## WILL BRING ELKS HERE

Carload of Antlered Animals To Be Distributed In Our Forests

### IMPORTANT DECISION GIVEN

Acting Attorney General Outlines Powers of Game Warden and Deputies.

Game Warden Thomas P. Gable will leave on Sunday morning for Steamboat Springs, Colorado, to bring from there into New Mexico, a car load of elk to be distributed in three national forests for propagating purposes thus adding a valuable game animal, an effort that will be much appreciated by sportsmen.

**For the Treasury.** Territorial Treasurer M. A. Otero has received the sum of \$893.88 from James Sutherland, of Chaves county; \$472.50 from Cleofes Romero as convict's earnings, and \$250 from Game and Fish Warden Gable.

**Officials Away.** Territorial Superintendent J. E. Clark of the department of education has gone to Springer on official business.

**Land Commissioner R. P. Ervin** is in Clayton looking after business for the land office.

**Notaries Appointed.** Governor Mills has appointed Charles M. Marshall of Chama, Rio Arriba county, and Bessie J. Crockett of Vaughn, Guadalupe county, notaries public.

**Appointed Forest Clerk.** E. E. Epperson has returned from Truchas, Rio Arriba county, and has taken a position as clerk in the office of Forest Supervisor B. M. Thomas.

**Back at His Office.** Supreme Court Clerk Jose D. Sena was back at his office today, getting up from a sick bed to attend to some urgent business. Mr. Sena has been quite ill with a severe cold and an attack of lumbago and he is still scarcely able to speak. His many friends will be glad to know that he is on the road to improvement, however.

**Examination for Forest Service.** Supervisor B. M. Thomas announces an examination for forest clerk, male, on June 3, at Santa Fe, Roswell, Raton, East Las Vegas and Albuquerque to fill vacancies paying from \$1,000 to \$1,200 a year. The principal subjects of the examination will be spelling, stenography, typewriting, bookkeeping, arithmetic, penmanship and letter writing. The time allowed for the examination will be seven and a half hours. Those applying must be between 18 and 40 years, must be free from tuberculosis and applications must be in by May 29.

**Important Decision.** Territory of New Mexico, office of the attorney general, Santa Fe, May 10, 1911.

Hon. Thomas P. Gable, Game and Fish Warden.

Santa Fe, New Mexico.  
Dear Sir—Referring to our conversation of recent date in which you asked for an opinion from this office regarding the powers and duties of the game and fish warden and his deputies, two questions were submitted by you, which may be stated as follows:

First: Is the warden and his deputies authorized by our statute to arrest without warrant a person or persons discovered in the act of violating any of the provisions of the game and fish law?

Second: Is he authorized to search the game bags, wagons, packs, fish baskets and camps of persons suspected of violating the game or fish law, for the purpose of securing evidence of such violations?

Replying to the first question, I have to say that by the provisions of section 3 of chapter 48 of the laws of 1903, the warden and his deputies are authorized and required to arrest all violators of the game and fish laws, and for any failure to make such arrest they make themselves liable to fine or imprisonment. Section 3 of chapter 83 of the laws of 1909 makes the possession of game or fish at any time unaccompanied by a proper and valid license, certificate, permit or invoice, prima facie evidence that such game or fish was unlawfully taken.

The possession of game or fish during the closed season is prima facie evidence of guilt, and it would be preposterous to hold that the warden cannot immediately arrest the holder of such game or fish without procuring a warrant of arrest issued out of some court of competent jurisdiction. In fact, the warden would be derelict in his duty if he failed to make the arrest, and would make himself liable under the provisions of section 3 of the act of 1903 above referred to, by adopting any other course, the guilty person would be afforded every opportunity of making his escape, and the ends of justice would be defeated. I am therefore of opinion that it comes the duty of the warden or any of his deputies, upon discovering a violation of the fish or game law, to at once place the offender under arrest and present him to some court having jurisdiction by the filing of a proper accusation.

Replying to the second question: (Continued on Page 8.)

## BEER SAVES BOLTON HOTEL

New England Caravansary Threatened With Destruction by Forest Fire

### ENGINE SPARK CAUSES FLAMES

Six Square Miles of Maple and Pine Woods Blackened Waste Today.

(By Special Leased Wire to New Mexican) Bolton, Conn., May 12.—Forest fires are again raging in this section. At Bolton Notch, the New England hotel was saved by pouring barrels of beer on the flames.

**Locomotive Spark Starts Fire.** Albany, N. Y., May 12.—About six square miles of fine maple and pine forest land between this city and Schenectady are a blackened waste today as the result of a fire believed to have been started by a spark from a locomotive. The fire is still burning today but is apparently under control.

**Forest Fires in Oil District.** Bradford, Pa., May 12.—Forest fires have broken out in the oil fields about here and it is feared the loss of oil property will be heavy. During the day a heavy gale spread the flames with alarming rapidity but progress was reported by the fire fighters when the wind went down.

### WIRELESS SAVES PASSENGERS OF STEAMER MERIDIA.

Had Collision in Mid-Ocean With Admiral Farragut—Battleship Iowa Responds.

(By Special Leased Wire to New Mexican) New York, May 12.—The steamship Meridia with 207 passengers from Havana for this city, was rammed by the steamer Admiral Farragut from Philadelphia for Port Antonio, off Cape Charles shortly after midnight. The Meridia's passengers and crew were transferred to the Admiral Farragut. Five hours after the collision the Meridia sank.

**Summoned By Wireless.** New York, May 12.—Wireless distress signals brought the United States battleship Iowa and the steamship Hamilton to the Meridia's assistance. The Admiral Farragut, which had but one passenger on board, was damaged in the collision. Officers of the Meridia went among the passengers and assured them that there was no danger. The passengers were transferred to the Admiral Farragut in life boats and lost all their baggage. According to a wireless dispatch received at 10 o'clock the Hamilton took the Meridia's passengers and crew off the Farragut. The Hamilton will arrive at Norfolk late today.

A later wireless message from Captain Mader of the Admiral Farragut said that the Farragut was floating on four collision bulkheads. This led to the belief that the Farragut had been seriously damaged.

**Few Americans on Board.** Havana, May 12.—The only Americans on the passenger list of the steamer Meridia, which sailed from here Tuesday for New York, are Philip Lynch, Robert Wright, Mrs. Wright, Anna Wright and William White, the latter a Canadian.

### Headed for Shoal Water.

On Board the Admiral Farragut, by wireless, May 12, 3:30 p. m.—"We are headed for shoal water, being conveyed by the U. S. battleship Iowa. The condition of the steamship is such that we are forced to keep her stern to the running seas. We have reinforced the collision bulkhead and shall make an attempt to get into Chesapeake bay. Our position at noon was 1.837 miles south of Sandy Hook."

### LIFE TIMER PARDONED BY PRESIDENT TAFT.

Sordid Story Brought to Life Which Indicates That This Man Was Wrongfully Convicted.

Washington, May 12.—President Taft, in granting executive clemency to Daniel T. Jones, serving a life sentence for murder in Leavenworth prison, brought to light a sordid story about a pioneer's life along the Indian territory frontier in the '70's.

Jones, after serving a two-year sentence in a Texas jail, returned to the Indian territory to find his home wrecked by his cousin, William. There were reconciliations and the family moved to the wilderness along the Red river. One night early in 1874, William Jones was shot and killed in the cabin the family occupied.

A woman passing the night there testified William's wound was not burned, as it would have been if he had committed suicide, and upon that evidence Daniel Jones was sentenced to be hanged. His sentence was commuted to life imprisonment in 1884 and President Roosevelt in 1903 refused to pardon him.

When the case came to President Taft, the undertaker who buried William Jones appeared and made affidavit that William's wound was badly powder burned. The attorney-general recommended clemency. The president decided there was grave doubt of Daniel Jones' guilt and has freed him.

Jones has served 27 years behind prison walls, the equivalent of a 40-year sentence.

## REBELS MARCH ON CHIHUAHUA

Armed Mob Loots Latest Stores of City Which is in Stage of Panic

### ANARCHY PREVAILS IN DURANGO

Santa Eulalia Abandoned by Federals and Is Governed by Americans.

(By Special Leased Wire to New Mexican) Chihuahua, Mexico, May 10, via El Paso.—Two thousand insurgents, part of the band operating in the districts south of here, today are reported marching on Chihuahua.

Already the advance guards are encamped around the city. An armed mob entered a suburb, looted stores, took all the horses, and despite the presence of 1,500 federal troops in nearby barracks, escaped.

Santa Eulalia, an important mining camp 12 miles east, has been abandoned by all the municipal officials because of the approach of insurgents. The place is now regulated wholly by Americans employed in the mines.

This city, long in dread of attack, is now in greater fear than ever because of the extreme violence shown by the insurgents in their northward march. The whole district embracing Durango, Torreon, and intermediate towns has been in a state approaching anarchy.

**Chihuahua Isolated.** To conceal their movements, the insurgents destroyed all the remaining telegraph and railroad lines, so that Chihuahua city, with its 35,000 inhabitants, has been isolated for practically two weeks. This dispatch was sent to be taken 225 miles overland by automobile, to El Paso, Texas.

**Navarro to Be Courtmartialled.** Mexico City, May 12.—Precautionary measures have been taken by the government to prevent a student uprising. Considerable uneasiness prevails as a result of the report that the students have planned a political demonstration and also because of a possible attack by insurgents.

The officials of the war department decline to comment on any action to be taken toward General Navarro as a result of his surrender of Juarez. It is said that the behavior of the federal officer did not receive the approval of his superiors.

It is reported that he will be tried by court martial and that the court will sit at Chihuahua within a few days.

Notwithstanding press and consular reports of the federal commanders' heroic stand, the fact that he displayed the white flag when apparently in good fighting condition, is widely commented upon as remarkable. It is believed by many, however, that the evidence to be developed by the court martial may vindicate him.

**Rebels Will Get Supplies.** Washington, May 12.—After the cabinet meeting today, Colonel Stever in El Paso, Texas, was instructed by the secretary of war to permit all regular shipments passing through the custom house to enter Juarez. This means that the military will not interfere with any supplies cleared by the custom house whether they be arms, ammunition or food.

**Typhus Breaks Out at Juarez.** Juarez, Mexico, May 12.—Six cases of typhus have been discovered in the hospital hitherto used by the federal government. One man died yesterday. The five other patients have been removed and quarantined. There also are two cases of typhoid fever in the hospital.

**Rabago Isolated.** Americans returning from Chihuahua by automobile today, reported that General Rabago, with about 300 federal soldiers, is still at Terrazas, 200 miles south of here, awaiting orders. An insurgent force of about 250 men left here to meet them should they advance.

**Cabral to Attack Hermosillo.** Cananea, Sonora, Mexico, May 12.—Without having demanded the surrender of Cananea, Juan Cabral moved southward today with his combined force of rebels, numbering about 2,000. His destination is believed to be Hermosillo. There is a general movement of insurgent troops against the capital city.

The rebels have burned four bridges between Cananea and Naco stopping all traffic over the Southern Pacific line. All bullion from Cananea smelters is shipped over this line, which carries all supplies for the camp. The garrison here numbers 750 men.

**Rebels Outnumber Federals.** Nogales, Sonora, May 12.—Colonel Reynaldo Diaz, with the 500 federals that evacuated Agua Prieta, yesterday, arrived last night at Magdalena without having encountered resistance. It continued on southward today attempting to reach Hermosillo. There is a general concentration of rebel bands along the line of the Sonora road between Magdalena and Hermosillo and it is scarcely likely that they will permit Diaz to reach Hermosillo without a fight. The insurgents forces greatly outnumber the federals.

**Madero Names Cabinet.** Francisco I. Madero, provisional president of Mexico, yesterday named

(Continued on Page Eight.)

## SENATE AND HOUSE TO CLASH

Statehood Question Will Create Deadlock That Had Been Predicted

### REPUBLICANS STAND FIRM

It Means That New Mexico Does Not Come in Until Next Summer.

Washington, D. C., May 12.—A revised bill for the admission of Arizona and New Mexico as states, was presented to the House by Chairman Flood of the committee on territories. As anticipated, the new bill provides that New Mexico shall be admitted immediately on condition that people shall vote on an amendment to their constitution making that instrument easier of amendment in the future. Arizona like-wise is to be admitted at once providing the people shall vote on a proposition to strike out of the constitution to recall judges. The bills will be called up Tuesday and three days will be allowed for debate.

