NUMBER 363

## HENRY M. TELLER AGAIN SENATOR

### Was Re-Elected to Represent Centennial State.

#### IS CONCEDED BY THE REPUBLICANS

#### Judge W. R. Day Appointed Supreme Judge --Lynch to Be Commuted.

Denver, Colo., Jan. 24.—At 5 o'clock this afternoon the democratic members of the senate and house of representatives of the Fourteenth general assembly of Colorado, cast ballots, fifty-one in number, for Henry M. Teller.

He will succeed himself as United States senator and he was declared elected by President W. H. Adams, who presided.

#### Conceded by Republicans.

The regularity of the re-election of United States Senator Teller Saturday, at a joint session of the democratic members of the two houses of the general assembly is practically conceded by the republican senators, who today abandoned the separate organization they maintained all last week and returned to the senate chamber, where the democratic majority has been in continuous session since last Monday. Lieutenant Governor Haggott shook hands with President Pro Tem Adams and resumed the chair.

The senate adjourned until Thursday afternoon.

The republican members of the house recognized the democratic senate as the regular by receiving from its secretary the emergency appropriation bill passed last week.

A motion was made by Representative Frewen, a Wolcott member, to reconsider the adverse action on the report for the expulsion of all the Arapahoe democratic members, but it was defeated by a vote of 37 to 24.

The house adjourned until tomorrow morning.

#### Wants Judicial Opinion.

Governor Peabody said today that he saw no reason why he should not sign the certificate of Teller's election, but he would wait for "judicial opinion," for which he had asked.

#### Wolcott Withdraws.

Denver, Colo., Jan. 25.—The climax of the senatorial fight in Colorado came tonight when ex-Senator Edward O. Wolcott, the candidate of the so-called "stalwart" wing of the republican party, announced his practical withdrawal from any further contest and urged the people of Colorado to accept the situation as it stands by the election yesterday of Senator Henry M. Teller to succeed himself by the joint session of the democratic senators and representatives.

The announcement was made in a signed statement in which Wolcott charges certain republican leaders associated with the anti-Wolcott forces of the republican party with treachery, deliberate and continuous, although he disposes of other of the anti-Wolcott crowd by characterizing them as "dupes" of the main conspirators. Speaking of Teller, the ex-senator says that in no sense was he a party to the alleged frauds in unseating the republican senators although he was benefited by them. He pays a high tribute to the senator-elect.

#### Teller Banquet and Teller.

Denver, Jan. 26.—The sub-committee of the democratic state committee arranged a public reception to Senator Teller at the Brown palace Wednesday night to be followed by a banquet to Teller, democratic members of the legislature, the unseated members of the house and the democratic members of the state central committee.

#### NEW JUSTICE.

Judge Day Appointed to the United States Supreme Court.

Canton, Ohio, Jan. 26.—Judge W. R. Day has accepted a tender of appointment as associate justice of the United States supreme court.

Judge Day said today in answer to a query as to his appointment:

"I received the tender from President Roosevelt Saturday. I mailed my acceptance this morning."

Judge Day does not know when the appointment will be sent to the senate.

#### Committed to Penal Servitude.

London, Jan. 26.—It is now generally conceded that the death sentence of Colonel Lynch will be commuted to penal servitude for life, subject to further consideration after a term of four years.

ther consideration after a term of four years.

#### Getting Along Nicely.

James Morrison and S. C. Valles, the two men injured in a hand car accident at Garcia station last Saturday morning and brought to this city and placed in the Santa Fe Pacific ward at the St. Joseph's hospital, are doing nicely. On inquiry this afternoon it was reported that they would eventually recover.

#### Will Be Shipped East.

James Robinson, aged 28 years, died at his rooms on Second street yesterday morning of consumption. Deceased came here about a week ago from Pueblo, Colo., for his health, but the climatic change did not improve his condition. He was the junior member of the firm of A. Robinson & Son, of Mercer county, Pennsylvania. The remains were taken charge of by O. W. Strong & Son, who telegraphed the father in Pennsylvania, and word was received this morning to ship the remains east.

Edith Poppewell, the little daughter of Dr. and Mrs. Poppewell, was injured in a runaway Saturday. #### AFTER TELLES.

#### Deputies Closson and Hubert Here Last Night--Their Lonely Walk.

#### CONDITION OF HAMPE.

Deputy Sheriffs Charles Closson and Dick Hubert, of Santa Fe, who are on the trail of Telles, one of the murderers of Jailer Epitacio Gallegos, arrived in Albuquerque last night on train No. 1 from Algodones and then started on a long lonely walk along the Santa Fe tracks to Algodones.

Word was received at Santa Fe yesterday morning that Telles had been seen Friday night at a pueblo south of Algodones. That he was traveling south at night and sleeping during the day. Deputy Sheriffs Closson and Hubert drove from Santa Fe to Algodones yesterday morning.

In the afternoon they visited all the houses along the railroad tracks for several miles south of the town, making inquiries whether or not Telles had been seen. No definite information could be obtained, but from the facts learned it was thought he was traveling south.

Albert Hampe, the other murderer, who was captured Friday morning, was seen at the Santa Fe jail yesterday by a Citizen representative. He is in a very serious condition. The left arm is badly wounded from a shot fired by Jailer Gallegos on the night of the escape at the jail. The bullet entered the left wrist and came out of the arm near the elbow. Both ankles were wounded when he jumped from the jail wall; they are badly swollen and so painful he can scarcely walk on them. The wounds were dressed by a physician yesterday, and he was resting comfortably. He stated that he had no idea where Telles was making for. That Telles knew that he (Hampe) would sooner or later give out from the condition he was in and nothing was said about their destination.

Telles knows nothing about riding trains, as Hampe wanted him to ride the rods out of Thornton the night they were reported as being seen there, but Telles would not ride, neither would he permit Hampe to get on. Hampe denies that they deliberately remained in the jail to kill Gallegos, but says that they waited for darkness before leaving. Gallegos appeared before it was dark and resisting their efforts to escape they were compelled to kill him.

The dogs are to receive credit for the capture of Hampe. The report that they were unable to follow the trail was false. Sheriff Kinsell stated yesterday that the dogs took up a trail over thirty-six hours old which led to the capture of Hampe.

The officers are hot on the trail of Telles and expect to have him before the day is over. Telles is not acquainted with the territory over which he is traveling and only travels at night.

The feeling was strong against Hampe when he was brought back to Santa Fe, and there was some talk of lynching, but the people have decided to let the law take its course, as they know the murderer will be dealt with as he deserves.

B. B. Spencer, the saw mill man, is in the city from the Eastview country. Attorney James G. Fitch, of Socorro, was a passenger through the city this morning, going to Santa Fe to be in attendance at the supreme court.

## ARE INDIGNANT

### Citizens Arrested for Stopping Coal Train.

#### THE LESSER BRIBE INTERESTING

#### Dublin, the Star Witness, Now Retracts Certain Testimony.

#### THE TERRITORIAL LEGISLATURE

Stratford, Iowa, Jan. 26.—Stratford citizens are indignant over the arrest of over thirty people for holding up a Northwestern coal train here yesterday and seizing several cars of fuel. The railroad officials notified the sheriff at Webster City, who immediately left for Stratford and made the arrests. All were granted bail.

#### THE LESSER BRIBE.

#### A Witness Retracts His Testimony of a Few Days Ago.

Washington, Jan. 26.—During the Lessler investigation this morning, Mr. Rogers, attorney for Philip Dublin, announced to the committee that Dublin decided to make a statement and added that Dublin told him some parts of his testimony were untrue. This came as a surprise. After some discussion it was decided to have Dublin called and state just what parts of his statement, which he made on the stand, were not true.

