VOLUME 12

ALBUQUERQUE, NEW MEXICO, SATURDAY JUNE 24 1905.

NUMBER 28

## ENDEAVORERS IN BALTIMORE

### City Preparing for Twenty Second International Convention.

#### SOME THOUSANDS TO ATTEND

Baltimore, Md., June 22.—Baltimore has about completed all arrangements for the reception and entertainment of the thousands of visitors who will come to the city two weeks hence to attend the twenty-second international convention of the Christian Endeavor union. There is every promise of one of the most successful, as well as one of the largest conventions in the history of the city's organization. The proceedings will cover an entire week.

There will be 125 separate meetings, not including the annual sessions which will be preached in all the evangelical churches of the city. Outdoor evangelistic services will be held nightly.

The society will meet for the transaction of business Wednesday morning, July 5, and afterward the trustees will convene. The opening session of the convention will take place in the afternoon, when Rev. Dr. Francis E. Clark will preside. Governor Warfield, Mayor Timonium and Chairman Atwood of the local committee, will each deliver addresses of welcome, to which President Clark will respond. The "Annual Review of the Field," by Mr. Voeltz, will end the session. At night will be held a "Festival of Praise" service, sung by a chorus of 2,500 voices.

Thursday morning a school of methods, in which nine prominent workers will take part, will be followed by a series of addresses on "The Boys and Girls for Christ and the Church." The afternoon will be devoted to conferences of union officers, junior workers and intermediate societies, and there will be a junior rally in the armory, at which the principal exercise will be a cantata, entitled "The Story of Christ and the Church in Song." This will be sung by a chorus of 1,000 children, under the leadership of Prof. Harry W. Porter, of Baltimore. The closing number will be the formation of the American flag, the Maryland flag and the G. E. monogram by the 1,000 children.

At night "The Brotherhood of Endeavor" will be the name of a service, when speakers representing twelve foreign countries will be heard. Friday morning state rallies and a quiet hour service will be held. International rallies will take the place of an afternoon session. The night session will be devoted to addresses on "Evangelism Everywhere."

On Saturday morning will be held a number of outings, including one to Washington and Gettysburg. In the evening addresses will be given on "World Wide Endeavor." Sunday morning the delegates will attend the regular church services. In the afternoon three large meetings will take place, one in the armory for men, another for women in Lyric hall and a third for children in the associate church. Sunday night the usual consecration services will be held.

Recognition services are scheduled for Monday morning, when banners and diplomas will be awarded to societies that have done good work during particular lines. Monday afternoon "Christian Endeavor and Reform" will be the general topic, and at the last session at night Dr. Clark will deliver his annual address, followed by the closing roll call of all countries.

## FORTUNA MINE VEIN CANNOT BE LOCATED.

The famous Fortuna mine, near Yuma, Ariz., a property that has yielded millions of dollars to gold, has "passed out." About a year ago, while still in rich rock, the miners came upon a "fault," beyond which they have been unable to locate the ore vein. The keenest of experts have directed the work of tracing the ore vein, but without success.

Immense sums have been spent in this work, as it is appreciated that the vein will be worth still more millions of dollars if found. The Fortuna cyanide tanks, with capacity for 140 tons a day, have been sold to a Los Angeles company composed of Stephen V. Childs, Dr. Julius Koehle and J. E. Hanson, of Los Angeles; Andrew Trumbo, of Yuma and W. K. Maull, of Phoenix. The cyanide plant will be enlarged to the capacity of 200 tons a day and placed on the tailings of the Grand Central mill near Tombstone.

The Grand Central, now a part of the Tombstone Consolidated company's holdings, was a bonanza in the early 80s. The tailings are estimated at 125,000 tons, and assay from \$1 to \$5 a ton in gold and silver. The Tombstone company will receive a royalty on the output.

## DENVER MAN RELEASED ON BOND IN MURDER CASE.

Edward Gray, of Denver, who has been in jail at Las Vegas for three months, charged with the murder of Chile de Pastor, and who at the last term of court secured a change of venue to Colfax county, is at liberty, his bond having been reduced upon the showing made by his attorney, W. B. Dunbar, from \$10,000 to \$5,000, which was immediately given by responsible business men.

## ORIGINAL CLIFF DWELLERS FOUND IN OLD MEXICO.

Near Maguarachi, Chihuahua, in Mexico, the remarkable discovery of a race of cliff dwellers has been made. The report of their existence

is brought out by Ben Goodie, a miner, and Father Mariano Guerrero, a Catholic priest. They live in cliff houses, exactly as the supposedly extinct race of cliff dwellers lived, and subsist on corn and game killed with stone weapons. They run at the appearance of strangers. Their vocabulary is different from any known in Mexico, and is said to consist of few words. They are very small. The village is in a district full of ruins of prehistoric cliff dwellers.

## TO ORGANIZE ROSWELL ELKS' LODGE IN JULY.

District Deputy A. B. Renahan, of the Elks' lodge, Santa Fe, has received a telegram from Roswell asking that he postpone his coming to that city from June 30, to about the middle of July. Mr. Renahan had written the local committee at Roswell that he would be there on June 30, to organize the lodge, but owing to the fact that the business men will all be very busy then, the Roswell people have asked for the postponement, as stated.

## ARIZONA MORMONS TO BE PROSECUTED.

United States Attorney Nave, of Arizona, will proceed against several Mormons of Apache county on the charge of polygamy. Where the charges originated are not known at present, and the local officials had no knowledge of them until the recent visit of Senator Dabbs of Idaho.

## "Hannah Has Went."

A Chicago lady wrote to a farmer over in Indiana where she spent last summer but that she objected to the kitchen methods of his hired girl and to the wine being kept too close to the house. She received an answer which contained the following: "You may cum all right. Hannah has went and there hasn't been no hops on the place since you left last summer."

## Section Hand Is Killed.

Raymond Galben, a Santa Fe section hand, was killed yesterday morning about 7 o'clock near Summit station in the Cajon pass, says the San Bernardino Sun. Galben was a member of a section crew which was out on a hand car going to their work. Suddenly the crew saw the Salt Lake overland bearing down upon them, and they barely had time to get the hand car off the track when the train dashed past. While Galben had assisted in getting the car off the rails, he, for some reason, failed to get himself off the track, and was struck by the passenger train and thrown a great distance, his body being fearfully mutilated.

Roadmaster Walter Peris and Conductor Pittman were notified, and both went up on No. 8, an inquiry being held and a verdict being rendered in accordance with the facts. The body was brought to the city last night.

## KENDRICKS MAKING OFFICIAL INSPECTION

Late this afternoon a special train of five cars arrived from the east, having on board Vice President J. W. Kendrick, of the Santa Fe, with headquarters in Chicago; General Manager J. E. Hixson, of Topeka; Superintendent F. C. Fox, of the western division, at La Junta, and other officials.

The party was met here by General Manager A. G. Wells of the coast lines of the Santa Fe, and General Superintendent L. L. Hibbard, who arrived from Los Angeles this morning on No. 2. Master Mechanic S. L. Bean and Superintendent J. F. McNally of the Rio Grande division, were also in the party.

Mr. Kendrick's trip west at this time is simply in the nature of an official inspection for the purpose of looking after vast improvements in this city and to the line from this city to Los Angeles. Immediately after the arrival of the officials this afternoon, an inspection was made of a number of shops.

During the inspection the announcement was made that deliveries will soon be made on eighty-five new locomotives. Of this order, twenty are of the balanced compound Atlantic type and thirty are balanced compounds of the Pacific type.

The officials will be distributed over the system and will gradually find their way into the service. On the east end the new engines will replace some heavy freight engines that will be sent here to be used on the New Mexico division.

## FOUR SENTENCED BY JUDGE MCPHIE

Judge John R. McPhee in the district court at Terra Amarilla sentenced Solomon Trullio to the penitentiary for five years for murder in the third degree, Jose Ignacio Romero, who pleaded guilty to murder in the third degree, was sentenced to ten years in the penitentiary, Fernan Martinez found guilty of forgery, was sentenced to one year, and Fred Harris, found guilty of burglary, also to one year. The bond of Grant McBroon, indicted for assault to kill with a deadly weapon, was declared forfeited, as he has disappeared. It is for \$500 in each of two indictments.

## FAMOUS PHOTOGRAPHER TAKES PICTURES OF ALBUQUERQUE

Burr McIntosh, publisher of "Burr McIntosh Monthly," of New York, and considered one of the leading photographers in the United States, spent today in this city getting pictures of the points of interest. Mr. McIntosh will leave tonight for the Grand canyon, where he will spend several weeks, and will then proceed to San Francisco, where he will join the Tait expedition to Mauna.

Today Colonel W. H. Greer took the photographer and his associates to the mills of the American Lumber company, where he secured several fine panoramic views of this great industrial enterprise. In addition, he took several views of the Alvarado hotel, the Indians at the Harvey curve building, and the birthplace of the wife of General Sheridan and San Felipe de Neri church in old town.

## ALFONSO ACCEPTS HIS JUST APPOINTED CABINET.

Madrid, June 23.—King Alfonso today approved his new cabinet. It includes Montero Rios as premier and General Weyler as minister of war.

## NO GO BETWEEN

JAPAN INSISTS ON SETTLING TERMS OF PEACE DIRECT WITH RUSSIA.—NEWS ITEM.

## RENTS HENS FOR LAYING PURPOSES

Corning, Cal., June 21.—Probably the most unique idea in the history of poultry raising is that of N. A. Lybeck, who lives a short distance out of Corning. Lybeck rents laying hens. His charge for these hens is three cents on every dozen eggs that they lay. He decided to start his hen-renting business last December. He immediately built a tremendous brooder house. He now has 10,000 young chickens, the oldest not over three and a half months old. In a year from now Lybeck expects to have 50,000 chickens; in two years 100,000 laying hens. It will then be the largest chicken ranch in the world. Each hen will average 150 eggs, or 15% down each year. At three cents on every dozen eggs Lybeck will receive an average of 27 cents a year for every hen rented. When a hen stops laying Lybeck will take her back and supply a laying hen. All his hens are White Leghorns.

## ASSAULTED ON THE STREETS OF ROSWELL.

Dan Thomas attacked Dave Scott, on Main street, Roswell, in front of the postoffice, and made a murderous attack on him with a sharp point knife. Scott wrestled the weapon from him, and with his naked fist administered a terrific beating, which might have killed Thomas, but for the interference of bystanders. The men are brothers-in-law, and Scott is a prominent ex-merchant of Roswell. Thomas was placed under bond on the charge of making an attack with a deadly weapon.

## FOUR SENTENCED BY JUDGE MCPHIE

Judge John R. McPhee in the district court at Terra Amarilla sentenced Solomon Trullio to the penitentiary for five years for murder in the third degree, Jose Ignacio Romero, who pleaded guilty to murder in the third degree, was sentenced to ten years in the penitentiary, Fernan Martinez found guilty of forgery, was sentenced to one year, and Fred Harris, found guilty of burglary, also to one year. The bond of Grant McBroon, indicted for assault to kill with a deadly weapon, was declared forfeited, as he has disappeared. It is for \$500 in each of two indictments.

## FAMOUS PHOTOGRAPHER TAKES PICTURES OF ALBUQUERQUE

Burr McIntosh, publisher of "Burr McIntosh Monthly," of New York, and considered one of the leading photographers in the United States, spent today in this city getting pictures of the points of interest. Mr. McIntosh will leave tonight for the Grand canyon, where he will spend several weeks, and will then proceed to San Francisco, where he will join the Tait expedition to Mauna.

## NEW YORK COURT TAKES NO RECESS THIS SUMMER.

New York, June 23.—The regular summer vacation of the court of appeals will be suspended this year so that the court may be available if District Attorney Jerome begins prosecution in connection with the affairs of the Equitable Life Assurance society. This action was taken at the request of District Attorney Jerome.

L. D. Blackman has returned from Chicago, where he was called by the death of his mother.

## ANOTHER INDUSTRY FOR THIS CITY

### Company of Local Business Men Will Build Big Sand- Lime Brick Plant.

#### ARE NOW LOOKING FOR SITE

(From Thursday's Daily Citizen.)

W. F. Barnes, of San Francisco, representing the Schwartz System Brick company, arrived in the city today to confer with the officers of the Albuquerque Sand-Lime Brick company, a new concern recently incorporated, to engage in the manufacture and sale of sand-lime brick. Mr. Barnes' trip to this city is for the purpose of closing a deal with the officers of the newly incorporated company for the erection of a sand-lime brick plant here, to cost in the neighborhood of \$50,000.

In company with W. H. Greer, J. T. McLaughlin and M. E. Hickey, Mr. Barnes was taken for a drive about the outskirts of the city, for the purpose of finding a suitable site for the location of the plant. Several places are picked out, but as yet no definite site has been arrived at.

## ATTORNEY W. B. CHILDERS WINS AN IMPORTANT SUIT

Attorney W. B. Childers returned this morning from Socorro, where he has been engaged the past week in conducting the case of Dye, Childers, et al. vs. Greary, et al., a suit involving the title to the famous Compromise mine in the White Oaks mining district in Lincoln county.

Mr. Childers appeared for the plaintiffs in the case, and the court rendered a decision in favor of the plaintiffs.

Attorney H. B. Ferguson appeared for the defendants, and immediately after Judge Perkins rendered his decision, Mr. Ferguson gave notice of appeal to the supreme court.

The case has been in the courts for several years, and was remanded back to the district court in January, by the territorial supreme court, having been decided in favor of the defendants up to that time.

