LOUBET'S VISIT TO ALGIERS

Soldiers of the Legion Welcome His Coming.

EXAMINATION OF BOODLE WITNESSES

Columbian Government Refuses to Ratify Panama Canal Treaty.

Algiers, April 15.—Algiers was in gala attire in honor of the coming of President Loubet, the first chief of state since Emperor Napoleon III to visit the French North African possessions. The streets were elaborately decorated. In the harbor were Russian, British and Italian squadrons, sent to extend greetings to the president, also the French cruiser Du Chayla and the Spanish battleship Pelayo. Throughout the morning there was a continuous cannonading from the warships and forts.

At 10 o'clock semaphores signalled the approach of the French squadron, escorting President Loubet. The warships advanced in perfect order, with the armored cruiser, Jeanne d'Arc, bearing the president ahead, followed by the battleships and cruisers St. Louis, Charlemagne, Gaulois, Iona and Bouvet and a flotilla of smaller craft. It was an imposing naval spectacle, the beauty of which was enhanced by brilliant sunshine.

Columbia Refuses to Ratify Treaty.
Bogota, Colombia, received word that the ratification of the Panama canal treaty was extremely doubtful.

Examination of Boogie Witnesses.
St. Louis, April 15.—Examination of witnesses by the St. Louis grand jury, that is primarily the investigation of charges of boodling in connection with baking powder legislation in the Missouri general assembly, was resumed today.

Circuit Attorney Folk is not confining his investigation to baking powder

matters, for as the inquiry proceeds he finds evidence of other boodle cases involving numerous measures.

Made Him Sick.

St. Louis, April 15.—A special to the Post-Dispatch from Jefferson City, Mo., says:

Lieut. Gov. John A. Lee, star witness in the legislature boodle inquiry, is ill and will be unable to go before the Cole county grand jury today. Lieut. Gov. Lee and Attorney General Crowninshield had a long conference last night at the latter's office in the supreme court building. It was past midnight when they separated. The nervous strain, consequent upon this examination is thought to have brought about the lieutenant governor's present indisposition.

STATEHOOD BANNER.

It Will Tell President Roosevelt What We Want.

MEETING LAST NIGHT.

An important meeting was held at the Commercial club last night by the general committee for the reception to be tendered President Roosevelt, and arrangements for the great event were practically completed. It is only natural in arranging for an entertainment of this nature that many varying opinions should prevail, and considerable time was spent in discussing the details of the arrangement and the manner in which they should be put into execution.

That the reception of the chief executive of the nation shall be the greatest event in Albuquerque's history is the earnest desire of every citizen, and to that end they will unanimously work as a unit. After the report of the committee on decorations it was decided that several arches should be erected. One immense arch will be built on Railroad avenue at Second street. This, as well as all the others, will bear the motto: "Statehood and Roosevelt, 1904," and in the center will be a platform from which a little girl will sprinkle flowers on the presidential party as they pass beneath. The work of decorating the buildings along the streets which the president will pass was reported as progressing nicely.

When the question of what should be put in way of mottoes on arches and banners came up, it developed that there was considerable sentiment in favor of eliminating statehood altogether, but this sentiment did not meet the views of the committee on decoration, who proposed to put statehood mottoes on all of the arches that the committee erects, and in addition to have in front of the stand from which the president will speak at the Alvarado a map of the United States, properly marked off in some manner, or in lieu thereof a small compartment containing children dressed to represent the whole or a portion of the different states and territories and to have one child to represent New Mexico accepting a star from either Uncle Sam or Columbia. The committee carried its point by a vote of more than two to one, only those favoring the matter voting, the others remaining silent. It was decided that this plan should be carried out and that the motto "Statehood in 1904" should be placed on all the arches.

Denver Municipal Row.

Denver, April 15.—The fire and police board appointed by Governor Peabody last night made no attempt to take possession of the headquarters today, being restrained by an injunction secured by the old board. No date has yet been set for hearing the injunction proceedings, and there is no doubt the matter will not be settled till passed upon by the supreme court. Mayor Wright and City Auditor Barton will recognize the new board, but this will have but little effect.

Monitor Arkansas.

Evansville, Ind., April 15.—The United States monitor Arkansas arrived here today. Her coming was followed by a great demonstration. The Arkansas will remain in port two days. She is en route to St. Louis to take part in the world's fair dedication. The Arkansas is the first modern warship to come up the Ohio as far as Evansville and is the first of any kind of war vessel that has visited this port since the civil war.

Postoffice Robbed.

Ireton, Iowa, April 15.—Crackmen blew open the safe of the postoffice here after 11 o'clock last night and secured \$200 in money and stamps. About midnight two men were arrested by Marshal Thackeray on Hudson, S. D., nineteen miles away, after a fierce fight. After being locked up they set fire to the jail and were rescued with difficulty. They threatened to kill the marshal.

Strikers Attack a Steamer.

Cleveland, Ohio, April 15.—Fifty striking union firemen, armed with knives and clubs, boarded the steamer Howard L. Shaw when she arrived in the harbor today from Duluth, and attacked and terribly pounded three non-union men employed on the vessel. A riot call was turned in, but when the patrol wagon loaded with officers arrived on the docks the attacking party had dispersed.

Attempt to Rob Bank.

Denver, April 15.—Burglars tried to force an entrance into Daniels' bank on Sixteenth street early this morning, but were frightened away by a burglar alarm. There was about \$100,000 in cash in the bank besides valuable securities. This is the first attempt ever made in Denver to rob a bank safe. The police have no clue.

Freedmen's Society.

Report Denied.

London, April 15.—The report that ex-Crown Prince Louise and the Crown Prince Frederick Augustus, of Saxony, were to be re-married is denied. It is asserted in Dresden that such a thing cannot be possible.

MURDER IN VALENCIA COUNTY.

The Dead Body a Sheep Herder Found.

SHOT THROUGH THE HEART.

Adam Montoya, a sheep herder at San Jose, four miles from Cubero, in Valencia county, was found shot through the heart by another herder Monday morning. Montoya was employed in the sheep camps of Adolph Sanchez, and as he had not a known enemy a cloud of mystery surrounds the man's strange death. He was undoubtedly murdered, as no weapons were found near him. Two theories have been advanced by those with whom he was acquainted—one that Montoya killed himself, while the other is that he was murdered. The theory generally accepted is that the herders became involved in a row and that Montoya was killed, as no gun could be found on him. He was about 20 years old and had always borne a good reputation as a peaceable fellow.

