## THE PRESIDENT AT BARSTOW

### California Giving Roosevelt Rousing Reception.

#### DOCTORS WATCH SURGICAL OPERATION

#### Methodist Episcopal Church Refuses to Change Name.

Barstow, Cal., May 7.—President Roosevelt, who entered California last night, made his first speech in this state here this morning. The stop here was for ten minutes and the president's address was brief. Secretary of the Navy Moody and Benjamin Ide Wheeler, president of the University of California, will join the president at Redlands today and go through the state with him. Governor Pardee, also, will meet the president at Redlands today and will formally welcome him to the state.

#### California Welcomes Roosevelt.

Redlands, Cal., May 7.—President Roosevelt and his party today had their first taste of the hospitality of California. Governor Pardee and the California congressional delegation met the president here in the beautiful San Bernardino valley, at 9 o'clock this morning and welcomed him to the state. It was here that the president got his first idea of the wonderful treat that awaited him. Through an avenue lined with palms and Venetian masks he drove over beds of roses, beneath a triumphal arch of flowers and fruit to the Casa Loma hotel, on the balcony of which the exercises took place. A short drive through the orange groves and parks followed. All along the route of the drive women showered the president and his party with flowers and through the streets they bombarded him from windows until the air was a perfect maze of color. After three pleasant hours spent here the president special, accompanied by the California party, resumed the journey to Los Angeles. Brief stops are scheduled en route at San Bernardino and Riverside.

#### San Francisco Prepares.

San Francisco, May 7.—San Francisco is making the most elaborate arrangements for the reception and entertainment of President Roosevelt next week. The program in some respects will resemble that carried out at the time of the late President McKinley's visit. The latter, however, came to attend the launching of the battleship Ohio, and this event was necessarily the chief feature of the program. With the visit of President Roosevelt the case is different, and the entire time of his stay in the city will be given over to features of entertainment. From preparations now in progress it is safe to assert that the city will be illuminated as never before. Great arches of artistic design will span the chief thoroughfares of the business district and the streets everywhere will be strung with varicolored electric bulbs.

There will be a military parade on a gigantic scale and a big reception so that all may see the president. On Wednesday the speech to the people of California will be given and the occasion will be marked by a magnificent display of fireworks. The Grand Army will hold their annual encampment here during the week. This will bring many visitors to the city from various parts of California and Nevada. Passenger officials of the railroads forecast one of the largest crowds ever entertained in San Francisco.

#### Doctors Watch Surgical Operation.

New Orleans, May 7.—Five hundred doctors gathered at the charity hospital today to witness a demonstration by Dr. Adolph Lorenz in his method of bloodless surgery. There was an unusual attendance of crippled children and their parents, the latter anxious to have their little ones selected as subjects. Some of the scenes were affecting.

#### Cane Growers Meet in Macon.

Macon, Ga., May 7.—The convention of cane growers of the United States, which opened in Macon today is the largest gathering of its kind ever held in this country. Louisiana, Florida, Georgia and other states where the industry flourishes are well represented, and in addition there are many agricultural authorities from Washington and elsewhere in attendance. The sessions are to continue through tomorrow. Secretary of Agriculture

Wilson is to address the convention on the subject, "The Relationship of the Agriculture Department of Southern Agriculture." Dr. H. W. Wiley, of the United States department of agriculture, will speak of the history and development of the beet sugar industry. Dr. W. C. Stubbs, director of the Louisiana experiment station, is down for an address on "Cultivation and Manufacture of Sugar Cane in the United States and Foreign Countries." Other persons of prominence who are expected to address the convention are Governor Terrell of Georgia, Senator A. S. Clay, and Chancellor W. B. Hill of the university of Georgia.

#### Refuse to Change Name.

Washington, May 7.—The commissioners of the Washington diocese of the Protestant Episcopal church appointed yesterday to consider the advisability of changing the name of the church in the United States reported today adversely to the proposition. The report was debated at length by the convention.

#### Riot in Iowa.

Council Bluffs, Iowa, May 7.—A small riot occurred on Main street today as the result of striking teamsters attempting to force a non-union driver to return to the barn with the team. The driver's team was stopped three times by a large crowd of strikers who finally forced him from his wagon and clubbed him. Another driver drew a revolver and was arrested.

#### POWERFUL GUN.

New Weapon for Use of the Regular Army.

Washington, May 7.—The army board which has been for months past considering the merits of the new service rifle or musket has finally declared in favor of a weapon with a barrel on only twenty-four inches in length, using a 30 ball. The new gun is a remarkable weapon according to the ordinance officers, for while it is four inches shorter than the Krag and only two inches longer than the carbine, it is more powerful than either with a higher initial velocity and flatter trajectory.

#### DEATH OF H. R. ELWELL.

Occured This Morning From Pneumonia at His Residence.

AT THE AGE OF SIXTY-EIGHT.

The death of H. R. Elwell, which occurred at the residence on West 60th avenue, at 8:30 o'clock this morning, marks the passing of an old and respected citizen. An acute case of pneumonia was the cause of his demise, and he was ill only ten days.

He was 68 years of age, married, and the father of three children, all grown-up young ladies. His family survive him.

The deceased and his family moved to New Mexico from New York in the early '90's and engaged in the hotel business at Socorro. He later moved to Albuquerque, and since has been engaged in a mercantile brokerage business.

The funeral services have not been decided on and will not be until a sister and daughter residing in New York can be heard from. Interment will be made at Fairview cemetery.

#### Church Workers in Conference.

Washington, May 7.—The national convention of the Methodist Protestant Denominational Christian Endeavor society begins in Washington this evening, and, judging from the excellent program arranged and the large number of visitors on hand, the gathering will be one of the best ever held by the organization. Those in attendance come from all parts of Pennsylvania, Ohio, Maryland, Virginia,

West Virginia and several other states. Prayer and praise services, sermons and addresses by well known divines and others, reports of officers and committees, and discussions of the missionary and other work carried on by the society make up the program, which covers three days.

#### Strike in Indiana.

Indianapolis, May 7.—Five thousand union workmen are on strike around Bedford and the stone industry is completely tied up. The strikers include planers, saw operators, engineers and quarry men. The men ask to have their wages equalized in all the quarries.

#### Newcomb Goes Abroad.

Washington, May 7.—Professor Simon Newcomb of this city sails on the Deutschland today to begin arrangements for the international congress of scientists, to be held next year during the exposition at St. Louis. He will visit Paris and London, where he will meet many scientific men and perfect plans for the congress.

#### Boy Committed Suicide.

Denver, May 7.—The family of Frank C. Goudy are mystified as to the cause of the suicide of their son, Marshall Gebhart Goudy, in Salt Lake yesterday. According to a dispatch received here young Goudy, who was only twenty years old, first took a dose of strychnine and then cut his throat with a piece of a water pitcher. Discouragement is the only reason that can be assigned for the deed.

#### ENCAMPMENT CLOSED.

The Old Soldier Boys Conclude Convention Last Night.

#### A BANQUET WAS SERVED.

The twentieth annual encampment of the Grand Army of the Republic of the department of New Mexico closed last evening in Knights of Pythias hall with a large attendance of comrades and ladies of the Relief Corps.

The officers, who were elected yesterday morning and the list printed in The Citizen yesterday afternoon were installed last night by Past Department Commander John Y. Hewett, of White Oaks, after which interesting remarks were made by Comrades Stewart, of Springer; T. C. Heman, John A. Brown, Judge W. D. Lee, John Y. Hewett and Smith Simpson. Mrs. Emma C. Whitson, president of the local Woman's Relief Corps, spoke for that body in a pleasing way.

Department Commander J. W. Edwards appointed the following on his staff: Assistant Adjutant General and Assistant Quartermaster General—W. W. McDonald, of Albuquerque. Medical Director—T. B. Thompson, Sedgwick post, Raton. Inspector General—G. W. McCoy, Post 15, Aztec.

The places of judge advocate general and mustering officer were not filled, but will be later. A delicious banquet was served at the close of the exercises, in which everyone did ample justice to the inner man. There was music, both instrumental and vocal, to make the evening enjoyable, as well as old war songs. The twentieth encampment was a most successful one from start to finish. All honor to the boys in blue who saved the union. God bless them!

#### Farewell to Bishop Glennon.

Kansas City, May 7.—As a testimonial of their esteem and affection the Roman Catholics of the Kansas City diocese will give a banquet at the Midland hotel tonight in honor of Bishop J. J. Glennon, who is about to take up his new duties as Coadjutor Archbishop of St. Louis. The banquet will be a notable affair of its kind, covers being laid for more than 500 guests. Those who have accepted invitations to respond to toasts include Bishop Hogan of Kansas City, Congressman Coward Mayor Reed and others of prominence.

#### Prohibitionists Meet.

Sioux Falls, S. D., May 7.—Prohibitionists of South Dakota and adjoining states are rounding up here for a two days' conference, the purpose of which is to discuss ways and means for spreading and making more effective the warfare against the liquor traffic. Several speakers of note are to be heard at the opening session, which takes place this evening. Tomorrow "Prohibition in Colleges" will be the topic, and in the evening there will be an oratorical contest in which representatives will be heard from the prohibition leagues of Northwestern colleges.

## OMAHA STRIKE

Large Firms Preparing to Resume Business.

#### AN IMMENSE TRANSVAAL LOAN

Morocco Rebels Gain Decisive Victory Over Sultan's Forces.

#### ELECTRIC CAR ACCIDENT IN CHICAGO

Omaha, May 7.—All the larger firms of the city affected by the strike of teamsters and their sympathizers prepared to get their business started today under protection of the injunction issued by the federal court. At a meeting of the business men's association last night it was decided to wait the result of the injunction before taking further action. The restaurant men also held a meeting and it was given out that they could do nothing until they could move supplies of provisions. None of the large restaurants were open this morning and they will probably remain closed today.