**Special to The New Mexican.** Washington, D. C., May 12.—Chairman Flood presented in the house the majority report on the statehood joint resolution, and gave notice he would call it up for consideration on Tuesday. Minority Leader Mann presented the minority resolution and report signed by all the Republicans of the committee including Delegates Andrews and Cameron. Both were ordered printed. The majority resolution undoubtedly will pass the house as the Democrats have the steam roller and are using it with ruthless disregard of all rights and decency.

Several Democrats who have repeatedly voted for statehood for New Mexico and Arizona, will refuse to stultify themselves, and will vote for the minority resolution.

In the senate, your correspondent predicts, that the majority resolution will meet its Waterloo. Delegate Andrews introduced a bill to pension Mrs. Hebe M. Miller, widow of John Miller, \$40 per month, accrued pension, the widow and children to receive \$1,076.

**Republicans in Senate Tied Up.** Washington, May 12.—The incapacity of the Republican party in the Senate to carry out a caucus edict without the aid of the progressives was demonstrated in the Senate yesterday when, after more than two hours of effort, and as a result of seven ballots, the Senate failed to elect Senator Gallinger of New Hampshire as president pro tempore to succeed Senator Frye of Maine. The deadlock was due to the opposition of the progressive Republicans, five of whom voted against and two of whom were paired against Mr. Gallinger.

### RECIPROCITY WOULD LOSE FARMERS \$40,000,000

Witness Before Senate Committee Takes Fling at Steel and Shoe Trusts.

(By Special Leased Wire to New Mexican) Washington, D. C., May 12.—Canadian reciprocity would cost the farmers of the northwest forty million dollars annually, according to A. H. Wilkinson a Minnesota farmer, who addressed the senate finance committee today.

The price of United States farm products would shrink that much, he declared. A vital grievance of the farmers, the speaker said, was that they were not consulted as to how they would be affected by the proposed reciprocity.

"Do you believe that a trade agreement would have been entered into that would have injured the steel trust or the shoe industry forty million dollars a year without consulting them?" he asked.

### PHIL J. BARBER DIES IN COUNTY HOSPITAL.

Once Prominent and Wellknown in Santa Fe He Is Overtaken By Poverty and Misfortune.

San Bernardino, May 12.—Death came at the county hospital to Phil J. Barber, former assistant superintendent of the territorial prison at Santa Fe, N. M. Only when the end had come did the attaches of the institution realize that a patient they have been caring for during three years was once prominent politically and financially. Pathetic letters among his effects indicate that his wife has been living in Los Angeles for several years as a widow, merely to "make both ends meet," as she expresses it. She asks her husband to let her know before he comes, should he ever visit her, so she could arrange things to remove any danger of a surprise. Letters from bankers in Springfield, Ill., show Barber was once a wealthy resident of that place.

Barber was heavily interested in the mining camp of Bland, thirty miles west of Santa Fe. The New Mexican is indebted for the above notice to Dr. B. H. Shaw, formerly of this city and now of Los Angeles, California.

(Continued on Page Eight.)

## TRUST WORKED BOTH ENDS

Lowered Price to Producers and Raised it to Consumers, it Seems

### DEMURRER IS OVERRULED

Judge Believes Evidence Indicates Conspiracy on Part of Packers.

(By Special Leased Wire to New Mexican) Chicago, May 12.—The demurrer of the Chicago packers in the "beef trust" case was overruled today by Judge Carpenter in the United States district court.

In his ruling Judge Carpenter declared that the Sherman anti-trust law, which had been attacked by the packers, is constitutional. He also held that the indictment charging J. Ogden Armour and other packers with violating its provisions is valid.

As to the stability of the indictment, Judge Carpenter said: "I do not see how the grand jury could have made the charge definite."

"The whole plan, that of the packers as alleged in the indictment, from its inception appears plainly to be one to eliminate competition as a factor in fixing prices among the three groups of defendants, beginning with the agreement not to bid against each other and in fact to bid exactly the same amounts for like grades of live stock, fixing a uniform selling price and ending with fixing a uniform price of sale and an apportionment among themselves of the total business done."

"I am of the opinion that the facts stated in the indictments show clearly a plan or scheme organized and put in operation by the defendants, the ultimate purpose of which was to control the production, sale, and distribution of fresh meat throughout a large section of this country, and as incidental to that control to lower prices to producers of the raw material and raise prices to the consumer of the finished product. While the facts do not disclose an absolute monopoly, yet the large percentage of the business which they control indicates that they intend to acquire at least a commercial monopoly."

Judge Carpenter said he did not think the trial could be held before fall.

### WHEAT TAKES ANOTHER DOWNWARD TURN.

Talk of Heavy Shipments From Russia Frightens the Bulls—Stock Market Active.

(By Special Leased Wire to New Mexican) Chicago, Ill., May 12.—Talk of heavy Russian shipments to be made this week caused a down turn here today in wheat. The bearish feeling was increased by Liverpool sending word of realizing sales and of a smaller demand for Australian cargoes. Reports were also received of excellent crop prospects in the Argentine.

Opening prices were unchanged to 1-16-14 cent up.

Corn eased off influenced by wheat. Profit taking made oats rather weak. Provisions were steady. Bullish reports in regard to winter wheat south-west caused a sharp rally. The close was firm. Selling carried prices lower but the market rebounded with wheat. The close was firm.

### Wall Street.

New York, May 12.—The stock exchange business was more active at the opening today but a reactionary tone developed. Part of the gains made yesterday were cancelled, as were the small advances of today's early trading. Bear operators did not follow up their forenoon advantage and prices hardened a fraction. Business became intensely dull and fluctuations were unimportant. The market closed heavy.

### WILL RESTORE MASTERY OF TEXAS ON THE GULF.

At One Time Regular Line of Vessels Stopped at Principal Ports—\$350,000 for Aransas Pass.

Aransas Pass, May 12.—That Texas will have a number of the best harbors on the American sea coast is now assured. In the old days, there was a regular line of vessels which touched at Point Isabel, near Brownsville, Indiana, the town which was swept away by a tidal wave in 1876, Corpus Christi, Galveston and other coast points. A line of steamers made regular stops at all of these places when the commerce of the southwest section of the state was carried on in this way. Recently efforts were made for deep water at Aransas Pass and \$350,000 appropriated by congress for this purpose. It is now announced that this sum is available and that work on dredging the channel to a depth of twenty feet will begin in a short time. Aransas Pass looks forward to deep water within the next eighteen months, and expects the great ocean liners will be able to receive and discharge freight at the wharf.

### LADY DECIES OPERATED ON FOR APPENDICITIS.

London, Eng., May 12.—Lady Decies, who before her marriage to Lord Decies, was Miss Helen Vivien Gould, underwent an operation for appendicitis this morning. The result was most satisfactory.

### POPE APPEARS TO BE GROWING WEAKER.

Rome, May 12.—Although the pope has taken longer than usual to recover from his last attack of gout, he is maintaining his ordinary routine of life and holds audiences daily. His boldness appears languid and less energetic than a year or two ago, but no apprehension is felt.

## BUSY COURT TERM AT TAOS

Grand Jury Makes Vigorous Report for Suppression of Low Saloons

### ADJOURNED SESSION HELD

Flooding of Roads by Irrigationists Is Condemned—Several Convictions.

The suppression of low saloons and dives was vigorously demanded by the territorial grand jury at Taos, according to Attorney A. B. Renahan, who returned last evening, and said that a very busy term of court was held by Judge Ira A. Abbott who is expected this evening on his way home to Albuquerque. His place will be taken by Judge M. C. Mechem to preside over an adjourned term of court unless Judge John R. McPhe returns next week. Two convictions were had for criminal assault, Juan Trujillo being found guilty of an attack upon Fulgencia Martinez, and Juan Lujan of an attack upon an eleven year old girl. There were two convictions for manslaughter. Two murder cases in which Abel and Benito Lobato are the defendants are to be tried at the special adjourned term of court. The grand jury returned twelve indictments including two for murder, and several for forgery, for issuing a worthless check for \$3,000 and for perjury, involving prominent people. Charles F. Easley, as referee, took testimony in the Antonio Martinez grant case and will return this evening, being succeeded by Mrs. G. F. McNitt as examiner. The grand jury also protested against the flooding of roads by irrigationists, advocated the construction of a new jail and court house, and demanded the employment of an expert to index the county records which are declared to be in inextricable confusion.

**PROMOTING NOT AS EASY AS IT USED TO BE.** Uncle Sam Watches Mails Carefully and Puts Texas Wireless Concern out of Business.

San Antonio, Texas, May 12.—Promoters of wireless telegraphy and telephony in Texas, while having found this a fertile field in one respect find it very unpromising in others. For some time a concern known as the Texas Fiscal Agency has been operating in this city soliciting stock. A few days ago, John B. Dickinson, Charles A. Beauchamp, William A. Bowmar were arrested charged with unlawful use of the mails. Yesterday the federal grand jury returned indictments against these men on a charge of unlawful conspiracy to use United States mails in schemes and artifice to defraud. Some of the literature of the concern was presented in evidence showing the "wonderful possibilities" of this great proposition. One circular purported to give some inside facts relative to the earnings of other corporations. This went on to say that \$100 invested in Bell Telephone stock had made \$100,000, that \$100 invested in Merchants Linotype Company had returned in seven years \$127,000; \$100 invested in American Smelter shares is worth \$100,000; also it was estimated that \$10 originally invested in Westinghouse air brakes has paid \$44,856; the Eastman Kodak Company has, according to the circular, paid enormous dividends. The Pullman Company, as the circular tells, has paid \$44,000,000 since 1898, increased its stock \$1,000,000,000 and then pays eight per cent dividend quarterly. Whether these statements be true or not, they were sent out through the mails as an inducement to secure subscribers to wireless stock, which the promoters declared would ultimately pay greater dividends than any of the companies named, or at least that is the inference of the grand jury which returned indictments. The indicted men, however, take the position that they are persecuted by other interests with which their business comes in competition and declare that they will prove themselves innocent when the case comes to trial. John B. Dickinson was in charge of the agency in this city and claims to have communicated with a number of towns by means of wireless methods.

### TWO DROWNED IN RAGING RIO GRANDE.

A dispatch from Socorro says that Manuel Pino, a prominent stockgrower of San Acacia, and his son, Vicente aged 22, were drowned in the Rio Grande. They were crossing the river in a small boat which was upset by the swift current. The body of the elder man was recovered but the son's body has not been found.

### POSTMASTER AT FARMINGTON.

Austin A. Ball has been appointed postmaster at Farmington, San Juan county, by President Taft.

## FRUIT PLENTIFUL AT ESPANOLA

Frost Has Not Done Any Material Damage in Valley Thus Far

### LA JOYA IRRIGATION DITCH

Work Progressing Rapidly on This Important Reclamation Project.

Hon. L. Bradford Prince came down yesterday evening from the Espanola valley and reports the fruit prospects are excellent through all that section. With the exception of apricots, Japanese plums and some early blooming peaches and apples, there is practically nothing affected by the frost, and the crop of pears, cherries and European plums is exceptionally good. The great lack in the valley is an evaporator or other appliance by which to utilize the lower grades of fruit, and it is hoped that the company which was organized some years ago and bought the evaporator from the Santa Fe Fruit Company, will get it into shape in time to save a large part of the crop this year. It is estimated by the largest growers that over a third of the crop of 1910 was entirely wasted through the lack of means to utilize it by making what may be called the by products of the orchard industry—such as dried fruits, jellies, fruit butter, cider, etc.

On Wednesday, Governor Prince went up the river to La Joya and Velarde in order to examine the progress of the new ditch of the La Joya Irrigation Company, and also see the condition of fruit in that part of the valley. La Joya was appropriately named for it is really the "jewel" of the whole Rio Grande valley, and for just two centuries, since Captain Sebastian Martin, the friend of DeVargas, selected it in 1711, for his future home, it has been the favorite place of residence of those who could afford to select.

The prospects there this year are remarkably fine, better even than at the lower points of the valley. Not even the most delicate apricot has been injured, the shelter of the surrounding hills affording a welcome protection from wind and cold. The trees are literally covered with fruit of all kinds, which will have to be thoroughly thinned in order to come to perfection.

