## THE REPORT OF MAJORITY

**Shows Bad Doings, But Still Attempts to Exonerate**

**THE MANAGEMENT FROM CRUELTY**

**There is a Censure in the Mary Leonard Case, Which Needed Investigation.**

Las Vegas, June 29, 1903.

To the Hon. Miguel A. Otero, governor of New Mexico, Santa Fe, New Mexico.

Sir: The committee to investigate the territorial insane asylum, appointed by your official order on the 9th instant respectfully submits the following report of its proceedings and findings.

The committee was organized by the selection of Mr. H. J. Palen as chairman on the 15th instant, the day designated in your official notice to the members for the meeting of the committee, and the necessary steps were taken to give the utmost publicity possible to the manner of procedure to be observed in the investigation by public notice in the newspapers at Las Vegas and by formal subpoena to all witnesses whose names could be ascertained by the committee or were furnished by the representatives of the parties who had been instrumental in procuring and publishing details of the alleged mismanagement of the asylum. Steps were also taken in all cases to procure the attendance of absent witnesses, and in this particular the board of regents of the asylum heartily cooperated with the committee by paying all expenses and transportation of such witnesses, and extending every facility to your committee for procuring their attendance.

Request was made of your committee by representatives of the parties making the charges to be present in person or by attorney, which was granted, and during the greater part of our sessions they were so represented. A similar privilege was granted the board of directors of the asylum and exercised by them. Five full days, with long sessions open to the public, were given to the hearing of the testimony attached to this report.

Before proceeding to take the testimony, your committee made a careful and thorough inspection of the asylum and thoroughly looked into all the methods used by the officials in the command and management of the patients and in the discharge of the general affairs of the asylum, and the asylum appeared to be in the most excellent condition, and its affairs judiciously and properly managed. Perfect cleanliness prevailed, there was an entire absence of repulsive features, the patients appeared to be as well cared for and under as little restraint, as was compatible with their mental condition and it was a matter of surprise to the committee that so satisfactory condition of affairs should exist with so little appearance of the exertion of force or restraint. The patients appeared to be well nourished and your committee saw nothing in the course of its inspection meriting criticism or unfavorable comment.

We found that the charges against the asylum might be conveniently divided for the purpose of our report under the following heads:

First. Quantity and quality of the food furnished the patients and whether the patients were subjected to any deprivation of food as a punishment.

Second. Work, whether the work required by the patients was of an excessive character and what was the effect on them of such work as was required or permitted.

Third. Cruel and inhuman treatment. Male ward—The so-called Ferris wheel baths; the use of the gag; the dip and shower baths; strapping to the doors, and other unnecessary restraint; blows or kicks inflicted on patients.

Female ward—Striking, kicking, choking patients; throwing them violently to the floor; dragging them by the hair or ears; subjecting patients to unnecessary exertions when in an enfeebled condition; strapping them to the floor; whether there was failure

to guard against unnecessary exposure to cold of patients confined in cells; the use of baths, dip and shower.

Fourth. Desecration of the bodies of the dead.

Fifth. The Dr. Mohlau case.

Sixth. The alleged mismanagement and misconduct of the officials in charge.

(a) Board of regents.  
(b) Medical superintendent.  
(c) Steward.  
(d) Matron.  
(e) Attendants.

**Findings on Charges as Classified.**

First. Your committee finds that the quantity of food furnished the patients is and was ample; that its quality was good and wholesome, and that patients have not been deprived of food as a punishment.

Second. Work. Your committee finds the work required of or permitted to the patients, was not excessive, and in the opinion of your committee such work as has been or is required or permitted is beneficial to them and results in the alleviation of their misfortunes.

Third. Cruel and inhuman treatment. Male ward.

The Ferris wheel bath. Your committee finds that there has been an unauthorized use of this form of bath by the attendants, through several years and quite recently. This form of bath is substantially the same as to the position of the patient immediately prior to its administration, as what is known as "bucking;" the patient's wrists are fastened together, and the arms drawn down over the bended knees, beneath the knee, and above the flexure of the elbow, and between the two, a broom stick is inserted; in this condition the patient is placed across a partially filled bath tub; the stick resting on the sides of the tub, or held by the attendants, and then the patient is rocked backward and forward, from one to five times.

The use of the gag—Your committee finds that there was an unauthorized use of the gag in two or three instances; also that the tub was used by attendants and that on one or two occasions the head of the patient was dipped under the water by the attendants; also that the shower bath was used in several instances, as punishment.

Beating and kicking patients.—In one instance in the male ward, an attendant, one, R. L. Dorbrandt, admitted having knocked down and kicked on the neck, a violent patient; but claimed that this action was necessary to save his own life; and another attendant, testified that Dorbrandt had on another occasion kicked a patient three times in the stomach. In another instance in the male ward, an attendant, who inflicted bruises and cuts on the head of a violent patient, with a lantern, in order as he claimed to save the attendant's life, was discharged.

These were the only instances of striking, kicking and beating in the male ward, brought to our attention.

Female ward.—Your committee finds that there was no beating, striking or choking of the female patients, and no unnecessary violence used in throwing them to the floor; nor were they dragged by the hair or ears; nor were enfeebled patients subjected to improper exertions. They were occasionally strapped to the door as a proper measure of restraint, but without unnecessary violence.

Your committee finds that the patient, Felicitia, was confined to her cell between the hours of perhaps, 6:30 and 8 o'clock p. m., for the reason that her mania was of a character that caused her to beat the walls and tear her clothing, making it impossible to keep her properly clothed. In view of the fact that she was tied to the bed at different times during the day that

she might not die from exhaustion, consequent upon her exertions, she was not put to bed until about 8:30 p. m., and for an hour and a half prior thereto she was strapped to the cell door by a strap sufficiently loose to admit of her standing up. The testimony also shows that the window was left open, but from the nature of the evidence, we cannot say whether it was cold enough to be prejudicial to her health. This was not done as a punishment, but merely as a means of restraint. The evidence goes to show that those in authority were unaware of the fact that the window was left open, and it was never reported to the management. This occurred in the month of October.

