MORMON'S CRIME

William Hopper Young Will Be
Defended by His Church.

HOUSE CONSIDERING PENSION BILLS

Editor Gonzales, of South Carolina,
Has a Fatal Wound.

NOTHING HEARD OF STEAMER ST. LOUIS

New York, Jan. 16.—With the Molinex trial still fresh in the public memory and the Louis Disbrow murder trial now on, still another notable murder case, and one of absorbing interest to criminologists, will come up for trial next week. This is the case of William Hooper Young, a grandson of Brigham Young, who was indicted in October last for the murder of Mrs. Anna Nelson Pulitzer, a woman whom he had lured to his rooms in West Fifty-eighth street.

The crime was one of the most brutal the police have been called upon to deal with since the Goldensuppe murder. For some time prior to his alleged commission of the crime Young had been occupying a room in the luxurious apartments of his father, John W. Young, a promoter and capitalist of wealth and high financial position, and who was at the time absent in Europe on business. The son had the reputation of being a ne'er-do-well, drifting from one occupation to another and living at various times in Utah, the state of Washington and various other parts of the country. Evidence collected by the police, strengthened by the confession alleged to have been made by Young after his arrest, goes to show that the young man took the woman, with whom he had had some previous acquaintance, to his rooms on the night of the murder and there drugged her and then proceeded to cut up the body in the most diabolical manner. The remains were then taken in a trunk across the North river, where they were thrown into the shallow waters of a canal. The body was found next day weighted down with a hitching weight. The first clue to the identity of the murderer was furnished by a Jersey liverman who identified a photograph of Young as the man to whom he had hired a rig the day before and who also identified the hitching strap and weight as his property. A visit to the Young apartments furnished ample evidence of the commission of the crime. About the same time the Chicago police discovered a trunk which had been shipped to that city by Young and which contained the dead woman's clothes and valuables. For two or three days the New York police scoured the city in search of the young man. Before the end of the week he had been captured in Connecticut in the disguise of a tramp. It is alleged that he made a full confession to the police, but implicated another person in the actual murder. The authorities, however, refused to credit the story of an accomplice as all the evidence tended to show that Young alone committed the crime and hid the body.

The relatives of the accused, who are leaders in the Mormon church, will bring to his defense all that their wealth and influence can command. The finding in Young's room of writings and Biblical quotations on "blood atonement" have suggested that the victim was sacrificed by a religious fanatic, and this has stirred the Mormon church to angry protests and bitter denials. The church authorities, in fact, assert that they are not at all interested in the defense of the young man and that despite his descent from the great Mormon leader he was not one of their number, having renounced the faith of his fathers a number of years ago.

John W. Young, father of the accused, is expected to be present at the trial. Eminent counsel has been engaged to conduct the defense. The police consider their case so complete that they expect a plea of insanity to be entered. It is known that Young for many years has been a victim of the use of morphine, cocaine and other drugs.

STILL ALIVE.
Hard to Kill a South Carolina Democratic Editor.

Columbia, S. C., Jan. 16.—N. G. Gonzales, editor of The State, who was shot and perhaps fatally wounded by Lieutenant Governor James E. Tillman, was reported this morning by his physicians to be holding his own with indications of improvement. The physicians who have been in constant at-

tendance at the bedside of Mr. Gonzales since the operation last evening at the Columbia hospital, expressed satisfaction this morning at the outcome of the operation. Though no official bulletin has been issued this forenoon, the physicians say that since 6 a. m. there has been a favorable change in Gonzales' condition, which, with his strong constitution and splendid habits, will give him a better fighting chance for life.

Condition Precarious.
Atlanta, Ga., Jan. 16.—A report from Charleston, S. C., received at 9:40 this morning, says:
Editor Gonzales' condition is very precarious and the chances at this hour are greatly against his recovery.

Gonzales is Better.
Columbia, S. C., Jan. 16.—Physicians stated at noon today that Mr. Gonzales' condition was more favorable than at any time since the wounds were examined. The excitement of yesterday has somewhat subsided and the town is quiet, although the feeling against Tillman is very bitter. Tillman remains silent in the jail. It is thought that the meeting yesterday was by accident.

Condition Serious.
Augusta, Ga., Jan. 16.—The last bulletin issued on the condition of Gonzales at 12:15 p. m. and received here by telephone says:
"Mr. Gonzales' condition is grave. Peritonitis is feared. Dr. Gill Wyle, a New York specialist, has been called in consultation with the local physicians."

THE ST. LOUIS.
The Good Old Ship is Past Due at New York.

New York, Jan. 16.—Up to 9 o'clock this morning no news of the overdue American liner St. Louis had been received.

Vice President Wright, of the American line, later said:
"We have nothing to add to the statement given out last night except that up to the present we are absolutely without word of the St. Louis."

Think St. Louis is Afloat.
New York, Jan. 16.—Clement A. Griscom, of the American line, said today:
"It has been said that the St. Louis has leaky boilers. I do not know that she has. There are thousands of small tubes on which the flames play to heat the water. If, as some times happens, some of these tubes leak enough to damp the fire, it is necessary to plug them up. This does not mean that there is serious damage, but it does mean that you have less surface to heat the water and so less steam. I do not think the St. Louis is in trouble but that she is not making very fast time."

Officers of the St. Louis.
New York, Jan. 16.—At the American line office the home addresses of most of the important officers connected with the St. Louis were made public today. No comment was made on giving out the list. Capt. Frederick H. Parrow is a native of Pennsylvania. His family lives in England. Chief Engineer F. M. Power is from Germantown, Pa.; Dr. Lloyd Parker, the ship's surgeon, New York. The chief engineer of the line refused the addresses of any of the engineer's staff except that of John Phillip, whose family lives at Southampton, Eng. He said if the vessel was not sighted by tomorrow the rest of the addresses would be made public.

Considering Pension Bills.
Washington, Jan. 16.—This being Friday the regular order, the department of commerce bill was displaced, and the house today proceeded to the consideration of private claims bills.

CITY'S NEW BAND.
Meeting to Reorganize Hall & Larnard's Brass Band.

The Hall & Larnard band will meet at Hall & Larnard's music store to-night at 7:30, for the purpose of reorganizing and beginning work on a finer basis than last year. There is a vacancy for several new members, who are interested in this line of work. These vacancies will be filled only by young men, who take an interest in the welfare of the organization, and will work for the promotion and advancement of the band. This is an excellent opportunity for wide awake young men, who are desirous of developing their musical talents.

As soon as the band has been organized and the members have put themselves down to good substantial work, the subject of uniforms will be taken up.

The promoters of the organization are determined to make this one of the leading musical organizations of the city. They will be untiring in their efforts to render it a success, and give their assurance as to its permanency.

FOR STATEHOOD

Live Stock Convention Passes
Favorable Resolutions.

PORTLAND GETS NEXT CONVENTION

Fatal Accident on Railroad at Cumberland, Maryland.

DESTRUCTION FROM AN EARTHQUAKE

Kansas City, Jan. 16.—The sixth annual convention of the National Live Stock association finished its labors here today.

The work of the last sessions consisted in passing upon resolutions favorably recommended by the executive committee, in the delivery and discussion of several addresses, in the naming of a convention city and confirming the old officers for the ensuing year, all of whom had been recommended for re-election.

The officers endorsed are: John W. Springer, Denver, president; John M. Holt, Miles City, Mont., first vice president; F. J. Hazenbarth, Salt Lake City, second vice president; George D. Goulding, Denver, treasurer; Charles F. Martin, Denver, secretary; Fred P. Johnson, Denver, assistant secretary.

The fight for the 1904 convention was taken up the last thing in the afternoon. Although there were half a dozen cities in the race for the honor, Portland, Oregon, seemed to be far in the lead and the delegation from that state were confident of winning out.

Among the resolutions agreed to at this morning's session, was one endorsing the omnibus statehood bill for New Mexico, Arizona and Oklahoma.

TRAINS COLLIDE.
Fatal Railroad Accident Occurs at Cumberland, Maryland.

Cumberland, Md., Jan. 16.—The east bound express leaving here at 4:20 this morning, near the east end of the yard, struck two freight engines on the main track, killing Engineer Sims and Fireman Moran and Snearer, of the passenger train, and Engineer Butler, of one of the freight engines. None of the passengers were injured.

Investigation of the cause of the accident shows that a messenger boy, who was in the telegraph office, threw the signal without the knowledge of the operator, giving the passenger train a clear track when it should have been blocked.

Earthquake Destruction.
St. Petersburg, Jan. 16.—The official figures show that 4,714 persons lost their lives and that 33,112 houses were destroyed, as a result of the recent earthquakes at Andijan, Russian Turkestan.

CUT-OFF BUILDER HERE.

Charles Lantry Talks of Construction
Work on Belen's New Road.

