HAD A BULLET FOR PRESIDENT

Radical Socialist Arrested on Suspicion.

PRESIDENT ROOSEVELT IS IN IDAHO

The Presbyterians Still in Session--Peruvian Gunboat Sunk in Ocean.

Walla Walla, Wash., May 26.—Joseph Becker, a radical socialist, was arrested on suspicion of intention of killing the president.

He is accused of having remarked in Pendleton, Ore., last week, that he had a bullet for President Roosevelt and another for Emperor William. He left for Walla Walla with his rifle, and his Pendleton employer, Pat Kline, followed him here and notified the police. He was arrested, and later his rifle was found cached in a farmer's barn along the line of march. Becker is a Swiss, and the police believe a tragedy was narrowly averted.

PRESIDENT DISTURBED.

But He Did Not Show Himself to the People.

Wallace, Idaho, May 26.—President Roosevelt's rest was disturbed by a noisy demonstration at Starbuck, Washington, early this morning. His train pulled into that place at 12:30 o'clock. The president and all the members of his party had retired, but they were awakened by the discharge of fire arms of various sizes, the blowing of horns and shouting of people. The secret service officer on duty did all he could to stop the racket, but the people refused to be quiet, even going to the length of knocking on the windows of the cars. The demonstration kept up until the train left. The president did not show himself.

SPRUNG A LEAK.

And Sunk in Mid-Ocean—Crew Picked Up by Passing Vessel.

Plymouth, England, May 26.—The Peruvian gunboat Loretto sprang a leak forty miles northeast of the Scilly islands yesterday evening and sank in an hour. The crew were picked up by a French traveler and were landed at Plymouth today. The Loretto is a new vessel. She left Liverpool May 23 for Para, Brazil.

POLICE COURT.

Paul Waizenegger, a Wife Deserter, Bound Over to Grand Jury.

SEVERAL HEARINGS.

Judge Crawford's court was the scene of much activity this morning.

Paul Waizenegger, who is as mean as his name is long, pleaded guilty of deserting his sick wife, and was held for the grand jury under \$500 bonds.

Waizenegger came here some six months ago for the benefit of his consumptive wife, and went to housekeeping on Lead avenue. He secured work in the shops. In the meantime he fell in with another woman and led a double life. His wife didn't seem to grow any better and he decided to fly with his partner in vice. So several days ago he resigned and asked General Foreman O. D. Buzzell, of the shops, for two passes for Chicago, stating that he and his wife wanted to leave Albuquerque. The passes were given him and everything looked rosy for his departure. However, a cog slipped somewhere, and when he boarded No. 8 train last night for Chicago with his good looking partner, Assistant City Marshal Cooper and Officer Stewart nabbed him on a warrant charging him with desertion. He looked ugly when taken by the officers, and his partner had so much love for him that she didn't even stop over to see how he was coming out, but went on with No. 8 for the east.

Mrs. Waizenegger, who is a frail, delicate looking woman, was in court and her sorrow was pitiful to behold. He had about \$180 on him when arrested and had left his better half penniless. The most Waizenegger can get is a year in jail. He deserves tar and feathers and ten years in jail, too. Such brutes deserve no better fate.

Other Offenders.

Frank Chaves, who thinks he is "Jim the penman," but who falls a long way from it, was charged with forgery. Frank forged C. Roma's endorsement on a \$15 check on the Bank of Commerce. When asked if he did he said Roma told him to, but C. Roma, who lives in old town, said he didn't. The case went to the grand jury and Chaves will browse in jail for the \$500 bonds which he cannot get.

A bilious looking young man was fined \$5 and costs for breach of the peace.

A compositor, with more money than brains, was charged with being so loaded with fire water that he troubled people on Second street, and had to be taken in. Five dollars was what he paid the city.

Valise Thieves.

William Mace, a one eyed man, who is a boilermaker, and Charles Weir, a laundry man who is too lazy to work, were charged with larceny on a warrant sworn out by Special Officer Barton, of the Santa Fe. Last night they stole a small valise and overcoat from Harry Koerber on the platform of the El Paso train. Koerber, who is a barber, was en route to the Pass city. He had left his grip and overcoat on the platform and Mace, with his one eye had seen him. He collared the barber's outfit and together with his partner they hiked to the crib on Third street and deposited it. Special Officer Barton saw Koerber later, and with Officer Knapp they nabbed the two wretches as they were coming out of the crib.

They both said they were guilty, but were drunk. Judge Crawford held them under \$500 bonds each for the grand jury. The officers who arrested them say they were sober enough to know what they were doing.

THE PRESBYTERIANS.

They Heard Report of the Board of Home Missions.

Los Angeles, Cal., May 26.—The commissioners to the Presbyterian general assembly gathered at Immanuel church promptly at 10 o'clock this morning for the opening session of what promised to be a busy day.

After the usual preliminary ceremony of prayer and song the assembly was called to order by Moderator Coyle and the report of the board of home missions was taken up.

The important subject of home missions and its corollary evangelical work among the churches occupied the morning session.

Will Investigate Massacre.

Odessa, May 26.—Chief officials of the district military court of this city have started for Kischeneff. This is taken to indicate that the government means to try those persons who took part in the massacre before a military tribunal, which alone has power to inflict capital punishment.

FLAG DAY.

Gov. Otero Issues Proclamation for Monday, June 15.

SCHOOL DIRECTORS' ELECTION.

In pursuance of a commendable custom becoming established among the states and territories of the union, I hereby proclaim Monday, June 15, 1903, as Flag Day, and recommend that the day be observed by all patriotic and liberty-loving citizens of the territory in such exercises and ceremonies as may be in harmony with the general character of the day. I would suggest that all schools of the territory observe this day in exercises of a patriotic nature, and that citizens, merchants and public officers in all cities and towns, decorate their homes, places of business and public buildings with the Stars and Stripes on the commemorative occasion.

Done at the executive office in the city of Santa Fe, this 19th day of

May, A. D. 1903. Witness my hand and the great seal of the territory of New Mexico.

M. A. OTERO.

Governor of New Mexico.

By the Governor:

J. W. RAYNOLDS, Secretary of New Mexico.

School Directors' Election.

There having arisen some confusion in the minds of the public school officials as to the date of the election of directors, Col. J. Franco Chaves, superintendent of public instruction, today addressed a circular letter to all county school superintendents saying: "Your attention is called to the fact that no change was made by the recent legislature in the law regulating the election of district school directors. The said election will take place on the first Monday in June, as usual, when one director must be elected in each district. Please see to it that all directors under your jurisdiction give proper heed to their duties in the premises, and when the returns have been received by you kindly supply this office with a complete list of the directors serving in the respective districts of your county."

DEATH OF J. W. GERTIG.

Passes Away at His Old Ohio Home From Heart Trouble.

Miss Nettie Gertig, who is employed at O. A. Matson's on Railroad avenue, received a telegram this morning announcing the death of her father in Mansfield, O., from rheumatism of the heart.

Mr. Gertig and wife left this city several weeks ago to attend the funeral of a son, and he left here apparently well. The deceased was about 65 years old and is survived by a wife, three daughters and two sons, one of them being Ed Gertig, carpenter for W. W. Strong, the contractor. The remains will probably be buried in Mansfield. The family have the sympathy of the community.

DEADLY TORPEDO.

Tragic End of Little Renato, Son of Mr. and Mrs. A. Morelli.

FUNERAL TOMORROW MORNING.

Yesterday afternoon at 5:30 o'clock in the alley running south of the Los Angeles rooming house on South Third street Renato Morelli, the 7-year-old son of Mr. and Mrs. A. Morelli, was killed almost instantly by the explosion of a railroad torpedo, with which he had been playing.

Mr. and Mrs. Morelli conduct the Los Angeles house, and the unfortunate boy had been playing in the alley during the afternoon with other boys of the neighborhood. It is supposed that he found the torpedo in the alley, where it had been carelessly thrown. It was the small kind used by the railroads to signal trains of danger ahead. The railroad torpedo is about the size of a half dollar piece made of tin or brass, and contains some powerful explosive matter.

Strange to relate none of the boy's playmates were near when the explosion occurred, but it is thought, as the accident occurred directly over the iron cover of a sewer manhole, that the boy placed the little round instrument of death on the manhole cap and hit it with a stone or some other hard substance.