Mr. Dye, one of the plaintiffs, is a wealthy mine owner of Joplin, Mo. He also returned to the city today with Mr. Childers.

## Accession to Albuquerque.

Dr. E. T. Lashell, who came here from Pennsylvania, early in March, to recuperate from severe injuries received in a street car accident, has decided to stay permanently. Today he returned as United States pension examiner, county inspector for Pennsylvania's state board of health, and as such a choice of the Spencer hospital at Meadville, and surgeon for the Bessemer & Erie railroad, his leave of absence having expired June 18.

No permanent place of residence has been decided upon, but it will probably be somewhere in this section, and as soon as a choice has been made, his wife and children will join him. The doctor has practiced medicine for the past fifteen years, but may decide to take up some other kind of work.

## RESULTS AT OVERLAND PARK WEDNESDAY, JUNE 21.

George H. Estabrook's beautiful mare, Floradora, had a walk-away at the Overland park meeting at Denver on Wednesday afternoon in the 2:15 race, winning in the last time of 1:14.

Mr. Dye was the surprise of the card on that day, and won the 2:34 trot handily. Time, 2:15 1/2.

Jockey Singleton, who was one of the best boys at the spring race meeting in this city, is making a good record at Denver, and rode two winners on Wednesday, namely, Elmridge in the fourth race and Flying Trap in the seventh race.

The results on that day were as follows:  
First race, pacing, 2:15 class—Floradora. Best time, 2:14 1/2.  
Second race, trotting, 2:15 class—Miss Agnes. Best time, 2:15 1/2.  
Third race, running, four and one-half furlongs—Prince Brutus. Time, 0:56 1/2.  
Fourth race, running, four furlongs—Elmridge. Time, 0:49 1/2.  
Fifth race, running, mile and one-eighth—Red Cross Nurse. Time, 1:47 1/2.  
Sixth race, running, five and one-half furlongs—Galvanic. Time, 1:02 1/2.  
Seventh race, running, five and one-half furlongs—Flying Trap. Time, 1:09.

Rev. J. M. Scott, pastor of the Highland Methodist church, was a southbound passenger last night for Magdalena, where he goes to attend the quarterly conference of the church of that district.

H. J. Bremer, owner of the famous Phoenix cattle ranch near Vetroos, spent the day in the city on his way to Holbrook, Ariz., where he has another big ranch. He reports stock conditions good, and says he will market several hundred head of cattle in the next few months.

## DIED FROM EXHAUSTION.

The body of a dead man was found near Los Placitos, in Taos county, Monday afternoon. Deceased was identified as a man who had passed Roman Martinez's house earlier in the afternoon, and had stopped there and asked for a drink of water. He seemed to be very weak and ill and was in sort of a dazed condition. After receiving the drink of water, the man proceeded on his way and was found a few miles from the house, where exhaustion had evidently overcome him and he had lain down by the roadside, death eventually following.

From papers on his person it was shown that his name was Martin H. Craig, an Oklahoma engineer, and that he was a union man and in good standing. From memoranda in a note book found in one of the pockets of his clothes, it would seem that he had been ill in a hospital in Denver, Colo., and had been discharged June 10 that institution on June 13. He was evidently trying to reach the railroad at Espanola when death overtook him.

A coroner's jury was empaneled, and rendered a verdict to the effect that the deceased came to his death through bodily exhaustion. The remains were interred in the Tierra Anni cemetery.

## BRIDGE FOREMAN POWELL IS IN THE CITY

### HE WANTS EXTRA CARPENTERS —TALKS ABOUT THE ASH FORK FIRE.

(From Thursday's Daily Citizen.)

J. Powell, foreman of the building department of the Santa Fe coast line, from Albuquerque to Seligman, and the Grand Canyon road, is in the city, and hopes to leave for the west tonight. He is here to secure if possible, six carpenters and four bridge men.

Mr. Powell says the Santa Fe road intends to reconstruct the Grand Canyon road and ballast the entire line with cinders, thus making it one of the very best branch lines along the main route. Section houses will be constructed at proper intervals, and the road will be properly looked after in the future.

Relative to the burning of the two-story Harvey eating house at Ash Fork, which occurred Sunday evening, Powell says that the manager of the hotel is yet in doubt as to the origin of the fire, but that a spark from a passing engine or from a defective flue, but in any event the fire spread rapidly, and in a very short space the whole building was entirely enveloped in flames. A bucket brigade was hurriedly formed by the citizens of the town and hotel employees, and by good work the Santa Fe railway depot and big oil tanks were saved, thus averting a most awful catastrophe. The employees of the hotel, says Mr. Powell, were unlucky, losing almost all their personal property, and some had narrow escapes from being seriously scorched by the flames. Some of the help has been sent to the eating house at Seligman, and others have gone to the El Tirol hotel at Grand Canyon. Mr. Powell says by next Monday, meals and lunches will be served again at Ash Fork. A temporary building will be ready in which to serve meals at the counter, and a dining car has been sidetracked for regular meals. A new Harvey eating house will be constructed at Ash Fork.

The headquarters of the Santa Fe at Topeka has announced that the road between Downing and El Paso will be entirely rebuilt. This line has given much trouble by washing out every spring and over a million dollars will be expended to raise the road bed above the high waters of the Rio Grande between Blum and El Paso.

W. Cook, Jr., local freight agent for the Santa Fe, was a passenger north today on No. 2.

A regular meeting of the Albuquerque Aerle of the Fraternal Order of Eagles will be held tonight at 8:30 p.m. at the Elks' hall.

## IN THE COMING PEACE CONFAB

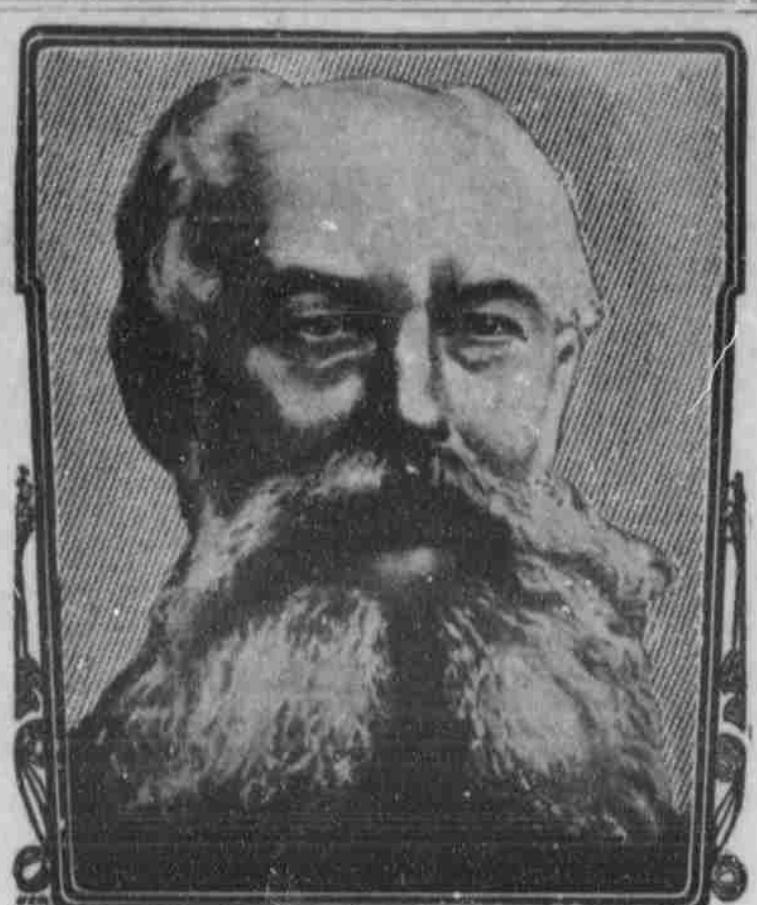

MARQUIS ITO, WHO WILL UNDOUBTEDLY BE CHIEF OF THE JAPANESE COMMISSION.

Marquis Ito is the head of the body known as the "Elder Statesmen." He has been a counselor of the empire all his life, and was prime minister in 1905, at the time of the war with China.

## IN THE COMING PEACE CONFAB

M. DE NEIDOFF, WHOSE SELECTION TO HEAD THE RUSSIAN COMMISSION IS PRACTICALLY ASSURED.

M. de Neidoff has been ambassador for the czar at Constantinople and Rome and is at present holding that office in Paris. He has had much experience in oriental diplomacy.

## BECOMES DESPONDENT AND COMMITS SUICIDE.

Last Friday a coroner's jury returned a verdict of death by suicide in the case of Charles Lewis. On Tuesday Judge O'Reilly and J. C. Grant, while riding on Pennsylvania avenue, along the park, in Alamogordo, were horrified to see a fellow by the roadside with his throat cut, and covered with blood. The judge remained there while Mr. Grant went back for medical assistance and returned with Dr. Bryan, who gave him emergency treatment and sent him to the hospital. The man proved to be Charles Lewis, who came to Alamogordo from Waco, Texas, several days ago to obtain relief from pulmonary trouble. He had made unsuccessful attempts to obtain employment, and evidently grew despondent. From papers in the dead man's pocket, it was learned that he was a member of the Waco, Texas, lodge of the Knights of Pythias, and that lodge was communicated with. Instructions were received from it on Friday to ship the body to that city, which was done that night.

## FARMINGTON GLAD OVER ITS CANNING FACTORY.

The San Juan Chief Canning company has signed a contract with the American Canning company of Chicago, for \$50,000 cans to be delivered August 1. This is an indication of the vast advantage to the farmers of that section and the people of Farmington that the institution that Mrs. McAlpine brought when she located there, will be, says the Times-Herald. The factory will get started about the middle of August this year and will run the rest of the year. Mark the prediction, the cannery factory will be one of the best paying institutions in the town, and will only be second to the mill in drawing in trade from a distance.

Santa Fe train No. 8, due to arrive at Albuquerque at 6:45 o'clock last night did not reach here until 11 o'clock. The delay was caused by the derailing of several cars of the train near Grants station.

LEVI STRAUSS & CO'S overalls

## TWITCHELL TELLS SOME GOOD JOKES ON HURLEY

Col. R. E. Twitchell, of Las Vegas, assistant New Mexico counsel for the Santa Fe, is a great admirer of J. E. Hurley, the new general manager of the Santa Fe system. Col. Twitchell has known Mr. Hurley for a number of years and today he told the following stories about him to a representative of The Citizen:

**He increased his salary.**  
"A good many stories are going the rounds of the newspapers about J. E. Hurley, the new general manager of the Santa Fe. One of the best I know of personally concerns this great practical railroad man's initiation on the New Mexico division. We all know how eager he is for details. We have also felt the force of the grip of his handshake and know the pride which he naturally takes in his physical capabilities. There is no general official of any railroad in the west who talks so confidentially with the company's minor employees regarding the workings of the great system."

**"One morning, bright and early."**  
Hurley was down at the station at Las Vegas doing a careful study of the morning edition of the paper. He was engaged in conversation with Joe Brown, a local colored janitor, who was engaged in his early morning duties. Hurley engaged him in conversation, grasped Brown by the hand with a grip like a vise and finally called Joe's attention to the muscles of his right arm and leg, saying, "If you had that kind of strength it would come easier, wouldn't it Brown?"

**"Brown drew a long sigh and finally said, 'Mr. Hurley, if it would, but look heah, Mistah Hurley, does you think you has de strength to raise mah salary?'"**

## ABOUT NEW MEXICO

By a Man Who Knows What He Is Talking About.

Hon. L. Bradford Prince, ex-governor and ex-chief justice of New Mexico, and who was prominent in New York legislation during the last year, was seen at the Elbetti yesterday as he was passing through the city to Santa Fe, and was very emphatic as to the desire of the New Mexican people for statehood. He said:

"Every one in New Mexico, with an atom of American spirit in his composition, is anxious for statehood. There are a few cattlemen who prefer a prairie to cultivated farms; a few office holders afraid of losing their jobs, and a few cranks who may be opposed, but every true American who believes in a republican form of government is in favor of it, because a state is a self-supporting community, while a territory is a province whose officials are appointed from outside, and are not responsible to the people nor amenable to public opinion. A provincial government is always dangerous, because the people have no hold whatever on those in office and cannot check corruption or official lawlessness."

"A large majority of our people desire single statehood for New Mexico, and we are entitled to that by every consideration of principle and practical conditions; but any kind of self-government is better than the provincial system from which we suffer."

—Washington Post, June 14.

Governor Prince has lived twenty years in New Mexico, and in that length of time has never been guilty of casting reflections upon the native people. He has mingled with them, knows them thoroughly, and has always defended them against such attacks as those of Darden's, published in the adjoining column. The governor has no hold whatever on those in office and cannot check corruption or official lawlessness.

A new mail route has been established from Taos to Embudo, to leave Taos daily, except Sunday, at 4 o'clock in the morning; arrive at Embudo by 11:40; leave Embudo daily except Sunday, on receipt of train mail, but not later than 2 o'clock in the afternoon; arrive at Taos in seven hours and forty minutes.

On the route from Albuquerque to Pecos, Sandoval is now omitted, but there is no change in the distance. From Sandoval to Cuba, the route now begins at Albuquerque, an increase of 11.25 miles.

A route has been established from Hagan to Algodones, to leave Hagan daily, except Sunday, at 7 o'clock in the morning; arrive at Algodones by 11:30; leave Algodones daily, except Sunday, at 12:20 in the afternoon; arrive at Hagan by 5 o'clock in the afternoon.

