is to create a desire for that particular thing so intense that a sale follows.

"While the principle is unchanging and unchangeable, the application of it must be fitted to each individual case, and not a small part of many advertising failures is due to the assumption that because a certain line of advertising has been successful in one case it will be in another. The right principle was wrongly applied, with resulting failure.

"The first and most important requisite of all advertising is honesty; no success can be permanent unless honesty is the foundation upon which everything else is built. The article advertised must be honest in its manufacture, in its appearance and in its price, while the advertising must be honest and truthful in all statements and in all impressions and inferences.

"I believe that at least one-half of the hundreds of millions of dollars annually expended in advertising in all the United States is utterly wasted, and this is very largely because of the popular idea that anybody can attend to the advertising of a business."

The Wise Salesman.

The wise salesman is not the man who has a line of talk that would "sell kindling wood in hades." The wise one would market his kindling wood where he could hope for a repeat order.

Sufficient Cause.

She—How is it that the Yearweds do not speak to you now?
He—I'm the man who introduced them to each other.

Tit for Tat.

"Because she took the money to pay for her new harem skirt that he intended to use for his Turkish cigarettes."

Miss M.S.E. Always Comes Back.

"I suppose you are writing for posterity?"
"No, I seem to be writing merely for the purpose of increasing the postal revenue."

NOTICE FOR PUBLICATION.

In the District Court in and for the County of Santa Fe, Territory of New Mexico.

Petition of the Santa Fe Water and Light Company, a corporation, for the condemnation of certain lands lying and being in the county of Santa Fe, Territory of New Mexico. Petitioner.

No. 6773.
vs.
Ramon Trujillo and David Rodriguez, and the unknown claimants of the lands and premises described in the complaint. Defendants.

This is to notify the unknown claimants of the lands and premises described below that a suit has been filed in the district court of the county of Santa Fe, by the above named petitioner against said defendants for the condemnation of a tract of land described as follows:

A certain tract of land beginning at a point on the east side of the Pecos road, from which the eastern corner of the land belonging to Bronson M. Cutting bears south 64° 54' West, 58.8 feet, distance and also from which the flag pole of the Capitol bears North 34° 5' West; thence North 81° 49' East 110.1 feet; thence North 81° 49' East 496.4 feet; thence North 80° 02' East, 205.1 feet; thence North 79° 36' East, 574.0 feet; thence North 79° 40' East, 175.4 feet; thence North 81° 10' East, 275.8 feet; thence North 81° 28' East, 390.5 feet; thence North 81° 28' East, 665.7 feet; thence North 79° 23' East, 105.0 feet to the West line of the right of way of the Talaya Hill reservoir and from said point ten feet south and returning a distance of ten feet south from the line described above to the Pecos road, and from thence ten feet to the point of beginning.

Said condemnation being for the purpose of acquiring right of way for a pipe line desired by the plaintiff for conducting water for the use of the inhabitants of the city of Santa Fe living adjacent to the said pipe line, and all parties claiming interest in said lands are hereby notified that the petition filed on the 21st day of April, 1911, for said purpose will be presented to the Honorable John R. McFie, Judge of the District Court, in and for the County of Santa Fe, on the 19th day of May, 1911, at his chambers in the city of Santa Fe, at 10 a. m., and an order for the appointment of commissioners for the appraisal of said lands obtained at said date, at which time and place the unknown claimants of said lands may appear in opposition of said petition and the appointment of said commissioners.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said court, at Santa Fe, this 20th day of April, 1911.

EDW. L. SAFFORD,
(Seal) Clerk of the First District.
Hanna & Wilson, Attorneys for Petitioners, office and postoffice address, Laughlin Bldg., Santa Fe, N. M.

THE DAILY ROUND UP.

Santa Fe, N. M., May 11.—The weather for New Mexico is fair tonight with light frost in north portion. Friday fair and warmer.

Change of Time on New Mexico Central—On Sunday May 14th, New Mexico Central will change the time of their trains. The train from the south will arrive at Santa Fe at 3:18 p. m., and the south bound train instead of leaving at 7:20 a. m., as at present, will leave at 5:45 p. m.

Japa-Lac in Stock at GOEBEL'S. Owens Pleads Guilty—Solomon M. Owens pleaded guilty at Roswell to issuing worthless checks.

Call the Capital City Dairy, phone Black 188, when in need of milk and cream. Surplus always on hand.

Jail Break at Roswell—Frank Boscoe and Frank Marsden, aged 19 years charged with forgery, and Francisco Rano, who pleaded guilty to shooting his employer, broke out of jail at Roswell. Ramon returned voluntarily.