#### Transvaal Loan.

London, May 7.—The Transvaal loan of \$175,000,000 will be issued at par with interest at 3 per cent. It is redeemable in 1953.

#### Morocco Rebels Win Victory.

Melilla, Morocco, May 7.—The rebels have defeated the imperial forces after ten hours fighting near Fez and have captured the positions held by the sultan's troops. All their tents and much loot. Both sides lost heavily.

#### DISTRICT COURT.

Several Important Cases Disposed of by the Court.

#### ONE DIVORCE GRANTED.

The district court was again in session this morning and some little work was ground out.

Judgment for \$573 was rendered against the defendant in the case of Field & Co. vs. Nicholas Zamora upon a promissory note.

The case of R. del Valle against his wife was tried. He wanted a divorce and possession of their four-year-old boy. The ground set up was abandonment. The plaintiff said he had provided for his wife as a dutiful husband should, and that he was a proper person to have the possession of the boy. His wife denied that he was a fit person to have possession of the boy. There was not much contention on the question of divorce, the main fight between the parties was for the possession of the boy. R. del Valle said his wife treated the boy cruelly, whipping him until he was black and blue; that she had no love for him and that she had no means to support him. To establish his ability to support the child he gave in evidence the fact that he had three children by a former marriage residing in the City of Mexico. But on cross-examination the fact was brought out that these three children were kept in an orphan asylum. The wife showed by a number of witnesses that she was a proper person to care for her child, and that her ability as a dressmaker was sufficient to take care and maintain it. Judge Baker granted the divorce and gave the

#### THE WEEKLY CITIZEN.

It Will Contain Roosevelt Articles and Illustrations.

The Weekly Citizen will be issued Saturday morning and it will contain the Roosevelt reception articles and illustrations; also his speeches while in this city. The demand for extra copies of The Daily Citizen, containing these articles and illustrations, was greater than was anticipated but will be supplied by extra copies of the weekly edition. Those wishing extra copies will confer a favor by leaving orders at this office, not later than 9 o'clock Saturday morning.

custody of the boy to his mother, with privilege of the father to see him once a month, until further order of the court.

M. E. Becker vs. Romaldo Samora Griego, case from justice court, docketed this morning, judgment for \$70 was rendered against the defendant by default.

Judge Baker has overruled a new motion for trial in the case of the Territory vs. ex-Sheriff Alfred M. Sandoval of Sandoval county, and refused to withhold judgment pending an appeal.

Mrs. Filomena Lujan de Contreras was granted a divorce from her husband, Jose Contreras, on the ground of cruel and inhuman treatment. Attorney W. C. Heacock represented the plaintiff.

Mrs. Clarita Lopez also got a divorce from her husband on the ground of desertion.

#### Electric Car Accident.

Chicago, May 7.—Twenty persons were injured, a few seriously, in a collision between two south bound Halstead street electric cars at Forty-third street early today. One woman is believed to be fatally hurt. The conductor on the rear car was thrown through the window and sustained serious injuries. The collision was due to an accident to the running gear of the forward car.

#### French Fleet.

Paris, May 7.—A division of the French Mediterranean fleet has been ordered to sail tonight for Salonica.

#### CHARITIES AND CORRECTIONS

First National Conference Opened at Atlanta, Ga., Today.

#### MANY SUBJECTS DISCUSSED.

Atlanta, Ga., May 7.—A wide range of subjects were discussed at the sessions of this, the first business day of the National Conference of Charities and Corrections. The arrival of a number of belated delegates increased the attendance considerably over that at the opening of the gathering last night.

Upon assembling shortly after 9 o'clock this morning the conference received and discussed an interesting report presented by Chairman C. L. Stonaker of Denver on behalf of the standing committee on county and municipal institutions, outdoor relief and vagrancy. The problem of vagrancy received particular attention and various interesting views on its solution were presented by Dr. William H. Allen, Secretary of the New York Society for Improving the Condition of the Poor, and others.

This afternoon the conference divided into sectional meetings for the discussion of juvenile reform, sanitary inspection, county and municipal institutions and various other questions of importance. This evening the conference will take up the report of the standing committee on state supervision and administration of charities and corrections, of which Prof. Blackman of the University of Kansas is chairman.

#### Report Denied.

Vienna, May 7.—The officials of the foreign office here say there is absolutely no foundation for the report that 9,000 Christian inhabitants of Novi Bazaar, Bosnia, had been massacred by Moslems.

#### Grand Jury Investigating.

St. Louis, May 7.—Excise Commissioner James M. Selbert was before the grand jury today. It is supposed that he was examined in connection with certain legislation affecting the brewery and liquor interests. Among other witnesses examined were Senators Nelson and F. G. Udell, and Representatives Farley, Boland and John Flanagan.

#### Alabama Travelers.

Montgomery, Ala., May 7.—The state capital today experienced an invasion of knights of the grip in the persons of several hundred delegates to the annual state convention of the Travelers' Protective association. At 11 o'clock this morning the visitors assembled at the Elks' home and listened to an address of welcome by Mayor Joseph. A brief business session was held this afternoon, followed by the first number of an interesting program of entertainment arranged by the local post of the order. Tomorrow there will be a barbecue at Pickett Springs and various other amusements. The order in Alabama is in a flourishing condition as is evidenced by the large and representative attendance on the present gathering.

## THE SULTAN OF MINDANAO

### His Forces Badly Whipped by American Troops.

#### WAR IS NOW IMMINENT IN TURKEY

#### Rock Island Company Purchases the 'Frisco Road.

Manila, May 7.—Captain Pershing's column has defeated the sultan of Ampanago's strong force of Moros in the Taraca country, on the east shore of Lake Lanao, island of Mindanao. The Americans captured ten forts. One hundred and fifteen Moros were killed, thirteen were wounded and sixty were made prisoners. The Moros who were captured included the sultan. Two Americans were killed and seven were wounded.

#### WAR IMMINENT.

Turkey Massing Her Troops in Macedonia and Albania.

Constantinople, May 7.—The Bulgarian government has returned the Porte's note on the subject of incursion of Bulgarian bands into Macedonia and the importation of the explosives into Turkey from Bulgaria, to the Ottoman commissioner at Sofia, in consequence of what the government of Bulgaria describes as "its offensive terms." The mustering of Turkish troops continues in Macedonia and Albania, where soon 165 battalions will be distributed.

#### Rock Island Buys 'Frisco Road.

New York, May 7.—The Wall Street News bureau says that the negotiations recently renewed for the purchase of control of the St. Louis & San Francisco Railway company, by the Rock Island company, have been practically closed and the terms have been fully agreed upon.

#### Bribery Case on Trial.

Minneapolis, May 7.—The jury in whose hands lies the fate of Former Mayor Ames, accused of bribery, was still out at noon. This morning it sent a written communication to Judge Elliott asking for light on certain points. The court will keep the jury together at least until tomorrow morning if no agreement is reached sooner.

#### Greater Denver.

Denver, May 7.—The supreme court today handed down an opinion which settles the boundaries of Greater Denver. The following towns are now within the corporate limits of Denver: Mont Claire, Globeville, Argo, Elyria and Berkley.

#### THE SANTA FE CUT-OFF.

Syracuse, Kan., Still Claims to Be the Favored Point.

#### GIVES SOME GOOD REASONS.

A dispatch from Syracuse, Kan., under date of May 5, says:

The proposed Santa Fe Southwest cut-off is attracting considerable attention in the papers these days and there are as many different terminals mentioned in connection therewith as there are towns between Syracuse and Dodge City. The fact that one of the civil engineers of the road has rented a room in Dodge City has convinced everybody with a foot of property there that the new cut-off will leave the main line at that point. It seems, however, that the engineer has established his office at Dodge City because that is the division superintendent's headquarters, and because he has considerable work on this division aside from surveying for a cut-off. There is a hill just east of Dodge City that needs paring down considerably before the grade there will be satisfactory to the officials who superintend the operation of the road. Mr. Jones is to oversee this work and that is probably his business there at this time. This does not conform to the cherished hopes of the old town but it is the reasonable and practical view of the case. Furthermore, it is a fact that if Engineer Jones had orders to survey a new route from Garden City, Lakin or Syracuse he would establish an office at division headquarters.

Up to this time two routes appear to have been looked over. Several months ago a surveying party struck out southwest from Dodge City, and were heard from in Gray, Haskell and Stevens counties. The Syracuse route was examined three weeks ago when a party of routing engineers reached here from the southwest. As the country offers no serious obstacle to railroad construction from either place nothing would be gained by selecting a point that is not already a division point on the main line of the road. Hence it resolves itself.

First, into a question of distances to some converging point in Beaver county, Oklahoma, or New Mexico. Second, into a question of local support or patronage which will naturally come to the new road in the country tributary to it. The new line according to reports of the preliminary survey, will cross the Cimarron river about twenty miles east of Kenton, or say thirty miles east of the New Mexico boundary line. Taking then this crossing on the Cimarron as the converging point of the Syracuse and Dodge City surveys, a rough computation of the distance to Syracuse by section lines is 150 miles, while to Dodge City the distance to the same point is 240 miles by section lines. In angling across the distances would be reduced considerably, of course, but the fact still remains that while Syracuse is sixty-two miles east of the Texas-New Mexico line, Dodge City is 158 miles east of the same line. At the least calculation the Syracuse line would be seventy-five miles shorter to the main line than by way of Dodge City.