Your committee finds that dip baths were given four times, under the direction of the medical superintendent, and with beneficial results.

Fourth. Desecration of Bodies of the Dead. Mary Leonard Case. Mary Leonard was a patient from Dona Ana county; she remained in the asylum a number of months, during which time she received no communication from relatives or friends. The story had been circulated in Las Vegas that she was pregnant, and there were some symptoms of pregnancy. In order to determine the matter definitely, after her death, Dr. Tipton decided to hold a necropsy, which was held, and demonstrated that she was not pregnant.

The asylum had long been in need of a skeleton for use as a guide in special dissections, which were necessary in the opinion of the medical superintendent, to be made for the furtherance of the work in the asylum.

## NAVAJOS VS. PUEBLOS.

**They Engaged in a Battle and the Pueblos Came Out Victorious.**

### FINDING OF A DEAD BODY.

Special to The Citizen.

Laguna, N. M., June 30.—Some Navajo Indians on the night of June 24 went to the Paguate Indian pueblo and a bloody fight followed.

The Navajos were intoxicated and rode into the Paguate Indian pueblo with the intention of wiping the village off the earth. Their Paguate brothers fought like demons, and the Navajos retreated after all kinds of threats had been made.

Yesterday afternoon the body of Jos Ensino, an Indian of some wealth, was found at the bottom of a deep arroyo three miles from Laguna. The body was all marked up, it having been beat with stones and clubs. The trail leading up to the arroyo showed that the murdered man had been riding with two others, and if they were from Laguna, they were probably dealt with in the same manner. Ensino had been missing since June 26, and hundreds of his friends have been searching for him. His horse returned with the saddle covered with blood. The Indians here are excited up to the upper notch and they blame the Navajos and swear they will have revenge.

There has been bad blood between these two Indian tribes for a long time. There are no new facts in the case up to this afternoon.

### Sued for Debt.

New York, June 30.—The ship Young America, which is being built in the Perth Amboy shipyards for the Nautical preparatory school of Rhode Island has been seized by the sheriff of Middlesex county, N. J., on attachment for \$4,800 procured by the designer of the vessel.

### Correy Appointed Assistant.

New York, June 30.—William Correy of Pittsburg, president of the Carnegie Steel company, was today made assistant to the president of the United States Steel corporation. The official statement says: "Correy is to perform the active duties of the president."

### Texas Official Assassinated.

Austin, June 30.—State Comptroller R. M. Love was assassinated in his office in the state capitol at 10:30 this morning by W. C. Hill, a discharged employe of the office. No cause for the deed is known at this time.

W. C. Hill, assassin of Love, committed suicide immediately after the shooting.

## HARMONY IN IOWA

**Republicans Are at Peace in the Hawkeye State.**

### SENSATIONAL BREAK IN COTTON

**President Roosevelt Will Witness International Yacht Race.**

### SHERIFF SHOT WHILE RESISTING A MOB

Des Moines, Iowa, June 30.—

Predictions made today were that the republican state convention which will convene here at 11 o'clock tomorrow morning will be the shortest ever held in the state. It is expected that the convention will adjourn by 4 o'clock tomorrow afternoon. A full state ticket will be nominated. The platform has evidently been agreed upon as regards the tariff. It is known that the words that were most objectionable in the platform to the "stand patters" will be omitted.

Hon. George D. Perkins of Sioux City will be temporary chairman. The Cummins men are bringing forward M. E. Kendall for permanent chairman, and he may be chosen.

There is no particular friction between the factions.

### BREAK IN COTTON.

Big Drop in the Price of Cotton in New York City.

New York, June 30.—A sensational break occurred in cotton this morning. July contracts broke 58 points and August 34.

For a long time such a decline has been predicted and various stories were in circulation in explanation of the remarkable losses. One was to the effect that there were internal dissensions in the pool ranks, and another that a certain element of the New Orleans contingent was "leaking cotton." After the first rush of liquidation, however, there was a partial rally on renewed evidences of clique support, but the market remained very nervous.

## THE GRIM REAPER

**Carries Off Two Prominent Men Last Evening to the Great Beyond.**

### THEIR LIFE'S WORK DONE.

Captain Vose.

Another old settler of Albuquerque in the person of Captain Rufus C. Vose has passed over the great divide into the mystery of the great beyond.

The captain died about 8 o'clock last evening at the home of his brother in law, Charles H. Kimball, on Harrison avenue. He had been ill a short time and the cause of his demise was a nervous trouble. He was 65 years old and came to Albuquerque from Lake City, Colo., in the 70s, and ever since then he was always for Albuquerque in everything that would tend to uphold and advance the interest of the city and her people.

The deceased was the first hardware merchant in Old Albuquerque, but of late years he has been in the real estate business on the Pacific coast and in Colorado.

He was a civil war veteran and served as a volunteer from California. He was a member of the Grand Army and Loyal Legion. Old timers remember the captain and have nothing but words of praise for him and say a good man has gone to his reward. He is survived by his oldest brother, George T. Vose of Oakland, Cal., and Mrs. Draper. The coo ascended Mrs. Hind all returned to this city a few weeks ago.

The funeral services will be in charge of the Masonic fraternity. There will be a short service at the house tomorrow morning at 9:30, conducted by Rev. W. D. Clayton, after which the Masonic bodies will escort the body to the Fairview cemetery.

where the Masonic funeral services will be held. The body will be buried in the Masonic plot, the O. W. Strong's Sons being in charge.

