## CABLEGRAMS FROM ABROAD

### Sultan of Turkey Mobilizing Troops in Macedonia.

#### PREPARING VENEZUELAN PROTOCOL

### Montreal Street Railway Strikers Refuse to Ratify Terms--Mont Pelee Active.

Paris, Feb. 7.—Official advices have been received here confirming the report that the sultan of Turkey has ordered the immediate mobilization of 240,000 troops for a military demonstration in Macedonia.

The steps taken are regarded with apprehension by the French officials as being likely to involve complications between Turkey and Russia and Austria.

It is said that Russian and Austrian governments have agreed on a firm note to the sultan which will be presented within the next few days insisting on administrative and official reforms in Macedonia.

It is considered that the sultan's mobilization of such an army is clearly an effort to forestall the presentation of this note.

#### VENEZUELAN PROTOCOL.

Its Preparation Causing Satisfaction in London.

London, Feb. 7.—The announcement from Washington that the Venezuela protocol, is in the course of preparation, confirming the hopeful views of the situation expressed here, has created great satisfaction.

During the latter of the week official circles here evinced quiet confidence that in spite of the alarming reports a settlement was in sight.

The refusal of President Roosevelt to arbitrate the question as to whether the powers shall receive preferential treatment in the settlement of their claims against Venezuela is regretted, but was anticipated here.

Beyond some comparatively slight deliberations over the wording of the protocols, no further trouble is expected, where the raising of the blockade will be regarded with almost as much relief, as it will be in Venezuela.

#### Preparing Protocols.

Washington, Feb. 7.—Many exchanges are going on between Washington and European capitals as the result of the efforts of the allies' representatives here to prepare protocols providing for a settlement of the Venezuelan claims.

The task of drawing up the document is very complicated, owing to the necessity for providing against all contingencies and framing a set of agreements for the settlement of the claims that will resist the attacks of a state of international lawyers.

#### REFUSED TO RATIFY.

Montreal Strikers Are a Stubborn Class of Men.

Montreal, Feb. 7.—The employees of the Montreal street railway, at a meeting today, refused to ratify the terms agreed upon by their committee and President Forget, of the railroad company, for the settlement of the strike, which began Thursday night. Forget offered 10 per cent advance and recognition of the union. The men now demand complete capitulation on the part of the railroad company.

#### MONT PELEE.

Not Satisfied with Previous Destruction, It Continues Active.

London, Feb. 7.—The governor of the Island of Martinique, in a dispatch to the colonial office, announces that Mont Pelee volcano continues active; that its summit is constantly changing in shape and that masses of incandescent matter are thrown out.

#### AGAINST CHINESE.

Had the Pig-Tails for Hundreds of Years, but Now Objects to Them.

Manila, Feb. 7.—The Filipino labor union has issued a protest against Chinese immigration, threatens violence to prevent its introduction here, and asks the people to co-operate in the efforts to prevent such immigration.

#### GUILTY PRINCESS.

Her Infatuation for a Professor Causes Much Trouble.

Dresden, Feb. 7.—The separation of former Crown Princess Louise and Professor Giron does not change the present legal situation and will not have the slightest effect on the divorce proceedings which will be resumed February 11. The princess can never return to the Saxon court, but she may possibly effect a reconciliation with her own family and take up a permanent residence in Austria. The question of allowing the princess to see her children will only be decided by

her tract contracting for the ties to be used for laying the company's logging road at the timber tract and the Santa Fe spurs here.

Engineer Beckett, of the Santa Fe lines, arrived in the city this morning to make the locating survey for the main line spur to the American Lumber company's plants and the several spurs to be run from the various mills and buildings from the main line spur. Mr. Beckett will remain here until all the surveys are completed and the construction work commenced.

#### H. Jay Stone Resigns.

H. Jay Stone, who has been on the sick list for the past week, has resigned his position at The Citizens office as bookkeeper and collector, and will take up life insurance business, having accepted a position with the Northwestern Life and Savings Insurance company of Des Moines, Iowa. Mr. Stone has been unfortunate the past few months, sickness in his family and his desire to keep up his work at this office having partially impaired his usual good health. J. E. Haines has taken the position made vacant by the resignation of Mr. Stone, and is fast making himself acquainted with the inside affairs of the office. He hopes to be out collecting in a few days.

#### Are Against Us.

The legislators of California are against New Mexico and Arizona. Note the following from the San Francisco Chronicle, of February 4, in regard to the action taken by them: "Through Chairman Goodrich, the federal relations committee reported back the memorial from the New Mexico legislature on the statehood bill, with the recommendation that no action be taken. McConnell moved to make the resolution a special order for Thursday, but the motion was lost and the report of the committee was adopted. A similar report upon the memorial from Arizona was also adopted."

Mr. Bugh and daughter, who have been residents of Albuquerque for a number of years, expect to leave in a few days for California, and after a few weeks' visit there will go to their old home in Pennsylvania, where they will make their future home. The party last night was in the nature of a farewell affair to them.

#### Catholic Mission.

Father Barry, S. J., will soon be here to give a mission at the church of the Immaculate Conception. The mission will begin on Ash Wednesday, the 25th inst., and will close on Sunday, March 8. N. J. Lloyd, a mining engineer from Butte, Mont., left El Paso for Pearce, Ariz. He has been engaged by George S. Goode & Co. to manage their turquoise mine near Pearce. The property is being rapidly developed, and Mr. Lloyd says that it will turn out to be one of the great turquoise producers in the country. The product is shipped to Denver lapidaries. The stones are of a high grade.

Hon. Martin Lohman, a popular citizen of Las Cruces, passed up the road for Santa Fe this morning.

### Short Senate and House Proceedings.

#### AGREEMENT ON COMMERCE BILL

The Anti-Trust Bill Has Passed the National House.