Second Day's Session of National Association of Manufacturers.

THE SHAMROCK DID NOT RACE TODAY

New York, April 15.—If sufficient evidence can be obtained, it is not unlikely that the house-smiths and bridge workers union, which is attempting to tie up the work on the cantilever crane for the battleship Connecticut at the Brooklyn navy yard, because the company refused to employ union men, will be indicted for conspiracy against the government by the United States district court.

Admiral Rogers has asked Assistant District Attorney Howells of the eastern district federal court, Brooklyn, for advice as to what legal action could be taken to compel the union to cease interference with government work.

Howells pointed out that if the evidence could be obtained to prove that the persons were deliberately committing acts which would directly or indirectly hinder, delay or otherwise interfere with the work carried on for or by the government, such persons could be arrested for conspiracy against the United States. He declared that he was ready to make arrests whenever sufficient evidence should be collected.

DISTRICT COURT.

Important Case Before His Honor, Judge Baker, This Morning.

THE ISLETA INDIAN CASE.

Upon information filed by the district attorney, against Santos Ortiz for contempt of court in failing to obey a subpoena of the court served by the sheriff of Santa Fe county on the 4th of this month, was tried before the court this morning, and upon the testimony of the deputy sheriff, Dick Huber, that the service was duly made, which was denied by the defendant, the court found that the defendant was duly served and should have obeyed it, and sentenced defendant to confinement in the county jail for sixty days. By his attorney the defendant asked to give a supersedeas bond, which was refused by the court and defendant remanded to the custody of the sheriff.

Case of Juan Rey Abeytia vs. Juan Domingo Abeytia et al., suit by plaintiff and Isleta Pueblo Indians against four others, being the governor and other officers of the pueblo, for false imprisonment, for failure to obey the regulations of the pueblo, was before the court this morning. The case is a private matter between the Indians, the plaintiff claiming that by reason of the imprisonment he suffered damages in the sum of \$5,000. The case is conducted for the plaintiffs by A. J. Abbott, special United States attorney and for the defendants by Hon. William B. Childers, United States, and E. L. Medler, assistant United States attorney. The evidence of the that the plaintiff went into jail voluntarily some regulation he was ordered to go to jail for four days, and that the jail was cold and filthy, and that he was restrained against his will. The testimony of the defense tends to show that the plaintiff went into involuntarily and remained there of his own free will, in accordance with the manners and customs of the Pueblos. The suit is a novel one, but one other case between Indians being reported here, away back in the sixties, when one Pueblo sued another for the recovery of a picture.

committee held three short sessions last night and began its labors early this morning, but announcement was made that it would be unable to complete its report at the agreed hour, 11 a. m., and the chairman expressed the belief that the report could not be made until late in the afternoon. When the forenoon session was called to order, Hon. Carroll D. Wright was introduced and given a hearty reception. President Roosevelt had been invited to attend and in declining had named Wright to represent him.

At noon the resolutions committee announced that its report was ready. The labor question immediately came to the front in the shape of a resolution embodying a declaration of principles, declaring against boycotts and lockouts, recognizing the right of labor to organize, but "without interference with the liberty of employers or employee," denying the right of unions to fix wages and pledging associations to oppose all legislation not in accord with the foregoing principles. A motion to adopt the resolutions brought protest from James F. Taler of Cincinnati, who demanded that the resolution be printed and held over until tomorrow. Taler was supported by Mayor Jones of Toledo, and a rising vote was demanded. The motion to defer action was lost by a heavy vote and the resolutions were adopted.

Kindergarten Teachers.

Pittsburg, Pa., April 15.—The arrival of a number of belated delegates to the International Kindergarten Union convention resulted in a largely increased attendance when the gathering got down to business this morning. The forenoon was occupied entirely with the consideration of reports, the appointment of committees and other business of a routine character. This afternoon was given up to entertainment and jaunts to places of interest about the city. An interesting program has been arranged for this evening, the chief feature of which is an address on "The Relation of the Kindergarten to Civilization," by Dr. William T. Harris, United States commissioner of education.

Iowa Wants Good Roads.

Des Moines, Iowa, April 15.—Many parts of the state were represented today at the opening of the Iowa good roads' conference and many more delegates are expected to put in an appearance before tomorrow. The program provides for the discussion of the good roads question from all viewpoints and the conference is expected to result in a decided impetus to the movement in Iowa. Numerous manufacturers of bicycles, automobiles and road-making machinery are in attendance.

No Racing Today.

Weymouth, April 15.—No racing is expected between the Shamrocks today. Apart from bad weather, the challenger's main sail needs overhauling. It set like a gunnysack during yesterday's race. Fears are again expressed that the fault lies partly with the gaff and boom. Many people are of the opinion that they are too tight to do good work in a hard breeze.

Sentenced to Death.

Constantinople, April 15.—The Albanian soldier who shot M. St. Cherbina, the Russian consul at Mitrovitz, inflicting a wound from which the latter died, has been sentenced to death, the Russian embassy here having demanded a revision of the previous sentence of fifteen years' imprisonment.

The office and private room of the Corrillos coal yard (W. H. Hahn, proprietor) has been newly papered and painted.

Sensational Testimony Introduced in a Kentucky Murder Trial.

Evidence Showing That Goebel Was Shot by Hired Assassin.

Frankfort, April 15.—Frank Cecil, who has been away from Kentucky since his indictment last year as accessory to the murder of Governor Goebel, and who recently surrendered, made some sensational testimony in the trial of James Howard today. Cecil corroborated Culton, Broughton, Golden and others as to the alleged conspiracy. He also said that Caleb Powers, then secretary of state, told him that a man had been secured to come here from the mountains to kill Goebel. If this man failed to arrive, Powers told him, he (Cecil) would be paid \$2,500 if he would fire the shot. Cecil says he declined. Gov. W. S. Taylor, he testified, called him into his private office and told him the same thing. Governor Taylor said that he had saved \$2,500 from his campaign fund and that he would pay immediately. Governor Taylor also mentioned Yontsey as a witness and referred witness to him.

