VOLUME 16 ALBUQUERQUE, NEW MEXICO, THURSDAY AFTERNOON, MAY 28 1903 NUMBER 465

THE BLOODY MOUNTAINEERS

Make an Unsuccessful Attack on a Kentucky Jail.

GUARDS SHOOT AT THE PROWLERS

Kansas Mob's Failure--President Moyers' Strong Recommendations.

Louisville, Ky., May 28.—A special from Jackson says: "The firing of sentries late last night upon three men who were approaching the jail caused much excitement here. The populace was aroused and indiscriminate firing followed at intervals during the night. Nobody was hurt, as far as known."

Night of Horror.

Jackson, Ky., May 28.—There was a night of horror here and almost a panic among the troops as well as the people.

An attack was made on the jail and repulsed. Hundreds of shots were fired during the night. It is impossible to get reports of the attack on the county jail last night when a mob of hundreds charged on the jail where Curtis Jett and Tom White are held for the murder of J. B. Marcum.

It is not denied, however, that there was an organized effort on the part of the feudists to take Jett and White out of the jail. Some say the object was to lynch them and some say the purpose was to rescue the prisoners. Nothing can be ascertained this morning as to the results, the casualties or anything, and there is such a reign of terror as to prevent the securing of news or its transmission.

Midnight Prowlers.

Jackson, Ky., May 28.—Early last evening a body of about sixty armed men marched into Jackson. They were not bunched close together.

At midnight the prowlers began to sneak across the street from the bank south of the jail. The guards demanded them to halt. They refused and in reply fired several shots. The guards returned the fire. The prowlers ran about a hundred yards further and fired again. The guards then poured three volleys into them in rapid succession.

Moving objects were discovered on the north side of the jail and the guards fired again and killed a cow. A few moments before the firing a flash of lightning revealed a squad of men in the hills in the rear of the jail. It was expected that a concerted action was to be made to reach the jail and the troops prepared to give any corner a hot reception, but a terrific storm was raging and it was absolutely so dark that no further demonstration was made.

The bullet marks this morning showed that firing was accurate and numerous, although no one was hurt.

NEGRO'S NECK SAVED.

A Kansas Mob Failed to Lynch a Ravisher.

Wichita, Kas., May 28.—J. M. Woods, the negro arrested at Yates Center, is the charge of assaulting a white woman, is now in the Wichita jail.

A mob of 300 men with a huge plank approached the door of the jail at Yates Center, and the sheriff, county attorney and other county officers faced it with drawn revolvers, threatening to shoot if the mob came any nearer. The mob thought they meant it and it would retire only to make another approach. This was kept up until 1 o'clock this morning when the officers slipped their prisoner out and into a carriage, and drove seventeen miles to another railroad and brought their man to Wichita.

FEDERATION OF MINERS.

President Moyer Uses Strong Words in Annual Address.

Denver, May 28.—President Charles Moyer's annual address to the Western Federation of Miners, which is holding its convention in this city, was made public this afternoon. He said the American Labor union and the Western Federation of Miners declared for independent political action. Notwithstanding the wonderful increase in the ranks of organized labor, he finds no improvement in the condition of the wage-earner. Referring to the anthracite coal miners' strike and results of arbitration in the case, he said it was not satisfactory and took occasion to censure John Mitchell for the settlement. He referred to the

Colorado legislature's failure to enact the eight hour law, and said it showed that no dependency could be placed in promises of republicans or democrats. He believed the time had arrived when the Western Federation of Miners should declare for an eight hour day and this convention should specify a definite date for the establishment of the eight hour day throughout the jurisdiction. He recommended holding biennial instead of annual conventions and an amendment to the constitution of the authority of the executive officer in regard to calling strikes. He antagonized the practice of locals entering into time contracts with corporations and renewed the suggestion of last year that provision be made for securing control of mining property and the establishment of headquarters at Denver.

SIR THOMAS LIPTON.

Sailed With Flotilla for United States This Afternoon.

Gourock, Scotland, May 28.—Sir Thomas Lipton's flotilla, consisting of Shamrock III, Shamrock I, the steam yacht Erin and the ocean tug cruiser, whose combined crews number 170 men, sailed from here for Sandy Hook at 1 o'clock this afternoon. Great crowds bade them farewell, flags were everywhere displayed and bands, whistles and sirens combined with the cheering of the spectators to give the cup challenger a great send off.

SOME SCHOOL MATTERS.

Figures to Show That the Democrat Told a Falsehood This Morning.

ARTICLE MISLEADING.

The morning sheet, the Democrat, presents a picture comparing the city with the county schools, which is not true, it says:

"In elegant school buildings which will compare favorably with like structures in any city of the nation, the school commencements were held, etc., while the country schools of Bernalillo county, without any buildings of their own, have their commencement exercises, the Lord knows when or how. A good many of them economize time and money by having their terms begin and end at the same time, and, taking the whole forty districts together, they constitute the variegated burlesque upon an educational system. Why this difference?"

And then goes on comparing the efficiency of the city officials and denouncing generally the inefficiency and political management of the gang and all such rot, as being responsible for the supposed conditions; but facts will show different.

While, of course, we cannot boast that our county schools are equal to the city schools, in any respect, yet the condition of the outside schools in this county is as good and efficient as any other of their kind in the territory. One great mistake of the morning sheet is in saying that none of the county districts have buildings of their own.

The Citizen representative saw Esavio Vigil, the county school superintendent, who has the honor of being the only school superintendent in the territory, this morning. We cite a few buildings and have had for the last four years, at least: School district No. 2, Sandoval, building, \$1,200; No. 3, Alameda, \$800; No. 4, Rancho de Albuquerque, \$700; No. 5, Bernalillo, \$3,000; No. 6, Los Padillas, \$600; No. 7, San Antonio, \$400; No. 8, Los Griegos, \$500; No. 9, Rancho de Atrisco, \$800; No. 14, San Ignacio, \$300; No. 15, Casa de Salazar, \$300; No. 19, Algodones, \$500; No. 21, La Ventana, \$500; No. 22, Los Candelarias, \$500; No. 23, San Antonio, \$250; No. 25, Guadalupe, \$500; No. 28, Atrisco, \$600; No. 29, Jemez Hot Springs, \$500; No. 32, La Jara, \$300; No. 36, Rancho de Albuquerque, \$350; No. 40, Bland, \$700; No. 42, Copper City, \$250; No.

48, Rancho de Atrisco, \$400; No. 51, Pena Blanca, \$1,250; No. 53, Cabezón, \$400; No. 54, Canada de Yrisarri, \$300.

All of these are modest, unpretentious buildings, built in the form of a large well ventilated and neat study hall, sufficiently adequate to the needs of each particular locality, and, what is better, that, although they "are not elegant school buildings," not a cent is due for their construction, for they have been built within the means of the several districts without crippling their school terms.

These are facts, not suppositions, and the editor of the Democrat or any one else interested can visit the different places and see for themselves.

Another point misrepresented by the Democrat is upon the term of the school year. The registers from the several school districts will show that the county schools for years have been kept in session from five to eight and up to ten months a year, the average being seven.

Most of the school buildings were constructed during the incumbency of Hon. Frank A. Hubbell as school superintendent, and at present many more are in contemplation of building. This statement is made simply in justice, as against the sweeping assertion of conditions made by the Democrat this morning. Some of the country schools are in session today. As to commencements, elegant buildings, programs, recitals, elocution and flowers, the country schools will have to plead guilty, but we will reach up to that by and by.

MEMORIAL DAY.

Program of Exercises at Robinson Park, Saturday, May 30, at 10 A. M. Music by Indian band.

Call to order by Commander A. Harsch.

Invocation, Rev. W. J. Marsh.

Music, America.

General orders of commander-in-chief, read by Adjutant W. W. McDonald.

Reading of John A. Logan's Memorial Day orders, Past Department Commander Leveritt Clark.

Music, Indian band.

Lincoln's Gettysburg address, by Capt. Z. H. Bliss.

Music—Hymn, "Blest Be the Tie That Binds."

Introduction of speaker, Prof. R. W. D. Bryan, by Commander A. Harsch.

Music by children of Indian school.

"Tenting on the Old Camp Ground."

Memorial service for the unknown dead by Woman's Relief Corps.

Music, "The Star Spangled Banner."

Benediction.

Music in charge of Prof. John Douglas Walker.

By resolution of the National encampment of the Grand Army of the Republic, all flags are to be placed at half mast. This is requested of all parties flying flags on that day.

The Grand Army Post and Woman's Relief Corps are requested to meet at Grant's hall at half past nine.

Prof. W. H. Stevens.

An ex-Albuquerquean is getting along fine down in southern New Mexico and is known as a professor. The Lordsburg Liberal says:

Prof. W. H. Stevens, superintendent of the Michigan-New Mexico Copper company, informs the Liberal that his company has purchased a fifty horse power, double cylinder, steam hoist which will be placed on the Decotah Pearl mine. The company has recently let a contract to have the shaft on this property advanced 100 feet. When this contract is completed the shaft will have attained the depth of 250 feet. A satisfactory feature of this development work is the constant improvement in the character of the ore as the shaft goes down. It is the company's intention to push development on the property until the shaft is down 500 feet, when they will erect a leaching and cyanide plant with a capacity of fifty tons per day. Professor Stevens leaves Monday for El Paso and Denver to purchase machinery for the International Mining company operating in the Malone district, of which company he is also superintendent.

DIED OF PNEUMONIA.

Little Daughter of William Collier and Wife Passed Away Last Night. Pneumonia claimed another victim about 9 o'clock last evening in the little 3-year-old daughter of Mr. and Mrs. William Collier at their home, at 1215 South Second street.

This family is seriously afflicted, for it makes the third death in the family within a year. The twin of the daughter who died last night died about six months ago, and a little boy died some months ago from the result of an accidental shooting.

The funeral will occur at the Church of the Immaculate Conception tomorrow, and the burial will be in the Santa Barbara cemetery. A. Borders has charge.

TOWN DESTROYED

Earthquake Wipes Out a Turkish Village.

THOUSANDS OF PEOPLE PERISHED

Blackfoot Indians Meet President Roosevelt at Pocatello.

ST. LOUIS TEAMSTERS STRIKE.

Constantinople, May 28.—Advices which reached here today from Asiatic Turkey show that a terrible earthquake occurred on April 29, at Melazgher, in the vilayet of Van, eighty miles south-east of Erzerum. The town was totally destroyed with its entire population, numbering 2,000 souls, including 700 Armenians as well as troops forming the garrison of Melazgher.

A somewhat severe earth shock was felt here this morning, but no damage was done.

MORE PARTICULARS.

Colonel Bey, Family and Many Soldiers Perished.

London, May 28.—The foreign office here today received some details from the British consul at Erzerum regarding the recent earthquake at Melazgher, according to which a strong shock lasting thirty seconds was felt on the morning of April 29 throughout the entire district between Lake Van and the Russian frontier and as far west as Kharput.

The town of Melazgher, consisting of 500 houses was destroyed and much havoc was wrought in the surrounding villages.

Col. Khalil Bey, commanding the garrison of Melazgher, with his whole family, three other officers and eighty soldiers perished in the ruins.

Lieut. Col. Tayib Bey, whose family perished, became insane.

The telegraph operator who sent the news of the catastrophe said he himself was badly injured and that his wife and sister had been killed.

ROOSEVELT AT POCATELLO.

Met by a Band of Blackfoot Indians and Cowboys.

Pocatello, Idaho, May 28.—President Roosevelt re-entered Idaho this morning and received a warm welcome here.

