TERRITORIAL LAWMAKERS

Second Day's Proceedings of Legislative Assembly.

ANDREWS WILL GO TO WASHINGTON

Two Contests in the House--Fight on Over Numerous Legislative Employees.

Special to The Citizen.
Santa Fe, N. M., Jan. 21.—The council transacted very little business this morning, and adjourned till tomorrow afternoon.

Senator Andrews was granted leave of absence to go to Washington to urge passage of the statehood bill. He left last night for Albuquerque, accompanied by W. S. Hopewell, to consult with the citizens' committee as to the right of way and terminal grounds for the Albuquerque Eastern in that city, and from Albuquerque he will proceed to Washington.

The house devoted the morning session to two contests—one from San Miguel county, and the other from Colfax county.

There is a fight on over legislative employees, and the number will probably be reduced.

SECOND DAY, TUESDAY, JAN. 20.

Council.

Every member of the council answered roll call. Rev. W. R. Dye led in prayer. The minutes are kept unusually complete, each remark and address being fully reported.

The president appointed the following committee on rules: Messrs. Chaves, Spies and Hawkins.

The president remarked that he would not appoint a committee on privileges and elections as no contest had been announced, and this caused some good natured rivalry between Messrs. Hughes and Fall.

Hon. Amado Chaves introduced the following resolution:

A joint resolution for the printing of the governor's message in both English and Spanish. The resolution provides for the printing of 1,000 copies in Spanish and English and provides that the exhibits going with the message shall not be included in the printed journal.

Hon. Amado Chaves asked for unanimous consent to consider the resolution, but Messrs. Hughes, Hawkins and Fall objected and the resolution went over.

Hon. Amado Chaves then introduced council bill No. 2:

An act to provide for the expenses of the territorial board of education to regulate county institutes, etc. This act provides for a mileage of 10 cents for each member of the board of education from his place of residence to the place of meeting, counting one way, and \$2.50 for each and every day that the board is in session out of funds arising from the rental of the common school lands.

Not more than two meetings per year of two days each shall thus be paid for. The bill provides the following for the payment of expenses of county normal institutes: Each applicant for a teacher's certificate is to pay \$2 for each examination; that the county treasurers of first class counties annually set apart \$100 for the purpose; of second class counties \$75; third class counties \$50 for the county institute fund; into which are also to be included all monies collected by county superintendents from applicants for county certificates, and those attending county institutes. The bill also provides that no person shall conduct any county institute within the territory unless having a certificate from the territorial board of education authorizing him to do so. An appropriation of not exceeding \$25 annually is made by the bill for printing certificates for conductors and instructors in the county institutes and the printing of the questions prepared by the territorial board of education. The territorial board of education is also empowered to issue a course of study for county institutes and to revoke county certificates for inability, incompetency, or for any cause that would have withheld the issuing of such certificates. The bill went over to be referred when the committees are appointed.

The council then adjourned until 10 o'clock Wednesday morning.

The House.

All members were present at roll call. The chaplain, Rev. Adrian Rabeyrolle, offered prayer. Hon. W. A. Mc-

Iver, who was absent on Monday, was sworn in by Territorial Secretary J. W. Reynolds.

The journal of the previous day which was very complete, even in detail, was read and approved.

Speaker Montoya appointed the following committee on rules: Messrs. Montoya, Llewellyn, Pedro Sanchez, Turner and Bowie.

He appointed the following committee on privileges, contests and elections: Messrs. Cristoval Sanchez, Pendleton, David Martinez, Llewellyn and Eduardo Martinez.

The territorial employees were sworn in by Speaker Montoya.

Hon. Pedro Sanchez, of Taos, introduced house bill No. 1, an act to abolish the office of coal oil inspector in New Mexico. Some parliamentary discussion followed to postpone the introduction of this bill, but it was without result and the bill was read and laid over until it can be referred to the proper committee. Hon. Pedro Sanchez rose to the point of order that all committees should meet at the capitol, the speaker sustaining him in this point.

The house then adjourned until Wednesday morning at 10 o'clock, to give the speaker time to make his committee appointments and time for the committees thus far named to work.

This afternoon, Speaker Montoya swore in additional territorial employees elected at the morning session.

Legislative Notes.

The first council bill was introduced by President Chaves on Monday, as follows: Council bill No. 1, an act to compel attendance at government and territorial schools, which was ordered read first and second time and ordered printed and referred to the committee on education when the same shall be announced. The bill provides for the compulsory attendance at school of all children in New Mexico between the ages of 6 and 18 years, providing their transportation expenses are paid when necessary. A fine of not less than \$5 and not more than \$25 for the first offense, and from \$10 to \$50 for the second offense or imprisonment in the county jail of from ten to thirty days, are the penalties provided for parents, guardians or others having control of children who fail to comply with the act.

Messrs. Fall, Hawkins, Spies, Andrews and Albright constitute the council committee appointed by President Chaves for the purpose of formulating finance bills to cover the expense of the statehood propaganda, preparing necessary resolutions, memorializing congress, thanking Hon. B. S. Rodey, etc., this being upon motion of Mr. Hughes.

At noon yesterday the joint statehood committee constituting five members from each house, met and organized by electing Hon. A. B. Fall president, and Hon. G. F. Albright, secretary. This is the statehood committee, and the special committee to draft resolutions is as follows: A. B. Fall, chairman pro tem; Messrs. Spies, of San Miguel; Bowie, of McKinley; and Turner, of Grant.

It is almost certain that Messrs. Coleman and Stockton, republicans, contestants from San Miguel and Colfax counties respectively, will be given their seats in the house.

The house will undoubtedly be called upon to decide between McCosh, republican, and Holland, democrat, from Union county. At the general election in November there was a tie, and at the special election, the other day, the race was very close, both claiming to be elected, and both gentlemen are now at Santa Fe. There will be a contest and the result will no doubt be favorable to McCosh.

Charles V. Safford, the chief clerk of the house, though he looks young in years, has had considerable experience in legislative and political matters. In Kansas he served in several campaigns with Senators Plumb and Ingalls. He held a position in the last legislative house.

W. E. Martin, the chief clerk of the council, is a veteran of six terms in the legislative service. He has served

one term as a member of the council, one term as a member of the house, three terms as chief clerk of the council and one term in another legislative position.

The New Mexican says: "Hon. Antonio Lucero made quite an address in Spanish yesterday afternoon in seconding the nomination of Hon. Nestor Montoya for speaker. He offered the olive branch to the republicans, but since his seat is contested by a republican, this was quite a politic thing to do."

It is claimed that Senator Fall is the handsomest man in the council. He is a Kentuckian.

Representative Bowie is rustling for the interests of Gallup in so far as they are involved in the location of the miners' hospital there.

Eastern Weather.

Chicago, Jan. 21.—Temperature at 7 a. m.: New York, 48; Boston, 40; Philadelphia, 46; Washington, 36; Chicago, 16; Minneapolis, 8; Cincinnati, 32; St. Louis, 20.

Goddard, the Pugilist, Dead.

Camden, N. J., Jan. 21.—Joe Goddard, the pugilist, who was shot at the republican primaries in Camden county July last, died today in the hospital here. Goddard, it is alleged, was in charge of a gang of Philadelphia repeaters.

ANDREWS-HOPEWELL.

They Hold Conference With Executive Committee and Talk Railroad.

NO SITE YET SELECTED.

Hon. W. H. Andrews, president, and Hon. W. S. Hopewell, vice president and general manager, both prominent officials of the Albuquerque Eastern and the Santa Fe Central Railway companies, per advice previously received by Messrs. Myers, Brooks and Strickler, reached the city last night from Santa Fe, and today held an important conference with the three gentlemen constituting the executive committee of the general citizens' committee, at the Bank of Commerce, where they discussed the Albuquerque Eastern railway proposition and the facts leading up to the location of terminal grounds and right of way into the city.

The Citizen representative called at the bank, this afternoon, and on being admitted, secured the following brief interview with General Manager Hopewell:

"We have had a very pleasant conference with the executive committee of the general citizens' committee," said Mr. Hopewell, "and on behalf of the Albuquerque Eastern railway, constituting General Torrance, Senators Arthur Kennedy and W. H. Andrews and others will say that they want to work in entire harmony with the committee and the city of Albuquerque. While we have our own ideas and preferences in regard to the location of terminals, etc., we are not wedded to any particular section of the city. Of course, we want to get as far into the city as possible, and as the big lumber mill and box factory will be built in the northwestern section of the city, we would naturally like to have facilities for getting in close touch with them, and thence, as the committee and people see fit, closer into the city. We will not insist upon any one particular site—all we want is a suitable site for the purposes intended, and for as little money as possible to the generous subscribers of this city. To be emphatic, let me say no site has yet been selected, and none will be until the surveys get to work, which will be in a few days, and make their report, after which work will be commenced on the Albuquerque Eastern railroad in strict accordance with the agreement entered into with Messrs. Myers, Brooks and Strickler."

Mr. Hopewell will accompany Senator Andrews south as far as El Paso tonight on the latter's way to Washington. The former gentleman will then return north, visiting his wife at Hillsboro for a day or two, and thence back to Albuquerque. He hopes to be here next Monday morning.

Will Serve Thirty Years.

Hartford, Jan. 21.—The Wilcox case this afternoon brought in a verdict of murder in the second degree, and fixed punishment at thirty years in the penitentiary at hard labor.

King's Birthday Observed.

Stockholm, Jan. 21.—King Oscar's seventy-fourth birthday is being royally observed here today, by a banquet to the foreign ministers. The city and harbor are gaily decorated and the usual salutes were fired. The whole city observed the day as a holiday. The king was in good health and excellent spirits.

COMMITTS SUICIDE

Noted Character of the North- west Pulls the Trigger.

BEING TRIED FOR HIGH TREASON

Burnham, of New Hampshire, Ham- mering Away Against Statehood.

SENATOR QUAY SECURES A TEST VOTE

Butte, Mont., Jan. 21.—George Van Burnham, one of the most noted characters of the northwest, committed suicide in his cabin at Rattlesnake Valley after a protracted spree. He placed the barrel of his rifle against his heart, and touched the trigger off with the stove poker. Van Burnham was 60 years of age and claimed to be a lineal descendant of President Van Buren. He acted as scout under General Howard during the Nez Perce trouble. He was also sent by Miles with orders for Custer, reaching the scene of massacre the day of the annihilation of the band of soldiers.

COL. ARTHUR LYNCH.

On Trial at London for Treason Against Great Britain.

London, Jan. 21.—The trial of Col. Arthur Lynch, member of parliament for Galway on the charge of treason by aiding and abetting the king's and late queen's enemies during the war in South Africa, according to one unique sentence of arraignment, "being moved and seduced thereto by instigation of the devil," commenced today before lord chief justice, Lord Alverstone, and two other justices. The prisoner pleaded not guilty. This is the first treason trial for England for upward of sixty years.

OUR ENEMY.

Burnham, of New Hampshire, Talking Against Statehood.

Washington, Jan. 21.—When the senate met today the Vest resolution, requiring the finance committee to prepare an report the bill removing the duty on coal, was referred to the committee on finance.

Quay then, in accordance with notice given yesterday, called up the statehood bill.

Burnham, of New Hampshire, addressed the senate in opposition to statehood for Oklahoma, Arizona and New Mexico.

Test Vote.

Washington, Jan. 21.—In the senate at 4 o'clock this afternoon Cullom moved to proceed to executive business.

The motion was resisted by Quay, in charge of the omnibus statehood bill. The motion resulted in a roll call and the vote resulted—yeas, 25; nays, 35. The detailed vote follows:

Yeas—Aldrich, Alger, Allison, Bard, Beveridge, Burnham, Burrows, Clapp, Cullom, Dietrich, Dooliver, Fairbanks, Frye, Gamble, Hanna, Hoar, Lodge, McComas, Millard, Nelson, Proctor, Quarles, Simon, Spooner, Wetmore—25. Nays—Bacon, Bate, Berry, Blackburn, Burton, Carmack, Clark (Montana), Clark (Wyoming), Clay, Cockrell, Culberson, Du Bois, Foraker, Foster (La.), Gallinger, Gibson, Hansbrough, Heitfield, Jones (Nevada), McCumber, McLaurin (Miss.), Mallory, Martin, Mason, Morgan, Perkins, Pettus, Quay, Rawlins, Simmons, Stewart, Tanagerro, Turner Vest, Wellington—35.

In the House.

Washington, Jan. 21.—The house resumed consideration of the Philippine coinage bill.

Cooper, chairman of the insular committee, continued his argument in support of the bill.

PACKING HOUSE FIRE.

