OHIO LEGISLATURE!

Hanna Having a Close Call for the Senatorship.

The Fusionists Elect Mason Speaker of the House.

Li Hung Chang Bitterly Denounces Germany for Invading China.

NUMEROUS COYOTES IN KANSAS

Columbus, Ohio, Jan. 3.—The contest in the house was between Mason, anti-Hanna, and Rowwell, Hanna candidate. The first ballot resulted: Mason 56; Rowwell, 53. Mason was declared elected amid great excitement.

The Ohio legislature convened at 10 a. m. The caucuses Saturday night were not on the usual lines between the republicans and democrats, some republican members having formed a fusion with the democrats for the defeat of Senator Hanna. The senate stands eighteen democrats and eighteen republicans, the latter including Voight, elected on the fusion ticket in Cincinnati, who did not attend either caucus. At the senate republican caucus Burke, republican, of Cleveland, was not only absent but was at the same time nominated by the democratic caucus for president pro tempore of the senate. The caucus nominated Senator J. Park Alexander for president pro tempore. The absence of Burke today therefore meant not only his election, but the election of some democrats for the offices of the senate.

The house stands 62 republicans, 47 democrats, the former including the four fusionists from Cincinnati. At the republican house caucus there were only 32 present pledged to Alexander Rowwell for speaker. Of the absentees Griffith, of Clinton, was the only one offering caucus. He was sick. The other nine republican members were absent because they are opposed to Hanna and regarded Rowwell as the Hanna candidate. These nine republican members met with the democratic members and endorsed Harry C. Mason, of Cleveland, anti-Hanna republican, for speaker. With these nine republicans and 47 democratic members Mason would have 56 votes, one more than necessary to elect, but some democratic members refused to pledge to republican candidates for senator, speaker or other offices in the organization of the legislature.

It is generally the belief of Hanna, as well as of all his supporters, that his success depends on the organization of the legislature. His opponents claim that he will be defeated, even if the Rowwell ticket was elected, and his friends admit that the chances were against him if Rowwell was defeated.

It required an hour to examine the credentials and swear in the 109 members, but the thirty-six senators soon qualified.

All were present in the senate chamber except Burke, republican, opposed to Hanna. Voight, fusionist, from Cincinnati, voted with the republicans, but even then the vote stood 17 in favor of the democrats, who elected all the officers. O. D. Darroll, democrat, was elected chief clerk over A. C. Cain, republican, the latter having expected reelection by Burke's presence. As Burke was absent and could not be sworn in, T. E. Cronwell, democrat, was elected president pro tempore of the senate, but it is understood that he will give way to Burke for the place as soon as the latter arrives to take the seat.

The democratic organization of the senate was made complete in a quiet way, while a detachment of policemen were needed to hold back the crowd that filled the hall of the house and pressed about the entrances.

In the hall of the house the wildest scenes were witnessed during the first hour of the session. All of the 109 members were in their seats. After the name of Rowwell had been presented as the regular republican candidate for speaker, the name of Representative Mason, republican, was presented by Representative Jones, republican, and seconded by two other republicans. The democrats did not participate in the speaking. As the ballot proceeded there were loud cheers as the doubtful members responded to their names and when the roll called closed there was a long demonstration that delayed the official announcement of the vote. The first ballot resulted as follows: Mason, 56; Rowwell, 53, as claimed Saturday night by the combined opposition to Hanna. The combine completed the organization of the house.

John P. Griffith, of Union county, had been claimed by the Hanna men till he was nominated on Saturday night by the combine for speaker pro tem. When Representative Griffith cast his vote for Mason for speaker there was a wild scene, and the excitement continued till Griffith was elected speaker pro tem, by the same vote as that for speaker.

The regular republican candidate for chief clerk of the house, John R. Malloy, secretary of the republican state central committee, was defeated by Charles H. Gerrish, republican, Kurtz's close lieutenant in the organization of the opposi-

tion to Hanna. The combine slate went through for all the minor places by the same vote, 56 to 53.

When a joint resolution on arrangements for inauguration of the governor came up in the senate the republican senators, as a rule, declined to vote on account of their opposition to Governor Bushnell. The resolution was adopted by the democratic side of the senate chamber, assisted by Shoup and Wightman, republicans, and Voight, fusionist. The action caused quite a stir about the state house.

The result of the organization of the legislature started rumors that the Hanna men would combine with the gold democrats for the election of Calvin S. Brice as the gold standard man rather than have Mayor McKinnon and Governor Bushnell elected for the long and short terms as silver republicans.

Speaker Mason will dispose of all patronage in the house in the interest of McKinnon and Bushnell and against Hanna, and with the state executive administration also against Hanna, his defeat is conceded unless radical changes are made within a week.

Poor, Sad and Friendless.
New York, Jan. 3.—Edward Fittinger, once a powerful politician in this city and a friend of Tweed is a pauper now in a Westchester poorhouse, at his own request. He was an excellent lawyer in his palmy days, both criminal and civil, and amassed a fortune of \$250,000. This has all been dissipated. For some time he has been absolutely friendless without a friend in the world to put forth a helping hand. Many of his former companions are dead and the rest have no use for the man without money or health, and as a last resort, and in desperation, he applied for admission to the almshouse, where at least he could find shelter.

Coyotes in Kansas

Great Bend, Kas., Jan. 3.—Western Kansas is overrun this year with coyotes. It was thought they had been almost exterminated by the warfare made by the settlers of the new country, but reports from that section indicate that they are multiplying instead of diminishing. They have killed thousands of sheep, and even go into the farmers' houses and kill their chickens. Dogs are no protection, for one coyote, if cornered, will whip three ordinary dogs.

GRASPING GERMANY.

