New York, Oct. 4.—The unconquerable spirit to keep on trying when success doesn't come at first, carried the New York Yankees to a smashing victory this afternoon in their first clash with the New York Americans for the 1922 title of world baseball champions. The score was 3 to 2.

To overcome a 2-to-0 lead that the Yankees had acquired, the Giants turned back in all their previous assaults upon the American leaguers. The Yankees scored four singles, one right after another, in the eighth inning, and then crowned their furious attack with a sacrifice fly. The four hits crushed the Yankees' lead, and the Giants won the game, 3 to 2.

The winning machine climbed up the hill in low speed. Early in the game, when Bush and Art Nehf, the Giants southpaw, were fighting a scoreless duel, the Yankees couldn't score with two successive singles. In the seventh inning they banded out three singles in a row and couldn't score. The Giants simply went back in the eighth inning and kept on pounding out singles until it was impossible for the stubborn Yankee defense to prevent them from crossing the plate.

Ruth, the celebrated home run swatter, swung violently at the ball all afternoon. Nothing that even left the impression that he could hit a home run came from the bat of Joe Judge. An RBI, lost in his chase to the plate, Dugan galloped on to second base and from there he was sent in with the first run of the series when Ruth bunched a short single into right field.

In the tenth inning the Yankees got their second run. Bob Meusel singled past Heinie Groh. Wallis Schang laid down a bunt to push Meusel along to second, but before the Giants got through playing with the bunt he had reached third. Nehf Throws Wild.

Nehf, in picking up the soft fan that Schang laid in front of the plate, decided to try to catch Meusel at second instead of being satisfied with the out at first. He threw wild and the ball went past Meusel and into right field. There it was fumbled by Young. This lapse permitted Schang to reach second, while Meusel went to third. Aaron Ward threw a fly almost to the center field bleachers and Meusel settled home.

Neither Nehf nor Bush was able to finish the job begun. Each was caught on a stone bruise on the head. For six innings it appeared that like Achilles, they had only this one vulnerable spot. But these appearances did not deceive the men hired to hit for John McGraw and Mike Huggins.

Nehf, mixing his slow ball with his speedier service in a baffling medley, had the Yankees fairly well subjugated until Wild broke the game by a home run. The pitcher removed him in the seventh for a pinch-hitter. Earl Smith, went to bat after the Giants, with one out, had filled the bases on successive singles by Kelly, Stengel and Snyder.

AN ENORMOUS TOLL OF  
LIFE HAS BEEN TAKEN  
BY FLOODS IN BENGAL

Calcutta, Oct. 4.—Floods in northern Bengal have taken an enormous toll of life, according to passengers on the first train to reach here from Darjeeling in eight days.

It is impossible to estimate the extent of the disaster, but the travelers estimate that several thousand persons have been drowned in the affected area, other thousands made homeless and destitute by valuable crops destroyed. The floods are said to be the worst in the history of Bengal.

SEVERAL EXPERTS TO  
ACCOMPANY HORNE TO  
U. S. ON DEBT MISSION

London, Oct. 4.—The Associated Press.—It was definitely announced tonight that when Sir Robert Horne, chancellor of the exchequer, sails for America to discuss the question of inter-allied debts and the debt funding commission, he will be accompanied by several experts.

## TO RESTORE TRAINS.

Texarkana, Ark., Oct. 3.—Passenger train service on the St. Louis-Southwestern (Cotton Belt) railway in Texas will be restored Thursday to normal conditions excepting prior to the recent shop crafts strike, railroad officials here announced today.

ARIZONA OPENS  
WAY TO RELEVE  
N. M. CATTLEMEN

Board Recommends That  
the Quarantine Law Be  
Modified to Admit Cattle  
Without Being Dipped.

Phoenix, Ariz., Oct. 4.—The Arizona State Livestock sanitary board today recommended that the Arizona livestock quarantine law be modified so as to permit cattle from New Mexico to be admitted to the state of Arizona without having to go through the process of dipping, provided such cattle have been properly inspected by a federal veterinarian of the Arizona state veterinary board and passed by either one as free from infectious or contagious diseases. The recommendation was in the form of a resolution adopted today at the regular meeting of the state livestock sanitary board and was forwarded at once to Governor Thomas E. Campbell. The state board also had prepared, under the direction of Ed W. Stephens, secretary, an amended proclamation of quarantine containing the modifications suggested. This proclamation also has been forwarded to the governor and it was announced late today that it is expected he will approve and sign the proclamation within the next two or three days.

This action by the Arizona state livestock sanitary board opens up a way whereby New Mexico's cattlemen may save thousands of dollars by shipping their stock through Arizona into Old Mexico where they will have plenty of range. It was reported by New Mexico authorities that thousands of cattle in New Mexico were dying because of the drought and consequent lack of feed.

Henceforth it was held that New Mexico cattle could not be shipped through Arizona, unless they went through Arizona into Old Mexico where they will have plenty of range. It was reported by New Mexico authorities that thousands of cattle in New Mexico were dying because of the drought and consequent lack of feed.

ORTIZ DEFEATED  
AT DEMOCRATIC  
COUNT MEETING

Felipe Zamora Gets Nomi-  
nation for Sheriff; Speech  
by Bryan a Feature of  
Convention.

The democratic county ticket: County commissioner, district No. 1, Manuel Sedillo. County commissioner, district No. 2, James Bezemek. County commissioner, district No. 3, Frank Butt. County assessor, D. A. Macpherson. Sheriff, Felipe Zamora. Treasurer, E. B. Swope. County clerk, Miss Lucy Harris. County superintendent, Atanacio Montoya. Probate judge, W. W. McClellan. County surveyor, Pitt Ross. Representatives in the legislature, Atanacio Griego, Dennis Chavez, Jose Jord.

Failure of Sheriff Antonio C. Ortiz to receive the nomination to succeed himself, the unexpected nomination of D. A. Macpherson for assessor, and a brief address by William Jennings Bryan were the outstanding features of the democratic county convention yesterday in Society hall, Old Albuquerque.

The convention was attended by 150 delegates, who cast 137 votes. It was the most largely attended gathering of democrats held in the county in several years.

The temporary officers selected by the county committee and afterwards made permanent, were W. C. Oestreich, chairman; Leonardo Fleming, Cipriano Sanchez, Mrs. E. B. Rich, vice chairmen, and Mrs. Earl Bowditch, secretary.

R. McClellan, acting as spokesman of a committee appointed by the Albuquerque Business Men's association, declared that the county's affairs should be administered by men of ability who would put the county's welfare above political considerations, had named a committee of six to call on the two county conventions. "The business men feel that the time has come for a business administration of county affairs," said Mr. Clughan, "and the will vote for men who will give such an administration, regardless of party lines."

The committee was assured by Chairman Oestreich, that the only way the democratic party in yesterday's convention could nominate the best man possible, choosing candidates known to be qualified. Mr. Oestreich also was a member of the business men's committee, which was composed of Mr. McClellan, Raymond Archuleta and himself. It is understood that the other three members of the committee, who are Republicans, will carry an identical message to the republican county convention.

The Resolutions. Following are the resolutions adopted by the convention: "The democratic party of Bernalillo county reaffirms its allegiance to the fundamental principles of democracy and pledges itself and its candidates to stand for the time honored principles of honesty and public office, for which it has always stood."

"We call upon all citizens of this county to unite with us in an effort to clean up the affairs of this county and state, and to repudiate the inefficient and corrupt government which the republican party has fastened upon us."

We stand for the election to public office of men and women who will regard office as a public trust, who will render efficient public service, and who will not regard office as a means to the accumulation of public money. We regard school funds as particularly sacred, and the waste of money on school children, we promise all citizens that if our candidates are elected, they will strictly enforce the law without fear or favor, and will give to both high and low the same fair, courteous and efficient service, and that no man or group of men shall have preferential treatment in public matters."

Organization and the reading of the resolutions occupied the time until well past noon, and the convention adjourned until 2 o'clock. It was after 2 o'clock when it got down to business. Manu Sedillo was nominated for commissioner, over former Sheriff Rafael Garcia, by a vote of 52 to 55. Sedillo is a ranchman and a resident of Precinct No. 1.

James Bezemek, a dairyman who lives on North Fourth street, was nominated for commissioner from the Second district, over Charles Mann of Old Albuquerque, by a vote of 73 to 63. Mr. Mann was chosen secretary during the convention, and frequently during the convention remarked that business interests of the city were dominating the convention. Frank Butt was nominated for commissioner from the third district over M. P. Sawtelle, local contractor. Butt said he did not want to run, and tried to have Mr. Sawtelle nominated by acclamation, but to no avail. On the second ballot, Butt received 23 votes and Sawtelle 24. On Mr. Sawtelle's motion the nomination was made unanimous.

The contest for the nomination of sheriff was strenuous, and was won by Felipe Zamora of Ranchos de Atlixco on the second ballot. Sheriff Ortiz moved to make it unanimous. On the first ballot Zamora was opposed by Zamora and former Sheriff Rafael Garcia, 23 to 24. On the second ballot Zamora received 73 votes and Garcia 61. The city precincts voted as follows: No. 12—Ortiz, 35; Zamora, 26. No. 2—Ortiz, 35; Zamora, 26. No. 3—Ortiz, 35; Zamora, 26.

Swope by Acclamation. E. B. Swope, present county treasurer, was nominated by acclamation.

Miss Lucy Harris, Raymond

Queen Marie of Roumania Sees  
Another Daughter Ascend Throne

Left, Queen Marie of Roumania, and, right, Queen Elizabeth of Greece, her daughter. Inset, King George.

Once more the reputation of Queen Marie of Roumania, as the "queenmaker of the Balkans," has been vindicated. Her daughter, Elizabeth, has just become queen of Greece with the accession of her husband, formerly Prince George, to the throne.

Another daughter, Princess Marie, is now queen of Jugoslavia. Marie and her daughters are noted beauties.

ALLIED-TURKISH  
PARLEY MARKED  
BY CONCILIATION

Angora Government Accepts  
the Allied Proposals in  
Principle; Requests That  
Thrace Be Freed.

Constantinople, Oct. 4.—(By the Associated Press.)—Conciliation thus far has marked the conference between the allied generals and the Turkish representative at Mudania. Ismet Pasha, who speaks for Mustafa Kemal Pasha, leader of the nationalists, and also for the Angora government, has announced that the government accepted the allied proposals in principle and he took occasion to explain at the opening of the sessions that the Turks "had no intention of creating incidents with the Greeks."

The absence of the Greek representative from Tuesday's meeting was little difference because the matters under discussion were of a general nature and had no immediate connection with the attitude which the Greeks might assume.

At today's meeting Ismet asked for a settlement of the Turkish administration of Thrace and asked that Thrace be freed from allied control, but he felt that at least one month would be required to effect the transfer. He also suggested that there should be an allied covering force on the Maritza river and that a neutral zone should be created west of the river. The allied generals explained that the proposed administrative measures must all be subject to the approval of the governments concerned. Ismet then expressed a willingness to meet the Greek delegates.

At the opening of the proceedings on Tuesday General Harington, commander in chief of the allied forces, said that the objects of the conference were three-fold. First, to obtain a cessation of hostilities; second to fix a line in Thrace behind which the Greek troops would be invited to withdraw; and third to arrange details of evacuation of the Greeks from the peninsula to the Turkish coast, the plans of which would be submitted to the powers; third to pave the way for a future peace conference.