A piece of the tin cover of the torpedo entered his left breast just above the nipple, and entered the cavity containing the heart. This piece caused death. A second piece cut his left wrist and a third mangled the thumb of his right hand. This last wound is fair proof that the torpedo was exploded from a blow delivered with the right hand.

The boy after the explosion ran through a gate into the yard back of the Los Angeles house and almost into the house before he fell. The body was lifeless when picked up a few moments later. He uttered but one cry of pain, and that just before he fell.

Dr. Elder, the city physician, residing just across the street, was hastily summoned, but an examination found life extinct.

The bereaved family are prominent members of the Italian colony of this city, and much sympathy is expressed for the sorrow-stricken parents.

The funeral services will be held at the Church of Immaculate Conception tomorrow morning at 9:30 o'clock, and all friends of the family are invited to attend. The funeral cortege, under the supervision of O. W. Strong Sons, undertakers, will leave the home, No. 312 South Third street, at 9 o'clock sharp. Interment will be in Santa Barbara cemetery. The Italian brass band, of which Mr. Morelli is a member, will render the music.

FATALLY INJURED

Samuel O'Bannon Meets Death in a Coal Mine.

IS "TERRIBLE TERRY" WEAKENING?

A Traveling Passenger Agent Commits Suicide at Los Angeles.

CLEVELAND WILL ATTEND MASS MEETING

Special to The Citizen.

Algodones, N. M., May 26.—Samuel O'Bannon of Albuquerque was hurt in a coal mine at Hagan on line of the Santa Fe Central road, yesterday, and died last night.

An inquest will be held at Algodones today.

No further particulars were received here. Louis O'Bannon, father, received a telegram last night, informing him that his son Samuel, had been hurt, but a later telegram to The Citizen tells of his death. Mr. O'Bannon left this morning on No. 2 passenger train for Algodones, and will no doubt bring the remains to this city tonight.

The deceased was about 32 years of age; well known here, and has a wife and three children living in Old Town.

TERRY MCGOVERN

Suffering With Malaria, and of Course, Out of Condition.

New York, May 26.—Terry McGovern will not be in condition to fight Abe Attel at Fort Erie on Memorial day, and Sam Harris, his manager, has asked Manager Hermann, of the Canadian club, for a two weeks' postponement. McGovern, who has been training here, is sick with malaria. Manager Harris says he can get him in condition to fight in two weeks after next Saturday, if he can get the match put off until that time.

SHOT HIMSELF.

Ill Health Caused Dickinson to Take His Own Life.

Los Angeles, May 26.—Thomas H. Dickinson, traveling passenger agent for the Santa Fe railroad, suicided at his home in this city yesterday by shooting. He was 45 years of age. Prolonged ill health is the cause.

Cleveland Will Attend.

New York, May 26.—Grover Cleveland has telegraphed to the committee in charge that he will be present at the mass meeting tomorrow evening at Carnegie hall in aid of the Jews who suffered by the Kischeneff massacre.

AUTOMOBILE RACE.

The Bloody Race Stopped by the Government.

Paris, May 26.—The second stretch of the Paris automobile race was not

DEMING SANITARIUM.

Dr. Mayfield and Ex-Congressman Waddell Attend Meeting.

ENTHUSIASTIC OVER CLIMATE.

Special to The Citizen.

Deming, N. M., May 26.—Dr. Mayfield, who is interested in the big sanitarium project for Deming, and who attended a mass meeting of citizens of Deming here last Friday, has returned to St. Louis, being called suddenly back to that city to attend an important surgical operation on one of his wealthy patients.

Major Waddell, who is also interested in the sanitarium, remains at Deming, and will enthrone the people of this town as to the importance of such a big enterprise to be established in their midst.

Major Waddell was formerly congressman from Missouri; a man of the very highest standing and honor, generally looked up to and loved by the people of his state, and others. He is the president of the National Sanitarium and Colony association, and is most enthusiastic, as was also Dr. Mayfield, over the climate and advantages generally of Deming.

started this morning, owing to the interdiction of the French and Spanish governments.

Many contestants withdrew and some of them proceeded leisurely. Marcel Remault, one of the injured contestants, had a sinking spell early this morning. Later, however, he revived and renewed hope was held out for his recovery. The other injured persons are progressing favorably.

Will Not Consolidate.

New York, May 26.—It was learned from official sources today that the proposed merger of the National Bank of Commerce in New York, and the Western National bank will not take place.

"BEEF TRUST" CASE.

Packers Restrained from Combining Against the People.

Chicago, May 26.—Judge Grosscup, in the federal court today, entered the final order in the "beef trust" case, restraining the packers from combining to regulate the trade. The order covers all the points in the previous decision and is regarded as a complete victory for the government. An appeal will be taken.

Diamond Cs Win.

The first howling match in the Albuquerque league took place at the Sunnyside alleys in Old Town last evening.

The Diamond Cs and Owls were opposed to each other. The Diamond Cs were out to win, and win they did by three games to one for the Nightowls. The two teams will meet again next Tuesday evening, when Darby A. Day, manager of the New York Life insurance company in this city, will be with the Owls. The highest individual score made last evening was 200.

D. A. Ortega, who is a general merchant of Belen, is in the city today purchasing goods from the local wholesale merchants.

ANDREWS AT EL PASO.

There to Make Traffic Arrangements With El Paso & Northeastern.

HIS BRIEF INTERVIEW.

Senator W. H. Andrews, president of the Santa Fe Central railway, and party who have been visiting the points of interest along the line in New Mexico, were in El Paso yesterday.

When seen by an El Paso Herald man Senator Andrews said:

"Everything in connection with the railroad is moving along in nice shape and we expect to be able to put the line from Torrance to Santa Fe in operation by the first of July. The Albuquerque Eastern line we expect to have finished by the first of the year."

"The others in the party, Col. A. J. Lester, of Chicago; G. W. Delamater, a bond broker of Pittsburgh; A. G. C. Quay, son of Senator Quay, and B. W. Robbins, general agent of the Denver & Rio Grande at Santa Fe, N. M., have no connection with the railroad, but are out here to see a little of the beauties of the southwest."

"My reason for stopping over here today is to make final arrangements with the El Paso & Northeastern for rates and schedules to apply over that line in connection with business from off our line, and I have made very satisfactory arrangements with that line."

"We are all well pleased with the trip and only wish that we could have stayed in this section longer."

Some time ago the Herald announced that the Denver & Rio Grande would get into this city by way of the Santa Fe Central and the El Paso & Northeastern lines, and when asked to verify the statement Senator Andrews said:

"Yes, the Denver & Rio Grande will operate into this city over our line and the El Paso & Northeastern. This will mean a great deal for the city of El Paso, as it will furnish a much shorter line to the north and northwest than is at present in existence."

"The line opened up to El Paso by the two lines will prove a great feeder for the city. Our line opens up a very rich cattle and agricultural country and we also have some very rich copper mines located on the line and also one smelter. This is at San Pedro and is used to smelt the copper ores from the mines near that point."

Dance Tomorrow Night.

Last dance of the season at the Commercial club tomorrow (Wednesday) night. It will be a negligee affair. Ice cream and cake will be served.

Mrs. P. G. Cornish, residing on the Highlands, is enjoying a visit from her sister, Mrs. E. S. Clark of Prescott, Ariz.

THE ELEMENTS AT THEIR WORK

Tornads Wrecks Town Near Des Moines, Iowa.

NEBRASKA AND KANSAS IN THE PATH

Two Labor Conventions at Denver--Battle With Fanatical Insurgents.

Des Moines, Iowa, May 26.—Buxton, a small town fifty miles southeast of Des Moines, was partially wiped out by a tornado at 9:30 o'clock today. Two persons were killed outright, seven fatally injured and many others more or less seriously injured. The dead: Herbert Rhodes, George Blakeley. Fatally injured: Mrs. Mary Rhodes, Addison Rhodes, John Blakeley.

State Hospital Struck.

Glenwood, Iowa, May 26.—A tornado struck the state hospital for feeble minded at this place last night. Two persons, Maggie Barnes, aged 11, and Hazel Wright, aged 10, were killed. Eleven were injured, but all will recover. The old dormitory building and the lower house were blown down.

