SANTA FE NEW MEXICAN

VOL. 48

SANTA FE, NEW MEXICO, SATURDAY JUNE 17, 1911

NO 106

GAME WARDENS ARE NOTIFIED

All Over the Country They Will Read How Cool Is Santa Fe's Summer

REVISING SCHOOL MANUAL

Gold Letters on Office Doors in Capitol Annex Answer Many Questions.

Governor Mills has appointed Herman E. Ellis of Cimarron, Colfax county, a notary public.

For the Treasury. Territorial Treasurer M. A. Otero has received the sum of \$6,656.50 from R. Q. Palmer, treasurer of Union county and \$2.50 from game protection.

Game and Fish Warden Thomas P. Gable is sending out large numbers of pamphlets on Santa Fe entitled "The Lure of Mountain Stream and Forest" to game wardens all over the United States. These pamphlets will dispel the impression that this is a hot place during the summer term, an impression that has gotten to the east because there are some stifling places in the territory. Certainly Santa Fe is its hottest day is comparatively cool.

Land Entries. The land entries at the local land office yesterday were as follows: Arthur B. Honnold, Estancia; Himgenes Lucero, Anton Chico; Joseph A. Knowlens, Elizabethtown; Luis Atencio, Park View.

Gay, Gold Letters. The lettering on the doors of the offices in the annex of the capital is attracting much attention and the names of the various offices now clearly tell the visitors where to find the officials they seek. This is an improvement which has been greatly needed for every day brings visitors to the capital and the difficulty they have of finding the right room reminds one of the scene in Ben Hur where there were eight doors that looked alike.

Revising School Manual. The department of education has practically finished the task of revising the common school course of study and the new manual will be placed in the hands of all teachers. It was in 1909 that the first manual was published showing uniform text books for the various schools of the territory.

For Hospital Corps. The adjutant general A. S. Brooks stated today that eight men had been enlisted in Albuquerque for the hospital corps of the New Mexico National Guard. Their duties will be to assist the hospital surgeons in taking care of the sick and wounded in case of war. Of course they will not carry arms and are not required to drill.

Good Roads Work. Next week a force of convicts is to be thrown into Sandoval county to work on the road into the Rio de los Frijoles. They will devote their attention to the Water canon hill at first and the high centers of the road. The Santa Fe Chamber of Commerce has given \$100 toward the project. Another force of convicts has been placed to work on the Scenic Highway in the Gallinas canon widening it and repairing it preparatory to pushing work through to the Harvey's upper ranch, Elk mountain, the Chaperito ridge and the Pecos and thence into Santa Fe. Land Commissioner R. P. Ervian of the Good Roads Commission has gone to Las Vegas to inspect the Las Vegas-Mosier road over the location and construction of which some difficulties have arisen. Work on El Camino Real between Las Cruces and El Paso has been temporarily suspended for lack of funds. The highway is now open from Dona Ana to Anthony. More convicts have been put to work on the Water Canon road between Socorro and Magdalena, Socorro county.

STRIKE TIES UP TRANS-ATLANTIC LINERS.

Ship Owners Are Importing Foreigners Who Are Replacing the Old Employees.

(By Special Leased Wire to New Mexican) London, June 17.—The steamer Minnewaska, of the Atlantic Transport line was unable to sail for New York today, the crew refusing to sign on the old terms and the owners declining to grant an increase. The ship owners at Liverpool are meeting the strike situation by importing foreign seamen, of whom many are taking the places formerly filled by Britons.

The men who refused to join the trans-Atlantic liners sailing from Glasgow today were replaced by outsiders. The mail steamer Britain for Capetown, which the strikers thought they had tied up at Southampton got away this afternoon, picking up the crew on the Solent.

STRANGERS PICK UP \$3,200 FROM DESK.

(By Special Leased Wire to New Mexican) Lawrence, Kan., June 17.—While Deputy County Treasurer Eddy was at work on the books in the court house here last night a stranger walked into the office and held him up at the point of a revolver, taking \$3,200 in currency and coin which lay on the desk.

MORE DELAY FOR STATEHOOD

Committee Will Take No Action Before Friday of Next Week

AMENDMENTS ARE CERTAIN

Fall, Curry and Spiess Among Those Who Pleaded For Immediate Decision.

Special to The New Mexican.

Washington, D. C., June 17.—An exciting session of the senate committee on territories was held today at which Judge A. B. Fall, ex-Governor Curry and Hon. Charles A. Spiess took part in an animated discussion of the Flood statehood resolution. The committee finally went into executive session and decided that since two members of the committee were absent not to take any action until Friday of next week if at that time every member was present. It is certain that a number of amendments will be made to the Flood resolution.

Only a Comm.

Special to The New Mexican. Washington, D. C., June 17.—Judge A. B. Fall before the committee on territories of the Senate, yesterday upon request, detailed the operation of the referendum clause, and it then developed that a comma in the New Mexico print and lack of it in the Washington copy of the New Mexico constitution opened the referendum clause to two constructions. The committee decided, however, that New Mexico must settle that, Judge Fall merely explaining what was the intent of the constitutional convention as he understood it. Fall also explained the present amending clause and stated that the need of the majority in half the counties was brought about by dissatisfied people of New Mexico, and was necessary in order to insure that the amendments would be general legislation and would not affect just a part of the territory.

Chairman Smith submitted telegrams from 26 commercial organizations asking favorable action on the Flood resolution. Fall, Curry, Spiess and Andrews were the only New Mexicans present. Arizona was represented by Cameron, Hoval, Mark Smith, P. Smith, Orme.

Andrews Before Committee.

Special to The New Mexican. Washington, D. C., June 17.—Before the Senate committee on territories, Charles A. Spiess, after a speech of two hours on the election, organization and proceedings of the convention, the formation and several provisions of the constitution on which information was desired, received the thanks of Chairman Smith, Judge A. B. Fall was called upon at different times to offer explanation as to parts of the constitution and the election of New Mexico.

Delegate Andrews made a short address saying that he favored the early admission of New Mexico and Arizona, and that all were ready for prompt action that would not cause any delay. Each member of the committee expressed willingness for the immediate admission of New Mexico. In executive session, the committee voted to meet next Friday to vote on both New Mexico and Arizona, and report to the Senate next Saturday by unanimous action. It is believed that Governor Mills can issue his election proclamation early in July.

INSPECTORS SEIZE \$8,000 WORTH OF OPIUM.

(By Special Leased Wire to New Mexican) San Francisco, Calif., June 17.—Opium that would have commanded a price of from \$6,000 and \$8,000 in Chinatown, was seized by custom inspectors last night in a Chinese laundry wagon, where it had been concealed beneath soiled clothing. The clothes baskets yielded 185 lbs of the drug, which the inspectors think was recently taken off a sailing vessel arriving from the Mexican ports.

CLEVELAND WINS FIRST OF DOUBLE HEADER.

(By Special Leased Wire to New Mexican) Boston, June 17.—American morning game: Cleveland won the first game of the double header with Boston this morning. Moser weakened in the eighth inning and following an error by Partell, let in four runs. Score R. H. E. Cleveland 3 4 3 Boston 7 12 0 Battery: Moser, Nunnaker; Gregg and Land.

DECISION IN IMPORTANT KLOCK-MANN CASE.

Special to The New Mexican. Albuquerque, N. M., June 17.—Judge Ira A. Abbott this afternoon, so it is reported, sustained the demurrer of the relator to the reply of the respondent in the case of Geo. S. Klock vs. Edward A. Mann, in quo warranto, involving the office of district attorney for Bernalillo, Sandoval and Valencia counties. This is a victory for Klock who was displaced by Mann. Judge Abbott, it is declared, holds that there was no vacancy in the office when Governor Mills appointed Judge Mann.

SHASTA LIMITED IS ROBBED

Two Highwaymen Get Away With All of the Registered Mail Pouches

PASSENGERS NOT MOLESTED

Several Poses Are Now in Pursuit, but Men Have Made Good Escape.

(By Special Leased Wire to New Mexican)

Drain, Oregon, June 17.—Officers of three counties are searching for the two bandits who rifled the mail car of the Southern Pacific fast passenger train known as the Shasta Limited, shortly before midnight last night between Drain and Yoncalla. The passengers were not molested. So far as known the robbers took nothing except the registered mail pouches.

Just after the train pulled out of this place, two men entered the forward door of the mail car, and pointing revolvers at the clerks ordered "hands up." The mail clerks complied. One of the robbers evidently the leader, selected the mail sacks he wanted, while the other kept the mail clerks covered. The leader gathered the sacks into a heap near the door. The robbers then asked how far it was to Yoncalla and ordered one of the mail clerks to stop the train for them. They said they were laboring men and worked near Drain.

The clerk pulled the cord and as the train came to a stop, the robbers picked up the mail sacks and left the train. They ran through the town and into the woods on the other side. Yoncalla is not a stopping point for the Shasta Limited and when the train slowed up, the trainmen ran forward to see what had occurred. They informed the town constable, and he at once aroused the citizens and started in pursuit of the robbers.

At day light other posses took up the search but so far no trace of the robbers has been found. The men who committed the robbery were both under 30 years of age and of medium height and were clean shaven. They were roughly dressed and wore no masks.

SMITH HAS RHEUMATISM

President of Mormon Church Gets Cold Feet When Asked to Testify

SUGAR TRUST INVESTIGATION

Chairman Sends Tart Telegrams to Trust Magnates Who Hesitate.

(By Special Leased Wire to New Mexican) Salt Lake City, Utah, June 17.—Joseph F. Smith, president of the Mormon church, has telegraphed the chairman of the house sugar investigating committee that his obligations here make it difficult for him to appear as a witness before the committee by June 22.

In addition, he was not in health to go to Washington, being a sufferer from rheumatism. The men in management of the Utah-Idaho sugar industry, could, he said, give all the information he could, and more in detail. Mr. Smith's message was in response to one from Chairman Hardwick of the committee asking if Mr. Smith was willing to go to Washington without subpoena.

Chairman Is Tart.

Washington, June 17.—The chairman of the house sugar investigation committee is sending tart replies to persons who seek to escape the hearings before the committee in response to formal summonses. The following telegram was sent to prospective witnesses: "You will please appear on the day designated or we will send an officer to bring you here and keep you until we want you."

Among the prominent sugar men asked to appear in the near future are Joseph F. Smith of Utah; John D. and Adolph Speckles of California; Chester S. Morey of Colorado; and Thomas R. Cutler of Utah.

BRITISHER COLLECTOR KILLED BY BRAHMIN ASSASSIN.

Robert William D. Ashe Is Shot Down By Hindoo Attorney Out of Revenge.

(By Special Leased Wire to New Mexican) Trichinopoly, British India, June 17.—Robert William D. Ashe, British collector for the Maritime district Tintavelli, was assassinated today by a Brahmin attorney, who then committed suicide. With his wife, Ashe was sitting in a car of a railway train at Maniyachi, when the Brahmin without a word, shot the collector dead. He conducted the trial of Tudorin rioters Easter and his murder is attributed to revenge.

ARMY'S TURN IS NEXT

Representative Kahn Wants to Know What Is Done With \$100,000,000

WILL SUMMON LEGISLATORS

Yates and McCormick Will Have to Answer Awkward Questions.

(By Special Leased Wire to New Mexican)

Washington, D. C., June 17.—Representative Kahn of California, introduced in the House today a resolution which would provide for a thorough investigation of the army and which declares that the United States should be given an efficient fighting force in return for the one hundred million dollars and more expended every year on the military establishment.

The resolution would direct the appointment of a congressional committee of ten to sit at any place deemed fit and to call on the war department for any documents desired.

Will Summon Legislators.

Washington, D. C., June 17.—The Lorimer investigating committee of the Senate today, practically decided to summon as witnesses in the inquiry the entire membership of the Illinois legislature which elected Senator Lorimer.

Cyrus H. McCormick, president of the International Harvester Company and former Governor Richard Yates of Illinois, will be heard by the committee Tuesday.

Messrs McCormick and Yates will be questioned as to his knowledge of the collection and disposition of the \$100,000 fund alleged to have been used in procuring the election of Mr. Lorimer. Mr. Yates also will be interrogated concerning his knowledge of the so-called "jackpot" fund in the Illinois legislature. The decision to summon as witnesses practically all the Illinois legislators is accepted as proof of the committee's purpose to examine every one having the slightest knowledge of the fact surrounding the election of Mr. Lorimer.

Morey Responds.

Denver, Colo., June 17.—Chester S. Morey, president of the Great Western Sugar Company, left Denver today for Washington to testify before the house sugar investigating committee.

DETECTIVE BURNS INDICTED AT INDIANAPOLIS.

(By Special Leased Wire to New Mexican) Indianapolis, Ind., June 17.—Detective W. J. Burns and James Hossick a city detective of Los Angeles, California, were indicted on charges of kidnapping John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, from this city, and McNamara was indicted on charges of conspiracy to dynamite by the Marion county grand jury today.

TRAVELING AUDITOR TO RESIGN.

It was reported today that Traveling Auditor Charles V. Safford will resign on July 1 to take a position in the Bank of Commerce at Albuquerque. Report also has it that District Clerk John Joerns of Las Vegas will likely succeed him and that possibly Probate Clerk E. G. Twitty of Raton will succeed Mr. Joerns. Mr. Safford left for Taos this forenoon and the rumor could not be confirmed. Governor Mills said that he had not yet received Mr. Safford's resignation.

PROCLAMATION.

Office of the Mayor of the City of Santa Fe, New Mexico, June 16, 1911.

The undersigned, the Mayor of the City of Santa Fe, New Mexico, takes great pleasure in making the announcement that the 4th day of July, 1911, the anniversary of the Nation's birthday, will be appropriately celebrated by the people of said city; that among the interesting features of said celebration will be the Diego de Vargas Pageant, representing the entrance into this city of that celebrated general, known in history as the "Reconquistador," in the year 1692, to re-occupy the abandoned City of the Holy Faith; and many of the Pueblo Indians, representing the various pueblo villages will also participate in said celebration; in behalf of the City of Santa Fe, and the good people of said city, the residents of the county of Santa Fe, and the citizens of the territory generally, are invited to visit the capital of the territory and the City of the Holy Faith, on that day for the purpose of joining in the ceremonies of the occasion, with the assurance that the proverbial hospitality of the City of Santa Fe will be extended to them; the residents of the said city are earnestly requested to suspend all labor and business, especially between the hours of 10 o'clock a. m. and 6 o'clock p. m. of said day, and join in extending a sincere welcome to all visitors.

Therefore, the said 4th day of July, 1911, is hereby declared a legal holiday within the corporate limits of the said City of Santa Fe, and it is earnestly urged that the citizens of said city refrain from labor and business of all kinds, for the purpose of taking part in the said celebration, and to aid in the entertainment of visitors; and notice is hereby given that Section 52 of the Ordinances of the City of Santa Fe, revised and compiled June 16, 1906, prohibiting the discharge of fireworks within the city limits, is hereby so far suspended, for the 24 hours of the said 4th day of July, that it shall be lawful under the supervision of the committee appointed for that purpose to discharge fireworks or fire-arms in that vacant portion within the limits of said city known as "Old Fort Marcy" in the northeast portion of said city, in all other portions of the said city such discharge is unlawful and renders the persons causing the same liable to arrest and punishment.

