NEGRO SOLDIER
ADDS SPICE TO
SENATE DEBATE
ON CLEMENCEAU

Attendants Restrain Him
When He Seeks to Question
Hitchcock; Great
Excitement Prevails

TIGER CRITICISED.
AND ALSO DEFENDED

Nebraskan Leads the Fight
Against War-Time
Premier; Myers of Montana
Defends Him

Washington, Nov. 27.—The tiger of France again came under fire in the senate today when his utterances on his tour of the United States were the subject of a conflicting debate, which was enlivened by an interruption from the galleries by a negro soldier.

Senator Hitchcock, democrat, of Nebraska, former chairman of the foreign relations committee, led off in the debate with an attack on M. Clemenceau and of French policies, and was joined in the criticism by other senators, while Senator Myers, democrat, of Montana, came to the defense of the aged French statesman.

It was during Mr. Hitchcock's attack upon the war-time premier in connection with alleged atrocities of black French colonialists in Germany that the negro soldier, who gave his name as Louis Jones, a patient at a government hospital near here, rose in the gallery and sought to question the senator.

Coolidge Bangs the Gavel
Vice President Coolidge banged the gavel and senate attendants rushed forward and restrained the negro, so the question was never answered, but great excitement prevailed.

The negro left the galleries but returned for a second attack while Senator Heflin, democrat, of Alabama, incensed at what he termed was an "insult" to the senate, demanded the negro's expulsion.

There had been discrimination, the Alabama senator shouted, declaring that in the past white women had been ejected from the galleries of both the senate and house for interrupting debate, while this disturber was permitted to remain.

Senators Curtis, republican, of Kansas, and Hitchcock, however, explained the incident that the negro was there through ignorance and no action was taken in the case.

Senator Hitchcock especially criticized the statements of M. Clemenceau in reference to the quartering of French "black troops" on the Rhine, declaring that the "black" demand of the use of these troops had been disapproved. He also attacked the French reparations demands on Germany.

Commends French Policies
Senator Myers, in defending M. Clemenceau, deplored Senator Hitchcock's criticism of the French statesman and commended French policies toward Germany.

Senator Myers declared he regretted hearing M. Clemenceau "treacherous and assailed," and that he was in complete agreement with M. Clemenceau's argument that "America erred in not joining the league of nations."

"The Montana senator also deplored the fact that he was 'expressions of sympathy for Germany,' by Senator Hitchcock."

"Every dollar laid on Germany in reparations should be collected as if it were a contribution made by the German people," said Senator Myers.

Owen Expresses Sorrow
Senator Owen, democrat, of Oklahoma, expressed sorrow, and others at the peace table had "wrong concessions" from former President Wilson and caused resentment in this country with sentiment resulting in rejection of the Versailles treaty.

"The French leadership is slow," isolating from the French government the sympathy of the world," he declared, "in the spirit of the American people have felt a great and sentimental friendship for the people of France."

Senator Owen said that Clemenceau's visit might "open the door to a better understanding between European nations and the United States," and he suggested inviting French, British and Italian leaders to this country for a conference.

WEATHER

FORECAST.
Denver, Nov. 27.—New Mexico: Unsettled Tuesday and probably Wednesday, not much change in temperature.
Arizona: Generally fair west, unsettled east portion Tuesday and probably Wednesday, not much change in temperature.

LOCAL REPORT

Conditions for the twenty-four hours ended at 6 p. m. yesterday, recorded by the university:
Highest temperature 64
Lowest 27
Range 37
Mean 48
Humidity at 9 a. m. 90
Humidity at 6 p. m. 42
Precipitation 0.0
Wind velocity 12
Direction of wind Variable
Character of day Clear

SALESMAN SLAIN
BY DENVER MEN
AT LONELY SPOT

Two Confess to the Police
That They Killed George
E. Miller Sunday Night;
Robbery the Motive

Denver, Colo., Nov. 27.—John J. Jones and Fred Rhodes confessed today that they killed George E. Miller, Denver salesman, last night after luring him to a secluded point near Globeville, a suburb, with the motive of robbery. Chief of Police Williams announced today.

"Jones and Rhodes said they persuaded Miller out to Globeville to rob him," Chief Williams answered. "They said they knew he usually carried a considerable sum of money."

"They stopped him, pretending their car had broken down and asked him to come to their aid."

"When they tried to rob him, he resisted and they killed him between 9:20 and 10 o'clock last night. The body was found about 7:30 o'clock this morning, by laborers on their way to work. Jones and Rhodes were implicated in the former's confession and his arrest followed, according to Chief Williams."

Wallace Giving
Close Study to
Packing Merger

Secretary Is Not Ready to
Give His Consent to the
Proposed Consolidation of
Two Plants

Washington, Nov. 27.—Secretary Wallace is not yet ready to give his consent to the proposed merger of two of the Chicago "Big Five" meat packers through the purchase of Morris and company, by Armour and company. It was stated today after a second White House conference on the subject. Besides the president and Mr. Wallace, Attorney General Daugherty and Solicitor General Williams of the agricultural department, were present at the conference.

Although J. Ogden Armour and his associates have from the first desired an early decision, it is understood that Mr. Wallace will not give a definite decision before forming a definite decision.

Attorney General Daugherty, who was called in to today's conference presumably for an opinion as to the application to the question of the Sherman and Clayton Anti-trust acts is known to hold the view that a merger of two large business concerns of itself is not necessarily a violation of these statutes, that whether there was a violation would depend upon the conduct of the business subsequent to the consolidation.

There has been no pronouncement of President Harding's view point other than the statement made at the White House after the visit of Mr. Armour while he was in Washington to present his plans to Mr. Wallace. At that time, it was said that the executive, on the basis of the information furnished by Mr. Armour, could see no material objection to the merger.

Commends French Policies
Senator Myers, in defending M. Clemenceau, deplored Senator Hitchcock's criticism of the French statesman and commended French policies toward Germany.

Senator Myers declared he regretted hearing M. Clemenceau "treacherous and assailed," and that he was in complete agreement with M. Clemenceau's argument that "America erred in not joining the league of nations."

HARDING NAMES
EMERGENCY DAY
FOR NEAR EAST

Designates Sunday, Dec. 3,
for the Purpose of Directing
Attention to the Need
for Relief

Washington, Nov. 27.—President Harding addressed an appeal to the governors of the states today for the observance of next Sunday, December 3, as "Near East Emergency Day." He suggested that through co-operation with the mayors of cities and other public and civic authorities the day be observed with the special purpose of directing attention to the need for substantial relief through the American organization established for that end.

"The need as revealed in the latest cable reports from Grecian territory and the near east far exceed all previous conditions made for the relief of this crisis," the appeal said. "The response to date has been altogether inadequate. I am sure the people of the United States will grasp the magnitude and pathos of a situation involving the absolute known destitution of over a million and a quarter women, children and old men."

"I therefore make the supplemental appeal at this season of thanksgiving for God's blessing to us, for the human beings who are sufferers in the stricken area."

"I request the governors, mayors, business and philanthropic organizations and all other citizens of the United States to hold this tragedy in mind during thanksgiving week and I appeal again to you to make a response equal to the emergency and worthy of the generous heart and the humanitarian spirit of our great republic."

"This may be organized and definite, I hereby designate Sunday, December 3, as a special day of mass meeting in our cities and the climax of this appeal extraordinary."

SCIENCE LAWS OF
STATE ARCHAIC,
TEACHERS HEAR

Judge Roberts Recommends
Changes to Educational
Council; Assured Tenure
for Instructors Urged

That the teacher should be assured of fully as stable a tenure of employment as that of any other professional worker, with a salary commensurate to his ability; that school affairs should be removed as far as possible from political influence; that the principle of federal assistance for education has already been established and should be followed to its ultimate end by the passage of the Towns-Sterling bill; that New Mexico's school laws be revised; and that the rural school problem is the real educational problem of the nation.

These were statements made by speakers before the New Mexico Educational council at its session here yesterday. So interesting were the discussions and so well were they participated in, that the council, though it was in session for almost eight hours, was compelled to adjourn until this morning at 11 o'clock when the business session will be taken up.

The council went on record as approving the report of its committee requiring that all elected members of the body be chosen by the votes of paid up members in the districts from which they are delegates. Because many of the counties had misunderstood the procedure, the rule was given a liberal interpretation for this year.

School Laws Conflict
Judge Clarence J. Roberts of Santa Fe, president of the Educational Council, declared that "if everybody in New Mexico paid taxes according to his ability, the state would be a high tax state. Judge Roberts made this statement in commenting on what he declared to be the willingness of taxpayers to be inequitable and sometimes illiterate county officials to pay taxes, while expressing great concern because of amounts paid for schools. "The county school superintendent," said Judge Roberts, "is the only official elected in the county who is not a taxpayer. He is able to read and write."

The judge said any school district that feels it can afford to spend money liberally for schools should be permitted to do so unhindered by state agencies. "Our state government is too unbalanced, and like the federal government, is trying to take upon itself too much supervision over purely local affairs," Judge Roberts said. "He traced the history of school laws, showing that they must first be approved by the county superintendent, then the state educational board, and finally might be set aside by the state tax commission. And after that he said, it was desired to have the money from one fund to another, the permission of the traveling auditor must be obtained."

Judge Roberts suggested: That the state board of education be a non-political, non-partisan body; that it should appoint the state superintendent, whose office should also be non-political. That the qualification of teachers be set by the state board of education, and that the state board of education should be empowered to hire the county superintendents, who would be required to devote all their time to their work; that the state board of education be an advisory officer only. That all persons who vote be compelled to pay poll tax, including the women. That a graduated income tax be imposed upon residents of the state.

The offer of Dr. David S. Hill, president of the University of New Mexico, to have copies of Judge Roberts' address published and sent to teachers throughout the state was accepted.

Assurance of Employment.
The paper of City Superintendent Roy L. White of Gallup on "Improvement in Service and Tenure of Teachers and Basis for Salary Schedule," showed that the trend among educators is to advocate for the teacher a guarantee of a steady position under such conditions will continue to study in an effort to increase their ability.

In the discussion on this subject, Mrs. Maude L. Blaney, county superintendent of Lincoln county, criticized the state tax commission for having unexpectedly and with little notice lowered the salary of county teachers, and said this had been done after many teachers had been contracted for the year and had gone to large expense by attending the summer school. She said that school budgets should be approved not later than July 1 of each year. Mrs. Blaney suggested that the educational association, through the council, provide the legislature with a proposed program of legislation for the relief of the rural schools.

County Superintendent Blamed.
Miss Isabel L. Eckles, recently elected state superintendent of public instruction, spoke on "Rural School Needs," declared that the system of providing county superintendents is responsible for many of the disadvantages of the county schools. She suggested that the position be made non-political; that the salary be made adequate for providing first class superintendents; that the change of office does not occur in the midst of a school year, as under the present arrangement; that the townspeople not vote upon the election of county superintendent; that the division of school funds be more fairly made.

Mrs. Adeline Otero-Warren suggested that the present system of having school directors in each district be abolished by law and that the county board of education be elected by the townspeople to employ teachers. State Superintendent John V. Conway made a vigorous

7-50 ACRE TRACT
TO ALLOT RIVER
WATERS PRAISED

Reason and Progress Substituted for Conflict and Stagnation, A. P. Davis Says in a Statement

Special to The Journal
Santa Fe, Nov. 27.—All good citizens should rejoice in the substitution of reason and progress for conflict and stagnation, as evidenced by the signing of the seven state compact to govern division of the waters of the Colorado river system, it was declared by Arthur P. Davis, director of the United States reclamation service. Mr. Davis was in attendance at the conference here, which ended Friday night, with the signing of the pact. Mr. Davis' statement on the value and effect of the pact follows:

"The unanimous agreement by the Colorado river commission upon the details of a compact for the division of uses and protection of rights to the use of waters of the Colorado river and its tributaries, is a signal victory for those qualities and impulses which distinguish the civilized man from the savage."

Will Obliviate Delay
"It will obviate the delay and the acrimonious litigation which a year ago seemed imminent, and has cleared the way for the provision of flood control and irrigation storage urgently needed, and indispensable to further development in the Colorado river basin."

"The original contentions of the seven states were so far apart that an agreement seemed hopeless. But a discussion of the various needs led to closer acquaintance with the facts and the various points of view, and the conclusion was reached that each claimant more than its expected, in view of the original contentions."

