TERRIBLE TORNADO!

Fifty Killed, Hundreds Injured
and Many Missing.

Fort Smith, Ark., Almost Destroyed
by Fire and Cyclone.

Greatest Excitement Prevails Over
the Uprising of Seminole.

BRAYS OF THE WAR PATH.

Fort Smith, Ark., Jan. 12.—A terrible
cyclone struck this city at 11:15 last
night. Fifty people are dead and as many
more are missing.

Houses were wrecked by the score and
hundreds left without food and shelter.
The situation is appalling.

The dead are: Ed Ferrill, Roy Fer-
rill, Irene Ferrill, John Ball, Kyle, John
Martin, two Leflore boys, Geo. Kilo,
Paul, Mrs. Lawson, Frank Richardson,
George Laver, George Carter, Louis S.
Rogers, John Martin, Jr., and four un-
known.

The list is by no means complete. But
little effort has been made to search the
ruins of the residence portion of the city
that was in the storm's path. Fire
broke out in a number of places. It is
known that some bodies were cremated.

The high school building, just finished at
a cost of \$100,000, was leveled, besides
one of the churches.

The storm came up suddenly from the
southwest and in the twinkling of an
eye a large portion of the city was in
ruins. All the physicians in the city are
at work dressing the wounds and bind-
ing the broken limbs.

The home of Mrs. Hendrix, on Thir-
teenth street, was destroyed, and the
family nearly killed. Both of Dr. Gates' arms
are broken, and his wife is probably fa-
tally crushed. The wife of Luther Hunter
was badly injured. Mrs. Captain
Hugh L. Rogers was dug out of the ruins
of a rock house on south Ninth street,
badly injured, but hopes are entertained
for her recovery. R. H. Rineberg was
on his way home when the cyclone struck
the city, and was lifted off his feet and
carried quite a distance. His clothes
were torn off, one shoulder was dislocated
and the head injured.

At 12 m. it looks as though fifty per-
sons have been killed. The death list is
growing hourly. Hundreds of persons
have been injured, some fatally. The
tornado, after passing through the resi-
dence district, did its worst work in that
portion of the business districts in which
the older buildings are located. For this
reason \$500,000 will scarcely cover the
loss. The debris of many buildings in
the lodging-house district caught fire,
and those unfortunate not at once extri-
cated alive perished miserably by being
burned or smothered to death.

A heavy rain followed the terrible to-
rнадо.

In less than thirty minutes the streets
were crowded, and willing hands were
ready to render all aid the emergency
required.

The streets were so filled with debris
that it was with difficulty carriages could
get around.

THE DEAD AND INJURED.

The following is a partial list of the
dead and injured: Dead—George Carter,
Ed. Ferrill, Irene Ferrill, Roy Ferrill,
Frank Richardson, George Lowell, Mur-
dock, an unknown man, an unknown
woman, Ritter, Louis Engel, John
Bolt, two unknown negroes, Mrs. Burgess
and Mrs. Will Lawson.

Injured—Mrs. Braden, arm broken; D.
L. Grimes, collar bone broken; M. M.
Martin, chin fractured and side bruised;
Hoson, jaw broken; Will Lawson, back
injured; Bell Harris, chest mashed; Tony
Kierhart, hips bruised; F. E. Hubbell,
back hurt; R. H. Crowholder, back in-
jured; A. R. Stafford, back injured; Ash-
worth, chest crushed; Dr. Cate, both arms
broken; Mrs. Cate, badly mashed; Mrs.
Cate's mother, seriously crushed; Minnie
Burgess, spine injured; Mrs. Ed. Ferrill,
injured about chest; Mrs. Hugh Rogers,
badly bruised about the body; Mr. and
Mrs. Ritter, caught under falling walls;
Mrs. F. H. Brown, body crushed.

Missing—J. L. Clayland and wife; Mrs.
Will Lawson and Miss Lawson.

Bryan Favos Fusion.

Minneapolis, Jan. 12.—The fusion of
the silver elements in Minnesota is offi-
cially endorsed by the state central com-
mittee. Chairman Rosings made the an-
nouncement especially at the Jackson
banquet early this morning. W. J.
Rising in his speech concluded at 2 a. m.,
and devoted much time to endorsing the
fusion idea and illustrating its efficacy
by the results in Nebraska.