Southwest from Dodge City for fifty miles a new railroad would run parallel to the Rock Island and only a few miles from it. To the north is a range of sand hills and the main line of the Santa Fe. For fifty miles the strip of land which would furnish business for the new road would not average over eighteen in width. While from Syracuse southwest the new road would open up the greatest grazing lands where 50,000 cattle are awaiting an outlet to market and where the ranches are now freighted supplies for distances of 75 to 100 miles. A road from Syracuse southwest would find a large local business awaiting it which is now divided between three roads—the Santa Fe on the north, the Rock Island on the east and the Colorado Southern on the south.

Syracuse is now crowding over her prospects of being made a junction point for a new southwest cut-off, but is content to abide the time when such a line shall have been determined on. When that time arrives Syracuse will be prepared to establish her claims as being the most favorably situated of any town on the main line for such a junction. The same considerations which have caused the ranchmen from as far southwest as Kenton, Oklahoma, and intermediate places to freight from Syracuse for twenty years past will have due weight in establishing a route for a new railroad across the country.

#### Connecticut G. A. R.

Danbury, Conn., May 7.—The city is gay with stars and stripes today in honor of the veterans of the Grand Army of the Republic, whose annual state encampment is in progress. It is the most largely attended encampment of recent years, every county in the state having a representation. The parade and other features of the opening day were witnessed by Commander in Chief Thomas J. Stewart of Pennsylvania and a number of other prominent visitors. The proceedings will continue through tomorrow.

#### Forbes to Meet Regan.

St. Louis, May 7.—The feature of the West End club boxing show tonight will be the bout between Clarence Forbes of Chicago and Johnny Regan of this city. The two will box at 120 pounds, weigh in at 3 o'clock this afternoon. Regan is regarded as one of the best youngsters of his class and it is the general opinion among followers of the game that Forbes will have to be at his best in order to inflict a defeat on the St. Louis lad.

any other nation in the world and bet-

There was no hitch in the program  
of the president's reception at Albu-  
querque. This city is well trained in  
handling big crowds, having held twen-  
ty-two annual territorial fairs.

South African gold mines, since the

There appears to have been fewer  
strikes, and those of less magnitude,  
on May 1 this year than for many  
years past. Probably this is due to the  
fact that people are learning that  
there is a better way.

The New Mexican issued a remark-

with a similarly good exhibit a year

## BUILDING THEATERS.

The American people like to be  
amused and they are willing to spend  
large sums of money for that pur-  
pose.

Any one who doubts this national  
characteristic should read statistics  
which have been compiled on theater  
building in the United States this  
year.

Eighteen million dollars are to be  
spent in the erection of theaters this  
year, and the men who are building  
them confidently expect to get their  
money back and nothing is more  
probable than that they will.

The American people have devel-  
oped into a theater-going race. And  
men who have money to invest know  
this and are putting up theaters for  
them to go to.

The new theaters that are going  
up are not limited to any one por-  
tion of the country. They are going  
up everywhere.

## A Case of Poisoning.

On last Monday, Thelma, the three  
year old daughter of Mr. and Mrs.  
C. E. Armstrong, died at the home of  
her parents, on Hualgueno street.  
The cause of her death and the very  
serious illness of her brother, Floyd,  
aged eight years, is generally believed  
to be from eating poisoned preserved  
fruit, obtained from the exhibit room  
of the Pecos Irrigation company, on  
the corner of Fox and Canal streets.  
Yet there are some peculiar features  
about the cases. The little girl was  
taken sick on Sunday, the 19th, but  
her brother was not taken down until  
the afternoon of the following day.  
Drs. McGinnis, Whicher and Doepf at-  
tended the little girl and also the boy,  
and while at first they were not cer-  
tain as to the exact nature of the trou-  
ble, pronounced the symptoms as  
those of some kind of poison, and ap-  
plied the usual remedies in such cases.  
They were, however, unavailing, as to  
the girl, who died Monday and was  
buried Tuesday. The boy, while yet  
quite ill, is believed to be out of dan-  
ger.—Carlsbad Argus.

## The Waste of the Body.

Every seven days the blood, muscles  
and bones of a man of average size  
loses two pounds of worn-out tissue.  
This waste cannot be replenished and  
the health and strength kept up with-  
out perfect digestion. When the stom-  
ach and digestive organs fail to per-  
form their functions, the strength lea-  
ves, health gives way, and disease  
set up. Kodol Dyspepsia Cure enables  
the stomach and digestive organs to  
digest and assimilate all of the whole-  
some food that may be eaten into the  
kind of blood that rebuilds the tissues  
and protects the health and strength  
of the mind and body. Kodol cures  
indigestion, dyspepsia and all stomach  
troubles. It is an ideal spring tonic.

## BROME GRASS.

A Great Thing for Cattlemen if It Will  
Only Grow in New Mexico.  
Reports received from homesteaders,  
cattlemen and others interested in  
the development of the semi-arid lands  
of the west, show that splendid results  
are being obtained from brome grass.  
The department of agriculture has  
been experimenting for years to secure

## THE MAN IN ARMOR

Was no match for the microbe. Giants  
he might slay but this microscopic  
organism defied him, and in many a cam-  
paign more men were destroyed by camp  
diseases than by the enemy's sword.

The one way to  
arm against micro-  
bic disease is to  
keep the blood pure.  
Impure blood both  
breeds and feeds  
disease.

The signs of im-  
pure blood are easy  
to read. Pimples,  
boils, and eruptions  
generally proclaim  
the blood to be im-  
pure. Scrofulous  
sores and swellings,  
salt-rheum, eczema,  
etc., are other signs  
of a corrupt con-  
dition of the blood.

Doctor Pierce's  
Golden Medical Dis-  
covery purifies the  
blood and cures dis-  
eases caused by the  
blood's impurity. It  
cures scrofulous sores, boils, pimples,  
eczema and other defiling and disfig-  
uring diseases.

It gives me great pleasure to express my  
faith in the virtue of Dr. Pierce's Golden Medical  
Discovery, writes Mr. Ezekiel Floro, of  
Graytown, Ottawa Co., Ont. "I suffered every-  
thing for two years with humor on my face,  
which baffled the skill of some of the most  
noted physicians. Was at one time advised to go to  
the hospital; was doctored there for three  
months without success. Came home discour-  
aged. Then began to doctor with a chemist.  
He also failed to help me. Then I began Dr.  
Pierce's Golden Medical Discovery, with no  
faith whatever in it. Had it only to please my  
wife; but I am happy to tell you that after tak-  
ing five bottles I am entirely cured."

## INSOMNIA

"I have been using Cascarets for Insomnia, with  
which I have been afflicted for over twenty years,  
and I can say that Cascarets have given me more  
rest than any other remedy I have ever tried.  
I shall certainly recommend them to my friends as  
being all they are represented to be."

that would grow in the regions where  
the rainfall is light. It has long been  
the hope of officials to secure some  
grass of this character that would  
solve the public range problem, and  
they now express considerable con-  
fidence that the problem is in a fair  
way of being solved.

The brome grass has been known  
in Europe for more than a century,  
its home being in Hungary, where it  
has established a reputation for with-  
standing severe droughts. In 1884 the  
agents of the department of agricul-  
ture secured seed of the grass and  
began experimenting with it in this  
country. The first efforts were not  
very successful, but in the last few  
years better results have been secured  
and there are now indications that its  
general adoption will spread rapidly  
over the semi-arid regions. Kansas  
has led in the experiments with the  
new grass, more than one hundred  
farmers and stock raisers having  
planted considerable areas within the  
last year. Reports from these sources  
show that the grass grows rapidly and  
luxuriantly and furnishes a pasture of  
wonderful value to the farmers in dry  
regions. All kinds of stock eat it with  
relish, and experiments show that it  
is richer than timothy in fleshforming  
ingredients. It is hardy, and is not in-  
jured by severe spring and fall frosts,  
when once firmly established.

## Traveling Is Dangerous.

Constant motion jars the kidneys  
which are kept in place in the body by  
delicate attachments. This is the rea-  
son that travelers, trainmen, street car  
men, teamsters and all who drive very  
much, suffer from kidney disease in  
some form. Foley's Kidney Cure  
strengthens the kidneys and cures all  
forms of kidney and bladder disease.  
Geo. E. Hausan, locomotive engineer,  
Lima, Ohio, writes, "Constant vibra-  
tion of the engine caused me a great  
deal of trouble with my kidneys, and I  
got no relief until I used Foley's Kid-  
ney Cure." Alvarado Pharmacy.

## Police Court.

C. B. Tredway stole a pair of eye-  
glasses this morning from the office  
of Neil B. Field. He pleaded guilty be-  
fore Judge Crawford and was given  
sixty days in jail. Tredway, who is a  
young man, had nothing to say in re-  
gard to why he did it or where he  
came from.

doubled up with rheumatism. I handed  
him a bottle of Chamberlain's Pain  
Balm and told him to use it freely and  
if not satisfied after using it he need  
not pay a cent for it," says C. P. Ray-  
der, of Rattens Mills, N. Y. "A few  
days later he walked into the store as  
straight as a string and handed me a  
dollar saying, 'give me another bottle  
of Chamberlain's Pain Balm. I want it  
in the house all the time for it cured  
me.'" For sale by all druggists.

## Railroad Topics

Harry McKay, with the Santa Fe Central at Kennedy, is in the city.

The new Santa Fe hotel in Trinidad is called the Cardenas. It is expected to be ready to receive guests about June 1.

Charles Gardner, who was here on a visit, has returned to his duties at the Santa Fe ticket office, Topeka.

Fireman Sheppard, who pitched a brilliant game of ball for the Albuquerque Browns at the Fair Grounds Sunday, is laying off, nursing a badly inflamed thumb.

