OHIO LEGISLATURE!

Bitter Fight Over the Pending
Senatorial Election.Senator Hanna's Friends Putting in
Hard Work for Him.Numerous Presidential Appointments Sent
to the Senate.

SLIGHT FREEZE IN FLORIDA.

Columbus, O., Jan. 5.—The senatorial contest broke more bitter to-day than ever. After the sensational developments of last night in connection with the repeated changes of Representative Griffith and other doubtful members, skirmishing proceeded more clandestinely on both sides. No claims of changes were made on either side. It was the purpose of the managers in not holding any caucus to be able to keep their own secrets till the balloting begins, a week hence. It is believed that secret compacting are being made that will not become known until the votes of members are recorded. The situation is the same as after the organization of the legislature on Monday. All those who changed preferences yesterday were brought back during the night to their original places.

There was much comment to-day on the departure of Congressman Grosvener for Washington, after ex-Secretary Ryan and others, who have recently been here in the interest of Senator Hanna. The Hanna men insisted that there would be no legation while the opposition insisted that they had Hanna bent now and would defeat Secretary Sherman, Assistant Secretary Day, or any other friend that the national administration brought out in place of Hanna.

The feature of the day was the passage in the house by unanimous vote of a bill repealing the law for fifty years' franchises to street railways. This repealing bill was introduced by Representative Bradley, of Cleveland, one of the republicans opposing Hanna. Mr. Maxwell charged Bradley with using this bill for defense and banishment. It was freely charged by members that Senator Hanna, as well as Senator Foraker, lobbying for a fifty-year street railway franchise law. In the senate there were no new developments, Burke continuing to co-operate with the democrats.

It is announced that Senator Burke, the only dissenting republican senator, is dissatisfied with the senate organization and will vote for re-organization. Both houses adjourned till Monday.

NEW YORK LEGISLATURE.

Gov. Black Makes Many Recommendations
in His Annual Message.

Albany, N. Y., Jan. 5.—In his message to the legislature to-day, Governor Black recommends that a commission be created to examine into the commerce of New York, the causes of its decline, means for its revival and report conclusions. In dealing with the labor problem, the governor made these suggestions: "First—that immigration be checked; second—that a fair rate of wages be paid to laborers; third—that in opposing strikes by armed men a method should be adopted which would not at first discharge a firearm and produce fatal tragedies such as caused a recent event to be universally deplored."

The legislature organized to-day. The senate with a membership of fifty has a republican majority of twenty; the assembly with 150 members on the roll, is republican by eight. The republican caucus nominees were elected without any unusual incident.

The speaker of the assembly is J. M. E. O'Grady, who presided during the session of 1897.

Chicago Gold Factory.

Chicago, Jan. 5.—The report that Chicago's gold factory is closed down is emphatically denied by Manager Price. According to his statement, the factory is now sending to New York 2,000 pounds of bullion every day. A five-year contract has been made with a New York firm to smelt the metal, as it was found impracticable to do so at the works at Thirty-ninth street.

Burned.

Ottawa, Ont., Jan. 5.—The east wing of the Ottawa university, Catholic, burned to-day. Loss, \$50,000.

PRESIDENTIAL APPOINTMENTS.

Big Grant of Congress and Other Federal Officials.

Washington, Jan. 5.—The president to-day sent the following nominations to the senate: Francis C. Lowell, United States district judge, Massachusetts; Edgar M. Steins, marshal, district of Kansas; George L. Siebert, marshal western Texas; Owen L. W. Smith, North Carolina, minister, resident and consul general to Liberia; James C. Stone, Missouri, consul general at Cape Town; Herbert S. Squires, New York, secretary legation at Pekin, China.

Consuls—Adolph I. Frankenthal, Mississippi, at Rome; Noel McMillin, Michigan, at Port Sania, Ontario; James Mayers, Ohio, at Rosario, Argentine Republic; John H. Grant, Jr., Massachusetts,

at Malta; Edmund Z. Brodowski, Illinois, now consul at Breslau, Germany, at Furth, Bavaria; Charles W. Erdman, Kentucky, now consul at Furth, Bavaria, at Breslau, Germany. Leander P. Mitchell, Indiana, assistant controller of the treasury.