PUSHING WORK RAPIDLY.

Charles Lantry, of B. Lantry Sons, the big railroad construction contracting firm, is in the city from Belen, where he went a few days ago on matters concerning the construction of the Santa Fe cut-off.

Mr. Lantry was seen by a Citizen representative this morning and gave out a few facts about the building of the new road.

"I arrived at Belen last Monday evening," said Mr. Lantry. "Mr. H. Hauser, our western manager; F. N. Nelson, I. N. Wheatley and S. A. Mailey, construction foremen, and S. D. Lucas, who has charge of our office work at Belen, had preceded me there and made arrangements for my accommodation."

"On Tuesday morning we left in carriages for a trip along the line of survey of the cut off and followed it to Willard, a point at the crossing of the survey and the grade of the Santa Fe Central, which is between fifty and sixty miles from where the line leaves the Santa Fe. We found considerable snow on Abo Pass and east of the Manzano mountains, and our trip was not as pleasant as it might have been under different circumstances. The weather was quite severe. We didn't tarry much along the way and returned to Belen and shelter Wednesday night."

"Our first work," continued Mr. Lantry, "is the building of the bridge across the Rio Grande and the con-

struction of a short line of road from Belen into Abo Pass canyon. In this canyon is to be found the heaviest work along the entire line of the cut-off."

"We hope to have the bridge and these twenty some miles of road built and suitable for traffic within the next sixty days. Its construction will be pushed because we need it to carry supplies from our store house at Belen to the outfits doing work in the canyon. At present supplies are being freighted by teams."

When asked if active work of construction had as yet been started, Mr. Lantry replied by saying that the grade between the Santa Fe at Belen to the river is about completed.

He also said that the building of the bridge would not be a feat in bridge building as has been published by the press of the country, but as a matter of fact a very easy proposition, much easier than the building of the bridge recently constructed over the Rio Puerco on the Santa Fe Pacific.

The short line from Belen to Abo Pass canyon will be constructed hurriedly and will not be permanent. In some places the ties and rails will be laid on the unbroken sand of the mesa.

Mr. Lantry will return to Belen. He is accompanied here by Mr. Wheatley, and Mr. Nelson.

CIGARETTE SYNDICATE.

A Brother of Mrs. Dr. Chamberlin, of
this City, Engineers a Big Deal.

WAS HERE LAST SUMMER.

It will be remembered that last summer The Citizen published an interview with Fletcher S. Heath, of New York, a brother of Mrs. Dr. L. H. Chamberlin, of this city. The interview taken while Mr. Heath and a number of gentlemen stopped in the city for a day or two, while en route to Mexico.

While here Mr. Heath gave out that their visit to Mexico would probably consummate in the merger of the most prominent railroads in Mexico. That may have been the important mission of these gentlemen, but one issue of their visit here, which at the time of their visit here, was not given out, has just been given out to the public. The Associated Press has received the following:

Hamilton, Ohio, Jan. 9.—Word has been received here from New York that Fletcher S. Heath and wife sailed for Liverpool, but that before going Mr. Heath had practically arranged all the details of a cigarette syndicate, comprising all the factories of this industry in Mexico, where he has spent considerable time recently. He successfully negotiated the sale of the property of the ne wcombine to an English syndicate, the sale price, it is said, being about \$20,000,000. Mr. Heath is going to London to bring the money back. His profits for promoting the enterprise are said to be over a million dollars.

Coal on Free List.
Washington, Jan. 16.—The treasury department today received an official certified copy of the act approved yesterday placing coal on the free list. Upon its receipt the department telegraphed the necessary instructions to collectors of customs throughout the country directing them to put the act into immediate effect. The telegram was as follows: "Admit all coal imported on or after the 15th inst. free of duty under the act of the 15th inst. Copy by mail."

Attack on the Rogers Will.
Newark, N. J., Jan. 16.—The contest to break the will of Jacob S. Rogers, the millionaire locomotive builder of Paterson, was commenced in earnest today when the suit of Mrs. Virginia Heinisch of this city was called for trial in the chancery court. Mrs. Heinisch charges deception in the purchases used to induce her to sign the release in common with the other heirs. She also charges her former counsel with deception in that he did not properly enlighten her as to the purport of the release she was persuaded to sign. On these grounds she endeavors to have set aside the probate of the will. The executors deny all allegations of fraud and a bitter contest is likely to be the outcome.

Funeral This Afternoon.
The funeral of C. Berner, who died yesterday afternoon of tuberculosis, took place from the undertaking parlors of J. W. Edwards at 2 o'clock this afternoon. Mr. Berner, accompanied by his wife, came here about six months ago from Wamego, Kansas. He was a gentleman of the highest character, and a life long friend of F. McSpadden. Deceased was 64 years of age. Besides a widow he leaves a grandson to mourn his death.

CUBAN TREATY

Assurance That It Will Pass
the Senate.

OPPOSITION TO COMMERCE BILL

Several Subjects Discussed at a
Cabinet Meeting.

IN HONOR OF THE ATTORNEY GENERAL

Washington, Jan. 16.—President Roosevelt was assured today by Senators Aldrich, Lodge and Spooner of their belief that the Cuban treaty would be ratified by the senate. The senators had a conference with the president prior to the cabinet meeting and went over the situation carefully. It was stated that the treaty as amended was satisfactory practically to every republican senator and that the opposition now was confined to the democratic side.

Interstate Commerce Bill.

Washington, Jan. 16.—The interstate commerce bill introduced by Senator Elkins was again the subject of discussion by the committee on interstate commerce, but no conclusion was reached. The meeting was brief and developed such radical differences of opinion that it was considered useless to attempt for the time to proceed.

CABINET MEETING.

Several Subjects of Minor Importance
Discussed at Today's Session.

Washington, Jan. 16.—It was stated at the conclusion of the cabinet meeting today that no matters of serious importance had been under consideration.

Secretary Hay, who has gone to New York, and Attorney General Knox, who is in Pittsburg, were the only absentees.

Secretary Wilson made a statement of the action of some of the Massachusetts authorities in arresting officials of the agricultural department for cruelty to animals in their efforts to eradicate the foot and mouth disease. The secretary's determination to contest the cases in the courts was approved.

It is understood that it will be determined next week whether Samuel H. Vick, the colored postmaster of Wilson, N. C., will be reappointed. The case has attracted wide attention.

HE GOT LEFT.

A Bridegroom of Two Days Missed
His Train for the West.

WILL CONTINUE WEST TONIGHT.

A tall, handsome, well built specimen of humanity, dressed in the latest eastern styles, a small Van Dyke setting off his strong face to a good advantage, stepped from the flyer at the Santa Fe station this morning and looked about him with an air of superiority. To a keen observer, a look of threat covered his countenance. His face lit up with a smile as he had been struck by a happy thought. His gaze wandered to a window in front of which he had been standing, and the smile expanded. No wonder, because a beautiful, charming young lady sat with her sweet face pressed against the strong window pane, and it was like a dream of roses. Reassured by those tantalizing eyes he made rapid strides, which soon led him to the Alvarado cafe. In this elegantly equipped palace of flowing sweets our groom soon forgot his bride, who still remained seated in the same position looking longingly in the direction of her stately new husband. The water of exhilarating invigoration prolonged his visit longer than he intended.

Scene Second.

The flyer had departed and was bound for the land of flowers and oranges. A hatless man with a bottle gripped tightly in his hand came tearing down the platform, his feet hitting upon the bricks like the distant roar of thunder.

The crowds which thronged the depot platform scattered right and left.

as he flew down. On and on he ran, the Alvarado and depot were soon left behind and he ran until he reached the coal scutes, and then gave up the chase as the flyer was whistling into Isleta.

The rear platform was crowded with tourists whose faces were wreathed in smiles, bursting into convulsions of laughter at his spasmodic and frantic efforts to catch the speeding flyer, but they made no effort to pull the whistle cord above their heads, because that would spoil the show.

Scene Third.

Ah! he returns. The atmosphere is filled with blue streaks which seem to issue from his face. Now he stops an engine. After a series of gesticulating and articulating he makes a run for the freight house. Perhaps there will be an extra shipment of freight. He seeks the Santa Fe agent. A conference is held. Result unknown.

Scene Fourth.

Telegrams from the bridal party, with laughter and mirthful exclamations written between each line. The wires state that his bride will be taken care of during his absence. That she will wait for him at Los Angeles, where his friends will not be found.

The unfortunate man will keep an eye on the train this evening and will take greater care to see that he is kept on after the start.

The comedy drama was witnessed by a large crowd at the depot, who have gained many pounds from the large laugh.

To Honor Attorney General.

