JOINT PROGRAM IS PLANNED BY COALITION OF PROGRESSIVES

Republicans and Democrats
of Both Houses of Con-
gress Form Bloc to Work
for Legislation

URGE FORWARD STEP IN NATION'S AFFAIRS

LaFollette and Huddleston
Leaders in Movement
Suggest Abolishing of the
Electoral College

Washington, Dec. 1.—Another unofficial "bloc" in congress was born today when progressives, republicans and democrats called into session by Senator LaFollette, republican of Wisconsin, and Representative Huddleston, democrat of Alabama, formed a progressive group for promotion of progressive legislation during the present and the next congress.

About 40 senators, representatives and members-elect, meeting behind closed doors in the senate chamber, adopted a resolution unanimously declaring their purpose "to drive special privilege out of control of government," and outlining a general program of liberal legislation. Politics was declared to be harnessed, and it was announced officially that no third party movement was contemplated. Republicans, democrats and a farmer-laborer bloc joined in the conference, which was declared to be bipartisan and legislative, but not political.

Organization of the new bloc, which is similar to the unofficial senate farm bloc, and includes many of the latter's members, is to be followed by two open meetings of the progressives from all parts of the country. Between 10 and 200 are expected for the morning meeting, and the progressive conference will close tomorrow night with a dinner for which accommodations have been made. The speakers at the dinner, it is anticipated, will include Samuel Untermyer, New York attorney; Senator LaFollette, and former Senator Brewster of Kansas. The morning session will be an "open forum" for exposition of progressive opinion, and the speakers will be President Gompers of the American Federation of Labor; Governor Blaine of Wisconsin; and Senator LaFollette.

Co-operation Is Pledged.
The congressional bloc's resolutions today pledge members to co-operate in behalf of progressive legislation, to be brought forth by the committee of the bloc during the present and next congress. A general program announced includes as subjects agriculture, labor, railroads, taxation, child labor, education, direct primaries, corrupt practices act and constitutional amendments to abolish electoral college and obtain earlier meetings of congress.

Is Non-political.
Legislative purposes of the bloc were emphasized by speakers. Senator LaFollette said that politics or a third party movement were not involved while Senator Borah, republican of Idaho, expressed his "complete sympathy" with the movement if designed to obtain progressive legislation. He declared, however, against dealing with "political subjects or presidential possibilities."

Smallpox Situation
In Denver Serious
Denver, Dec. 1.—The smallpox situation in Denver was revived today by city health authorities and Dr. Thomas Barran, who is in charge of the smallpox campaign, with the fight to curb the malady. More than 200 persons have died here in the last few months as a result of smallpox. Two additional deaths and seven new cases were reported to health authorities today. One of the dead was an inmate of the county jail.

TAUGHT SUEY EATING
Chicago, Dec. 1.—Gong Lee, a pioneer Chinese, who, as a cook in Chicago's first Chinese restaurant, taught citizens to eat chop suey, was buried today in connection with the fight to curb the malady. More than 200 persons have died here in the last few months as a result of smallpox. Two additional deaths and seven new cases were reported to health authorities today. One of the dead was an inmate of the county jail.

MURDER CHARGE MADE AGAINST PRISON GUARD

Toribio Sanchez Held Under
\$10,000 Bond for Killing
of Prisoner During State
Penitentiary Riot

Special to The Journal
Santa Fe, Dec. 1.—A charge of murder has been filed by the district attorney's office against Toribio Sanchez, who was a guard at the New Mexico penitentiary on July 15 when guards under orders of Superintendent Placido Jaramillo fired upon the prisoners, killing one and wounding five others. The complaint charges Sanchez with murder on account of the killing of Martin Maldonado, the convict who lost his life. Sanchez's bond has been fixed at \$10,000. The prisoners were on a food strike when fired upon.

RIVER COMPACT IS FAIR TO ALL, SAYS CARPENTER

Colorado Member of Com-
mission Says Treaty of
Santa Fe Will Enable De-
velopment to Proceed

Denver, Colo., Dec. 1.—The Colorado river treaty, signed at Santa Fe, N. M., on November 24, last, is fair to all sections of the river area, according to a statement issued today by Delph B. Carpenter of Greeley, Colo., member of the commission.

"The compact induces no present development and encourages no future progress," declared the statement. "The Imperial valley is protected in its present water supply, and through the compact, will obtain that degree of cooperation essential to the early construction of flood control works, whereby the annual menace of another break in the levees at flood time will be avoided."

"After the compact has been ratified, the people of Colorado and the upper states may join the lower river states in a united effort to control the flood. This will remove the present barrier to the earlier construction of such works. The unfortunate experience upon both the Rio Grande and North Platte rivers will be avoided. The construction of great storage works on the lower river will not give rise to claims of prior appropriation against later construction."

"One outstanding feature of the whole problem is the fact that the water which flows in Colorado, Wyoming, Utah and New Mexico, will always flow to the canyon, except where necessarily diverted and used upon the limited available territory."

"In other words nature will always provide a bounteous supply to the lower states, notwithstanding the upper development. The compact gives no assurance to the lower states that the depletion of the stream by the depletion of the upper basins will be so limited that present and future uses of the lower basin will not be limited. The compact will not be a limitation so fixed, nature always will cause excess waters to pass Lee's Ferry."

\$1,300,000 IS LOST IN FIRES IN THE SOUTH

Flames Destroy Large Part
of Residence Section and
Lumber Mill in New Bern,
North Carolina

New Bern, N. C., Dec. 1.—Approximately 1,300 persons, most of them negroes, were made homeless by fires which raged through two warehouses and several small stores were destroyed and loss estimated at \$1,000,000 was caused by fire which late today swept through the western section of New Bern.

The flames, starting in the negro section, gained great headway by the high wind at the start, because the local fire department was engaged on the opposite side of town, fighting a fire at the Roper Lumber company's saw mill, where \$500,000 damages were estimated to have been done. The wind tonight had diminished and firemen expressed the opinion that they had the fire under control, though several dwellings still were burning.

DETECTIVES IN NEW YORK TAKE PRECAUTIONS TO STOP TONG WAR

Arrest President of Hip Sing
Organization and Confis-
cate Large Supply of
Deadly Weapons

OFFICERS WEAR GARB

Secure Evidence That Indi-
cate Reprisals Are
Planned for Killing of Se-
cret Society Head

New York, Dec. 1.—Operating on reports of a threatened Tong war, Special Deputy Police Commissioner Simon and a dozen detectives today raided Hip Sing Tong headquarters in Chinatown, arrested the president, Lee Yee Hong, and confiscated 15 pistols, a box of daggers and brass knuckles and ammunition.

Simultaneously another squad conducted a raid on a shop near the Hip Sing headquarters which netted four prisoners and quantities of drugs.

For five weeks, detectives, assuming the garb of Chinese, lived in Chinatown, anticipating reprisals for the death of Ko Tow, national president of the Hip Sing Tong, who was shot in the doorway of the Chinese Delmonico's last August 8.

They noted that Lee Yee Hong, state president of the Hip Sing Tong, never went alone, for wherever he appeared, two other Chinese were behind him; that the door at 15 Pell street, a foot from the famous Tong bulletin board, where Tong was centered years ago, did not exist for Hong and although it was the narrow entrance, he climbed the roof and entered his headquarters by a secret opening; that by night, furtive groups of Chinamen scurried over the same roof, all lowering themselves into the Tong headquarters, carrying bundles.

Today the detectives, stationed at strategic points on the roof, watched while Dr. Carleton Simon, head of the narcotic division; William H. Williams, special treasury agent, and police officers, went up the narrow hallway to the Tong rooms.

In the president's rooms, they saw, were Hong's two body guards smoking opium. Both were arrested. One, Lemphoke, safe expert of the police squad, opened two depositories. In them were found the pistols, all blue steel, the brass knuckles and ammunition.

EVIDENCE THAT MIDDIES DRANK NOT PRODUCED

First Day of Inquiry Into
Alleged Philadelphia
Scandal Fails to Bring
Out Proof of Charge

Annapolis, Md., Dec. 1.—The first day of inquiry by the naval board of investigation, appointed by Secretary Denby of the navy to investigate the alleged drinking scandal and disgraceful conduct by midshipmen after the Army-Navy football game at Philadelphia last Saturday, showed no testimony to substantiate the report that any of the midshipmen acted in other than a gentlemanly manner.

The board adjourned after its session today and will reconvene again on Monday. It developed that the administration of the United States naval academy is virtually on trial as the result of the alleged misconduct of students at the naval ball on the night of December 1.

