NUMBER 377

## LIEN HELD ON BANK ASSETS

### Government Secures Loans Made National Banks.

#### MORGAN SPEAKING ON STATEHOOD

##### Department of Commerce Bill Passed--The Venezuelan Matters.

Washington, Feb. 11.—Upon the conclusion of the morning business in the senate today a house bill was passed extending the homestead laws to Alaska.

The statehood bill then was taken up and Mr. Morgan resumed his remarks in its favor.

The senate committee on finance today authorized a favorable report on the bill recently introduced by Senator Aldrich to permit the secretary of the treasury to loan money to national banks on other securities than government bonds and agreed to report it with the following amendment to section 1:

"The United States shall have a lien on all assets of banks in which public moneys are deposited from the time of deposit, for the repayment of the same on demand of the treasurer of the United States; but the securities deposited with the secretary of the treasury for the safe keeping of such moneys shall be sold before the said lien is enforced and the proceeds applied to the discharge of said lien to the extent of the proceeds of the sale."

The bill also was so amended as to make the securities of cities of 50,000 people good for loans.

The senate has agreed to the conference of the department of commerce bill. This passes the bill, the report having previously been agreed to in the house.

Taking up the subject of Mormon influence in politics, Mr. Morgan referred to the election of Mr. Smoot as senator from Utah and said he would never think of opposing his entry to the senate because he was an apostle of the Mormon church, because religion in this country by the constitution is intended to be free and uninterrupted and to be protected. Reverting to the treaty with Colombia for the construction of an isthmian canal, Mr. Morgan said the United States intended to put the heel of ignominious contempt on the organic law of Colombia with respect to religious freedom and trample it under foot. "When we are treating with those people," he said, "with the intent and purpose of destroying that law or else for the purpose and under such circumstances as to disgrace the United States." He asked who was to reconcile the two propositions when the Colombians contend for their organic religious law while the United States is contending for the constitution of the United States, and who would prevent a return to hostilities now apparently closed between the all-church party who maintained these dogmas, and the liberal party who have been fighting them in every country.

Morgan said the people of the United States are not going to listen to arguments against Mormonism in Utah and Arizona when we are striving every power for action upon a treaty with Colombia having such an organic religious law as he had referred to.

Mr. Depew followed in opposition to the omnibus statehood bill. After speaking a short while, Mr. Depew yielded to Mr. Hanna, who called up the conference report on the department of commerce bill presented yesterday, and it was agreed to. This passes the bill and it now goes to the president.

#### THE NATIONAL HOUSE.

Domestic Animals on Free List—Cotton Statistics to Be Reported.

Washington, Feb. 11.—Gov. Odell, of New York, was on the floor when the house met today.

Mr. Grosvenor, from the ways and means committee, called up the bill reported by that committee yesterday, to amend the Dingley act so as to admit free of duty domestic animals for breeding purposes.

The further consideration of the civil sundry appropriation bill was then resumed.

The house committee on ways and means today authorized a favorable report on the bill introduced by Representative Burleson, of Texas, providing for the collection of cotton statistics, but amended it so as to have the

collection made by the census bureau instead of the agricultural department, and further by striking out the provision for gathering wheat statistics. A tax of one mill on each bale of cotton is provided to defray the expense of gathering the information. The bill requires all persons or concerns owning or operating cotton gins to report to the director of the census at such times as he may direct the number of bales ginned during a prescribed period. It is contemplated by the bill that information will be furnished with such frequency as to show the amount of cotton that is being produced.

#### BRITISH PROTOCOL.

It is Satisfactory, But There is a Hitch in the Germany Papers.

Washington, Feb. 11.—Having reached an agreement with the British government for the settlement of the Venezuelan claims, Mr. Bowen today is endeavoring to close up the negotiations with Germany and Italy.

A misunderstanding which has arisen in the German foreign office undoubtedly is at the bottom of the delay. Evidently it was supposed that the preliminary articles of the protocol as prepared here before the advent of Baron Von Sternburg, provided for the prompt payment of the full sum claimed in the original ultimatum, namely, \$350,000, the only difference between the first and last propositions being that in place of a clear cash payment of the sum above named, as required by the ultimatum, the protocol would require the immediate payment of \$27,500 for personal claims and then provide for the application of 30 per cent of customs revenues at Port Caballo and La Guayra until the remainder of the \$40,000 was paid.

Mr. Bowen was unable to see any difference between such a demand and a straight demand for preferential treatment, for he argued that after paying the allies on this basis, there would be nothing left for the other and non-coercing powers.

#### Another Delay.

London, Feb. 11.—Minister Bowen's formal acceptance of the British protocol is not believed to be likely to hasten to any great extent the conclusion of the Venezuelan negotiations. The Associated Press is informed that the allies' ambassadors have been strictly enjoined not to sign any protocols until all three powers are satisfied with the terms, when these signatures will be simultaneous.

#### A GOOD START.

Kansas Favors the Election of United States Senators by Direct Vote.

Topeka, Feb. 11.—The senate adopted today Stewart's resolution asking congress to call a constitutional convention for the purpose of amending the constitution so that the United States senators may be elected by direct vote of the people.

#### AT THE HALLORAN HOME.

Miss Etta Halloran Entertains Her Many Friends.

The home of Mr. and Mrs. Ralph Halloran, 523 Keeler avenue, was a scene of much merry making last night.

The occasion was a prettily arranged card party given by their daughter, Miss Etta.

The spacious parlors of the Halloran home were brilliantly lighted and set with decorations befitting.

The pastime was the fascinating game of euchre, played six handed. The prizes were costly and worth winning. Those fortunate enough to secure prizes were: Mrs. O. N. Marron, Miss Essie Price, of Socorro; and F. H. Newman.

Mrs. Mabel Stevens-Himoe and Miss Mary Menaul, musicians whose accomplishments are well known, gave piano solos.

The refreshments were served at the card tables and were most delicious. The guests were: Messrs. and Mesdames O. N. Marron, W. J. Johnson, Walter Connell, Mrs. Himoe, Misses

Alma and Jettie Rosenwald, Stella Lewinson, Essie and Lena Price, Socorro; Euphemia Nelson, Francis Butts, Irma Tascher, Mary Menaul, Maude and Ida Summers, Mabel Fitch, Carrie Titus, Edith Stevens, Mabel Hunt, Irene and Louise Saint, Jeanette Walton, Messrs. R. A. Frost, Louis Brooks, Fred Newman, Charlie White, Louis Huning, Duncan Bell, Melville Summers, Ralph Hunt, W. N. Jaffa, Sam Picard, David Rosenwald, E. J. Alger, Sidney Rosenwald, A. Staab.

#### Appointments Confirmed.

Denver, Colo., Feb. 11.—In the executive session today, the senate confirmed the appointments of the board of trustees for the school for deaf and blind, trustees for school of mines and state geologist.

George E. Brewer, the insurance agent, went to Las Vegas this morning, to adjust the loss by fire. He will be absent from the city for a couple of days.

Deputy United States Marshal Fred Fornoff went to Bland this morning. He will return tomorrow.

#### "STONEY" BALL DEAD.

Ended His Career by Dying in the Los Lunas Jail.

Word comes from Los Lunas late this afternoon that "Stoney" Ball, the colored man from Albuquerque, died this afternoon in the jail at that place. This ends "Stoney's" earthly criminal career, which was the best thing for himself and the public in general. It is thought that he was somewhat loosed in the top story when he committed his rash deeds.

What will be done with the body is not known at present, but it is understood here that his wife will have nothing to do with the remains and that the body will have to be buried at Los Lunas.

#### COUNTY DIVISION.

Those Seen This Morning in Favor of the Scheme.

#### BUSINESS MEN INTERVIEWED.

The question of the division of Bernalillo county into two counties, which was widely discussed before the mass meeting of the business men of the city Monday night, is one of the most important issues that has been worthy of the particular attention of the citizens of Albuquerque for some time, and it is receiving the favorable comments of every business man in city. It is well known from a political standpoint the county division proposition is a favorable issue, but whether or not it would occupy the same favorable position from a business standpoint was not known. In view of this fact the Citizen representative called on a number of the business men of the city and obtained their opinions on the timely and important question and how it would affect the business interests of the city.

"I am in favor of dividing Bernalillo county into two counties," said O. A. Matson, "provided the standing debt of the county can be satisfactorily arranged."

"I am emphatically in favor of small counties," remarked B. Ruppe. "It would undoubtedly give the city of Albuquerque a preponderance of votes necessary for a good business administration of the affairs."

E. L. Washburn—I believe the division of Bernalillo county would be a good thing for Albuquerque. It would make a more economical municipal government.

H. E. Fox—I favor the division of Bernalillo county, if arrangements can be made for an equitable adjustment of the county's indebtedness.

G. L. Brooks, proprietor of the San Jose Market—I am strongly in favor of the proposed division, provided the conditions regarding the taxation can be satisfactorily arranged.

Mayor Myers—It is just what we want, provided the taxation proposition can be arranged.

"From a business standpoint," said Simon Stern, "I favor the division, as it would be beneficial to the merchants of Albuquerque."

A. J. Maloy, the Railroad avenue grocer—It is a good idea, if it can be done with an equitable adjustment of taxation.

A few of these interviews will give the public an idea of the prevailing sentiments in regard to the division proposition. Business men after business men has been asked regarding this issue, and without an exception all have favored it.

A bill for a division and formation of a new county will be introduced before the territorial legislature now assembled, tomorrow.

## FIERCE FIRE

### Salt Lake City, Utah, Touched by a Blaze

#### NO. 3 SHAFT SPRUCE MINE ON FIRE

##### Eleven Miners Imprisoned--Capital and Labor Prediction.

#### CROWN PRINCE GETS HIS DIVORCE

Salt Lake City, Utah, Feb. 11.—A fire that started in the Atlas building, a large five story office building, located on South Second street, and in the heart of the business section, at 2:30 this morning, completely gutted the building, spread to the Central block, leaving that structure a wreck, and did other damage that will bring the total loss close to \$275,000, with insurance of about half that amount. The fire was one of the fiercest in the history of the city and consumed and destroyed buildings with remarkable rapidity. Several lodgers on the top floor of the Atlas block had miraculous escapes from death.

There are some indications that the fire was of incendiary origin. The firemen believe it was caused by some one carelessly dropping a cigar or cigarette stub in some debris near the elevator shaft. Two firemen were slightly injured.

#### MINERS IMPRISONED.

A Fire in a Mine of the United States Steel Corporation.

Duluth, Minn., Feb. 11.—A special from Evelett, on the Mesaba range, says: "Fire broke out this morning in the No. 3 shaft at the Spruce mine of the United States Steel corporation. Eleven miners are imprisoned in the shaft below the mine and cannot get out until the fire is extinguished or burns itself out. It caught on the second level in the oil house and the shanties and timber construction of the interior of the mine at that point are burning fiercely. Dense smoke is rolling out of the shaft and there are grave fears that the entrapped men may be suffocated before the fire is subdued."

#### Bringing Out Miners.

The fire was subdued after burning two hours. The descent of the shaft was immediately made and at noon one man had been brought up in an unconscious condition. The others are believed to be in the same condition but have not yet been found. The man brought out, however, will recover. The mine is now well cleared of smoke so that the remaining men will be in no further danger of suffocation.

#### CATTLE BOARD.

Fence to be Built to Keep Out Infected Cattle From Arizona.

