## FREIGHT HAND- LERS ON STRIKE

**All the Railroads at Kansas City Are Involved.**

### KANSAS KILLERS ORDERED TO JAIL

**Fire in Colorado Town Destroys Three Business Houses.**

Kansas City, June 18.—All the freight handlers employed at the local freight depots of the St. Louis & San Francisco railway, and the Burlington & Rock Island systems, went out this afternoon because the companies refuse to grant their demands for an increase in wages of nearly 25 per cent. This makes a total of 600 men now out, the Santa Fe men having struck on Monday. The demands of the men were made before the recent flood rendered all work in the yards here impossible. They were presented to the various railroads again today and promptly refused. Other roads may be effected. The railroads had anticipated the strike and had several men on hand to take the places of the strikers.

The forces at the various depots were entirely inadequate, however.

#### To Be Taken to Jail.

Lincoln, June 18.—A special from St. Francis, Kas., says that tomorrow Captain Cunningham and company will leave with Dewey, McBride and Wilson, who were bound over to the district court. He will place the prisoners in jail at Goodland or some other strong jail.

#### Destructive Fire.

Goldfield, Colo., June 18.—Fire broke out early this morning near the corner of Independence avenue on Ninth street in a building owned by C. R. Welsh, and that structure and two other large business buildings adjoining were destroyed. Loss about \$25,000.

### TWENTY-NINE YEARS AGO.

**Albuquerque on an Island in the Flood of 1874.**

#### PEOPLE SOUGHT THE BLUFFS.

The Citizen, apropos to the present flood excitement, reproduces the subjoined article from the Republican Review, published in Old Albuquerque twenty-nine years ago by Guillermo McGuinness. The clipping is taken from the issue of May 30, 1874, and just at this time is interesting reading:

#### THE FLOOD.

Albuquerque on an Island—People flying to the Bluffs—Excitement.

In our last we mentioned the fact that the river had overflowed its banks at the Rinconada and was threatening our town with isolation. The latter occurred on Sunday morning at 3 o'clock a. m., when the water which entered at Rinconada on Wednesday reached the river again above Baretas; thus partially cutting us off from all surroundings, communication being kept up solely by means of fording between here and points east and by boats between here and points south and west. On Monday, Tuesday and Wednesday a force of men were at work under the direction of Mr. Franz Huning and Lorenzo Montano, endeavoring to stop the breach, but owing to a want of sufficient help and the unsteady manner in which the men worked, no headway could be made and the attempt was abandoned. In the meantime the water had spread over a large portion of the lands along the margin, drowning out the budding crops, tumbling down houses and scaring everybody generally. This destruction was mainly due to the action of some persons between here and Alameda who threw up embankments across the channel where the water was seeking an outlet, thereby causing it to collect, rise and expand until it finally overtopped the obstructions and burst a passage through them. Other embankments existed in

its course in the shape of acequias, which also helped to spread destruction, some of which were cut or burst by the force of the water and others that resisted had to be opened notwithstanding the insensate objections of a few shortsighted individuals. A large force had to be kept at work day and night since Saturday last, strengthening the border of an acequia one mile above town, otherwise a still greater destruction of property would ensue and the town itself endangered. The losses so far are very heavy and numbers of poor people are rendered homeless. Ever since Monday last wagons loaded with the effects of some persons whose houses have been washed away, but principally of those timorous individuals who are always the first to fly at the mere semblance of danger, thus abandoning not only their properties but basely failing to do their duty in helping the community to combat a common danger, and as fear is always infectious, showing the worst kind of example to other who may have looked upon them as models of sensibility. It reminds us of a ship at sea in danger of being wrecked, when there is no ruling mind to direct and restrain the crew and passengers; the cowardly are the first to fly to the boats and abandon their companions in danger. Were it not for the exertions of Salvador Armijo, Santiago Baca, F. and C. Huning, Diego and Manuel Armijo, and the money contributed by H. Springer, Ambrosio Armijo and a few others, we think the town in all probability would have been swept away or at least a much larger amount of property destroyed. There were others who assisted according to their means and still several others who did not. We mention the above persons because they were the most conspicuous, spending more money, devoting more time and using more exertions in endeavoring to animate their neighbors, where no such animation ought to have been necessary. If Albuquerque is not swept away during the present flood it will be owing to the determination of the above named gentlemen. It has never been our lot to witness such a display of foolishness, cowardice, illiberality, ignorance and meanness as has been exhibited during the present excitement by some of our fellow citizens. On the other hand, we have numerous examples of the opposite virtues among those from whom we least expected it. The base of the bluffs in front of town, on the east side, is now lined with camping places where it seems to us the persons encamped although rejoicing in comparative safety, are suffering a great deal from exposure and anxiety at the prospective loss of their homes and crops. We know not, of course, whether the river will rise much higher than it is now, but believe if it should rise three feet higher, a proper display of energy, a unity of purpose and liberality of purse can yet save the town. The whole weight of our defense should not be left on the shoulders of three or four persons, no matter how much those persons have at stake. Every resident of this town has something to lose and ought to do something towards the common defense. The losses already incurred will be long felt and the prostration of business difficult to recuperate, and it is only through a proper display of public spirit that our difficulties can be overcome. Trust and resignation to the Divine Will are very good and noble virtues when misfortune comes upon us in any shape after having done all in our power to avoid it, but they should not be carried to the verge of foolishness by sapinely sitting down and awaiting its approach without making every possible effort to evade or turn it aside.

Owing to the embarrassment and in-

terruptions consequent upon the alarming reports brought here, about new breaks in the embankment made to resist the encroachments of the present flood, and the unsettled state of our society, we are obliged to omit the publication of a full sheet this week, and confine the use of our space to necessary advertisements, a compendium of general news and the fullest details possible to collect regarding the alarming and deplorable situation of our town and vicinity. We therefore ask the indulgence of our patrons for the present omission and conclude with the hope that by the time another issue will come due the present danger may be passed in safety and future floods properly provided for.

#### To Hear Noted Financiers.

Lynchburg, Va., June 18.—The Virginia State Bankers' association began its annual meeting in this city today with Oliver J. Sands, of Richmond, presiding. The sessions are to continue through tomorrow and the program provides for addresses by former Secretary of the Treasury Lyman J. Gage, President M. E. Ingalls, of the Big Four, and several other capitalists of national reputation.

Col. D. W. Packard left this morning for Denver, Colo., where he will spend several days in the interest of W. L. Douglas, the largest shoe manufacturer in the world. He will return here to the Alvarado.

### REWARD OFFERED

**For Murderer of Post Trader Pipkin Near Guam.**

#### MR. BENNETT TO FRONT.

The murder of Emmett Pipkin at the Box S ranch on the 12th or 13th of June, twenty miles south of Guam, as related in The Citizen of yesterday, was a most cold blooded and heartless one, and if the guilty party is not brought to justice, others are likely to occur, as this is the third killing of the kind within two years.

Ira B. Bennett, the wide-awake general manager of the American Lumber company of this city, on hearing of the crime sent the following telegram to Clark M. Carr, president of the Zuni Mountain Lumber and Trading company, at Guam, N. M.: "If subscription is being raised to detect murder of Post Trader please put us down for \$50."

This morning Mr. Bennett received a letter from Mr. Carr, thanking him for his prompt and generous offer, and stating that his subscription was on the paper now being circulated.

The paper has already been signed by the American Lumber company for \$50; R. L. Roberts, \$5; Zuni Mountain Lumber and Trading company, \$100. Mr. C. N. Cotton is authorized to receive the amounts collected. One-half of the total amount subscribed will become due and payable when the person or persons are bound over to the grand jury. The Indian who was arrested is strongly suspected of being the man, and he is in jail at Gallup, but it is going to be hard to secure a conviction unless some one gives information, and for that reason it is thought that a reward may do some good.