Rear Admiral Henry B. Wilson, superintendent of the academy, was the first witness to be called before the board. He testified that he had direct supervision over the game last Saturday night. He also stated that he was unable to find the ball and returned to Annapolis in the morning.

Others called as witnesses before the board were Commander Thomas W. Kurtz, commandant of midshipmen and head of the disciplinary department, and Midshipman George Castor, chairman of the dance committee. Commander Kurtz testified that the midshipmen had left after the game last Saturday night. He said that all midshipmen reported on time and in good order. He also stated that he attended the ball for a short time, leaving at 1 o'clock in the morning.

Midshipman Castor told the board that no misconduct came under his observation. The newspaper adds, however, that the possibility of the continuance of such influence are great. It is hoped that the protection of German interests from this source. It expresses the opinion that there is value, nevertheless, in the presence of the Americans, since they testify before all the world with regard to "French deeds and cupidities," and that this testimony would have a restraining effect that would not be possible through the German voice alone.

WOMAN BURIED ALIVE; LIME IS PUT IN GRAVE

Abraham Becker, New York
Taxicab Driver, Indicted
for Diabolical Crime; Ma-
terial Witness Held

New York, Dec. 1.—Abraham Becker, taxicab chauffeur, was indicted today for the murder of his wife, Jennie, who, authorities believe, was buried alive in a quick lime-filled grave from which her body was taken Wednesday.

The official theory that the woman was buried alive was formulated after the report of Dr. Karl Denard, assistant medical examiner of Bronx county, had been submitted to the district attorney. Dr. Denard said that while she had been dealt a heavy blow on the head, it was of a nature that would have stunned her, and not ended her life.

Her hands and feet had been bound and a cord had been placed over her face. The body bore other evidences, he reported, that the woman had remained consciousness in the grave in a vacant lot, and then fought against death. He said that he knew nothing of the reported drinking at the ball. He also stated that he was unable to find the ball and returned to Annapolis in the morning.

Others called as witnesses before the board were Commander Thomas W. Kurtz, commandant of midshipmen and head of the disciplinary department, and Midshipman George Castor, chairman of the dance committee. BRITAIN GIVES LIST OF SHIPS SENT TO DUMPS

Takes Exception to State-
ment That Eight Vessels
Scrapped Belong to the
Obsolete Class

Washington, Dec. 1.—By the Associated Press.—In explanation of the statement regarding the scrapping of warships made in the house of commons Wednesday by a representative of the British admiralty, the British embassy in Washington today issued a statement.

The embassy statement declared that "none of these vessels was obsolete in the sense of the Washington treaty," and R. Leslie Christie, secretary of the embassy, said that "had it not been for the Washington conference none of these ships would have been scrapped."

Both the embassy statement and Mr. Craig took exception specifically to a dispatch of the Associated Press, sent from Washington on Wednesday, saying that so far, the actual scrapping of warships in the United States, Great Britain and Japan, alike had "affected only vessels which are formally classified by each power as wholly obsolete for naval purposes."

The information on which this dispatch was based, so far as Great Britain was concerned, is contained in a "return" to the house of commons, made by the British admiralty and printed in July, 1922, showing the ships which comprise the fleet of the British empire, but "omitting obsolete ships of all classes."

None of the eight ships enumerated in the embassy statement tonight as sold for breaking up is included in the admiralty's "return." These ships are the battleships Dreadnaught, Bellerophon, St. Vincent, Temeraire, Hercules, and Neptune, and the battle cruisers Inflexible and Indomitable, all armed with 12-inch guns.

DRYS OPPOSE A PLAN TO DEFINE AN INTOXICANT

Anti-Saloon League Says
Proposed Appointment of
"Scientific Commission"
Is Move to Upset Law

Washington, Dec. 1.—The Anti-Saloon league is opposed to the proposal that congress, with a view to possible amendment of the Volstead act, appoint a "scientific commission" to determine what is intoxicating liquor.

Wayne B. Wheeler, general counsel for the organization, announced today that representatives of the league and prohibition workers had voted unanimously at a meeting to fight such a resolution, declared "the findings of such a commission would serve no helpful purpose in determining what legislation is necessary to enforce the eighteenth amendment."

"No scientific commission can determine accurately what is an intoxicating liquor for a group of 100,000,000 people. Alcoholic liquors affect people differently, according to age, temperament, tolerance to use, and many other conditions."

Mr. Wheeler held that the test in determining what was appropriate and effective legislation was not what liquor would do to the average man, but what standard in the definition of intoxicating liquor was best to enforce the law effectively.

FIFTEEN DIE WHEN MOTORSHIP SINKS IN THE TROPICS

San Diego, Calif., Dec. 1.—Fifteen persons were drowned when the motorship Isabella was wrecked in a tropical hurricane October 15, according to a report brought here by the Mexican "comer Guerrero," which circled during the same hurricane. The Guerrero was towed to San Diego by the working steamer Albatross. Both departed today for San Pedro, where the Guerrero will be repaired.

The Guerrero was the first to go ashore and the Isabella followed soon after. The latter was engulfed by heavy seas and of the 17 persons aboard, only a young girl and a man were saved. The Guerrero was salvaged after a month's work, and the Albatross took her in tow.

CLEMENCEAU TO ARISE AT 4 TO WRITE A SPEECH

Tiger of France, Visiting in
St. Louis, Is Honored by
Negroes for His Defense
of Black Troops

St. Louis, Dec. 1.—St. Louis was gaily bedecked in French and American flags tonight, to do honor to Georges Clemenceau, Tiger of France, who arrived here this morning on the American liner. Clemenceau, through the business section, where he will ride in a parade in the morning prior to his address at 2 o'clock in the afternoon, every trolley wire supported by his dignified stride, and his walk with the red, white and blue of the two republics he hopes to weld closer.

But Clemenceau, resting at the home of Joseph Paul, publisher of the St. Louis Post Dispatch, was under heavy guard. Blue coated policemen, with riot guns on their shoulders, walked past the house. Inside, two plain clothed men kept vigil.

TAFT A WITNESS IN DAUGHERTY'S CASE; OTHER MEN OF NOTE CALLED

Representative Keller, of
Minnesota Says He In-
tends to Prove Attorney
General Is Unfit

Washington, Dec. 1.—Representative Keller, republican of Minnesota, in a statement today to the house judiciary committee, declared he intended to call a witness to be called in support of the Keller demand for the impeachment of Attorney General Daugherty. "The demand of the chief justice was the demand of the chief justice," Keller wrote, in connection with the latter's charge that Attorney General Daugherty had appointed to high office "intriguing, worthy, corrupt and dangerous men."

Other witnesses Keller intimated he would summon include George W. Wickersham, former attorney general; Samuel J. McKim, former president of the American Federation of Labor; and Guy Oyster, Mr. Gompers' secretary.

In his charges, formally filed, Mr. Keller set forth fourteen allegations against the attorney general, alleging that Mr. Daugherty had practiced "fraud and deceit" on Mr. Taft, while president, to obtain the release of Charles W. Burns.

The reasons why Mr. Keller desired to have Chief Justice Taft and Mr. Wickersham testify were set forth in his bill of particulars. He cited the case of William M. Jones, convicted in 1907 for alleged bribery in connection with the government in Oregon and subsequently pardoned by President Taft. He alleged that William J. Burns, now chief of the bureau of investigation of the department of justice, and then employed by the government, got possession "in advance" of the list of prospective jurors which were to be called in the trial of Jones, and placed by the government a notation as to their so-called fitness for a prosecution standpoint.

Through the influence of a secret service agent, associated with the defendant, he said, "Jones was induced to accept as jurors men to whom otherwise he would have objected." Attorney General Wickersham, after investigation of the circumstances, reported to Mr. Taft, as set forth in the Keller bill, that he could not countenance the methods employed in the prosecution of these cases, and as a result, the defendant, he said, "was induced to accept as jurors men to whom otherwise he would have objected." Attorney General Wickersham, after investigation of the circumstances, reported to Mr. Taft, as set forth in the Keller bill, that he could not countenance the methods employed in the prosecution of these cases, and as a result, the defendant, he said, "was induced to accept as jurors men to whom otherwise he would have objected."

Upon receipt of the report by Mr. Wickersham, President Taft promptly pardoned Jones, the bill set forth.

At the time of Burns' appointment by Mr. Daugherty, Mr. Keller asserted that Mr. Gompers went to him and protested, calling attention to the fact that the defendant, he said, "was induced to accept as jurors men to whom otherwise he would have objected." Attorney General Wickersham, after investigation of the circumstances, reported to Mr. Taft, as set forth in the Keller bill, that he could not countenance the methods employed in the prosecution of these cases, and as a result, the defendant, he said, "was induced to accept as jurors men to whom otherwise he would have objected."