#### FUNDS SUBSCRIBED FOR PURPOSE.

The territorial cattle sanitary board completed its session late Saturday evening and acted upon the recommendations offered by the committee of cattle owners from Luna and Grant counties in the matter of recommending to the assembly the passage of a bill submitted to the board by the committee and which was published in full in The Citizen recently. The action was favorable and was unanimous on the part of the cattle sanitary board.

The board also accepted a proposition of the committee of the Luna and Grant county cattle growers consisting of W. H. Greer, manager of the Victoria Land and Cattle company; L. H. Brown, of Deming, superintendent of the Alamo Huevo Cattle company; M. J. Everhart, manager of the Hatchett Cattle company; M. D. Roberts, Baker Bros. and W. J. Wamel, to the effect that the cattle raisers of that section would be responsible for the sum of \$1,500, the estimated cost of the construction of a fence across Guadalupe and Skeleton canyons on the New Mexico-Arizona line, in order to prevent infected Arizona cattle from drifting into New Mexico and bringing with them contagious disease which is somewhat prevalent among cattle in southeastern Arizona. Col. E. G. Austen, one of the members of the cattle sanitary board, was given charge of

the matter and he is to proceed to southwestern New Mexico and have charge of the necessary surveys for these fences, which will be about from ten to twelve miles long and which will be constructed under his personal supervision. This proposition by the Luna and Grant county cattlemen was made as it was shown that the cattle sanitary board had no funds for the purpose. These fences will be a great protection to the southwestern New Mexico cattle and when constructed, the Arizona district containing infected cattle, will be fully enclosed north and south and east and west. The work is to be done immediately.

The board was in session yesterday afternoon upon executive matters.

#### Granted a Divorce.

Dresden, Feb. 11.—The Crown Prince of Saxony was today granted a divorce from the former Crown Princess Louise, after several doctors had furnished expert testimony in the case.

#### PLUNGED INTO WAR.

A Prediction Regarding Labor and Capital.

New York, Feb. 11.—While presiding over the services in connection with the semi-centennial celebration of St. Paul's Methodist church in Newark, N. J., Governor Franklin Murphy predicted in his address that unless, in the near future, greater harmony be restored between labor and capital the country will be plunged into a civil war more disastrous than any previously recorded in history.

Captain George H. Wheelock, internal revenue agent for the western division, arrived last night, and will be in the city a few days in company with Deputy Internal Revenue Collector A. J. Loomis. Captain Wheelock's jurisdiction extends over ten states and territories.

#### HOW HOPEWELL FEELS.

Seen at Bank of Commerce and Gives Out Few Facts.

#### REMARKS ON STATEHOOD.

General Manager W. S. Hopewell, of the Albuquerque Eastern and Santa Fe Central railways, arrived in Albuquerque this morning from Hillsboro, N. M. He has had a complete trip over the entire Santa Fe Central line from Santa Fe to Torrance, and then went to Hillsboro, where he visited his family.

The contract for ties on the Albuquerque Eastern has been let to Eugenio Romero, of San Miguel county, and grading to the amount of four miles has been done on the Albuquerque Eastern from Moriarty Junction. It is the opinion of Mr. Hopewell that this road will be completed into Albuquerque much sooner than it now appears.

Mr. Hopewell will go to Santa Fe tonight, where an accumulation of mail awaits him, which will undoubtedly contain cheering news in regard to the future of the Albuquerque Eastern.

Mr. Hopewell, who is chairman of the democratic territorial central committee, is heartily in favor of statehood for the territories. He was first in favor of the passage of the omnibus statehood bill, but seeing it cannot be passed, he is now in favor of what is known as the consolidation statehood bill. He is here to consult with Hon. H. B. Ferguson in regard to the latter making a visit to Washington, and if Mr. Ferguson's health will permit, that gentleman will leave for the national capital in a few days.

Mr. Hopewell believes that if the democrats in the national senate are approached in the right direction and by the right parties, they will assist Senator Quay in securing the passage of the statehood bill for New Mexico and Arizona as one state.

#### C. F. Riggs, the Showman.

C. F. Riggs, who is well known in these parts where he has been heading theatrical companies for several years, and who went through a short time, since ahead of the Sidetracked company, arrived back in this city Saturday accompanied by Max Plohn, manager of the Telephone Girl company. Mr. Plohn goes on to Chicago from here and leaves the management of the company in Mr. Riggs' hands.—Record.

It is understood that Mr. Riggs was in Albuquerque a few minutes, but he failed to call around and make himself known to many friends who helped him out while he resided in this city. His name still remains on various ledgers, and the accounts—well, they are still open.

Attorney A. B. McMillen and family expect to leave Friday night for an extended visit at New Orleans.

## TERRITORIAL LAWMAKERS

### Fifteenth Day's Doings of Legislative Assembly.

#### PROHIBIT DESECRATION OF THE FLAG

##### The Cecil Rhodes' Scholarships--House Employees' Pay--Other Matters.

Special to The Citizen.

Santa Fe, N. M., Feb. 11.—The council passed the bill locating the miners' hospital at Raton, the blind asylum at Alamogordo, and the reform school in Rio Arriba county. The vote stood 5 to 4.

The bill for the creation of Sandoval county (out of Bernalillo county) will be introduced in the council tomorrow.

FIFTEENTH DAY, TUESDAY, FEBRUARY 10, 1903.

#### The Council.

Mr. Andrews, excused, was the only absentee when the council met at 10 o'clock this forenoon.

Mr. Spiess of the judiciary committee, reported council bill No. 30, with the recommendation that it do not pass and that the substitute prepared by the committee on judiciary be passed. The report was adopted. The bill had been introduced by Mr. Spiess and is an act declaring certain statutes of the territory of New Mexico, regulating the practice and procedure in certain classes of cases to be in force and for other purposes and relating to real estate of infants and married women and perpetuating testimony.

Mr. Hawkins, of the committee on education, favorably reported council joint resolution No. 8.

The following bills were introduced: Council bill No. 39, by Mr. Duncan, an act to sell copies of the Compiled Laws of 1897. Referred to the committee on libraries.

Council bill No. 40, an act providing that if any appropriation be not made by the legislative assembly for the expenses of the territorial government, the appropriation of the previous legislature shall be regarded as covering the necessity. Referred to the committee on finance.

Council bill No. 41, by Mr. Duncan, an act to prohibit the desecration of the American flag. The bill prohibits the use of the flag as an advertisement and imposes a fine not to exceed \$100 or imprisonment not to exceed 100 days for the violation of the act. The use of the flag as a political emblem is permitted. Referred to the committee on territorial affairs.

Council bill No. 42, by Mr. Albright, an act to provide for a home for children. Referred to the committee on public institutions.

Council bill No. 43, by Mr. Martinez, an act to amend the law providing for the publication and pay for the publication of the delinquent tax list. Referred to committee on private and municipal corporations.

Council bill No. 45, by Mr. Pinard, an act giving cities and towns the power to levy a tax to build water and light plants. The tax for water is not to exceed four mills on the dollar, and for light plants not to exceed two mills. Referred to committee on municipal and private corporations.

Council bill No. 46, by Mr. Pinard, an act regulating uniform assessment and increasing the powers of the board of equalization. It provides that property shall be returned for taxation at not less than 75 per cent of its actual value. Referred to committee on territorial affairs.

The council then accepted the substitute bill for council bill No. 30, reported by the committee on judiciary. The original bill was tabled.

Council joint resolution No. 8, accepting the Rhodes scholarships, which has been reported favorably by the committee on education, was passed unanimously. It reads as follows:

#### Joint Resolution No. 8.

Formally accepting the tender of Oxford University scholarships by the late Cecil John Rhodes.

Be it resolved by the council of the Thirty-fifth legislative assembly, the house concurring, that

Whereas, Under the provisions of the will of the late Rt. Hon. Cecil John Rhodes of South Africa, relating to the establishment of scholarships at Oxford University from the British Colonies and the United States of America, New Mexico is granted two free scholarships in this ancient and honorable institution of learning; and

Whereas, Under the testamentary dispositions of the said will it will soon become necessary to officially select and designate candidates from this territory to enjoy the high privileges which said scholarships confer; now, therefore, be it

Resolved, That the Thirty-fifth legislative assembly hereby gratefully accepts, and by this act does formally accept, in the name of the people of New Mexico, such generous bequest with all its attendant provisions as set forth in the said will of the Rt. Hon. Cecil John Rhodes;

Resolved, That we regard with profound admiration that sentiment of universal brotherhood which prompted the tender of such free scholarships and we deem it a momentous step toward fostering those cordial relations now so happily existing among English speaking people in every part of the world; and be it, therefore, further

Resolved, That the territorial board of education be and hereby is authorized and empowered to assume charge of and arrange all details respecting the examination and selection of candidates from New Mexico for the enjoyment of said free scholarships at Oxford University, subject to the regulations promulgated by the trustees under said will or their legal representative in the United States; and it is hereby made part of the duty of the superintendent of public instruction, secretary of said board, to keep an accurate record of all such proceedings and report the same annually to the governor of the territory; and be it further

Resolved, That an engrossed copy of this joint resolution signed by the president of the council and the speaker of the house and duly attested by the chief clerks thereof, be forwarded, through the secretary of the territory, to Hon. John Hay, secretary of state, Washington, D. C., with a request that it be presented through the courtesy of the United States embassy at London to said trustees, and that a copy similarly signed and attested be forwarded to Hon. George R. Parkyn, of Toronto, Canada, legal representative of said trustees for the United States.

House bill No. 33, an act to amend sections 1, 2, 5, 9 and 11, of chapter 66, of the session laws of 1899, relating to the qualifications for jury duty, was referred to the committee on judiciary.

Mr. Hughes, from the committee on finance, reported council joint resolution No. 9, providing for pay of employees, with the recommendation that it be not adopted, and that the substitute offered by the committee be adopted. The original resolution appropriated money to pay the employees of both the council and the house, but the substitute appropriates only \$1,195 to pay for the council employees alone. Mr. Martinez dissented from the report and voted against the adoption of the substitute resolution. He said he did so to be consistent, for he had introduced the original resolution. Every other member voted for the resolution and it was adopted.

The council took a recess until 2 o'clock in the afternoon.

#### Afternoon Session.

At 2:30 o'clock, President Chaves called the council to order. Mr. Hughes moved to go into executive session. The motion was adopted and the chamber was cleared.

The council was in executive session for one hour to approve and audit the account of Chief Clerk W. E. Martin. The council then took a recess for one hour to give time for committee work and meet again in regular session at 4:30 p. m.

#### The House.

The roll call this morning showed all members present. Prayer was offered by the chaplain. The journal was read and approved. Speaker Montoya laid before the house, as special order of business for the morning, substitute house bill No. 75, which provides for greater power and efficiency of the cattle sanitary board and gives it authority to issue bonds in case of epidemic.

week, or for 15 cents per month, when  
paid monthly. These rates are less than  
those of any other daily paper in the ter-  
ritory.

New Mexico demands Statehood from  
the Fifty-Seventh Congress.

Albuquerque is improving in every  
section of the city.

Push along the many enterprises  
now before the people.

Belen, just south of the metropolis,  
in Valencia county, is booming these  
days.

The street and avenue changing or-  
dinances should be repealed. They are  
confusing.

The present cold snap is very dis-  
tressing to the one-lung colony, and  
some are arranging to seek a warmer  
climate.

The county division proposition has  
stirred up the people of this city. A  
majority are in favor of the division,  
but it must be on a fair basis.

Plenty of snow in the mountains and  
valleys east of this city, insures fine  
water and abundance of grass for the  
next six months. Stock raisers are  
happy.

Delegate Rodey will supply the mem-  
bers of the territorial legislature with  
farm and garden seeds. To members  
of the house he will send two bags  
each, and to Speaker Montoya six bags  
of seeds.

