TO: Members of the Faculty Senate
FROM: Anne J. Brown, Secretary
SUBJECT: February Meeting

The Faculty Senate will meet on **Tuesday, February 14, 1989 at 3:30 p.m.** in the **Kiva**.

The agenda will include the following items:

1. Summarized Minutes of December 13, 1988
2. Memorial Minute for Professor Emeritus Vincent Kelley -- Professor Klaus Keil
3. Memorial Minute for Dean Emeritus Donald Robb -- Dean Emeritus Donald McHae
4. Memorial Minute for Professor Emeritus Harry Basehart -- Professor Karl Schwerin
5. Address by Dewayne Matthews, Executive Director, Commission on Higher Education
6. Senate President's Report -- Professor Garrett Flickinger
7. Open Discussion (Senators may speak on any subject of interest; however, no motions may be made. This is not an action item)
8. Candidates for Degrees, Semester I, 1988-89 -- Representatives from schools, colleges, and the Graduate Committee
9. Proposal re Increasing the Size of the Senate -- Professor Polly Turner
10. Committee Replacements -- Professor Marion Cottrell
11. Items from the the Curricula Committee -- Professor Dodd Bogart
   a. New Minor -- Science, Technology, and Society
   b. Dual Degree -- Juris Doctor/Master of Arts in Latin American Studies (for information only)
THE UNIVERSITY OF NEW MEXICO

FACULTY SENATE MEETING
February 14, 1989

(Summarized Minutes)

The February 14, 1989 meeting of the UNM Faculty Senate was called to order by President Garrett Flickinger at 3:30 p.m. in the Riva.

Senators present: Alonzo Atencio (Medicine), Garland Bills (A&S), Gloria Birkholz (Nursing), Andrew Burgess (A&S), Carl Corde (Medicine), Marion Cottle (Engineering), Paul Davis (A&S), Stephen Dent (Arts & Science), Marilyn Fletcher (Gen Library), Garrett Flickinger (Law), Gregory Franchini (Medicine), Douglas George (Fine Arts), Shyam Gurbaxani (Engineering), Brian Haysen (Fine Arts), George Hazler (Management), George Hozier (A&S), Hugh Kabat (Pharmacy), Tom Kyner (A&S), William Litchman (A&S), Clare Miera (Dental Programs), Jose Rivera (Pub Admin), Linda Saland (Medicine), Jerome Shea (Univ College), Priscilla Smith (Gallup Branch), Ron Storey (Medicine), Richard Van Dongen (Education), and Mel Yazawa (A&S).

Absent: Cecilia Fenoglio-Freiser (Medicine), Phillip Gonzales (A&S), Astrid Kodric-Brown (A&S), Wayne Rees (Education), Pauline Turner (Education), Donald Vieck (Medicine), and William Woodside (Medicine).

Minutes of December 13, 1988. Professor Shyam Gurbaxani asked that the following statement be included in the minutes of December 13, 1988 in the section Address by Ken Johns: "In view of the austere increases anticipated in the next budget, Senator Gurbaxani requested the Regents to advise a 'flexible freeze' in administrative salary adjustments."

The minutes were then approved as amended.

Memorial Minutes. Memorial Minutes were presented for Professors Emeritus Vincent Kelley, Donald Robb, and Harry Basehart by Professor Klaus Keil, Dean Emeritus Donald McRae, and Professor Karl Schwerin respectively. The Senate adopted the minutes by rising vote and Secretary Brown was asked to send a copy to the next of kin.

Address by Dewayne Matthews. Dewayne Matthews, Executive Director of the Commission on Higher Education, addressed the Senate. He said he would speak about three basic areas: first, an overview of the legislative session in Santa Fe; second, the "2005" Report; and third, plans for the upcoming year, particularly the activities of the Commission. He stated:

- House Bill 2 currently recommends 4% for compensation for higher education employees and proposes not to take credit for revenue generated by a tuition increase.

- The CHE opposes the proposal that tuition rates be capped at no more than 5% increase because it feels that latitude must be maintained to provide salaries and compensation.
- The bill to mandate transfer of credit from two-year to four-year institutions would require acceptance of associate degrees and allow students having those degrees to enter universities at the junior level. It would also require that all courses taken would apply to general education requirements. The CHE is "generally supportive" of this proposal particularly the second point.

- The establishment of a community college in Taos is proposed.

- An outgrowth of a project by Sandia Laboratories ITV Working Group is a proposal to establish an instructional television network funded on the state level.

- The major issue of minority hiring, particularly of Hispanics, is being taken very seriously by the Legislature and the CHE.

