PATTERSON SAYS HE MADE AND SENT OUT COPIES OF LETTER CALLING WALKOUT

Secretary-Treasurer Also Sent Another Communication to Union Leaders; Shop Workers Deny Any Connection With the Ordering of a Strike November 15; Say They Are Not Discontented.

In spite of the fact that W. S. Patterson, local secretary-treasurer of the Machinists' Union on the Santa Fe system, has denied responsibility, or direct connection with the strike call which is alleged to be arranged for tomorrow morning, he admits having written the letter bearing his signature which is published herewith, admits he made copies of the circular letter calling the strike and that he sent the two letters out to union chairmen at various points along the Santa Fe. Patterson claims that the circular letter originated at some other point than Albuquerque. Yet both the circular letters, which Patterson denies connection with, and the one bearing his signature, which he admits having written bear the same date.

One point of responsibility is connected with Patterson. This lies in the publication of the circular letter, calling the strike. Patterson brought a copy of the letter to the Morning Journal Sunday night and its publication yesterday morning was because of his request for publication.

In view of the great secrecy which is being maintained in connection with the circular letter and of certain other phases, many have formed the opinion that there must be something more than the simple calling of a strike behind the affair. One fact which is self-evident in view of the letter signed by ten men who compose the committee appointed to represent the sign of the Santa Fe shops in Albuquerque before the labor board is that some one outside the shops is making an effort to foment dissatisfaction among the shop workers.

In the letter which Patterson admits having written and sent out with the circular letter calling for a strike, he opens with the statement: "The enclosed letter is self-explanatory." Patterson's letter is also self-explanatory, although men in the shops may ask for consideration of the explanation in the very different tone of the two letters.

Patterson's letter is as follows:
Albuquerque, N. M.,
November 14, 1922.

ALL CHAIRMEN:

The enclosed circular letter I believe is self-explanatory. In order to make this effective it must be handled very carefully. Many of these to all shops whose names and address you are able to secure upon the 12th (and not before), then endeavor to have some of them turned over to the shops on the 13th. It might be a good idea also to have some of them posted around the shop, but be careful not to get caught posting them because it might be considered a violation of the Daugherty injunction.

Don't read this in your meeting or let any information concerning it get beyond the 12th. You can just say that you will have some information to give out on the 12th which will indicate that anybody is a double-crossed dam fool who would think of returning to work at this time.

You may not be able to start a movement of this kind at your point, but this will at least serve the purpose of giving the management some excuse for anything that they do. It is a cold-blooded business proposition. We want to win the strike and win it quickly, and believe me, if these fellows can be induced to walk out the job will be up right now; so let us smother our feelings on this question for the present and do everything we can to encourage this "Strike No. 2."

These men can be made to pay for their disloyalty later, and we can well afford to ease up a little on their punishment if they will at this late date show that they still possess enough manhood to come out and acknowledge their mistake and signify a willingness to atone for their error.

My activities in this matter may mean trouble for me, therefore do not under any circumstances permit this circular to get out of your possession, and be careful not to

revel to any one from what source the enclosures came to you. Yours for a finish fight and a quick settlement.

(Signed) W. S. PATTERSON.
"The Great Northern, Northern Pacific, Burlington and Santa Fe railroad systems are contemplating negotiations with the striking shopmen. I have a letter here from one of our men in El Paso, a vice editor of the El Paso Herald, who is a friend of ours though he is associated with a reactionary paper, showed this man a confidential message from the A. P. conveying this information."

Above was the statement made shortly after noon yesterday, in the offices of the Morning Journal, by W. S. Patterson, secretary-treasurer of the Machinists' union, on the Santa Fe system.

After making the statement, Patterson produced a letter and read what were evidently excerpts from it—his folding over of part of the letter and evident skipping about proving that he was reading only excerpts. Patterson refused to give the letter, however, the name G. W. Kelly was given to the communication. This signature was seen by two members of the Journal editorial staff while Patterson held the letter in his hand. Patterson refused to identify the letter in any other manner excepting to say: "It is from one of our men in El Paso."

Patterson also explained that the alleged settlement with the strikers is the recent death of Thomas DeWitt Cuyler, formerly chairman of the Association of Railroad Chairmen.

"With the death of Cuyler," Patterson said, "this influence has been removed and these four big railroads are now contemplating settlement with the strikers. I do not mean to say they are doing so, but they are contemplating it."

He then went on to talk about the suggested strike which, according to him, was to be instituted at 10 a. m. tomorrow. He also explained that the circular which is being circulated, a copy of which was published in the Morning Journal yesterday, did not originate in Albuquerque," Patterson stated.

There were copies of the letter which came to me, a number of them. But the letter was not intended here. It is all being handled very secretly.

Wells is trying to accuse me of being responsible for that letter. Asked what was his opinion on this statement that he is trying to insinuate me.

The letter came from outside. I did make a number of copies of the letter and sent them out to our outside chairmen along the Santa Fe system. But I don't think that makes me liable under the Daugherty injunction, because I did not send the copies of the letter to any men in the shop. I simply sent them to our chairmen in the same way as I sent out other information which directly concerns our

CLEMENCEAU NOT TO DEBATE WITH LONGUET IN U. S.

Former Premier Says He Is Coming to America to Talk to Americans, Not to Argue With Frenchmen

On Board the Steamship Paris, En Route to New York, Nov. 13 (By Associated Press).—Former Premier Clemenceau reacted promptly today to a wireless message from Jean Longuet, French deputy and leader of the minority socialists, who challenged him to a debate on the league of nations.

"I am going to America to talk to Americans, not to argue with Frenchmen," commented the premier. "I can have all the debates with them back home."

Everybody aboard ship was up early again this morning to greet the "Tiger" on his way. Three or four fast trips about the deck, but Mr. Clemenceau overslept, not rising until 9:30 and not appearing on deck until 7:30, a full hour behind his schedule. He appeared interested in what the world ashore was doing and asked the newspaper men walking with him what was going on.

Mr. Clemenceau took luncheon today at the captain's table, smiled occasionally, but had little to say when he went out to his cabin, talking with him as a good sport, a book condemning his Turkish policy.

OPPOSES CHANGE IN ORGANIZATION PLAN FOR GUARD

Richards Submits Recommendations to Committee Called to Consider Problems of That Service.

Washington, Nov. 13.—Opposition of the militia bureau to any change in the basic plan in effect for organization and maintenance of the national guard component of the army of the United States, worked out in the national defense act, was expressed by Major General Richards, chief of the bureau, today in submitting recommendations to the committee of the national guard called to consider problems of that service. At the same time, General Richards said, he realized "the impossibility, due to insufficient funds, of completing the guard plan of the act and outlined what he described as a feasible, advisable and easily adjustable scheme of development.

Of first importance, General Richards said, was the completion of the eighteen infantry divisions of the guard, four cavalry divisions and 122 "specific coast artillery units." This should be followed, he added, by organization of 18 artillery regiments to be manned with 155 m. m. guns.

"To organize these troops at full peace strength," the militia bureau chief continued, "will require 254,024 men. This amounts to a strength of 478 men per senator or representative, or 584 per congressional district."

The office added that the present strength of the guard aggregated 164,907, or some 23,000 of which went into surplus infantry and cavalry units, and army troops and state staffs.

In recommending that the committee consider the advisability of urging no present change in development plans, General Richards stated that he believed the act of recognition should be extended on the basis of the following priorities: "Infantry divisions, cavalry divisions, coast artillery and harbor defense units, corps troops, army and general headquarters troops."

He also outlined a suggested method of under which the chief of the militia bureau should designate certain units over in the above categories which should be reserved to the national guard reserve, or deferred for organization in an actual emergency, principles to which such designation to the cause of organization of the particular units, its non-combatant character and its non-suitability of purely state purposes in peace time.

The committee will consider the matter laid before it during the present week.

MAN CAUGHT KISSING WIFE OF ANOTHER IS SHOT AND DIES LATER

Fort Worth, Texas, Nov. 13.—A C. Glenn, 35, of Forest Hill, a suburb was shot six times at 2:50 o'clock this afternoon and died in an ambulance en route to a hospital.

The shooting occurred in the doorway of a local department store in the heart of the downtown business district.

H. B. Green, also of Forest Hill, was immediately taken into custody and charged with the killing. He was taken to the district attorney's office, where he made a statement in which he declared that he had "caught Glenn kissing his wife."

Glenn and Mrs. Green were found not guilty of adultery last night.

The shooting drew thousands to the scene, the streets being jammed with persons who were there to witness the event.

STEEL COMPANY DEFICIT.
New York, Nov. 13.—The Crucible Steel company of America shows a deficit of \$6,459,234, including \$2,749,815 in unearned dividends paid in its annual report of operations for the year ending August 31, as compared with a profit of \$5,547,245 for the preceding year.

Newberry's Senate Seat Hangs in Balance as Antis' Forces Gain

Above, Senator-elect Ferris, left; Newberry, center; La Follette, right. Below, Senators-elect Shipstead, Minnesota; Edwards, New Jersey; Ralston, Indiana; and Copeland, New York.

(By Central Press).
Washington, D. C., Nov. 13.—The senate seat of Truman H. Newberry of Michigan today hangs in the balance and only by the narrowest of margins is he expected to be elected.

Acquainted by his colleagues of the charges of excessive expenditures in his campaign of 1918 against Henry Ford, Newberry now faces another fight to retain his seat.

Anti-Newberry forces in the senate now claim fifty-two votes and are expected to gain a majority in the result of the runoff elections in which seven of Newberry's staunchest defenders were defeated for re-election, including his colleague from Michigan, Senator Townsend.

On the other hand, his opponents point that eleven anti-Newberry votes were re-elected, including Senator La Follette of Wisconsin, and "Fighting Bob" of Illinois, the arch-enemy of his Wolverine colleague.

Senator-elect Ferris of Michigan has declared that his first official act will be to force the reopening of the Newberry case in the senate. In this he will be aided and abetted by Senators La Follette, Shipstead, Copeland, Edwards, Ralston and Bruce.

But the senate may never have occasion to reopen the case. Newberry's secretary already has announced that the senator is in ill-health and though it has been denied the report persists that Newberry will resign rather than face his reinforced enemies on the floor.

The vote to sustain Newberry last January was forty-six to forty-one, with nine senators not voting. Of these forty-six votes were repudiated at the last election. Seven of the anti also lost their seats by death, defeat or retirement, but this loss was more than made up by the anti who won all these fourteen seats.

Will Ask Grand Jury to Indict
TRO IN JERSEY

Evidence Will Be Presented Thursday in the Case of Slaying of Minister and His Choir Singer.

Somerville, N. J., Nov. 13.—Evidence on which indictments against a woman and two men for the slaying of the Rev. Edward Wheeler Hall and his choir leader, Mrs. Eleanor Mills, will be presented to the Somerset grand jury next Thursday morning.

This was announced today by Special Deputy Attorney General Mott, in charge of the investigation, following a conference with Prosecutor Beckman of Somerset County and County Detective Mason. Mr. Mott declared he had all his evidence in hand, and felt reasonably certain that it was sufficiently forcible to warrant the return of the indictments to be sought.

He refused to go into details concerning the testimony or the witnesses to be called.

On the heels of the announcement it was learned that Henry Carpenter, cousin of Mrs. Frances Stevens Hall, widow of the slain pastor, had suddenly been stricken ill today and rushed to a hospital where he was operated on for appendicitis. Physicians said he could not be expected to live for several days. Carpenter is one of the witnesses questioned by investigating officials and was to have met Mr. Mott this morning.

County Detective George Totten tonight announced the authorities possessed evidence tending to discredit the statement of the affidavit filed yesterday with Mr. Mott by Mrs. Nellie Russell, nee Mrs. Jane Gibson, in her affidavit Mrs. Russell swore that she had been talking to Mrs. Gibson the night of September 14, at which time the pig raiser claims to have witnessed the slaying of Mr. Hall and Mrs. Mills.

Declares Her Innocence.
Mrs. Hall today addressed letters to Mr. Mott and Foreman Gibb of the grand jury, declaring her innocence of any participation in the double slaying, and asking that she be permitted to tell her story before the investigating body. The letters said she was willing to sign a waiver of immunity before she testified.

URGENT POMEARENE FOR JUSTICE DAY'S POST

Canton, Ohio, Nov. 13.—A resolution calling upon President Harding to consider Senator Atlee Pomerene, democrat, defeated in the recent elections by Congressman S. D. Fess for re-election as a suitable man to appoint as a justice of the United States supreme court to succeed Justice William R. Day, retired, was adopted today by the Stark County Bar association.

Football Player Dies.
Cleveland, Ohio, Nov. 13.—Hubert Curley, 15, member of the Cathedral Latin football team, died this morning from internal injuries sustained in football practice three weeks ago.

BROTHERS SLAIN FOR THEIR LIFE SAVINGS
OF LESS THAN \$1,500

Orford, N. H., Nov. 13.—John and Charles Davis, brothers, the former a Civil war veteran, were killed for their life savings of less than \$1,500, the authorities announced tonight.

