BOARD OF EDUCATION MEETS

Preliminary Hearing of Alleged Bribe Takers in District Court.

A suit was filed this morning with the clerk of the district court by the United States Bank and Trust Company against William E. Martin and E. C. Burke, both of Santa Fe county, for the collection of a \$100 note alleged to be due.

Change of Agents.

The American Bridge Company of New York and the L. C. Smith and Brothers Typewriter Company yesterday filed papers of change of agent from R. H. Hanna to Frances C. Wilson in each case, with the state corporation commission.

Insurance Matter Correction.

The German American Indemnity Company of Denver, Colorado, was not refused a license to do business in the state as was reported in a recent issue of the New Mexican. The insurance company did not request nor desire a renewal of its license.

Treasurer's Receipts.

The following sums of money were received yesterday in the office of State Treasurer O. N. Marron: J. A. Baird, treasurer of Otero county, taxes, \$366.65; Nestor C. de Baca, treasurer of Union county, taxes \$457.38; Las Vegas Land Grant, \$236.

Team Stolen and Recovered.

A team belonging to J. M. Sanchez of Barajas rented by a man who gave the name of Haywood was found yesterday in the barn of a local liveryman who had paid \$55 for the horses. The liveryman is now out on the purchase price as the team was returned to its owner by the mounted police. Haywood bought a ticket for Los Angeles and has not been heard from.

District Court.

Pablo Archuleta, a resident of Santa Fe, was yesterday found guilty of rape by a jury in the district court. Sentence will be passed late this afternoon or tomorrow. Yesterday afternoon the case of the four representatives indicted for bribery in connection with the senatorial contest in the legislature was called. Counsel for the defense waived preliminary examination awaiting the action of the September session of the grand jury. By agreement bonds for the accused legislators were fixed at \$2,000 each, which was furnished and the men released. The names of the four accused men are: Jose P. Lucero, Julian C. Trujillo, Manuel P. Cordova and Luis R. Montoya.

Board of Education.

Yesterday the state board of education met in the office of Superintendent Alvan N. White. At the request of the board Albert Stern of the field stores appeared and the question of better school text book distribution was taken up. Mr. Stern said that the company he represented would make every effort through their agents over the state to bring about a better distribution. The bonds of the various text book publishers under contract with the state were investigated and approved. A committee consisting of Dr. C. M. Light, Superintendent C. C. Hill and Dr. M. D. Taylor was appointed to prepare a new manual for county institutes. The committee met last evening and announced that the manual will be ready for distribution not later than May 15. A committee on common school courses of study was appointed consisting of the following: Dr. Frank H. H. Roberts, Superintendent C. C. Hill and Superintendent Bonifacio Montoya. The board will take up the question of school legislation today.

Letter to County Assessors.

Santa Fe, N. M., March 20, 1912.

To the County Assessors:

Gentlemen—The territorial board of equalization held a meeting in January, and following the precedent of earlier years attempted to fix valuations for your guidance, not only upon railroad, telegraph and telephone companies, as authorized by law, but upon lands, live stock and banks. After the organization, taking the position that the action of the territorial board was unauthorized and of no effect, held a meeting at which new valuations of railroad, telegraph and telephone property were made, together with what was intended to be recommendations only to you and to county commissioners as to minimum values to be fixed on other kinds of property. These recommendations were made so that there could be general understanding of what the board would expect, and upon which it could act at its meeting in September for the raising or lowering of valuations to make them uniform throughout the state. In preparing the record of the proceedings of the board and in its printing, owing to the haste with which the work was done, the intention that these should be mere recommendations, is not as plainly indicated as it should have been. While these are only recommendations, yet they are to be understood as indications of what the board will insist upon at its September meeting, and failure of the county au-

BIG DIAMOND
THIEF CAUGHT

Daniel Callahan, a Smooth Crook, Landed by Post Office Inspector

REWARDS AGGREGATE \$10,000

They Ate at Same Table in Restaurant, and Detective Recognized Thief.

(By Special Leased Wire to New Mexican) St. Louis, Mo., March 21.—Daniel Callahan was arrested today by post-office inspectors who say he is wanted for complicity in three diamond robberies aggregating \$120,000, and in the robbery of a postoffice substation in St. Louis, and other thefts. Postoffice Inspector Bensen, who made the arrest, says Callahan is being held as the leader of a gang which stole \$100,000 worth of diamonds from Mrs. Malvina Drummond's stateroom on the steamship America in February, 1911, and which bound and gagged two men and stole \$10,000 worth of jewels from Edward Albert's store in Chicago in April, 1911, and killed a man in getting away.

Arrest Was Result of Accident.

Callahan's capture was the result of a peculiar chain of circumstances. Bensen, who has been looking for Callahan for the postoffice robbery, was eating in a restaurant when he noticed that an index finger of a man opposite him was missing at the first joint. He then saw the man's resemblance to a photograph of Callahan.

Denied Identity.

With the aid of a city detective, Bensen arrested Callahan and his companion who gave the name of Charles F. Miller. Callahan denied his identity, and according to the city detectives, tried to bribe Bensen. Callahan's name also has been given to the Federal authorities as the leader of the gang which entered Spaulding & Company in Chicago in February, 1911, and stole \$10,000 worth of jewelry. It is known that Callahan was under arrest in London eight months ago. How he gained his freedom is not known here. Rewards for his arrest aggregate \$10,000. Members of the gang, who were convicted for the Alberti robbery are said to have told the federal authorities that Callahan was the leader.

Admits Identity.

When Callahan was shown a photograph of himself, made at Joliet, Ill., prison ten years ago, he admitted his identity. He refused to make any statement about the jewelry robberies of which he is accused.

RESULT OF FIRST JUAREZ HORSE RACE TODAY.