The satisfactory settlement of all these disputes at small expense within a year after the organization of the commission is in strong contrast to the alternative of litigation. The recent decision of the supreme court in the Wyoming-Colorado case was rendered about eleven years after the inception, and dealt only with a single controversy in a small stream basin."

The Colorado river lies in seven states, with some thousands of users are diverting its waters. Its development involves some of the largest and most difficult engineering problems ever attempted, and a multiplicity of conflicting interests and possible disputes, which have been settled within eleven months instead of eleven years."

All good citizens should rejoice in the substitution of reason and progress for conflict and stagnation."

"This happy result is due largely to the broad-minded attitude of the members of the commission, and especially to the patience, tact, and diplomatic ability of the chairman of the commission, Honorable Herbert Hoover."

Natural Flow of River
"The natural flow of the Colorado river averages nearly 20,000,000 acre feet per annum. Of this, about one-third is now used, and this includes the low water flow in the lower basin, which cannot be developed safely without storage."

The present uses in the lower basin are about 5,000,000 acre feet. The compact awards that portion of the lower basin to the United States, which amounts to more than double its present needs, and sufficient to develop all feasible projects and some of doubtful feasibility."

The upper basin is awarded 7,500,000 acre feet, which is also more than double its present needs, and sufficient to serve nearly 9,000,000 acre additional, which will be sufficient for all feasible projects."

The compact also provides that the water consumed in irrigation, it will run down through the canyons for use below."

There remains an apportioned quantity of over 4,000,000 acre feet for future division, as unforeseen needs may appear."

Such a further division is provided for in the compact. Thus both basins are fully provided for, their present development protected, and their future development unhindered by water disputes."

COMMISSION URGES
IMMEDIATE ACTION
TO CONTROL FLOODS

Santa Fe, N. M., Nov. 27.—The Colorado River commission, before adjournment here, adopted a resolution strongly recommending immediate action towards flood control of the Imperial valley. The resolution follows:

"The members of the Colorado River commission have had constantly before them the great menace by annual floods to the Imperial and Palo Verde valleys in California, and the Yuma valley in Arizona, and the anxiety of their thousands of citizens. Therefore they earnestly recommend and urge the early construction of works in the Colorado river to control the floods and permanently avoid the menace."

MRS. PHILLIPS GETS
10 YEARS TO LIFE AT
SAN QUENTIN PRISON

Los Angeles, Nov. 27.—Mrs. Clara Phillips, recently convicted of having slain Mrs. Albert Meadows with a hammer here last summer, today was sentenced to serve from ten years to life in the state penitentiary at San Quentin. She received the sentence without emotion.

The commitment to prison was delayed when her counsel sought a writ of habeas corpus. A ten-day stay of execution was granted. However, the attorneys stated that the notice would not necessarily mean that an appeal would be perfected. They said that Mrs. Phillips would be held in the local jail for ten days and then transferred to San Quentin.

CROSS COUNTRY RUN
IS WON BY SYRACUSE

New York, Nov. 27.—Syracuse today won the annual inter-collegiate cross country run over the six-mile course at Van Cortlandt park.

Yale was second and Massachusetts Institute of Technology third.

The point scores for the varsity team race follows: Syracuse, 75; Yale 108; M. I. T., 113; Columbia, 118; Cornell, 119; Princeton, 145; Dartmouth, 153; Princeton, 159; Harvard, 153; Penn State, 211; Pennsylvania, 227; City College of New York, 259; New York University, 363.

NAVY SECRETARY
HANDS MIDDLES
SEVERE REBUKE

Are Held Up to Public Scorn as the Result of Their Conduct at a Football Game and a Dance

Washington, Nov. 27.—Midshipmen from the naval academy who celebrated over indulgently for the annual Army-Navy football game Saturday were held up to public scorn today by Secretary Denby in one of the most stinging rebukes ever given by this secretary of navy.

Members of the corps, Dr. Denby declared in a public statement, not only disgraced themselves and the navy, but by their conduct at a dance which followed the game in Philadelphia brought such shame upon academy itself as it never had known before.

The secretary said he did not know how many of the midshipmen "drank heavily, and were concerned that the great majority conducted themselves with propriety." But he added, that enough of them had failed in their duty, to "bring shame upon all."

He announced that an investigation will be held at once, and that steps would be taken to insure that "such an occurrence will never be repeated."

Guilty Not Named
None of the guilty were named in the secretary's indictment, nor did it appear certain that the department would find it possible to single out any individual midshipmen for punishment. It was indicated that the inquiry probably would be in the direction of a general effort to establish what the conditions were that made the incident possible, and that any disciplinary action probably would fall upon the entire Annapolis establishment in such a way as to keep the corps hereafter within more stringent limitations.

Both Secretary Denby and Secretary Weeks of the war department, together with many of the western states, of four midshipmen, attended the game in Philadelphia, but it was said today that the war department had no information that any of the cadets from West Point conducted themselves improperly.

Secretary Denby said in response to inquiries that he would not bring up at the cabinet meeting tomorrow the question of the relationship between the midshipmen's conduct and prohibition. "I drew a sharp line of demarcation," he said, "that the investigation to be conducted would be based on a matter of military discipline entirely."

Leviathan Amendment
Stirling in company with Representative Oliver, democrat, of Alabama, presented an amendment, acceptance of which virtually fixed an upper price for the sale of the steamship Leviathan, the biggest of the Government fleet. "This provided that the Leviathan, now being re-conditioned, should not be sold at a price less than the cost of re-conditioning. Precise figures obtained tonight from the application showed that this cost was \$3,100,000. First declared defeated, the Oliver proposal won, \$1 to \$3, by a man to man count as members marched down the aisle."

The fight to riddle the bill was begun five minutes after the actual reading started. On his feet first, Mr. Graham put forward an amendment to strike out a section permitting the shipping board to sell ships without advertisement or competitive bids. This was the worst scandal in the government reached into the sale of vast surplus stocks "by negotiated sale." Mr. Graham called upon republicans to make the section and throw it out.

Motion Adopted
The motion was adopted. The other Graham amendment increased the rate of interest on unpaid balances for ships bought from the western states—California and Nevada—asked the Interstate Commerce commission today to continue the merger of the Southern Pacific and Central Pacific railroads, which would be dissolved, while commissions of two other states—Wyoming and Idaho urged approval of the separation.

A group of California business men also appearing in the hearing which the federal commission is conducting on the Southern Pacific's application for retention of the Central system, came forward to argue for the retention of the line to commercial and civil interest along the Pacific coast.

R. E. Sachs, chief engineer of the California commission, was quickly brought to the stand for the state when the day's session adjourned, but J. P. Shaughnessy, member of the Nevada commission had previously set out at length the reasons for his opposition. The unified Southern-Pacific Pacific system, he said, was one of the largest in Nevada, and its dissolution would mean diversion of traffic and workers in other directions.

George E. Lee of the Idaho commission, declared the greater competition to be brought about by enforcement of the supreme court decision would benefit the territory he represented.

Representative Mondell, house of representatives leader, made the principal argument for Wyoming in the debate. He repeated his contention that the national interest required maintenance of competition in transcontinental railroad service. An independent Central Pacific, he declared, would be a more potent stimulus nationally and locally, than the present merger.

DEPOSED BOY RULER
OF CHINA WILL WED
A PRINCESS FRIDAY

Peking, Nov. 27 (by the Associated Press).—Huang Tung, 17, deposed boy emperor of China, will be married next Friday, according to the custom of the old Manchu dynasty, to a Chinese princess, one year his junior, upon whose face he has never gazed.

His first glimpse of her, the princess Eno Chin-Shi, daughter of Prince Kuo Chin-Shi, will come when she is unveiled during the marriage ceremony which starts at 4 o'clock Friday morning and lasts for several days.

The wedding plans reveal a revival of all the regal splendor of the old Manchu dynasty and will be carried out in strict accordance with ancient Chinese customs.

37 AMENDMENTS
TO MARINE BILL
ARE INTRODUCED
IN LOWER HOUSE

Measure Has Covered One-Third of Its Voyage Toward the Senate; Six Changes Are Agreed To

Early in the fight Representative Edmonds of Pennsylvania, ranking republican of the merchant marine committee which framed the bill, formally announced on the floor that the section under which the Standard Oil Company, for example, would share in the government subsidy for transporting its own goods in its own ships would be stricken out bodily. This in the view of western republicans added to its chance of passage.

Rated as the most important amendment to stand up was the Graham proposal which cut out of the bill the provision under which the government would receive a five per cent income tax rebate, which in some instances, it was charged in the House, would have enabled some shippers to escape all payments. It was adopted by vote of 56 to 47 after it had been characterized by Mr. Graham as "vicious and extremely dangerous."

Leviathan Amendment
Stirling in company with Representative Oliver, democrat, of Alabama, presented an amendment, acceptance of which virtually fixed an upper price for the sale of the steamship Leviathan, the biggest of the Government fleet. "This provided that the Leviathan, now being re-conditioned, should not be sold at a price less than the cost of re-conditioning. DES MOINES SELECTED
Des Moines, Iowa, Nov. 27.—The governing board of the National League of Women Voters has selected Des Moines for the next annual convention, April 9 to 1

EX-PREMIER OF FRANCE GREETED BY HUGE CROWD

Clemenceau Returns to Chicago for the First Time in More Than 50 Years; Will Deliver a Speech

Chicago, Nov. 27 (By the Associated Press).—Georges Clemenceau today came back to the struggling little mid-western town he had visited as a young man more than half a century ago and found that it, like himself, had grown to great stature and international fame.

The Tiger of France came to deliver the third of his series of American addresses. In an effort to win American sentiment for his country, was accorded a demonstrative welcome to Chicago.

Arriving at 2:25 o'clock, the old war premier was met by a committee headed by General Pershing and Brigadier General Charles G. Dawes, former director of the budget at Washington. They led him through a lane of bluecoats to an open car and drove to city hall, where Mayor William Hale Thompson welcomed him on behalf of Chicago.

Escorted by Artillery

The Tiger was escorted up town by a troop of artillery from Fort Sheridan. Beside him rode General Pershing. Others in his car were Brigadier General Jacob M. Dickinson, former secretary of war and Colonel Stephen Bessall, tour conductor.

A huge crowd was massed about the city hall and the police were obliged to smash a passage way through for the distinguished visitor. Escorted to Mayor Thompson's office, the mayor introduced him to the cabinet members "as our honored guest."

The party remained in Mayor Thompson's office only a few minutes, returning to their cars to drive to the Potter Palmer home, where Clemenceau is to stay during his two and a half day visit.

The cavalcade passed through dense crowds up Randolph street to Michigan boulevard and out the boulevard to Lake Shore drive.

Guns Thunder a Salute

As Clemenceau's car entered into Michigan boulevard a battery of 75's in Grant park thundered a salute.

Another crowd had massed about the Potter Palmer house and set up a cheer of "Vive La France" and "Vive Le Tiger" as his car rolled up and he stepped out. When he had been greeted by Mrs. Palmer, Clemenceau granted the army of newspaper writers who had trailed him, a five-minute interview. Entering the room where they were waiting, he raised his gray-gloved hands and exclaimed:

"I Plead Not Guilty!"

After he had given his impressions of Chicago today he was informed that he had been made the subject of another senate debate in Washington today.

"Again!" he exclaimed with an expression of disgust.

When he was told that Senator Hitchcock had challenged his Boston statement that all black troops had been withdrawn from the Rhine, he replied curtly that the information he had given in Boston was "official."

The only comment he would make on the uproar that followed an attempt by a wounded negro soldier to inject himself into the senate debate was with a shrug.

"That's no business of mine."

Interest in dispatches

The Tiger evinced great interest in the dispatches, however, and seized the first opportunity to read a sheet of Associated Press copy, which was left for him. He sent the Associated Press correspondent word later that he had nothing more to add to his Boston interview.

The interviewers asked him to

GOVERNOR'S SON TO WED BEAUTY

Miss Mary Parker, daughter of Governor Harrison B. Parker, former head of the American Co-Operative Society, is reported engaged to Harold Sykes Lake, son of Governor Lake of Connecticut. The wedding is scheduled for spring.

comment on the fact that Woodrow Wilson had once written a letter in which he too had charged that France was militaristic.

"It is all forgotten," he declared. "That was centuries ago."

He said he was looking forward with great pleasure to visiting the former President at Washington next week.