ARTHUR SELIGMAN, Mayor.

T. P. DELGADO, Clerk.

DOUBLE MURDER ON TRAIN

Idaho Sheriff and Short Line Conductor Victims of Dastardly Shooting

KILLED BY TWO DESPERADOES

Had Arrested and Were About to Handcuff Men When Latter Shot.

(By Special Leased Wire to New Mexican)

Salt Lake City, Utah, June 17.—An Idaho county sheriff, whose name has not yet been learned was shot and fatally wounded today and Conductor Kidd was shot and killed on a southbound Oregon Short Line train at Spencer, Idaho, by two unknown men. Only meager particulars have been received here of the tragedy.

The sheriff boarded the train at High Bridge and arrested two men. When the train reached Spencer the sheriff put his prisoners in the smoking car and began to search them. He took two pistols from one of them and while he was reaching out for handcuffs one of the men grabbed a pistol and shot the sheriff through the abdomen. Conductor Kidd seized the man who turned the pistol on the conductor and killed him.

The prisoners then pulled the bell cord and when the train stopped sufficiently jumped off and fled. A posse is in pursuit of them.

Had Robbed a Saloon.

Salt Lake City, Utah, June 17.—Deputy Sheriff Samuel Milton of Dubois, Idaho, and William Kidd of Pocatello, a train conductor were shot and mortally wounded by two men on a southbound Oregon Short Line train near the mouth of Beaver Canyon, Idaho, today.

Deputy Sheriff Milton boarded the train at Dubois and arrested two men on suspicion of having robbed a saloon at Pocatello. He conducted the prisoners into the smoking car and searched them. He took from one, two pistols which he placed on the car seat. While reaching in his pocket for handcuffs, one of the men picked up a pistol and shot Milton three times through the upper part of his body. Conductor Kidd seized the man, who fired a bullet through the abdomen of the conductor. Both the wounded men fell to the floor of the car. The prisoners then held the passengers at bay and pulled the cord signalling the engineer to stop the train.

When the train stopped, the two men alighted and escaped into the country. The alarm was immediately given and posses were sent out from the towns of Spencer and Dubois. The wounded men were taken to Pocatello for treatment. Neither is expected to live.

COOKE IS ACQUITTED OF EMBEZZLEMENT CHARGE.

Cincinnati, Ohio, June 17.—Edgar S. Cooke was today declared not guilty of embezzling \$24,000 from the Big Four railroad. The jury was out about three minutes less than two hours.

Cooke Was Impassive.

Cincinnati, Ohio, June 17.—Of those indicted in connection with the \$643,000, shortage of Charles L. Warriner, Cincinnati treasurer of the road, Cooke was the last to be tried. Warriner indicted on numerous charges, pleaded guilty to one charge of embezzlement of \$5,000. He was sentenced to six years in prison. Then Mrs. Jeannette Stewart Ford, accused of blackmailing Warriner, was tried in February, 1910. The jury in her case disagreed.

Cooke sat impassive as the foreman's verdict was read but Mrs. Cooke who had been at his side for days, put her face in her hands and then approached the jurors and shook each one by the hand.

DIAZ IS SICK AT HEART

Enfeebled and Suffering Ex-President Speaks of Ingratitude

HIS FIRST FORMAL STATEMENT

In Impulse for Self Defense He Justifies His Long Administration.

(By Special Leased Wire to New Mexican)

Corunna, Spain, June 17.—Physically enfeebled and sick at heart, General Porfirio Diaz, an exile from the Republic of which he was chief builder, at last has yielded to an impulse of self-defense.

In a formal statement he justified his administration as president of Mexico and reproached his countrymen for what he describes as their ingratitude.

The expression, the first of a personal nature since he was forced from office, was made on board the steamer Ypiranga during the brief stop of the vessel in this harbor last night. When he was approached by newspaper representatives at first he asked to be excused, pleading indisposition and explaining, that though the troublesome tooth had been extracted, he still suffered from an abscess on the lower jaw. However, after consultation with members of his party the following statement was given to the Frabra Agencia, the official press association of Spain:

"General Diaz, saddened by the recent events in Mexico and the ingratitude of his countrymen. He voluntarily sacrificed his ambition in the hope of obtaining tranquility for the nation, foreseeing that if he continued to defend his cause he might afford a pretext for intervention.

"The bitterness and deep disappointment which he felt was mitigated by the warmth of manifestation of sympathy on his departure from Vera Cruz.

"Much has been said about a military dictatorship, but can one thus define a regime which rested on an army reduced to 14,000 men.

"General Diaz, when he assumed power, had to deal with conditions requiring energy, but afterward the nation ripened and was more able to direct itself constitutionally. General Diaz's later policies were interpreted by his adversaries as a sign of weakness.

"General Diaz, confident of the good sense of the people, thought that the agitation would disappear but the people, easily forgetting the merits of the Diaz administration, allowed themselves to be dragged into a revolutionary movement."

During the night the Ypiranga proceeded for Santander, and Havre. According to the present plans Diaz will land at Havre and go with his family to Switzerland.

Diaz Exonerates Uncle Sam.

Paris, June 17.—A dispatch to the Temps from Saint Sebastian says that General Diaz declared at Vigo that his resignation of the presidency of Mexico was his final service to his fatherland, as he had been convinced by his friends that only through his withdrawal, could peace be restored. Nevertheless, he believed that he could have remained and won over the revolutionists. When he left Mexico the treasury reserve totalled about \$31,000,000 which he believed would now be squandered by the revolutionists. In conclusion Diaz insisted that the United States government was in no way responsible for his resignation.

GUESTS FOR TAFT'S SILVER WEDDING.

Big Preparations at White House for Celebration of Happy Event on Monday.

(By Special Leased Wire to New Mexican)

Washington, D. C., June 17.—Members of the family of President and Mrs. Taft are beginning to fill the White House in readiness for the silver wedding celebration on Monday.

Miss Della Torrey of Millsbury, Mass., the president's aunt, and Robert Taft, his eldest son, arrived in Washington early today. Henry W. Taft, and his wife of New York and Horace D. Taft of Watertown, Conn., brothers of the president and Charles, Taft, his youngest son, are expected before night.

CORONATION FESTIVITIES FULLY INAUGURATED TODAY.

King and Queen Were Heartily Cheered On Way From Windsor to Buckingham.

(By Special Leased Wire to New Mexican)

London, June 17.—The coronation festivities were fully inaugurated with the return today of the king and queen to Buckingham Palace from Windsor and the functions connected with the central event of next Thursday will crowd one upon another until July 1 when the court will again leave London. Semi-state marked the arrival of their majesties in the metropolis. Large crowds everywhere welcomed the king and queen with hearty cheering.

IDEAL CURE FOR TUBERCULOSIS

Altitude Is Main Thing Says Dr Peters, Authority on Disease

HOT CLIMATE IS NOT GOOD

Cold Is Stimulating and Helps Patient, While Heat Is Enervating.

Dr. L. S. Peters, assistant medical director of the New Mexico Cottage Sanatorium at Silver City, and secretary-treasurer, New Mexico Society for the Study and Prevention of Tuberculosis, arrived in this city yesterday and was the guest of H. R. MacGibbon on Palace avenue. Dr. Peters left this morning for Denver as one of the delegates from New Mexico to the National Tuberculosis Congress, which convenes on the 20th instant and he will read a paper before that organization.

Discussing the climate best suited to the successful treatment of tuberculosis, Dr. Peters said: "The main thing is altitude. The German scientist who declared that one must go a mile up in the air to get pure air explained it perfectly. We see that in Switzerland, where patients are treated in a damp, rainy climate and they get along fine, because they are in an altitude of 6,000 feet."

"What about this high altitude hurting people?" was asked.

"Well, when one goes above seven thousand feet, there is a chance for trouble," replied the scientist. "It depends on the heart action. In New Mexico we have a decided advantage besides altitude because we have dryness of climate."

Heat Not Good.

Asked if hot weather was not a disadvantage in the treatment of tuberculosis, Dr. Peters said: "Most decidedly. All enervating influences are bad, as experience proves, and therefore if you get a climate which is cold and dry and has pure air in a high altitude, you get as near the ideal conditions as one can hope for. Santa Fe is admirably suited for the treatment of tuberculosis, but we think that in Silver City with an altitude of only 5,000 feet we can treat many cases which are not suited to a higher altitude."

PRINCELY PRESENTS AT SHEEDY-BURDEN WEDDING.

Fifteen Hundred Guests at Reception at Capitol Hill Mansion at Denver.

(By Special Leased Wire to New Mexican)

Denver, Colo., June 17.—Miss Florence Sheedy of Denver and I. Townsend Burden, of New York, were married at noon today at the Capitol Hill mansion of Dennis Sheedy, father of the bride, in this city.

The bride is one of the richest heiresses in the west, while Mr. Burden is a member of an aristocratic New York family.

There were one hundred guests at the wedding and fifteen hundred guests are in attendance at the reception which is taking place this afternoon.

Never in the history of Denver has a bride received such princely presents. Dennis Sheedy gave his daughter a check for \$100,000 with which to furnish her New York home and other expensive presents in addition.

I. T. Burden of New York, father of the groom, presented the young couple with a \$35,000 silver table service. The wedding ceremony was performed by Bishop M. F. Burke of St. Joseph, Mo. Mrs. Robert L. Livingston of New York, was the matron of honor, the bridesmaids being Miss Ethel Ryan and Miss Gwendolyn Burden. John Clinton Gray of New York was best man.

Mr. and Mrs. Burden will leave for New York tonight, to sail on June 24 for Europe.

GREAT BRITAIN NEED NOT FEAR RECIPROCITY.

Canada Will Give Mother Country Preference Every Time Says Premier Laurier.

(By Special Leased Wire to New Mexican)

London, June 17.—At a luncheon of the Constitutional Club, presided over by A. J. Balfour today, Sir Wilfrid Laurier, premier of Canada, told the big gathering of British statesmen and overseas premiers, that the proposed agreement on reciprocity between the United States and Canada need cause no alarm to any one.

Canada, he said, wished to trade with the mother country in preference to other lands but that did not mean that it should treat with her alone. Whatever privileges were granted to other countries would be given equally to England.

BIG GAME WITH LAS VEGAS TOMORROW.

There will be a great game of baseball, beginning at 3 p. m., tomorrow, Sunday, between Santa Fe and Las Vegas on College grounds. All fans will be there and Santa Fe's team is in fine shape to give the Meadow City a real tug of war.

Estimates Cheerfully Furnished

'Cascarets' Belong in Every Household

Take one as soon as you don't feel just right. It is old-fashioned and needless to take harsh doses of physic.

We all live unnaturally. Our food is too fine; too rich and too plentiful. We eat too little fruit, too few green vegetables. We don't exercise enough. The result is, our bowels get clogged; our liver becomes inactive, for nature intended us to live in a different way. What shall we do? Shall we walk ten miles a day? Shall we diet our selves? Shall we seek for more laxative and less costive effect in our food? Or shall we take Cascarets? One way will serve just as well as the other.

Cascarets are vegetable laxatives. Their action is as natural as the action of fruit, of coarse food or of exercise. They are gentle. They persuade the bowels—never drive them or irritate them. They are candy tablets, and the dose is one at a time—just as soon as you know that you need it. It is as you know that you need it. It is wrong to take harsh physic and to wait till you need a big dose. It is better to keep at your best, every hour of every day. And one Cascaret at a time is sufficient. That means to keep clean inside—keep a 10 cent box handy in the home.

AROUND THE STATE

Alamogordo Sanitarium Sold.
The Alamogordo Co-Operative Sanitarium Company has sold its sanitarium at Alamogordo to Dr. W. C. Rountree, the proprietor of a sanitarium at Mineral Wells, Texas. The consideration is \$40,000.

Will Burn Oil.
The El Paso and Southwestern has decided to use oil for fuel on its Sacramento Mountain railway to Cloudercroft, Otero county.

Advancement for Teacher.
A. H. Cox, physical director and instructor at the territorial school for the blind at Alamogordo, has been elected an officer of the Western Pennsylvania Institute for the Blind at Pittsburgh.

Adjuster of Claims Arrested.—Cornelius Emmerich, adjuster of claims for the Denver & Rio Grande railroad and a recent visitor in Santa Fe, has been arrested by Pinkerton detectives at Denver for juggling his accounts.

Arrested by Mounted Police.—Mounted Policeman Rafael Gomez arrested Homer Irwin at Moriarty for having knifed a man named Sharon in a Moriarty saloon last December.

Garcia Hal a Sling Shot.—Santiago Garcia was arrested at Albuquerque for having a slingshot in his possession and was given 60 days in jail.

COUNTY INSTITUTE NOTES.

This is the end of the first two weeks of the institute, and the teachers are unanimous in declaring that it has been the shortest two weeks they have ever passed.

Miss Virginia Bean was a visitor at the institute this morning. Ernest Digneo and Jose Silva, students of the institute, had a special exhibition on natural history, the subject being "The Ant Family." Mr. Digneo and Mr. Silva, with the aid of the conductor, gave a talk on the habits of the ant. This talk took place between 8 and 8:30 o'clock this morning. This was just a little surprise to the students.

The poem "How they brought the good news from Ghent to Aix," was read at the institute this afternoon, and occasioned a deal of discussion. The reading lesson today was "John Gilpin's Ride," and the teachers were treated to some good efforts on the part of those who read.

Today being the last day of the third grade model class at the institute, the conductor made the recitation unusually interesting, by introducing a number of games. Mrs. Brumback asked questions, designating the child she wished to answer, not verbally, but by writing same on the board. They also played with the bean-bags, by tossing the bag into the circles on the floor; the small circle scored ten, while the large circle scored five. The children kept their own score, and not a word was spoken, in accordance with the instructions which were written. During these games two hundred and thirteen different words were introduced. The children then retired to another room and made pictures from the reading of "The School house by the Road"; after which two little girls came, of their own accord, and thanked the teachers for their attention, and bade them goodbye, expressing their regrets that they must leave, because as they put it, "We love the teachers." The ladies responded, through Mrs. Lillian Waffensmith, and the gentlemen, through J. L. Smith. Superintendent and Mrs. Conway, and Mrs. Brumback treated the children to ice cream and cake.

The parents of the pupils of the third grade model class, who visited the institute, came in for their share of surprise when they saw the work that the little ones had performed. The following have become members of the "New Mexico Journal of Education" Club: Mrs. Lillian Waffensmith, Miss Lucy Ortiz, Misses Josephine and Theresa Pettine, Mrs. May Caldwell, Miss Ruby Roibal, Miss Antonia Silva, Miss Louise Dockweiler, Misses Julia and Enriqueta De Aguiro, Misses Margaret and Josephine Cunningham, Miss Ruth Bacon, Misses Flossie and Hazel Sanford, Miss Annie Mae Flowers, Misses Frances and Belle Anaya, Misses Frances and Eloise Martinez, Miss Carlota Armijo, Miss Tiburcia Gonzales, Miss Ambrosita Rodriguez, Miss Josie Lujan, Mrs. Eleanor C. Almeida, Miss Nicolasa Sena, Miss Maud Palmer, Miss Louise Alarid; Messrs. Ramon Gonzales, Victoriano Cruz, Jose Villanueva, Manuel N. Montoya, Jose Ortiz y Baca, Candido Ortiz, Clemente P. Ortiz, J. L. Smith, and Jose Silva.