Mr. Keller said he had no objection to furnishing the names of the witnesses he intended to call. He called attention to charges that were made on the floor of the house and senate by members who have assailed the attorney general that since their announced opposition to the attorney general they have been shadowed by detectives and their offices broken into and papers stolen.

LINE PLUNGING GAVE FARMERS STATE HONORS

El Paso Writer Says Aggies
Won on Straight Football
and Lobo Line Was Be-
hind Expectations

BY GENE FROMME
Sports Writer, El Paso Times.
El Paso, Tex., Dec. 1.—In a slowly executed, but thrillingly played game of football the New Mexico Aggies regained the championship of the state of New Mexico from the University of New Mexico by a score of 7 to 0 at State College, N. M., Thursday afternoon.

The game was quite evenly balanced, but played entirely different styles of football. The Aggies were scrappy throughout. The Aggies made their seven points in the third quarter. The Aggies, at times, showed brilliant flashes of football. At other times the game was ragged.

For the Burman eleven their best playing was demonstrated when they were backed up against the wall and fighting to prevent the Lobos putting over a score. In the last quarter university got within three yards of the Aggie goal posts, with four downs to go. The Aggies, fighting with all they had, held the Lobos and prevented the game ending in a tie.

The Aggies held the Lobos within five yards of their goal posts on two other instances. The Lobos seemed to lack the pep and zip that was expected of them, and their line showed a type of football that was less than secondary.

According to the dope, the Aggies should not have made any yard through the Lobo line, but the Aggies' stars—McGary and Jones—charged through for 10 and 12 yard gains on a number of occasions during the game. The Aggies tried only one end run and three forward passes. This complete change from open tactics to straight football seemed to work against New Mexico university.

The interesting feature of the game was in the two Jones brothers playing against each other, and proved to be a great thrill factor. The boys played stellar roles for their respective teams and fought against each other as hard as possible.

Sewall Jones of the Aggies shared honors with McGary, the Aggie veteran, for the greatest playing on the field. This pair of halfbacks proved the entire backfield of the Lobos as far as offense was concerned. Captain Fairly was out of the Aggie lineup and the brunt of the Aggie drive was taken over by McGary and Jones.

McGary, playing his last game of football with the Aggies, played one of his greatest games. He acted as captain and was a steam roller on the offense. On the defense he was a demon. Sewall Jones, the other Aggie star, frequently got to the Lobos for good gains. His spikes were sure and hard. His trick was great. Jones' punts were not up to the usual Jones standard, in that he averaged only 25 yards, while for the season his average was close to 50.

The Aggies made their touch-

down by a forward pass. The play was worked as a fake. The Aggies began to argue among themselves. The Aggies' right half was pushed into his position and the next moment he was hurling the ball to Stinson, who was waiting behind the goal posts. The day was ideal for football, though the field was a bit muddy and slow. Lineups at the start:

TUCUMCARI HUNTERS BRING IN DEER; ONE HAS NARROW ESCAPE

Tucumcari, N. M., Dec. 1.—A party composed of Miles K. Brown, Grover Brown, Bert Gregory and Charles Worth went deer hunting at the Brown ranch, 18 miles northwest of Tucumcari. Both Grover and Miles Brown were successful in getting the season's allowance. Grover got his on Monday, a four-pointer. Miles brought down a two-pointer on Wednesday. The rest of the party had opportunities but missed them.

Jim Conwell of Tucumcari and J. C. Smith and Joe Bailey of Fort Worth, Tex., took a trip northeast of Tucumcari about forty miles for deer. Mr. Conwell was successful in bringing down an eight-point black-tailed buck.

Another party composed of P. H. Hiney, J. W. Dickey and T. S. Lucero left Tucumcari on November 29, for Chaparral, about 80 miles northwest of this place. Each of the party got his deer. Mr. Hiney got a five-point, Mr. Lucero a three-point and Mr. Dickey a two-point. All of the deer were of the muley variety. The party was hunting in several days. An amusing incident of the trip happened when Mr. Lucero shot his deer. Mr. Dickey was standing behind him, and the bullet hit the deer, causing Mr. Dickey to fall to the ground and let out a loud war whoop. He was unhurt, however, but badly frightened.

BATTLING SIKI PUT ON PROBATION FOR 6 MONTHS' PERIOD

Paris, Dec. 1.—(By the Associated Press).—Battling Siki, who won the world's light heavyweight boxing championship from Georges Carpentier, but recently lost it, and also was denied the privilege of fighting by the ruling of the French boxing federation because of alleged unseemly conduct, may have a new license to box "after nine months of good behavior."

This information is contained in a letter sent by the federation to Henry Pate, under-secretary of the federation. The letter was written in consequence of the debate in the chamber of deputies Thursday when the Senegalese deputy, Diagne, attempted to have an appropriation for physical education reduced because of the action of the federation in penalizing Siki.

CHOSEN CALIPH BY THE KEMALISTS

Crown Prince Abdul Medjid Effendi, new caliph, and his daughter.

Crown Prince Abdul Medjid Effendi, cousin of Sultan Mohammed VI, has been elected caliph by the Turkish Nationalist government, according to recent dispatches from Ankara. The election followed the decision of Kemal Pasha and his followers to separate the sultanate from the caliphate. The new caliph is fifty.

ROSWELL HIGH BEATS CLOVIS; ENDS SEASON WITHOUT A DEFEAT

Clovis, N. M., Dec. 1.—Roswell high school closed its third season without defeat here yesterday when the valley team took the Thanksgiving game from Clovis high school by a score of 23 to 0. Outweighed and outclassed, the Clovis team fought valiantly to stem the Roswell onslaught, which started after the first ten minutes of play when McFie, Roswell quarter, circled the right end and dodged through three men for the first touchdown.

McFie was virtually the Roswell team, this fast quarter making all but one of the touchdowns, one of which he had been the longest runner made in the state this season. McFie received the ball from his center while he stood three yards behind his own goal line and, circling right end, sprinted 102 yards for a touchdown. Sasser, Clovis, left end, and Jones, captain, played star football but they could not stem the tide of victory flooding toward the Roswell team. Only once during the contest was Roswell's goal in danger and that came when Jones passed thirty yards to Rex and a subsequent end run placed the ball on Roswell's three-yard line. Roswell held for downs and it was at this point that McFie made his 102-yard sprint for the final score of the game.

MRS. LULA VANN FULTON, ARK.

Suggests to Suffering Women the Road to Health

Fulton, Arkansas.—"I used Lydia E. Pinkham's Vegetable Compound for a soreness in my side. I would suffer so badly every month from my waist down that I could not be on my feet half the time. I was not able to do my work without help. I saw your Vegetable Compound advertised in a newspaper and gave it a fair trial. Now I am able to do my work and don't even have a backache every month. I cannot praise your Vegetable Compound enough and highly recommend it to those who have troubles like mine. I am willing for these facts to be used as a testimonial to lead all who suffer with female troubles, as I did, to the right road to health."—Mrs. LULA VANN, Box 43, Fulton, Arkansas.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter; one woman to another, that should cause you to consider taking this well-known medicine, if you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times.

"RUSSIA COMING BACK TO SOUND BASIS"—HOOVER

Secretary of Commerce Declared Communism Has Failed; Says America Turned the Tide

San Francisco, Dec. 1.—Russia today is fast on the road to recovery, Secretary of Commerce Herbert Hoover today told the San Francisco Center, a woman's organization.

"Russia now has a spirit of hope that could come from no quarter but America," he added, after reviewing the accomplishments in the country of American relief activities. "Let summer Russia recover its most staggering blow when drought all but wiped out its crops and production dwindled at an alarming rate. It was then that communist leaders realized the total failure of communism."

Secretary Hoover described how America developed resources of \$50,000,000 to assist Russia and established more than 200 stations to distribute food to millions of needy Russians.

"We gave what two battleships could cost," he pointed out, "and we have laid the foundation of a friendship that will be more useful than any number of battleships. America has attained a name in Russia that will endure."

The secretary said that America's problems are not in the direction of production. "Our trouble," he said, lies mainly in providing a system properly to care for dividing and distributing. However, we can solve this problem within our own social system. The totality of production is the standard of our living. By better living services in our communities we can improve the sharing of that production. There never was an outpouring of service in history as great as America displayed during the war."

