NUMBER 51

CAMPBELL SPEAKS ON DRY FARMING

Science Has Revolutionized
the Pursuit of Farming in
the Great West.

THE ART OF PLOWING EXPLAINED

Prof. H. W. Campbell, father of the "Campbell system" of dry farming, lectured to the students at the Agricultural college, Fort Collins, Colo., last Saturday morning on the science of farming successfully without irrigation. In brief, Mr. Campbell said:

"Ten years ago very few of us realized that it made any difference when the soil was tilled. We thought that everything depended upon the season. We have, by systematic study and observation found out many things about farming, and we have advanced enough to say that we know what to do, when to do it and what results we may expect. Droughts, of course, have their effect, but we know how to minimize damage from this source.

"After all, the farmer is the corner stone upon which the business structure rests. Ten years ago there were almost total crop failures all over the west. People did not know what to do and where to go. Business was at a complete standstill, merchants bought little because they knew the farmer could not turn purchase but little, and this was because the farmer raised nothing and had no money to pay old debts with, let alone buying new goods. The manufacturers had their men on half time, railroads were transporting little, and in short, business generally was in a chaotic condition. The farmer is now growing four blades where he formerly harvested one blade, and a poor one at that, and as a result, business is going everywhere and values have increased, and it is not because of a boom, but because we are just beginning to realize the intrinsic value of our agricultural land.

"Scientific farming, which just now is doing so much toward the reclamation of the raw prairie land of the west, is not confined to the simple question of deep plowing, subsoiling, or frequent shallow cultivation. There are conditions on every farm that must be considered separately. Generally speaking, the ground should not be plowed when it is dry. There should be some moisture. When the soil is moist it readily breaks apart. The plow should be immediately followed with the subsoiler, and then the harrow, and the soil should be firm. Follow next with the Acme harrow, and the result is a fine mulch. The soil is now in what we call fine condition, which enables it to hold moisture, to increase the power of capillary attraction, and it also facilitates root growth.

"Chemical composition of the soil is not everything. Equally important is the physical condition, by which the plant food is made available, and by which we can control the water and the air. The air in the soil is just as important as the water in growing a crop. This fact we have demonstrated on our farms in Nebraska, and Kansas. There is a bright outlook for young men who take up farming as a business, but if you succeed you must be up to date in your methods. You have at this college an opportunity to learn correct ideas of dry farming, irrigation, crop culture, and in short, you take up farming after your course here, you are a hundred times better prepared than those of us who have for years been teaching the science of farming."

OFFICIAL MATTER

Postoffice Established.
A postoffice has been established at Sunnyside, Guadalupe county, to be served from Fort Sumner, ten miles to the southeast. Lorenzo B. Labadie has been appointed postmaster.

Postmasters Appointed.
The following postmasters have been appointed: Abeyona, Valencia county; Narciso Francis; Goodwin, Yavapai county; Arizona, William H. Johnson; Isleta, Bernalillo county, August O. Islet.

Meeting of Penitentiary Commission.
The territorial penitentiary commission met at the penitentiary yesterday for the purpose of opening bids for supplies for the next six months and making awards. There were present: F. H. Pierce, of Las Vegas, chairman; Malagula Martinez, of Tacos, and Juan Navarro, of Mora, secretary. The commission was in session during the afternoon, and the awards will be made known today.

Meeting of New Mexico Board of Managers.

The final meeting of the New Mexico Board of Managers of the Louisiana Purchase Exposition was held in Santa Fe last evening upon the arrival from Silver City of W. B. Walton, secretary of the board. The following members were present: Charles A. Spiese, of Las Vegas, chairman; Carl A. Dalies, of Willard, president; Arthur Seligman, of Santa Fe, treasurer; and Jose D. Bona, of the territorial capital. Herbert J. Hagerman, the fifth member of the board, was unavoidably detained in the east.

TOOK FRENCH LEAVE

from the Lincoln Jail, but Recaptured at Captain.

Tom Price, who has been confined the Lincoln jail on the charge of larceny and forgery, took French leave last night, and came up to see his people. He was recaptured Monday night and taken to jail the day following, says the Captain News.

NEW COMPANIES ARE INCORPORATED

And Filed Papers With Territorial Secretary to Do Business in New Mexico.

HORABIN-McGAFFEY COMPANY

The following articles of incorporation have been filed in the office of Territorial Secretary J. W. Reynolds:

The Horabin-McGaffey Company.
The incorporators are William Horabin and A. G. O. Cooke, of Thornton, McKinley county, the principal agent being William Horabin. The object of the company are to conduct a general merchandise, real estate, cattle, lumber and banking business, and to deal in Indian wares. The capital stock of the company is fixed at fifty years, and the principal office of the company is located at Thornton, McKinley county. The principal agent being William Horabin. The object of the company are to conduct a general merchandise, real estate, cattle, lumber and banking business, and to deal in Indian wares.

Corporation Trust Company of New Mexico

The incorporators are Howard K. Wood, of 125 Broadway, New York city; Kenneth K. McLaren, of the above address and Charles H. Spencer, of Santa Fe. The capital stock of the company is placed at \$100,000, divided into 100 shares, of the par value of \$100 each, with the amount of stock taken by each incorporator as follows: William Horabin 1,499 shares, A. G. Cooke, three shares, making a total of the full amount of capital stock subscribed. The term of the existence of the company is fixed at fifty years, and the principal office of the company is located at Thornton, McKinley county. The principal agent being William Horabin. The object of the company are to conduct a general merchandise, real estate, cattle, lumber and banking business, and to deal in Indian wares.

Toltec Irrigation Company.
The incorporators are Martin M. Bailey, of Danville, Ill., and Thomas B. Catron, Charles C. Catron, Robert C. Gortner and Alois H. Henehan, of Santa Fe, N. M. The capital stock of the company is placed at \$250,000, divided into 2,500 shares, of the par value of \$100 each, with the amount of stock taken by each incorporator as follows: M. B. Bailey, 2,000 shares; T. B. Catron, 500 shares; C. C. Catron, 500 shares; R. C. Gortner, 500 shares, and A. H. Henehan 500 shares, making a total of \$250,000. The term of the existence of the company is fixed at fifty years. The principal office of the company is located at Santa Fe, N. M., and the principal agent is R. C. Gortner. The object of the company are to construct, maintain and operate reservoirs, irrigating ditches, canals and pipe lines, and to conduct a general irrigation business.

The Pacific Improvement Company.
The incorporators are Stephen Canavan, J. H. Coddington, John A. Gordon, Gus Mulholland and Palmer Kerner, all residents of Gallup, Texas. The capital stock of the company is placed at \$50,000, divided into 500 shares, of the par value of \$100 each, with the amount of stock taken by each incorporator as follows: S. Canavan, 49 shares; J. H. Coddington, 25 shares; J. A. Gordon, 25 shares; Gus Mulholland, 5 shares and Palmer Kerner 5 shares, making a total of \$19,000 subscribed. The term of existence of the company is fixed at forty-nine years and the principal office of the company is in Gallup, Texas, the principal agent being John A. Gordon. The object of the company are to manufacture and sell articles made from the clay; to generate and dispose of electricity; to operate and maintain a laundry; to acquire and operate mines and mining property and to engage in any manufacturing, mining or industrial business that the company may see fit.

COPPER MOUNTAIN FOUND IN MEXICO

DR. J. S. COCKRELL, WELL KNOWN
HERE, MAKES RICH DISCOVERY
NEAR THE PACIFIC OCEAN.

Dr. J. S. Cockrell, son of United States Senator Cockrell, of Missouri, and who is well known in this city, being a particular friend of Ed Newcomer, has evidently struck it rich in the sister republic, from the following telegram:
City of Mexico, Nov. 23.—Dr. J. S. Cockrell, son of ex-Senator Cockrell, of Missouri, is the possessor of what is said to be not only the greatest copper deposit anywhere in Mexico, but one which can scarcely be exceeded for its size in the world.

It is in western Guerrero, near the Pacific coast, and thus far has been found to be a vein eighty feet wide and three miles long.
The ore is low grade, but it is estimated that it is a mountain of solid copper ore, which, if the surface indications prove up, will be more than twice as large as the famous La Canea of the Green Copper company.

Hon. Herbert J. Hagerman New Mexico's Next Governor.

HON. HERBERT J. HAGERMAN.

From every paper in the territory come good words for Herbert J. Hagerman, who is to be the next governor of New Mexico, and who is now on his way from Washington, D. C., to Roswell. Mr. Hagerman gives every promise of making an excellent executive. He is able, fearless, honest and unhampered by any factional tie. It is the avowed intention of Mr. Hagerman to attempt to secure the passage of a law by the next legislature that will prohibit licensed gambling.

THANKSGIVING

(For The Citizen.)

Rejoice, O land, in praise and song.
Lift up thine heart and bend thy knee.
The Lord of Love hath watched thee long.

The God of Grace hath made thee free.
The God of Grace hath made thee free.
And since the day glad freedom came
And westward moved the tide of life,

Thou, land, hast wrought a noble name,
For in thy movements God is rife.

The flag that waves for free-man's rights
Protected by thy mighty hand,
Is but the type of Him who fights
For thee—a consecrated land.

From year to year thy bosom yields
A wealth unmeasured and untold;
And from thy woods, and plains and fields
Come treasures richer far than gold.

Thy homes and schools, and church and state
Bespeak the people of thy face,
Prepared are they for any fate
Save to defame the human race.

O favored land, this present year
With peace and plenty, and to spare!
Rejoice with thanks in holy fear,
And lift thy heart in humble prayer.

—GEO. H. GIVANS.

San Marcial, N. M.

Lake Erie and Ohio.

Toledo, O., Nov. 30.—Lake Erie and the Ohio river will soon be connected by an electric railroad, and as soon as a connecting link now being constructed between Findlay and Lima is completed, a through trip from Toledo to Cincinnati by trolley will be possible. The Toledo, Bowling Green & Southern and the Western Ohio roads have reached a traffic agreement and the through service will soon be taken up.

AMERICAN WARSHIP SENT TO RUSSIA

THE UNITED STATES FIRST POWER TO DISPATCH ARMED FORCE
TO PROTECT ITS CITIZENS.

The protected cruiser, Minneapolis, which has been ordered from Lisbon, Portugal, to Cronstadt, Russia, for the protection of American citizens, was built in 1891, and has a displacement of 7,475 tons. When in first class condition, and at forced draft, she can make 21.2 knots an hour, with her 20,853 horse power engines. She cost \$2,539,000 and carries one eight-inch breech-loading rifle, two six inch, eight four-inch and 12 six pound rapid fire guns, four one-pound rapid fire cannon, four gatlings and five torpedo tubes.

The Minneapolis is the first American warship to be dispatched to Russia for the protection of American citizens.

The Minneapolis is the first American warship to be dispatched to Russia for the protection of American citizens.

PAINT MINERALS

REPRESENTATIVE OF A CHICAGO
MANUFACTURING CONCERN IN-
VESTIGATING DEPOSIT IN DONA
ANA COUNTY.

John M. Lindsey is in Es Pano on his way to Dona Ana county, this territory, where he goes to investigate a big deposit of stone which it is claimed makes an excellent quality of mineral paint.

Mr. Lindsey is from Chicago, where he is employed in the paint business, and is at present in the interest of a large manufacturing concern that makes a specialty of mineral paints, and is interested in large stone deposits in several sections of the territory.

While examining some propositions in the northern part of New Mexico, Mr. Lindsey heard of the deposit in Dona Ana county, and concluded to investigate the latter before proceeding to Arizona, where he is going on a similar mission.

The deposit in New Mexico is located, it is said, about twelve miles north of the Texas line and is on land owned by Las Cruces and Albuquerque parties. It is situated near the big marble deposit which is now attracting so much attention.

The mineral is used for coloring purposes, and Mr. Lindsey states that he was informed that three or four beautiful shades of distinct colors can be obtained in large quantities.

TWENTY THOUSAND DOLLARS FOR BURNED HANDS.

Butte, Mont., Nov. 30.—The supreme court has affirmed the judgment of \$20,000 damages awarded to Martin Burke, a miner, whose hands were burned to stumps by coming in contact with poorly insulated wires in the Colusa Parrot mine. It is the largest award of damages in the history of the state.

R. J. Army, resident engineer for the Santa Fe, was in Needles this week looking over the location of the new recreation building and making preliminary surveys for the sewer system to be installed.

COTTAGE SANATORIUM.

At Silver City Was Opened For Business The Other Day.

The New Mexico Cottage Sanatorium was opened for the reception and accommodation of guests for the first time Saturday, says the Silver City Independent. Though the main building is the only one which has sustained the final finishing touches of the builder, the necessity for providing immediate accommodations for a number of patients caused the management to throw the doors of the institution open a few days before everything was in complete readiness.

The object of the New Mexico Cottage Sanatorium is to provide proper accommodations for the tubercular afflicted, whether rich or poor, at a moderate cost, and to give the patients the only the natural advantages of climate for which this particular valley is noted, but to combine with it all that modern science affords in combating this insidious disease.

MARK TWAIN'S BIRTHDAY OBSERVED IN NEW YORK.

New York, Nov. 30.—Turkey Mark Twain completes his seventieth year. Perhaps no other writer of the age ever so entirely lost his personal and family name in his work as Twain, as has America's greatest humorist. Speak of Clemens, and three-fourths of those to whom you speak will have no idea of the man to whom you have reference. Speak of Mark Twain, and the world knows him. His old age is cheerful, prosperous and useful.

People in the vicinity of the post-office at noon today were horrified to see a native apparently about twenty-five years of age, fall to the ground in an epileptic fit. The man convulsed for a few minutes and then became quiet. Quite a large crowd of curious people watched the man recover from the spasms.

BOARD FINISHES ITS GREAT WORK

Winds Up Affairs of Territorial
Exhibition at St.
Louis.

EXPENDS LESS THAN \$35,000

The final meeting of the New Mexico board of managers of the Louisiana Purchase exposition, was held in Santa Fe Monday and yesterday, in the capital. There were present the following members of the board:

Charles A. Spiese, Las Vegas, president; Carl A. Dalies, Willard, vice president; W. B. Walton, Silver City, secretary; Arthur Seligman, Santa Fe, treasurer; Prof. Fayette A. Jones, Albuquerque, and Jose D. Bona, Santa Fe, members. Herbert J. Hagerman, of Roswell, the seventh member, was unavoidably absent.

A great deal of business was transacted. The sessions were very harmonious and the transactions of the board were closed and the records ordered deposited with the archives of the secretary of the territory.

Board is Adjourned.

With the adjournment of the meeting yesterday the board of managers passed out of existence. It has made a very creditable record, and the New Mexico exhibits at the St. Louis World's fair were of such a character as to have been a source of great pride and gratification to the people of the territory. The entire expenditures of the board of managers for all purposes during its existence amounted to approximately \$35,000. A small amount of the funds was returned.

Seventeen handsome cases built of highly polished woods, used for mineral exhibits during the exposition, were donated to the School of Mines at Butte.

A fine and large collection of minerals from the territory, exhibited at the fair, was donated to the University of New Mexico at Albuquerque. The extensive collection of hand-somely bound books containing many rare photographs, views of the cities, mountains, plains and mesas of New Mexico, prepared by Mrs. William Curtis Bailey, was presented to the historical society in Santa Fe.

Credit All Accounts.

All current accounts were audited and paid and the books of the treasurer and secretary were audited, approved and ordered closed.

A set of books, entitled "Historical Review of the Louisiana Purchase Exposition," is ten superbly bound volumes, was ordered purchased and presented to Charles A. Spiese as a slight token of the valuable services he rendered as president of the board.

The final report of the proceedings and doings of the board prepared by a special committee, was read, approved and ordered paid and in pamphlet form. The pamphlets are to be distributed as follows:

One copy to each federal, territorial, county and city official in New Mexico. One to each commissioner in each state and territory in the Union. One copy to each foreign commissioner in exchange. One hundred copies to be distributed in each county of New Mexico to tax payers.

In conjunction with the bureau of immigration, 6,000 copies of a hand-somely illustrated and finely executed book entitled, "To the Land of Sunshine," and 1,200 copies of a valuable book named, "Mines and Minerals of New Mexico," by Prof. Fayette A. Jones, were printed, and the major portion of them distributed during the exposition at St. Louis. Four thousand copies of the report of the governor of New Mexico for 1905 and 50,000 small bulletins on counties in the territory were also distributed by the bureau of immigration at the New Mexico building.

At Silver City Was Opened For Business The Other Day.

The New Mexico Cottage Sanatorium was opened for the reception and accommodation of guests for the first time Saturday, says the Silver City Independent. Though the main building is the only one which has sustained the final finishing touches of the builder, the necessity for providing immediate accommodations for a number of patients caused the management to throw the doors of the institution open a few days before everything was in complete readiness.

The object of the New Mexico Cottage Sanatorium is to provide proper accommodations for the tubercular afflicted, whether rich or poor, at a moderate cost, and to give the patients the only the natural advantages of climate for which this particular valley is noted, but to combine with it all that modern science affords in combating this insidious disease.

Everybody here habitually says the "dame," but the dam. The dam will be built, and incidentally, Las Cruces and the entire country.