Superintendent Conway is very busy these days, arranging for the reception of the first and second grade teachers, who will enroll Monday morning. The superintendent expects between twenty and twenty-five more teachers, which will bring the number up to seventy-five or eighty. Miss Louise Dockweiler, who last year taught a successful term of school at Rio de Tesque, giving entire satisfaction, is enrolled at the institute, and is working hard to secure good grades on her certificate. Miss Dockweiler proved very popular with the patrons and pupils, so much so, that she has been offered the same position for next year.

The Misses Enriqueta and Julia De Aguiro, who taught last year at San Ildefonso and Canoncito school districts, are again in attendance at the institute, and are exerting every effort to secure good grades on their certificates. These two young ladies proved quite popular with the patrons and pupils of their respective districts. The conductor is very grateful to the teachers for the many flowers that are brought to her desk daily by the teachers. Jose Silva, one of last year's Torrance county teachers, is among those enrolled at the institute, and is an applicant for a certificate. Mr. Silva is a hard worker, and will doubtless make good. The teachers are kept very busy after institute hours, reading up on the Reading Circle work, and will be ready to report on same by the last week of the session.

Mrs. Gertrude R. Elliott, the institute instructor, who will have charge of the first and second grade applicants, has been very busy for the past two weeks, preparing her work, which will begin on Monday next. Mrs. Elliott is regarded as a first class instructor, and will doubtless be very popular with the teachers. They look for a very busy session in her department, during the next two weeks.

No. 10 Was Late—Santa Fe train No. 10 was four hours late this afternoon, but a stub train was run from Albuquerque and arrived on time.

Woman's Happiness

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

DON'T WAIT.

When the back begins to ache, Don't wait until backache becomes chronic. Tilt serious kidney troubles develop. Tilt urinary troubles destroy night's rest.

Profit by a Santa Fe citizen's experience. Lino Romero, Palace Ave., Santa Fe, N. M., says: "I know that Doan's Kidney Pills live up to the claims made for them. If I were not confident of this fact, I could never have been induced to give this remedy my endorsement. There was a dull ache in the small of my back that bothered me and at times I was obliged to lay off from work for two or three days. Doan's Kidney Pills brought me entire relief, and the few slight attacks of backache I have had since then have quickly yielded to this remedy."

Mr. Romero gave the above testimonial in January, 1907, and when interviewed on June 26, 1909, he said: "I can speak as highly of Doan's Kidney Pills as when I publicly endorsed them two and a half years ago. This remedy always gives benefit when I use it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TO AND FROM ROSWELL.

Automobile leaves Roswell for Vaughn at 6 p. m. The fare between Santa Fe and Roswell is \$5.80 and between Roswell and Roswell \$10. Reserve seats on automobile by wire.—J. W. Stockard.

Foley Kidney Pills contain just the ingredients necessary to regulate and strengthen the action of the kidneys and bladder. Try them yourself! For sale by all druggists.

DIRT CAUSE OF POVERTY

Settlement Workers Effect Change in Fortunes of Families

MATTER OF CLEANING UP

Result Will Prove Almost Startling Experience in Big Cities

By T. J. Edmonds, Financial Secretary, Cincinnati Charity Organization Society.

Exclusive Service THE SURVEY Press Bureau.) Nestling amid the hills of the Little Miami Valley is a quaint village whose name commemorates the bloody exploits of Mad Anthony Wayne in those parts over a century ago. In recent years a group of 12 girls existed there known as the "Panhandle Club."

"What a strange name for a club," says a reader. It was not so called from the gentle peripatetic art of "panhandling." "Panhandle" meant what it said—the "handle of a pan." The Panhandle Club was a cooking club. Each month it met at the home of one of the 12, and the hostess prepared a repast of the most wholesome, pleasing and resistant and the most delectable fluffinesses. There were 12 lucky men invited to these feasts. And—well 11 of them have now married 11 of the girls, and the 12th, an unhappy bachelor, curses the day he left that village of romance.

The history of the old Panhandle Club illustrates the importance of the housekeeping art before marriage; the experience of social workers in the homes of the poor emphasizes its importance after the home has been established.

Every social worker has learned that although sometimes the wolf enters the home because the income is too small, more often he comes because the outgo is too large; that too many pennies roll away in the wake of burned and discarded food materials and unneeded garments; that when mothers don't know how to fight germs with cleanliness and sanitary habits disease becomes a culture medium for poverty and poverty again for disease in what physicians call a "vicious circle."

To cure poverty arising from ignorance of the principles of domestic economy the Associated Charities of Cincinnati employed a visiting housekeeper, Miss Greif. Her work and just how she gets results that spell the ultimate redemption of families from the curse of poverty may be most strikingly told by a true story of one family.

The Trawigs were a study German family consisting of Wentzel Trawig, his frau, and the six little Trawigs. Just as many years ago as there are members in the family, the Trawigs came from the Fatherland lured by tales of the great rewards in the Land of Promise across the seas.

Late in November the visiting housekeeper of the Associated Charities found the Trawigs living in a rear apartment of a wretched tenement on West Fifth street, approached through a long narrow hallway full of sudden windings and turnings and even in day time utterly dark. There were two rooms for eight people. The first of these with two beds was the typical "dark room," lightless and unventilated. The rear room opened upon a narrow court by two superlatively dirty windows. In it were two cots, a stove, a table piled with dishes unwashed and enough rickety chairs to accommodate a quorum of the family.

Mr. Trawig was away from home in his vain search for work. Little Mary, aged seven, was along the railroad tracks picking up coal. Mrs. Trawig was endeavoring to restore the original color of underclothing which Italian workmen in the neighborhood had brought to her. For this she earned from \$1.25 to \$1.75 per week.

Miss Greif persuaded the mother to clean the children. Dena, who had a temperature of 102 and legs broken out with large red blotches, was sent to the hospital. The kitchen was put in order and a place found for the cooking utensils. The furniture in general was straightened up. The beds were neatly made, the windows cleaned, better ventilation secured. The door leading into the dark room was opened. At nearby stores Miss Greif ordered coal and provisions sent in at once.

Later Mr. Trawig, stimulated to greater efforts by the improved tone of his home, was more successful in finding work. The week after Miss Greif's first visit he earned \$4.50, the next week, \$7.50. Finally he secured a position in the railroad yards, where he is now earning a very comfortable wage. The foreman says that Trawig is one of his most trustworthy employees.

The family were found a house—a whole house with three very large light rooms—in the suburbs, five minutes' walk from Trawig's work. In the rear of the house is a little yard and beyond that is a stretch of wild hill-side upon which the little Trawigs may romp themselves into health and happiness. As Wentzel Trawig trudges to his work in the morning, the rising sun flings a silver sheen out of its treasure-house in the East and lays it at his feet, a promise of hope that makes him glad for his children's sake.

Mrs. Trawig too, is a re-made woman. Neatly dressed and wearing the air that even the beginning of prosperity brings, she looks every whit the type of most intelligent and self-respecting German matron. One can see that she is really quite a handsome woman. And the children are

DON'T WORRY—EAT.
Memphis, Tenn.—Mrs. Emma D. Looney, of this place, says: "I suffered misery for nearly eight years but since taking Cardui, I am much stronger, and I haven't missed a single meal. I hardly know how to express my gratitude." Don't worry about your symptoms—Cardui helps you to get it. Take Cardui, because other tonics and medicines do not contain its peculiar and successful ingredients imported especially for its manufacture. Half a century of success, has stamped Cardui with the seal of public approval. During this time, Cardui has benefited a million women. Why not you? Try it, today.

Immaculately clean. The home from kitchen to parlor is spotless, and a most delicious odor from the region of the stove declares that Mrs. Trawig is a graduate cook and that Miss Greif's services as a housekeeper are no longer needed. But she is always to come and see them, for they worship her as the patron saint who planned and executed with some magic power their complete redemption.

The Trawig family is only one of the 44 which Miss Greif visited last month, some once a week, some several times each week.

Miss Greif's work differs from the more specialized work that is being done elsewhere. Miss Greif not only teaches—she does. She scrubs, she washes the children, she cooks the meals when necessary.

"The fault of so many homes," says Miss Greif in describing her work, "is general confusion and filth and lack of system and neatness. Cooking utensils should be hung up or put in their places. Clothes should be hung up. It makes them wear longer. Provisions and dishes should be put into some receptacles. If we can't find anything better we get boxes and put them in."

"Having got some degree of order, we next deal with dirt. The floor must be scrubbed, the windows washed, the stove cleaned. I should say that, first of all, the dirty dishes ought to be washed. It is no uncommon thing to find families where the dishes are not washed for several meals—and they have only one set of dishes, at that. One of the worst conditions I discover in the kitchen is a number of dirty dishes piled and scattered around in confusion."

"Then the children have to be cleaned, too—and sometimes the mother."

"When I have everything in its place and clean," went on Miss Greif, "I begin the real work of housekeeping. Instruction in cooking involves buying, planning menus, and preparing food. The object in selecting foods of course is to get the greatest amount of nutrition at the least cost. To teach this I take the housewife on a marketing expedition. Then in her own home I show her how to cook the same article in different ways, and how to utilize all the parts in different dishes, so that there may be the least waste possible."

"I have the housewife keep a weekly budget of expenditures, so that I can see what she is buying and what she pays for it. She also keeps a list of the menus for each meal. At each bi-weekly visit I go over these with her and make suggestions."

"The teaching cannot be confined to advice merely. Very often I cook the meal, as a practical object lesson." Alexander Johnson says that the causes of poverty are four; ignorance; incompetence, industrial exploitation, and effects of governments. Miss Greif will tell you that the first one is about as big as all the other three put together.

Miss Greif found a young married couple who, although the husband made pretty good money, lacked many of the necessities of life. She wondered. But when she discovered that the young wife, untrained in the duties of a wife, tried to cook beans, potatoes, and dumplings all in the same pot, Miss Greif knew why they lacked. And when she took the girl to market and found that she did not know the prices of the most ordinary foods, she was still more confirmed in her belief that poverty is many, many times but the legitimate child of ignorance.

Middle Aged and Elderly People.
Use Foley Kidney Pills for quick and permanent results in all cases of kidney and bladder troubles, and for painful and annoying irregularities. For sale by all druggists.

NOTICE FOR PUBLICATION.
Small Holding Claim No. 3241—013909 Department of the Interior, United States Land Office, Santa Fe, N. M., June 10, 1911.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891, (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before U. S. Commissioner Juan C. Sandoval at Cuba, N. M., on July 17, 1911, viz.: Manuel Garcia de Garcia, transferee of Alonso Dunn, Cuba, N. M., for the claim 3241, tract in Secs. 20 and 29, T. 21 N., R. 1 W.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz: Ramon Garcia de Garcia, J. J. Salazar, Pulidor Martinez, Noberto Garcia, all of Cuba, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the Interior Department why such proof should not be allowed will be given an opportunity at the above-mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

80,000 TROOPS AT CORONATION

London Is Transformed So That Its Own People Hardly Know

40,040 OFFICIALS GUESTS

Dilemma Is Caused by the Lack of sufficient Number of Carriage Horses.

(By Special Leased Wire to New Mexican)

London, June 17.—The final preparations for the coronation festivities through next week are rapidly being brought to a close, and the city is fast being given over to a spirit of holiday rejoicing on a colossal scale, with untold thousands of visitors from America, and other parts of the world here, to join in the royal demonstration.

A notable feature along the lines of route to be followed by the newly crowned king, in his procession through the streets of London next Thursday and Friday, is the almost complete transformation of familiar sights. Churches, ancient edifices, public buildings and open spaces, business premises and private residences have entirely changed their appearance. Starting with the Westminster Abbey itself, the annex added to increase the accommodation has altered its aspect almost alarmingly, although efforts were exerted to lend an air of age to the stucco addition.

The Parliamentary church of St. Margaret and the adjacent Parliament square are unrecognizable in consequence of the gigantic stands covered with purple bunting, surrounding and hiding them from view. On the latter set the statue of Lord Beaconsfield appears to look down on the passing procession as from a private box at a theater, for it is enclosed in a square wooden palisade reaching to the breast.

Then along Whitehall, stand after stand varies the usual appearance of the imposing government offices and the old-fashioned Admiralty. At Trafalgar-Square Landseer's lions have disappeared under timber tiers of seats. Old Saint Martin's in the Fields is cloaked in bunting and surrounded by crowded stands.

In response to many petitions from participants in the Coronation ceremonial, the Office of Works has decided to permit those present to purchase as souvenirs the chairs and stools on which they sat, all of which are marked with the word "Coronation" and embossed with the crown and the date of the occurrence.

The onerous duty of the disposition of the guests has fallen on the Earl Marshal, the Duke of Norfolk, who for many weeks has been the busiest man in England. His task was rendered all the more difficult by reason of the fact that the space in Westminster Abbey is very limited and before he was able to take into consideration any of the thousands of applications for invitations from the distinguished visitors and others desirous of being present, he was compelled to provide sitting room for no fewer than 4,040 official guests.

These guests comprised 40 members of the Royal family, 250 foreign rulers and representatives of foreign states, 1,450 peers and peeresses, 670 members of Parliament, 300 members of the diplomatic corps, privy councilors, bishops and judges, 600 official colonial representatives and 730 officers of the army and navy, king's councillors and members of the Royal household. As the Abbey is capable of holding only slightly under 6,000 there remained only about 2,000 places to be disposed of by the unofficial public. A large staff was engaged in the Earl Marshal's office for over a month in sending out courteous refusals.

A peculiar dilemma arising out of the scarcity of first-class carriage horses which has developed since the universal introduction of the motor-car, affected many members of the peerage and ancient nobility participating prominently in the regal functions and processions of the coronation. The question of horsing the cumbersome but elegantly emblazoned family state coaches which have been in service sometimes for centuries, on such occasions became in many cases acute and recourse had to be had for their supply not only to the stables of country mansions, where most of the animals are now kept, but to the public livery stables, who for a time enjoyed something of their prestige.

No fewer than 60,000 troops, comprising representative regiments of the regular army, the yeomanry, the territorial volunteers, and detachments from Canada, South Africa, Ceylon, Hongkong, the Malay States, Malta, Bermuda and the West Indian colonies, together with a naval brigade, are to be engaged in keeping the routes along the line of the procession. These are under the personal command of Field-Marshal Lord Kitchener, who was specially appointed to the post by the king.

In addition to the military, the entire police forces of the city and of greater London, numbering altogether over 20,000 men mounted or on foot, are assisting in keeping order. To avoid the terrible consequences of possible rushes into the main thoroughfares from side streets, barriers of timber are erected at the most dangerous street junctions.

F. S. Rexford, 615 New York Life Bldg., Kansas City, Mo., says: "I had a severe attack of a cold which settled in my back and kidneys and I was in great pain from my trouble. A friend recommended Foley Kidney Pills and I used two bottles of them and they have done me a world of good." For sale by all druggists.

