ALBUQUERQUE, NEW MEXICO, SATURDAY, NOVEMBER 4, 1935

NUMBER 47

WHO WILL GET THESE FAT JOBS?

Many Appointive Offices Expire in the Near Future.

OFFICES MUCH SOUGHT AFTER PRELIMINARY HEARING CONTINUED

The appointment of officials to succeed those whose terms of office expire between December 1, 1935, and January 30, 1936, will soon be of paramount interest to the people of New Mexico.

Governor Otero's term expires January 26, 1936, and it is doubtful if he will succeed himself, although he is an eager candidate. Among the prominent candidates for governor are Hon. B. S. Rodey, of Albuquerque; H. J. Hagerman, of Roswell; and Nicholas Galles, of Las Cruces. Secretary J. W. Reynolds is said to be among those who covet the job.

Secretary Reynolds' term of office expires January 12.

Chief Justice W. J. Mills, Judge John R. McPhee, of the First Judicial district, and Associate Justice Frank W. Parker, of the Fifth Judicial district, are officials whose terms of office will expire on December 12, 1935.

United States Marshal C. M. Forsaker's present term expires on December 5. Mr. Forsaker will very likely be reappointed.

Surveyor General M. O. Llewellyn's term of office expires on December 21, 1935.

The term of office of Pat Garrett, as collector of customs, expires the coming December.

The terms of office of E. W. Fox, register, and Albert W. Thompson, receiver of the United States land office, at Clayton, will expire January 12, 1936.

The terms of the United States land officers at Santa Fe, Mr. Otero, register, and Frederick Muller, receiver, will expire January 29 and January 12, respectively.

Secretary of the Interior E. A. Hitchcock has suggested in his annual report that the office of receiver in federal land offices be abolished, and it is possible that when the time comes for reappointments for these offices, only the office of register will be filled, consequently leaving some of the present office holders out of a job.

Postoffice Vacancies.

Albuquerque—The term of office of R. W. Hopkins will expire January 6, 1936. Mr. Hopkins is a candidate for reappointment. Former city councilman, E. Galloway, and Norman Kettner, a clerk at the First National bank, are other candidates for the position.

Santa Fe—The term of Paul A. F. Walter will expire June 26, 1936.

Silver City—The term of office of Artie E. Galloway will expire January 29, 1936. Mr. Galloway is a candidate for reappointment, and H. H. Hottel, city clerk of Silver City, opposes her.

Las Cruces—Postmaster A. J. Papan, term of office expires February 1, 1936.

Clayton—Postmaster Otto Meger, term will expire April 15, 1936.

Socorro—Postmaster L. E. Kittrell, term of office to expire June 23, 1936.

THE NAVAL PROGRAM

MORE IN DETAIL.

Annapolis, Md., Nov. 1.—Admiral Evans came down from Hampton Roads yesterday with the battleships Missouri, Kentucky, Tennessee, Alabama, Illinois, Iowa, Massachusetts, and his flagship, the Maine, and this afternoon the British cruiser squadron under the command of Prince Louis of Battenburg, arrived here and was received by the North Atlantic squadron in all the style that naval etiquette demands and American naval officers are able to display.

The prince was in high good humor and as was Admiral Evans, and the British were soon made to feel at home. The British fleet captain, Sir Charles H. Dore, of the Berwick, member of the Victorian order; Herbert E. King, of the Cumberland; and the British squadron will remain here until November 8th, when it will sail for New York. Prince Louis will visit Washington while his ships are being here, to receive the welcome at the hands of the president.

The crew of Admiral Evans' squadron have been industriously accumulating a fund with which to entertain the visiting sailors. They undertook to raise \$10,000 for this purpose, and had many willing givers and have themselves gone down into the city streets, recruiting the great time they were given by the English sailors at Portsmouth. The most of the entertaining will be done in New York.

ARE FIGHTING THE GREAT WHITE PLAGUE.

London, Nov. 1.—The national committee, engaged in the fight against the Great White Plague, called to order by the Princess Christian, is gathered in a great meeting to consider what measures can be taken to further the work in which they are engaged. The findings from workers and of the progress of the work are encouraging, and it is desired to intensify efforts of good and intelligent work, so the ways of cities in the United Kingdom have been called to meet with the national committee. A quarter of a million of dollars will be raised to provide a sanatorium on a site which has been secured in Kent. Miss Edwards is vitally interested in the work.

SWEAR BRIGGS IS RIGHT MAN

Train Porter Who Assaulted Alex Bowie is Positively Identified.

PRELIMINARY HEARING CONTINUED

That R. H. Briggs, porter of Santa Fe tourist car No. 3120, is the negro who committed the dastardly assault upon Hon. Alex. Bowie, president of the Caledonian Coal company of Gallup, as the latter was in the act of boarding westbound train No. 1 at the local station on the night of October 28, there now seems to be little doubt.

Briggs, who was arrested at Las Vegas on Saturday afternoon and brought to Albuquerque and lodged in the county jail, charged with the crime, was given a preliminary hearing yesterday afternoon at 4 o'clock, before Police Judge A. J. Crawford. The main point before the court, as explained by Judge Crawford, was whether there were any witnesses who could positively identify Briggs as the man who committed the assault on Mr. Bowie.

Mr. Bowie was the first witness placed on the stand. He related the details of the assault as heretofore published in The Citizen, but could not swear that Briggs was the man who assaulted him. However, he thought he looked very much like the negro, but still he was not positive enough about the identification to make oath that the defendant was the guilty party.

James Ellsworth Ingalls, who was standing on the platform at the time of the assault, and who saw "it," was the next witness. Judge Ingalls was quite sure that Briggs was the right man, but he said he could not swear that Briggs was the man. He said that Briggs was the only porter on train No. 1 that night, who in any way resembled the negro who committed the assault, as he saw all the porters on the train when a search was being made for the culprit after the assault had been committed.

The most important witness for the prosecution was P. M. Clough, general foreman of bridges and buildings on the Rio Grande division of the Santa Fe. Mr. Clough was standing talking to Judge Ingalls at the time Mr. Bowie passed on his way to the train. His attention was called to Mr. Bowie by the onlookers looking case he carried, which contained a number of maps. The witness related minutely how Mr. Bowie accidentally struck the train porter on the leg, whereupon the negro turned and struck the plaintiff a stunning blow, partly felling him to the platform. Mr. Clough said that he watched the train porter after the assault, and he passed within a few feet of him and boarded the next to the last car on the train, which car later proved to be car No. 3120. When asked by the court if he could identify the man who committed the assault, Mr. Clough turned to Briggs and said: "I can positively identify the defendant as the man. He is the one who committed the assault, I am sure."

Station Master Wells then testified to how Mr. Bowie hunted him up and reported that he had been assaulted by one of the porters on the train, and requested that the man be arrested. Wells thereupon accompanied him through the train, and when they reached the next to the last car, Mr. Bowie stopped and pointed out Briggs as the man whom he thought had assaulted him. Wells said that Briggs was greatly excited and could hardly talk, and denied that he had been off his car. The witness further testified that another porter standing by Briggs corroborated the statement of the defendant as to his not being off the car, as did also a passenger on the car.

Dr. Kilgore, of Vann's drug store, who dressed the injuries of Mr. Bowie after the assault, testified as to the nature of the wounds, and gave it as his opinion that the wounds over the eye had been made with knuckles or a bunch of keys.

This closed the testimony, and Attorney Lester, in behalf of his client, asked the court for more time in which to introduce some evidence for the defense. He wishes to present the evidence of another train porter on the train the night of the assault, and also to try and get the evidence of several passengers on the car. Briggs could not be the man, as he never left the car.

Judge Crawford granted the request, and ordered that Briggs be recommitted to the county jail to await the continuance of the hearing.

QUAIL GRANTED ONE MORE MONTH'S LIFE.

Boston, Mass., Nov. 1.—Numerous parties of sportsmen started early this morning for the rural districts, and hunters throughout the state were in the field early to get a shot at "Bob White." The open season begins today, and the hunters begin with it. Every train that went out of the city carried hunters with guns all burned, and accompanied by glittering and dogs, excited and anxious for the fray. Shots were heard bright and early in all the country towns, as the sportsmen peppered away at the birds. The slaughter is already reported very great, and the hunters are expected to return with full bags. It is hoped that the taking off of the month of October from the open season has increased the number of quail, as they had become very scarce up to last year, the long open season giving the hunters a great advantage over the birds. The severity of the last two winters also contributed to the thinning out of the birds.

L. B. Smith, a mining man of Alameda, N. M., was a visitor in the metropolis today.

AT LAST A MAN

BURNED TO DEATH AND BURIED ALIVE FOR WITCHERY

Almost Unbelievable Superstition in the Twentieth Century Consigns a Feeble Old Man and a Priest to Terrible Deaths—Dense Ignorance of Crimean Monks.

Odesa, Nov. 1.—Intending it as an expiatory offering to drive away impending famine and ruin, peasants at Setaiklessa committed a horrible crime.

The harvest has been the worst in many years, and the peasants believed their misfortune was caused by one Opiroff, 70, long suspected of having secret dealings with the devil. It was formally resolved at a meeting of village elders to kill Opiroff. Forcing that an ordinary execution might

not exterminate the evil spirit, they decided to burn the old man alive.

Huguen Sacrifice.

They prepared a bonfire of wood on the village green, and then went in a body and dragged the old man, too feeble to resist, to the pyre. He was tied to a stack of wood, men, women and children gathered around, and the wife of one of the village elders set fire to the faggots. In a few minutes Opiroff, frantically shrieking for mercy, expired, amid the rejoicings of the villagers.

To the surprise of the peasants the death of the "sorcerer" brought about no improvement in their harvests. The trouble continued, cattle died, and the villagers were unable to obtain expected reductions in their taxes. One of the older peasants remembered that they had forgotten to perform the rite of exorcising the evil spirit.

Acme of Fanaticism.

The villagers thereupon marched to the grave at midnight and exhumed the charred remains. To the spot where Opiroff had been burned to death the bones were escorted by a

MET TO PAY BILLS OF POOR

Non-Sectarian Benevolent Society's Bills for October Amounted to \$73.45.

SOCIETY FACES BROKE TREASURY

Seven charitable ladies of the Non-Sectarian Benevolent society met this afternoon in the office of F. W. Clancy to pay bills for the poor of the city for the month of October.

These bills were as follows:

Rents \$16.50

Fuel 22.75

Groceries 34.20

Total \$73.45

The money the society has on hand October 1, after receiving its quarterly check of \$120 from the city and paying the bills of September, amounted to \$122.50.

After deducting the expenses of October from this amount, the society has \$59.45 to keep the poor of the city during the months of November and December, which is entirely inadequate, as the fuel and grocery bills increase as the cold weather increases.