The work on the La Joya Irrigation project which is to water part of the valley above the present ditch line, is progressing favorably. It will be remembered that this is the small project which was all that the company could get permission to take water for, until the Elephant Butte enterprise is finished; but which will be greatly enlarged as soon as the restrictive policy of the reclamation service is ended. It begins in the Embudo canon where the water is taken down past Velarde and La Joya to Los Luceros and Plaza del Alcalde. There are now seventeen teams with heavy scrapers at work, besides others with plows, etc., and the construction is proceeding rapidly. About 4,000 feet of wide ditch has been completed near the upper end; about 600 feet more is finished north of the Canada Ancha, and nearly or quite a mile on the mesa below the Canada, where the line is being rapidly extended to the south. When this is completed it is intended to sell the land in small tracts of five to ten acres to settlers for fruit culture; and there is already much inquiry for the land; but not a foot will be sold until the water is actually upon it, so that there can be no possibility of delay or failure.

### TEXAS HAS IT IN FOR THE BOOMERS.

Solid, Substantial Growth and Not Inflation By Real Estate Speculators Is Demanded.

Houston, Texas, May 12.—One of the most hopeful things in a commercial way that has transpired in Texas during the past year is the effort of real estate men to shake out those commonly known as "boomers." The so-called "boomer" has been one of the factors operating in Texas to the disparagement of the country. These men made any and all kinds of promises and some of them used pictures from other states in the south representing them as having been taken on their alleged holdings. Some people were induced to invest in these schemes and as a logical consequence have not realized on their investment. More than a year ago the legitimate real estate interests of Texas, backed by the bankers, started a movement to get rid of this class of promoters and there is much satisfaction expressed over the result. The "sure-things" have been compelled to take in their signs and abandon business for a lack of bankers to finance their schemes. While there is plenty of money for all legitimate efforts and this is easily obtained, the so-called "sucker-hunter" and financial plunger finds himself entirely out of business. Today the real estate business in Texas is on a basis quite as substantial as that in any other part of the country.

### "THE SUMMER'S CALL."

(By Mrs. Felicia Hemans.)

Come away! the sunny hours  
Woo thee far to founts and bowers:  
O'er the very waters now,  
In their play,  
Flowers are shedding beauty's glow—  
Come away!  
Where the lily's tender gleam  
Quivers on the glancing stream,  
Come away!

All the air is filled with sound,  
Soft, and sultry and profound;  
Murmurs through the shadowy grass  
Lightly stray;  
Faint winds whisper as they pass—  
Come away!  
Where the bee's deep music swells  
From the trembling foxglove bells,  
Come away!  
In the skies the sapphire blue  
Now hath won its richest hue;  
In the woods the breath of song  
Night and day  
Floats with leafy scents along—  
Come away!  
Where the boughs with dewy gloom  
Darken each thick bed with bloom,  
Come away!

In the deep heart of the rose  
Now the crimson love hue glows;  
Now the glowworm's lamp by night  
Sheds a ray,  
Dreamy, starry, greenly bright—  
Come away!  
Where the fairy cup moss lies  
With the wildwood strawberries,  
Come away!

Now each tree, by summer crowned  
Sheds its own rich twilight round;  
Glancing there from sun to shade,  
Bright wings play;  
There the deer its couch hath made  
Come away!  
Where the smooth leaves of the lime  
Glisten in their honey-time,  
Come away—away!

### AROUND THE STATE

Another Newspaper Change.  
J. D. Carter has sold the New Mexican Homestead at McIntosh, Torrance county, to Irving Mead.

#### Three True Bills.

The federal grand jury at Las Vegas has returned three true bills. The petit jury was discharged by Judge C. J. Roberts without trying a single case.

#### Dirt Flying at Meloche.

The construction work on the Meloche dam is progressing rapidly, fully one-third of the concrete for the dam's cement core having now been laid and the earth embankment filled in as rapidly as progress as the cement work permits. Over 125 men and 40 teams are employed about the construction of the mammoth reservoir and an additional force will be added soon to accelerate the progress of the work, in order to prepare the reservoir site for holding the flood water that will come during June or July.—Raton Range.

#### Morley Closes Big Deal.

Richard A. Morley, formerly a resident of Las Vegas, has sold the Kenwood apartments, corner of Forty-seventh street and Kenwood avenue, Chicago, to men residing in Columbus, O., according to a Chicago newspaper. The consideration was \$500,000. The purchasers gave as partial payment 12,000 acres of wheat land in Alberta, Canada, assumed a mortgage of \$115,000 and paid the balance in cash. The building is eight stories in height with a basement and contains 52 apartments of five to ten rooms, with a drug store on the first floor corner. The annual gross rent is said to be \$60,000.

#### Looks Like White Slavery.

Two little girls, named Ida and Nettie Hanna, aged 13 and 15 respectively, were taken back to their home at Delagua by their foster father last evening, from whence they were inveigled on last Friday by two women named Annie Neary and Hattie Walf, who brought them to Raton and kept them in hiding until discovered by the officers. Since Friday, the father had been on the trail of the party and it was not until the first of the week, through the assistance of Marshals Brown, Baldwin and Curtis that the two young girls were traced.—Raton Range.

#### Pool Room Employee Reprimanded.

A few "drags" on a cigarette in the court room while the United States court was in session this morning, came near costing Roy Walsh \$5. It is certain they cost him considerable embarrassment and perturbation. Glancing up from the bench toward the spectators' chairs, Judge Clarence J. Roberts spied Walsh lighting a cigarette. As Walsh, who apparently is a fiend in the use of the "pills," exhaled the first lungful of smoke, the judge's given came down with a whack. Walsh was ordered before the court. He was fined \$5 for contempt. He burst into tears at thought of going to jail, as he had no money to pay the fine. But Judge Roberts has a kind heart in spite of his strict discipline in the court room. He remitted the fine and let Walsh go with a strong reprimand. Walsh appears to be in the latter teens. He is said to be an employee of a local

pool room.—Las Vegas Optic.

### Santa Fe Trail Markers.

The county commissioners have just received three granite Santa Fe trail markers from the Society of the Daughters of the American Revolution that will be placed at three historic spots along the Santa Fe trail traversing Colfax county. One trail marker has already been set at the tunnel near the state line and the additional three, just received will be placed by the commissioners at or near the following named places: One in the north corner of Ripley park, on the site of the old Willow Springs ranch; one near the crossing of the Santa Fe and Rocky mountain roads, six miles south of Raton, near the site of the old Clifton house; and one near the spot where the old trail crossed the Rayado, in the southern part of the county. The setting and formal dedication of the trail marker on the Willow Springs ranch site will take place during the dedication exercises for the new Ripley park, held next Friday afternoon, beginning at two o'clock.—Raton Range.

### COLORADO NOW HAS GREAT SCENIC HIGHWAY.

It Has Surpassed New Mexico in Constructing Roads for Tourist Purposes.

Canon City, Colo. May 11.—The festivities in connection with the formal opening of the new scenic highway to the top of the Royal Gorge and of the flower carnival which will be celebrated here Friday and Saturday, will be the most elaborate and notable ever observed in Canon City. The program for these events which has been under consideration for several months is now practically completed.

The formal exercises in connection with the road opening will be held on the plateau at the top of the Royal Gorge, beginning at 2:30 o'clock Friday afternoon. Charles R. McLain, one of the most prominent good roads enthusiasts in Colorado, will preside as master of ceremonies, and addresses will be delivered by governor John F. Shafroth, Hon. Clyde C. Dawson, Enos A. Mills and many other notable speakers of Colorado and other states.

#### 500 Autos Go Over New Road.

It is expected that no less than 500 automobiles will go over the new road Friday morning to the top of the canon. Assurances have been received by the local Business Men's association that big delegations will come from Denver, Pueblo, Colorado Springs, and many points even as far east as Garden City and Hutchinson, Kan. The celebrated Cowboy band of Pueblo will furnish music.

The new highway, which was begun in February, 1910, and completed in November of the same year, is no doubt the first monument to prison labor in America. Winding and zig-zagging through the canons and along the mountain sides in many places cut out of the solid granite, and overlooking steep precipices, it suddenly emerges upon the beautiful level wooded plateau at the top of the gorge. Here one of the most magnificent sights of America suddenly bursts into view. Not only is the vista of mountain ranges to the west, which culminates in the snow-capped Sangre de Christo, one of the finest to be seen, but the view to the east is no less grand, where Pike's Peak and the surrounding hills and the valley of the Arkansas, sloping away to Pueblo, add beauty to the scene. But the most awe inspiring sight is the view into the depths of the gorge, where nearly 3,000 feet straight down between the cliffs flows the tiny thread of the Arkansas river and the railroad running side by side. Nowhere else on earth does a railroad penetrate such a deep canon as this.

#### Road Sixteen Feet Wide.

## Foley Kidney Pills

TONIC ACTION - QUICK IN RESULTS

Give prompt relief from BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and all annoying URINARY IRREGULARITIES. A positive boon to MIDDLE AGED and ELDERLY PEOPLE and for WOMEN. H. M. Beatty, Little Rock, Ark., says: "For two years I have been troubled with severe kidney trouble. The pains across my back and over my hips were so bad that they almost meant death to me at times. I used several well known kidney remedies which gave me no relief until I used Foley Kidney Pills, and these I can truthfully recommend as they have made me sound and well." Sold by all druggists.

leaving Canon City and which runs through the mountains for about five miles is sixteen feet in width, finely built, well drained, and while its every turn brings into view never-to-be-forgotten panorama, yet its real significance lies in the fact that it brings within easy reach of citizens of Colorado and her annually increasing thousands of tourists one of the great scenic attractions of America. Millions have whirled through the Royal Gorge on railroad trains, but few have seen it from the top on account of the hitherto inaccessibility of the place. Now the slogan of the people of Canon City, of Fremont county and of the Arkansas valley is: "On to the Royal Gorge. See it from the top."

### SEED EXTRACTING PLANT FOR FOREST SERVICE.

Officers of the forestry service have recently visited Custer, S. D., and perfected plans for the erection of a seed extracting house at that point which will be used during the coming season for the production of yellow pine seed. It is expected the plant will be fully equipped and ready for work by the time the yellow pine cones are ripe this fall. The capacity will be 600 bushels per day, or about 600 pounds of seed per day, and if the crop of cones is as good this year as it was last, from ten to fifteen tons of seed will be produced during the coming season.

#### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

Located in the beautiful Pecos Valley, the garden spot of the West, at an elevation of 3700 feet above sea level, sunshine every day, but little rain or snow during session.

Forty-four Officers and Instructors, all graduates from standard eastern colleges. Ten buildings, thoroughly furnished, heated, lighted and modern in all respects.

REGENTS—E. A. CANNON, President, W. G. HAMILTON, V-President, J. P. WHITE, Treasurer, W. M. ATKINSON, Secretary, and W. A. FINLAY.

For particulars and illustrated catalog address: Col. JAS. W. WILSON, Superintendent.

## AMERICAN FLAG ASSOCIATION ISSUES PROCLAMATION.

Urges President, Governor's Mayors, Patriotic Societies, in fact, All Citizens to Observe June 14.

New York, City, N. Y., May 12, 1911.  
To the President of the United States of America.  
To the Governor of Each State.  
To the Mayor of Each American City.  
To the American Press.  
To the Officers and Members of all American Patriotic Societies.  
To all Fellow Citizens.

Agreeable to its custom for the past fourteen years, the American Flag Association reminds you that Wednesday, June 14, 1911 will be the 134th anniversary of the adoption of the stars and stripes as the Flag of our country. The public recognition of Flag Day as a National anniversary, each year becoming more and more genuine, would seem to make unnecessary any reminder to secure your cooperation in securing the widest possible observance this year.

The Governors of many of the States have, by their proclamations, called public attention to the day and have ordered the flag to be displayed on all State Buildings, and have invited their fellow citizens to celebrate the day.

Mayors of Cities, for recognition of this anniversary, have also ordered flags to be displayed upon the municipal buildings of their respective cities, and by formal proclamation or otherwise, have invited their fellow citizens to do the same upon their private buildings.

Editors of newspapers, by general action among them all, have by editorial comment and the publication of historical articles upon the subject of the Flag, called attention to the day, and called upon the subscribers to display the National colors on Flag Day.

School Officers and Teachers have also arranged for patriotic exercises appropriate to the day.

American Patriotic Societies, through their officers and members, have stirred up popular enthusiasm by public appeals through local mediums and by observances of the anniversary.

The American People, from year to year, more and more with a growing enthusiasm have celebrated the day.

All American Citizens are again invited to join in the public recognition of the birthday of the emblem of our nationality. In many of the States, pursuant to law, the public schools, and also voluntarily in private schools, exercises will be conducted in celebration of Flag Day. Let us extend this practice. Teach the story of the Flag, what it represents, and have the young people pledge their fealty and loyalty to it.