**Do Your Cooking in the Cool**

A hot kitchen is little better than a prison in summer. But the range is there, so all the cooking and the washing must be done there, too.

What a relief it would be to move the range where you pleased. You can do this with a New Perfection Oil Cook-stove—cook your dinner out on the porch, if you like. It is the only range that is really portable—that works equally well in any place. There are no connections to be made, as in a gas range; no wiring, as with an electric stove; no sooty flues and ash-filled grates, as with coal or wood.

The long, enameled chimneys carry the heat directly up to saucers, oven or boiler; you get full value from your fuel, without waste.

New Perfection Oil Cook-stove

Made with 1, 2 and 3 burners, with long, torqueless blue enameled chimneys. Hand-assembly finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the

Continental Oil Company

(Incorporated)

WORK ON LA JOYA DITCH ENTERPRISE.

Progressing Very Favorably Under Direction of Engineer W. Guy Turley.

The work on the La Joya ditch on the Sebastian Martin grant in Rio Arriba county, is progressing very favorably, under direction of W. G. Turley, the resident engineer. All the available teams in that section are employed on the work, and 16,700 feet of the ditch is already completed. In the adjacent orchards in La Joya and Velarde the trees are full of fruit of all kinds, not even the most delicate apricots having been injured. The first peas and beans of the season are now being gathered.

NOTICE.

Territory of New Mexico, County of Santa Fe, Theodore P. Marshall, vs. Jessie Marshall.

In the District Court of the First Judicial District of New Mexico for the County of Santa Fe. The said defendant Jessie Marshall is hereby notified that a complaint has been filed against her in the district court for the county of Santa Fe, territory aforesaid, that being the court in which said case is pending, by said plaintiff, Theodore P. Marshall, the general object of said action being a divorce upon the grounds of abandonment, for costs and general relief as will more fully appear by reference to the complaint filed in said cause.

And that unless you enter your appearance in said cause on or before the 19th day of August, 1911, judgment will be rendered against you in said cause by default. Plaintiff's attorney's address is George Volney Howard, Esq., Santa Fe, New Mexico.

In witness whereof, I have hereunto set my hand and Seal of said Court at Santa Fe, New Mexico, this 13th day of June, A. D., 1911.

EDW. L. SAFFORD, Clerk.

(Seal)

A Leading California Druggist.

Pasadena, Calif., March 9, 1911. Foley and Co., Gentlemen:—We have sold and recommended Foley's Honey and Tar Compound for years. We believe it to be one of the most efficient expectorants on the market. Containing no opiates or narcotics it can be given freely to children. Enough of the remedy can be taken to relieve a cold, as it has no nauseating results, and does not interfere with digestion. Yours very truly, C. H. Ward Drug company, C. L. Parsons Secy. and Treas. Get the original Foley's Honey and Tar Compound in the yellow package. For sale by all druggists.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

STATEHOOD NOW.

New Mexico wants statehood now. The Flood resolution cannot give it to New Mexico now. To favor the passage of the resolution as it came from the House is to delay statehood and its advocates know it. The Republicans in the Senate are even at this present moment seeking to solve the problem of amending the Flood resolution so that New Mexico can be let in without further delay or condition or election and it is likely that they will succeed. It will then be up to the Democratic House to turn down New Mexico or to permit its entry into the Union as a full fledged state, a privilege and a right to which it is entitled having complied with the Enabling Act, and its constitution having been approved by the president of the United States, as well as the last House of Congress. Any other effort is merely dilatory and barely hides the purpose of holding out New Mexico until it can be delivered to the Democrats.

The whole proposition to require the people of New Mexico to vote again upon the manner of amending their constitution is unprecedented and burdensome and the fruit of the scheming of a few Democratic gangsters in New Mexico. The people decided, by the action of their lawful, chosen representatives, ratified by an overwhelming majority at an election held in accordance with the act of Congress, upon a certain method of amending their constitution and of calling a new constitutional convention. If the people of New Mexico are so reasonably conservative as to safeguard their own rights, surely it was for them to decide, and to reject any other plan that was not safe and sane. The question as to whether their fundamental rules of government might be quickly changed in response to sudden waves of popular excitement by even a small minority of the electors, which is exactly the plan proposed by the Flood Joint Resolution, the people of New Mexico decided in the negative. That was one of the principal issues in the election for delegates and the constitutional convention.

And there is nothing drastic or unreasonable in the plan they have adopted. The constitution of many of the great commonwealths of the United States are much more difficult of amendment. The New Mexico plan is as follows:

Amendments may be proposed at any session of the legislature by two-thirds vote of the members. Two years after admission and thereafter at intervals of eight years, amendments may be proposed by a majority vote of the members of the legislature. To ratify an amendment requires a majority of those voting thereon and the affirmative vote of at least 40 per centum of all qualified electors voting at that election, in the state and in at least half the counties thereof. This last provision was intended to make it impossible for an amendment not satisfactory to the people at large to be ratified by vote of the electors of some one large city, as it is now possible in at least one western state under the plan proposed by the House Joint resolution.

That the New Mexican plan does not suit the particular views of some, even of the most progressive citizens of New Mexico or members of Congress from other states, is not sufficient reason for requiring the people to reconsider it. It is peculiarly a question which the people of a territory should settle in their own way at the time of forming a state government. They did settle it at the time provided in the Enabling Act and it seems manifestly unfair for Congress to compel them to reopen the question now in connection with their first election for state officers and members of Congress.

The proposition is unstatesmanlike and undignified. The method of voting proposed is not only calculated to prevent a full and fair expression of the wishes of the people on this question, but the peculiarly worded resolution amounts to a cunningly devised scheme to give to the Democratic party an unfair advantage in the election for state and county officers and members of Congress. Probably this phase of the matter escaped the attention of the House of Representatives when it voted for the resolution but it may be presumed that it was not overlooked by the adroit politicians from New Mexico who suggested the plan.

The idea of mixing up constitutional questions with the election of officers is exactly contrary to the intention of Congress clearly expressed in the Enabling Act.

The people of New Mexico have carefully and intelligently complied with the most drastic enabling act ever provided for the admission of a state. Their constitution is clearly Republican in form and not repugnant to the constitution and laws of the United States.

It has received general approval and commendation throughout the country.

It has been approved by the president and by the unanimous vote of

the House of Representatives of the last Congress.

It would seem that good faith requires that New Mexico be admitted into the Union as a state without further condition or delay.

THE LITTLE BLUE BALLOT.

The method of voting on the question of amending the New Mexico constitution proposed by the so-called Flood resolution now pending in the senate is not in harmony with the election laws and system of voting in New Mexico. It is apparently an attempt to inject into an entirely different system one feature of the Australian ballot without the other features, facilities and safeguards which have been found necessary wherever the Australian ballot has been adopted.

Under the present election laws of New Mexico, which are ample to insure a free and fair election, official ballots with facsimile of the signature of the county clerk printed on the back, are distributed in each precinct, or any person or committee can get as many as desired from the printer. The voter may consult with friends or acquaintances or party leaders in order to decide how to vote, and he may scratch or change his ballot as he pleases; but from the moment he steps inside the ropes square in front of the polling place until his ballot is deposited in the box, no one is permitted to inspect his ballot, or to talk to him about how he intends to vote, or attempt to influence his vote.

The laws provide severe penalties for any act or omission which would prevent a free and fair election under this system. Under the new method proposed by the House Joint Resolution, however, if the voter desires to vote on the question of amendment he must request one of the judges of election to give him a blue ballot with the initials of two of the judges written on the back of it. There is no way that he can get to see one of these blue ballots beforehand and he may have to ask the judges how to mark it or get one of them to mark it for him in order to express his vote.

There are no booths provided where voters could go and mark their ballots in private, and many persons may be deterred from voting by the thought that one of the judges at least could tell how he voted. Under the system of voting in use some years ago when ballots were numbered and the numbers written opposite the names of the voters in the poll books, it was possible to intimidate some voters by the suggestion that the knowledge of how they voted might be used to their disadvantage. New Mexico thought it had rid itself of that system when it was superseded by the present law which provides for official ballots of uniform size and color and enables voters to cast their ballots without anyone knowing how they vote.

By a peculiar manner of writing his initials on a blue ballot handed to any voter a judge could tell how the man voted, even if he did not see how he marked the ballot at the time. A judge might refuse to sign his initials on a ballot for any person and by all sorts of tactics one judge could easily prevent a full vote in any precinct where there are many voters. No penalties are provided for any such acts on the part of the judges with relation to the blue ballots. Even if all the judges should try to expedite the voting it would not be possible for a full vote to be cast under this separate blue ballot plan during the time the polls would be open.

The interest of the voters on that day will be chiefly in the election of candidates for the several offices, and this plan of having the vote on the constitutional amendment at the same time by a separate ballot to be obtained and voted in a different and difficult manner, would naturally result in a very light vote on that question.

This blue ballot scheme of Ferguson, Jones, Hand and McGill is too bald a deal to go down in New Mexico. It is a flagrant attempt to stifle the true sentiment of the people through a method that is as despicable as it is insulting.

The establishment of a business college in Santa Fe has been of late years much desired for it was felt that this was not only a good field for such an institution but that there was an actual need for it. Being the capital and the county seat, there are more opportunities for employment right here than in most other places of this size but thus far, Santa Fe has drawn its stenographers, bookkeepers and clerical employees mostly from the outside. W. J. Bailey who has made a proposition to the Chamber of Commerce to establish a business college in Santa Fe, should therefore be given every encouragement possible, for his success will mean considerable advantage to this city. A well conducted business college will draw pupils from the outside and will add another to the many educational institutions which are making Santa Fe an educational center of great importance.

SUPPORT LOCAL BUSINESS.

The people of Santa Fe are apt to forget that it is the businessmen who make and support this town. Glancing over the mayor's report today, for instance, it is seen that far the greater portion of the city's revenue comes out of the pockets of the fifty or so businessmen of Santa Fe, in the shape of business licenses and taxes. The businessmen give employment to a large number of people, spend their money in Santa Fe, invest in real estate and bring here people from the outside. The businessmen as a rule are making every effort to carry in stock an extended, complete and modern line of goods so that there can be no valid excuse for dealing outside and the least that local people can do is to patronize them in preference to mail order houses and outside concerns. In the last analysis, it can always be shown that articles which appear to be cheaper bought in Chicago or New York are just as dear or dearer than if they had been bought locally, for after postage and express charges are added and quality is compared with quality, the local merchant offers the better bargain. The special sales which are frequently advertised in the New Mexican are real efforts to give the local public bargains such as they could secure only at special sales in the large cities. By watching the advertising columns of the New Mexican carefully, the local buyer can do better buying at home than by sending away. Support your local merchants loyally for they are the energy and the means of making Santa Fe a progressive and prosperous city.

SANTA FE BEATS IT.

Says the Albuquerque Journal editorially:
"For the benefit of the New Mexican, we will quote the following temperature record in this city for June 14: Maximum 72; minimum 54; temperature at 6 o'clock p. m., 57.
"Can Santa Fe beat it? If she cannot, you have no crow coming; if she had a colder day on June 14, it was too cold for comfort and you better not say anything about it."

"We are now ready for the next knock on the best climate east and west of Greenwich and between the north and south poles."
Yes, Santa Fe can beat it. Santa Fe can beat anything in the climatic line. On the day in question, the maximum temperature at Santa Fe was 66, the minimum was 51, a range of only 15 degrees and within very comfortable extremes. In Albuquerque on its ideal day, the range was 3 degrees greater. That is one of the weak points of Albuquerque climate, the extreme fluctuations which mark each day. A range of more than 30 degrees a day is the rule at Albuquerque while at Santa Fe it is the exception. Come again!

Santa Fe will be doing itself proud if it sends out the 5,000 folders of the Chamber of Commerce on Post Card Day in addition to thousands of postal cards. The folder dwells especially on the cool summer climate and the summer beauties of Santa Fe and surroundings. Most people on the outside imagine it is hot, insufferably hot, at Santa Fe in the summer months and gasp with astonishment when told that not once in the past five years has the temperature at Santa Fe reached the 90 degree mark. But Santa Fe need not pride itself that it is doing more than any other place in advertising itself. At Mesilla Park, for instance, one firm alone, will send out 25,000 postals; the Mesilla Valley Chamber of Commerce will distribute 50,000 pamphlets and Las Cruces will send out 1,500 copies of a special edition of its papers. Albuquerque, Roswell, Las Vegas, Raton and other towns are making special effort to advertise themselves on that day and every person in Santa Fe will have to do his duty on Post Card Day to keep the old city in line with its younger rivals.

The New Mexican today completes publication of the report of Mayor Arthur Seligman. Its recommendations embody the things that every good citizen desires and which will some day be obtained through the sheer force of public sentiment. The mayor's policy of taking the public into his confidence is to be commended. The fact that he is accomplishing great things for the city and its advancement is evident to every one. He is laying the foundations of a Santa Fe great and beautiful upon a very broad foundation. He believes in system and in businesslike progress. There is no haphazard policy for him, no temporary expedients that would simply delay the improvements that ought to be made and Santa Fe will have reason to remember many times the present city administration and the plans it made for the future of this ancient city.

Hon. I. Sparks, chairman of the board of county commissioners, has the right idea about good roads. He has applied to the good roads commission for advice as to repairing and keeping in repair La Bajada hill road. Recent rains washed several bad gullies and instead of expecting the territory to make the repairs, or waiting until a year hence for the road supervisor to get to it or neglecting the road altogether, he is determined that the county shall keep in constant good shape the roads that the territory has helped to build and will have La Bajada road repairs made immediately under territorial supervision. Now, if the board of commissioners would extend this policy also to the scenic highway, then the good roads commission might be in a greater hurry to push it through to the Pecos.

London will have 80,000 troops at the coronation next week. When Uncle Sam tried to concentrate 20,000 troops in Texas recently he could get together only 11,000 and deemed it quite a job. But then the English people pay the bill and one thing that Uncle Sam is spared is a large standing army whose chief function is to march in coronation parades.

"If New Mexico gets statehood at the special or regular session of the Sixty-second congress, it will be by Democratic Initiative and votes!" That is the final ditch for what is left of New Mexico Democracy; it is the ultimate and only campaign cry. Robbed of every other issue in the state-to-be, that is to be their slogan. It may endanger statehood, but that makes no difference to the Democratic office hunters. They feel that they have nothing to lose, statehood or no statehood, and they are willing to take the only chance that is left them. Will the Republicans be deceived by their clamor? Will the people lend ear to their duplicity?

Oh horrors. Some one reports that the statehood resolution is to be made the senatorial buffer that will fill the void between the passage of the reciprocity bill and the vote on the free list.

FIFTY STEWARDS ON STEAMER ON STRIKE.

Other Employees of Line Between New York and New Orleans Are Expected to Follow.

(By Special Leased Wire to New Mexican)
New York, June 17.—Fifty stewards of the steamship Mornus plying between New York and New Orleans in the marine department of the Southern Pacific railroad, struck today. They said they would take forty others and coal passers would follow the forty. The men went out without disorder.