Besides dispensing this money for necessities for the poor, the secretary during the month of October spent \$16.75 in fares for poor people desiring to reach friends. This money was solicited by members of the society as it was needed.

After the routine business of the meeting had been accomplished, the matter of the associated charities, the organization for which a meeting is called at the Elks opera house tomorrow afternoon, was discussed.

The Non-Sectarian Benevolent society is heartily in favor of an associated charities or any other organization, which will assist in caring for the poor. When the society was organized several years ago, it had little trouble in caring for the poor, as the transient poor in this city then did not amount to any considerable numbers. In recent years the city has grown and so has the number of its poor, until the small amount of \$120 per quarter made by the city is wholly inadequate. The transient poor have also increased, and something must be done to relieve the situation.

Apparently it is up to the city to organize an association of charities, and the plan discussed at the meeting held at the Commercial club, which is the plan in vogue in nearly every city, is the one to be adopted.

LUNA SELLS SIX TRAINS OF SPRING LAMBS.

FOUR TRAINS LOADED AT MAGDALENA AND TWO AT ESTANCO.

Hon. Solomon Luna returned to the city last night from Estancia, on the Santa Fe Central, where he made preparations to deliver a portion of a large sale of spring lambs to the firm of Harris & Akin, of Fort Collins, Colo. Those shipped from Estancia will load about two trains and will be moved to Kansas, Nebraska and Colorado, over the Santa Fe Central and the Rock Island railroad. Although the sheep have been ready for some time, shipment has been delayed by the scarcity of cars. Sufficient cars are expected to reach Estancia tonight, however, and the trains will be loaded tomorrow.

Tonight Mr. Luna will leave for Magdalena, Socorro county, where four trains of the lambs sold to Harris & Akin will be loaded for shipment to points above mentioned.

MISSIONARIES GATHER AT NASHVILLE TODAY.

Nashville, Tenn., Nov. 1.—The conference of the third district of the Domestic and Foreign Missionary Society of the Protestant Episcopal church, assembled here today. The attendance was large, and is drawn from every town in the district, which embraces the dioceses of Maryland, Easton, Washington, Virginia, South Carolina, West Virginia, North Carolina, East Carolina, Lexington, Kentucky and Tennessee, and the missionary districts of Asheville. Each diocese is represented by its bishop, and hundreds of other prominent church workers.

CONFEDERATE VETERANS GATHER AT LITTLE ROCK.

Little Rock, Ark., Nov. 1.—The United Confederate Veterans of Arkansas are here in force in response to the call issued by Dan W. Jones, major general commanding the Arkansas division, and have assembled in the hall of the house of representatives in the state house. After the appointment of committees and the transaction of routine business, the convention received a visit from Major General William B. Mickel, adjutant general and chief of staff of General Stephen B. Lee, commander-in-chief of the U. S. C. and General W. L. Cabell of Dallas, Tex., commander of the trans-Mississippi department. The United Daughters of the Confederacy and the Sons of United Confederate Veterans were greeted in social and fraternal relations.

BIG PRIZES FOR THE MINING CONGRESS EVENTS.

El Paso, Texas, Nov. 2.—For the double-handed drilling contest at El Paso during the American Mining congress, November 14 to 18, final prizes have been agreed upon as follows: First prize, \$1,000, donated by Colonel W. C. Greene, Cananea, Mexico; second, \$500; third, \$250. Entrance fees have been reduced from \$50 to \$25 a team.

Dr. F. W. Blinn, who has been a physician at Kelly, N. M., for a number of years, passed through the city this morning on route to Ohio. Mr. Blinn was accompanied by his family, and he is going to Ohio to live.

SHEEPMEN CLEAR THREE MILLIONS

Lambs at \$3 Per Head Soon Count Into Big Money.

STATISTICS TELL VOLUMES

The movement of New Mexico spring lambs to feeding pens of 1,000 acres has begun in earnest. From every part of the territory comes stories of large sales and large shipments, and a great scarcity of cars. Apparently, the railroads cannot supply the demand for cars, although railroad men claim that every bit of equipment they have is in service.

Hon. Solomon Luna held several thousand lambs in the neighborhood of Estancia several days, waiting for cars that could not be furnished by the Rock Island. However, these sheep are being loaded today. Mr. Luna left last night for Magdalena, where he is holding lambs enough to load four trains, and in this instance, also, cars are tardy in arriving.

One train of thirty-one cars of sheep left the local stock yards yesterday, after the owners had waited many days for cars to carry them. These sheep were sold to the firm of Rogers & Payne, feeders, and are being shipped to Oklahoma and Colorado. They were sold by the auctioneer, and Charles Chadwick Sheep Commission company. The sheep sold by Mr. Luna were purchased by Colorado feeders.

What it means to New Mexico.

But what is most interesting, is what this great migration of sheep means to the people of New Mexico. The shipping season continues from October 1 to February, and during this time it is estimated that more than 1,000,000 sheep will be shipped to northern buyers. Harry P. Lee, clerk of the New Mexico sheep sanitary board, says that this number of lambs reach 1,000,000, or possibly a little more. Since the inauguration of the sheep dipping and quarantine laws, the facilities for handling the movement of sheep to and from the territory is greatly augmented. All sheep shipped must be dipped, and the reports of the inspectors furnish reliable statistics. October reports have not been received here yet at the office of the sheep sanitary board, but Mr. Lee says that he has a surmise that the season is opening with unusually large shipments.

And the price being received by the sheep men is very satisfactory. The best spring lambs are bringing 4 1/2 cents per pound, and on an average, early-born lambs are bringing from \$2.75 to \$3.15 per head.

To ascertain just what this year's sale of sheep will bring into the territory in cash, multiply 1,000,000 by the above figures and the result will be more than \$2,000,000.

Sales Equal Increase.

Judging from statistics furnished by the census bureau, this year's sales for shipment out of the territory will almost equal the increase of the years 1901 and 1902, which is given at 1,528,514. From these statistics, unless the increase of the last year has been abnormal, it is quite evident that the high price and the great demand for sheep, which exists at present, will soon decrease the number of sheep in New Mexico.

In the year 1900 there were 3,242,322 sheep in New Mexico, according to the government census, and in 1902, this number had increased to 3,602,447. The past two years have been comparatively good years for lambs, and in accordance to the above statistics as to sales, the number in New Mexico at present must be somewhere between the five and six million mark.

FOOT BALL LUMBERMEN CHALLENGE LAS VEGAS

REQUEST FOR A GAME IS BEING GIVEN SERIOUS CONSIDERATION BY MEADOW CITY SOLDIERS.

Apparently, there is a prospect of a foot ball game between the American Lumber company eleven and a team being organized by Troop A, National Guard of New Mexico, at Las Vegas.

Henry Dixon, manager for the lumbermen, sent a challenge to Colonel Ralph Twitchell asking for a game with a Las Vegas team, knowing the colonel's sporting proclivities and feeling sure, of course, that if Mr. Twitchell was not at the head of a foot ball team, the challenge would be turned by him into a channel in which it would reach the right party. And apparently, it has reached its intended destination. Colonel Twitchell turned it over to Troop A, and the Optic says that it has been given serious consideration; that a team has been organized and is practicing daily, getting ready for a game with the lumbermen.

It is undecided as yet whether the game will be played on the local gridiron or at Las Vegas.

"The Chaperons" company, numbering fifty people arrived this morning on a special train from El Paso, where they played last night to one of the largest houses ever in the opera house there. The company will appear at the Elks' opera house here tonight, and judging from the sale of seats, the capacity of the opera house will be tested. This company is one of the best we will have this season.

Dr. F. W. Blinn, who has been a physician at Kelly, N. M., for a number of years, passed through the city this morning on route to Ohio. Mr. Blinn was accompanied by his family, and he is going to Ohio to live.

GAMBLING AND SALOONS

At the present time there is an undeniable movement all over the country in favor of drawing, in every department of life, a stricter line of demarcation between right and wrong doing. This can be seen in the efforts for overthrowing of socialism in politics, of at it in office, of embroiling in positions of trust, of adulteration in foods, of discriminations by common carriers, of restraints of trade for corporation or personal aggrandizement, of easy annulling of marriage ties, of uncontrolled selling of liquors, and of open gambling, whether it be in futures, in horse racing, or on the wheel or the green cloth.

All these things are being attacked with a vigor which is alike intelligent and determined, and of which the ultimate triumph cannot be doubted. In New Mexico it is the Sunday saloon and licensed gambling which are receiving at the present the largest measure of attention, and there seems to be little if any doubt that the warfare waged against both will be completely successful and that, too, in the very near future.

J. J. Hagerman, in the Pecos valley, has written a very strong letter on the subject of gambling, in which he states that New Mexico and Arizona are the only parts of the United States where gambling is authorized by law, and in which he points out clearly and unambiguously the evils resulting from such condition. The daily press of the territory has taken up the subject, and The Citizen believes without a dissenting voice has declared against licensed gambling. Several of the churches have taken advanced ground in the matter, and will petition congress to put in the enabling act, whether granting separate or joint statehood, a provision declaring gambling to be a crime against the commonwealth. The fact is pointed to that bank deposits have doubled in El Paso since the closing out of gambling in that city, over what they were during a similar period before the closing; and those who are in position to feel the public pulse are well assured that in case of statehood, the constitutional convention, or without statehood the next territorial legislature, will undoubtedly place gambling under the ban of outlawry; while even before the meeting of either convention or legislature, it is more than probable the leading cities of New Mexico will have banished open gambling by prohibitive license. Nothing whatever can be said in favor of gambling, and everything can be said against it.

When it comes to the open saloon on Sunday, it is well known that the laws of the territory are now amply sufficient to close them all, and it is believed that the district court judges all favor the enforcement of these laws. In fact, it was recently said that Albuquerque was the only town in New Mexico where the law was openly defied. Since then many, and it may be all, saloons in Albuquerque voluntarily closed their doors on Sunday; but the charge has been made by a paper published in this city that only the front doors have been closed, while the rear doors are kept open on the latch. This charge has been taken up by the press of the territory, where absolute closing is claimed, and much has been made of it to the discredit of the Duke city. Whether the closing inaugurated by the saloon men themselves, be actual or merely of the front door, The Citizen has no knowledge; but it is willing to candidly confess that it does not believe such partial closing will meet the demands of the people or satisfy the purpose of the authorities.

MISS ALICE'S PRESENTS

The fact that Miss Alice Roosevelt received presents in the Orient valued at \$100,000, the duty upon which will reach at least \$50,000, has caused no little comment in the press of the country. One party says that because Miss Alice is daughter of the president is no reason that she should not be treated as any other American girl would be treated, and that since she is wealthy in her own right she ought to pay the proper and full duty on the property she acquired in her trip.