The Turks at first showed apathy with regard to the details of the administration of Thrace until they had tested the sincerity of the allies' desire to restore Thrace to them. It was then pointed out that restoration depended upon the acceptance by the Turks of the joint allied note from Paris.

Ismet Pasha declared definitely that the note had been accepted in principle by the Angora government. The Smyrna correspondent of the Oriental News Bureau, an official agency of Mustafa Kemal, publishes a dispatch from Mudania saying that according to official information obtained during Turkey's conference, General Harington raises from the beginning the question of the straits and the control of the Turkish coast. Mustafa Kemal replied that Turkey had no intention of creating incidents with the Greeks.

'WHAT'S THE SCORE?'  
MAN INQUIRES AS HE  
COMES OUT OF A DAZE

Minneapolis, Minn., Oct. 4.—While a crowd nearby watched a world series bulletin board here today, Lester Garcon, 35 years old, a window washer, fell from a third story ledge to the sidewalk. Horrified spectators thought he had been killed. But he was unhurt.

"What's the score?" he asked as he came out of a daze.

PLAYS HER ROLE IN  
COMEDY FOLLOWING  
HER MOTHER'S DEATH

New York, Oct. 4.—Miss Florence Shirley watched at the bedside of her mother until she died yesterday morning, then arranged for burial services and less than an hour afterward walked onto the stage of the Morosco theater and delighted a matinee audience by her light hearted interpretation of the role of the frivolous, profligate wife in the comedy, "Why Men Leave Home."

It was learned today that Miss Shirley refused to allow an understudy to take her role and played through both matinee and evening performances.

PROHIBITION OF  
BRANCH BANKING  
WILL BE SOUGHT

Bankers Will Seek a Federal Statute Prohibiting the Practice; Wisconsin Man New President.

New York, Oct. 4.—The American Bankers association, in convention here, went on record today by a vote of approximately three to one, as being opposed to branch banking or the establishment of branch offices by both state and national banks in any form.

After the passage of a resolution expressing this opposition, steps were taken by bankers from Missouri, Illinois, Wisconsin, New Jersey and Connecticut to form an association of national and state banks and trust companies opposed to branch banking. The passage of a federal statute prohibiting national banks from having branches or more than one office in any state, Murry McLeod, vice-president of the Irving Park National Bank, Chicago, was elected chairman of the organization.

A committee composed of three delegates from each of the 43 state bankers associations, will meet in Chicago soon, it was announced, to plan a national campaign.

Messages from President Harding and Secretary Mellon were read by President Thomas B. McDonald. Secretary Mellon wrote that a foundation for an early and healthful revival of business has been established through the response of the bankers to the treasury offerings of the short term notes issued during the last 18 months to retire victory notes and other early maturing obligations.

President Harding's message was a plea to the bankers to "lead in recommitting our people to sound expenditures, to ways of economy and thrift, to the consideration of municipal and national problems in that conscience which builds the temple of confidence."

In the election of officers, John H. Puellicher of Milwaukee was chosen president; Walter W. Head of Omaha, Neb., first vice-president and William W. Knox, second vice-president.

AMERICANS RELEASED  
FROM JAIL AT JUAREZ

El Paso, Tex., Oct. 4.—Claude T. Smith, captain of city detectives; Sam Dreben, soldier of fortune and world war veteran, and C. C. Harvey, chauffeur, were released from the Juarez jail late today and returned to El Paso. The men are charged with attempt to abduct Felipe Olguin, alias "Arizona Phil," wanted in Los Angeles for the murder of Police Sergeant Fitzgerald. Cash bail aggregating \$2,500 for the three was deposited.

MINERS DEMAND  
CONTINUANCE OF  
PRESENT WAGES

Also Want the Six-Hour  
Day, Five-Day Week,  
Time and Half Overtime,  
Double Time on Sundays.

Cleveland, Ohio, October 4.—(By the Associated Press.)—The policy committee of the United Mine Workers of America, in session here today, reaffirmed the demands of the February, 1922, convention of union in Indianapolis, demanding the continuance of the present wages in coal miners until 1925 and, in addition, the six-hour day and five-day week, time and one-half for overtime work and double time on Sundays and holidays. These demands will be presented to the next scale conference of miners and operators prior to a conference of selecting delegates to a conference March 31, next, of the Cleveland agreement, signed here last August, which practically settled the soft coal strike and which now is in force.

Today's decision by the policy committee to stand on their old demands makes it unnecessary for the miners' union to hold a convention between now and next April, John L. Lewis, president of the United Mine Workers of America, announced. The old schedule of demands never was presented to the operators because the producers' associations in the old central competitive field—Ohio, Indiana, Illinois and western Pennsylvania—refused to meet the union before the miners' strike began April 1, last.

Day laborers' wages in bituminous mines is \$7.50, and this has been the scale since the summer of 1920.

The policy committee's meeting followed the final session of a joint conference of operators and miners meeting here since Monday to take preliminary steps toward wage negotiations next January.

The joint conference, representing all important union bituminous coal producing districts in the nation, agreed today upon a method of selecting delegates to a conference to meet in Chicago November 1, to formulate a method of procedure to be followed by the bituminous coal industry in negotiating a wage scale agreement to become effective April 1, 1923.

The setting up of this committee was provided under the terms of the Cleveland agreement and leaders of both sides declared it to be a highly important accomplishment. The committee, composed of the Indiana Coal Operators' association and chairman of the joint conference, declared it makes possible a reconstruction of the bargaining machinery which had been broken up before the coal strike.

2 MEN ARE TAKEN FROM  
JAIL IN NEBRASKA AND  
TARRED AND FEATHERED

Omaha, Oct. 4.—Two men were taken from jail and tarred and feathered at Bartley, Neb., early today, according to a special dispatch to the Omaha World Herald. The two men—Leonard Noel, an itinerant sign painter and A. Jennings, a Bartley man—had been arrested on complaint of school authorities, that they had been annoying school girls. Noel had previously been arrested and released following an elopement to North Platte, Neb., with Velma Sipe, a 16-year-old school girl.

After tarring and feathering the two men, the mob ordered them to leave town, under threat of hanging, reports say.

## BURNS FATAL TO TWO

Chicago, Oct. 4.—Max Spector and William Lyons died today as the result of burns and injuries received when a large still blew up on the northwest side.

GREAT BRITAIN  
WILL PAY DEBT  
McKENNA STATES

Definite Postponement of  
Payment of the Bills  
Owed by Other European  
Nations Is Advocated.

New York, Oct. 4.—Definite postponement of any payment of the debts owed the United States by European nations, with the exception of England until the actual amount which such nations ultimately may have been determined by conferences between the creditor and the debtors was suggested by the Right Honorable Reginald McKenna, former chancellor of the British exchequer, in an address before the American Bankers' association here today.

Mr. McKenna also gave as his opinion that Germany might be able to pay as reparations in the immediate future about one billion dollars, derived from her foreign balances and the sale of foreign securities, such a payment only being possible if all other demands are postponed for a definite period to stabilize the market. But McKenna said that the demands at the expiration of that period, he said, must be limited to the annual amount of Germany's exportable surplus at that time.

International Debts. The speaker, who is chairman of the London Joint City and Midland Bank, Ltd., said to be the largest bank in Great Britain, gave his views on the economic aspects of reparations and international debts, which he said are payable, the general capacity of a debtor country to pay, and the effect of payment.

While he stated that he was not in politics and did not appear in the "reparations" character, as a British banker, he argued that England has the capacity to pay her debt to the United States and, he continued, "I can unhesitatingly assert her determination to honor her bond in full."

The question to be investigated in connection with the German reparations, is not Germany's capacity to produce wealth, but her capacity to pay foreign bills and her "bond in full."

"No doubt," he said, "Germany's immense power to produce," he continued, "but production by itself is not enough. She must find a market for her exports. We must restrict our imports. An increase in her exports will only find no corresponding increase in imports."

Germany has no present capacity to obtain a surplus from the export of goods, he argued. Mr. McKenna also said he failed to see how additional taxation can increase Germany's foreign trade and provide a large export surplus for her foreign bills.

Many Germans have invested in bonds or balances in foreign banks, the proceeds of the sale of marks which have been hung on foreign markets when the mark depreciated in value under pressure of reparations payments.

"Relieve this pressure," he said, "and the mark would immediately improve. The mark has a far greater value in Germany than it has outside. The German holds a clear advantage in selling them to their own government."

"I believe it would be safe to put the total value of assets owned by Germans in foreign banks at not less than \$1 billion dollars."

"More than that I don't think she has the ability to find, at any rate for a long time to come," he said.

Touching upon the French debt to the United States which Great Britain is also interested as a French creditor, Mr. McKenna stated that France's external debt is far too great in excess of international trade possibilities, and more endeavor of France to extend her foreign sales to the required degree would disorganize the trade of the world, he maintained.

Rational Reconciliation. "Rational reconciliation," he continued, "that these international debts are far too great for the capacity of any of the debtor countries, except England. The whole subject requires a rational reconciliation by the creditor nations, must keep steadily in view the immediate effect of the payment of these debts on the general trade of the world."

Mr. McKenna stated as his conclusion that England has the capacity to pay the United States interest and sinking fund on her debt but that none of the other creditors is in a position to meet a small part of the external liabilities of France to extend her foreign sales to the required degree would disorganize the trade of the world, he maintained.

The setting up of this committee was provided under the terms of the Cleveland agreement and leaders of both sides declared it to be a highly important accomplishment. The committee, composed of the Indiana Coal Operators' association and chairman of the joint conference, declared it makes possible a reconstruction of the bargaining machinery which had been broken up before the coal strike.

2 MEN ARE TAKEN FROM  
JAIL IN NEBRASKA AND  
TARRED AND FEATHERED

Omaha, Oct. 4.—Two men were taken from jail and tarred and feathered at Bartley, Neb., early today, according to a special dispatch to the Omaha World Herald. The two men—Leonard Noel, an itinerant sign painter and A. Jennings, a Bartley man—had been arrested on complaint of school authorities, that they had been annoying school girls. Noel had previously been arrested and released following an elopement to North Platte, Neb., with Velma Sipe, a 16-year-old school girl.

FOREST FIRES BURN  
3 TOWNS IN CANADA

Toronto, Ont., Oct. 4.—At least three mining towns have been wiped out by forest fires burning over a wide area in northern Ontario tonight.

Trains and telegraphic communications from the district, which is an isolated section north of Cobalt, have been interrupted, but as far as can be ascertained, no loss of life has occurred in the more populous centers.

The towns known to have been burned are a smaller mining settlement in a group of towns lying north of these. An unconfirmed report states that Englehart also has been burned out. Trains due from Englehart and Cochrane have failed to arrive and grave fears are entertained for these two towns. The mining settlements of Healdt and Elk Lake also are in the path of the main fire.

All roads leading from points in northern Ontario are crowded with persons who have escaped from the destroyed towns. The town of Cobalt is caring for refugees from Healdt and North Cobalt, it is reported.

SETTLEMENT OF  
STRIKE OF SHOP  
CRAFTS IS MADE  
ON 83 RAILWAYS

Carriers Involved Represent  
About 65,000 Miles of  
Line and Between 125,000 and 130,000 Men.

SPECIAL BULLETIN  
ISSUED BY JEWELL

Special Circular Is Issued  
Containing Interpretation  
of Judge's Decision on  
Injunction Bill.