Pittsburg, Pa., Jan. 16.—Attorney General and Mrs. Knox arrived from Washington last evening and during the remainder of the week will be the guests of Mrs. Henry C. Frick. This evening the attorney general will be the guest of honor at a dinner given by Mr. Frick and tomorrow Mrs. Knox will be given a luncheon by their host.

No Effect on Price of Coal.

London, Jan. 16.—The remission of the coal duties by the United States congress still appears to have little or no effect on the British market. At present there are only two Americans on the Cardiff market as compared with at least a dozen a fortnight ago.

BACK FROM THE CARNIVAL.

Secretary McCanna Returns—It is a Big Affair But Bad Weather.

Secretary P. F. McCanna, of the Fair association, returned from El Paso's midwinter carnival this morning.

"The El Paso fair is a big proposition," said Mr. McCanna this morning, "but the rain, snow and mud had rendered it almost impossible to pull off any of the big attractions."

"The large crowds throng the streets; hotels and lodging houses are full; the midway carnival is open and crowded, but the people find little enjoyment in walking around in the mud and disagreeable rain. It has been decided to continue the carnival until Wednesday of next week on account of the disagreeable state of affairs."

"The big street parade, which is said would have been a gorgeous affair, has been postponed. In fact it is impossible for them to do anything until the rain and snow subside."

"Clay McGonnigal, the prize winner of the roping contest at the New Mexico territorial fair held in this city last year is the favorite among the ropers now gathered at El Paso. There are thirty-eight entries but McGonnigal is the big attraction."

"If it hadn't been for the inclemency of the weather the midwinter carnival would have been a great success, because they had the best attractions that money could procure. If the weather permits the remaining days of the carnival will be as attractive as advertised."

Mr. McCanna's trip was not without effectual features, as he distributed a sufficient quantity of green tags, telling of the great territorial fair that is to take place in Albuquerque in October, 1903, to make a favorable and lasting impression.

Cigar Boxes of Paper.

New York, Jan. 16.—The Farrel Tay Box company has just been organized to do business at Binghamton. It will manufacture a new kind of cigar box for which a patent has been granted and which, it is said, will revolutionize the making of cigar boxes in this country. The new boxes will be of paper, one solid piece, in perfect imitation of cedar. The inside will be veneered with cedar when desired. The promoters of the enterprise claim that the paper box is 20 per cent lighter than the wood box, guaranteed not to warp and can be produced much cheaper. The caution notice and number can be printed on the box at the time of manufacture, whereas it now has to be done by a separate process.

New York Metal.

New York, Jan. 16.—Lead—Quiet; 4 1/2%. Copper—Unchanged.

SOME MILL FACTS

What the American Lumber
Company Will Do.

ATTORNEY MERRIAM INTERVIEWED

Accompanied by General Manager
Bennett, He Left for Chicago.

MAKING PATENT PAPER CIGAR BOXES

Ira B. Bennett, general manager of the American Lumber company, and Hon. D. W. C. Merriam, attorney for the company, and both directors, left on the delayed passenger train No. 2 this morning for the north, the former for Detroit, and the latter for Chicago.

A Citizen representative called at the Alvarado this morning, and found both gentlemen making preparations to leave the city, having, as far as practical, completed their duties as to the location of the big lumber mill here.

Mr. Merriam was approached by the newspaper man and asked for some facts relative to his company and what the members intend doing here and on their immense timber lands west of the city. He consented to an interview and said:

"The American Lumber company treasury holds about half a million dollars in cash and about \$3,500,000 in stock. The first meeting of directors was held in Chicago, January 16, 1902, one year ago today. The directors gave me one year to raise \$500,000 in cash. That sum and above was raised in less than nine months and the company was declared fully financed on November 24, 1902, by the board of directors."

"We return today to Chicago, and General Manager Bennett and Chief Engineer Davis are scheduled to meet our millwright, H. G. Badstuber, at the Chicago office of the company next Tuesday to settle on plans for the mill. The mill to be erected will have an annual capacity of about 50,000,000 feet of sawed lumber. We shall construct on the timber lands, as soon as climatic conditions permit, twenty miles of standard gauge railroad into the woods. Negotiations are on and we will soon purchase 120 logging cars at a cost of about \$400 each. In addition to that purchase, we will order two house cars for the construction gang that will cost about \$6,000 each, and two standard gauge locomotives at a cost of about \$30,000."

"We estimate cost of improvements in Albuquerque, on the site donated, at \$200,000, although we are prepared to expend a sum considerably in excess of that amount if found necessary."

"Operations on the above lines will cover a period of about forty or fifty years, and will add to the population of this city about 400 heads of families, which, with followers, will increase the actual population of the city about 2,000."

"We will be ready to commence work in the woods and in this city as soon as the plans and specifications are accepted by the executive committee. I believe that Mr. Bennett, the general manager, will return to Albuquerque in the next three weeks, with the engineer and millwright, and he will come along with authority and power from the executive committee to commence actual construction work as soon as possible thereafter."

Survey to Mill Site.

This morning, Assistant Surveyor Beckett, of the Santa Fe Railroad company, with Chief Engineer Davis for the American Lumber company, and Engineer Pitt Ross for the city of Albuquerque, commenced running a line from the Santa Fe railroad track, just above the city, to the lumber mill site located just beyond the city limits to the northwest. The gentlemen are running the lines for a railroad spur for the parties interested, and will probably be ready with their report in a few days.

MRS. MINNIE CORSON.

Ladies of the Macabees Remember
Their Record Keeper.

The ladies of the Macabees were pleasantly entertained at the home of Mrs. Minnie Miller Wednesday evening. One of the charming features of the gathering was the presentation of an elegant rocking chair to Mrs. Minnie Corson, who has been esteemed record keeper for the local lodge for the past five years, by the members of the lodge for the regard and esteem by which Mrs. Corson is held by the ladies. A sumptuous supper was served.

week, or for 15 cents per month, when
paid monthly. These rates are less than
those of any other daily paper in the
territory.

New Mexico demands Statehood from
the Fifty-Seventh Congress.The fire insurance rates in this city
are excessive.There are sixty-eight newspapers in
New Mexico, of which five are dailies.According to the latest statistics,
the total debt of the world is \$30,000,
000,000.In fifty years only three territorial
laws have met with the disapproval of
congress.This territory devotes one-half its
revenues to the support of educational
institutions.The dance hall has long been banished
from New Mexico. Women, wine
and song are an unknown combination
in the entire territory.During the past year this territory
expended \$723,048 maintaining public
schools. The school property is valued
at \$2,071,702. There are 1,046 public
school teachers employed in the terri-
tory.Since Christmas day thirteen dead
and seven injured is the record of toy
pistols in Norfolk, Va. Green Christ-
mas always make fat church yards,
particularly when the greenies have
guns.A correspondent of the Denver Post
is writing a series of interesting arti-
cles from Santa Fe about New Mexico.
He is treating the subject without
prejudice, and the comments make
good reading.Out of 325,000 voters in Louisiana,
25,265 voted at the last election; out
of 280,000 in South Carolina, less than
40,000. The south is perfectly satis-
fied with the way the north is running
the country, no matter what it says.The Philippines are a costly annex
of the United States. Secretary Root
has asked congress for \$3,000,000 to
relieve the distress prevailing in the
Philippines. The rinderpest has killed
90 per cent of the caribos, the rice crop
has failed, and the people have suf-
fered from the cholera scourge.The money order branch of the post-
office department is a model of hon-
esty and efficiency. During the last
two years it is represented to have
handled \$602,596,930, and only \$251
has been lost of that vast amount
through dishonesty or carelessness.
This represents the work of 34,127
money order offices and nearly 79,000,
000 separate transactions.The French minister of war says
that the question of combating tuber-
culosis in the army is giving the gov-
ernment grave concern. Since the
treaty of Frankfurt, the French army
has lost 99,000 men by disease, while
the German army has lost but 13,000.
With disease increasing and the birth-
rate decreasing, the outlook for the
future of the French nation is far from
encouraging.The San Francisco Chronicle says:
"Those senators who are opposed to
the admission of Arizona and New
Mexico have been forced to show their
hand. Their program is to defeat the
omnibus bill by indefinite discussion,
that is, to consume the time in talk
and prevent a vote being taken before
the final adjournment of congress.
This is practically an admission of the
weakness of their position and a con-
fession of the fear that if a division is
reached the bill will prevail and that
the three territories seeking admission
to statehood will triumph."

NATIONAL GUARD.

The New Mexican says that Adjutant General W. H. Whiteman has received a telegram from Washington stating that the militia bill has passed the senate and will be signed by the president today. This means much to the national guard of New Mexico in many ways. Under the terms of the bill there will be an immediate exchange of uniforms and arms now held by the guard and those issued will be the same as are in use in the regular army today. The old Springfield rifles will at once give way to the Krag-Jorgensen, and new uniforms of the latest design will be issued. The passage of the bill means an annual encampment for the national guard of New Mexico as it permits any balance remaining unexpended from the annual allotment of the general government to be expended in an encampment. Adjutant General Whiteman will have from \$9,000 to \$10,000 on hand for encampment purposes this summer and this will be sufficient to put the entire guard of the territory in camp for a week if the officers and men will give the time. Their transportation and subsistence will be furnished from this balance.