Big Warehouse with Slaughtered Hogs Burning.

Milwaukee, Jan. 21.—The three-story warehouse of the Plankinton Packing company is burning. The fire started in the engine room, and 700 hogs, slaughtered this morning, are adding fuel to the flames. The loss up to 2 o'clock will aggregate between \$75,000 and \$100,000.

PRESIDENT ROOSEVELT.

He Considers Situation Over Statehood Bill Serious.

Washington, Jan. 21.—President Roosevelt was in further conferences today with senators respecting the omnibus statehood bill. The situation as

it was developed in the senate yesterday is regarded by the president and leaders in the senate as serious. The president is taking no active part in the statehood bill contest but he is concerned lest it should result in sidetracking other important legislation. He has indicated heretofore opposition to the omnibus bill, but whether his opinion regarding the measure would impel him to veto it in case it were passed is regarded as doubtful.

Bill Signed.

Washington, Jan. 21.—The president this afternoon signed the militia bill.

She Improved.

St. Louis, Jan. 21.—As a last resort in an effort to save the life of Mrs. Alice Garrett, Dr. Walter H. Dorsett last night commenced formal for blood poisoning, recently successfully applied by Dr. C. C. Burrows, of Bellevue hospital, New York. A marked improvement in the condition of Mrs. Garrett, who was at death's door, resulted.

Fatal Freight Wreck.

San Bernardino, Cal., Jan. 21.—A head-on collision occurred between two Santa Fe freight trains in Cajon Pass at midnight. Conductor "Shorty" Stewart and Fireman Charles W. Beckett were killed and one other man will probably die.

CELSE APODACA CINCHED.

He Worked the Merchants But Finally Came to an End.

SENT TO COUNTY JAIL.

Celso Apodaca, a young native, who has been branded as a chronic criminal, was sent over to the county jail for sixty days. Apodaca has a mania for working the merchants for small sums. Many times buying an article worth a few dollars, by working under the name of a prominent native citizen, whom he knows has a good account. He then sells the purchased article away below the cost price.

Several of the merchants who have been worked in the past, have said nothing about the matter, for fear of injuring their trade. But Apodaca's little games were brought to a close this morning for at least sixty days.

The young man entered Mike Mandell's store Monday evening and purchased a pair of \$3.50 shoes of Mr. Mandell's nephew. He told the boy to charge them to Nicolas Apodaca. As the boy had nothing to do with the books he called Mr. Stein, who being unable to understand who Apodaca meant, brought out the index to the accounts. Apodaca immediately picked out the name of one Armijo, whose account is good at any time, saying that this Armijo was his father. Mr. Stein thinking that the young man was all right let him take the shoes. When Mr. Mandell returned the matter was reported to him. He thought it strange that Mr. Armijo should send a boy to buy shoes and turned the matter over to Marshal McMillin, who had located his man and had the shoes back in half an hour. The shoes had been sold to a First street barber for \$1. The marshal told the boy to go home and get a dollar which he was to return to the man to whom he had sold the shoes. But instead of going home he went to Ruppe's drug store, and seeing Mr. Ruppe was out, he ordered a bottle of brandy and the loan of a dollar, representing himself to be the son of Nicolas Apodaca. The clerk telephoned to Mr. Ruppe and being assured that Nicolas Apodaca was all right gave the boy the medicine and money.

Young Apodaca failed to return with the dollar to the marshal, and consequently he was lodged in jail yesterday afternoon. Then it was that the crooked deal at Ruppe's was learned.

The lad has been a constant source of trouble to the police. His mania for stealing being known, many petty crimes are centered around him, when perhaps he is not guilty. Heretofore his many offenses of obtaining money and goods under false pretenses have been fixed up. But the police cannot protect the public with such characters running loose.

Lumbermen in Session.
Washington, Jan. 21.—Legislative measures and other matters affecting the interests of the lumber trade are to be considered at length at the annual convention of the National Lumber Exporters' association. The convention began its sessions here today with an attendance of members from many parts of the country, the south being particularly well represented.

Ernest M. Price, of New York, is the presiding officer and Elliott Lang, of Memphis, the secretary of the convention.

COLORADO IN A TURMOIL

Governor Peabody Trying to Patch Up Difficulties.

LOOKS LIKE NO SENATOR THIS SESSION

Vest Honored, But Successor Elected--Till- man, the Shootist, Out of Office.

Denver, Jan. 21.—Governor Peabody is making efforts to have the difficulties between republican and democratic senators adjusted before noon today when the joint session of the legislature should be held to vote for United States senator.

A conference between the committees of the contending parties are being held in the governor's office. Three republican senators, Cornforth, Drake and Wood, it is claimed, have bolted the body over which Lieutenant Governor Haggott presides, leaving only six regularly elected republicans in that organization.

The governor has not agreed to recognize Haggott's senate as regular.

The democratic senators occupied the senate chamber all night, sleeping on cots.

Ropes and ladders were found this morning in ante rooms of the house gallery. It is not known who placed them there, but it is presumed the purpose was to afford the democratic senators means to enter the house chamber should an attempt be made to exclude them from the joint session. The ropes and ladders were removed.

The democratic senators adjourned yesterday's session at 10 a. m. and immediately reconvened.

The emergency appropriation bill, carrying \$50,000 for salaries, was unanimously passed and sent to the house for the purpose of ascertaining if that body will recognize the democratic senate.

No republicans attended the session of the senate.

The democratic senators appointed Moore, Seldomridge and Adams a committee to attend the conference in the governor's office.

The house secretary refused to receive the appropriation bill, thus refusing recognition of the democratic senate.

The house transacted on business, but on motion of Dolph, of Colorado Springs, adjourned until 2 p. m. Friday. All members, except Dr. Paul, a democrat, voted for the motion.

No joint session will be held today and the democratic house leaders say no election can now be held this session.

The republican senate appointed Owen, Drake and Delong a committee to attend the conference in the governor's office.

The democratic senators adopted resolutions to hold a joint session and sent them to the house. The messenger was not admitted, but the democratic members of the house began filing into the senate chamber at noon to attend the joint session.

The democratic representatives all assembled in the senate chamber. There are fifty-one members of the legislature present. Senator Barela entered a protest against any further proceedings, when a debate on the regularity of the joint session followed.

Barela moved the joint session adjourn. The motion lost by a vote of 43 to 8. McGuire asked to be excused from voting. The request was refused by a vote of 39 to 18. The conference in the governor's office has been unavailable so far.

The republican senate adjourned for the day without doing any business.

When the ballot for senator was taken forty-five votes were cast, all for Teller. Six refused to vote. Senator McGuire left before the ballot was taken. The joint session adjourned until noon tomorrow.

Those who declined to vote on senator were Adams (Arapahoe), Barela, Buckley, Graves, McGuire, senators, and Representative Madden.

FROM OTHER STATES.

Salute Fired in Honor of Vest--Till- man Steps Down and Out.

Jefferson City, Mo., Jan. 21.—The general assembly met in joint session today and formally declared former Governor William Joel Stone elected United States senator to succeed George G. Vest. In honor of Vest, who has been a member of the senate since 1879, a salute of thirteen guns was then fired.

Columbia, S. C., Jan. 21.—Duncan Clinch Hayward, democrat, was inaugurated governor of South Carolina today. James T. Sloan was sworn in as lieutenant governor to succeed James H. Tillman.

Albany, N. Y., Jan. 21.—The general assembly in joint session today, formally elected Thomas C. Platt to the United States senate.

Dover, Del., Jan. 21.—The democratic caucus members, who made an offer to deal with the republicans in electing one senator each in an effort to defeat Addicks, today submitted their refusal to extend the time limit of their offer. The two houses assembled in joint session at noon to ballot for senator. There was no choice.

Lansing, Mich., Jan. 21.—The legislature in joint session ratified the election of Russell A. Alger as United States senator.

Salt Lake, Utah, Jan. 21.—The two houses of the legislature in joint session today confirmed the election of Reed Smoot to the United States senate.

Indianapolis, Jan. 21.—United States Senator Fairbanks was re-elected today in joint session of the legislature.

Investigation Quashed.

St. Paul, Jan. 21.—The proposal to investigate the issuance of passes by railroads to legislators and others was quashed in the house today.

Iowa Stock Breeders.

Newton, Iowa, Jan. 21.—Prominent stockmen from every county in the state were present today at the opening of the annual meeting of the Iowa Improved Stock Breeders' association. A two days' program has been arranged calling for papers and discussions covering a wide range of subjects of pertinent interest to those engaged in stock breeding.

British Royalty Coming.

New York, Jan. 21.—Among the notable passengers on the White Star line steamer Celtic, which is due from Liverpool today, are the duke and duchess of Manchester. This is the first visit the Manchesters have paid to America since their marriage. It is understood that after several days in New York the couple will go to Cincinnati to visit the father of the duchess, Mr. Zimmerman.

Game and Fish Clubs Meet.

Ottawa, Ont., Jan. 21.—The North American Fish and Game Protective association began its annual meeting here today and will continue in session through the rest of the week. As its name implies the purpose of the association is to promote legislative and other steps looking to the better protection of fish and game. Delegates are in attendance from all over Canada and from parts of the United States between Maine and Illinois.

United Mine Workers.

Indianapolis, Jan. 21.—When President Mitchell called the United Mine Workers to order today he announced the special committees on resolutions on appropriation and on injunctions. The resolution committee began reading resolutions submitted by different locals, and most of these demanded increases ranging from 18 to 25 per cent for run of mine bams, for weighing coal on miners' cars, for smaller differentials and for advance in the wages of inside and outside common labor.

Good Roads for Arkansas.

Little Rock, Ark., Jan. 21.—Arkansas proposes to have roads that will compare favorably with the best public thoroughfares to be found in any part of the country and to this end a state convention was begun here today to lay the matter before the legislature and to discuss the best ways and means for furthering the movement. County officials from all parts of the state are in attendance, together with many representatives of trade and commercial bodies. The sessions of the convention are to continue two days and the delegates will listen to practical talks from several government good road experts.

ritory.

New Mexico demands Statehood from
the Fifty-Seventh Congress.

There is no doubt, however, that the
example of Uncle Ben Tillman has had
a lot to do with the present scrape of
Nephew Jim.

Illinois, the senate and the country
are all to be congratulated upon the
retirement of that loquacious feather-
weight, William E. Mason.

Patti is willing to revisit America
for \$300,000, and Peary will make an-
other dash toward the north pole for
\$150,000. Genius is not always a one-
price affair.

There is at Santa Fe a delegation
from Portales, Chaves county. They
are anxious to have a new county
created out of portions of Chaves and
Guadalupe, with Portales as the county
seat, and that the new county be
named "Roosevelt."

The El Paso Times says: "Visiting
newspaper men will not blame the
local press for the failure of the car-
nival management to extend courtesies
promised when securing free adver-
tisement for the carnival in papers in
New Mexico, Texas and Arizona."

The Socorro Chieftain says: "If the
suggested division of Socorro county is
designed solely for the material ben-
efit of all concerned, that is one mat-
ter. If, however, the proposed division
is merely a scheme of somebody who
has a political ax to grind, that is
quite another matter."

FORAKER AND NEW MEXICO.
Senator Foraker of Ohio, the brother
of C. M. Foraker, of this city, the Uni-
ted States marshal for New Mexico, is
striking sturdy blows for statehood, in
the senate.

Sensor Foraker said the commit-
tee's report on the condition of New
Mexico, Oklahoma and Arizona was
the greatest libel that had been direct-
ed against a community. He read
figures to show that 1,271,518 acres of
land had been taken up by settlers
since the completion of the last census
reports, most of which was by home-
stead entries. At one land office alone
there were over 200 entries during the
month of December, just past. As to
the arid lands the committee said ex-
isted in New Mexico, he said they
would be of use in furnishing the ma-
terial for the country during the com-
ing years. "On these plains there graze
thousands of sheep and cattle," he
said. "Perhaps the committee does not
know this for the reason that it
went through the country too fast to
see them."

THE CRITICAL WEEK.

A special dispatch from Washing-
ton, dated January 19, says:
This is expected to be the critical
week in the statehood contest. Friends
of the measure, under the leadership
of Elkins and Quay, will make an ef-
fort to force the senate to a vote. Sen-
ator Quay has announced that his side
of the question needs no further ex-
ploitation, and this means that the op-
position must have a large number of
speakers ready to go on with the de-
bate, or else they will not be enabled
to occupy the entire time of the sen-
ate, and a vote must follow.
Elkins and Quay are disposed to
push for night sessions to continue
consideration of the bill, and if suc-
cessful, this may force a vote.
The leader of the opposition, Sen-
ator Beveridge, claims that he has

eleven senators upon whom he can
call for speeches, each of whom will
be ready to talk for a day or more.
The full strength of the opposition is
likely to be centered in the effort to
either displace the statehood bill on
the senate calendar by the legislative
appropriation bill reported today, by
an anti-trust bill, or by substitution of
the measure providing for the combi-
nation of New Mexico and Arizona as
a single state.

