## DIPLOMATIC DIFFICULTIES

### Minister Bowen and British Ambassador Disagree.

#### THEY HAD A VERY HEATED ARGUMENT

#### Bowen's Stand for Venezuela Not Pleasing to Great Britain.

Washington, Feb. 6.—Confirmation of the London dispatch of yesterday, to the effect that Bowen and the British ambassador, at their interview on Monday, had a somewhat heated argument was obtained here today.

Indeed, it is stated that should the character of the cablegrams that the British ambassador has been sending to his government regarding the attitude of Minister Bowen, become public the country would be furnished with a sensation of diplomatic incidents.

It is the opinion of the Venezuelan negotiators, other than the British ambassador, that the latter is directly responsible in the abrupt breaking off of the negotiations with Mr. Bowen.

It is the opinion in official circles here that Minister Bowen has an absolute right, acting for Venezuela, of course, to object to President Roosevelt's acting as arbitrator. To do so would cause pain to Mr. Bowen, whose admiration for Mr. Roosevelt is well known, but he feels obliged to keep well in mind that he is here, not as an American, but as representative of Venezuela.

The British ambassador's conduct has resulted in several important details of the momentous conference of Monday last leaking out, and these are substantiated now by the other negotiators present.

It seems that when the British ambassador, who took the lead at this conference, had finished reading the cablegram of Lord Lansdowne for a 20 and 10 per cent division of the custom receipts of Porto Cabello and La Guayra between the allies and the other claimant nations respectively, Mr. Bowen at once remarked in an emphatic way that the proposition was but another scheme to trick Venezuela into abetting an alliance against her for six years and probably longer. He added that he would not consent to any scheme for continuing the triple alliance one day longer than he was forced to.

A diplomat stated afterward: "It was Mr. Bowen who exploded a bomb shell the moment the proposition was made."

Charges that Great Britain was endeavoring secretly to continue her alliance with Germany was resented by the British ambassador, though he showed no ill feeling at the conference.

At the conference, it is said, he sent a cablegram to London stating that he was displeased with the conduct of Mr. Bowen, and that if it were left to him to decide he would not continue negotiations with him. He expressed to his conferees of the diplomatic corps the greatest indignation that an ambassador from the coast of St. James should be so treated.

On the other hand, both the Italian ambassador and the German minister, have taken occasion on several times since the Monday conference that Bowen had treated all the negotiators with uniform courtesy and surprising generosity throughout the negotiations, and only yesterday both of these diplomats called and expressed thanks for his consideration of them.

"Mr. Bowen must stand up for Venezuela," it was explained, "and if he did not he would forfeit our respect."

Another feature of the last twenty-four hours has been the receipt of an exceedingly tart cablegram from Lord Lansdowne at the British embassy.

The cablegram, it is stated, went so far as to remind the British ambassador that he was here to obey orders.

#### Blockade Will Be Raised.

London, Feb. 6.—It is officially announced that the allies offer to submit the method of treatment of their claims to arbitration is a concession which should facilitate rather than delay a speedy settlement of the Venezuelan affairs. The allies will raise the blockade as soon as the protocol embodying the arbitration agreement is signed and will not await the decision of The Hague court of arbitration of that of President Roosevelt.

At the German embassy it is said that the blockade should be raised within a few days.

Emphasis continues to be laid on the convention that the point the allies

now agree to arbitrate is not preferential, but separate, treatment of their claims.

#### Herbert-Bowen Incident.

London, Feb. 6.—At the foreign office here tonight it was said the officials regarded the Herbert-Bowen incident as closed; that they did not consider it to be the slightest bar to a satisfactory solution of the Venezuelan question.

#### FROM WASHINGTON.

Short Proceedings Reported from the Senate and House.

Washington, Feb. 6.—In the senate today a conference was agreed to on the general staff bill, and Cockerell, Quarles and Foraker were appointed conferees.

The resolutions of Mr. Morgan, introduced yesterday, calling on the secretary of the navy for all reports and correspondence regarding the military occupation of the bays of Panama and Colon, was laid before the senate. Mr. Morgan explained the object of the resolution and on motion of Mr. Culom they went into executive session.

#### The National House.

Washington, Feb. 6.—In accordance with the special rule, the house met at 10 o'clock to continue the debate upon the anti-trust bill.

Mr. Foss, of Illinois, reported the naval appropriation bill.

Mr. Lawrence, of Massachusetts, the first speaker on the anti-trust bill today, heartily supported the measure, and was followed by Henry, of Texas.

#### DELAWARE MUDDLE.

They Are Just as Bad in Electing Senators as Colorado.

Dover, Del., Feb. 6.—A proposition from the democrats to aid in the election of two regular or anti-Addicks republicans is believed by many to be the only solution of the muddle created by the retirement of Mr. Addicks. Former United States Senator Kenney, one of the democratic leaders, has submitted a proposition to the democratic caucus, involving an offer to the regular republicans of the solid support of the democrats for the nominee of that faction for the long term in the United States senate, leaving the short term vacant.

#### TERRY, THE TERRIBLE.

McGovern and Bernstein in Squared Circle Tonight.

Philadelphia, Feb. 6.—For the first time in a long while Terry McGovern, the former lightweight champion, is to be seen in the squared circle tonight. Failing in his endeavors to secure a return match with "Young Corbett," the little Brooklyn fighter has decided that it would be better to go against some of the lesser lights of pugilism rather than remain in complete idleness. His opponent tonight is to be Joe Bernstein and the scene of the encounter will be Industrial hall. The Philadelphia law limits the bout to six rounds with no decision.

The local sporting fraternity looks upon Bernstein as an unworthy opponent for the former champion and as a consequence is not attracting the attention that it would if the contestants were more evenly matched. While Bernstein in the course of his pugilistic career has defeated some good men of his class he has at the same time been vanquished by men of small reputations, including Sammy Smith, the local featherweight, and other men of small caliber.

Both men have put the finishing touches to their work of preparation and appear to be in excellent shape for the bout. A number of sporting men have arrived from New York, Baltimore and other cities to witness the fight.

#### From the Business Man's Standpoint.

Ann Arbor, Mich., Feb. 6.—Prof. William A. Scott, of the University of Wisconsin, opened today's sessions of the national conference on higher commercial education with an interesting paper on the place of higher commercial education in a university course. Other papers and addresses presented

during the forenoon were as follows: "Co-ordination of High School and University Instruction in Commercial Education," Prof. C. A. Herrick, of Philadelphia; "The Function of the Business Community in Higher Education," Dr. Edward D. Jones, of the University of Michigan.

The business men had the platform this afternoon and presented their views on the general subject of discussion. A symposium discussion was held of the question, "What Can a University Contribute to Prepare for Business Life?"

David M. Parry, of Indianapolis, president of the National Association of Manufacturers, replied to the question from the standpoint of the manufacturer. The reply of the transporter was made by Edwin J. Abbott, a veteran railroad man of Boston. The answer from the standpoint of the wholesale dealer was given by A. C. Bartlett, a prominent merchant of Chicago. James B. Hill, of New York, replied for the corporation lawyer. The speakers to be heard this evening include Prof. James C. Monaghan, of the University of Wisconsin; Prof. Robert H. Thurston, of Cornell university; Prof. Henry S. Carhart, of the University of Michigan; and Prof. George M. Fisk, of the University of Illinois.

#### Fire at San Rafael.

F. H. Kent, the third street real estate and insurance agent, received a telegram this afternoon from Grants, out on the Santa Fe Pacific, that the store of Nathan Barth, located at San Rafael, was entirely destroyed by fire last night. Mr. Barth holds an insurance in one of the Kent companies for \$5,000. The gentleman left this city a few days ago for Los Angeles, Cal., where Mrs. Barth and daughter have been the past few weeks.

#### PEACE TO HER ASHES.

Mrs. Louisa M. Thomas Buried in Fairview This Morning.

#### LARGELY ATTENDED FUNERAL.

The funeral of Mrs. Louisa M. Thomas was undoubtedly the largest attended funeral that Albuquerque has seen for many a day. Higher respect could not have been shown the good and estimable lady than was shown by the hundreds of sorrowful friends of the family in this city and surrounding territory this morning.

Friends from all parts of New Mexico arrived in the city yesterday and today to show their esteem of the friendship of one so dear. The untimely and a distressing death has cast a mournful gloom over every community of her associations.

The cortege left the home on Lead avenue at 9:30 o'clock and proceeded to the church of Immaculate Conception, where the requiem high mass began at 10 o'clock. Rev. A. M. Mandahl being celebrant; Rev. C. Capilupi, S. J., deacon, and Rev. M. Izaguirre, S. J., sub-deacon. Rev. J. McNamara acted as master of ceremonies and directed the sanctuary boys' solality. The music was rendered by the church senior choir, directed by Mrs. Thomas F. Shinnick.