- The 2005 Report does not call for any changes in governance structure. The CHE would function as a coordinating board and the governance of institutions would be retained at the institutional level with an open, cooperative atmosphere. To achieve these goals would require a change of attitude within the institutions.

- In the coming year the Commission will be looking at new funding formulas, at adequate and equitable funding, at bringing faculty salaries into the competitive range, at library and equipment funding, and at funding for off-campus educational programs.

- Additionally, the Commission would like to develop a mechanism for faculty participation in the policy-making of the CHE.

During the question and answer period, Matthews stressed that there are no plans to change the tenure system. The 2005 Report calls, rather, for a re-evaluation of the tenure system in terms of how tenure can be used to improve quality and to improve faculty development within the tenure system now in place. Professor Marion Cottrell urged the Commission to have a faculty person, possibly an emeritus faculty member, as a Commission member.

Professor Shyam Gurbaxani stated that there is pressure on faculty to raise research and contract money and the result is that teaching suffers. He requested that Matthews address that issue. Mr. Matthews responded that the Commission is looking at the question of whether the funding formula should provide direct support for research. It is examining the idea of having institutions retain 100% of the overhead generated by research activities. Those funds could then be used for seed money for research and to support new research programs which have trouble obtaining outside support. He said that teaching and research are interdependent, a fact not well understood outside the University community.

Professor Andrew Burgess said he felt that there is in the 2005 Report a "vague encouragement" for change in the tenure system which could result in a system with second and third class faculty. He also questioned the statement in the Report that T-VI is expected to become the largest post-secondary institution in the State. Matthews responded by saying that T-VI is now almost the largest post-secondary institution and said that the Report calls for cooperation among the two-year and four-year schools. The intent is not
to force the four-year schools to accept course work from the two-year schools but to make the two-year institutions take the issue of instructional quality seriously and make sure that students are prepared.

Professor Mel Yasawa questioned the statements on funding and quality and asked if it is the assumption of the CHE that we can obtain the quality desired only through efficiency and productivity without increased funding. He pointed out that there is no mention of increased funding to increase the quality of education. Matthews answered that the CHE doesn't assume that; however, it may be easier to obtain more funding if efficiency and productivity are increased.

Professor Stephen Dent requested information on how the funding of specialized, professional education is addressed in the Report. Matthews responded that it is the charge of the CHE to recommend "adequate and equitable" funding for the institutions. It would like to identify "lead" programs and fund them uniquely. This issue would be addressed in the two-year as well as the four-year schools.

Senate President's Report. President Flickinger reported that there is a bill currently in the Legislature calling for $150,000 to be distributed among the three research institutions in the State to develop assessment policies on programs, faculty, and student outcome. The Operations Committee feels that all institutions must be assessed and not just the three research schools.

Also, he reported, there is a bill proposing yet another increase in the retirement contribution, bringing it to over 8%.

Professor Flickinger urged all schools and colleges to examine their minority faculty representation as the Board of Regents will soon develop its own policy regarding affirmative action at UNM.

He encouraged each senator to sign up for committee assignments and also announced the formation of the Art in Public Places Committee. Professors William Gross of Mechanical Engineering and Rowena Rivera of Modern and Classical Languages are the two faculty members appointed to that committee at the request of President May. Additionally, there will be a graduate student and an undergraduate student appointed and the Dean of Architecture and Planning will be a member.

Professor Flickinger introduced John Webber, President Pro Tem of the ASUNM Senate who urged Senators to attend Student Senate meetings if possible. This would enhance communication with the student body. Senator Anthony Anaya of ASUNM was then introduced. Mr. Anaya explained that ASUNM passed a resolution opposing the confirmation of C. Gene Samberson as a member of the UNM Board of Regents based on Samberson's voting record in the State Legislature. He requested that the Faculty Senate support the resolution. Open Discussion. Professor Tom Kynar asked that the Senate discuss Senator Anaya's request for Faculty Senate support of the ASUNM resolution. After discussion, the Senate directed the Operations Committee to examine the facts, and if appropriate, to join the students in their resolution to oppose Mr. Samberson's confirmation.

Professor Marion Cottrell reported that over the past ten years, the instruction budget has increased 95.9% and the executive management budget has increased 25%.
Candidates for Degrees, Semester I, 1988-89. Upon recommendation of representatives of the various schools and colleges and the Office of Graduate Studies, the Senate approved the candidates for degrees for Semester I, 1988-89, with changes as indicated. The list will be sent to the Regents for approval.

