BASE BALL AT FAIR GROUNDS

Both Games Captured By Browns Over Silver City Blues.

MANY ERRORS BUT THEY PLEASED

In consecutive games played Saturday and Sunday afternoon at Athletic park, the Browns defeated the Silver City base ball club by telling margins.

On Saturday the score was 7 to 2, and on Sunday, 10 to 6.

In each game the locals demonstrated clearly their superiority over the Grays, both in generalship and cleverness, although with a few weak positions strengthened, Silver City would be able to give the Browns a good tussle.

In Saturday's game the Browns had the best of the game by the phenomenal pitching of Starr, a husky young man who is a new find of Manager Houston. Starr pitched the whole game, striking out sixteen of thirty-three men who went to bat. He also cracked out a two-bagger in the center field in the ninth. In this game Silver City suffered from errors made at third and short.

Sunday's game was one resplendent with errors, but not entirely devoid of brilliant plays. Of the latter, Vorhes, of the Browns, and Flood, of the Grays, have one each. Vorhes caught a liner which seemed a sure hit. Flood made a pretty run in center field, catching a fly, which fell far behind the position he was playing. But as a whole, both teams played ragged ball. Gallages, who pitched for the Browns, seemed easy. The Grays hammered him freely and some of the weakest batters made good.

This game, although poorly played, was quite interesting because of the many peculiar situations. Both teams had turns at altitudinous ascensions.

In the second inning McDonald threw the ball away at a time when the bases were full and three Grays entered over the plate. The Silver City runners squawked at the Brown's expense.

In the third inning the Grays took a turn at the rattin box and the Browns piled up five runs.

Wilson pitched a very good game for the Grays. Although a little wild at times, if his support had been good, the story would have been different.

bone, 2; home run, Vorhes. Paid at-
tendance, 232. Umpire, Mason.

The Silver City boys returned home last night, apparently well pleased with their visit to the metropolis. A more gentlemanly lot of ball play-
ers never came to Albuquerque.

FIRE AT THE SHOPS

IT WAS A NARROW ESCAPE FROM A SERIOUS CONFLAGATION.

The mocking bird whistle sounded an alarm of fire yesterday turned in from box 54. Box 54 is the shop station and the fire was found to be in the platform of the oil house in-
side the stockade and dangerously close to several tanks containing sev-
eral thousand gallons of oil.

The second alarm followed closely after the initial calling out of the city department. Old Don and the new horse made a good run down Second street, across the street car tracks and through the gate of the stockade. The shops fire department had streams of water playing on the conflagration, but the oil saturated wood burned fiercely, crackling de-
fiance to the fire fighters.

It was Fire Chief Burless' first real fire since taking up the local department and the matterfulness with which he handled the situation was admirable. Within a short time the department with its handful of men had several streams of water playing and the flames were soon in a state of subjection.

Master Mechanic Bean of the shops thanked Mr. Burless and his men for their work and commended Chief Burless very highly as a fire fighter.

DR. A. P. MORRISON.

Missionary for the M. E. Church for New Mexico, Visits Roswell.

Dr. A. P. Morrison, missionary for New Mexico for the Methodist Episcopal church, left after a visit to Roswell, says the Roswell Record. Dr. Morrison is highly pleased with the progress that Rev. William Reaso has made with the church here. He says: "We have four lots in view for our new church site and the lot will be purchased in the near future and the work on the building of the church will begin early in the fall. We are not prepared to say at the present time how much money will be in-
vested in the new building, but it will be better than some of the Roswell churches and will compare with the best. We are building an excellent church at Albuquerque, and the new church at Silver City is nearing com-
pletion. We also have an excellent church building at El Paso, and the work of the church in New Mexico is very satisfactory. I have just written to the east that from the present prospects here we can build and dedi-
cate the church in Roswell without doubt. I find that the weather is dry in the vicinity of Silver City. There has been no rain except small show-
ers in that portion of the territory since November. There is no water for the cattle and the water for do-
mestic purposes is beginning to be-
come a serious question at Silver City. I will be in El Paso in a few days, and do not wish to talk too big at present, but we expect big things in this city."

Night Was Her Terror.

"I would cough nearly all night," writes Mrs. Chas. Applegate, of Alex-
andria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 55 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at all druggists.

The Farmington Canning Factory.

The big canning factory is rapidly assuming a condition where it will be ready to handle fruit. The contract for the building was completed by Messrs. Pittat & Campbell and a thorough piece of work it is. The vats are being made by Mr. Pittat and teams are on the way with the last of the machinery. The engine and boiler are in place and but a few more days work will be required to have everything in shape for the blowing of the whistle and the calling of the hands to the factory.

Already wholesale houses are making offers to handle the output at satisfactory prices and there is no doubt that the enterprise will prove profit-
able to its promoters as well as of great benefit to the town.—Farmington Times-Herald.

iest French patterns. We solicit your orders and guarantee satisfaction both in style and price.

RESPONDENT AND GAVE UP FIGHT

**CHARLES E. QUINN, OF TOLEDO,
OHIO, SICK AND OUTLAW FROM
HOME TAKES MORPHINE.**

Charles E. Quinn, alias Charles E. Phillips, committed suicide at the St. George hotel, El Paso, by taking mor-
phine. The poison was taken Friday night, as the man's body when dis-
covered Saturday, showed that he had been dead ten or fifteen hours.

The deceased arrived in El Paso about seven weeks ago and registered at the St. George as "Charles E. Phil-
lips, Toledo, Ohio." He was a young man about 25 years of age, neatly dressed and of prepossessing appear-
ance. He had very little to say to any one.

He was not seen about the hotel all day Saturday and Sunday night and at-
tache of the house went to the man's room to deliver a letter and found him lying dead in his bed with the room door locked from the in-
side.

Justice Mitchell was promptly sum-
moned and after examining the body and room he turned the body over to Undertakers Nagley & Carr. On a table in the dead man's room was found a bottle which had originally contained 100 hypodermic morphine sulphate tablets, and the label on the bottle indicated that each tablet con-
tained a quarter grain of morphine, making 25 grains in the bottle. All of the tablets but three were gone.

In the dead man's coat pocket was a letter written from a friend in To-
ledo, Ohio, and the contents of the letter clearly indicated that the de-
ceased was in hiding to avoid punish-
ment for a sin of some kind. The writer of the letter said:

"The old man is still hunting for you and you had better keep in hid-
ing."

A little book found in the pocket of the suicide contained the address: "Mrs. Helen A. Quinn, 1442 West Bancroft street, Toledo Ohio."

A telegram sent to that address by Nagley & Carr developed the fact that Mrs. Quinn was the mother of the suicide and that his real name was Charles E. Quinn. She ordered the remains shipped to her at Toledo.

Justice Mitchell will hold an in-
quest today. He declined to allow any reporters to see the letters found on the dead man's body.

Quinn was in poor health and did not engage in any work after his ar-
rival here.

Women love a clear, healthy com-
plexion. Pure blood makes it. Bur-
dock Blood Bitters makes pure blood.

Married at Magdalena.

The home of Mr. and Mrs. J. S. Macintosh at Magdalena was the scene of a very pretty wedding on July 14, when their niece, Miss Annie

Cameron, a charming and accom-
plished Scotch lassie who has made her home with them for the past five years, gave her heart and hand to Mr. Foss Field, one of the efficient clerks in the employ of the Becker-
Blackwell Co., of that place, and a brother of Mr. N. A. Field of Burley. The bride was attired in a traveling dress a combination of white and champagne silk. The happy couple were attended by Miss Mary Blinn, daughter of Dr. Charles Blinn of Kel-
ly, and Mr. John Kane of Magdalena. They left on the morning train for a honey moon trip of some weeks, after which they will be at home to their many friends at their cozy home in Magdalena, prepared by Mr. Field for his bride last winter. They were the recipients of many handsome pres-
ents.—Socorro Chief.

A boon to travelers. Dr. Fowler's Kidney and Wild Strawberry. Cures dysentery, diarrhoea, constipation, nausea. Pleasant to take. Perfectly harmless.

Faywood Springs Resort.

T. C. McDermott, proprietor of the Faywood Hot Springs hotel, spent a busy day in Silver City, buying sup-
plies. Mr. McDermott says a party of six from New Orleans are among the guests at Faywood, among them being a former postmaster of New Orleans under the McKinley admin-
istration.

LEGAL NOTICE.

Notice is hereby given that Alonzo B. McMillen has brought his suit in attachment against Aurora Helwig and R. F. Helwig her husband, as de-
fendants, in the district court of the county of Bernalillo, Territory of New Mexico, No. 5600, to recover the sum of three hundred dollars as attorney's fees, and ten dollars advanced for said defendants.

Said defendants are further notified that their property has been attached and unless they enter their appear-
ance in said cause on or before the 14 day of September, 1904, judgment will be rendered against them by default and their property sold to sat-
isfy the same.

Defendants are further notified that plaintiff's attorneys are McMillen & Reynolds, whose postoffice is at Albu-
querque, New Mexico.

WM. E. DAME,
Clerk of said Court.

SPECIAL MASTER'S SALE.

In the District Court of the county of Bernalillo, Territory of New Mex-
ico.

Emilio Archuleta, et al, plaintiffs,
vs. Mariano S. Otero, et al, defend-
ants.

No. 5603.

Notice is hereby given that by vir-
tue of a judgment and order of sale entered in the above cause on the 27th day of July, 1904, the undersigned Special Master will on the 22nd day of August, 1904, at 10 o'clock in the forenoon of said day, at the front door of the county court house of the county of Bernalillo, Territory of New Mexico, sell at public auction to the highest and best bidder for cash, the following real estate situate in the county of Sandoval (formerly a portion of the county of Bernalillo) Territory of New Mexico, to-wit:

A tract of land known as the Canon de San Diego Land Grant, a more particular description of which is found in the patent therefor from the United States of America to Francis-
co Garcia de Noriega, dated October 21st, 1881, reference to which is here-
by made for more particular descrip-
tion, and containing according to the official survey thereof one hundred sixteen thousand two hundred and eighty six and 80-100 acres, excepting however, from said sale certain tracts of land held in severally by divers persons, as set forth in the decree of partition heretofore made in this cause, reference to which decree is hereby made for more particular de-
scription of said tracts of land held in severally, and hereby excepted from the sale to be made.

WM. E. DAME,
Special Master.

NOTICE OF SUIT.

Territory of New Mexico, County of Bernalillo, In the District Court.

Arthur J. Mitchell, plaintiff, vs. M. Clouthier and Georgiana Clouthier, defendants.

To M. Clouthier and Georgiana Clouthier, defendants:

You are hereby notified that Arthur J. Mitchell, the above named plaintiff, has commenced suit against you in the above entitled court, in and by which said action the plaintiff seeks to recover of and from you the said defendants the principal sum of Five Hundred Dollars with interest and costs of suit; that your goods and chattels situated in said county of Bernalillo consisting of piano and other personal property have been at-
tached and that unless you enter your appearance in said cause on or before the 20th day of August, A. D. 1904, judgment will be rendered against you in said cause by default and the said goods and chattels sold to satisfy said judgment.

A. J. Mitchell attorney for plaintiff, postoffice address, Albuquerque, N. M.

W. E. DAME,
Clerk of said Court.

FALSE REPORTS PUNCTURED

**WORLD'S FAIR WAS COMPLETED
WEEKS AGO—LIVING RATES
REMARKABLY REASONABLE.**

All reports in the effect that the World's fair is in an incomplete state are false. Without exception, the main exhibit palaces were finish-
ed before the day of opening, April 30, and since then every state and foreign building and concession struc-
tures that was not finished at that time has been completed, with the single exception of one small build-
ing for which the concession was let only three weeks ago. The House of the Hood, which was destroyed by fire a few weeks after the opening, has been rebuilt, and will be reopened in a few days.

The entire grounds are in a perfect state of completeness and present a most beautiful picture in these mid-
summer days. The landscaping de-
partment, in spite of a great deal of unfavorable weather, has been able to put the grounds into such shape as to elicit the hearty admiration of all visitors who are able to preserve the beautiful. Any statement that the grounds are "half finished," or in any degree uncompleted, is patently false. The splendid grounds show for themselves.

As to the exhibits, no exposition ever held showed such a complete-
ness of installation on the opening day. During the ten weeks that have passed since April 30, practically every unfinished exhibit has been in-
stalled, with the exception of such exhibits as are changed or renewed from month to month according to the season. It is only an unfair critic who finds fault, because here and there he may discover a workman rearranging a booth, or a truckman bringing in additional material to add to the wonderful displays al-
ready in place.

The World's fair has been injured more or less by the publication of grossly erroneous statements regard-
ing the cost of living in St. Louis. Gradually these false reports are be-
ing refuted in the press and by word of mouth, as visitors from far and near come to St. Louis and find that living accommodations are remark-
ably reasonable. There are scores of restaurants where an abundant and wholesome meal may be had for 25c, and there are scores of hotels where lodging at \$1.00 a day is the prevail-
ing rate. Thousands of private fam-
ilies, in the best residential districts of the city have opened their homes for the entertainment of World's fair visitors, at rates or lodgings rang-
ing from 50c per day up. For \$1.00 an excellent room may be had in a most respectable neighborhood, and there are many boarding houses and private dwellings where lodging and breakfast may be obtained at from \$1.00 to \$1.25. Rooms taken by the week, or occupied by two or more persons, are rented at still lower fig-
ures. Naturally, one may find hotels in St. Louis where the rates are as high as those usually prevailing in New York, Chicago or any other large city; but the fact remains that in view of the great expectation that is now running in full swing the average rate of living in St. Louis is sur-
prisingly low. Any report to the contrary is either made wilfully or through ignorance. That the expo-
sition is already a success is attested by the unqualified words of praise which it receives from distinguished visitors hailing from all parts of the world, and from the fact that the attendance is doubling with each month of the fair.

DEMING NOTES

**WELCOMED RAINS—SOCIAL EN-
TERTAINMENT—FRUIT NOT
ALL KILLED.**

Special Correspondence.

Deming, July 25.—A nice shower here last Thursday morning and another good one Friday afternoon. Rain has fallen to the southwest and south of Deming in the Mimbres valley on the Florida and at Cooke, and between Deming and the Rio Grande. Since the beginning of the rains the weather has been very pleasant, with cool nights and ideal days. While the rainfall to date has not been very considerable, it is to be hoped, now that it has got started, that we may have a wet season from this on.

Mrs. James H. Waddill, and W. T. Russell of the Sunset dairy, both of whom have been for some time slightly indisposed, are again able to be about.

A. Sherran who a few weeks ago was so unfortunate as to have his arm mangled in a well-digging machine, has entirely recovered, and has gone back to Baker's ranch, where he was working at the time of the accident.

Postmaster R. G. Clarke and C. C. Bennett, cashier of the Deming National bank, are both smiling over the advent of baby girls at their homes.

Hon. Amos W. Pollard has just returned from a visit to his old home at Portage, Wisconsin. Mr. Pollard says the summer has been very wet and cool in Wisconsin.

The Deming Blues, a new base ball club, made up for the most part of boys belonging to the Deming public schools, with David Olson as man-
ager, has just been organized. The members have raised \$91.50 to date. When they get themselves into shape, the Blues hope to compete with the light weight teams of the territory.

Mamie Lee, the little daughter of Dr. and Mrs. S. D. Swopes, gave a party at home last Thursday evening, from 7 until 10 in honor of her little great and cousin, Helen Clay Weaver, of Harston, Texas. Refreshments were served in the summer house and the beautiful Swopes lawn was lit up with Japanese lanterns. There were fourteen guests.

B. M. Smith, secretary and director of the New York Texas and Mex-
ico, and the Gulf, Western Texas and

Pacific railroads, whose family have spent the last six or seven months in Deming, came in Thursday from Victoria, Texas, and will spend a few days in town.

Mrs. W. R. Merrill, who has been camping for the last six weeks at Byron's ranch, eight miles east of town, returned to her home yester-
day.

Last spring it was reported that all the fruit on the Mimbres river had been killed by the late frosts. This is a mistake. Very fine early peaches and apples from ranches in that valley have been offered upon the streets of Deming during the present month. It is understood that there will be a fairly good crop of late peaches, grapes and winter apples.

Ralph C. Ely, for the past two or three years connected with West Camp at Cooke's Peak, has just returned from the east, where he has organized what is to be known as the Luna Land company, for the purpose of mining and treating lead ores in this county. The company, of which Mr. Ely is secretary and general manager, has ample capital. They con-
template the erection of a small smelter at an early date, possibly at Deming. Mr. Ely is an energetic and worthy man, and it is to be hoped that the smelter may be erected in Deming.

**You Never Know the Moment When
This Information May Prove of In-
finite Value.**

It is worth considerable to any citizen of Albuquerque to know how to be cured of painful, annoying and itchy pimples. You know that Doan's Ointment is a positive remedy for all ills of the skin, for pimples, eczema, etc. One application relieves and cures. Read this testimony of its merit:

J. H. Cross, of 522 South First street, employed in the Santa Fe shops, in the mill apartment, says: "Exposure and sitting on damp logs and cold stones while in the mountains some three months ago, brought on itching hemorrhoids. More commonly they are called piles. While not severe or serious they were very annoying and I put off doing anything to get relief until compelled to. One evening I stepped into the Alvarado Pharmacy and asked Mr. Briggs for something to bring relief. I finally decided on Doan's Ointment. The first application gave relief and in a short time I was practically cured. I have great confidence in this remedy for what it did for me. I never used anything which was so soothing and healing. I recom-
mend it to others and know they will not be disappointed in the results if they give it a trial."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute. *40

DISTRICT COURT.

The district court this morning made an order directing the sale of the James land grant, and a division of the proceeds to the numerous own-
ers.

Judgment was awarded during the

work of the Consolidated Supply com-
pany in its suit on open account against E. H. Hotelling to the amount of \$100.