Chicago, Oct. 4.—Eighty-three railroads of the United States, operating approximately 65,000 miles of line and employing between 125,000 and 130,000 members of the federated shop crafts have settled the shop crafts strike with their system federations, according to a special bulletin sent today to all members of the organization over the signature of B. M. Jewell, president. The latest additions to the settling roads were the Fort Smith & Western, the Georgia, Florida & Alabama and the Chicago Great Western.

Replying to numerous requests for an interpretation of the Baltimore plan, upon which the strike basis for settlements on other roads; third, that no justification could be found for keeping 125,000 men on strike who could return to work and assist in financing those who would remain on strike.

Justification for the action of the policy committee, it said, is seen in the fact that thirty-one other carriers, in addition to the original fifty-two, have agreed to the Baltimore plan.

A second special circular to the membership contained in detail an interpretation of Federal Judge James H. Wilkerson's decision on the injunction bill filed against the organization by Attorney General Daugherty. It was supplied by Donald R. Richberg, attorney for the shop crafts.

"We cannot interpret the temporary injunction, drastic as its terms are," said Mr. Richberg's opinion in part, "in any way restraining or preventing the officers and other representatives of the shop crafts organizations from doing all in their power to maintain an orderly discipline and conduct of the lawful work of the organizations, to continue to call for and to expect loyal service of each and every member and to continue to work in harmony and with a common lawful purpose to advance the common interests of the organized shop craft employees."

Mr. Jewell, accompanied by Mr. Richberg, arrived today from Washington, where they conferred with Attorney General Daugherty after the submission of Judge Wilkerson's decision to a higher court for review. Attorney General Daugherty assured them of his cooperation insofar as it is possible for him to act.

SERIOUS DAMAGE  
IS THREATENED  
BY DRY WEATHER

Late Growing Crops Are  
Adversely Affected and  
Lack of Moisture Has  
Slowed Fall Seeding.

Washington, Oct. 4.—Drought conditions threaten serious damage in many parts of the United States, according to the weekly weather and crop review of the weather bureau tonight which reported that not only late growing crops are being affected, but the lack of moisture had slowed fall seeding. Warm and sunny weather characterized the week in most sections, the review stated, adding that it had been very favorable for the maturity of many grain crops.

Light rains fell along the Pacific coast and in some sections along the Gulf, the review said, but continued drought conditions prevailed in most other districts and there was insufficient moisture for the proper growth of vegetation. Pastures, ranges, meadows and late truck crops were unfavorably affected and moisture was needed in many central and southern states for the germination of fall sown seed, ground was too dry for plowing and seeding winter grains in most sections. The drying weather of the last few weeks has practically matured the corn crop in the corn belt, according to the review. In some of the late corn sections, however, the drought conditions have cut the prospects to some extent, it was reported.

ICEBERG IS REPORTED  
TO BE MOVING SOUTH

Boston, Oct. 4.—An iceberg bigger than Bunker Hill monument was reported today by the U. S. Coast Guard as moving south into the Transatlantic steamship lanes. The iceberg was said to be 250 feet high, and bulkier by far than the monument which it would top by 25 feet. Its position was given as latitude 45.66 north, and longitude 64.4 west. Two lesser bergs were in the vicinity.

## WEATHER

## FORECAST.

Denver, Colo., Oct. 4.—New Mexico: Thursday and Friday, fair, slightly cooler north and east portions.

## LOCAL REPORT.

Conditions for the twenty-four hours ended at 6 p. m. yesterday, recorded by the university:  
Highest temperature ..... 84  
Lowest ..... 54  
Range ..... 30

# W. J. BRYAN SAYS 90% G.O.P.S ARE GOOD DEMOCRATS

## Divides Idea of Government Between Advocates of Democracy and Aristoc- racy; Flays Rep. Leaders

Holding to his lifelong idea, in spite of the fact that it has been repeatedly disproved in national, state and local elections, William Jennings Bryan in his address at the high school auditorium last night claimed that 90 per cent of the republicans are democrats at heart. He also sought to lay the wreath of honor for practically all legislation of special benefit to the people upon the democratic party and urged the selection of Senator A. A. Jones at the coming fall elections.

The meeting, which was presided over by Judge R. H. Hanna, was well attended, the auditorium being filled to capacity. Mayor W. R. Walton greeted Mr. Bryan upon behalf of the city of Albuquerque and introduced him as the speaker of the evening. Mr. Bryan spoke for more than an hour.

Although Mr. Bryan claimed that it was his habit to discuss principles instead of men, he was extremely bitter in his criticism of members of the Harding cabinet, although his remarks were so made to appear to be more or less impersonal.

He immediately divided the principles of government into two classes, democratic and aristocratic and differentiated the beliefs of the two by claiming that the democratic idea of government was to provide a foundation for the masses and let the masses rise through to the top, while the aristocratic idea was to provide for the rich and let the masses live on what falls from the top to the bottom.

"The rank and file of the Republican party are democrats but do not realize it," he exclaimed and claimed that the Republican party leaders do not represent the idea of government which is held by the common members of the party. "The republican leaders' idea of society is not the same as the mass of the Republican party nor the leaders of the democratic party nor the mass of the Democratic party," he declared, and attacked the ideas of numerous members of the present cabinet, claiming they to be aristocratic and not working for the best interests nor carrying out the wishes of the Republican masses.

Claiming that no president has had such trouble with a measure as has President Harding with his revenue bill, Mr. Bryan traced the start of the bill from Secretary of the Treasury Mellon through the republican committee and claimed credit for the democrats in the raising of the maximum "big income" tax to 50 per cent, instead of allowing the proposed cut of from 65 per cent to 32 per cent.

He also charged the republican leaders with taking 450 millions of dollars from the federal government through the elimination of the excess profits tax which he claimed was the one tax which the payers could well afford to pay as it represented unreasonable gains. He charged that the reduction of the "big income" tax percentage had lost the treasury the sum of 40 million dollars a year and had only

# AILING WOMEN OF MIDDLE AGE

## Mrs. Linton Tells How Helpful Lydia E. Pinkham's Vegetable Compound is at This Period

Denver, Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound.' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I wouldn't get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

# GIRL MOTHER STEALS TO CLOTHE BABE AND TO KEEP WOLF AWAY FROM DOOR

Mrs. Grace Carey.

Mrs. Grace Carey could not resist the temptation to buy pretty things for her babe when she found a change account coin in New York "It was easier for the child to have a thief for a mother than something else," she says.

benefited from four and five thousand persons.

Touching upon the present condition of the farmers, Mr. Bryan stated that they were down to rock bottom and that the present republican administration was responsible for this condition mainly on account of the personnel of the federal reserve board which, he claimed, is not representative of the various industries which it was intended to assist.

Mr. Harding assailed President Harding for putting his veto to the soldier bonus bill.

"President Harding thought that the country did not have the money to afford it," he stated, "but he did think that the country could cut the revenue by 90 millions of dollars annually in order to benefit four or five thousand men with huge incomes and he did think that the country could afford to lose 450 millions of dollars in order to benefit those who are making excess profits," he added and made the assertion that if the democrats had the decision to make, ways and means have been found in which to meet the debt to the soldier boys, who to a great extent, came from the masses, and not from the wealthy and aristocratic people.

# BRYAN CONFERS WITH LEADERS AT GALLUP

Gallup, N. M., Oct. 4.—William J. Bryan arrived in Gallup this morning on train No. 2, and stopped off here for two hours to confer with Senator A. A. Jones and James P. Hinkle. Mr. Bryan and the senator spent an hour or more in conference at a room in a hotel. At 11:30 Mr. Bryan delivered an address at the depot platform, which was heard practically by everyone in Gallup. The Commoner spoke largely in behalf of the election of democratic senators to the United States senate at the coming election in November. He spoke forcibly but in a manner which was pleasing and which made the entire audience these words uttered by him. In his address he presented a concise explanation of his belief in the superiority of the democratic over the republican party of this nation.

# N.M. GETS SHARE OF U.S. FOREST SERVICE INCOME

State's Portion of Forest Service Receipts Amounts to \$44,975.63; To Be for Schools and Roads.

The sum of \$44,975.63 is being turned over by the forest service to the New Mexico state officials to be placed in the state school and road fund, according to Frank C. W. Fuller, district forester, in charge of the fourteen national forests of New Mexico and Arizona. Governors of 28 states have just been notified that in accordance with federal law, 25 per cent of the \$3,451,531 received from timber sales, grazing permits and other sources of national forest revenue for the past fiscal year will be distributed by the forest service, U. S. department of agriculture, to states in which national forests are located for expenditure upon schools and roads.

In additional 10 per cent of the total receipts is spent each year by the forest service for the construction of roads and trails within the forests. This sum for the present year amounts to \$17,990.25 for New Mexico. While the primary purpose of road and trail building within the forests is for better administration of the forests and better protection against forest fires, many outlying communities as well as individual settlers are greatly benefited by them and a system of good mountain roads and trails is being gradually built up.

The school and road fund that is to be divided, aggregates over a million dollars. It will be proportioned twenty-eight states in proportion to the receipts from the national forests located in them. Since the establishment of the national forests the sums returned to these states have steadily increased and now reach a total of almost fourteen million dollars that has been contributed directly to the development of the states by the national forests within their borders.

New Mexico, according to gross receipts from national forests and amounts to be given over to state treasuries, stands eighth in the list of states that are included in the division of national forest

# DEATHS AND FUNERALS

**GOLDSTEIN**—Funeral services for Isaac Goldstein were held at Strong Brothers chapel yesterday afternoon at 3:00 o'clock. Rabbi Raphael Goldstein officiating. Interment was in B'Nai B'rith cemetery. Mrs. Jake Weiman, the daughter, accompanied the remains to this city to attend the funeral.

**COLEMAN**—Funeral services for Mrs. A. Coleman will be held this morning at 9 o'clock at the immaculate Conception church. The funeral cortege will leave the Coleman residence at 422 West Tulasas avenue, at 8:30 o'clock. The active pallbearers will be Luke Walsh, Andres Romero, Frank Hubbell, Charles White, W. A. Keltner and Max Nordhaus. The honorary pallbearers will be from the "Maiden Ladies" sodality of the immaculate Conception church, and will be as follows: Mrs. Luke Walsh, Mrs. William Burk, Mrs. Jake Korber, Mrs. J. A. Sheehan, Mrs. Dan Sutcliffe, Mrs. Dorothy Binkert. All friends of the family are invited to attend the services.

**ROMERO**—Francesquita Romero, two year old daughter of Mr. and Mrs. Daniel Romero, died yesterday morning at their residence at Old Albuquerque after a week's illness. Funeral arrangements are pending. Crollott is in charge.

**RIVERA**—Miss Lucia Rivera died yesterday afternoon at her parents' residence at Atrisco. She is survived by her parents and three brothers. Funeral arrangements are pending. Crollott is in charge.

**FRANK**—Mrs. Sarah Frances Frank, 37 years old, died at her home on East Central avenue yesterday morning. Mrs. Frank had lived here for 12 years and was a member of the First Methodist church. She is survived by her husband, H. V. Frank, and three sons here, and by her parents, two brothers and one sister in Rose, Kans. The body will lie in state at French's parlors tomorrow from 10 to 2 o'clock p. m. and the funeral services will be held at 2:30 o'clock tomorrow afternoon at French's chapel. Rev. F. E. McGuire will officiate. The body will be shipped to Rose, Kans. for burial.