#### AN EMBEZZLER IN GREAT TROUBLE

Washington, Feb. 7.—At the opening of the senate today, Mr. Gellinger presented a partial report of the conference on the bill increasing pensions to ex-soldiers who have lost limbs. He stated that the house had changed the rates materially, increasing some of the pensions allowed under the act of 1890. The report was adopted and further conference ordered.

McKean resumed his speech in opposition to the statehood bill in the senate this afternoon.

#### The National House.

Washington, Feb. 7.—In the absence of Speaker Henderson, who is ill, Mr. Lacey, of Iowa, today presided.

Routine business preceded the resumption of consideration of the anti-trust bill.

The senate amendments to the army appropriation bill were concurred in and the bill was sent to conference. Mr. Hull, of Iowa; Mr. Capron, of Rhode Island, and Mr. Hay, of Virginia, were appointed conferees.

General debate on the anti-trust bill having closed yesterday, the bill was read for amendment under the five-minute rule. Mr. Litfield, in charge of the bill, offered an amendment to section 1, which was adopted, providing that suits for failure to make returns under the bill could be brought wherever the defaulting corporation "has a place of business." The bill was passed—245 to 19—on roll call.

## STATEHOOD QUESTION.

Briefly Discussed in Interviews With a Few Citizens.

#### EVERYBODY IN FAVOR.

The reports from Washington regarding the stand that Senator Quay, leader of the statehood forces in the senate, has taken, concerning the omnibus bill has opened a field for considerable discussion in this city. Senator Quay has given up the struggle for the passage of the omnibus statehood bill and is now advocating the passage of a compromise measure admitting New Mexico and Arizona as one state. This policy is endorsed by some and condemned by others. Considering the fact that the report would bring out many and various opinions, The Citizen representative interviewed a number of prominent gentlemen in the city this morning. The answers to the question, "What is your opinion of the joint admission of New Mexico and Arizona?" were various and have an important bearing upon the new issue.

"I have always favored single statehood for New Mexico and Arizona," said Attorney E. W. Dobson, "but if we are unable to get statehood separately, I would prefer the joint admission until such a time when the population of Arizona will permit her to become a state. A clause to that effect would mean that the bill be inserted in the bill. This, I think, the only solution to the question."

Secretary P. F. McCanna, of the Territorial Fair Association: "I favor the omnibus statehood bill, but prefer the compromise rather than have no form of statehood."

"I don't believe joint statehood with Arizona would be the best thing for the people of New Mexico," said Attorney Frank W. Clancy. "If we cannot secure the passage of the omnibus statehood bill during this session of congress, it is my candid opinion that the contest will put us in better shape for a further fight for single statehood for New Mexico. I would rather have no statehood at all, than be tied up with Arizona. I don't believe the people with whom the 'New Mexico' has become identified, will consent to live under the name 'Arizona.'"

Willard S. Strickler, vice president and cashier of the Bank of Commerce: "I have always favored the passage of the omnibus statehood bill, and as for the joint admission I do not care to express myself."

"The omnibus statehood bill was what we wanted, but if that is impossible we will want some kind of statehood any way," said Edwin H. Dunbar, the real estate dealer.

"I am heartily in favor of joint

statehood for New Mexico and Arizona," said ex-Mayor O. N. Marron. "I was in favor of the passage of the omnibus statehood bill, but in view of the fact that those in charge have informed us that it is impossible to gain the admittance of New Mexico and Arizona as separate states, I therefore favor the joint admittance of the two territories for several reasons. First, we will have a state with an area and natural resources second to none in the union; second, the power would be so evenly divided between the two great parties that an honest and conscientious government would be the result."

M. W. Flournoy, vice president of the First National bank: "I am in favor of the compromise for the joint admission of Arizona and New Mexico."

"I am of the opinion that a joint statehood would be better than none," said George P. Leonard, of the Hall & Leonard music dealers, "but I believe the omnibus bill would be more favorable."

"Joint statehood would make us a far more prominent and stronger state," said G. L. Brooks, proprietor of the San Jose Market. "It would be exceptionally advantageous for the business interests of the two territories, and would have a greater influence with the eastern people who wish to settle in the southwest. After becoming one state the resources would be so great, that the people would never want to be divided."

Mayor Myers said: "I would prefer to have two states with four senators, but if we cannot have this, it is a great deal better to have two senators than none at all. Then with the one large state we would be greater from every standpoint, both commercially and politically."

#### AGREEMENT REACHED.

Senate and House Conferees on Commerce Bill Agree.

Washington, Feb. 7.—The conferees on the department of commerce bill have reached an agreement. The conferees of the senate on the most important matters have been acceded to by the house conferees which leave the interstate commerce commission a separate organization. All reference to the interstate commerce commission is eliminated and the statistical bureau to be referred are specified as being confined to the war department, the navy and the department of justice.

#### UNDER ARREST.

New Yorker Embezzled United States Funds.

New York, Feb. 7.—Byram H. Winters, for seven years in charge of customs bureau here, was arrested today on a charge of embezzling money belonging to the United States. The alleged theft is over \$8,000. Collector Stranahan was the complainant. Winters was held in \$10,000 bail by Commissioner Shields on trial, examination being waived.

Collector Stranahan made this statement: "Byram H. Winters, a clerk in the customs house, who for seven years had been in charge of the customs bureau at the postoffice, has been found short in his accounts. He was appointed March 28, 1899. The shortage upon the present figures would seem to be about \$8,000."

#### Voluntary Increase.

Knoxville, Tenn., Feb. 7.—The Virginia Iron, Coal & Coke company has voluntarily increased wages 10 per cent. About 2,500 men are benefited.

#### PAPERS STOLEN.

Missing State Papers Cause Delay in Extradition Trial of Insurance Swindlers.

During the extradition trial of the alleged insurance swindlers and murderers, Richardson, Mason and Hale, Wednesday, it was discovered that the bulky documents and state papers from Mexico, which it had required months to complete, were mysteriously missing, says a dispatch from El Paso to the Denver News.

