MOSQUITO THEORY NOW GETS SUPREME TEST

New Orleans, Unprepared in Spite of Warnings, Hurriedly Arms Itself Against the "Stegomyia Fasciata."

DR. QUITMAN KOHNKE, President of the New Orleans City Board of Health.

DR. EDMOND ROUCHON, President of Louisiana State Board of Health.

BY J. M. WHYTE, Special Yellow Fever Commissioner of The Evening Citizen, at New Orleans.

New Orleans, La., Aug. 2.—The yellow fever situation in New Orleans is now attracting general attention the world over, inasmuch as the mosquito theory is being thoroughly tested for the first time on the mainland of this continent.

Dr. Edmond Rouchon, president of the state board of health of Louisiana, and Dr. Quitman Kohnke, president of the city board of health of New Orleans, are now perhaps the two most official of health departments in the whole United States. They are old Louisiana practitioners with much experience in epidemics of yellow fever.

Dr. J. M. Whyte, at the head of the United States public health and marine hospital service, is firmly wedded to the mosquito theory. He went on record in a conference with Governor Newton C. Blanchard, of Louisiana, in this city.

Governor Blanchard asked Dr. Whyte just how much confidence he had in the mosquito theory.

Dr. Whyte replied: "I have just this much confidence in it. The dearest things on earth to me are my wife and children. Now you are privileged to take the most virulent case of yellow fever in this city and allow me to make the proper mosquito screen safeguards, and I will allow my wife and children to sleep in the adjoining room with myself, all during the patient's illness, or until he dies. That is just how much confidence I have in the theory."

This story became general property in New Orleans, with the result that the household of Charles Colyer, which adjoins the lake front, was practically inundated, the water rising several inches over the floor of his house.

The high water also carried out a portion of the four mile dam, rendering it absolutely useless.

The flood waters, which carried out the Ponaseco bridge, also took about one mile of track on either side of the bridge.

Hon. W. B. Childers returned last night from a trip to Denver, where he went on legal business.

this class of steers produces. Receipts from the range country are increasing every week, and the supply today from Pahrump and Oklahoma is liberal considering the total run is only 9,000 head. Only one or two shipments from Colorado today. Prices are strong to 10 cents higher today, cows and veal calves more in some cases, stockers and feeders fully 10 cents higher. More country buyers have been around the yards in the last ten days than any time before this season. Shagbark grass killing steers sold at 3.25 to 4.50, thin and light stockers, \$2.50 to \$3.25, fair to good feeders, \$3.00 to \$3.75, cows \$2.15 to \$2.65, a few good ones up to \$3.00, canners, \$1.75 to \$2.10, bulls \$2.00 to \$2.40. Veals are selling good at \$5.00 to \$5.75, with the heavy ones sorted out at \$5.50 to \$5.90. It is said that the country will not pay any higher prices for stockers and feeders than those now ruling, but the demand for a week or more has been ahead of the supply, and prices are steadily advancing.

The decline in the sheep market was checked the middle of last week, and the week closed firm. Receipts are light, at 5,000 head, today, and prices 10 to 15 cents higher. Idaho spring lambs sold at \$6.40 today, which is 40 cents higher than the top last week. Some higher Idaho lambs, 54 pounds, sold at \$6.10 today, several strings of Idaho and Arizona yearlings at \$4.50 to \$5.00, Colorado and Arizona killing ewes, around 100 pounds, at \$1.25. These prices indicate a recovery of 20 to 30 cents from the low time last week. The demand for feeders is very strong; feeding wethers at \$4.20 and \$4.25, ewes \$3.75, all weighing from 80 to 90 pounds, were taken out late last week. No killing wethers are here today, but they are worth \$4.25 to \$4.60. The low time has probably been passed for the present.

OFFICIAL MATTERS

ARTICLES OF INCORPORATION FILED DURING MONTH OF JULY.

Fourteen companies filed articles of incorporation in the office of J. W. Reynolds, secretary of the territory, during the month of July.

The names of the companies, their capital stock and the fee paid by each, is as follows:

- Albuquerque Carriage Company, capital stock, \$50,000; fee, \$25.
- Mount Olive Baptist Church, of Albuquerque, Inc., \$5.
- Seaberg & Crumpton Company, capital stock, \$5,000; fee, \$25.
- Salazar Chemical Boiler Cleaning Company, capital stock, \$150,000; fee, \$25.
- Sellers Printing Company, capital stock, \$20,000; fee, \$25.
- Wicks Gulch Mining Company, capital stock, \$1,500,000; fee, \$150.
- Rowell Creamery Company, capital stock, \$10,000; fee, \$25.
- Union Gas and Traction Company, capital stock, \$500,000; fee, \$50.
- El Estero de Santa Fe Company, capital stock, \$20,000; fee, \$25.
- Willard Town and Improvement Company, capital stock, \$10,000; fee, \$25.
- Raton Gas Company, capital stock, \$75,000; fee, \$25.
- Home Improvement Company, capital stock, \$25,000; fee, \$25.
- Rosedale Gold Mining Company, capital stock, \$400,000; fee, \$40.

ALBUQUERQUEANS OFF FOR GRAND JUNCTION

LOCAL MEN GO TO COLORADO TO REGISTER FOR CLAIMS IN THE GREAT UTAH RESERVATION.

Today, Mr. DeLeon and Robert McKroy, proprietors of the Albuquerque Steam Dye works, left for Grand Junction, Colo., where they go to register for claims in the great Utah reservation.

DeLeon was delegated with power of attorney to register for W. W. McDonald, a civil war veteran, residing in this city, while McKroy, acting with power of attorney for his father, Canada McKroy, also an old soldier, will register for him.

The boys have closed up their dye works temporarily, but if they lose out in the drawing, they will return to Albuquerque and look after their business. On the other hand, if either of them should be the lucky drawee of the first claim, which will be worth \$50,000, it would perhaps cause them to change their plans.

Reports from Grand Junction, where the registration books were opened on Tuesday, are to the effect that over 3,000 persons have already registered, and the indications are that before the time expires for registration, at least 25,000 will have registered at that point alone.

Registration closes Saturday, August 12, and the drawing will commence on August 25.

CASHIER SMITH RESIGNS POSITION

A. B. Smith, the vice president of the First National bank of Las Vegas, has tendered his resignation to take effect September 1. Mr. Smith has been connected with the institution since 1882. Courteous to the public, painstaking and zealous in the discharge of every duty, he has been an important influence in the development of the financial affairs of that city. The gentleman does not say what line of activity he expects to pursue, but Las Vegas will be pleased to learn that he is not contemplating removal from that city.

ROCK ISLAND TO MAKE HERINGTON OPERATING CENTER.

It is generally understood to railroad circles that the Chicago, Rock Island & Pacific railway has practically decided to move two important railway offices from Topeka, to

Herrington, Kan., making Herrington the operating headquarters instead of Topeka. This will move W. F. Van Frank, general manager of the line, and his executive office forces. Why the change is made is not known, unless it is thought by H. U. Mudgett, vice president, that Herrington is the logical headquarters of the operating department of the Kansas division.

MRS. MACKAY TURNS FROM SOCIETY TO SCHOOL

New York, Aug. 2.—Not only the men but practically all the women of the beautiful little town of Roslyn turned out to vote at the school election today and when the returns are counted tonight they are expected to show the election of Mrs. Clarence Mackay as a member of the school board by a splendid majority. Some time ago Mrs. Mackay began to make an interest in the village schools and as a result of her investigation she concluded that some radical changes in management and methods would be a benefit to the community. Forthwith she began to neglect her duties as social leader of the millionaire's colony of Roslyn and entered upon a vigorous campaign for the office of school commissioner. For a month or more she has addressed public assemblies, aired her views through the village press, button-holed voters in the streets and otherwise waged a campaign after the manner of the most practical ward politicians. And despite the opposition of the old members of the board it appears practically certain on the fact of the early returns that the affairs of the Roslyn schools during the ensuing year will be conducted according to the views of the beautiful wife of the young millionaire.

CLAUDE DOANE'S PARTNER GETS PRELIMINARY HEARING

HE IS HELD TO AWAIT THE ACTION OF THE NEXT GRAND JURY ON THE CHARGE OF HORSE STEALING.

Jose S. Baca, partner of the notorious Claude Doane, and implicated in several horse stealing raids with that notorious outlaw recently, who has been confined in the county jail in this city for several weeks, or over since the capture of he and Doane in the Embudo by Officers Ben Williams and Fred Furness, was given a preliminary hearing late yesterday afternoon, before Justice A. J. Crawford.

Baca is charged with being a horse thief, and after hearing all the evidence in the case, some of which was very strong against the prisoner, and which showed that he had stolen horses in his possession when captured, the judge thought it would be well to hold him to await the action of the grand jury. He was bound over to the grand jury.

He failed to furnish the bond, and in consequence he will have to remain in jail until the next session of the grand jury.

MANDAMUS TO MAKE LEVY FOR OLD BONDS.

Judge John B. McPhee, of Santa Fe, has issued a temporary mandamus against the board of county commissioners of Santa Fe county, directing them to levy a tax to pay the interest and principal on railroad bonds issued by the county in 1882, and upon which the county is indebted, and which has been delinquent, and assessed valuation of the county is less than \$2,000,000, its indebtedness is \$1,000,000, and default has been made for some years in the interest payments on the bonds issued to aid the Santa Fe system and the Denver & Rio Grande railroad, enter Santa Fe, and principally held in New York.

SANTA FE FINISHES SURVEY FROM GULF TO PACIFIC.

It is definitely announced that the Santa Fe has decided on the route of its proposed trunk line from Galveston to the Pacific coast, says a dispatch from Las Vegas. P. M. Jones, of Las Vegas, has completed the survey of the proposed line, and the route will be from Weatherford, Texas, which is already connected with Galveston, to Terico, across 350 miles of level country, and thence by the Belton cut-off, now building to Belton, and over the El Paso line to Silver City, to meet the connection of the Santa Fe, Prescott & Phoenix, now being pushed east. The project of building a line from the Pecos Valley line at Hinton, N. M., to the Gulf coast, is learned from a reliable source at Topeka that C. W. Jones, division superintendent of the Rock Island, located in Topeka, will be transferred to Des Moines at once. His place will be filled by J. B. Smalley of Des Moines.

To Make Corn Sugar.

Memphis, Tenn., Aug. 2.—The local plant of the Goye Alliance company is being equipped with machinery for the manufacture of sugar for commercial purposes, from corn, which will sell at about one cent a pound below the price asked for cane sugar. It is a further advantage in that it is "fruit sugar." Experiments along this line have been conducted by experts for a long time, and these have been satisfactorily concluded, and the product will be manufactured here at the rate of 100,000 pounds a day.

HUNGARY FIGHTING FOR ITS LIFE AND ITS CONSTITUTION

FRANCIS KOSSUTH, HUNGARIAN LEADER, AND SON OF THE FAMOUS PATRIOT, LOUIS KOSSUTH, WRITES THE STORY OF THE GRAVE CRISIS IN CENTRAL EUROPE, WHICH MAY LEAD TO THE SEPARATION OF HUNGARY FROM AUSTRIA.

BY FRANCIS KOSSUTH.

Written Especially for the Newspaper Enterprise Association.

(Copyright, 1905, by the Newspaper Enterprise Association.)

Francis Kossuth is the son of the Hungarian patriot in its fight against Austria. He is the son of Louis Kossuth, the famous Hungarian patriot, and is looked upon as the coming leader of his country.—Ed.

Budapest, Hungary, Aug. 3.—Hungary is face to face with a crisis grave, than any in its history since Hungary in 1867 became again a constitutional country.

Efforts are being made to set aside the laws and constitution of the land, and the people are faced by a government that, finding itself without any support in parliament, yet seeks to exercise the right to rule. Baron Fejervary, the premier, is not supported by any party, nor by public opinion, and is not able to bring forward in parliament any bill that can be passed into law. The present cabinet is simply an expression of the will of the sovereign, King Franz Josef, and is combating the basis of all constitutionalism, viz.: That a country must be ruled by its majority in parliament.

The government cannot even pass its budget bill, and to all intents and purposes Hungary now is a country without any government recognized by the people as the head of its affairs. Baron Fejervary has attempted to resign office, but the king will not accept his resignation, knowing that parliamentarianism is to be replaced the present one could be formed, so that the tragedy of a whole nation guided by a government on which it has passed a vote of no confidence continues.

The local authorities of the country are bound by law to disregard all orders of the government not constitutionally sound, and the Fejervary cabinet is very likely to employ force so as to keep the machinery of the government running. Should this be done, time alone can tell what is in store for the Austro-Hungarian monarchy.

This situation has been brought about by the refusal of the king to agree to the natural and legal demand of the Hungarian people that its army, which is recruited among the Hungarian people and maintained by them, shall be distinctively Hungarian. At present, the army is commanded largely by Austrians, the language of command is German and the colors are those of imperial Austria.

Only 12 per cent of the people of Hungary speak the German tongue, while the Hungarian language is used by 80 per cent; thus the patriotic feelings of the Hungarians are insulted.

The army, such as it is now, is a standing threat and menace to the liberty of the country. It has the appearance of an army of occupation, if Hungary were a conquered country, while in fact, Hungary is an independent kingdom, united to Austria only through the fact that the same man is king of Hungary and emperor of Austria.

There is no law that can support a permanent offense to Hungary's national feeling. Though the Hungarian constitution gives to the king the post of commander in chief of the army, this right cannot be stretched to mean that the king has authority to suppress, by his own will alone, the official language of the country, which he has a right to retain as a strictly constitutional monarch.

This abnormal state of affairs has been tolerated by Hungary since 1867, but now a demand is made on the monarchy for a considerable increase in the size of the army, and for an enlarged expenditure amounting to approximately \$20,000,000, and the Hungarian nation is resolved to exercise its just rights. It will decline to authorize the raising of more men and

FRANCIS KOSSUTH.

more money unless the Hungarian language and the Hungarian colors for the future are to become a part of the Hungarian army. This was one of the issues of the last election, and the people of Hungary returned to parliament a majority pledged to the platform. The majority agreed that it would be political immorality for them to abate one particle from their program, and they feel bound to continue their hostility to the present government, no matter what the outcome be.

The present crisis closely resembles that period through which nearly all other constitutional countries have had to pass, while fighting to maintain that the will of the people is superior to the will of the king. Kings have always tried to combat the principle of constitutional government, but kings reign but do not govern, and that their right of veto must be

used constitutionally only on the rarest occasions and only "a posteriori," never "a priori." Otherwise no governmental business could be conducted except the king approve of it, and there would be no difference between an autocracy and a constitutional monarchy.

The outcome is useless to predict. Constitutionalism must win, for it cannot be that in the twentieth century an attempt to impose an absolutist away in one of the great countries of Europe will succeed.

How success will be brought about, time alone can tell, but it is to be hoped that for the sake of the peace and prosperity of Hungary, and for the security of the throne of an elderly and benevolent monarch that King Franz Josef will of his own volition perceive that he has been misled by unfaithful councillors in revising the legal claims of the Hungarian people.

DORSEY MET WITH SERIOUS ACCIDENT

Henry Dorsey met with a rather serious accident at the Henry Carter residence last Thursday morning, says the Silver City Independent. A new roof is being put on the house and Dorsey was engaged in carrying up bundles of shingles to the carpenters. Upon reaching the top of the ladder he stepped off on the front porch, which, being old, immediately gave way and fell with a crash. In the fall Dorsey was caught between some 2x4 timbers and tightly wedged in by the bundle of shingles and portions of the porch timbers. It took the carpenters some time to extricate the young man, whose arm was found to be broken, and he was otherwise considerably bruised up. The accident might have resulted much more seriously to him, as he had no idea of the porch falling and had no means of saving himself from the fall force of the fall, some twelve feet, being heavily loaded with the shingles at the time he stepped off on the porch. He was at once taken to a physician and is rapidly recovering from his hurts.

DEXTER MAN DROWNS IN PECOS WHILE FISHING

A. S. Hutchinson of Dexter, Chaves county, fell into a whirlpool in the Pecos river Monday evening while fishing, and was drowned. Reaching parties are out, but the body has not been recovered. He is survived by a wife and one child. He moved to Dexter four months ago with his family from Gainesburg, Ill.

ANOTHER ARTESIAN WELL GUSHES NEAR ARTESIA

The C. A. P. Land and Cattle company has just brought in a fine artesian well on its land southeast of Artesia in Eddy county. The well is 545 feet in depth and flows five feet and two inches over a six-inch casing.

THE GROSS-KELLY COMPANY ESTABLISHES NEW HOUSE.

The Las Vegas Optic says: There will be much regret in the city that G. B. and W. B. Erickson will leave the city next week for El Paso, a new town at the junction of the Belton cut-off with the Rock Island, the letters of which form the initials of the El Paso and Rock Island and system. The Gross-Kelly company is to establish a wholesale house there and the Erickson twins will have charge of it.

TO ESTABLISH CATHOLIC HIGH SCHOOL AT CARLSBAD.

If the citizens of Carlsbad will furnish the building or suitable rooms, the mother superior of the Catholic school at Wichita, Kan., has stated that she would send from that school sufficient sisters to teach the branches necessary to a high school course, and would maintain the school.