On the 14th day of June, 1777, Congress enacted: "That the Flag of the thirteen United States be thirteen stripes, alternate red and white, that the Union be thirteen stars, white in a blue field, representing a new constellation." The number of the stripes having been increased by the admission of new States, the possibilities of the nation's future development dawned upon our fathers, the original thirteen stripes were unchangedly restored by act of Congress on April 4, 1818, when it was enacted: "That from and after the fourth day of July next, the Flag of the United States be thirteen horizontal stripes, alternate red and white; that the Union be twenty stars, white, in a blue field, and that on the admission of a new State into the Union, one star be added to the Union of the Flag; and such addition take effect on the fourth day of July next, succeeding such admission."

Since the struggle of 1861-1865, the Flag has become the symbol of a mighty nation. It has been carried to the utmost parts of the earth, carrying liberty wherever it has been thrown to the breeze.

The stars and stripes, within the recent past, have come to possess new beauty for friendly eyes and new terror for the foes of liberty.

We respectfully appeal to the President of the United States of America, to the Governors of all the States of our land, and to the Mayors of each American city, to herald the coming and celebration of Flag Day, June 14th, 1911, by proclamation; we call upon every public officer, every teacher of the youth of our country, the editors of all newspapers, the daily instructors of the youth of our land, to call public attention, to arouse enthusiasm, and to provide for public exercises and general celebration of the day.

We earnestly exhort our citizens to join in making Flag Day an event, and its celebration in 1911, a great event. Let us, from one end of our land to the other, fling the stars and stripes to the breeze on June 14, 1911. May it greet the rising and salute the setting sun, and float all day long from every church edifice, school and building, public and private and however, humble, through the entire land.

RALPH E. PRIME,

President.

THEODORE FITCH,

Secretary.

Salute to the Flag for Schools. At a given hour in the morning, the pupils are assembled and in their places in the school. A signal is given by the principal of the school. Every pupil rises in his place. The flag is brought forward to the principal or teacher. While it is being brought forward from the door to the stand of the principal or teacher, every pupil gives the flag the military salute, which is as follows:

The right hand uplifted, palm upward, to a line with the forehead, close to it. While thus standing with palm upward and in the attitude of salute, all the pupils repeat together slowly and distinctly the following pledge:

"I pledge allegiance to my Flag and to the Republic for which it stands:

One nation indivisible, with liberty and justice for all."

At the words, as pronounced in this pledge, "To my Flag," each one extends the right hand gracefully, palm upward, toward the flag until the end of the pledge affirmation. Then all hands drop to the side. The pupils, still standing, all sing together in unison the song "America"—"My Country, 'Tis of Thee."

In the primary departments, where the children are very small, they are taught to repeat this instead of the pledge as given for the older children:

"I give my head and my heart to God and my Country. One Country, one language, one Flag."

In some schools, the salute is given in silence, as an act of reverence, unaccompanied by any pledge. At a signal, as the flag reaches its station, the right hand raised, and held there until the flag is dipped and returned to a vertical position. Then, at the second signal, the hand is dropped to the side and the pupil takes his seat.

The silent salute conforms very closely to the military and naval salute to the flag.

Principals may adopt the "silent salute" for a daily exercise and the "pledge salute" for special occasions.

## GOVERNOR WOODROW WILSON SPEAKS AT ALBUQUERQUE.

It is Apparent That He is Feeling the Public Pulse as to Candidacy for the Presidency.

Albuquerque, N. M., May 12.—Preparing to make his address from the Alvarado veranda Dr. Wilson was immediately escorted to that position, where he made a very brief talk to a good sized crowd. His appearance was greeted by a volley of college yells by students of the University of New Mexico and of the high school.

Mayor Elder introduced the distinguished visitor very briefly. Immediately following his talk which was greeted with generous applause Governor Wilson was taken in hand by the reception committee of citizens and held a hand shaking bee on the veranda following which he was escorted to the Harvey curio rooms where he met a number of other gentlemen. After viewing with interest the Indian blanket weavers and having himself photographed in company with a bunch of the Pueblos, the visitor boarded his train, giving everybody a cordial good-bye including several youngsters who crowded around the car steps.

As expressed in his speech Governor Wilson was much pleased to find such a live bunch of collegians in the city and had a pleasant little talk with President McQueen Gray of the university, expressing his gratification that New Mexico had such a progressive educational institution as the university and chiefly that New Mexico's young men are being educated in the vital problems of political life of today.

## He Couldn't Decline It.

"I am not allowing myself to think about it at all," smilingly said Governor Woodrow Wilson of New Jersey yesterday, when asked the question which has greeted him probably at every stop on his tour; whether or not he will become a candidate for president of the United States. "It would be the cheekiest thing in the world to seek that high office and yet no man should decline it," is the oft expressed attitude of the professor-governor in regard to that question. That Governor Wilson however, has that ambition in view is a conclusion difficult to avoid from the very nature of the tour which brought him to Albuquerque for half an hour yesterday.

"It isn't likely that any man would decline that offer if it were made to him," said Mr. Stockbridge, Governor Wilson's secretary yesterday with a smile that rivaled that of his chief. There has been a great deal of talk all the way along the line, about Governor Wilson in connection with the presidency. He is not an avowed candidate, but his friends have persuaded him to take this trip through the country in order to let the people get acquainted with him and in order for him to get better acquainted with the people. He was never west of Denver before and the trip has been an extremely pleasant and instructive one for him all the way.

Mr. Stockbridge's statement is susceptible of only one interpretation; that Mr. Wilson is feeling his way toward becoming a live presidential possibility and an aggressive candidate for the nomination. There is no doubt that he is perfectly willing to let the lightning strike him if it wants to. Meanwhile he is governor or New Jersey to the best of his ability and no one has appeared to deny that he has been governor every minute since his election.

Enthusiastic Reception. Governor Wilson arrived on the California limited on time yesterday morning at 11:05 from Denver en route to the Pacific coast where he has an extended speech making tour in prospect. He was met at the train by a number of citizens including Mayor Elder, Felix H. Lester, a former student under Prof. Wilson; Neill B. Field, O. N. Marron and other

prominent men of both parties. An Extended Speaking Tour. The governor of New Jersey has a busy time ahead of him on the Pacific coast. He has speaking dates at Pasadena, Los Angeles, San Francisco, the University of California at Berkeley, at a Portland banquet and public meeting at Seattle where he will address a banquet of Princeton men, thence back to Minneapolis and St. Paul, ending with a speech at Lincoln, Nebraska.

Governor Wilson's speech was as follows:

"Mr. Mayor and Ladies and Gentlemen: This is really a very great pleasure. It is very delightful, when one is far away from home, to be made to feel that he is not a stranger, and that he is meeting men with whom he can grasp hands and know that he is among friends. These youngsters out there make me feel particularly at home, because I have been dealing with boys of that sort for a great many years, and have heard yells of that sort a great many times."

"It is pleasant to feel that in America we are nowhere very far away from home; and, unless I am mistaken in the signs of the times, there is something about this part of America more characteristic of her than any other part, for as you are reclaiming these valleys and bringing them into cultivation, you are showing that indomitable enterprise and unquenchable hope that has made America what she is."

"Everywhere in America there is a forward-looking impulse. Even in the east, where at one time men were impatient of suggestions of change—where they cried out, 'Let us alone'—they are conscious that they are in the presence of a new age, where altered conditions are absolutely necessary."

"America is regaining that impulse of altruism, of throwing open the gates of opportunity to Americans. It seems that she is more clearly conscious of this mission now than at any time since the civil war. At the time of the civil war there ran through America a thrill of great issues at stake and great things to be done. After that war we began to repair the injuries that had been done, and for a long time we were kept occupied by this work of rehabilitation. The west has always been what has kept the breath of hope and enterprise alive in America. She has kept the nation young. The feet of her young men have continually trod new fields of effort and achievement. A man cannot help but feel that there is still in America that energy of youth—that buoyancy which belongs to nations on the eve of great achievement. Nor can one help taking hope from such circumstances as these. That a man so far from home should feel so cordially greeted and made to feel so much at home as you have made me feel is very gratifying indeed."

## FOLEY'S HONEY AND TAR

FOR ALL COUGHS AND COLDS

For bronchitis, hoarseness and tickling in the throat. Especially recommended for children and delicate persons. No opiates. A medicine, not a narcotic. The Bee Hive on the carton is the mark of the genuine. Refuse substitutes.

Mr. Otto Paul, Milwaukee, Wis., says Foley's Honey and Tar is still more than the best. He writes us, "All those that thought it tickled the best for coughs and colds they ever had and I think it is still more than the best. Our baby had a bad cold and it cured him in one day. Please accept thanks." Sold by all druggists.

prominent men of both parties.

## An Extended Speaking Tour.

The governor of New Jersey has a busy time ahead of him on the Pacific coast. He has speaking dates at Pasadena, Los Angeles, San Francisco, the University of California at Berkeley, at a Portland banquet and public meeting at Seattle where he will address a banquet of Princeton men, thence back to Minneapolis and St. Paul, ending with a speech at Lincoln, Nebraska.

Governor Wilson's speech was as follows:

"Mr. Mayor and Ladies and Gentlemen: This is really a very great pleasure. It is very delightful, when one is far away from home, to be made to feel that he is not a stranger, and that he is meeting men with whom he can grasp hands and know that he is among friends. These youngsters out there make me feel particularly at home, because I have been dealing with boys of that sort for a great many years, and have heard yells of that sort a great many times."

"It is pleasant to feel that in America we are nowhere very far away from home; and, unless I am mistaken in the signs of the times, there is something about this part of America more characteristic of her than any other part, for as you are reclaiming these valleys and bringing them into cultivation, you are showing that indomitable enterprise and unquenchable hope that has made America what she is."

"Everywhere in America there is a forward-looking impulse. Even in the east, where at one time men were impatient of suggestions of change—where they cried out, 'Let us alone'—they are conscious that they are in the presence of a new age, where altered conditions are absolutely necessary."

"America is regaining that impulse of altruism, of throwing open the gates of opportunity to Americans. It seems that she is more clearly conscious of this mission now than at any time since the civil war. At the time of the civil war there ran through America a thrill of great issues at stake and great things to be done. After that war we began to repair the injuries that had been done, and for a long time we were kept occupied by this work of rehabilitation. The west has always been what has kept the breath of hope and enterprise alive in America. She has kept the nation young. The feet of her young men have continually trod new fields of effort and achievement. A man cannot help but feel that there is still in America that energy of youth—that buoyancy which belongs to nations on the eve of great achievement. Nor can one help taking hope from such circumstances as these. That a man so far from home should feel so cordially greeted and made to feel so much at home as you have made me feel is very gratifying indeed."

## WHY CAN'T NEW MEXICO HAVE POST CARD DAY?

Colorado Will Distribute Something Like Half a Million on Saturday of Next Week.

Denver, Colo., May 12.—The post cards to be distributed by the people of Colorado on May 20, under the auspices of the Retail Association of the Denver Chamber of Commerce will assume proportions as to length, bulk and size which are astounding. If stacked on top of each other and pressed down to 118 cards to the inch, they would make a pile 353 feet high, or a height equal to that of the Daniels & Fisher tower with twenty-three feet to spare.

The same cards, if placed end to end in one continuous line, will extend a distance of 208,333 feet, or nearly forty miles, the distance from Denver to the town of Larkspur, Colo. There would be 500,000 cards in this line.

The cards if placed side by side and end to end, so as to cover a given space completely will cover 7,500,000 square inches, or 52,083 square feet, or one and two-fifths acres. The First National Bank building, the largest office structure in the city has a frontage on Seventh street of 125 feet, and rises to an altitude of 158 feet, giving a front equal to 19,750 square feet. If the 500,000 post cards were plastered over one surface it would cover a space equal to three times that on the front of the First National Bank building.

It requires 188 post cards to make a pound. The 500,000 cards will weigh 2,659 pounds. If reduced further they will represent more than one and one-fourth tons of solid weight.

## VIRGINIA'S STATE SEAL IS DECLARED IMMEDIATE.

Richmond, Va., May 12.—Declaring that the figures of the Amazon conquering the tyrant in Virginia's state seal is "masculine, immodest and no true child of art," some Virginia women will try to have a more maidenly figure substituted.

"There's a Reason"

## NEW MEXICO POLITICS AND POLITICIANS

THE FUTURE STATE.

Sunday School Teacher—Now, Willie Green, you may tell me what you understand by the future state. Willie Green—Please, ma'am, it's a territory like New Mexico.—The Denver Field and Farm.

