## UGLY NEW YORK STRIKERS

**Striking Italians Keeping the Police Very Busy.**

## BIG NEWSPAPER ROW AT DURANGO

**Business Men and Printers of Denver Trying to Fix Strike.**

New York, May 19.—Clashes between the police and striking Italians took place today at several points along the line of the subway. Bluecoats on duty along the trench and reserves at station houses were called upon to suppress a dozen fights caused by attempts of strikers to intimidate their countrymen who tried to return to work. At Seventy-Second street and Columbus avenue a young Italian was set upon by a crowd of strikers. Merchants, messenger boys and laborers passing went to the aid of the assistance, and a general melee was in progress when the police arrived. Three prisoners were made. About 2,000 men or 50 per cent of the required number are now at work on the subway.

### DURANGO NEWSPAPER ROW.

David F. Day and John M. Higgins are on the Warpath.

Durango, Colo., May 19.—The Daily Democrat, Dave Day's paper, this morning prints a challenge to John M. Higgins of the Telegraph, to go to New Mexico or elsewhere, outside of La Plata county, to fight out their difficulties which have existed for more than a year. Day had made this challenge before and Higgins in answer in last night's paper said he was ready to have it out on the street whenever they met. This challenge Day also accepts. Last night Day and Frank Hartman, with whom Day had also quarreled, met in the street and exchanged thirteen shots. Hartman was slightly wounded in the leg.

### A Sample Article.

The Durango Telegraph, in answering one of Day's articles, says: "The editor of the Democrat, Colonel David F. Day (the great and only San Juan skunk), refers to the editor of the Telegraph as an idiot, ass and lantern-jawed liar. He evidently picked the epithets at random from his vulgar vocabulary of abuse, and as nearly every other man in Durango has suffered similar insults, we toss them back to the crazy old fool and ask him to use them over again just as often as he chooses. He will remember, however, that the man he now blackguards built his business and saved his life. For years he had a habit of referring to us as the best man with whom he was ever connected. It would be a little hard for an ordinary man to go clear back on his past, but Mr. Day is far from being an ordinary man. We would hate to say that a man who built our business and saved our life was either idiot, ass or lantern-jawed liar."

### THE DENVER STRIKE.

**Business Men and Printers Trying to Settle Strike.**

Denver, May 19.—The joint committee, composed of representative business men and representatives from the Typographical Union, which is endeavoring to find a way to settle the strike, called on representatives of the Citizens' alliance this morning. Nothing definite was decided upon, and the conference will continue this afternoon.

Judge Bailey of Fremont county, in whose court the affairs of the Denver Gas and Electric company were tried, issued an injunction restraining the engineers of the company from quitting.

The labor executive committee will be visited this afternoon by a committee of business men and printers. The Allied Printing trades will hold a meeting this afternoon at 5 o'clock, and if by that time no solution of the difficulties is at hand they will take decisive action.

### Business Announcement.

As announced in the Citizen of yesterday, the firm of O. W. Strong & Sons has been changed to O. W. Strong's Sons. O. W. Strong, the founder of the house and who now lives in Los Angeles, has sold out his interest to his sons, Frank H. and Harry O., who will conduct this well established business in the future. The Strong's are noted for fair and

honest dealings and thus have built up a trade that increases each year. They enjoy the confidence and esteem of the citizens of Albuquerque. Roy Strong, who has been employed by the firm, left last evening for Los Angeles, and his many friends regret his departure. Success will surely attend the new firm's efforts.

A. O. Wright, supervisor in charge at the government Indian school, has received instructions from Washington to purchase lumber, etc. for immediate and necessary repairs at the local school.

### CITY COUNCIL.

**To Grant Franchise for Electric Road to O. E. Cromwell.**

### OTHER COUNCIL BUSINESS.

Progressing and hustling and bustling Albuquerque will have a first class electric street railroad system in operation before the close of the year 1904. It will do wonders for the city in the way of building it up, and in fact, it will transform all the outlying districts into homes and ranches and swell the resources of this city.

The adjourned meeting of the city council this evening will grant a franchise to build and operate an electric street railroad in this city for a term of fifty years, the city to reserve the right to buy the system after twenty-five years of existence. O. E. Cromwell of this city and New York, will get the franchise. He is the owner of the Albuquerque street railroad and is heavily interested in real estate here.

The Citizen representative had a pleasant interview with Mr. Cromwell at the Alvarado this morning. If the franchise is satisfactory and is accepted, the work on the system will begin in the near future. What will retard the completion of the system at an early date is the inability of Mr. Cromwell to secure the steel rails and rolling stock. The large steel plants and car works all over the country are rushed with orders and the best the Carnegie people at Pittsburgh can do for Mr. Cromwell is to promise him that they will have the rails here sometime during next January. The car people are also pushed to their limit. Of course second hand rails and cars could be purchased, but it is the purpose of Mr. Cromwell to put in the very best of everything. In fact, an up-to-date road is to be built and operated. Three miles of track will be laid the first year and possibly more, and the road will be extended from time to time as the occasion requires.

At a meeting of the city council last evening, Aldermen McMullen, Grunfeldt, Beavens Harsch, Rodgers, Hubbs and McKee were present. Mayor and President Harrison were the absentees. Alderman Grunfeldt was chairman. The city clerk read a communication from the owners of property in southwest Albuquerque, which has been condemned as a nuisance owing to standing water, in response to a council resolution. Franz Huning's answer was at some length. He called attention to the fact that in order to grow crops it was necessary to irrigate and that this was the sole cause of the standing water on his grounds.

The council created a new office, that of assistant city marshal, to be appointed by the mayor at a salary of \$80 per month. This ordinance was passed under suspension of the rules. Harry Cooper, who has made a good officer during the time he has been in service, will have the plum. This is an increase of from \$70 to \$80 a month.

The council also passed an ordinance that physicians report cases of contagious diseases within twenty-four hours after they are diagnosed.

The ordinance regulating license of dealers in second hand goods, and requiring them to keep a record of all second hand goods bought, was passed with Rodgers voting against it.