After the mass the rites of absolution over the corpse were given, which closed the ceremonies in the church.

The catafalque between the corpse and altar was covered with burning candles.

The altar candles were draped in black.

After the ceremony was over friends placed wreaths of flowers on the casket.

Immediately after the religious ceremony the long procession of carriages proceeded to Fairview cemetery, where the burial took place by a special dispensation obtained from Archbishop Pitaval, of Santa Fe. This special dispensation was granted, owing to the fact that the husband, Dr. Thomas, and a child, are buried there in the family lot.

Notwithstanding the funeral took place during one of the worst snow storms imaginable—a storm unusual for this section—the attendance was very large, and the string of carriages that followed the remains extended for many blocks.

The pall bearers were Messrs. N. E. Stevens, F. H. Kent, W. R. Whitney, J. L. Summers, Gov. E. S. Stover, and Dr. G. W. Harrison. Undertaker Harry Strong had charge of the funeral.

Hon. J. Lorenzo Hubbell, one of the bereaved brothers, after a hard drive from his place of business at Granada, Ariz., to Gallup, reached there in time to catch the passenger train for this city and arrived here this morning, just in time to attend the last sad rites over the remains of his beloved sister.

## UGLY STRIKERS

They Are Rioting in the Streets of Montreal.

STRIKERS ARE FRENCH CANADIANS

Colorado Miner's Dead—Fatal Collapse of a Building.

INCREASES IN RAILROADERS' WAGES

Montreal, Feb. 6.—Rioting by the strikers of the employees of the Montreal street railway and their sympathizers started early today.

A car was wrecked less than two hours after the mass meeting held after midnight, at which the action of the union in ordering a general strike was endorsed.

More than 1,000 street railway employees attended the meeting and an equal number of their friends waited outside the hall to hear the result of their deliberations.

The news that a general strike had been declared was received with cheers and the strikers, accompanied by their friends, marched toward the car barns, shouting and singing.

A large crowd assembled at the head barn in Cote street. The word was passed around that a car was running on one of the principal streets. A crowd of strikers and their friends went to meet it. When the car reached the corner it was met with a volley of stones. The motorman was roughly handled and forced to leave the car. The mob hurled stones and bricks at the car, completely wrecking it.

Later, a motorman, who attempted to run a car out of the barn, was assaulted and so badly injured that in all probability he will die.

A majority of the strikers are French-Canadians and have the sympathy of that portion of the community.

#### MINER'S DEED.

Shot His Wife and Then Killed Himself.

Leadville, Colo., Feb. 6.—Valentine Casagrande, a miner at Cardiff, today fired two shots at his wife, striking her in the neck, and then placing the muzzle to his ear killed himself. The woman is mortally wounded. The wife had left him and was living in Leadville. Jealousy was the cause of the deed.

#### ALL GET INCREASES.

Railroad Men on St. Louis Railroads Get Raises.

St. Louis, Feb. 6.—Vice President Allen reached his office at the Missouri, Kansas & Texas railroad headquarters today and at once went into executive session with General Superintendent Maxwell, who had the matter in hand until the general manager's return, the ultimatum of the 1,000 conductors and trainmen of the road for an increase of wages amounting to 15 per cent. It was stated that all the steps taken and all the facts bearing on the situation are being gone over carefully.

It was given out that the Missouri, Kansas & Texas road gave the freight men 15 per cent, the passenger men 12 per cent, and the other four roads will grant the same increase.

#### BUILDING COLLAPSED.

Five Men Killed and Several Injured at Buffalo, N. Y.

Buffalo, N. Y., Feb. 6.—Five men, Joseph Becker, William Burke, John Schneider, Adam Horzog, and Michael Ambrose, were killed, and Mr. Strauss and Charles Fagel were fatally injured, by the collapse of a brick building at Williams street and Fillmore avenue, formerly occupied by Strauss & Son as a tannery. The men were part of a force engaged in razing the building, preparatory to the erection of a new one. Several other men are reported injured.

#### Double Sadness.

Yesterday, J. Felipe Hubbell, who was in the city mourning with the other brothers over the tragic death of their sister, Mrs. Louisa M. Thomas, received a telegram from Reading, Pa., giving him the information that his father-in-law, James M. Kelly, had died in the morning at 8:30 o'clock. Mrs. Hubbell, the far-away daughter, was

as soon as possible notified of her father's death and today she is reported to be prostrated with grief. The deceased was an old soldier and a prominent gentleman of his section of Pennsylvania. He was 64 years of age.

#### No Strike in View.

St. Louis, Feb. 6.—General Manager Allen, of the Missouri, Kansas & Texas railway, stated this afternoon that the differences between his company and the trainmen had been settled and there would be no strike.

#### Body of Mrs. Peck Found.

New Haven, Conn., Feb. 6.—The body of Mrs. Tracy Peck, wife of Prof. Peck, of Yale university, was found today in Fort Hale park, of Yale university. Mrs. Peck disappeared yesterday.

#### Want More Time.

Dover, Del., Feb. 6.—The regular republicans asked at the Addicks caucus for an extension of time until next Monday. The others reluctantly yielded to the request.

#### Patti Is Coming.

London, Feb. 6.—Adelina Patti has finally signed a contract for sixty concerts in America, commencing November 3 next.

#### Quietly Married.

At the Baptist parsonage last night occurred the wedding of W. J. Barbee and Miss Mable Morehead, Rev. Hodgson, pastor of the Highland Methodist Episcopal church, performed the ceremony.

The groom is a stenographer in Santa Fe Storekeeper Rice's office. The bride is recently from Indianola, Miss. They will make their home at the Highland hotel at the present.

#### OLD FASHIONED STORM.

The "Beautiful" Came Down in Large Flakes This Morning.

#### SNOW BALLING INDULGED IN.

At last Albuquerque has received a touch of the snow ball season, and for awhile this morning the hard and soft balls of snow were flying in all directions. The spirit seemed to have a tendency to effect the unusually dignified natures of the men as well as the ever revolting spirits of the boys.

The snow storm that visited the city this morning was the heaviest fall that has been evidenced in Albuquerque for several years, and it is not unwelcome by the people of the dry and sunny climate.

But snow and the high altitude are not compatible and consequently at noon the white covering began to disappear as quickly as it came, but not until the people had received some enjoyment from it.

About noon the snow fall was very beautiful, and many an eastern bred citizen, made a special effort to get out and mingle with the white visitor.

Snow to the extent it fell today is seldom heard of here, and were it to return in larger quantities and remain a week or so it would be an unwelcome guest. Although a snow fall may be a seldom occurrence in Albuquerque, it is as remarkable as it is strange that the boys are so well versed in the art of making and throwing these seldom soft missiles. Many a good hat was broken or knocked off in the wet snow, and many a peaceful temper was roused to a fighting disposition, but taken all in all the people did not seem to mind a little bit of fun on the side, as many knew it was short lived. And those that did not, secretly wished for its disappearance.

But the beautiful white snow is going and now we are experiencing the disagreeable after effects.

Considering the snow from another point, it will be worth thousands of dollars to the stock raisers and ranch men, as dispatches received say that it was general and greatly appreciated by the stock raisers.

#### Entertained at Cards.

Mr. and Mrs. W. W. Strong entertained at cards at their home on Eighth avenue last night in a most pleasant manner. Progressive high five was the game and the players sat at four tables. Appropriate prizes were offered. S. Vann secured the first prize and Mrs. W. H. Hahn claimed the booby prize. Mr. Vann won the first prize by the cut, three contestants cutting.

Delightful refreshments were served at the tables. Alderman and Mrs. Ed Harach, Mr. and Mrs. W. H. Hahn, Mr. and Mrs. Bittner, Mr. and Mrs. Frank McKee, Dr. and Mrs. B. H. Briggs, Mr. and Mrs. S. Vann, Mr. Bogh, Miss Bogh and George A. Kaseman.

## TERRITORIAL LAWMAKERS

### Thirteenth Day's Doings of Legislative Assembly.

#### THAT COAL OIL INSPECTION LAW

Caused Lively Tilt in Council, But Law Was Repealed—Other Important Legislation.

#### Special to The Citizen.

Santa Fe, N. M., Feb. 6.—The council disposed of a large amount of business this morning and cleared off all pending bills and adjourned until Monday afternoon.

#### 13th DAY, WEDNESDAY, FEB. 5.

##### The Council.

Every member except Mr. Andrews, who is absent by leave, answered the roll call at the morning session.

The special order of the day, council bills Nos. 25 and 26, were called up, the council resolving itself into a committee of the whole to consider it. President Chaves presided over the committee.