STRANGE SUICIDE OF AN ARIZONA EDUCATOR

Great mystery surrounds the suicide of Prof. S. O. Lewis, principal of the Tempe public schools, which was discovered Monday, but probably occurred last week. Lewis, who was 32 years old, formerly lived in Corsicana, Texas, and has a mother in Illinois. He was unmarried, highly respected and had been employed as principal for next school year.

School had been closed for several weeks, and Monday morning painters went to the school house to work. A frightful odor caused an investigation and the body was found much decomposed. Lewis had shot himself.

BIG FAIR AT ALBUQUERQUE

THE FIRST ANNUAL STOCK SHOW WILL BE HELD IN CONNECTION "GET ONTO THE TRAIL TO ALBUQUERQUE."

The annual fair at Albuquerque which is always the biggest fair in this part of the southwest, will be held this year September 18 to 25, and many Roosevelt people will be interested, even should they decide not to attend any of the fairs in the territory except their own. The first annual stock show will be held as a special feature in connection with the Albuquerque fair. Five thousand dollars will be given away in race purses this year. With these attractions it looks as if the slogan "Get onto the Trail to Albuquerque" might prove a popular one.—Roosevelt Record.

The new Santa Fe railroad depot at Trinidad, which replaced the one destroyed by a flood three years ago, was turned over to the company on Monday. It is said to be the finest example of the Spanish mission style at the Santa Fe system.

THE GROSS-KELLY COMPANY ESTABLISHES NEW HOUSE.

The Las Vegas Optic says: There will be much regret in the city that G. B. and W. B. Erickson will leave the city next week for El Paso, a new town at the junction of the Belton cut-off with the Rock Island, the letters of which form the initials of the El Paso and Rock Island and system. The Gross-Kelly company is to establish a wholesale house there and the Erickson twins will have charge of it.

TO ESTABLISH CATHOLIC HIGH SCHOOL AT CARLSBAD.

If the citizens of Carlsbad will furnish the building or suitable rooms, the mother superior of the Catholic school at Wichita, Kan., has stated that she would send from that school sufficient sisters to teach the branches necessary to a high school course, and would maintain the school.

Miss Anna K. Abner, of the Albuquerque Indian school, returned last night from a short trip to the Indian village at Laguna.

## THE RUSS-JAPANESE NEGOTIATIONS AS SUMMER HOTEL ADVERTISEMENT

ENTERPRISING YANKERS FURNISH FREE KEEP FOR THE CONFEREES—TRUSTEES OF THE FRANK JONES ESTATE ACTED AS THEY THOUGHT HE WOULD HAVE ACTED, AND THAT IS WHAT HIS WILL REQUIRES OF THEM—JUDGE PAGE'S NAIVE PROSPECTUS OF THE MOMENTOUS DOINGS SCHEDULED FOR PORTSMOUTH, N. H.—THE GOVERNMENT HAS NO FUNDS FOR THE PURPOSE, ANYHOW.

Where the Treaty Makers Will Be Lodged and Fed.

JUDGE CALVIN PAGE. PARKER W. WHITTEMORE. HOTEL WENTWORTH. THE CONFEREES FOR THE PEACE TREATY ARE TO BE QUARTERED ON THE SECOND FLOOR OF THIS HOTEL. THE RUSSIAN APARTMENTS WILL BE ON THE LEFT OF THE ENTRANCE, THE JAPANESE APARTMENTS ON THE RIGHT. THE OTHER PICTURES ARE THOSE OF THE TRUSTEES OF THE ESTATE OF FRANK JONES, WHO OWNED THE HOTEL.

Portsmouth, N. H., July 31.—By means of some very subtle maneuvering, aided with Yankee-made methods, during the past two weeks, an arrangement has been made whereby the world honor of entertaining the peace envoys from Russia and Japan will be converted into a glaring advertisement for a summer hotel.

Throughout the world the statement has been flamboyantly published that the American government, anxious to encourage a settlement of the bloody conflict of the east, had perfected magnificent generous arrangements for the comfort of the visiting plenipotentiaries and their respective suites.

It fell to the lot of the state of New Hampshire to do the great honor. Her people, according to popular understanding, were to contribute the hospitality.

As a matter of fact, the "people" are owners and managers of the big summer hotel overlooking the sea and situated about four miles from this town.

"For as long as it stands, our hotel will be known as the place where the treaty of peace between Japan and Russia was signed," chuckled old Judge Calvin Page, one of the executives of the Frank Jones estate.

Only two doubts entered the mind of Calvin Page, who got his title on the police bench of this town, when he made the deal which brings the diplomats of two warring nations to his hostelry. In his own words, one was, "What'll we give them to do?" Another was: "How long will they stay?"

In order that there may be a clear understanding of Judge Page's position, his remarks to your correspondent might as well be inserted here:

"When Frank Jones died, leaving a very big estate, he left a peculiar will. Parker W. Whittemore, who was a famous athlete at Harvard a few years ago, at 31, was named co-

executor, to do with the estate, what in our opinion, Frank Jones, would have done. You know who Frank Jones was. His beer is known all over. Once he was president of the Boston & Maine railroad, and he was in congress for four years. He was a public spirited man. Whittemore married one of his four grand-daughters.

Was an inspiration. "Two big hotels are included in the estate. When I heard that the envoys from Russia and Japan were coming over here to settle their differences, why, I naturally thought that it would be a good thing for our hotels to have them quartered there.

"The navy yard, where they will hold their meetings, is just across the Piscataqua river. The navy yard provides a good place for secret meetings and our hotel will give them the best place to stop. And it won't cost them a cent.

"I took matters into my own hands when I heard of this thing, and I got into communication with Edward N. Pearson, our secretary of state. I told him that our hotel would provide the hospitality, and he notified Herbert H. D. Peirce, third assistant secretary of state, who has been delegated by President Roosevelt to manage the whole affair.

To Make It Famous. "I was anxious to have the honor of having the treaty of peace signed in our hotel. I was afraid that it might be signed over in the navy yard. But I guess it won't be, for I have been told that it must be done on neutral ground, and inasmuch as our navy yard is the property of this government, it will probably be signed in the hotel all right."

Calvin Page, chuckled again, and passed in his Yankee drawling. "Of course," he continued, "I look at this thing from a business point of view. And what's bothering me now, is how long those fellows may

stay. I heard that it might only be two weeks; another said that it might be two months; and a friend of mine suggested that I would be lucky if they got away by the first of next year. The hotel, to be sure, had steam pipes put in recently, so we can take care of them, only I hope it won't take as long as that.

"I expect Teddy Roosevelt will come around here before it is over. But just like him to come in and tell them what to do. He's responsible for this meeting, and he won't be satisfied until that treaty is signed upon American ground, or in our hotel."

"I don't want anything said about the advertising part of it. It wouldn't look right. Mr. Jones was a public spirited man, and what I have done was to carry out what I thought he would have wanted."

United States Can't Foot Bill. Judge Page explained that the president has no appropriation to draw upon in such an emergency as this, and that Mr. Peirce, who came from Oyster Bay to perfect the arrangements, was well suited with the plans. Mr. Peirce, on behalf of the government, will give a dinner at the hotel for the envoys, and it is expected that President Roosevelt will do likewise.

The hotel is typical of the modern summer seasoners' hostelry. It is a great, roomy place, with picturesque location. There are many hotels more beautifully furnished.

Including two plenipotentiaries from each nation, the suites and the servants, it is expected that about thirty persons will make up the party. The Russians will be quartered on one side and the Japanese on the other.

"Let credit go where it is due," an old inhabitant of ancient Portsmouth, who happened to be on the "inside." "It isn't the government or the state of New Hampshire—is Cal. Page.

## RAILROAD NOTES

(From Monday's Daily Citizen.)

Auditor H. McCleary, of the Harvey system, was looking after official business in the city today.

Agent H. S. Lutz, of the Santa Fe at this point, returned last night from Santa Fe, where he spent Sunday with his family.

Superintendent Charles Russell, of the bridge and building department of the Santa Fe coast line, was in the city today on business connected with his department.

A. R. Traphagen, of the advertising department of the coast line of the Santa Fe, with Los Angeles as his headquarters, passed through the city this morning for Chicago.

Chief Electrician H. Porrell, at the local Santa Fe shops, has returned to the city from Winslow, where he went several days ago to inspect the electrical equipment in the shops at that point.

Col. R. E. Twitchell, assistant counsel for the Santa Fe in New Mexico, who spent Saturday and Sunday in the city in attending to legal matters, was a passenger for Las Vegas this morning on No. 2.

H. W. Host, traveling auditor of the Santa Fe, with headquarters in Las Vegas, arrived in Santa Fe Saturday and checked in L. C. Locum as agent of that road in that city, vice H. S. Lutz, previously to Albuquerque.

General Superintendent L. L. Hubbard, of the Santa Fe coast line, arrived in the city this morning in his private car No. 10. Mr. Hubbard is here on one of his regular inspection trips. His son, Hudson, accompanied him to this city.

H. J. Potts, agent for the Santa Fe at Las Vegas, has been promoted to the position of chief clerk to the passenger agent at El Paso. Potts was in the city yesterday and left last night for El Paso where today he entered upon his new duties.

The Opie says, Guy Gatech, cashier at the local Wells Fargo express office, has been transferred to the Albuquerque office in the same capacity.

A recognition of merit, competency and strict attention to duty that he is no prouder of than his family and friends are. Henry Bergmann, driver of the express wagon, will now become clerk in the office.

Yesterday morning attached to No. 2 were two private cars containing the stockholders of the North American Exploitation company. The party consisted of four-one stockholders and was in charge of Frank T. Day, of the Western Trust & Guaranty company of Chicago. The party had been on a visit to the company's mines in Arizona and was on its way to Chicago.

J. P. Graham, the well known baggage agent at the Santa Fe station in this city, who has been at the company hospital in Topeka for several months, recovering from the effects of a serious operation, has returned home and is again attending to his duties. His many friends will be pleased to learn that he has almost entirely recovered from the effects of the operation, which was in every way successful.

Will Install Pianos On Fast Trains. According to a high railway official, it is quite probable that in the near future the limited trains on the transcontinental roads will have as a part of their equipment pianos for the use of passengers. This will be quite unique and will mean that passengers on the fast trains can have as much enjoyment as though they were in their own parlors at home. All that remains is for one road to start the ball rolling and the others will be quick to follow. Passengers now have anything they could want. Nowadays one can take a bath on the train, get shaved, and receive wireless messages, etc.

Charles A. Spless, attorney for the Phelps-Dodge people, returned to Las Vegas from his recent visit to El Paso. He is understood to be of the unanimous opinion that Torrance would seem to be the most logical and natural southern terminus of the proposed new railway through Las Vegas from the Dawson coal fields to a connection with the Rock Island, but Torrance refuses to express himself in the matter.

The Las Cruces Republican says: L. K. Edwards, the efficient agent of the Santa Fe company at this point, has been compelled to resign his position on account of ill health and has gone to the company hospital at Topeka. Mr. Edwards, during his incumbency of the office, has made many friends for himself and the company, who regret exceedingly the misfortune which has befallen him, and hope for his speedy recovery.

New Terminal Station Planned For Chicago. A new terminal station in Chicago to cost from \$1,500,000 to \$2,000,000 and to cover the land extending from Clark street on the west to State street on the east, and from Park street south to Taylor, is to be constructed by the Chicago & Western Indiana railroad, acting with other roads, says a Chicago dispatch.

Negotiations for the purchase of the land fronting in Clark street, Plymouth and Custom House corners, which have been going on for nearly two years, are about concluded.

Five railroads are interested in the new terminal station. They are the Wabash, Santa Fe, Erie, Great Trunk and the Monon. The Wabash is said to be the moving figure, although it is made to appear that it is the Chicago & Western Indiana that is purchasing the land.

Railroads Hasten To Settle Cattle Transportation Cases. Western railroads are hastening to settle the 1,500 cases brought by the department against them for violating the twenty-eight hour cattle transportation law. More than 200 of these cases have been compromised and settled at the basis of \$1,500 fine in each instance.

The law requires that cattle in transportation shall be taken from the cars, watered and fed, and rested five hours, after every twenty-eight hours on the road. Roads which already have compromised large numbers of the cases against them are the Missouri Pacific, the St. Louis, Iron Mountain & Southern, the St. Louis & San Francisco, and the Chicago, Rock Island & Pacific.

## NEW MEXICANS IN THE PHILIPPINES

(From Tuesday's Daily Citizen.)

Capt. A. W. Kimball, Just Back From Manila, Tells All About Them.

GEORGE CURRY'S RAPID RISE

(From Monday's Daily Citizen.)

Captain A. W. Kimball, after an absence of ten years from Albuquerque, returned July 27, from the Philippine islands, where he has been on duty at army headquarters in Manila for the past two years. In an interview with a reporter for the Evening Citizen, Captain Kimball gives the following interesting account of his ocean voyage of home-coming from Manila to San Francisco, and also tells how former New Mexico boys are making it in the islands.

"The transport Sherman arrived at Nagasaki, Japan, June 22, six days from Manila. It took about all this time for us to get out our sea legs, as the China sea was quite rough and our boat rolled and tossed a great deal. Many of the passengers purposely absent themselves from their meals.

"A two day's stop was made at Nagasaki, Japan. Lighters of coal were towed along the side of the transport and the bunkers filled with men, women and children, who passed the small baskets of coal from hand to hand. We arrived at Honolulu two weeks after leaving Japan, where we remained four days. Then leaving Honolulu, we reached San Francisco eight days later.

Sherman Carried 2,000 Passengers. "The Sherman carried as passengers a regiment of infantry, a squadron of cavalry, and discharged men from organizations serving in the Philippines, a total of 2,000 passengers. The trip was not at all unpleasant. The fourth day, band played every evening after dinner, while musical and theatrical entertainments and boxing contests between enlisted men passed the many hours away pleasantly.

"New Mexico was well represented on the passenger list by Captain John W. Williams, of the Fourth Infantry, and wife and children, formerly of Las Cruces. Captain Williams is en route to Fort Thomas, Ky., where his regiment has been ordered to take station after two years' service in the Philippines. Major General George M. Randall, Colonel F. Henry Ray and C. D. Cowles, U. S. A., were also passengers. These officers are well known throughout New Mexico and Arizona, having served in this section of the country many years ago against the Indians, and passed general satisfaction to the inmates of the Santa Fe railroad was built to this point.

Curry Civil Governor of Samar. "George Curry, formerly sheriff of Lincoln county, and later an officer in the famous Rough Riders, is at present civil governor of the island of Samar, one of the most important islands in the Philippines. Although only appointed recently, he is giving general satisfaction to the native government and the inhabitants of Samar, who have shown a little hostility toward the American government. However, it will not be long until Curry will have Samar well in hand, and the natives will be law-abiding citizens.

Among Other New Mexico Boys. Will A. Tipton, chief of the bureau of public lands, of the insular government, was formerly a resident of Santa Fe. He holds a very important and responsible position and is rendering efficient service to the government.

Captain Green of the Philippine constabulary, years ago a deputy sheriff at Gallup, McKinley county, with his wife and daughter, live at Manila, and the natives north of Manila. Captain Green commands the native troops in that district, and Miss Green is a school teacher in the same district.

D. M. McChesney, a number of years ago connected with the Santa Fe railroad at Las Vegas, is now master mechanic of the division of construction and repairs of the quartermaster's department, U. S. A., at Manila. He has his wife and two sons with him.

Manila Becoming Americanized. Last April the Manila Electric Railway & Light company, started running its cars, and it has been in operation about thirty miles of track, 90 or 70 cars, with as many more in process of construction. The company has five systems of transfers and one can ride almost over the whole city of Manila for a cent.

All of the conductors are Filipinos and at least two thirds of the motormen. The balance are Americans. The company claims the natives make careful and intelligent conductors and motormen.

Large and commodious buildings are being constructed near the power house, for offices, construction and repair shops. In the construction of these shops, as in the building of the Manila railway, only Filipino labor was used, the superintendent and foreman alone, being Americans.

FORBES' PRESENCE CAUSED MARRIAGES. Marshall Forbes, deputy United States marshal from Albuquerque, was in Alamogordo to make some arrests of persons violating the Edmunds' act on indictments which were brought at the last term of the United States court. In most of the cases the defendants gave bond but one or two are in jail in default of bail. The fact that a marshal was in town and the mission he was on, soon became known around here, and there has been a wholesale marriage business going on in Judge Riley's court for the past several days. Those who have been thus secured up are mostly citizens of Old Mexico, who are now living in "Chihuahua."

NEW MEXICO READY FOR GOOD ROADS CONVENTION. A Las Vegas dispatch says: A message was received from Governor Otero announcing that the New Mexico good roads convention would meet in Las Vegas September 26 and 27.

"Considerable work has already been done by the promoters, and a number of nationally prominent good roads advocates will deliver addresses.

Las Vegas, owing to the scenic highway built from that city to Santa Fe by contract labor, takes rank as the good roads center of the territory, but it is proposed to arouse interest in every part of New Mexico, with a view to securing roads as good as any in the union.

## SUSPECTED OF BELEN MAHL POUCH ROBBERY

(From Monday's Daily Citizen.)

Officer Ben Williams Makes Important Arrest in Kansas City.

CRIME WAS VERY WELL PLANNED

(From Monday's Daily Citizen.)

Officer Ben Williams, chief of the secret service of the western grand division of the Santa Fe, and who only recently arrived from Kansas, has added another equally important capture to his already long list.

