Weekly Albuquerque Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY SEPTEMBER 10, 1904.

NUMBER 38

PROF. ELWOO MEAD WILL VISIT ALBUQUERQUE

Last night Col. Twitchell received word from Washington from Prof. Elwood Mead, chief of the bureau of irrigation and drainage investigation of the department of agriculture, that he would be present on October 11, to address the New Mexico irrigation congress on the subject "Irrigation in Italy and the United States." He will come as a representative of the Hon. James Wilson, secretary of agriculture. Hon. B. S. Rodey most materially assisted in securing this mark of governmental recognition of the New Mexico irrigation congress. Mr. Rodey also received a message from Prof. Mead confirming to the message to Col. Twitchell.

Prof. Mead's address will be delivered on the night of October 11, at the opera house and the general public, in addition to the great concourse of delegates, will hear the most entertaining lecture on irrigation in the United States. Prof. Mead has an international reputation and the people of New Mexico are indeed highly honored by this official recognition of the congress by the general government in sending him here.

Col. Twitchell, who is the executive chairman of the congress, is most enthusiastically over the prospect of a big meeting. He is particularly desirous that the city should be represented in the deliberations of the congress and to that end will endeavor to secure a large local membership. He says we want no drones or honorary members—what we need is intelligent, earnest workers in the cause of irrigation—scientific irrigation, so that the lands may become of productive value; so that immigration will increase and our cities build up as has happened in all the states where systematic methods have been applied. Albuquerque should have, at least one hundred members. You don't have to be a farmer in order to belong to this congress.

GUN FIGHTER HAS HAND ON TRIGGER

OLD FUED RENEWED AND FRIENDS OF BOTH PRINCIPALS ARE UPON THE VERGE OF AN OUTBREAK, BUT RANGERS PREVENT.

John M. Johnson, known as "Shotgun" Johnson, attacked El. Priny, while the latter was drinking at the bar of the Queen hotel at Douglas, Arizona, and unmercifully beat him over the head with a slushooter.

The affray was the outcome of a similar encounter in Bixbee August 7, when Johnson pulled his gun and attempted to "do up" Priny in the latter's saloon. Priny whipped Johnson at that time.

Tuesday the trial of Johnson, charged with assault with a deadly weapon, came up before Justice of the Peace Johnson at Douglas, who withheld a decision.

The men, skin, they met at the Queen bar, resumed the quarrel. Priny is in a precarious condition, and talk of more bloodshed is heard. Captain Rynning, Lieutenant Brooks and Private Peterson of the rangers are on the ground to prevent a possible clash between the friends of the men.

Priny and Johnson held deputy sheriff's commissions, but these have been recalled by Sheriff Lewis. Priny conducts a saloon in Bixbee, and has a large following among the cowboys in this section. He conducts Wild West shows during the winter. Johnson formerly held a commission in the Indian territory as a secret service man, and has several notches on his gun. Johnson is said to have killed a Mexican while the latter was under arrest here two years ago.

INDIAN SCHOOL NOTES

A full corps of employees are on hand with the exception of one teacher.

A large number of new faces are seen among the force of employees this year.

About 225 children were present on the opening day and were assigned to their classes. This is the largest enrollment, on opening day, for a number of years and indications are favorable for a successful year's work.

Chief Hasente, one of the leading Navajo chiefs, was a visitor at the school yesterday and he says that some more of his people will enter the school in the near future.

Indian Inspector, Chiltercraft, visited the school this week. He was on his way to Salem, Oregon, to take charge of the Indian school near that place. Superintendent Allen is visiting the day schools in the Laguna district and making arrangements for their needs for the coming year.

Superintendent Architect Charles is expected here in a few days. He is coming to confer with the superintendent about changes to be made and new buildings to be built. It is expected, after his arrival, that the work of building and repairs will be pushed along to completion as quickly as possible.

Our full program will be announced officially the coming week," said Col. Twitchell. "The highest grade of irrigation symposium will be presented to the congress and the people of Albuquerque must lend every aid to its successful outcome."

"Hon. Geo. H. Maxwell will deliver his address at the opera house on the evening of October 12, and as at all other meetings of the congress, the public are invited to be present. Mr. Maxwell is a most brilliant and enthusiastic speaker, having five equals in the country. He is a thinker, an orator and in irrigation matters is the most enthusiastic man in the United States."

"Inasmuch as the great National irrigation congress will meet at El Paso but one month later than ours, the deliberations here are of the greatest significance. If New Mexico wants anything from congress or the reclamation service, it is to our interest to make those who want known through our congress and by proper representation at the congress at El Paso. New Mexico should send at least 500 people to the El Paso congress."

A numerous delegation, properly equipped, can do much there, for there will be a big representation from all over the world.

JOHN DUNNING WAS DEPUTY SHERIFF

Yesterday afternoon John Dunning, the strike breaker, appeared before Judge Baker on a writ of habeas corpus requesting his release from bond on the charge of discharging firearms in the city limits. The court granted the writ, stating that Dunning was acting in the capacity of a deputy sheriff when the shots were fired.

Dunning was bound over to the grand jury in Justice Crawford court a short time ago under \$500 bonds. In the police court Dunning's attorneys made no defense, but yesterday produced witnesses to show that he was aroused out of bed to stop an assault on a striber.

As stated before Judge Baker said, in granting the writ, that Dunning was not liable under the charge on account of his being a deputy performing his duty.

PROBATE COURT PROCEEDINGS

MATTERS OF INTEREST BEFORE JUDGE JESUS ROMERO.

At the recent session of the probate court the following cases came up and were taken care of:

Anteio Ayala, alleges that Charles P. Hunt and Amado C. De Bana have failed to distribute \$3,000 collected on an Indian depredation claim due the estate of Sandoval, among the proper heirs. In this case Probate Judge Romero ordered that the above named defendants be cited to appear before the court, October 3, and show cause why the \$3,000 had not been distributed according to the will of the deceased.

The court approved the final supplemental report of the estate of George P. Macomber, and ordered the final report in the estate of Henry Harrison to be heard on October 3.

Micaela P. Botter was appointed executrix of the estate of Gertrude Garcia de Post, and the will of the deceased proven and admitted to probate.

The will of Lucian Divan was presented for probate and the hearing of same set for October 2.

Natividad Montana, administratrix of the estate of Lorenzo Montana, submitted his final report and was ordered to appear at the first meeting of the court, October 3.

The last will and testament of Henry B. Houston was filed and approved.

The petition of Ida E. Johnson asking to be appointed administratrix of the estate of Gustav Johnson, deceased, was approved and the administratrix ordered to furnish a bond of \$1,000, which bond was filed and approved.

Joseph Romero de Sandoval presented a petition to be appointed special guardian of the minor children of Hilario Sandoval, deceased, for the purpose of selling certain real estate interests. The applicant was ordered to furnish a bond of \$100, which bond was filed and approved.

John Siebert as administrator of the estate of Ross Siebert, deceased,

made a report which was filed and approved. The court then adjourned to meet October 3.

California's Birthday Today.

San Francisco, Cal., Sept. 9.—The thirty-fourth anniversary of the admission of California into the union is being observed today with the customary festivities. Several cities of the state are celebrating the anniversary on a large scale, but by far the largest gathering is at Oakland, where the Native Sons of the Golden West are holding their annual celebration. Hundreds of the visitors who have been attending the Knight Templar convocation in this city went to Oakland this morning to take part in the festivities there.

Writers in Convention.

Milwaukee, Wis., Sept. 9.—Members of the Wisconsin Press Literary association, which is composed of about 120 newspaper and magazine writers of Wisconsin, held their annual convention in Milwaukee today. President Nelson D. Roberts of Milwaukee presided. The convention considered the project of establishing a manuscript bureau and discussed various plans for the improvement of literary work.

MOVEMENTS IN REAL ESTATE

THE MARKET QUITE ACTIVE FOR MONTH OF AUGUST.

August 1.—Frank Vio and wife to Antonio Ortiz, lot 5 block 14, P. Armijo y Otero addition, \$180.

August 2.—Catherine L. Fields to Edgar T. Fields, lot 1, block 27, Highland addition, \$300.

August 3.—M. P. Stanton and wife, to Margaret Scott, east 1/2 of lot 19, 20 and 21, block D, Park addition, \$250.

August 9.—Andrew C. Bond and wife to Mrs. Drewery P. Beckham, lot 5, block 15, Eastern addition, \$150.

August 10.—Non filed, trustee, to Amanda M. Crookston, lots 1 and 2 block 8, Northern addition, \$125.

August 12.—Clara J. Baldwin and husband to G. Olson, lots 13 and 16, block 8, P. Armijo y Otero addition, \$500.

August 16.—O. N. Marrow and wife, to Margaret Roldombridge, lot 2, block 5, Lewis and Simmonds addition, \$1.

August 20.—Non filed, trustee, to C. P. Clark, lots 12, 13 and 14, block 2, Northern addition, \$150.

August 22.—Adolph Doerr and wife to Henry Hunsing, lots 9, 10, 11 and 12, block G, Atlantic and Pacific addition, \$500.

August 22.—The John M. Moore Realty Co. to Geo. L. Brooks, lots 1, 2 and 3, block 17, Original Townsite, \$1,500.

August 23.—E. A. Brown and wife to Richard Lewis, lot 6, block B, Ithaca and Armijo addition, \$1,000.

August 26.—Mary Swanson to David J. Herron, lot 14, block D, Park addition, \$200.

August 27.—John Bolivar to Martha J. Gunnell, lots 7 and 8, block S, Original Townsite, \$250.

August 29.—Ella D. Conditine to W. L. Edgar, south 100 feet of lots 3 and 4, block 27, Original Townsite, \$250.

August 31.—Nell B. Field and wife to Lizzie Speight, a piece of land near Old Albuquerque, \$500.

August 31.—Arthur Everett to Annie Everett, lot 10, block 6, and 50 feet adjoining lot 16, P. Armijo y Otero addition, \$1.

EL PASO UNION DEPOT

CONTRACT LET FOR THE CONSTRUCTION OF THE NEEDED BUILDING.

From El Paso News.

General Superintendent Simmons of the El Paso & Southwestern, who is also vice president of the Union Depot company, has just returned from a visit to Topeka, the headquarters of H. M. Hudger, who has charge of awarding the contract for building the much talked of and long looked for union depot in El Paso.

Mr. Simmons announces that the contract has been let to M. M. Rock, a Houston contractor, his bid being the lowest—so much lower than those put in by the El Paso firms that it was impossible to consider the latter.

No time has been set for the commencement of work, but this will be set just as soon as the contracts and bonds have been drawn up and signed. The building is to be a handsome one and will cost in the neighborhood of \$250,000, though the contract price has not yet been given out.

Mr. Rock's contract will cover the construction of the building complete, except for the steam heating, which contract was let to a Chicago firm.

The property necessary for the making of a new street leading into the depot has all been condemned and nothing now remains to keep the building from being rapidly pushed to completion.

THE LEWIS AND CLARK CENTENNIAL

Special Commissioner J. P. Marshall on a Visit to the City.

WILL OPEN AT PORTLAND, IN 1905

J. P. Marshall, special of the Lewis and Clark Centennial at Portland, Oregon, in 1905, is in the city, and was a pleasant caller at this office this afternoon. In a talk with Mr. Marshall, the following interview was obtained:

"The Oregon people are persistent in advertising and placing their exposition before the public early and constantly. I am here to arouse an interest in the exposition among the Albuquerque people. When the exposition opens to the public in 1905 it will be the attraction of the year, and it will be international in character."

"The foreign governments," continued Mr. Marshall, "will upon the closing of the St. Louis fair move their magnificent exhibits to Portland. The Oriental exhibit will possibly be more elaborate, the commissioners from Japan having already visited the grounds and selected their space."

"The United States government has selected its space upon which to expand the \$475,000 appropriation in suitable buildings, etc., in which to place the exhibits which are now installed at St. Louis."

"Oregon itself has appropriated \$450,000, and the city of Portland \$125,000. California has a large appropriation, and Governor Parke has visited Portland and selected \$2,000 square feet for California's exhibit. New York, Massachusetts, Missouri, Montana, Idaho and many other western and eastern states have made liberal appropriations for the purpose of erecting state buildings and placing their exhibits."

"No provisions, so far, have been made for New Mexico's exhibit, while it has a very handsome one at the St. Louis fair which could at no great expense be moved to Portland at the closing of the World's fair this fall. It should also be increased, as it is quite important that New Mexico's exhibit should be in the front rank with the balance of the western states from the fact that while the exhibit is attracting a considerable amount of attention, it is hardly possible that this territory could derive as much benefit as from an exhibit at the Portland fair, for it is the eastern people whom we desire to attract, and but very few come further west than St. Louis. It will be different with the Portland fair, as it will draw from the eastern states, and visitors going to and especially returning from the fair, if attracted to do so, will take advantage of stop overs and investigate the southwest sections, and that is what these exhibitions are given for."

Mr. Marshall will remain in the city a couple of days and then he goes to Santa Fe to consult with Governor Otero.

COOK'S PEAK KILLING

HERMAN WALLACE SHOTS AND KILLS JOSE DELGADO.

Special to The Citizen.

Dunning, N. M., Sept. 7.—Day before yesterday, at Cook's Peak camp, Herman Wallace and a native named Jose Delgado, got into a bitter controversy, which resulted in Wallace pulling his gun and shooting Delgado three times. Wallace came to Dunning, reported the shooting to the sheriff, gave himself up, and has been placed in jail.

Word reached Dunning last night that Delgado is dead.

Wallace is a grading contractor, and has been living in Dunning for some time. He is in his employ. As far as can be learned both men were drinking and Delgado became very abusive and threatening.

TRACTION COMPANY DOING BUSINESS

Albuquerque's new street railway was put into actual service this morning. As early as 7 o'clock the ditty of the alarm bell rang merrily on the car of the early runner, and probably disturbed some of the late sleepers. Two cars have been running today, giving good service. They have been operating the entire length of the road from Atlantic avenue to Athletic park, a distance of over two miles, and with the exception of one or two instances, nothing hindered continuous traffic.

The Albuquerque Traction company's office in Old Albuquerque has become a very busy place. It has the likely appearance of a metropolitan street railway office. Conductors and motormen in blue uniforms and white caps pass in and out the straining

doors, and water car crows loaf in the office lobby.

Superintendent M. O. Chadbourne is a very busy man, and F. A. Stortz, his able assistant, is not in the least idle. Duke B. A. H. Lounsbury has been appointed passenger and advertising agent for the company.

G. M. Hancock is track foreman, and his son-in-law, J. B. Payne, has been employed as boss carpenter.

The car crews are as follows:

No. 1.—Conductor, W. C. Woodward; motorman, D. P. Demarest.

No. 2.—Conductor, B. E. Shultz; motorman, M. Ellison.

No. 3.—Conductor, M. A. Raper; motorman, B. Hopkins.

No. 4.—Conductor, R. B. Winkett; motorman, Frank George.

E. C. Allen is consulting engineer.

FAIR CAR IN SANTA FE

COMPANY SENT OUT BY THE TERRITORIAL FAIR ASSOCIATION DOING EFFECTIVE WORK.

The advertising car of the New Mexico Territorial Fair to be held in Albuquerque October 19th to 15th, inclusive, made its appearance in Santa Fe yesterday afternoon at 2:30 o'clock coming from Corralito and Madrid, where short stops were made. The car this year is fitted up in the best possible style. Last evening Billy Berry and party, who have charge of the advertising work, gave a vaudeville and musical entertainment in Adams hall, under the auspices of the "Blue Lodge No. 460. The room was crowded to its capacity. The program opened with a selection by the Harry Devine orchestra. This was followed by a song "I've Got a Feeling for You," by Mrs. Rosa Berry and Joe Lewis, the young colored comedian, who has made a hit with every audience before which he has appeared. Lewis, who is not more than sixteen years of age, has a bright future before him and he will not go far before he finds a place with one of the better classes of musical shows. He was obliged to respond to an encore, which he did of tactfully. Following an overture by the orchestra, Mrs. Rosa Berry rendered several song selections and played her own accompaniment on the piano. In her rendition of "It Don't Boon Like the House Old Smile," she was at her best and won the hearty applause of everybody in the room. Joe Lewis gave a graceful exhibition of luck and wing dandy, which demonstrated that in time he will be leader in the art. One of the features of the evening was a Chinese song with Chinese harp accompaniment by Mrs. Rosa Berry. She secured the instrument in the Orient several years ago. Although but a few years of age Mrs. Berry was far more than a year connected with the government band of Honolulu in the Hawaiian Islands. She is the author of the opera "Chrysanthemum," which made a hit several years ago. The entertainment closed with a selection by the orchestra. The chairs were then cleared from the room and dancing was indulged in until the wee small hours. The advertising car left this forenoon at 10:10 o'clock for Las Vegas. The routing from the Meadow City is as follows: Watrous, Wagon Mound, Raton, Trinidad, Estancia, Torrance, Santa Rosa and southeast, then north.

NEW AUTOMOBILE LINE

A MOVEMENT ON FOOT TO CONNECT TORRANCE AND ROSWELL.

There is a movement now on foot by a few of our progressive citizens of Roswell to connect Torrance and Roswell by automobile line. In a few days the parties interested will go over the route and arrange at once for the necessary improvements in the road way. The line of road contemplated is on the road that runs between ranches 22 and 24 east, due north for about thirty miles. Then in the vicinity of Cave Spring to view to the west and take the line to Torrance about in a due northwesterly direction. The road to be taken will make the distance to Torrance about 100 miles. Large and powerful machines will be purchased, and the road the entire distance will be put in the best possible condition for speed. One vehicle will leave Torrance and one will leave Roswell each morning. The regular time schedule will be about seven hours, and under prevailing conditions the trip could be made in four hours.

This line will result in great economy of time and expense for all whose business calls them to the towns west of us. Passengers and express packages will be carried at the lowest rate consistent with the service furnished.

It is now confidently expected by those who have the undertaking in hand to have the line running in a very few weeks.—Roswell Record.

THE JAPANESE ARE WONDERFUL ATHLETES.

The Japanese are acknowledged to be the most daring and graceful acrobats in the world. In Japan athletics is encouraged, fostered and recognized by the imperial government. The mikado bestows upon those who are most proficient medals and tokens in recognition of feats of strength or some daring exploit. Certain days of the year are set aside for athletic sports, and the most intense interest is taken in these "fete days" by the inhabitants of the Flowery Kingdom. There is a troupe of twelve of these wonderful acrobats with Campbell Brothers Circus, which exhibits at Albuquerque on Saturday, September 17, that have toured the world, appeared and performed before all the crowned heads of Europe. This is their first appearance in America, and wherever they go they are greeted with unbounded enthusiasm by their marvelous performance. Circus day will open wide a gorgeous and brilliant street parade at 10:30 in the morning.