The Brown Realty company will continue to lead in buying and selling dirt. Mr. Brown himself, is a most energetic promoter, who does not allow the money in his pocket to remain idle. He is always doing something to stir things and help the valley. His partners are not asleep, but are "Charlie On-the-Spot."

Mr. R. C. Hutton, though possessing an anatomy of aldermanic proportions, keeps on his feet, demonstrating the many advantages and good investments.

The pet from the 200-pound mountain lion killed near Coyote Springs, Indian of which has already been made in these columns, was on exhibition today in the clothing store of Simon Stern, at 116 West Railroad avenue. It was greatly admired during the day.

SECOND LADY OF LAND TO ENTERTAIN LAVISHLY

Washington, D. C., Nov. 29.—Vice President Fairbanks has leased the fine home of Representative Morrell, on B street, and Mrs. Fairbanks is the busiest woman in Washington, moving and getting the house ready for the winter. The Fairbanks had a finely furnished place on Massachusetts avenue, but the second lady of the land did not think it large enough for large affairs she will give.

Mrs. Fairbanks will be an even more conspicuous figure in the social world this winter than last, and is preparing to take her place as second lady of the land with due acclamation.

NEW MEXICANS AT NATIONAL CAPITAL

The President and Other High Officials Were Seen on Important Matters.

SOME OTHER ITEMS OF INTEREST

A special dispatch from Washington, under date of November 22, and published in the Globe-Democrat, contains the following items of general interest to the people of New Mexico:

The delegation of citizens of the Pecos valley, with Judge A. A. Freeman as chairman, which has been here for two days working upon the Carlsbad project, expect to start home Saturday. The secretary of the interior has approved the project of the purchase by the United States of the reservoir, dam and irrigation system of the Pecos river, consisting in 1900, of 100,000 acres of land. The purchase of the reservoir and dam will be made by the United States, and the purchase of the land will be made by the Pecos valley citizens. The purchase of the reservoir and dam will be made by the United States, and the purchase of the land will be made by the Pecos valley citizens.

Assistant Territorial Superintendent of Public Instruction, Charles C. Grier, and Mrs. C. Grier, called on President Roosevelt and were cordially received. A pressing invitation to attend a White House musicale was extended to them.

Charles L. Ballard is not a candidate for United States marshal for New Mexico. He was offered the office by the president, but positively declined.

W. A. Thompson, receiver of the United States land office at Clayton, who is here, says that he is not a candidate for reappointment to his present position, and also that he is not a candidate for any position outside of New Mexico.

The fact that United States Senator J. B. Foraker is pronounced against the president's plan for railroad freight rate regulation by legislation, may seriously affect the chance of reappointment of Mr. Foraker, present United States marshal for New Mexico, for reappointment. It is understood at Washington now that if Ballard refuses the marshalship, that the president may tender the office to Clark M. Carr, son of General E. A. Carr, retired, and for many years stationed at Fort Whigham.

Herbert J. Hagerman is here and attended the Sims-Hitchcock marriage. He says that he is in the national capital on social business. He called on the president several days ago and was assured of his appointment as governor of New Mexico.

Appointments of United States marshal and secretary of the territory, will be among the very first considered upon the assembling of congress. Secretary Reynolds is now here and is a candidate for reappointment. His father, Jefferson Reynolds, will render his valuable aid in securing the office again.

It is said that there is some disconnected opposition to the reappointment of Chief Justice Mills. Associate Justice McFie and Associate Justice Parker, but it is believed that this will not have much effect. The appointments for the positions will be sent in upon the assembling of congress. It looks favorable for the reappointment of the three. There is no opposition here so far, to the president reappointing Judges Abbott and Mann.

EX-ROSWELL YOUNG MAN SUICIDES

Drew Williamson, aged about 30 years, and the son of Mrs. Mrs. Williamson of Nueva Casas Grandes, Chihuahua, Mexico, took his own life near Casas Grandes the first of the week, by shooting himself with a rifle, says the Roswell Record. He was undoubtedly temporarily insane when he committed the crime.

The terrible news came in a letter to Mrs. Skiffith from friends at Casas Grandes. The letter was written November 14, and the funeral had occurred the day before that. The shooting probably occurred last Saturday or Sunday.

The unfortunate young man had been employed to keep up the fences of a large ranching company there and was living seven miles from Casas Grandes. He was living with a Mexican man, and the latter's wife, who did the cooking for them. On the fatal evening, Williamson ate his supper, and after writing in his note book, went into his room and closed the door. The Mexican soon heard a report, and when they entered the room he was falling to the floor, breathing his last. This was the report of the Mexican, and it is recalled as being true. Williamson was in the insane asylum at Las Vegas for two years, five years ago, and he had told his brother that if he ever felt insane coming on him again, he would kill himself. Every year at this time of the year he was troubled with his mental faculties.

Cape Williamson formerly owned the Turkey Tracks ranch at Seven Rivers, now Lakewood. He and family also formerly lived at Hagerman, and his son, Drew, was one of the most popular boys who ever attended the Military Institute. The family went to Old Mexico about a year ago. Besides a father and mother, Drew Williamson leaves one brother, Harry, and three sisters, Mrs. Baird, Miss Grace and Mrs. Tom Waller, all of Lakewood. He also leaves a little five-year-old son, Clarence, and his wife lives at El Paso. The brother was at the funeral, but the sisters were unable to attend. Mrs. Baird and Miss Williamson were on their way to Casas Grandes when the shooting occurred and arrived three hours late for the funeral. His father is now in the Sierra Madre mountains, prospecting, and does not know of the tragedy.

The Williamson came to New Mexico about ten years ago, from Texas. They have many friends in Roswell and Chavez county who deeply regret this sad affair.

MORMON PATRIARCH DIES AT MESA CITY.

News comes from Mesa City, Ariz., that Benjamin F. Johnson died Saturday night, at the age of 87 years and 2 months. He was a Mormon patriarch, formerly vice secretary to Prophet Joseph Smith, and served 14

years in the Utah legislature before coming to Arizona, many years ago. His positively numbered approximately 100. For years his birthday has been the occasion of an annual festival among Mormons in Arizona.

SAN JUAN WANTED, BURSOM FOR GOVERNOR

AND THE PEOPLE WERE SURPRISED AT REPORT OF HAGERMAN'S SELECTION.

Boone C. Vaughan, sheriff of San Juan county, who passed through Santa Fe Tuesday en route to Las Vegas, where he went for the purpose of placing G. L. Cooper, formerly of Farmington, in the insane asylum there, has returned from that city and stopped over night at Santa Fe, en route home.

Mr. Vaughan expressed much surprise at the reported selection of Herbert J. Hagerman as the next governor of New Mexico.

"People in our district," said Mr. Vaughan, "had the rumor that H. O. Burrum, superintendent of the territorial penitentiary, was slated for the position, but in case the rumor of Hagerman's appointment is correct I see no reason why he should not make a good governor."

Mr. Vaughan stated that business in San Juan county was quiet but not stagnant. He said the new road that has been built via Aztec from Durango to Farmington, had brought an increase in business. The merchants seemed to be doing fairly well.

THE TRAIN ROBBERY TRIAL AT LAS VEGAS

INTEREST IN BLACK CASE DEEPENING—NEWBY'S TESTIMONY

The train robbery case has passed through interesting phases since yesterday noon, says the Las Vegas Optic, Nov. 22. The attendance at the court room has been large. It includes a number of ladies, who apparently entertain feelings of lively sympathy for the prisoners. The United States is putting forth every effort to make an invulnerable case, while Judge E. V. Long is stubbornly contesting every point in the case.

The trial is one of the most notable that has been tried in the United States court here in years.

An interesting witness was Charles Newby, express messenger of the train held up at Fort Logan. Mr. Newby was on the stand yesterday afternoon.

He positively identified Jim Black and John Murphy as two of the men who assisted in the robbery. The witness stood up before the jury, tied a handkerchief over the lower part of his face, put on a slouch hat to illustrate how the train robbers were disguised and how they stood with regard to himself. He said he saw enough of the faces of the men, in spite of their disguises, to be able to know them again, and in the face of a rigid cross examination he declared that he could not possibly be mistaken as to their identity.

McMillan, chief dispatcher for the Rock Island, testified to the time of arrivals and departures of trains with a view to showing that the men had time to reach the place where the robbery was committed after they left Denver.

Reed, a shoemaker at Amarillo, identified the prisoners as men who had purchased boots on a certain day at the store where he was employed.

J. O. McIntosh, Rock Island special officer, detailed the circumstances of the arrest of the Black boys and Murphy in Oklahoma. Mr. McIntosh and other officers found two of the prisoners picking cotton and the other gathering corn. They made no resistance. The officers had previously searched the house where the boys had been staying and secured their guns and three masks, which were produced in court. Mr. McIntosh told of accompanying the prisoners to the United States jail at Chickasha.

On cross examination witness said his activity in the case was wholly independent of the rewards offered.

This afternoon Officers Lily, Madison and United States Commissioner Payne were to be called to give further particulars of the arrest and preliminary hearing and of an attempt on the part of the prisoners in the United States jail to make their escape, resulting in the killing of one, Roswell, who according to the theory of the United States, was one of the train robbers.

AMERICAN ADMIRAL ON THE RUSH FOR RUSSIA

ADMIRAL C. M. CHESTER.

Admiral Chester is in command of the United States cruiser Minneapolis which is en route to Kronstadt to protect Americans.

"My child was burned terribly about the face and chest," I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

BRIBE GIVER FINED FOR PAYING BRIBE.

Milwaukee, Wis., Nov. 27.—Charles Mader of Chicago, today pleaded guilty in municipal court to giving a bribe of \$1,200 for a contract for roofing an addition to the county hospital in 1901, and was fined \$1,000. Mader at the time was agent for a Chicago roofing firm. He was indicted by the grand jury two years ago.

"O. Life, how strong art thou in the hearts of dying men."—Damon and Wednesday evening, November 29.

HOPPE WILL PLAY VIGNAUX

Willie Hoppe.

Paris, Nov. 24.—The coming of Willie Hoppe, the famous American boy billiardist, to play the veteran Vignaux for the billiard supremacy of the world, has created something of a sensation in Paris. While the youthful American is a marvel with the cue, his pretensions are regarded in a far more serious manner here, especially when taken in connection with the fame and known ability of the grizzled veteran Vignaux.

The youthful Hoppe has maintained the most consistent improvement of any billiard player of his age the world has produced, and should he, there is reason to believe that he may become champion of the world.

SUICIDED IN BOUDOIR OF MARRIED WOMAN HE LOVED IN VAIN

COMPOSER LIONEL MONCTON'S BEAUTIFUL ACTRESS WIFE THE OBJECT OF HIS YOUNG GERMAN BARON-OFFICER'S INFATUATION—BROKE INTO HOUSE AFTER SHE AND HUSBAND HAD RETIRED, AND BLEW OUT HIS BRAINS.

Miss Gertrude Miller.

London, Nov. 23.—Love for Miss Gertrude Miller, the leading actress of the Gaiety Theater, not returned by the beautiful young woman, caused the Baron von Holzhausen, a German officer, nephew of a millionaire Frankfurt merchant, to break into Miss Miller's boudoir at midnight and there blow out his brains.

A pitiful romance of dog-like devotion on the part of the infatuated German, who was 32 years old, was revealed at the inquest.

Miss Miller, who is the wife of London's musical comedy composer, well known in America, had retired with her husband when the tragedy in her boudoir occurred. The house was awakened by the pistol shot, and London, first locking the boudoir door, rushed out for the police. When they arrived they found the baron lying dead in a pool of blood and carried him out while Miss Miller lay prostrate to her bedroom.

Baron von Holzhausen met Miss Miller last December, and fell so violently in love with her that he followed her from London to Nice, Monaco never met the baron, but looking upon him simply as a boy, he permitted him to remain on friendly terms with his wife.

There were dinner parties at Nice, when Miss Miller returned home, at the principal London restaurants also, though Miss Miller never dined alone with him. The baron haunted the Gaiety Theater nightly, and constantly sent Miss Miller flowers.

Once he wrote Miss Miller: "I thank you very much for your letter. I hope it will not be the last one. I have not quite recovered from my illness, and have not been able to go to the Gaiety Theater. Last week I saw your photograph in the sketch. What have you done with your hair? I cannot imagine you as a French girl."

"I hope I shall see you next week on the stage. I hope you feel well and happy. I wish, indeed, to be your little dog."

"How do you do? I shall I never see you again? I am always thinking of you. Why do you refuse me your photograph? You would make me so happy by it as a present."

"I hope you will find some moments to write. I assure you I feel very lonely in this monotonous life."

"I hope I don't annoy you with this letter. In any case I am endeavoring to be your best and most faithful friend."

A few days before he committed suicide the baron wrote again to the actress, saying:

"I know I have always been something of a mystery to you, and now I want to tell you all about myself. I am absolutely done—ruined. My people wanted me to stick to the army, which I refused to do."

"I brought a small fortune with me from Germany. I have been backing all — horses, and at last I am utterly worn out, like an old man."

All the baron had the night he killed himself was \$5. He bought an orchestra ticket for the Gaiety, to see Miss Miller perform in "The Morning Chicks" for the last time. Then going to Miss Miller's house in Russell Square, he gained entrance by breaking a window, and killed himself.

Allen's Best Cough Medicine Safe, Sure, Prompt

New Mexico, any diploma, certificate or other credential, but all applicants must pass a satisfactory examination before the board, answering at least 75 per cent of the questions asked them.

In the interim between meetings of the board any one number thereof is authorized to give either an oral or written examination, and if satisfied that the applicant is qualified, may order the secretary to issue a temporary certificate to the applicant, which shall entitle the holder thereof to practice pharmacy until the next regular meeting of the board.

Examinations shall consist of ten questions in each of the branches of pharmacy, materia medica, chemistry, botany and toxicology, which shall be written, together with a quiz of not less than fifty questions of practical working, and a resume of the questions in the written work, and identification of at least twenty-five specimens.

This board will refuse to grant registration, or issue certificate as registered pharmacist, to any applicant who is addicted to the use of opium, morphia or other narcotic drug, or who is an habitual drunkard, and will revoke the certificate of any one determined by the board to be such habitue or drunkard.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer? All druggists sell it.

HAS BEEN LEFT CONSIDERABLE MONEY

Wm. Sanguinette is anxious to locate the present whereabouts of his nephew, Louis Garbarino, who recently worked as a grader for the Terrace Land and Improvement company, and afterwards went out to Thompson, to work in the timber for the American Lumber company. He has since left and Mr. Sanguinette believes he went to Babes, Arizona, but is not certain on this point. Mr. Sanguinette informs the Citizens that Garbarino's uncle, aunt and brother all died within a short time of each other, at Boulder, Colo., and the latter has left considerable property to the brother whom Mr. Sanguinette is now anxious to find.

Yesterday afternoon, at the African Methodist Episcopal church, Rabbi Kaplan addressed the colored people—those particularly interested in the work of the Associated Charities—on this important subject, and all present seemed to be interested and manifested a desire to do their share toward helping in this laudable undertaking.

Don't use harsh physics. The reaction weakens the bowels and leads to chronic constipation. Get Doan's Regulax. They operate easily, tone the stomach, cure constipation.

MORMON COLONY

CHARLES R. HAKES AND COMPANIONS TAKE UP LAND IN THE BLUEWATER VALLEY.

Saturday last, a tall, white haired man, straight as a pine, with a strong face, spars, frame, hale and hardy, called at the office of the bureau of immigration for information concerning the territory, and especially regarding Valencia county, says the New Mexican.

He was furnished with books, pamphlets, and other printed information at the disposal of the bureau, and told his story. His name is Charles R. Hakes. He, his son, and three friends, whose names are Louis E. Lamb, Lottie M. Lamb, and John Alvord, came to Santa Fe to make homestead entries at the United States land office on public land in the valley of the Bluewater, twelve miles west of Grant station on the Santa Fe Pacific railroad. They filed three homesteads and one desert land entry at the local office. They have just arrived in the section from Tempe, Ariz., where they have been living for twenty years, and where they sold their land for good prices. They preferred a cooler climate and, probably, also, more solitude.

Mr. Hakes, when asked, states in a frank manner that he and his party are Mormons, that they came to the Bluewater section to become permanent residents; that they would engage in farming and stock raising, and that within a year he hoped to settle twenty-five families of about 125 people in the Bluewater valley.

The Mormons found some good reservoir sites, which will be utilized, and have also demonstrated that there is plenty of underflow water in the valley which could be cheaply and profitably pumped by naphtha and gasoline engines, and used for the purpose of irrigation.

There is plenty of wood for fire and timber for building purposes in the vicinity of the new colony, and within about twelve miles there is a large amount of saw timber for bridge purposes and construction. The soil is very fertile and he is well pleased with the prospects.

There are about twenty persons all told, in the settlement with him now, and a half dozen families are on route overland from Mesa, Ariz., to H. Mr. Hakes, who is an experienced farmer, thought his people would not only make a good living, but move some competencies in farming, fruit raising and stock growing. They are hard working, sober people, and mind their own business.

Mr. Hakes has quite a story. He was born in 1837 in the state of Ohio, and with his parents, in 1848, was a member of the original Mormon colony that settled Salt Lake City. He remembers that on the entire route from Omaha to Salt Lake, a distance of 1,041 miles, there was not a tree on the prairie. In 1861 his parents went to Los Angeles, which was then a little Mexican town, containing only one brick building. His people then returned to Utah, where Mr. Hakes resided until 1885, engaging in farming and other occupations, and in the latter year he moved to Arizona, settling near Tempe.