#### Retracts Certain Words.

Washington, Jan. 26.—Mr. Rogers asked that such immunity be accorded Dublin within the power of the committee. Mr. Taylor said only such immunity as the statute gives could be accorded. Dublin said, when he came to Washington to appear before the full committee, he decided to make the statement he did.

"I now retract every word in which I said Mr. Quigg tendered me any bribe in any way," he said.

"Will you state in what respect your testimony is not true?" Dublin was asked.

"In relation to my being called to Washington and my conversation with Mr. Lessler at the Hotel Normandie, I read the article handed to me and I was told by Lessler, 'you have got to stand for this,' and I said, 'Oh that cannot be.'"

"Well, he says, 'then I am politically dead.'"

"Well, I said, 'you carry me with you.'"

He said: "You will be all right if you will just appear before this committee. I will go and see the speaker and will fix it up."

"He goes out of the room, comes back and said he had seen the speaker, and said, 'It will be right. All you have to do is to go before the committee and substantiate my story.'"

#### Probing the Charges.

Washington, Jan. 26.—DeLancey Nicholl, attorney for Mr. Quigg, when interrupted in the cross examination of Dublin, said:

"I consider the wickedest and foulest plot against the integrity of my client, a former member of the house, has been revealed by this committee today, and I want to prove it here, entailing consequences which every one of us must see happen, and I want to probe it to the bottom."

#### Dublin in Trouble.

The house naval committee is in executive session. It was stated by members of the committee the subject of placing Dublin under arrest upon the charge of perjury was being considered.

been contracted between the two companies, notwithstanding Wall street reports to that effect. He said that the matter had not come before the Rock Island for an action.

According to the Wall street reports, an understanding had been reached by which the rights of each company would be safe-guarded and there would be no rate cutting and no unnecessary traffic rivalry. The Rock Island, with its expansion of the last year and half, had spread into the territory in which the Atchison had operated exclusively. This might have tended toward a rate cutting campaign, but the traffic officers had decided positively not to reduce the transportation profits by any cutting of rates. It was also reported that the trans-continental business of the Rock Island might be turned over to the Atchison at Albuquerque, in the near future. The Southern Pacific at El Paso now handles this traffic.

#### Committees Named.

Special to The Citizen. Santa Fe, N. M., Jan. 26.—Committees were announced in both houses and a large number of bills introduced.

George G. Montgomery and J. R. Merrifield, traveling auditors for the Santa Fe, are in the city from the west, and are checking up the local ticket office.

#### CHIEF ENGINEER DAVIS.

#### Here in the Interest of American Lumber Company.

#### WORK WILL SOON COMMENCE.

George L. Davis, chief engineer of the American Lumber company, who, with other officials of the company, was here recently and who left here a week or ten days ago for Chicago, returned to the city last night, and this morning held a conference with Messrs. Myers, Brooks and Strickler, the executive committee of the citizens' general committee, in regard to the location of the proposed big mill.

A citizen representative met Mr. Davis, and in a conversation, he said: "Last Tuesday, at Chicago, a meeting was held at the company's office there, those present being President Ward, General Manager Ira B. Bennett, Attorney D. W. C. Merriam and the company's millwright, Harry Badstuebner. After talking over the preliminaries, regarding the establishment of the mill at Albuquerque, General Manager Bennett, Mr. Badstuebner and myself proceeded to Milwaukee, Wis., that evening."

"The next morning (Wednesday) we visited the Ellis-Chalmers and the Filer-Stowell companies. These two companies are considered the largest manufacturers of mill and mining machinery in the world, and arrangements were made with both companies to make detail plans and specifications for the proposed mill and factory to be constructed in this city."

"As soon as right of way is secured to the company's mill site," continued Mr. Davis, "the construction of a railroad spur track from some point on the Santa Fe main line, just above the city, will be begun."

It will be remembered by readers of The Citizen that the day before Mr. Davis left for Chicago, he, with Engineer Ross for the city and Engineer Beckett for the Santa Fe road, made a reconnoiter from the Santa Fe track to the proposed mill site, and blue points have been submitted to the parties interested.

After remaining in Albuquerque for a few days, Mr. Davis will proceed to the company's immense timber lands in western McKinley county, to let contract for cutting ties for the railroad which the company will build into the timber tract.

Messrs. Bennett and Badstuebner were left at Milwaukee, although Mr. Bennett intended to make a business trip to Detroit. On the completion of the machinery plans and specifications Mr. Bennett will return to Milwaukee and sign up contracts with either of the firms named for furnishing the necessary machinery for a complete saw mill. Mr. Davis looks for the return of Mr. Bennett, accompanied by the millwright, to Albuquerque in two or three weeks, when active operation will be commenced on the stone foundations for the mill buildings.

In the meantime, on his return from the timber tract, Mr. Davis intends to have work pushed on the proposed spur from the Santa Fe road to the mill site.

#### Packing House Fire.

Denver, Jan. 26.—The plant and stock of the Burkhardt Packing company, at the Union stock yards, were destroyed by fire this morning; loss, \$25,000.

## RAISING THE BLOCKADE

### Minister Bowen Working for Venezuelan Ports.

#### THE CUBAN RECIPROCITY TREATY

#### Some Important Legislation From National Senate--Americans Bolloed.

Berlin, Jan. 26.—Written declarations regarding the raising of the blockade of Venezuelan ports have been exchanged between Minister Bowen and the representatives of Great Britain, Germany and Italy. In their declarations, the representatives of the European governments promised to consent to the immediate raising of the blockade as soon as the agreement is concluded between them and Mr. Bowen embodying the conditions laid down by the powers. These conditions relate to the guarantees to be furnished by Venezuela, which has offered a portion of the customs revenues of La Guayra and of Porto Cabello.

#### They Seem Satisfied.

London, Jan. 26.—It was learned today by the Associated Press that Great Britain and Germany informed their representatives at Washington that they consider Minister Bowen's proposals regarding Venezuela's guarantees to form a satisfactory basis for further negotiations.

#### CHIEF ENGINEER FARWELL.

#### He Arrived Last Night and Will Begin Work at Once.

#### ALBUQUERQUE EASTERN TERMINALS.

Chief Engineer Farwell, of the Albuquerque Eastern; Assistant Engineer W. Williams; Roland Stevens, levelman, and Ralph Dunbar, flagman, arrived in the city last night from the Santa Fe Central coal fields.

This morning all their instruments and baggage was removed to the camp at the terminus of the survey, just east of the Presbyterian mission school.

General Manager W. S. Hopewell came down from Santa Fe last night and this morning, in company with the citizens' executive committee, the various proposed tracts were visited and a general investigation was made previous to staking out a site for the entrance of the Albuquerque Eastern into the city.

Mr. Hopewell spent yesterday in Santa Fe in conference with the officials of the Denver & Rio Grande in regard to the terminal facilities at Santa Fe. It is probable a union depot will be built at Santa Fe for the entrance of both roads.

Mr. Farwell stated last night that he knew nothing of the arrival of the wagons in charge of E. E. Spierling and Walter Lyon, Jr., from Durango on last Thursday, but was waiting to receive a telegram of their arrival. Several telegrams had been sent him, but for some reason they had failed to reach him until yesterday.

Mr. Hopewell visited the surveyor's camp east of the Presbyterian mission school this morning and gave orders to Chief Engineer Farwell to begin an immediate survey of the Gentile tract, just north of the Albuquerque Wool Scouring mills. This tract was one of the favorable proposed sites. Several other sites have been proposed and it is probable that a survey will be commenced on these as soon as the survey of the Gentile tract has been completed. The surveyors will remain here until a definite terminal has been selected, which will undoubtedly be in a very few days.