Sensor Burnham will be the next
speaker in opposition to the bill and it
is expected will occupy several days.

WARNING TO PUBLIC SERVANTS.

The Tucson Citizen deals out the
following warning to the legislators of
Arizona:

The time has arrived when the peo-
ple of Arizona are going to keep a
tighter rein on their public servants,
especially representatives in the leg-
islature. The latter's every act will
be closely scrutinized, and woe be to
the future political aspirations of the
man who is caught in double-dealing
or attempts to deceive his constitu-
ents. The members of the coming
legislature will be required to deal
honestly and frankly with the people.
Promises made by such representa-
tives prior to the election will not be
overlooked and passed by as mere
campaign dodges, but must be kept.

When elections were farces con-
ducted by ballot box wizards, not
much attention was paid to the prom-
ises or acts of public officers, but the
ballot law and the primary system have
changed all such loose and de-
moralizing methods, and public ser-
vants in this territory will be con-
fronted at the primaries by their acts.

In this respect the newspapers of the
territory have a duty to discharge.
All official acts and votes should be
made known without fear or favor.
This relates particularly to the com-
ing legislature, but it should be ap-
plied to all other official acts, in order
that justice may be done all round in
future primaries.

ARIZONA'S FEMALE BANDIT.

There is something fatiguing about
the efforts of yellow newspapers in the
east to exploit the wretched Pearl
Hart as the "Female Bandit of Ariz-
ona," says the Phoenix Republican.
She is about as much of a bandit as a
coyote is. "Broke" on the desert, and
stimulated by morphine, she and a
worthless, cowardly and degenerate
male companion managed to summon
enough nerve to stop a "Reuben" stage
driver. The pair were promptly cap-
tured and sent to the penitentiary. Her
fellow "bandit" was such a desperate
character that he was almost imme-
diately made a "trustee" around the
prison, and served as a cook for the
superintendent's family. One day he
sauntered away and never came back,
and there never was any public outcry
for his apprehension and return to
prison. In prison the woman was the
same low creature that she was when
free—her vocabulary of billingsgate
gaining in richness while behind the
bars. So illiterate that she can hardly
write her own name, she is exploited
as "educated and accomplished," and
is to go on the stage. In paroling her
the governor wisely provided that she
should leave the territory, and if east-
ern people wish to accept her as "the
female bandit" and Arizona actress,

JUST IN TIME.

A motorman in Chicago ran his car
into the approach of an open bridge but
stopped it with the fender actually over-
hanging the gulf below. He wouldn't
want to repeat the experiment because
the chances are that he'd never again
have the same good fortune.

Once in a while some one who has
traveled to the very edge of the
danger line of stomach disease stops
just in time to save his health. But
the majority of people go across
the line, and slight symptoms of indig-
estion grow to disease of the
stomach, involving the other
organs of digestion and nutrition.
The first symptom of indig-
estion should receive prompt atten-
tion. Indigestion and other forms of
stomach "trouble" are perfectly and per-
manently cured by the use of Dr. Pierce's
Golden Medical Discovery. It strength-
ens the whole body by enabling the per-
fect digestion and assimilation of food.

"I have been suffering for about eight years,"
writes Mrs. H. Pierce, of Millington, Ky. "I
had several doctors to treat me—some for female
weakness and others for stomach trouble, but
received no relief. When I wrote you for advice
I was hardly able to work, and you advised me
what to do. I began to take your medicine and
the effects have been good. I was under the
doctor's care every summer before this. I took
nine bottles of Dr. Pierce's Golden Medical Discovery,
four of 'Favorite Prescription,' also two vials
of the 'Pellets.' Dr. Pierce's medicines will do
all that you claim for them. Believe I would
have been in my grave if I had not taken them."
Accept no substitute for "Golden Medical
Discovery." There is nothing "just
as good" for diseases of the stomach.
P.S.—Dr. Pierce's Medical Adviser
is sent free on receipt of stamps to pay
expense of mailing only. Send 21 one-cent
stamps for the book in paper covers, or 31
stamps for the cloth-bound volume.
Address Dr. R. V. Pierce, Buffalo, N. Y.

they are welcome to her society so far
as Arizona is concerned.

REVIVAL OF SIMPSONITIS.

A feature of the livestock owners' convention in Kansas City the other day was the sudden political revival of Hon. Jerry Simpson, who was one of the populist ciphers that Kansas wiped off the slate several years ago, says the Denver Republican.

Mr. Simpson, who now lives in New Mexico, and who is in the cattle busi-
ness, announced himself as a free trader and even had the temerity to
engage in a tilt with Senator Warren on the subject of high tariff and wool.
It is doubtful if New Mexico will look
with any kindly eye on this evident
attempt of Mr. Simpson to announce
his political rehabilitation. The ter-
ritory cannot afford to encourage er-
atic politicians of the Simpson stripe,
but it is evident that the former Kan-
sas is going to effect his political re-
generation if it can be accomplished.
This is doubtless the secret of his re-
cent strenuous work for statehood.

New Mexico should not waste any
time in convincing Mr. Simpson that
he is a political impossibility. His
populist record does not inspire con-
fidence, and his new cloak of free
trade democracy is too evidently a
garment borrowed to suit the occasion.
Jerry should be quietly but firmly
planted once more in the political
background.

COURT ROOM SCENE.

Enraged Mother Attempts to Kill an
Attorney at Conclusion of
Rape Case.

Last evening in the district court
room, and while Judge Northcutt was
on the bench, Mrs. Ferona Dally, who
lives near Hastings, attempted to kill
County Attorney Anderson, says the
Trinidad Chronicle.

The case of the People vs. James
O'Neil was on trial, the charge being
assault to rape. The assault was al-
leged to have occurred in November,
1900, and upon the daughter of Mrs.
Dally, the girl at that time being
about 12 years of age. The case had
been closed and the jury had returned
their verdict when Mrs. Dally stepped
up to Father Berta, the court inter-
preter, and said:

"Did they acquit that man?"
Father Berta replied, "Yes."
Mrs. Dally then approached Mr. An-
derson, her hand thrust into the
bosom of her dress, and said:
"Did they acquit that man?"
"Yes," replied Mr. Anderson, who
was watching her, "they acquitted
him."

Then Mrs. Dally said, "I'll kill," at
the same time withdrawing her hand
in which she held a revolver. Mr. An-
derson, who had been warned that she
had threatened to kill him, grabbed
her from behind, and a violent struggle
ensued. The court interpreter and
balliff rushed up and wrested the re-
volver from the woman, who was sent
to jail by Judge Northcutt.

Mr. Anderson, in his address to the
jury, argued that Mrs. Dally is crazy,
and she took exceptions thereto. It is
the opinion of those present that she
intended killing the defendant and his
counsel in the event of an acquittal.
The jury was out fifteen minutes.

Free Cure for Sick Headache.

Chamberlain's Stomach and Liver
Tablets are a certain cure for sick
headache. If taken as soon as the
first indication of the disease appears
they will prevent the attack. Get a
free sample at all drug stores and give
them a trial.

W. L. Harris, the popular manager
of the Cabinet saloon, is indisposed
these days on account of a severe at-
tack of rheumatism.

"Cure the cough and save the life."
Dr. Wood's Norway Pine Syrup cures
cough and colds, down to the very
verge of consumption.

J. A. Harlan, contractor and builder,
of San Marcial, arrived from that place
this morning. Mr. Harlan has the con-
tract for the construction of the new
Santa Fe depot at San Marcial.

"It was almost a miracle. Burdock
Blood Bitters cured me of a terrible
breaking out all over the body. I am
very grateful." Miss Julia Filbridge,
West Cornwall, Conn.

The Ladies' aid of the First Congre-
gational church will hold its first
monthly tea of the season at the home
of Mrs. Bryce, 621 South Edith street,
Thursday afternoon. A special invita-
tion is extended to all.

Don't let the little ones suffer from
eczema, or other torturing skin dis-
eases. No need for it. Doan's Oint-
ment cures. Can't harm the most deli-
cate skin. At any drug store, 50 cents.

bert Symphony club quartet, and O. A.
Matson, manager of Combo hall, who
were around yesterday with a paper
getting subscribers for tickets to the
coming attraction, succeeded in en-

Letters from Women

Cured by the use of Kodol are received daily.
Their troubles nearly all begin with indiges-
tion or other stomach disorder.

If the food you eat fails to give strength
to your body, it is because the juices se-
creted by the stomach and digestive organs
are inadequate to transform the nutrient prop-
erties of the food into blood. That is
indigestion. The system is deprived of the
amount of nourishment required to keep up
the strength, and the result is that one or
more of the delicate organs gradually grows
weak, and then weaker, until finally it is
diseased. Here a great mistake is made.
That of treating the diseased organ. The
best doctors in the land make this very
mistake. Why should they? It is so easy
to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and
digestive organs in a healthy condition so
that rich, red blood is sent coursing through
the veins and arteries of every muscle, tissue
and fiber throughout every organ of the en-
tire body, and by Nature's law of health, full
strength and vigor is soon restored to each.

Kodol cures indigestion, dyspepsia and all
stomach disorders.
I have taken Kodol for nearly two months
after each meal and it is the only remedy
that gave relief from the terrible pains I
endured. After a time I would take it but
once a day, and now, while I keep a bottle
handy, I seldom need it, as it has cured me.
Mrs. J. W. COOLBAUGH, Milo Center, N. Y.

Kodol Digests What You Eat.

Bottles only. \$1.00 Size holding 2 1/2 times the trial
size, which sells for 50 cents.

FOUNDRY SIDE RAILROAD TRACK ALBUQUERQUE, N. M.

Railroad Topics

Conductor Hubbard has fully regained his usual health and spirits, so is once more at his post of duty and ready for another break-in-two.

Conductor Scudder is taking a well earned rest just now. It is the first time he had laid off since last June, so he must certainly deserve a trip or so off among the roses.

Fireman Donahue is on the sick list. Five freight engines have been turned over to the coast lines from the Santa Fe proper, recently. This will help some in raising the stringency in motive power.

Engineer Sweeney is laying off for one trip, so the 1981 was guided on her road from Las Vegas to Albuquerque and back by Engineer Davis, better known as "Hell-roaring Davis," a man with a history, says the Record.

A Santa Fe brakeman named Roberts, who was recently killed by an accident near Hanford, left on deposit in a bank in Moberly, Mo., \$15,000. The only explanation of his railroad given by his friends is, "once a railroad man always a railroad man."

The board of adjustment of the Santa Fe conductors and trainmen is still in session at Topeka. A member of the board said they would not adjourn until some kind of a settlement of the wage controversy was made with the Santa Fe. This is in accordance with the instructions they received from their organization. A 20 per cent increase in wages is asked.

B. Lantry Sons, the firm of railroad construction contractors, which is building the Santa Fe cut off, has let to Simon Neustadt, of Los Lunas, a contract to furnish forty teams for freighting supplies from Belen to Abo canyon. Teams will be used to haul the supplies to the canyon until the temporary line now in course of construction is finished. It is a nice contract for Mr. Neustadt.

The theory that accidents come in groups of three was proven this week. Sunday a switchman was fatally injured at Arkansas City by being caught between the bumpers and having his arm and shoulder crushed. That evening occurred the accident to Earl Slater in the Newton yards. A day or two later Peter Grapengater, also a switchman, was knocked from a freight car and bruised severely. Previous to this week, there had been no accident to switchmen in this locality for months. No wonder railroad men are superstitious about the "one-two-three" order of wrecks and accidents.—Newton, Kan., Republican.

"A train every time the clock strikes" is the taking motto with which Philadelphia & Reading ticket sellers at Philadelphia can answer the question, "How often do trains run to New York?" or, "When does the next New York train leave?" The establishment of the hourly schedule saves travelers the necessity of hunting up a time piece and is striking evidence of the greatness and popularity of the Reading's passenger service. In respect to completeness and comfort the fine trains that cover the ninety miles between the two great cities in two hours leave nothing to be desired.

Parasites Cause All Hair Troubles.
Nine-tenths of the diseases of the scalp and hair are caused by parasite germs. The importance of this discovery by Professor Unna, of the Charity hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff, because they do not, and they cannot kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing, making the hair glossy and soft as silk.

"Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

VIA MEMPHIS.