He has been a member of the legislative council, and a member of the board of supervisors of Maricopa county, and served several terms as justice of the peace. He is evidently a man of parts, and bids fair to be influential with his people for many years to come. He has no doubt but what the colony he has just started will be a success in every direction.

RULE IS CHANGED

PHARMACY BOARD ACTS UPON THE OPINION HANDLED DOWN BY THE ATTORNEY GENERAL.

An opinion recently handed down by Attorney General George W. Pritchard has caused the New Mexico Board of Pharmacy to abrogate rule 4 of its by-laws and substitute the following:

Rule 4. This board will hereafter not recognize, as sufficient qualification of an applicant for registration in

THEY'RE NOT REAL QUEENS BUT THEY'RE RULERS.

Beautiful Girls of the Italian Markets Who Are Chosen to Reign at Social Functions.

QUEENS OF TURIN, FLORENCE AND MILAN.

Turin, Italy, Nov. 24.—"Natalina L." recently crowned "Queen of the Market," is the fourth empress of this city to hold sway over the social festivities and represents her subjects at various gatherings held in honor of her "royal" sister monarchs of Milan and Florence.

Chosen by vote as the prettiest girl of the entire market, the queen is feigned, admired and showered with handsome presents. For one year she is the acknowledged sovereign, and must be given the place of honor by all her subjects. Before her coronation

the queen is given jewels and handsome robes, that she may fittingly uphold the dignity of her high office. The expense of journey to visit her sister monarchs is borne by popular subscription, and she is expected to entertain lavishly when these visits are returned.

Turin market claims the oldest dynasty, and the city's queen, jealous as any real monarch of her rights, takes precedence over the other queens of Italy. A dispute over this point nearly wrecked the success of the festivities at Paris last spring.

AFTER THE FIGHT IS OVER

PREACHER WANTS THE OFFICERS TO GO AFTER SOCIETY GAMBLING.

Don't use harsh physics. The reaction weakens the bowels and leads to chronic constipation. Get Doan's Regulax. They operate easily, tone the stomach, cure constipation.

In his sermon at the Presbyterian church, Roswell, last Sunday night, Rev. C. E. Lukens, pastor, referred to the recent election of the city council, complimenting the city council for their moral stamina and bravery in passing the anti-gambling ordinance, says the Record. He also went on to say that now that the council had put its foot down on licensed gambling, it is now the proper thing to stop society gambling, such as playing for prizes in card and other games in private houses. He said that there was no difference in gambling in a saloon and in a house, and if there were any difference it was in favor of the men who gamble to make a living, rather than those who do it for a pastime. Rev. Lukens said that if he were a city official, with the power, he would stop society gambling while he was stopping licensed gambling.

WORK PROGRESSING ON INDEPENDENCE MINE.

The Independence mine, up Hitter creek, is making great improvement in and around the mine, says the Red River Prospector. They have been cutting out a station in the tunnel, where a shaft is to be sunk, for an engine. In so doing two parallel veins were encountered showing nice specimens of tellurium ore.

No one can blame Dr. Powell, the president of the company, for feeling happy over the new strike for the ore is considered very fine. They are anxious to get their mill up and ready to treat the ore, but at this writing their machinery has not arrived. They will have the mill up and running just as soon as possible. Every thing cannot be accomplished at once but in their turn. What has been done in a thorough, workmanlike manner, both inside and out, which is desirable to any mining property.

Don't look well, eat well, or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Purifiers. Eat simply, take exercise, keep clean and you will have long life.

Can't look well, eat well, or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Purifiers. Eat simply, take exercise, keep clean and you will have long life.

DISAPPOINTING NOBODY.

"What did you do with that corned beef hash I left here?"

"Thunderation! I thought it was mince meat, and I made it up as mince."

"Well, then, poach an egg and drop it on the mince meat. I just ran an order from the dining room for corned beef hash."

MATCHING BLOOD FOR THE RIGHT TO A THRONE

Purity of Ancestry to Help in Selection of Ruler for Little Principality. Pretender Wants Job Because Present Incumbent Has "Taint of American Blood in His Veins."

The contest over the job of ruler in the little principality of Lippe-De-mold, embracing 400 miles of territory with a population of about 140,000, is to be a bitter one when the federal council will choose between the two rival claimants. The question of purity of blood will be the important feature of the decision.

The right of succession has been a subject of controversy since 1895, when Prince Waldemar died. At present the regency is held by Count Leopold of Lippe-De-mold, who succeeded his father, Leopold's claim has been upheld by the diet of the prin-

RUB ON Pankiver

and the Rheumatism's gone.

Evils which now exist, but in a general way I think there is no doubt but that state control with the right federal supervision and inspection would do much to correct existing evils.

I will call attention to this subject in my next message to the legislature of Oregon and suggest the propriety of enacting legislation that will prevent companies from doing business in this state whose officers indulge in the disreputable habits which have been disclosed by the investigation now in progress.

GEN. E. CHAMBERLAIN.

Every Ounce You Eat. Every ounce of food you eat that fails to stir it does a pound of harm. It turns the entire meal into poison. It not only deprives the blood of the necessary tissue-building material, but it poisons it. Kodol Dyspepsia Cure is a perfect digestant. It digests the food regardless of the condition of the stomach. It allows that organ to rest and get strong again. Relieves the Heaving, Heart Burn, Sour Stomach, Indigestion, Flatulence of the Heart, etc. Sold by all druggists.

INSANE PERSONS ACCUMULATING

New Mexico Asylum Authorities Make Announcement.

Territorial papers are requested to publish the announcement made by officers of the New Mexico hospital for the insane at Las Vegas, that no more patients be brought to the asylum until arrangements have been made beforehand for their admission. Unless this suggestion is followed, those who bring patients will almost certainly have to take them back whence they came.

A Dismal Catastrophe. It is a dismal catastrophe, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed by all druggists; 25c.

HAS BEEN TRANSFERRED.

Chinese Inspector Ordered to Report Again at San Antonio.

Colonel R. M. Moore, who has been stationed in Las Vegas for three months as Chinese inspector for the United States government in this territory, has been recalled, to serve at his home in San Antonio, Texas, just when he had determined to move his family and make his home at Las Vegas, although he is glad at the same time to again rejoin his family.

Son Lost Mother. "Consumption runs in our family and through it I lost my mother," writes E. B. Reid, of Harmony, Mo. "For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Life Pills. I have saved my serious lung trouble." His mother's death was a loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed at all druggists. Trial bottle free.

PRISONER TAKEN BACK

TO NEW MEXICO. Nat Malone was released from the county jail on a writ of habeas corpus taken out by his attorney, D. L. Cunningham, but as he stepped from the court room he was placed under arrest by Sheriff A. C. Parnsworth, of Grant county, New Mexico, for whom Sheriff Hunt had been holding Malone for the past week, or since the grand jury dismissed the charge against him. He is wanted in New Mexico on a charge of cattle stealing. He all but taken back this evening by the New Mexican officer, expressing his willingness to return without requisition papers.—Tombstone Prospector.

Man's Unselfishness. He often acts as great as women. But Thos. A. Austin, Mayor of the "Republican" of Leavenworth, Ind., was an unselfish man, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly lie in bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists price 50c.

SULYAN HAS BACKED

DOWN AT THE LAST. Vienna, Nov. 27.—The Neue Freie Presse today published a dispatch from Constantinople, saying that the Sultan, through To-Wik Pasha, the foreign minister, has announced to Baron Von Celles, ambassador of Austria-Hungary, that Turkey accedes to the demand of the powers regarding the financial control of Macedonia.

Mothers everywhere praise One Minute Cough Cure for the suffering it has relieved and the lives of their little ones it has saved. A certain cure for Coughs, Croup and Whooping Cough. Makes breathing easy, cuts out phlegm and draws out the inflammation. Sold by all druggists.

HOLDING THEIR FIRST

GENERAL ELECTION. Cettigne, Nov. 27.—There is great excitement and joy in all parts of this miniature principality today for the first free and general election for deputies ever held in Montenegro. A short time ago, Prince Nicholas of Montenegro, issued a manifesto, granting his people a constitution and representative government. Today the election is held and the people seem to enjoy it. A large vote will undoubtedly be polled. This evening the prince will be honored with a torchlight procession, and will receive the expressions of gratitude of his people.

"I Thank the Lord!" cried Hannah Plant, of Little Rock, Ark., for the relief I got from Back-ler's Arnica Salve. It cured my back-ache, rheumatism, and nothing else would have done it. I had suffered for five years. It is a marvelous healer for cuts, burns and wounds. Guaranteed by all druggists; 25c.

Hon. H. M. Dougherty, the Socorro attorney, who was in an important legal matter connected with the recent suit case, has returned to his home in the Gen City.

NEW YORK NEWS LETTER

Stella Baby for Doll.

New York, Nov. 25.—Six year old Catherine Dolan, of Brooklyn, is the youngest kidnapper Greater New York has so far produced. Very few persons are making her or her exploit, but the fact that it is a palpable case, little Catherine being charged, as the slang-changers say, "with the goods." But Catherine has a lovely doll, which was her constant companion, but which has been much trouble, incident to which Marie, which was the doll's name, had lost much of her golden locks, and fine, closed her beautiful blue eyes, because a spring in the back of her head went wrong. Catherine was disconsolate, and wept continuously, and sometimes even howled, until at last, her father, unable to withstand the overpowered sobs of his grief-stricken child, took her to a doll hospital, and ordered a new spring put in her head, so her beautiful eyes might work once more. But Catherine grew impatient, and really couldn't wait any longer, so she went out into the street, and there she came upon the sweetest doll imaginable, in the person of a little baby, with soft, racy cheeks, and wavy tresses, and looking just too cunning for anything, as she lay sleeping in a gorgeous baby carriage. Catherine, at once, under her breath, said to herself that it was the police and that she had never seen. So she took hold of the handle of the carriage and just wheeled it with its precious freight on to her home. Arrived there she took the child in her arms, and sitting on the doorstep, played with it in so perfect a manner that she had no idea she was alarmed. But when she was alone, she laid it down, and fled to her mother. Meanwhile, Mrs. Frank Collins had lost a baby to which she was very much attached, and woke up the entire police force of the district to find her precious little girl, and following the trail that untold times, it was found in the carriage and the child and little Catherine. The latter explained that it seemed to be the nicest doll she had ever known, even nicer than "Sweet Marie," and she had just called it as she couldn't find a nicer one. The police and Mrs. Collins, who was alarmed, and Mrs. Collins nearly fainted as her baby came back encased by a corps of bluecoats. And the spring in the back of Marie's head now works in such a lively way that the little girl never stops winking and blinking as never before.

Great City's Future Growth.

The secretary of the Federation of Churches and Christian Organizations here, will be a population of 5,277,447 within a nineteen-mile radius of the city hall of Greater New York in the year 1920. This radius includes all of Staten Island and seventy-four incorporated places in New Jersey, all of which territory is really a part of New York, but much as it is called New York, but, as men and workers. A population of that size is an uncomfortable one, and it seems that we can get along better if we suspend for an indefinite period President Roosevelt's anti-urbanism. How immensurably important the moment of transportation and it will be in that year can be judged from the fact that there are now a little over one-half of the figures claimed for 1920 dwelling in the territory named, and at times transportation facilities are overcrowded to excess, and during the winter months there is a regular scramble and tangle in the room just to stand on other people's feet. Many of these can walk to and from their homes, if they choose to do so, as the distance is not great. Possibly the citizens of 1920 will have legs, and will use them.

Bad Man When Roiled.

Mike Helly is a bad man to roll. His temper won't stand any fooling from his fellowmen. For such a trifling offense as taking off his clothes at Broadway and Forty-ninth street, Mike was interfered with. He had done so during a party at a livery stable, and conceiving that the livery man had wronged him he went and put on his clothes again, and then started out, shouting to the livery man, "OUI! All your damn place with chimneys." Shortly after there was a terrific crash in a carriage store, and the livery man, who was in the way of the chimney as one would care to see, Mike had kept his word, but where he got the chimney and how he landed it in the carriage shop was not apparent at first. But investigation showed after a while that an adjoining chimney was leaning a little and had lost a considerable portion of its fair proportions. Mike had lashed it, and so it fell from the building, crashing through the roof. Mike was found at the other end of the rope, dangling from the roof, and very mad because he had smashed another chimney with his larri.

Against Present Ballot Form.

There seems to be a little doubt that there will be a sharp and decisive campaign against the present form of ballot, and that the legislature will order another form to be used. The present ballot would seem to have been conceived for the sole purpose of putting the honest citizen's vote at risk, not only, but also putting him at the mercy of the lawbreaker by his casting his ballot improperly in the most absurd ballot that has ever been used by voters anywhere.

PROGRAM IS READY

ELABORATE PREPARATIONS ARE MADE FOR ANNUAL MEETING OF THE TEACHERS' ASSOCIATION.

The committee in charge of the arrangement of the program for the New Mexico Educational Association's annual meeting, to be held in this city, December 26th and 27th, has finished its work. The following is the program:

Thursday, December 26th.

10 a. m.—Meeting of the Council, Harmonizing the School Laws—Professor Miriam McNeely, superintendent of public instruction. General discussion.

2 p. m.—President's address—W. O. T. Light, University of New Mexico. Papers on Physical Training. Business Session—Miss M. Mosher, Boarding School Views—J. W. Oliver, Albuquerque Indian School, Grammar School Views—J. G. Miller, from N. M. C. A. and M. A. College School Views—Martin F. Angel.

8 p. m.—Lecture by a speaker of national reputation (to be announced later).

Wednesday, December 27th.

9:30 a. m.—Business session.

10 a. m.—Papers and Discussions. Education in California—R. R. Grant. Examinations. Student's Views—Samilo Kio, Albuquerque high school. Examinations. Teachers' Views—J. H. Williams, principal Santa Fe High School. Address, Judge J. A. Abbott. Education and the School Lessons Learned as a Teacher—Cornelia Murray, Volunteer Papers.

2 p. m.—Papers. The Professional Teacher. First, His Academic Scholarship—Miss Myrtle Decker. Second, His Professional Training—Miss Jennie Housley. Third, Teachers' Institutional—M. E. Hickey. Fourth, Professional Literature—C. E. Hodgins. General discussion.

7:30 p. m.—Territorial High School Oratorical contest.

Thursday, December 28th.

9:30 a. m.—Business session.

10 a. m.—Papers. Educational Value. First, Drawing—Miss Stahlborn, Albuquerque. Second, History—W. H. Decker, Gallup. Third, Music—Professor Henshal, Raton. Fourth, Industrial Work—William Hensley, Carlsbad.

11 a. m.—Round Table Session. Grade School Teachers. Higher Institution Teachers. County Superintendents. A question box will be maintained during the session, to be opened at round table.

1:30 p. m.—Excursion to points of educational interest. Conducted by guides.

General Information.

The committee desires that formal papers should not exceed fifteen minutes. Hotel headquarters will be at the Grand Central Hotel, where the local committee will have a private parlor for the exclusive use of all members of the association and their friends.

The officers of the association are: President—W. G. T. Light, Albuquerque; Vice President—M. H. Kauler, Silver City; Secretary—Sarah Ellis, Silver City; Treasurer—D. M. Richards, Las Cruces.

Officers of the Council: President, Luther Foster, Las Cruces; Secretary, R. R. Larkin, Las Vegas.

Executive Committee: C. M. Light, 1900; E. J. Verr, 1905; J. A. Wood, 1909.

Nature Needs But Little.

Nature needs only a little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headaches, constipation, etc. The famous little pills "Early Risers" are pleasant in effect and perfection in action. They never gripe or sicken, but tone and strengthen the liver and kidneys. Sold by all druggists.

ARIZONA BANKER NOT

CONVICTED OF CHARGES. R. Allyn Lewis, vice president of the late International bank of Nogales, who has been on trial at Tucson on a charge of conspiring in the publication of an alleged false statement as to the financial condition of the bank, has been acquitted. He was then placed on trial on a charge of embezzling \$5,500. As soon as the territory had rested its case, the court instructed the jury to return a verdict of not guilty. Five other indictments were then dismissed.

Don't Be Deceived.

Do not be deceived by counterfeiters when you buy Witch Hazel Salve. The name of E. C. DeWitt & Co. is on every box of the genuine. Piles in their worst form will soon pass away if you will apply DeWitt's Witch Hazel Salve night and morning. Best for Cuts, Burns, Boils, Tetter, Eczema, etc. Miss M. H. Middleton, Thebes, Ill., says: "I was seriously afflicted with a fever sore that was very painful. DeWitt's Witch Hazel Salve cured me in a few days. Sold by all druggists."

CASES AGAINST

CHINESE AT DEMING.

The eight Chinese laborers who were at Deming under arrest for violation of the Chinese exclusion act, were brought before United States Commissioner B. V. McKoy last Saturday, says the Graphic. The United States officials present were Hon. J. A. Leahy, assistant United States attorney, Las Vegas; George A. Kase, deputy United States marshal, Albuquerque; Chinese Inspector J. A. Bryan, W. O. Stayer, G. G. Goodale, all of El Paso; Chinese interpreter Charley Koo, Tucson.

