## AN INSANE MAN CREATES A PANIC

Leader of Attempted Jail Break at Denver  
Captured.

Washington, June 27.—The state department, through Judge Penfield, solicitor, by an adroit move, has broken what appeared to be a corner in the silver market. When the Mexican government recently deposited \$1,423,000, Mexican, in the national bank of Mexico, subject to draft of the United States, in payment of the Pius award, the state department was confronted with necessity of turning the money into United States cash and depositing it here. For some time the silver brokers have been watching negotiations and when they applied to the department was informed that it would cost about \$40,000 United States money to convert the fund and transfer it as desired. This was regarded as an exorbitant charge, but no other and better bid was offered. Finally Judge Penfield hit upon the plan of turning this Mexican silver into Philippine money. Director Roberts of the mint bureau, who has been buying bullion for Philippine accounts, has been confronted with a strongly rising silver market, and something very like a corner in that commodity. He, therefore, readily accepted Judge Penfield's offer of a big lot of Mexican silver and closed the agreement by which at an expense of less than \$4,200 the amount of the Pius award can be placed in the hands of the Catholic church, the beneficiary of the award, and seventy tons of silver can be transferred to the United States mint.

## PERTINENT CRITICISM.

Cleveland Did Not Observe Home  
Rule in Territory.

## HIS JUDGES WERE CARPET BAGGERS.

Editor of The Citizen.

In last night's issue you say that Mr. G. Cleveland is the only president who has "lived up to platform pledges in appointing citizens of this territory to the federal offices." This statement is undoubtedly provoked by the recent appointment of Mr. Smith of Michigan to a judgeship in New Mexico, but seems to indicate some lapse of memory on your part.

Let us recall what Mr. Cleveland did as to judicial appointments in New Mexico during his two terms.

When he first became president in 1885, there were three judicial districts in New Mexico. In the First district, Samuel B. Axtell was judge, and Mr. G. Cleveland forced him to resign to avoid threatened summary and unjustifiable removal. In his place the president appointed William A. Vincent, a bona fide resident of the territory, but in a few months, realizing his mistake in having appointed a New Mexican, he arbitrarily and wrongfully threw Vincent out, and appointed a man from Indiana.

For the Second district, he appointed a man from Missouri, who was becoming too active and prominent in public affairs to please a democratic senator, who thought his contemplated life grip on a seat in the upper branch of congress was possibly endangered.

For the Third district, there was appointed an able man from Arkansas, a personal friend of the attorney general, whose ability was only surpassed by the bad reputation which he soon acquired among the people of the Mesilla valley.

During this administration, an additional district was created, and the president appointed a good old man from Texas, than whom no better or more honest man ever held office in New Mexico.

This is not a very good record of appointments of residents of New Mexico.

In his second term he certainly did much better on the residence qualifications. Whether he made a good court or not can well be left to you, Mr. Editor, who had some personal experience with it. It never should be forgotten that its action toward you was of the most high-handed, lawless and arbitrary character.

Under this administration we had one judge from Virginia, and four from the territory. The result might well make many of us doubtful of the policy of appointing our own people to judicial office, were it not for our belief that no other president could make such bad selections.

If your brief editorial was intended

merely as a criticism on the republican party in the matter of recent judicial appointments, it must be admitted it is well founded. When President McKinley came into office, he had five judges to appoint for New Mexico. Of these, two of whom he appointed were residents of the territory. Another had been at one time a resident among us, but had been absent for years. A life long democrat, in 1896 he left the dominant wing of his party, and was an active good democrat in Connecticut. Of the two others one had helped to elect a senator in Indiana, and the other had elected a senator in Ohio. When the Ohio man was forced to resign on account of ill health, his health never having permitted him to discharge the duties of his office, he was succeeded by a gentleman of pleasing personality from western New York, who knew but little law, but who had strong political backing.

When the Indiana creator of a senator failed of reappointment he was succeeded by a strong and able man, who had made a senator from Nebraska, and now we have the appointment of a friend of a Michigan senator, and he will probably soon learn that he, also, has been a factor in senatorial elections.

This sort of thing is the natural consequence of our territorial conditions. Offices in the territories are looked on as senatorial property to be used in payment of political obligations, and it is seldom the case that lawyers who are active as politicians are well fitted for judicial labors.

We are compelled to admit that our party has done badly in this direction, and if we criticize it for this directly, no one can say you nay! but every republican ought vigorously to protest against your praising the fat-headed G. Cleveland, who never has known anything of the west, and has but little or no regard for anything west of Manhattan island. When he left the presidency he would not go back to a place as far west as Buffalo, which had been his home and beyond which, up to that time, his acquaintance with this country had never extended.

## STATEHOOD CITIZEN.

## CAUSED A PANIC.

Insane Man Creates Excitement in  
Kansas City Bank.

Kansas City, June 27.—George Earhardt, while temporarily deranged, created a panic in the Union National bank shortly before noon today by flourishing a revolver in the face of B. H. McGarvey, the receiving teller. "I've been robbed," cried Earhardt, frantically, "robbed by that man there," as he pointed his revolver at McGarvey, who stood behind the counter. The room was crowded. Much excitement ensued and men and women rushed from the building. Earhardt was overpowered and taken to the police station. He is a stranger in the city.

## Captured Jail Breaker.

Denver, June 27.—The police have captured the man who smuggled into the county jail the revolvers with which the almost successful break for liberty was made by Tom Fallon and five other prisoners on April 8. The man arrested is Harry Stadlander, who is a friend of Tom Talbot, one of the men who attempted to escape. Fallon was the leader of that attempt and was also one of the leaders of the recent attempted break at the penitentiary at Canyon City.

## Battle of Monmouth.

Freehold, N. J., June 27.—The 125th anniversary of the historic battle of Monmouth, in which "Molly Pitcher" performed the deed which has handed her name down to posterity, was celebrated here today on a large scale. Governor Murphy and numerous other dignitaries participated in the exercises, which began at sunrise with the firing of the national salute from Monument park.

## EX-POSTMASTER OF TAOS.

A Shortage Found in Accounts of Manuel M. Kahn.