The report of the street committee recommending that a brick sidewalk be laid on North First street, from Tijeras road to the Mountain road was adopted.

City Engineer Pitt's report on the plat of the Mandell business and residence addition made to adjust certain sidewalk irregularities, was referred to the street committee.

The street committee was ordered to secure bids for a steel street sprinkler with a capacity of 750 gallons.

An extra electric light was ordered for Robinson park, to be used only when the Italian band played.

Alderman Hubbs asked for instructions as to an extension of the fire alarm system. The fire committee will investigate and report at next meeting.

The special committee on the railroad franchise reported through the chairman, Alderman McMullen, that the original franchise be not granted and that a substitute be passed. On the clause recommending that the franchise be made to include a right-of-way across Coal avenue viaduct, there was a difference of opinion. Alderman Rodgers and Harsch wanted the clause, and this report was signed by a large number of property owners. Chairman McMullen said it would impair the uses for which the viaduct was built, viz: As means to cross the track of the Santa Fe. The clause provides that the railway company maintain and keep in order the viaduct and be responsible for all damages that may arise from the use of the viaduct by the railway company.

The substitute provides for a fifty year lease, and the ordinance limits the maximum fare to be charged to five cents.

Alderman McMullen said that he did not want to give the viaduct away to this company, and that the eighteen foot roadway on it was not big enough to accommodate the electric line. He thought that the granting of a right-of-way over the viaduct in its present condition would be more dangerous than a grade crossing. Alderman Harsch moved that the company have a right-of-way across the viaduct and that a majority of the committee's report be adopted. The motion was lost by a vote of five to two, Rodgers and Harsch voting yes.

On motion of Alderman McMullen the committee was ordered to re-draft the ordinance and report this evening at the adjourned meeting.

## LAND COURT AT EL PASO.

**Important Testimony Taken in Old Mexican Grant Cases.**

### NON-SUIT FINALLY ENTERED.

The court of private land claims convened yesterday in the federal building with United States Judge Reid presiding, says the El Paso Times. The business of the court was finished sooner than anticipated and an adjournment taken last night.

Judge Reid, United States Attorney Reynolds, Special Agent Coleman and Clerk McPherson left over the Santa Fe for points in New Mexico. The object of the session in this city was to take evidence in the cases of the United States against the claimants of the Sanchez and Barcala grants in Dona Ana county, New Mexico. The land in controversy is situated about eight miles across the border, and it was easier to take the testimony in this city. It is contended by the claimants that they hold title to the land from the Mexican government, and by the treaty with the United States their titles were assured.

In this district the court makes its headquarters at Santa Fe, N. M., but sessions are frequently held at different cities for the purpose of taking evidence. The business is conducted in the land court of private claims very much in the same manner as that adopted in a chancery court. During the past two years a large number of private land cases have been disposed of, chiefly in New Mexico. The main issues involved embrace the legality of the title and the description of the land conveyed. Many of the descriptions are very vague and indefinite, old land marks have been destroyed and there are conflicts in different surveys.

The Sanchez and Barcala grants comprise about 428 acres. There has as yet been no final decision reached in either case.

## RAGING RIO GRANDE.

**Not so High Today as Yesterday But Still Dangerous.**

### BAD SITUATION AT ATRISCO.

The Rio Grande is still raging but not as threatening as yesterday.

The break which occurred yesterday on the west side above Barcala bridge and threatened the town of Atrisco, was stopped last night and the farmers and settlers of that district are breathing easier.

The water fell several inches last night and is still lower this afternoon, but there is yet some little anxiety felt by the river people. It is thought that the fall is caused by the recent cool spell in the north, temporarily decreasing the volume of water descending from the mountains coming from melting snow. When the weather warms up again it is feared that the river will again become dangerous.

It was reported this morning that the Pena Blanca bridge went out last night, but this report could not be verified.

Just below this city the water has spread out over the lowlands of the valley covering the old smelter site and causing some little distress among a few settlers.

Below Isleta the river is threatening the railroad tracks. The Santa Fe thinks the matter serious and have more than 100 men engaged in damming the wash. The place where the danger is greatest is where in former years there was a bridge.

Reports from farther down the river are that it is high—the highest it has been for years—and very threatening.

At El Paso the water has risen so high that the gravest fears are that serious damage to property will be the ultimate result. Many small outbuildings have been carried away in the torrents.

Mrs. W. C. Barnes, of Dorsey, is here on a visit to Mrs. A. B. McGaffey.

## IT WAS A GOOD LESSON

**That Taught to Albanians by Turkish Troops.**

### RECEPTION TO PRESIDENT IN NEVADA

**Damaging Floods Along the Mississippi --Arizona Gambler Dead.**

Constantinople, May 19.—The lesson taught the Albanians by the Turkish troops advance on Ipek, Albania, is considered to have attained the primary object of the expedition, which was the occupation of that place, in spite of all opposition. A number of Albanian chiefs, however, are still holding out in the mountains and it is said that when the chiefs tied from Ipek they took with them members of the Sultan's special commission sent to pacify the Albanians and made Ipek their headquarters.

### RICH STRIKE.

**Representative Baca of Santa Fe Locates Nine Claims.**

### HIGH GRADE ORE.

Councilman Amando Chaves of Santa Fe was in the metropolis of the southwest this morning. He has been out in Socorro county on business matters, and was returning to the Ancient.

In conversation with The Citizen representative he said Representative R. L. Baca of Santa Fe, who is the efficient clerk in the superintendent of public instruction's office, had just located nine mining claims in the Sandia mountains about seven miles from Bernalillo. These claims if they hold out will prove the richest strike ever made in New Mexico.

The iron ore deposits run 85 per cent and the copper ore claims 65 per cent. Experts have examined the claims and assert that it is the biggest thing that ever happened in these parts, and that if they hold out the strike will be immense. Miners are all ready at work and in a short time the public will know of the results.

### PRESIDENT ROOSEVELT.

**A Royal Reception at Reno and Carson City, Nev.**

His party were soon seated in carriages and driven to the court house, where the president spoke. He was driven to his train and was off for the west again.