Their loss was not discovered until court opened for the afternoon session and it was quite apparent that the papers had been stolen since noon. The last person in the room were the marshal and his prisoners and suspicion naturally fastened upon the prisoners. A thorough search failed to bring the missing papers to light and the court proceedings were stagnated.

Late this afternoon the county jailers found the papers in the sewer, where they had been placed after they had been torn into shreds. A translated copy of the documents is in the hands of the court and will be used hereafter.

Another sensational feature of today's trial was sprung when the court announced that the state department had wired the marshal instructing him to guard the prisoners most closely. The message stated that the department had been notified that the prisoners were allowed to go across town unshackled and that they were given every opportunity to escape. The court denounced the report as entirely unjustifiable and censured the person who had misinformed the state department.

D. C. Dunlap, chief engineer of the proposed New Mexico—Arizona railroad, did not leave for Bland yesterday as expected on account of the lateness of trains but left this morning. He will be absent from the city a couple of weeks.

#### BELEN BREVITIES.

Batch of Interesting Notes from a Good Little Town.

Belen, N. M., Feb. 4.—Workmen who have been very busy during the past week laying the track upon the new grading finished to the river today, and the first train to the river was run over it this afternoon.

Now that the track has been completed thus far work upon the bridge will be commenced at once and will be rushed forward as fast as possible, for the company is very anxious to have it completed before the river rises in the spring.

Gross, Kelly & Co., who have the contract for supplying B. Lantry Sons with their provisions, have their big warehouses now under construction and will soon be completed.

C. E. French, formerly with John

Becker, and J. E. McKay, of Las Vegas, have accepted positions with the above named company.

Ray Crow, some time transit man with Mr. Stewart's party, left for Wichita, Kas., to accept a similar position with Mr. Wallace's party, which was about to leave for southern Oklahoma, where the Santa Fe company is figuring on running a new line south into Texas.

Paul E. Waller and H. L. Rolling, draughtsmen on the new cut off location work, have finished up their office work, and have accepted positions in the field on location.

J. H. O'Connell and Mr. Hauser, head men with Lantry Sons, left Belen the first part of the week for Southern California, where their company is engaged in some construction work. Mr. O'Connell, of Wichita, succeeds Mr. O'Connell as foreman of this party.

Dr. H. B. Kaufman, of Albuquerque, took up his duties as company physician Monday morning, and left Belen for Abo Pass, where he expects to be located throughout the entire work.

#### SCHOOL OF MINES.

Standard of Admission Has Been Raised—Students from Abroad.

Dr. Charles R. Keyes, president of the New Mexico School of Mines, was in the city a few hours yesterday, says the New Mexican. He reports the School of Mines in a very flourishing condition. The attendance this year is 50 per cent above that of any other year in the history of the institution. This increase is largely in the technical departments. It has been impossible to care for all the students asking to be enrolled this year because of the lack of adequate equipment. The present outlook for the coming year is for more than double the attendance this year. Every member of the faculty has had more than he could do. The standard of admission has been placed on the same basis as other mining schools of the world and is now higher than any other educational institution in the southwest. These changes mark a new epoch in the history of New Mexican education. Another noteworthy feature is that the School of Mines is no longer a local institution, but draws its students from all points of the territory and from other states. For the first time in its history, students from abroad are looking to New Mexico for higher practical education. Negotiations have recently been about closed whereby the School of Mines acquires the big Rio Grande smelter works for its practical work and training in handling and manipulating ores of all kinds and by add methods. This puts the New Mexico School of Mines in the front rank of the schools of the world. No other effort can so advance the mining industry of New Mexico, which should soon rank first in this country.

#### LOCAL PARAGRAPHS.

Rev. George Leo Patterson, of Gallup, after a couple of days here, returned to the Carbon city last night.

"Red," the chunky bay delivery horse owned by the Blanchard Meat & Supply company, got tired of life last night and choked himself to death. How it occurred is not known. The stable man for the Blanchard meat market went to the stable this morning and found the horse lying dead in his stall. It is thought that he got his leg over his neck, drawing it tight around his neck and choked.

Adolph Doerr, of Homestead, Pa., purchased today, through Otto Dieckmann, the well known real estate agent, lots 9 and 10, block "G," Atlantic & Pacific addition. Mr. Doerr already owns the adjoining two lots, and it is his intention to erect on the lots three modern brick cottages. Mr. Doerr is delighted with Albuquerque and it is his intention to make this town his home in the near future. He is a large real estate owner at Homestead, Pa., and an old friend of Dr. Carns.

Dr. N. Jackson and H. G. Minus, two wealthy young gentlemen from old Virginia, left last night for California, en route will stop over at Williams, from which place they will visit the Grand Canyon of Arizona. Dr. Jackson is located at Newport News, and Mr. Minus at Norfolk. They left their respective homes about three months ago, and are seeing the great southwestern country in all its glory. Last week they visited Santa Fe, making the trip by horseback, and are now on their way to the setting sun. They expect to get back to Virginia in about a month.

## Railroad Topics

Santa Fe Claim Agent Zimmerman has returned from an official trip to Gallup.

J. F. McNally, division superintendent of the Santa Fe system, with headquarters at San Marcial, is in El Paso. It is estimated that about 10,000 cars of fruit will be shipped east over the Santa Fe this year. The Rock Island figures on about the same amount.

A carload of native laborers were unloaded at Belen this morning to do work on the Santa Fe cut-off. They were brought up from El Paso on passenger train No. 22.

H. B. Meyers, formerly day operator at Winslow, is now agent at Navajo Springs. Mr. Wiley has taken his place here and G. N. Hathaway does the night trick at Winslow.

F. T. Beckett, assistant engineer of the Santa Fe at San Marcial, came up from that place this morning. He is also engineer for the American Lumber company and is here today to meet officers of that company.

The Santa Fe Railroad company is sinking a well at Nelson and if water can be obtained at that point the pumping plant at Peach Springs will be closed down. The well has reached a depth of several hundred feet and is in limestone.