On Saturday last at Kansas City, Mo., Williams ran down William S. Lewis, whom he had been trailing for several weeks, on suspicion that he is the greatest possible menace to the States mail pouch at Belen a month ago, when a package containing \$2,000 was stolen.

Immediately after the officer arrested the man, he boarded a train for Albuquerque and arrived here last night on No. 1, with his prisoner. After arriving here Williams took Lewis to the county jail where he is now confined.

The date of his preliminary hearing has not been set, but it will take place within a few days.

Robbery Was Planned Beforehand. The capture of Lewis will probably result in developments of a sensational character. The robbery of the mail pouch at Belen, is believed to have been only the beginning of a series of hold-ups and bank robberies, which had been planned by a well organized gang of which Lewis is supposed to be a member and perhaps the ring leader.

The officers are now heading every bit to Williams, who is determined to get the gang behind the bars before he quits and his past record in the line of running and safe cracking, leaves little doubt that he will be successful. With the capture of Lewis in Kansas City Saturday, he is supposed to have secured the key to the whole business.

Lewis is a Bad Man. The past record of Lewis in the present case, is anything but favorable to him. His home is said to be in Toledo, Ohio, where early in life he went wrong. He has been arrested in many eastern cities on the charge of being a hold up and safe cracker. Just previous to the Belen robbery, he was arrested on several weeks and his disappearance immediately afterwards led to his suspicion.

Since then and up to a week ago his whereabouts were unknown, although Officer Williams had been searching for him. He finally located him in Kansas City and his arrest followed. The trick was turned so nicely, that even the Kansas City papers failed to get hold of the arrest.

The Robbery Well Remembered. The robbery is still fresh in the mind of Albuquerque. A little over a month ago a mail pouch sent from this city to Belen, in which was a package containing \$2,000 in currency consigned to the Belen bank from the First National bank in this city, was cut open while lying on the station platform and the valuable package was stolen. The officers were entirely at sea. Finally the robbery was almost forgotten, but the arrest of a suspect has again started people to talking about it and all are in hopes that Williams has succeeded in getting the ring leader.

If other captures made by Williams have anything to do with this case, it is a pretty well known fact that the Santa Fe detective has the right man.

NOTICE OF PUBLICATION. Notice is hereby given that on April 18, 1905, the secretary of the interior restored to settlement the public lands in the following described townships which were temporarily withdrawn pending the procurement of an executive order by the secretary of war, permanently reserving them for military purposes, and that the said public lands so restored to settlement on April 18, 1905, will become subject to entry filing selection at the United States land office at Santa Fe, New Mexico, on August 21, 1905, viz: Townships 9, 10 and 11 North, Ranges 3 and 4 East, N. M. Mer.

E. A. HITCHCOCK, Secretary. Approved May 8, 1905.

NOTICE OF SUIT. Notice is hereby given to Francis M. Walker, defendant, that a suit has been begun against him by Jose G. Walker, plaintiff, in the district court of Bernalillo county, territory of New Mexico, to obtain a dissolution of the bonds of matrimony existing between said parties; that unless said defendant appears in said cause on or before the 25th day of August, judgment will be rendered in said cause against him by default, and that the plaintiff's attorney is Frank W. Clancy, whose postoffice address is Albuquerque, N. M.

W. E. DAME, Clerk of said District Court.

NOTICE OF FORFEITURE. Territory of New Mexico, County of Bernalillo, May 8, 1905.

To Jose G. Walker and August Weidman, their heirs and assigns. You, and each of you, are hereby notified, that, if, the following improvements, upon each of the following mining claims, to-wit: The "Lustana" mine, situate in the Bernalillo county, territory of New Mexico, and the "Lustana" mine, situate in the Las Alamos county, territory of New Mexico, total of not less than two hundred dollars, in order to hold said mining claims and premises under the provisions of section 2324, revised statutes of the United States, being the amount required to hold the said claims, you fail to so refund or contribute your proportion of such expenditure as a co-owner, your interest in said mining claims will become the property of the subscriber hereto, under the provisions of said section 2324, revised statutes.

First publication May 17, 1905. J. B. VITO, Co-owner.

TEXAS WANTS ARIZONA BRONCOS. D. I. Gallagher, the Fort Worth horse buyer will return to Tucson next week and buy up another bunch of Arizona horses. Gallagher is the best known horse buyer in the territory, but has shipped about five thousand horses out of Arizona into Texas. Recently he sent nine carloads to the Fort Worth market.

## PLENTY TO EAT

But no appetite, well describes the condition of thousands of persons. Their stomachs have "gone back on them" but it only requires a fair trial of the famous

HOSTETTER'S STOMACH BITTERS

to restore this important organ to its wonted vigor. Then why not start today? For over 50 years it has been curing indigestion, Dyspepsia, Constipation, Bilelessness, Poor Appetite, Stomach and Diarrhoea. Try it and see.

REPUTATION OF GRAND DUKES

In Empire of Russia About as Low as Possible

BUT BORIS IS THE WORST OF ALL

Paris, July 31.—Throughout the czar's domain, "grand duke" and "princess" have long been synonymous terms. To tell a Russian that he is "no better than a grand duke," is the greatest possible reproach against his moral character.

Perhaps the most notorious and profligate of all the Russian grand dukes is the Grand Duke Boris, who shocked Newport society by the occasion of his visit there a couple of years ago, and whose name was recalled from the army in Manchuria on account of his notorious escapades. The evil reputation of Grand Duke Boris has not been lessened by the terribly tragic death of Mile Anastasia Masouroff, the youngest daughter of a well known lawyer, and acknowledged to be the most beautiful girl in Russia.

Despite the rigorous measures taken by the Russian authorities to prevent the matter becoming public, the particulars of the sad affair have just appeared in several of the Paris newspapers.

For some months past, so the story goes, Mile Masouroff caused her friends great anxiety by her peculiar fits of melancholy and nervous depression. For weeks at a time she remained in the house, steadfastly refusing the doctors of medicine, and received to dances and parties. A week ago, however, her parents prevailed upon her to accompany them to a garden party given by the governor of the city. Here she displayed unaccounted animation, and throughout the afternoon was the center of a large crowd of admirers.

Returning home, Mile Masouroff retired at once to her bed room, but on the morning following, her maid was unable to obtain a reply when she knocked at the door of her mistress.

Looking through the door, M. Masouroff found his daughter's room. There he found the young girl, clad in a blue peignoir, lying back in her chair before a looking glass. There was a bullet hole in her temple and a toy revolver lay by her side. Stuck in the state of frenzy, M. Masouroff broke into his daughter's room. There he found the young girl, clad in a blue peignoir, lying back in her chair before a looking glass. There was a bullet hole in her temple and a toy revolver lay by her side. Stuck in the state of frenzy, M. Masouroff broke into his daughter's room.

What the letter contained has not been translated, but grand dual influence has been thrown on N. M. Masouroff, who, with his family, has left Kazan.

CONFIDENCE MAN IS HELD TO GRAND JURY

CROOK WHO ROBBED UNSUBSPECTING INDIAN BOY, PROBABLY DOOMED TO THE PENITENTIARY.

Math Herman, the confidence man charged with robbing Joseph Manuel, the Indian boy, the particulars of whose case were given in the Evening Herald. It is alleged that he is a liminary hearing.

He waived examination and was held to await the action of the grand jury, in the sum of \$500 bond. He failed to furnish the bond, and as a consequence is languishing in the county jail.

Herman is originally from Newport, Ky., where it is said he bears a bad reputation. It is alleged that he is an old criminal and has been in trouble before. His looks seem to corroborate these stories, as he has a mean face and looks the part of a hardened criminal.

Manuel left yesterday for his home at Gila Crossing, Ariz. Before he left he stated that he would be on hand at the trial and appear against Herman, the confidence man who robbed him. The Santa Fe police captain, however, and brought him to the city, also left yesterday for Flagstaff.

Attorney E. W. Dohson, local counsel for the Santa Fe, will conduct the prosecution. It is said that the evidence against the prisoner is conclusive, and that there is little question of his guilt.

NEW MINING COMPANY TO DEVELOP MINES.

James K. McCarthy arrived in Phoenix from Prescott on his way to Pinal county, where he has been interested for the last ten years in the Brooklyn group. He has lately organized a company for the operation of the property. The members of the company are Mr. McCarthy, manager; Daniel C. Stevens, president; Curtis G. Powell, vice president; John G. Keating, secretary; James E. O'Connor, F. A. Jones, W. S. Goldworthy, and Robert E. Morrison. The capital stock is \$250,000. The Brooklyn group is not the property which for a long time has been in litigation between Mr. McCarthy and his partner, Mrs. Kinney, of Globe, but is another property developed by himself. A party of Chicago capitalists have a bond on the Bryan group, which has been in litigation. It lately expired but has been extended for another month.

Russell Sage Near Ninety. New York, Aug. 1.—Despite the fact that his physicians advised against his going to his summer home at Lawrence Beach, N. Y., Russell Sage today moved into his cottage on Lawrence Beach. He plans to stay there for a month. Because he insisted on coming to Manhattan and returning nightly, physicians told him that he would have to remain in the city if he cared to live. The venerable financier will enter upon his ninetieth year next Friday.

## PROCLAMATION FOR GOOD ROADS CONVENTION

WILL MEET IN LAS VEGAS—GOV. ERNOR OTERO APPOINTS LIST OF DELEGATES.

The good roads convention, to be held in Las Vegas in connection with the first annual northern New Mexico fair, on September 26 and 27, has attracted much interest throughout the territory and elsewhere, and there is little doubt that the cause of better highways in New Mexico will be greatly advanced by the meeting. Governor Otero, who has been asked to open the convention, has issued the following official proclamation, designating the delegates who will represent the various counties at the good roads meet:

"Whereas, The question of good roads building is now receiving official and general consideration and discussion throughout the various states of the Union, and

"Whereas, The territory of New Mexico, through its legislative assembly, has identified itself by various enactments providing for the construction of roads, notably the Boulder highway from Santa Fe to Las Vegas, the crossing the Pecos forest reserve; the Camino Real, from the northern boundary of the territory of New Mexico to its southern boundary, near the place known as Anthony, on the Texas border; and

"Whereas, The territory of New Mexico has been the first in successfully employing prison labor in the construction of public roads; and

"Whereas, The people of the territory of New Mexico, of all classes, are interested in good roads building, thereby aiding in the growth of cities and towns as well as in rendering accessible all communities adjacent thereto; and

"Whereas, Several commercial bodies have petitioned the governor of New Mexico to call a good roads convention for the further consideration of road construction in New Mexico;

"Now, Therefore, I, Miguel A. Otero, governor of the territory of New Mexico, in compliance with this general request, do hereby appoint fifty delegates at large from the territory of New Mexico, as follows: R. E. Twitchell, chairman, Las Vegas; F. H. Pierce, J. B. Clark, Las Vegas; H. O. Bursum, Arthur Seligman, Charles Clowson, N. Salmon, Frank Owen, D. M. White, Santa Fe; C. M. Hayes, J. Van Hook, Charles Springer, A. L. Hobbs, M. B. Stockton, Hinton; J. L. Kendall, Cortright; Alfred Graustad, Frank McKee, Geo. L. Brooks, Albuquerque; R. P. Evelyn, C. Otto, Clarion; Tito Melendez, Juan Navarro, Mora; J. F. Hinkle, H. J. Hagerman, Roswell; H. B. Dornan, Oscar Snow, H. B. Holt, Las Cruces; F. O. Tracey, L. O. Fulleo, Carlsbad; W. D. Murray, Central; Henry Lutz, Lincoln; J. A. Hollis, M.

D. Watrous; Gregory Page, Alexander Bowie; Gallup; J. G. Aguilar, Wagner Mound; V. Jaramillo, E. Rito, B. C. Hernandez, Tierra Amarilla; V. C. Hunt, Texico; E. A. Miera, Cuba; Max Kohler, Hillsboro; T. P. Martin, Taos; Solomon Luna, Las Lunas; John Becker, Belen; C. T. Brown, W. B. Martin, El Paso; B. A. Scorsio; W. B. Walton, Silver City; J. A. Mahoney, Deming; Frank Bond, Espanola; H. S. Abbott, Springer, to attend a good roads convention to be held in the city of Las Vegas September 26 and 27, and that said convention may have representation from each city, town and country in the territory. It is suggested that the mayor of each incorporated city and town appoint twenty delegates to attend said convention, and that the chairman of the board of county commissioners of each county appoint twenty delegates to said convention to represent the county therein.

I would recommend that the delegates from cities, towns and counties be appointed at the earliest possible date, and that where any delegate appointed is unable to attend the convention, that he send his proxy, or some one who will act for him in order that there may be a full expression of opinion, and full consideration of the great questions that will be presented to the convention, and that each community in the territory may have full representation.

"Done at the executive office, this 28th day of July, A. D. 1905.

"Witness my hand and the great seal of the territory of New Mexico, MIGUEL A. OTERO."

By the Governor: W. W. RAYMONDS, Secretary of New Mexico.

To Reclaim Wet Lands. Crookston, Minn., Aug. 1.—The Minnesota Drainage board begins its first annual meeting here today, with large and representative attendance. The meeting will perfect its organization and discuss the best methods of draining the hundreds of thousands of acres of swamp lands in the northern section of Minnesota.

Miss Helen Gibson returned last night from a few weeks' visit at the Grand Canyon.

DRINK LEADS A LAWYER TO DEATH

Despondent because of his love for strong drink, "Colonel" Philip McHenry, said to have been private secretary to former Vice President Garrett V. Hobart, fatally injured himself at Quartzsite, Arizona, Sunday by firing a bullet from a 32-caliber revolver into his brain.

The deed was committed in the house in the early afternoon, but not until 11 o'clock Wednesday night was he found unconscious. He died at Quartzsite Saturday night, having gone there a few days ago as attorney for the Amalgamated Gold Mines company, and was drinking heavily just prior to his suicidal act.

The mother of the deceased has protested in Merced hospital in Prescott. Little is known about McHenry. While in Prescott a few days he made few acquaintances.

THE ROMANCE OF BROTHERS WITH IDENTICAL NAMES.

The result of the similarity in name, appearance and actions and tastes of two young Mexicans residing near Phoenix, is that they have married young brides who are sisters. The men are brothers, being the sons of Antonio Martinez. The father liked his own name so well that he named both his sons Antonio, and to distinguish them they are called Antonio Martinez No. 1, and Antonio Martinez No. 2.

On coming to manhood's estate, they naturally entertained thoughts of love, but could not marry the same girl. They did the next thing to it and the probate court recently issued licenses to Martinez No. 1 and Petra Rodriguez, and to Antonio Martinez No. 2 and Candelaria Rodriguez.

FELL FROM HORSE AND BROKE ANKLE.

J. H. Castledine, of Alamogordo, fell from his horse today and broke the bone in his right ankle. Mr. Castledine was in the act of mounting his horse when the animal took fright and jumped from under him, causing him to fall on the right foot

# THE GREAT UTAH RESERVATION OPENING

What it is—How to Get There—How to Get Claims.  
An Interesting Article to Home-  
steaders.

More than 1,000,000 acres of the Utah reservation in northeastern Utah are to be subject to the location of the white man on and after August 28. By proclamation of the president, under authority of congress, registration for the right to locate is to be determined by lot, with the Utah and Provo, and Grand Junction, Colo., on August 1, and continue until 6 o'clock p. m. August 12. Every native born or naturalized American over the age of 21 years, who has not availed himself of the homestead right to take up 160 acres of the national domain, and is not now the owner of 160 acres of land, now has a chance to do so, and every woman of the same age, who is the head of a family or unmarried, has the same privilege.

The reservation now to be opened comprises 2,425,000 acres, walled in on three sides by the Utah and Provo, and Grand Junction, Colo., on the eastern slope to the Green river, whose tributaries drain it. Of the area, 1,010,000 acres have been placed in a permanent forest reserve which guards only the timber and does not stop the mine hunters; 25,000 have been reserved for the Indians to graze their herds on; 3,840 acres taken for the Fort Duchesne military reservation; 112,000 have been allotted to the Indians in severalty, and this leaves open to the settlement of the white 1,069,000 acres. Of this latter, three-fourths is practically valueless but the other fourth is to be ranked as highly desirable valley lands, susceptible of irrigation and of making farms that in a few years will rank with the highest priced lands of the western irrigated world.

In point of fertility there is no finer land in the country. It will produce anything. Fruits, such as plums, peaches, apples, pears and cherries will yield enormous crops, just as they do in the valley of the Salt Lake and in those of the Grand and Gunnison in Colorado. The climate and farming conditions are the same. Alfalfa will yield on a par with the crops in other irrigated sections of Colorado and Utah.

Of the 50,000 who, it can safely be said, will enter the drawing, fully 45,000 will, therefore, come from western states. The nearest to the points of registration will encourage Denver and Salt Lake people to register, whatever their occupation is. It is a report that one mining company interested in glaucite mining, has a standing offer of \$60,000 for the first right drawn, in order that it may locate a valuable tract that will come down to location at the drawing. This company did not share in the benefit of the lobby when it was giving away millions to two other mining companies, and so has to buy its ground. This will be considered the grand prize of the lottery, and a cash sale in this way would obviate the location of the winner upon the ground by the lucky winner of the first chance. There are known to be other extremely rich prizes aside from the fact that any tract secured will be worth considerable money at the end of a few years, and entail in the meantime only some minor privations.