### At Carson City.

Carson City, Nev., May 19.—President Roosevelt reached here at 9 o'clock this morning. The city was in gala attire and members of the presidential party stated that the capital of Nevada was the most handsomely decorated city of its size that had been visited. Half a mile drive from the depot to the capitol was a solid mass of humanity, and it is calculated fully 15,000 people gave the president welcome as he drove down the street leading to the capitol park. Here he made an address.

His real name was Henry F. Brown, and he was born in Ireland.

### HYDE EXPLORING EXPEDITION.

**J. W. Benham Has Purchased Stores From Company.**

The Hyde Exploring Expedition, with stores in New York and different places in New Mexico, changes ownership again for the second time since the first of the year. The first change made a few months ago was only a slight one, leaving the larger part of the property still under the management of the Hydies. The last deal was made in New York just a few days ago and is more important. The new owners are a syndicate headed by J. W. Benham, recently of Phoenix, Ariz.

Mr. Benham, who is quite well known in New Mexico, having for a number of years been engaged in the cattle business in the west, will have charge of the New York end of the curio and blanket business, and A. ### KNOX'S FOURTH VICTORY.

When President Roosevelt decided to continue the McKinley cabinet in office he was severely criticised. It was pointed out that he only real statesman in the cabinet was Secretary Root, and especially was the retention of Attorney General Knox considered unfortunate.

Today this opinion must be reversed, for Mr. Knox's anti-trust victories have placed him on an eminence of his own. He has proven a patriotic public servant and an eminent attorney general.

The fourth of these victories for Mr. Knox and for the Sherman law has just been achieved. The salt trust has been indicted, found guilty and fined for existing as a combination in restraint of interstate trade. The conviction and fining of the trust, the Northern Securities decision, and the supreme court finding in the Champion lottery case, which established the right of the government to prohibit interstate trade, are the other victories for the law and the people which Mr. Knox has been chiefly instrumental in winning.

Of course, the attorney general has been urged on and backed throughout by the president, but unless he had been sincere in his determination to enforce justice, much less would have been accomplished than the record of the last two years shows. General Knox is entitled to unstinted praise, and the efforts that are being made on the part of certain capitalists to belittle his work are not likely to receive any degree of support from the people at large.

SCOTT & BOWNE, 409 Pearl Street, New York.

He expects to commence work on the building next week.

Gerald Griffin of Washington, D. C., arrived in this city Sunday and will be in Santa Fe for an indefinite period. Mr. Griffin is a Washington attorney. He and Norman L. King, chief draftsman at the office of the surveyor general, were friends in Washington and had a pleasant meeting Sunday.

Miguelito, the 15-month old boy baby of Mr. and Mrs. Miguel Rodriguez, who live on Upper Palace avenue, died of lung fever. The remains will be interred in the Spanish Presbyterian cemetery on the south side. Mr. and Mrs. Rodriguez have the sympathy of their friends in their bereavement.

The New Mexican has received information from Louisville, Ky., that parties in that city, who are owners of large interests in the Piedra Lumbre land grant in Rio Arriba county, will soon institute suit for partition of the grant and after the closing of the suit, establishing their title to a large portion of the grant, will develop the property on an extensive scale.

### Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. J. H. O'Reilly & Co.

### NEARING HIS TIME.

To Hang for murder at Prescott on June 19th.

The death watch has been placed over Simon Alderete, who will hang on June 19th, sometime between 10 o'clock a. m. and 2 p. m. for a murder committed in Prescott, eighteen months ago. Up to a short time ago the doomed prisoner had but little appetite, but for the past few days he sleeps well and is eating normally. He seems but little affected over the approaching day, and since crying on the day of receiving his sentence, has exhibited no emotion. Although professing Christianity he has not asked for the attendance of a minister of the gospel. A stockade will be erected in the rear of the court house which will surround the gal-

## The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swartz of St. Paul, Minn., writes: "I was taken with severe headache, vertigo, cramps in the stomach and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once. The more I doctor'd the worse I got until six weeks passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up to die. Thinking I could not be cured, I then took Dr. Pierce's Golden Medical Discovery and made a new man out of myself. The first bottle helped me so I thought I would get another, and I had taken eight bottles in about six weeks. I was weighed and found I had gained twenty-seven (27) pounds. I am as stout and healthy today. I think as I ever was."

### POLICE COURT.

There were four head aches before Judge Crawford this morning.  
Thomas McMann, a mine laborer, came in from the country yesterday to cash a check and buy some clothes. He took a drink in a saloon on First street and it was all off with him. When he was arrested his money was gone. This morning he said he was drugged. He was given the usual dose.  
Marius Anderson, a Swede in the employ of the American Lumber company, paid \$5 for his drunk.  
Thomas Wall also got the same for committing a nuisance on the street.  
John Durov was drunk all over yesterday, and it took two strong men to get him to the cooler. He pleaded guilty; \$5.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all druggists.

### THE SILVER CITY SMELTER.

Is Now About Ready to Purchase Ore and Will Resume Operations Very Shortly.

It is stated upon good authority that the Silver City smelter will in a very short time commence buying ores. The parties who have purchased the works will arrive in that city in a few days to complete the finishing work before starting up the mill. They will also install considerable new machinery in the plant and it is thought that the smelter will be running by the latter part of next month.

### Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan, locomotive engineer, Lima, Ohio, writes: "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Engines Nos. 681 and 679 were out for trial yesterday after a siege in the back shops undergoing extensive repairs.

Henry Englebreth, who has been firing the switch engine the past few weeks, has returned to his old job as day caller at the round house.

Night Clerk Dennison of the round house force left this morning for the Jemez Springs for a little recreation. He expects to be absent from the city several weeks.

**A Little Early Riser.**  
now and then, at bedtime, will cure constipation, biliousness and liver trouble. DeWitt's Little Early Risers are famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by B. H. Briggs & Co., S. Vann & Son.