The Chicago Chronicle correctly an-  
nounces: "Watch the man who wants  
and will accept every position up to  
before the people. His object is for the  
spoils—not for the good of the com-  
munity."

The interests of this city and Bernal-  
illo county in the matter of county  
division, will be carefully looked after  
by Senators Hughes and Albright, and  
Representatives Montoya, Sandoval  
and Bowie.

The big lumber mill of the American  
Lumber company is one of the certifi-  
cates of this city. It is an immense en-  
terprise which the people have every  
reason now to believe is a foregone  
conclusion.

R. A. Kistler, for years connected  
with the Las Vegas Optic, has accepted  
a position on the Record. With Dr.  
Gould and Kistler both doing work on  
the Las Vegas Record, that paper  
ought to be a hummer in the future.

If the board of trade is organized  
along lines strictly business, it will  
prove of immense benefit to Alber-  
querque and the adjacent Rio Grande  
valley. Every business man in the city,  
regardless of his calling, should be-  
come a member.

The executive committee of the gen-  
eral merchants' committee, having in  
charge the Albuquerque Eastern rail-  
way proposition, are still at work on  
certain matters in connection therewith,  
and hope to make some kind of a  
good announcement to the subscribers  
in a short time.

It was indeed a bad move on the  
part of the city council to railroad  
through the two ordinances changing  
the names of streets and avenues,  
without first getting the opinions of  
the people as to whether it was a good  
idea, and at the next meeting of the  
city council a petition will be intro-  
duced, asking that the two ordinances  
on the subject be repealed. The town  
was laid off with the original idea to

build a branch to the district and give  
it rail connections, as it is hoped it will  
do during this year, the Bromide dis-  
trict will become a record breaker.  
Milwaukee capitalists principally are  
interested in the development and  
workings of the district."

## REGULATING BARBERS.

A bill providing for the regulation  
of barbers and barber shops will come  
up in the Colorado legislature this  
week. The bill provides for the crea-  
tion of a board of examiners, which  
shall issue licenses to qualified bar-  
bers. No person shall be appointed to  
the board until he has passed an ex-  
amination before the state board of  
health, and no barber shall be allowed  
to work until he has shown that he is  
competent and, above all, understands  
the importance of absolute cleanliness  
and the use of antiseptics. The care  
of razors, shaving mugs and brushes  
and other instruments, so as to mini-  
mize the danger of infection, is a subject  
which demands compulsory legislation  
such as this bill contemplates.

## UNION OF TWO TERRITORIES.

The opposition of democrats to the  
proposed union of Arizona and New  
Mexico may have some connection  
with politics, says the Denver Republi-  
can. Arizona is nearly equally di-  
vided between the two parties, with a  
slight advantage in favor of the dem-  
ocrats. New Mexico, on the other hand,  
is strongly republican. United, the re-  
publican majority in New Mexico  
would overcome the small democratic  
majority in Arizona, and the state  
would send republican senators and  
representatives to Washington.

This holds out no brilliant or entic-  
ing prospect for the democrats, and it  
is not strange that some of them are  
disposed to let the territories remain  
out of the union rather than bring  
them in as one state. They hope that  
if admission is delayed, they will come  
in separately sooner or later.

While the far west would gain by  
securing four senators instead of two,  
the proposed state itself would gain  
by union, because it would be stronger  
and possess greater and more exten-  
sive resources.

People are too prone to overlook the  
fact that primarily the advantage of  
statehood is local. It does not consist  
in representation in Washington. If  
representation in both branches of con-  
gress were the chief consideration, the  
objections of eastern people to the ad-  
mission of new states in the far west  
would have more weight. But the  
question of representation is of small  
importance in comparison with the  
right and the power of the people to  
govern themselves and become an in-  
dependent community.

Viewed from the standpoint of local  
considerations, whatever will make a  
state strong is an advantage. Texas  
is better as a single state than it would  
be broken up into five commonwealths.  
It is stronger, more resourceful, more  
capable of maintaining a large popu-  
lation and carrying on a state govern-  
ment. By the same token Arizona and  
New Mexico united would be better  
qualified for statehood than either  
would be if admitted as a separate  
commonwealth. Some important ele-  
ments of difference between them exist  
at present, but these would be over-  
come in a few years, and the two  
would grow together as one.

The councilmen and representatives  
in the territorial legislature, from this  
county, can be depended upon to watch  
out for the interests of this county and  
the city of Albuquerque in the matter  
now proposed—the division of Bernal-  
illo county. To the readers of The  
Citizen, we say: "Don't be uneasy on  
that score—they will not be caught  
napping when it comes to fixing mat-  
ters satisfactory to the taxpayers of  
this county and city."

The Pueblo Chieftain says: "A num-  
ber of mining districts in New Mexico  
have been making remarkable progress  
in the past few months, without stop-  
ping to bother about statehood. Ac-  
cording to the New Mexico papers the  
Bromide district in Rio Arriba county,  
about twelve miles from Tres Piedras  
station on the Denver & Rio Grande  
railroad, is forging to the front and  
will become one of the most important  
in the territory, and will prove a heavy  
producer. The leads and ore veins are  
of great dimensions and of perma-  
nency. Should the Rio Grande railroad

A tunnel under the Thames for the  
accommodation of pedestrians has  
been recently completed and opened  
for the public. It is a tube eleven feet  
in diameter, 1,217 feet long, with the  
top thirteen feet below the river bed.  
It is accessible by electric elevators  
and a spiral iron railway at either end.

Do not wait until you or some of  
our family are sick nigh unto death,  
and then send for Chamberlain's  
Colic, Cholera and Diarrhoea Remedy,  
but buy it now and be prepared for an  
emergency. It is the one remedy that  
can always be depended upon in the  
most severe and dangerous cases. For  
sale by all druggists.

The Japanese empress is particu-  
larly well informed about cereals and  
rice growing, that important feature of  
oriental industry.

Cut this out and take it to any drug  
store and get a free sample of Cham-  
berlain's Stomach and Liver Tablets,  
the best physic. They cleanse and in-  
vigorize the stomach, improve the ap-  
petite and regulate the bowels. Regu-  
lar size, 25c, per box.

When making beef tea, never add  
the salt till the meat has been cooking  
for several hours. Salt acts upon the  
fiber and prevents it giving out all its  
nourishing properties.

A Mother's Recommendation  
I have used Chamberlain's Cough  
Remedy for a number of years and  
have no hesitancy in saying that it is  
the best remedy for coughs, colds and  
croup I have ever used in my family.  
I have not words to express my con-  
fidence in this remedy.—Mrs. J. A.  
Moore, North Star, Mich. For sale by  
all druggists.

nitures for an evening corsage con-  
sists of two large, shaded velvet chrys-  
anthemums connected by sprays of  
maiden-hair fern.

Everybody's liable to itching piles.  
Rich and poor, old and young—ter-  
rible the torture they suffer. Only one  
sure cure. Doan's Ointment. Absolu-  
tely safe; can't fail.

Why does not some woman who  
lives in the country go into the busi-

HOSTETTER'S  
STOMACH  
BITTERS

For Over Sixty Years.

An old and well tried remedy.  
Mrs. Winslow's Soothing Syrup has  
been used for over sixty years by mil-  
lions of mothers for their children  
while teething with perfect success.  
It soothes the child, softens the gums,  
allays all pain, cures wind colic, and  
is the best remedy for diarrhoea. Is  
pleasant to the taste. Sold by drug-  
gists in every part of the world.  
Twenty-five cents a bottle. Its value  
is incalculable. Be sure and ask for  
Mrs. Winslow's Soothing Syrup, and  
take no other kind.

Omaha has an organization known  
as the Omaha Lady rifles, composed  
of eighteen young women engaged in  
various offices about town. The Lady  
rifles will perfect themselves in evolu-  
tions and drills under the leadership of  
a man lieutenant.

Bucklen's Arnica Salve.  
The best and most famous com-  
pound in the world to cure aches  
and kill pains. Cures cuts, heals burns,  
and bruises, subdues inflammation,  
masters piles. Millions of boxes sold  
yearly. Works wonders in boils, ulcers,  
felsons, skin eruption. It cures or  
no pay. 25c at all drug stores.

Miss Katharine Prescott Wormeley  
has translated from French into En-  
glish forty volumes of Balzac, six vol-  
umes of Moliere and twenty volumes  
of the Versailles historical memoirs.  
She is now at work on Dumas' novels.

The scratch of a pin may cause the  
loss of a limb or even death when blood  
poisoning results from the injury. All  
danger of this may be avoided, how-  
ever, by promptly applying Cham-  
berlain's Pain Balm. It is an antiseptic  
and unequalled as a quick healing in-  
ment for cuts, bruises and burns. For  
sale by all druggists.

Mrs. Coulter, president of the Wo-  
men's Federated Clubs of Utah, is also  
a member of the Utah legislature. The  
clubs belonging to the federation have  
pledged themselves to work for a law  
that shall make the kindergarten a  
part of the public school system.

## WEAK AND LOW-SPRITED.

A Correspondent Thus Describes His  
Experience.

"I can strongly recommend Herbine  
as a medicine of remarkable efficacy  
for indigestion, loss of appetite, sour  
taste in the mouth, palpitation, head-  
ache, drowsiness after meals with dis-  
tressing mental depressions and low  
spirits. Herbine must be a unique pre-  
paration for cases such as mine, for a  
few doses entirely removed my com-  
plaint. I wonder at people going on  
suffering or spending their money on  
worthless things, when Herbine is pro-  
curable, and so cheap." 50c a bottle  
at Cosmopolitan Pharmacy—B. Ruppe.

## Railroad Topics

J. W. White, traveling auditor for the Santa Fe Pacific, is an Albuquerque visitor.

Santa Fe Pacific watch inspector, T. Y. Maynard, has returned from an official trip to Gallup.

R. S. Goodrich, private secretary to Superintendent I. L. Hibbard, of the Albuquerque division, is in the city.

H. C. Williams, of Las Vegas, shipped three car loads of well-boring machinery to the Santa Fe cut off, where he will find water or bust.

A Tucson press dispatch says that the tie-up of the railroad of the Cananea Copper company is complete. Not a single man remains at work. The smelters are idle and it is estimated that the cost to the company from failure to run the smelters is \$15,000 per day.

Albert Wallis, the railroad contractor who formerly resided in Las Vegas and is said to have made a fortune since leaving that city, notwithstanding he built a short line railroad without receiving a cent for it, passed through this city for El Paso the other night.

F. V. King, the former well known and popular day chief dispatcher at Las Vegas, whom many were sorry to see leave, is now working for the Southern Pacific at Los Angeles, and doing well. He has the second trick and only works eight hours, where he formerly put in ten and twelve at Las Vegas.

The El Paso Times says that it is rumored that an important change will soon be made in the management of the Mexican Central. According to the report Vice President and General Manager Nickerson is to have an assistant, whose title will be assistant to the general manager. Who this new man will be has not yet been officially announced.

It is said that announcement will be made in a few days of the completion of a deal by which the Frisco will secure a large freight tonnage now controlled by the Santa Fe, says a Chicago dispatch. While none of the details is made public, it is the impression that the deal is in the nature of acquisition of trackage by the Frisco. In connection with the foregoing report it is said that the Frisco is about to secure from the Southern Pacific trackage rights over the San Antonio & Aransas Pass to the Gulf.