League of Nations

Asked if he planned to talk in this country about the league of nations, he replied:

"I am ready."

But when one questioner asked him if he approved of the league, he replied:

"That is a more complicated question."

Clemenceau retired at 8 o'clock after his customary supper of soup, cheese and five minute eggs.

He planned to rise about four and begin final work on the address he will deliver at the auditorium tomorrow afternoon.

His speech will also be relayed from a radio station that has a sending radius of 1,500 miles and thousands of middle west farmers, who keep in touch with events by radio are expected to listen in.

NEGRO SOLDIER ADDS SPICE TO ON CLEMENCEAU

Continued from Page One.

"Extorted much" from Woodrow Wilson in the making of the Versailles treaty, Senator Owen said America would not support a "policy of greed, brute force and injustice between nations" and that America could not co-operate with France in the present state of affairs.

CABLE INTERRUPTED

New York, Nov. 27.—An interruption of its mid-air cable, cutting off all communications by that route with Guam, the Philippines, China, Japan and the Dutch East Indies, was announced today by the Commercial Cable company.

Turtles are fond of tomatoes.

SCHOOL LAWS OF STATE ARCHAIC, TEACHERS HEAR

Continued from Page One.

speech in behalf of the county unit law which he said had done a great deal for the country schools by compelling the cities to help support the smaller districts. The administration of funds under this law, however, came in for a good deal of criticism. Superintendent Kirk of De Baca county said the county superintendent should be made a real official or should be abolished.

T. W. Conway of Santa Fe, secretary of the State Educational association, made an address on "Pension Laws for Teachers," and recommended that a committee be appointed to investigate the Arizona law which gives a pension after a certain number of years of service. Superintendent W. D. McFarland of Las Vegas, who led the discussion, said that action on this line should be taken promptly.

Favors Reward of Merit

J. O. Engleman, field secretary of the National Education association, made an inspiring address in which he said that the country schools, because of their rugged environment, have given to many of their pupils an aggressiveness and resourcefulness that the city schools do not give. He advocated better facilities for the rural schools. He favored the schedule system of paying teachers, saying that the schedule, however, should recognize that education on the part of the teacher as well as on the part of the pupil depends on growth and increasing wage should be paid to teachers as they better fit themselves by study and experience.

H. L. Kent, president of the State Agricultural College, spoke on the Townier-Stirling bill, showing that by its provision of federal aid for education in the states, it will work to the advantage of both state and nation through the teaching of Americanism, the eradication of illiteracy, and kindred subjects. He said the government does not assume an onerous right to interfere in state educational methods, but only takes the right to see that the money appropriated is expended for the purpose for which it is provided. He said the states have the right to select those projects for which they wish federal assistance.

In the discussion that followed Mr. Engleman said that prospects for the creation of a national department of education are less favorable than a year ago, and urged that efforts be made to bring congressmen and senators to vote for it. He said the trend now is to create a department of education and social service whose functions, from the standpoint of the educator, would not be so advantageous as a department of education as provided by the Townier-Stirling measure.

The following committee was appointed on resolutions: L. B. Mitchell, Albuquerque; R. L. White, Gallup; Mrs. Ella M. La Bar, Albuquerque; A. E. Thomas, Alameda; and Mr. Frank C. New Mexico Military Institute at Roswell.

It is understood that the resolutions now in the making will recommend a legislative program.

LOCKE IS HIGH SCORER

Chicago, Nov. 27 (By the Associated Press).—Gordon Locke, fullback of the Iowa team, rated as champion of the Western conference is the individual high scorer for the season, according to records available today, having marked up 72 points. His nearest competitor is Ole Moevry, halfback of Minnesota, each having 24 points to their credit.

The first library discovered in China in 1935 had been waiting for fear of invasion by hostile troops.

WOMEN CAN MAKE GOOD AFTER FORTY, SAYS ONE WHO HAS

Jane Gray Stokes.

Where is the mistaken person who said the man or woman in business is on the decline after forty? Mrs. Jane Gray Stokes rises to remark that a woman's difference, and Mrs. Stokes ought to know, for she is one of the most successful business women in New York state. She made the first soft toy for children and she never made a toy in her life and never sold one until after she was forty.

Sherman, Tex., Nov. 27.—R. L. Caruthers, 50, former city attorney, was almost instantly killed today when he stumbled on the stairway at his home and dropped a pistol which was discharged when it struck the floor.

FOUND SALE

On Tuesday, the 28th day of November, 1922, at 10 a. m. in front of the city hall on North Second street, I will sell one black horse, 10 hands high, about 15 years old, branded on left thigh.

Also one bay horse about 14 hands high, about 10 years old, branded on left thigh.

One bay mare about 14 hands high, bald face, both hind and right front feet white, branded on left thigh, 10 years old.

One sorrel horse about 8 years old, 13 hands high, branded on left thigh.

J. R. GALUSHA, City Marshal.

Don't delay fighting constipation with BRAN that is ALL BRAN!

When constipation flashes its signals of sickness into your eyes and cheeks; into your breath, your brain and your appetite, it is absolutely necessary that you head it off! Toxic poisoning stands close by; Bright's disease and other dangerous diseases await their turn!

The remedy that nature offers is the simplest and most effective—Kellogg's Bran, cooked and krumbled, which is ALL BRAN! And it is ALL BRAN! It is ALL BRAN you need when you start to fight constipation. You can't afford to delay a minute and you can't afford to use half-way measures with foods that contain a percentage of bran! Your physician will recommend Kellogg's Bran because it is not only effective, but because it is delicious. Why—you will like its nut-

like flavor, which adds so much to any food with which it is served.

Be certain to eat Kellogg's Bran regularly—at least two tablespoons daily; in chronic cases with each meal. Results will prove astounding. Remember that Kellogg's Bran is nature's own regulator, which operates in nature's way—which is the best way!

Eat Kellogg's Bran as a cereal, sprinkled on other hot or cold cereals, or make it up into the best of muffins, pancakes, raisin bread, cookies, macaroons. Kellogg recipes are printed on each package. Let the children eat Kellogg's Bran. It is wonderfully beneficial. It will improve their health, just as it will really and truly make over men and women. The value of Kellogg's Bran cannot be overestimated. Sold universally by grocers.

—Adv.

ENAMELED ROASTERS

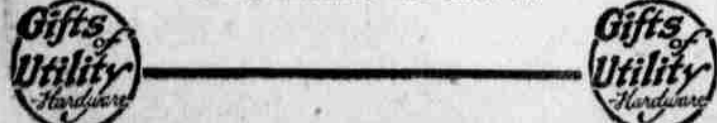

LARGE Size \$2.50

As an extra Thanksgiving special we will sell these large size Seamless Enamelled roasters at \$2.50. This is the self-basting style, very easy to keep clean.

Raabe & Mauger

First and Copper. Phone 395

If It's Hardware—We Have It.

Buy a Columbia and have a REAL Thanksgiving!

TEN reasons why you should buy a Columbia

COLUMBIA CABINETS

- 1—Stream-line Cabinet Harmonizes delightfully with your home furnishings. All finishes are beautiful and easily kept clean.
- 2—Automatic Record Ejector Eliminates the search for the desired record. An ideal place for your choice selections. Automatically cleans them before use.
- 3—Tone Control Levers Loud or soft music as you choose—operates on same principle as pipe-organ control.
- 4—One-hand Top Easy to raise and lower without danger of damage or breakage.

COLUMBIA TONE

- 5—Universal Reproducer which gives natural accuracy of tone because it is constructed to reproduce the proper balance between overtones and fundamental tones.
- 6—Straight Tone Arm which allows the sound waves to develop fully and naturally—unimpeded by joints and reflections—from the time they are picked off the record till they emerge through the tone arm.
- 7—Tone Amplifier which assures free and natural amplification. Size and design are the result of 30 years' constant experimentation.

COLUMBIA MOTOR

- 8—Display Motor Brake (to stop record) operates in the motor—not on turn-table. Noiseless gears. Guaranteed. Easy to oil or clean.
- 9—Ease of Handling Needles Three cups for different types. Used needles dropped into special receptacle. Extra convenience of needle insertion.
- 10—Non-Set Automatic Stop It stops the motor without human aid, when the record has finished playing.

COLUMBIA GRAPHOPHONE CO., New York

Why Freight Rates Cannot Be Reduced

Railroads Under Public Control Transportation Charges Must Stay Up Until Costs Come Down, President Storey of the Santa Fe Explains

United States Senator Capper, through his various publications, has been demanding a reduction of freight rates; but his attitude on the general subject of railroads has not blinded him to the main facts about government control, which have been clearly presented in the following editorial from one of his papers, the Topeka Daily Capital:

- "The railroad cannot fix its own rates and charges.
- "It cannot name the wages it will pay.
- "It cannot enter into combinations and deals.
- "It cannot shut down when business goes to the bad.
- "It cannot buy or sell a railroad system.
- "It cannot make capitalistic profits and dividends.
- "It cannot even determine how much capital it shall issue on its property, or issue any without previous approval of the public.
- "It is, in fact, an agency of the public, controlled completely by the government."

The fact is, rates cannot be reduced unless costs are reduced. Costs cannot be reduced so long as the present scale of wages and the prices of fuel, materials and other supplies are maintained, and in these matters the hands of the Santa Fe are tied.

What is particularly needed at this time is better transportation service, more cars, locomotives, and other facilities necessary for moving the business, and the Santa Fe is doing everything in its power to provide these.

ANNUAL CONVENTION OF NEW MEXICO EDUCATORS BEGINS AT THE ARMORY

G. B. Jones and Roy L. White Are the Nominees for the Presidency; Voting Will Be by Ballot at the Y. M. C. A.; Albuquerque and Las Vegas Bid for Next Year's Meeting

G. B. Jones of Las Cruces and Roy L. White of Gallup are the nominees for the presidency of the New Mexico Educational association. Both men are school superintendents and both have taken a lively interest in the affairs of the association. Mr. Jones is the present treasurer.

Other nominees are: Luella S. Clark, Valedon, N. M., vice president; Myrtle Plant, Albuquerque, treasurer; E. C. Best, Santa Fe, railroad secretary; R. E. Marshall, Clovis, and Superintendent Donley, Carlsbad, members of the executive committee.

Nominations were made at the first general session of the convention at the armory last night. Voting will be by ballot. The polling place at the Y. M. C. A. will be open today from 11 a. m. to 1 p. m., and tomorrow from 9 a. m. to 1:30 p. m. Ballots will be cast for the place of meeting at the same time and in the same manner.

Bidders For Convention
The only candidates for the meeting place are Las Vegas and Albuquerque. Las Vegas' invitation was extended by State Senator Charles G. Hedgecock, Secretary W. B. Bates of the chamber of commerce, Mrs. J. H. Wagner of the Woman's club, Superintendent W. R. McFarland and Miss Berdic Adams of the Normal university. In spite of the fact that much is heard about the high cost of education in New Mexico, this state is abundantly able to maintain a school system perfectly adequate to its needs. This was the keynote of the on-

annual address of the president of the New Mexico Educational association, Mrs. Josephine Lockard of Raton, delivered at the first general session of the 1922 convention of the association at the armory last night.

"Lack of funds is not really lack of money," Mrs. Lockard said. "It is a lack of willingness to divert money sufficiently into its proper channels."

"There is a profound respect among people of our state for the judgment of intelligent teachers upon the subject matter of education. It reveals the fact that the people are realizing that education is fundamentally related to their commercial prosperity as well as to their social and moral conditions."

Expenditures for Schools
"Figures and comparisons recently published," Mrs. Lockard continued, "would lead many to believe that the expenditures for public education are excessive. The people of New Mexico can af-

ford to spend liberally in the education of their children, and they should not hesitate to do so. Does any shrewd business man cut out fire insurance in order to reduce overhead? Should a student study at home whose strength and glory are dependent on a free and enlightened people haggle over the premiums it has to pay to insure itself against its most desirable enemy, illiteracy? It has been well said that no people which does not respect education will demand and support good government.

"Census returns, state and federal reports of banks and savings deposits, increased net income of corporations, and expenditures for luxuries, all prove a tremendous annual production of wealth and are evidence of the ability of the state to pay adequate salaries to the teachers of our public schools and to maintain the education of people who cherish not only the right to worship God according to the dictates of their own conscience, but also the privilege of educating their children in accordance with the principles of freedom and equality of opportunity."