F. O. Keys, supervising engineer of construction on the Santa Fe cut-off, has returned from Oklahoma, where he has been engaged in other Santa Fe construction work and will take up his duties on the cut-off. Mr. Keys is non-committal as to the rumor being circulated that work on the cut-off is going to be called off.

Thomas H. Healey, city passenger agent of the Rock Island railroad office at El Paso, was officially notified Wednesday of his appointment as traveling passenger agent of the El Paso & Northeastern railroad, as well as of the Rock Island. His new territory will be northern Mexico, southern Arizona and New Mexico and western Texas.

Invitations are out for the marriage of John Stein to Miss Margaret Agnes, daughter of Mr. and Mrs. Henry Steinkirchner, at the family residence, Newton, Kan., Tuesday, February 17, at 7 o'clock. Mr. and Mrs. Stein will be at home, Castaneda hotel, Las Vegas, after April 1. Mr. Stein is an universal favorite in Las Vegas, and along the line of the Harvey system. The citizen wishes him great happiness.

The Windsor Mail says: Another popular couple will shortly be missed by their friends. Engineer Joseph Brown and wife will shortly leave Winslow, and their friends concluded they would let them know how they stood in the community, so Tuesday evening a farewell party was given in honor of Mr. and Mrs. Brown at the Engineers' hall by the Ladies' auxiliary to the Brotherhood of Locomotive Engineers, which was thoroughly enjoyed by all.

**Millions Put to Work.**  
The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they are unrivaled. Only 25c at all drug stores.

**Shorter Route to Florida.**  
There is considerable speculation as to whether the Evansville & Terre Haute railroad, which is believed will soon change hands, will come under the control of the St. Louis & Chicago & Eastern Illinois, or whether it will go to the Louisville & Nashville. Both companies, it is said, are after it, and to either of them it would prove of great value. It is the connecting link between the Chicago & Eastern Illinois and the Louisville & Nashville between Terre Haute and Evansville. The three roads together give the shortest line to Nashville, Tenn., by 150 miles, and are considered the best route from Chicago to the Florida resorts.

**Buy It Now.**  
Do not wait until you or some of our family are sick night upon death, and then send for Chamberlain's Colic, Cholera and Diarrhoea Remedy, but buy it now and be prepared for an emergency. It is the one remedy that can always be depended upon in the most severe and dangerous cases. For sale by all druggists.

**IMPORTANT CHANGES.**  
In the Santa Fe Storekeeping Department.

An important change has been made in the management of the Topeka office of the Santa Fe storekeeping department. About half of the clerks who have been working under Storekeeper A. F. Hilton will very shortly be placed under the management of I. S. Lauck, auditor of disbursements. The division of clerks has already been made.

Mr. Hilton, when asked concerning the move, said that it was true that some of his force would be placed under Mr. Lauck's jurisdiction. He refused to say anything further about the change.

I. S. Lauck was asked in regard to the matter. He said:

"There is nothing to give out now. It is true that some move is under consideration, and has been from time to time for a good while. When any change is made, due announcement will be given in circulars."

As nearly as can be ascertained, this is a move which is not confined to Topeka, but which will cover the whole Santa Fe system. It is important in this connection that just at this time General Auditor H. C. Whitehead, of Chicago; Auditor J. W. White, of the Santa Fe coast lines, headquarters at Los Angeles, and Auditor A. S. Jennings, of the Santa Fe Gulf lines, are all in Topeka. The object of their visit here is being concealed under the general statement that they are conferring about matters concerning their department.

It is expected that when this conference is ended, a statement will be given out concerning some changes of importance.

It seems possible that the change will involve a transfer of some of the

work now done in disbursement accounts of the storekeepers' department to the direct charge of the auditing department.—Topeka State Journal.

### PROFILE OF THE WORK.

**Santa Fe Must Make Big Rock Cuts at Abo Pass.**

Ernest Mudge, of Resident Engineer Earl's office, of Newton, Kan., has received of Fred Mudge, his brother, a profile of the work the Santa Fe is doing on the New Mexico cut-off in Abo Pass and canyon. Mr. Mudge has charge of the masonry and bridge work. The profile shows that some of the cuts are as deep as seventy-five and eighty feet through solid rock and again there will be abutments of the same depth. The canyons to the bridges are all box canyons and cannot be filled as there would constantly be danger of washouts and necessarily they must be bridged.

### Denial From Mr. Wells.

Arthur G. Wells, general manager of the Santa Fe coast lines, who arrived from Los Angeles yesterday, spent the day and night in the city, and left this morning for Topeka, where he goes to confer with other Atchison, Topeka & Santa Fe officials on matters pertaining to a raise in wages for the trainmen. Mr. Wells was seen by a representative of The Citizen this morning and denied the report published that he had given out information that the firemen would get a raise of five or six per cent.

### Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All drug-gists guarantee satisfaction. 50c, \$1.00. Trial bottles free.

### Burned to the Ground.

The city fire alarm pealed its dread tidings at 4:15 Thursday afternoon, and hasty information conveyed the tidings that the handsome residence of W. P. Chapman, near the insane asylum, was burning to the ground. It was a seven room structure, situated too far from the city for the fire company to be of avail, and will be a total loss.

Mr. and Mrs. Chapman are only recent arrivals from Chicago, who are here with a sick son. The have the sympathy of the community. Dr. De Costa and wife have been living in the residence and their loss is also heavy. —Las Vegas Optic.

### TAKE A FRESH HOLD.

**Good Food a Stepping Stone.**  
The route back to health is nine times out of ten through the use of proper food. The healthy enjoy life, it is the sickly and weak who have lost interest. Restoring health (through scientific feeding) means restoring happiness too.

You must take a fresh hold. Here is a sample case—a lady of Dallas, Texas, who writes: "Two years ago I was sick all the time. None of the food I was eating agreed with me. It did not digest and I suffered dreadfully."