Government Sending Soldiers to the Coast Over Choctaw and Rock Island.

Passenger officials of both western and eastern railroads centering at Chicago were quite disturbed by the announcement that the government had awarded the contract for the transportation of 300 soldiers from New York to San Francisco to the Southern railway, the Choctaw line of the Rock Island system, and the Southern Pacific. The Rock Island company gets the traffic from Memphis to El Paso.

This is the first time the government has routed any army traffic via the Memphis gateway. It marks the beginning of keen competition between all the railroads for the transportation of soldiers. In winter time the government prefers to use the southerly routes for soldiers, and in the past has frequently sent detachments of troops from New York to San Francisco via New Orleans. The new route via Memphis is much shorter, and the extremes of climate are avoided. The change in routing decided upon by the government will deprive the Southern Pacific company of the long haul from New Orleans to El Paso.

Officials of the lines from New York to Chicago and from Chicago to the Pacific coast fear that they may lose a large part of the army and navy

business which they have enjoyed in the past. The Rock Island has a contract with the government for the transportation of all officers and men of the navy and naval equipment, eastbound and westbound, during this year. Last year the Santa Fe system had the contract.

The western railroads fear that the government has decided to divert the movement of troops and army equipment from Chicago to Memphis because of their refusal to allow the government as low rates on soldiers as the lines made for theatrical troupes, baseball clubs, football teams and other parties. Judge Kohlsaat, of the United States circuit court, last week rendered a decision in favor of the railroads as to rates for soldiers, but the government has taken an appeal from the decision.

Get a free sample of Chamberlain's Stomach and Liver Tablets at all drug stores. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25 cents per box.

Head-End Collision.

A head-on collision on the Colorado & Southern railroad Monday night, three miles below Barleta station, and twelve miles south of Trinidad, resulted in the disabling of both engines. Several cars were badly smashed. The extra freight was in charge of Conductor James Faye and Engineer Bainbridge, and collided with a work train in charge of Conductor Jones and Engineer Oldham. Several of the men on the work train were injured by jumping. Conductor Jones received a sprained ankle, and Conductor Faye was injured in the hip and back. The cause of the wreck was a misunderstanding by Conductor Faye, who misread his orders.

Rev. Carlisle P. B. Martin, L. L. D. Waverly, Texas, writes: "Of a morning when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons, needing a medicine for throat or lung troubles." Price 25c, 50c, \$1.00 a bottle at Cosmopolitan Pharmacy.—B. Ruppe.

JOHN ANDREWS.

He Goes to the Mexican Central as Master Car Builder.

John Andrews, for years located here as a worthy employee of the local railroad shops, has been given a good berth with the Mexican Central. The San Bernardino Sun says:

John Andrews, for a long term of years general foreman of the car department with the Santa Fe in this city, but who has for the past year been engaged in the grocery business, being included in the firm of Dobson & Andrews, has accepted a position as master car builder with the Mexican Central and will leave for the southland next Monday morning. His headquarters will be Agua Caliente, and the position which he has accepted is a most lucrative one, paying a handsome salary in gold. When Mr. Andrews was connected with the railroad shops here he was always a favorite with the men and these, together with the many friends he has made while engaged in business, will learn of his good fortune with pleasure.

IS SANTA FE INTERESTED?

Westerners With Money Now Backing the Erie.

New financial interests which are dominant in the Erie railroad have determined to spend between \$40,000,000 and \$50,000,000 in rebuilding the property, re-equipping the road and bringing it up to present standards in every respect.

It is known that the western interests in the property have become

IT PAYS

To Know Facts About Coffee.
When man takes properly selected food and drink Nature will most always assert herself and rebuild the structure properly.

"From my earliest remembrance I was a confirmed coffee drinker," writes a gentleman from Marshallville, Ga., "taking two cups at nearly every meal. While at college I became very nervous, dyspeptic, irritable and unfit for study and attributed it largely to coffee, but did not stop its use.

"When I was married I found my wife was troubled the same way, and we decided to try Postum Food Coffee. My wife made the Postum according to directions and we found it superb. We used it exclusively for the morning beverage, and the taste of ordinary coffee became distasteful to both of us.

"We have found a distinct gain in health. Any amount of Postum does not cause a feeling of either dyspepsia or nervousness, while the return to coffee even for one meal has disastrous effects upon my nerves. My dyspepsia has entirely left me, and both my wife and self are well and strong and feel that it is all due to the Postum." Name given by Postum Co., Battle Creek, Mich.

It is easy to replace coffee with Postum which has, when properly made, a rich flavor and the color of coffee with none of its injurious after-effects.

large, but this interest is not necessarily the Rock Island interest. It is, however, true that large holders of Rock Island are also large holders in Erie.

From now on the career of the Erie, both in the railroad world and on the stock market, will be watched with intense interest.

The western contingent, which has become interested in the property consists of bold operators, who have the courage of their convictions and are not afraid to spend money in backing them up. The Erie is the only trunk line property which in recent years has not been almost completely overhauled, if not rebuilt. The company has always been hampered by a sad lack of funds and the infusion of new western blood will undoubtedly give the company the impetus which it has lacked for many years.

Whether the Santa Fe is to be included in this combination is at least doubtful. Such combination would mean an ocean to ocean line under one control and a combination with the Santa Fe has been thought of by the Rock Island interests.

If Unwell.

Try a 50c bottle of Herbine, notice the improvement speedily effected in your appetite, energy, strength and vigor. Watch how it brightens the spirit, gives freedom from indigestion and debility.

Isaac Story, Ava, Mo., writes: Sept. 10th, 1900. "I was in bad health, I had stomach trouble for twelve months, also dumb chills. Dr. J. W. Mory prescribed Herbine, it cured me in two weeks. I cannot recommend it too highly, it will do all you claim for it." Sold by Cosmopolitan Pharmacy.—B. Ruppe.

RAILROAD CASUALTIES.

The Interstate Commission Statistics of Railroad Accidents.

A statement prepared by the interstate commerce commission shows that during the three months ended September 30, 1902, there were 263 persons killed and 2,613 injured in train accidents, including those sustained by employees while at work and by passengers in getting on or off cars, etc., bring the total number of casualties up to 12,907, the killed numbering 845 and the injured 11,162.

During the three months covered by the statement the traffic of a large majority of the railroads has been heavier than ever before, necessitating the employment of new men in train and yard work. The total number of collisions and derailments was 2,448, of which 1,444 were collisions and 1,014 derailments, of which 51 collisions and 92 derailments affected passenger trains. The damage to cars, engines and roadways by these accidents amounted to \$2,188,500.

Best Liniment On Earth.

Henry D. Baldwin, Supt. City Water Works, Shullsburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and \$1.00 a bottle at Cosmopolitan Pharmacy.—B. Ruppe.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

STRINGING WIRES.

Rebuilding Telegraph Lines From This City to the Coast.

During this winter and spring will be completed the rebuilding of the Santa Fe's telegraph lines between this city and San Bernardino, and on to Los Angeles. From Albuquerque to Seligman the work has already been finished and the force of men is at work stringing in the California direction. The best materials and methods are being utilized in the construction, the total cost of which will approximate \$200,000. When this work is completed it will connect the coast to Chicago with a main line, which will be the most perfect of any road this side of the Windy city.

This will make a stretch of more than 1,239 miles in length. Later on, it is stated that a quadruplex circuit will connect San Bernardino, Los Angeles and Bakersfield, with a view to increasing telegraph facilities to San Francisco.

Over the whole system it is estimated that there are between 8,000 and 9,000 miles of pole lines, and nearly 40,000 miles of wire. An entirely new organization has been effected throughout the department, its affairs being placed in the hands of wire chiefs located at different relay points, and given jurisdiction over certain territory assigned them by Superintendent of Telegraph C. H. Guant, to whom they report.

RAILS ARRIVING.

Work to Begin on the Tombstone Branch at Once.

While in conversation with a representative of the Tombstone, Ariz., Prospector, W. K. Choate, of the freight and passenger department of the El Paso & Southwestern Railroad company, stated that he expected that work would be commenced on the Tombstone branch of that road within

Ayer's Cherry Pectoral

Don't try cheap cough medicines. Get the best—Ayer's Cherry Pectoral—pay the price. Sixty years of cures. Your doctor uses it for coughs, colds, bronchitis, and all lung troubles.

a fortnight. He also stated that three carloads of rails had already been received by the road and are now at Fairbank. The balance of the steels still at La Junta, but the Santa Fe company expect to be able to move it to Deming during the coming week. The company has abandoned the idea of taking up the rails on Douglas hill and will use the rails on this branch. In conclusion Mr. Choate said: "We are very anxious to get the Tombstone branch completed and when sufficient rails have arrived to justify putting a crew to work, we will do so and the work will be crowded."

One Hundred Dollars a Box.
Is the value H. A. Tisdale, Summerton, S. C., places on De Witt's Witch Hazel Salve. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except De Witt's Witch Hazel Salve. It cured me." It is a combination of the healing properties of Witch Hazel with antiseptics and emollients; relieves and permanently cures blind, bleeding itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Mrs. Bambini, at her parlors, No. 505 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, de hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder, which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and a pimple cure, and a pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 490.

THE OLD YEAR with all its happiness and sadness, its fulfilments and disappointments, its gains and its losses, is gone.

THE NEW YEAR fraught with limitless possibilities, hopes and ambitions, is here.

May your coming year make your possibilities actual facts; may your hopes and ambitions be realized; may wealth and happiness be yours.

NO BETTER WAY

to obtain these blessings can be suggested than by the purchase of one of the WASHINGTON LIFE INSURANCE COMPANY'S combination bond policies.

It will secure you a competency in your old age.

It will perpetuate your fortune when you die.

It will be an asset in your business during its term.

It has a specified cash loan value at 5 per cent interest after the second year which will protect your bond from lapse and you from loss.

Many men give from 5 to 30 years of their lives to the service of their country to be retired on a pension. You can buy a 10, 15 or 20-year payment combination bond, never miss the annual deposit required and CREATE YOUR OWN PENSION.

GALLUP GLEANINGS.

Annual Reception to Patrons of School by the Teachers.

BATCH OF SOCIAL NOTES.

Special Correspondence.

Gallup, Jan. 20.—In our last item the reception given on New Year's afternoon was credited to Mrs. Palmer Kuhn, a typographical error due to hurried writing I presume. Mrs. Palmer Ketter it should have read.

The Krause-Taylor company were in Gallup several nights presenting as many good plays, and their songs and specialty work elicited much admiration.

The Beatty Brothers occupied two evenings at the opera house with gramophone, illustrated songs and a number of scenes displayed by a kitescope—some comic, some serious and all good.

The services at the Congregational church are rendered more interesting by the singing of the recently organized male quartet, composed of Messrs. Sabin, Smith, Ridsdon and Larkin, with Miss L. McIntire as organist.

Rev. Hodgson, of the M. E. church, has taken up the series of semi-historical sermons which proved so interesting last season, and the choir has also formed a quartet for the evening services. Mrs. Aldrich is a good organist and the new organ is a good one.

The Montezuma band boys are casting a lively play which they will put upon the stage sometime in the near future.

The Social Dancing club meets every Thursday evening in the I. O. O. F. hall and have a most pleasant time. E. L. Watkins & Son furnish the music.

Two popular young men of Gallup will leave today for Los Angeles, where they will engage in business—Messrs. Doty and Cothran.

P. Ketchen has done much to make the opera house comfortable and attractive since he has assumed the management. Now it is clean, newly kalsomined and painted, and the scenery is ample for all average needs.

The Republican has changed hands. Messrs. Pease and Morgan having purchased the furniture, fixtures, interest and good will. It is the same in every small town, I suppose, people seem to feel free to indulge in any amount of chaff about "the paper," finding fault with its management and the color of its politics, complaining of its lack of news and he or she, who carelessly sends in the worst samples of Greeley chirography, are the ones who "jump on the editor" the hardest for any errors committed by the brain-racked compositor. Editors nor their aids are not given the power of being omnipresent, so that often interesting "bits" of news, as well as dainty morsels of gossip or scandal escapes them, "for which the Lord be thanked"—in the latter instance at least. The office will hardly be the same without the genial editor who was so willing to puff our little undertakings, so quick to make "kindly mention" if we deserved, and sometimes if we didn't, so glad to congratulate if congratulations were due us, so kindly silent about the many little things one doesn't like to see "in print" about one's town or townpeople (let alone one's self).

And though we cordially welcome the coming editors, we regret to "speed the parting" one, for Billy was all right. The junior member of the firm of Pease & Morgan, of the Republican, will undoubtedly be quite an acquisition as it is understood that he excels in several accomplishments that will be a welcome addition to the home talent element. Being able to impersonate nicely, and having much experience in that line, Mr. Morgan will be invited to assist in the coming entertainment, we hear.