Teachers' Salaries
"The educators of the state must not fail to prove conclusively to the taxpayers that the salaries of teachers must not be reduced or school efficiency will be impaired. I stand firmly for high standards for certification of teachers, but those high standards cannot be secured and maintained if a standard of salaries correspondingly high and attractive to the best talent in the profession is not made a permanent and fundamental characteristic of our educational system."

Mrs. Lockard advocated looking after the health of pupils through co-operation with the public health service. She said that state lands should be classified, and those belonging to the schools that are agricultural in character should not be sold in large parcels but in tracts not exceeding 640 acres. The alternating tracts should be held in reserve, she said, so that future generations might benefit by the increase in value.

The following were appointed as judges of election: R. S. Tipton, Las Vegas; Professor R. E. Redick, Gallup; Glen O. Ream, Albuquerque; Marie Myers, county superintendent of Union county; Adelino Sanchez, Belen.

An Inspiring Program
Last night's meeting was largely attended. John Milne, superintendent of the Albuquerque schools, presided. An address of welcome was made by Mayor W. R. Walton, who called attention to Albuquerque's progressive spirit as reflected in civic and school matters and its hospitality, extended through the chamber of commerce. The response was made by the vice-president of the association, Adelino Sanchez of Tome.

A handsome gavel was presented to the president, Mrs. Lockard, by R. R. Larkin of Las Vegas. Mrs. Larkin said the gavel was made in the manual training department of the Raton school of wood work taken from the school house at San Marcial, where he and Mrs. Lockard began their teaching career.

Secretary T. W. Conway of the association addressed the meeting on "My Mission," which he said was to work for the cause of education and the success of the educational association. Dr. David S. Hill, president of the association of New Mexico, extended greetings from his institution and called attention to the progress of education in the state through co-operation and correlation of the various institutions and the teachers of New Mexico.

Will C. Wood, superintendent of public instruction of California, spoke on "What the Public Has a Right to Expect from Her Schools." He said that while many people think school costs have increased enormously, the fact is that less money is being spent, proportionately to the rise in cost of everything throughout the country, than was spent in 1911 for educational purposes. He declared that the public has a right to expect its schools to turn out students with a sense of responsibility to their duties as American citizens, and with a special knowledge of at least one activity, a vocation.

Splendid solos were given by Miss Louise Jaramillo of the Las Vegas Normal university accompanied by Mrs. Colbert C. Roof; Miss Ada Pierce Winn, of the Silver City Normal school, accompanied by Mrs. Adolphine Kohn; songs by the Albuquerque High School Glee club, and instrumental selections by the Las Vegas High school orchestra.

BURCHFIELD DENIES RESPONSIBILITY FOR DEATH OF 5 PERSONS

Bristol, Va., Nov. 27.—While Ben Burchfield, in jail at Blountville, reiterated his denial of responsibility for the death of five persons whose charred bodies were found in the ruins of the Burchfield home here early Sunday, funeral services were conducted this afternoon for the victims of the tragedy.

The bodies of James W. Smith, his wife and their two-year-old daughter Ruby, were buried here.

CLEMENCEAU INVITED TO VISIT ARIZONA

Phoenix, Ariz., Nov. 27.—Governor Thomas E. Campbell and Governor-elect George W. P. Hunt of Arizona and Mayor Lon L. Harmon of Phoenix today dispatched a joint telegram inviting Georges Clemenceau, war premier of France, to visit Arizona. The telegram was sent to Chicago. The telegram follows:

"M. Georges Clemenceau: 'Arizona, the wonderful and picture land of all the world, bids you welcome to our capital and our state. America will look different to you, better to you than it has looked before. The baby state, ambitious and progressive, always anxious and willing to listen and learn will give you another view of this great and glorious country. We extend to you a most cordial invitation to visit with us and we know every true Arizona heart joins with us in extending this invitation.' (Signed): 'THOMAS E. CAMPBELL, Governor of Arizona. 'GEORGE W. P. HUNT, Governor-elect of Arizona. 'LOYD L. HARMON, mayor of Phoenix.'"

CAPTURE 7 CONVICTS
Marquette, Mich., Nov. 27.—Seven of the 15 convicts who escaped from the state penitentiary Sunday were captured tonight, according to penitentiary authorities. Three of the convicts were found hiding in an abandoned brewery four miles from the penitentiary and four were trapped in the hold of a tug beached at Portage lake.

MRS. J. G. LUCKETT SUGGUMBS WHILE TAKING A BATH

Wife of Circulation Manager of The Morning Journal Is Found Dead; Was About 23 Years Old

Mrs. J. G. Luckett, wife of J. G. Luckett, circulation manager of The Morning Journal, was found dead in the bath tub of her apartment, 101 North Maple street, about 9 o'clock last night. The exact cause of death may never be known. The indications were that Mrs. Luckett had gone to the bath room to take a bath, first lighting the gas water heater. Mr. Luckett was down town and telephoned to the apartment. W. W. Moore, the owner, answered the telephone. Being asked by Mr. Luckett to call his wife to the phone, Mr. Moore went to the Luckett apartment. Seeing no one there he returned to the phone and informed Mr. Luckett that his wife was not at home. Afterward, according to Moore, he remembered that he had heard the water running in the bath room. He tried the door and found it locked. He then went and called neighbors and when they returned they broke into the bath room and found Mrs. Luckett's body in the bath tub entirely submerged in water. The gas was flowing, but not burning. Dr. E. T. Lassiter was called but said Mrs. Luckett had been dead about an hour.

Mrs. Luckett, about 23 years old, a native of Louisville, Ky., married J. G. Luckett four years ago in Houston, Tex. She came here with her husband about five months ago. In addition to her husband, she is survived by her mother living in St. Louis, Mo., one sister and two brothers.

BEER COMING BACK IN THE UNITED STATES. NEW YORKER CLAIMS
New York, Nov. 27.—Simultaneously with the filing of a document with the county clerk announcing the increase of the capital stock of the brewing corporation known as "Jacob Ruppert" from \$100,000 to \$15,000,000, Jacob Ruppert, one of the late principal stockholders, declared today that "beer is coming back in the United States."

Mr. Ruppert's explanation of the increase of \$14,900,000 agreed upon by himself and Anna Ruppert, trustees of the estate of Jacob Ruppert, was that it was to provide the declaration of stock dividend. He added, however, that when "congress responds to the wishes of the people, as indicated by the last election, we will be ready for expansion."

The corporation now is brewing near beer and other soft drinks.

Boils Quit Quick!

S. S. S. Will Prove to You in Your Own Case the "How" and "Why" of its Remarkable Blood-Cleansing Power!
There is a reason for everything that happens. Common-sense kills misery. Common-sense also stops boils. S. S. S. is the common-sense remedy for boils.

Pimples May Be Small Boils!
Because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood-cleanser, it builds red cells. That is what makes fighting-boils. Fighting-boils destroys impurities. It fights blood, it always wins! It fights pimples! It fights skin eruptions! It builds nerve-power, thinking power, the tight-listed power that wins a man up to his success. It gives women the health, the angelic complexion and the charm that moves the world. These are the reasons that have made S. S. S. today the great blood-cleanser, body-builder, success builder, and it's why results have made tens of thousands of men and women happy! Mr. V. D. Schaaf, 557 14th St., Washington, D. C., writes:

"I tried for years to get relief from a bad case of boils. Everything failed until I took S. S. S. I am now absolutely cured, and it was S. S. S. that did it." Try it yourself. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

Headaches

Are Usually Due to Constipation
When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

'I AM TIERNAN'S WIFE,' DECLARES AN IOWA WOMAN

Woman He Married Saturday Says He Will Be With Her Wednesday and She Will Live With Him

Marshalltown, Ia., Nov. 27 (by the Associated Press).—Mrs. Blanche Hawen-Rash-Brimmer-Tiernan, here to establish the fact that she had a legal right to become Miss John P. Tiernan at Crown Point, Ind., Saturday, expects the South Bend professor to be here with her Wednesday morning, she announced tonight.

"I had a long distance call from Mr. Tiernan this afternoon," Mrs. Brimmer-Tiernan informed an Associated Press correspondent. "He told me he would be here Wednesday morning."

"I am Tiernan's wife and I am going to live with him," she declared. "There is no personal enmity between Mr. Tiernan and myself. He can't go back to his first wife under the Indiana law, and I am going to fight any action to set aside the divorce if such action has been taken."

Mrs. Brimmer-Tiernan said that she did not believe the reports that she and Tiernan and his first wife have settled their differences and agreed to live together again. County Attorney Hoover, who acted as Mrs. Brimmer's attorney in obtaining a divorce from Arthur H. Brimmer, says that her status in Iowa is clear. He said, however, that he does not consider that Mrs. Brimmer-Tiernan's status under the Iowa law has any bearing in the case, as her latest marriage was performed in Indiana.

TIERNAN IS DETHRONED BY HIS SISTER-IN-LAW
South Bend, Ind., Nov. 27.—The harmony which was said to exist in the Tiernan household following the announcement late today by Professor John P. Tiernan that he and his wife had finally agreed to a complete reconciliation, was threatened with another split tonight, following the arrival here of a sister of Mrs. Tiernan.

Although it was indicated tonight by Professor Tiernan that the sister was welcome as far as he is concerned, the third party immediately proceeded to take charge of affairs in the case in an unceremonious manner. Her first action was to bar a small army of newspaper men who were besieging the home.

"There will be no more publicity in this case," she said. "Tiernan has held the whip hand over Gusie always. He has given out interviews in which he alone starred. From now on it will be different. I am here to see that Gusie (Mrs. Tiernan) gets a square deal and she is going to get it."

Following the arrival of the sister, whose name was not learned, Mr. and Mrs. Tiernan declined to be interviewed.

REFUGEES FLEE FROM THE TURKS; FLOCK TO THE BLACK SEA COAST

Constantinople, Nov. 27 (by the Associated Press).—Another human tragedy that promises to rival the Smyrna fire is developing in northern Asia Minor. The tide of a quarter of a million Christian inhabitants is sweeping in full flood to the fringes of the Black sea and the Mediterranean.

These refugees are clamoring to be saved. The American naval base at Constantinople is deluged with S. G. S. calls from the floods of American destroyers controlling the Mediterranean and Black sea coast of Asia Minor, which is crowded with Christians fleeing from the Turk.

Public Now Prefers Vegetable Laxatives

Dr. Caldwell's Syrup Pepsin affords prompt relief in a natural way

THE public is constantly becoming more discriminating in its choice of things. Those subject to constipation try to learn what makes them constipated, and then avoid it. If constipation persists in spite of all their efforts they take the mildest, most easily tolerated laxative obtainable, and not a drastic physic that upsets them for days afterwards. As over 10 million bottles of Dr. Caldwell's Syrup Pepsin are sold a year, a large proportion of the people of this country must believe that this mild vegetable compound is the proper remedy for them, and so it is. No need to take salt waters and powders that dry up the blood; coal-tar drugs in candy form that produce skin eruptions, or colic that salivates. These drugs are "heroic measures," over-effective, weakening and gripping.

The best constipation remedy is the one that moves the bowels without shock to your system, and such a one is Dr. Caldwell's Syrup Pepsin. It is a vegetable

compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and has been satisfactorily sold for 30 years. Unlike the harsher physics it does not produce a habit, and increased doses are not required; in fact, it so trains the stomach muscles that in time medicines of all kinds can be dispensed with.

Many take a teaspoonful of Syrup Pepsin once a week as a health safeguard. Others use it only when required, as, for example, Mrs. J. W. Borroughs of Little Rock, Ark., who finds it equally valuable for herself and the children, and Mr. Enas S. Costa of Watsonville, Cal., whose family uses it regularly. Try Dr. Caldwell's Syrup Pepsin in constipation, biliousness, piles, headaches, sallow complexion, and to break up fevers and colds. A generous-size bottle can be had at any drug store, and it costs only about a cent a dose!

GREATER STAFF NEEDED TO CURB 'HOOGH' TRAFFIC

Mellon Is Said to Believe
Complete Enforcement Is
Not to Be Expected Under
Present Conditions

Washington, Nov. 27.—The law enforcement arm of the government was said by high treasury officials today to be without any plans or proposals looking to a more thorough enforcement of the Volstead act, although the subject was gone over in detail at the cabinet meeting with President Harding last Friday. Secretary Mellon was represented as being unable to offer any solution to the problem while the returns from the illicit traffic in liquor continued so large.