Demolished by Earthquake.

The Hague, Jan. 12.—An official dis-
patch from Batavia announces that the
capital of Ambon, one of the Moluccas
islands, has been completely demolished
by an earthquake. Fifty persons were
killed and 300 injured.

Deaths of Congress.

Washington, Jan. 12.—The civil ser-
vice debate having been concluded yes-
terday, interest in the house proceedings
was visibly decreased to-day. Cannon,
chairman of the appropriation committee,
called up the urgent deficiency bill,

HANNA ELECTED!

Received 73 Votes to 70 for
Mayor McKisson.

Galleries Went Wild when His Elec-
tion was Announced.

Effort to Investigate Bribery Charges
Before Voting Fair.

OTIS MAKES STATEMENT.

Columbus, Ohio, Jan. 12.—When the
house convened, at 10 o'clock, Representa-
tive Otis was promptly recognized on a
question of privilege. He made a long
statement regarding the bribery charges.
He said it was due to the house and
himself to have an investigation be-
fore proceeding in the election of United
States senator, and offered a resolution
accordingly.

On motion to suspend the rules for the
immediate consideration of the resolution,
the vote stood 52 yeas, 56 nays. The
motion being declared lost, there were
cheers on the republican side and in the
galleries. The vote was precisely the
same as on the two ballots for the short
and long terms for senator.

There are 100 members and 56 Hanna
men always voted solidly. Representative
Cramer was absent, and is still very
sick.

Forty-six democrats and the bolting
six republicans voted together for in-
vestigation before electing senator. Rep-
resentative Stewart, a Hanna leader,
said there would come a proper time for
the fullest investigation, but this was
the time for electing a senator.

In the senate Burke offered a resolu-
tion demanding investigation into the
charge that \$1,300 had been offered by
allied agents in the interest of Hanna,
for the vote of Representative Otis. Be-
fore a vote upon the resolution could be
taken a message was received from the
house of representatives, stating that
body was ready to vote upon the election
of a United States senator. The presi-
dent held further discussion out of order
and the matter was laid over.

In the joint convention, Burke, the only
dissenting republican senator, presented
the name of Robert K. McKisson, republi-
can mayor of Cleveland, in a forcible and
inflammatory speech that commanded
the closest attention. In one of his citi-
smaxes he said: "James A. Garfield would
have voted for McKisson, if he were alive
and senator here to-day."

All democrats voted for McKisson, ex-
cept General Wiley, who voted for Leach.
Separate ballots were taken for the long
and short terms, but resulted the same:
Hanna, 73; McKisson, 70; one absentee.

After Hanna was declared elected the
galleries went wild. Senators and repre-
sentatives participated in the demonstra-
tion. A committee of five was appointed
to escort Hanna to the hall.

of the Weavers' union last night was

Held Court at Socorro.

Judge J. W. Crumacker returned from
Socorro last night, where he held court
yesterday for Judge Hamilton, who was
obliged to stay in Santa Fe in attend-
ance on the supreme court. As the court
fund of Socorro county is not over-due
he was anxious that the machinery of
justice should be kept in motion, as long
as the expense of jurors and witnesses
had to be incurred.

The case of the territory vs. Dobbin,
charged with poisoning some hogs be-
longing to Kelly, was disposed of, the
jury finding Dobbin guilty on one of the
counts. A motion for a new trial
was made, so Judge Crumacker did
not pass sentence, but left the matter to
Judge Hamilton, who returned to-day.

Is Your Box Rent Paid?

There will be numerous kicks indulged
in to-morrow when parties who have for-
gotten to pay their box rent will be
obliged to call at the general delivery
window or not get their mail. The limit
expired January 10, but Postmaster
Grumfield gave his patrons two days of
grace extra. This evening the night
clerk will be instructed to put all the
mail in the general delivery for which
the box rent remains unpaid.

Boiler Blow Up.