An autopsy on the bodies which were found last night, in a little cabin on the outskirts of this village showed that the heads had been crushed, evidently with an axe. A bloodstained axe was found nearby.

John Davis was known to carry about with him the funds of both, accumulated through 50 years of thrift.

KEYSTONE STATE IS IN LINE FOR 7 CHAIRMANSHIPS

Pennsylvania Will Top the List in Big House Committee Heads Unless Seniority Rule Is Changed.

Washington, Nov. 13.—Pennsylvania, with seven, will top all states in big house committees heads in the new congress, unless the seniority rule is abandoned.

All told, there are 60 standing committees, but some of them have little to do with important legislation. The seven important chairmanships Pennsylvania is expected to have are: Banking, claims, foreign affairs, judiciary, naval, post-office and printing, a gain of two.

Iowa Will Have Four.
Tennessee will have four, all big ones. They are: Ways and means, all-powerful of itself; roads, agricultural and inland affairs, chairman of the latter, however, could relinquish control there to take education, lost to Ohio through the shift of Representative Pess to the senate.

Illinois will hold on to the appropriation, the biggest committee of the house, and rules will pass from Kansas to New York. Rivers and harbors, accounts and Indian affairs will remain with New York.

In the present house, with a solid delegation, Ohio has the chairmanship of only one big committee—education. Ohio members of the old senate and senate might not to keep them out of honor their claim as their due.

The far west will hold on to several important committees including immigration, labor, military and territories.

Minnesota last week lost leadership of the judiciary and postoffice holding on to the pensions and the new committee in beginning to favor greater representation.

Committees Shot to Pieces.
Some of the committees were shot to pieces. The committee on the rules committee which looks like as if a cyclone had struck it—eight of the ten republicans being out after March 4.

Indiana will get the chairmanship of commerce, which must wait the bill for house reorganization.

There will be a big shift around regardless of whether the seniority rule holds up or falls down. About ten vacancies are to be filled on appropriations. A scramble already has started for four of the eight republican places on the rules committee which will be vacant.

Massachusetts will stick to merchant marine and interstate commerce, two committees in which important legislation will be considered.

Steering Committee.
The steering committee, which shapes legislation, consists of six members, two of which will not come back. Greene of Vermont was elected to the senate; Dunn of New York did not run. The others who hold over are Barrow, Pennsylvania; Lowrey, Ohio; Sanders, Indiana; Anderson, Minnesota and Nolan, California.

New England and New York will insist on continued representation on the committee which will be abolished. One is woman, suffrage and the other is control of the liquor traffic. Members say these committees might as well be wiped out. As the committee is composed on committees, which pick members for the hundreds of times, Representative Mann of Illinois, the veteran of many legislative battles, has a notion of power greater than that of any other man in shaping the organization of the next house.

Florida Entomologist Is Confident That Growers in That State Are Assured of a 90% Crop.

Gainesville, Fla., Nov. 13.—(By the Associated Press).—Bullfinches were sent out today by the state plant board of Florida detailing at length the improved method of controlling the boll weevil as evolved by Dr. George D. Smith, assistant entomologist of the bureau, and announced Saturday night by Dr. Wilmon Newell, director.

While expressing confidence that Florida growers of upland cotton by following the new method are assured of at least 90 per cent of a normal crop, Dr. Smith pointed out that the cotton has been under attack since the late Santa Fe system federation. Mr. Wells said, adding that in his opinion the circularizing of the shoptown would have little or no effect.

"The Santa Fe's equipment is in good condition and we have such a low percentage of bad order cars that we are about to reduce our forces."

"I never heard of it," Mr. Jewell said, when asked concerning the origin of the circular which certain union men at Albuquerque, N. M., said purported to have been drafted by union men who did not strike last July 1. Only one of the circulars had reached the Santa Fe office here. It was picked up in Syracuse, Kans.

Mr. Patterson admitted yesterday that he made copies of the circular letter and mailed them to shop crafts chairman, but denied that he was the author of the original letter; he said he did not originate it here and he did not know from what town it had come.

Substance of Plan.
The substance of Dr. Smith's plan is to clear the fields of weevil infestation early in June and then give the staple free growth until August, when the annual immigration of the weevil sets in. The staple has grown to such an extent by this time, that harm from the weevil is inconsequential.

In this state, the bulletin pointed out, the crop is usually "made" by August 15.

Dr. Smith recognized in the beginning of his experiments that the boll weevil could be effectively poisoned before it reached the "squares" or flower bracts of the plant. His investigation, therefore, had to do with ridding the plant of the last of the overwintering weevils which appear later and deposit their eggs on the squares.

Remove Early Squares.
The plan he evolved meets this obstacle by the simple process of removing the early squares and then thoroughly disinfecting the plant. His experiments disproved the belief that removal of the early squares would lower the cotton yield.

In this state, the bulletin continued, by removing the squares early in June and cleansing the boll, the plant then has almost as long a period in which to set fruit as it enjoyed in a normal season prior to the coming of the weevil.

"At first thought," the bulletin continued, it may appear that a considerable amount of cotton would be destroyed or lost by removal of the first few squares, say, an average of about two large squares to the plant throughout the field. It has been demonstrated that the cotton plant normally sheds sixty per cent of its fruit during the growing season. Therefore a loss of two squares

Continued on Page Two.

ATTORNEY MAKES ACQUITTAL PLEA FOR ACCUSED IN HAMMER SLAYING

Mrs. Phillips' Counsel Contends That It Was Mrs. Caffee Who Beat Mrs. Alberta Meadows to Death.

CASE EXPECTED TO GO TO JURY WEDNESDAY

Defendant Weeps When the Charge of Infidelity Which Her Husband Made, Is Mentioned.

Los Angeles, Nov. 13.—A plea for the acquittal of Mrs. Clara Phillips on trial for the murder of Mrs. Alberta Meadows, based on the contention that it was Mrs. Peggy Caffee, the state's star witness, who beat Mrs. Meadows to death with a hammer, was made to the jury today by Bertman A. Harrington, defense attorney.

"Peggy Caffee struck the mortal blow," Harrington declared, "it was not the defendant here, but Peggy Caffee, and she alone that caused the death of Alberta Meadows. We do not know who mutilated the body after the death blow was struck, but such mutilation does not make any one guilty of crime."

Harrington was still arguing when court adjourned today. He devoted practically all of his time to an attack upon the testimony of Mrs. Caffee, which he characterized as a "stack of manufactured incidents."

Mrs. Phillips wept when her attorney mentioned a charge of infidelity which she had testified her husband made against her, but otherwise did not indicate she heard the plea in her behalf.

The case is expected to go to the jury Wednesday.

3 JURORS ACCEPTED TENTATIVELY IN THE HERRIN MINE CASES

Marion, Ill., Nov. 13.—(By the Associated Press).—Three jurors had been accepted tentatively in the case of five men charged with murder in connection with the Herrin mine killings last June when court adjourned late today after a series of voir dire were questioned and excused.

The three men declared themselves in favor of the death penalty, while the others indicated that protection would demand for those on trial.

The men said they favored legal execution if there was sufficient evidence.

State Attorney Delos Duty, representing the state, and former County Judge Rufus Neely, representing the defense, are deciding the complexion of the jury, which is to try Ole Clark, Ben Grant, Peter Miller, Joseph Carnari and Leva Mann for the death of Howard Hoffman of Huntington, Ind., one of the 23 persons who died as a result of the riot at the sister strip mine near here last June 21 and 22.

While Cloud, Mich., Nov. 13.—The trial of Mrs. Alice Hudcock, for the alleged murder of her son-in-law, Alton Hudcock, opened in circuit court here today with indications pointing to the same difficulty in obtaining a jury that was met in the trial of the defendant's daughter, Mrs. Meda Hudcock, who was convicted of killing her husband's father, David Hudcock. The fall session today was adjourned until the 15th of the month.

TRIAL OF WOMAN FOR ALLEGED MURDER IS BEGUN IN MICHIGAN

Alfalfa Crop Near Artesia Is Bountiful

Corn and Cotton Crops Also Make Good Yield In Spite of Drought; Harvesters Work in Overcoats.

Artesia, N. M., Nov. 13.—The alfalfa crop in this section of the Pecos valley has proved to be a great source of income to the farmers. Hundreds of cars of alfalfa have been shipped to eastern markets and more will be shipped. The price for choice hay is about \$25 per ton and it is thought that farmers who stored their hay will receive over \$30 per ton during the winter.

The first cutting has not been harvested in all sections. A large alfalfa grower near Artesia is cutting his last crop this week. The frosts and the frosty nights have not affected the crop to any great extent. The yield is larger than usual for this time of the year.

The alfalfa is expected to be harvested by the middle of November. A few years ago hay balers were busy in the fields after Thanksgiving. The season will not last that long this year.

The workers who are moving the hay and operating the hay presses are working with overcoats and sweaters on account of the cold. This is a peculiar feature, and proves the excellent adaptability of alfalfa to this country. Farmers are also harvesting the hundreds of acres of corn, which were planted last spring. The yield is not as large as formerly on account of the excessively dry weather during the summer. No precipitation of any worthy proportion has been registered for almost two years.

The income to the farmers is greater this year than usual. The apple crop was small, but an excellent price for alfalfa and cotton increased the amount. Five or six hundred bales of cotton, which will average almost \$100 per acre, or \$140 per bale, have been ginned at the local gins. The other crops of the county will increase this number to several thousand bales.

COAST LEAGUE SEASON TO OPEN ON APRIL 3

San Francisco, Nov. 13.—The 1923 season of the Pacific coast baseball league will open April 3 at Salt Lake City, when William H. McCarty, president of the league, announced tonight. The dates and schedules for games of the first four weeks were fixed tonight. The directors agreed to let Salt Lake play each Thursday at Ogden when the team was at home. The provided President Lane of the Salt Lake club did not object.

The directors voted tonight, five to one, to abolish the bonus system, under which several thousand dollars was distributed among the clubs, according to their standing at the end of the season, the only one in which it has been tried by the league.

39 DELEGATES ATTEND I. W. W. CONVENTION

Chicago, Nov. 13.—Thirty-nine delegates attending the opening session of the fourteenth annual convention of the Industrial Workers of the World, devoted the opening day to organization and appointment of committees.

Only 12 groups are represented this year, the lumber jacks and agricultural workers leading with seven delegates each. Five hundred and twenty men, the chairman announced, are carrying the red card, but only a small fraction are paid up and in good standing.

The convention will continue three days.

WEATHER

FORECAST.

Denver, Nov. 13.—New Mexico: Fair Tuesday, except unsettled northwest portion, rising temperature east portion; Wednesday, fair; warmer east portion.

Arizona: Fair, south, unsettled north portion Tuesday, Wednesday, generally fair, continued cold.

LOCAL REPORT

PATTERSON ADMITS HE MAILED OUT LETTERS CALLING SHOP STRIKE

Continued from Page One.

organization. It was simply in the regular line of business."

Asked about the proposed walkout of tomorrow morning, Patterson stated: "They are going out all right. I look for the largest crowd at Cleburne and San Bernardino. But there will be many more at other places."

"I don't know how many will go out here. But one group of Spanish-Americans have sent word to the outside that they are going out."

"The men in the shops are not satisfied," Patterson said. "There is a great deal of dissatisfaction about union men."

"No, they are not satisfied. It was all right when they were getting everything they wanted. But they have been cheated by the union lately, made them pay for meals and cut out their overtime and things like that and they are not satisfied."

"You know the men under cover in the shops the same as they have men under cover among our men. Of course, some of this is foisted on the outside."

At the time he made his statement, Patterson had not seen the letter signed by ten perfectly contented union men in the Santa Fe shops. This letter is published below.

Denying any connection with the letter being circulated which calls for a walkout of tomorrow morning, and positively refuting statements made by W. S. Patterson in the Morning Journal office yesterday—these statements being that union men in the Santa Fe shops here are greatly dissatisfied—ten men signed a letter yesterday morning at the Santa Fe shops. These ten men constitute the Employees' Committee of the Santa Fe shops in Albuquerque.

Other statements in connection with the talk of walkout are also disproved. The statement that all union men who have returned to work in the shops will join in the walkout, is refuted. The signers of the letter below are five union men who returned to work in the first walkout and the other five are union men who walked out but have since returned to work.

The statement that they are dissatisfied is refuted in the letter itself. The statement that the letter is being given wide circulation in the shops and the one that all mechanics have seen it are both refuted. The union men who presented the letter given below said that he had never seen the circular letter until he read it in the Morning Journal yesterday.

The letter, which appears to shed considerable light on the subject from the angle of the men at work, is as follows:

Albuquerque, N. M., November 13, 1922.
TO THE EDITOR OF THE ALBUQUERQUE MORNING JOURNAL.