It is desired that all members of Harmony lodge No. 1, I. O. O. F., attend our meeting tonight. Arrangements will be made to entertain the grand lodge.

The annual report of the Colorado & Southern railway will be issued in a few days, and according to the officials it will show the road to be in excellent shape. While nothing definite has been announced at the headquarters of the company, it is said that many extensions and improvements are being planned, and that they will be undertaken during the coming year.

ON ESTABLISHMENT OF ANOTHER GAS PLANT

Mr. J. A. Jones of Chicago, Ill., is in the city looking over the prospects for establishing an industrial. The reporter met Mr. Jones and learned his business was the establishment of a modern gas plant and making the price of gas such that everyone can use it—the poor as well as the rich.

Mr. Jones made the following statements in reference to gas:

"For cooking purposes one thousand feet of gas equals nineteen hundred pounds of coal or one ton. It gives from 10 to 30 per cent more product on meals to put on the table than either coal or wood. A family using gas can sleep forty minutes later mornings and have breakfast at the same hour that it could be had if either coal or wood were used."

"For heating purposes it reduces the price of coal to three dollars a ton, less the ash, kindling and dirt. A uniform heat of the house that will not vary over two degrees from the time it is turned on in the fall until it is turned off in the spring. An instantaneous heater gives hot water any hour of the day or night, without heating the entire house. Gas at a price solves the servant question."

"A modern gas company will furnish twenty times the light of an electric company for the same money, minus the alternating current, that affect the nerves of the eye and is the cause of so many people wearing

glasses. It is the cheapest and best power known, save one—water. At a price that people can afford to use it enters more into the household than any other proposition that can be introduced in your city."

"A better gas takes two hundred pounds of coal for two cents."

"The universal use of gas reduces insurance; it is a sanitary measure, being the best germicide known."

"The secret of good cooking is saving the flavors and the nutritious value of the food. Roast beef loses 25 per cent in weight when cooked by either coal or wood, 18 per cent when cooked by gas, and saves the best, the nutritious element and flavors of the meat."

"Carroll D. Wright, labor commissar, at Washington, D. C., March, 1902, issued a circular showing the increase of cost of the production of coal for the last thirteen years: Anthracite stove, 27.4 per cent; bituminous stove, 43.7 per cent. Gas has decreased owing to the loss of the by products."

Mr. Jones is around among the merchants today and his talks on cheap gas and electric light will no doubt be instrumental in the establishment of such a company as he represents in this city.

"Competition is the life of trade," and as everybody in Albuquerque is desirous of another railroad, let's have another gas company."

REGISTRATION BOARDS FOR GENERAL FLECTION

APPOINTMENTS RECENTLY MADE BY BOARD OF COMMISSIONERS.

Precinct No. 2, Alameda, Melitina Martin, Maximo Chavez, J. B. Carvajal, house of Melitina Martin.

Precinct No. 3, Rancho de Albuquerque, Daniel Martinez, Rogelio Yrizar, Ambrosio Sandoval, house of Daniel Martinez.

FOURTH ANNUAL FIREMEN'S CONVENTION

WILL BE HELD IN LAS VEGAS—MANY PRIZES OFFERED.

The fourth annual convention and tournament of the New Mexico Association of Firemen will be held at Las Vegas October 4, 5 and 6. Secretary A. M. Duitelbach of Santa Fe has just received the following program of events as arranged by the local Las Vegas committee:

Tuesday, October 4.

7 to 8 a. m. Calling convention to order.

Address of welcome by Mayor O'neal of Las Vegas; response by President Ruppe of the New Mexico Firemen's association.

2:30 p. m. Exhibition of apparatus, etc., by the east and west side fire departments.

Wednesday, October 5.

10 a. m. Convention.

2:30 p. m. At Gallinas Driving park.

Dry Toss.—First prize, \$75; second prize, \$37.50.

Ladder Climbing.—First prize, \$15; second, \$10.

Single Coupling.—First prize, \$15; second, \$10.

Thursday, October 6.

1:30 p. m. Contest at park.

Championship Wet Test.—First prize, \$100; second, \$50.

Team Coupling.—First prize, \$25; second, \$12.50.

100-yard Race.—First prize, \$25; second, \$12.50.

There will be a smoker and grand ball and other events for the entertainment of the visitors.

PLENTY OF FISH

Delegate Rodey informs The Citizen that he secured the following big list of fish from the government for the streams and ponds of New Mexico:

Bass, 5; Trout, yearling, 30,275; Rainbow Trout eggs, 44,380; Black Bass, yearling, 4,750; Rock Bass, yearling, 8,600; Black Spotted Trout, yearling, 5,000; Black Spotted Trout, fingerlings, 180,000; Strawberry Bass, yearlings, 200; Catfish yearlings, 200; Brook Trout, yearlings, 25,000; Crappie, yearlings, 400.

Train Wreck.

Charlotte, N. C., Sept. 8.—Four women passengers and three train men were killed and about thirty-five persons injured in the Seaboard Air Line wreck at Catawba Junction, S. C. First reports of the wreck received here stated that eleven were killed. This upon careful investigation proves exaggerated.

Five cars and the deeper of passenger train No. 41, from Portsmouth to Atlanta, went through a high trestle over a small stream. An extra freight following the passenger piled in on top of the wreckage a few minutes later. Sixty feet of trestle was carried away. Subsequently it was discovered, according to an officer of the road that some person had loosened the rail connection at the trestle.

Foot Ball Work Begins.

Kalamazoo, Mich., Sept. 9.—Candidates for the 1904 foot ball team of Kalamazoo college rounded up here today preparatory to going to Gull Lake, where they will put in two weeks at practice under the direction of Coach Clapp. There is much promising material from which to select this year and Coach Clapp believes that Kalamazoo has a good chance of first foot ball honors among Michigan colleges aside from

THE STORY OF SILVER

The story of silver is told in the decline and fall of the civilization of what was once an almost universal coin—the Mexican silver dollar—in a recent issue of the *Harvard Quarterly Journal of Economics*, by Prof. A. Platt Andrews.

The cause of the worldwide circulation of this coin lies in the fact that for many generations Mexico was the great silver producer of the world. The discovery of this continent dates to 1500, 80 per cent of the world's supply of the white metal came from the mines of Mexico and Spanish America. This coin had also the good fortune to escape debasement almost entirely. Between 1497 and our own days its metallic content declined less than 6 per cent—an almost unprecedented fact in monetary history.

The approaching extinction of this dollar as a medium of international use has been due to the enlarged output of silver and its debasement in the gold-silver world. In Japan the Mexican silver dollar has been driven out, and in the Philippines the new American silver peso (pronounced in gold, and therefore inconvertible) is rapidly supplanting the Mexican dollar, and it is unnecessary to say the situation is very similar in Porto Rico.

CARE OF THE BRAIN

Mental breakdowns are by no means rare, and the public, reading of a brilliant brain worker with intellect out of order and nervous system wrecked, is prone to blame excessive mental labor for his plight. The professional have furnished many instances of these mental breakdowns and letters and science and art have contributed victims.

That overwork will overtax the brain and play havoc with the nervous system is clear, but it is not so much the quantity of work as the methods of working, and the habits attending the periods of overwork, that cause the break.

Patient and busy the brain tells on its capacity increasing with the tasks laid upon it. All that the brain needs is physical health to supplement it, good food and muscle, sound sleep and a good appetite. To obtain this good food, he must eat the food that puts red corpuscles in it, and avoid the unwholesome, if wholesome, foods that are so tempting to the whimsical taste. Lack of sleep and lack of exercise act directly upon the brain, to its detriment, and both will exact the penalty of mental breakdown, in time, if made habitual.

Food that tries the digestive organs, stimulates and narcotics, irregular habits of eating, clothing that interferes with the free circulation of the blood—all these things interfere with the sensitive organ of the brain.

To sleep undisturbed, to eat sensibly, to avoid drugs, tobacco and whiskey, to be regular in habits and systematic in work—these things being attended to, will insure, in most cases, against mental breakdowns. The brain will not stand for abuse any more than the body will. After the physical precautions have been taken, the next thing to do, is to eliminate the habit of worrying.

SOME FAMOUS BATTLES

Not since Sedan, says the Kansas City Star, has there been a battle comparable in the number of troops engaged to the struggle now in progress on the plain of Liao Yang. In fact, within the last century there have been only three other battles involving 400,000 men—Leipzig, Sedan and Koniggratz. This is apparently about the maximum number of soldiers that modern methods can set against each other.

Though Napoleon was prodigal in his use of soldiers and through his battles were far more important than the present struggle on the eastern edge of the world, he happened only once to be engaged in a contest involving as many men as are now fighting about Liao Yang. The victory of Austerlitz was won with 70,000 French against 84,000 allies, and that of Waterloo with 169,000 French against 110,000 Austrians. The "grand army" which invaded Russia numbered 400,000 men. But in the great battle of the invasion, Blucher, only 257,000 were engaged on both sides. When the emperor was defeated at Leipzig he had 150,000 men to 230,000 with the allies. At Waterloo he fought with 120,000 men against Wellington with 85,000 and Blucher with 50,000 additional.

The numbers engaged in the Crimea were not large and while a vast aggregation of men were under arms in the Civil war, they were widely scattered. About 150,000 men fought at Gettysburg and in the final advance on Richmond Grant had 150,000 to oppose to Lee's 70,000. In the Austro-Prussian struggle in 1866 the forces were concentrated, and in the final battle of Koniggratz 400,000 men were engaged.

The two great battles of the Franco-Prussian war were Gravelotte, where 150,000 French were defeated by 200,000 Germans, and Sedan, where MacMahon commanded 150,000 men against 200,000 of the enemy. Since that September day, thirty-four years ago, the fortunes of war have not brought into battle so many men as are now fighting under Kuroki, Katsura, Oku and Noda.

GIVE THE BIRDS A CHANCE

Col. Isaac W. Brown, "the Bird and the Man of Indiana," says that if the people of New Jersey could get plenty of the right kind of birds to help them, the mosquitoes would soon be eaten up. "Swallows and purple martins," he says, would rather feed on mosquitoes than anything else. As between the Smith system of digging ditches to drain the marshes and pouring coal oil in the pools, and the

Brown proposition to allow the birds to do the work, most people would prefer the Brown scheme.

Colonel Brown is a naturalist who believes in the theory that "every bird has its use." The English sparrow is the one exception, as it kills few insects and spends most of its time fighting birds that do. The quail is the great enemy of the Hessian fly, that does such great damage in the west to the wheat crop, but instead of being protected for the good service it renders to the farmers, they are propagated to furnish sport to a few city runners for a week or two in each year.

DESPERATE FIGHTING

The fighting at Liao Yang has been all records for desperate valor of assailants and invincible stubbornness of defenders. The whole history of warfare tells of no such bombardments, no such carnage and no such persistence. Day after day the fight was resumed at daybreak and kept up with hardly a moment's intermission until after midnight.

War scarred veterans scarcely believe the stories which come from the seat of war and declare that it is beyond human endurance for an army to fight without respite for a whole week each day of which extended its professor in intensity of the struggle and carnage of slaughter. Day after day thousands of dead bestrewn the battle field had to be removed. The Japanese have invented new methods to incinerate the heaps of their dead comrades, removing the ashes for honors of burial in Japan. The wounded present the most serious problem as they tax the transportation capacities on both sides to the limit.

Never has such a bombardment been known. An eye witness to the battle of Vauquois told the Associated Press that many officers suffered nervous prostration following the terrible roar of the artillery, and one military attaché had to be evacuated home for the same reason. Yet the artillery fire at Vauquois was far inferior in intensity to that at Liao Yang.

RESULT OF A SANE FORTN

According to the figures gathered by the Journal of the American Medical Association, the situation against the toy pistol has resulted in a large decrease in the number of deaths from tetanus caused by accidents on the Fourth of July. Last year there were 415 fatal cases of tetanus. This year the number has fallen to 195. As usual the vast from the blank cartridge proved the chief agent in conveying the disease. Seventy-four deaths resulted from wounds by wads, and eighteen from those by cannon firecrackers. In the celebration last year blank cartridge wounds caused 258 deaths.

The decrease is undoubtedly due to the spread of information first printed in the medical journals and then exploited in the newspapers as to the cause of tetanus and as to methods of treatment. As a result of this diffusion of knowledge, vigilance was passed in many towns regulating the use of explosives on the Fourth of July, and prohibiting the employment of cannon crackers, toy pistols, and blank cartridges. Attention was also called widely to the need of a thorough surgical treatment of all wounds penetrating deep into the tissues.

It may fairly be assumed that those preventive measures saved at least 200 lives on last Fourth of July.

EXPORT OF MANUFACTURES

Figures just issued by the department of commerce and labor show what has never before happened in the history of this country. Of the exports from the United States during the month of July manufacturers formed 48.27 per cent of the total. As compared with agricultural products, manufacturers exceeded them by \$5,000,000, the latter reaching a total of \$10,000,000, while the former were \$15,000,000. In the month of June the figures were \$42,000,000 for manufacturers and \$37,500,000 for agriculture. In the month of May, 1904, for the first time manufacturers exceeded agricultural products in exports, while during the three months of May, June and July, 1904, the total value of agricultural products exported was \$105,502,193, while the total value of manufacturers exported in the same period was 150,785,769.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & Co., Toledo, O. Sold by leading druggists. The "Take Hall's Family Pills for constipation."

Gov. R. B. Stewart, of 506 West Railroad avenue, gave a trolley ride to about fifty children this afternoon. The governor and his juvenile guests started at the Alvarado and made an entire tour of the new street railway.

EDITORIAL NOTES.

The pay roll of the United States navy is \$200,000,000 a year.

Security in the auditing place of the husband of a prominent woman.

David B. Hill and Alton B. Parker, it is said, are going to retire from politics at about the same time.

In two hundred years Muhammadism has not produced a man whose biography is worth reading.

Candidate Dolan declares that his vote will surprise the people. It certainly will if these polls say votes at all.

Under President Roosevelt's administration the prestige of American diplomacy is recognized throughout the world.

With each side declaring that the other has no campaign funds, the prospect of an honest election are excellent.

The twelfth United States census shows that the average annual yield of butter per cow throughout this country is 125 pounds.

Prof. Pietering believes he has discovered evidence of the existence of vegetation on the moon. He may yet locate the green cheese.

White ranches are disappearing and the star is becoming a landless article, so that the days of cheap beef are probably over for keeps.

Labor conditions are not satisfactory in the United States and will not be until some way is provided for the arbitration of differences.

The democrats want the office to be held by a man who is not in a position to do any good.

The Rango says that "Haton is a city of 2,000 population, and with the exception of Albuquerque is the most progressive town in New Mexico."

The Rango says that the city is only costing about \$25,000 a month, and that they can keep up that much of an outlay indefinitely.

The republicans of this city and county are solidly united and will wipe up the opposition at the November election by at least 2,000 majority.

The world has been told that the day of big battles at close quarters was over, but the events transpiring at Liao Yang show this to have been a mistake.

The same party that is denouncing President Roosevelt as a "War Lord" today denounces Abraham Lincoln as a tyrant and an enemy of the republic four years ago.

J. H. Crist, of Monrovia, has arrived at Santa Fe, where he has opened democratic headquarters, he being the chairman of the democratic territorial central committee.

The Duluth News-Tribune says that it takes a man with literary leanings, and an unimpeachable record, to give a newspaper man "straight tips" on how to run his journal.

Although American sewing machines cost twice as much in Constantinople as the European, more than two-thirds of the 10,000 sold there in 1903 were of American make.

The Journal pretends to be a republican paper and at the same time denounces the republican party of this country as a gang. That sheet is a newspaper political frank.

In the vaudeville business alone 150,000 persons earn a living in the United States. All told something like 150,000 persons gain a livelihood from the amusement stage in our country.

Some one has discovered that 947 different ways of going to the World's fair have been employed. Some others have discovered that there is just one way of going home from the fair.

If one could have a cent the first day of the month, two cents on the next day, four cents the next, and so on, doubling the amount each day, he would have nearly \$1,000,000 at the end of a month of 31 days.

There is no more show for Parker and Davis than there is of turning day into night. At the same time we must have something to talk and write about, and most papers will devote a great deal of space to the election between now and the 8th of November.

Such a thing as a Quaker democrat was never known in all history, says an Indian member of the secret explaining why he really must decline to gratify Tommy Taggart's yearning for his vote. Bave for moments of aberration when they go off and vote the prohib ticket, Quakers are always republicans.

One difference between the giant red wood trees of the United States and the giant eucalyptus of Australia is that the redwoods require almost a century to attain any really remarkable growth, while the eucalyptus attains a great height in a few years, and is more typical of a weed than of a tree.

Chicago grows less and less attractive to persons who have money to invest in new industries as well as to those who follow the trades. A city that is in the turmoil of later troubles from one year's end to another, and which has thousands of strikers on its hands constantly, is certainly not an inviting place to live in or in which to conduct a business or follow a craft.

There is one thing to be said of the democratic party. When it flops, it flops all the way. In 1896 it threw overboard all the conservatism it had acquired in a hundred years and flung it to Bryan and populism. Now it has flopped just as hard the other way—into Rogers for a sickle-stealing candidate, to Wall street for its "naming director," and to the Standard Oil company for its executive committee.

Wireless telegraphy having rendered cable cutting obsolete, the naval electricians have been trying to accomplish an analogous result by interrupting aerial telegraphy between an enemy's stations. The experiments are said to have demonstrated that not only can the communication be effectively interrupted, but the instruments can be disabled by the electric currents emanating from the instruments of the interfering party.

Outdoor Cooking

We have had a book prepared by a practical out-door cook, which gives many good suggestions and receipts for cooking, building fires, care of camp, etc., and will prove of interest and help in camping, cruising, hunting and on the mine and ranch. We will mail a copy, without charge, to any of our patrons. Write for copy of "Mine and Ranch," to

PRICE BAKING POWDER CO.
CHICAGO.

RUSSIANS AND JAPS

IGNORE EACH OTHER—RUSSIANS AND FLOWERY KIDGOM MEN PERFORM IN CIRCUS—CAMP BELL BROTHERS REFUSE TO RELEASE TWO COSSACKS WHO WANT TO HELP CAAR.