J. E. Hurley, general manager of the Santa Fe, has returned to Topeka from New York. While in the latter city Mr. Hurley attended the annual meeting of the American Railway association.

Conductor C. D. Hill will represent the Albuquerque-Winslow division lodge, Order Railway Conductors, No. 282, at the national convention, to be held at Pittsburgh, Pa., this year, and to convene there the 2th of this month.

A few days ago the engineers of the Alamogordo-Deming short line finished setting the stakes locating the line. The work on this line is being pushed forward in such a manner that it is certain the management intends to complete it at as early a date as possible, and Deming will have another main line to the east.

The necessity for great quantities of timber for railway ties emphasizes the advisability of preserving the forests. It has been ascertained that each mile of the 250,000 miles of railway in the United States requires 400 ties per year. It takes fifty years to grow a tree that will make three ties and ordinarily requires twenty-five acres to furnish 400 ties.

The average life of a locomotive on the railways of England is twenty-six years, and those of France twenty-nine years. In the United States the life of an engine is but eighteen years—not because the good die young, but because it has to run in eighteen years about 200,000 miles, a distance the English locomotive would be given thirty-six years to cover.

Conductor Edward Carson, delegate from the local lodge No. 389, to the national convention of the Order of Railroad Conductors, which is to be held at Pittsburgh, Pa., in the near future, left for the Smokey City this morning. He was accompanied by his daughter, Miss Marie, who will visit with an aunt at Kansas City for a few weeks. After attending the convention Mr. Carson will go to Philadelphia and New York. He expects to be absent from the city about six weeks.

### A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

### HAS REACHED THE LIMIT.

General Managers Say That Labor Demands Must Cease.

The General Managers' Association of Chicago has decided that the time has nearly arrived when a halt must be called on the demands that are being made by labor organizations. This conclusion was reached at a meeting held in Chicago on Tuesday.

Although an agreement was not made, there was a tacit understanding that if there was not a speedy cessation of labor demands, every railroad in Chicago would stand together in refusing to grant further increases. The railroads will co-operate with the wholesale merchants in the effort to bring about a peaceable settlement of the difficulty with the freight handlers. A committee was appointed to confer with the managers of the wholesale houses with a view of outlining a policy to be followed in the matter.

### THE STRIKE IS OVER.

Foreman Merle is Reinstated at Alamogordo and Men Return to Work.

The machinists, boiler makers and helpers who went out on a strike at Alamogordo yesterday morning returned to work last night and everything is running smoothly at that point, says the El Paso Herald. It is understood that Superintendent of Motive Power Parsons agreed to reinstate Foreman Merle and the men were satisfied and returned to work. Word from Alamogordo says the settlement is temporary pending General Manager Martin's return, but further disagreement is not expected.

Mr. Merle was at one time for a number of years foreman of the machine shops of the G. H. in El Paso and was from this point transferred to San Antonio, where he was made foreman of the shops there. About four years ago he killed a man named Murtough in that city, but was cleared and then went to Mexico for a long time.

Recently he went to Alamogordo as foreman of the shops at that point. During his term of service as foreman of the different shops he has been a stickler to have all engines in first-class condition before turning them out of the shops, and this is said to

have been the cause of the difficulty between him and Mr. Parsons. It appears that he ordered an engine into the shops and that Mr. Parsons ordered it out and this brought on the trouble between the two men.

### Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

### New Santa Fe Position.

A new position has been created in the Santa Fe store department at San Bernardino, that of chief clerk to Storekeeper O. P. Sloat. Bruce Moore is the name of the man who has been selected for the place, and he has arrived in San Bernardino, expecting to take up the duties of the position at once. Mr. Moore comes from Burlington, Iowa, where he has been in the employ of the Chicago, Burlington & Quincy railroad. The appointment was made through General Storekeeper N. M. Rice of the Santa Fe system, who has made several substantial improvements in the department since his promotion, which occurred several weeks ago.

A chief clerk has long been needed at the San Bernardino store, and now that that business is steadily increasing since the building of the new shops it is a position absolutely necessary to the San Bernardino department.

Foley's money and Tar contains no opiates and can safely be given to children. Alvarado Pharmacy.

### Young Railroad Official

Lewis M. Webb, assistant general passenger agent of the Cincinnati, Hamilton & Dayton Railway company, who is 28 years of age, is one of the youngest men in the country filling the position. Born at Nashville, Tenn., but coming to Cincinnati when quite young, he commenced his railroad career with the Big Four passenger department under General Passenger Agent D. B. Martin. He was with the Big Four at the various desks in the general passenger department until 1895, when he took service with the Cincinnati, Hamilton & Dayton in the rate department. In February, 1898, he was made chief rate clerk, and a year later chief clerk of the passenger department. On March 1, 1902, he was made assistant general passenger agent. He is a genial gentleman and is thoroughly posted on all matters pertaining to the work of the passenger department.

### Alarming Decrease.

Net earnings of the Santa Fe for March proved a disappointment. It was expected they would be such as to reduce the loss made in the first four months of the fiscal year, says the Topeka State Journal. Instead, the loss was increased considerably. Operating expenses increased enormously. The persistent decrease in the net earnings of the Santa Fe is one of the peculiar things in the history of that road which has been causing much discussion during the past year. The gross earnings have shown a steady increase, and it appears that something must be wrong with the operation of the road. The immense increase in gross earnings is all eaten up with increase in operating expenses.

### FOOD IN NEED

#### Is a Friend Indeed.

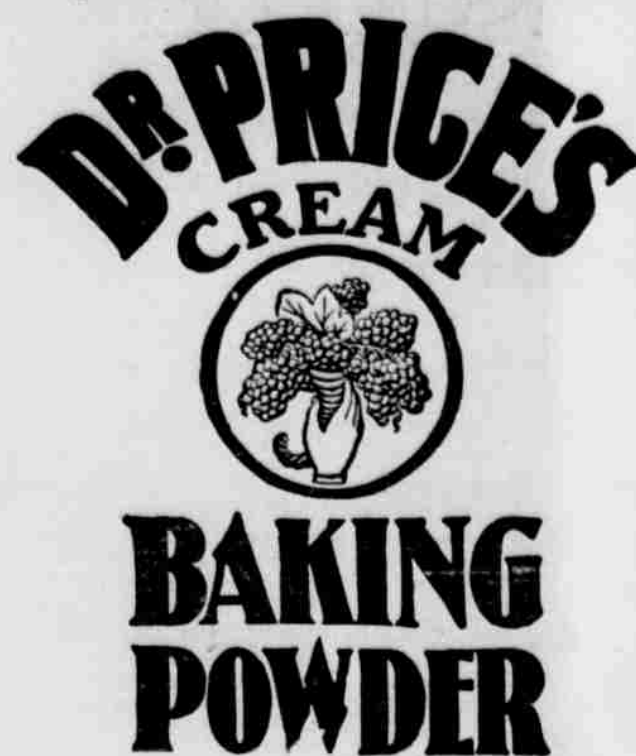

Many times a school teacher in the middle of a heavy session requires exactly the right kind of food to rebuild the wasted nerve and brain tissues as well as to keep up the muscular energy. This is the business of Grape-Nuts, in which the starchy part of the pure cereals is turned to grape sugar and where the phosphates predominate, making it rich in food value and ready for the weakest stomach to assimilate immediately. A lady teacher of Minneapolis says:

"About four years ago I realized that I was breaking down nervously in the middle of the school year. To a school teacher this means not only loss of health but inability to go on with her work. Nothing appeared to help me and I was just about discouraged when a friend recommended that I look into Grape-Nuts. On reading what this food does toward rebuilding brain and nerve centers I made up my mind to give it a fair trial.

"I ate Grape-Nuts food dry with cream for breakfast and enjoyed it greatly. My improvement began immediately and was so steady that I did not realize how fully I had been benefited until an extra strain came on me in my school work through which I was able to go, continuing to improve all the time. Looking back on the trial now, I realize how this wonderful food saved me from a certain breakdown."

"I have kept up the daily use of Grape-Nuts ever since and have never had a return of the trouble. I always take a package with me when traveling, and I look upon the food as essential to my health as fresh air or exercise." Name furnished by Postum Co., Battle Creek, Mich.

PRICE BAKING POWDER CO., CHICAGO.

It may be, of course, that some unusual expense is being charged up against the operating account, instead of being saddled upon the road in the form of capital account. If so, it is of course, a move which puts the road in better condition to meet possible depression in traffic.

### GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burleigh, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burleigh, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by all druggists.

### Using Small Engines.

Many of the smaller engines of an old type are being pressed into service on the Santa Fe. The reason of this is to give a chance to repair the larger engines. There has always been more or less trouble with the large and more complicated type of locomotive. This is especially the case with the big freight engines, which are subjected to so much bumping in the yards. Railroad men say that these do not stand the test as well as the smaller and lighter machines.

### A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "A patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver trouble so I prescribed them. The patient gained from the first, and has not had an attack in fourteen months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only one at all druggists.

### HEAD-ON COLLISIONS.

Surprising Number Have Occurred So Far in 1903.