There will be a great rush, a greater one, from indications, than any of the Oklahoma openings fresh to public mind. The lands are worth three to one over even the splendid farms of the Oklahoma reservations. Already the vanguard has begun to arrive at the centers of entry. A new land office was established two weeks ago at Vernal, Utah, and there the people are going in a straggling string from all points of the compass and by all manner of conveyances.

It is here at Vernal that the final entries upon the reservation lands may be made. Registration for the allotment or drawing, may be made at Provo and Provo, also in Utah, and in Grand Junction, in Colorado, but after the registered one has been awarded his number or right to locate in rotation, he must journey to the United States land office at Vernal, and make his homestead entry there, the same as in any other case in filing upon government land. He is given time to hunt out the piece of land he wishes to locate and this, if wise, he will do only after a personal journey over the territory and selecting his tract.

Entries in the rotation determined by drawings, beginning at Provo, Utah, on August 17, can be made for sixty days after the drawing, and this time will permit everybody who secures the right to file, time to look up his location. Some of the early numbers, possibly the first 50 or 100, even the first 200, will find ready buyers for their rights for cash at prices of hundreds and even thousands, for there are not a few, particularly of the Mormon church and the mining companies, who have their eyes upon tracts that they are willing to pay well for the right to select over the choice of another settler. The Denver & Rio Grande railroad, the available route into the registration points and the edge of the reservation, will solve the problem of journey to within a short distance, and a new railroad, built by the non-favored but only attractive glaucite mining company of the section, will carry passengers to within sixty-two miles of the land office.

The regulation fee for filing a homestead is \$16, but in the case of this land this fee is only payable when the actual entry of land is made. The payment of this fee gives the settler a right of first claimant to the entered 160 acres of land. He is presumed by the law to be making his home upon the land and doing what he can toward farming and utilizing it. After five years of residence, he is, on showing good faith in making use of it, permitted to complete his title by paying the government \$13.25 an acre, or \$200 for the 160 acres of his tract. Under good farming work on land at that time will have a value of around \$50 an acre, and there will be few settlers who have

the finest display of fruit. Colonel Sellers further adds that he knows of no country that stands in the same class with San Juan in the matter of fine fruit, and the only expense connected with the matter will be for an attendant to accompany the exhibit. If we win first prize we are out nothing but our energy. Albuquerque expects to send visitors during the fair, and it will take a long time to reach that number of strangers with the kind of display that can be made from this valley. Nothing counts as strongly with the average man or woman as those things which they can see. A fine fruit display and descriptive literature from San Juan and an intelligent person to distribute and show the same will bring results to a county soon to be freed from isolation by the new railroad. We have a county to be proud of, and we are not afraid to show what it will raise, to 50,000 strangers, if we will prove to the homesteaders, if he will come to see us that we have the identical spot for which he is looking.

## FIRST CLASS CIVIL SERVICE SITUATIONS

The United States civil service commission announces an examination on August 16, 1905, to secure eligibles from which to make certification to fill a vacancy in the position of assistant engineer, qualified as electrician, with a knowledge of refrigeration, in the United States penitentiary at Atlanta, Ga., at \$900 per annum, and vacancies as they may occur in any branch of the service requiring similar qualifications.

The United States civil service commission announces an examination on August 16, 1905, to secure eligibles from which to make certification to fill a vacancy in the position of assistant engineer, qualified as electrician, with a knowledge of refrigeration, in the United States penitentiary at Atlanta, Ga., at \$900 per annum, and vacancies as they may occur in any branch of the service requiring similar qualifications.

Notice of the drawings, stating the name of each applicant and number assigned to him by the drawing, will be posted each day at the place of drawings, and each applicant will be notified of his number and the day upon which he must make his entry, by a postal card mailed to him at the address given by him at the time of registration.

Commencing on Monday, August 28, 1905, at 9 o'clock a. m., the applications of those drawings, numbers 1 to 50, inclusive, must be presented at the land office in the town of Vernal, Utah, in the land district in which said lands are situated, and will be considered in their numerical order, during the second day and so on at that rate until all of said lands subject to entry under the homestead law, and desired thereunder, have been entered. If any applicant fails to appear and present his application for entry, when the number assigned to him by the drawing is reached, his right to enter will be forfeited, and after the other applications assigned for that day have been disposed of, when he will be given another opportunity to make entry, failing in which he will be deemed to have abandoned his right to make entry under such drawing.

WORK.  
So much to do in this wide world,  
So many crowns that wait,  
Who labor long and late!  
So short the day,  
So swift the sun,  
So much to do,  
So little done.

If days were long as mortal aim,  
If hearts were strong as bear—  
But night comes on and strength is gone,  
The task unfinished there.  
So short the day,  
So swift the sun,  
So much to do,  
So little done!

—Newark Evening News.

## PERSISTENT ADVERTISING WILL SURELY PAY

SAN JUAN COUNTY ASKS TO COME TO THE FAIR.

In an article, right to the point, the San Juan County Index, published at Alamosa, Ariz., has said about the New Mexico territorial fair.

The problem of advertising a private business enterprise is similar to pushing an unknown section of country into the notice of outsiders. Consistent, persistent, judicious advertising will work the same results in both cases. An unusually excellent opportunity has arisen which will make San Juan county more widely known, if taken hold of in a proper spirit and pushed ahead. This fall, during the third week in September, a territorial fair will be held at Albuquerque. The secretary, Colonel Sellers, has written A. M. Kinley of the San Juan County Fruit and Produce association, that one of the largest and best locations in the exhibition building will be reserved for this county if an exhibit of fruit is sent. All transportation charges will be paid, and in addition, the fair management offers a prize of \$150 for the best display of fruit.

# TERRITORIAL TOPICS

When you find it necessary to use Chamberlain's Cough Remedy, it is the surest and best for Croup, Whooping Cough, Sore Throat, Hoarseness, Asthma, Bronchitis, and all other lung troubles. It is the best remedy for all these ailments, and it is the only one that is safe for children. It is the only one that is safe for the elderly. It is the only one that is safe for the weak. It is the only one that is safe for the sick. It is the only one that is safe for the dying. It is the only one that is safe for the living. It is the only one that is safe for the whole world.

## DIARRHOEA REMEDY.

This is a well known remedy for all cases of Diarrhoea, Cholera, and all other ailments of the bowels. It is the best remedy for all these ailments, and it is the only one that is safe for children. It is the only one that is safe for the elderly. It is the only one that is safe for the weak. It is the only one that is safe for the sick. It is the only one that is safe for the dying. It is the only one that is safe for the living. It is the only one that is safe for the whole world.

For Over Sixty Years. An old and well tried remedy, Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children with teething, with perfect success. It is the best remedy for all these ailments, and it is the only one that is safe for children. It is the only one that is safe for the elderly. It is the only one that is safe for the weak. It is the only one that is safe for the sick. It is the only one that is safe for the dying. It is the only one that is safe for the living. It is the only one that is safe for the whole world.

They Appeal to Our Sympathies. The millions of dyspeptic and constipated people who are suffering from these ailments, and who are unable to get relief from any other remedy, will find relief in Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the best remedy for all these ailments, and it is the only one that is safe for children. It is the only one that is safe for the elderly. It is the only one that is safe for the weak. It is the only one that is safe for the sick. It is the only one that is safe for the dying. It is the only one that is safe for the living. It is the only one that is safe for the whole world.

NEW MEXICO WEATHER REPORT. Santa Fe, N. M., July 31.—Light showers were general throughout the territory during the last week, and heavy rains occurred in many southern localities, causing considerable flood damage in the southern counties and the lower Provo valley. Several bridges were washed out, and railroad and general travel interrupted. Generally, however, the streams of the territory are very low, especially the Rio Grande. The temperature of the week averaged about 2 degrees daily below normal, considerable cloudiness prevailing.

## WANT ADS PAY IN EVENING CITIZEN

The following letter from Holbrook, Ariz., to the Southwestern Employment Agency in this city demonstrates that want ads in the Evening Citizen attract attention not only in New Mexico, but in Arizona as well:

Holbrook, Ariz., July 29, 1905. Southwestern Employment Agency, Albuquerque, N. M. Gentlemen:—Reading your adv. in the Evening Citizen, I am writing to see if you will get me a place in a nice home or family to work. I can cook real well and I do most any kind of house work that is not too heavy. Hoping you can find me a place and state terms.

Yours respectfully,  
Name omitted by request. Can be had at office.

GATEWOOD CITED FOR WORDS SAID IN COURT. A sensational climax to the remarks of W. W. Gatewood, leading counsel for the defense, to United States Commissioner Carl A. Snyder, during the hearing of the Tallmadge land cases, came last Saturday, when Mr. Gatewood was ordered by Judge William H. Pope to appear before the federal court on the first day of the term and show reasons why he should not be punished for using violent and profane language toward and in the presence of Commissioner Snyder, during the hearing of the case.

At the time the commissioner demanded an apology, and Gatewood flatly refused to make an apology, and then the commissioner threatened him with prosecution.

THE GREATEST PLAY KING LARRY EVER SAW. "The greatest play I ever saw on the diamond," mused Lajoie, "was made by Charlie Jones, center fielder by National, the team that Jake Stahl started out to clean up the American league with this year."

## DIAMOND DUST

The matter of an umpire to officiate at the ball games during the fair tournament is now being agitated. The suggestion has been made, and it is a good one, that D. N. Combs, who has been umpiring the games at Traction park the past two months, be chosen as the official umpire. Combs is a veteran in the business and has officiated in the Western league and the Missouri Valley league. While he has been umpiring in this city he has given universal satisfaction. His followers the plays closely and his decisions are always fair. It is hoped that those who have the matter in charge will go slow and give the Albuquerque man a fair show.

The Browns will leave the latter part of next week for their southern trip. They will play nine games while away and the indications are that the team will make a good showing, although a clean sweep can hardly be expected. Three games will be played at El Paso, three at Clifton, Arizona, with Clifton, and three with Morehead, at Clifton.

Manager Houston has so far received assurances that Santa Fe, Las Vegas and El Paso will send teams to the fair tournament, and it is very probable that Clifton and Morehead, Arizona, will be represented. The real scrap is expected to be between Albuquerque and Las Vegas.

It is very much regretted that Second Baseman Kuns will be unable to make the southern trip with the Browns. Kuns has been playing great ball this year and he will be sorely missed. However, Randall will be transferred to the position, as Helweg will be back in the game by then, and he will go to his old position at short.

## ARTESIAN WELL OWNERS PROTESTING AGAINST TAX

About twenty owners of artesian wells met Saturday afternoon at the court house, Roswell, to make arrangements to protest against paying the special tax of \$5 on these wells.

Mr. and Mrs. O. A. Matson have returned to the city from their outing on the upper Rio Pecos.

Miss Margaret Dunn, a pretty young lady from Galesburg, Ill., is here as the guest of Miss Marie Benjamin.

Mr. and Mrs. H. B. Henning will leave tomorrow evening for southern California. They will be absent during the month of August.

David Weinmann, of the Economist, and wife are east, enjoying themselves visiting friends and doing shopping for the local store.

Manager and Mrs. W. H. Cheatham, of the Alvarado, are popular folks who returned during the week from Kansas City and Chicago.

Simon Stern, the Railroad avenue clothier, is east on a business trip, during which he will purchase his fall and winter stock of men's furnishings.

## HERBERT CHIPPEN MAKING NEW FASTING RECORD

Saturday at Alamogordo Elder Herbert Chippen completed the 29th day in which he has gone without food, living entirely upon water. This act is the result of his idea about how the system should be cleansed of impurities. He says he intends to eat when he gets hungry but that so far that time has not arrived.

Croup instantly relieved. Dr. Thom's Electric Oil. Perfectly safe. Never fails. At any drug store.

JERRY SIMPSON REPORTED NO BETTER. A Roswell dispatch, under date of July 28, says: Jerry Simpson passed a very bad day, but is feeling quiet tonight.

He has received many letters from prominent men in different sections of the country, wishing for his speedy recovery.

## A KANSAS FUGITIVE CAPTURED NEAR JARILLA

W. L. Smith, alias Hudson, was captured by Mounted Policemen W. E. Dudley, on Route 1, near Jarilla, near Jarilla, a mining camp in Kearney county. Smith is a fugitive from justice and is wanted at Clearwater, Kansas, for rape.

Becoma, scald head, hives, itchininess of the skin of an sort. Instantly relieved, permanently cured. Doan's Ointment. At any drug store.

## TOMBSTONE WILL HAVE A HANGING AUGUST 11.

Preparations are shortly to be made by Sheriff Hunt for the execution of E. Bredis, known as "Chappo," which is a nickname for "shorty." The execution will take place in the jail yard, on August 11th. "Chappo" is still hopeful of a reprieve from Governor Kibbey or President Roosevelt, and continually asserts his innocence, and claims to have been asleep in his bed when the killing of Wright occurred; however, if he be hung, he will die bravely. The doomed man, who is about 19 years of age, is visited frequently at the jail by two of his sisters, who are deeply affected by the knowledge of pending death, and the suspense of awaiting official clemency.

The jail officials state that "Chappo" has not given them the slightest trouble, and wears his leg irons with a murmur.

Of the three Mexicans charged with the murder of Wright, Bredis was sentenced to be hanged. Bredis received life sentence and E. Figueroa two years in the penitentiary.

## A LICENSE TO WED WAS GRANTED YESTERDAY TO ARTHUR MCLENDRE, OF ALBUQUERQUE, AND MISS MINNIE WESTON, OF BUTTE, N. Y.

Mr. and Mrs. D. A. Macpherson have

Ben Dignee and Frank Silva, two young men of this city, who took in the recesses of southern California the past few weeks, returned to the city on No. 2 passenger train tonight. The boys report having had a fine time, and give out the news that all Albuquerqueans, whom they met, are prospering in the "land of flowers."

Mr. Dignee will resume his position in the composing room of The Citizen Monday morning.

Thomas Gordon and wife, of the United States Indian school at Kaibab, Canyon, Ariz., spent yesterday in the city. They were away from a month's vacation, spent visiting relatives at Cheyenne, Wyo. During their stay here they were pleasantly entertained by Superintendent James K. Allen and others at the local Indian school.

## L. W. LEBARON, WHO HAS BEEN CONNECTED WITH THE ALBUQUERQUE GAS COMPANY, HAS RESIGNED HIS POSITION, AND WILL LEAVE MONDAY FOR GRAND JUNCTION, COLO., WHERE HE WILL SUPERINTEND THE INSTALLING OF A NEW GAS PLANT.

Mr. LeBaron has made many friends during his residence in this city, who will wish him success in his new undertaking. His position here is taken by E. H. Johnson, of this city.

This afternoon at Las Vegas occurred the marriage of D. W. Morgan, of this city, and Miss Elsie Marking, a young lady from Iowa. Mr. Morgan is the well known engineer at the plant of the Albuquerque Gas, Electric Light & Power company in this city. The bride is a popular social favorite in her home town and has been residing at Las Vegas recently. They will return to the city tonight and immediately go to housekeeping.

Mr. and Mrs. Jack Scates, with the baby, will leave tonight for Los Angeles, where Mr. Scates will be connected with the Los Angeles branch of the Armour Packing company. This is a promotion for Mr. Scates, he being connected with the Albuquerque branch of the company for the past four and half years. His position here will be filled in the future by J. G. Sutherland.

Ed S. Perkins, editor of the News-Herald of Martinez, Ariz., spent a few hours in the city last night. Mr. Perkins was on his way home from a trip to Williamsburg, Ky., where he went to remove his family to their new home in Arizona.

Mr. and Mrs. D. A. Macpherson have

# Albuquerque Weekly Citizen

Subscription Rates:  
Weekly Citizen, per year .....\$2.00  
Daily Citizen, per year .....\$6.00

## FACTS TERSELY STATED

THE CITIZEN HAS ESTABLISHED ON THE AUTHORITY OF COLONEL JASTRO, A PRACTICAL EXPERT, THAT AN ADEQUATE AND UP TO DATE WATER PLANT CAN BE INSTALLED IN ALBUQUERQUE FOR APPROXIMATELY \$75,000. THE MORNING JOURNAL DOES NOT DARE TO IMPEGN THE COMPETENCY AND CORRECTNESS OF THE CITIZEN'S WITNESS.

THE CITIZEN HAS ESTABLISHED ON THE TESTIMONY OF MR. HERMAN BLUMBERG, A WATER PRODUCER OF MANY YEARS' EXPERIENCE, THAT FOR 100 YEARS TO COME, WATER CAN BE SUPPLIED TO ALBUQUERQUE AT NOT TO EXCEED 5 CENTS PER THOUSAND GALLONS. THE WATER JOURNAL DOES NOT LIKE THE FACT BUT IT CANNOT DISCREDIT THE TESTIMONY.