#### Banking Topics Discussed.

Atlanta, Ga., June 18.—At this morning's session, which was largely attended, the members of the Georgia State Bankers' association in annual convention listened to the reading of papers on the following topics: "Dis-honesty of Bank Cashiers," A. J. Hansell, Cuthbert; "Protest Law," Oscar E. Dooley, Jackson; "A State Auditor," W. D. Manley, Atlanta. Final adjournment will be taken late this afternoon after all unfinished business has been disposed of and officers chosen to serve during the ensuing year.

#### To Rush Work on Cruiser.

Camden, N. J., June 18.—The keel blocks of the cruiser Washington have been laid at the New York shipyard, this city, and the keel will be laid during the early part of next month. Work on the cruiser will be carried forward as rapidly as possible. It was the intention of the late President Morse to make a record as to time in building the Washington that would serve as an advertisement for the ship company. His wishes in this respect are to be carried out.

## BLOWN TO PIECES

**Score of Men Killed in Woolwich Arsenal.**

### INDICTMENTS FOR POSTAL FRAUDS

**Hotel Strike in Chicago Almost at an End.**

### THE NOTED KENTUCKY MURDER TRIAL

London, June 18.—Fourteen men were killed and thirteen injured by an explosion in the lyditte factory at Woolwich Arsenal this morning, several of the victims being literally blown to pieces. The building is completely wrecked. The roof was blown off and the interior collapsed. The explosion is attributed to the bursting of a shell. Six additional men are missing and it is believed that they were blown to pieces.

#### POSTAL INDICTMENTS.

Five Crooked Postal Officials in the Toils of the Law.

Washington, June 18.—The federal grand jury, which has been investigating postal affairs probably will bring in five indictments today against persons involved. It is learned on good authority that the jury has voted to return indictments against August W. Machen, Diller B. Groff, Samuel A. Groff, George E. Lorenz and Mrs. Lorenz. The specific charge, it is understood, will be conspiracy to defraud the government. The sensational feature of today's probable proceedings is the connection of Mrs. Lorenz's name with the transactions which led to the arrest of Mr. Machen and the Groffs. At the time of the arrest stories were in circulation that there was a go-between, but information at hand then was not conclusive enough to establish the identity of this particular party. Whether or not Mrs. Lorenz acted in this capacity is not known, but it has been suggested that this go-between was a woman.

### SAN JUAN FIGHT.

**To Be Reproduced on Grand Scale at Central Labor Union's Picnic.**

#### PLANS PROGRESSING.

The general executive committee of the Central Labor union's Fourth of July celebration met last night in Cabinet hall and talked over affairs.

The committee will have the celebrated San Juan hill fight reproduced on the night of the Fourth, and it is expected that it will eclipse any spectacular event ever witnessed in the southwest. The attack on the block house on the San Juan hill during the Cuban war, the flight of the Spaniards and the blowing up of the block house will be the real things. Some of the men who will take the leading parts were in the fight, while serving under the Stars and Stripes. The battle will be in full view of the grand stand and far enough away to prevent any accident to spectators.

Colonel Borradaile has been tendered and has accepted the position of having charge of the attacking forces.

All of the sub-committees reported things as going along nicely.

The local dealers in fire works who ordered the goods for the Central Labor union this morning received a dispatch stating that in order to insure the arrival of the goods in this city on time it would be necessary to send them by express. This adds considerably to the expense, but they must be had and so word was wired back to do so. There will be several new features in the fire works line, besides the usual set pieces, bombs, rockets, candles, etc.

Word was received that the daylight fire works were on the road, the bill of lading having already arrived. This is something which very few persons in this section of the country have ever seen. They are all that have been

claimed for them, and will be a great drawing card.

The union labor button has come and it is a neat affair. On one side is the following: "Come and bring the babies, union labor at home, Albuquerque, July 4th and 5th, '03." On the other side is: "Join us in a mammoth celebration, something doing all the time, July 4th and 5th, '03." In a very few days now they will be seen in every city, town and hamlet in the territory.

#### Chicago Hotel Strike.

Chicago, June 18.—Final adjustment of peace between restaurant and hotel keepers and their striking employees is looked for today. Change of front by warring unions and their virtual surrender of yesterday leaves little doubt that only remaining difficulty, the question of reinstatement of men and discharge or retention of imported non-union help, will be overcome. Conferences for the purpose have been arranged for today.

#### Celebrated Murder Case.

Jackson, June 18.—There was another "circuit" crowd here today to hear closing arguments in the case of Curtis Jett and Thomas White. Commonwealth's Attorney Byrd closed the case in a bitter arraignment of the conditions existing here. The case will probably go to the jury at noon. The case of Jett and White was given to the jury at 11:30 this morning.

### RIVER DISCUSSIONS.

**City Council Grants Full Power to the Mayor to Act.**

#### FLOOD DISTRICTS VISITED.

A special meeting of the city council was held last night and the condition of the river was discussed by members present; also by several others who were present and anxious to know all about the river.

Mayor Myers presided, and a resolution was passed, vesting supreme power in the mayor to act as he sees best during these prospective flood times. The mayor stated that he had not received the cordial support of the city in this important matter as he had expected, but now being granted by the council full power to act he would see to it that his first declaration "there is no danger of a flood" is fully sustained.

Hon. Frank A. Hubbell was one of the outsiders present at the meeting, and he, so it is understood, criticized an intended complimentary notice published in The Citizen, wherein it was stated that he (Hubbell) had "with revolver in hand waded out to the acequia embankment at Alameda and with a force of men cut the bank and turned the current back into the river." The Citizen received the information from a business gentleman and said that Mr. Hubbell deserves credit. Mr. Hubbell, however, has worked hard to prevent the overflow of farming lands between this city and Alameda, and announced last night that he would be responsible for \$750, money to be expended in the work, a like sum having also been agreed upon by the mayor.

B. Splitz of the dry goods firm of B. Ilfeld & Co., was also present at the council, and stated that his firm would stand the expense of twenty-five workmen for two days, and as many more, if needed.

The mayor informed Mr. Splitz that there was no extra men to hire, as all up the valley in the flooded district were now at work protecting their own premises.

Alderman Harsch, who has been in water almost continuously since the break, gave it as his opinion that the situation has been very grave, but better now.

In any event, a force of men were sent to the neighborhood of Dick Lusted's place and on North Fourth street last night to watch conditions, and report, should any break occur or any tampering with acequias not otherwise right, to the mayor.

The meeting then adjourned.

## DAMAGING TEST!— MONEY IS GIVEN

**The Insane Asylum Officials Were Brutal.**

### A FACTORY BUILDING FLOOR FALLS

**Leading Citizen of Illinois Charged With Diamond Robbery.**

#### Special to The Citizen.

Las Vegas, June 18.—The expert asylum committee began the examination of witnesses yesterday afternoon. The first witness, Dr. Dacosta, was followed by Benigno Romero, who testified that the main reasons that he tendered his resignation as regent was on account of complaint of cruelty brought to his attention and to the attention of the board and their refusal to act. The next witness was Mrs. Schiott, who testified that on one occasion Mrs. Gehring, one of the patients, fell on her knees, cried and prayed to be delivered from cold showers and the straight jacket, but her prayers were of no avail.

Mrs. Kate Ground said that the food of the patients in the violent ward was hashed all together. She assisted in feeding them, and objected to this, but was told that this was the orders.

Mrs. Manuelito De Jaramillo worked in the asylum seven years, and witnessed brutal treatment.