The men ask pay for overtime; better rations and sleeping quarters. The Mornus did not sail at noon, although she continued to take on passengers until a few moments before she was due to cast off. At half past eleven the crews of four Southern Pacific tugs detailed to help her straight in the stream also struck.
El Cid, another Southern Pacific ship, due to sail at 3 o'clock, was also having trouble with her crew and the strikers said that forty stewards of the Cristoval, of the Panama railroad steamship line, had walked out in sympathy and would take more men with them.

General Strike May Follow.
New York, June 17.—Organizers of the Coastwise Seamen have said they control between 15,000 and 20,000 men. The general situation will be considered Sunday at a mass meeting of the International Seamen's Union of America.

SALOONS FAILED TO HELP CARLSBAD.

Therefore City Has Returned to First Conditions Inaugurated by J. J. Hagerman.

Carlsbad, N. M., June 17.—This is a bargain day in wet goods in Carlsbad. This is the last day the licensed saloon is open for business. Tomorrow the town will be dry. The saloon men have made preparations to close as they agreed and have very little stock left over.

It is remarkable that Carlsbad can again be dry without the fierce fights that usually result when it comes to stopping the liquor traffic in any place. A year ago the sentiment had become strongly in favor of closing the saloons. The liquor men asked time to wind up their business. After some negotiation, an agreement was entered into that the saloons should close on June 15, 1911. This agreement was entered into in good faith and is being carried out to the letter.

There are men here who want saloons and they have been trying to devise some plan to prevent the agreement to close being carried out. A short time ago a petition was circulated asking that an election be held to disincorporate the town, but it only received small support, some thirty-six people signing the petition. This document has been filed with the county commissioners, who laid it over till the July meeting. The object of the move was patent to the people and hence is not meeting with favor. Carlsbad now goes back to first condition. The late J. J. Hagerman when the town was first established kept the saloon out and for over ten years it remained dry. During the progress, the advocates of the saloon predicted.

G. F. Schneider and daughter left this morning for El Paso, where they will visit at the home of H. F. Schneider. They will also make a short trip into Old Mexico. Mr. Schneider is an alfalfa grower and stock raiser at Otis. He owns the best improved farm in the Carlsbad project, and is making a specialty of raising draft horses and short horn cattle.

C. F. Dodge, W. B. Sylvester and A. C. Geer, who have located in the Carlsbad project the past year are all making extensive improvements on their farms. Mr. Geer is arranging to build a large residence on his farm about five miles south.

The road supervisor is having a force of men at work grading the main highway through the Carlsbad project. The rains the last week left the ground in fine shape to work and the next three weeks will find one of the best roads in the territory properly graded.

Harry Brannard, who has been in the saloon business here for some time, closes his business today and leaves at once for National City, Cal.

THOSE BAD SPELLS.
Lebanon, Jct., Ky.—Mrs. Minnie Lamb, of this place, says: "I believe I would have been dead by now, had it not been for Cardui. I haven't had one of those bad spells since I commenced to use this medicine." Cardui is a specific medicine for the ills from which women suffer. Made from harmless, vegetable ingredients, Cardui is a safe, reliable remedy, and has been successfully used by weak and ailing women for more than fifty years. Thousands of women have been helped back to health and happiness by its use. Why not profit by their experience? A trial will convince you that Cardui is just what you need.

where he has purchased property and built a fine residence. He will engage in the real estate business in San Diego.

BAIL OF MISSES CONRAD AND GRAHAM REDUCED.

Young Women Who Shot Millionaire W. E. D. Stokes Are Still in the Tombs.

(By Special Leased Wire to New Mexican)
New York, June 17.—For the fourth time since the shooting of W. E. D. Stokes, Lillian Graham and Ethel Conrad, the show girl and the young illustrator, charged with the shooting, were arraigned today before Magistrate Preschi, and their bail was reduced.

It was originally at \$25,000 but in subsequent arraignments it was cut to \$15,000 and today to \$10,000.

Boys! Here's the Shoe that Captured the Country!

Here's the shoe you have been reading so much about in the magazines—the "Boy Scout"—a shoe that has taken the country by storm. Never has a shoe created so much excitement—never has a shoe created such a sudden tremendous demand as the great "Boy Scout" shoe now in town and ready for your inspection.

Wonders for Lively Boys

"Boy Scouts" are the "classiest" shoes ever made for rough and tumble wear. They outwear two or three pairs of ordinary shoes. Just the ticket for baseball, running, jumping or any outdoor sport. Every boy who has seen them is crazy for a pair.

Boys—Shoe 1 to 4½—\$2.50
Big Boys and Men's—Shoe 6 to 10—\$3.00

The "BOY SCOUT" Shoe

The soles are made from Elk Sole Leather—the toughest and best sole leather there is. Our secret process of tanning makes them wear from two to three times as long as common soles. And they're the best shoe you could get for your feet, too. They're made especially for growing feet and feel fine the minute you put them on. The uppers are made from Elk Skin Leather and are as soft as gloves. There are no linings to rip apart, tear your stockings and hurt your feet. "Boy Scouts" are the coolest and most healthful shoes you could buy. The soles are put on so good you can't pull them loose no matter how rough you are. Just tell your folks about them, boys. They'll want you to have a pair. Maybe your pa will want a pair, too. Ask him to bring you in and look at them himself. He'll be just as delighted as you are.

Good Luck Charm FREE

"You get a Swastika" Good Luck Charm with every pair of "Boy Scout" shoes you buy. And it's a dandy. Looks something like the picture in the corner of this ad, only it is bright and shiny, like a gold piece—and it stays bright, too. Makes fine prize for winners of ball games, races, etc. "Boy Scouts" are selling fast. Better call right away if you don't want to wait until we can send for more.

John Pflueger, The Shoe Man

SOCIAL AND PERSONAL

E. C. Kinnison, an insurance man of Cerrillos, is in the city.

Judge Braxton left on the noon train for Santa Fe.—Estancia Herald.

E. Romero left on the noon train for Santa Fe.—Estancia Herald.

Captain L. C. Hield of Las Vegas, assistant district attorney, is in the city.

M. A. Sinner, who owns a creamery in Colorado Springs, is in the city.

M. J. Seaton, a dry goods salesman of Kansas City, is at the Montezuma.

Don E. Cameron, a rubber goods salesman of Denver, is at the Montezuma.

Mrs. H. A. Coomer arrived from Denver last night and joined her husband here.

The Plaza Fete of the Woman's Board of Trade will take place this year on August 10.

A. F. Parker, an insurance man of El Paso, is at the Montezuma. He is accompanied by his wife.

A ten pound baby girl arrived last night at the home of Superintendent of Public Instruction J. E. Clark.

Mrs. P. A. Lienau and children have returned home from a visit with friends at Albuquerque and Los Lunas.

Miss Jean A. MacGibbon left this morning for Socorro where she will teach during the last two weeks of the institute.

W. C. Edminster, representing the American Bankers Insurance Company and who travels out of Alamosa, is at the Montezuma.

Mrs. C. W. Fairfield, who has been quite ill at the sanitarium, is doing fairly well and is much better than she was several days ago.

Miss Willie Coomer returned from Santa Fe last night, where she has just graduated in the business course at the Loretto academy.—Estancia News.

Dr. and Mrs. L. Duncan Bulbay of New York and Mrs. Warren Duncan Taylor of Plainfield, N. J., are eight-seers at the Palace on their way to the coast.

Mr. and Mrs. D. B. Sterrett of Washington, D. C., are at the Montezuma. Mr. Sterrett is here on geological survey work and will go today to Cerrillos.

The Little Girls Sewing Club met with Miss Miriam Cartwright this afternoon at the home of her parents on De Vargas street. Refreshments were served and the little girls had a very enjoyable afternoon.

The Woman's Board of Trade has taken charge of the Fourth of July ball. They propose to make it the leading social event of the summer and will exert special efforts to make the occasion a notable one.

Mrs. Montoya, wife of Nestor Montoya, editor of La Bandera Americana, accompanied by her two children, have left for Santa Fe, where they will visit relatives for several weeks.—Albuquerque Herald.

The interesting little son of Mr. and Mrs. C. P. McKay who was operated on yesterday by Dr. C. S. Losey of Las Vegas for enlarged tonsils, is today reported to be much improved and a speedy recovery is certain.

C. H. Neel has resigned from the

staff of the territorial engineer and leaves this afternoon for Buena Vista, Texas, his future home, where he will be under former Territorial Engineer Vernon L. Sullivan on important railroad and irrigation enterprises.

Miss Maude Hancock came down from Santa Fe last evening and was the guest of Miss Annie Porter last night. She will spend a few days on her claim before going to Carrizozo, where she will help conduct the county institute.—Estancia Herald.

Hon. Acasio Gallegos, assistant superintendent of public instruction of New Mexico, drove in from his ranch near Torreon Tuesday. Mr. Gallegos was accompanied by his niece, Miss A. Padilla, who left on the noon train for her home in Santa Fe.—Moriarty Messenger.

Judge Clarence J. Roberts arrived last night from Socorro where he had been presiding at the June term of the United States court relieving Judge Merritt C. Mechem. Judge Roberts will spend a short time here looking after court matters before returning to his home in Raton.—Las Vegas Optic.

Mrs. Paul A. F. Walter, Miss Bean, Miss Malone and her brother, Mr. Malone, went to the Valley Ranch today by automobile. Miss Malone intends to leave tomorrow for her home at Cleveland, Ohio. She enjoyed her stay in Santa Fe greatly. Mr. Malone will return to Mesilla Park, where he is a student at the College of Agriculture and Mechanic Arts but will make another visit to Santa Fe during the summer.

A public reception will be held on Tuesday evening at 8 o'clock at the home of Dr. and Mrs. J. A. Rolls on East Palace avenue in honor of Rev. and Mrs. B. Z. McCullough. The public is invited to meet Mr. and Mrs. McCullough who came here a week ago from Billings, Montana. Mr. McCullough being pastor-elect of the First Presbyterian church.

The Royal Neighbors will give a "Hard Times Social" at the Elks' hall on June 20. The evening's entertainment will be free but a fine of ten cents will be imposed upon all those who do not come dressed in hard times regalia. Each Royal Neighbor and Modern Woodmen is requested to bring a friend. Come early and enjoy the fun.

L. A. E. P. Robinson is giving a musicale this afternoon at her home on Chapelle street. The musical numbers are furnished by her pupils who are very clever and who will no doubt afford much pleasure to their musical friends and relatives who have been invited. Following the affair refreshments will be served. The program will be published Monday.

Mrs. S. G. Cartwright gave a reception Thursday afternoon from 4 to 6 o'clock in honor of Mrs. W. H. Cartwright and Mrs. H. P. Helzer. The dining room was prettily decorated in a color scheme of pink and white.

Many prominent ladies of Santa Fe assisted Mrs. Cartwright, among them being Mesdames Laughlin, Jaffa, A. Seligman, Ervin, Renahan, Abbott, Diaz and Fliske; Mesdames Frances Abbott, Julia Jaffa, Eleanor Jaffa, Carl Fischer, Florence Roberts, Miriam Cartwright and Anna Dorman.

A cleverly planned surprise was that given Miss Claribel Fischer by the Young Peoples Social Club on her birthday which was last Tuesday. The young people went out to the Fischer residence at 4 o'clock, with refreshments, and remained there until about 8:30. The evening flitted away with the picnic supper, bonfires, games, etc., and after the fire had gone down, the guests toasted marshmallows until late in the evening. Miss Fischer said that her sixteenth birthday was one of the most enjoyable she ever had as the party proved a true surprise to her.

Those present were: The Mesdames Miriam Cartwright, Madeline Mills, Ruth Winters, Blanche Roberts, Eleanor Jaffa, Consuelo Bergere, Hazel Sparks, Helen Winter, Dorothy Safford and Anna Dorman; Messrs. Wallace Fliske, Anthony Luna, Elmer Friday, Morton Seligman, Bernard Spitz, Ralph Sparks, Dillman Kinsell, John Windsor and John Roberts.

A Successful Dance.

The committee of ladies in charge of the Boy Scouts' dance held Tuesday night in Library hall, have reason to feel gratified over its success for no less than \$66.50 was cleared and the affair proved a most enjoyable one. It was largely attended and everyone seemed to have a good time. Ramirez's orchestra furnished delightful music for the occasion. Several of the Scouts were at the dance. The proceeds will go toward providing equipment for the summer encampment in July.

Flag Day at Albuquerque.

Flag day was patriotically observed by the Daughters and Sons of the American Revolution at the Woman's Club rooms in the Duke City. Mrs. Prince being the orator of the day. The Albuquerque papers give columns to her splendid address on the American flag, the Albuquerque Journal concluding as follows:

"Mrs. Prince was in good voice and she appealed to her audience in eloquent periods, showing the finished speaker. The address was applauded to the echo, being eloquent, instructive, interesting and entertaining."

"In the general conversation that followed Mrs. Prince showed the pictures which she had with her of the Woman's Continental Hall in Washington, which is to be the official headquarters of the Daughters of the American Revolution."

"One of the historical existing documents of worth to New Mexico, is the autograph of the Duke of Albuquerque, the viceroy of New Spain in 1636. Mrs. Prince had this document which is rich in seals and rubrics with her and showed it to the members and friends of the two Albuquerque chapters of the Sons and Daughters. Mrs. Prince also stated that fifty years later, or in 1706, the Duke of Albuquerque who was viceroy of New Spain at that time, communicated to Don Diego de Vargas, the governor of New Mexico, notifying him of his satisfaction in the establishing of a village of thirty families on the banks of the Rio Grande, where Old Albuquerque now is. Don Francisco Cuello y Valdez, who was afterward appointed governor by the second duke, named Albuquerque in his honor. It is a noticeable fact that the dukes of Albuquerque always spelt the name Albuquerque."

"Mrs. Prince then drew the attention of the audience to the approaching anniversary of the Battle of Bunker Hill, and stated that the subject of the patriotism of the Jews in America was one of great interest to her. She stated for the benefit of those present, from a historical standpoint, that the last \$25,000 subscribed toward the Bunker Hill monument, was subscribed by a Jew, this fact not being generally known. It was a Jew also, she pointed out, who made the astronomical instruments for the use of Columbus on his voyage of discovery, and a Jew was the first to set foot on the virgin soil of America, and likewise it was a Jew who gave the last \$25,000 toward finishing the steeple of Trinity church New York, because he wanted to see that monument to the greatness of the Episcopal church in America finished. America, she said, is the only country in which there are no restrictions against the Jews."

"For the information of the audience Mrs. Prince brought with her a translation of the document of the Duke of Albuquerque."

"Mrs. Prince came to Albuquerque at the request of Lew Wallace Chapter, Daughters of the Revolution, and while here was the guest of Mrs. A. E. Walker the registrar of the chapter."

ANNUAL REPORT OF MAYOR ARTHUR SELIGMAN.

(Continued from Yesterday.)

City Forestry:

In the past there has been no City Forester, but what few trees have been set out were planted individually or through the efforts of the Board of Trade. Although the work in the past few years is commendable, still I believe the lack of system and proper supervision by the city authorities has made the efforts of the past a failure, and I recommend that a proper ordinance be passed, designating the duties and power of a City Forester and placing this department under the supervision of proper regulation, so that in the future proper care, such as watering, spraying, trimming, etc., can be given the trees in the streets.