Li Hung Chang Denounces the Greed of Germany in Invading China.
New York, Jan. 3.—The Herald this morning prints an interview obtained at Peking with Li Hung Chang, in which he says: "The forcible occupation of Kiaochow by Germany is in direct violation of existing international treaties and international law. The pretext made for this act of war was the murder of two missionaries by robbers in the interior of the province of Shang Tung. The Chinese government offered immediate and full redress for this outrage—punishment of the criminals, dismissal of local officials, and a large compensation for all losses. Shouha China be distressed by having her shores invaded and her territory occupied because of an occurrence which western countries would deal with by law and not by war—an unexpected incident, deplored by my government, and followed by full redress?"

"Our desire is to preserve our territory intact and steadily improve it as a field open to all countries equally for the development of commerce."

Miss Mary Leary, of Red Jacket, Mich., the sister of J. M. Leary, who died at Holbrook, Arizona, about five weeks ago, arrived in the city Saturday night and registered at the Highland. Yesterday she was the guest of A. Slinger, who was a close friend of her brother. Miss Leary came out west for the purpose of having the remains of her brother embalmed and shipped back to Red Jacket. She bought a casket from Undertaker Montfort, who accompanied her last night to Jerome. Leary's mother resides at Red Jacket, Mich.

Pedro Montano, who was brought here from Holbrook December 29, with a hole in his skull, died at midnight last night from the brain oozing out. He had been unconscious ever since brought to this city; so nothing could be learned as to how the accident occurred. Undertaker Strong has telegraphed the relatives in Holbrook, but he has not heard from them as yet.

William Flanlonger died at 10:30 o'clock Sunday morning from consumption. He came here from Kansas about two weeks ago, was then in the last stages. The remains were turned over to Undertaker Strong, who is holding them and awaiting further instructions from his home.

Rev. Morrison, the new superintendent of Methodist missions in this territory, ably filled the pulpit at the Methodist church yesterday, preaching to interested congregations in the morning and in the evening.

Judge Madden and J. R. McCowan have rented the store formerly occupied by W. K. Franklin, on Gold avenue, and are preparing to open up a new second-hand store in the near future.

MEN MURDERED!

Two Men Assassinated in a Colorado Saloon.

Immense Work of the American Bible Society.

Railroad Roter Denied Appeal by the Supreme Court.

PRESIDENT OF A COLLEGE KILLED.

Walsenburg, Colo., Jan. 3.—Robert Mandoline, proprietor of a saloon at Picton, near here, and Dave Evans were killed by an unknown assassin in Mandoline's saloon. Mandoline was standing behind the bar talking with several men when five shots were fired into the saloon from outside in rapid succession. The first shot struck Mandoline, who fell to the floor, dying instantly. The next shot plunged through the chin of Dick Owens and bored a hole through the head of Dave Evans. Evans fell dead. Immediately after the shooting a man was seen to leave the front of the saloon and run in the direction of the cabins occupied by the Italian miners. This is the only clue the officers have to the identity of the murderer.

College President Assassinated.

Jackson, Miss., Jan. 3.—News has just been received here from the Agona Agricultural and Medical college for colored people near Rodney, Miss., that President E. G. Triplett was shot and fatally wounded last evening while on his way to a prayer meeting, by an unknown assassin.

BIBLE SOCIETY.

Work of the Society in Many Foreign Lands.
New York, Jan. 3.—The work of the American Bible society in foreign lands during the last year involved the expenditure of \$192,392.32 and the circulation of 767,525 volumes of the holy scriptures. Of these more than half, 405,000 volumes were distributed in China, 50,000 in Japan, 57,000 in Levant, 60,000 in South America, 32,000 in Siam and Laos, 33,000 in Mexico and Central America, 40,000 in Russia, 20,000 in France, 12,000 in Spain and Austria, and 10,000 in India, besides smaller numbers in Africa, Micronesia, Arabia and Korea. In accomplishing this work the agents and correspondents of the society employed 392 men, each working on an average more than eight months. It is evident that the distribution of the Bible is of prime importance to all foreign missionary operations; hence the society will issue an appeal to pastors and others that in the special meetings for prayer which are to be held early this month, due emphasis may be laid upon the importance of extending the circulation of the word of God among all nations during the closing years of the nineteenth century and especially in these parts of the world where the Bible is an unknown work.

Gambling in Omaha.

Omaha, Neb., Jan. 3.—As a result of a conference between the chief of police and a number of representative gamblers in Omaha gambling houses on an elaborate scale will shortly be opened. Recently this gambling syndicate offered to contribute \$100,000 to the trans-Mississippi exposition, provided the city offered no objection to gambling houses, but the proposition was not accepted. The conclusion is that the police commission and the gamblers have reached an understanding that they think they will be able to open up at once. The majority of the citizens are opposed to the scheme, though the supreme court has declared the felony penalty connected with gambling to be unconstitutional and this now gives the gamblers what they have been contending for for years.

Appeal Denied by Supreme Court.

Washington, Jan. 3.—In the supreme court today, the appeal of George D. Crossly from the decision of the circuit court for the northern district of California, denying his writ of habeas corpus, was dismissed. Crossly was one of the railroad rioters in California, in the summer of 1895, and was the cause of the death of a railroad engineer by derailing the train.

American Wheelmen.

Philadelphia, Pa., Jan. 3.—The League of American Wheelmen is about 15 years old, and to-day numbers among its members some of the most prominent men of the country, among them being John Wanamaker, of Philadelphia, Rear Admiral Gherardi of the United States navy, Mayor Carter H. Harrison, of Chicago, and G. A. Pillsbury, of Minneapolis. The organization has had a steady growth until to-day it numbers over 102,000 members.

THE FINANCES!

Secretary Gage Commends Report of Monetary Commission.

New Comptroller of Currency Takes Charge of Office.

English Papers Talk About the Partition of the Chinese Empire.

FAMILY DUNKED TO DEATH.