(By Special Leased Wire to New Mexican) Juarez, Mex., March 21.—Weather clear, track fast. First race, five furlongs, Isom 102 (Johnson) 5 to 1 first; Dog Star 103 (Molesworth) 16 to 1 second; X Royal Dolly 108 (Callahan) 7 to 1 third. Time 1:00.5. THIRD BALLOT FOR SENATORSHIP
BROUGHT NO RESULTS

Deadlock As Rigid As Ever—Investigation Committee Examine the Attorney Elfigo Baca and State Chairman Venceslao Jaramillo

THIRD BALLOT FOR SENATORSHIP

House Bill No. 12, by Burg, an act for the promotion of education in New Mexico. Referred to the Committee on Education.
House Bill No. 13, by Burg, an act relative to the form and execution of cost bonds. Referred to the Committee on Judiciary.
House Bill No. 14, by Tripp, an act to punish any person who drinks intoxicants or is intoxicated on railroad trains, in depots or other railroad property. Referred to the Committee on Railroads. This bill is said to have the endorsement of the railroad labor unions.
The Committee on Judiciary reported for passage House Bill No. 19 by Chavez, an act to define perjury and providing punishment therefor. The measure gives the right to legislative officers to administer oaths and provides a penalty of \$500 to \$5,000, and one to five years for perjury. The bill was passed unanimously. It carries the emergency clause making it effective upon signature by the governor.

Catron explained why the measure is an emergency measure. Under present statutes, perjury can be punished only if committed in a case on trial and this measure extends the penalty to those swearing falsely before legislative investigation committees.

House.

House Bill No. 12, was introduced on request of President E. McQueen Gray of the University of New Mexico at Albuquerque. It provides for scholarships from each county to be awarded by boards of county commissioners to any high school fourth year pupil, the scholarship to be to any of the higher state institutions of learning, the state to pay \$200 per annum toward the student's tuition and expenses. The appointment is to be for two years, with power to renew it for two years if the pupil secured first grade in all regular studies and first rank in conduct. The appointment may be recalled if the student's record is unsatisfactory. The county superintendent is also empowered to appoint a teacher of the public schools to a scholarship for one year, \$30 per month for nine academic months to be paid from the state treasury to such state institution.

House Bill No. 13, permits surety companies to go on cost bonds in appeal and other cases where formerly only personal bond was accepted. The bill also prescribes a form of bond.

The House took a recess from 11:30 a. m. to noon.

WOOL TARIFF
REVISION BILL

Democrats Will Introduce Measure Vetoed by President Taft

TWENTY-NINE PER CENT DUTY

Precarious Scheme for Philippine Independence Proposed by Representative Jones.

(By Special Leased Wire to New Mexican)

In session 2 p. m.

Finance committee continued hearing on chemical tariff revision bill.

House.

Met at noon.

Passed bill giving President power to remove federal court clerk.

Chairman Underwood of ways and means committee introduced same wool tariff revision bill, placing 20 per cent duty on raw wool, as was vetoed by President Taft last session.

Adopted resolution authorizing government participation in national corn expedition, Columbia, S. C., 1913.

Money trust investigating committee decided to examine directors, director-relation ship and stock books of national banks at first move.

Representative Jones introduced a bill proposing "probationary independence" for Philippines from 1913 to 1921.

That Wool Tariff.

Washington, D. C., March 21.—The Democratic members of the ways and means committee determined today to reintroduce in the House, the same wool tariff revision bill that was introduced last summer, which, after being revised in conference, was vetoed by President Taft.

The decision followed an examination of the tariff board's statistics as analyzed by Chairman Underwood and compared with the data in possession of the committee. It was even decided there would be no Democratic caucuses on the bill, which will obviate a fight by the free wool adherents, though when the bill comes up on the floor they may make a stand.

The bill differs from the bill vetoed by the President principally in the duty assessed on raw wool. The House bill carried twenty per cent, but after the conference the House leaders yielded and the bill was finally passed, carried a twenty-nine per cent duty on raw wool.

The committee first considered a bill that would correspond to the conference report but finally decided unanimously to introduce their own bill which puts a duty of twenty per cent on raw wool. Chairman Underwood dropped the bill in the basket as he entered the House today.

Minority members of the Ways and Means committee are planning to introduce a wool bill to conform to the report of the tariff board.

A Joker.

Washington, D. C., March 21.—Chairman Clayton of the Judiciary Committee declared on the floor of the House today that more than twenty clerks of federal courts in the United States were embezzlers of court funds and still retained their places because the existing law was so framed that they could not be reached. Mr. Clayton urged an amendment of the law to permit the President of the United States to remove such offending clerks.

Precarious Plan.

Mr. Jones will endeavor to make the bill a part of the Democratic legislative program. During "qualified independence" the Archipelago would operate under a system identical with that of the United States, the President of the United States having the right of veto over the Philippine laws. The right to vote would be given to those in the Philippines who held it prior to the war in 1898 and to those who own and pay taxes on 500 pesos worth of property, providing they can read and write. The bill would prohibit polygamy.

Philippine Independence.

Washington, D. C., March 21.—Representative Jones of Virginia, chairman of the House committee on insular affairs, proposed "probationary independence" for the Philippine Islands from July 4, 1913, to July 4, 1921, in a bill introduced today. The bill has the approval of the Democratic members of the committee.

Paroles for "Lifers."

Washington, D. C., March 21.—The House today passed a bill extending the parole law to "life" prisoners in federal penitentiaries after 15 years of penal servitude.

TO MEMBERS EDUCATIONAL COMMITTEES.

The members of the Senate and House Committees on Education are requested to meet tomorrow forenoon at nine o'clock, with the state board of education at the office of Superintendent of Public Instruction Alvan N. White.

DISARMING ON
MEXICAN BORDER

Federals Collect Guns From Civilians in Lower California

MADERO MAY BE EXECUTED

Decree of Orozco States President Will Be Killed If Captured.

(By Special Leased Wire to New Mexican)

El Centro, Calif., March 21.—Mexican federal authorities are taking steps to disarm all civilians along the international border throughout lower California, and Sonora, according to reports received here today. During the last few days officers from Sonora visited points along the border south of Yuma and in some instances confiscated weapons. American cowboys on the stock ranches of the California-Mexico Land and Cattle Company below Calexico, and Andrade came under the order against carrying firearms and it was reported officers of the company ordered their employees to conform strictly to the federal injunction.

It was in connection with an attempt to disarm Juan Felice at the Gallegos ranch on the lower Colorado river that the man was shot when he resisted the officers, it was stated. While the officers were at the Gallegos ranch, they arrested and sent to Sonora, it was stated, Epifanio Gallegos, charged with having shot and seriously injured Frank Willis, a prominent American, in a quarrel over cattle a year ago.

After Madero's Scalp.