Albuquerque, New Mexico,
Dear Sir:

Having read the article in this morning's Journal with reference to the so-called "Second Strike" of shopmen, which, according to this article is supposed to be called on November 15, at 10:00 a. m., we feel that it would be entirely unfair to the citizens of this community and to the employees of these shops to allow the statements made therein to go unchanged.

The letter, which purports to be one gotten up by men who did not go out on July 1st or who have returned to work since that date, is undoubtedly only the last spiraling wall of a lost cause. A cause which was lost by poor leadership at the moment of its conception, and we men who did not go out on this holiday, and who have returned to work when we saw and recognized our folly in any longer adhering to the impossible, wish to say that there is no truth whatever in the statement that we ourselves formally signed such call as that contained in this morning's article.

We feel that we have been in the past, and will continue to be in the future, properly treated by the A. T. & S. Ry. company, and while such conditions exist there is nothing else for us to do as men of principle but to be loyal to the interest of our employer and the general public.

With reference to the statements as to the condition of equipment, we hardly feel that any refutation of this is necessary, for, as is well known, this equipment is subject to the inspection at all times of U. S. government inspectors who do not hesitate to order defective equipment out of service when necessary; therefore, if its condition was as stated it would not be in service.

It is very evident that the statements contained in this morning's article are only the mouthpieces of the same unwise leaders who have misled a trusting body of men since July 1 and caused them to lose all of the privileges and benefits which they held through long service with the A. T. & S. Ry. company, the same leaders who treated with contempt the efforts of the legally constituted railroad labor board to save these men from making the move which was later made and which proved so disastrous to the general public as well as to the men who engaged in this hopeless strike.

Yours truly,
(Signed)

FIRE DESTROYS HOTEL.
Houston, Texas, Nov. 13.—The Colorado hotel, a three-story wooden structure was destroyed by fire early today. Guests escaped in their night clothes; some dropped into fire nets and two were rescued from a third floor sill to which they were clinging.

SCHOOL HEAD ASKS GIRL PUPILS TO WED EUGENIC MEN ONLY

Continued from Page One.

Superintendent Mortenson.

Superintendent Mortenson of the Chicago public schools hopes to obtain a pledge from every girl student in high school that "to wed marry until a eugenics certificate proves her prospective husband has led a clear life. The teachers will be used to gather the pledges."

DEMANDS OF TURKEY OUTLINED BY ISMET

Lausanne, Switzerland, Nov. 13 (By the Associated Press).—Turkey demands merely that it be dealt with as a government founded as other responsible governments are, and that it be allowed to enjoy the same rights in its international relations. This, in brief, was the statement made today to representatives of the world's press by General Ismet Pasha, head of the Turkish delegation.

Ismet also took occasion to deny the reported wholesale atrocities against the Greeks, and said there had been an organized effort to stir the Turkish nationalists in the eyes of the western world. The Turks, he said, protect women and children in their movement against Smyrna, and avoided loss of life as far as possible during their operations.

Ismet also took occasion to deny the reported wholesale atrocities against the Greeks, and said there had been an organized effort to stir the Turkish nationalists in the eyes of the western world. The Turks, he said, protect women and children in their movement against Smyrna, and avoided loss of life as far as possible during their operations.

JAPS CANNOT BE NATURALIZED IN UNITED STATES

Supreme Court Holds They Are Not Eligible; Test Afforded by Color of Skin Is Impracticable.

Washington, Nov. 13.—Japanese are not eligible for naturalization in the United States, it was held today by the supreme court.

The court stated that the question before it was: "Is the naturalization act of June 25, 1906, limited by the provisions of section 2169 of the revised statutes of the United States?"

"If so limited is the appellant eligible for naturalization under that act?"

The court answered the first of these questions in the affirmative and then in discussing the phrase "free white persons" as it appears in the statute said:

"Undoubtedly the word 'free' is originally used in recognition of the fact that slavery then existed and that some white persons occupied that status. The word, however, has long since ceased to have any practical significance and may now be disregarded."

"Manifestly the test afforded by the mere color of the skin of each individual is impracticable as that differs greatly among persons of the same race, even among Anglo-Saxons, ranging by imperceptible gradations from the fair blond to the swarthy brunette, the latter being darker than many of the lighter hued persons of the brown or yellow races. Hence to adopt the color test alone would result in a confused overlapping of races and a gradual merging of one into the other, without any practical line of separation."

"The federal and state courts, in an almost unbroken line, have held that the words 'white persons' meant to indicate only a person of what is popularly known as the Caucasian race. With the conclusion reached in these several decisions we see no reason to differ. Moreover, that conclusion has become so well established by judicial and executive concurrence and legislative acquiescence that we should not at this late date feel at liberty to disturb it. In the absence of a sharp line of demarcation between those who are entitled and those who are not entitled to naturalization, but rather a zone of more or less debatable ground outside of which, upon the other hand, are those who are ineligible for citizenship. Individual cases falling within this zone must be determined as they arise from time to time by what this court has called, in another connection, 'the gradual process of judicial inclusion and exclusion.'"

"The appellant in the case now under consideration, however, is

clearly of a race which is not Caucasian, therefore belongs entirely outside the zone on the negative side. A large number of the federal and state courts have so decided and we find no reported case definitely to the contrary. These decisions are sustained by numerous scientific authorities which we do not deem it necessary to review. We think these decisions are right and so hold."

EVOLVES METHOD FOR CONTROL OF FOE OF COTTON

Continued from Page One.

to the plant on the average, should not affect the yield."

OFFICIALS INTERESTED IN THE ANNOUNCEMENT

Washington, Nov. 13.—Officials of the department of agriculture, which has been actively fighting the boll weevil for more than 20 years, are greatly interested in the announcement of the method evolved by Dr. George B. Smith, associate entomologist of the Florida state plant board, for controlling the pest, which has caused a loss averaging, it is estimated, of \$300,000,000 annually during the last four years.

Dr. Smith formerly was in the employ of the federal bureau of entomology and spent some time in the study of the boll weevil while in the federal service. Active work department officials declare, is being done especially at the federal experiment station in Louisiana. The use of calcium arsenate in insect dust form in controlling the boll weevil, the department adds, has been gradually developed during the last seven years and has proved fairly successful. During the present season, according to official use of the dusting method on one 14,000 acre plantation in Mississippi was very effective at a cost of about \$4 an acre.

ITCHING PILES

PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application.

All druggists are authorized to refund money if PAZO OINTMENT fails to cure any case of ITCHING, BLEEDING, or PROTRUDING PILES. Cures ordinary cases in 6 days, the worst cases in 14 days. 60c.

JUSTICE DAY'S NAME WILL BE PLACED ON RETIRED LIST TODAY

Washington, Nov. 13. (By the Associated Press).—This was "clean up day" in the supreme court, which endeavored to discharge as large a number as possible of the cases which had been heard at the present term. Three weeks ago the court took an unusually long recess with the knowledge of the contemplated resignation of Associate Justice Day. This was done to enable him to participate to the fullest degree in the decision of cases which had been presented to the court while he was a member. Although his resignation, recently placed in the hands of

President Harding does not take effect until tomorrow, Justice Day did not appear upon the bench today and will discharge no further active duties as a member of the court. Tomorrow his name will be placed upon the retired list of the court of which he has been a prominent member since February, 1902. This will enable him to give his undivided attention to his new duties as umpire upon the American-German claims commission.

TIERNEY TO LINCOLN

Chicago, Nov. 12.—President Tierney of the Western League left tonight for Lincoln, Neb., to negotiate a deal for the transfer of Sioux City, Iowa franchise to Lincoln, which formerly was a member of the league.

Your faith in Kellogg's Bran can never be misplaced—IT IS ALL BRAN!

Kellogg's Bran, cooked and krambled, will permanently relieve the most severe cases of constipation because it is ALL BRAN—not a food mixture that cannot possibly have sufficient natural corrective properties. Once constipation gets into your system you must fight it to the finish. Kellogg's Bran is the weapon. It will win for you. Don't take half-way measures; don't temporize.

Kellogg's Bran is permanent relief for constipation if it is eaten regularly—at least two tablespoons daily; in chronic cases, with each meal. And, Kellogg's is a taste-delight because it is delicious and comes to you as a highly palatable, desirable food, as well as a corrective.

You will greatly enjoy Kellogg's Bran as a cereal; its nut-like flavor improves any hot or cold cereal, and innumerable inviting bakery batches can be made with Kellogg's. Try some Kellogg's Bran pancakes. They're great! Or, raisin bread or gems! Kellogg recipes are printed on each package.

For health's sake, get the whole family eating Kellogg's Bran just as quickly as possible, because it is ALL BRAN and it will make over the health of every big and little member. Your physician will recommend Kellogg's Bran because it is positive and because it will sweep and cleanse and purify, and put color back into faded cheeks. It will help children grow big and strong; it will clear and tone and brace up the system of every one who eats it regularly. All grocers sell Kellogg's Bran because its use is universal!

Cooking 3 meals a day for 365 days a year—that's 1,095 meals each year—is reason enough why you deserve the best range built.

It's no fun to get 1,095 meals a year with a spunky, stubborn, worn out range. You deserve a range that's dependable—that will always be glad to do your bidding with very little watching.

ENGLAND TO PAY 50 MILLIONS OF INTEREST SOON

United States Is to Receive This Amount Nov. 15, It Is Announced at the U. S. Treasury.

Washington, Nov. 13.—Great Britain has advised the United States that \$50,000,000 of interest on her war debt to this country will be paid November 15, it was announced today at the treasury. Great Britain made a payment of \$50,000,000 of interest on October 15 and officials explained that the \$100,000,000 interest payment would be subject to adjustment when the British debt funding mission reaches the country, as the American debt commission is authorized to fund foreign debts at four and one-quarter per cent interest while interest at present is ruling at five per cent.

In addition to the interest payment on the war debt proper, Great Britain is expected to pay \$510,000 on November 15 as interest on the debt incurred for the sale of silver during the war, which is already partially liquidated, there being about \$51,000,000 yet to be paid on that account.

GENERALLY FAIR WEATHER
Denver, Colo., Nov. 13.—Generally fair weather tomorrow in the Rocky Mountain region, with the exception of northwestern New Mexico and northern Arizona, where unsettled conditions will prevail was forecast tonight by the district weather bureau. Warmer weather was predicted for tomorrow and Wednesday in eastern Colorado and eastern New Mexico.

FORSAKES BODY OF BABE; HAS A CARE FOR SOUL

Mother Who Abandons Infant on Doorstep Leaves Note Asking That It Be Given Baptism.

"This little fellow has not been baptized."

A little note, written in a neat hand and in the Spanish language, indicated that the mother of the infant boy found on the doorstep of Mrs. B. Gurule, 615 East Mountain road, early yesterday morning, had a wish for the welfare of his soul even though she was trusting his body to charity.

The little stranger found a good friend in Mrs. Gurule, who is middle aged and has no children. She announced that she would keep the little boy and do her best to rear him to useful manhood. Simon Garcia, justice of the peace of Precinct 15, to whom the case was referred, admonished Mrs. Gurule to see that the child was baptized, and was told by her that she had already looked after that detail. The baby evidently had been born only a few hours before it was found on the Gurule doorstep. He is perfectly formed and evidently weighs about 9 1-2 pounds. The clothes in which he was wrapped bear no marks that would lead to identification. The handwriting on the note is the only clue. Mrs. Gurule is not particularly anxious that the mother be found. The peace officers are more anxious to find the father of the infant.

R. Gurule, husband of the woman who has taken the foundling to her care, returned home from work at 4:30 yesterday morning and saw nothing on his doorstep. A half hour later Mrs. Gurule heard crying and went out and found the baby.

**WASHINGTON EDUCATOR
SUCCUMBS AT AGE OF 77**

Tacoma, Wash., Nov. 13.—Byron L. Aldrich, 77, an early day president of the University of California, died here today. He was born in Connecticut and was a professor of Greek in the University of Chicago in 1873, later becoming pastor of a Baptist church in San Francisco. He came here in 1892 and devoted much of his time to writing for various periodicals.

RANGER IS ACCUSED BY TWO HUNTERS OF USING INTIMIDATION

A charge that C. L. Warnock, a forest ranger, intimidated them into signing a check for \$20 for alleged damage to a flock of decoy ducks into which they fired by mistake, is expected to have been made yesterday at Los Lunas by C. J. Arrighetti and George Buday. The charge first was sworn to here in the court of Justice George Roddy, but when it was learned that the alleged intimidation took place in Valencia county, the men started for Los Lunas, where they expected to go before a justice of the peace and have an identical charge filed.

The action of Arrighetti and Buday is the aftermath of a hunting party the two went on Sunday, and which was described in yesterday's Morning Journal. The men claim that Warnock attacked them and forced them to give a check for \$20 for killing decoy ducks belonging to him. They said they stopped payment on the check immediately on their arrival here.