Mr. Spiess moved the adoption of a resolution that council bill No. 20, to repeal the coal oil inspection act, be referred to a special committee of three to examine all coal oil legislation and to report upon legislation needed in that line. The committee was to report on February 12, the consideration of council bills Nos. 20 and 25 to be postponed until that day. Mr. Spiess said that the council ought to have some facts before it enacted further legislation on the subject of coal oil. He did not believe that the high price of coal oil in Dona Ana county can be blamed upon the inspection of oil. While he felt bound by the platform of the republican party, he did not believe that the coal oil plank had been adopted in calm judgment. Mr. Spiess made a learned argument on the qualities of coal oil, the necessity of inspection and that the passage of an act requiring a flash test of 160 degrees would compel the users of kerosene to go back to tallow dips.

Mr. Hughes maintained that there had been sufficient investigation of coal oil legislation the past four years. The council is ready to settle the question right now.

Mr. Fall, in defending the territorial republican platform, said in the words of Senator Quay: "If you lie about one plank in your platform, you can lie about them all." Therefore he was moved to make a strong plea to have the republicans of New Mexico stand by their platform pledges.

Mr. Hawkins regretted that Mr. Spiess desired delay. It is the duty of a legislative body to deliberate, but there had been plenty of deliberation in this case. Further delay would imply an ulterior motive. For two weeks the legislature had squabbled over the employes question, a question nauseating to the people, and now it is facing another squabble. The Thirty-fifth legislative assembly is in danger of passing into history as one of two ideas, employes and coal oil. He demanded that good faith be kept in party pledges. The Standard Oil company says that it does not care what legislatures do, but its representative always rushes to the capital when legislation of this character is up. "Let's get through with this question so that we can proceed with other important business."

Mr. Spiess said that Mr. Hawkins is too good to stay around with his colleagues and accused him of posing and offered to help him out. He denied that the Standard Oil company had anything to do with this legislation and asked for a direct statement that the Standard Oil company was behind this legislation.

Mr. Fall stated that only this morning, B. G. Wilson, representative of the Standard Oil company, had approached him and told him that a flash light test of 160 degrees is unreasonable.

Mr. Spiess expressed thanks that he did not belong to the Tillman school of orators.

A motion that the committee rise and that action on the two pending bills be postponed until February 12, was defeated. Messrs. Spiess, Duncan, Martinez and A. Chaves voting for it. Those who voted "no" were Messrs. Albright, Hughes, Fall, Hawkins, Jaramillo and Pinard.

Council bill No. 20 was then adopted by sections in the committee of the whole which rose immediately afterward.

Council bill No. 20 was reported to

the council and was passed unanimously.

Council bill No. 25 was tabled indefinitely.

Mr. Hughes moved to adjourn until 10 o'clock Thursday forenoon, out of respect to Frank A. Hubbell, chairman of the republican territorial central committee, who had been sadly afflicted so recently.

The council then adjourned until Thursday forenoon at 10 o'clock.

##### The House.

Every member answered the roll call at the morning session. Speaker Montoya announced that unintentionally he had omitted to name one of the members of the majority party as a chairman of any committee and he apologized for this omission and named Mr. Kilpatrick as chairman of the committee on apportionment and of the committee on enrolled and engrossed bills and added his name to the committee on municipal corporations. One speaker also appointed Mr. McCash on the committees on which Mr. Holland had served. He announced that he would appoint two more members on the judiciary committee.

Speaker Montoya was excused for an hour and Mr. Bowie was called to the chair in his place.

House petition No. 3 was introduced by Mr. Gutierrez by request. The petition asks the legislature to amend the statutes regulating the practice of medicine and establishing a territorial board of health so that any person of good repute and fair knowledge may sell medicine and treat patients. The petition was referred to the committee on Indian affairs upon motion of Mr. Cristoval Sanchez.

The following bills were then introduced:

House bill No. 59, an act to require county school superintendents to furnish their official bond and to qualify within a time and for other purposes. Introduced by Cristoval Sanchez. Referred to committee on education.

House bill No. 60, by Mr. Daines, an act to provide for the compensation of enumerators of persons of school age. Referred to committee on finance.

House bill No. 61, by Mr. Turner, to amend section 1, chapter 46, of the compiled laws of 1901, to protect elk, deer and mountain sheep. Referred to committee on judiciary.

House bill No. 62, by Mr. Turner, to amend chapter 10, section 1, of the acts of the Thirty-fourth legislative assembly relating to bounties on wild animals.

House bill No. 63, by Pedro Sanchez, an act providing means for the United States land commission to continue its work in selecting lands for the territory and reimbursing advances made for the purposes. Referred to the committee on lands and public lands.

House bill No. 64, by Mr. Romero, an act relating to allowing heads of families an exemption of \$200 and to amend section 8, chapter 22, of the laws of 1899. Referred to the committee on agriculture.

House bill No. 65, by Mr. Coleman, an act to compel railroad companies and corporations to furnish two white brakemen on all passenger trains of over three cars. Referred to committee on railroads.

House bill No. 66, by Pedro Sanchez, an act amending the statutes relative to the duties of sheriffs in the collection of licenses from gambling houses and saloons. Referred to committee on education.

House bill No. 67, introduced by Mr. Pendleton, an act to repeal section 1757 of the Compiled Laws of 1897, relating to the exemption of \$200 of heads of families from taxation. Referred to committee on judiciary.

House bill No. 68, by Mr. Pendleton, an act to amend council bill No. 23, approved on March 14, 1901, relating to public schools. Referred to committee on education.

House bill No. 69, by Martin Sanchez, an act providing for the payment of territorial officers. This bill provides that territorial officials must make their headquarters in the offices in the

Champ Clark, the Missouri states-

very busy and up to date rumor fac-  
tory. Between bubonic plague stories

committed by Yaqui Indians. But old

## BANK ROBBERIES.

Fifty-six bank robberies are reported  
to have occurred in this country dur-  
ing the last four months. Illinois and  
Nebraska report seven each, Indiana  
five, Texas and Missouri four each,  
Iowa, Kansas and Nebraska two each  
and New Mexico one. These surpris-  
ingly numerous crimes suggest a wide-  
spread bank robbing organization, and  
recent events tend to confirm the idea.  
Under the present national law, banks  
with small capital are multiplying in  
towns and villages. Bank robbing  
gangs appear to have increased corre-  
spondingly. The situation suggests  
careful precautions on the part of  
banks and vigilance in police and de-  
tective circles.

An epidemic of diphtheria among the  
children of Passaic has been traced to  
the school room, says the Philadelphia  
Inquirer.

In these days slate pencils have been  
abolished and lead pencils take their  
place. They are collected and distrib-  
uted daily, and one child with dipht-  
heria managed to spread it broadcast.  
Every child has an almost uncontroll-  
able desire to bite the end of a lead pen-  
cil, and in this way the disease has  
spread, with fatal results. While it is  
possible to make too much of the germ  
theory of disease, there are certain  
precautions which are necessary at all  
times.

Thoughtful parents will not allow  
their child to use one of the pencils  
furnished by the schools, but will sup-  
ply their own. They cost little, but  
there may be a life saver in this pre-  
caution. Sanitary science has succeed-  
ed in greatly benefitting school chil-  
dren and cutting down the chances of  
disease, but there are still many avenues  
of danger, and they should be  
closed when possible. A cent spent for  
a pencil is a cheap safeguard against  
infection.

## SENSATIONS BY CONTRAST.

A pardon has been granted to Cole  
Younger, provided he will keep out of  
Minnesota. He has been a prisoner at  
Stillwater since 1876, and the adven-  
tures and imprisonment of the Young-  
er brothers has been a continual sen-  
sation. Each succeeding phase of  
their story has held the absorbed at-

Many a child  
has been fooled  
by the story of  
the pot of gold which  
is to be found just  
at the foot of the rain-  
bow, and has started  
out to gather riches  
full of happy dreams.  
Many a man and  
woman have been de-  
ceived by the tale that  
there was health to be  
found out beyond the  
sunset, and they have  
started out dreaming  
of a healthful future,  
never to be realized.

People who have tried change of cli-  
mate in vain for the cure of weak lungs  
have been perfectly and permanently  
cured by the use of Dr. Pierce's Golden  
Medical Discovery. It cures deep-seated  
coughs, bronchitis, bleeding lungs, em-  
physema, and other conditions which, if  
neglected or unskillfully treated, find a  
fatal end in consumption.

"Last spring I had a severe attack of pneu-  
monia which left me with a very bad cough,  
and also left my lungs in a very bad condition,"  
writes John M. Russell, Esq., of Brent, Chesh-  
ire, Eng. "I had no appetite and was so  
weak I could scarcely walk. My breath was all  
sore with running sores. I got two bottles of Dr.  
Pierce's Golden Medical Discovery, which I be-  
lieve saved my life. I cannot express my grati-  
tude to you. I am able now to do very good  
work."