**OHL**—The body of James A. Ohl was shipped last night on train No. 4 to Niles, O., for burial, accompanied by his widow. C. T. French was in charge of the arrangements.

**HESSLER**—Mrs. John C. Hessler died at her apartment here last night. Her home was in Chicago, Ill., and her husband is on his way to Albuquerque. The body is at Strong Brothers' mortuary.

# 10 PERSONS INJURED AS RESULT OF A FIRE

San Francisco, Oct. 4.—Ten persons were injured yesterday morning, as a result of fire which started with two explosions in a film exchange at Jones street and Golden Gate avenue here tonight. Four film exchanges were destroyed and part of a nearby hotel was flame swept. Most of the injured were pedestrians slashed by falling glass after the explosion.

# RUSSIAN RECOGNITION WOULD BE BENEFICIAL TO U. S., SAYS BORAH

Pocatello, Idaho, Oct. 4.—Recognition of the soviet government of Russia by the United States would result in great benefit to this country "as we have everything to gain and nothing to lose," Senator William E. Borah, republican, of Idaho declared here today.

"The far eastern situation," he said, "appears at the present time to be adjusting itself in a satisfactory manner, although the adjustment must necessarily be only temporarily so long as the present political policy exists abroad."

**ARMSTRONG LINOLEUMS**

We invite your attention to our new stock of Armstrong linoleums. You will find, we are sure, patterns and qualities to meet your needs.

Remember, we quote linoleum prices without obligation, and lay it free, regardless of the size of your order.

NEW YORK, N. Y.

# JACK THE GIANT KILLER

You have doubtless read about this fellow who did business with a club.

Jack was an exclusive cuss, wherever he went he was always offered a front seat, and the hymn book opened to the right page.

However, these days there seems to be no fellow with a club or any device that can get the customers in the frame of mind to buy old or out of date merchandise—never has it been that men could so surely sense the late styles.

We are not unmindful of the changes—with ears to the ground, we are buying merchandise to sell on a VALUE-TO-GET-VOLUME basis. It will be our pleasure to show you.

The 18th Amendment to the Constitution of the United States provides:

"The manufacture, sale or transportation of intoxicating liquors is hereby prohibited."

In the face of this prohibition it is futile to talk of legislative permission to traffic in light wines, beer or any other liquor which is, in fact, intoxicating.

Constitutional restrictions cannot be defeated by legislative declarations, nor nullified by subterfuge.

**STEPHEN B. DAVIS, JR.**

(Political advertisement)

# SURVEYING BY PLANE IN NOT FAR DISTANT FUTURE PREDICTED

San Francisco, Calif., Oct. 4.—The time is not far distant when photographic surveys by airplane will supplant the present methods of engineering, surveying and mapping, Gerald H. Mathes of the United States engineering office, Chattanooga, Tenn., told the full meeting of the American Society of Civil Engineers here today.

"The method is well adapted for use in water power surveys, irrigation surveys, city planning, location of highways, mapping of routes for transmission lines and many other purposes," Mathes said. "Recent experiments in a survey of the Tennessee river saved both time and money. 'The aerial method of survey is particularly applicable to routing transmission lines.'"

**MOBILIZATION ORDERED**  
Constantinople, Oct. 4.—A message from Athens says that the Greek government has ordered general mobilization of the classes of 1917 and 1918. It has also cancelled all leaves.

**REINFORCING TROOPS**  
Athens, Oct. 4.—It is officially reported that the Albanians are reinforcing their troops on the frontier as a result of the Greek Nationalist movement.

You may be in a bad business; but suppose you ran a life insurance company in Ireland.—Toledo News-Bee.

# PEACE OFFICERS ARE SEEKING 6 BANDITS

Regina, Sask., Oct. 4.—Saskatchewan and North Dakota authorities are tonight searching for six bandits who today killed Paul Matoffa Regina, liquor dealer, escaped from provincial police, hurried to the international boundary at Portal, N. D., and robbed a truck of the liquor for which Matoffa is said to have received \$6,000. The \$6,000 was taken from Matoffa's pockets by the bandits.

Police here believe that the bandits were members of a gang with headquarters in Omaha, Neb.

**HUSBANDS, READ THIS**

Why not do it now? You'll have to come across with a new range for the wife some day, anyway, so why not do it while the demonstration of the Majestic range is on at the store of Raabe and Mauger, First and Copper, all this week. If you buy that long-needed range this week, your wife will get a fine set of \$15 copper cooking utensils absolutely free. Just think how she will appreciate a spick, span new Majestic range, one that does away with uncertainty and fuss and waste. Goodness knows she's entitled to it, isn't she?—Adv.

## VICTORY DUE TO FIGHTING POWER OF MCGRAWITES

Bush Used Nothing But Speed, Giants' Manager Says; Huggins Has No Excuse for Bush.

New York, Oct. 4.—The fighting power of the Giants carried them to victory over the Yankees, in the opening game of the world series, in opinions expressed after the contest by the rival managers.

"The man who has the best fighters wins the most ball games," said John McGraw, manager of the Giants, between chuckles of delight over the victory.

"Joe Bush was working fine, although I don't believe he had much stuff on the ball, so I told the boys after the Yankees had made two runs, to just try and meet the ball—just to stick out their bats."

"That's what they did in the eighth inning and that proved my belief that Bush was using nothing but speed."

"I'll admit that we had the breaks of the game and that the Yankees might have had five runs but for some lucky, sensational plays."

"And, say—I'm right proud of my team. They're never beaten until they're unconscious."

Miller Huggins, the Yankees boss, had no excuse for Bush's cracking in the eighth inning.

"The Yankees," he said, "should have had more runs. Young's great somersault catch of Scott's liner in the fifth, with two on the bases, won the game for McGraw's men. If it hadn't been for that catch we would have made at least two more runs. But it happened."

"Last year we learned that the Giants were a team of fighters and we appreciate their power on the offensive. Their defense, however, won for them today, in my opinion."

"It looks like we'll have to get more than two runs a game to beat them."

"I haven't any criticism for my players; they worked admirably. Hugh Jennings, the venerable Giants coach, declared the Nationals won the game by half an inch."

"In the eighth," he said, "when our men filled the sacks, Irish Meusel connected. The ball sailed a half inch above Bush's extended arm and went for a hit that scored the tying runs. Half an inch lower and Bush would have had an easy double play."

Huggins said that Bob Shawkey or Carl Mays would do mound duty for the Yankees tomorrow, while McGraw declared he would start either Jesse Barnes or "Deacon John" Scott.

**OFFICERS IN N. M. ARE REQUESTED TO ARREST G. DILLON AND WIFE**

Toponah, Nev., Oct. 4.—Officers in New Mexico today were requested by local authorities to find and arrest G. Dillon and wife in connection with the finding in a grave Sunday seven miles from here, of the body of Wallace Williams, Jr., son of Wallace Williams of Nevada City, Calif.

The body, location of which was disclosed by buzzards, was wrapped in an old blanket, thickly wound with heavy wire. Handles formed by looping the wire and it is the theory of the police that the body was carried considerable distance. Evidence in the hands of the local authorities, they reported, indicated the man was slain in a Toponah rooming house.

Williams is said to have been intimate with the Dillons, who were former residents of Taft, Calif. Near the grave was found an illicit liquor still, the police said.

**READY TO HOP OFF.**

San Diego, Calif., Oct. 4.—Lieutenants John A. MacReady and Oakley Kelly, army aviators who hope tomorrow to start successfully a non-stop flight from San Diego to New York, made final preparations today to take off at day-break.

Telegrams were first sent under the sea by cable in 1850, between France and England.

**CORNS**

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—Adv.

**Attend the Majestic Range demonstration at Raabe and Mauger, First and Copper, this week. Prof. Becker cooks from 2 to 4 p. m.**

## MYSTERY CAR IS ADDED TO CLUES IN N.J. MURDERS

Man Says He Passed Sedan About Three Weeks Ago Near the Spot Where the Bodies Were Found.

New Brunswick, N. J., Oct. 4.—A mystery car, with three occupants—two men and a woman—was added today to the conflicting maze of clues among which Midwestern and Somerset county authorities are groping in their efforts to apprehend the slayers of the late Edward Wheeler Hall and his chair leader, Mrs. Eleanor Reinhardt Mills.

A. E. Soper, retired business man of Highland Park, came forward with the story of this car. Nearly three weeks ago, on the night of the murders, Soper told the authorities, he passed a sedan in Delussey's lane, close to the spot where the bodies were found.

He turned his spot light on the car, he said, and observed that it contained two men and a woman. Although he failed to recognize any of the trio, he said, he observed that the woman wore a light coat.

Mrs. Hall is known to have worn a pale coat of light gray on that night when, according to her story, she left her home after midnight to seek her missing husband in his study at the church of St. John the Evangelist.

Mrs. Hall has told the investigators she was accompanied by her brother, "Willie" Stevens, an eccentric New Brunswick character. Witnesses who saw her re-entered her home alone, she turned alone. The Hall's own sedan car, which the minister left in the garage when he went to what proved to be his death tray.

Three more bits of evidence supporting the theory that the minister and Mrs. Mills were on the point of eloping to the Orient when they were slain, also came to light today.

One was a letter believed to have been written by Mrs. Mills only a few hours before she met her death. Authorities withheld the contents of this letter, which it was admitted was found in the dead clergyman's pocket. It was learned, however, that it contained the expression "Oh, the time when I can do your mending."

It is by this that the authorities fix the time when it was written. They have learned, it was disclosed, that the day before the double slaying the minister, Mrs. Hall, Mrs. Mills and Mrs. Minnie Clark, had been on a picnic to Lake Hopalong, and that an incident of the trip was that the minister tore his trousers climbing a barbed wire fence and had Mrs. Hall mend them with a needle and thread she happened to have along.

**Evidence of Plan.**

Another evidence of the supposed elopement plan was contained in a letter from W. C. Minnie, a Hindu occultist of Miami, Fla. Minnie wrote that Mrs. Mills had sent him a letter propounding these three questions:

"Will the minister get a divorce?" "Will he go to a foreign country?" "If he gives up the other woman and goes to the Orient, shall I go with him?"

He said that he had answered her could give her advice which would "do good" if she would buy his book on astrology, but that he had heard no further from her.

The third indication of an elopement plan was conveyed to the authorities in a report of the remark a woman member of the church was said to have made at Mr. Hall's funeral.

"Well, they are taking the minister out of the church," she was reported to have said as the funeral services were concluded. "They didn't get off to Japan after all."

**IMPORTANT TAX DECISION MADE BY HIGH COURT**

Owner Not Entitled to Relief, If Property Is Overvalued, After Authorities Pass on Matter.

Special to The Journal

Santa Fe, Oct. 4.—When property is overvalued, the property owner is not entitled to relief through the courts, after the question of valuation has been submitted to the proper tax authorities, and decided adversely to the owner, the supreme court has decided in an opinion by Chief Justice Reynolds and concurred in by Justice Parker.

This decision is in the matter of the erroneous assessment of property in Luna county, in 1912, and reverses the judgment of the district court in Luna county, the instructions being to dismiss the petition of the property owners.

"This is an action brought by the district attorney of the Sixth judicial district within and for the county of Luna, under code 1915, section 5475 and chapter 101, laws 1919, on behalf of certain taxpayers alleging error in their assessments. After a demurrer by the state tax commission had been overruled and an answer filed, trial was had and the relief prayed for by 16 of the 21 petitioners in the case was granted. From the decree below granting the relief in seven of the 16 cases, this appeal is taken."