## We, the Three Tailors.

Did you notice that all the Democrats who tried not to delay statehood before the house committee always used the pronoun "we"? "We want the constitution made so that we can amend it." Sort of giving the snap away, so to speak.—Albuquerque Journal.

## They Have No Shame.

Having an official position on the house calendar, and that the next order of business, New Mexico is getting a lot of advertising of various sorts. Among these is the fact that some mighty mean white men who say they are Democrats hail from New Mexico. This is one of the kinds of advertising that does not pay—them or New Mexico.—Raton Range.

## Of Course.

"If delay occurs the Republicans must bear the responsibility," says A. A. Jones in a telegram from Washington published in another part of this paper. This is too evident to need comment—after Mr. Jones prolonged and elaborate attack on the constitution before the house committee in a determined effort to rush statehood through with all possible dispatch. Sure—it is all the fault of the Republicans. Anyone can see that with half an eye. And to the party of Democrats from New Mexico who have spent so much time and effort endeavoring not to delay statehood, it must cause a feeling of real indignation to think of the Republicans stepping in and delaying things.—Albuquerque Journal.

## Bryan Has Spoken.

It was with more than usual inter-

est that the people of Albuquerque yesterday listened to the little speech of Governor Woodrow Wilson of the state of New Jersey in this city. The professor is something of an anomaly in politics. Generally he becomes so closely identified with the state of affairs that existed on this mundane sphere in the Stone Age and other previous eras that it is impossible for him to detach his mental processes sufficiently from the abstruse to take a hand in that vulgar and somewhat plebeian occupation known as practical politics. If he can do it and get away with it he is a wonder. Woodrow Wilson appears to have gotten away with it. For this reason he is now making more or less of a sensation in this country. His personality is a peculiar one; a calm, dispassionate gentleman who talks clearly and has a determined jaw; a man with progressive ideas bordering sometimes on the radical who nevertheless moves conservatively with the conservatism of the ripe scholar and the logical thinker. Wilson has been accused by some of the newspapers with having taken up outworn and visionary reform tenets. On the other hand there is reason to believe from his experience in a few months as governor of New Jersey that there are rather practical sides to the man; and when a college professor steps from the class room to a governorship and makes good you will have to admit there is something unusual about the man and sit up and take notice. The country is taking notice. They don't know Wilson yet. That he is an able man there is no gainsaying; whether his ability will prove adapted to the wider national field he is about to enter remains to be seen. He is a man of intellectual eminence and dogged aggressiveness and the impression one gains is that he is a gentleman who will saw wood with little of the spectacular.

Perhaps after all the best thing to do is to wait and see what Bryan says about him.—Albuquerque Journal.

## MINES AND MINING

Orogrande.—The latest news from Orogrande, Otero county is to the effect that a 100 foot drift is now being run from the bottom of the 500 foot shaft on the Three Bears property.

This property is owned by the Bruce estate of Philadelphia, and has been inactive for years. W. R. Reher and associates have leased the old and well known Nannie Baird property in the main gold section of the camp, and several men have already been put to work taking out ore, and a shipment will soon be made to the El Paso smelter. A good tonnage of high grade ore has in the past been shipped from this property. C. K. Hartley and O. O. Hootman have also leased the Maggie and Little Annie properties owned by the Eddies of New York. They have started taking out ore and will send a shipment to the El Paso smelter within the next few days. This shipment will be from the Maggie, as work has not as yet been started on the Little Annie. Allen Culver is doing some development work on one of his properties and has recently opened up a good vein of mineral. The Orogrande Smelting company will hold a stockholders' meeting May 18. It is proposed by the smelter officials to form a combination with the owners of the Torpedo mines in the Organ range. Should this combination be carried out, it will mean much for Orogrande as it would again put the smelter in action and encourage the development of the properties in this district.

## COUNTRY THAT IS TRIBUTARY TO SANTA FE.

Development of Tierra Amarilla Grant and Chama Valley Should Benefit Businessmen of This City.

C. M. Foraker, U. S. marshal for New Mexico, returned Wednesday night to Albuquerque from a trip to Chama, and Tierra Amarilla, in Rio Arriba county, New Mexico. He says of this section: "It is a land of sunshine and scenic wonders. Its beauties cannot be described; but can only be fully appreciated by personal inspection. The climate and scenic beauties are not all that one finds there; but the soil of the valleys will produce a broad smile on the countenance of the practical farmer. Nowhere else has nature been so lavish in combining all the elements in soil and water and climate, necessary to the highest development of vegetable growth. The soil is almost as deep as you can dig, is of a dark, sandy loam and will not bake or crust over after being irrigated. The valleys are ideal for irrigation and will require very little effort to be made perfectly level. The water is superabundant and is ample to supply every part of the valleys that are accessible to it. The foothills and mountain slopes carry millions of feet of as fine timber as the country affords."

Speaking particularly of the project now on foot, of the Chama Valley Land and Irrigation company, to reclaim all these valley lands, Mr. Foraker says that there can be no doubt of the feasibility of the plan.

"This company is now engaged in surveying the valley lands and dividing them into ten acre tracts," he said, "and will later construct ditches so as to bring the water to each tract. When the water system is fully completed it will be turned over absolutely to the purchasers of these ten acre tracts, thus guaranteeing to each owner of a ten acre tract a perpetual water right. The grazing and timber lands are being surveyed into larger tracts, ranging from forty to six hundred and forty acres in size, which are intended to represent in value as nearly equal to a ten acre tract of irritable land as human ingenuity and skill can determine. The success of this project will result in bringing anywhere from eight to ten thousand industrious farmers and artisans into New Mexico who will add materially to the growth and prosperity of the state, and the citizens of New Mexico can afford no greater service to this state than to render all encouragement to such enterprises as lie within their power and means."

Mr. Foraker further stated that

while he was in Chama a company of eleven farmers from Kansas and Iowa investigated carefully these lands and were so well pleased that they purchased sixty contracts. In the opinion of Mr. Foraker "it is such enterprises as this which will contribute more to the prosperity and good stable citizenship of the state than can be attained in any other way."

## 20 YEARS AGO TODAY

(From the New Mexican of this date 1891.)

Hon. Amado Chaves and R. E. Twitchell spent yesterday at Albuquerque.

L. Bradford Prince is at Cerrillos today looking after his turquoise mines.

Hon. E. L. Bartlett, the best and most attentive attorney general this territory has ever had, has gone to Taos to attend district court.

Hon. T. B. Catron, as hard-working and successful attorney as there is in New Mexico, has gone to Taos.

John H. Knaebe, Esq., received a telegram today from Washington stating that the U. S. supreme court failed to take any action in the Santa Fe county election cases.

A little more backbone in the enforcement of the laws of the territory seems to be needed. Jurists, judges and the officers of the executive departments ought to bear this in mind.

## OUT OF HEALTH

Is a very common expression. Are you one of the unfortunate.—and what is the cause?

There are hundreds of people right in this vicinity who have poor blood, are run-down, all tired out, with no strength, vitality or ambition.

We want to ask all such people to call at our store and get a bottle of Vinol, our delicious cod liver and iron tonic, which is made without oil and very palatable.

We claim it will make pure, rich red blood, and impart new life, energy and strength to every person who does not feel well. If it fails we will return your money—without question. Isn't this a fair and generous offer?

A case is reported from Leipzig, Ind.—Mrs. C. R. Catlin was troubled with indigestion—was weak—all run-down. She says Vinol cured her stomach trouble—restored her strength—and made her feel like a new woman. Anyone in her condition can get the same benefit from Vinol. Capital Pharmacy.

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## WATER SPECULATION.

"Not a foot of land will be sold until the water is on it," says an article in today's New Mexican, speaking of an irrigation project under construction, and that is the only safe and sane policy to pursue, in order to avoid scandals, set-backs if not disaster. The water speculation is busy in New Mexico and is selling lands and water rights with no certainty that he will be able to deliver the water on the lands. A Denver dispatch quoted here, shows that the federal government will check fake enterprises as much as possible but there are undertakings which, while they can not be stamped as "fake", yet dwell in the borderland, in the shadow, between the bona-fide undertaking and the merely speculative project, which may or may not make good. Says the dispatch:

"Special agents of the interior department who have been looking up fake land promoters in Colorado have completed their work, and it is said that before long some sensational disclosures will be made.

"The particular attention of the agents has been directed to land agents with irrigation projects. It is said that they have discovered several projects advertised as irrigated lands, where the water rights are all right, but that there is no water and furthermore, there can be no water, because the streams have been far over-appropriated.

"For many months the interior department has been at work on this investigation at the solicitation of the many fakes have been promoted that they are held responsible for the dullness in the land market in this state, as the eastern land buyer has become skeptical about Colorado lands, except in proven districts.

"While no word is given out, it is said that Ernest Knebel, assistant attorney general, who is back in town, has had a great deal of information turned over to him which he will go over when he returns to Washington.

"The land fakes in Colorado have been the subject of bitter denunciations by legitimate land agents of the state for three years."

The New Mexico supreme court takes cognizance of this state of affairs against which New Mexico must guard in the recently decided case of Young & Norton et al. v. Hinderlider in which it says:

"It is, for instance, obviously for the public interest that investors should be protected against making worthless investments in New Mexico, and especially that they should not be led to make them through official approval of unsound enterprises. If there is available, unappropriated water of the La Plata river for only five or six thousand acres of land, it would be contrary to the public interest that a project for irrigating fourteen thousand acres with that water should receive an official approval which would, perhaps, enable the promoters of it to market their scheme, to sell stock reasonably sure to become worthless, and land which could not be irrigated, at the price of irrigated land. Such a proceeding would in the end result only in warning capital away from the territory. The failure of any irrigation project carries with it not only disastrous consequences to its owners and to the farmers who are depending on it, but besides tends to destroy faith in irrigation enterprises generally."

## GOOD ROADS FOR SCENIC PURPOSES.

The dedication of the Canon City Royal Gorge highway today in Colorado, demonstrates the fact that the Centennial state is wide awake to the advantage of making great scenery accessible through state-built roads. Colorado realizes that it is not the duty of the state, primarily, to build traffic highways such as each town and county ought to build and maintain itself, but such roads as counties and communities would not build of their own volition, like the scenic highways for instance, up the Santa Fe and Gallinas canyons between Santa Fe and Las Vegas. Colorado plans to build a thousand miles of scenic highways "at once." Says the Denver News:

"These declared roads are only a beginning. They could be put through in a very short time. They would make but a skeleton of such a system of roads as France has, for example. They would cost but a small fraction of their real value to the state. Yet these declared roads, when completed, will give a 1,000 mile 'circle' route through the chief show places in Colorado; and will furnish over 600 miles of side lines.

"The scenery reached by this circle route is unrivaled. With the road completed, this scenery would be accessible by automobile to tens of thousands of tourists; and the tourists would come. They would bring Colorado much money that now goes to France and Switzerland. They would add to the prosperity of every town along the route. They would help every industry in the state.

"A united effort by the friends of good roads in Colorado will give us this circle route completed in a very short time; and give us hundreds of miles of scenic highways besides.

"Good roads are cheap. It is the long drawn mudholes that cost money. It is the poor road-making that costs lives. Good roads are the best and most permanent investment—next to good government—that a state can have. Indeed, they need less watching than good government does, and last longer. Get together for good roads."

## THE DOUBLE CROSS.

The members of the House committee on territories, seem to have caught on to the double cross game that the few Democrats at Washington are playing to delay New Mexico's admission, at least Representative Legare of South Carolina, a member of the committee, according to the printed proceedings, before the committee, said:

"It does seem to me, and I want to go on record here, that this is very unfair to members of this committee, that these gentlemen who are protesting against the constitution should send out a telegram of this kind. I for one was ready and willing to vote for this constitution just as it stood, and never for an instant thought of offering a peace compromise until these four gentlemen raised certain questions before this committee, and I think there are other members of this committee who felt the same way. I WANT IT TO GO ON THE RECORD THAT IF THERE IS ANY DELAY IN THIS MATTER, IT IS BEING CAUSED OR HAS BEEN CAUSED BY THESE FOUR GENTLEMEN WHO HAVE WIRED TO THE CONTRARY TO THEIR HOME PEOPLE. I was ready to vote for the constitution as it stood, but in order to satisfy them I have been endeavoring to bring about a compromise of the matter, and I think their people at home should know it. It seems to me they are playing one game with us and wiring another condition to their home people."