MOTHERS' DAY. Don't forget Sunday, May 14th, is the day when you should wear "White Carnations for Mother's Memory." "Bright Carnations for Mothers Living." You can get them at the Clarion Gardens, phone 12.

Dries Sweep Dexter—At the special election held at Dexter, Chaves county, on last Saturday, Henry E. Embrey, prohibitionist, was elected by 49 votes against 28 votes cast for W. J. Chance, wet. This assures the banishment of the only saloon from Dexter.

Commencement Invitations—The New Mexican acknowledges the invitations and programs to the commencement of the University of New Mexico, at Albuquerque, May 28 to June 1; New Mexico College of Agriculture and Mechanic Arts, May 14 to 18; New Mexico Normal school at Silver City.

Costumes for De Vargas Pageant—James L. Seligman has succeeded in locating data which throw much light on the costumes worn at the time of the reconquest of Santa Fe in 1692 and which will be utilized in preparing the De Vargas pageant.

Saturday, May 13 will be the LAST day of our Special Sale and every article in our store will be cut down to such tremendously low prices that even manufacturers can not make to jobbers. But only on this special day will these prices hold sway. Remember May 13. Adolph Seligman Dry Goods Co.

Warranty Deed—A warranty deed was recorded in the office of George W. Armijo the probate clerk by A. Reinhardt to Rupert F. Asplund for one lot in precinct No. 8 and from Teodoro Martinez to the Santa Fe Water and Light Company for the old John Hesch mill property, the consideration being \$1.

Box the Trees—Complaint is made that trees given by the city to property owners have not been boxed as had been agreed by those who took

advantage of the city's offer. The city may be compelled to box the trees in question and charge the cost against the property, but this should not be necessary.

Tourists Rates to Santa Fe—The Santa Fe has announced tourist round trip rates to Santa Fe which will enable tourists to visit this ancient city at a cost of a single fare for the round trip from Denver, Colorado Springs and Pueblo, selling dates being June 20 and 27, on July 4, 11, 18 and 25; on August 1, 8, 15, 22, 29; and on September 5 and 12, the tickets to be good for thirty days.

Additional Parks—The city administration has made arrangements to place two hydrants, and to fence the park on Hillside avenue. The Woman's Board of Trade has agreed to look after the park in the future. The park on Grant avenue in front of the Catron property will also receive attention as will Sloan park on the southside, so that Santa Fe will have two more public breathing places in addition to the Plaza.

See who serves the warrant on Red Rube at the Elks tonight.

Mrs. Betting Dead—Mrs. Beatrice Bettinger died of blood poisoning this morning at St. Vincent's Sanitarium. She came here from Espanola and had been ill six weeks. Mrs. Bettinger leaves a husband and a six weeks old boy besides a father and mother, sister and brother. She was only 16 years of age and was a native of Kansas. Undertakers Mulligan and Rising are in charge of the funeral arrangements.

Not a Killing Frost—Although the mercury dropped to 39 degrees last night orchardists are smiling, for they are assured that the frost was not a killing one. Ice formed, however, and was visible under lawn sprays. The weather man adds: "It is believed that no material injury resulted to the fruit, owing to the low relative humidity, and the low temperature lasted less than an hour and was just before sunrise. Tender plants and early vegetables may have suffered a slight damage, however." The average relative humidity yesterday was 24 per cent and the thermometer ranged from 39 to 61 degrees.

French Professor for Summer School—Professor Rene de Serriere of the University of Paris has been secured by the University of New Mexico for the summer school session at Albuquerque. He will teach French and Spanish.

Drill Crashed Down Mountain—A ten ton drill which was being hauled to the Copper Gulf camp in Grant county, crashed for 300 feet down the mountain side cutting down trees and shrubbery in its path. It took 14 horses with a block and tackle to lift the drill into the road again.

Rescued from the desert, a great western picture taken in this country. See it at the Elks tonight.

Cattle Shipments—A shipment of 1631 head of cattle was imported Wednesday through the Columbus, Luna county, port. The cattle were imported by C. K. Ward and will be shipped to Michigan. Dr. J. Reid inspected the cattle. The Palomas Land

and Cattle company passed 1692 head of Mexican cattle through Columbus. The cattle came from the Casas Grandes district.

POLITICAL JOBS

Continued from Page One.

evening, at which the proposition will be considered of devoting the money already raised and to be raised for the Fourth of July celebration to the idea of developing the summer school and placing a Chautauqua on a permanent basis. The subscription for the Fourth of July celebration was increased to \$395 last evening and a full list of contributors will be published later.