Washington, Jan. 3.—Speaking to-day of the report of the monetary commission for the reform of the currency, Secretary Gage said: "I read the report with great interest and much profit. Avoiding abstract terms, it proceeds in plain, comprehensible language to point out the source of our present financial weakness and the remedies proposed are so clearly set forth that all may understand. The reform measures recommended I regard as well adapted to cure the ills from which we suffer and which threaten our future. I sincerely hope it will bear fruit in legislative action."

Grasping Great Britain.

Manchester, England, Jan. 3.—The Manchester Guardian to-day says: "The government has categorically stated that Great Britain will refuse to recognize any special rights granted to any Chinese port by any particular power. Any port opened to one power must be opened to all, or open to none. If Russia has been granted the right to winter ships at Port Arthur, Great Britain will enforce her rights to the same privileges and her ships will winter there whether China concedes or does not concede the right."

TO PRISON IN CHAINS.

A Hero of the Cuban War in the Darkest Spanish Days.
Barcelona, Jan. 3.—General Ruiz Rivera, the insurgent leader who was captured, badly wounded, in the province of Pinar del Rio by the Spanish troops under General Valasco on March 25, 1897, and who was condemned to death and his sentence modified, has arrived here, and was conducted on foot to his chains to Mont Juich fortress, between lines of soldiers and mounted gendarmes. General Rivera was calm, but he protested against being chained. No one was allowed to speak to him. There was a big crowd in the vicinity, but there were no manifestations.

Family Burned to Death.

Jersey City, N. J., Jan. 3.—Adolph R. Iler, a real estate agent, wife and three children, the youngest 8 years old, were burned to death on Sunday morning in a fire which destroyed their house. Fire Chief Conway fell with the burning floor and was badly burned.

Wages Advanced.

Birmingham, Ala., Jan. 3.—The Corona coal company and the Virginia and Alabama coal company, employing about 1,200 coal miners in Walker county, to-day advanced wages from 40 to 70 cents per ton. The increased demand for coal and need of more labor is the cause of the advance. Other operators are expected to follow suit.

LESS than three years are left of the nineteenth century.

ONLY thirty-five vessels were lost on the great lakes last year.

The Union Pacific committee will not make another payment of \$8,000,000 to the treasury.

The entire population of a christian town in Persia of 800 people are reported massacred by Kurds.

The government is building a gun in Philadelphia that will throw a 2,500-pound shell sixteen miles.

Russia announces that the new ship canal between the Baltic and the Black seas will be completed in 1904.

COLORADO leads the world as a gold producer, a silver producer, a lead producer, and a calumny hawling producer.

The government is paying too much for railway mail transportation, and a big demand is being made for a reduction.

It is reported that the United States is negotiating for a narrow strip of land in northwest Greenland for a naval and coal station.

The president has accepted an invitation to attend the annual encampment of the United Veterans' Union at Rock Island, Ill., next fall.

The Associated Press offers rewards aggregating \$20,000 for the arrest and conviction of any one who steals the telegraph news of the association.

JAPAN will have two large steel cruisers launched from American ship yards within the next few weeks. We may have to sink those same cruisers, yet.

The revenue receipts for December were in excess of government expenditures, and there is assurance that there will be no deficit this year to be covered by bond issues.

For the eleven months ended December 1, 1907, the imports of lemons into the United States were 2,817,000 boxes, as against 2,593,000 for the corresponding period last year.

TEXAS is now furnishing the Spanish army in Cuba with from 500 to 600 head of fat beef cattle each week, but the Texans in the insurgent army on the island still go hungry.

MINNESOTA's practical law for the encouragement of tree planting is drawing attention in other states. Nearly 10,000 acres were planted with young saplings in Minnesota last year.

SPAIN is acting as though nothing less than a war with the United States will satisfy her, and the time is certainly not far away when forbearance will cease to be a virtue on the part of this government.

SOME kinds of labor seem to still command pretty fair wages. Mrs. Adeline Patti has arranged to sing in April in several cities in Sweden. Her fee for each evening's concert will be \$2,775.

The treasury figures show that there has been an increase of nearly \$2 per capita in the money in circulation in the United States during the past year and the farmer's and working man's pockets show even a greater degree of prosperity.

The Pueblo Chieftain gives this good advice: Turn over a new leaf by cutting the acquaintance of any man or woman who expresses continual detraction of the city and its interests, the west and its resources, the neighborhood and its people.

THERE is more idle money in New York looking for investment than ever before in the history of the country, and the amount was increased from \$120,000,000 to \$150,000,000 in interest and dividends on January 1—the largest sum on record.

Russia's census, lately completed, gives a total population of 122,211,114, of whom 94,188,550 live in European Russia. There are nineteen cities in Russia with a population of over 100,000, against twenty-eight of that size in the United States by the census of 1890.

The Denver Times figures out one dozen of Colorado's resources for 1897 as follows: Gold, \$22,000,000; silver, \$12,000,000; lead, \$3,000,000; copper, \$1,000,000; iron, \$4,000,000; coal, \$6,000,000; oil, \$1,500,000; wool, \$500,000; stone, \$800,000; lumber, \$200,000; live stock, \$15,000,000; agriculture and horticulture, \$15,000,000. Then besides the many natural resources it places the manufactures at \$45,000,000.

THE TAX PENALTY.
"The idea that the board of county commissioners shall remit penalties on taxes due and unpaid," says an Edy county paper, "is one of the most unfair and preposterous propositions ever brought up for public consideration. This idea is being advocated by certain papers and people who can have no conception of justice, law, or anything else, except their own pockets. Just because the board of Santa Fe county has agreed to remit 25 per cent of the penalties and

taxes on a batch of old, out-lawed tax claims against personal and real property, due since 1882, and including 1885, cause is said to be given for remitting all penalties. The law does not give the board any right to remit taxes or penalties. If it did, the law would be wrong; for people who pay up promptly would then be induced to withhold payment until the board remitted penalties."