**ROSWELL CREAMERY STARTED MONDAY.**  
Roswell's creamery started Monday. Manager Hobson had everything ready for the opening and the plant will be put in operation with the promise of milk from 500 cows. It is the hope of the management to increase the number of contributing cows to fifteen hundred. The creamery is located in the Hobson-Lowe building, where the cold storage plant is operated, one door west of the post office. T. D. Goresline is in charge as butter-maker and he will be assisted by Albert Hobson. The success of this enterprise is wished by all and its progress will be watched with interest, says the Record.

Mrs. Elizabeth Thompson, wife of the receiver of the United States land office at Clayton, died Sunday. The deceased was well known in this city and her many friends will regret to hear of her death.

Miss Lida Haack, of Milwaukee, Wis., sister of Mrs. W. D. Radcliffe of Helen, arrived last night and will spend several months with her sister at Helen.

**Texas Christian Endeavorers.**  
Austin, Texas, June 29.—Scores of enthusiastic young people are gathered in the capital city for the fifteenth annual state convention of the Christian Endeavor society. In addition to the delegates, the visitors include a number of noted speakers who are on the program for addresses. The initial feature of the gathering was a "get acquainted" meeting this afternoon. The formal opening takes place this evening and the proceedings will continue until Friday.

**PRISONERS ARE RECAPTURED.**  
Edgar Smith and Dan Caccio, the two prisoners at the penitentiary who made their escape from the camp on the Beale highway Thursday morning, were trailed by the penitentiary

"Brown got an increase of \$10 per month."

**Wanted More Details.**

"Another good one," continued Mr. Twitchell, "that has come to my attention, occurred two years ago during the big floods. Mr. Hurley is a telegrapher and while the waters were destroying nearly everything down the Kaw river and its tributaries, he was in constant personal communication with station agents everywhere over the eastern grand division that was in the flooded district. Hurley wired a certain agent at some small station near Newton, Kansas: 'How deep is the water at your station?'"

"The answer came: 'Waist deep and rising.'"

"Hurley turned to some of the employees in the office saying, 'Can any of you fellows tell me how tall that d—n agent is down at — station?'"

**Laugh Was on Hurley.**  
Mr. Hurley is a believer in the strenuous life and he practices his belief. His chief characteristics in his opinion are his energetic judgment, his everlastingly application to the work in hand and his absolute fairness in dealing with his employees.

"Once Mr. Hurley was with E. P. Ripley, the president of the system, sitting in his private car at the Hot Springs. Mr. Hurley had about a dozen laborers shoveling snow off the platform."

"Said Mr. Ripley, 'Hurley why don't you follow the Pennsylvania plan in handling snow?'"

"How's that Mr. Ripley?" answered Mr. Hurley.

"Let it melt off," said Mr. Ripley.

"Then the laugh was on Mr. Hurley."

bloodhounds to a point thirty miles near Nambu, says the New Mexican. They had traveled about thirty miles before being caught. Captain of the guard Marcelino Rodriguez made the capture late yesterday evening and arrived in the Capital City with his prisoners about 5:30 o'clock last night. This was good work and should be a lesson to other inmates of the territorial hall and teach them not to attempt escape for sooner or later they will again be landed behind the bars. The record of the penitentiary shows that of the escapes which have been attempted since November, 1904, H. O. Bursum has been in charge of the prison, but one escaped convict has succeeded in remaining at liberty. The percentage of recaptures out of ten escapes is nine to one.

## OLD VIRGINIA MINE SOLD TO SATISFY JUDGMENT

The Old Virginia mine, one of the most promising copper properties in the Rio Grande mountains, and an adjoining tract of about 100 acres, together with the buildings and other improvements, were sold Wednesday afternoon by Special Commissioner Walton, appointed by the court to sell the property to satisfy a judgment and decree foreclosing mortgages on the property, together with a mechanics' lien on the smelter, the latter being held by Black & Atkins, says the Silver City Enterprise. The entire property was sold to T. L. Lowe and Eugene Atkinson, mortgagees, they being the highest bidders, for \$16,750, distributed as follows: Old Virginia mine, \$14,300; smelter, \$1,500; buildings and other improvements, \$1,750. There were several other bids on the smelter, the next highest being that of O. A. Appel, representing the Mine & Smelter Supply company, of Denver, for \$1,700.

In Socorro last Saturday argument was heard by Judge Parker on the motion of Attorney Appel, representing the Mine & Smelter Supply company of Denver, seeking to restrain the sale of the property, and asking for the appointment of a receiver, R. M. Turner, Esq., of this city, represented the mortgagees, defendants in the suit. The court refused the injunction and the sale was made, as given above.

## LAS VEGAS BLUES TAKE TWO STRAIGHT

It was a real shame. Four hundred of Albuquerque's fair fans, with a good sprinkling of those who paid admission at the gate, were at Traction park on Saturday and saw the Blues defeat the Browns by the extraordinary score of 15 to 4. Whether the locals were demoralized by the number of ladies in the grand stand or by the Blues' stunning new uniforms, has set the local fans in a quandary. But they were demoralized, and the Las Vegas boys were not slow to take advantage of it. The Blues were there with their batting eye. They hit Gallegos, and they hit him hard. On the other side, Matney hit the Browns on his hip. They hit at anything and connected with nothing. In plain English, the Browns were easy money.

Sunday's game was just a second chapter of the same story, with a few new characters. Fanning pitched for Las Vegas and struck out twelve Browns. Rip Starz covered the rubber for the locals, but not with his old-time cleverness. Blood's bunch connected with him for thirteen hits, and these, assisted by eleven errors, resulted in ten runs, while the Browns pushed only five men across the plate. Charles Kuns played the edged ball at second base for the locals. A feature of the game was the base stealing of Matney, who took a base whenever he chose.

The Blues left last night for the south to complete their tour. They play at Domingue today, Silver City tomorrow and the latter part of the week at El Paso. They will also play the soldier boys at Fort Bayard. It is the latest aggregation of ball players the Meadow city has ever turned out, and the Browns made a very poor showing against them, both in cleverness and appearance. The Browns are sadly in need of new uniforms.

Is it a burn? Use Dr. Thomas' Electric Oil. A cut? Use Dr. Thomas' Electric Oil. At your druggists.

**Norway's Pacific Cruise.**  
Christians, June 20.—The address to King Oscar of Sweden and the Swedish people generally, which was adopted by the startling in reply to a long letter which the king sent a week ago to the president of the clothing, is of a conciliatory character. At the same time it indicates the unalterable determination of the storking to adhere to the action taken in dissolving the union with Sweden.

United States Deputy Marshal John M. Wiley transacted business in Santa Fe today.

## A BAD DISORDER

In the fall of 1904 I contracted that fearful disease, Blood Poison. It gained such headway that I was forced to resign my position and seek relief at Hot Springs. After spending all the money I had I went to Memphis. In less than two weeks I was in a hospital, and after nine weeks of suffering I was discharged as cured. In less than a month every bone in my body seemed to be affected and felt as if they would break at the least exertion. Again I was compelled to resign, and I returned to the hospital for seven weeks stay. When I came out I was allowed to try farming. When I first went on the farm I prevailed on the only firm who handled drugs to get me one dozen bottles of S. S. S. At that time both of my hands were broken out with blisters and I was covered with boils and sores. In the meantime my druggist had gotten two dozen bottles of S. S. S. for me and I began its use, and after taking the thirteenth bottle sores or boils were visible. R. B. POWELL, East 9th St., Little Rock, Ark.

Of all human diseases, Contagious Blood Poison is the most hideous and hateful. The victim is tortured with eating ulcers, sores and abscesses, unsightly blotches, eruptions and other symptoms of the miserable disease. S. S. S. has been used successfully for nearly fifty years for

Contagious Blood Poison. It contains no mercury, potash or other mineral. Our home treatment book gives all the symptoms of this disease. Medical advice free. The Swift Specific Company, Atlanta, Ga.

## NEW MEXICO TOWNS

WHITE OAKS

D. MING.

From the Outlook.

W. A. Mellers reports that the new reduction plant for the Jicarilla has already been purchased, and that the machinery will begin to arrive in a few days. He expects to have it running in six days after the first load is on the ground.

John J. McCourt and wife, with Mrs. Morris Parker, who are now stopping at Carrizozo ranch, came up to the rail Friday evening, with Mrs. W. C. McDonald. And there were others. In fact a back load of them from Carrizozo station.

Mrs. D. L. Jackson left for Payson Hot Springs to get the benefit of the baths there. For some months past she has been entertaining one of the serious rheumatism, usually known as "St. Vitus' dance."

The social circle met last Thursday afternoon at the home of Mrs. Jennie O. Parker, the secretary. Extreme modesty seems to have prevented her from sending in a report of the meeting, but it is learned from other sources there was a good time, a full attendance, and about the usual program, with sandwiches and tea on the under side.

C. C. Jewell, formerly in the employ of the Talladega Mercantile & Trading company, but now looking after the affairs of the Free Gold Mining company, is in the Jicarilla, visiting White Oaks. He is going to take charge of a branch store for the T. M. & Co. near the postoffice at Jicarilla in a short time.

## LAS VEGAS

From the Optic.

Speculation is rife on the west side as to the completion of the work performed in the Gallinas river. Many contend that the same will only partly ward off the wash-out danger, as the stream having gained additional rapidity, will wash out at the lower turn at the next heavy rain.

City Marshal E. Ward arrested J. Webb, wanted in Matamoras, by the Bank of Commerce, for alleged forgery. Upon information furnished from the Gate city the marshal started on a hunt and located his man up near the ice houses, where he was camping with friends.

Friday afternoon about 5 o'clock, three-fourths of the plastering on the ceiling of the Houghton building, corner of Douglas and Sixth, occupied by the Antlers saloon, fell without warning, wrecking the glass in the show case, scattering bottles and doing considerable damage. No one was hurt, thanks to some extra lively dodging. The plastering has been on for a long time, but the sudden fall of almost the whole area at one time was unusual enough to be surprising and disconcerting.

## HILLSBORO

From the Advocate.

Robert Forbes has returned from California.

The county jail is without a patient of any kind.

George Meyers is home from Silver City where he has been attending the normal.

The road between here and Lake Valley has been badly washed by the recent rains.

Since the rains set in the atmosphere seems to be filled with fighting microbes. For the past week hardly a day has passed without a skirmish of some kind.

The contest suit, E. Sanford vs. Mrs. J. E. Ayers, which commenced last Tuesday before County Clerk Webster, is still in progress. Mrs. Ayers filed a homestead entry covering the town of Hermosa, and Mr. Sanford is contesting the filing.

Lake Valley will celebrate July 4 in right, royal style. There will be games of all kinds. A pavilion will be erected for dancing purposes in the evening. A free barbecue will be one of the attractions of the day. The children's fancy opera play will be given in the evening.

Bob Cassidy was in dry dock the early part of the week to get his head repaired. While in the running cap he was a few days ago, one of the crew, with over provocation, smashed Mr. Kennedy over the head with a shovel.

The weapon made an ugly, but not dangerous wound. Had the shovel hit him squarely, Bob's career on earth would have ended then and there. The weapon landed, making an ugly flesh wound and cut deeply into the exterior layer of the skull.

It is reported that when Bob's assistant saw the blade of the shovel bent and warped, he immediately made his escape.

## SOCORRO

From the Chieftain.

Mrs. Otto Rosenbach of Clifton, Ariz., a guest of her sister, Mrs. L. N. Barnes of this city.

Dr. Edwin Swisher returned from a professional visit of several days' duration at Magdalena and Kelly.

F. G. Bartlett and family returned from a six weeks' visit at California resorts. All had an enjoyable time and are in the best of health and spirits.

Frederic Lewis was a guest two or three days this week at the home of his sister, Mrs. Max B. Fitch, of this city, on his way from an eastern college to his home in Los Angeles.

Mrs. C. B. Fairweather and two children, of Coatesville, Pa., arrived in the city a few days ago and will be the guests for the summer in the home of Mrs. Fairweather's parents, Mr. and Mrs. R. J. Terry.

The gate opening into the Socorro cemetery is reported to have been down for two or three weeks. It isn't exactly civilized to allow stock to graze over the graves of the dead. This matter should receive prompt attention.

The City Improvement association will give an ice cream social in the plaza Thursday evening, June 22, a part of the proceeds to be expended in park improvement and a part to building the proposed sidewalk to the Santa Fe station.

The dance given in the opera house Thursday evening by the ladies of San Miguel church to raise funds to plaster the interior of the venerable edifice, was a marked success in all respects. The attendance was large, the receipts were gratifying, and everybody had a most enjoyable time. The vocal and instrumental music which preceded the dance was greatly enjoyed by the auditors and the San Antonio orchestra acquitted itself in its usual happy manner.

From the Graphic.

Mrs. R. C. Crowell has accepted a position with Judge Walton, of Silver City.

Mrs. G. G. Anderson left for Hachita to visit her old friend, Mrs. Tom Brown.

The Luna Lead company's smelter blew in Friday for business. All the preparatory work is practically completed and there is plenty of ore in the bins and enough in sight to keep the smelter going for months.

The Epworth League lawn social at the Wadhill home was very successful and was in every way a pleasant and enjoyable occasion. The major and Mrs. Wadhill spared no pains to entertain the company and make every one feel at home for the evening.

From the Headlight.

Walter Russell and family, after visiting Mr. and Mrs. W. T. Russell, returned to their home on the Mimbre.