BUSINESS SLOWING DOWN IN RATE OF GROWTH IN EAST

Boston, Dec. 1.—Although there is considerable difference of opinion as to the significance of many current changes, there has seemed to be at least a temporary or seasonal slowing down in the rate of improvement in business during the last few weeks. It is stated in the monthly review of industrial and financial conditions in the New England states, made public today by the federal reserve bank of Boston.

As factors pointing to this conclusion, Chairman Frederick H. Curtis mentions a recent upward trend in money rates, the motivating causes for which he says are in doubt, the fact that the movement of wholesale commodity prices during November was not as strongly upward as during October, and the further fact that the increases in Boston department stores in England cities in October were less than in the same month in 1920 and 1921.

New York, Dec. 1.—Arrangements for the funeral of William G. Rockefeller, nephew of John D. Rockefeller, who died last night as a result of a cold contracted at the Yale-Harvard game, today were delayed pending receipt of word from his wife, who has been touring Europe. Word of his death was cabled her last night.

UNIONS OBJECT TO METHODS OF HOTEL BUILDING

Ask to Be Relieved of
Pledges Made for Con-
struction Funds; Say
Scheme Misrepresented

T. J. Mabry, local attorney, has been engaged by the building trades council of Albuquerque as attorney to defend union men in connection with suits for pledges on the construction of new hotel.

The defense fight is to be made on the grounds of misrepresentation. According to Mr. Mabry, there are perhaps 150 individuals who have a defense to offer if sued on their contracts for subscriptions and that the amount of these subscriptions will total more than \$10,000. He said that between 12 and 15 suits have already been filed.

Mr. Mabry added that he, however, is not interested in all these cases. His interest is confined to the defense of suits against members of the organized building trades' members whom, he says, had been induced to sign up for contributions under the belief and upon the promise of the selling agencies that the job would be performed by union labor, would go to home people and that home men, and especially subscribers, would be given preference.

The trades union council holds no stock but it is declared several of the unions hold stock in varying amounts. According to this report the Carpenters' union has given a note for \$1,000, the painters' union for \$500 and the bricklayers' union a note for \$300. It is alleged that "void if not built by union labor" is written across the face of these notes.

This is not shown on the face of the individual notes issued, according to general reports regarding them. However, many of the members of the unions claim they signed the notes under the conditions described by Mr. Mabry.

It begins to look as though they named him Dr. Sun because not a day goes by they don't get a rise out of him—Manila Bulletin.

DO YOU WONDER, ASKS THIS LADY

"That I'm a Believer in Cardui?"—Got So Weak She Had to Go to Bed—But Read Her Story.

Oswatimont, Kans.—Mrs. E. E. Keast, formerly of Illinois, residing here, says: "We moved to this state eleven years ago, and I had good health for a long while; then some year or so ago I had a bad sick spell."

"I got so weak I couldn't go. I couldn't stand on my feet at all. I had to go to bed."

"I suffered a great deal. I was so nervous I felt I couldn't live. I tried medicines, and everything; had the best of attention, yet I wasn't able to get up."

"I lay for three months, not able to do anything."

"My husband is a bill poster and has circulars distributed. One day there came to be a Ladies Birthday Almanac among his circulars. I read it, and told some of the family to get me a bottle of Cardui. They laughed and said I wouldn't take it. But I did. I began with a tablespoonful every two hours."

"I quit all other medicines and took Cardui faithfully, and two weeks from the time I began to take Cardui I was out of bed—better than for months."

"I kept it up and continued to improve until I was a well woman."

"Do you wonder that I am a believer in Cardui? I certainly am. And I am sure there is no better tonic made for women than Cardui."

CORNELL TAKES THREE BOWLING GAMES IN ROW

Romps Over Army Quintet and Moves Into Second Place; High Game Record Smashed; Wagner, 235

Standings of the Teams
Y. M. C. A. Bowling League
Won Lost Pts.
Navy 4 2 867
Cornell 3 3 832
Yale 4 2 867
Harvard 3 3 809
Army 3 4 333
Princeton 0 4 909

Following two games and squeaking out by a margin of a bare seven pins in the last game, the Cornell bowling quintet took three straight games from the Army team last night on the Y. M. C. A. alleys. Through its triple win the Cornell team moved into a tie with Yale for second place in the Y. M. C. A. bowling tournament.

The Army crew, which had been in the tie for second place during the first week and in third until last night, was pushed far down the scale. Through their three time defeat they dropped down just above the Princeton five, which is trailing without a single marker in the won column.

The third game last night was not decided until the final frame. It looked as though the "Soldier Boys" would come through to take it and thus cause a triple tie for third place. But Herzog, needing two pins more than Graham on the last frame, by his one pin "anchor man" by nine and gave the Cornell team the contest.

Wagner was easily "High Gun" for the night. While he did not approach the 500 three game total, rolled by Karchmer, last Tuesday, he easily shattered the 203 high game the Manzano forest supervisor showed Tuesday. Wagner kicked over 235 pins in his second game and captured the high game prize for the week—a leather pillow top.

Two other bowlers rolled above Karchmer's high single in the contest last night. Hogan, of Cornell, rolled 225 in his first game, while Graham, of the Army, rolled 212, also in his first game. Both of these bowlers fell far below their first game in the other two contests. Hogan's total in the second and third games was one pin short of the score he piled up to start the night, while Graham rolled only 50 more in this than he did in the first one.

The scores follow:

	Totals
Cornell	822 809 697 2323
Johnson	126 165 118—413
Hogan	126 121 104—351

BIRDS WORTH \$150 EACH AT POULTRY SHOW IN THIS CITY
Entries covering a wide variety of chickens, turkeys, geese and rabbits have been received by the management of the Bernalillo County Poultry show, which will be held at 215 West Central avenue, beginning Monday morning. Many fine specimens will come from a distance. Several birds have been entered that have a value of \$100 and \$150 each.

Today is the last day on which to send in entries. Entries are asked to have their entries in by 10 o'clock tonight. Cooing will be furnished by the association. Birds will be fed and watered regularly by an experienced poultry man, free of charge.

T. P. A. GIVES GOODBYE BANQUET TO CRUMLEY AND KOTTMAN AT Y

Post A of the New Mexico division of the T. P. A. gave a farewell banquet last night at the Y. M. C. A. for Past Presidents M. E. Crumley and F. L. Kottman, who will leave soon for Sacramento, Calif., to locate. Fifty persons were present. Music was furnished by the Marine orchestra. W. F. Meyer, president of the organization, gave an address of appreciation, which was responded to by Messrs. Crumley and Kottman. Roy Hall also spoke. A solo was sung by Mr. Darrow.

A Stubborn Cough Loosens Right Up
This home-made remedy is a wonder for quick results. Family and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep.

Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste. Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex with full directions," and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

BIG DECREASE IN FIRE LOSSES FOR NOVEMBER

Total Loss to Albuquerque and Bernalillo County Reduced From \$3,072 in October to \$345

That the people of both Albuquerque and of Bernalillo county are still paying heed to the lessons which were brought home during Fire Prevention week is indicated in the reports for the month of November on fire losses. In spite of the fact that many plants have been started in November, the reports of both county and city show losses from fire were reduced appreciably from the figures shown the preceding month. And in the city at least the loss was so small as to be decidedly trivial for a city as large as Albuquerque.

The total loss from fire damage during the month of November was \$345 for the city. This figure is less than the construction cost of an ordinary one-story frame building. It was just \$32 less than the loss in the last month, and October was a record month.

In the county the loss during October was fairly large, being \$2,572. Perhaps the residents became cautious through the object lesson given. Whatever the cause, their care cut the loss down to a meager \$150.

During the month of October the causes of fires were as follows: One from accumulated trash, one spontaneous combustion, two from careless smokers, one from an unknown cause, one from a defective electric wire during the last snowstorm and one from sparks from a stove.

During the past month the following were the causes: One defective gasoline stove, one from metal fuel too close to partition, and one from cause unknown. There was one case where there was no fire found, the smoke which caused the alarm to be turned off being traced to a closed draught.

There has been no fire caused by hot ashes since Fire Prevention week and none from children playing with matches. Nor have there been any false alarms turned in maliciously. The facts alone point to the splendid effect of Fire Prevention week, while the great reduction in fire losses adds to the proof.

The Albuquerque fire department is doing everything possible to spread fire prevention and fire protection through the other communities of Bernalillo county. To this end all other localities having fire departments have been invited to visit the local department and obtain whatever demonstrations they may desire.