Up to yesterday about 4,500 car loads of oranges and lemons had been shipped east for this season over the Santa Fe and Southern Pacific railroads, says the San Bernardino Sun. Of this total 675 car loads were lemons. Placing the season, as it is now estimated at 21,500 car loads, a deduction of the cars already shipped, leaves 17,000 car loads yet to be marketed before October 31, 1903. Should the present rainfall, by increasing the size of the fruit, add, say 10 per cent to the crop still on the trees, there would remain for shipment during the remainder of the season, according to conservative estimates, 18,900 loads. The actual shipment during the season of last year ending October 31, reached 17,379. Of this total about 1,665 car loads were lemons.

### IMPORTANT ITEMS.

The funny man on the Las Vegas Record continues to inflict upon the railroad employees such paragraphs as the following:

Fireman McGraw is laying off to wander around in tailpots heaven. Fireman Irby is laying off just to see the gang and hear that funny story over once again.

Engineer James Sturrock, ("Scotty"), is up from Lamy to have his usual light repairs made to the engine. Earl Payton, who helps the mighty machinist, was off yesterday singing love songs to his best girl.

Engine 1082 has returned from the Albuquerque shops looking as prim and nice as a sweet girl graduate. Machinist Helper James Lowe was laying off yesterday seeing to it that the other girl didn't walk off with his best girl.

Brakeman Morrison has tired of borrowing trouble so is laying off a few days to see what there is in the atmosphere.

Frank Roper, the man who built the world, is still missed from his accustomed place at the round house, which is causing considerable anxious inquiry.

Engineer Purcell, the man of destiny, was marked up for eight hours yesterday which he spent in having pleasant nightmares.

Fireman Morgan still lingers where the weeping willows grow and finds the climate so agreeable that he has no idea when he will report for duty again.

Fireman O'Leary, better known as "Gloomy Gus," had a suspicion that he was in need of rest so marked himself up for eight hours of the needful yesterday and no doubt will dissolve the suspicion before returning to work.

### WILL CHANGE THE MAP.

Rock Island-Harriman Deal Said to Be Viciously Important.

"When negotiations now pending for agreements with the Harriman lines are complete they will be announced, and the Rock Island map will have to be changed," said a New York director of the company.

That was all this officer would say in regard to the matter, but it was

learned from another source that the purchase of the Texas Central reported had been contemplated for several months by the Rock Island. Furthermore, agreements under consideration provide for privileges of through service to southern California via El Paso and to the north Pacific coast via the Ogden gateway.

The Union Pacific is under agreement now not to extend any more privileges of any kind to any other system than the St. Paul road and the Northwestern empire. This was settled when the St. Paul refused to be discriminated against in favor of the Northwestern and obtained all it asked for recently.

If you desire a good complexion use Moki Tea, a pure herb drink. It acts on the liver and makes the skin smooth and clear. Cures sick headache. 25c and 50c. Money refunded if it does not satisfy you. Write to W. H. Hooker & Co., Buffalo, N. Y., for free samples. J. I. O'Reilly & Co., and B. H. Briggs & Co.

Attorney John S. Miller, of Topeka, has been retained by the Rock Island management to conduct the company's defense in the suit attacking the financial readjustment plan. It is reported the Moore-Leeds-Reid interests are preparing to make a vigorous fight to stamp out all possibility of a recurrence of similar attacks.

We sell the greatest of blood purifiers, Acker's Blood Elixer, under a positive guarantee. It will cure chronic and other blood poisons. If you have eruptions or sores on your body, or are pale, weak or run down, it is just what you need. We refund money if you are not satisfied. 50 cents and \$1. J. H. O'Reilly & Co., and B. H. Briggs & Co.

### HINTS FOR SANTA FE.

Denver Chamber of Commerce Tells What It Might Do.

The railroad committee of the Denver Chamber of Commerce has made a glowing report on Denver's railroad prospects. Speaking of the Santa Fe and Rock Island the report says:

"The Santa Fe system must reach Denver from both the east and the west and its line to the south from this city must have a straight fast track from Pueblo to Trinidad. A glance at the map will show that the Santa Fe could build a branch from Holly to Kit Carson and come direct into Denver over the Kansas Pacific, just as the Rock Island now comes in from Limon. Missouri Pacific trains could also come to this city direct in the same way. A few cut offs southeast of Holly would, with its Texas and Oklahoma lines, give the Santa Fe a direct route from Denver to Galveston. This connection is important. During the past year fifty millions have been distributed among the people of Oklahoma, Texas and Arkansas, for railroad construction. Over 2,000 miles, one-third of the nation's new mileage, have been built in that section. The people there have money, and Colorado is their nearest summer resort as well as their nearest supply of iron products. The Rock Island, which has a roundabout line from Denver to Texas, also needs and probably will build a direct cut off running northwest and southeast."

### ANOTHER VERSION.

Said That Rock Island Has No Alliance with Union Pacific.

A New York special to the Chicago Evening Post says:

It develops that the much talked of Rock Island deal with the Harriman interests consists either of the purchase of the Houston & Texas Central or the lease of trackage rights over that road from the Southern Pacific, which owns the 692 mile road. This gives the Rock Island a direct line to Galveston, enabling it to handle traffic to the Gulf with facility equal to that of the Atchison, the Missouri, Kansas & Texas and the Missouri Pacific.

### MENDED CHINA.

Don't Do Well With Hot Water.

"We housewives know better than to use hot water on mended china and common sense tells me that coffee or tea should never be used by those who have undergone operations for stomach trouble or appendicitis, etc. In fact if it were not for the stomach troubles set up by coffee I believe these operations would not be necessary in nine cases out of ten," says lady of Peoria, Ill. "My husband has been changed from a confirmed dyspeptic to an average healthy eater by the use of Postum in place of coffee. I find it much richer and clearer by making over, always adding a little more fresh Postum and then proceed as if fresh. My husband never likes it fresh as well as the second or third make over. Our physician who recommended Postum to us was a confirmed coffee drinker but found that one cup of Postum satisfied him and improved his digestion immediately. Another physician acquaintance had a similar experience. But I started to write you about my husband's condition. He had four operations for stomach trouble. I feel certain that had he used Postum in place of tea and coffee for years preceding these operations would never have been necessary."

Several weeks ago our Postum ran out and he used coffee for several days. His old trouble asserted itself at once and there was an immediate rush for Postum which drove the trouble away again. Name furnished by Postum Co., Battle Creek, Mich.

To bring out the heavy food value in Postum Cereal Coffee it must be cooked not less than 25 minutes altogether. It starts to boil in about 10 minutes when it should be slowly boiled full 15 minutes after boiling has commenced. Some housewives prefer it steeped for many hours or even made over.

railroad or the lease of trackage rights over that road from the Southern Pacific, which owns the 692 mile road. This gives the Rock Island a direct line to Galveston, enabling it to handle traffic to the Gulf with facility equal to that of the Atchison, the Missouri, Kansas & Texas and the Missouri Pacific.

The Houston & Texas Central runs from Denison, Texas, south through Dallas, Garrett, Corsicana, Wooten, Hearne and Hempstead to Houston. It has branches from Garrett to Fort Worth and from Hempstead to Austin. From Houston to Galveston it uses the tracks of the Galveston, Harrisburg & San Antonio. Thus the Rock Island obtains its much desired extension to the Gulf without building a new road. Its lines connect with the Houston & Texas Central both at Fort Worth and Dallas.

No official information of the above deal has been received, but it is understood it constitutes the much talked of Rock Island-Harriman deal. It comes directly from a Rock Island official that there has never been in contemplation a deal between the Rock Island and the Union Pacific. Reports to this effect were caused by erroneous inferences as to the meaning of Rock Island and Harriman conferences in connection with the deal for the Houston & Texas Central. It is generally believed the Southern Pacific has not sold the latter road, but has given a satisfactory lease of trackage to the Rock Island. Thus the deal becomes much more important than a traffic alliance, as has been stated all along. The enemy between George Gould and E. H. Harriman no doubt aided the deal, as by providing the Rock Island with trackage to Galveston Mr. Harriman delivers a rather severe blow to the Missouri Pacific.

It is understood the Rock Island refused assistance from the Atchison, which offered to help it in getting to Galveston.

### TO CURE DANDRUFF.

It is Necessary That the Dandruff Germ Be Eradicated.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ, and none other claims to be, for the simple reason that it is only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff.

"Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

### COMING EVENTS.

Wednesday evenings—Mrs. Berry's dancing school and dance.

Thursday evening, February 12—Valentine dance at Grant hall.

February 13-14—Olympia Opera company at Colombo hall.

February 17—Santa Fe Pacific Hose company ball at Colombo hall.

February 19—Orpheus Concert company at Colombo hall.

February 20—Social dance by Italian band at Grant hall.

February 27—A ball given by the International Association of Machinists, Rio Grande lodge, No. 131, at Colombo hall.

February 25-March 8—Catholic mission at Immaculate Conception church by Rev. Father Barry.

March 2—Schubert Symphony club quartet at Colombo hall.

March 28—"The Kelties," forty musicians, at Colombo hall.

### EXCITEMENT AT RATON.

Rush of Gas From Oil Well Near That City.

The new oil company struck a small flow of gas at 130 feet, and the volume is increasing every day, says a dispatch from Raton.

Parties coming in from the field today report the well down 600 feet and a sufficient rush of gas to be heard a considerable distance from the well. Globules of oil are constantly coming up on the water, and it is thought oil or gas in paying quantities will be found before the contract depth of 2,500 feet is reached. Other companies are preparing to drill.

### ARIZONA CRIME.

Mexican Murdered and Lynching is Threatened.

Ramon Reyes, a Mexican, was brutally murdered last night, and the officers are watching for Manuel Quives, whom they believe committed the crime, says a dispatch from Bisbee, Arizona, of February 9.

The body of the murdered man was found this morning at the home of a woman who says the two men came to her place and engaged in a bloody battle. She refuses to tell who did the killing, but says that she heard the name Barbas called.

Reyes was killed with an axe, his head being almost severed from the body.

The police are inclined to believe that Reyes was killed while he was asleep.

Quives was jealous of a woman with whom Reyes was keeping company.

The officers were looking for Quives this morning and one saw him and gave chase. The suspect ran down a canyon and went into an abandoned mine shaft, where he is now being watched for. He was heavily armed, and the officers are afraid of being killed if they enter the shaft for him.

## Ayer's Cherry Pectoral

What would you do the next time you have a hard cold if you couldn't get Ayer's Cherry Pectoral? Better think this over.

He is without food and must come out soon. The Mexican population will lynch him if the police do not interfere.

### DeWitt's Witch Hazel Salve.

The only positive cure for blind, bleeding, itching and protruding piles, cuts, burns, bruises, eczema and all abrasions of the skin. DeWitt's is the only Witch Hazel Salve that is made from the pure, unadulterated witch hazel—all others are counterfeits. DeWitt's Witch Hazel Salve is made to cure—counterfeits are made to sell. B. H. Briggs & Co., and S. Vann & Son.

Miss Eloise Bethea, having passed highest in a competitive examination for the appointment, now fills the post of engrossing clerk to the South Carolina legislature.

### Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction. 50c, \$1.00. Trial bottles free.

A Denver housemaid is suing her mistress for several thousand dollars that the latter borrowed. Even those household capitalists exact the last farthing from their unhappy debtors.

### Millions Put to Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all drug stores.

Eanne Vanzel, the noted Italian novelist, is in California, gathering material for a novel dealing with life and social conditions in that region.

### A Legacy of the Grip.

Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, liver purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

Coffee has been cultivated in Venezuela only since 1879, and yet it is that much-talked-of country's chief commercial product.