The annual reception given to the patrons of our schools by the teachers thereof was a very nicely arranged affair. The assembly room was tastefully decorated and lavishly draped with beautiful Navajo blankets kindly loaned by Mr. Ketter of the Caledonia store and Mr. Colton of the firm of Colton & Co. Over a thousand dollars worth of the brilliantly colored rugs being on the walls, floor and chairs, masses of growing flowers were in evidence in every available niche, and plaster casts and busts and pictures galore were also displayed.

The tables glittered with the combined treasures of many households, which were loaned for the occasion. A dainty lunch was served and the capacious punch bowl was like the widow's cruise of oil—never empty. The school colors were worn as breast knots by the teachers and pupils present and the tables were festooned with yards of the purple and gold ribbons. A nice program was presented with addresses by W. L. Kuchenbach and Professor Larkin. Mrs. Seabourne, wife of the Episcopal minister, spoke to the assembled guests in an informal manner for a few minutes on the good to ensue from a closer relation between patrons and teachers. These most sensible remarks were to the point and found an echo in every heart. Recitations were rendered by Miss McAllen and Mrs. King, interspersed with music. Rev. G. L. Patterson rendered a selection from "Cavaleria Rusticana" on the French horn. Messrs. Ridsdon and McSparron entertained the guests with a cornet duet, "Larboard Watch," with organ accompaniment by Miss L. McIntire. The "Zenda waltzes" were played by Mr. Watkins and son on the guitar and mandolin. The songs were well received, Mrs. W. H. Morris singing "O, Happy Day, O, Day So Fair." This lady has a beautiful, well-trained voice. Mr. Arthur Smith, of Gibson, who has an excellent high tenor voice, sang "The Shamrock and the Starry Flag," to the evident pleasure of the guests and Mr. Frank Patterson sang one of those songs which he sings so well and which the public like to hear. The reception was a pleasant affair and will result in much good for the schools we presume.

net duet, "Larboard Watch," with organ accompaniment by Miss L. McIntire. The "Zenda waltzes" were played by Mr. Watkins and son on the guitar and mandolin. The songs were well received, Mrs. W. H. Morris singing "O, Happy Day, O, Day So Fair." This lady has a beautiful, well-trained voice. Mr. Arthur Smith, of Gibson, who has an excellent high tenor voice, sang "The Shamrock and the Starry Flag," to the evident pleasure of the guests and Mr. Frank Patterson sang one of those songs which he sings so well and which the public like to hear. The reception was a pleasant affair and will result in much good for the schools we presume.

Dislocated Her Shoulder.
Mrs. Johanna Soderholm, of Ferguson Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep, which she had not done for several days. The son was so much pleased with the relief it gave to his mother that he has since recommended it to many others. For sale by all druggists.

That Bottle.
From Washington Post, Jan. 14.
Hon. Thomas Hughes, editor of the Albuquerque Citizen, was one of the most industrious of New Mexicans in courteous attention to the senators who visited there some months ago on the statehood investigations. Having followed closely the trend of events at Washington, Mr. Hughes indulges in this lament in a recent issue of his esteemed newspaper:

"Senator Burnham will talk for two whole days against statehood for New Mexico. When we think about having wasted a bottle of — club whisky on that man it makes our soul sorrowful."

A Scientific Discovery.
Kodol does for the stomach, that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

The Ladies' Aid society of the Lead Avenue Methodist church will meet with Mrs. W. W. Strong, 611 Eighth avenue, Thursday afternoon.

Finds Way To Live Long.
The startling announcement of a discovery that will surely lengthen life is made by editor O. H. Downey, of Churubusco, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for consumption is the most infallible remedy that I have ever known for coughs, colds and grip. It's invaluable to people with weak lungs. Having this wonderful medicine no one need dread pneumonia or consumption. It's relief is instant and cure certain." All druggists guarantee every 50c and \$1.00 bottle, and give trial bottles free.

D. A. Shope, superintendent of bridges and buildings of the Albuquerque division of the Santa Fe Pacific, and wife, came up from San Marcial this morning. After spending the day in the city, they will go to their home at Winslow. Until recently, Mr. Shope was a partner in the store of H. Bonem & Co. He sold his interest in that concern to J. R. Moore.

The Secret of Long Life.
Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate stomach, liver and kidneys, purify the blood, and give a splendid appetite. They work wonders in curing kidney troubles, female complaints, nervous diseases, constipation, dyspepsia and malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by all druggists.

TERRITORIAL SUPREME COURT.

Judgment Affirmed in a Case Involving Bernalillo County Property.

The supreme court met yesterday with Chief Justice W. J. Mills presiding, and Associate Justice John R. McPhie, Associate Justice F. W. Parker and Associate Justice B. S. Baker present. Clerk J. D. Sena and Solicitor General E. L. Bartlett were also present.

Case No. 992, The Territory of New Mexico, appellee, vs. Pablo Padilla, appellant, appeal from district court Valencia county, was argued and submitted.

Case No. 1018, Jose M. Romero, administrator, appellee, vs. Manuel Antonio Jaramillo et al., appellants, was docketed. The case is from Bernalillo county, and the judgment of the lower court for \$5,099 was affirmed. Several pieces of property in Bernalillo county are involved.

What Is the Use

of suffering from indigestion if you eat what you want, or of starving yourself to avoid such distress? Acker's Dyspepsia Tablets taken after eating will digest your food, perfectly and free you from all the disagreeable symptoms of indigestion and dyspepsia. Eat what you want at any time and take an Acker tablet afterward. Positively guaranteed. Your money will always be refunded if you are not satisfied. Write to us for a free sample. W. H. TOWN OF CLAYTON.

Growth of Business in That Town and Vicinity Remarkable.

SHEEP AND CATTLE.

Union county sheep and cattle are doing well this winter, the weather being open and the ranges in good grass, says the Denver News, in an article written from Clayton, N. M., dated January 18.

The county now has in the neighborhood of 500,000 sheep and Clayton will ship this year in excess of 2,000,000 pounds of wool, with average five-pound fleeces.

Last year's feeding shipments numbered 65,000 head of wethers and 30,000 head of lambs, going chiefly to Colorado and Nebraska fattening pens.

M. Herstein, of Clayton, is fattening at Lamar, Colo., 6,500 wethers and 2,500 lambs from Union county ranges and will market the wethers at 100 pounds and the lambs at 70 pounds, the latter averaging 47 pounds when placed on fattening feed. Mr. Herstein is feeding alfalfa and sugar beets, topped off with corn.

Mr. Herstein, who will contract for nearly one-half of Union county's wool clip this season, urges through the Rocky Mountain News upon the sheepmen of the county the growing advisability of alfalfa planting for winter feeding purposes.

Generally speaking, winter range conditions are exceptionally favorable and with alfalfa at hand to meet any incidental storm stress, winter sheep loss would be practically unknown to Union county ranges.

Sheep here are annually adding to their excellent blood strains, 2,000 more fine rams—Rambouillet and Shropshire—coming into the county last year. This superb grading importation is to be fully equalled this season.

R. W. Isaacs, a Clayton windmill and pump man, reports largely increased sales. Clustered in the vicinity of Clayton there are now over 100 windmills drawing water for stock and irrigation purposes, while new wells are constantly going down and new windmills ever going up.

Such, indeed, is the local growth of the windmill well that Mr. Isaacs has established a Clayton manufactory of piping, casing, tanks, etc., and in the spring will erect a new and commodious building.

Artesian water is being drilled for with every prospect of striking an abundant supply at comparatively shallow depths, the Colorado & Southern railroad leading off in this important direction with a big well-drilling plant at Clayton.

The Clayton public schools, directed by Prof. F. E. Carnes, are attaining noted degrees of efficiency.

County finances are in excellent condition, and under the lately installed county officials public business in Clayton and county seat in all its aspects is promising. Mercantile and professional Clayton men unite in saying that last year was exceptionally prosperous, even for Clayton and Union county.

Clayton is steadily and substantially building, both in business blocks and residences, the latest illustration being the erection by Dr. Samuel I. North of a stone and pressed brick block to cost \$12,000, and to include a commodious and elaborately equipped opera house.

A pertinent evidence of Clayton progress and prosperity is found in the fact that the First National bank of the city now counts \$262,289 in resources as against \$108,721 on January 1, 1902.

Opticians in Session.
Milwaukee, Wis., Jan. 21.—Prominent opticians from many parts of the

state are attending the annual meeting of the Wisconsin State Optical society in session here. The gathering was formally opened today with President Alvin Snider, of Beloit, in the chair. Technical papers and discussions of interest to the profession comprise the major portion of the convention's program.

Group.
The peculiar cough which indicates croup is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by all druggists.

H. Bonem, proprietor of one of the largest general merchandise stores in San Marcial, is in the city for the day. He says that work has begun on the new depot at his town. Mr. Bonem will leave tonight for Chicago, New York and other important eastern cities and markets, to buy goods. He expects to be east about three weeks.

The crowned heads of every nation. The rich men, poor men and misers. All join in paying tribute to De Witt's Little Early Risers.

H. Williams, San Antonio, Texas, writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure constipation, biliousness, sick headache, torpid liver, jaundice, malaria and all other liver troubles. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Too many goods are in our store; too many suits upon our tables. Our green tag sale sells goods galore, because our price cuts are not fables.

Work of the College of Agriculture
and Mechanic Arts.

ANNUAL REPORT TO GOVERNOR.

The thirteenth annual report of the
New Mexico College of Agriculture
and Mechanic Arts and Experimental
Station at Mesita Park, has been sub-
mitted to Governor Otero.

The board of regents consists of
Granville A. Richardson, of Roswell,
president; Herbert B. Holt, Las Cru-
ces, secretary and treasurer; Jose Lu-
cero, Las Cruces; Seamon Field, Dem-
ing, and W. A. Cooper, Santa Fe. The
advisory members are Hon. M. A.
Otero, of Santa Fe, governor, and Hon.
J. Francisco Chavez, of Santa Fe, su-
perintendent of public instruction.

Professor Luther Foster, the direc-
tor, says the continuance of the sub-
stations and the concentration of the
whole energy at the main station has
tended to strengthen the work and
make it more effective. The line of in-
vestigation followed were planned after
the most careful consideration and
there is now a settled policy in station
work. The heads of the departments
have been long enough in charge to be-
come familiar with local conditions in
the territory and the more urgent
needs of those engaged in the different
lines of farming. Exhibits have been
made at fairs and expositions to the
great benefit of the territory. Material
for bulletins from original work is
now accumulating faster than the
present force can prepare it for publi-
cation. For the years 1902 and 1903
there is now in sight material for at
least double the usual number of bul-
letins.

The most important investigation
undertaken by the station since it was
organized, that of irrigation by pump-
ing from wells, was started during the
year. While the work is at present
only at its beginning it bids fair to
bring large areas of fertile land into
cultivation in numerous valleys of the
territory.

The problems pertaining to irri-
gation, the redemption of alkali soils and
the combating of orchard pests and es-
pecially the codling moth are consid-
ered the most important at present to
the people of the territory and the
greatest attention will be given them.
Four regular bulletins, eighteen press
bulletins and the annual report were
issued during the year. Bulletins are
at present sent to 3,200 readers.

Professor Arthur Goss, chemist at
the station, has carried on the work
on the water supply of the territory.
Samples of water taken from the Pe-
cos river and reservoirs were analyzed
to determine the composition of water
at different seasons and stages of the
river. Samples of water from other
streams and springs were also given.
Particular attention was given to the
composition of the ash of a number
of native plants growing on alkali
and other classes of soils. The results
of these experiments will be made
known in bulletin form. In co-operation
with the horticultural department,
analysis were made of a number of
apples from the station orchard which
had been sprayed with different kinds
of arsenic compounds in order to de-
termine if any poison was left on the
mature fruit. A large number of analy-
ses of miscellaneous articles was made.

The botanist, Professor E. O. Woot-
en, continued the study of native
trees and shrubs with the view of ob-
taining information on their probable
value as shade and forest trees. Ad-
ditional information was secured on
the methods of protecting ranges.
There was a general overhauling and
new classification of the herbarium.

The work of the soil department,
conducted by Prof. J. D. Tinsley, may
be classed as soil moisture, and gen-
eral soil studies, alkali and drainage,
meteorology and miscellaneous work.
The month of August was spent by
the head of the department in the
Pecos valley giving advice as to alkali
and drainage conditions. The
greater portion of the month was
spent near Roswell and more requests
were received for advice than ever
before. In the department of agri-
culture, Prof. J. J. Vernon conducted
experiments with alfalfa, wheat, in
soil moisture, feeding and irrigation.