THE WATER SUPPLY COMPANY IS CHARGING ALBUQUERQUE CONSUMERS 30 AND 35 CENTS PER THOUSAND GALLONS, OR MORE THAN TWICE WHAT DENVER AND COLORADO SPRINGS CHARGE, AND MORE THAN IS CHARGED BY ANY OTHER TOWN IN THE SOUTHWEST. YET THE COMPANY HAD THE HARDINESS TO ASK THAT THIS CONDITION OF AFFAIRS BE PERPETUATED FOR 35 YEARS AND THE MORNING JOURNAL UNBLESSELY ADVOCATED THE EXTENSION. DOES EITHER THE WATER COMPANY OR ITS ORGAN IMAGINE FOR A MOMENT THAT THE PEOPLE OF THIS CITY WILL THUS MORTGAGE TO THEM THE FUTURE YEARS OF ALBUQUERQUE'S GROWTH, OR CONSENT TO THE CONTINUANCE OF THE PRESENT OUTRAGEOUS EXACTION?

IN ALL THESE THINGS THE CITIZEN WAS LOOKING ONLY AFTER THE INTERESTS OF THE PEOPLE; THE MORNING JOURNAL WAS SEEKING CONSTANTLY TO AVOID THE PLAIN ISSUES, MISLEAD THE PEOPLE, AND TO LABOR ONLY FOR THE INTEREST OF THE WATER SUPPLY COMPANY.

## EDUCATION AND MATRIMONY?

Mary Yellow Calf very much resembles her white squaw, is suing for divorce because, as she alleges, her husband, Charlie Smallman, wants her to wear corsets and high-heeled shoes and she won't do it.

Mary Yellow Calf very much resembles her white sister—"when she wills she wills, and when she won't she won't."

Mary was educated at Carlisle, as was her husband, and she has had the advantage of two points of view—that of the white as well as the bronze race. Her Indian instincts protest against the corset and the stilted moosehide of civilization and her educated judgment also condemns them.

But Charlie Smallman's education gives him a different angle of vision. His Indian instincts have given way to the white man's tastes. He wants his wife to imitate the dress of the white woman.

Much light is thrown upon the contention by members of the Crow tribe who say that Charlie Smallman preserves his Indian belief that women should do all the work and that Charlie earns no money. Also that if he wants his wife to wear civilized accessories he should provide the wherewithal. Others of the tribe insist that Mary should obey her husband, work for the money and buy the things.

Mary Yellow Calf herself insists that if Charlie Smallman wants to follow the white man's ways he should take up the white man's burden.

Charlie Smallman looks only to externals. He is a superficial philosopher. Corsets and high-heeled shoes are not indices of civilization.

Moreover, Charlie is very like some white men who laugh at women's vanity, but demand that their wives shall be clothed in up to date apparel.

Also he is very like some white men who require that their wives shall be diligent to earn the perquisites of civilization for two.

## CITY BONDS FOR WATERWORKS.

The Citizen gathers from reading the Roswell, N. M., papers that the authorities in that growing Pecos city are divided on the question as to whether the city has the right to issue bonds, in a sufficient sum to establish and own their own water works.

The Citizen desires to assure them that there is no limit upon the city's authority to issue bonds for water works purposes, regardless of what the outstanding indebtedness of the city may already be.

In 1898, when H. B. Ferguson was delegate from New Mexico, the Fifty-fifth congress passed an Amendment to the Springer bill, in the following words:

"That the act of congress approved July 13, 1886, entitled 'An act to prohibit the passage of local or special laws in the territories of the United States, to limit territorial indebtedness, and for other purposes,' is hereby amended, so as to permit authorized and legalise the issuance of bonds by chartered municipal corporations having a bona fide population of not less than 1,000 persons, as shown by the last school census taken before any election to be held under the provisions of this act, in any territory of the United States, for sanitary and health purposes, the construction of sewers, and the improvement of streets. The limitations of said act of July 13, 1886, shall not apply to such municipal corporations' etc.

This act was approved March 4, 1899, and under it all chartered towns in the territories are not restricted from issuing bonds for the purposes mentioned, regardless of what their existing indebtedness may be.

In speaking of the called session of congress in November, the Globe-Democrat says: "But no one will suppose that the railway issue will be entirely neglected in the message to the extra session. The president, like the rest of the country, has discovered that the railway issue is vast. A system which has \$16,000,000,000 of assets, the 215,000 miles of American railway have, which has 1,500,000 persons on its pay roll, and which has an annual income of \$2,000,000,000, touches the 45,000,000 people of the United States at many points and touches them vitally. An injury to the railways as a whole would instantly react on the people. Neither the president nor any other good citizen wants to inflict harm on the railway system. All that he aims to do is to check some of the abuses which have crept into railway management, and he, and the country in general, thinks he can do that without hampering the railways' legitimate activities or diminishing their income, while at the same time he will help the public."

The Kansas City Times recently said: "Through the medium of more or less celebrated criminal trials of recent periods considerable attention has been attracted to the subject of 'expert evidence.' Very little of this attention could be called flattering. It has nearly all been centered on the abuses of the system, or, at best, on its ludicrous phases. Experts in handwriting or in physical diagnoses are as widely varied in their opinions as are ordinary witnesses about the unscientific facts involved. It is a remarkable case indeed where, if experts are employed at all, there is not an equal array of talent on both sides of a proposition."

It is not difficult to find an opinion to suit the prejudices or the sympathies of the public today, with reference to the final outcome of the war in the far east, says an exchange. Diplomats are quoted—namely, however—as of the belief that the newest alliance to come will be between Japan and Russia, while there are other diplomats usually distinguished and equally nameless, who hold to the opinion that Japan would reject an alliance with Russia, but would be altogether willing to seek an alliance with China for the purpose of developing the far east under far eastern people. In making up a

private opinion from out of the multiplicity of diplomatic opinions, it is always well to bear in mind the frankly expressed statement of Baron Hayashi that the Japanese are not angels.

The water question remains in about the same condition. The Water Supply company's doing business at the same old stand, charging 35 cents per thousand gallons for water, which with an up to date plant could be developed and sold at a profit for 5 to 10 cents per thousand gallons. The Water Supply company has most solemnly protested that even when charging 35 cents per thousand gallons, they could not possibly carry on the business unless they should be granted a continuance of such terms to the year 1940. There can be but one explanation of this state of case. It can only be that the company's plant is old, inefficient and expensive to operate.

## WATER WORKS ANSWERED.

The water organ it still yelling for "facts, figures and estimates," upon which The Citizen made its statement that an up to date water plant could be installed in Albuquerque for approximately \$75,000. This paper gave its authority for the statement when it was published the first time, and has given it a number of times since.

The statement was not made upon figures and estimates. The Citizen or any one connected with it is not an expert water engineer, neither has this paper belonged to people engaged for eleven years in selling five cent water to Albuquerque consumers for thirty and thirty-five cents, nor has it asked that such an outrageous burden should for the benefit of its owners be fastened upon the city for thirty-five years to come. The Citizen has no practical acquaintance with water matters, except the paying of its monthly bills.

Hence, The Citizen's statement was not based on "figures and estimates." In fact it was not The Citizen's statement at all in the beginning. It appeared in an interview with Colonel Jastro, a man largely interested in Albuquerque enterprises, and who having established an up to date water plant in Bakersfield, Cal., in opposition to an out of date plant, knew what he was talking about. The practical experience of a man like Colonel Jastro's worth more than the paid for estimates of any expert.

The water organ, fighting for the interest of its owners, tries to throw doubt on The Citizen's statement by saying that as far as it knows Colonel Jastro never made the statements attributed to him. If everything the Journal doesn't know is to be considered false there would be very little truth left in the world. The editor of The Citizen himself took the interview, himself wrote it out, and subsequently submitted the manuscript to Colonel Jastro, who approved it. He was in the city when it was published, and several of his representatives have been here since. That the statements of the interview were not absolutely accurate, neither Colonel Jastro nor his representatives have claimed; but the water organ evidently would deny the law and the prophets if thereby they might secure that deferred payment to the Journal owners.

When the water organ says that The Citizen knew Colonel Jastro's statement to be false every time it published it, it certainly is going very far in its blind and stupid fight to unload the Water Supply company's worn out plant on the city.

## AS TO CHINESE EXCLUSION.

There is a good deal of misunderstanding as to the real facts of the Chinese exclusion act. There is only one reason why this country discriminates against the Chinese, says the San Francisco Chronicle. It is that so very few of a desirable class seek entrance into this country, much less desire to make the United States their permanent habitation. Almost all of them are of the coolie class, willing to work for much less than American laborers can afford to accept, sending their money home every month, and adding nothing to the growth of this country in any way.

Experienced inspectors declare that even of those who seek entrance under the limitations of the exclusion law, on the ground that they are educators, scientists or are otherwise entitled to exemption from the law, many are found, upon investigation, to be merely coolies coached for the purpose of evasion.

The class that the exclusion act keeps out is distinctly detrimental to this country. For this reason China has no good ground to retaliate against this country. Americans who go to China are not of a class corresponding to the Chinese who come to this country.

There is a very strong suspicion, to put it mildly, that most of the recent agitation against exclusion has been conceived, engineered and promoted by railway and steamship companies that covet the business that would result from the repeal of the exclusion law, and also that the boycott movement in China is a direct result of this artificial agitation. Aside from more or less evidence in the case, the theory that the railway and steamship companies are behind the agitation is entirely plausible because it harmonizes with their policies in other affairs.

But there is little danger that the bars will be put down. The reason for keeping them up are too strong. And as for the boycott, if China, as a government, really encourages this policy, the United States can go to Japan for most everything it now buys in China. And there would be a particular reason for doing this in view of our ingratitude that China might show for all that the United States has done for the preservation of its territorial and political integrity.

## THE HOME-COMING OF THE SEA KING.

One of the greatest of the sea kings from Japan to Tokyo has just had his ashes deposited on the soil of his home land. Almost as many countries had a connection, at one time and another, with Paul Jones as there were cities which claimed the honor of being Homer's birthplace. He was born in Scotland, he fought for the Americans in the war of independence, he commanded a fleet in the French navy in the war against England, again he returned to the American service, and then he held a high command in the Russian navy, after which he went to France, where he died in poverty just as the Bourbon monarchy of Louis XVI. was being replaced by the first republic. Such is the epitome of John Paul Jones as given by the Globe-Democrat.

But it was as an American that Paul Jones won the fame by which history knows him. America has been slow in honoring this earliest of her naval heroes. Washington thanked him in the most eulogistic letter the father of his country ever wrote about anybody. Congress awarded him a gold medal, though Washington vainly urged upon that body some more substantial recognition than this. He received awards, letters of thanks from Louis XVI. and the French government. But by both America and France he was forgotten in his closing days. France, in the throes of the volcano which extinguished the Bourbon regime and set up the republic, was too busy to think of the hero of the Bonne Homme Richard. America, itself poor and obscure at the time, and in danger of attack from more than one quarter in Europe, had no time to look after its exiled son in his obscurity and poverty.

## NEW WAY OF ADVERTISING.

The state of Nebraska, which has an interesting display in the palace of agriculture and horticulture at the Lewis and Clark exposition, has adopted a novel method of exploiting its resources, by means of free biograph lectures. The lectures are interesting, and the pictures are distinct and wonderfully true to life. The lecture room is filled at every performance.

The scenes are of the every day sort, and their charm is due to this fact. Different pictures are thrown on the screen at different hours of the day, and most of them show the methods of harvesting alfalfa, which now occupies 275,000 acres in Nebraska. The opening picture shows a young man standing waist high in alfalfa. Successive moving pictures show a procession of mowers cutting down the grass. Then follows a series of moving pictures which show how a phalanx of rakes gathers the hay into long windrows. The operation of stacking the alfalfa by means of a big stacking machine is pictured also.

## LOCAL NEWS

(From Saturday's Daily Citizen.)

L. A. Jud, who has just sold out his interests at the James hot springs, is here today on business.

Mr. and Mrs. Conrad Gonzales, of 615 New York avenue, are the proud people in town, and it is all because of twins, a boy and girl, born on Thursday.

Assistant Territorial Superintendent of public instruction, Amado Chavez, who arrived yesterday in the city on official business, was a passenger this morning for Santa Fe.

Dr. W. B. Easterday went to Tule yesterday to attend to a few Indian patients, in the absence of Dr. McAndrews, who is attending to professional business among the Indians of the Taos pueblo.

Friends of Mrs. Eunice Leeper, who with her two daughters, spent last winter in Albuquerque, have received news of her lady's death, which occurred a few days ago at her home in Delaware, Ohio.

Captain Gonzales, who is a big stock grower of Union county, and who stopped at the James hot springs the past few weeks, returned to the city yesterday afternoon, and will leave tonight for Union county.

Conrad Gonzales, who is the possessor of a big ranch in the Cabazon neighborhood, where he runs a big bunch of cattle came in yesterday afternoon to rejoice with Mrs. Gonzales over the arrival of twins at his home.

F. W. Spencer and V. O. Wallingford have concluded, and in the future will conduct their business together in the offices occupied by F. W. Spencer in the Barnett building. The equipment of the office has been replenished and many new features have been added.

A. Simpson, the well known shoe dealer at No. 107 (Bissett building), Second street, will move Monday into new quarters at No. 218 south Second street directly opposite the postoffice. The new quarters are small, but the stock will be "large and good," so after August 1, see Mr. Simpson at his new store.

J. J. Silva, of Bernalillo, superintendent of schools of Sandoval county, arrived in the city last night and spent the day here. Mr. Silva reports that the county teachers' institute for Sandoval county closed yesterday, after having been in session for two weeks. Twenty teachers took the examination for certificates and the institute was the most successful ever held in the county.

Samuel G. Bragg, aged 25 years, died this morning at the family home, 524 West Railroad avenue, after a lingering illness with lung trouble. The deceased came to Albuquerque five months ago from Campbellville, Ky., with his mother, Mrs. Nettie Bragg, for the benefit of his health. He was a school teacher in the Campbellville public schools and was highly respected. The remains will be shipped to Kentucky for burial by Undertaker A. Borders on No. 8 tonight, and will be accompanied by the grief-stricken mother.

Harmon Wynkoop, Jr., the five months old son of Mr. and Mrs. Harmon Wynkoop died in this city today, after a brief illness. Mrs. Wynkoop returned to Albuquerque only a few days ago from Tucson, Ariz., where she and Mr. Wynkoop have been living for some time. Owing to the distance from Tucson to this city it will be impossible for Mr. Wynkoop to reach here in time for the funeral, which will be held tomorrow morning at 9:30 o'clock from the chapel of O. W. Strong's Sons. Burial will be in Fairview cemetery.

(From Monday's Daily Citizen.) Attorney Mitchell, who went the past few weeks in southern California, has returned.

Hon. W. B. Childers left today for Denver, where he goes to attend to legal business for several days.

Clifton Hill, of the general merchandise firm of Hill & Sons, of Tulsa, was a business visitor to the city today.

Rev. Mary J. Borden and daughter, Mrs. T. B. Deury, have gone to California to spend a vacation of several weeks.

Regular review of Alamo High No. 1, O. T. M., at old fellows' hall Tuesday afternoon, August 1, at 2:30 o'clock, sharp.

Estelito Vigil, the county school superintendent, and family have gone to Coyote Springs where they will remain a few days.

Thomas G. Hall, the well known pianist here, after a most successful tour in the towns along the Santa Fe Pacific.

Dr. D. O. Norton returned last night from Chicago and other eastern cities, where he went several weeks ago on a professional trip.

Mrs. Felix Bue returned last night from a visit with her mother at Tule. She was accompanied home by her mother, who will visit in this for several weeks.

Misses Etta and Flora West, of the government Indian school, have gone to California to spend their vacation. They will visit the exposition at Portland before returning.

Dr. J. K. Clark, the new superintendent of the Albuquerque public schools, accompanied by his family, have left Holland, Mich., for this city, and are expected to arrive tomorrow.

Assistant United States District Attorney E. L. Medler, who has been a law partner of W. B. Childers for several years, has opened up offices of his own in rooms 5 and 7, in the Whiting block.

Hon. H. O. Barsum, superintendent of the territorial penitentiary, at Santa Fe, spent yesterday in the city on official business and left this morning for his home at the capital.

Captain W. B. Dame, clerk of the Second judicial district, accompanied by Mrs. Dame, left last night for California, where they will spend several weeks at the various coast resorts, after which they will take a side trip to the Portland exposition.

A slight accident occurred at Fraciton park yesterday at the western end of the terminal of the electric line. Two cars came together while running at a slow rate of speed. The damage was small, however, the fenders on the cars being torn off. No one was hurt.

Some misunderstanding seems to have occurred in regard to the lecture given on Friday evening by the Highland Methodist church. On the tickets the name appears as the Methodist church, instead of the Highland Methodist church, as because of the extra expense of printing additional matter on the tickets, it was thought unnecessary to put on the name "Highland," hence its omission.

Superintendent James K. Allen, of the Indian school in this city, left last night for the Mesquero Indian reservation in southern New Mexico, where he goes to inspect the new building recently erected at that point by the government. He will be gone several days.

Mrs. Mary Phelan and Mrs. Corn Pyfer desire to announce that they have furnished one of the up to date houses on Tijera near Fifth street, and are ready to accommodate parties desiring neat rooms, with excellent table board. Everything new. Apply at room B, Grant block.

Frank W. Kelleher, formerly chief clerk in the Midland hotel of Kansas City, Mo., arrived in the city today and has taken the position of chief clerk of the Alvarado. Mr. Kelleher is a thorough hotel man, and his connection with the Alvarado will no doubt add to the popularity of that hostelry.