The first quarter of the year 1903 has been marked by a surprisingly large number of that most inexcusable form of railway accidents—head-on collisions. Of the noteworthy accidents of all kinds of which the Railway Age has kept record, 33 were of this character, involving a loss of 76 lives, injuries to 124 persons and enormous destruction of property. All the other important accidents during the three months of which information has been received, resulting from washouts, broken rails, open switches, other derailments and rear collisions, number 23 and caused 75 deaths and injuries to as many more persons. Of these miscellaneous accidents 10, causing 39 deaths, were rear collisions, a class of occurrences generally inexcusable though often occurring under mitigating circumstances, such as breakdowns, fog, slippery rails, brake failures, etc., but seldom resulting from direct violation or misunderstanding of rules and orders. Yet the rear-end collision on the Central of New Jersey in January, the worst of the period, which cost 20 lives, was due to the engineer running by signals and had little palliation. But when two trains dash together on the same track from opposite directions, the fundamental principles of railway operations have been violated and disgrace has again been placed upon American railroading. Yet it is the individual and not the system that almost invariably is to blame for head-on collisions. In none of the cases here recorded does there seem to have been any fault in the rules or regulations, as a result of which the accident could

have occurred if the rules had been obeyed. Either the dispatcher's orders were faulty or were not properly delivered or were misinterpreted or forgotten by the engineer. And so the responsibility for these awful calamities, almost without exception, comes back either to the dispatcher, the telegraph operators or the trainmen, and these are the persons upon whose minds the lesson of these frequent, needless and criminal disasters should make a deep impression.

### The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How can I cure my indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by B. H. Briggs & Co., S. Vann & Son.

### Record of Railway Wrecks.

The Interstate commerce commission has issued a bulletin on railroad accidents for the three months ended December 31, 1902. It shows that during that period in train accidents 266 persons were killed and 2,788 injured. Accidents of other kinds, including those sustained by employees while at work, and by passengers in getting on and off cars, etc., bring the total number of casualties up to 938 killed and 11,873 injured. The damage to cars and engines and roadbed by these accidents amounted to \$2,466,056.

### Quick Arrest.

J. A. Gullledge of Verbena, Ala., was twice in the hospital from a severe case of piles causing twenty-four tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at all druggists.

### LIFE OF RAILWAY TIES.

H. U. Mudge Gives Statistics to Maintenance of Way Association.

The data gathered for this year's report to the maintenance of way association confirm the statements heretofore given as to the average life of treated ties in this country. The record of treated pine ties taken out of tracks of the Atchafalaya, Topeka & Santa Fe during 1901, compiled under the direction of H. U. Mudge, general manager, show the following:

Removed in 1897 on six divisions, average life, 10.18 years.

Removed in 1898 on eight divisions, average life 10.56 years.

Removed in 1899 on eight divisions, average life, 10.61 years.

Removed in 1900 on nine divisions, average life 10.78 years.

Removed in 1901 on ten divisions, average life, 10.58 years.

Mr. Mudge says: "Special attention should be called to the fact that these figures represent only the average life of treated ties taken out on account of rot, and not the average life of all ties treated during each year." Also: "It must not be overlooked that it is the 'weak sisters' which come out first; the strong, sound ones remaining in a much longer time, under the principle of the survival of the fittest."

On the Chicago, Rock Island & Pacific the returns of treated ties renewed in 1901 show an average life on that road east of the Missouri river of 10.66 years, and it is estimated at one year more west of the Missouri river.

### Made Young Again.

## Local Happenings

George J. Metzger of Raton is here on business.

E. Baca and wife of Pena Blanca are here today.

W. J. Hanna of San Marcial is a visitor here today.

Mrs. W. A. Smith and daughter from Gallup are in the city.

F. J. Otero of this city was in Santa Fe yesterday on business.

J. W. Akers and wife of Santa Fe are in the city today, visiting friends and relatives.

Judge B. S. Baker and wife will leave Saturday night for Omaha, Neb. They will be absent several weeks.

J. H. Stingle, the well-known city attorney, celebrated in a royal manner yesterday afternoon his thirty-fourth birthday.

Herbert Brooks, the mining engineer who has been doing some expert work in the Magdalena mountains, returned to the city yesterday.

Mrs. H. L. Knud and daughter, Miss Elsie, who were here the past two months, departed for Chicago, their home, yesterday morning.

Miss Lucille Elliott, daughter of Wells-Fargo Express Messenger Elliott, who runs between here and La Junta, will arrive in the city Saturday for a visit to the O'Brien sisters.

Mrs. Rosa Stephan, who left this city a short time ago for El Paso, died in that city on May 2, and the remains have been shipped to St. Louis, the home of the deceased, for interment.

The city council should make an ordinance to compel bicycle riders to place a bell on their bicycle and also a lantern for night. This should be done for the safety of all pedestrians.

Regular services will be held at Temple Albert Friday evening at 7:45 p. m. "Am I my brother's keeper?" will be the subject of Rabbi Jacob H. Kaplan's discourse. The public is welcome.

E. F. Otero, a government employee of Santa Fe, received a thirty-days leave of absence, and will spend most of the time in the territorial metropolis. He is now in the city greeting old friends.

John Emery McKenna, the well-known banjoist, will assist Mr. Thomas in his farewell concert at Colombo hall May 14. Mr. McKenna has heretofore appeared but seldom before Albuquerque's audiences.

Ed Myers has returned to the city from Willard Station on the Santa Fe Central and will remain here for a short time. Ed was clerking in a mercantile company store, but resigned his position the other day.

Charles Melini and John Cornetto are busy this afternoon packing their trunks. They hope to get away for New York tomorrow morning, and will sail for Italy about the 15th of the present month. They will be absent from the city several months.

The First Regiment band furnished excellent music during the reception at the Commercial club to President Roosevelt, and also at the corner of Second street. The Indian School band serenaded Governor Otero at the depot on his departure for home. They did well.

R. H. Greenleaf has returned to the city from the Sulphur Hot Springs, leaving at the resort his niece, Mrs. J. A. Greenleaf and Miss Alma Bailey, and Mrs. Fred Fisher. Mrs. Greenleaf is a great sufferer from rheumatism, and it is thought the baths will prove beneficial.

T. O. Mason's barber shop at 118 North Third street was entered some time Tuesday night by miscreants, who made it look like thirteen cents. When they are caught they should get the full extent of the law. Two mirrors were broken and other things demolished. The police should make an extra effort to catch these parties.

A special Pullman train of six cars arrived a little after 2 o'clock this afternoon from Chicago. It carried some ninety persons, mostly stockholders of the Merchant & Bragnano Mining company, who are en route for Prescott, Ariz., to attend the annual meeting of the company. The party will also spend two days seeing the Grand Canyon.

In a letter to The Citizen, dated from Patterson, Socorro county, Hon. F. A. Hubbell writes: "I am having a fine time enjoying myself, eating the finest kind of mutton, beef, venison and the biggest wild turkey you ever laid your eyes on. My sheep are in fine condition, and I am having a No. 1 lambing. Do not forget that I am living and would very much like to know the news. Send The Citizen and tell all our friends that I am O. K."

As mentioned in The Citizen of yesterday, there will be a number of consignments of fast blooded horses come through this city in the next week or two bound east. Last night another express horse car containing twelve horses came in from Oakland, Cal., bound for Denver. They were the property of Messrs. Jessen, Jones, Huffman, Beard and Miller. They were fine animals and did well at racing in Oakland the past winter.

Joseph Cornetto, a brother of John Cornetto, has arrived from Grand Junction, Colo., and will assist Mrs. Cornetto in the management of the Vendome hotel during the absence of the latter. In Europe, Joe Cornetto met with an accident a few days before he left Grand Junction for this city. He was leading a horse when the rope got twisted around his left thumb. The animal became suddenly fractious and in pulling on the rope the thumb was completely torn from the hand. It is a very serious injury, and the hand, minus the thumb, will be a useless member to Mr. Cornetto for some time to come.

Miss Della Ralston of Chicago is in the city visiting her sister, Mrs. Bigelow and Miss Nellie Ralston, living on East Railroad avenue.

Harry Clark of Paducah, Ky., will arrive tonight to visit his sister, Miss Lulu Johnson, and uncle, James T. Johnson. Mr. Clark will remain here during the summer months.

On June 30 there will be an examination to fill the vacancies in the position of medical interne at the government hospital for the insane, Washington, D. C., with a salary of \$600 per annum which will occur about October 1, 1903. Persons who desire to compete should at once apply either to the United States civil service commission, Washington, D. C., or to the secretary of the local board of examiners for application blanks, which be properly executed and filed with the commission at Washington.

J. E. Saint, with the Santa Fe Central railway, arrived in the city last night for a few days' visit with his family here. Mr. Saint states that the Santa Fe Central and the Pennsylvania Development company have disposed of their commissary department to the Dunlevy Mercantile company.

The transfer was made yesterday, but the deal has been on for a month and the past four weeks a force of men and accountants have been making an inventory of the stock. The transfer includes six stores established along the line of the Santa Fe Central railway.

Plumbing contractors of the city have experienced considerable trouble the past few months by malicious, meddlesome persons, who are in the habit of going to new houses where plumbing is being done, destroy pipes and steal tools. In several instances the damage done by these maulers has amounted to considerable. Last Sunday parties entered a new house in the western part of the city and destroyed plumbing attachments to the amount of about \$100. The police have charge of the case and an investigation will be made and possibly some one will have to answer for their misdoings.

We are the official repairers of the National Cash Register company. Albuquerque Cycle and Arms company.

Ed Myers has returned to the city from Willard Station on the Santa Fe Central and will remain here for a short time. Ed was clerking in a mercantile company store, but resigned his position the other day.

Chev. Pietro Buzzi.

of the Royal Conservatory of Turin, Municipal Conservatory of Milan and of Delle Sedie Academy of Paris, will appear at St. Mary hall on Tuesday, May 2. The San Francisco Post says: Chev. Pietro Buzzi, the tenor, will be a delightful surprise. Tenors are very scarce now-a-days; all have a certain quantity of voice hedged about with many ifs and several other buts. In the case of Chev. Pietro Buzzi all the ifs and the buts are in his favor, people who have heard him at rehearsals where he has the same facility in reaching the upper register; (astonished to hear a second Agostini). He phrases and pronounces in the very same styles, and the color of his voice seems to be between that of Agostini. He comes with a reputation made in the principal theaters of Italy.