A company should be organized to provide a so-called tent city in the Rito de los Frijoles. There is no doubt that such undertaking would be of great benefit to this community and it should prove profitable. At least a dollar a day rental could be secured for a tent furnished with a few articles for light housekeeping, and even if rented for only thirty days each year, this would guarantee a return on the cost. The possibilities of such a tent city, especially, if the road to the Frijoles is maintained, are very great, for there a number of families in this city who would be certain to summer in the Rito if such accommodations were available. But it is not for these, that accommodations are to be provided, but to take care of the large number of people who will come to Santa Fe in the future just for the purpose of viewing the cliff dwellings. Fortunately, Judge A. J. Abbott already has a beautiful home on the Rito and would probably consent to become custodian of such a tent city for nominal compensation, and perhaps open a commissary at which supplies could be bought for those who wish to keep house. The plan is feasible and can be made profitable.

## AN IMPORTANT DECISION.

In a very little case, the Interstate Commerce Commission has rendered a big decision, says Success Magazine. A suburban electric railway from Washington to Mount Vernon has been ordered to reduce certain fares from fifteen to ten cents. Not very exciting, considering that there are only nineteen miles of the entire road.

But the Commission ordered the reduction on the sole ground that it found that the road should be valued at only \$52,000 per mile, while it was capitalized at and earning returns upon \$207,000 a mile. The Commission characterized this as obvious overcapitalization, holding that the company was entitled to a fair return on the actual investment and no more, and so ordered a reduction of thirty-three per cent in rates!

The precedent is about as big as could possibly be established. With its present powers over rates, the Commission could adjust every freight rate in the land according to that reasoning; and there is reason to believe that it is making a precedent with some such move in mind.

Moving picture machines, magazine writers, photographers, tourists, will combine to advertise the De Vargas pageant that is to be an annual affair in Santa Fe. Its fame will spread eventually to the ends of the earth and many a tourist planning a visit to the Pacific coast will time it so as to enable him to spend the Fourth of July week in this ancient city.

General Orozco was peevish because Colonel Stevers prevented Orozco's attendance at a banquet which Mayor Kelley of El Paso wanted to give in honor of the rebel fighters. He got even by preventing American sightseers from crossing into Juarez the next day and thus there came near being another cause belli, and excuse for American intervention.

## COLLEGE MEN IN POLITICS.

The Princeton Club, organized at Denver by Governor Woodrow Wilson for political but not partisan purposes, has a great mission. It will seek to interest college men in politics, but not from the partisan standpoint. College men ought to be interested in politics and their influence ought to be for the good; there is need for a little more idealism and less of the mercenary in politics. More thought should be given to the science of government than to political expedients to elect candidates to office. The fathers who founded the republic were imbued with that sort of idealism but today politics is viewed with much the same interest as viewed by a gambler. College men with mature views, with a thoroughly grounded education, with ideals of culture and a little altruism, might and can prevent many mistakes on the part of the Nation and the people if they would only interest themselves sufficiently.

## LAS CRUCES IS PROGRESSIVE.

Las Cruces is forging ahead of Santa Fe. It has voted \$75,000 in bonds for a sewer and municipal water works. From what the New Mexican knows of the lay of the land down there, however, \$75,000 will only make a start in securing these improvements. A complete, sanitary sewer system could not be put in for less than \$75,000 in that city and water works that are worth while, would cost \$100,000 and more. Santa Fe is much more fortunately situated, for it has the purest gravity water supply in the Southwest and its location is such that a sewer system could be constructed for \$50,000 or less. But then, Las Cruces is going ahead just the same, and Santa Fe, until it revises its assessment methods, and statehood relieves it of its portion of the railroad bonded indebtedness, will have to content itself with its present condition.

Kentucky, according to the census bureau bulletin issued today produces in manufactures \$225,000,000 a year, or four times as much as the total assessed valuation of New Mexico. It isn't all whiskey either, for the manufactures of Kentucky are quite diversified. In salaries and wages almost \$40,000,000 a year is paid while the cost of raw materials consumed by the mills and factories is more than \$110,000,000. More than 75,000 hands are given employment and \$175,000,000 of capital are invested. Kentucky is not classed among the manufacturing states, but New Mexico will have to multiply its industrial production by thirty before it is in the same class with old Kentucky.

For three days the war of words will be waged next week in the House over New Mexico's and Arizona's desire to become states. For three days' the old straw will be threshed over, the old lying charges will be repeated and all for no purpose, for its seems to be written in the stars that New Mexico is not to be a state yet nor soon, but will have to wait until the summer of next year to slide into the Union without oratorical fireworks. But the Democratic House has to be kept amused and it might as well debate New Mexico. It is good advertising for even that kind of advertising is better than no advertising at all.

The amendments to the New Mexico constitution proposed by the Democratic majority of the House Committee on Territories, bear in themselves the seed of their defeat, for even though the New Mexico Democrats advocated them at Washington they would not openly dare to advocate them at home, for even the most rabid Democratic politician is wise enough not to urge here that the Spanish speaking people of New Mexico be deprived of the guarantees as to jury duty, equality in the public schools and other rights which have been accorded them under the treaty of Guadalupe Hidalgo.

No effort should be spared to locate the writer of the black-mailing letters that have been received lately by sundry persons in this city. As the letters passed through the local postoffice, the Postoffice Department should get several inspectors busy on the case. The science of ferreting out writers of letters of that kind is so exact that the detection of the individual is inevitable if the proper effort is made. Santa Fe is too small to harbor within its confines a despicable individual of that kind for any length of time.

Twelve thousand tourists from Texas and Louisiana passed through New Mexico last year to summer in Colorado. They simply did not know that Santa Fe is cooler in summer than is Colorado Springs and Denver and that in Santa Fe's great natural parks on the upper Pecos or in Taos county, more magnificent scenery, finer trout streams, deeper forests are to be found than in all of Colorado.

That is a fertile idea of Dr. Edgar L. Hewett to cap the De Vargas pageant with a festival week in the Rito de los Frijoles, there illuminating the cliffs and caves and giving great spectacular plays illustrating the civilization, the history, the life of the prehistoric cliff dwellers. Even Ober Ammergang would be overshadowed by a pageant and spectacular display of that kind.

In Las Vegas a man was fined \$50 for not taking out a building permit and he paid it as well as the costs, besides being compelled to tear down the shack he had built. It is wise to enforce ordinances of that kind and it is a sign of progress in Santa Fe, that similar ordinances are being rigidly enforced here.

Santa Fe started something worth while when it undertook to put the road to the cliff dwellings in good

shape and to make arrangements so that the tourists can be taken care of in the Rito de los Frijoles, at least during the summer sessions of the School of American Archaeology.

## HARD TO PLEASE.

He wouldn't smile in winter—  
It always made him cross  
To see the roses blown away  
And watch the dead leaves toss.

And when the wind was howling  
Across the fields of brown,  
He'd pull his coat about his ears  
And listen with a frown.

He never smiled in summer—  
The heat distressed him so;  
And dust and flies pursued him fast,  
'Most everywhere he'd go.

When hot the sun was blazing  
And no cloud in the sky,  
He'd mop his brow and swear that he  
Was simply 'bout to die.

A little while in springtime,  
A little while in fall  
He'd deign to smile, but otherwise  
He wouldn't smile at all.

And so it is no wonder  
His neighbors did avouch,  
There never was another man  
Who had so great a frown!

## A SIMPLE METHOD.

Guest—"Pon my word, your chef is a genius! How does he think of so many new dishes?"  
Waiter—Well, sometimes, sir, he just changes the names of the old ones!—Scraps.

## Why He Rejoiced.

"I am going to ask mother to eat her next Sunday dinner with us."  
"Bully!"  
"You approve?"  
"Sure! It will save us at least a liver."  
"Save?"  
"Certainly. You said you were going to have her eat her next Sunday dinner with us. Now if we were to eat our dinner with her, it would be she who would save."

## Training.

"I think I'll be an explorer and take up mountain climbing," said the sardonic person.  
"Have you any training for that sort of thing?"  
"I think so. I work on the thirty-fifth story of a building whose elevator gets out of order."

## Unjust.

"You are a hoodoo!"  
"How so?"  
"You wished me luck when I was on my way to propose to Miss Cautique."  
"Well?"  
"She rejected me!"  
"Then why do you accuse me of being a hoodoo?"

## BANG! BANG!

Husband—Did you hear the storm when it broke this morning?  
Wife—That wasn't the storm. It was the new girl washing the dishes.

## Down on the Farm.

New Arrival—What time do the summer boarders begin to thin out down here?  
Farmer Ryetop—Wall, neighbor, they get thinner and thinner every week until about the last of September they are so thin they cut the hammocks through and then we ship them back to town.

## Two Views of It.

The two met in a dense crowd, out of which they vainly tried to extricate themselves.  
"I'm in a pickle!" cried the one who always took sour views of life.  
"I'm in a jam!" sighed the other, who, to use her own words, was always in a "sweet mess."  
At any rate, both were jarred.

## A CALL DOWN.

Restaurant Cashier—This dollar does not look very good.  
Guest—Well, just bite it, and if it's anything like the dinner I just had, it will taste even worse than it looks.

## As Compared.

Behold the bustling bootblack,  
At work with all his power;  
He, like, the busy little bee,  
Improves each shining hour.

## Evidently an Impostor.

"Did I understand you to say that man was from Kentucky?"  
"Yes."  
"You must be mistaken. He isn't from Kentucky."  
"Yes, I am sure I heard somewhere that he was."  
"No, you're wrong. He's been here ten minutes and hasn't boasted about it."

## Still Life.

"No, Herbert," whispered the maid; "you mustn't put your arm around me. We are watched."  
Herbert looked around the dimly lighted parlor.  
"Oh, yes," he smiled; "I see there's a rubber plant at the other end of the room."  
"Sh! There's another one that you don't see. Johnny's hiding there!"

## Ruins? Well!

"If you only had some ruins in this country," said the foreigner, "it would be much more interesting than it is."  
"Ruins!" replied the leading citizen; "if ruins add interest, we have 'em. Come around and have a look at the courthouse that we built here about fifteen years ago."

## He Wasn't Mobbed.

"There goes a man who wrote a ragtime song about goo-goo eyes."  
"I am not surprised to observe that he is on crutches."  
"Oh, he wasn't crippled in the way you suppose. He accidentally sprained his ankle."

## Literal Feeling.

"Did the boss kick when you asked for more pay?"  
"He did; but I wouldn't have minded his kicking so much if the stairs had not been so near and so steep."

## HE LEFT.

Henpeck—Caught a burglar in my house last night.  
Hyson—Get rid of him all right?  
Henpeck—Oh, yes. I threatened to call my wife if he didn't leave at once.

And Quicker.  
The man who burns the midnight oil  
May rise to heights of fame;  
But the man who sells that midnight oil  
Still gets there just the same. —Puck.

## No Fear.

"I hope the lecturer we are to have on social conditions will not give us any cheap talk."  
"Oh, he won't. He's asking two dollars for a ticket."

## Even Admitting It.

"Perhaps I know more than you think I do."  
"Perhaps you do, but don't flatter yourself that that makes you a high brow."

The Prisoner at the Bar—Now, I ask you, gentls of the jury, if I'd got away with all that swag, like they say I did, if yer s'pose I'd have hired this here little f'f lawyer to defend me?—Puck.

## A Pessimist.

"So you believe the worst is yet to come?"  
"Yes. This year's Fourth of July celebration is still on the calendar of future events."

R. J. PALEN, President, J. B. READ, Cashier,  
L. A. HUGHES, Vice-President, F. McKANE, Assistant Cashier.

## THE FIRST NATIONAL BANK OF SANTA FE.

THE OLDEST BANKING INSTITUTION IN NEW MEXICO. ESTABLISHED IN 1870.

Capital Stock - - - \$150,000  
Surplus and Undivided Profit - 80,000

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency public or private. Interest allowed on time deposits at the rate of four per cent per annum, on six months' or years' time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

## PERSONAL MENTION

Charles M. Stauffer returned last evening from a business visit to Denver.

A. D. Kidder, of Terre Haute, Ind., is here on surveying work for the government.

T. S. Davidson of Denver, and M. D. Dix of Chicago, are traveling men at the Palace.

A. H. Ireland, the inspector of the Denver & Rio Grande, is here from Alamosa.

Attorney A. B. Renahan returned last evening from Taos, where he attended district court.

Mr. and Mrs. B. S. Phillips came in last evening from the lumber camp at Truchas, Rio Arriba county.

Mrs. Charles D. Miller has gone to El Paso, Texas, and Las Cruces, Dona Ana county, to visit relatives.

G. H. Russell of Santa Fe, is in Las Vegas on business before the United States court—Las Vegas Optic.

Romualdo Tenorio, a Santa Fe printer, went to Estancia to take a position on the Daily Herald at that place.