Prohibition officials have been making the best use of the tools they have in checking the liquor traffic, according to the view said to have been taken by the treasury head. He was said to have declined to express an opinion as to whether a liberalization of the Volstead law would reduce the amount of "bootleg" whiskey brought into the country.

The treasury secretary was understood to believe that complete enforcement could not be expected under present conditions.

The impression was given that he believed it would take much more money and a far greater staff of enforcement officers than now were available in order to throttle the importations and fraudulent withdrawals from bonded warehouses, as well as to defeat the sale of the liquor, once it was in the hands of dealers.

Questions of profits seemed to be one of the most direct causes of heavy traffic in liquor, in the secretary's view. But how to break up the big profits proved another matter which Mr. Mellon was said to have declared presented for the present an insoluble problem of enforcement.

While House statements of last Friday, according to treasury officials, represented only the gist of decisions at the cabinet meeting. No methods for reducing the liquor traffic by expanded facilities were said to have been branched then, nor since, and it was assumed that the treasury would not ask congress for a greater sum for enforcement than was accorded in the current year. Treasury officials declined to say today whether with the represented amount—approximately \$2,000,000—they would have money with which they could expand enforcement operations.

**EXTRADITION TO BE
FOUGHT BY FORMER
KU KLUX KLEAGLE**

Omaha, Neb., Nov. 27.—Edgar Fuller, former kleagle of the Ku Klux Klan of Sacramento, Calif., being held by police here for Sacramento authorities, will fight extradition if he is not able to obtain bond for his release, he said today.

However, his attorney stated that there might be developments by Thursday which would make it unnecessary for Fuller to fight extradition, but he declined to state what the developments were likely to be.

Fuller said that he would not permit himself to be taken to California a prisoner, because "my pride will not permit me to do that." He declared that the fight against him was the outgrowth of factionalism in the Ku Klux Klan.

Theaters Today

"B" Theater—"Blood and Sand," with Rodolph Valentino, Lila Lee and Nita Naldi as the leading stars, brought out to the "B" at the shows yesterday afternoon and last night crowded houses at each performance and everybody pleased. This great Paramount picture is being repeated today.

Lyric Theater—Arthur S. Kane presents the great Charles Ray as the leading star in "Smudge"; also showing "Andy Gump's" cartoons, and a reel of Goldwyn-Graphic pictures.

Pastime Theater—Lewis J. Selznick presents the popular star, Constance Talmadge as the principal character in "Scandal," based on Cosmo Hamilton's best novel; also repeating "Fox News" pictures, and a reel or two of "Mutt and Jeff" cartoons.

**"BLOOD AND SAND" IS
MOST POPULAR PLAY AT
THE "B" FOR MONTHS**

Book stores and libraries of this city report a tremendous run on "Blood and Sand" by Vicente Blanco Ibanez since it was announced that noted novel would be seen as a Paramount picture at the "B" theater, where it is being repeated today. The picture version is a Fred Niblo production with Rodolph Valentino in the star role. Included in the cast are Lila Lee, Nita Naldi, Walter Long, George Field, Rose Rosanova, Leo White, Marie Marshall, Fred Becker, Charles Belcher and Gilbert Clayton.

**"SMUDGE" IS PLAY OF
ORANGES AND LEMONS;
SEE IT AT THE LYRIC**

Some unknown phases of the orange growing industry in California are shown in "Smudge," Charles Ray's latest production, which has just been released by the First National corporation, and is the main attraction at the Lyric theater today.

In order to prevent the frost from killing the orange and lemon crop the growers utilize smudge pots. While the pots throw off enough heat to be effective, they likewise produce a heavy "smudge" which is carried for miles by the wind and practically ruins clothing and home furnishings.

Around this custom the author, Rob Wagner, has built a story that is highly entertaining and dramatic with Ray taking the part of a newspaper editor, at first in favor of the smudge but later changing his policy. Many highly dramatic episodes are shown in the picture.

**"SCANDAL" IS SAID TO
BE THE AUTHOR'S BEST;
NOW AT THE PASTIME**

"Scandal," a Selznick revival starring Constance Talmadge, will be the featured attraction at the Pastime theater today and tomorrow. This sterling comedy success, which a few years ago was largely responsible for the star's quick rise was written by Cosmo Hamilton, one of the best known writers in the fiction world, and the play already has won the reputation of being the finest screen work ever written by this popular author.

"Scandal" is comedy throughout and provides the star with one of the most pleasing roles of her career. The picture was directed by Charles Gilpin.

ADVANCE SUGAR PRICE
New York, Nov. 27.—The Pennsylvania Sugar Refining company today advanced the price of refined sugar from 7.10 to 7.20 cents a pound, a new high record for the year.

The Tiger Comes Into His Own

Everybody in Princeton is happy nowadays, the majority of the populace wears a smile that would shame the hilarious hyena. The handshaking throng is wide open for the Tiger eleven has finished the season with victories over Harvard and Yale, no defeats, and the "Big Three" championship, not to mention a great intersectional victory over Chicago.

them and told them they were the best ever. He injected spirit and the indomitable will to win into the team with the result that today the Tigers stand over all in the east.

They were outplayed by Chicago. Yale outshone the Princeton squad insofar as machine-like football goes yet the Orange and Black defeated both. They were willing to take chances. Their defense was a healthy attack and running true to form they upset the dope and, as usual, surprised everybody—which was much of a surprise when you stop to figure it out.

Melville Dickinson, captain and guard of the fighting Tigers, is an aggressive warrior, good kicker and all-around athlete.

**OLD GRIDIRON ENEMIES
TO CLASH THURSDAY
IN AGGIE-LOBO BATTLE**

Not only will the Lobo-Aggie game at Laa Cruces, Thursday, bring together on the gridiron the Jones brothers, Ogle and Sewell, holding down the left halfback berth on the Lobo and Aggie eleven, respectively, but several other former team mates will be pitted against each other in the contest.

Playing tackle for the Aggies is Jesse Corn, who played left tackle for Roswell High school, back in 1916 and 1917, when Ogle Jones was starting at left half for Roswell High school. At quarter for the Aggies will be found Walter Wilfley, who played substitute end on the same team with Jones and Corn. Wilfley is a brother to Vernon Wilfley, Lobo backfield man, who has been kept out of the game this year because of fractured ribs received last season. Otherwise the Jones brothers situation might find a parallel next Thursday in the Wilfley brothers.

Buster Kelly, who will probably hold down right end for the Lobos, will find opposing him two of his former team mates at Roswell High, Albert Crisp at center, and Edmond Stone at guard. Elmer Bryan, another Lobo end, is also a former Roswell High school man, although he did not play football there.

It is interesting to note that in the first string squads of Varsity and the Aggies are to be found nine former Roswell High school men, on the Aggie squad, Sewell Jones, Albert Crisp, Jesse Corn, Walter Wilfley, Edmond Stone, and Orie McGary. There are four on

the Lobo squad, Ogle Jones, Buster Kelly and Elmer Bryan.

However, anyone who entertains the opinion that the Turkey Day game will be in the nature of a reunion, had best disillusion himself. The embraces exchanged in that game will not be of the "long lost brother" variety.

THOMAS TO OAKLAND

San Francisco, Nov. 27.—Chet Thomas, former American league catcher, has signed a contract with the Oakland club of the Pacific Coast league for the 1923 season. Thomas was with Oakland in 1909 and afterwards played with Boston and Cleveland.

ANNUAL MEETING OF SCIENTISTS OPENED MONDAY

Interesting and Instructive Addresses Are Made; Second Session Will Be Held Today at U. N. M.

"The Types of Research," called by Dr. John D. Clark, dean of the graduate school at the University, a "masterpiece of classification," opened the seventh annual meeting of the New Mexico Association of Science at the University, Monday morning. Dr. Clark introduced the speakers on the program, among whom were included some of the foremost figures in the world of forestry, engineering, education and economic science in the state. W. H. Long, forest pathologist of the local forest office; Aldo Leopold, assistant district forester, and Ray Marsh were among those whose names appeared on the program under the heading of "Agriculture." Dean Thomas T. Eyre, of the engineering school, spoke on "The Present Status of the Use of Powdered Coal"; and under the title "Education," came the correlated subjects of "Intelligence Tests and School Marks," by Dr. H. F. Haught of the University; "An Experimental Curriculum," by Superintendent Donley of the Carlsbad schools; and "Student Weaknesses in Scientific Expression," by L. B. Hessler of the State University. The sessions of the Association for Science will be completed this morning, and an informal dinner for the members and their wives will be given this evening at the Country club, when necessary business will be transacted. About 40 reservations have been made for the dinner.

Dr. Hill's Address. Upon Dr. Hill's address, "The Principles and Types of Research," blinged the thought of the entire program of the association, according to the brief address of thanks made him at the conclusion by Dr. Clark. He pointed out that knowledge is changing, growing, not static. "Research, which is the organized effort to penetrate to the frontiers of knowledge, is the basis of all progress in industry, in medicine, in astronomy, economics and public education," he said.

"There can be no camouflaged ignorance where research is in operation."

"Instances are on record where the researches of one poor man have benefited millions of his fellow beings, as in the case of Pasteur."

"The types, or kinds of research," said President Hill, "are five in number, as follows:

"1. The discovery of a new truth in nature—such as the X-rays."

"2. The proof of an error in existing popular beliefs, as in the case of the Copernican disproving the Ptolemaic theory of the universe."

"3. The description of a new or concrete case under an old rule. For example, a geologist may find and describe and explain

WREATH PLACED ON UNKNOWN SOLDIER'S TOMB

President Harding, with soldiers, sailors and marines, decorating grave of unknown soldier. America paid its debt to the dead heroes of the World War when President Harding placed a wreath on the tomb of the "Unknown Soldier" in Arlington cemetery. Soldiers, sailors and marines took part in the ceremonies, which were impressive though simple.

a fossil. A physician might profitably describe an interesting instance of aphasia.

"4. The application of an old principle to a new use, as when the principle of the explosion of gases was applied to the material composition engine and the airplane."

"5. The formulation of a new hypothesis, illustrated by the useful hypothesis of Christian Ladd Franklin, who thereby explained the reaction of the human eye to white and colored light."

In conclusion, President Hill pointed out that research essential to civilization is nurtured by learned societies, by academies, by foundations and corporations, by governments, by individuals and especially by universities wherein persons capable of research must be trained.

Four Forestry Addresses. The agricultural phases of the addresses on science was handled in a skillful and interesting manner by W. H. Long, tree pathologist Aldo Leopold and Ray Marsh.

Dr. Long following Dr. Hill with a paper on "Self-Pruning of the Western Yellow Pine." Bringing out, by a description of the beneficial since more clear lumber in these forest sections, he said in conclusion:

"This early pruning of the lower branches of the young timber is beneficial since more clear lumber will be obtained from such trees when they mature. It is a well-known fact that knots, especially large ones, produce lumber

of an inferior grade and hence lumber will not sell for as high a price as that which is free from large knots. Such lumber brings on the retail market about three times as much as the lower grade with their many knots. All of the new wood added to the bole of the tree, after all of its branches are shed, makes clear lumber since the presence of the branches is what produces knots. The earlier in the life of a tree that its lower branches are shed, the sooner will clear lumber be produced on that portion of the tree; hence any factor or agency which causes the early pruning of the lower branches of trees is beneficial to lumbermen. For this reason, the pruning fungus on the western yellow pine is to be considered a valuable asset to the western pine lumberman."

Leopold's Paper. Leopold's paper on "Erosion as a Menace to the Social and Economic Future of the Southwest," brought out the fact that arid regions subject to neglect and misuse, have not the "recuperative powers" that wetter regions have, giving as an illustration the condition of present-day Palestine.

He also stated that over-grazing of western lands would mean a deterioration of land that would not only cost the government vast sums of money, but would mean that reclaimed land would be substituted for country that is far more valuable and richer in resources. "These losses can not, in any proper sense, be replaced by artificial reclamation of lands elsewhere," said Mr. Leopold, "because the irrigable land in the southwest is all needed for future development and to reduce the total possible irrigable area is to reduce the total possible ultimate development, already limited by nature."

"The southwest and other semi-arid countries can not be used by man without serious damage to its ultimate capacity for supporting man," Mr. Leopold said in conclusion. "This will necessitate government ownership of some natural resources, and government regulation of the use of all others."

The use of the land, the fundamental resource, must be put under government regulation."