INDIAN CONGRESS.

The Southwest to Figure Prominently in Exhibit on Coney Island.

A GREAT EVENT.

The metropolis of the southwest, already noted as one of the curio centers of the world, will add laurels to her fame in the representation of Indian curio producers at the Indian congress to take place at Coney Island this coming summer.

Beginning May 1 and continuing through the long summer months until October 1, 150 industrial Indians, coming from their homes in the north, the northwest and the great southwest, representing every tribe who produce the Indian goods so manifestly in demand by museums and curio collectors throughout the country, will hold an Indian congress at the celebrated summer resort, Coney Island.

An Indian village, covering several acres, such as human eyes have never witnessed before, will be built. The village will be divided, certain parts being reserved for the various tribes present. The Indians will be supplied with a home, in the Indian village—an exact reproduction of their native homes; the surroundings and environments being made to conform with those of the aborigine as nearly as possible. The Indian congress is in the hands of the largest curio dealers in the country, and neither time nor money will be spared in making it one of the most attractive and instructive exhibitions, that has ever been prominent toward making Coney the famous place it is. The southwest will be represented in part by five Navajo Indians from Thoreau, who are skilled and expert weavers of blankets, silver-smiths and hair workers. An effort will be made to secure the best workmen possible and they will immediately be sent to Coney Island. It is thought that the five attractive and picturesque Navajos, who spent the winter producing the beautiful Navajo blankets in large department stores in Pittsburg and New York, will be secured for this representation. They proved a great drawing card, not alone by their good healthy appearance, but by their skill in producing Indian goods.

It will be remembered that John Lee Clark, who had charge of the Indians on this trip, created all kind of excitement in Pittsburg with these same Indians who had never been off the reservation before. First he took them street car riding. They were the center of attraction; the people were not accustomed to seeing Indians clad in buckskin, profusely adorned with silver ornaments. While on the street car a fuse blew out and they ran pell-mell out of the door, dropping off into the deep snow. Then an automobile was secured and after the first attempt Mr. Clark was compelled to ride alone, for the Indians were making for the horizon. The next venture of Mr. Clark and his Indians was in an elevator. They treated the trip heaven-

A telegram to the Denver News from Fort Worth dated April 13 says: Charles F. Martin, secretary of the National Live Stock association, headquarters at Denver, was here yesterday on his return home after spending some weeks in Arizona for the benefit of his health. Speaking of conditions in the west, particularly in New Mexico and Arizona, Mr. Martin said: "The Salt River valley, in Arizona, is the prettiest spot on earth, and, like perdition, only needs water. The government is considering the matter of building a Salt river reservoir which will come under the irrigation appropriation, and will cost several million dollars. It will furnish water for over 600,000 acres. When this is done that country will raise in abundance all kinds of tropical fruits. In fact, oranges, lemons, figs, etc., grow nicely even now with a scarcity of water. "The live stock industry in Arizona is in a flourishing condition—better than it has been in seven years—on account of good rains. The country is covered with a carpet of good grass and wild flowers. Cattle and sheep are fat, and satisfactory prices are being received. Wool is bringing 16 cents, within 4 cents of Montana prices. Arizona wool a few years ago brought only from 10 to 12 cents. "It is expected in the west that the shipment of cattle from Mexico in bond for British Columbia will be unusually large. Among some of the stockmen who are embarking in the silver business in that country are Abner T. Wilson, late president of the Oklahoma Cattle association. It is his intention to stock ranges in British Columbia with a large herd of Mexican cattle. Two shipments of 25,000 head have already been contracted for. They will go through the port of El Paso."

Edwin T. Lownsbury, a young Philadelphia newspaper reporter, who sojourned here the past few months, will return to the east in a few days.

SANTA RITA KILLINGS

Particulars of the Santa Rita Mining Camp and Other Details

DEPUTY SHERIFF KILLED

The Citizen published the following brief account of the shooting and killing of two men at Santa Rita, Grant county. The particulars are told in the following article taken from the Silver City Independent:

Santa Rita, N. M., April 12.—The camp was a scene of a double killing last evening, in which two men, Manuel Portillo and Guadalupe Mendez, met their deaths at the hands of H. B. Rose, deputy sheriff. The men were shot while resisting arrest, and the coroner's jury returned a verdict exonerating the officer from all blame.

The tragedy was the direct result of the drunken conduct of the victims. Portillo and Mendez, with two companions, Manuel Romero and Elmer Gonzales, had been drinking heavily, and during the day, in order to add to their so-called pleasure, secured a dead wild sheep and were driving about the country, tributary to Santa Rita. The wagon and harness they borrowed from Mariano, who was the driver from Julian Esquibel. In the afternoon they went to the town of Santa Rita and while there they were very boisterous in their behavior, charging guns on more than one occasion during the course of their ride. When they returned to Santa Rita, they were learning of their doings and the rough treatment which they had been giving his outfit, went before justice of the Peace P. J. Howe and swore out a warrant for their arrest. About the time this was done the men were seen driving about the camp and Judge Howe asked Deputy Sheriff Muse to go with him and make the arrest. When the officers found the men they were unloading the horses near the home of Mr. Llanos and here they had been very profane in their talk towards some ladies who were nearby.

Some conversation took place at this point, the substance of which was that the men were to consider themselves under arrest and to be present at the justice of the peace court in the morning for trial. Portillo and Mendez were ugly in their behavior and were ordered taken to jail. Deputy Muse then started off with the prisoners, a brother of Portillo accompanying them. After proceeding a short distance, the prisoners refused to go any further and parties ceased, during which Mr. Howe rejoined them. Portillo especially was disposed to give trouble and Howe and the brother attempted to pacify him and have him go along with the officers. While this was taking place, Mendez had been looking on the scene and was in the act of antagonizing the action by shouting and making a scene. Portillo then went from the scene who were trying to get him to go with Muse, and at the same time Mendez came back and the other two. Realizing the danger of his position, Mr. Muse fired two shots—one at Portillo and the other at Mendez.