Russians and Japanese marching together without any show of hostility or probability of a battle, is one of the daily occurrences with Campbell Brothers' circus which exhibits at Albuquerque on Saturday, Sept. 17.

These foreigners are well aware that there is trouble between the two nations, in fact, two of the Russian Cossacks wish to assist in the assistance of the "White Guard" but Campbell Brothers can't see it, and will not release them. The Cossacks and the Japs are frequently seen looking at one another in an unloving sort of a way, but they never know when the other fellow is talking about them and the confusion of tongues at Hales yet has its advanced side. The Arabian athletes joke fun at their foreign brothers who are at war, and the circus company's interpreter is kept busy answering questions and explaining the war situation in the far east, as the news of battles and conflicts come through the newspapers.

Open Golf Championship.
New York, Sept. 6.—In addition to the entries and officials there was a small army of golf enthusiasts about the Links of the Balfour Golf club, at Summit, N. J., today on the occasion of the opening of the amateur championship tournament of the United States Golf association. The presence of so many onlookers was evidence of the keen interest taken in the event.

Niemczurek, the French statistician says that less than 20 French citizens possess estates worth more than \$10,000,000, while those who are worth over \$2,000,000, but under \$10,000,000 number about 100.

According to the federal census, there are only 51,000 divorced persons in the United States. That's because the divorcees marry again before the census man can reach them.

Business failures in the United States for the week ending September 1 number 186, against 156 last week, 162 in the like week of 1903, 135 in 1902, 169 in 1901 and 154 in 1900.

Eugene Duba, the socialist nominated for president, will go to the Pacific coast this month. He has agreed to stop in Albuquerque and make a speech to the socialist club.

KILL THE COUGH AND CURE THE LUNGS

WITH **Dr. King's New Discovery**

FOR CONSUMPTION, BRONCHITIS, AND ALL AFFECTIONS OF THE THROAT AND LUNGS TROUBLE, OR MONEY BACK.

this year's competition, an interest that has not been equalled since the sport was introduced in America. This interest is due in part to the fact that several foreigners are entered in the tournament, which gives a possibility of the American honors of the United States being carried abroad in the same manner that the American player, Walter J. Travis, went to England last spring and captured the British championship. With such American experts at the game as Travis and William Adams the participants it is certain that the foreign participants will be able to give the American players a good fight.

Today and tomorrow are given up to the medal play rounds (18 holes). The medal play rounds will be completed Thursday and Friday and the "back" on Saturday.

The chief end of man, according to the chronic kicker, is his feet.
Hatter is not always a strong point in favor of a boardinghouse table.

Some people wouldn't even pay a compliment without asking for a receipt.

The female shopper doesn't have to go to the exchange desk in order to change her mind—Philadelphia keeps on.

HON. WILLIAM JENNINGS BRYAN

WAS HERE FOR A COUPLE OF HOURS LAST NIGHT AND WAS HONORED.

On the front steps of the Alvarado, where on May 6, 1904, President Theodore Roosevelt spoke and was heartily cheered by a multitude of people, William Jennings Bryan, the twice defeated democratic presidential candidate, last evening spoke to 200 people.

His coming having been heralded to the public by the press yesterday, local followers of the democracy and a couple hundred of curious people were at the station to meet train No. 1, on which the silver tongued metalist was to arrive.

Hon. H. B. Ferguson, O. N. Marron and others greeted Mr. Bryan from the train, and to the large dining room of the Alvarado. Mr. Ferguson broke bread with Mr. Bryan and his wife and children.

In the lobby the great orator presented the hand of all who cared the honor and then spent for fifteen minutes at the front of the hotel. Although he has declared to at least a half dozen newspaper men after leaving Omaha that he was on a vacation and would not talk politics, the first word Mr. Bryan uttered last evening was against President Roosevelt's Philippine policy. However, he did not dwell any length of time on what the republican administration has done that he thought was wrong, he managed cleverly by humor to elicit a little applause from the crowd.

During the latter part of his talk he referred sarcastically to his own young age at the time he was nominated for the presidency in comparison to the advanced age of Senator Davis, the present patriarchal democratic nominee for the vice presidency, but before closing the speaker apologized for this reference, saying that the venerable Davis does not look as old as he really is. Mr. Bryan did not mention Mr. Taft's millions or that telegram which Parker sent to St. Louis.

After a adjourn of an hour in the city, Mr. Bryan left for the Grand Canyon and California.

REGISTRATION BOARDS

PROBATE CLERK SUMMERS SAYS BOARDS WERE APPOINTED ACCORDING TO LAW.

This morning the Journal contains an editorial headed "The Higher Law," alleged to be inspired by Summers Burkhardt, a democrat, which is pronounced by Probate Clerk Summers false in every respect. On the subject of appointment of registration boards for the general election, the editorial in the Morning Journal says:

"An inquiry at the office of the clerk of the board gives us the information that the county commissioners have not held a meeting during the last two weeks, etc."

Mr. Summers says this paragraph is not true. The board of county commissioners held a meeting on the 1st of September and appointed the registration boards of the several precincts according to law.

BONES FOUND

UNCOVERS HUMAN SKELETON AT THE GRAND STAND ON FAIR GROUNDS.

While excavating to place braces under the grand stand at the fair grounds yesterday, workmen uncovered a human skeleton. The entire frame was taken from the earth piece by piece and laid out just south of the grand stand. It was the skeleton of an adult, but whether an Indian, native or white man, none who view it could tell, although the speculations made were many. Some hinted that it might be the lost clue to a tragedy of the early days of Old Albuquerque, or might be only the bones of one of the many criminals executed in time gone by at the county jail and buried in the valley near by. However, the remains were taken in charge by the proper authorities and given a decent burial.

Mrs. Montague Stevens and son George are expected to visit Albuquerque in about two weeks, and will remain here for about a month. This will be Mrs. Stevens' first visit from her ranch home in western Roberts county since some time last year.

LOCAL PARAGRAPHS.

From Saturday's Daily Citizen.
Attorney H. B. Holt of Las Cruces is registered at the Alvarado.
J. H. Archuleta, the school superintendent of Sandoval county, is in the city today on business.
J. E. Schmitt and son, formerly of Durango, are in the city looking around with a view to locating.
Otto Mahr, of the Alvarado news service, has returned from a vacation of two months duration spent east.
Max Levy of Levy Brothers, stock brokers, who in Las Vegas this morning to remain over Sunday with his parents.

The Italian band will give one of those delightful Sunday evening open-air concerts at the city park tomorrow evening.
Price Jones, who was at Santa Fe on a visit to relatives and friends, passed down the road for El Paso this morning.
Frank M. Jones, of Santa Fe, well known here, came to from the north this morning, and will spend a few days in the territorial metropolis.
Mrs. F. G. Pratt and children, Mrs. W. H. Mente and son, and Mrs. E. H. Mente and family have left Long Beach, and are now at San Diego, California.

Miss Anna and Cora Boyles of Trinidad, who spent several weeks in the city guests of their sister, Mrs. L. T. Delaney, of 502 Kellner avenue, have returned home.
The new weekly paper, "Sunshine," made its bow to the public this morning. It will be published every Saturday. Charles R. Carter is the publisher and editor.
Simon Stern, the Railroad agent, who went to Chicago and other eastern cities to purchase the latest fall and winter styles, is expected home Monday night.
W. J. Carlwell, manager of the Mutual Benefit Life Insurance company in New Mexico, left yesterday for San Francisco, where he will attend the territorial convocation of the Knights Templar.

James G. McNary, the editor of the Las Vegas Optic, came in from the north on the delayed passenger train this morning, and is spending the day in the territorial metropolis. He will return to Las Vegas this evening.
The Labor Day ball, which will be given Monday night in the big ball room in the Elks' opera house, promises to be a very pleasant event. An orchestra of excellent musicians has been secured to furnish the music.
F. J. Houston, manager, and Roy McDonald, catcher and captain, will have tonight for El Paso. The Browns have ball club, with the exception of the two named, left for the Pass City on the delayed passenger train this morning.

Miss Daisy Behrmann, of Santa Fe, passed through the city yesterday for Las Cruces, where she will teach in the Indian school there this winter. She was accompanied to Las Cruces by her aunt, Miss M. E. Desmette, who is the supervisor of the Indian day schools.
Advertising car No. 5 is down in the Santa Fe yards ready to depart on a north bound train tonight. A band of music will be at the car this evening to give it a good send off. There are very few people living along a railroad in New Mexico that will not hear of the territorial fair the next few weeks.

The New Mexican says: George Arnot of Albuquerque, manager of the wholesale firm of Gross, Kelly & Co., in that city and Ernest Meyers, also of the Duke City, came in last evening and today went to Torrance in a special train over the Santa Fe Central railway in company with Senator W. H. Andrews.

Misses Ida and Vida Johnson will leave tomorrow evening for Mesilla Park, N. M., where they will attend the Agricultural and Mechanical Arts college during the coming year. Miss Johnson has transferred her stenographic office in the Barnett building to Miss Beale Overholt, a young lady who comes highly recommended from Santa Fe.

Items of Interest.
Great Britain's coal output in 1903 was 230,234,898 tons.
Seafarers in London are generally at the head of the bowling clubs.
The last name of Joseph Conrad, a well known writer of sea stories, is Korzeniowski. He is a Pole.
Shiok (afterwards at Zion City, Ill., which when built, at a cost of \$50,000, will seat 16,000 people.
The Irish department of agriculture and industries has taken over the workings of a jam factory at Drogheda.

Queen Alexandra gave orders that all her linen and towel gowns for Crown week should be of Irish manufacture.
Owing to restrictive legislation, the drought and trade depression, 678 Chinese left Australia last year, and only sixty arrived from China.

ALL ON FIRE.

An Albuquerque Citizen Tells how Relief Came.

Ever have Ecema?
Have any itching skin disease?
Itching almost drives you crazy.
You feel "all on fire."
Joan's Ointment brings quick relief.

Cures Ecema, Itching Piles, and all Itchiness of the skin.
Mrs. R. B. White, rooming house, 302 North Second street, says: "There came to my notice some time ago a case of ecema or of some disease of the skin, which had resisted all the efforts of the party to stop. Joan's Ointment was procured at the Alvarado Pharmacy and a course of the treatment commenced. It gave positive relief after an application of two and upon a continuation of it for some time the skin once ceased. This information should be of untold value to residents of Albuquerque who are in quest of an article upon which they can depend to cure any Itchiness of the skin, ecema, throat, etc."

For sale by all dealers. Price 50c. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

NEW INCORPORATIONS

Washburn Company Organize --Roswell Electric Light Company.

THE JEMEZ LAND COMPANY

The charter of the Sater Copper company has been amended by striking out the paragraph which gives the principal place of business of the concern as Columbus, Ohio, and changing the same to Pittsburgh, Pennsylvania. The operations of the company are carried on in Union county New Mexico.

Astec Hardware Company.

The Astec Hardware and Lumber company. The incorporators are James C. Gilbreath, Herbert Gilbreath and Henry Abrams, all of Monte Vista. The objects of the concern are: To purchase and sell at wholesale and retail lumber, hardware, building materials and other furniture and farm products. The capital stock of the company is \$20,000 divided into 200 shares of the par value of \$100 each. The term of existence of the corporation is 50 years. The number of directors are three, and those who will manage the affairs of the concern for the first three months of its existence are: Henry D. Abrams, James C. Gilbreath, and Herbert Gilbreath. The principal place of business is Astec.

E. L. Washburn Company.

The E. L. Washburn company. The incorporators are Elmer L. Washburn, Eva J. Washburn, and Charles O. Cushman of Albuquerque. The objects and purposes of the concern are to carry on and conduct a general merchandise and clothing business in the city of Albuquerque and to deal in all kinds of wearing apparel and articles necessary and usually handled in conducting a business of such character, and to buy and sell the same, either at wholesale or retail. The capital stock of the company is \$20,000, divided into sixty shares of a par value of \$333 each. The term of existence is 40 years. The principal place of business is Albuquerque, and the number of directors to manage the affairs of the concern will be three, those for the first three months: E. L. Washburn, Eva J. Washburn and Charles O. Cushman.

Roswell Electric Company.

The Roswell Electric Light company. The incorporators are: Edward A. Cahoon of Roswell, and Alonzo B. McMillan and William B. Whitney of Albuquerque. The objects of the company are: To generate electricity for power, heating and lighting purposes and to do all things necessary to maintain and equip such plants. The capital stock of the company is \$50,000, divided into 500 shares of a par value of \$100 each. The term of existence is 50 years. The number of directors shall not be less than three and not more than five. Those who will have charge of the affairs of the company for the first three months of its existence are: Edward A. Cahoon of Roswell, and William B. Whitney and Alonzo B. McMillan of Albuquerque. The principal place of business is in Roswell, Chaves county, but the corporation may maintain its office either in Roswell or Albuquerque as may from time to time be determined by the board of directors.

Jemez Land Company.

The Jemez Land company. The in-

corporators are: Alonzo B. McMillan and Edward A. Cahoon of Roswell, and William B. Whitney of Albuquerque. The objects of the company are: To acquire, hold, lease, improve and sell timber, farming, grazing, mineral and other lands and the products thereof; to build, construct, maintain and operate plants and works for the development of said lands; to manufacture lumber and other wood materials; to mine and otherwise extract or remove coal, oil, gas, stone and other minerals and timber; to construct bridges, buildings, machinery, roads, and other means of transportation; to build and construct dams, reservoirs, canals, ditches and pipe lines for storing water, developing power and generating electricity and conducting and supplying water for irrigation, mining, manufacturing, domestic and other purposes; to develop electricity for power, heating, lighting and other uses or convey electricity for power, purposes; to sell, furnish, supply, lease or convey electricity for power, lighting or heating purposes; and to build and maintain proper means and appliances for the distribution of electricity for the above purposes; to acquire, hold and sell water and water rights on all other kinds of real and personal property. The capital stock of the company is \$100,000, and the number of shares is 100,000, of the par value of \$1 each. The time of the existence of the corporation is 50 years. The number of directors shall not be less than three and not more than five, as may be determined from time to time by the stockholders and those who will manage the affairs of the corporation for the first three months are: Alonzo B. McMillan and Herbert B. Reynolds of Albuquerque, and Eugene A. Feltz of Santa Fe. The principal place of business is Albuquerque.

THE GREENLEAF BUILDING

MR. AND MRS. FRANK DERRICK
LEASE THE UPPER STORY.

Mr. and Mrs. Frank Derrick, of Jemez, although well known here, have taken a lease on the upper story of the new Greenleaf building on Silver avenue between First and Second streets, and today is furnishing the handsome and airy rooms with elegant furniture. The contract to furnish same having been secured by O. W. Strum's Sons furniture dealers. Kelly Glantz is superintending the installation of the furniture. Mr. Derrick says that he will have the rooms ready for the travelling public by September 17, and The Citizen hopes for him a liberal share of patronage.

To Discuss Civic Problems.

Toronto, Ont., Sept. 8.—Mayors and other officials of the chief cities of the province gathered here today for the annual meeting of the Ontario Municipal Association. The principal item on the program, which covers two days, will be a discussion of the new assessment law and practical demonstrations of its working will be made.

LOCAL PARAGRAPHS.

From Thursday's Daily Citizen.
Miss Francis Irwin has gone to Ashland, Ill., where she will teach in the public school.
Mrs. B. G. Wilson, who was on a visit to Santa Fe and Las Vegas, has returned to the city.
W. R. Feltz, proprietor of the Prairie Mountain cattle ranch, Secor county, is in the city on business.
Edwin T. Stoddard died at his room on North Second street Sunday evening from consumption. His wife and a sister being with him when death

came. The body has been turned over to O. W. Strum's Sons for embalming, and after certain details are arranged, the bereaved wife and sister will take the remains to Chicago for burial.

N. H. Andrus, the watch expert, formerly with Arthur Everett of the Diamond Palace, has opened a watch repair and jewelry store at 210 West 24th avenue. Mr. Andrus was formerly an eastern man, but has been in Albuquerque the past year. His workmanship is already known to the people of Albuquerque and he will doubtless reap success in his new business venture.

Mrs. J. G. Walker and children, and the former's mother, Mrs. L. J. Dills, will leave Thursday morning for St. Louis, where they will attend the World's fair for a few weeks, and then go to their old home in Newport, Ola. Mrs. Walker and children will be absent from the city for about a month. Mrs. Dills will remain at Newport.

One hundred and thirty pupils registered yesterday at the Immaculate Conception school. Many others presented themselves this morning. Before the end of this week the class rooms will be well occupied.

Mike Mandell, the well known East road avenue cobbler, who was east purchasing his fall and winter stock of clothing, has returned to the city. He combined a business with pleasure and attended the World's Fair.

L. B. Crawford, prescription clerk at the Alvarado Pharmacy, left yesterday for his old home at Mitchell, Ind. Mrs. Crawford is visiting there now and in a few weeks they will return to New Mexico together.

Julius Lauer, years ago a resident of this city, and then later in business at Windsor, is in the city. His home is now in San Francisco, and he represents a wholesale liquor house of Chicago on the road.

Don J. Rankin, the county surveyor, and Phil Ross, the city surveyor, left this afternoon on an overland drive for the Chihuahuan desert, in order to inspect and report on some private surveying in that vicinity.

Mrs. W. M. Robinson, of Hillsboro, passed through the city home-bound last night. She left at Santa Fe her two children—the daughter to attend the Lovette academy, and the son the St. Michael college.

Special commemoration of Temple Lodge No. 6 A. F. and A. M., will be held at 7:30 p.m. in the M. M. degree. Visiting brethren cordially invited, by order of the W. M. Robert Abraham, secretary.

Mrs. Ed Quirk left Sunday night for El Paso, where she was joined by Mrs. Clara Quirk and both ladies are now on their way to Southern California. They will be absent about a month.

Miss Evelyn Dougherty passed the city Sunday night for Media Park to resume her studies in stenography and typewriting at the College of Agriculture and Mechanical Arts.

The Monarch Grocers company is relieving its customers with reasonable and other refreshments made with "Jellyon." Miss Lath is the demonstrator.

J. F. Kuehnlecker, son of Hon. W. H. Kuehnlecker of Gallup, is on a visit to the territorial metropolis on his way to Roswell to attend the Military Institute.

George Tibbets, of San Marcel, after passing a satisfactory examination for a conductor, took his first train over the road the other day.