Mr. Marsh's paper brought out a vital fact in the explanation of New Mexico's timber supply if properly controlled and handled, will some day be one of the most important sources of lumber in the nation. Mr. Marsh stated that New Mexico has at present 35,000,000,000 feet of available timber which, if properly apportioned, would yield an annual output of 300,000,000 feet for an indefinite period.

Engineer Speaks. "At the present time," said Dean Thomas T. Eyre, of the university, "the chemist is one of the most important men in the big power plants." Leading chemists have found by pulverizing coal that an increase in surface area of several hundred times is attained," said Dean Eyre. "The largest use of pulverized fuel is in the Portland cement kiln. The steel and copper industries are rapidly changing from producer gas to pulverized coal for use in any metallurgical furnace. About a million tons of coal are used annually in the pulverized state in this country."

Scientific Tests in Education. Dr. Haught of the university, showed by means of graphs, how tests of intelligence and achievement in school had been made among university students. These, he said, were not made from one but several tests; and while he admitted that intelligence tests did not always give a true prediction, stated they provided a fairly dependable scheme for studying scientifically the correlation of intelligence and school grades.

Superintendent Donley, of the Carlsbad schools, who has been conducting scientific tests in the Carlsbad system, and whose investigations have extended throughout the state, gave some valuable statistics gained from investigation of conditions.

The student who attempts to make scientific experiments is either not thoroughly acquainted with his subject or has not a definite aim to strive for, was given by Dr. Hessler as the chief reason for the failure to definitely report the result of scientific experiments. This he said could be overcome by making the assignments to the student more definite.

SOVIET CAPITAL IS ENJOYING A BUILDING BOOM

There Is More Activity in Moscow Than There Has Been in Several Generations, It Is Reported

Moscow, Nov. 27.—Moscow today is passing through a building boom more active than anything of the kind the white walled city has experienced in several generations, ended in several generations.

Real estate improvement has been virtually at a standstill since early in the world war, and after the revolution which eventually brought the seat of government back to the ancient capital, Moscow became one of the most crowded cities on the face of the earth.

This fall, however, under the Soviet's new economic policy which permits private enterprise, including leases on property and buildings for 49 years, the rush to gain concessions by local investors began, with German, French and other foreigners also clamoring for privileges. The government itself also has improved many buildings.

Hundreds of business houses, as well as fine old homes, were so badly damaged during the revolution that it was necessary to rebuild them. Walls of scores of other buildings, ruined by fire, are still standing in various parts of the city, but provision has been made for remodeling most of these next spring.

Store space is in great demand, due to the stimulus given by the resumption of free trade, and numerous one story affairs have been put up in the shopping districts. They resemble the stores erected in a boom town in the United States. Small wooden shacks for the retail selling of books, fruit, clothing and various necessities have been built temporarily here and there throughout the city, but these

will be pushed aside with the resumption of trade through the ordinary channels.

Entire blocks have been cleared for apartment houses, with shop space on the ground floor, and thousands of men and women—usually more women than men—have been employed in this work, carried on with great speed to get as much done as possible before the cold weather begins, when all

outdoor tasks of this kind must cease until spring.

There is scarcely a block in Moscow these days upon which some repair work has not been done, or a new building of some sort erected.

When it comes to world charity, L. D. stands for Literary Digest and its slogan in such cases, "Let's dig!"—Greenville Piedmont.

A dictionary of the Chinese language was compiled in 1109 B. C.

How prettier teeth came to millions

Have you noted the glistening teeth you see everywhere today? And the open smiles that show them? You can see that some great change has come in teeth-protecting methods. If you don't know what that change is, we urge you to make this test.

They combat the film

These people—millions of them—are now combating film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It absorbs stains, then forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

These troubles had been constantly increasing. Beautiful teeth were less often seen than today. And all because no old-time tooth paste could effectively fight film.

The problem solved

Then dental science, after long research, found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then dentists everywhere began to advise their use.

A new-type tooth paste was created, based on modern research. The name is Pepsodent. Then these two great film combatants were embodied in it.

Five unique effects

Pepsodent brings five effects which old ways never brought. Modern research proves them all important.

It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay. It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

Those are Nature's great tooth protecting agents. Pepsodent, with every use, gives them manifold effect. Pepsodent also polishes the teeth so film less easily adheres.

Nearly all the world over Pepsodent is bringing a new era in teeth cleaning. Careful people of some fifty nations now employ it, largely by dental advice. Every dainty person now should know the benefits it brings.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results will amaze and delight you! Even one week will convince you. Do this for your family's sake. Cut out the coupon now.

CARDS' OUTFIELDER. A. McHENRY, IS DEAD

Portsmouth, O., Nov. 27.—Austin McHenry, outfielder of the St. Louis National league baseball club, died at his home at Mt. Oreb, near here today. He recently had undergone an operation in a Cincinnati hospital for tumor of the brain. He was 27 years old.

St. Louis, Mo., Nov. 27 (by the Associated Press).—Major Branch Rickey, of the Cardinals, today departed for Mount Oreb, Ohio, to attend the funeral of Austin McHenry, who died today. "We do not look upon the death of Austin as that of a ball player, but as a dear friend," Mr. Rickey said. "He was one of our most popular players."

WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound. Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back ached all the time and I was unfit for housework. I was worn out after I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your medicine. I recommend your medicine to all women although I am young to be advising some one older."

—Mrs. CHRIST. PETROFF, 318 W. Liberty St., Cincinnati, Ohio.

—Adv.

MAN DIES WHEN CRUSHED UNDER SAWDUST SLIDE

L. B. Eason, Employee at McKinley Land and Lumber Company Mill, Meets Death in Accident.

While standing below sawdust which had become jammed in a bin at the McKinley Land and Lumber company, at the foot of North Twelfth street, L. B. Eason was smothered and crushed to death under tons of sawdust which he had loosened, at about 3:30 yesterday morning. It is believed to have been at least 20 minutes after the accident occurred that the man's body was found and he was removed from the bin. Officials of the McKinley Land and Lumber company express the belief that the weight of the sawdust, which was damp and the fine dust itself in his mouth and nostrils must have crushed and smothered Eason to death within two minutes after the sawdust slide occurred.

The bin where the accident occurred is used for the week's accumulation of sawdust, the sawdust being stored there until Saturday night. This sawdust is used to keep the fires burning through Saturday night and Sunday, when the mill is not in operation.

The bin is cone shaped, with the large opening at the top. A conveyor carries the sawdust from the sawmill plant to the bin. Another conveyor runs out from the small opening at the bottom, moving the sawdust from the bin to either the boiler room or directly to the furnace.

The sawdust being damp, it sometimes jams part way up the bin and it is necessary to loosen it, as the conveyor runs only

along the bottom of the bin. Ray Moore, auditor for the McKinley Land and Lumber company, states that Eason had been advised to go to the top of the bin and push the sawdust down with a pole provided for that purpose.

Moore says that, sometimes, in order to save time, Eason had gone in at the bottom of the bin and loosened the sawdust by jabbing upward at it. On other occasions the sawdust had loosened gradually and Eason had moved out of the bin after simply starting the sawdust. Once started downward it continues to slide.

Yesterday morning, Moore states, Eason again went in at the bottom of the bin and jabbed upward. It is understood that when he did so he started a cave-in, bringing tons of the sawdust down and that the sawdust hurled him to the floor. Eason had fallen in the center of the bin and would have fallen into a box on the conveyor and been carried out. As the conveyor was set for dumping in the boiler room he would have been dumped out there or could have climbed out if still conscious.

A short time after Eason had been sent to loosen the sawdust, Watchman Alonzo Stetson wanted him in connection with some work. Receiving no response to his call he began to search for him. Failing to find him he became alarmed and, in the belief that he had been buried under the sawdust, turned in the mill firm alarm, to summon as much aid as possible.

Mr. Moore, who was at home, heard the fire whistle sounding at the mill. The first duty of the men at the mill in case of fire is to notify the City fire department. But fearing they had failed to do so and believing the mill was on fire, Mr. Moore turned in an alarm to the City Fire department.

The City fire department responded to the alarm and upon their arrival all joined hands in the search. Finally, Mr. Eason's leg was seen protruding from beneath the sawdust at the bottom of the bin and he was dragged out. When removed from the bin he had been dead for some time.

Mr. Eason originally hailed from Broken Bow, Oklahoma. He

came here only recently, from Domingo and has been at the McKinley Land and Lumber company since November 12. He had left his wife and family in Domingo and they came to Albuquerque only yesterday.

The accident yesterday morning was the first serious accident which has occurred at the McKinley Land and Lumber company plant since operations were started, in June 1919. The company is insured under the Workmen's Compensation Act and the dead man's widow will receive half the salary he was receiving at the time of his death. This payment will cover 300 weeks, or nearly six years, he will aggregate approximately \$2,300.

YALE SCORES THREE BOWLING VICTORIES OVER PRINCETONIANS

With Bollman rolling high score for the season, with an even double century in the first game, came right back with a 181 game in the second and with the Princetonians falling to the poorest of three weak games in the final match, Yale made a clean sweep of its three matches with the Princeton team on the Y. M. C. A. alleys last night.

The match was in the Y. M. C. A. bowling league and through their triple victory the Blue five went into tie for second place with the Army and Navy team. All three of these teams now have an average of .667 for the season, while John Harvard is on top of the heap with a perfect record.

Tonight the Harvard and Navy teams will clash in a match which will probably determine at least the temporary leadership. With Marsh to lead them the Navy team expects to climb up over the Harvard team. Other bowling followers are of the same opinion, providing Marsh is in his true form.

He is considered the best bowler in the city and usually crowds the 200 mark, while he frequently goes well above it.

Bollman's score of 200, rolled last night, is figured to have an excellent chance to take high score for the week amongst those eligible for the weekly prize. The prize this week is a leather pillow top. Marsh is not eligible, having won an individual prize.

The scores last night follow:

Ostertag	170	121	120
Smith	118	131	...
Boatright	123	134	...
Bollman	200	181	133
Evers	153	148	137

Ream
Totals	578	553	471

THANKSGIVING BASKETS GO TO NEEDY FAMILIES

Captain Richard Guest, secretary of the local bureau of charities, has practically completed the Thanksgiving baskets which tomorrow will be distributed amongst the most needy families of Albuquerque. Most of the contents of the baskets have been given by one of the local fraternal orders. The canned goods, apples and clothing have been presented by the city schools.

There will be at least 25 baskets distributed amongst the needy of Albuquerque. If possible—that is, if sufficient donations come in to warrant it—other families will receive baskets similar to those now made up.

Few realize the pitiful condition of the families who are to receive these baskets and of other families in almost as pitiful state. For example, one family which is to receive a basket is one in which both the father and mother are blind and there are three children of school age. Another is that of a family in which the only parent is the mother, there are 11 children and the oldest is a boy of 16 who is deformed and bed-ridden. Another is one in which the man is in a serious condition with tuberculosis, the mother is crippled, there are three boys, the oldest 12 years old, and all three are almost blind.

In another family the father is blind and he has a wife and eight children, while his old mother also lives with them and she is almost blind.

Following will be the contents of the Thanksgiving baskets to be distributed: 1 lb. butter, 24 lbs. flour, 10 lbs. beans, bunch of celery, 4 lbs. best beef, 4 cans corn, 4 cans tomatoes, 4 cans fruit, 1 lb. candy, 6 cans milk, 10 lbs. potatoes, 5 lbs. cooking compound, 6 oranges, 10 lbs. apples. The value of the goods in each basket is \$7. Clothing is also to be distributed where needed.

The bureau of charities has just received a cartload of coal from one of the mines at Gallup. The donation comes through the Aztec Coal company. It is figured this coal will carry most of the poorer families through the heaviest end of the winter. There are now 21 families on the list receiving this coal. The rest of the coal is to be stored for future distribution.

The bureau of charities announces the treasury is almost depleted. With \$908.50 the minimum figure from which the most needy families can be cared for, there is only \$372.03 in the treasury for the rest of the year. Such contributions as the city of coal are a big aid in helping the organization to carry through.

THEATRICAL SEASON TO OPEN TONIGHT AT CRYSTAL SHOWHOUSE

With "Three Wise Fools" as the opening offering, the Metropolitan Players will open at the Crystal theater tonight for an engagement of one week. As an additional attraction the company will offer vaudeville between the acts of the show.