Yesterday the Estancia fire department accepted this invitation. J. B. Fish, chief of the Estancia fire department, brought all members of the department to Albuquerque and they were guests of the local fire department and of Mayor Walton. Those who came to the city with the Estancia fire department were: Chief Fish, F. L. Mason, secretary; M. Woodard, treasurer; M. Sanchez, Ed Garcia, Vern Block, L. Marchant, D. Robinson, V. Sawyer and Clay McDonald.

Chief Fish and Secretary Mason visited Albuquerque a short time ago and watched the local department drill. They were so impressed that they wanted all of their men to witness the exhibition. It was for this purpose that the visit was made yesterday. The local department gave a clever exhibition of both ladder and hose drill.

DRIVER OF CAR THAT KILLED 2 WOMEN IS HELD
Phoenix, Ariz., Dec. 1.—Harold Altenburgh, driver of an automobile which over turned early this morning on the Buckeye road nine miles west of Phoenix, resulting in the death of two women and the injury of Altenburgh and two other passengers, was placed under technical arrest as a material witness at a local hospital tonight when Coroner Henry Sullivan ordered him held on \$5,000 bond, after he had conducted a coroner's inquest this afternoon.

Altenburgh testified under oath when the coroner's jury visited the hospital, that he and other members of the automobile party had been drinking before the accident. He denied, however, that he was intoxicated.

Coroner Sullivan declared that the case would be turned over to County Attorney R. E. L. Shepherd today.

H. C. Luthy and Walter Hastings, the two members of the party of seven who were uninjured, were ordered held on \$1,000 bond also as material witnesses but were later released on their own recognizance. Luthy and Hastings testified that none of the party had had any liquor before or during the drive.

Mr. and Mrs. Roy Gharney, who were injured in the crash, corroborated Altenburgh's testimony that there had been drinking before the accident.

Mrs. Gertrude Luthy, wife of H. C. Luthy, and Miss Ida Mae Robertson, both of Phoenix, were caught beneath the overturned automobile and killed.

After hearing all the testimony the coroner's jury returned a verdict that the two women came to their death "through an automobile accident when their car, driven by Harold Altenburgh, overturned."

Now, there's this business of jealousy. How can anyone take anything from you that really is part of you? The answer is simple—they can't. If someone has "stolen" a love which you thought yours, it is obvious that that love was and is no longer yours. It was lying around loose. You had already lost it. If it had been part of you, if you had an established hold on it and if you were vital to its life, no one could have taken it from you. Therefore, why be jealous? What good will it do you? You can't have it back, if you had realized the futility of jealousy and had proceeded on some other platform, you might have saved yourself the whole trouble.

Jealousy is one of the most revered vices known to human nature. It is an esteemed asset in practically every feminine heart and most masculine ones. In reality it is about as respectable as an appetite for hop and as potent as a frog's left hind leg stewed in the blood of a purple grasshopper.

You can't eliminate jealousy by suddenly deciding that you will no longer be jealous. You can only eliminate it by learning the truth concerning love and life. And this is some of the truth—

No one can or should belong to anyone, anyone than you can or should belong to someone else. Love is a service, not a possession. In so far as you make yourself essential to the happiness and strength of another, his love belongs to you. But when you cease to make yourself essential

lost your spiritual grip and that which remains is but a travesty of power. Your only hope consists in supplying those things which the love you covet has need. Jealousy cannot help. You are merely kicking Fate in the shins and making yourself ridiculous.

More Than 60 Persons Injured When Mob Storms Municipal Building; Further Outbreaks Expected

Mexico City, Dec. 1. (By the Associated Press).—The federal troops were held in barracks today in anticipation of another demonstration similar to that of Thursday night when 17 persons were killed and more than 60 injured in consequence of the police firing upon a mob which was attempting to storm the city hall in answer over the shortage of water. The confederation of labor, which staged last night's parade of protest against the government, held an extended meeting this morning, and immediately called on its adherents to strike as a sign of mourning for eight of its members who were killed during the disturbances. The strike will continue until tomorrow noon.

The radical elements, which comprised the bulk of the demonstration Thursday night, assumed a defiant attitude today. Small groups of them appeared in various sections of the city and shouted invectives against the city administration. It was not considered that unlikely tonight would see a repetition of the disorders, as the killing of their comrades has aroused the labor organizations to a high pitch of resentment.

40 DELEGATES HERE FOR C. E. STATE MEETING

Convention Opens With Presbyterian Church Filled With Young People; Associate President Talks

An audience that taxed the capacity of the First Presbyterian church attended the opening session of the twenty-ninth annual Christian Endeavor union last night. Delegates are present from Santa Fe, Las Vegas, Las Cruces, Mesilla Park, Gallup, Magdalena, Roswell, Tucuman, Albuquerque and other cities. About 40 out-of-town delegates are registered.

In a social session following the program, stunts by states were conducted. The Minnesota delegation won the honors for originality.

Daniel A. Poling of Boston, associate president of the United States society of Christian Endeavor gave an address in which he outlined the aims and objects of the society, which are, as the name implies, both Christian and social. He said the international slogan of the society was "A Campaign for a Warless World." The former slogan, adopted in 1916, was "A Dry America by 1920."

LOS ANGELES MAN SAYS IT NEVER FAILS
"Tanlac is my standby and I would not be without it. This medicine has set me on my feet more than once when I had such bad spells of stomach trouble. I thought I couldn't get well." This emphatic statement was made recently by W. C. Wallace, 329 N. Normandie Place, Los Angeles, Calif.

"An acid stomach and indigestion caused me the most indescribable suffering for more than four years," he said. "Awful pains would strike me soon after eating and I would be almost doubled up in agony. In my miserable condition I would be simply glad to get relief, and had to take to my bed. I would lose much weight with every spell. I was told I had ulcers, enlarged stomach and other ailments, but all my efforts to get relief failed. I kept getting worse and figured I would have to get something to help me or I couldn't keep going much longer."

"I read in the papers where Tanlac was helping others with stomach troubles, so I began taking it. It never failed to straighten me out, and I gained back my lost weight, too. I am more grateful than I can say for this good this medicine has done me, and I do not hesitate to give it my fullest recommendation."

Tanlac is sold by all good druggists.—Adv.

ALARD IS PARDONED
Santa Fe, Dec. 1.—Complete pardon, carrying restoration to citizenship, has been granted by Gov. C. M. McMechen to Jacob Alard, who was sentenced in Luna county in June, 1921, to serve five to ten years. His complete pardon follows a conditional pardon, which Gov. McMechen granted in May, 1922.

2 CONTESTS ARE IN FULL SWING AT THE STATE UNIVERSITY
University of New Mexico students yesterday inaugurated contests to choose the most beautiful and the most popular girl students at the university. The contests will close Friday night, December 5, and the winners will be announced at 11 o'clock that night, at a "Beauty ball," to be given by the students at the Masonic temple.

The winners' pictures will also appear in "The Mirror," the university annual. The entrants are: Beauty contest—Pearl Burns, Carlsbad; Fay Strong, Albuquerque; Merle Strickland, Los Alamos; Most popular girl contest—Mella Sedillo, Helen Stowell, Dorothy Coeltz and Billie London, all of Albuquerque.

A nominal charge will be made for each vote. Voting will not be confined to university students alone; the general public may participate. The proceeds will be used toward defraying the expenses of issuing "The Mirror."

A SWINDLING SCHEME

17 DIE IN RIOT IN MEXICO CITY; NO WATER CAUSE

More Than 60 Persons Injured When Mob Storms Municipal Building; Further Outbreaks Expected

Mexico City, Dec. 1. (By the Associated Press).—The federal troops were held in barracks today in anticipation of another demonstration similar to that of Thursday night when 17 persons were killed and more than 60 injured in consequence of the police firing upon a mob which was attempting to storm the city hall in answer over the shortage of water. The confederation of labor, which staged last night's parade of protest against the government, held an extended meeting this morning, and immediately called on its adherents to strike as a sign of mourning for eight of its members who were killed during the disturbances. The strike will continue until tomorrow noon.

The radical elements, which comprised the bulk of the demonstration Thursday night, assumed a defiant attitude today. Small groups of them appeared in various sections of the city and shouted invectives against the city administration. It was not considered that unlikely tonight would see a repetition of the disorders, as the killing of their comrades has aroused the labor organizations to a high pitch of resentment.

WOOL MARKET SLOW, BUT PRICES REMAIN FIRM FOR GOOD STUFF
Boston, Mass., Dec. 1.—The Commercial Bulletin tomorrow will say:

"The market is slow, but prices keep firm. A few desirable wools. Manufacturers are watching the situation rather closely in view of the approaching heavyweight season. On the one hand, they find short supplies and on the other, a declining attitude today. Small groups of them appeared in various sections of the city and shouted invectives against the city administration. It was not considered that unlikely tonight would see a repetition of the disorders, as the killing of their comrades has aroused the labor organizations to a high pitch of resentment."