Any substitute offered as "just as good"  
as "Golden Medical Discovery" is a  
shadow of that medicine. There are  
cures behind every claim made for the  
"Discovery," which no "just as good"  
medicine can show.

tion of the country. Meanwhile  
crimes exactly similar to theirs go on  
all the year round, to which none ex-  
cept local and transitory attention is  
paid. Bank after bank throughout  
the prairie states has been robbed in  
the last two years. If the story had  
gone abroad that the Youngers were  
doing the robbing every bank would  
have been guarded by a score of regu-  
larly paid officers, but because the  
gang was made up of unknown toughs  
the bankers slept peacefully every  
night. At last the band was betrayed  
this week by a sudden snow storm in  
Illinois, tracked to a barn and caught,  
yet the matter was deemed of so little  
public interest that it was given only  
a stilted type in the press dis-  
patches. Had it been the Youngers  
or the James gang six columns would  
not have been too much. All of which  
shows what funny people are.

## Amusements.

Managers Seamans and Matchette, are  
desirous of calling the attention of  
theater goers to their present Olympia  
Opera company; they want all their  
friends to see and enjoy it. In New  
Orleans, Dallas, Little Rock and San  
Antonio this company was credited  
with being far superior than anything  
of its class that tours this circuit. This  
shows what American pluck and enter-  
prise can do. These gentlemen have  
always insisted on having the best and  
they certainly have it in this "Olym-  
pia" company, or all the dramatic crit-  
ics and amusement seekers in the  
cities visited are at fault. The prin-  
ciples are all talented and the girls are  
all said to be pretty. The productions  
are elegantly costumed and presented  
in a finished and artistic manner, while  
the repertoire seems to contain the  
brightest and wittiest of librettos, filled  
with music that is tuneful and  
catchy, interpolated in which is to be  
found all the late song hits, worked  
up with pretty stage business and  
crowded in a most delightful man-  
ner; for these and for any other equal-  
ly as good reasons, no one should fail  
to be on hand when the curtain rises  
on the first act of "Said Pasha," Feb-  
ruary 13 and 14.

## Coming Saturday Night.

The only appearance here this sea-  
son of the brightest gem from the New  
York Casino successes, "The Tele-  
phone Girl," will be on Saturday night  
at the Colombo hall. Of the merit of  
this musical comedy as a laugh pro-  
ducer much can be expected. It is  
heralded as the best of Hugh Morton  
and Gustave Kerker's many successes  
in this field, an assertion that has  
been proven truthful inasmuch as it  
has been a most pronounced "go" all  
over the country. The acting compa-  
ny supplied by the management is un-  
doubtedly no small factor in the suc-  
cess of "The Telephone Girl," for the  
names submitted are of players who  
are known to give a good account of  
themselves in this line of the amuse-  
ment business. Among those are Joe  
Kane, as "Hans Nix," an excellent and  
original comedian who is playing the  
leading character; Edith Valmaseda,  
Alf Holt, Pearl Revare, James Devlin,  
Georgé Ebner, Mamie Keogh, Milton  
Dawson, Jethro Warner, Ruby Marion,  
Lillie Bernard, Maud Courtney, Ruth  
Jordan and a host of bewitching chor-  
us girls.

## Cancer Cures.

Mr. W. W. Prickett, Smithfield, Ill.,  
writes, Sept. 10th, 1901: "I had been  
suffering several years with a cancer  
on my face, which gave me great an-  
noyance and unbearable itching. I was  
using Ballard's Snow Liniment for a  
sore leg, and through an accident, I  
rubbed some of the liniment on the  
cancer, and as it gave me almost in-  
stant relief, I decided to continue to  
use the liniment on the cancer. In a  
short time the cancer came out, my  
face healed up and there is not the  
slightest scar left. I have implicit  
faith in the merits of this preparation,  
and it cannot be too highly recom-  
mended." 25c 50c and \$1.00. For sale

## Railroad Topics

Carl Deed is in from Winslow.

R. S. Goodrich, private secretary to Superintendent I. L. Hibbard, of the Winslow division, is in the city.

Eleven stone masons passed through the city last night en route to Belen to go to work on the Santa Fe cut off.

Officials of the New York Central have engaged sixty emergency surgeons. Such honest confession really is startling.

F. L. Myers, the popular, accommodating agent of the local Santa Fe station, is around this morning with one eye tied up. A severe cold is the ailment.

Yardmaster Al Walden was able to resume his duties in the Las Vegas yard yesterday, after several days on the sick list. Not feeling any too good, though.

Alfred Jaques has recently been promoted to the position of station agent at Mesilla Park, N. M., where he has been for several days in the discharge of his duties.

Passenger No. 1 from the north, due here last night at 10 o'clock, did not get in until about 5 o'clock this morning. Bad weather on the Chicago division was the cause of its lateness.

Hary Lantry, of B. Lantry Sons, the railroad construction contractors, passed through the city last night bound for Rio Puerco station, where he will superintend the building of a bridge over the Rio Puerco.

"Kid" Burch, who claimed to have fought "Dummy" Rulan fourteen rounds at Butte, Mont., March 16, 1901, with favorable results, was recently employed on the ice train at Las Vegas, but resigned to go to Winslow, Ariz., to give two sparring exhibitions.

Father D. W. Kendrick, of St. Louis, the Catholic priest who fell off an Southern Pacific passenger train at El Paso, Friday night, died on Saturday at the Hotel Dieu as a result of his injuries. The deceased stepped from the train before it had stopped and was very badly hurt. He was a very prominent divine in St. Louis.

The report comes from Jefferson City, Mo., that one of the legislators of that state has introduced a bill requiring all train dispatchers to learn how to operate a typewriter, and also requiring the railroads to keep one in every little way station of Missouri. The legislator has an idea that if all train orders were typewritten it would lessen the number of accidents occurring because of misread orders.

R. K. Thompson, a Santa Fe Pacific engineer in the employ of the company on the Arizona division, was killed in Seligman Monday morning. According to reports which reached here he met his death by being run down by a switch engine in the yards. He was in the act of boarding his own engine to leave the station when the "goat," which was running on a parallel track caught him, grinding him to pieces under the wheels.

Passenger No. 2 from the west this morning brought to the city private cars Nos. 223 and 100, occupied by the following Santa Fe coast line officials: General Superintendent F. J. Shepard, General Manager Arthur G. Wells and Division Superintendent I. L. Hibbard. Trainmaster E. J. Gibson, of the Albuquerque division is also here. They are on one of their periodical tours of inspection and will spend a day or two in Albuquerque.

Mrs. Eckles, wife of Fred Eckles, the well known and popular switchman at Las Vegas, died Tuesday afternoon at 1 o'clock of tuberculosis, aged 36 years. She leaves a husband and two children to mourn her death. The remains were shipped to Chicago on No. 8 Wednesday night, accompanied by the sorrowing husband and motherless children. The husband will place the children, a boy of 6 and a girl 8 years of age, at school ere he returns here. Mr. Eckles has the sympathy of the entire community in his sad bereavement.

#### COFFEE'S PLACE.

**A Tennessee Physician's Experience.**  
The man of medicine can tell many interesting tales when he has a mind to, but the most interesting of all is when he tells of the benefits to be had from pure, scientific food and drink (such as Postum Food Coffee) used in place of ordinary coffee.

In an explicit letter from a physician of Henderson's Cross Roads, Tenn., he says: "I drank coffee until I was a physical wreck suffering with constant and severe headaches, heartburn and extreme nervousness. Finally I became a confirmed dyspeptic and consequently weak and irritable although I am by nature very strong and cheerful. I lost about 25 pounds.

"Finally my nerves were shattered to such an extent that I would regularly wake from sleep in a highly nervous and excited condition. By day I suffered from attacks of vertigo and palpitation of the heart, then I began to believe it was the work of coffee. The constant over-stimulation of the cardiac ganglia of nerves from coffee had produced exhaustion of the governing apparatus of the heart. The slightest exertion worried me almost to collapse. My hair grew gray, although I was but 35.

"My knowledge as a physician told me my condition was serious. I quit the use of coffee and improved for a while but very slowly. Then my attention was called to Postum. I got some, made it right, and found it delicious.

"In a week I could eat as heartily as ever without the least distress to my stomach or injury to my nerves. I gained flesh up to 182 pounds and the disordered condition of the heart ceased. I am now free from rheumatism which oppressed me steadily while I was using coffee.

#### A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

"Stoney" Ball, the Albuquerque colored man who recently caused a whole lot of excitement at Belen, is still confined in the Los Lunas jail, where he will remain until the commencing of the next grand jury for Valencia county. The report that he was in a critical condition and likely to die as the result of his beating at Belen is false. "Stoney" is getting along nicely, and no doubt will be in good condition to wear the stripes, provided the grand jury finds an indictment against him and he is convicted and sent to the penitentiary for his Belen fun.

## ROBBERS AT LAS VEGAS

Two Masked Men Make a Successful  
Haul From Roulette Wheel.