Mrs. T. A. Whitten, of this city, who has been spending a few weeks in Los Angeles, is now at San Diego, where she is visiting her son, Ensign F. S. Whitten, of the United States monitor Wyoming. Ensign Whitten has been detailed from the Wyoming to the ill-fated gunboat, Bennington, where he will do relief duty for a month or so.

Last Saturday at Cerrillos, Jose L. Lopez, formerly of Las Vegas, and now chief deputy sheriff of Santa Fe county, sold at public sale about 450 pieces of iron pipe, in order to satisfy a judgment for \$200 for delinquent taxes, in favor of the county of Santa Fe against the Cochiti Gold Mining company. The sale was expected to bring more than the amount of the judgment.

Rev. Wilson J. Marsh, who was pastor of the Congregational church in this city for the past five years, left this morning for Alliance, Neb., where he will make his future home on a large cattle ranch, which he owns near there. Rev. Marsh has been one of the best liked pastors Albuquerque ever had, and his departure will be regretted by his host of friends in this city.

E. H. Dunbar and John Molitor, in the real estate business, have purchased the property of the Holt-Leader estate, namely, the residence and lot now occupied by Ben Bothe, corner of Fifth street and Marquette avenue; the residence and lot now occupied by Rev. Thurston, corner of Rouns avenue and Fifth street, and two vacant lots on Marquette avenue, between Fourth and Fifth streets. The consideration was private.

C. H. Hudson, the North Second street painter and paper hanger, has returned to the city, after several weeks sojourn at the famous Paywood hot springs, in southern New Mexico. Mr. Hudson went down to the springs almost a physical wreck, so bad he could not navigate without a crutch and cane, and for a few days at the springs he had to be carried to the bath house. He returns to the city feeling pretty well, and was noticed today walking around without the aid of any artificial help. He thinks the Paywood springs are all right.

Frank Wendell, who visited southern California, and was absent from the city for several weeks, surprised his friends by returning yesterday morning, and he announces that the stay in the salt atmosphere of the Pacific ocean put about twenty pounds more flesh on his frame. He had a delightful time, and being an admirer of air ships and the ordinary balloons, took several excursions from "The Clutea," while at Los Angeles. He invested in a few suburban lots at Los Angeles, and believes that the investments will prove profitable in a short time.

B. A. Sleyter is in receipt of a letter from Frank Forquharson, formerly of this city, then of Raton and now of Trinidad, giving the information that his sons had been blessed by the arrival of a bounding baby boy. Many friends here join The Citizen in congratulations.

James Sanchez has let the contract for alterations and store fronts to buildings Nos. 1,009 and 1,011, South Second street, amounting to about \$2,000. A. V. Tegner secured the contract.

Mrs. Thomas Hughes left this morning for Santa Fe, where she will visit her daughter, Mrs. O. C. Watson, who has been ill, but is now reported convalescent.

(From Tuesday's Daily Citizen.) Walter Jafa, of the Jafa Grocery company, has gone to Denver and Chicago on business.

J. T. Gibbons, who conducted a livery business in Denver, is here, and is looking around for a location.

Mrs. J. R. Haines will leave tomorrow morning for Estancia, where she will visit the family of Milton E. Dow.

Herman Blucher and son, who enjoyed a few days at the Ellis ranch in the Sandia mountains, have returned to the city.

Miss Lisa Dieckmann returned home this morning from Los Lunas, after a several weeks' visit to Miss Dolores Hunsing.

Mrs. Mills, mother of Mrs. Ross Merritt, arrived on the delayed No. 1 today from Chicago, and will visit here for a few weeks.

Mrs. M. K. Wylder, who has been spending the summer on a visit to relatives and friends in Illinois and Missouri, returned home last evening.

Mrs. A. L. Newton has resigned her position at "The Globe" store, and is temporarily in charge of the news stand at the Alvarado, during the absence of Mrs. Bigelow.

Nat. Frampton, of the Alvarado Pharmacy, will leave tomorrow morning for Cimarron, where Mrs. Frampton has been visiting relatives and friends the past few weeks.

Rev. Hugh A. Cooper, pastor of the First Presbyterian church, will leave tonight for a month's visit to relatives in Stockton, Cal. Mr. Cooper will be accompanied by his son Hugh.

The president of one of the strongest best banking banks in New Mexico was asked the other day for his advice as to the quickest way to make some money. "Buy time," was the response of the state old banker. "I know of no quicker way to money at present with all the 'whitewashing' committees that are now at work," and when he walked away chuckling to himself.

C. R. Reynolds, who has been connected with the J. D. Emmons Furniture company in this city, left last night for Deming, where he will enter the employ of the Mahoney Hardware company.

The Ladies' Aid society of the German Evangelical Lutheran church will hold its regular monthly meeting at 8 o'clock, at the residence of Mrs. A. Kramer, Eleventh and New York avenue. Members and friends are invited to be present.

Sheriff Thomas B. Hubbell, accompanied by Mrs. Hubbell, returned to Albuquerque last night after an extended visit to the various California resorts for the benefit of Mrs. Hubbell's health. She returns much improved.

## MANY GOESPONDENTS IN ARMY DIVORCE CASE

CAPTAIN ELMORE F. TAGGART ACCUSES WIFE OF INFIDELITY—SHE MAKES COUNTER CHARGES AND IS VIGOROUSLY DEFENDING HERSELF—WHOLE COUNTRY COVERED BY THE POINTS OF INTEREST IN THE SCANDAL THAT IS FINALLY TO BE SETTLED IN COURT.

Wooner, Ohio, July 29.—Society in many states is burning to learn what will be the outcome of the Taggart divorce case.

Taggart was formally stationed at the United States army post, Manila, San Francisco, Chicago, Akron, Ohio, Orville, Ohio, Leavenworth, Kan., and points in Montana and Arizona. Each side of the bitterly fought case has, in the course of its struggle to obtain witnesses, used as many as fifty different detectives, and the Cincinnati depositions are said to be the result of Captain Taggart's detectives finally securing the presence of certain witnesses in the state.

So far, Captain Taggart has named about half a dozen men as co-respondents. Mrs. Taggart's confinement in a Cincinnati hospital in May, 1900, was the subject of the latest depositions taken, and Mrs. Taggart, who was present at the hearing, stood the ordeal unflinchingly. Her maiden name was Culver, her father having been prominent in Chicago, and a member of the board of trade there. She has several children. It is alleged by her husband that she committed infidelities while he was in the Philippines.

Mrs. Taggart has had filed a counter petition for divorce, alleging cruelty, desertion and improper conduct.

CAPTAIN ELMORE F. TAGGART.  
Sixth Infantry, U. S. A.

divorce trial that was set to begin on Monday in the court here. For the

## GETS HUSBAND'S BODY THOUGH WILLED AWAY

COURT DECIDES CORPSE CANNOT BE DISPOSED OF BEFORE DEATH—WIFE WINS OVER FATHER, TO WHOM BODY HAD BEEN GIVEN.

Hamilton, Ohio, July 21.—After a contest in court, Mrs. Ernest Herold, Cleveland, Ohio, has been awarded the custody of the body of her husband, which he had willed to his father. Herold died here of consumption while his wife was in Cleveland. The court decided that a man cannot will a dead body if the object is still alive when the will is made. This left Mrs. Herold with the natural right to claim the body, and she took a home with her for burial.

## Stationary Engineers.

Louisville, Ky., Aug. 1.—Nearly 2,000 members of the National Association of Stationary Engineers, including the most prominent men of their profession in this country, are here for their twenty-fourth annual convention. It is the first convention of the association ever held south of the Ohio river and also the largest in its history. The sessions will continue four days and will be devoted to the reading of papers and discussion of technical subjects of interest to the profession. At the conclusion of the convention there will be sightseeing excursions to the Mammoth cave and other points of interest in this section.

## Catholic Foresters Meet.

Boston, Mass., Aug. 1.—The biennial national convention of the Catholic Order of Foresters opened in Boston today with an attendance of about 250 delegates, who come from various parts of this country and Canada. The headquarters of the convention are at the American house, but the sessions are being held in Faneuil hall. The formal opening of the convention was preceded by the celebration of solemn mass in St. Stephen's church, the delegates attending in a body. The delegates then marched to Faneuil hall, where the regular business of the convention was begun. The reports of the various officers show that the order is the largest Catholic fraternal insurance organization in America, comprising some 117,000 members in 1,500 subordinate courts. The present high ranger is Thomas A. Sannon of Chicago.

# PORTSMOUTH A PEACEFUL PLACE PLEASANT AND PICTURESQUE, TOO

IN SPITE OF THE NAVY YARD, WHERE THE RUSSO-JAPANESE PEACE TREATY IS TO BE MADE, IT IS  
SUGGESTIVE OF ANYTHING BUT WAR—SOME FEATURES OF PLACE WHERE HARDLY ANY HIS-  
TORY HAS BEEN MADE SINCE PAUL JONES FITTED OUT HIS FIRST FRIGATE FOR THE AMERICAN  
NAVY.

ONE OF THE QUANT 'DOWN TOWN' STREETS IN PORTSMOUTH.

THE PIPE OF PEACE AT PORTSMOUTH DOCKS.

Portsmouth, N. H., July 29.—Peace and good will are suggested by the very air you breathe in Portsmouth. From the nature of the place it can be called the psychological spot for the forthcoming meeting of the envoys from Russia and Japan.

Here in a community of plain and simple American country folks—God-fearing, hard-working and self-respecting—all the foremost statesmen from the stricken empire of the east will

bargain next month for a cessation of hostilities with their dark-skinned vanquishers on land and sea.

The tranquil buzz of the farmer's mowing machine will drift into the conference room along with the hum of the bell water's perpetual signal. The merry voices of boys at play down by the placid water under the riges will speak of the joy of life and doubtless will prompt comparisons in the minds of these managers of the fiercest of all modern wars.

Was is the antonym of Portsmouth, and the synonym is simple peace. It is the boast of the people of New Hampshire that no armed enemy, other than Indians, ever trod the soil of the state. But there are not a few gray-haired old men who are prepared to tell the visiting plenipotentiaries of the gallantry and valor of the men of a generation ago, and that Portsmouth was one of the first places to be settled by the colonists from Great Britain in 1623, or three years after the landing of the Pilgrims on Cape Cod. Here John Paul Jones, whose remains we are just now claiming back from France, fitted out the first frigate for the American navy.

Has a Tranquil Air.  
"The prettiest place in the world," wrote Thos. Bailey Aldrich, in his famous story of a bad boy's adventures in Portsmouth. "The streets are long and wide, shaded by gigantic American elms, whose drooping branches, interlacing here and there, span the avenues with arches of emerald enough to be the handwork of fairies. Many of the houses have small flower gardens in front, gar in the season with

China-asters, and are substantially built, with massive chimney stacks and protruding eaves. A beautiful river goes rippling through the town, and after turning and twisting among a lot of tiny islands, empties itself into the sea. Then he tells how Capt. John Smith, who according to legend was rescued by Pocahontas, explored that river nearly 300 years ago and dined sumptuously from the wild strawberry vines.

The Conference Rooms.  
Four large rooms, on the second floor of the new navy yard store house, are being furnished with the best the government can provide from Washington. Commodious enough and well suited for the purpose, this building will nevertheless be an odd setting for this last act in the great tragedy of nations across the seas. Any one of the envoys could easily get lost in the big rambling lobby, and all of the floors are caged off with steel wire netting, making it look like an untenanted animal house. There are two or three big vaults, bare of fittings and of solid steel, on the conference floor, and it is to give subtle suggestion to the Russians of the reported boom in this imperial palace.

The envoys will ascend and descend from the conference rooms on a huge freight elevator, which is yet to be installed.

The routine of the yard will continue as usual, Rear Admiral Meade, the commandant, said. The rear admiral and his wife, with Capt. of the yard (Gen. J. G. Smith) and their daughters, will entertain the diplomats at their quiet homes on the hill and within the navy yard inclosure.

## SOCKLESS JERRY MAY DIE FROM LEAST SHOCK

ORIGINAL TRUST BUSTER, NOW IN RETIREMENT IN NEW MEXICO, HAS ANEURISM OF THE HEART—FLOURISHED AS A POPULIST IN KANSAS WHEN TRANSPLANTED FROM THE GREAT LAKES

Special Correspondence.

Roswell, N. M., July 31.—A sudden movement and it will be all over with Jerry Simpson, once famed as one of Kansas' eccentric geniuses. "Sockless" Jerry Simpson has aneurism of the heart. Unwonted excitement, physical exertion, anything to make the blood pulsate too fast may cause a rupture of a big artery, and the light will die in the eyes of a man who was once the most picturesque figure in congress.

Simpson, doubted familiarly "The Sockless," back in the '80s and early '90s as a populist, was telling the people of Kansas that he was getting too big, were corrupting the republic, were sapping its life blood, and should be curbed, Simpaca, too, decades ago, with all his power, urged government ownership or control of railways, suggested federal supervision of life insurance companies, shot his biting shafts into the back of combinations and haughty monopolies. Simpson, in days when senators were considered above reproach, spoke pointedly of senatorial graft, Simpson, before Bryan was known outside his county, was talking of the "crime of '73," and advocating the issue which drew 6,000,000 votes for the Nebraska in a presidential contest.

Carrie Nation got her start in the town Simpson made famous, Medicine Lodge. He reached there in 1878 and became a stock raiser in Barber county, and helped convert the virgin prairie into what is now one of the richest wheat sections in the country. Three defeated for congress, he tried again, and the Populist cyclone swept him into office over Colonel Jim Hallowell of Wichita, one of the most popular Republicans in Kansas. Simpson was re-elected, despite the opposition of Chester L. Long, and finally was defeated by the latter, who now is United States senator. Simpson dropped out of public life and came to the Pecos valley some years ago.

Born in New Brunswick in 1842, Simpson was taken by his parents to Oneida county, New York, and at 14 became a sailor on the Great Lakes. For twenty-three years he was a sailor. He was commander of the barge J. H. Rutter, of Toledo, when on October 31, 1873, it anchored off Ludington leaving badly, and foundered. The crew and cargo were saved, but Simpson quit marine life then and there.

An original Abolitionist, Simpson cast his first vote for Abraham Lincoln. He was a Republican until 1872 and then became a Greenbacker, and

In due course of evolution, a Farmers' Alliance and Peoples' party man. Despite the hardships of his youth, he acquired considerable education, and his native wit did the rest. When Simpson was first elected to congress, his clothes and rustic appearance backed up a "Wichita" pipe story that he did not wear socks. In Washington he became a bicycle fiend and donned white vests. Prince Albert coats, patent leather shoes and stove pipe hats, the same as his colleagues. His change of attire helped materially in his political downfall. Seventh district farmers thought Jerry was putting on too much style and voted for Chester Long, always a sartorial dream, as a rebuke.

Simpson was always one of the "plain people." His heart always went out to the poor man. He was always sincere, he never forgot a friend and never failed to forgive an enemy.

MESCALERO INDIAN SCHOOL IMPROVEMENTS COMPLETED.

The Tularea Reporter states that the new buildings of the Mescalero Indian school at Otero county have just been completed at a cost of \$50,000. The two dormitories and the mess hall that have been under construction since last March are completed and are now being painted. A forty-horse power boiler is installed in the basement of the mess hall and the two dormitories. In addition to the other fixtures, a power house and dynamo have been erected in which electricity for lighting purposes is generated. The dynamo is operated by water power.

## NEW MEXICO AND ARIZONA PEOPLE

Special Correspondence.

Los Angeles, Cal., July 29.—The following Arizona and New Mexico people are registered at the Hollenbeck hotel:

M. E. Hagood, Nogales, Ariz.

W. D. Dodson, Tucson, Ariz.

Thos. Burns, Hialeah, Ariz.

J. H. Livingston and wife, El Paso, Texas.

Jos. Broughton and J. H. Cunley, Hialeah, Ariz.

W. B. Hunnewell, Cananea, Mexico.

L. J. P. Jaeger and T. Scott McFarland, Tucson, Ariz.

C. C. Bulling, Winslow, Ariz.

F. S. Douglas and family, Douglas, Ariz.

J. W. Taylor, El Paso, Texas.

Charles Melini and wife, Albuquerque, N. M.

F. Wilson, Livingston, Ariz.

D. E. Green, Cananea, Mexico.

B. D. Coghlin, Klamath, Ariz.

P. D. Wright, Winslow, Ariz.

Geo. F. Meryman, Phoenix, Ariz.

Mrs. B. F. Sweetwood, Williams, Ariz.

Mrs. P. F. Putzen, Cananea, Mexico.

J. S. Chapman, Oaxaca, Mexico.

R. L. McMahon, Cananea, Mexico.

Nat. J. Leary and M. Schmittal, Tucson, Ariz.

H. L. Pickett, Togliatt, Ariz.

John P. Young, Prescott, Ariz.

MEXICAN CATTLE ARE IN DEMAND IN CUBA.

A new and inexhaustible market for northern Mexican cattle, has recently been opened in Cuba. It has been found that the stock of Mexico thrives admirably under the climate of the island, especially when raised in the northern states of the republic. Cuban buyers, particularly those of Havana, at present have their agents in northern states of the republic closing contracts for shipments to the island. While the majority of the contracts are made for fall and winter shipment, some are for immediate delivery, one firm whose representative is at present securing Chihuahua, insists that no delivery can be too soon.

Since the supply of Mexican cattle has exceeded the demand, duties prevailing exporting to the United States, a new outlet is welcome to stockmen.