All the buildings were damaged more or less. Local physicians went to the scene from Des Moines to assist in taking care of the injured. The wires are down and details are meager.

Cloudburst at Abilene.

Abilene, Kan., May 26.—A cloudburst struck the northern part of this county last night. Mud creek from Abilene to Manchester was flooded and great damage to crops done. The flood reached here after midnight, inundating one-third of the city and damaging much property. Cellars and lower floors were flooded. No lives were lost. The water was the highest in twenty years.

Wind Storm at Omaha.

Omaha, Neb., May 26.—A heavy rain and wind storm early today caused some damage in Omaha. Three tracks at the union station were rendered useless, and an engine pulling the Union Pacific fast mail east bound was derailed by the soft tracks, blocking west bound trains. In the southwestern portion of the city several houses were unroofed. No one reported hurt.

Tornado at Hastings.

Lincoln, Neb., May 26.—A special from Hastings, Neb., says: A tornado struck Hastings early today, wrecking many residences and damaging several business blocks. No deaths are reported. Nine persons were killed at Davey and heavy damage is said to have been done at Valparaiso and Raymond. No one was killed at the two last named towns.

FANATICAL INSURGENTS.

They Battle With Uncle Sam's Soldiers in the Philippines.

Manila, May 26.—Lieutenant Javier, commanding a force of constabulary and volunteers, has defeated 200 fanatical insurgents in the island of Cebu, killing sixty-eight of them and capturing twenty-nine. The fight occurred in the mountains near Tabogan. No details have been received and the government losses are not known.

Don't forget the lecture on Jamaica tonight at the Baptist church.

THE SMITH SCHEME.

Has a Sanitarium Proposition for the Mesa.

HE MEANS BUSINESS.

Dr. Hugh Smith, recently of Kalamazoo, Mich., said to a representative of The Citizen this afternoon that it was his intention to build a sanitarium for the treatment of tuberculosis patients on the mesa east of Albuquerque. He yesterday bought forty acres of the 160 acre Lockhart tract of land lying just south of the Tijeras canyon road and east of the University of New Mexico. The forty acres is located on the highest of the mesa foothills and commands a fine view of the valley and the city. It is a fine site for a sanitarium, conditions being most favorable from a sanitary standpoint, and the natural slope of the land affording excellent drainage.

The doctor's plans are to build a small city of cottages. The cottages

will be constructed of adobe brick, which, he claims, makes the house adapted to the climate. The adobe is non-conductive of heat and cold, and can be made very attractive. The cottages will be made on the ground where the buildings are to be erected.

The cottages will be built in colonies; first, incipient; second, middle stage, and third, the bed-ridden patients. Each colony will be isolated from the others.

The cottages will be one story and each supplied with a porch and double doors, so that the patient may be moved into the open air and sun without leaving the cot.

The institution will begin with 200 beds, but that number will be increased as demand requires.

The doctor says that a feature of his sanitarium, which is essential, will be a herd of burros and ponies for his patients to ride out in the open air.

Work on the new sanitarium will begin right away, and a force of men will start the brick making the first of the month.

LABOR MEASURES.

To Be Considered by Organized Bodies at Denver.

Denver, May 26.—The Western Federation miners' convention resumed their session this morning and entered upon preliminary work, the appointment of standing committees and the like, preparatory to general business of the day. Two very important measures that will be considered by the convention and American Labor union are reimbursing members of labor unions who were thrown out of employment by the recent strike, and establishment by federation of co-operative stores in places where there is opposition to organization. President McDonald of the labor union will deliver his annual address this afternoon and president Moyer of the miners tomorrow.

ALLEGED ROBBERS HERE.

City Marshal McMillan Arrived This Morning With His Three Men.

HEARING TOMORROW.

City Marshal McMillan arrived on last night's belated train early this morning from Florence, Colo., with George Gibson, J. L. Lewis and James Logan, who, it is alleged, cracked the safe of S. Vann & Son in this city in December last and got away with nearly \$5,000 worth of jewelry. The marshal and his aide, H. B. Henning, had a pleasant trip.

The three prisoners were seen today by The Citizen representative and it was the same old story. Logan said he bought the jewelry from an unknown man in Denver for \$15 or \$16; that he was arrested in Pueblo for having the goods, but got off by a writ of habeas corpus. He hails from Montana any says the other two men know nothing about the matter of his buying the goods. Gibson said he was here a short time ago, while Lewis said he was never here. All claim to be innocent as little lambs, and not much stock can be taken from their talk as all were very flippant.

When arrested by the Florence officials nine rings and three watch charms were found on them. Shortly after these were stolen from the desk of the chief of police, together with what money that was taken from them. So that a watch case that had been sold to a Florence party for \$9 is the only evidence that is now held against them. This watch case has the number of the one of the many that was taken from the Vann safe.

The hearing will take place tomorrow.

The robbery of S. Vann & Son was the greatest that ever occurred in the southwest. All three prisoners are young men.

The Las Vegas Advertiser is doing
good work for Las Vegas and San
Miguel county. It is in no combine,
and, therefore, is not published to
boost up the claims of any other town
and to make detrimental comparisons.
The people of San Miguel county
should encourage the Advertiser by
giving it the most liberal support.

The Dalhart Texan, published last
week, comes to this office in illustrated
form, showing cuts and views of the
business houses and residences, and
the prominent men of that town. Dal-
hart is the queen city of the Texas
Panhandle, and, although quite young,
has every evidence of being one of the
biggest cities of that section of the
Lone Star state.

Philadelphia, while a crooked town
in many ways, yet doesn't quite con-
cur in the view that gambling is a
good thing for a city. The police have
seized and burnt some 1,300 nickel-in-
the-slot gambling machines, valued at
about \$100 apiece. Incidentally they
have turned into the city treasury a
large sum of money seized in the
machines.

The charges made by the Daily Ad-
vertiser of Las Vegas against the man-
agement of the territorial insane asyl-
um should be fully investigated. The
charges are very serious and grave
and must be proved to the very bot-
tom. The people of the territory will
not be satisfied with any other course.
Governor Otero has already directed
a thorough investigation and in this
he was absolutely correct and acted
as the exigencies of the situation de-
manded.

The Citizen has received a copy of
the message of Governor Miguel A.
Otero to the thirty-fifth legislative as-
sembly, the message, with his vetoes
of certain measures, being printed in
pamphlet form. It is a very valuable
document, and the reports of the var-
ious territorial officers, printed along
with the message, contain some excel-

lent information regarding the terri-
tory in general.

The prices of sheep and lambs are
going out of sight. Another boom for
the traders.

There seems to be no end of the out-
put of undigested and indigestible se-
curities. The Michigan cucumber
growers have just formed a combine.

Wall street Locket shops are not do-
ing enough business just now to pay

the country are letting up their strict
watch on trusted employees with a
cavernous sigh of relief.

RICHES ARE A BURDEN.

Even the very rich man has his
troubles if we are to believe the press
on Rockefeller's fortune. They say it
did not exist in 1870, and that it be-
gan to be in 1872. That it was exclu-
sively an oil fortune fifteen years ago.
Today it is in gas, in coal, in iron, in
railways, in copper, in lead, in steam-
ships, in banks, in hotels, in apartment
houses, in tenements, in all kinds of
mortgages—in fact, in everything. And
its income of more than \$40,000,000 a
year has become a nightmare to its
owner. Spend it, he could not if he
would. Give it away, he would not,
fortunately for the spirit of manly in-
dependence. Let it lie idle, he dare
not, for so much idle capital uppling
would disarrange the world's finances.
It is said that he had an attack of
dyspepsia a few years ago, brought on
by the fact that a vast number of
farmers to whom he had loaned mil-
lions, as he hoped, as a safe invest-
ment for years, suddenly paid him,
and compelled him to surrender a car
load of mortgages.

The Waste of the Body.

Every seven days the blood, muscles
and bones of a man of average size
loses two pounds of wornout tissue.
This waste cannot be replenished and
the health and strength kept up with-
out perfect digestion. When the stom-
ach and digestive organs fail to per-
form their functions, the strength lets
down, health gives way, and disease
set up. Kodol Dyspepsia Cure enables
the stomach and digestive organs to
digest and assimilate all of the whole-
some food that may be eaten into the
kind of blood that rebuilds the tissues
and protects the health and strength
of the mind and body. Kodol cures
indigestion, dyspepsia and all stomach
troubles. It is an ideal spring tonic.