BABY IN CHICAGO IS HELD AS HOSTAGE FOR BILLS FOR ITS BIRTH

Chicago, Nov. 13.—Held as a hostage for the swaddling clothes and hospital bills attendant upon her birth, Fern Glowe, baby daughter of Walter and Evelyn Glowe, became the subject of litigation before Judge Joseph Sabath today. Parents sought a writ of habeas corpus to compel Mrs. Glowe's father, Frank Roy of Thornton, Ill., to release the child whom he has kept since her birth, they allege. The court was told the grandfather refused to give up the baby until he was paid the money he had advanced for her clothing and her mother's hospital bills.

GIBBONS KNOCKS OUT ASHE IN QUICK TIME

Detroit, Mich., Nov. 13.—Tommy Gibbons of St. Paul, knocked out George Ashe of Philadelphia, after 45 seconds of boxing here tonight in a bout that was scheduled to go ten rounds. The knockout blow was a short jab that few of the spectators saw. Ashe was out five minutes. Gibbons weighed 174 and Ashe 173.

AMERICAN RESCUED.

Shanghai, Nov. 13 by the Associated Press.—H. E. Ledgard, a member of the China Inland Mission at Shanghai, who was kidnapped by bandit forces of Honan, October 28, has been rescued at Lovang, in Honan province, according to a message received today from Yencheng. The message gave no details of the rescue.

HOPKINS WON'T PARTICIPATE IN TRIAL OF WHITE

Attorney General Says He Doesn't Believe There Is Any Law for Convicting Kansas Editor.

Emporia, Kans., Nov. 13.—Attorney General Hopkins of Kansas has written County Attorney Roland Boynton, Lyon county, that he will not participate in the trial of William Allen White, Emporia editor, for putting up in a window of his newspaper office, fifty-fifty posters during the shopmen's strike, it was learned today.

White was arrested shortly after the poster incident and charged with violation of the state industrial court act. His close friend and comrade in arms, Governor Henry J. Allen of Kansas brought about the arrest, but the case has never come to trial.

The attorney general, who has gone on a wedding trip, declares that he did not bring action and will not prosecute it. He is said to have told mutual friends he did not believe there was any law for conviction of White under the facts. But White demands trial and is depending on his friend, Governor Allen to give him an opportunity to test his case in the courts. When a letter from the attorney general was shown to White, he said: "I don't blame Hopkins. A man on his wedding trip can't be bothered by sending people to jail. The attorney general's letter is surprising, but no one who knows anything of Governor Allen's fighting spirit can believe for a minute he will quit in this case until it has been tried and appealed to the highest possible court. Any other frame up that would damn us both out of public life."

ALBUQUERQUE MASONS FURNISH HALF OF THE SCOTTISH RITE CLASS

Special to The Journal
Santa Fe, N. M., Nov. 12.—Albuquerque Masons form more than half of the class of 18 now taking the degrees of Scottish Rite Masonry at the forty-second reunion, which began its four-day session here today. The Albuquerque members are R. M. Britain, Jr., J. P. Bush, D. R. Eiter, F. V. Fenlon, J. N. Gladding, B. S. Levy, T. J. Mabry, C. H. Shaw, H. H. Sprout, L. F. Wagner.

BEEVES ROAST IN BIG TRENCH FOR BARBECUE

Bakers Turn Out Loaves by Hundreds; Orators Clear Throats; Musicians Tune Up for Democratic Dance

On the vacant lots west of the Elbe club several large and heavy beaver are roasting in a great trench that was heated almost to whiteness yesterday and last night. Bakers are turning out bread by the hundreds of loaves and lunch by the thousands. Early this afternoon a corps of clever knife wielders will carve the beaver into slices of the proper sizes, and cut the bread into pieces of just the proper thickness for sandwiches. A butcher's wagon will drive up with a cargo of hot dogs barking to be heated and tucked away between the halves of sliced buns.

And shortly after 4 o'clock, everything will be ready for the big feed that the victorious democrats are planning to give Albuquerque and Bernalillo county, Chautauque county, of the democratic celebration. Committee said last night that everybody is invited, and too many cannot come. At 7 o'clock a monster parade will wind its way through the streets. There will be band music in plenty, and numerous floats and charactures. At 8 o'clock prominent democratic leaders will speak in the armory. The committee is not certain that Jones, Hinkle and Morrow will be here, as these men are in great demand in all parts of the state and are participating from a strenuous campaign. However, all have been invited, and it seems certain now that one or all of them will be present. The speaking will take place at the armory, and will be followed by a big dance. A large orchestra will furnish the music, and the committee hopes that the entire city will be present.

JONES BOYS TO CLASH IN STATE TITLE GRID TILT

Ogle, of Varsity, and Alec, of Aggies, Will Face Each Other as Two Teams Meet Thanksgiving Day.

The Jones brothers, Howard and Tad, occupied the limelight in football circles for several weeks preceding the recent game between Iowa and Yale, but interest in Howard and Tad among football fans of the southwest will now be supplanted by a more lively interest in the Jones brothers, Alec and Ogle, star halfbacks on the New Mexico Aggie and State university teams, respectively, who will meet each other on the gridiron in the annual turkey day encounter between the Lobos and the Farmers.

Probably the whole southwest boasts no better halfbacks than the two Jones brothers. Both are products of Roosevelt high school. Since leaving high school, Alec has played with Vanderbilt, with Abilene Christian college, and with the Battery A eleven, the New Mexico National Guard team which defeated Fort Bliss during the national guard encampment last October and later lost a 7-6 game to Calumet club of El Paso. El Paso sport writers attributed the defeat of the Blislanders to the practically even game with Calumet club to "too much Jones," and characterized him as "one of the greatest halfbacks who ever stepped on an El Paso gridiron."

Playing his first year of college football with the Lobos last year, Ogle made an enviable name for himself, and was given a berth at left halfback on Jim Bruhn's All Southwestern team. The Denver Post in commenting on the early season game between the Lobos and Colorado, spoke highly of Jones' versatility as a backfield man.

Both Jones brothers are powerful line plungers, possessing the ability to pick their holes, hit the line low and hard, and keep their feet after they have broken through the forward wall. Both men are fast and good runners in a broken field, and both are extremely difficult to tackle because of their style of running with knees under chin in approved Hecton fashion and their effective use of the stiff arm.

Both are adept at hurling and receiving the forward pass. Ogle is only a mediocre punter, but Alec can punt consistently for fifty-five yards throughout a game. On the other hand, Ogle is the more vicious tackler and therefore has the edge on Alec as a defensive player.

Football fans who have watched both Jones brothers in action are about evenly divided in their opinions as to which of the brothers can be called the more brilliant gridiron star. Alec will tell you that Ogle has the edge on him a little bit, and Ogle says that Alec is the better man. Either one is good enough to play on any team.

Football fans who are fortunate enough to see the Varsity-Aggie game at Las Cruces, Thanksgiving day, will be able to form their own opinion as to the relative merits of the two men. One thing is certain—there will be no brotherly love displayed in the Jones family—at least on the playing field—when the Lobos meet the Farmers, November 30. Each Jones brother has sworn to get the other's football scalp.

RIOTING SPREADS.
Berlin, Nov. 13.—Advices from Cologne report that rioting began Friday in the suburb Kalk spread Saturday and Sunday to the suburbs of Kuelheim and Ehrenfried. Many shops and better were smashed and the mob stoned the police, shouting "hunger, hunger." Many arrests were made.

Theaters Today

"B" Theater—Jesse L. Lasky presents the popular and great film star, Wallace Reid, as the principal character in "The Dictator," supported by Lila Lee, a Paramount picture; also showing the pictures of "Pathe Review" and "Current Events."

Lyric Theater—Samuel Goldwyn presents the well-known star, Geraldine Farrar, in "The Woman and the Puppet," by Pierre Louys and Pierre Frondare; also showing the Harold Lloyd comedy and the "Fox News" pictures.

Pastime Theater—"John Smith," with Eugene O'Brien as the star, will leave the Pastime after the last show tonight; the management is also repeating for the last time the Harold Lloyd comedy and the "Fox News" pictures.

FEDERAL PRO 'NAVY' SUFFERS A REVERSE

Detroit, Mich., Nov. 13.—The federal prohibition "navy" operating in the Detroit river, suffered a reverse today, when United States Commissioner J. Stanley Hurd handed down an opinion that seizure of motor boats carrying liquor from Canada was illegal, unless the liquor agents first obtained a search warrant. Prohibition heads had contended that to obtain warrants in each case would greatly hamper the work of their department.

WAS A BROKEN DOWN WOMAN

Then I Began Taking Lydia E. Pinkham's Medicines

Donaldsonville, La.—"I write with pleasure to praise your medicine. Lydia E. Pinkham's Vegetable Compound—which has done so much to restore my health. I was a broken-down woman until my husband brought me a bottle of your Vegetable Compound and one of Lydia E. Pinkham's Blood Med-

icine. I had been having pains every month and at intervals between, was weak and seemed to be smothering at times, but in a week I felt like another woman. I also used Lydia E. Pinkham's Sanative Wash. It did me a lot of good too. I cannot praise your medicines too much and will be more than glad to recommend them to any woman who is suffering from female troubles. You may print my testimonial, as it is true. —Mrs. T. A. LANDRY, 612 Miss. St., Donaldsonville, La.

Note Mrs. Landry's words—"as it is true." Every letter recommending Lydia E. Pinkham's Vegetable Compound is genuine. It is a statement telling the merits of these medicines just as the women in your own neighborhood tell each other.

APPLE CROP IN STATE LARGER THAN IN 1922

Other Production Less Than in Past Year; Drought Causes Shortage of Water and Pasture.

Special to The Journal
LAS CRUCES, N. M., Nov. 13.—(United States Bureau of Agriculture).—Following is the New Mexico crop report for November 1, 1922:

A big abandonment in the acreage, as well as, a marked reduction in the yield of all dry farm crops, has resulted from the drought of last season, which was prolonged throughout the growing season. Even irrigated crops have suffered from an insufficient water supply in some localities. Conditions were favorable for harvest in October, and while the production is light, the crops are of excellent quality. Due to lack of moisture the fall plowing for spring crops was only 15 per cent of the usual amount on November 1. As a rule pastures are short of winter grass and water.

Rains fell during the month in most of the state where livestock were suffering. This will at least serve to replenish the water supply, and perhaps furnish a little green feed in the warmer valleys and plains. There has been some livestock losses from starvation, but this has not been as large as the condition of the ranges would indicate. Very little feeding to date. The transportation companies have granted reduced rates on stock feed, but many stockmen feel that the prices offered for their animals will not justify the high feed prices. Satisfactory arrangements have apparently been made whereby 100,000, or more head of cattle can be taken to Mexico, with a return privilege, but so far no shipments have been made. Reports will be issued later in the month on condition of the ranges, and condition, price and other movement of cattle and sheep.

Corn.
NEW MEXICO.—The state planted 219,000 and harvested 238,000 acres of corn. Only 163,000 acres were suitable for husking, and the yield per acre amounts to only 12.54 bu., or a total production of 2,907,000 bu. The 1921 production was estimated at 2,400,000 bu. Cowing to lack of sufficient moisture to properly mature the corn, only 60 per cent of this year's crop is

Thin? Run-down? Sure Way to Get Right Weight

Increase Your Red-Blood Cells. That's the Sure Way to S.S.S. Blood-Cells. This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because to be under weight

often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S. since 1826, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a cadaverous-looking. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a peaky, bony face doesn't make you look very impressive, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

WHAT'LL BE NEXT? EVEN THE SANDWICH MEN HAVE GIVEN JOBS AWAY TO WOMEN

Sandwich women on streets of Berlin.

What are women going to do next? Who would have ever thought that the sandwich man's job would be taken by the women so soon! But here's the proof. Sandwich women are quite common on the streets of Berlin. They're advertising the opening of a new department store.

of merchantable quality. About 30 per cent of the harvested corn acreage was unfit for husking, and 88,000 acres was cut for fodder, 5,000 acres for silage, and but so far no shipments have been made. Reports will be issued later in the month on condition of the ranges, and condition, price and other movement of cattle and sheep.

White Potatoes.
NEW MEXICO.—4,000 acres produced 250,000 bushels, against 396,000 bu. in 1921.

Sweet Potatoes.
NEW MEXICO.—The crop is estimated at 120,000 bu., which is the same as for 1921.

UNITED STATES.—Production 110,259,000 bu., against 98,660,000 bu. in 1921.

Apples.
NEW MEXICO.—Total production 750,000 bu., against 432,000 in 1921. 471,000 bu. of the 1922 crop were commercial, against 389,000 in 1921. The number of bearing trees have increased 4 per cent and decreased 4 per cent.

UNITED STATES.—Production 265,559,000 bu., against 283,997,000 in 1921. The number of bearing trees have increased 21,004,000 in 1921.

Grain Sorghum.
NEW MEXICO.—120,000 acres were harvested for grain. With a yield per acre of 15 bu., the production amounted to 1,800,000 bu. against 2,222,000 in 1921.