His aim was terribly true. Portillo fell back with a bullet in his heart and died instantly. Mendez, who had been shot through the heart, staggered a step or two and dropped dead. The whole thing had taken place so quickly that even those who were there did not for a second realize that two lives had been forfeited. As soon as it was known that the men were beyond earthly aid their bodies were picked up and delivered to friends.

A coroner's jury was empaneled and after hearing the evidence returned a verdict of death at the hands of Deputy Muse and stated that the killing was justifiable. Muse testified that he believed his life to be in danger when he fired and his testimony was corroborated by those present. The officers will be given a preliminary examination Tuesday and there is every reason to believe that he will be exonerated at that hearing. Muse was perfectly cool and collected during the trouble. He says that the men were attacking him and he acted in self defense. At the time, he was under the impression that Portillo's brother was a third aggressor, but it seems that his presence was due to a desire to keep his brother out of trouble and he made no move against the officers.

Portillo and Mendez were married today, the former at Pinos Altos, his former home, and the latter here. Portillo was about 25 years of age, and has been a resident of Grant county since a boy. He lived in Pinos Altos, but has recently been at Santa Rita, where he was in the employ of the Santa Rita Mining company. He was a large, stocky man and physically much stronger than the average man, but was not living with his wife's wife.

Mendez was about 36 years of age and was employed on one of the mines. He was unmarried and had not been in the country long, having come here from Old Mexico.

The killing occurred just above the concentrator plant on the main road. Public opinion in the camp is with the officer. There is some feeling among the Mexican people over the affair, but those who are familiar with the circumstances admit that the killing, while deplorable, was justifiable.

Disappearing Railroad Competition. With about a score of men and their number steadily diminishing, the control of practically all the railways of the nation, the question becomes

whether these few men shall be permitted to control the nation's highways, the making or marring of the industries of 80,000,000 people, says the Chicago Inter-Ocean.

If they are to be permitted—if they are to be allowed to exercise such vast powers without public restraint—then there is a need for the soberest of all laws.

There is a need for nothing to become a law, but about, but there is a need for the soberest of all laws.

Improving the Tracks. The Santa Fe tracks are to be ballasted with gravel from Pueblo eastward. A great deal of improvement work has been done on this portion of the tracks during the past three years. Heavier steel has been laid down as fast as the old has deteriorated, and massive culverts to better protect the road against washouts have been built in great numbers. Gravel as ballasting though not as good as stone or slag ballast is far better than earth ballast. To place broken stone along the prairie tracks would cost an enormous amount, as the material would have to be hauled long distances.

Several ailments, rheumatism, erysipelas and other threatening eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Blood Bitters.

Wants Traveling Card. The following is a sample of some of the letters received by the secretary of the Central Labor Union from people who did not see the necessity of joining a union until they got into a city where it was necessary in order to get a traveling card.

Dear Friend: I arrived at Denver Wednesday last at 6 p. m. and started housekeeping at next day. We have a nice room at 40 W. 10th street, today. My wife and I went out looking for work, which is not hard to find here if you belong to the Union, which I do not, so I would like to ask a favor from you. If you can send me a Working card as a Beerbottle I can get a job in the morning. Now I hope you will not refuse. I now you can do it as you have organized the Brewery workers of late, and ever the changes are let me now and I will send money immediately, don't forget a traveling card. Hoping to hear from you soon, etc.

Robbed the Grave. A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, top of my chest, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters. To my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim. No one should fail to try them. Only 50 cents guaranteed, all druggists.

The religious decadence of the small New England towns is causing considerable discussion. Dr. J. W. Wilson says that the churches should study the needs and problems of homes and neighborhoods, and invent for them, as they have done in the case of the Sunday school.

The entire burden of supporting the Roman Catholic schools in the Indiana, since the withdrawal of government aid, has been borne by Miss Mary Hays, a nun of Philadelphia, who is now a nun. "The Society for the Preservation of the Faith" has recently been organized to assume this burden.

DI MAURO CONCERT.

A Fine Musical Entertainment—Dance Followed.

The grand concert given by Prof. Di Mauro and his pupils and accompanists was attended by a large audience who received the well prepared program in a manner that displayed their appreciation. There were twelve numbers on the program, and each was most invariably accompanied with an encore.

The Italian band, which is recognized as the foremost musical organization of the city, opened the concert by playing "King Dodo," followed by the grand orchestra.

The pleasing clear contralto voice of Miss Nellie Taylor's was well received by the audience.

Prof. Di Mauro, whose musical tal-

ents, especially have won favorable recognition, by all those who have heard the tones he produces from the stringed instrument, was heartily applauded for his rendition of Ovide Musin's "Theme and Variations."

Mass Grace Houghton's sweet contralto, which delighted the audience, was heard and greatly appreciated in her singing of Nevin's "Doris."

Mr. A. Moya handled the cornet in a manner that spoke well of his training on the difficult instrument.

The deep basso voice of Edward F. Thomas, a vocalist of local fame, made the usual favorable impression in an old Spanish song.

Mrs. John Cuneo sang "Cavatina" from "Lucia de Lamermoor," after the overture by the Italian band and orchestra. Mrs. Cuneo's singing struck a responsive chord with her audience and she was compelled to respond with an encore. This was her first appearance in public and she is to be complimented on her singing.

Another number, which was well received, was the rendition of "Romance" from "Maritana," by Mrs. F. R. Wendell. She has a sweet soprano voice and won many compliments by her singing last night.

Mrs. Hanthorn, Miss Everitt, Miss Read and Miss Damiana were the accompanists. Miss Damiana's playing was praised by many of the audience, who predict a brilliant future for the young lady.

Following the concert the young people spent a couple of hours in delightful dancing.

The concert was a success both from a musical standpoint and financially.

Soliciting Not Permitted. There is a woman in this city who is homelier than the rock of ages who is industriously soliciting funds for the International Sunshine society. The following shows that she is an impostor:

Santa Fe, N. M., April 10, 1903. Editor Albuquerque Citizen—Dear Sir: The International Sunshine society permits no one to solicit funds. It is against the rules of the society. We have nobody collecting money for any purpose whatever.

This is the message received from headquarters in reply to a letter of mine, and you will oblige me by giving it wide circulation throughout the territory. Very respectfully yours,

MARY E. DISSETTE, Territorial President International Sunshine Society.