Peace to his captain's ashes.

Attention, Sir Knights. You are requested to assemble at the asylum at 9 a. m. tomorrow morning to attend Sir Knight R. C. Vose's funeral.

J. BORRADAILE, E. C.  
L. H. CHAMBERLIN, Sec. Recorder.  
Masonic Notice.

A special communication of Temple Lodge No. 6 will be held on Wednesday, July 1, at 8:45 o'clock in the forenoon, for the purpose of attending the funeral of Brother Rufus C. Vose. By order of the W. M., Robert Abraham Secretary.

### Attorney M. R. Downs.

Consumption, the "white curse," claimed Milton R. Downs last night at 6 o'clock at his home on New York avenue.

The deceased was 46 years old, and had lived here the past seven months with his family, coming from Kansas City, where he gave up his law practice. He came too late to the great sunshine land to reap any benefit, and last night as the sun was going down he passed into the presence of his Maker.

His body was taken in charge by J. W. Edwards, the undertaker, and is to be shipped to St. Louis, where it will be cremated, and the ashes will then be taken to Kansas City and buried.

Before his death Mr. Downs directed this to be done, and his wishes will be carried out. He is survived by a wife and son.

## OFF FOR WASHINGTON.

**Pueblo Indian Governors Will Consult Commissioner Indian Affairs.**

### PABLO ABETIA WILL PRESENT CASE.

Juan Domingo Abetia, governor of the Indian village of Isleta, and his secretary of state, Pablo Abetia, with Vigil ntonio, governor of the village Sandia, left for Washington this morning, where they will hold a conference with the commissioner of Indian affairs relative to some land matters in which the Pueblo Indians, especially of the two villages named, are vitally interested. Pablo Abetia, who is a well educated Indian, and can talk English fluently, will present their side of the case to the commissioner of Indian affairs. Marcelino Abetia, who is a brother of Pablo, the governor not being related, accompanied the party to this city from Isleta this morning, and saw them safe on the train for Washington. They will be absent from the territory about three weeks.

### ROOSEVELT WILL CHEER.

President Will Witness the International Yacht Race.

Oyster Bay, June 30.—President Roosevelt has expressed his intention to witness the international yacht race between the Reliance and Shamrock III, to be sailed on August 20. He will go to the course on the Mayflower. Sir Thomas Lipton recently extended an invitation to witness the races from his yacht, the Erin, but the president felt obliged to decline.

Governor Hunt of Porto Rico, Senator Long of Kansas and former Postmaster General Bissell arrived here today and were the president's guests at luncheon.

### SHERIFF SHOT.

He Tried to Defend a Prisoner Against a Mob.

Scottsboro, Ala., June 30.—A mob of fifty marched from Larkinsville last night and took Andrew Diggs, colored, from jail and thence to the woods to be lynched. Diggs had been arrested for assaulting Miss Alma Smith (white) at Larkinsville last Sunday night, and brought here for safe keeping. Sheriff Austin resisted the mob with his life until he was shot down and the keys taken from him.

### American War Ships.

Kiel, June 30.—The United States squadron sailed at 6 p. m. today from Kiel, all the German ships saluting and the Americans responding. The squadron will stop at Hallundberg, Denmark, for two days and arrive at Portsmouth July 7.

## THE REPORT OF E. V. CHAVES

**He Begs Leave to Differ in Asylum Matter.**

**CERTAIN THINGS HE DOES NOT LIKE**

**He Believes Treatment of Male and Female Patients to Have Been Harsh.**

To the Hon. Miguel A. Otero, governor of New Mexico, Santa Fe, New Mexico.

Sir: As one of the members of the

committee appointed by you to investigate the insane asylum of New Mexico upon charges made against its management and not being able on certain important particulars to agree with the majority of said committee, I respectfully submit, this, my individual report of my findings and conclusions in regard to the management of said institution.

As stated in the report of the majority, the committee in its sessions allowed all the latitude possible to those who were preferring charges against the management of the institution, as well as to the management itself, with the view of having as full and complete an investigation as could be made in accordance with your instructions, and the investigation, which was conducted in a public manner, was not closed until all parties had presented all the evidence that they desired to present.

From a deliberate and full consideration of the very voluminous evidence which was submitted, I find:

1. That the asylum is kept in a neat condition, the rooms of the patients and the surroundings of the institution being cleanly and properly attended to.

2. That the patients are given good and sufficient food, having well appointed kitchen and dining rooms for males and females.

3. That, although some of the patients have been made to work for long hours at a time, yet the work rather than being detrimental, is of a beneficial character, both physically and mentally.

4. In the male department the evidence has conclusively established the fact that some of the patients were treated to a certain unknown and unusual way of bathing, known as the "Ferris wheel bath." This is done by stripping the patients, tying their wrists together, with a towel generally, then slipping the hands thus tied over the bended knees, allowing the knees to stick up through the wrists, then a broom stick or some other similar stick heavy enough to support the full weight of the patient is run through between the flexure of the knees and elbows; the patient is thus put in a tub of cold water with both sides of the stick either resting on the sides of the tub, or held by two men (generally attendants), and while the patient is thus suspended upon this stick he is given from one to several turns in the water, in the manner as if he were a wheel.

5. That on several occasions the gag was used. This gag was introduced in evidence, and consists of a piece of hard wood about from three to four inches long by about an inch wide, except that in the center it has a piece projecting out which is inserted in the mouth and then tied back of the head by two pieces of string, which it has at both ends. It has been used by some of the attendants to prevent patients from talking too much, and as a means of punishment.

6. That cold water tub and plunge baths have been administered to patients by attendants, sometimes tying the patient's hands and ducking the head in the water, and at the same time lifting the feet above the water. In one case a patient was thrown in a tub of cold water with his clothes on. The cold water shower bath was also used frequently to quiet patients, and as a means of punishment, because the patient had done some things which the attendants did not approve of.