She testified that Teofila Moya, of Raton, refused to eat, and that the matron tried to feed her with a stomach tube. She did not think the matron knew how to use it, as it brought forth blood profusely. Blood was not on the instrument, but a great pool was on the floor. On one occasion Teofila on the order of the matron was dragged by the hair and clothing to the bath room and thrown into a tub of cold water, while her feet were held by an attendant, left there over ten minutes with her clothing on and was taken out stiff and insensible.

Witness thought she was dead. She was dragged to her room because she was too heavy to carry. She was not dried off. Witness went to the room later, but was denied admission, and was told by the matron that it was none of her business. The next morning she suggested feeding her, as was her custom, but was told that it was not necessary. That morning Dr. Tipton came to the asylum after he visited the wards, and she was called to prepare Teofila for burial. The witness left the asylum because she could not stand the way things were going. She tried to report to Dr. Tipton, but was refused a hearing, and said she had a great deal to tell.

Tipton said he wanted no complaints. Witness said that the body of Mrs. Gehring was always covered with bruises. Witness was told that if we divulge the secrets of the asylum the institution would go to pieces.

Nearly all who testified to the use of the straight jacket and administering shower baths said they were given as punishment.

#### Building Falls.

New York, June 18.—The third floor of a building at 49 Bowery, occupied as a box factory, caved in today, burying some thirty young women. Several are seriously injured. The girls were at work on the second floor.

#### Charged With Diamond Robbery.

Peoria, June 18.—Robert McDermott, son of Captain McDermott, a leading citizen, was arrested today, charged with the theft of \$2,000 worth of diamonds belonging to Thomas Webb of this city and W. H. McGarick, proprietor of one of the leading buffets, was arrested for receiving the stolen property. The diamonds were consigned from Chicago early in May, but disappeared while on the train.

#### State Meeting of Eagles.

Anderson, Ind., June 18.—The attendance at the first state convention of the Fraternal Order of Eagles, which began here today, gives evi-

dence of the rapid growth of the order.

Large delegations are on hand from Muncie, Indianapolis, Terre Haute, Fort Wayne and a number of other cities and reports of the officers indicate a healthy growth of the organization throughout the state. It is expected before another year to have at least two score local lodges instituted in various cities. The program of the present meeting extends over three days and provides for lavish entertainment in addition to the transaction of much business relating to the affairs of the order.

#### Y. M. C. A. Secretaries.

Lakewood, N. Y., June 18.—The thirty-first annual conference of the association of general secretaries of Young Men's Christian associations was regularly opened this afternoon, following the close of several preliminary meetings for the discussion of special branches of the association work. The opening address was delivered by Rev. Charles E. Jefferson, D. D., of the Broadway tabernacle, New York City. The conference will remain in session until next Monday.

#### EMPTY GRAIN SACKS WANTED.

Mayor Myers is determined, if any danger does exist, to nip it in the bud, and thus prevent a flood in this city. He wants all the empty grain sacks in the city, and requests that they be left as soon as possible at the warehouse of E. J. Post & Co.

### CAPTURED BY AN OUTSIDER.

**Afrikaner, a 15 to 1 Shot, Takes Suburban Handicap.**

#### GOLDSMITH, THE FAVORITE, ALSO RAN.

New York, June 18.—From all indications this year's race for the suburban, which takes place at Sheepshead Bay this afternoon, will be a grand struggle and the most inspiring spectacle the metropolitan racegoer has yet beheld. An attendance of 50,000 is expected.

This morning the candidates took their practice spins about the track, while the rails were lined with turf followers, stablemen and owners anxious for a final judgment on the prospects for the winner of the great race. The horses named to start embrace the pick of the great handicap horses of the east, though some of those that have figured as phenomenal racers have been eliminated from the contest. The field left is rather an even one and the size is sufficiently limited to give every starter a chance for the glory of a great turf victory and the thousands of dollars which fall to the winner. Goldsmith, W. C. Whitney's favorite candidate, continues to have the call and doubtless will go to the post heavily backed as the favorite in the race.

#### Taken by a Long Shot.

Afrikaner, 15 to 1, won the Suburban handicap this afternoon. Herbert second, Hunter Raine third. Time, 2:10 2-5.

#### Commencement at Michigan.

Ann Arbor, Mich., June 18.—The graduating class of the University of Michigan this year was one of the largest in the history of the university. The exercises of commencement week culminated this morning with the graduating exercises in the Waterman gymnasium. The graduates received their diplomas from President Angell and the annual address was delivered by United States Senator Quarles of Wisconsin.

The city of Albuquerque has had a  
narrow escape from flood. The dyke  
at Alameda should be made more se-  
cure.

If a flood could be stored at head-  
waters and gently paid out in irriga-  
tion, it would be the farmers' friend,  
instead of his despoiler.

What an immense stretch of flood-  
proof levees could be built by a sum  
equivalent to the value of the growing  
crops submerged and lost.

It the Santa Fe company could be  
induced to build a switch along the  
Alameda dyke at Correlas, the upper  
portion of the valley above this city  
would be well protected from future  
floods.

The New Mexican is very anxious  
that a certain territorial law should  
be vigorously enforced in Albuquer-  
que. This is another case where the  
Biblical advice about the mote and  
the beam could be applied.

Mayor Myers and the county com-  
missioners and many citizens, notably  
Don Rankin and Frank and Thomas  
Hubbell deserve great credit for faith-  
ful work in preventing the overflow  
of the Rio Grande from reaching the  
city.

It is not irrigation, but the drainage

Honolulu, Hawaii, will celebrate  
the Fourth with a big celebration.  
That territory is now a part and  
parcel of the great republic and believes

The El Paso Times says that the  
Central Labor union of Albuquerque is  
arranging for the Fourth and Fifth of  
July. An advance circular says:  
"This jubilation will be absolutely  
unique in the history of Fourth of  
July celebrations. The fact that it is  
managed by and for the Central La-  
bor union, now 1,000 strong, is enough  
to make it interesting."

The report that was given to this  
paper yesterday regarding the cut-  
ting of an acequia above the Alame-  
da dyke proves to be false in many  
particulars. Frank A. Hubbell had no  
revolver and did not use any threats  
in securing the opening of the acequia  
to let out the flood water that was  
pressing upon the dyke. The para-  
graph was given to this paper in good  
faith, and with no intention of doing  
Mr. Hubbell an injustice.

### THE OVERFLOW.

The present condition of the Rio  
Grande is proof positive that active  
work is necessary to protect this city  
from future floods. The whole upper  
end of the beautiful valley above this  
city is under water, and there is a  
mass of water slowly creeping down  
the valley towards this city. This  
back water has little current as yet,  
and can be handled by prompt work  
on the part of the people. If the river  
continues to rise it will be necessary  
to further strengthen the dyke at Al-  
ameda, and to erect another dyke just  
north of the city.

There is not the least bit of good ac-  
complished in getting scared under  
any circumstances, and in this case  
there is certainly nothing accomplished  
by idle rumors and telling about  
what might happen. What is needed  
is prompt work to prevent the flood  
water coming into the city. At the  
worst no great damage could be done.

From La Voz Publica.

John S. Clark, ex-coal oil inspector  
and prosperous sheep raiser from Las  
Vegas, passed through Santa Rosa on  
his way to his sheep ranch on the Sala-  
do.

Mrs. J. G. Gallegos, who has been in  
charge of the public school in this dis-  
trict for the past eight months, closed  
her school last Friday and the next day  
took the stage for her home in Las  
Vegas.

C. V. Safford, territorial traveling  
auditor, was a visitor in Santa Rosa,  
having come for the purpose of exam-  
ining the different county offices. The  
office of auditor as constituted now  
will be of great benefit to the territory  
of New Mexico, financially, and will  
add thousands of dollars into the ter-  
ritorial and territorial treasuries. Mr. Saf-  
ford went from here to Lincoln county.

horses and drivers; leaves Albuquer-  
que every day in the week, except  
Sunday, at 5 a. m. For particulars  
address W. L. Trimble & Co., agents,  
Albuquerque, or J. D. BLOCK, prop-  
rietor, Jemez, N. M.