UNITED STATES.—The production in seven states, including New Mexico, was harvested on October 1, at 67,440,000 bu., against 115,110,000 bu. in 1921.

INCREASED STOCKS OF WOOL REPORTED

Washington, Nov. 13.—Increased stocks of wool as compared with three months ago are announced in the joint quarterly report of the departments of agriculture and commerce. Stocks in and about the United States September 30, amounted to 525,173,615 pounds, grease equivalent, an increase of 46,022,434 pounds over June 30 stocks.

The most noticeable increase occurred in foreign raw wool held by manufacturers, the reported stocks having increased 22,536,700 pounds. Stocks of domestic wool held by manufacturers remained practically unchanged while dealers' stocks increased 8,156,369 pounds of domestic wool and 15,167,335 pounds of foreign.

DRY WORLD IN 8 YEARS, SAYS THE W. C. T. U.

International Convention at Philadelphia Hears That Law Enforcement Is Becoming Effective.

By ANNA WILDS STRUMQUIST.
Philadelphia, Pa., Nov. 13.—The world's convention of the Woman's Christian Temperance union opened here yesterday at the academy of music. Delegates from 30 foreign countries are present. All declared they look to the United States to maintain its dry laws.

Roy Haynes, federal enforcement commissioner, in a speech to an audience of 8,000, said this country will never reverse or modify the prohibitory laws. He cited figures to show the increasing effectiveness of law enforcement and commended the courage of Attorney General Daugherty for his interpretation of the laws governing liquor within the jurisdiction of the United States sea boundaries.

Miss Anna Gordon, acting president of the World's Woman's Christian Temperance union, declared the entire world will be dry in eight years. Miss Agnes Slack of the organization committee said women of foreign countries are mobilizing for a dry world and proclaim there is a greater patriotism than serving nations and that is to serve humanity.

Delegates to the convention from Birmingham, Alabama, arrived today in an airplane and were met by airplane from Philadelphia, carrying the Pennsylvania legislature. A procession of convention delegates in automobiles traveled several miles through the streets escorted by the Alabama airplane that scattered literature on the benefits of prohibition over city hall and the heart of Philadelphia.

South America, Canada and Australia had the largest delegations.

A large motor passenger transport company in California is equipping its buses with radio. Tests have proved this source of entertainment quite practicable.

A school for women politicians has been opened in Akron, Ohio.

ALLOTING RIVER WATERS PLANNED BY COMMISSION

Compact Will Likely Be Written at the Meeting Now Being Held at Santa Fe, It Is Announced.

Santa Fe N. M., Nov. 13 (by the Associated Press).—Members of the Colorado river commission expect to write a compact for the allotment of the waters of the Colorado river at the meeting now under way in Santa Fe, it was indicated today. The commission, which held its first formal session last Saturday, already has before it a number of concrete suggestions as to the form the compact should take and members believe that before the conference here breaks up an agreement will be written. The sessions of the commission are executive.

Dispose of Controversy.
If the commission reaches an agreement and a compact is made, a new page in the history of irrigation in the United States will be written. The proposed document is in every degree analogous to a treaty between nations, members have pointed out. After it has been written, the compact will be signed by Herbert Hoover, chairman of the commission, as representative of the president of the United States and by each of the seven state commissioners on behalf of the seven states within the river's basin—Colorado, Wyoming, New Mexico, Arizona, Nevada, Utah and California. When approved by congress and by the seven state legislatures involved, the compact will dispose forever of all controversy over the equitable apportionment of the water supply of the Colorado river.

The treaty-making powers of the states frequently have been availed of in matters respecting interstate boundaries, fisheries and other like subjects, but this is the first instance in American history where several states are attempting to make an equitable apportionment of the benefits to be derived from the uses of the waters of an interstate stream prior to the development of conflict respecting established uses, and before the construction of large enterprises which

might give rise to interstate conflict.

River's Discharge.
The Colorado river is the third largest river in America. It also is one of the youngest rivers in the United States. Its average discharge annually for the last 20 years has been about 17,400,000 acre feet. That is enough water to cover 17,400,000 acres one foot deep. Of the annual discharge, about 15,000,000 acre feet now goes to waste, as it flows into the gulf of California unused. The water has its origin mostly in Colorado, Wyoming and Utah. Some rises in New Mexico and Arizona. A very small percentage—less than one per cent—flows in Nevada and practically none rises in California.

Within the basin of the great river millions of acres of waste land now are idle, awaiting the coming of the magic desert transformer—water. Government experts agree that large areas of public lands can be converted by irrigation into farming lands. Proposed development of storage dams would aid the work of getting water on the land, engineers declare. Such dams would create millions of horsepower now dormant in the waters of the stream, and also would remove the peril of floods in the Imperial, Coachella and Palo Verde valleys of Southern California.

Basin of the River.
The basin of the river includes

242,000 square miles in the United States and over 2,000 square miles in Mexico.

The commission has before it the great task of foreseeing and preparing for the needs of the millions of persons of future generations who will make their homes within the basin of the river. Much of the territory, of course, is as yet undeveloped. Its proper development, according to experts, eventually will cost hundreds of millions of dollars and will open more than 200,000 square miles of land to settlement.

It is agreed that there is enough water in the river to meet the irrigation needs of all of the states as well as to develop vast amounts of horsepower in proper reservoirs for storage are built.

GREG-DELANEY BOUT HAS BEEN POSTPONED

Oklahoma City, Okla., Nov. 13.—The 12-round decision bout scheduled to be held here November 17 between Harry Greg, American light heavyweight champion, and Jimmy Delaney of St. Paul, has been postponed owing to an injury to Delaney's hand, sustained last Saturday night when he knocked out Young Richards in the fifth round of their battle in Great Falls, Mont. It was announced tonight by Dan Lackey, promoter.

Miss Marian Whidden directs the operation of one of New York's largest hospitals.

Stop Laxatives

Which Only Aggravate Constipation

Nujol is a lubricant—not a medicine or laxative—so cannot gripe.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it. Try it today.

If you want these effects

We have perfected a shaving cream which excels all others in five great respects.

We offer a small tube free. Accept it, then judge if these five betterments make shaving more delightful.

We are experts in soap making—have spent 60 years in soap study. The leading toilet soap of the world—Palmolive—is one of our creations.

We spent 18 months, made up and tested 130 formulas, to make a supreme shaving soap. Do you not want to see the result?

5 perfections

These are the five ways in which Palmolive Shaving Cream excels.

It multiplies itself in lather 250 times.

It acts quickly—softens the beard in one minute.

It endures—maintains its creamy fullness for ten minutes on the face.

The bubbles are strong to support the hair for cutting. Weak bubbles let the hairs fall down.

The after effects are delightful, due to palm and olive oils.

Those are the qualities men wanted in a shaving cream. We asked 1,000 of them: We have created what they wanted. Now we ask a test at our expense, in fairness to yourself and us. Cut out the coupon now.

THANKSGIVING

Many a fat old turkey gobble, if he could have his "palm" read today would find that the life line which was strong and rosy a few weeks ago, gets wavy and weaker as the end of the month approaches, and finally stops suddenly on Nov. 30th—

We'll admit it is a little tuff on Mr. Gobbler to be treated in this way, yet we must not lose sight of the fact we are following the traditions of 1620 when the Pilgrims gave this over as a day of prayer, thanksgiving and pleasure—after all there is a lot to be thankful for, even though you may not have quite as many little "old iron men" around as you did in 1921, yet if you are healthy enough to eat and digest a good portion of the fat old gobble, why just think how thankful, and how many millions old Jawhn Rockefeller would give IF HE COULD—

A STENOGRAPHER'S ROMANCE

BY JANE PHELPS

GLADYS OCCASIONALLY SHOWS BITTERNESS.

Chapter 59

It is not to be supposed, neither would it be natural, that the girls did not have young men friends. Cora had her William, although they never could hope to marry. There was a quiet fellow who often took Gladys out, and Nellie had a couple of hard-earned friends with whom she went to the movies, and occasionally to Coney Island on Sunday. These were the young men who came to the little flat when invited, plain working boys, mostly bookkeepers, but all good, moral fellows.

"Jim and Barney cut up a lot," Nellie said when Cora questioned her, "but they aren't at all fresh. I'd like to catch them at it! Little Gladys hasn't any use for fresh guys and I guess they know it even if I do carry on like the very dickens with them. I just have to let go sometimes. I'd pop open if I didn't! And what a mess that would make! And, girls, I guess Miss Dorothy Fallon feels that way sometimes too. She came into the office the other day fairly dancing and when Mr. Fallon asked her how she felt, she said: 'I feel like a bird, Uncle. If I wasn't afraid they'd put you out of the building, I'd sing.' Oh, she's so sweet!" A sigh finished the sentence.

"Why shouldn't she be? Born with a silver spoon in her mouth," Gladys said. At times Gladys was a little bitter. She never but the once had felt tempted to do wrong, and that temptation she had resisted, but it had changed her in a way of which she herself was scarcely conscious. At the time she had said to herself: "Other girls have things because they have fathers and mothers to give them to them. If I ever have anything—pretty clothes, a nice home, I have to do wrong—or it looks that way."

She no longer believed just as she did then, but she craved lovely clothes, and more than anything else, affection. To a certain extent Nellie had this needed, but at times the feeling that she had not had a square deal in the world made her say bitter things, that, until she had given Nellie her confidence, the younger girl could not understand.

Fashion's Forecast

By Annabel Worthington

A \$20 AFTERNOON FROCK FOR \$6.75.

This season a marked tendency toward patterned materials in general, such as clove, gauze and the varied patterned crepes is very apparent. If not used alone on the new afternoon frocks, invariably they are combined with plain woven or solid-colored fabrics.

In this good-looking style the over-popular crepe de Chine has chosen one of the new printed crepes for a companion. The wide sleeves caught in at the wrists with narrow bands lend a charming Medieval note to this simple slip-over-the-head frock. Counting on material at \$2.00 per yard, the completed dress would cost about \$6.75.

The dress pattern No. 1572 cuts in sizes 16, 36, 38, and 40 inches bust measure. Size 36 requires 2 1/2 yards 40-inch material with 1 1/2 yards 54-inch contrasting. Price 15c, stamps or coin (coin preferred).

RIPPLING RHYMES

By WALT MASON.

When Mrs. Spick, a neighbor dame, had lost her muley cow, I called to say it was a shame, but said that dauntless frau. "Why worry? 'Twill be all the same, a hundred years from now." It was for her a grievous loss; she sold some milk and cheese, which helped to buy the Worcester sauce, the weiner, toast and peas; but patient she bears her cross, and smiles at fate's decrees. Her logic's such as pagans write, that much I mutt allow; but still it makes her out-

look bright, and soothes her furrowed brow; her griefs will be forgotten quite, a hundred years from now. And so will yours and so will mine, and those of every man, and putting up a feeble whine is but a catfiff plan; our eyes should waste no precious brine throughout life's little span. It is in vain to cry, "Alas to raise a sinful row; like stubble all life's file will pass beneath time's speeding plow, your choicest we will cut no grass a hundred years from now.

HEART AND HOME PROBLEMS

By Mrs. Elizabeth Thompson

Dear Mrs. Thompson: I am seventeen years old and am engaged to be married this Christmas. Please tell me whether you would suggest a suit or nice dress for my wedding. I am four feet nine inches in height and a few of my friends say I am too short to look well in a suit. But I am anxious to get the suit. Mother says she would rather have me get a nice dress, but that I can suit myself. I have never had a suit.

I have blue eyes and medium light wavy hair. I had been thinking about getting a brown velvet suit. Do you think I will look well in brown? Do you think it best that I get the suit? If you do not suggest this suit, please tell me what kind of dress I should get. Any advice you give will be greatly appreciated.

PUELLA PARVA.

You want the suit more than you do the dress, and therefore you should have it. If you are slim there is no reason why the suit will not look well; but if you are heavy it will probably make you look fatter and shorter. Your choice should depend on a good deal on your requirements after marriage. If you will need a dress badly then you really ought to get one instead of a suit, but if you feel a suit will meet your requirements even more than a dress, of course it would be wise to decide in favor of the suit. Surely you can wear the color you prefer with your light brown hair.

If you should decide against the suit, you would probably find a brown taffeta or satin crepe dress very serviceable and suitable for

DOG HILL PARAGRAPHS

By GEORGE BINGHAM

Clab Hancock dreamt last night that he woke up and found a large cow in his room. He says cows are deceitful, as he went out early this morning and his cow was standing there chewing her cud just like she had not moved out of her tracks all night.

Ellick Hellwanger has got so he sings real well in public. This shows what determination can do, as he could scarcely carry a tune

ever since father died and she says my sister and I are all she has left and she cannot spare either of us.

Of course I would like to go to housekeeping, but I don't want to hurt mother. What would you advise me to do?