The other party declares that these presents were given Miss Roosevelt by the nabobs and mikados and emperors and such, of the far east, because she was considered by the givers as the daughter of the ruler of this country, and therefore of royal blood by position, if not by consanguinity, and thus the gifts were really testimonials of regard for our nation rather than for the interesting young lady. It is shown, they were bestowed. They add that the gifts were such as Miss Alice did not desire and certainly would never have bought; that she accepted them for fear of offending the well meaning donors, and thus incurring their ill will for our country. Hence, Secretary Shaw proposes a special act of congress admitting these gifts without duty, and a civil servant, with more civility than sense or propriety, proposes to lead in a public subscription to raise the necessary \$50,000.

To The Citizen there seems a plain, easy and just settlement of this editorially much vexed question. This settlement, which may have suggested itself to others, but which this writer has not thus far seen in print, is that Miss Roosevelt select such of these presents as she may desire to retain as souvenirs or for other reasons, and on these let her pay the legal duty. The remainder of the presents let her turn over to the government, to be preserved in the Smithsonian Institute, or some other national museum; and for this congress can, if it so pleases, pass a special bill for free admission.

ALL COUNTERFEITS

The president of a bank, when asked by a young clerk how he could distinguish the bad bills from the good ones, said: "Get acquainted with the good bills, and you will recognize the bad ones at sight."

This homely, pointed advice applies not only to the detection of counterfeit money, but with equal force to the detection of the counterfeit and false in all departments of life. The man who is accustomed to handling only good corn, good wheat, good potatoes, has no difficulty in detecting the faulty. He detects it instinctively. Even without conscious reasoning, he fixes precisely upon the fault. The skillful egghead passes good eggs before the light with a rhythmic rapidity that is amazing; but an imperfect egg breaks his complacency and interrupts his process. To the trained musician, accustomed to doing and knowing high work, a false note comes like a stab of pain. The skilled grammarian, the close reasoner, the accomplished rhetorician, cannot avoid noticing faulty figures of speech, fallacious arguments or grammatical solecisms.

Anyone, in any occupation, who is fully engaged on the right thing will have no difficulty in recognizing the wrong. Right and wrong are as far apart as day and night, and he who is accustomed to walk in the light is quick to note the shadows. The boy or girl soon learns to know and despise the loose and vulgar.

There is but one way to know the bad, the imperfect, and that is by knowing the good, the perfect. It is a rule that applies far beyond the detection of counterfeit money; it is the right rule for the detection and the correct estimate of the spurious and base in all phases of life.

Having stated that fully 2,000,000 head will be the number of sheep sent out of New Mexico the present season, and that the wool crop is a bumper, the New Mexican remarks editorially that the present year has been the banner year for the sheep men of this territory; and then, lest we forget, the fact is brought to the remembrance of the people of New Mexico that under the democratic administrations of Cleveland wool sold at from 75 cents to \$1.50 while under the subsequent republican administrations wool has brought from 15 to 25 cents per pound and lamb and sheep have sold from \$2.00 to \$4.50 per 100 pounds. The point is well made. New Mexico wants no more democratic administrations.

RUSSIA'S CONDITION

The most formidable product of the people of Russia against autocracy ever known in that dark, priest-ridden land, is now attracting the attention of the civilized world. Though a tremendous movement, there is little probability of its success, for the reason that the movement is confined almost, or quite, exclusively to the larger towns and cities. The participants in the movement are the artisans, students and a few of the professional classes; and what has given to the movement the ability to assume its present magnitude, has been the strike of railroad employees, cutting off connection between towns and towns, the capital of the empire from the provinces, and nearly the whole country from the rest of the world.

The reason of the uprising is plain. To stimulate devotion to the autocrat, which in that country passes for patriotism, the czar, during Russia's dismal failures by land and sea, promised the people a constitutional assembly, thus giving them a voice in their own government. But no sooner had peace been made than Nicholas, with the proverbial perfidy inherent in blood and tradition in the Romanoff race, flatly refused to fulfill his promise. After long delay, the imperial rescript was finally issued, and the people found that for the bread they asked they had been given a stone, for the faith they demanded they were offered a serpent.

The meeting of a national assembly was provided for, but its powers are so circumscribed that it is made merely an advisory body, at best, restricted in its discussions and recommendations to matters of minor importance. The imperial rescript prohibits the discussion of the more vital questions and principles of government. The Duma, or national assembly, is not endowed with any legislative functions. The czar retains autocratic authority. The assembly will not, in fact, be even a representative body, as all of the industrial classes and 80 per cent of the professional men in the empire are excluded from the right of suffrage in the election of its members.

This betrayal of the people is the cause of the uprising, but its weakness lies in its want of connected action, of organized leadership, of definite and well planned movement to a definite and common end, its great weakness, and that which will probably prove fatal in a few days at most, is the want of preparation. There is lack of arms and ammunition; and worse than all, there is lack of food. The strikers, who are the laboring classes, must soon go to work or die. As soon as the trains begin to run, troops can be rushed into the towns, and then will begin anew the work of slaughter, of imprisonment and of exportation to the living death of Siberia.

The revolutionists demand liberty of the press, liberty of speech, right of public assembly, freedom from arbitrary arrest and imprisonment, constitutional participation in government, and universal suffrage. These things the present government will never grant, for while Nicholas is weak and wavering in matters of detail, like all weak characters he is impregnable in his pride and prejudices. Rather than surrender one jot or tittle of his autocracy, to which he has succeeded through a long line of ancestors and which he imagines himself to hold by divine right, there is no doubt that Nicholas, autocrat of all the Russias, would willingly lay his head upon the block and give up his claims only with his life.

WISE CITY COUNCIL

The city council of Socorro has taken a wise step in granting to Max Kirchman an option on the lands in the Socorro grant belonging to the city of Socorro, the purpose of Mr. Kirchman being to plant there a colony of Bohemians.

These people, whose homeland is a part of the Austro-Hungarian empire, are a thrifty, energetic, industrious class of immigrants, and their location in Socorro and the adjacent parts of the Socorro valley will be of almost incalculable value. Hence, the wisdom of the council in granting the option on the land, and placing its price at two-thirds of its last appraised value, cannot be too highly commended.

But the council was even wiser yet in the safeguards which they threw around the option. They did not suffer their desire for the undoubted benefit to be derived from the location of the colony, to blind them to their duties to the city. Hence, the conditions of the option are that the lands must be paid for within nine months from the date of the council's action and that within the first six months of that time Mr. Kirchman must have obtained artesian water, or have drilled to the depth of 1,000 feet, or have expended in the effort thereto, not less than \$5,000, on the lands to be purchased or in the immediate vicinity. The citizen congratulates the Gem City on the prospects of this great benefit.

The number of the anti-statehood press of Arizona is growing beautifully less every day. Their entire effort now is to prevent the consideration of the statehood question in congress; as they know what the result will be if the bill is brought up before that body. It is too late. The statehood train has got on a full head of steam and it is running on full time and gaining every day in its rapidity of movement. The people have dropped the politicians and are doing their own thinking and own demanding, and this is what will move congress to take up the question early in the session and determine the same forever. There is little doubt but that the enabling act for the admission of the four remaining territories will be passed and approved by the president before the first day of January, 1908, the opposition of the politicians notwithstanding.—Tucson Star.

Will the people be sensible enough to believe the Miner when it tells them that Honorable Frank Murphy could not get a single member of the committee on territories of the house to come to look "at the conditions" in Arizona? Have we not told you that the gentlemen in congress, both in the senate and the house, are simply playing politics? And won't you believe us? Mark our words, that is all there is to it. Of course, there are many around here who hate to see or hear the Miner speaking the truth, but that is the truth. That's all the other fellows are playing, too. Nothing in the world but politics! What a farce that "will of the wisest" fool trip was through this territory! The Miner gives you the fact that it was not dazed by the royalty of private cars for private congressmen. That goes for lovers of flabbiness.—Journal Miner.

Great is the Morning Journal and greatly to be praised. Even Philadelphia is now slowly plodding along the trail which the Journal, all alone by itself and with its own and exclusive little hatchet, blazed out three years ago. No doubt, if only the facts were known, it was the Morning Journal, and not Christopher Columbus who discovered America, while the Morning Journal also wrote the Declaration of Independence, so long but so woefully neglected by Thomas Jefferson.

Arizona has a queer case on its hands. One Teodoro Elias was convicted of the murder of Wm. Katsenstien, a police officer, and twice sentenced to death on the gallows. A jury summoned by the sheriff found Elias insane and the death sentence was never carried out. The facts were presented to Governor Kibbey, but he intimated to the district attorney that it was beyond his power to commute the sentence. The question which is puzzling the district attorney and the supervisors is whether Elias must be maintained during his life time as a prisoner in the Tucson jail at the expense of the county. They believe that inasmuch as he is insane and the death sentence cannot be carried out, he should be sent to the territorial prison.

Blessed is the simple life. Immorality in the high circles of society is due to the food on which the wealthy people live. So says Eugene Christian, the food expert. In a recent address before the National Purity League, Mr. Christian said: "Highly spiced and seasoned foods, such as are eaten by the wealthy classes, have a tendency to over excite the passions, thus making immorality easy. Plain, healthful, but coarse food builds up the laborer mentally, morally and physically." This statement of food declares that a shocking immorality exists in the society of the very wealthy. The food they eat, together with idleness, is the cause of the loose morals.

TELL THE TRUTH IT IS BETTER

Vicious Falsehood About the Santa Fe Central by a Philadelphia Paper.

FACTS VERY BADLY DISTORTED

In the Philadelphia North American of October 24th, in a three column article concerning the affairs of the defunct Enterprise National bank of Allegheny City, Pennsylvania, and which article contains many innuendoes and insinuations, based upon nothing but hot air concerning the connection of Delegate W. H. Andrews of New Mexico, with the affairs of the failed bank, the following is printed:

"Side-light on 'Bull's' Road."
"More interesting information about the 'Bull's' road is given in New Mexico, which money was actually furnished with funds from the failed Enterprise State depository, reached here today. The little road is said to be equipped with one tiny locomotive, two small combination cars for the traveling public and for freight and a luxurious ballast car for the use of President 'Bull' Andrews."

"In this piece on wheels the 'Bull' has journeyed in style to Washington and other places, the expense of hauling it over the big roads being borne by a Santa Fe engine, midway between Rodriguez and Kramer. The engineer and fireman saw a bundle in the center of the track and stopped the train. It proved to be a man's coat, made into a bundle, with a \$400 draft pinned to the upper side. The owner of the coat was found in the brush a little ways off, where he had crawled to die. He was taken to Barlow where he is gradually recovering. He said he had been to Death Valley. He had missed all the water holes and his two burros had died. He had been without water for forty-eight hours."