### A Liberal Offer.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. All druggists.

### Plumbing.

We have added a plumbing department and tin shop to our business. When you have anything in this line to be done see us about it before placing your order.—Albuquerque Hardware company.

Aluminum house numbers; three for 25 cents. See C. A. Hudson, Second avenue.

### AN ACKNOWLEDGED FACT.

Cerrillos lump goes one-third farther than any other coal, but costs the same. \$5 per ton. Hahn.

Imported beer at the White Elephant—just received.

Mrs. Bambini, at her parlors, No. 205 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, de hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder, which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and pimple cure, and pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 490.

### DEMING.

A Few Pointers About a Good Town in Southern New Mexico.

Keep your eye on Deming.

Deming has just been incorporated.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and catmen all know this.

Deming, the coming city of New Mexico.

Deming has a magnificent school system.

Deming, the railroad center of New Mexico.

Deming, the gateway to the best part of Old Mexico.

Deming, the seat of the new county of Luna.

Deming is the great mining center of the southwest.

Deming! Don't overlook it if you are looking for a safe and paying investment.

Deming water is chemically pure—equal to Polaris springs.

Deming has increased 50 per cent in population in four years.

Deming water and pure ozone make strong and healthy people.

Investments in Deming lots will double and triple in one year.

Deming has now a large ice plant and electric light system under contract.

In Deming the demand for rental houses is five times in excess of the supply.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

Buy lots and build in Deming. Your rental returns will be 20 per cent on the investment.

In Deming good safe loans can be had at better rates than in the old established towns.

At Deming you can buy lots at \$100 which will pay you 100 per cent in less than twelve months.

In Deming another good hotel is needed to accommodate the enormous increase of population.

Deming is a great health resort—has no superior in climate for the cure of pulmonary troubles.

Deming will be the great smelter center. Two large plants will be installed within the year.

Why buy high priced lots when you can get them in Deming cheap now, with certain advance assured?

Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds.

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

Hear Mr. Howell in "Eben Holden" at Congregational church Thursday evening, February 12.

## DESERT BLOOMS.

What Settlement and Especially Irrigation is Doing for New Mexico.

## TOWNS ALONG NEW ROAD.

A writer in the Denver News, in a communication from Carlsbad, this territory, has this to say about that prosperous section of New Mexico:

The number of northern and eastern people coming into southeastern New Mexico and the upper Panhandle country is beyond all comparison the largest in the history of the section. Lands of all kinds have been in demand, from the stock raiser who wants room for a herd of 1,000 Herefords, to the party with a team of horses, a wagon, a dog and the usual number of tow-headed children, the latter, as a rule, being satisfied with a quarter section and a chance to scratch a living off his patch somehow.

Another class that is gradually drifting this way in constantly increasing numbers is the party, fairly well-to-do, knowing the value of water in this arid southwest, is in search of lands that can be irrigated, or, as it is termed, "under the ditch," and has the money to buy with. This element among the newcomers is the desirable one, for they come to stay and not only build up a district, but develop and beautify it as well.

As a sample of how rapidly some of the side tracks on the Pecos Valley & Northwestern railroad develop into villages and then into very respectable towns, the town of Portales might be named. A trifle over two years since Portales boasted of a depot, a house for the agent, a store where a few shelves on one side of the building accommodated all the stock, a small shed with a board nailed on the outside with "restaurant" painted on it with a marking pot and four saloons. At that time everything in the locality was connected in one way or another with the cattle interests, and the floating population consisted mainly of cowboys. Today this sidetrack has turned into one of the liveliest communities in the west.

It has its churches—some three or four—a bank, wagon and implement stores, general merchandise stores, hotels, restaurants, and sidewalks so crowded with eager, busy people that it is hard to make way through them. Every quarter section within twenty miles of the town now has its tenant, and windmills loom up in every direction. The secret of the success of this particular town lies in the fact that good water in abundance lies within from twelve to twenty feet of the surface throughout the district. Of course this cannot be said of all these new towns. In fact, the contrary is usually the case, but from the great numbers that are flocking into this country it would appear that people believe that the same conditions as to water prevail everywhere. For many of these new towns there are hard times ahead. The dry, hot years are bound to come and where irrigation is impossible and water lies from 1,500 to 2,000 feet beneath the surface profitable cultivation of the soil becomes impossible.

The history of Portales finds its counterpart in a very few other towns on the line of the road. Hereford, Bovina, and others show almost a like phenomenal growth.

As to Roswell, its population has more than doubled in the past eighteen months, the number of people now there, according to a town census recently made, being 4,800.

Between Portales and Roswell, a distance of sixty miles, may be seen any number of squatters, and many bona fide settlers as well, who have their dugouts and shacks planted on the side hills, and, as a general thing, apparently trusting to Providence to send sufficient rain to raise a little fodder—"roughness," as they call it—for their few head of lean stock and a little "garden truck." Many of these last, named belong to a class often met with in the Indian Territory and known there as "nesters." They stay nowhere very long and a few dry weeks generally finds them on the road again.

After one leaves Roswell and its beautiful surroundings and proceeds down the Pecos river toward Carlsbad he sees some of the best improved farms in the territory. Orchards that have achieved a growth of eight or ten years and which are wonderfully productive and fine paying investments, are seen adjoining every dwelling. There is an air of prosperity, an appearance of thrift about these new homes that tell plainly of an intention to remain. "The improvements made are fixtures, not makeshifts."

As the town of Carlsbad is approached a decided change is noted these winter days in the temperature. The town lying 600 feet lower than Roswell and seventy-five miles farther south, it is at least 10 degrees warmer than that place and fully 25 degrees warmer than Amarillo. The absence of cold winds has also much to do with keeping up a mild and even temperature.

It is estimated that in the past few months improvements exceeding in

## It's Just a Cough

that gets your lungs sore and weak and pries the way for pneumonia or consumption, or both. Acker's English Remedy will stop the cough in a day and heal your lungs. It will cure consumption, asthma, bronchitis and all throat and lung troubles. Positively guaranteed, and money refunded if not satisfied. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Leary & Co., and B. H. Briggs & Co.

amount \$100,000 have been inaugurated or completed in the lower Pecos valley, that is, in the neighborhood or south of Carlsbad. A great part of this amount is being expended by the irrigation company here in the construction of its new cement flume. The balance has gone into newly planted orchards, there having been above 10,000 fruit trees already set out, business blocks and experiments in cotton growing.

As to the cotton, some 2,000 acres of rich new land is now being cleared and prepared for next year's crop. The smaller experiments in cotton planting here have uniformly been encouraging, and it has been clearly demonstrated that cotton thrives here under irrigation. The bolls are large and well filled out and the fiber long and clean. The low cost of irrigation water here promises to make this a favorite crop hereafter.

## "STREETS" AND "AVENUES."

A Few Interviews on the Changing of the Streets.

## ALL AGAINST THE IDEA.

Since the city council passed two ordinances, relative to changing streets and avenues in the city, there has been more or less comment on the subject, and some of the business men have expressed themselves in bitter terms, some going so far as to say that the aldermen surely did not have the interests of the city at stake when they voted to pass the ordinances and that they cast their votes with the intention of satisfying a personal vanity.

A petition has been signed—very few, if any, refusing—which will be presented to the council at the next meeting, asking that the two ordinances be repealed, and it is quite likely the council will not turn down the wishes of the signers.

In view of the fact that there are so many prevailing opinions which are worthy of special attention, a representative of The Citizen staff called on a number of the prominent professional and business men of the city in quest of some of the arguments for and against the changes made by the city council, and the following brief interviews were obtained:

Attorney Frank W. Clancy said: "I don't believe the changes will be of any great practical value. It may sound and look better to have 'avenues' and 'streets,' but you will find that in all cities different portions of streets are designated by north, south, east or west. The only change in the resolution that attracted my attention was the changing of Tijeras road to Tijeras avenue. Tijeras road practically follows the old wagon road that leads to the hills, and I consider it a good plan to preserve the memory of this old landmark."

"At first I thought the new scheme of street names all right," said E. W. Dunbar, "but since I have considered it I have changed my mind. I believe it would be better to call the entire street 'First street' or 'Second street,' or whatever it may be, and number from one end to the other without any duplicate numbers."

"I haven't given the street changes much thought," said E. L. Washburn, "but in my opinion the change is unnecessary, and would only put the city to more expense in replacing the numbers and street names."

Undertaker Harry Strong—The street changes may be all right in the end, but they only cause considerable confusion now, and I think are unnecessary."

"I have signed a petition to have the streets changed to the original names," said O. A. Matson, "as I did not think the change necessary."

Undertaker J. W. Edwards—I am in favor of leaving the street names the same as they were in the first place. It is not only confusing in directing, but is confusing regarding property that has been deeded."

L. C. Brooks, manager San Jose Market—It looks to me that the original plan of street names was satisfactory."

"I believe that the plan of having the streets north and south and the avenues east and west simplified matters," said B. Ruppe, proprietor of the Cosmopolitan pharmacy. "While I would not dispute that a man can easily accustom himself to the new names, Salt Lake City has a peculiar method of street naming, and I have heard from residents of that city that it was very easy and facilitates matters greatly when one becomes accustomed to it. Although it appears odd and hard to the stranger, it is only a matter of becoming accustomed to it."

J. W. Malette, proprietor of the Fair—I spent several years in the post-office department, and when a city undertakes to change the street names it confuses the government. In my opinion this change was unnecessary."

"I couldn't see that it was any improvement," said H. E. Fox, "and I signed the protest against it."

"I consider it a better plan to have north, south, east and west portions," said A. H. Yanow. "It is best to let well enough alone."

Other business men and merchants of the city, who were seen in regard to changes, which are of importance to every property owner, have expressed themselves as being against the ordinance, passed by the city council.

## DEMOCRATS WILL OPPOSE.

They Don't Like the Statehood Compromise Proposition.

## OMNIBUS BILL ALL RIGHT.

A special telegram to the Denver News, from Washington, dated February 8, says:

It is reported today that the republican friends of the omnibus statehood bill and its republican opponents have agreed upon a compromise measure that will admit New Mexico and Arizona as one state, and Oklahoma and Indian Territory as another though the provision may be that the law will not operate as to the Indian Territory for five or six years to come. This is on account of treaties with the five civilized tribes occupying the territory offering some obstruction.

In anticipation of such a measure Senators Carmack, Teller, Dubois, Patterson and Rawlins met last night to take counsel about it. These and all other democratic senators have stood loyally by the omnibus bill, even refraining from debate that the opponents of the measure might sooner express themselves and a vote be secured, but they will not approve any measure that consolidates New Mexico and Arizona. They declare that the territories had better remain without statehood for twenty years than the outrage of consolidating two territories each as large as Colorado into one state should be perpetrated, and they give out the likelihood of the democrats talking the compromise measure to death if Quay should surrender to the enemies of separate statehood for the two territories. They don't object to the consolidation of Oklahoma and Indian Territory, for both of these are small relatively to New Mexico and Arizona. Indeed, they believe that the consolidation of the latter would be the best solution, but they are radically opposed to consolidation of New Mexico and Arizona.

Delegate Rodey will be favorable to the measure if he becomes convinced that the omnibus bill can't succeed, but Delegate Mark Smith and the population of Arizona, almost to a man, and woman, are opposed to the consolidation, and will fight it to the end. There are those who do not believe that Senator Quay will desert his democratic allies who have stood by him in his fight for statehood so unanimously and unflinchingly. The coming week will determine whether he will or not.

PRIME loin steaks and rib roasts from Kansas City corn fed beef, the best in native meats, market specialties of all kinds. At the SAN JOSE MARKET.