The trial resulted in the discharge of Wong Chung. The case of Lee Moy, George Chung and Yung Loui were postponed until December 15, 1905, and Yeh Hin, Lou Sing, Charlie Sam and Che Jim were ordered deported.

MRS. MARY SMITH

LEAVES DEMING.

The other afternoon the ladies of the Society Circle tendered a very well reception to Mrs. Mary Smith, who has just left town to make her home in California, after a nine years' residence in Deming, says the Graphic. The reception was given at the home of Mrs. U. Francis Duff. Lunch was served, at which thirty persons sat down, and Mrs. Smith was presented with a beautifully engraved napkin ring and a gold brooch, as a slight memento of the esteem in which she is held by the rest of the members of the society. The affair was a very enjoyable one. The table was speedily replenished with refreshments and colored leaves scattered upon its surface.

But Few Are Free.

But few people are entirely free from indigestion at this season of the year. Kodol Dyspepsia Cure is not only the best remedy to use because it digests what you eat but because it also assimilates and transforms all food into pure, healthy blood. Kodol relieves your stomach, heart, bowels, belching, and all forms of indigestion.

BANK CLOSED BECAUSE

NOT DOING GOOD BUSINESS.

Washington, Nov. 27.—The comptroller of the currency today received a telegram to the effect that by order of its directors, the American National bank of Boston has closed its doors. It is said that the bank had not been in good condition for some time. The bank had a capital of \$250,000, and individual deposits of \$250,000.

OUTRAGE ON MEMBER

OF AMERICAN EMBASSY.

Washington, Nov. 27.—Robert Woods Hill, second secretary of the American embassy, who has just returned here after a three months' vacation in Paris, was the victim of an outrage by rowdies in one of the fashionable streets of the capital last night, and only escaped being beaten to death by the timely arrival of the police.

IS STILL ACTIVE AT 119 YEARS

Portland Woman Born Before Constitution Was Framed Has Lived in Three Centuries and is Still Active.

Portland, Ore., Nov. 27.—To be older than the United States government, to have been a toddling infant when Washington was inaugurated president in the 18th century, and to walk erect in the full possession of her faculties under Roosevelt's in the 20th century, has been the good fortune of Mrs. Mary Ramsey Woods, of Hillsboro, Ore., who is probably the oldest white woman in the world.

In her 119th year Mrs. Woods is still quite active. Daily she walks about the garden of her daughter's home and sits upon the porch in sunny weather. She keeps well posted on events of the day and maintains a live interest in politics.

Mrs. Woods was born May 26, 1787, at Knoxville, Tenn., two years before the United States constitution went into effect. Her maiden name was Ramsey and her father burned the brick and built the first brick structure in Knoxville. She was seven years old when Tennessee was admitted as a state, and 18 when Lewis and Clark made their famous journey to the coast.

At an early age Mary Ramsey married Jacob Lamons, and was left a widow seven years ago, at the time that Andrew Jackson was nearing the end of his first term as president. She was a young matron when the war of 1812 broke out and distinctly remembers her father's strapping his blankets across his shoulders and starting out with his old rifle to fight the British until the war ended.

After the death of her husband she accompanied her daughter, Mrs. C. D. Southworth, and her husband, across the plains to Oregon, arriving in Hillsboro in 1853. She was then 66 years old, but rode a bay mare the entire distance from Tennessee, while her daughter and her husband drove an ox team.

Soon after arriving in Hillsboro, Mrs. Lamons married John Woods, with whom she lived happily for many years. Here she built the hotel for Hillsboro then, was larger than Portland. She ran the hotel until 40 years ago, when her daughter, Mrs. C. D. Reynolds, formerly Mrs. Southworth, and her only surviving child, succeeded her in its management.

Mrs. Woods weighs 130 pounds. She dresses and cares for herself, and is quite active. She is hard of hearing, and though blind in one eye, is able to thread a needle and do much sewing.

A red hot time all down the line. But first of all—why, I'd resign. If I were czar.

"Erthing's running like a clock on this farm," commented Mr. Ruckles, who had been sitting in front of the big warm fire all morning.

"That's 1793, as gospel," said Mrs. Ruckles. "It's just exactly like a clock. You can't see anything moving except the hands."

CAN OLD FITZ TAKE O'BRIEN'S MEASURE

ROBERT FITZSIMMONS

Measurements of the Men. O'Brien. 43 years. Age. 27 years. 5 ft. 11 in. Height. 5 ft. 10 1/2 in. 76 1/2 in. Reach. 73 1/2 in. 13 1/2 in. Biceps. 14 in. 42 1/2 in. Chest (nude). 36 in. 46 in. Chest (exp.). 43 in. 31 in. Waist. 31 in. 21 1/2 in. Thigh. 22 in. 14 in. Calf. 16 in. 14 in. Neck. 16 in.

When Robert Fitzsimmons and "Philadelphia Jack" O'Brien met in Woodward's Pavilion, San Francisco, on the night of December 30th, to fight for the "heavyweight championship of the world," two of the cleverest big men in the ring will oppose each other. The question, Can Fitz defeat the younger man in an open ring, and all sportmen are discussing it. With the majority on the negative side of the proposition.

Fitzsimmons is 43 years old; O'Brien is 27. O'Brien is a better boxer than Fitz, but hasn't the punching ability of the Cornishman. Both men are ring generals. Each has fought more than 100 battles. Their judgment is impaired by experience. O'Brien is confident, resting on the surety of his victory over Al Kaufman, the hard-bitten protégé of Billy Blaney. He recalls the sorry exhibition Fitz presented two years ago, when he fought George Gardner in San Francisco. But Fitz is in better condition than he was when he met Gardner. He has lived an exemplary life and he can take punishment as well as administer it.

The fight should be a hummer. When Fitz and O'Brien met in Philadelphia O'Brien cut Fitz to ribbons for three rounds, and then the Cornishman drew himself together and was wearing the Philadelphia down when the police stopped the fight at the end of the sixth round.

Fitz was in no condition to fight when he was not O'Brien. He had only training a week before the bout on the statement that the authorities would not permit the fight. At the last minute the fight was allowed to go on under the presumption that it was to be a boxing match. It developed into a pugilistic war and there would have been a knock out had not the police intervened.

Fitz has been out of the ring a year. He is older, possibly slower of movement than he was. O'Brien has been over the country. His fight with Kaufman shows he is a fine fighter, not to be lightly cast aside.

One result of the fight will have, beside settling the superiority of the two men, will be to draw the other heavyweight aspirants out into the open and bring another controversy over heavyweight honors that should result in several mills of more than ordinary interest.

OREGON'S GOVERNOR ON GRAFTLESS INSURANCE

GOVERNOR GEORGE E. CHAMBERLAIN WRITES FOR THIS NEWSPAPER SUGGESTING STATE CONTROL WITH FEDERAL SUPERVISION.

In my opinion, the bribe-giver is more than the bribe-taker, and where it is made to punish the latter a strenuous effort ought to be made to reach the former. The testimony before the insurance investigation in New York is positive that not only is there a "defense" fund provided by the large life insurance companies with headquarters in New York, but that the result of investigations upon which good government rests.

It seems to me that a bill might be framed placing these companies under state control, but subject at the same time to federal supervision and inspection, giving to the proper officers of the federal government power and authority to inspect the books, papers and proceedings of such companies and to publish the result of investigations, so that if the state authorities failed to do their duty the people might be advised by federal authority as to the true state of affairs.

I have not formulated in my own mind a plan for putting a stop to the

THE POSTAL DEFICIT

The report of Postmaster General Cullerton shows a deficit of \$14,572,584 in his department—a deficit which he mentions with pain. This, however, is nothing new. There is always the same old pain and the continuing deficit. There never was a time when the postoffice department did not have a deficit, and from present appearance of things there never will be.

Smooth-tongued economists soothe the patient paying public with specious assurances that money which appears as a deficit in the postal service really is invested in the development of the country and in the mental and moral enlightenment of the people. This sounds good, but the real cause of the deficit is very different. It lies in the plain fact that the postal service has never taken up the lines of the carrying part of the business in which there is profit. Private greed clings to the profitable end while leaving the unprofitable end for the government to carry. The four great reasons which Mr. Wannamaker named when postmaster general still prevent the establishment of a parcel post. Those reasons are the American Express company, the Adams Express company, the Wells-Fargo Express company, and the United States Express company.

There is no complaint of deficits in the annual reports of the express companies. Their profits more than balance the postal service losses. They have the cream of the parcel-carrying business and from them emanate the specious assurances that the postoffice department should be satisfied with skimmed milk and the steady development of the country. The four reasons have always been sufficient. The chief fear of congress seems to be that the postal department may wound the sensitive souls of the express companies by becoming efficient and profitable.

A reason for the postal deficit, in addition to the non-carrying one, is that the department does not own its own cars and does not refuse to pay more for hauling the mail than the express company pays for hauling their packages. It is well known that the mail car is the most inferior, and therefore the most dangerous, car in every train. Yet, as it has been shown time and again, the government pays in annual rental for these cars very nearly as much as they could be built for, and then pays more, pound for pound and mile for mile, for hauling the contents of these cars than is paid for the hauling of express matter.

Thus far the express and railway companies have proven too strong, through their representatives in congress, for the interests of the people to be considered in either of these prolific causes of postal deficit.

It is a matter of strong human interest that the success of the two Mills hotels in New York warrants the erection of a third. Far from the least advantage of these hotels, conducted as they are, is the disregard they offer that there is any necessity or excuse for the vicious lodging houses of the old slum type. The proprietors of the latter have always declared, as a last excuse for the state of their houses, that they could not afford to give anything more or better at the prices charged. The public now knows better, thanks to the cleanly, comfortable and successful Mills hotels, and the knowledge ought to compel substantial reforms in every American city. There have been people who argued that the Mills hotels, by providing good food and clean lodging at too small a price, put a premium on lack of ambition and robbed thriftlessness of some of its natural and beneficent penalties. But it is proved to be well that the man at or near his last dollar should be able to find a place where he can eat and sleep without encountering either charity or the fifth and vice which have too long and too generally been his only alternative.

It is claimed that the Southern Pacific has at last secured control of the Colorado river, at the point where the California Development company's intake diverted the river into the Salton basin. A pile and rip-rap dam has been built across the main channel of the river to the head of the island where the river divides into two channels. The distance is sixty feet. First, a row of piles, at regular intervals, was driven across this entire distance. This served merely to break the flow, but not to diminish it. Back of this row, three rows of more closely set piles were driven and filled in with rip-rap to a height of ten feet. This was continued for one-third of the distance, when a column of water began gradually to flow down the old and abandoned channel. Two-thirds of the distance have thus been closed, and with every foot of progress the flow into the old channel has increased and the flow into the Salton basin has proportionately decreased. When the remaining twenty feet shall have been crossed in the same manner, it is believed that the river will be shut out entirely, and the necessary permanent headgates can then be safely and securely constructed.

New Mexican: In endeavoring to regulate the social evil as much as possible, the city of Albuquerque should not punish nor take advantage of the unfortunate women engaged in it. They are punished enough and deserve pity more than anything else. The persons that should be punished are the men who support these forlorn ones and who induce them to keep in dark degradation and upon the broad path of wickedness to their own undoing and speedy end. In nine cases out of ten the women are situated against and deserve commiseration. A city ordinance making visits to bagnios by men punishable by fine and imprisonment and publication, would very likely be found very beneficial in the regulation of the evil. As far as eradicating the same, this has so far been found impossible, the same as the eradication of other crimes, even in large European cities where police regulations are enforced to the very letter.

Colonel Bird, of the Nogales Oaks, was not able to carry out his debate on joint statehood with Hon. J. Frank Wilson, of Arizona, from the fact that the Anti-Joint Statehood committee concluded some debate to be dangerous; and despite all Col. Bird could do, Col. Wilson backed out and is still backing. However, though none of the anti statehood with Col. Bird, they cannot stop his writing. So, week after week, he has swept the boards of the anti statehood, and with his terrific broadsides, till now they have left scarcely a plank to stand upon. In last Saturday's issue of the Oasis, the colonel's arguments in favor of statehood are absolutely admirable. It seems impossible to believe, after reading Col. Bird's article, that the people of Arizona would vote against statehood, could they but secure the privilege of expressing their wishes at the polls.

Deming Graphic: The Deming City Water company propose to all owners of unimproved vacant lots, that if the owners will fence in the same, and plant trees and shrubbery, this company will supply the water, and take the best care of the property for one dollar per lot per month, and no further charge to the owners. This is an excellent opportunity for all owners of vacant lots to improve and beautify the same at a nominal cost. This will not only improve the value of the lots, but those who are intending to build later on will have their ornamental shade and fruit trees without having to wait two or three years for them to grow up.

The ridiculous faculty of the Albuquerque Aftersmith's assumption that it possesses all the truth, honor, justice, purity and disinterested philanthropy which ought to be distributed among the papers of the territory, reminds one of a certain parade, once on a time, of the state militia in San Francisco. A fond mother was in the crowd of spectators when the company containing her son came marching by. "Just look at him," exclaimed she; "isn't he a darling? And would you believe it? He is the only one keeping step in the whole company!"

THE BEST OF THANKS

A father gave to each of his two little sons a pony and cart. And in the evening they came to thank him. "I have had such fine fun every minute of the day," exclaimed one. "O, how I thank you!" Quickly the father turned to the other. "And you?" he asked. Said the boy: "I took the little cart and the pony out for a long ride. Then I hauled a tired washwoman's heavy basket for her. I drove on an errand for mother. And the rest of the day I loaned the pony and cart to little sister. I give you, dear father, the thanks of all of these." The father's face lighted up like a lantern.

Shall we think that God is pleased with our thanks for health and strength when we have used these precious gifts only for ourselves and lent them to the sick and weak? Of what avail, in the mind on high, is strength not used to help bear some brother's burden? Can our thanks for plenty and content sound where to the ear of the infinite while the ailers behind our pleasant dwellings are writhed with poverty and despair? Thanks that are empty words of the mouth, with no self-sacrificing deeds back of them to set the heartstrings in vibration—can such thanks as these be heard above the countless moans of the world's woe which we have not sought to still?

Certainly, we have remembered God; we have prayed faithfully, thanking Him for blessings and asking for more; we have been regular in worship at the church; we have helped to build to His glory; but have we remembered that every home where want or sickness or misfortune dwells is also a place for us to worship Him, and that a kindly word and a helpful lift are the sweetest thanks to God? More thanks of the mouth are but mockery; make them real, a delight to earth and heaven. Let us take our strength to the weak and the fallen, and let their thanks be ours. Let us carry our content to the widow and the fatherless, whose faintest whisperings are heard on high. Let us go with our health into the hospitals and see thanks signalled straight to the heart of God from the brightened eyes of pain.

For what we have gotten out of this world it is easy to be grateful. But for what we have been able to give unto it—of help, of sympathy, of sacrifice, of cheer, of uplift, of soul-stuff—for this we may give thanks that will blend, infinitely sweet, into the eternal music of the spheres.

PLENTY AND FAMINE

The present situation of the railroad business is comparable to the case of a farmer who has raised a big crop, but who has to take them to market in a wheelbarrow instead of in wagons drawn by horses, says the New York Mail. That this is scarcely an exaggerated estimate is proved by the fact that the New York Central railroad has a daily call for from 4,000 to 5,000 more freight cars than it can supply, and that in the week ended November 11 that great road, with a glut of wheat at Buffalo demanding transportation to New York city, was able to take only four car loads of grain there over its own proper lines!

Such are the results of the car famine. One western railroad, with headquarters at Chicago, reports that there is not a moment nowadays when it could not use a thousand more cars than it has, if it possessed them. The managers say that they have given up trying to handle the business that is offered them.

But why, the reader may ask, do not the railroads keep and run enough cars to carry their traffic? The answer to this question is two-fold. First, the country needs more railroads and the roads need more cars. It pays better to have a slight lack of equipment and everything used to its utmost capacity, than to have a surplus of equipment lying idle. Hence, the basis of equipment is taken from the average year. But this year is altogether a record breaker. In the second place, more than 200,000 new cars have been ordered this year, and the shops simply cannot turn them out fast enough.

Though this congestion is decidedly inconvenient, and is driving shippers and railroad men frantic, it has its very reassuring side. It is the immediate expression of an abundance which will soon make itself felt in every home. The shout for "more cars," which follows the traffic managers over the telephone to their very beds, is really a psalm of prosperity.

DIFFERENCE STATED

The amended Eech-Townsend bill, which is the bill favored by Mr. Roosevelt, provides that the interstate commerce commission shall have the power to fix rates, after complaint and investigation, and to put such rates into effect forthwith. If the railway is dissatisfied with the rate thus fixed it has the right of appeal to the courts. The Foraker bill provides that if any shipper has ground for complaint he shall file his complaint with the attorney general at Washington and the attorney general shall immediately instruct the United States district attorney of the district wherein the complainant resides to investigate and bring suit in his behalf in the United States circuit court. If the court finds that the rate is unjust it shall so declare, but it can go no farther; it cannot fix a rate. All that it can do is to say that the rate is too high. A railway company could comply with the judgment of the court by reducing the rate a fraction of a cent per 100 pounds and the aggrieved shipper would have no recourse except to begin proceedings all over again, by writing once more to the attorney general at Washington. It is evident that under such a law shippers will have no substantial redress nor can they force a real correction of unjust rates.