POLICE COURT.

Judge Crawford devoted more than half an hour this morning listening to the trials and tribulations of an unpleasant family quarrel. Mrs. Rosendo del Valle appeared in court yesterday morning preferring the charge of mistreatment against her husband, who travels for an eastern music house. She wanted him placed under a peace bond to protect her against any further trouble. The case was called for trial this morning, and each side allowed to tell their story. It developed that there was nothing more than a family row, and the judge advised them to seek a divorce court instead of the police court, which both parties seemed willing to do.

A Chattanooga Druggist's Statement. Robt. J. Miller, proprietor of the Read house drug store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Alvarado Pharmacy.

CLERKS' UNION.

Membership Increased to Nearly One Hundred.

The Retail Clerks' union held a regular meeting last night at which twenty-seven names were added to the membership, now making the total enrollment of the clerks' organization nearly 100 members.

The charter of the clerks' union will be kept open for two weeks longer as there are quite a number of clerks to enroll, who have not had an opportunity to do so.

H. Frank Fillmore was elected as treasurer to fill the position made vacant by the resignation of Hugh C. Trotter, who was granted an honorary withdrawal card, on account of becoming an employer, the by laws providing that no proprietor can hold active membership.

Five delegates to the Central Labor Union were elected, who will present their credentials at the next meeting, one week from Monday night.

Nearly every one of the larger establishments in the city are represented in the union, and all the smaller ones where clerks are employed. All will be in line in a very short time, as the forming of unions seems to have become epidemic in our city. It is a sure sign of progress and a guarantee of the intelligence of the working people of the city.

Laundry Workers' Union.

Arrangements are well under way for formation of a Laundry Workers' union in this city, some of the employees of the Imperial laundry already having membership in the Federal Labor union of this city.

"BROWN'S IN TOWN."

He was Here for the El Paso Times and Collected in Advance.

W. O. Brown, who worked up the Albuquerque side of the recent special edition of the El Paso Times, has proved himself to be a fakir of the worst kind; or rather a fakir smart enough to squeeze money out of advertisers in advance for write-ups, and as a later consequence he has skipped out. Brown had no authority to collect in advance, but he did, and the gentleman from the Times, now in the city, finds it a hard proposition to collect any money at all, for "Brown's in Town" has been here in advance. Brown was a nice fellow in El Paso, he was the honest bookkeeper at the Times office, and on account of his good record at home, Brown was sent out of town to do business elsewhere. Juan Hart now realizes that Brown, the honest "Brown's in Town" at home was not the proper person to send away, and that the Times will be the loser. His present whereabouts is unknown.

Good for Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of cough, croup and lagrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. B. H. Briggs & Co.; S. Vann & Son.

Taxpayers of precincts 12 and 26, of the city of Albuquerque, can leave their tax returns at the office of F. H. Kent, on Third street, for the next few days, where the assessor has established an office for the purpose.

The Elks' show at the Colombo hall tomorrow night will be all right. Grand parade tomorrow evening between 5 and 6 o'clock.

Look into Kleinwort's market on North Third street. He has the nicest fresh meats in the city.

There will be a very important meeting of the Ladies' St. John's Grill Friday afternoon at 2:30 at the rectory. Every member is urgently requested to be present.

SOCORRO NOTES.

(Concluded from page one.)

schools are on an excellent financial foundation and no city of 1,500 inhabitants boasts of better.

Socorro is the proud possessor of a telephone system of fifty 'phones. The appliances are modern and the service is entirely adequate to the purposes required. It is under the able management of Capt. T. J. Matthews.

Company H, of the national guard of New Mexico, which is one of the valued organizations of the city, will hardly pass the inspection to be made May 23. It will hardly be able to pass muster for the reason that it will be short of sixty-five men and officers. Although the officers have been making every effort to fill the ranks, they have had little success on account of the absence of the required young men in the city.

August Winkler, the baker and confectioner, has purchased from A. T. Katzenstein the latter's stock of confections and soda fountain. He has moved the same to his store near the park and will conduct a first class confectionery and ice cream parlor in connection with his bakery.

Rev. C. F. Taylor and family are recent arrivals in Socorro. Rev. Taylor has accepted a call with the Presbyterian church here.

The Socorro base ball team and a team from Carthage crossed bats here Sunday in a game, which terminated in the latter's defeat by a score of 13 to 11.

C. T. Brown, the mining man, has been very busy today assorting and placing in position a fine addition of mineral specimens to his already valuable collection. There was a large trunk full of them. They were from near Joplin, Mo., and consisted of lead and zinc sulphides and lime calomite. Quite a large number of Socorro people intend attending President Roosevelt's reception at Albuquerque May 5.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Alvarado Pharmacy.

Watch the Elks' parade tomorrow evening between 5 and 6 o'clock. It will be grand.

RAILROAD NOTES.

Business is on the increase at the local shops, and the force in all departments is being increased.

Officials of the Wabash railroad will spend \$10,000,000 in improvements of terminal facilities on its line.

William Daze, the traveling engineer on the coast lines of the Santa Fe, was here yesterday looking after his duties.

A long string of cars, loaded with delicious California oranges, passed through the city last night for the east.

B. W. Robbins, general agent of the Denver & Rio Grande railroad at Santa Fe, has returned from a trip to Tres Piedras.

Everything and everybody is moving along at a lively pace down at the big local shops. Plenty of work doing, and of course rush orders are keeping the forces hard at work.

The report comes from Bisbee to the effect that the Phelps-Dodge people will start work in the next two weeks on the extension of the Nacozari railway from Cos to Nacozari.

The Santa Fe railway will sell tickets at the rate of one fare for round trip to Santa Fe from all points on its lines in New Mexico for the date of President Roosevelt's visit to that city on May 5.

F. A. Putney, chief clerk of the railway mail service, with headquarters at Denver, was in Las Vegas to make arrangements with the street railway company in regard to carrying the mails to the springs.

The Rock Island system has purchased 160 acres of land adjoining its right of way at Peabody, Kas., and is constructing a reservoir for water supply. Contracts for masonry for the amount of \$32,000 have been let.