DECEMBER REVENUE.
The revenues of the government for the month of December showed an increase of over \$2,500,000 as compared with those of September, and exceed the total expenditures for the same month by \$1,736,494. The receipts for the month, exclusive of \$3,715,244 received on account of the Union Pacific railroad sale, were \$27,931,494. The expenditures, exclusive of \$900,000 paid out to qualify the government to bid in the case of the sale of mortgage foreclosures of the Kansas Pacific railroad, were \$26,195,000, leaving a surplus for the month of \$1,736,494. The receipts for December, 1897, were \$25,000,000; for December, 1898, \$20,000,000; and for December, 1899, somewhat less than \$20,000,000.

THERE is a strong war feeling in Japan. Fleets of war vessels are being assembled and there is great activity at the military depots. The war party is urging the government and the long-repressed national hatred for Russia is finding expression. Because Japan succeeded in subduing despatch China, it seems to be believed in that empire that the nation is strong enough to try conclusions with powerful and warlike Russia.

The statistics of Canada's foreign trade make an interesting showing. The total imports entered for consumption during the year amounted to \$111,294,072, as against \$140,387,480 the preceding year. Exports amounted to \$133,959,838, an increase of \$17,581,086. There were exported to the United States Canadian products to the value of \$43,991,485, as against \$34,450,428 in 1906-07. Great Britain took \$90,535,852.

The Los Angeles Examiner says: "We learn that the teachers who went to Albuquerque to attend the association this week had to pay for the room in which they met and also for the coal which they used and the janitor for building the fire, and very few of the Albuquerque grade teachers were in attendance at the meetings of the association." There is not a word of truth in the above paragraph.

The police statistics of Paris, just published, enumerate twenty-one murders, by which the assassins averaged \$16, and all the criminals were executed. The largest sum obtained was \$45, although in many cases large sums were overlooked. The conclusion is that murder does not pay from a financial standpoint.

The sleigh in which Emperor Napoleon Bonaparte rode in 1812, while making his escape from Russia after his march to Moscow, was chopped to pieces in Chicago by Mrs. Bruno Gano, who explained that she was "tired of seeing the old thing around." It had been the property of her husband for fifty years.

The Denver Field and Farm grudgingly admits that there are signs of returning prosperity. Calamity is one of the stocks in trade of the Denver papers, and it really seems that they want the country kept in a depressed condition.

ESTIMATES of the cranberry crop for the past year make it the lowest for the last three years. The figures given are: For 1907, 415,000 bushels; 1896, 640,000 bushels; 1894, 1,000,000 bushels.

THE last despairing effort of the democratic party is directed to effect the defeat of Senator Mark Hanna, of Ohio, which at this writing appears to be a signal failure.

The territory of Arizona a few days ago transmitted \$49,875 to New York, which sum is the annual interest on the bonds issued and outstanding by that territory.

ONE of the latest things reported in the eastern newspapers in the way of trusts is a fish trust. It is termed the Gloucester Fish Trust company, of Boston, Mass.

THE Denver Times actually quit howling about calamity last Saturday long enough to publish a handsome colored supplement showing the prosperity of Colorado.

THE Denver Post issued a neat New Year's address, and favored this office with a copy. The Post is one of the most enterprising papers of Denver.

THE Rio Grande Republican says: "THE ALBUQUERQUE CITIZEN last week issued a ten-page edition which was a credit to that office and the territory."

THE CITIZEN believes in reciprocity at home and abroad, and is in better position to help its political friends than ever before.

The weekly newspapers of New Mexico could be greatly improved if they would publish more local news.

NEW PASS RECORD.

The Santa Fe Adopts a System in Use on Eastern Lines.

When the fortunate individuals who are honored with Santa Fe annual passes receive their transportation cardboards this year they also receive a small yellow card bearing on one side the address of General Manager J. J. Frey. On the other side is a request for the signature of the person to whom the pass is issued and the insertion of the number of the pass, with space for both.

The small yellow cards are for the purpose of record, and are to be filed in alphabetical order in the office of General Manager Frey. They inaugurate a new system of recording passes in the Santa Fe, as former records have been kept by entry in notebooks. The system is said to be more convenient, and is in use on many of the large road lines.

CERRILLOS COLLINGS.

Happenings During the Holidays at a Lively Town.

Cerrillos is the only incorporated town in New Mexico free from debt.

The Register made its appearance last Friday. It is a neatly printed paper and deserves a liberal patronage.

Antonio Pillinotto died suddenly on Christmas day of heart disease.

Twenty-five turkeys were the prize in a shooting match Saturday evening.

Prof. James Brydon is principal of the school in Cerrillos. He is ably assisted by Miss Meade, who is teacher of the second grade, and by Miss Fannie McNulty, who is teacher in the primary department. During the last term there were 126 pupils enrolled.

At the Madrid coal mines, three miles from Cerrillos, there are about 400 employees, and the monthly payroll averages about \$15,000 or \$16,000.

At the last election Cerrillos polled 123 votes. It has a population of about 600. The machinery belonging to the smelter at Saultia is being removed to Cerrillos. The smelter at that point was one of the numerous expensive ventures in ore reduction that did not pay.

Rev. Edward Lebrton is the pastor of the Methodist church in Cerrillos, which is composed of forty-four members, with a Sunday school of eighty members.

The Register reports the business of Cerrillos in prosperous circumstances.

The Cerrillos smelter is now practically completed. A few men are employed in putting on the finishing touches.

A PURER ATMOSPHERE.

The Glad Tidings May Be Heralded That San Marcial Is Free From Smallpox.

The greeting of the people of San Marcial to the outside world is in the form of a positive assurance that the scourge, smallpox, has spent its force in this vicinity, and practically no danger is to be apprehended on the score of contagion now or in the immediate future.