Pension agents—Charles A. Orr, Buffalo; Jonathan Merriam at Chicago; Sydney L. Willson at Washington.

Frank A. Morris, surveyor general, South Dakota; Arthur L. Thomas, postmaster, Salt Lake City, Utah.

Body Found.

Aubury, Neb., Jan. 5.—The body of William Baker, supposed to have been the murderer of Farmer George Baker and wife, who were shot yesterday by an unknown assassin, has been found. Blood hounds were put on the trail and about four miles from the scene of the murder, Baker's body was found, the top of his head having been blown off by the same gunshot used in the murder.

The Freeze in Florida.

Washington, Jan. 5.—Reports received from the weather bureau officials in Florida indicate that the freeze on January 3 and 4, while doing considerable damage, did not approach in severity or destructiveness the freezes in the winters of 1894 and 1895.

WASHINGTON NEWS!

Congress Convened and Both
Houses at Work.Hawaiian Treaty to Be Called Up
Next Monday.Senator Teller Wants the Government
Bonds Paid in Silver Dollars.

LEITER'S BIG WHEAT DEAL.

Washington, Jan. 5.—There was not a very large attendance in the house of representatives to-day, and with one or two exceptions the members of the Ohio delegation, both democrats and republicans, were absent. The house went into committee of the whole to resume consideration of the legislative, executive and judicial appropriation bill. All the features of the bill had been disposed of except the appropriation for the civil service commission, upon which, by previous arrangement, there was to be no general debate.

It was proposed that Moody, republican (Mass.) and Dockery, democrat (Mo.), control the time for and against. Hepburn, republican (Iowa) suggested that it was a three-cornered contest. "The democrat," said he, "desires the entire repeal of the law. Some of those on this side desire that it stand as it is, while a large body of us desire a wholesome modification of its provisions."

"Why does the gentleman aver that all the democrats on this side of the house desire the entire repeal of the law?" inquired Clark, democrat (Mo.).

"Simply because that would be wrong, and your side is always wrong," retorted Hepburn amid great laughter.

All suggestions as to control of time failed at last and the chair recognized Grov, republican (Pa.) who spoke twenty minutes in support of the general principle of civil service law. Moody (Mass.) made an elaborate discourse of the civil service system.

Dockery, democrat, Missouri, opened the opposition to the civil service law in the house. He made a warm speech in which he declared the law odious to the American people and should be repealed.

SENATE.

There was only a small attendance at the senate to-day. Allen, of Nebraska, spoke on the immigration bill and declared in favor of consular inspection of immigrants.

Carter, of Montana, called up the bill to provide for taking the next census and argued against making appointments through the civil service commission, saying it was a preliminary measure and provided only for thirty-two places.

Cockrell, of Missouri, replied, declaring that the republican party was backing squarely down from its position on the civil service question.

A report by Secretary Sherman on civil service was read. Cockrell said it was a remarkable document, being a request on congress for legislative action which was in the power of his chief by executive order.

Teller declared that the census bureau should not be a partisan institution, but under the classified service. He asserted that in the last census the silver production had been fraudulently overstated by \$10,000,000.

AT 3:10 the senate went into executive session.

At 3:30 the civil service debate was still in progress with Landis, republican (Ind.), speaking in favor of a modification of the law. His strictures on the self styled "better element" were severe. They were, he said, narrow, bigoted, selfish, dangerous.

Pearson, rep. (N. C.), attacked the law and said a bill for its repeal would be brought in by a majority of the civil service committee.

DURRANT MUST HANG.

Last Hope of the Prisoner Denied by the Court.

San Francisco, Jan. 5.—In the United States circuit court to-day, Judges Morrow and De Haven denied application for writ of habeas corpus for Durrant and refused to grant Durrant's attorneys leave to appeal from this decision.