NEBRASKA HOLDS MISSOURI RIVER VALLEY PENNANT

Cornhuskers Stand Out as One of the Best Teams in Middle West; Drake Takes Second Place

Kansas City, Dec. 1 (By the Associated Press).—The Nebraska Cornhuskers stood on the football horizon today not only as the undisputed champions of the Missouri Valley conference, but as one of the strongest eleven in the middle west. Defeat of the much-touted Notre Dame team at Lincoln yesterday added much to the gladden of the Nebraskaans.

Nebraska played five games in the conference winning all by wide margins. The victims were Missouri, Oklahoma, Kansas Aggies and Ames.

Drake also has an all victorious season to the valley, but the Des Moines Bill Dogs were not scheduled to meet as many strong eleven in the conference as were the Cornhuskers. Nebraska, using largely a second string eleven, overwhelmed Ames 54 to 7. Drake defeated Ames 14 to 7.

The Missouri-Kansas game yesterday, important because of the traditional rivalry between the two universities, had but little effect on the conference standing. The triumphant Tigers retained fourth place in the valley, while the Kansas Aggies, who had defeated Missouri, remained in third place.

Washington University, which had lost all previous games in the valley, ended the season with a defeat of success yesterday by holding Oklahoma University to a scoreless tie.

The final standings:

Team	W	L	T	Pct.
Nebraska	5	0	0	1.000
Drake	4	0	0	.750
Kansas Aggies	3	1	0	.750
Missouri	4	3	0	.572
Ames	2	4	0	.333
Oklahoma	1	2	0	.333
Kansas	1	1	1	.333
Grinnell	1	2	0	.333
Washington	0	5	1	.000

ANNUAL FOOTBALL TRAVESTY ON AT U. GROUNDS TODAY

Blood and hair, corn, teeth, and dismembered limbs will fill the atmosphere on Varsity field this afternoon at 2:30 when the Hoolligans and the Yammigans meet in the annual encounter with which the football season at the university is brought to an official close each year.

Contests in the Yammigan-Hoolligan game are chosen from students who are not on the Lobo squad, and the eligibility rules are extremely lax. Rivalry between Yammigans and Hoolligans has reached the point where armed intervention may be needed at any time to prevent a fracas before the game. Captains of both teams have announced their intentions of winning, if it takes all winter to do it.

Among the formations devised by the Hoolligans for the purpose of humbling the wily Yammigans are Swiss Formation, the White Mule Cross, the Dark Horse Shift, and the Flute Play, while the Yammigans have worked out some even more deadly maneuvers with which to circumvent their hated rivals.

The Yammigan-Hoolligan management has extended an invitation to the general public to witness the slaughter.

Skin Ablaze with Eczema

Constant Itching Almost Unbearable!

We know there is one thing that stops eczema, and that is more red-blooded cells! S. S. S. builds them by the millions! You can increase your red-blood cells to the point where it is practically impossible for eczema to exist.

erist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its soul-tearing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the millions! It has been doing it since 1893! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body-builders known to us mortals! When you put these facts together—then to combine to have eczema, Pearl S. S. S. Newark, Ohio, writes: "My little girl had a very bad case of eczema. She began taking S. S. S. and is well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. STRAWBERRY PLANT SELLS FOR \$50,000

The \$50,000 Rockhill strawberry plant and Frank E. Beatty, the purchaser.

Frank E. Beatty, president of the R. M. Kellogg Company, fruit growers, recently paid \$50,000 for the exclusive right to propagate the Rockhill strawberry plant. The plant was originated by Harlow Rockhill of Iowa, and is almost as large as a bushel basket. The new plant produces luscious fruit from early spring until the snow flies and probably will revolutionize the strawberry industry, according to

Beatty. He is confident that no variety now in existence will equal the Rockhill in either productivity or quality.

HERMINE PUTS MOLTKE OUT OF DOORN RETINUE

Clashes With the Former Kaiser's Court Marshal on Question of Husband's Remaining in Castle

Doorn, Holland, Dec. 1 (By the Associated Press).—The first change in the Kaiser's household since Princess Hermine took over the reins in the departure of Count Von Moltke, the court marshal, has been the dismissal of his son-in-law, Prince Moltke, from the retinue of the Kaiser.

The dispute between Princess Hermine and the retiring marshal has been the subject of much speculation. The Kaiser's household has been the scene of many changes since the abdication of the Emperor.

Princess Hermine and her youngest daughter take daily walks outside the castle grounds, and she has appeared several times in the town of Doorn. The Kaiser has been frequently seen with her in parts of the grounds, and it is expected that she will soon prevail upon him to accompany her on trips to the villa.

Another change in the household regime that is probably traceable to Princess Hermine's influence, is the prospective departure of Dr. Fischer, the court physician, who is said to have taken up his private practice in Amsterdam.

The new mistress of Doorn castle chats freely with all sorts of people during her daily walks, and is evidently desirous of making friends. She has a pleasant manner on these occasions, visiting with anyone who shows much interest in her new surroundings.

PARKING ORDINANCE TO BE STRICTLY ENFORCED

Rigid enforcement of the traffic laws, and particularly of the one which applies to parking, will be carried out henceforth. This is the word which has been passed out from police headquarters. At the same time it has been made known that Police Captain George Roddy will impose stiff fines to remind any who are delinquent in this respect.

The ordinance which is to receive particular attention is the one in regard to parking within restricted zones. Parking on Central avenue for more than one hour is prohibited under the ordinance. It has been stated that any who fail to comply with this ordinance will find it much more costly than it would be to place their automobiles in a garage.

Another traffic law prohibits parking double on Central avenue. It is in order to enforce this ordinance that the first is to be enforced. With the one hour parking law carried out, police say there will be no occasion for double parking, as there will always be open spaces.

The police have been lenient in the past as regards enforcement of the ordinance. However, it is believed the time has arrived to call a halt, as double parking is believed to be responsible for numerous accidents. The city commissioners authorized the addition of one policeman two weeks ago, to be used largely in enforcing this ordinance. The police announced at the time that the ordinance would be enforced and that any who fail to comply with it would be permitted to prepare for it.

Yesterday was the day set for enforcement and two fell victims to it. Fred Nash and M. L. Nesbit appeared before Judge Roddy last night and both pleaded guilty to the violations. The fine in each case was \$5. This assessment is to be increased soon.

It's our own idea that it is downright unfair to raise an innocent young king with no preparation whatever for private life.—Dallas News.

ELKS TO SERVE DEER BARBECUE AT CLUB ROOMS

Venison Feast Tonight; Ladies Christmas Committee Meets Monday; Memorial Services Sunday

Members of the E. P. O. E. will enjoy a barbecue of venison tonight at the Elks' club, Fifth street and Gold avenue. The spread is the result of the hunting prowess of Tom Linville, member of the "Best People On Earth."

Linville spent the early part of the week hunting in the Magdalena range. He returned Wednesday with one of the finest bucks shot during the season. It was a fine 200-pound buck, three years old, just fat enough and young enough to furnish the juiciest of venison.

Being an Elk, Linville thought the meat too rare a treat for anything but a "community feed." He turned it over to the management of the Elks who, in turn, turned it over to one of the local bakeries to be prepared. The deer will be cooked whole in a large bake oven. All members of the Elks have been invited to attend the spread, which is to be served at 8 o'clock tonight.

Members of the Elks and their wives have been invited to meet with Exalted Ruler Arthur Prager, Monday night at the Elks' club. The meeting is for the purpose of organizing a ladies' committee, in connection with the Christmas tree which the Elks have annually for the kiddies of Albuquerque.

The ladies will be put in charge of the tree. Each member of the committee is to give the names of ten ladies. Their task will be to induce each of these ten ladies to provide some present for the tree. Wearing apparel will be preferable in these presents. The same committee is to have charge of the filling of the stockings which are to go on the tree.

The Elks will hold their annual memorial services tomorrow evening as it is the first Sunday in December, the day which is designated for these services. The services will be opened at 8 o'clock but the members will assemble 15 minutes earlier and march into the assembly room in a body. The program for the services is as follows:

SOCIETY

BRIDGE AFTERNOON

Mrs. George R. Craig and Mrs. H. C. Roehl will be hostesses for a bridge of twenty tables Saturday afternoon at the Woman's club, entertaining bridge players and a number of additional guests at tea following cards.