Two of the four latest victims of the disease—Mrs. Joe Ray and Ruth Brown—have entirely recovered, although they are still confined to their respective dwellings. The third, and the second last to contract the disease, was Jack Milburn.

It is interesting to note that the original thirteen states, within its limits, of the last of the last, has only a mild form of varioloid, and will soon be again permitted to enjoy the bright sunshine of freedom at his own sweet will.

Next week will no doubt witness the disinterment of the last spot that harbored the disease, and the removal of the last vestige of evidence incidental to the presence and destructive work of the loathsome visitation—San Marcial.

The Weather.

For the month of December, the mean temperature was 34; mean maximum, 45.1; mean minimum, 22.7; mean range, 22.4. The highest temperature occurred on the 1st, 59; the lowest on the 17th and 22d, 15. We had 29 clear days, 4 partly cloudy, and 4 cloudy. The total snowfall for the month was 3 1/2 inches. Prevailing direction of wind was south. On the 12th, there was high wind and dust storm. On the 15th, again high wind and dust storm in the forenoon from the west.

M. C. STEVENS, Observer.

The Birth of the "Greater" New York.

With the dawn of the new year the "Greater" New York is ushered into the world a full grown giant. The problem of municipal government is to be put to the supreme test. Within its limits is contained a population equal to that of thirteen of our sovereign states at our last census, and as numerous as that of the original thirteen states. Provisions for the life and health of this vast multitude of all nations and climes is an unending endeavor. Thousands of sufferers in New York and elsewhere are wrested from the grasp of that agonizing complaint, rheumatism, by the timely use of Dr. Williams' Pink Pills, which is a preventive of malaria and kidney complaint, and a curative of liver complaint, constipation and nervousness.

Two Lives Quietly Ended.

Pedro Delgado, late receiver of the United States land office, and Miss Mary Crouch, both of this city, were quietly married at Guadalupe church on Tuesday morning, by Rev. Peter Gilbertson. Sheriff Hilario Romero and wife stood up with the happy couple, and only the immediate relatives of the contracting parties witnessed the interesting event. Mr. and Mrs. Delgado have rooms in the Delgado home on College street—New Mexican.

Length of Days.

On the first day of the new year, the sun rose at 7:08 and set at 5:36, making the day ten hours and three minutes long. The sun will rise regularly at the same time 7:08 a. m. After this for six days, it will be a minute later than the day before. It will again rise at 7:03. Then the length of the mornings will gradually but continually increase. In the meantime, by the 19th of the month, when the mornings have increased but one minute's length, the evenings will be fully thirteen minutes longer than they are now.

"Salted the Strike."

Charles A. Dwyer, the locator of the reported rich gold strike at Santa Rita, is now behind the bars in the Grant county jail. He came to from Santa Rita last week and moved a wide swath for a time, winding up his brilliant career by passing several checks without having a cent on deposit to make them good. He will have his preliminary examination Tuesday. The Silver City Enterprise is also informed that his big strike at Santa Rita is a fake and that he salted the samples which were taken from the mine.

OR for Klondike.

R. S. Philpot, who is interested in some of the best mining claims and most valuable real estate in this district, writes Mrs. Philpot, Bland's very efficient postmaster, that he will leave Los Angeles to-morrow with a party bound for Klondike, says the Herald. They go by rail-road to San Francisco, thence by steamer to Juneau, where they will remain until the first opportunity presents with the opening of spring to push on to the Klondike gold fields.

Mrs. Philpot has been identified with the Cochiti mining district since its inception as an energetic and enterprising citizen, ever working for the interests and welfare at considerable personal ex-

pense. Some three years ago he was in business here with M. L. Chase, who is at present connected with a large mercantile house in Williams, Arizona. Since going out of business Mr. Philpot has been carrying on mining and has acquired the controlling interest in several exceedingly valuable properties, among which are the Teabell, north on the Alameda river, the Red Cloud, Ansett, Henry B., Annette and B. N. Mines. A quit claim deed to these properties has lately been transferred by Mr. Philpot to his estimable wife, who, for the past two years has given entire satisfaction as the postmaster of Bland.

There is not a friend in Bland who does not hope that Mr. Philpot may return from the Klondike loaded with riches, and in this, the Herald most heartily joins.

The Coming Woman.

Who goes to the club while her husband tends the baby, as well as the good old-fashioned woman who looks after her home, will both at times get run down in health. They will be troubled with loss of appetite, headaches, sleeplessness, fainting or dizzy spells. The most wonderful remedy for these women is Kleenre. Thousands of sufferers from these ailments and weak kidneys rise up and call it blessed. It is the medicine for women. Female complaints and nervous troubles of all kinds are soon relieved by the use of Kleenre. Bitters. Delicate women should keep this remedy on hand to build up the system. Only 50 cents per bottle. TO REGULATE SWITCHES.

Interlocking System and Semaphore Being Put in by Santa Fe.

The work on the new interlocking switches and semaphore that are to regulate the switches on the main line and the St. Joe line, is going on rapidly, says the Topoka State Journal. The semaphore at Third street has been placed in position and the stakes to carry the semaphore wire are in position. The rods that connect the semaphores with the levers are being put in readiness to be connected, and in a few days the new mode of throwing the switches will be ready for use.

The gate that has been used to keep the main track clear will be done away with and the interlocking switches will be worked in conjunction with the semaphores from a small house near the crossing of the main line track and the yard tracks.

THE WILLIES' ENTERTAINMENT.

Large Audience in Attendance Gives It Unqualified Praise.

A large audience greeted the Willies in their entertainment last Saturday night. It is seldom indeed that a home talent entertainment wins such universal and unstinted praise as that showered upon the Willies by every person in their large audience.