His train was met several miles outside of town by a band of Indians from the Blackfoot reservation, who raced alongside of it into Pocatello.

The president was met at the depot by a large crowd and escorted by cowboys and Indians, he was driven up town where he delivered an address.

NEW MEXICO SLANDERED.

Rev. Norman Skinner, of Las Vegas, Does it in Los Angeles.

SHOULD BE CALLED TO ACCOUNT.

Rev. Norman Skinner of Las Vegas is attending the Presbyterian convention in Los Angeles. He has slandered New Mexico, her people and her public schools.

On Sunday afternoon he spoke at a meeting held in the interest of home missions, at Immanuel church, in that city, and the Los Angeles Times says the commissioners were vigorously enlightened on the statehood problem which caused so much congressional splutter during the past winter.

The Times quotes his language as follows:

"I shall endeavor to speak the very last thing they want to hear in my country—the truth. They are afraid of it, and dodge or deny it on all possible occasions. We have a population of 200,000, of which 100,000 are Mexicans. Not 10 per cent of the Mexicans have any education whatever; all are looked upon with contempt by the whites.

"Christian education is New Mexico's only salvation. We have no common schools that are worth the name. Public instruction is the vilest farce, and whole families of all conditions are being brought up in absolute ignorance. I prophesy that it will be fifty years before we have any adequate system, and during that time charity is all for which we can hope. This is the territory, brethren, with its 90,000 poor, illiterate children,

bought and sold like cattle at every election—and at lower prices—into whose hands you propose to put the ballot of citizenship. Why, statehood is the very last thing that is wanted out there by men with public weal at heart. Pernicious private influences have sought it, but my prayer, morning, noon and night, is: 'From statehood, from corporate influences and from Matthew Quay, oh, Lord, deliver us!'

"The churches must put in more schools, and we must have teachers, strong men and strong women, who will rescue the young of that great section from absolute ignorance and vice."

After reading the above, what do you think of Rev. Norman Skinner of Las Vegas?

Here are some of the ideas he conveyed to the good people of California and Presbyterian ministers and delegates from all over this broad land of ours:

"Not a public school in the territory that is worth the name." How about this, Superintendent A. B. Stroup?

"Public instruction a farce." What have you to say to this, Colonel J. Francisco Chavez?

"Statehood not wanted." Every man, woman and child in the territory knows better than that. It is wanted, and it is coming at the next session of congress, too.

"I prophesy that it will be fifty years before we have any adequate system." He means school system. Just think of that!

"Not 10 per cent of the Mexicans have any education." To see that this is a lie, just look at the report of superintendent of public instruction, and also reflect on this, that we have in this territory Mexican men and women who are educated and upright persons.

How do you like this? "Ninety thousand poor, illiterate children, bought and sold like cattle at every election, and at lower prices."

"All are looked upon with contempt by the whites." What a falsehood! Does Rev. Skinner, a man who pretends to be a minister of the gospel, think that by such falsehoods he is advancing the gospel of Jesus Christ?

We believe not. Does Rev. Skinner look upon the Mexicans with contempt?

If the Times quotes you correctly, Rev. Mr. Skinner, you have disgraced yourself, and done an irreparable injury to New Mexico.

TEAMSTERS OUT.

Opposed Their Leaders and Are Out on a Strike.

St. Louis, May 28.—The teamsters of St. Louis, who last night declared a strike, thereby opposing the councils of their officials, went out this afternoon, and this was followed by more freight handlers in East St. Louis going out in sympathy.

BASE BALL.

Browns and Old Town Tigers to Cross Bats on Sunday Afternoon.

The Browns and Old Town Tigers will play the third game of ball between them on Sunday afternoon at the fair grounds at 3 o'clock. Each team has won a game and this promises to be a hotly contested one. The Old Town Tigers have been strengthened by four new players. Rhodes and Wilson will be the battery for the Browns and Rambo and Pettis for the Tigers. The first Regiment band will be present.

SALAZAR-SANCHEZ.

Pretty Home Wedding Yesterday at Peralta.

The home of Policarpo Sanchez, near Los Lunas, yesterday was the scene of a pretty home wedding where his daughter, Miss Clarita, became the wife of Adolf Salazar of this city.

Mr. Salazar is one of the popular clerks in S. Benjamin & Co.'s store in this city. After a wedding trip to El Paso and points in Lincoln county, they will reside in this city. They have the best wishes of a host of friends for their journey down the track of life.

SENIORS ARE ENTERTAINED.

Sophomores Do the Entertaining and Serve Refreshments.

The seniors of the Central high school were delightfully entertained last evening at Park hall by the sophomores. The hall was decorated for the occasion with yellow and white. Ice cream and cake and punch helped the inner man feel better. The party was chaperoned by Prof. and Mrs. A. B. Stroup, Mrs. Dobson and Miss LeVitt. Those present were: Misses Fox, Schuster, Kuhns, Rosenwald, Spitz, Dobson, Luthy, Goss, Harsch, Yott, Vaughn, Huntzinger, Purney and Flake; Messrs. Strumquist, Holman, Anderson, Stamm, Clancy, Hayden, Field, Cousin, Sturges, Bearup and Kuhns. Mrs. Berry furnished the music.

DRIVEN FROM THEIR HOMES

The Rivers of Iowa Causing Much Destruction.

HEAVIEST RAINS KNOWN FOR YEARS

Presbyterian General Assembly Discussing Important Questions.

Des Moines, Iowa, May 28.—Hundreds of families were driven from their homes by the floods today, closely approaching the unprecedented record of last year, and continued to rise with such rapidity as to render it apparent that last year's record would soon be surpassed. At the Sixth street bridge at North Des Moines, the gauge is within six inches of last year's record of 21.4 feet. In the heart of the city the gauge indicates approximately 19 feet. The water today is rising at the rate of two inches an hour. Reports from above Des Moines indicate last year's record has been surpassed and the water is rising at a startling rate. All night scores of men patrolled the river banks, strengthening the levees, while many more were employed in removing the inhabitants and household goods from the bottoms. At 8 o'clock the levees on Maurice street gave way before the floods of the Des Moines river, swelled by those of the Raccoon, and 110 houses were flooded in an incredible short time. The inmates were compelled to run for their lives. The Raccoon is keeping pace with the Des Moines and has devastated many square miles of territory in the southwestern portion of the state.

At 9:45 the center span of the \$85,000 Meland arch bridge, in process of construction on Sixth street, was carried away, and it was apparent the south span could not withstand the

mighty current. The wreckage was swept against the street railway bridge, and that structure had a narrow escape. The loss to the bridge is estimated at \$30,000.

The Des Moines river at noon in the heart of the city was 20.4 feet and still rising rapidly. At 11 o'clock a break occurred in the North Des Moines levee, inundating a large residence district.

News from over the state is not reassuring. At Cedar Falls, the Cedar river rose suddenly during the night, so that a large number of persons had to be rescued in boats from upper floors.

News comes from Schaller of the drowning of Curtis Seek.

Communication was reopened with Audubon, and it was learned that seven children were seriously injured in a tornado Tuesday night. Five persons were injured at Brooks.

Kansas River Raging.

Topeka, Kan., May 28.—The Kansas river at this point is sixteen and one-third feet above official low water mark at noon and rising steadily. The water is spreading out over the city park and flooding the settlement known as "Little Russia." Several houses at that territory have been abandoned this morning. The city railway bridge is endangered and traffic across it will probably cease today. More rain is predicted by the wather bureau.

Worse Than Yesterday.

Salina, Kan., May 28.—The flood situation here today is worse than it was yesterday. Another heavy rain fell early today and the river is still on the rise. No trains can get out of town west, and many families have been shut off from supplies. Much suffering will result.

Heaviest Rain for Years.

Abilene, Kan., May 28.—A four hours' rain, the heaviest downpour in years, fell here this afternoon. Great damage has been done to all crops by the excessive rainfall of the past week and streams are again out of their banks.

PRESBYTERIAN ASSEMBLY.

Three Important Questions Under Discussion Today.

Los Angeles, Cal., May 28.—When Moderator Clyde called the Presbyterian general assembly to order at 9 o'clock this morning, it was evident from the order of business announced that today would be one of the most important of the assembly. Three questions which have caused much discussion in the church in past years were placed on the calendar for the morning session, namely, the report of the committee on revision of faith; the report of the special committee on divorce and remarriage, and the consideration of the Tennessee overture. This last is the overture, decision upon which will close or leave open the doors of the Presbyterian church to the colored race.

The Presbyterian assembly adopted the report of the revision committee for revision of confession faith.

Dismissed From Office.

Denver, May 28.—Assistant Adjutant General W. H. Sweeney, Jr., has been relieved from office. This is the result of long standing controversy with Adjutant General Bell.

Irish Lad Wins.

Brooklyn, May 28.—Irish Lad won the Brooklyn Handicap; Gunfire second, Heno third. Time, 2:05 2-5.

New Bowling Team.

The Stars is the name of the new bowling team that has just been organized. The team has issued the following:

"We, the undersigned members of the Stars bowling team, do hereby challenge the Diamond Cs to a match on any alleys at any time. Signed Connelly, Downs, Benjamin, Brown, Stevens."

The Diamond Cs will accept and the match will be pulled off Saturday night on the Sunnyside alleys.

Card of Thanks.

We wish to thank our many friends for the sympathy expressed to us over the tragic death of our little son, Renato; also to the Italian band for the music rendered at his funeral.

per.

A LAS VEGAS DEFAMER.

Rev. Norman Skinner, pastor of the
Presbyterian church at Las Vegas, is
attending the general assembly of
Presbyterians at Los Angeles, and the
Los Angeles Express, of May 25,
quotes him as saying some awful
things about the New Mexicans.

A marked copy of Rev. Skinner's
abusive interview, published in the
Express, has been received at The
Citizen office, and for downright
maliciousness—an article filled with
falsehoods—it beats anything yet pub-
lished about New Mexico.

It comes from a minister of the gos-
pel, and some of them, those like
Skinner, should never be allowed to
enter a pulpit, for such a place is for
men who should uphold the truth and
not otherwise.

He is credited from Las Vegas and
there are others in that town who
have, in the past, rushed into print to
publicly malign the people of this ter-
ritory.

Rev. Skinner should have fortified
himself with facts from the reports of
Col. J. Francisco Chavez, territorial
school superintendent, before giving
out his untruthful interview to the Ex-
press.

The article in question reads as fol-
lows:

"Rev. Norman Skinner, pastor of a
Presbyterian church in Las Vegas,
New Mexico, declared that no man
from New Mexico liked to hear the
truth about his own country. He said:
'Not 10 per cent of the 100,000 Mexi-
cans, which is half of the total popu-
lation, are literate. When you put New
Mexico into statehood, you are receiv-
ing into the rights of citizenship 90-
000 human cattle who are bought and
sold like sheep. Were I to write a
New Mexico litany, I should say:
'From Quay and carpet-bag politics,
good Lord, deliver us.' They are no
schools except those established by the
missionaries. We need in those
schools fifty sensible women teachers
and money to sustain them.'"

To the New Mexican: The reason
The Citizen is patting the Las Vegas
Advertiser on the back, these days, is
that the paper is not a political flopper
and traitor, is a republican paper and
is deserving of the support of the re-
publican party of the towns of Las Ve-
gas and San Miguel county.

JULIA WARD HOWE.

Hundreds of friends and admirers of
Julia Ward Howe congratulated her
yesterday upon the attainment of her
84th birthday. Felicitous letters and
messages were likewise received from
many parts of the country.