"HOLD UP YOUR HANDS."

From Las Vegas Record, Feb. 4.

Last night about 11 o'clock, there occurred one of the boldest hold-ups and robberies ever perpetrated in this city.

At the above hour two masked men with drawn revolvers walked into the bar room of Raywood & Co.'s wholesale liquor house, just across the bridge, and coolly demanded the five men present in the room to "throw up their hands," and then proceeded to rifle the safe and roulette table of all the money in sight, after which they walked calmly out of the side door and disappeared in the darkness, leaving those who were present in the room at the time, stupefied with the coolness and deliberateness of the crime.

They entered the room through the side door of the bar and gambling rooms, which are situated in the rear of the building, and before any one could realize what they were up to, had everyone present covered with two revolvers and proceeded to carry into execution what was evidently a well planned robbery. The bar is run by the Raywood company, while the gambling privilege is owned by Harper & Coe, who are losers to the extent of about \$450 by the daring hold-up.

Ed. French, who was the bartender on duty, describes the affair in the following manner:

## Story of the Crime.

Mr. French, in relating the facts in the case, said: "It was about 11 o'clock and I was sitting on a stool at the end of the bar reading, when some one in the gambling room rang the bell for drinks, and I got up and took their orders and had just served them and had returned to the bar, when the door opened and two men entered together, one of whom pointed his revolver over my head, at considerable of an elevation and addressed all present, with the command 'throw up your hands!' repeating the command two or three times. I thought it was some one trying to fool us, so I sat still, but happening to look into the other room I saw that Mr. Coe and Mr. Blakely both had their hands elevated, while I heard Blakely ask if they wanted them to line up and the man with the gun said he wanted everyone to line up with their face to the wall, and then noticing me standing there he said: 'Get around there and line up,' and I told him not to be in such a hurry, that I didn't see anyone buying anything, and he replied: 'I don't want to hurt anyone.' He then kept us covered while his companion went to the roulette table, where he took all of the silver on the table and put it in his pocket, and then walked around behind it, opened the money drawer and took what was there. He then proceeded to the safe, which was unlocked, opened it and took all the money, but left a gold watch and a diamond ring. When he had secured the money from the safe, the man with the gun said: 'Come on; that's enough,' and they both turned around and deliberately walked out of the door, paying no attention to anyone in the room, and disappeared in the darkness."

Mr. French says that the one who did the talking had a good clear voice and spoke very distinctly, without any signs of foreign accent, was about 5 feet 6 inches in height, would weigh about 150 or 160 pounds, and had dark eyes. He wore a soft black hat and a ducking coat, dark in color, buttoned at the top, while his face was covered from his eyes down with a mask of what appeared to be a piece of dirty cheese cloth. His companion never spoke a word during the whole time, and wore a dark, soft hat, a light colored corduroy coat, and a mask of the same material as the other. He was not as tall as the one who did the talking, but would weigh about the same.

The guns which they carried, Mr. French thinks, were of a Remington or Smith & Wesson make, with blue barrels and appeared to be new. They were of a 44 or 45 caliber.

## As Told by Another.

Miles Sweaney, a stone mason, who was present during the excitement, tells the following version of the affair. He says: "About 10:45 two men entered at the side door with revolvers in their hands, and one of them commanded us to 'throw up your hands,' which all present done without delay. When we had all elevated our hands to a satisfactory altitude, one of the men slipped his gun in his pocket and walked over to the roulette table and took the money out of the drawer and off the table and then went over to the safe and took what money was there, slipping it all into the pockets of his coat, and never saying a word during the whole affair, but while he was securing the money I heard the man who had us covered say to French, 'I don't want to hurt anybody.' He done all the talking and when he ordered us to throw up our hands, Joe Blakely said to him: 'I guess here's where we make a losing,' and he replied, 'Yes.' They were in the room not more than five minutes and seemed to be old hands at the business, for when they had secured all they wanted, they backed out of the door, the one with the money going first, the other keeping us covered all the time, until they were outside, when one of them slammed the door shut."

Mr. Sweaney is confident that he would be able to recognize one of the

men among a thousand by his voice, which was of a peculiar tone. He describes the man who held them covered as being about 5 feet 8 or 10 inches tall and weighing about 145 or 150 pounds and had grey eyes. He wore an outside coat of dirty white and soft dark hat, while he wore a handkerchief tied across his face just below the eyes and completely enveloping the lower part of his face. This is the man he thinks he could identify. The other he describes as being about 5 feet 6 inches in height and weighing 140 or 150 pounds, wearing brown corduroy coat and masked the same as his companion. Mr. Sweaney is positive that both men wore two suits of clothes, the one on the outside being old and worn, while underneath they had on a good suit. Messrs. Harper, Coe, Clay and DeWitt Pearce left in both directions this morning with orders to stop every train leaving the city and search the same, but up to the hour of going to press nothing has been heard of them or what success they had in capturing the daring hold-ups.

## Second Hold-up Attempted.

W. M. Lewis, the undertaker, had an experience on his way home last night that he is not anxious to have repeated. About 12:10 this morning he was trundling his way home on his bicycle and was going west on Columbia avenue to Eighth street. Just as he reached the corner of Columbia and Eighth he noticed two men standing on the opposite corner, in the shadow, and not liking their appearance, he turned sharp around and started north on Eighth, when he heard one of the men call out for him to halt, but having heard of the hold-up at Raywood's he had no inclination to do so, so bent over the handle bars of his trusty steed and proceeded to peddle as he never did before. The command to halt was repeated, but as he paid no attention to it, a shot was fired at him, quickly followed by two more, but Mr. Lewis still peddled for life and liberty. When he reached the next corner and just as he was going under the electric light, a fourth shot was fired at him, but luckily missed its mark.

Mr. Lewis has no idea who his assailants were or what they looked like, but is of the opinion that they were the same men who did the holding up at Raywood's a short time previous. A rumor was in circulation today that it was the police who fired at him, but the rumor could not be traced to any reliable source, and it is very likely a second hold-up was intended.

capitol building assigned to them by the capitol custodian committee.

Mr. Baca moved immediate passage of the bill. Mr. Vargas opposed the motion. Mr. Martinez cautioned against rushing bills through the house in this fashion. Mr. Llewellyn also opposed the motion. Mr. Sanchez urged immediate action as the house had been in session eighteen days and but little had been accomplished. The bill in question was short, easily understood and meant no harm. The motion was defeated 11 to 8. Referred to committee on territorial affairs.

House resolution No. 6 was introduced by Mr. Baca, providing that the use of the chamber of the house of representatives be granted the New Mexico Historical society for a public meeting on Tuesday evening, February 17. The resolution was passed.

House resolution No. 8 by Mr. DaLes, providing that the title of all bills introduced convey the nature of the contents. The resolution was tabled by a vote of 11 to 4.

Council joint resolution No. 1 was referred to the committee on printing after being read. The resolution provides for the printing of Governor Otero's message to the thirty-fifth legislative assembly in English and Spanish.

A petition was read by Mr. Llewellyn, signed by the republican members of the house, asking that Mr. Coleman be permitted to name a house employee.

The petition was granted as was also the request that Mr. McCash be permitted to name a territorial employee.

The house then adjourned until Monday forenoon at 10 o'clock, out of respect to Mr. Frank A. Hubbell, chairman of the republican territorial central committee, whose family had been afflicted by a sore bereavement.

## DANDRUFF WON'T WASH OUT.

The Germ That Caused It Has to Be Destroyed, to Cure Dandruff.

Many a woman spends an hour twice a week scouring her scalp, thinking scrubbing off the scurf will cure the dandruff. Two hours a week, at the age of 40 years, she has spent 260 days of 12 hours each, or two-thirds of a year of her life, in that vain hope; vain, because you can't cure dandruff without killing the dandruff germ, and the only hair preparation on earth that will do that is Newbro's "Herpicide"—also a delightful hair dressing, and thorough antiseptic against all contagion from use of other's hair brushes.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

## STREET CHANGES.

It Will Cause a Whole Lot of Trouble, But Will Prove a Good Move in the End.

The predisposition of the city fathers to facilitate and simplify the naming of the city streets by altering the names of long standing has received comments from some of the citizens and censures from others, who have not fully considered the matter.