The program was opened with two selections from the Willies' repertoire, which were well received and proved to be a good indicator of the excellence of the program which was to follow.

"The Mariner," sung by Miss Edna Albright, W. E. Harper and P. P. Bliss, was greeted with a tremendous outburst of applause, which failed, however, to prevent a second appearance of the sweet singers.

Prof. Di Mauro next played a beautiful violin solo, and was followed by Piusini's sweet Aura, which was sung by Miss Albright and Mr. Harper. The orchestra rendered two more selections, and the first part of the program was finished.

"Rooney's Restaurant" proved to be one of the most popular burlesques ever given in this city.

J. R. O'Reilly acted the part of a gentleman of color to perfection, and his jig dancing brought down the house. Tom Wilkerson, as the duke; Miss Grace Hawkins, as an old maid; M. M. Cruise, as John Fearful; Frank Lee, as Pat Rooney, and Ed. Pickard as Reckless Ralph, acted their parts remarkably well and proved that no mistake had been made in the selection of persons to impersonate the different characters.

The entertainment proved a success financially as well as every other way and the Willies are receiving congratulations from all their friends.

A New County.

It is patent to the most casual observer that the people in the eastern half of Dona Ana county have been and are suffering great injustices from being compelled to come to Las Cruces on all matters pertaining to county affairs and judicial business. It is a source of considerable expense to them, as well as a great hardship. The distance is about 100 miles, extending over one of the worst parts of New Mexico.

That Dona Ana county should be divided and a new county created from the eastern half is an apparent necessity. It is recognized by a large majority of the people in the western half of the county that it is needed, and it is wanted by all those who reside in the eastern half—Dona County Republican.

Don Graciano Dam Case.

Chief Justice Smith has written a strong opinion representing the unanimous sentiment of the supreme court in the Rio Grande dam case. As soon as the other justices affix their signatures it will become a matter of official record. The opinion is now in Judge Hamilton's hands, having already been signed by Judge Laughlin. No one questions but that the supreme court of the land will sustain the decision of the territorial courts on the important question of the rights of our people to use the waters of the Rio Grande for irrigation and domestic purposes.

Miss Anita Rodriguez, of the Harwood home for girls in this city, spent the holidays in Las Cruces.

WHITE OAKS.

Incidents of a Week in the Prosperous Gold Camp.

From the Eagle.
The planing mill has been running this week, sawing wedges for the Abe shaft timberings.

It is Timoney who want to work recently on the Boston Bay, doing assessment for W. E. Blanchard.

Mr. Stonerod is hauling mining timbers to the Abe. He has a contract to deliver the company 50,000 feet.

The old Abe shaft is 755 feet deep, and the forces are sinking on an average of five feet a day. At this rate, the shaft will be completed between the 7th and 10th of next month.

The L. O. O. F. lodge held a meeting Tuesday evening and elected the following officers for the ensuing six months: Wm. N. Lane, N. G.; H. E. Comery, V. G.; E. G. F. Uebler, secretary; J. C. Lepinger, treasurer.

James Woodland is here from the Carrizozo ranch. James is just recovering from a number of painful cuts and bruises received ten days ago by a ton or more of baled hay sliding off from his wagon, throwing him under the heels of his mules.

John A. Brown has secured from John J. Hewitt the store room adjoining Weiner on the east, formerly occupied by A. Higway, and is fitting it up preparatory to moving the postoffice into it the first of the month. A more suitable location could not have been selected.

The firm of Tallafiero Bros. has this week been metamorphosed into a stock company, Stanley retiring from a business situation in Illinois which has been open for him, and also which he has been repeatedly urged to accept for several months past. The names of the incorporators of the new company are as follows: James Tallafiero, John Canning, George E. Sligh, Albert Collier, and Joseph Spencer—all enterprising and thorough business men.

Ferguson Mining Bill.
It appears that my effort in your last issue, solely intended as a word of caution to those who are intent upon a general confiscation of private property, has been construed as a mere assertion of what—to use the language of my extended friends of the Democrat—I knew to be unfair.

They claim that I asserted that the friends of Delegate Ferguson's bill contended that Spain, and afterwards Mexico, invariably reserved all mineral in New Mexico as crown and government sources of revenue. To prove that I made no such assertion it is only necessary to refer to my exact language, to wit: "Now, in the opinion of many of our constitutional lawyers, can any such distinction be lawfully made." The latter, referring to the lawyers and not to the friends of the Ferguson bill—contend, etc.

The grand rush that I made into print, which expression is generally made use of when argument is lacking with newspaper disputants, is not with a "tackle" or "quarter-back" that would, in the parlance of the football fraternity, be set down as an egregious error.

The Democrat is also in error when it asserts that "in a majority of Spanish grants the underlying mineral, as well as the surface ground, was transferred to the owner of the grant." This is incorrect, at least so far as New Mexico is concerned.

With the above comments I will let the latter rest and charge no misrepresentation on the part of the genial editor after referred to, only ascribing it to the convivial conditions usually prevailing during Christmas holidays.

A. W. HARRIS.
POSTAL RED TAPE.

Why Registered Mail is Delayed in this Territory.

In the Albuquerque postoffice last week there were at one time seventy-five registered packages destined for Santa Fe. The postoffice force there could not, or at least did not attempt, to handle the registered mail promptly. Some of it lay there three days before forwarded to its destination. This congestion of registered mail at Albuquerque is not altogether due to large amount of registered business that naturally goes through the Albuquerque postoffice. It is largely traceable to Uncle Sam's red tape. Of the excellence of the postal system much has been truthfully written. But some parts of this system might be improved, and the registry system is one of them.

For instance, there is no earthly reason or sense in requiring a registered letter for eastern points, mailed at Cerrillos, to be sent fifty miles in the opposite direction, to Albuquerque, before starting on its journey. The system of having registered mail for the east travel from Cerrillos to Albuquerque delays it not less than twenty-seven hours, and in some instances, as was the case last week, as much as four days.