San Antonio, Texas, March 21.—A decree by General Orozco, the rebel leader declaring President Madero subject to execution if captured, was brought here and published today by Melcher Canacho, special envoy of Orozco to Emilio Vasquez Gomez. Another decree warns Americans that contracts they make with the Madero government will be void if the present revolution triumphs. Both decrees are dated Chihuahua, March 13.

Mutineers Executed.

Mexico City, Mex., March 21.—Fourteen of the twenty-three members of the rural guard who mutinied last Tuesday at Tlalnequania, were shot today. The executions were carried out under the suspension of guarantees.

An Astute Governor.

Mexico City, Mex., March 21.—Zapalistas, 1,500 strong, under Jesus Morales, recently proclaimed governor of Pinalisco by Emiliano Zapata, have captured many small towns near the city of Puebla, and now are threatening Atlixco, where the citizens have armed themselves to repel the rebels. Eufonio Zapata is protecting the planters in making the sugar crop and punishing with death any interference with them or the burning of cane fields.

The state of Morelos is in comparative peace. The rebels at Lerda, state of Durango, are reported to have procured a great quantity of dynamite from a captured Mexican factory. The result of the expected clash between the federalists and General Salazar's force at Jiminez is awaited with the greatest concern.

20,000 Men Will Quit, Declares President of United Mine Workers

OPERATORS MAY RECONSIDER

Will Reconvene to Go Over Situation In View of Recent Developments.

(By Special Leased Wire to New Mexican)

Cleveland, Ohio, March 21.—Ten per cent increase in pay with a shortening of hours equal to another ten per cent was demanded by the miners today as the only basis upon which they will continue to work in the bituminous fields after April 1.

"Call it a strike or a suspension, the 20,000 miners, in the bituminous fields of western Pennsylvania, Ohio, Indiana, and Illinois, will not dig another lump after the first of the month of the present wage scale," said John P. White, president of the United Mine Workers of America.

Mr. White said the demand was in the nature of an ultimatum. Answering the miners demands, the operators declared under the present earning power of the mines they could not afford to grant the increase.

Operators Conciliatory.

New York, N. Y., March 21.—It became known today that the anthracite operators that recently met here and refused the miners demands for increased pay having reconsidered their decision to make the answer final and soon will reconvene to go over the situation. Whether this means that a compromise offer will be declared could not be learned.

DEATH LIST
EXCEEDS 100

Thirty-Nine Bodies Have Been Taken Out and More Are Located

TWENTY-FOUR RESCUED ALIVE

Estimates Place Number Still In Mine at Twenty-Nine to Fifty-Three

(By Special Leased Wire to New Mexican)

McCurain, Okla., March 21.—Up to this afternoon twenty-four men have been rescued alive from the San Bois mine which caved in yesterday after an explosion. Thirty-nine unrecognizable bodies have been taken out. Estimates place the number still in the mine at from 25 to 53.

McCurain, Okla., March 21.—Forty-two more workmen were rescued from the San Bois mine today. This makes a total of twenty-five miners brought forth alive from the workings that were wrecked yesterday by a blast. Fifteen corpses have been recovered. The number of men at work at the time of the explosion was between 82 and 110. The hope that three score or more men still languished in the San Bois mine were alive, was at low ebb this morning when the explosion of the workings wrecked in yesterday's explosion was resumed. During the night, fifteen bodies blackened and mutilated almost beyond recognition were recovered and additional bodies located. That the death list will exceed 100, now seems certain.

Gas Caused Explosion.

This morning, volunteers came from nearby mines and the rescue parties were more systematically organized under the direction of mining experts from the government station at McAlester. Before nightfall, it is expected that practically every recess in the mine will be penetrated.

The cause of the explosion has not been definitely determined. State Mine Inspector Boyle is of the opinion that gas was responsible. There was but little dust in the mine, he declared. An inspection of the property was planned for last Saturday but was deferred because the mine was not being worked last week.

Didn't Need Coffin.

McCurain, Okla., March 21.—The father of "Shy" Sussio, a miner and prize fighter, well known in the Southwest, made two coffins last night for "Shy's" two brothers. One of the was among the rescued alive today. The father, overjoyed, gave one of the coffins to the burial committee. The other he kept for possible use. "Shy" himself today brought out unaided, two corpses.

How Fourteen Were Saved.

McCurain, Okla., March 21.—Eleven of the fourteen of the men rescued today were able to come out unassisted but three were carried out by rescuers. When the explosion occurred the fourteen were near the South Thirteenth Entry. They made their way to the room, which is only eight by ten feet in size, where they found an air pump, about the top of which they crowded closely, changing positions frequently for the benefit of some weaker member of the party. They built a curtain at the entrance to exclude foul air and gas. The sound of tapping conveyed to the rescue party along the air pipe led to their discovery.

VOTE ON RECALL SOON IN ARIZONA.

Resolutions for Submission to Vote of People Introduced in Legislature.

(By Special Leased Wire to New Mexican)

Phoenix, Ariz., March 21.—Resolutions for the submission to a vote of the people of a constitutional amendment providing for the recall of the judiciary were scheduled to be introduced simultaneously today in both Houses of the state legislature. Senator Homer Wood of Yavapai county, one of the champions of the recall of judges in the constitutional convention, was to introduce the resolution in the upper House and Representative P. S. Wren of the same county was to perform a like duty in the lower House.

This clause as it stood on the constitution originally was photographed and reproductions of the original article before it was voted out as a condition necessary to the statehood, were attached to the resolutions. Resolutions of ratification of the income tax amendment to the federal constitution also were to be introduced today. It was predicted that both measures would be passed without debate.

ST. LOUIS BASEBALL FANS MUST WAIT.

(By Special Leased Wire to New Mexican)

St. Louis, Mo., March 21.—The opening game of the series of games between the St. Louis American league and National League teams which was scheduled for Saturday, was postponed today until March 30 because of cold weather and the frozen baseball grounds.

COMFORTING WORDS.

Many a Santa Fe Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Santa Fe readers.

Pasquale Yanni, College St., Santa Fe, N. Mex., says: "In 1902 I gave a public testimonial in praise of Doan's Kidney Pills to the effect that they had cured me of a pain in my back, caused by disordered kidneys. My work obliges me to sit down a good deal and this weakened my kidneys, causing backache. While at work I suffered more intensely than at any other time and I was very anxious to find a remedy that would relieve me. Learning of Doan's Kidney Pills, I procured a box and to my delight, they soon fixed me up in good shape. I have since had no need of kidney medicine."