The origin of the fire is supposed  
to have been incendiary, as no one  
was about the building for some  
days. The fire was discovered break-  
ing from the dwelling house, but al-  
though a number of people arrived in  
good time it was found impossible to  
do anything toward extinguishing the  
flame for lack of water. The oil or  
gasoline tanks were on the track in  
front of the building, but were shoved  
away in time to save them and their  
contents. Considerable of the assay  
materials, scales, etc., were saved. The  
loss is about \$2,000, partly covered by  
insurance. A few years ago Messrs.  
Ewing & Helmrod lost their sampling  
works by fire, the loss being very  
heavy. This additional loss will be  
severely felt by the boys. Among the  
people of Kingman the destruction of  
the building is regretted by reason of  
its associations, the dwelling being the  
first house erected in the town, the  
date being about the year 1881.

### IN ALL WALKS OF LIFE.

Herpicide Is Used to Cure Dandruff.  
E. H. Lyons, New York, N. Y.,  
says:

"I am very fond of Herpicide and en-  
joy using it. It is refreshing."

Dr. J. H. Bush, Toledo, O., writes:  
"Newbro's Herpicide has given bet-  
ter satisfaction than anything I have  
ever used."

Mrs. Borkey of Chadron, Neb., says  
of Herpicide:

"It cleaned my head of dandruff and  
stopped my hair from falling out. It  
is the best remedy for dandruff I ever  
used, and I have used a great many."

R. S. Colecan, Ann Arbor, Mich.,  
says:

"I have used two bottles of Herpi-  
cide and derived benefit therefrom."

"Sold by leading druggists. Send  
10c in stamps for sample to The Her-  
picide Co., Detroit, Mich. B. H. Briggs  
& Co., special agents."

### CLAYTON.

From the Enterprise.

Mrs. Robt. Brown returned from  
Kansas City.

Those who planted alfalfa this year  
are now congratulating themselves up-  
on their foresight.

Mrs. N. E. Charlton and her daugh-  
ter, Alice, left for Olivet, Kas., where  
they will visit for a month.

Prof. Tooley, from Oklahoma City,  
Oklahoma, is in the city for the  
purpose of organizing a dancing club. The  
professor comes well recommended.

J. L. De Haven was in town and re-  
ports that he has lost several sheep,  
which were recently sheared, on ac-  
count of the cold rains.

There has been considerable loss in  
lambs during the past week on ac-  
count of the rain. Several parties who  
had commenced to shear lost heavily  
from the newly sheared sheep.

### POSTOFFICE RECEIPTS.

Charges and Allowances in the New  
Mexico Offices.

Special to Citizen.

Washington, June 16—The following  
are the changes in allowances in the  
postoffices for New Mexico, beginning  
July 1, 1903:

Albuquerque, \$2,600 to \$2,700; total  
receipts \$24,854.93.

Carlsbad, \$1,500 to \$1,600; total re-  
ceipts, \$1,352.59.

Clayton, \$1,300 to \$1,300; total re-  
ceipts, \$2,726.93.

Deming, \$1,500 to \$1,500; total re-  
ceipts, \$2,943.98.

Gallup, \$1,500 to \$1,400; total re-

It is a great affliction for a woman to  
have her face disfigured by pimples or  
any form of eruptive disease. It makes  
her morbid and sensitive, and robs her  
of social enjoyment. Disfiguring erup-  
tions are caused by impure blood, and  
are entirely cured by the great blood-  
purifying medicine—Dr. Pierce's Golden  
Medical Discovery. It removes from the  
blood the poisonous impurities which  
cause disease. It perfectly and perma-  
nently cures scrofulous sores, eczema,  
tetter, boils, pimples and other eruptive  
diseases which are caused by the blood's  
impurity. It increases the action of  
the blood-making glands and thus in-  
creases the supply of pure rich blood.

"For about one year and a half my face  
was very badly broken out," writes Miss Carrie  
Adams, of 116 West Main street, Baltimore,  
Mich. "I spent a great deal of money with  
doctors and for different kinds of medicine, but re-  
ceived no benefit. At last I read one of your  
advertisements in a paper, and obtained a bottle  
of Dr. Pierce's Golden Medical Discovery. Be-  
fore I had taken one bottle of this medicine I  
noticed a change, and after taking three bottles  
I was entirely cured. I can well recommend  
Dr. Pierce's Golden Medical Discovery to any  
one similarly afflicted."

The sole motive for substitution is to  
permit the dealer to make the little  
more profit paid by the sale of less mer-  
itorious medicines. He gains; you lose.  
Therefore accept no substitute for  
"Golden Medical Discovery."

The People's Common Sense Medical  
Adviser, a book containing 1000 pages,  
is given away. Send 21 one-cent stamps  
for expense of mailing only, for the book  
in paper covers, or 31 stamps for the vol-  
ume bound in cloth. Address Dr. R. V.  
Pierce, Buffalo, N. Y.

THE MAN WITH THE LEVEL HEAD—Ah, you old sinner! No rest for the wicked!  
You will go on a bat while your wife's in the country, will you? You ought to suf-  
fer! But why didn't you do as I told you when I left you last night, and as I did  
myself: take a CASCARET Candy Cathartic before going to bed? You'd feel good  
like I do. They work while you sleep, fix up your stomach and bowels, cool  
your feverish liver, and make you feel fine and dandy the morning after.

ceipts, \$3,004.17.

Las Cruces, \$1,400 to \$1,400; total re-  
ceipts, \$3,037.25.

Las Vegas, \$2,100 to \$2,200; total re-  
ceipts, \$10,179.03.

Raton, \$1,800 to \$2,200; total re-  
ceipts, \$8,139.64.

Roswell, \$2,000 to \$2,200; total re-  
ceipts, \$10,219.13.

Santa Fe, \$2,300 to \$2,200; total re-  
ceipts, \$10,493.71.

Silver City, \$1,100 to \$1,700; total re-  
ceipts, \$5,664.95.

Socorro, \$1,100 to \$1,100; total re-  
ceipts, \$2,371.20.

Springer, \$1,100 to \$1,100; total re-  
ceipts, \$2,150.36.

Other offices where no changes are  
made not sent.

The fight will be hot and close next  
year between the cities of Raton, Ros-  
well, Las Vegas and Santa Fe as to  
which will be the second city to Albu-  
querque in the territory. They are  
each now marked at \$2,200. Raton ad-  
vanced this year \$400, Roswell \$200,  
Las Vegas \$100 and Santa Fe de-  
creased \$100. At a proportionate rate next  
year, Raton would be second to Albu-  
querque, Roswell third, Las Vegas  
fourth and Santa Fe fifth. Silver City  
had a decrease of \$100.

### Starting Evidence.

Fresh testimony in great quantity is  
constantly coming in, declaring Dr.  
King's New Discovery for consumption,  
Coughs and Colds to be unequalled. A  
recent expression from T. J. McFar-  
land, Bentonsville, Va., serves as ex-  
ample. He writes as follows: "I had  
bronchitis for three years and doc-  
tored all the time without being bene-  
fited. Then I began taking Dr. King's  
New Discovery, and a few bottles  
wholly cured me." Equally effective  
in curing all lung and throat troubles,  
consumption, pneumonia and grip.  
Guaranteed by all druggists. Trial bot-  
tles free, regular sizes 50c and \$1.00.

## Railroad Topics

Superintendent G. R. Joughins of the Santa Fe coast lines left today for California.