Harry F. Lee obtained judgment for \$200 and interest in his suit against Henry Huning, et al. The case is the continuation of the old Lee estate.

In the case of the Bank of Com-
merce vs. Vincent Pino judgment was rendered for the plaintiff to the amount of \$562. The suit was for the non-payment of a promissory note on the part of the defendant.

Motion to withdraw garnishment made by Chas. Rita, an employee of the Santa Fe, was sustained by Judge Baker. The amount involved was small, the motion alleging that the gar-
nishment had not been legally issued.

In the suit of W. V. Williams against Edward Dickerson, the contest being over the title to lot 25 block 15, Al-
buquerque Town company addition, judgment was rendered in favor of the former. The court ruled to quiet title to the property in favor of the plaintiff.

The possession of a certain tract of land south of Albuquerque was given to M. C. Ortiz, who was the plaintiff in a suit against Angela Vivland, in-
volving the right of possession. The plaintiff was also awarded small dam-
ages against the defendant.

A decree of divorce was granted to Miguel C. de Cerna on the grounds of desertion, as alleged in her peti-
tion. Cirilo Cerna, the husband de-
fendant in the suit, failed to deny the allegations made against him, and the court at once issued orders that the decree be entered.

For Over Sixty Years.

An old and well-tried remedy—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by drug-
gists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

The Farmington Fair Meeting.

An adjourned meeting of those in-
terested in the Farmington fair met at the Times-Herald office Mon-
day night. The meeting organized by electing Wm. Butler as temporary chairman. On motion it was decided to proceed to the election of officers. J. A. Duff was elected president, John C. Hubbard secretary, and an executive committee consisting of A. E. Dustin, Harley N. Knight, C. C. Pittat, W. A. Hunter and Wm. Butler. A. M. Amesen was on motion, elected treasurer. Samples of hangers were examined and it was decided to sub-
mit these to a meeting of the execu-
tive committee. At the meeting of the executive committee half sheet han-
gers will be ordered and the fair be advertised in the outside towns. The fair without big crops and the rail-
road building will be the biggest event the county has ever witnessed.

Subscribe for The CHIEF.

Yesterday afternoon, at No. 318 South Fourth street, near Lead ave-
nue, Mrs. Emma Stevens, the wife of Fred Stevens, a stone mason, at-
tempted self destruction by the land-
sliding route, and had it not been for the timely summoning of Dr. Pearson, who worked with the woman from 2 till 2:30 o'clock p. m., the sad story of family quarrels, disagreements, incompatibility of temper, and the ever desire of husband and wife to find fault with each other, would have ended at the grave.

As the story goes, Mrs. Stevens got divorcer, and her husband failed to appear at the usual time—1 o'clock. She then grew desperate and leaving the dinner on the table, took a bath and placed on her gown. A handy phial, containing landanum, was then brought into the case, and from the phial Mrs. Stevens took two teaspoon-
fuls. She had in the meantime lock-
ed both the front and rear doors, and barred the windows. Having com-
pleted these arrangements and the writing of a lengthy letter to her hus-
band, telling him that she could not stand his abuse and non-attention any longer, she laid on the bed and quietly waited for death.

At 3 o'clock yesterday afternoon Mr. Stevens arrived home, but he found everything locked and barred against his entrance. Feeling that his wife was inside of the house, and surmising that something was wrong, he broke in the kitchen door and made haste to the sleeping room. He soon realized her condition, and walking across the street to Mrs. Lane's he used the telephone. Mrs. Lane and daughters and other neigh-
bors had by this time responded to the appeals of the husband, but they were powerless to render any assist-
ance until the arrival of Dr. Pearson. The latter applied the proper reme-
dies, and after working with the woman nearly three hours pronounc-
ed her out of danger.

The letter she wrote, showing a determined and premeditated desire to shuffe off her earthly life, was left to her husband. Mrs. Stevens recited a fearful tale of domestic un-
happiness and says she prefers tak-
ing her own life to becoming an in-
mate of the insane asylum of a pub-
lic charity through the unkindness and lack of love and attention.

Mrs. Stevens is a dressmaker, and neighbors say that she is a very nervous little woman. She is around the house and neighborhood today, as if nothing unusual had happened in her life, but neighbors state that she has threatened to make a more complete attempt at self-destruction the next time, if her husband does not mend his ways and show her the attention a wife is entitled to.

mit these to a meeting of the execu-
tive committee. At the meeting of the executive committee half sheet han

Territorial Topics

Lordsburg Teachers.—The school board of Lordsburg has hired Mrs. Alice Hays as principal for the coming year, and Miss Elizabeth Swan as teacher in the primary department. Mrs. Hays is a sister of Mrs. Robert Hays, of Silver City, and has had twelve years' experience teaching in Kansas. She applied for the primary room, and was the only person who did apply for that position. There were some thirty applicants for the principalship, many of whom were recent graduates of the Normal school of Silver City, and one of two of them were scholars in that school.

Lordsburg School Census.—The school census shows the Lordsburg district has 210 scholars this year, an increase of thirteen over last year. Included in this increase are the Chenoweth children, who live in present mine, but who attended school in this district. The school board thought as these children attended school in this district that this district was entitled to the appropriation from the tax money for their tuition.—Liffler.

LORDSBURG.

From the Liberal.
Mrs. J. C. and Mrs. F. L. Overman left the first of the week for Clifton, where they will join their husbands, and make their homes.

Mrs. W. A. Leonard and children were in town en route from Clifton to Long Beach, California, where they will spend the rest of the summer. Died, in Tecumseh, Michigan, on July 9, 1904, Mrs. Maria H. Hixon aged 104 years and 15 days. This woman, who had lived in three centuries, retained her mental and most of her physical faculties until but a few days before her death, when she was stricken with her fatal illness. She was the grandmother of D. H. and R. M. Kenzie, of Lordsburg.

The fire company has been doing some practicing, which they intend to continue, until they get the business down fine. One of their runs Saturday night resulted in a serious accident. When the start was made one of the men on the line was carried off his feet, and barely missed being run over by the hose cart. Foreman McOrath set him on the edge of the sidewalk, and told him to keep away from the hose cart until he got thoroughly sobered up. This was equivalent to expelling him from the company.

HILLSBORO.

From the Advocate.
Good rains are reported from nearly all portions of the country.

Mr. and Mrs. Isaac Knight, Mrs. Milan McKinney, Mrs. Reese and Mrs. Chas. McKinney visited Hillsboro.

Mrs. E. P. Pearson and Mr. R. H. Hopper have been appointed delegates to the International Mining congress, to be held in Portland, Ore. next month.

The 30-stamp mill for the Empire Gold Mining and Milling company is on the ground, and Manager Kasser expects to have it running in six weeks. Mr. Kasser informs us that a shipment of about forty tons of high grade ore will go out soon, which will make the second shipment this month from the Good Hope-Bonanza which, now gives employment to thirty men.

SILVER CITY.

From the Enterprise.
Mrs. C. W. Farquhar of this city is a guest at the McVannan ranch near Sagar.

Miss Fannie Thwaites, who has been the guest of Mr. and Mrs. A. McGuire, returned to her home in White Sulphur.

Mrs. C. P. Crawford and daughters Ruth, Margaret and Gloria will leave the latter part of the month for Long Beach, California, where they will spend several months.

The Rev. John R. Gass left on his annual vacation trip. He will spend several days at the World's fair and will then proceed to his old home in Pennsylvania, where he will visit with home folks.

A pair of crows were shipped to the city this week, consigned to a man in Pinos Altos. They were sent from Denning, and at first it was thought they were being sent to the local democratic headquarters, but a hasty inspection revealed the fact that they were being sent to a resident in Pinos Altos.

The local Mexican population celebrated the anniversary of the patron saint of Silver City (San Vicente), last Tuesday in an appropriate manner. Mass was said in the Catholic church, and the day was religiously observed throughout. The site now occupied by Silver City was known to the Indians and early Spanish settlers centuries ago, as San Vicente Springs, and was a favorite watering place for travelers to and from Mexico.

SANTA FE.

From the New Mexican.
Elihu Clarke, the Plaza del Alcaide merchant, telegraphed here for an expert to come to his place of business and open his safe. The strong box has a time lock, and the combination has gotten out of balance.

While attempting to catch a swiftly thrown ball, Henry Alerd, short stop of the Santa Fe Central base ball team, while practicing with that team, was struck in the eye and severely injured. The optic is slightly discolored.

Good water was struck at the depth of 57 feet in the well on Buena Vista heights that was dug for H. H. Doran, who is erecting a modern cottage upon that site. This is a much less depth than it was deemed probable to find water at that elevation above the Santa Fe river. There are five feet of water in the well.

In the case of the United States vs. Mrs. Presencia Velarde del Gomo of Rio Arriba county, charged with polyandry, the defendant gave bond this morning in the sum of \$500 to appear before the United States court at its September term.

Before Judge John R. McElroy in chambers in the district court for Santa Fe county, the case of Pablo Aranda vs. Romualdo Gallardo, both of Golden, suit in assumpsit was on hearing. The plaintiff seeks to recover on a promissory note for \$1,100, given for goods purchased by and money advanced to the defendant.

Reports come from northern Taos county that heavy rains and several water spouts have occurred in the central part of that county and in the Arroyo Hondo during the last few days. The water spouts did much damage in washing out roads and ditches. But the rainfall was very necessary, and will prove of great benefit to that section.

Contractor Mulholland and his force of men are actively engaged in putting down the artesian well on the United States Indian industrial school grounds. The drill is down 350 feet and a good many strata of water have been encountered. In fact, it might be said that the last 250 feet of the drill have been more or less in water. The water in the pipe is now standing at the 100-foot level all the time. Should artesian water not be struck one thing will have been demonstrated, and that is that the Santa Fe valley is underlain with many underground and subterranean rivers, and that there will be no trouble in getting vast supplies of water for irrigation and other purposes.

ROSWELL.

From the Register.
G. A. Richardson returned to the city last week from Kansas, where he has been engaged in taking testimony in the famous Colorado-Kansas water case. The hearing will be resumed in August.

The dam near Hazekorn, owned by Barnett and Morrow was struck last week by lightning, and part of it washed out, doing damage to the amount of five hundred dollars. Men were at once put to work to repair the dam.

There are still a few knockers left in Roswell, and they, of course, are knocking the Hondo reservoir. The proper thing for some of these gentlemen would be to try and knock their own heads, and the implement used would meet with little resistance.

William Divers, who has recently returned from the east, had an operation performed on his throat for the removal of a growth. The operation was made in Philadelphia, and was quite successful, the growth being removed. During the operation it was necessary to cut his throat from the ear to the middle under the chin.

CARLSBAD.

From the Argus.
Mrs. John Brown, of El Paso, is making an extended visit with her sister, Mrs. Sol Schoonover.

Frank Lavery left for Dallas where he has accepted a position with the Dallas Mercantile company. Inspector Gray went to Pecos City this week on official business. More months of stock are slow, owing to drought on the ranges. Conditions are improving, however.

The miners' strikes and the unfortunate conditions existing in Colorado, are seriously affecting the peach growers in this vicinity. Colorado is the peach market for the Pecos valley.

L. L. Pouse, of the Otis neighborhood, went to Pecos after 250 head of cattle recently purchased. They will be branded there and brought overland to his ranch, thirty miles east of Carlsbad.

D. M. Smith, from Wapello, Iowa has been in Carlsbad some days looking up the alfalfa and fruit prospect. He expresses himself as much pleased with what he has seen, but not encouraged by all that he has heard. The disposition of some people to run down their own country and town is something queer to one who really has the future interests of the community at heart.

LAS VEGAS.

From the Optic.
Mrs. Ed LeBreton of San Marcial is visiting friends in the city. The local Fraternal Union lodge is planning a social and dance to be given Friday evening, August 6.

Mrs. D. W. Hitecheek, wife of Master Mechanic Hitecheek of the Rio Grande, division, is here from San Marcial visiting her daughter, Mrs. Parish.

Joseph Hall, a wood dealer of Norwich, Conn., who has been in New Mexico for several weeks while his daughters have been visiting in this city, left today for his eastern home, via St. Louis.

Attorney Herbert F. Reynolds and John M. Reynolds left at 4 o'clock this morning on their return horseback trip to Albuquerque. They will go via Glorieta and Lamy.

At the meeting of the directors of the Young Men's Christian association on Monday evening the board considered at length the proposition of the new building for the association. As a result of the discussion, a building committee was elected, consisting of J. H. Stearns, C. W. Harris and C. M. Moore.

Another "Breeches" Bible.—The Las Vegas Optic yesterday afternoon published a story concerning Colonel Twitcheil's "Breeches" Bible. This morning Dr. C. H. Bradley brought to the Optic office another copy of this rare and almost priceless book. Dr. Bradley's Bible was presented to him

fifteen years ago by a patient, Mrs. Jacob How, of Haverhill, Mass. The lady's husband had been presented with the treasure in 1830 by Rev. Jacob Norton.

The volume had been used in the services of the Church of England. It was published in 1611 from the King's Press in London. The old book contains the communion, prayer and marriage service of the church instead of the Calvinistic creed, and it also contains the Apocryphal books. It is, however, though printed three years later than the Calvinistic "breeches" Bible, the same translation, the word "breeches" being used instead of the leaves in the famous passage relating to the clothing of Adam and Eve.

Dr. Bradley is also the possessor of a copy of the famous Soldier's Pocket Bible, reprinted for use during the Civil war from the original in use by the soldiers in Cromwell's time. It contains about all the passages in Holy Writ referring to war.

RATON.

From the Range.
Mrs. L. H. Hall entertained at what for her daughter, Mrs. Arthur Cavanaugh, of Albuquerque.

The poles for forty-two miles of the Johnson Mesa telephone line are in place, and by the 1st of August the line will be completed and in operation from Raton to Polson.

Mrs. T. R. Lyon goes today to Alta Vista ranch, the pleasant Sugarite canyon resort, conducted by her husband, Dr. Lyon, and will spend the greater part of the summer there.

Almon Fullinwider, an officer in the United States navy, arrived here this week on a visit to his parents, Mr. and Mrs. E. R. Fullinwider. For the next two years Mr. Fullinwider will be stationed at Washington, D. C.

A party composed of Dr. A. R. Strecher and family, J. E. Gillum and family, M. H. Mendelson, Dr. Cornett and C. H. Edwards, left the first of the week for an outing on the Costello, in Colorado. They will be gone about ten days.

From the Reporter.
Mrs. W. H. Rains left for Phoenix, Arizona, to join her husband, who has located in that city.

Sam Ruffner and wife left for Douglas, Arizona, where they will visit with Mrs. Ruffner's parents, Mr. and Mrs. Wm. Gray.

Mrs. Henry Jones and son will visit to Denver. They will remain about two months and visit Omaha and St. Louis before returning home.

Mrs. O. T. Purman of Hillsdale, Mich., sister of W. C. Parsons, and Mrs. E. Freeman, of Toledo, Ohio, cousin of W. C. Parsons, who have been visiting here the past three months, are delighted with Raton and our world beating climate. They both came here for health reasons, and have no cause to regret their visit.

From the Gazette.
W. L. Patton arrived here to accept a position with the Gazette. Previous to coming west Mr. Patton was foreman of one of the largest printing establishments in Joplin, Mo., where he was recognized as a skillful and competent workman.

A Famous Spendthrift Dead Broke at Bisbee.—Herbert Seeley, the young New York millionaire who gave a dinner in Gotham at which the favors were diamonds and at which Little Egypt introduced herself to fame by dancing the can-can in the altogether, is in jail at Bisbee, Arizona, for the alleged forgery of so small a sum of \$250.

Seeley admits uttering spurious checks for the amount to pay a gambling debt, but says that he was drinking when he did so. He has telegraphed New York friends for \$400 to cover his bad papers and in his cell professes the deepest penitence. It will be recalled that this man was through a two million dollar inheritance within the span of a single year, and that the dinner which brought him into extravagant notoriety was given at a cost of \$25,000.

NORMAL INSTITUTE.

**OF VALENCIA COUNTY TO CON-
VENE AT LOS LUNAS, AUGUST
15, 1904.**

The Valencia County Normal Institute will convene on Monday morning, August 15, 1904, at Los Lunas. It will continue six days, the first week and four days the second week, followed on Friday and Saturday, August 26 and 27 by the county examinations.

Professor U. Francis Duff, superintendent of schools of Luna county, has been employed as conductor and instructor.

All teachers of the county are required by law to attend this institute. A copy of the institute course of study will be furnished free to each teacher who enrolls.

Professor Duff, the conductor, comes very highly recommended as a school man and institute worker. Now it remains for those expecting to teach to avail themselves of the opportunities placed before them.

Very respectfully,
JESUS C. SANCHEZ,
County Supt. of Schools.

Canadian Pacific Plans.

Toronto, Ont., July 30.—It is reported on good authority that the Canadian Pacific is about to begin the construction of a new line from Sudbury to this city at a cost of \$5,000,000. The construction of this line, together with the purchase of local lines near Tilsonburg, Ontario, and the probable installation of a ferry service across Lake Erie is expected to bring the cost up to some \$12,000,000. This, it is believed, is the foundation for the recent report that the company would issue \$20,000,000 of new stock.

A son was born to Mr. and Mrs. Otto Frankenberg, of 815 North Eighth street yesterday.

RAILROAD NOTES

Mrs. Jessie Miller, wife of Conductor Miller, expects to leave Friday evening on a pleasure trip to California.

J. W. Records, superintendent of motive power, on the Santa Fe Central, is in the city on business and pleasure.

E. L. Critchlow, traveling freight agent for the Santa Fe Central, left for the north on the Denver & Rio Grande railroad.

The local Santa Fe officials yesterday received the report of the burning of a car of coal out on the west end early yesterday morning. The burnt car was a part of a work train.