THE SITUATION.

A friend at Washington gives the following as the status of the statehood bill and the reason why the Beveridge crowd talk of merging Arizona and New Mexico:

"Mr. Quay, as you know, is the champion of our rights, and the opposition, which waxes so bitter, is due to a contest for control of the senate, and consequently the governing power of this country.

"When Quay lost his seat temporarily in the senate, he also lost his place at the head of several committees, and consequently a prominent place in the governing power. Now, if he can succeed in passing the bill without compromise, he will secure six new senators who by all the bonds of friendship and gratitude will be his staunch adherents, and this would give him such a majority of the republicans in the senate that it would not be long before he would out the present power, and place himself in that place.

"Now, those now in control have invented the consolidation scheme, for it is ascertained that the democrats view this combination plan as going back on their platform, which promises statehood to all three territories separately, and consequently they refuse to support a combination or compromise measure.

"The republican powers that be, therefore, are to press this compromise, which they say fulfills the promise to the territories of the national platform (republican), and thus will seek to throw the onus of a defeat of the bill upon the democrats, and enable the republicans to go before the country with this specious excuse.

"In the meantime to fulfill their selfish ends they have vilified the people of our two territories, without any just foundation in fact, and have used us as a pawn on the chess board of

STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of

strength to carry on the struggle he turns his store over to another.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

"About ten years ago I began to be afflicted with stomach trouble, also diarrhea," writes Mr. Wm. Walters, of Antrim, Mo. "In warm weather it grew worse, until it would throw me into a cramping chill. I was troubled so often that I sometimes thought my end had come. Tried many remedies, but they gave only temporary relief. In November, 1899, I bought Dr. Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the sixth. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer, and the credit all belongs to your 'Golden Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered.

"If any doubt the above statement let them address me, and I will take great pleasure in answering."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

the new blacksmith on Copper avenue, between Second and Third avenues, guarantees perfect satisfaction on every horse shod and every buggy and wagon repaired. Has just received a new rubber tiring machine. Give him a trial and you will never go anywhere else for anything in his line of work.

their political game. This lust of power on the part of the controlling republicans makes them guilty of thimble-rigging themselves into a continuance of control, at the expense of the good repute of New Mexico and Arizona.

"This is the true undercurrent that controls our fate, and will leave us with a black eye as to our qualifications for statehood, and result in the terring an inflow of capital to develop our latent enterprises and resources."

Blind in Right Eye.

Theodore Rutenbeck awakened yesterday morning minus sight in his right eye. He suffers no pain, but neither does the sight return. He intended to seek today the advice of a local oculist. Before retiring Monday night, he spent a half or three-quarters of an hour in reading, experiencing neither pain nor difficulty in so doing; but the next morning the condition was as stated. It is the right eye which is affected, and which he used so constantly during the many years he was a watchmaker.—Las Vegas Record.

Mine Stock Sold.

At the Boston mining exchange last week, 2,586 shares of the Santa Fe Gold & Copper company were sold at from \$1.75 to \$2.25 per share. The par value is \$10 per share and the total issue of shares is 250,000, making the total value of the property which is situated at San Pedro, Santa Fe county, \$500,000, at the present selling price of stock.

Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep, which she had not done for several days. The son was so much pleased with the relief it gave to his mother that he has since recommended it to many others. For sale by all druggists.

FOR SINGLE STATEHOOD.

Governor Otero Opposed to the Union of Arizona and New Mexico.

Governor Otero has returned to Santa Fe. On the subject of statehood he is credited with saying:

"The people here," said he, "know as much of the statehood situation as do those in Washington. There is no more information to be had there than there is here. While east and in Washington, I lost no opportunity to say and do all I could for statehood. I am opposed to the union of New Mexico and Arizona as one state and opposed the suggestion while in Washington. I am in favor of the passage of the omnibus bill as it passed the house and on that basis I did all I could. No one can say what the outcome will be."

Free Cure for Sick Headache.

Chamberlain's Stomach and Liver Tablets are a certain cure for sick headache. If taken as soon as the first indication of the disease appears they will prevent the attack. Get a free sample at all drug stores and give them a trial.

Board of Equalization.

The territorial board of equalization completed its work yesterday afternoon and took final adjournment. The official account of the proceedings will be published in The Citizen tomorrow.

A Scientific Discovery.

Kodol does for the stomach, that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Territorial Funds.

Territorial Treasurer J. H. Vaughn has received from C. J. Kelly, treasurer and ex-officio collector of Luna county, of 1901 taxes, \$122,662; of 1902 taxes, \$131,816; from Henry Lutz, treasurer and ex-officio collector of Lincoln county, of 1900 taxes, \$7,771; of 1901 taxes, \$219; of 1902 taxes, \$5,539.62; from Mark Howell, treasurer and ex-officio collector of Chaves county, of 1900 taxes, \$8 cents; of 1901 taxes, \$28.71; of 1902 taxes, \$8,041.41; from Secundino Romero, clerk of Fourth judicial district court, fees for the quarter ending December 31 last, \$905.92.

Don't Worry.

This is easier said than done, yet it may be of some help to consider the matter. If the cause is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by all druggists.

W. L. Brackett.

Railroad Topics

The Santa Fe, Prescott & Phoenix is now issuing 1,000 mile tickets over its road for \$50.

Jesse Hayward and Ed Slink, two well known conductors at Winslow, have gone to Kentucky on a visit.

F. T. Beckett, assistant engineer for the Santa Fe at San Marcial, is in the city. He will return to his headquarters tonight.

Mrs. James Goude, wife of Engineer Goude, visited Williams this week. She had also been spending a time at Winslow.

F. M. Jones, chief field engineer for the Santa Fe in the location of the cut-off, was in the city this morning while en route from Belen to Dodge City, Kansas.

The Las Vegas Record says: The largest mogul in the whole wide world, the 987, left here for Albuquerque last night, with 1,000 tons dragging along behind her.

A. D. Carter, a Winslow railroad man, who has been undergoing treatment for his eyes in the hospital at Los Angeles, has been very much benefited thereby, and will soon return home.

The Holbrook Argus says: Considerable comment has been made about the two box cars placed at the east end of the depot for the purpose of making more room for handling freight. We understand, however, that these cars are placed there only temporarily, and that a large and commodious addition will be built soon. The Santa Fe generally do things right if they are given time.

This week the Harvey house changed management. Mr. Madison resigning and Mr. McCormick taking charge. Mr. Madison and family will leave Winslow in a few days, and in doing so the capable ex-manager and his estimable wife carry with them only the best regards of the Winslow folks. Mr. McCormick is an old Harvey house man and a first class gentleman in all respects.—Winslow Mail.

The Winslow Mail says: A popular young man made his numerous acquaintances adieu Tuesday in the person of E. T. Isherwood, who left for Point Richmond, Cal., to take charge of the new Santa Fe storehouse at that point. Mr. Isherwood has been connected with the store department of the Santa Fe here for several years and while his friends extend congratulations for his advancement they also regret his departure.

The case of the Kentucky state railroad commission against the Louisville & Nashville and numerous other railroads, involving an alleged merger, came up for hearing yesterday before the Interstate commerce commission in New York. More than ordinary interest attaches to the hearing for the reason that the Kentucky commission, in order to sustain its charge of a merger, has summoned as witnesses J. Pierpont Morgan, John W. Gates, August Belmont and other leading financiers of the country and high officials of the corporations alleged to have been merged.

Croup.
The peculiar cough which indicates croup is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by all druggists.

SANTA FE BALKS.
Will Ignore Colonist Rate Until California Rush Is Over.

Owing to its immense rush of California business the Santa Fe has given notice that for the time, at least, it will ignore the recent colonist rate announced to California points by the Southern Pacific. The rate is \$33 from Chicago to California, and strenuous objections are being made to it by all roads. Unless cancelled the rate will go in on February 15, and be effective until April 1.

At the meeting of the Transcontinental Passenger association to be held at San Antonio, on January 20, an effort will be made to have the rate canceled.

It appears that some of the connections of the Southern Pacific joined with it in its notice under protest and while deeply impressed with the opinion that the action was foolish in the extreme at this time.