#### TIME LIMIT EXTENDED.

#### For the Ratification of the Cuban Reciprocity Treaty.

Washington, Jan. 26.—Secretary Hay this morning sent for the Cuban minister and with him signed a convention extending for a considerable period the time limit for the exchange of ratifications of the Cuban reciprocity treaty now pending in the senate which, under the original agreement, expires next Saturday, the 31st. Today's measure is more in the nature of a precaution to prevent loss of the present treaty in case the senate does not ratify it this week. It is hoped by

the Washington government that it may not be necessary to transmit to the senate today's protocol.

#### NATIONAL SENATE.

#### Currency Bill--Credentials Questioned--Senator Quay Objects.

Washington, Jan. 26.—The senate committee on the Philippines today decided to substitute the committee currency bill for the house bill and report it to the senate. The senate bill is the same as that reported from the house committee on insular affairs which was defeated in the house last week.

#### Anti-Trust Bill.

The senate committee on inter-state commerce unanimously agreed to report the Elkins anti-trust bill with some amendments that the sub-committee is perfecting.

#### His Credentials Questioned.

Senator Morgan, chairman of the Inter-Ocean canal committee, today offered in the senate resolutions questioning the credentials of Thomas Herran, charge d'affaires of Colombia, who recently signed with Secretary Hay the Isthmian canal treaty.

Mr. Aldrich immediately made the point that that subject must be considered in executive session. The senate went into executive session.

The point which Senator Morgan made was that the validity of the government, which accredited Herran to the United States, was doubtful and should be inquired into by the United States.

As soon as the doors were closed, Morgan discussed the subject at some length. He said there had not been an election in Colombia since 1898, and it was questionable whether the present acting government had authority to send a representative to the United States.

Senator Morgan's resolution relating to Senator Herran was, after considerable discussion in executive session, referred to the committee on foreign relations.

#### Tilt Between Hale and Quay.

Soon after the senate met today, Mr. Platt, of New York, presented a report from the committee on printing and asked for its consideration.

To this Mr. Quay, of Pennsylvania, objected.

Mr. Hale, of Maine, said the objection was extraordinary and that things had come to a pretty pass of privileged reports from the committee on printing could not be considered. He said Quay had confiscated the time of the senate from 2 o'clock and now sought to confiscate the morning hours in the interest of the statehood bill. He hoped Mr. Platt would move to take up the printing resolution.

Mr. Quay replied that there had been a "great deal of sneering on the floor of the senate" about his action. He was simply carrying out the will of the majority of the senate. Those who were making complaints could relieve all pressure by allowing a vote on the statehood bill. He said he was tired of "being lectured and hectored by the senator from Maine."

Hale said Quay was mistaken if he thought the majority of the senate was with him in objecting to a proposition such as printing matters for the convenience of the senate.

Mr. Cockrell then made the point that under the rules a single objection carried the resolution over and he was sustained by President Pro Tem Frye.

The credentials of Mr. Alger, recently elected senator from Michigan, was presented and the oath of office administered to him.

#### VOLUNTEERS BOLOED

#### The Ladrones Outnumbered Volunteers and Defeated Them.

Manila, Jan. 26.—It is reported here that the volunteer force organized at Bolinao, province of Zambales, for the purpose of dispersing Ladrones in that vicinity, has been defeated and that three Americans, including Mr. Osborne, teacher, were killed.

The Ladrones outnumbered the volunteers, surrounded the latter and looted them. The Americans died fighting. The details of the affair at present obtainable are meager.

New Mexico demands Statehood from  
the Fifty-Seventh Congress.

## OUR RAILROADS

New Mexico is witnessing a great  
awakening, and there is more railroad  
work on a large scale offered than can  
be handled, says the Farmington  
Hustler.

Contractors are busier now than  
ever before in the country and for this  
reason New Mexico is going to make  
a vast stride within the immediate fu-  
ture. The Albuquerque & Durango  
railroad is one of the most important  
elements in drawing attention to this  
region, as well as the proposed through  
line to traverse the San Juan valley  
on its way to the coast. The phenom-  
enal increase in oriental trade is  
drawing the attention of manufactur-  
ers of the east to the facilities in and  
around Farmington. For these rea-  
sons, never before has the outlook for  
the territory, town and county ever  
been as bright as they are today.

The Socorro Chieftain, edited by E.  
A. Drake, was twenty-one years old  
last Saturday. The paper has had a  
history.

The commercial news from New  
York is particularly spicy. A combina-  
tion has been effected to control the  
pepper market.

New York has just disposed of an-  
other sensational murder case, the  
jury setting the man free. Now look  
out for the next one.

If the legislature deals fairly with  
this section of New Mexico, it will not  
overlook the claim of Belen for the  
reform school and Gallup for the min-  
ers' hospital.

H. G. Baca, who has been installed  
as the county treasurer and collector  
of Socorro county, says, "No taxpayer  
need be ignorant of the exact financial  
condition of the county," as long as he  
holds office.

The signing of the treaty with Col-  
ombia, which occurred Friday, insures  
an American canal across the isthmus  
of Panama. This will doubtless be the  
greatest engineering achievement of  
the twentieth century.

The czar of Russia is under the  
weather, King Oscar of Sweden is ill  
and will quit the reigning business.  
President Roosevelt has hurt his hand  
in a fencing match, and Steel King  
Schwab is off in search of health. But  
King Coal is still the same jolly old  
soul, though of more shy and retiring  
disposition than he used to be.

A woman shoplifter in Denver, car-  
rying a large bag under her cloak,  
when arrested was found to have in it  
an eight pound roast of beef, three  
pounds of tenderloins, two pounds of  
butter, a pound of coffee and a bottle  
of horseradish. That woman is a good  
match for the omnivorous British and  
German governments in their policy  
on the Venezuelan coast.

The terms for occupation of a strip  
across Colombia for the purpose of a  
ship canal are to be a cash payment of  
\$10,000,000 and an annual rental of  
\$250,000. The canal, however, after  
completion is expected to return from  
tolls much more than this amount. A  
good scheme would have been to buy  
up the whole of Colombia and annex it  
as an American colony. It could no  
doubt be done for a few additional  
millions.

R. C. Anderson, an El Paso jeweler,  
is the inventor of a useful device for  
storing or shipping eggs, cut flowers  
or other perishable goods. He has se-  
cured a patent on it and it will soon be  
on the market. He claims for his in-  
vention that it will insure perfect safe-  
ty to perishable goods in the hottest  
weather. No ice or chemical is used,  
the outer atmosphere being depended  
upon solely for the cooling of the inter-  
ior.

Delegate Rodey, in a special dis-  
patch to the Santa Fe New Mexican,  
says: "The protest of Postmaster Paul  
A. F. Walter against a reduction in the  
number of mail trains on the Denver &  
Rio Grande railroad has been taken up  
by the postoffice department and the  
government will enter a strong protest  
with the Denver & Rio Grande man-  
agement. Let Santa Fe people make  
similar protests to the railroad com-  
pany."

The Socorro Chieftain says: "Let  
us have a territorial law requiring  
county treasurers to deposit county  
funds in some reputable bank or banks  
of the territory that will pay a reason-  
able rate of interest for the use of  
those funds. Such a law will not only  
give each county a considerable addi-  
tional revenue but will also relieve  
county treasurers of the temptation to  
use public funds in private business."

## THE ROUGH RIDERS.

There has been a great deal of fa-  
vorable comment, all over the territory,  
upon the organization known as Llew-  
ellyn's Rough Riders, at Las Cruces,  
and a tremendous effort is being made  
by Dona Ana county citizens to get  
this troop into the national guard of  
this territory.

General Whiteman has so far re-  
fused to entertain the idea, as he insists  
upon an infantry organization at Las  
Cruces, but Las Cruces people are de-  
termined to secure a cavalry equip-  
ment, and are bringing great pressure  
to bear at Santa Fe in its favor.