Unless all present plans are changed and Governor Budd grants stay of proceedings, W. H. Theodore Durrant will hang in the prison yard of San Quentin at 10:30 o'clock, Friday morning. The carpenters began the work of erecting a gallows at 7 o'clock this morning. The prisoner was assisted by a number of convicts. The driving of the nails in the scaffold can be distinctly heard in the cell of the condemned man but his anguish is apparently too great to notice it. Last night the death watch was more alert than at any time during Durrant's confinement.

GERMANY WINS.

That Country Takes a Lease on a Slice of China.

Berlin, Jan. 5.—The Reichsanzeiger this evening announced that according to a telegram from Pekin, an understanding has been reached between Germany and China regarding the cession of Kiao Chau Bay to the former. The arrangement is substantially as follows: It is intended by the cession to render it possible for Germany to secure the fulfillment of her just wish for possession, in the same way as other powers, of a base of trade and navigation in Chinese waters. The cession of Kiao-Chau Bay to Germany takes the form of a lease for an indefinite time.

Germany is at liberty to erect on the ceded territory all the necessary buildings and establishments and take measures required for their protection.

The Big Wheel Deal.

Chicago, Jan. 5.—Private advices from the east indicate that the letters

is \$300,000,000 that will eventually own and control over 30,000,000 bushels of cash wheat for better prices. If this be true refusal to sell cash wheat to-day would indicate that they propose to hold what wheat they have and increase the holdings very largely, or enough to discourage to a great extent short selling as a business.

SILVER RESOLUTION.

Washington, Jan. 5.—Senator Teller introduced a concurrent resolution declaring that the bonds of the United States, principal and interest, should at the option of the government be paid in standard silver dollars, and that such payment is not in derogation of public faith or in derogation of public credit. The resolution was referred to the finance committee.

HAWAIIAN TREATY!

Document.Russia Orders Rifles and Ammunition

Near Kansas City.

VESSELS OF THE NAVY.

Washington, Jan. 5.—The outlook for the ratification of the Hawaiian annexation treaty is now considered bright. Friends of the measure believe that they can secure for it sixty-two votes—three more than are needed. The feeling is very strong that unless the United States takes in Hawaii, the islands are likely to cause trouble in the future, when one or more European nations will attempt to acquire them or give them to Japan as compensation for their grants in China.

Strength of the Navy.

Washington, Jan. 5.—The present strength of the United States navy is officially stated at 140 vessels of all kinds, including nine first-class battle ships, two armored cruisers, six double-turreted monitors, thirteen single-turreted monitors, thirteen unprotected cruisers and ten gunboats. It is gratifying to learn that the number of steel torpedo boats has been increased to twenty-two.

ROBBED A TRAIN.

Passenger Train in Kansas City Held Up and Robbed.

Kansas City, Jan. 5.—A train on the Kansas City, Pittsburg & Gulf railway was held up last night within the city limits. The Wells-Fargo express messenger, M. E. Hayden, who was bound and covered by one robber while the other rifled the local safe, sent the company a message this morning to the effect that the robbers took nothing of value. Local officials of the express and railway companies assert that only a few packages of jewelry of no particular value and no money were secured. The robbers are described as about 25 years old and clean shaven. They apparently made good their escape.

Russia Orders Arms.

New Haven, Conn., Jan. 5.—An order for 10,000 of the latest pattern in military rifles and 5,000,000 rounds of ammunition, has been placed with the Winchester Arms company through its San Francisco office. They are to be shipped at the earliest possible moment. The order comes from the Russian government.

Hawaiian Treaty.

Washington, Jan. 5.—Senator Davis, chairman of the senate committee on foreign relations, gave notice in the senate to-day that he would call up the Hawaiian annexation treaty in executive session on Monday next, and ask the senate to consider it on each day thereafter until the treaty be disposed of.

Governor of Iowa.

Des Moines, Iowa, Jan. 5.—Governor-elect L. M. Shaw and his family have arrived in Des Moines to-day. It is their formal removal from Denison to Des Moines. Mr. Shaw expects to remain here most of the time before the inauguration, which will take place Jan. 13. He has rented a fine residence in Pleasant street, one of the most fashionable sections of the city.