Regular California travel is extremely heavy at this time and it is certain it will continue so all through February. The fact is, the direct California lines are taxed to the utmost to provide equipment enough to take care of it. The trains are now running under great disadvantage, owing to severity of the weather and the shortness of coal supplies. There is a very large movement of military to San Francisco to be taken care of. Some 7,000 troops are to be moved there shortly. The price at which they will be carried will be regulated to some extent by this new colonist rate. When this same rate was in effect in October the Pullman company was unable to furnish enough tourist cars to take care of it properly and there is likely to be an exaggerated extent a repetition of the conditions which then existed.

Under these circumstances it is considered extremely injudicious to bunch a great volume of additional colonist business on the lines when the regular business is at its height.

The crowned heads of every nation. The rich men, poor men and misers All join in paying tribute to De Witt's Little Early Risers. H. Williams, San Antonio, Texas, writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure constipation, biliousness, sick headache, torpid liver, jaundice, malaria and all other liver troubles. J. H. O'Reilly & Co. and B. H. Briggs & Co.

THE FIRST ENGINE.

The Santa Fe Central Has One at Torrance Shifting Material for Construction.

The first locomotive of the Santa Fe Central railway arrived at Torrance Wednesday afternoon, 4 o'clock. J. W. Records is the engineer and John Carlisle the fireman. The engine was put into service at once and is shifting to the Santa Fe Central yards and sidings the material for construction as it arrives at that point. The laying of rails thus far has been confined to the Torrance yards, but will now be pushed over the plains.

Get a free sample of Chamberlain's Stomach and Liver Tablets at all drug stores. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25 cents per box.

GRANT AN INCREASE.

Santa Fe to Pay Coast Line Yardmen More Wages.

It is announced that the Santa Fe has acceded to the demands of employees and that the western yardmen will be placed on the Chicago standard, says a Los Angeles dispatch. This increase amounts to 12 and 14 per cent. The yardmen affected extend to every point on the system west of Albuquerque.

Arthur G. Wells, general manager of the Pacific coast division, returned from Chicago, where he had consulted with officials over the demand of engineers and firemen for increased pay. The yardmen are now satisfied. There remains only the conductors and trainmen with whom to deal. Their grievance committee held a short session with Mr. Wells, but no conclusion was reached.

While the first effort failed of agreement the men and Wells met again yesterday and it is mooted that an adjustment will be reached. The increase asked is about 20 per cent. This advance is a surprise, as the men did not expect they would be segregated from other members of the Order of Railroad Trainmen.

CHANGE IN RULES.

Southern Road to Examine Employees and Retain Only Those Who Pass.

A new book of rules and regulations has been issued by the Colorado & Southern railway, affecting the operating department.

Examinations are to be held, and after March 1 these rules will be in effect, and only such employees as have successfully passed these examinations will be retained.

W. H. Forman, has been appointed to hold classes for the men, and explain to them the new systems. Mr. Forman was instrumental in drafting and compiling the code. Car No. 8 is set aside in the Denver yards for these classes.

The object of the change is to make the regulations governing this department conform as nearly as possible to those of other roads, thus establishing

A DOCTOR'S BANQUET.

Five Hundred Friends as Guests.

When Dr. N. S. Davis, dean emeritus of the Northwestern University, reached his 80th birthday the event was celebrated with a banquet at the Auditorium hotel, with 500 invited guests. As most of his long life has been spent studying health, Dr. Davis is on authority on the subject. In one of his recently published articles he says:

"The almost constant sense of weariness impels many workers to resort to the use of strong tea and coffee, the stimulants in which appear to offer relief for from one to two hours, but which only add to their ultimate misery by impairing digestion and causing restless sleep at night."

"This is the truth in a nut shell," writes a young lady authoress of Wheaton, Ill., "and it decided me to begin using Postum Food Coffee in place of tea and coffee. I had suffered from impaired digestion and wakeful nights, was tired all the time and my brain refused to respond to the demand made upon it by my profession. 'Almost from the first I felt benefited by Postum and I am now 100 per cent better, brain clearer, digestion never better, weight increased twenty-seven pounds, sleep soundly all night and wake refreshed in mind and body. 'My improvement has been so very great that at least twenty of my acquaintances have adopted Postum.' Name given by Postum Co., Battle Creek, Mich.

There is sure relief from stomach and bowel diseases and weak heart when caused by coffee if coffee is left off and Postum adopted.

a uniform system of signals and operative methods.

The new system includes the standard code of the American Railway association and is in all important points the same as that adopted by the Denver & Rio Grande a year ago. Green is to be used instead of white, as heretofore, in semaphores and signals, and many other important changes are made.

Headache absolutely and permanently cured by using Moki Tea, a pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back 25c and 50c. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample. J. H. O'Reilly & Co. and B. H. Briggs & Co.

PENSION PLAN.

Officers Retire at Seventy and Train and Trackmen at Sixty-five.

The Oregon Short Line Railroad company has completed its plan for a pension system of its employees. All officers and employees who have reached the age of 70 shall be retired. Locomotive engineers and firemen, conductors, flagmen, brakemen, train baggagemen, yardmasters, switchmen, bridge foremen, section foremen and supervisors who have attained the age of 65 may be retired.

Employees who have become incapacitated may be retired after reaching the age of 61. The pension plan applies to all who have been twenty years in the service.

The pension allowances are: For each year of service 1 per cent of the average monthly pay received for the ten years preceding retirement. Thus, if an employee had been in the service forty years and his average wages for the last ten years was \$75 a month, his pension allowance would be 40 per cent of \$75, or \$30 a month.

One Hundred Dollars a Box.

is the value H. A. Tisdale, Summerton, S. C., places on De Witt's Witch Hazel Salve. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except De Witt's Witch Hazel Salve. It cured me." It is a combination of the healing properties of Witch Hazel with antiseptics and emollients; relieves and permanently cures blind, bleeding itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Nearly a Killing.

The Chloride flyer had a close call to making a killing a few mornings ago, says the Kingman Miner.

It was leaving town slowly and when the first bridge below town came in sight Engineer Leutinger saw a man sitting on the ties outside the rails on the bridge. He applied the emergency, but struck the man and knocked him down the grade. The fellow was very drunk and scarcely realized that he had been struck by the train. As the train came to a standstill the men got off to see if the man was injured, but the fellow said that he was all right and indignantly told them that they had no right to stop the train on his account. The trainmen felt like administering a few hurried kicks to the sot, but were too much relieved to find that he was unhurt to feel angry with him.

All druggists guarantee every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of its contents. This is the best remedy in the world for influenza, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia. All druggists.

EXPRESS COMPANY MERGER.

Wells-Fargo and Pacific Express Companies May Affiliate.

A dispatch says that either a merger of the Wells-Fargo and Pacific express companies or the closest kind of an alliance between them is shown by orders which have been received by agents of both companies all over the country.

The Pacific express is controlled by the Gould system. Until last November there was a close traffic alliance between the Pacific and United States express companies. They worked with each other against all other companies.

Now the Wells-Fargo and Pacific companies have instructed their agents not to give any other company any business which can be handled by either the Wells-Fargo or Pacific company.

It is the belief of western attaches of the Wells-Fargo company that its absorption of the Pacific company will soon be announced, and that the Gould interest will appear in the directorate of the Wells-Fargo company.

LAS VEGAS.

From the Optic.

Little Teodorita Venavides, 3-year-old daughter of Jesus Ma. Venavides, died of diphtheria on the west side.

Mrs. Samuel Spies, sister-in-law of District Attorney Charles A. Spies, passed through for California on a visit to his sister.

Yesterday the First National bank re-elected its entire board of directors and officers, who are: Jefferson Reynolds, president; A. B. Smith, vice president; E. D. Reynolds, cashier; Hallett Reynolds, assistant cashier.

Mine Expert A. J. Brooks left for Mexico on important business for eastern and local capitalists. Mr. Brooks is uncertain as to the length of his stay in the sister republic, but it will probably take several months to complete the work outlined.

Revolver in hand, Mrs. R. Tolle, wife

of a railroad man residing on Tilden avenue, coolly commanded two would-be housebreakers from her door, the other evening. They represented themselves as minions of the law with a warrant for a party named West.

The surveyors for the Colorado Telephone and Telegraph company have completed the survey of the long distance line from Denver to Las Vegas and returned to the former city yesterday. It is thought the line will have been completed and in operation within two months.

Thomas Swain, of Iowa, and Miss Anna Nolan were married by Rev. Father H. C. Fouget. The happy couple were attended on the floor by James Nolan and Miss Mollie Kennedy. Little Miss Nolan is custodian of the wedding ring. The newly wedded left for their Iowa home on this afternoon's train.

From the Record.

Mrs. Lucille Robinson, sister of Mrs. A. A. Jones, is reported as being very ill in Lexington, Mo.

Ralph Quinly, the little son of A. R. Quinly, who is down with an attack of diphtheria, is reported as doing nicely, having passed the danger point.