Born three days after the birth of
Queen Victoria, Mrs. Howe is today
very active in the intellectual and so-
cial world of New England, and one of
the most remarkable examples of men-
tal and physical vigor extant. It is
not unusual for her to deliver three or
four addresses a week, and no woman
in Boston can equal her as a toast-

mistress at a dinner or as an after-din-
ner speaker. She rarely fails to attend
a meeting of the Boston Authors' club,
of which she is president, and she still
takes an active interest in the New
England Women's club, the oldest and
one of the largest women's clubs in
America. She is president of a num-
ber of other clubs, and it is not un-
usual for her to attend two or three meet-
ings in a single day, while she is fre-
quently seen at evening meetings.

And another Las Vegas professional
man has come to the front against
statehood, and to show his venom he
slanders the people of this territory.
He is known as the Rev. Norman
Skinner.

INTERNATIONAL ARBITRATION.

The ninth annual conference on in-
ternational arbitration opened at Lake
Mohonk, N. Y., yesterday and will con-
tinue through the remainder of the
week. John W. Foster, ex-secretary of
state, is the presiding officer, and
among those who will address the con-
ference are William L. Penfield, who
represented the United States govern-
ment before The Hague court in the
Plus fund case; Dr. B. F. Trueblood, of
Boston, and F. W. Hollis, who was one
of the representatives of the The Hague
peace conference. The consid-
eration of the Venezuelan trouble at
The Hague court and other events of
the past year are expected to make
the present conference unusually inter-
esting.

Rev. Norman Skinner, the Presby-
terian minister of Las Vegas, who
slanders the people of New Mexico,
should be asked by the people of Las
Vegas to vamoose on his return to
that city from Los Angeles, and for-
ever keep away from this territory.
He is an unfit person to occupy the
pulpit of any church.

UNITED PRESBYTERIAN CHURCH.

At Tarkio, Mo., about 300 commis-
sioners and an equal number of visit-
ors met in general assembly of the
Presbyterian church of North America.
Those present represent every Presby-
tery of the church in America and also
the mission fields of Egypt and India.
The opening sermon was preached last
evening by the retiring moderator, Dr.
J. C. Wilson, of Erie, Pa. The sessions
are expected to continue one week.

The present assembly promises to be
one of the most interesting in the his-
tory of the church. Questions con-
cerning plans of working in the for-
eign mission fields are to come up,
and it is also believed that advanced
steps will be taken looking to a union
of the Associate Reformed Presbyter-
ian church.

The prohibitionists of Iowa are gathered
at Marshalltown for a convention at
which a full state ticket to be voted
for this fall will be named. During the
last two years the party in Iowa has
not grown in strength and influence
in accordance with the promise of for-
mer years and the convention will lay
plans for pursuing a vigorous cam-
paign throughout the state this sum-
mer. The name of Captain K. W.
Brown, of Ames, is prominently men-
tioned in connection with the gub-
ernatorial nomination.

Rev. Norman Skinner, the Las
Vegas minister, who went to Los An-
geles for the purpose of getting his
name in print so he could have the
opportunity to malign the people of
this territory, tells many falsehoods
in his interview. If he wants to see
schools, and good ones at that, this
"distinguished minister of the gospel"
ought to visit Albuquerque.

Mrs. Lorraine J. Pitkin, vice pres-
ident of the auxiliary board of lady
managers of the World's Fair Frater-
nal Building association, has been
elected department commander of the
Woman's Relief Corps of the Illinois
division of the Grand Army of the Re-
public. Mrs. Pitkin has been identified
with fraternal movements for the last
twenty-five years.

Mr. Choate, the American ambas-
sador, at London, sailed for home yester-
day to attend the wedding of his son,
Joseph H. Choate, Jr., to Miss Cora
Oliver, which is to take place at Al-
bany, June 6.

The interstate commerce commis-
sion is anxious to find a way to make
Baer talk about those anthracite deals
of his railroad. Give him the water
cure.

Foley's Honey and Tar is peculiarly
adapted for asthma, bronchitis and
hoarseness. Alvarado Pharmacy.

JEMEZ & SULPHUR HOT SPRINGS STAGE LINE.

Carries the U. S. mail; only line with
a change of stock en route; good rigs,
horses and drivers; leaves Albuquer-
que every day in the week, except
Sunday, at 5 a. m. For particulars
address W. L. Trimble & Co., agents,
Albuquerque, or J. L. BLOCK, pro-
prietor, Jemez, N. M.

PLAN A SURVEY.

Government Expert on Ornithology
Prepares Biological Survey of
New Mexico.

Vernon Bailey, a noted ornithologist
of the United States bureau of econ-
omic ornithology, is in Santa Rosa, pre-
paring for a biological survey of that
portion of New Mexico. After working
the country east of Santa Rosa his party
will swing around into the Capitan
mountains and gradually work toward
Arizona. The entire season's work,
however, will be in the territory.

Mrs. Vernon Bailey, nee Merriam,
sister of Dr. C. Hart Merriam, chief of
the bureau, will accompany her hus-
band on the entire trip. Mrs. Bailey is
an expert field worker, being an accom-
plished horseback rider and collector.
She is the author of an authoritative
work on birds of the western United
States.

Years ago, with no companion, save
his gun and a small boat, Mr. Bailey
made the remarkable and perilous
journey, in the interest of science,
through the entire Grand Canyon of
Colorado.

Made Young Again.

In my "teens" again" writes D. H. Tur-
"One of Dr. King's New Life Pills
each night for two weeks has put me
ner of Dempseytown, Pa. They're the
best in the world for liver, stomach
and bowels. Purely vegetable. Never
gripe. Only 25c at all druggists.

Uses Grafting Process in the Kitchen Garden.

J. C. Noble, of Kingman, Arizona,
who is stopping at the American house,
Denver, claims to have devised a meth-
od by which gardening can be made
more practicable on small patches of
ground. He says vegetables can be
grown by his method on less than one-
half of the ground now used.

His method is one of grafting. As an
example, he says that the tomato and
potato plants can be so grafted that
both vegetables will grow on the same
plant, the tomatoes above and the po-
tatoes below ground. He also claims
that watermelons and green corn can
grow on the same vine. However, this
was only demonstrated by way of an
experiment and probably cannot be put
to practical use.

Quick Arrest.

J. A. Gullede of Verbena, Ala., was
twice in the hospital from a severe
case of piles causing twenty-four tu-
mors. After doctors and all remedies
failed, Bucklen's Arnica Salve quickly
arrested further inflammation and
cured him. It conquers aches and
kills pain. 25c at all druggists.

College Men Plan Novel Cruise of the Pacific.

Eugene Warren, of Silver City, a
graduate of the law department of
Stanford university, will leave June 1
on a novel cruise of the Pacific. He,
with a number of others, all college
boys of Stanford and University of Cal-
ifornia, have signed to act in minor
capacities on the transport Logan,
which sails June 1 for a two and a half
months' cruise to the Philippines and
other South Sea islands.

A. A. Herren, of Finch, Ark., writes,
"Foley's Honey and Tar is the best
preparation for coughs, colds and lung
trouble. I know that it has cured con-
sumption in the first stages." Alvarado
Pharmacy.

Bugs Destroy Grain.

People at El Paso from Gila valley,
Arizona, reports the crops in the west
damaged by plague chinch bugs, which
are destroying barley crops and other
small grains. The bugs, known in that
section as stink bugs, being larger than
the ordinary chinch bug, and having
an offensive odor, are traveling in
large numbers and creating havoc sim-
ilar to the grasshopper plague which
visited Kansas and other states sever-
al years ago.

IN OLD AGE the question of health
becomes mainly a
question of nutrition. If the stomach
and other organs of digestion and nutri-
tion are kept in a healthful condition
there will be a well-nourished body, and
little liability to disorders of the liver,
bowels or such other disorders as may
result from in-
nutrition and
lack of exer-
cise.

Dr. Pierce's
Golden Medical
Discovery cures
diseases of the
stomach and
other organs of
digestion and nutri-
tion, and also
diseases of other
organs which are
caused by the
diseased
condition of the
stomach. By
enabling the
perfect nutri-
tion of the
body it increases the vital power and
promotes a vigorous old age.

"I was a sufferer from chronic diarrhea for five
years," writes Mrs. Mary A. Aaron, of Riva,
Ohio. "I tried different remedies, which would
give me relief for a short time only. My trouble
would return as bad as ever. I consulted you in
July, 1900, and by your advice commenced using
Dr. Pierce's Golden Medical Discovery. I took
two bottles of the 'Golden Medical Discovery,'
three vials of the 'Pellies,' and some of the
'Extract of Sarsaparilla,' as you advised. I have
not had any return of my trouble since using your
medicines. And now seventy-one years old and I
never had anything to relieve me so quick as I
think Dr. Pierce's medicines has done for me. I
could not eat, and I never had any return of my
trouble since I used your medicines. My thanks go
for your advice and thanks to Almighty God for
restoring me to health through your hands."

Accept no substitute for "Golden Medical
Discovery." There is nothing "just as good" for
diseases of the stomach, blood and lungs.
Dr. Pierce's Pleasant Pellets, the best
laxative for old people. They cure constipation
and biliousness.

Railroad Topics

Foreman Wheatley, of B. Lantry Sons, arrived from the south this morning.

S. D. Lucas, head bookkeeper for B. Lantry Sons, at Belen, came up from that place this morning.

Engine No. 987, the largest engine in the world, came down from Las Vegas yesterday, and is resting at the local roundhouse.

Scottie Johnson, an engineer on the El Paso & Northeastern road, has been promoted to the position of roundhouse foreman at Alamogordo.

Superintendent F. J. Easley, of the New Mexico division, is in the city. He is accompanied by Trainmaster Snodgrass and Fred Marshall, private secretary to Mr. Easley.

About forty laborers from Santa Fe left today for Las Animas, Colo., where they will work on the railroad and in the sugar beet fields. They go via the Santa Fe railway.

Superintendent D. E. Cain, of the western grand division of the Santa Fe spent yesterday in Albuquerque and left last night for the north. It was his usual visit of inspection.

J. C. Parsons, superintendent of motive power for the El Paso & Northeastern, has resigned and E. W. Wurster, late of the Baldwin Locomotive works, has been appointed his successor.

Fireman G. B. Farrow, one of the popular firemen running out of Las Vegas, and a very efficient man with the scotch, has handed in his resignation and left for his eastern home.

W. G. Bernell, assistant general freight agent for the coast lines, was in San Bernardino for a short time on his way to his headquarters in Los Angeles, after an official trip to Albuquerque.

J. W. Stine, a machinist, who has been employed in the shops of the Santa Fe railway at Albuquerque, spent yesterday in Santa Fe. He has resigned his position and left for Alamosa, Colo.

Engineer Collins, one of the oldest engineers on the El Paso & Northeastern, has been appointed traveling engineer to fill the place made vacant by J. E. Jones, who goes back on the road as engineer.

A. W. Watcher has been transferred from his position as clerk to General Storekeeper Rice in Topeka to a storekeepership with the company at Newton. He succeeds Maurice Todd, who has been transferred to Albuquerque.

Joseph Daley, a Denver railroad contractor, was assaulted at an early hour Monday morning by a negro footpad, who broke his skull and stole \$400 from him. Daley is in the county hospital at Denver in a dangerous condition.

Zuni Mountain engine No. 4, property of the American Lumber company, was sent out to Thoreau yesterday and will be put in use helping lay track on the Zuni Mountain railroad. About ten miles of grade has been made.