Railroad Collision.

Kansas City, Jan. 5.—At Rock Island Junction, Kas., this morning, a west bound Union Pacific work train and an east bound Rock Island stock train collided head on. The engines and firemen were injured, but not seriously. The collision is attributed to a dense fog.

The injured are: Peter Reinecker, Albert Lewis, W. S. Trent and Frederick Fletcher, all of Kansas City, Kas.

Anxiety Reprehensible.

Marysville, Ore., Jan. 5.—People here are wild, and threats of violence are made against Representative Griffith. Two Kurts men from Columbus while en route here, escaped violence at the hands of the angry republicans. A mass meeting of Griffith's constituents has been called for to-night.

National Bank Examiner.

Washington, Jan. 5.—Controller Dawes has appointed William C. Oakley, Chicago, national bank examiner to succeed Joseph T. Talbert, resigned.

Satisfactorily Settled.

Pekin, Jan. 5.—The Kiao Chou difficulty was settled yesterday at a conference and the Chinese foreign office made the necessary concessions.

THERE are, according to an eminent archaeologist, no less than 120 to 130 absolutely distinct languages in North and South America. The Scientific American says that excessive beer drinking is even more brutalizing than whisky. "The very lowest form of imbecility, closely allied to criminal insanity, follows from beer drinking. A beer drinker may be the picture of health, he may weigh 300 or 400 pounds, but in reality he is most incapable of resisting disease compared with teetotalers who use whisky, he is more incurable, more generally diseased."

DECEMBER SURPLUS.
The monthly statement of the public debt issued at the close of business December 31, 1907, shows the debt, less cash in the treasury, amounted to \$999,114,567, a decrease for the month of \$10,114,567. This decrease in the debt is due principally to an increase in the cash, which is accounted for by the sale of the Union Pacific railroad.

The monthly statement of the government receipts and expenditures for the month of December shows the total re-

ceipts to have been \$29,540,008, of which \$11,660,788 was from customs, \$14,342,928 from internal revenue and \$3,536,292 from miscellaneous sources. The expenditures for the month aggregated \$27,634,069.

The receipts and expenditures for December include \$21,715,504 received during the month from the sale of the Union Pacific railroad, \$900,000 paid out to secure a bid on the Kansas Pacific, and \$517,438 interest paid on Pacific railroad bonds not due until January. Excluding these items the receipts amount to \$27,931,494, and expenditures \$26,216,063, leaving a surplus for the month of \$1,715,431.

As compared with December, 1906, there is shown to have been an increase of nearly \$1,000,000 in the receipts from customs and about \$1,145,000 in internal revenue sources.

POSTAL REFORM.

Congressman Lund has given notice of an intention to propose the enactment of his bill providing for the amendment of the postal laws relating to second class mail matter, and, as a result, the opponents of the measure are engaged in a vigorous agitation against it. It therefore behooves the friends of the measure to be equally active in order that the much desired reform may be accomplished.

The issue is one that has long been discussed and is generally understood. The San Francisco Call says that the bill proposed by Mr. Lund is in the interests of economy and fair dealing, and has been well received by merchants and other business men throughout the country. The object is simply to put an end to abuses practiced under the law by which the revenue of the government are diminished and the postal service rendered a burden upon the government instead of being self-supporting.

The bill as reported by Mr. Lund admits to the mails as second-class matter all newspapers and periodical publications which are issued at stated intervals and as frequently as four times a year, but proposes to prohibit the admission of books or reprints of books, and to abolish the sample copy privilege to newspapers.

The amendment is as necessary to justice between citizens as to economy of service. At the present time the publishers of cheap and trashy books issue them as parts of a so-called periodical library and get low rates through the mails, while the publishers of standard works have no such advantage. The government is thus put in the position of promoting the circulation of comparatively vicious literature at the expense of that which is instructive and valuable.