The well known name of Major W.  
H. Llewellyn, the commander of the  
troop, is a guarantee of its success.

Everyone knows the history of the  
now world famous Rough Riders; and  
the career of Major Llewellyn under  
the command of Col. Theodore Roose-  
velt has become a page in history.

The other officers of the troop are  
W. W. Wuerschmidt, who served in  
the regulars in the Philippines, and C.  
B. Llewellyn, who has also had mil-  
itary training.

There are in this troop the best rid-  
ers and "bronco busters" in the south-  
ern part of the territory, including well  
known sheriffs, deputy sheriffs, ex-sol-  
diers and cow punchers. A more ef-  
ficient aggregation of rough riders it  
would be hard to get together.

It is proposed to take the organiza-  
tion to the world's fair and a better ad-  
vertisement for New Mexico it would  
be impossible to find, as nothing fas-  
cinate the eastern eye as does an ex-  
hibition of superb horsemanship by  
the fearless riders of the southwestern  
border.

## AT HALF MAST.

Sometimes we are greeted in the  
morning by flags at half-mast for some  
prominent official who yesterday  
was apparently in perfect health.  
When we inquire the ailment by  
which he was stricken it is not un-  
common to be told "acute indiges-  
tion" or "stomach trouble."

It is time people learned that in-  
digestion or any form of  
"stomach trouble" is not a  
thing to trifle with. The  
result may not be fatal,  
but there can be no  
condition of diseased  
stomach which does  
not carry with it phys-  
ical loss and weakness.  
Dr. Pierce's Golden  
Medical Discovery  
cures indigestion and  
other forms of disease  
affecting the stomach  
and its allied organs of  
digestion and nutrition.  
It enables the perfect dig-  
estion and assimilation  
of food.

"Thanks to Dr. Pierce's Golden  
Medical Discovery," writes Mr.  
Charles H. German, of Leighton,  
Pa. "It is the only medicine  
that has done me any good. I tried every-  
thing I could think of to cure indiges-  
tion, and found I was only throwing  
away money. Then I heard of Doctor  
Pierce's Golden Medical Discovery and tried a  
bottle of it, and to my joy found it was doing  
me good. I used six bottles of it, and am now  
cured. It is the best medicine on earth."

This grand remedy does its work  
in a thorough manner; it gives the  
health that is all health; the strength  
that is solid, substantial and lasting;  
not flabby fat, not false stimulus, but  
genuine, complete, renewed vitality and  
life force.

Accept no substitute for "Golden Med-  
ical Discovery." There is nothing "just  
as good" for diseases of the stomach,  
blood and lungs.

stipation and its consequences.

He had been in the employ of the com-

from Michigan about a month ago.  
He was a young man of excellent  
habits and well liked by all who knew  
him. The remains were shipped to his  
Michigan home.—Flagstaff Sun.

## Railroad Topics

The Santa Fe is erecting a number of water treating plants along the line. Inside of three months all engines on the Santa Fe, Prescott & Phoenix road will be using oil as fuel.

James Hiltchcock is at San Marcial from the Agricultural college, and is filling a clerical position at the station there.

E. Deering and sister are here from Dallas, Texas. Mr. Deering will accept a position in the Santa Fe Pacific shops.

Engine 789 has been converted into an oil burner at the Winslow shops, and will be delivered to the Arizona division this week.

T. J. Norton and sister, Miss Sarah, of Prescott, were at Flagstaff. Mr. Norton is the able attorney for the Santa Fe, Prescott & Phoenix railroad.

C. B. Diamond, who has been an engineer for the Santa Fe, running out of Needles for the past few years, has been appointed to the night foremanship of the Needles shops.

H. Hauser, general foreman of the Lantrys, in company with F. E. Nelson, of San Francisco, left today for Belen. The gentlemen arrived from the west yesterday and spent the day in the city.

T. J. McCune has returned to Winslow and will accept the position of train dispatcher. Mr. McCune held a similar position in Winslow about a year ago, but resigned to accept the chief dispatcher's position with one of the companies in Mexico.

The Las Vegas Record says: "Anderson Brinkley, who so long had worked for the Harvey people, in different capacities, recently having charge of the Castaneda bar has gone to Albuquerque to have charge of the Alvarado bar. J. Smith, formerly assistant to Anderson, is in charge of the Castaneda bar."

It is reported that Robert King, formerly an employee of the local Santa Fe Pacific shops, but now with the Santa Fe at San Bernardino, Cal., has met with a painful accident. He was working with a hand saw and his hand came in contact with the rapidly moving blade and the thumb and forefinger were severed completely.

It is reported that a contract for the hauling of track material for thirty-five miles of railroad for the Santa Fe Central railway has been made by that road with the Denver & Rio Grande railroad. It will take several hundred cars to haul this material for the construction of the Santa Fe Central railway from Santa Fe south and for the yards at the capital.

A dispatch from Topeka, Kas., says: Third Vice President Kendrick and General Manager Mudge of the Santa Fe are on a trip to the western part of the line. Railroad men here say they are going to make some changes in the official cast of that part of the road. In this connection it is rumored that Division Superintendent Ayers is to be transferred to the western end of the road.

Rev. Carlisle P. B. Martin, L. L. D., Waverly, Texas, writes: "Of a morning when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons, needing a medicine for throat or lung troubles." Price 25c, 50c, \$1.00 a bottle at Cosmopolitan Pharmacy—B. Ruppe.

**Heavier Rails.**  
During 1903 the Santa Fe will lay about 350 miles of main line track on its lines east of Albuquerque with new 85-pound steel rails. It is expected that 300 miles of equally heavy rails will be spiked down on its lines in Arizona, California and Texas. This will about complete the work begun in 1901, whereby the 75-pound rail is to be the minimum of weight for Santa Fe main tracks. Millions of dollars have already been expended in cutting down grades, raising fills, putting in iron bridges and strengthening curves. Today the Santa Fe roadbed is the best in the southwest. This is why spectacular runs can be made with safety on that noted transcontinental highway.

**Equipment Demands Break Record.**  
The demand for railroad equipment continues heavy, and manufacturers believe the volume of business during the current year will establish a new record. The American Car and Foundry company, the Pressed Steel Car company, the Standard Car company, the American Locomotive works, the Baldwin Locomotive works and the steel rail mills have more unfilled orders on their books than ever before in history. As a result of the extraordinary demand nearly every concern engaged in the manufacture of material that enters into railroad construction will add to its capacity this year. The United States Steel Corporation will greatly enlarge the capacity of its steel plate and rail manufacturing mills. The Pressed Steel Car company and the American Car and Foundry company will also greatly increase their output.

The increase in the output of steel rails last year was equivalent to about 20 per cent, and it is expected the increase this year will be equally as large. The Standard Steel Car company announces that the Lackawanna and the Illinois Central have ordered 1,000 box cars. The American Loco-

motive company announces an order for twenty-five locomotives from the Chesapeake & Ohio, and twenty from the Boston & Maine. The Rock Island's order for 225 locomotives was placed some time ago. Other orders recently received by the big railroad equipment concerns are from the Tacoma Eastern, the Wabash, the Delaware & Hudson, the Kansas City, Mexico & Orient and the Pennsylvania company. The heavy business of the concerns manufacturing railroad equipment is reflected in the earnings of the American Car & Foundry company, which exceeded \$10,000,000 during the last fiscal year.

### NEW GOULD PROJECT.

Report That He Will Absorb the El Paso & Southwestern for a Starter to the Pacific Coast.