At a meeting of the city council about a month ago, all the numbered streets from "First" to "Twelfth" were changed to "North" and "South" streets to "Avenues" and "Streets." Thereby naming a street with two names instead of three. This change met with the approval of so many citizens, who are always in line for any movement for improvement, that the fathers decided that a complete change of all the streets in the city would be a most necessary and timely change. Rendering the naming of the streets more simple and eliminating the confusion, which is continually arising from the duplicate house numbers, when the direction is not specified. With the new scheme there will be no conflicting of the house numbers, as the northern portion of a street cannot be confused with the southern portion, as the northern will be known as "avenue" and the southern portion as "street." In connection with the numbered streets from "First" to "Twelfth," being changed to "avenues" and "streets," all the streets on the Highways have been changed in the same manner, as North Broadway to Broadway avenue, North Arno street to Arno avenue, North Edith street to Edith avenue, North Walter street to Walter avenue, and so on, taking in all the north streets above Walter avenue. The southern portion of these same streets are called "streets," dropping the "South" prefix; as, South Arno street to Arno street, South Edith street to Edith street, South Walter street to Walter street, and all the other southern portions are so named with the exception of South Broadway, which is changed to The Boulevard, and Acquila street to John street.

Then taking up all the streets that run east and west another change similar to this has been made. The superfluous prefix "West" will be dropped from all streets west of First street and the suffix "avenue" will be added to the former street name. In most cases this addition of "avenue" will be unnecessary, as the streets running east and west were known as avenues; as, West Railroad avenue to Railroad avenue, West Gold avenue to Gold avenue, West Silver avenue to Silver avenue. In all the western portions of the "avenues" the "West" has been dropped with the exception of the few complete changes as mentioned here; Tijeras road to Tijeras avenue, Huning avenue to Iron avenue, Baca avenue to Santa Fe avenue, Nicolas avenue to Cromwell avenue.

The eastern portions of these avenues are changed to "street," dropping the prefix "East," as, East Railroad avenue to Railroad street, East Gold avenue to Gold street. The exceptions to the rule governing the eastern portions, or formerly known as "East" avenue, are: East Carroll avenue, Tijeras Canyon road and Howard avenue to Carroll street, Washington avenue and Tijeras avenue to Tijeras street, Highland avenue to Hazeldeine street, Simonds avenue to Santa Fe street, Wheelock avenue to Pacific street. Another important change which will be worth mentioning, is that the street between block 48 and blocks 49 and 45 of the Original Townsite, extending east from Tenth street to the junction with Railroad avenue, is named Park avenue.

It will take the people only a short time to become familiar with the new street names, and they will find there will be less trouble and inconvenience in directing or being directed. This is an opportune time for such a change as has just taken place, as the city continues to grow there would be more difficulty in making the change. And, furthermore, there will be no more chances for kicking and expostulating by those who opposed the changes, as everything has been changed where a change was necessary. Whatever their reasons were is not even a guess. But the change has been made, now the only thing to do is to stop saying "North," "South," "East" and "West" where it is not required. For, if you say "West Railroad avenue" you will cause someone a whole lot of trouble by hunting for "East Railroad avenue" when there is no such street, but there is a Railroad street.

## Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes: My husband lay sick for three months; the doctors stated he had quick consumption. We procured a bottle of Ballard's Horehound Syrup and it cured him. If you had to furnish the doctor's instruments for an operation you would see that they were of a good make, strong and sharp. How about drugs, the prescriptions, you long for him to effect a cure with? You can't judge the quality of these, but must depend upon the druggist's reputation. ## THE GUARDS.

They Entertained at a Fine Dance Last  
Night.

The Albuquerque Guards were the  
hosts of a most pleasant evening at  
dancing last evening at Grant hall.  
The hall was filled to an enjoyable  
dancing capacity, and the delightful  
music furnished by the Berry-Devine

orchestra completed the happiness of  
the crowd.

The guards believe in nothing but  
the best, and when it comes to enter-  
tainment they certainly occupy a  
prominent place.

The dance was a success both so-  
cially and financially.

Another social dance will be given  
in a short time, at which the Berry-  
Devine full orchestra will be at the dis-  
posal of the dancers.

Championship basketball game at  
Colombo hall tonight. Minors vs. Uni-  
versity. Dance following.

## BASKET BALL PLAYERS.

Royally Entertained Last Evening by  
Miss Rose Harsch.

Miss Rose Harsch, the popular  
daughter of County Commissioner and  
Mrs. A. Harsch, in behalf of the High  
School Seniors, of which she is a mem-  
ber, entertained the Minors' basket  
ball team and the High School Juniors,  
at the home of her brother, Alderman  
and Mrs. Harsch, on the Boulevard,  
last evening.

The Minors and the Juniors spent a  
most enjoyable evening with the Sen-  
iors. Games, music and elegant re-  
freshments were the pleasing features  
of the evening.

Basket ball was the principal topic  
discussed, and the Minors received  
plenty of encouragement from their  
friends.

The entire crowd were basketball en-  
thusiasts, and the pleasant evening of  
entertainment shown the boys last  
night will be an incentive for them to  
put every effort into the game, which is  
to take place this evening.

If the Minors are successful and  
carry off the territorial championship,  
some of the credit will be due the  
young ladies, who have given the  
young basket ball players every en-  
couragement to win—the game.

Railway Section Gang in Nebraska  
Comes Upon a Singular Find  
by the Roadside.

The fairy tale of money growing  
on bushes was lately realized along  
the right of way of the Burlington  
railroad between Ryan and Alli-  
ance, says a Lincoln (Nebr.) report.

A gang of section men were at  
work, when one of them noticed  
something that looked like a bill wav-  
ing from the tangled top of a sun-  
flower growing by the roadside. He  
investigated. It was a treasury note  
for \$10.

He walked a few steps farther and  
there, nodding from a branch of a bit  
of dog fence, was another bill of sim-  
ilar denomination.

He called to his companions, and  
the entire gang threw down their  
tools and started on a money hunt.  
For three hours they searched up and  
down the right of way and far afield.  
At almost every yard their trouble  
was rewarded by finding either a  
five or a ten-dollar bill. Some bills  
were tangled in the tops of weeds,  
others half hidden in bushes along  
the fence, and still others in the  
stubble of the field.

The entire day's clean-up of the  
right was \$2,135. When the find was  
reported, word came from headquar-  
ters that a money pouch containing  
\$3,500 had been lost from an express  
shipment the day before.

The supposition is that the bag fell  
out of the open car door and was  
ground to pieces under the wheels,  
and the contents were scattered to  
the winds. This hypothesis is sup-  
ported by the later discovery of por-  
tions of the damaged pouch.

## RELIGION OF THE BLANKET.

The Navajo Squaw Prays As She  
Weaves the Threads of Her  
Beautiful Production.

It is a religion to make a Navajo  
blanket. Through the kinky, bristling  
twine of the warp are woven the hopes  
and aspirations of an immortal soul.  
In the warm colors are expressed the  
ardors of passionate hearts, the sand-  
storms they have faced, the cloud-  
bursts under which their backs have  
bent, the smiling sunshine that has  
dried their wool, all the adverse and  
good fortunes that have befallen are  
wrought into the intricate designs. The  
squaw prays as she pushes the wool  
cart, and she prays as she twirls the  
distaff in her hands or rolls it on her  
thigh; she prays as she arranges the  
healds; she prays as she lustily pounds  
down the woofstrands with her scrub  
oak batten, says the Southern Work-  
man.

A blanket is all a prayer, a human  
document, a biography bright with the  
joy tints of canary yellow, dark with  
the olive green of pain. One is drawn  
to it because one's heart is moved by  
its ineffable, intangible humanness.  
One is strangely moved to both laugh-  
ter and tears by its exquisitely variant  
colors, each expressing an emotion by  
its warmth of blended fibers, each  
throbbing to a note of triumph or of  
woe.

## THE FRUIT PLETHORA.

Plus Apples Fed to the Pigs Because  
of the Superabundant Product  
of the Orchards.

Rarely, if ever, has there been such  
a superabundance of fruit as now  
abounds in the New England orchards.  
The limbs of the apple and pear trees  
hang heavy under the weight of their  
enormous yield, and the ground be-  
neath the trees is covered with the de-  
caying droppings. In some localities  
five apples may be had for the picking,  
and an offer of half a dollar a barrel  
for the fruit on the tree is eagerly ac-  
cepted in the rural districts. Thou-  
sands of bushels are being fed to the  
cattle and pigs and the cider mills are  
glutted with raw material for the  
presses. It seems a pity to see such  
a large quantity of fine fruit going to  
waste. It is almost superfluous to offer  
suggestion in the line of thought-  
ful philanthropy to Dr. Hale, but the  
glutted condition of the orchards sug-  
gests that it might be a good idea to  
renew his farmers' fruit offering  
scheme, which furnished such a liberal  
supply of free fruit to the poor people  
of Boston when it was originally un-  
dertaken. Undoubtedly a great many  
bushels of apples can now be had for  
the asking.

## Official Cravat Adjusters.

The leading haberdashery shops  
employ only clerks who are expert  
in arranging cravat shapes. Make-up  
neckwear is adopted for provincial  
trade, as a rule. Among the duties  
of such assistants is to attend wed-  
dings and other house functions. The  
bridegroom nowadays presents his  
"best man" and ushers with cravats  
and gloves for the ceremony. The  
haberdasher's clerk reports at the  
proper place in due time and adjusts  
these cravats uniformly, placing the  
scarf in correct position, etc. He  
also fits the gloves in each case. His  
employer collects a handsome fee for  
this professional service.