**Captures a Santa Fe Man.**  
A San Bernardino dispatch says: C. L. Acker, wrecking foreman and inspector at the local Santa Fe shops for the past two years, has resigned his position with the company here to accept that of general foreman of the Rock Island shops in Alamogordo, N. M. He expects to leave on the overland tomorrow night for his new place of residence. Mr. Acker has been one of the best and most popular men that the Santa Fe has ever had in its employ here, and any number of the boys will regret to see him depart from their midst. During the recent fight for street fair queen, which a number of the shopmen made, he was chairman of the campaign committee.

**GREATLY ALARMED.**  
By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by all druggists.

**HARD WORK.**  
Such is Being Experienced on the Belen Cut-Off.

R. F. Bennett of Albuquerque, who has been in the employ of the Santa Fe, assisting in its Belen cut-off work, arrived in this city yesterday on his way to Los Angeles, where he goes on a business trip, says the San Bernardino Sun. He stopped off in this city to spend the day and enjoy the closing features of the street fair. He states that as many as 1,600 men are now employed by the company in the rock cuts near the Abo Pass. The weather has been very cold in that part of the country of late, ice forming each night. Mr. Bennett says that the water about the camps is very bad and that nearly all of the Americans are leaving the site of operations. In speaking of the work he said:

"The big cut, 130 feet deep, is getting well along towards completion. Some wonder has been expressed that the company did not tunnel here instead of making such a prodigious deep cut. The reason is that the material is so loose and shaly that the digging of a tunnel would be practically an impossibility. It is an interesting fact that out in Abo canyon there are within a distance of three miles seven big steel bridges of varying lengths. The number of the bridges necessary and the immensity of the ex-

cavations make it evident that the cut-off is going to cost all kinds of money, besides being an engineering feat of much note."

**A Lesson in Health.**  
He lthy kidneys filter the impurities from the blood, and unless they do good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

**Manager Herbert Will Confer With Compeers.**  
Vice President and General Manager Herbert of the Colorado & Southern railroad has gone to New York City. President Trumbull and C. L. Wellington, who left Denver early last week, are already in the metropolis, says the Denver Republican.

The simultaneous presence of the three chief officials in New York augurs sweeping action with reference to the affairs of the Colorado & Southern. In the light of Mr. Herbert's former announcement that his policy of management would be to make a "clean sweep of all subordinates," much is expected of the New York meeting with the governing committee of the road.

It is denied, however, that a conference is intended previous to President Trumbull's departure for Europe. The meeting will be the first at which Mr. Herbert has appeared, and it is believed that he will broach to the powers his ideas of innovations that should be attempted in the conduct of the Colorado & Southern affairs.

**MIKE WAS MAKING MONEY.**

New Brakeman Intended to Stay With a Good Thing.

Here is one that a young man who knows a good story when he hears it heard one railroad man tell another in a depot up the line the other day, says the Newton (Kan.) Republican.  
"We picked up a new Irishman some, where up-country and set him to work brakin' on a construction train at 3 cents a mile for wages. One day when him an' me was on the train she got away on one of them mountain grades, and the first thing we knowed she was flyin' down the track at about 90 miles an hour, with nothin' in sight but the ditch and the happy huntin' grounds when we came to the end. I twister 'em down as hard as I could all along the tops, and then, of a sudden, I see Mike crawlin' along toward the end of one of the cars on all fours, with his

**A Judge Commends Pure Food.**  
A judge of a Colorado court said: "Nearly one year ago I began the use of Grape-Nuts as a food. Constant confinement indoors and the monotonous grind of office duties had so weakened and impaired my mental powers that I felt the imperative need of something which neither doctors nor food specialists seemed able to supply."

"A week's use of Grape-Nuts twice each day convinced me that some unusual and marvelous virtue was contained therein. My mental vigor returned with astonishing rapidity; brain weariness (from which I had constantly suffered) quickly disappeared; clearness of thought and intellectual health and activity which I had never previously known were to me the plain results of a few months' use of this food."

"Unhesitatingly I commend Grape-Nuts as the most remarkable food preparation which science has ever produced so far as my knowledge and experience extends." Name and address furnished by Postum Co., Battle Creek, Mich.

The judge is right. Grape-Nuts food is a certain and remarkable brain builder and can be relied upon. There's a reason.

face the color of milk. I thought he was gettin' ready to jump, an' I see his finish if he did.

"Mike," I says, 'you'll be killed! Don't jump.'

"He clamps his fingers on the runnin' board to give him a chance to turn round, and lookin' at me contemptuously, answers:

"Jump, is it? Do yez think I'd be after jumpin', an' me makin' money as fast as I am?"

Mr. Joseph Pomerville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by the druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets on trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box at all druggists.

**EXTENDS ITS CONTRACT.**

Frisco Not Read to Cut Loose From the Santa Fe.

A Wichita (Kan.) dispatch says: The Frisco railroad will have its freight business moved to the new depot on Rock Island avenue by the 1st of June, as at first intended. The passenger department, however, will not be enabled to take charge of its new quarters until about the first of July.

The bad weather has delayed the work nearly two weeks already and J. A. Quinn, division superintendent, who was in the city recently, said he would not expect the passenger offices moved by the first of the month as scheduled. Owing to this it has been necessary for the company to extend its contract with the Santa Fe for one month to handle the passenger business as the original contract for handling both the freight and passenger business by the Santa Fe expires June 1.

**The Waste of the Body.**

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease set up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the whole-some food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by B. H. Briggs & Co., S. Vann & Son.

**WOULD BE COMPULSORY.**

Railroads Propose a Permanent Board of Arbitration.

A movement has been begun by the managements of Chicago railroads to compel labor organizations to agree to submit differences to arbitration whenever negotiations between roads and employes fail to end in agreements. The lead in the movement is apparently taken by the Rock Island, the Burlington and one or two other strong western lines. Thus far, however, the proposition regarding ultimate arbitration has been either refused or dodged by the labor organizations. If the roads can not induce the labor organizations to agree to an ultimate arbitration plan it is likely that before long a general arbitration board will be selected to represent all railroads territorially allied.

**Tells About Cloudcroft.**  
The Four-Track News, an illustrated magazine of travel and education, contains in its May issue a two-page write-up accompanied by pictures of the New Mexico resort, Cloudcroft. The description of the resort is from the pen of John K. LeBaron. One of the gems of the description is as follows: "Nature knows no such thing as monotony—her art is infinite and here in the southland she has planted a little cloud-fringed paradise, unlike any other spot on earth."