We do not believe that it can be established as a fact that the system of having eastern registered mail sent fifty miles in the wrong direction contributes anything to its safety or sure delivery.

A. S. Murray and Wife

Restored to Health by Dr. Miles' Restorative Nervine.

M. S. MURRAY, engineer for Keet & Rountree Mercantile Co., Springfield, Mo., writes: "I suffered from dyspepsia, was unable to eat anything without severe distress. Treated by several physicians without benefit. I became almost a physical wreck and unable to attend to my work. I took Dr. Miles' Restorative Nervine and in six weeks I was well. My wife had a severe attack of La Grippe which brought on troubles peculiar to her sex. The Restorative Nervine is the only thing that has helped her. We both hope you will use this in a way to help others as we have been."

"TENNESSEE'S PARTNER."

A Big Show Coming to the Opera House on Thursday Night.

The humble romance of the mining camp, the temptations and struggles in the night for Mother Earth's treasures, never fail of fascination to the reader and play-goer. "Tennessee's Partner," which appears at Grant's opera house, Thursday, January 6, 1905, contains all these elements of interest. Built from suggestions found in Bret Harte's great story of the same name, it is the same production which turned people away from the Boston Museum at every performance two years ago. Since then it has filled the biggest houses of the east and west, scoring one of the few conspicuous triumphs of presidential election season, when stage prosperity is rare indeed. The Chicago Tribune characterizes it as "a pure Hartian romance, stronger in action and infinitely more consonant in the phase of life it depicts than 'Rags,' while it has all the latter's delicacy and richness of character." The company is an unusually powerful one, including James M. Brophy, Percy Plunkett, O. H. Barr, Frank H. Kelly, Walter Ryder, Marion Robinson, Leon Parnet, Annie Morimer, Jane Corcoran and Ruth Williams.

THE RAILROADS.

Inspector Cate Selvy, of the Santa Fe Pacific, has his name on the Highland register and is in the city today.

The Illinois Central has an excellent system of checking baggage, but what Chicago wants is a system for checking the Illinois Central.

The Wells & French company, of Chicago, has an order from the Santa Fe Pacific for 250 thirty-six feet, latest model refrigerator cars.

The first eighty-five miles of the White Oaks road will be built of timber from eastern Texas, the balance to be brought from the Sacramento mountains.

The schedule time of the Santa Fe Road is now thirty miles a hour, including stops, the running speed of the passenger trains being forty-five miles an hour.

It is reported that the Burlington will reduce the running time of its fast train between Denver and Chicago to twenty-four or twenty-six hours in the spring.

A material reduction is to be made in the Santa Fe telegraph department by January 15. The force is at present the largest in the history of the road, due to the enormous traffic of the past several months.

Conductor C. H. Daseom, accompanied by his little daughter, returned from California last night. Mr. Daseom will resume his passenger run in a few days, and is for the present comfortably located at the Highland.

George W. Simpson, president of the Fort Worth stock yards, has been appointed by President McKinley special food commissioner to the island of Cuba, on the recommendation of the secretary of agriculture.

The Chicago & Northwestern railway company has just issued a new blanket mortgage for \$165,000,000 to take up all its outstanding bonds, amounting to \$114,302,000, and to secure funds for needed extensions.

Knorr's reductions in passenger and freight tariffs are reported to have taken place in Russia since the government took charge of nearly all the railways in that empire in 1902, while the number and speed of trains have been greatly increased.

The car works company at Terre Haute has received orders for 800 cars for the Chicago & Northwestern and the Iowa Central, and soon after the first of the month between 700 and 1,000 men will be at work as compared with an average of 200 since 1902.

The ninth annual report of the statistics of railways in the United States, prepared by the statistician of the interstate commerce commission, has been issued, and it shows that the mileage on June 30, 1904, was 132,776.93 miles, which was an increase of 1,119.16 as compared with the previous year.

The Chicago & Northwestern railroad has filed a mortgage for \$165,000,000 in favor of the United States Trust company of New York. It covers all the property of the company and is given for the purpose of extinguishing outstanding bonds of the company amounting to \$114,302,000.

The figures compiled by the Railroad Gazette show that the new railroads built in the United States in the year amounted to about 1,538 miles. These figures are partly estimated, and are subject to small correction. The new railroads built in the year 1896 were 1,967 miles and in the year 1895 1,922 miles.

joyed the holidays with her parents. The young lady resumed her studies at the Sisters' academy this morning. Mr. Otero made a pleasant call at this office this afternoon, and stated that his section of Valencia county was in a prosperous condition and all the ranchmen and farmers, owing to the prevailing good times, were meeting their debts and mortgage obligations. The gentleman returns to Cuba this evening.

L. D. Bartlett, for years the boss painter at the local railway shops, left last night for Los Angeles, he being transferred to the California shops. Several friends were at the depot to see him safely on the train. Mrs. Bartlett and children will remain in the city until Mr. Bartlett secures a comfortable house for them in Los Angeles. They are most excellent people, old residents of this city, and THE CITIZEN regrets their departure.

In a note to THE CITIZEN, Mrs. Ella G. Shields states that she enjoyed a splendid vacation among relatives and friends of Illinois and Kansas, but "the weather was beastly—cloudy, muddy, sleety and cold enough to freeze your bones!" The lady is now at Wichita, Kansas, and will remain there until January 15, when she goes on the road to travel.

James Devine, the First Regiment band leader, returned to Phoenix last night, to resume his old position as band teacher at the government Indian school there. Mr. Devine came in from Phoenix about two weeks ago, but there was not enough money here, so he returned west.

John T. Barracough, of the popular hardware firm of E. J. Post & Co., is in the city from Oakland, Cal., and will remain here several weeks. Mr. Barracough states that California is suffering for want of rain, the rainy season now being behind about two months.