Mrs. Albert Grossfeldt, the mother of the Grossfeldt brothers, has returned to the city after her summer visit to eastern relatives and friends.

The front of the building, occupied by Graham Bros., on West Railroad avenue, is being set in several feet. The move is a wise one.

LOCAL NEWS

From Saturday's Daily Citizen.
Sweet Music to Burn.—There will be sweet music to burn at the Albuquerque fair in October. Every band in New Mexico has entered in the band tournament. It is a long chance that there may also be some discords.—Alamogordo Journal.

Crack-a-Jacks Win.—In an exciting game of base ball played yesterday on the Third ward grounds, the Crack-a-Jacks defeated the Juniors by a score of 5 to 7. Batteries—Apodaca, Wilson, and Truwell, and Cook, Holman and Lemke.

Wanted Rhodes.—The Optic says: The Albuquerque Browns today telegraphed Charlie Rhodes asking him to accompany them in El Paso for the three days' series Saturday and Sunday, the wounding of Stars leaving them with only one pitcher. Rhodes must play here Saturday and Sunday, so cannot go.

At Capital City.—United States Attorney W. B. Childers of Albuquerque, accompanied by his daughter, Miss Gladys, and Miss Helen Pomtress, a friend of Miss Childers, are in town today and registered at the Palace. Mr. Childers came up to attend the session of the territorial supreme court.—New Mexican.

Strum's-Hill Marriage.—John Strum's-Hill, the plumber, is having a wedding today. The occasion is his marriage, which occurred August 8, but has until now been kept a secret. The bride was formerly Mrs. Anna Hill, the daughter of Mr. and Mrs. Strum's-Hill, and is now at 307 East Tjeras avenue.

Surprised by Lodge Friends.—About twenty-five members of the Degree of Honor surprised Mrs. Ida Mason at her home, No. 1114 North Second street last night. A rural time was had, and although greatly surprised Mrs. Mason was equal to the emergency and made everybody feel at home.

Gone to St. Louis Fair.—Mrs. C. P. Whintz and daughter, Miss E. Whintz, and her niece, Miss Anna Hays of Santa Fe, were passengers Thursday via the Santa Fe railway to St. Louis, where they will spend a week at the fair. They were joined at Lamy by Mrs. Hays of Albuquerque, who will accompany her daughter.

Week's Notice Given.—Many have been the statements regarding the opening of the public schools and the latest now is that the school authorities can say is that a week's notice will be given before school will begin. All is being done that can be done to hasten the completion of the buildings, but it takes time to do so much work.

Not So Attractive Now.—The Moulin Rouge dance did not prove much of an attraction this year. The dance has lost much of its old attraction, and the Moulin have made a commercial proposition of the event, when the dollars of the visitor can be easily had. Quite a number of visitors made the trip to the village from Holbrook, Winslow and Flagstaff.

Will Live in El Paso.—Mr. and Mrs. John C. Halcum, newly married couple, have about combined their honeymoon visit to the Rio Pecos, and are expected to pass through this city for El Paso, their future home, to-morrow evening. Mr. and Mrs. Halcum have many friends in this city who wish them much happiness and success in the Paso City.

Indian School Inspector.—The local government Indian school is expecting an official visit from C. F. Nealer, of Washington, D. C., an inspector of the Indian service. Mr. Nealer is now at Santa Fe, inspecting the school there, after which he will come on to this city. He will also inspect the nineteen Pueblo Indian schools, as well as the Navajo and Mesquero Indian agencies.

Both Boys Bruised.—Henry and Charles Clark, the two young sons of Mr. and Mrs. John Clark residing on Hume avenue, are laid up with some pretty severe bruises. On Wednesday, while carrying water to workmen at the Third ward public school building, Charles fell about forty feet, and although pretty badly bruised, no bones were broken. The next day Henry fell off his horse and sprained his ankle.

From Monday's Daily Citizen.
Has Returned to Santa Fe.—Attorney Benjamin M. Read has returned to Santa Fe. While here he figured in the case of the heirs of R. H. Carpenter vs. Anna Hopwood and Francis Montez, depositions in which were taken before a notary public. The case is the result of a controversy involving the right to the contestant heirs of R. H. Carpenter to a small holding claim on which is located valuable coal.

Presented with Souvenirs.—Mrs. N. Greene, mother of Nat Greene, was seriously surprised last night by a party of Congregational church ladies calling on her at the home of Mr. and Mrs. W. A. McCluskey, No. 107 North Fifth street. The ladies brought along with them some souvenirs, typical of this city and New Mexico in general, and these were presented to Mrs. Greene. The latter expects to return to her home in Boston, Mass., in a short time.

Postal's Reduced Rates.—Manager Oregon, of the local office of the Postal Telegraph company sends the following notice to The Citizen: "The Postal Telegraph-Cable company announces they are ready to accept business for Stika, Juman, Haines' Mission and Slangway, Alaska, at greatly reduced rates via the new cable from Seattle. Rate to Stika, \$1.50 for ten words, and 15 cents for additional word. Juman, 1.75 and 17c cents; each additional word. Haines' Mis-

sion and Slangway, Alaska, at greatly additional word. Reduction to many other places in Alaska will be made soon.

Soldiers Will Be Here.—President A. H. McJaffrey of the Territorial Fair association and Alderman Geo. P. Leonard returned from Fort Winifred, where they were guests of Captain Valentine. Mr. McJaffrey and Mr. Leonard were assured that a troop of soldiers would be sent in to the fair. The military camp has always been a new and interesting feature of the fair.

Payne-Baccus Marriage.—Ira B. Payne and Miss Rox M. Baccus were married quietly last evening at the home of W. S. Selmonridge, 303 North Arno street. Rev. W. J. Marsh, of the Congregational church performed the ceremony. The groom is prominently connected with the Albuquerque Traction company, and the bride is one of the popular young ladies of the city.

Geetz Quits European.—Henry Geetz, who served as chief chef at the European restaurant for many years, is no longer connected with the restaurant, and will take a rest of a few weeks before engaging in business again. Mr. Geetz has gained quite a reputation as a chef in this city, and his many friends are attemping to persuade him to open up a first class restaurant.

Copies Wanted for Files.—In the year 1885, the New Mexico News, an afternoon paper, and the Bernalillo County Democrat were published in this city. A party here has quite a number of copies of both newspapers, but would like a complete file, so if anyone has copies of either newspaper of any date please leave them at The Citizen office. They are needed for filing into regular newspaper book files.

Advertising Car No. 5.—The Territorial Fair association's advertising car and vaudeville troupe attracted as much attention at Cerritos yesterday as a circus, said a citizen who arrived from the north. The people of Cerritos turned out en masse to bid the occupants of Car No. 5 welcome, and were entertained by the vaudeville company. Car No. 5 left Cerritos for the north last night.

Typographical Union Officers.—Typographical union No. 394 held a regular meeting yesterday and elected the following officers for the ensuing six months: President, Chas. E. Starr; vice president, E. R. Throer; secretary-treasurer, F. T. Strother; sergeant-at-arms, James S. Black; executive committee, Geo. Crane, J. J. Gringle and J. C. Patton; delegates to Central Labor Union, Messrs. Starr, Crane, Strother, Alfaro, Davenport.

Another Big Wool Purchase.—This morning George Arnold, representing the wholesale grocery and wool purchasing firm of Green, Kelly & Co., bought 15,000 pounds of wool from Isidoro Mendoval, and the latter announced that he is perfectly satisfied with the price obtained. The wool is the full output of Mr. Mendoval's sheep, and while not up to the previous fall clips as to quantity, the quality is of a superior grade.

More Knights Templar.—A special train carrying New Haven, Conn., Commandery, 93 people, is scheduled to arrive from the west Thursday evening, September 13. On September 14 a special train carrying 35 Knights Templar and friends of Philadelphia will arrive from the west, and on September 15 a third train carrying Cleveland, O. Knights Templar will arrive from the west. All will be given short stops in the city.

A Socialist Orator.—A little knot of curious people gathered at the corner of Railroad avenue and Second street Saturday night to listen to a "socialist" orator hawking the cause of the suffering public, berate the two great parties, and beseech the people to join the socialists in putting down plutocrats. G. W. Worden was the speaker, and he stopped in the city just for a day while en route to California.

Woman's Club Meeting.—The members of the Woman's club assembled Saturday at their parlors in the Commercial club building to begin their second advancement. The meeting was devoted entirely to business, there being a great many important matters laid before the club. Having secured headquarters in the Commercial club building, and a membership list of sixty-two and several new applications under consideration, the club begins its new year under most favorable circumstances. The ladies of the various departments—literature, domestic, science and art—have prepared splendid programs for the ensuing year, while the books and magazines have been received that will be used as references in the study of Russian and Japan under the history course.

The board of managers of the Woman's club will hold an important meeting at their headquarters on Wednesday afternoon at 3 o'clock September 7.

Barnett's Big Fish Stories.—Mr. and Mrs. W. H. Barnett have returned from their vacation, spent in southern California, and especially at Catalina Island. They had a splendid time, and both took on considerable flesh. Mr. Barnett gained quite a notoriety on the island as the best all-around fisherman to have visited Catalina this summer, he having caught numerous strings of yellow-tails and landed several big fish, one weighing over 175 pounds. Mr. Barnett was successful in his hunt on the island, he killing several wild mountain goats, a couple of huge eagles, three red foxes, and quite a number of mountain quail.

Employees Off for Ohio.—Mr. and Mrs. W. H. Schwartz left last night for their old home at Columbus, Ohio, where they will reside in the future.

Mr. Schwartz was the foreman of the Citizen newspaper room for the past few months, but was compelled to resign his position in order to take his wife to the Ohio home, where they will live for some time. Mr. Schwartz is a good printer, a good foreman, and the Citizen regretted to part with his services. Last Saturday night, Mr. and Mrs. M. M. Dutcher left for the World's fair, where they will take the ship for a couple of weeks, after which they will visit their old home at Westerville, Ohio. They will be absent about a month, and will away the city circulation of The Citizen, of which Mr. Dutcher is the proprietor, will be looked after by Mr. Lawrence Lee.

Mrs. Thornton Will Visit Old Missouri Home.—Mrs. W. T. Thornton of Guadalupe, Mexico, passed by the road from Santa Fe yesterday, and will be the guests of Mr. and Mrs. J. P. Victory for a week or longer. Mrs. Thornton is not only very well known in Santa Fe, but is also very popular and highly respected, as she and her husband, former Governor Thornton, resided at the Capital city for twenty-two years. She is a sister of Mrs. J. P. Victory. During the past seven years former Governor and Mrs. Thornton have made their home at Guadalupe, where the former is engaged in important and extensive mining operations and land grant deals. From Santa Fe Mrs. Thornton will go to Missouri, where she will visit her old home at Sedalia, and will also attend the exposition at St. Louis.

Found Much Fair Interest.—J. H. O'Reilly, manager of the Washington Life Insurance company in New Mexico, returned last night from an extensive tour of the northern part of the territory. On the return trip Mr. O'Reilly met the advertising car at Cerritos and said that the car was surrounded by a large crowd and that great interest was being taken in the fair than ever before.

On His Annual Vacation.—W. Scott Smith and daughter, Miss Edna Smith, of Washington, D. C., are at Santa Fe, the guests of Governor and Mrs. M. A. Otero. Mr. Smith is private secretary to the secretary of the interior, and he is on his annual vacation, which he will spend in New Mexico and Arizona. By profession, Mr. Smith is a journalist, having worked for fifteen years on the New York Evening Post. He and daughter are expected in Albuquerque in a few days.

BACK FROM THE EAST

MR. AND MRS. J. A. WEINMAN
HAVE RETURNED TO THE CITY.

J. A. Weinmann, proprietor of the Golden Rule Dry Goods store, returned yesterday from an extended trip east, accompanied by Mrs. Weinman. They visited New York, Atlantic City, Philadelphia, Chicago and St. Louis.

At the latter place they took in the Louisiana Purchase exposition, but were not struck with it as being a very great show. Regarding the fair Mr. Weinman said:

"It's too much for anybody to see and not near what it's cracked up to be. Outside of a few things, I did not think much of it. I saw a better place at Coney Island than at St. Louis."

"I think the people should be advised against going to St. Louis."

While in the far eastern office Mr. Weinman purchased a large quantity of goods for his fall and winter trade.

CHIEF VICENTE AND HIS PICTURE

The Zuni mountain white pine lumber is no more, and the Navajo white pine is nearly lost.

Chief Vicente, the patriarchal Navajo, is the guest of T. W. Decker, chief salesman for the American Lumber company. This afternoon Chief Vicente, after much persuasion, agreed to permit his picture being used on the letterhead of the American Lumber company, and the printed matter advertising the Navajo white pine, which is the figure will be the leading product of the American Lumber company mills. Chief Vicente is one of the most picturesque of the red men, and his likeness on a letterhead will be a strikingly attractive figure.

HITS AT RANDOM

The Browns returned home this morning. Their trip to El Paso was a total failure. It rained Saturday, Sunday and Monday and no game was played. The El Paso Colts are out the expenses and the Browns lost Sunday and Labor day, the last date of the year. The Browns lost a little money. Farnel was brought from Tucson and this additional expense, the Colts would not lose.

Next Sunday the Las Vegas Hares will give the Browns a battle on the athletic park diamond. This game has been anticipated for some time past and it is bound to be a good one. The Hares have been strengthened materially since their last game with the Browns.

Fred Starr, the pitcher who was sent, continues to improve and the chances are good for his ultimate recovery.

Second baseman Bert Vorhes, who was struck in the eye by a knuckled ball a week ago Sunday, went to El Paso with the Browns and is so much recovered that he is able to be back in the game.

Hedrick Stover, R. E. and George Thomas returned last evening from a pilgrimage with dog and gun up the Rio Grande valley. The trophies of the hunt numbered thirteen ducks and eighty-five doves.

When prominent physicians freely prescribe the Bitters for Poor Appetite, Sour Stomach, Liver Complaints, Sleeplessness, Indigestion, Dyspepsia and Malarial Fever, you can make no mistake in trying a bottle. It always cures, as hundreds have testified. Try it.

MORE PRIZES FOR BASE BALL GAMES

Handsome Prizes and Purses
for Individual Players by
Local Merchants.

GREAT TOURNAMENT INDUCEMENT

In addition to \$1,500 given by the fair association, the merchants of the city will give the following prizes to players for individual averages:

First home run hit, \$5 gold. Donated by T. R. Hahnell, sheriff of Bernalillo county.

Most home runs during series, one-half bottle Imperial Crown Purple Amlax Perfume. Donated by Myers Drug Co., St. Louis, Mo. One case Diamond C soap, \$5.00. Donated by Cuddeback Packing Co.

First three base hit, 100 Gen. Arthur, 100 straight cigars. Donated by Rothenberg & Schloss Cigar Co., by D. B. Rosenwald, manager.

First two base hit, one-half bottle Rogers' Colorado Perfume, \$2.50. Donated by J. H. O'Reilly & Co.

First single hit, 50 El Paso, 5 for 25c cigars. Donated by R. H. Massey & Co.

Most safe hits for series, one fine El Paso cigar. Donated by Rothenberg & Schloss Cigar Co., by D. B. Rosenwald, manager. One pair of base ball shoes, \$2.50, by F. J. Houston; one case of Chrysos Ginger Ale, Harsch Bottling Works, \$1.50; one box socks, \$2, by J. H. O'Reilly & Co.

Most sacrifice hits for series, 50 Havana Bud cigars, \$5, by Kirtner Bros.; 10 latest songs selected by winter, \$5, by Geo. P. Leonard, Square Music Dealer.

First stolen base, 50 Stachenberg 2 for 25c cigars, by Rothenberg & Schloss Cigar Co., D. B. Rosenwald, manager.

For most stolen bases, one pair Crawford shoes, \$2.50, by S. U. Rosenwald; 50 Utah Shell cigars, \$4.25, by Kirtner Bros.; one case Coyote Water, \$1.25, by Harsch Bottling Works.

Having biggest percentage of strike outs for pitcher for the series, must pitch at least two games, \$10 in gold. Donated by Graham Bros.; one base ball uniform, by Hubbs Union Garment Co.

For pitcher making most assists for series, 50 Gen. Arthur 100 straight cigars, by Rothenberg & Schloss Cigar Co., by D. B. Rosenwald, manager.

For infielder that has the most put outs, 100 Owl Cigars, 5c straight, by Rothenberg & Schloss Cigar Co., D. B. Rosenwald, manager.

For outfielder having most put outs, 50 Commercial Club cigars, \$5, by Kirtner Bros.

For catcher throwing out most base runners, 50 Middle West cigars, \$5.25, Holt, Massey & Co.; one copy of latest novel O. A. Matson & Co.

Short stop having most assists for series, 50 Henry the Fourth cigars, \$5.25, by Rothenberg & Schloss Cigar Co., by D. B. Rosenwald, manager.

Third baseman having most assists for series, 50 La Belle Supreme 2 for 25c cigars, \$4.25, by Rothenberg & Schloss Cigar Co., D. B. Rosenwald, manager.

Second baseman having most put outs for series, 50 Juan F. Portondu, the straight cigars, \$5, by Green, Kelly & Co.

For player making most runs for series, 50 Flora de Rothenberg, 100c straight cigars, \$5, by Rothenberg & Schloss Cigar Co., D. B. Rosenwald, manager; 25 Middle West cigars, \$3, by R. H. Massey & Co.

For infielder having least errors for series, 50 El Paso cigars, 5c straight, \$2.50, by R. H. Massey & Co.

For club coming longest distance, 50 Affordville, 2 for 25c, \$4.25, H. Westerfeld & Bro.

For club making best appearance, one case of beer.

For player making longest hit for series, one pair of Walker shoes, \$4, E. L. Washburn & Co.

Manager Frank Houston of the Browns is credited with having pronounced this scheme and to him the ball players, who engage in the fair tournament, are indebted for the individual prizes. It will be noted that there is not an individual play of the great American game that is not rewarded with some kind of prize. Even the player who makes the most errors will be rewarded.

Temporary Injunction Granted.
Denver, Sept. 6.—Judge Marshall, in the United States court today, issued a temporary injunction restraining members of the cotton alliance and mine owners' association of Cripple Creek from interfering with the business of the Interstate Mercantile company, which conducted a union store at Cripple Creek, which was stocked by a mob on the night of August 29. Hearing to make injunction permanent will be held September 20.

Albert Faber, the West Railroad avenue carpet merchant, who was east purchasing goods, has returned to the city. He had a splendid trip, and found time to drop off at St. Louis, where he attended the World's fair.