The trees of Santa Fe are principally elms, maples, locusts, cottonwood and poplar, and greatly beautify the residence streets. There has been no systematic tree planting campaign until this year. The city has given away 1,008 trees to those who applied and agreed to water and box same. On all the narrow streets of less than 40 feet in width, the poplar was recommended, and on the wider streets—those over 40 feet in width—the elm or maple was recommended.

I sincerely recommend that the policy outlined this year be continued next year, and that the City Forester be authorized to condemn as public nuisances those trees that hang over the sidewalks, such as the mulberry tree, whose fruit tends to annoy pedestrians who pass them, as well as causing a dirty and unsightly condition of the sidewalk at fruit time; and the cottonwood trees that bear cotton. These latter should be cut down and replaced by other varieties, as the cotton flying in the eyes, throat and nostrils of the people is exceedingly objectionable.

General Improvements.
You will appreciate that there is a constant demand for improvement that increases far more rapidly than does our taxable value of property. On the other hand, there is a vigorous opposition to an increase in the tax rate. Yet delay in making needed improvements is to retard the growth of Santa Fe. For this reason I urge that more rigid economy be practiced and that the same rules apply that are enforced in private business undertakings.

Our people are coming to understand more and more that public service is not a matter of partisan politics nor individual profit but a matter of patriotism and civic pride. The city is a business institution in which every citizen is a stockholder, and in order to declare dividends you must improve the service, practice economy and give and obtain value received for each dollar expended and work performed. In a partisan sense there is no such thing as a Democratic way of constructing a sewer or a Republican way of constructing a pavement. There is only one way and that is a business way of doing things.

STREETS.

Paving:

I am happy to be able to state that very gratifying progress has been made by the administration in the task of obtaining money needed for public projects. We were pledged to use our energy for certain improvements long delayed and long needed. I refer especially to better street conditions. I am pleased to be able to report that San Francisco street will soon be paved and from the petition now on file other streets will soon be ready for like improvement. The paving of San Francisco street from Lincoln avenue and the Plaza to the corner of Don Gaspar avenue costs the city \$219.00 and eliminates a very annoying, muddy and intolerable nuisance.

The system of collecting from the property owners is better in my opinion than the issue of bonds of long life for street paving as it often happens that the paving is worn out before the bonds are payable which is, indeed, a very unsatisfactory condition. The work is being done as economically as possible and as durably as the latest improved methods provide.

Montezuma avenue from the depot to the Capitol will soon be macadamized and will be a permanent improvement. This work is done by road tax labor and without expenditure from the City Treasury.

I regret that Washington avenue and Lincoln avenue have not been paved and parked but owing to the lack of sufficient interest by the property owners abutting said streets and the lack of co-operation the work has not been commenced. Hopes are now entertained that we can adjust the differences speedily and that at least one of these streets will be paved and parked before the close of the fiscal year. The City Engineer has surveyed and platted Washington and Lincoln avenues and only the petition of the property owners is necessary. ...

Street Openings:

While we may not be able to open all the streets necessary at this time, I think it is a good plan to have the city pledged to a definite policy in street opening and widening. If we had the money we could spend \$25,000 to advantage and it would mean an excellent investment for the city.

Many improvements have been made in opening, widening and straightening the streets. The right of way for Buena Vista street was finally obtained at an actual cost of \$225.00 east of Don Gaspar avenue and \$40.00 west of Don Gaspar avenue. Hancock street was opened and cost the city \$200.00. Otero street was opened at a cost of about \$400.00. Marcy street was widened and Sheridan avenue will be opened. Negotiations are under way for the widening of a part of Gaspar avenue south of Manhattan street. Manhattan street is to be widened east of Gaspar to College street. Chapelle street to San Francisco street is to be opened. Cerillos road and Delgado street widened. Street crossings from the depot

to the Federal building are to be laid. East Palace avenue, east of the Arroyo Salis is to be widened in the near future, the preliminary steps having been taken.

Crossings and Sidewalks:

From the report of the Chairman of the Streets and Bridges Committee I note that many sidewalks have been put down and I recommended that those who have not complied with the ordinances be compelled to do so, and I hope the activity and good work done the past year will be continued. More sidewalks were put down this year than in any previous year and the policy of allowing only cement construction is in my opinion the proper one.

The report also shows the construction of seven brick street crossings at a cost to the city of \$392.00. These are not less than seven feet in width and a great improvement over the narrow high crossings of the past, as they will prevent the breaking of axles and the jar when crossing in a vehicle and at the same time afford ample foothold and dry crossing for pedestrians.

See Report of Chairman Streets and Bridges Committee, exhibit "E."

Culverts:

I recommend the policy of fixing culverts in a permanent manner and that iron or concrete be used instead of wooden planks. During the year the city has fixed permanently 8 culverts at a cost of \$110.00.

Steam Roller:

The city is negotiating for the purchase of a ten ton steam roller which will allow us to macadamize those streets that cannot be paved at this time and no doubt same will be in working trim before the end of the fiscal year.

Cost of Street Improvements:

During the year 1910 a great many street improvements were made at a total cost of \$— and this amount is about \$— more than was expended for similar purposes in 1909.

City Bridges.

Funds have been provided during the year and contracts advertised for the building of an appropriate bridge across the Arroyo Salis on East Palace avenue and also a bridge on Don Gaspar avenue, near Manhattan avenue.

Sewers.

Provision should be made during this year 1911 for the building of an up-to-date sewer system. Nothing touches more closely the material interest of the average citizen than a sewer system. Nothing can be accomplished without good health, and good health means a sewer system.

In connection with the report made by your sewer committee I desire to add that in my opinion the fact that the sewerage from the Capitol building and Executive mansion is allowed to drain into the Santa Fe river is a disgrace. I commend the action of your honorable body in requesting the gentlemen who have charge of these buildings to install a septic tank so as to purify if possible the sewerage ere its flows into the river, and wish to condemn as strongly as possible the lack of civic patriotism and the utter disregard of your request by the Territorial buildings officials, and which request remaining unheeded is in my opinion unnecessary and unwarranted.

See Report of Sewer Committee, exhibit "G."

Lighting.

In accordance with my promise to the people one of the first acts of the administration was to take up the matter of lighting the city. As you know in the past the streets were poorly lighted. The service was a disgrace. It amounted practically to no lighting. After several months' delay a contract was finally entered into with the Santa Fe Water & Light Company for a series of lamps at an annual cost of \$600. The past city administration had been receiving street lights gratis and although every effort was made to induce the Light company to allow a credit for the lighting donated the city in the past, none was granted, but a contract was entered into by which the city gets its light at exact cost of production. Nevertheless, I congratulate the Council on the system now in place and recommend that if the finances of the city will permit that additional streets lights be placed, as the lighting system although an improvement is far from what it should be.

Lighting of Capitol, Federal and other Public Buildings:
The grounds of the Capitol building and Federal building should be better lighted, also the property of the Archaeological and Historical Society and the Executive Mansion grounds. As the city receives no tax from Federal, Territorial or County property, although these enjoy all the benefits of municipal government that are given private, tax paying property, and as the policy is to expend the city moneys for the benefit of the Territorial and Federal officials having the custody of the premises mentioned should take sufficient interest in aiding the city administration in having a more beautiful and better lighted city. And to this end your Mayor has taken the matter up with the officials in charge, and hopes to be successful in his efforts.

Poles.

The city has permitted poles for wires to be placed on both sides of the street. These poles have recently been painted white and stand out in conspicuous array, although it is an improvement on what it was before they had paint on them. On these poles are fastened advertisements. The wires injure the trees which are in themselves a beautiful frame for the street picture. I recommend if it is at all possible under the several franchises granted the companies using the streets for the erection of poles that in the future no pole shall be erected except by written permission of the proper city official as to the exact location and that by agreement between the city and the companies a certain distance of conduit should be constructed each year to

contain the wires and that all poles carrying wires should be placed in the alleys or at the rear property line. The merchants and Chamber of Commerce should co-operate to erect ornamental electric light standards.

Parks.

With the exception of the Plaza, which is in the keeping of the Woman's Board of Trade, the city has no parks worthy of the name. The parks on the west side of the Federal building grounds and the park on Marcy street and Hillside avenue are in a deplorable condition, and I recommend that they be placed in condition and taken care of in such manner as will make them creditable and beauty spots. A City Beautiful must have parks and plenty of them and I heartily favor the establishment of a park consisting of not less than forty acres. The lands of the city grant being set aside for this purpose as recommended by your committee—a park that will form a rural retreat for those who need rest for body and mind and away from city sights and doings. Let us have such a park—a place in which we can thank God we are alive—let the forty acres be so located that it overlooks the city—say in the north-west portion—and commands a view of the Jemez, Sandia, Baldy and Santa Fe range of mountains, with drives and walks and benches. Let us spend no money for luxury but provide for comfort and beauty, a place for the young and old.

I also recommend the establishment of a playground and park within the city limits consisting of about ten acres in the southern portion of the city. An ideal location for the park and playground for the children can undoubtedly be secured. These are greatly needed and I understand can be secured if proper effort is made, at small cost.

See Report of Park Committee, exhibit "F."

Stone Crusher.

A first class stone crusher has been purchased for the city for the sum of \$500.00, which includes the motor and setting in place. The city also purchased a site for the stone quarry for \$200.00, which will be an asset to the city worth thousands of dollars.

An improvement of vital importance was a general cleaning up of the city for which the sum of \$600 was expended.

Before leaving the subject of city improvements and accomplishments during the year just closed I desire to call special attention to the work of Hon. Celso Lopez, the efficient Chairman of the Streets and Bridges Committee, to whom much credit is due for his energy and aid in accomplishing what has been done.

I also desire to say that the monthly and annual reports made by the city officials will show many improvements and excellent results in nearly every department.

GENERAL RECOMMENDATIONS.

City Hall:
I recommend the purchase at this time of a suitable lot for a City Hall, as it will only be a matter of a few years when the city will need a home and the selection of suitable grounds should not be delayed too long.

Building Permits:
I recommend a new building code for the city and suggest that the code recently instituted in the City of Poughkeepsie, N. Y., be used. It is extremely detailed and is intended to cover every point of health and safety, convenience and suitability.

Building operations have been active in the past year and I regret that the data at hand are so limited that a detailed report cannot be given, but work has been finished or is in progress on something like sixty dwelling houses and store buildings, etc. A new system of building permits was inaugurated within the past few months which will serve temporarily until a better system is adopted. The contractors and citizens generally are learning to apply for permission to build although it has been indeed trying to get them to form the habit. The data obtained so far for the two months past are:

Number of permits issued, 30.
Estimated cost of construction, \$31,000.00.

This data obtained will be invaluable for future reference and will show the growth of our city. Many object to stating the cost of construction as they fear it might be used for assessment purposes but this is not the idea and only totals will be given out to the public for the monthly permits issued and amounts, and no individual advantages or harms allowed anyone by virtue of this information or data.

Saloons and Public Dance Halls:
I respectfully wish to call your attention to the subject of saloons and public dance hall—I am satisfied after making a personal investigation that there should be new legislation by the Council which will result in better legislation of this form of public places.

Regarding saloons I would recommend that all back doors be ordered closed. That inside sanitary needs be compulsory; that they be closed at midnight and that proprietors who allow a man who is too intoxicated to stand in his place shall provide a means of transportation to his home if possible, and a heavy fine be placed if anyone is found in the back yard, lobby or in front of his salid saloon.

Regarding public dance halls would recommend that every owner or proprietor be compelled to take out a license thus making such owner or proprietor responsible for the proper conduct of dances in the hall. Owing to inadequate police facilities it has been impossible to properly supervise public dances, and an ordinance is needed which prohibits the sale of liquor in rooms adjoining a dance hall or being used on the premises.

Charities.
I recommend that the Mayor be authorized and empowered to appoint a Board known as the Board of Charities and Correction to whom all cases of the City's poor and unfortunate can be referred and given proper attention. During the year I have had many applications and although I

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

have received assistance from the Woman's Board of Trade, still the system now in vogue is not a good one and cases of this nature should be in the hands of the proper parties and those who can give the subject the attention required, as many apply who are deserving and worthy and others who are not. No destitute person in need of relief was denied but an establishment of systematic procedure is much desired and needed.

Diseases:

During the year smallpox and diphtheria made their appearance in the city. These originated from cases which were imported into the city. Prompt and vigorous measures were adopted by the health officers and they have been remarkably successful as they were confined to a small section of the city. The appearance of these diseases disclosed a deplorable condition, and I recommend that the city obtain a site and building for a pest house or contagious disease hospital at the earliest possible date, where contagious disease patients may receive care and treatment thus benefiting not only the patients but protecting the entire community.

Illegal Encroachments:

The illegal encroachment of property owners on our streets should be stopped.

Dog License:

I recommend a new dog license ordinance which should provide that every person owning a dog must register the animal with the city clerk and shall be subjected to a tax of \$1 for each dog; that metal tags be attached to collar denoting number of license; the appointment of dog catchers should be provided for and the period of service should be discretionary with the mayor; all dogs should be held five days; owners of dogs which are tagged should be notified of the impounding; after being held five days the animals should be killed.

D. & R. G. Railroad:

I recommend that the D. & R. G. R. R. be compelled to fence their track on Jefferson street. Only recently a very serious accident was narrowly avoided. I recommend that the street on which the track now runs be widened so as to allow room for vehicles and pedestrians from the guard fence or rail. I also recommend that all railroads be compelled to maintain alarm gongs where the tracks cross any street in the city limits.

We, as a people, are careless regarding human life. We pay little attention even to safeguards demanded by law until some needless tragedy occurs and arouses us. Then there is a hue and cry.

Bookkeeping:

I recommend a better system of bookkeeping and audit for the city

finances and that the Hon. C. V. Sanford, the Territorial Traveling Auditor, be requested to install a new system and audit said books as best he will until such time as we can secure the proper legislation making it mandatory.

Plats:

I heartily recommend that no plats for additional or subdivisions be accepted unless same have been approved by the City Engineer and when so accepted the streets designated shall be defined, graded and opened to the public and that in no case shall a street be less than forty feet in width.

The present administration have recently found that four plats for city additions were filed and accepted by the city authorities in the past and all four are found to be in conflict. In fact, I find that houses are built in the center of some of these streets and it is now utterly impossible to open said streets properly. These additions looked well on paper but in reality they were impossibilities as the same street on one plat would be forty and sixty feet away from the street shown on the adjoining addition. In order to cure the evil found in the Berardinelli, Buena Vista, Capitol and other additions I recommended that they be condemned for street purposes and that the plan submitted by Mr. H. H. Dorman be accepted in lieu thereof.

Memorial Arch:

I recommend that the Memorial Arch, designating the end of the Santa Fe Trail and for which I understand an appropriation was made by the Legislature some years ago be completed at the earliest possible date and any suggestion that will bring the arch to a reality will be appreciated.

Interest on Deposits:

I recommend that the City Treasurer deposit the city funds in such depository as will pay interest on the city funds so that the city may derive some revenue from this source. The city money belongs to the people and their money should derive interest and accrue to their benefit the same as an individual deposit.