About fifteen members of the Ladies' Equestrian club will ride Saturday afternoon.

BRIDE-ELECT HONORED AT DINNER FRIDAY

Miss Louise Lowber, a bride of next week, was complimented with a dinner at the Wayside Inn in Bernalillo Friday night. Mrs. Ada Bittner and Mrs. C. E. Hodgins were hostesses, entertaining Miss Lowber, her mother, Mrs. C. E. Lowber, Miss Betty Fitzhugh and Ella Bartlett, and Mrs. L. Rice and Mrs. W. W. Strong.

Mr. and Mrs. W. C. Reid, 1010 West Tijeras avenue, had as their Thanksgiving guest, Miss Adelaide Chamberlaine, who is en route to her home in Pasadena following an extended visit in Washington and New York. Miss Chamberlaine accompanied the Miss Edith Hickey party to the Zuni Indian dance, and will leave for California the first of the week. Miss Chamberlaine was for several years curator of ethnology and archaeology of the Museum of Southwest Arts, Los Angeles.

ALPHI CHI SORORITY GIRLS ENTERTAINED

Girls of the Alpha Chi Omega sorority, alumni, and their escorts were entertained Friday night with a dancing party, given by Mrs. Harry O. Strong at her home, 1015 West Tijeras avenue. The sorority colors of red and green decorated the living room and dining rooms, and green balloons, tied with contrasting streamers of green and red, covered the ceiling and were later tied to the arms of dancers as favors. A "laughing con" was awarded the couple winning the prize dance. Sorority colors were also carried off in the three courses supper which followed dancing. Bridge was played by some of the alumni and guests, who included Misses Daphne Cobb, Lucy Jane Clark, Louise Wilkinson, Flora Chess, Dr. and Mrs. H. W. Goelitz and Mr. and Mrs. H. O. Strong. The dancers were Mr. and Mrs. A. J. Johnson, Misses Helen Kimball, Constance Walters, Helen Willey, Carol Wilson, Leon Goelitz, Dorothy Goelitz, Junette Fiescher, Helen Helming, Gertrude Fahash, Jessie Harrington, Vera Kelch, Fay Strong, and Messrs. Joe Eldred, George Martin, Frank Owen, Edw. D. Duke, Edward Hopkins, Joseph Benjamin, Walter Berger, Bob Albers, Walter Gilbert, Frank Reeves, Hugh Graham, John Whittier, Desmond Farrell, Grimes, Bob Elder, William Hale, George Savage. The party, although not formal, was a scene of brilliant colors with the girls' evening gowns, against the beautifully decorated living room. The Friday night dance marks the first of a series of parties to be given for the Alpha Chi Omega girls.

HEART AND HOME PROBLEMS

Dear Mrs. Thompson: I am a girl of age and am deeply in love with a boy of my age. There is another boy who loves me and asked me to go to a show with him. I like the first boy better. Should I go with the second or not?

Should a girl always answer a boy's letter?

Is it all right to walk home with a boy arm in arm?

Unless you are engaged to the first young man, I would advise you to accept the invitation to go to a show.

It is not necessary to answer a letter if you wish to drop the correspondence.

It is not correct to walk arm in arm with a young man.

Dear Mrs. Thompson: I am 29 years of age and I think you will

admit I have a little common sense. I am a young wife of just four months and have been very happy. I love my husband with all my heart and worship him. He tells me I am a good wife. He tells me I am a good wife. He tells me I am a good wife.

It is probably not that your husband is influenced by what his friends say. Without a doubt he has his moods—at times he feels affectionate and at times he is distant and doesn't want to show affection or have it bestowed on him. Study his moods and at the times you think he is cool and indifferent, don't answer him. At first it may be difficult to go about your own affairs and leave him alone, but it will pay to do so. His moods do not indicate that his love is growing cool, but it is simply natural for some people to be more affectionate at one time than at another. Do not tell your husband's friends that he is distant. If you have outside interests, even if he won't admit it, even if he realizes. Of course there is an extreme: some women go too much and some stay at home too much. Strike a happy medium.

A FATAL FIGHT

Philadelphia, Dec. 1.—Two men, one white and one a negro, are dead as the result of a pistol duel which ended a Thanksgiving day party early today. Edward Brown went to his neighbor, Jess Williams, colored, and borrowed a phonograph. Later Williams called for his machine. A quarrel resulted in which both men drew pistols.

The mark has fallen again. The only consolation is that it soon will have no place to go but up.—St. Paul Pioneer-Press.

Mrs. Dudgeon found guilty of murder of her son-in-law

White Cloud, Mich., Dec. 1.—Mrs. Alice Dudgeon was convicted in circuit court here tonight on a charge of having murdered her son-in-law, Romi Hodell.

Unusual interest marked the case, it being the second of a series growing out of the death of the young farmer and his father, David Hodell, Mrs. Meda Hodell, daughter of the defendant in the present case, and widow of Romi Hodell, was convicted three weeks ago of poisoning the elder Hodell.

Mrs. Hodell and her brothers, Lee and Herman Dudgeon, were jointly charged with their mother in the young Hodell's death. Their trials followed that of their mother's.

Fashions Forecast

BOUGHT FOR \$7.00, MADE FOR \$1.50

Just as grown-ups love clothes that are easy to get into, so do the younger folk who never "get up" in the morning until the last minute and have to dress in a jiffy to get to school on time.

Less buttons on children's clothes have, the simpler the mending problem becomes.

This cunning little jumper dress can be slipped on quickly for it is the popular over-the-head type.

The jumper could be made of gingham, serge or an all-wool plaid worn with a guimpe of lawn or wool crepe. Figuring all wool plaid at 80c per yard and lawn at 35c per yard for the guimpe, the completed garment would cost about \$1.50.

The pattern No. 1613 cuts in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yds 36-inch material for dress and 1 1/2 yards 36-inch material for guimpe. Price 15c, stamps or coin (coin preferred).

Order patterns by number. Send all orders direct to Fashion Department, Albuquerque Morning Journal, 100 South Wells Street, Chicago, Illinois.

No. 51—A Divination.

As a demonstration of mental telepathy ask some one to write secretly a few words on a slip of paper. Looking into the writer's eyes you write a few words on another slip, then ask him to remember what he wrote. When he says "yes," you confidently remark that you have written exactly the same. Of course, every one wants to compare the two slips, and when they are shown much to their amusement they find written on your slip the three words "Exactly the same."

Today's Recipes

Veal Cutlets en Casserole—Salt and pepper the veal cutlets. Dip in beaten egg, then in cracker or dry bread crumbs. Fry in hot fat until a golden brown. Put in casserole, add enough milk to just come to top of meat. Put small pieces of butter on top. Bake slowly until done.

Milk Gravy—After the meat is browned put flour to brown in the pan. When a golden brown add milk to the desired thickness. Serve in a separate dish with the meat.

Hot Beet Salad—Boil, peel and slice a bunch of beets and set them in a dish to keep warm. Make a sauce of a half cup each of vinegar and water, a tablespoon of sugar, pepper, salt and a heaping tablespoon of butter. Melt together, and when hot thicken with a tablespoon of cornstarch moistened in a little water. When it boils up turn into the beaten yolk of an egg and stir until thick and smooth. Wine the salad bowl with a cut bud of garlic, lice with lettuce leaves, dip the beets in the dressing, then pour the rest over them. Put a

boiled egg which has been run through the ricer over the top of the salad.

Cafe Parfait—One pint of thick cream, one cup sugar, one pint milk and one-half cup strong coffee. Whip the cream with an egg beater until very stiff. Add milk, sugar and coffee. Beat again. Pack in ice and salt and let stand four hours, stirring once or twice while freezing. Serves six.

Christmas Cookies

Here are two genuine German Christmas cookies. If anyone can make these cookies and pack an attractive box with them for some friend and still feel no Christmas thrills their case is perfectly hopeless.

Zimtstern (Cinnamon Stars)—One-half pound sugar, five eggs whites, beaten until stiff, six half hours. Add one-half pound almonds cut fine, one candied lemon peeling cut fine, two teaspoons cloves, two teaspoons cinnamon, one-half teaspoon ammonia enough flour to form. Roll dough about one-quarter inch thick. Cut with star cutter. Sprinkle with granulated sugar. Press half almond in center of each cookie and bake in moderate oven.

Pomeranian Bread (Citron Bread)—One-half pound sugar, two whole eggs, two yolks; stir half hour. Add one ounce citron peeling, one-half ounce orange peeling, one-half pound flour, one-half teaspoon ammonia. Roll dough in half-inch rolls. Cut about two inches long, bake in moderate oven.