J. P. McMurray, traveling engineer on the New Mexico division, is in the city. Mr. McMurray has lately been riding freight trains over his division investigation why it is that trains do not get over the road faster than they do. He came down from Las Vegas yesterday on a full tonnage train in ten hours.

The Las Vegas Advertiser says: "Harry Graham, brother of Clyde Graham, the popular clerk at Liffield's, came in from the south yesterday afternoon. Mr. Graham is employed in the superintendent's office of the Santa Fe at Kansas City, and is west on a pleasure trip. The brothers have not seen each other for five years."

The Big Four is testing an automatic stoker on one of its big freight locomotives, and it is said to work very satisfactory. It is said to make the work of the fireman much lighter and produces a steady fire with the use of less coal. The use of the automatic stoker, it is claimed, will lengthen the life of the fire box and flues. The opening of the door so often in the regular way of firing lets in the cold air and the changes in temperature weakens the plates.

The San Bernardino Sun says: "A change went into effect at the local shop office yesterday, whereby J. H. Lightfoot, who has been connected with the division master mechanic's office for several years, and who is one of the best posted men in the local clerical ranks, becomes timekeeper, vice F. S. Swanson, resigned. Mr. Swanson has left for Topeka where he will visit with relatives for several months. Mr. Lightfoot's desk has been given to Burt Gregory, a Topeka man, who has already arrived from the east to take up his duties."

J. W. White, auditor of the Santa Fe coast lines, was in the city for a short time yesterday. He is on his way back to his headquarters in Los Angeles after attending the system auditors' meeting in Chicago. The other auditors left Chicago on Monday for Hot Springs, Va., where they will attend the annual meeting of the association of American Railway Accounting Officers, which is to commence on Wednesday. This is the busy time of the year on the coast lines and Mr. White did not think that he could spare the time to attend the meeting.

Succeeds Judge Sterry. A Prescott dispatch says that the death of Capt. C. N. Sterry, solicitor of the Santa Fe system for California, makes it necessary for T. J. Norton, Esq., to take charge of the Los An-

geles office of the local department in addition to his duties as solicitor for Arizona. Prior to the death of Captain Sterry, when it became evident that his illness was of a grave nature, arrangements were made for Mr. Norton to take charge of the California office during the next two months, and now it is probable that he will have to devote most of his attention to the California department indefinitely.

During the comparatively brief time in which Mr. Norton has been a resident of Prescott he has performed his duties as legal representative of the Santa Fe system in such a way as to establish firmly an enviable reputation as a lawyer and substantial, progressive citizen, and it would be a matter for deep regret here should his enlarged duties take him away from Prescott for a prolonged period.

Mr. Joseph Pomerville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets on trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box at all drug-ists.

FIVE THOUSAND DOLLARS.

Mrs. Kelly Wins Damage Suit Against the Texas Pacific.

In the case of Mrs. Kelley against the Texas & Pacific railroad the jury last night brought in a verdict in favor of the plaintiff for \$500. The case has hung on trial for the past two days in Judge Goggin's court. The issues were submitted to the jury about 5 o'clock last night.

This is the second time the case has been tried. At the first trial a verdict was secured for \$1,000, but it was set aside by the court. Mrs. Kelley sued for damages on account of personal injuries sustained in an accident some time ago. She claimed that the railroad company had a long string of cars across a street and she was obliged to drive around the cars over rough places and ruts, and the accident was the consequence in which she was seriously and permanently injured.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all druggists.

SANTA FE FOREMAN SHOT.

Termination of a Scandal in Shops at Point Richmond, Cal.

J. M. Dunlap, foreman of the passenger coach department of the Santa Fe shops at Point Richmond, Cal., was shot last week by a man named John Harper. A letter gives the following details:

"I knew Dunlap had been caught in a trap of some kind in which a very pretty woman figured, but when John Harper first appeared in the shops asking for Dunlap, and accompanied by the woman in the case, I did not realize what was to follow, for both Harper and his wife appeared perfectly at ease. I pointed out Dunlap, who was standing just out of sight behind a car. They talked low for awhile, and then Harper handed Dunlap a letter. After reading it Dunlap passed it back with the remark: 'If that's all you have, I guess we can do no business together today.' This remark appeared to fluster Harper, and just as Dunlap turned away Harper drew a revolver and fired. An officer grappled with him. Mrs. Harper stepped several feet off, and just as Dunlap was about to rise from where he had fallen after the first shot, Harper fired four other shots. The first shot pierced Dunlap's left lung, and of the four others one clipped off a finger on his left hand and another cut into his shoulder.

"Dunlap claims that he had been charged with intimacy with Mrs. Harper, and Harper alleged he had compromising letters which he offered to sell to Dunlap. The latter had asked to see five of the letters, and if he was satisfied that they were proof of guilt he would pay \$10 a piece for

DOCTOR ON FOOD.

Experimented on Himself.

A physician of Gallon, O., says: "For the last few years I have been a sufferer from indigestion, and although I have used various remedies and prepared foods with some benefit it was not until I tried Grape-Nuts that I was completely cured."

"As a food it is pleasant and agreeable, very nutritious and is digested and assimilated with very little effort on the part of the digestive organs. As a nerve food and restorer it has no equal and as such is especially adapted to students and other brain workers. It contains the elements necessary for the building of nerve tissue and by so doing maintains an equilibrium of waste and repair."

"It also enriches the blood by giving an increased number of red blood corpuscles and in this way strengthens all the organs, providing a vital fluid made more nearly perfect. I take great pleasure in recommending its use to my patients for I value it as a food and know it will benefit all who use it." Name furnished by Postum Co., Battle Creek, Mich.

them. Not being satisfied he refused to buy them, and the shooting followed. After the tragedy Mrs. Harper practically admitted the truth of Dunlap's version. Dunlap is in a very precarious condition, and it is feared grave complications will set in."

DANDRUFF CAUSED BY A GERM.

A New Discovery That Kills the Germ and Prevents Baldness.

Pretty nearly all the hair preparations for dandruff have some merit in allaying itching of the scalp, and in being a fairly good dressing for the hair, but there is only one that recognizes what causes dandruff, falling hair and baldness, and that destroys the cause, a little germ—and that is Newbro's Herpicide. This germ eats its way into the scalp, down to the hair root, where it saps that vitality, causing dandruff as it digs up the scalp into little white scales. Unless it is destroyed there's no permanent stopping of falling hair and cure for dandruff and baldness. Newbro's Herpicide kills the germ. "Destroy the cause, you remove the effect."

"Sold by leading druggists. Send for stamps for sample to the Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents."

NEW MEXICAN RAILROADS.

One Being Constructed From Lumberton and the Other in McKinley and Valencia.

Grading has commenced on the Rio Grande & Southwestern railroad between Lumberton and the timber belt around Gallinas in Rio Arriba county. The road will be about forty miles in length when completed and will open up the extensive timber section on the headwaters of the Rio Gallinas.

The American Lumber company is building a railroad fourteen miles in length from Thoreau in McKinley county, on the Santa Fe and Pacific railroad to its timber lands known as the Mitchell tract in the same and Valencia counties, which the American Lumber company has purchased. The work is progressing slowly, but will proceed more rapidly when the locomotives of the company arrive from the east.

Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan, locomotive engineer, Lima, Ohio, writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Alvarado Pharmacy.

SUMMER TIME CARD.

Santa Fe Schedule Now in Hands of Printers.

The new summer time card which the Santa Fe superintendents have been working on is now in the hands of the printers, says a despatch from Chicago, dated May 26.

Trains Nos. 9 and 10, the Colorado Flyer, are to be put in service on June 4th, and it is principally for this reason that the card is necessary. In connection with the new time table, No. 20, a new card will be gotten out covering lines west of Albuquerque, including the Grand Canyon railway.

Another important change will be taking off the daily California limited between Chicago and Los Angeles, and the putting on of a semi-weekly train to take its place. Another important feature of the new card is the marked changes in the schedules of the trains on the Colony branch. The service on the Hutchinson & Southern branch has also undergone a change. Trains on this line run direct from Hutchinson to Blackwell, instead of from Newton to Blackwell by way of Hutchinson, as was formerly done. This branch will hereafter have no Sunday trains.

The local L. & T. line has changed time as have the trains on the St. Joseph branch. These changes are made in order to enable passengers from these lines to make close connections with the flyer and the limited.

The new card will go into effect on June 4th and will be used by the Santa Fe until next fall, when the daily California limited will be resumed and the Colorado Flyer will be taken off for the winter.

Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

Credit Marks on the G. H.

Superintendent Hawkes of the Galveston Houston has just posted the following bulletin showing the number of men in the train service who were given credit marks last month:

"An engineer, fireman, conductor and two brakemen have each been given ten days' credit for switching a train while the yard crew were otherwise engaged and thus saved a delay to the train."

"An engineer and fireman were each given ten days' credit for entering the ash pans and fixing the dump grates, thus saving serious damage to the engine."

"A freight conductor has been given ten days' credit for clearing the track of cattle and closing the crossing gates."

"Two brakemen have each been given ten days' credit for firing an engine while the regular fireman was sick."

"An engineer and fireman have each been given ten days' credit for going into the ash pan and fixing the dump grates."

"An engineer has just been given ten days' credit for switching a passenger train."

"A conductor and two brakemen have just been given ten days' credit for assisting the engine crew in taking down an engine and thus saving a delay to the train."

You never heard of any one using Foley's Honey and Tar and not being satisfied. Alvarado Pharmacy.

SUMMER EXCURSIONS.

Fit and Style!

There are some things which can't be improved. One of these things is the "QUEEN QUALITY" shoe for women.

You can make it more elaborate, you can decorate it, embellish it, use costly materials and all that; but for \$100 a pair

you cannot make a better shoe

than "QUEEN QUALITY," having regard solely to the two great essentials of fit and style.

This means that mechanically it is perfect. As for its appearance, the fact that one hundred thousand women choose it instantly above all other shoes would seem to indicate that it is attractive. Why don't you go so far as to try on a pair the next time you go to the store? It costs nothing to see them fit your foot.

BOOTS, \$3.00. OXFORDS, \$2.50.

CALLUP GLEANINGS.

Interesting Items About People of a Good Town.

SCHOOL ROOM TOPICS.

Special Correspondence.

Gallup, N. M., May 27.—On Tuesday the children ran home telling their parents that Carrie Nation was in town, and several wanted to go down town to see her use her little hatchet.

The pupils of the Gallup schools are very busy this week, as it is the last of the term and examination is in order.

Mr. Risdon, who is holding a position with the Washington Life Insurance company in Albuquerque, will enjoy the freedom of his bachelor days as the wife and daughter will remain in Gallup part of the summer at least.

The young ladies of the Pinney family have secured the use of a piano and will put in some of their leisure time during vacation, practicing. Gallup has several music teachers, all good, but none better than Miss Susie McConnell.

Johnny Gordon and wife have taken charge of the Page hotel.

Mr. Pete Bulkley has rented the O'Bannon house vacated by the Gordons.

Mr. Alsdorf bought the Pat Canavan residence and the family are now located on Warren avenue. Rev. Patterson and mother are also located in Warren avenue in the Richter cottage.

Mrs. Palmer Kiltner and children will leave Gallup as soon after school closes as may be for a summer's outing in Salt Lake City and will visit for a time with the family of Rev. P. A. Simpson. Rev. Simpson will spend his summer vacation in Europe.