### Your Wife

can be provided with an annual income for life, in event of your death, at less cost than you can make the same provision for your children.

The low rate makes very attractive this form of contract, devised and introduced by The Mutual Life Insurance Company of New York.

On August 7 1899 a young business man of New York took out Policy No. 100512 in favor of his wife. He paid three premiums of \$500.00 and in September, 1902, he died. The company at once paid his widow \$3,000.00 and will continue to pay her that amount annually as long as she lives.

In writing for terms, state the amount of annual income you would like to provide for your wife, the amount of cash you would like returned and give the ages of both.

RICHARD A. McCurdy, President,

### BURNED TO DEATH.

Victims of a Train Wreck Near Port Arthur, Ontario.

St. Paul, May 7.—A Winnipeg, Manitoba, special says:

Twelve men were burned to death and eight slightly injured in a train wreck fifty miles west of Port Arthur, Ontario. A caboose attached to a tie train left the track, the car was overturned and took fire, with the above result.

Owing to a heavy wind storm the wires are down today and details are meager.

### Tunnel Tragedy.

Huntington, W. Va., May 7.—A special from Bluefield says that a tunnel on the Norfolk & Western railroad caved in near Eggleston, Va., last night, burying fifteen men beneath hundreds of tons of dirt. Eight were instantly killed. Two others were taken out alive but they cannot recover. All were colored.

### Metropolitan Stake.

New York, May 7.—Gunsfire won the Metropolitan stake; Old England, second, and Casta, third. Time, 1:38½.

### Base Ball Sunday.

Manager Berry promises another first class ball game for Sunday afternoon at the fair grounds. This time the Santa Fe Pacific shop ball team will play the Browns. A red hot game may be expected as the teams are rivals in every sense of the word. The game will be called at 2:45, and the First regiment band will be present to render the fine music for which this organization is noted.

The Browns are under the management of Mr. Brockmeier and will line up as follows: Stevens, catcher; Robinson, pitcher; Cavanaugh, first base; Bert Vorhes, second base; Merritt, third base; C. Vorhes, short stop; Cosgrove, left field; Quier, center field; Ortiz, right field. Shepard and Otero will be extras.

The Santa Fe Pacific boys are managed by L. Blood and will play as follows: Wilson, catcher; Moore, pitcher; Burgett, first base; Patterson, second base; Hellweg, third base; Barrett, short stop; Donahue, left field; Nelson, center field; Bowles, right field. Powell will be the extra man.

### About American Railways.

The average traveler could journey sixty miles an hour, twenty-four hours a day, 365 days in the year for 120 years before, according to the law of probabilities, he would be killed in an accident on an American railway.

In view of the lamentable yearly returns of railway wrecks, the comfort in these calculations is largely theoretical, where it is not confined to the accident insurance companies. Others of the magazine's items are more impressive.

The 200,000 miles of railways in the United States would girdle the earth eight times at the equator.

There are two miles of railroad in this republic for every three in the rest of America, Europe, Asia, Africa and Australasia combined.

The United States has six times as great a railway system, in mileage, as

## Better Than Years of Doctoring

### PAINE'S CELERY COMPOUND

Best Authorities in Medicines Declare It the Only True Spring Remedy.

The sleeplessness, nervous prostration, weakness, general debility, functional irregularities and despondency from which thousands of women, young and old, suffer, can be quickly removed by properly feeding the nerves and replacing the unhealthy blood by a fresher and more highly vitalized fluid. The happy change from ill health and misery to true womanhood and happiness can only be effected by the use of Paine's Celery Compound.

The present spring demand for Paine's Celery Compound, woman's friend and life giver, is enormous in every state of the union. This fact alone, amply proves that the great Compound possesses virtues and powers unknown to other remedies. Dear

wife and mother, do not procrastinate; listen today to the voice of reason, and the pleadings and testimony of the thousands of your sex who have been made well and strong. Mrs. Jennie Harris, Marlow, I. T., joyfully writes about the medicine that makes women well. She says:

"I used one bottle of Paine's Celery Compound and am satisfied that one bottle of this medicine has done me more good than any other medicine that I have ever taken. I had rheumatism of long standing, kidney disease and female troubles, but since taking Paine's Celery Compound I feel altogether a different person. I have used lots of other medicines, but never received any benefit until I used Paine's Celery Compound."

Germany or Russia, seven times as great as the United Kingdom or Austria-Hungary, twenty times as great as Spain.

The present capital of American railroads, including stocks, bonds and floating indebtedness, amounts to about \$12,000,000,000—about \$150 per capita of population of \$750 per family.

The average citizen made eight railway trips in 1901 and pays about \$22 per year in fares.

The railways of the country employed in 1901 an average of 1,071,000 representing about 5,000,000 persons, or one-fifth of the population.

Wages of these employees for 1901 amounted to \$610,000,000—more than half the operating expenses of the roads—and averaged, roughly, \$570 per man.—Booklovers' Magazine.

Children's Spring Heel Oxfords with heavy soles and patent leather tips from \$1.15 to \$1.45. Children's Spring Heel Sandals in patent leather, red or black kid, from \$1.10 to \$1.60, at C. May's Popular Priced Shoe Store, 208 West Railroad avenue.

## Death of Mrs. Haskell.

The funeral of Mrs. Henry Haskell,  
who died yesterday afternoon at 5  
o'clock, will be held on Friday even-  
ing at 7:15 at J. W. Edwards' under-  
taking rooms. Rev. Powell of the  
Baptist church will officiate. The de-  
ceased came here from Kalamazoo,  
Mich., about a year ago for her health,  
but that dread disease, tuberculosis,  
had got too much of a hold, and the  
sunshine here failed to relieve her.  
She leaves a husband, who is employ-  
ed at the Santa Fe storehouse, and  
four children. The remains will be  
shipped to Kalamazoo for burial on  
Saturday morning. Mr. Haskell has  
the sympathy of all in his sad bereave-  
ment.

## THE MARKETS

## MARKET LETTER.

## Special Correspondence.

Kansas City, May 7.—A heavy run  
of cattle the first half of last week  
broke the prices 15 to 25 cents, but the  
loss was almost fully regained before  
the close of the week, as receipts fell  
off. Total run of cattle at Kansas City  
last week was 31,474 head, as com-  
pared with 16,606 head the same week  
last year. Good weight fat cows hold  
up well, but light heifers and canners  
lost ground. Topy stockers and feed-  
ers also held steady, but others lost  
from 15 to 30 cents.

Best prices for fat steers was \$5.40,  
and for fat western \$5.10. Many sales  
of western fed steers were from \$4.65  
up. Some fed Colorado bulls brought  
\$3.70 during the week. Western cows  
sold from \$3.40 to \$4.10. A bunch of  
63 choice Colorado stockers brought  
\$4.80 Thursday, weighing 834 pounds.  
Most western stockers and feeders  
sold above \$4.00. The run of cattle  
was moderate today at 5,300 head, but  
lower reports from the east caused a  
weak feeling here. Stockers and feed-  
ers were scarce, however, and sold  
fully steady with last week's close.  
Fed westerns were about like Friday,  
and she stuff was steady to strong.  
With moderate receipts prices should  
advance this week.

Sheep and lamb receipts at Kansas  
City fell off last week, the total being  
24,138 head, about 8,000 head less than  
the previous week, but more than  
twice the receipts of the same week  
last year, when 11,508 head were re-  
ceived. After Monday substantial  
gains in prices were made, with a sen-  
sational finish at the close of the week.  
Lambs gained 20 to 30 cents and mut-  
ton sheep from 30 to 40 cents. The  
market was also in sharp contrast  
with the previous week in the matter  
of activity and snap, and today's mar-  
ket was also lively, with prices from  
strong to 15 cents higher. Top Colo-  
rado lambs brought \$7.12½ today, and  
several sales were made at \$7.00. A  
load of western clipped sheep, weigh-  
ing 80 pounds, brought \$4.80. Western  
wooled wethers are worth \$5.25 to  
\$5.40, and ewes brought \$5.00.

The Leading Clothier in Albuquerque

## THE LITTLE DOCTOR.

Smallpox.—The worst case can be cured in three days by the use of cream of tartar. One ounce of tartar dissolved in a pint of hot water and drunk at intervals when cold is a certain, never failing remedy. It has cured thousands, never leaves a mark, never causes blindness and avoids tedious lingering.

Earache.—Take five parts of camphorated chloral, thirty parts of glycerine and ten parts of oil of sweet almonds. Saturate a piece of cotton and induce well into the ear. Rub the liquid also behind the ear. The pain is relieved as if by magic and if there is inflammation it often subsides quickly.

Billiousness.—For a liver flush to relieve biliousness and kindred complaints try this prescription: Hydrargyrid eight grains, extract of conch (scullab) ten grains and posocotrine aloes. Mix and fill No. ten capsules. Take one or two at bed-time according to severity of the case and follow in the morning with a dose of epsom salts before breakfast.

Cocaine.—The increased use is deplorable. Large quantities are sold in the form of patent medicines, particularly in remedies for catarrh. One druggist sold last year 24,000 grains at a profit of \$6,120. The retail druggist, by dispensing cocaine at a tremendous profit, has in many instances built up a thriving business on the wrecked lives of the victim.