Interested in Mines.

Jerome Kennedy of New Haven,
Conn. is in the city. Mr. Kennedy
is secretary of the Gibson Develop-
ment company and of the Shaw-Gibson
Mining company, and will be in the
territory several weeks inspecting the
mineral properties of these companies
located in Santa Fe, Socorro, Lincoln
and Grant counties. The counties in
which Mr. Kennedy is interested have
been operating in New Mexico for the
past two years, and have invested con-
siderable capital. They have some
very promising and well developed
properties now with the prospects of
turning them into paying producers
within the next few months. The two
companies named have not been mak-
ing lavish expenditures, but the money
has been put where it will do the most
good and expended with a great deal
of care, judicious attention and good
management. —New Mexican.

OLD MINE UNCOVERED.

Was Probably Worked by Spaniards
Before the Pueblo Revolution.

Men at work on the new sulphur
mines of Hon. M. S. Otero near Sul-
phur Springs, Sandoval county, a few
days ago made a peculiar find. They
had attained a depth of about ten feet
when they struck the mouth of an old
shaft that is evidently a relic of the
days when the Spaniards occupied this
territory prior to the Pueblo revolution
of 1680. It was covered over with
rotten timbers and the entrance was
clear, but for a distance of twenty feet
the wood was so rotten that it crum-
bled at the touch of the workers. There
is no record to show that a mine was
ever worked there by Americans or
natives and there is little room to
doubt but that the Spaniards dug this
shaft centuries ago. Many mines were
covered by the Indians at the time of
the revolution and this was probably
one of them. The men who made the
discovery were unable to go any great
depth on account of the extreme heat.

FROM LAST TO FIRST

People used to take plain
cod liver oil for coughs, colds,
throat and lung troubles after
other remedies had failed.

Scott's Emulsion is the
modern idea of cod liver oil
—the first instead of the last
resort when such ailments
appear.

The taste of the oil is not
apparent and the oil itself is
partly digested—makes it
easy for the stomach. Scott's
Emulsion is a quick, reliable
help at all ages.

We'll send you a sample free upon request.
SCOTT & BOWNE, 409 Pearl Street, New York.

which is also evident in all of the sul-
phur mines, the sulphur itself being re-
sponsible for it. The only relief from
the heat is obtained through air shafts
and air tunnels. Mr. Otero's workmen
are now unable to work at a greater
depth than one hundred feet, but ad-
ditional air shafts and tunnels will
soon be added when it is hoped to ob-
tain a much greater depth. These
mines are situated just a few miles
from Sulphur Springs and the sulphur
is said to abound in unlimited quan-
tities. Hundreds of pounds of pure sul-
phur have been taken out and quite
a force of men are employed there,
but it is expected that much more sul-
phur can be removed daily when
everything is in working order and a
larger force of men will then be em-
ployed.

GREATLY ALARMED.

By a Persistent Cough, but Permanent-
ly Cured by Chamberlain's
Cough Remedy.

Mr. H. P. Burbage, a student at law,
in Greenville, S. C., had been troubled
for four or five years with a continuous
cough which he says, "greatly alarmed
me, causing me to fear that I was in
the first stage of consumption." Mr.
Burbage, having seen Chamberlain's
Cough Remedy advertised, concluded
to try it. Now read what he says of it:
"I soon felt a remarkable change and
after using two bottles of the twenty-
five cent size, was permanently cured."

A Friend in Court.

Senator Blackburn tells of a Ken-
tuckian holding the office of trial judge
in the blue grass state. His own son
was brought before him on a charge of
drunkenness and disorderly conduct. His
honor listened gravely to the evidence,
which established a clear case against
the young man, and said:
"The court will now render sentence.
You're fined one cent and costs. The
court will remit the costs, and you may
go home and thank God that your
father is the judge."—Public Ledger.

GOLD AND SILVER.

An Unusually Rich Strike Four Miles
From Pearce, Arizona.

What is regarded as a phenomenal
strike has just been made about four
miles from Pearce by three miners
named J. C. Morcise, Walter Lane and
Frank Taylor, says the Tombstone
Prospector. The strike is what is
known as the silvinitic ore and is rich
in gold and silver. Several assays
made show the values to reach from
\$3,000 to \$5,000 per ton. The find was

GOOD LIVING

Quite often results in bad health, because
what is termed "good living" is usually
the gratification of the palate without
reference to the nutrition of the body.

When the good liver is a business man
and rises from a full meal to plunge
at once into work requiring mental
effort the result is almost sure to be
disastrous, because digestion draws
upon the same nervous forces
which are em-
ployed in thought. In time the stom-
ach becomes dis-
eased, the pro-
cesses of diges-
tion and nutri-
tion are imper-
fectly per-
formed and there
is a physical
breakdown.

Dr. Pierce's
Golden Medical
Discovery cures
diseases of the
stomach and other
organs of diges-
tion and nutri-
tion. It elimi-
nates the effete
poisonous matter
which originates
in the system as a
consequence of
imperfect diges-
tion. It gives
sound health to
the whole body.

"I wish to say to the world that Dr. Pierce's
Golden Medical Discovery has proved a great
blessing to me." writes Mrs. Ellen E. Brown,
of Shutesbury, Franklin Co., Mass. "Prior to
September, 1897, I had doctored for my stomach
trouble, for several years, going through a course
of treatment without any real benefit. In
September, 1897, I had very sick spells and grew
worse, could eat but little. I commenced in
September, 1897, to take Dr. Pierce's medicine,
and in a short time I could eat and work. I
have gained twenty pounds in two months."

Engineer Charles Egan has been temporarily transferred to Winslow.

J. R. Merrifield, traveling auditor for the Santa Fe coast lines is in the city.

J. P. McMurray, traveling engineer. It is reported that work on the Alamogordo, Las Cruces & Deming Short Line railroad will soon be under full headway.

W. J. Essex, general foreman of the local shops, and wife left this morning for Los Angeles, where they will spend a short vacation.

J. E. Saint, with the Santa Fe Central, who has been spending a couple of days in the city with his family, will return to his headquarters at Santa Fe tonight.

It is the talk among railroad men that Master Mechanic Drury, now located at Winslow, will succeed Master Mechanic Barnes, who resigned recently, at the local shops.

George S. Good, of the firm of Good & Co., railroad contractors, has gone to Denver to look after his railroad contracts on the new Moffat road being built out of Denver.

for the New Mexican and Rio Grande divisions of the Santa Fe, was in the city this morning for a couple of hours. He arrived on delayed passenger train No. 1 and returned north on a freight train.

D. E. Cain, general superintendent of the western grand division of the Santa Fe, will arrive in the city this evening from the north. Mr. Cain will stop off in the city, out it is not known how long.

Stephen Knight, a blacksmith at the Santa Fe shops, San Bernardino, was painfully injured Friday night while working on the rip track. A hammer which he was using flew from his handle, striking him over the left eye and inflicting a painful wound.

Thomas L. Blackburn, a young civil engineer of El Paso, has been placed in charge of a party of engineers for the location of the new Alamogordo-Deming railroad. C. C. Small has been made chief engineer. It is claimed that it will be completed within eight months.

Senator Clark's Salt Lake road is to use the Santa Fe from San Bernardino to Daguerre, according to an interview he has just given out in San Francisco, which would imply that he is to extend his road now building from Los Angeles to Riverside, and carry the line on to San Bernardino immediately.

C. O. Trimble, private secretary for James Dun, chief engineer for the Santa Fe, went to Belen this morning. At Belen he will join Mr. Dun, who is there inspecting some work being done on the cut-off. Mr. Dun will probably stop off at Albuquerque next Thursday while en route to his headquarters at Chicago.

Conductor Arthur Doyle, one of the best known Santa Fe employees on the Southern Kansas division and who has many friends on the western end of the system, died several days ago as a result of a complication of throat and lung trouble, says the San Bernardino, Cal., Sun. Last November he was in this city for a few days accompanied by his wife, going from here to Pasadena, where he expected to regain

his health. The dreaded disease had gone too far, however, and a short time ago he again passed through San Bernardino going home to die. Conductor Doyle entered the employ of the Santa Fe in 1884 and the high esteem in which he was held by the officials and fellow employees all testify to the excellent record he held.