Conductor J. O. and Mrs. Dodge have returned. Williams from Los Angeles, J. O. has resumed charge of the Canyon run, relieving Harry Dearing, who departed for a trip to the coast.

In the first half of this year 1,937 miles of new railroad track were constructed compared with 2,221 in the corresponding period of 1903. From this the conclusion may be drawn that 1904 will show a decline in comparison with a year ago.

A great rain fell in the neighborhood of Chloride the other night and in consequence the Arizona & Utah railroad was washed out in many places. A large crew of men were taken out from Kingman to repair the breaks and trains are now running on scheduled time.

Conductor George W. Hill, of the Denver & Rio Grande road, has been transferred to his old run on the Alamosa to Santa Fe. He ran on that line for several years until changed five months ago to the Alamosa and Durango line. He says he is glad to have his old position back again.

A charter has been issued by the secretary of the state of Missouri to the St. Joseph, Albany and Des Moines Railway company of St. Joseph, Mo. The company has a capital of \$500,000 with which to build and operate a railway from St. Joseph to Des Moines, Iowa, a distance of 80 miles.

A. E. McFarland and O. Wentland, civil engineers who have been employed by the Santa Fe on the China basin in California, but now working in New Mexico, say that the scheme has fallen through. The effort to span the bay from Point Richmond to San Francisco has failed, and the Santa Fe has dumped several millions of dollars into the Pacific.

The passenger department of the Santa Fe has laid great plans for the month of August. The big Knight Templars conventions to be held at San Francisco is considered a big drawing card for the Gold-Gate City and the Santa Fe expects to move a large part of the crowd that will go. Something over thirty special trains will be put on to carry the additional travel.

R. P. Lewis, national organizer of the Brotherhood of Railway Carmen, said yesterday that he would not organize lodges of the carmen in Albuquerque or Gallup. He said that too many natives were employed in the shops at those places to make good, strong organizations. Mr. Lewis arrived yesterday from a tour of shops on the western lines of the Santa Fe. He stopped here for a little rest and as soon as recovered will continue east.

Not for five years has the movement of freight towards Mexico been so light as at the present time, according to the foreign railroad agents. A few declare that not since foreign roads began placing representatives in this country has the business been so poor but almost without exception railroad men believe the stringency will last not longer than the presidential election in the United States, or six months at the most.

Officers of the railroads operating between Chicago and points in South Dakota, near the Rosebud reservation, report that the movement of homeseekers has exceeded all expectations. One railroad, has carried over 30,000 people to the Bonesteel, Fairfax and Yankton. It is estimated that the railroads have made \$1,000,000 out of the movement. The travel has been confined to two railroads, the Chicago and Northwestern and the Chicago, Milwaukee and St. Paul.

Concealed Weapon Carriers.—Yesterday W. E. McClure appeared in court and was placed under a peace bond of \$300 by Judge Ranney. The complaint was made by Engineer Lumsden, of the Canyon run, that McClure had made threats of his life.

McClure procured warrants for the arrest of Fred Krohn, fireman, and J. A. Lund, watchman, charging the former with carrying concealed weapons and the latter with assault. The case will come up Monday. It appears that trouble has been brewing among the train crew for some time.—Williams News.

FRISCO RETRENCHMENT.

**Order Issued Laying Off Shipmen
All Over System.**

There has been a small, but general reduction in shop forces on the St. Louis & San Francisco and the Chicago & Eastern Illinois systems, in accordance with an order from W. A. Nettleton, general superintendent of motive power. John Forster, master mechanic in charge of the shops in Kansas City, said that the reduction was a general one over the system and that, in accordance with the order from Mr. Nettleton, twelve men had been discharged from the Kansas City shops. He said the order called for a 1 per cent reduction.

Transfer of Messengers.—Richard Gutterman has accepted a position as messenger with the Santa Fe office of the Wells-Fargo Express company succeeding John Bell, who has taken the messenger run on the branch between Santa Fe and Lamy. Ray Rittenburg who had the branch run, has been transferred to the Silver City

branch. E. Herman, who has been serving as acting agent at the Santa Fe depot at Raton, has been permanently transferred to that place from Lamy station. Frank C. Dettelbach, who has been employed in the Lamy depot, succeeds Mr. Herman as agent at the latter point.

The order requiring railroad companies to keep a record of all passes and mileage issued by them embodying all transportation that is free, including exchange transportation in officials, agents, employees of other roads and passes on account of newspaper advertising. The order also requires roads to keep an open record showing for each month the number of miles traveled by persons on such free transportation.

Fred Marshall and wife of Las Vegas, arrived this morning from a trip to California for pleasure. Mrs. Marshall is stopping with her mother-in-law, Mrs. J. C. Marshall, of 121 South Armo street, and Mr. Marshall will resume his duties as stenographer to Superintendent Easley of the New Mexico division of the Santa Fe.

Anastacio Layla arrived this morning from Williams, Ariz., where he was employed on a bridge gang. A bridge timber fell on his head making a severe scalp wound. He was able to walk around, however, and did not seem much inconvenienced by the accident. He is a patient at the Santa Fe Pacific hospital.

F. H. Burleigh has been appointed general foreman of the Alamosa road shops. A foreman for the blacksmithing department will arrive from the east in a few days. The work in every department is being systematized in such a manner that affairs will move along like clockwork.

The Washington Post observes that "There would be very few railroad accidents if trainmen and station employees paid as much attention to regular passenger trains as they do to the private car of the general manager." And the fact is what makes so many people say what they do say.

Officials of the Union Pacific railroad have completed a settlement of hours and wages with the telegraph operators of the system, and a new schedule has been signed.

B. H. Newlee, civil engineer for the Santa Fe at Las Vegas, is an Albuquerque visitor.

NEW MILLION DOLLAR RAILROAD.

The Oklahoma, Texas & New Mexico Railroad company was incorporated here yesterday under a \$10,000,000 capital, says a Delhart special to the Fort Worth Sunday Record. The new line is a short, direct cut from Woodward, O. T., through Delhart to El Paso, Texas, and traverses a rich undeveloped agricultural, stock and mineral country.

The line is a connecting link between the Triplex at Woodward, A. T., and Santa Fe at Las Vegas, and when completed will furnish a 200 mile shorter transcontinental line for these two companies than is possessed by any other road. The Rock Island and Santa Fe have demonstrated the disadvantages of their present long haul, mountainous grades and connections and by this new route all objectionable features have been avoided.

The essential features of the twentieth century transcontinental line on grade and mileage have been closely observed in the preliminary surveys and the best possible results obtained. The Rock Island company claim the greatest mileage in the world on a direct straight line through Oklahoma on their El Paso division, yet this new line shows a four-hundred mile straight line between Woodward and Delhart from Las Vegas, N. M.

The line traverses the east slope of the San Andres mountains south to El Paso, where connection is made with the Southern Pacific and Mexican Central.

The natural resources of the San Andres are partly developed, showing great richness in gold, silver, copper and lead. The Delhart Mining company having rich deposits at Good Fortune canyon that furnish rich ore, assaying \$134 to \$150 per ton in gold, silver, and copper, sufficient to run a stamp mill one hundred years.

In fact, the range traversed by this line has a continuous chain of valuable properties that are being developed, awaiting shipment to the El Paso smelters.

Delhart, Texas, has been selected as the general headquarters of the new line, where direct connections will be made with the Fort Worth & Denver City, the Colorado Southern, and Chicago, Rock Island & Gulf.

A new passenger and freight depot will be erected at the junction of the four lines. The Rock Island shops will be enlarged to accommodate the additional service, and the division of the Colorado Southern, and Fort Worth & Denver City will be transferred from Texline, Texas, to Delhart.

At the call of the chairman, W. B. Slaughter, in executive session, the following officers were elected for the coming year:

President, J. H. Conlen; vice president, L. P. Raymond; general counsel, D. B. Hill; secretary, R. T. Pugh; treasurer, C. H. Young; general manager, W. C. Edwards; superintendent transportation, M. S. Connor; general superintendent, E. L. Brown; chief engineer, P. J. Ward; roadmaster, east division, W. J. Lacy; roadmaster, west division, W. L. Finn; master mechanic, Thomas C. Sunderland; general car foreman, E. L. Cross; general freight and passenger agent, J. E. Reed; general baggage agent, Newton Childers; superintendent telegraph, D. C. Ditts, all of Delhart, Texas.

A few necessary preliminaries yet remain to complete all arrangements in the way of bond negotiations, when the work will assume active operations and be rushed to an early completion. It is now expected the line will be in operation between Delhart and the eastern terminal by the holidays and within one year to El Paso Texas.

ARIZONA TOWNS

WINSLOW.

From the Mail.

On Wednesday last the children of the Catholic Sunday school and their youthful friends, to the number of about fifty, had their annual picnic at the Dase ranch, about four miles north of town.

For some time there has been a rumor that Winslow was to have a new paper. It is reported in the streets this week that Hon. W. A. Pratt will soon start a paper in Winslow as the organ of the democratic party.

HOLBROOK.

From the Argus.

Mrs. W. H. Clark left for Philadelphia Pa., where she will visit relatives during the warm weather.

Sam Longmore and John Nelson went to Dry Lakes to look over the range in that vicinity with regard to moving their flocks out there.

Mrs. A. M. Boyer and daughter, Maggie left for Los Angeles, to consult a physician in regard to Mrs. Boyer's health, which has been poor of late.

Prof. Myron Young, who was to have taught the coming term of school in this district, has written the board of trustees that he would be unable to fill his contract, and W. C. Jones, of Flagstaff will teach in his place.

Joseph F. Woods returned from St. Louis and other points in the east. Joe is looking and feeling well and says "the fair is O. K." Mrs. Woods and Master Chandler remained in South Dakota, where they will visit relatives before returning home.

FLAGSTAFF.

From the Sun.

County Recorder Hibben has recorded 1,149 registrations of voters. The registration will reach 1,500.

N. G. Layton, territorial school superintendent, came up from Phoenix, and will remain here several weeks. During his stay he will employ his time in making his report of the condition of the schools of the territory.

Mrs. J. M. Daniels and son, Ivon, returned to Rhodes from a trip to the World's Fair. They will remain until the first of September, when they will go to California, where Ivon will enter the State University at Berkeley.

The drought was broken Wednesday by a generous rainfall. Nearly an inch and one-half of rain fell during the week, and there is indication of more. The rain has been general all over the territory, some sections being blessed with more than others. Cocconino country fared well.

Landlord Smith of the Grand View hotel, at Grand Canyon, was a Flagstaff visitor. Mr. Smith has added sixteen additional rooms to his hotel, and while here secured the services of Mr. Joseph Backman to attend to the artistic completion of the same.

W. H. Norman, who together with his family, have been visiting friends and relatives in the east and, incidentally, taking in the World's Fair, returned to Flagstaff after an absence of two months. Mrs. Norman and children remain in Kansas visiting relatives for a short time, and will return to their home later on.

Dr. D. J. Brannon and Wm. N. Staley concluded a deal this week whereby they bonded to Eugene T. Merritt, of Duluth, Minn., a group of mining claims in that portion of Coconino county, known as the Black Mesa district, being thirty-eight miles from Tuba and seventeen miles southeast of Lee's Ferry. The consideration of the bond is \$25,000, with development to be commenced within sixty days from July 15, of this year.

From the Gem.

Mrs. John Duke, who has been visiting for several days with Mrs. Charles Helmer, left for her home in Prescott.

Mrs. C. Turnell, who was called to Omaha, Neb., on account of the sickness of her sister, returned Friday. Her sister died on the 20th of last month.

Miss Amanda Hutson, who has been visiting here several weeks with her brothers, Al and Jeff Hutson, left for Fresno, Cal., to visit another brother, and at which place she may reside in the future.

Mr. Fred Loyolen of Maine and Miss May O'Brien of Baltimore were married at the residence of Mrs. Nora McCabe in this city last Saturday. Father Vabre performed the ceremony which made them husband and wife.

James A. Lampert left for Kansas City for the purpose of having a surgical operation performed. Mr. Lampert has been in poor health for some time, and it is hoped that the medical treatment that he will receive will restore his health.

ST. JOHNS.

From the Herald.

The farmers at Greer valley started to cut their grain this week. They have an excellent crop.

Ben Schuster and J. B. Patterson returned Sunday from Holbrook where they had been attending to the shipping of their wool.

At last the long drought has been broken. Nearly an inch of rain fell here Wednesday and the stockmen are now wearing a broad smile. From what we can learn the rain was general over the county, which means that the losses of stock will cease and the stockmen will be saved from destruction.

In the matter of Atanacio Melendres, who had been convicted in Justice Blythe's court of unlawfully gambling and sentenced to pay a \$100 fine, the defendant, through his attorney, procured a writ of habeas

corpus returnable before Judge Sloan at Prescott. After an inspection of the papers Judge Sloan promptly discharged the defendant as the justice had no jurisdiction of the case.

WILLIAMS.

From the News.

Mrs. J. D. Raudebaugh departed Tuesday evening for a week's visit at Flagstaff.

Rev. Father Connolly has been spending the week here instructing the younger generation in Catholic faith.

Constable Thom, Andrews, who has been suffering for the past few weeks from a severe attack of rheumatism is again on duty.

Miss Burman, of Los Angeles, who has been visiting for some time in the east, arrived here and is the guest of Miss Wells.

Herb Yoier was in town the first of the week from the "Bar Cross" ranch. He said that last Friday a good rain fell over Pinal Flat and filled some of the tanks, but was not general enough to be of much benefit.

Hon. Henry F. Ashurst, accompanied by his wife and son, arrived in Flagstaff last Thursday from the east. Mr. Ashurst has been taking a special course in the law department at Ann Arbor since last fall. He informs us that his brother, Charles, has accepted a position there for the summer and will remain at the university for another year at least. Mr. and Mrs. Ashurst came to Williams Sunday evening on No. 7, and will make their home here in the future.

Hon. John H. Page, after an absence of some weeks, returned to Williams last Monday accompanied by his sister, Miss Katherine, who, though she has traveled extensively on the continent and climbed the beautiful mountains of Switzerland, had never yet seen that rugged wonder, the Grand Canyon. Miss Page, who will remain in Arizona indefinitely, accompanied her brother to Grand

ROOSEVELT'S SPEECH OF ACCEPTANCE

Mr. Speaker and Gentlemen of the Modification Committee:

I am deeply sensible of the high honor conferred upon me by the representatives of the republican party assembled in convention, and I accept the nomination for the presidency with solemn realization of the obligations I assume. I heartily approve the declaration of principles which the republican national convention has adopted, and at some future day I shall communicate to you, Mr. Chairman, more at length and in detail a formal written acceptance of the nomination.

Three years ago I became president because of the death of my lamented predecessor. I then stated that it was my purpose to carry out his principles and policies for the honor and the interest of the country. To the best of my ability I have kept the promise thus made. At the November election my countrymen confirm at the polls the action of the convention you represent, I shall, under Providence, continue to work with an eye single to the welfare of all our people.

A party is of worth only in so far as it promotes the national interest, and every official, high or low, can serve his party best by rendering to the people the best service of which he is capable. Effective government comes only as the result of the loyal co-operation of many different persons. The members of a legislative majority, the officers in the various departments of the administration, and the legislative and executive branches as towards each other, must work together with subordination of self to the common end of successful government. We who have been entrusted with power as public servants during the past seven years of administration and legislation now come before the people content to be judged by our record of achievement. In the years that have gone by we have made the dead square with the world, and if we are continued in power we shall unwaveringly follow out the great lines of public policy which the republican party has already laid down; a public policy to which we are giving, and shall give, a united, and therefore an efficient, support.

In all of this we are more fortunate than our opponents, who now appeal for confidence on the ground, which some express and some seek to have confidentially understood, that if triumphant they may be trusted to prove false to every principle which in the last eight years they have laid down as vital, and to leave undisturbed those very acts of the administration because of which they are given from power. Seemingly their present attitude as to their past record is that some of them were mistaken and others insincere. We make our appeal in a wholly different spirit. We are not constrained to keep silent on any vital question; we are led on to vital questions; our policy is continuous, and is the same for all sections and localities. There is nothing experimental about the government we ask the people to continue in power, for our performance in the past, our proved governmental efficiency, is a guarantee as to our resources for the future. Our opponents, either openly or secretly, according to their several temperaments, now ask the people to trust their present promises in consideration of the fact that they intend to treat their past promises as null and void. We know our own minds and to have kept of the same mind for sufficient length of time to give our policy coherence and unity, such a fundamental matter as the enforcement of the law we do not have to depend upon promises, but merely to ask that our record be taken as an earnest of what we shall continue to do. In dealing with the great organizations known as trusts, we do not have to explain why the law was not enforced, but to point out that they actually have been enforced, and that legislation has been enacted to increase the effectiveness of their enforcement. We do not have to propose to "turn the rascals out," for we have shown in very deed at whenever by diligent investigation a public official can be found who has betrayed his trust he will be punished to the full extent of the law without regard to whether he was appointed under a republican or a democratic administration. This is the efficient way to turn the rascals out and to keep them out, and it has the merit of sincerity. Moreover the beyond of trust in the last seven years have been insignificant in number when compared with the extent of the public service. Never has the administration of the Government been on a cleaner and higher level; never has the public work of the nation been done more honestly and efficiently.

Assuredly it is unwise to change to policies which have worked so well and which are now working so well. Prosperity has come at home, the national honor and interest have been upheld abroad. We have placed a finances of the nation upon a solid gold basis. We have done this with the aid of many who were formerly our opponents, but who either openly support our policy or quiesce in the heresy of unsound finance; and we have done it against the mass of our present opponents who still refuse to recant the sound opinions which for the moment they think it inexpedient to assert. We know what we mean when we speak of an honest and stable currency. We mean the same thing year to year. We do not want to avoid a definite and conclusive commitment on the most important issue which has recently been before the people, and which may at any time in the near future be before us again. Upon the principles which underlie this issue the conviction of half of our number do not clash with those of the other half. So long as the republican party is in power the gold standard is settled, not as a matter of temporary political expediency, not because of shifting conditions in the production of gold in certain mining centers, but in accordance with what we regard as the fundamental principles of national morality and wisdom.