The "sample copy" abuse is even worse than that of the periodical "library." Under the pretense of being sample copies of regular newspapers, millions of what are really no more than advertising circulars are sent through the mails at the expense of the taxpayers. Thus the public has to pay for advertising private business in which the people have no interest whatever.

NEW MEXICO PRODUCTS.

According to estimates in the New Year's editions of the Denver papers New Mexico's mine output for the past year is: Gold, \$1,950,000; silver, \$750,000; copper and lead, \$1,500,000; tungsten, \$300,000; coal, \$1,250,000, or a total of \$5,750,000. These figures may, perhaps, be considered by some as excessive, but mining men seem to agree that they are not far from a reasonable estimate, since it has long been recognized as a fact that much of the mineral product of this territory goes to Colorado smelters and is absorbed in the annual "showing of that state. The Las Vegas "Tribune" suggests that the next legislature should look to this matter and designate some person whose duty it shall be to gather such data officially. How would it do to make such duty part of the work of the director of the school of mines? Indeed, the idea might most properly be carried further by requiring that the president of the agricultural college shall also gather statistics pertaining to the agricultural and horticultural interests of the territory.

A BIG DITCH.

The drainage canal for the City of Mexico is the most stupendous work of its kind on the face of the earth. The Manchester ship canal in England cost the equivalent in Mexican money of \$100,000,000, but the actual amount of dirt removed in cubic feet was not a circumstantial to what has been taken out on this proposition. The drainage canal is 47 1/2 kilometers long with an average of 22 meters in depth. It measures 6 1/2 meters across the bottom and notwithstanding the fact that not an inch of water has yet been turned in, there is enough water below San Cristobal to float a boat, and runs nearly four feet below the tunnel. This is all sewage water. New crops can already be seen along the banks, which prior to this work was the bottom of Lake San Cristobal and thousands of acres have already been reclaimed. This land is offered to the adjoining land owners at a low price, either for lease or purchase, and much of it has already been taken off the market.

SANITARIUM NEEDED.

It is gradually becoming known to the people of the United States that the region, taking Albuquerque as the center, has the most favorable climate for the benefit of consumptive persons, of any place in America; and indeed of the whole world. There are yearly several hundred such persons experiencing this. There is scarcely a vacant room, much less a residence to be found in our city. Hundreds more do come, and would remain if they could be accommodated, who leave again on account of this want. The time has come when we must better ourselves and try to utilize this great blessing which nature has bestowed on the citizens of this region—the grandest, most health-giving climate on earth. We must organize a sanitarium company.

ON NEW YEAR'S DAY.

On New Year's day Gov. Otero pardoned H. P. Brown, of Eddy. The act of clemency was asked for by nearly the entire people of Eddy. Brown was serving a year's sentence for embezzlement.

"KIRKIS" LAST NIGHT.

A Good Sized Audience Treated to a Splendid Entertainment.

The "Kirkis" given at the opera house last night for the benefit of the Episcopal church was attended by a good sized audience, which was rewarded for its presence by witnessing a unique and an interesting entertainment. The remarkable success of the "Kirkis" reflects great credit on Miss Hogan, who has devoted her best efforts for some time past to the end that the entertainment might come up to the expectation of the most critical. All who took part in the program are also deserving of the highest praise for the active interest and enthusiasm they have shown in endeavoring to have the entertainment reach perfection.

The first part of the program opened with the dance of the March winds, which were represented by Misses Alma and Jettie Rosenwald, Irene Salt, Myra Kuns and Lella Buchanan. This was followed by the dance of the paper dolls, represented by eight lovely little girls. Lois Neher, the 5-year-old daughter of Mr. and Mrs. George Neher, then made her first public appearance as a whistler of remarkable genius. Little Eloise Frisari treated the audience to a Spanish dance. Prof. James Hewey Ward then recited "The School Meeting in District 13," in a manner which showed that he possesses marked elocutionary powers.

The second part of the program, "The Blind Girl of Castile," opened with a dance of the peasants, and then Miss Edna Mills tripped the light fantastic in an admirable manner. Mrs. Blakely followed with a song, which was well received. The Spanish Gypsy dance by Misses Georgia Kellogg, Shirley Kohns and Lora Fox proved very interesting.