Manuel M. Kahn, former postmaster of Taos, who recently resigned, was arrested Thursday, brought to Santa Fe last night and taken before J. P. Victory, United States commissioner, for a preliminary hearing on the charge of appropriating to his own use postal funds in the sum of \$156.35. The hearing was held in at the office of Mr. Victory, where Kahn waived preliminary hearing and was bound over to await the action of the United States grand jury of the First district, in the sum of \$1,000. He fled bond in that amount and was released. The bond was signed by B. M. Read and J. E. Lacombe of Santa Fe. The warrant for Kahn was issued upon sworn information by United States Postoffice Inspector A. P. Smithers, and was served by Deputy United States Marshal J. M. Wiley of Albuquerque. The facts are about as follows: On the evening of the 25th of May last the postoffice inspector was in Taos, called at the postoffice and checked up the funds shown by the records to be then and there in the postmaster's possession. While the inspector was engaged in this duty Kahn went out and borrowed the sum of \$60 from A. G. Muller, \$60 from Alexander Gurdorf and \$40 from P. M. Dolan, telling them that he would return these sums in the morning. He then returned to the postoffice where the inspector was still engaged in checking up and turned the money he had borrowed, over to him. The inspector took it and gave him a receipt for the sum. While Kahn was out borrowing the money, the inspector found a shortage of \$156.35 in the postal funds which should then have been on hand and in the possession of the postmaster in the postoffice. The inspector also found that ex-Postmaster Kahn had violated the law by selling postage stamps and taking merchandise in place of cash for them; it was also found that Kahn had sold postal money orders on credit in order to repay some of the money he borrowed as detailed above. All of these acts are strictly forbidden by postal regulations and by law, hence the arrest. E. L. Medler, assistant United States attorney of Albuquerque, appeared for the United States at the hearing.

## BRITISH DISASTER

English Troops Get Whipped  
By Mad Mullah.

## YACHT OF EMPEROR WILLIAM

Congressman Sibley Claims That He  
is an Honest Man.

## ANNIVERSARY BATTLE OF MONMOUTH

Paris, June 27.—A dispatch from Tientsin, Abyssinia, says that the Mad Mullah has destroyed five British posts between Burao and Bobote, in Somaliland. Thirty-two white men were killed in an engagement. Two thousand native soldiers were made prisoners. A dispatch from Aden ten days ago stated that the British lines of communication were threatened by Mullah and his forces.

## British Deny Report.

London, June 27.—The war office has received a telegram from Somaliland enabling it to contradict the French report of a British disaster. The last news of the Mullah was that he was hovering eastward of the British forces, threatening the lines between Burao and Bobote, which were only British means of communication with the coast. Gen. Manning was expected to reach Bobote June 26 with reinforcements.

The war office dispatch received today was sent by General Manning from Bobote, June 26, and announced his arrival there unopposed. He captured a number of the Mullah's camels and sheep on his way to Bobote. The general said the Mullah with his fighting men had crossed the British line of communications half way between Hamot and Bobote. The Mullah's move was due to the British hold of the Mundug district and the pressure of the Abyssinians who are advancing from the south.

General Manning added: "This flight of the Mullah would have been turned into a rout if it should be possible to send a column of sufficient strength from Bobote."

## Emperor William Won.

Kiel, June 27.—When Emperor William was congratulated today at the launching of the German armored cruiser Roon, he replied: "The American skippers brought me luck. I would not have won if they had not been with me." The Roon is the eleventh of Germany's armored cruisers. It was christened by Countess Von Waldersee.

## SIBLEY DENIES.

Insists That He is Not in Any Swindling Scheme.

New York, June 27.—The Associated press has received the following dispatch from Representative Joseph C. Sibley of Pennsylvania, dated Quebec: "Arriving here today from a cruiser upon an official conduct as a representative in congress. In every instance my official actions have reflected my highest conceptions of public duty and so far as I am aware will never cause any friend of mine either regret or sorrow. I invite the fullest investigation of my official conduct. (Signed:) 'JOSEPH C. SIBLEY.'"

The intimations referred to make it appear that Mr. Sibley was largely interested in a manfolding company which furnished supplies to the national government.

## BOGUS DEGREES OF L. L. D.

Nashville College Will Confer Them  
by Thousands at \$10 a Head.

## LETTER ON THE SUBJECT.

During the past few months several attorneys in the territory have received letters from the Nashville college of law offering them a degree of L. L. D. conferred by that college upon the payment of the sum of \$10. Solicitor General E. L. Bartlett as secretary of the Bar association of New Mexico was requested to examine into the matter. He addressed the secretary of the Bar association of the state of Tennessee, and received the following reply:

Bar Association of Tennessee, Robert Lusk, Secretary and Treasurer, Columbia Building, Nashville, Tenn., June 22, 1903.

Edward L. Bartlett, Secretary of New Mexico Bar Association, Santa Fe, New Mexico:

Dear Sir: Yours of the 17th inst., enclosing memoranda, etc., of the Nashville college of law, received. I regret that Tennessee is at present the home of this fakir, William Farr, and his bogus institution, the Nashville college of law.

The Bar association has for some time been seeking to rid the state of this nuisance and we hope soon to force him to give up his somewhat lucrative job of selling L. L. D. degrees at \$10 a head. I assure you it is a source of great shame to all decent lawyers in this state, and especially to the members of the Bar association. His institution has no standing whatever, and the man himself is a charlatan and fakir of the worst kind. I will appreciate your publishing these facts in your papers, and if they wish further information concerning this rascal, they can obtain it by writing to either the Nashville Daily American or the Nashville Banner. Either newspaper will be glad to give information concerning this man, and I trust you will assist us in making public his institution and methods. Thanking you for your letter, I am, yours truly,

ROBERT LUSK.

Rev. and Mrs. T. C. Beattie will be given a farewell reception at the Presbyterian church on Monday evening from 8 to 10 o'clock. All of their friends are invited.

Lawrence Last Night.

## RECOGNIZE THE NEW KING OF SERBIA

Fatal Head-On Railway Collision at Des  
Moines.

Lawrence, Kas., June 27.—The Kansas river here has come up two feet since last night. The ferry landings are covered with water and the only means of crossing the river is by gas-line launches, which have been running since the flood was at its height. It is not believed that the rise will last long nor that it will cause any serious trouble.

## Steamer Sunk.

Washington, June 27.—Sueptinent Kimball of the life saving service has received a telegram from the Sateria life saving station in Texas stating that the Mexican steamer Caranopolam stranded 12 miles northeast of that station. The captain was killed in the wreck. The crew of twelve were saved in a destitute condition.

## TRAINS COLLIDE.

Two Men Killed in Accident at Des  
Moines.