NEW JERSEY BEING RELIEVED OF MOSQUITOES

New York, Aug. 1.—Destruction of the mosquito larvae by petroleum and the weeding out of shrubbery in the moist places in and about Long Island and the New Jersey coast, has almost eliminated the pests, according to reports collected by the Herald. The experiments with oil were begun two years ago and appear to have been entirely successful.

## BOTH GAMES EASY FOR THE BROWNIES

Kunz's Sensational Fielding and Batting Features On Sunday's

LOCAL FANS ARE VERY HAPPY

Saturday—Albuquerque, N. Las Vegas, 6.

Sunday—Albuquerque, 14; Las Vegas, 5.

The much talked of reorganized Las Vegas Blues failed to make good in either Saturday or Sunday's games and were easy marks for the Browns. The defeat administered by the Browns yesterday was especially humiliating, as at no stage of the game did the visitors have even so much as a token.

The Game Sunday.  
For the first three innings yesterday the game was quite interesting, being full of sensational plays in which Second Baseman Kunz was the bright and shining star. He was always ready and nothing was too hard for him to make a try for. In the third inning when he pulled down a high liner and prevented the Blues from getting in two scores, the fans in the grand stand rose as one man and gave him one of the greatest ovations ever accorded a local player. In the next inning Kunz was accorded another ovation when he went to bat and he eluded himself with the fans by knocking out a clean two-bagger. After

that it was Kunz in almost every play and he always got a hit. Two scores of the fourteen runs, were made by him.

In the first inning, the Blues hit

Only One of Kunz's Many Spectacular Plays.

Gallegos freely and managed to get in one run. In this inning Cosgrove, Kunz and Pettus were retired one, two, three. The fans were a little bit anxious, but they were not kept in this mood long, as in the first half of the second, Gallegos straddled down and although the bases were full at one time, the Browns retired the visitors without allowing them to score.

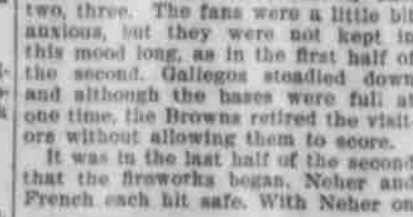

It was in the last half of the second that the fireworks began. Neher and French each hit safe. With Neher on

Pettus Makes a Home Run Out of a Three-Bagger.

Gallegos freely and managed to get in one run. In this inning Cosgrove, Kunz and Pettus were retired one, two, three. The fans were a little bit anxious, but they were not kept in this mood long, as in the first half of the second, Gallegos straddled down and although the bases were full at one time, the Browns retired the visitors without allowing them to score.

Gallegos Delivers His "Spit" Ball.

second and French on first, Ortiz placed a pretty two-bagger between center and right field. Before Las Vegas recovered and retired the Browns, the home team had three scores to its credit.

The Blues took a brace in the third inning and hit Gallegos for several safe hits. These, together with a few errors on the part of the Browns allowed the visitors four runs and the

Ortiz placed a pretty two-bagger between center and right field.

London, Aug. 1.—According to the announcement of the admiralty the squadron commanded by Prince Louis of Battenberg sailed from Gibraltar today for Canada, the itinerary including visits to Quebec, St. John's, Halifax, New York and Bermuda. The squadron consists of six of the fastest cruisers of the British navy, with the battleship Drake as the flagship.

Mr. and Mrs. W. R. Price, who years ago resided in Albuquerque, left Santa Fe yesterday for Virginia, where they will visit indefinitely.

West Point Tipton Was Oh, So Easy.

score then stood five to three. The Browns caught up at the end of this

inning, getting in two runs and tying the score, 5 to 5.

After this inning the game ceased to be of much interest. The only feature after the third inning was a three-base hit by Pettus in the fifth, which was stretched into a home run by the Las Vegas players jumping the ball among several of the out and infielders.

Finally the Blues got tired chasing the ball and near the last of the game Atkins was relieved by Captain Taylor, who proved to be even an easier mark for the Browns. Fanning was kept out of the game altogether by a lacerated finger, which he received in the game on Saturday, and to this as much as anything, Las Vegas attributed its defeat. Although Atkins pitched good ball on Saturday and Sunday well yesterday, the strategy of two games in succession was too much for the gritty little pitcher, and he was forced to retire. Then as Fanning was out of the game, Captain Taylor came to the rescue, but hard as he tried, he failed to stem the tide and the game ended 14 to 5 in favor of Albuquerque.

Interesting Game Saturday.  
The game Saturday was quite an interesting exhibition of base ball. Although the teams were forced to quit playing twice during the game by the severe sand storm, they finally managed to play it out. Albuquerque, as a result, won by a score of 5 to 6.

Captain Taylor, of the Blues, was the hero of the day. He made a splendid catch of a long drive by Randall and prevented a home run. Outside of this the game was devoid of any stirring features.

The Fans are Rejoicing.  
The result of the last two games with Las Vegas, has made the Browns' stock for the fair series soar several points. It is expected that the team will make a showing on the southern trip next week that will greatly surprise the fans. One thing certain Kunz will be greatly missed on the trip, for his playing is the kind that puts a glimmer in the boys and makes them work fast.

There will be no more games here until the team returns the second week in August, when it is expected three games will be played with Santa Fe.

Official Matters

NOTARIES PUBLIC—CLASSIFICATION OF COUNTIES—NEW COMPANIES ORGANIZED.

(From Monday's Daily Citizen.)

The following notaries public have been appointed by Governor Otero: W. R. Lyon, Albuquerque, Bernalillo county; Simon Neustadt, Los Lunas, Valencia county; Eugene McElroy, Las Vegas, San Miguel county; N. A. Field, Bury, Socorro county.

Countries Classified.

Under the provisions of Chapter 60, session laws of 1905, Traveling Auditor Charles V. Safford has classified and certified to the proper officials, the counties of the territory as follows: Class A—Bernalillo, Chaves, Colfax and San Miguel counties; class B—Grant county; class C—Doña Ana, Union, Eddy and Socorro counties; class D—Lincoln, Otero, Sierra, Santa Fe and Valencia; class E—Guadalupe, McKinley, Mora, Quay, Rio Arriba, Roosevelt, Sandoval, San Juan, Taos and Torrance.

Articles of Incorporation.

The following articles of incorporation have been filed in the office of J. W. Raybould, secretary of the territory:

Home Improvement Company. The incorporators are William D. Murray, John L. Burnside and Harriette C. Burnside, all of Silver City. The purposes for which this corporation was formed are to buy, sell, hold, convey, mortgage and deal generally in real property; to erect, buy, sell, and deal in buildings; to buy, sell, operate and maintain office buildings and hotels; to buy, sell, and deal generally in building materials; to buy, sell, own and deal in all kinds of chattels and personal property; to borrow and lend money. The capital stock is \$25,000, divided into 250 shares at \$100 each. The term of existence is fifty years. The principal place of business is Silver City, with John L. Burnside named as resident agent. The number of directors shall be three, and those who will manage the business of the company for the first three months are the incorporators.

Raton Gas Company. The incorporators are Thomas B. Hart, John Morrey and Jeremiah Leahy, all of Raton. The purposes for which this company was formed are to erect a gas plant; to manufacture, prepare, buy, sell, deal in, handle and ship gas, coal, coke, tar and the by-products thereof; to do a general merchandise business; to do a general real estate business; and in general to do any and all things usually done by a corporation of this nature. The capital stock is \$75,000, divided into 750 shares at \$100 each. The term of existence is 49 years, and the principal place of business is Raton, with Thomas B. Hart named as agent. The number of directors shall be three, and those who will manage the business of the company for the first three months are the incorporators.

British Squadron Coming.

London, Aug. 1.—According to the announcement of the admiralty the squadron commanded by Prince Louis of Battenberg sailed from Gibraltar today for Canada, the itinerary including visits to Quebec, St. John's, Halifax, New York and Bermuda. The squadron consists of six of the fastest cruisers of the British navy, with the battleship Drake as the flagship.

Mr. and Mrs. W. R. Price, who years ago resided in Albuquerque, left Santa Fe yesterday for Virginia, where they will visit indefinitely.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, but organic, are not only treatable, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. K. Powell, stenographer at the Brown Realty company, has returned from a very pleasant visit to friends in Deming.

The Dona Ana county fair should not be forgotten, as it will be a great benefit to the Mesilla valley. Its organization should be commenced at once.

Hon. E. E. Day, who is having his eyes treated at the Providence hospital, El Paso, came up Wednesday night on a visit to his family and returned Thursday morning. Mr. Day's eyes are getting stronger, and probably under the present mode of treatment will get well.

The farmers in the valley are again

encouraged by having a good supply of water in their ditches to secure their crops this season. It was feared that the orchards, gardens, alfalfa, and other crops would suffer for lack of water, but the ditches running full have removed this fear.

AN ITINERANT WRITER DOES SALT LAKE

AND NO DOUBT PENNED HIS THOUGHTS KNOWINGLY ON THE MORMON SUBJECT.

Special Correspondence.

Salt Lake City, July 24.—I saw Salt Lake City by trolley today for fifty cents, and was much impressed with the weeds which grew in between the street cars, reaching the many unkempt yards, and the cordial greetings of the natives in their quest of the filthy lucre. The Mormons, though, must be complimented for the pains they take to show the inquisitive tourist their beautiful temple, their spectacles (tabernacles) and the picturesque grounds which surround these buildings. A guide gives the history of every building and the church. The temple, built of granite, from mountains twenty miles away, was forty years in course of erection, and cost \$4,000,000. The Mormon church has a membership of 400,000, of which 100,000 are in the state of Utah.

The Mormons claim half the population of Salt Lake City, which has about 40,000 people, but do not rule in the public schools.

It is interesting to note, however, the connection of the name of Brigham Young with most every prominent enterprise of the city.

The guide, in taking one over the city, points out with pride, the homes of the different wives of the late polygamist, where he lived and where he died.

Since polygamy was given a black eye by being forbidden by the supreme court, which ruled that it was unconstitutional, President Smith, of the Mormon church, has also forbidden plural marriages.

Brigham Young had seventeen wives and fifty-four children, and the descendants of the great Mormon leader would probably number 10,000.

Children seem to be a staple crop in Utah, but pretty women are scarce. Your correspondent visited the leading parks and watering places, borrowing on Salt Lake City, but none were equal to any of the many southern California resorts. It was 196 in the shade in Salt Lake City on Sunday.

The cheapness and inexhaustible supply of water in Salt Lake City's one redeeming feature. Mountain water flows through the main streets of the city night and day.

PREPARING FOR BIG COAL STRIKE

Pittsburg, Pa., July 31.—That war will be declared between the United Mine Workers of America and the anthracite coal operators at the expiration of April 1 next, of the present three-year working agreement, is feared by the former and at least anticipated by the operators. John Mitchell's speeches in his pronouncement campaign in the coal regions daily grow more fervid and pointed, and are having at least one desired result—that of winning back to the mine workers' organization the hundreds who dropped out after the declaration of three years' peace. His more recent addresses have taken the form of flat warnings to the toilers that their welfare after April 1 may depend altogether upon their preparations at this time.

It has been general knowledge for at least two months past that the operators have been securing immense quantities of coal. This fact is the keynote of President Mitchell's addresses. He and other leaders see in this accumulating of large quantities of coal preparations for a long siege, if a struggle be precipitated at the next conference, in March, between the miners and the operators.

The fact that the operators are storing such immense quantities of the smaller sizes of anthracite is held by President Mitchell to indicate their realization that a sympathy strike on the part of the bituminous men would prevent another soft-coal relief such as was afforded in 1902, when no preparation had been made against the revelation of the hard coal market by the bituminous operators.

THE BLOW FLY

TWO PERSONS AFFLICTED WITH SCREW WORMS THIS WEEK FROM THIS INSECT.

There seems to be almost an epidemic of affliction from that pestiferous insect known as the blow fly. Many persons in various parts of Arizona have been most seriously afflicted by it, and several deaths have occurred.

It is the same fly that when it finds a horse or any animal with a cut or a raw place upon it, it at once seeks to enter and deposit its eggs. These eggs soon hatch, producing a kind of maggot, called the screw worm. These are hatched from the eggs and soon eat away the tissue and cause a festering of the flesh at the point of attack, and lead speedily to death.

Two cases have occurred in Globe, Ariz., of late, one of which was that of John Mullett at the hospital. One of these flies had gotten into his nostril and had deposited its eggs. He was treated by Dr. Malach, but the worm had gotten too much headway, and after a two weeks' battle with them they killed their victim.

The other case was treated by Dr. Whightman, and having an earlier chance at the worms he succeeded in saving his patient. This case was that of Mrs. Worlen, from the Sierra Ancha.

These flies get into the nose while a person is asleep and lay their eggs, which soon hatch a mass of screw worms, and unless immediate relief is had death surely follows.

MORAL RACE MEETING.

Logansport, Ind., Aug. 1.—Owing to the attitude of Governor Hanley and the state authorities, the gas belt circuit race meeting which opened here today is devoid of gambling or pool selling. A special invitation has been sent to the governor's mansion to attend the meeting to see how tightly the lid is kept down. The meeting will continue for three days, and from all indications it will prove successful.

Logansport, Ind., Aug. 1.—Owing to the attitude of Governor Hanley and the state authorities, the gas belt circuit race meeting which opened here today is devoid of gambling or pool selling. A special invitation has been sent to the governor's mansion to attend the meeting to see how tightly the lid is kept down. The meeting will continue for three days, and from all indications it will prove successful.

The farmers in the valley are again

## MILLIONS EXPENDED FOR IMPROVEMENTS

### Rock Island Exceeds Other Western Roads In This Respect

#### FINANCIAL CONDITION GOOD

The Rock Island system has surpassed all western railroad records in the last year in the expenditure of money for the equipment and physical improvements. During the last year the expenditures for equipment have exceeded \$1,000,000, of which amount \$3,700,000 was used for the purchasing of freight cars, \$1,000,000 for new engines and \$700,000 for passenger cars of various kinds.

Reckless expenditure for equipment the Rock Island is expending \$2,000,000 in the improvement of the physical condition of the road. This money is being spent in installing the tracks, putting in new bridges, and in general construction work. In all, then, the total amount which the Rock Island has spent for the improvement of its service has exceeded \$13,000,000, which sum is said to be more than any other western road.

The financial status of the road is as follows:

The capital of the Rock Island consists of \$68,885,000 of common stock, which has no voting power, and \$18,630,200 of preferred stock, which is entitled to 4 per cent dividends, and including 1909, to 5 per cent from 1910 to 1915 inclusive, and thereafter to 6 per cent if earned. Four per cent is now being paid upon the preferred issue, but the surplus for the year 1914 was only \$129,764. For seven months ending with May, 1914, the gross earnings were about \$1,300,000 under the gross earnings for the corresponding period of the preceding year, but the earnings of the "Prisco" branch were \$250,000 ahead of the preceding year, so that the system as a whole will probably make a better showing of 1914 than it did for the year 1913.

The underlying bonds of the Rock Island company aggregate over \$258,000,000, and only a small proportion of them bear interest over 5 per cent. The preferred stock is fairly regarded, but the common has been merely a football in the market. When the stock of the Chicago, Rock Island & Pacific railway was purchased, it was paid for in this manner. For each share of the par value of \$100 of new Rock Island stock, \$70 of new Rock Island preferred stock and \$30 of new Rock Island common stock, thus following as indicated, the lines of industrial capitalization.

The Rock Island company, being a holding corporation, its income is derived from interest or dividends received upon securities held, and not from earnings.

#### GOLDEN STATE LIMITED IS NOW CALIFORNIA EXPRESS

The Golden State Limited is no more. At least in name. It will now be known in the railroad world as the California Express. The name was changed about a month ago when a chair car was added to it, and the conductors received orders to accept all kinds of transportation for passage.

The change of name, it is learned, was caused by an agreement the Rock Island and Santa Fe have to the effect that all material and other free transportation would not be accepted for passage on limited trains.

The Rock Island, having more business for their No. 30, which leaves here at 6:45 on the evening, had to either allow second class and free transportation, used on the Golden State or put on an additional train.

The California Express made the same time and in every way has the same accommodations for first class passengers as it did when it was called the Golden State Limited, and to passengers holding this kind of transportation the only difference to the holders of annuals and other free transportation is at least 3 cents per mile.—El Paso News.

#### WORK ON ALASKAN CENTRAL TO CONTINUE ALL WINTER.

Work on the Alaskan Central railway will be carried on all winter, as the climate of the coast belt is never severe. W. B. Poland, chief engineer and general manager of the railway, has arrived in Seattle, Wash., bringing orders for \$100,000 worth of supplies and material to be forwarded immediately and taken in ahead of the present construction work, to allow winter camps to be operated during the snow season, when wagon transportation will be difficult through the mountains.

#### ORIENT GRANTED MORE TIME TO COMPLETE ROAD.

It is stated that President Diaz of Mexico has signed an amended concession, which allows the Kansas City, Mexico & Orient railway an extension of time up to the first of August, 1915, to complete its road in that country. The subsidy in the mountainous section is raised to a total of \$550,000. The concession further states that all the operating and maintenance material to be used by the road will be exempt from duty construction for a period of five years. Another additional provision states that the government agrees not to grant any concession to any other road within fifty kilometers on either side of the Orient for a period of ten years.