So says the Denver Times; and anyone can see that the plan of the president is in the interest of the people while working no hardship to the railroads, but the Foraker plan is entirely in the interest of the railroads and does not give a ghost of a share to the people. No wonder that the people are overwhelmingly upon the side of the president.

New Mexican: A French writer has made a map of the United States dividing the states and territories into three classes, those utterly corrupt politically, those partially corrupt and those free from corruption. Of the last named, he finds only four, Colorado, Iowa, Mississippi and North Carolina, which will undoubtedly provoke a smile on the face of those "who know better." In these states, New Mexico, Arizona, Nevada, Montana, Idaho, Wyoming, Kansas, Oklahoma, Indian Territory, Alabama, Florida, and New Hampshire are classified as partially corrupt, while the rest of the nation is hopelessly, utterly corrupt. The states placed in the last class are inhabited by 60,000,000 of the 75,000,000 people of the country, while the partially corrupt commonwealths have a population of 7,000,000. All this may be news to most people or it may not be, but that the French writer has any advantage ground for judging the degrees of political corruption in the United States is to be doubted. Perhaps, he might find something of the kind in La Belle France, if he were to look for it as diligently as he claims he investigated political conditions in the United States.

The Literary Digest of last week contained an article, the caption of which was "Some Bits of Cold Storage." It is really wonderful that some one does not write an article on the evils of too much Sunshine. One of the greatest blessings to the race was the invention of artificial ice, and the resultant spread of cold storage in even tropic lands. This writer can remember when fresh meat other than fowls was unknown in the southern states of this country, it all rural sections, villages and even large towns.

Alamosa, Colo., Journal: The sheep still pass through Alamosa to various points in the valley. At first thought it seems impossible to care for the thousands of head of sheep and cattle that will be wintered in the San Luis valley; but when one sees the acres of peas, alfalfa, and grass land, together with oats, wheat and other grains raised here, it is an easy matter to understand how all these thousands of head of stock can be easily wintered. This is a great stock country and sooner or later will have no equal anywhere in this industry.

SPORTING...

...BREVITIES

Al Kaufman is seeking a match with Gus Roling, but the latter is doing some side-clapping in the office of his claim to the championship by posing a forfeit to fight any of the heavies.

From the way Tommy Murphy is fighting all comers and beating them, he will soon be entitled to a return match with Terry McGovern, unless Terry should by hook or crook be able to get on a match with East Nelson and to show him away, one of the possibilities, but hardly probable.

"I know they think I am going out with the tide," said Robert Fitzsimmons, the other day. "But there's a whole room full of fellows who are preparing to write 'Here lies old Fitzsimmons' and 'God bless him'; but they will be forced. I am as confident that I can take O'Brien's measure as I am that I can still put a slice of steak to the head at one sitting. O'Brien is clever, but I've got the wallop. Don't forget that."

Mathewson and Dowerman, who have been hitting deer in the wilds of northern Michigan, are having no luck whatever and will spend a few weeks in Maine. It is improbable that Matty will accept the offer to go to Cuba to play in a series of exhibition games.

Sam Thompson, who played right field for Philadelphia for many years, is coach of the Albion, Mich., foot ball eleven. Time has dealt lightly with him and he is in almost as good condition as when in his palmy days on the diamond. He occasionally plays base ball. Last season he played right field with the Detroit Athletic Club, and ended the season with a batting average of .345. Sam has taken care of his money, has a cosy home, a charming wife and is enjoying the closing days of his life as a man who has practiced right living can conscientiously do.

Matty Mathews, ex-welterweight champion, will get into the fighting game again. He is in New York looking for any easy picking he can find among the second raters.

The gridiron has been given a clean bill of health in regard to Young Tommy Ryan's broken nose. The damaged obligatory organ is the result of a boxing bout. Score a touchdown for the pigskin.

Beals C. Wright, nat'l tennis champion, is playing a series of games on the Pacific coast, but thus far has shown very poor form. He has failed to impress the westerners with his style of play.

Committees have been appointed by the Kansas and Nebraska universities to meet after the close of the present foot ball season and try to adjust the differences that have prevented a meeting of their chieftains for several years. Effort probably will be made to bring Missouri into a triple alliance, which should make an effective tri-state organization in the mid-west.

The proceeds of the games thus far participated in by the Wisconsin foot ball eleven aggregate \$22,000. And yet the sale of eliminating foot ball from some of the college teams. In a little speech at a boxing exhibition in Chicago, the other night, Tommy Ryan announced his perpetual retirement from the ring. The fight fans supposed Tommy had retired a long time ago and they were laughing when he said so.

Frank Meier of St. Louis, who played short stop and first base for Princeton, has accepted terms with Pittsburgh, and will report for duty in the spring. Meier is said to be a hard hitter and all the other ante-season talk about the signing of an amateur by his league team.

George Robertson, who drove the Christie car in the Vanderbilt cup elimination race, will probably be seen among the big racing chauffeurs in the Ormond Beach races next January. Arrangements are all but complete for the most effective use of eliminating the mass play and opening up the game to a dispendous and beef.

Having once more placed a lump of ice on the fevered brow of the rumor that there will be a consolidation of the National and American Leagues, President Ben Johnson, of the American League, is now ready to extend the olive branch to Comanche Combsley. President Johnson declares that last year was the most prosperous in the history of the American League. The consolidation rumor was born in Cleveland, which is doing something of a mole St. Nicholas on the baseball map.

James White, the English boxer, will visit this country in March and sends word across that he will try to get on a match with Nelson. White created a good impression on the coast when he fought Britt.

Frank Sullivan is to give boxing exhibitions with John L. Sullivan, and these two old timers are contemplating a tour of the world. What a croaking of hines there will be when they enter the ring.

A New York newspaper, in its sporting column, refers to him as "Jerry Herriman of Cincinnati." Such is fame.

The boxing game in England seems to be on the wane, or is in the hands of a set of economical managers. Statisticians of the National Sporting Club in London, have called to Jimmy Walsh, the bananaweight fighter, of Boston, for a fight with Owen Moran, Walsh called back that if he would increase the offer to \$10,000 he would accept.

The referee of the Fitzsimmons-O'Brien fight will get \$500, "and no more," according to Jimmy Coffroth, the matchmaker. "Five hundred dollars is enough for refereeing a championship match," says Jimmy.

Hank O'Day will probably be seen in a mask and protector behind the plate next season. He denied that he will go to another meeting. He will go to St. Louis to manage the Cardinals.

Condie Mack is seeking a market for Lave Cross and Danny Hoffman, but has found no market as yet. He has definitely decided to cling to Remben Waddell for another season.

Joe Blavert Brit is conducting a very subtle, but thus far ineffective, campaign to force Mattling Nelson to give him a return match. Through the columns of the newspapers he has called the Dane about everything that the postal laws will permit in the hope of forcing the Hegewisch lad to agree to another meeting. But Brity Nolan, in spite of his valubility, is just as keen as Britt, and the way he is safeguarding the Dane's interests stamps him as one of the most astute managers in this country.

He will consent to go to the Mound City, but Gansel says he doesn't want to play in the major leagues, as he can make more money managing a team in the bush circuit.

Weird story traveling 'round the country says that Frank Farrell has cleaned up \$50,000, playing fast horses last season.

A 25-round battle will be fought by Willie Lewis and Willie Fitzgerald before the Colma A. C., Colma, Cal., some time next month.

Secretary Sullivan of the American Amateur Athletic Union, has sailed for Europe, where he will spend two months in an effort to bring into closer relationship amateur organizations of Ireland, England and France with the A. A. U. The foreign societies have expressed a desire for closer relationship with the American organization, and nearly all of them have notified Secretary Sullivan that they will expunge Duffey's records from their lists.

Joe Walcott, the pugilist, is in trouble in Boston. He assaulted a 15-year-old boy the other night in a pool room and was held for trial.

The showing made by "Kid" Sullivan against Abe Attell at Baltimore, justifies to some extent the claims of Al Herford that Sullivan is the logical successor to Joe Gans' place in things pugilistic. Sullivan fought Attell all over the flag and last year for the world made for him. The fight would have been given the decision. Terry McGovern is to be offered a chance at Sullivan, but as Terry is seeking bigger game in the shape of Mattling Nelson, it is improbable that he will take on any other fighter until he gets a final answer from Nelson's manager.

The intention of the Tri-State League to enter Pittsburg seems to be more than idle dreaming. It is contended that Pittsburg is ripe for another team, the standing of the Pirates in the race last year and little prospect of doing better next season, having whetted the appetites of the patrons of the game to something else that smacks of championship caliber. Patev Donovan, who once managed the Pirates, and is popular in the St. Louis City, is slated to manage the outfit there if it does break in on the National's preserves.

A looker after the welterweight championship is Matty Fitzpatrick. He will challenge the holder, Jimmy Gardner, and failing to get a match with him will go after Billy Melody, whom he has held to three draws.

Mike Schreck is training at Los Angeles for his fight with Jack Sullivan. "Young Ernie," the Philadelphia fighter, will leave for the coast next week to begin training for his coming bout with Eddie Hanlon at Los Angeles, December 15th. The fight goes on the coast have wanted for a long time to see Ernie, and after his fight with O'Leary at Milwaukee the desire became greater than ever, with the result that the match with Hanlon was made.

Attell's poor showing against "Kid" Sullivan last Thursday night practically marks his passing from ring activities into the class of former ringers. Attell's refusal to go on without an agreement that there should be no decision if both men were on their feet at the end of the 15 rounds, and his dilatory tactics in the ring demonstrated that he is no longer the aggressive Ab of old. His punch is no longer steamed over, but is about as annoying as a blow in the face from a feather pillow.

The friends of Adrian C. Anson are trying to get him to return to the ring to install him in the place made vacant when James Hart retired from base ball, and are making little headway. Anson is still popular with the fans of former days, but a new generation is growing up—a generation that looks for results, not for the fellow who used to be. And these fans are chanting the refrain, "It isn't what you were, it's what you are today."

According to Coach McCormack of Northwestern, the average weight of the ideal foot ball team should be 190 pounds. He thinks the most effective use of eliminating the mass play and opening up the game to a dispendous and beef.

Having once more placed a lump of ice on the fevered brow of the rumor that there will be a consolidation of the National and American Leagues, President Ben Johnson, of the American League, is now ready to extend the olive branch to Comanche Combsley. President Johnson declares that last year was the most prosperous in the history of the American League. The consolidation rumor was born in Cleveland, which is doing something of a mole St. Nicholas on the baseball map.

James White, the English boxer, will visit this country in March and sends word across that he will try to get on a match with Nelson. White created a good impression on the coast when he fought Britt.

Frank Sullivan is to give boxing exhibitions with John L. Sullivan, and these two old timers are contemplating a tour of the world. What a croaking of hines there will be when they enter the ring.

A New York newspaper, in its sporting column, refers to him as "Jerry Herriman of Cincinnati." Such is fame.

The boxing game in England seems to be on the wane, or is in the hands of a set of economical managers. Statisticians of the National Sporting Club in London, have called to Jimmy Walsh, the bananaweight fighter, of Boston, for a fight with Owen Moran, Walsh called back that if he would increase the offer to \$10,000 he would accept.

The referee of the Fitzsimmons-O'Brien fight will get \$500, "and no more," according to Jimmy Coffroth, the matchmaker. "Five hundred dollars is enough for refereeing a championship match," says Jimmy.

Hank O'Day will probably be seen in a mask and protector behind the plate next season. He denied that he will go to another meeting. He will go to St. Louis to manage the Cardinals.

Condie Mack is seeking a market for Lave Cross and Danny Hoffman, but has found no market as yet. He has definitely decided to cling to Remben Waddell for another season.

Joe Blavert Brit is conducting a very subtle, but thus far ineffective, campaign to force Mattling Nelson to give him a return match. Through the columns of the newspapers he has called the Dane about everything that the postal laws will permit in the hope of forcing the Hegewisch lad to agree to another meeting. But Brity Nolan, in spite of his valubility, is just as keen as Britt, and the way he is safeguarding the Dane's interests stamps him as one of the most astute managers in this country.

The President's Thanksgiving Turk

HOW 41 POUND BIRD FOR WHITE HOUSE LOOKS IN LIFE.

Westerly, R. I., Nov. 28. — The turkey President Roosevelt and his family will eat on Thanksgiving day is primed and ready for the hatchet, weighing 41 pounds.

The big gobbler's name is San Juan. He stands nearly four feet tall, and here's a photograph taken of him on the farm. As usual, he is the gift of the farm hands who have supplied White House Thanksgiving turkeys since the days of President Grant. Every one has been a prize fowl, but Mr. Vose says the one that will go to President Roosevelt is the finest he has ever raised on his farm here.

San Juan will be shipped to Washington in a big crate that looks like an upright piano box. One of Mr. Vose's farm hands will travel with the bird to deliver him into the hands of the president.

HOVEY ANSWERS ALGODONES WRITER

RELATIVE TO SCHOOL MATTERS IN THAT DISTRICT OF SANDOVAL COUNTY.

To Evening Citizen: Algodones, N. M., Nov. 22.—In the columns of your most esteemed paper of the 20th inst., there appears a paragraph headed "Algodones Items" as special correspondence, under date of Nov. 16th, 1905. In answer to said article, which I consider a slander from the man who wrote same, I desire to set before you as a man "illiterate" Mr. J. H. Madden to prove his smugness. First he has basely and falsely lied, inasmuch as saying that no school has been held in Algodones, as the school has been in session since the 10th inst. The writer of these lines being in charge of the school, with an attendance of 54 school children of this place; now if the writer of the said slanderous article has been killing, ducks or geese in his frequent nightmares, I am not to blame for his ignorance in our precinct affairs. Now regarding the school director to whom he refers as a man "illiterate" and who was re-elected this year as school director, I beg leave to say that the people of this precinct simply showed the fact that they have all confidence in the man referred to, who is a man of family, who has three or four children of school age. He is owner of personal property, owner of real estate, a tax-payer and an honest straight-forward gentleman. He farther refers as to four Americans of this place having cast their votes for him to their shame; what does he call the rest of the men who voted for him? He calls them "illiterate." He is a most ungrateful man, as he has always received nothing but kindness at the hands of the Spanish American residents of this precinct, who have fed him, roomed him and cared for him in his roomings. If he is trying to prove a writer, or working up a story, he has started the wrong way and these people are ready to stand by their rights and are better and more of American citizens than he is himself. Yours respectfully,

O. P. HOVEY.

CEMENT FACTORY

PLANNED FOR ESTABLISHMENT NEAR ROSWELL IN PECOS VALLEY.

A dispatch from Roswell dated November 25, says: A large cement factory will be built on the Pecos river near this city, and will be under operation by January 1. At the start, 100 men will be employed. The plant will be built by the Acme Cement company, which is one of the foremost of the country. It has five mills; one at Laramie, Wyo., one at Grand Rapids, Mich.; two in the Indian Territory and one at Acme, Texas. These factories have a daily output of 1,500 tons, but the company is now 15,000 tons behind in its orders.

The plant here will be a "six-story" mill, which will have a capacity of 100 tons per day. The cement here will be made from gypsum, a bed of which at the point where the factory will be located, has been pierced for forty feet and the bottom is still undiscovered. The gypsum is of the purest. The gypsum is plowed up, ground, and "dry boiled" in large kettles. The intense heat is applied until all but from 5 to 7 per cent of the moisture is removed. It is claimed that this makes a perfect cement for use in plastering and white-cementing walls.

Experts declare that the gypsum beds on the Pecos river are the finest in the world.

Engineer F. R. Welsh, one of the oldest locomotive engineers employed by the Santa Fe, was taken to the hospital at Los Angeles to be treated for blood poisoning, which developed from a finger crushed while repairing a pump. His condition became alarming and it was feared that the hand would have to be amputated, but reports received by his friends at San Bernardino from the hospital are now of an encouraging nature.

Some interesting facts condensed from the annual report of Secretary of Agriculture Wilson, which has just been issued:

Total agricultural wealth production, \$4,415,000,000.
Increase in value of farms during last year, \$5,125,000,000.
Daily increase, \$3,400,000.
Corn production, 2,708,000,000 bushels; value, \$1,250,000,000.
Hay, 3,605,000,000; cotton, \$575,000,000; wheat, \$225,000,000; oats, \$252,000,000; potatoes, \$125,000,000; barley, \$85,000,000; tobacco, \$42,000,000; sugar cane and sugar beets, \$50,000,000; rice, \$12,552,000; dairy products, \$665,000,000.

Secorro Moura the Death of Mrs. W. H. Sanders.

The sad announcement came to Secorro the other day that Mrs. W. H. Sanders, wife of one of Secorro county's leading stockmen and best known citizens, had died in San Diego, Cal., says the Chieftain. But little is known here of the circumstances of Mrs. Sanders' death, other than that she submitted to a dangerous surgical operation for relief from a disease which she had suffered for several years, and that she survived the operation only a few minutes.

Mr. Sanders and other members of the family will have the hearty sympathy of a large circle of relatives and friends in their bereavement.

SHOT IN WAIST.

Shooting Scrape at Las Vegas and One is Shot.