Thursday night at Grant hall, Valentine dance. Music furnished by the Berry-Devine full orchestra.

OTTO DIECKMANN, Agent, Albuquerque, N. M.

Fresh lobsters, SAN JOSE MARKET.

Olympia Opera Company in "Wang." It hasn't required either an eagle eye or a massive mine to observe that a goodly number of opera lovers and amusement seekers in general in New Orleans have fallen victims to the charms of Wang, as it is staged and sung by the Olympia Opera company. The opera pleased a big crowd Sunday evening when it was first put on, and each succeeding evening since then the audiences have been very large indeed, and enthusiasm has reigned supreme. "Just Ask of the Man in the Moon" is a topical ditty that has made a big hit, as sung by Edward Engleton, Leo Adde and Miss Lottie Kendall. The crowd could not apparently get enough of it last night. Lottie Kendall has the prettiest song in the opera, and one of the sweetest ever written, entitled "A Pretty Girl—A Summer Night," and most effectively does she render it.

## One Minute Cough Cure

For Coughs, Colds and Croup.

—New Orleans Daily News, August 14, 1902.

This big company will appear at the Colombo hall on Friday and Saturday evening and Saturday matinee, of this week.

90 per cent of the oysters sold in Albuquerque are patent case oysters. Patent case oysters are sold only by the SAN JOSE MARKET.

Secure reserved seats Thursday, February 12, for "Eben Holden," at H. E. Fox's, 50 cents. General admission 25 cents.

Early Spring Styles, Knox Hats! Just unpacked the latest style soft and stiff Knox hats. They comprise the largest and most complete assortment of high grade hats ever brought to Albuquerque. Call in and see them. Simon Stern, the Railroad Avenue Clothier.

Do not fail to hear Mr. Howell in "Eben Holden," Thursday evening, February 12, at the Congregational church.

Dancing school and dance at Grant hall tonight, by Mrs. Berry.

We are sole agents for the Leggett & Platt steel bed springs, every one guaranteed—thirty days' trial and if not satisfactory your money back—price \$5.00. Also the Duplex mattress at \$7.50 on the same conditions. Futrell Furniture company.

Don't forget Mrs. Berry's dancing school at Grant hall tonight. Social dance following.

Potatoes! Potatoes! Plenty at J. F. Palmer's, 501 First avenue.

See the new Knox Pantouris hat, comes in the light beaver color. The swiftest thing in the market. Simon Stern, the Railroad Avenue Clothier.

Hear Mr. Howell in "Eben Holden," Thursday evening, February 12, at the Congregational church.

Notice of Stockholders' Meeting. There will be a stockholders' meeting of the C. & C. Consolidated Mining Company on March 1st, 1903, at 7:30 p. m. at the office of L. B. Stern.

LEON B. STERN, Secretary.

Valentine dance at Grant hall Thursday night. Berry-Devine full orchestra.

Go to the Congregational church to-morrow night.

Just received the early spring Knox stiff hats. They differ in various ways with the last year styles, the crown is a little lower and the brim a little narrower. They are the highest grade stiff hats in the market, \$5, but prove the cheapest in the long run. Simon Stern, the Railroad Avenue Clothier.

## AGE OF OYSTERS.

They Live to Be Twenty-five Years Old and Get a Foot Long.

A wholesale oyster dealer was sizing up a new invoice yesterday. "There are some old fellows in that lot," he said, as he shoved to one side some abnormally large ones. He picked out one and measured it. The shell was eight inches long.

"The age of an oyster has absolutely no effect upon its quality," he said. "It doesn't get tough with age like the higher order of animals. How long does an oyster live? Well, I couldn't say, exactly. I have known Maurice river oystermen to claim that an oys-

ter undisturbed in a neglected cove would live for twenty-five years before it finally died of old age. And an oyster of the Maurice river type keeps on growing all the time. I have seen some myself that measured nearly a foot in length."—Philadelphia Record.

Try the home-made scientific bread at the Woman's Exchange; loaves 5 cents each. If you wish good cake, pie, cookies or doughnuts go to the Woman's Exchange. Remember every Saturday Boston Brown bread and baked beans. Wednesdays meat pies. On Tuesdays and Thursdays salt rising bread. Always on hand a full stock of Health Foods.—Woman's Exchange, 323 Second street.

Rev. Irl R. Hicks' Almanac for 1903, a copy of which we have, is certainly a splendid, artistically printed, luminously illustrated book. The storm and weather forecasts of Professor Hicks, now too well known to need comment, are given fully in this fine book of nearly 200 pages. No family or business should be without it. Send 30c in stamps to Word and Works Pub. Co., 2201 Locust street, St. Louis, Mo., with your address, and you will get a copy by return mail.

STORAGE. At A. J. Crawford's warehouse on North First street, opposite John A. Lee's lumber yards.

SOLID COMFORT. For a hot fire on a cold day our Cerillos lump beats them all. Hahn, both 'phones.

MONUMENTS. All kinds of stone and marble work. Prices moderate. Shop and yard corner Fifth street and Railroad avenue. H. Q. MAURINO & CO.

TERRITORIAL  
LAWMAKERS

(Concluded from page one.)

demic or danger of one, for which a quarantine should be maintained. A strong fight was made against the bill in which Cristoval Sanchez was leader, and the entire morning was spent in filibustering. Mr. Sanchez first moved that the substitute be ordered printed and re-referred to the judiciary committee. Mr. Dalles asked that the bill be read in full. The request was granted and the bill read. It amends sections 197 and 200 of the compiled laws of 1897. Mr. Sanchez then explained that his motion was made as a demand for time to consider the substitute. Mr. Pollard protested and said the bill had been introduced at the request of the cattle sanitary board and was approved by that body and the governor. He stated that it provides for the emergency that has arisen of danger to the cattle industry from Texas fever and prompt action is needed. It was a general measure affecting the whole territory and he urged its immediate passage.

Mr. Pollard was interrupted by a message from the council announcing the passage of council bill No. 20, the coal oil repeal bill, and amended council bill No. 6, relating to the burial of indigent soldiers.

Mr. Pollard resumed his remarks and at some length spoke strongly in favor of the bill and pointed out the wisdom of the measure.

Mr. Llewellyn, as chairman of the judiciary committee, said the committee had carefully examined the bill and by a unanimous vote had recommended its passage. He said it is so absolutely simple that there need be no delay in its passage. Mr. Bowie made a speech in favor of the passage of the bill. Martin Sanchez moved its reading the third time preparatory to being placed on passage. Mr. Bowie offered as an amendment to suspend the rules and Pedro Sanchez went into the history of Texas and New Mexico at great length. He said formerly Texas sent armed men to conquer New Mexico and now it sends a fever. He believed in every man taking care of his own and did not think the bill should be passed without full investigation and consideration. He favored printing the bill and re-referring it and asked that time be given the members to know what they are doing. Mr. Turner favored the amendment of Mr. Bowie. Cristoval Sanchez moved to table the amendments, but the motion was lost 7 yeas to 17 nays. The motion by Mr. Bowie to suspend the rules and read the bill the third time preparatory to its passage was then adopted by 19 to 5.

Cristoval Sanchez moved to adjourn, but the motion was lost by 19 yeas to 5 yeas. On this and the many subsequent roll calls nearly all those opposed to the passage of the bill explained their votes at length. Cristoval Sanchez then moved to postpone further consideration until 10 o'clock tomorrow morning, but this was lost by a vote of 17 to 7 on a motion to table the original motion. Mr. Pollard moved that the substitute be passed. Cristoval Sanchez promptly moved to adjourn, but the motion was lost by 19 yeas to 19 nays. Mr. Sanchez explained his vote at great length on this roll call and tried to read the existing laws regulating cattle, but as soon as he commenced to read them Mr. Llewellyn raised the point of order against him that he was not explaining his vote and Speaker Montoya ruled in favor of the point. Martin Sanchez criticised Cristoval Sanchez for censuring other members, when he explained his vote, and Cristoval Sanchez rose to a question of personal privilege to object. Speaker Montoya ruled against Martin Sanchez who continued his remarks until he had finished. When the vote on the motion to adjourn was announced, Cristoval Sanchez moved to table the motion of Mr. Pollard, but this was lost by 5 yeas to 19 nays. Mr. Bowie then moved the previous question on Mr. Pollard's motion and at the same time Mr. Bacarose and stated he had made the motion to that effect. Speaker Montoya put the question and ordered the roll called, but before the clerk commenced Cristoval Sanchez moved to adjourn. Mr. Bacarose and Mr. Dalles raised the point of order that a motion to adjourn could not be entertained while the roll was being called, but Speaker Montoya held that the roll call had not actually commenced, although ordered and

therefore the motion could be entertained. Mr. Pendleton had left the hall and on the roll call the house adjourned until 10 o'clock tomorrow morning by a vote of 12 yeas to 11 nays. Adjournment was taken at 12:50.

Diseases brought on or aggravated by cold weather, is told about in "Care of Invalids," issued by the medical department of The Mutual Life Insurance Company of New York, and sent on request to those who address the home office of the company, Nassau, Cedar, William and Liberty streets, New York City.

New York, Feb. 11.—Lead—Quiet; \$4.12½. Copper—Steady; \$12.75@12.95.

## OLYMPIA OPERA COMPANY.

Fast Approaching Close of Notable Season of Comic Opera.

The extraordinary success of the Olympia Opera company continues at the Auditorium. Despite the intense heat and traditional "off Saturday" the company again made manifest that it was one of the smoothest and most capable comic opera organizations that has ever visited the south. The company's farewell performance takes place Monday evening. This farewell performance will conclude the most notable season of comic opera ever enjoyed by any Texas city. During its six weeks' stay in Houston, the Olympia Opera company playing to uniformly large and well pleased audiences nightly, has presented ten operas with the fullest accessories of staging and costuming. The company leaves for Dallas Tuesday morning, leaving behind it the unique record of having scored the first and only success ever credited to Houston's giant Auditorium.—Houston Daily Post, July 14, 1901.

It is the opinion of many that a thing will improve with age. We will have the pleasure of judging for ourselves Friday and Saturday evenings when the far famed Olympia Opera company makes its appearance at Colombo hall.

## Cancer Cure.

Mr. W. W. Prickett, Smithfield, Ill., writes, Sept. 10th, 1901:—I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg, and through an accident, I rubbed some of the liniment on the cancer, and as it gave me almost instant relief, I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and there is not the slightest scar left. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended. 25c. 50c and \$1.00. For sale by Cosmopolitan Pharmacy—B. Ruppe.

OFFICIAL MATTERS.

Postoffice Changes-Irrigation Commission-Notaries Appointed.

NEW INCORPORATIONS.

The sub-port of entry of Columbus, Luna county, is to be moved four miles north to a point on the El Paso & Southwestern railroad.

Postoffice Changes.

The postoffice at Westwater, Eddy county, has been discontinued and the mail for that point in the future will go to Carlsbad.

Star mail service with box delivery has been established from Quemado to Datil, Socorro county, forty-five miles, twice a week. The star route that starts at present from Glorieta for Pecos, will after February 16, start from Rowe, increasing the distance one-half mile.

Notaries Appointed.

Governor Otero has appointed the following notaries: Herbert J. Hagerman, of Roswell, Chaves county; Thos. Werner, of Old Albuquerque, Bernalillo county; Peter W. Frank, of Los Alamos, San Miguel county; Juan S. Casaus, of Casaus, Guadalupe county; Leandro Lucero, of La Cuesta, San Miguel county; H. H. Tilton, of Albuquerque, Bernalillo county; William W. Jones, of San Marcial, Socorro county.