In the male department there is not sufficient evidence to satisfy me that the steward had any knowledge of these unusual and cruel punishments

being administered to patients, but the evidence is clear that his inferior employees, such as attendants, were the parties directly responsible for them.

In many cases it has also been shown that patients were placed in straight jackets and strapped to the beds, and strapped to cell doors, either standing up or sitting down, or placed in their cells.

7. The main point of difference, however, between the majority of the committee and myself is in our findings as to the treatment of female patients. The majority of the committee in their report say, "Your committee finds that there was no beating, striking or choking of the female patients, and no unnecessary violence used in throwing them to the floor; nor were they dragged by the hair; nor were enfeebled patients subject to improper exertions. They were occasionally strapped to the door as a proper measure of restraint, but without unnecessary violence." And they also find, "The present matron is in no wise open to censure or criticism in her official capacity."

To this finding of the majority I can not subscribe, nor can I agree with them.

The evidence shows that the present matron of the insane asylum, who is at the head of the female department and only second in authority to the medical superintendent, not only sanctioned the unusual, cruel and inhuman treatment of some of the female patients, but in many cases she was prepared and directed and ordered her inferior attendants to administer such treatment to patients. These treatments consist:

1. In placing a patient "Felicitia" in a cell barefoot, with no other clothing on than an under garment, tying her with her back to the cell door with a strap about her chest and raising the window of her cell to the outside so as to let the cold air blow upon her while tied in that position. This treatment of "Felicitia" lasted for about from one hour to an hour and a half every evening for from two to six weeks, and until a short time before her death.

2. In throwing patients down and requiring several of the attendants, or tame patients, to sit on the patient until she promised to be good.

3. In striking and beating patients, in one instance striking the patient with a bunch of keys and chain used for carrying said keys.

4. In placing the knee on the patient while down on the floor, at the same time taking the patient by the throat and choking her with the hand.

5. In administering cold shower baths and plunge baths as a punishment for some past offense, such as the throwing of a piece of apple by the patient on the floor, and then rubbing it on the floor with the foot, or for talking too much.

6. In using on a girl patient, about 18 years old, what a witness called a "bridle," being a piece of buckram or canvas put in the mouth and tied back of the neck, because the patient was talking too much.

It was shown by several of the attendants that they left the institution because they could not stand the cruel treatment the female patients received at the hands of the matron, or by her orders.

This being a matter about which I entirely differ from the other members of the committee, I have been tempted to cite the evidence of several witnesses, whose testimony has not been impeached, in support of these charges, were it not for the fact that were I to do so my report would be entirely too voluminous. I will, however, cite the names of some of the witnesses whose testimony support these different charges, as may be seen by referring to their testimony and whose evidence

Every Fourth of July is attended by what some one has called "the slaughter of the innocents." Bursting cannon, prematurely exploding firecrackers and carelessly aimed revolvers all go to swell the list of dead and wounded. A large percentage of the fatalities are caused by tetanus—lockjaw, is the more common term. Ordinarily about fifty persons die from the malarious fever in Chicago, and from

Some fellows are always taking exceptions to what the newspapers have to say about them. As a matter of fact the man who gets mad at what the newspapers say in the way of news and about him is generally just the man who should return thanks three times a day for the things the newspapers know about him and don't print.

The New Mexican says that it is a pity that Albuquerque was not built upon higher ground to avoid floods. This city has never been damaged to the extent of a dollar by floods in its whole existence. The city of Santa Fe was heavily damaged a few weeks ago by a heavy rain, which ruined several bridges across the Rio Santa Fe. Such a disaster could not happen to the city of Albuquerque.

#### SCHOOL OF POLITICS.

Andrew D. White, whose work as ambassador to Germany has given him a commanding position in international diplomacy, will no doubt attract much attention by his plea at Yale for the founding of a school of politics.

According to Mr. White the greatest need in American life today is educated young men to hold office honestly, capably and intelligently. In order to bring this about he favors the use of college endowments for the establishment of professorships and fellowships, to be used in the study of public affairs; the establishment of professorships for the study of international law, and the endowment of chairs in American history and politics. The proposed courses will cover the administration of government in town, state and nation, and will be intended to broaden the political horizon of the average young American.

#### PRESBYTERIAN CHURCH.

Crowded Last Evening by Representative People to Bid Farewell to Rev. and Mrs. Beattie.

The interior of the Presbyterian church was handsomely decorated last evening in honor of the farewell reception tendered to Rev. and Mrs. T. C. Beattie.

The church was crowded by representative people of the city of all denominations who conveyed their thoughts to Rev. Mr. Beattie, who for fourteen years has been a pastor in this city. During the evening refreshments were served by the ladies of the church. Professor Stroup introduced several speakers who testified to the sterling worth of Pastor Beattie, and then the pastors of our churches had words of praise for his work here in Albuquerque, and all regretted his departure. Rev. Mr. Beattie thanked the speakers for their kind words and bade farewell to his congregation and to Albuquerque.

Rev. and Mrs. Beattie will leave today for Los Angeles for a vacation.

Outside orders solicited for Fourth of July FIREWORKS. Write to O. A. Matson & Co., and get the best.

How long will it take the man to fill the sack if he does not stop the leak? To attempt to nourish the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition. Enough is eaten but the body loses flesh, plain proof that the food eaten is largely wasted because it is not digested and assimilated.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called 'nervousness and indigestion.' I lost all appetite and was suffering severely. In a few months I began to have distressing pains right in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach. He gave me medicine but it did not do any good. I lost all appetite and was suffering severely. I began to feel better. I have taken six bottles of Golden Medical Discovery, two of 'Pierce's Pleasant Pellets' and six vials of Dr. Pierce's Peppermint Cure. I have gained ten pounds. Can eat everything."