The Las Vegas Record says: A base ball team is being organized among the men at the round house, and judging from the list of players, they will be able to make it pretty warm for any team in the city. What's the matter with having a game?

The base ball players at the local shops will tackle the Old Town Tigers again at the fair grounds next Sunday afternoon, and they are confident of victory this time. They are doing a little practicing every afternoon, and are gradually getting themselves in shape.

Railroads in the United States and Canada have combined to fight the issue of fraudulent tickets, of which many passengers have been the victims. In pursuance of this the railway ticket protective bureau has been organized with a membership of all lines in the Central Passenger association.

A fine special car of the Kansas City & Southern railway was attached to passenger train No. 1 the other day. It carried as passengers Mr. and Mrs. John Lambert, wealthy folk of the windy city on Lake Michigan, and a party of friends, who are bound for an outing on the golden shores of the Pacific.

A Thoughtful Man.
M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c. at all druggists.

Red Men Organize at Santa Fe.
Saturday night, Francis M. Clute, of El Reno, Okla., deputy chief inchoinee for the Territory of New Mexico of the Improved Order of Red Men, instituted Santa Fe Tribe, No. 2, and installed the recently elected officers, says the New Mexican. The new lodge starts

off with the largest membership of any lodge of the order in the territory. The new tribe is well pleased with the work. The officers of the order are: John R. McFie, prophet; Charles L. Bishop, sachem; H. B. Phillips, senior sagamore; Charles N. Lord, junior sagamore; A. P. Hogle, chief of records; J. H. Vaughn, keeper of wampum; Frank Sturgess, first sannah; H. S. Kaune, second sannah; William J. McPherson, guard of wigwag; David L. Miller, guard of forest; H. S. Lutz, first warrior; Frederick Muller, second warrior; Thomas A. Herlow, third warrior; Robert C. Garrett, fourth warrior; W. R. Price, first brave; G. H. Vaughn, second brave; J. Y. Turley, third brave; John Den-dahl, fourth brave.

THE MARKETS**Special Correspondence.**

Kansas City, Mo., April 13.—Cattle receipts last week amounted to 29,287 head, against 24,908 head the same week last year, and also showed a gain of 2,000 over the previous week. There was a fair run of western fed steers on Tuesday and Wednesday, but small on other days of the week. Best price was reached Thursday, at \$4.80 for 1,249 pound steers. Trade was active and snappy each day, and closed 15 to 25 cents higher for week. Choice light heifers also sold higher. Mixed cows and heifers, \$7.60 pounds, sold at \$4.40 Tuesday. Any she stuff carrying decent flesh brought from \$3.65 up. Fat bulls were dull. Colorado stockers sold at \$4.10 Tuesday, and Colorado feeders, 935 pounds, brought \$4.65 Friday. Good kinds of stockers and feeders gained 15 to 25 cents during the week. Pastures are earlier in this territory than for twelve years, and thin cattle are now in more request on this account.

The run today is light at 5,000 head, the same as a week ago. Market opened steady, but strength soon developed and most sales of cattle were strong to 10 cents higher than best time last week. Outside demand for fat steers, which has heretofore been largely absent, puts new life in all grades of cattle, especially lending confidence to stocker and feeder buyers. The general cattle situation is better than it has been for some time.

Sheep receipts last week amounted to 26,882 head, against 14,555 head the corresponding week last year, and were made up almost entirely of killing stock. Up to Wednesday the market was on the boom, and prices on woolled lambs reached \$7.60 and on wethers \$6.80, both record prices. Later in the week, lower eastern reports and liberal supply made prices weak, and wethers quit 15 cents off, and ewes in some cases 25 cents lower. Too many light weight Mexican lambs arrived, and prices of these are off 25 cents. Best grades are 5 to 15 cents lower. Receipts today were upwards of 8,000 head, embracing 3,500 Arizona grass sheep. The latter sold at \$6.00 for sheep and yearlings mixed, weighing 84 pounds, and \$5.00 for 90-pound ewes. The general market today was steady to slow. Best Colorado lambs brought \$7.40, weighing 79 pounds.

The horse trade last week was satisfactory to sellers. The outlook seems good for range horse prices this season. Heavy purchases for the British army, the drought, the settlement of the Arkansas valley, are given as reasons for a shortage in the supply, and consequent better price for range horses. Unbroke westerns are worth \$35 to \$45 and broke stock \$50 to \$75.

from the New Mexican.

Mrs. C. R. Huber became very sick again, and is no longer today.

Mrs. Dora Fletcher is confined to her home by sickness and her kindergarten will not be opened until Monday.

Miss Rana Bradley, of Florida, who is in St. Vincent's hospital, where she recently underwent an operation, is now able to be up.

I. B. Hanna, superintendent of forest reserves, has recently had the sidewalk in front of his residence on the Fort Marcy reservation on Grant avenue repaired at his own expense. This is the right sort of progress.

Mr. and Mrs. W. E. Cartier, of Ludington, Mich., and their children, left for home after sojourning in Santa Fe since last May. The visit here has been for the benefit of Mr. Cartier's health, and he returns to his home a robust man.

A delegation of Roman Catholic artists, headed by Right Rev. J. B. Pitaval, auxiliary bishop of the Santa Fe archdiocese, departed for San Juan, where Rev. Camille Soux, who has been at that place the past thirty-five years, has built a magnificent chapel in honor of Our Lady of Lourdes. The party will be away only a few days. Those who went from here besides the bishop were: Rev. A. Rabe, Rev. A. Donohue, Rev. A. Haertman, Rev. J. Hintzen, Rev. V. Thomas, Rev. A. Callier, Rev. J. Gauthier, Rev. M. Mayaux, Rev. J. Picard, and Rev. M. Oliver.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the thousands who have used this remedy for these diseases have yet to learn of a single case resulting in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

LAS VEGAS.

From the Optic.

Miss Pearl Rice, who a short time ago scalded her foot by boiling a kettle of boiling water, and was nearly recovered from the effects of the painful accident.

Mrs. W. E. Bell received from the local Woodman lodge a check for \$1,000, the amount of insurance paid in the order by her husband, who died at La Junta two weeks ago.