Ralph C. Ely, secretary of the Luna Lead company, returned from Silver City where he has been for several days buying ore and looking after some lead properties in that section.

The Luna County Medical association met in the office of City Physician Dr. C. F. Ellerbrock. An interesting paper on "The Municipal Laboratory and Its Uses," was read by Dr. Ellerbrock.

Henry Nordhans, who went to San Antonio, Texas, last week, having been called there by a message announcing the serious illness of his mother, returned, and says his mother is very low, and as she is very old, there is little hope for her recovery.

## SANTA FE

From the New Mexican.

J. B. Moore, of Oyster, Texas, was in Santa Fe on route to the Encantada valley, where he will buy a large bunch of sheep for shipment to points in Texas. Mr. Moore states that the sheep of northern New Mexico are superior to any he has seen.

Mrs. W. O. Pinkbine and daughter, Dorothy, who have been guests at the sanitarium during the past winter and spring, will leave the city this week for Denver, where they will spend a few days before returning to their home in Des Moines, Iowa.

John W. Catron, who has just finished a course of study at the school of mines, Columbia college, New York city, is traveling towards Santa Fe in an automobile. With him travels a party consisting of Mrs. Largey, of New York, her daughter, Miss Largey, and son, Clayton Largey. They arrived in Chicago last Sunday, and have left that city for Omaha. From Omaha they will head for Santa Fe. Upon arrival, Mrs. Largey, Miss Largey and son, Clayton Largey, will be members of a house party at the Catron residence and will remain here several weeks.

The many friends of Miss Margaret Heiner, who has been in Santa Fe for the past two years for the benefit of her health, having come here from Detroit, Ill., will be pleasantly surprised to learn that on Thursday, June 22, at the cathedral, she will be married to D. B. Moon of Cleveland, Ohio. Mr. Moon came to Santa Fe about six months ago for rest and recreation, forming an acquaintance with his future bride while at Beaumont Tent City. The young couple, after marriage, will make their home in Santa Fe for some time.

**Found a Cure for Dyspepsia.**  
Mr. E. Lindsey, of Fort William, Ontario, Canada, who has suffered a number of years from dyspepsia and great pains in the stomach, was cured by his druggist of the name of Keesler's Stomach and Liver Tablets. He did so and says, "I find that they have done me a great service since I began using them. If troubled with dyspepsia or indigestion, get Keesler's Stomach and Liver Tablets. For sale by all druggists."

## ALBUQUERQUEANS AT CALLUP

J. D. Eakin, of Molin & Eakin, wholesale liquor dealers of Albuquerque, spent several days in Gallup the fore part of the week.

Dr. Spargo, of Albuquerque, was in town over Sunday and has gone down into the Laguna country for a brief breathing spell.

Geo. F. Leonard, the popular music dealer of Albuquerque, is in town for a few days on business connected with music matters.

H. Jay Stone, representing the music house of Leonard & Lindemann of Albuquerque, is attending to business for his firm in this vicinity this week.

Melin & Eakin, wholesale liquor dealers of Albuquerque, have opened up an agency for the celebrated A. B. C. beer at this place. Chas. Bordie will have charge of the agency.—Gallup Republican.

Three spectres that threaten baby's life, Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

Meeting of Commission of Irrigation. The Territorial Commission of Irrigation met in adjourned session Saturday afternoon at 2:30 in the office of A. A. Keen, land commissioner, and transacted the following business:

The minutes of the morning's session were read and approved.

Applications for land were presented, read and placed on file. Owing to a conflict in the law in regard to the powers of the commission on default action was taken in regard to any of those applications and none will be taken until the opinion asked for from the attorney general has been given.

All accounts presented to the commission were audited, allowed and paid. Routine business was then attended to after which the board adjourned.

**Keele's Dyspepsia Cure.**  
Digests all kinds of food, tone and strengthens the stomach and digests organs. Cures Dyspepsia, Indigestion, Stomach Troubles and Constipation. Health and strength. Keele's Dyspepsia Cure rebuilds without medicine. They G. A. Atkinson, of Waco, Virginia, says: "I have used many bottles of Keele's Dyspepsia Cure and have found it to be a very effective and, indeed, a powerful remedy for stomach ailments. I recommend it to my friends." Sold by all druggists.

Misses Eva Dixon, Minnie Little and Marie Kepinos are new clerks at the Golden Rule Dry Goods establishment. This addition was made necessary by the increase of business at this store.

## COUSIN L.L. FINDS A NEW "SUB"

New York, June 21.—Dear Cousin: Sometimes afflictions are blessings in disguise. I have an affliction. It's mighty little of a blessing to me, but it may do you some good.

My affliction is that my hair is coming out. It began almost as soon as I struck New York, and has been falling ever since. A month ago I went to the best hair specialist I could find in New York, and his treatment is beginning to take effect. My hair has stopped falling and a little new is appearing close to my scalp. And the beauty of the whole thing is that he told me what to do and I can treat my own scalp without cost.

"It's bad business for me to tell you," he said, "for if everyone knew I'd have to go to the hairdresser, I'd tell you."

"I've been discovered that in stimulating the scalp and stop hair from falling, but they have not yet found out that I can do it for myself. But this one I tell you, and you'll be regular in your methods."

"Two movements, which I will tell you, are the best I know for stimulating the scalp and stop hair from falling. Most people are too lazy to take time to go through the treatment in right way."

"Take three minutes for each movement every morning. If you do so, you will find the treatment effective."

## NEW MEXICO TOWNS

### LAS VEGAS

From the Optic.  
Mrs. W. B. Davis has received no further information of the child in her son, James Davis, who is still in the hands of the kidnappers. She is a native of the state of New York, and her husband is a native of the state of New Mexico.

Her husband, James Davis, is a native of the state of New Mexico, and his wife, Mrs. W. B. Davis, is a native of the state of New York. They have a son, James Davis, who is still in the hands of the kidnappers.

At the Elks' lodge last evening, J. T. Moore, the retiring executive ruler, who is now in the custody of the kidnappers, was the guest of honor. He was accompanied by his wife, Mrs. J. T. Moore, and their son, James Davis.

### LORDSBURG

From the Liberal.  
Miss Jennie Rowe, of Kokomo, Ind., is visiting with Mrs. W. H. Small, and probably will remain all summer. She is a native of the state of Indiana, and her husband is a native of the state of New Mexico.

Nelson Warrington, who was recently taken to the county jail as a result of his mental condition, has been adjudged insane and is now in the insane asylum at Las Vegas. He is a native of the state of New Mexico, and his wife, Mrs. Nelson Warrington, is a native of the state of New York.

### SANTA FE

From the New Mexican.  
The following marriage license has been issued by Probate Clerk Marcus Castille: Miss Cecilia Romero to Manuel S. Gonzalez, of Santa Fe.

Forty young Indians, who have been pupils in the United States Indian training school during the past year, left today for their homes in Arizona. A special car was attached to the Santa Fe train this afternoon, in which they will make the entire trip. Mrs. Hall has resigned the position of teacher at the Santa Fe public schools, to which she was reappointed by the city board of education at its meeting on the first Monday of the present month. Mrs. Hall's departure from the city will be greatly regretted by many friends and especially by the children who attended the classes of which she had charge in the public schools during the past year.

## STOCK MARKET LETTER

Special Correspondence.

Kansas City, Mo., June 19.—The cattle market was full of excitement last week. Killing cattle in the native division sold 10 to 25c lower by the end of the week, heavy feeders 10 to 15c lower, light feeders steady and stockers and calves 10 to 25c higher. Quarantine killing cattle were 10 to 25c higher. There is an explanation for this which may also have some bearing on future prices. Quarantine cattle advanced simply by being put on an equality with native cattle, having been hampered unjustly the previous week.

The not weather has cut down the consumption of meat, which is reflected in lower prices for killing cattle. Besides, the situation at this season is the usual one of depression, as straight grass cattle and cattle fed on grass appear in large numbers each week. Feeders followed the decline in fat cattle prices. The heavy feeders, pretty general all over the year, but in the last week and good growing weather has prevailed, which has brought into stock cattle as soon prospects improve. These conditions or their variations, are known to rate in the cattle market for the next few weeks. As the June 19, 1910, from this time on, the market, of course, will adjust itself to conditions as they arise. Range cattle were scarce on the market last week, but there are a good many now today. Chicago fed steers, of 1,100 to 1,200 pounds, sold at \$4.15 to \$4.35 last week. The market today averages about steady. Some Colorado numbers sold at \$1.15 today, Colorado feeders \$1.25 to \$1.35, New Mexico feeders \$1.25 to \$1.35, a bunch of Oklahoma medium feeders at \$1.25, and a crowd of Texas feeders, available, at \$1.25.

The sheep market has been very full for the last week or two, as complete shipments, but buyers were slow to take them as they have been in the market from Chicago, and demands for them from elsewhere, which were not met. There is a good many now today. Chicago fed steers, of 1,100 to 1,200 pounds, sold at \$4.15 to \$4.35 last week. The market today averages about steady. Some Colorado numbers sold at \$1.15 today, Colorado feeders \$1.25 to \$1.35, New Mexico feeders \$1.25 to \$1.35, a bunch of Oklahoma medium feeders at \$1.25, and a crowd of Texas feeders, available, at \$1.25.

There is a good many now today. Chicago fed steers, of 1,100 to 1,200 pounds, sold at \$4.15 to \$4.35 last week. The market today averages about steady. Some Colorado numbers sold at \$1.15 today, Colorado feeders \$1.25 to \$1.35, New Mexico feeders \$1.25 to \$1.35, a bunch of Oklahoma medium feeders at \$1.25, and a crowd of Texas feeders, available, at \$1.25.

The sheep market has been very full for the last week or two, as complete shipments, but buyers were slow to take them as they have been in the market from Chicago, and demands for them from elsewhere, which were not met. It looks like us though it was a case of 'th' survival of the fittest.

"Captain," said the steamship agent to the commander of the big liner, "you are a good seaman, but you have absolutely no business sense. Not one of the 200 passengers you brought over will make another trip on your boat."

"I don't know why not, sir," said the captain. "I did everything I could for their comfort."

"I don't doubt that, but after that little storm you told everybody it was only an ordinary blow. If you'd had any sense you'd have told them it was the worst storm you had seen in forty years and they'd have sailed."

A New York woman has obtained a divorce and \$10,000 in place of a man. Giving that much money is a dangerous precedent.

But a man who was willing to give \$10,000 must have been pretty tired.

Deafie opened his wolf den with a new. Never supposed wolf was so bad as you prayed before playing.

# RAILROAD NOTES

(From Wednesday's Daily Citizen.)

A. J. Morrison, city passenger agent of the Santa Fe at El Paso is expected to return to the latter part of the week from a visit in California.

A. N. Brown and V. H. Stiles have left El Paso for Chicago where they will take up several matters between the Rock Island and the Phelps-Dodge lines.

Byron A. Andell, employed in the baggage room at the local station, left today for a visit to his old home at Sturtevant, Mo. He will be absent a couple of weeks.

Considering that there was no special excursion to Clouderoff, N. M., one of the largest crowds in the history of that summer resort spent Sunday there, says the El Paso News.

A. L. Grisham, traveling freight and passenger agent of the Santa Fe Central, arrived at Santa Fe yesterday from El Paso, where he has been in business connected with his position.

Fred Fuller, formerly employed in the baggage room at the local Santa Fe shops, but who for the past two years has been with the company at Fort Richmond, Cal., died in that city Saturday last of pleurisy.

Chief Electrician H. Farrell, of the Santa Fe shops, was called to El Paso last night by a telephone message from the El Paso News.

A. T. Grisham, traveling freight and passenger agent of the Santa Fe Central, arrived at Santa Fe yesterday from El Paso, where he has been in business connected with his position.

charged and new men employed to take their places, says the El Paso Herald.

It is regarded as likely that a few of the more faithful of the strikers will be taken back. The general sentiment among railroad men in El Paso seems to have been adverse to the strikers.

The switchmen made peremptory demands for an increase of wages from thirty to thirty-five cents an hour, giving Agent McNair two hours in which to secure a promise of an increase in wages.

As General Manager Simmons was already on his way west, on other business, and Superintendent Hunter could not be reached by wire, the two hour limit lapsed and the men left their work, causing the yards to become idle.

Because of their failure to give adequate warning to the company of their intention to strike, General Manager Simmons issued the orders to discharge the strikers.

Several of the discharged strikers reached El Paso Saturday night and Sunday, and in some quarters, at least, they received a decidedly friendly reception from local railroad men.

## MACHINISTS LOSE STRIKE.

The Kansas City Journal says: General Manager Hunter, of the Santa Fe, announced the victory of the road over the striking machinists and bell-ringers is complete. The men formally have not called off the strike, but they have given up the contest.

As many as possible have obtained positions elsewhere. The road had not the least difficulty in getting men to fill all the positions vacated by the strikers.

The Santa Fe service is working hard trying to find evidence against train wreckers. From certain remarks that have been overheard the officials of the road have reason to believe some of the former employees of the road are responsible for the accidents at trainwrecking on the Santa Fe during the past two months.

The evidence is not sufficient to say whether the striking machinists or bell-ringers are responsible, but the officials are trying to find out the truth regarding the matter.

What is the matter with a run of three days between Los Angeles and New York? Asks the Los Angeles Express according to experts who have made a study of the situation, such a schedule may be in force and effect within a year.

Contracts for large quantities of crude petroleum, for use as fuel in locomotives, are said to have been entered into by the Mexican Central with the Mexican Petroleum company. The new fuel is expected to cause a large saving.