Proposal re Increasing the Size of the Senate. Professor Gloria Birkholz presented five proposals for increasing the size of the Senate (as outlined in the agenda). The Senate preferred Proposal five which would increase the representation of colleges and divisions to one senator for every 30 full-time faculty equivalents. A&S would have 13; Engineering, 3; Fine Arts, 2; Medical School, 12; Architecture & Planning, 1; Dental Programs, 1; Education, 4; Law School, 1; Library, 2; Management, 2; Nursing, Pharmacy, Public Administration, and University College, all 1; and 8 at-large. Senate Size would be 53. ADVANTAGE: provides for more equal representation from colleges while still allowing others opportunities to serve in an at-large position.

All five proposals will be forwarded to the Committee on Governance for action.

Items from the Curricula committee. Upon recommendation of Professor Dodd for the Curricula Committee, the Senate approved a new minor in Science, Technology, and Society.

Professor Bogart also presented, for information only, the dual degree, JD/MA in Latin American Studies.

Committee Replacements. Upon recommendation of Professor Marion Cottrell for the Operations Committee, the Senate approved the following committee assignments: Juan Abeita, Rachael Apanya, Michael Torres, and Dolores Waller as community representatives on the Community Education Committee; Mary Jo Bone, Gallup Branch, on the Curricula Committee; and Ernest Lange (HPPEP) for William DeGroot (HPPEP) on the Long Range Planning Committee.

The meeting adjourned at 5:30 p.m.

Respectfully Submitted,

Anne J. Brown, Secretary
SUBJECT: Proposal re Increasing the Size of the Senate

REQUESTED ACTION: Approve One of the Proposals

BACKGROUND INFORMATION: This item was included in the Senate agenda of December 13, 1988; however, due to lack of a quorum, it was not discussed.
January 31, 1989

TO: Members of the Faculty Senate

FROM: Senate Operations Committee

RE: Increasing the size of the Senate

At the December meeting, the Senate Operations Committee presented a proposal for increasing the size of the Senate to be considered by the Committee on Governance, but due to lack of a quorum, the proposal was not addressed. After giving more thought to the issue, we are bringing to you several proposals for your consideration. We urge you to examine these prior to the February meeting and be prepared to make a decision as time is of the essence if changes are to occur this year.

PROPOSAL #1: Increase the size of the Senate by the number of standing Senate committees (13) and mandate that chairs would also be senators. ADVANTAGE: increased communication between committees and the Senate. DISADVANTAGES: the number of senators might vary year by year because a person already a senator might be elected as committee chair; could result in uneven representation from colleges. Senate size = 46.

PROPOSAL #2: Increase the size of the Senate by electing 15 At-Large members; all voting faculty are eligible to vote in this category. ADVANTAGE: provides opportunity to individuals not elected by their colleges. DISADVANTAGES: results in uneven representation by colleges. Senate size = 50.

PROPOSAL #3: Increase the representation of colleges and divisions to 1 senator to every 25 full-time faculty equivalents (now it is one senator to every 35 full-time faculty equivalents). ADVANTAGE: equal representation to all academic units. DISADVANTAGE: no opportunity to serve unless elected by college. Senate size = 51 (see below):

Arch & Plan.; 1; A & S, 15; Dental Prog., 1; Education, 4; Engineering, 4; Fine Arts, 3; Law, 1; Library, 2; Management, 2; Medical School, 14; Nursing, Phar., Pub. Admin., Univ. Col., all 1.

PROPOSAL #4: Increase the representation of colleges and divisions to one senator for every 30 full-time faculty equivalents. Senate size = 44. A & S would have 12, Engineering would have 3, Fine Arts would have 2, Medical School would have 12, and all other units would have the same number as identified in proposal #3.

PROPOSAL #5: Same as #4 except add 8 At-large senators. Senate size = 52. ADVANTAGE: provides for more equal representation from colleges while still allowing others opportunities to serve in an at-large position.
SUBJECT: Committee Replacements

REQUESTED ACTION: Senate is asked to approve the following committee replacements as proposed by the Operations Committee.

BACKGROUND INFORMATION:

At its October meeting, the Senate Committee on Committees requested a proposal for replacements of members of the Committee on Committees. The Senate has been asked to make a recommendation to the governing board on the matter. The purpose of the request is to ensure that the committee remains adequately represented.