Des Moines, June 27.—Two men are dead and five are seriously injured as the result of a head on collision that occurred in the yards of the Chicago, Milwaukee & St. Paul railway in this city early today between an accommodation train and a freight train drawn by two engines. The dead: John Erickson, Des Moines; James Howard, brakeman, Des Moines. The wreck was caused by the outbound train pulling out without orders, under the impression that the freight train had pulled in. Both trains were traveling at a high rate of speed.

## DIED AT HOSPITAL.

G. A. Schneider, After Short Illness,  
Dies This Morning—Sad Case.

A few days ago Mr. and Mrs. G. A. Schneider were married at Fort Madison, Iowa, and several hundred people saw them off on their wedding trip, which was to California.

Today Mr. Schneider is dead and his body is at O. W. Strong's Sons, and tomorrow it will be shipped to Fort Madison and accompanied by the wife.

After leaving Chicago the deceased became seriously ill, and his mind unbalanced, so that a trained nurse had to be called. He grew gradually worse, and on the arrival of the train last night he was taken off, and carried to the St. Joseph's hospital, where he died between 12 and 1 o'clock this morning.

The case is an extremely sad one. The deceased was in the prime of manhood and was a prominent citizen of Fort Madison, where he owned a jewelry store. Both were prominent there and the wedding was the event of the season. This is another case of the uncertainty of life.

## FURNISH PETITION.

Czar of Russia to Be Asked to Sup-  
press Outrages.

Washington, June 27.—Officials of the state department assert positively that close examination of precedent justifies the presentation by the president of the United States the Jewish petition to the Russian government, and that no government has a right to object to presentation of such petition, nor has the government the right to object if the presentation is declined. There were no developments today respecting the petition save the announcement that it is purposed by the framers to have it numerously signed by prominent Christians as well as Jews.

## REVOLUTION IN RUSSIA.

## Revolt Against Tyranny of the Czar

Gaining Ground.

St. Petersburg, June 24 (Wednesday).—The revolutionary movement in Russia seems to be spreading unceasingly and is reaching regions heretofore free from radical agitation.

Leaflets directed against existing conditions of Russian home affairs and demanding radical changes were circulated broadcast during the month of May in thirty-four cities and towns of the empire. Serious street disturbances have occurred at various places.

It is said that the anti-Semitic agitation at Eastertide extended throughout the entire pale of the Jewish settlements. A monarchical society organized at Pinsk circulated leaflets beginning, "Brother workers, orthodox and Catholic, Christ has arisen. Let us embrace Him, kiss and go and kill Jews."

## THE DYKE QUESTION.

Several Suggestions for Strengthen-  
ing the Dyke at Alameda.

## ENGINEER NEWLEE WILL ACT.

Daily H. Newlee, the Santa Fe engineer who was here yesterday and in the forenoon, in company with City Engineer Pitt Ross, visited the lake of stagnant water above the Fourth street dyke, an account of which was given in The Citizen of yesterday, returned to Las Vegas last night.

Yesterday afternoon Engineer Newlee, accompanied by Mayor Myers, Hon. F. A. Hubbell and County Surveyor Don J. Rankin, visited the flooded districts in the vicinity of the Alameda dyke.

It was suggested to Engineer Newlee that a spur of track be laid out over the site of the dyke and that the dyke be rebuilt of some substantial material, which can be hauled in. The sand found in the neighborhood of the dyke, and which has been used in the past, is not entirely satisfactory. It crumbled too easily from the washing of water. It is thought that stone or slag will make a substantial dyke.

Engineer Newlee will take the matter before the proper officials of the Santa Fe.

## President En Route Home.

New York, June 27.—President Roosevelt arrived at Jersey City this afternoon. Police Commissioner General Green met him at Jersey City and the party crossed the river to this city. Roosevelt arrived at Twenty-Third street in this city at 2:30 p. m. and started at once for Long Island ferry, en route to Oyster Bay.

## Engineer and Fireman Killed.

Richmond, June 27.—The "Cannon Fall" train on the Norfolk & Western collided near Petersburg with a freight train standing on the track. The engineer and fireman of the passenger train were killed, conductor's arm broken and passengers were badly shaken up.

## Fatal Railway Wreck.

Roanoke, June 27.—A Norfolk and Western train, west bound, which left here yesterday afternoon, was wrecked near Marion last night. Engineer Spaulding and Fireman Hoover were instantly killed, and Express Messengers Oety and Woods were seriously injured, and Mail Clerks Adams and Jenkins slightly injured. The accident was caused by the engine striking a cow.

Hon. Solomon Luna and wife, of Los Lunas; Ben Biba and wife, of Laguna, and Deputy Collector Harry Gleason, of Valencia, arrived here this morning and will spend Sunday in the city.

### HEROES OF THE FLOOD.

G. C. Bailey and J. T. Shanklin Were  
Equal to the Occasion.

There are two men in this town who  
ought to be rewarded in a substantial  
way, and if the railroad companies  
know good men when they see them,  
they will be, says the Lawrence Ga-  
zette. These two men are George C.  
Bailey and J. T. Shanklin. The Union  
Pacific and Santa Fe railroads were  
the heaviest losers of course, and their  
tracks were gone, communication stop-  
ped, and Lawrence was isolated from  
the world save for the tracks from  
here to Ottawa.

On the north side Joe Shanklin worked  
day and night in the rain, mud and  
water, cold and hungry and wet to the  
skin and directed and kept going every  
thing that could move for ten days un-  
til an outlet was made, and his road  
was taking trains in and out of the  
city. And his work was not confined to  
saving railroad property and taking  
care of it. He gave his own efforts and  
the efforts of the men under him to the  
rescue work, and hundreds were taken  
care of, housed and fed under their di-  
rections. Joe took time neither to eat  
or sleep and so long as the danger was  
on he was at his post, which meant  
that he was everywhere that danger  
threatened.

On this side George Bailey was  
working like a giant, directing and  
controlling the affairs of his road, and  
upon him depended all communication  
with the outside world. He is a man  
who knows men, and how to handle  
them, and the few complaints that  
were filed when all the travel, all the  
commerce, all the business of the city  
and country devolved upon him, show  
the admirable skill in which he man-  
aged the affairs of the company. In the  
absence of Superintendent McClellan,  
Mr. Bailey had charge of everything,  
and he managed it well, from taking  
care of a hysterical lady's trunk to  
quelling a riot among the workmen.

The Gazette has heard kicks and  
roars, and complaints of all kinds, but  
through it all there has never been a  
word of complaint, but only praise, for  
Joe Shanklin and George Bailey. If the  
Union Pacific and Santa Fe do not  
make both of them superintendents,  
Lawrence will not keep the high opin-  
ion of those two roads that she has al-  
ways had.