Miss Jessie Hawes, assistant principal of our city school, will spend a part of the vacation in Colorado Springs and the remainder at her home in Augusta, Kansas. Miss Hawes is a faithful and earnest teacher and well liked by her pupils and the general public and will return next year.

Prof. Tight, of the University of New Mexico, delivered an interesting lecture at the assembly rooms of the high school on Tuesday night. Prof. Tight is a fluent and entertaining speaker and his lecture was a treat, but the smallness of the audience is an open reproval to Gallup.

Miss McIntire, teacher in the public schools, will spend her vacation with her parents in El Dorado, Kansas. Miss Lizzie has been with us four years and was re-elected for the coming winter. Miss Edith Bayless is expected home this week from her visit with her sisters in Williams, Arizona. Miss Edith has been enjoying herself and surely no girl better deserves to have a good time.

Our young editors are all right. The Republican is a newsy little sheet, and for the size of the town, a paper as good as the best.

Mrs. Smith's room, the first primary, will give an entertainment on Thursday evening. I know of no more enjoyable home talent productions than the evenings given by these small people under the training of their estimable teacher. The program is always good and well carried out, though the little actors change from year to year. Some of the graduates having begun school life in her room, Miss Helen McNallen deserves much credit for the patient and careful manner in which she has instructed the grades under her charge. The eighth grade will be promoted to another room with the work of this year fully in hand, which will greatly facilitate their progress in the future.

The program for the commencement exercises is full of good things, beside the usual orations and class work and

the patrons of the schools are articulating a pleasant evening.

R. W. Wyper, and a brother, who is also a musician, having been leader of the famous Birmingham band will arrive in Gallup from Alabama in time to assist in the Memorial exercises and the members of the band are rejoicing thereat.

Prof. Decker, of Albuquerque, has been elected as principal of the Gallup schools to fill the vacancy caused by the resignation of R. R. Larkin. There is still one vacancy, as Miss Ritchie's health precludes her teaching again.

The dancing club still holds its semi-monthly sessions for those who enjoy dancing or for those who enjoy seeing the young folks have a good time.

Hodgson Bros. have added greatly to the appearance of their studio, and have also a large number of new subjects in the way of views, showing some of the best pictures of cliff dwelling that it has ever been my privilege to examine.

C. M. Sabin has opened his store on Railroad avenue and it has a neat and smart appearance.

Three of the Bowie boys will be home for vacation in the near future, Wallace, Ed and Morris.

Johnny Watkins is holding down a chair in the probate clerk's office of mornings and evenings, pending the close of school.

Miss McNallen will spend her vacation with friends in California and Miss Helen Blake will visit the home folks at Las Vegas.

LOCAL PARAGRAPHS.

Mrs. O. W. Strong has arrived from Los Angeles and is the guest of her sons.

Gabriel Armijo, editor of El Indito, is up and around after a month's sickness with pneumonia.

The two banks of Albuquerque will observe Memorial day by keeping closed doors all day Saturday.

R. A. Fullinwider, who, it is reported, will start a bowling alley in Albuquerque, arrived in the city last night.

Mrs. A. H. Whitmore and daughter, Irene, of Las Vegas, were passengers yesterday for southern California.

Pilgrim commandery No. 3, Knights Templar, will meet tonight for work in the Red Cross degree. All Sir Knights should be present.

Mrs. Fred Lewis, formerly of this city, but now a resident of Park View, Rio Arriba county, is here on a visit to her mother, Mrs. L. J. Rummell.

A Little Early Riser. Now and then, at bedtime, will cure constipation, biliousness and liver trouble. DeWitt's Little Early Riser are famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving strength to the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by B. H. Briggs & Co., S. Vann & Son.

A Romantic Young Couple. Edwin Moore and Miss Juanita Moore Wallace, a romantically inclined young couple, were married near Cloudcroft last week. The wedding party drove up into the mountains and were married by a justice of the peace only the necessary witnesses being present. The ceremony was performed while the couple was seated in a buggy. For a wedding tour they took a drive down James canyon. They will reside in Rushing canyon.

A. A. Herrea, of Finch, Ark., writes, "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Alvarado Pharmacy.

SCHOOL EXERCISES.

The Class Day at the Central High School.

A FINE PROGRAM.

Today is class day of the public schools of Albuquerque and this afternoon class day exercises were given at nearly every ward building in the city.

At the Central school building, the graduating class of 1903 and the junior class, or the class of 1904, rendered a very elaborate program. The high school auditorium was crowded to its fullest seating capacity with friends and patrons of the school and pupils from other schools of the city.

The program published in The Citizen of yesterday was carried out according to plans and was exceedingly interesting. The numbers were about half divided between the two classes, as were the colors. The seniors were liberal and allowed the juniors to distribute about quite lavishly their colors of green. The school colors are gold and white, and formed a greater part of the decoration of the auditorium. Potted plants in full bloom formed a back ground to the place where classmates stood in going over the exercises. In the front of the hall, high up, were "1903" and "1904," the significance of which was easily read—the class of today and one class of a year from now.

It was fit for fat in the exercises this afternoon, first the seniors and then the juniors slamming each other in humorous, good natured sarcasm. One of the most interesting and amusing numbers of the program was "sacred" to the seniors by the juniors. Superintendent Stroup requested this afternoon that it be stated, as he wished it thoroughly understood, that the commencement exercises at Colombo hall tomorrow night are free to all, and that it is not an invitation affair.

A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Potters Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.' For sale by all druggists.

The Las Vegas Advertiser says: T. Y. Maynard, the jeweler, is at the hot springs from Albuquerque, taking the baths to help a case of rheumatism.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

A small barn in "Dogtown" was destroyed by fire last night. The department turned out but was too late to do any good. The loss was about \$15.

From a Cat Scratch.

on the arm, to the worst sort of a burn, sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve, be particular to get DeWitt's—this is the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles. Sold by B. H. Briggs & Co., S. Vann & Son.

YOU PEOPLE WHO EAT.

Attention! If your appetite is on a strike call on D. Weiller & Co., the Gold avenue grocers. They can fix your's up. Everything to eat, always fresh; call and give us a trial.

Ayer's Hair Vigor

Keep your own hair. Get more. Have a clean scalp. Restore the color to your gray hair. It's easy. Probably you know this already. Then tell some friends about it.

J. C. Ayer Co., Lowell, Mass.

Luke Walsh, proprietor of the Metropolitan saloon, who was called to Pennsylvania on account of the death of a brother, is expected home tomorrow night.

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

All persons willing to contribute flowers for Memorial day will please leave them at the home of Mrs. A. Harsch, South First street, Friday forenoon.

A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Alvarado Pharmacy.

J. H. Bearup, president of the Rio Grande woolen mill company, was a passenger north this morning. He will return this evening.

A Startling Test.

To save a life, Dr. T. G. Merrill, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver trouble so I prescribed them. The patient gained from the first, and has not had an attack in fourteen months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only one at all druggists.

**Why
Pay as
Much**

for an inferior beer?

Schlitz beer costs twice
what common beer costs
in the brewing. One-half
pays for the product; the
other half for its purity.

One-half is spent in
cleanliness, in filtering even
the air that touches it, in
filtering the beer, in steril-
izing every bottle. And
it pays the cost of aging
the beer for months before
we deliver it.

If you ask for Schlitz
you get purity and age,
you pay no more than
beer costs without them.

Ask for the
Brewery Bottling.

SALARIES OF ACTORS.

Are Abundantly Exaggerated in the
Public Mind and Actors Keep
Up the Deceit.

Salaries of actors vary from almost
nothing to \$500 a week, with a few
exceptions that go above that, writes
F. E. Fyles, in Leslie's Monthly. I
doubt though that any supporting
actor outside of Weber & Fields' com-
pany gets more than \$500. Those
that go above are stars, many of
whom receive a fixed salary and a
percentage on the profits. A female
star who crowded a New York theater
the season before last for six
months received only \$150, while her
leading man was getting \$250. But
she was a risky venture for her man-
ager, who lifted her from a minor
position to stardom, and a failure
would have cost him much. Many
stars are their own managers, and
engage a business man to direct
their affairs for a salary, as they
would a supporting actor. The gains
of actors are abundantly exaggerated in
the public mind, and even among
themselves they endeavor to keep
up the deceit. A reason that so many
English actors are imported is that
players of the first class in London
receive a third less than equally tal-
ented and well-known Americans.

Borgia's Later Years.

In the National Library of Florence
an Italian historian has found a docu-
ment which contains many interest-
ing and hitherto unknown facts in
regard to the latter years of the fa-
mous Lucrèce Borgia. According to
it she took the veil and joined the con-
gregation of the Brothers and Sisters
of Penitence, which is better known
under the name of "Terziaries of the
Order of St. Francis." She received the
veil from the vicer general, Ludovico
de la Torre, and Giovanni Gonzaga
wrote to her uncle that during the
last ten years of her life she wore a
penitential shift. She died in 1518 and
was buried in the robes of her order.

Anger Cures Deafness.

Here is a novel cure for deafness.
According to several Dutch papers a
deaf woman, who resides at Krom-
me, had a quarrel a few weeks ago
with some of her neighbors, and as a
result got into a violent passion. As
she is 70 years old, her friends feared
that this sudden and terrible outburst
of anger would injure her, but instead
it completely cured her of her deaf-
ness.

Quick Arrest.

J. A. Gullidge of Verbena, Ala., was
twice in the hospital from a severe
case of piles causing twenty-four tu-
mors. After doctors and all remedies
failed, Bucklen's Arnica Salve quickly
arrested further inflammation and
cured him. It conquers aches and
kills pain. 25c at all druggists.

MARKET LETTER.

Special correspondence to Citizen.

Kansas City, May 25.—Cattle re-
ceipts at Kansas City last week
amounted to 22,570 head, against 19-
738 the same week last year. Al-
though the run was 4,500 less than the
previous week, everything sold lower.
Proportion of beef steers was heavy,
and average sales were lowest of the
season. Some improvement was not-
ed the last two days of the week on
handy weight steers that just suited,
but big steers were no better. Top
on fat steers was \$5.05. Worst loss
of the week was on medium to good
light weight heifers, and same are 50
cents lower in cases. All kinds of
stockers and feeders, she stockers
and stock calves were 25 to 30 cents
lower. A pretty good set of western
feeders sold last week at \$4 to \$4.25.
Colonel Lockhart of Rocky Ford, ar-
rived at Kansas City Tuesday with
twenty-eight loads of fed cattle, the
biggest string of that class of cattle
received here in a long time. Most of
the string was fat steers, which sold
from \$4.50 to \$4.75. Some good heifers
and bulls were also included, the
former bringing \$4.45 and the latter
\$3.50.

The run today is lighter than a week
ago, especially at other markets, and
trade opened up on a 10@15c higher
basis than the close Friday. Of the
5,000 cattle today, one-third are in
Texas division, leaving a reduced sup-
ply on native side. Very few western
included.

Sheep and lamb receipts at Kansas
City last week were 27,254 head,
against 21,096 the same week last
year. Mutton and lamb prices came
a little closer together during the
week. Texans and Arizonas gained
10 to 15 cents, and lambs lost about
the same. Woolled lambs brought \$7.35,
best spring lambs the same, clipped
lambs \$6.75, wethers \$5.25, ewes \$4.85.
Southwestern feeding sheep sold from
\$2.65 to \$3.25, and lambs \$3.50 to \$4.
Receipts today are moderate at 6,000
head, and the general market steady
on natives and westerns, but slow on
southern grassers. No Colorado lambs
included in receipts today.