The Metropolitan Players company is composed of ten performers, well balanced for the type of shows they will stage. The attraction is the first treat of the winter for local theater goers and is likely to prove popular with those seeking diversion during Thanksgiving week and particularly during the teachers' convention.

As the company is to offer a change of program each night the shows will offer sufficient variation to appeal to all who enjoy this type of entertainment.

The curtain is to rise each night promptly at 8:15. The show tonight is a proved night producer. The offering tomorrow night will be "The Brat."

SON OF FORMER GOVERNOR FINED FOR "MASHING"

Son of Ex-Governor Larrazolo Accused of Accosting Girls on Street; Benny Cordova in Dog Case

"Conditions would certainly be deplorable if ladies could not walk along the streets of our city without being insulted. We cannot abide a condition in which a lady is in danger of being accosted or 'mashed' by the class known as 'mashers,' who think he is favorable in the eyes of ladies."

With the above statement, Judge George Roddy opened his imposition of sentence upon H. H. Larrazolo, son of O. A. Larrazolo, former governor of New Mexico, yesterday afternoon. Young Larrazolo, in company with three other young men, was accused of having been guilty of accosting two girls Sunday afternoon on Central avenue and Tenth street. Judge Roddy finally imposed a sentence of \$10 upon Larrazolo and dismissed the charge against the other three boys.

He expressed the opinion that they were not implicated further than being in company with Larrazolo.

Judge Roddy emphasized the fact that he was making the fine very small for the offense committed. In connection with this, Judge Roddy said:

"If it were merely a matter of being indiscreet the court would be inclined to be lenient in this case, for youth is inclined to be indiscreet and it is not always well to deal harshly with these indiscretions. However, it has been brought out in this case that one of the defendants has been in the habit of doing this sort of thing. At least, such was his statement."

"You, Larrazolo, come from good stock. Your blood is held in es-

"Gets-It" For Corns Costs Little

If so-called corn "cures" have only made your feet more sore and tender,

don't despair. For instant, complete, permanent relief is guaranteed by the new method. A few drops of "Gets-It" removes any old corn, hard or soft, corn from any foot. It peels off in your fingers.

Costs but a trifle—everywhere. Recommended by all druggists. E. Lawrence & Co., Inc., Chicago. Sold in Albuquerque by: H. J. Brigg's Pharmacy and Highland Pharmacy—Adv.

ACNE ON FACE CUTICURA HEALS

Hard, Large and Red Pimples. Itching Was Terrible.

"Had been troubled all my life with acne on my face. My forehead was a mass of pimples. They were hard, large and red, and the itching was most terrible. My face was disfigured. I sent for a free sample of Cuticura Soap and Ointment and after using them got instant relief. I bought more, and after using two cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Mrs. G. S. Miller, Box 14, Marshall, Wash., Jan. 9, 1922.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum. Sample Pack Free by Mail. Address: "Cuticura Laboratories, Dept. M, Malden, Mass." Sold everywhere. Beware of cheap imitations. Cuticura Soap shares without mug.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated extract of genuine Norway pine extract, and has been used for generations to break severe coughs. To avoid disappointment, ask your druggist for 2½ ounces of Pinex with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

teen in New Mexico and you should act as a gentleman, so you will not bring your good name into disrepute. You have said you thought you knew one of the girls. Granting the possibility of some slight mistake as to identity and upon your promise, and the promise of all of you boys, that you will act entirely as gentlemen in the future, I will be as lenient as possible in this case. I will assume that I have that promise."

Motor Policeman Carter arrested Larrazolo and his companions Sunday afternoon. Carter testified that he had noticed the incident and had ordered Larrazolo to move on. He said that Larrazolo had then become "hard boiled."

On the stand, Larrazolo testified that he had seen the girls passing along and that he thought he recognized one of them. He said he had stopped and invited the girls to get into his machine, saying he would drive them home. Asked then by Judge Roddy if he recognized the girl, he said he did not. The method of approach in case it was desired to strike up an acquaintance, Larrazolo said:

"Well, whenever I want to get acquainted with anybody I generally manage to get acquainted."

In connection with the accusation that he had become "hard boiled" toward the officer, Larrazolo said:

"Yes, I got 'hard boiled,' but he got 'hard boiled' first. I only got 'hard boiled' first."

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. G. Bowman, of 1312 Front Street, this city.

"I was so run-down in health I could hardly go."

"I was thin."

"I had no appetite."

"Could not rest or sleep well."

"I was so weak, and so very nervous, I was no pleasure to myself or any one else."

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart."

"This nervous condition was worse than pain."

"Some one told me of Cardui, and I decided to use it."

"After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well."

"I have never found anything better for a run-down condition."

If you suffer as this Louisiana lady did, it is reasonable to suppose that you, too, will find Cardui helpful for your troubles, as thousands of women have.

Take Cardui, the woman's tonic. Get a bottle from your druggist today.—Adv.

talked back to him that way because he talked like that to me when he came up and told me to move on."

Young Larrazolo also admitted on the witness stand that he had said to Officer Carter:

"Well, I did it and got away with it in El Paso and I guess I can do it and get away with it in New Mexico."

At the time of the incident Larrazolo was driving a car with a Texas license.

Benny Cordova, at one time the leading lightweight pugilist of the southwest and a boxer of national reputation was also haled before Judge Roddy yesterday afternoon on a charge of keeping a vicious dog. Cordova testified that the dog in question is a female, eight years old, is the most intelligent animal in the city and that the boy she had bitten had teased her repeatedly.

Judge Roddy held that while the boy was probably at fault, children

are more valuable than dogs. He ordered Cordova to keep the dog on his own premises, by either tying her or building a fence to restrain her.

ANOTHER CHARGE OF SETTING FIRE MADE AGAINST TED MULLER

Santa Fe, Nov. 27.—Ted Muller, arrested Saturday night and lodged in the penitentiary under complaint charging him with an attempt to set fire to the Santa Fe ice plant and ice cream factory, and released under a bond of \$2,000, was rearrested tonight under complaint charging him with setting fire to the Gutierrez warehouse on the night of November 17. Later tonight he was released under a \$4,000 bond on the second charge.

It is believed further arrests will follow in connection with the recent series of fires thought to have been of incendiary origin.

"Values Will Tell"
See our Newly Arrived
COATS SUITS DRESSES
\$24.75

ALTHOUGH there are many places you can spend \$24.75 for coats, suits and dresses we do not exaggerate when we maintain that only at the National Garment Company are values such as these possible. Here are coats, of Bolivia, Normandy cloth, velours, etc., self and fur trimmed in the fancier styles and plaid back and polo cloth coats in the mannish sport models so popular this season.

The suits in this newly arrived lot are made of the seasons most favorite suitings and distinguished by exclusive style touches. The dresses are made of such wonderful materials as all wool poret twill, duvetyne, velvets, canton crepes, crepe de chene, satin back crepe, etc. They come in the afternoon and evening styles that you like best. \$24.75 is very reasonable indeed for garments the high quality of these. A combination of our connection with the country's large buying syndicate and the fact that we sell for cash only, makes such values possible. We invite your critical inspection.

ILLITERACY IN NEW MEXICO

Until the prevailing ignorance of the institutions under which they live is corrected, the people of New Mexico, of whom so large a percentage do not speak the English language, will be confronted with problems, political and social, which are the direct result of illiteracy.

It is said on acceptable authority that fifty per cent of our population neither speak nor understand English. This is true notwithstanding the fact that of a large portion of this number, English is their native tongue. The problem is one which is fraught with difficulty and embarrassment—it is a problem unlike that which any other state has been called upon to solve, the Americanization of its own citizens.

The subject can be appropriately and profitably discussed by the Teachers' Convention, as sooner or later it must be dealt with. No other problem which may receive the attention of the teachers is of such paramount necessity and importance as that of providing the youth of this state with a thorough understanding of the language in which they are going to be required to live and think and work. It may be deemed advisable to establish a literacy commission, but whatever program may be adopted, once the matter is taken in hand it will be a day of great promise for New Mexico.

BY ALL MEANS

We heartily agree with the recommendation made by Judge Raymond Ryan that one effective way to reduce taxes in New Mexico would be the elimination of grand juries, except, of course, when any emergency should arise which would require one to be impaneled. An economy of from \$700.00 to \$2000.00, we are told, would be effected during every court term in which a grand jury is called, if the present practice were discontinued.

By all means eliminate the grand jury if that body is useless, as Judge Ryan says it is, if by doing so it will enable some of the counties which are regularly delinquent in meeting their school warrants, issued to teachers but which the latter often find it difficult to convert into cash, to meet their obligations. That there should be room for such a recommendation at all; that any county administration should permit the continuance of any useless expenditure when it is unable to meet its necessary obligations such as the payment of school teachers' salaries, is in itself a serious reflection on any county administration to which it applies. If it were seriously gone into it would doubtless be found that there are other "useless" expenditures which could be eliminated with profit to the counties. Such a suggestion as Judge Ryan's, however, would be superfluous if our county administrations would adopt ordinary business methods.

REVIVAL IN INDUSTRY

On every side indications that business and industry are rapidly ascending the grade continue to multiply. For the first time in two years—and for the fifth time in the history of the country—railroads have moved in a single week more than one million freight cars loaded with commodities. But for the shortage of cars the freight would have been still greater.

Another symptom of industrial prosperity is the fact that unemployment has so decreased that in certain sections there is an actual shortage both of skilled and unskilled workers, and the department of labor is of the opinion that the demands of employers will not be fully met until the first part of next year.

A further proof and guarantee of good times, if any were needed, is that the building boom, which has been so phenomenally developed during several months past, still continues and promises to last throughout the winter. There has been practically no seasonal decline such as generally makes itself felt at this time of the year and all the indications are that in this particular branch of work the record already established this year will be exceeded in 1923.

Another and final test is found in the

automobile industry. Manufacturers of automobiles have advised the national automobile chamber of commerce that business is above normal for this season and a new record of production is expected.

These are all encouraging signs of the times and they tend to confirm the belief that the country has entered upon an era of unexampled prosperity.

BY THE WAY

About the only practical way to publish history in this ditty is in loose-leaf form.

Lloyd George, who was reported running a few days ago, seems to have collided with something.

Man wants but little here below, unless he happens to be a profiteer, and then he wants it all.

Nature's unequal distribution of health is another snag in the socialist program of equalizing everything.

Lloyd George now has an opportunity to rest his shoulders preparatory to another correct impersonation of Atlas.

During the four months of the "careful crossing" campaign accidents at railroad crossings totaled 4,411, showing how engineers ignored it.

There are signs that the first thing a man ought to do after he has been pronounced the "perfect lover" is to buy himself a bullet-proof vest.

All a political party has to do for a couple of years now is hunt up someone with the financial genius of Hamilton, the patience of Lincoln, the foresight of Washington and the courage of Jackson.

Two West Indian islands are criticised for a stamp issue showing Columbus with a telescope, which was invented after his death. On the other hand several European countries depicted peace on their stamps following the world war.

DUG OUT BY ROOT

In view of the price—and it is hard to get in view of it because of its altitude—the eating of prunes does not constitute pruning expenses.

Being an orphan has more drawbacks than we had imagined. We have just learned of an orphan's home where they compel the children to eat hot biscuits every day, a habit which every doctor will tell you, is hard on the digestion.

Fame often comes quickly. Who every heard of Professor Tiernan a year ago?

Boston has a Joy street where no joy riding is allowed. Several other things have combined to take the joy out of Boston.

Kissing and spinners have nothing to do with school teachers. Therefore we are sorry that the printers tried to corral them together yesterday.

The stuffing that goes into the turkey does not distress him. But the same cannot be said of the small boy on Thanksgiving day.

The "proper" lady was surprised to hear her husband say, "I've often heard the burro sing. But I must hear Ely neigh."

Duke's Mixture is mild, satisfying and leaves a pleasant taste in the mouth. We are told that Duke Mixture has the same qualities.

The teachers are working out a system of life insurance. If the youngsters had their way, the beneficiaries would collect quite speedily.

Albuquerque Twenty Years Ago

The Albuquerque Indian school defeated the Agricultural college football team at Mesilla Park yesterday by a score of 6 to 0.

Governor Otero in an interview in Chicago yesterday stated there is no reason why New Mexico should not be admitted to statehood. The territory has 300,000 people, he said, with the wealth and education required of a sovereign state. The real property values total \$200,000,000, and the native Mexican population is fast becoming an educated and progressive factor in the community.