NO APPETITE!

And what little you force yourself to
eat does not have the right taste.
What's the trouble? The stomach is
out of order, the liver is inactive and
the bowels are constipated. You need
Hostetter's Stomach Bitters at once. It
will tone up the stomach, restore the
appetite, perfect the digestion, and
open up the clogged bowels. Then
you'll feel better. Try a bottle today.
It will do you good.

HOSTETTER'S
STOMACH BITTERS

He accompanied Professor Tinsley on
his trip through the Pecos valley.

Prof. Fabian Garcia, the horticul-
turalist, continued the lines of former
investigations. In addition he made
observations on the blooming and
ripening periods of fruits and con-
ducted experiments along this line in
connection with the pomological di-
vision of the department of agricul-
ture at Washington, particularly in
reference to peaches, apples and
pears. Many other tests have been
made, as for spraying for the codling
moth, heavy winter irrigation of fruits
and with black berries. Experiments
with vegetables included work with
the cabbage, melons and corn. Obser-
vations of forest trees and orna-
mental trees, shrubs and flowers have
been continued. A suitable building
is needed to keep fruit, onions and
sweet potatoes in and a better heat-
ing plant for the green house should
be provided.

Prof. G. Sylvester, the expert opti-
cian of Washington, D. C., who is well
known to the citizens of Albuquerque,
is again in the city and will be at the
Columbus hotel, room 3, until Febru-
ary 1. The professor has few equals
in his line, and the many satisfactory
"fittings" which he has made in this
place are his best recommendations.

Police Court.

One lone drunk and a cripple were
the cause of a slight activity in police
court this morning. The drunk was a
young lad, whom Officer Barton picked
up last night at the depot. The judge
gave him his choice of five days or \$5.
The cripple was turned loose with
the orders to hit the road. Helen was
recommended by the judge as a good
field for work.

Hall & Leonard purchase pianos in
car load lots. Now is the time to put
in your order.

Notice to Stockholders.

Albuquerque, N. M., Jan. 20, 1903.
The annual meeting of the stock-
holders of the Co-operative Building
and Loan association will be held on
Thursday evening, January 29, 1903,
at eight o'clock at the office of the sec-
retary, room 20, Grant block, for the
transaction of such business as may
come before said meeting, also, the
following proposed amendments to the
by laws will be presented for action.
That section 2 of article 15 of the said
by laws be amended to read as fol-
lows:

Sec. 2. The premium must be bid
at so many cents per share per month
during the life of the series the stock
of which is to form the basis of the
loan.

That section 1 of article 16 be
amended to read as follows:

Sec. 1. A stockholder or borrowing
member failing to pay his monthly in-
stallments as often as they may be-
come due shall be fined at the rate of
twelve per centum on the total amount
of delinquencies.

That section 10 of article 16 be re-
pealed.

LOCAL PARAGRAPHS.

The funeral of Mrs. Mary Kelly took
place from the church of Immaculate
Conception this morning at 9 o'clock.
Father Mandalari sang the high mass
and the senior choir, directed by Mrs.
Shinick, furnished the music. The re-
mains were laid to rest in Santa Bar-
bara cemetery. The pall bearers were:
L. T. Delaney, Mike Martinis, John S.
Heaven, Dr. J. Kaufman, C. E. Burg
and J. M. Conolly. The services at
the church were attended by the Mar-
ried Ladies' sodality and the Knights
of Columbus, of which the oldest son,
Albert Kelly, is a member, turned out
in a body. The attendance at the ser-
vices and burial was large.

All members of the O. E. S. are re-
quested to attend the funeral of our
late sister, Mrs. Clara Malette, to be
held at the Borders undertaking par-
lors on Thursday afternoon, at 2
o'clock. A conveyance will be in wait-
ing. By order of the worthy matron,
Mrs. Laura Fluke, secretary.

J. E. Wharton, attorney of White
Oaks, is in the city, and will go up to
Santa Fe tomorrow morning. Mr.
Wharton served in the territorial leg-
islature four years ago.

Hospital to Be Enlarged.

The sick from the Santa Fe Pacific
railroad hospital, in addition to the
usual number of regular pay patients
and the two charity patients from the
city, the St. Joseph's sanitarium is
crowded almost to overflowing. In
fact it is so crowded that the ladies of
the sanitarium are thinking seriously
of building an addition to their now
large handsome building. It is now al-
most certain that a temporary ward
will have to be established outside of
the hospital for the patients coming
from the grading camps of Lantry
Sons on the Santa Fe cut off.

An Heir Expected.

The Hague, Jan. 21.—After all,
there seems a possibility of an heir be-
ing born to the Dutch throne, for it is
reported from an excellent source
that the young queen expects to be-
come a mother in the early spring.
She has engaged a companion, Miss
Baljon of Rotterdam, whose duties
are more or less those of a nurse, and
who is charged to take the greatest
care of her mistress' health. Queen
Wilhelmina has ended her stay at the
castle of Loo and is now in the capital
in company with her mother, the
queen dowager.

RANGE DECISION.

Sheep Being Driven Across a State
Declared to Be Exempt From
Taxation.

The United States supreme court has
reversed the decision of the su-
preme court of Wyoming in the case
of John Kelly, plaintiff in error, vs.
Oliver S. Rhoads. The case deals with
an incident of seven years ago, when
Kelly drove a herd of 10,000 sheep
from Utah through Wyoming to Pine
Bluffs, Neb., for shipment to the east.
The sheep were several weeks on the
route, and during this time grazed on
the public and private lands of the
state. Kelly was assessed \$250 in
taxes by Rhoads, the treasurer of Lar-
amie county, and this amount was col-
lected from him, on the grounds that
his sheep were in Wyoming, and there-
fore taxable. The matter was taken
through the courts, and Rhoads was
sustained in each instance until it
went to Washington. On the ground
that such interference, if carried to ex-
cess, would interfere with interstate
commerce regulations, the supreme
court, with instructions for proceed-
ings not inconsistent with the opinion
rendered: This means the return to
Kelly of his \$250. Justice Brown, who
delivered the opinion of the court,
stated that it was plainly evident that
the plaintiff found it cheaper to drive
these sheep through Wyoming than to
ship them, and there was no law to
prevent their grazing on the public and
private lands as they went along.

IN FAVOR OF STATEHOOD.

Alderman Tebbetts Says Arizona and New Mexico People All Want Their States Admitted.

President W. B. Tebbetts of the board of aldermen was in his seat yesterday, after an absence of a month in Arizona and New Mexico. Mr. Tebbetts said the statehood question is the all-absorbing topic in those territories. "I heard nobody say anything against statehood," he replied in discussing that question. "If there is a feeling of that kind," he continued, "I imagine it is very much under cover. It is not popular to talk that way. Everybody professes to believe that statehood will be secured. In Arizona the suggestion from Washington that the two territories be consolidated with Albuquerque as the capital is bitterly opposed. In New Mexico, of course, it is a very popular plan. Both territories seem to be prospering. Arizona's principal towns are going ahead. Her mining development is very rapid. Phoenix, I believe, has the finest winter climate in the world. It is far superior, I believe, to every other place claiming to have a winter climate." Mr. Tebbetts said that the health of Mrs. Tebbetts, for whose benefit the trip was taken, is greatly improved.—Denver Republican.

Unconscious From Croup.

During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures coughs, colds, lagrippe, and all throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. J. H. O'Reilly & Co., and B. H. Briggs & Co.

LAS VEGAS.

From the Optic.

Sam Romero has been down with the measles for a week.

A party has arrived from St. Louis to repair the dynamo for the new electric line.

There is not that improvement in the condition of John C. Bromager that the family and friends would like to see.

Eloisa Herrera, the 6-year-old daughter of Juanita B. de Herrera, and daughter of Juan Jose Herrera, recently deceased, died at the home of her mother of diphtheria.

Upon leaving the train which bore her into Merced, Cal., the home of her childhood, Mrs. W. B. Bunker, of this city, carelessly dropped her pocket-book on the car seat which she occupied. It contained \$27.50 and she has taken legal steps to have the Southern Pacific company reimburse her in that amount, without the knowledge and against the judgment of Attorney Bunker.

From the Record.

Theodore Chacon, after several days' illness, has resumed his position at lifeline.

E. P. Coleman, who had been in the employ of the Hamblin Brokerage company for some time past, has resigned his position and left the city.

A very successful operation was performed upon G. W. Patterson Saturday. He is suffering from partial paralysis of the throat and was unable to swallow any food, so an opening was made into the stomach in order to feed him. At last accounts he was doing nicely.

Thorborn Tate, the young man with an aristocratic name, who has been living a champagne life on a beer salary for several months past, has left for parts unknown, leaving several creditors to mourn his departure.

A young soldier attracted considerable attention around town Saturday night by crying and claiming he had been robbed of his tickets and money. Investigation proved that he had been intoxicated ever since leaving San Francisco and today Officer Al Lane located his tickets and papers at E. G. Murphy's drug store, where he had left them for safe keeping, and evidently forgotten all about them. The tickets were turned over to the superintendent's office where the young man can easily recover them if he has not already left town while laboring under the hallucination that he had been robbed.

We sell the greatest of blood purifiers, Acker's Blood Elixer, under a positive guarantee. It will cure chronic and other blood poisons. If you have eruptions or sores on your body, or are pale, weak or run down, it is just what you need. We refund money if you are not satisfied. 50 cents and \$1. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Thermometers are going down. There's no demand for ices. The biggest tumble in the town, however, are our prices.

SIMON STERN, The Railroad Avenue Clothier.

No Shortage of Coal Here. Gallup and Cerrillos lump; also anthracite, always on hand. Hahn, both 'phones.

Notice.

The Rico Cafe serves the best meals in the city at 15 and 25 cents. Short orders, 5 cents up. 111 North First street.

***** You know and everybody else knows that our stock of black & silk is beyond comparison. Our prices do all the talking.—LION STORE *****

Nasal Catarrh is a very serious ailment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole mucous membrane which it soothes itself. It cures the nose, throat, and also the eyes. Test it and you will be convinced of its value.

An improvement. To accommodate those who are partial to the use of nasal sprays in applying liquid into the nasal passages for catarrh of the nose, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Twelve inches per spray tube is 70 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

BUBONIC PLAGUE.

Plague Spread by Fugitives from the Stricken Mexican Cities.

A special dispatch from San Blas, Ariz., dated January 19, says:

The dreaded bubonic plague has made its appearance at Torporico, sixty-five miles from Minas Prietas, Sonora, Mexico. W. S. Madding brings the news. Madding makes the following statement:

"An unknown white man came to Torporico about six days ago, and was immediately taken ill and rapidly developed symptoms of plague. When questioned, the man admitted that he was from Mazatlan and said he had managed to make his way through quarantine lines without much trouble. When I left the city five days ago, the man was not expected to live.

"The people there are greatly excited and many have left.

"Plague has been discovered in several interior towns in Sonora. The plague exists several days without becoming known. There is no plague at Hermosillo and Guaymas. The Guaymas quarantine against ships from Topolobampo, Mazatlan and even San Francisco is being maintained. The people of Topolobampo are reported to be dying like sheep, and leaving the stricken city as fast as possible. Many leave in the night time, going out into the ocean in skiffs. These departures are bound to spread the plague.

"The condition at Mazatlan is not better. The people are getting away from there to the interior country, and it is probable that some of them are making their way to towns in the eastern part of Sonora. There is just cause for alarm to the south, because if the plague that is gaining a foothold there is not checked it will cause the death of thousands of persons."

Don't Worry.

This is easier said than done, yet it may be of some help to consider the matter. If the cause is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by all druggists.

A Well Known Gentleman Makes a Remarkable Statement

He Assures Rheumatic Sufferers That
One Bottle of

Paine's Celery Compound

Banished His Pains and Agonies

The startling and happy cures wrought by Paine's Celery Compound for rheumatic sufferers have deeply impressed medical men everywhere, and today, the best practitioners are recognizing the great value of the Compound, and prescribe it with confidence.

Paine's Celery Compound stands unequalled as a cure for all the varied forms of rheumatism. At this season its good work is apparent in thousands of American homes. Men and women, lame and crippled, and utterly helpless from the terrible disease are being restored to activity, health, and strength. Paine's Celery Compound is the only medicine that rescues and saves the despairing victim who is told that he or she is incurable. Mr. L. A. Fleishman, Gap Mills, West Va., writes about his happy experience with Paine's Celery Compound; he says:

"I had rheumatism in my left arm and shoulder, could not sleep, and had no appetite. I visited my sister who lives in Frankford, and she told me that she had been afflicted just as I was and Paine's Celery Compound had done her more good than anything she had tried, and she advised me to use it. I got one bottle and used it, and the result was that I slept well, had a good appetite, and the pains of rheumatism left me and I have not felt them since; in fact, it has cured me and I feel like a new man."