"I went to Florida and stayed three months but got worse all the time. Came back to Georgia and finally came west. At this time I felt as if I were losing my mind. My health was slipping away, strength and energy were gone and I stood in fear of the dreaded asylum. I would not have given two cents to see the greatest city in the world but continued to travel, hoping it would help me."

"Finally I tried Grape-Nuts and I must say words are insufficient to express the good the food did me. I have been using it some time and my health is better, my mind clearer and I weigh more than I have in ten years. I eat anything I want and nothing seems to disagree with me."

"I don't take any medicine at all now and I feel well all the time. I simply would not be without Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone.

Help and happiness surely awaits you if you accept Mrs. Pinkham's advice. Disease makes women nervous, irritable, and easily annoyed by children and household duties; such women need the counsel and help of a woman who understands the peculiar troubles of her sex; that woman is Mrs. Pinkham, who with her famous medicine, Lydia E. Pinkham's Vegetable Compound, have restored more sick and discouraged women to health and happiness than any other one person. Her address is Lynn, Mass., and her advice is free. Write today, do not wait.

Will not the volumes of letters from women who have been made strong by Lydia E. Pinkham's Vegetable Compound convince others of the virtues of this great medicine?

When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me?"

Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. If you have some derangement of the feminine organism try Lydia E. Pinkham's Vegetable Compound. It will surely help you.

Mrs. Emilie Seering, 174 St. Ann's Ave., New York City, writes:

"DEAR MRS. PINKHAM:—If women who are always blue and depressed and nervous would take Lydia E. Pinkham's Vegetable Compound they would find it the medicine they need to bring them to a more cheerful frame of mind. I was terribly worried and downcast, and was thin and bloodless. My back ached all the time, no matter how hard I tried to forget it or change my position to ease it, and the pain at the base of my brain was so bad that I sometimes thought that I would grow crazy; I had the blues so much and was always so depressed I could not seem to shake them off; half of the time I did not seem to have the courage to do my work; everything seemed to go wrong with me, and I was always worrying and fearing the worst. I began to take Lydia E. Pinkham's Vegetable Compound. After the first few doses a load seemed lifted from my shoulders, I felt better in every way. The blues left me and my head stopped aching; before long my back was better too, and I looked younger and stronger. I took six bottles in all, and I am with thankfulness that my present good health is due to the use of Lydia E. Pinkham's Vegetable Compound."

**FREE MEDICAL ADVICE TO WOMEN.**  
If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

**\$5000 FORFEIT** If we cannot forthwith produce the original letter and signature of the above testimonial, which will prove its absolute genuineness, Lydia E. Pinkham Medicine Co., Lynn, Mass.

Rear-End Collision at Glorieta.

There was a rear-end collision at Glorieta last night. Conductor Creswick, in charge of an eastbound extra, was occupying the side track, when another eastbound extra came up the hill and headed in on the side track also. The engineer on the second extra lost control of his train in some way and before it could be stopped it went crashing into the rear of Conductor Creswick's train. A badly demolished caboose and the front end of engine 841 slightly disfigured was the extent of the damage done. Fortunately no one was hurt.—Las Vegas Record.

**USING OIL ON THE ROADBED.**

Southern Pacific Company Has a Unique Way of Fastening Ballast.

A. N. Bienenfeld, engineer in charge of the Southern Pacific railroad cut-off into this city, was at the Sheldon yesterday, says the El Paso News.

He says that the work is rapidly nearing completion, and that it will be a matter of but a few weeks now until work on the new bridge across the Rio Grande will be begun.

He said that a novel method of packing the ballast for the roadbed had been adopted. In order to remove the dust, which might retard the work of packing the ballast, crude oil is sprinkled on the roadbed. The plan has been worked very successfully, and will be adopted generally in the packing of roadbeds in the work around Yuma. This is the point at which Engineer Bienenfeld will next devote his talents in straightening out the Southern Pacific roadbed and equalizing the levels and grades.

Mr. Bienenfeld said that the bridge work was being brought to a focus rapidly and would begin when the spring opened.

### PRESIDENT RIPLEY AT TOPEKA.

Says There's No Truth in Rumored Rock Island Alliance.

President Ripley, of the Santa Fe, was in Topeka for a short time Wednesday afternoon on his way to California, says the State Journal. In speaking of the alleged traffic alliance between the Rock Island and Santa Fe, he said:

"The report is an error throughout. General Manager Mudge did not confirm it in the manner printed in the papers. The Santa Fe will go on in the same old way to the Pacific coast, and as to the plans of the Rock Island, of course, we know nothing. There is absolutely nothing in common between the roads of the kind stated."

It would seem from this that the deal between the Santa Fe and Rock Island has fallen through, and this view of the case is partially confirmed by dispatches from New York which say that the Rock Island is now negotiating with the Union Pacific and Southern Pacific for an alliance with them.

The fact that President Ripley qualifies his denial by the statement that "of the kind stated" there is no deal between the Santa Fe and Rock Island gives reason to believe that the proposed extension of the Santa Fe south from Dodge City will be constructed, as General Manager H. U. Mudge stated would probably be done. It may be that the plan to extend the traffic alliance to cover the western part of the Santa Fe line has not been brought to a consummation.

The dispatch concerning the Rock Island negotiations with Union Pacific and Southern Pacific interests is as follows:

"New York, Feb. 5.—Information from semi-official sources shows that an alliance or an agreement of some sort has been entered into between the Union Pacific and Southern Pacific interests on one hand and the Rock Island and railroad on the other. The important points have been agreed upon, and an official announcement of the scheme is looked for in a few days."

"A director of the Rock Island company after communicating with Daniel G. Reid, today said that there was 'something in the wind.' President Leeds of the Rock Island company is now in the west, but is expected back shortly. Messrs. Reid and Leeds are reported to have represented the Rock Island company together with ex-Judge Moore, in the company's negotiating with the Union and Southern Pacific interests. Judge Moore is chairman of the Rock Island company's finance committee."