PRAYER BEFORE PLANTING TREES.

Lord, we are setting in this chosen ground
These tender nurslings, trusting in thy grace
To cherish them through infancy, to guide
Their tiny rootlets through the darksome earth,
To lift their boughs to heaven, and give them power
To yield their tribute unto grateful men
In fruit or flower or shade. For who but thou,
And thou alone, O God, amidst the gloom
Of never-ending night beneath the sod,
Can weave the net-work of those fragile roots,
And make their long antennae feel the way
To nooks of moisture and fertility? And who but thou can pilot up the stem
The warm sweet sap, like green blood making glad
The veins of the utmost little twig? The who but thou, O Lord, in mystic wise,
With alchemy divine, can from the earth,
This sordid earth, extract pure essences
To paint the cheeks of blossoms, scent their breath,
To swell the fruits with lusciousness, and make
The leafy boughs one mass of heavenly green,
Haunts for the song-birds, cool retreats for men?
Yea, all these powers are thine. But on this day
In lowly imitation of thine own Parental care, we plant these infant trees
To be a blessing in the far-off years
Unto our children and our children's children,
When we ourselves shall tread the earth no more.
Unselfish in thy bounty, thou hast strewn
Blessings around us, though partaking not
Thyself of that abundance which thy hand
Alone created. In the by-gone years,
To please us thou hast reared thy goodly trees,
Glowing with fruitage, spreading green with shade,
Or clustered with delightful odorous blooms.
Shall we thy largess take with selfish ease,
And not in some small way, though feeble, seek
To emulate thy goodness, and bequeath
Unto succeeding generations, gifts we never can share ourselves? O God of Love,
Make us unselfish in this task: our hearts
Uplift, and move our hands to speed with joy
In this, our labor, whereby we shall seek
To bless the lives of others yet to come,
When we ourselves have mingled with the dust

FILLING IN AND LEVELING DEMING PARK.

Turbine Pump Installed That Will Lift Water for Irrigation—Pergola to Be Erected.

Deming, N. M., March 21.—The work of filling in and leveling the park at the union station was completed today. It required 3300 yards of dirt to make the fill. Superintendent Dyer of the S. P. is co-operating with the local park committee, and Mr. Dyer is here today inspecting the work. The surface has been perfectly leveled and graded so that the work of conducting the water to various parts of it will be a simple matter. The crushed granite which was filled in by the railroad company some years ago at the end of Silver Avenue has been plowed up and removed and the space refilled with soil, so that shrubbery and lawns will have better opportunity to grow. A contract will be made with a well uriller as soon as one is available for the putting down of the irrigation well. The General Electric Company has donated a motor for operating this plant, and the American Well Works has given the city one of their magnificent 800-gallon capacity turbine pumps. The Deming Ice and Electric Company will furnish the current to operate this plant free of charge. As soon as the park is installed, the S. P. company undertake its maintenance. The plant will be enclosed in a small house the sides of which will be plate glass, which will give a perfect view of its operation. There will be a vacuum gauge put on the pump to show the "draw-down," a watt-meter to show just the amount of current being used, and a weir for accurately measuring the discharge. No expense will be spared in making this an ideal pumping plant. A pergola will be erected over the motorhouse to support vines which will be planted around the well.

AMERICAN CAN SOLD ABOVE PAR TODAY.

Stock Market Opened Higher This Morning, Hesitated, But Closed Steady.

(By Special Lease Wire to New Mexican)
New York, March 21.—Reading, Union Pacific, Lehigh Valley, Amalgamated Copper, American Smelting and few specialties rose in the market today. Smelting's rise was in response to the company's favorable report for 1911 and the strength of the coppers probably resulted from the tone of the European copper market. American Can and American Sugar were the features of the special class. American Can preferred selling beyond par for the first time in its history. The average of prices in the active group this morning constituted the highest level since last November. Traders who feared that a reaction was long over-due, sold freely and prices reacted one-half to a point. The Hill and Harriman stocks showed distinct heaviness. Trading became dull on the decline. American Smelting was purchased heavily and touched 80.28 on the announcement of another advance in the price of lead. Special stocks were pushed up energetically, including Lehigh Valley, which reached 166.

The market closed steady. Stocks poured out steadily under cover of the bulge in Lehigh Valley to 167. Eventually Lehigh Valley itself also broke ground, reacting over a point. Elsewhere most of the day's improvement was cancelled. Great Northern preferred, Northern Pacific, and Union Pacific sold a point below yesterday's

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is usually a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. PROBING INTO BRIBERY CHARGE

First Witness on Stand Yesterday Afternoon Before Committee

OFFICER SENA'S TESTIMONY

Defense Alleges That Conspiracy Existed to Oust Accused Men.

Mounted Policeman Apolonio A. Sena made a good witness on the stand yesterday afternoon before the House investigating committee that is probing the bribery charges against the four accused members of the House, Representatives Lucero, Trujillo, Cordova and Montoya.

Attorney Wright at the same time, made a good impression upon the auditors, with his calmness, judicial poise, his fairness, and yet, watchfulness.

The members of the committee gave every indication of sincerity and earnestness. It was evident that the accused would have the square deal, that every doubt would be resolved in their favor and that the bare facts and not prejudice are the standards by which they will be judged.

The only witness on the stand yesterday afternoon was Mounted Policeman Apolonio A. Sena and his testimony summed up chronologically as reported in yesterday afternoon's New Mexican, was as follows:

A. A. Sena's Story.

I am not well acquainted with the four defendants; in fact, Luis R. Montoya is the only one I have spoken to more casually and I have known him only the past few days. I came to the Capital as a delegate to the Republican State convention and remained over to await the return of Captain Forno of the Mounted Police and to hold myself in readiness for any service that might be entrusted to me, it being also intimated to me that I might be needed in connection with any matters of corruption that might turn up in the legislature. A few days ago, I had a conversation with Luis R. Montoya, one of the defendants, in which casually, the subject of the Senatorships came up. I told him that he had better take care, that there were rumors that a certain candidate would be buying up legislators, that it does not look well for the defendant to take supper or breakfast at that candidate's house. Montoya replied that the candidate in question had never mentioned the Senatorship, and that he, Montoya, had not been offered any bribe, much less accepted one. On Monday evening, March 18, I was going to the moving picture show when accosted by Jose D. Sena who told me that I was wanted by Elfege Baca and would be needed to make some arrests at the Palace hotel. I did not know what it was about or what the plan was but went to the Palace hotel where I met Elfege Baca, Venceslao Jaramillo, Charles Springer, and went to one of the rooms with Elfege Baca who explained to me the purpose of the plan and arranged with me that when he clapped his hands to step out of a bathroom that connected the room in which we were, with room 14, in which the defendants were arrested later. With Jose D. Sena and Venceslao Jaramillo I hid in the bathroom, the door to room 14 being partially open. I overheard the conversation but was able to distinguish only the voice of Elfege Baca who spoke more loudly so that I might understand. But I heard the four accused offer to vote for any man, Elfege Baca might designate, but refused to make an agreement to vote for two candidates that Baca might ask them to vote for. Mr. Baca then handed over the money and clipped his hands, and I stepped into the room, and demanded the defendants to deliver the money to me. I had no gun in my hand but a gun was in my pocket and the hint, probably, was visible. One defendant said he did not have the money. I told him to get up from the bed on which he was sitting and found the money under the cover beneath the spot on which he had been sitting. Lucero emptied his pockets but later we learned that a twenty dollar gold piece was missing. It was finally found in Lucero's vest pocket and he explained it by saying that he had been so scared when I stepped into the room, that with the money in his hands he reached for the pocket in which he was accustomed to carry a little toy pistol. All four men appeared to be penitent. Lucero asked the pardon of State Chairman Venceslao Jaramillo and offered to let Jaramillo cut out his heart if Jaramillo desired. Another defendant ascribed his predicament to bad luck, another to ignorance, and the fourth did not quite

know why he had committed this thing. All four were taken to jail without formal charges being preferred or a commitment or warrant being issued, and were kept in jail two nights and a day under no other legal pretext except that they had been caught committing a felony.

Attorneys B. M. Read and George W. Pritchard for the defense conducted the cross-examination skillfully, but Sena was not shaken as to any item of his testimony. He made a number of indirect admissions, however, that might be construed to point to the existence of a conspiracy to get the defendants out of the legislature, not because they are corruptible, but because they could not be shaken in their determination to vote for a certain senatorial candidate, although the witness apparently knew nothing of such a conspiracy. He explained that two minutes after he had made the arrest, State Chairman Venceslao Jaramillo had the resignations ready for the four accused to sign, although witness Sena did not know whether they were written in long hand or on a typewriter. He also told how Chairman Jaramillo upbraided the accused and rebuked them for bringing this disgrace upon the Spanish-American people and the Republican party. In reply to a question whether the man who gives a bribe is as guilty as the man who accepts it, witness Sena replied yes, but that he did not arrest Elfege Baca because the latter was aiding the law officers to apprehend criminals. He hesitated when asked whether he would have arrested Baca, if the defendants had declared that they were aiding the law officers to apprehend a bribe giver.

Representative Lovell then went into the question of the duty of the Mounted Police and the committee seemed rather surprised to be informed that at least one mounted policeman had been detailed as guardian of the legislative honor and was kept in Santa Fe to prevent the legislature from being corrupted.

The redirect examination by Attorney Wright was brief. After Representative J. W. Mullens made a brief but forceful plea to the committee not to drag in the name of any senatorial candidate who had no connection with the matter under investigation. The committee agreed with him, and adjournment was taken until this afternoon, when the defendants will put in their answer which will allege a conspiracy to deprive them of their seats in the House, and will include a denial of the charges that they solicited or accepted a bribe. All four men furnished the \$2,000 bail, fixed by Judge David J. Leahy last evening and were set at liberty.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the State, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THE RIGHT OF THE PEOPLE TO RULE.

That is the catchy phrase under which Theodore Roosevelt last evening delivered an address under the auspices of the Civic Forum. Roosevelt has the editorial ability of selecting a catchy phrase to head his speeches or his articles, a phrase that the intellectuals would call a "bromide" but which appeals to the common people because of its triteness, and because it is something that every one will accept just as a mathematician will accept a corollary. No one is disputing the right of the people to rule and therefore Colonel Roosevelt is on perfectly safe ground in making that his rallying cry.

Colonel Roosevelt in his speech defends the referendum and the initiative. That is hardly a heroic attitude at this late date. Those men who fifty years ago advocated those principles possessed a sublime courage of convictions, but today, when practically every one accept the initiative and referendum in theory, if not in practice, it takes no grit to stand at the street corners and proclaim them. New Mexico has had some form of the initiative and referendum for half a century. The only question is how far to extend the principle, and whether it is wise to apply it to every condition, to every legislative proposition.

There is no clarion call in this address, there is no new proposition to solve present industrial difficulties. Its most characteristic phrase is "I am not leading this fight as a matter of aesthetic pleasure. I am leading because somebody must lead, or else the fight would not be made at all."

Ah, how fortunate to be born to God-ordained leadership. The divine right of kings is nothing compared with it. "Unless I am the leader through the Red Sea the entire nation will perish in the thralldom of the Pharaohs." Colossal egotism, imperishable gall.

"Roosevelt," says a writer in an eastern periodical, "has shown insurgeny to be a movement without creed, philosophy or programme, expressing nothing but uneasiness, inarticulate, unrefined by itself. It is a movement that must fall to pieces at the first real shock."

The advocates of the insurgent call are gifted in the coining of deceptive phrases with which they seek to beguile the unthinking. They sound the hewag, sing the Marseillaise and dance the Carmagnole up and down the land. They assert robustly that the issue is between the progressives and the standpaters, between the people and the wicked interests, between popular rights and special privilege, between oppressed labor and loathsome capitalism. Pinchot, before he flopped, declared that the contest was between Taft and reaction and La Follette and progress. He asserted that he was for humanity against property and that "insurgency was identified with the destiny of mankind."

Insurgency is not allied to destiny. It has degenerated into the merest scuffle for office, and its principles are an incoherent and unassimilable jumble. La Follette is for the enforcement of the Sherman act. Roosevelt wants to have it repealed. Roosevelt is for popular reversal of supreme court decisions on constitutional questions. La Follette favors amendment of constitutions, but not their destruction. Iniquity, denouncing, announcing and "a charter of spite and pique and demagoguery," is the menu which insurgency offers to the public taste.