Joseph Miller, employed in the Santa Fe shops at this point, returned last night from a trip to Chicago. Mr. Miller was on Saturday's No. 1, which was wrecked Saturday night near Chicago and he tells a harrowing tale of the disaster. Mr. Miller's parents accompanied him to this city and will make their future home in Albuquerque with their son.

#### H. U. MUOGE'S SON GETS MERITED PROMOTION.

H. W. Mudge, trainmaster of the Denver City & Fort Worth road, with headquarters at Childress, Texas, has resigned and on August 1 became chief clerk to F. T. Dolan, the new general superintendent of the Rock Island western district of the Rock Island

system, with headquarters at Topeka, Kan. Mudge is a son of Vice President H. U. Mudge, of the Rock Island, and he has worked his way up from the bottom round of the ladder. It is said that he is an exceptionally bright railroad official for a young man, and has a bright future before him, being a hard and persistent worker.

General Freight Agent A. N. Brown of the El Paso & Southwestern who recently returned from Los Angeles where he had been installing Eugene Fox as general agent, stated to the El Paso News that the Southwestern had secured one of the finest offices in the city of Los Angeles. They are located in the Hollman building, which is familiar to every one who has ever visited the southern California city.

E. O. Martin, agent for the Pecos Valley railway at Carlsbad, has been granted a thirty days' vacation from his post of duty in that city, which he expects to spend in Colorado as soon as railway connections can be restored. E. W. Wain, former operator under Mr. Martin, has been sworn in as agent to act during the absence of the latter.

J. A. Montoya, who has been yard watchman for the Santa Fe at Las Vegas was transferred to this city yesterday and today took the place of G. H. Gray, former yard watchman, who yesterday assumed the duties of station master at this point.

L. R. Stowell, traveling auditor for the Pecos Valley and Northwestern railway, has been in Carlsbad for the past few days checking up the station at that place preparatory to the temporary absence of Agent Martin, who expects to leave in a few days, accompanied by his wife, to enjoy his summer vacation.

James Klammor, foreman of the bridge and building department of the Pecos Valley and Northwestern railway, is enjoying a vacation in the mountains. His place is being supplied by Foreman Gilbert, from the Southern Kansas division of the Santa Fe system.

C. W. Cook, Jr., traveling freight agent of the Santa Fe, with headquarters in this city, went to Las Vegas last night to look up business for the road. Mr. Cook will leave the latter part of the week for an extended vacation trip through the east.

Master Mechanic A. B. Todd, of the Santa Fe shops at San Bernardino, Cal., was in the city yesterday. During his stay here he was the guest of Master Mechanic Hicks of the local shops.

H. J. Moore, claim clerk at the local Santa Fe station, accompanied by his family, left last night for an extended visit to relatives in Kansas and Kansas City.

#### Friends' Bible Conference.

Richmond, Ind., Aug. 2.—Following the close of the Friends' educational conference, the annual bible conference under the auspices of the Indiana, Western and Wilmington yearly meetings opened at Earlham college today for a session of six days. The instructors this year include Robert E. Prestlow, of Chicago; Geo. W. Knox, of New York; Rufus Jones, of Philadelphia; George A. Barton, of Bryn Mawr; Thomas Newell, of Guilford college; and Albert J. Brown, of Wilmington college.

San Jose Day at Portland. Portland, Ore., Aug. 2.—This was San Jose day at the exposition, and it proved one of the most successful of the special days set aside in honor of the chief cities of the Pacific slope. There was a large delegation on hand from the California city, headed by Mayor Worwick and other city officials.

The visitors gathered in the California building this forenoon, and listened to addresses of welcome by President Goode of the exposition company, and others, to which felicitous responses were made. After the formal exercises were concluded, the visitors dispersed to inspect the sights of the exposition, and particularly the interesting displays illustrating the products of the famed Santa Clara valley.

#### GASOLINE STOVES ALLOWED IN RAILWAY CABOONES.

Missouri, Kansas & Texas trains can now have hot coffee and eggs to order, prepared on gasoline stoves in their caboones, the insurance company having rescinded their order prohibiting the use of gasoline burners on the trains on the ground that they endangered too much danger.

## Dr. Price's Cream Baking Powder

Used in Millions of Homes. 40 Years the Standard. A Pure Cream of Tartar Powder. Superior to every other known. Makes finest cake and pastry, light, flaky biscuit, delicious griddle cakes—palatable and wholesome.

PRICE BAKING POWDER CO., CHICAGO.

Note.—Avoid baking powders made from alum. They look like pure powders, and may raise the cake, but alum is a poison and no one can eat food mixed with it without injury to health.

## RHEUMATISM COMMON IN SUMMER

The time to get rid of Rheumatism is in Summer when the blood is endeavoring to purge itself of all poisons and impurities, and the skin is active, with all the pores and glands open and able, in this way, to assist in the elimination.

Columbus, O., 1555 Mt. Vernon, Ave. Six years ago I had a severe attack of inflammatory Rheumatism, and the doctors I had did me no good. They changed medicines every week and nothing they prescribed seemed to help me. Finally I left off their medicines and began the use of S. S. S. My knees and elbow joints were swollen terribly, and at one time my hands were so swollen and painful that I could not close them when opened. I was getting discouraged, you may be sure, when I began S. S. S. but as I saw it was helping me I continued it, and today I am a sound, well man and have never had a return of the disease.

The inactivity of the Liver, Kidneys and Bowels causes the refuse matter to remain in the system, which, coming in contact with the different acids of the body, forms uric acid to be absorbed by the blood and distributed to the different joints and muscles, producing the pains, inflammation and other distressing symptoms of Rheumatism. The wandering pains of the disease remind the sufferer that the poison is still in the blood and he should lose no time in getting it out. S. S. S. neutralizes the acid and makes the blood rich and pure. It tones up every organ and cures the disease permanently. S. S. S. contains no harmful minerals to disorganize the system, but while curing the disease builds up every part of the body by its fine tonic effect. Look out Rheumatism and any medical advice desired without charge.

**SSS** PURELY VEGETABLE.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

#### ALBUQUERQUE AT SILVER CITY

N. W. Alger, of Albuquerque, is in the city introducing the new Smith Brothers typewriting machine.

Mrs. John M. Wiley and son Robert, left last evening for Long Beach, Cal., where they will spend the next month by the sea waves. Mr. Wiley came down from Albuquerque and accompanied his family on their trip as far as Deming.

#### CRESCENT LUMBER CO

SECURES GRABER'S MILL AND WILL CARRY BIG STOCK OF LUMBER.

The Crescent Lumber company, with headquarters at Albuquerque, N. M., was this week incorporated under the New Mexico laws, with a large capital stock. As the corporation's name implies, its principal business will be the handling and sale of lumber in the territory. The newly organized company is backed by large capital and intends forming a number of branch houses throughout the territory, which will have the effect of making it the largest lumber concern in the two territories. Yesterday L. A. Dye, proprietor of the Rio Grande Lumber company, with mills and head office at Albuquerque, and which has been absorbed by the new company, was here for the purpose of closing a deal with G. J. Sallie, lessee of the Graber planing mill and plant of this city. Mr. Dye's mission was successful, and, acting for the Crescent company, he acquired for said company the Sallie lease, which the new company assumes today, the inventory being taken yesterday during the stay of Mr. Dye.

Mr. Sallie returned yesterday from Deming, where he had gone to confer with interested parties relative to the pending deal. It is stipulated in the deal that Mr. Sallie shall be the local manager here for the Crescent company. Similar plants in the territory will be acquired by the new company and in the larger towns, where none exist, new plants or branches of the company's main plant, which will be at Albuquerque, will be started.—Silver City Independent.

#### ROMANCE IN GERMANY ENDS IN LAS VEGAS

Miss Dorothy Marguerite Weiss, who came all the way from Germany to wed, was married at Las Vegas Monday to Charles John Cannon, a young English merchant, who recently came to Watson and who met his bride while traveling in Germany.

## MISS ROOSEVELT GOES SURFING

MISS ROOSEVELT POSED WHILE OTHER MEMBERS OF THE PARTY "SNAPPED" THE SCENERY.

Special Correspondence. Honolulu, July 15.—Miss Alice

Roosevelt had a most enjoyable time during her stay in Honolulu, but the most interesting event was her first attempt at surfing at Waikiki beach. Despite the fact that she was told of the sharks that are plentiful just outside the reef she disposed herself fearlessly in the water.

When Miss Roosevelt came ashore a hole in the sand attracted her attention. She was told that it was the hole of the sand crab and before she could be prevented she had plunged her hand into the hole. She gave a shriek and withdrew her arm and with that member came an adult sand crab clinging to one pink digit. Gov. Atkinson rushed to the rescue and the crab was persuaded to relinquish its hold.

The entire party paid a visit to the Pali, Hawaii's famous battleground. The natives in many ways paid their respects to Secretary Taft, Miss Roosevelt and others, but the prettiest of these was the presentation of leis, or native garlands. A huge garland, especially designed was presented to Miss Roosevelt with much ceremony, and she wore it throughout the day.

Miss Roosevelt and Governor Atkinson made a tour of the town and in the course of their travels entered a curio store.

After asking numerous questions Miss Roosevelt was shown some very handsome but expensive calabashes which she greatly admired.

"May I have the honor of presenting you with the calabash, Miss Roosevelt?" queried the governor.

"Oh, no," replied the president's daughter. "It's too expensive."

The governor's face assumed a disappointed expression, on seeing which Miss Roosevelt exclaimed:

"If you are really anxious to make me a present you may give me one of these," indicating some cocoanuts

progressively carved into semblance of human faces and bearing the legend, "We've come all the way from Cocoanut to greet Miss Roosevelt."

Miss Roosevelt took two of the cocoanut masklets. While here she purchased many curios.

MISS ROOSEVELT AND NICHOLAS LONGWORTH LEAVING THE HONOLULU SUGAR REFINERY.

MISS ROOSEVELT AND SECRETARY TAFT AT THE PALI.

#### MR. AND MRS. NISBET TO TAKE A LONG TRIP

Mr. and Mrs. R. C. Nisbet, of Roswell, left for a trip to their native land Scotland for Washington and New York, to visit a friend whom they knew in Colorado twenty years ago and who has since returned to Scotland. Mr. and Mrs. Nisbet expect to be gone about three months.

#### SPECIAL AGENT CLARKSON TAKES A VACATION

Grosvener Clarkson, special agent of the government, who has been at Roswell working up the cases of alleged land frauds, left Sunday morning for Washington and New York, to spend a two weeks' vacation that has been granted him. He will endeavor to have the time extended to three weeks, and will spend a week on the Atlantic coast at one of the watering places.

#### GOVERNOR KIBBEY OFFERS REWARD FOR MURDERERS.

Governor Kibbey, of Arizona, yesterday issued a proclamation of reward of \$500 for the arrest and conviction of the murderers of Sam Plunkett and E. E. Kennedy, at Livingston on July 12. There is now \$1,000 on the heads of the murderers. Immediately after the discovery of the murder Gila county offered a reward of \$500. A week later the reward was increased to \$500, the rest having probably been offered by the relatives of Plunkett.

#### Governor Vardman Goes to See.

Jackson, Miss., Aug. 3.—Governor Vardman left here today for the Gulf coast to make a visit of investigation of the complaint of Governor Blanchard of Louisiana, who complains that Mississippi troops have invaded Louisiana territory and are patrolling Lake Bogalusa.

## THOMAS FORTUNE RYAN NEW KING OF FORTUNE

FACTS ABOUT THE MAN WHO NOW CONTROLS THE EQUITABLE LIFE ASSURANCE SOCIETY AND ITS HALF BILLION OF ASSETS.

#### Of Scotch-Irish ancestry.

Born in Nelson county, Virginia, on October 17, 1851.

Married Ida M. Barry, in Baltimore, in 1872.

Began business life in 1868 in Baltimore, in a dry goods house.

First wages, \$5 a week.

Present fortune, \$20,000,000.

Entered Wall street in 1870.

At 21 years of age he was the head of a Wall street firm.

Interested in consolidation and extension of lighting and street railway systems in New York, Chicago and other cities.

Interested in coal properties in Ohio and West Virginia and railways in Ohio.

One of the chief factors in the organization of the tobacco trust.

Member of six clubs.

Vice president of the Morton Trust company.

Home, on Fifth avenue; office, Nassau street, New York.

An obtrusive financier, much adverse to notoriety.

Over six feet tall.

Gray eyes; hair tinged with white.

Has beaten James R. Keene and James J. Hill in Wall street contests.

Original promoter of Metropolitan street railway, which bought the notorious Jacob Sharp franchise for the Broadway line, and by much condensed operations secured the immensely valuable Third avenue line.

In 1880, a trust company in which Ryan was the chief figure, loaned \$2,000,000 to a clerk in promoting a financial deal.

Was shrewd enough to get control of the Seaboard Air line, a \$75,000,000 property, by investing less than \$2,000,000.

His hobby is raising Habsburg cattle, of which he has several hundred head at his country estate.

His kennel contains some of the finest dogs in the world.

In June, he gained control of the Equitable, with \$11,000,000 assets, making him a king of finance.

## NEW MEXICO TOWNS

#### SPRINGER

From the Stockman.

Ph. Van Zuylen came down from Baldy where he has been for several days and left in the afternoon for Georgia where he has become interested in mining.

Miss Pearl Hawkins, sister of Miss Clara Mills, who has been visiting with her sister in this city for several weeks, left for her home at Estancia.

Last fall when the grass was short on their range in this county, the W. R. Cattle company moved several hundred head of their stock to near Santa Rosa. This week they were brought back to the home pastures and were in fine condition. Louis Lloyd was in charge of the moving of the large bunch. There was 1,000 head of cattle in the bunch.

#### CARLSBAD

From the Argus.

Jim Roberts, brother of E. Roberts, who is quite sick with typhoid fever at the Anderson sanitarium, started for Pecos City, in a light buggy to meet his sister who is expected to arrive there from California. He will bring her to Carlsbad.

Leslie White and Maude Whiddon, both of this city, were united in marriage, at 10 o'clock last Sunday morning, at the home of Mr. and Mrs. Vardman. The ceremony was performed by Judge Cunningham.

M. C. Stewart and family left for Hope, where they will visit with Mrs. Stewart's parents, Mr. and Mrs. John Beckett, for several weeks. Sheriff Stewart will go to Alamogordo on business connected with his office, before his return.

Junior Tansil performed the perilous and daring feat of crossing the raging waters of the Pecos in a light skiff. He came to town, procured a cargo of groceries and provisions and returned safely home. Junior is the only boy in Eddy county who could accomplish the trip at that time.

D. D. Clark met with a painful accident late the other afternoon. He was driving a green "bronco" horse to a float upon which was loaded a boat. The horse became frightened and started to run. The boat knocked Clark off of the wagon and he fell in such a manner as to severely sprain his right ankle. He is confined to his home but hopes to be around again within a few days.

G. W. Seaton, who has recently erected a fine new residence in Rio Vista, has just completed a well on his place. He struck a fine flow of good pure water at a depth of forty feet which he will use for domestic, stock and irrigation purposes. He has erected a tank with a capacity of 5,000 gallons, which will hold sufficient water for all purposes.

Mrs. C. W. Hutchins received a letter this week from W. A. Panha, an experienced hotel man from Holon, Iowa, stating that he had closed a deal with the Schlitz Brewing company, of Milwaukee, Wisconsin, whereby he had procured a lease on the Schlitz hotel in this city. The lease held by Mrs. Hutchins expires the first day of September, next, and the new lease of Mr. Panha becomes operative from that date.

#### SILVER CITY.

From the Enterprise.

The doct which William Heather of Cliff received last week, were short of date of anything of the kind that he has ever seen in the southwest. He expressed very much surprise at seeing such a well appointed and nicely equipped club rooms in a town this size, and stated that such club rooms would be a credit to a city of fifty thousand inhabitants.

#### DEMING.

From the Graphic.

Miss Julia Hart, who has been visiting with Miss Julia Watkins, left for her Texas home today.

Deming has a road scraper, manufactured at Aurora, Ill., that is now scraping the streets on trial for its ability to do satisfactory work. We are in great need of a scraper, and hope this one will fill the bill.

We are pleased to note the return of Col. McGroarty from San Antonio, where he has been visiting for the past few weeks. The "aching" void caused by the Colonel's absence is never filled until he is home again.

During the absence of Dwight B. Stephens, the official work of the sheriff devolves upon Deputy J. A. Kewley, who is discharging his duties to the satisfaction of all concerned. During Mr. Stephens' absence the "county is safe" with "Jim" on duty.

E. L. Conder Esq., vice president of the First National bank, of Hubbard City, Texas, together with his wife and son are visiting with relatives in Deming. Mr. Conder is one of Hubbard's most successful and prominent business men, and is returning to his home after a two months' trip to the Portland exposition.

H. E. Mize, Jr., of the Silver City Independent, was in Deming and made this office a pleasant call. He was on his way to Chicago on a vacation.

A visitor to our city in speaking of the Adelphi club, remarked to a Headlight man one day this week, that the club rooms were the nicest and most up to date of anything of the kind that he has ever seen in the southwest. He expressed very much surprise at seeing such a well appointed and nicely equipped club rooms in a town this size, and stated that such club rooms would be a credit to a city of fifty thousand inhabitants.