Mr. and Mrs. W. L. Williams passed through town on the morning's train en route from Santa Fe to Torrance—Estancia News.

A. Graham, manager of the telephone company at Albuquerque, is here visiting I. Sparks, manager of the local telephone company.

Stewart Van Vleet has returned from several weeks sojourn at and near Buckman where he had a splendid outing and looks much improved in health.

Joe Silva, rancher near Lucia, returned from Santa Fe. Mr. Silva had his new 5,000 gallon tank hauled to the ranch last Saturday—Moriarty Messenger.

Ex-Governor L. Bradford Prince is home from a visit to his ranch and also to the irrigation works under construction near Embudo by the La Jora Irrigation company.

Mr. and Mrs. Jose O. Garcia of Chamita, are visitors in the city. Mr. Garcia is employed by Eldred and Rueth at Chamita and has been on a vacation, visiting Albuquerque and other cities.

William Eugene Johnson, the chief special officer of that branch of the Indian service which is devoted to the prevention of sale of intoxicants to the red man, was in the city this morning. His headquarters now are in Denver.

G. H. Russell and Robert L. Cooper, hydrographers, were in Las Vegas last night on their way to Anton Chico, to install a new stream measuring gage.

Mr. and Mrs. J. B. Read returned today from San Diego, California, where they spent a month's vacation.

William R. Beyer, clerk of the U. S. Indian Industrial School has gone to Taos taking two children home to their parents. Mr. Beyer has arranged an interesting program for five days which will be Thursday May 18.

Mrs. John Barnes of Santa Fe passed through Moriarty Sunday on her way to El Paso where she will visit Mr. and Mrs. John Fielding. Mr. Barnes went as far as Torrance and returned to Santa Fe on the evening train—Moriarty Messenger.

Albert Clancy, son of Acting Attorney General Harry S. Clancy, and a noted ball player like his father, has gone to St. Louis and it is rumored that he will spend a few weeks touring the country with the St. Louis Americans. Mr. Clancy is a great batter and a clever infielder.

William M. Fisher and George P. Meek were passengers on Santa Fe Wednesday. Mr. Fisher has had an isolated eighty acres advertised for sale in 10-8 and will bid on same today. Mr. Meek is on a pleasure trip to the capital city and will remain over Sunday—Moriarty Messenger.

Sheriff Meyer yesterday took Mr. and Mrs. J. S. Kelly and their guest George Legate of Mesa, Arkansas, on an automobile trip through the towns of Torreon, Manzana and Punta, ending up at Willard, where Mr. Legate took the train for Magdalena. The visit to the old orchard at Manzana and the ruins at Punta were especially interesting to Mr. Legate—Estancia News.

A party of Santa Fe officials passed through Lamy yesterday in a special train on their way to Belen, where they will meet President E. P. Ripley who is on his way home from Santa Barbara, Calif., where he spent the winter. In the party were General Manager F. C. Fox of the western division, J. M. Kern, general superintendent with headquarters in La Junta; Vice President H. H. Hubbard, and others. The officials expect to meet Mr. Ripley at Isleta, a station a short distance south of Albuquerque. It is likely a part of the company, including Mr. Ripley, will visit the Elephant Butte dam.

Two Die in Suicide Pact. Peoria, Ill., May 12.—A man and wife, believed by Coroner Elliott to have entered into a suicide pact, were found dead today. Frank H. Hoffman, aged 34, a street vendor, and his wife, 32, are the victims. Poison was found in a paper clutch in Hoffman's hand. J. B. McGowan, an aged man at whose home they roomed, is held at a witness.

## CARLSBAD BOARD OF EDUCATION HAS ORGANIZED.

Over One Hundred Cars of Stock Shipped—Meeting of Tuberculosis Association.

Carlsbad, N. M., May 12.—J. Brinker, the traffic manager of the E. Railway of New Mexico, left for the north this morning, after making an inspection of the valley. Mr. Brinker has looked into the farming and stock conditions at this time to determine what may be done to promote further improvements.

Major E. P. Bujac left Sunday for San Diego to take part in the maneuvers.

Over one hundred cars of stock was shipped from the Carlsbad stock yards the last few days. The shipments were to Panhandle and Kansas pastures.

The new school board has organized with D. G. Grantham, president; Clarence Bell, vice president; and Dr. F. Doepp, secretary. The board has as yet selected only a part of the teachers for the coming year.

The telephone business is increasing rapidly in the Carlsbad project and the Public Utilities Co. is preparing to run another line through the county.

A meeting was held in the Auditorium Sunday night on the suggestion of the National Association for the Study and Prevention of Tuberculosis. The house was crowded. The mayor, C. H. McLenathen presided. The principal address was delivered by Dr. Maurice Friedman, one of the best informed men on tuberculosis in the west. He called attention to the danger of infection by inhalation of the bacillus and indicated how infection could be prevented if the patient would take proper precautions. The scourge of tuberculosis was much greater than generally understood. The death rate from this cause alone was astounding. The per cent of deaths caused by tuberculosis in its various forms was about one-third among people dying between the ages of eighteen and forty-five. The entire lecture was clear and to the point, and was regarded as the best address that has ever been given here.

## WILL THAT FLORIDA PROPHECY MAKE GOOD?

At All Events the Storm She Predicted Seems on Its Way Here and Will Be Welcomed.

Some days ago Postmaster Burke received a letter from a lady residing in Florida warning him that a storm, earthquake and fire would visit this region tonight or tomorrow, owing to a lunar eclipse which she had discovered reading the stars.

Little attention of course are paid to these prophecies because we leave that role to the weather experts and to the scientists. But this afternoon the heavy clouds which hung overhead indicated that a storm is brewing and it may burst with great fury tonight. Rain will be welcome here.

There are no indications that there will be an earthquake or fire however.

## Hears Rooster's Crow.

Harvey Lutz, agent of the Santa Fe and an authority on earthquakes, having seen a few hundred shocks at Socorro and elsewhere over a certain signs which point to an earthquake coming here soon. He says he heard many roosters crowing this morning and remarked it to several friends. This crowing is considered an advance notice of a seismic disturbance. Before the great Lisbon earthquake the roosters crowed and they also did this stunt before several other famous disturbances.

Wires in Trouble. Telegraph wires were reported in trouble at 2:03 o'clock this afternoon.

## MARKET REPORT

## S.S.S. CURES BLOOD POISON

Contagious Blood Poison usually begins with a tiny sore or pimple as the only outward evidence of its presence. But in a short while its many symptoms begin to make their unwelcome appearance. The mouth and throat ulcerate, itching rashes appear on the body, the hair comes out easily, brown spots appear on the limbs, etc. So highly contagious is the disease that it is sometimes communicated from one person to another by the use of the same toilet articles or handling the clothes of an infected person. S. S. S. has been curing Contagious Blood Poison for more than forty years. It goes right down into the circulation, and removes every particle of the poison. While curing the disease S. S. S. adds richness and nourishing powers to the blood, and a person who is cured by the use of S. S. S. will find that every portion of the system has been benefited by the treatment. S. S. S. cures so perfectly that there is never any return of the old symptoms; it drives the poison completely out by purifying the blood, which is the only safe and sure way to treat the disease. Write for our Home Treatment Book and any medical advice you may desire, free. S. S. S. is for sale at drug stores.

Too Many Men of That Kind in World.

Denver, Colo., May 12.—His advances spurred by the girl upon whom he had centered his attention, Charles Maddox, chef at the Edelweiss cafe, 1655 California street, revenged himself, it is alleged, by attacking her character. This is the charge contained in a suit for \$5,000 damages filed in the district court by Willis Stidger, counsel for Miss Louise Bosquet, a pretty waitress at the restaurant. In addition to the demand for monetary satisfaction, Miss Bosquet asks that her erstwhile admirer be placed in the county jail for one year, or until the judgment awarded by the court has been satisfied.

Miss Bosquet is 20 years of age and extremely attractive. Maddox is 40 and married. According to the statements made by the young woman to her attorney, she first met Maddox at Trinidad, where she was employed as a waitress.

Maddox came to Denver several months ago. Later Miss Bosquet gave up her employment at Trinidad and also came to this city. By a strange freak of fate, the young woman's first employment was at the restaurant where Maddox supervised the culinary department.

Place Blame Where it Belongs.

It is all wrong to believe that political conditions are chaotic in New Mexico. The trouble is in Washington. The people of New Mexico by a large majority desired statehood. As soon as the matter reached Washington trouble began. Fulfilling all the requirements, which Arizona it would seem, has not, New Mexico is not a whit better off than the adjoining territory. Misery is said to delight in company of its kind.—Rock Island Tribune.

Get Land Now.

The number of homestead and desert claim entries for the present year in this county will undoubtedly exceed those of any former year. Local residents are appreciating the importance of obtaining land in this way, and realize more than ever that the public lands are being rapidly taken up and within a few years will be quite valuable. Many newcomers are locating in the county and making land entries. The discovery of artesian water near Cliff a short time ago has given an impetus to the northwestern part of the county and the land in the region of Duck Creek is being rapidly taken up. In fact, in every section of the county public land is being settled up, and within a few years it will be difficult to locate desirable land, as the advent of statehood will soon bring many new settlers into this section.—Silver City Independent.

Propagators of Moral Filth.

If the mayor and council have decided not to revoke the license of the Double Stamp saloon they should have backbone enough to make confession of that fact to the public. When they viewed at the sheriff's office on Thursday last the revolting obscene pictures which had been exhibited at that notorious joint for some time, words failed them to express their nauseated disgust. At that moment the mayor "thought" that he would call a special meeting of the council immediately and take action. The next day he was "too busy" to give the matter the attention it deserved, and since then he has been cloaked in silence on the subject.

If the mayor has forgotten how shocked he was when he saw the pictures, let him go to the sheriff's office and take another look. If he thinks that a saloon proprietor guilty of exhibiting such pictures is a fit person to entrust with a saloon license he should say so. The mayor and council owe it to themselves, to the community and to the cause of common decency to revoke the Double Stamp's saloon license and close up that sewer of immorality.

Why does the mayor hesitate?—Tucson Citizen.

THE WONDERS OF A PACK OF CARDS.

Let us suppose that two thousand millions of human beings—each supplied with a pack of cards—were to attempt actually to produce every possible arrangement of the 52 cards. It is further to be supposed that they work ceaselessly, without rest day or night, from year's end, at the rate of one new arrangement per second for each person during a period of one hundred thousand years. One single thousand takes us back to the remote days of King Alfred, and to go back

to the birth of Christ requires less than another thousand. Only about three thousand two hundred years have elapsed since Moses led the Israelites out of Egypt. Finally, a period only one-fiftieth of our great way beyond the most remote fact of authentic history.

The hypothesis from which we start is therefore that a population one-quarter more than that which now exists has spent its whole time during an interval more than fifty times the duration of the Christian era in shuffling cards at the rate of one shuffle per second, or more than thirty-one million shuffles per head in each year.

In view of such figures the reader may well ask how many times the total number of arrangements will have been produced by the vast amount of sustained (though ill-directed) human effort.

The answer is, not once.

Mathematical calculation proves, in fact, that the number of card arrangements produced under the conditions assumed will only be a minute fraction of the total possible number—a fraction so minute that it becomes necessary to devise another scheme of concrete representation in order to give an idea of its minuteness.

Let it therefore be further assumed that the whole vast number of arrangements produced by the human race as above is symbolized by one drop of water. Then how much water would be required to symbolize the total number possible? If this question is put to the reader he might well say, "Surely a glass of water would be enough!" But, no. "A large reservoir!" No, my friend; you must enlarge your conceptions, or you will never reach the truth. "The Atlantic Ocean, then?" The number of drops in that will surely be sufficient.

But the number of drops of water in the Atlantic Ocean is not sufficient, nor will it become sufficient even when we add to the Atlantic Ocean the Pacific, and all the other oceans, seas, lakes, and, indeed, all the rest of the water on our globe. Nor would the whole earth made, from center to surface, entirely of water, be sufficient; nor would the whole sun, similarly constituted, be sufficient. Incredible though it may seem, to obtain a volume of water containing a sufficient number of drops, it is necessary to imagine a globe of water with a diameter equal to seven thousand and twenty-five millions of miles. If the center of such a globe is taken at the center of the sun, then Neptune, the remotest planet in the solar system, would be immersed therein to a depth no less than seven hundred millions of miles; in other words, such a ball of water would have a diameter about twenty-five per cent greater than that of the whole solar system as at present known.—El Paso Times.