### Worst of All Experiences.

Can anything be worse than to feel  
that every minute will be your last?  
Such was the experience of Mrs. S. H.  
Newson, Decatur, Ala. "For three  
years," she writes, "I endured insur-  
mountable pain from indigestion, stomach  
and bowel trouble. Death seemed in-  
evitable when doctors and all reme-  
dies failed. At length I was induced  
to try Electric Bitters and the result  
was miraculous. I improved at once  
and now I'm completely recovered." For  
liver, kidney, stomach and bowel

### Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period —how they can avoid pain, suffering and remove the cause.

"I suffered for six years with dys-  
menorrhea (painful periods), so much so  
that I dreaded every month, as I knew  
it meant three or four days of intense  
pain. The doctor said this was due  
to an inflamed condition of the uterine  
appendages caused by repeated and  
neglected colds and feet wetting."

"If young girls only realized how  
dangerous it is to take cold at this  
critical time, much suffering would be  
spared them. Thank God for Lydia  
E. Pinkham's Vegetable Compound,  
which helped me any. Within three  
weeks after I started to take it, I  
noticed a marked improvement in my  
general health, and at the time of my  
next monthly period the pain had  
diminished considerably. I kept up  
the treatment and was cured a month  
later. I am like another person since  
I am in perfect health."—Miss AGNES  
MILLER, 25 Potomac Ave., Chicago, Ill.  
—\$5000 forfeit if original of above letter proving  
genuine cannot be produced.

The monthly sickness reflects  
the condition of woman's health.  
Fifty thousand letters from  
women prove that Lydia E.  
Pinkham's Vegetable Compound  
regulates menstruation, and  
makes those periods painless.

### BELÉN BREVITIES.

Some Interesting Paragraphs From  
"Cut-Off City."

Special Correspondence.

Belen, N. M., June 25.—The ball  
game on Sunday afternoon between  
the Broncos and the Clerks resulted  
in a victory for the former by an am-  
ple score of 23 to 13.

John Becker, the well known mer-  
chant of this place, has been on the  
sick list for several days.

The citizens of the Cut-Off city are  
waxing enthusiastic over the prospect  
of a good old-fashioned celebration on  
the Fourth, and it is to be hoped that  
all may pull together to this end, mak-  
ing the occasion one to be remember-  
ed.

S. P. Dietrich of the Belen Mercantile  
company, who has been absent on a  
short visit to Albuquerque, returned  
on Saturday.

The final examinations in the pri-  
vate school for girls, maintained by  
Don Felipe Chavez, were conducted  
by an examining committee composed  
of the Rev. Father Bloag, Don Felipe  
Chavez and County Commissioner J.  
P. Sanchez.

Miss Leonard Zinth and Miss Baker  
pal, is to be congratulated on the most  
excellent showing made by her pu-  
pils in all branches.

Miss Laura Quilte and Miss Baker  
are visiting friends in the Duke city.

Miss Anna Becker and Gustave  
Becker, who have been attending  
school in the east, are home for their  
summer vacation.

Frank Herrick came in from the  
north Sunday morning.

John Lanbach left this morning for  
Las Vegas with the intention of mov-  
ing his family to Belen.

Mr. Lanbach is of the firm of Der-  
rick & Lanbach, of the Cut-Off restau-  
rant, a gentleman well liked for genial  
manners and in fact an all round good  
fellow.

### ACCIDENTAL?

The jury returned a verdict of acci-  
dental death on the man who fell from  
the window ledge on which he had fallen  
asleep. But the death was really due to  
carelessness which made the accident  
possible.

There are a great many lives sud-  
denly terminated as a  
result of carelessness,  
although the medical cer-  
tificate may read "heart  
failure." When a man  
takes chances with  
his stomach  
and neglects  
the warning symptoms of disease, he is  
carelessly inviting calamity.

Dr. Pierce's Golden Medical Discovery  
cures diseases of the stomach and other  
organs of digestion and nutrition. It  
enables the perfect digestion and assim-  
ilation of food, which makes strength.  
It stimulates the liver, cures biliousness,  
and removes bilious impurities from the  
blood.

"I had been troubled with a pain in lower  
part of my stomach for three years, so severe I  
thought it would kill me in time," writes Mr.  
Aaron Van Lier, of Kensington, New York, 31  
Chicago, Ill. "I could hardly work; it felt like  
a big weight hanging on me and got so bad that  
I had to take medicine. I used Romaine's Bitters  
for a time, but it did no good so I wrote to Dr.  
R. V. Pierce for advice, which he gave me im-  
mediately. I followed his directions and used two  
bottles of his medicine and was cured. I had a  
bilious liver which was troubling me instead of  
crampe (as I thought), so Dr. Pierce told me  
I have pleasure in living now; have gained in  
weight 15 pounds since then."

Dr. Pierce's Pleasant Pellets cure con-  
stipation. They do not beet the pill  
habit.

## BEAUTY TRIUMPHS.

Beauty is woman's greatest charm. The world adores beautiful women. A pretty woman dreads maternity for fear of losing this power. What can be done to perpetuate the race and keep women beautiful? There is a balm used by cultured and uncultured women in the crisis. Husbands should investigate this remedy in order to reassure their wives as to the ease with which children can be born and beauty of form and figure retained.

## Mother's Friend

is the name by which this preparation is known. It diminishes the pain allied to motherhood. Used throughout pregnancy it relieves morning sickness, cures sore breasts, makes elastic all tendons called upon to hold the expanding burden. Muscles soften and relax under its influence and the patient anticipates favorably the issue, in the comfort thus bestowed. Mother's Friend is a liniment for external application. It is gently rubbed over the parts so severely taxed, and being absorbed lubricates all the muscles.

## HIS ANSWER.

First Statement of Judge McMillan to the Public.

## VICTIM OF POLITICAL ENEMIES.

A few days ago, Judge D. H. McMillan and wife of Socorro, passed through the city for Denver, where they will remain a few days and then go to Glenwood Springs. The Denver News of yesterday, June 26, contains the first statement of the judge on his removal from the associate judgeship of the territorial supreme court, and judgeship of the Fifth judicial district. The article from the News reads as follows:

Judge Daniel H. McMillan, who was removed from the bench of the supreme court of New Mexico by President Roosevelt a few days ago, is in the city accompanied by his wife. Last night he made the first statement concerning his removal that has yet been given to the public. It will be remembered that the judge was removed from office upon a charge of general immorality and that his character was blackened to a great degree by the persons who appeared against him.