Coronel Ruca, a special deputy shot Manuel Serna through the wrist in a make that occurred on the west side Saturday evening, says the Chieftain. A number of men, including one of the Oklahoma witnesses in the train robbery case, raised some disturbance and the Oklahoma man was disarmed by Ruca. Serna started to run away, and, declining to stop when commanded, Ruca fired shot with the Chieftain's man's gun, which went through Serna's wrist. Serna then gave his self up and was taken to jail.

Samuel Rhodes, a blacksmith at Jerome, Ariz., is in the city to spend Thanksgiving with his family, who reside at 516 West Coal street.

BIG INDIAN CHIEFS ARE COMING TO ALBUQUERQUE

This city will be honored on December 4th, by a visit of Great Inchohene, John W. Cherry, and Grand Chief of Records, Wilson Brooks.

These gentlemen are the highest officers in the great order of Red Men in the United States. They are now touring the United States and will sail from New York to Panama in December, where they will institute branches of the order in the canal zone.

It is earnestly requested that every Red Man in this hunting ground be present at their wigwam on the night of December 4th, to meet these great chiefs and gain much wisdom from their instruction.

JOHN W. CHERRY.
Great Inchohene, Great Council of the United States, Improved Order of Red Men.
Born in Norfolk, Virginia, December, 1854. Has resided in that city continuously.
At the age of fifteen he became a printer's apprentice. Has had all the hard knocks attendant upon that line of business and today is one of the prominent printers in Norfolk.
Joined Black Hawk Tribe No. 57, of Virginia, in 1883, since which time he has been an active member of the order.
In 1887 he became a Past Sachem and entered the Great Council of Virginia.
He was elected Great Sachem of Virginia in 1891.
Elected the Great Council of the United States in 1893.
Was appointed Grand Minewah of the Great Council of the United States in 1894.
Member of the committee on Constitution and Laws of the Great Council of the United States in 1896.
Was unanimously elected Great Junior Sagamore of the Great Council of the United States in 1902, and Great Junior Sagamore in 1904, and became Great Inchohene, March 29, 1905, on the death of the then Great Inchohene, Thomas H. Watts, of Alabama.
Brother Cherry is of imposing stature, being six feet two inches tall, and has a pleasing smile and an affable manner, which has made him one of the most popular members of the order.
While not an orator he speaks with a force and earnestness that commands respect and close attention from his hearers.

WILSON BROOKS.
Great Chief of Records, Great Council of the United States, Improved Order of Red Men.
Residence, Chicago, Illinois.
Born in Connecticut, 1846.
Son of Rev. W. E. Brooks, D. D., Congregational clergyman.
Moved to Austin, Texas, at the age of fourteen.
Entered Yale university in 1863; graduated 1867.
Since graduating has resided in Chicago.
In 1890, at the age of twenty-four, he was elected a republican member of the legislature.
Has been a member of the Improved Order of Red Men since 1899.
In 1892 became a member of the Great Council of Illinois, where he served successfully as Great Sagamore, and Great Senior Sagamore, and in 1894, was elected Great Sachem.
In 1895 he entered the Great Council of the United States.
In 1897 was elected Great Chief of Records of Illinois, at which time the membership of the order was only 2,000.
In 1904 voluntarily declined further re-election as Great Chief of Records of Illinois, at which time the order had 15,000 members in the state.
In 1906 was elected Great Chief of Records of the Great Council of the United States, since which time he has been unanimously re-elected.
He is considered to have one of the most up-to-date offices in the United States.

RAILROAD NOTES

George H. Nelson, traveling inspector for the Santa Fe refrigerator service, was an Albuquerque visitor yesterday.

Special Officer C. Lawrence Davis, of the Santa Fe, has been transferred from the local yards to the Santa Fe yards at Helen.

E. H. Zimmerman has resigned as night ticket clerk at the local station and will seek some vocation other than railroading.

A. L. Grimsley, traveling freight and passenger agent of the Santa Fe Central, who was here on business, has returned to his headquarters at Santa Fe.

Passenger engine 1210 brought a freight train to Las Vegas from Rio Rancho Thursday. It is a brand new engine and is being broken in for a passenger run.

C. A. Fellows, of Topeka, who built the new shops in La Junta, has been given the contract for the construction of the Rock Island's new \$50,000 round house at Horton, Kan., and has begun actual work. The new structure will be of brick and will contain twenty-seven stalls.

J. E. Barney, conductor on the Mexican Central, is said to have been taken into custody by the Chihuahua state authorities for using unnecessary violence in ejecting a passenger, but no information to that effect has been received by Juarez officials of the report. They doubt the truth of the report.

Gardner Lathrop, general collector for the Santa Fe, left for his headquarters at Kansas City last night, after directing the defense in the Santa Fe re-late case, a motion of which was argued in the court yesterday. Mr. Lathrop is a very forcible speaker and a very able lawyer.

F. H. Mudge, engineer for the Lantry-Sharp company in Abbe canyon, arrived from Helen this morning. Mr. Mudge says that bridge No. 1 in Abbe canyon on the cut-off, is completed, and that the work of placing the steel girders on bridge No. 2 has begun. Track is being laid through the canyon from the cut-off at Abbe pass at the rate of 3,000 feet a day.

H. W. McNamara, formerly an agent of the El Paso & Southwestern railway, has been checked in at Torrance as joint agent for the El Paso & Southwestern and Santa Fe Central railways, in place of J. W. Mayes, resigned. The latter goes to Santa Fe, where he will take charge on December 1 of the local office of the Postal Telegraph company, vice H. T. Gibson, resigned.

The New Mexican says: H. D. Cornell, of Buffalo, general agent of the passenger department of the Burlington Railroad company, at Buffalo, and his wife, have arrived in the city and are the guests of Mr. and Mrs. S. G. Carwright. Mr. and Mrs. Cornell will remain several days enjoying the climate and viewing the many points of interest in and around Santa Fe.

OFFICIAL ANNOUNCEMENT OF MECHANICAL CHANGES.
C. M. Taylor, mechanical superintendent, officially announces that, effective November 15th, the following changes were made in territorial assignment of road foremen of engines on the western division of the Santa Fe.

John M. Ross is assigned exclusively to the Rio Grande division, with headquarters at San Marcel.

The territory of John A. Carroll is extended to cover the third district, New Mexico division, and restricted on the Albuquerque division to cover the first division only.

T. L. WILSON RE-ELECTED FOURTH VICE PRESIDENT.
Thomas L. Wilson, editor of the Labor Advocate, published in this city, has been notified of his reelection as fourth vice president of the International association of Machinists, by a referendum vote of all the nearly 30,000 members of the organization. Wilson is one of the vice presidents of the association, who is looking after the interests of the members of the organization along the Santa Fe, his territory being the coast lines. Mr. Wilson will continue to make his headquarters in San Bernardino for the present.

CONTRACT LET FOR NEW ROAD.
Deaf Brothers & Mendelhall, of Springfield, Utah, have obtained the contract in grade Senator Clark's Los Angeles-Bullfrog railway, a total of 11.5 miles, from Las Vegas, Nevada. Ross Clark, who has returned from Salt Lake City, authorized that announcement that all the documents have been signed, sealed and delivered. The successful firm is one of the best known in the world of railway construction doing business in the west, and only recently it obtained a contract involving a large part of the mileage of George J. Gould's Western Pacific railway.

President J. Ross Clark, of the new Los Angeles-Bullfrog enterprise, says that under the terms of the contract signed the new line must be graded its entire distance within five months, from December 1, at which time five teams will be placed on the work, the number to be added as may be necessary. It is expected that about a mile a day will be graded in position daily, the railway company doing that work itself.

The Clark enterprise will involve an expenditure of about \$1,500,000.

SIXTEEN MILLION TO GET A WATER SUPPLY.
Kingston, N. Y., Nov. 27.—The State Board of Water Supply Commissioners will hold a session here this afternoon at the court house to hear arguments in the matter of plans for obtaining water from the Catskill region for Greater New York, at an expense of not more than \$16,000,000. This plan was submitted by the City Water Board and accepted by the State Board. All those interested in the matter have been invited to attend the hearing and submit any arguments or objections which they may have.

YOUNG FIELD IN VERY BAD WAY.
Chicago, Nov. 27.—Physicians of Marshall Field, Jr., have issued a bulletin stating that his strength is rapidly failing. The family have been summoned to the bedside.

GOOD NEWS

To those who are sickly and run down, or whose stomachs have gone "back on them," we bring the good news that they can be cured, but they must give up old methods and commence taking

HOSTETTER'S STOMACH BITTERS

This is the modern and most successful way of curing such ailments as Headache, Bloating, Heartburn, Poor Appetite, Cramps, Indigestion, Dyspepsia, Female Ills, or General Debility. We urge every sick person to start today.

UNIVERSITY NOTES
President Taft returned Friday morning from Washington and other eastern points.
Table Wells, right guard on the first ball team, has been laid up the past few days with rheumatism.
Friday morning Miss Parsons occupied the assembly period with a very interesting account of early days in New Mexico. After describing the primitive methods of transporting goods by means of burros and pack animals, Miss Parsons related stories of people and places, showing clearly that New Mexico is a rich field for the story teller. Told in Miss Parsons' vivid manner, the descriptions were listened to with the utmost attention.
Four candidates are on the field for the honor of representing the university preparatory school in the inter-scholastic oratorical contest to be held in this city December 27. The four are Ernest Van Cleave, Lawrence D. Field, Violetta De Tullio and Elwood Albright.
Practice by the foot ball team has been greatly interfered with by the bad weather the past week. The team could not get out for three days on account of rain. Another drawback is the absence of Wells at right guard and the possible inability of Tancher to go into the game. In spite of all this, however, the boys are working hard to line up the strongest team possible against the A. & M. college Thanksgiving. This will be a real ability test as well as the hardest game of the season. The men to play will be chosen from the following list: Solva, Ross, Maguire, Wells, Tancher, H. Bryan, Crawford, Hoald, Smith, Allen, Clancy, Mayo, Albright and Dye.
The "frat" boys gave a pleasant little dance at their hall in the library building last Thursday night. Joe Scott furnished the music in his usual splendid manner. Coffee and sandwiches were served as refreshments. Those present were Mr. and Mrs. Asplund, Misses Hazekine, Allen, Bryson, Diekmann, Hall and Spits, and Messrs. Taseher, Crawford, Allen, Alvord, Danahy, Smith, Horton and K. Ryan.
The student standing committee has finished the work of classifying the students at the university. There are thirty college students, classed as follows: senior, one; junior, five; sophomore, eight; freshmen, thirteen; special, three. The rest, numbering sixty-five, are in the preparatory or high school departments.

CLAUDE DOANE

FAILED TO ESCAPE
Smuggled a Saw Into McKinley County Jail But Had no Chance to Use It.

FELLOW PRISONER PEACHES ON HIM

The Gallup Republican, which reached the city last night, furnished a "special" dispatch to the Morning Journal in regard to Claude Doane attempting to escape from the McKinley county jail at Gallup last Friday afternoon, at Las Vegas. The government has introduced much evidence, some of which as it stands, is very strong against the prisoners, and has conducted the case throughout with the utmost care. Assistant United States Attorney E. L. Medley, of Albuquerque, has conducted all the examinations with skill and ability.
The defense began the presentation of evidence Friday afternoon by placing on the stand Mr. Thomas, one of the owners of the Sunnyside mine, where the three prisoners were employed.
Several citizens have asked for particulars concerning the crime. The night of Aug. 3, 1904, a Rock Island passenger train was held up at Logan, N. M., at least \$25,000 being concerned. The robbers covered the engine and express messenger and forced them to detach the express car, blew open the safe and escaped. Large rewards were offered and United States and special officers have worked diligently on the case, where the three prisoners were employed.
After being indicted Doane was taken to jail in irons and put in his cell and was securely locked to bet the bars of steel means nothing to him, as he was in possession of a saw which he had smuggled into the jail unknown to the officers. In some way, without exciting suspicion, one of the prisoners, an old man, got word to Sheriff Coddington that Doane was planning his escape by cutting away the bars of his cell. The officers went to the jail and searched the indicted murderer and found two saws. One of the saws had been fitted with a handle which he had made from the handle of a lard can. The saw had been secured by the prisoner before he was brought to Gallup, and he got them inside the jail by hiding them in the baggage which was around one of his legs. It will be remembered that Doane was shot in the leg when he was captured and the wound was bad. The jailer of the saws, as the handle was not secured when the prisoners were taken to the McKinley county jail.
After the officers found the saws they made Doane take off all of his clothes and put on others. He had very little to say and would not tell where he obtained the saws with which he intended to cut his way through steel to a short lived liberty.
Had Doane had the chance to use his saws, he could not have escaped, for the construction of the cells is such that it is impossible to cut through the bars. Edward Hart bought the steel structure of the jail for the county, and when picking out the kind wanted here, had just such schemes in view as Doane. The people making the cells gave a demonstration to show that it would be impossible to saw the bars. The bars are in three pieces, two thicknesses of very hard steel and one of soft steel. Doane could saw on the bars for a week and still be a safe prisoner.

STRONG CASE AGAINST FEDERAL PRISONERS

Government Completes Its Side and Wins Net Around Black and Murphy.

SKETCH OF CRIME COMMITTED

The United States completed its case against James Black and John Murphy, charged with assisting in the Logan train robbery, last Friday afternoon, at Las Vegas. The government has introduced much evidence, some of which as it stands, is very strong against the prisoners, and has conducted the case throughout with the utmost care. Assistant United States Attorney E. L. Medley, of Albuquerque, has conducted all the examinations with skill and ability.
The defense began the presentation of evidence Friday afternoon by placing on the stand Mr. Thomas, one of the owners of the Sunnyside mine, where the three prisoners were employed.
Several citizens have asked for particulars concerning the crime. The night of Aug. 3, 1904, a Rock Island passenger train was held up at Logan, N. M., at least \$25,000 being concerned. The robbers covered the engine and express messenger and forced them to detach the express car, blew open the safe and escaped. Large rewards were offered and United States and special officers have worked diligently on the case, where the three prisoners were employed.
After being indicted Doane was taken to jail in irons and put in his cell and was securely locked to bet the bars of steel means nothing to him, as he was in possession of a saw which he had smuggled into the jail unknown to the officers. In some way, without exciting suspicion, one of the prisoners, an old man, got word to Sheriff Coddington that Doane was planning his escape by cutting away the bars of his cell. The officers went to the jail and searched the indicted murderer and found two saws. One of the saws had been fitted with a handle which he had made from the handle of a lard can. The saw had been secured by the prisoner before he was brought to Gallup, and he got them inside the jail by hiding them in the baggage which was around one of his legs. It will be remembered that Doane was shot in the leg when he was captured and the wound was bad. The jailer of the saws, as the handle was not secured when the prisoners were taken to the McKinley county jail.
After the officers found the saws they made Doane take off all of his clothes and put on others. He had very little to say and would not tell where he obtained the saws with which he intended to cut his way through steel to a short lived liberty.
Had Doane had the chance to use his saws, he could not have escaped, for the construction of the cells is such that it is impossible to cut through the bars. Edward Hart bought the steel structure of the jail for the county, and when picking out the kind wanted here, had just such schemes in view as Doane. The people making the cells gave a demonstration to show that it would be impossible to saw the bars. The bars are in three pieces, two thicknesses of very hard steel and one of soft steel. Doane could saw on the bars for a week and still be a safe prisoner.

TRYING TO SAVE HUSBAND

BEAUTIFUL WIFE OF AMERICAN SENTENCED BY A MEXICAN COURT TO EXECUTION FOR MURDER, CLEAVES TO HER HUSBAND TO THE LAST.

A special dispatch from Roswell says:
"Why of course I would not want him to be shot; that would be heartless," was the answer of Mrs. C. S. Harle today, at the home of her parents. Mr. and Mrs. W. H. Wiggins, in this city, she is the wife of Dr. C. S. Harle, who was sentenced to be shot at Chihuahua by Judge Reis this week. She declined to give an opinion in regard to the case, only to say that it would be appealed to the supreme court of Mexico, and that she hoped for more favorable results.
Mrs. Harle was formerly Miss Nora Wiggins of El Paso, and was a society belle in that city. In August, 1890, she was married to Dr. Harle at El Paso, who was a prominent practicing physician at El Paso at that time. At the time of her marriage she was declared to be one of the most beautiful women in the United States, and in spite of the great trouble that she has been under in the past three years, her remarkable beauty has not faded a particle.
Dr. Harle was sentenced to be shot with C. T. Richardson and William Mason, Americans, convicted of the murder of two men in Chihuahua for life insurance money.
Mr. and Mrs. Harle returned to the city last night from an extended visit to Europe.

NEW IRRIGATION DITCH

NOW UNDER CONSTRUCTION IN ESPANOLA VALLEY—WILL BE COMPLETED BY MARCH FIRST.

Work has been recommenced on the irrigation ditch in the Espanola valley upon which construction was first begun a year ago and thereafter abandoned. The ditch will be twenty miles in length and starts at a point above Chamita. When completed several thousand acres of fine agricultural land will be placed under irrigation and the crops raised thereon will materially increase the output and the prosperity of that section of Rio Arriba county. It is hoped that the ditch will be completed and ready for use by March 1st. A large number of men and teams are employed.