The Topeka State Journal says: Wm. Archer, chief engineer of the Santa Fe water service, with headquarters at Topeka, has returned from Helen where he went to make arrangements for the sinking of a number of wells on the line of the cut-off.

The Atchison, Topeka & Santa Fe is building some steel underframe standard offset postal cars. There will be 39 cars in the lot, intended to supersede the present all-wood cars, which will be converted into baggage cars. The plans for the new postal cars have been approved by government officials.

Frank Moore, an engineer on the Mexican Central railway, who has been visiting relatives in the city for some time, yesterday purchased two lots in Luna park. The consideration was \$1,250, and the new purchaser will at once begin the erection of a \$1,000 residence thereon.

Conductor V. J. Thompson, who for the past few months has been running between Albuquerque and Las Vegas, on one of the fast trains which were taken off the other day, has returned to El Paso to take the El Paso road run. Mr. Thompson has lived at El Paso since that town was in its infancy and he is glad to get back home.

This morning train No. 2 was sent east as a double-header and consisted of thirteen cars. This is the third time this week that this train has been sent out of this city a double-header and railroad men say that traffic is better for this line of the year than for many years past.

## LOCAL RAPAGRAPHS

(From Thursday's Daily Citizen.)

Herbert Brooks, manager of the San Jose market, is laid up by illness.

Mr. J. M. Haskings, has gone to St. Louis for an extended visit with relatives.

Miss Jennie Seymour left last night for a visit with her parents in Pueblo, Colo. She will be gone several weeks.

Mrs. R. L. Lathrop, of Denison, Texas, is on a visit to her parents, Mr. and Mrs. J. H. Hutchinson, of this city.

The First street natatorium has been rented to private parties for tonight, and therefore will not be open to the public.

Howard J. Cowell, an employee of the American Lumber company, is confined to his home by an attack of rheumatism.

Mrs. A. W. White, of Pittsburg, Pa. arrived in the city yesterday to visit her niece, Miss May L. Donaldson, of 123 South High street.

Misses Hazel and Ruby Carter left last night for Berkeley, Cal., where they will attend a summer school for the next two months.

David Weiler left today on the west-bound limited for California, where he will spend the summer visiting the various vacation resorts.

L. H. Edgar, of the Imperial land dry, returned to Albuquerque last night from an extended visit with relatives and friends in Boonville, Mo.

Elsworth Insalls, United States claims in this territory, went to Santa Rosa today on official business.

M. W. Cleary, of the First National bank, who has been in the city for some time, left last night for an extended sojourn at Coronado Springs, Cal.

L. R. Nelson, general manager of Kelly, accompanied by his family, spent the day in Albuquerque on business. He returns tonight at the wing camp booming.

Frederic L. Chaves, of Santa Fe, after spending a few days in the city on his way home from a business trip to Mexico, left for the capital city this morning.

M. L. Shivers, of Massachusetts, who has been in Albuquerque several months, the guest of C. G. Graham, of the Washington clothing company, left last night for Denver.

J. B. Dornie arrived in the city last night from Denver, and today commenced to get acquainted with his new duties as manager of the Albuquerque City Electric Light & Power company.

Perfecto Belmont, treasurer and collector of the Arizona county, was a passenger for his home at Turia, Arizona, this morning. He was accompanied by his daughter, who has been attending St. Vincent academy in this city the past year.

Friends in this city have resolved to celebrate the marriage of Albert Williams, H. H. Henshaw, formerly of the Temple, Albert in this city. The marriage occurred at the home of the bride, Miss Blanche Cole, in New Orleans, La., on last Tuesday night.

Miss Mae York, who graduated this spring from the City's Collegiate school of Los Angeles, returned home last night. She was accompanied by her parents, Mr. and Mrs. J. H. York, who went to Los Angeles a couple of weeks ago to attend the commencement exercises.

W. D. Fields, the executive manager of the Housen Supply company of Toledo, is in the city today.

James Mober, from St. Paul, Minn., is visiting the family of H. J. Graham, on East Main street.

Mr. and Mrs. H. H. Henshaw, who have been spending here for the past three months, will leave Friday for Denver, Colo.

Alfred Marshall, representing the John J. Marshall Publishing company, of Los Angeles, is in the city today, lecturing local people in "Modern Religions."

L. J. Powers, a well known musician of New York city, arrived last night and will be in charge of the orchestra music at the Casino at Traction park.

Tomorrow evening at 8 o'clock will occur a concert of exercises at the immediate conception school. A very interesting program has been arranged for the occasion.

The Junior Athletic club has elected the following officers for the ensuing year: Charles Roberts, president; John Hopkins, vice president; Charles Lamake, secretary and treasurer.

A. R. Houlter, a well known and prominent general merchant and sheep raiser of Paraje, Valencia county, is in the city and is arranging to sell about 3,000 pounds of wool to local buyers.

A. S. Lindholm, the Albuquerque agent for the Kulich-Low Piano company, will leave in a day or two for Trinidad, where he will establish a branch house. The local house will be looked after by H. W. Chase.

W. F. and John V. Hogan, two newspaper men from Emporia, Kan., returned west today with varied success, are in the city, and anxious to get back to their native land. They did not get to work, so they say, on the Kansas City Star.

John A. Garcia, Jr., who has been employed at the mills of the American Lumber company in the city for some time past, has resigned his position, and will leave Saturday for Magdalena, where he goes to take charge of his father's sheep ranches.

Foreman Klock, of the planning hull at the mills of the American Lumber company in this city, yesterday returned west, taking with him his right foot that will lay him up for several weeks. While helping to move a planer the machine slipped and fell on his foot.

Mrs. E. L. Christensen, representing the Unique Printing company of Denver, is in the city, and will print for the city, with advertisements thereon, for the hotels of the city. The lady visited The Citizen office this morning and stated that every hotel in both New Mexico and Arizona will contain banners prepared by her house.

Condon M. Davis, treasurer of Union-Hopkins Mining company, of Shafter, N. M., is in the city today, accompanied by Mrs. Davis. Mrs. Davis will leave tomorrow night on the limited for Chicago on a short business trip, while Mrs. Davis will remain in Albuquerque for a few days.

Today, Leonard and Lindemann, the square music dealers, sold Mrs. F. Sarracino, of Bibo, N. M., a handsome \$550 Chickering Bros. piano. Mrs. Sarracino resides on a sheep ranch fifteen miles from Bibo station, and a few days ago marketed her wool clip of 20,000 pounds. She purchased a piano for her daughter, who has just returned home from Santa Fe, where she has been attending Loretto academy.

W. V. Field, a prominent attorney of Minneapolis, Minn., and son,

Albert, are in the city on their way to the Pacific coast, and this morning were introduced to The Citizen by William Zirkut, Mr. Field and several other gentlemen about fifteen years ago, and during a boom for mesa property, purchased 360 acres surrounding the water company's reservoir and this purchase included the old Solon E. Rose mesa place.

Two well known and prosperous railroad agents were in the city last night, and after transacting business proceeded on north. They were S. M. Shattue, the traveling passenger agent of the Baltimore & Ohio, and H. H. Sheppard, general agent of the Chicago & Alton. Both of these gentlemen have their headquarters in Denver, and every time they come down in New Mexico they usually work up some business for their respective roads.

Mrs. Felix Baca and children left this morning on a five weeks' vacation, to be spent at various points in Colorado.

Mrs. H. N. Jaffe and son left yesterday for Santa Cruz, Cal., where they will spend the remainder of the summer.

Paulen Rose, son of M. A. Rose and wife, is home from the Brothers' college at Santa Fe, to spend the summer vacation.

## EVIDENCE OF IDIOTCY.

The Citizen honestly believed that the fellow who presided over the editorial columns of the water organ during the sickness and therefore absence of Mr. Burke was a knave rather than a fool. But this paper has changed its mind. It is now ready to confess that it believes the said fellow is a combination of the two, the fool somewhat predominating. His latest, and much to be hoped his last, squeak is that Mr. Strickler receives a "neat per cent" from each and every electric light bill paid in Albuquerque.

The Citizen stated the other day that the Gas & Electric Light company, which has a franchise for city lighting, and in which the owners of the water organ are large stockholders—that this Gas & Electric Light company had caused to make its own electricity, finding it cheaper to buy the electricity needed, from the Albuquerque Power company. Mr. Strickler is one of the stockholders in the Power company. Therefore, says the organ, Mr. Strickler has "a neat per cent from each and every electric light bill paid in Albuquerque."

Did any one ever imagine for a moment that the cost of electricity, from whom the Gas & Electric Light company bought the fuel necessary to the making of electricity, had "a neat per cent" on each and every electric light bill paid in Albuquerque? Only the organ "idiot" could have imagined such an absurdity. How, then, can the Albuquerque Power company, not to speak of one of its stockholders, supplying electricity to the Gas & Electric Light company at a cheaper rate than it formerly made the electricity for itself—how can the power company be said to receive "a neat per cent" from each and every electric light bill paid in Albuquerque? Only the organ's "natural" could impute such an idea.

A certain retail vendor of meats, who had been slaughtering for himself, ceased that part of his business, and bought his meats ready dressed from a wholesale dealer, because it was cheaper, thus enabling the retail vendor to have a larger margin of profit. Did any of the customers of the retailer imagine for a moment that the wholesaler received "a neat per cent" from each and every "piece of meat they bought"? That depth of vacuity was left for the organ's hired hand to fall into.

But will any one tell us what share not can have to do with the question? Shall Albuquerque thoughtlessly throw away her most valuable asset for thirty-five years, without fee or reward and simply because a few speculators ask her to do so? That's the question.

## JUST LIKE ALBUQUERQUE.

Godwin's Weekly published at Salt Lake, Utah, and one of the few weekly periodicals able to hold its own against able dailies, says:

The new proposed franchise in the Utah Light & Railway company seems a reasonable one. It gives the company a forty-five years' right of way and virtual monopoly of the passenger carriage and lighting of the city, and protects it in its rights. Forty-five years is a long time in this swift age. The chances are great that within five years from this date the cost of electric lighting will be reduced 40 per cent. If the dreams of electricians materialize it certainly will, and the same reduction will attach to electrical power. The forfeitures provided by the proposed franchise are all necessary. It reads as though it was prepared in a spirit of perfect fairness to the company. If passed we think it will add quite \$2,000,000 to the value of the company's property.

## WORLD'S TALLEST MAN.

Ivan Machnow is the tallest man that ever lived, for he stands 9 feet 2 1/2 inches in his socks, and weighs 280 pounds, although he is only 23 years of age. This extraordinary man was born in Charkoff, Russia.

When he was 7 years of age he was as big as an ordinary man. At 12 years of age he was 6 feet 6 inches, and at 14 he was 8 feet 1 inch. When at Warsaw Machnow was drafted as a recruit of the Imperial Guard, but quietly slipped over the frontier to avoid serving.

His journeys are not a source of pleasure to him, for both in the train and on the boat he has to spend most of his time in a recumbent position. He was met at London by a van comfortably upholstered and fitted with a huge couch for the giant to recline on and drawn by four horses.—St. Paul Pioneer Press.

## WHICH OR WHETHER?

Of the water organ it may be said, as was said to early American history:

"He wiled in and wiled out,  
And left the people still in doubt  
Whether the snake that made the track  
Was coming out or going back."

Mr. Herman Bleuer says that he will guarantee an unlimited supply of water to the people of Albuquerque at not to exceed 5 cents per 1000 gallons, and he estimates the cost of water to the present company to be about 4 cents per 1000 gallons. Yet the Water Supply company is charging the people 30 and 35 cents per 1000 gallons, more than twice as much as Denver or Colorado Springs, though in the first case the water has to be piped 40 miles, and in the other case 15 miles. For eleven years the water company has been charging these extortionate rates and retarding the growth and development of Albuquerque. Fourteen years more that company is authorized to continue these extortionate rates, unless the city shall vacate the franchise for inefficiency. And on top of all this the water company had the hardihood to demand the extension of this abomination of desecration to the year 1940. Not on your tinfole, Mary Ann!

Many members of the American press are congratulating themselves and the country at large that President Roosevelt's efforts to bring about peace between Japan and Russia have placed him in the center of the stage of public attention throughout the capitals of Europe. What benefit is that to the great and growing Republic? If President Roosevelt should devote his time and thought to settling the Chicago strike and to preventing similar labor upheavals in our own country he might not be so striking a figure in the center of the stage of international attention, but he would be a much larger figure at home, and could easily go down in history as our greatest president after Washington and Lincoln.

An exchange says that man is the only creature that knows he will die. Yet he is the only creature that laughs. He is the only creature that manifests joy in his existence. It is hard to understand. Every rational man knows that he has no mortgage on tomorrow. It is not his. He may never see it; he may die before dark. Few let the dark shadow of this unchangeable fact fall athwart their path. They laugh and are gay, even when their heads are grayed for the grave. They hasten to a future of which the wisest have as shadowy knowledge as the fool. This future is forever, and is said to be influenced for eternity by our conduct here. Yet this is nearly the only fact that man is careless about. It is a mystery.

In this country what are called "business principles," when applied to public utilities, mean only milking the public for the benefit of private individuals. But this idea is passing away. Fully 60 per cent of the towns in the United States which have waterworks own and operate the same, vastly to the benefit of the municipality and the people thereof.