THE NATIONAL COLONY AND SANITARIUM FOR CONSUMPTIVES

Special Correspondence.

Deming, N. M., May 27.—A mass meeting of citizens of Deming was held at the opera house, to talk over the National Colony and Sanitarium for Consumptives, which will be located at Deming. Addresses were made by Hon. James R. Waddill of St. Louis, president of the association, and Dr. W. H. Mayfield, also of St. Louis, third vice president and chief surgeon of the association.

The opera house was crowded to overflowing when Dr. Mayfield, the first speaker, was introduced. He was enthusiastically greeted by the audience, and spoke in part as follows:

Dr. Mayfield's Remarks.

Ladies and Gentlemen: I am delighted to meet with you and to receive this warm reception. This is my first visit to your delightful little city and while I have known for some time the general conditions of your climate, and its adaptation for the relief, treatment and cure for tuberculosis.

Many great institutions of learning, of benevolence, and of charity, have been organized, endowed, and brought to triumphant success by such philanthropists as Cooper, Peabody, Carnegie and scores of others and the world has been made better and kinder and brighter and happier thereby, but these great institutions, while they have accomplished great good to many, are narrow and circumscribed in their scope and power for good; and it has been left to the National Colony and Sanitarium for Consumptives to originate and lay before the world the plan and system for the successful treatment of this disease, which has no parallel in history—the grandest, the noblest and the most far-reaching of any institution of this character on this globe. The names of the charted members are a sufficient guarantee that every dollar contributed will be honestly applied to carrying out the plans and purposes of the association. There were originally only sixty-five charter members, but they represent all the honorable professions, all important fraternal associations, all religious denominations—Catholic, Protestants, Jew and Gentile—business men, railroad officials, eminent lawyers, statesmen, manufacturers, physicians and others. These eminent gentlemen have given their names and influence, and extended a helping hand, with no hope of any reward, except that we have done something to relieve the suffering and distress of our fellow men. This is to be our compensation for the time spent, and aid furnished; and this is enough, and all that we expect. My friends, we are all in the same boat. We are fighting a great battle, we want generals to lead, and soldiers to help win the victory. There is a great army of deadly enemies arrayed against us, and over one million of God's children are suffering, and dying, struck down and mangled by this merciless foe—destroying more lives and bringing more sorrow, and distress, on the human race than all of the invading armies in the world. We must build the breast works, and entrench ourselves against the mighty antagonist. We must show to the world that we are in great earnest, and that we have enlisted for the war, and under the providence of God and for the love of humanity we will gird on our armor, and in courage and faith, march on to victory. The great God of nature has furnished us the weapons to meet this arch enemy of man; He has set apart a home and prepared a fortress in this land of life and sunshine where this relentless enemy cannot enter and live. The great scientists and ablest physicians

of the world, through God's help, have shown us the way, and it is left to us to apply the remedy. The good people of our country are everywhere aroused, and are ready and anxious to give of their abundance, ample aid to push forward this great movement; and all they want to know is that we are sincerely in earnest, and capable of carrying out the magnificent plans which we have presented. There are many plans to raise funds for benevolent and humane purposes and it is just to you to state some of the resources which we have of securing the immense amount of money necessary to carry out the gigantic plans contemplated by this association.

First, there are over one hundred thousand fraternal associations in this country, the corner stones of which are brotherly love, friendship, charity and benevolence; prominent men occupying high positions in nearly all of these fraternal organizations, men who are thoroughly identified with and interested in its success. The intention is to ask each of these one hundred thousand separate organizations, or lodges, to contribute one dollar per month each; the amount is insignificant to each lodge but the aggregate amount is very large. This money will be used for the benefit of these various fraternal societies, and any one sent by either of these lodges will have the best of care and treatment that this association can provide. A block of ground will be set aside to any lodge or society, or all of them, who wish to erect a memorial or other buildings for the use and the benefits of their brethren; the only condition being that they conform to the rules and regulations of the association. Grounds will also be donated to any church of any denomination, any benevolent association or philanthropic individual who desires to erect and maintain a memorial building or buildings. The association itself will erect as soon as practicable a commodious administration building as headquarters for the managers, nurses and doctors, where those who desire to have what they want, and are able to pay for it, may be cared for in the most comfortable manner. The next important improvement would be to lay off a large plot of ground with a plaza or square in the center. This square will be surrounded by fifty or more neat, artistic cottages with nice sidewalks, beautified by shade trees, lawns and flowers, and last but not least Deming's pure crystal waters raised and flowing through it to give additional life and beauty to the whole. The occupants of these cottages will be required to pay a reasonable rent, and can live at home, but they will have the care of the sanitarium physicians and nurses. From this plot of ground broad avenues will be laid out and trees planted and watered; but a cheaper class or less expensive cottages will be built and furnished to occupants of less means at a nominal rent, in fact, just enough to keep up repairs, and insurance. Still another class of cottages will be built and given rent free for those who are entirely unable to pay. Then it is the purpose of the association to provide hundreds and if necessary thousands of comfortable tents in order to accommodate those especially requiring out door and open air quarters. It is also a part of the plan of the association to lay off small plots of ground, embracing from one-half acre to five acre blocks, and to give free use of these blocks for gardens, orchards, vineyards, etc., in order that all who are able may become as nearly as possible self-sustaining. There will be no rentals charged for these grounds, but the occupants like all others, must conform to the rules of the association. This much for our present plan.

Now, ladies and gentlemen of Deming, we wish to state most emphatically, that we have pitched our tents with you, and tell you frankly that we have come here because the conditions were the most favorable for our association, and for the relief and cure of tuberculosis, and not for any financial consideration. In our search for the best place to locate we have found many places where favorable conditions existed, but you have in addition to these conditions pure water and ample railroad facilities, and these two last items decided us in fixing a permanent location here. Our analysis shows that a consumptive bacillus cannot live here. You might gather up a half bushel of these germs and dump them in your streets and they will be dead before night and blown away. You complain of the little winds and sand storms you have here but I accept the situation, wind and all, and I tell you that the wind is one of the essential elements without which we would not want your location.

Now, as to the benefits to your little city, county and territory, from this work, I will say that the results cannot be computed at this time. In my judgment you will see train loads of health seekers, at no distant day, arriving here daily from all sections of the Union, coming in comfortable hospital cars, in charge of and under care of competent physicians and trained nurses, bringing them safely to this land of health and sunshine. Some of these people will bring money, which they will invest here at once, and many of them will be cured and have to remain here, because they cannot live elsewhere, and they will invest

their money and build up your city and county. They will erect factories, foundries, and start other enterprises for the improvement of your country. It was the health seeker that made the arid regions of California to bloom like a rose, and they will do the same for New Mexico and more. I am not trying to present to you a glowing future, because you might misconstrue my meaning, but if we succeed in our plans, I believe you may confidently expect, and look forward to, a city of from twenty to twenty-five thousand people at no distant day.

The beautiful tract of land donated to us by Col. P. R. Smith and associates, is well adapted to our purpose, and is about all we can expect, other than the memberships and moral support of your people. However, I can assure you that it would be greatly appreciated, and a handsome thing for your citizens to do, if they would raise a small fund to make the first improvements as a memorial to Deming—to be called the Deming home. This would only require a good well, a gasoline engine and a small neat cottage, say of ten or twelve rooms. This, with the liberal provisions made by Mrs. Clark, would enable the association to take care of a small number of important cases pending the construction of larger and more commodious buildings. In this connection, I wish to explain, that our charter absolutely prohibits any indebtedness or to allow any contracts made for improvements until the full amount necessary for their completion is in the hands of the treasurer of the association, hence, before we can practically apply any funds of the association for any purpose except actual expenses, we must have the full amount in hand. Then our recommendations and suggestions for buildings must go before the board of managers. All this requires time, and it is entirely possible that it may be September or October before we can commence substantial construction of any important improvements. In the meantime your individual efforts to provide shelter for a few parties whom it is expedient to send here soon as possible, will be greatly appreciated and will be an immense help to us in getting early action, and quick results in a financial point of view. We do not wish to be misunderstood as to what you do or do not do. The location is permanently fixed and the matter is settled beyond recall. We have accepted your land and will improve on the plans already laid out. We especially desire a large membership in your little city and county, and we invite them and all other cities of the territory to join us as members. The membership only costs one dollar a year and this entitles the owner to correspond with any officer of the association, to ask and receive any information which he may desire upon the subject. It further entitles him or her to friends of his, or hers, to a free examination, by any physician belonging to the association, in any place in the United States, wherever one of our physicians are located, and he will be correctly advised whether it is desirable for him to go, or whether his case is too far gone to justify the effort.

Placing the membership fee at the low sum of one dollar does not prohibit any one from paying any more, if he is able, and desires to do so. Some pay from five to one hundred dollars, and are more able to do so than others who pay one. It is expected by the association that within one year from this date that they will have at least one million one dollar subscribers. This added to the other reasonable resources which the association will develop should give us ample funds to carry out our plans, and do for suffering humanity something upon a scale far exceeding anything of this kind the world has ever seen.

Major Waddill's Speech.

I am pleased to have the privilege of meeting so many of the citizens of this beautiful land of bright skies and pure air. I am glad to look into your faces this evening and briefly present something of the scope and purpose of the National Colony and Sanitarium for Consumptives. I am not a physician and don't assume to be able to discuss sanitarium work in detail as an expert; but I do know that scores and multitudes of scores, of thousands of men and women—our countrymen are being annually borne to the grave by the mighty onswep of tuberculosis or consumption, which I believe to be the most terrible and fatal malady that human kind have ever been cursed with since the world's first morning, or since time has had a record; so great indeed have been the ravages of this awful scourge that cry is going up all over our land for help and relief; and men and women of head, brain and loving hearts are giving their best thought and most earnest activities to the finding of relief, and extending help to those stricken by this disease.

This cry of the hopeless and the stricken is the inspiration of this sanitarium movement we are presenting to you this evening. Its scope embraces all mankind that suffer from this disease. It knows no creed nor race nor nationality, Jews and Gentile, Catholic and Protestant, all are embraced in the purpose of this movement. Nor is there any pecuniary reward to any one engaged in the movement nor any officials of the association. It is a work of pure benevolence backed by simple love of humanity and we trust will be blessed and honored of God.

I believe that climate, pure air, pure water and plenty of sunshine can alone be depended upon to cure consumption. Medicines will not cure it. Sanitariums in bad climates cannot cure it. It seems to me rational to say that God

MOTHER AND CHILD

Scott's Emulsion is cod liver oil made almost as palatable as milk. It is easy and soothing to the weak stomach; it checks the tendencies of children toward thinness.

Scott's Emulsion gives strength to weak mothers because it creates healthy flesh and new blood.

Nursing mothers will find a special value in Scott's Emulsion because it insures a flow of rich, nourishing milk for the baby. More and better than a medicine; Scott's Emulsion is a food.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

In his infinite love and marvelous economy has made a place in this sun-set land of southwestern New Mexico where his suffering children may find rest and be healed of this dreaded disease. Here is found more than three hundred cloudless days in each year. Here is an atmosphere so pure that it will cure raw meat and dead animals seldom decay but dry up without stench. Here is the delightful altitudes from thirty-five hundred to five thousand feet with bracing rarified air.