Mrs. B. Danziger received word that her daughter, Mrs. Nestor Hoffman had given birth to a girl baby Saturday, at Mayersville, Miss. Mrs. Hoffman was formerly Miss Julia Danziger, of this city.

The suit of Mrs. Anna C. Hutchison against Mrs. Eva J. Waddingham, in which the plaintiff seeks to recover possession of the New Optic hotel, and some \$300 back rent, occupied the attention of Judge H. S. Wooster.

E. C. Mercer, brother of Winnie D. Mercer, the base ball pitcher, who was asphyxiated in his room at San Francisco, as reported in the press report, left on the flyer for his home at East Liverpool, Ohio, to attend the last sad rites of his brother.

Las Vegas commandery, No. 2, Knights Templar, installed officers as follows: John S. Clark, eminent commander; C. D. Boucher, generalissimo; G. A. Rothgeb, captain general; George T. Gould, prelate. Two officers-elect were not present, and others having been elected to succeed themselves did not need to be installed.

Robt. L. M. Ross successfully effected the refunding of the outstanding 6 per cent bonds of school districts Nos. 1 and 4 (Las Vegas) into 5 per cent bonds, thus saving the former district \$120 and the latter \$142.50 per annum, for the next twenty years. While conducting the negotiations preliminary to carrying out the funding of the school district bonds, Mr. Ross made a proposition to the city council to effect the refunding of the \$15,000 of 7 per cent outstanding bonds which had been issued in 1891, in to 5 per cent refunding bonds. If his offer had been accepted the city of Las Vegas would have been the gainer by \$300 per annum, or a total of \$6,000 in twenty years, as the new bonds would have run that length of time before again becoming redeemable.

The Secret of Long Life.

Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate stomach, liver and kidneys, purify the blood, and give a splendid appetite. They work wonders in curing kidney troubles, female complaints, nervous diseases, constipation, dyspepsia and malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by all druggists.

Orders taken for every known make of stoves and ranges.—Albuquerque Hardware company.

No tuberculosis preservative or coloring in Matthews' Jersey milk.

We make the best door and window screens. They are far superior to any made in the east at the same price.—Albuquerque Planing Mill company, A. T. Telephone No. 463.

Let us figure on your plumbing.—Albuquerque Hardware company.

NOTHING EQUAL TO IT HAS EVER BEEN KNOWN IN THE HISTORY OF DRY GOODS SELLING IN THIS CITY.

Mail Order, if Sent in Promptly, Will be Filled to the Best of our Ability

THE OLD YEAR with all its happiness and sadness, its fulfilments and disappointments, its gains and its losses, is gone.

THE NEW YEAR fraught with limitless possibilities, hopes and ambitions, is here.

May your coming year make your possibilities actual facts; may your hopes and ambitions be realized; may wealth and happiness be yours.

NO BETTER WAY

to obtain these blessings can be suggested than by the purchase of one of the WASHINGTON LIFE INSURANCE COMPANY'S combination bond policies.

It will secure you a competency in your old age.

It will perpetuate your fortune when you die.

It will be an asset in your business during its term.

It has a specified cash loan value at 5 per cent interest after the second year which will protect your bond from lapse and you from loss.

Many men give from 5 to 30 years of their lives to the service of their country to be retired on a pension. You can buy a 10, 15 or 20-year payment combination bond, never miss the annual deposit required and CREATE YOUR OWN PENSION.

SECOND-HAND FOOD BARRED.

Leavings of Rich Men's Banquets
Must Not Be Eaten by the
Poor of Paris.

"What is one man's meat is another's poison" is a proverb just now borne out in literal fact by the police raid upon the remains of Paris, reports a London paper.

The remains are the keepers of small restaurants at the market, whose supplies are provided from the broken remains of repasts at different fashionable restaurants.

The proprietor takes each morning a tour of the fashionable quarters and by paying a small amount to different maitres d'hotel he has the privilege of selecting a menu for his house from what is left of a well dinner the day before. This he serves up to his customers for two cents and the latter have the privilege of eating what the aristocrats had set before them.

The elegance of the courses, however, is outweighed by their unwholesome effects. So many maladies are laid at the door of these second-hand feasts that the police have undertaken to protect the public stomach from possible indiscretions. The remains will soon be a picturesque feature of the past, for as their licenses expire they will fade from existence.

MODERN SURGERY.

Everything Depends Upon the Cleanliness and Exclusiveness of the Operation.

Your modern surgeon of note is a "sterile" man. The operating room, almost hermetically sealed and at a temperature of 100 degrees or thereabouts, is purified daily by means of a hose throwing a solution of bicarbonate of mercury over ceiling, walls and floors. The surgeon arrives in an anteroom in his civilian's garb. He is required to be clean shaven, like a monk, says the New York Press. His clothes are removed. Two attendants in the sterilizing room hand him a white duck gown reaching from collar to heel, and a cowl of the same material, which covers tightly every part of his head except eyes, nose and mouth. The sleeves of the gown reach to his elbow. He incises his hands in the thinnest, finest sterilized rubber gloves. These garments are handed to him in sterilized tongs. There has been no human contact. Thus equipped, he is prepared to save and slice.

ENJOYS LIFE IN WAVES.

How Holbein, the Great Swimmer, Is Oiled, Fed and Equipped While Afloat.

By way of preliminary to his swim across the channel, Holbein essayed recently to lower the record created by ill-fated Capt. Webb for the swim between Dover and Ramsgate, a distance of 20 miles if a direct course could be followed, but probably not less than five and twenty allowing for the deviation caused by contrary tides and currents.

The swimmer failed by some four miles, the bad weather and the racing tide against him making any attempt to reach Ramsgate futile. He refused, however, to leave the water until he had swam back to Deal, and so completed the exact distance between the coasts of England and France. Had the conditions remained favorable there is no doubt that he would have beaten the existing time of 8 1/4 hours by over 2 1/2 hours.

Profiting by the experience gained last year, when his plucky attempt to swim the channel came so near accomplishment, Mr. Holbein is well rubbed with oil before entering the water, and, to obviate injury to his eyes from the salt, wears a mask of American sticking plaster, with glass goggles. His physique and power of endurance are little short of wonderful, and his only fear is the arising of a sudden storm. For sustenance he relies mainly on liquid beef essence, varied by an occasional sandwich, supplied to him by his companions in the accompanying boat.

NAPOLEON'S MAGIC TABLE.

Wonderful Piece of Furniture Which Was the Pride of the French Emperor.

Napoleon's magic table is one of the greatest curiosities from the time of the great emperor, who had it in his study at the castle of St. Cloud. After the death of Napoleon it was bought in London by Baron Rehausen, Swedish ambassador to the court of St. James at that time. It is now owned through inheritance by one of the foremost families of the Swedish nobility, says the Strand Magazine. Inside the drawer of the table is pasted an old slip on which is printed a description, which in modernized English reads as follows: "The Emperor Napoleon was highly delighted with this extraordinary work of art. It formed the surface of one of the tables in his study, and was always shown to all foreigners of distinction who visited the imperial court. It is a painting whose resemblance to what it represents is the most elusive ever produced by the genius of man. One may look at this strange production of art in different lights—the pieces of money, the fragments of broken glass, the pen-knife, water and cards retain an equally elusive appearance as the observer moves round the table—but it requires a very minute examination to discover all the truly magical wonders it possesses." In these times, when relics of Napoleon I. are eagerly sought for, the present whereabouts of this masterpiece should certainly interest all connoisseurs.

Subscribe for the Daily Citizen.

Ayer's Sarsaparilla

Purifies the blood, gives strength to the nerves, and brings color to the cheeks. Ayer's Pills regulate the bowels, cure constipation and biliousness, and aid the digestion. Two grand family medicines. Sold for 60 years.

Medical examiners for life insurance societies have added the term "coffee heart" to their regular classification of the functional derangements of that organ. Its effect is in shortening the long beat of the heart. Coffee tapers, they say, are plentiful, and are as much tied to their cups as the whisky toper. The effect of the coffee upon the heart is more lasting, and consequently worse, than that of liquor.

Finds Way To Live Long.

The startling announcement of a discovery that will surely lengthen life is made by editor O. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for consumption is the most infallible remedy that I have ever known for coughs, colds and grip. It's invaluable to people with weak lungs. Having this wonderful medicine no one need dread pneumonia or consumption. It's relief is instant and cure certain." All druggists guarantee every 50c and \$1.00 bottle, and give trial bottles free.

Death Caused by Mosquito.

Mosquitoes are now charged with communicating erysipelas as well as malaria and yellow fever. A New York physician has issued a death certificate in the case of a 14 months' old babe, in which he says "Death was caused by erysipelas due to the bite of a mosquito." It is only fair to the mosquito to record that the board of health officers refused to accept the certificate until a coroner's physician had investigated and concluded that there was no other apparent cause for the death than the mosquito bite.—Youth's Companion.