The water organ seems dangerously desirous to know if Mr. Strickler gets any "neat per cent" from his stock in the Albuquerque Power company, in view of the fact that the power company supplies the electricity for the Gas & Electric Light company. As Mr. Macpherson represents large interests in both the Gas & Electric Light company and the Albuquerque Power company, while Mr. Strickler is interested only in the latter, The Citizen has to refer the water organ to its own president, Mr. Daniel Macpherson.

son, for the information over which it so yearningly mourns.

Americans think that they are it. But in Europe many a place can give us hearts and spades and then win the game. For instance: The great city of Cologne, Germany, has a municipal street car system on which you can buy a yearly ticket, good on all lines for \$25.56. You can get a monthly ticket, good on all lines, for \$2.28, and one good on any one line for \$1.65. The highest single fare is three cents and a half, and the highest fare for a child under 10 years is one cent and two-tents. At these rates the system paid the city a clear profit which amounted to nearly 6 per cent on its investment in the first year, 1898, and has been increasing ever since.

Crop conditions, says Henry Clow's Weekly Financial Review, it is true, have shown fair improvement during the week; winter wheat indications are for a harvest well up to the record if not in excess of it, and spring wheat has made good progress after what has unquestionably been a poor start. Corn—the pivotal point of agricultural prosperity—is still rather uncertain and will require exceptionally favorable weather to regain lost headway. But it is well known how promptly and completely a few days of fine, forcing weather can change the farmers' outlook and completely eliminate a chain of untoward preliminary conditions.

The New Mexican well says that municipal ownership of public utilities is not a modern idea but it is only within the last decade that it has made great progress and it seems now that it is sweeping over the civilized world like wildfire. The consular reports from foreign countries made by American consuls make many allusions to the progress of this idea abroad.

For several years Nevada has been the stone of stumbling which the congressional opponents of statehood have been throwing into the teeth of New Mexico. Yet Nevada is the first part of the American Union in which the government has completed national irrigation works. The Tucker-Carson canal, thirty-one miles in length, was opened today.

The postoffice department is faced by the largest deficit in its history. Four causes have led to this condition: Abuse of the second class privilege; the grievous outrage of the franking privilege; the establishment of numerous rural deliveries; and the exorbitant prices paid the railroads for mail carrying.

And still the water organ does not publish one argument or fact against municipal ownership, nor does it give one argument or fact favoring the nefarious extension of the present franchise of the Water Supply company to the year 1940.

The peace movement is so "delicate," according to the infinitely multiplied reiterations of the press, that no one will be surprised if the "delicate" little thing shall die before reaching maturity.

## THE QUESTION STATED.

The water organ says that the extension of the present Water Supply company's franchise is not the question before the people. Since when did it cease to be? Was it not the original question? Is it not still before the city council? How, then, can the organ say that it is not the question before the people? There are two ways and but two, in which the organ's statement can be made good. One is that the water company has withdrawn its request from the city council. If such is the case, the public has not been taken into the confidence of the water company, but the action is plainly indicative that the company has seen the handwriting on the wall, and remembering the statement of Scripture that "the wise man foreseeing the evil hideth himself but the foolish pass on and are punished," the water company accepting its defeat has quietly withdrawn from the contest. Will the water organ tell the public if this is the case?

There is one other, and no more, way in which the question of the extension of the franchise of the water company can be no longer before the people, and that is: If the water company has succeeded in persuading the city council to pass on the franchise extension without reference to the people. This is too preposterous for credence. The Citizen has shown from the law that there would be two illegals in such a case. One in extending a franchise beyond the 25-year limit, which the law strictly forbids; the other in granting a water franchise without first taking a vote of the people. This law is plain, simple and easily understood.

There does not, to The Citizen, seem the least probability in the world that the council will take radical steps in violation of this law. This paper believes that the city council is composed of business men who are looking after the interests of Albuquerque. They have the public confidence or they would not be where they are. They know the law and the popular opinion, and there is not the shadow of a possibility that they will attempt to settle this question and involve law suits which will at once be brought.

There is, therefore, a three horned dilemma, on one or another horn of which the Journal must impale itself. Has the petition of the Water Supply company for a 35-years' extension been withdrawn? Is the Water Supply company seeking to have the council extend its franchise for thirty-five years without submitting the question previously to the people, as the law demands. Or is the question still before the people? Will the Journal answer? Not on your sweet life.

## FAIR STATEMENT OF CASE.

The Albuquerque Citizen is fighting the Albuquerque Journal on the question of the extension of the franchise of the Water Supply company for twenty-one years longer, although that franchise has still about fourteen years to run. The position of The Citizen is for the people and against the corporation that owns the Albuquerque Journal, and it is said, controls the stocks of the Water Supply company, although, on the surface, the same is supposed to have been sold to a syndicate of Albuquerqueans.

The Citizen insists that the Water Supply company now has a franchise which is oppressive on the town and under which the Water Supply company collects big water rates and has a soft snap; that this franchise should not be given another lease of life for twenty-one years, as this would doubtless prove very bad for the city. The Albuquerque Journal, on the other hand, claims that the city must have more water facilities now and that it makes no difference how much and how high the charges for water will be, because the present need of the extension of the water mains and supply is imperative.

The Santa Fe New Mexican has come to the rescue of The Citizen and between the two they have driven the Journal into a corner from which it jumps out occasionally attacking its opponents in a vicious manner but doing little harm.

The Citizen and New Mexican seem to have about convinced the people of Albuquerque that the extension of the franchise should not be given and it looks as if the six members of the city council are ready to vote for the interest of the people and against the bidding of the Water Supply company and those who are supposed to own its stock.—Deming Graphic.

The sentiment in favor of municipal ownership of public utilities is rapidly growing stronger and more generally prevalent in the cities of the land of America. In ordinary cases municipal ownership is wise in both theory and practice. It would be difficult to give any plausible reason why a city should donate to a private corporation the rich profit accruing from the control of its public utilities when it might just as well enjoy those profits itself. But Socorro affords a bright and shining exception to the rule. If other conditions in this city are to continue as they are, haste the day when some private corporation obtains control of her water system.—Socorro Chieftain.

The Citizen has received a copy of Governor Otero's message to the Thirty-sixth legislative assembly. It is a pretty and able document, and The Citizen has placed it in its library for future reference and consultation.

# RUSSIA MUST SCRATCH FOR GRAVEL TO PAY HER FINE

POOR OLD RUSSIA IS BILLIONS AND BILLIONS OF DOLLARS IN THE HOLE, WITH HER PEOPLE GROUND DOWN UNDER THE DEBT, BUT THEY WILL BE SQUEEZED SOME MORE TO PAY JAPAN'S INDEMNITY. FIGURES SHOW THE WRETCHED FINANCIAL CONDITION OF THE GREAT EMPIRE, WHICH HAS JUST BEEN SO BADLY LICKED.

Washington, D. C., June 19.—The amount of the war indemnity which Japan will demand of Russia, as one of the conditions of peace, is it reliably stated, will not be less than the sum total of the money borrowed by Japan from foreign countries. This sum total is \$200,000,000.

The indemnity may be larger than the above sum, but it will not be less. In addition to the foreign loan, Japan raised for the late war, without going outside of the island kingdom, \$50,000,000. So the extra money raised by Japan to prosecute the war amounts to \$250,000,000. Back of this was an invested accumulation represented by ships, arms and munitions of war, amounting to as much again.

The actual cost of the war to Japan cannot be estimated with accuracy. The navy is practically intact, but millions in ammunition have been expended. The army in Manchuria is also a continuing asset, but the cost of its maintenance and transportation has been enormous.

Disastrous indirect injury wrought by the war, to commerce, and to the domestic industry of Japan, the main items of military expenditure may be coming up as coming within the figures of the foreign and domestic loans; and, measuring the minimum demand to be made on Russia by these it is safe to say that the Japanese indemnity demand will not be less than \$200,000,000.

It is generally believed by well posted diplomats and financiers who are interested in the Russian and Japanese loans, that the peace negotiations will begin with a demand by Japan of about \$500,000,000, which may later be scaled down to the amount of the foreign loan, namely, \$200,000,000. The city of Russia to pay a huge indemnity is seriously questioned. The nation is now fairly staggering under the recent additions to its load of debt. The czar's credit is seriously impaired.

It is today almost impossible for Russia to raise any considerable sum of ready money in the markets of the world, since the war began the domestic and foreign commerce of the nation has fallen off more than 25,000,000,000, and the rates of discount have gone up so that little more than half the sum authorized in the latest loans were realized. After the fall of Port Arthur, the minister of finance authorized the issue in Germany of 250 million rubles, or \$125,000,000, of which only \$50,000,000 was subscribed.

The history in brief, of Russia's war borrowings, as follows:—Almost immediately after the war commenced a loan was negotiated in Paris of 800,000,000 francs, or \$160,000,000. These were 5 per cent short term bonds, and were practically all unsold. At the same time the latest loans were realized. After a 10 per cent treasury note to the amount of \$75,000,000. These treasury notes are similar to our interest bearing bonds.

After the fall of Port Arthur, Russia sought a loan in the German market. An issue of 350,000,000 rubles was authorized, and, as stated above, one part of the loan was subscribed. Simultaneously with the German loan the Russians issued at home another batch of treasury securities, bearing interest at 5 per cent, to the sum of \$125,000,000.

Meanwhile, the credit currency of the nation has been further expended in the Bank of Russia, which has, during the year subsequent to March, 1910, swollen its issue of circulating notes from \$310,000,000 to \$485,000,000, an increase in twelve months of \$175,000,000. Before and since then, the bank has loaned, by various means, bringing the total additional war issue up to \$250,000,000.

It will thus be seen that this brings the total of Russia's war borrowing up to the enormous figure of \$630,000,000.

As against this debt the Russian

minister of finance claims there is in reserve, and offers to exhibit, the official board of the Russian government, namely, the reserve gold supply, made up of bullion and coinage, and amounting, he claims, to \$350,000,000. This offer to show so much gold is characterized by bankers in London, Berlin and Paris, as "opera bouffé." They look to the reserves of the nation and decline to read more.

And now comes the startling, but natural sequel—that Russia is already planning to abandon the gold standard! Such is the report in the conservative financial circles. It is the natural resort of unscrupulous bankrupts. Being a creditor to all the world, the nation proposes to go to a cheaper monetary basis.

The total public debt of Russia on January, 1905, (this does not include the late war borrowings), was \$3,523,245,000.

For previous years the debt was: 1904, \$3,312,965,920; 1903, \$3,314,673,942; 1902, \$3,232,877,075.

But this \$4,000,000,000 indebtedness of Russia does not tell the story. In addition to this, there is the whole railroad debt, the government having taken over the railway system, and guaranteed the interest on the bonds; and, added to this, other industrial enterprises in which the government has engaged, and become guarantor, so that during the one year of 1900 no less than \$4,000,000,000 worth of securities were issued on which the government appeared as guaranty for the interest.

Regarding the participation of the government in the industrial activities of the nation, the official figures of the nominal indebtedness show that there is a debt of \$42.1 for every man, woman and child of Russia's vast domain. The per capita debt of the United States is less than \$11, and of Japan, (1902), it was but \$10.

With the industrial burden added to the nominal debt—that is, including the guaranteed railroad and other securities which Russia has indorsed—that nation has a debt which may be roughly and conservatively stated at \$100,000,000,000.

In proportion to its revenues and resources Russia is the most heavily indebted nation in the world. Added to the present war expenditures Russia has built up her burden of debt by the Crimean war, the assumption of the Polish national debt, the Russo-Turkish war, the liberation of the serfs and era of railway building. The average rate of interest is close to 5 per cent.

How can Russia pay? How meet this enormous and growing mountain of obligation?

The answer is one continuous story of tax. First, there is the indirect tax of the tariff system, similar to that of the United States; then there is the tax on all spirits, accomplished by the national monopoly of this entire business. The czar is the one tax collector in Russia. Not a gill of spirits is sold in the empire except by the government, and then it is dispensed at a good profit. The czar makes about \$250,000,000 a year on his saloon business.

There are several other industrial monopolies of lesser importance, and it is contemplated next to take over the tea business as a government monopoly. Other articles taxed are tobacco, sugar, mineral oils, matches, and about all the incidental necessities of daily life; then there are special taxes on duties, stamp duties, transfer duties, passport and railway taxes, etc., in addition to which there are taxes on lands and forests, on all redemption payments and on liberated serfs (head tax), and on "crown peasants."

Liberated serfs and crown peasants are squeezed for about \$15,000,000 a year.

Where will Russia get the money to pay a war indemnity of \$200,000,000 and upward. The poor are ground to the limit now. It is small wonder the nation's financiers are worried.

## ACCIDENT TO BOAT AND FATHER DROWNED.

Alma D. Young, who was drowned in the San Juan river the other evening, was a resident of Hammond, San Juan county. His three sons were on the boat at the time the accident happened and they had to stand and watch their father drown, while they could do nothing to save him.

Mr. Young leaves a mother, three sons and a daughter, and a number of brothers and sisters to mourn his departure. His wife having died a little over fourteen years ago, his youngest child is the daughter, who is now 14 years old. Mr. Young was an affectionate and kind father and always had a kind word for everybody. His mother, who has made her home with him and raised his children, is over 70 years old. The sad affair has cast a gloom over the Hammond community.

The Commercial club will not meet tonight as was announced in the morning paper, but will meet one week from tonight. At that time of recess for the ensuing year will be elected.

The funeral of Miss Laura D. Lane, who died Sunday of typhoid fever, will be held tomorrow afternoon at 2 o'clock from the undertaking parlors of A. Hordern. Rev. Harwood will officiate, and burial will be in Fairview cemetery. The Woman's Relief Corps, of which the deceased was a member, will attend the funeral in a body.