Louis Martinez, a laborer on the section at Challender, had the end of his finger smashed off while handling rails last Wednesday.

The court records in El Paso show that railway companies are defendants in suits for two millions of dollars, for deaths and personal injuries.

John McCallum is spending a few days with his friends in this city, and is enjoying himself. "Mack" is Lantry Brothers' head foreman at Camp No. 3 on the Belen cut-off.

The first passenger train operated by the Denver, Enid & Gulf Railroad company to enter the Santa Fe depot reached Guthrie, Okla., last Saturday. The new road runs from Guthrie to Enid.

The high stage of water in the Colorado river has compelled the moving of some track of the Santa Fe between Needles and the bridge, the water having encroached so far as to make the roadway unsafe.

The paper at Needles, Cal., says that there arrived the first of the week three new Scotch marine boilers of 125 horse power for the use of the Santa Fe shops. They will take the place of the present battery of five boilers.

F. L. Lanabie, chief clerk in the superintendent's office of the Santa Fe at Winslow, is spending a short vacation in San Bernardino, Cal., where he was married to a young lady of that city on June 12. Mr. Spencer is acting clerk during his absence.

A fact not generally known is that the bathing girl, used by the Santa Fe Railroad company for the purpose of advertising Coronado Beach, is a Phoenix girl, and as a consequence a damage suit is now in the courts, having been brought by this self same girl for using the picture without her consent.

Thomas W. Moss has been appointed traveling passenger agent of the Santa Fe coast lines, to succeed the late L. H. Dickson. The appointment is announced through a circular which has been signed by John J. Byrne, general passenger agent. It is effective from June 1. The new appointee has been in the employ of the Santa Fe for ten years.

A. N. Brown, general freight and passenger agent of the El Paso-Rock Island, has returned to El Paso from Chicago, where he went in company with Senator Andrews, president of the Santa Fe Central, to consult with the officials of the Rock Island system relative to the new traffic arrangements which will be promulgated between the three lines, on the completion of the Santa Fe Central.

The largest trainload of cattle to leave El Paso this season left over the Santa Fe line Sunday for Colorado, says the El Paso Herald. The train contained thirty-three cars of Mexican cattle consigned to W. M. Randall, for his ranch. This was the first train of cattle to leave El Paso by way of that line since the shipment of live stock was blocked several days ago, owing to the high water in Kansas.

Contracts have been let by the Mohave Gold Mining company of Arizona for the building of twenty-three miles of narrow gauge road connecting the mine and mill and then to the bank of the Colorado river, opposite Needles, says the Kingman Miner. The road may be carried to the Gold road. We have not learned to whom the contract has been let. Another rumor has it that a road from the Santa Fe will soon be constructed to connect all the mining camps in the San Francisco mining district by rail. This would be the proper thing, as the companies could then get supplies delivered at the mines at one-half the present cost, besides opening up a wonderful mineral section.

A reader of the State Journal at Dalhart, Tex., contributes the following: "Jones, the train master, has fallen! The hero of many a gastronomic battle is vanquished, and Myers, the invincible Joe, the man of many titles, heads the profesh."

"On last evening it was decided finally and forever, a contest that has well nigh exhausted the extensive verbiage of the English language. For months it has been a hard fought battle as to which of the well known gentlemen could put into the inner man the greatest amount of food and to settle the matter for the benefit of themselves and many admiring friends on both sides, they took possession of the Rock Island diner on No. 4 and were to wear results from Bucklin. At 8:30 p. m., two hours and thirty-eight minutes from the start, the anxious friends of the gladiators were advised, 'Myers won by a goose neck.' The contest was nip and tuck for two hours and a half, when Chris commenced to slow down and

at 8:37 he gulped, gagged and threw up the sponge, just as Myers was calling for the seventeenth steak. It is understood that quite a sum of money changed hands among the general office boys, as the operating department boys were backing Jones at two to one."

### THAT SANTA FE DIVIDEND.

President Ripley Says It Will Not Be Curtailed or Passed.

The many rumors which have gone forth regarding the curtailment of dividends on Santa Fe common stock have caused a decided panic among smaller stockholders, and many of them have been induced to sell their holdings at a loss. President Ripley of the Santa Fe in a recent interview regarding the matter, said:

"It is no part of my business to attempt to influence the stock market, but I do not like to feel that bona fide holders of our stock for investment are being induced to sell at a sacrifice because of these absurd stories about passing or reducing dividends. The dividends on common is not due until October 1, and the matter will not come before the directors until August. No man can tell what will happen between now and that time, but there is no more reason to anticipate a change in the dividend rate today than there was a year ago today. The subject has not been under discussion in the board because there has been no occasion for such discussion and nothing in the conditions to make it necessary."

### A Boycott Declared.

A Chicago dispatch states that the order of Railroad Telegraphers has declared a boycott against the Atchison, Topeka & Santa Fe road, a circular letter, signed by the president and grand secretary of the order having been received by the ticket agents of all the roads centering in Chicago. The letter asks the ticket agents, when routing passengers and freight, to discriminate against the Santa Fe.

The trouble between the telegraphers and the Santa Fe is of long standing. In 1890 the telegraphers and station agents became dissatisfied with their pay and working conditions and sent a committee to Chicago to make demands, and, after many conferences, a strike was called.

The officers of the order say that the company, by a subterfuge, induced the men to resume work at the end of seventeen days, and they also say that those who took part in the strike have

### "THE DUSTY MILLER."

#### And White Bread.

Most millers are bitter enemies of Grape-Nuts for business reasons, for Grape-Nuts food is largely replacing white bread for Grape-Nuts contains the whole of the health-giving grains, while the patent white flour in universal use today is made with the most healthful part of the wheat left out.

A miller of Newark, O., who has studied the subject says of Grape-Nuts: "I began by using the food once a day, then twice a day, and for the last six months three times a day and I confidently affirm that I have received more real substantial benefit from the use of Grape-Nuts than from all the other things I have tried. My trouble was indigestion and kidney disease."

"I began to receive relief at once and as I am a practical millwright and miller as well I can see and understand the philosophy of such a nutriment as Grape-Nuts and why its use gives us such good results. The continued use of patent flour bread will produce injury sooner or later because the true life-sustaining and life-giving elements of the wheat berry are eliminated in the manufacture of patent flour."

"My unasked-for advice to all is to use daily a nutriment like Grape-Nuts that retains all the vitality of the grain. For this very reason there is more direct virtue in the daily use of Grape-Nuts than in all the medicinal tonics in the world that crowd to overflowing the shelves of drug stores. 'The restaurant where I take my meals keeps Grape-Nuts on hand to accommodate me and others who eat to live and enjoy life and health.' Name furnished by Postum Co., Battle Creek, Mich."

Grape-Nuts can be served in a variety of ways—from plain breakfast food to the novel and delicious Grape-Nuts Ice Cream. See the little recipe book in each package.

### Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The uniform success of this remedy as made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by all druggists.

### Painful Injury.

C. L. Youngfoot, who is employed at the railroad shops, has met with a very painful accident. While at work his index finger of the left hand caught in a large circular saw and it was severed from the hand. The finger was dressed at the Santa Fe hospital.

If you want first class FIRE WORKS see O. A. Matson & Co.

### MINING NOTES.

The Cyclopic mine, Gold Basin district, Arizona, is working steadily and the mill turning out considerable gold in the form of auriferous cyanide.

Al. James is getting out ore from his mines in the Chemehuevi mountains, Arizona, that is said to run as high as \$5,000 per ton in gold. The average of the ore being taken out is about \$500 per ton. The vein is two feet wide and outcrops for a long distance.

H. C. Malloy and wife were at Kingman from Stockton Hill. Mr. Malloy is superintendent of the Earl mine, which just now is reported to be showing up splendid values.