"Judgment of the court below reversed, with instructions to dismiss petition."

The syllabus says: "Overvaluation alone is not such injustice as to entitle the taxpayer to relief under code 1915, section 5475, where the value of the property in question has been submitted upon notice and hearing to the taxing authorities, and by them adversely to the taxpayer."

**BISHOP DONAHUE DIES.**

Wheeling, W. Va., Oct. 4.—Right Rev. Patrick James Donahue, bishop of the Roman Catholic diocese of Wheeling, died here tonight after a lingering illness.

The Quebec government has under consideration at the present time a project for the establishment of a school for the teaching of pulp and paper making.

## PRO AGENTS ARE CRITICISED AT DRUGGISTS MEET

'Are Fanatics Who See a Bootlegger Behind Every Bush'; Bogart New President of Association.

Colorado Springs, Colo., Oct. 4.—Frank E. Bogart of Detroit, Mich., today was elected president of the National Wholesale Druggists association in session here, succeeding F. O. Groover, of Indianapolis. The election was unanimous.

Roblin H. Davis of Denver was unanimously elected first vice president. Mr. Davis, an active member of the association for several years, has had charge of all the arrangements for the convention here. Other officers are: A. B. Stewart, Seattle, Wash., second vice president; Warren N. Churchill, Burlington, Iowa, third vice president; H. D. Cowan, Buffalo, N. Y., fourth vice president, and E. H. Demoss of Louisville, Ky., fifth vice president. The new board of control is composed of the following members: D. B. Kilmer, Houston, Texas; Albert H. Van Gorder, Cleveland, O.; and C. Mahlen Kline, Philadelphia, Pa.

The appointment of C. H. Wadsworth of New York city as secretary and of Frank E. Holliday of New York city as general representative, by the board of control, was approved by the convention.

Most of the time tomorrow will be taken up by the reports of committees and installation of officers. The convention will close with a banquet tonight.

In its report read today, the committee on legislation scathingly arraigned the personnel of the federal force of prohibition directors, declaring that most of the directors obtained their positions through political influence and are not men of good business judgment.

"They are fanatics who see a bootlegger behind every bush and lamp-post, and cannot see the difference between alcohol used for industrial purposes and that used illegally."

There was a decrease of 211,424 in the membership of the British Federation of Trade Unions last year, the figure now being 1,371,634.

## WOMAN NEWSPAPER OWNER HAS HOBBY

Lady Bathurst has the distinction of being the only woman in England who owns a newspaper, the London Post, and takes an active part in its management, but she prefers to be known for her fads, the principal of which is the raising of goats for pedigrees.

Lady Bathurst.

## BALTIMORE CRUSHES ST. PAUL IN OPENER

Baltimore, Oct. 4.—Banging out 15 base hits and overcoming a three-run lead which St. Paul secured in the first three innings, the Orioles, champions of the International league, crushed the American association flag winners in the opening game of the little world's series here this afternoon.

With the score standing 4 to 1 in the seventh inning, McAvoy, of the Birds, broke up the game by crashing a home run into the bleachers, scoring Bentley, who had doubled, and Boley, who had walked, ahead of him.

There was had blood between the teams and the game was marred by frequent arguments.

Score: R. H. E. St. Paul..... 4 9 1 Baltimore..... 9 15 1 Batteries: Sheehan, Hall, Martin and Gonzales; Bentley and McAvoy.

## SOX TAKE FIRST GAME IN SERIES TO DECIDE CITY CHAMPIONSHIP

Chicago, Oct. 4.—Eddie Malligan's heavy batting put the American league representatives out in front of their National league rivals in the first game to decide the city championship, the White Sox winning, 6 to 2. It was the thirteenth consecutive victory for the American leaguers over their rivals.

The Sox launched their first heavy attack in the sixth and scored three runs. Percy Jones, who pitched great ball against the White Sox last fall, replaced Aldridge in the eighth but was hit hard.

Faber pitched well, but eased up toward the end with his comfortable lead.

Score: R. H. E. Americans..... 6 19 0 Nationals..... 2 11 2 Batteries: Faber and Schalk; Aldridge, Jones and O'Farrell.

## COAST LEAGUE.

Los Angeles, 6; San Francisco, 4. Seattle, 10; Sacramento, 4. Oakland, 2; Vernon, 1. Salt Lake-Portland, postponed; wet grounds.

## DROWNS WHILE SWIMMING.

San Francisco, Oct. 4.—Rudy Crozman, 22 years old, of Pueblo, Colo., was drowned while swimming in the Feather river near Maryville, Calif., today.

## Rheumatism at 60

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering tonight! The scourge of rheumatism has wrecked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never disarranges the stomach. It is, in fact, a splendid tonic, a blood maker, a blood enricher. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can not go out to get a bottle of S. S. S., yourself, let somebody's mother begin to feel joyful again tonight. Maybe, maybe it's your mother! S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Now glorious you will feel, mother, when your rheumatism is all gone. Let S. S. S. do it. It will build you up, too!

—Adv.

## INCREASE IS SHOWN IN RAILWAY TRAFFIC

Washington, Oct. 4.—Railroad traffic is now almost equaling the greatest volume records ever made, according to a statement issued today by the Association of Railway Executives. In the week ending September 23, 275,291 cars of freight were loaded, a total not exceeded since October, 1920. The car loadings amounted to 85 per cent of the greatest number ever recorded, which was reached during October, 1920.

Along with the tremendous increase in traffic there were the usual indications of car shortage. On September 23, the statement said, shippers had ordered 107,666 cars which railroads were unable to supply immediately. At the same time, scattered at various points throughout the country there were 11,292 surplus freight cars in service.

**JONES AND HINKLE SPEAK.**

Belen, N. M., Oct. 4.—Senator A. A. Jones and James F. Hinkle, candidate for governor, addressed a meeting here tonight. They were travel-worn and almost physically exhausted on their arrival, after their long trip from Gallup. A large crowd greeted the candidates.

The new verb "to coal" has some interesting forms, among which we note "shall we coal?" "Well, we coal!" etc. It all ends, however, with "we may be cold."—New York Sun.

## LEVY MAN PAYS \$210 FOR AN ANGORA CAT

Special to The Journal.

Levy, N. M., Oct. 4.—Two hundred and ten dollars was paid by Sidney Dennis for an Angora cat at the Leatherwood ranch sale near Shoemaker Monday. The cat is a male, two years and six months old, of a pale yellow color, with long bushy fur. It was shown last winter at a cat show in New York city and won a prize of \$200. Mr. Dennis expects to exhibit the animal in New York again this year.

Large deposits of asphalt have been found in the Argentine in close proximity to oil fields. The interesting feature about these asphaltic deposits is that they also contain quantities of vanadium.

New Model

THE UNIVERSAL CAR

**The New Model FORDS Are Here**

Ford Cars Have Never Been as Low in Price-----Ford Cars Have Never Been as High in Quality

The above statements are absolute facts, and this principle of giving the Ford buyer the greatest value per dollar invested is responsible for the remarkable growth of our business

The Present Selling Prices of Ford Cars Have Been Made Possible in a Large Measure Through:

- 1—Sales of a million cars yearly, which permits quantity production on the most economical basis.
- 2—Standardizing on one basic model over a period of years has made it possible to develop automatic machinery for producing parts in quantities at a great saving in labor costs.
- 3—The consumption of raw and finished products at a cost of approximately one million dollars per day, makes purchase contracts

- more attractive to manufacturing concerns, and insures the obtaining the best quality in material at the lowest possible cost.
- 4—The financial strength of the Ford Motor Company not only greatly increases buying power, but also permits taking full advantage of market conditions. The Company has no bonded indebtedness to meet and its resources are always available to use in the development of business.

Over 50 Per Cent of All Genuine Ford Parts Sell for Less Than 10 Cents Retail.

## A STENOGRAPHER'S ROMANCE

BY JANE PHELPS

### AT THE PLAY.

CHAPTER 15.

The tickets gave the two girls orchestra seats in the eighth row. They were early, and the people flocked in, Nellie's remarks often convulsed Cora.

"Oh, dear, why didn't I wear my pale pink chiffon without any neck or sleeves?" she whispered as a large, satisfied-looking blond in an evening dress seated herself in front of them. Then: "Look at that girl, Cora! How does she keep her skirt on? There ain't no waist, nothing but them head straps."

"There's a little waist, dear. Don't talk so loud," Cora cautioned.

"Them men in their waiter's clothes don't look as if they were comfortable," she went on. "See that fat man fuss with his collar."

The curtain went up, so Cora made no answer, frowning at Nellie to keep still. There was no need. She sat on the extreme edge of her seat, her cheeks flushed, her eyes shining. She never had been to a play. She had seen motion pictures a few times, but this was different. This was a beautiful staged play where the people moved about with such grace. And they talked to each other, said things that made people laugh and were such wonderful costumes.

At the end of the first act, almost before the curtain was down, Nellie drew a long breath and in a whisper that could be heard by those near them she breathed: "See! But that was great!"

"Sh—!" Cora cautioned, her face flaming as people turned and smiled at the pretty girl with bobbed hair and big shining eyes.

"For a moment Nellie was quiet. "Cora, it must cost a lot to dress all them people up like that! All those lovely dresses and hats and paraphs!"

"They always have lovely things in musical comedy," Cora answered very low.

"I'll tell the world they do!" Cora was thankful when the curtain again went up, although she flushed again when Nellie asked: "What do the men all go our for? A drink?"

"Sh—!" Cora said again.

## BEAUTY CHATS

By Edna Kent Forbes.

**SUPERFLUOUS HAIR.**

There is one beauty question that is always coming up—"What can I do to be rid of superfluous hair?" It is one of the hardest questions to answer because there is only one permanent cure for this affliction, and that is only possible to women living in large cities. That is the electric needle treatment, which is costly and tedious. I know of no other treatment which I am convinced is permanent, though I know of many for which that claim is made.

If you think the superfluous hairs on your face are really a disfigurement, and if you can go to a really good electric needle specialist, by all means do so. The most up-to-date method is the multiple needle process which claims to remove about fifty hairs an hour, of which only about 10 per cent come back to require a second treatment. The single needle process is really almost too slow to bother with. If you cannot go to a multiple needle process specialist, I would advise you to take half an hour every few weeks, sit in front of your mirror with a good pair of tweezers, and see what you can do for yourself. Some of the new "cures" consist of a variety of medicated wax

which is plastered over the skin while soft and which hardens slightly, holding the large hairs, and even the light invisibles, down with a vice-like grip. The sufferer, whom I think rightly named, pulled off the wax and the hairs are pulled out with it. Some of these preparations are mercifully named with something to deaden the sensation. The hairs, of course, grow in again since only those coming above the surface of the skin have been affected.

M. S. L.: Bobbed hair is as much in favor now as it has been in the past three years.

Billie: Since you dislike milk I do not think it would agree with you to drink it. Try No. 2, get its equivalent in other foods. Take plenty of butter and olive oil in the salad dressing while you try to get a great deal of milk in all of your cooked food.

Margaret: I shall be glad to mail you a diet list and full directions for reducing if you send a stamped addressed envelope, repeating the request.

Mary Jane: As you did not state what color your hair is I cannot advise you how to make it darker.