### RAILROAD NOTES.

Eugenio Romero, collector and ex-officio treasurer of San Miguel county, who has large tie contracts with the Santa Fe Central company, is in Santa Fe on business.

W. B. Robbins, general agent of the Denver & Rio Grande railroad at Santa Fe, returned to Santa Fe Saturday night, after spending a few days in Denver on business connected with his position.

P. F. Knight, superintendent of telegraph of the Santa Fe Central railway, returned to the capital city from a trip along the line of the road. C. S. Baldwin of Antelope Springs, accompanied him.

Edward Ryan of Denver was in Santa Fe Sunday night, leaving for his home yesterday. Mr. Ryan was formerly roadmaster of the Denver & Rio Grande railroad. He will return in a few days to enter the employ of the Santa Fe Central in the laying of its tracks.

Gen. Francis J. Torrance and Senator Arthur Kennedy of Pittsburg, capitalists, who have large interests in the Santa Fe Central Railway company and the Pennsylvania Development company, are expected to reach the territory in about two weeks.

General Manager W. S. Hopewell of the Santa Fe Central, Senator W. H. Andrews and the party of Pittsburg capitalists, consisting of Col. A. J. Lester, Maj. A. G. C. Quay and G. W. Delemater, spent Sunday in Hagan and examined the coal fields there and the work being done by the New Mexico Fuel & Iron company thoroughly. The party left Hagan yesterday morning, reached Kenedy yesterday afternoon and arrived in Santa Fe some time last evening.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Alvarado Pharmacy.

Eight hundred cars of coal were shipped from Gallup last month. This is more than the number shipped in April of last year. Still the Catalpa, Gibson and Thatcher mines, fully equipped and with a capacity of 1,200 tons per day, are idle on account of no demand.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Alvarado Pharmacy.

S. Horrabin of Thoreau will take twenty-five Navajos back with him to work on the railroad spur now being built from Thoreau to the timber lands of the American Lumber company. About 150 men are at work on the grade now. Horrabin wanted 100 Indians at \$1.75 per day, but could get only twenty-five.

**Too Great a Risk.**

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

Edwin Giddings has been appointed foreman of the Santa Fe's pattern department in a Bernardino, vice Geo. W. Wilmine, resigned. Mr. Wilmine does not expect to leave the employ of the company, but will continue in its employ as a pattern maker.

**A Farmer Straightened Out.**

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Patters Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by all druggists.

If the present falling off in yard switchmen keeps up within a short time none of the old men will remain, says the San Bernardino Sun. Engine Foreman Davidson, Head Switchman Daniel Coyle and Yard Switchman Gutierrez have stepped down and out. Coyle has already departed for the east and Gutierrez has left for Denver. Several other resignations are looked for. So far no new men have been taken on to fill these vacancies.

## LOCK JAW RELIEVED.

Man to Whom Death Was Near Saved  
in Denver Hospital.

## ANTI-TOXIC PREPARATION USED.

Science saved the life of Frank Marshall, who was stricken with lock-jaw in the most pronounced form and now is able to move his jaws and talk and eat, says a dispatch from Denver. Marshall was a pitiable object as he rushed into the police captain's office waving his hands frantically. He could not utter a sound. The cords of his neck were swollen and rigid. He laid his finger upon his jaw, indicating that there lay the trouble. He evidently was in great agony as he paced the floor pulling at his hair and stamping his feet. He pulled a "notebook" from his pocket and wrote:

"Can you do something for my jaws?"

"What is the matter?" wrote the captain.

"They are locked and I cannot move them," Marshall wrote in reply.

Then Marshall hurried into the surgeon's office. Dr. Davis soon pronounced the case one of lockjaw. He prepared a dose of medicine to soothe the nerves of the patient, who was suffering great physical pain in addition to fright. It dawned upon Marshall that he was the victim of the most horrible affliction that can seize a man. Then he wrote:

"Four days ago I scratched my foot on a rusty nail."

The police ambulance was called out and Marshall was driven to the county hospital. While in the ambulance he fell in convulsions. To all appearances his hours were numbered. Never in the city of Denver had a patient stricken with lockjaw been saved.

In less than an hour after his arrival in the hospital Marshall was on the operating table. A messenger had been dispatched for a bottle of tetanus antitoxic serum.

The surgeon cut a hole in Marshall's skull over the right frontal lobe of the brain. Twenty cubic centimeters of the serum were then injected. The patient in the meantime was under the influence of chloroform. The patient's skull was trepanned and he was taken back to his cot.

A large number of doctors witnessed the work of the experts. When Marshall regained his senses he was able to move his jaws. He was able to talk and eat.

It is possible that his jaws will be locked again, in which case the only thing that can be done will be to inject more serum into his brain.

The twenty-first day of this month will be a red-letter occasion in Portland, which is now starting to build the great centennial exposition, which, two years hence, will commemorate the founding of the west coast em-

## MAKES STRONG NERVES

Headaches, Nervousness, Sleeplessness, Have Never  
Troubled Rev. A. L. Brantley Since Taking  
**PAINE'S CELERY COMPOUND.**

The prompt, effective and honest re-  
sults that are always obtained by the  
users of Paine's Celery Compound call  
forth the grateful and unstinted praise  
of clergymen of all denominations. In  
every parish and district of our land,  
clergymen are quietly but surely  
spreading the joyful intelligence that  
Paine's Celery Compound banishes ill  
health and makes sick people well.

Like men and women in other pro-  
fessions and in the ordinary callings of  
life, church ministers are victims of  
the same ailments and diseases. When  
oppressed by sufferings and agonies  
it is cheering to note that our clergy-  
men have implicit confidence and faith  
in Dr. Phelps' life-giving prescription,

Paine's Celery Compound. Rev. A. L.  
Brantley, Summertown, Ga., tells how  
he was raised from a condition of suf-  
fering and great danger:

"Before using Paine's Celery Com-  
pound I was continually suffering with  
sick and nervous headache, and it was  
a common occurrence for me to sleep  
little or none at night. Often have I  
arose in the morning with a severe  
headache and inactive mind, prostrated  
with nervousness from the loss of  
sleep. Now I can sleep well at night,  
have an active mind, and can study  
ten hours a day, while before I could  
study but a short while at a time. I  
certainly feel grateful for such a me-  
dicine as Paine's Celery Compound."