CONTINUATION OF SPECIAL SALE

FOR ONE WEEK LONGER!

Until Saturday, Jan. 8, Inclusive

Ladies' Capes and Jackets—We still have an immense stock of these goods on hand. We don't want to keep one over. There is only one way to gain this end—Cut the Price. We're doing this with vim. Capes worth \$2, now \$1.25; capes worth \$5, now \$3.50; capes worth \$8, now \$4.50; jackets worth \$8, now \$5.50; jackets worth \$10, now \$6.50. We are not giving fictional values on the goods, but prices at which they sold.

Ladies' Kid Gloves—We have been selling them for \$1.35 to introduce them. They are splendid \$1.50 value. Your money back if they burst. During this sale at \$1 per pair.

Underwear—For the whole family, 20 per cent off our regular prices. These regular prices must have been way down, judging by the underwear we sold, and the public's verdict of same. This brings our \$1.50 garments to \$1.20; our \$1.25 garments to \$1; our \$1.50 garments to 75¢; our 75¢ garments to 60¢; our 50¢ garments to 35¢. And others at a low rate.

Ladies' Belts, Pocket Books, Linen and Silk Handkerchiefs at equally reduced prices. White Hemstitched and Scaloped Handkerchiefs at 3 for 25¢.

Dress Skirts—Cut right, lined right, sewed right, and bought right. All these qualities combine to make it an easy matter for us to sell them right, at all times, and sometimes to make people wonder how we can sell them so cheap. This is to be one of these times. Remember, this is not a money-making scheme, but a closing out affair. Ladies' skirts worth \$2, now \$1.15; ladies' skirts worth \$2.50, now \$1.50; ladies' skirts worth \$3.50, now \$2.25; ladies' skirts worth \$5.50, now \$3.75.

Ladies' woolen and silk waists at prices that will close them out for us.

Dress Goods—There is nothing more appropriate or acceptable for a Christmas Gift than a nice dress pattern. We have a limitless assortment of these goods at a most varied range of prices. Dress goods worth 25¢, now 17½¢; dress goods worth 50¢, now 35¢; novelty goods worth 75¢, now 47¢; all wool ladies' cloth, 55 in. wide, worth 55¢, now 35¢; dress patterns worth \$7, now \$4.25; dress patterns worth \$9, now \$5.75; dress patterns worth \$12, now \$7.25. Many more equally good values too numerous to mention.

G. Hill Howard, the land court lawyer, is in the city from Santa Fe.

William McIntosh, the Chilli sheep raiser, is in the city on a visit to friends.

Miss Maud Summers is now occupying a desk in the county clerk's office, assisting in cleaning up the rush of work which has accumulated.

G. E. Crawford, the "Big Injun" base ball player, who came in from Santa Fe before Christmas to enjoy the holidays here, is still in the metropolis.

There will be a business meeting of the Ladies' Aid society of the Presbyterian church on Tuesday afternoon, at 2:30, at Mrs. Nelson's, 409 South Arno street.

Rev. H. Evans, an evangelist from Denver, is in the city to remain a short time. He is a friend of Rev. Craig, the apostolic missionary of the Presbyterian church.

Rev. B. O. Hill, of Smithsburg, Maryland, came in from the north last night, and is at Sturges' European. He is a health seeker, and was met at the depot by W. W. McClinton.

Edward and David Rosenwald, two bright young business gentlemen, met at the depot last Saturday night their friend Leo J. Strauss, who was returning from the south to Santa Fe.

Rev. H. P. Doane, who arrived here sometime ago from Minnesota, was made glad last Saturday night by the arrival of his wife and children. They will remain here indefinitely.

Ed. Dodd, of the firm of Dodd & Lemke, contractors, left last night for Bagdad, for the purpose of plastering half a dozen cottages for the Santa Fe Pacific road. John Conlodon, Ed. Cooper and three other plasterers left for the west with Mr. Dodd.

Miss Coltrane, principal of the Second ward school, was called by telegram last night to the bedside of her dying mother, at Lawrence, Kansas. The lady left on No. 2, shortly after she received the telegram. In her absence Miss Keepers will act as principal and Miss Alger as substitute teacher.

Mrs. Mollie Woodward and daughter, Mrs. Long, and Miss Sallie Woodward reached the city from Denton, Texas, last Friday night. A short time before J. O. McCormick and wife, the latter in

poor health, who is also a daughter of Mrs. Woodward, came in from Los Vegas. Last night the party left for Denton, Texas, the mother contending that the atmosphere here was a little bit too cold for her sick daughter, Mrs. McCormick.

W. H. Lord, of Burlingame, Kansas, reached the city last Saturday night and registered at the Grand Central. He left this morning for El Paso on some stock business, and will return to the city on Wednesday. Mr. Lord is a brother of F. S. Lord, the cattleman who had his leg broken in the buggy mishap which occurred a few days ago to Ed. Proper. The injured leg is reported to be knitting nicely.

Charles Kennedy came in from Flagstaff, where he is superintending a big tie contract from the Arizona Lumber company for the Santa Fe Pacific road. The gentleman wants a few more tie workers, and will leave to-night for Cerrillos, where about a hundred men await his coming. He will return to-morrow night, and with the men proceed west to Flagstaff.

Wallace Wood, of Fall River, Mass., arrived last night. The young gentleman is an nephew of Mrs. Thomas J. Sherwood, and the Albuquerque relatives were at the depot to welcome him.

Mrs. Renner, who was at Cerrillos on a visit to her daughter, Mrs. Davis, returned to the city last night, being met at the depot by Miss Edith Renner.

On account of big business last week we were unable to take inventory. We will continue our inventory sale this week. Remember, this is positively the last week to get the benefit of the very low prices. Golden Rule Dry Goods company.