SENATOR MARTIN SAYS:

United States Senate, Washington, D. C.
I have used HAYNER WHISKEY for medical purposes in my family and have found it very satisfactory. I believe it to be a number one medicinal whiskey.

Thomas J. Martin
U. S. Senator from Virginia.

THE ONLY WHISKEY WITH A NATIONAL REPUTATION FOR
HIGHEST QUALITY AND PERFECT PURITY.

We have one of the largest distilleries in the world. We are the largest bottlers of whiskey in the world. We have more whiskey in our eight bonded warehouses than any other distillery in the world. There is more HAYNER WHISKEY sold than any other brand of whiskey in the world. We have been in business for 38 years and have a capital of \$500,000.00 paid in full, so you can run no risk when you deal with us. Your money back at once if you are not satisfied. Don't forget that HAYNER WHISKEY goes direct from our distillery to you, with all its original strength, richness and flavor, thus assuring you of perfect purity and saving you the enormous profits of the dealers. You cannot buy anything purer, better or more satisfactory than HAYNER WHISKEY, no matter how much you pay.

DIRECT FROM OUR DISTILLERY TO YOU
Saves dealers' profits. Prevents adulteration.

HAYNER WHISKEY

4 FULL QUARTS \$4.00

EXPRESS CHARGES PAID BY US

OUR OFFER We will send you FOUR FULL QUART BOTTLES OF HAYNER SEVEN-YEAR-OLD RYE for \$4.00, and we will pay the express charges. Try it and if you don't find it all right and as good as you ever used or can buy from anybody else at any price, then send it back at our expense, and your \$4.00 will be returned to you by next mail. Just think that offer over. How could it be fairer? If you are not perfectly satisfied you are not out a cent. We ship in a plain sealed case, no marks to show what's inside.

FREE A BEAUTIFUL GOLD-TIPPED GLASS AND CORNSHAWL SENT WITH YOUR ORDER FREE

Remember, a Hayner quart is an honest quart of 32 ounces, 4 to the gallon, just one-fourth more than in bottles of other brands, really reducing our price just that much.

SANTA FE.

From the New Mexican.

Mrs. E. H. Ince is expected home from New Mexico in a few days, where she was called on account of the death of a relative.

It is reported that the George W. Knobel property on Upper Palace avenue has been sold by the Knobel household to W. N. Townsend for the sum of \$1,000.

Juan Ortega has resigned his position as clerk with the Pioneer drug company and has been succeeded by Joseph Sanchez, who was formerly connected with this pharmacy.

Mrs. J. J. Davis of Manhattan avenue is quite ill. The condition of the patient's health has been poor for some time and on account of her advanced age fears are entertained for her recovery.

V. D. Lorenzo is in receipt of a letter from Lieutenant John W. Campagnoli at Fort Bragg, Michigan, tendering of Santa Fe, stating that he has been granted a leave of absence and will come to the Capital city to spend several weeks. Lieutenant Campagnoli, who enlisted in the army in this city, is expected to arrive here tomorrow.

Albert Albert, son of Judge A. J. Albert, left for Mesilla Park, where he will attend the College of Agriculture and Mechanic Arts.

Robert Tansill of Chiswick, who has been on the Pease forest reserve for some time, is expected here within a few days to visit friends.

A horse, driven by John V. Conway, was frightened by a Santa Fe engine near the head depot and started to run away. Before Mr. Conway could get the animal under control it demolished the shafts of the buggy in which he was seated.

Scott Wilson returned from the Pease forest reserve, making the trip over on the train and down the Santa Fe canyon, nearly thirty miles, in four and one-half hours. He spent a week in camp with Messrs. Tansill and Nixon and other friends, who are on the headwaters of the Mora. The boys had fine sport and trout were plentiful.

LAS CRUCES.

From the Republican.

Thursman Hutton left on Saturday's train for Virginia, where he will again enter the Vanderbilt Training school. Chas. L. Post, of Mesilla Park, has been appointed United States deputy mineral surveyor for the district of New Mexico.

Marlin Lohman, a member of the board of equalization, has left for a tour of inspection through the counties of Luna, Sierra and Grant, for the purpose of examining the assessment rolls.

Corrado Ross, a little Mexican boy, died of blood poisoning on Monday morning last. The cause of his disease was from being bitten by a snake of some kind while swimming in the main aqueduct.

Mother Pravedos, superior general of the Loretto academy, has answered the petition of Las Cruces citizens by replacing Sister Vestina in the Visitation academy of this place.

We were shown some specimens of onions and beets by Prof. J. J. Vernon of the agricultural experiment station, which were raised by pump irrigation. The onions are nice and large, weighing something over a pound and a quarter. The beets are large and well developed.

Luther Foster and John May received the appointment as vice presidents of the Twenty-fourth New Mexico Territorial fair to be held in Albuquerque in October. The appointment is a good one. Both of these gentlemen are representative citizens of the "set-back" type of New Mexico. Circumstances are rather against them here this season on account of the scarcity of water, but depend on it, they will make the best possible showing.

SAN MARCIAL.

From the Bee.

Jay Watkins and his sister, Miss May, left for Spokane to reside.

Mrs. W. E. Weston came in from her ranch and went to Socorro to remain some little time.

It is reported that a deal is on for the transfer of all A. E. Roullet's interests in the Victoria Land & Cattle company.

Rev. Mr. Allison returned to Las Cruces. His logic and brilliancy as an orator pleased all who attended the revival meetings in the Methodist church.

While visiting recently L. M. Lasky secured estimates on material used in the construction of telephone systems. He is figuring on a line between San Marcial and Rosedale, as well as a local exchange.

J. H. James, well known citizen of San Marcial, left for Kelly, where he has accepted a position as shift boss in the Kelly tract and mine. Mr. James leaves many friends who will regret to hear of his departure, but he lived six years, will be delighted to have him again in their midst.

SOCORRO.

From the Chieftain.

Fred Baldwin was in town from the Taill ranch.

Mrs. P. J. Savage was in Albuquerque the first of the week.

Mr. and Mrs. Alvan Ahlert became the parents of a bright girl baby.

The report became current in Socorro a day or two ago that Terri Baldwin was dead. Happily, the report was unfounded. Mr. Baldwin has gone to California.

Mrs. W. D. Martin and son, Mrs. Newcomb, returned from Santa Fe. During their absence the ladies enjoyed a drive over the scenic road between Santa Fe and Las Vegas.

They are enthusiastic over the beauties of the road.

Mayor Anselmo G. Ahlert has received the sad announcement of the death of his niece, Mrs. Columba Chavez, wife of Teodoro Chavez of Placitas, Bernalillo county. Deceased had been an invalid for a year. She left no children.

KESLER HURT.

Ed. M. Kesler met with a bad accident while at work on some pumping machinery for R. C. Patterson near Polvadera, says the Socorro Chieftain. Mr. Kesler fell about fifteen feet, striking on his back and injuring his spine, besides receiving several bad bruises. Mr. Patterson brought Mr. Kesler home on a mattress. The injured man is experiencing terrible suffering all the fifteen miles. Doctor Swisher, who was called to attend the case, thinks that while dangerous the injury will not prove to be permanent.

DEATHS AT ROSWELL.

Clay Leake, a young man who came to Roswell two weeks ago from his home at the residence of C. W. Brown, of typhoid fever, Harvey Leake, a brother of the deceased, of Canon City, Colo., was with him when he passed away.

Mrs. C. L. Hilday died of consumption. She had been battling with the dread disease for years. The remains were interred to Roswell. She is survived by her husband and several sons and daughters.

Randall Clark, aged 50 years, died of pneumonia. The remains were sent to the home of the deceased at Portales, N. M.

CATTLE VALUATION IS OUT OF PROPORTION.

W. C. McDonald, of Carrizozo, president of the New Mexico Cattle Growers' association, through W. C. Barnes, secretary of the association, has made application before the Territorial Board of Equalization for a reduction of the valuation of cattle in the territory. This application will come up for hearing before the Territorial Board of Equalization at its meeting at Santa Fe Monday, Sept. 12th.

The present valuation of cattle is \$12 per head. Stockmen declare that any number of cattle in the territory can be bought for less than that amount. They point out that where sheep are valued at only \$1 per head, they cannot be bought at less than \$1.50 to \$2. The matter will be strongly presented before the board, and it is hoped that a reduction in value can be secured.

NEW HOTEL FOR LAS VEGAS.

Las Vegas is to have a new \$100,000 hotel. A company composed of the wealthiest men of the city has been formed to promote the enterprise and now gives out the information that the plans have been carried so far as to give positive assurance that the hotel will be built. A large tract in the very heart of the city has been secured for the building.

The San Miguel and First National banks, the electric light company, the water company and Gross, Kelly & Co. have each subscribed \$5,000 and enough has been assured to make the cash subscriptions \$20,000.

PEEBLE HEART CAUSED RESIGNATION.

James C. Conville, who was elected city clerk of Santa Fe last April, today resigned his position. He was in poor health and in attendance on the duties of the office. It is understood that his resignation will be accepted at the council meeting and that Francisco Delgado will be appointed to fill the vacancy.

NEW MILLER COMPANY.

A military company was organized at the corner house, Roswell, Saturday night. The organization starts off with forty-one members, and it is expected that there will be fifty members before the first of next week. Major Calvo was elected captain. The company will be attached to the territorial national guard.

DEMING.

From the Graphic.

Mrs. A. J. Clark and daughters left Saturday for St. Louis where they will spend some time viewing the great exposition.

Another flying outfit passed through town Saturday. The fine condition of the ranges now is causing much activity in this line.

Judge Pennington is giving the post-office a general overhauling, changing the mail boxes and improving the appearance and convenience generally.

The flying schools opened yesterday, with a full quota of teachers under the direction of Prof. Dekey, and the outlook is for a very best successful year.

Miss Nellie Deemer, who was so fortunate to win the Landover World's Fair contest, left Monday for St. Louis where she will spend a few weeks seeing the sights of the great exposition and the metropolis of Missouri.

John H. Braggs, D. C. McMillan, A. N. White, Hyman Abraham, W. R. Peters, Eugene Conner, A. R. Goodell, Robert H. Bonville and William E. Lorentz comprised a party of Knights Templar that left last week on a tour of the country of that order now being held at San Francisco.

SANTA FE.

From the New Mexican.

The schools are so crowded in the third ward that the board of education will have to provide another school room in the near future.

Miss Anita Reed, daughter of Sheriff Alexander Reed, of Teller, Arizona, is in the city for a several days' visit with her uncle, Attorney Benjamin M. Reed and family.

Oswald Dignos has accepted a temporary position as driver with the local office of the Wells Fargo Express company, relieving Charles Waeber, who is on the venture of the United States grand jury.

A camping party composed of H. E. Higgins, M. C. Miller, Warren Raymonds and several others left for an outing of several days in the Santa Fe mountains. The party took with them a number of horses as pack animals and expect to go up in the mountains about thirty miles.

Mrs. B. W. Robbins and son, Howard, were passengers over the Denver & Rio Grande railroad for Denver, where they will spend a week or ten days visiting friends. They will go from Denver to St. Louis to spend three weeks attending the exposition. Later they will go east to New York City, Rochester, Syracuse and Niagara Falls to spend eight weeks on a pleasure trip.

From the Independent.

Miss Phyllis Usher left last week for Alma, where she has been engaged to teach the public school.

A. B. Laird has been temporarily appointed to the position of city marshal and is acting in that capacity.

SILVER CITY.

From the Independent.

Miss Phyllis Usher left last week for Alma, where she has been engaged to teach the public school.

A. B. Laird has been temporarily appointed to the position of city marshal and is acting in that capacity.

Labor day was quite generally observed in Silver City, business, as a rule, being suspended. The public schools closed for the day.

Fall roundup are at work in different parts of the county, and the cattlemen are very busy in consequence.

Mr. and Mrs. Percy Wilson and his daughter, who have been visiting Mr. Wilson's parents at Silver City, have returned home Friday.

Miss Sarah Hulse and Miss Alice Bailey were arrivals on Friday's train from Luna Beach, Cal., where they enjoyed a three weeks' vacation.

Miss Blanche Casey left Thursday evening for Lordsburg, where she will teach in the public schools during the term which opened yesterday.

Willie Thompson died at his home in Silver City Tuesday night at 11 o'clock, after an illness of several weeks. The cause of his death was tuberculosis of the spine.

Mrs. James C. W. Marriott and James A. Shipley left last week for the coast, where they will remain until the first of the year visiting relatives and friends in different places.

Conductor H. F. Griffith, wife and daughter, returned Sunday from a vacation trip just in Kansas City, Mo., South Haven, Mich., and a visit to the St. Louis exposition.

William E. Lorentz left Thursday evening for San Francisco to attend the Knights Templar convocation, after which he will return to Los Angeles, joining his mother and locate permanently at some point in southern California. Mr. Lorentz has been a resident of Silver City for many years and his departure is a source of general regret.

Grant Fenced and Trouble is Feared. There is danger of serious trouble among the settlers living near and on the Rio Grande, near Las Vegas. Miles and miles of wire fences have been put up and hosts have been removed.

Harold Romero has returned to Las Vegas, bringing with him Aureliana Reed, who is charged with cutting fences. The Rock grant has been leased to entrepreneurs and fenced. The stockmen, who have been using it as a free range and also some squatters, have been forced to quit.

Business at Santa Fe.—Mrs. L. C. Klaxner of Placitas, Lincoln county, arrived at Santa Fe from her southern home. Mrs. Klaxner has business before the territorial land board in the matter of her prior claim to the base of a school section in Lincoln county upon which her father settled more than thirty-eight years ago, and upon which her father, who is now dead, her mother and herself have been actually residing during these many years. It seems that certain legal complications demand her personal presence at Santa Fe. She has been to great expense, time and trouble in establishing her right and hopes to do so finally beyond controversy before long.

WEEKLY CROP BULLETIN REPORTS

Santa Fe, N. M., Sept. 6.—The temperature has averaged about a degree a day above normal, although the week closes rather cool. Local showers continue quite generally over the territory, mostly light and somewhat less frequent, but heavy in a few localities. Hail with a heavy rain storm at White Oaks on the 2nd, did considerable damage to houses and destroyed gardens and fruits. As a whole the weather conditions have been very favorable and crops and grass continue in excellent condition. Cool nights have become quite common and some northern and higher altitude stations have escaped frost, especially on Saturday and Sunday mornings.

Grass on the ranges, as a rule, is fine and stock of all kinds is thrifty. A few localities, however, report drier and shorter grass, which is drying out rapidly and gives poor promise for winter feed, this is especially true in parts of Colfax, San Miguel, Lincoln, Chavez, Otero and Grant counties. Haymaking continues and the harvest of the fall crop of alfalfa is beginning in northern counties, with good yield.

Grains have caused some filling of late rains, corn and beans in parts of Lincoln county, but generally those crops are growing finely. Corn is filling well and even where planted too late for ears, will make an abundance of fodder. Considerable cantel is reported in northern Valencia. Fruits and vegetables have been much benefited by the frequent showers and are plentiful in the markets.

The following extracts are taken from the reports of correspondents: Albuquerque—Henry Grant—Frequent rains during the past ten days and grass is the best ever seen in this section; crops are very good and yielding better than for a long time past on the Chama; all our people are cheerful over the prospect.

Alamogordo—D. R. Weather Bureau—Crops in splendid condition, above the average yield; highest temperature 84 degrees, lowest 57 degrees, rainfall 1.45 inch; latter part of week rather cloudy, with good showers.

Artesia—A. M. Richardson—Previous week hot and dry; grass browned and some of the late sugar cane, corn and beans showing effects of the dryness and heat.

Aurora—J. C. Lobero—No rain the last week, except light shower; very hot days, cool nights; crops look good—barley, oats, potatoes and hay are principal crops in this locality.

Bloomfield—W. A. Ballinger—Two good showers, vegetables, corn, etc., doing nicely; only danger now is from early frost; third crop of alfalfa now ready for harvest.

Capitan—May Sheehan—Nights cool, during past week showers night; the first grass good in places; stock in fine condition.

Deming—C. B. Bosworth—Reports from surrounding country indicate that crops, grass and stock are in fair condition; this week, highest temperature 78 degrees, lowest 50 degrees, mostly clear skies.

Edmonstone—George E. Beebe—Showers during the past week; grass on range good, stock in fine condition; haymaking, light crop.

El Paso, Texas—E. R. Weather Bureau—Highest temperature 76, lowest 54 degrees, departure about 3 degrees daily above normal; rainfall, 1.5 inch.

El Rito—P. Lopez—Beautiful weather and people contented; sheep owners feeling good and say they expect to be able to have abundance of pasture.

Bellevue—P. A. Speckman—Light showers during week, but not enough to be of much benefit; cool nights aid in maturing growing crops; stock and cattle doing nicely as ranges are excellent; east of here native grass is being cut and though short will make good feed for winter.

Elk—Boyd Williams—Stock in good condition, but not much grass on range for winter feed; hay and corn crops only fair.

Payson—T. C. McDermott—No rain now for about two weeks and range drying up, grass browned; little hay which is worth cutting.

Folsom—Jackson Taber—Good showers, dry, warmer weather needed to cure grass for winter; stock of all kinds fat; last crop of alfalfa will be light. Highest temperature 82, lowest 57; rainfall 0.45 inch.

Gallinas Springs—Jas. E. Whitmore—Week has been fine for growing crops and grass; cattle are getting in fine condition, but not fat; showers in vicinity nearly every day; highest temperature 84 degrees, lowest 57 degrees, rainfall at station trace.

Gilmore—Anna Coe—Several good rains the latter part of previous week. Hileboro—J. M. Webster—Week mostly clear, good rain on the 2nd, amount, 0.6 inch.

Los Lunas—Chas. F. Jones—Heavy rain on the 1st; a good third cutting alfalfa being made; wheat all thrashed and good average yield.

Las Alamos—Wm. Frank, Jr.—Good heavy rain the 2nd; grass doing well but crops not so good; stock keeps in the condition on the ranges.

Las Vegas—Wm. Curtis Bailey—Good week for crops, rain the afternoon of the 2nd will help greatly; highest temperature 80 degrees, lowest 49 degrees, rainfall 0.58 inch; last of week cool and rather cloudy.

Ojo Caliente—A. Joseph—Local showers continue in the mountains and over the valleys; crops are yielding more than was expected and grass on range is very good; live stock all fat, and good winter feed assured.