Neuralgia.—This trouble is almost always benefited by iron. Here is a simple tonic: Citrate of iron, two drachms; tincture of nuxvomica, one drachm; syrup of lemon, one ounce; distilled water to make three teaspoonful after every meal. This is very mild and to do good must be taken consecutively until the bottle is finished.

A Remedy for La Grippe.—Thirty minims of carbonate of creosote mixed carefully with four teaspoonfuls of honey or mucilage can be taken in doses of a quarter teaspoonful three times a day. See that the creosote is well mixed every time it is taken. A more exact way is to drop two drops with a dropper into a teaspoonful of jelly, oil, honey or gum water each time and mix it thoroughly.

Nervous Derangements.—Professor Loeb's latest discovery is that such nervous diseases as St. Vitus' dance, paralysis, etc. are caused by a deficiency of calcium salts in the blood. Still it by no means follows that disorders of the nervous system will be cured by a comparatively simple matter as the introduction of calcium salts into the circulation. When things are out of whack generally in the human body and especially in the nervous system medication has a somewhat limited value. But if Dr. Loeb has really discovered what badly adjusted nervous systems need and the way to give it to them he has done more for the health of humanity than can be told. His theory will rank with the discovery of anaesthetics and the development of aseptic surgery in its beneficent effects upon the life of man. But—it remains to be proven.

Deadly Headache Powders.—Practically every one of the headache powders on the market contains acetanilid or some other coal tar product similarly affecting the heart. The drug costs but thirty cents a pound and from five to fifteen grains is considered a fair dose. Even a five-grain dose may be deadly to a person with severe heart trouble. The drug's action on the human system is to lower the blood pressure, which is usually

## TO BE DEPENDED ON.

Because it is the Experience of an Albuquerque Citizen and Can Readily Be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but public expression of local citizens can be depended on for 'tis an easy matter to prove it. Evidence like the following is beyond dispute:

J. W. Gertig, bookkeeper, residence 408 West Coal avenue, says: "When I lived in Mansfield, Ohio, several years ago I had an attack of lumbago. Doan's Kidney Pills were highly recommended by residents of Mansfield in the papers of that city and I went to the drug store kept by a friend of mine, named W. Barton, for a box and commenced the treatment. A continuation of it for some time stopped the attack and for several years there was no recurrence. Some six months ago I noticed pain in my back and knowing what Doan's Kidney Pills had performed when they first came to my notice, I went to the Alvarado drug store for a box. The treatment was just as effective as it was when I first used it in Ohio. This to me positively proves that Doan's Kidney Pills can be depended upon."

For sale by all dealers; price 1 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

**Force**

The Ready-to-Serve Cereal

for doctor and patient.

Sweet, crisp flakes of wheat and malt.

Has Eaten Three Cases.

"I was attacked last May by appendicitis. Under care of our old family physician I passed the danger point. As I showed signs of recovery doctor and I began to eat around for a suitable diet and as a result we fell upon 'Force,' which has been a wonderful boon to me. I have eaten almost three cases."

"H. H. MILLER, Marion, Ind."

the cause of headache. An overdose paralyzes the heart when it is dilated and causes death. It is the sudden lowering of the blood pressure that causes the lips and finger nails to turn blue. Some of the more costly headache cures contain some kind of heart stimulant to counteract the deadly effect of this drug but the stimulant may be nearly as dangerous as the acetanilid. Some contain caffeine with bicarbonate of soda and some contain strychnine. Nearly every druggist has on sale a headache powder of his own invention and in many instances the chief ingredient is a coal tar product with no protection for the heart. These are the ones classed by doctors as deadly.

## Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boesche's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. J. H. O'Reilly & Co.

## SHOOTS HIS WIFE.

Neil Willey, a Colored Porter, Shoots and Probably Fatally Wounds His Wife.

At about 7:30 Friday morning, Neil Willey, a negro porter, who works at Kemp & Woerner's saloon, shot and probably fatally wounded his wife, says the Carlsbad Argus.

The particulars of the affair, as near as can be obtained, are about as follows:

After he had finished his early work at the saloon, he went to the house, two doors north of the Bass livery stable, on Canyon street, walked in the kitchen where his wife was and began shooting at her with a Colt's 45.

The first shot struck her on the left side of the chin, the ball coming out on the left side of the neck. This wound is not serious. After being shot she ran out to the south side of the house, when he shot her again, the ball striking her in the left hip, and passing toward and possibly lodging in the abdominal cavity. This wound is of a very serious nature.

Strange as it may appear, the woman did not fall, and he fired again, the ball lodging in the southwest corner of the house. He would have fired again but the pistol refused to work, and he ran down to the saloon where he worked and got another pistol, and returned to the house. When he returned there, his nephew, C. T. Townsend, a boy of 14 years, grabbed the pistol just as Willey put it under his chin, possibly with the intention of committing suicide. About this time Deputy Sheriff Christopher arrived and at the point of his gun made him surrender. As he was placed under arrest he said to the officer: "Kill me if you want to. I don't care a d—n."

He was seen later in the jail, but refused to make a statement, or offer any explanation as to the reason for his actions. His family consist of four children, two boys and two girls, and his wife has the reputation of being a good, hard working woman. The only reason so far assigned for the deed is jealousy. After Drs. Doepf and Waicher had examined the woman's wounds she was taken to the hospital to be operated on, and was still alive when the Argus went to press.

### SANTA FE.

From the New Mexican.

Misses Mabel and Lillian Seth, of Chama, who have been in the city as guests of Miss Fieda Smith, left for their home.

Judge N. B. Laughlin left for Tierra Amarilla, where he has business in the district court for Rio Arriba county.

S. H. Elkins, postmaster of Columbia, Mo., and M. L. English, of Dolores, who attended the presidential reception here, left for the Ortiz Mine grant where Mr. Elkins has important mining interests.

Mrs. Saphrona Wilcox, of Rio Tesuque, who recently disposed of her ranch at that place, departed for a visit with relatives at Grand Rapids, Mich. She has been visiting her sister, Mrs. A. L. Glidden.

Mr. and Mrs. S. S. Beatty returned from a sojourn at Antonio Joseph's hot springs at Ojo Caliente. The baths were greatly beneficial to Mr. Beatty, for whose health the trip was made.

Mr. and Mrs. C. W. Dudrow returned from Ojo Caliente hot springs. Mr. Dudrow went to the baths there four weeks ago for the benefit of his health, but has been very sick since going there. He is not much better.

A. B. Renehan has received from Professor Curtin, the celebrated ethnologist, as a present, the professor's latest work, a book entitled "Creation Myths of Primitive America." Professor Curtin is now at work on another book to be entitled "Genghis Kahn and the Tartars." Professor Curtin is connected with the ethnological division of the United States geological survey. The present is highly appreciated by Mr. Renehan.

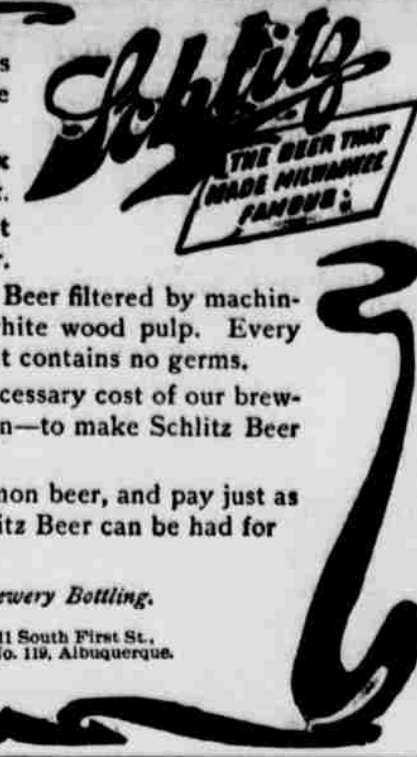

A. A. Herren, of Finch, Ark., writes, "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Alvarado Pharmacy.

### AZTEC.

From the Index.

Charles V. Safford, traveling auditor of the territory, was here last week checking up the officials of the county, and pronounced the books among the best kept in the territory.

The ball game between the Farmington and Aztec teams last Saturday resulted in a victory for Farmington, with a score of 10 to 7. The home

team played better than ever before. The San Juan Fair association has been incorporated and will hold a county fair at Aztec this fall. The people of many sections of the county are interested and the aim will be to make a representative fair. Good premiums will be put up and people throughout the county are asked to join in and make it a grand success.

### A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Alvarado Pharmacy.

### DEMING.

From the Graphic.

Mrs. Fannie Pollard, who has been visiting her sons, A. W. and T. J. Pollard, of this city, for about a year, and Mrs. J. H. Rogers, who has been here several months left for their home in Portage, Wisconsin.

Mrs. M. A. Williams, fell last Saturday afternoon by catching her foot in a piece of baling wire and injured her side and hip so that she will not be able to be around for some time. This is only one of many cases where people have been injured by the throwing of wire in the streets and the town trustees should take some action to have the practice stopped.

Monday evening the new board of town trustees met and organized. Judge Field was re-elected chairman, W. C. Wallis elected city engineer, A. W. Pollard city attorney and Frank Prizer marshal. The committee on city hall building were instructed to call for bids and proceed with the work of building.

W. T. Russell killed a white heron at his ranch near town last Thursday. These birds are very rare in this country and we know of but one other case where one has been killed in this region. Their home is on the islands in the Gulf of Mexico and they seldom wander any great distance inland. The one killed by Mr. Russell is a fine specimen and he has sent to Silver City to have the skin dressed and mounted as a keepsake.

Dr. S. D. Swope is having rock hauled for the foundation of a fine brick building at the corner of Gold avenue, fronting on the railway. The building will have thirteen rooms and is being built with a special view to use either as a lodging house or, in case he should find that there is a demand for a hospital and sanitarium. This building will be an ornament to our town and is only one of many which are now in process of construction or planned for the near future in our town.