Under the financial legislation which we have enacted there is now ample circulation for every business need; and every dollar of this circulation is worth a dollar in gold. We have reduced the interest-bearing debt, and in still larger measure the interest on that debt. All of the war taxes imposed during the Spanish war have been removed with a view to relieve the people and to prevent the accumulation of an unnecessary surplus. The result is that hardly ever before have the expenditures and income of the government so closely corresponded. In the fiscal year that has just closed the excess of income over the ordinary expenditures was nine millions of dollars. This does not take account of the accumulated surplus for the purchase of the isthmian canal. It is an extraordinary proof of the sound financial condition of the nation that instead of following the usual course in such matters and throwing the burden upon posterity by an issue of bonds, we were able to make the payment outright and yet after it to have in the treasury a surplus of one hundred and sixty-one millions. Moreover, we were able to pay this fifty-one millions of dollars out of hand without causing the slightest disturbance to business conditions.

We have enacted a tariff law under which during the past few years the country has attained a height of material well-being never before reached. Wages are higher than ever before. That whenever the need arises there should be a readjustment of the tariff schedules is undoubted; but such changes can with safety be made only by those whose devotion to the principle of a protective tariff is beyond question; for otherwise the changes would amount not to readjustment but to repeal. The readjustment when made must maintain and not destroy the protective principle. To the farmer, the merchant, the manufacturer this is vital; but perhaps no other man is so much interested as the wage-worker in the maintenance of our present economic system, both as regards the finances and the tariff. The standard of living of our wage-workers is higher than that of any other country, and it can not remain unless we have a protective tariff which shall always keep as a minimum a rate of duty sufficient to cover the difference between the labor cost here and abroad. Those who, like our opponents, "denounce protection as a robbery" thereby explicitly commit themselves to the proposition that if they were to revise the tariff no head would be paid to the necessity of meeting this difference between the standards of living for wage-workers here and in other countries; and therefore on this point their antagonism to our position is fundamental. Here again we ask that the tariff be continued as it is. We believe in reciprocity with foreign nations on the terms outlined in President McKinley's last speech, which urged the extension of our foreign markets by reciprocal agreements whenever they could be made without injury to American industry and labor. It is a singular fact that only the great reciprocity treaty recently adopted—that with Cuba—was finally opposed almost alone by the representatives of the very party which now states that it favors reciprocity. And here again we ask that the work of our world be judged by comparing their deeds with ours. On this Cuban reciprocity treaty there were at the outset grave differences of opinion among ourselves; and the notable thing in the negotiation and ratification of the treaty and in the legislation which carried it into effect, was the highly practical manner in which without sacrifice of principle these differences of opinion were reconciled. There was no rupture of a great party, but an excellent practical outcome, the result of the harmonious co-operation of two successive presidents and two successive congresses. This is an illustration of the governing capacity which entitles us to the confidence of the people not only in our purposes but in our practical ability to achieve those purposes. Judging by the history of the last twelve years, down to this very month, is there justification for believing that under similar circumstances and with similar initial differences of opinion, our opponents would have achieved any practical result?

We have already shown in actual fact that our policy is to do fair and equal justice to all men, paying no heed to whether a man is rich or poor; paying no heed to his race, his creed, or his birthplace.

We recognize the organization of capital and the organization of labor as natural outcomes of our industrial system. Each kind of organization is to be favored so long as it acts in a spirit of justice, and of regard for the rights of others. Each is to be granted the full protection of the law, and each in turn is to be held to a strict obedience to the law; for no man is above it, and no man below it. The humblest individual is to have his rights safeguarded as scrupulously as those of the strongest organization for each is to receive justice, no more and no less. The problems with which we have to deal in our modern industrial and social life are manifold; but the spirit in which it is necessary to approach their solution is simply the spirit of honesty, of courage and of common sense.

Insulating the great work of irrigation in the west, the administration has been enabled by congress to take one of the longest strides ever taken under our government toward settling our vast national domain for the settler, the actual home-maker.

Ever since this continent was discovered the need of an isthmian canal to connect the Pacific and the Atlantic has been recognized, and ever since the birth of our nation such a canal has been planned. At last the dream has become a reality. The isthmian canal is now being built by the government of the United States. We conducted the negotiation for its construction with the nicest and most scrupulous honor, and in a spirit of the largest generosity toward those through whose territory it was run. Every ministerial effort which could be devised by the spirit of faction, or the spirit of self-interest was made in order to defeat the treaty with Panama and thereby prevent the consummation of this work. The construction of the canal is now an assured fact; but most certainly it is unwise to entrust the carrying out of so momentous a policy to those who have endeavored to defeat the whole undertaking.

Our foreign policy has been so conducted that, while not one of our just claims has been sacrificed, our relations with all foreign nations are now of the most peaceful kind; there is not a cloud on the horizon. The last cause of irritation between us and any other nation was removed by the settlement of the Alaskan boundary.

In the Caribbean sea we have made good our promise of independence to Cuba, and have proved our assertion that our mission in the island was one of justice and not of self-aggrandizement; and thereby no less than by our action in Venezuela and Panama we have shown that the Monroe doctrine is a living reality, designed for the hurt of no nation, but for the protection of civilization on the western continent, and for the peace of the world. Our steady growth in power has gone hand in hand with a strengthening disposition to use this power with strict regard for the rights of others, and for the cause of international justice and good will.

We earnestly desire friendship with all the nations of the new and old worlds; and we endeavor to place our relations with them upon a basis of reciprocal advantage instead of hostility. We hold that the prosperity of each nation is an aid and not a hindrance to the prosperity of other nations. We seek international amity for the same reasons that make us believe in peace within our own borders; and we seek this peace not because we are afraid or unready, but because we think that peace is right as well as advantageous.

American interests in the Pacific have rapidly grown. American enterprise has laid a cable across this, the greatest of oceans. We have proved in effective fashion that we wish the Chinese empire well and desire its integrity and independence.

Our foothold in the Philippines greatly strengthens our position in the competition for trade of the east; but we are governing the Philippines in the interest of the Philippine people themselves. We have already given them a large share in their government, and our purpose is to increase this share as rapidly as they give evidence of increasing fitness for the task. The great majority of the officials of the islands, whether elective or appointive, are already native Filipinos. We are now providing for a legislative assembly. This is the first step to be taken in the future; and it would be entirely unwise to declare what our next step will be until this first step has been taken and the results are manifest. To have gone faster than we have already gone in giving the island a constantly increasing measure of self-government would have been disastrous. At the present moment to direct political independence to the islands would result in the immediate loss of civil rights, personal liberty and public order, as regards the mass of the Filipinos, for the majority of the islanders have been given these great boons by us, and only keep them because we vigilantly safeguard and guarantee them. To withdraw our government from the islands at this time would mean to the average native the loss of his hard-earned civil freedom. We have established in the islands a government by Americans assisted by Filipinos. We are steadily striving to transform this into self-government by the Filipinos assisted by Americans.

The principle which we uphold should appeal to all our countrymen, in all portions of our country. Above all they should give us strength with the men and women who are the spiritual heirs of those who upheld the hands of Abraham Lincoln; for we are striving to do our work in the spirit with which Lincoln approached his. During the seven years that have just passed there is no duty, domestic or foreign, which we have shirked; no necessary task which we have feared to undertake, or which we have not performed with reasonable efficiency. We have never sought refuge in criticism and complaint instead of action. We face the future with our past and our present as our guarantors of our promise; and we are content to stand or to fall by the record which we have made and are making.

OUR MILITIA AT LAS VEGAS

SOME OF THE FACTS INCIDENT TO THE TRIP TO THAT TOWN.

Col. John Borradale, of the First Regiment of the National Guard of New Mexico, said this morning that he did not care to enter the controversy between Adjutant General Whitman and the Driving Park association at Las Vegas regarding the holding of the encampment in Gallinas Park, but would say that the encampment was no picnic affair. The guard is going into camp for a week for instruction. The day's work will begin at 5:30 each morning and will continue until late in the afternoon. The government is not spending \$8,000 on a picnic for the 250 men who will likely be in camp. The officers need instruction in tactics and actual practice as well as the men, and rank and file are going to Las Vegas for work. The colonel says that he would be willing to allow the boys the last day of the encampment, Sunday, for fun, but the six week days will be taken up in drill and military maneuvers.

Captain Ruppel, coincides with the colonel in the support of Adjutant General Whitman. He said he appreciated the efforts of Las Vegas to entertain the militia, but that the guard was not going to Las Vegas for entertainment. He said that he realized, himself, that he needed instruction and that is what the encampment is to be held for.

As to holding the encampment in Gallinas Park, at a time when horse racing and ball games are going on, is out of the question. Water is the most essential need of the encampment and doubtless water could be found in plentiful some place near Las Vegas outside the Gallinas Park enclosure.

Albuquerque will attend the encampment in force. It is safe to say that the Deke City will contribute more people to Las Vegas' crowd, encampment week, than any two towns of the territory.

Companies E and G, stationed here, will contribute about sixty men and besides there will be a dozen or more regimental officers and the First Regimental band of twenty members. The Albuquerque Browns will go and a number of horsemen contemplate going and taking their horses. Officers of the National Guard stationed in Albuquerque are as follows: Colonel John Borradale, commander; Major John F. Pearce, regimental surgeon; Col. W. E. Duno, inspector of rifle practice; Major Elder, commander of first battalion; Captain O'Donnell, regimental quartermaster; Henry Connolly, regimental sergeant major; S. Vann, battalion sergeant major; Fred Fisher, regimental quartermaster sergeant; Bert Isaker, regimental commissary sergeant, and Nat Frampton, regimental hospital sergeant. A majority of these will attend the encampment.

MILITIA ORDER FOR ENCAMPMENT

A FINE PROGRAM ARRANGED FOR ENTERTAINMENT AT LAS VEGAS.

Headquarters National Guard of New Mexico, Office of Adjutant General, Santa Fe, N. M., July 21, 1904.

General Orders No. 12.

1. The National Guard of the territory of New Mexico will be mobilized in annual camp of instruction near the city of Las Vegas from August 8th to 15th, inclusive. At which time and place the several organizations shall be drilled, exercised, inspected and reviewed in military tactics and maneuvers in accordance with the orders of the officer in command of the troops and the camp.

2. Brigadier General W. H. Whitman, adjutant general, will have direct command of the troops, and the routine of the camp, together with rules and regulations for the government of the same, will be announced in field orders.

3. Captain Michael O'Donnell, regimental quartermaster, First Regiment of Infantry, will act as quartermaster for the camp, and Lieutenant W. F. Lorenz as camp commissary.

4. Troops will be routed from the office of the Adjutant General. He will furnish company commanders and staff and field officers, with the necessary orders for railway transportation.

5. The organizations will move in heavy marching order, and before moving, commanding officers will carefully inspect all equipment, and will cause every article to be thoroughly cleaned and put in a serviceable condition.

6. Wall and conical tents, poles and pins, camp ranges, mess pans, camp kettles, spades and axes should be shipped by freight a sufficient length of time before moving to insure their arrival at Las Vegas prior to the 8th day of August. Such stores should be addressed to the commanding officer of the company, in care of the adjutant general. Settlement of the freight accounts will be made by the adjutant general at the office of the A. T. & S. F. Ry. in Las Vegas.

7. Company commanders will take with them such company books as may be required in camp, viz: Morning report, sick report, duty roster, tactics and manuals.

8. As the estimates for money to cover the expense of the encampment have been sent in, the number of officers and men attending should not be greater than the number heretofore reported as going.

9. Officers and men will receive transportation, army pay and subsistence. By order of

MIGUEL A. OTERO, Governor and Commander-in-Chief. W. H. WHITMAN, Adjutant General. National Guardsmen Only Eligible.

AT LAS VEGAS

SOME OF THE FACTS INCIDENT TO THE TRIP TO THAT TOWN.

Col. John Borradale, of the First Regiment of the National Guard of New Mexico, said this morning that he did not care to enter the controversy between Adjutant General Whitman and the Driving Park association at Las Vegas regarding the holding of the encampment in Gallinas Park, but would say that the encampment was no picnic affair. The guard is going into camp for a week for instruction. The day's work will begin at 5:30 each morning and will continue until late in the afternoon. 8. As the estimates for money to cover the expense of the encampment have been sent in, the number of officers and men attending should not be greater than the number heretofore reported as going.

9. Officers and men will receive transportation, army pay and subsistence. By order of

MIGUEL A. OTERO, Governor and Commander-in-Chief. W. H. WHITMAN, Adjutant General. National Guardsmen Only Eligible.

1st event—Standing broad jump. Medal.

2nd event—50 yards dash. Medal.

3rd event—220 yards dash. Medal.

4th event—Running broad jump. Medal.

5th event—100 yards dash. Medal.

6th event—Hammer throw. Medal.

7th event—440 yards run. Medal.

8th event—Hurdle high jump. Medal.

9th event—220 yards hurdle race. Medal.

10th event—Infantry relay race, company teams, men equipped and armed with rifles, half mile. Medal.

11th event—National Guard cavalry relay race, mounted, two miles. Medal.

There will also be given by the editors of Las Vegas in addition to the medals mentioned in the foregoing events, a fine medal for the best score at target shooting.

THE RACING EVENT.

First Day, Tuesday, August 9th.

Three-minute trot—2:40 trotters. Purse, \$50.00, and single driving harness, valued at \$25.00, offered by Conley & Miller, Las Vegas, N. M.

One-quarter-mile dash. Purse, \$25.00.

Three-eighths mile dash. Purse, \$25.00.

Second Day, Wednesday, August 10th.

2:15 pace—Mile heats, best two in three. Purse, \$100.00.

One-quarter mile dash. Purse, \$25.00.

Three-eighths mile dash. Purse, \$25.00.

Third Day, Thursday, August 11th.

2:25 Trot and pace—Mile heats, best two in three. Purse, \$100.00.

320 yards dash. Purse, \$25.00.

One-half mile dash. Purse, \$50.00.

Fourth Day, Friday, August 12th.

Free for all pace—Mile heats, best two in three. \$250.00.

One-quarter mile dash. Purse, \$25.00.

One-half mile dash. Purse, \$50.00.

Harness races governed by rules of American Trotting association. No entrance fees in running races. Horse ball August 11th, 12th, 13th and 14th, between the Las Vegas club and the Albuquerque Browns.

Attention, Guards!

Officers and members of Company G. will report without fail at the armory on Thursday, July 28, at 7:30 o'clock, p. m., for final preparation for encampment.

H. RUPPEL, Captain.

NEW MEXICAN GOATS ARE TO BE CROSSED WITH ANGORA.

A dispatch from Middleton, N. Y., July 25, says:

If the experiment undertaken in propagating a new species of Angora goats at Delmore, Sullivan county, proves a success, it will mean a great industry for that section of the country. A large tract of land at Delmore has been purchased, upon which has been placed a herd of imported white Angora goats.

The owner has gone to New Mexico in quest of 2,000 goats from that territory and proposes to cross the breeds, expecting to produce a superior species.

Several large land owners of Sullivan county are watching the experiment with interest and if it results successfully numerous tracts probably will be devoted to the goat raising industry, as the animals' wool brings about 50 cents per pound in the market.

DEMING.

From the Graphic.

Mrs. Robert Hartless is recovering from a severe attack of tonsillitis.

Allen G. Kennedy was in town again looking after the interests of the McIntire River Water company.

Miss Jennie Rhy of Dwyer is spending the week in town, a guest at the home of her sister Mrs. John Allison.

Attorney J. R. Fidler returned from an extended visit to his old home in Georgia. He reports a delightful time.

A letter from Mrs. M. F. Efford, formerly of this place but now at Asteo in San Juan county, announces that they are doing well at that place and that her health has greatly improved since leaving Deming.

A slight excitement was caused at the postoffice corner by one of the large don horses used by the Deming Mercantile company taking a run down the street with the delivery wagon; at Mahoney's corner he made too short a turn and struck a telephone pole smashing one front wheel and turning the wagon twice over; here the horse cleared himself from the wagon and ran around the block to the stable. Fortunately no one was hurt and the damage to property was comparatively small.

MAY BE RIO GRANDE BANDITS.

Self-Confessed Horse Thieves Captured at Tres Piedras, N. M.

Answer Descriptions of Escaped Parachute Robbers.

Arthur Hobson and Ed Wilson were arrested at Tres Piedras Tuesday morning by J. A. Garcia, sheriff of Conejos county, Colorado, and A. W. Brown, special agent of the Denver & Rio Grande Railway company, for having in their possession four head of horses stolen from Harry Gamman, sheriff of Hinsdale county, Colorado. Both men admitted the theft.

Wilson was born and raised at Del Norte, Colo., where his parents now reside. Hobson is also well known at Del Norte.

Both answer to descriptions of two of the train robbers who held up a Denver & Rio Grande train at Parachute, Colo., when a man supposed to have been Harvey Logan committed suicide after having been wounded by the posse.

A large number of valuable horses have been missed from along the northern New Mexico border in the last two months, and it is believed a

valuable capture was made. Neither men took advantage of extradition proceedings, and were taken to Colorado to be lodged in jail.

C. E. Hutto and J. H. Blledge assisted materially in the capture by holding both men at the depot until the officers arrived.

FOR RAILROAD MEN.

They Will Be Royally Entertained July 30 at St. Louis.

July 30 is to be Railroad day at the World's Fair, and elaborate preparations are being made for the entertainment of the railroad men of the United States, their families and friends. Ten thousand dollars will be expended for the entertainment of the visitors.