Boys—Samuel Dean—Our fifth dry week in this locality and crops and grass drying up; everything practically beyond redemption.

Rosita—J. H. Curtis—No rain for two weeks and crops looking bad; considerable wind.

Santa Fe—U. S. Weather Bureau—The week closes cool and showery, although the temperature for the week averaged nearly a degree a day above normal; highest 80 degrees, lowest 49 degrees, rainfall 0.58 inch; last of week cool and rather cloudy.

Ojo Caliente—A. Joseph—Local showers continue in the mountains and over the valleys; crops are yielding more than was expected and grass on range is very good; live stock all fat, and good winter feed assured.

Boys—Samuel Dean—Our fifth dry week in this locality and crops and grass drying up; everything practically beyond redemption.

Rosita—J. H. Curtis—No rain for two weeks and crops looking bad; considerable wind.

Santa Fe—U. S. Weather Bureau—The week closes cool and showery, although the temperature for the week averaged nearly a degree a day above normal; highest 80 degrees, lowest 49 degrees, rainfall 0.58 inch; last of week cool and rather cloudy.

Boys—Samuel Dean—Our fifth dry week in this locality and crops and grass drying up; everything practically beyond redemption.

Rosita—J. H. Curtis—No rain for two weeks and crops looking bad; considerable wind.

The whole country is still getting drier; third cutting of alfalfa nearly done; corn filling well; native grass good everywhere; some of the crops running every day and roads beginning to get dirty, cattle fine and fat; highest temperature 85 degrees, lowest 49 degrees, rainfall 0.58 inch. Showers continue and farmers beginning to wish for dry weather for threshing; crops doing well, but considerably short in corn, which was too badly damaged by early dryness to make a crop, but will give abundant fodder; barley heading and doing finely; native hay being cut and yield will be fairly good.

Verde—H. W. Adams—Showers every day in vicinity; haying progressing satisfactorily;

TRACTION COMPANY'S FRANCHISE WRANGLES

From Wednesday's Daily Citizen.

Among other things the city council did last night, was to get badly mixed up. The most simple of parliamentary rulings were badly disregarded and Aldermen spoke at random, sitting and standing. Several times Alderman Gillenwater, who seems to be the parliamentary sage of the council, rose to the point of order, but the chair gave his objections little recognition.

The storm broke when the mayor called for "unfettered business" and Alderman Wilkerson asked for ordinance 281, an ordinance altering the franchise of the traction company, giving the traction company the blanket franchise, with little obligation attached to it, and accepting the two miles and a fraction of a mile of track, with a fraction of a mile of track yet to be built, in lieu of the three miles of track the company in the franchise agreed to lay in the city of Albuquerque.

Ordinance 281 was not produced but an ordinance drawn up by the city attorney, complying with the request of the traction company, was produced. This ordinance was numbered 282. It was read by the city clerk and Alderman Wilkerson moved that it be passed with the suspension of the rules.

Alderman Halsey was on his feet in a moment, and moved that the mayor appoint a special committee of three to act as custodians of the ordinance and to meet officers who have objections against the granting of the franchise to the Highlands.

The ordinance from the first ward made quite a lengthy speech. He said that people of the Highlands representing thousands of dollars worth of property had come to him with vigorous protests against the altering of the street railway franchise ordinance, and not only did these objections come from the people of the Highlands, but many people of the Lowlands, were also objecting. He said that he did not object to releasing the \$2,000 tied up in the bank, and substituting a bond in its stead. He did not believe in tying up money in an unnecessary way under any circumstances, but he believed that the traction company was getting a good franchise, one that in time would be of great value, and that it was little enough for them to do to give up to it and build three miles of road in the city limits.

Alderman Harrison then said that the traction company had practically complied with the franchise; had given the city good street car service, five cars and an excellent road and he wished to comply with the wishes of the company.

Mr. Wilkerson again moved that ordinance 282 be passed with the suspension of rules.

Alderman Harrison seconded the motion.

Alderman Halsey made another vigorous protest at this juncture.

An amendment was made in some motion, nobody seemed to know which and then this amendment was amended.

Alderman Gillenwater rose to the point of order, and the chair asked the clerk where they were.

About this time Alderman Wilkerson made a lengthy speech. He said that if the people didn't want the car line built to Burelia, this half mile of road would be built up some side street. He handed the "buckers" on the Highlands several "big bunches."

Alderman Gillenwater was the next on his feet. He said that Mr. Wilkerson had become unduly excited; that he was in sympathy with the men who had invested his money in the street railway, but believed that the ordinance should not be rushed through—it should be allowed to take its natural course, thus giving the people a chance to enter their protests if they have any.

Alderman Halsey took another turn at the wheel, criticizing another protest against the rushing through of ordinance No. 282.

Alderman Halsey said: "I don't believe you can find a person on the Highlands that does not object to the passage of this ordinance."

Alderman Halsey took another turn at the wheel, criticizing another protest against the rushing through of ordinance No. 282.

Alderman Halsey recommended that the ordinance pass. He said that he had made such a report at a previous meeting. "Yes," said Halsey, "after considering it ten minutes." Alderman Halsey continued saying that if the Highlands wanted a street car line, why don't they pay for it.

Harrison and Gillenwater rose at the same time. The former to speak in favor of the passage of the ordinance and the latter to protest as to the point of order.

The mayor said: "They have all been out of order; go ahead."

Halsey's motion for the appointment of special committee went to a vote, but was defeated by Wilkerson and Harrison voting "no."

After some more wrangling ordinance No. 283 found its destination, temporarily at least, in the hands of the finance committee.

Ordinance No. 281, the original of the franchise altering movement, which was introduced at a previous meeting by Alderman Wilkerson, attorney for the company, was then asked for.

Mr. Wilkerson contended that it was still before the council and had been read the first time, and moved that it be read the second time.

Ordinance No. 281 could not be found, even though a recess was called and the clerk went to his office to look for it.

Gillenwater again rose to the point of order and won his point.

"Move On" Ordinance.

Alderman Halsey then called for the "move on" ordinance, which at a previous meeting had been referred to the police committee.

Alderman Leonard, chairman of the police committee, said that he was not yet ready to report on the "move on" ordinance and asked for more time. Thereupon Mr. Halsey insisted that the police committee set a time on which to report on the "move on" ordinance, and the police committee was instructed to report on "it" at the next regular meeting of the council.

The chief of police report showed fines collected for month of August, \$680; arrests made, 126; and 201 meals served.

City treasurer's report for September showed a balance of \$10,665.02.

City clerk's report for September was approved.

Fire committee reported that two firemen had been released for misconduct.

On motion from Alderman Harrison, seconded by Alderman Leonard, a light was ordered placed at the corner of Copper avenue and Seventh street.

The council ordered that \$225 be placed in the credit of the fair association to be used in lighting the city fair work. Last year the appropriation for this purpose was \$180.

On motion from Alderman Harrison, seconded by Alderman Leonard, a light was ordered placed at the corner of Copper avenue and Seventh street.

stock of said corporation in one hundred thousand dollars, and the number of shares of which said capital stock shall consist is one hundred thousand of the par value of one dollar each, all of the stock of said corporation shall be non-assessable and may be issued fully paid in payment for such property and property rights as may be deemed by the board of directors to be necessary or expedient for the business of the company.

SIXTH. The time for which said corporation shall exist is fifty years from and after the date of its incorporation.

SIXTH. The number of the directors of said corporation shall be not less than three, nor more than five as may be determined from time to time by the stockholders of said corporation, and the names and residence of those who are appointed for the first three months are as follows:

Alonso R. McMillen, Albuquerque, New Mexico; Herbert P. Reynolds, Albuquerque, New Mexico; and Eugene A. Fiske, Santa Fe, New Mexico.

SEVENTH. The principal place of business of said Santa Fe Land Company shall be in the city of Albuquerque, County of Bernalillo, Territory of New Mexico.

IN WITNESS WHEREOF I have hereunto set my hand and seal this 29th day of August, 1904.

ALONSO R. McMILLEN, (Seal)
HERBERT P. REYNOLDS, (Seal)
EUGENE A. FISKE, (Seal)

Notary Public,
Territory of New Mexico, County of Bernalillo, ss.

On this 29th day of August, 1904, before me a notary public within and for said county personally appeared Alonso R. McMillen and Herbert P. Reynolds, to me known to be the persons described in and who executed the foregoing instrument and acknowledged that they executed the same as their free act and deed.

In witness whereof I have hereunto subscribed my name and affixed my official seal the day and year last above written.

(Seal) FELIX LESTER,
Notary Public,
Territory of New Mexico, County of Santa Fe, ss.

On this 30th day of August, 1904, before me a notary public within and for said county personally appeared Eugene A. Fiske to me known to be the person described in and who executed the foregoing instrument and acknowledged that he executed the same as his free act and deed.

In witness whereof I have hereunto subscribed my name and affixed my official seal the day and year last above written.

(Seal) ERNEST A. JOHNSON,
Notary Public,
Territory of New Mexico, County of Santa Fe, ss.

On this 30th day of August, 1904, before me a notary public within and for said county personally appeared Eugene A. Fiske to me known to be the person described in and who executed the foregoing instrument and acknowledged that he executed the same as his free act and deed.

In witness whereof I have hereunto subscribed my name and affixed my official seal the day and year last above written.

(Seal) ERNEST A. JOHNSON,

RAILROAD NOTES

D. A. Slope, a well known Santa Fe Pacific official, stationed at Winslow, is in the city on business.

Engine 561, after a fine overhauling in the back shop, is now on the road and doing good service.

The washouts on the Rock Island and El Paso and Northern have been repaired, and trains are now running over the main line of travel.

The new stationmaster at Las Vegas is E. L. Courtwright, formerly city marshal of that town. He is big enough, in height and weight, to do his duty well.

A record breaker load of lumber was shipped by the Alamosa Lumber company recently. Something over 24,000 feet was shipped on one car to Chicago.

It is railroad comment that the Rock Island is to add many miles to its main track in Texas this fall. New lines are to be built between Fort Worth and Dallas and Galveston.

Senator W. H. Andrews, of the Santa Fe Central and Albuquerque branch roads, will not be in Albuquerque for a few days. He is at present on a visit to the Hagan coal fields.

Mr. and Mrs. H. P. Bailey, of Los Angeles, were passengers yesterday for St. Louis, where they will attend the World's fair, and the Traveling Engineers' convention at Chicago. Mr. Bailey is the traveling engineer of the Erie National Headlight company.

C. H. Smith, stenographer to Master Mechanic Dean, has returned from a vacation of several weeks enjoyed in the east. Mr. Smith is cleaning up his work in the head office preparatory to accompanying Mr. Dean to California, where that gentleman takes up his duties as superintendent of his railway on the Santa Fe coast line.

The Vandell has adopted the plan of running special coach trains for the accommodation of its employees who desire to visit the exposition. One of these trains was run Friday and was filled with employees, who spent the day at the exposition and returned that night. Everybody was given free transportation.

Work on the Arizona and Utah railroad is well under way, and it is expected that the road will be in condition to move trains on some time this week. The road will shortly lay the big bridges and will fill in the old cut. It will take several months to get it in the same condition as before the floods.

According to calculations made by the Wall Street Journal, there is a most wasteful use of freight equipment by the railroads of the country. It computes that the supply might be reduced by 25 per cent and no inconvenience be put upon anybody. The loss, through extravagance, in interest, depreciation, etc., is estimated at \$100,000,000 a year.

The appearance of the Denver & Rio Grande yards in Santa Fe have been greatly improved by the removal of all weeds and debris. The work which has been going on for several days is now about completed. The roadbed within the corporate limits of that city is also being given attention. New ties are being laid and ballasting is being done at several points.

There is a newspaper report among the rounds that the railroad upon which work has lately been commenced from Irving to Death Valley is to be continued to Goldfield, Nevada, and that the Santa Fe is behind the proposition because it will give them an entrance to that section of the country and connect with the flag-wire branch. To a man up a tree and don't look like a very feasible scheme, says the Needles Eye.

The Pittsburg Post of the date of September 1 contains a cut and biographical sketch of Francis J. Torrance, president of the New Mexico Fuel and Iron company, vice president of the Santa Fe Central railway company, and president of the Western Pennsylvania Exposition society, which is now holding an annual session in the Keystone metropolis. At the opening session, August 31, more than 15,000 people were in attendance. The Post speaks of Mr. Torrance as being the most happy man present.

NEED A NEW MAN.

Rock Island May Select a Third Vice President.

According to good authority, the Rock Island will soon have a third vice president in charge of traffic for the entire system. The Rock Island formerly had such a position and J. M. Johnson, now a field man, controlled traffic, but when the Moore contract, Mr. Johnson left the company and the position was left vacant.

J. F. Holden, freight traffic manager, and John Robinson, passenger traffic manager, have been reporting directly to President Wibel, but under the new plan they would report to the third vice president.

Presidents Lums and Winchell are said not to be satisfied with the last year's traffic results and think by appointing a new man in charge conditions will be improved.

LOST THEIR HAT CHECKS.

Drummers Ejected From Train and Sued for \$10,000 Damages.

J. M. and L. T. Gwin of Baltimore, Md., have filed suit against the Chicago & Alton railway at Bloomington, Ill., for \$10,000 damages. Last week they were ejected from a train by the local police officers upon the request of the company for failure to account for hat checks given them by the conductor certifying that they had given up transportation for St. Louis. The company asserted that such checks must be displayed or accounted for. The complainants, who are traveling salesmen representing an eastern food company, deny that such checks must be displayed and will make a test case.

Situation of the Washouts.

Bright & Drew, railroad contractors, have a large force of men and teams at work in the canyon below Klugman making repairs to the roadbed. A large force of bridge carpenters are

also at work repairing bridges recently destroyed by floods. It will take at least a month to get the bridges and roadbed in shape for fast trains to run over. In Truxton and Crocker canyons repairs are under way but it will be several months before the track is put in the same condition that it was before the floods.

The railroad company is rushing work all along the line hundreds of extra men being on the payrolls of all sections in this county.—Klugman Miner.

An "Audacious" Engineer.

Engineer J. D. Lammiman returned from a visit east the first of the week and had the audacity to bring his wife back with him. After his best of friends met over the first shock they got together and paid Jack and his wife a little visit, which they will be sure to forget. After the Winslow band had played a few airs and some good music was rendered by the mandolin club, the bride and groom received the congratulations of the gathering in the form of a gift of silverware.—Winslow Mail.

AFRAID OF WOMEN.

Railroad Clerks' Brotherhood Thinks Men Are Being Replaced.

Members of the Brotherhood of Railroad Clerks in New Orleans have been the local agencies of the railroad line, replacing men with women. The other members of the union were put to work in the offices of the Illinois Central and the New Orleans and Northern roads. A member of the Clerks' Brotherhood said that the appearance of these women workers caused consternation among the clerks, who fear that an effort is made to change general will be made. The women employed were interested with making expense accounts, a very important position in the railroad office.

BIG CENTRAL SHOPS.

Those at Aguascalientes Largest and Best Equipped in Mexico.

The Mexican Central shops at Aguascalientes, which have been lately completed, are the largest in the republic. The boiler, machine and erecting shops occupy a building 100 feet long by 140 feet wide. This building has a center bay and two side bays; the center bay has three long radial tracks running through it. These connect at each end with the yard tracks. The center and both side bays for a distance of five paces, or 100 feet, at the north end form the boiler shop; the erecting shop occupies the remaining 50 feet of the center bay, and the machine shop is located in the side bays on each side of the erecting shop.

New Time Table.

A new time table will go into effect on the Santa Fe Central railway Sunday, Sept. 1, at 12:01 a. m. Train No. 1 will leave Santa Fe daily at 8:15 in the morning and will arrive in Torrance at 3:30 in the afternoon. Train No. 2 will depart from Torrance daily at 10:45 a. m. and arrive in Santa Fe at 5:00 p. m. This schedule will undoubtedly be the most satisfactory the road has had. On the old schedule train No. 1 left Santa Fe at 7:15. It was decided that this was too early, that transients and residents of the ancient town could not prepare to leave at this time.

Shops Closed.

Following a policy recently ordered by President Robert Lincoln of the Pullman company, orders were received by Superintendent Smith to close the Denver shops and they immediately went into effect. It had been anticipated for some time that the Denver shops would be ordered closed, as they have been in the town of Pullman, and if the information of some of the more prominent railroad men is not at fault, the move is a clever alternative taken by President Lincoln to avoid labor troubles.

Helped by Republican Tariff.

The railroad employees of the United States, who are receiving now annually over a quarter of a billion dollars more in wages than during the operation of the Wilson-Gorman tariff law, are quite content that they should be called "non-protected laborers."

As a fact, however, the railroad laborers of the country are as fully protected as any other and would be the first to feel the blight of lower tariff or free trade.

New Bridge at El Paso.

The work on the new Southern Pacific bridge over the Rio Grande is assuming business-like proportions and the structure is beginning to show its magnitude. The approach to the east end of the bridge is about finished. Two of the big cement piers are now up and a third pier is being put in at the west end of the bridge where the flow of water underneath the surface seems to be heavy.

Force Increased.

The Newton car department of the Santa Fe is in the midst of a great rush. Within the last few days the force of carmen has been increased by an addition of 20 or 25 men. There is a big demand for grain cars and the company is rushing the repairs on the bad orders as rapidly as possible.

The Santa Fe Central Railway company is shipping considerable lumber from Escanaba, Michigan, at that point has been satisfactory during the past few months, and has increased materially in the last 100 days.

ESSEX RESIGNS.

General Foreman of the Big Local Shops Resigns.

On the 1st of October W. L. Essex leaves the service of the Alton, Toppa & Santa Fe Railway company as general foreman of the local railway shops, and will connect himself with another company, which name he at present refuses to divulge. His successor has not yet been named, but it is learned that the names of sev-

eral well known machinists on nearby divisions are being mentioned in connection with the local foremanship.

Mr. Essex is a first class machinist, a shrewd, honest workman, for the interests of his employers, and there are many in Albuquerque who will regret to learn of his approaching departure.

Railroad Topics

OLD ENGINE TO BE SAVED.

No. 1 Was the First Locomotive to Cross Continent.