One of the very latest railroad rumors in the southwest is to the effect that the Gould interests are to absorb the El Paso & Southwestern for the purpose of making it a link in a new coast line. That the Goulds would like to get a coast outlet there is no doubt, says the El Paso News. That the El Paso & Southwestern is for sale there is a great deal of doubt. But those advocating the idea of its sale to the Goulds argue that Phelps, Dodge & Co. would still have a competing line against the Southern Pacific, which is all that they originally sought.

### A Scientific Discovery.

Kodol does for the stomach, that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

### NEW \$175,000 HOTEL.

Santa Fe to Build on Bank of Grand Canyon.

Bids are to be asked in a few days by the Santa Fe for the erection of a new tourist hotel on the brink of the Grand Canyon of the Colorado in Arizona. The hostelry is to cost not less than \$175,000 and will be built about 400 feet from the canyon brink at the head of Bright Angel trail. The site is a commanding one and the view from the upper balcony will be one of the finest to be had.

Work will begin on the new hotel April 1 and contracts will call for its completion by December 1. It will be in charge of R. B. Burns, chief engineer of the Santa Fe, who attends to the construction of all the company's buildings.

### An Oregon Short Line.

The Northern Pacific railroad is gradually carrying out plans to secure a shorter entrance to Portland, and thus be in a better position to compete with the Harriman lines for lucrative Oregon business. At present the Northern Pacific handles the Oregon traffic via Tacoma, necessitating a haul of 145 miles to Portland after reaching tide water on Puget Sound.

Two routes are under consideration for a short cut into Portland, and engineers have been surveying both. One is to build down the river from Wallula to Vancouver, where the Columbia river is to be bridged, giving a short line entrance into Portland. The other plan is to build fifty miles of road from the present main line at or near Yakima to Goldendale, there connecting with a sixty mile railroad just finished by Portland men from Goldendale.

### COFFEE AGAIN.

An Old Philadelphia Physician Tells the Truth About It.

A physician of Philadelphia, of many years' practice, during which time he has carefully watched the effects of coffee drinking upon his patients, writes:

"During my practice in Philadelphia, I have had many serious cases of stomach, kidney and liver disorders which I have traced to the use of coffee."

"Last year a fellow physician called my attention to the merits of Postum in the place of coffee. In many severe cases of torpid liver, various kidney diseases, etc., since then I have forbidden the use of coffee and prescribed Postum."

"In many cases the results were almost miraculous and in all there was marked improvement due solely to the use of Postum in the place of coffee."

"If you wish I will furnish you the names of my patients so cured."

"Owing to the feeling that exists among the medical fraternity against physicians using the columns of the papers to advertise themselves, I request that you withhold my name, but you may refer any inquiries to me." Name given by Postum Co., Battle Creek, Mich.

### Death in Denver.

Word is received from Denver of the death of Andrew Wallace Cleland, Sr., father of A. W. Cleland, Jr. of this city. Deceased had reached the age of eighty-two years and had been seriously ill for several months. Mr. Cleland was born in Bothwell, Scotland, while a young man he took up life in Ontario, Canada. For many years he has been a highly respected resident of Denver.

### Croup.

The peculiar cough which indicates croup is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by all druggists.

### This is Sure Good Work.

The Whitney company, the first street hardware and plumbing house, have secured a contract for furnishing the hardware and finishing, and doing the plumbing for the new Santa Fe depot now in course of construction at San Marcial. The new depot is to be a fine one and the contract is a valuable one.

### Heads Should Never Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va., she writes: "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from two years." Cure headache, constipation, biliousness, 25c at all druggists.

### NEW MEXICO'S ILLITERACY.

Attention Called to Its Rapid Reduction Since Census of 1880.

Editor Washington Post: In view of your friendly course as to the admission of territories to statehood, I feel encouraged, as a citizen of New Mexico, to invite your attention to some figures taken from the last census reports.

Our opponents lay great stress on the large percentage of illiteracy in New Mexico, and yet, in the last twenty years, we have made greater progress in the reduction of that percentage than was ever made in the same length of time by any state or territory.

As shown by the census reports illiteracy in New Mexico among the native population over ten years of age, was: In 1880, 64.2 per cent; in 1890, 42.8 per cent; in 1900, 29.4 per cent.

It must not be forgotten that this includes all of the despised Mexicans, so-called, who are really native Americans.

If we have been able to do as well as these figures indicate, under all the disadvantages of a territorial form of government, without any such assistance as the national government gives to our recently acquired possessions, is there not every reason to believe that we will make even more rapid progress under a state government and that the people who have done so much, unaided, are, in all essential characteristics, as well fitted to administer the affairs of a state and to participate in national legislation as the people of any part of the union?

### The Kodol Almanac.

The editor of The Citizen has just received, with the compliments of the publishers, a copy of the Kodol Almanac and 200 Year Calendar, which is certainly a most unique and useful book.

With a copy of this publication at hand one is in possession of a calendar which covers the past as far back as the day of our national independence, meets all the requirements of the present, and dates as far into the future as near the beginning of the next century. By reference to this calendar the day of the week, of any given date in any month of the year, from 1776 to 1976, may be found at a glance. This information can not be found in any other publication extant. Another feature of remarkable interest that this publication possesses, is its weather forecasts. These predictions are not only full and complete, and as accurate and reliable as it is possible to calculate, but they are definite geographically, thus localizing the predictions and foretelling the weather which may be looked for in each section of the country.

Messrs. E. C. De Witt & Co., of Chicago, are sole owners and publishers of the Kodol Almanac and 200 Year Calendar, and while several millions of copies are in circulation, they have yet a few hundred copies of the first edition, and will send one copy to any one enclosing a two-cent stamp, with a request for same, provided this paper is mentioned.

No tuberculosis preservative or coloring in Matthews' Jersey milk.

VICTORY FOR QUAY. Opponents of Statehood Bill Forced to Seek Terms. WILL VOTE IN FEBRUARY.

A special dispatch to the St. Louis Globe-Democrat, from Washington, dated January 23, says:

The opponents of the omnibus statehood bill are seriously considering an abandonment of their plan for resisting the effort of Senator Quay to get a vote on the bill.

Only the assent of perhaps three prominent senators to the plan now stands in the way of an agreement to let the vote be taken in the second or third week of February.

The fight which Quay has made for the bill has quite disarmed the opposition.

On good authority it was stated today that a definite proposition had been made to Senator Quay to accept the second Saturday in February as the date when the bill should be voted on, and in return for this agreement he should withdraw all further opposition to important legislation.

Senator Quay is quoted as saying that he would agree to this if there was an agreement made on the floor of the senate to this effect, but he would not enter into such an agreement in cloakroom. His position places upon the opposition the necessity of securing an agreement which would practically involve the entire senate.

Senator Quay is working with almost the entire democratic side in his fight. Some elements of his strength on that side want to use the statehood fight to vent their displeasure against the majority.

Notable in this connection is the attitude of Senator Bailey of Texas. If the agreement can be arranged, it will devolve upon the senators opposing the statehood bill to secure unanimous consent to the agreement on the floor of the senate.

Whatever may be their expressions for publication, no senator but admits privately that Senator Quay has made himself master of the present senate situation.

Mr. Quay has manifested a spirit of fairness and toleration that has quite disarmed criticism of his methods and has made the opposition the more impatient and anxious to checkmate him.

Senator Aldrich, Senator Spooner, Senator Platt, of Connecticut and Senator Beveridge are the senators who are now standing in the way of a vote on the omnibus bill.

They want to hold off with their view, it is said, of securing an agreement on a bill which will unite Arizona and New Mexico in a single state if they find that it will be impossible to defeat the effort to secure a vote on the omnibus bill.

Senator Quay has said that they have been making an effort in this direction since early in the session and have failed, and that he is willing to only give the opposition until Monday to decide what they will do and whether they will agree to the vote not later than February 16. He made this statement when he agreed with Senator Fairbanks today that he would not oppose a motion tomorrow to take up the immigration bill.