At New York yesterday the stockholders of the Detroit Southern Railroad company held a special meeting and acted favorably on the proposition of the directors to increase the capital stock of the company. The increase is from \$5,500,000 preferred and \$10,500,000 common stock to \$10,000,000 preferred and \$16,000,000 common stock.

Colorado & Southern Sued. A Denver Republican special from Gunnison, Colo., says that suits have been commenced against the Colorado & Southern railroad by the Baldwin Coal company for damages in the sum of \$600,000 through alleged violation of the constitution of the state by granting undue and unreasonable discrimination and preference to a rival coal company in the way of furnishing means of transportation for its product and denying the same to plain-

tiff. President Frank Trumbull is made a party to the suit and is charged with owning an interest in the alleged favored company. The defense has filed a denial and pleads that it is not obligated to furnish transportation facilities to the plaintiff's tracks, which run from a branch of the road to the mine.

A MYSTERIOUS STRANGER. Thos. Delaney, Section Foreman on the Denver & Rio Grande Murdered. A correspondent, writing to the New Mexican from Antonito, Colo., dated May 21, says:

Thomas Delaney, section foreman on the Denver & Rio Grande railroad on the section between Los Pinos section and Cumbres section, was murdered yesterday afternoon in a snow shed at the lower end of the section. The murder was committed between 3 and 4 o'clock in the afternoon.

Delaney had gone to the next section below to bid farewell to a foreman who had resigned his place on the next section. He left the men on the next section at 2:15 p. m. and was afterwards seen by his own men as he was returning. He was seen to talk with a stranger just before entering the snow shed on his way back.

Delaney did not put in an appearance at quitting time so his men went

This morning, as he was still missing, they went in search for him and at 8 o'clock found his body in the dark part of the snow shed. His skull had been crushed with a coupling pin. Delaney's watch and pay check were found on the body.

The mysterious stranger was seen by Delaney's men as they were about to start for the section house and they waited for some time, thinking it was Delaney. These stranger evidently followed them towards the section house and then went on over the Cumbres range toward Chama and Durango. It is supposed that the intention of the stranger was to merely stun Delaney and then rob him, but became alarmed and left without carrying out his intentions to rob. Efforts are being made to trace him.

RAILWAY EXTENSION. Phoenix & Eastern Will Probably Go to Tombstone.

Oakes Murphy, ex-governor of Arizona, who with his brother, F. M. Murphy, is interested in the building of the Phoenix & Eastern line, from Phoenix to Benson and possibly Tombstone, passed through El Paso en route from Phoenix to the City of Mexico, says the Herald.

Mr. Murphy says that the Phoenix & Eastern is being constructed as fast as the line can be built, and that while it has not been settled as yet whether the line will be put through as far as Tombstone or not, the possibilities are that it will, as he and his associates are interested in the mines in that

camp and would much prefer to have their own line of railway.

The Phoenix & Eastern also has up a project to build eastward from Phoenix to a point on the Santa Fe coast lines in California, and it is thought that Bagdad, Cal., will be the western terminus of the line.

So far as the Mexican proposition is concerned, there has been nothing definite settled as yet. Engineer Karnes, who has been surveying the route, will leave in a few days for Mexico to resume the work.

Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan, locomotive engineer, Lima, Ohio, writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." NO MORE MONEY SPENT. Policy of Railroads in Regard to Cost of Labor.

A New York dispatch says: President W. H. Taft, of the Lackawanna, discussed the effect of the high price of labor and material on the railroad situation. "It is evident to all that the present prices are having an adverse effect on railroad improvements," said he. "Speaking of our own road I may say that we are not spending a cent less than usual, but we are not getting so much done for our money. Practically all our improvements are paid for out of current earnings."

"I do not see any immediate prospect of a reduction in prices, but the salvation of railroads will be in the continued large gains in gross earnings due to tremendous commercial activity. It would be difficult for companies to meet heavy operating expenses by increasing freight rates, as every attempt to do so is met with great opposition. Again, an increase in rates means a reduction in business so that any effort in that direction would work in a circle."

"Present prices of labor and material operate against the business of railroads and consequently have a depressing effect on the price of securities but the question is not going to worry officials to any extent as long as gross earnings keep up their present proportions."

Queen Quality

You Want Both

When you try on a pair of shoes look for two things—COMFORT AND STYLE. You must have them both! Either one by itself is not enough. It is easy to make a comfortable shoe; it is easy to make a stylish shoe. But it is very difficult to combine the two. To make a stylish shoe that is comfortable is the highest art. A shoe may feel comfortable yet not fit properly. Now it must fit or you are sure to have trouble. And the better it fits, the better it will wear and the longer it will last.

THE ONE SHOE THAT
FITS WHEN ALL OTHERS FAIL
IS "QUEEN QUALITY."

It fits because it is made in an infinite variety of original styles to suit all shapes of feet and all occasions. "Queen Quality" originates its own styles. Then they are copied on other makers. If you want to be ahead on the fashion wear "Queen Quality." If you want twice as many chances in selection, try "Queen Quality." A glance through our stock shows this.

BOOTS, \$3.00. OXFORDS, \$2.50.
Special Styles 50c extra.

RODEY AT WASHINGTON.

He is Interviewed and Says He Will Accept Joint Statehood.

ROOSEVELT RECEPTION HERE.

From Washington Post, May 19.
Delegate Rodéy, of New Mexico, was at the New Willard last night. He has been home in New Mexico a little over a month. He remained in the east about a month after the adjournment of congress, but went home to attend to some matters and to attend to the president's reception.

He states that the reception given to the president at Santa Fe and Albuquerque, which were the only places at which he stopped in the territory were as grand events as ever happened in the southwest; that at Santa Fe, which is the capital, they concluded it would be polite to put nothing in decorations to indicate the sentiments of the people for statehood, and, therefore, nothing took place there save that there was an immense crowd present, and they gave the president a very enthusiastic welcome.

"At Albuquerque, however, the case was different," said he. "At that place there was one of the biggest crowds ever gathered together to greet the president and his party: the streets and buildings were decorated with bunting, flags, mottoes, arches etc., in a manner such as had never been seen there before. The new Alvarado hotel at the depot, which is a unique structure, built in the style of the Spanish missions and probably the finest hotel-ry between Chicago and Los Angeles, was decorated beautifully. The president spoke from the front steps of the hotel; the lawn was filled with thousands of people."

"Directly opposite where the president spoke a unique statehood tableau was presented to his gaze, it consisted of an inclined platform enclosed in bunting and evergreens, with forty-five little girls dressed to represent the states of the union standing in their proper positions upon a ground map of the nation. Directly outside the gate of the front fence in the southwest corner stood a little girl dressed to represent New Mexico, and the figure of Uncle Sam inside the gate pulling the gate ajar about to admit her, she appealing for admission."

"The president was non-committal on the question of statehood, and for that reason the people were not very enthusiastic in applause, although very attentive and respectful to his speech. He made a great speech about citizenship, irrigation and kindred subjects."

The delegate is of the opinion that the first bills introduced in the Fifty-eighth congress will be statehood bills, because the friends of statehood have kindly promised to open the fight from the very first day. He predicts the same block that occurred in the last congress will occur in the coming one, until the statehood bill is passed. He says there is an intense feeling in the southwest that the republican party made a great mistake in repudiating the admission plank in its own last platform during the last congress by refusing to admit the territories; that the sentiment in New Mexico and Arizona is intensely for separate statehood for each territory, but New Mexico, rather than remain out of the union longer, he thinks, will accept joint statehood.

GREAT TIMBER DEAL.

Philadelphia Pecan Take Up Option on Durango Tract.

A letter to the El Paso Herald from Guadalupe, Durango, Mex., states that the option recently given to John P. Elkin of Philadelphia by Don Hilario Lasoya on his timber land known as Rancho San Esteban, has been taken up and the first payment of \$100,000 made by F. H. Husted who negotiated the deal.

This is one of the largest and best tracts of timber lands in the republic of Mexico and the purchasers certainly have secured a prize in the way of an investment. The tract consists of some 500,000 acres.

Mr. Elkin is the new president of the Terrenate Consolidated Mining company and Mr. Husted is the general manager.