## Save and Beautify Your Hair With Newbro's Herculicide

Herculicide is best for the hair because of its positive action in scouring the hair, removing dandruff, stopping falling hair.

After an application of Herculicide the high light hair begins to tone up and become healthy. In a few days your hair will be completely transformed.

You will have the beautiful hair you have always longed for. Your hair will stop falling out. Your appearance will be greatly improved.

**Newbro's Herculicide**

Removes Dandruff - Stops Falling Hair

Read what Mrs. Anna Conner (pictured here) says of Newbro's Herculicide.

"I use Newbro's Herculicide daily. It is a wonderful preparation for the hair and scalp. My hair touches the floor!"

What Herculicide has done for Mrs. Conner and thousands of others, it will surely do for you. Begin the use of Herculicide today. You will like it from the first application. Every bottle is guaranteed to all that is claimed for it, or your dealer is authorized to refund purchase price.

## GOOD SOAP FOR LESS THAN TWO CENTS A POUND

Make It At Home By This Easy Process - Takes Less Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap. Soft soap, hard soap, floating soap, just by using kitchen scraps and waste grease together with a can of Merry War-Lye, the safe and sure soapmaker.

In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any work at all—requires no boiling—takes less than 30 minutes. Saves you money and gives

"Makes Mighty Good Soap"

## RESERVOIR DAM SITES ARE NOW BEING CHOSEN

Engineers Are Using Diamond Drills in Piercing the Ground to Determine Foundation Formations.

Tentative sites for the proposed reservoirs in the upper Rio Grande and Chama river have been chosen by state engineers with whom Engineer Gault, of the federal reclamation engineering force, is working and diamond drills were put into use this week in an effort to establish the possibilities of securing good foundations at the chosen sites.

The federal reclamation engineer has been under the employ of the Rio Grande survey commission for some time, as it was the object of the commission to complete every detail of its work in such a manner that it would be acceptable to the reclamation service.

If the testing of the rock formations with the diamond drill proves the preliminary calculations correct, it is probable that the tentative sites for the two storage dams will be accepted and that the dams will be erected in these two places when the project, now under consideration, reaches the construction stage.

The erection of two storage dams, one on the upper Rio Grande and the other in the Chama river, is the first step being considered in the reclamation of the middle Rio Grande valley. It is the hope of those interested that, should the McNary bill pass, the project will be one of the first to be taken up by the reclamation service.

Experts claim that the construction of two such dams would to a great extent solve the water problem as the dams would so regulate the amount of water passing down the river that all danger of floods would be eliminated as would also the "back of water" condition which has obtained in the river this summer. The control of the flood waters would lower the water table, engineers claim, to such an extent that much of the swamp land would be drained. These dams would also eliminate the present expensive river bank protection work and to a great extent solve the Elephant Butte silt problem. The silt now being washed into the reservoir during floods is threatening the complete success of the Elephant Butte project.

## TYPHOID FEVER EPIDEMIC NOT SERIOUS HERE

But 22 Cases Reported in City Since August 4; the Health Officer Believes Peak Has Been Reached.

In spite of the rumors of a typhoid outbreak in this section of New Mexico, figures announced yesterday by Dr. C. C. West, county health officer, show that since August 4 there have been only six cases of typhoid in the county and but twenty-two of these were in the city. In several of these cases, the patient and recovered in many instances is now recuperating.

It was also pointed out that these figures cover every case reported by physicians and that a laboratory analysis might prove several of the cases to be some other type of fever.

"Taking the general situation into consideration, the epidemic has been a mild one," Dr. West stated. "And I believe it has now reached its peak."

Explaining why the general conditions were favorable for an outbreak of typhoid, Dr. West pointed out that the season has been a very dry one and that the irrigation ditches have not had their usual flushing out at this period of the year which has left an unusual amount of filth in the ditches.

Another reason is that the Rio Grande is extremely low, but the city sewage is still being run into the river as the sewage disposal plant is not yet erected. Another reason, according to Dr. West, is that the tourist season has been a heavy one and more than the usual number of workmen have remained here for long periods, due to the abundance of work here in connection with the city improvement and the great building program which is developing in the city.

"As far as Albuquerque's water supply is concerned," Dr. West stated, "the city water is as pure as that of any city in the United States and there is no reason to believe it will become contaminated soon."

## DAVIS, MRS. WARREN, HILL AND LARRAZOLO AT G.O.P. CONVENTION

At the republican county convention, which will be held at the court house on Monday, October 9, S. B. Davis, Jr., candidate for the United States senate; Mrs. Adeline Otero-Warren, candidate for representative in congress; C. L. Hill, candidate for governor; and O. A. Larrazolo, former governor of New Mexico, will make addresses. The addresses will be given immediately after the convention has been called to order and committees have begun their work on the resolutions, credentials, rules and permanent organization. This will be about 10:30 o'clock in the morning, according to the announcement of County Chairman Frank A. Hubble.

**LAWSON SAFE AND WELL.**

Southwest Harbor, Maine, Oct. 4.—Thomas W. Lawson, for whom some anxiety was expressed by close friends in Boston, is safe and well, according to word received from him today by Miss Mary Lawson, his sister, residing at Somerville, Maine.

## HOLD HER "BUSS," OLD BOY, SHE'S REARIN'; CAMERA MAN ALMOST CATCHES SMILE

Buster Keaton, his wife, Natalie Talmadge Keaton, movie stars, and Buster Jr.

Buster Keaton may smile if Babe Ruth smacks one into the stands during the world's series, but the camera man couldn't make him do it between trains in Chicago. Buster and his family were en route to New York for the baseball classic.

## RIPPLING RHYMES

By WALT MASON.

**HELPING OUT.**

Dad Spindle's years are eighty, and he toiled toward his shuck, with a bundle large and weighty nearly ruining his back. I could see his vigor dwindle as he labored up the road, so I said, "Oh, Gaffer Spindle, let me pack your heavy load." So I heaved it to my shoulder and it weighed a half a ton, and I felt a cycle older when the grievous task was done. But it gave me satisfaction if at even- ing he can say, "I have pulled a lot of heavy action in the progress of the day." When the shopworn sun is sinking and the hues of daytime

## EFFICIENT HOUSEKEEPING

By LAURA A. KIRKMAN.

**ANSWERED LETTERS.**

A Column Admirer: "Please tell me if there is a way to remove cinders from the lining of stoves without injuring the lining or breaking it."

Answer: Yes. Burn oyster shells on top of the coal. This loosens the cinders.

Helen M.: "I. What do you think would be a nice gift for a couple on their first wedding anniversary? 2. What will take a blue stain (caused by a stocking) out of a man's soft collar?"

Answer: 1. As the first wedding anniversary is the cotton wedding, it would be suitable for you to give the young couple any article for table use, or home decoration, made of cotton cloth. 2. Try Javelle water (which can be bought at a drug store). If this does not take the stain out, I am afraid nothing will. You see, the stockings have been dyed with such dyes are almost impossible to remove.

Miss E. M. L.: "What kind of paint or enamel shall I use to paint an iron bed walnut color? It is now enameled white."

Answer: I cannot mention trade names in this column, as that would be advertising. But if you will write me a personal letter, repeating your request and enclosing a stamped and self-addressed envelope, I shall be very glad to advise you.

Interested Reader: "Kindly print directions for crocheting a girl's 'tam' or shanter."

Answer: Directions for making a "tam" appeared in this column recently.

Mrs. B. E. B.: "Not long ago one of your readers asked for directions for rickrack edging. Here are mine: Chain 6, 4 d c in 3rd st. from hook. Chain 2, 1 d c in same stitch. Chain 3, 1 tr in end of first chain. Chain three, turn. Second row: 5 d c under 2 ch of last row. Ch 3, turn. Third row: 4 d c between last 2 d c. Ch 2, 1 d c in same place. Chain 3, tr in first d c of preceding row. Ch 3. Repeat from 2nd row."

Answer: Thank you, reader friend. I am sure all of our readers enjoy trying such excellent contributions.

Mrs. S.: "I am 35 years old and here is my method of canning corn, which I have used for years with good results: Nine cups of corn cut fine from cob, one cup of sugar, a scant quarter of a cup of salt, two cups of boiling water. Boil all together for 12 minutes (adding water to boil). Put in jars piping hot. Seal at once. I have never lost a jar."

Answer: It was good of you, reader friend, to send me your recipe to publish. I am sure it will be appreciated.

KEEPS THE ROSES IN YOUR CHEEKS

Men and women seeing you for the first time are impressed first of all by your face—your complexion. If it is soft, smooth, velvety and of rose-petal texture, they cannot help but admire, for you are attractive, adorable and lovely.

Keep the roses in your cheeks. You can with the aid of Nadine Face Powder, now in the new blue box—for Nadine gives your complexion an adorable loveliness.

Nadine makes your skin soft, smooth and velvety and lends that alluring fragrance of a flower garden. It gives your skin a refreshing coolness. Nadine, too, adheres until washed off, and gives protection from tanning sun and withering winds.

If not pleased, we will refund your money. Price 50c. at your toilet counter. If temporarily out, by mail, or send 4c. for miniature sample box. White, Flesh, Pink, Brunette.

National Toilet Company, -- Paris, Tenn.

## HUNDREDS MISS DINNER TO SEE WORLD'S SERIES

Game as Played on The Journal's Electric Score Board Draws a Crowd; Young America on Deck.

Several hundred Albuquerqueans yesterday attended the world series. Of course the game was not played here. It was staged at the Polo grounds in New York between the Giants and Yankees. But Duke City fans gathered in front of the Morning Journal's electric score board and saw the game progress play by play as the report was received direct from the field of battle over the Journal's special wire.

It was announced that the umpire would start the fracas at high noon, but long before that hour the crowd began to assemble here. Among the first arrivals were a number of urinals, apparently not yet in their teens, who probably had played hockey from school or even satisfactory excuses for their absence from the institution of learning. By the time the game started there was a large crowd on hand, including men, women and a liberal representation of the tribe of young America, most of the latter occupying what in theater parlance would be the "bald headed row."

For the first five innings, while neither side registered anything but goose eggs, there was not much occasion for cheering, except when some idol on one team or the other made a brilliant play. In their half of the sixth the Yankees shoved one runner across the plate and the admirers of the Hugmen perked up, let out a yell, and the spirits of the McGrawite supporters seemed to hit the toboggan. In the seventh inning the Yankees chalked up another run and the loyal Yankee rooters saw visions of a 2 to 0 finish.

In the eighth inning, however, the Giants' mock began to look up when Bancroft, Groh and Frisch singled, one, two, three, just like that, and the bases were dripping. Then up came Meusel, who singled over second, Bancroft and Groh racing home and Frisch stopping on third. Young sent a sacrifice fly to Witt, and Frisch scored. The next two batters whiffed the wind. The Yankees were unable to score in their half of the ninth and so the game ended, the score standing 3 to 2 in favor of McGraw's clan.

Probably more tired business men went without their lunch yesterday, while taking an hour off

## PASSAGE OF THE 'BLUE SKY' LAW IS OPPOSED

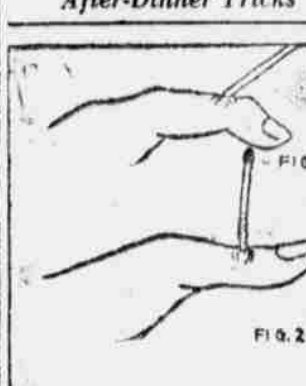

Chicago, Oct. 4.—With the election of a new president and the adoption of resolutions which declared against the continuance of the tax exemption privilege for securities and also against the passage of the Dennison "blue sky" law by congress as unfair to farm mortgages, the ninth annual convention of the Farm Mortgage Bankers' association of America ended today.