Here is the glorious sunshine with the wonderful tonic that all materia medica cannot produce. Years ago, I was sent out to this land with a stricken loved one. My very soul was alive with interest and anxiety and I was on the quiver, on constant alert, to discover the effect of this climate on lung and throat troubles. I made myself an animated interrogation point. I talked with everyone who would talk with me and in the sixteen months which I spent out here, I met men from all parts of our country. Some I found had come before the days of railroads, and had been hauled on feather beds across the plains by wagons. They had been here all the way from sixteen to twenty years. They had left their far away homes with their doctor telling them that they would never reach their destination; but found them strong rugged men following their avocations in life with energy and in the fullness of glorious health. Many instances of this kind I found. Again I talked with men who had come later after the day of railroads and who were so far gone that they had to be carried on stretchers from the cars to the hotels and they too were strong and apparently well men and this was after six, eight and ten years in this climate. After I had looked into this matter, talked with all these people and saw the marvel the climate had wrought in the case of my own dear one, my heart was filled with the wonders of God's providence, the marvels of his grand economy and care for the stricken children of men, and the deep gratitude in my soul unbidden poured itself out to the God of all. My investigation and observation and experience in this climate convinced me that neither in all America nor in any other land of which I have read or heard did there exist a district of country so healthful and sure in good results to consumptives as this southwestern district of New Mexico. I am convinced that tuberculosis or consumptive germs simply cannot live in this pure atmosphere. I believe that any one coming here in time, may be absolutely cured and those coming after too long delayed at least sixty per cent will find that this climate will arrest the disease and absolutely stop its ravages so that by remaining here they will perhaps live as long as they would in their own homes if they had never had the disease at all. These are the views I arrived at after the sixteen months of study as a layman of the effects of this climate upon pulmonary, and throat diseases. The prime thing to accomplish in this sanitarium movement is to excite and enlist the earnest services and enthusiastic interest of the people. All will acknowledge the need of relief and help to save the thousands of our fellow men afflicted with tuberculosis but we become so absorbed in our individual affairs, the press and demand of our own business is so great that we grow into indifference to other peoples affairs, and leave for others the very highest duty of humanity devolving upon ourselves. No man can rightfully shirk the responsibility upon him to help the condition and lift the burden of the suffering and afflicted. We all owe this duty and we must not forget the brotherhood of man if we would claim the fatherhood of God. Far above the pursuits of this life, its business, the gain of fortune, the acquisition of wealth arises a grander and sublimer and holier thing which is our duty to our neighbor, to help to lend a hand to the fainting, to lift up the fallen, to give inspiration and hope to the discouraged. How can anyone do a greater thing than to be helpful and useful in placing within the reach of the stricken and dying men and women the means of sure cure and restoration of health. How strongly this should appeal to every manly and womanly instinct and to everyone who loves his kind. The purpose, the sole purpose of this institution I am seeking to present for your consideration this evening is to do this very thing namely, to put in the reach of all the afflicted men and women of other climates the curative benefits of this climate; to establish

a great sanitarium with thousands of acres of lands where all kinds and classes of suffering people may find shelter, attention, nursing and care and the glorious life giving tonic of this climate, where in fact they may be healed of their dread malady and it is proposed to place this within the reach of the poorest. The rich will pay and pay well and with what they pay and the funds received through other sources, the poor will receive care and healing without money and without price.

Citizens Will Aid.

At the close of the meeting, a vote of thanks was tendered the speakers and an offer made by the citizens to render all the aid in their power to assist in carrying out the purposes of the association, and the following committees were appointed to represent all the different interests of the different professions, fraternal associations, religious denominations, etc., and each committee accepted the duties and will always be found ready to discharge their respective duties.

The representatives or committees of the various organizations are as follows:

Masonic lodges, Judge Seamon Field; A. O. U. W., Thomas Carr; Odd Fellows, J. B. Hodgdon; Elks, Dr. S. D. Swope; Woodmen, W. P. Tossell; Red Men, Leon Godchaux; Knights of Pythias, C. J. Kelly; Catholic church, Mrs. A. J. Clark; Union Labor, George L. Shakespear; South Methodist church, Mrs. E. Matthews; Baptist church, John Barton; Lutheran church, Miss Merz; Jewish church, Sigmund Lindauer; Christian church, Mrs. P. R. Smith; Presbyterian church, Dr. E. D. Cassels; Episcopal church, Mrs. Frank Thurmond; Congregational church, Miss Lillian G. Smith; Christian Science, Mrs. E. C. Burdick; Mormon church, Frank Thurmond; Salvation Army, B. Y. McKee; outsiders, H. H. Kidder; strangers, N. S. Rose; Eastern Star, Mrs. Seamon Field; Y. M. C. A., R. H. Flayhire; Y. M. C. MOTHER'S FRIEND

does diminish the pain accompanying maternity. With its aid mothers can and do bring healthy, sweet dispositioned and ideal babies into the world. Morning sickness, sore breasts and excruciating pains caused by the gradually expanding organs, are relieved by this penetrating and relaxing liniment. Among the manifold aids to childbirth Mother's Friend has grown in popularity and gained a prestige among rich women as well as poor; it is found and welcomed in the mansion as well as in the cabin. By lessening the mother's agony of mind and diminishing pain a beautiful influence is wrought upon the child, and instead of peevish, ill-tempered and sickly forms you have healthy, laughing humanity, remaining a blessing ever to you and its country. All Druggists sell Mother's Friend at \$1.00. Write for our free book "Mother's Friend" THE BRADFIELD REGULATOR CO., Atlanta, Ga.

Jim Dumps' first born, a bright young man, desired to box like Sullivan. "Take first, my son—'tis wisdom's course—"

His father said, "a box of 'Force'! There's no box like it for the vim it gives," asserted "Sunny Jim."

Force

The Ready-to-Serve Cereal

is health and strength in a box.

NEW MEXICO TOWNS

LAS VEGAS.

From the Advertiser.

Hugh Loudon of the La Cueva ranch in the city.

Frank Manzanarez is in town again from Santa Rosa.

John Thornhill is engaged in planting flowers and grass in the grave yard surrounding the west side Catholic church.

Miss Marguerite Harrison, who has been attending school here this last term, left for her home in Giorietta, to spend her vacation with her parents.

Mrs. W. F. Deagner from Raton is in the city visiting her daughter, Miss Butcher, and attending the graduating exercises at the normal school.

Secundino Romero, the district clerk who has been on the sick list for the last few weeks, left for a few days' visit to his ranch near El Curoveo.

Dr. Clyde Decker, who formerly had an office in the Crockett block, died last Saturday at his home in Newton, N. J., from consumption. The doctor while here made many friends who will regret to hear of his death.

Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and liver troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual costiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. G. G. Green, Woodbury, N. J. J. H. O'Reilly & Co.

SANTA FE.

Miss Reese, the trained nurse, has returned from Plaza del Alcaide, where she had been with Mrs. Elias Clark.

A Brito was bitten on the left hand by a vicious dog owned by Euterio Ortega last week. The member has been very sore, but is getting better now.

Judge A. L. Morrison and Mrs. W. A. McKenzie have awarded the contract for a brick sidewalk to be constructed in front of their respective residences which join and are on Upper Palace avenue. The work will be commenced as soon as possible.

Mrs. W. H. Whitman, who has been visiting in Denver the past two months, returned to her home in this city. Mrs. Whitman was accompanied by her daughter, Mrs. J. R. Dudley who will remain in the city the guest of General and Mrs. Whitman for about two weeks.

There was a collision between Patterson's milk wagon and Cartwright & Davis delivery wagon on lower "Prisco" street, which resulted in two wheels of the milk wagon being demolished and the vehicle being overturned. The Cartwright & Davis wagon escaped damage.

Dr. David Knapp took a convict, William F. Drake by name, who has been serving a sentence of one year in the territorial penitentiary since September last, to the territorial insane asylum at Las Vegas, the man becoming insane. He was quite violent on the trip, and Dr. Knapp had rather an interesting time of it. The doctor returned home last evening.

Suit in assumpsit was filed in the First judicial district court for Santa

Fe county by the First National Bank of Santa Fe against George Hill Howard. Plaintiff alleges that the defendant obtained money from complainant by issuing promissory notes, one in the sum of \$100 and the other two notes being \$125 and \$130 respectively. Judgment is asked in the sum of \$700 to cover attorneys' fee and other expense of the suit and to reimburse the plaintiff.

Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. J. H. O'Reilly & Co.

LORDSBURG.

From the Liberal.

Mrs. Clapp, mother of E. W. Clapp, agent of the Southern Pacific, arrived Sunday. Her dutiful son met her in El Paso and returned with her.

Miss Bunker, a teacher of the Clifton public school, and her sister, Mrs. O. Laisure of Silver City, were in town and left the same day for Long Beach, Cal., where they expect to spend the summer.

H. J. McGath, Lordsburg's efficient constable, made a Deming trip, having in charge Antonio Gonzalez, better known as "Ham and Eggs" who was sentenced to jail for ninety days for wife beating. This is not the prisoner's first offense. He has been out of jail but a short time.

Whose duty is it to attend to the sanitary condition of our burg? There should be authority vested somewhere or in some one, to attend to this important matter. If there is not, then the citizens should devise some plan to have the reeking litter removed from the streets and alleys and back yards or wherever it may be found, and removed beyond the town limits.

The Waste of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease set up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the whole-some food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by B. H. Briggs & Co., S. Vann & Son.

WHITE OAKS.

From the Eagle.

Mrs. John A. Hollars, who has been engaged as first assistant in our school for the past two years, left for California to meet her husband, Rev. John A. Hollars, who is located at San Francisco.

The White Oaks public school closed last week, after having been in continuous session for nine months. The present board began two years ago with a deficit, and two nine-months terms have since been taught and

there is now to the credit of this district, after all expenses have been paid, over \$700.

The friends of Julian Taylor, and they include all the young people in town, gathered at the residence of Mr. and Mrs. N. B. Taylor to congratulate Julian on his eighteenth birthday and wish him many happy returns of the same. Games were indulged in, lunch served and the merry-makers departed for their respective homes at a late hour.

The other morning Louise, the wife of H. B. Atkinson, breathed her last, surrounded by husband, father, mother and sister. Mrs. Atkinson had been suffering from an attack of typhoid fever of almost two months duration, and, in order to secure better medical aid and more attentive nursing about two weeks ago the patient was brought to White Oaks. Mrs. Sertemeyer and daughter, Emelia, of Sonora, Tex., mother and sister, and M. B. Atkinson of Rockport, Tex., H. B. Atkinson's father, came at once when informed of the serious condition of their relative, and have been in constant attendance by her bedside.

The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprain of back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not be without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

Bursum Goes to Parral.

H. O. Bursum, warden of the territorial penitentiary, arrived in the city this morning from Santa Fe. He is en route to Parral, Mexico, where he is interested with Ellego Baca in the San Vicente de Ferrer mine. The two gentlemen leave tomorrow for Parral to arrange to have machinery sent there at once. Mr. Bursum had assays of the ore made, which showed 32 per cent copper and twenty-four ounces of silver. The assay was made at the Socorro (N. M.) School of Mines by Assayer Lincoln.—El Paso News.

What is Foley's Kidney Cure?

Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Alvarado Pharmacy.

EL PASO, TEXAS.

TO RECLAIM LAND.

Treasury Fund for the Use in Federal Irrigation Projects Will Reach \$15,000,000 by First of July.

A Washington dispatch says: Commissioner Richards, of the general land office, has had prepared a statement giving the exact amount of the fund set apart for the reclamation of arid lands under the irrigation act of 1902.