Nasal Catarrh quickly yields to treatment by Ely's Cream Ointment, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it passes itself. Druggists sell the 25c. size. Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

**Announcement.**  
To accommodate those who are partial to the use of stimulants in applying liquids into the nasal passages for catarrh of the nose, the proprietors prepare Cream Ointment in liquid form, which will be known as Ely's Liquid Cream Ointment. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

Miss May Berger, of Santa Fe, is spending a few days in Albuquerque, the guest of friends.

Mr. and Mrs. M. H. Jones and Mrs. M. C. Christ, of Laguna, spent yesterday in the city shopping.

Colonel and Mrs. W. H. Greer, who have been in the east the past month, are expected home tonight.

Miss A. C. Holmquist, assistant clerk at the court house, left yesterday for Chicago, where she will spend her vacation.

Mrs. M. C. Switzer, mother of W. F. Switzer, of the Oak barber shop, is spending a few days at Helen visiting Mrs. George Hoffman.

Habib Jacob H. Kaplan and his sister, Miss Nellie Kaplan, are visiting friends in Denver, and will be absent from the city for the summer.

Mrs. W. E. Neal and daughter expect to leave Monday night for Raleigh, N. C., where they will spend the summer with relatives and friends.

Miss May Clapp, a teacher in the local Indian school, left yesterday for Des Moines, Ia., where she will spend the summer with her parents.

Miss Mary Tway, a school teacher of this city, will leave the first of the week for Los Angeles and other California points to spend the summer.

Mr. N. Gradi has returned from a six months' sojourn in C. hubana for the benefit of her health, and returns very much improved.

After spending a week in the city as the guest of Miss Nellie Halston, Mrs. E. W. Call will leave this evening for Los Angeles.

Mrs. A. C. Bartles and daughter, family of Fire Chief Bartles, will spend their summer vacation among relatives and friends at Toledo, Ohio.

Miss Ethel A. Hickey, a member of the university faculty, will enjoy a part of her summer vacation with Miss Nancy Hewitt, at Hiawatha, Kan.

En route to New York, Mrs. R. M. Craig, and daughter, Miss Mildred, family of Rev. Craig, stopped over at Santa Fe, to visit Mr. and Mrs. C. L. Hickey.

On Wednesday afternoon, at her home on West Lead avenue, Mrs. J. E. Saint entertained a number of lady friends at cards. Choice lunch was served.

Mrs. George S. Klock, wife of the well known Albuquerque attorney, will leave next week for a visit to her home in Buffalo, N. Y. She will remain away all summer.

J. C. Flournoy and family left today for Bear Canyon, where they will remain for a month. Many of their friends will visit them at different times and be their guests.

Mrs. Frank W. Parker, wife of Judge Parker of the lower judicial district, passed up the road the other morning for Santa Fe, where she will visit her sister, Mrs. A. G. Kennedy.

Mr. and Mrs. E. E. Sturges and son, Lloyd, are contemplating a trip shortly to southern California, and thence, to the Portland, Ore., exposition. They will be absent a month or six weeks.

Mrs. John Ransom and daughter, of Philadelphia, Pa., are new arrivals in the city and will probably make Albuquerque their future home. For the present, they are guests of Mrs. A. C. Shoup.

Misses Emma and Ethora Segetke, two young ladies from Crete, Noh, are here spending a few weeks' vacation. They are nieces of Col. G. K. Nehrer's and are delighted with Albuquerque.

Mr. and Mrs. W. P. Metcalf, of this city, are spending a few days with Mr. and Mrs. W. H. Wise at Tesuque, Santa Fe county. Mr. Wise is the well known lecturer on the New Thought and Socialism.

During the week the fifth annual convention of the New Mexico Sunday school association, this city. The sessions were much enjoyed by Sunday school workers, and were largely attended. Officers were elected for the ensuing year, and among the distinguished visitors from the outside was Rev. John C. Carman of Denver, who represented the International Sunday School association.

Mr. and Mrs. J. T. McLaughlin, Mr. and Mrs. P. H. Kent and Mr. and Mrs. E. L. Medler, drove to San Pedro yesterday, where they will camp a few days. A pleasant time is anticipated by the party.

The "Flag Day" exercises at the residence of Mrs. John Butler Wednesday evening, were under the auspices of the Woman's Relief Corps, and an interesting program was rendered. Mrs. Butler served a most appropriate lunch.

The banquet and smoker tendered to Governor Otero, at Santa Fe, Wednesday night, was one of the most elaborate "stag" entertainments ever held at the capital city, and the governor was the recipient of many congratulations.

John Bay and Miss De Rita J. Herd, both of Albuquerque, were united in marriage at the home of Mr. and Mrs. Charles Quier Saturday evening, June 10. They have taken rooms at Mr. Quier's, where they will be "at home" to friends for the present.

Mrs. T. C. Lebo, who has been here the past few weeks visiting her parents, Mr. and Mrs. C. A. Hawks, expects to return to San Francisco shortly and there meet Colonel Lebo on his return from the Philippines.

The annual memorial service of the I. O. O. F. will be held at the Southern Methodist Episcopal church tomorrow morning at 11 o'clock. All members of the order are requested to attend. Meet at our hall at 10 o'clock.

Harold Ten Eyck, the bright young son of Mr. and Mrs. R. C. Ten Eyck, celebrated his sixth birthday yesterday. Many of the little fellow's friends attended a party in honor of the event and Master Harold was the recipient of some handsome gifts.

Miss Jessie Keith and Miss Ena Dixon are planning an outing of several weeks on the Rio Pecos, and will leave Monday morning for the Valley ranch. Miss Keith's father, A. Keith, will accompany the girls to the ranch and see them comfortably settled.

R. D. Stephenson, member and manager of the Monarch Grocery company, will leave this evening for the City of Mexico to remain a month. He will be accompanied by Mrs. Stephenson and her mother, Mrs. T. H. Hume, principal of the First ward school.

Miss Ione Albright has as her guest Miss Nellie Delaney, of Lancaster, Ohio. Miss Delaney spent the week at the home of Mrs. Albright, and will leave Monday morning for the Valley ranch. Miss Keith's father, A. Keith, will accompany the girls to the ranch and see them comfortably settled.

Quite a list of Albuquerque's prettiest young ladies and handsome gentlemen will spend tomorrow, Tuesday, the day is all right, in the canyon resorts of the Sandia mountains, and of course baskets will be filled with picnic sandwiches and bottles of soda pop will be taken along for refreshments.

One of the most pleasant events of the week was the musical on Thursday evening, given under the auspices of the music department of St. Vincent's academy, at the academy. The entertainment marked the beginning of commencement week for that institution and the commencement exercises will be held on Tuesday evening, next.

Miss Mildred Fox, daughter of John and Mrs. H. E. Fox, who has been attending a swell boarding school at Los Angeles the past year, will return home Monday. Miss Fox is quite a social favorite in this city, and many friends will be pleased to call on her home. Mrs. Fox, mother of the young lady, and who has been in Los Angeles for some time, will return home with Miss Mildred.

## "POP" ANSON AS POLITICIAN.

Adrian C. Anson, once the hero of the baseball field and fiery leader of the old Chicagoans, now clerk of the city of Chicago, is still a friend of the game and is popular with the fans. As a politician he wears a smile.

# MADE A HOLE IN THE ATMOSPHERE 965 MILES LONG IN 1077 MINUTES

## Exciting Dash of the Lake Shore Flyer From Chicago to New York Told by a Staff Writer of the Evening Citizen Who Was Aboard--Tremendous Enthusiasm Over the Speediest Thing in Railroad, But Which Was Un fortunately Wrecked Last Night.

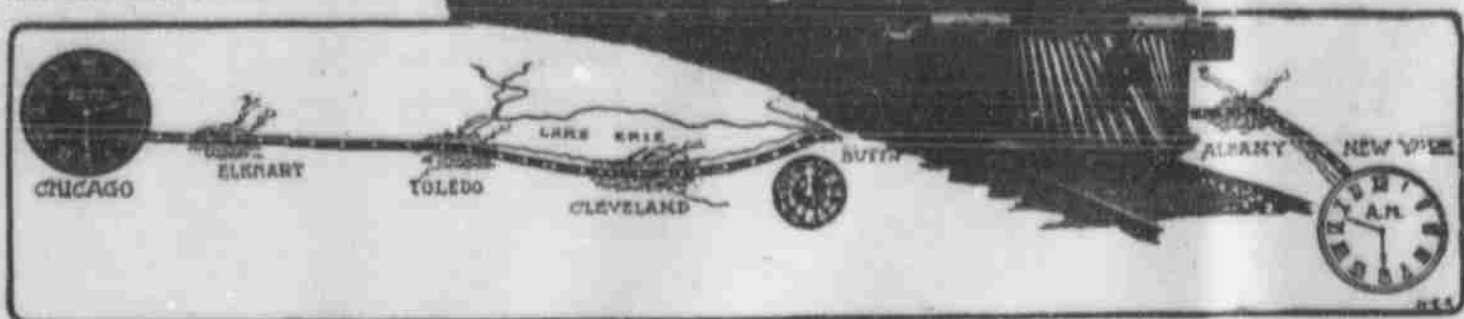

Staff Correspondent of The Evening Citizen, aboard the fastest train in the world, on its first trip from Chicago to New York.

New York, June 18. — A new achievement was added to the wonders of the world the other day when the Lake Shore railroad started from Chicago its first eighteen-hour train to New York. It broke all long distance records.

Of all the millions that have been spent of all the work and all the experience that have been devoted to

weight of the train exceeded 500 tons.

It was up to the firemen to maintain a steam pressure of 90 pounds, and they did it. They furnished power that made a rate of speed unheard of before this trip. The weather was ideal for the run, being clear and calm, and the train went

ENGINEER MILLARD F. FLEMING.  
The man behind the throttle who took the flyer out of Chicago, through without stop or break.

FILEMAN CHAS. F. BERRYMAN.  
By Jacob Waideck.

At every crossing there were more crowds. All were enthusiastic, and expressed good wishes in cheers that were faintly heard as the train whizzed by.

Everything in the yards had been cleared off for the flyer. Switches, sidings were still, and their crews watched with the alreaders' pride in fast traveling, this attempt to accomplish something new.

Crowds separated as the train rushed by and then swarmed back over the tracks to see it dusting along toward New York. There were all the demonstrations of a race crowd, but the unusual feature was the fact that the course was straightaway and a life long.

Spectators only had one look. Record smashing began at the first junction point.

The first stop at Elkhart, seven miles out, was made by Engineer M. F. Fleming, a veteran at the throttle, in ten minutes.

There was a clattering at the slower rate of speed that gave way to a humming sound, when it hit up a mile-a-minute clip. Swirling currents of air stirred up by the train, tossed sticks and even pebbles, high into the air.

Three miles down a hill about sixty miles out of Chicago were needed in at least forty seconds per mile. The train pulled into Elkhart, 101 miles from Chicago, ninety-two minutes from the start. It was seventeen minutes ahead of time. The route had been covered at the rate of 45.67 miles per hour.

The train remained there until schedule time for pulling out.

From Elkhart to Toledo was a stretch of 133 miles, and it was covered in 112 minutes, the rate being 71.25 miles per hour.

The air line, a stretch of track perfectly straight, and level, and over sixty miles long, was traveled in fifty-seven minutes. There were many miles at a rate of eighty miles per hour.

The train was thirteen minutes ahead of time at Toledo, but was held until schedule time.

To Cleveland from Toledo is a run of 108 miles, and it was covered in the dusk of the evening in 104 minutes. The rate was 62.50 miles per hour. The arrival at Cleveland was twenty minutes ahead of schedule. The rate from Chicago to

A SHORT STOP ALONG THE WAY.

CROWD AT ELKHART, IND., RUSHING TOWARD THE ENGINE TO SHAKE HANDS WITH THE ENGINEER.

Train No. 22 arrived only twenty minutes late this morning. The Rio Grande has gone within its banks again and trains will be running on time just as soon as the roadbed settles where it was worked up by the high waters of the past few weeks.

A shabby mile long is doing service between Rincon and Las Cruces, where a long stretch of track went out the early part of last week.

Cleveland, 342 miles, had been made at a rate of over 66 miles per hour.

Then came the dash to Buffalo, 183 miles away. Here, 85 miles distant, was reached in eighty-nine minutes. The train, planned through the darkness like a meteor or cannonball or some such thing that's real fast.

A favorable stretch of track from North East to Dunkirk, thirty-three miles was traveled in twenty-one minutes. The pull from Cleveland, 182 miles, had been made in 173 minutes, or at the rate of 63.46 miles per hour. The schedule was beaten twenty-two minutes.

The main race ended at Buffalo. The 525 miles from Chicago had been covered at the rate of 65 miles an hour. The train had not only covered the eighteen-hour schedule, but had beaten it by seventy-one minutes. It had lost all the way.

The New York Central picked up the train at Buffalo and brought it in three minutes ahead of schedule time, which is about fifty-five miles per hour, running time. No attempt

was made to make new speed standards. So this marvel of speed came from Chicago to New York, 965 miles, in less than eighteen hours, allowing for time gained and stops. In actual running time the train made within six minutes of a sixteen-hour schedule. It had marked up a great big record.

"We can make the eighteen-hour schedule, even in the roughest weather," said C. F. Daly, passenger traffic man, who made the trip. "This run proves it is not a formidable undertaking. It is easy."