Miss Claude Albright, as a Gypsy maid, sang a song from "Carmen" which was greeted with a loud encore, to which the sweet singer responded with a Gypsy dance, the symmetry of motion itself.

The dance of the Roses, the Butterfly dance and the Tambourine dance were all perfectly performed and well received. The second part of the program closed with the Fan Minuet, in which Miss Edna Mills, Belle and Lily Schuster, Lella Buchanan and Myra Kuns took part.

A large number of people partook of the excellent oyster supper which was served before and after the "Kirkis."

EL PASO HORSE RACES.

The races just held at Washington Park by the Washington Park Driving and Fair association, were not a success financially. The management did not expect they would be, for they did not have time to advertise the races as extensively as they might have been. Their time was limited and they deserve praise for what was done, and though the management is out of pocket, they are pleased with the fact that horse racing has been inaugurated in El Paso and that hereafter it will be a feature in this city at proper seasons of the year.

THE ASSOCIATION PROPOSES HAVING RACES

again next spring during the month of May, at which they expect to receive sufficient inducements to encourage horse men from all parts of the country to come to El Paso and take part.—Tribune.

KILLED HIS BROTHER.

Sidney Sutherland Accidentally Shoots and Kills Robert.

Rev. A. B. Sutherland, pastor of the Methodist Episcopal church of San Marcial, and wife, who are well known in this city, have the sympathy of their friends over the sad tragedy that happened to their household last night. Sidney, their nine-year-old son, accidentally shot and killed his brother, Robert, a few years younger. Sidney picked up a 22-caliber rifle, to fire at a strange dog that was chasing a kitten belonging to the family. Just as the trigger was pulled, Robert stepped or stumbled in the foot of the bullet, receiving the fatal wound just above the left eye. The shooting, which was purely accidental, occurred at about 8 o'clock, and the lad lingered until 11 p. m., when he died.

The Birth of the "Greater" New York.

With the dawn of the new year the "Greater" New York is ushered into the world a full grown giant. The problem of municipal government is to be put to the supreme test. Within its limits is contained a population equal to that of thirteen of our sovereign states at last census, and as numerous as that of the original thirteen states. Provisions for the life and health of this vast multitude of all nations and climes is an unsolved enigma. Thousands of sufferers from New York are elsewhere are wretched from the agonizing pain of rheumatism, the Stomach Bitters, which is a preventive of malaria, kidney complaint, and a curative of liver complaint, constipation and nervousness.

The shipment will be made by J. A. Stinson to C. B. Reynolds. It will be remembered that a similar shipment of 10,000 of the fleece fellows was made from Santa Fe over the Denver & Rio Grande about ten days ago.—New Mexican.

ALBUQUERQUE LAND AND IRRIGATION CO.

Here Thursday, Jan. 8.

The popular theatrical attraction of the present day is the one that pleases the largest number of theater goers. Dramatic writers have recognized this, and in the combination of comedy and pathos have evolved the "comedy drama," which is neither tragedy nor farce, but a delightful medium. One of the most successful of the latter class of plays is "Tennessee's Partner," which had a

WONDERFULLY SUCCESSFUL TOUR LAST SEASON.

According to the criticisms of some well known writers "Tennessee's Partner" is a gem in its naturalness, the main incidents of the play being founded on actual occurrences. The scenes are laid in the mining regions, the action taking place during the present day. Legitimate comedy of a high order predominates in the dramatic story, but the latter is thrilling in the extreme. The laughable doings and clever dialogues of some of the characters arouse shouts of laughter from the audience and the play is warranted to cure the worst case of "blues," and send the theater goer home happy in the recollection of a highly enjoyable evening's entertainment. The organization presenting the play contains the names of wellknown players who are decided favorites here.

MANY INCIDENTS.

Santa Fe Grand Jury Returns Twenty-five Indictments.