There will be a program consisting of a water parade in the morning and a land parade in the afternoon, both with unique features. The water transportation parade in the morning on the lagoons will show boats of all kinds, shapes, sizes and sizes. There will be native divers and a long list of entertaining attractions. Transportation of every sort will be shown in the land parade of the afternoon. Animals ranging from the Missouri mule to the camel, wheel vehicles of every type and shape will be among the things in line. In the Transportation building the exhibits will be decorated and special attention will be given all visitors.

SYSTEMATIC STEALING.

Merchandise Valued at \$50,000 Taken by Rock Island Employees.

For several years there has been small steals of merchandise and other articles from the freight cars and depots of the Rock Island system, but no trace had been discovered until a few days ago Detective W. O. McIntosh began watching the conductors and brakemen and in a very short time over \$5,000 worth of fine shoes and ladies' wearing apparel was found, says a dispatch from Caldwell, Kansas. A "house" has been discovered that during the last few years has bought of railroad men and shipped to Chicago over \$50,000 worth of merchandise.

About twenty-five railroad men are suspected and some are under arrest, and the others closely watched. Just what effect this will have upon the employees of the Rock Island is not yet known.

Clark's Line to Coast to Link East and West—The Clark railroad, which, with the Moffat line and the Burlington, will form a new transcontinental road from coast to coast, is almost completed between Salt Lake and Los Angeles. Through the meeting of a board of equalization and assessment in Sacramento, Cal., last Monday, it was discovered that the long line is all completed with the exception of 100 miles from Las Vegas, Nev., to Daguerre, Cal.

The date of the completion of this last link of the great railway is January 1, so that by the first day of 1905 Senator Clark will have his railroad from Salt Lake to the coast in operation, waiting for the connection with the Moffat line from the east. Traffic arrangements between Senator Clark and the Moffat line were entered into two years ago, soon after Senator Clark began his line, and when the Moffat line was first contemplated. The third member of the trio was J. J. Hill, who owns the Burlington, and when Mr. Moffat completes his road the three will form an alliance to capture their share of transcontinental business.

GOOD FIGHT IN PROSPECT.

San Francisco, Cal., July 26.—Not since the Corbett-Brittle battle has the San Francisco sporting element been so on edge in anticipation of a fight as is the case today on the eve of the contest between Eddie Hanlon and "Battling" Nelson, which is to be decided tonight before the Hayes Valley Athletic club. While the keen interest manifested in the go is naturally due in a large measure to Hanlon's great popularity hereabouts, this interest has been heightened by the prevailing belief that Nelson is in line of championship timber, and will be able to put up a rattling fight even against such a formidable antagonist as Hanlon, the victor over such boys as Altel, Yanger, Broad and a host of others.

Nelson is comparatively a new comer on the coast, but his recent go with Martin Canale and his past record have given the critics here a high opinion of his fighting ability. While Hanlon is the favorite in the betting there are few who are not of the opinion that he will find no easy mark in Nelson.

Ever since the match was made both fighters have been training faithfully, and the result is that they appear to be in shape to fight the battle of their lives. In addition to the star event of the evening, there is something interesting promised in the preliminaries, particularly in the fifteen-round go between Toby Irwin and Jack Corbett, both of whom have reputations as clever boxers and good hitters.

Russia Explains Disaster.

St. Petersburg, July 28.—Russian now declare that it was hunger, and not the Japanese which forced them from their positions on the Yalu. The Yashaya Rosaya publishes a dispatch from its war correspondent in which the following passage occurs:

"For eight days during and after the Yalu battle our men did not once taste bread. Instead, they were given flour, which they mixed with water and some even without water. In spite of this entire absence of proper food, the soldiers proved their amazing endurance by constructing heavy earthworks on their line of retreat."

J. D. Hockley, the third vice president of the International Association of Machinists, is again at San Bernardino, and he expresses the belief that the struggle might be continued sixty or ninety days yet.

UNCLE SAM WANTS SOLDIERS

Editors Citizen.

Having recently opened a United States recruiting office in the city, permit me, through the columns of your paper, to state some facts not generally known by the public in regard to service in the army.

The war department is offering more and better inducements to enlisted men at the present time than ever before in the history of the country. Besides being provided with the best equipped symposiums, bathhouses, reading and amusement rooms, the American soldier can get the benefit of a free school five months in the year, with books, stationery and other supplies furnished gratis. Should he desire promotion by a commissioned grade, his opportunities for study in the necessary branches that will qualify him for such, are within easy reach, and he always finds his company troop, or battery commander ready to assist him.

The skilled mechanics, and others who earn big salaries, often start at the small pay a soldier draws during the first year of his enlistment, but the soldier's opportunity for earning his money is far better than that of the mechanic. The total enlisted strength of the United States army today is less than seventy thousand men, and their savings, deposited with the army paymasters, is nearly five times the amount of savings credited by an equal number of unmarried skilled mechanics. This fact has been proved by statistics compiled by the officers of several trade unions and various labor organizations.

In all the cities adjacent to military posts or garrisons, some of the most prominent and successful business men in the United States are soldiers who commenced their business career with nothing but the savings of a few years in the army. Like in any other occupation, the soldier can build the foundation for a successful future by being studious and attentive to his duties.

HERBERT A. D. JENKINS, U. S. A. Recruiting Station, Albuquerque, N. M.

BASE BALL NOTES.

On the No. 1 passenger train Saturday night, when they arrive in the city Manager Townsend and his strong aggregation of Capital City base ball players, George Parsons has been elected first captain, and he, with the aid of Mr. Townsend, has truly gotten together a first class club. They are coming this time to capture the game of Sunday afternoon from the Browns, and wise ones say they will come very near it, if they do not win.

The Browns will have here, the Saturday and Sunday following, the El Paso City, and the Paso City club is regarded as the champions of that corner of the "Long Star" state. The Gots have a majority of the games played by them this season to their credit, and the Browns will have to get up all-edges ball to defeat them.

On August 11, 12, 13 and 14, the Browns are scheduled to play in Las Vegas, and they intend to capture a majority of the games played. The first three games will be played for a purse of \$100, and the fourth game on Sunday afternoon, August 14, the visitors will receive 50 per cent of the gross gate receipts.

While the Browns will be kept busy the next few weeks, Manager Brown, of the Browns, will have his team playing some games. On August 15 and 16 the strong Gallop team will be here, and play return games with the Browns.

SILVER CITY.

From the Independent.

Up to last evening Silver City has had more or less rain every twenty-four hours for the past seven days.

Mrs. Artie Ralloway has accepted the agency for the Welton Music company, a large piano house of Albuquerque.

McDon's Independence Day, September 10, will be appropriately observed in Silver City under the auspices of Alliance League Americana lodge of this place.

Superintendent McClure, received word last week that the rains have completely extinguished the fires which have been raging for some weeks in the Gila river forest reserve.

Albert Grayson, formerly a brakeman on the local division of the Santa Fe has returned from Las Vegas, where he was in the railroad hospital receiving treatment for an injury to his foot received while in discharge of his duties. While much improved, Mr. Grayson is not yet well enough to return to work.

O. C. Hinman took a trip to the Burro mountains Sunday, and while en route home Mr. Hinman discovered and killed the largest rattlesnake he has seen during his long residence in the territory. The snake had eight rattles when killed, but as some of them were missing, the indications are that it they were complete, he would have had about fourteen.

The loss resulting from the fire which destroyed the building and contents owned by J. J. Kelly was satisfactorily adjusted last week to the satisfaction of all concerned. Mr. Kelly expects to leave this evening for the east, where he will purchase an entire new stock and equipment, and start into active business again at the earliest possible moment.

Meets at Kalamazoo.

Kalamazoo, Mich., July 28.—The eleventh annual convention of the Michigan state association of sheriffs, chiefs of police and prosecuting attorneys began in Kalamazoo today, and will remain in session until the end of the week. Ray City, Saginaw, Detroit, Jackson, Grand Rapids, Battle Creek and other cities of the state are represented. The business sessions of the meeting will be devoted to the discussion of various matters relating to

NEW MEXICO TOWNS

SILVER CITY.

From the Independent.

The Silver City Mercantile company was robbed of a case of Mexican sugar last Monday night.

B. H. Gifford, who operates the Santa Rita stage line, put a handsome new stage coach into service last week.

Harry Matlocks, of Pinos Altos, was greeted by his many friends in Silver City Thursday.

Mrs. Henry S. Carter and children left for the Hurro mountains, where they will spend several months.

James Burr, who has accepted a position as machinist with the Comanche Mining and Smelting company, with his wife and son arrived in the city.

Speak thieves broke into the rear door of J. M. Kiner's bakery last week and relieved the cash drawer of its contents, besides taking a six-shooter which belonged to Warren Kiner.

Mrs. Abe Abraham pleasantly entertained a number of guests with a surprise party in commemoration of her son Morris' birthday. Male and female guests were indulged in until a late hour.

Mr. R. F. Copp, who returned from Mexico only a short time ago, where he had a very severe illness, was taken with a relapse the first part of last week and was taken to the hospital, but is now able to be out again.

James Wilson and Charles Rathborn, the base ball players, have accepted positions at Fort Bayard, where they will play ball with the Fort Bayard team the remainder of the season.

Frank Farnsworth, the senior member of the Silver City Mercantile company, who has been undergoing medical treatment for the past four months at Topeka, Kansas, returned to this city, and was warmly greeted by a host of friends. He returns greatly improved in health and hopes soon to be entirely well.

Run Over and Crushed.—Candelario, the 5-year-old son of Francisco Aguilar, was run over by a Wells-Pargo express wagon driven by Lee Wood and instantly killed on the main street of Alamogordo. The wagon was returning from the depot heavily loaded and the dead child, together with another little fellow of about the same age, was walking down the street as the express wagon came along, and as it was nearly abreast they attempted to dart across the street in front of the wagon. One of the horses knocked the little fellow down and before the wagon was stopped both the horses and the wagon had passed completely over his body. One wheel of the wagon passed over his head, mangled it to a pulp, scattering his brains over the street.

The driver was arrested, but at the inquest held he was exonerated from all blame, as many eye witnesses testified that the driver could not have stopped the wagon before it had run over the boy if he had seen him fall in front of the horses, which he steadfastly maintains that he did not.

Thieves at Silver City.—Store thieves seem to be getting more bold, and their depredations more frequent of late. Last night at 9:30 they attempted to gain an entrance into the grocery store of M. F. Downes & Co., but they were frightened away by the sound of the falling glass which they broke out of the front door in an attempt to reach the lock from the inside. Last Sunday afternoon they again broke into J. M. Kiner's bakery, but this second time they contented themselves by taking a liberal supply of cakes and candy.—Independent.

Cut His Throat.—William, Divers has returned from a trip to eastern cities, says the Roswell Record. He had a very painful operation performed on his throat during his stay in Philadelphia. For some years there has been a growth on his neck, and he became alarmed and consulted several eminent Philadelphia physicians. They agreed that it was best to operate, and he consented. They cut his throat from under the ear to the middle of his chin and removed the growth. His throat was cut open to the wind-pipe. The operation was successful, but of course leaves an ugly scar.

SANTA FE.

From the New Mexican.

H. S. Duval, the civil engineer, returned today from Alamogordo, Santa Fe county, where he was at work upon a survey. Illness compelled him to return home.

John Morrow, electrical engineer for the Santa Fe Water and Light company, expects to leave for his old home in Greenville, Texas, August 1. Manager Owens is looking for an engineer to take charge of the plant.

Arthur Sellman was summoned to St. Louis by a telegram. He goes on business in connection with his duties as secretary and treasurer of the New Mexico Commission of the Louisiana Purchase Exposition.

A. R. Beneshan, who has been in Cincinnati, attending the quadrennial session of the Grand Lodge of the B. P. O. E., and also spending a few days in Washington and other points, returned home last evening.

After a residence of sixteen years in Santa Fe, John Francis Wieland, who for ten years has lived on a farm southeast of the city, has concluded to retire from business and return to his old home in St. Louis, Mo., to spend his declining years.

A. J. Fischer, secretary of the territorial board of pharmacy, is busy preparing his annual report to the governor of the territory of the proceedings of the board for the past year. He expects to present the report in two or three days.

W. P. Gould, of Santa Fe, is now in charge of the work of digging wells, putting in pumps, etc., for the Mirabeau Water company in Luna county. An important part of the operations of the company will be the construction of an extensive irrigation system.

Word was received here recently of the death in Decatur, Illinois, of Albert A. Cornean, who is well known in this city, being a nephew of the late Mrs. G. A. Smith, for many years a resident of Santa Fe.

Fire at Las Vegas.—Mrs. Standish, the milliner, came very near seeing her building go up in smoke this morning about 8 o'clock, says the Optic. Early in the morning she had burned some papers in the kitchen stove. Later she happened to look into the kitchen and was horrified to see the room in flames. She ran to the front door and gave the alarm which was quickly sent to the department. The boys made a fire fast run, but before they arrived the business men in nearby stores had extinguished the fire by the liberal application of pailfuls of water. W. L. Thompson got the Standish children out of bed and carried them in negligees across to his store. Mrs. Standish's stock was very little damaged. There was insurance on the building carried by one of Mr. Scoggin's companies. It will soon be repaired.

LAS VEGAS.

From the Optic.

Prof. James H. Hays, vice president of the Colorado State Normal school at Greeley, and W. A. Williams, formerly of Greeley, are in Las Vegas from the Pecos Valley ranch, which the gentlemen own. They report very prosperous conditions in the upper valley of the Pecos.

John Mariman of Las Animas and W. D. Purse of Rock Ford, cattle and sheep men, misled by stories of cattle losses and impoverished ranges in this vicinity came here thinking to buy stock at great advantage. They found the grass green and growing fast and some prosperous and no cattle for sale.

Chas. Tamme, clerk of the board of education has completed his work of taking the school census. On the east side, the number has increased during the year by fully two hundred, an excellent index of the growth of the city. The number of school age on the east side is 1,114. The west side number comes almost to the same figure. There are over 2,300 children of school age in Las Vegas.

Frank Will, a man from Santa Rosa, who was brought here for treatment several days ago, died at the city jail. He was about 55 years of age. He has a wife living, but the couple separated some years ago. Two boys live at Santa Rosa. Will was first taken to the Ladies' Home and later to the hospital, but in both places he proved incurable and he had to be taken to the jail.

The pill that will, will fill the bill. Without a gripe.

To cleanse the liver, without a gripe. Take one at night. DeWitt's Little Early Risers are small, easy to take, easy and gentle in effect, yet they are so certain in results that no one who used them is disappointed. For quick relief from biliousness, sick headache, torpid liver, jaundice, dizziness and all troubles arising from an inactive, sluggish liver, Early Risers are unequalled. Sold by R. H. Briggs & Co., and S. Vann & Son.

GALLUP.

From the Republican.

John Pitts, a former resident of Gallup, is in the city shaking hands with old acquaintances.

Edward Capp, a carpenter from Albuquerque, was here on route to Zuni, where he will go to work.

Edward Hart has on display in his show windows some curiosities in the way of a hat and two war belms from Martingana, Rizal, Philippine Islands. Lieutenant Lewis kindly left them on display for a few days.

Samuel Brown returned home from St. Louis, where he had been taking in the fair for three weeks. Mr. Brown says the show is a monster and that the exhibits from New Mexico show up favorably with any of the rest.

Word received from T. N. Hinch from Los Angeles states that he has gone to San Jacinto. After arriving at Los Angeles he was not so well for a while, and remained in the city until he should feel better before going to the springs. He states at the present time that he is much improved.

In sending in her subscription from Mechanicsburg, Pa., Katherine E. Klemke states that her health is not good in the east, and she expects to visit New Mexico in September. She says that this locality was her home during the Indian war long before Gallup was even thought of.

Weak Hearts. are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, the stomach expands—swells, and puffs up against the heart. This crowds the heart and shortens the breath. Rapid heart beats and heart disease is the final result. Kodol Dyspepsia Cure digests what you eat, takes the strain off the heart, cures indigestion, dyspepsia, sour stomach, and contributes nourishment, strength and health to every organ of the body. Sold by R. H. Briggs & Co., and S. Vann & Son.

Died in Illinois.—Word has been received at Las Vegas that E. C. Higgins, who three years ago was floor manager at Hildes, died at his old home in Illinois, Ill., on July 24th, 21st

death being due to nervous prostration and stomach trouble. Mr. Higgins was a very affable and cultured gentleman, and during his sojourn in Las Vegas made many friends who will mourn his untimely death. He left Las Vegas to enter the employ of a firm in San Francisco, but ill health caused him to drift homeward after a year's stay on the coast.

Safeguard to Children.

Notwithstanding all that is done by boards of health and charitably inclined persons, the death rate among small children is very high during the hot weather of the summer months in the large cities. There is not probably one case of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mr. Frank Riggs, of Franklin, N. Y., in speaking of this remedy said: "I have found it expedient to have a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. It has been a family safeguard and while especially beneficial to children, it is equally good to adult cases. I recommend it cheerfully and without reservation." For sale by all druggists.

Greatest Fruit Year in Pecos Valley.—Colonel Ave E. Page, of Roswell, sent some very fine specimens of Pecos valley fruit to the World's fair. In the lot there were "Stump's Favorite" peaches, Clapp's Favorite peaches, Bartlett pears, weighing one and one-half pounds each; seven varieties of plums. All the fruit was secured from the Robert Beer orchard, four miles from the city limits. The fruit this year in the Pecos valley will be unprecedented for quantity and quality. Thousands of bushels of pears and apples are being thinned from the trees and thrown away. It is said by old timers that the apple crop will be the largest in the history of the valley. It is estimated that the crop of apples from the big Hazenman orchard, which contains 60,000 trees, will bring over \$125,000 profit, and will require about 500 men to pick and ship for several weeks. The Mexicans are the ones that are mainly engaged to do the picking, and during the picking season the vicinity of the orchard looks like a tented city.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This remedy is certain to be needed in almost every home before the summer is over. It can always be depended upon even in the most severe and dangerous cases. It is especially valuable for summer disorders in children. It is pleasant to take and never fails to give prompt relief. Why not buy it now? It may save life. For sale by all druggists.