Irrigation Commission.

The territorial irrigation commission will hold a meeting in Santa Fe one week from Thursday next, or February 19, at which there will be a full attendance. At the last meeting leases on 200,000 acres of land were granted, but the members are divided as to whether the land should be leased or sold outright and the special meeting will be held for a further discussion of the question. Those favoring sale believe the land should be disposed of and the money turned into the treasury. Those favoring leases believe that if the land is sold outright, it will remove the last chance of securing federal aid in the construction of reservoirs. If the land is retained the money for the leases will go into a fund for the construction of reservoirs and the territory will always be able to say to the government that the sites are available.

Meeting of the Cattle Sanitary Board.

The cattle sanitary board which has been in session in Santa Fe since Saturday morning, adjourned at 1:30 o'clock yesterday afternoon. The following members were in attendance during the session: Martin Lohman, of Las Cruces, president; E. G. Austen and M. N. Chaffin, Las Vegas; W. C. Barnes, Dorsey; C. L. Ballard, Roswell; J. A. La Rue, Las Vegas, secretary. A great deal of executive and routine business was transacted. A bill providing for the handling of stray horses in the same manner as now provided for handling stray cattle was prepared and will be referred to the legislative assembly to be enacted into law. The vacancy caused by the resignation of C. M. Dawson, as cattle inspector at Las Vegas, was filled by the appointment of Walter O'Brien, of Maxwell City, as such inspector. The appointment of deputy cattle inspectors were vacated. The secretary was directed to draw warrants for contingent and incidental expenses.

The committee of stockmen representing the cattle growers of Luna and Grant counties proposed to the board to erect a fence commencing at the southwestern corner of the territory and running along the boundary line between Grant county, New Mexico, and the State of Sonora, Mexico, for a distance of about forty miles toward the east, to keep infected cattle from that section from going into New Mexico. The proposition was favorably considered by the board and will very likely be carried out.

Incorporations.

The "Sociedad de Trabajadores Unidos del Territorio de Nuevo Mexico," of Rancho de Arisco, Bernalillo county, has been incorporated for a term of 50 years. The objects of the organization are for the members to assist each other; for benevolent, charitable and literary purposes; for mutual benefit of members; for fraternal organization, etc. Forty-seven names are signed to the articles and they are acknowledged by Salvador Armijo, Jose Nieves Gabaldon, Transito Gabaldon, Cristoval Garcia and Cornelio Gabaldon.

The Sunset Ditch company, of Richmond, Grant county, was incorporated by George H. Cooper, John A. Martin, Sarah H. Moore, Samuel A. Foster and Joseph E. Williams. The object is to construct a ditch for irrigation purposes that shall have a carrying capacity of ten feet wide on the bottom and not be more than four feet in depth. It begins on a perpendicular cliff on the north side of the Gila river, south 7 degrees 45 minutes, east 2,583 feet from the northwest corner of section 21, township 19 south, range 20 west of the New Mexico principal meridian, and the terminus being at the west bank of an arroyo known as Moore canyon, into which it empties. The total length is 53,700 feet. The capital stock is \$50,000 divided into 200 shares of the par value of \$25 a share. The term of existence is fifty years. The directors are George H. Cooper, John A. Martin and Samuel A. Foster.

The Hormiga de Oro Publishing company of Albuquerque was incorporated by Enrique Sosa, Estanislao V. Chaves, Eligio Osuna, Juan N. San-

chez and Andres Romero. The term of existence is twenty years and the company will publish a newspaper called "La Hormiga de Oro" and do job printing. The capital stock is \$1,500, divided into fifteen shares of \$100 each. The directors are Enrique Sosa, Eligio Osuna and Estanislao V. Chaves.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Dr. Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been solved that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

Polish tortoise shell with rouge powder, and you will keep it bright, however old it may be.

Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes: My husband lay sick for three months; the doctors stated he had quick consumption. We procured a bottle of Ballard's Horehound Syrup and it cured him. That was six years ago, and since then we always kept a bottle in the house. We cannot do without it. For coughs and colds, it has no equal. 25c, 50c and \$1.00 bottles at Cosmopolitan Pharmacy—B. Ruppe.

Cincinnati has five woman suffrage clubs; Covington, Ky., opposite, one.

Are You Restless at Night?

And harassed by a bad cough? Use Ballard's Horehound Syrup. It will secure you sound sleep and effect a prompt and radical cure. 25c, 50c and \$1.00 bottles at Cosmopolitan Pharmacy—B. Ruppe.

The new education act in England requires that there shall be at least one woman on every education committee.

No man can cure consumption. You can prevent it though. Dr. Woods' Norway Pine Syrup cures coughs, colds, bronchitis, sore throat. Never fails.

Mrs. Mary Wright, of Bloomfield, has been appointed state dairy commissioner of Colorado by Governor Peabody. She is the first woman to hold the office.

A Weak Stomach

causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach, and wards off and overcomes disease. J. B. Taylor, a prominent merchant of Christman, Texas, says: "I could not eat because of a weak stomach. I lost all strength and run down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol, I concluded to try it. The first bottle benefited me, and after taking four bottles I am fully restored to my usual strength, weight and health." B. H. Briggs & Co., and S. Vann & Son.

The following is very good for inflamed eyes: Beat the white of an egg to a froth. Add two tablespoonfuls of rosewater. Put a little on a soft rag and apply gently. Change as it dries.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. B. H. Briggs & Co., and S. Vann & Son.

The happiest household is that in which life is simplified to the utmost limit compatible with cleanliness and good manners.

The Easy Pill.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. B. H. Briggs & Co., and S. Vann & Son.

RAW EGG FOR A TONIC.

A raw egg is an excellent tonic and is very strengthening. If prepared in the following way it is really a delicious drink, says the Philadelphia Press. Put the yolk of an egg into a dish with a teaspoonful of white sugar and a teaspoonful of orange or lemon juice, and beat lightly together with a fork. Put the white on a plate and add a pinch of salt; then with a broad bladed knife beat to a stiff froth. Now, as lightly as possible, mix all together in the dish, then lightly transfer to a clean tumbler, which it will nearly fill if properly

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c, size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

made. It must not stand in a warm place as it soon becomes liquid and loses its snowy look. Any fruit juice may be used in place of orange or lemon.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

## Chronic Sores Eating Ulcers, A Constant Drain Upon the System

And a source of worry, anxiety and endless trouble to those who are afflicted with them, particularly so when located upon the lower extremities where the circulation is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful sight, and as the poison burrows deeper and deeper into the tissue beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sickening discharges. Great running sores and deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple and are a threatening danger always, because while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and cause the greatest annoyance because they are so persistent and unsightly and detract from one's appearance.

Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, or excessive use of mercury, are the chief sufferers from chronic sores and ulcers. While the blood remains in this unhealthy, polluted condition healing is simply impossible and the sore will continue to grow and spread in spite of washes and salves or any superficial or surface treatment, for the sore is but the outward sign of some constitutional disorder, a bad condition of the blood and system, which local remedies cannot cure.

S. S. S. reaches these old chronic sores through the blood. It goes to the very root of the trouble and counteracts and removes from the blood all the impurities and poisons, and gradually builds up the entire system and strengthens the sluggish circulation, and when the blood has been purified and the system purged of all morbid, unhealthy matter the healing process begins, and the eating ulcer or chronic sore is soon entirely gone.

S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed a purely vegetable remedy, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, large or small, write us about it, and our physicians will advise you without charge. Book on Blood and Skin Diseases free.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

**LAS VEGAS.**

From the Record.

John W. Sullivan was up from Cerrillos.

Mrs. J. S. Duncan was reported among the sick today.

The condition of Mrs. R. G. McDonald is reported as somewhat improved today.

Mrs. W. S. Hill, sister of George P. Money, is lying at the point of death in Hotel Dieu, El Paso, Texas.

The Lawrence Mercantile company has brought suit against Dionicio Sanchez to replevin 350 head of lambs, valued at \$700 and for damages to the extent of \$75.

Wm. Notbom, who has been in the employ of Robt. J. Taupert as watchmaker, left for his home in Oconomowoc, Wis., recently, called there by the serious illness of his mother and brother.

Robt. W. Ross, of Vandalia, Ill., an ex-state senator, ex-recorder of the land office, clerk of the Illinois legislative house for three terms, and an old newspaper man, is in the city for health reasons.

Dr. Horsley, of El Paso, and Dr. McConnell, of Las Cruces, performed an operation for appendicitis on Juan Larrazolo, son of O. A. Larrazolo, of this city. The operation was successful and Mr. Larrazolo, who had suffered greatly during the past few weeks, is already improving and in all probability will soon be up and around again.

A. D. Marshall, the popular assistant postmaster of the west side postoffice, is after a reward of \$25 which is offered by Edward Dorsey, of Illinois, for information in regard to one James Butler, who left Illinois in 1886, and who, when last heard of, was following the occupation of a freighter in this country. Mr. Marshall has secured information of a James Butler who is freighting in the vicinity of Fort Stanton and has written Mr. Dorsey to that effect.

What might have been a serious accident occurred just above the springs. C. E. Doll and lady were out driving on the canyon road and were followed by Mark Kepner and John Papen, also in a single rig, when, in descending one of the steep hills up there the horse driven by Messrs. Kepner and Papen became unmanageable and dashing down the hill at full speed ran into the buggy occupied by Mr. Doll and his lady, overturning and badly demolishing both buggies and throwing their occupants out on the rocky road. Fortunately no one was hurt beyond a few scratches and bruises and are congratulating themselves today on their narrow escape.

From the Optic.

Miss Vevarka, one of the kindergarten teachers at the normal, is unable to attend to her regular duties. It is feared that she is threatened with pneumonia.

## CARLSBAD'S BIG FIRE.

The Beet Sugar Factory Totally Destroyed by Fire.

### THE PARTICULARS OF THE BLAZE.

From Carlsbad Argus, Feb. 6:

On Tuesday morning at about 3:30 o'clock an alarm of fire startled the inhabitants of Carlsbad, and practically everybody in town turned out when the news spread that the big beet sugar factory was burning. The blaze originated in the iron warehouse just north of the main building, which was stored full of a miscellaneous assortment of inflammable material, comprising a lot of hay, corn, cottonseed and furniture. Before the fire department could get to the scene, this house was practically consumed, and the main building was blazing at the windows and under the eaves of the roof. The fire department, however, cut no figure in its presence, as the nearest waterplug was over three blocks away and the fire boys did not have more than 100 feet of serviceable hose, most of it leaking so badly that it would not have thrown a stream strong enough to have reached the second floor, much less the third, in which the fire was the fiercest. Besides, it is very doubtful if the 1,100 feet of hose, which is the sum total thereof, would have reached the blaze by several hundred feet. The chemical engine was on the ground promptly, but it was wholly incapable of successfully combating such a big conflagration. However, the crew bravely fought on long after their task was hopeless, and until their chemicals were exhausted, kept up a futile stream on the fire.

Some hard work was done by individual firemen, but the greater part went for naught, the only salvage being about twenty-five feet of one of the beet sheds and a small detached shed on the extreme north.

This preservation was due almost wholly to the unaided efforts of Albert Heavey, who occupies the old scale house as a residence. A little hard work and a considerable expenditure of muscle would have saved practically all of the beet sheds, but it was impossible to secure volunteers for the labor of tearing down a section of them to interrupt the flames, by depriving them of food.