Best Liniment On Earth.

Henry D. Baldwin, Supt. City Water Works, Shullsburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and \$1.00 a bottle at Cosmopolitan Pharmacy—B. Ruppe.

A Political Definition.

"What's harmony?" asked the politician's little boy. "Harmony," answered his father, "is what the faction of a party that's getting the worst of it yells for loudest."

Unconscious From Croup.

During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly this child was resting easy and speedily recovered. It cures coughs, colds, lagrippe, and all throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

UNIQUE HOTEL RULES.

Regulations for the Guidance of Guests Which Should Be Satisfying to Anyone.

Following are the rules and regulations posted in the European hotel in Bloomington, Ill.: Board, 50 cents per square foot; meals, extra; breakfast at 6, supper at 7.

Guests are requested not to speak to the dumbwaiter; guests wishing to get up without being called can have self-rising flour for lunch.

Not responsible for diamonds, bicycles and other valuables kept on the counter; they should be kept under the safe.

The office is convenient to all connections; horses to hire, 35 cents a day.

Guests wishing to do a little driving will find hammer and nails in the closet.

If the room gets too warm open the window and see the fire escape.

If you are fond of athletics and like good jumping, lift the mattress and see the bed spring.

Basinists desiring a little practice will find a pitcher on the stand.

If the lights go out, take a soda—that is light enough for any man.

Any one troubled with nightmare will find a halter in the barn.

Don't worry about paying your bill; the house is supported by its foundation.

THE SURE WAY

to prevent pneumonia and consumption is to cure your cold when it first appears. Acker's English Remedy will stop the cough in a night, and drive the cold out of your system. Always a quick and sure cure for asthma, bronchitis and all throat and lung troubles. If it does not satisfy you the druggist will refund your money. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co. and B. H. Briggs & Co.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected. S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

STAGE TALK.

The Dramatic Editor of The Citizen
Gives His Views.

CHARACTERS TAKEN BY PLAYERS.

To the average theater goer the scene, plot and actors represent a reality, the living of another life. The various and different traits of human character are shown, giving the audience a view of their own weaknesses and failings.

Many plays represent the dark and light shades of human existence to such an extent that the audience forget their surroundings and ways of living and live in an environment full of excitement and fascination. Their attention and sentiments are so absorbed in the successes and hardships of the actors that it seems to them a reality. The pathos of a scene may move them to tears, then in an instant some witty remark, though the scene be very impressive and pathetic, will cause a smile to hover around the lips, or even a laugh of amusement.

But to watch a play from behind the scenes spoils the reality and fascination of human character. The acting appears naked and its defects can readily be seen. The strong character loses strength and the acting is laid open. Yet the performance behind the scenes is a most attractive and interesting scene. The rapidity and skill with which the actors make up into characters is remarkable. A noted change can be seen in their bearing and countenances as they step from between the stage to the flies in full view of the audience. In their schooling they learn to adapt themselves to any character and situation.

Some actors are best fitted for a humorous character, others for a strong character, requiring dramatic poses in scenes of striking and imposing climaxes. Each in time discover what character is best adopted to their natures.

The press, pulpit and stage are recognized as the three greatest universal educators of the age. It is useless to comment or even remark of the prominent positions the first two named institutions occupy in the minds of the intelligent. But the stage, an institution whose usefulness and position as a universal educator has never been fully recognized, stands on a level with the press and pulpit, when it comes to impressing morals and lessons of high merit in the minds and lives of the public.

This statement is recognized as a truth by broadminded men and women

Diabetes and Bright's Disease.

Interview With Edward Short
of the San Francisco Call.

Mr. Edward Short, connected with the business department of the San Francisco Call, interviewed:

Q—You are reported to have been cured of diabetes?

A—That is right.

Q—Are you sure it was diabetes?

A—I was rejected for insurance, and later falling rapidly, our physician told me I had diabetes and to put my affairs in shape.

Q—Have more than one physician?

A—Yes I had another confirm it. He, too, said I could not live long. I had dropped from 200 to 135 pounds and was very weak. A neighbor told me of the Fulton Compound.

Q—How long did you have to take it?

A—About a year before I was perfectly well.

Q—Did your physicians then test for sugar?

A—Both did. Both reported normal. They were very greatly surprised at my recovery, for they had told me diabetes was incurable.

Q—Know of any other cures?

A—Several. I told my friend, William Martin, an S. P. conductor of Stockton, about it. He had diabetes, and was about to give up his position when I told him. He got the same results I did, and was well when killed a year or so later.

Q—Any others?

A—I told William Hawkins of the Custom House and Captain Hubbard of the barkentine S. V. Castle, upon hearing they had diabetes. Both of them were cured. I also told a neighbor who had dropsy. In a month it was eliminated. I can't recollect all I've told.

Q—Did it fall in any case?

A—Not one. It is a positive cure in Bright's Disease and Diabetes. Go over and see Hawkins and he will tell you the same thing.

Medical works agree that Bright's Disease and Diabetes are incurable, but 87 per cent. are positively recovering under the Fulton Compound. (Common forms of kidney complaints offer but short resistance.) Price, \$1 for the Fulton Compound, and \$1.50 for the Diabetes Compound. John J. Fulton Co., 420 Montgomery Street, San Francisco, sole compounders. Free tests made for patients. Descriptive pamphlet mailed free.

J. H. O'Reilly & Co., Sole Agents, Albuquerque.

Bring in your tinware and have it repaired.—Albuquerque Hardware company

who understand human nature, but there are many who will condemn the stage as an unworthy and demoralizing institution as long as they live.

To some an actor has no right to mingle with people of high morals and right living; to be an actor means an undesirable character and a bad reputation. True, there are bad actors in the profession as well as there are depraved characters in all lines and walks of life. But people seem to lose sight of the fact that to be an actor one must be above the average intelligence. A special education is required to furnish amusement and entertainment for the eager and demanding public.

Many an actress has been the victim of unjust criticism, but a young lady may be an actress and live as clean and pure a life as any young lady. It is a most admirable sight to see an ambitious young lady earning her living by an occupation that requires strength of character, self possession, self assurance and an education that would be the envy of any young lady. But the stage is advancing in the public minds as an institution that should receive the hearty support of the appreciative public whose principals are not regulated by prejudice.

Rare and Valuable Gifts for Normal.
Through the kindness of Prof. T. D. A. Cockerell, the Las Vegas Record learns that the Normal university has received a fine collection of land, fresh water and marine shells from H. L. Viereck, of Philadelphia, who was in Las Vegas for a short time last summer and took part in an expedition to the top of the Las Vegas range. The shells have been mounted on cards and are to be seen in the hall of the Normal near the president's office.

The Normal university has also received a very valuable collection of microscopic plants called mycetozoa, presented by Professor Sturgis, who was at the Montezuma hotel in the spring, and visited the Normal two or three times. This collection is exhibited in the same case as the shells. Professor Sturgis is an authority on the mycetozoa.

The biological department of the Normal has received a new lac producing insect, collected by Mr. Mariatt, of the United States department of agriculture in Sava. It has been described as a new species.

Simple Colds.

Cease to be simple, if at all prolonged. The safest way is to put them aside at the very beginning. Ballard's Horehound Syrup stops a cold and removes the cause of colds. 25c, 50c, \$1.00 a bottle at Cosmopolitan Pharmacy—B. Rupp.

SANTA FE.

From the New Mexican.

Forest McKinley, special agent of the United States land office, is here from Las Cruces on official business.

Col. R. E. Twitchell, assistant attorney of the Santa Fe railway for New Mexico, is in town from the Meadow City.

F. O. Blood, postmaster at East Las Vegas, arrived last night. He is in the capital looking after some business matters.

Rev. J. L. Gay is confined to his home from severe burns on the back. He was suffering from a cold and a few days ago a hot water bottle was placed against his back. The bottle leaked and Mr. Gay was badly scalded by the escaping hot water.

A new copverter is being placed in the basement of the capitol by the Electric Light company, and the lights are all shut off during the change. For three nights the employees who have worked in the building have done so by the light of tallow candles and lanterns.

A number of Indians from Santa Clara are here purchasing supplies for the annual feast and dance in honor of the patron saint which will be held next Friday. The feast and dance this year will be unusually elaborate and more visiting Indians are expected than ordinarily attend.

Heads Should Never Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va., she writes: "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from two years." Cure headache, constipation, biliousness, etc at all druggists.

Bring in your tinware and have it repaired.—Albuquerque Hardware company

SCIENTIFIC MATTERS.

Some Notings of Interest to People of This Immediate Vicinity.

The entomological society of France has published a paper by Mr. Cockerell, of the Las Vegas normal, describing a new insect which attacks the oil-palm in French Guinea, West Africa, says the Optic.