The ammonia called for in these recipes is called "lunar" ammonia and is purchased in the drug store. Five cents' worth is more than enough. Must be scraped before measuring.

WHAT'S THE USE?

I read the books the boys produce, and sadly murmur "What's the use?" No doubt there are in modern towns all kinds of sapheads, bores and clowns who do not know a noble play or painting from a bale of hay. Why drag them from their humble nook and hold place them in a book, and say, "These unborn represent our country, to the bow-wows bent; these freaks, as drawn by gifted pen, are portraits of our fellow men; they're all as much alike as peas, and they're all composed of cheese." No doubt there are such tawdry skates, poor fish and mental

feather-weights; but why in novels turn them loose? Again I query, "What's the use?" The pessimists say days are coming, but who knows without are answering: why should they write such ghoulish tomes, despairing plays and sordid poems? When graybeards take their pens in hand to prove that all things should be canned, that culture's perfume from the book earth and all they see has little worth, and paint a future black as pitch, they doubtless have the gout or itch. But why should they? Youth waxes priceless link to show the world is on the blink, that man is but an ape or goose? I rise to ask you, what's the use?

FLORIDA DEMANDS COAL DELIVERY FOR MORATORIUM

German Newspaper Publishes List of Six Conditions Said to Have Been Framed by Poincare

Hamburg, Dec. 1 (By the Associated Press).—The premier of M. Poincare, the French premier, for submission to the Brussels conference comprises six definite measures of allied control to be accepted by Germany in return for a three years' moratorium, according to a report the Fremdenblatt asserts it has received from a high banker who is prominently associated with high financial circles in France.

The newspaper says its informant states that the plan already has been submitted to the Belgian government. The six prerequisites to a moratorium are declared to be:

First—The erection of a customs boundary eastward of the occupied territory, with the establishment of a mixed customs commission, based on the number of troops and allied officials in the occupied area.

Second—Participation by allied capital in all chemical and metallurgical factories in the area having more than 500 employees, to the extent of not less than 25 per cent and not exceeding 75 per cent.

Third—Allied control of indirect taxes in the occupied territory.

Fourth—A special measure against the flight of German capital abroad with taxation of funds in foreign money.

Fifth—Stabilization of the mark through an international loan secured by the Reichsbank's gold reserve.

Sixth—An increase in coal deliveries by 25 per cent and an increase in reparations wood deliveries of 20 per cent.

According to information received by the Fremdenblatt, the Belgian government objected that the amount of the customs income was doubtful, while the cost of the alleged control organization would be great, and also that the proposed boundary would be harmful to the trade of the western powers and apparently aid former neutral states.

A GREAT MAN ON AFTER LIFE

The last manuscript to come from Franklin K. Lane's hands was written shortly before his death and was unfinished. He had just succeeded in coming through an operation, the uncertain consequences of which he was well aware. "If I had passed into that other land, whom would I have sought—and what should I have done?" he asked. After the reunion with those of his own folk and friends whom he had learned to love in their lifetime, he reflected that he would spend little time in search for the "sierras" of his own skyline, or even those whose names are famous in history, like Alexander and Cromwell. Aristotle would claim his attention and thought; but still the search would be merely one of curiosity.

"But for my heart's content in that new land," he continued, "I think I'd rather loaf with Lincoln along a river bank. I know I could understand him. He wouldn't try to master me nor to make me feel how small I was. . . . We'd talk of men a lot, the kind they call the great. Yes, we would sit down where the bank sloped gently to the quiet stream and glance at the picture of our people. . . ."

This piece of writing put a singularly beautiful end to a life which was devoted unstintingly to the service of other men. It demonstrates the truth that common ideals make a bond for all men. Like Lincoln, Franklin K. Lane felt that the most worthwhile part of life was people.

RETURN OF THE FILIBUSTER

The narrow majority of the Republicans in the next congress has revived the filibuster. It is, according to reports, to be invoked in the special session of the present congress and in the regular session in December to hold up the legislation and force a special session of the new body before the regular session 13 months hence. The ship subsidy bill, which was passed recently by the house in short order is, according to this program, to be obstructed in the senate until the new congress, when it is believed to have no chance of passage. The Dyer anti-lynching bill and the loan to Liberia, the other pending measures, may meet a like fate.

Regardless of the merit or otherwise of these bills, the return of the filibuster is to be deplored. Besides its waste of time it is ethically indefensible, since it befores the issue. The resort to parliamentary tactics of obstruction instead of a straight-out vote on the measure at issue is a species of political pettifoggery with infinitely more possibilities of thwarting than advancing the wish of the people. Votes are swayed by irrelevant factors and worthy legislation is more often prevented than vicious legislation is defeated by this circuitous method. But with the margin so close in the next congress, the country is probably going to see a lot of filibustering in the next two years.

THE AMERICAN MUSEUM

The Museum of the American Indian which was recently opened to the public in New York City is unique in being the only one of its kind in the world. The collection comprises 1,800,000 specimens of American Indian life. George Gustav Heye, the founder of the collection, is an American engineer who early made the gathering of Indian relics a hobby and of late a business. The specimens represent the life of Indians in both South and North America, and are the result of 25 years' search on the part of Mr. Heye and his explorers.

The significance of such a collection as is housed in the Heye Museum is not to be underestimated. Little is known of the origin of the American Indian. As a matter of American history, it is important that scholars should be encouraged to direct their investigations in this direction. In no better way could this be done than in the establishing of such an institution as the new Museum of the American Indian, excepting, of course, the establishment of a national park, such as is being proposed for New Mexico, the habitat of the Navajo and the Pueblo Indians. Than the living survivors of this fast dying race, there could be no more fitting museum to perpetuate their history.

TODAY'S BEST THOUGHT

As members of Congress, divided by party lines and crude platforms must, in the main, care for and protect local interests, I do not believe any fair, impartial and business tariff can be framed by them. It would be better for Congress and the law-making power, after determining the amount to be raised, to sanction and adopt a careful tariff bill, framed by an impartial commission, large enough to represent all sections and parties, all employers and employees. Hitherto the tariffs framed by congress have been rejected by the people. Each party in its turn has undertaken the task with like result. Let us try the experiment of a tariff framed, not by a party upon a party platform, but by the selected representatives of the commercial, industrial, farming, and laboring classes. Let Congress place upon the statute-book such a law, and the tariff question will cease to be the football of partisan legislation.

FINANCIAL

Wall Street

New York, Dec. 1.—The bridge

rise in prices of today's stock market

provided further confirmation

of the belief that the recent

reaction had been overdone, as had

the rally which preceded it. Bear

operators made a few attempts to

cover weak spots, concentrating on

the oil shares and a few of the

leaders, but the strong resistance

shown by these stocks induced

reporters that negotiations were

being completed for the absorption

of the Chile company in Ana-

conda resulted in a heavy buying

of copper shares. Certain de-

pendence on some shares, was held

in two and a half points, Ana-

conda improved two points, and

Chile fractionally while gains of

one to nearly two and a half points

were scored by Kennecott, In-

spiration, Butte and Superior, American

LOCAL ITEMS

L. H. Hanson, C. L. Ritt, Charles Tartaglia and La Tartaglia returned yesterday after a hunting trip of several days in the Mogollon mountains. They had a quite successful trip, bringing back one deer each and one turkey, the turkey shot by Hanson.

The fire department answered an alarm from the Exchange Furniture company at 125 West Gold avenue, yesterday afternoon. The fire was found to be below the furnace. The firemen ripped out the flooring and extinguished the fire with a garden hose. The alarm was turned in at 1:40 p. m. The howling alley the Y. M. C. A. were kept working overtime Thanksgiving day. More than 190 games were played.

H. R. Ricketts, administrative assistant of the District Forester's office has returned to his duties after having been seriously ill for two weeks.

Fred Crockett, county clerk, went to El Paso Wednesday night to spend Thanksgiving with relatives there. He is expected to return tomorrow.

J. N. Moss, boys' secretary of the Y. M. C. A., took a group of Y. boys on a hike up the river yesterday.

The New Mexico Game Protective association has received a message from Dallas, Texas, asking for the constitution, by law and program of the organization. It is probable a similar organization will be started there. Until now there has been no organization similar to the N. M. G. P. A., excepting the one at El Paso, which has a very strong organization and is patterned after the former, as well as being affiliated with it. W. C. Jenkins, who was at Bowling Green, Ky., visiting relatives and friends, has returned to the city.