Governor Stanford No. 1, the first locomotive to cross the continent from the Pacific coast, is being placed in the Stanford museum, where it will remain permanently as a relic, says a dispatch from San Francisco. This engine was built in the early 40's and was brought from the east around Cape Horn in 1867. After the driving of the golden spike, the last act in the completion of the Central Pacific railway, on May 10, 1869, No. 1 was used by Governor Stanford to draw his private train through Nevada to the scene of the exercises. The Central Pacific company gave the engine a few years ago to Mrs. Stanford. It has been resting under a shed on the university campus, but is now being removed to the museum, where the rust is being scraped from it and the metal work being polished and a new coat of paint added to make it appear as nearly as possible like it did when it was the finest type of locomotive in use. A handsome glass case is to be built over the engine, and it will be placed on exhibition.

Wanted for Blugging Non-Union Machinist.

A dispatch from Topeka, dated August 21, says: A. E. Ireland, an American Federation of Labor official, who is helping conduct the Santa Fe machinists' strike, was arrested tonight by Sheriff Lightholt of Fort Madison, Ia. Ireland was wanted on a charge of assault with intent to kill. July 16 he is said to have struck Wesley F. Johnston, a non-union Santa Fe workman, with a mallet concealed in a handkerchief, producing a dangerous wound. Sheriff Lightholt arrived today with a requisition for Ireland, from Gov. Cummings of Iowa. This was honored by Gov. Ireland before the arrest was made. Ireland left for Fort Madison tonight in charge of an officer. Ireland has a similar charge against him in Kansas City.

Eden Disaster Causes Resignation.

The first changes to occur in the operating department of the Denver & Rio Grande railroad since the recent wreck at Eden were announced at Denver Monday. Circulars were issued from the general manager's office announcing the resignation of P. B. Clark, superintendent of bridges and buildings, with headquarters at Pueblo, to take effect at once. J. L. Thompson, who has been supervising of bridges and buildings on the Rio Grande Western, with headquarters at Salt Lake City, has been appointed to succeed Mr. Clark. C. R. Thompson will succeed J. L. Thompson at Salt Lake City.

Short Line Between Denver and El Paso.

A new short line between Denver and El Paso is now being talked of among the railroad men. The announcement was made yesterday that the Denver & Rio Grande had absorbed the Santa Fe Central, and that a branch line would be built from Santa Fe to Fort Worth, N. M., where connections will be made with the Santa Fe Central to El Paso. The company for the building of this line was incorporated under the laws of Texas. It is said that the company will facilitate the rights of way and terminal facilities for the proposed extension.—Denver News.

Damage Suit Against Santa Fe.

A suit for \$10,000 damages for alleged false imprisonment has been filed at Winfield, Kansas, in the district court against the Santa Fe Railroad company by Stuart Cott of Arkansas City. Last summer during the machinists' strike Cott was arrested on a charge of meddling with engines of the company. He was discharged in court and next arrested on a charge of having violated an injunction to prevent strikers from interfering with the non-striker men who came to take their places, being held on a charge of contempt of court. He was also proved not guilty of this offense.

Night Offsets Closed.

Thursday the Santa Fe issued orders closing all night offsets along the line west of Albuquerque. This means a lay-off of from a week to ten days for all the operators in the day offices between Winslow and Holbrook, except at the larger towns. All freight and other trains have been cut on except one a day each way between Holbrook and Albuquerque. Those making the run by daylight, thus saving the company the expense of night operators.

Air Brake Association Convention.

J. G. McNeal, of the Santa Fe air brake department, has received a letter from F. M. Nellis of New York City, asking what inducements Topoka could offer for the convention of the Air Brake Association in the year 1905. Mr. Nellis is secretary of the association and is casting about for a place for the holding of the annual convention next year. The letter has been turned over to the Commercial club of Topoka.

Battling Against High Waters.

The Albuquerque division put in a hard week battling against the work of the high waters. Besides minor washouts No. 2 found about 400 feet of track shifted two feet between Hildard and Canyon Diablo on Tuesday night. Even at Winslow the yards were about six inches under water Tuesday night, but no serious damage resulted.

Jury Disagreed in Wilson Case.

Thomas L. Wilson, fourth vice president of the International Association of Machinists, tried at Wellington, Kansas, Monday, on a charge of assault recently upon a Santa Fe strike breaker, will have to stand another

trial. The jury was out sixteen hours and failed to agree upon a verdict. Eight stood for conviction and four for acquittal.

Charles W. Goodyear is said to be worth \$20,000,000. He is a railroad owner, a coal mine operator and a small sized lumber king. He is very popular in Erie county, New York, and Grover Cleveland has publicly announced his pleasure at the announcement of Mr. Goodyear's candidacy for the governorship of New York.

Dr. Goettitz, of Ocala, Kan., has been appointed to succeed Dr. Shaw as chief surgeon of the Santa Fe hospital at Las Vegas. Dr. Shaw will devote his time to private practice.

Joe Atwood, formerly cashier at the local depot, but more recently agent at Holbrook, has tendered his resignation to the company, and will arrive at Williams shortly to accept a position as bookkeeper for J. C. Pielan.

Al Pelphrey has secured the contract for the construction of the railroad houses at Alamogordo, and has begun on the first lot.

L. A. Gatz, superintendent of electrical appliances on the Santa Fe, was a visitor at the local Santa Fe shops yesterday.

B. H. Newell, resident engineer for the Santa Fe at Las Vegas, is in the city on business.

Railway Conventions in 1904.

September 13—Traveling Engineers' association at Chicago.

September 13—Master Car and Locomotive Painters' association at Atlantic City, N. J.

September 13—Roadmasters' and Maintenance of Way association at St. Louis.

September 15—Central and Western Association of Car Service Officers at St. Louis, Mo.

October 18—American Association of General Passenger and Ticket Agents at Old Point Comfort, Va.

October 18—Superintendents of Bridges and Buildings at Chicago.

November 15—National Convention of Railroad Commissioners at Montgomery, Ala.

October 26—American Railway association at Philadelphia, Pa.

After More Ballast—The officials of the Rock Island road at Chicago, through representatives, are negotiating a deal with the Dallhart, Texas, Mining company, for ballast from their property in the San Juan mountains, New Mexico. This company has unlimited quantities of low grade ore running \$15 to \$18 per ton in silver, gold and copper, that, owing to absence of proper stamp mills is being put on the dump until such a time as one can be secured. In case the deal is consummated a spur will be run to the property from Talrosa, N. M., and the material distributed to the various points on the Rock Island system and used as ballast.

Santa Fe Power Excellent—The

local shops received a peculiar message from Topeka last week, and here it is:

"Our boiler shops are idle; have you any engine you could send out to work on. Signed General Foreman."

Several engines were dispatched to Topeka from the western division and this message came back:

"These engines are good for six months yet. Have you any that need new boilers?"

The answer went back: "No." And this is the reported condition of the shops of the Santa Fe.

New Journal Bearing to be Tested.

Superintendent Johnson of the Galveston & Houston has issued a bulletin to conductors, advising them that within a few weeks the Southern Pacific will receive from the factory 1,000 flat cars which are for service in Texas and on the Pacific system. They are equipped with what are called spiral journal bearings. To determine whether these cars will prove satisfactory or not, Mr. Johnson asks that conductors report trouble of any nature experienced with them.

Arizona & Eastern Railway—The

Arizona and Eastern railway is surveying in the mountains, twenty miles northwest of Lordsburg. It is endeavoring to find a way to cross Stearns Peak range of mountains, with a less grade than at Stein's Pass. It is reported that it has found a very good grade and this will probably mean the construction of a road from Lordsburg to connect with the Gila Valley railroad near Solomonville.

An Arizona Railroad—C. R. Goodie

came in from Red Rock, and says the Grant Bros. expect to have the railroad from Red Rock completed to the Imperial valley by the last of this month. Twenty-five teams and carts were taken over last week to work on the grade. In addition to the teams already on the ground. The track has been completed to within six miles of the mines, and the grade has been completed to within three miles of the mines.—Florence, Arizona, Herald.

S. L. Bean, superintendent of machinery on the Santa Fe coast line,

will likely be relieved as master mechanic at the local shops about the 20th of the month. Mr. Bean has been prepared to leave to attend to his official duties as superintendent of machinery for some time past, but has been detained by the arrival of Mr. Hicks, general foreman of the shops at San Bernardino, who in turn is detained by the sickness of Mr. Todd, master mechanic at that place.

W. T. Newman, vice grand master

of the Brotherhood of Railway Trainmen, arrived at El Paso on the west-bound Southern Pacific and will remain there a few days visiting the local lodge of the order. During his visit he will deliver an address to the members.

\$50,000.00

CASH GIVEN AWAY to Users of

LION COFFEE

In Addition to the Regular Free Premiums

How Would You Like a Check Like This?

We Have Awarded \$20,000.00 Cash to Lion Coffee users in our Great World's Fair Contest—2139 people get checks, 2139 more will get them in the

Presidential Vote Contest

Five Lion-Heads cut from Lion Coffee Packages and a 2-cent stamp entitle you (in addition to the regular free premiums) to one vote. The 2-cent stamp covers our acknowledgment to you that your estimate is recorded. You can send as many estimates as desired.

What will be the total popular vote cast for President (votes for all candidates combined) at the election November 8, 1904?

In 1900 election, 13,500,653 people voted for President. For nearest correct estimate received in Woolson Spice Company's office, Toledo, O., on or before November 5, 1904, we will give first prize for the nearest correct estimate, second prize to the next nearest, etc., as follows:

Grand First Prize of \$5,000.00

will be awarded to the one who is nearest correct on both our World's Fair and Presidential Vote Contests.

We also offer \$100.00 Special Cash Prizes to Grocery Clerks. (Particulars in each case of Lion Coffee.)

LOCAL NEWS

From Wednesday's Daily Citizen.

A Car of Fruit for Albuquerque.—Robert Kullback, as chairman of the committee on advertising for the Roosevelt fair, is now ready to receive propositions from all fruit raisers of the county as to what they can contribute in fruit and farm products to send to the Albuquerque fair a sample of our best products.—Roosevelt Bureau.

Damages in Dispute.—The British-American Assurance company, has refused to pay the city's claim of \$16.67 damages done the victim by fire. Contractor Higgs, for the company, and Street Commissioner Tierney, for the city, have been appointed on an arbitration board to settle the matter. These gentlemen will settle on the third member of the board.

Died in New York City.—Lehman Spitzberg died in New York city this morning. He resided for many years in Santa Fe, and was well known in New Mexico. He helped organize the second National bank of Santa Fe. Up to a short time ago, he was owner of four vacant lots on North First street of this city, but these lots were sold by Samuel Noustad to Jesus Romero.

Railroad Officials Here.—Senator Andrews and W. S. Hopewell were guests at the Alvarado last night and left this morning for Santa Fe. They went yesterday at Hazen. The Hazen coal fields, where work of developing mines is in progress. Mr. Andrews said that eighty trains and a large force of men are now at work on the eastern end of the Albuquerque Eastern.

Lost-San Marriage.—Last night the presence of the Lord Avenue Methodist church W. C. Frank and Miss Della Lane were held in the holy bonds of wedlock. The ceremony being performed by Rev. Thomas D. Cooks. The bride is the daughter of Mrs. C. E. Lane, and is well known and popular. Mr. Frank is the stenographer at the grocery establishment of Gross, Kelly & Co.

Another Honor for Gov. Princes.—At the World's fair at St. Louis, on September 1, the judges of the section of history organized with Professor Fortie, president of the Louisiana Horticultural society, as chairman; Hon. L. Bradford Prince, of Santa Fe, vice chairman; Professor Carlton Lee of Baltimore, secretary. The chairman and vice chairman became members of the department jury, which reviews the work of the section judges, after their report is made.

Purchase Insurance Business.—W. McDonald has purchased the insurance business of W. Moore Clayton, this morning the agency for the strong British-American Assurance company of Toronto, Canada. Besides, Mr. McDonald will deal in real estate and will write policies for the Mutual Life Insurance company of New York. He has established a desk at Harry T. Johnson's, No. 209 South Second street, where he will be pleased to meet his many friends. The Citizen understands that Mr. Clayton will visit St. Louis and take in the World's fair, remaining away some time.

Confident of Republican Majorities.—Hon. Bohannon Luna, the well known Valenciana county politician, is in the city today from his home at Las Lunas. Speaking politically, Mr. Luna says the republican delegate candidate to be nominated at the convention in this city next Monday will be elected by handsome figures and it is his opinion, also, that the next territorial legislature will have a good republican majority in both branches.

Regarding the country south of Albuquerque. Mr. Luna reports a number of fine rains the past month, and says a good growth of grass is now seen on the mesas, plains and throughout the mountains, thus assuring plenty of grass and good water for the stock the coming winter. Mr. Luna and the Valenciana county delegates to the territorial republican convention will be here Sunday, so as to be in their seats at the open house in good time Monday morning.

Rates to Convention.—The chairman of the territorial republican central committee will secure a rate of one and one-half fares one way for the round trip of delegates attending the convention of the party at Albuquerque on the 12th instant.

So All Can Attend the Fair.—The fair association officials are in receipt of an important telegram from Judge John H. McElie, of the First Judicial district. The judge says there will be no court in San Juan county during the week of the Territorial fair, thus allowing everybody in that section of New Mexico an opportunity to attend.

Indian Rights Association Secretary.—J. M. Brosius of Washington, D. C., passed up the road yesterday. Mr. Brosius is the secretary of the Indian Rights Association and in that capacity has done good work for the advancement of the Indians, as well as for the better recognition of their rights by the United States. He has been visiting on the Pacific coast and is now en route home.

Here from Zuni.—G. W. Bennett the general merchant and Indian trader at the village of Zuni, is here interviewing the local wholesale merchants, and will purchase several wagon loads of merchandise and supplies before returning to Zuni. He reports

his section of the territory in good condition at present, the result of several fine rains the past month. He says cattle, sheep and other stock are in the very best of condition.

They Can't Be Beat.—M. Mandell, who went east recently and purchased a fine stock of fall and winter goods for his clothing store, on route home stopped over at French Lick Springs, Ind., where he put in ten days at Tom Tanager's handsome hotel. This morning Mr. Mandell seconded the opinion of everybody else who has visited this great Indiana resort, but made his remarks somewhat stronger by saying: "I have visited Carlsbad, but I regard French Lick Springs far superior in every respect."

Will Be Up and Around in a Week.—Dr. Pearce, who is the attending physician on Fred Starr, the wounded base ball player, stated this afternoon that his patient will undoubtedly be up and around inside of a week. Considering everything, the nature of the wounds and the condition of Starr at the time he was shot, the case is most remarkable, and the doctor indeed performed a most difficult surgical operation, which is proving successful beyond expectations.

Wilson in Charge.—Thomas L. Wilson, the fourth vice president of the International Association of Machinists, is still in the city, and from reports this will be his headquarters and home for an indefinite period. He has announced that he will assume the management and editorship of the Labor Advocate, making it the official strike organ. O. S. French will be the associate editor. Mr. Wilson will make speeches throughout New Mexico and Arizona on the strike situation, and these will be reproduced in the Labor Advocate.

Rev. Hodgson in the City.—Rev. Robt. Hodgson, with headquarters at Gallup, spent today in the metropolis. He has been north holding the last round of quarterly conferences, preparatory to the meeting of the annual conference which will convene in this city on the 22nd of this month. Bishop Ross, formerly editor of the Nashville Christian Advocate, will preside. Rev. Hodgson reports the work in good condition and that for the seventh time it will meet its obligations in full. He leaves for Gallup tonight and will visit Cerrillos and Watrous next week.

The Wagon Was Returned.—Another evidence that a notice published in The Citizen brings results was fully demonstrated yesterday. The small mail delivery wagon belonging to this office, was stolen either Saturday or Sunday night from the back yard of the postoffice. As the thief failed to return same, a notice was inserted in this paper yesterday afternoon, calling on the thief to return wagon, else submit to arrest and exposure. The thief promptly took a tumble to himself, and an hour after the paper was on the street the wagon was returned to the postoffice yard, the thief getting away without being observed. It really does pay to advertise, and especially in The Citizen.

Southern Ranges All Right.—Col. W. H. Greer, president of the Albuquerque Traction company and resident manager of the Valenciana Land and Cattle company, returned this morning from a business trip to El Paso and the southern section of the territory. He is enthusiastic in talking about the condition of the country south of this city, saying that "copious good rains during the month of August put the ranges in fine condition for both cattle and sheep, and every hole of any importance is full of good water. Colonel Greer also reports stock taking on flesh, and says they will go in to the winter in as good condition as they have the past few years."

Growing Knights of Pythias Lodge.—The Knights of Pythias lodge at Magdalena is resting interest in its work. Two weeks ago the lodge at Socorro went up to Magdalena to assist in enlightening six members and last night four members were given the three degrees by special dispensation, by the Socorro lodge. After the two first degrees had been conferred the lodge ceased from labor and proceeded to Mr. Winkler's where a banquet was served. It was twenty minutes to two this morning when the work was finished, and many were the expressions heard from the visiting brethren indicating that they had had an enjoyable time. Rev. Robert Hodgson, of Gallup, who is here today, attended the lodge dinner, and enjoyed himself immensely.

Meat Sustained Serious Injury.—Report comes from El Paso to the effect that Charles E. Mead, formerly of this city, but now river ganger at San Marcel, met with a serious accident at Couchesome, near El Paso. He and Thomas Couchesome were in a bucket swinging from a cable, seventy-five feet above the Rio Grande, engaged in taking the river measurements, when suddenly the cable snapped in two. The bucket with its occupants dropped to the river below. When it struck there was only one foot of water. Had the water been of any considerable depth, Couchesome and Mead would probably have drowned, as it would have been a difficult matter to get out of the bucket. Mead was badly hurt in the back and Couchesome sustained a fracture of one of his legs.

From Friday's Daily Citizen.
Jicarilla Apaches Will Celebrate.—The annual feast of the Jicarilla Apaches will be held September 15 at the village of Dulce, and preparations for the event are now under way. The Citizens understood today that several Albuquerque people will attend the feast.

Left for Denver.—J. P. Marshall, special commissioner of the Lewis and Clark centennial exposition at Portland, Oregon, in 1905, left last night for Denver, after remaining a couple of days in Albuquerque, and interviewing a number of local citizens with the view of arousing among them

an interest in the Portland exposition.

Sanitary Board Against Scabby Sheep.—Sheepmen desire that this morning the board intends presenting a vigorous campaign against scab and that by winter the health of the sheep in New Mexico will be greatly improved and that the disease of scab will be in the flocks of our territory will soon become a thing of the past.