W. H. Stevens, assayer, who was at
Magdalena on business, has returned to
his office in this city. Mr. Stevens reports
a disaster at the Graphic smelter, of
which Capt. A. B. Fitch is the popular
manager. Last Friday afternoon, at 5
o'clock, while the engineer was momen-
tarily absent, the boiler at the water
pumping station for the smelter blew up
and went sailing into the air for at least

THE SUPREME COURT!

Motions for Re-hearing Overruled
in Number of Cases.

Dr. G. W. Harrison Obeys the Order
in His Case.

Barnett vs. Barnett Appealed to U. S.
Supreme Court.

OTHER IMPORTANT DECISIONS.

Hon. Nellie B. Field, Judge N. C. Collier,
Karl A. Snyder and Dr. G. W. Harrison
returned from Santa Fe last night where
they have been attending the supreme
court, which reconvened at Santa Fe on
Monday.

The mandate of the United States su-
preme court in the case of Pedro Perez as
administrator vs. Dr. G. W. Harrison, was
presented, and the court, in accordance
with the same, ordered Dr. Harrison to
pay over to Mr. Perez the sum of \$30,306.96,
which he did. There was no new mat-
ters presented in this case.

Motions for a rehearing were granted
in the case of Walker vs. Wells Fargo
Express company, and Lockhart vs.
Wells, which involves the Washington
mine in the Cochiti district.

The court reversed the decision of
Judge Collier in the intervention of
Clatsop in the Bullock-Sewell matter.

Motions for rehearing were overruled
in the following cases: Boyle vs. Mon-
tain Key Mining company; Baton Water
Works company vs. Town of Baton; New
Mexico National bank vs. Brooks; Lin-
coln-Lucky and Lee Mining company vs.
Hendrick; Wells vs. Cuenod; Givens vs.
Vander; Barnett vs. Barnett; Wormser vs.
Lindauer; Horse Springs Cattle company
vs. J. W. Schofield.

In the case of the United States vs.
Frank Lennett et al., motion to modify
judgment was overruled.

A stipulation signed by C. P. Elder, of
Denver, claiming, dismissing the appeal
in the Red River land grant case, was re-
ceived by the attorneys of the United
States land court. The latter court re-
jected the grant and Elder appealed, but
under a compromise arrangement with
the miners and settlers along the Red
river, the case is now to be stricken from
the supreme court docket, and the costs
against Elder. The stipulation will be
forwarded immediately to Attorney
Reynolds, who is in Washington. This
is the final step toward clearing up all
question of land title in the Red river
country.

Appeals to the United States supreme
court were taken in the cases of Barnett
vs. Barnett, Gliderseve vs. the Rio
Grande Immigration and Colonization
company, Scholfield vs. the Horse Springs
Cattle company, Eberle vs. Carmichael,
and the cases of the Baton Water Works
and of the Santa Fe Gas and Electric
Light company.

A committee was appointed by the
court, as provided by the rules of the
supreme court, to conduct the examina-
tions of candidates for admission to the
bar, composed of Judge N. C. Collier,
chairman; Gen. E. L. Bartlett, A. A.
Jones, Judge A. A. Freeman and Judge S.
B. Newcomb.

MURDER AT OLIO.

Dead Man Found With Bullet Hole in
Back of His Head.

R. G. Balcomb and T. J. Curran re-
turned last night from the Indian vil-
lage of San Felipe, where they had been
to confer with the governor and other
leaders among the Indians on the matter
of a right of way for the low line canal.

They found the Indians friendly, and no
trouble is anticipated in reaching an
amicable understanding with them.

The gentlemen report the finding of a
murdered man a short way from the rail
road at Olio, which is about four miles
north of San Felipe. The facts, as heard
by Messrs. Balcomb and Curran, are
that the Indians found the dead body and
buried it in leaves, where they left it for
ten days before they informed anybody of
their find, which they did day before
yesterday. A bullet hole was found in
the back of the head, and an Indian said
he had seen a white man shoot him.

After killing him the murderer had
stripped the body of every article of cloth-
ing that was on it. The body was buried
yesterday afternoon. Although no word
has been received by Sheriff Hubbell, it
is understood that his deputies residing
in that locality are at work trying to lo-
cate the murder.

St. John's Sunday School Entertainment.