## Ask Your Doctor

He will tell you—  
That barley-malt is a half-digested food, as good as food can be.

That hops are an excellent tonic.

That the little alcohol in beer—only 3½ per cent—is an aid to digestion.

### But Purity is Essential

But he will tell you that beer must be protected from germs, and brewed in absolute cleanliness.

He'll say, too, that age is important, for age brings perfect fermentation. Without it, beer ferments on the stomach, causing biliousness.

Schlitz beer is brewed with all precautions. It is the recognized standard all the world over, because of its purity.

From the Advocate.

Work on the pipe line of the Hillsboro Gold Mining and Milling company is going on at a lively rate.

H. H. Smith and W. A. Gray, of Des Moines, Iowa, visited this camp this week. Both gentlemen are interested in valuable mining claims, owned by the Hub Gold Mining and Milling company, located at the base of Animas peak. They concluded the examination of the properties Wednesday and left for home yesterday.

The Prosper mill is fast approaching completion. The boiler and engine are in place, the shafting is up, the water tank is completed, the pipe line and track from the mine to the mill are nearly ready for use. Superintendent Hirsch expects to have the mill ready for business about July 10.

Work on the Great Eastern by the South Percha Gold Mining and Milling company is going on nicely. In the tunnel they have from three to four feet of fine milling ore, and they also have a nice leading of high grade ore. A mill, fully completed, will be treating the product of the South Percha group of mines ere many months.

## Keep Your Insides Cool!

Here's a man who thinks he has heart disease, and is scared half to death. His face is all drawn out of shape from fear and agony. Every time he eats, his heart "palpitates"—that simply means that his stomach is swelled up with gases from fermenting undigested food, and his heart thumps against his diaphragm. Nothing the matter with his heart. In the summer time, this gas distention is much worse, his whole body and blood get over-heated, and his heart and lungs get so crowded for room, that he gasps for breath. There he is, look at him! Every minute he expects to drop dead. As a matter of fact, all he needs is to stop that souring and gas forming in his stomach and bowels, help his digestion along, and keep cool inside. You all know that whenever something rots or decays, heat develops. Same in the body. Keep cool inside! Take a candy cathartic CASCARET every night at bed-time. It will work while you sleep, clean up and cool your insides, give you a regular, comfortable movement in the morning, and you'll be feeling fine all day every day. Heart Disease! Fudge!

or in default of such action, in omitting to properly inter the bones in the grave of Mary Leonard.

Fifth. Dr. Mohlau Matter. Your committee finds that Dr. Mohlau, an inmate of the institution, confined for the drug habit, was allowed to render some medical services to patients, under the supervision of the medical superintendent. That he was properly restrained at times, when it was necessary, and at other times, he was allowed to administer to the needs of some of the patients. At no time was he permitted to treat patients until he had been in the institution a sufficient length of time to have fully recovered from the effects of the drug habit. Your committee finds that he was fitted and qualified as a physician to treat the patients as above specified, and that the permission granted him to do so by the medical superintendent was in no wise censurable, but on the contrary, the exercise of a wise discretion on the part of the medical superintendent, for which he is in no wise amenable to censure or criticism.

Sixth. The Alleged Mismanagement on the Part of the Asylum Authorities. Board of regents. Your committee finds that there is no evidence showing any official misconduct, mismanagement, or neglect on the part of the board of regents.

Medical Superintendent. Your committee finds that the medical superintendent was not aware of the abuses found by your committee, to exist in the conduct of the asylum, and hereinabove specified, and that he is not at fault for failing to ascertain their existence; that he had no personal knowledge of them; and that in all cases, where his attention was called to them, he discharged the attendant as promptly as possible, and took all possible measures to prevent their recurrence. That the only exception to any censure or criticism for his management of discharging the duties of his office.

Matron. Your committee finds that the present matron is nowise open to censure or criticism in her official capacity.

Attendants. Your committee finds that attendants in some instances have practiced cruel and inhuman treatment on patients and used unnecessary restraints, as hereinbefore specified, but that in all such cases, when brought to the attention of the proper authorities, the offending attendants have been promptly discharged, or, in the minor cases, duly reprimanded; and a due degree of care and diligence has been exercised in their selection. Recommendations. Your committee is impressed with the conviction, as a result of the investigation, that there are defects in the devolution of the official control in the asylum, in this respect; when on the ground the medical superintendent is in control; in his absence the steward; and in the absence of the medical superintendent and steward, the matron.

This arrangement seems to your committee as not conducive to a uniform, steady and consistent exercise of authority on the spot; and to remedy the defect, your committee recommends the employment of an assistant medical superintendent to reside permanently at the asylum, and to exercise full control in the absence of the medical superintendent, and under his general direction and supervision.

Your committee believe that the best results in the immediate management of the asylum will be attained by vesting the appointment of all subordinates employed in the asylum in the medical superintendent, and as it seems a hardship to require full responsibility from the head of the asylum, without granting to him the power of selecting all the subordinates. All of which is respectfully submitted.

### THE REPORT OF MAJORITY

(Concluded from page one.)

and one, Dr. Mohlau, desired to prepare and articulate the skeleton of Mary Leonard, permission to do which was granted. The flesh was removed from the bones, placed in a soap box and buried in the usual way, and the grave marked with her name, similar to other graves.

Before determining to use the skeleton for the purposes mentioned, Dr. Tipton wrote to the address on the commitment of the patient, it being the only address of any relative or friend known to him, which he believes was that of her sister, and after waiting several weeks, received no reply, nor was the letter returned to him. He postponed the dissection several weeks to hear from her relatives as to the disposition of the body. He never heard from them.