A. J. Doran, president of Arizona's World's Fair commission, arrived in Kingman from Los Angeles. Mr. Doran is a well known mining operator and has made a number of successes in the handling of Arizona properties where others had failed.

It is rumored that a ten stamp mill is about to be installed at the Clay Springs group of mines, in the Music mountain country of Arizona. There is a good supply of water at Clay Springs and this will be brought in to be used in the mill. The mines show good bodies of free milling ore, which will be broken down and run through. The mine is one of the best in that section of country.

Lieutenant and Mrs. S. E. Adair of New York are guests of the Beale at Kingman. Lieutenant Adair is making an examination of the Bi-Metal group of mines, four miles south of Kingman, with a view to purchase. The mines are wonderful bodies of low grade ore, free milling and easily workable. The main line of the Santa Fe railroad crosses the vein of the Bi-Metal within a hundred feet of the main workings. The ore can be quarried from the vein, thousands of tons lying exposed on the surface. A big supply of water has been opened up in a well within a few hundred feet of the mine.

Cal Wilson, A. A. Schwerin and J. A. Farrell have struck it rich in the Wal-lapai mountains near the Enterprise company mines, Mohave county, Arizona. The ore is thick with horn silver and runs up into the hundreds of

dollars. The ore was struck at a depth of thirty feet and is widening with depth. The vein is large and the pay streak eighteen inches. It seems to be coming their way with a down-hill pull.

Outside orders solicited for Fourth of July FIRE WORKS. Write to O. A. Matson & Co., and get the best.

## ONE WEEK ONLY

Those who attended our last week's muslin underwear sale will know that this sale means another favorable opportunity to secure excellent values in high grade merchandise. The greatest sale in the history of this store's sales was our sale of undermuslins, even greater than we expected. The success was due to the fact that there are so many styles in the different line of prices lower than lingerie has ever been sold in this city before this event.

## Even Better

will be this sale of Wash Fabrics with the thousand after thousand yards of new dainty Dainty Washable Materials, from the sheer Organadies to the ever serviceable Gingham, to be sold at SALE PRICES this early in the summer season. On account of limited space we cannot go into details as to what the different specials consist of, or their worthy merits as special values, but you can get the correct information and see for yourself the great values as they are displayed in our wash goods department and throughout the store. By a visit to Albuquerque's largest store.

### MEETINGS.

Regular communication of Temple lodge No. 6, A. F. and A. M., this evening at 8 o'clock. Visiting brethren are cordially invited. By order of the W. M. Robert Abraham, secretary.

The regular meeting of the public library commission is called for tonight at 8 o'clock in the office of the librarian.

Excelsior lodge No. 1, D. of H., will meet in regular session tonight at 7:45. After lodge has adjourned refreshments will be served. Etta B. Allison, recorder.

All members of G. K. Warren post, Grand Army of the Republic, are requested to attend the funeral of the wife of Comrade D. Denham, to be held Friday afternoon at 3 p. m., from the parlors of J. W. Edwards, at 307 West Railroad avenue.

All members of G. K. Warren Relief Corps will meet at Edwards' undertaking parlors Friday at 2:30 p. m. to attend the funeral of Mrs. Denham, wife of Comrade Denham. By order of the president. Temperance Whitcomb, secretary.

Triple Link Rebecca lodge No. 10 will meet this evening at Odd Fellows' hall at 8 o'clock sharp. Invitation and election of officers. All members are urged to be present. Mary Rogers, secretary.

### EMPTY GRAIN SACKS WANTED.

Mayor Myers is determined, if any danger does exist, to nip it in the bud, and thus prevent a flood in this city. He wants all the empty grain sacks in the city, and requests that they be left as soon as possible at the warehouse of E. J. Post & Co.

### JORDAN OFF.

Sheriff Lucas Left With Him This Morning for Topeka.

City Marshal McMillin on Sunday arrested Frank Jordan, alias Henry Williams, a colored man, who is wanted in Topeka, Kansas.

He is charged with assault with intent to kill. Sheriff Lucas, of that city, arrived yesterday afternoon, and left with Jordan this morning for Topeka.

### BUSY TIMES AHEAD.

Albuquerque Shops Crowded with Engines Needing Repairs.

The track down in the shop yards is now occupied by a long line of dilapidated engines that need only a good overhauling to put them in first class condition.

The shops are working all hands every minute of the time, but there is enough work, it is said, already in sight to keep the men busy all summer. More engines are coming in for repairs and there is some talk of hustling going on in the back shops. The local repair department is making a record this year for fast and thorough work.

### RIVER DISCUSSIONS.

(Concluded from page one.)

waters were rushing toward the city at a rapid rate; water now surrounding the woolen mills and the government Indian school place was under water to a depth of a foot or two. One report had it that North Fourth street, between the saw mill railroad track and the big acequia, was under water, and with an expected rise of only a few inches that part of the city just beyond the mountain road would be practically inundated in a few hours.

The true facts are these: A drive to the woolen mills revealed no water whatever around the big plant, and the small acequia just northeast of the mills, was not carrying the bulk of water it is capable of.

### At the Acequias.

From this point a drive was made out Fourth street to the acequias that cross the street. The first acequia was found full of water, but no signs of it overflowing its banks. The second acequia, a hundred yards northwest, was practically empty, but the road and lowlands beyond and for several miles is inundated by several feet of water. This water came from overflowed acequias and the break in the dyke in the Alameda precinct of several days ago, and finally reached its level late yesterday afternoon and last night, being prevented from any further progress toward the city by the banks of the two big acequias.

### Water Was Expected.

Just before The Citizen representatives left this point Mayor Myers, Alderman Harsch, Street Commissioner Tierney and Hon. F. A. Hubbell drove up, and the mayor stated that some effort would be made immediately to draw off this accumulation of water. He assured the newspaper men that the collection of water at this point was expected, as it came from the break in the dyke before it was repaired, and from no new break or overflow. He also stated that the water further beyond and which came at the same time from the break had practically been absorbed by the earth.

Of course along the Fourth street road, beyond the two acequias mentioned, there are half a dozen farms and fruit ranches inundated, notably Ora Hunt and Joseph Provencher, and they have moved their household effects to more fortunate neighbors.

### Found All Right

From this point a drive was made to the government Indian school, and this institution, together with the Lockhart ranch, and the Foraker place, were found to be perfectly dry and no signs of water.

From here the drive was taken up the lane to the neighborhood of the J. E. Matthew Jersey dairy. Here resides, on this side of two acequias, the Menaul boys, J. E. Matthews, Richard Lusted and a Mr. Hendricks. These gentlemen were found all O. K.—no overflow water whatever on their places, but at the Lusted home this gentleman's family had the household effects of several neighbors, who resided on the north side of the acequia and were forced to move out.

### Yott and Allen Flooded.

Just across the acequia—one of which was found full and the other practically empty—is the J. D. Yott place. He has moved out and his place is surrounded by several feet of water. He was seen and stated that the water crept upon him at 6:30 yesterday evening. Without any further parleying, he and wife commenced moving out, leaving the residence and outhouses to the mercy of the flood. This morning the outhouse, or rather barn, succumbed to the water. Fears are entertained that the residence, which is two stories and of adobe, will fall some time this afternoon or tonight.

Adjoining the Yott place is the residence of W. P. Allen, who is a successful apiarist. His place is surrounded with water, and this morning his house fell to the ground. He reports having lost thirteen bee hives, with their accumulation of honey and bees in the flood.

In this immediate vicinity half a dozen adobe houses have succumbed to the waters, and several valley farms, vineyards and orchards are inundated. This water also came from the break in the dyke and the overflowed acequias in the Alameda precinct.