## SECRETS

At the Price of Suffering.

Woman on her way to semi-invalidism caused by pregnancy suffers much pain. Ignorance prompts her to suffer alone in silence and remain in the dark as to the true cause—motherhood. Mother's Friend takes the doctor's place and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application to the breast and abdomen throughout pregnancy will enable her to undergo the period of gestation in a cheerful mood and rest undisturbed.

## Mother's Friend

is a liniment for external use only. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need send only to a drug store and for \$1.00 secure the price child's remedy. Healthy babies are the result of using Mother's Friend. Our book "Motherhood" mailed free. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

### CARLSBAD.

From the Argus.

"Uncle Ben" Lawrence, one of the best known characters of Carlsbad, died at the county hospital.

Bishop J. Mills Kendrick, of the Episcopal diocese of New Mexico and Arizona, preached in El Paso last Sunday, and will probably be here some Sunday during the month.

The little daughter of County Clerk Jake Owens fell from a merry-go-round last week and was severely cut about the head. At first it was feared that her head was badly hurt, but she is now getting better.

The public school children in the rooms of Misses Reiff, Gilson and Emerson had a May pole dance the other day. They performed the various evolutions of the dance with grace and precision. The larger scholars in Miss Perry's room made a number of handsome baskets.

Several light showers have fallen here the past week. Reports from the country are to the effect that heavy rains have visited almost every section. The stockmen are feeling good over the prospect of a good season. Plenty of rain makes plenty of grass, and plenty of grass makes plenty of fat cattle, and fat cattle make plenty of money.

It is reported that some people are dynamiting the best fishing pools in the river, both above and below the Hagerman dam. Others use nets, and if this continues there will be but poor sport for the real fishermen. The attention of the fish and game warden has been called to these facts, and arrests and prosecutions to full limit of the law will follow.

Ruperto Martinez, a Mexican sheep herder, who evidently labors under the belief enjoyed by all his companions that sheep owners are merely fish for their net, struck an obstruction Saturday, and now does penance for fifteen days in jail. Not satisfied with drawing a liberal advance from the Penasco Live Stock company, and skipping out, he bought a lot of goods on the company's credit to take on the trip. For this he was arrested on a charge of securing goods under false pretenses, and given a jail sentence.

### NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-out cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market today.

### OFFICIAL MATTERS.

The following coal entry has been made: Leon C. Steele, Denver, Colo., postoffice, 80 acres in Bernalillo county; purchase price paid, \$1,600.

Organization of Board of Penitentiary Commissioners.

The members of the board of penitentiary commissioners, appointed and confirmed during the session of the Thirty-fifth legislature, met Monday last at the penitentiary for organization and to transact official business. There were present: F. H. Pierce, Las Vegas; Juan Navarro, Mora; W. H. Newcomb, Silver City. F. H. Pierce was elected president of the board and Juan Navarro secretary. Accounts for the past two months were examined, audited and approved. The board then adjourned to meet again on the first Monday in July.

### A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do so, good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

### TRIAL OF HAMPE.

Will Commence at Tierra Amarilla Next Monday.

W. A. Barney, of Santa Fe, left for Tierra Amarilla, where he will defend Alfred Hampe, who is indicted for the murder of Epitacio Gallegos in Santa Fe on January 19 of the present year. Jose Torres, Hampe's companion at the time, was executed in the jail yard on April 3, for the murder.

Hampe was called for trial in the First district court for Santa Fe county and asked for a change of venue to Rio Arriba county, which was granted. The case is docketed for next Monday, the 11th. He will be taken to Tierra Amarilla today or tomorrow by Sheriff H. C. Kinsell and Deputy C. R. Huber.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Alvarado Pharmacy.

### ACCIDENTAL DEATH.

No Foul Play, Says Coroner's Jury, in Case of Pedro Gustamante.

A correspondent at Watrous, writing to the Optic, says: The coroner's jury called to investigate the case of Pedro Gustamante, who was found beside the track at Watrous, with both legs crushed off, and beyond all hope

Miss Alice M. Smith, of So. Minneapolis, Minn., tells how woman's monthly suffering is permanently relieved by Lydia E. Pinkham's Vegetable Compound.

"I have never before given my endorsement for any medicine, but Lydia E. Pinkham's Vegetable Compound has added so much to my life and happiness that I feel like making an exception in this case. For two years every month I would have two days of severe pain and could find no relief, but one day while visiting a friend I ran across Lydia E. Pinkham's Vegetable Compound,—she had used it with the best results and advised me to try it. I found that it worked wonders with me; I now experience no pain, and only had to use a few bottles to bring about this wonderful change."—Miss ALICE M. SMITH, 804 Third Ave., South Minneapolis, Minn.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

Many women suffer silently and see their best gifts fade away. Lydia E. Pinkham's Vegetable Compound makes the entire female organism healthy.

of aid, has returned a verdict in accordance with what seems to be the facts, that death resulted from the man being accidentally run down by a train. The theory of foul play has been abandoned. While it may have been the rough handling the man received was the cause of his dropping on the track, still he had been drinking considerably and possibly was not conscious of his actions from this cause. At any rate it was shown conclusively that he walked to the track himself, and that no one was directly responsible for his death.

It is likely the charges of the man's burial will have to be defrayed by the county.

### Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and liver troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size, 75 cents. At all druggists. G. G. Green, Woodbury, N. J. J. H. O'Reilly & Co.

### Acted as Sponsor.

Assistant Postmaster George W. Armijo of Santa Fe came down with President Roosevelt on Tuesday afternoon, and returned home on the evening train. Mr. Armijo was a sergeant in Troop F, First United States Volunteer cavalry, "The Rough Riders," and was present at the fight of Las Guaymas and San Juan Hill, the regiment then being under the command of Colonel Leonard Wood and Lieutenant Colonel Theodore Roosevelt. While at Santa Fe the president's carriage was stopped at the Cathedral and he entered to witness the baptism of the infant son of the assistant postmaster and Mrs. Armijo by the vicar general, Very Rev. Father Antonio Forchegu. President Roosevelt was sponsor for the little boy who is named Theodore Roosevelt Manderfield Armijo. Assistant Postmaster Armijo has a host of friends in this city, who are always glad to see him.

### The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

Dr. J. M. Cunningham, president of the San Miguel County National bank at Las Vegas, and H. M. Porter, proprietor of the Red River Cattle company's ranch, located in the southern part of the territory, passed through the city this morning en route east from a trip to the latter's ranch.

The troops from Fort Wingate did not get started yesterday as they anticipated, for one thing and another delayed their departure until this morning. They left town about 11 o'clock for their return trip across the country to the fort. Yesterday the boys did the town up brown, and the town did them up brown, too. All got away this morning but one, and he will follow later.

The barbers of the city met in Barbers' Union hall last night and entertained W. E. Klapetzky, secretary and treasurer of the International Barbers' union, who is here on a visit to the local lodge. Mr. Klapetzky's headquarters are at Cleveland, O. Members of local union No. 501 were out to the meeting in goodly numbers, and, after a short business session, a social session ensued. The proprietors of near-

ly all the shops in the city were present by invitation. The social session consisted of refreshments—bottled beer, eggs, soft and hard, mild and strenuous, and short talks from the visiting secretary and a few other members present.

Dr. Mark Levy, a rising dentist in Brooklyn, N. Y., who has been the guest of his brother in this city for several weeks, left this morning for Santa Fe. Here he will visit his uncle, Abe Gold, proprietor of the famous Gold's old curiosity shop and museum at the corner of San Francisco street and Burro alley. Dr. Levy made many friends during his stay in this city who regret his departure.

D. E. Phillips, the mail carrier, left this morning for Milwaukee, Wis., where he goes to attend the national convention of the Woodmen of the World lodge as delegate from jurisdiction C, comprising Texas, New Mexico and Arizona. The convention will convene next Tuesday and continue over until about the last of the month. W. A. Williams will substitute as mail carrier for Mr. Phillips during his absence.

### SCOTT'S EMULSION

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

Hon. Pedro Sanchez and daughter left today for their home in Taos. Mr. Sanchez was here to attend the Grand Army encampment.

### ATTENTION!

Piano Buyers.

Piano Bargains! Piano Bargains! Within the past four months we have sold and delivered two car loads of pianos. A number of customers who purchased old or slightly used pianos as part payment. It is these used pianos we are now offering at exceptionally low figures in order to clean out and reduce our stock and make room this month for another car load. If you have a child whom you desire to educate in music, an accomplishment for any young man or woman worth many times the cost in time and money required to learn, and you do not feel able at this time to pay three or five hundred dollars for a new piano why not call on us or write for further information regarding these pianos, which include good squares and uprights, all the way from \$25 up to \$165, a number of which we will guarantee in every way. If you intend to buy a piano some day and do not feel able to buy a new one, and some member of your household is now old enough to take up music do not lose the most valuable year when you can place an instrument with a good tone and action in your home at the low prices we are now quoting on pianos. At least, before deciding not to buy call and give us ten minutes of your time. That is all we will ask of you. Hall & Leannard, 208 South Second street.

### OSTEOPATHY NEVER POISONS

The Body is Better Without Drugs.

Can You Give a Rational Definition of Osteopathy?

Osteopathy is a system of therapeutics, based upon a thorough knowledge of anatomy and physiology, enabling the practitioner to look upon the body as a perfect living, automatic machine. There are more defective spines on earth than paupers. Get your spines in good shape and your chances for health will be good.

C. H. CONNER, M. D. D. O.