"Story is False."
The above is an unmitigated falsehood, but we will not quarrel with the part of the North American, this paper cannot say, says the New Mexican in its comment. That it is intentional on the part of the man who gave the information, is patent and that the North American, that is utterly and viciously twisting the Pennsylvania Republican state ticket, did not wish to pose itself on the truth or falsity of the report is also patent.

A representative of the New Mexican called on Assistant General Manager S. H. Grimshaw of the Santa Fe Central and asked him what Mr. Grimshaw stated that the business of the Santa Fe Central was steadily on the increase, that the road now had about 100,000 head of sheep ready for shipment and that during the past few months the business had increased so that the profit was about \$100,000 more than the operating expenses and more had been paid during these months.

Gives Equipment List.
As to the rolling stock, etc., Mr. Grimshaw addressed the following letter to the Editor of the New Mexican, Santa Fe, New Mexico:

"Dear Sir:—At your request I beg to advise that the engines and equipment on the Santa Fe Central road are as follows:

- Locomotives, 6; Mogul type, cylinder 18x24.
- Combination cars, 2.
- Two coaches.
- Two cabooses.
- Twenty-four box cars.
- Four flat cars.
- Fifteen gondolas.
- Fifteen tank cars.

"The company has no special car of any description. Employees are paid promptly on the 15th of each month."

Yours truly,
"S. H. GRIMSHAW,
Assistant to President and General Manager."

No Private Car.
In this connection it is well to state that Delegate Andrews has never traveled east in a private car since he has been a resident of New Mexico. Whether he travels on passes or not, the New Mexican does not know and does not care. The chances are that he goes and the man who blames him for that and because he takes advantage of the privileges of his position as president of a railroad in this respect, is certainly more or less of a "dam fool." There is not a railroad president or railroad manager in the country who does not receive free transportation over other roads as a matter of courtesy and in exchange, and certainly no defense of the delegate in this instance is necessary."

PLAN FORMULATING FOR HOSPITAL CARS.

Dr. A. H. Farabee of Chicago, passed through the city Sunday night for California, where he is going in the interests of a company that is being formed to establish at some California point a model sanitarium for tuberculous patients.

While at Santa Fe Dr. Farabee told a representative of the New Mexican about a newly designed hospital car that the Santa Fe, Rock Island and Southern Pacific railroads are thinking of putting on their different roads. The car contains all modern appliances usually found in a hospital, the doctor seat, and in addition has a dietary kitchen, movable operating tables and works, so constructed that they can be raised or lowered to any desired height. When not in use these berths sink into the floor of the car, leaving the floor space free, with movable chairs for seats.

In the doctor's opinion, that has yet been devised and he thinks that in a short time all roads running into the western country will have their trains equipped with one of these hospital cars.

RAILROAD ACCIDENTS IN UNITED STATES.
In reporting the railroad casualties in the United States for the last fiscal year, the Interstate Commerce Commission gives figures which are startling when compared as follows:

There were 250 passengers killed in train accidents, about the number of voters there are in a fair sized voting precinct.
In train accidents there were 6,498 passengers injured, equal to the population of Marysville, Ky., or Seymour, Ind.
Comparing deaths and injuries there were 6,548 casualties among passengers in train accidents, the same as if the entire population of Gloucester, N. J., or of Greenville, Tex., or of Griffin, Ga., or of Xenon, O., or of New Iberia, La., or of Peru, Ill., or of

Winsted, Conn., had been hurt in one wreck.

There were 187 passengers killed in other than train accidents, and 2,542 injured. This makes a total of 537 passengers killed, and 10,040, the population of Marquette, Mich., injured.

The total casualties for passengers was 10,577, or about the population of Manila, Spain.
The employees fared worse than the passengers. There were 739, or more than two per cent, killed in train accidents, and 7,052, about the population of Temple, Tex., injured. This makes a total equivalent to the population of Everett, Wash., or Madison, Ind.

In other train accidents there were 2,465 employees killed—more than six daily—and 33,744 injured, about the population of Little Rock, Ark., or of Springfield, O.

The total of employees killed in every way was 3,366, and injured 37,740, or a total of 41,102 casualties, or as much as the population of Aurora, Ill., and Everett, Wash., combined.

The grand total of casualties, passengers and employees, is 79,639, the same as if every resident of Evansville, Ind., or Hoboken, N. J., had been lost on a battered life like that of Stundin.

DYING MAN PICKED UP BY TRAIN CREW

PROSPECTOR RICHARDSON, WHO HAD BEEN TO DEATH VALLEY, DISCOVERED ON THE DESERT NEAR CRAMER.

A man named Richardson came near perishing on the desert in the vicinity of Kramer Thursday afternoon, says the San Bernardino Index. He was rescued in the nick of time by a Santa Fe engine, midway between Rodriguez and Kramer. The engineer and fireman saw a bundle in the center of the track and stopped the train. It proved to be a man's coat, made into a bundle, with a \$400 draft pinned to the upper side. The owner of the coat was found in the brush a little ways off, where he had crawled to die. He was taken to Barlow where he is gradually recovering. He said he had been to Death Valley. He had missed all the water holes and his two burros had died. He had been without water for forty-eight hours.

PRELIMINARY SURVEY BETWEEN GALLUP AND CLIFTON

The first of the work a part of the surveyors started the preliminary survey on the line between Gallup and Clifton, says the Republican. The survey is being made for the proposed power wire to be stretched between Clifton and Gallup. The power will be generated at Clifton and conveyed over the line to the mines and reduction works at Clifton and Metcalf. The surveyors have completed the work at this end of the line. While in Gallup they were camped near the Cotton corral. This plan of generating power at this point, thereby saving freight charges and conveying the power by wire will be watched closely by the owners of mines in the vicinity, for should the Arizona Copper company make a success of their plan, other companies will undoubtedly follow suit, and a market will be found for the fuel which abounds so plentifully in this vicinity.

MAKING IMPROVEMENTS TO THE ALVARADO

Workmen are now busy making needed repairs to the cornice and stucco work about the Alvarado, and when finished, the exterior of the big hotel will present a much better appearance. During the past year the decorations about the cornice and the have been dropping away, and this has made the exterior of the hotel look somewhat shabby. The work will take considerable time, as it is necessary first to remove all the old decorative work with a chisel, as it is based on rock. When this is done, the frieze and scrolls and other art work about the edifice will be renewed. The Santa Fe station is also coming in for a share of these improvements.

FINANCIAL REPORT OF SANTA FE ROAD.

The financial report of the Atchafalaya, Topeka & Santa Fe Railway company for September and for the quarter ending September 30 has been issued. The statement shows an increase of \$7,500 in the net earnings for September. The following is the report:

Gross earnings	\$4,657,931.55
Operating expenses	3,552,167.35
Net earnings	2,505,664.60
Taxes and rentals	198,027.93
Increase from operation	2,407,636.67
Average operated mileage	8,423.21
For Three Months	
Gross earnings	15,109,777.60
Operating expenses	11,500,291.00
Net earnings	6,609,385.00
Taxes and rentals	566,613.00
Increase from operation	6,042,772.00
Average operated mileage	8,423

The appointment of E. L. Mooney to be assistant general auditor of freight receipts of the Santa Fe railroad, with headquarters at Topeka, was announced Saturday. Mr. Mooney succeeds J. D. Stewart, resigned. He has been chief clerk to W. J. Healy, general auditor of freight receipts.

Charles B. Eddy, promoter and former president of the El Paso & Northwestern railroad, has arrived in El Paso from New York.

NATIONAL GUARD TAKES PART AT ALABAMA FAIR.

Birmingham, Ala., Nov. 1. — The managers of the Alabama State Fair Association, with the officers of the National Guard, were wise when they offered the attractive prizes they have for the liveliest kind of interest was awakened, and the attendance to-day, which is the first of these days, was beyond precedent. While the sham battle will not take place until tomorrow, the drilling today presented many attractive features and kept the interest of the spectators until the last move was made, and the last drill executed. The companies pitched their tents inside the race track, the entire space being cleared for the evolutions of the companies. The drill grounds for company maneuvers are each 300x250 feet. Three United States officers acted as judges of the drills. A dozen companies from Mobile, Birmingham, Montgomery, Anniston, and other cities, competed in the drills and some of the maneuvers were executed with remarkable dash.

Colonel W. S. Hopewell returned to the city last night from a business trip to Santa Fe.

SPORTING... ...BREVITIES

Plans are maturing to take an all-star western foot ball team and this fall to play with teams representing the athletic clubs at Chicago, Cleveland, Cincinnati, Philadelphia, Boston and New York. The line up of the proposed team is as follows: Right end, Earl E. Bennett; right tackle, Burke, Wisconsin; right guard, Le-rum, Wisconsin; center, Robt. Wisconsin; left guard, not selected; left end, Bruce, Minnesota; quarter, Fogg, Wisconsin; right halfback, Hoston, Michigan; left halfback, Rinday, Wisconsin; fullback, Vanderboom, Wisconsin.

Willie Hoppe's failure to draw Geo. Stinson into a billiard match may return him a go with Champion Vignaux, the Frenchman. A Paris billiard firm has opened negotiations with Hoppe to cross the ocean to meet Vignaux, and it is likely that "the wonder" will accept. Stinson still insists that it would not pay him financially to meet Hoppe, except in an international tournament.

Tommy Ryan, who "always leaves them laughing" when he says goodbye to the ring, has decided again that he is not ready to retire, and he is seeking a fight with Jack (Twins) Sullivan. Sullivan recently secured a judgment over Tommy Burns, a 20-round bout before the Pacific A. C. at Los Angeles.

Joe Bernstein, the "Ghetto" featherweight, has emerged from a long retirement, and would like to take a crack at Tommy Murphy, the Harlem featherweight.

De Groot, who occasionally plays the outfield for the St. Louis National League team, is a slum buster. Here's a pleasant bit that's going the rounds about his cute antics: "He keeps the fans in the bleachers in good humor. Every time a fix comes he turns to the crowd and says: 'Here comes a ham sandwich. Watch me eat it up.'"

Michael J. Dolan may open a saloon on Broadway in New York. His friends are telling him that with his immense popularity he ought to cop out the coin like a life insurance president.

Charlie Mitchell made the statement the other day that he was the first man to ever knock John L. Sullivan down. Mitchell is 43 years old, and could knock the wars ago, when Corbett took his measure. Corbett was no more than ten years when Charlie Mitchell was on earth, doesn't it?