When bilious take Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

A Missouri Fugitive Caught.—A telegram to the Denver News from Las Vegas, dated July 23, says: William Dewey, arrested here for carrying concealed weapons, turned out to be a man wanted in St. Francis county, Missouri, for murder. Dewey was arrested by a Santa Fe officer as a suspicious character.

Dewey showed fight and attempted to draw a gun. Special Officer O'Leary of Pueblo came to see him and thought he answered very closely to the description of the St. Francis murderer for whom a reward was out. He telegraphed and got an answer that Dewey was the man wanted.

The prisoner admits shooting a man, but says it was in a family feud and the shooting was justifiable. It is said that Dewey deliberately shot his victim in the back of the head.

B. H. Briggs & Co. and S. Vann & Son. ask the readers of this paper who are suffering with indigestion or dyspepsia to call on them at once and get a bottle of Kodol Dyspepsia Cure. If you know the value of this remedy as we know it, you would not suffer another day. Kodol Dyspepsia Cure is a thorough digestant and tissue-building tonic as well. It is endorsed personally by hundreds of people whom it has cured of indigestion, dyspepsia, palpitation of the heart and stomach troubles generally. Kodol Dyspepsia Cure digests what you eat. It is pleasant, palatable and strengthening.

Will Soon Return from Europe.—Word has been received from Mr. and Mrs. Edgar L. Hewett that they are at present sojourning in London in company with Mr. and Mrs. T. D. A. Cockerell. Together Mr. Hewett and Mr. Cockerell are engaged in research work in the British museum. Mr. Hewett and wife will sail for home early in August and upon arrival in this country their address will be at the Bureau of Ethnology, Washington, D. C. Mr. and Mrs. Cockerell will return to America a month later and will go direct to Boulder, Colo., where Mr. Cockerell has been elected head of the department of biology in the state university and Mrs. Cockerell will teach science in the high school.

No Pity Shown.—"For years fate was after me continually," writes F. A. Gualledo, Verbera, Ala. "I had a terrible case of Piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at all druggists."

Up for Road Tax. Elmer Cleveland, a half witted boy whose chief occupation is laying around the gambling halls and rushing the growler on a small percentage, was up before Judge O'Reilly

LAS VEGAS.

From the Optic.

Mr. and Mrs. W. B. Duncker left for St. Louis, where they will visit the World's Fair. Later they will visit other eastern cities.

Major R. C. Rankin has received a telegram from Governor Otero which announces that he and his staff will be very glad to participate in the exercises of governor's day.

Friday afternoon the home of Mrs. F. C. Davis was the scene of a happy children's party given in honor of the lady's niece and nephew, Jessie and William Bleyer of Albuquerque. It was a gay and festive gathering of little people. Merry games were played, songs were sung and delicious refreshments were served. Mrs. Davis will accompany the little ones home next week.

Mr. and Mrs. Joshua Reynolds and Miss May Reynolds expect to leave for New York, whence they will sail August 6 for Germany. Miss Reynolds will study music for several months at Florence under Prof. Whittney, the famous vocal teacher of Boston. Mr. and Mrs. Reynolds will tour Europe until prompted by inclination to return to the United States. Mrs. Dudley Dean of Brookline, Mass., who has been the guest of her parents for several weeks, will leave with them Saturday for the east.

A Free Railroad Ride for You.

The Earth is a new illustrated monthly journal, describing the Great Southwest. Its publishers generously offer nearly \$2,000 worth of free railroad rides for the best photos of Southwestern scenes, and the best letters about that region written by residents thereof.

Why don't you enter this friendly contest? Write today to The Earth, 1115 Railway Exchange, Chicago, and learn full particulars.

Mrs. Blanche F. Adkins Died of Heart Trouble.—It is the opinion of the family of Mrs. Blanche Fox Adkins, who died suddenly in Madrid, N. M., that death was caused by heart failure, as the young woman was known to suffer from heart trouble. Some mystery was attached to the cause of her death, and accounts so far received of it have failed to make the cause quite clear, says the Denver News.

Mrs. Adkins, formerly Blanche Fox, came from Omaha with her parents, who located here. Her father went into the grocery business at 305 East Twenty-sixth avenue. Miss Fox met her husband while on a trip through New Mexico three months ago, and they had been married only three weeks when she died.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her neighbors and friends about the good qualities of these Tablets.—P. M. Shore, druggist, Rochester, Ind. The pleasant purgative effect of these Tablets makes them a favorite with ladies everywhere. For sale by all druggists.

Corner on Drug Business in San Marcial.

On Tuesday an understanding was reached between C. E. Mead and J. R. Niblit whereby the Postoffice Drug store passed into the possession of Mr. Mead, says the San Marcial Bee. The transfer was made the next day. This arrangement again leaves the drug interests of the town in the hands of one firm. Both stores are to be operated by C. E. Mead & Co., the combined stock of the two stores being quite extensive and requiring a good deal of space.

What to Do Until the Doctor Arrives. If it is a case of colic or cholera morbus give Chamberlain's Colic, Cholera and Diarrhoea Remedy and you will have no need of a doctor. For sale by all druggists.

Report a Mistake.—A report has been current upon the streets of Gallup the past week to the effect that Senator Clark had disposed of his mine at Clarkville, and Dame Rumor even went so far as to say that the senator's visit here last week was for that purpose. The Republican has taken some little pains to enquire into the matter and can find no foundation for the rumor.—Republican.

For years fate was after me continually," writes F. A. Gualledo, Verbera, Ala. "I had a terrible case of Piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at all druggists."

Up for Road Tax. Elmer Cleveland, a half witted boy whose chief occupation is laying around the gambling halls and rushing the growler on a small percentage, was up before Judge O'Reilly

for non-payment of his road tax, says the Alamogordo Advertiser. Elmer swore before the court that he was only fifteen years of age whereupon the judge let him go. However, he served notice on the sherriffs to sell him no liquor without a order and also to the gambling halls to not permit him to loiter around the gambling places.

Indigestion.

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. See a bottle. Sold by J. H. O'Reilly & Co.

A Big Child Dead.

Carl Marx of Roswell aged 8 years, died suddenly Friday morning of heart failure. The deceased weighed about 165 pounds, his flesh making him noticeable in any gathering of children. His death was entirely unexpected.

Croup.

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes, and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co.

DEMING.

From the Headlight.

Miss Lena Upton has been very sick for the past ten days. The young lady is suffering from bilious fever which was contracted while on a recent visit to southern Texas.

W. T. Russell, who has been quite ill for the past two weeks, which illness was the result of a spider bite, has so far recovered that he is able to be about again and attend to business, although not well.

Mrs. E. P. Dwyer, who has been quite ill for some days past, has so far recovered as to now be able to leave her room and be about the house. Mrs. Dwyer's numerous friends in this community congratulate her on her recovery.

A. W. Pollard, one of Luna county's prominent attorneys, came in last Wednesday, after an absence of a month in Wisconsin, and a visit to the World's fair in St. Louis. Mrs. Pollard will remain with her parents in Portage, Wisconsin, for the summer. Mr. Pollard says it was delightfully cool and pleasant where he was.

From the Graphic.

F. F. Rogers met with quite a painful accident the other evening while riding out home from town. In a fit of foolishness his horse fell, and in trying to get out of the way Mr. Rogers was struck by the horse's front foot, and sustained a bad sprain of his left ankle.

A letter from Dr. Cassels states that Mrs. Cassels has undergone a successful operation in Chicago, and that it now remains to see whether another and more difficult one will have to be performed. He reports her feeling as well as could be expected, but rather weak from the effect of the operation.

Word came last week that Charles G. Moore and Miss Mayne Allen, formerly a resident of Deming, were united in the bonds of matrimony at Los Angeles. This came as a great surprise to the many friends of the young couple here, as no thought of such a thing was known to the public when Charles left a few weeks ago for his western trip.

Cheerfully Recommended for Rheumatism.

O. G. Elghee, Danville, Ill., writes, December 1, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co.

A Hotel Story.

A Kansas Editor who stopped at the inside inn at St. Louis, writes: "There are more hell boys than guests in the inn. They use 'em for change. When you give the clerk \$5 he hands you back \$2 and a hell boy. My room is a little far back for meals, but I make it nicely. I start for supper at 9 a. m., and stay for lunch on the way with a friend. I know in room 2,507. But a friend of mine who lives in room 7,649 is up against it. He got two days behind in his meals living out in the country at the rear end of the hotel. Finally he found that he was nearer Moberly, Mo., than he was to the dining room, so now he walks over to Moberly every morning."

Brutally Tortured. A case came to light that for persistent and unmerciful torture has perhaps never been equalled. Joe Golobek of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me. Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists."

The Southern Pacific roadhead from Yuma to El Paso is receiving a coat of oil. The work is nearly completed from Yuma to Tucson. Four thousand gallons of oil are required to dress a mile of track. Of course it is not necessary to oil all of the track, there being places where there is nothing but rocks on the right of way, and they do not require any oil to keep them from shifting into the car windows.

Brutally Tortured. A case came to light that for persistent and unmerciful torture has perhaps never been equalled. Joe Golobek of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me. Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists."

Wilson Kept Out of El Paso Shops.—Vice President Wilson, of the Machinists' International union, was a visitor in El Paso yesterday, from Albuquerque, where he had been for several days, and where he delivered several lectures to the strikers and their friends there. While in El Paso Mr. Wilson called on some of the local officials for a permit to visit the shops, and see the machinists, but this was refused. They feared that he would create trouble, as he is considered by the railroad officials in the west, from his connection with the recent strikes on the Northern Pacific, Union Pacific, Santa Fe and other systems as a trouble breeder, and they would not even allow him to visit the shops during the noon hour. From what can be learned here, it appears that Wilson's chief mission through this action at the present time is to get the different unions into line to hold his position with the union. Wilson has been vice president of the union for a number of years.—El Paso Herald.

WON THE BATTLE.

Pennsylvania Railroad Men Need Not Button Coats.

Trainmen of the Pennsylvania railroad, who for years have roamed around lightly buttoned coats as they worked, are to have some relief when the thermometer is around the shivering mark. Superintendent J. H. Baker has issued an order permitting conductors and brakemen to leave their coats open to the breezes on hot

Railroad Topics

Superintendent F. J. Shepard, of the Santa Fe coast lines, arrived here last night from the west.

John Franklin, the well known engineer, running from Gallup, has moved his family to the latter town to remain until fall.

Superintendent E. J. Gibson, the popular superintendent of the Atchafalpa division, arrived from the west last night.

Silas Ford has resigned his clerkship in Receiverkeeper Custer's office, and left last night for St. Louis, where he will accept a position in Uncle Sam's post office.

W. H. Moore is appointed paymaster of the Choctaw district, Chicago, Rock Island & Pacific, with headquarters at Little Rock, Ark. The Choctaw district will in the future pay its employees through the medium of a pay car.

Mrs. W. A. Moroy, of Denver, Colo., and her niece, Miss Nellie McCague, who spent Thursday night in Santa Fe, left for Denver over the Denver & Rio Grande. Mr. Moroy is a member of the engineering corps of that railroad.

The impending rate war situation between the railroads operating between Chicago and Boston for the business in consequence of the Grand Army encampment at Boston is attracting the attention of Grand Army men all over the western portion of the United States.

Russell Harding, now vice president and general manager of the Missouri Pacific railroad, and George J. Gould's chief operative official in the southwest, probably will be chosen within a few days as active head of the consolidated Pere Marquette, and Cincinnati, Hamilton & Dayton system.

George Riddle, engineer on the Denver & Rio Grande railroad, running out of Santa Fe, will leave for a vacation. During this time he will take a trip over the entire Denver & Rio Grande system. His wife, three children and niece will accompany him. Mr. Riddle has been an employee of that road for many years and the officials of the system are showing their appreciation of his services in making this trip possible for him.

Narrow Escape for Brakeman.—A subscriber, writing to The Citizen from Las Cruces, dated July 22, says: "Brakeman C. Elmerick, working on the Santa Fe rock train between Selden and Mesquite, in attempting to uncouple the air hose while the train was in motion, slipped and fell between a box car and the caboose. Luckily he struck the brake beam, which threw him out from beneath the car. He landed on his back and rolled down the bank. He recovered consciousness about an hour after being taken to the caboose."

Threaten Death to Railroad Men.

Leroy Trice, one of the best known railroad officials of Texas, general manager of the International & Great Northern road, with headquarters at Palestine, has been threatened with death in a letter bearing the signature "William Williams," "John Copner," "William Boyd." Demand is made that F. Huff Smith be discharged as master mechanic, or Mr. Trice must suffer death as the penalty for refusal. Ten days is given for compliance. The letter has created a sensation, not only in Palestine, but all over the state. The International company offered \$5,000 reward for conviction of the authors.

Three Excursions Arranged.

Governor's day of the military encampment will see one of the biggest crowds that Las Vegas has ever entertained in the city, says the Optic. Indeed, it is quite possible that the number of guests will exceed that of the Rough Rider reunion, which now holds the record. Several trains will be run from Albuquerque, Raton and Santa Fe. Colonel Twichell has secured the best rates ever granted to the city. The return fare from Albuquerque will be three dollars, from Raton two dollars, and from Santa Fe two dollars. Special rates will be given for all intermediate points, and for other railway points in the territory as well. During the whole week a one fare rate will prevail.

Wilson Kept Out of El Paso Shops.

Vice President Wilson, of the Machinists' International union, was a visitor in El Paso yesterday, from Albuquerque, where he had been for several days, and where he delivered several lectures to the strikers and their friends there. While in El Paso Mr. Wilson called on some of the local officials for a permit to visit the shops, and see the machinists, but this was refused. They feared that he would create trouble, as he is considered by the railroad officials in the west, from his connection with the recent strikes on the Northern Pacific, Union Pacific, Santa Fe and other systems as a trouble breeder, and they would not even allow him to visit the shops during the noon hour. From what can be learned here, it appears that Wilson's chief mission through this action at the present time is to get the different unions into line to hold his position with the union. Wilson has been vice president of the union for a number of years.—El Paso Herald.

WON THE BATTLE.

Pennsylvania Railroad Men Need Not Button Coats.

Trainmen of the Pennsylvania railroad, who for years have roamed around lightly buttoned coats as they worked, are to have some relief when the thermometer is around the shivering mark. Superintendent J. H. Baker has issued an order permitting conductors and brakemen to leave their coats open to the breezes on hot

days if they desire. This is the climax to a little battle. When a blazing day came a few weeks ago some of the men let their coat lapels fly to the winds. The officials did not like it and told the men so. The employees obeyed the rule with bad grace, and once in awhile broke it because they were well nigh suffocated. A committee was about to call on the general manager when the superintendent surrendered.

No More Passes to Fair After Mid-

dle of August.—A thousand or more railway employees and others accustomed to receive favors from railroads, who have been counting on getting passes to the World's Fair, will be disappointed over the action taken by all railroads centering at St. Louis. General agents and officials of all lines throughout the country have received a request from the St. Louis terminal lines not to grant any passes to any one coming to St. Louis after August 15 and in every case the request from St. Louis is to be honored.

All the general agents say that this means practically no railroad employees or others used to getting favors will be able to travel to the fair on passes between August 15 and the time the fair closes, December 1.

The agents are refusing to issue transportation to any one entitled to receive it with a limitation after August 15, so that the ban will be operative both going and coming from St. Louis.

WILL ENLARGE ROUND HOUSE.

Santa Fe to Add Ten Stalls and to Build a Tank House at Newton.

The Santa Fe is soon to commence work on an addition to the Newton, Kansas, round house, says the Kansas Republican. Some time ago it was decided to increase the capacity of the house by ten stalls and affairs are now in condition so that the work can be commenced and carried out without delay. The new stalls will be added to the east end of the house, making the building stand in the form of three fourths of a circle. The company needs the additional engine quarters very badly, as there is hardly a day that engines are not lined outside the house on account of insufficient space within the structure.

At the same time, work will be commenced on a new tank house, which will be located west of the carpenter shops. This addition, too, is very much needed and will largely help in the work at the shops. These continued additions to the company's interests will, of course, be cheering news to Hutchinson, which professes to believe that some day the shops, round house, division terminals, and all will be transferred to that point. The theory is that the more the Santa Fe builds here, the more Hutchinson will get when it is all moved.

SUIT AGAINST SANTA FE.

Women Claim They Were Ejected from Train Because Tickets Were Questioned.

Elizabeth Anderson and Katherine Collins have brought suit at Denver against the Santa Fe railroad for \$1,500 each. It appears from the complaints filed that the two ladies were traveling back from Los Angeles to Chicago, when they were forcibly put off the train of the company by the conductor, who claimed that their tickets were not good. Later his mistake was discovered, so it is claimed, and they were allowed to proceed east with the

NEWS OF THE CHURCHES

Invitation from Pope Plus.—Pope Plus X has officially invited all Roman Catholic bishops of the world to come to Rome next December to take part in the celebration of the fiftieth anniversary of the promulgation of the immaculate conception. Bishops residing near Rome are commended to come; those at a distance formally invited merely. It is said that while many will accept, many will not do so, having recently been to Rome and unable again to leave their duties. All will, however, be officially represented and there will be in Rome a solemn consistory, presided over by the pope himself. A part of the work of this consistory will be voting upon the canonization of the Curator and the blessed Alexander Sall of the Barnabite order. It is expected that their canonization will be proclaimed at this time. Immaculate conception of the Virgin Mary has been dogma of the Roman Catholic church since December 8, 1854, on which date it was proclaimed as such by Pope IX. It is that the virgin was conceived and born without original sin.