PRESIDENT M'CALL MAY BE THE NEXT TO GO.

New York, Nov. 27.—In explaining his testimony of last Friday, when the statement was made that \$50,720 was paid to Andrew Hamilton, the "legislative insurance generalissimo," by J. P. Morgan & Co., Vice President Perkins testified that in 1901, J. P. Morgan & Co. paid \$50,720 to the Central National bank and the New York Security and Trust company. This payment was made, he said, upon request of President McCall, of the New York Life, to take up loans to Edward E. McCall and Andrew Hamilton, which those institutions had made at the request of President McCall.

TRAVEL TO YELLOWSTONE

ONLY 2,500 PEOPLE HAVE VISITED THIS FAMOUS SPOT.

Since Yellowstone Park, "the nation's playground," was opened to the public twenty-five years ago, it has been visited by about 250,000. The attendance each year has been increasing, but the railroads regard it as small, considering the fact that there are 30,000,000 people in the country to draw on.
"It is surprising to me that more people do not go there," said a tourist the other day. "In the park are the only geysers of their kind in the world, the only ones that approach them being in New Zealand. Game is getting more plentiful there every year, and while even the president himself cannot kill any of them, they are worth going to see. The buffalo are thriving in Yellowstone. I saw one recently that was really wild. The forty which were enclosed four years ago have grown now to eighty."

MUTINY THIS TIME IS NO DRUNKEN ROW.

Sevastopol, Russia, Nov. 26.—(L. A. P.)—This city is in the control of mutinous sailors and soldiers and the greatest disorder prevails. Troops are being hurried here from Odessa.

Mrs. J. T. Barracough, who formerly resided here, but for years a resident of Oakland, Cal., is in the city. Mrs. Barracough is the owner of some valuable real estate in this city, and has an interest with the A. A. Grant estate in the Crystal Ice works.

DR. PRICE'S Cream Baking Powder

PURE—WHOLE SOME—RELIABLE
MADE FROM CREAM OF TARTAR DERIVED SOLELY FROM GRAPES, IN WHICH DELICIOUS FRUIT IT IS FORMED BY NATURE IN THE PRECISE COMPOSITION IN WHICH IT IS USED IN DR. PRICE'S BAKING POWDER.

**Its superiority is unquestioned
Its fame world-wide
Its use a protection and a guarantee against alum food**

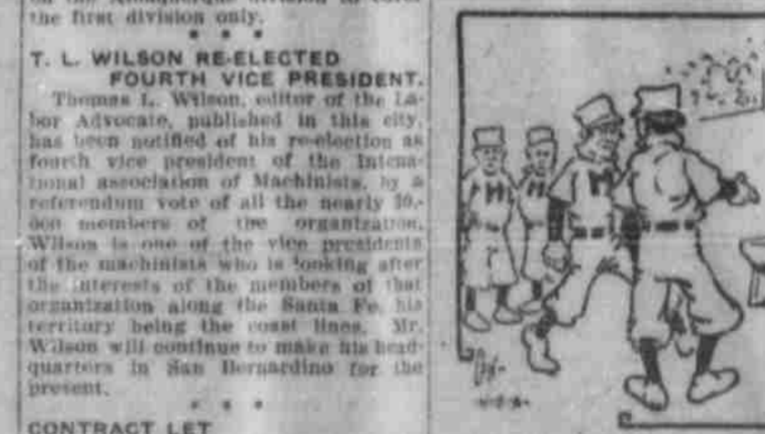

TURN THE CAN AROUND

and you will learn what is the "power behind the dough." In the high-class powders it is cream of tartar, extracted from clean, delicious grapes, and that is healthful. In the low-grade powders it is "phosphate alum," or "sodium aluminum sulphate," which is also alum, a mineral acid, and that makes the food unhealthful.

Of what use are twenty-five ounces for twenty-five cents, if eight of these ounces are alum?

Food baked with alum baking powders is found to contain a portion of the alum unchanged!

The continued use of alum made food impairs digestion, causing dyspepsia. When buying baking powder, examine the label and take only a brand whose label shows it to be free from alum.

TO THE BENCH FOR YOU'RE.

"I wait a bit," yelled Joyce to the pitcher. Then he turned and waved his hand at McCloskey.

"Mac, you are the limit. Chasen says you can't win the game," shouted Joyce. "Here, Flaherty, you play right field, and if you can't stop grounders we'll get you a net."

Owner-manager McCloskey was red-headed in his rage. "What do you mean?" he shouted at Joyce.

"I mean for you to get out of the game."

"Who put me out?"

"I did," replied Joyce. "And who are you?"

"Captain, third baseman, and first batter of the team."

"And who am I?"

"McCloskey, owner and manager of the team, a good fellow, but a humbugger, who is now on his way to the bench. Hurry along, Flaherty."

"If you go in I stop your cap," shouted McCloskey at Flaherty.

"All right, Mac, but here," said Joyce. "If Flaherty does not go to the field, I can't play third base, Sam."

Flaherty went to the field, Joyce played third base and Houston won.

CAPTAIN BENCHED THE MANAGER

In 1888, John J. McCloskey was manager of the Houston club in the Texas League and Bill Joyce played third base and captain of the team. McCloskey played right field. The race was a hot one and Houston was in the fight for the pennant. In a close game one day McCloskey made a number of errors and his playing made defeat seem sure for the team.

The property in question consists of three groups in the Glorieta mining district. Group 1 is composed of the Fairview and Homestead mines; group 2 consists of a large tract of land in San Fe and San Miguel counties, in the northwestern part of the Pecos Pueblo Indian grant, and group 3 contains the Switch Lake, the Quich Lake and the January Lake.

The terms of the lease is for seven years, expiring at noon on November 4, 1912. At any time during the life of the lease, the grantee, Mr. Smythe, has the privilege of buying the mines at a price of \$15,000 apiece for groups 1 and 2, and \$20,000 for group 3.

Mr. Smythe has already engaged a number of miners and will start work at once. He will keep twenty men, working in shifts of eight hours each, employed.

COAST DEFENSE PLAN BEFORE JOINT BOARD

Washington, D. C., Nov. 27.—The joint naval and military board, called to consider the proposed National plan of coast defense, has been holding several sessions recently and will soon be ready to submit its report to the president. The work has been divided into sections, in charge of sub-committees, which are making their investigations and preparing their reports, which documents will be incorporated in the complete report of the committee, of which Secretary Taft is the nominal head. It is proposed to have the report ready to submit to congress at the coming session, although the incident is not regarded as of much importance, since it will have no special bearing on the appropriations for fortifications for some years to come. It looks as if it would be possible to reduce the original estimate by several millions of dollars and achieve the same results of defense against an enemy from the sea as was contemplated by the Redoubt board of twenty years or more ago.

The principal subject recently under discussion was that in relation to the submarine warfare, which is a part of the coast defense. One proposition has been to do away with submarine mining, but the authorities do not share any such confidence in the boat as to admit its value as a substitute for the mines. The submarine mine will, however, have a prominent place in the new coast defense project. That much has been decided. It will be used in defense of the coast forts and along the shore on the approach of the enemy.

Cal. W. H. Greer, who was down in southern New Mexico on a business trip to the ranges of the Victoria Land and Cattle company, has returned to the city. He brings glad tidings about the condition of the ranges, and reports the cattle in the best condition possible.

TEACHERS WANTED
IN ARIZONA, AND THE SAME TROUBLE EXISTS IN NEW MEXICO.

Territorial School Superintendent Layton of Arizona, says there is still an embarrassing lack of school teachers throughout Arizona, and he has frequent pleading letters from school trustees who are pining away for the assistance of a new school "nurse" to head the twins in the back country so that the future trees will incline gracefully. It seems that the rising generation in Arizona is consuming information faster than it can be supplied by the efforts of over-populous and impatient ones. Talk about intelligence in Arizona! The western kids are regular gluttons for knowledge.

LOS ANGELES BANK TAPPED BY BURGLARS

AND OVER FIFTEEN THOUSAND DOLLARS TAKEN OUT OF SAFE BY EXPERT CRACKERS.

A Los Angeles dispatch, dated November 27, says: One of the boldest robberies this city has ever known and the first bank robbery ever perpetrated here occurred when burglars drilled their way into the cash box of the First National Bank, a Japanese bank, on East Fifth street, and got away with \$15,000 in cash and negotiable paper.
The safe crackers were experts and left not the slightest clue behind them. The police are completely baffled. The job gives every evidence of having been carefully prepared by master hands at the business. Next door to the bank is a bicycle store and it was through the bicycle store that the burglars entered the bank. They forced the front door and securing tools in the bicycle shop, cut a hole in the partition through which they crawled into the bank room. There were evidently several in the party for the front door was rolled clear of the wall and the burglars attacked it from behind. They drilled through a three-inch steel plate, dug through five inches of cement, drilled through a one-quarter inch steel plate and thence through a three-eighths inch steel plate to the cash box.

Several steel drills, together with the tools taken from the bicycle store were found scattered about the room. The burglars made their escape by the same way they had entered the building.

The total cash secured was \$12,388.62, and \$3,000 in notes, checks and drafts.

GOVERNMENT MANIFESTO PRODUCES GOOD EFFECT.

St. Petersburg, Nov. 26.—As was expected, the communication issued by the government last night, explaining the meaning and scope of the emperor's manifesto of November 18, concerning peasants, and which will be circulated extensively in the country districts in the hope of quieting the agrarian agitation, is also having a good effect. In it the peasants are told how they can purchase land through the peasant's bank, and are informed that the manifesto which limits payment of taxes amounting to \$22,000,000 in 1906, and \$10,000,000 annually thereafter, is only the first step in the series of reforms which will be submitted to the national assembly, and in which representatives will take part. The cabinet, the communication says, has also approved the appropriation of \$7,750,000 to improve the wages of railroad men, hoping thereby to prevent a repetition of the great strike.

PRESIDENT REMOVES AN ASSISTANT U. S. TREASURER.

Washington, Nov. 27.—President Roosevelt today removed from office William S. Lieb, assistant United States treasurer at Philadelphia, for "constant and persistent violation of the civil service law while in office."

MOVING CONVICTS SOUTH FOR WINTER

Hope to Complete Road From City to Los Lunas During Present Season.

WORK TO BEGIN IN TEN DAYS

F. H. Pierce, president of the New Mexico penitentiary board, spent last night in the city and returned to his home at Las Vegas this morning.

Mr. Pierce's visit here was for the purpose of investigating the practicability of placing a gang of convicts at work here on the El Camino Real, a public highway extending from Raton through central New Mexico to the Texas line, which is to be established by the territorial legislature. Mr. Pierce was accompanied by Superintendent H. O. Bureau of the penitentiary, and last night the matter was discussed with the local authorities, with the result that it was decided that a gang of about thirty convicts now at work on the road to be completed here at Las Vegas will be placed on the work just south of the city, near Baraca.

The weather has become so cold up on the route that work there is impracticable, said Mr. Pierce, "and although the law says that the northern part of this route is to be completed first, we have decided that it will be better to go against the law than to lay idle for the entire winter, and consequently we will have a gang of about thirty men at work between Albuquerque and Los Lunas within the next ten days. The work will consist of clearing the brush and timber and continuing toward the south. We believe that we can cover the distance between here and Los Lunas during the present winter, and then in the spring turn our attention again to the route."

The El Camino Real, or the King's Highway, which is the real meaning, was provided for in a bill passed as the last territorial legislature. It is to begin at the Colorado line near Raton, pass through Las Vegas, Santa Fe, Cerrillos, Albuquerque, Los Lunas, Socorro and Las Cruces, terminating at the Texas line near El Paso. It is to be built by convict labor, assisted by a levy of one-fourth mile, which amounts to about \$5,000 a year. The bill provided that the route, the distance between Santa Fe and Las Vegas, be built first, and that that part of the route between Santa Fe and Raton be completed last. The convicts are assisted in their work by teams from the penitentiary yard.

The turning of their attention from the north to the south for the winter seems a very wise move on the part of the penitentiary officials.

SAN XAVIER MISSION

CONGRESS MAY APPROPRIATE \$10,000 TO PRESERVE THE RUINS

Tucson has several reasons to be much interested in the coming session of congress for in addition to the stretched and broken measures will be in all probability come up appropriations \$10,000 for the care of San Xavier mission.

At the last session of the Arizona legislature a memorial to congress was adopted asking for \$10,000 for the mission. It was asked on the ground that the San Xavier is the oldest and best preserved mission in this country. Colonel W. B. Brown was very active in the matter and he has strong hopes that congress will grant this appropriation.

It seems very likely that the national law making body will do this, as Congressman Tamm, who is a warm friend of Arizona, since his visit of a month ago, is a candidate for chairman of the committee on appropriations. Some time ago congress appropriated \$2,000 for the repair of the mission, but it required all this to make the repairs to the roof of the historical edifice.

APPLES PROFITABLE.

Examples of Advisability of Raising Apples in Sacramento Mountains.

B. Cleve, of Elk, Otero county, has 16 apple trees on one and one-half acres of ground. The proceeds of his sale of apples was \$1,800, for the one and one-half acre, or \$1,200 per acre. Besides this, there are now 10,000 pounds of windfalls on the ground.

Judge Tillison of the same place, has an orchard ranging from four to twelve years old, which paid him in marketable apples this season, \$44 net per tree. "This was the average of the entire orchard at two cents per pound for the fruit delivered at Alamogordo. This is counting only picked apples and no windfalls. His 4-year-old Ben Davis trees averaged 400 pounds of apples.

WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because a little is required to cure. It cures piles, after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Albuquerque testimony proves it.

J. H. Croes, of 323 South First street, employed in the Santa Fe shop in the mill department, says: "Eczema, and sitting on damp logs and cold stones while in the mountains some three months ago, brought on itching hemorrhoids, commonly called piles. While not severe or serious, they were very annoying and I put off doing anything to get relief until compelled to. One evening I stepped into a drug store and asked the proprietor for something to bring relief. I finally decided upon Doan's Ointment. The first application gave relief and in a short time I was practically cured. I have great confidence in this remedy for what it did for me. I never used anything which was so soothing and healing. I recommend it to others and know they will not be disappointed in the results if they give it a trial."

For sale by all druggists. Price 50 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

WOMEN OF WASHINGTON.

MRS. EMMA SHAW.

Washington, D. C., Nov. 28.—Mrs. Emma Shaw, the youngest daughter of Secretary Leslie Shaw, of the treasury department, will make her bow to Washington society this season. The date of Secretary Shaw's retirement was determined by this event. He is to quit on February 1, which leaves time for the girl to get started as a daughter of a cabinet member, rather than of an ex-cabinet member.

LOCAL PARAGRAPHS

See J. M. Herberington in the slave scene in Damon and Pythias, at the Elks opera house, November 29.

The Women's Guild of St. John's church will meet on Wednesday afternoon at 2:30, in the Guild hall.

L. A. Dye was a passenger for Las Vegas this morning. Mr. Dye has a lumber yard at the Missouri City.

From present indications the opera house will be well filled to witness the great drama, Damon and Pythias, given by local talent.

The management of the Commercial club desires to announce that the dance to be tendered on Thanksgiving evening will be the annual function, and not the semi-monthly hop.

The local representative of the Rex Bitters company, of Chicago, is distributing around among the friends of the city some unique advertising cards and some of them are exceptionally fine.

W. J. Dison, who has been cashier at the Alvarado for the past several months, has been ordered to the El Tovar at the Grand Canyon. A young man from Needles will succeed Mr. Dison at the Alvarado.

Robert Reagan, a well known veteran of the Civil war, had the misfortune to lose a \$300 pension certificate recently. The banks have been warned to be on the lookout for the certificate and Mr. Reagan offers a reward for its return.

Marriage licenses were granted in Probate Clerk Sumner's office yesterday to the following persons: Maggie O'Donnell and Joe Montana; Florence Dillon and Frank Dennis, all of Albuquerque, and Anita Montoya and Manford Padilla of Los Padillas.

Of all the new plays and comedies offered to theater goers last season none achieved such splendid success as "The Marriage of Kitty," which will soon be presented in this city with Alice Johnson at the head of an unusually clever organization.

Dr. C. H. Conner, the prominent osteopath, who has been ill for some time, was taken suddenly worse yesterday and his condition is reported as being critical. An erroneous report gained currency about the city this morning to the effect that Dr. Conner was dead.

It is understood that Bernard Schuster of El Paso, has been appointed district manager for the Equitable Life Assurance society, with headquarters in El Paso. Mr. Schuster's district embraces West Texas, New Mexico, Arizona and the northern part of Mexico.

The regular meeting of G. K. Warren Post No. 5, O. A. R., will be held in L. O. P. hall next Saturday night, December 2, at 7 o'clock. Officers for the ensuing year will be elected and other important business transacted. All comrades are earnestly requested to be present. J. G. Caldwell, P. C. W. W. McDonald, Adj.

J. D. Tirway, the Denver contractor, who is at present engaged in laying macadam road from Fort Wingate to the Santa Fe road at Wingate station, returned to Wingate last night, after having spent several days in the city buying supplies. Mr. Tirway expects to have his contract at Wingate finished within ten days.

A prominent member of the clerks' union, says that all of the stores in the city will be closed during the entire day Thursday, November 26, on account of Thanksgiving. The business houses will remain open until 9 or 10 o'clock Wednesday evening for the accommodation of those who have shopping to do.