## EXAMINING FOREST RESERVES

Government Officials Determining  
Different Species of Trees and  
the Percentage of Each.

## PROFITING BY MISTAKES OF THE PAST

Fred G. Plimer, an engineer of the  
United States geological survey, and  
M. G. Gowsell, special field assistant,  
were in Santa Fe yesterday. Mr.  
Plimer has just returned from a trip  
through the Gila river forest reserve  
and is now preparing for a detailed  
examination of the Lincoln forest re-  
serve. Theodore F. Rixon, field as-  
sistant, remained at the Gila reserve  
to make a detailed examination.

Mr. Plimer stated to a representa-  
tive of the New Mexican that the ob-  
ject of the examination of the reserves  
is to determine the different species of  
trees there are in the reserves and the  
percentage of each; also to ascertain  
the amount of defective and diseased  
trees there are on the reserves and the  
amount of sound timber.

Mr. Plimer states that it is Presi-  
dent Roosevelt's purpose and desire  
to preserve and protect the remaining  
forests upon public lands from the de-  
vastation and destruction which has  
been the fate of those in large por-  
tions of the Appalachian mountains  
and in other forested sections of the  
country. In doing this a supply of tim-  
ber will be provided for future needs  
and natural sources of water supply  
will be so protected as to prevent flood-  
ing of the streams during the spring  
time and the melting of the snows, and  
to insure water for irrigation and  
other purposes during the dry season.  
The establishment and proper main-  
tenance of forest reserves is indis-  
pensable to reclamation and cultiva-  
tion of lands in the arid regions under  
the recent act of congress which ap-  
propriates for that purpose the pro-  
ceeds of the sales of public lands.

"It is and has been Mr. Roosevelt's  
consistent policy," said Mr. Plimer,  
"to encourage the actual settlement of  
the country by home builders in every  
way, to see that actual settlers within  
forest reserves are accorded every  
reasonable protection, and those living  
within the immediate vicinity of these  
reserves, who are dependent upon the  
reserves for grazing areas for cattle  
and horses and for necessary timber  
for building and fuel, are accorded ac-  
cess to the reserves for these purposes  
under such reasonable restrictions as  
will prevent waste and destruction. It  
has been so conclusively demon-  
strated that uncontrolled sheep within  
forest reserves are injurious to the forest  
growth and to the natural water cover  
that the great migratory flocks of  
sheep are necessarily kept out of the  
reserves; but even this policy is  
pursued with cautious attention to the  
prevention of injury to those engaged  
in sheep raising. The preservation of  
game, such as moose, elk and deer, is  
only a minor feature of control of the  
forest reserves, is authorized by an  
act of congress, which directs that  
those employed in the forestry service  
shall in all practicable ways, aid in  
the enforcement of the game and fish laws  
of the territory or state in which the  
forest reserve is located. The law of  
the state or territory upon the subject  
is to be the sole guide of these officers.  
The United States has interposed no  
law of its own, and the administration  
has given no directions to its forestry  
officers other than that the local laws  
whatever they may be, shall be en-  
forced. In some of the western states  
and territories, notably Wyoming, the

government forest rangers are, by the  
laws of the state, made assistant game  
wardens of the state.

"The work of establishing and main-  
taining forest reserves will have such  
a vast and beneficial influence in the  
settlement and development of the  
western states and territories that it  
must be controlled by a fixed policy,  
to which matters of minor or tempo-  
rary concern must give way for the  
general and permanent public good.  
The one guiding purpose of the ad-  
ministration in dealing with forestry,  
with pasturage, with irrigation, with  
land generally, is to help and make  
easy the path of the home builder, the  
small ranchman or tiller of the soil,  
and not to let the land be exploited  
and skinned by those who have no  
permanent interest therein, and who  
do not build homes or remain as actual  
residents."

## LOCAL PARAGRAPHS.

The Porters' association met last  
evening and elected officers for the  
ensuing year. Delegates to the Cen-  
tral Labor Union were also elected.

Dr. Harry P. Kauffman, surgeon for  
B. Lantry on the Santa Fe cut-off  
at Belen, came up from that place this  
morning and will spend several days  
in the city.

W. W. Risdon of Gallup has accept-  
ed a position as cashier for the Wash-  
ington Life Insurance company, under  
J. H. O'Reilly, district manager of the  
company in this city. Risdon is all  
right.

Word comes from the Sulphur  
Hot Springs that Mrs. J. A. Greenleaf,  
who is a rheumatic sufferer, is getting  
along nicely, and that Miss Alma  
Bailey, who is there with her, is enjoy-  
ing fine health. Both ladies are nieces  
of R. H. Greenleaf, and he will go up  
to the sulphurs himself in a few days.

Frank H. Strong has rented the  
residence occupied by F. P. Barnes on  
South Third street, one of the pretty  
two-story concrete cement residences  
belonging to Mr. and Mrs. Mayo, and  
will take possession in a short time.  
As stated in The Citizen yesterday af-

of Mr. and Mrs. Barnes in the future.

## The Dress Rehearsal.

Albuquerque has every reason to be  
proud of the progressive, energetic and  
ambitious element that holds sway  
within its boundaries. Truly it has  
been said that our town possesses fea-  
tures that would ornament a city  
three or quadruple its size. And there  
are none more to be congratulated  
upon than the number of bright and  
energetic society ladies who start  
measures for improvement and cul-  
ture and carry them upward to a for-  
tunate and triumphant conclusion.

The "piece de resistance" just now  
is a musical play called "A Dress Re-  
hearsal," and we venture to assert  
without fear of contradiction that this  
will prove no exception to the rule of  
previous unparalleled successes.