The initiative, the referendum, the recall, the direct primary and other theories of government have been grafted into our laws. Many stalwart Republicans voted for these measures. Nobody now proposes to remove them from the land. But because they are being adopted it does not in the least follow that those who favored them are entitled to make political pariahs of those who opposed them, or to exclude from participation in public affairs those who are indisposed to cry hosanna to their loud-voiced advocates.

Republicans of the Old Guard are not necessarily well stricken in years. They may have been born after the Republican party had accomplished its task of preserving the Union, destroying slavery and lifting the South from desolation into prosperity. They may be young women and men, with hope in their hearts and the sunshine in their faces, are climbing the uplands of life. But they comprehend and believe in the principles of the party of Lincoln, and Seward, and Sumner. They consider that the policy of protection to the industries of the nation, through the continued op-

eration of wise tariff laws, may better be trusted to the party which for half a century has favored protection, than to the insurgents who ally themselves with Democrats—as in the case of the sugar schedule—to defeat it. They are mindful of the fact that President Taft has enforced the Sherman law with which his predecessor tampered, that with every question of foreign or domestic policy with which it became his duty to deal he has dealt wisely and successfully, that his renomination and re-election will be to the interest of all the people, and that Roosevelt's insurgency, with its center of unwise zealots, its circumference of unscrupulous plunderers, its disregard of stalwart principles, and its moral mauling of platitudes and phrases, has no permanent place and can achieve no permanent place in the politics of the nation.

NEW RULES FOR THE GAME.

Righteous indignation and anger are the keystones of the expressions of the New Mexican's exchanges in speaking of the bribery accusations against four members of the House. Regret and pity dominate others who are a little closer to the situation than the newspapers at some distance. The remark of Attorney Wright yesterday afternoon when he summed up the warning given one of the men before he entered the alleged trap, comes nearest summing up the situation: "The game is not being played under the old rules."

It seems like an admission, that heretofore "the old rules of the political game" were generally accepted at Santa Fe, as they have been accepted in too many other Capitals. It is not a question of race or of party, but of human nature, of low civic ideals, of partisanship that says: "My party right or wrong, always my party." Even the funny papers, that in their bells and caps give coinage to many a true saying, are always poking fun at legislators, taking it for granted that the average law-maker is out for personal profit whether it be for official emoluments, for prestige, for party advantage or for the gold and silver. It is no wonder, that men should come to Santa Fe with the idea that here is their opportunity to make a good, if not an honest dollar. This does not extenuate the crime nor the fault, yet those who have been engaged in the game under the old rule should be very careful as to the stones that they hurl at the poor devils who are caught in a new net. No wonder a veteran legislator said only recently: "These men, if guilty, should be punished to the full extent of the law, but more because of the example that will mark the turning of a new leaf in legislative history, than because of their personal culpability. I have no patience with the simulated sanctimoniousness of those who now hold up their hands in holy horror, who sweep their skirts aside so that they might not touch the accused legislators, and who nevertheless have been playing the game under the old rules for the past twenty-five or thirty years."

After all, the effect of the entire episode is bound to be wholesome eventually, if for no other reason than to clarify the atmosphere and to make doubly certain that the game can no longer be played in Santa Fe under the old rules.

DEADLOCK SHOULD BE BROKEN NOW.

Next week two United States Senators from Arizona will be on their way to Washington, D. C. Both will be out and out Democrats of the most radical kind. According to the rules of the political game, two stalwart Republican Senators should be at the National Capital to offset their vote on the tariff schedules and other important legislation. It is up to the Republicans of the legislature to see to it that the Senatorial deadlock is broken at once. The most reasonable way to get together, it seems, is to hold a caucus and there freely discuss and eventually decide whom the Republicans will vote for to represent them in the Senate. The personality of these two men is important, and still more important that they can be depended upon to carry out the wishes of the Republican voters and that they will stand steadfast whenever Republican principles are at stake. Every member of the legislature has had his chance to vote for a favorite son of his section, or a favorite friend, but now is the time to yield to the wishes of the majority and help select the very best men, irrespective of geographical or other considerations except that they be fit men personally and that they are true Republicans.

THE SOLUTION.

It will take at least \$100,000 additional revenue to give every school district of New Mexico a five months term of school, as the constitution demands. There is an alternative and that is the adoption of the county unit system, which will mean not only economy but efficiency; which will mean that every poor Spanish-American boy and girl, in the remotest districts, may have within his reach, a grammar and high school education as good as that given the wealthiest Anglo-Saxon boy and girl in the largest city of the United States. The boy or girl graduating from the rural high school has an equal chance to secure the good things of life with the city high school graduate, but the boy or girl who goes to the old poverty stricken district primary school has not. There is no more pressing problem facing the people of New Mexico, and especially the Spanish-Americans today, and there can be no clearer and more direct solution offered than the county unit school system. Are the legislators mere politicians or patriots; are they here to preserve a thousand little school districts with their 2,000 rural school directors, or are they here to give the people the very best legislation that wisdom dictates?

The Bribery Investigation. Chairman M. C. de Baca presided at the third session this afternoon of the House committee investigating the bribery charges against Representatives Lucero, Montoya, Cordova and Trujillo. The hall was crowded with spectators.

Attorney George W. Prichard, for the defense read the answer of the defendants to the charges, as follows:

In the matter of the charges against Manuel Cordova, J. P. Lucero, Luis R. Montoya and Julian Trujillo, members of the First Legislature of the State of New Mexico before the Investigating Committee of the House to consider said charges.

Now come the said Manuel Cordova, J. P. Lucero, Luis R. Montoya and Julian Trujillo, and for answer to the several charges made against them in the complain herein, deny each and every material allegation thereof.

And for further answer herein they say that on the 18th of March 1912, without any pre-arrangement on their part, they were at the Palace Hotel in the city of Santa Fe, that their meeting at said place was purely accidental, that two of the accused, namely, J. P. Lucero and Julian Trujillo before going to said hotel, had been at the office of the Speaker of the House of Representatives to attend a caucus, that finding but few people present at said office, they left the same to seek other members of the legislature, to bring them to said caucus; that while the accused were at said hotel, one Elfigo Baca approached them, and said to the accused that he desired to speak with them, and then there invited them to go to a room upstairs with him; that the accused not knowing the business of said Baca, complied with his request and accompanied him to room 41 in said hotel.