Go to housekeeping because every one concerned will be happier in the end. Your mother ought not to feel that she is losing you; you will live in the same city and will be able to see each other often. Every young couple should start out alone where it is possible for them to do so, and it certainly is possible in your case.

Your mother has a good deal left when she has her two daughters. It is wrong for her to feel that you and your sister are "all" she has. Her blessings are many instead of meager and it is unfortunate that she should cling to the past so much that the present is darkened. To live away from home may make it even easier for you to understand your mother and help her to be happy. I can see that you love your mother devotedly and want her to be happy, but I cannot see that it would help matters for you to give up having your own home. The man you marry may have his wishes respected, too.

Of the twenty-three women seeking seats in the United States Congress, two want to be Senators.

Mexican women have smaller and more regularly shaped feet than American or European women.

HOUSEHOLD HINTS

By Mrs. Morton

MENU HINT

Breakfast: Muffins, Poached Eggs, Coffee

Luncheon: Pork Chops, Creamed Potatoes, Apple Sauce, Cookies

Dinner: Macaroni and Cheese, Buttered Beans, Waldorf Salad, Coffee

Today's Recipes

Hot breads are great favorites for breakfast but they seem a lot of work to most housewives and one's time is limited as one usually stays in bed until the last minute. Have all the ingredients ready the night before, and all ready to heat and everything laid out in readiness. When you light the oven put the muffin tins to warm and the shortening to melt. Break one or two eggs into the mixing bowl, beat, add one or two tablespoons of sugar, half a teaspoon of salt and a cup of milk and beat. Put two cups flour in the sifter with two teaspoons baking powder and sift into milk and eggs with melted shortening, beat well, put into the now hot muffin tins and bake in a fairly hot oven.

Macaroni and Cheese—Cook macaroni until tender. One tablespoon butter melted, one tablespoon flour, one cup of milk, season with salt and pepper or paprika, and add one-half cup

Don't Gamble

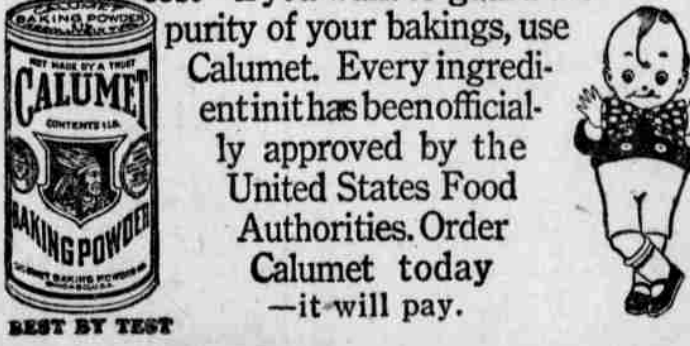

with the "lots for your money" brands of baking powder with the cheap and big can kind, you're sure to lose every time.

CALL FOR

CALUMET

The Economy BAKING POWDER

It's used by more housewives—more chefs—more railroads—more restaurants—more hotels, than any other kind in America and its sale is over 150% greater. If you want every bake-day to be a success—if you want positive results at a small cost—if you want to guard the purity of your bakings, use Calumet. Every ingredient in it has been officially approved by the United States Food Authorities. Order Calumet today—it will pay.

THE WORLD'S GREATEST BAKING POWDER

STRONG'S BOOK STORE

To get the most out of life, you must enjoy it. The rules are simple. The reward is priceless.

THE whole scheme of progress is based on the desire for enjoyment. But without health, you cannot enjoy life.

If your nerves are irritated and weakened by the effects of coffee or tea drinking, you cannot have good health. If you can't sleep nights, and you suffer from headaches, and are generally depressed, stop coffee and tea. Drink delicious Postum instead, and see if you don't feel better.

Postum is a pure cereal drink that satisfies the most exacting taste for a refreshing hot beverage.

Order Postum from your grocer today. Give this delicious beverage a fair trial, and like thousands of others you will never go back to coffee or tea again.

Postum is sold by your grocer in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.

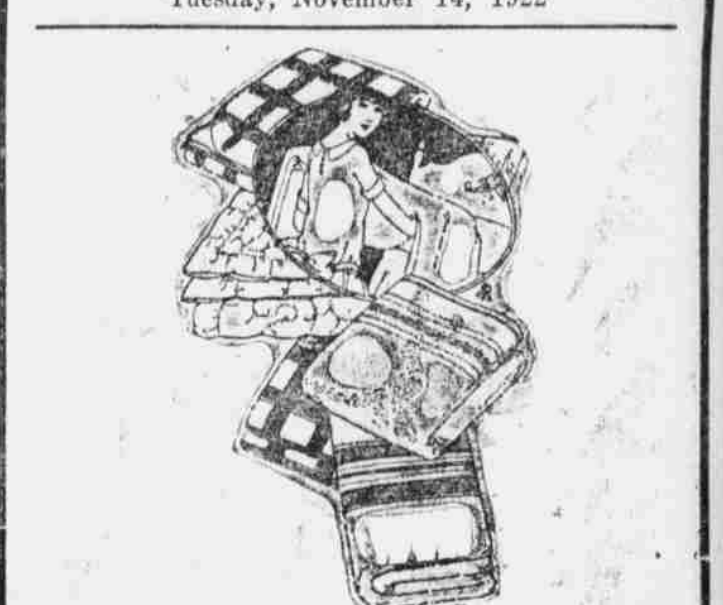

"There's a Reason" for Postum

Made by Postum Cereal Co., Inc. Battle Creek, Mich.

LODGING HOUSES MUST TAKE CARE TO AVOID GERMS

Law Requires That Rooms
Be Fumigated After Oc-
cupancy by Persons Suf-
fering From Disease.

Attention of the public is called to the fact that tuberculosis is a communicable disease and must be reported in the following statement issued yesterday by the health department:

"Tuberculosis is a communicable disease and is required to be reported to the health department in the same manner as any other communicable disease. Failure on the part of the physician or householder to report cases of tuberculosis will make them liable to prosecution.

"The state law requires that all premises used by persons suffering with a communicable disease be thoroughly disinfected before such premises can be occupied by others.

"There is a severe penalty prescribed for the violation of these necessary sanitary precautions and the health officer is making a careful check of all rent houses, rooming houses and hotels, with the intention of bringing violations of the law to the knowledge of the court.

"It is lamentable how careless some tuberculars are about helping to prevent the spread of their disease. It has come to the knowledge of the department of late that some of them are throwing used sputum cups in alleys and in dry trash boxes where innocent children can and sometimes do pick them up to be used as playthings. It is contrary to all the rules of decency as well as a dangerous violation of sanitary law for owners of furnished

COUNTY BOARD WILL WIND UP CANVASS TODAY

Election Judges Will Release
Books From Ballot Boxes
Which Delayed Official
Canvass Yesterday.

The official canvass of votes in all precincts in the county will be completed today by the county commissioners with the aid of several election judges who will be brought before the board to open certain ballot boxes in which the certified counts had been erroneously entered.

The count began yesterday morning at the courthouse and was completed with the exception of the ballot boxes from seven precincts which could not be legally opened by the commissioners. The sheriff's office was instructed to bring the election judges of these precincts before the board at 1 o'clock this morning to release the books officially.

The precincts from which returns have not been certified are San Jose, Santa Barbara, Rancho de Albuquerque, La Tijera, San Antonio, and Durbin.

No questions or contests were presented at either morning or afternoon session of the board yesterday, although representatives of both parties were present to observe the procedure. Commissioners Albert G. Simms and Max Gutierrez were present. The new tax levies received from the state tax commission were discussed but action was deferred until the vote canvass is completed.

After an illness of eight weeks, Frederick Webb, son of Mr. and Mrs. A. G. Webb of Cleveland, has recovered and his marriage to Miss Gertrude Elliott, daughter of Mrs. Gertrude Elliott of 224 North Second street, will take place next week. The young couple were to have been married in October, but Mr. Webb's illness interfered.

The ceremony will be performed at the bride's home in the presence of relatives on November 21. Mr. Webb's mother who came out with his father from Cleveland will remain until the wedding. Mr. Webb will take his bride back to Ohio where he will be associated with his father in the West Virginia Lumber company. He is part owner of the McKinley Land and Lumber company here.

MAN CHARGED WITH CATTLE STEALING HELD TO THE JURY

Macedonia Perez is held by the grand jury in default of \$2,500 bond in the charge of stealing two head of cattle from Natividad Gutierrez. Perez, who was arrested Saturday night, was held in the county jail until the next session of the jury.

The man was caught by the owner of the cattle and turned over to the sheriff's office on Saturday night. He is alleged to have taken the cattle from the mesa northeast of the city where they were grazing.

AROUND THE COURT HOUSE

A suit of garnishment has been brought by Frank M. Sandoval against Onesimo Chavez and the Santa Fe railroad, garnisher, for the collection of a previous judgment in the district court of \$224.12.

A damage suit for \$2,000 has been filed by Victor Saje against R. E. Cleveland for injuries and losses alleged to have been received by a herd of sheep in Socorro county belonging to the plaintiff at the hands of Cleveland. It is charged in the complaint that Cleveland made an assault on the herd, forcing Mauricio Saje, the herder, to surrender and causing 89 of the sheep to die or be lost.

A marriage license has been issued to Harry Santos of Santa Fe and Nellie J. Fargason of Eastland, Texas.

METROPOLITAN OPERA CURTAIN IS RUNG UP

New York, Nov. 13.—The Metropolitan opera curtain was run up in the 1922-23 premiere tonight on Tosca—Marie Jeritza, the sensational contralto from Vienna. It was not Jeritza's debut. She won her way into the hearts of opera lovers last season. But it was her first appearance in the tragic "Tosca" role, reserved for many years by Manager Gatti-Casazza for Geraldine Farrar.

Farrar is in opera no more, but it tonight's audience may be taken as a criterion. "La Tosca" with Jeritza will hold all the popularity it held when Farrar sang the role.

EDWARDS IS TAKEN BACK TO COLORADO; CAR REMAINS HERE

George Edwards, who was held here on a charge of transporting a mortgaged automobile from another state, was taken yesterday to Colorado Springs by Deputy Sheriff Henderson of that city. The car was left here temporarily.

In the two years since prohibition became a law, a lot has flowed over the dam that wasn't water.—Life.

RADIO MESSAGE FROM KENTUCKY REACHES HERE

Man at St. Joseph, Through
Kindness of Roswell and
Albuquerque Operators,
Hears From Home.

From his old home in far off Louisville, Ky., came a message of cheer for Edward C. Snyder, who is spending the winter at St. Joseph's sanatorium. It came by wireless, and were it not for the kindness of two radio operators in getting it to him, Snyder may never have known that the folks back home had endeavored to use such a means of sending him a little word of love.

The message was first picked up by the operator at station 52A at Roswell, who relayed it to Albuquerque, where it was copied by operator SAT. Now SAT is J. Oldaker of South High street. When he got the message, he copied it, and together with a little note describing the route the message had taken, mailed it to Snyder.

"The message was from 'my girl friend,'" said Snyder yesterday, "and it contained six words." Snyder declared that he was grateful to the two radio operators, and wished them to know it.

Snyder came here from Louisville, Ky., about three months ago. He is a patient at St. Joseph's, and describes the room he occupies as "concrete."

GLOBE TROTTER TO HEAD WORLD-WIDE Y. W. C. A. PROGRAM

Mrs. Arthur Curtis James.

The leading women globe trotter in this country is to head a nationwide campaign for world-wide Y. W. C. A. work.

Mrs. Arthur Curtis James of New York, who has crossed the ocean twenty times and recently returned from a cruise around the world with her husband in their yacht, has seen demonstrated the work of the Y. W. C. A. in many lands. "It has induced her to take the chairmanship of the campaign for money to assure a foreign program."

PLENTY OF CATTLE IN SOUTHERN PART OF STATE, REPORT

A dearth of buyers and a considerable quantity of cattle in good condition are reported in the Lordsburg district, according to a letter received from Frank R. Coon, National bank, by Miss Bertha Benson, secretary of the New Mexico Cattle and Horse Growers association.

"I attribute it to the fact that so many drought-stricken cattle in different parts of the state are being offered to buyers at sacrifice prices, whereas our cattle are in good condition and our people do not feel that they can sell them at the price offered," wrote Mr. Coon.

Forty or fifty miles south of Lordsburg there are reported to be about 600 big steers, many of them fat enough for slaughter. Buyers are wanted for feeder steers and for calves if prices should pick up.

MEXICAN GRASS IS KNEE HIGH WHERE CATTLE ARE SENT

W. R. Morley, Magdalena banker, who has been here for several days attending the meetings of the New Mexico Agricultural and Livestock Loan company, said last night that a total of 100,000 New Mexico cattle probably will be moved to Chihuahua, Mexico, for winter pasturage. Mr. Morley, who recently returned from an inspection of the Mexican ranges, says the weather is kind, and in his opinion the cattle will fare well in that section. The shipments will be completed within 30 days, Mr. Morley believes.