J. C. Crawford, of Lincoln, Neb., has described a new species of wild bee which was collected in Las Vegas last year by Miss Pearl Hitchcock, a student of the Normal. The description appears in the "Canadian Entomologist."

Myron Benedict, a student of the Normal, found a fossil prairie dog near Las Vegas. It was thought that it would prove to be a new variety, but it has been compared with specimens in Washington, and is undoubtedly the same as Gunnison's prairie dog, common in some parts of Colorado.

A collection of scale insects from the Cameroons, West Africa, has been sent to the biological department of the Normal by the Stockholm, Sweden, museum, for identification.

The Academy of Natural Sciences of Philadelphia has lately published a paper by Miss Ada Springer, on some recent and fossil shells found at Las Vegas.

The Normal has just received a very valuable collection of shells, the gift of H. L. Viereck, of Philadelphia. The shells are exhibited in a case in the hall.

The sophomore class of the Normal yesterday made an excursion to the clay beds of Arroyo Pecos, and collected specimens of the fossil plant named Chara Springerae by Mr. Knowlton, of the National museum. Henry Springer also succeeded in finding some fossil willow leaves in a fair state of preservation.

COMPETENT JUDGES.

Beauty Doctors Endorse Herpicide.

Women who make a business of beautifying other women come pretty near knowing what will bring about the best results. Here are letters from two concerning Herpicide:

"I can recommend Newbro's 'Herpicide,' as it stopped my hair from falling out; and, as a dressing it has no superior."

—(Signed) "BERTHA A. TRULLINGER."

"Complexion Specialist."

"201 1/2 Morrison street, Portland, Oregon."

"After using one bottle of 'Herpicide' my hair has stopped falling out, and my scalp is entirely free from dandruff."

—(Signed) "GRACE DODGE,"

"Beauty Doctor,"

"195 Sixth street, Portland, Oregon."

"Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents."

THOS. McMILLAN,

City Marshal.

MONUMENTS.

All kinds of stone and marble work. Prices moderate. Shop and yard corner Fifth street and Railroad avenue. H. Q. MAURINO.

KODOL
Digests What You Eat.
Weak Hearts
Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time delicate but vital organs become diseased.

Kodol
Digests What You Eat
Mrs. Loring Nichols of Penn Yan, N. Y., writes: "After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured."
Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammelled action.
Bottles only. \$1.00 Size holding 2 1/2 times the trial size, which sells for 50c

PREPARED BY
E. C. DeWitt & Co.
Chicago

J. H. O'Reilly & Co. and B. H. Briggs & Co.

A Fifty Foot Calendar.

N. W. Ayer & Son, the Philadelphia advertising agents, who have a national reputation for keeping "everlastingly at it," believe in sticking to a good thing when they have one. For instance, their calendar for 1903 follows the design used for several years past, but with new coloring. And in truth it would be hard to improve upon their design; the dates are plainly readable at fifty feet, yet the calendar is not unpleasantly conspicuous; it is artistic, simple and useful and it is not surprising that it has become so popular an adjunct to business offices that the supply never equals the demand.

While they last, one will be mailed to any address for 25 cents, which barely covers cost and postage.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Just received, another car of furniture direct from the factories and bought at jobbers' prices, the following goods: 53 dozen assorted chairs 75c and up; 50 bed springs, assorted; 5 dozen assorted center tables, from 90c and up; 6 folding beds \$12.50 and up; 34 assorted dressers from \$10 to \$56; iron beds, couches and various other goods to make out car. Our prices are right.—Futrelle Furniture Co., west end viaduct.

Subscribe for the Citizen.

Mrs. Bambini, at her parlors, No. 105 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, de hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder, which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and pimple cure, and pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 430.

MID-WINTER CARNIVAL.

El Paso, Tex., Jan. 13 to 17, 1903.

For the above occasion tickets will be sold via the Santa Fe, January 12 to 17 inclusive, limited for return January 19, at \$10.00 for the round trip.
P. L. MYERS, Agent.

DEMING.

A Few Pointers About a Good Town in Southern New Mexico.

Keep your eye on Deming. Deming has just been incorporated. Deming, the coming city of New Mexico.

Deming has a magnificent school system.

Deming, the railroad center of New Mexico.

Deming, the gateway to the best part of Old Mexico.

Deming! Don't overlook it if you are looking for a safe and paying investment.

Deming, the seat of the new county of Luna.

Deming is the great mining center of the southwest.

Deming water is chemically pure—equal to Polan springs.

Deming has increased 50 per cent in population in four years.

Deming water and pure ozone make strong and healthy people.

Investments in Deming lots will double and treble in one year.

Deming has now a large ice plant and electric light system under contract.

In Deming the demand for rental houses is five times in excess of the supply.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

Buy lots and build in Deming. Your rental returns will be 20 per cent on the investment.

In Deming good safe loans can be had at better rates than in the old established towns.

At Deming you can buy lots at \$100 which will pay you 100 per cent in less than twelve months.

In Deming another good hotel is needed to accommodate the enormous increase of population.

Deming is a great health resort—has no superior in climate for the cure of pulmonary troubles.

Deming will be the great smelter center. Two large plants will be installed within the year.

Why buy high priced lots when you can get them in Deming cheap now, with certain advance assured?

Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds.

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattlemen all know this.

COMING EVENTS.

Thursday Evenings—Dance at Odd Fellows' hall given by Mrs. D. Frank Fillmore.

Thursday evenings—Dance at Grant hall given by Mrs. Rosa Berry.

January 13-17—Midwinter carnival at El Paso.

January 19—First annual ball of the Brotherhood of Railroad Trainmen at Colombo hall.

Local Happenings

The Santa Fe Pacific checks arrived today on passenger train No. 2.

Montague Stevens, the Socorro county cattleman, is in the city today.

Dr. Wolvin made a short trip to the carnival at El Paso, returning this morning.

Miss Frances Butts is visiting in El Paso, the guest of her aunt, Mrs. Otto Arnold.

F. A. Fletcher, representing the Wilson Bros. of Chicago, is in the city calling on his trade.

I. Freudenberg was down from Bernadillo last night. He returned home today on delayed passenger train No. 2.

Architect Charles F. Whittlesy completed his visit at the El Paso carnival and returned to Albuquerque this morning.

The Harvey museum has been fitted with a fine black oak cabinet, which will be used for displaying valuables and curios.

Word comes from Denver that A. W. Clelland, Sr., father of the Albuquerque owner of valuable real estate, is lying at the point of death.

Charles F. Spader, the general merchant at the Indian village of Jemez, is in the city today purchasing goods from local wholesale merchants.

The Las Vegas Record says: Herbert D. Romero has gone down to Albuquerque, presumably to accept a position in the probate clerk's office.

Prof. U. Francis Duff, of Deming, well known here, in the last number of "Out West," has an interesting sketch under the title "The Water Tank."

R. L. Hobart, of Toledo, Ohio, is a recent visitor in the city. Mr. Hobart is thinking of locating in Albuquerque if he finds the conditions favorable.

Manager H. S. Stevens, of the Harvey News system at Albuquerque, accompanied by his wife, returned from the midwinter carnival at El Paso this morning.

R. A. Davis, who, with his wife, spent several weeks in the city last fall, died at Phoenix the fore part of the week. His body has been shipped to Chicago for burial.

Mrs. H. E. Wright, wife of Dr. Wright, the well known surgeon of Sacramento, left last night for her home. She was returning from a visit to the City of Mexico.

This evening the Estrella Literary society of the University will give the first program of the year at the rooms of the school of music. The friends of the University are invited.

Rev. W. A. Cooper, of Santa Fe, came in last night and continued on to Mesilla Park to attend a meeting of the board of regents of the College of Agriculture and Mechanic Arts.

The Mutual Protective society of Old Albuquerque will give a dance tomorrow evening at their hall at the west end of the street car line. A pleasant time is expected and the orchestra will be extra good.

L. A. Grout, who was here the past few days, will leave tonight for Arizona, to look over some railroad building contracts now under headway. From Arizona, he will continue on to his headquarters and home in Los Angeles.

J. F. Hunkie, member of the territorial board of equalization from the Fifth judicial district, who was in Santa Fe several days in attendance on the meetings of the board, passed through the city last night for his home at Roswell.

The report that Col. J. L. Morris is quite sick was somewhat exaggerated. The colonel has not been in good health since his attack of pneumonia last fall, and these cold windy days kept him confined to his room. The colonel's absence from the streets caused the report to be circulated that he was seriously ill.

Charles Hess and wife passed through the city last night, going to San Marcial to visit with friends. Mr. Hess is a Santa Fe conductor, with headquarters at Wichita, Kas. Previous to going to Wichita Mr. Hess lived at San Marcial and ran a train on the Rio Grande division. They have been visiting in California the past few weeks.