The loss was practically a total one, and approximates \$125,000. As far as known here, there was no insurance, the local agencies refusing to accept the risk after active work was closed down, unless a day and night watchman was employed by the company to care for it. This heavy expense the company decided not to incur, risking destruction by fire rather than to incur the certainty of hundreds of dollars of annual expenditure. The owners are Milwaukee capitalists, headed by Messrs. Uihlen and Wuesthoff, of the Schlitz Brewing Co. There is a chance, however, that these shrewd business men have something of insurance, placed with eastern agencies.

Besides the loss on the factory itself, several local men lost various merchandise, which was stored in the warehouse, where the fire originated. J. D. Walker lost about a carload of hay, Ramsey Bros. a carload of cotton seed, G. H. Webster and J. F. Rarey a small amount of corn cobs, and H. F. Christian several hundred dollars worth of household goods.

This loss is a severe blow to this entire community, and it is extremely doubtful now if the beet sugar industry will ever be revived in this section. The company contemplated resuming active operations in the near future, probably next year; but now, of course, it is highly improbable that the Milwaukee people will invest fur-

Mrs. Emmons, saved from an operation for Ovaritis, tells how she was cured by Lydia E. Pinkham's Vegetable Compound.

"I am so pleased with the results I obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it."

"I suffered for over five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it, you will be a different woman in a short time."

Don't hesitate to write to Mrs. Pinkham if there is anything about your case which you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address is Lynn, Mass.

There is an enterprise which has already cost them so heavily.

There is a number of important lessons to be learned by the town authorities and citizens of Carlsbad from this lamentable occurrence.

First, and foremost, the town trustees should order at once—by wire, preferably, enough new hose to meet any possible future contingency, and hereafter see to it that the fire department is at all times kept properly equipped.

Second, there was a decided lack of interest—and a total absence of discipline—displayed by the firemen themselves, the entire work at the fire falling upon a handful of devoted officers and their personal following.

Lastly, the business men themselves are largely to blame for the apparent inefficiency of the department. A more active interest should be taken by them in an organization that exists chiefly for their protection; much more liberality should be shown in equipping the fire fighters, and it is only by action along these lines that the general apathy in the affairs of the department can be overcome. It is only the united interest and work of all citizens that will make a success of any volunteer fire department. The members rightly reason that if the chief beneficiaries are indifferent to their own welfare, it is still less to them, who have little at stake, and involving dangerous and arduous work.

If the city treasury cannot stand the expense of new hose and other necessary equipment, merchants and citizens should promptly go down in their pockets and subscribe the requisite funds. Generosity and an active interest on the part of business

men would quickly influence a great improvement in the department, because then the young and able bodied men would feel that membership was a thing to be proud of—and Young America's blood can only be quickened by appeal to his innate sympathy and ambition.

### Cancer Cured.

Mr. W. W. Prickett, Smithfield, Ill., writes, Sept. 10th, 1901: "I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg, and through an accident, I rubbed some of the liniment on the cancer, and as it gave me almost instant relief, I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and there is not the slightest scar left. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended." 15c 50c and \$1.00. For sale by Cosmopolitan Pharmacy—B. Ruppe.

## LOCAL PARAGRAPHS.

Attorney A. J. Abbott, of Santa Fe, is in the city on important business.  
R. H. Lester, the Fairbanks soap man, went to Las Vegas this morning.

The University of New Mexico was closed all day yesterday out of respect to the memory of Mrs. Elias S. Stover.

J. J. Byrne, the popular general passenger agent of the coast lines of the Santa Fe railroad, was an Albuquerque visitor last night.

C. R. Hudson, the well known painter, has just put up a big sign for Rothenberg & Schloss' cigar company, on Railroad Avenue.

O. M. Dry, the erstwhile grocery clerk, is now a full fledged miner. He is doing assessment work on some claims owned by M. C. Nettleton.

Mrs. G. M. Cundiff, of Rocky Ford, Colo., has arrived to be with her daughter, Mrs. J. H. Gainsley, who has been quite ill the past few weeks.

W. E. Grimmer, the stage artist, has been assigned to the new wagon just put out by the Albuquerque Steam Laundry. As mentioned in this paper a few days ago the wagon is a dandy.

L. Baldwin and son, Fred, cattlemen from Engle, passed through the city this morning en route to Lamar, Colo., where they are ranging cattle. Mr. Baldwin will visit Pueblo before returning to Engle.

Louis Trauer, the sheep and wool buyer, is reported getting along nicely at the home of his brother-in-law, Simon Neustadt, of Los Lunas. Dr. Pearce, with the local physician, Dr. Wittwer, is attending to Mr. Trauer.

Miss Bessie Borden, who has been the guest of Mrs. Oscar Leffing at Sabinal the past week or so, returned to the city, accompanied by Mrs. Leffing. Both ladies are doing some shopping today, and both will return to Sabinal tonight, where Miss Borden will continue to visit with Mrs. Leffing.

The Union barber shop is the name of the new tonsorial parlors recently opened at 309 West Railroad Avenue, by N. E. Crenshaw. The new place of business will be what its name implies—a union shop. Mr. Crenshaw is an old experienced barber, and worked in Cincinnati, Louisville and other eastern towns before locating in this city.

The wreckage of the Baldridge lumber yard fire has nearly all been cleared away and in its stead is the foundation of what will soon be a handsome new brick office and warehouse building similar to that destroyed by the fire. It is being built on the corner next to the Coal Avenue viaduct and not on the site of the former building.

J. L. Hubbell, who was at Santa Fe the past few days, returned last night and will leave tonight for his home and business at Granada, Arizona. His son, Lorenzo Hubbell, came in last night from Keam's canyon, where he conducts a general merchandise store, and will remain a few days. He regrets that he could not reach the city in time to attend the funeral of his aunt, Mrs. Louisa M. Thomas.

Miss Claude Albright, as is well known here, is a member of the Castle Square Opera company. The other day the leading baritone of the company, William Paull, fell from a six story window in the Southern hotel, St. Louis, to the pavement below, and was killed. The funeral was held last Sunday afternoon at Christ church cathedral, that city, and the jam was so great that several women were crushed and badly injured. Miss Albright sang in the double sextet the song, "Lead, Kindly Light." Others of the company who sang with Miss Albright were Francis Carrier, Adelaide Norwood, J. Francis Boyle, Gertrude Renyon, Parker Combs, Marion Ivel, Ethel Houston Du Fra, John F. Sheehan, Pedro Gherard, Winifred Goff and Lloyd d'Aubigne.

W. V. Weir, D. D. S., Dental Surgeon Santa Fe Pacific Railroad, Grant block. Both 'phones.

## LITTLE MYRTLE.

Her Death at Her Parents Home Last Night.

The infant daughter of Mr. and Mrs. Charles Hall, Myrtle, residing at 603 South Arno street, passed away last night at 11 o'clock. Little Myrtle was 18 months old and was one of twins. Her death was especially sad from the fact that the other died about one year since.

Myrtle was buried this afternoon from the residence in Fairview cemetery, Rev. Mark Hadgson performing the funeral ceremony. The little one will be greatly missed, not only in the home which she has left desolate, but also by the friends who knew her, as she was unusually bright, fascinating and lovely.

"Yes, thou art dead, but thou art power. To stain thy cherub-soul and form. Closed is the soft ephemeral flower. That never felt a storm."

The sunbeam's smile, the zephyr's breath.

All that it knew from birth to death."

Mr. Hall was away from home at the time of the little ones' death, and arrived on this morning's train from Alamogordo, where he is employed, his family residing here.

## Card of Thanks.

We desire to return our sincere thanks to the many friends who manifested their sympathy in many ways during the illness of, and after the death of,

our little infant daughter, Myrtle, which took place last night at our home in Albuquerque. May God reward them for this exhibition of love on their part.

MR. AND MRS. CHAS. HALL.

## The Chicago National League.

Secretary P. F. McCanna, of the Territorial Fair Association, has just received a letter from President James A. Hart, of the Chicago National League base ball team, stating that they would do their spring training in southern California and would pass through Albuquerque about March 31. He also inquires regarding the inducements for a game here on that date. Mr. McCanna immediately sent back a reply that a team from Albuquerque's crack players would be ready to meet them at the fair grounds here on that date. Considering Albuquerque's base ball spirit there will undoubtedly be a large crowd to witness the game. The western trip has positively been arranged, and the Chicago National will have an opportunity of visiting the metropolis of the southwest of which they have heard so much about. Several members of the team took part in territorial fair tournaments in this city.

## DELAYED TRAINS.

All Trains from the East Held Back by a Freight Wreck.

The California limited No. 3, due here this morning at 11 o'clock, has been annulled.

Passenger trains from the east, No. 1 and No. 7, due here this evening, are also indefinitely late.

A stub train will be run from La Junta, Colo., here and will bring Colorado mail.

It will depend on the lateness whether or not No. 27, the El Paso train, will go out on time. It may be held until the arrival of the late trains.

The cause of this state of affairs in traffic is a freight wreck east of Kansas City.

Several rumors are being circulated about the wreck, but as to whether any of them are true is not known here, as no definite news has as yet been received.

One rumor states that a freight train had run into a trestle at Lexington, Mo., and another gives the information that thirty-five cars of dressed beef are in the ditch just east of Kansas City.

Trains from the west are reported on time.

## THE HARSCHS ENTERTAIN.

Pleasant Card Party by Mr. and Mrs. E. B. Harsch.

One of the most delightful social events that has occurred in the city the past fortnight was a card party given last night by Alderman and Mrs. Edward Harsch at their pleasant home on Broadway.

The hosts have an established reputation of being charming entertainers and the affair given last night was a pleasant one.

Progressive high-five was the game and was played at five tables. Seven sets were played. The score cards were pretty unique card board designs and the score markers were gilded hearts.

Dr. B. H. Briggs secured the gentleman's prize and Mrs. Frank McKee the lady's.

After the scoring, refreshments, in keeping with the rest of the affair, were served the guests at the card tables.

Those present were Messrs. and Mesdames Dr. B. H. Briggs, W. W. Strong, S. Vann, W. H. Hahn, A. Borders, Frank McKee, Mr. H. F. Bogh, Miss Carolyn Bogh, Miss Rose Harsch and George Kaseman.

## Olympia Opera Company.

Whoever loves gay, dashing operatic numbers sung by pretty women in gorgeous costumes and by men who sing with the sweetness and strength of almost perfect voices, can scarcely fail at being delighted with the Olympia's this week. "Said Pasha," produced by them is full of bright music and they give it adequate presentation. Last Sunday the company demonstrated in "Said Pasha" their ability to provide a splendid operatic spectacle for the deflection of music lovers. "Operatic spectacle" is the proper description to apply to "Said Pasha" as the Olympia's produce it. There are forty people on the stage and two-thirds of these are pretty girls, all good singers. The costumes sparkle and are so gorgeous as to easily convince one that they were especially provided for the production.—New Orleans Item, Jan 6, 1902.

This big company is booked to appear at the Colombe hall for two nights and a matinee, February 13 and 14.

## OYSTER COCKTAILS

For that tired feeling there is no remedy that equals the oyster cocktail made of genuine Patent Case oysters—any person can make one if they have the right kind of oysters:

1. Nine small blue point oysters for each person.

2. Two tablespoonsful Bayles Oyster Cocktail Catsup.

3. Dash of lemon and horseradish.

4. Two tablespoonsful powdered ice.

5. Serve the oysters in wine glasses or small dishes and pour the sauce over them just before sending to the table.

San Jose Market, C. D.

You can get the genuine blue point oysters, grown on the original blue point beds, at Sayville, Long Island, New York, and of the very finest flavor and condition, received fresh daily in patent shipping cases, from the SAN JOSE MARKET.