Judge McMillan states that the allegation of immorality were trumped up by a band of disappointed and unscrupulous office seekers and their followers. The men who made sworn statements against him, he says, are notorious characters in New Mexico.

While the position itself is of no especial importance in his eyes, he says, he will fight to remove the smirch from his name. When the United States senate convenes for its next term, the judge will appeal to that body for a complete review of his case from the evidence presented, and he is confident that the stain upon his name will be removed. He says he feels not the slightest malice for the Washington officials who reviewed the evidence in his case and recommended his removal from office upon their honest convictions in the matter. Judge McMillan said:

"Yes, I am surprised at the outcome of my case. When it was submitted in April, I was satisfied I had established a complete vindication. I never had charge of a matter where every point in the controversy had been more thoroughly met and answered.

"The attack upon me was one of the most depraved and vicious ever made upon a public official. It was actuated by malice, ambition and disappointment. The spirit of malice was rampant, and inability in certain quarters to control judicial action added fury to the attack.

"My appointment naturally caused some heartburning, and with a few designing minds to formulate a scheme, the ever ready affidavit man was attainable at a price.

"Bert Roland, the star witness against me, is a defaulter, a thief, a drunkard and a habitual liar, and is now in the penitentiary at Santa Fe.

"George White is a self-confessed, suborned perjurer, and he admitted he was paid for making his affidavit.

"Bacca killed a man at Socorro, and the record shows he was convicted on his own plea of guilty of an assault with attempt to kill another citizen of the same place, and was the late partner of the person most active against me. He has left the territory.

"I am a thief. The certified records of three convictions for larceny were filed against him in the case.

"Martos is a bartender and is under charge of indecent assault on a girl 9 years of age.

"This is a corte of depraved affidavit men sufficient to damn any case before an unprejudiced tribunal.

"I believe Attorney General Knox intended to be eminently fair and just, but the assistants in the department were filled with prejudice against me by one of my opponents, a former official of the department, who went to Washington and manipulated the case against me. He was a candidate for appointment to the position in the

event he could bring about a vacancy. This atmosphere of prejudice in the department was so dense, the influence of it so strong, and the attorney general was so impressed by it that when the only affidavit on file was that of the convict Roland, he stated to Mr. Hughes and Major Llewellyn that the department had proof positive against me.

"With the exception of a few individuals whom I shall not characterize, I believe I have the confidence of every community in New Mexico, save one small village where the minds of the decent people have been poisoned against me by one or two persons maliciously inclined.

"The judgeship in itself is of minor consideration. I do not, however, intend to allow this smirch upon my character to stand. I declined to resign after the decision was formulated. When congress convenes I shall call the senate to send for the record and to pass upon the question as to whether it contained anything to justify the decision.

"John G. Milburn, one of the most eminent and fair-minded attorneys of New York, went to Washington and personally examined the records of the case as made on both sides, and advised Senator Dewey that there was nothing in the entire record to sustain the charge or to justify any disposition except its dismissal.

"Yes! In this instance the penitentiary stripes have so far prevailed over the judicial ermine."

## The Tramps' Paradise.

District Attorney Jerome of New York was rather amused by the manner in which a tramp who strolled up to the kitchen door of his Lakeside home last Sunday morning, sized up the labor situation. While the wanderer was devouring the food set before him he bitterly complained about the hard times.

"But I had imagined that work was plentiful now," ventured Mr. Jerome. "Oh, yes," was the reply, "there is plenty of work all right, but if you belong to a union you have to be on a strike most of the time, and if you don't belong to a union they won't let you work anyhow."

## SANTA FE.

From the Bulletin.  
The territorial treasurer received \$4,762.02 from various resources yesterday.

The receipts at the fete was \$363.50. This amount will keep the plaza in fine shape another year.

J. V. Conway, the popular restaurant man, has commenced the erection of a new brick residence to cost in the neighborhood of \$4,000.

Miss C. M. Zimmer, who has been on an extended tour of the country, returned home last night and will resume her duties as manager of the Western Union Telegraph company's office here.

Remigio Lujan was arrested in a house near the reservoir early yesterday morning by Deputy Sheriff Huber and lodged in jail to await arraignment before Justice Garcia on a charge of disturbance. Lujan attempted to shoot his wife at the plaza fete Tuesday night on account of attentions which were paid her by a young man of whom he was jealous.

Manuel Kahn, postmaster at Taos, was arraigned before United States Commissioner J. P. Victory yesterday afternoon on a charge of appropriating funds belonging to the postoffice department. He waived examination before the commissioner and was released on \$1,000 bonds signed by J. E. Lacombe and B. M. Read. The complaint was made by Inspector Smithers.

## THEY LAUGHED.

### Now They All Laugh.

"To think of scientific food helping me out of trouble seemed ridiculous," said a St. Louis woman.

"I used to read the published statements about Grape-Nuts in a cynical way hardly believing they were true. One day a neighbor who was calling while I was lying down as usual (and feeling terribly) said 'I believe you eat entirely too much rich food and especially too much meat. I wish you would change your diet and use Grape-Nuts.' I laughed heartily and said 'I see you have been reading the newspapers too.' 'Yes,' she replied, 'and I have become a convert, for my husband, who, you know, is busy in the office all day, and whose nervous system was completely run down, has got so well and hearty by giving up the heavy meat breakfast and living on a diet of cooked fruit, Grape-Nuts and cream and Postum Food Coffee for breakfast. He is a new man and not been near a physician for two months.' 'I did not wonder that she was enthusiastic, so I began that evening to use Grape-Nuts, eating nothing else for my seven o'clock supper. I felt entirely satisfied and rested better that night than I had for months.

"The family all laughed at me but the next morning I ate my Grape-Nuts and cream, some stewed fruit and a cup of Postum Food Coffee. That day I felt amiable with myself and the whole world at large, and my feelings were so good and comfortable that I concluded to keep on with my new food.

"After about two weeks on this kind of diet my family began to see the change in me. I had lost my nervous, cross, irritable manner and I could sleep all night soundly. My face was round and my complexion was quite clear with a tinge of rosy color in my cheeks. In about a month I had gained ten pounds and my family all became converts to Grape-Nuts, which we have used now for some time. We are all in perfect health and my grocery bill is nothing like as large as it used to be.