What makes our city peculiarly for-  
tunate is the fact that the people, en-  
masse, invariably come forward, and  
regardless of differences in political,  
religious and social opinions, unite in  
wishing every plan for municipal bet-  
terment "God speed." Without this  
feeling of "comradery" we should  
have to chronicle many defeats and  
numerous failures.

The play of "A Dress Rehearsal" is  
not dependent alone for entertainment

upon its original score and scenic ef-  
fect. Many beautiful embellishments  
have been added by the magic wand of  
the ladies aforesaid. The partial list  
of the thrilling tableaux comprises the  
choir visible, A Noble Victim of the  
Reign of Terror, The Golf Girl, The  
May Pole and Uncle Sam and State-  
hood for New Mexico.

The music, both vocal and instru-  
mental, leaves nothing to be desired,  
and the charming girls with their  
unique and beautiful costumes must  
be seen in all their entirety to be thor-  
oughly appreciated and admired. More-  
over, some of them are, to quote from  
"Pinafore," "your sisters, your cousins  
your sweetheart and your aunts."

## Ask Your Doctor

He will tell you—  
That barley-malt is a half-digested food, as good as food can be.  
That hops are an excellent tonic.  
That the little alcohol in beer—only 3½ per cent—is an aid to digestion.

### But Purity is Essential

But he will tell you that beer must be protected from germs, and brewed in absolute cleanliness.  
He'll say, too, that age is important, for age brings perfect fermentation. Without it, beer ferments on the stomach, causing biliousness.

Schlitz beer is brewed with all precautions. It is the recognized standard all the world over, because of its purity.

Ask for the Brewery Bottling.

### THE CORONER'S VERDICT.

Peterson Shot and Killed Mrs. Fairchild, Then Suicided.

HE WAS CALLED A "PIKER."

From El Paso News, May 17.

O. M. Fairchild, husband of Mrs. Fairchild, shot to death at the Hotel Ramona on North Stanton street two nights ago, will arrive in the city tomorrow morning.

Additional evidence has been found to show that the death of Mrs. Fairchild was doubtless the work of Geo. Peterson, as she slept.

A boarder at the house declares that he heard two shots, and that they were not accompanied by sounds of talking nor of screams. The gentleman was just across the hall from the room in which the tragedy occurred.

He says positively that there were no sounds such as would be expected had the man shot his victim while she was awake.

It is also said that the young fellow splurged with the woman's money, and that when her husband left town he gave her \$600. Her pocketbook was found empty in the pocket of Peterson. It is said.

The fatal night he was seen to take her purse out of his hip pocket, and it had plenty of money in it, goes one story.

He was known to have gambled at the Astor house and the Lobby saloon.

### NO HUMBUG HERE.

Albuquerque Endorsement is What Counts with the Albuquerque Public. You can't fool the public all the time. They will find you out at last. Every time a man is fooled another skeptic is made.

Many the remedy that makes the skeptic. Because it fails to keep its promises. Doan's Kidney Pills bring renewed reward.

They cure the skeptic. Plenty of proof of this at home; Albuquerque proof for Albuquerque people.

Here's a case of it:

C. G. Lott, for ten years stationmaster in Albuquerque, now retired from active cares of life, residence 315 North Arno street, says: "I had attacks of backache stretching over a period of three years. One of them occurred shortly before Doan's Kidney Pills came to my notice and I went to the Alvarado Pharmacy for a box. I knew the cause of my trouble arose from imperfect action of the kidneys because the behavior of the kidney secretions and their condition fully proved it but what to do to check the trouble was a mystery. Doan's Kidney Pills effectively stopped the difficulty. If everyone in Albuquerque receives an undoubted benefit as I from that remedy, kidney complaint, backache and trouble with the kidney secretions will cease to exist in this vicinity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

but gamblers say that he was a "piker," and scarcely ever played heavier than ten cents at a time. They can not account for his losing much money unless he got to plunging the night of the tragedy.

Peterson's body will be shipped to Wisconsin tonight.

### SUICIDE AND MURDER.

Official Declaration of Cause of the Death of Man and Woman.

From El Paso News, May 18.

Magistrate Spencer as coroner, gave a verdict this morning as to the death of George M. Peterson and Mrs. M. F. Fairchild, who were killed at the Ramona hotel last Wednesday night. It is to the effect that George M. Peterson killed himself and murdered Mrs. Fairchild.

The verdict was rendered this morning in terse style by Magistrate Spencer, as follows: "G. M. Peterson, gun shot wounds in head, inflicted by his own hand; suicide."

"Mrs. Fairchild, gun shot wounds in the head, by the hand of G. M. Peterson."

Magistrate Spencer stated this morning in explanation of his verdict, "I think it is best for the morals of the community that the case be not probed into. There are matters concerned with it which could be made capital of by sensational mongers, but I do not intend to make them public."

Magistrate Spencer yesterday found in the room where the crime was committed fragments of a letter that may have caused a quarrel and led to the tragedy. It is claimed that the day before the shooting Mrs. Fairchild gave Peterson two letters to post. One was addressed to her husband and the other to another man. It is said that the young man became jealous.

The officer is satisfied that Peterson murdered the girl as she slept, shooting himself after he had fired one shot into the back of her head.

He then most probably stood in front of the mirror and shot himself again in the right temple. One shot went wild. One of the last three shots was fired at the woman's head after he had locked the door, after calling Arthur Borcharding.

O. M. Fairchild, husband of the woman, arrived in the city yesterday. He went to Nagley & Carr's establishment and stood dry-eyed before the corpse of the woman. His grief was evident. He scarcely saw anyone but the undertaker, the magistrate and Sidney Ullman, a warm friend, during his stay and refused to talk to reporters.

Mr. Fairchild took the remains to San Bernardino, Cal., this morning for interment.

The remains of the murderer and suicide were shipped to Amherst Wis.

### A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

Prof. A. E. Sayous of Paris, France, spent yesterday in Santa Fe and today is in this city. He is on a tour of the western states and territories of the United States gathering information as to the conditions of affairs in this part of the country for the French government and also writing letters to the Journal des Debats at Paris, and the Tauchblatt at Berlin. He is professor of sociology at the University of Paris and has spent so far three months in this country. He has visited the northwest, Wyoming and Colorado, and from here he will go to Arizona. Thence he will extend his trip to the Pacific coast.