Streets: Renaming and Renumbering:
I recommend that the streets and houses be re-named and re-numbered and that the Mayor be authorized to appoint a committee to have full charge and control of said re-naming and re-numbering. We have many streets named in duplicate and the present system is far from what it should be. Many houses are not numbered and much difficulty and annoyance is occasioned thereby.

Garbage:

The city pays about \$1,600 a year

ANNUAL REPORT OF MAYOR ARTHUR SELIGMAN.

Continued from Page Six.

for the collection of garbage which is dumped in arroyos in the south-western portion of town. This is a bad practice as the winds, usually from the southwest, carry the papers and other unsightly as well as unhealthful material back to the city. We should have a place where all refuse is burnt and the garbage and sewerage should be sold for fertilizing purposes.

The householders, with few exceptions, are taking good care of their places. Our yards are deep and we have few alleys into which rubbish can be poked. A better system of collecting has been initiated, and, although it is far from perfect better service is being rendered and few complaints are reaching this office.

Lighting of Vehicles.

It is difficult to escape the logic that if one sort of vehicle, the automobile, is required to carry side and tail lamps all vehicles should be so equipped for their own safety and that of the pedestrian who has surrendered his rights to the use of the highway. No great hardship is entailed by a regulation requiring carriages of every sort, public and private, to carry lighted lamps. They are equipped with lamps yet so many carry no light. Why the omission, except for the purpose of evading the penalty of reckless driving? The users of bicycles have neglected the bell and lamp rule and the police apparently fail to enforce this regulation. Any man who has served as a mat for a bicyclist or auto can testify to the wisdom of this ordinance. Let us treat all vehicles alike, and enforce the rule.

Complaints.

Your mayor has received 492 complaints and answered 216 letters all of which have had attention to the best of his ability.

Miscellaneous Recommendations. Among the desirable improvements of the near future that should receive the thought and consideration of the city council and the people are:

A municipal bath house. It need not be expensive but under proper supervision would be very beneficial. Many progressive cities, especially on the Pacific coast, have municipal bath houses and find them an important factor in civic life.

A boulevard around the city as outlined by H. H. Dorman. The city possesses the lands over which such a boulevard would run and the vistas and panorama of ever changing beauty which would be obtained from such a boulevard would make it a most popular drive. In this connection, the Riverside Drive should be extended from city limit to city limit, connecting at one end with the Scenic Highway and at the other with the road to the cliff dwellings. Part of the drive is constructed and gives promise of becoming a most beautiful, shady thoroughfare. Its completion should be accompanied by a breakwater along both banks of the river from city limit to city limit, similar to that constructed along the executive mansion grounds. I need not point out how desirable such an improvement would be. The city should co-operate with the county in making such an improvement. By doing the work systematically, a unit at a time, and dividing the cost it would not be too great a burden on the taxpayers.

My idea is that the city should have a new charter, given by the legislature, defining its powers, something similar to the charter under which Silver City is governed. The city should adopt an appropriate design for a corporate seal.

Photographs or pictures of former mayors should find a place in the city hall which I hope to see one of the improvements of the near future. The pictures can be secured now much easier than later, should be of uniform size and suitably framed.

The city this year expended \$250 for trees which were distributed among property owners who pledged themselves to plant and take care of them. The value added to property and the increased beauty it gives to streets, is so apparent, that I believe that there will be no objection to following this precedent each year under the careful supervision of the city forester.

Respectfully submitted,
ARTHUR SELIGMAN,
Mayor.

Santa Fe, the capital city of the Territory, was long a plant of slow growth. For years past it was the custom to speak of the city as a sprawling village and in truth it was a ragged and unkempt town, aside from its public buildings. Its streets were ill-kept and very creditable. But Santa Fe has left all that behind. Now it is the first city in the territory to have paved streets, although Las Cruces claims to have a macadamized street, which Santa Fe had nearly twenty years ago. But to have an up-to-date paved street Santa Fe is, without question, the first in the territory, and I wish to congratulate the Council and the people on the civic pride and interest which they and you have shown in this regard. Santa Fe is not expecting to show a great boom. The progress is the kind of growth counted upon by those who know the Capital City. The capital is not likely to leap forward at this time in the way some industrial and commercial centers do, but Santa Fe will go on indefinitely as one of the most beautiful and attractive of cities and its ultimate size, wealth and splendor will increase the pride which the people of the territory take in their capital.

We have a comfortable, well-to-do community which for years busied itself with making and enjoying a living and resented any suggestion that improvements were necessary or desirable. Three years ago no street in Santa Fe was ordered improved as a whole. The Highway Fund was spent without system and San Francisco street, soon to be paved, was in such condition that for a good portion

of the year was a disgrace and an annoyance to pedestrians as well as vehicles. The remarkable thing about Santa Fe today is the civic spirit which makes these days seem unbelievable. The city has a new ideal and if one could make two photographs, one of the old apathy and the other the present enthusiasm, we would wonder at all our contented indifference, sitting-in-the-mud policy of the years gone by. With our present energy, enthusiasm and faith the city is marching with the vanguard.

Let the Council continue the policy of making improvements, laying sidewalks, curbs, the straightening of gutters and compelling property owners to pay for them. This sounds harsh but it is far better than the old way of allowing each individual to do as little as he pleased and to do it according to his own taste. The new policy should be adhered to in spite of all opposition. Transform the street appearance so that the citizens will stop objecting but will gaze in admiration. Take the taxpayer into your confidence and the result will be that the citizens will learn that civic improvements will pay commercially. That no man can afford to keep his property an eye-sore upon the street. Compel property owners to paint their houses, repair their porches, keep their premises clean, not only on cleaning up day but on every day, and soon you will note that more petitions for improvements will be made than you can handle and with proper publicity the opposition will fade into support and approval.

Let us pave the streets as rapidly as possible with brick, macadam or asphalt, compel strict adherence to true lines, institute proper curbing, get rid of objectionable overhanging signs, portals and drain pipes, get rid of all public service wires, and compel same to be placed in conduits, which can be done gradually, a little each year, and we will begin to have a City Beautiful.

Citizens will grow enthusiastic over a city that is working, growing, seeking to get and to give the best there is in civic life. Such activity and courage brings results that arouse a community and make it worth while to serve the people without any pay but for love of Santa Fe.

I congratulate you on your fidelity and loyalty and hope for its continuance through the next year of my administration.

T. P. DELGADO, City Clerk.

Office of City Treasurer.
Santa Fe, N. M., April 10, 1911.
Hon. Arthur Seligman,
Mayor of Santa Fe,
My dear sir:

In compliance with your request of March 23rd, last, beg to enclose herewith my report as City Treasurer, showing the receipts and expenditures to date, and I beg to take this opportunity in stating that I have had more or less to do about city affairs ever since the city was incorporated in 1891, but I have never seen the city finances in such excellent condition as they are now. We show big balances in every fund, all accounts paid in cash, the interest of the city debt paid promptly when due, and improvements shown in every direction. Of course, there are expenses made by the city that are unnecessary and such expenses should be reduced, but there are others, like good streets, good lights, extension of water hydrants, opening of new streets and sanitary sewer system, for which the expenses should be increased, but for the benefit of the tax payers and in view of the fact that the receipts exceed the expenses, the tax levy should be reduced as much as possible.

The people of Santa Fe should feel proud of having elected the right man in the right place, Mayor, and the members of the City Council, who co-operate with you in your work, without any remuneration.

As a tax payer and your personal friend, allow me to congratulate you on the good work you are doing for the old City of Santa Fe, and hope you will continue to keep it up to the end of your term. Wishing you success, I am,

Respectfully, your true friend,
MARCELINO GARCIA,
City Treasurer.

Report of City Treasurer.

Showing receipts and expenditures from time of taking office July 6, 1910 to April 10, 1911.

General Fund.

July 6, 1910. Received from J. B. Read, Treasurer, \$6,603.06.
Received from taxes to March 31, 1911, \$5,278.10.
Received from taxes, Library purposes, \$416.48.
Received from fines, \$310.00.
Received from licenses, \$6,106.25.
Received from street paving, \$186.20.
Received from sale Carolina estate, \$16.50.
Total receipts, \$19,016.59.

Expenditures to Date.

April 10, 1911. Expenditures to date, \$11,294.15.
Transferred to Road Fund, \$500.00.
Balance, \$7,222.44.

Interest Fund.

July 6, 1910. Received from J. B. Read, Treasurer, \$391.73.
April 10, 1911. Received from taxes, \$1,353.78.
Total receipts, \$1,745.51.

Expenditures to Date.

April 10, 1911. Expenditures to date, \$1,211.91.
Balance, \$533.60.

Road Fund.

July 6, 1910. Received from J. B. Read, Treasurer, \$18.10.
Received from road tax, \$1,005.00.
Received from sale of land, \$35.00.
Received from Auto license, March 11, \$36.00.
Received from F. Owen, donation, \$50.00.
Received from county, donation, \$200.00.
Transfer from General Fund, \$500.
Total receipts, \$1,844.10.

April 10, 1911. Expenditures to date.

\$1,813.38.
Balance, \$30.72.

City Bridge Fund.

April 10, 1911. Received from taxes, \$190.
Total, \$190.

Sewer Fund.

July 6, 1910. Received from J. B. Read, Treasurer, \$75.00.

Total balance on hand, \$8,290.48.
Respectfully submitted,
MARCELINO GARCIA,
City Treasurer.

CITY MARSHAL.

March 21st, 1911.
To the Honorable Mayor and Common Council of the City of Santa Fe, Territory of New Mexico,
Gentlemen:

In accordance with the request of the Honorable Mayor, I beg leave to submit for your consideration my annual report for the period from April 1st, 1910 to March 31st, 1911, as follows:

April. Licenses, \$277.00; arrests, \$5.
May. Fines, \$25.00; arrests, 14.
June. Fines, \$5.00; licenses, \$500.00; arrests, 12.

July. Fines, \$35.00; arrests, 14.
August. Dog tax, \$78.50; Fines, \$20.00; licenses, \$35.00; arrests, 20.
September. Fines, \$30.00; arrests, 12.

October. Fines, \$75.00; Road Tax collections, \$117.00; arrests, 14.
November. Street paving, \$186.20; Fines, \$35.00; Road Tax collections, \$220.00; arrests, 11.

December. Fines, \$20.00; Road Tax collections, \$119.50; arrests, 16.
January, 1911. Fines, \$30.00; Road Tax collections, \$119.50; arrests, 14.
February. Fines, \$25.00; Road Tax collections, \$54.00; arrests, 11.

March. Sale Gds., \$16.50; Fines, \$40.00; arrests, 10.
Total collections: Miscellaneous, \$281.20.
Fines, \$340.00.
Licenses, \$812.00.
Road Tax collections, \$722.00.
Arrests, 156.

I respectfully beg leave to refer to my monthly reports for the itemization of various works done under my supervision during the last year in the way of fixing culverts, streets, sidewalks, and other matters too various to enumerate in this annual report, and which are not of very vital importance to repeat in full, but which can be referred to in the monthly report.

In the way of recommendations, I wish to recommend the passage of an ordinance to compel the saloons on San Francisco street to close their back yards and not permit persons to loiter or drink in the said back yards. It is impossible for the city police, as limited as it is, to put a stop to this nuisance unless it is with the aid of an ordinance which will empower the police to fine the parties permitting such places. I have no doubt that the persons owning the saloons will aid all in their power to put a stop to this. The city is otherwise prosperous and in a growing condition and I believe that if the present work is kept up we will soon have a very beautiful city. Now that the summer is coming I would suggest the placing of an additional wagon for the purposes of irrigation only and that they sprinkle all over the city and not only around the business section.

Respectfully submitted,
NICOLAS SENA,
City Marshal.

Report of City Attorney.
Santa Fe, N. M., March 23, 1911.
Hon. Arthur Seligman, Mayor,
Santa Fe, New Mexico,
Dear Sir:

I am in receipt of your communication of the 2nd, inst., relating to your annual report of the condition of the City of Santa Fe at the close of the fiscal year ending March 31, 1911, and requesting a report of what has been accomplished in this department during the past year, and in reply thereto, I have the honor to state that I have endeavored to assist in every way possible both officially and personally to aid in the conduct of the affairs of the city, in accordance with the law and the ordinances of said city, to the best of my ability.

I am keeping an abstract of deeds executed by the City of Santa Fe, under the provisions of the Act of Congress entitled, "An Act to settle the title of real estate in the City of Santa Fe, New Mexico," approved April 9, A. D. 1900, which includes all deeds that have been executed during your administration of the affairs of this city, which does not appear to have been kept heretofore, and fourteen of such deeds have been executed and delivered during the year, as follows:

No. S. 1, Adolf Seyfert, June 15, 1910.
No. S. 2, Mary H. Haroun, June 16, 1910.
No. S. 3, Alfred H. Brodhead, June 24, 1910.
No. S. 4, Mary T. Gooch, July 21, 1910.

No. S. 5, Mrs. J. P. Victory, August 12, 1910.
No. S. 6, William Taylor Thornton, August 12, 1910.
No. S. 7, Helen M. Thornton, August 12, 1910.

In conclusion, I desire to thank you, the members of the City Council, and the City Officials generally for the courteous treatment that has been accorded me during the period of time referred to, and to state that I shall be pleased at all times to render any assistance within my power as an official, and as a citizen of Santa Fe, to aid in making it more beautiful and beautiful, as suggested by you.

Very respectfully,
CHAS. F. EASLEY,
City Attorney, Santa Fe, New Mexico.

STREETS AND BRIDGES.

Santa Fe, N. M., April 4, 1911.
The Hon. Mayor and City Council,
Santa Fe, New Mexico,
Gentlemen:

Your Committee on Streets and Bridges respectfully begs to submit the following report:
Sidewalks laid during the fiscal year closing March 31, 1911, are as follows:

Jefferson street, 225 running feet, 4 feet wide.
Water street, 5724 running feet, 4 feet wide.

Gasper avenue, 273 running feet, 8 feet wide.
Montezuma avenue, 1,938 running feet, 5 feet wide.

Guadalupe street, 717 running feet, 4 feet wide.
Sandoval street, 270 running feet, 4 feet wide.

Marcy street, 939 running feet, 5 feet wide.
Johnson street, 516 running feet, 5 feet wide.

Manhattan street, 270 running feet, 5 feet wide.
Galisteo street, 741 running feet, 4 feet wide.

Capitol street, 633 running feet, 5 feet wide.
Making a total of 12,246 running feet of sidewalk, almost 2 1/2 miles, all of which has been laid in cement.

We further beg to report that we have laid on Montezuma avenue 6 crossings, and on Otero street and Palace avenue 1 crossing, and at the Federal building 1 crossing, none of said crossings being less than 7 feet in width.

We also beg to report that we have opened Hancock street, Otero street from Palace avenue to Marcy; we have opened Buena Vista street, and purchased the lands for said street from the following persons: McKensie, Adams, Medrano, and Dominguez.

We have widened Marcy street to a width of 60 feet.
We have widened Riverside Drive by the Archbishop's garden.

We have purchased a site for a stone quarry within convenient distance of the city, in fact, almost even

No. S. 8, Thomas J. Kenny, August 12, 1910.
No. S. 9, Thomas J. Kenny, August 12, 1910.