M'NEILL IS GIVEN JUDGMENT AGAINST L. M. KASS FOR \$106

Justice George Roddy yesterday gave judgment for the plaintiff for \$106 in the case of Robert McNeill against L. M. Kass. McNeill asked \$151, claiming that amount was due him for carpenter work. Kass filed notice of appeal to the district court.

TO PRESS DEMAND.
Constantinople, Nov. 13 (By the Associated Press).—From Angora comes the report that Rafet Pasha, the nationalist governor, has been instructed to press the demand for complete control of Constantinople without allied interference.

New Beauty Came

A story that millions know

Millions of people have gained new beauty through a new teeth cleaning method. You see them everywhere. Their teeth now glisten, and they show them when they smile.

If you don't know that method, make this test.

Combats the film

It is film that makes teeth dingy—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it, then it forms cloudy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. Under old methods, very few escaped them. Beautiful teeth were less often seen than today.

Old ways failed

No ordinary tooth paste effectively combats film. So much film remained to night and day threaten serious damage.

SMALL STILL FOUND ON PREMISES OF A MARTINEZTOWN MAN

A small still was found late Saturday evening at the home of Frank Moraga in Martineztown. The still was buried beside a well. A small quantity of mash also was found. Moraga was taken into custody by officers of the prohibition office, and was held under \$500 bond.

3 MEN ARRESTED IN LOS GRIEGOS FIGHT; 5 BADLY BEATEN UP

Justino Montora, Samuel Garcia and Manuel Simeron were arrested on Sunday and released on bond charge with assault upon five men in a fight at Los Griegos on early Sunday morning. Those who are received cuts and bruises in the fight are Federico Chavez, Jose de la Luz Chavez, Samuel Gallegos, Willie Chavez and Carlos Chavez.

SAYS CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of this Treacherous Drug may Start Trouble

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your drugist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.—Adv.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbitten feet, colds on the chest. Keep it handy for instant use. 35c and 65c, jars and tubes; hospital size, \$3.00.

Better than a mustard plaster

WILL NOT BLISTER

MASTER SLEUTH OF ENGLAND ARRIVES HERE TO LECTURE

Sir Basil Thomson, known as Britain's master sleuth, has just arrived in New York for a three months' lecture tour of this country. Sir Basil was, until recently, head of the British secret service at Scotland Yard. He will lecture on "My Experiences at Scotland Yard."

HOLDUP MAN SLAPS GIRL; TAKES PURSE

Police yesterday were looking for a short, slender man of about 20 years who on Sunday night stopped Miss Nellie McMahon of 1123 West Tijeras avenue, and snatched her pocketbook. The holdup occurred at 8:30 o'clock in the 1006 block on West Fruit avenue. The purse contained \$1.75. Miss McMahon reported the robbery to the police shortly after it occurred.

Miss Dorothy Gray, noted beauty sculptor, recently insured her hands for \$100,000.

Berkeley Citizen Gained 25 Lbs. on Tanlac

"I had rheumatism in my arms and shoulders so bad I couldn't raise my hand to brush my hair; but Tanlac knocked it all out and also built me up twenty-five pounds," declared A. B. Carcot, a well-known baker, of 1530 Harrison St., Berkeley, Calif.

"The flu sapped my vitality and left me in such a condition I couldn't regain my strength. Then the rheumatism set in and my back couldn't have hurt me any more if it had been baking in tin. I lost weight and strength every day and had to knock off from work for days at a time.

"But I haven't an ache or pain now, and I'm on the job every day feeling as strong and well as I ever did. I wouldn't take a thousand dollars for the good Tanlac did me. My wife also got wonderful results from the medicine."

Tanlac is sold by all good druggists.—Adv.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 50c.—Adv.

Electric Grills

The handiest things to have about the house—and now at very reasonable prices: \$2 for the one-burner style and \$5.25 for two burners. Both guaranteed.

LADY ASTOR IS FIGHTING HARD TO RETAIN SEAT

One Charge Which the Voters Have Brought Against the Viscountess Is Her Stand on Liquor.

Plymouth, England, Nov. 13 (by the Associated Press).—Feeling is unusually bitter in Viscountess Astor's campaign here. She is having a hard fight to retain her seat and there has been a remarkable display of heat. Personalities and abuse have driven party policies into the background. One charge which the voters have brought against Lady Astor, and which counts in this community of working men, is her stand on liquor. The favorite epithet of those who oppose her is "Fussyfoot" and her opponents use the word as though it were a crime. "I am not trying to take anyone's beer," is Lady Astor's answer. "I want to give the voters freedom to control the drink trade; the brewers too often control trade in politics."

The viscountess says she would not countenance any confiscation of trade without compensation. The real struggle is between her and her independent conservative rival Dr. Bayly. He is for "freedom and liberty, lower taxation and the old British sporting spirit."

FRIEDMAN STOPS LAUGHING
Philadelphia, Nov. 13.—Sailor Friedman of Chicago stopped "K. O." Laughlin, of Bethlehem, Pa., in the fourth round of their scheduled eight round bout here tonight. The men are welterweights.

U. D. C. MEET TODAY

Money Back If "Gets-It" Fails

Nothing is so utterly needless as the suffering from itching, painful corns, or

as easy to peel off a corn as to skin a banana. Touch it with "Gets-It" and the corn is done. For hard corns, rub corn-cure or callus. All pain stops instantly and the corn proceeds to loosen and soon can be lifted right off. Your money cheerfully refunded if it fails. But it never fails. Costs but a trifle. R. Lawrence & Co., Inc., Chicago. Sold in Albuquerque by Alvarado Pharmacy, Driggs Pharmacy and Highland Pharmacy.—Adv.

Don't Bake Raisin Pies

—when you can get delicious ones ready-baked for you by master bakers in your town.

Simply phone your grocer or a neighborhood bake shop and have one delivered, fresh, delicious, and all ready for your table.

Serve one to your men folks and hear what they say.

Luscious, juicy, tempting—made with

Sun-Maid Raisins

Had Your Iron Today?

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any drugstore, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, epidemic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated extract known the world over for its healing effect on membranes.

Avoid disappointment by asking your grocer for 2½ ounces of Pinex with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

—Adv.

2 ESCAPE FROM CITY BASTILE: STILL AT LARGE

One Charged With Embezzlement; Other With Interstate Transportation of a Stolen Auto.

Phoenix, Ariz., Nov. 13.—Harvey J. Wold, who, according to county authorities, here has served time in San Quentin prison and is known under various aliases in southern California, and Everett Thompson, a federal prisoner, broke out of the Maricopa county jail shortly after noon today and were still at large late tonight.

Wold was being held on a charge of embezzlement brought by a local automobile company for which he had been employed.

Thompson was charged with interstate transportation of a stolen automobile.

The prisoners escaped through a hole in the roof and slid down a drain pipe, investigations indicated.

Wold, according to local authorities, is known in Los Angeles as Hall Ray Wood. Other aliases used are Roger Lane, Jack Waite, Dave Ward and Johnson. He was known in San Diego, Joplin, Mo., and Little Rock, Ark.

Wold said to have escaped from police at San Bernardino, Calif., January 15, 1921, he deliberately wrecked the automobile in which he was being taken to jail.

Wold was arrested in San Diego last month and was brought back to Phoenix November 8 to face trial.

No announcement of the jail break was made by county authorities until late this evening.

MELLON GIVES HIS APPROVAL TO CATTLEMEN

Secretary of the Treasury Agrees to Removal of Herds From Droughty Regions to Other Pasture

Secretary of the Treasury A. W. Mellon has given his complete approval to the plan for removing cattle from the state large numbers of cattle on which loans have been extended through the war finance corporation, of which he is chairman.

The following letter has been received from Mr. Mellon by J. B. Herndon of Albuquerque, chairman of the New Mexico Agricultural Loan agency:

"Washington, November 1, 1922.

"Mr. J. B. Herndon, Chairman Agricultural Loan Agency, War Finance Corporation, Albuquerque, N. M.

"Dear Mr. Herndon: Mr. Eugene Meyer, managing director of the War Finance corporation, who has just returned to Washington, has given us a full report concerning his visit to Albuquerque on October 13 and 14, and the arrangements for the removal of large numbers of cattle from the drought stricken sections of New Mexico to Old Mexico and to adjoining states where pasture and feed are available. Mr. Meyer assures me that the governor, the members of the Agricultural Loan agency, the directors and officers of the Agricultural and Live Stock Loan company, and other leading citizens of the state, are fully alive to the situation and that they are lending their whole-hearted co-operation in the handling of this difficult problem.

"I am glad to say that, as chairman of the board of directors of the War Finance corporation, I have approved the arrangement that has been worked out, and I am confident that we may rely upon the public spirited people of New Mexico to do everything in their power to preserve their livestock industry, and to protect the interests of the War Finance corporation.

"I shall appreciate it if you will be good enough to bring this letter to the attention of the other members of the Albuquerque agency and of the board of directors and officers of the loan company.

"Very truly yours,

(Signed) "A. W. MELLON"

SCHURMAN PROTESTS AGAINST KIDNAPING OF U. S. MISSIONARY

Peking, Nov. 13. (By the Associated Press).—Jacob Gould Schurman, American minister to China, today protested in a letter to General Wu Pei-Fu military power behind the Peking government, against the recent kidnapping of an American missionary by Roman bandits.

The American held, together with one Swedish, two French and two British subjects, is Anton Mander Lundeen of Newnan Grove, Neb.

General Fu promised to assist in obtaining the release of the captives.

The American consul at Hankow has reported to Mr. Schurman that the bandits are not seeking ransom for the prisoners but are holding them while they demand recognition of the military ranks of their chiefs and pay as regular soldiers of the Chinese army.

Lundeen has been permitted to communicate with his family, which is living at Wuchow, and has said he is unharmed. He is a member of the Augustan mission, whose head office is at St. Peter, Minn.

Another missionary named Forsberg is a native of Sweden, but had lived some time in the United States and this at first gave rise to the report that two American missionaries were being held by the bandits.

Grand Forks, E. C. Nov. 13.—A month ago John B. Hayes, a local rancher, was thrown from a wagon and broke his neck. After a total paralysis he is reported recovering and in possession of all his faculties. Three doctors removed the fifth cervical vertebra which was broken.

6 ALLEGED AUTO THIEVES NABBED BY U. S. SLEUTHS

More Than 200 Stolen Cars Recovered; Believe a Ring Operating in Six States Is Broken Up.

Denver, Nov. 13.—Six men are under arrest and more than 200 stolen automobiles have been recovered in the smashing of an alleged ring of automobile thieves and whisky runners, which operated in six western states, according to statements tonight by officials of the Denver division of the United States department of justice.

After an investigation of several weeks, the leaders of the alleged organization, were captured at their base, in Casper, Wyo., several days ago, according to S. J. McAfee, in charge of investigation of the federal bureau of justice here.

Scope of Alleged Ring.

The scope of the alleged ring was declared by Mr. McAfee to have extended through the states of Colorado, Iowa, Missouri, Wyoming, Oklahoma and Texas. "We have evidence," said the investigator, "that shows members of the ring employed attorneys by the year and maintained their own 'bump off' squads for the commission of slaying if necessary."

The arrests at Casper followed information received by federal officials from Theodore Roselle and Clyde Phillips, who were arrested in Oklahoma City, as suspected members of the band, Mr. McAfee asserted. Those arrested at Casper, the investigator said, are Henry Hawk, alias W. C. Conway, T. B. Wilkerson, L. R. Pfeiffer, and James Walrod.

Roselle and Hawks, federal authorities said, organized the alleged band in Kansas City several months ago, following their release from the Missouri state penitentiary.

The gang, officers said, maintained offices with a card index of "prospects" which was confiscated. Hawks is in a hospital at Casper in a critical condition, federal officials said, as the result of gunshot wounds he received under mysterious circumstances.

According to officers, Hawk was in an automobile with two other men when he was shot. Telling his companions to save themselves, Hawk got out of the automobile and walked a short distance, until he fell exhausted in a ditch, officers said. He was found about a day later by officers, according to federal investigators' story, who removed him to jail.

Hawk refused medical attention for ten days, it was said, and his condition became so serious that he was removed to the hospital. His recovery is considered doubtful, according to officers.

Nine of the missing automobiles were recovered in a Casper garage, Mr. McAfee asserted. There the alleged ring maintained headquarters, he said, for overhauling cars and selling them. A complete set of dies for changing engine numbers and other paraphernalia are in possession of the officers, they declared.

POLICE SEEKING ANOTHER WOMAN IN POISON PLOT

Two Are Arraigned on Murder Charges After Poison Is Found in Bodies of Former Husbands.

Chicago, Nov. 13.—Search for a third woman in connection with the alleged poison plot centering around the matrimonial adventures of Mrs. Tillie Klinek and Mrs. Nellie Sturmoult was begun by the police today.