Colored Man in Religion.—The colored man is a problem in religion as in politics, and in the former his problem presses for solution in all religious bodies. A few days since appeal was made to Cardinal Gibbons by some colored people, who complain of unfair treatment in white Roman Catholic churches. The same question, in one form or another, confronts at this moment Baptists, Presbyterians, Methodists and Episcopalians, besides many smaller bodies. There are comparatively few colored people who are Roman Catholics, and the number of negroes in America who have attained to the dignity of the Roman Catholic priesthood is but two. St. Joseph's Society for Negro Missions, with headquarters in Baltimore, is an organization of secular priests, which have seminaries under their charge in Baltimore and Montgomery. They conduct missions in the archdiocese of Baltimore and New Orleans, and in the diocese of Galveston. The place of the colored man's question that causes the present trouble is said to be radical between the dominion of the colored man and the German. The same element has shown opposition in Baltimore, and even in Germany. The color line is bringing its difficulties to the Roman Catholic priests, who are studying it with care. Pope Plus X has interested himself in it.

Episcopal Bishops.—The general convention in October will be asked to create at least three new Protestant Episcopal jurisdictions. One of these will be independent, and elect its own bishops; the other two missionary and dependent upon the board of missions. The more important move, from the point of population, is central Pennsylvania, where the Episcopal church has grown rapidly within the last twenty years. It is supposed to cut the present diocese of that name in two, and to create a diocese of Hamilton and a diocese of Harrisburg. These may not be the names for general conventions make their own selections as names, but those are the districts to be covered, the Scotchmen comprising the present organization. Springfield district, in Illinois, which is to meet for the first time on August 2, to try to elect a bishop coadjutor who will accept, will again ask to be divided, and the Episcopalians of Chicago will once more be asked, in action, if not in word, to shoulder some fair share of the missionary burden of the rest of Illinois. Finally a move will be made to cut off the eastern part of Oregon, beyond the Cascade mountains, from the present diocese center. This will be a missionary district of wide extent, but it is said to be one in which the Episcopal church is making steady progress.

BASE BALL AT GALLUP

THE BROWNS WIN ONE AND LOSE ONE GAME.

On the delayed passenger train No. 2, from the west this afternoon, Manager Jesus Romero and his Southwestern Brewery company team of base ball players returned from Gallup.

The boys left the city last Saturday night for Gallup, and just before they mounted the platform of the coach at the local depot, each was supplied with a chip, which they placed on their shoulders, as indicating that they were blooded and intended, by all the trickery known to base ball, to win at Gallup, and they came very near capturing both games.

The first game was played yesterday morning, and was a stem-winder from start to finish. It was played in rattling good order, and the Gallup boys won by the score of 5 to 1. The second game, played in the afternoon, was however the most exciting and the Brewers won by the close margin of 2 to 1. The game throughout was replete with sensational plays, and old man Haggerty, of home-run fame, had been present, could write a column on the manner in which the players of the two clubs dished up base ball. The spectators were equally generous in their applause, and when a Brewer made a safe drive or yanked down a nice-scraper from the blue clouds, the crowd showed their appreciation by applauding.

Manager Romero and the players

speak in high praise of the treatment received at the hands of the fans of Gallup, and they hope to have the Gallapites here in a very short time.

POLICE COURT.

Four characters, apparently men of station in life far above the gutter (drunkard), were called before City Magistrate Crawford this morning to answer the charge of drunk and disorderly.

One not familiar with the scenes enacted in a municipal court room would be struck with amazement at the utterly impossible excuses offered by these slaves of the cup. Some will plead not guilty to the charge, when yet their breath is poisoned by the smell of liquor. Others can't remember a thing that happened; they were doing nothing when arrested, probably had drunk only a dozen glasses of beer, and couldn't possibly have been drunk. Some will offer the excuse of sickness, and probably these come nearer to telling the truth than any of the rest.

After caucusing half the night and spending the remainder of the night in the city hall, they really have a staggering appearance.

The bench this morning were given five days each and turned over to Street Commissioner Thorne. One young man who gave his name as Ed Jones, but whose right name is Wallace, was given ten days.

A young man, an A. D. T. boy, was hauled up for riding a bicycle on the sidewalk. The court looked darkly at the young man and it was feared that the usual assessment of \$5 would be the verdict. But the court's heart softened as the tears began to flow, and the miscreant was released with a good scolding.

M. D. Edgington, who was bound over from the police court for disorderly conduct, was released from the convict's camp on the same route near Las Vegas last month after serving a couple of years for perjury in a murder case. Edgington has a wife and children living in the Meadow city.

THOSE WHO RECEIVE THE MAIL TO WALK

Beginning with next Sunday there will be a change in the Sunday delivery at the post office. Instead of the people coming to the windows, marked with the numbers of the several carriers and calling for their mail, they will be required to enter the door of the office of the superintendent of mails and go to the desk of the carrier who delivers their mail on week days, where they will receive the Sunday mail. They will then pass through the department and out of the door at the other end.

It is important that persons wishing to receive their mail during the hour of delivery on Sunday shall ascertain the number of their carrier. For the first few weeks, until the people accustom themselves to this manner of delivery, there will be a number of lines from place to place.

It is thought by those connected with the post office department that the new system will prove a success. It will be much easier for the carriers as heretofore they have been compelled to walk about aggregated a number of miles Sunday mornings in the hour between 10 and 11 o'clock while delivering the mail, it being necessary for them to go from the windows to their desks to look for mail and then make delivery. This involved the covering of many miles.

The new system has been used in cities the size of Denver and larger in the past, and has been most successful. Chicago and Cincinnati have been delivering their Sunday mails in this manner for the longest time. They have had no difficulty in preserving order in the offices, which by the way, is the only thing about which Postmaster Sours is worried. "If the people are disorderly," said he, "we will return to the old custom. I am confident, however, that we will have no trouble, and will be far more satisfied with the new way than we were with the old. In this way we will, in time, probably be able to use only half of the carriers on Sunday, giving the others a day's vacation, and alternate, thus making things more pleasant for all."—Denver Republican.

Postmaster Hopkins informs The Citizen that the above scheme has been in operation at the local post office for the past year, and the credit of its inauguration, therefore, does not belong to either Chicago or Cincinnati, but to Albuquerque.

PIONEER CATTLEMAN DEAD.

Michael Slattery, one of the best known cattlemen in the west, died at Las Vegas Thursday morning at 82. Bright's disease caused his death. In 1867-68 Slattery drove a stage and freighted from Kanab City to Denver. In the year following he came to Las Vegas. For twenty-five years he was manager of the vast land and cattle interests of the late millionaire William Wadsworth.

Slattery and Wadsworth were the greatest of friends, and no accounting of their business affairs was kept. When Wadsworth died Slattery, who had grown wealthy, found himself without a line to show his interests in the vast estate, or his claims for uncollected commissions and salary of \$10,000 a year. Of the many thousands which represented his real interest Slattery could get through the court only \$4,000 and died poor. No cattleman in the west was more popular.

Killed at Joplin.—Word reached Las Vegas that Frank C. Barney, son of Mrs. George Hutchinson, a proprietor of the New Optic hotel, was killed by a train in Joplin. The young man served for years in the postoffice at Las Vegas and went to Joplin to become assistant postmaster.

Ernest Rappold.
AMERICAN WORKMEN.

TOILERS IN OUR FACTORIES.

NO workmen in the world can do as much or use the same intelligence that our own American workmen and women are capable of. That is why America is now leading the world in manufactures; all due to the brain and muscle of our Yankee men and women.

Unfortunately where there is smoke, dirt and dust and little sunlight there also can be found the germs of disease. Nature's great disinfectant is sunlight. Sunlight and fresh air promote the growth of animals and plants but kill germs of disease. Air, free from dust, such as we have on the sea, never permits the germs of disease to have any chance for growth and development. It is in the factory, the workshop, the office, that men and women suffer from diseases which are in the dust and the bad air. Such disease germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy active condition, the germs of disease cannot find a resting place there to multiply. Disease of the lungs, bronchitis and consumption, are very apt to spread through a factory where there is much dust in the air. The lungs become irritated and the germs find a

fertile field for growth. Extreme weakness, feeble nerves, nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put the system in the very best possible condition right away.

After years of experience in an active practice, Dr. Pierce discovered a remedy that solved these conditions in a blood-purifier and tissue-builder, which at the same time alleviates the cough. He called it Dr. Pierce's Golden Medical Discovery—an alterative extract that assists in the digestion and assimilation of food in the stomach—so that the blood gets what it needs for food and vitality, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine. If, however, any part is weakened or out of order, the whole system is affected. Dr. Pierce's Golden Medical Discovery is a blood-purifier and tissue-builder, which at the same time alleviates the cough. WEEKLY CROP BULLETIN

Santa Fe, N. M., July 26.—The week has been cool and showery, the temperature averaging about 3 degrees daily below normal, a welcome change from the heat of the previous week. Frequent local showers occurred, heavy in localities, and a marked improvement has resulted in the condition of crops, range and stock, also in the tone of reports from all parts of the territory. It is apparent that the protracted drought has been broken.

Wheat, corn, alfalfa, fruits and vegetables have been greatly revived. Wheat cutting has begun in northern districts and the quality is above early expectations. Corn is tasseling in southern counties, and the crop generally has taken on new life. The first harvest of alfalfa is under way in some eastern districts, while less favored northern sections are still cutting first or second. Some forage crops will yet be planted. Gardens are greatly refreshed, and in many parts are again doing well; early potatoes are good in San Juan county, and lettuce shows promise well.

On the ranges too, the showers have wrought a great improvement; grass is again growing finely in eastern districts, and starting well in western. It is reported better in eastern than in western, than in any part since 1901. Water holes are again flowing, and the present range condition is gratifying; east of the mountains winter feed is practically assured. Cattle and sheep show corresponding improvement.

Apples are making a fair growth and now give greater promise of a crop. Berries, early apples and peaches are on the markets. Northern grapes will give a fair yield, peaches a light one.

The following extracts are taken from the reports of correspondents:

Albany—H. M. Hanson—Numerous showers throughout the country, light in places, heavy in others, generally great improvement; shearing finished and clip not so good as usual, rainfall 0.5 inch.

Alamogordo—U. S. Weather Bureau—Crops doing well; rainfall 0.30 inch.

Angus—G. I. Bradford—Fine rains during last week; cattle fat, crops look good.

Aurora—J. C. Lucero—Good, showers and just when needed badly, prospects good for more; grass and crops looking nice again.

Bell Ranch—C. M. O'Donel—Range conditions better than at any time since 1901; still harvesting third crop alfalfa, yield good; rainfall 0.57 inch.

Bloomfield—W. A. Balingier—San Juan River very low, only water for domestic purposes; wheat, potatoes and second crop alfalfa practically assured; small showers here and in mountains.

Conkey—A. G. Marrow—Good rains during week, harvest on 2nd; stock in fair condition.

Cleveland—Daniel Cassidy—Second crop of alfalfa will be good; oats and corn growing fast. Heavy rains every day.

Deming—C. B. Burdett—Indications of rain in surrounding country; rainfall here 0.48 inch.

Elizabethtown—Geo. E. Beebe—Good rains, range in fair condition; good prospects for potato crop.

El Paso, Texas—U. S. Weather Bureau—Temperature about two degrees a day below normal; rainfall 0.46 inch.

Payson Hot Springs—T. C. McDermott—Good showers, and more indicated; cattle losses continue, but hopeful that worst is over.

Fort Wingate—John Woodgate—A heavy rain on 20th, followed by shower on 21st, did range much good. More rain would improve prospects for stockmen and farmers. Rainfall 1.50 inches.

Folsom—Jackson "Abe"—Good to cold thunder storms. A doing well. Precipitation 1.93 inches.

Gallinas Springs—Jas. E. Whitmore—Rains of week have started pastures and everything looks better; very late for crops but will try some forage feed; rainfall 1.43 inch.

Gillette—Anna Cox—Good heavy rains; crops and range improved greatly.

Glorieta—Geo. A. Viles—Very heavy rains during the week; grass coming nicely; cloud bursts in few instances, but no serious damage.

Gallina—Gavinio Chavez—First cutting of alfalfa being made and much less than usual yield; surrounding country has been having rains, but grass is starting slowly, and some crops are still without much pasture.

Hobart—W. H. Hoagh—Frequent showers; wheat cutting begun, quality better than expected; corn growing finely, also alfalfa, vegetables, etc. fruit prospects better; grass-hoppers doing some damage.

Hood—F. M. Cook—Light rains early in week, but not enough to do much good, fair stage of water in river, early potatoes good yield, late potatoes well, corn doing nicely, alfalfa well up with work; early potatoes on market, light yield; apples making nice growth and promise well; also plums, but pears will be light.

Laguna Vista—Several showers, very favorable prospects; grass growing nicely, winter feed now assured; stock losses will stop and eventually correspondingly pleased.

La Jara—Ernest S. Swift—Good heavy rain on 21st, also several light showers.

Los Alamos—Wm. Frank, Jr.—Good daily showers, grass on range growing fast and water holes filled; cattle and sheep improving; shearing delayed by rains.

Las Vegas—Wm. Curtis Bailey—

Two hard rains and several showers; vegetation and crops look much better; a cool week; rainfall 2.06 inch.

Luna—J. J. Hale—Weather cloudy and favorable for rain; crops mostly ruined, and little grass, but no loss of stock yet; with good rains cattle will come out all right.

Los Lunas—Chas. F. Jones—Good local showers. Wheat cut and being threshed. Grain is plump and heavy and yield better than expected. Good second crop alfalfa assured.

Maxwell City—Wm. French—Nice rains this week; grass starting everywhere; rainfall 1.07 inch.

Mescalero—J. W. Prude—Good rains almost daily; drought seems broken; crops are late because of dryness; probably 5 per cent of cattle and 10 per cent of sheep lost; calf crop may be over 50 per cent; lamb crop about 40 to 50 per cent; prospects for good hay yield, but very little grain.

Miera—Frank Myers—Good heavy rains during week; grass growing nicely; shearing done, with light clip; all kinds of stock getting fat; crops doing well.

Mineral Hill—W. M. Nelson—Good rains throughout the week; some hail two miles west on the 19th.

Mogollon—W. Irvin Moore—Good showers latter part of week; grass coming slowly; gardens doing well.

Mountainair—John W. Corbett—Conditions greatly improved. Cool, damp week, with steady downpour at intervals and night of 24th. Heavy rain on the 21st from Chupadara, north-west to Willard and good local showers throughout this section. Rainfall 0.30 inch.

Ojo Caliente—A. Joseph—Considerable rain has fallen in this section during the week and crops are looking quite promising; fruit yield will be no better average; grass on range growing nicely and outlook is good for stock feed next winter; farmers and stockmen jubilant.

Pease—Aniceto Bustamante—Good rains every day the past week.

Retiro—Louis Champe—Good rains first of week, and light showers since; corn and vegetables making good growth; corn beginning to tassle. Gila river has been high for several days, indicating good rains in mountains.

Ribera—R. Ortiz—Light showers during week; corn, wheat, alfalfa and grass in good condition.

Rose—Samuel Dean—Good showers every day; grass beginning to start; stock showing slight improvement; the little grain planted is growing slowly, too late to mature; irrigated grain doing well.

Russia—J. B. Curtis—Heavy general rain first of week, besides several showers; prospects good for crops.

Soboyeta—Callisto Montoya—Heavy rainfall in this section during week; grass starting nicely; corn doing well, but wheat partial failure; gardens flourishing.

Sapello—M. A. D. Rivera—A cool, rainy week. Crops in fine condition. Several soaking rains during afternoons and nights.

San Rafael—Chas. M. Urover—Crops look good, everything growing nicely; heavy rains on mountains to north, east and west, and arroyos were filled; stockmen jubilant; rains are widespread, fall at this station 0.21 inch.

Santa Fe—U. S. Weather Bureau—Cool week, temperature averaged 2 degrees daily below normal; light daily showers greatly benefitting range and crops; frequent heavy rains over mountains, increasing water supply and relieving apprehension of shortage; heavy rains reported on foothills and in valleys to north and west filling streams and arroyos and causing washout on Rio Grande railroad a few miles northwest of city; raspberries and early apples are on local markets; rainfall 0.35 inch.

Twining—A. Hend—Crops on dry land greatly improved; beneficial showers recently; grass making a good start; wheat and alfalfa look good.

Vermejo—R. W. Adams—Thunder showers have improved outlook, but makes it difficult to care cut alfalfa; rainfall 0.68 inch.

Wagon Mound—R. T. Mace—Heavy rains during week; grass on meadows growing fast; cattle and sheep doing well; shearing practically done.

Watrous—M. C. Needham—Best growing week of season; second cutting of alfalfa will be up to average yield; range in good condition; stock putting on flesh; rainfall 1.75 inches.

White Oaks—John A. Brown—Light shower the 19th; good showers 20th and 21st; probably one-half of timber dead from long drought; grass beginning to grow.

Wagon Mound—J. L. Gunn—Stock doing well. Cool week with frequent showers and one heavy rain.

CHARLES E. LINNEY,
Section Director.

Mimbres Hot Springs.

W. H. Ernest, proprietor of the Mimbres hot springs, was in Silver City last Tuesday and Wednesday of last week. Mr. Ernest says there are a number of guests at the springs from Santa Rita, Deming, El Paso and other nearby points. Extensive improvements have been made at the springs since Mr. Ernest took hold of the property. The springs have been cleaned out and walled up, a new corral and other outbuildings erected, and plans are now under way to erect a hotel which will fit the needs of this resort, which is destined to become very popular under the efficient management of Mr. Ernest.