### EDITORIAL FLASHES

Prohibition Reduces Tax Rate.

With the city out of debt and the tax levy reduced it may be said that the dry administration has made good in a financial way, as well as along moral and material lines.

Did you notice that the city council has reduced the tax levy two mills on the dollar? Can you remember another similar incident in the history of the city?—Roswell Daily Record.

Same in New Mexico.

Arizona newspapers are fairly teeming with stories of the launching of new irrigation enterprises and this means the reclamation of thousands of acres of land in the new state, which will soon be materially contributing to the general wealth and prosperity of the great Southwest. Every acre of land thus reclaimed at once becomes a valuable permanent asset.—El Paso Times.

Texas Gets Away With the Goods.

The work of establishing finally the boundary line between Texas and New Mexico is actively in progress, and will probably be completed some time in June. Sufficient work has already been done to insure the fact that the line will follow the Twitchell survey of 25 years ago, which places it right where the people of Texas have always contended that it should be placed. Our New Mexico friends will soon be placed in a position where they can exercise no further claims on a good sized strip of imperial Texas.—El Paso Times.

Place Blame Where it Belongs.

It is all wrong to believe that political conditions are chaotic in New Mexico. The trouble is in Washington. The people of New Mexico by a large majority desired statehood. As soon as the matter reached Washington trouble began. Fulfilling all the requirements, which Arizona it would seem, has not, New Mexico is not a whit better off than the adjoining territory. Misery is said to delight in company of its kind.—Rock Island Tribune.

DECLARATION OF INDEPENDENCE AND U. S. CONSTITUTION

Signatures to Former Have Practically Faded—Documents No Longer Subject to Public Inspection.

(Washington Star.)

Open to the light of day for the first time in nine years, the Declaration of Independence and the Constitution of United States were today inspected by Secretary of State Knox, and found to be in as good condition as when they were put away in their abiding place, a steel safe especially designed for their custody.

The four pages of the constitution and the pages containing the resolution submitting the constitution to the states of the Union are in excellent condition. The ink is as black as when fresh laid to the parchment with a quill pen, and is of a quality that will outlast any ink of modern make.

Signatures Only Marred.

The Declaration of Independence, with hardly a signature legible of all those which were appended to it by the great men of the infant republic, however, is otherwise losing nothing of legibility. Its condition is due to the fact that way back in 1852, when there were no other means known of getting a facsimile, a press copy was taken which absorbed the ink from nearly all the signatures, and left the script of the body of the document still readable, but more faint by half than it had been before.

The Declaration has also been exposed to strong sunlight while on exhibition at Philadelphia, in 1876, and at the Chicago exposition in 1893.

The documents are kept in a light steel case that would offer only slight resistance to heat and fire. Each page is hermetically sealed between two panes of glass, which are then bound in wooden frames of highly polished oak.

New Repository Authorized.

Secretary Knox directed that Chief Clerk McNeil make estimate for a safe repository for the documents that should be fireproof, waterproof, airproof and lightproof. The two valuable documents were then closed up again in the safe and the seal affixed to be opened again only for transfer to a stronger place of keeping.

The documents will not be open to public inspection. The safe is kept in the library of the state department.

If you want anything on earth—try a New Mexican Want Ad.

TERRIBLE TRAIN OF TROUBLES.

Lake Charles, La.—Mrs. E. Fournier, 510 Kirby street, says: "The month before I took Cardui, I could hardly walk. I had backache, headache, pain in my legs, chills, fainting spells, sick stomach, dragging feelings, and no patience or courage. Since taking Cardui I have no more pains, can walk as far as I want to, and feel good all the time." Take Cardui and be benefited by the peculiar herb ingredients which have been found so efficient for womanly ills. Cardui will relieve that backache, headache, and all the misery from which you suffer, just as it has done for others. Try Cardui.

### HUSBANDS AND ART ARE NOT COMPATIBLE.

Thus Boldly Declares Mary Garden, and Who Will Declare She is Not Right?

Denver, Colo., May 12.—"Husbands and art are not to be thought of at the same time by a woman who wishes to dedicate herself to an art or pursue a career. They are incompatible and can no more be amalgamated than oil and water."

Miss Mary Garden, creator of Salome, Thais, Louise, who claims to know nothing of politics or its offspring, the suffragette, but admits that she has the wisdom of the serpent concerning men, came with a jungle glide into the drawing room of her private car the Iolanthe, this morning, with a vibrant voice, sparkling with color, "aid good-bye to her visitors, and plunged at once into an interview, uttering the above statement as a starter.

"No," she continued, "I have never seen on this good old earth the man for whom I would give up my art. I can't imagine what he would look like or be. Certainly he would have to be more than I am to win me from what I love, and mean to me far more than what I would have to give up. If I ever see such a man there will not be a moment's hesitation on my part. If there is on his, so much the worse for me!"

## THE DAILY ROUND UP.

Sparks to discuss matters of importance which have come up before the club. All members are requested to be present.

### MOTHERS' DAY.

Don't forget Sunday, May 14th, is the day when you should wear "White Carnations for Mother's Memory". "Bright Carnations for Mothers Living." You can get them at the Clarendon Gardens, phone 12.

### Contributor Inadvertently Omitted.

The name of Forest Supervisor Morris Thomas was inadvertently omitted yesterday in mentioning those who contributed toward the construction of a good road into the Rito de los Frijoles.

**Bridge at Buckman in Danger**—The high water in the Rio Grande threatens the bridge over the river at Buckman, eight miles west of Santa Fe. County Commissioner J. A. Lucero has sent a force of men to the bridge to strengthen it, if possible.

**Forty-six True Bills**—The grand jury at Carrizozo, Lincoln county, made its final report to Judge Edward R. Wright after being in session nine days. Forty-six true bills were returned and 18 no bills. The jury was then discharged.

**Saturday, May 13** will be the LAST day of our Special Sale and every article in our store will be cut down to such tremendously low prices that even manufacturers can not make to jobbers. But only on this special day will these prices hold sway. Remember May 13. Adolph Seligman Dry Goods Co.

**Horse Race May 25**—The great horse race will take place Thursday afternoon May 25. Rosie Dick owned by Cesario Padilla, a wealthy sheep-

man of San Rafael, and ridden by Jose Cortez, will measure speed with Lady Valentine, Sheriff Closson's superb mare and ridden by Charles Bergman. The purse will be \$400 and the betting is even.

**Three Deaths**—Whitney H. Stevens, the proprietor of the Magdalena and Socorro hotels, died at Socorro. His funeral was under the auspices of the Albuquerque Elks. Oscar Nylin, a healthseeker, died at Albuquerque. Mrs. Ivy Bisbee, nee Chenoweth, formerly of Silver City, died at Buck's Creek, Arizona.

**May Form Stock Company**—Those interested in the formation of a stock company or in devising some method to provide tent accommodations in the Rito de los Frijoles for tourists and campers will meet tonight at eight o'clock in the office of the Santa Fe Water and Light company. If a stock company is organized the capitalization will probably be \$1,200 or \$1,500. All those interested are asked to be present.

**The Weather**—The temperature yesterday registered from 30 to 65 degrees, and the average relative humidity was 30 per cent. The lowest temperature during last night was 52 degrees, and at 6 a. m. today it was 55 degrees. Yesterday was a clear day, much colder early in the morning and partly cloudy in the afternoon. The moon shone brightly last night and was one of those ideal moonlight nights Santa Feans see.

**Will Have New Front**—A Windsor has been given the contract to erect a new and up-to-date glass front for the Akers-Wagner Undertaking establishment on San Francisco street. The "swell" fronts that many stores now have attract the attention of all passersby and speak well for the progress of the city.

### WILL BRING ELKS HERE.

(Continued From Page One.)

Section 3764 of the Compiled Laws of 1897 provides that the people shall be secure in their persons, houses, papers and possessions, from all unreasonable seizures or searches. Can it be contended, for example, that the game and fish warden having reason to believe that there has been a violation of the law by a camping party, is prohibited from making instant search of the camp of such party, its wagons, fish baskets, game bags or other accoutrements, with a view to securing evidence which would warrant him in making an arrest? I believe not, no I believe that such search can be designated as unreasonable.

Yours very truly,  
H. J. Clancy,  
Assistant Attorney-General.  
**Educational Matters.**  
Superintendent of Public Instruction J. E. Clark has worded the following letter:

Gentlemen:  
As the Boards of School Directors have probably organized throughout your county by this time, will you

## The Human Heart

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body at the rate of seven miles an hour. "Remember this, that our bodies will not stand the strain of over-work without good, pure blood any more than the engine can run smoothly without oil." After many years of study in the active practice of medicine, Dr. R. V. Pierce found that when the stomach was out of order, the blood impure and there were symptoms of general breakdown, a tonic made of the glyceric extract of certain roots was the best corrective. This he called

## Dr. Pierce's Golden Medical Discovery

Being made without alcohol, this "Medical Discovery" helps the stomach to assimilate the food, thereby curing dyspepsia. It is especially adapted to diseases attended with excessive tissue waste, notably in convalescence from various fevers, for thin-blooded people and those who are always "catching cold." Dr. Pierce's Common Sense Medical Adviser is sent on receipt of 31 one-cent stamps for the French cloth-bound book of 1008 pages. Address Dr. R. V. Pierce, No. 653 Main Street, Buffalo, N. Y.

kindly send to this office the names of the members of the Boards of Directors and Boards of Education with their POST OFFICE addresses within your county, being careful to indicate the President and Secretary of each Board. If possible please send in this information within the next TEN days.

Institute arrangements have been completed in only about half the counties of the territory and we hope that the plans may be fully made and contracts for conductors and instructors submitted from the other counties as soon as possible. The Institute Manual will be ready for distribution before the end of May. We believe that this manual will be the best yet issued. All outlines are based upon the text books to be used during the period beginning June 1, 1911. It will, therefore, be necessary for county superintendents to see to it that the local dealers have supplies of the various text books. Please consult the enclosed list and find out if all the text books of this list can be procured at the place where the institute will be held.

We are hoping to have during the institute season some new features. Lecturers from the various educational institutions will visit institutes from time to time whenever possible and we are planning to have two or three specialists along certain lines in the territory. Another blank not used heretofore will be sent out to the various counties, called a Teachers' Information Blank. This blank will be supplied by the department and will be filled out by all teachers attending institute. From this the general institute information blank may be easily filled out by the superintendent.

**Special Levies.**  
Please give careful attention to the matter of special levies by your Boards of Directors and by vote of your people. Look carefully into the legal requirements regarding these levies and ask your directors to make levies sufficiently large to bring the funds to meet the expense of a school term of seven to ten months. The levy should be made right away and

reported to the Board of County Commissioners in order that the assessors will not be inconvenienced by tardy report on the item. It is the opinion of the attorney general that the voters of the district may make a fifteen mill levy and the Directors make an additional levy of five mills, making a total of twenty mills. The levy for school purposes may be the largest levy made for any item in the precinct but there is no other interest of as great importance as that of the public schools.

**Delegation to Convention.**  
So far as you have been able to find out, what is the probability of the attendance of your teachers within your county at the National Educational Association, only 8th to 14th at San Francisco? This Department has had several inquiries and a good delegation is expected from New Mexico. The far from Albuquerque and El Paso, round trip, will be forty dollars, and the rates from other points may be estimated in accordance with this rate or may be ascertained accurately from local agents. In order to arouse interest in the National Educational Association, please send the names of your teachers with request for circulars to be sent them to Mr. James Barr, Stockton, California. He will be glad to cooperate with you in securing a good attendance from your county.

## REBELS MARCH ON CHIHUAHUA.

(Continued From Page One.)

his cabinet officers. The appointments follow:  
Dr. Vasquez Gomez, minister of foreign relations.  
Gustavo Madero, brother of Francisco, Jr., minister of finance.  
Venus Venustiano Carranza, minister of war.  
Federico Gonzales Garza, minister of the interior.  
Pino Suarez, minister of justice.  
Juan Sanchez Azcona, secretary to the president.

## Buy Your Decorating Supplies Here

This is the season that most women begin to think of touching up and redecorating the house. A change here or there does much toward making things look like new.

At this pleasant store you will find just the things you want and always at prices you can afford to pay. We have paints, varnishes, oils, stains, and can offer you many valuable suggestions along this line.

Please feel perfectly free to come in and look around whether you purchase anything or not.

Alabastine, the beautiful wall coating for interior decorating is sold and recommended by us.

Come in and look over the new Alabastine wall and ceiling designs.