Dr. Mohlau had the bones placed in a barrel and water placed over them. The barrel was placed near the north fence of the asylum grounds with instructions given to have water kept over the bones. Before preparing the skeleton, Dr. Mohlau left the institution, and the barrel remained in the yard for about three years, and Dr. Tipton, being busy in other lines, overlooked it.

The instructions for keeping the bones covered with water were not followed. The barrel came to pieces and the skeleton fell to the ground. A patient named "Rudy" finding the bones, threw them over the fence, beyond the limits of the asylum grounds, and Dr. Da Costa, assistant medical superintendent, having seen the bones there, reported the fact to Mr. Gregory and Mr. Jefferson Reynolds, members of the board of directors, with whom he went to the asylum, and they found the bones where they had been thrown near the fence. Dr. Tipton had no knowledge of the barrel having fallen apart and the bones being thrown over the fence.

In this case your committee finds that there was carelessness on the part of the medical superintendent in failing to carry out his original intention.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure. ### CONTRACTOR AND INVENTOR.

Mr. Wismyer, of the Santa Fe, has a Gold Machine.

Yesterday a machine was tested and proved a success which promises a fortune to its inventor and the members of the company which has been building it, says the Emporia Gazette. The inventor is Conductor Henry Wismyer. Several other railroad men are interested in the machine and were present at the test which was made down on Second avenue and Commercial street in a carpenter shop.

Mr. Wismyer has been working on the machine several years. Some time ago he got it so it would work but now he has perfected nearly every detail and has applied for a patent. The test was made yesterday on the poorest quality of pay dirt. In the pan this dirt hardly showed a particle of color and in the best gold separating machine hitherto known, this yielded only 42 cents to the cubic yard. The machine itself looks something like a half sized threshing machine only somewhat more complicated.

Mr. Wismyer refuses to discuss the principle on which the machine extracted the gold until he receives a patent on it.

### Starving Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes as follows: "I had bronchitis for three years and doctor after doctor all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c and \$1.00.

### FREIGHT CAR TOURISTS.

Claim They Subsidized Brakemen and Got Worsted.

Ten natives rode from Alamogordo in a freight car recently and were caught by the police like rats in a trap, as the doors were locked and they could not emerge when their destination was reached, says the El Paso News.

There were five men, three women and two children in the party. They claimed that they had given a brakeman \$7 in payment for the ride and he locked them in a car partially loaded with merchandise, but when the train arrived at El Paso the tourists found themselves unable to get out. The car was also without ventilation and they were almost suffocated. In their desperation they put forth every effort to open the door, and in doing so attracted the attention of the trainmen, who notified the police.

The men in the party were docketed as suspicious characters. They gave their names as Antonio Telles, Ursolo Jacques, Hicente Hernandez, Louis Caron and Antonio Gonzales, and claimed to be coming home after doing track work in New Mexico. They had a camp outfit and cooking utensils with them, and were evidently prepared to cook inside the car in which they traveled. The men were held at the police station to give the railroad officials opportunity to check up the freight in the car and ascertain if any of it had been molested.

### THE REPORT OF E. V. CHAVES

(Concluded from page one.)

has not been impeached. These witnesses are: Mrs. Ella Schlott, Miss Kate Ground, F. J. Gehring, Manuela Chaves de Jaramillo, Cornelia Galindro, Virginia Maestas and others.

8. That the body of one Mary Leonard, a patient, was opened by Dr. Mohlau, with the consent of Dr. Tipton, the medical superintendent, the object for doing so being to ascertain whether or not the patient was pregnant, and also to have an articulated skeleton in the institution for scientific purposes. The flesh of the body was removed, placed in a soap box and buried in the graveyard of the institution. The bones and the barrel were forgotten and no more water was put in it, and finally the barrel itself went to pieces for the want of water, the bones fell to the ground, and a patient seeing them threw them over the fence surrounding the institution. One Dr. Da Costa, who was then acting as assistant superintendent, found these bones about two months ago—a period of about three years after they were first placed in a barrel. Two of the members of the board of directors of the asylum then picked the bones up.

In this instance of Mary Leonard great carelessness is shown both in the medical superintendent, who had knowledge of this matter, and in the other employees, who being on the grounds daily could by very little effort (almost none at all) have discovered the human bones of this unfortunate woman, who at least was entitled to have her bones covered by mother earth.

9. In the Dr. Mohlau matter the evidence shows in effect the same facts as are found by the majority of the committee.

10. That the medical superintendent, W. R. Tipton, stands high as a man and a citizen, as well as a physician, and has almost as good a knowledge of the Spanish language as he has of the English.

That the medical superintendent had no knowledge of the unusual, cruel and inhuman treatment visited upon the patients by the inferior employees of the institution, as hereinbefore set forth, and the evidence further shows that in one or two instances, where such came to his knowledge, the culprits were either discharged or reprimanded; except in the Mary Leonard case, where it was shown that he had knowledge of that matter.

In view of the above facts and of the evidence adduced on investigation, I am forced to conclude that the institution is susceptible to a great deal of improvement, and in my opinion the change that would have more satisfactory results would be a provision for the payment of the superintendent of a salary sufficient to justify him and require him to devote his time exclusively to the management of the insane asylum. By being continuously in the institution, instead of about three hours daily that he now attends, he would be more apt to discover the inefficiency of his inferior employees, and their mismanagement of the detail work of the institution, if such occur. I do not think, as the majority of the committee believe, that the employment of an assistant superintendent to reside permanently at the institution would produce the desired result, for the reason that an assistant, the same as other employees, not having the full responsibility of the management

of the institution, is apt to grow indifferent and negligent.

Respectfully submitted,  
E. V. CHAVES.