The boxing fraternity will soon be marching to Georgia, if everything goes well. The lid is being piled off at Savannah, with excellent prospects. It will be clear off the canvas, free from the clutches of the Georgia state police. Arthur Duffey, the speedy sprinter, who holds the remarkable record of 9.3 seconds for the 100 yard dash, announces that he will never run again. If the Georgetown man is firm in his intention to quit athletics for all time, then the Georgia state police, the fastest of the fastest American sprinter and for a long period of time the fleetest man in all the world.

It seems that alleged offer of \$25,000 by a Detroit named Rudolph for the Toledo franchise in the American Association, has been rejected. Corbett is a simple minded young man who is "nuts" on base ball. As a matter of fact, the Toledo franchise is a most valuable property, and there isn't a better base ball town in the country for its size, with a winning team. Detroit is not so much when it comes to supporting a first class base ball aggregation.

The gong has sounded for Young Corbett. His bout with Young Erne demonstrated that Father Time has put a crimp in his pugilistic aspirations, and that it is time for him to back out of the limelight. Corbett is one more illustration of the fact that a pugilist can't hold high carnival with wine, woman and song, and then reform by cutting out the singing part and work his way back to his former physical condition in a month's training. About the only thing left for Corbett is a succession of defeats by second raters until he finally drops entirely out of sight.

Sir Thomas Lipton, the gamest old sport that ever sold a pound of tea, has decided to make one more attempt to lift the American flag to the top of the mountain. He has promised to appear off Sandy Hook with another fleet of Shamrocks, in the hope of carrying away the coveted trophy.

Gus Rubin is buying real estate instead of Old Rhine wine. Rubin is said to be one of the district sons, and when the final punch comes to stop his ring career he expects to own enough land to live in ease and ride in an automobile.

"Kid" Lewee, the sunny-topped "second baseman of the Decatur club, in the Three I League, has been appointed manager of that team for next season.

ELKS TO INVITE EXALTED RULER

THE EL PASO ORDER MAKING ARRANGEMENTS TO DEDICATE NEW HOME ON ANNIVERSARY OF LODGE ORGANIZATION.

According to present arrangements the dedication of the new Elks home will take place on the anniversary of the organization of the lodge. This will be next February, says the El Paso News.

Work on the repairs and improvement of the building will commence about the middle of next month, by which time the children now attending the old Central school will be installed in their new quarters.

It is, therefore, expected that the proposed improvements on the former building will be completed and the structure ready for occupancy by the anniversary day of the order.

The occasion of the Elks entering their new home will therefore be doubly important, and an elaborate program will be prepared to celebrate the event.

An effort will be made to secure the attendance of Grand Exalted Ruler Robert Brown to deliver an address and take part in the dedicatory exercises.

A GOOD REPORT.

It is reported that William Fox, a nephew of Henry Fox, and who spent some months at Las Cruces a few years ago, was married down in Mexico to a niece of Colonel Greene, the millionaire mine owner, and was given \$20,000 for a wedding present.

Prof. R. S. Moore, of Las Vegas, is here on business and pleasure, combined.

LEGAL BATTLE HAS OPENED

Many Acres, Involving Title Thereto, Now Before the Courts.

HISTORY OF INTERESTING GRANT

The case of the Protective Association of the town of Costilla vs. the United States Freehold Land and Immigration company had its first hearing yesterday morning before Judge John R. McFie, of the First Judicial district court, at Santa Fe. This case is one of the most important that has been up for trial in the district court for some time, inasmuch as the land involved in the suit amounts in all to almost 250,000 acres. The land in litigation is situated in the northern part of Taos county, and is a part of the Sangre de Cristo land grant.

History of the Grant.

In the year 1844, the Mexican authorities made a grant, containing 1,000,000 acres, to certain Mexican citizens. In the northern part of Taos county, which then included what is now part of southern Colorado, for colonization purposes. In 1840, the congress of the United States confirmed this grant made by the Mexican authorities, and the lands therein contained were afterwards acquired by purchase by the United States Freehold Land and Immigration company. Almost 250,000 acres of this grant are situated in what is now Taos county in this territory, and on this the towns of Costilla, Questa and others are situated.

On December 2, 1880, a patent was issued by the land office at Washington, giving the United States Freehold Land and Immigration company a clear title to this immense tract.

Since then the land has been sold and divided, until now the above company owns in its possession about 250,000 acres, the amount in litigation in the present case. This is located entirely in New Mexico, being in Taos county, in the northern part of the territory.

Cause of Suit.

In the little town of Costilla live some 34 settlers who came to that part of the country ten or more years ago, settling upon part of this land grant, situated in and around the town. They have since built up to the present site. They were a thrifty class of settlers, and for years they tilled the soil reclaiming the arid land from the desert wastes. The United States Freehold Land and Immigration company, recognizing the fact that they were a thrifty lot, permitted them to drill their own free from rents and taxation, allowing them the income they derived as fruits of their labor in return for cultivating the soil and building up the country. For a period of ten years they dwelt upon the land in undisputed possession, and for the first time when they felt that the land was theirs by right of possession, inasmuch as they had dwelt thereon for ten years and forthwith announced themselves as owners, under the laws of New Mexico in reference to the statutes of limitations.

Ejectment the Action.

The United States Freehold Land and Immigration company, claiming that the land was theirs by right of the grant made in 1844, and since confirmed by congress, and claiming that they had paid taxes upon it since the patent had been issued them in 1880, denied the right of the Costilla settlers to the land, and had the present suit is the result. The Costilla settlers claim the land by settlement under the New Mexico statute of limitation and the United States Freehold Land and Immigration company wishes them evicted. That is the case as it now stands.

Much Legal Talent.

Yesterday morning at 9 o'clock the attorneys that have been retained on each side met in the First judicial district court in the opening battle of the struggle for these thousands of acres. Abbott & Abbott, of Santa Fe, assisted by Albert Smith, of Denver, Colorado, together with E. C. Van Deuse, manager of the Costilla Land and Investment company, of Colorado Springs, are representing the United States Freehold Land and Immigration company, while Charles A. Spess and O. A. Larrazolo, both of Las Vegas, are representing the 34 settlers of the town of Costilla, who are bringing the suit to determine the ownership and right of title to the 250,000 acres. In the name of the Protective Association of Costilla.

THE FAMOUS OLD ORTIZ MINE SOLD

UNDER EXECUTION, BY SHERIFF OF SANTA FE COUNTY, TO SATISFY JUDGMENT.

Undersheriff J. L. Lopez, on Saturday last on the Ortiz mine grant in southern Santa Fe county, near Cerillos, sold the famous Ortiz mine, the property of the Ortiz Mining Company, for the sum of \$255, to Robert C. Gagner, of Santa Fe, to satisfy judgment obtained by James A. Jackson in the sum of \$435 for services rendered the said company. The judgment was obtained in the First judicial district court for Santa Fe county. An execution to collect the same was duly issued September 5, last. The undersheriff acted under his authority. The Ortiz mine was one of the earliest mining properties operated in what is now New Mexico, and was at one time worked by the Spaniards as early as the sixteenth century. It was a great gold producer at one time, but of late has been in a dormant condition. The stockholders of the Ortiz Mining company are scattered over many sections of the country, but it is understood that a good many of them live in St. Louis. The Ortiz Gold Mining company was reorganized a few years ago, and the records show that this was done May 6, 1901, with a capital stock of \$5,000,000, for a term of

Movement No. 7.
This movement is very easy, but it
be done with thoroughness to be
effective.
Simply lift the arms as high above
head as you can reach, observing
feeling of being stretched, at the
el, and endeavoring to emphasize
as much as possible, even straining
pull the hips from the trunk, as it
re, and putting a slow, strong lem-
on the muscles, rather than a
ck, jerky one.

ALL CLASSES REALTY IN LATE SALES

Transfers Recorded During Past Month Indicate a Healthy Condition.

ACTIVITY HAS ONLY COMMENCED

Every class of property has figured in the real estate transfers for the past four weeks. There has been a strong demand for the best class of city building property, there has been a ready market for homes in addition, several pieces of business property have changed hands and in the outskirts some land has been acquired for farming on a small scale.

No inflation of prices has been recorded in any of the figures that have been made public. There has been a steady, and in some cases, a great increase in former prices, but the increase has not been greater than warranted by the growth of the city, so real estate men say.

The transfers recorded in the office of the probate clerk during the past four weeks follow:

October 1.—A. Simpson to Frank R. Brown, the north half of lot 4, block B, Simpson addition, \$100.

October 4.—Andrew W. Pedersen to Mrs. Ella La Bar, lot 7 and the north half of lot 6, block B, Simpson addition, \$21.

October 5.—W. S. Strickler, et al. to Irene Shoenberger, lots 1 and 2, block Y, New Mexico Town company's addition, \$100.

October 6.—Mrs. Mina Wink to P. E. Sullivan, et al., the south 50 feet of lots 104 and 105, block 9, P. Armijo Brca's addition, \$1.

October 7.—Broadway Land and Investment company to Halile Pennell, lot 10, block 13, Eastern addition, \$1.

October 7.—Hugh N. Allison, to Charles Melini, the north 24.3 feet of lot 7, block 8, Original Townsite, \$1.

October 7.—Norman L. Kommerer and wife to Mrs. Frank Cochran, the north 50 feet of lot 6, block T, Atlantic and Pacific addition, \$100.

October 9.—J. B. Herndon and wife to Julia A. Glaesner, lot 2, block 6, Lewis & Simons's addition, \$1.

October 11.—W. W. McCallum to O. N. Macdon, lot 18, block K, Mandell B. & H. addition, \$1.

October 12.—A. Trimble, et al. to Walter G. Hope, part of lots 4, 5 and 6, block Highland addition, \$1.

October 13.—D. A. Porterfield and wife to Charles Umflet, lots 11 and 12, block 19, Eastern addition, \$1.

October 13.—Charles C. Davis and wife to George E. Rodolfo, lot 7, block 2, Lewis & Simons's addition, \$425.

October 14.—Mary F. Wing to Mary F. Harris, lots 3, 4 and 5, block B, F. Armijo y Otero addition, \$1,000.

October 14.—J. M. Moore Realty company, to Sarah C. Nail, lots 39 and 40, Moore Realty company's addition, \$250.

October 16.—J. E. Tinsley and wife to D. A. Porterfield, lots 2, 4, 5 and 6, block 28, Eastern addition, \$1.

October 16.—J. B. Herndon and wife to Andrew C. Postel, lot 1, block 8, Lewis & Simons's addition, \$1.

October 16.—Fred B. Heya and wife to H. N. Allison, lots 1 and 2, block 35, Original Townsite, \$1.

October 16.—Christina Kent and husband, to Fred A. Kent, one-half interest in lots 1 and 2, block 35, Original Townsite, \$300.