The new president is J. W. Wheeler of St. Paul.

Another resolution pledged the association's support to a proper application of the principle of co-operative marketing, which it designated a remedy that will aid in a large way in the solution of the financial problems of farmers.

The scores will be received daily, beginning at 12 o'clock, and the bigger the crowd in front of the Journal office the better the Journal will enjoy the series. So come along all you fans and enjoy yourselves with the Journal.

## After-Dinner Tricks

No. 3—Balance a Match on the Thumb

To balance a match on the back of the thumb seems an impossible task, but it is not difficult if one knows the secret. The thumb is bent inward and the base of the match is pressed against one of the creases at the knuckle. The thumb is straightened and the match will be held upright by the crease, although a slight movement of the hand may be found necessary to maintain the balance.

## ORDERED TO EVACUATE

Paris, Oct. 4.—A special dispatch from Ankara says that orders have been issued to the Turkish military commands to evacuate the neutral zones in Asia Minor immediately. The Turkish cavalry already has begun to withdraw from the Dardanelles section.

Excluding accidents in mines, quarries, building and other construction work, and railways, about 1,000 persons are killed and 150,000 injured by accidents in the factories and workshops of England each year.

## Weakened Arches Grow Strong In

The Modese Shoe Made by J. & T. Cousins Co.

## "La Gourde du Poete" Aux Parfums Exquis PARIS

These small "Gourdes", as we are showing them, in plain or striped glass, contain the most exquisite perfumes; released a drop at a time when the "Gourde" is inverted or shaken. They are available in varied sizes.

Packed in beautiful satin-lined coffrets, they constitute, with their different contents and varied colors, a most attractive and novel article which may be used as birthday gifts and favors for parties of all kinds.

In clusters of twelve, or loose, they lend themselves to unlimited usage. They also lend great charm to the appearance of Milady's boudoir, when set on the dressing table, where they should hold a prominent place for their beauty, attractiveness and usefulness.

ASK THE WOMEN WHO WEAR THEM

## Fur Chokers at \$5.00 to \$65.00

A most popular part of the autumn and winter costume; more favored this season than ever before.

We offer them within the price range above, in Zibet cat, toupe and brown fox, raccoon, squirrel, mink, Fitch, and stone Martin.

## A New Line of Very Fetching Jersey Frocks

One of the most attractive lines of dresses we have ever offered at a popular price; made with the popular side-plaited skirts, Balkan blouse, square neck, lace trimmed, and with long sleeves finished in most pleasing and novel cuff effects.

These charming little dresses are as practical and useful as they are pleasing and will be found a very unusual value at

**\$13.95**

**ROSENWALD'S**

S & H Green stamps with every purchase.

## U.S. OPPOSED TO WIPING OUT ALL FOREIGN DEBTS

Treasury Officials of the Opinion That Such a Step Would Be Injurious to Welfare of World.

Washington, Oct. 4.—Recommendations of Reginald McKenna, former chancellor of the British exchequer, before the American bankers association in New York of the advisability of definite postponement of payments to this country on war debts by foreign nations, except Great Britain until the amount such nations could ultimately pay could be determined, was regarded at the treasury today as merely stating the status quo of negotiations by the debt funding commission so far as interest is concerned. Concerning the reduction of the principal of foreign debts as suggested by the British financier, high treasury officials declared that the commission was entirely governed by the wishes of the government with in the present law authorized the commission to arrange for the payment of the war time obligations upon suitable terms.

It has been tacitly admitted by the treasury that Great Britain alone was expected to begin the payment of interest on her \$5,000,000,000 debt on October 15 when the first installment since the expiration of the three-year deferred period falls due and negotiations by the debt commission were said to be proceeding on the theory of ascertaining when and on what terms the other debtor countries might start the liquidation of their obligations.

As to the principal of the debts, it was conceded that after investigation by the debt commission and conferences with foreign representatives the facts as to conditions in some particular nations might be laid before congress with a view of having the commission empowered to make such terms as would enable payment. But as to any general cancellation or wholesale reduction of foreign debts treasury officials were of the opinion that such a step would be injurious to the welfare of the world.

Any action which could be construed as a repudiation of an external debt by a sovereign government, it was explained, would work irreparable harm to the credit of that nation while cancellation by a number of countries would multiply lack of confidence in governmental obligations.

On the other hand, it has been indicated at the treasury that there is no disposition on the part of the United States to press for payments of its foreign debts in the manner of a harsh creditor. Payment by Great Britain has been regarded as unquestionable and treasury officials have given the impression that France and some of the other more important nations could be relied upon to meet their obligations under carefully worked out funding arrangements. But as to some of the smaller and poorer foreign debtor nations there have been indications of willingness on the part of this country to treat with leniency where necessary.

Up to less than seventy years ago all soap manufactured in England was made in bond and subject to duty—as in the case of whisky today—and each boiling-pan was fastened down at night by an excise officer.

## If Piles, Send For Pyramid

Pyramid Pile Suppositories Are Known Everywhere for the Wonderful Relief They Have Given.

If you are one of those unfortunate sufferers struggling with the pain and distress of itching, bleeding, pro-

truding piles or hemorrhoids, ask any druggist for a 50 cent box of Pyramid Pile Suppositories. Take no substitute. Relief should come so quickly you will wonder why anyone should continue to suffer the pain of such a distressing condition. For a free trial package, send name and address to Pyramid Drug Co., 620 Pyramid Bldg., Marshall, Mich.

—Adv.

## Skin Eruptions Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujo because it acts like this natural lubricant and thus replaces it.

Nujo is a lubricant—not medicine or laxative—so cannot gripe. Try it today.

A LUBRICANT—NOT A LAXATIVE

## FATAL INFLUENCE HAUNTS YOUNG WIDOW NOW HELD IN STARTLING DEATH MYSTERY

Clara Skarin Winborn.

Oakland, Cal., police are probing the crowded past of Mrs. Clara Skarin Winborn, held in connection with the mysterious murder of her aged guardian, Ferdinand Hochbrun, in Seattle last spring. Her friends say a strange influence has shadowed her from childhood.

## CANDIDATES ARE QUERIED BY THE WOMEN VOTERS

Men Running for Major State Offices Receive a Questionnaire Sent Out by Albuquerque League.

Questionnaires to the candidates of both parties for the offices of governor, lieutenant governor, U. S. senator and congressman have been sent out by the Albuquerque League of Women Voters, a branch of the national league, for the purpose of learning the stand of the candidates on matters of state importance. Others will be sent later to the candidates for the minor state offices.

"The Albuquerque League of Women Voters is very much interested in your attitude toward the measures included in the following questionnaire," says the accompanying letter to the candidates. "We do not endorse candidates as an organization but we do gather as much information as possible to aid in intelligent voting."

The questionnaire sent to the candidates for the governorship follows:

1. If elected will you advocate that tax assessors be appointed by the state tax commission and hold their offices during good behavior and proof of competency, so they will be beyond reach of the political influence of all tax dodgers?

2. Or have you some better plan for bringing the property assessments of this state up to where they should be?

3. If elected will you use all possible influence and authority to have the Volstead act enforced, and remove from office all officials who fail to perform their duty in connection therewith?

4. Will you use your influence to secure the enactment of a law prohibiting the sale of obscene literature in the state?

5. We are wording this question in an extremely definite manner because there are numerous adherents of each party assuring doubtful voters that their particular candidates are the ones that favor most strongly a direct primary law without reservations and at once.

6. Do you intend to advocate during your campaign, and, if you are elected, do you intend to recommend in your first message to the legislature, and use every influence at your command to secure this enactment, at once, of a law providing that candidates for all elective offices in the state shall be nominated by direct primary?

7. If not, will you please tell us your attitude toward this matter?

8. Are you in favor of a drastic corrupt practices act?

9. To each candidate for lieutenant governor the following was sent:

10. If elected will you advocate that tax assessors be appointed by the state tax commission and hold their offices during good behavior and proof of competency, so they will be beyond reach of the political influence of all tax dodgers?

11. Or have you some better plan for bringing the property assessments of this state up to where they should be?

12. If elected will you use all possible influence toward having the Volstead act enforced?

13. Will you use your influence to secure the enactment of a law prohibiting the sale of obscene literature in the state?

14. If elected do you intend to use your influence for the enactment at once of a law providing that candidates for all elective offices in the state shall be nominated by direct primary?

15. Are you in favor of a drastic corrupt practices act?

16. Candidates for senator and congressman received the following questionnaire:

17. Are you in favor of a state-

wide direct primary law, without reservation, for the state of New Mexico?

18. If elected will you use your influence and vote against repeal or change of the Volstead act?

19. We realize that child labor reform will not be accomplished in a really adequate manner within the near future. But will you, in the meantime, administer first aid to the thousands of children who are being tortured and deformed this very day, by supporting whatever constitutional amendment or law shall be advocated by the recently formed "Permanent Conference for the Abolition of Child Labor" so that the children shall suffer as little as possible while this gigantic problem is being solved?

20. The decision of the above-named conference will represent the best co-ordinated effort of all the organizations working for child labor reform.

MAJESTIC RANGES ARE VERY POPULAR

The Whitney Hardware company are today installing in the La Esperanza hotel, Jemez Springs, N. M., a large two-oven "Majestic Smokeless Range." And here's another: The Whitney Hardware company yesterday installed in the Sigma Chi Fraternity house at the University of New Mexico a "Majestic Family Range."—Adv.

## TRIAL TUBE FREE TO MEN SEND COUPON

## To Good Fellows

Test what I made for you

I've spent a lifetime studying soap. This laboratory has spent 60 years perfecting soap. The leading toilet soap of the world—Palmolive—is one of our creations.

Now we have a shaving cream which excels all others in five ways. It is our pride. Be kind enough to test it for ten shaves.

Tried 130 times

This was a difficult problem. First, we asked 1,000 men what they wanted. Then we tried 130 times to meet those wants completely. It took us 13 months.

But now we have these things.

A soap that multiplies itself in lather 250 times.

A soap that acts in one minute. No finger rubbing, no hot towels, no waiting. Just apply it and go ahead.

A lather that maintains its creamy fullness for ten minutes on the face.

Bubbles that don't break. They keep the hairs supported while you cut them.

A soap that leaves the face in fine condition, because of palm and olive oils.

Possibly you use another soap. It satisfies you, perhaps. But give us a hearing, please. We have tried to serve you better than others. See if we have succeeded. Mail the coupon now.

## COORS ELECTED TO LEADERSHIP OF DEMOCRATS

County Committee Organizes After Convention; Stephen Roehl Is Selected as Secretary.

Following the county convention yesterday evening, the newly selected democratic county committee met and elected Henry G. Coors chairman and Stephen Roehl secretary. Mr. Coors, who had been serving for the past few weeks as chairman following the resignation of W. C. Oestreich, was prevailed upon to accept the chairmanship against his protest. A meeting of the committee, with the county candidates, will be held this morning at 9 o'clock at the chamber of commerce. A woman vice chairman will be chosen at that time.

Following is the personnel of the county committee, as named yesterday, one man and one woman from each precinct:

Precinct 1—Gregorio Durand, Anita Apodaca.