Cards have been received from the city announcing the marriage of Miss Martha Bogue, a accomplished young lady, well known here, and James Edwin Bennett, of Chicago, Wednesday, April 8.

William H. Patrick, who represents the county in the legislature, is in the city on his way to the Colorado state capital, where he is visiting. Mr. Patrick has for many years held an important position in the sprightly mining town of Madrid, but he is thinking very strongly of accepting a position in the city of Denver, where he is now visiting. His wife, Mrs. Patrick, is also in the city.

Dr. Martin, a scholarly young physician from the university of Toronto, expects to leave in a few days for Winnipeg, Man. The young gentleman expects to hang out his shingle in one of the progressive cities of the great prairie province. Dr. Martin has made many good friends during his winter here, and will carry with him from Las Vegas, many pleasant recollections. His health, which was somewhat impaired when he came, has been completely restored.

From the Record.

Charles Sippy died suddenly of hemorrhage. He was about 25 years of age and came here from Union Bluffs, Iowa. The body will be held awaiting instructions from his father, who has been wired of his son's sudden death.

The government has made an allowance for a mounted mail carrier for the west side and a regulation mail wagon has been ordered and as soon as it arrives the service will be put on which will greatly expedite mail matters for that portion of the town.

C. Reid, assistant United States attorney, received from the treasury department a check in payment for the site for the new federal building to be erected in Albuquerque. He will go to Albuquerque to make final examination of the title and to pay over the money. The location of the new building will be across the street north of the Commercial bank.

Grip Remedies in Great Demand.

Then colds and grip are prevalent the quickest and surest remedy is the demand. Mr. Joseph D. Williams of McDuff, Va., says that he was cured of a very deep and lasting attack of the grip by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all druggists.

SILVER CITY.

A Sweet Breath is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet." B. H. Briggs & Co., E. Van & Son, Lowell, Mass.

DEMING.

From the Graphic.

Miss Lizzie DeLong came in from Cooke and is visiting friends in town for a few days after which she expects to go to Mesquite to spend the spring.

W. G. Ogilvie, manager for southern New Mexico for the Mutual Life Insurance company, and Dr. Stead have just returned from a three weeks' trip as far north as Pecos Plaza, in Socorro county and report the cattle in good condition and less very small. There is plenty of snow in the mountains and a good crop of grass is assured. They visited the thriving mining camp of Cooney and found a new concentrator running and the camp is employing fifty men.

A few good sidewalks would be a good thing in Deming this spring. The walks, even in the business part of town, are in a very poor state, and to a stranger in our city give a decidedly bad impression. The building of good walks is not very expensive and it is a decided advantage to the town, and enhances the value of the property where they are constructed materially. Why can we not have a number of good sidewalks this year.

Beauty and Strength.

Are desirable. You are strong and vigorous when your blood is pure. Many—most women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion, depart. ARE YOU LOSING WEIGHT?

So then your system is out of balance, and there is a flaw somewhere in your constitution, and a possibility that you are losing health, too. The fact of losing weight may be slight, but it makes a difference in one's looks and feelings, and unless the building up process is begun in time, health and strength are soon gone and health quickly follows. If you are losing weight there is a cause for it. Your blood is deteriorating and becoming too poor to properly nourish the body and it must be purified and enriched before lost weight is regained. It requires something more than an ordinary tonic to build up a feeble constitution, for unless the blood and germs that are lurking in the blood are destroyed, they will further deteriorate the blood and weaken the system, and you continue to lose weight.

In S. S. S. will be found purifying and tonic properties combined. It not only builds up weak constitutions, but searches out and destroys germs and poisons of every description, and cleanses the system of all impurities, thus laying the foundation for a healthy, steady increase in weight and good health.

Food may be bountiful and the appetite good, but still the system weakens and we remain poor in flesh. Unless what we eat is properly digested and turned into rich, pure blood, S. S. S. re-inforces the stomach and aids the digestion and assimilation of food, and there is a rapid up-building of health and strength.

S. S. S. acts directly and beneficially upon the nervous system, strengthens and tones up, and relieves the strain by producing sound, refreshing sleep. You find no tonic so invigorating as S. S. S., and being composed exclusively of pure and healthful ingredients, it is attended with no bad effects. Old people will find that it braces them up, improves the circulation of the blood, and stimulates all the bodily organs, and operations of delicate constitutions can take S. S. S. with safety. It does not derange the stomach, it cures the strong mineral remedies, but acts gently and without any shock to the system. Those whose feelings tell them they are not strong, and who are growing thinner and weaker, should take a course of S. S. S. and build up again. S. S. S. is recognized everywhere as the leading blood purifier and the best and best of all tonics. We cheerfully furnish medical advice without charge to all who will write us.

FOREST RESERVE LAW

Another Decision as to Constitutionality of Grazing Rules.

IMPORTANT TO SHEEP RAISERS.

The test case against Joseph Dent for sheep trespass on the San Francisco mountain forest reserve, in which the district court found him guilty of trespass and imposed a fine, which decision was subsequently reversed by the supreme court of the Territory of Arizona, claiming the act of congress, under which the rules and regulations promulgated by the secretary of the interior, governing the forest reserves, unconstitutional, was of much interest to stockmen.

United States Attorney Frederick S. Nave is preparing a motion asking for a re-hearing on the case.

In the circuit court of appeals for the Ninth judicial district of California, a case very much similar was passed upon, deciding the law under which injunction proceedings were had to restrain sheepmen from grazing their sheep on the reserve, was constitutional, and the fine of \$100 for disobeying the injunction of the circuit judge was affirmed by the court of appeals. The main points of the decision are as follows:

The court upon the hearing, overruled the demurrer and granted an order for an injunction, pending appeal. This appeal is from the order of granting the injunction.

The contention of the counsel for the appellants is (1) that the rules, hereinafter referred to, discriminate against the owners of sheep; (2) that the appellants had an implied license to pasture their sheep upon the public domain; (3) that the act of congress (approved June 4, 1897) is an unauthorized delegation of legislative authority to an administrative officer; (4) that the "irreparable injury" shown; and (5) that there is a denial of defendants.

And upon these several points they cite many authorities.

It must be admitted that the legislative authority of the United States is vested in congress, and that congress has no authority to delegate legislative power to the secretary of the interior, or to any administrative officer.