## Buddhists in America.

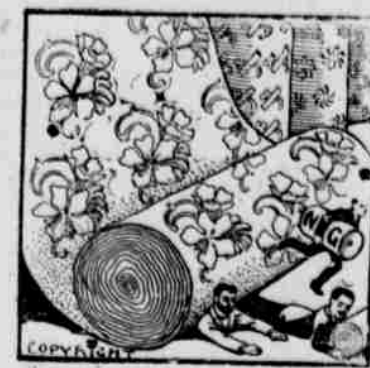

It is stated that San Diego, in  
Southern California, is fast becoming  
the Buddhist center of America. In  
one house there has been erected a  
shrine to Buddha, and the owner,  
a woman of means, has brought a  
Buddha priest from India, who gath-  
ers a large congregation together ev-  
ery week.

Increased Receipts Explained.  
The largest increase in postal re-  
ceipts in the history of the service  
was shown in the reports of 50 lead-  
ing post offices for September. That  
was the month, says the Chicago Rec-  
ord-Herald, in which the people who  
were away on vacations wrote home  
for money to get back with.

## MIGRATION OF THE SNIPES.

Tons of Lead Ore Fired at the Artful Dodge as He Wings His Way Southward.

The snipe, properly Wilson's snipe, Gallinago Delicata, but commonly known as English snipe and wrongfully called half a dozen other names, is a widely distributed species. It visits every state at some season; its northward migration extends within the arctic circle, while it is known to go southward to northern South America and the West Indies. Comparatively few of the birds which move northward from February until May breed south of the international line. It is quite true there are breeding grounds at various points of the northern states, but the great breeding range extends from latitude 48 degrees north to some undetermined point much nearer the pole than most sportsmen will venture.

Some time in September the first south-bound birds pass below the Canadian grounds, and soon most of the suitable marshy bits of east and west have their share of long-billed prizes. Then begins an astonishing attack which extends from ocean to ocean and generally sweeps southward from Canada to California. Probably tons of lead, half of which is wasted, are fired at the artful dodger.

## CARIBOU MURDER.

Large Companies That Slaughter Hundreds of the Animals in Newfoundland.

Newfoundland is probably the only country in the world where venison, salted or fresh, is a staple article of diet for the masses. The coast folk make their plans with method and deliberation, says Outing. From the harbors where they reside they go in their boats to the rivers and fords which strike into the interior. When navigation is no longer possible they embark and continue on foot to the deer country. They carry barrels filled with salt and sometimes go in large companies.

When the rendezvous is reached they camp. Then they ambush themselves along a promising "lead" or deer track, armed with long, six-foot muzzle-loading snipe guns, which they charge with about "eight fingers" of coarse gunpowder and "slugs" of lead, fragments of iron or bits of rusty nails, whichever they may have. They fire point blank into a herd of caribou, as it passes, and being usually good shots, contrive to kill almost anything they aim at, or to wound it so badly with these dreadful missiles that it soon collapses. Then they skin and cut up the meat. For these men know a little of every trade, and pack it in the barrels with the salt as a preservative.

## NOVEL PRISON REFORM.

Italy Proposes Compensation for Men Who Have Been Unjustly Condemned.

A new criminal bill is about to be discussed in Italy, and it is thought in Rome that it will be passed. It proposes to concede to those found to have been unjustly condemned to prison an indemnity, to be decided upon by the courts, says a report to the Chicago Tribune.

If the person has been in prison through a real judicial error the indemnity will in some way correspond to the financial loss which he and his family have sustained, while if he has been condemned through the bad faith of a third person, through false testimony (for which, of course, the court which condemned him is not responsible), the indemnity will be less, but at least he will have the wherewithal to begin life anew.

It has been proposed to indemnify those living when the law passes who have already been released from unmerited condemnations, or the families of those who have died while undergoing unjust sentence.

## Indian Saviors.

Thomas France and John Johns, sailors in the United States navy, are full-blooded Iroquois Indians, who grew up together on an Indian reservation. They left home about ten years ago and never met until a week or so ago, both having sailed all over the world meantime. To their tribe they are known respectively as Leaping Deer and White Feather.

## A COMEDY JAIL.

Town Guardhouse in Pennsylvania That Is Merely a Convenience for Prisoners.

Elizabethtown, the county seat of Essex, in the Adirondacks, possesses a comedy jail, according to the Philadelphia Ledger. It is small, having windows secured by wooden bars and a jailyard inclosed by a solid fence of three-quarter-inch boards, which a healthy male could push over with his shoulder. But the prisoners rarely, if ever, attempt to escape. Some good stories are told by Judge Kellogg, Judge Hand and other residents. It is a custom to allow the prisoners out on parole, so that they may cut the grass on neighboring lawns, do garden work, or repair roads for the village or county. Recently one prisoner, who should have returned at eight o'clock, did not apply for admission until nearly an hour later. The warden angrily demanded to know the reason, and added: "Don't let this occur again, or I will not allow you to come in. I lock the door at eight o'clock, and won't open it in the future for you." Another accused of and awaiting trial for manslaughter, overstayed his parole and pleaded as an excuse that as it was Saturday he thought he would go and spend Sunday with his wife, returning to the jail on Monday morning.

## INDIGESTION

is the cause of more discomfort than any other ailment. If you eat the things that you want and that are good for you, you are distressed. Acker's Dyspepsia Tablets will make your digestion perfect and prevent dyspepsia and its attendant disagreeable symptoms. ## Impulsiveness.

If a thoughtful woman was asked, "What is the greatest curse of your sex?" she might well answer, "Impulse." It is responsible for almost all the mistakes made by the good-hearted among us. May it not safely be said that a few minutes' thought before speech or action would prevent most fatal blunders? Many of us are in positive bondage—quickness to feel, to show our feelings, to retort or to respond. If we are hurt we must immediately "give ourselves away," as the phrase runs, if not by bitter speech, at least by look and manner, yet reflection frequently brings the keenest regret for lost dignity, the betrayed secret or other ill results.—Home Magazine.

The first bottle benefited me, and after taking four bottles I am fully restored to my usual strength, weight and health." B. H. Briggs & Co., and S. Vann & Son.

## The Thermometer is Seldom Higher Than 80° in Mexico City

This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, so cools the atmosphere as to make the evenings and nights lovely.

Between the music, the flowers and the pretty customs of our Mexican neighbors; between the beautiful nights, and balmy mornings, and the cooling sea breezes of day, one becomes so entranced with the beauty of this country as to never forget his trip under "The White Umbrella."

## CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion—there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pain form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty particles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies.

Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge.

### DRAINAGE PROJECT.

It Is Proposed to Straighten Channel of Little and Salt Rivers.

Guthrie, Okla., Feb. 6.—A movement has been inaugurated by a number of prominent planters and capitalists of Oklahoma, in connection with eastern experts, by which it is proposed to straighten the channels of the Little river and Salt river, two streams which traverse Cleveland and Pottawatomie counties and the Seminole Indian nation, by an east and west course. Along these streams, which take a very sinuous course, lie thousands of acres of deep soiled bottom lands, but are overflowed by reason of the tortuous channels of these streams becoming dammed with debris. It is estimated that the straightening of these streams will reclaim not less than 50,000 acres of land, which, when reclaimed, will be worth about \$75 an acre. In many cases fractional tracts have been reclaimed by open ditches, and on such tracts immense quantities of potatoes, corn, cotton, fruit and other crops have been secured, cotton in many instances running as high as one and one-half bales to the acre and of a very fine quality.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. B. H. Briggs & Co., and S. Vann & Son.

### LABOR BODIES TO MERGE.

Core Makers and Molders Will Vote on Amalgamation.

Pittsburg, Feb. 6.—Tomorrow the core makers throughout the country will take a referendum vote on the question of absorption by the molders. The trades are closely allied, and have generally had a working agreement, but the movement toward amalgamation that has been apparent in the organized labor world for some time has had the effect of making closer relations desirable.