On Monday, unless there is an agreement for a vote, he will, he says, use his parliamentary advantage to block everything but appropriation bills and will insist on continuous sessions.

Senator Quay today received a telegram from Arizona stating that both houses of the legislature had endorsed his bill.

## COAL OIL LAW

Mesilla Valley Chamber of Commerce  
Wants Law Repealed.

## MEMORIAL TO LEGISLATURE.

The Mesilla Valley Chamber of Commerce to the Legislative Assembly of the Territory of New Mexico.

The Mesilla Valley Chamber of Commerce, commercial organization comprising substantially all the principal merchants, farmers, bankers, educators and professional men, residents of the Mesilla valley, in the county of Dona Ana, New Mexico, in behalf of the people of the said valley and county, respectfully petition your honorable body to immediately repeal the above entitled act, the same being commonly known as the "Coal Oil Inspection Law."

As reasons for the immediate repeal of said act this chamber would respectfully represent:

First—That by reason of the said act, and under the guise and pretense of inspecting coal oil and the other products of petroleum mentioned in said act and as therein provided, the people of the said county are compelled to pay approximately 19 cents a gallon for illuminating oil, and correspondingly as much for gasoline and the other products of petroleum, more than they would be compelled to pay were such act not in force and they be permitted to purchase in El Paso and other outside markets, without inspection or the pretense thereof, and that by means of the said inspection, or its pretense, and the resulting restraint upon purchasing in outside markets, the whole of the people of the county are subjected to a burden of taxation which is most grievous and irritating, affecting, as it does, rich and poor alike.

Second—That under the operation of the said act the inspection of such coal oil and other products of petroleum has been merely nominal, and the benefits which have accrued to the people, if any at all, have been small measured by the enormous sums which have been wrung from them under the pretense of such inspection.

Third—That by reason of the annually recurring scarcity of water in the Rio Grande it is manifest that no considerable development of the agricultural resources of the Mesilla valley can be anticipated in the near future without the use of gasoline or crude oil pumping plants, to be used in the developing and lifting of the underground flow of water (such water happily existing in unlimited quantities throughout all of the said valley), for the purpose of irrigating the agricultural lands of the valley at such times as scarcity of water may occur in said river, and to render agriculture by such means profitable it is absolutely essential that gasoline and crude oil should be admitted into the territory without the price thereof being enhanced under the pretense of inspection.

And your memorialists would further pray that, if it shall be deemed necessary to enact any substitute for the said "Coal Oil Inspection Law," such substitute should be confined in its provisions to a prohibition of the introduction and sale in the territory of oil for illuminating purposes below the required standard, such prohibition to be enforced by adequate penalties, the other products of petroleum, and especially gasoline and crude oil, to be admitted free of any requirements of inspection.

And your memorialists will ever pray, etc.

E. E. DAY,

President of the Mesilla Valley Chamber of Commerce.  
Attest—EDWARD C. WADE, Secretary.

## PROFESSORS RESIGNED.

Messrs. Lenker and Nicholson Quit  
the School Service.

## WILL GO INTO REAL ESTATE BUSINESS.

A special meeting of the school board was called and held at the central school building Saturday night for the purpose of considering and accepting resignations tendered by Professor L. G. Lenker, principal of the high school, and Professor C. T. Nicholson, principal of the Second ward sch. It was probably the best attended meeting held during the present school term, Trustee Dodd being the only member of the board absent.

The business of the meeting was called and the resignations of Professors Lenker and Nicholson were accepted. Professor Lenker's resignation was tendered last Tuesday and will take effect in two weeks. Professor Nicholson's resignation was handed in on Saturday and will take effect in two weeks, February 9.

Several applications were before the board Saturday night from parties wishing to fill vacancies and were considered, but the board declined to accept any of them until after they were considered further. By mutual consent the members present agreed to meet on call of the president.

There was a rumor out yesterday that Professors Lenker and Nicholson were resigning because of difficulties had with other members of the faculty. This rumor was investigated this morning by a Citizen representative and found to be without a foundation.

President Hopkins of the school board, said this morning that the two resigning professors had come to him and explained that they wished to go into business and inquired of him as to whether or not he thought the board would accept their resignations. Mr. Hopkins also said that he was sure that no difficulty had come up between the faculty and that the resignations were tendered merely as a business proposition.

Professor Nicholson was seen and said that Professor Lenker and he had formed a partnership and expected to engage in the real estate business. He positively denied that there was any contention whatever between himself and any of the faculty of the school board.

## AGAINST ABRAH ABEYTA.

Sheriff Baca Levies Upon Property  
to Satisfy a Judgment.

## FIRST NATIONAL BANK SUIT.

A flurry of excitement was caused in Socorro last Friday at about noon when it became known that Sheriff Leandro Baca had levied upon apparently all property belonging to Abraham Abeysa, ex-collector and treasurer of Socorro county, to satisfy a judgment obtained the day before by the First National bank of Albuquerque, says the Socorro Chieftain. The judgment was issued against Abraham Abeysa, Ricardo Abeysa, and Victor Sals to secure the payment of notes amounting to a little over \$10,000. There was also a separate judgment for \$2,200 against Ricardo Abeysa. Attorney James G. Fitch, of this city, represents the creditors.

This event is by no means a surprise. In fact it has been expected quite generally in the city. Abraham and Ricardo Abeysa left for Albuquerque to try to arrange with their creditors, and the wish is expressed even by the former's political enemies in the recent bitter campaign that he may succeed in staying the execution of the judgment. Should he not succeed in doing so there are other creditors who will doubtless suffer losses that they can ill afford to suffer.

Of course there is considerable speculation as to what bearing if any this event may have upon Mr. Abeysa's final settlement with Socorro county. He has not yet made his final report and settlement with the county commissioners and has been given until Monday to do so. His official bondsmen have employed Attorney H. M. Dougherty to protect their interests in the matter and that gentleman also went to Albuquerque in the discharge of such duty.

The affair is an exceedingly unfortunate one to all concerned, and it is to be hoped that it may yet be arranged satisfactorily.

Herman Blueher, the old town gardener, was at Bernalillo yesterday. He returned to the city last night.

## OPPOSENTS WEAKEN.

Quay Gets a Proposition from Them to Set a Date for a Vote.

A special dispatch to the Denver Republican from Washington, D. C., dated January 22, says:

The opponents of the omnibus statehood bill are seriously considering the abandonment of filibustering to prevent a vote on the bill. The assent of Senators Beveridge, Spooner, Aldrich and Platt, of Connecticut, is said to be all that stands in the way of reading an agreement for a vote during the second or third week in February.

A definite proposition, it is stated, was today made to Mr. Quay to accept the second Saturday in February as the date for a vote, he in return to withdraw all opposition to important legislation.

Mr. Quay is quoted as saying that he would agree if the agreement was made on the floor of the senate, but would not make a cloak room agreement.

Mr. Quay has given the opposition until next Monday to decide what they will do and whether they will agree to a vote not later than February 16, Monday next, unless there is an agreement for a vote, he will use the parliamentary advantage he now holds to block all but appropriation bills, and will insist on a continuous session.

The statehood bill occupied the entire attention of the senate today, except for a few routine matters which came up during the morning hour.

## Y. M. C. A. Building for Las Vegas.

The Y. M. C. A. directors met at the residence of D. J. Osborne, president, last night, and took formal action on some very important matters that had been agreed upon between the members outside of executive session, says the Las Vegas Record.

It became a matter of record upon resolution formally adopted, that the construction of a building adequate to the needs of the Las Vegas association, with appointments especially adopted to all phases of modern association work, should be undertaken at a cost of \$15,000. This amount is to include the cost of the lot. The dimensions of the building are to be 50x110 feet, two full stories and basement.