The authority to make laws, and the authority to execute laws, are separate and distinct powers, and the secretary of the interior is not authorized to make laws.

By that act the secretary of the interior was authorized to "make such rules and regulations and establish such service as will insure the objects of such reservations, namely, to regulate their occupancy and use, and to preserve the forests thereon from destruction." Does this language delegate any power to the secretary of the interior to make a law, or does it simply confer upon the secretary an authority to adopt such rules and regulations, as to him may seem fit and proper, in order to secure the objects for which the reservation was created, such acts to be exercised under, and in pursuance of the law enacted by congress? Let us see. Congress cannot delegate its power to make a law, but it can make a law to delegate a power to an administrative officer to determine a fact or condition of affairs, in regard to which the law makes its own action dependent.

Due Notice is Served.

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless imitations. Those persons who are the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. B. H. Briggs & Co., S. Vann & Son.

They always effect a cure and save doctor bills.

Little Early Bile are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. B. H. Briggs & Co., S. Vann & Son.

The authority to make laws, and the authority to execute laws, are separate and distinct powers, and the secretary of the interior is not authorized to make laws.

By that act the secretary of the interior was authorized to "make such rules and regulations and establish such service as will insure the objects of such reservations, namely, to regulate their occupancy and use, and to preserve the forests thereon from destruction." Does this language delegate any power to the secretary of the interior to make a law, or does it simply confer upon the secretary an authority to adopt such rules and regulations, as to him may seem fit and proper, in order to secure the objects for which the reservation was created, such acts to be exercised under, and in pursuance of the law enacted by congress? Let us see. Congress cannot delegate its power to make a law, but it can make a law to delegate a power to an administrative officer to determine a fact or condition of affairs, in regard to which the law makes its own action dependent.

Due Notice is Served.

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless imitations. Those persons who are the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. B. H. Briggs & Co., S. Vann & Son.

Roosevelt Excursion Probable.

An attempt is being made to get up an excursion to Albuquerque on the 5th and 6th to see President Roosevelt. If sufficient people express themselves as willing to go the Santa Fe railroad will offer special rates. The matter of getting a crowd is in the hands of a committee of citizens.

For Liver Piles and Constipation.

There's nothing better in creation than Little Early Bile for the famous little pills.

They always effect a cure and save doctor bills.

Little Early Bile are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. B. H. Briggs & Co., S. Vann & Son.

Dreadful Attack of Whooping Cough.

Mrs. Ellen Harrison, of 300 Park avenue, Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

LOCAL PARAGRAPHS

Dr. J. H. Wroth went out to Grants, on the Santa Fe Pacific Monday night, on professional business.

J. W. Ackers and wife, of Santa Fe, with Albuquerque relations, are here today, and will remain a few days.

Frank Hall, the special service man on the Santa Fe coast lines, with headquarters at Winslow, was in the city yesterday.

The sidewalk in front of the big clothing store of Simon Stern, Railroad avenue, is being made level with the adjoining sidewalks.

Deputy United States Marshal Leatherman left Monday night for Las Cruces, where he has gone to serve papers on Crencelo Bustillos, who is charged with violating the liquor license law.

Ernest Hayden, until recently connected with W. J. Mallette, owner of the Fair store, has accepted a position with John Oliphant, manager of the J. W. Bennett Curio store on North First street.

Ildro Sandoval, the popular south Second street general merchant, says he will do his shearing and lambing on a fine watered ranch near the Arizona line, and expects to go with a force of shears on Saturday night. Mr. Sandoval expects to save ninety per cent of the lambs dropped.

A car load of trained seals, direct from Pacific Grove, California, passed through the city Monday night for Chicago, and thence to Louisville, Kentucky, and Penn. Indiana. They will be delivered to John Robinson's and the Wallace Bros. circuses. The seals were in charge of W. E. Winstin, the former owner.

Judge Romero, of the probate court, held a special term of the court Monday, and took action on certain claims against the estate of H. C. Leeds, deceased. Judge Romero is proving himself the right man in the right place, and being handy, can be called upon to hold court at the pleasure of those having probate business.

Capt. Woodhall, partner of Elias Garcia in the raising and buying of sheep, returned to the city Monday afternoon from Lewis' Rio Puerco range. The captain reports the flocks in fine condition, and says that there is plenty of good grass and water. They will begin shearing several thousand wethers about May 1.

The New Mexican says: Deputy Sheriff C. E. Newcomer of Bernalillo county, was in the city Sunday and returned to Albuquerque with Santos Ortiz and Wilfredo Baca in his custody. They were arrested on bench warrants charging contempt of court. They had been subpoenaed as witnesses in the second judicial district court at Albuquerque, and failed to appear.

The handsome three-story business building of Bachechi & Glom, being constructed on south First street corner of Silver avenue, is assuming interesting proportions. In fact, in a very short time the contractors will be ready to turn the handsome structure over to the owners as completed. All the upstairs rooms, on First street and Silver avenue, will have bay windows, thus assuring plenty of light and good sunshine. When completed it will be one of the finest buildings of its kind in the city.

The Citizen published in full the other day the act passed by the last legislature relative to compulsory education. It is a good law and one that should be honestly enforced. There

are too many children, especially boys, in Albuquerque and this vicinity whose parents are indifferent as to whether their children go to school or not. The law referred to compels such people to give their children at least the rudiments of an education, and when they neglect or refuse to do this they should be punished.

INDIAN CONGRESS.

(Concluded from page one.)

ward then downward more kindly than the automobile.

After the first pleasant sensation of rising rapidly then falling, it required two janitors and four policemen to get the Indians, not Mr. Clark, out of the elevator. According to the dictates of nature, they were compelled to eat. A brilliant idea struck the curio man in charge. He would take his well appearing Indians to the swellest hotel in the smoky city. In some manner the waiter brought in the ice cream before the more substantial eatables, and it was impossible to make them eat anything but the frozen cream, and it took several days to educate them to eat what was good for them.

But several months of such experiences made them good Indians without being dead Indians. They will make the entire trip to Coney without any one accompanying them.

Every curio dealer interested in the project are using their efforts toward making the congress as successful exhibition.