THERE ARE MANY WAYS THAT odd pieces of cloth may be worked into useful and decorative objects for the house.

CUT THIS OUT.

The "Card of Thanks" Fad is a Thing of the Past.

The card of thanks is past due. It has not been proper for a long time, but some silly people still insist in putting a card of thanks in a newspaper on the slightest provocation. Here are some cards that show how silly such things are:

"We hereby extend our thanks to those who aided our doctor when our little Bennie lost his leg. We can pay the doctor money, but only thanks can pay the others. Nothing can make up for the loss of dear Bennie's leg."

"I want to thank the dear women who helped me in the death of my beloved husband. He was a dear soul and I appreciate their help so much."

"We desire to thank our friends who stood by us during the death of our dear daughter; who cried when we cried and who went with us to the cemetery. Their kindly tenders of soup, pie and cake while the family was lousy by her bedside will be always cherished."

"I wish to extend my thanks to those who assisted me in the death of my wife. Their generous aid was appreciated more than I can express. They will be always remembered and should I wed again each will get an invitation."

Thanks should be extended in person or by private note. The homely stereotyped "Card of Thanks" in public print is obsolete and of not very good form, to say the least.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Oil. At any drug store.

SAN MARCIAL.

From the Bee.
Miss Angelica Jojola has forwarded her bond to Washington as postmaster at Clyde.

Mrs. Perry Gall, who has been an invalid for more than a year, is reported to be much improved in health and spirits.

County division schemes are numerous and it is quite probable they will take up a large share of the time of the coming session of the legislature.

While in town Dave Long left at the store of Ed Le Breton an Indian curio in the shape of a water vessel which he excavated in a cave near his home in the San Mateo mountains.

The plan of combining New Mexico and Arizona as one state is said to be gaining supporters in certain quarters in Washington. In New Mexico the scheme is gaining ground also, for the White Oaks Eagle, the only paper in the territory that has fought statehood, now approves of the two territories uniting their fortunes.

It's Just a Cough

that gets your lungs sore and weak and gives the way for pneumonia or consumption, or both. Acker's English Remedy will stop the cough in a day and heal your lungs. It will cure consumption, asthma, bronchitis and all throat and lung troubles. Positively guaranteed, and money refunded if not satisfied. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Leary & Co., and B. H. Briggs & Co.

MANY USES FOR ALCOHOL.

Germany Is Encouraging Its Application for Fuel and for Power Purposes.

The Kaiser of Germany is encouraging every effort toward the use of alcohol for lighting, fuel and power purposes, and under the stimulus of prizes offered to inventors and engine constructors it is being largely utilized in various ways. Alcohol is economically made from a number of products in Germany, and consequently the supply of it is very large. At a recent exhibition demonstrating the use of alcohol there were shown a number of motors, farming implements and similar things propelled by an alcohol flame. There were also lamps which displayed great efficiency. In a report recently made to Washington, Consul General Guenther writes from Frankfurt that the chief of the fire department of Hanover has recently invented an alcohol firing apparatus, used in connection with an automobile fire engine, which is said to be very satisfactory in practice. The engine is driven to the scene of the fire by an alcohol motor, and while on the way the steam is gotten up by the new invention noted above so that the engine is ready for operation immediately on its arrival on the ground. Ordinarily it is necessary to keep the engine constantly fired in order that the steam supply may be immediately available. Otherwise much time is lost in getting up steam.

BEAGLES WERE TINY DOGS.

Diminutive Canines of Ancient Breed That Could Be Carried in a Glove.

There is no question that the beagle is a very old breed. Early Roman accounts of England contain references to the beagle, even by name. Books published from about 1580 to 1610 describe several varieties of hounds, including "the little beagle which may be carried in a man's glove." That the miniature hound was extremely popular at the time was evident from Queen Elizabeth keeping a pack which were also said to be small enough to put in a glove, says the Country Life in America.

This statement is frequently ridiculed when it is not understood that gloves of that period were not the present-day kind, but gauntlets reaching nearly to the elbow. What became of those glove beagles we may surmise from what we know of the results of later attempts to maintain packs of beagles of eight to ten inches high. The result after some years, being weak puppies that fall short of the fine qualities of the little hunting dog when they are grown up.

UNCLE SAM AS MISSIONARY.

How the Unbeaten Places in Cuba Were Reconquered by the American Authorities.

Cuban cities, like Havana and Santiago, previous to the Spanish war, were great breeders of pestilence, and menaces to the world. Now yellow fever and smallpox have been practically stamped out, and the death rate in the island has decreased one-half, and was lower in Havana last winter than in New York, says the Woman's Home Companion.

In Havana an engineer corps instituted a general system of housecleaning. Every house in the city was cleaned from top to bottom under the supervision of American officers, whether the tenant was of high or low degree; remonstrances availed nothing. As many as 16,000 houses were cleaned in one month. The sewer system was given equal attention; the American authorities cleaned and repaired every foot of sewer, and did it so thoroughly and scientifically that not a man in the cleaning squads was taken ill.

A DIAMOND'S WORTH.

The X-Ray Can Be Relied On With Absolute Certainty in Making the Test.

In detecting a false gem from a genuine, the X-ray, says an article on X-ray photography, in Leslie's Monthly, can be relied on with absolute certainty. Diamonds, as is well known, are pure carbon; and carbon, which is opaque to ordinary light, is transparent to the Roentgen light, while glass, which is transparent to ordinary light, is opaque to the Roentgen ray. On an X-ray photograph of a real diamond nothing will show but the shadow of the gold setting.

An interesting experiment was made recently in watching with the aid of an X-ray machine and a fluoroscope, motions carried on inside of an opaque body. A goose was fed with food mixed with subnitrate of bismuth salt, which absorbs the X-ray. The passage of the food down the long neck of the goose could be plainly traced by the moving shadow cast on the fluoroscope screen.

He Never Talks.

Gen. Kitchener recently declined to be interviewed by a soldier who has since his return from South Africa turned journalist. "Always pleased to see and do anything for anyone who has served under me, but you know I never—?" Then he smiled and shook his head.

An Exacting Task.

A woman has written 4,070 words on one side of a postal card. No word is of less than three letters, and a microscope was used to complete the task.

Rural Mail by Boat.

A boat instead of a wagon is used by the rural free delivery mail carrier at New Suffolk, L. I. The route lies along the shores of a small protected bay.

CIGAR IN A CHEESE.

Singular Happening in a Paris Shop Which Precipitated a Remarkable Battle.

There was an extraordinary occurrence recently in a cheesemonger's shop in the Avenue Parmentier, Paris, relates Pearson's Weekly. One of the tradesman's customers, who had invited five friends to dinner, had purchased a large cheese, and when it was cut into the stump of a half-smoked cigar was found in the middle. The host and his guests marched round in a body to the cheesemonger to demand an explanation and the return of the money or the substitution of another cheese, but the tradesman refused all three propositions, and even suggested that they ought to be satisfied, as they had not only the cheese, but half a cigar as well. One of the guests then threatened to report the cheesemonger for selling tobacco without permission. High words followed, and at length the customer picked up the offending cheese and hurled it with correct aim at the dealer's head. A regular battle ensued. The shopkeeper was backed up by his wife and three assistants and the customer by his friends. The counter was piled with cheeses of various kinds, and these were converted at once into missiles, while the butter also came in handy. The uproar attracted the attention of a policeman, who arrived just as a large Dutch cheese crashed through the window and caught him on the chest. When the officer had recovered his breath he separated the combatants and took them to the police station, where they were discharged with a caution.

LOBSTER CLIMBS TREES.

Inland Sea Captures of the East India Islands That Are Fond of Cocoanuts.

In the East Indian islands is found a curious lobster which climbs trees. Although it prefers a home on land it at times feels a longing for the water, where it goes to molt its pincers; and here the eggs are laid, and the young are raised on the coast, where they have the benefit of salt air, always good for children. But most of their time is spent inland, living at the roots of trees where they have burrowed deep hollows which they carpet luxuriously with fibers stripped from cocoanuts.

They come out of these homes at night to climb the palm trees, for although it seems funny to us, their climbing is quite a serious business to them, since it is in this way that they secure the cocoanuts of which they are so fond and on which they live principally.

To get at the contents of the nut the lobster first tears away the fiber which covers the three "eyes." (You must all have noticed those black spots on one end of a coconut that makes it look like the wild face of a monkey.) It hammers away with its claws at these spots or "eyes" until a hole is made, when it extracts the kernel by means of its smaller pincers. Sometimes after drilling through the perforated "eye" it grasps the nut in its claws and breaks it against a stone.

STUCK TO HIS EYEGGLASS.

The English Diplomat Wore It, Even When He Was Capsized in the Sea.

Recently a party from the embassies at Constantinople went to inspect the international lifeboat service on the Black Sea coast. At one of the life-saving stations they thought they would like to test the conditions of lifeboat work, so, clothing themselves in bathing costumes and cork jackets, they each took an oar in a lifeboat, to the huge delight of the Turkish boatmen.

One of the secretaries of the British embassy is never seen without an eyeglass, and is said even to sleep with it. On this occasion he was faithful to his eyeglass and solemnly embarked in a cork jacket and eyeglass. All the proper exercises were gone through, and finally the boat was capsized and righted again by its own crew. As they crept out from under the capsized boat a howl of surprise came from the Turks, for the secretary's head appeared, with the eyeglass firmly fixed in its proper position, its owner taking it as a matter of course that it should be there.

ONLY A LITTLE CLIP.

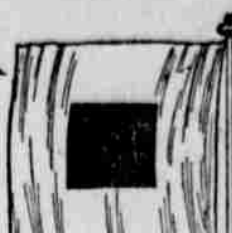

An Ingenious Device for Holding Paper, Which Has Become Very Popular.

A short time ago someone put on the market an ingenious device for holding sheets of paper together. It took the place of the pin, says the New York Press. By "short time" is meant a matter of some five or six years. Today there are more than 20 different kinds of clips, selling from 60 cents per 1,000 to 25 cents per 100, and considerable capital is invested in their manufacture. The same general principle is followed in all, and it is assumed that each improvement is patented. Corporations have been formed to make nothing but clips, and competition is lively. The original patentee will no doubt become a millionaire, though he may make only one cent on each 1,000 sold. It is the simple, dirt-cheap invention that brings the big returns—something so inexpensive that all the millions of us want it.

Uncle Sam's Salt-Water Farm.

For 30 years the United States commission of fish and fisheries has been making a study of Uncle Sam's salt-water farm, its products and the men who work it.

LOOK OUT FOR CATARRH

When the cold wave flag is up, freezing weather is on the way. Winter is here in earnest, and with it all the miserable symptoms of Catarrh return—blinding headaches and neuralgia, thick mucous discharges from the nose and throat, a hacking cough and pain in the chest, bad taste in the mouth, fetid breath, nausea and all that makes Catarrh the most sickening and disgusting of all complaints. It causes a feeling of personal defilement and mortification that keeps one nervous and anxious while in the company of others.

In spite of all efforts to prevent it, the filthy secretions and mucous matter find their way into the Stomach and are distributed by the blood to every nook and corner of the system; the Stomach and Kidneys, in fact every organ and part of the body, become infected with the catarrhal poison. This disease is rarely, if ever, even in its earliest stages, a purely local disease or simple inflammation of the nose and throat, and this is why sprays, washes, powders and the various inhaling mixtures fail to cure. Heredity is sometimes back of it—parents have it and so do their children.

In the treatment of Catarrh, antiseptic and soothing washes are good for cleansing purposes or clearing the head and throat, but this is the extent of their usefulness. To cure Catarrh permanently, the blood must be purified and the system relieved of its load of foul secretions, and the remedy to accomplish this is S. S. S., which has no equal as a blood purifier. It restores the blood to a natural, healthy state and the catarrhal poison and effete matter are carried out of the system through the proper channels. S. S. S. restores to the blood all its good qualities, and when rich, pure blood reaches the inflamed membrane and is carried through the circulation to all the Catarrh infected portions of the body, they soon heal, the mucous discharges cease and the patient is relieved of the most offensive and humiliating of all complaints. S. S. S. is a vegetable remedy and contains nothing that could injure the most delicate constitution. It cures Catarrh in its most aggravated forms, and cases apparently incurable and hopeless. Write us if you have Catarrh, and our physicians will advise you without charge.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

MURDER ON THE RANGE.