The territorial grand jury, which was impaneled on Monday, Dec. 13, and has since been industriously at work, reported to Judge Laughlin on Friday evening that it had found twenty-five indictments and had not yet completed the task assigned to it, says the New Mexican.

Warrants for the apprehension of from several persons against whom true bills had been found were immediately issued and placed in the hands of Sheriff Kincaid and Deputy Sheriff Huber. It thus happened that every cell in the county jail was occupied on New Year's morning.

Appended is a list of the persons indicted and already in custody or under bond to respond for trial in the district court when called for:

Camilo Berardinelli, murder in the first degree; Ignacio Garcia, murder; Joseph Blonger, murder; Max Knott, larceny of cattle; Venancio Gallegos, larceny of cattle; Gregorio Quintana, larceny; Felix Crespin, rape; Luis Gonzalez, assault and battery and attempt to kill; Francisco Romero, assault and battery; Ramon Garcia, assault; Eduardo Baca, assault; Henry Fohlman, assault; Ricardo Alario, assault; Benito Alario, assault; Manuel Alfaro, assault; Narciso Alfaro, assault; Pete J. Smith, abandonment of wife and family; Santiago Urban, larceny of cattle; Marcel Urban, assault.

All but the last three named were arraigned before Judge Laughlin on New Year's morning and all pleaded not guilty except Camilo Martinez, an ex-convict, who pleaded guilty to the stealing of cattle. Smith, Urban and Urbino were arraigned this morning and pleaded not guilty.

Francisco Romero, Ramon Garcia, Eduardo Baca, Henry Fohlman, Ricardo Alario, Benito Alario, Manuel Alfaro, Narciso Alfaro, Joseph Blonger, P. J. Smith and Marcel Urban have since been released on bonds to appear for trial when wanted.

The case of the Territory vs. Antonio A. Herrera, assault with words, appeared from a justice of the peace, was tried before a jury on Saturday, and the defendant was found guilty and fined \$5 and costs.

In the matter of Pedro Delgado vs. A. P. F. Coape, an action for debt, the jury found for the defendant this forenoon. This action was brought to recover \$120, which the plaintiff loaned to the wife of the defendant in this city, but the jury held that Coape did not owe the money.

Hon. W. N. Hallman, of Washington, D. C., who was in the city some time ago, is again here, and visited the government Indian school to-day. Mr. Hallman is the general superintendent of government Indian schools, and is making a general tour to all schools throughout the west and southwest. He will go west from here, stopping over at Fort Defiance and thence on to the big Indian school at Phoenix. While here, Superintendent Allen will show the gentlemanly courtesies.

COURTED ONLY A HALF HOUR.

Match Made on a Railroad Without the Formalities of a Long Engagement.

"You may talk about your brief courtships and marriages on short notice," said an old conductor, "but I think I once witnessed the quickest made match on record. I was running as a conductor between Hamiltonville and Owenboro, in Kentucky, as I did many years, and on a trip in the winter of 1881 I got a pretty country girl passenger at a little station south of Central City, about 9:35 a. m.

"A few miles further on, at another small station, a fat, strapping looking farmer, dressed in brown jeans, with his trousers tucked in his tall boots, got on my train."

"The fellow hadn't opened the car door till he spied the rustic lass, and before he took his seat in front of the girl he had seated at her. I punched his ticket, went into the smoking car, and on my return to the regular passenger coach, found the Green river tiller of the soil sitting in the same seat with the maiden, chatting with her as if he had known her since birth.

"In twenty-five minutes after they had first met the fellow called me to him and said: 'See here, podner, we want 'er git hitched. I hain't knowed Miranda Jane here but thirty minutes, but we both like, and she's willin' an' so'm I. Whur's the nearest person, podner?'

"I took 'em on to Owenboro, and the happy bridegroom and his blushing bride half were passengers back on my train in the afternoon. For hurry-up nuptials it does strike me that these ought to have the cake and other special prizes offered for quick yeast love matches."

T. N. Hinch met with a nasty accident last Friday by the running away of a team. It was caused by one of the horses working the bridge off its head and resulted in the wagon being turned over. In the runaway Mr. Hinch was badly shaken up and bruised, but fortunately was not seriously hurt.