The two women were arraigned this afternoon on murder charges as a result of the finding of poison in the bodies of a former husband of each. Mrs. Klinek was charged with the slaying of her first husband, Wojcik Sturmoult, who disappeared in 1919, while Mrs. Klinek was accused of slaying Frank Kupczek, her third husband, who died in 1920. They were jointly charged with an attempt to poison Joseph Klinek, the last husband of the woman, who now is in a hospital.

On the report by Stanley Klarkowski, assistant state's attorney, that the coroner's office was making an examination of three bodies, the court granted a continuance to November 23 and denied bail to both of the accused women.

In the meantime, orders were issued by the coroner's office for the exhuming of three more bodies—those of Benjamin and Sophie Sturmoult, twin babies of Mrs. Klinek, born while her first husband was alive, and Dorothy Spiera, a two-year-old granddaughter.

URGE OPENING OF THE LAUSANNE CONFERENCE AS SOON AS POSSIBLE

Paris, Nov. 13 (by the Associated Press).—Premier Poincare, in a final effort to appease Lord Curzon's insistent demand for a conference preliminary to the Lausanne meeting, has offered to meet the British foreign secretary either in Paris or Lausanne on Saturday.

The premier declares that despite the appointment which he already has to meet Foreign Minister Jaspar and Premier Theunis of Belgium here on that date, Premier Mussolini of Italy, it is said, would probably be present.

The British reply is expected tomorrow. The impression among those well informed is that the meeting, if held, will be in Paris.

The allied high commissioners in Constantinople have addressed a note to their respective governments urging the opening of the Lausanne conference as soon as possible in the interests of peace.

At the French foreign office the situation in Constantinople is considered easier.

FREIGHTER SINKS

Milwaukee, Wis., Nov. 13.—After being buffeted by a heavy storm for two hours and springing four large leaks in her hull the Nordland, package freighter of the Chicago and Milwaukee Steamship company, carrying a cargo of merchandise valued at more than \$500,000, sank eight miles off St. Francis, near here, in Lake Michigan this afternoon.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn. Instantly that corn stops hurting. Then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes and the calluses, without soreness or irritation.—Adv.

Clearance Sale

STARTS TOMORROW

Wednesday, November 15

THIS is the first clearance sale in the history of the Star Furniture Company. It is not just a sale for the sake of having one, but calculated to quickly clear our floor of surplus stocks. You will appreciate its being held at this time of year when savings are appreciated most. Of course, there is not room in this advertisement for everything on sale. So if what you need is not listed here come down tomorrow to the opening for it. Anything on sale can be laid away for Christmas delivery. Be sure and be on hand for the opening tomorrow—Albuquerque has never seen a furniture sale as great as this. S and H green stamps are given with everything sold at the Star Furniture Company.

\$5 Polar Cub Electric Heaters—\$3.95

SPECIAL EFFORT

Was made in buying our present stock of Florida grapefruit and oranges and we know they were bought right, and we know they are priced at a very small margin. Grapefruit from 5c to 22c each as to size, and we have some whoppers. Oranges at 53c, 66c and 84c, small California oranges at 42c, it will be an absolute saving to buy from us.

Our price on comb honey is more than right 25c and its fancy.

Our shipment of extra fancy apples will be here soon. You will save money by waiting.

Barrington Hall Coffee, to those that know it, its good news.

LOCAL ITEMS

Col. Charles F. Hunt, sheriff of Bernalillo county, several years ago, now in the cattle buying business in El Paso, Texas, is in the city, interviewing local cattle buyers and buyers.

The Most Rev. Albert Daeger, archbishop of Santa Fe, returned to Santa Fe last night after having been in Albuquerque and vicinity for several days administering confirmation. Classes were confirmed Sunday at the churches of San Felipe de Neri, the Sacred Heart and the Immaculate Conception.

R. F. Hare of State College, who proposes the statistical reports on New Mexico for agricultural products, was here yesterday.

W. E. Nutting, the Raton drugist, is in the city attending the meeting of the state board of pharmacy, of which he is president.

C. V. Brown of Socorro, prominent Socorro man and member of the Rio Grande commission, was here last night on his way to Santa Fe.

Mrs. James C. Fitch of Socorro, wife of a prominent attorney of that city, was here yesterday.

John F. Young, merchant and United States commissioner at Cuba, was here yesterday on business, accompanied by E. B. Young.

Mr. and Mrs. J. V. Seymour of Gallup are here.

F. S. Blackman and Librado Garcia of Espanola are in the city.

W. M. Stevenson of the forest service who has been on grazing reconnaissance work all summer has returned from the field and will go to the University of California to pursue his forestry studies.

George Anderson, who has been ill for several weeks with typhoid fever, is convalescing at his home on North High street and two children will arrive home today from a two months visit with relatives in Chicago.

T. J. O'Connell and R. McClellan were fined \$10 and \$15 respectively last night in police court for violation of the traffic ordinance.

J. D. Kelley, secretary of the employment section of the War Veterans' bureau for the Pueblo district, which includes Albuquerque, is in the city in connection with obtaining employment for rehabilitated former service men. Mr. Kelley says that the bureau realizes some of the men who have been trained by the bureau are not yet competent for employment but that employment will be sought by the Veterans' bureau only for men who have been declared competent.

Dr. H. M. Bowers returned to the city yesterday after several months spent in San Francisco where he completed the "electronic reaction course" of Dr. Albert Abrahamson. He will reopen his office in the K. of P. building.

Warren Graham and Thomas Hughes, members of the state penitentiary board, will leave this morning for Santa Fe, where a session of the board is to be held. The session will last three days and the board will arrange for supplies for six months for the penitentiary.

Factory wood, full truck load, five dollars. Hahn Coal company. Phone 21—Adv.

SUNSHINE STATE
HOLDS DOWN WITH
WOMAN TOURIST

Local Woman Looks Them All Over and Tells Club Members That New Mexico Can't Be Beat.

No state in the west has anything on New Mexico when it comes to resources. All that is needed is capital to develop them. After a thirteen week's automobile tour of 8,000 miles through the Rocky mountain and Pacific coast states Mrs. Margaret Medler is convinced of it. She was emphatic in saying so to the members of the Business and Professional Woman's club at their dinner meeting at the Y. W. C. A. last night.

Mrs. Medler described her trip through New Mexico, Arizona, California, Nevada, Wyoming, Colorado and Kansas and recounted some amusing incidents of motor touring. She gave some advice about excess baggage and necessary good humor to prospective tourists and mentioned the most interesting points in her trip on which she was accompanied by Miss Anita Hubbell.

The meeting last night was strictly club business according to the recently developed plan of alternating guest and private meetings. It was announced by the entertainment committee that Mary Heaton Vorse, authoress who frequently visits in the city, would address the club later in the year. An official "pep" member, Mrs. Margaret Barnes, has been added to the entertainment committee.

In answer to an appeal of the Day Nursery the club pledged to contribute \$25 to the support of the institution for 1923. Dr. Margaret Cartwright explained the organization and purposes of the Big Sisters' league of the nursery. The next meeting will be a "birthday party" at which pennies will be brought by each member for each year of her age.

It was announced that four new members were taken into the club: Mrs. J. L. Robinson, assistant manager of the Sash and Door company; Mrs. P. A. Pettit, buyer for the Golden Rule store; Mrs. John W. Wilson, vocational director; and Mrs. C. M. Forsaker, alfalfa farmer. "The attendance price, a copy of 'The Plunge of the Gods' by Mark Twain, donated by Miss Dorothy McAllister, was won by Mrs. L. H. Chamberlain.

In observance of the Y. W. C. A. week prayer for the world held at the table at the dinner were decorated with the Red Cross and American flags in the center with flags of foreign countries at each place.

EXTENSION COURSES AT UNIVERSITY ARE STARTED THIS WEEK

The university extension lectures of ten weeks opened yesterday at a 2 o'clock with the first gathering of the journalism class under the direction of M. L. Fox, former editor of the Journal. The class will be continued at the same hour each week for ten weeks.

The course in home economics for housewives will begin at 7 o'clock today in Sara Reynolds' hall under the direction of Mrs. Walter Simpson, head of the home economics department of the university. There will be ten lectures and demonstrations.

Lectures on radio communication will begin on Thursday evening at the university electrical engineering building under Prof. Charles E. Carter. Child psychology by Dr. Benjamin F. Haught at the high school and salesmanship by Charles M. Barber, will be given on Friday afternoons and evenings. Mr. Barber will lecture at the chamber of commerce. On Saturday morning, Dr. G. S. Hubbell will begin a series of lectures on "Platonic Influence in Literature and Thought" at the Central school and Miss Katherine McCormick will lecture on educational hygiene at St. Vincent's academy.

SPECIALISTS TO HELP U. GIRLS TO LIFE WORK

Vocational Conference With Miss Bennett of Chicago This Afternoon Open to All Women.

Girl graduates of the state university will not become school teachers because they can think of nothing else to do. They will be informed today by a vocational specialist of all of the lines of occupation now open to the modern woman and will be advised individually as to their "After college, what?" problem.

Miss Helen M. Bennett of the Chicago bureau of the Vocational Bureau of the Y. W. C. A. arrived in the city yesterday for a visit at the university and will address women students in a vocational conference in Roddy hall at 4 o'clock this afternoon. High school girls and women of the city will be welcomed to the conference as well as all university girls.

The aim of the conference is to show women what opportunities exist for women in the professions, business and the various handicrafts, and to try to help each girl to find the place for which she is best fitted and in which she will be most interested and successful.

The vocational conferences have become an established fact at most of the larger universities and colleges. Miss Bennett has conducted conferences at such universities as Cornell, Chicago, Illinois, Ohio state and Wisconsin. She will visit universities in Texas, Oklahoma, Arizona and California on this trip.

Mortar Board, Jr., the honorary society for women, will entertain at luncheon at the Alvarado at noon today for Miss Bennett and the faculty women will give a tea for the visitor in Sara Reynolds' hall following this afternoon's conference.

SON IS BORN TO
LADY ANGLESEY

Lady Anglesey, mother of the Marquis of Anglesey.

After four girls had been born to the Marquis and Marchioness of Anglesey, the coming of twins, one of whom is a boy, has secured the succession in the direct line to the marquisate, which was created in 1815. The announcement of the arrival of an heir, which took place at Anglesey castle, occasioned great rejoicing, such as was usual in the days when the title was a son to the title was a great event among the retainers of the nobles. Lady Anglesey was Lady Marjorie Manners, sister of Lady Diana Manners.

M'CLELLAN MAY QUIT JUSTICE JOB; WANTS ANOTHER DEMOCRAT

W. W. McClellan, who was elected probate judge for Bernalillo county at the election last week, probably will resign the office of justice of the peace for Precinct 12, the north half of the city of Albuquerque. Justices of the peace are to be elected in January, several days after the newly elected county officers take up their duties.

When Judge McClellan was re-elected that the county commissioners likely would appoint a replacement to succeed him as justice of the peace, he said, "they'll have to appoint a democrat, or by gosh, I won't resign."

Judge McClellan has been a justice of the peace in the city of Albuquerque for many years and has been police judge, at intervals, for long periods.

WIFE OF FORESTRY MAN TO ADDRESS SCHOOL CHILDREN

Mrs. W. R. Chapline of Washington, D. C., wife of a U. S. Forest service official who is here in conference will give an illustrated lecture before the seventh grade pupils at Central school at 3:45 o'clock this morning. Mrs. Chapline will give a talk on forestry conditions in narrative style to be illustrated by lantern slides. She has lectured on this subject before school children in Washington, D. C., and in Arizona.

Y. W. C. A. REGISTRY OF ROOMS IS ADDED TO TRAVELERS AID

Plans for combining the room registry activities of the Young Women's Christian association with the regular travelers' aid work at the railroad station were discussed at a meeting of the travelers' aid committee yesterday afternoon. The work will probably be combined and headed by one person in the future.

A complete register of all inspected rooms in the city will be kept on file at the travelers' aid desk of the station. Duplicate lists of selected rooms will also be kept at the business headquarters and at the Y. W. C. A. hotel for the convenience of other secretaries.

The budget for next year's work was discussed by the committee yesterday for presentation at the next meeting of the board of directors of Monday evening. Recommendations will also be made on Monday for a successor to the present travelers' aid secretary.

Mrs. L. J. Watkins, who has served as travelers' aid for the past six years, was presented with a gift of table silverware by the committee yesterday. Mrs. Watkins was recently married and will leave her position on January 1.

TWO WOMEN TAKING THE STATE PHARMACY EXAMINATION IN CITY

Women are entering the pharmacist's profession in New Mexico in equal numbers with the men. Half of the examinations now taking the state pharmacy board's quiz are women. Two of the four examining women who desire to practice in various parts of the state.

The examination which began yesterday morning at the chamber of commerce will be concluded this evening. Members of the board who are conducting the annual examination are: B. Hupke of Albuquerque, president; C. S. Moore of Roswell, secretary; W. E. Nutting of Raton and D. W. Hayden of Clayton.