WILL BUILD A SMELTER.

Stockholders of the Keystone Mining Company Are Inspecting Property.

O. W. Chavering, Dr. T. C. Harter of Bloomington, Pa., S. A. Baughman of

Philadelphia, Pa., and J. I. Higbee of Watsonville, Pa., arrived in Santa Fe Friday and departed Saturday for Tres Piedras. They are stockholders of the Keystone Copper Mining company, which has nineteen mining claims in the Bromide district, twelve miles from Tres Piedras. The object of the visit is to inspect the property and arrange for the construction of a smelter which will probably be erected this summer. They will stop in Santa Fe on their return. The leading claim owned by the Keystone Copper Mining company is the Pay Roll, on which a shaft of 250 feet is sunk. Modern hoisting machinery is being used on the shaft and a force of ten men under the supervision of J. P. Rinker, who has had twenty-four years' experience in mining in Taos and Rio Arriba counties is employed to do the work. The vein averages about eighteen feet in thickness and a pay streak of about four feet thick is being worked. The ore in the pay streak assays from \$18 to \$40 a ton in copper, gold and silver.

A Lesson in Health.
Healthy kidneys filter the impurities from the blood, and unless they do, a good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

Miners Killed.
Pittsburg, May 26.—An explosion of gas at the Federal mine of the Charities Coal and Coke company today instantly killed four men. Many others, it is said, were injured.

The west side of the Sandia mountains presented a white appearance this morning. It snowed in the mountains last night.

TRIUMPHANT OVER FEMALE DISEASES!

PAINE'S CELERY COMPOUND

Home Treatment With the Famous Prescription Has Brought Happiness and Health to Hosts of Suffering Women.

Intelligent and thoughtful women are now using the best and most reliable of all spring medicines, Paine's Celery Compound, and are getting back nervous vigor, pure blood, bodily strength, and a ruddy and clear complexion. The women of our land who silently suffer from female irregularities and dangerous ills, and who spend fully half their time in misery, will find in Paine's Celery Compound all the virtues and elements that lead to health and true happiness. Paine's Celery Compound possesses peculiar powers for the strengthening of the female organism. It braces the nervous system, makes strong the weak muscles of every important organ. Victims of suppressed, profuse or painful

menstruation, leucorrhoea, chlorosis, uterine inflammation and other ailments common with females, are quickly cured of these troubles and annoyances, are made vigorous and active and rejoice in permanent health. Mrs. M. A. Morris, Tilton, Ark., writes for women as follows:

"I was afflicted with the whites and irregular menstruation, and tried several doctors, but found no relief. A lady friend of mine advised me to try Paine's Celery Compound. I used two bottles of your great medicine, and I am now a sound woman, and I give your wonderful remedy all the credit. I will forever praise Paine's Celery Compound, it did so much for me."

FIRE LAST EVENING.

Kerosene Lamp Explodes at Mrs. Watson's Home on Copper Avenue.

A still alarm was rung in last evening before 9 o'clock for a fire in the home of Mrs. Watson on Copper avenue, between Fourth and Fifth streets.

The fire was in a sleeping room and not much damage was done. Mrs. Watson was carrying a lamp and it exploded, setting the bed clothes on fire, and charring up the room in general. Mrs. Watson escaped from any turns and was very lucky in so doing.

Notes from Correspondents

FROM THE PHILIPPINES.

An Albuquerque Boy Writes Interestingly About the People.

United States Steamship Albany, Jolo, Jolo Island, April 2, 1903.

Messrs. Hughes & McCroight, publishers Albuquerque Daily Citizen:

Dear Sirs: I take the pleasure to send you a description of the Moros and their religious belief of the Juramentado and their ways, and I for one can vouch for the Juramentado when he is on the warpath, as I have been a witness to three different cases, where he has tried to kill all he could before he is killed. In one case two Juramentados killed seven and wounded three; in another instance the Juramentado was shot nine times through the body and after he had fallen to the ground he raised up and with his bolo cut a cavalry horse's neck so bad that they had to shoot the horse. The desire to kill is so impressed on their mind that they fight until the last. Their belief is that if a pig is buried with the dead their soul will go to hell, and the other day they buried three Juramentados with pigs, and we are now looking for an outbreak.

Base ball and other sports is rather on the wane at present, as all sports are held outside of the wall, and the ones that take part in the sports are handicapped by having to keep their arms on their person. Nevertheless, there are some very good games of ball.

I hope that Albuquerque still holds the honor of having the best base ball team in the southwest.

Regards to all, hoping that I will be with you next spring.

Best wishes to the publishers of The Citizen.

Very respectfully,

FRED T. TALBOT.

The Juramentado.

The Moros are accustomed to suffer all the caprices of their despotic authority. The laws of centuries permit the men to be recruited for any purpose whatsoever. The debtor who can not pay becomes, with his family, the slave of the creditor, and the Moros are so indifferent to these conditions that their owners do not encounter and difficulty in making them contract such debts for their own resources. The debtor thus loses all his rights and his children can be sold throughout the archipelago. He can, however, buy the liberty of his family at the risk of his own life, i. e., for the largest number of Christians whom he can slay. If the debtor accepts this proposition he becomes that moment a Juramentado, knowing perfectly well that if he manages to get in the midst of an American or Spanish settlement that all hope for escape is lost. Death is therefore certain for all Juramentados, and it is never the case that one repents his impudence, because there are a number of Juramentados assembled to submit themselves to certain rites performed by expert pandetas or priests.

Alone in the deserted forests, the moonlight adding its rays to the weird and fantastic scene they commence their exercises by fasting, reciting and praying over the graves of the departed Juramentados and speak of the bliss and happiness that is to be theirs in the heaven of Mohammed. When they arrive at a sufficient state of exaltation, but never before, they are sent into a Christian community. As this is a ceremony that interests many different families and a great many formalities have to be gone through it can never be absolutely kept a secret, no matter how much it would be to their interest to do so, and thus it is that the governor of Jolo receives notice that an attack will be made, but they can never inform him the exact time the attack will be made, because the Juramentados themselves do not know at what time they will reach the exulted state.

At midnight in the magic splendor of the moon reverberates in the depth of the forest the warlike cries, sounding metal like; the everlasting lamenting echo of ever wandering souls; the priest congregates all fame thirsting youths, speaks of the strong men who died noble deaths in front of the enemies steel, of the menacing shadow of creditors, of the glory of the hero and the infamy and slavery of the coward and of the other inexhausting lives of pleasure, where brilliant eyes look upon infinite treasures and imagination crazes them. They convulsively grasp their sharp knives and imagine themselves feeling the cold sweat of death on their foreheads from the damp vapors of the night, sing, their voices installing valor into their hearts. The following day they die at an outpost.

The first Juramentado we have knowledge of through history or tradition gave themselves to martyrdom through exaltation or belief exulted in their practice of prayer, fasting and making abstractions of all terrestrial pleasure and going to gain the Paradise offered to all believers of Mohammed. They prepare themselves for the sacrifice, imposing upon themselves material mortification, putting strong bindings upon their purposes and resolve to die on the terminal day. They shave their heads and eyebrows carefully, clothe themselves in clean white clothing (color worn by the people of the island) and accompanied by their relatives, after arriving at the spot of bloody purification, they take leave of their relatives and present themselves before the largest possible body of

Christians, calling their attention, provoking them in search of death or martyrdom. The memories of eternal recompense were to receive cruel blows, without a murmur or a lament they lay victims of their own ignorance.

These mystic martyrs followed the warrior and were not satisfied in dying, but are anxious to kill, mixing religious fanaticism with political favor, never retreating, showing themselves to the enemies and trying to cause the death of the largest number before falling. These open attacks are followed by ambushes and surprises; and means seem proper to gain their martyrdom. The odium of races, the desire to distinguish themselves before their families, wishing to be avenged and many other causes today make the Juramentado. Abuse or any injury will make an assassin of the Moro and will convert the greatest coward into a ferocious beast. Take a Moro who has been your friend and force him to leave you and he will make you take a kuese and kill him, because he will never allow himself to be dishonored. Tragedies of all kinds are credited to the Juramentado.