#### THE POPE.

He Walks in the Beautiful Gardens of the Vatican.

Rome, June 30.—The pope descended to the vatican gardens this morning for the first time this year, and was driven about for an hour and a half. He seemed to enjoy the air immensely, and noticed changes made in the gardens. He was especially interested in the growth of the vines planted by himself and made inquiries regarding the prospects of vintage. When the pope returned to his apartments he seemed not in the least fatigued and received several bishops.

#### MINE EXPLOSION.

Two Hundred Miners Are Imprisoned and in Danger.

Rawlins, June 30.—A terrible explosion occurred in the Cove mines in Hanna, Wyo., about 10:30 this morning. Nearly two hundred are said to have been in the mine at the time of the explosion. It is said that the mine took fire immediately and the relief force which organized at once to rescue the entombed miners have so far been unable to approach the entrance to the mine on account of the dense smoke.

Unless the unfortunate workmen are soon relieved it is not believed that any will be found alive. Hanna is on a branch line from Allen Junction and particulars of the explosion are very hard to obtain.

#### Terrible Disaster.

Hanna, Wyo., June 30.—The worst coal mine disaster in the history of Wyoming occurred in mine No. 1 of the Union Pacific Coal company today, when a terrific explosion took place. Two hundred men were working in the mine at the time. The explosion set fire to the mine and at this time it is impossible to give the loss of life. Not less than twenty men were killed outright and although the mine is ventilated well and provided with many avenues of escape the loss of life will be very large. Not a man has yet been raised to the surface. A large number of men are working for the release of the mines and to extinguish the flames.

#### No Negotiations.

St. Petersburg, June 30.—The following semi-official statement was issued today: "There have been no negotiations between Russia and the United States in regard to President Roosevelt's intention to forward to the Russian government a petition from American Jews concerning event at Kishineff."

#### BLOODY SLAUGHTER.

Ten Thousand Africans Slain by the British Forces.

London, June 30.—The war office received today a dispatch from Colonel Rochefort, one of the British officers serving with the Abyssinian forces in Somaliland, which says that after a series of forced marches they struck the Mad Mullah's forces near Jeyd, surprising them at dawn and killing 10,000 spearmen and capturing almost all their cattle and sheep and 1,000 camels.

#### WOMAN STRANGLED.

Horrible Oct of Syrian Thugs in City of Denver.

Denver, Colo., June 30.—Thugs slipped through the side window of the

little home of Mrs. Antone Kenhan, at 2121 Sixteenth street, and seizing the woman while she slept, kicked and beat her into insensibility, bound her ankles with a rope, tied her hands behind her back and gagged her with a handkerchief. They left her lying on her face and unable to move she strangled to death. This morning the body was found by the neighbors. Three suspects have been arrested and two of them offered resistance. The murdered woman was a Syrian. The suspects are also Syrians, one of them being a woman.

#### THEY'RE OFF.

For the Manzano Mountains to Explore the Great Cave Ruins.

Edward Johnson, who discovered a great cave in the Manzano mountains several days ago, as related in The Citizen of yesterday, and Professor A. B. Stroup, superintendent of the public city schools, left today for the Manzano mountains.

They go to further explore the cave found by Mr. Johnson. They carried provisions for two weeks and went prepared to make a thorough investigation. When Mr. Johnson discovered the cave he was short of provisions and did not have much time to explore it, which is said to be some 250 feet deep and nearly as wide. There was all kinds of relics on the ground in form of pottery and stone tools and pipes and will probably prove a valuable discovery for the archaeologist. Professor Stroup belongs to the Albuquerque History club and will have something to report when he returns home.

#### STERILIZED BARBER SHOP.

A Famous Shop in the Carrollton Hotel, Baltimore, Maryland.

The barber shop in the Carrollton hotel, Baltimore, Md., sterilizes everything it uses in the shop. The sterilizing is done by heat. The towels, the razors, the strops, the soap, the combs and brushes are all sterilized before being used on a customer. Where there is no sterilization, have the barber use Newbro's Herpicide. It kills the dandruff germ and it is an antiseptic for the scalp, and for the face after shaving. All leading barbers everywhere appreciate these potent facts about Herpicide, and they use it. "Destroy the cause, you remove the effect."

"Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents."

Miss Fay Lane, of Fort Worth, Texas, is in the city visiting her aunt Mrs. E. E. Sherman. Miss Lane is an accomplished musician.

#### Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by all druggists.

## NORTH FOURTH STREET POND

Still Remains Full of Water and is a  
Menace to the City.

The big Fourth street pond is still with us and all because the Santa Fe officials have not answered to the request of the city authorities for permission to go under the grade at the Rio Grande Woolen mills.

City Engineer Ross says the boxes for the flumes are ready and they are prepared to go to work on the secondary ditch as soon as they get orders. He says also that there is no doubt but what the railroad officials will consent to this, as it is important to them that the flood water be drained off as it is to the city. The people are getting anxious for this water to depart. Street Commissioner Tierney will do it as quick as possible. It is thought that about two hours will be the time that it will take to drain it off when it gets started.

### That Burro Race.

Jockey Chapple Miller, who is to ride the Barbers' burro in the union race on July 4, says he is confident that he will win the honors by several lengths. He says Nell (that's the animal's name) is in fine condition and odds on betting is drawing to a close, and by the Fourth it will be hard to get an even bet, as Nell is a favorite at present. Crone and Hopkins, the puller and pusher, are taking training lessons in foot racing, so they may be able to finish with the rider. A bet placed on Nell is a safe one.

The burro to be used by the Barbers is the one which the Typographical union had picked out, but as soon as they became aware of the fact that the Barbers had secured her the printers immediately sent to Santa Fe for the burro which has won every race in which it has ever entered. Colonel H. Longfellow Dunning still insists that he will ride the winner.