Should the vote be in the affirmative, as the indications promise, local unions of the core makers will not lose their identity, the only difference being that the molders' international will carry on all the work that is now done by the two organizations. With the present policy of the molders' union to absorb all of the allied trades, the prospects are that it will in a short time become one of the largest and

Are Positively Curable.**

Chas. F. Wacker, another merchant interviewed. Address 131 Sixth St., San Francisco.  
Q.—You are reported as having been cured of Diabetes, although it is believed incurable.  
A.—I had it, but am now well.  
Q.—Did it get severe?  
A.—Very. The first notice I had was when I was rejected by an insurance company. Later I became very weak and suffered greatly.  
Q.—Any other physician said it was Diabetes?  
A.—Oh, yes. My own did. The sugar was enormous, over an ounce per day.  
Q.—Who told you of the Fulton Compound?  
A.—Editor Engleke of the German paper. It had cured him of Bright's Disease.  
Q.—How soon did you begin to improve?  
A.—In two weeks I knew I'd get well.  
Q.—Did you again apply for insurance?  
A.—I did, soon as I was well.  
Q.—In the same company?  
A.—Yes, the Northwestern of Minneapolis.  
Q.—Did they accept you?  
A.—They did. The policy is No. 35,660, and is for \$500.  
Q.—Have any test made since?  
A.—Yes. Leleupit made an analysis, reporting normal, without albumen or sugar. The cure is permanent.  
Q.—Know of any other cures?  
A.—Yes. My sister-in-law was cured of Bright's Disease after being given up by three physicians. (He gave us her address.)

Medical works agree that Bright's Disease and Diabetes are incurable, but 85 per cent. are positively recovering under the Fulton Compound. (Common forms of kidney complaint and rheumatism often but short resistance.) Price, \$1 for the Bright's Disease and \$1.50 the Diabetes Compound. John J. most influential labor organizations in the country, and in addition, all branches being under one head, it is believed that it will be much easier to fix working agreements with the employers.

### Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Dr. Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been solved that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

### Show for Colic.

Stamford, Conn., Feb. 6.—A dog show, restricted to colic, opened in Stamford today, under the auspices of the Colic club of America. The exhibition has attracted nearly 500 of the best colics in the United States and Canada, the most of which are entered for the show of the Westminster Kennel club at New York next week.

The judging began today and will continue until the show closes tomorrow night. The prize list is a notable one, including six valuable cups offered by the Colic club of America, and special prizes donated by H. O. Have-meyer and other prominent fanciers.

### Buy It Now.

Do not wait until you or some of your family are sick right unto death, and then send for Chamberlain's Colic, Cholera and Diarrhoea Remedy, but buy it now and be prepared for an emergency. It is the one remedy that can always be depended upon in the most severe and dangerous cases. For sale by all druggists.

### Illinois Schoolmasters' Club.

Bloomington, Ill., Feb. 6.—More than a hundred teachers and principals are here for the annual meeting of the Illinois Schoolmasters' club. Colledge, of Aurora, and a paper on "The Formation of a Literary Style," by Daniel Kilham Dodge, of the University of Illinois.

### New Railroad Progressing.

Denver, Feb. 6.—The Laramie, Hahn's Peak & Pacific railroad has twenty-five miles of grading done south of Laramie, Wyo. It is reported that the company will build a branch to Gold Hill and into the Columbine Basin next summer. The road will be operated as an independent line. That the branch will open up a rich section is demonstrated by the fact that the placer gold alone taken from the Hahn's Peak district has amounted to more than \$300,000.

### Incendiarism Charged.

Appleton, Wis., Feb. 6.—The case of Mrs. Lucille Colbert, charged with having set fire which last year destroyed nearly the entire village of Bear Creek, near this place, came up for hearing before Justice Millard in New London today. It is alleged that Mrs. Colbert had packed all of her clothes and valuables and left the town and that shortly after her departure the fire was discovered in her millinery store. Mrs. Colbert denies the charge of incendiarism and says that the fire was of accidental and unknown origin. The result of the case is awaited with much interest by the many citizens of the town who lost heavily by the fire.

Arion Pageant Ball.  
New York, Feb. 6.—The interior of Madison Square Garden has been converted into a fairyland in preparation for the annual Arion mask ball tonight. This year's affair, according to those in charge of the arrangements, will transcend in grandeur and magnificence, so far as decorations go, anything in the same line that has ever taken place in America. The opening pageant will be headed by an allegorical float intended to illustrate the motto of the night—"wine, women and song." Ten figures will be grouped under a canopy, above which two towers will be visible, suggesting the ancient city of Nuremberg. Other floats will be in line, and a long list of carnival characters, gorgeously dressed, will follow.

A Correspondent Thus Describes His Experience.

"I can strongly recommend Herbine as a medicine of remarkable efficacy for indigestion, loss of appetite, sour taste in the mouth, palpitation, headache, drowsiness after meals with distressing mental depressions and low spirits. Herbine must be a unique preparation for cases such as mine, for a few doses entirely removed my complaint. Postmaster F. O. Blood has succeeded in making an arrangement with the national postoffice department, by which mail for Albuquerque and Santa Fe, deposited in the postoffice by 6:30, of any day, will go south on the flyer next morning, as pouch mail. This will be found to be a great convenience to the people of Las Vegas, and will begin on the 6th of this month.

Gustavo Gilbert, of South Dakota, Robt. W. Yeargin, of Oklahoma, and John Schmidt, of Rock Island, Ill., returned with Col. F. A. Blake, after a week's visit to the latter's ranch. They were looking over the mineral and other resources of the upper Sapello, and were much pleased. One of the party, a sufferer from asthma, was not troubled with the disease during his whole stay.

### The Easy Pill.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. B. H. Briggs & Co., and S. Vann & Son.

### Love Laughs at Locksmiths.

The Las Vegas Optic is in receipt of a letter from Mineral Hill, stating that Monday evening about 6:30 o'clock, a society belle of that mining camp, Miss Lola Rivera, locked her uncle and aunt, with whom she was living, in the house, and left for the office of the alcalde up there, with the avowed intention of being married to the young man of her choice in the person of Apolonio Garcia.

As yet, the announcement of the marriage has not been made public, though the nuptial knot may have been tied good and stout by the justice of the peace.

### Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction. 50c, \$1.00. Trial bottles free.

### Getting Good at Las Vegas.

The chief of police was ordered by the board of county commissioners yesterday to remove all the occupants of Klondike west side row to more remote quarters, says the Las Vegas Record.

Complaint was entered by people residing in the vicinity of the church street against the practice of allowing houses of ill fame to exist in that neighborhood as it is against the session laws of 1901, which say that no house of ill repute must be allowed within 700 yards of any church, school, college or seminary, and anyone disobeying the law is subject to a fine of \$100 or sixty days in jail. These brothers have been allowed to exist within a stone's throw of the public school in precinct 26 for some time past and it is a move in the right direction now that they are ordered to vacate within two days.

Coughs and colds, down the to the very borderland of consumption, yield to the soothing, healing influence of Dr. Wood's Norway Pine Syrup.

Confessed Before Death.  
Jacob Steinberg alias Jacob Green, who was arrested at Tucuman recently through the efforts of Marshal Curtright for the embezzlement of \$5,000 in Denver some time in December, confessed before he died as to what became of the money. He said he lost \$1,200 playing roulette in Old Mexico and a like sum in Fort Worth, Texas. When he died he was possessed of only \$1.50 of his ill gotten gains.—Las Vegas Record.

### Millions Put to Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all drug stores.

with the sweetness and strength of almost perfect voices, can scarcely fail at being delighted with the Olympia this week. "Said Pasha," produced by them is full of bright music and they give it adequate presentation. Last Sunday the company demonstrated in "Said Pasha" their ability to provide a splendid operatic spectacle for the delectation of music lovers. "Operatic spectacle" is the proper description to apply to "Said Pasha" as the Olympia's produce it. There are forty people on the stage and two-thirds of these are pretty girls, all good singers. The costumes sparkle and are so gorgeous as to easily convince one that they were especially provided for the production.—New Orleans Item, Jan 6, 1902.

The Ladies of the Tuesday Literary club, one of the most popular social organizations in the city, met at the new home of Attorney and Mrs. M. E. Hickey, on Walter street, last night, and entertained in a most befitting manner.

It was an extremely pleasant affair. The Hickey residence was tastefully decorated with cut flowers from California under the direction of Mrs. A. N. Kearn.

### Getting Along Nicely.

It is a pleasure for The Citizen to announce that Mrs. Frank A. Hubbell is getting along very nicely, and it will only be a short time before she will have fully recovered from her injuries. She is being kept very quiet, for in her present condition it would not improve her shattered nerves to let anything disturb her. Her many friends in the city will be glad to learn that her injuries were not of a serious nature. She has not been informed of Mrs. Thomas' death, as it would do her no good and possibly considerable harm.

### Basket Ball Tonight.

With the championship of the territory at stake the Minors and University basketball teams will undoubtedly play one of the best games tonight that will ever have taken place in Albuquerque.

Both teams have been at constant practice for the past two weeks, and have endeavored to strengthen every weak point which was discovered in any of the previous contests. Every player is in elegant shape, and both individual and team work will be almost beyond criticism.

Although the last game was appreciated by everyone who attended the boys promise to make a better showing than ever before.

Colombo hall will be the scene of an enthusiastic gathering tonight, since both teams have able rooters and supporters. A pleasant social dance will follow the game.