"I am now so well and strong that I feel able to do anything I want to. Husband says the food should be called 'Gold-Nuts.' I notice a marked change in my mental capacity. Formerly I could not concentrate my mind on any book or any one thing, now that it all changed. I can read steadily and think logically from premise to conclusion, an excellent evidence, to my mind, of the brain building power of Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Desserts for the whole year told in the recipe book in each package of Grape-Nuts.

#### COWGIRL RIDES.

Miss Dunbar Gives an Exhibition  
This Morning on First Street.

BRONCO TOO TAME.

Miss Blanche Dunbar, the noted cowgirl from Arizona, who is stopping in the city for a few days, as related in The Citizen of Thursday, gave an exhibition this morning of riding a bronco on First street.

Miss Dunbar was informed that there was a terrible bronco in the city that couldn't be handled. Now, if there is anything that Miss Dunbar likes it's hot bucking and tricky broncos. So she said she'd ride it.

This morning she went to one of our clothing stores and procured a pair of trousers, as her riding clothes are back in Arizona, and put them on and a pair of suspenders to hold them up. This with her wide sombrero and short hair gave her a picturesque appearance, and one old lady who had come out to see the exhibition, after seeing her ride a few minutes, asked where the lady was that was going to ride. On being informed that Miss Dunbar was riding in trousers, she tumbled up her hands and exclaimed: "My Lord, what is the world coming to," and started for home.

The bronco that was given to Miss Dunbar to ride wouldn't have hurt a 10 year old kid and she soon discovered this after being astride a few minutes. But in order to give the people that had come out to see the exhibition some kind of a show, she spurred him, kicked him and doubled his ears up and did everything that generally makes a bronco's blood boil. But this bronco didn't do much, and she was disappointed. While she is in the Duke city if any one has a wicked frey bronco that they would like to have her ride, she will be pleased if they will trot him out.

She don't want to get out of practice while here, for these tame broncos in and around Albuquerque only give her a little appetite.

So if you have anything that's sporty and warm, trot it out, for it is only meant for Miss Dunbar, and we would not want her to go back to Arizona and say Albuquerque has a lot of dead broncos.

It cleans and purifies the system, stops hot fermentation in the stomach and bowels, and makes excessive perspiration impossible. You know they work while you sleep, make you feel fine all day.

### SABIAN SEIZES CHILD.

**Narrow Escape of a Little One from the Jaws of a Florida Alligator.**

While a number of passengers were waiting for the morning train at Pablo Beach one day recently they heard the wail of a child, seemingly in great distress. Jerry Delaney, deputy sheriff and a former Cincinnati policeman, headed a number who hastened to search for the cause of the cry. A short distance away they saw a big alligator dragging a child away, having secured a hold of its dress in its mouth. The child was shrieking in fright, says a Jacksonville correspondent of the Inter Ocean.

The posse rushed to its rescue, and the alligator redoubled its efforts toward getting into the bay near by. A big dog belonging to the child came running along and dashed at the alligator's head. The alligator whacked its tail around with great force and struck the dog, knocking the animal toward the gator's mouth, which opened with a gulp, taking in the dog. The alligator killed the dog and swallowed him with ease, dropping its hold of the child's dress in the struggle.

The posse at once killed the gator. It was 15 feet long. It is thought to have been made fiercer by hunger, as it is seldom they will attack human beings, and especially so near a habitation. The child was uninjured.

### NEW HOSPITAL.

To Be Built on Site Where the Old One Was Burned—Work to Commence Soon.  
Albuquerque will soon have another hospital to replace the old one that was burned sometime ago.

It will be built by the Santa Fe on South Broadway and will be of brick and stone, and a one-story structure with detached wards and will follow the latest ideas in hospital construction. Architect Whittlesey will draw the plans. The light and air condition will be the best. The hospital will be ready for use sometime this winter.

The hospital at Los Angeles has been the subject of some controversy between that city and San Bernardino where many railroad men desired that the new building should be located. The former city was chosen by the hospital association, and it is proposed to erect there the finest hospital building on the system. It will have a capacity of 150 patients and will be used by the entire coast line system.

## INDIAN SCHOOL NOTES.

During the past year the school has had a checkered experience.

The school opened up last fall with a large number of new pupils and a goodly number of these were full blood Indians, fresh from the reservation.

Soon after these new pupils entered the school, the diphtheria epidemic broke out anew and it continued with more or less severity during the fall and winter. This worked a great hardship on the school, as it prevented many from entering the school, who otherwise would have come here, and besides a great many of those present became dissatisfied and restless because they were kept under such strict quarantine.

Notwithstanding all the drawbacks and disadvantages the school has done some good work and has made progress in numerous lines.

The literary department has been thoroughly organized and has done very creditable work.

The exhibit, which has been prepared and forwarded to Boston for exhibition during the N. E. A., would do credit to any school in the service.

The industrial exhibit is also very good and shows care and skill in the execution.

There have been a great many improvements made during the year and this year good work is being pushed ahead with energy by the new superintendent. Two old buildings have been torn down and this greatly improves the appearance of the west side of the grounds; an addition is being built to the superintendent's cottage, and also to the cottage of the carpenter, and sewerage connections are being made to two cottages on the grounds.

Most of the buildings have been treated to a new coat of paint, and this improves the looks of the buildings very much.

The general health of the pupils has been good. About sixty oys from the school have gone to Rocky Ford, Colo., to work in the beet fields during the summer.

All the Mexican children have been sent home and a large number of full blood Indians have been received in place.

There has been one wedding and four births during the year.

The new clerk, Mr. Haygood, has been installed and is proving to be a very efficient employee. His family is with him and occupy quarters in the school.

Our new superintendent and family are located in the superintendent's cottage. Mr. Allen is energetic and thorough going and will build up the school and make it worthy of the name of industrial training school.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mass., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach why not take these tablets and get well? For sale by all druggists.

## GRAYSON-MERRILL CASE.

Proceedings Brought by Mrs. Cohen Dragging Along Slowly.

C. F. Grayson, the Silver City banker, has returned from Boston to New York and is now in the latter city attending to business. He remained in Boston three weeks endeavoring to get the case pending in the superior court of that city against him upon the charges of Mrs. Sara Cohen brought to trial. This could not be done, and it will be some time before the case will come up for hearing. The friends of Mr. Grayson express themselves as absolutely confident that upon trial he will be fully acquitted of the charges against him. Upon conclusion of the case he expects to come to New Mexico for a time to close up important business matters in which he is interested.

## Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes as follows: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c and \$1.00.

## PRIVATE LAND CLAIMS.

Court Handed Down Decisions in Two Cases Yesterday Morning.

The United States court of private land claims convened yesterday morning in the court room in the federal building, Santa Fe, pursuant to adjournment. All officers of the court were present with the exception of Associate Justice Osborne, who is not attending this term of court.

Two decisions were rendered by the court, being delivered by Associate Justice Henry C. Sluss. In case No. 281, Romel Barela vs. the United States, for the Barela land grant, situated in Dona Ana county, the grant was rejected and the petition dismissed. A like disposition was made of case No. 280, Hlaza Alvarez de Sanchez vs. the United States, for the Sanches land grant in Dona Ana county.

## Mormons in New Mexico.

As to the purported influx of Mormons into New Mexico, and the wonderful political influence they are supposed to exercise and contemplate, the Salt Lake desert makes the following pertinent remarks:

There are today in New Mexico, out of an estimated population of 200,000 people, not more than 500 Mormons, men, women and children. These are scattered and live in small settlements in San Juan, Rio Arriba and McKinley counties. They cut no more ice prae-

## The "Force" of Herpicide.

Quickly Arrests Hair Loss, and Compels Obedience to the Laws of Nature

## SCALP GUMPTION.

Lord Lytton unjustly accuses many men when he says, "One does not have gumption until one has been properly cheated;" for, when one is cheated, it implies an intention on the part of another to cheat. The fact is that few people are cheated, but many cheat themselves by not keeping posted. Within the last few years scientists have discovered that dandruff, itching scalp and falling hair are caused by a germ or parasite that attacks the hair root, and that the only successful treatment is to destroy the dandruff germ. While this discovery proves the uselessness of applying "hair tonics" to a hair, whose life is being sapped by a germ, it utterly fails to prove that the manufacturers who introduced their so-called "hair tonics" and "hair growers" years ago, did so dishonestly. It does prove, however, that people should keep better posted and rely more upon their own judgment. Yesterday, so to speak, diphtheria was considered a functional disorder; today it is known to be a germ disease, and it is treated successfully with antitoxin. Not since the world began has that peculiar form of active knowledge called "Gumption" paid bigger dividends than now. Knowledge is power, but gumption saves lots of trouble. Kill the dandruff germ with Newbro's Herpicide, and your hair will grow as nature intended.

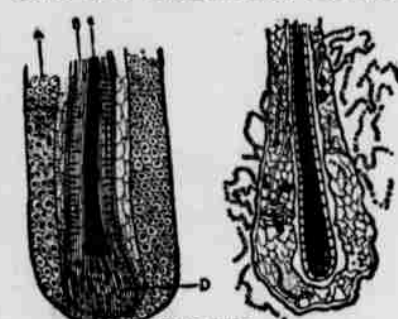

As a delightful hair dressing for regular toilet use, NEWBRO'S HERPICIDE easily leads the world today. Perfectly clear and chemically pure, it contains no grease, oil, or sedentary substance, neither will it stain or dye. Its antiseptic action makes Herpicide a hot weather necessity, and its odor, which is characteristic, delights the most fastidious. Try it.

## NOT A HAIR GROWER.

Newbro's Herpicide is not a "hair grower." It is simply an antiseptic and prophylactic scalp lotion and hair dressing that, by destroying the dandruff microbe, keeps the scalp sweet, pure and wholesome, after which dandruff disappears, itching of the scalp stops, and healthy hair sprouts from each hair follicle in which any life remains. The dandruff microbe enters the scalp in a very insidious manner; its presence is wholly unsuspected at first, and its growth and development is very slow, often covering a period of several years. When colony after colony has spread over the scalp, its destructive action becomes increasingly apparent and unless something is speedily done, falling hair and baldness will follow excessive dandruff. Herpicide stopped the microbe growth in Hilda Meier's scalp, and nature quickly asserted itself; read her letter:

"For several months past my hair continued falling so rapidly that my scalp was becoming bald and shiny and I contemplated the purchase of a wig. All the remedies I tried seemed to irritate my scalp and make it worse. A friend recommended your Herpicide, and after using it one week I was delighted to see that my hair was growing again. The action of your preparation is truly marvelous, and I cannot praise it enough." (Signed) HILDA MEIER. No. 621 Manhattan Ave., Brooklyn, N. Y.

## CAME FROM NE WMEXICO.

Young Business Man Claims as Bride a Newton Girl.

There occurred this morning at the Catholic church at 8:30 o'clock the marriage of Miss Celia Connell, a prominent young lady of this city, and Frank H. Duerr, a well-to-do young business man of Las Vegas, N. M. Mrs. Duerr is the daughter of Michael Connell, roadmaster for the Santa Fe at this point. She was born and raised in this vicinity and is well known and highly respected by a large circle of young friends. She was especially active among the younger members of the Catholic church, where she will be greatly missed. Mr. Duerr conducts a grocery business in the New Mexico city and is actively connected with the business interests there. He owns a nice home which is furnished and ready for occupancy on the return of the young people, who will leave for Las Vegas this evening. Mr. Duerr first met Miss Connell two years ago when she was visiting in Las Vegas. A courtship was started at that time which culminated today in their marriage.—Newton (Kas.) Republican.

## His Last Hope Realized.

From the sentinel, Gebu, Mont. In the first opening of Oakland to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping up on his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The reason for bowel disorders being at hand suggests this item. For sale by all druggists.

**RIVER RECEDING AGAIN.**Reached Highest Point of the Season  
Last Night.

The Rio Grande is carrying 17,400  
cubic feet of water per second past  
the government gauging station at  
Courchesne's landing. That is more  
than the average maximum for the  
high day of the flood of 1897, May 28.  
Engineer Follett stated today: "The  
condition of the river is remarkable.  
The gauge mark shows that it has  
fallen since noon yesterday a little  
over 0.5 of a foot, yet the river is car-  
rying more water than ever. It is  
probable that yesterday the maximum  
volume of flood was reached. I think  
that the volume during the day must  
have been close on to 19,000 cubic  
feet a second. It was 18,500 at any  
rate, and I believe more. That is 1,500  
cubic feet more than it had ever reach-  
ed before, and still everything is safe.  
The fact of the matter is that since  
Friday the flow has been as much, if  
not in excess of what it was in 1897,  
and no damage has been done."