Later, it is rumored that a committee from the Barbers' union is at Lamy Junction laying in wait for the famous racing animal from the Ancient city with instructions to dope him or in some other manner incapacitate him for the race.

### Park Trees.

The first trees in the city park were planted in 1881 by Santiago Hubbell, Judge L. S. Trimble, R. C. Vose and Charles Zeiger. The city was incorporated in 1885, and held an arbor day in the spring of 1886, when all of the present trees in the park were planted.

### SEVERAL TAXPAYERS.

Appeared Before County Commissioners Yesterday Afternoon.

The Bernalillo county board of commissioners met at the court house yesterday afternoon and several parties appeared in regard to their increases in assessment returns made by Assessors George F. Albright.

In most of the cases the increase was allowed to stand. More increases are to be made and this time a number of sheep men are on the list.

Arthur Heyn, bookkeeper for J. A. Lee, the lumber merchant, was a passenger for Rowe this morning.

### LOCAL PARAGRAPHS

Mrs. H. O. Strong and babies leave tonight for Long Beach, Cal., where they will remain until September.

Train News: No. 1 from the east is reported three hours late; No. 8 from the west will reach here about 8:35; No. 7 from the east about forty-five minutes late; No. 2 in the morning reported on time. The El Paso train leaves that city several hours earlier until the washouts are repaired, hence it is reported on time tomorrow morning.

A. J. Sampson, the Rocky Ford sugar beet man, was here this morning. He had been down to El Paso and was returning home with nearly a hundred natives to work in the beet fields. Mr. Sampson says the Indian boys who went from this city are getting along nicely.

Her man Switer, the well known manager of the Harvey museum and curio rooms, will leave tonight for New York City, where he will sail for Germany. He expects to be away for some time, and will return in the fall. Manager Switer has many friends who wish him bon voyage across the big pond.

The ladies of the German church will hold their monthly meeting at the home of Mrs. Grundman tomorrow afternoon. All should be present.

Miss Emma Rudolph has returned home from a visit to Los Angeles, where she has been visiting relatives. She is now at her old place at the Golden Rule.

On the church grounds, at the Lead Avenue Methodist church, an ice cream social will be held tonight at 7:30 o'clock.

Miss Irene Saint, daughter of Mr. and Mrs. J. E. Saint, is scheduled to leave tonight for southern California.

Julius Wolff, the general merchant of Cabezon, is in the city, and was noticed around among local wholesale merchants today.

Eldridge H. Booth of Chihuahua, Meico, is in the city to attend the marriage of his brother, E. S. Booth, to Miss Katherine Wilson, which will occur at the residence of T. Y. Maynard this evening.

Montague Stevens, the Socorro county ranchman and stock raiser, who has been here the past few days visiting Mrs. Stevens, will go south to his ranges tonight. He expects to return to the city in a few days.

The mother and sister of Chas. L. Finn, of Winslow, were here yesterday visiting Mr. and Mrs. James Bell. They have been out on a visit to Mr. Finn at Winslow and on the Pacific coast, and continued on to their home at Pittsburgh, Pa., this morning.

John Finley, Jr., and family, well to do people of Los Angeles, passed through the city this morning, en route to Elmira, N. Y., where they will spend a couple of months with relatives and friends. Mrs. Lowe, a particular friend, met the party at the depot, and had a pleasant hour's chat with Mr. and Mrs. Finley.

Deputy Sheriff Newcomer was at Isleta yesterday, and arrested Louis Abeltia, charged with being one of the murderers of Magdalena Montoya at Isleta the other day. Louis Abeltia is now in the county jail.

#### Our Flower Contest.

You will remember that some time ago we announced that we would give a large bottle of the famous and delicious California sweet pea perfume to the lady presenting the largest bouquet of sweet peas at our store, grown from the seed furnished by us. That was some time ago, and sweet peas are now in full blossom. So the lady who presents the largest and finest bouquet of sweet peas at our store, tomorrow, July 1, grown from the seed furnished by us, will be awarded the prize. Remember the date, Wednesday, July 1.

J. H. O'REILLY & CO.

#### NOTICE.

All those who hold bills for work performed on the Alameda ditch or on north Fourth street or for material furnished are requested to present same to County Commissioner T. C. Guiterres, this city, not later than Thursday, July 2.

C. F. MYERS, Mayor.

Business is always quiet during the heated term. We are making extremely low prices on silverware, plated knives, forks, preparatory to ordering fall stock. EVERITT, Leading Jeweler, Railroad avenue.

#### ICE.

Manufactured from pure distilled water. Patronize the old reliable, The Crystal Ice company. Both 'phones. C. A. HAWKS, Manager.

The Fourth of July is to be celebrated in great style, but you cannot enjoy it unless your feet are comfortable. We have a large assortment of low and high shoes built for hot weather and prices are very reasonable, at C. May's popular priced shoe store, 208 West Railroad avenue.

Frozen punch—banana, vanilla and nut creams. Delaney's, Bell 'phone 98.

#### Barber Shops Will Close.

On Friday evening, July 3, all barber shops will keep open until 10 p. m., and on July 4 and 5 will be open from 7 a. m. to 11 a. m. both days, and no work will be done outside of these hours.

## Further Inducements for Independence Week are the BOOMING BARGAINS In the Men's Suit Section

Early this season we advertised the largest and most complete line of Popular-Priced Men's Suits ever brought to the Southwest. Well! Up-to-Date Clothing and BIG VALUES did the business. We have had the most successful Spring Season in our history—sold more suits than we ever did before. But there are lots of suits still unsold—the plums are not ALL picked. And so to make things lively we are prepared for the week of the Glorious Fourth with extra big suits values that shoot out Dollar-Saving sparks worth catching.