The meeting last evening, proved that Santa Fe people are together on every proposition for the growth and advancement of Santa Fe and its interests and that a new spirit prevails in the community that will overcome many obstacles that seemed insuperable in the past.

The following subscribed to the Rito de los Frijoles road fund:

N. Salmon \$10; L. A. Hughes \$10; Santa Fe Water and Light Co. \$10; S. G. Cartwright \$10; Paul A. F. Walter \$5; H. P. Bardshar \$5; J. G. Schumann \$5; J. H. Gerdes \$5; J. A. Rolls \$5; Wood-Davis \$5; F. F. Gormley \$5; C. G. Ritchie \$5; Fred Muller \$5; John Dendahl \$5; R. L. Baca \$2.50; W. N. Townsend \$2.50.

POLICEMAN MAKES MONKEY OF MILLIONAIRE'S SON.

(Continued from Page One.)

To own a few millions that you are better than me, you are wrong. You can have it either way you want. I'll give you Alan or I'll make it Ryan, but that mister thing doesn't go with you."

It looked as though the millionaire's son and Schroeder were about to go to the carpet when Alexander Ackerman, inspector of motor vehicles in Hudson county, came between them. Then all hands repaired to the court room next door.

NEW MEXICAN WANT AD BROUGHT RESULTS.

A lady lost her gold watch pin and belt. She advertised in the New Mexican, and the watch was returned to her by an employee of the Montezuma hotel. This is merely one of the many instances where a little want ad brought results. There's a moral.

BIDS FOR THE NEW MEXICO PENITENTIARY SUPPLIES.

Bids for supplies for the New Mexico penitentiary for six months ending November 30th, 1911, will be opened and awarded by the board of commissioners on Friday, June 9th, 1911. All samples must be delivered at the office of the superintendent not later than 9 a. m., June 9th.

Specifications and proposal blanks will be furnished on application to the superintendent, at Santa Fe, N. M. CLEOFES ROMERO, Superintendent.

SANTA FE IS ENTHUSIASTIC.

(Continued from Page One.)

yesterday's fight a rebel bullet struck him in the temple, killing him.

Federals Bound for Ensenada.

Mexicali, Mex., May 11.—Fifty federals of Colonel Mayot's command who have been guarding construction work on the Colorado river, are moving westward presumably toward Ensenada. The insurgents here are watching the movements of the federals with field glasses, but have made no move to intercept them.

Uneasiness at Matamoros.

Houston, Texas, May 11.—Private dispatches from Matamoros, opposite Brownsville, Texas, say that the fall of Juarez has occasioned much uneasiness there, where rebel sympathizers were already numerous. Insurgent bands are reported in the surrounding country. Many women and children are being removed to places of safety on the American side.

Deep Gloom at Capital.

Mexico City, Mex., May 11.—Deep gloom pervades the federal offices today in strong contrast with the spirit of hopefulness maintained throughout the last ten days. Mr. de la Barra, who fathered the peace negotiations for the government and who apparently has been most sanguine that they would result favorably, appeared dejected and seemed to have lost hope of immediate peace. At the National Palace the officials conversed in subdued tones. None had a word to say publicly regarding the situation. In the streets the news of the rebel victory at Juarez was read and discussed undemonstratively.

Sympathizers with the rebellion maintained a calm exterior.

Five Red Cross Nurses.

Washington, D. C., May 11.—In response to an appeal from Colonel Stever, the Red Cross today ordered five nurses to Juarez for duty in the temporary hospital established there.

PRETTY WEDDING AT CERRILLOS SOLEMNIZED.

Cerrillos, N. M., May 11.—A very pretty wedding was solemnized here yesterday when Monclovia Lujan and Jose M. Diman were united in marriage at the chapel of St. Joseph by Rev. Antonio Besset. The bride is the eldest daughter of Narciso Lujan and wife and was beautifully gowned in white satin and carried white roses. The groom is a popular and highly respected young man who has been employed for a number of years as a section foreman on the Santa Fe railway. A wedding breakfast was served at the home of the bride's parents and a reception to one hundred guests was given during the afternoon and evening. The best wishes of the community go out to the young couple. For the present their home is in Cerrillos but in June they will take up their residence at Bernalillo.

Postmaster Commissioned.

Washington, May 11.—Louis H. Miller of Pendleton, N. M., has been commissioned a postmaster at Pendleton, San Juan county.

FOR SALE—Two fine, substantial buggies, one 1 seat and other 2 seats. Apply Akers-Wagner Undertaking Establishment, San Francisco Street.