TRAVELING POSTOFFICES.

Proposed development of the Idea of Rural Mail Delivery.

The benefits derived from the extension of the rural free delivery of mail matter, it is expected, will be increased as soon as authority can be obtained from congress on the subject. At the request of the house committee on post-offices First Assistant General Health is preparing an amendment to the civil service appropriation bill giving to carriers in rural districts authority to receive cash and obtain money orders for patrons, and to receipt for and deliver registered letters. This additional duty can be readily performed by the carriers, who, if the scheme is put in operation, become "traveling postoffices." Country people, therefore, will have nearly all the benefits enjoyed by residents of the city in this regard, as the carriers now are permitted to carry postal cards and stamped envelopes for sale.

Should the proposition work for the department will be enabled to abolish many of the small postoffices along the star routes.

Jacobo Chavez, the popular probate court clerk of Valencia county, with his family, came in from Los Lunas last night, and are registered at Sturges' European.

Richard Pohl, manager of Louis Hunting's interests, and L. F. Levy, the merchant, are in the city from Los Lunas.

VERY DANGEROUS COUNTERFEIT.

A Hundred Dollar Bill that Deceives Even the Expert.

One of the most dangerous counterfeiters ever discovered has made his appearance at Philadelphia, recently brought to the secret service at Washington, five one hundred dollar counterfeit silver certificates bearing the head of President Monroe. The general appearance is excellent, and after close examination the officials of the treasury cash room were undecided as to the genuineness, and only after the notes had been soaked in hot water, when the two pieces forming the front and back of the note came apart, were they convinced of the fraud. On examination of the day's treasury cash another of the spurious notes was discovered. The notes brought over by Mr. Cramer had been turned into the treasury by two leading banks and the Philadelphia custom house, who had received them as genuine.

The chief engraver at the bureau of engraving and printing announced the counterfeit a very dangerous production. In view of the dangerous character of the counterfeit Secretary Gage to day decided to stop issuing and call in all \$100 silver certificates, of which there are about \$20,000,000 outstanding. These will be exchanged for silver certificates of smaller denominations, and the plates destroyed. As soon as new plates can be issued a new series will be issued. Assistant treasurers at all of the sub-treasury cities will be requested to send to the treasury in Washington \$100 silver certificates in their possession, and to request all banks, trust companies and other moneyed institutions to do the same.

Secretary Gage desired the statement made that in his judgment it was unsafe for business men or others to accept silver certificates of this denomination, and in case any are now on hand they should be sent to the bank for transmission to Washington.

THE RAILROADS.

Will Coleman, who has been braking on the Toledo branch for the last three or four years, has been transferred to Las Vegas.

The New York state railway commission has granted the application of steam railways of the state for an extension of time in which to complete the equipment of freight cars with automatic couplers.

On the Chicago, Rock Island & Pacific, from October 1, 1896, to October 1, 1897, the first full year of discipline without suspension, the number of men receiving demerit marks was about the same as the number suspended in the last preceding year.

Western roads have agreed to grant a rate of a fare and one-third for the round trip for the convention of the National Stock Growers' association at Denver, on January 25 to 27. Tickets will have a final return limit of fifteen days from date announced as the closing date of the meeting.

The earnings of the Denver & Rio Grande railroad for the six months just closed show a total of \$4,184,883, an increase of \$611,235, or 17.11 per cent over 1896. The total earnings of the Union Pacific, Denver & Gulf for the year were \$3,454,321, an increase of \$417,216, or 13.74 per cent over 1896.

The unprofitableness of the small railroad branch lines of Kansas, built during the boom of railroad construction in that state, may be demonstrated in a very practical way by the Leavenworth, Topeka & Southwestern road being shortly turned up and sold. This is the way left the owners of the road of realizing anything on the money invested.

The duties of the night agent at Cerrillos are varied. He is not only station agent and attends to the arrival and departure of many trains, but he must perform the duties of express agent as well.