### Had Their Guns.

Here half a dozen native farmers were found with Winchesters, shot guns and revolvers. They had heard that the city intended to do some acequia cutting should it become necessary to prevent the overflow from coming into the city, and they were there to protect what they consider their rights, and to prevent any unnecessary overflow of their lands.

### Dyke Strengthened.

Messrs. Myers, Harsch, Tierney and Hubbell returned to the city from the dyke this afternoon, and Mr. Harsch called at The Citizen's office, leaving the information that the

river at the dyke has fallen over a foot since last night and the dyke considerably strengthened, especially in the weak places. He also stated that the acequia at the Fourth street crossing had been cut and the water was being drained nicely from the overflowed section on the Fourth street road north. It is the opinion of these gentlemen should no further break occur in the dyke at Alameda and none is expected except from an unforeseen rise, that there should be no further alarm among the people of Albuquerque as to a flood visiting this city.

### Renewed Excitement.

This afternoon, at 4 o'clock, Mayor Myers, who returned to the Alameda dyke, telephoned to his store, for the boys to close up and immediately come up to Alameda. The Whitney company and the Albuquerque Hardware company stores also closed, and all the employees of these three stores are now on the way to Alameda. A telephone message to The Citizen gives the information that the water had broken through the Barcelas acequia, sending down a tremendous flow of water.

It is also learned this afternoon that the Barcelas bridge is weakening, but it is thought, with immediate attention, it can be saved from going down.

### Miss Howell.

Miss Howell is a reader of great power and charm, and so clothes with reality the character that she essays to portray that one forgets he is listening but to the reading of other men's words, so completely does the reader sink her own personality in that of her character part. Possessed of an innate refinement that pervades every motion and accent, a voice musical, sweet and well modulated, and a personality as charming as it is magnetic, Miss Howell proves herself to be an entertainer of rare ability. She was gowned last night in a costume made especially for this reading and copied from the drawings in the book of the Lady Mary Carlisle, the heroine of the little story. The gown was of white satin, heavily embroidered in roses. Her hair was arranged according to the portrait in the book, with the coquettish Janice Meredith curls, caught with crimson roses, and one long-stemmed red bud nestling in the laces against her bare throat. She made a charming picture which could not but add to the effect of the reading.—The Pasadena Daily News. Miss Howell will give a dramatic interpretation of "Monsieur Beaucaire" at Library hall Friday night.

### EMPTY GRAIN SACKS WANTED.

Mayor Myers is determined, if any  
danger does exist, to nip it in the bud  
and thus prevent a flood in this city.  
He wants all the empty grain sacks in  
the city, and requests that they be left  
as soon as possible at the warehouse  
of E. J. Post & Co.

### Band Concert Postponed.

The band concert which was to  
have been held at the Robinson park  
last night was postponed on account  
of the failure to get light on the sur-  
roundings. A break in the machinery  
at the electric light plant was the  
cause of the failure to have lights at  
the park.

The band had taken its place in the  
stand, and, although the weather was  
threatening, a good crowd had as-  
sembled to hear the music but were  
disappointed when it was announced  
that the concert would be postponed  
until Sunday night.

### For the Burro Race.

At a regular meeting Tuesday night  
of the Barbers' local union No. 501 of  
Albuquerque, the following were se-  
lected to represent that body in the un-  
ion burro race on the Fourth of July:  
Chapple Miller, of Switzer & Co.'s  
shop was elected as jockey; Robert H.  
Crane, of the European shop, puller,  
and B. B. Hopkins, of L. A. Tessier's  
shop, was named as pusher. The Bar-  
bers' union have selected their best  
material and are willing to back their  
entries, and promise that if they don't  
win they will give the winners a close  
shave.

The Painters' union have also select-  
ed their representatives, but their  
names have not been given out.

Worst of All Experiences,  
Can anything be worse than to feel  
that every minute will be your last?  
Such was the experience of Mrs. S. H.  
Newson, Decatur, Ala. "For three  
years," she writes, "I endured insur-  
mountable pain from indigestion, stomach  
and bowel trouble. Death seemed in-  
evitable when doctors and all reme-  
dies failed. At length I was induced  
to try Electric Bitters and the result  
was miraculous. I improved at once

## BIG MINING SALE.

## Cassino Group in Bald Mountain District Sold to Western Capitalists.

A mining sale which means much for this section was consummated last week, when J. C. Woodward disposed of a three-quarter interest in the Cassino group of mines to Los Angeles capitalists, represented by T. N. Stubbs. The claims are fourteen in number and a mile and are situated in the Bald mountain district, about nine miles southeast of Silver City.

The purchase price was \$110,000, on which a substantial payment was made to Mr. Woodward. It is the intention of the new owners in connection with Mr. Woodward to at once commence extensive development work upon the property, and among the first improvements will be the erection of a mill for the treatment of the ores, and new roads. During his ownership of the mines Mr. Woodward has given careful attention to the best process for handling the ores and has arrived at a successful solution so that no time will be wasted in experiments. By roasting, the ores can be handled by either amalgamation or cyaniding. The new management has already purchased considerable machinery from the Hearst estate for use in its operations.

The Cassino group has been operated for the past twenty years, and in recent years, under Mr. Woodward's management, has been a steady producer. Several thousand feet of development work has been done upon the claims. The ore is gold and silver.—Silver City Independent.

## Driven to Desperation.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25 cents at all drug stores.

## IRON-CLAD ASSOCIATION.

## Business Men of Roswell Have Formed a Strong Organization.

The Roswell business men have organized somewhat on the plan of the business men of the cities that have been troubled with strikes. Nearly every business man or firm in Roswell has signed the constitution and by-laws. The constitution states that the object of the association is the better promotion of business interests and to unite the merchants for joint co-operation of any and all matters affecting their joint or several interests. The three resolutions are as follows:

"First—Every man has a right to work for whom he chooses, for such wages as he sees fit, as many hours as he chooses, and to quit when he chooses, provided that in so quitting he does not violate his contract without adequate cause.

"Second—Every person, firm or corporation has the right to employ whom he, or it, pleases, for such wages as may be mutually agreed upon, and to discharge any employee at pleasure, provided that such discharge is not in violation of contract without adequate cause.

"Third—We do not approve of the boycott, and we will not employ, or retain in our employ any person who engages in it."

The fourth and last resolution is a pledge to abide by the three above given.

**Ladies and Children Invited.**  
All ladies and children who cannot stand the shocking strain of laxative syrups, cathartics, etc., are invited to try the famous Little Early Risers. They are different from all other pills. They do not purge the system. Even a double dose will not gripe, weaken or sicken; many people call them the Easy Pill. W. H. Howell, Houston, Tex., says nothing better can be used for constipation, sick headache, etc. Bob Moore, Lafayette, Ind., says all others gripe and sicken, while Little Early Risers do their work well and easy. Sold by B. H. Briggs & Co. and S. Vann & Son.

## EXPERT ACCOUNTANT'S REPORT.

## Final Report of Ex-Collector Abeyta of Socorro Found Inaccurate.

Messrs. Smiley and C. A. Baca, the accountants who have recently been engaged in auditing the accounts of Aban Abeyta, ex-treasurer and collector of Socorro county, have reported the results of their investigations to the board of county commissioners in session this week, says the Socorro Chieftain. The commissioners have thought best not to publish the report at present; but the nature of that report may be seen from a resolution adopted by the board Thursday and now on record in the county clerk's office. The resolution, which may reasonably be supposed to be merely preliminary to further action, is as follows:

The clerk is hereby instructed to notify Aban Abeyta, former treasurer and collector of this county, and each and all of his bondsmen as follows:

You are hereby notified that the final report made by Aban Abeyta, as treasurer and collector, showing him to be in debt to the county on final settlement in the sum of \$16,987.37, is not satisfactory, as examination of the books made under direction of the

Daisy Moore and Elizabeth Harrison, of El Paso, are registered at Hotel Highland.