The Tent City Promoter.—Joseph H. Stahl, the well known architect, is in receipt of a letter from Dr. J. E. Miller, now at Fort Wayne, Ind., stating that he hoped to be here in two or three weeks, when he would begin active work on his "Tent City" proposition, which will be established about two and a half miles north of this city. Dr. Miller has been sick at Fort Wayne with typhoid malaria, and is recovering from his illness.

Will Build a Fine Residence.—Colonel W. H. Greer has evidently come here to reside permanently. He will erect a handsome two-story residence of brick and pebble dash finish, of eight rooms, with two modern bath rooms, steam heat throughout and all modern electrical appliances. It will be a handsome residence—one of the nicest in the city. Architect Stahl has drawn the plans and specifications.

Ladies' Committee at Work.—The committee on hall decoration and exhibits for the Territorial fair held an interesting meeting at the residence of Mrs. J. H. O'Reilly yesterday afternoon, and decided that they would push their work very vigorously along the lines of an art exhibit and needle work department. P. Stamm, superintendent of fair exhibits, says the ladies of this committee are decidedly energetic and businesslike, and that the public may have something in these departments worth going to see.

Sandoval County Republicans.—Hon. E. A. Miera and Benito Sandoval, two well known citizens from the Chula and Rio Puerco precincts of Sandoval county, are in the city today, and Mr. Miera was a pleasant caller at this office this afternoon. The republican convention of Sandoval county will meet at Sandoval (Los Corrales) tomorrow, and Mr. Miera says every delegate will be present in person—no proxies—and resolutions will be introduced and adopted endorsing Rodney for delegate to congress.

Accident at New Methodist Church.—While at work on a scaffold, at the new Methodist church at the corner of Third street and Lead avenue, this afternoon, Juan Cardenas was participated to the floor, a fall of about twenty feet, and was quite badly injured. The scaffold broke, and the two other men, with Cardenas, saved themselves by clinging to the wall. Reports late this afternoon say that Cardenas is not as badly injured as first supposed, and will be at work again in a short time.

Fraternal Brotherhood Manager.—J. A. Smith, the territorial manager of the Fraternal Brotherhood of Los Angeles, will leave tonight on a visit to the various territorial lodges. There are fourteen lodges in the territory, with 1,400 members, the largest lodge being the one in this city of 351 members. At El Paso Monday the general organizers of Texas and New Mexico will hold a meeting with Supreme President, C. P. Dandy present, and Mr. Smith will attend. During the absence of Mr. Smith from the city, H. D. Sterling, a deputy officer, will officiate as manager.

Good-Natured Montgomery Here.—George Montgomery, one of the best known railroad officials in Albuquerque on regular trips, is again in the city, and is around among his many friends today. George, years ago, was an ordinary volunteer fireman of this city; in fact, was assistant fire chief of the local fire department, until the writer of this notice, who was the fire chief. Now look at him. He is one of the well-salaried traveling auditors of the coast lines of the Santa Fe, sits at the best hotels on the road, and dresses like a prince. He now lives in Los Angeles, and all ex-Albuquerqueans in the City of Angels are prosperous.

Barnett's Pacers Winning Big Purse.—This morning Joe Barnett received a dispatch from his trainer, Frost, at Trenton, Mo., stating that Stranger O won the free-for-all pace yesterday afternoon in straight heats, and beating the track record by pacing the mile in 2:11. This makes two free-for-all purses Stranger O has won in the Missouri circuit, and seven straight pacing events captured by Young Hal. Trainer Frost will now come south with Barnett's string of fast animals, and the next stop will be at Trinidad and thence to Pueblo. After taking part in these two Colorado events, the Barnett horses will come to Las Vegas and thence home in time to take part in the big races at the Territorial fair. Mr. Barnett is very proud of the record made by Stranger O and Young Hal on the Missouri circuit, and will feed them on Jew fish and Yellow Tails when they come home from their campaigning.

Quaker Reflections.
The weather man isn't through with summer yet.
A man likes to feel young, but a woman is satisfied if she looks young.
It doesn't require a telephone girl to make the world ring.
You never hear an oarsman complain that he has a hard row to hoe.
The musical composer sometimes allows his notes to go to protest.
The chronic knicker will kick because he hasn't anything to kick about.
The head of the house refuses to believe that two heads are better than one.
Money makes the mare go, and it even takes money to indulge in a holiday.

TH CITIZEN'S AERO-NAUT HEARD FOM

J. A. BLONDI STILL AT ST. LOUIS AND WRITES ABOUT FAIR.

Just before the big World's fair at St. Louis threw its doors open to the public, J. A. Blondi, who is a balloon enthusiast, having written a pamphlet on the subject of "Stability in the Air," resigned his position as book-keeper at this office, and fled himself to St. Louis. Since then Mr. Blondi has written several letters back from the World's fair, but from the following letter recently received from Mr. Blondi it would seem that he has not, as yet, substantiated his theory of "Stability in the Air," but he nevertheless has some mighty good words to say about his trip and the World's fair.

St. Louis, Sept. 1.
Editors Citizens:
The good old Citizen is at hand. Thank you for sending it. I'm pleased especially to see how well its advertising columns are patronized. May the good work continue.

Of course, I must admit I've been tardy in answering your letter, and a total failure as a press correspondent. Part is, I've been devoting so much time to the attainment of my own selfish desire and aims that I've neglected the time and attention other persons would demand, even to the extent of neglecting the correspondence due to those I consider my very good friends. My nights are occupied with the practice of my profession, a play at the Olympic theater, and my days for the most part are spent in study at the public library. I'll always consider the idea which prompted me to come here as a real inspiration. I've learned so much here. The library seems especially equipped with just the literature that most interests me, the study of which has enabled me to increase the theoretical and value of my inventions a hundred-fold, and assures beyond the shadow of doubt, successful results following their application.

Balloon Ascensions a Feast.
The aeronautical program as planned by the fair management has been a "feast," so far. I think it a safe prediction that at least 75 per cent of the \$200,000 prize money will be found in the coffers of the Exposition company at the fair finish. And that through no fault of the aeronauts, but rather of the management—a profitable method of failure, you will observe.

Praises the Fair.
As to the fair in general, it merits all the praise in the capacity of human methods of expression. I doubt if its like will ever be seen again. Heavens, I'm afraid—and it seems to be the general opinion—financially considered, its failure will be as colossal as its conception and execution, and will deter others from any like undertaking in the future. Whoever misses the fair misses the educational opportunity of his or her life, as the case may be. Come one; come all. Wouldn't I make a speller?

Will Return.
I expect to return to Albuquerque some time this fall for about a month. That is, I won't stay in Albuquerque, but at Phoenix. I return to see that assessment work is done on the Valley View claim, now the property of Mrs. E. A. Reed, my aunt.
Health continues as good as ever, though I've lost some weight lately, on account of the hot weather. I think I hope this will find you as well as usual. Remember me to all the boys. Ever your friend,
J. A. BLONDI.

TERRITORIAL FAIR COMMITTEE MEETS.

The executive committee of the approaching Territorial fair held an important meeting at the office of the secretary last night, and much business was transacted.

After considerable discussion on the base ball tournament, the following committee on this event was appointed: A. B. McElroy, J. H. O'Reilly, F. J. Houston, P. P. McCanna and O. N. Morrow. This committee has business before it, as it is expected to see to it that the base ball clubs of the towns of New Mexico, Arizona and El Paso are entered for the tournament, or know the reason why.

The bank contest was fully discussed, and Secretary Gussel thought the purse of \$1,000 would undoubtedly induce half a dozen or more outside banks to enter the competition.
An effort will be made to get Harry Brennan, of Sheridan, Wyoming, the champion bronco buster of the world, to attend the fair, and into the cowboy contest. A purse of \$500 is being set up for these rough riding contests.

Col. D. K. B. Sellers was specially delegated to visit San Juan county and in company with Sheriff James Elmer, probably the best white Navajo hunter in the southwest, make a journey to the Carizo mountains on the reservation and there arrange for one hundred Navajo warriors to come across the country with Sheriff Elmer and give their marvelous fire dance here during the fair. There are only three chiefs on the reservation who can lead this gruesome dance, one of those being "Bear Face" who they will endeavor to secure for the occasion.

Efforts will also be made to have Mr. A. K. Dustin, "Navajo Bill" and several other pioneer white men, to join the Indians at Farmington and from there, escort the San Juan caravan across the country to Albuquerque. Arriving at Los Corrales, October 9th, where they will be met by the Fort Wingate cavalry and the First Regiment band.
The fruit raisers of San Juan county write that they will have a big fruit exhibit here in time for the fair.
The committee decided Saturday night—the last of the fair—as Carnival night, and confetti will be the order of the evening.
Messrs. W. S. Negus, Thomas R. Hubbell and Thomas Hughes were appointed a committee to look after the trades' parade, which the executive

committee hopes will be the "greatest yet."

The United States soldiers from Fort Wingate, under Captain Valentine, will be here, and give exhibitions on the grounds; likewise the territorial militia under Colonel John Borra delia.

A letter was read, showing that George H. Maxwell, president of the International Irrigation congress of the United States, will be present, and address the irrigation congress to meet here during the fair.
The meeting then adjourned, subject to the call of the president.

CAMPBELLS ARE COMING

THE BIG SHOWS HAVE CONSOLIDATED AND WILL BE HERE THE SAME DAY.

Two big shows in one! Two complete menageries. Two distinct circus performances given in one day is what will happen at Albuquerque on Saturday, Sept. 17, the date of the big shows, which have consolidated, and which have been so extensively advertised throughout the country, and Albuquerque will see the largest crowd in its history on that day. The two big parades will start promptly at 10:30 in the morning, one following the other. The doors will be open for an inspection of the menageries at 1 o'clock, and at 2 o'clock the two performances by the two separate circus companies will commence. The combining of these big shows for the above date will necessarily make the day's program a lengthy one, but the Campbell Brothers have arranged so that everything will move with promptness and dispatch, and the large crowd will be well taken care of.

OFFICIAL MATTERS

NOTARY PUBLIC—PUBLIC FUNDS—REGENTS OF TERRITORIAL INSTITUTIONS.

Governor Otero appointed William M. Enslow, of Artesia, Bldy county, a notary public.

Resigned as Draughtsman.
Owen L. Wood has resigned his position as draughtsman in Surveyor General Morgan O. Llewellyn's office, which resignation took effect Monday.

Increase of Pension.
Delegates Rodney have been notified that the claim of Jose Aguilino Sano, of Chisquella, Taos county, New Mexico, for an increase of pension has been allowed at \$8.00 per month from May 25th, 1904.

Public Funds Received.
The following public funds were received by Territorial Treasurer J. H. Vaughn: From Ramon Sanchez, treasurer and collector of Taos county, taxes for 1903, \$71.15; from Perfecto Escobedo, treasurer and collector of El Arriba county, taxes for 1903, \$14.32; from H. D. Bursan, superintendent of the Territorial Penitentiary, janitor's earnings to September 3, in the sum of \$231.62.

Reappointments as Regents of Territorial Institutions.
Governor Otero has made the following reappointments on boards of Territorial institutions of members whose commissions have expired: L. Gregory, of Las Vegas, member board of trustees of the Territorial Training Asylum at Las Vegas; J. H. Wroth of Albuquerque, a member of the board of regents of the University of New Mexico at Albuquerque.
E. G. Bartlett of Magdalena, a member of the board of regents of the School of Mines, at Socorro.

BERNALILLO COUNTY INSTITUTE

On Wednesday of this week at the court house closed a successful institute of two weeks held for this county during the present year in compliance with the law. The daily attendance was twenty-two prospective teachers of this county who have shown a great interest in their presence daily about the advancement of the cause of education.

County School Superintendent, E. L. Vail, besides the conductor and examiner, had the assistance of Professors McKay and Stroup, who gave daily instructive lectures upon practical and theoretical methods of teaching, and upon subjects drawn from experience by the learned gentlemen, who have an established reputation as efficient educators of the southwest. Lectures were also given by Mr. Felix Black, an able attorney of this city, and also by Hon. Hector Montoya, the latter gentleman's subject being, "The Necessity of Teaching and Disseminating the Use of the English Language, Especially in the Country Districts."

Twenty-two applicants took the examination for first and second grade certificates, besides those there are ten sisters of Charity, who are employed by the school board of school district 13, composed of the old town of Albuquerque and Durango, and precinct 8, Barajas, the southern suburb of the city. The institute and examination of teachers this year was a complete success and due praise is merited by School Superintendent Vail for his efforts in the cause of education in this county.

LOCAL PARAGRAPHS.

From Thursday's Daily Citizen:
Mrs. A. N. Webster and daughter, who were at Long Beach, Cal., the past few weeks, have returned to the city.

W. M. Connell, of the general merchandise firm of Hunsing & Connell, is in the city on business and pleasure.

Mrs. W. F. Spargo and sister, who enjoyed a few weeks on the Pacific coast in southern California, have returned to the city.
The young people will be pleased to learn that Jay Mitchener is reported better. He has been seriously ill with typhoid fever.
The Woman's Circle of the First Baptist church held their monthly tea

at the home of James Orear, No. 300 South Broadway, this afternoon.

George H. Monk, of the United States geological survey, who has visited many sections of the territory on official matters, has gone to Denver.
Charles Paxton, the well known mine operator of the Cochet district, is here to visit Mrs. Paxton, who has just returned to the city from the east.

This afternoon at 3 o'clock Mrs. A. J. Mitchell entertained the Ladies' Aid society of the Presbyterian church at her residence, No. 419 West Silver avenue.

Mr. and Mrs. C. W. Carswell are rejoicing in the arrival at their home, No. 517 South Third street, of a baby girl. The happy father is in the employ of the American Lumber company.

The Optic says: Albert Fisher, head of an Albuquerque export house, dropped off in the city yesterday on his return from an eastern buying trip, by bringing a little niece from Kansas city for a visit.

Mrs. A. A. Linderman and daughter, Miss Laura, of Los Angeles, Cal., passed up the road for Santa Fe yesterday, where they will visit Mr. and Mrs. J. W. McConvery for a few days. They are en route to the World's fair at St. Louis.

Saturday is Jewish New Year. Services will be held at Temple Albert Friday evening at 7:40 and Saturday morning at 10 o'clock. The choir is in charge of Prof. Krebs. Rabbi Jacob H. Kaplan will lecture in the evening on "Eternal Element in Life," and in the morning on "Not the Past, but the Future." The public is cordially welcome.

J. M. Harris and family, of Dallas, Texas, are making a visit to Albuquerque, and may leave here. Mr. Harris is a brother-in-law of G. V. Crosby, deputy district clerk of this, the second judicial district, when Judge Crumpacker was on the bench. Mr. Harris is also the western manager of the Mutual Life Insurance company.

LOCAL PARAGRAPHS.

From Friday's Daily Citizen:
Base ball tomorrow afternoon, at the fair grounds.

Las Vegas vs. Albuquerque tomorrow afternoon; also Sunday afternoon.

Mrs. J. C. Marshall, of this city, is at Las Vegas, visiting her son, Fred Marshall.

Mrs. P. P. McCanna, wife of the fire insurance agent, is reported quite ill with typhoid fever.
After a visit with relatives at Las Vegas, Mrs. Samuel Noustad and child have returned to the city.

E. Maharan, the merchant on West Railroad avenue, has returned to the city after a business trip to Chicago.

Max H. Fitch, son of Captain A. H. Fitch, is in the city from Socorro. The visitor is interested in some good mines in Socorro county.
Judge H. S. Baker, of the second judicial district, was a passenger last night for Denver. He will be absent from the city about a week.

Fred Fornoff, connected with the government secret service at Denver, is at Santa Fe, attending the United States district court as a witness in the case of the government against M. M. Kahn, ex-postmaster at Taos.

George Aron, the popular manager of the local wholesale grocery establishment of Gross, Kelly & Co., returned from Las Vegas last night. He says the numerous rains in that section of New Mexico have made every thing good and overjoyed up there.

Freight Wheeler, assisted by "Doc" Bishop, is at work remodeling the front of the building occupied by Greham Bros. on West Railroad avenue. The building belongs to Mr. Bishop, and he proposes to make the front of pebble dash finish and one of the prettiest in the city.

David Weisman, of the Economist dry goods store, returned last night from an extensive buying trip in the east. Mr. Weisman visited New York, Chicago and St. Louis and while in New York, purchased the fixtures for the new store which is being rapidly completed on Railroad avenue.

BOARD OF EDUCATION

HOLD A MEETING AND APPOINT TEACHERS TO FILL RESIGNED POSITIONS.

At the meeting of the board of education held last night at the central school routine matters were attended to and appointments were made in the teaching force as follows:
Miss Martha Barnard, of Cornell Grove, Kansas; Miss McCullough, of this city; Miss Ethel Stubbs of Emporia, Kansas; Miss Inez Conn, of Moral, Ohio, and Miss Bowers.

M. Jones was appointed janitor of the Fourth ward school.
The following resignations were read and accepted:
Misses Jessie Bradford, Jean Barnard, Blanche Oliver, Ella Coltrane, and Maude McFee.

The school buildings are rapidly reaching completion, and will be ready in a very short time.

POLICE COURT

J. H. Ramsey was arrested last night for assaulting a Chinaman with an ordinary water faucet. In the court this morning he pleaded guilty, to assault and battery but said he did not remember using any weapon although the faucet when produced, was covered with blood. Ramsey explained that he went to the Chinaman to secure some "chop," but declared he was no fiend and just wanted to use a little. The Chinaman told him to get out and the trouble started. Judge Crawford sentenced Ramsey to thirty days and added that the time would be worked out.

Ada Stewart, a fallen woman, was with Ramsey and she was sentenced to ten days.

LOCAL PARAGRAPHS.

From Wednesday's Daily Citizen.

J. F. Toon, recently of Carbondale, Ill., has accepted a position with B. Ruppel, the druggist.

Mrs. S. W. Dietrich and children left last night for Indiana, where they will visit relatives and friends.

The birds killed by hunters the other day were not quail but doves. The quail season is not open until October 1.

The pay checks of company G came in on the morning mail. The budget contained thirty-two checks calling for \$214.

Mrs. Edward Harsch has returned from a trip to Chicago and other eastern cities, taking in the World's fair en route.

Attorney George S. Knoch, who was securing the past month at Camp Westcomb, is in the city on business for a few days.

Both United States Attorney W. R. Childers and Assistant Attorney R. L. Medler are at Santa Fe attending the United States court.

Mrs. W. W. McDonald and daughter, Miss May, are in San Francisco, visiting relatives and friends, and will be absent about three weeks.