A happy throng of little folks and
young people gathered last night in the
banqueting room of the opera house to
hold the annual festival of St. John's
Sunday school.

For some time previous a number of
children had been carefully rehearsed by
Mrs. L. L. Melan, aided by Miss Cora
Gehring, in the preparation of a tuncful
operetta, "Little Red Riding Hood."

The artistic manner in which it was
rendered last evening reflects the high re-
spect on the above named talented lady
and her aids.

The group of fairies and their queen
was a right pretty picture—silver crowns
and stars glittered in beauty—the golden
insignia of her majesty was most im-
posing, which the handsome costumes of
her pages made a rich background of
color.

The various dramatist persons acquit-
ted themselves admirably. We may espe-
cially mention Miss Lily Gehring as the
"Wolf," Miss Viola Kregel as the
"Queen," Miss Mabel Barrett as the
"Mother," Miss Lily Gehring as "Little
Red Riding Hood," and Master Harry
Holloway as the "Humble Bee."

The most numerous new and well, and
the members of the chorus sang lustily
Truly, to the whole affair, the ancient
proverb will apply. "Faints coronal
appears." After the performance was over,
cakes and lemonade were served to the
young people and their guests.

The priest in charge wishes to thank
most heartily the members of St. Agne-
chapter (boys), who kindly took charge
of the work of attending to the whole
affair, and to other good friends who
contributed to the enjoyment of his dear
children.

Remember the regular free concert at
Orchestration hall Wednesday night, Jan.
12th, at 8 o'clock. The company is in
receipt of new music. For those who
dance, we will give you the first free
time. A cordial invitation is ex-
tended to all to attend.

MR. CHARLES DUDLEY WARNER'S views and observations of "The Picturesque in American Life and Nature," as uttered in a very pleasant talk with Clifton Johnson, form the subject of a specially interesting article in the January Magazine number of The Outlook. Mr. Johnson, whose skill as an artistic photographer is now known to most readers of books and magazines, illustrates this article with several pictures of Mr. Warner at his home, and with other photographs taken for this special purpose. The article is essentially readable, and has much of Mr. Warner's characteristic humor. (\$3 a year. The Outlook Company, 13 Astor place, New York.)

THE setback which the policy of arbitration has received through the extraordinary decision of Senor Quevedo, the Argentine minister to the court of Spain, suggests the inquiry why it would not be a good thing to have a permanent international court of arbitration, composed of one or more citizens of each of the principal countries, choosing men of undoubted probity, ability and knowledge of international law. Such a court would be a vast improvement over the present unsatisfactory system of appointing some monarch or president, who in turn delegates the arbitration to a person who may be altogether incompetent.

THE new and palatial revenue cutter McCulloch started Monday from Baltimore for a long voyage of 23,000 miles, by way of the Suez canal and the Orizaba to San Francisco. Under the guise of revenue cutter, the government is now building large vessels which are in fact swift and well-armed gunboats. The McCulloch, as she now stands, could have whipped a whole navy of the style of a

century ago. These cutters, moreover, are manned by a superior class of men, of more experience and ability for all around the work than those of the navy, and their officers are men of education, resource and daring. The cutter service carries our flag over a wider range than the navy traverses, and into more frequent dangers of sea and ice and storm.

The Sultan and Our Missionaries.

The ports have demanded the recall of two American missionaries from the province of Aleppo, on the pretext that their mission is likely to cause disturbances. "The sick man of Europe" is as unreasonable as his political health is feeble. As a bright contrast of his obstinacy and stupidity, the people of America are acknowledging far and wide the beneficence of Hostetter's Stomach Bitters, namely, to relieve and prevent malaria, rheumatism and kidney complaint, chronic dyspepsia, constipation and liver trouble. The medicine, the weak and infirm derive unspeakable benefit from its use, and it greatly mitigates the weakness and infirmities which are especially incident to advancing years.

"THE PUBLIC HEALTH."

Dr. Aubright Lecture Last Night—An Appreciative Audience.