It shows a total of \$7,530,338 for the fiscal years 1901 and 1902, distributed among the states and territories as follows:

Arizona	\$ 81,733
California	503,270
Colorado	628,996
Idaho	507,448
Kansas	49,135
Montana	772,377
Nebraska	235,194
Nevada	23,414
New Mexico	147,237
North Dakota	1,227,496
Oklahoma	1,008,795
Oregon	910,961
South Dakota	307,562
Utah	146,824
Washington	794,088
Wyoming	385,762

The total for 1901 was \$3,144,861, and for 1902, \$4,565,516.

The returns on the sale of public lands for the first three-quarters of the present fiscal year indicate that the receipts will be about equal to the two preceding years, so that by the first of next July the irrigation fund in the treasury department will amount to about \$15,000,000.

A Little Early Riser.

now and then, at bedtime, will cure constipation, biliousness and liver trouble. DeWitt's Little Early Riser are famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by B. H. Briggs & Co., S. Vann & Son.

Inspector McKeehan to Wait.

Chinese Inspector Fred H. McKeehan, the acting chief of the local immigration office, has been informed that his transfer to the head of the immigration bureau of Arizona will not take place until after July 1. Collector Edwin F. Baker of Nogales passed through the city last night, going east, and brought the news. Mr. McKeehan's family will arrive in a few days from Ohio, to take up their residence in this city, until they leave for Nogales.—El Paso News.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that: catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How can I cure my indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by B. H. Briggs & Co., S. Vann & Son.

(Homestead Entry No. 7135.)

Notice for Publication.

Department of the Interior, Land Office at Santa Fe, N. M., May 27th, 1903.

Mrs. Bambini, at her parlors, No. 205 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, dandruff dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and pimple cure, and pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 490.

DO YOU EAT?

If so call on D. Weiller & Co. Their groceries are always fresh. Gold avenue, between First and Second streets.

Call around and see the nice patterns suitable for ladies' skirts, made from pure New Mexico wool by the Rio Grande Woollen mills; goods on sale at from \$2 a yard up. Simon Stern, the Railroad avenue clothier.

Hall & Learnard.

Local Happenings

Al Mitchell, manager of Trimble's Copper avenue stable, is reported seriously ill.

A. J. Frank, the Algodones smelter man, came down from that place last night and is transacting business in the city today.

Herbert A. Lee left last evening for Canon City, Colo., where he will spend the summer. He has been employed by the Hyde Exploring Expedition company.

The New Mexican says: Mrs. Warren Graham and Miss Jennie Kirkland, of Albuquerque, arrived in the city at noon today for a visit with Dr. C. O. Harrison and family.

W. H. Watkins, a prominent gentleman of Arizona, came in this morning from a business visit to Denver, and stopped off here to visit a few hours with his friend, J. F. Luthy.

The Bernalillo county Sunday school convention, which was announced from the city pulpits for Sunday, May 31, has been postponed until June 7. The program will be published.

It is understood that Chas. A. Spiess, Eugenio Romero and others have taken up a large body of coal lands on the line of the Albuquerque Eastern railway, within a few miles of Tijeras canyon.

The Woman's Christian Temperance Union will meet with Mrs. Wilson, 119 South Arno street, Friday afternoon. A short business session will be held, followed by a program and refreshments. Everybody invited.

Fred C. Fenner, wife, daughter and maid, Miss Hanna Nelson, passed through the city yesterday for their home in Los Angeles, after a pleasant visit at Las Vegas with Mrs. Fenner's parents, W. H. Seewald and wife.

On the evening of June 11 the Eagles of the city will celebrate the second anniversary of their organization by giving a smoker at Knights of Pythias hall. The Eagles of Albuquerque are quite prosperous and the smoker is likely to be a very enjoyable affair.

John Thirion and F. Fulmer have formed a partnership, and will deal in new and second hand furniture, carpets, stoves, etc. They have taken a lease on the room on South Second street formerly occupied by the Woman's Exchange, and are now ready for business. Give them a call.

Regular Sabbath services will be held at Temple Albert on Friday evening at 7 p. m. Rabbi Jacob H. Kaplan will conduct services and Mr. Julius Staab will lecture. The public is welcome. Sunday morning at 10 o'clock confirmation services will be held at the temple. A special program has been prepared. Announcement will be made later.

This morning, at the church of Immaculate Conception, Candelario Ruybal and Miss Anna Kelly were united in marriage. The groom is the industrial teacher at the local government Indian school, and the bride is one of the pupils. The ceremony was witnessed by all the teachers and scholars of the school. The best man was Joseph Abner, the bandmaster, and the bridesmaid was Miss Annie Kowuni, assistant seamstress.

Seldom a day passes now but a caravan of wagons laden with wool rolls in from the surrounding country. The clip this spring was quite heavy and the amount already stored in the city is enormous. Although considerable has been bought by out of town buyers and shipped out of the city the store houses are taxed to the utmost and the wool is not all in. The Albuquerque scouring mills have received for scouring and have stored nearly a half million pounds.

D. E. Phillips, who was delegate from New Mexico to the annual session of the supreme lodge, Woodmen of the World, which met in Milwaukee, returned home last night. Mr. Phillips says that they had a good meeting and that he enjoyed the trip immensely. The lodge was in session fourteen days. Mr. Phillips and a number of other delegates took side trips to Grand Rapids, Chicago, Waukesha and other places near by, which made the trip all the more pleasant.

Probably the only piano playing cat in the world is owned in this city by B. Ruppe, the druggist. It is yet a kitten, but performs beautifully and will doubtless develop into a cat of brilliant musical tact. It gave a public exhibition last night for the first time before an audience of enthusiastic admirers. This feline wonder is of the maitese species, is about six weeks old and shows unusual intelligence. Mr. Ruppe takes great pleasure in showing off the cat's musical accomplishments.

Excavating was begun this morning at the Menaul schools north of this city for the foundation of an additional building. It will be four story and cost in the neighborhood of \$10,000. The lower floor or basement will be used for the school dining room and the upper floors will be occupied as dormitory and school rooms. The contract for the construction of the new building has not as yet been let. The excavating is being done by the faculty of the school.

The summer conference of the native Presbyterian ministers, of New Mexico, which has been in session at the Menaul schools the past two weeks, closed last night. Twenty members were present and the conference proved a success in every way. Dr. H. C. Thompson, teacher of theology at the school, acted as instructor of the body. Dr. Thompson was assisted for a week by Dr. William Wallace, of Saltillo, Mexico.

It is rumored that the officials—Santa Fe and Harvey—contemplate some big improvements at the Alvarado in a very short time. Owing to the popularity of the house and its excellent management, the officials find it too small for the numerous guests, and probably another addition will be made.

Mrs. Mary Bryce, the venerable mother of Mrs. Edward McGuire and James Bryce, is reported much better today. Mrs. Bryce is about 80 years of age and is recovering from a very severe case of pneumonia.

A large number of pamphlets entitled "Facts About the Keeley Cure, Briefly Stated," were received here. It is learned that C. C. Hall received about fifty books. Call on him for a copy.

Hon. J. M. Sandoval, of Sandoval, is in the city today. He is well pleased with the excellent character of the work The Citizen is furnishing the officials of Sandoval county.

The Retail Clerks' union should ask all stores to close at 6 o'clock p. m., instead of a few. If this closing business is to become effective, let all the stores and saloons close.

The University of New Mexico, the Agricultural college and the Indian school are contestants in the athletic meet to be held on Decoration day at the fair grounds.

Pay your taxes for 1902. Call at the collector's office in the court house and save penalty, which will be added on and after June 1.

Summer School.

Prof. W. H. Decker will conduct a summer school in the Central school building. Pupils desiring to make arrangements for instruction call there Monday and Tuesday, June 1 and 2, between 2 and 4 o'clock.

All sorts of athletic sports at the fair grounds on Decoration day.

Teas! Teas!!

Coffees! Coffees!!
Always fresh at D. Weiler & Co. the Gold avenue grocers.

Look up the collector at once and pay your 1902 taxes. On and after June 1 the penalty will be added. Remember, this is an important matter.

Have You Paid Your Taxes?

The second half of the taxes for 1902 will become delinquent June 1st, after which date the usual penalties will accrue.

FRANK A. HUBBELL,
Collector and Treasurer.

Have You Paid Your Taxes??

The second half of the taxes for 1902 will become delinquent June 1st, after which date the usual penalties will accrue.

FRANK A. HUBBELL,
Collector and Treasurer.

Keep Cool.

We have all kinds of ice boxes and refrigerators, made by reputable manufacturers. Popular prices, cash or time at W. V. Furelle Furniture company, corner Second and Coal.

OSTEOPATHY NEVER POISONS

The Body is Better Without Drugs.
Can You Give a Rational Definition of Osteopathy?

Osteopathy is a system of therapeutics, based upon a thorough knowledge of anatomy and physiology, enabling the practitioner to look upon the body as a perfect living, automatic machine. There are more defective spines on earth than paupers. Get your spines in good shape and your chances for health will be good.

AT INDIAN SCHOOL.

Closing Exercises Tomorrow—A Fine Evening Program.

The closing exercises of the local Government Indian school will be held tomorrow evening, May 29, beginning at 7:30 p. m. Band concert from 6:30 to 7:30 p. m. The school will be open to visitors all day Friday and free conveyances will leave the city at 9 and 10 a. m. and 1, 2 and 3 p. m. from the corner of Railroad avenue and Second street, returning on the half hour. All shops and school rooms will be open for inspection and industrial and school room work will be on exhibition.

The members of the Eighth grade who graduate this year are: Solon Sombrero, Apache; Bertha Boyd, Apache; Mamie Madison, Apache; Charles Pecongeoma, Hopi; Carrie Ross, Laguna; John Martinez, Pueblo. The following is the program for the evening:

Song, "Tenting on the Old Camp Ground," entire school.

Exercise, the May pole. First primary pupils.

Music, "Song of the Fairy," First grade.

Exercise, May Festival, First grade.

Recitation, "Harvest and Vintage," Carrie Ross.

Song, "Our Fair Land," Second and Third grades.

Exercise, Rope drill, Small primary.

Recitation, "Goin' Down to Gran'ma's," Edith Faisano.

Exercise, "Our Flag," Fourth and Fifth grades.

Song, "Spring Time," Adult primary.

Oration, "Labor is Worship," Charles Pecongeoma.

Motion song, "The Cobbler," First grade.

Song, "Good Night," Second and Third grades.

Don't forget to go to the athletic meet on Decoration day. Get your tickets at Matson's.

MONEY TO LOAN

On diamonds, watches or any good security. Great bargains in watches of every description.

A. H. YANOW

209 South Second street, a few doors north of postoffice.

YOUR SPRING SHIRT

should look just a bit prettier than any other shirt you wear during the whole twelve months—if we have the pleasure of laundering it. Not much sentiment about our laundry work—lots of practicality—but we do take especial pains in Spring time.

Imperial Laundry

Back of Postoffice.

All Clothes Look ...ALIKE...

When they're piled up on a big table. You see the Difference when you put them on.

ONE STORE looks like another, generally speaking. When you see a big lot of clothing piled on tables—"head-high"—it seems to be only a question of color and price. Don't stop there. There is something more important. Ask yourself—"How about fit, style and service."

OUR CLOTHING IS DIFFERENT

from the ordinary, it has a style and dignity that is peculiarly its own. We would like the opportunity of showing you the good points of our ready-made clothing—we could convince you that our's is different in no time.

Light weight Summer Suits
\$10 to \$20

Two-Piece Outing Suits
\$1.50 to \$10