That on their way to said room there was no intimidation by the said Baca as to his business with the accused. That when they entered said room no one was there, that after they entered, the said Baca inquired of the accused as to whether they intended to vote for a certain candidate for U. S. Senator, to which two of the accused made the reply that they expected to vote for said candidate, as they had come to Santa Fe with that intention.

The said Baca also requested the accused to cast their votes for any one he might name for U. S. Senators, to which request none of the accused agreed, that thereupon the said Baca said that he had money in his pocket, and did not know what to do with said money.

The accused aver that they made no promise to the said Baca that they would vote for any particular candidate for U. S. Senator, nor did they receive from the said Baca any money to vote for any particular candidate, nor did they agree to vote for any candidate that the said Baca might name, although the said Baca was very solicitous that they should "so promise, and then there to the surprise of the accused draw from his pocket a certain amount of money and exhibited the same to the accused and placed the same on a table in said room and began to count the same, and to divide said money in four equal parts and insisted that the accused, and each of them should receive said money which the accused aver they did not receive.

That after the said Baca was through counting said money, and had been talking in a loud voice, insisting upon the accused voting for the U. S. Senator or Senators that he might direct and instruct them to vote for, he the said Baca made a signal by clapping his hands, and there upon several other parties entered said room and these accused were then and there arrested by one A. A. Sena, a member of the mounted police of this state.

The accused charge that their arrest under the circumstances above set forth was the result of a combination

"DOPER," SAYS DOCTOR WILEY

Arouses Anger of Drug Representatives at Pure Food Board Meeting

"MANUFACTURERS OF POISON"

Thus Designates Opium Sellers and Adds to Unpopularity in Certain Quarters.

(By Special Leased Wire to New Mexican) Washington, D. C., March 21.—Dr. Harvey Wiley, appearing as a private citizen before the Pure Food Board in an advocacy of a regulation guarding very strictly the use and sale of opium, morphine, cocaine, and other habit-forming drugs, aroused the anger of drug representatives by referring to them as "dopers." A heated argument ensued and for a moment it looked as if blows might be passed. Dr. Wiley finally consented to withdraw the term "dopers," but said he would insist on calling them "manufacturers of poison."

"For that," he added, "is what you yourselves are willing to have called these drugs and preparations containing them."

and conspiracy that had been existing against them for some days prior thereto, to prevent them from exercising the right of voting for a candidate or candidates of their choice, for U. S. Senators, that several of the parties in said combination and conspiracy to injure the accused were present when the accused were arrested as aforesaid, and some of said parties were themselves candidates for U. S. Senators, and had solicited the votes of the accused for said office, with but one exception.

The accused aver that they were not favorable to the election of either one of said candidates as U. S. Senator, and they charge that had they been favorable to the election of them, no complaint would have been made against the accused. That at the time of said arrest they were charged by one of said candidates, as being friendly to another candidate for U. S. Senator, and were also charged with receiving money from said candidate under a promise from them that they would vote for said candidate, which charge the accused deny, and there denies, and still denies.

The accused deny that they have promised any candidate for U. S. Senator at any time, to vote for him, for any money consideration, or other consideration of value, since they were elected members of the House of Representatives.

The accused further aver that they were on the night of March 18th, 1912, placed under arrest by the said A. A. Sena, a member of the mounted police of this state, and while they were under said arrest and were in great fear of bodily injury being done to them, they were forced by the parties present, some of whom were candidates for U. S. Senators as aforesaid, to sign resignations of their membership to said House of Representatives, which resignations in furtherance of the conspiracy of aforesaid against them had been prepared before the circumstances above referred to occurred, and before said arrest was made. That after they were forced to sign said resignations as aforesaid, they were delivered by the said mounted police to the jailer of the county of Santa Fe, and were by said jailer incarcerated in the common jail of said county, and there imprisoned, detained and confined for two days without any charge being preferred against them in the courts of this state, and were denied the privilege of attending the sessions of the House of Representatives of this state, to discharge their duties as members of said House during the whole of said time.

That while the accused were so illegally incarcerated in said jail as aforesaid the said jailer without warrant or authority of law, and in an illegal manner refused to deliver the accused to the sergeant of arms of the present House of Representatives, after said Sergeant of Arms had applied to said jailer, at said jail and demanded of said jailer the delivery of the accused under the order and direction of said House of Representatives, and the said jailer continued to incarcerate the accused in said jail for more than eighteen hours after said demand was made by said Sergeant of Arms under the authority aforesaid, and in violation of the constitution of the United States and the constitution and laws of this state.

The accused therefore ask this committee to thoroughly investigate all of the matters and things above alleged and set forth, and to particularly investigate the charge of the existence of a combination and the conspiracy for the purpose of making charges against these accused, and to investigate the right of the said above named parties, and the said mounted police and the jailer of said county to arrest, imprison and detain the accused in the county jail and deprive them of their rights to their seats in said House of Representatives, under the constitution of the United States, and the constitution and laws of this state, and to take such action in the premises as the honor the dignity and the independence of the House of Representatives of this state demand, and that the accused be acquitted of any wrong doing in the premises.

The answer was sworn to by the four defendants. Elfigo Baca was then sworn and

JOHN BULL IS FRIGHTENED

Labor Situation Causes Grave Concern Among English Legislators

HUNGER MARCHES ORGANIZED

Statesmen of United Kingdom Declare Country Faces Greatest Crisis.

(By Special Leased Wire to New Mexican) London, March 21.—The gravity of Great Britain's national peril arising from the labor strike, which Arthur J. Balfour, the Unionist statesman, characterized as passing in magnitude anything that this country had heretofore experienced, was reflected in the tense atmosphere of the House of Commons today when the minimum wage bill came up for second reading. The House had not been so crowded for years. Every gallery was packed.

Premier Asquith formally moved the second reading of the bill and then yielded the floor to Mr. Balfour, who moved its rejection.

"The country," said Mr. Balfour, "has never before been faced with a crisis such as this. We are witnessing the new, strange and portentous spectacle of a single organization, acting within its legal powers, threatening to paralyze the whole trade of the country."

Mr. Balfour said he recognized the earnestness of Premier Asquith's efforts, but declared:

"There never has been a graver case of the government deceiving itself and deceiving the House of Commons."

Hunger Marches.

It is thought that unless something is done quickly to bring the crisis to an end "hunger marches" such as that which took place last night in the fishing town of Grimsby, when 300 starving men marched to the town hall and begged for relief will become a common sight all over the country.