The first concert of the Choral Union will be given December 16 in the School of Music. Besides the chorus work there will be a number of solos by prominent musicians.

The Frank Kibberg building, an adobe structure on the north side of the plaza in Las Vegas, from the roof of which General Kearny received the allegiance of the people of Las Vegas and of New Mexico on the occasion of his entry, is to be torn down. The building is one of the historic landmarks of the state.

There was a most enjoyable dance given last night in the Odd Fellows hall under the direction of Mrs. Rose Berry. The affair was a masquerade.

J. E. Saint of the Santa Fe Central was in town for Thanksgiving day.

Captain A. B. Fitch of Magdalena and C. T. Brown of Socorro have returned from Joplin, Mo., where they studied the latest mining methods, which they propose to put into operation at the Graphic mine, near Magdalena.

The Albuquerque Chess club now includes in its membership Messrs. Colby, Wilkerson, Keyes, Purdy, Pearce, Metcalf, Hoard, Mundelle, Seward, Lester, and Mahaffey.

TODAY'S BEST THOUGHT

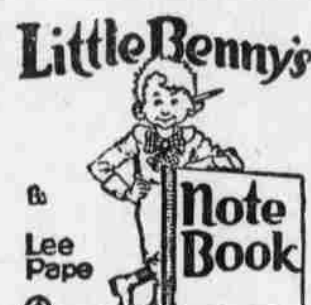

A system of general instruction which shall reach every description of our citizens from the richest to the poorest, as it was the earliest, so will be the latest of all the public concerns in which I shall permit myself to take an interest.

—THOMAS JEFFERSON.

THE "LIVING WAGE" PROBLEM WOULD BE EASY TO SOLVE---

IT'S THE "LOADING" WAGE THAT CAUSES THE TROUBLE

Newspapers

If you want to know what's happening all over the world all you have to do is buy a 2-cent newspaper and save all those traveling expenses.

If somebody loans you their newspaper it won't even cost you that much.

No matter how bad the weather is you can always tell if it's going to get better by looking at the paper, the only danger being that you are liable to find out its going to get worse instead, only then you don't have to believe it if you don't want to, proving it's a free country.

Newspapers are more useful than books because they can be torn apart so different parts of the family can read different parts of the paper at the same time without preventing it from still being a paper, being more than you can say about a book in case you ever did that to a book. Thus your father can be reading the sports page while your mother is reading the lady's page and you are looking at the funny page, unless your father don't want to separate it, which he generally don't. This proves the best way to avoid accidents is to always have 2 newspapers even if they are the same paper.

No matter how much you are enjoying a newspaper it always makes you feel funny to look at the date and find out it is yesterday instead of today. If a person is looking at a paper the worst thing you can do to spoil their enjoyment is to go up and start to look at it with them, especially if you don't know them.

Even if a paper is in a foreign language you can still use it to rap things up in and set on in case you mite catch a cold and don't want to.

A LITTLE LAUGHTER

Old Scores
"Now, I've had my revenge," said the shoe-shop proprietor to his friend, as a customer left. "Revenge? How so?"

"Well, the young lady who just went out is a telephone operator. I gave her the wrong number."—Exchange.

Bird of a Slam
A man who believed he knew all about parrots undertook to teach what he thought to be a young, mute bird, to say "Hello" in one lesson. Going up to its cage, he repeated that word in a clear voice for several minutes, the bird paying not the slightest attention.

After a considerable time the man apparently realized his defeat, and gave up the attempt.

At the final "Hello" the bird opened one eye, gazed at his would-be teacher, and snapped out, "Line's busy!"—The Monitor.

His Familiarity
"A father should, as far as possible, associate and mingle with his children," solemnly said the President Elder. "Make himself one of them, as it were, and—"

"I shure do that, Parson," replied Gap Johnson of Rumpus Ridge. "Why, I'm so familiar with the little cusses that generally I can tell the names of the most of 'em right off the handle, with-

EDUCATE YOUR CHILDREN

Education is no longer the privilege of a favored few; it is a necessity for all. The field of knowledge has broadened enormously and the demands of civilization are in industrial or commercial life, in the past half century, the training required to fit one for a worthy place in the professions or in industrial or commercial life has increased correspondingly, and the opportunities for acquiring that training have kept pace with the requirements for it. High schools, fully equal to the colleges of the past, are open without cost to every child in the land; and university education may be had by any capable student, regardless of the financial condition of his parents. Scholarships, loan funds, and opportunities for self-help are freely available.

Every consideration demands complete education and no insuperable barrier stands in the way. The parent who does not do all he can to enable his children to obtain all the schooling their mental capacity permits them to assimilate falls ignominiously and inexorably in his highest duty.—Department of the Interior, Bureau of Education, Washington, D. C.

NEW MEXICO PIONEER DIES AT WAGON MOUND

Special to The Journal.
Las Vegas, N. M., Nov. 27.—Oscar B. Fraker, a pioneer of New Mexico, died Saturday morning at his home in Wagon Mound.

Coming to New Mexico long before the advent of the railroad, Mr. Fraker spent the early days of his life in the cattle business for many years.

Mr. Fraker was 88 years old and is survived by three sons, Charles L. Fraker, Jr., drugist, and Marion Fraker, lumber dealer, in Las Vegas, and Arthur Fraker, who is a civil engineer in Clayton. One daughter, Mrs. Padilla of Las Juntas, Colo., also survives. Mrs. Fraker died seventeen years ago.

PRO AGENTS RAID A HOME
Las Vegas, N. M., Nov. 27.—Federal agents raided the home of Clemente Lucero on North Eighth street here Friday and confiscated a still and fifty gallons of mash. Lucero was arraigned before United States Commissioner Ogle Saturday, charged with making illicit liquor and was bound over to the grand jury.

VOLUNTARY ASSIGNMENT
Las Vegas, N. M., Nov. 27.—Samuel Shafer, proprietor of the Shafer Hide and Shoe Company, operating two stores in Las Vegas, made a voluntary assignment to Louis C. H. field, Saturday. The liabilities were \$20,000 and assets \$13,000.

The Markets

By the Associated Press.

FINANCIAL

Wall Street

New York, Nov. 27.—Continued lack of public support induced further bear selling in today's stock market, several representative shares reaching new lows on constructive reaction.

Prices moved with seeming disregard of outside news developments, which, in the main, were favorable for the market. The market opened at 4 1/2 per cent, eased off to 4 per cent, and then pressure was applied to the highest price since 1919.

Closing prices today were spot, short covering in a number of representative shares giving them the appearance of a strengthening. Independent steels were among the losers, Lackawanna, Republic and Bethlehem B broke below sixty, closing at a net loss of one point, while declines of one to nearly two points took place in Crucible, Gulf States, Lackawanna, Republic and Republic.

Total sales were 1,136,000 shares. The prominent weak points in the market were American Ice, American Sugar, DuPont, Fisher body, Iron products, Marine petroleum and Pierce Oil, all off two to three points.

Heavy buying of California Petroleum which was pushed up nearly four points, accompanied rumors of its closer affiliation with Standard Oil of California, which, in turn, was one of the day's losers, Standard Oil of New Jersey closed slightly higher, after touching 132, or nearly seventy points below its high of the year. Mexican Petroleum, Int. Mer. Marine, each closed more than three points lower. Continental Canadian was another outstanding strong spot gaining two points.

Closing prices: Heavy hard hit during the early part of the reaction, but most of the standard shares made good recovery, a few closing fractionally above Saturday's final figures. At last, the market showed signs of really weak spots, dropping 2 1/2 to 3 1/2, a new low for the year, but rallied a point before the close.

New York Money
New York call money 8 1/2
High 4 1/2 per cent; low 4 per cent; ruling rate 4 1/2 per cent; closing bid, 4 per cent; offered at 4 1/2 per cent; last loan, 4 per cent; call loans against acceptances, 1 per cent.

Time loans—Firm. Mixed collateral, 60 and 90 days, 5 per cent; 1 and 6 months, 5 per cent; Prime commercial paper, 4 1/2 per cent.

Liberty Bonds
New York, Nov. 27.—Liberty bonds closed steady, 100.04; first 4 1/2, 98.30; second 4 1/2, 97.60; third 4 1/2, 98.30; fourth 4 1/2, 98.90; Victory 4 1/2 (uncalled), 100.00; U. S. treasury 4 1/2, 99.30; 100.02; U. S. treasury 4 1/2, 99.30.

Foreign Exchange
New York, Nov. 27.—Foreign exchange steady, Great Britain demand, \$4.51 1/2; cables, \$4.52 1/2; 60-day bill on banks, \$4.49 1/2; France demand, 7.07; cables, 7.04; Italy demand, 4.81 1/2; cables, 4.82; Belgium demand, 6.52; cables, 6.53; Germany demand, .91 1/2; cables, .91 1/2; Holland demand, 39.52; cables, 39.57; Norway demand, 18.44; Sweden demand, 23.96; Denmark demand, 23.31; Switzerland demand, 15.65; Spain demand, 15.38; Greece demand, 1.49; Poland demand, .004; Czechoslovakia demand, 1.13 1/2; Argentine demand, 1.85; Brazil demand, 12.62; Montreal, \$1.00.

Grain
Chicago Board of Trade
Chicago, Nov. 27.—With the United States wheat supply showing an increase, and with wheat being sold to go into storage here, the wheat market had a downward trend most of the time today. Prices closed unsettled, with a 1/2 cent lower, with May \$1.13 1/2 to \$1.13 3/4, and July \$1.05 1/2 to \$1.05 3/4. Corn finished 1/4 to 1/2 cent to a shade advance, oats at 1/2 cent to 1/4 cent to a rise of 1/2 cent, and provisions varying from 5 cents lower to a gain of 6 cents.

Weakness in wheat values was evident, the market, however, showed a bearish factor being lower, but a rather stubborn resistance. Stock reports current indicated active demand from the west and southwest was at a higher basis than prices quoted here.

For the most part, provisions lacked support, the chief exceptions being November and December beef, which were bid up sharply.

Closing prices: Wheat—Dec. \$1.13 1/2; May, \$1.13 1/2; July, \$1.05 1/2. Corn—Dec. 69 1/2; May, 68 1/2; July, 67 1/2. Oats—Dec. 42 1/2; May, 41 1/2; July, 39 1/2. Lard—Jan. \$10.22; May, \$10.35. Ribs—Jan. \$9.55; May, \$9.65.

Kansas City
Kansas City, Mo., Nov. 27.—Cash wheat—No. 2 hard \$1.11 1/2; No. 2 red, \$1.10 1/2; No. 2 white, \$1.10 1/2; No. 2 yellow, 72c.

Hay—Steady to 50c lower; No. 1 timothy \$15.00 to \$16.00; No. 2, medium \$14.00 to \$15.00; choice alfalfa, \$25.00 to \$26.00; clover mixed light, \$14.50 to \$15.50.

Livestock
Chicago
Chicago, Nov. 27 (U. S. Department of Agriculture).—Hogs—Receipts \$4.00, early market steady. Bulk 175 to 225 lbs., averages \$8.10 to \$8.15; few choice 240 to 280-pound butchers, \$8.20 to \$8.25; few 140-pound averages, \$8.25; medium bulk around \$8.25; desirable pigs, \$8.25 to \$8.30; fisher body, iron products, Marine petroleum and Pierce Oil, all off two to three points.

Cattle—Receipts 26,000. Beef steers generally strong to 15c higher; spots up more on better grades; short fat, quality prime; approximately \$5.50 to \$5.75; grassers included in run; early top yearlings, \$13.25; several lots short fed steers, \$7.50 to \$8.50; bulk native beef steers, \$5.50 to \$5.75; condition to sell at \$8.00 to \$8.25; three loads heavy but plain Canadian to killers \$5.00; some other westerns to feeder buyers, \$5.00 to \$5.75, according to quality; stock steady to strong; bulls about steady; veal calves weak to lower; stockers and feeders fairly active; strong to 15c higher; bulk desirable heavy hogs, \$14.00 to \$14.25; bulk best heavy calves early to packers around \$8.00; bulk canners around \$3.00.

Sheep—Receipts 26,000. Opening fairly active. Fat lambs steady to weak \$1.00 to \$1.10; city packers, one load prime native lambs, City butchers, top \$14.00; \$14.50 to \$15.00; liberal supply range; sheep steady; round steady; feeders steady; feeding lambs, \$12.50 to \$13.25.

Kansas City