The river up to noon had declined  
four inches from the highest point,  
reached Wednesday night. Yesterday  
the stream was again quite threaten-  
ing, and, in the twenty-four hours  
reaching up to Sunday evening, in-  
creased in volume something like 3,000  
cubic feet, being about 0.3 of a foot  
higher than on Saturday.

During the night of Sunday it fell  
about 0.2 of a foot and today about  
9 o'clock it had fallen another 0.1.

It was stated that the fall was grad-  
ual up to 2 o'clock. The river situa-  
tion in Juarez was the same as last  
Saturday. No trouble is being experi-  
enced with the jetties.

There was a scare at the headgates  
this morning at 10 o'clock. It was re-  
ported that the water had seeped  
through the dam and was working un-  
derneath the sandbags. It is thought  
that it will be impossible to send a  
train over the Santa Fe tracks to-  
night on something like time. The  
water has receded at San Marcial. The  
report that there was three feet of  
water over the tracks at White Spur  
was denied. At 6 o'clock tonight it  
will be known whether the road will  
run a train to Rincon via Las Cruces.

**Driven to Desperation.**

Living at an out of the way place,  
remote from civilization, a family is  
often driven to desperation in case  
of accident, resulting in burns, cuts,  
wounds, ulcers, etc. Lay in a supply  
of Bucklen's Arnica Salve. It's the  
best on earth. 25 cents at all drug  
stores.

**POTTER MORROW.**He Was Under Arrest, but Escaped  
Through Some Manipulations.

Sheriff Cleofes Romero has returned  
to Las Vegas from Belvidere, Ill.,  
north of Chicago, whither he went to  
arrest on the charge of embezzlement  
Potter Morrow, who is charged with  
having embezzled goods and money  
from the Simmons Hardware company  
of St. Louis. He presented his cre-  
dentials to the acting governor of Illi-  
nois, who gave him the necessary  
requisition papers, but after he had  
his man arrested and had started with  
him for the Wisconsin line, sixteen  
miles away, he was stopped by a sher-  
iff, who showed him papers counter-  
manding the order for requisition. So,  
in spite of a vigorous protest from Mr.  
Romero, who offered to bring witness-  
es to Chicago from St. Louis without  
expense to the state of Illinois, he  
was compelled to return without his  
man, whom he says was assisted  
through political machinations in  
avoiding arrest. It will be remem-  
bered that Morrow was the traveling man  
for the Simmons Hardware company  
who sold his samples and spent the  
money.

**Caution.**

This is not a gentle word—but when  
you think how liable you are not to  
purchase the only remedy universally  
known and a remedy that has had the  
largest sale of any medicine in the  
world since 1868 for the cure and  
treatment of consumption and throat  
and lung troubles without losing its  
great popularity all these years, you  
will be thankful we called your atten-  
tion to Boschee's German Syrup. There  
are so many ordinary cough remedies  
made by druggists and others that are  
cheap and good for light colds perhaps,  
but for severe coughs, bronchitis, croup  
—and especially for consumption,  
where there is difficult expectoration  
and coughing during the nights and  
mornings, there is nothing like German  
Syrup. The 25-cent size has just been  
introduced this year. Regular size, 75  
cents. At all druggists. J. H. O'Reilly

**A SIMPLE QUESTION.**Albuquerque People are Requested to  
Honestly Answer This.

Is not the word of a representative  
citizen of Albuquerque more convinc-  
ing than the doubtful utterances of  
people living everywhere else in the  
union? Read this:

Mrs. W. C. Wood, (W. C. Wood, em-  
ployed in the Santa Fe railroad shops)  
residence, 720 South Broadway, says:  
"When on a visit to Fall River, Mass.,  
I learned that Doan's Kidney Pills had  
been a household necessity in that city  
or years. Naturally when a person  
as backache themselves and friends,  
acquaintances and relatives contin-  
ually insist that a particular remedy shall  
be tried, you at least consent to take  
a course of the treatment. I used  
Doan's Kidney Pills and they stopped  
an aggravated attack of backache, only  
one of many which had occurred in the  
past. When I came west I brought  
with me a dozen boxes of Doan's Kid-  
ney Pills long before they were so ex-  
tensively known in California, as at  
present. I have not the slightest hesi-  
tation in publicly stating that I know  
from experience as well as observation  
that this remedy can be absolutely de-  
pended upon in all cases of kidney  
complaint causing backache, lumbago  
or other symptoms which follow in the  
wake of that far too prevalent annoy-  
ance."

Just such emphatic endorsement is  
plentiful in Albuquerque. Call at the  
Alvarado Pharmacy and ask what their  
customers report.

cents. Foster-Milburn Co., Buffalo, N.

### CALIFORNIA'S NEW PRUNES.

Some of Their Characteristics as Described by the Late Senator McMillan.

The recent seismic disturbances in California gave the late Senator McMillan an opportunity to tell a story about the boasting proclivities of the people of that state when referring to their fruit production, says a western exchange. The senator was fond of a good story or joke and told one with a great deal of humor and skill. While a party of friends were discussing the earthquake shocks in the golden gate state, the senator said: "They are so enterprising out there, I've not the slightest doubt, for instance, but that they'll take a very practical advantage of these seismic disturbances. They'll probably put an earthquake prune on the market, as prunes are what they happen to be booming just now. It will appear, I suppose, as soon as ever they can print the labels. They will describe it, at any rate you may be sure, in the most modern style. They'll say that the skin has been made tender by the sudden jar, that the juices have been wonderfully blended by the vigorous shake and that the stones have been loosened by the sudden shock. When those prunes are stewed they ought to rumble like the ominous sound of an approaching earthquake, and when you put one into your mouth you ought to experience a quick, little electric thrill. As for their effect upon the barometer, if that is brought near any of them, it will certainly fall to the notch opposite which are inscribed those dreadful words, 'Sudden disaster.'"

In Memory of Victoria.  
It has been decided to found an eye hospital and an asylum for the blind as Ceylon's memorial to the late Queen Victoria.

Bosnia Timber for South Africa.  
Timber is being exported from Bosnia to South Africa to be used in rebuilding farms destroyed during the war.

Making Cocoa Butter.  
Mr. F. D. Hill, consul at Amsterdam, says: "Cocoa butter is manufactured in the following manner: The cocoa beans are roasted, and after the shells are taken off the beans are ground and the cocoa is pressed out by means of hydraulic pressure."

Base ball will again be resumed tomorrow afternoon at the fair grounds during the game between the Browns and Old Town Tigers.

Wanted.  
We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and liver troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you.