In towns of the kingdom, people are awaiting the action of the House of Commons tonight. Trouble will begin, however, when the bill reaches the committee stage at which period the members of the labor party will propose the amendments on whose adoption they insist. There is another danger. The Unionists under the leadership of Mr. Balfour have condemned the principle of the minimum wage bill, the House of Lords possibly will take the same stand and refuse to consent to its passage.

gave a clear, detailed story of the happenings of Saturday, March 16, when, he alleged, the four defendants called on Judge A. B. Fall at the Palace hotel. One of the defendants, he alleged, asked directly for money; that the defendants complained that their election cost them money and that they should be reimbursed for their outlay; that Lucero proposed that the four defendants would be willing to vote once for Baca's candidate for \$500; that a second defendant proposed that they would vote twice for that sum and would stay with the candidate to the end for \$5,000 for the bunch.

When Baca rebuked them and told them that a Senator gets only \$7,500 a year and his living expenses are high, Lucero replied that Senators made \$50,000 at a whack, on such matters as the sugar question, for instance.

Baca again pointed out to defendants their disgrace and the penalty, and said he would inform National Committeeman Solomon Luna who had left town however. Baca then asked H. O. Bursum for advice, and the latter suggested that one of the men be arrested and be made an example of.

On Monday, two of the defendants, at the Palace hotel, told Baca that some one else would give them the money if he would not talk business. Mr. Baca then went up to a room where Solomon Luna, Charles Springer, Jose D. Sena, Venecio Jaramillo and Charles A. Spiess asked Baca for an affidavit that it might be presented to the House and the four members be expelled. Mr. Jaramillo said: "I helped to elect these two men, but something must be done to stop this sort of a thing, even if it does hurt the Spanish-Americans." Mr. Luna and the others were of the same mind and a plan was laid to catch the men and the details were arranged accordingly and carried out as already related by Witness A. A. Sena yesterday afternoon.

The name of another senatorial candidate was brought into the testimony indirectly by Mr. Baca's testimony.

Mr. Baca was then questioned by member of the committee. Mr. Wright stated that the blank resignations had been prepared beforehand.

Mr. Baca said that there was no display of weapons of any kind. Attorney Prichard then cross-examined Baca. Mr. Baca was not shaken in his testimony. There were brilliant clashes, keen passages of words, occasional sarcasm and wit followed by gusts of laughter at some particularly brilliant or humorous parry.

Republican State Chairman Venecio Jaramillo was sworn as a witness after Elfigo Baca, the prosecuting witness had been concluded. He related that after hearing of the report that the four defendants had solicited a bribe, he called a meeting of the Republican Executive Committee to discuss the report. Mr. Jaramillo was being examined as the New Mexican went to press.

BIG DIVIDENDS FOR STANDARD OIL STOCK. (By Special Leased Wire to New Mexican) New York, March 21.—The Standard Oil Company of Indiana today de-

clared a stock dividend of 2,900 per cent, payable to stock of record, April 1. This action follows a recent increase in company's capital stock from \$1,000,000 to \$30,000,000, the additional \$29,000,000 being given to shareholders as a stock dividend.

INDIANA DEMOCRACY
DECLARES FOR MARSHALL.

(By Special Leased Wire to New Mexican)

Indianapolis, Ind., March 21.—The thirty delegates from Indiana to the Democratic national convention were instructed in the platform adopted by the state convention today to present to that body the name of Governor Thomas R. Marshall, as "the first and only choice of the Democracy of Indiana for the nomination of president."

The convention chose as delegates at large to the national convention Senators John W. Kern, and Benjamin G. Shively, National Committeeman Thomas Taggart, and G. V. Menzies.

Governor Marshall, who called the convention to order as temporary chairman, was cheered when he concluded his address. Senator Kern was permanent chairman.

Samuel M. Ralston of Lebanon, was nominated for governor by acclamation. The platform condemns the protective tariff and lauds the national House for passing the Sherwood pension bill.

IRISH HOME RULE
HAS NOT BEEN DRAFTED.

(By Special Leased Wire to New Mexican)

London, March 21.—That the home rule bill has not been drafted is evident from the fact that the Irish leaders were called into consultation with the cabinet concerning the details. The meeting was secret.

It later leaked out that John Redmond and T. P. O'Connor had spent two and one-half hours in Premier Asquith's official residence in debating with the premier, Augustine Birrell, the Irish Secretary and other members of the cabinet over the financial provisions. The difficulties are understood still to be unsolved.

HAVE YOUR WATCH CLEANED OCCASIONALLY

A WATCH will run without oil or cleaning longer than any other piece of machinery—but it needs both occasionally.

If you will consider that the rim of the balance wheel travels over fifteen miles a day, you will not grudge your watch a speck of oil and a cleaning once a year. It will increase the life and accuracy of your watch. Leave your watch with us today.

PACKERS ARE INNOCENT OF ALL WRONG.

According to Attorney for Meat Men There is and Cannot Be Monopoly.

(By Special Leased Wire to New Mexican)

Chicago, Ill., March 21.—The instructions of the court to the jury in the packers trial have been prepared ready to be given to the jury at the close of special government counsel Butler's final argument tomorrow.

"The evidence in this case does not come within ten miles of proving any offense or crime," said Mr. Borders, representing the Morris group today.

"All the government has in this case is a theory. It has no proof, no facts. The evidence shows these defendants are in daily competition with 26,000 packers in this country. There is no monopoly. The business is of such character that no set of men can control it. There is no combination. There has been no injury to the public."

Authorities to act upon them, may cause great delay and much labor in the re-writing of tax rolls.

The valuations fixed by the territorial board in January should never have been sent out, but owing to a misunderstanding, those valuations have been printed upon tax schedules sent to each county. Copies of the proceedings of the state board have been sent to all counties and should be considered as the only authoritative action of any board of equaliza-

Danderine
Makes your hair grow long, heavy and luxuriant and we can prove it

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

Hair Becomes Soft, Fluffy, Lustrous and Abundant After a Danderine Hair Cleanse

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

Immediately after applying a little Danderine all dandruff will disappear, all itching of the scalp will cease and there will be no more loose or falling hair.

If you wish to double the beauty of your hair in ten minutes, surely try this—moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil. In a few moments your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

If you care for beautiful, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter—A real surprise awaits you.