Plans for the canvass for funds were considered, and the board will meet again next Monday night to again take up this phase of the work, after which the canvass will be energetically pressed for work.

In preparation for the re-election of directors a nominating committee was appointed with S. K. Sydes as chairman. The election will occur at the time of the membership banquet to be given at an early date by the "Blues." Four directors will be elected for three years, four for two years, and four for one year.

Mrs. Osborne served the directors elegant refreshments, which was appreciated very much.

## ATTEMPTED TO STEAL CHILDREN

J. E. Braley, of Clifton, Deserts His Wife After Bringing Her to Phoenix.

The sheriff's officers and the police are looking for a man by the name of J. E. Braley, who, after abusing and cruelly mistreating his wife, has taken their three children with the supposed intention of taking them out of the territory and is now in hiding with them somewhere in Phoenix, says the Phoenix Gazette.

The family came in from Clifton last Monday and took rooms in a lodging house. Tuesday Braley, who was intoxicated, cursed and threatened his wife. He left with the children, saying he was going to have their photographs taken. The mother waited several hours for their return and finally, becoming anxious, went out to hunt them up. She could find no trace of them and appealed to the sheriff's office. A warrant was procured charging him with kidnapping, but so far no trace of him has been found.

Braley is described as a man of medium build, weight about 135 pounds, sandy mustache and blue eyes. The last seen of him by his wife he wore a check coat, light striped trousers and a white cowboy hat, considerably soiled. The family consists of three children, a boy 17 years old and two girls, aged 12 and 8, respectively.

Mrs. Braley is a comely woman and is a trained nurse by profession. She is almost frantic with the fear that either her husband will escape with the children or that they will come to harm during the father's drunken orgie. Anybody who knows anything about their whereabouts should immediately notify the sheriff's office.

The Themometer is Seldom Higher Than 80° in Mexico City

This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, so cools the atmosphere as to make the evenings and nights lovely.

Between the music, the flowers and the pretty customs of our Mexican neighbors; between the beautiful nights, and balmy mornings, and the cooling sea breezes of day, one becomes so entranced with the beauty of this country as to never forget his trip under "The White Umbrella."

### SAN JUAN COUNTY.

#### Farmington.

From the Hustler.  
Rev. Thomas, the boy evangelist of  
Mancoas, is here holding revival meet-  
ings at the Methodist church.

G. L. Cooper and family departed  
for California via Gallup. They went  
by private conveyance.

The Territorial Fair association  
have very wisely settled upon O. N.  
Marron for president, and P. F. Mc-  
Canna for secretary. This means a  
bigger fair than ever before for next  
fall.

J. S. Eaton of Fruitland, has sold  
his ranch to parties from Tuba City,  
Arizona. Quite a number of families  
have lately come in from that section,  
the government having purchased  
their property in Arizona for an Indian  
reservation.

Robert Collins, who recently suffer-  
ed a slight stroke of paralysis, has  
again met with misfortune. While on  
his way to Durango one of his horses  
slipped and fell and in some way in-  
jured itself so severely that it died.

The case of E. C. Arnold vs. Graf  
& Johnson for damages, was tried by  
jury in Justice Symond's court and  
resulted in a verdict for defendant. J.  
M. Palmer was attorney for Mr. Ar-  
nold, Allen Johnson pleading and win-  
ning his own case.

Juan Ignacio Chaves of Blanco and  
Miss Boneranda Montoya, niece of E.  
Vigil of Farmington, were married at  
the home of Mr. Vigil. A large dele-  
gation of Spanish American citizens

from the Largo district came down  
to attend the wedding.

A Woodman of the World camp is  
soon to be instituted in Farmington.  
Deputy Grand Marshall Skeed, who  
is now a resident of Farmington, will  
install the lodge. This will be the  
first fraternal insurance order to have  
a lodge here. Quite a number of our  
citizens have signified their intention  
of joining.

#### From the Times.

Larkin Beck and family have ar-  
rived home from Oklahoma. He in-  
forms us that they had a fine visit and  
that there were many in that section  
who were interested in our county and  
contemplated investigating it.

John Harris' team became fright-  
ened while he was unloading lumber  
at the city hall. They started to run  
and near the meat market ran into Mr.  
Knight's buggy and mule, breaking the  
buggy some, but not seriously, and  
stopping the team.

The citizens of this town have con-  
tributed \$100 to a fund to be placed in  
the hands of S. R. Blake for the pur-  
pose of bringing an expert oil locator  
named McDougall here from Florence  
to locate some oil fissures. Mr. Blake  
has great faith in his powers, and says  
he will put machinery on the ground  
and put a well down if the expert  
points out a place where he claims  
that oil can be found.

#### Aztec.

From the Index.  
L. B. Weeks, of La Plata, was in  
town several days this week. He has  
recently returned from a business trip  
to North Dakota and Nebraska and re-  
turned more pleased with San Juan  
county than ever.

Col. D. K. B. Sellers and C. E. Starr,  
of the Farmington Hustler, were Aztec  
visitors. The colonel was attending to  
business at the court house in connection  
with numerous real estate sales he  
has been making.

W. F. Gillam, Jr., and Byron Baker,  
who left several weeks ago, with some  
idea of going to Washington state, re-  
turned to Aztec, this week, well satis-  
fied that sunny San Juan was good  
enough for them.

**DANDRUFF CAUSED BY A GERM.**  
A New Discovery That Kills the Germ  
and Prevents Baldness.

Pretty nearly all the hair prepara-  
tions for dandruff, have some merit in  
allaying itching of the scalp, and in be-  
ing a fairly good dressing for the hair,  
but there is only one that recognizes  
what causes dandruff, falling hair, and  
baldness, and that destroys the cause,  
a little germ—and that is Newbro's  
Herpicide. This germ eats way into  
the scalp down to the hair root, where  
it saps the vitality, causing dandruff  
as it digs up the scalp into little white  
scales. Unless it is destroyed there is  
no permanent stopping of falling hair  
and cure of dandruff and baldness.  
Newbro's Herpicide kills the germ.  
"Destroy the cause, you remove the ef-  
fect."

#### GALLUP.

From the Republican.  
B. F. Kennedy returned from a busi-  
ness trip to California.

William Sweeney has resigned his  
position at Gorton's. Frank Briggs an  
ex-rigger, is the new man.

John S. Bowie left here to take a  
position as bookkeeper for the Becker-  
Mercantile Co. at Belen.

The employees of the American Fuel  
Company received their monthly pay  
last Sunday. The roll amounts to about  
\$30,000 per month.

The equipment for the Gallup signal  
corps, which was organized last  
year by J. H. Young, will be furnished  
in the course of the next two months.

H. Neuman, of the Zuni Mountain  
Lumber and Cattle Company, spent a  
couple of days here this week on busi-  
ness.

The services at the Methodist  
church have been made more interest-  
ing by the organization of a quartette  
of good singers and the purchase of a  
new organ.

K. K. Scott, administrator of the  
estate of the late Theodore Maxwell  
has brought suit before Justice De  
Shon against Thomas Maxwell for  
\$12.50 and against J. B. Campbell for  
\$28.70.

Mr. and Mrs. J. D. Boone arrived  
here from Houcks Tank, Ariz., near  
which place Mr. Boone has been run-  
ning his band of sheep. Mrs. Boone  
has left on a visit to friends in Kansas  
City.

Major G. W. Hazlett, agent of the  
Navajos at Fort Defiance, came in this  
week, and accompanied Dr. Mary E.  
Harper to her new field of duties at  
Tobatchie. Major Hazlett has eleven  
Indian prisoners at Defiance from  
whom he is trying to get some infor-  
mation in regard to the murder of Chas.  
Kyle.