"It is a matter of common belief in Wall street that the parties now in control of Rock Island are being backed by the First National bank."

**Talks About Strike.**  
President Ripley says that he believes there is no danger of a strike by the Santa Fe trainmen and conductors, who have made a demand for a 20 per cent increase in pay. He intimates that the company is willing to agree upon a fair compromise wage, but says that 20 per cent is too high.

"There will be no trouble in making a settlement with the trainmen," said Mr. Ripley, "so long as they are reasonable, but a 20 per cent increase is too much for us to consider."

which did not count, as the referee had declared the ball belonging to the Minors. J. W. Barry refereed the game and his decisions were very satisfactory. Strong umpired the game, Travis was also an umpire. The crowd of basket ball enthusiasts who attended the game enjoyed a pleasant dance after the game. Mrs. Barry was present and furnished delightful music for the merry and joyful crowd.

### MILL AT COONEY MINE.

Nearing Completion, Will Be Ready for Operation in a Few Weeks.

Some photos were shown this week of the new mill on the Cooney mine by an old timer who has just paid the Mogollons a visit and they show a fine up-to-date plant fast nearing completion, says the Silver City Enterprise.

The gentleman was surprised at the progress made, for he remarked: "Why, it seems like only a few weeks ago that I met Tom Cooney on the way to Chicago to purchase the machinery and he informed me then that no start had been made on the mill foundation, and I take a run out there now and see a modern plant with rolls, crusher, Huntington and half a dozen tables set up; a sawmill complete, in which the sets for the mine are being framed, and about 300 feet of the new shaft already sunk and square-setted and new hoist up and running, and I could only rub my eyes in amazement and think that Cooney and Murphy have had their coats off."

I saw Kramers, the Wileys, Rahl, Lofler, Townsend and many of the other boys hard at it. I went through the mine one night and there are large bodies of ore waiting for the mill. When I left camp there was talk of Major Hogan returning at an early date and moving matters at the Maud S.

The Maud S. has been one of the heaviest producers in the Mogollon district; a mine that much can be expected of, and if the rumor proves true it will be of vast benefit to that district and Silver City.

### NIXON'S VIEW OF IT.

Thinks Trains Can't Be Run on Time By Law.

General Manager Nixon, of the Santa Fe, does not look for any good results from the agitation of delayed trains measures that are now being considered by the Texas legislature.

"The man who can devise a way whereby passenger trains will never be delayed is the man we are looking for," said Mr. Nixon to a Galveston Tribune man. "We could afford to pay him a handsome salary for such suggestions and not let the matter of pride or sentiment play any part in the transaction. Every time a passenger train is delayed it means the road over which it is operated loses money. Besides the extra time lost the road loses patronage, prestige, the wages of the employees, and suffers great inconvenience in readjusting time schedules. In fact, by going through all the ramifications of a railroad system one can see at a glance that when a passenger train gets behind time the whole workings of a road are more or less affected."

The Santa Fe employs an assistant trainmaster whose sole duty is to ride back and forth on the passenger trains to discover how delays can be avoided. W. A. Whitman has this position. Through his efforts we have succeeded in securing better train service and if the eternal vigilance that we are now resorting to can maintain schedules the schedule will be maintained. But legislation could not make us any more alert in this direction. We are doing

### THEY ALL SAY SO.

Not Only in Albuquerque but in Every City and Town in the Union.

If the reader took the time and trouble to ask the few residents of Albuquerque the simple question given below, he would obtain the one answer. If he would read the statements now being published in Albuquerque which refer to this answer, it would surprise him to note that they number so many. As many more could be, and may be, published, but in the meantime ask the first person you meet what cures backache? The answer will be Doan's Kidney Pills. Here is a citizen who endorses our claim.

Mrs. J. Hall, of 519 South First street, says: "One of my daughters suffered from backache for about eight months or a year. Sometime it was so bad that she was completely prostrated for a day or so at a time. I read about Doan's Kidney Pills in our Albuquerque newspaper and thought if they only performed half what they promised they might help my daughter and we went to the Alvarado Pharmacy for a box. In a remarkably short time the medicine took effect and a continuation of the treatment a little longer stopped the backache. We are pleased to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

Of course there are always a number of kicks accompanying every game, and laying aside all the unpleasant features the game was well played. There was a most noticeable improvement in the rapidity and quickness in the playing of the University team. And their interference prevented the Minors from making the easy field throws, which was their forte in the previous game. The guarding on both sides was excellent and there were few opportunities for a player to make a good throw from the field. The Minors did not play their usual game of clever goal throwing, but several times the audience held their breath, as the ball rolled around the edge of the basket. All their attempts at the basket were under the greatest difficulties, since the University guards were always there with their strong interference. There was no visible improvement in the University goal throwing over the last game, while the ball was dangerously near the basket several times, they were unable to make good. Myers threw the one from the field, and two on free throws and Bowie the other. Holeman and Strumquist of the Minors each threw a goal from the field. A goal was thrown by the University,

"I do not think the bulletin service regarding delayed trains has occasioned any complaint. We have issued very rigid orders in regard to bulleting arrivals and departures. Of course in some instances the depot master does not always comply with these orders. This can at times be traced to negligence, but more often to an impossibility to anticipate delays."

**Cancer Cure.**  
Mr. W. W. Prickett, Smithfield, Ill., writes, Sept. 10th, 1901: "I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg, and through an accident, I rubbed some of the liniment on the cancer, and as it gave me almost instant relief, I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and there is not the slightest scar left. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended." 25c, 50c and \$1.00. For sale by Cosmopolitan Pharmacy—B. Ruppe.

Whoever loves gay, dashing operatic numbers sung by pretty women in gorgeous costumes and by men who sing with the sweetness and strength of almost perfect voices, can scarcely fail at being delighted with the Olympia's this week. "Said Pasha," produced by them is full of bright music and they give it adequate presentation. Last Sunday the company demonstrated in "Said Pasha" their ability to provide a splendid operatic spectacle for the delectation of music lovers. The Mysterious Visitor  
Is Now Invading Many Homes

It Strikes Young and Old Who Are Physically Weak and Predisposed to Disease.