October 16.—J. E. Tinsley, one-half interest in lots 1 and 2, block 35, Original Townsite, \$300.

October 16.—Francis Henning and wife to F. H. Lamon, lots 1 and 2, block G, Highland addition, \$1.

October 17.—J. A. Henry to Matthieu Mammertman, lots 4 and 5, block 2, Brownwell and Lall addition, \$1,000.

October 17.—B. A. Sleyator and wife to J. H. Griest, lot 4, block 16, Eastern addition, \$210.

October 18.—Lottie W. Galles and wife to J. B. Rutherford, one-half of lots 23 and 24, block 19, Perera addition, \$300.

October 18.—Neill B. Field, executor, et al., to Frank H. Moore, lots 13 and 14, block 2, Baca addition, \$1.

October 18.—Frank H. Moore and wife to Neill B. Field, same property as above, \$1.

October 18.—Albuquerque Land company to George Jacob Korber, lots 7 and 8, block B, A. & B. addition, \$1.

October 19.—John G. Caldwell and wife to Albuquerque Land company, lots 1 and 2, block 15, ad lot 6, block 9, Eastern addition, \$1.

October 21.—City of Albuquerque to E. C. Pucher, lot 2, block 19, Huning Highland addition, \$1.

October 21.—Marie C. Craft and husband, to Daniel Scruggs, lot 15, block D, Park addition, \$1.

October 21.—M. R. Summers to Leonard J. Miller, lots 9, 10, 11 and 12, block 34, Original Townsite, \$1,150.

October 21.—Broadway Land & Improvement company to W. V. Furtelle, lots 1, 2, 3, 4, 5 and 6, block 15, Eastern addition, \$200.

October 21.—J. B. Herndon and wife to John A. Glaesner, lot 8, block 6, Lewis & Simons's addition, \$1.

October 21.—Broadway Land & Improvement company to John A. Glaesner, lot 11, block 13, Eastern addition, \$1.

October 22.—Edgar M. Wilson, et al., to J. H. McCallum, lot 11, block 39, Huning Highland addition, \$1.

REPUBLICAN CENTRAL COMMITTEE

TO MEET IN SANTA FE, WEDNESDAY, NOVEMBER 10, IMPORTANT QUESTIONS FOR CONSIDERATION.

Secretary Charles V. Safford, of the territorial republican central committee, has prepared and is sending out notices in a call for a meeting of the committee in the city of Santa Fe on Wednesday, the 10th of November, for the purpose of taking into consideration the situation concerning statehood for New Mexico, and is desirous the position the republican party may take in the matter, as well as to take over important matters. The calls are signed by H. O. Bureau, chairman, led by Charles V. Safford, secretary. The following is the membership of the committee:

H. O. Bureau, chairman; C. V. Safford, secretary; Jose D. Rios, assistant secretary; Solomon Luna, treasurer.

Following are the members: Bernadillo County—W. S. Strickler and F. A. Hubbell.

Charles County—E. A. Cahoon and J. M. Harvey.

Colfax County—J. Van Houten and J. Leahy.

Doña Ana County—W. H. H. Llewellyn and H. B. Holt.

Eddy County—A. N. Pratt and L. O. Fullen.

Grant County—W. J. Newcomb and R. M. Turner.

Lincoln County—G. W. Prichard and W. E. Brady.

Leonard Wood County—F. D. Morse and M. C. de Baca.

Losia County—J. W. Hannigan and T. A. Karr.

McKinley County—Steve Canavan and Gregory Pagan.

Mora County—Cristoval Sanchez and Juan Navarro.

Otero County—W. D. Tipton and O. G. Cady.

Quay County—A. E. Curren and W. F. Buchanan.

Rio Arriba County—W. E. Lindsey and C. O. Leach.

Rio Arriba County—V. Jaramillo and Alexander Read.

Sandoval County—E. M. Sandoval and E. A. Miera.

San Juan County—C. V. Safford and Graciele Pineda.

San Miguel County—Bernardino Romero and J. S. Clark.

Santa Fe County—E. C. Abbott and J. E. Lacombe.

Sierra County—P. W. Winston and W. H. Hueher.

Socorro County—H. O. Bureau and Hugo Barr.

Tosco County—Matsulas Martinis and T. P. Martin.

Torrance County—William Meln.

Union County—Charles Schlater and Bufrato Galles.

Valencia County—Carlos Baca and Solomon Luna.

Executive Committee—Eugene Romero, W. G. Sargent, J. W. Alena, W. H. Newcomb, T. D. Barnes, Max Frost, David M. White, H. W. Kelly, Solomon Luna, T. B. Hart, T. S. Hubbell, W. E. Martin, Martin Lohman, H. J. Hargrave, Harry F. Lee, J. F. Chavez and Levi Hughes.

Committee at Large—W. J. Slaughter, Santa Fe.

BUSINESS COLLEGE NOTES

The students of the Albuquerque Business college have formed a foot ball team and have already gone into practice in preparation for a few interesting contests.

Miss Mae Livingstone, a young lady who has recently arrived from the east, is enrolled among the shorthand students of the A. B. C.

William Neher, the well known second baseman of the Albuquerque Browns, has enrolled for a course in bookkeeping and business accounting.

The young men of the college have formed an athletic club and are now providing for a gymnasium in the basement of the library building.

Messrs. Tripplet, Stacy and Davidson are the officers of the club.

Eighteen prominent citizens in this city and contiguous territory, have joined for the students of the college who wish to do office work. The demand is immense, and entirely beyond the present capacity of the college to supply.

A young person who secures his business education at the A. B. C. is assured of a good position; in fact, his chance of good situations is unlimited.

Prof. Stoll has just purchased a valuable property in the Highlands, and is now arranging excellent boarding and lodging facilities for students from out of town.

New tables for the accounting department have recently added to the college equipment. A complete table, known as the "Merchants' National Bank," has been arranged, and is supervised by Miss Waidling.

The students of the college are arranging for a musical and literary entertainment, to take place at an early date, in the afternoon of the college day.

Admission will be charged and the proceeds devoted to providing uniforms for the college foot ball team.

President Ramsey visited Las Vegas, Bernalillo and Corralles, and everywhere received much encouragement.

The number of students who promised to attend the A. B. C. is very large, and insures the permanent growth of the school, the total enrollment of which will reach seventy-five pupils before the end of this month.

James E. Johnson, of St. Paul, Minn., is attending college. Mr. Johnson is training to become an expert stenographer.

Our typewriting department now has thirty students. Eight machines are in use, representing four different manufacturers, viz.: Underwood, Smith Premier, Yost and Hammond.

Postmasters Appointed.

John McCaffery has been appointed postmaster at Kirkland, Arizona, and Benjamin F. Morris at Santa Cruz, Santa Fe county, New Mexico.

Manfor Romero has been appointed postmaster at Frisco, Socorro county.

Postoffice to be Established.

Delegates to Congress W. H. Andrews has recommended to the postoffice department for establishment, a postoffice at Brownhorn, Roosevelt county, Miss Alice Montgomery to be postmaster.

Postoffice Re-Established.

The postoffice at Torrione, Torrance county, will be re-established. It will be served from Taligne, two and a half miles to the north and Manzano seven miles to the south. Juan C. Jaramillo has been appointed postmaster.

New National Bank at Texico.

The comptroller of the currency has approved the establishment of the First National bank at Texico, Roosevelt county, with \$25,000 capital. The applicants are Joseph B. Steele, Arthur F. Jones, John S. Pearce, Holston F. Jones and J. W. Jones.

May Abolish Office of Receiver.

Secretary of the Interior E. A. Hitchcock, in his annual report, will recommend to congress the abolishment of the office of receiver at federal land offices. He argues that the work at present done by receivers can be done just as well by the register of the land office. The abolishment of the office would save a quarter million dollars annually in salaries. This will be in line with the policy to consolidate different land offices that have been adopted and that is being carried out.

Col W. M. Berger, secretary of the Belen Town and Improvement company, who was here the past couple of days on business, returned south last night. Before leaving for the south, he called at The Citizen office, and being a printer, complemented in high-sounding words the well displayed advertisement of the company in this paper. He was so well pleased that he ordered 500 circulars to be printed of the advertisement for general circulation throughout the southwest.

Col. John Becker is the president of the company.

Col. John Becker is the president of the company.

DEATH OF CARLOS GAVALDON AT ROWE.

Carlos Gavaldon, well known in San Miguel county, died Oct. 24th, at a. m. at his home at Rowe, N. M., after an illness of almost a year. His death was due to typhoid pneumonia. The deceased conducted a general

TERRITORIAL TOPICS

NEW ARIZONA POSTOFFICE ESTABLISHED.

A postoffice has been established at Wendendale, Yuma county, Arizona, to be served from Harleburg, six and a half miles to the south. Harry H. Hanna has been appointed postmaster.

Faith Not Necessary.

You may be just as skeptical and pessimistic as you please, Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure indigestion and dyspepsia, it is curing hundreds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by all druggists.

No Trace of Murderer Found.

H. J. McGrath returned to Lordsburg the first of the week from a two weeks' trip with other rangers through Socorro and Sierra counties, hunting a murderer. Not a trace of the wanted man could be found, and the rangers finally concluded he had skipped the country.

Don't Borrow Trouble.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow, is trouble. When sick, sore, nervous, and worn out by the gains and poisons of dyspepsia, biliousness, bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent relief from all your troubles, and your body will not be burdened by a load of germ disease. At all druggists. Price 50c. Guaranteed.

CAUGHT UNDER BUILDING.

The other day while Mr. Luxton, assisted by a native, was moving a frame building, the same collapsed and both were buried under the ruins, says the Deming Graphic. Mr. Luxton escaped without injury, but the native was not so fortunate. He received several bruises, from which, however, he will soon recover.

Wards of Pneumonia.

All coughs, colds and pulmonary complaints that are curable, are quickly cured by One Minute Cough Cure. Clears the phlegm, draws out inflammation, and heals and soothes the affected parts, strengthens the lungs, wards off pneumonia. Harmless and pleasant to take. Sold by all druggists.

BROUGHT BACK SAMPLES OF MANGANESE ORE.

Eugene Howell and Charles Conroy returned from a three weeks' absence spent on the south side of the Magdalena and in the San Mateo, says the Socorro Chieftain. They brought back some fine samples of ore that they think is rich in manganese. They will have the ore tested in the School of Mines laboratories and if it proves to be what they think it is they will feel that they are pretty well provided for.

New Cure for Cancer.

All surface cancers are now known to be curable, by Bicklen's Arnica Salve. Jas. Walters, of Bedford, Va., writes: "I had cancer on my lip for years, that seemed incurable, till Bicklen's Arnica Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all druggists.