APPENDIX:

<table>
<thead>
<tr>
<th>Committee</th>

The proposed replacements are based on the need to maintain a balanced representation across the various fields of expertise among the committee members.
Faculty Senate

Operations Committee

Committee Replacements

The following are submitted for approval by the Senate:

COMMUNITY EDUCATION

Juan Abeyta, Community Representative
Rachel Agoyo, Community Representative
Michael Torres, Community Representative
Dolores Waller, Community Representative

CURRICULA

Mary Jo Root, Gallup Campus, 1990

additional Branch representative

LONG RANGE PLANNING

Ernest Lange, HPPELP, 1989

for William Degroot, HPPELP
SUBJECT: Items from the Curricula Committee

REQUESTED ACTION: The Senate is requested to approve a new minor in Science, Technology and Society which has been approved by the appropriate departmental faculties, faculty committees and the Vice President for Academic Affairs.

BACKGROUND INFORMATION: The dual degree of Juris Doctor/Master of Arts in Latin American Studies is presented for information only. In 1980 the Senate, upon recommendation by the Graduate Committee, approved guidelines for dual degrees which eliminate the necessity for each such program to be approved by college/school graduate committees, the Senate Graduate Committee and the Faculty Senate.
Date: July 29, 1983

Unit: An Interdepartmental project
(Dept., Div., Prog.) that includes the departments of: Philosophy, American Studies, History, Physics, Mechanical Engineering, and the Honors Program.

Proposal for a Science, Technology, and Society Minor at the University of New Mexico
Nov 4 - Apr 11, 1988

Rationale and Goals

At present, a number of courses are being offered within different departments at the University of New Mexico that are concerned with the ethical, historical, philosophical, and social dimensions of science and technology. During the past decade, many universities around the country (including Stanford, Berkeley, Michigan, Notre Dame, and MIT) have instituted interdisciplinary programs for science and technology studies that are designed to address these issues in a coherent framework. We believe that the time is right for the University of New Mexico to join the list of universities actively involved in an assessment of our scientific and technological achievements, and the social and ethical dimensions of such achievements.

The Science, Technology, and Society minor will provide the opportunity for faculty and students from separate disciplines to engage in a fruitful dialogue within the framework of a unified program. Because the program will use courses that are already in place within the university curriculum, there will be no start-up costs. Any future changes or additions to the curriculum would be produced by a gradual, developmental process fostered by the interaction of faculty participating in the program.

Program Requirements

The minor in Science, Technology, and Society Studies will require the completion of 20 credit hours: 5 of which will be from required courses, the remaining to be chosen from three groups of electives, with at least one course from each group.

The required courses are:

American Studies 187: Introduction to Science, Technology and Society (3 credits)

This seminar course, taken early in the student's career, is designed to introduce the student to the various issues addressed by the program by way of guest lectures from faculty within the program, overseen by an individual faculty member responsible for planning, coordination, and evaluation.

Philosophy 498: Independent Research (2 credits)

This course, taken at the end of the student's course of study, is designed to help the student synthesize the issues by additional reading and the writing of a substantial paper in the student's area of interest under the direction of an individual faculty member.
The groups of elective courses are:

**Group I: Historical Development**
Courses in this group look at the development of science and technology, giving insight into how we have arrived at the complexities involved in the modern world view.

- Am. St. 301/501 History of American Technology
- Biol. 402/502 History and Philosophy of Biology
- Hist. 317 History of Science to 1760
- Hist. 318 History of Science 1760-1900
- Hist. 319 History of Science since 1900
- Hist. 320 History of Medicine
- Hist. 326 History of the Occult and Irrational
- Hist. 327 History of Technology

**Group II: Philosophical Issues**
Courses in this group look at the basis of scientific knowledge, e.g. at the empirical, rational, and societal elements that shape scientific theories.

- CS 438/Psych 467 Science of Intelligent Systems
- Engl. 320 The Rhetoric of Scientific Discourse
- Fall 253 The Social Foundations of Science
- Fall 264 The Experimental Ideal
- Fall 341/341 Science and Religion
- Fall 350 Philosophy of Science
- Fall 341/441 History of the Philosophy of Science
- Fall 385 Philosophy of Mind
- Fall 415/Math. 415 Foundations of Mathematics

**Group III: Social Implications**
Courses in this group look at the interaction of science and technology with today's society, and address questions concerning ethical and societal constraints on science.

- Am. St. 285 Technological Myth and American Culture
- Am. St. 304 Ecology in America
- Am. St. 325/Eng. 325 Technology and Society
- Am. St. 301/261 Films of the Nuclear Age
- Chem. 326 Chemistry and Society
- Honors 222 Science and Tech. in the Modern World
- Honors 361 Cultural Attitudes toward Science and Technology in the 20th Century
- Soc. 309 Men, Nature, and Society
- Soc. 361 Modernization of Traditional Societies
- Phys. 104 Physics and Society
- Phys. 105 Physics and Society
Administration

An advisory committee of faculty from the participating departments will administer the program and oversee students' progress in the program. This committee will also decide upon the addition of new courses and the replacement or adaptation of existing courses. It will be the committee's responsibility to provide continuity as course offerings or participating faculty change.