Neill B. Field is in the city again after an outing at his summer home on the Pecos.

Mr. and Mrs. Ira B. Bennett are entertaining Mr. and Mrs. L. A. Kensey, of Indianapolis, Ind.

James D. Lucas, of Cerrillos, is in the city. He has been on the sick list the past few weeks.

Cade Selvy, special officer of the coast lines of the Santa Fe Pacific, was here yesterday on official matters.

Miss Mabel Hunt left yesterday afternoon for southern California, where she will spend the summer months.

Mrs. J. S. Armstrong and son have left for California. They have been the guests of Mr. and Mrs. Clarence Ten Eyck.

For the first time in twenty years the historic Corpus Christi procession did not take place in Santa Fe on Sunday, owing to rain.

Miss Hickey, one of the public school teachers, left yesterday afternoon for Berkeley, Cal. She will spend the summer in study.

J. A. Blonfin, cellist, and Mrs. Helen E. Pratt, pianist, will assist Miss Howells in her readings at Public Library hall tomorrow night.

The lively stables did a good business this morning. The people wanted to see the waters on North Fourth street and many visited the place.

W. L. Bretherton, in charge as superintendent of the W. A. Clark coal mines at Clarkville, McKinley county, was here for a few hours yesterday.

Miss Maud Custers left Saturday for southern California, where she will remain during the summer. The young lady is one of the public school teachers.

W. H. Stevens, of Los Angeles, passed through Albuquerque yesterday en route east. Mr. Stevens formerly resided here, when employed at the local railway storehouse.

A great many bananas are now being eaten by Albuquerque people; but we don't anywhere near come up to Boston people, who last year made away with three million bunches.

L. L. Henry, who was here on legal matters, returned west last night. Mr. Henry was for years an attorney of Gallup. He is now in the general merchandise business at Bluewater.

Harry Fluke, who was injured recently at the local shops and sent to the St. Joseph hospital for treatment, was down town today, the first time since he was sent to the hospital.

Fred Webb, who advertised a week ago that he would start a weekly newspaper at Belen, notifies The Citizen that he has given up the idea and will soon return to mining in Arizona.

The Debonair Dancing club did not hold forth at the Park hall last night. It was too dark to do good dancing, as the electric lights were off. The club will hold the fort next Wednesday evening.

Miss Ruth Long and C. Weyand, of Colorado Springs, came in yesterday. They were en route for California, but the train went off and left them. They, however, had good luck and got away this afternoon.

Oles Von Kleber, who is ranching at the Gran Quivira, Valencia county, is in the city purchasing supplies. He reports a constant rain every afternoon and evening since the first of June in his section of New Mexico.

Antonio Apache, the genial and cultured Indian, who is in the employ of Fred Harvey, left this morning for White Apache, White Mountain reservation, in Arizona. He will remain away for a dozen days or so.

Jose Ortega, who was killed by the cars at Rio Puerco on Monday night, is a son of Jose Guadalupe Ortega, of Rancho de Albuquerque, and brother of Juan Ortega, of old town, and an uncle of Mrs. Thomas Duran.

Robert T. Blair, during the vacation, has connected himself with Hall & Learned, the music dealers, and left last night for the towns in northern New Mexico. He was teacher of violin the past year at the school of music.

Rabbi Jacob Kaplan, of Temple Albert, is entertaining Or. Maurice Lefkowitz, of Las Vegas. They expect to interest the Jewish people here in an endowment fund for the great Hebrew Union college, which is to be built in Cincinnati. An endowment fund of \$500,000 is to be raised.

Mrs. Calvin Whiting is dangerously ill at Deadwood, South Dakota, from a stroke of paralysis, which she suffered a few days ago, and it is feared that she will not recover. The news reached the city yesterday in a letter received by Charles Whiting, a brother of Calvin Whiting, and also in a letter received by Miss Luthy, daughter of

Mr. and Mrs. J. F. Luthy, from Miss Eleanor Whiting, daughter of Mr. and Mrs. Calvin Whiting. The afflicted lady, with Mr. Whiting, resided many years ago in this city, and her many friends will regret to learn of her affliction, hoping that she may soon be restored again to health.

C. O. Cushman, of the clothing store of E. L. Washburn, returned to the city this afternoon. He was up in the Pecos country and did fairly well fishing, but made no record for himself, owing to the high water in the trout streams and the disagreeable, cold weather.

W. H. Becker, who issued a small folder regarding "Facts and Figures" about Albuquerque, left last night for Deming. The folder was so arranged as to contain advertisements, and a number of business men availed themselves of the opportunity to have their business announcements printed thereon.

Cade Selvy has received a letter from Capt. J. W. Green, formerly of Gallup, who is now the commandant of the province of Cagayan, Philippine Islands. The captain and family are well, with the exception of slight fevers now and then. Mrs. Green and the children may return to the United States this year.

City Marshal McMillin and City Clerk Lee visited the flooded district on the North Fourth street road this morning. Both are expert water advocates, the former having resided many years in the prohibition state of Kansas, and the latter in a state equally as bad, and they say positively that all danger has passed, although the rumors last night made them feel a little bit weary about the future of Albuquerque.

#### Police Court.

A colored man was given fifteen days or \$15 for being drunk this morning.

#### District Court.

A small justice of the peace case was decided by Judge Baker this morning. Some \$14 was involved.

#### Government Has Rights.

Washington, June 18.—Attorney General Knox has indicated to the navy department that he will render an opinion sustaining the contention of Rear Admiral Bowles, that the government has the right to complete work on the Galveston, now building at the Trigg shipyard in Richmond.

#### New Chief Clerk.

Washington, June 18.—The postmaster general today designated Edward F. Kimball, the chief clerk of the money order system, to act temporarily as superintendent to succeed James T. Metcalfe, who was removed yesterday on the charge of indiscretion on contract matters.

#### Mr. Graham Dead.

F. W. Graham died last night in the hospital at 8 o'clock from a complication of diseases.

He was a shoemaker by trade and had lived here some little time. His wife and child reside on Temple street, Los Angeles. A. Borders took charge of the remains. He notified his wife and she wired that his father would send instructions what to do in the matter. The deceased was about 35 years old.

#### EMPTY GRAIN SACKS WANTED.

Mayor Myers is determined, if any danger does exist, to nip it in the bud, and thus prevent a flood in this city. He wants all the empty grain sacks in the city, and requests that they be left as soon as possible at the warehouse of E. J. Post & Co.

#### UNION MADE BEER.

Manufactured by the Southwestern Brewery and Ice company, is the best, the purest, and most delicious drink to be found in the city. It is also the only union beer manufactured in the southwest, and every package is stamped with a union label. Drink a home product that we guarantee to be absolutely pure and superior to any beer in the market. Every good citizen should patronize home industry with all conditions equal as they are in this case.

Who said anything about fireworks? Well, we have them; all sorts, at the No Name store.

Monsieur Beaucaire, Library Hall, Friday Night.

A large and fashionable audience attended the first Pfister recital last evening, which was given in the dining room of the Hotel Pfister. The attraction was Miss Lila Jeanette Howell, who as an elocutionist has won golden opinions from the cultured set of Boston. She read from Booth Tarkington's novel, "Monsieur Beaucaire," which has been dramatized for Richard Mansfield. Miss Howell wore the costume of the time of Louis XV, ivy satin and roses, and succeeded admirably in carrying all the characters in the story to a successful climax. She changed her voice and added the finer touches in the way of lights and shadows to give a magnificent drama in monologue.