A suit has been entered in the dis-  
trict court by W. F. Kuchenbecker, ad-  
ministrator, vs. Mrs. Angelina Kuchen-  
becker, guardian of Charles, Allen and  
Bridge Harding. A statement of the  
nature of the action in general is, a  
petition to mortgage the real estate of  
the estate of Nelson Harding Jones,  
deceased, to pay the indebtedness of  
said estate, amounting to the sum of  
\$1,500.

A number of articles were stolen  
from the residence of Jose Prade when  
he was at Ft. Defiance. Prade accom-

## AN OLD SORE

Will sour the sweetest disposition and  
transform the most even tempered, lov-  
able nature into a cross-grained and  
irritable individual.

If impatience or fault-finding are  
ever excusable it is when the body is  
tortured by an eating and painful sore.  
It is truly discouraging to find after  
Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh  
and the skin regains its natural color. It is  
through the circulation that the acid, corroding  
fluids are carried to the sore or ulcer and keep it  
irritated and inflamed. S. S. S. will purify and  
invigorate the stagnant blood when all sediment or  
other hurtful materials are washed out, fresh rich blood is carried to the  
diseased parts, new tissues form, and the decaying flesh begins to have a  
healthy and natural look; the discharge ceases and the sore heals.

Several years ago, my wife had a se-  
vere sore leg and was treated by the  
best physicians but received no benefit.  
Our druggist advised her to try S. S. S.,  
which she did. Fourteen bottles cured  
her and she has been well ever since.

paid Sheriff Smith to a Navajo ho-  
gan south of town where some of the  
articles were found. The Indians gave  
up the articles and stated that a lad  
by the name of Will Canning had  
brought them to the hogan. No arrests  
were made, as Canning had told the  
sheriff that he had been left in charge  
of Prade's house, which was not true.  
A reform school is badly needed for  
such cases.

#### Finds Way To Live Long.

The startling announcement of a  
discovery that will surely lengthen life  
is made by Editor O. H. Downey, of  
Churubusco, Ind., "I wish to state," he  
writes, "that Dr. King's New Discovery  
for consumption is the most infallible  
remedy that I have ever known for  
coughs, colds and grip. It's invaluable  
to people with weak lungs. Having  
this wonderful medicine no one need  
dread pneumonia or consumption. It's  
relief is instant and cure certain." All  
druggists guarantee every 50c and  
\$1.00 bottle, and give trial bottles free.

#### CERRILLOS.

From the Register.  
R. Green has been suffering with  
rheumatism the past week.

Joe Grantlo has been on the sick list  
for several days, but is improving.

Mrs. Rafael Grantlo has been on the  
sick list a few days, the result of a  
bad cold.

W. C. Rogers, who has been visiting  
in town for several weeks, left for his  
home in California.

Davis and Rashed Koury returned  
the first of the week from a very suc-  
cessful business trip to Gallisteo and  
other points east and south.

W. W. Atchison was in from Hea-  
gan, and reports everything lively in  
the new coal camp. He says there are  
about thirty men at work and one force  
is being increased as fast as room can  
be made for more. He also states that  
new machinery and equipments are  
arriving every day.

Last Monday morning, while habi-  
tating some boxes, James Coleman and  
his blacksmith, Steve Conrod, had an  
accident which came near costing Mr.  
Conrod his sight. While pouring the  
molten metal it came in contact with  
some moisture, causing it to explode  
and fly over both men, burning Conrod  
so badly about the face and eyes that  
he has been unable to work since.

Fortunately for Mr. Coleman he did  
not receive the force of the blow in the  
face, so he was not seriously injured.

Quite an excitement was created  
Wednesday afternoon, when Epifanio  
Romero came in from Cieneguilla and  
reported that the two men who killed  
the jailer in Santa Fe and made their  
escape, last Sunday evening, had spent  
the night in Cieneguilla. On hearing  
this report the city marshal, Matias  
Montoya, went to town to organize a  
party to go out and look for them, but  
when it was found that no reward of  
any account was offered for their cap-  
ture, no one appeared to care about  
spending their time hunting convicts  
for fun.

From the Bee.  
Chas. Crossman was in from the  
ranch this week.

S. C. Vaughn and Chas. Crossman  
have been appointed administrators of  
the estate of the late Paddy Vaughn.

the Union Central Life Insurance com-  
pany, has returned from an extended  
and successful business trip to El  
Paso.

Judge Borchert has a bicycle, which  
does not belong to him. It was ridden  
by someone to the front of his office  
and was left there last Thursday.  
It is white frame, and the owner can

ing property and leaving 50 cents for  
this notice.

#### Don't Worry.

This is easier said than done, yet it  
may be of some help to consider the  
matter. If the cause is something over  
which you have no control it is obvi-  
ous that worrying will not help the  
matter in the least. On the other hand,  
if within your control you have only  
to act. When you have a cold and fear  
an attack of pneumonia, buy a bottle  
of Chamberlain's Cough Remedy and  
use it judiciously and all cause for  
worry as to the outcome will quickly  
disappear. There is no danger of  
pneumonia when it is used. For sale  
by all druggists.

#### Death of Mrs. Shaw.

Mrs. Shaw, widow of Judge J. M.  
Shaw, died suddenly of heart failure  
at 7:30 o'clock Friday evening at the  
home of her daughter, Mrs. Conrado A.  
Baca, in this city. Two daughters sur-  
vive her, Mesdames Conrado A. Baca  
and Abner Torres. Funeral services  
were conducted at the Presbyterian  
church Saturday morning at 9 o'clock.  
Judge Shaw came to New Mexico in  
1862 as a chaplain in the United States  
army, and was stationed at Fort Win-  
gate. He afterwards came to Socorro,  
where he died September 30, 1886. The  
memory of him is greatly honored in  
this community, as is that of the wife  
who Friday night joined him in the  
great beyond.—Chieftain.

#### Hell is Cooling Off.

Some time since a young man asked

#### Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus  
Falls, Minn., fell and dislocated her  
shoulder. She had a surgeon get it  
back as soon as possible, but it was  
quite sore and pained her very much.  
Her son mentioned that he had seen  
Chamberlain's Pain Balm advertised  
for sprains and soreness, and she ask-  
ed him to buy her a bottle of it, which  
he did. It quickly relieved her and  
enabled her to sleep, which she had  
not done for several days. The son  
was so much pleased with the relief it  
gave to his mother that he has since  
recommended it to many others. For  
sale by all druggists.

## GREAT ITALIAN BAND At Colombo Hall, Friday Night, January 30

The Great French Horn Quartet.

The Cavaliere Emilio Rivela, who has but recently come over from Italy to direct Channing Ellery's Italian band, is one of the most distinguished of all the young leaders of his native land. He comes of a noble family noted for its blue blood and its artistic ability, is a graduate of the Royal Conservatory of Music of Naples and is a brilliant pianist, as well as bandmaster. Signor Rivela is not yet 30 years of age, but is ranked among the very best composers of Italy for both bands and piano. He was until the time of his sailing for America, director of one of the greatest municipal bands in the Italian kingdom. Last year at the annual national conference of bands at Naples, he secured in competition with 146 bands, the king's trophy, an elegant loving cup. Signor Rivela is a cavaliere, or knight as we would say in English, and wears the cross of Savoy, with which he was decorated by the late King Humbert, shortly before that much loved ruler was assassinated.

Signor Rivela has been in this country but a few months, but in that time he has brought himself to be recognized as a leader of great ability by those who have had the pleasure of watching him conduct. He is graceful in all his movements, yet puts life into his work. Those who have already seen him, declare that he will become the rage of the entire country in less than a year.

The band comes to Albuquerque, Friday night, January 30.