Fire at El Oro Mine.

A very destructive fire occurred at the El Oro mine at Andrews at about 12 o'clock Sunday night, says the Hillsboro Advocate. The shaft house two boats, the mine stables and a number of ore wagons were consumed. As the fire under the boiler had been banked since 11 o'clock Saturday morning, the origin of the fire is a mystery. The collar of the shaft was only slightly injured. We have not been able to learn whether the property carried any insurance.

RED AFRICAN NEGROES

ALSO DENSELY BLACK PYGMIES FROM THE DEEPEST FORESTS HAVE BEEN ADDED TO THE ANTHROPOLOGICAL COLLECTION.

(By Paul Grant Hutchings.)

St. Louis, July 25.—Those who imagine that the anthropological exhibit at the World's fair is nothing more than a collection of Indian trinkets and Egyptian models in plaster should visit the tent of the South African Pygmies, the latest arrivals to the great collection of living curios. There are many other peoples represented in the reservation lying to the south of the Model Indian School, but the little black men are the most noteworthy, because this is the second time in the history of the world that any of their race has been induced to leave his native land.

As long ago as the time of Herodotus it was known that in the heart of Africa there were people of small stature, and the great historian tells us that the Egyptian soldiers feared them because they were fleet, crafty, deadly and, and made use of poisoned arrows. His account of the black pygmies was looked upon either as a fable or as a story of some long extinct race, until Paul Du Chailly, fifty years ago, re-discovered them as the Bushmen or Hottentots in his report of the inhabitants of south-central Africa, this French traveler obtained for himself the name of Manichausen, the Second, because he told not only of small people, but of large monkeys. The stories of the gorilla were considered the wildest kind of lies. However, later explorers proved that all of Du Chailly's accounts were based on actual fact.

The man who first verified his stories was Schweinfurth, the great German explorer. Some fifteen years later, two of the Pygmies were taken to Italy, where they lived as faithful servants and were studied by many anthropologists. They never returned to their native land, and when Mr. Vernor, the industrial missionary, went among them he had a deep-seated prejudice to overcome.

Three years ago he brought over a member of the Batetola tribe, who is not a pygmy, but belongs to the aristocratic or full grown Congo race. This man, whose name is Kondolo, studied at Tusculum college and returned with Mr. Vernor both as an interpreter and as a guaranty, that natives who came to America could go back alive. The Bantu language is common to all the Congo natives, although each tribe has its peculiar dialect, and Kondolo can converse with all of them.

In the section from which the group at the World's fair was brought, there are three distinct classes of natives. The first of these are almost as tall as the average American, and are very black. They are aristocrats, and of their number is King Ndombe, who is recognized by the government of Belgium as paramount chieftain under King Leopold, and who, in a country where Belgium could be lost a hundred times, is obeyed as supreme monarch. The other variety of full-sized natives is the most remarkable in all Africa. Their color is far more nearly red than is that of the North American Indians. For many years the red African negro was considered a "work of fiction," but Mr. Vernor really found him.

The third class is composed of several wild and tame tribes of pygmies. Among the wild ones are the hairy creatures that rarely grow to be more than three feet high, and are only one step removed from monkeys. All the wild pygmies are hunters, killing even lions and elephants. The tame ones are farmers and the chief articles of trade between the two classes is salt, which is given in exchange for anything.

The tame pygmies occupy the position of servants or vassals to the taller Congo people, and few of them ever grow to be more than four feet high. They are called Batwas, and they have many of the characteristics of the old-time darkeys whose blood was comparatively unadmixed with that of the Caucasian. Their noses are flat and their lips are thick. With their retreating forehead, incessant jabber and ready imitation of all they see and hear, they remind one of hairless monkeys.

Mr. Vernor had sixteen of the Batwa people, including men, women and children, ready to bring to America, but while he was waiting for the steamer he was seized with malaria, and this gave to the natives the impression that he was under the influence of the evil spirits, so that he was a person to be dreaded. Then they were so terrified at the sight of the ship that all but four ran away to the woods. Those who remained are all men. One of them, Arilla, who is a cannibal, and has the sharpened teeth of his tribe, has learned to say to the visitor, "Oin cick, show teeth." This morsel of English he accompanies by an impressive outstretching of the hand that usually elicits the coveted coin. In return he is no longer than the ordinary boy of seven, yet he is 25 years old, and has a wife and two children who ran away to the woods, but before the steamer sailed for America. One of his clever tricks, in begging for money, is that of addressing the ladies as "mamma," a compliment that is not always appreciated by the feminine visitor.

A more important person than either Kondolo, the educated interpreter, or Arilla, the little cannibal with the epileptic teeth, is the crown prince of the Congo, eldest son of King Ndombe. Those who were so fortunate as to see the crown prince of Nam in the full regalia of his rank should not miss an opportunity to see this other dilapidated monarch. His robes of state consist of a pair of dilapidated blue overalls, a faded cotton shirt and a black slouch hat. His mansion is a tent which he shares with half a dozen other South African natives, all of whom were his father's servants at home.

Like the Pygmies, he has learned

to beg, and a very small coin will send him here feet tripping over the dusty ground in the merriest of dances. He is a very black boy, out for a lark, and is having the time of his life. There is but one thing he fears, and that is a kodak. The sight of one of those mysterious black boxes is sufficient to drive him to his tent in a state of panic. One lady, who was particularly anxious to get his picture, offered him a quarter of a dollar to pose for her. As he reached for the coin he caught sight of the kodak and to an instant he comprehended what she had been trying to tell him. Springing back into the shadowy doorway of the tent, he cried:

"Throw 'way," with a violent gesture towards the fence, "throw 'way! Take nick, take man, throw 'way!" Then for ten minutes he tantalized the lady by raising the flap of the tent, posing himself and then letting the flap down each time she raised the camera to a level with his face. Finally she went away in disgust, and the prince came out, lighted a cigar and began to beg for nickels as before.

"FROGS IN UNDERGROUND LAKE."

Two very important finds have just been made in the Three Bears property in the Jarilla camp, says the El Paso Herald.

The Three Bears is being developed by F. B. Schermerhorn, who returned last night from a trip to El Paso and this morning he verifies the report.

The main shaft on this property is now down to a depth of about four hundred feet. The last sixty feet of this depth was through badly decomposed quartz and iron ore of very low grade. The values of the ore are in the gold, silver and copper.

Last night at the bottom of this shaft large quartz boulders, showing bismuth, copper, and copper glance, were found, which ran rich in gold.

The last ten feet of this formation is a loose porous formation in which live frogs were encountered, which, when brought to the surface were found to be blind. This formation also carries a large percentage of water, which kept the frogs alive. The fact of the discovery of the frogs is considered of great importance, as it has never been known to fall in the past that when frogs are found in the earth water is soon encountered and then the solid ore body is found. It is expected in this case that water will be reached within the next ten or twenty feet.

The finding of frogs at this depth in the earth is accounted for by old miners from the fact that many underground lakes have frogs in them and frequently in the course of ages these lakes are practically replaced by some formation, that is frequently carried into the lakes by the water. The frogs in the water have no other place to go and consequently live as long as there is moisture, which practically means for all time.

This phenomenon has been reported from a number of the old mining camps in the past. Tombstone, it is said, was one of the nearby camps in which frogs were encountered just before the water level was reached.

THEY WILL TAKE VACATION.

Like most people who can afford to take an outing in the summer and get away from the heat of the city, Tom Ganado and Ellis, the famous blanket weaver, and children will leave in a few days for the Navajo reservation for a month's vacation from the industrial rooms at the Alvacado curio.

Tom is bidding his friends good-bye and telling them about his home on the reservation. Besides Ellis, Tom has four wives living on the reservation, and in as many hogans on the desert in Arizona, little Ganados tumble on the smooth dirt floor, dreaming in the sun, creeping through the cracks in the wall.

Tom is a big man on the reservation. Speaks the voice of the pale face, and has many sheep and ponies. When home last summer, Tom entered many of his people, and told them of the wonders of the city. This time he will have much more to tell. Last spring Tom attended a prize fight at the Sunny Side. Later he attended the carnival, and saw the serpent and the other Oriental dances. It was a show to see him explain these things to his family. What will it be to see the reservation Indians when he tells them of these things? Antonio and his wives still remain behind and entertain the tourists and make blankets for the millionaires and princes. When Tom comes back, Antonio and his large family will go for a rest among the hills and the unconventional bliss of the reservation.

Again Open Sheep Ranch.

Flitzger Moore, who at one time owned a large cattle ranch near El Paso, was in Alamogordo, negotiating for the purchase of 1,000 head of sheep. At one time Moore was worth \$100,000, but lost much of his fortune in litigation. His intention is to buy a flock of sheep and take care of them himself in an endeavor to regain the money he has lost.

Effect of Drinks.

It is said that the effect of intoxicating drinks is such as to make a Frenchman want to dance, a German to sing, a Spaniard to gamble, an Englishman to eat, an Italian to boast, an Irishman to fight, an American to make a speech and every one to make a fool of himself.

Poisoned Food Caused His Death.

Nathaniel Gaird, a prominent ranchman of James Canyon, is dead of poisoning, the result of partaking of infected food. The deceased was aged 27 years, and was highly respected. Intermment was made in the James Canyon cemetery.

O. W. Strong's Sons received a letter this morning saying that their father is quite ill at Los Angeles.

SCROFULA

Swollen glands, tumors, white swelling, sores, pustular or scaly skin eruptions, flabby muscles, brittle bones, weak digestion, emaciated, ill-nourished bodies, are some of the well-known earmarks of Scrofula. Scrofula is inherited. Parents too closely related by the ties of blood, or tainted with consumption or blood poison, may look for signs of Scrofula in their children. The middle-aged often have it, but children are the chief sufferers. Scrofula breaks down the vital forces, and the blood becomes so weak and poor that it does not nourish the body. The remedy in all scrofulous affections must be one that purifies the diseased blood, builds up the appetite and gives new energy and strength to all life's forces. No medicine has won so much fame as a blood purifier as S. S. S., and its tonic effects upon the system are not equalled by any other remedy. It makes the weak, tainted blood rich and strong, and drives out of the circulation all tubercular deposits and morbid matter that cause the glandular swelling, sores, abscesses, tumors and other horrible symptoms that make Scrofula so dreaded and dangerous.

Write us fully about your case. Medical advice will cost you nothing. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Monday will show an increase. The situation is still a nervous and unsettled one. So much of the recent demand for cash wheat has been to fill July shorts; that both the speculative conditions and the cash situation are uncertain and somewhat obscured. While we are doubtful of cash wheat reaching the September price very soon after the July option is out of the way yet we are inclined to think cash prices may at that time take a slump. An export demand is out of the question but millers' bins are probably empty and at least a fair milling demand is likely. However, for the moment without the advent of further political influences we rather think prices are a little enough and that some further reaction may take place. The best local sellers of yesterday were evidently replacing wheat at today's decline.

Department of the Interior, United States Geological Survey, Reclamation Service.

Washington, D. C., July 13, 1904.

Mr. C. H. McLenathien, Carlsbad, New Mexico.

Dear Sir:—Your letter of June 27, to the honorable, the secretary of the interior, has been referred to me for reply.

I also have a long letter from Francis G. Tracy, one of the principal members of your club, and president of the Pease Irrigation company. Inclosed herewith is a copy of my reply to him.

We will give consideration to your protests against further development of irrigation on the Pease, and should be glad to have any additional data upon which to base a recommendation to the honorable, the secretary of the interior. Very truly yours,

F. H. NEWELL,
Chief Engineer.

Market Letter.

Special Correspondence.

Kansas City, Mo., July 25.—In spite of the strike, receipts of live stock at Kansas City last week were just about the same as during the same week last year. After the break in cattle prices last Monday, the run lightened up, resulting in strong markets each day up to Friday. The news of the second disagreement between packers and union men caused the market to flatten out, and by the close Saturday, prices for all kinds of killing cattle were down to Monday's basis again. The supply today is 4,000 cattle, and the market is strong to 10 cents higher. The packing plants had more men working today than at any time in the last two weeks. Armour and Swift bought cattle freely, and outside orders for good cattle were numerous. Shippers should bear in mind that handy weight steers and good butcher stuff is what is wanted, and that common cleft and canners cannot be sold at reasonable prices. Beef steers sold to \$5.90 today, grass westerns are worth up to \$6.10, best heifers, \$5.00, cows \$4.25, grass heifers \$3.50, cows \$3.20, real calves \$4.75. Demand for stockers and feeders has been small, but as the strike conditions seem to be getting no worse, it is believed, country buyers will soon take hold and in a short time the usual volume of business in this line will be moving. Prices now range from: \$2.75 to \$4.50, most sales at \$3.90 to \$5.75. Grass Texas steers bring \$3.75 to \$4.40, from killers.

Hog prices were up and down last week, and were at the worst Saturday, following the second walkout of the strikers. Today, on a supply of 1,000 head, the market gained strength all the time, closing 20 to 25 cents above Saturday, with a top of \$5.35, weights below 200 pounds up to \$5.25 and bulk of sales at \$5.15 to \$5.30. More than 4,000 hogs were shipped from here last Tuesday to small slaughterers all over the country. Under present circumstances, 5,000 to 7,000 hogs per day is plenty for this market.

Not enough sheep and lambs have been coming to arouse much competition among the packers. Country orders have been numerous, and sales of stock and feeding sheep were numerous during the week at \$2.50 to \$3.25. Two or three shippers of Idaho and Nevada mixed sheep came in and sold to killers at \$3.75 to \$4.00. Spring lambs brought up to \$5.85, native wethers \$4.20, ewes \$3.75.

Grain Letter.

Chicago, July 25.—Wheat—Higher cereals, Lower Liverpool and large primary receipts were the cause of the decline in market at opening but after that there was steadiness for the deferred futures. July wheat, however, continued to decline under actual liquidation. Cash markets all around were generally easier. With the exception of scattered complaints of rust in South Dakota spring wheat reports are generally satisfactory. It is quite likely the visible supply on

BILLY SMITH'S WIFE SUFFERS HORRIBLE DEATH

IS BURNED WHILE TRYING TO FILL A GASOLINE STOVE THAT WAS STILL IGNITED, AND DIES IN AGONY.

Mrs. Anna May Smith, wife of Detective "Billy" Smith, of 1905 Wyoming street, died in great agony last evening at 6 o'clock as a result of having been burned while lighting a gasoline stove at her home. From her knees to her waist, Mrs. Smith's body was a mass of charred flesh, while her shoulders were also badly burned, says the El Paso Herald.

Half an hour after extinguishing as she thought, the flames of a gasoline stove, Mrs. Smith began pouring the contents of an oil can into the reservoir of the stove. But the flames were still lit and the burner leaped up and caught her clothing.

The flash blinded and bewildered her, and in a moment she felt the fire burning her body. Running to the bath room she turned on the water, but while she was endeavoring to extinguish the fire at one place on her body, the flames were burning her flesh in other places.

Eventually the water rose in the bath tub and Mrs. Smith lay down, and succeeded in extinguishing the flames, but not until she had been fatally burned.

She was still lying in the bath tub when neighbors, attracted to the scene by her screams, arrived and lifted her to a bed. Dr. W. H. Anderson was summoned and the wounds were dressed.

In the meantime her husband, who was on duty at the police station, arrived and with three little children, drove with Mrs. Smith until a. m. died.

Mrs. Smith was but 22 years of age when she died. She was a daughter of Mr. and Mrs. Daniel McDevitt, Mr. McDevitt now being employed as pumpman for the El Paso & North-eastern a. s. line.

She was born at Wellsville, O., and had been living in El Paso about seven years, and was married here to Mr. Smith shortly after her arrival.

The funeral service was held at the church of the Immaculate Conception this morning at 9 o'clock after which interment was made in the Catholic cemetery at Concordia.

REAL ESTATE TRANSFERS. 1

Notwithstanding the absence from the city of a large number of people and the usual stagnation of business during the hot weather, the register of deeds at the court house shows that there has been much doing in real estate.

The following transfers were recorded during the month of July:

July 1.—H. H. Tilton to the Socorro Warehouse & Implement company, lots 8 and 9, block 4, P. Armijo and Brothers' addition, \$1.

July 1.—John S. Noel and wife to John M. Moore Realty company, two pieces of land in precinct 13, \$2,500.

July 5.—Noa Hield, trustee, to Ma. Garcia de Armijo, lot 6, block 2, Northern addition, \$100.

July 7.—Albuquerque Cemetery association to Rev. J. H. Reid, east 3 1/2 of lot 87, section 19, Fairview cemetery, \$24.

July 11.—Mrs. E. A. McNeal and husband to James Englehart, lots 2, 3 and 24, block 2, Barea addition, \$1,300.

July 14.—M. W. Fournoy and wife to M. K. Wylder, lots 24 and 25, block 20, Original townsite, \$600.

July 15.—Co-operative Building & Loan association to Helen Clark, lots 1 and 2, block E, Baca and Armijo addition, \$1,900.

July 16.—Co-operative Building & Loan association to William N. Phillips, lot 17, block D, Park addition, \$10.

July 20.—Thos. N. Wikerson to Mary Lavette, lot 8, block M, Atlantic and Pacific addition, \$400.

July 23.—John S. Noel and wife to H. H. Tilton, lots 4, 5 and 6, block G, Mandell B. and R. addition, \$100.

Ellie A. Cantrell and husband, James Gummer, lots 1, 4, 5, 10 and 11, section 7, townsite 9-N, R. 3 E, \$1,750.

July 25.—John Muller to Martha W. Mulligan, lots 11 and 12, block N, New Mexico Town company addition, \$600.

July 26.—Nottichen Schuster et al to H. H. Tilton, lots 13 to 22 inclusive, block 19, P. Armijo & Otero addition, \$2,500.