Mrs. Melichina Dinelli, mother of the proprietor of the Rico estate, accompanied by her son, who resides in California, left for Genoa, Italy, where they will spend the greater part of the winter. They take passage on the French line steamer "La Lorraine" from New York on Thanksgiving day. Mrs. Dinelli purchased her steamship tickets from Paul Teutche, the local steamship ticket broker.

The public is cordially invited to attend the formal opening of Leonard & Lindemann's new music store on Gold avenue, arrangements for which have just been completed. An interesting program has been arranged. Mr. Dinelli will play a selection on the cello, a repertoire of late musical hits will be rendered by Mr. Hadden, an accomplished violinist, the Alvarado trio will entertain, and Mr. Hadden will sing a vocal solo.

The Gogol club is making elaborate arrangements for the Thanksgiving dance to be given in the Elks opera house ball room on Thursday night. The members of the Gogol club have some philanthropic motives as well as the motive implied by the name of the club—Go-go-go. They have promised the ladies of the Non-Sectarian Benevolent association that if they take in more money by the dance than are the expenses of the same, they will divide evenly with the association. The club expects to use their half of the profits in renting club rooms for the ensuing year.

It is to others and know they will not be disappointed in the results if they give it a trial.

For sale by all druggists. Price 50 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

car county, Ky., where some of the best turkeys in the world are raised, and he has a big gobble which he intends to dish up on Thanksgiving. Of course more gobblers than one will be killed for the Thanksgiving feast at the Alvarado, but the colored says the juiciest bird of them all will be the gobble from his old home in Kentucky.

K. Houghmura, the recent selection of the Japanese Ministry for minister to Mexico, together with his wife and Mrs. Houghmura's maid and T. Koyayashi, chamberlain of the Japanese legation in the City of Mexico, arrived at El Paso from San Francisco Monday and were transferred to the train No. 9 from the west. The party proceeded shortly afterwards to the Mexican capital, where Mr. Houghmura will assume his duties.

Rev. Mary J. Jordan, the president of the New Mexico Women's Christian Temperance union, has returned to the city from southern California. The popular lady in the great reform work attended the sessions of the National union at Los Angeles, and then went on to San Diego, where she visited friends for a couple of weeks. She recently having had a fine visit, and met a number of ex-Albuquerque citizens who are doing well in southern California.

F. E. Goldsmith, of Detroit, Mich., who was here last year and had charge of the local athletic club quarters as "struttor," is again in the city and may continue west to southern California. He, however, will remain in the city for a short time, before determining where he will reside in the future.

Even out in Hell canyon, about fifteen miles from the city, deer roam at will. Last Sunday, while F. R. Kent was at his camp, a big buck came in shooting distance, but the commodore did not have a firearm to use, and the big animal passed on unharmed.

The postoffice will observe Sunday hours on Thanksgiving, while all the banks will be closed all day.

Col. W. S. Hopewell is in Las Cruces on business.

C. H. Dornish, of the Albuquerque Gas, Electric Light and Power company, is in the city from the Denver headquarters.

Attorney R. C. Gornier, of Santa Fe, and S. H. Atkins, of Columbia, Ohio, spent Monday night in the city and left today for Indiana.

Capt. W. E. Dunn has extended his trip farther north than Las Vegas, and rumor has it that he has gone to Washington. Friends say the captain is a candidate for the office of United States marshal of New Mexico.

After a most enjoyable and successful turkey hunt in the Chino country, Mr. H. Henschel, of Mack and Co., have returned to their homes in this city. Their game bags were well laden with the fowl which will be eaten with more than ordinary relish Thanksgiving day.

The funeral of Dionisio Chavez occurred at 9 o'clock this morning from the residence of Meliton Chavez, son of the deceased, on West Silver avenue. A large number of relatives and friends attended the services and a profusion of beautiful flowers were laid upon the casket.

The remains of Fairfield Sylvester, who died here last Sunday evening, were taken to the home in Mori, Vista, Cal., this morning, where the burial will take place. Sylvester was in the city recently in company with his two brothers on a business mission. He was twenty-four years old.

BAPTIST CONVENTION.

At Alamogordo Adjourned—The College to Be Enlarged.

The New Mexico Baptist convention adjourned Sunday night after holding its 24th convocation at Alamogordo. Before adjournment the Lincoln County Baptist association transferred the property of the New Mexico Baptist college, which is located at Alamogordo, to the New Mexico Baptist convention, thus making the Baptist college a territorial institution instead of a local affair as heretofore.

Following this transfer the convention immediately appointed fifteen trustees, five of whom are residents of Alamogordo, and five trustees constitute a quorum at all business meetings. The names of the trustees who reside at Alamogordo are as follows: R. H. Pierce, O. J. Starnard, W. J. Pace, R. D. Pappas and R. M. Jackson. The names of the other trustees and their postoffice addresses are as follows: W. C. Grant, Elida; J. M. Woolam and A. N. Miller, Hagerman; Dr. J. S. Pierce, Portales; H. F. Vermillion and Frank Diers, Roswell; R. T. Link, Silver City; R. H. Pope, Roswell; H. H. Treat, Las Vegas; George H. Brewer, Phoenix, Arizona. While all the trustees were at Alamogordo, a full board met and elected Rev. R. F. Pope, of Estancia, president; Rev. W. J. Pace, of Alamogordo, vice president; and R. M. Jackson, secretary and treasurer. The newly elected officers were instructed by the board to proceed at once to issue a prospectus and other advertising matter and to thoroughly advertise the college and Alamogordo, and to promote the claims of this school.

BOSTON JEWS TAKE PART IN CELEBRATION.

Boston, Mass., Nov. 26.—Faneuil Hall was last evening the scene of one of the largest gatherings of representative Jews ever held in this city. The meeting had been called to celebrate the 25th anniversary of the first Jewish settlement in the United States. Lee M. Friedman is at the head of the committee in whose charge the meeting was held. There was a large number of prominent Jews from this and other cities in the east present, who delivered addresses on the historical and economical importance of the event which is celebrated.

DOCTORS WROTE ON RHEUMATISM THEORY

Kalamazoo, Nov. 26.—At a meeting of the Academy of Medicine, Dr. G. W. Lawton created a stir when he declared positively that physicians in the past have been entirely wrong relative to the cause of rheumatism. It is due to diseased tonsils, according to Dr. Lawton, and not to uric acid.

KILL THE COUGH AND CURE THE LUNGS

WITH Dr. King's New Discovery

FOR CONSUMPTION, COUGHS AND COLDS

Price 50c & \$1.00 Free Trial.

Beware and Quickness Cures for all THROAT AND LUNG TROUBLES, OR MONY BACK.

A report from the bedside of Noble Crawford, son of Judge and Mrs. Crawford, states that the child is slowly improving.

TERRITORIAL TOPICS

STRINGING WIRES.

Colorado Telephone Company Working Toward Santa Fe.

The listeners of the Colorado Telephone company, who are stringing wires toward Santa Fe, are now five miles from Fulton, where they will drop the iron circuit and string another but the copper wire. They will make much better time on the other side of Fulton, probably five miles a day, and will probably reach Santa Fe by December 5.

PLEASED WITH PASTOR.

Las Vegas Methodists Like Their New Minister.

Rev. Richard A. Morley, the new minister of the Las Vegas Methodist Episcopal church, has made an excellent impression on the people of that town, and the members of the congregation are greatly pleased with his efforts. Mr. Morley has been in the city for a short time, before determining where he will reside in the future.

DEMING WANTS ARTISIAN

Well and is securing information from Missouri.

W. A. Wilson, inspector of artesian wells, in receipt of a letter from Thomas McCauley, secretary of the Business Men's association of Deming, N. M., asking the cost of boring deep wells, from one to two thousand feet deep, says the Roswell Roswell. He prefaced his question with the statement that Deming wanted to put down a deep well to see if that country did not have an artesian flow. The letter was referred to J. W. Thomas, of the Roswell Hardware company, who has sent full information.

DEATH OF MRS. ADELMANN.

Claimed by Typhoid Fever at Her Home in Water Canyon.

Mrs. Griselda Adelmann, wife of Charles F. Adelmann, died at her home in Water Canyon the other day, after an illness lasting over a period of five months, which was caused by a severe attack of typhoid fever, from which the entire family have suffered within the past few months. Mrs. Adelmann was a native of New Mexico, born near Helen in 1851. She leaves to mourn her death besides her husband, several children and one sister, Mrs. Joseph Appeler, of Socorro. The remains were laid to rest in the Catholic cemetery at Socorro.

ANTI-SALOON LEAGUE

REV. HAVENS AT WORK AMONG THE WICKED AT ALAMOGORDO.

Rev. W. W. Havens is here for the purpose of organizing an American anti-saloon league, says the Alamogordo News. Mr. Havens is in charge of the work for New Mexico and Arizona. He went before the convention of New Mexico Baptists to get the endorsement of the convention. Mr. Havens will remain here for several days at work. It has been announced that he will preach two sermons on Wednesday, December 2, at the Methodist church at 11 a. m., and at the Baptist church at 7:45 p. m.

FATHER DEAD

JACOB FRENCH, FATHER OF EDWARD E. FRENCH, DEAD IN NEW JERSEY.

Edward E. French, who is employed at the Arcade in Las Vegas, and well known in Albuquerque, received a telegram the other afternoon from his father, Jacob French, who had passed away at 12:15 p. m. on November 23, and would be buried Sunday. Mr. French was 82 years of age. About six months ago he was run over by a delivery wagon driven by a boy, and had badly injured in his back and head and was unconscious for some time. He made a heroic struggle against death, but weakened by his extreme old age, he finally succumbed.

CATTLE GROWERS TO MEET

ARIZONA CATTLE GROWERS' ASSOCIATION WILL HOLD CONVENTION AT PHOENIX ON DECEMBER 6.

J. N. Porter, of Globe, a member of the executive committee of the Arizona Cattle Growers' Association, has been notified that a meeting of that organization will be held at Phoenix, December 6, the third day of the territorial fair. The notice is from Capt. W. H. McKelrick, president of the association, and urges cattlemen generally to attend the meeting, as much business of importance is to be attended to, says the Globe Register.

Those cattlemen of Gila county who are not members of the association should affiliate themselves with it without delay, and give their influence to further the interests of the cattle growers of Arizona.

The raising of stock is one of this territory's most important enterprises, and one which adds greatly to its taxable wealth as well as to its general prosperity and all who are engaged in that pursuit should join the association and help to carry out its objects and purposes.

NOT A LEGAL BUSINESS.

John Lawyer and wife of Ialeta, visited his parents here Sunday. —Newcomer (O.) Index.

THE A. M. SOUTH AND THE P. M. NORTH.

The new B. & O. time table will go into effect next Sunday. Instead of four Sunday trains, there will be but two, one in the middle of the forenoon and one in the afternoon north.—New Philadelphia (O.) Times.

A man who has been married as often as Jack London ought to be able to write about fight stories.

Now that Gage Tarbell has told us how to cure the insurance evil, possibly John D. Rockefeller and some of the packers can show us how to stop rebates.

"What was the trouble? Was he injured or disgusted by the grafting in the game?"

"Neither. Somebody told him he looked like a piano player."

"Mrs. Nornach makes me tired. We had a real quarrel this morning."

"What about?"

"The backspin almost landing because I couldn't understand her when she quoted Browning over the telephone."

Bracing a Stranger.

"The newspapers say that your boy has enlisted from the foot ball team and that he will never play the game again."

"Yes, that's true."

"What was the trouble? Was he injured or disgusted by the grafting in the game?"

"Neither. Somebody told him he looked like a piano player."

"Mrs. Nornach makes me tired. We had a real quarrel this morning."

"What about?"

"The backspin almost landing because I couldn't understand her when she quoted Browning over the telephone."

MOST ANYTHING

However, in justice to Al Florida, the minstrel man, it ought to be explained that he is not the man of that name connected with the Mutual Life.

"If I do say it myself, my husband was one of the best dancers that I ever saw. I remember how everybody liked to dance with him when we went to balls and parties before—"

"When Mr. Smithers and I went to balls and parties before we were married he was one of the best dancers in town," said Mrs. Smithers. "All the girls were just crazy to dance with him."

"Oh, it was perfectly natural for you to think he was such a good dancer," said one of her old friends. "He probably couldn't dance a bit better than anybody else could."

"No, indeed," insisted Mrs. Smithers. "I think so yet."

"Well, they put the lid on in Indiana."

"Good. Now let 'em bury it."

Slips by the Deacon.

"Deacon" Fleming slipped in about dark last evening with a long, slender five-foot pipe. "Deacon" walked up street like a drum major. When he gets going but an appetite he slips up the alley. —West Lafayette (O.) Indicator.

Host Was Guest.

Miss Beulah Host of Downston, after spending two weeks with friends in Cadiz, is visiting in this city, the guest of her sister, Mrs. Jas. Shump. —Steubenville (O.) Gazette.

Still Unsettled in Geneva.

At the last meeting of the Grange, it was decided to hold meetings every Friday night. Heretofore the Grange has met every two weeks. The subject for general discussion will be, "Should the Man or Woman Build the Fire in Winter." —Geneva (O.) Free Press.

"And you," said the old fellow with a burr, a spiked tail and a redoubt of teeth, "you come from Philadelphia, I believe."

"I do," replied the latest arrival.

"Ha! Ha! I will give you a job as night watchman and you'll turn in a report on the automatic detector every ten minutes. Your bedroom will be right over the boiler works."

At intervals the Alvarado trip played some of the new orchestra successes of the season.

Misses Pratt and Damiano acted as accompanists for the various soloists afore mentioned.

The program would not be complete without mention of the performance of the Victor talking machine, whose reproduction of vocal, hand and oratorical numbers added variety to the program.

To sum up, the occasion of the opening of their new store will remain a credit to Leonard & Lindemann, and a pleasant memory to all who were so fortunate as to gain admittance to this most successful affair.

At the conclusion of the program, Mr. Leonard, in a brief address, thanked the performers for the pleasure their several numbers had given, and the audience for their attention and appreciation of the firm's efforts in making the occasion of the opening of their new store a memorable event in the musical history of Albuquerque. He assured the audience that the welcome to their new store, as advertised in The Citizen, was not confined to the special occasion of the opening concert, but was meant to extend for all time, and he especially invited the ladies when down town, to make the store their rendezvous, where they could count on any time and musical entertainment.

Mr. Leonard also intimated that they were planning to conduct weekly musical evenings free to the public, a scheme which would prove exceedingly popular.

A Springfield, O., boy of 9 has written a musical comedy. The boy has one great advantage in his work. He hadn't seen many of those now on the stage.

"Did you tell any of your friends you'd rather die than marry me?" he asked.

"No, Harold," she replied sweetly. "I didn't. I would hesitate a long time before I decided which I would rather do."

Senator Platt's frankness before the insurance commission must make lots of people more impatient than ever to have that Mao Wood case tried.

"I wish I could think of some excuse to raise prices," said the general manager of the coal company.

"That's easy," declared the treasurer. "Why don't you reduce wages and carve a strike?"

Ian MacLaren says that if he had his life to live over he would preach shorter sermons and preach more comfortably. Good boy, Ian. If they were shorter they would be comforting enough.

Not a Legal Business.

"The backspin almost landing because I couldn't understand her when she quoted Browning over the telephone."

Bracing a Stranger.

"The newspapers say that your boy has enlisted from the foot ball team and that he will never play the game again."

"Yes, that's true."

"What was the trouble? Was he injured or disgusted by the grafting in the game?"

"Neither. Somebody told him he looked like a piano player."

"Mrs. Nornach makes me tired. We had a real quarrel this morning."

"What about?"

GRAND MUSICAL TREAT LAST NIGHT

At the Opening of Big Piano Store of Leonard and Lindemann.

VERY FINE PROGRAM UNFOLDED

"Did you attend Leonard & Lindemann's concert last night?" was the question heard on all sides today.

"Yes, I went, but the store was so crowded that I couldn't get in," was the frequent rejoinder, voiced in disappointment. In fact, more people were perforce denied admission to this most enjoyable musical event than those whose foresight prompted them to arrive early, and whose inclination led them to remain until the very end of the program. It is estimated that fully 150 people were accommodated in the square music dealers' handsome new store, seats being provided for the ladies. The fair sex was also favored with fresh, pretty souvenir carnations.

The store was specially decorated for the occasion, the scheme of which was designed by the versatile Mr. Hadden, who with splendid good taste covered to good account in the draping of the interior, the entrance to the store, and the entrance to the store.

Of the program, which was rendered by Albuquerque's best talent, only words of sincere commendation are heard. In completeness, variety and worth, the program certainly claims distinction.

Prof. Di Mauro received merited and continued applause upon the rendition of his new composition, the Gold Star Overture.

Mrs. B. H. Miller's vocal number was particularly appreciated, as was also the vocal solo by Miss Schaeffer, who played her own accompaniment on the piano.

Other soloists were Mr. R. W. Hadden, violinist, Messrs. Deane and Hetherington, of the Lyric Male quartet, J. A. Blonid, cellist, and Berthold Havens, baritone, whose individual numbers greatly pleased the audience and who received enthusiastic applause.

The Lyric Male quartet rendered several popular