Cattle and Sheep Men Clash in Union County and Blood Flows.

A fight between cattle and sheep men on the Cimarron, in Union county, resulted in murder last week. The Carter and Sloane outfits have considerable land fences, including several government sections. The sheep of Nazario Valdez were turned into the Carter and Sloane pasture, Valdez asserting that he had as much right to the pasture on government land as anyone else, drift fence or no drift fence. John Carter, Jr., accompanied by two other men, attempted to turn the sheep out of the pasture, the sheep being guarded by Valdez and two of his herders. One of the cattlemen had a Winchester and the other men had revolvers. After the firing was over, it was found that Valdez had been killed and that Carter had revolver wounds in one shoulder and arm. Carter was taken to Clayton and the two sheepherders were lodged in the Clayton jail. The other two cattlemen have disappeared and their identity is in doubt. The sheepherders, however, say that the man armed with a Winchester was Sloane. Valdez was killed by a Winchester bullet. Carter's wounds will result in the loss of the use of his two arms.

COMING EVENTS.

Thursday Evenings—Dance at Odd Fellows' hall given by Mrs. B. Frank Fillmore.
Thursday evenings—Dance at Grant hall given by Mrs. Rosa Berry.
January 27—"Casey's Troubles" at Colombo hall.
January 28-29—"The Curtis Comedy company at Colombo hall."
January 29—"Basket ball at Colombo hall; Minors vs. University."
January 30—Elleroy Royal Italian band at Colombo hall.
March 2—Schubert Symphony club quartet at Colombo hall.

Simple Colds.
Cease to be simple, if at all prolonged. The safest way is to put them aside at the very beginning. Ballard's Horehound Syrup stops a cold and removes the cause of colds. 25c, 50c, \$1.00 a bottle at Cosmopolitan Pharmacy—B. Ruppel.

The Peninsular is a heater and ventilator.—Whitney Company.

DEMING.

A Few Pointers About a Good Town in Southern New Mexico.

Keep your eye on Deming. Deming has just been incorporated. Deming, the coming city of New Mexico. Deming has a magnificent school system. Deming, the railroad center of New Mexico. Deming, the gateway to the best part of Old Mexico. Deming, the seat of the new county of Luna. Deming is the great mining center of the southwest.

Deming! Don't overlook it if you are looking for a safe and paying investment. Deming water is chemically pure—equal to Polaris springs. Deming has increased 50 per cent in population in four years. Deming water and pure ozone make strong and healthy people. Investments in Deming lots will double and treble in one year. Deming has now a large ice plant and electric light system under contract. In Deming the demand for rental houses is five times in excess of the supply. Deming has an abundance of water for irrigating vineyards, orchards, or gardens. Buy lots and build in Deming. Your rental returns will be 20 per cent on the investment. In Deming good safe loans can be had at better rates than in the old established towns. At Deming you can buy lots at \$100 which will pay you 100 per cent in less than twelve months. In Deming another good hotel is needed to accommodate the enormous increase of population. Deming is a great health resort—has no superior in climate for the cure of pulmonary troubles. Deming will be the great smelter center. Two large plants will be installed within the year. Why buy high priced lots when you can get them in Deming cheap now, with certain advance assured? Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds. Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago. Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow. Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattlemen all know this.

BASKET BALL.

University vs. Minors at Colombo Hall Friday Night.

Basket ball is the foremost subject in the minds of both university and high school students. The discussions are of wide range, covering all the admirable features of each team. The university boys are positive that they will retain the championship, and the high school boys are confident that the Minors will carry off the honors. Be this as it may, there is no doubt as to the excellent playing condition of both teams. Since the last exciting contest, much time has been given to systematic practice. The players are all strong, muscular, swift and skillful basket ball throwers. Considerable attention has been given to team work, and everything indicates that this will be the best game of the season. There is no revengeful feeling existing among the Minors for having been defeated, as some would have us believe, but every player has positively stated that there will be no rough or vicious playing.

The lineup of the teams are as follows:

University—Cannon, center; Bowie, rf; Springer, lf; Strong, rb; Meyers, lb; Tascher and Irwin, substitutes.

Minors—Anderson, center; Strumquist, rf; Albers, lf; Holman, rb; Bearup, lb; Dehn, substitute.

Springer, a dextrous and skillful player, has been added to the university team, and Albers, an old player, with an enviable reputation, as a competent man, has strengthened the Minors.

A large and enthusiastic crowd is expected to be present. A dance will follow the game.

NEW DEPOT CLERK.

He Aroused Suspicion in the Breast of Depot Master Barton.

New men in new environments, sooner or later, have strange and sometimes exciting experiences. A sprightly little fellow with a good and striking appearance is a new addition to the Santa Fe depot.

Special Officer Barton passed the ticket office about 3:30 o'clock this morning and saw the young fellow busily engaged. Sometime later, as he emerged from the baggage room he was surprised to see all the lights in the ticket office suddenly extinguished. Thinking that something was wrong he pulled his gun and slipped up to the window. Just then he could distinguish a head bobbing around in the office. He had his gun ready for action when "Barton," "Barton" came from the lips of the terrified clerk.

The officer thought the clerk had left the office and gone to bed, the thought never entering his mind that the new clerk was sleeping in the office. The new man was terribly frightened and he will be more careful in the future not to arouse the suspicions of the watchful officer.

Indiana's President Inaugurated.

Bloomington, Ind., Jan. 21.—The inauguration of William Lowe Bryan as president of the Indiana university was a great day for the institution. The inaugural ceremonies took place this morning in the main hall, which was elaborately decorated with the colors of the university—crimson and cream—and a lavish use of potted plants and cut flowers. President W. H. P. Faunce of Brown university, President E. Benjamin Andrews of the University of Nebraska, President Joseph Swain of Swarthmore college and Chief Justice Hadley of the Indiana supreme court were among the prominent participants in the exercises. Addresses appropriate to the occasion were delivered on behalf of the trustees, faculty, alumni and student bodies. The inaugural ceremonies were followed by the dedication, this afternoon, of the new science hall, one of the most imposing of the university buildings.

Dogs Have Their Day.

Providence, R. I., Jan. 21.—The aristocracy of the canine kingdom were on view in Infantry hall today on the occasion of the opening of the fifth annual show of the Rhode Island Kennel club. The Providence exhibition is the first of the big bench shows of the year and always attracts exhibits of a high class. This year the entries are more than usually numerous and include prize-winning dogs from many of the most famous kennels of this country and Canada. Prominent among the exhibits this year are the prize bulls from the Earlington kennels, famous dogs of various breeds from the Long Londowne kennels of Philadelphia, the beagles owned by A. Henry Higgins and a number of fox terriers, bulls and Russian wolf hounds belonging to Mrs. Richard Harding Davis. William C. Rockefeller is also among

the exhibits. Judging of the exhibits commenced today and will continue until the show comes to a close next Saturday night.

DEATH OF MRS. MALETTE.

Occurred at Her Home on West Tijeras Avenue Early This Morning.

The death of Mrs. Clara A. Malette, wife of W. J. Malette, has filled the whole community with sadness. Mrs. Malette has been in poor health for almost a year, and her death, while not a surprise, came unexpected. She went east last October and went to a hospital where she was under treatment for a couple of months. Returning to Albuquerque last November, she has remained in almost the same condition. A slight operation was performed Monday and the prospects were that she would recover. But death came unannounced about 3 o'clock this morning. Mrs. Malette was in the prime of life, being only 36 years of age. She was the daughter of Mr. and Mrs. H. L. Keagy, well known former residents of Albuquerque, but now of Greenbury, Pa. Mr. Keagy was for many years a conductor on the Santa Fe railroad. A brother, William Keagy, is at present a resident of this city, being connected with the Electric Light company.

Besides the heart-broken husband, five boys, Arthur, Harry, Gavin, William and James, are left to mourn the death of a kind and dear mother.

The father and mother of the deceased were telegraphed this morning. Word was received about noon that Keagy was sick and that they would not be able to come.

Mrs. Malette had many, many friends in the city, all of whom will be grieved and distressed by the sad news of her untimely death.

The funeral will take place from the undertaking parlors of A. Borders on Gold Avenue and Fourth street, Thursday afternoon, at 2 o'clock. The remains will be laid to rest at Fairview cemetery.

Avilla on Trial.

The case of Alonzo Avilla, alias James Forest, the Santa Fe Pacific passenger brakeman, charged with adultery, was heard in United States Commissioner Whiting's court this afternoon. Avilla is alleged to have betrayed a young farmer girl, Miss Ada Petty, of Alita, Iowa, into marrying him in a mock ceremony, which is denied by Avilla.

Mrs. Avilla, the legal wife of Avilla, is present and up to the time of going to press the case had not been finished. Considerable interest is centered in this case which comes under the Edmunds act.

BOSSES OF THE BIG LAKES.

Annual Meeting of Lake Carriers' Association in Session at Detroit.

Detroit, Mich., Jan. 21.—Owners of the big lake craft are gathered at the Russell house for the annual meeting of the Lake Carriers' association, which will be in session during the next few days. The meeting is the most important ever held by the organization. Pursuant to plans recently made public by the executive committee the association is to be reorganized and placed in a position to more efficiently cope with the many problems confronting the vessel owners. The labor situation is one of the first matters to receive attention. Heretofore the association has not taken a hand in the labor disputes as an association, but has left the individual members to deal with the wage scale and other matters separately. A new plan is now to be pursued in the expectation that the owners' interests will be benefited. The present meeting will appoint a labor committee with authority to deal with the labor interests and agree upon a scale by which all members will stand. It is intimated that before contracts for labor will be made the carriers will insist upon the labor organization incorporating so that they will be in a measure responsible for their standing by signed agreements. Under the plan of reorganization the officers of the association are to be paid salaries and in all probability President William Livingstone, of Detroit, will be continued as the head of the association.

Wisconsin Tobacco Culture.

Madison, Wis., Jan. 21.—The organized tobacco growers and dealers of Wisconsin began their second annual convention at the state capitol today. One of the main purposes of the convention is to bring before the legislature, now in session, the importance of fostering the tobacco industry of the state and making adequate appropriations for establishing and sustaining experimental stations for growing and curing the best types of tobacco of the Wisconsin climate. In conjunction with the gathering there is an elaborate exhibition of leaf tobacco grown in the state.

Indiana Dairy Association.

Lafayette, Ind., Jan. 21.—The Indiana State Dairy association is celebrating the completion of its twelfth year with a largely attended convention at Purdue university. Men prominently identified with the creamery interests of the state arrived in large numbers during the forenoon and it is expected that by tonight the attendance will be larger than at any previous meeting of the association. The sessions of the convention will continue through the remainder of the week. Professors of the state agricultural schools and representatives of the United States department of agriculture are among those down for addresses. There is a large display

of creamery and dairy apparatus and supplies and another interesting feature of the gathering will be demonstrations by the creamery and farm dairy classes of the dairy school.

SANTA FE.

From the New Mexican.

Mrs. Otero will receive on Thursday afternoon next at the executive mansion.

Invitations for a progressive luncheon to be given by Mesdames John R. McFie and W. H. Whiteman on Friday afternoon next in honor of Mrs. J. D. Hughes have been sent out.

Hon. E. A. Miera, chairman of the board of county commissioners of Bernalillo county, left for his home at Cuba. Important business called him home. He is expected to be back in the capital in about two weeks.

In the February term of probate court, W. H. Kerr will make final report and ask to be discharged as administrator to the estate of the late Lucy Jackson.

Miss Rothgeb, of Las Vegas, who has received an appointment as stenographer for the legislative council, arrived last evening from the Meadow City and will spend the coming two months in town. She is a competent and rapid stenographer and typist.

T. C. Hunt, stockman of Toluca, in southeastern Guadalupe county, who stands 6 feet 3 inches in height, weighs 230 pounds, and is the proud father of nine stalwart sons, is a guest at the Palace hotel. Mr. Hunt is in town working for the creation of a new county to be cut out of southeastern Guadalupe and northeastern Chaves counties.

The board of education met with all members present except Manuel Delgado. The reports of the treasurer and superintendent were received, and by a unanimous vote it was decided that the meeting to be held on February 2 should be devoted to consideration of the proposition to issue bonds for two new school houses.

Troop A, First cavalry, of Las Vegas, is trying to make arrangements to give the play "The Girl I Left Behind Me" at Loretto auditorium in this city on Saturday night. The play was given in Las Vegas last week and was a great success. The local arrangements have been completed and the troop is now negotiating for rates with Division Superintendent Fox, of the Santa Fe Railway company.