Those who have agreed to serve on the committee are:

Chair: Rosemary Sargent (Philosophy)
Villias Gross (Mechanical Engineering)
Richard Solder (Assoc. V. P., Academic Affairs)
Kendalister Hull (Physics)
Vera Norwood (American Studies)
Ronald Reichel (Honors Program)
Donald Szabelund (History)
Fred Sturg (Philosophy)

DUAL DEGREE PROGRAM WITH LAW AND LATIN AMERICAN STUDIES

The Juris Doctor/Master of Arts in Latin American Studies (JD/MALAS) dual degree is jointly administered by the Dean of the School of Law and the Associate Director for Academic Programs of the Latin American Institute.

The purpose of this program is to prepare legal professionals for work in Latin America or with Hispanic peoples in the U.S. by combining legal training with Latin American language and area studies, the program enables students to develop professional skills directly applicable to Latin American nations and populations. Students in the program are able to select from a range of Latin American subfields those most salient to their career objectives, while at the same time pursuing law studies.

Advantages of the dual degree program are that it enables the student to earn two degrees in less time and at less expense than would be required if each was pursued separately, and that it integrates the two areas into a unified field of study. The program normally takes four years to complete the 107 hours of course work. If pursued separately, the two degrees would require five years of study (to complete the 86 hours required for the law degree and the 32 hours required for the MA in Latin American Studies).

The program requires 71 hours of law course work, as well as 9 hours of international law and a three-hour bridge course containing subject matter linking Law and Latin American Studies.

The Latin American Studies component of the dual degree consists of 24 hours of course work, 3 of which are elective hours which may be pursued in Latin American Studies, Law courses relevant to Latin American Studies, or thesis preparation. Eighteen of the remaining 21 hours are devoted to two fields of specialization selected from the list of approved Latin American language and area studies concentrations. Nine hours of course work are typically the minimum needed to attain subject matter competence in the specialization area, which is evaluated through a written comprehensive examination administered upon completion of the course work. A thesis related to the student's Latin American course work is optional and counts as six of the 24 hours. Students select a Committee of Studies composed of one faculty member in each of their fields of Latin American concentration, who will supervise their course of studies, prepare and administer the comprehensive examination, and evaluate their progress toward the degree.

Competency in Spanish or Portuguese is required. Students may attain and demonstrate their language competency through successful performance in appropriate languages courses. Those fluent prior to entering the program may demonstrate their language facility through an examination administered by the Latin American Institute.
First year required courses in Law
502 (4) Contracts I
504 (3) Criminal Law
506 (1) Legal Writing
508 (4) Property I/Legal History
510 (3) Torts
511 (3) Introduction to Law
512 (3) Civil Procedure
513 (4) Advocacy
515 (3) Legislative and Administrative Processes
575 (3) Legal Analysis Workshop

Other Required Law Courses
505 (3) Law of International Relations
549 (3) Comparative Law
553 (2) International Legal Problems
541 (3) Mexican Business Law
542 (3) New Mexico Land and Legal Water History
551 (3) Private International Law
667 (3) Immigration Law

For other Law courses please see the School of Law brochure.

No core courses are required for the MA in Latin American Studies. Instead students develop a plan of study involving two of the following areas of specialization.

**COLONIAL LATIN AMERICAN HISTORY**
380 (3) History of the Southwest, Spanish Period
393 (3) Spanish South America to 1824
397 (3) Mexico to 1821
389 (3) Latin American Philosophy I
485 (3) Intellectual History of Latin America
489 (3) Brazil, 1500 to the Present
537 (3) Seminar in European Imperialism
541 (3) Seminar in Colonial Latin American History
549 (3) Seminar and Studies in Brazilian History

**HISTORY OF THE NATIONAL PERIOD**
320 (3) Studies in Latin American History
384 (3) Inter-American Relations
390 (3) Latin American Philosophy II
398 (3) Mexico since 1821
399 (3) Mexico 1940-Present
481 (3) The Modernization of South America
482 (3) The Mexican Revolution
483 (3) 20th Century Revolutions in Latin America
484 (3) The Cuban Revolution, 1959-Present
485 (3) Intellectual History of Latin America
486 (3) Southern South America
488 (3) Andean Republics