RETURNS FROM PALOMAS HOT SPRINGS.

Messrs. J. H. Hilton, Henry May and E. L. Price returned to Socorro from their visit of two or three weeks at the Palomas Hot Springs. They are enthusiastic over the bathing, hunting and the good time generally that they had on the trip. They say, however, that P. N. Yunker, who is still with the party at the springs, is quite sick, threatened they fear, with pneumonia.

Plans to Get Rich.

are often frustrated by sudden breakdowns, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials that are clogging your system, and give you a new start. Cure headache and dizziness, too. At all drug stores; 35c, guaranteed.

AN OLD SETTLER.

John Condit, one of the oldest settlers of Deming, was killed the other day, says the Graphic. He was hauling gravel for the Deming Water company, when his team became frightened, started to run, and in his efforts to hold them one of the lines broke and Mr. Condit fell to the ground, the heavily loaded wagon passing over him. He was taken to the hospital, but died very soon after reaching there. Mr. Condit was about sixty-five years old. All of the old settlers know John and some knew him well.

Do You Want Strength?

If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nervous blood and tissues before being excreted from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable and the only food combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by all druggists.

SCHOOLS OF SOCORRO COUNTY ALL RIGHT.

Superintendent J. A. Torres returned to Socorro from an official visit to the public schools of the extreme western part of the county, says the Chieftain. He reports that the schools, as a business as well, in that part of the county, in a very satisfactory condition. On his way home Mr. Torres spent some time in Magdalena, visiting the public schools of that place, also the private school conducted by Prof. J. J. Trujillo. The schools united in a formal and impressive flag raising.

DEATH OF CARLOS GAVALDON AT ROWE.

Carlos Gavaldon, well known in San Miguel county, died Oct. 24th, at a. m. at his home at Rowe, N. M., after an illness of almost a year. His death was due to typhoid pneumonia. The deceased conducted a general

WHAT'S THE USE EXPERIMENTING

With unknown medicines when you can just as easily get Hostetter's, it is a record of cures back of it, and is being taken by most everybody whose stomach is weak or bowels constipated.

HOSTETTER'S STOMACH BITTERS

Should be your choice, too, because it will cure you. Try a bottle for indigestion, Dyspepsia, Heartburn or Cramps, Poor Appetite, or Insomnia, and be convinced.

store at Rowe for a number of years and also resided for some time at Pe. cos. He was elected col. of the San Miguel county for two terms, but only served two years, in 1895 and 1896, resigning at the end of that time. He leaves a wife and five children, besides a large circle of friends to mourn his death. He was comparatively a young man, being only about forty-five years of age. The funeral services were held at Rowe Wednesday morning at 9 o'clock.

Billions? Feel heavy, after dinner? Tongue coated? Bitter taste? Complaining salivary? Liver needs waking up. Doan's Regulator cures bilious attacks. 25 cents at any drug store.

OBJECT TO PARDON OF A RAPIST.

The people of Graham county, Arizona, are greatly exasperated over the pardon of Walter Trimble, who was sentenced to Yuma for life for rape. It was announced from Phoenix that the judge and the district attorney recommended his pardon, as they thought he was not guilty, that the complaining witness had died. District Attorney Hawkins denies having had anything to do with the pardon. The county papers want the governor to rescind the pardon. It is said that Trimble's sister was the moving force for his pardon, and that to make friends among influential people she on occasions paid the price. Sheriff Parks, who arrested Trimble, attended the trial and took him to prison, was in the city this week, and told the Liberal that in his mind there was no doubt of Trimble's guilt.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50c. at any drug store.

DIDN'T KNOW DYNAMITE WAS FROZEN.

Jim Rice had an experience last week that nearly ended his life. He was blowing out an old stump, to get some firewood, and his brother was helping him. They were ready to load the hole when they found their dynamite was frozen, and had to build a fire to thaw it out. One of them picked up a bundle of paper to start the fire, forgetting that the caps were that brittle. The fire no sooner reached the caps than there was an explosion, and Jim got the full force of it. His clothes were fairly torn off him and he was powder burned from the top of his head to his feet. His right leg was badly wrecked. He came into town and Dr. Crocker bandaged him up. At first it was thought that his eyes were injured, but it proved there was no serious injury to the eyes nor to the body.—Lordsburg Liberal.

Pill of Tragic Meaning.

are these three from J. H. Simmons, of Casey, Ia. Think what help he has received from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, which disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. All druggists; guaranteed; 50c and \$1.00. Trial bottle free.

IMPORTANT CASE APPEALED TO SUPREME COURT.

In the case of J. M. Cunningham, trustee et al., vs. Charles Springer, et al., and appeal has been taken to the supreme court of the United States by the plaintiff, says the Optic. It is a suit for \$15,000 attorney's fees and is a very important case. Citation to appear before the United States supreme court was signed by the supreme justice.

For All Kinds of Piles.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores, tetter, eczema, and all skin and scalp diseases, use DeWitt's Witch Hazel Salve. A specific for blind, bleeding, itching and protruding piles. Stops the pain instantly and cures permanently. Get the genuine. Sold by all druggists.

DIED BEFORE REACHING MISSION.

F. W. Kille's brother-in-law, Robert N. Arnold, of Brookfield, Mo., died on Wednesday, says the Deming Graphic. Mrs. Kille was hastening to his bedside, as rapidly as possible, but did not reach Brookfield in time to see him alive.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Electric Oil. Takes the sting out of cuts, burns or bruises at once. Pain can't stay where it is used.

LARGE BUCK KILLED NEAR ALAMOGORDO.

Henry Trimble was a few days ago and killed one of the largest bucks ever seen. The horns have thirteen points and are as perfect as any picture. Henry sold the head and hide for \$12.

A Pleasure to All.

No Pill is as pleasant and positive as Dr. Williams' Little Early Risers. These Pleasant Little Pills are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Sold by all druggists.

THROWN FROM WAGON AND SEVERELY INJURED.

R. H. Wood, of Farmington, was thrown from his wagon and received severe injuries. While loading apples into the car his horses became frightened and he was thrown from the wagon. One arm was badly bruised.

Generally debilitated for years, had sick headaches, lacked ambition, was worn out and all run down, Burdock's Blood Bitters made me a well woman."—Mrs. Chas. Fretter, Moscow, Conn.

NEW YORK FASHION LETTER

New York, Oct. 25.—It is not always the woman who has the most extensive wardrobe who is the best dressed, and a world famed couturiere, discussing the possibilities within reach of an average dress allowance,

smiled upon by the elite. As a result new designs show handsome shoulder trimmings of silk cords extending vest effects of fancy cloth and new revers and cuffs designs which take away the plebian qualities of the season and make them really elegant.

Satin and velvet are associated in the construction of every chic costume, as are also silk velvet and the duroy velvet. Dark blue broadcloth costumes are more elegant than can be described in mere words. A stunning French model is made with a long skirt circular in cut, molding the hips, facing below and above a seal train. The coat is tight fitting, will sport rippling bangs and revers of the inexpressible type. It buttons down the front with buttons of cloth set in dull gold rings, being cut low enough to show the top of a silk waistcoat of an old rose embroidered in gold. A lace plastron shows above the vest.

The wing hat is still in fashion. Gay colored wings form the only trimming to many of the new fall models. Double wing effects are now used on the under trims of the hats which show the very narrow front in order to lengthen the face line. The novelty wing of the season shows twin loops which resemble the swan's neck, but these are known as the pretzel wing. This season's development of the wing, especially suits the very narrow with a long slim tip and with a very short and rounded about.

Velvet flowers and foliage are to be quite a feature of the new fall and winter millinery. American beauty roses made entirely of velvet with stem and leaves of a rich shade of green velvet will be popular.

Rich cream velvet, very simply made as a suggestion that will be adopted by many autumn brides for fashionable wedding gowns.

Reeds in various shades will be very conspicuous. The orchid shades will be much affected for evening wear, the deeper shades merging into plum, will be seen on the street, while blue of all shades will be equally popular.

Many of the new fur coats exemplify the fad of the short sleeve, heavy knit gloves to the elbow will be worn and will make up for the absence of sleeves.

Kid gloves of a brilliant brick red are striking and will be worn very much this fall.

Kittling is to enjoy popularity. Little boleros edged with fur and shown for street wear.

Tea gowns are new. They are the shade of that fragrant flower.

There are great muffs to match the fashionable coats.

Collar and cuffs of colored, then touch up the seasonable suit of white mohair.

The three-quarter coat is the one most favored for general use.

A loose outing coat of tweed is a necessity for a young girl who runs about much this fall.

Wear a jeweled bracelet or two on your tightly gloved forearm.

ESTELLE CLAIRMONT.

H. E. Fox, the Second street jeweler, who went to Chicago to purchase a fine stock of holiday goods, returned to the city last night and was at the

SOME ITEMS OF INTEREST FROM OUR WESTERN NEIGHBOR

"Parson" Hanks, well known in Gila Valley, as a minister of the Baptist church, and who in the matter of a well up to the front line, was in Gila from Gila River, his present home, and took back with him a handsome young bride, whose age numbers in the early twenties.

Not long ago, a carpenter's union was formed in Globe, which now numbers more than ninety members. It is organized under the auspices of the United Brotherhood of Carpenters and Joiners. It is a strong union and is composed of some of the best workmen of the best class of workmen. Globe is now one of the strong union camps of the west.

A well gold bespangled piece of ore from Mr. Hanks' claims, located about three miles south of Prescott, Arizona, was being examined and analyzed in the lobby of Hotel Burke, last evening. The Carpenters strike seems to have given a stimulus to the bringing in of gold rock from claims in adjacent districts, and richness of some of the ore would cause a stampede in Colorado, Dakota or almost any place except here.

F. E. Trank has finished gathering his honey crop at his Oakwood farm, in the Whitehouse mountains. The yield was 120 cases of honey from 32 stands a couple of the stands producing eight uppers, a most remarkable yield. The Boston Press says the honey marketed thus far found ready sale in Globe and Douglas at fancy prices. It is pronounced the finest honey ever entering those cities. Mr. Trank contemplates enlarging his apiary considerably by another year.

Sunday afternoon, in Nesbitt's Bank Exchange, at Globe, Delmar McCoy, who was standing at one of the gaming tables, suddenly fell to the floor and died instantly. He was engaged in the playing of hot tumbles in and about the saloons, and was a quiet, inoffensive man. Dr. Malisch made a post mortem examination and found that a blood vessel in some part of his heart had become ruptured, which produced instant death. He was from some point in Texas, and was past 50 years of age.