Precinct 2—Eduardo Sanchez, Anita G. Sanchez.

Precinct 3—Justo Trujillo, Rosenda de Cordova.

Precinct 4—H. H. Zamora, Mrs. Stephen Roehl.

Precinct 5—T. A. Lucero, Mrs. T. A. Lucero.

Precinct 6—Nepomuceno Padilla, Sofia Sanchez.

Precinct 7—Abenico Gutierrez, Teresita Olguin.

Precinct 8—E. W. Yont, Amalia Herrera.

Precinct 9—Adolfo Maldonado, Victoriana Maldonado.

Precinct 10—Patricio V. Sanchez, Mrs. J. P. Conboy.

Precinct 11—C. Heacock, Mrs. O. A. Corson.

Precinct 12—Charles Mann, Mrs. Andres Moya.

Precinct 13—Vicente Lasco, Olga Gutierrez.

Precinct 14—C. T. Adams, Mrs. W. B. Jones.

Precinct 15—Daniel Herrera, Genova Paz.

Precinct 16—W. C. Oestreich, Mrs. Cleghorn.

Precinct 17—Stephen Caldwell, Lizette Garcia.

Precinct 18—Francisco Gonzalez, Epemina G. Gonzalez.

Precinct 19—Jose Sedillo, Virginia E. Mora.

Precinct 20—Roberto Chavez, Mrs. E. E. Booth.

A few precincts which failed to name their committeemen yesterday, are expected to turn in the names today.

In each precinct, the first named is the precinct chairman.

FAKE MOTORCYCLE COP OPERATING ON PIKE IS ARRESTED

G. H. Franklin, charged with impersonating an officer and bothering tourists on the Fourth street road, was fined \$15 in police court yesterday. Franklin, in company with another boy, who was released of the charge, followed a party of tourists and spoke to them about the speed limit laws. Later, in an argument which took place, he threatened to arrest them and claimed he was an officer.

And here's another: The tourists reported the matter to police headquarters upon arriving in the city and police soon placed the two young men under arrest. They both claimed they had not said they were officers.

## GUSHER WELL IS DRILLED IN THE SAN JUAN BASIN

Pioneer Well of the Midwest Refining Company Near Farmington Said to Be Big Producer.

What Robert G. Dill, writing in the Denver Post, declares to look like the largest oil field to be located in the Rocky mountain region has been opened by a test well drilled by the Midwest Refining company on the Navajo Indian reservation about fifteen miles southwest of Farmington, and which came in a few days ago with an initial flow of from 500 to 1,000 barrels.

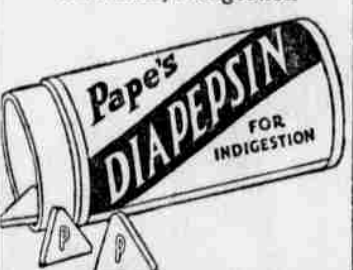

The well is located on the Hogback structure and has been capped while tankage is being rushed to the location. Company officials, who have just returned to Denver after inspecting the well, have refused, it is reported, to state exactly what they figure the well will do when allowed to flow.

The dome, it is reported, covers about 23,000 acres of land. The locality has been prospected several times, but has heretofore given up nothing but gas and abandoned holes.

Oil in the new well was located at approximately 800 feet in the Dakota sand which is a heavy producer throughout the Wyoming fields. Similar domes are reported to exist in the San Juan basin for a distance of more than 100 miles westward into Utah and fifty miles eastward into New Mexico.

## STOMACH BAD !! MEALS SOUR OR LAY UNDIGESTED

Instantly! End Flatulence, Gas, Heartburn, Indigestion

Chew a few! Stomach fine! So pleasant, so inexpensive, so quick to settle an upset stomach. The moment "Pape's Diapepsin" reaches the stomach all pain and distress from indigestion or a sour, gassy stomach vanishes. Millions know its magic. All druggists recommend this harmless stomach corrective.—Adv.

## Madam, Raisins Cost Less Now

So Get Their Benefits and Their Flavor in Scores of Attractive, Money-Saving Foods

Not More Than 20c

Your retailer should sell you Sun-Maid Seeded Raisins in 15 oz. blue package for not more than 20c.

Not More Than 18c

Your retailer should sell you Sun-Maid Seedless Raisins in 15 oz. red package for not more than 18c.

DUE to greatly increased crops, even though production costs are still much higher than in pre-war days, raisins now cost almost as little as before the war.

Use this luscious, energizing, healthful food lavishly, therefore, in scores of "plain foods" like rice pudding, boiled rice, bread pudding, Indian pudding, and in cake, cookies, pie, and with the children's cereals, to give them "luxury flavors" at "plain food" costs.

Raisins are both good and good for you.

So take advantage of these lower prices now.

## Sun-Maid Raisins

Seeded—Seedless—Clusters

New 11 oz. Package

Your retailer should sell you Sun-Maid Seeded and Seedless Raisins in 11 oz. packages for not more than 15c.

Packed under most sanitary conditions in fresh, clean cartons. Very highest quality. Insist on Sun-Maid Brand, the kind that you know is good.

## Good Morning!

That window pane is taxed 400 per cent more under the new tariff.

Republican protection—in this case from rain, snow, wind, dust, cold—comes high.

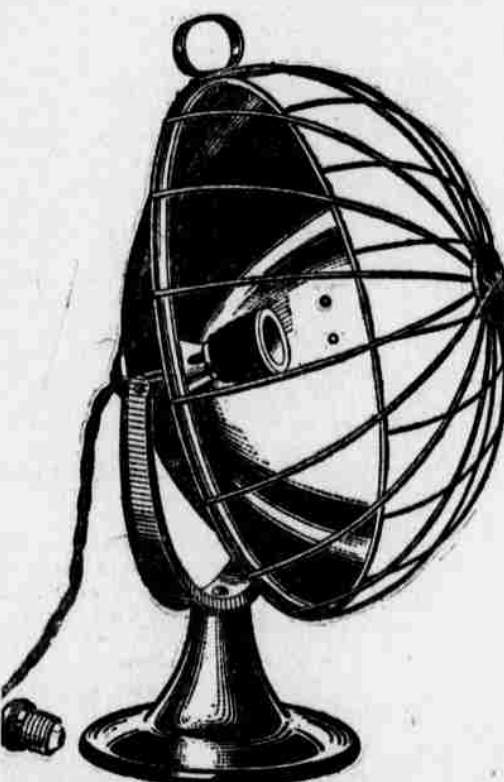

JONES for Senator

MORROW for Congress

HINKLE for Governor

(Political Adv.)

## For Winter Comfort Get a Simplex Electrical Sunbowl Radiator

The Simplex Sunbowl Radiator brings the glow of sunlight to the gloomiest and chilliest of mornings and summer warmth wherever you need it in the house.

Just take the Sunbowl into the nursery, bathroom, dining room or bed room, attach its long cord to the nearest electric convenience outlet or lamp socket and let its glowing warmth chase away the chill.

Morning or evening, play time or bed time, little folks and big folks are entitled to the comfort and well-being that comes from the Sunbowl's healthful warmth. The cost is moderate indeed. Your dealer will be glad to show you the Simplex Sunbowl Radiator. Ask for it by its full name: Simplex Sunbowl Electric Radiator.

Mrs. Harold Kirkpatrick of Lafayette, Ind., is visiting her mother, Mrs. William Henry Long. She will be here for three months.

K. G. Kartchner, supervisor of the Manzano national forest, has returned from an official trip to Mountainair.

George M. Post of the U. S. Indian irrigation service, was in the city yesterday from Laguna where he is in charge of a project.

Mr. and Mrs. A. D. Ogle have returned home after a vacation of six weeks, spent in and near Detroit, Mich. They drove back from Detroit in their automobile, accompanied by Miss Ruby Peel.

Dr. D. R. Murray, Osteopathic and Violin-ray treatments. Phone 741.

**MAN PINS FAITH ON "13" AND IS WINNER OF CAR**

A firm believer in the theory that there is no "jinx" connected with the number "13," Henry G. Galling, 209 North High street, put his theory into practice last night at the Elks' circus. The result was all that could be desired. He is now the possessor of a new Ford sedan, one of the six being distributed by the Elks during circus week.

Galling, who is a young attorney and has come to Albuquerque on account of his health, which is now beginning to need but little attention, purchased a book of circus tickets.

He looked at the book for a while and then counted down to the thirteenth ticket and handed it in at the gate. The number was 5993, series "O." It was the ticket drawn from the thousands contained in the barrel.

**CAID OF THANKS.**  
We wish to extend our thanks to the people of Albuquerque for their kindness and also for the beautiful floral offerings during the recent illness and death of our two babies.  
MR. and MRS. S. A. MARTIN.

**W. C. THAXTON IS TO ERECT A NEW BUILDING SOON**

Purchases Two Lots on West Gold Avenue West of the Federal Building; Ground Floor Planned.

W. C. Thaxton yesterday completed the purchase of two lots recently owned by Catherine B. Batts on west Gold avenue directly west of the federal building. The deal has been under negotiation for some time.

It is the intention of the purchaser to erect a large one-story office building on the site in the near future. The building, plans for which are now being drawn by local architects, will be so constructed that additional stories can be added at a later date.

"I feel that although several new office buildings are being erected or planned, they will not meet the demand for modern office room in the city and that there is now and will continue to be a strong demand for modern offices, especially ground floor rooms," Mr. Thaxton stated last night.

The exact size of the new building has not yet been determined, but it is probable that it will extend over the entire frontage of his two lots on Gold avenue.

**FIRE DESTROYS TWO BUILDINGS AT MOUNTAINAIR**

J. J. White Mercantile Company and Weitz Meat Market Suffer Heavy Loss; Others Damaged.

Special to The Journal. Mountainair, N. M., Oct. 4.—A loss of \$50,000, with about \$30,000 insurance was caused here early today by a fire that destroyed the building occupied by the J. J. White Mercantile company and badly damaged the building adjoining, occupied by a meat market and pool hall and owned by Charles Weitz. Another building occupied by a restaurant and barber shop operated by Sam Elsenhart was somewhat damaged. An adobe wall in the Weitz building prevented the flames spreading farther.

The cause of the fire is not known. It was discovered by Mrs. White, who, with her husband, lives in an apartment in the rear of the store.

Volunteer firemen fought the fire and doubtless saved buildings in the remainder of the block.

**AUTHORIZE ADDITION COSTING \$125,000 TO THE PRINTERS' HOME**

Colorado Springs, Colo., Oct. 4.—With the construction of a \$125,000 addition to the Union Printers' home, authorized by the board of trustees, in session here this week, the home will be enabled to care for cases of helpless persons, sufferers from locomotor ataxia, paralysis and like ailments. Superintendent John C. Bailey announced today. Heretofore the institution, which is operated by the International Typographical union, has barred such cases. The addition will be three stories in height and will provide sixty beds.

Goldwyn presents

**Come On Over**

by Rupert Hughes

with Colleen Moore

Directed by Alfred E. Greene

But every letter HE wrote told of another job he'd lost, so she came unbidden.

First thing she found was that her sweet-heart has promised to meet another girl at the priest's.

That was enough to get her "Irish" up. It'll cause you more laughs than you ever laughed before.

It's human—homely—and a howl.

Share Dear, Will you never be sending for me to come to America?

I'm eating my heart out with love and longing

Your Lonesome, Mayna