### A Startling Test.

To save a life, Dr. T. G. Merrick, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver trouble so I prescribed them. The patient gained from the first, and has not had an attack in fourteen months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only use at all druggists.

Thomas W. Hanna and Miss Ora Redding of Georgetown, N. M., will be married at the bride's home near Georgetown today. Miss Redding's father is a prominent cattle grower and ranchman, and Mr. Hanna is a forest ranger in the Gila river forest reserve. He is a son of I. B. Hanna of Santa Fe, superintendent of forest reserves, and with his bride will come to Santa Fe in a few weeks for a visit with his parents.

### A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Alvarado Pharmacy.

Don't forget the date, May 22, "The Dress Rehearsal."

## Rock-a-Bye Baby

These are sweet words, but how much  
pain and suffering they used to mean. It's  
different now. Since Mother's Friend has  
become known expectant mothers have  
been spared much of the anguish of child-  
birth. Mother's Friend is a liniment to be  
applied externally. It is rubbed thoroughly  
into the muscles of the abdomen. It gives  
elasticity and strength, and when the final  
great strain comes they respond quickly and  
easily without pain. Mother's Friend is  
never taken internally. Internal remedies  
at this time do more harm than good. If a

woman is supplied with this splendid liniment  
she need never fear rising or swelling  
breasts, morning sickness, or any of the  
discomforts which usually accompany preg-  
nancy.

The proprietor of a large hotel in Tampa,  
Fla., writes: "My wife had an awful time  
with her first child. During her second  
pregnancy, Mother's Friend was used and  
the baby was born easily before the doctor  
arrived. It's certainly great."

#### Romero Injunction Case.

I. B. Hanna, superintendent of forest  
reserves, and Norman L. King,  
chief draftsman in the office of the  
surveyor general, returned Saturday  
to Santa Fe from Las Vegas where  
they have been for the past week  
in attendance at the hearing of the  
injunction suit wherein Margarito  
Romero was enjoined from cutting  
timber in the Pecos forest reserve.  
Counsel for the defendant endeavored  
to have the evidence heard by jury  
but Judge Mills overruled a motion  
to that effect. The taking of the evi-  
dence of the United States in the  
case was completed Saturday and  
the injunction was continued until  
the evidence of the defendant can be  
heard. No date was set for the hear-  
ing of the defendant's side of the  
case, but it was left with United  
States Attorney W. B. Childers to  
name a date when it would be con-  
venient for him for the trial to be re-  
sumed.

#### Quick Arrest.

J. A. Guillede of Verbenia, Ala., was  
twice in the hospital from a severe  
case of piles causing twenty-four tu-  
mors. After doctors and all remedies  
failed, Bucklen's Arnica Salve quickly  
arrested further inflammation and  
cured him. It conquers aches and  
kills pain. 25c at all druggists.

the same house. Houses can not be

Miss Hapgood tells how she was cured  
of Fallopian and Ovarian Inflammation—  
and escaped an awful operation by using  
**Lydia E. Pinkham's Vegetable Compound.**

"DEAR MRS. PINKHAM:—I suffered for four years with what the  
doctors called Salpingitis (inflammation of the fallopian tubes and ova-  
ritis), which is a most distressing and painful ailment, affecting all the  
surrounding parts, undermining the constitution, and sapping the life  
forces. If you had seen me a year ago, before I began taking Lydia E.  
Pinkham's Vegetable Compound, and had noticed the swollen eyes,  
sallow complexion, and general emaciated condition, and compared that  
person with me as I am today, robust, hearty and well, you would not  
wonder that I feel thankful to you and your wonderful medicine,  
which restored me to new life and health in five months, and saved me  
from an awful operation."—Miss IRENE HARGOOD, 1022 Sandwich St.,  
Windsor, Ont.

Ovaritis or inflammation of the ovaries or fallopian tubes which adjoin the  
ovaries may result from sudden stopping of the monthly flow, from inflamma-  
tion of the womb, and many other causes. The slightest indication of trouble  
with the ovaries, indicated by dull throbbing pain in the side, accompanied  
by heat and shooting pains, should claim your instant attention. It will not  
cure itself, and a hospital operation, with all its terrors, may easily result from  
neglect.

"DEAR MRS. PINKHAM:—I can truly say that you have saved  
my life, and I cannot express my gratitude to you in words.

"Before I wrote to you telling how I felt, I had doctored for over  
two years steady and spent lots of money in medicine besides, but it all  
failed to do me any good. My menses did not appear in that time, and  
I suffered much pain. I would daily have  
fainting spells, headache, backache and  
bearing down pain, and was so weak that  
it was hard for me to do my work.

"I used your medicine and treatment  
as directed, and after taking three bottles  
of Lydia E. Pinkham's Vegetable Com-  
pound, menses appeared, my womb trou-  
bles left me, and I have been regular ever  
since. I used fourteen bottles of  
Lydia E. Pinkham's Vegetable  
Compound and Blood Purifier  
together, and am now restored to  
perfect health. Had it not been for  
you, I would have been in my grave.

"I will always recommend your wonderful remedies, and hope that  
these few lines may lead others who suffer as I did to try your  
remedies."—Mrs. T. C. WILLIAMS, R. R. No. 1, Manning, Iowa.

Such unquestionable testimony proves the power of Lydia E. Pink-  
ham's Vegetable Compound over diseases of women.  
Women should remember that they are privileged to consult  
Mrs. Pinkham at Lynn, Mass., about their illness, entirely free.

A coming social event which is being looked forward to with pleasure by a large number of lovers of dancing, is the ball to be given at Colombo hall June 2, by the retail clerks of the city. It will be the first affair given by the clerks since their organization and they hope to demonstrate that they are entertainers by making it a grand success. They have begun early in advertising and making arrangements and it is likely to be well attended. Quite a number of tickets have been sold.

### OSTEOPATHY NEVER POISONS