Modern arms have, however, diminished the devils in human form and only the very bravest and most fanatic commit themselves for this purpose. There are few panditas to be found who will prepare candidates for martyrdom. The respect for authority cools their religion.

HAIR WON'T FALL OUT

If You Kill the Dandruff Germ With the New Treatment.

John N. Fuller, a well-known citizen of Colfax, Wash., says: "I had dandruff so badly that it caked on my scalp. Herpicide completely cured me." George H. McWhir, of Walla Walla, Wash., says: "Herpicide completely cured me of a bad case of dandruff of 30 years' standing." They took the only really sensible treatment, a remedy that destroys the dandruff germ—Newbro's Herpicide. Stop dandruff, hair won't fall out, but will grow naturally, luxuriantly. Always itching instantly and makes hair glossy and soft as silk. At druggists. One bottle will convince any doubter of its merits.

"Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents."

FAYWOOD HOT SPRINGS.

Guests at Hotel—Faywood Concentrates Company About Read; for Business.

Special Correspondence.

Faywood Hot Springs, May 24.—Among recent arrivals at Faywood hotel and sanitarium are: Mr. and Mrs. W. L. Christian, Lexington, Ky.; C. L. Kurtz, Columbus, Ohio; M. W. Smith, A. C. Salcido, Cook's Peak; Mr. and Mrs. Chris Peterson, Samuel Lindauer, Silver City; Henry Brock, Aden.

Mr. Christian is traveling in the interest of the W. C. McBrayer Distilling company and makes periodical visits to this portion of his business district, while Mrs. Christian finds this climate so beneficial to her health that she spends most of her time here and in Silver City.

Mr. Kurtz, a prominent politician and financier of Ohio, was unexpectedly summoned home on important business, but expects to return soon and remain here during his vacation in Silver City.

At midnight in the magic splendor of the moon reverberates in the depth of the forest the warlike cries, sounding metal like; the everlasting lamenting echo of ever wandering souls; the priest congregates all fame thirsting youths, speaks of the strong men who died noble deaths in front of the enemies steel, of the menacing shadow of creditors, of the glory of the hero and the infamy and slavery of the coward and of the other inexhausting lives of pleasure, where brilliant eyes look upon infinite treasures and imagination crazes them. A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary medical treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine effects as well.

Thousands of testimonial letters prove beyond question that nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound. It always works in harmony with the female system.

order to strengthen his nervous and physical system, now badly overwrought by the work and worry of several business interests at widely separated points.

The Faywood Concentrates company has nearly completed its plant and Messrs. Smith and Salcido are transferring a tank car of crude petroleum to the receiving tank. This company has a process of concentrating ores without the use of water in either the separation of metals or production of power, the latter being furnished by vaporized petroleum. When the plant is in full operation I hope to give your many readers a clear, concise description of its performance, because, if a success, it means the profitable working of mines distant from wood, coal and water.

Mr. Lindauer has resided in this section of New Mexico these many years and is a leading Silver City dealer in dry goods and clothing.

Mr. Peterson is enjoying a period of recreation and rest from his arduous duties as locomotive engineer on the division of the Santa Fe, Rincon to Silver City, where he has held the throttle for the past fifteen years.

Mr. Brock was for several years foreman of this division of the Diamond A ranches, but he resigned nearly two years ago and now has a fine, well stocked ranch about four miles from Aden on the Southern Pacific railroad.

Mr. Collard's rheumatism vanished in a week and he has returned to his duties as foreman of the Bible mill and smelter.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. VOLCANO IN SIERRA MADRES.

El Paso Citizens Discover a Smoldering Crater Known to Natives.

A special telegram from El Paso, dated May 24, says: Alderman George Loog and three other well known citizens have just returned from Casas Grande, in the heart of the Sierra Madre mountains, and relate the discovery of a smoldering volcano hitherto unknown except by a few natives.

Huge volumes of smoke and vapor are constantly issuing from the top of the rugged mountain. Ascending the mountain they found the peculiar smoke a volatile substance mixed with dust and vapor. The sides of the crater are moist and sweaty. A green shrub growing just above the opening on one side of the crevice is evidence that the eruption is of recent origin.

When the party returned to the banks of the river the smoke was still visible and the party was at a loss to understand why they had not seen it before. A resurvey of the situation showed that the mountain from which the smoke came from was half hidden by another mountain at which they had all the time been looking when trying to verify the report of Mexican boys.

Before reaching the top the smoke became visible and a peculiar smell discernible. Receding in the direction of the smoke west of the summit they came upon a great crack in the rock five feet wide and twenty feet long, slanting into the mountain, from which smoke was pouring in a steady and heavy volume with the odor and breath-taking effect of hartshorn. None of the party could stand near enough to the aperture to look into it.

At the foot of the mountain and at one side of the Casas Grande river are several hot springs showing the interior of the mountain is in a highly

heated state. The point where the strange discovery was made is twelve miles south of Casas Grande and about five miles from the end of the Sierra Madre railroad in a chain of mountains.

Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the night and mornings, there is nothing like German Syrup. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. J. H. O'Reilly & Co.

TUCUMCARI.

From the Times.

Work will begin within a few days on a thirty-ton ice plant and a 2,000 light electric plant, the machinery and materials having been bought.

One day last week sixty wagons were loaded at this place with hay, grain and provisions for the grading camps on the Choctaw-Amarillo extension.

Every day several train loads of cattle pass through this place on route to the Kansas City market. The cattle come from Texas, Arizona and New Mexico, and are in fairly good condition.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure. An intelligent mother in Butler, Pa., says: "I would not have had my child again, I would not have had it if I had to pay \$50 per bottle for it."

prospecting trip into the Jicarilla mountains and Santa Rosa district. They brought in some fine specimens of iron ores, sulphur and coal. The iron leads are very large, and close to the railroad. The iron, apparently, is nearly pure, the sulphur readily burns, exhibiting a blue blaze which is hard to extinguish. Colonel May reports having discovered a petrified forest in Texas about one hundred miles from Santa Rosa.

Attorney R. L. Young is back from his trip over the new railroad.

Workmen were engaged tearing down the telegraph wires and putting up a cable.

Mrs. Morrison was taken with paralysis at her home in Organ last Saturday and died Sunday.

Gardens throughout the valley are flourishing. There will be no scarcity of vegetables in the valley this year.

Pedro Provencia, an old miner who has been working at the Bennett-Stephenson mine for several years, is reported very ill at his home in Mesilla.

Samuel G. Rean, accompanied his son and daughter, Mr. and Mrs. I. G. Castaneda, who left for Santa Rosa, Mexico, last week, as far as El Paso.

L. C. Collier, an experienced druggist from Ohio, is now employed at Dr. Lane's drug store. Mr. Freeman, former druggist, having retired.

Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion. The Legal Tender base ball team of Tucumcari crossed bats with the Sunbeams at Santa Rosa on their grounds Wednesday afternoon. Both teams had their best players, and for a time it looked as if the game would be very close. The Legal Tenders soon got in some good work by a few heavy hits which put them in the lead. At the close of the ninth inning the score stood 7 to 17 in favor of the Tucumcari team.

Tucumcari will soon have to have a freight house. There are so many goods being shipped to this point that the present freight house is not large enough to hold them. When the depot was built there was plenty of room and plenty to spare. Since Tucumcari has become such a thriving little city the building is not large enough.

CLAYTON.

From the Enterprise.

F. H. Clark, who has been in ill health for some time, left for his former home in Missouri.

The Clayton public school closed Friday. That night a program, consisting of drills, songs and recitations, was rendered.

Mr. Laughlin of Paris, Tex., who has the contract for the erection of the Lawrence Mercantile company's new building, was in the city.

Claus Schlatter entertained a party of friends at cards after which a sumptuous lunch was served. The following were present: Mr. and Mrs. R. P. Ervin, Mr. and Mrs. C. Otto, Mr. and Mrs. A. W. Thompson, Mr. and Mrs. E. W. Fox, Mrs. Schroder, Mr. and Mrs. Olin E. Smith and Mr. Robert Isaacs.

C. W. Gates was arrested and placed in jail by Sheriff Pablo Baca y Sanchez on a telegram sent by J. H. Cook of Texline. Upon the arrival here of Mr. Cook we learned that Gates, who had been working for him at Texline, had stolen \$77. Mr. Cook got back most of his money and took Gates back with him to Texline.