Dr. Aubright, in his lecture last evening at the opera house, on the subject of "The Public Health of the United States," after speaking at considerable length upon the powers that are displayed and the means furnished by the general government for the preservation of the general health, and what on the part of states, territories and municipalities; and how, as an enlightened, progressive nation should now act regarding this vital subject—the general health of the people of the United States, considering the dangers that are now threatening us as a nation; the sources of disease and their effect on the general welfare, and also the consequent effect on trade and commerce in these days of rapid travel and interstate commerce over the iron rails, closed his remarks on this part of his subject by the following sympathetic appeal:

But there is a scourge stealing quietly and insidiously over our land, gathering in our citizens slowly and carefully as the thief in the night, and which is not a respecter of persons nor conditions in life, but enters the palatial residence and the hovel alike, and claims for its thousands and thousands every year. It is pulmonary tuberculosis.

Pulmonary tuberculosis must henceforward find a place in the category of dangerous diseases, which we as a nation should be also seeking to guard against. In its dangerous tendency it only differs from the other diseases enumerated, in that it is slow of development and, usually, much protracted in its course; but it is even more fatal in its termination than are the infectious and contagious diseases which we so much dread.

It is not pitiable to behold how the people of this land are principally those who should, by reason of their years, be in the prime of their manhood and womanhood, and in the prime of their usefulness, are swept away. There are over half a million consumptives in the United States. One-sixth of all those who are dying yearly now, from old age, accidents and all other diseases combined, are dying from this disease called consumption.

It is estimated that in the past twenty years over 20,000 persons have died from the infectious and contagious diseases against which we have such formidable quarantine defenses established—all paid to the powers that maintain them—but when we consider that at the rate that pulmonary tuberculosis is devouring its victims, in twenty years 2,500,000 shall have died of this disease alone, it is time for us, as a nation, to better ourselves.

The attention of the United States government is solicited, for this is truly "the pestilence that walketh in the darkness." The time evidently has come when the government of the United States should take this matter into consideration, and seek to aid in the alleviation of the suffering of so many poor consumptives, and for the amelioration of these immense losses from our population by establishing and maintaining sanitary institutions in the sanitary region of the United States.

Among those from Farmington who were transacting business in Atzec this week we noticed George Allen, C. H. McHenry, W. A. Hunter, C. E. Stivers and Judge Webster.

There are over 1,300 head of cattle being wintered and fed for beef on the La Plata this winter, and almost the entire hay crop of that prosperous valley has been sold and will be fed by spring.

Will anybody in Atzec put up ice this winter? There is a brisk demand for ice during the summer months and the man who will prepare to meet it can make a snug sum of money very easily.

Work on the big ditch from Atzec has been suspended for the present on account of the frozen condition of the ground. It is the intention of those in charge of the work to resume operations about the 15th with a much larger force than has heretofore been employed.

Dr. Wrightman preached his farewell sermon as pastor of the Presbyterian church last Sunday morning, taking for his text, "Grow in Grace and Knowledge of the Lord Jesus Christ." The congregation was large and the doctor's discourse, which was eloquent and furnished food for thought, was listened to with great interest. The resignation of Dr. Wrightman is to be regretted, inasmuch as he is an excellent citizen as well as a preacher of more than ordinary ability. However, he may decide to return here to reside, as our climate has proven of great benefit to the health of Mrs. Wrightman. He will leave for Chicago in a short time, where he will take a postgraduate course in medicine, at the conclusion of which he may come back to Farmington to engage in the practice of his profession.

Gus Englehart, one of the most popular conductors on the Santa Fe Pacific, at Winslow, was not to be beaten out of his turkey on Christmas. He bought a live bird, had it cooked, and with the necessary trimmings, he and his crew had their Christmas feast in their caboose, somewhere between Winslow and Seligman.

The railroad station at Winslow reports greatly increased shipments to the various mercantile firms of this city, says the Mail. Persistent Coughs

A cough which seems to hang on in spite of all the remedies which you have applied certainly needs energetic and sensible treatment. For twenty-five years that standard preparation of cod-liver oil, **SCOTT'S EMULSION** has proved its effectiveness in curing the trying afflictions of the throat and lungs, and this is the reason why: the cod-liver oil, partially digested, strengthens and vitalizes the whole system; the hypophosphites act as a tonic to the mind and nerves, and the glycerine soothes and heals the irritation. Can you think of any combination so effective as this?