## Paine's Celery Compound

Fortifies the Body, Cleanses the Blood, and Gives Strength to Resist All Attacks.

That mysterious visitor, "Grip," is now invading many homes and striking down the young and old who are weak or predisposed to disease. It is now well known that the disease spreads rapidly to the various members of the households into which it has been introduced. It accords with the theory of infection, also, that the disease has usually attacked the persons liable to infection. Dr. Richard Slesly, in his book on "Epidemic Influenza," says the disease is almost entirely propagated by infection. In past winter seasons it has been fully and happily demonstrated that Paine's Celery Compound is a tower of safety when grip is prevalent. When this scientific and health-giving medicine is used, it strengthens the nervous centers of all the vital organs; it purifies the blood, regulates digestion, gives a healthy tone to the whole system, enabling young and old to feel secure from the ravages of disease. Weak, nervous, dyspeptic, and ailing people will find in Paine's Celery Compound a true protector and shield from the dangers of grip. A trial of one bottle will banish all existing doubts.

## A Visitor From Afar.

Major Milsaps will lecture in the Salvation Army hall at 8 p. m., February 7, 1903. This Salvation Army officer has seen much of western life, having traveled extensively the plains and mountains of the west from Colorado to California twenty-five years ago. Room scenes in early day mining camps are familiar to him.

However, later, when the Spanish-American war claimed the attention of the nation and sent thousands of our young men to the front, Major Milsaps as the representative of the Salvation Army accompanied General Merritt to the Philippine Islands on the steamship "Newport." One and a half years of battle scenes and other interesting incidents gave the major much of interest to remember.

Our community will be treated to a lecture entitled "With the Troops in the Philippines," on the evening of February 7, 1903. He will also lead Salvation Army soul saving services. All day Sunday, the 8th of February: 11 a. m., holiness meeting; 3 p. m., Salvation Army jollification, and at 8 p. m., "The Power and Joy of the Christian Life." The public is invited to attend.

Saturday, February 7, at 8 p. m., the major will lecture in the army hall, 113 West Lead Avenue.

Sunday, February 9, at the Baptist church, corner of Broadway and East Lead Avenue, at 8 p. m.

Aluminum house numbers; three for 25 cents. See C. A. Hudson, Second Avenue.

### AN AGED CITIZEN GONE.

Prominent Member of Baca Family Dead at Las Vegas.

The death of Hon. Tomas C. de Baca at 3 o'clock this morning marked the demise of one of the oldest and most respected citizens of Las Vegas, and his death will be regretted by the whole territory, says the Optic.

Deceased was a lineal descendant of Alvar Nunez Cabeza de Baca, one of the first Europeans to set foot on New Mexican soil, and the chronological history of his illustrious family dates back to the twelfth century. San Miguel county has been his home since boyhood and he has served the people in positions of trust and responsibility. He leaves a widow and six sons to mourn his taking off, which was the more hard to bear from the fact that he was just convalescent from a severe attack of typhoid fever, and hopes were entertained of a speedy recovery when paralysis of the brain set in, causing death almost before the family were aware of the relapse.

Six sons remain to continue the name in American history, they being Hon. Manuel C. de Baca, ex-territorial superintendent of public instruction; and a prominent member of the territorial bar, Esquivel C. de Baca, whose editorial writings have created stir in the political firmament, and who is now deputy probate clerk of San Miguel county; and Nicasio, Daniel, Graciano and Antonino Baca, all of whom are highly respected and prosperous citizens.

Mr. Baca was 71 years of age at the time of death. The date of the funeral has not yet been set.

**Sewell Memorial.**  
Washington, Feb. 7.—Representative John J. Gardner, of New Jersey, has completed arrangements for the memorial ceremonies to be held in the house tomorrow afternoon in commemoration of the life and public services of the late Senator William J. Sewell. Representative Dalzell, of Pennsylvania, and other members of the senate and house who were personally acquainted with the late senator will deliver addresses setting forth the long career of the deceased in the United States senate, and his valuable work in behalf of his constituents and the government.

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Aker's Blood Elixer, which we sell under a positive guarantee. It will always cure scrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

**Skaters in Competition.**  
Montreal, Quebec, Feb. 7.—Fifty of the fastest skaters of Canada and the United States took part today in the opening races for the annual skating championships of the Amateur Skating association of Canada and the National Skating Association of America. The speedy fellows come from New York, New England, Ontario, Quebec, Manitoba, Minnesota and other points.

Among them are Harley Davidson, of Toronto, who holds the world's records from 100 yards to a half mile; Peter Sinnrud, of New Jersey, holder of the world's amateur mile record; De Bellefleur, the Rat Portage skater who scooped up many prizes at previous tournaments; Johnny Neilson, of Minneapolis; J. K. McCullough, of Winnipeg; and Pedler Oustland, of Norway.

The annual events scheduled for the tournament are: 220 yards, 880 yards, one mile, three miles, 880 yards (backward), 220 yard hurdles, half mile (12 years and under), one mile (15 years and under).

The professional events comprise the world's championships at half mile, one mile and three miles.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and unexcelled as a quick healing liniment for cuts, bruises and burns. For sale by all druggists.

**Shipper Complains of Rates.**  
Kansas City, Feb. 7.—The interstate commerce commission met here today and listened to the complaint of Gilbert Barr that the Chicago, Burlington & Quincy Railroad company imposes higher rates on car load shipments of live stock for the shorter than the longer distances.