If Photographer Hudson of Clifton, will come to Solomonsville, we shall be pleased to accompany him to his long lost photo gallery. We found at the other morning while duck hunting on the Gila river. It stands right side up with care on a sand bank high above the water, some the scene for the 40-mile trip down the river during last winter's floods. The sign is still above the door and proclaims in letters bold and black that Mr. Hudson makes fine cabinet photographs at city prices. —Solomonsville Bulletin.

According to a report issued by the comptroller of the treasury, the deposits in the national banks of Arizona aggregated \$4,418,074.27, at the close of business on August 25th of this year. Over a fourth of this amount was on deposit in the two national banks of Tucson. The amount invested in banking houses and fixtures was \$138,695, of which amount a third was invested in Tucson. There are thirteen national banks in operation in the territory, while three are in liquidation. The loans and discounts of all the banks aggregate \$2,698,712.27.

A good deal has been said about the Phelps-Dodge ownership in the Greene Consolidated Copper company, says the Boston News Bureau. We can state that the Phelps-Dodge holdings in the Greene company, Colonel Greene is the largest stockholder, having many times 17,500 shares. There are but one other stockholder registered on the books with 10,000 shares or over, and that is Jacob Weidman, a prominent New Jersey silk manufacturer, who has an even 10,000 shares.

Colonel Wm. C. Greene is now in complete control of the company, though his stockholders and all interests are working in harmony for the first time in several years. There are now no antagonisms. Harman, states of Hawley holdings in the company—These interests alone have been largely responsible for the stock market troubles of Colonel Greene and the Greene company in the past.

Carl Rickerhouse was again in Prescott with a bottle of placer gold and a piece of iron-colored ore which fairly glinted with the protruding glint of gold which it carried. The gold is soft, and not of the flaky variety often seen in the face of a man rich. Joe Reiman bought the piece of ore, and it can be seen at his place of business. Rickerhouse makes regular trips to Prescott, with this placer gold, which is stated, he has cut out of the quartz. He will not tell where he got the rock or the gold, but it cannot be a great distance from Prescott.

Sunday afternoon last, A. E. Baker, the well known miner, while scuffling, fell, or was thrown, and sustaining a very serious fracture of the right leg well above the knee. The seriousness of his hurt was not realized until Monday morning, when he was taken to the hospital and given proper attention. He is well along in years, and while his age is against him, the fact that he is a strong and seemingly physically strong man is in his favor. He owns several groups of mining claims near Prescott, which he has been developing for years, and some of them are said to have fine mineral showings.

What is undoubtedly one of the most unique mining undertakings in the country is now under way in northern Arizona, with promise of being successful. The Standard Iron company, of New York, is sinking a shaft six miles south of Diablo nation, on the Santa Fe railroad, close to Diablo canyon, for the purpose of recovering and smelting a gigantic meteor which struck the earth in that section many years ago, probably in the prehistoric period.

They know the location of the meteor because it knocked a hole in the earth three-fourths by one-half a mile and 600 feet deep, and fragments of the thing are scattered all over the

surrounding country. The fragments have been analyzed and found to be almost pure iron, shining high in lead, silver and gold. Many pieces as large as a box car have been found and the returns at the smelter have been very high.

The Standard Iron company began working to locate the meteor about a year ago and a shaft from the bottom of the great hole which it knocked in the surface of the earth has already been sunk to a depth of 400 feet, making a total of 1,000 feet the company has gone into the earth.

From the pieces of the meteor found on the surface, the prospectors have realized a goodly sum in the days gone by. At one time, according to W. H. Clark, a responsible citizen of Holbrook, Arizona, the Indians made a good living bringing these fragments in to the traders of his town, who paid them \$1 pound for every bit they brought, even at this price and in the days when there were no railroads, shipping it to smelters on burros and making money out of the transaction.

SECOND GAME WITH LUMBER MILLS SUNDAY

ATHLETIC ASSOCIATION AND LUMBERMEN STRENGTHEN THEIR ELEVEN, AND A GOOD GAME IS ANTICIPATED.

Manager F. J. Houston of the Albuquerque Athletic association foot ball team today completed arrangements for another game with the American lumber mills eleven. The game will be played Sunday afternoon at the fair grounds.

During the past week the lumbermen have been out in their suits for practice every night, and Coach Corwell has put the men through some fast scrimmage work. The weak places in the team have been materially strengthened and the players are now on to the signals and run them without a hitch.

Manager Houston has called a meeting for the members of the Albuquerque team for tonight at 7 o'clock, in front of the Elks' theater, and every player in the team is requested to turn out and spend half an hour running signals. By the time Sunday comes, both teams are expected to be in fine trim, and a good game is anticipated.

GALLUP GETS A SANTO FE READING ROOM

SUPERINTENDENT SAYS THAT SYSTEM IS TO BE IMPROVED ALL OVER SANTA FE ROAD.

Superintendent S. E. Busser, of the Santa Fe reading room service, is in the city, accompanied by his daughter, Miss Anna Busser.

Mr. Busser arrived last night from Gallup, where he has just finished establishing a reading room in the building formerly occupied by the general store of the Colorado Supply company. The equipment of the Gallup reading room includes 500 books, billiard and pool tables and other furniture necessary to make it a place of convenience and pleasure for the railroad employees. J. G. Kammer has been appointed librarian of the place.

Mr. Busser says that the Gallup reading room is the first of four new reading rooms recently decided upon by the Santa Fe. The other three will be established at Shawnee, La Junta and Marcelline. The Raton reading room will also be enlarged.

MINING ORE WHICH IS AFIRE AT THE TIME.

It is claimed that J. J. Shaw is now mastering the fire in the United Verde mine, successfully extracting ore from the fire district. He was compressed air to drive back the flames and the fumes. He has succeeded in reducing the temperature in the heart of the stope, where his men are working, from 125 to 85 degrees. This is a surprising performance, and at first the mine was a veritable inferno to the limit. But when the system is explained it is simple enough, and one wonders why it was not discovered years ago. The air does not extinguish the fire, but simply drives it and its smoke and fumes back and reduces the temperature along the sides of the burning subterranean so that the miners can break down and remove the ore. The process of driving back the fire and fumes can be continued till the ore within the fire limits shall have been extracted. —Florence Blade.

Perry Hawley and two other hunters left this morning in a wagon pretty well loaded with provisions and a tent, for Ran Aracoma, Socorro county, where they will spend a week or ten days hunting on the lake and in the swamps of that neighborhood for the web-footed fowls.

Albert Faber, the well known carpet dealer on West Railroad avenue, will leave in a few days for the Fay road hot springs, where he will take the hot baths for a week or ten days. He is still suffering with rheumatism.

CATARRH FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "coughing and spitting," ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectively checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every part of the system, it is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

S.S.S. PURELY VEGETABLE.

HEIR TO MANY MILLIONS OF DOLLARS Col. H. H. Metegar, of Pajarito, Is Looking Forward to a Fortune

FROM THE HOLLAND GOVERNMENT

A short time ago Col. W. M. H. Metegar, the well-known fruit raiser and ranchman of the Pajarito neighborhood, ten miles south of this city, received a letter from his sister, Mrs. Hannah Green, of Ohio, telling him that authorities of Holland were looking up the heirs of the Metegar family of that country, and that he and Mrs. Green were among the heirs. Mr. Metegar, since his notification, has kept himself posted, as well as he could, on the subject, and today left the following clipping from the Kansas City World, which shows that the Holland government is about to pay over an immense sum of money to the Metegar heirs:

"Still another heir to the Metegar millions which are about to be paid over by the Holland government, lives in Kansas City, says the World.

This is Mrs. Monica Barnhart, of 1027 Cherry street, a grand-daughter of Theobald Metegar, who, in the seventeenth century, left an estate of \$140,000,000 to be held in trust by the government for his heirs. Theobald Metegar was an uncle of Mrs. Barnhart's mother, whose maiden name was Mary Josephine Metegar, a daughter of Joseph Metegar.

Mrs. Barnhart has known that an immense fortune was in store for her family for years. As a child she was told by her mother that some day she would be very rich, or that if she was not her children would be.

A brother of hers, Ferdinand Hauer, went to Holland in 1874 to present his claims for the estate, which at that time was thought to be divided at that time. He returned to this country and told his sister that it was absolutely useless to employ lawyers to try to push the matter there, for it would be at least twenty-five years before a settlement could be obtained. "This brother died a few years later."

Writing to Holland.

A sister, Miss Sophia Hauer, of South Bend, Ind., has since been in communication with relatives in Germany and Holland, and Mrs. Barnhart believes that she may have some direct information in the matter and is now waiting for a letter from her.

Mrs. Barnhart was born in Baden, Germany, in 1840. She came to America with her parents at the age of ten years and located in South Bend, Ind. In that neighborhood, a place known as Harris Prairie, was a settlement composed entirely of Metzgars and their families.

In the Hauer family there were two sons and three daughters, of whom all but one boy, Ferdinand, are still living. In all there are 123 claimants to the Metegar millions.

When seen by a World reporter this morning Mrs. Barnhart said that she had been thinking of this money a great deal last week, since reading the first story in the World, and wondering if it would come during her life. She knew nothing of the positive settlement until she read the account of it in the World. She does not know Mrs. David Whitmore, who was the first relative found here.

Conducts Boarding House.

Mr. and Mrs. Barnhart were old residents of Independence, having lived there from 1836 until 1899, when they came to Kansas City. Mr. Barnhart died about three years ago. Mrs. Barnhart keeps a boarding house at 1027 Cherry street. She has six children, two sons and four daughters, two of whom are married, one living in Chicago and the other in St. Louis. She is a second cousin of Mrs. Charles Lauterbach, of 3505 East Twenty-sixth street, who has employed an attorney to look after her share of the fortune.

Mrs. Barnhart has not yet taken any legal steps and will not until she hears from her sister in Indiana.

SWIPPED CUFFING MATERIALS FROM LIVERY STABLE

ALLEN CLARK SENTENCED TO SERVE THIRTY DAYS IN THE COUNTY JAIL FOR STEALING TWO DRUNKS FINED.

Allen Clark, who came to this city several weeks ago from Las Vegas, and who has been employed at the livery barn of W. L. Trimble & Co. on Copper avenue, was arrested last night and lodged in the city jail, charged with stealing several brushes and a curry comb from the barn. Clark was given a hearing before Police Judge A. J. Crawford this morning and found guilty of petty larceny. He was sentenced to serve thirty days in the county jail.

T. T. Shanks and W. C. Skelly, two knights of the road, halling from the vicinity of the Helen cut-off, were taken in last night charged with vagrancy. Both pleaded guilty and will work for the city five days.

C. C. Orlin was run in this morning for being drunk and disorderly and will be given a hearing in the morning.