Aboard the train you hear some interesting facts about this fast runner.

The locomotive on the Lake Shore half of the route, is known as the Atlantic type. It carries ten tons of coal, 6,000 gallons of water, and weighs 900,000 pounds.

The engineers were chosen in line of seniority, and their pay is about \$175 per month.

What everybody wants to know, is what precautions are taken on a fast train like this for the safety of the passengers.

First, the general managers and assistant superintendents get together and carefully arrange the schedule, changing the time of every inconve-

lent train, shifting, side tracking and generally clearing the road.

The new time table being ready, every employee is made familiar with it. Every watch is regulated. Every watch is inspected daily.

Nothing which human ingenuity can provide against can go wrong under these conditions. No explanation is necessary. The time table sets forth the new arrivals and departures. The train dispatcher is at the end of a telegraph wire, knowing exactly the position of each train in the division, ready to amend the schedule whenever anything does go wrong.

That is the simple method of railroading. Plan it all out, order it in enforcement. Have somebody always in communication with every part of his section of the road and knowing what is doing on it. Then, only discipline and willful neglect can bring about a mishap. And discipline or neglect means dismissal as the lightest punishment. The discipline of a railroad is of steel, as its rails are.

Further Star has been heard from and he desires to come back if he can secure a position as pitcher on one of the teams. The Grays are trying to make arrangements for his return. — El Paso News.

The Browns will cross bats on Sunday with the Madrid Grays at Tractor Park. This is expected to be Roy McDonald's farewell game as Roy has declared that he will then don the big mitt for the last time. Roy has been a favorite of the Albuquerque fans for many years, and one of the mainstays of the team, and it is needless to say that he will be missed. On bidding McDonald farewell on Sunday, the fans will at the same time be introduced to a new player by the name of Willie Neher, who is from the same class in which Charles King trained. King played second base last Saturday and Sunday to a queen's taste, figuratively speaking.

The Grays have never played on the local ground, and the quality of the team is not exactly known, but Willie Neher, the catcher, is a hummer, for one, and it is likely to be a good game.

**Woman Attacked by Dogs.**  
A very serious accident befell Mrs. C. D. Duffy, wife of the well known local athlete, last night as she was returning from town to her home about the hour of nine, says the Las Vegas Optic. As she was passing the residence of Mrs. Meyer on Railroad avenue, two dogs ran out and made an attack on her, throwing her to the ground. The unfortunate lady, besides being bitten, how seriously can not be ascertained, was terribly frightened. Being in a delicate condition, grave fears are entertained as to the serious results of the attack. Her husband stated that he expected to have the dangerous dogs put where they wouldn't molest any more women.

Hallings Burke, son of Mr. and Mrs. W. H. Burke, who has been attending St. Michael's college at Santa Fe, returned home last night to spend the summer vacation.

Regular meeting of Harmony lodge No. 1, I. O. O. F. tonight. Second degree. Odd Fellows, please attend.

Joseph C. Gawler of Denver is at Roswell in connection with the United States reclamation service, and his duty will be to act as disbursing agent on the Hondo reservoir, and to pay for work as long as the government continues the work, on force account.

T. R. Morrow, of the law firm of Lathrop, Morrow, Fox & Moore, of Kansas City, has been appointed solicitor for the Santa Fe railway in Missouri and Iowa, with headquarters in Kansas City. This is the position held by Lathrop, Morrow, Fox & Moore, who is appointed as general solicitor of the Santa Fe system, with headquarters in Chicago.

Train No. 22 arrived only twenty minutes late this morning. The Rio Grande has gone within its banks again and trains will be running on time just as soon as the roadbed settles where it was worked up by the high waters of the past few weeks.

A shabby mile long is doing service between Rincon and Las Cruces, where a long stretch of track went out the early part of last week.

## COMMENCEMENT EXERCISES OF ST. VINCENT ACADEMY

### A Most Delightful Program Rendered--Miss Stella Boatright the Graduate of Class of 1905.

The hall at the St. Vincent academy, one of Albuquerque's solid educational institutions, was crowded to overflowing last night by the friends of the academy and parents of the scholars as the commencement exercises of the institution.

Polite and competent ushers were busy up to 8:30 holding seats for the guests, and even then, when the exercises had been commenced, many were found standing at the double door entrance to the hall.

When the curtain was thrown back, as a signal for the overture, a pretty scene was presented, the background showing several miniature flags of

"Magnificat," by the scholars, with Misses Maude Hale and Anna Korber at the pianos, was the next, and, if such could be the case, was probably the prettiest evolution scene, or tableaux, presented last night, and the young participants were roundly applauded.

Misses Stella Boatright and Jennie Walsh rendered "Bella Ciao" on the piano, and this was followed by the rendition of "Crowned by Charity" by a chorus of angels and the following cast: Juanita Armijo, representing "Faith," Jennie Walsh, "Hope," Mary Brennan, "Charity," Armida Shinkle, "Angels," Stella Boatright,

ST. VINCENT'S ACADEMY.

the Union, palms and potted plants, and just above these was the class motto: "Sola Virtus Nobilitat." Each at intervals hung the class colors, blue and gold.

The exercises opened with "Egmont" overture, from the young ladies, with Misses Anna Korber, Isabelle Connolly, Armida Shinkle, and Maude Hale accompanying on the pianos. The rendition of the overture elicited applause, proving that such a good start would demonstrate a most excellent program and such proved the case.

In a clear voice, Miss Mary Brennan delivered the salutatory and the young lady was not forgotten by her friends, who showed their appreciation of her talents by applauding.

With Misses Stella Boatright and Jennie Walsh at the pianos, the floral entrance march and chorus by the scholars was rendered, and not a breath or mismovement was noticeable.

Miss Jennie Walsh then rendered "Montered Out" in a dramatic manner, her gestures and intonations being almost perfect.

"Summer Fancies," by the scholars, with Miss Armida Shinkle at the piano, was prettily rendered, and this was followed by the graduate of the class, Miss Stella Boatright, appearing and delivering a most excellent, well prepared essay on "Woman's Sphere."

The young lady is the daughter of Mr. and Mrs. D. H. Boatright, and her efforts last evening were strikingly pleasing, not only to her parents, who occupied front seats but to her numerous admiring friends scattered throughout the audience.

The young lady delivered her essay in a faultless voice, and was the happy recipient of several handsome presents and bouquets of choice flowers.

The seniors rendered the "Revel of the Nalada," which was followed by Miss Boatright pleasing the audience by playing difficult pieces on the piano.

The reading of "Order for a Picture" came then from Miss Armida Shinkle, and the young lady's efforts, so to speak, brought down the house with hearty applause from her admirers.

The reading of "Order for a Picture" came then from Miss Armida Shinkle, and the young lady's efforts, so to speak, brought down the house with hearty applause from her admirers.

## INTERESTING ITEMS FROM TOWN OF RAON

From The Gazette.

Dr. J. J. Morgan, wife and daughter, Miss Florence, returned to their home in Raon, after having spent a pleasant week with Mr. and Mrs. C. A. McShooler.

Miss Laura I. Kettie has tendered her resignation as teacher in the city school, to accept a position at Fort Collins, Colo. Miss Kettie was one of our best teachers and it is with regret we lose her.

Wednesday morning while rehearsing for Friday night's recital, Miss Jennie Donnelly pulled the piano over on its side and lay for several minutes before she was rescued from her tortuous position. When the piano was removed she fainted and it was necessary to call a physician to attend to her.

Miss Marion Blackwell will return from Lindwood college, Missouri, this morning. She is a graduate of the elementary course and was vice president of a class of thirty students. After a three-months' vacation in Raton, Miss Blackwell will return to Lindwood for a post course.

From the Range.

Mrs. William C. Wrigley, who has been suffering from an acute attack of rheumatism the past week, is much better.

Mrs. Will C. Barnes and son have returned from Phoenix, Ariz., where they spent the winter, to their home near Dorsey. They were met by Mr. Barnes at Albuquerque.

Mr. and Mrs. O. E. Lyon left on their annual camping trip. They will probably cover more ground than usual, their destination being Routt county, Colorado, where they will enjoy a little visit with Mr. and Mrs. A. G. Dawson in their summer quarters.

The old Baptist church, which was recently bought by the Presbyterian will shortly be removed from its present awkward position on Third street and placed upon the foundation just completed at the rear of the Presbyterian church. It will be used as a Sunday school room, as a place for Christian Endeavor meetings, lectures and all sorts of church entertainments.

From the Reporter.

Mrs. Ira Duckworth left for Wichita, Kan., where she will visit relatives for about six weeks.

S. H. Lulich, who went to the T. J. hospital last week to have his eyes treated, has returned home with the pleasing assurance that his eyes are rapidly improving, and that he will improve faster without treatment than with it.

Robert Morris of Crow Creek, a family, stopped off in Raon, where they will locate. Mr. Morris has been manager of the Crow Creek ranch for the past five or six years.

The friendly suit between Hugh Smith and Mrs. Agnes Smith and her children, has finally been disposed of by Hugh Smith giving Mrs. Smith and children \$1,000 for their undivided half interest in the Palace hotel property at Raon.

The court first appointed a commission on partition, but the commission reported that it was impracticable to divide the property, hence the court ordered the property sold and Mrs. Smith bought it.

**OFFICIAL MATTERS.**

The following notaries public have been appointed by Governor Otero: Indalecio Sena, Sena, San Miguel county; Stueffert, Jimenez, Alamosa county; Bernalillo county.

**Insurance Fees Paid.**

The following insurance companies have complied with the law and paid to Hon. Pedro Perea, superintendent of insurance, the \$100 fee which he charges them to do business in his territory: Northern Union Insurance company, of London; Continental Casualty company of Hammond, Ind.; Commercial Union Assurance company, Limited, of London; National Surety company of New York.

**Mineral Surveys Ordered.**

Surveyor General M. O. Llewellyn has ordered an official survey made of the Key Group, comprising the Key No. 2, Key No. 3, Grand Mesa and Dora B. lode mining claims, a site in the Silver mountain mining district in Socorro county. The claims are owned by the Mines Development company, through James G. Brown, Socorro, as agent. The survey will be made by United States Deputy Mineral Surveyor Oliver R. Smith, of Corra.

**Articles of Incorporation.**

The following articles of incorporation have been filed in the office of W. Haynolds, secretary of the Territory:

Raton Lodge No. 865, Benevolent and Protective Order of Elks. The incorporators are Alva L. Ho, Charles F. Remsburg, John Joe and Lemuel C. White, all of Raton. The objects of the corporation are to purchase or otherwise acquire, and otherwise dispose of, real estate personal property as the purpose of the lodge shall require. The term of existence is fifty years, and the principal place of business is Raton, John Joerns as manager.

**MINING LOOKING UP.**

Prof. F. A. Jones Reports Br Mining Prospects All Over the Territory.

Prof. F. A. Jones, of Albuquerque who has charge of the work of bettering the mining statistics in Mexico for the information of United States mint and Geological Survey officials, arrived in Raton last week and has since been busy visiting the different camps in this section, says the Independent.

Prof. Jones has about completed his labors for the present fiscal year, as a result of his investigations found that the mining industry over the territory is in better shape than it has been for the past years that he has been representing the government. Prof. Jones stated this statement in particular of Grant county and that he has been most agreeably surprised in progress which has been made in his trip of inspection here a year.

Grant county will continue to the list of mineral producing areas in New Mexico for the year ending June 30th, the output here is about three-fourths of that of territory. Prof. Jones is an experienced mining man, and is the author of "New Mexico Mines and Minerals" published by the Territorial Board of Geology.

## LET HER PRIMP

By CYNTHIA GREY.

Mirrors will cure a frowning wife, benefit an awkward wife, rejuvenate an aging wife, and bring the semblance of health to a sickly wife.

A woman doesn't care so much how she looks to her husband (after she has him landed), but when she looks at herself she likes to catch herself at her best.

So, wise men, buy mirrors, mirrors, mirrors, mirrors. Set them and hang them everywhere, and let her primp.

As announced elsewhere, Mr. and Mrs. H. E. Fox and Mr. and Mrs. F. H. Strong, accompanied by Miss Mildred Fox, returned to the city this morning from Los Angeles. Mrs. Fox, who sojourned in southern California for a number of months, returned to the city much improved in health.

Both Messrs. Fox and Strong were seen this morning and they reported themselves gaining in flesh by their visit to southern California, and also state that on their trip to the coast resorts they met a number of Albuquerqueans and ex-Albuquerqueans now enjoying life down there.

Mrs. L. R. Thompson, of South Arno street, will entertain a few friends tomorrow afternoon, from 3 to 5 o'clock, in honor of Miss Jessie Purcell, of Paulding, Ohio.

Men are eternally fawning because their wives spend so much time before the mirror. But if men were really next to the great game of the happiness of the home they would line their walls with looking glasses.

If there is anything on earth that will take the snarl off a woman's face it is to catch sight of it in a mirror.

It may sound like a rash statement, but it is true, nevertheless, that when the snarl is taken from a woman's face the grouch is at least half driven from her heart.

Whoever saw a woman turn away from a mirror in a temper? Why, she comes from the mirror all perked up as if she had been practicing "peace, piety and primness."

It is just as natural for a woman to strike her best attitude and to make her best face whenever she catches a sight of her reflection as it is for a man to twist his mustache when he goes up in a beam-riser elevator. It's human nature.

The mirror is really man's dearest friend. But like so many good friends, its services are not appreciated.

When your wife puts a tea set let her fix facing the mirror in the sideboard; it will brighten the meal.