**RING WORM AND DANDRUFF.**  
They Are Each Caused by a Pestiferous Germ.

Ring worm and dandruff are somewhat similar in their origin; each is caused by a parasite. The germ that causes dandruff digs to the root of the hair, and saps its vitality, causing falling hair and, finally, baldness. Without dandruff there would never be baldness, and to cure dandruff it is necessary to kill the germ. There has been no hair preparation that would do this until the discovery of Newbro's Herpicide, which positively kills the dandruff germ, allays itching instantly and makes hair glossy and soft as silk. At all druggists. Take no substitutes. There is nothing "just as good."

Sold by leading druggists. Send for in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

## THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. Please to remember, the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.

**Land Office Business.**  
Homestead Entry—Noberto Bernal,  
of Wagon Mound, 160 acres of land in  
Mora county; Jose Crespin Chavez, of  
Shoemaker, 160 acres of land in San  
Miguel county; Jose B. Medina, of San-  
chez, 160 acres of land in San Miguel  
county.

**Land Selected.**  
The Santa Fe Pacific Railroad com-  
pany has selected 640 acres of land in  
Colfax and Mora counties in lieu of  
land surrendered to the United States  
government in the San Francisco  
mountains which will be attached to  
the forest reserve. The land selected  
is in township 23 north, range 23 east.  
E. C. Manning has surrendered land  
to the government to be attached to  
the Pecos river forest reserve and in  
lieu has selected 40 acres of land in  
Valencia county in township 3 north,  
range 7 east.

**Tendency of the Times.**  
The tendency of medical science is  
toward preventive measures. The best  
thought of the world is being given to  
the subject. It is easier and better to  
prevent than to cure. It has been fully  
demonstrated that pneumonia, one of  
the most dangerous diseases that med-  
ical men have to contend with, can be  
prevented by the use of Dr. Cham-  
berlain's Cough Remedy. Pneumonia  
always results from a cold or from an  
attack of influenza (grip), and it has  
been solved that this remedy counter-  
acts any tendency of these diseases to  
ward pneumonia. This has been fully  
proven in many thousands of cases  
in which this remedy has been used  
during the years, and can be relied  
upon with implicit confidence. Pneu-  
monia often results from a slight cold  
when no danger is apprehended until  
it is suddenly discovered that there  
is fever and difficulty in breathing and  
pains in the chest, then it is announced  
that the patient has pneumonia. Be on  
the safe side and take Chamberlain's  
Cough Remedy as soon as the cold is  
contracted. It always cures. For sale  
by all druggists.

#### LAS VEGAS.

From the Record.

Mrs. J. H. Swallow, wife of the con-  
ductor, is reported quite ill with an  
attack of pleurisy.

Sheriff Jose R. Lucero, of Dona Ana  
county, arrived in the city from Las  
Cruces on business connected with his  
office.

The committee soliciting subscrip-  
tions to build the wagon road from El  
Corazon to this city are meeting with  
good success and it is highly probable  
the road will be built in the near  
future.

A. D. Higgins has entered suit  
against the Southwestern Savings,  
Loan & Building association to have  
certain moneys distributed according  
to their by laws. The plaintiff is the  
owner of stock in the association and  
claims the money has not been distrib-  
uted as the by laws require.

A child recently died in the old town  
of diphtheria and two girls of the  
family who are employed in private  
families on this side as well as a busi-

ness man of this side, attended the  
burial and visited the family despite  
the fact that they had been warned by  
a physician not to do so, and after the  
funeral the girls attempted to return  
to work, but were told by their em-  
ployers that they could not do so for  
two weeks at least, but the man is at  
his place of business every day. The  
quarantine ordinance might be applied  
with good effect in this case.

From the Optic.

Mrs. Frank Springer has been very  
sick.

Mrs. R. G. McDonald is reported seri-  
ously ill at the home of her daughter,  
Mrs. T. J. Raywood.

A dispatch received this morning  
states that Juan B. Larrazolo, son of  
O. A. Larrazolo, down at Mesilla Park,  
is much improved and rapidly recover-  
ing from a surgical operation.

The different parties who scattered  
through the country in different direc-  
tions looking for the hold-ups, yester-  
day, have all returned to the city, dis-  
courage.

The four children of H. G. Coors  
have been down with scarlet fever, and  
the house strictly quarantined, almost  
ever since they established their tem-  
porary residence in Los Angeles, Cal.  
However, the danger point has now  
been passed in each case and the little  
folk are on the road to recovery. Mrs.  
Coors happily took Maggie Burns, the  
nurse, with her on her trip with her  
family to California.

SANTA FE.

From the New Mexican.

Captain W. E. Dame, of Albuquer-  
que, clerk of the court of the Second  
judicial district, and formerly a resi-  
dent of this county, is greeting friends  
here.

Mrs. W. H. Greer, of Deming, who  
arrived in town with Mr. Greer Mon-  
day last, has been seriously indisposed  
during nearly the entire week with a  
severe attack of tonsillitis and will be  
unable to attend the reception by the  
Governor and Mrs. Otis at the execu-  
tive mansion this evening. Mrs. Greer  
is slightly improved today but it will  
be several days before she will be able  
to leave her apartment at the Palace  
hotel.

The Methodist church has made ap-  
plication for a loan from the Board of  
Trade Extension society at Philadel-  
phia, and in reply the Rev. Dr. A. P.  
Morrison has received a letter from the  
secretary of the board saying that the  
loan cannot be made just at this time  
on account of the fact that other  
churches throughout the land have  
been making loans from this board up  
into the hundreds of thousands of dol-  
lars and have not paid their overdue  
loans, and therefore the loan fund is  
not in a position to respond to the ap-  
plication until some of these loans are  
paid, but it is thought that it will only  
be a few months until some of them

are paid up. The congregation is now  
contemplating finishing up the base-  
ment of the new church and worship-  
ing in it temporarily until they can  
complete the upper story.

#### A Liberal Offer.

### SMOTHER A COUGH.

You can smother a cough with your hand but you can't cure it that way. Some medicines only smother coughs.

That is exactly the kind of thorough work Scott's Emulsion does. It changes the entire nature of the throat and lungs so that there is nothing to cough about.