No. S. 10, Alice A. Atkinson, October 24, 1910.
No. S. 11, Martina Garcia de Padilla, January 20, 1911.

No. S. 12, Librado Valencia, January 27, 1911.
No. S. 13, Canuto Romero, February 9, 1911.

No. S. 14, Lucia Lacassagne, March 24, 1911.

None of the common lands within the grant to the city of Santa Fe have been sold during the year, and none have been placed on the market for the reason that there has never been a plat made showing the lands held in severalty and the common lands within said grant, which plat I understand is now being made and which will be very useful for the purpose of determining just what lands are subject to disposition by the city.

During the year I prepared and filed about forty complaints in the police court, most of which were against parties for failure to pay the road tax and in every case the complaints were filed and process issued, the defendants paid the amounts due before going to trial and the cases were dismissed. The other cases referred to were prosecuted to final judgment in favor of the city.

During the year I have also prepared a number of petitions for the opening, widening and straightening of streets and some agreements between the city and the property owners for the paving of portions of certain streets within the limits of the city, and have filed one suit in the District Court for the condemnation of lands for street purposes, which is still pending.

The plats of one addition to the city have been submitted to this office for examination and approval and subsequently accepted by the City Council, and one of same is now on file in the office of the Clerk of the City, as required by law. I have also prepared several deeds for the exchange and donation of lands for street purposes, and for lands that have been purchased by the city for such purposes.

I have also assisted the City Clerk in the collection of occupation licenses in several cases, and from time to time performed such duties as are required of the City Attorney under the law and the ordinances of said city.

I have now under consideration and preparation a revision and compilation of the ordinances of the City of Santa Fe, which will be completed at an early date.

There are many things that may be done to improve conditions in this city and make it more beautiful and beautiful, but to accomplish what may be done for the general good of the city, the officials must have the co-operation and support of the people generally, and I would urge unity of action not only by the officials of the city, but also by the citizens and taxpayers generally, with the view of bringing about the desired results. We need better sanitary conditions, more graded and paved streets, more culverts and bridges, and stricter enforcement of the law and ordinances of the city, to make Santa Fe what she ought to be as the capital of the future State of New Mexico, and the religious, educational and political center of this great Territory.

In conclusion, I desire to thank you, the members of the City Council, and the City Officials generally for the courteous treatment that has been accorded me during the period of time referred to, and to state that I shall be pleased at all times to render any assistance within my power as an official, and as a citizen of Santa Fe, to aid in making it more beautiful and beautiful, as suggested by you.

Very respectfully,
CHAS. F. EASLEY,
City Attorney, Santa Fe, New Mexico.

NOTICE OF SHERIFF'S SALE.
By virtue of an execution to me directed, I, the undersigned sheriff of Santa Fe County, New Mexico, have levied upon and will sell at public auction, to the highest and best bidder for cash, on Thursday, the 29th day of July, 1911, at the hour of ten o'clock in the forenoon, at the office of the Boston-Cerrillos Mines Corporation at the Cash Entry mine, three (3) miles northwest of Cerrillos, Santa Fe County, New Mexico, the following described property, to-wit:

6 Large Boilers and Stacks.
1 Hoist.
1 Air Compressor.
1 Dynamo.
1 Light Engine.
6 Pumps.
1 Corlis Engine.
1 Crusher.
3 Sets Rolls.
1 Huntington Mill.
6 Cad Tables.

Said Benbition! exponas under which said levy was made and said sale is to be made was issued out of the district court of Santa Fe County, New Mexico, on the 17th day of April 1911, upon a judgment rendered March 24th, 1911, for the sum of seventeen hundred eleven and 67-100 dollars (\$1711.67) and six per cent interest thereon from the date of judgment, together with three hundred and fifty-seven and 31-100 dollars costs, in cause No. 6694 of the district court of Santa Fe County, New Mexico, in a suit brought by Alfredo Montoya and Everardo Montoya of Cerrillos, N. M., against the Boston-Cerrillos Mines Corporation, the execution defendant herein, upon an open account for goods sold and delivered to said Boston-Cerrillos Mines Corporation, which said judgment amounts on the day of the sale, including interest and costs, to the sum of two thousand sixty-eight and 98-100 dollars (\$2068.98).

This sale is also made for the purpose of satisfying costs accruing as sheriff's fees and publication of notices in connection with said levy and execution.

CHARLES C. CLOSSON,
Sheriff of Santa Fe County, N. M.

NOTICE OF SHERIFF'S SALE.

SOCIAL AND PERSONAL

(Continued From Page Five.)

The Wallace Club is not meeting this afternoon.
District Attorney C. W. G. Ward is here from Las Vegas. He is at the Montezuma.

The Thirteen Card Club is meeting this afternoon at the home of Mrs. C. A. Bishop on East Palace avenue. Governor Mills will leave tonight for Raton, Colfax county, and points in Union county to be absent for several days.

Mrs. F. C. Wilson entertained a score of friends Wednesday afternoon at a bridge party, which proved very enjoyable.

John Stein, manager of the Harvey eating house, in this division of the Santa Fe, is spending the afternoon in the city.

National Committeeman Solomon Luna, who has been spending a few days in Santa Fe, returned last night to Albuquerque.

Miss Marie L. Romero, daughter of Mr. and Mrs. Cleofes Romero, has returned from Albuquerque, where she attended St. Vincent's Academy.

Miss May Spitz and Miss Florence Spitz, accompanied by Miss Phillips of New York, are back in Santa Fe to the delight of their many friends.

The Saturday Card Club is meeting this afternoon at the home of Mrs. A. S. Brookes, and besides the members of the club the guests are Mrs. H. P. Helzer and Mrs. A. J. Fisher.

John Canning, delegate to the constitutional convention from Carrizozo, has decided to leave New Mexico for

the San Simon valley, Arizona. He has sold out his business at Carrizozo. Mrs. Hall, mother of Mrs. W. G. Sargent and Wallace Sargent, son of Mr. and Mrs. W. G. Sargent, have returned from Washington. They hurried to the bedside of Mrs. Sargent, who is seriously ill at St. Vincent's Sanitarium and were much pleased to find her steadily improving.

Mrs. Francis B. Hamlin of Washington, D. C., arrived in the city yesterday to visit the Presbyterian Missions. Mrs. Hamlin is a member of the Woman's Board and is just completing a three years' trip around the world, having visited many of the most important mission centers. While in the city she is being entertained by Mr. and Mrs. Irving Tyler. She spoke this afternoon at the Woman's Missionary Society and also at the Presbyterian church tomorrow evening at 7:45.

Miss Eleanor Jaffa entertained some of the younger set at the home of her parents on Palace avenue Thursday evening with a dance, the dance numbers having been cleverly arranged on programs giving eight different varieties of dances. Delicious refreshments were served at 11:30 and punch was served throughout the evening. Those present were the Misses Miriam Cartwright, Madeline Mills, Ruth Winters, Claribel Tischler, Blanche Roberts, Consuelo Berger, Dorothy Safford, Dorothy Walter, Helen Winter, Carolyn Michaels, Anna Dorman, Hazel Sparks, the Messrs. Anthony Luna, Miguel Otero, Luna Berger, Dillman Kinsell, Elmer Friday, Bernard Spitz, Morton Seligman, John Windsor and John Roberts.

There is a Difference Between Wagons

A cheap wagon looks about as good as a Studebaker when it is new, but it won't compare with a Studebaker after several years wear;

And what is more,

The chances are that what you have paid on it for repairs, added to the original cost, would be more than we would ask for a new

Studebaker
WAGON

The cheap wagon is "played out" in a few years, But,
The Studebaker will be practically as good as new.
The prudent farmer buys the wagon that will do his work well and wear well.

He buys a Studebaker.

Light running—wears longest

SANTA FE HARDWARE
& SUPPLY CO.

THE DAILY ROUND UP.

Santa Fe, N. M., June 17.—
For New Mexico—Fair tonight and Sunday with warmer weather in north portion Sunday.

Onion Sets and Alfalfa Seed at Goebel's.

Sweet peas. "The best that grow." All colors. Phone Black 204.

Fresh Candies. Just received at Fischer Drug Company, The Rexall Store.

BORN to Mr. and Mrs. J. E. Clark, on Friday evening, June 16, 1911, a daughter. Both mother and baby are doing well.

Ice Cream tomorrow at Capital City Dairy. Milk and cream always on hand. Phone Black 188.

Quarterly Conference.—The quarterly conference of the St. John's Methodist Episcopal church will be held this evening at 8 o'clock.

Buy monuments and iron fences from Bills Bros., 771 Broadway, Denver. P. A. Sandoval, Santa Fe, local representative.

Fair and Square Deal that is what Zook's Pharmacy has to offer its patrons. If you do not believe it, read the change of advertisement today.

Take Her a Box of Liggett's Chocolates. There is no better candy made, Fischer Drug Company.

A Good Shower.—A few minutes before the noon whistle blew today a heavy shower visited Santa Fe and came so suddenly that many persons did not have time to get under shelter. The rain laid the dust better than a dozen sprinklers could have done it and was a very welcome visitor.

Game Called 3 p. m.—Las Vegas will play Santa Fe at baseball here at 3 o'clock tomorrow afternoon on College grounds. A great game is promised. Dr. Thomas McCarthy will pitch for Santa Fe.

Frank Andrews will leave tomorrow for Denver to purchase fixtures to equip a first class up-to-date meat market. He will also secure the services of an expert meat cutter and will shortly offer to his patrons in connection with his grocery and bakery, the best there is to be had in the meat line.

Sweet Peas, any quantity. At McConvery's, 415 Palace ave. Phone Black 204.

From 48 to 72 Degrees.—That was the range in temperature yesterday and the average relative humidity for the day was 37 per cent. The temperature at 6 a. m. today was 53 degrees. Yesterday was a partly cloudy day and cool for June, with brisk to high northerly winds in the afternoon and at night. Showers fell in the afternoon west of the city.

Many Attend Entertainment.—There was a large attendance last night at the entertainment at St. Catherine's Indian school and the exercises conducted by the pupils were

a credit to themselves and to their teachers, the good Sisters of the Blessed Sacrament. The program published in the New Mexican yesterday was carried out and won the applause of all those present.

The Sweetest Story Ever Told—Liggett's Chocolates at the Rexall Store, Fischer Drug Company.

Veteran Dies at Ripe Age.—The body of Patrick McLaughlin, who died at Magdalena Wednesday was brought here today and will be buried in the National cemetery at 9 o'clock tomorrow morning. He was a veteran of the Civil War and was 79 years of age. He never married. Mr. and Mrs. Frank Knoblock came here to attend the funeral as Mr. McLaughlin had lived at their house in Magdalena. The G. A. R. will be in charge of the services.

De Vargas Procession.—On Sunday, June 25, will be held the De Vargas procession which is carrying the statue of the Blessed Virgin which now reposes in the chapel in the south wing of the Cathedral and which is believed to be the one carried by Don Diego De Vargas in solemn procession in 1693, after a successful battle with the Indians. In fact, De Vargas is said to have made a vow to have his statue carried every year in June to the chapel in Rosario cemetery in token of thanks for the victory.

If You Want the best you will get Liggett's Chocolates at Fischer Drug Company.

Corpus Christi Procession.—Tomorrow the Catholics of the Cathedral here will celebrate Corpus Christi feast by marching in a procession after the high mass. This procession is an annual affair and is a public act of faith for in it is carried the Sacred Host. The faithful not in the procession kneel as the Blessed Sacrament passes. There are two altars at which brief services are held and at which the procession stops. One is at Frank Delgado's house on Canon road and the other at the Sena residence, on East Palace avenue. The final services are held at the main altar in the Cathedral after the procession returns. The Very Rev. A. Fourchegu, vicar general, will announce after the late mass the names of those who are to take a leading part in the procession.

PLACE FOR WOMEN IS IN THE HOME.

Cardinal Gibbons Denounces Equal Suffrage in Commencement Address at Baltimore.

(By Special Leased Wire to New Mexican) Baltimore, Md., June 17.—Cardinal Gibbons scored woman's suffrage in an address last night at the commencement exercises of St. Joseph's college. He said: "I think the place for women is in the home. Women should not want to vote, but if they took proper interest in the affairs of their husbands and brothers they could easily have them cast their ballots in the right manner. In doing this, women will be the champion of what is right."

Amalgamated copper rose 5-8; Although there were reports of needed rains in various wheat and cotton sections, the market weakened directly after the opening. Reading, Union Pacific and United States steel reacted to fractionally below yesterday's closing. The rise in Lehigh Valley was cancelled and the Hill stocks were depressed more than a point below last night. Industrial stocks showed some heaviness, the decline of 1-2 in Virginia—Carolina Chemical on uncertainty over maintaining dividends causing some selling of other issues. There was a sharp rally before 11 o'clock and the losses were mostly recovered.

The market closed steady.

Cotton Market.

New York June 17.—There was a further and sensational decline in the cotton market following favorable new crop reports including private advices of additional rains in the drouth sections of the western belt and a private condition report showing an improvement in crop prospects since the government's figures were made up last month.

The old crop months were violently excited with July selling off to 14.81 or 39 points below last night and \$6.60 per bale under the high record of the season.

SENSATIONAL DECLINE IN COTTON RECORDED.

Bears Also Have Their Way on Wheat Market and Stocks Developed Moderate Strength.

(By Special Leased Wire to New Mexican) Chicago, Ill., June 17.—Rains in the spring wheat country carried down prices here today. Good commission buying caused a rally but the market again sagged. Bearish feeling was increased by the fact that country offerings of wheat to arrive were decided free, with purchasers holding off. Cash demand halted completely. July started 1-8@1-4 cent to 1-4@3-8 off at 87 1-8 to 87 1-4, rallied to 87 1-2 and then fell back to 87 1-8. Cooler weather and more moisture made corn easy. September opened 3-8 to 3-4 down at 55 5-8 to 56 and steadied around 55 3-4@7-8; oats sagged with other grain. September started 1-4@3-8@1-2 lower at 38 7-8 to 39 and reacted to 39 1-8; provisions were firm. First sales were 2-1-2 to 2-1-2@5 cents higher with September at 8-30 for lard; and 8-30@8-32 1-2 for ribs.

No business was done in pork. The close was 3-4@7-8 off but firm for July.

Later the market held steady, closing at a net loss of 1-2 cents for September.

Wall Street.

New York, N. Y., June 17.—Moderate strength developed in the early trading on the stock exchange today. The opening range of prices showed fractional gains for most of the active railroad stocks. Lehigh Valley rose 1 and Union Pacific 1-2. The Industrial issues showed a lesser degree of strength.

Amalgamated copper rose 5-8; Although there were reports of needed rains in various wheat and cotton sections, the market weakened directly after the opening. Reading, Union Pacific and United States steel reacted to fractionally below yesterday's closing. The rise in Lehigh Valley was cancelled and the Hill stocks were depressed more than a point below last night. Industrial stocks showed some heaviness, the decline of 1-2 in Virginia—Carolina Chemical on uncertainty over maintaining dividends causing some selling of other issues. There was a sharp rally before 11 o'clock and the losses were mostly recovered.