A Little Early Riser.

now and then, at bedtime, will cure constipation, biliousness and liver trouble. DeWitt's Little Early Riser are famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by B. H. Briggs & Co., S. Vann & Son.

ALAMOGORDO.

From the News.

Homer W. Schofield was in El Paso a few days this week.

W. T. Gilliam of Italy, Tex., is in the city visiting E. R. Williams.

Mrs. Fred Bowman and Mrs. John Breigle have gone to Scranton, Pa., on a visit to relatives.

Dr. and Mrs. Bryan gave a ball to a party of their friends last Saturday evening in the vacant Avis room.

Judge O'Reilly had only one case this week, a man for being drunk and asleep on the sidewalk. He paid his fine of \$5 and skipped for El Paso.

Born to Mr. and Mrs. A. Huth, a girl, Mr. Huth was captured by some of his friends but was released by setting up the cigars to the gentlemen and candy to the ladies.

The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not turn of being without it. I have recommended to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

RATON.

From the Gazette.

Miss Amy Wilkinson will spend the summer at her home in St. Paul, Minn.

Fritz Bruggeman, who has been attending the Military Institute at Roswell, sprained his ankle while engaged

In a game of ball. The sprain is of a serious nature, and it is reported that it will be several months before Fritz can walk. Mr. Bruggeman left for Roswell, whither he goes to bring his son home.

Mrs. Ned Fugate went down to Las Vegas the first of the week on a visit to Conductor Fugate and family.

Mrs. Van Buskirk, daughter Miss Ethel and son Frank expect to leave for Missouri, where they will reside.

Mrs. Gussie Dyer and little son will leave for Missouri next week, where they will spend the summer months. Mrs. Dyer will attend a good normal while away.

Jerome Troy, who has large sheep interests in Colfax county, came in from the ranch. He was accompanied by his wife, who will attend several of the interesting school programs.

Miss Schultz of Crawfordville, Ind., en route to her home from a trip to Old Mexico, stopped off for a visit with Miss Thomas. She will leave Saturday morning for Colorado Springs and Denver, where she will visit before returning home. Miss Thomas will accompany her friend as far as Denver.

From the Reporter.

Mrs. Warren Cooley left for Kansas on a visit to her mother.

Mrs. M. McGrath left for Newton, Kan., where she will visit with relatives for two weeks.

Mrs. Fred N. Nash and daughter, Miss Vera, left for the state of Washington, where they will visit for about three months.

Mrs. W. H. Mabey, who has been making her home in Arkansas since the death of her husband, is expected in Raton some time next month to visit with friends.

Fred Bruggeman returned from a visit to Roswell, where he went to witness the commencement exercises of the Military Institute, his son Fred being one of the graduates.

Mrs. F. W. Jex of Pueblo and Mrs. J. E. Perkins of Chihuahua, Mexico, after a couple of weeks' visit here with their sister, Mrs. T. Mahan, left for their respective homes.

Mrs. M. B. Stockton and daughter, Miss Laura, returned from a six weeks' visit in California. They were delighted with the Pacific coast and think it the only place to live outside of Raton, of course.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver trouble so I prescribed them. The patient gained from the first, and has not had an attack in four months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only use at all druggists.

SANTA FE.

From the New Mexican.

Mrs. N. Salmon will leave in a few days for the Jemez springs, where she will remain some time for the benefit of her health.

Santiago Baca and Miss Julian Quintana were married at the Guadalupe church by Rev. Rahyrolle. The couple were attended by Amado Gutierrez and Miss Enasio Martinez.

Nuptial mass was celebrated at the Cathedral by the Very Rev. Anthony Fourcheu, at which Jose Quintana and Miss Isabella Herrera were united in matrimony. The young couple are both residents of Santa Fe.

What many say was the prettiest ball game of the season was that played between the Mechanics and the Central base ball teams on the St. Michael's college campus Sunday afternoon in which the Mechanics were victorious by the score of 7 to 6.

N. Salmon, through his attorney, A. B. Renahan, has purchased the mortgage held by Miguel Chavez, of Tierra Amarilla, upon the Nazario Gonzalez property on the north side of San Francisco street. The mortgage amounted to \$4,500 and the purchase was consummated Saturday.

Traveling Auditor C. V. Safford returned recently from a two weeks' official visit to Clayton, Union county; Springer, Colfax county; Tucumcari, Quay county, and Mora, Mora county. At these county seats he inspected the books of the assessors, collector and treasurer and probate clerk and instructed these officials in the new

method of official book keeping adopted by the territory.

Jose Amado Lucero and wife, of Espanola, acted as sponsors for the infant child of Mr. and Mrs. Patrocino Lopez, which was baptized at the Cathedral by the Very Rev. Anthony Fourcheu. The baby was christened Mary Gertrude. After the ceremony a sumptuous dinner was served at the Lopez home.

Seventy young Catholics marched solemnly up to the altar rail of the Guadalupe church Sunday morning at 7 o'clock mass and for the first time received holy communion. The church was crowded with relatives of the young people and all the children were neatly attired, the girls in white and the boys in black, while all carried lighted candles.

Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

Discharged From Penitentiary.

Clarence W. Ford, who was convicted in the United States court in the Fifth district about a year ago, of the theft of a letter and sentenced to one year's imprisonment, and to pay the costs, was released Saturday. He appeared before United States Commissioner J. P. Victory and filed affidavit that he had no personal property or real estate with which to pay the costs and that he had served thirty days over the time of his sentence, whereupon his discharge was ordered by the commissioner.

Mr. Joseph Pomerville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets on trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box at all druggists.

Inspection Satisfactory.

Brigadier General W. H. Whitman, adjutant general of the New Mexico National guard, returned to Santa Fe Sunday from a trip through the territory with Captain Kirby Walker of the Fourteenth Cavalry, United States army, on a trip of inspection of the guard. General Whitman states that while Captain Walker had but little to say of the result of the inspection, that he believes on the whole it was satisfactory. Some of the members of each company were compelled to be absent from inspection on account of their positions not allowing them to attend. Some of the companies are in better condition than others, but taken generally, the condition of the New Mexico National guard is good.

Hon. J. B. Mayo and family have removed from Golden to Albuquerque and will make this city their future home. Mr. Mayo and family resided in this city during the 80s, where some of their children were born, and was well and favorably known, having many friends here. Mr. Mayo is extensively interested in mining at Golden, and has been for many years. He was a member of the Twenty-Ninth legislature of New Mexico and afterward chairman of the board of county commissioners of Santa Fe county. They will reside on East Railroad Avenue.

In a letter to The Citizen Hon. Frank A. Hubbell, writing from his sheep ranch down in the Magdalena and Mogollon ranges, says he commenced shearing his flocks of sheep on May 18th, and will finish the job about June 1, after which he will return to the city. He reports lambing the best for many years past, and says about 100 per cent of the lambs dropped have been saved. He also says the ranges down in Socorro and Sierra counties are in extra fine condition, there being plenty of good grass and water in abundance.

C. C. Hall, the merchandise broker, returned this morning from a business trip to the northern part of the territory and southern Colorado. Mr. Hall says that the cowboys of the Trinidad country are already talking about the cowboy tournament, to occur at the territorial fair this fall, and that quite a number may be expected from that district. He did quite a bit of fair booming on the trip, and thinks the prospects for a good fair are flattering.

OSTEOPATHY NEVER POISONS

The Body Is Better Without Drugs.

Can You Give a Rational Definition of Osteopathy?

Osteopathy is a system of therapeutics, based upon a thorough knowledge of anatomy and physiology, enabling the practitioner to look upon the body as a perfect living, automatic machine. There are more defective spines on earth than paupers. Get your spines in good shape and your chances for health will be good.

All Clothes Look ...ALIKE...

When they're piled up on a big table. You see the Difference when you put them on.

ONE STORE looks like another, generally speaking. When you see a big lot of clothing piled on tables—"head-high"—it seems to be only a question of color and price. Don't stop there. There is something more important. Ask yourself—"How about fit, style and service."

OUR CLOTHING IS DIFFERENT

from the ordinary, it has a style and dignity that is peculiarly its own. We would like the opportunity of showing you the good points of our ready-made clothing—we could convince you that our's is different in no time.
